

## God of Life 1661

### Chapter 1661: Daughter buy bone

"Hai Ling Guo, I have also heard of the magical effect of this magical spirit fruit. This kind of fruit can only mature once every 100 years. It contains fragments of the Great Dao, and it has a magical effect on the practitioners' enlightenment!"

Fang Yue is not unfamiliar with Bailingguo. There are several such fruits in his pocket. These fruits were obtained from their warehouses when he looted other rat demon tribes, but the number was not large. Fang Yue is not even willing to use it for alchemy!

"For Bailingguo, there are a total of 13 Bailingguo fruit trees in our Uka tribe. About 1,000 Bailingguo trees can be produced every one hundred years. If there is a balance of about 3,000 fruits in the tribe's inventory !"

Rosen directly broke out his own family background.

With so many Bailingguo stocks, even the high-level Rat Demon clan didn't even know that if they were caught by them, those people would definitely become greedy and take it by all means.

"These Bailing Fruits are indeed invaluable! But for your tribe, they should be of little value. Those who are qualified to eat them are all eaten now. Those who are not qualified. It is a waste to eat them! I am willing to pay some price in exchange. These Bailing Fruits, for example, I can heal your two saints!"

Fang Yue looked at the two powerhouses of the two saints of the Uka tribe behind Luo Sen. Their current situation was quite miserable.

The dignified saint, but now even the strong in the leader realm is not necessarily able to kill. They are tigers falling into the Pingyang, and it is difficult to guard the integrity of the Uka tribe.

"If Master Fang Yue can heal the two saints, my Uka tribe is willing to offer a hundred lark fruit as a gift!"

Rosen was overjoyed, he didn't know that Fang Yue still knew the methods of treatment.

Nowadays, one saint in their clan has been exterminated, and the remaining two saints are half-handicapped. The top priority is to restore the cultivation of the two saints, so as not to be bullied by others. The inheritance left by the ancestors is difficult to preserve. !

"it is good!"

Fang Yue agreed.

He invited the nine-tailed white fox out of the white jade small tripod, and he had to tie the bell to untie the bell. The nine-tailed white fox waved his hand to invite out the ray of light in the saint of the Uka tribe, and no longer suppressed his sage. .

The saint of the Uka tribe recovered nearly 80% of his cultivation strength on the spot. He held his fist to express his gratitude and gratitude! And Fang Yue waved his hand, indicating that you are welcome.

After that, Fang Yue walked to the side of the other saint, and pressed his palm with one of his shoulders.

He used the Heavenly Way of Life, and the radiant auspiciousness fell into the saint of the rat demon tribe. Under the baptism of those rays, the holy blood of the rat demon tribe gradually recovered. Although it has not recovered, at least it has been recovered. There are signs of improvement.

"This is not broken or standing, standing after breaking, two people, in fact, this life and death crisis may not be a good thing for you! As long as you can survive this time and feel the horrible changes between life and death, you will have a hundred in less than half a year. A chance to go further!"

Fang Yue dialed the two saints of the Rat Demon Race.

They all nodded and agreed with Fang Yue's statement.

Penance is not the way. Sometimes after encountering a bottleneck, the battle of life and death can loosen the bottleneck of their realm and have a chance to advance!

"I still have a hundred drops of life essence here. Although it has been partially diluted, the two of you only need to refine day and night, and within ten days, you can naturally return to the level of the previous peak state!"

Fang Yue took out a small porcelain bottle, which contained a hundred drops of life essence, but the concentration was not very high. Fang Yue added some herbal liquid in it.

This is not Fang Yue stinging, but Fang Yue's discovery that the life force contained in the pure life essence is too strong, and it is not tolerant. If many people who have been seriously injured absorb the pure life essence, it is because of the life essence. The vitality in is too fierce and may hurt their roots!

"The essence of life, this kind of material is too precious, I can't afford it!"

A saint from the Rat Demon clan spoke up, his expression excited, but despite his desire, he finally declined.

The essence of life is too precious, even some high-ranking nobles in their Rat Demon Clan will not get a drop.

This requires the extraction and refining of hundreds of herbs, or the way of life.

No matter which way of obtaining it is quite difficult.

"No problem, since you and I have formed an alliance, we will try our best to help your Uka tribe grow up! Only when your power grows, our cooperation can be better carried out!"

Fang Yue calmly explained to the saint of the Rat Demon Race.

The two saints of the Rat Demon Race were extremely moved.

"Thank you Master Fang Yue for the gift! My clan is willing to offer two hundred Lingguo!"

Rosen naturally knew the preciousness of this essence of life, and he was no longer stingy, and directly took out two hundred lark fruits.

Fang Yue accepted Bailingguo.

"This lark fruit is indeed of great use to me, but as I said before, I will heal the two saints of your clan, and you will pay a hundred lark fruit as the price! Since the deal has been concluded, it is not easily changed again! Why not, I will help you sort out your vitality and blood. How about a reward for another hundred lark fruits?"

As Fang Yue said, he put a hand on Luo Sen's shoulder.

A wave of reincarnation vitality poured into Rosen's body, flowing along the meridians in Rosen's body. Lawson's meridians are aging, and there are places where Zhen Qi is stagnated and blocked in many places.

In fact, Rosen's age is not very large. According to the calculation of lifespan, at least there is still a lifespan of about a thousand years. However, his vitality and blood have withered early and went downhill. Most of the reasons are because of the hard work of Rosen over the years. Excessive and left some dark diseases in some battles that are difficult to heal, so it affects the normal operation of blood in the body. If the meridians are dredged and the dark injuries are cured, at least it can make Rosen hundreds of years younger!

Fang Yue's invigorating nourishment nourishes the flesh, allowing Luosen's hidden wounds to heal quickly, and some of the silt is also washed away by him.

The wrinkles on Rosen's forehead disappeared at a speed visible to the naked eye.

Rosen suddenly screamed!

The siltation in his body is normal, and the true energy in his body is like a rushing river venting, he broke the bottleneck that had troubled him for many years and reached the ninth level of the leader realm!

There was a faint light in Rosen's eyes.

He looks all around, and his black hair is like a waterfall. At this moment, he no longer sees the slightest oldness of the past.

It seems to have become a young God of War, able to fight all over the world!

"Master Rosen!"

Many people in the Uka tribe witnessed this magical scene, and their hearts were surprised and celebrated for Rosen.

Rosen has worked hard for the Uka tribe for many years and has done many contributions and great things.

Now that Lawson's cultivation realm and his longevity extend, it is a major event for the entire Uka tribe.

"I have a hunch. Over the years, I have accumulated a lot of knowledge, and after this breakthrough, I may be able to break through again within a hundred years and reach the level of a saint!"

Rosen didn't speak wild words. Although he hadn't made any breakthroughs in these years, he still insisted on practicing and comprehending various scriptures. Now the problems that have plagued him for many years are solved by Fang Yue.

All his accumulation over the years has exploded, far from being consumed by breaking through a small realm.

"Congratulations, Lord Rosen, about to break into the Holy Land!"

Fang Yue smiled, congratulations to Rosen.

Rosen smiled and said: "If it were not for the help of Master Fang Yue, how could the old man have such a good luck! A hundred lark fruit in exchange for the opportunity of the old man's sanctification, after all, the old man made it!"

Seeing the saints of the Uka tribe recover and Luosen broke the realm, those saints of the Xiluo tribe were also secretly anxious!

Who would have thought that Fang Yue would have such courage and supernatural powers, fair trade, and quickly restore the strength of the Uka tribe, even to a higher level!

"I also have some good things in the Xiluo tribe! For example, Yan Luo Tu and Sun Moon Stone can be traded with Master Fang Yue!"

Fang Yue, the saint of the Xiluo tribe, spoke, and Fang Yue smiled.

This method of buying bones for a daughter is really easy to use.

Maybe he can become the biggest shoulder customer in this broken place in the future!

Fang Yue left the Luosen tribe after half a day, and he is already making a lot of money right now!

Fang Yue has gained a lot, and all kinds of rare wizards are in his pocket. Of course, he also paid some pill and the like as a deal.

The mouse demons are good at collecting resources but not very good at alchemy and refining.

The pill is an extremely precious resource in the Rat Demon Race, and the price is much higher than the average resource!

Fang Yue and others returned to the King City.

He took out fifty lark fruits and immediately let the princess look at them.

She didn't expect that Fang Yue's plan would be really successful, and she would be able to harvest a precious resource like Bailinguo!

"Fang Yue, Human King City has experienced a great battle. Although there has never really been a war of destroying the city, it consumes a lot of human resources, manpower and material resources! These lark fruits can only be purchased at normal material prices. , I hope you can be more considerate!"

The eldest princess also felt embarrassed to make such a request. This lark fruit is quite precious, how can it be purchased at the price of an ordinary elixir at the master level!

Its value is more than three times the value of ordinary spiritual medicines at the master realm level, especially this lark fruit is extremely scarce, it is really on the market, and the market price can even get five times the price of other spiritual medicines at the master realm!

Fang Yue said nonchalantly: "It is my long-cherished wish to make the King City stronger, let alone give me some resources as compensation, even if it is not, I am willing!"

Fang Yue actually traded nearly 3,000 lark fruits from the Uka tribe this time.

But he just took out fifty lark fruits and gave them to the princess.

Although Fang Yue has a sense of belonging to the Xuanhuang world, his sense of belonging to the earth is stronger in his heart!

The people of the earth also need various resources. Fang Yue kept these Bailing fruits for the people of the earth to consider and plan!

### **Chapter 1662: Zhang Family**

After Fang Yue got the corresponding resources from the princess, he left by himself.

And just after Fang Yue left, a gray-haired saint rushed in angrily.

"Princess, although Fang Yue is kind to our King City, but the war in King City is just beginning, the people and soldiers in the city all need to recuperate and cultivate various resources. How can you give so many precious resources to Fang? Where is Yue?"

"Ten thousand years ancestral ginseng, blazing fire \*\*\*\* liquid, immortal holy blood... these are the most precious elixir..."

The gray-haired saint made a noise in front of the princess.

He did not show the slightest fear or awe because of the breath of the princess's great saint realm powerhouse.

"Zhang Yuan, let me finish talking! This Fang Yue didn't come to ask for supplies from my King City this time. He exchanged these supplies with fifty Bailingguo. Speaking of which, Bailingguo has a rare effect. It's hard to find on weekdays, but my Wangcheng has gotten the cheapness of Fang Yue!"

The princess explained patiently.

This is the Zhang Family, one of the four great families in the King City!

Zhang Yuan also shoulders the responsibility of preparing supplies for the King City, so he came to make a fuss, in a sense, it is also a question within the scope of his duties.

"Fifty Bailing Fruits! Where, where, hurry up and take a look!"

Bright light appeared in Zhang Yuan's eyes. This Bailingguo is an immortal fruit that will inspire veteran saints like him. Even if the Bailingguo is refined into an elixir, it may be possible for his cultivation to be renewed. Improve a little realm!

The princess took out fifty Bailing Fruits and placed them in front of Zhang Yuan.

Zhang Yuan saw these Bailing Fruits and immediately said: "These Bailing Fruits must be strictly distributed among the treasure house of the King City! And Fang Yue, since he can surrender fifty Bailing Fruits, he is very likely to have it in his hands. There are more Bailing Fruits. Now, the King of Human City is waiting to be flourished. He is a member of Human Race and has the obligation and responsibility to hand over the remaining Bailing Fruits!"

Zhang Yuan's tone became extremely blunt.

But the eldest princess frowned and said: "Zhang Yuan, this Fang Yue is the hero of my royal city. You have to treat Fang Yue well and not be too tough!"

Zhang Yuan said impatiently: "What hero? Since he is the human race of my Xuanhuang world, it is his duty to guard the city of the king. He can reach the level of the rotation realm that is comparable to the saints. , He must have a big secret in his body. As a member of the human race, he should reveal all his secrets so that the tianjiao and the strong in the royal city will become stronger!"

Zhang Yuan's attitude was extremely public, and even the eldest princess had never been regarded by him.

Who is he?

He is from the Zhang family!

