

God of Life 1631

Chapter 1631: Imitation of an ancient bronze clock

Di Yi's palm once again blasted with all his strength, and the third ancient bronze bell blasted, producing layers of counter-shock force.

This counter-shock power is like rippling ripples, sending the emperor to life!

The pattern on the ancient bronze clock lit up, but only the pattern was less than 8% brighter.

As soon as the emperor was shocked to vomit blood, his body flew out like a broken sandbag!

As soon as the emperor lay on the ground, his physical body was almost broken.

"I've already said that these ancient bronze clocks are stronger than one! It is the limit for you to ring the second ancient bronze clock!"

The princess said to the emperor expressionlessly.

She felt that Di Yi insisted that this was not a commendable spirit, but a stupidity under her own reminder!

The pale color on Di Yi's face gradually faded, and his physical body was quite solid in comparison.

He soon recovered his strength by adjusting his interest rate.

Then, the emperor looked at the third ancient bronze clock, and in his eyes, blood-red lines gradually spread out.

The emperor staggered towards the third ancient bronze clock step by step, and every step he fell left a trace of the ancient formation!

"Oops, this emperor's seal on the heart demon has been broken a bit, and his heart demon has attacked. If he is not stopped, he will probably fall into the state of the heart demon and cannot extricate himself!"

Fang Yue's expression changed, and he saw the clues of Di Yi.

However, he didn't stop it, because it wasn't that outsiders could help him.

A scene of a dead mountain and a sea of blood emerged behind Di Yi.

That is the scene of another country breaking down and reappearing in the world!

The emperor raised his fist repeatedly, and the whole world seemed to scream in his fist!

The fist dropped and fell on the third bronze ancient bell. The bell rang sharply and circled in this bronze temple.

Di Yi's fist revealed a sense of indomitable killing.

On the top of the ancient bronze clock, the formations circled and dazzled.

One-third of the array patterns in this ancient bronze clock are all lit up.

The face of the princess was surprised!

"This little guy has actually been suppressed. Now that the seal is broken, his talent and potential have only truly been revealed. If I expected it, he should have even the fourth or even fifth bronze ancient clock. It can sound! This time I really underestimated his potential and strength!"

The princess said to herself, her voice was filled with infinite surprise.

The anxiety on Fang Yue's face has never disappeared. If this emperor loses himself and is trapped by the demons, then his chances are meaningless!

"Di yi!"

Fang Yue called out softly, and Di Yi turned his head with Fang Yue's voice. When he saw Fang Yue, the red light in his eyes dimmed slightly.

"Fang Yue, rest assured, I'm fine! My vengeance has not yet been reported, how can I completely fall into the demon! I want to conquer this state of demons and use it for me! Those who will kill my people and kill my relatives and friends will eventually Will die miserably by my men!"

There is a hint of indifference in Di Yi's voice, but behind the indifference is a fiery hatred!

Fang Yue was slightly relieved.

And Di Yi did not continue to challenge the ancient bronze clock behind. He just took a deep look at the ancient bronze clock with one after another, and then returned to Fang Yue's side and said softly: "I just mastered the control of the demons. The method is not proficient. It can only be awake for a short period of time in the state of the heart demon. If I continue to be immersed in the state of the heart demon, I will probably be truly controlled by the heart demon, and lose myself and become a murderer. machine!"

Di Yi's voice fell, and he returned to the state where his indifference eyes were suppressed by the seeds of darkness and sealed the heart demon!

"Dark seed, seal the heart demon, control the heart demon! This Emperor Yi is really interesting, although he did not challenge the subsequent bronze ancient bell, but he has been able to ring the third bronze ancient bell to indicate that he has already Qualified for the trial of the Bronze Temple!"

The eldest princess spoke, granting the qualification to the Emperor Yi Bronze Temple.

"Then let me come!"

Sima Xiao came on the second stage. He walked to the second bronze ancient bell, knocked it, and he didn't look like he was coming to challenge the ancient bronze bell.

"Sima laughs, what are you doing?"

Sima smiled without speaking, then punched the ancient bronze bell with a punch.

A phantom of Xuanwu appeared behind him.

This Xuanwu is a true four-image sacred beast, this is the Xuanwu Scriptures, only the masters of the basaltic beasts or who have signed a contract with the basaltic beasts can practice!

The basaltic Scriptures cultivated by the basaltic beasts are also celestial scripture-level methods. A punch fell and the first ancient bronze bell was completely rang.

The voice in the ancient bronze bell slowly swayed.

Eighty percent of the patterns in the first bronze ancient clock are illuminated.

These patterns seem to contain the mysteries of heaven and earth, reflecting mountains, rivers, and stars in the universe.

For a time, it is colorful and becomes a world.

However, Sima Xiao's eyes suddenly lost his look and turned into a white board.

All the formation patterns are branded in the depths of his eyes!

Sima Xiao also took out a small bronze clock from his storage bag.

A series of patterns have been branded and engraved.

The bronze bell is also full of mystery and chaos like this ancient bronze clock!

"This Sima Xiao is actually making an imitation of an ancient bronze clock!"

The princess went crazy seeing this scene.

She has been the messenger of this bronze temple for nearly a thousand years, and she has encountered many people who want to try out.

But to copy the pattern on this ancient bronze clock, Sima smiled!

"Eye of Yintian! This Sima Xiao has actually awakened this talent. A pair of eyes can reproduce everything in the world, whether it is an ancient formation pattern or an ancient talisman. As long as there is the eye of Yintian, only a glance back can change it. Become his thing!"

When Sima Chang saw Sima Xiao's Eye of Yintian, his heart was ecstatic, and his appreciation for Sima Xiao reached the extreme!

This pupil magical power is quite rare, but generally it is quite powerful as long as it is awakened!

The Eye of Yintian is one of the most highly ranked pupil magic powers listed in ancient books!

The big five elements, the eyes of Yintian, and the basal beast, this Sima Xiao has become the most talented disciple among all the disciples he has seen in the Sima family in Sima Chang's impression, none!

"It's a pity, my first ancient bronze clock is extremely powerful. Even with my cultivation method, I still can't make this first ancient bronze clock ring completely, and all the formation patterns appear! The carved small bronze ancient clock is only about 30-40% of the power of the genuine product!"

Sima laughed and said with some distress.

Then the eldest princess beside her was speechless for a while.

This re-engraving of the ancient bronze clock is already a very perverted method. The power of 30 to 40% of the re-engraving is very good. This Sima Xiao still wants to drop it. Is it because of this entire ancient bronze clock? Reproduce them all, and then make the tenth bronze ancient clock?

"I'll try!"

Fang Yue also felt quite interested when he saw that Sima Xiao had such a method.

Fang Yue took a step forward and walked in front of the first bronze ancient clock. He elbows, accumulates strength, and suddenly punches.

The torrent of avenues is surging!

The countless array patterns on the ancient bronze clock were all revived, and the dazzling light radiated from them, and even the people who illuminated them could not open their eyes.

The bells ringing in bursts, a piece of vitality snow fell. The heaven and earth aura contained in every piece of vitality snowflake is no less than a superb spiritual stone!

"Xianle Volley! This Fang Yue really lives up to my hopes!"

The princess was not surprised to see this scene. This Fang Yue was a disciple of Ruyizi. If he couldn't even do this, it would make her feel weird.

Sima Xiao also re-engraved all the formation patterns at the moment when all the formation patterns were illuminated, and then took out a small bronze clock.

All the patterns are re-engraved, and there seems to be a trace of innate spirituality in the small bronze bell, and it sounds spontaneously, which makes people feel peaceful!

"Sima laughs at you, this complete version of the re-enacted bronze ancient clock. However, your weapon materials are limited, and at most you can only display the strength of less than seven or eight tenths of the original!"

The eldest princess spoke, and she commented on Sima's smiling bronze bell.

This Sima Xiao is also considered a talented person, and he dared to do something, this bronze temple has no idea how many years it has been placed under this bronze mountain range, and some ancient forces in this mysterious yellow world know where this bronze temple is located. position.

In these endless years, at least tens of thousands of powerful men came to this bronze temple to seek opportunities, but he was the only one who could be as bold as Sima Xiao and wanted to re-engrave the ancient bronze clock!

"I know that it is good to have 70% or 80% of the power of the genuine product, and the material of my small bronze bell is not good. It is all the material of the Yin and Yang level magical artifacts. It can only be used as a taboo weapon. Although the power is It's big, but once it's used, there will be more cracks on the bronze bell! After using it seven or eight times, the bronze bell is completely broken and cannot be used again!"

Sima Xiao said with regret.

The casting material of this ancient bronze clock is chaotic **** gold, which is rare in the world. One or two chaotic **** gold can even buy hundreds of millions of people or some big stars with extremely rich resources and minerals!

Sima Xiao didn't have such precious materials in his hands. In fact, the only real local tyrant among the three was Fang Yue. Although the other two had extraordinary combat power and amazing physique, the more they practiced with this special physique. The resources consumed in the process are even more amazing.

Their consumption is ten times or a hundred times that of other practitioners in the same realm. Even if they are wealthy, they can't handle such consumption!

"It's also good to be able to temper a taboo!"

Fang Yue relieved Sima and said with a smile: "At least this thing can save a life at a critical moment and surprise the enemy!"

Chapter 1632: Fang Yue breaks through

When Sima Xiao heard Fang Yue's words, he couldn't help but feel relieved.

Afterwards, Fang Yue rang the bell, and he was responsible for re-engraving the formation pattern. The two cooperated with each other very tacitly, and they copied ten small bronze bells in a short time!

This scene made the eldest princess a little hard to watch. What are these two people here for?

Wouldn't you come to get places for the temple trial?

How dare you come to make a small bronze clock, and it's still in mass production!

The eldest princess coughed slightly: "You two have enough! This bronze temple is not where you two made small bronze bells!"

The princess said, Fang Yue and Sima Xiao stopped their movements.

Afterwards, Sima laughed and coughed, and walked to the second bronze ancient bell.

When Sima Xiao rang the ancient bronze bell again, it was obvious that there was a hint of negativity.

He hit a hit, and on top of the ancient bronze clock, layers of patterns lit up one after another, but these patterns only lit up by 50%.

The voice is clearer than before.

However, the princess frowned. She was obviously dissatisfied with Sima Xiao's performance. She could see that Sima Xiao did not exert her full strength. Otherwise, the number of ripples on the bronze bell should be more. .

"Sima laughed at you. What do you mean? Are you dissatisfied with my blocking you just now? This ancient bronze clock is all inherited from the ancients. The mystery in it is endless, but it is also contaminated with some weird atmosphere. You occasionally copy There is still no problem with one and two, but if the number of copies is too much, it may attract some unexpected things!"

Although the eldest princess had a severe voice, she still explained the reason she had stopped just now!

Sima laughed when he heard the words, and couldn't help being taken aback.

"There is such a thing?"

Sima laughed incredulously.

The eldest princess snorted coldly: "Maybe, do you think I will lie to you? This ancient bronze clock is a wonder of the world, not to be imitated, not to offend! Your behavior just now has been regarded as a kind of blasphemy, just a repetition The engraving is only the weakest of the nine ancient bronze bells, so I didn't stop it. If you dare to re-engrave this ninth ancient bronze bell, I promise you that you haven't engraved the pattern on it. Will be shaken to death by the ancient bronze clock!"

The princess snorted coldly, she is a typical knife mouth, tofu heart, according to common sense, she does not need to explain so much to Sima Xiao.

Sima Xiao clasped his fists slightly to express his gratitude to the princess.

"I don't need your thanks. I just said that now my identity is not the eldest princess of the First Dynasty, but the messenger of this bronze temple. Answering questions for you is also one of my accusations! But you I will do my best to ring an ancient bell."

