

God of Life 1671

Chapter 1671: Zhang Teng

Yun steamed Xiawei, and the four elephants flew together. The moment Zhang Teng broke through to the Great Sacred Realm, he immediately attracted a boundless vision of the world.

More importantly, the robbery clouds gathered in the sky.

Road after road of thunder across the world!

That endless tribulation represented the tribulation of the great sacred realm.

Those soldiers at the saint level will definitely have no hope of surviving under the baptism of the great sacred level.

Fang Yue was naturally wrapped in the scope of this great sacred realm level.

The meaning of this teng is quite obvious.

This is to use the Heavenly Tribulation of the Great Sacred Realm to destroy all enemies including Fang Yue.

Zhang Teng's heart is killing thoughts, this is his biggest ultimate move, the biggest trump card.

Fang Yue raised his head and glanced at the sky full of thunder.

There was a frustrated expression on his face.

It turned out that the use of heaven to destroy the enemy was not his original creation, but a common sense that everyone knew. However, most people are cautious when crossing the Tribulation, for fear that the influence of others will increase the power of the Tribulation, causing them to fall short and unable to enter a higher realm level.

Everyone who dared to kill the enemy with Heavenly Tribulation is a guy who is not afraid of death, or it seems that Fang Yue and Zhang Teng are 100% sure that they can survive and break through the Heavenly Tribulation!

"All beings and ants, how can they be mad in front of me!"

Zhang Teng's voice became indifferent. He raised a paper umbrella early and blocked it above his head. It was also a taboo magic weapon, a magic weapon of the virtual fairyland level. It can resist Zhang Teng's power, although the matter immediately shatters.

But compared to a powerful man at the Great Sacred Realm level and a taboo magic weapon at the virtual fairyland level, the trade-off is self-evident!

Fang Yue glanced at Zhang Teng.

"Are you sure you want to destroy all of us here?"

Fang Yue's expression was a little melancholy.

Zhang Teng sneered: "That's right, Fang Yue, I know that you are only an aura clone born, but as long as your aura clone dies in my hands, it is equivalent to taking over with me and the Zhang family. Causality, at that time, use the art of causation to infer where your deity is hiding. At that time, you will be a turtle in the urn, and it will be difficult to escape the grasp of my Zhang family."

Zhang Teng became more and more proud.

He thought that Fang Yue could only wait to die.

Fang Yue glanced at the sky full of thunder lights, and suddenly those thunder lights dissipated, and the tribulation disappeared.

A clear sky, as if nothing had happened!

Zhang Teng was shocked!

What kind of situation is this? He seems to have fallen from the clouds.

Who can disperse the thunder tribulation of this great holy realm level to life?

Without the tribulation, what would he use to kill the enemy, without the tribulation, what would he use to create a stronger shell.

A breakthrough without Heavenly Tribulation is incomplete, even if he reaches the level of the Great Sage Realm, he is still weaker than the Great Sage who has been baptized by Heavenly Tribulation.

"I have a little personal relationship with Thor and I can freely manipulate Lei Jie, Zhang Teng actually doesn't need to thank me, I am Lei Feng, I am a good person!"

Fang Yue looked towards Zhang Teng with some small shyness.

But Zhang Teng's emotions collapsed instantly!

The magical Lei Feng, who is Lei Feng?

I deliberately summoned this robbery, this is my last killer!

But in any case, the catastrophe was gone, and Zhang Teng broke through.

He has reached the level of the Great Sacred Realm and his strength has taken a step forward!

Zhang Teng shot, and the divine light fell.

Those soldiers at the Saint level were swept by Zhang Teng as if they were cutting melons and vegetables.

This step is the difference between Xianfan.

Zhang Teng's cultivation level has improved, and his combat power has doubled.

Those soldiers at the Saint level were no longer a threat to him.

Soon those soldiers slaughtered Zhang Teng.

After Zhang Teng killed the soldiers, he turned his head to look at Fang Yue.

Zhang Teng walked towards Fang Yue in blood.

"Even if there is no tribulation, I can kill you!"

Zhang Teng's body exudes boundless murderous intent.

And Fang Yue's face was full of innocent expressions.

"Fang Yue, take it to death, if you don't struggle, I can give you a good time!"

Zhang Teng's voice was dark.

At this time, there was an ancient and vicissitudes of life in the Anling ancestral hall.

"Reverse the universe and change history. Although everything is just an illusion, you at least passed my test!"

"As a reward, I will give each of you a five-turn heavenly pill!"

The voice of vicissitudes fell.

Two golden rays of light cut through Tianye and fell into the hands of Fang Yue and Zhang Teng respectively.

Fang Yue directly displayed the magic pill technique and identified the properties of this pill.

Wuzhuan Tianyuan Pill is 100,000 times more effective than the ordinary Tianyuan Pill. After taking it, it will increase lifespan by three thousand years.

The introduction of the pill is quite simple.

But Fang Yue was slightly surprised.

The ordinary Tianyuan Pill is a Yin-Yang-level pill, which can replenish vitality, and with a 100,000-fold efficacy, even if a saint-level expert has exhausted all his vitality, I'm afraid it can be instantaneous by taking this pill Restore it!

But this is nothing. The same effect can be achieved with a saint-level pill. Although the saint-level pill is quite precious, it has not reached the point where there is nowhere to buy it.

But the pill that prolongs life for three thousand years is rare in the sky.

The effect of this life extension is not limited to realm. If the elixir is given to those old generations who are dying of life, the great sage is a powerful person at the virtual fairyland level, then they can live a lifetime, even if they pay Big price will be exchanged for this precious pill.

Then the two returned to normal time and space.

They are still standing in this Anling ancestral hall.

But this Anling ancestral hall is no longer the Anling ancestral hall where Fang Yue and the others were just now.

"Bring it!"

Zhang Teng looked at Fang Yue, his face was full of unkindness.

"what?"

Fang Yue looked at Zhang Teng in surprise.

Zhang Teng angrily said: "What do you mean? Naturally it is the pill that Anling ancestral hall just rewarded! This pill was obtained by my painstaking efforts to defeat the enemies of ancient gods and civilizations. What qualifications do you have to hold this pill in your hand! "

Fang Yue chuckled: "Have you never heard of it? This stroke is also a skill! Are you not a powerhouse at the level of the Great Sacred Realm? You have the skill to grab it from me!"

Fang Yue has returned to normal time and space, and he has no fear of Zhang Teng at all.

Space and heaven, the fastest running.

Even if you have great magical powers, but I ran away, what can you do with me?

Seeing Fang Yue's provocative expression, Zhang Teng's heart burned even more anger. However, he really had no way to take Fang Yue the least!

It was unlucky for him to meet a comprehension of the spatial and heavenly ways, and even more unlucky was to meet Fang Yue, who understood the spatial and heavenly ways and was still shameless!

At this time, Yin also returned.

Obviously, he also went through some trials before returning to normal time and space.