In this king's city, it is not the eldest princesses and others who dominate everything, but Zhang Wang Li Zhao, the four immortal families!

"Zhang Yuan, dare you!"

The eldest princess had already heard the insult in Zhang Yuan's tone.

She said angrily to Zhang Yuan.

Zhang Yuan coldly snorted: "Princess, you better respect it! Don't think that you are a great saint. In fact, you are a dog in the eyes of my Zhang family! If you are obedient, my Zhang family will be fine. Eat and drink to serve you, give you the right to command the countless fighters in this man's city! If you dare to defeat the will of my Zhang family, tomorrow you may become a traitor and prisoner in the man's city! Become the most humble The glory of the past is gone!"

Since Zhang Yuan had completely torn his face, he didn't care to tell the truth as he believed it.

The princess's heart was full of anger.

Unexpectedly, she has dedicated her youth to Wangcheng over the years, and has been born and died countless times, but in the end she will end up with this kind of evaluation, this kind of fate!

"Zhang Yuan, you are responsible for what you say!"

The eldest princess pointed to Zhang Yuan with an urge to curse.

Zhang Yuan sneered: "Of course I will be responsible for what I say!"

Zhang Yuan walked away after speaking.

The eldest princess wanted to pursue it, but found that the two great sages of the Zhang family did not know when they appeared, and they actually blocked the eldest princess's path!

"Princess, I haven't seen you for a long time, why don't you sit down and drink some tea to reminisce about the past?"

One of the great sages of the Zhang family seemed to be amiable, but he sealed all the way out!

The eldest princess's complexion was ashen, unexpectedly the Zhang family had been plotting against Fang Yue this time!

"Fang Yue, I am sorry for you! If you can survive this time, I will definitely compensate you!"

The princess said secretly in her heart.

Fang Yue is wandering in the King City. The materials in the King City are rich. Some jewels that are hard to see in the outside world can be seen everywhere in the King City.

At a small stall, Fang Yue saw a holy blood stone. This holy blood stone, as its name suggests, was condensed by coincidence with a drop of saint's blood.

If this kind of stone is ground, it can be turned into a precious material for fabrics.

Fang Yue was bargaining with the vendor at the stall.

At this time, a soldier from the leader realm in silver armor came over.

"You are Fang Yue?"

When the silver armored warrior met Fang Yue, his tone was rather cold.

Fang Yue frowned.

"Who are you?"

Fang Yue got up slowly, and by the way, he handed a 3,000-year-old bluebell to the owner of the vendor, and he exchanged the bluebell for the holy blood stone.

"I am Zhang Ling, the Zhang family's guard. My Zhang family is looking for something to do with you, so please come with me!"

The soldier of the Zhang family was domineering, with his nostrils facing the sky.

His Fang Yue's attitude was extremely brutal, and he didn't mean to invite anyone at all.

In Fang Yue's feelings, this Ling didn't seem to have come to invite people at all, but it seemed to be a prisoner.

Fang Yue could not help but snorted: "I have never met you from the Zhang family, so I don't want to go to your Zhang family!"

Fang Yue refused directly, simply and neatly.

But the soldier of the Zhang family showed an impatient expression.

"The person I want to invite from the Zhang family is not unavailable in this King City! I urge you to get acquainted and follow me obediently, otherwise, if I ask someone from the Zhang family to ask for it, I'm afraid that's not the case. Be gentle!"

Zhang Ling's tone was even stronger, and he didn't put Fang Yue in his eyes at all.

In Zhang Ling's heart, in this king's city, their Zhang family is the earth emperor. If one word falls, the whole king's city can be bloody. Who dares not follow?

Fang Yue's coldness deepened upon hearing this.

This family is not good, and he dared to scold himself in the public.

He is the hero who saved the city of human beings. Isn't this family worried that it will ruin its reputation and be disgusted by the people in the city?

"Is it because I have been a little too soft these days, so that you have forgotten my majesty?"

Fang Yue's voice became low.

When he opened his mouth, that Zhang Ling frowned slightly.

"what are you going to do?"

"I don't know the purpose of your Zhang family, but your attitude is not friendly! So I decided to refuse your invitation. If you want to come to the hard side, do it!"

Fang Yue was fairly straightforward, and he was ready to run away at any time. Because he secretly contacted the eldest princess, but he couldn't contact him. This is not good news!

"I have known that Fang Yuejie is not inferior, but now I have seen it, my Zhang family guardian Wangcheng has been for thousands of years, and you dare to scold me in the street. It is disrespectful! Just at this point, my Zhang family It's to capture you and give you some advice on how to be a human being!"

A stronger voice fell.

Then a strong man of the ninth level of the saint realm appeared, and his head was disheveled, like a demon coming out of hell, his whole body exuded a wild smell.

"This is... Zhang Teng! He actually came! Legend has it that this Teng should have entered the level of the Great Holy Realm long ago, but he was determined to become the strongest Great Sage, so he refused to make the last step. One step! A hundred years ago, there were rumors that the power of one person was the combination of killing two demon great sages. Now his combat power is probably stronger than the average great sage!"

Someone secretly argued that this family really paid enough attention to Fang Yue, and as soon as they showed up, they were such a powerful person who was comparable to a senior saint! Where can ordinary Tianjiao get such treatment!

"Do you mean this servant from the Zhang family? He was the first to speak rudely to me, shouldn't I still flatter him with a good voice?"

Even though Fang Yue felt the oppressive sense of Zhang Teng's body like a mountain like a sea, he still didn't have any cowardice.

"It's a waste of such a small person to let the Deep Sea Evil Jiao come as a ration!"

Fang Yue spoke, and the Deep Sea Evil Flood from his small white jade cauldron really rushed out.

It opened its mouth and swallowed Zhang Ling into its abdomen.

Zhang Teng couldn't help being furious when he saw this. The person in the king's city, whoever saw him was not respectful and fearful. This Fang Yue was so arrogant that he dared to attack the Zhang family in front of him, if he didn't kill him. Fang Yue, isn't this family's face in the City of Kings completely lost?

Zhang Teng reached out with one hand, five fingers like five mountains.

Each finger exudes the breath of a great road, and the five great roads have sealed Fang Yue's way alive!

"The Great Sage made the shot himself, I really have a lot of face!"

There is no lack of irony in Fang Yue's words.

"You are so active in dealing with me, but why didn't you see you in the race battlefield that day? You can kill me naturally, but you have to become a giant!"

A biochemical giant walked out of Fang Yue's small white jade cauldron.

That biochemical giant is an out-and-out expert of the Great Sacred Realm, his aura level is more than that of Zhang Teng!

The biochemical giant's genetic chain was broken, damaging his own wisdom, and now he just felt close to Fang Yue and decided to follow Fang Yue temporarily!

The appearance of the biochemical giant surprised Zhang Teng.

In order to preserve its strength, Zhang Family didn't let Zhang Family's too many Saint Realm and Great Saint Realm powerhouses take action, so Zhang Teng has never seen a biochemical giant. I don't know that Fang Yue actually has this kind of summoning a Great Saint Realm powerhouse. The means of the winner!

The biochemical giant roared wildly, and the sound wave was like thunder, and even the five drooping avenues were scattered.

Zhang Teng vomited blood back, his complexion became colder.

This biochemical giant is indeed extraordinary, and his body contains an incomprehensible destructive power.

There was a light of jealousy in Zhang Teng's eyes, and there was some speculation in his heart, I am afraid that he can only fight with this biochemical giant with all his strength.

## Chapter 1663: Escape

But where is it?

This is the King City of People and the territory of the Zhang Family. In this place, the Zhang Family lacks everything. The only thing that is not lacking is the strong standing in the sky.

Zhang Teng secretly asked for help from the family, only for a while, two more powerful men from the Great Sacred Realm of the Zhang family came out.

Each of them is majestic, ten times stronger than Zhang Teng's aura.

Even if a biochemical giant stood in front of Fang Yue and shared 90% of the pressure for Fang Yue, Fang Yue could still feel the overwhelming pressure.

"How can Zhang's majesty be offended?"

A great sage of the Zhang Family said with all intent.

Fang Yue's complexion was pale, although his deity had already broken through to the Yin-Yang realm level, he still felt an unstoppable feeling in front of the Great Sage with only a spiritual energy clone!

"What a Zhang Family! What a King City!"

Fang Yue looked around, all of the onlookers looked indifferent and didn't want to help him at all, and show him justice.

Fang Yue couldn't help but feel cold. He didn't expect that what he worked so hard to guard was a group of such ruthless people.

"Fang Yue left all the secrets in your body. I can allow you to leave your life after you abolish your cultivation base!"

The great sage of the Zhang family was aloft, as if it were a gift.

A strange smile appeared on Fang Yue's face.

He brought the biochemical giant into the small white jade cauldron, and then said: "The news of your Zhang family seems to be not well informed! Do you know what method I am best at? Space and heaven, come and go without a trace! If you want to leave, do you think it's difficult to stop living by relying on your waste?"

Fang Yue's figure is illusory, and he wants to melt into the void when he uses the ten thousand world body desires.

The great sage of the Zhang family sneered and said: "I naturally know that you have extraordinary attainments in space and heaven!"

"So we have already set up a net to wait for you to enter the urn!"

The great sage of the Zhang family spoke, his face showing an evil smile.

Fang Yue's face changed slightly, and he suddenly felt that the surrounding space seemed to have been refined by people, and he could not completely integrate with it and become one.

"How? Feel it! In this King City, my Zhang family is the absolute master!"

The great sage of the Zhang family opened his mouth proudly: "The King of Human City is eternal and immortal. There are hundreds of millions of patterns crisscrossed in it. If the entire King City is fully recovered, it will definitely be comparable to a real fairy artifact. Every inch All of the space has been refined, even if the space and the heavens are weird and inexplicable, they cannot let you come and go freely in this man's city!"

"Fang Yue, hurry up and surrender all the secrets in you. My Zhang family can consider domesticating you and becoming our slave!"

Zhang Teng's face once again had that kind of arrogant expression, even if Fang Yue was able to summon a creature of the Great Sacred Realm level, what about? In the end, it's not about surrendering all the secrets and becoming the puppet and slave of their Zhang family!

Fang Yue's face was not very pretty.

"Unexpectedly, my first spiritual energy clone would explode here! What a Zhang family, what an ungrateful person Wangcheng! This time, Fang Yue, my eyes, will be repaid for today's cause and effect!"

Fang Yue's figure disappeared.

Turned into strands of spiritual energy in the world.

"This is not Fang Yue's deity?"

Zhang Teng's face changed drastically.

Seeing Fang Yue's figure dissipate, he didn't know that they had become villains this time, and all their efforts were in vain!

"Spiritual avatar, has this Fang Yue ever gone to the extreme level in the heaven and earth realm?"

A great sage of the Zhang family was also slightly pale, he was knowledgeable and saw some clues!

There are rumors that in every realm to the extreme level, practitioners will gain all kinds of incredible magical powers.

Among them, the aura clone is the ultimate expression of the world!

In the depths of time and space, Fang Yue's deity opened his eyes.

The strands of silver light flew from the void and fell into his Dantian.

"The ultimate in rotation, the magical powers that were born turned out to be eternal immortality! All things rotate, cycle endlessly, without increasing or decreasing, without being dirty or clean!"

There was divine light in Fang Yue's eyes.

He originally wanted to explode his clone in King King City. Even though he couldn't make a noise in King King City, he could at least injure the nearest Zhang Teng.

However, just before he blew up, there was a glimmer of enlightenment in his mind.

A magic trick emerged in his mind.

This is the magical powers of heaven bestowed by the ultimate rotation realm.

Eternal immortality!

It is possible to return the origin of the clone to the deity, and all the cultivation results of the clone in the outside world will be transformed into the origin and return to the deity.

The return of the clone is much better than the blew ending.

"At the level of the rotation realm, every practitioner will have a different understanding of Tao and Dharma! The ultimate heavenly powers will also be different!"

Fang Yue said to himself, there was no joy or sorrow in his heart.

This heavenly Dao magical power is the original gift of the universe. It fits the Dao and cannot be deciphered, but at the same time it cannot be taught and learned.