The voice of the princess fell, Sima Xiao was already gathering strength again, his fist raised, and then suddenly crashed.

The phantom of a basalt beast slowly emerged behind it.

This is how he used all his strength to ring the second bronze ancient bell. The pattern in the bronze ancient bell lit up for sixty and a half times before it gradually went out!

The sound of the bell this time resonated with the world. This is the true strength of Sima Xiao.

The eldest princess looked at Sima with satisfaction and smiled: "You deserve to be a person valued by the basalt beast, this strength is really extraordinary! You can give it a go for this third ancient bronze clock. The test of the two ancient bronze clocks in front is just ordinary. This third ancient bronze clock is the real test and training!"

Sima laughed and heard the words, he took a deep breath, and once again gathered and exerted strength.

The fist struck the ancient bronze clock, and the third bronze ancient clock stood still!

The patterns on the top light up one by one, and only 40% of the patterns are lit before the light goes out!

Sima laughed in the hammer to the ancient bell but did not return immediately. He stood next to the bronze ancient bell, allowing the bell to baptize around him.

"This is the sonic body, which is of great benefit to the physical body!"

The princess said with a smile to Sima.

At this moment, Sima Xiao has completely entered a state of forgetting things, and all his mind is immersed in the feeling of sonic waves!

After a full cup of tea, the bell fell.

Sima Xiao felt the blood surging in his body, like a river flowing and a waterfall catharsis!

"This ancient bronze clock is really mysterious, and my physical body has grown by almost 10% in just a few moments!"

Sima laughed and sighed the magic of this ancient bronze clock.

Then he walked to the fourth ancient bronze clock.

The eldest princess shook her head slowly: "You may not be able to ring this fourth ancient bronze clock, because each of the nine ancient bronze clocks has different functions. The first three ancient bronze clocks actually test physical strength, and the first Four to six ancient bronze bells need to ring with spiritual power, and the last three bronze ancient clocks need the power of law to make them ring!"

"You can ring the three ancient bronze bells in front of you. It means that your physical strength is in the same realm as the practitioners are outstanding. But the three ancient bronze bells in the middle test the power of the spirit. If this ancient bronze bell is If it is not struck, the spirit backlash caused will be incurable for a while!"

The princess actually laughed for Sima, so she advised him not to test the three bronze ancient clocks in the middle!

Sima smiled instead showed a bright smile.

"It's just an ancient bronze clock. How can it strike my confidence in fighting? The more you say that, the more I want to feel how powerful these three ancient bronze clocks are!"

Sima smiled and took a step forward, and his mental power suddenly came out.

The silver mental power suddenly changed into the appearance of a copper pillar, and it struck the ancient bronze bell with a sound!

The ancient bronze clock trembled, and the rune on it lit up just 30%.

The sound of fairy music rang out.

Sima Xiao felt that his spirit had been baptized, and the number suddenly increased by 10%.

Sima Xiao couldn't help but give birth to a feeling of joy, and the whole person became a little relaxed!

"The fourth ancient bronze bell, if it can ring, can feed back the spirit, but if it fails, it will hurt your soul! Sima Xiao, since you can ring the fourth ancient bronze bell, that's your chance! I underestimated your potential!"

The eldest princess looked at Sima with more surprise in her eyes.

Fang Yue was smiling. He could see that it was not Sima's own ability to ring this fourth ancient bronze bell just now. It was the cub of his Xuanwu divine beast who temporarily borrowed part of his spiritual power. Sima smiled.

This is the unique ability of the sacred beast, and it is no wonder that the masters as strong as the princess do not see the tricks.

"Sima Xiao doesn't know if you still have to challenge this fifth ancient bronze clock!"

The eldest princess looked at Sima with a smile in her eyes full of expectation.

"No, no!"

Sima laughed a little flustered, waved his hand to decline, he would accept it as soon as he saw it, the cub of the basaltic beast lent him mental power that could only sustain a single blow.

If he continues to be strong, perhaps both he and the Xuanwu cub will suffer a little trauma.

"Pity!"

The princess sighed slightly.

"Diyi and Sima Xiao have both tested this ancient bronze clock, Fang Yue, it should be your turn now!"

The princess looked at Fang Yue, her beautiful eyes full of expectation.

Fang Yue walked in front of the second bronze ancient clock, without saying a word, a palm fell.

The bell sounded faintly, and all the patterns on it lit up!

Pieces of vermilion stones fell out of the void, and these vermilion stones were exactly three thousand in number.

"The blood stones! Each one can add a thousand kilograms of physical strength! This is the condensation of the power of the rules of the world, and these three thousand blood stones may be able to create a powerful master!"

Fang Yue swept away these three thousand blood stones.

The eldest princess showed an enviable look.

"Sure enough, the hero was born a teenager. When I tested this bronze ancient clock for the first time, I didn't ring the second bronze ancient bell completely! Although I am the messenger of this bronze temple, I only know how it turned out now. All the patterns of this second ancient bronze clock have been revived, and so many blood stones can be created!"

The eldest princess is blunt.

Fang Yue smiled and said, "I'm just lucky to be proficient in physical strength."

When Fang Yue finished speaking, he stepped forward again and began to challenge the third bronze ancient clock.

Fang Yue stood still, he took a deep breath.

Behind him, a six-year-old golden body appeared, as if a living Buddha came to the world!

"The physical body is congenital, Zhang Liujin body, this Fang Yue actually took the path of physical cultivation!"

The eyesight of the eldest princess is so detached, she can see Fang Yue's attainments in physical training at a glance.

Fang Yue's body slowly merged with Zhang Liu's golden body, and the top of his fist was plated with a light golden light.

The fist fell, and it happened to fall on the top of the third bronze ancient bell, and the bronze ancient bell rang out!

"Extreme flesh! Up a hundred steps!"

The eldest princess vaguely saw Fang Yue punching, a great road to the sky appeared behind him.

There were a hundred steps on the Tongtian Avenue, which disappeared in a flash. If it weren't for her keen consciousness, it would be impossible to capture them.

"Hundred-level physical body, who will compete! Even if this Fang Yue is mediocre in qi refining, he can become the strongest group of people under this starry sky only by his attainments in body cultivation!"

Now the princess's heart can no longer use the word shock to describe her emotions, she simply feels that the appearance of Fang Yue is simply incredible!

All the patterns on the third ancient bronze clock are illuminated.

A beam of golden light directly penetrated the void and fell on Fang Yue's body.

There was a red robes directly above his golden body.

This red robe can bless Fang Yue 30%!

"Heaven and earth blessings, invisible vestments! This third ancient bronze bell was really ringed by Fang Yue! As long as Fang Yue does not fall prematurely, he will become a generation king in the future to suppress the universe, and the future is boundless!"

The eldest princess admired again and again, her counterpart Yue made the highest evaluation!

What is this king? To be the king of the human race is the true leader among the practitioners of the human race, becoming the leader among all beings!

Fang Yue's praise for the princess is still humble.

"A little chance is not enough!"

"Fang Yue, do you have to challenge the three ancient bronze bells in the middle? After all, what you are good at is the flesh. You may not have too strong attainments in this spirit, but the flesh is just as powerful as the sanctification! There is no need to be strong everywhere!"

Chapter 1633: Fang Yue with extraordinary talent

The princess's heart is also complicated. She wants to see if Fang Yue can ring the fourth bronze ancient bell, but she is afraid that Fang Yue will be hurt by backlash while challenging the ancient bronze bell!

Fang Yue smiled shyly: "I want to try it a little bit!"

Fang Yue walked to the bronze of the fourth statue and closed his eyes.

The mental power in the body directly turned into a big hand gently stroking the surface of the ancient bronze clock!

The palm of the hand passed, but the formation patterns on the place that passed by were lighted up.

Lines of patterns criss-cross, and eventually spread all over the body of the ancient bronze clock.

The eldest princess was about to drop her chin.

Isn't this Fang Yue proficient in the flesh? Why is his spiritual attainment so strong? The formation patterns on the fourth bronze ancient clock are all lit up, which is rare in ancient times, and rare in ancient times!

A series of runes flew out of the ancient bronze clock, and all the runes finally solidified and fell into Fang Yue's hands.

There are a total of 3,600 runes, and each rune is condensed from the purest spiritual power. If these runes are refined, they can increase the upper limit of the spiritual power of the practitioner, and they are also infinitely valuable!

Sima Xiao looked at the surprised expression of Princess Long, but he had an expression that he had known for a long time.

In fact, Sima Xiao didn't have much feeling for Fang Yue's physical strength, but the soul liquid that Fang Yue refined was enough to see his attainments in the soul!

If Fang Yue can no longer ring the fourth ancient bronze bell, then I am afraid that no one will be able to ring the fourth ancient bronze bell in the entire Xuanhuang world.

"These nine ancient bronze clocks have all been sealed, of which less than one-thousandth of their power is displayed. The soul of the clock is asleep and can only be used for trivial purposes. If the soul of these nine ancient bronze clocks are all awakened, they can be matched. Only one set, this ancient bronze clock can display the truly earth-shattering, supreme power of weeping ghosts!"

Fang Yue muttered to himself, whispering.

When he stroked this fourth ancient bronze clock, he was actually resonating with this ancient bronze clock!

At the moment when those spiritual runes fell, he seemed to vaguely heard the wailing from the ancient bronze bell!

"Yes, these nine ancient bronze clocks have been passed down forever. In the infinitely distant age, the levels of these nine ancient bronze clocks have been killed everywhere, shocking the world and making all living creatures silent. But now, these nine ancient bronze clocks are in a sealed state. The spirit of the instrument is asleep and cannot be awakened, and the bronze temple can only play a role in pregnancy, but when will the soul of Zhong be revived and the seal will be resolved, no one can tell!"

The eldest princess told the Xin Mi in this ancient bronze clock!

Fang Yue heard the words and he understood roughly the same situation!

"The ancient bronze bell, if it can reappear in its grace one day, it will be able to suppress nine days, no matter what you destroy the demons or other ghosts and monsters, the bells ring loudly, it will be dusty!"

Fang Yue complimented.

All the nine ancient bronze clocks heard a low tone.

This is to agree with what Fang Yue said and resonate with it!

"Do you still have to challenge the remaining five ancient clocks?"

The princess asked again. A pair of beautiful eyes also radiated undying expectations.

"Naturally want to continue!"

Fang Yue answered without hesitation, and then he walked to the fifth bronze ancient bell.

Fang Yue's spirit enveloped the ancient bronze clock, and among the fifth bronze ancient clock flew out of the Peng bird, true dragon, phoenix and other phantom beasts to impact Fang Yue's psychic power shrouded outside!

This fifth ancient bronze bell has already begun to attack actively, no longer waiting for passive ringing.

Without saying a word, Fang Yue suppressed it with his soul power and formed a chaotic vortex. No matter what peng bird or real dragon you are, it would be sucked into it and shattered!

Fang Yue's hand was wild and violent, but this method was not something everyone could imitate.

This is based on the superiority of Fang Yue's mental strength.

After all the phantoms of these sacred beasts were annihilated, the fifth ancient bronze bell rang, and 108 true images of the sacred beasts evolved!

Fang Yue put away the true shapes of these sacred beasts.

And Sima Chang and the princess had a heartstring fluctuation in their hearts.

Ordinary treasures, their existence at this level will naturally not be seen, but the true shape of this beast has made them a little heart-shaped!

Every kind of sacred beast is bred from chaos, and their talents are true gods.

The true form of the beast is also the true form of Dadao.

The true form of the mythical beast is extremely precious. If you can often comprehend, it will be of great help to comprehend many avenues and various secret methods!