The appearance of Yin attracted Zhang Teng's attention.

"You also returned from other time and space?"

Zhang Teng's attitude towards Yin was quite unkind. He suddenly remembered that Fang Yue and Yin seemed to be in the same group.

Yin nodded slightly: "Yes, but the two saints of the Zhang family who entered into that space and time with me were killed by a demon in that time and space of rebellion."

Zhang Teng's face was even more ugly upon hearing this.

The sage of their Zhang family hung up, but you were lucky enough to jump out, and the suspicion on your Yin must not be removed.

But Zhang Teng is not a fool.

Since this Yin had survived under the premise that all the saints of the Zhang family had fallen, it was proof that he had at least the ability of the saint realm or surpassed the saints.

Zhang Teng is not in his heyday now. He has just broken through to the level of the Great Sacred Realm. He does seem to be brave, but his breath is not stable yet. If he does too many hands at this time, it is very likely that his realm will collapse due to too much physical exertion. When that time comes, he will

return to the peak of the Saint Realm. It is not that simple if he wants to return to the Great Saint Realm level. !

Fang Yue only dared to stay here because he got the pulse of this pulse. Otherwise, he would have run away.

He does have the qualifications to challenge the Great Sage Realm powerhouse, but he can challenge but he may not have ever played it.

Although he has great opinions on Zhang Family, he has even greater opinions on Zhang Teng.

But it is not time for him to take action against the Zhang Family, the most urgent thing is to find the fragments of civilization.

Fang Yue is ready to redeem some resources from Samsara!

He needs to get the fragments of civilization to grow the earth.

As time went by, Fang Yue was able to feel the feeling of wind and rain more and more. This is not a matter of a certain place, but the entire universe is in this state.

Zhang Teng pondered for a while, and then coldly snorted: "Fang Yue, I have written down the hatred this time. When I return to the family, I will definitely ask the Xuxian in the family to come forward, find out your deity, and practice. Become a puppet of my Zhang family, use your life to atone for your sins!"

Zhang Teng gave a ruthless word and left.

He didn't care about the two great sages of the Zhang family.

This is life and death, and wealth lies in heaven.

If the two great sacred realm rank powerhouses of this family can get out of trouble, Fang Yue and Yin can't stop them, and they will return to the Zhang family base camp.

And the others, they died.

There is no shortage of saints in the Zhang family, and no shortage of cannon fodder at the master level.

In this broken place, there are not many other things but a lot of resources, and the problem of cultivating a strong person at the Saint level is not big!

Fang Yue and Yin let Zhang Teng go, neither of them had the idea of chasing him.

Fang Yue looked at Yin.

"What did you see in that time and space?"

"I have seen the future. This Anling ancestral hall is besieged by a large number of demons. Those demons do not belong to the universe of the universe. They come from other universes in the depths of the universe! The massive fall of evil creatures cannot withstand the siege of those demons. At the beginning, every demon is not powerful at first, but they have strange fusion abilities! Each time those demons fuse, their strength will increase by one, even if they are large after they fuse thousands of demons. The powerhouses at the sacred level may not be their opponents!"

Chapter 1672: Civilization struggle

Yin's expression is rather helpless, which probably represents a corner of the future.

This Anling ancestral hall has a mysterious power that can confuse time and space, allowing them to travel to the future or return to the past.

"This future war is not a battle of individual powers, but a battle of civilizations! The further the branch of civilization in this universe goes, the greater the odds of victory in future wars!"

Yin unintentionally said the true meaning of the existence of reincarnations. They are collecting fragments of civilization and spreading civilization knowledge!

At this time, Fang Yue's face suddenly changed slightly.

In this Anling ancestral hall, a force of time and space came to him and Yin Tuo silently again.

At this time, the power of time and space is intangible and intangible, just like the world everyone lives in. You say it exists, but it is invisible and intangible, but you say it does not exist, but it happens to be invisible again. It affects everyone.

It turned out that after staying in this ancestral hall for a long time, he would start a second journey through time and space.

Fang Yue wanted to remind Yin, but it was too late.

The temporal and spatial changes around their bodies.

The two have come into a different world!

This is an ancient city, and there is a rush of people in the city!

The figures of Yidu are all exhausted and busy, and they flow in different directions.

"Chen Gang, the third innate!"

"Li Qiang, the fourth innate!"

On the road, two young men wearing loose robes suddenly stopped and opened the field to prepare for a discussion.

Fang Yue was stunned when he saw this scene!

This civilization should be a civilization system in which technological civilization and practitioner civilization coexist, but even if you are a martial artist, find a place to learn from each other.

You two are fighting on the main road, do your parents care about you?

However, these passers-by seem to have become commonplace in this situation.

No one came forward to stop the two of them, but everyone would unanimously and tacitly spare the two middle two youngsters, and then each went to their own destination!

The ancient costumes of Fang Yue and Yin seemed out of place with the flow of people on the road.

Fang Yue and Yin looked at each other.

"Yin, what's the situation? As a senior, can you tell me?"

Fang Yue asked Yin helplessly.

"This is something Anling ancestral hall wants to tell us, but it just can't express it directly in words. The world I entered last time was also like this, but the place where I was at that time was not as vast as this city! If I'm not wrong, this should be a planet in the future! We are just bystanders, we just need to watch the changes. When necessary, this Anling ancestral hall will give us some tips to let us know Complete the task, at least know the way to leave this ghost place!"

As a skilled worker, Yin appeared to be organized, without the slightest panic.

Yin's words also calmed Fang Yue's heart.

The two inquired separately. In fact, the main task was Yin. According to Fang Yue's logic, since Yin said he had to take care of him, he had to assume responsibility, and he only needed to be responsible for paddling and getting rewards. Enough!

In a blink of an eye, Yin didn't know where he was going.

Fang Yue walked directly into a bookstore, and then bought the world through books.

Fang Yue didn't know the words of this world, but this didn't affect his understanding of this world.

Every word contains the weak mental power of the author, and Fang Yue can naturally understand the content of the book by sensing the mental power.

Soon, Fang Yue constructed a rough outline of this world in his mind.

The surface area of this planet is about ten times that of the earth, and there are seventy or eighty folding spaces.

The real area is more than twenty times the size of the earth.

And the civilization of this planet is about a thousand years ahead of the current earth. In every city, there is at least one master of the leader level, and among ten cities, there is a master of saint. exist!

The highest officials in every province are at least at the Great Sacred Realm level!

This gave Fang Yue a rough estimate of the number of powerhouses in this world.

"There are about 800 provinces, which means that there are at least 800 Great Sacred Realm levels in this planet! The number of saints should already exceed five digits!"

Fang Yue continued to understand the development status of scientific and technological civilization. The level of productivity of scientific and technological civilization is actually average, probably only 500 years ahead of the earth, and it is probably still in the era of light energy.

But in terms of military affairs, the most top-notch self-produced spacecraft can already break hands with the powerhouses of the Great Sacred Realm!