"My clone escaped from the King of Human City and ascended to heaven. I just don't know how Di Yi and Sima Xiao are? And Pu Mo, I don't know if she is in the Broken Ground. With such a powerful and domineering skill in the Zhang Family, he will definitely cut the roots. !"

Fang Yue's deity immediately closed his eyes.

He has evolved a ray of spiritual energy clone and fell into the broken ground!

The broken place, at this moment, has already risen boundless chaos.

The birth of the seventh realm did not open up a rare gods as people imagined, but entered a land of nightmares.

Various demons were released!

These creatures have various appearances, but these creatures have one weird thing in common, that is, all creatures are extremely powerful.

The weird methods possessed by some creatures, even the powerful in the Great Sacred Realm shunned them for fear!

Renwangcheng, no one was involved because of Fang Yue's suggestion, and was fortunately avoided in the end.

However, in the royal city of humans, it is also treacherous at this moment, and the atmosphere in the royal city is exceptionally cold and solemn!

Fang Yue was hunted down for the unwarranted charges of the Zhang family. Although he did not die in the end, it also chilled many powerful people in the royal city.

The eldest princess was so angry that she repelled the obstacles of the two great saint realm powerhouses of the Zhang family with her longevity, and walked away, threatening to never enter the king's city again in this life!

When Di Yi and Sima Xiao were leaving the King City, they were stopped by the eight saints dispatched by the Zhang family, trying to take them back to the Zhang family and become their hostages.

However, Sima Chang suddenly appeared at this time, and he smashed the eight saints of the Zhang Family with a roar, and took Di Yi and Sima Xiao and left the broken place!

In the evening of the same day, a young man who claimed to be the ancestor of the Fang family came to Renwang City. He wanted to find Fang Yue's trace and lead him back to the Fang family's ancestral home.

However, the three great sages of the Zhang family came together and wanted to detain the recruiter of the Fang family. The young man just brushed his sleeves. The three great sages of the Zhang family were all broken into pieces. Clouds of blood mist.

Zhang Family's rage opened the restriction of the King of Human City. However, the formation of King City of Human Being able to confine the powerhouse in the real fairyland failed to this young man, and finally made the young man go away.

"Who is that young man? What is his identity in Fang's family? Why does he take me back to Fang's family?"

When Fang Yue heard these news, he was extremely puzzled.

However, he quickly let go of the doubts in his mind. The situation in this Broken Land is complicated. In fact, according to the truth, he should not continue to intervene in the matter.

But Fang Yue was not reconciled.

Although the Zhang family was stealing chickens this time, they couldn't resist eating. Not only did he fail to capture him alive, but he continued to lose his troops for various reasons, but he hadn't personally punished the Zhang Family and prevented the Zhang Family from paying some price. Fang Yue felt that it was difficult to swallow this bad breath!

"You are Fang Yue?"

Soon after Fang Yue's arrival, a young man with purple pupils and purple hair, fair skin, and handsome appearance found Fang Yue.

This young man's cultivation level was probably at the same level as Fang Yue at the level of Yin and Yang, but Fang Yue felt an extremely ancient and profound aura from him!

"It's under, dare to ask the son where he is?"

Fang Yue looked at this young man up and down, he did not look strong, but every inch of his skin seemed to contain the power of mountains and seas!

"Samsara, Yin! I came this time because of the opening of the seventh realm! Because I felt the same aura in your body, so I came to see where you are!"

Yin's smile is bright, harmless to humans and animals, like a boy next door.

However, the longer Fang Yue's time was, the more he could feel that Yin had an extremely powerful and cryptic force.

"Reincarnation? Although I promised to accept the assessment and become a reincarnation, even I have completed the task of reincarnation, but after so long, I have never come to my door to confirm my identity. It's too clear whether I am considered a reincarnation!"

Fang Yue told his own situation, even he didn't know his identity.

Yin laughed: "It turns out to be a young child, but it doesn't matter! I can be sure that you are a reincarnation! As long as the reincarnation completes the assessment task, you will naturally have the breath of reincarnation! It's just that your seal of reincarnation has not been opened yet, you need a A reincarnation messenger is here to open the reincarnation seal for you. Tsk tsk, look at the breath of reincarnation in you. Your reincarnation messenger should be the mad woman Gong Youmeng! If someone Li Daitao opens the reincarnation seal for you for her, I am afraid they will be She has been chasing for thousands of years, it is impossible to get out!"

Yin's voice fell.

At this time, an illusory figure emerged.

The owner of this illusory figure is Gong Youmeng.

She grievedly said to Yin: "Yin, you have a big mouth, and you are talking bad about me outside?"

Gong Youmeng's voice remembered.

Yin immediately covered his mouth.

Damn it, why didn't this mad woman come out early or late? What happened at this time?

In front of Gong Youmeng, Yin immediately changed from a cold boy to a licking dog.

He said to Gong Youmeng: "Youmeng, you are beautiful and beautiful, and you are naturally beautiful. How could I say bad things about you behind your back?"

#### **Chapter 1664: Samsara's first mission**

"Yin, your big mouth, if I hear you say bad things about me next time, I will tear your mouth! Brother Fang Yue, brother, you must never learn from him, this big mouth, sooner or later It's on my own nonsense!"

Gong Youmeng snorted, and then turned his gaze to Fang Yue.

"Actually, you have completed the task a long time ago, and I also know your situation, but these days I am completing a task and it is difficult to get a chance to escape, so I did not officially activate the mark of reincarnation in your body! This time Yin found you, I Also, the next projection came with the

reincarnation mark in his body. I will activate your reincarnation mark and make you a true reincarnation!"

Gong Youmeng's voice fell, and a finger of her bare hand touched Fang Yue's chest!

Fang Yue felt that there was an ancient force in his body slowly recovering.

Fang Yue's divine mind is connected with the mark of reincarnation, and this mark of reincarnation also issued a mission for him.

"Trigger mission: Enter the seventh realm, find at least three fragments of civilization, complete the mission, get 500 reincarnation points, and upgrade the reincarnation authority to level 1 reincarnation!"

The ancient and vicissitudes of life came from the mark of reincarnation!

Fang Yue heard this, it seemed that he was destined to enter the seventh realm with Yin at once!

"Why, the hidden mission was triggered?"

Yin looked at Fang Yue with a faint smile.

Fang Yue nodded slightly: "Seventh Realm, look for three fragments of civilization!"

Yin Shit sighed: "It seems that this Mark of Reincarnation should have a high evaluation of you. I remember that when I took over this difficult task, it was when I completed the seventh reincarnation mission! However, the evaluation of this Mark of Reincarnation High, the reward for completing your task is also high! This reincarnation point is a good thing. When you become a senior among reincarnations, you will find that it is difficult and easy to reincarnate, and it will give people a saint-level pill, You may not be willing to exchange it with reincarnation points!"

"Enter the seventh realm!"

After Gong Youmeng heard this task, a touch of sadness appeared on her beautiful little face.

"Originally, this first mission should have been completed by Fang Yue under the leadership of me, but the mission I am performing now has some small tails. This seventh realm, according to the news I received, should be a deserted \*\*\*\* spirit realm. Yin, you will take care of Fang Yue's safety after entering the seventh realm! I will come over as soon as I complete the task at hand!"

Gong Youmeng entrusted Fang Yue to Yin.

Yin smiled and said, "Remember, you owe me a favor!"

"understood!"

Gong Youmeng said a little impatiently.

Afterwards, Gong Youmeng's figure disappeared, leaving only Fang Yue and Yin.

When Yin looked at Fang Yue, he gradually put away his hippy smile. He warned Fang Yue: "Boy, I know that you must be a talented person to be selected by Gong Youmeng, but Samsara needs The completed tasks are usually not measurable by common sense. In addition to force, corresponding wisdom is

needed. After entering the seventh realm, you have to follow my arrangements and commands. Otherwise, what happens to you because of your rash actions I won't care about you!"

Yin Fang Yue said harshly.

Even if it was the mark of reincarnation, Fang Yue had a high evaluation, but in Yin's eyes, Fang Yue was still a young child without any experience.

Every mission of the reincarnation is actually a test of life and death!

This Gong Youmeng's favor is really precious, but Yin doesn't want to take his own life for the sake of a favor!

"Thank you senior for reminding!"

Fang Yue's attitude was very submissive, and he did not refute what Yin said. Yin didn't understand him, and it was normal to say such words.

Yin saw that Fang Yue didn't have the arrogant and arrogant attitude of ordinary Tianjiao, and the expression on his face only slightly eased.

"Actually, it's not that I said you, but to be careful to make the Wannian Ship! Anyone who can become a reincarnation is a person with extraordinary talents and a shocking cultivation base, but nearly half of the people will be damaged every time. Every task is extremely difficult, and it is impossible for people with great wisdom and great chance to complete it!"

Yin's tone was much calmer.

Fang Yue nodded in agreement.

Afterwards, Fang Yue and Yin walked towards the place where the seventh realm was located.

Two days ago, the entrance to the Seventh Realm, which was tightly sealed off by the powerful of the ten thousand races, was now endlessly desolate. Near the entrance, some ancient creatures were looking for food and walking.

Fang Yue saw one of the creatures, which looked very similar to the legendary dragon, but the aura on it was weak and extremely evil. It was definitely not a dragon!

"This seventh realm is a deserted divine secret realm. The so-called divine secret realm is a secret realm built by creatures who cultivate the power of godhood and belief! Many of the creatures in it are the ideas of all beings. Formation, some creatures are formed by evil thoughts and then evolved into many beasts, while some are evolved by good thoughts, and they are affinity with human beings and guard the origin of the world!"

It seems that this is not the first time Yin has entered the secret realm of gods to perform tasks. He also knows some of the statements in the secret realm of gods.

When Fang Yue heard this, he couldn't help but think about it. It was not the first time he had come into contact with such things as gods and gods.

"Master Yin, I have heard that there were countless powerful people in the heavens and worlds who practiced the power of faith, condensed the godhead, and received the incense of sentient beings. But suddenly, because no one knew, these creatures who believed in gods were all It was erased overnight, and even the methods of faith and practice disappeared completely from the universe of ten thousand realms. I don't know why this is!"

Fang Yue's research on the power of gods is still quite profound, and the divine power he often uses comes from this civilization system.

"Civilization struggle failed! In the end, I was charged with an unnecessary charge and disappeared. Different civilization paths competed against each other. These things are nothing to be curious about!

Yin hastily explained two sentences, his eyes flashed with a faint free spirit, and the disappearance of \*\*\*\* civilization seemed to him a certain taboo! If you say too much, it is likely to be contaminated with something unspeakable.

"Then can I find the corresponding answer in this seventh realm?"

Fang Yue looked at Yin.

Yin nodded slightly, "If you are interested, you can naturally learn more! But there are some things, I advise you to get in touch with it! Regarding the spiritual civilization, most of the big people don't want to talk about it, let alone let you know it. Everything that happened!"

When Fang Yue heard the words, he was also interested, so he stopped asking more questions.

However, in his heart, Fang Yue was even more curious about the reason for the destruction of the gods' civilization!

"Although these evil creatures are fierce, they also have good wisdom, and they are often accompanied by a variety of strange magical powers. You must be careful when dealing with them!"

Although Yin is cold outside, it is hot inside.

His advice from Fang Yue is almost meticulous.

Fang Yue nodded, and he flicked his fingers into a wisp of sword light, which was sharp, and rushed towards a gray-haired hare not far from him.

The ears of this hare were pricked up, and when the sword aura came to its body, its body suddenly swelled, nearly ten thousand times, it seemed to incarnate into an ancient fierce, and the breath on its body could suppress ordinary saints out of breath.

"Fang Yue, you..."

Seeing this scene, Yin's heart was extremely angry. He thought that his patient advice would make Fang Yue be more careful, but he didn't expect him to be so unscrupulous and directly attack a malicious creature.

The strength of evil creatures has nothing to do with the size of the system.

An ant may become a dragon that roams Amano.