However, both of them are self-reliant and embarrassed that each other Yue speaks. Although Fang Yue's combat power is astonishing and can already be comparable to the powerhouse of the Saint Realm, he is still young after all, and his real realm is only at the level of the rotation realm. In their eyes, it was an out-and-out junior!

Fang Yue didn't notice the changes in the expressions of Sima Chang and the princess, but went straight to the sixth bronze ancient clock.

Fang Yue condensed his spirit directly and turned into a huge wave slapped towards the ancient bronze clock.

If you just want to shoot this ancient bronze clock, Fang Yue naturally doesn't need such a big fight. However, Fang Yue's real purpose this time is to revive all the formation patterns on the surface of this ancient bronze clock!

Fang Yue already understood that it would bring unexpected benefits to reviving all the formation patterns on the ancient bronze clock.

The ancient bronze clock sounded long, but Fang Yue's defeat this time only recovered less than 70% of the pattern on the surface of the ancient bronze clock.

The princess sighed and said, "This manpower will eventually come to an end. Fang Yue, you can ring the fourth and fifth bronze ancient bells one after another is unprecedented in history!"

The princess wanted to comfort Fang Yue.

But she hadn't finished comforting yet, she saw that after a wave of spiritual waves, Fang Yue set off another wave of spiritual waves!

The second wave of spiritual waves hit the top of the ancient bronze bell, and the sound of the ancient bronze bell became louder.

The array pattern on the ancient bronze clock has recovered 80% of the number.

Three waves followed, and the fourth wave of spiritual waves.

The waves are endless, and the sound of this ancient bronze bell is also resounding endlessly!

The number of recovery of the formation pattern on this ancient bronze clock is more than once.

Finally, when the ninth wave of spiritual waves fell, all the patterns on the sixth bronze ancient clock finally lit up!

At the moment when the last pattern on the sixth ancient bronze clock lit up, the world under Fang Yue's feet was distorted.

There are nine days in the sky, the golden crow is in the sky, the Xuanwu stream, the real dragon is in the sky...

Fang Yue felt as if he had come to the oldest prehistoric era, when the heaven and the earth were first opened, and all things came to light. That era was still a time when many sacred beasts crossed the heaven and the earth.

In a moment, the prehistoric world disappeared.

It just left a very complicated silver mark on the back of Fang Yue's hand.

Fang Yue perceives slightly, and instantly understands that this is the entrance to the broken corner of the old world. As long as he injects enough energy into this brand, he can evolve the entrance of a fragment of the wild world, allowing him to realize the many differences in the wild era.

This is the gift of the sixth bronze ancient clock, and it is also eye-catching.

Even Fang Yue doubted that if the princess and Sima Chang knew that they had got the entrance branding of a fragment of a corner of the prehistoric world, they would force them to hand over the branding, or even open the door to allow them to enter.

The prehistoric world is completely different from today's world.

At that time, Tiandi was born, full of aura and full of energy, and many great avenues of heaven and earth were exposed, so it was easy to understand!

All six ancient bronze bells were ringed.

The princess looked at Fang Yue with incredible eyes.

"The first six ancient bronze clocks test the body and spirit. Do you have an idea about the last three ancient bronze clocks?"

The princess' eyes widened.

Fang Yue smiled and said, "Since it's here, why not try it? I have an intuition. If I ring the last three bronze bells thoroughly, I will get an unexpected gift at the last moment. !"

With that said, Fang Yue walked to the front of the seventh ancient bronze clock.

The eldest princess held her breath, as if she had become a little girl, nervous and excited.

She seemed to be able to hear the thumping in her chest, the thumping heartbeat like a deer.

She has been the guardian of this bronze temple for some time, but she has never seen the appearance of the last three bronze ancient bells in this bronze temple.

"Fang Yue, I advise you to do what you can. Ringing the last three ancient bronze bells and ringing the six bronze bronze bells in front is completely different. The six ancient bronze bells in front represent the body and spirit. The last three bronze ancient clocks test the understanding of the law! This powerful body and profound spirit does not mean that the power of the law is profound!"

The eldest princess is also kind, this Fang Yue has completely become a baby bump in her eyes!

Apart from anything else, it is just the strong foundation of this physical body and spirit, which means that how Fang Yue chooses which path of practice in the future will have an extremely solid foundation!

The Great Sacred Realm absolutely couldn't trap him, and even Xuxian was not his limit.

Now that the Ten Thousand Worlds Universe has suffered catastrophe, it is difficult for the Human Race to survive alone. Only by cultivating more masters can the Human Race have a little foothold in the future turbulent world!

Fang Yue didn't speak, he just looked at the seventh bronze ancient clock!

The patterns on the top are dim, and if there is no sound, there is almost no trace.

"Let me try!"

Fang Yue attached his palm to the surface of the seventh ancient bronze clock.

The patterns on the ancient bronze clock are lit up one by one, and the patterns on each piece of the ancient bronze clock are in response to the power of the law in Fang Yue's body!

In a blink of an eye, all the patterns on the seventh ancient bronze clock lit up.

The ancient bell rang without any sound!

Great sound, the elephant is invisible!

The explanation of these eight words suddenly appeared in the mind of the princess!

The ancient bronze clock that contains the test of law has disdain to show itself with sound!

Fang Yue felt a mysterious and mysterious power coming in his body, and planted nine non-attribute Dao seeds in his body!

If the seeds of the nine avenues germinate, they can immediately make him comprehend the nine new principles. Once this dao emerges from the seeds, it can directly reach the level of the three-tier realm of the avenue!

Fang Yue took a breath.

He had never thought that this great law could still be played like this!

Chapter 1634: Chaos

Most people perceive the principle of hard work, watching the sky and the earth, the wind and the sun, exhausting their minds, and then there is a line of possibility to get started!

And this Dadao seed, once it germinates, is the third level of the law, and Fang Yue has the final say on what type of law!

Whether it is the eldest princess or Sima Chang, their eyes are straight at this moment!

They didn't know what Fang Yue got when the seventh ancient bronze clock was completely lit, but the fact that all the patterns on the ancient bronze clock could be lit up meant that Fang Yue already had the law. A very high level of attainments!

"It turns out that these formation patterns are not fixed at all! They are determined according to the law attributes of the subject! What is the law being tested, and what is the formation pattern corresponding to the evolution!"

Fang Yue finally understood the trickiness of this ancient bronze clock!

At the same time he also walked towards the eighth bronze ancient clock!

This seventh ancient bronze clock is able to give him precious things such as the seeds of the avenue, so if the last two ancient bronze clocks all ring, then what kind of gift will he get!

Fang Yue seemed to be able to feel his surging heart!

He did the same, and once again dropped his hands on the eighth bronze ancient bell.

The formation patterns on the eighth bronze are also all lit up, no way, the accumulation of Dao Laws in Fang Yue's body is too strong!

When the eighth bronze ancient bell was lit, strands of chaotic energy merged into Fang Yue's dantian. Each strand of chaotic energy seemed to be a small dragon, with both form and spirit, even dragon scales. ! It's just that these nine-nine-nine-eighty-one wisps of chaotic air are gray, without the mighty and majestic feeling of a dragon.

"Chaos breeds all things! These ninety-nine and eighty-one wisps of chaos can create all things, and even strengthen Taoism!"

Fang Yue's mind was trembling, this chaotic aura could be met but not sought, it was just a legendary existence, but no one had seen it.

All the eighth ancient bell ringing is able to give ninety-nine-eighty-one ray of chaos.

So when the ninth ancient bronze clock is struck, what can he get!

Fang Yue couldn't help but shift his gaze to the ninth ancient bronze clock.

He stepped forward again, his palm dropped.

This time, this ancient bronze clock no longer resonated with all the laws in his body.

This ninth ancient bronze clock has its own personality. It only attracts and verifies with Fang Yue's time avenue and space avenue.

Fang Yue felt that his body was turning and the stars were moving, and he had left the bronze temple.

Nowadays, under his feet is the endless stream of time!

All the bubbles around, each of them contains all beings!

A bubble is an era and a world!

Thousands of styles, but it seems to be the manifestation of every scene of time in this endless world and billions of years.

"This is the long river of time! This ninth ancient bronze clock represents the power of time and space!"

Fang Yue stretched out his hand and burst a bubble with a pop.

However, after the bubble burst, an identical bubble was born in the void and moved on.

Heavenly Dao and Space Heavenly Dao at this time represent the most basic order composition of this world, which cannot be obstructed or destroyed!

Fang Yue strolled in this long river, unknowingly he came to the end.

Afterwards, Fang Yue's eyes were dark, and he returned to the original time and space again!

The ninth ancient bronze clock did not light up all the patterns, and only 80% of the patterns were lit.

Fang Yue understood that the scene just now did not represent the end of the long river of time, but that his comprehension of the power of time and space has not yet reached its extreme!

Fang Yue was silent, he stopped trying.

He knew in his heart that even if he tried again, he couldn't light up the ninth ancient bronze clock.

The condition for lighting the ninth bronze ancient clock is that the time heaven and the space avenue are ten levels of ultimate perfection and invincibility, and he is still a long way from that step!

But when he left the ninth ancient bronze clock.

There is an extra small bell in his dantian, which is not the essence, but the power of chaos!

This is an incarnation of the ninth ancient bronze clock. It is also a kind of gift from Fang Yue!

Although all the patterns in the ninth ancient bronze clock were not illuminated, the ninth ancient bronze clock also gave it an extraordinary gift!

Seeing that the ninth ancient bronze clock hadn't all lit up, the princess felt a little disappointed, but at the same time she was slightly relieved.

Only in this way, it is normal. If Fang Yue lights up all the ancient bronze bells, then how many Tianjiao masters throughout the ages will look at themselves.

Fang Yue leaned slightly and said to the eldest princess: "This assessment has been completed, and the eldest princess should give me a trial mission!"

The eldest princess looked at Fang Yue and others by surprise.

On weekdays, it is not easy for one person to pass the qualification test of the Bronze Temple.

But now there are three people who have passed the qualification examination of the Bronze Temple at the same time, especially Fang Yue, this result is quite horrible!

"This is not in a hurry! Once the qualification test for passing the Bronze Temple is completed, different rewards will be awarded according to the results of the assessment! Although the bronze temple is empty, the bronze ancient mines in it are also worth some! Diyi, It's worth passing the assessment and getting rewards is natural! This is the copper essence of nine bronze ancient mines, and it is given to you as a reward!"

The eldest princess turned over, and there were nine head-sized bronze spirits on the ground immediately!

Although this copper essence looks ordinary, it is the essence of casting imitations of ancient artifacts!

Every piece of bronze ore is invaluable.

And the essence of ancient ore, the copper essence that has been tempered through thousands of times, its value is a hundred times higher than that of ancient bronze ore.

In fact, the copper essence of these nine human head-sized bronze mines is equivalent to the sum of the harvest of ten years that the Sima family has mined around this bronze mine in the Bronze Mountains!

Saying that the reward is average, this princess is really humble!

Emperor Yi accepted the copper spirit from the ancient bronze mine and thanked him for retreating.

Emperor Yi was once rich in a powerful country. Although the copper essence of this ancient bronze mine was precious, he was not excited yet.

"Sima laughs, your performance is also quite outstanding. Being able to ring the fourth bronze ancient bell represents your outstanding talent, which has exceeded the average strength of those who have entered this bronze temple trial! I know you are good at refining tools. Quite interested, so I am giving you a vein of bronze ancient mine! This vein is not big, but it can continuously nurture bronze ancient mines, even if you are willing to pay a little price, use some precious metals to feed In the case of mineral veins, the level of this mineral vein will gradually increase. Which step you can achieve in the future depends on how much effort you are willing to invest in this ancient bronze mine!"