As for the weapon of the virtual fairyland level, it was a legendary existence. One was unearthed from the remains of an ancient civilization, and then no one saw it again.

When Fang Yue was reading in the bookstore, he happened to see a little fat man.

The little fat man is also reading books seriously, but what he reads is a martial arts book!

What makes Fang Yue more curious is that this little fat man has a faint red light of luck! The red light of luck represents that this little fat man is a person who is favored by the luck of this world.

Although among many people who are favored by luck, Hongguang is the weakest.

But at any rate, he is half a destiny.

The little fat man was watching the tricks in the book seriously, and he made gestures unconsciously.

Fang Yue stepped forward and said, "Your way of luck is not right! You are learning Qianlang Slash, and you need to start with the most basic Yilang Slash. Yilang Slash pays attention to my heart. , All the spirits and spirits must be condensed on the knife, cut out with one knife, either you die or I live! And your moves are too weak and soft, there is no such kind of spirit of death and life! When it comes to the second wave, the first A cut requires energy, this is just a prelude! The last cut is the time to cut out all the power."

Fang Yue unexpectedly discovered that this little fat man was learning Qian Lang Slash, which he used most often.

Fang Yue felt that he had fate with this little fat man, so he also gave pointers.

The little fat man raised his head and looked at Fang Yue.

His tight face seemed to be a little nervous, but he still said to Fang Yue: "Thank you for your advice! But I will enter the army for an internship tomorrow, and I will face those terrible abyssal creatures when I enter the army! Even if I have learned Thousand Waves Slash, I don't necessarily have a chance to save my life!"

The little fat guy was about to cry.

Although he is the fifth-level cultivation realm of the Innate Realm, he is a leader among his classmates, but compared to those abyss creatures, he really counts nothing!

Anyone who has an abyss sword demon will chop him into ribs in minutes!

Fang Yue felt that this little fat man was more and more interesting, and those strong and forbearing guys usually see too much.

Now I finally met a timid, true-tempered guy, and he also felt a little fun.

The most important thing is that Fang Yue feels like seeing some shadows of himself when he was a child in this little fat man. Well, well, now he also has this kind of greedy for life and fear of death.

"What's your name, little fat man?"

Fang Yue said to the little fat man.

"Lu Jiang, the mainland's land, the river's river!"

The little fat man was quite satisfied with his name.

The majestic atmosphere, some heroic style.

"If you trust me, you can worship me as a teacher. I can't do anything else, but I still have the ability to help you save your life in front of the abyss creature!"

Fang Yue felt that he had a close relationship with Lu Jiang, so he simply accepted him as a disciple.

However, this disciple estimated that he would not be able to follow him for too long.

After all, he is just a passer-by in this time and space!

Hearing that he could save his life, Lu Jiang knelt down without hesitation.

"Master is here, please accept the gift of apprenticeship!"

It is a very solemn thing to be a teacher in this world. Be a teacher for one day, and be a father for life!

Lu Jiang's eyes are actually very thief, he has long discovered that Fang Yue's is unusual.

In Fang Yue's body, he felt a little ant looking up at the starry sky. He was small and helpless. He didn't know how wide the endless night was.

Lu Jiang applauded his teacher and Fang Yue laughed: "My good apprentice, since you are so respectful to being a teacher, I will give you a welcome gift!"

Fang Yue handed a Dragon Tiger Pill to Lu Jiang.

When Lu Jiang saw the pill, he was taken aback for a while, then was overjoyed.

Dragon Tiger Pill is not a rare pill, it also exists in their world.

After taking this Dragon Tiger Pill, you can be as powerful as a dragon and tiger.

He had only seen his classmates in the past have eaten it, so where did he enjoy this luxurious pill.

Lu Jiang's family is only at the middle level, and he has normal tuition fees and medicine.

But in his eyes the pill is a luxury product. He has only taken three pills in his life, and they are all cheap mass-produced pill!

After taking this kind of Dragon Tiger Pill, it is a pill that can increase the physical strength of three thousand kilograms. He is simply an existence that is beyond sight.

If this kowtow can be exchanged for such a precious pill, Lu Jiang is willing to buy ten more!

Fang Yue saw Lu Jiang's surprised and reluctant expression.

He couldn't help but smiled and said: "Take this pill! There are still many of this pill for a teacher. I think your foundation is shallow, so I gave you a dragon and tiger pill. Remember, this path of cultivation is thousands of years old. Don't be impatient! This physical body is the key foundation, without the

foundation of the physical body, you blindly pursue the realm of refining Qi! In the end, you can only achieve success, and the road will become narrower and narrower!"

Fang Yue told Lu Jiang.

Lu Jiang nodded his head as if he did not understand, indicating that he remembered it!

Afterwards, Fang Yue was the guardian of Lu Jiang and asked him to thoroughly refine this medicine.

Sitting in the bookstore, Lu Jiang immediately began to practice.

However, this did not attract anyone's attention, because everyone in this world practice martial arts, occasionally blessed to the soul, sitting on the spot, in order to break through the people everywhere.

Such scenes are staged three or five times a day in the bookstore.

Chapter 1673: Instructor's conspiracy

After Lu Jiang took the Dragon Tiger Pill, he immediately felt that his energy level was different from his previous state.

The blood in the body is like a river rushing, and every inch of muscle is full of power! The celestial essence and body magical skills that Lu Jiang learned in operating the school have tapped every trace of the power of the medicine to the fullest extent.

He felt that his whole person had gone through a life-level transformation from a snake to a dragon!

Lu Jiang sat awkwardly for half an hour before he completely refined the residual strength of the pill in his body.

This kind of pill is extremely rare for Lu Jiang, and I don't know if there will be any in the future!

Therefore, he did not want to miss any opportunity for power growth, and only opened his eyes again after all the cells in his body had swallowed the medicinal power of the pill.

Fang Yue glanced at Lu Jiang. This Lu Jiang looked fat and chubby. Underneath his gentle and weak appearance, there was something very spicy that outsiders could not discern.

Fang Yue smiled slightly, and then said: "How do you feel? The effect of my Dragon Tiger Pill should be considered good!"

Lu Jiang knelt down and knocked his head three times.

"Disciple Lu Jiang, thank you Master for giving me medicine!"

Lu Jiang couldn't express his inner excitement in words, so he simply knelt down and kowtowed to Yue.

Fang Yue didn't stop Lu Jiang either. Although the man has gold under his knees, the man who can put his face aside is the real man!

What's more, knowing grace is a more precious quality than self-esteem. In troubled times, self-esteem is often the cheapest consumable.

"Well, you will practice well in the future. If your performance is good, I will continue to give you pills and reward you with secret techniques!"

Fang Yue helped Lu Jiang up and then encouraged Lu Jiang.