"Sure enough, Swallowing Sky Rabbit, a creature that was almost extinct in the prehistoric era, it was unwilling to fall in its lifetime, and a ray of remnant thoughts wandered around the world, absorbing the evil thoughts of all beings in the world and finally became a evil thought creature!"

When it comes to understanding history, Yin Yuan beats Fang Yue, but when it comes to understanding the soul, none of the ten Yin is Fang Yue's opponent.

The Sky-Swallowing Rabbit came towards Fang Yue, and its eyes became pitch black as ink.

The lively and cute little rabbit just disappeared from the world completely, and replaced by an unblinking Taikoo monster!

"I know that you have hatred in your heart, but your current strength is difficult to avenge. Why, if you follow me, I will give you the power to avenge!"

Fang Yue said to the sky-swallowing rabbit that he actually wanted to take the evil-thought creature into the sky-swallowing rabbit under his command.

Yin felt that his brain was down.

Is Fang Yue's brain problematic or is there hallucinations in front of his eyes.

This Sky-Swallowing Rabbit is at least a saint-level existence, although it is just a ray of divine change from the ancient Giant Swallowing Sky Rabbit, it still has the pride of the Swire Giant.

It is impossible to make the sky-swallowing rabbit bow its head!

Sure enough, just as Yin expected, the sky-swallowing rabbit roared at the other side Yue's unwillingness.

This is an insult to its dignity, how could it dignifiedly swallow the rabbit to bow to a humble human race!

Fang Yue couldn't help but sigh softly when he saw the angry look of Tian Swallowing Rabbit.

It seems that talking with your mouth is not enough!

Fang Yue raised his hand and summoned three fierce beasts to split one by one.

The deep-sea evil dragon, the nine-tailed white fox, and the three lone wolves were also famous in the ancient times.

They revived because of Fang Yue, so they owed Fang Yue a favor. Although they did not sign a master-servant contract with Fang Yue, the three of them would still try their best to satisfy Fang Yue as long as they did not make any excessive demands!

"Hit me until it is convinced!"

Fang Yue pointed to the sky-swallowing rabbit, pinched his waist, and said with a big brother appearance.

The boss with Yin's mouth almost fell to the ground.

What is Fang Yue's origin, how can he summon three sage-level Primordial Beasts casually!

Especially the nine-tailed white fox, which is the king of the ancient beasts, only a few creatures with peerless ancient blood can be comparable to her!

### **Chapter 1665: Conquer the rabbit**

The appearance of the nine-tailed white fox, the deep-sea evil dragon, and the three lone wolves immediately convinced Can Nian who swallowed the sky rabbit.

There was no need for the three of them to do anything at all. The Sky-Swallowing Rabbit immediately bowed his head and agreed to become Fang Yuexin's pet.

It's so \*\*\*\* unacceptable.

These three are all ancient giants with deep bloodlines. Although everyone is a hero, the recovery of these three is obviously much better than it. If one of them appears, it may be clever and run away. Possible.

But the three ancient fierce beasts joined forces, and it didn't even have a place to escape!

That swallowing sky rabbit looks unlovable, its rabbit is really desperate!

Just got rid of the nightmare world and exposed to the beautiful, bright outside world, but just after coming out, he will become a pet of a humble human race. Is this his life of suffering?

The sky-swallowing rabbit drooped its ears, and it became that cute again, and the little bunny jumped into Fang Yue's arms.

This swallow sky rabbit quite understands the rules of the Tao, this surrender must have sincerity.

Giving Fang Yue the wisp of the soul imprint of Sky-Swallowing Rabbit is tantamount to giving him his future.

Fang Yue stroked the fluff of the sky-swallowing rabbit, extremely supple.

The feel of the rabbit fur that swallows the sky rabbit is really great!

Seeing the sky-swallowing rabbit's listless appearance, Fang Yue fed it a drop of five-turn spirit power.

The sky-swallowing rabbit ate a drop of Rank 5 spirit power, and it immediately became interested in it!

The essence of soul power contained in this drop of soul liquid is more stimulating to its growth than it swallows three evil creatures of the same level!

The sky-swallowing rabbit looked at Fang Yue with big cute eyes, which were full of flattering expressions.

I had known that this owner was so generous, he had already surrendered, and there was no need for the three-tailed white fox seniors to come out to deter him.

Why did it venture out to search for food? It's not that it wants to increase its soul power as soon as possible, restore its cultivation base to its peak state of the year, and once again dominate the situation and surpass all beings?

If you can get the soul fluid to restore your strength by selling cuteness, then it feels that it is good for the rabbit student who ended the battle to start a rabbit student who sells cuteness for a living!

Swallowing Rabbit looked at Fang Yue with big eyes.

But Fang Yue's mouth showed a faint smile, which didn't mean to give him a drop of spirit power.

Fang Yue always treats his subordinates with clear rewards and punishments. On the contrary, Fang Yue took out three drops of the five-turn soul liquid and handed them to the nine-tailed white fox, the deep-sea evil dragon, and the three lone wolves!

Although the three of them just walked through a cutscene, they helped Fang Yue to deter this sky-swallowing rabbit anyway, and they will be rewarded for their merits!

The three ancient fierce beasts were rewarded by Fang Yue, and they were quite happy!

Swallowing rabbit's ears drooped back again, and it was really difficult to realize the cute rabbit life it imagined.

Fang Yue touched the sky-swallowing rabbit's head and whispered to him: "Tell me the news within the seventh realm, and I will reward you with another drop of the soul liquid!"

When the swallowing rabbit heard this, it hesitated for a long time, and the chirping opponent Yue sent a divine thought.

In this divine mind is a decayed world. Various evil creatures are rampant in the world, and every powerful evil creature will have its own hole card, and the stronger the evil creature with the larger the hole card, the stronger the corresponding strength.

The site of the Sky-Swallowing Rabbit has a radius of more than 30 kilometers, and most of the rabbits born before the Sky-Swallowing Rabbit were spent on this site.

The area of the seventh realm is vast. There is indeed nothing wrong with this, but the number and strength of the evil creatures in it have absolutely reached a terrifying point!

The strength of the Heaven-Swallowing Rabbit Saint Realm level is only at the lower level in the seventh realm. Generally, only the level of the Great Sacred Realm can be counted as the truly powerful king in the seventh realm, the Heaven-Swallowing Rabbit. 'S boss is a king, this king is called the king of nightmares! The Sky-Swallowing Rabbit will pay tribute to the King of Nightmare about once every 100 years, and every time the tribute is made, the King of Nightmare will draw a certain amount of spirit power from the Sky-Swallowing Rabbit as a tribute!

This is also the main reason why the Sky-Swallowing Rabbit has survived in this seventh realm for such a long time, but it is still at the level of a saint.

To be extracted from the body by the nightmare king once is equivalent to its thirty years of cultivation in vain.

On the territory of the Nightmare King, there are at least 800 nightmare creatures at the Saint-level level like the Swallowing Rabbit! This shows how powerful this nightmare king is.

On the top of the nightmare king, it is said that there is an emperor!

One emperor probably rules over a hundred kings.

According to Fang Yue's estimation, this emperor was almost a virtual fairyland level existence.

At the level of the emperor, it is the ruling class in the seventh realm.

In the memory of the sky-swallowing rabbit, it described in detail the terrible place of an emperor it had seen.

The emperor just passed over the sky-swallowing rabbit's territory, and the sky-swallowing rabbit took a curious look. He left a lingering nightmare in his mind. It took hundreds of years. The nightmare in Swallowing Rabbit's heart has only completely disappeared.

Fang Yue also had a general understanding of the seventh realm through the swallowing sky rabbit.

Fang Yue shared the memory fragments of the Sky-Swallowing Rabbit with Yin. Yin received these memory fragments, but he was a little embarrassed. He said that he was the one who brought Fang Yue, but Fang Yue helped him understand it first. Some situations in this seventh realm!

"Yin, where does this civilization fragment usually appear?"

Fang Yue couldn't help asking how to complete the next task.

"Civilization fragments are generally placed in key places in civilization! For example, in some ancient buildings, or on altars or sculptures with symbolic significance. Moreover, the appearance of civilization fragments is strange and strange, and only it appears in you. When you are on the side, the reincarnation brand in your body will have a weak induction!"

Yin explained.

Fang Yue nodded, and then brought the nine-tailed white fox, the deep-sea evil flood, and the three lone wolves into the small white jade cauldron.

He and Yin are okay. If there are three more fierce beasts of this kind, they will be too conspicuous when they enter the seventh realm. It will be easy to be noticed by evil creatures, attract firepower, and become a target of public criticism!

But the sky-swallowing rabbit was held in Fang Yue's arms. This sky-swallowing rabbit is inherently good at disguising. As long as it doesn't take the initiative to expose its breath, it is difficult for other evil creatures to discover its true body. In addition, the sky-swallowing rabbit The rabbit itself is a kind of evil thought creature, and it can lead Fang Yue and Yin to better roam in the seventh realm without any obstacles.

Fang Yue and Yin Zheng were about to walk into the seventh realm, when suddenly, a familiar breath struck from a distance.

Fang Yue's figure stiffened slightly.

His pupils condensed.

"This breath is from the Zhang family?!"

Fang Yue's footsteps stopped, and he did not expect to meet on a narrow road, and unexpectedly meet the Zhang family here.

The familiar breath fell in front of Fang Yue, and the owner of this breath turned out to be Zhang Teng of the Zhang family.

"Fang Yue, I thought you had left the Broken Ground. I didn't expect you to be brave enough to stay in the Broken Ground! But your ability to hide breath is really good. If I hadn't left a mark on you, I really can't find you!"

Zhang Teng looked at Fang Yue, a scornful smile appeared on the corner of his mouth.

It seems that Fang Yue has become the turtle in his urn, the thing in the bag!

Fang Yue looked at Zhang Teng, "Are you here single-handedly this time? If that's the case, I'm afraid you won't be able to return to the King's City!"

Fang Yue is not afraid of this Zhang Family's arrogant when he is not in the King's City. Even though Zhang Teng has the combat power of the Great Sacred Realm, Fang Yue is not a vegetarian.

What's more, he can summon biochemical giants.

This biochemical giant is comparable to an immortal great saint realm powerhouse!

Zhang Teng laughed: "Fang Yue, do you think that if I don't deal with your hole cards, I will easily appear in front of you? My Zhang family has always been cautious in doing things, and I can do it every time!"

Zhang Teng laughed, and the great sages of the Zhang family fell.

Behind Zhang Teng unexpectedly appeared three powerful masters of Zhang Family's Great Sacred Realm.

These three great saints looked cold, they looked at Fang Yue as if they looked at a dead man!

"Zhang Teng, is this what you are relying on? Last time in King City, it was your home court, and several great saint realm experts from the Zhang family besieged me, but I still escaped and appeared in front of you alive! "

Zhang Teng sneered: "Of course it's more than that! After you escaped last time, we sent people back to the world of Xuanhuang, and captured everyone who was related to you! Let's see who this person is?"

Zhang Teng's sleeve robe zoomed in, and one of the wooden bodies fell out of it, his eyes were blank. Like a puppet!

"The king is domineering!"

Fang Yue saw this person, and the smile on his face quickly disappeared.

He was naturally familiar with this person, and this was one of the first nobles he met in the Xuanhuang world.

On that day, the king overbearing crossed the robbery, he once helped out, and now the king overbearing has been promoted to the third level of the leader realm.

When it comes to the speed of cultivation, the overbearing king is indeed not weak, but in the eyes of the Zhang family, even if the overbearing king is promoted to the level of the saint, he still exists just like an ant.

Wang Badao's face was dull at this moment, and his blood was completely sealed!

"How is it? You are familiar with this person! Fang Yue, in fact, I don't ask you to harm yourself in front of me. I know that he is definitely not as important as your own life in your heart, but what about another condition for me! Anyway, you The physical body is essentially just a ray of spiritual evolution, immortal and immortal. How about you exploring the way for our Zhang family in this seventh realm? If you do well, we can leave the king's domineering intact. Leave it to you! But if you have any other thoughts, I found out that this overbearing king might have fewer arms, missing legs, and even lost his head!"