The princess raised her hand, and a small green dragon fell on Sima Xiao's shoulder.

"The veins of the ancient bronze mine! This...Thank you for the grace of the princess!"

Sima laughed and knelt down on one knee, so excited that this was the vein of the ancient bronze mine! It is possible to continuously produce ancient bronze mines. It is said that this man has gold under his knees, but this ancient bronze mine is much more precious than gold!

If the eldest princess can give him a vein of bronze ore once by kneeling once, then there is no problem for him to kneel eight hundred times!

Finally, the eldest princess' eyes fell on Fang Yue.

The gaze she looked at Fang Yue was rather complicated!

This Emperor Yi and Sima Xiao are both easy to dispel, but this Fang Yue lights up all the array patterns in the eight ancient bronze clocks in succession, and even the ninth ancient bronze clock is almost conquered by him.

Such a thing is simply unprecedented!

Or simply reward Fang Yue with this bronze temple.

Before the princess made a decision.

Nine ancient bronze bells rang at the same time.

The voice was long and trembling through Amano.

Each of the nine ancient bronze clocks melted into a creamy white brand, breaking through the void, and fell onto the concrete and subtle ancient bronze clock in Fang Yue's Dantian!

"Ancient Bell God Seal!"

When seeing the milky white light burst, the face of the princess changed suddenly!

"The **** seal of the ancient bell represents the true recognition of these nine ancient bronze clocks! Whoever obtains the **** seal of the ancient bell is qualified to borrow the power of the ancient bronze bell! Throughout the ages, only the messengers of the bronze temple are eligible to receive the ancient bell Zhong Shenyin, Fang Yue is the only tester who can get the ancient Zhong Shenyin!"

The voice of the princess was full of shock.

At the same time.

Fang Yue has turned the ancient bronze bells in his dantian into nine, making him and all the nine ancient bronze bells connected!

He seemed to be able to borrow the power of the nine ancient bronze clocks with just a move of his thoughts. Of course, there were borrowings and some repayments. All that this ancient bronze clock needed was his own power to support it.

If his own strength is insufficient, then this ancient bronze clock appears, and the first unlucky person is himself.

This ancient bronze clock will drain his entire body!

When the princess looked at Fang Yue again, her eyes had completely changed. In her eyes, Fang Yue was no longer a junior who needed to listen to her teachings, but an existence that could sit on an equal footing with her.

Nothing else, just because Fang Yue has also mastered the ancient bell **** seal!

The eldest princess was silent for a while, before she said: "Since you have mastered the ancient bell **** seal, the ordinary test is of no value to you! For this trial, you will go to the edge of the Xuanhuang world. If you can gather enough military merits, you can return smoothly! Pass the trial! But the three of you have different strengths and need to gather different military merits! The emperor needs to reach the level of a sergeant, and you can choose to return! As long as your mouth silently ends the trial, no matter what environment you are in, you can come back! And Sima Xiao needs to reach the level of a lieutenant before you can return. Those who can work harder, your strength and talent require it is much higher than Diyi! As for Fang Yue, you are recognized by the ancient bronze clock. The difficulty of your trial is determined by the ancient bronze clock. When the ancient clock **** seal thinks that your task is completed, it will naturally End the trial for you and bring you back safe and sound!"

The words of the princess also represented a change in her attitude.

Di Yi, Sima Xiao, no matter how strong they are, they are all testers.

And Fang Yue has been recognized by the ancient bell **** seal. In a sense, he is no longer considered a tester of the bronze temple, but has a higher status!

Chapter 1635: Trial opens

Fang Yue nodded.

Sima Xiao and Di Yi also expressed no objection.

Although they don't know what this broken place means, didn't they come to this bronze temple just for the trial to succeed and get the opportunity to break through a small realm?

The more Tianjiao, the more difficult it is to advance to the realm!

Especially when it comes to the level of Di Yi and Sima Xiao, it is even more difficult, but as long as you break through, even if it is only a small level improvement, the strength of the two will have a qualitative leap, and the combat effectiveness will directly explode.

As for Fang Yue, Fang Yue actually has some doubts whether the trial of this bronze temple can really raise the cultivation of his deity to the level of Yin and Yang. After all, his road ahead is too perfect and the foundation is too thick. , The bottleneck encountered at the peak of the rotation state is ten times more difficult than that of ordinary people who reach the top of the leader state and want to break through the saint state.

But as long as there is an opportunity, Fang Yue will not give up!

"Lord Princess, please open the door of space and let me wait to enter the place of trial!"

Fang Yue opened his mouth and took the initiative to petition.

The princess sighed softly when she saw Fang Yue and the others' persistent expression.

"Since you insist, then I won't discourage anymore! But the broken land, the strong are endless, you must be low-key and careful!"

The princess exclaimed.

The three of Fang Yue agreed, and they agreed, but whether they would do what they promised, then I don't know!

A space door opened, and Fang Yue and the three of them entered one after another.

Then the space gate dissipated.

In the huge bronze temple, there are only Sima Chang and the long princess.

"Princess, did you really send the three of them to the Broken Ground?"

When Fang Yue and others left, Sima Chang asked!

For that broken place, Sima Chang obviously knows a lot more than Fang Yue!

The princess nodded slightly: "How can you see the rainbow without experiencing wind and rain? If the three of them are always immersed in the greenhouse and growing up in the sheltered environment created by you and me, then their future may be in jeopardy!"

"But there is a broken place! I don't know how many saints' blood and bones are buried in it! Even the great saints and virtual immortals of the human race have many people buried there. Is it too early for the three of them? Up!"

Although Sima Chang tried his best to suppress the anger in his heart, his tone already had an inferior taste!

He couldn't control the life and death of Fang Yue and Di Yi.

But one of them is the hope of their Sima family in the future, the big five elements Sima smile!

Ever since Sima Chang was sober this time, he has been particularly interested in Sima Xiao.

He is already old. Even if Fang Yue's life force can continue his life, he can live for two hundred years and three hundred years, but he has lived for ten hundred years, twenty hundred years?

If the Sima family wants to be immortal, for generations to come, there must be a new generation of powerful men constantly appearing to support the Sima family.

Sima Chang's ambitions are actually not that big. He never hoped that Sima Xiao could become the strongest in this black and yellow world. Sima Chang felt that Sima Xiao's talent could grow up smoothly, plus his Help, coupled with the resources of the Sima family, can at least cultivate to the level of the Great Sacred Realm before he completely falls, deter the Quartet, and become the backbone and pillar of the Sima family!

Sima Chang and the eldest princess are a bit too small than their own, but if he is immortal like the eldest princess, and has a proud strength, he can also have such a grand structure.

But the problem is that he is not the eldest princess, he can't afford to wait, and the Sima family can't wait either.

Sima laughed at the point of being broken.

"Princess, I know that my request is a bit excessive, but I still hope that I can go to the Broken Land with Sima Xiao and them. Don't worry, as long as the three of them are not in a life or death crisis, I will never show up. !"

Sima Chang took a deep breath. If it were changed to something else, he would never make any request to the princess.

They are people of the same generation, and doing so is tantamount to losing their face.

However, at this moment concerning the future rise and fall of the Sima family, Sima Chang decided to bend once, whether it was for the Sima family or himself! In short, Sima Xiao can't make any mistakes this time!

"it is good!"

The eldest princess spoke, and she readily agreed to Sima Chang's request!

After that, the princess opened a door of space, which allowed Sima Chang to enter the broken ground.

"Sima Chang, this space gate opens randomly. Although the place where you fall is also the broken place, it may not be the place where Fang Yue and the three entered the broken place!"

"I know!"

Sima Chang hurriedly entered the door of space.

The gate of space was closed. Looking at the place where the gate of space had just disappeared, the princess said to herself: "After so many years, I didn't expect this Sima Chang to be so uncontrollable. You care about Fang Yue's life and death. Don't I care? My deity is ready in the Broken Ground, and waiting for the three of them to arrive is to let them experience a hardship of wind and rain!"

The avatar of the eldest princess gradually faded, and finally merged with the bronze temple!

The broken place.

Fang Yue and the trio just landed when they encountered a siege from a black-patterned tiger at the master level!

This black-striped tiger can only say that he appeared at some untimely time!

If you meet other people, it might be a sumptuous dinner, but when you meet Fang Yue and others, it is destined to be the dinner of Fang Yue's trio today.

The tiger roared.

The next moment was a low whimper that became a pity.

Fang Yue and the three are not the kind of soft tempered people.

Fang Yue slapped the tiger in the face, then dismembered the black tiger into pieces of flesh and blood, and stored it.

The flesh and blood of this black-striped tiger is said to be a great supplement, especially the tiger whip, which is even more rare!

The three of Fang Yue set up a barbecue on the spot.

Although this life requires struggle, it also needs to be enjoyed!

Fang Yue was in charge of the barbecue, and Sima Xiao took out the fruit wine. Because Emperor Yi was far away from the Earth Dragon Temple, he gradually got rid of the control of the Earth Dragon!

He gradually recovered a little bit of his old temperament, not knowing where he got some cold dishes.

Don't look at the simple dishes on this table, but every one of them is priceless!

Not to mention the tiger meat at the master level, it contains rich essence, even if it is eaten by a practitioner at the ordinary Yin-Yang level, it will be smoked by the rich essence in it, and Sima Xiao's fruit wine is more. It was stolen from the monkey king at the saint level!

Diyi's cold dishes have a mediocre taste, but every ingredient is a thousand-year-old medicine.

Nourish blood, nourish the mind and peace of mind, if the alchemist sees it, he will definitely beat his chest and feel heartbroken!

For a moment, the dishes fragrant.

The three began to feast on.

And dozens of kilometers away, an army of the tiger tribe who was marching passed by.

Just as they were about to move on, one of the greedy tiger men suddenly stopped. He closed the huge nose on the tiger's face and smelled the aroma of the dishes that came from far away!

The tiger man suddenly said: "The sir is in that position and someone is grilling the black tiger tiger, the holy beast of my tiger tribe!"

There is endless resentment in his tone!

The tiger race has the double bloodline of the black tiger and the human race, but they always recognize that the black tiger is their ancestor!

There is no other reason. The blood of this black-stripe tiger is stronger, so that they have just been born with an unparalleled talent and great power, and the blood of the human race is their shame.

This kind of blood didn't give them the slightest strength, but lowered the purity of the blood of the black tiger in their bodies!

Therefore, the tiger race enshrines the black tiger, but is full of hostility towards the human race.

"Let's go! I'm going to see which thing that ate the guts of the bear heart and leopard daring to wilt wildly on the head of my tiger race, grilling the black tiger!"

Barbecuing the black tiger is a big taboo of the tiger race.

Whoever sees his ancestors being put on a barbecue grill and sprinkled with chili noodles, he will carelessly add some cumin and salt!

In a moment, they found Fang Yue and the others along the direction where the fragrance came.

At this time Fang Yue and Sima laughed that they were eating Zhenghuan.

"Come on, a toast, brothers go together for life!"

"Five chiefs, six six six..."

It's not enough for the three of them to just barbecue, and they are still punching for fun!

When these tiger tribes arrived, the three of them were already flushed with drinks!

The leader of the tiger tribe couldn't help but furious: "You humble tribes are not in your own territory, waiting to be killed, and come to my tiger tribe's territory to go wild?"

The leader of the tiger tribe is the strong one on the third step of the Saint Realm!

And his 30-odd people are all experts at the master level. They saw that Emperor Fang Yue didn't even have a master at the master level, so naturally they didn't put the three in their eyes!

Fang Yue glanced at the leader of the tiger tribe.

"Come on! Together!"

Fang Yue put a grilled tiger leg in front of the tiger tribe.

The tiger's legs have been burnt by Fang Yue's scorched yellow oil, and a glance can give people a full appetite.