Suddenly, Lu Jiang glanced down at the watch on his wrist, and he immediately exclaimed: "Oops, now is the time for the army to gather. If I miss this time, I will be a deserter. The federal punishment for deserters is extremely high. Seriously, if you make trouble, you will be sent to a military court and executed directly!"

Lu Jiang's face changed slightly.

Fang Yue patted Lu Jiang on the shoulder.

"Don't worry, I can send you to school in an instant! I will attach a ray of divine thought to you, and I will appear to protect you at a critical moment! But you should not become dependent on my protection, otherwise if you do, you will disappoint me!"

Before Lu Jiang had time to speak, the surrounding scenes had already moved to Lu Jiang's school.

Xinghui Middle School, this is Lu Jiang's school. He was too surprised that his newly recognized master was so powerful that he hurried to the playground to gather.

And Fang Yue in the bookstore has disappeared.

The divine mind that maintains the spiritual qi clone is attached to Lu Jiang's body and observes Lu Jiang's every move all the time!

Lu Jiang just came to the door of the playground, he sighed with relief, there are still three minutes to gather, he still has time!

"Lu Jiang!"

At this time, a delicate female voice rang in Lu Jiang's ears.

When Lu Jiang turned around, he saw a figure he had dreamt of.

"Chen Ting!"

At this moment, Chen Ting was wearing a white veil and standing in the distance smiling at him.

When Lu Jiang saw this smile, he almost lost his soul!

This Chen Ting is one of the goddesses in Xinghui Middle School. Lu Jiang has pursued her countless times, sent flowers, played meals, and carried things, but this goddess Chen Ting has always been cold to him.

This time the appearance of the goddess Chen Ting, how could he make him feel disheartened like a deer?

At this time, another figure has entered the playground.

Lu Jiang recalled, he couldn't help but let out a cold sweat.

He forgot that he was about to assemble immediately!

He actually thought that picking up girls was really damnable at this time!

Lu Jiang hurriedly entered the playground! At this time, the team of his class had assembled.

As the last person to enter the team, Lu Jiang must be punished by the instructor according to reason!

The instructor looked at Lu Jiang sullenly.

He glanced down at the watch on his wrist.

"Lu Jiang, you were late in one minute, don't you know! Even if you enter the army with your slack style, you will be punished by education! It's not as good as me when you are in the army and are receiving education. Let me educate you!"

The instructor suddenly took a step forward. He waved his big hand and slapped Lu Jiang severely!

Lu Jiang was slapped by this sudden slap.

Since he was young, no one has ever slapped him like this.

This is a great insult!

Lu Jiang's heart was full of anger!

The instructor still looked at Lu Jiang coldly, then turned his hand and slapped again.

"Why do you look at me with that look! I am doing this for your own good! I slapped you to make you remember today's lesson deeply!"

Five red fingerprints slowly appeared on Lu Jiang's other cheek.

Lu Jiang could hardly contain the anger in his heart. He would immediately explode and fight back against the instructor!

At this time, Fang Yue's voice suddenly rang in Lu Jiang's ears.

"With a murder weapon, let yourself be murdered! Lu Jiang, you have to restrain your emotions! Why would this instructor make things difficult for you? There has never been innocent love or hatred for no reason in this world! If you fight back, you will You have to think clearly about what end you have encountered!"

Fang Yue's voice was extremely deep, and there was a waking power in the morning and evening.

Lu Jiang instantly calmed down.

"Yeah, why does this instructor find fault with me? I have no grievances with me. Why does he find an unnecessary reason to insult me? Also, Chen Ting was also very strange just now. She usually loves me. Reason, but this time it stopped me innocently!"

Clues popped up in Lu Jiang's mind.

He began to wonder what these people's intentions were!

When the instructor saw that Lu Jiang was able to restrain the anger in his heart and calm down, the corners of his mouth couldn't help but curl up with a cold smile.

This Lu Jiang is indeed a good seed, but unfortunately, he has cast the wrong family!

Happiness!

The instructor repeatedly beat Lu Jiang on the cheek with his forehand and backhand.

The instructor's attack was extremely heavy, and he was still yelling at Lu Jiang while beating.

"Lu Jiang, you idiot, you rubbish! I just taught you why you don't know how to be grateful, thank me!"

This instructor is simply endless.

He started to slap Lu Jiang when he found fault.

In the crowd, in full view, no matter it is a man with blood and self-esteem, he can't stand such an insult.

The same is true for Lu Jiang!

A puff of blood rushed to Lu Jiang's head.

Lu Jiang had completely lost his mind, and he raised his hand to push the instructor away.

The instructor staggered two steps, really backed up a bit.

The instructor's face suddenly showed a successful conspiracy smile.

"Lu Jiang, you are so courageous, you dare to confront the instructor and disobey the discipline! According to the military law, I was able to kill you directly! You are detaining this Lu Jiang for me now in the confinement room, I want to see Did Lu Jiang eat the courage of the bear heart and leopard? How dare to treat me as an instructor like this!"

The instructor gave an order, and the two students pounced on Lu Jiang like wolves.

Their respective cultivation levels are much higher than Lu Jiang, and it is logically easy to take Lu Jiang down.

But at this moment, Lu Jiang seemed to be enchanted, his eyes were red, and the two students were cuffed, but they were all knocked off by Lu Jiang's arms.

"Trash, you are all trash! Your cultivation base is so much higher than Lu Jiang, even if the two of them can't take Lu Jiang down together?"

The instructor could not help but roar loudly.

He shot it himself, and the aura of the heaven and earth realm was overwhelmed, causing Lu Jiang to lie directly on the ground.

As a master of the heaven and earth realm level, the instructor wants to deal with a small innate realm level Lu Jiang is simply easy.

It's just that he didn't bother to attack Lu Jiang and bullied a student who had only the Innate Realm with the cultivation base of the Heaven and Earth Realm, which sounded bad reputation.

But thinking of the importance of his mission this time, he had no choice but to make a shot once and make a quick decision to avoid future troubles.

However, Fang Yue, who was deposited with Lu Jiang, did not take any action. He observed quietly in secret to see what these people wanted to do.

Also, at the moment when Lu Jiang broke out, Fang Yue vaguely felt a strong demon energy surging out of Lu Jiang's body.

This Lu Jiang does not seem to be an ordinary physique, he may be awakened by strong emotional stimulation!

Lu Jiang was taken to the confinement room by the instructor.

Lu Jiang had gradually calmed down at this moment, the red light in his eyes receded.

"Instructor, what do you want to do?"

Only the instructor and Lu Jiang were in the confinement room.

Lu Jiang did not shy away from it, asking straightforwardly!

The instructor smiled sadly: "Actually, it's not what I want to do, but I want to know what your parents want to do? Do you know that your parents are two renowned experts from the Federal First Academy, Twenty years ago, it stole a true magic seed from the first university of the Federation, and then evaporated from the Federation? Until now, we have not tracked their whereabouts, they actually live in this humble small county. , They gave birth to you after they got married!"