Zhang Teng said, completely as if eating Fang Yue!

#### **Chapter 1666: Zombie Tyrannosaurus?**

Fang Yue looked at Zhang Teng's ambitions. He couldn't wait to dig up the skin and dig the bones. It would bring harm to the family. Threatening people with family members or relatives and friends is the most despicable behavior. Even some bandits disdain it. Go use it!

But Zhang Teng was triumphant, he didn't mind Fang Yue's gaze at all, and even the stronger the color of anger in Fang Yue's eyes, the deeper the pride in his heart!

"Zhang Teng, you can't die!"

At this moment, Fang Yue didn't know how many hole cards this Teng held in his hand, and how many relatives and friends he had captured!

Zhang Teng grinned coldly: "I don't know if I am going to die, but I know that before I die, I will drag you and your mentor and friend to Huangquan together!"

Fang Yue's heart sank. It seems that this tentacles is the bastard's heart attacking him.

Fang Yue naturally knew that the real purpose of this teng was definitely not to simply let him lead the way.

He must have prepared a follow-up killer move, to torture himself to death a little bit.

"Zhang Teng, I will lead the way, you must ensure the safety of the king's domineering!"

Fang Yue looked at Zhang Teng warningly.

Zhang Teng smiled coldly: "Ant, there is no right to choose!"

After a while, there were nearly a hundred figures behind Zhang Teng. Ten of these people were strong in the saint state, and eighty to ninety were practitioners in the master state! They are not members of the Zhang family, but they are all powerful human races in the King City!

Fang Yue instantly understood that in order to explore the seventh realm, this family had not only prepared their own hole card to explore the way. At critical moments, these people would probably become the stone used by the Zhang family to throw stones and ask for directions!

"Fang Yue, you lead the way!"

Zhang Teng's expressionless Fang Yue said.

Fang Yue walked in the forefront without saying a word, while Yin seemed to be regarded as an air-like existence by Zhang Teng, mixed in the team, no one cared.

It's not that Zhang Teng and the masters of the Zhang family didn't notice the existence of Yin, but that Yin's cultivation level was too low to be included in their eyes. Zhang Teng and others even felt that Yin did not exist for them. The slightest threat, there is no need for special attention!

Yin also remained silent, protecting Fang Yue in secret.

Fang Yue took a group of Zhang family members directly into the seventh realm.

With the little spy who swallowed the sky rabbit giving directions, Fang Yue was familiar with the situation of this seventh realm!

Fang Yue entered the seventh realm and went straight to the first building!

On the periphery of the Seventh Realm, the living creatures that exist are generally weak, and apart from some lords in the realm, few lives can pose a threat to the Zhang family's team!

However, there are some extremely fierce lands in the seventh realm. They are divided into various parts of the seventh realm, and there is no shortage of both inside and outside.

Fang Yue took Zhang's family this time to the first fierce place in the seventh realm, Anling ancestral hall. This Anling ancestral hall is at a medium level among the fierce grounds of the seventh realm. Powerful people who have passed the Great Sacred Realm, but there are also some creatures of the Master Realm level who walked out of it unharmed, and even brought some rare opportunities!

Fang Yue walked in the forefront of the team, he tried to avoid the saint realm lord among some evil creatures according to the memory of the sky-swallowing rabbit.

The lord of those evil creatures found that Fang Yue and the others were just passing by, and they didn't bother to care about them. Of course, the most important thing was that there was a powerful man of the Great Sacred Realm hidden in this team, there was no need to conflict with them!

Fang Yue's pace was fast, and he instinctively felt that there might be something he needed in this Anling ancestral hall.

"Fang Yue, your luck is still true. It has been nearly ten kilometers deep into the seventh realm. All we encountered were shrimp soldiers and crabs, not even a saint-level evil creature! I didn't expect it! You

will become our blessed general, tusk, in the future our Zhang family will forget your contribution to us!"

Zhang Teng's words are full of provocation.

Fang Yue glanced at Zhang Teng, and then said: "Zhang Teng, I have already led the ten kilometers ahead. You should return the king's dominance to me! This journey is difficult and dangerous, and I think it is more than enough to change a hostage. "

Hearing this, Zhang Teng laughed: "After taking such two steps, I will change the king's dominance? Fang Yue, I said you are naive? Or naive! Who do you think you are? What qualifications do you have to bargain with my Zhang family? Fang Yue tells you the truth, this time the overbearing king is in my hands, if you act as a bull in this seventh realm, I must let you know what torture is and what is pain!"

Zhang Teng became more and more unscrupulous.

And Fang Yue's face was ashen.

Zhang Teng's eyes suddenly changed.

He saw an iron tree dozens of meters away.

This iron tree has a height of about ten meters, and there are several red fruits growing on the top of the tree.

"Go, pick these fruits for me! This iron tree blooms once in a thousand years. I didn't expect that the iron tree in the seventh realm could grow fruit on it!"

Zhang Teng gave orders to Yue Yi.

Fang Yue clenched his fists, but he took care of Wang's overbearing comfort, so he repeatedly gave in!

Fang Yue walked to the side of the iron tree. He was about to pick the fruit. At this moment, a goshawk suddenly fell from the sky!

The feathers of this goshawk were like iron, and there was a faint cold light on it.

Goshawk is extraordinary, with a vaguely echoing feeling to the sky.

This is a sage-level creature, and it can also be blessed with special power in the seventh realm.

Fang Yue could not prevent being knocked to the ground by the hurricane that this goshawk blew.

And Zhang Teng next to him not only didn't mean to rescue him at all, but laughed and laughed, "Fang Yue, is this your strength? Even a goshawk is hard to match! It seems that my Zhang family overestimated you!"

Zhang Teng's palm caught Wang's domineering neck.

His complexion suddenly became cold.

"Don't play tricks with me, honestly kill this goshawk, otherwise, I promise that this overbearing king will die miserably."

Fang Yue glanced at Zhang Teng, followed by pedaling.

Void passed under his feet, and Fang Yue ran towards an ancestral hall far away despite the king's domineering life and death.

"Zhang Teng, you idiot! Do you think it's a good thing to have a lot of people? Your strong energy and blood has attracted the attention of the real powerhouse in the seventh realm, and he wants to swallow you all as food. As for the overbearing king, you can kill it at will! Do you think the overbearing king in your hand is still the person you imagined?"

Zhang Teng was slightly surprised when he heard the words. He looked at the hostage in his hand again, but found that the overbearing king had long since disappeared and turned into a dry wooden stick!

"This is to transfer flowers! Damn Fang Yue, he actually played such tricks with me!"

Zhang Teng unexpectedly was exploited by Fang Yue.

But he has no time to be angry.

Because a behemoth-like figure has appeared behind him.

This is an undead creature with a huge bone like a hill of white bones!

The bones were piled up and became the appearance of Tyrannosaurus.

There are still two faint ghost fires lingering in the eye sockets.

"Is this a zombie tyrannosaurus?"

Fang Yue did not go far, he did not really enter the Anling ancestral hall.

This Anling ancestral hall was weird and inexplicable. Once a strong man from the Great Holy Realm was buried in it, Fang Yue was still waiting for these people from the Zhang family to be his pathfinder stones!

"Evil thought creature of the Great Sacred Realm level!"

Zhang Teng couldn't help but swallowed a mouthful of saliva. He finally found out that he had been pitted by Fang Yue!

The real crisis has long been lurking beside them.

Zhang Family has a total of three great sacred realm powers here this time, and he himself has a great sacred realm level of combat power, but this does not mean that they can easily defeat the great sacred realm in the seventh realm. Level of evil creatures.

In fact, once you reach the level of the Great Sacred Realm, different creatures have different ways to go!

Their respective cultivation methods are all different, and they cannot be prevented.

There are many situations in which high-ranking powerhouses of the Great Sacred Realm are planted in the hands of middle-ranking!

There were even high-level powerhouses in the Great Sacred Realm who were killed by low-level ones.

The zombie tyrannosaurus classmates are quite powerful. Although they were formed by wrong evolution, their combat power is even stronger than the correct evolution.

With one foot, he trampled on a sage of the Zhang family, and the sage of the Zhang family didn't know how he died when he was dying.

"This is the king of Outland, the tyrant of the Bone Demon. When he was promoted to the Great Sacred Realm, he awakened a magical power called Bizhong!"

The sky-swallowing rabbit explained to Fang Yue the birth and origin of this zombie tyrannosaurus.

Fang Yue's eyes widened, "Sure? How can you hide this stuff?"

The sky-swallowing rabbit said in a hurry: "This inevitable magical power is actually only a middle-range method among the many magical powers awakened by the Great Sacred Realm powerhouse! There are other Great Sage Realm powerhouses who have awakened even more powerfully. Magical powers. The magical powers that must be used can only be used to deal with creatures that are similar to or slightly weaker than the Bone Demon Tyrant. When encountering a creature stronger than the Bone Demon Tyrant, they can completely resist the Bone Demon Tyrant's means, and then kill the opponent! "

Swallowing Rabbit introduced to Fang Yue.

Fang Yue relieved a little.

It turns out that this bone demon tyrant's use of magical powers is still at a relatively early stage!

If it were him, he would have magical powers, and he would be able to create a thousand ways to play!

The Bone Demon Tyrant approached Zhang Teng step by step.

But Zhang Teng felt the tremendous pressure. At this moment, he had already scolded Fang Yue's 18th generation ancestors.

Then in the sky, a \*\*\*\* lightning slammed down!

How could Fang Yue's ancestors be insulted indiscriminately?

Zhang Teng was stunned by the sudden lightning.

Smoke was all over his body, and all his internal organs were burned by intense electric current.

The strength of his body is at least cut off by 30 to 40%.

In the sky, a muffled roar came: "Insult the Fang family ancestors, kill without mercy!"

Zhang Teng was shocked.

Fang Yue was equally shocked.

I wiped, it turns out that there is still this kind of operation!

Your ancestors are so bullish, can't curse them in their heart?

Chapter 1667 Space Scroll

Zhang Teng looked at the sky in horror.

The sky was clear, and even the clouds were scarce.

Everything just now seemed to be an illusion, which gave Zhang Teng a dreamlike feeling.

If he could not clearly feel the pain in his body, he must be suspicious. Everything he experienced just now was just an illusion!

"Fang Yue's ancestor, what is the origin of Fang Yue? There is such a powerful ancestor. I haven't even recited his real name. Then I don't know how many existences outside of time and space have sent this to me. A blow!"

Zhang Teng looked at Fang Yue, the scorn in his eyes gradually.

The main reason why he despised Fang Yue just now was not because Fang Yue had no foundation, just like duckweed?

But I want to always, this is somewhat impossible!

Fang Yue had reached this level of strength at a young age. It would be really strange if he really didn't have any background and backing.

However, Zhang Teng wasn't too worried, the terrifying existence behind Fang Yue would attack him.

Those old antiques are often laid out, and they won't just drop a chess piece.

Fang Yue should be just one of the chess pieces in their hands. If Fang Yue can smoothly grow to the point where they can be incorporated into their magic eye, he will focus on cultivation, and then fully excavate the value of this chess piece when necessary.

If Fang Yue died halfway, they wouldn't feel too sorry.

This proves that Fang Yue is not qualified to step into their level of game!

Zhang Teng's heart is filled with endless brain replenishment, because these are the principles of the Zhang family's cultivation of disciples.

The disciples of the Zhang family are like ants in front of the ancestors of the Zhang family.

All blood relatives are all chess pieces. They are raising Gu, and only the most powerful disciples are qualified to enter their field of vision.

Back then, Zhang Teng was also a Gu worm in this family, but he was very lucky to be able to walk on the bodies of countless Zhang family disciples to his current position.

Fang Yue didn't know that so many thoughts had flashed in this Teng's mind in a short time.

He focused more on the zombie tyrannosaurus.

This guy's strength is absolutely unmatched, even if the siege of the three great saint realm-level powerhouses of the Zhang family did not harm this zombie tyrannosaurus, oh, no, it was the bone demon tyrant to any vital point.

Or maybe this guy is full of bones, there is no such thing as the point.