The leader of the tiger tribe is stunned!

Although our tiger race is a small race, you can't insult us like this!

What's more, if it is the strong who insults us, that's all, you little guy who doesn't even insult us in the Yin-Yang realm definitely doesn't want to live!

The leader of the tiger race was angry and grinned, showing his sharp fangs.

Fang Yue still drank dizzy, I have to say, this sage-level fruit wine is very powerful, upper head.

He stuffed the tiger's leg in his hand directly into the mouth of the head of the tiger tribe, and the head of the tiger tribe was caught off guard and didn't dodge it!

The leader of the tiger tribe stared, Fang Yue slapped his shoulder with a slap.

"Come on, come on, come on! Why are you eating while standing? It's weird, sit down and drink together!"

Fang Yue became particularly hospitable.

The leader of the tiger tribe wanted to stand up, but he unexpectedly found that his shoulder was held still by Fang Yue's palm and he didn't even have the power to resist!

The leader of the tiger tribe was so cool.

I thought it was here to bully a bronze, but I didn't expect the other party to be a king!

Chapter 1636: Drank too much

The Tiger Clan was originally known for its physical power, but his physical power seemed to be the difference between a baby and an adult in front of Fang Yue!

The leader of the tiger tribe was about to cry, and he was in a state of anxiety that Fang Yue would deal with the strength that Fang Yue had shown. It was safe for him to kill his team alone without any suspense!

"Let them all sit down and drink, what are they standing, all sit down, sit down!"

Fang Yue was so dizzy when he saw people, he wanted to entertain, entertain.

The warriors of the tiger race looked at each other one by one, and they didn't know where they should be already!

"Sit down, I haven't heard of me sitting down!"

The leader of the tiger race didn't dare to disobey Fang Yue's will. Didn't you see, his life was in Fang Yue's hands!

As long as this boss is unhappy, it is estimated that one of them counts as one, and no one can run away.

The leaders have spoken, and the soldiers are naturally obedient!

A group of soldiers of the tiger tribe sat around the bonfire for fun, and then started a barbecue feast with Fang Yue!

They finally broke up.

The next morning, when Fang Yue woke up rubbing his painful head, he was suddenly horrified to find that they had been surrounded by the tiger race!

More than 30 warriors from the tiger tribe lay on the ground.

The spirits of the Saint level that Fang Yue couldn't bear, these tiger tribes naturally couldn't bear it!

Zhengxiang the tiger people sleep.

The emperor is responsible for the night watch.

His face was full of indifferent expressions. The dark seed not only sealed his heart demon, but also temporarily sealed his emotions and desires.

Therefore, among the crowd, he was the fastest sober, and after waking up, he was responsible for vigil.

"What's the matter with these tiger tribes? Whoops, my head hurts, what happened yesterday? Why is my **** hurting? It's the rock!"

Fang Yue clutched his temple, he didn't have much memory of what happened last night.

But Di Yi showed a weird look.

"Last night. You drank too much..."

Emperor Yi talked about what happened last night.

However, Fang Yue pieced together the memory fragments in his mind this time.

"Are you saying that these tiger tribes were drunk by me? Sin, sin, this has not yet reached the territory of the broken land tribe, and captured a small group of tiger tribes!"

There was a trace of excitement in Fang Yue's eyes.

Di Yi pondered for a moment: "From a certain angle, it seems like this!"

Fang Yue said excitedly: "You said that bringing these tiger tribes alive to the territories of the human race, how much military merit can we get? This life is always worth more than death!"

Emperor Yi looked at those tiger men pitifully.

Then he said: "Perhaps the credit is not as great as you think! When I was on the night watch, the territory of this tiger race has been scanned and watched by dozens of divine minds one after another! These dozens of divine minds started as a saint. Among the levels of the realm, one of them has even reached the level of the Great Sacred Realm. If it weren't for the other side's divine mind and prying eyes, it would have been swept away, and if I had a special silver concealment, maybe a few of us have already been concealed by the human race. I found it!"

"So dangerous? Wake Sima smile, go quickly, go quickly!"

Fang Yue showed a touch of horror!

Then he awakened Sima Xiao, collected these tiger tribes into a world of falling stones, and left in a hurry.

The gentleman does not stand under the dangerous wall, this is the land card of the tiger race!

The ancestors of the family were grilled on other people's sites, and the people of the family were captured. If such things are known to the people of the tiger tribe, it will be a bit bad after all!

Fang Yue and the others hurriedly left the tiger tribe's territory.

And in the human city of the broken land, in the human king city.

The princess rubbed her brow lightly.

Fang Yue's transmission was lost!

She had ordered people to search the whole person in Wangcheng, but Fang Yue and others were not found!

These people will not fall into those terrible forbidden places! Or maybe they were taken away by those old antiques?

The princess has a headache. She was originally kind and wanted to exercise Fang Yue's few people, but if Fang Yue's three people were in danger or even fall because of her, then she could become the great of the human race. Sinner!

At this time, a sage-level general in silver armor hurriedly walked to the eldest princess. He knelt down on one knee and said respectfully to the eldest princess: "Your subordinates will join the eldest princess. , Our army's surprise attack on Wild Wolf Slope was a complete victory! Wild Wolf Slope was defensively empty. It is said that Wild Wolf Slope was prepared to let the werewolves and the tiger tribes defend together according to the first arrangement, but the warriors of the tiger tribes have been delayed. In fact, the pressure of our army's sneak attack is greatly reduced!"

There was a strange look on the face of the silver armor saint. This tiger tribe has given a good hand to the werewolf tribe this time. Not only is it a shame for the wild wolf slope, the werewolf tribe has also lost a strong man in the saint state and Dozens of powerful masters at the master level, although this is not enough to make the werewolf tribe hurt their muscles and bones, but it can also make them feel

distressed, after all, this powerful master at the saint level belongs to that clan. Is the backbone of the family!

"Got it, go on!"

The eldest princess is still rubbing her temples, and the successful sneak attack by Wild Wolf Po is actually just a small victory in her eyes!

She is one of the chiefs in the army, and she has long ignored the gains and losses of one city and one pool.

The eldest princess focuses on the overall situation, a millennial plan!

At this moment, Fang Yue, Sima Xiao and others are swaggering into the King City!

"Stop, where are you going?"

A guard in front of the gate of Renwang City suddenly stopped Fang Yue and the others with a loud shout.

This man's King City is in a state of combat readiness!

It's not that just one person can step into the King City!

If spies from other tribes enter it, their garrison will have a sin that is hard to redeem!

Fang Yue glanced at the guard, a cold smile appeared on his face.

"I am waiting for the human race! I want to enter the human king city to join the army and serve the human race!"

Fang Yue said, his voice was extraordinarily serious!

The soldier frowned. He did not find the breath of the alien race in Fang Yue's body, but then again, if the alien really wanted to pretend to be a human race, they wouldn't be able to tell!

"Do not believe?"

Seeing the hesitant expression on the soldier's face, he rushed to the distant battlefield without saying anything!

Fighting is everywhere in this shattered land, even at the gate of King City, it is rare peace!

Not far away, there were several eagles hovering in the sky, and each eagle was of Yin-Yang level strength.

In the Broken Land, if there is no power above the Yin Yang level, it is not easy to show up!

Fang Yue stepped on the ground and flew up. The eagles were still hovering, monitoring all the movement in this man's royal city!

Fang Yue reached out with one hand and swept away several eagles.

Those eagles felt that the surrounding space suddenly became a big net, all of them were wiped out!

The eagle fell from the sky and was carried by Fang Yue.

He returned to the city gate and gave several half-dead eagles to the soldier.

"How about? Voting for the name certificate!"

The soldier took a deep breath, looking at Fang Yue, who was only at the pinnacle level of the rotation realm, **** the eagle is so easy!

He grabbed a few eagles with one hand, and all of them were at the level of Yin and Yang.

If every soldier who came to take refuge would catch such a few enemy troops and come back for a name, this shattered place would have long become the territory of the human race!

"I can't decide this matter but I have to report it to the General!"

The soldier hesitated for a moment, but still had to report.

There is no guarantee for this, and it is actually difficult for black households like Fang Yue, Sima Xiao, and Di Yi to enter the Human King City.

"Go, go, don't be too late!"

Fang Yue knew that these soldiers did not deliberately make things difficult for them, but each had their own helplessness. Their identities were humble, and they did not have the right to decide who was allowed to enter the king's city.

The soldier went back to report to his superior.

Fang Yue and Sima Xiao were waiting quietly at the gate of the city!

Before they waited for the soldier to reply, he waited for a figure as tall as ten mountains.

These ten people are all masters of the Titans!

Two of the ten people are at the saint level, and the remaining eight are at the top of the leader level. This configuration is already quite luxurious in the world of Xuanhuang!

They were unkind, and rushed towards Fang Yue angrily.

Fang Yue looked at these Titans in surprise.

"You are here to find me?"

"You killed the eagle in my clan?"

One of them roared at Fang Yue.

"Yes! Dangling in the sky, I think they are too obtrusive!"

Fang Yue explained frankly.

When the Titan Giant heard Fang Yue's arrogant and arrogant explanation, he suddenly roared.

"No one has ever dared to tease our mighty Titan like this!"

"Now there is!" Fang Yue said seriously.

"I advise you to leave as soon as possible, otherwise, I will turn you all into my nomination!"

Fang Yue's words are simply provoking the dignity of the Titans. On the battlefield of this broken land, their Titans can be regarded as one of the most powerful races! Because this shattered battlefield is mainly fighting for individual power, in many special places, the number of people will lose meaning.

"Damn boy, I'm going to eat you!"

The Titan giant was furious.

And Fang Yue is still calm and calm! He did not want to let go of the blood of the Titan. Although he was reluctant to use the power of the Devourer, this did not prevent Fang Yue from collecting the blood of all races and treating it as a powerful and powerful hole card. When he encounters a truly desperate environment, he will melt different bloodlines into his own body, and every time he digests a bloodline, his power will become stronger.

Fang Yue has now collected hundreds of noble and powerful bloodlines!

The Titan giant stretched out a huge palm, his palm pointed to the sky.

Thunderbolt in the clear sky, falling suddenly, manipulating thunder and lightning is the inherent magical power of the Titans.

However, in front of Fang Yue, this supernatural power failed.

The thunderbolt that had hit Fang Yue abruptly, suddenly turned in mid-air, and then slashed towards the giant of the Titans.

Chapter 1637: Smoking is harmful to health

The change in this scene made the Titans unpredictable. He didn't expect that the most loyal partners who had been tamed by them would choose to betray them at this time!

Lightning fell on the Titan Giant's head, and the Titan Giant was completely blackened by lightning.

He opened his mouth, and before he could speak, he expelled a thick smoke ring!

"Smoking is harmful to health, neither can electronic cigarettes!"

Fang Yue said solemnly!

Although the Titan Giant looks miserable on the surface, in fact he has not suffered much damage. The Titans are close to Thunder, including their resistance to Thunder! What's more, the lightning he summoned just now didn't give his full strength, because he felt that to deal with the ant-like human race in front of him, he did not need to do his best!

He underestimated the enemy.

But at this moment, his heart is full of rejoicing. If he hadn't underestimated the enemy just now, he might have been hacked to death by now!

"My lord, this is the kid who wants to enter the city!"

The messenger stood on the wall and said tremblingly.

Because behind him is not his immediate boss, but one of the few big bosses in this man's royal city!

Looking at the princess from the city wall, it was indeed Fang Yue, Sima Xiao, and Di Yi.

"How did the three of them provoke the brainless idiots of the Titans!"

The eldest princess frowned slightly, although the brains of these Titans were not good, but the skin was thick and thick and resistant to beatings!