"If you can honestly cooperate with us in arresting your parents and contributing this true magic seed, I will not be blamed for your previous offense to me! Otherwise, I will send you to the Federation on the charge of attacking the instructor. At that time, you will be sentenced to a felony, and you will most likely be executed directly!"

The instructor threatened Lu Jiang.

Lu Jiang's eyes were once again stained with a faint red light.

"You are actually going to do something against my parents, your sin is indemnable!"

Lu Jiang seemed to have touched the most sensitive bottom line in his heart. He suddenly opened his mouth and punched the instructor.

The instructor sneered: "Your little power is not enough to tickle me in front of me! Since you still refuse to admit your life, then I will wake you up!"

Chapter 1674: Lu Jiang's Demon

Lu Jiang turned a deaf ear to the instructor's voice, and all his sanity at the moment was overwhelmed by crazy emotions.

A faint black air lingered around Lujiang's body silently.

At a glance, Fang Yue recognized that this black energy was a manifestation of demonic energy!

This Lu Jiang has become a monster!

Lu Jiang's cultivation level also skyrocketed!

The seventh layer of the Innate Realm!

The Ninth Level of Innate Realm!

The realm of heaven and earth!

This Lu Jiang's enchantment seemed to have stimulated a certain source of power in his body, and his cultivation level turned out to be an uncontrolled growth!

"True Demon Seed, that true Demon Seed is actually on you!"

The instructor's voice was mixed with excitement in surprise.

He can do meritorious service!

He knew very well in his heart the importance of that true demon seed. As long as the true demon seed was regained, their federal army would quickly acquire thousands of demonized soldiers.

Although the life span of the demonized soldiers will be greatly shortened due to the overdraft of their potential, they will become the most terrifying trump card army in the hands of the Federation!

The demonized soldiers will not only greatly increase their combat awareness, strength, and speed, but more importantly, they will not fear death, only killing and fearing in their hearts!

If there are enchanted soldiers, the Federation will be able to explore a wider area and conquer more territories!

And he, as the hero who brought this demonized seed back to the federal army, will also receive supreme glory and extremely considerable bonuses.

How much effort did he put in for this plan, and how many conspiracies did he use.

The instructor's cheeks were about to become distorted because of the excitement in his heart.

"I'm going to kill you!"

At this time, Lu Jiang had already killed the instructor.

As if his palm had become an eagle's claw, he buckled directly on the instructor's shoulder.

Lu Jiang scratched the instructor's shoulder with one hand.

The instructor's eyes widened, he didn't expect Lu Jiang to become so terrifying after being enchanted.

However, no matter how strong Lu Jiang is, he is not his opponent. Even if one arm is seriously injured, he cannot use it temporarily!

The instructor's knee pressed against Lu Jiang's abdomen.

This is a standard army killing technique, simple, fast, and instantly divided into birth and death.

This is the characteristic of the military, there is no sluggishness.

But the invincible army's standard killing technique suddenly failed in front of Lu Jiang.

Lu Jiang's figure seemed to be transformed into a ghost, and he cleverly avoided the blow to the knee!

At the same time, Lu Jiang's fist had hit the instructor's heart.

The instructor showed an incredible expression.

But the instructor had not had time to dodge, the fist had already smashed the instructor's heart!

The heart was shattered, and the instructor was bound to die. He thought that this zombie was an easy task to complete, but he didn't expect that Lu Jiang would explode with such a powerful combat power after being enchanted!

"you you....."

The instructor pointed to Lu Jiang as if he was going to curse him, but he even said two words for you, but in the end there was no more text.

The instructor then whitened his eyes and died himself.

Lu Jiang's enchanted state gradually got rid of with the death of the instructor.

But even if he had returned to a normal state, Lu Jiang had already retained his seventh level of innate realm!

This Lu Jiang turned a good luck every time, and he also increased his cultivation skills because of a blessing in disguise.

But at this moment, Lu Jiang was not happy at all, because he knew his parents would be in danger!

This instructor is just a **** to explore the path!

The confinement room was not closed. Lu Jiang kicked open the concealed door and left directly. I am afraid that Lu Jiang's death could not be covered!

He must find his parents as soon as possible and use the shortest possible time to clarify what is going on!

Soon, Lu Jiang escaped from the school. He gave Fang Yue a space coordinate, and Fang Yue sent Lu Jiang back home.

When Lu Jiang returned home, there was already a mess at home.

The corpses of Union soldiers were all over the ground, and his parents were missing. There were some broken bodies of biochemical monsters on the ground. It was obvious that these biochemical monsters protected the lives of Lu Jiang's parents during his lifetime.

On the coffee table, there is a note stained with blood.

The handsome text on the note read: "Lu Jiang, I took your mother and left when you came back. I'm sorry, our identity is known by the Federation. We must find a safer place to study the devil. The gate! If you can see the note I left you, it means that you have escaped under the first wave of the federal pursuit! Sorry kid, we can't take you away with you, but make good use of the true magic seeds, It will give you the power to fight against the entire Federation!"

The text is extremely neat, and there is no panic at all.

It can be judged that Lu Jiang's father should be quite calm when he left!

Lu Jiang did not find the answer he wanted in the note, but he already had some answers in his mind.

He was abandoned by his parents...

This is one more unacceptable fact!

"Lu Jiang, you have been arrested! You murdered the instructor, the evidence is as strong as a mountain, what else can you say!"

Lu Jiang's home was quickly surrounded by a group of federal soldiers.

Murder of the instructor, this is a grave crime in the Federal Army!

"need my help?"

Fang Yue found that Lu Jiang's mood was not stable.

"No, Master, these humble ants are not yet my opponent!"

Lu Jiang's voice was a little weird, as if it contained something else.

Then, a finger of Lu Jiang opened the door of space.

One of them had wings on the back, and the emerald-green human figure emerged and flew out of the door of space.

"Devil Summoning?"

Fang Yue was surprised. He didn't expect Lu Jiang to have such a method, but Fang Yue quickly realized that this should not be Lu Jiang's method, but that of the true magic seed.

The true magic seed should have begun to erode Lu Jiang's normal thinking and reason!

Under the strong emotional stimulation, Lu Jiang chose to fall.

Fang Yue sighed slightly.

I wanted to accept a good apprentice!

But unexpectedly, the final ending turned out to be like this.

Lu Jiang was once again entangled by the power of darkness, and eventually became a great demon. His cultivation level has reached the level of Yin-Yang realm. But as a price, Lu Jiang sacrificed his own thinking and reason, and he became A demon that is completely controlled by power.

Lu Jiang and the federal army exchanged fire.

After killing hundreds of Union soldiers, Lu Jiangyou died under the gunfire of Union soldiers.

In this process, Fang Yue didn't make a move, because Lu Jiang chose to fall into the demon, he was no longer the Lu Jiang that Fang Yue had fancied.

When facing a problem, either solve the problem or avoid degeneration.