The Bone Demon Tyrant wrestled with the powerful in Zhang Family's Great Sacred Realm. Its methods were continuous, and every move was terrifying.

Killing is just one of the methods of the Bone Demon Tyrant! He opened the door of the underworld in the process of fighting.

This bone demon tyrant obviously belongs to the faction of undead creatures among evil creatures.

I can't beat you myself, but I can kill you if I can find my mother's family!

The most powerful thing about this bone demon tyrant is not single-handed but group fights. It has summoned four undead creatures of the Great Saint Realm level.

The powerhouses of Zhang Family's Great Sacred Realm had green faces at this time.

They wanted to scold the eighteenth generation of ancestors of Xiaoxia Yue, but seeing that Zhang Teng was still that dark and inky, they finally recognized the master.

This Fang Yue's ancestor is too awkward, they can't afford it!

At this time, Fang Yue was already impatient while watching a movie next to him.

"Does your Zhang family only have this ability? Just now you still blow yourself into the sky and the earth, without any opponents, now a skull demon tyrant has restrained all your combat power at the saint level!"

Fang Yue stood next to him and said cold words. What he said made Zhang Teng feel itching at the roots of his teeth. This Fang Yue was simply too annoying!

However, Zhang Teng found out that he had no way of using Fang Yue.

The hostage king who was finally captured before was overbearing, but now I don't know where Fang Yue has taken it!

He could only stare at Fang Yue's arrogant look.

At this time, Fang Yue decided to turn around and enter the Anling ancestral hall first.

He can vaguely feel that there is an extremely important thing in the Anling ancestral hall, summoning him all the time, the closer he is to the Anling ancestral hall, the more he can feel that powerful summoning power!

At this time, Zhang Teng finally gritted his teeth.

"Can't delay like this anymore! Old ancestor, use a hole card! Otherwise, if you haven't found the treasure in this seventh realm, our physical strength will be consumed by this ancient demon tyrant. Finished!"

Zhang Teng finally realized that the form was wrong.

Except for the Bone Demon Tyrant, I don't know how many powerful creatures in the seventh realm are watching them.

What's more, there is another Fang Yue who is always there, waiting to attack them!

Zhang Teng now feels that Fang Yue alone may be more terrifying than all the powerhouses of the Great Saint Realm in the seventh realm combined.

At least the existence of the Great Sacred Realm level in the seventh realm would not do anything to them at will.

But this Fang Yue was always calculating them, not knowing what would be a fatal blow to them!

"Good!" The great sage of the Zhang family is also extremely decisive.

One of the great saints produced a golden scroll, and the golden scroll floated to the sky, and then the scroll slowly opened.

Among them, the runes fell down, and each rune contained a faint breath that was unique to the former of the virtual fairyland!

This is a scroll magical artifact that the strong in the virtual fairyland personally painted for them. It is a one-off magical artifact.

Although the power is unparalleled, it can suppress all the strong below the virtual fairyland, but this scroll weapon is quite extravagant and wasteful. After all, the power of the virtual fairyland power is not capable of being carried and preserved by ordinary materials!

I don't know how much manpower and material resources it took to refine this scroll!

Scroll suppression.

The Bone Demon Tyrant and the remaining four undead creatures are all included in the scroll.

The scroll scrolled, opened a door of space, and then I didn't know where it went!

It is obviously impossible for this virtual fairyland level scroll to suppress the existence of so many great sacred level levels in one breath, so the scroll is only temporarily suppressed, and then sent to other places to ensure that these five powerful giants The existence of the sacred realm level will not come back for a while, it is enough to not be able to trouble Zhang Teng and the others!

"A scroll of the virtual fairyland level!"

Fang Yue hadn't gone far yet, he obviously saw Zhang Family's use of such a powerful and terrifying virtual fairyland-level scroll!

He couldn't help but muttered silently, this is really not what the family can dominate in the king's city.

But Fang Yue didn't look back, he walked hurriedly into the Anling ancestral hall.

The gloomy atmosphere in the ancestral hall seems to be able to transform some ghost creatures at any time.

The area of the ancestral hall is not very large, but the space in it is layered, as if countless times are listed.

Yes, each layer of space represents an era.

What is enshrined and sacrificed in this ancestral hall is not a peerless powerhouse, but the past of this seventh realm!

"I felt the flow of time in this Anling ancestral hall!"

Fang Yue suddenly became quiet in the center of Anling ancestral hall, as if it was his hometown, and he felt a different kind of comfort in this Anling ancestral hall.

"Fang Yue, I finally chased you! You still obediently follow our instructions and show us the way!"

Zhang Teng also appeared in the Anling ancestral hall.

He smiled at Fang Yue with an evil look.

He seemed to have a certainty in dealing with Fang Yue.

"If I become a ray of heaven and earth essence, what can you do with me?" Zhang Teng behind Fang Yue said indifferently in his voice.

In this Anling ancestral hall, he just seemed to have a little meaning to enter the state of enlightenment, but he did not expect to be interrupted by this jump, which made Fang Yue quite unhappy.

Zhang Teng sneered and said: "My Zhang family has a unique way to deal with you. Even if you turn into a ray of energy to escape, we can also find your deity's position through divination and cause and effect! Originally wanted to get along with you longer Time, I have collected more cause and effect on you. I didn't expect you to take away the king's dominance so quickly, which made us have to expose our cards in advance! This causal avenue is extremely mysterious, and there is no one in the ordinary family. Can touch such principles, but the saint son of my Zhang family, Zhang Shengying is a heavenly wizard. When he first entered the Yin-Yang realm level, he understood the mystery of heaven and earth, and realized this great path of cause and effect. The Dao is taught to the elders and disciples of the clan. Over the years, many people in my Zhang family have learned about the Causal Dao!"

Zhang Teng's body seemed to be an eruption of negative emotions, and he said all these things that should be said but should not be said!

"Is this the root of negative emotions?"

Fang Yue felt the abnormal state of Zhang Teng. He was not very interested in Zhang Teng's words, but he had a different understanding of Zhang Teng's current state.

"In fact, the real weird thing in this Anling ancestral hall is that he can arouse the negative emotions in the entrants' hearts! When this negative emotion reaches a certain level, it can defeat the sanity of the

entrants! Just why, I also entered. In this Anling ancestral hall, but I am not caught by such negative emotions?"

Fang Yue fell into contemplation, treating Zhang Teng as if nothing!

Zhang Teng saw Fang Yue look like this, the anger in his heart couldn't help burning even more!

Zhang Teng said angrily: "Fang Yue, didn't you put my Zhang family in your eyes? You are so ignoring me!"

Zhang Teng's voice was full of anger.

Fang Yue suddenly thought of a question.

"What about the people from the Zhang family that Zhang Teng came with you and those pathfinder chess pieces that you forced to come here?"

Fang Yue looked at Zhang Teng again.

Zhang Teng was suddenly taken aback.

"Those people, \*\*\*\* it, why did I forget them, it seems we got lost as we walked!"

Zhang Teng's face changed. Although he had been dazzled by the negative emotions, he still had a certain sense of reason as a powerhouse at the peak of the Saint Realm!

### **Chapter 1668: Shrine of Gods**

"Yes, where did those strong people in my Zhang family go?"

Zhang Teng was full of horror. He wanted to use secret techniques to contact the three great saints of the Zhang family. He found that the three great saints of the Zhang family had a thorough connection as if they had evaporated from the world. Not on it!

Zhang Teng yelled at Fang Yue: "Where is the strong man in my Zhang family? Where did you get it all!"

Fang Yue spread his hand and said helplessly: "You ask me, I am also new here, and I am not too sure! Now we are two grasshoppers on the same rope. It's best if you don't have any thoughts about me. Otherwise, I don't I'm too sure what will happen in the end!"

As soon as Fang Yue's voice fell, there was a loud noise outside this ancestral hall!

"Today is the day when the civilization of the gods will be destroyed! Keep your hands on the outside of the ancestral hall. No one is allowed to let go!"

The voice outside the ancestral hall was quite domineering.

The next moment, with a creak, the gate of the ancestral hall opened.

A man in golden armor walked in. This man in golden armor turned out to be a powerhouse at the peak of the Saint Realm, and his body was stained with endless evil spirits.

He seemed to be a murderous god, crawling out of the sea of blood on the mountain.

The golden light on his armor can not tolerate any infringement by evil spirits!

"I seem to know where those strong people in your Zhang family have gone!"

"There are layers of space in the Anling ancestral hall, and each layer of space is a record of what happened in the Anling ancestral hall within a certain period of time!"

Fang Yue muttered to himself, he had guessed what was going to happen next!

Zhang Teng's face was dark, he had gradually got rid of the control of negative emotions!

"Time and space are chaotic, are we back to the era of the twilight of the gods?"

Zhang Teng's hostility to Fang Yue also dissipated most of the time.

Now both of them are trapped in a fragment of time and space, maybe one of them will fall into the Anling ancestral hall! In the face of the crisis of life and death, what kind of grievances between the two of them must be temporarily let go.

The man in the golden armor set his eyes on Fang Yue and Zhang Teng, and he frowned slightly.

"Who are you two? Why are you in the Anling ancestral hall!"

The man scolded.

Fang Yue rolled his eyes and said, "It was a coincidence that the two of me came to this place. Please let this adult let us go!"

Fang Yue's tone was soft, with a hint of begging.

The man looked at Zhang Teng with a little dread.

"You two explain your origins, otherwise, don't want to leave here. Maybe you two are believers of the gods, the remnants of that ominous civilization!"

The golden-armored man raised a bronze mirror in his hand to shine at Fang Yue.

A strand of gray silk appeared on Fang Yue's body.

"Sure enough, you still have the power of faith in your body, and you want to say that you are not a remnant of the age of gods?"

The golden man was overjoyed.

Those lofty figures must make up their minds to completely cut off and annihilate the civilization of the gods!

Any remnants of the age of gods, if turned in, will be rewarded!

At this time, Zhang Teng sneered and pulled away from Fang Yue.

"My lord, I don't know this person!"

Zhang Teng stabbed Fang Yue's back when he shut down, and he and Fang Yue separated.

And the man in golden armor shone the bronze mirror in his hand on Zhang Teng's body.

There was no power of faith in Zhang Teng's body, but the anger on the face of the golden man was intense.

"You have a godhead! You have a godhead, do you dare to say that you have nothing to do with the remnants of the gods?"

The golden armored man discovered Zhang Teng's secret at a glance.

"godhead!"

Zhang Teng was taken aback for a moment. He suddenly remembered that when he was very young, one of his uncles once gave him a small gift.

That little gift was always put in his storage bag.

That thing seems to be a godhead.

It was a product of the age of gods.

Zhang Teng always didn't know the method to use, but it didn't matter if he didn't know, he felt that this godhead would come in handy one day.

Look, now this godhead comes in handy, causing him a terrible disaster!

Zhang Teng looked at the man in the golden armor, his face was livid, if he had known it, he would have thrown away this godhead!

"No, this is not my thing. I can give this godhead to an adult. I have nothing to do with this \*\*\*\* civilization at all!"

Zhang Teng tried his best to defend, he knew that the forces that could destroy the civilization of the gods would certainly not be easy.

Although he is arrogant, he is not arrogant.

It is as simple as eating and drinking water if you want to destroy the existence of \*\*\*\* civilization!

"Huh, you still want to defend yourself with a godhead? You are thousands of times more sinful than this person!"

The golden armor man seems to have reached a conclusion about Zhang Teng.

But when Zhang Teng heard the words, the timid and begging expression on his face suddenly disappeared, replaced by a hideous expression!

"Since this is the case, then you can die for me!"

For a moment, Zhang Teng seemed to be a poor wolf and evil spirit incarnate, and he attacked the golden armored man!

On Zhang Teng's body, icy murderous intent emerged, and those murderous intents seemed to have turned into a prison, completely trapping this golden armored man!

Who is Zhang Teng?

He is a tyrant in the city of human beings. Since childhood, he has been the only one who bullied others, and he has never suffered.

How could he sit still and be bullied and taken away by this golden man.