Moreover, they are all powerful and good at manipulating lightning. In the Broken Ground, there is a group of hob meat, and no one wants to be an enemy of them!

"It's this..." In the simplest language, the messenger reported to the princess that Fang Yue killed the eagle just now as a nomination.

When the princess heard this, she was so angry and funny.

"How can this Fang Yue be so reckless? This eagle has been wandering around in the King's City for so long. Since we didn't kill those eagles, naturally it is because they can't fight! The giants are annoyed, but I want to see how Fang Yue is going to end up!"

The Titans are actually enemies of the human race in a strict sense.

But when nothing happens, the human race is still unwilling to have any disputes with the Titans!

"Boy, why were you able to manipulate the thunder and lightning that I summoned just now, do you have any weird sorcery that can confuse the **** of thunder?"

The Titan Giant stared at Fang Yue with wide eyes.

There was an incomparable horror in his heart. This manipulation of Thunder was one of the killers of their Titans, but now someone could use the thunder and lightning they summoned to kill them.

This is simply provoking the authority and majesty of their Titans! They will be unforgivable.

Fang Yue said coldly, "Do you think I will tell you? If you want to ask, you should go down and ask yourself!"

Fang Yue raised his hand, and a huge fireball emerged.

Fang Yue seems to be because the power of the soul is too strong, each of his spells will be three to five times the power of ordinary spells of the same rank!

In the fireball, the hot temperature made the void have some melting marks!

"Life!"

Fang Yue said two words silently, and the scarlet birds in the fireball soared out of it!

These vermilion birds instantly grew bigger in the air, like a phoenix.

The phoenix bathed in the fire and flapped its wings.

The entire sky was almost completely ignited!

The Titan is surrounded by flames.

All of them showed a look of horror. They unexpectedly discovered that the little birds that Fang Yue summoned at will were stronger than theirs!

"Phoenix Dao Mark, Flame Avenue! There are really a lot of hidden cards in Fang Yue!"

A faint smile appeared on the corner of the princess's mouth on the wall.

The stronger Fang Yue is, the more hopeful he will become one of the backbones of the human race's future!

"Thunderbolt, thunder like a sea!"

After all, the Titans are the darlings of war. After a brief surprise, they chose to join forces!

The endless thunder has turned into a vast ocean, and the thunder and flames consume each other, so that the birds that have turned into flames cannot approach them!

"Surrender, or die!"

Fang Yue used the magical transformation technique, and his whole person became extremely majestic.

His feet were off the ground, and he pressed for nine days, as if it were a high-rise creation mansion!

This kind of pressure gave those Titans a feeling of suffocation!

They didn't expect Fang Yue to have such a method!

As they were enveloped by Fang Yue's coercion, the sea of thunder summoned was weaker. The sea of thunder could not withstand the burning of the flames. Those phoenix-like birds flew up into the sky, humming in unison, one after another. Feathers are falling from the sky!

Ten thousand fire feathers fall, that scene is naturally extremely beautiful!

But for those Titans, this is an unbearable catastrophe!

"Surrender, I surrender!"

One of the Titan giants at the pinnacle level of the leader realm finally couldn't hold it. He first chose to surrender, leaving the green mountains without fear of firewood. If he died this time, it would really be a hundred!

That Titan Giant is quite aware of current affairs!

"Trash, you traitor, you are ashamed of the blood of the Titans!"

The Titan giant who first attacked Fang Yue flew into a rage. He was aggressive and cursed the Titan giant who chose to surrender!

"If you want to die, don't drag others! He surrenders is a matter of time, and you are the real stubbornness!"

Fang Yue didn't keep his hands, he stepped into the sea of fire and walked in front of the Titan Giant in the Saint Realm.

The Titan giant punched Fang Yue's chest with his fist. This powerful body and inherent incomparable power are also the pride of their Titan clan!

However, the opponent he met was Fang Yue.

Today is destined to crush the pride in the heart to pieces!

Fang Yue slowly stretched out his palm and held the Titan Giant's fist with his five fingers.

"Is that just enough strength? Is it because your Titans don't feed you anymore?"

Humiliation, naked humiliation.

However, the Titan Giant was shocked to discover that his power was so insignificant in front of Fang Yue.

His fist could not be withdrawn.

The whole person is like a doll!

Click, click!

Fang Yue's palm was hard, and the Titan Giant's fist was crushed by Fang Yue!

"too weak!"

Fang Yue used a hand knife to stun the sage-level Titan giant, and then put it into the storage bag.

The rest of the Titans surrendered and surrendered when they saw the situation.

Bullying and fearing hardship is the tradition of the Titans!

The flame in front of Fang Yue dissipated.

He stood there like an uncrowned king, and in front of him all the nine giants knelt to the ground, expressing submission.

"Lord Princess, how about this meeting gift I gave you?"

Fang Yue already knew about the arrival of the princess.

The eldest princess stepped down from the wall and walked in front of Fang Yue.

"Very good, very good! During this period of time, I am still upset about how to deal with these hob meats. Now that I have surrendered to these Titans, it can at least become a deterrent and make those self-righteous guys be honest!"

Capturing the Titan Giant in the Saint Realm alive is a rare victory in the King City.

No matter which ethnic group they are in, the powerhouses of the saint level are destined to become the mainstay of the family, not too many!

With this weight, she can negotiate terms with the Titans!

"In fact, we got drunk some of the tiger tribes easily on the road, now let's hand it over to the princess!"

Fang Yue threw those tiger tribes to the ground.

Their drinking spirit has not yet eased, and they all sleep like dead pigs! I don't know anything about changes in the outside world!

The eldest princess looked at the tiger tribes.

She smiled and said: "I still said that the attack last night was exceptionally smooth because of the absence of the Tiger people. It turns out that these people were caught by you!"

The princess did not expect that Fang Yue would give her a great gift when she came!

At the same time, this is also a great gift to the entire city!

In the City of Human Kings, the main combatants are actually strong in the leader realm, and strong in the saint realm are scarce among all races, and they are considered leaders.

And Fang Yue's appearance was to solve the alien race of the four saints.

This makes Wangcheng a rare victory!

"There are so many alien races in the sage realm, it is true that I let you come to this broken place to try! Your arrival really adds a bit of life to the human race! The three of you, let me come!"

The princess waved her hand, and all the captured alien races were drawn into her long sleeves!

These living aliens are indeed more valuable than the dead! The dead aliens can only strip off their skins and flesh and sell them, while the living aliens can be used to exchange some precious resources in their hands!

The human race's weakness is partly due to its mediocre talents, and a larger part of it is because the human race has too few resources. Regardless of the wide divisions of the human race in the universe, the human race occupies the entire world. The resources of the universe are actually less than one thousandth of the entire universe.

Most of the precious resources are not on the surface of the universe, but exist in some ancient and mysterious enchantments! Those barriers were opened at the beginning of Chaos, and existed when the universe was born. The keys to entering the barrier are in the hands of the oldest demon gods and their descendants!

If these alien races can be used to exchange enough resources, many talented and qualified young generations in the Xuanhuang world can make a breakthrough smoothly!

This race is not fighting for a moment. This war may last for thousands of years, tens of thousands of years, and millions of years, consuming the potential of the entire race!

The princess brought Fang Yue and others to an ancient castle!

As soon as he entered the castle, Fang Yue felt that at least ten great sacred realm and higher levels of divine consciousness passed over him!

This gave Fang Yue a general idea of the overall strength of the castle!

In this King's City, perhaps even the powerhouse of the Great Sacred Realm is worthless!

Chapter 1638: The mission of King City

The long princess brought Fang Yue and others to a conference room. An old map was hung on the wall of the conference room. The map was painted in circles with many graffiti!

The princess stood beside the map: "You should have also seen the graffiti of the entire Broken Land! This Broken Land is actually the outer universe of the Xuanhuang World to some extent! It is not It belongs to the world of Xuanhuang, but it is a combination of many broken planes and fragments of the universe! If the total area of this broken place is concerned, it may be larger than one-third of the entire Xuanhuang world! And in this broken place There are many precious resources and great civilization inheritance in the earth!"

"The forbidden place is the place where all races in the Xuanhuang world must compete! My human race only occupies less than three thousandths of the territory in the broken ground. Of course, 70% of the entire broken ground is It is a place where no one develops and collects! Only 30% is occupied and survived by the ten thousand races! I am waiting here, the biggest task is to kill the masters of the ten thousand races in the Xuanhuang world, so that they will not appear in the Xuanhuang world Start with the human race! The second is to collect more resources for the growth of the human race, so that the human race can prosper under the protection of us!"

"But now, we have a new mission. The Destroyed Demons have appeared in this broken place. They have secretly manipulated some ethnic groups and united with other ethnic groups to destroy the human race! This broken place has become a mysterious yellow world. The human race's outpost, once the human race masters of the Broken Land are exterminated by them, then the calamity and destruction of the human race of the entire Xuanhuang world may follow!"

"In fact, the overall situation of the human race in the human king city is gradually becoming bad! Some formerly hostile forces are now uniting and attacking the human race! For example, the tiger races you arrested when you came, although they are against the human race They are not friendly, but on weekdays they are unwilling to conflict with the human race, but in the last 100 years, these tiger races have often provoke the bottom line of the human race! Only this year, the human race who died under the tiger race's sage level above There are as many as thirteen masters!"

While talking, the princess couldn't help showing a heartache!

The talent of the human race is not dominant among the ten thousand races! In the entire Xuanhuang world, it takes an average of ten years to give birth to a powerful saint! But now, the speed of human saint realm decay has far exceeded the speed of natural replenishment. If things go on like this, the human race will decline rapidly. Perhaps one day the human race will have no sage, even if the ten

thousand races no longer besiege the human race, it will be difficult for the human race. Escape the doom of the ultimate genocide!

Fang Yue was surprised when he heard this.

Unexpectedly, the situation in this Xuanhuang world is already so bad!

Among the ten thousand realms, apart from the earth that gave birth to him and nurtured him, Fang Yue's feelings were deepest in this mysterious and yellow world!

Now that the world of Xuanhuang has suffered such a disaster, he must not be able to stand by!

"These people are really hateful, but what is the meaning of our arrival? After all, the three of us are at best saint-level combat power! If you are in the Xuanhuang world, you may be considered masters, but in this broken world The land, where there are many saints, and the great saints are like clouds, our strength is really not enough to be cannon fodder!"

A cold light flashed in the eyes of the princess.

"No, in this broken place, your effect is greater than in the Xuanhuang world. I have just said that this broken place is made up of planes and the fragments of the universe. There are actually many secret realms in the earth, and these secret realms actually have clear realm restrictions on those who enter! 30% of the secret realms only allow creatures below the leader realm level to enter them! For saints and even strong people above the saint realm You may not be strong enough, but I think you shouldn't have much problem with the alien races below the master level!"

At this moment, Fang Yue finally understood what the long princess was doing!

Geniuses have their own battlefields, and the older generation of powerhouses cannot interfere!

"I have prepared the first secret black dragon secret realm for you! It is said that it was the place where a black dragon of the imaginary fairyland level fell! This secret realm is still left by the black dragon during his lifetime. There are huge resources in it. I hope you can bring back ten drops of the black dragon essence and blood of this black dragon, and I can refine it into ten black dragon pills to help the ten powerhouses in the city at the top of the Saint Realm break through to the level of the Great Saint Realm. One step! You can freely divide up the remaining treasures, of course as a reward! I will give each of you the corresponding military merit points to redeem the resources you want in this king's city!"

The eldest princess Fang Yue and the others made a solemn promise, and made it clear that they wanted Fang Yue and the others to come to the Broken Ground.

She tells it all, without the slightest concealment.