Lu Jiang chose the latter.

This means that he can no longer become Fang Yue's disciple!

A true magic seed emerged from Lu Jiang's body.

Lots of federal soldiers snatched.

This is the credit of heaven and earth, whoever grabs the credit is the one!

But they were praying mantis to catch cicadas, and Fang Yue, an old fox, followed behind.

Fang Yue grabbed the True Demon Seed in one hand, and whoever approached Fang Yue would be sent directly to the White Jade Altar by Fang Yue.

Finally, Fang Yue got the true magic seed.

Fang Yue realized at the same time that this true magic seed turned out to be a fragment of civilization that was one of his mission goals!

Although this is not a product of Shendi civilization, it is the pinnacle of biochemical civilization.

Fang Yue was able to sense the past and present of this true demon seed, and how many scientists' efforts were integrated in it.

A true demon seed was created by absorbing countless corpses and souls of demons.

This kind of child can create countless devils.

"Stop, leave the true magic seed behind!"

A federal soldier said, he turned out to be a second lieutenant at the Yin-Yang level!

The man saw that Fang Yue's cultivation base was similar to his own, so he dared to stand up and stop Fang Yue.

He doesn't need to defeat Fang Yue, as long as he delays Fang Yue's pace for a few moments, there will naturally be a high number of leaders at the master level to capture Fang Yue!

"court death!"

Fang Yue directly inhaled the man in the white jade altar for refining.

This yin-yang state is different from the yin-yang state.

Fang Yue's Yin-Yang realm has almost represented the strongest strength of the Yin-Yang realm since ancient times!

Fang Yue took the true magic seed and turned and left.

Soon, the place where Fang Yue was just now was convenient for the arrival of two powerful masters at the master level.

They immediately beat their chests and feet after investigating the scene, because he once again missed that true magic seed!

"Fang Yue, do you have any clues? I already know the real purpose of this Anling ancestral hall. He sent us here. The real purpose is to let them witness the battle on a planet where biochemical civilization and technological cultivation civilization coexist! "

Yin's voice rang in Fang Yue's ears.

Fang Yue glanced at the True Demon Seed in his hand.

"I guessed it too, and I have got a piece of civilization!"

Fang Yue played with the True Demon Seed in his hand, which exuded a strange allure.

This true demon seed seems to contain a certain fascination ability, and it is constantly encouraging Fang Yue to refine it and gain the power of the demon!

But Fang Yue is a top player of mental power, how could he be affected by this small mental fluctuation!

Fang Yue put away the true magic seeds.

And at the moment when the true magic seed was placed in the world of the stone pendant.

A corpse fell from the void.

This is the body of a strong saint, and the clothes should be the natives of this planet.

His chest was cut open, his heart was taken out, and his face was full of hideous expressions when he died!

Fang Yue was slightly surprised.

What is the situation?

Does this planet have no graveyards?

How can there be nowhere to put the body of a strong saint?

Fang Yue scratched his head a little, and couldn't see the real situation of the planet. What he saw in the bookstore was what others wanted him to see.

And those things may not be true!

Just as Fang Yue pondered these things, endless dark creatures gathered like clouds in the sky.

This has caused a lot of pressure on the residents below!

Chapter 1675: Praying man

When Fang Yue saw the dark creatures in the sky, he knew in his heart that this planet was about to face a life and death situation.

These dark creatures are not normal creatures of the universe, they are the creatures of the universe that are soaked by the power of darkness!

The blackened creatures not only soared their own combat power, but their fighting consciousness also soared!

Even if it is an ordinary creature without any cultivation base, after being blackened, they will be able to have a warrior comparable to the innate level!

The greater the potential, the higher the strength after the blackening.

This is similar to the demonization of the demons, but the creatures after the blackening are close to the darkness, and it is easier to perceive the law of darkness!

"The devil comes, will this be the scene the earth will face in the future?"

Fang Yue muttered to himself. He already felt that this planet was extremely similar to the earth, and even the calamity might experience the same.

Fang Yue's judgment without any basis is just a blind guess.

However, Fang Yue had a strong hunch that this kind of speculation might eventually come true!

The dark breath of the sky spread all over the sky.

The federal military has also begun to respond!

The formations were awakened one by one, and the endless formations covered the entire city like zigzag dragons and pythons!

Massive energy has been instilled in those formations.

A phantom of a **** with a height of one hundred meters gradually manifested, and he could almost connect the sky with one hand to cover the sky!

"The guardian spirit, the guardian spirit has appeared! Those dark creatures will eventually be crushed and returned to their dirty, smelly ditch!"

The residents of the city cheered.

Obviously this city has encountered this situation, not once or twice!

Fang Yue felt some of the giant's aura evolved from this pattern, and the giant's aura was probably at the level of the Saint Realm!

If you encounter a general enemy, this giant will definitely be more than enough to solve it. After all, the existence of the saint level is quite powerful even in the universe of the ten thousand worlds!

But the anxious look on Fang Yue's face was not erased.

Because he felt the aura of several saint level levels in those dark creatures, even the aura of this dark creature exuded from the wound of the saint level corpse that fell from the sky just now!

Needless to say, this powerhouse in the Saint Realm must have been killed by dark creatures!

On Fang Yue's side, Yin also sighed slightly.

"This is a world approaching the end! The number of dark creatures will eventually increase, and the strength of dark creatures will become stronger and stronger! A civilization that develops step by step can't withstand such a dark calamity that becomes stronger by geometric multiples! The end of destruction is already doomed when it comes!"

Yin seems to be an incarnation of a wise man, who has determined the fate of this world. The mission of their reincarnation is to take away the fire of civilization before the world is destroyed, and keep it, waiting for thousands of years. After the passage, someone may re-ignite the fire of this civilization!

Fang Yue felt the struggle and unwillingness of this world!

Reminiscent of his home planet Earth, Fang Yue, who has always been indifferent, has a faint feeling of pity for the creatures on this planet at this moment!

"Since I'm here, I must bring some hope to the world! Although I may know that this will become a car, but how can I know that it will not succeed without trying?"

Fang Yue quietly stared at the endless dark creatures in the sky.

Some of those dark creatures also turned their attention to him.

Fang Yue's body seemed to have some mysterious power that attracted them, and that mysterious power gave them an instinctive desire!

Finally, a dark creature with the appearance of a bat swooped down towards Fang Yue!

The dark creature with the appearance of a bat is extremely fast, and the thin wings of a cicada tore the space!

In the dark red eyes, except for the desire to kill, there is no other idea!

Sharp ultrasound, no one can hear, but it can disturb people's mind and become upset!

Fang Yue's palm slowly reached out, and he grabbed the dark bat in his hand!

Although blackened, the figure of this bat has not changed significantly!

The violent dark power flowing in the bat's body suddenly erupted, causing the bat's body to swell rapidly.

"Want to explode? How easy is it!"

Fang Yue's mouth curled up with a faint sarcasm!