The murderous strands trapped the golden armored man in it.

And the golden armored man sneered and said more confidently: "Sure enough, it is more than a year in the age of the gods, so I dare to do it with my golden armor! But today it should be me, Li Kuoli, and neither of you can run away!"

The golden armoured man's tiger body was shocked, and it turned out to be a cage formed by combining strands of murderous intent.

Behind him, a pair of golden wings spread out slowly.

"This is the God of War clan! Fang Yue, you and I have jointly suppressed this Li Kuo, the God of War clan has always been the most powerful existence in the world! Immortal blood is flowing in their bodies!"

Zhang Teng's face showed a solemn expression, he was always fearless and fearless, and he was also cautious when he saw Li Kuo.

Fang Yue sneered and said: "I don't know you! Who are you? Why should I join hands with you, what if you pit me again later!"

When Fang Yue was still angry just now, his friendship with Zhang Teng was more fragile than plastic!

Just after the establishment of the covenant, this teng immediately turned his face, and now that the enemy is strong, this teng is ashamed to join hands with himself!

Zhang Teng's face was slightly stiff, he didn't expect Fang Yue to say that.

"Fang Yue, what happened just now was my fault, but if you can't kill this Li Kuo, you and I don't even want to leave today!"

Zhang Teng bowed his head to Fang Yue unexpectedly.

Zhang Teng is also a wise man. Between anger and life and death, he decisively chose life and death.

Fang Yue saw Zhang Teng's attitude, and his anger was mostly reduced.

"How about you two joining hands, just two remnants of the age of gods! How can it be possible to compete with my \*\*\*\* of war?"

That Li Kuo was quite arrogant, he was even more arrogant than Zhang Teng.

Without saying a word, Fang Yue directly summoned the nine-tailed fox, the deep-sea evil dragon, and the three lone wolves. His power alone is limited, but with three helpers, it should be much easier to deal with Li Kuo.

When Li Kuo saw this, his face changed slightly.

"You still have so many accomplices? But you have a helper, and I have the same, come man, take the remnants of these two gods' times for me!"

Li Kuo shouted loudly.

But he shouted for a long time, but no one answered him.

Fang Yue said with a smile: "Don't shout, even if you yell out of your voice, you won't be ignored! Because I have split this Anling ancestral hall into an independent small world! People outside will not know this. What happened to the ground in Anling ancestral hall!"

Fang Yue said to Li Kuo.

Li Kuo immediately felt a creepy feeling.

He didn't expect that the remnants of the gods encountered this time were so tricky.

Zhang Teng smiled and said: "Fang Yue, you really live up to my hopes. Why don't I give you a chance to join my Zhang family? With your talent, if you get the full training of the Zhang family, as long as you can reach the leader in the future The realm of the realm is enough to have a place among the powerhouses of the Great Sacred Realm. I don't want your secrets, as long as you protect my Zhang Family!"

Zhang Teng was still in the mood to recruit talents at this time.

Fang Yue snorted coldly: "Here you and I join forces, but when you leave the Anling ancestral hall, you and my guests are enemies! I have my bottom line, and I will not use my friends and relatives as a bargaining chip to threaten me Good friends!"

Fang Yue really refused Zhang Teng's request.

Zhang Teng shook his head slightly and said, "It's really a pity in this case! You don't know how rich the resources of my Zhang family are!"

At this time, Li Kuo had already shot Zhang Teng. He clearly felt that in terms of aura, the most threatening to him among the people present was Zhang Teng.

Li Kuo's golden feathers lightly flapped, and three thousand golden sword auras shot in the direction of Zhang Teng!

Every sword aura is extremely sharp, capable of tearing apart space and piercing through the world!

Li Kuo was a killer move when he started.

Every sword aura has the power to easily kill the strong of the ordinary saint realm.

"Golden circle!"

Zhang Teng is not inferior.

As a leader of the young generation of Zhang family, he naturally has his own methods and tricks!

A golden circle appeared around his body, this golden circle resisted all the sword energy!

Li Kuo was not surprised that Zhang Teng could have this method. He did not think from the beginning that he could easily kill Fang Yue and Li Kuo!

"Golden Sword!"

Behind Li Kuo, a treasure house opened, in which there were endless weapon projections!

Li Kuo extracted a long sword made of gold, and the tip of the sword reached Zhang Teng's heart.

The golden circle was pierced by this long sword, and the long sword seemed to have a magic breaking effect!

### **Chapter 1669: One gas into three clear**

The fight between Li Kuo and Zhang Teng became fierce, and the runes appeared as if they were copying the principles of heaven and earth.

Their battle has risen from the level of simple moves to the level of understanding and comprehension of Tao and Dharma. At this time, if anyone is weaker, even if they can survive safe and sound, they will suffer damage to Taoism and give birth to demons. The road to practice in the future will become difficult to advance.

"The power of the gods, blend into my body!"

When Zhang Teng and Li Kuo were fighting inexorably, a drop of higher power suddenly appeared in Li Kuo's body.

He quickly refined the superior power, and his realm level suddenly rose a step!

Li Kuo's potential exploded in an instant, and he suddenly rushed to the level of the Great Sacred Realm.

"You are knowingly committing this!"

Fang Yue stared, he didn't expect Li Kuo and the others to have this kind of operation. They wiped out the \*\*\*\* civilization, but they did not reject the use of the things left by the \*\*\*\* civilization.

A drop of high-level divine power refining makes Li Kuo's breath realm different!

At this time, Zhang Teng was obviously suppressed, he spouted a mouthful of blood, and his face became extremely pale.

Zhang Teng vomits blood, he is no longer Li Kuo's opponent at the moment!

Zhang Teng turned and looked at Fang Yue angrily.

"Fang Yue, if you don't do anything, I will be killed by this Li Kuo!"

Zhang Teng's eyes were filled with resentment.

In fact, Fang Yue's heart was thinking of killing and killing, killing this tent, one less competitor.

However, seeing Zhang Teng's angry look, Fang Yue decided to join hands with him temporarily.

Otherwise, with Zhang Teng's impulsive character, the ghost knows what he will do.

"This supernatural power is tantamount to forcibly overdrawing his potential. It can't be maintained for too long. As long as you can survive his attacks three or two times, it is estimated that you can kill him!"

Fang Yue explained somewhat perfunctorily.

The anger in Zhang Teng's eyes remained unabated.

To survive the three or two attacks of Li Kuo? Why don't you die! The current Li Kuo is equivalent to a real powerhouse at the Great Sacred Realm level, regardless of majesty and life level.

You have the ability to resist!

My small body is definitely not able to resist.

Fang Yue saw Zhang Teng's gaze, and he had no choice but to make a move.

This teammate is not strong and can only rely on him to shoot!

Fang Yue then revealed a drop of lower power on his chest, and Fang Yue swallowed this drop of lower power.

Fang Yue's breath suddenly soared, from the initial stage of Yin-Yang realm to the first level of leader realm!

Fang Yue's realm improved, and his life level also temporarily reached the level of the leader realm.

At the level of Yin and Yang, he had the strength to match the peak of the Saint Realm, and now he has reached the level of the Leader Realm. Although it is not a perfect breakthrough, Gan Beng, a Li Kuo who relied on divine power to forcibly rise to the level of the Great Saint Realm, is still There is no big problem.

"You really are the remnant of the age of gods."

Seeing that Fang Yue had even taken out his lower powers, Li Kuo snorted coldly to Fang Yue.

Fang Yuebai gave Li Kuo a look: "I have never denied that I have a connection with a figure in the age of gods!"

Fang Yue's palm came out suddenly, his palm turned into dragon claws.

The golden dragon claws were shining brightly, and the faint dragon power in it made Li Kuo give birth to a feeling of shock!

Li Kuo looked at Fang Yue again. His eyes were different. At the beginning, he thought that this tense was the main force among the two, but now it seemed that Fang Yue's threat seemed even greater.

"Golden God Store!"

Li Kuo once again displayed the Golden Sacred Treasure, and his golden sword shined brightly.

Jianguang cut and slashed, abruptly towards Fang Yue's head.

The power of this golden sword is quite a groundbreaking feeling!

The dragon claw and the golden sword collided with each other.

The dragon claw that Fang Yue turned into was lost to pieces and shattered!

And the golden sword also appeared a small flaw and gap.

The two struggled to lose and lose, or that Li Kuo had a slight advantage!

At this time, Zhang Teng was not idle, although he also wanted to let Li Kuo and Fang Yue fight, and finally came to a snipe and clam to compete for the fisherman's profit.

But he also guessed that Fang Yue would never be so stupid that he would eventually be profited by his fisherman.

So, he began to recite the scriptures.

A series of golden characters turned out of the void, and turned into huge mountains to oppress Li Kuo.

Li Kuo saw these mountains, his face changed again!

"Did you recite the oldest scripture-the Book of Heaven?"

Li Kuo waved the golden sword in his hand repeatedly. He split a rune with a single sword, but the rune seemed endless. Even if Li Kuo was exhausted, he could not shake all these runes. broken!

"Yes, this is the Book of Heaven's Path. Although this is only a fragmented scroll, the scriptures in it can be transformed into heaven and earth!"

Zhang Teng said proudly.

This heavenly Dao scripture is his Zhang family's secret treasure scripture. If it were not that he was the arrogant of the Zhang family, and his status in the Zhang family was quite high, this scripture would not have been studied by him!

Of course, he is not the only one in the huge Zhang family who is qualified to study the scriptures.

Li Kuo's face changed slightly.

"Sure enough, it is the Scripture of Heaven! If this is the case, I also deserve an exception!"

Li Kuo whispered: "One Qi transforms three Qings!"

Li Kuo's figure is divided into three, one of which is the deity and two clones, but both the deity and the clone are ordinary auras!

These three bodies make it difficult to distinguish the true from the false!

"To transform the Sanqing together, isn't it Lao Tzu's method?"

Fang Yue was surprised when he saw this.

That era was really chaotic.

Many Taoisms and secret techniques are widely spread, even some legendary secret techniques are controlled by many people!

Li Kuo has three bodies, which is equivalent to three Li Kuo fighting side by side!

Two of them attacked Zhang Teng, and it seemed that the Scripture of Heaven that Zhang Teng said made Li Kuo more jealous than Fang Yue.

Two clones of Li Kuo came under the siege, causing Zhang Teng's pressure to suddenly increase. Even if the scriptures contained the unparalleled power of that day, they couldn't stand the siege of two Li Kuo!

Fang Yue was furious!

"Li Kuo, what do you mean? The two bodies besieged Zhang Teng, leaving only one to oppose me. Why do you look down on me!"

Fang Yue suddenly became tough.

Li Kuo was stunned.

I have a body to deal with you, shouldn't you feel grateful that there is no pressure and danger?

Where do you come from?

Li Kuo is a little unclear so!

And Fang Yue's methods have become increasingly fierce. Not only did he do it himself, he also participated in the nine-tailed white fox, the deep-sea evil flood, and three lone wolves.

At this moment, Li Kuo finally understood that Fang Yue's anger was fake, but it was true that Fang Yue asked a helper to help.

With the help of three ancient fierce beasts, Li Kuo felt his pressure suddenly increase!

This Fang Yue is difficult enough, his realm is not high, but various methods have fallen out, and now there are three ancient fierce beasts, although they are all at the level of saints.

But is the saint weak?

The fierce beasts with ancient blood have become a certain threat to the ordinary great sage!

For example, this nine-tailed white fox is good at bewitching and mental power. She shifts from time to time, which often causes Li Kuo to have some messy thoughts in his mind when fighting against each other!

And that deep sea evil flood is not a good stubble, he directly summoned a sea area, and changed the surrounding battlefield environment!

Three lone wolves, three heads howling at the dry sky, this moment's effort has already summoned dozens of moons to fall down.

Li Kuo wants to swear, the three lone wolves of this dog day, your moon is wholesale, no money!

With the interference of the three fierce beasts, Fang Yue's battle became easier. He also used various daos in a staggered manner, not necessarily powerful, but it caused a lot of trouble to Li Kuo!