And Fang Yue was also quite moved by the openness of the princess!

"As a member of the Xuanhuang World, I have the responsibility to fight for the fantasy world! And, on behalf of myself, I can donate 10,000 drops of Baicao Liquid and ten Suichen Dan to support the human masters in the King City!"

Fang Yue made a big deal when he shot!

This 10,000 drops of Baicao Liquid is not a normal Baicao Liquid but a one-level Baicao Liquid. The vitality in it is even stronger and can even moisturize the viscera for the powerhouse of the Saint Realm level. The Saint Realm powerhouse in this king's city has been for years. On the expedition, everybody was injured and ill. Although they looked as strong as a cow on the surface, only they knew how serious their injuries were!

As for Suichen Dan, it is to bring some elderly saints back on the battlefield! Regaining the years of a Jiazi can increase their combat power a lot!

"Baicaoye, Suichen Dan, Fang Yue, on behalf of Human Race, I thank you for your contribution! You, have a heart!"

The eldest princess, Yue Wei, gave a bow to express her gratitude!

The resources Fang Yue gave out are all practical, and for Wang Cheng, who is short of resources, it is simply a gift in snow!

"Boom boom boom!"

A rush of footsteps came from far away.

At this time, a silver armor was covered with marks of swords, guns and swords, and some soldiers who had not dried their blood begged to see him.

"What's the matter?"

The eldest princess frowned slightly. When she met with guests, she had the usual rules and did not allow others to disturb. The defenders in the royal city knew this rule, and since this warrior dared to come and ask for a meeting, something big must have happened. !

"The Rat Demon Race is attacking the Human King City! Now it is already under the enemy, and the Rat Demon Race is almost out of the nest this time. Almost 10 billion Rat Demon Races are gathering!

An abnormal blush appeared on the soldier's face, and suddenly, a scarlet light appeared in his eyes!

The warrior suddenly raised the long sword in his hand, raised his hand and slashed towards Fang Yue!

This long sword is tainted with strands of devilish energy, making this long sword more powerful in an instant, and it is no weaker than an ordinary saint's full blow to slash with one sword!

"you dare!"

The princess did not expect that someone would dare to commit a crime in front of her!

But this warrior's long sword almost slashed to Fang Yue's body very quickly!

Fang Yue let out a cold snort, the warrior's body immediately shattered, blood gushing, and even the sword-holding hand turned into a cloud of blood!

"Ah, no!"

The warrior's eyes regained clarity, and with a wailing, he fell down, knowing his life or death.

"He was controlled by the people who destroyed the demons! It's a pity for a strong master in the leader realm!"

Fang Yue glanced at this human warrior with regret. Although this guy hadn't died yet, his internal organs were already shattered under his sonic attack just now, almost cutting off all his vitality!

"Destroy the demons!"

The eldest princess clenched her fists tightly, and a horrible murderous intent revealed between her silver teeth!

"Although people are controlled by the Destroyed Demon Race, the news he just said is true! The people of the Rat Demon Race are really already on the battlefield. There are 30 billion people, this is to form the Rat Tide General King City. It will be flattened!"

The spirit of the princess has already revealed the castle, covering hundreds of kilometers of the city of Renwang.

The tide of Rat Demon races are endless, and the blackness is like a vast sea, which makes people hardly think of hope!

"Unexpectedly, I encountered this kind of thing when I first came here!"

Fang Yue shook his head and felt that his luck was indeed very sad.

"Fang Yue's matter this time has nothing to do with you. You just need to prepare for the secrets of the Black Dragon! These Rat Demon Races can't destroy my Human King City! The human king city's background is unfathomable, and the Rat Demon Race is extremely crowded. Many, but their average strength is too weak. Eighty percent of these rat demon races are at the rotation level. Even if they jointly conduct wars, they may not be able to achieve any climate!"

The face of the eldest princess has a strong confident light!

She has absolute confidence in her own strength and the defensive power in this man's royal city!

Fang Yueyouyou said: "Being able to sacrifice so many Rat Demon Races to besiege Human King City and draw the attention of countless masters in Human King City, this alien race will definitely have even greater attempts or conspiracies!"

Fang Yue's words broke the mystery.

These Rat Demon Races are just cannon fodder used to attract Human Race's attention. The key to this sound is where it is!

"The Rat Demon Race is the cannon fodder used to attract our attention?"

When the eldest princess heard the possibility mentioned by Fang Yue, she immediately felt that this might be the truth!

"This time there must be a clever commander behind the Rat Demon Race! If I were the commander of this man's royal city, I would now send a large number of spies to investigate, the real purpose of this alien race!"

Fang Yue's words fell, and the eldest princess directly sent orders and dispatched all her spies to investigate the movements of all races.

Sure enough, she soon received intelligence feedback.

The Mozu is mobilizing three thousand elite saints, I don't know where to go!

At the same time, the winged human race has also prepared a billion army, ready to invade the human king city! However, their direction is exactly the opposite of that of the Rat Demon Race, and they are preparing to outflank the other side of the Human King City!

Chapter 1639: War will begin

"This is a two-handed preparation! The three thousand saints of the Demon Race must have their own goals! And the Wing Human Race is preparing to sneak in while the other wall of the Human Race is guarding against emptiness!"

A trace of anger also appeared on the face of the princess. If it hadn't been for Fang Yue's reminder, maybe she was really caught in the vicious tricks of these people!

"Fang Yue, what do you think should be done?"

The Rat Demon Race is on the side, and the masters in their city can't walk away. If the Wing Human Race is added, the Human King City will suffer heavy casualties even if it can hold it.

This is Yangmou!

Even if it is people who have penetrated the city, what should they do?

Being weak is the original sin!

Even wisdom cannot make up for the absolute gap in strength!

"If it is me, first find a way to divide the Winged Human Race and the Rat Demon Race. Only in this way can the overall pressure on the Human King City be relieved! Since the Rat Demon Race is coming out of their nests, their rear must be weak guards! You can find a way to copy their nests during the attack of the Rat Demon Race!"

Fang Yue didn't have to be an expert when it came to fighting, but when it comes to stealing logistical materials from others, he is definitely top-notch.

From the time he debuted, he has a glorious history of moving away the demon warehouse.

Fang Yue naturally won't leave this glorious old craft!

"Copying the rat demon clan's hometown and distracting them, this is indeed a good idea, but now there is a shortage of manpower in the King City, and there is no good candidate!"

A look of embarrassment appeared on the face of the princess.

Fang Yue said courageously: "I'm here! Since the three of us have come to this King City, we naturally need to contribute our own strength to King City!"

Sima Xiao and Diyi also expressed their views.

When they came, they never thought about staying behind.

"In that case, let the three of you be together! Remember, if you are really in danger, you must save your lives. Besides, the potential of the three of you is too great, and your future potential and achievements will never end there, even if it is Your mission failed, you can't distract the Rat Demon Race, and the Human King City may not be lost, but if the three of you die, this Human Race will really suffer a heavy loss!"

The princess urged Fang Yue and the three of them to do what they could.

After that, the princess was still not at ease with the three of them, she took out three more talismans and gave them to them.

"Each of these three talismans contains a magical technique of a great saint realm powerhouse! If you encounter a life and death dilemma at a critical time, the spells sealed in this talisman may help you out!"

The princess's care for Fang Yue's three people has reached the point of meticulous!

Because this time, she really gave great hope to Fang Yue and the three!

"Thank the princess for your concern, we will definitely live up to our trust!"

Fang Yue and the three people left, and now the war is about to start, they will arrive at the den of the Rat Demon Clan as soon as possible, and they will be able to rescue the King City as soon as possible!

Watching the three of Fang Yue leave, the princess couldn't help muttering to herself: "I hope Sima Laogui can protect these three children this time! If they really have something to do, I am a sinner of the human race! "

The three of Fang Yue quietly left from a hidden side door in the King of Human City!

They had just left the King City and were about to shuttle through a jungle. Unexpectedly, they encountered a group of Rat Demon Race. The number of Rat Demon Race was too large. Although most of them had gathered from the south gate of King City, there were still some You Yong's skirmishers are wandering in the place of King City!

"Five hundred rat demons! Four hundred of them are at the level of rotation, 80 are at the level of Yin and Yang, 19 are at the level of the master, and the remaining one is at the level of the saint!"

Fang Yue had an insight into the strength of the Rat Demon Clan in an instant!

The configuration of this team is staggering, but in this broken place it is equivalent to the most normal team configuration!

"kill!"

Fang Yue spit out a word!

His eyes suddenly became sharp, and he could kill one more team of Rat Demon Race to relieve the pressure of the King City!

Sima Xiao had already made a move quietly. He knew that his strength was not as good as Fang Yue, so he did not aim at the rat demon at the saint level, but raised his hand to build an ice-covered house, bringing the five heads to the master level. The Rat Demon Race was trapped, reducing Fang Yue's pressure.

Paint the ground as a prison!

Sima Xiao alone seemed to be able to deal with the five-headed master-level rat demon tribe alone!

And Di Yi is holding down the other three-headed Sect Master Realm Rat Demon Race!

Among the three, Fang Yue is the real main force. The two of them can only assist and help Fang Yue share a little pressure!

Fang Yue had already rushed towards that saint-level Rat Demon Race.

The Rat Demon Race at the saint level did not underestimate the enemy. He could clearly feel that although Fang Yue's own cultivation level was not very high, there was an extremely terrifying aura hidden in his body!

The rat demon clan at the saint level raised his hand to summon a great judgment sword with a strong thunderous breath. The great judgment sword is ten meters high, falling from the sky and slashing towards Fang Yue's body!

At the moment when the Thunder Great Sword was born and slashed, the eleven Rat Demon Races who were still at the leader level of Liberty themselves without any interference at the same time chanted their spells silently, cast them, and the power of the spells was superimposed, and there was actually a new one in the void. The chains of the dark order, the chains twitched slowly in the void, producing a clattering sound, and the chains locked Fang Yue's body, like a poisonous snake, coiling towards his wrist and ankle respectively!

Chains of order, the world's strong under shackles!

Although this move was jointly performed by eleven strong masters in the master realm, it is not weaker than the strong real saints when it comes to real power!

The black chains shuttled through the hazy mist, and each chain rushed to the vital part of Fang Yue.

The Thunder Great Sword slashed down suddenly, and Fang Yue stood under the Thunder Great Sword.

The gleaming sword light contains endless land of destruction and judgment!

Fang Yue held the Thunder Great Sword in one hand, clenched his five fingers, and actually smashed the Thunder Great Sword into pieces!

At the same time, the dark chains had already wrapped around Fang Yue's wrist and ankle. But Fang Yuehuan didn't care.

He shook hard, and all the dark shackles broke! The ultimate move carefully brewed by the Rat Demon Clan did not cause any damage or difficulty to Fang Yue.

"Invincible, retreat, retreat all!"

The saints of the rat demon cried out, although he participated in this war with the belief that he was mortal, their deaths could not be so silent without any willingness!

The young man in front of him was simply too terrifying, all their methods were unable to cause the slightest harm to Yue!

The Thunder Great Sword was crushed by him, and the dark chains were still broken at will!

The ultimate move they displayed, even if it is a saint, it will have a headache!

But such a combination was crushed by a human race that didn't even reach the Yin and Yang realm!

This matter must be reported. If this young man who has not reached the Yin and Yang realm continues to grow so unscrupulously, then their Rat Demon Race will face an unprecedented powerful enemy!

"Want to leave? Does it feel a bit too late!"

Fang Yue said something casually, the saint of the Rat Demon Race suddenly felt a sharp pain in his chest!

He slowly lowered his head, only to see a big dark sword, not knowing when it had penetrated his chest from behind him!