The bat's swollen body quickly shrivelled.

The power of darkness in his body was emptied by Fang Yue.

It was his turn to control the power of darkness, Fang Yue was tens of thousands of times higher than this dark bat.

The dark bat became normal, and its eyes were filled with a confused look. The dark power in the body no longer existed, but the flesh that stimulated the transformation due to the blackening was completely preserved.

In other words, this bat has been free from the control of the power of darkness, but it still enjoys the influence of the power of darkness on it!

The dark power extracted from the dark bat in Fang Yue's palm turned into a seed the size of a baby's thumb.

Although the power contained in this kind of child is weaker than the true magic seed that Fang Yue put in the stone pendant space, I don't know how many times it is weakened, but their essence is exactly the same!

"Sure enough, this true magic seed is the remains of a powerful blackened creature! This dark power is extracted from the body of a dark creature and can be absorbed by humans. Although it will affect human emotions and judgments to a certain extent, but The improvement in human combat instinct and strength is extremely obvious!"

"Prosperity is dark, and failure is dark! If the spiritual cultivation is strong enough, the power of this dark seed can be absorbed but the side effects of spiritual corrosion in it can be eliminated, then this dark seed can become a path to the strong. !"

Fang Yue analyzes this dark seed!

At this time, no one would pay attention to what he was saying!

Because endless dark creatures have spread all over the sky, and the giant guarding the city spouted a milky white light. Covered by light, it has a diameter of tens of feet.

Hundreds of dark creatures have been annihilated and evaporated from this world!

Array giants and dark creatures confrontation is no longer a matter of once or twice, the people who control the array have enough knowledge of dark creatures!

However, the number of these dark creatures is too large, and the light beam that the formation giant just spit out only wiped out less than one-tenth of them!

The rest of the dark creatures not only did not give birth to the slightest fear, but instead turned into life-saving death gods, stepping forward and fearing death.

Over the city, a faint light film emerged.

This is the city's energy shield, specially used to prevent the invasion of dark creatures!

The dark creature collides with the light film.

The first batch of dark creatures were directly evaporated by the high temperature. However, the dark creatures in the following meeting seemed to have no idea what life and death were, and continued to kill them toward the mask!

Zizi's voice echoed continuously on the light mask.

Never a dark creature can break through the barrier of the light shield.

But the residents of the city were praying secretly, and did not relax their vigilance because of this!

Because whether it is an array giant or an energy shield, it essentially maintains a strong power with huge energy consumption.

Once the energy in the city is exhausted and the dark creatures have not been wiped out, the residents of the city will face the terrifying dark creatures!

Finally, a dark creature of the saint level appeared.

That saint-level dark creature fought with the formation giant, and his interference prevented the formation giant from spitting light beams and wiped out the dark creatures in a large area.

At the same moment, a huge furry claw fell from the sky and directly tore a hole in the energy mask.

The opening is about a kilometer in length and tens of meters in width.

For a time, thousands of dark creatures followed the opening of the energy mask and entered the city.

At that moment, darkness fell!

All the residents in the city felt almost suffocated!

Although the energy mask quickly compensates for healing, the dark creatures entering the city will not disappear!

The dark creatures have different levels, but the weakest ones all have combat power comparable to the heaven and earth level!

And some dark creatures with a little more powerful strength have reached the combat power of the rotation level.

Occasionally one or two dark creatures have reached the level of Yin and Yang.

"Fang Yue, it's time for you to take action, aren't you trying to save this world civilization?"

Yin said teasingly that once, when he first joined the samsara camp, he was so naive and so self-defeating.

But now he understands how naive he was and how ridiculous he was!

"and many more!"

Fang Yue didn't take it rashly. Such a slippery fish entering this city is not enough to cause harm to the safety of the entire city!

Sure enough, Fang Yue's voice had not yet fallen.

The dense Razer beams were intertwined into a dense network, shooting seventy percent of those dark creatures into a riddled with holes.

Many of the remaining dark creatures were seriously injured.

Hundreds of dark creatures finally landed, killing the surrounding residents cruelly.

The residents of the city are not vegetarian, they are not sheep to be slaughtered.

All the residents of the Federation practice martial arts, and there are practitioners in the world and the cycle! In the army, there are strong men in the Yin and Yang realm who are in charge of hunting down those dark creatures with stronger strength.

These hundreds of dark creatures that fell to the ground were quickly resolved, and they turned out to be the grindstone of the federal residents!

When Fang Yue saw this scene, he couldn't help but sigh softly: "Human wisdom is infinite, even in the face of natural disasters, you can quickly formulate corresponding countermeasures! The layered guard system protects the safety of federal residents to the maximum. !"

Chapter 1676: Fang Yue shot

"What's the use of having wisdom? All conspiracies and tricks will appear extremely pale in front of absolute power!"

Yin sneered, not optimistic about the future of this city.

When the wheels of fate are crushed by, they are just bystanders.

Fang Yue disagrees with Yin's ideas. Why humans are stronger than other ethnic groups is not because of physical strength, not because of martial arts, but because humans have wisdom that other ethnic groups do not have!

As if fate was verifying Yin's statement.

At this time, another dark creature appeared in this protective cover.

The protective cover seemed to have no hindrance to this dark creature.

It has wings on its back, and its body is as black as ink, and its surface is covered with a layer of fine scales!

The dark creature opened its mouth in the blood basin, forming a black vortex, and all the humans within a hundred meters of it were swallowed into its abdomen without resistance!

"This is... the Sky Swallowing Beast!"

Fang Yuexu squinted his eyes, and he saw the origin of this creature at a glance.

Sky-swallowing beasts are not uncommon in the universe of ten thousand worlds. This kind of beast is proficient in space and heaven, and the newly born Sky-swallowing beasts have two talents, teleportation and devouring!

Unexpectedly, the power of darkness was so powerful that even the Sky-Swallowing Beast had been corroded and blackened, becoming a member of the dark creatures.

"At the Yin and Yang level, the people in this city have opponents!"

Yin sneered. He wanted Fang Yue to learn a lesson from the experience here. He is not a hero, and there has never been a hero in this world.

Fang Yue still didn't make a move.

He felt that the city itself could solve the invasion of the Heaven Swallowing Beast.

After all, this Sky-Swallowing Beast has only one head, and the level of Yin-Yang realm alone shouldn't make this city unstoppable.

At this time, dozens of laser beams passed by in the sky, and those laser beams hit the body of the Sky-Swallowing Beast.

However, the space was distorted, and the laser light was actually reflected back in the same way.

All the Alliance soldiers who shot the laser beam were hit, and then they were pierced through their arms or chest!

"The Heaven-Swallowing Beast's talent for the Heavenly Way of Space is truly extraordinary!"

Fang Yue complimented that the method used by the Heaven Swallowing Beast in terms of space and heaven has definitely reached the fourth level.

On this day, the difficulty of cultivation is ten times, a hundred times higher than that of the avenues and trails!