For example, Li Kuo's golden sword eyes were about to hack Zhong Fang Yue's forehead.

However, Fang Yue stubbornly used Space Heavenly Dao, and then deflected the tip of the sword a bit!

Or maybe Fang Yue just summoned a fireball.

This fireball has penetrated into a door of space, I don't know which corner it will come out from in the next moment!

In Fang Yue's hands, the Heavenly Dao in this space has been completely played out.

All kinds of methods are so varied that Li Kuo is almost directly depressed!

Li Kuo saw Fang Yue's shots again and again, and he felt a little regretful in his heart.

If I had known it a long time ago, I would summon two clones to deal with Fang Yue.

This tense seems to be really not as difficult as Fang Yue!

Suddenly, there was a shout of killing from outside.

The space split by Fang Yue would be forcibly connected by people.

"Fang Yue hurry up and kill Li Kuo, otherwise you won't have a chance when the reinforcements come!"

Zhang Teng suddenly took out a forbidden magic weapon, and a vajra appeared from his hand.

The vajra fell from the sky.

A stick broke Li Kuo's body.

But the light and shadow of the vajra became faint.

The use of this contraindication tool is extremely limited.

Otherwise, it is impossible for Zhang Teng to hold back and adopt it now. In fact, at the beginning, Zhang Teng planned to use this vajra against Fang Yue's.

When Fang Yue saw that the vajra was even black, he naturally knew what was in Teng's heart. He didn't expect Li Kuo to block his gun this time!

However, Li Kuo's body was knocked to death, but the other bodies were still alive and well!

Li Kuo's Transformation of Sanqing Together is definitely a complete version, with three bodies, each one is the deity, but each one will also be a clone.

Simply destroying one of the bodies is not enough to cause any harm to the caster!

Unless all three bodies are destroyed, it is possible to defeat this Li Kuo truly!

Fang Yue saw this, without saying anything, he took out the mirror of life and death.

Although the mirror is a magic weapon at the saint level, it may not be ineffective for Li Kuo at the temporary great saint level!

Sure enough, Ming Jing was suspended, and Li Kuo felt an impulse in the soul in his flesh!

"Heaven and earth live everywhere, suppress my soul!"

Li Kuo deserves to be a strong man of the God of War clan, so he chanted a few spells to soothe his soul!

### **Chapter 1670: Desperate Zhang Teng**

"Samsara is like a dream and it's all vain!"

An extremely mysterious reflection of the world suddenly appeared in the depths of Fang Yue's eyes.

This is the endless starry sky, the billowing red dust, the prosperity of all things between heaven and earth, the ups and downs of life.

Li Kuo looked at Fang Yue's eyes, and he was suddenly stunned.

The momentary loss of consciousness was the opportunity that Fang Yue firmly grasped!

"It's this time!"

Fang Yue suddenly said.

Zhang Teng cooperated closely, and the vajra in his hand fell with a bang.

This vajra can be used for a limited number of times, and every time a clone of Zhang Teng can be destroyed to ensure the maximum use of the vajra.

Otherwise, this thing will be exhausted by waving the aura of the virtual wonderland powerhouse twice.

He and Fang Yue could only stare at Li Kuogan!

Li Kuo's two bodies were destroyed, and his heart was also anxious at this moment.

If Fang Yue and Zhang Teng were to cut down like this, he might not be able to keep these three bodies together!

And at this moment, the power of the upper divine power in Li Kuo's body had begun to gradually dissipate.

The consumption of the upper divine power by the three bodies is doubled.

And Fang Yue still looked like a dragon and a tiger, the lower power in his body seemed to be too short for a while.

Li Kuo decided to temporarily avoid being arrogant with Fang Yue!

So Li Kuo turned around and left!

His steps are quite determined, and it doesn't matter to him whether this credit can be obtained or not.

At the very least, keep your own life.

However, how could Fang Yue and Zhang Teng let Li Kuo do as he wished. This will bring the tiger back to the mountain, and there will be endless troubles. Whether Fang Yue or Li Kuo understands such a simple truth!

Fang Yue's life and death mirror shined again.

The soul of Li Kuo's last clone was also temporarily captured.

Li Kuo chanted the spell impatiently, suppressing his soul and Fang Yue said, "Don't use this method, it's useless!"

"Really?"

A strange smile suddenly appeared at the corner of Fang Yue's mouth.

Seeing Fang Yue's smile, Li Kuo's heart suddenly secretly said that it was not good.

At this moment, the reincarnation qi in Fang Yue's body already seemed to be boiling, and strands of reincarnation qi was injected into the mirror of life and death, and Fang Yue's zhenqi and the mirror of life and death resonated with each other, letting the mirror of life and death arouse. Part of the power of the deity.

This mirror of life and death is actually just an imitation of a real fairy artifact, and the quality of its deity is supreme. Wei Neng Wushuang, with a light shot, you can take away the soul of the entire Xuanhuang world!

The mirror in Fang Yue's hand has part of the deity's abilities, and it also has a slight connection with the deity of the mirror of life and death.

Now Fang Yue activates this connection with revolving true energy.

The mirror of life and death floated into the sky.

The quality immediately improved by more than one layer.

Although this Mirror of Life and Death still can't reach the level of the Great Sage Level Magical Artifact, at least a half-step Great Sage Level Magical Artifact is not a problem!

The power of the Mirror of Life and Death increased sharply.

This Li Kuo couldn't suppress his soul.

Finally a beam of black light captured Li Kuo's soul.

Li Kuo's body became a walking dead.

"This corpse is mine!"

Before Fang Yue could react.

Zhang Teng has already started to grab the spoils!

Fang Yue's face was dark. Unexpectedly, this Teng turned out to be such a person.

Too shameless, he almost fights with him!

Fang Yue questioned Zhang Teng and said: "This Li Kuoming was killed by you and me. I also have a credit. You took his body away, what do I want!"

Zhang Teng coldly snorted: "You and I are already hostile. I can't leave Li Kuo's body to you. If you have the ability, you can grab it quickly. Whoever grabs this trophy will get it!"

When Fang Yue saw Zhang Teng's shameless face, he didn't feel much anger in his heart.

Because the two of them weren't in the same group, Fang Yue didn't expect this Teng to share the fat in his mouth.

At this time, the divided space is completely closed.

A large number of soldiers rushed into this Anling ancestral hall.

Fang Yue put away the three fierce beasts, and stood alone in the distance from Zhang Teng, and then the expression on Fang Yue's face didn't recognize him.

"It was him, that was he who killed General Li Kuo. I will slay the murderer to avenge General Li Kuo!"

Soldiers rushed in.

Those soldiers turned out to be at the cultivation level of the Saint Realm.

Fang Yue was stunned by the quality of this army

No wonder they were able to wipe out the civilization of gods.

This configuration is already extremely luxurious.

And Zhang Teng was surrounded by these extremely angry soldiers, and then stunned.

No, it's not right!

This Li Kuo was killed by him and Fang Yue together. To be precise, Fang Yue stabbed Li Kuo's last knife before he died, but why these soldiers only recognize him and not Fang Yue.

Zhang Teng looked back at Fang Yue.

He knew it immediately.

The three fierce beasts were put away by Fang Yue.

Then Fang Yue was already at the Yin-Yang realm's cultivation level, and he didn't even need to condense the aura, because this was his truest cultivation level!

In the eyes of the saint realm powerhouse, Fang Yue's cultivation base is unworthy to lift their shoes!

And a group of saints are here, whoever takes action on the reptiles of Yin-Yang Realm will be laughed at.

Therefore, Fang Yue was ignored by these soldiers.

All the spearheads pointed at him Zhang Teng.

Zhang Teng's intestines are almost green at the moment.

What a shame, regret it!

Why did he take away Li Kuo's body when he was idle!

If it fell into Fang Yue's hands, he would definitely be able to stand by and watch Fang Yue's jokes!

"Fang Yue, this corpse is for you, can you and I fight the enemy together?"

Zhang Teng once again invited Fang Yue, he must be alone with two fists than four hands!

If Fang Yue is added, there may be a play, because Fang Yue's methods are quite strange, which makes him feel a little unpredictable.

Fang Yue curled his lips: "I don't know you! Are you joining hands with me? What about your face?"

Zhang Teng's cheeks flushed with Fang Yue's mockery.

Miscalculation, miscalculation, this is too early!

A gloomy light flashed in Zhang Teng's eyes.

He looked at Fang Yue and felt that it was really unfair that he was fighting here and Fang Yue was watching the show next to him!

Therefore, Zhang Teng took the initiative to report Fang Yue.

"I didn't kill General Li Kuo by myself. This Fang Yue was also involved in it. Why wouldn't you do it on him!"

Zhang Teng sold Fang Yue in this way.

On the other hand, Fang Yue said helplessly, "Do you think what he said is possible? This is an insult to your general Li Kuo. He is a great existence comparable to the combat power of the Great Sacred Realm. Being able to crush me, do you think I have the ability and courage to participate in the murder of General Li Kuo?"

Fang Yue's words make sense.

The soldiers at the Saint level level nodded one after another.

They couldn't help but look at Zhang Teng's eyes becoming even more fierce.

Not only did he kill General Li Kuo, but he also tried to bring disaster to the east. Is this insulting their IQ?

Seeing this scene, even Zhang Teng was shocked.

This Fang Yue is really insidious and spicy!

He unexpectedly has such eloquence, such means, such deceptive skills.

"I dare to swear by my demon that what I just said is true!"

In order to drag Fang Yue into the water, this space was a bit at all costs.

He even swears with his own demon, which made the angry soldiers hesitate.

Everyone is a spiritual practitioner, and they also know the seriousness of the heart demon's oath.

Once you violate it, you will definitely suffer from the invasion of the heart demon, and an inattentive person will even be backlashed by the heart demon and burned.

Could it be that what this person said is true?

However, whether it is true or not, it is meaningless to these soldiers!

Because both Zhang Teng and Fang Yue have to die this time, they have to bury General Li Kuo!

Angrily soldiers rushed forward, a large part of which targeted Zhang Teng.

Fang Yue became their second choice instead.

Only the least useful saint came to kill Fang Yue.

Fang Yue saw the saint and ran away.

If he hacked the saint to death if he swung a knife, wouldn't it mean that all this Teng said was correct?

Fang Yue ran at a tricky angle. Although the speed was not fast, he could cleverly avoid the saint soldier's chase every time.

But Zhang Teng was miserable. A hundred-odd saint took him round and round, and he couldn't even run.

He can only use some life-saving methods to temporarily resist these almost crazy saint-level soldiers.

But his power will eventually run out.

And he must have exhausted his power earlier than these soldiers at the Saint level.

Zhang Teng was about to cry.

There is despair in his heart.

At this time, in the void, layers of ripples were born.

A powerful man of the Zhang Family's Great Sacred Realm level turned out to be forcibly breaking through time and space.

"Don't panic Zhang Teng, I'll protect you!"

The great sage of the Zhang family is a powerful man in the third level of the great sage realm. Although he is deeply trapped in the siege of the soldiers of the sage realm, this great sage does not have the slightest fear.

As a great saint, are you still afraid of these saints?

Just when the great sage of the Zhang family showed disdain to these saint-level soldiers.

Eight soldiers at the saint level joined hands to form a battle formation.

In the battle formation, a golden sledgehammer appeared.

The sledgehammer fell, directly flying the strong man in the Great Saint Realm of Zhang Family.

The gap in realm is not irreparable, and battle formation is one of the most common ways!

I have to say that this saint force under Li Kuo is definitely a powerful force!

They have experienced hundreds of battles one by one, even if they are the powerhouses facing the Great Sacred Realm, they have not the slightest timidity.

Zhang Teng just saw a glimmer of hope, and then the hope was shattered.

Fang Yue whistled beside him.

"Is this the great sage of the Zhang family? This flying posture is really beautiful!"

Fang Yue's ridicule was abnormally harsh, and an inexplicable force in Zhang Teng's body suddenly awakened.

Fang Yue suddenly remembered a rumor.

In fact, Zhang Teng has long been able to take the most critical step and become the Great Sage.

It's just that he is always reluctant!