The black sword seemed to be able to swallow all the light in this world.

The power of darkness in the wound continued to spread, and eventually swallowed all the vitality in the rat demon saint!

The other rat demon clan saw the saints of the clan fall, and they were all stunned!

The power of the Saint Realm, how high above!

How could he die in the hands of a humble human race at the pinnacle level of rotation?

Each of them opened their eyes wide and held their breath, and even the slightest thought of resistance could not arise in their hearts. Even the saints of the clan were dead. What power do they have to fight and resist the human youth in front of them?

Falling seems to have become their only destination!

Fang Yue brushed his hand and incorporated all these rat demons into the world of stone pendants!

Although these rat demon races are weak, the living ones are always better than the dead ones!

Keeping them may be of great use!

A five-hundred-member rat demon team was completely removed from the Broken Ground in such a quiet manner!

But this is only the preparation for the war that has not officially started. Among the 30 billion Rat Demon army, I don't know how many such teams are there. In the rat demon's crowded tactics, the stormy King City is again How long it can last, all of this will become unknown!

The figures of Fang Yue and three of them quietly disappeared from the small gate in the King of Human City!

The departure of Fang Yue's trio did not cause any disturbance to the entire battlefield.

After all, the three juniors who are not even the master realm, no one will notice their existence!

"I have just conducted a soul search for the rat demon at the saint level! There are eight places in the rat demon clan's old den. The rat demon cunning rabbit three caves, they seem to be worried that others will copy their lair so in advance. Prepared! So some preparations were made in advance!"

"But each of the eight old dens is extremely important! Although there are primary and secondary points, there is no difference between true and false! Destroying one at will can make the Rat Demon feel distressed and disturb the military's mind, and In addition, the Rat Demon tribe also has 30 billion troops from more than 8,000 different tribes. Although these tribes' gathering points are not as important as the eight lairs, their defenses are low. The psychological value is higher than that of the eight nests! So, we have many choices."

Fang Yue used his spiritual power to construct a defense map of the Rat Demon Race in front of everyone!

"It's so easy to get the security plan of the rat demon tribe. Will this be fake? According to my understanding of the rat demon tribe, this tribe has always been as timid as a mouse. If not, they are rats. Because they are careful, so in The war strategy will only be more conservative in the region! The Rat Demon Race is coming out, and they will most likely make some rear-hand arrangements in the empty nest! If this is the Rat Demon Race's trap, the three of us must be all of them. It's not enough to go in!"

Chapter 1640: Enter the warehouse by mistake

Sima Xiao still prefers to be cautious and conservative, his mind is delicate, even Fang Yue is sometimes inferior.

Fang Yue nodded: "What you said is not unreasonable, we can first find a relatively weak tribe of the Rat Demon Race to test it! If there is really a trap set by the Rat Demon Race, let's make other plans! "

Fang Yue locked a tribe named Calorie.

This tribe is the closest to the King's City. If something happens to it, it can be transmitted to the ears of the Rat Demon tribe army entrenched outside the King's City! If the tribe is successfully raided, it can also quickly disrupt the military's mind!

This sage-level rat demon can actually be rated as the best rat demon spy of the time.

Because in my memory, there are not only the deployment maps of the rat demon tribes, but even the spatial coordinates of most of the rat demon tribes.

This space coordinate point can be regarded as a navigation map for other people to arrive at the mouse demon tribe smoothly, but for Fang Yue, this is a teleportation that allows him to directly enter the mouse demon tribe. in accordance with.

The space was torn, and Fang Yue, Sima Xiao, and Di Yi entered in file!

"This is where?"

The three passed through the door of space and arrived at a strange place.

It's dark here, there is not even a little light!

"Don't worry!"

In Fang Yue's palm, a ball of milky white light slowly rose into the sky!

The ball of light illuminates the surroundings.

Rows of shelves are impressive!

"This place is the warehouse of the Rat Demon Race?"

Sima smiled and was stunned. The spatial coordinates of Fang Yue's transmission were a rough range, but their landing place was a precise location.

This time, the probability that they would directly enter the warehouse of the Calorie Tribe of the Mouse Demon Race is really too small!

The entire warehouse covers an area of only ten acres, but it is empty. Rows of shelves are neatly arranged. On each shelf are placed boxes of different styles or bottles of various kinds. Jars!

"This is the Sky Flint, the precious material used to forge magical artifacts for the Yin-Yang level powerhouse!"

"This is a stalactite of ten thousand years, which can be used to quickly restore the true energy consumed in the practitioner's body..."

Fang Yue and the others circled around the shelf a little bit, and they looked at each other!

There are all treasures in this warehouse! Almost all the materials and elixir needed by Yin-Yang realm and leader realm level!

"Get rich, get rich! Although the grades of these goods are not very high, they are mainly in large quantities! For example, these ten thousand-year stalactites are definitely the most precious war materials, and even the saints have an effect after taking them! A power As long as the exhausted saint takes this ten thousand-year stalactite, he only needs to adjust his breath for a moment to recover his strength in an instant!"

Fang Yue's tone revealed an uncontrollable excitement and joy!

At the very least, they won't return in the air this time!

Even if it did not disrupt the military spirit of the Rat Demon Race, just bringing back these war preparations could make the defenders of the royal city stronger!

"Earth profound stone, this is the material earth profound stone of the master level. If this thing is used to feed my little Xuanwu, it can speed up his growth! On weekdays, when I buy this kind of earth profound stone, it is all pieces. The effect is not obvious, but the Earth Profound Stones in this Rat Demon Clan's warehouse are piled together in piles, too extravagant! No wonder, in this broken land, the power of all races will be exhausted. They are all gathered here, the resources here are really a bit too tempting!"

Fang Yue couldn't restrain the excitement in his heart and said to himself.

And Sima Xiao has discovered the New World.

"And here, there are five-element spirit stones. In the mysterious yellow world, the five-element spirit stones are simply a legendary existence. This kind of spirit stone gathers the power of the five elements and forms a cycle system of its own! Any physical constitution can be absorbed. This five-element spirit stone balances its own five-element power and strengthens the circulation of the viscera, but no one knows that the five-element spirit stone is actually a good thing left over from the cultivation of the five-element divine body! Every five-element spirit stone can be used by later The five elements are absorbed by the divine body, inherited and helped by the predecessors!"

Sima Xiao found a fist-sized five-element spirit stone in the warehouse. He was so happy that he was dancing with his hands. With this five-element spirit stone to refine it, he could at least shorten the time of ten years of penance and gain the forerunner's time. Guidance, the comprehension of the Five Elements Divine Body can steadily step onto a new level!

"This holy blood stone is also valuable to me! This holy blood stone is an ancient saint-level fierce beast's essence and blood that has been petrified over the years. Although it is petrified, the energy in it has never been lost. I can use this holy blood stone as a sacrifice to summon at least ten beasts of the master level to fight for me!"

Di Yi, who has always been silent, also showed a rare smile!

For him, this holy blood stone is a killer.

The ten-headed beast at the master level is nothing to Fang Yue, but it is a rare aid to him. If you use it well, it will not be a problem even to besieged and killed the powerful who are new to the saint level!

In the warehouse, Fang Yue's trio had their own gains.

They quickly divided up the treasures in the warehouse, some of which were not needed for donation to the King City.

After all, the three of them are not living Leifeng, they also have their own needs, and the King City can help as long as they can. They are sorted in their hearts, and their own cultivation is the first!

After the warehouse was ransacked by the three people, they walked out of the warehouse in an open manner.

As soon as he walked out of the warehouse, the two yin and yang level guards of the rat demon clan in front of the warehouse were stunned.

When did these three goods go in?

Why didn't they see it?

The next moment, they reacted, the faces of these three people were obviously different from theirs!

"Enemy attack!"

The two mouse demon guards notified their teammates.

Fang Yue said with a smile: "Bye bye!"

An exquisite altar emerged from his palm, and a powerful suction suddenly rolled out of the altar.

The guards of the two rat demon races were drawn into the altar without any resistance!

However, this time, the altar was not sacrificed to Fang Han this time. Fang Han already had a large sacred-level clone walking outside, and this low-level sacrifice could no longer be included in his eyes!

Fang Yue chose a fallen demon **** in the **** world for sacrifice, and these two rat demon tribes are just an appetizer!

The alarm of the mouse demon guard is quite useful!

In a blink of an eye, from different positions in the tribe, there was a rat demon clan armed to the teeth.

Fang Yue's eyes passed.

There are a lot of them!

Thousands of rat demons, among them there are 30 masters at the master level and two demons at the saint level!

These people are obviously the normal defenders used by the Rat Demon Clan to stay at the base camp.

Although the elites of the clan are already coming out of the nest, it is a normal idea to leave a part of the strong in the tribe to guard their homes!

But for some reason, after seeing these Rat Demon Races, the anxiety in Fang Yue's heart suddenly became intense!

Are there really only these rat demons?

Fang Yue smelled a faint salty smell in the air, this is the smell of the sea!

"You have been surrounded by us, you humble human races have become poor pawns! Tsk tsk, three little reptiles who don't even know the level of the master state dare to attack the ancestral land of my calorie tribe, I really don't know what to do Say whether you are self-defeating or your courage is commendable!"

Wu Kun, a powerful saint in the Rat Demon Clan, walked out of the many members of the Rat Demon Clan. His eyes looked at Fang Yue with ridiculous light!

Fang Yue, the saint of the rat demon tribe, happened to know him, not because of how much he had done with the rat demon tribe before, but because the saint of the rat demon tribe who plundered his memory before had an introduction about this Wu Kun in his mind. !

The strong man of the third level of the Saint Realm is good at conspiracy and witchcraft. The flesh is his fatal weakness, but he never exposes his weakness to the world!

"No, you should be surrounded by me!"

Fang Yue spoke slowly, his tone clear and clear, he had never thought that this sneak attack on the rat demon clan would be a smooth journey.

Therefore, Fang Yue had already made sufficient preparations.

Wu Kun grinned: "What nonsense are you talking about, how can you surround us with the three of you?"

"Are they three?"

Fang Yue slowly raised his palm, and a strong death breath poured down from his palm.

"Actually, I didn't want to disturb the undead to rest, but in the age of war, the line of the undead is the real protagonist!"

With the spread of death, the palms of the earth broke open, and then, skeletons crawled out of the ground.

The bones of each skull are dyed with gold winks, and the surface of these skulls exudes a strong smell of death!

This skeleton is not one head or two heads, but hundreds!

If Fang Yue does not summon, once summoned, he will give the Rat Demon Race a powerful shock!

"No, it's impossible! How can you summon so many and such powerful golden skeletons from the underground!"

There was an incredible look in Wu Kun's eyes!

Because the skeletons that Fang Yue came out were not skeleton soldiers in the traditional sense, but skeleton kings who had reached the level of Yin and Yang realm or even the leader realm!

These Skeleton Kings are originally the body of the undead, they are not afraid of death at all! Moreover, their bodies no longer have any vital points, no matter if you are slashing with a sword or burning with flames, you can't leave any scars on their bodies!

"When death comes, no one can escape the trial of the nightmare!"

Fang Yue spoke like a whisper, he was surrounded by many Skeleton Kings, and at this moment he was more like a demon **** descending from the underworld!

"What about the Skeleton King? All will become bones under my feet in front of absolute power!"

Soon, Wu Kun regained his mentality, and the number of skeleton soldiers increased, and even reached 1.5 times the figure of the Rat Demon Warriors under his command.

However, these skeleton soldiers have a fatal weakness, that is, there are no saint-level skeletons among them!

Among these left-behind rat demon races, there are two sage-level existences, and the sage-level has absolute power to crush the creatures below the sage!

This also led to the fact that this war was doomed from the beginning!