Generally, practitioners of the Heavenly Dao are generally able to cultivate the Heavenly Dao to the second level, at most the third level, at the Yin-Yang level!

But this Heaven Swallowing Beast has subverted Fang Yue's cognition!

This Heaven-Swallowing Beast has just stepped into the Yin-Yang realm, and it has comprehended the fourth level of the Heavenly Dao in Space. To be honest, Fang Yue doesn't count himself aside. He hasn't really seen the aisle and the talent can reach this level !

Following that, the Sky-Swallowing Beast opened its mouth again and changed a position to continue devouring it.

In its eyes, the population of this city is his dish.

At this time, Fang Yue narrowed his eyes again, and he vaguely felt something was wrong!

The dark aura on this Sky-Swallowing Beast was slowly dissipating, as if absorbed by its body.

"This Heaven-Swallowing Beast is not a dark creature! It only swallows too many dark creatures, and the power of darkness in the body has not been completely digested, so it seems that its body surface is filled with the power of darkness, as if it is a dark creature! "

"Shepherds and other animals, all beings are for food!"

A lazy voice came out in the void.

Immediately afterwards, the power of the space dissipated slightly, and a figure emerged.

Baiyi Shengxue, his face is young, and his eyes are as narrow as a knife, giving people a feeling of intimacy!

This person turned out to be a strong man in the Saint realm, and his breath was similar to that of the Sky-Swallowing Beast. This Sky-Swallowing Beast turned out to be his pet, and he came here just to graze!

"This person seems to be familiar!"

Yin's face showed a look of memories.

"He is Chen Mu, the strong old generation of reincarnations! I didn't expect to see him here, he is really a rare guest!"

A soft voice sounded. I don't know when Gong Youmeng suddenly came, she came to Fang Yue and Yin's side.

When Fang Yue saw Gong Youmeng, he couldn't help but feel more at ease. This Gong Youmeng was the great backer in his heart. With Gong Youmeng there, no one could hurt him!

"Unexpectedly, this small Anling ancestral hall could gather four reincarnations. It is really rare, rare!"

Then Chen Mu also discovered the existence of Fang Yue and others. More accurately, he discovered the existence of Gong Youmeng.

In Chen Mu's eyes, Fang Yue and Yin are both juniors, and their cultivation level is too low, and there is no need to communicate with them.

Only Gong Youmeng has the same starting point as him.

"Hmph, if I don't come, all the fragments of civilization in this Anling ancestral hall will be plundered by you! In this world, every human being has a ray of divine will in his body, and your sky-swallowing beast will all of them. Swallowing, absorbing the essence of flesh and blood, and then excluding the providence from the body, these providence will eventually become fragments of civilization and become the things in your bag!"

As soon as Gong Youmeng appeared on the scene, he had a bad tone towards Chen Mu.

Because the two have had friction in many missions.

Chen Mu laughed blankly: "So Gong Youmeng thought about me that way? Actually, I came out to graze. I think it would be better to become food for my Heaven-swallowing beasts than to let these poor

creatures die pitifully in the hands of dark creatures. At the very least, they were in no danger at the moment of death!"

When Fang Yue heard this, he suddenly looked up.

"You said that the people of the Federation have a ray of heavenly meaning in their bodies. Does the dark creature above their heads also contain heavenly will!"

When Fang Yue was talking to himself, his palm plunged into the void in front of him, and he actually traversed a distance of hundreds of kilometers, and directly caught a dark creature of Yin and Yang level outside the mask!

The flesh of the dark creature hunted and burned, and in a moment it turned into a pile of ashes.

In the ashes, a ray of heavenly aura slowly rose up!

"This calamity is the will of heaven, and the catastrophe is also the will of heaven!"

Fang Yue's voice fell.

Chen Mu looked at Fang Yue more.

"Space heaven has been operated by you to such a level! I am afraid that your space heaven has reached the level above the fifth level! It is said that this space heaven is the first means of life-saving among all the heavens! You Meng, you have found a good helper. For future missions with risks, take Fang Yue to ensure that you are safe and free from danger!"

There was no emotion in Chen Mu's words, but there seemed to be a trace of envy.

"Kill the dark creatures and get the fragments of civilization!"

Fang Yue suddenly spoke, he split the space, and directly teleported hundreds of dark creatures from the outside of the light shield to him.

Those dark creatures were completely stunned.

They were still outside the mask just now, shouting 666 to those brave heroes who used the price of their own death to consume the power of the mask, how come they are inside the mask in no time!

"Out of the Aperture!"

Fang Yue shouted, the souls of hundreds of dark creatures were all separated from their bodies!

A group of dazed souls floated in the air, and their bodies were underneath them, and they didn't know it. This is so good, why suddenly they became lonely ghosts?

"God refining!"

Fang Yue beckoned again, the extremely meager will of heaven in the souls of these dark creatures was taken out by Fang Yue one after another!

Refining by God's Will, it became a fragment of civilization the size of a baby's thumb!

However, Fang Yue knew that this fragment of civilization was not complete. According to the rules of the Samsara mission, the smallest area of this fragment of civilization could not be less than the size of the palm of an adult!

But this is not a problem!

There are not many other things here but many dark creatures!

As long as he kills more dark creatures, he can refine more fragments of civilization! At that time, put those small pieces of Providence together to form a piece of Providence that can be crossed!

Chen Mu shook his head slightly: "Young people are impulsive. Do you think I am waiting to know that these dark creatures contain the will of heaven? It's just that they won't be killed so easily! You kill them, and you will create stronger ones. adversary!"

Just as Chen Mu was speaking, the dark air in the hundreds of dark creatures that had lost their souls burst out, and they turned into a new dark creature. This new dark creature was more powerful than the dark creatures that had lost their souls. They are strong!

When Fang Yue saw this dark creature, he suddenly snorted in his heart.

"Unless annihilated, like those previously burned by the light mask, completely annihilated, or swallowed by the light of the formation giants! Otherwise, the dark power in their body will absorb the life essence in the host's body. , And then transformed into a more powerful dark creature! This is the real horror of dark creatures. Unless they are completely annihilated, the more you kill, the stronger you are, and there is almost no solution!"

Chen Mu looked at Fang Yue jokingly.

Fang Yue wasn't too surprised either, he watched too much of this method.

Fang Yue took out the true demon seed without saying a word, he used the power of darkness to completely urge the true demon seed to bloom.

The dark creature seemed to be restrained by the superior, and it was immobile.

Only for a short period of time, the dark creatures turned into strands of dark power again.

Those dark powers were completely swallowed by the True Demon Seed, making the True Demon Seed stronger again.

Upon seeing this, Chen Mu couldn't help but fall onto the true magic seed.

"There is such a method, Fang Yue, I really underestimate you! But this is a crime! This true demon seed is not something you can have, hand over this true demon seed, I can let you go! "

Chen Mu was still smiling.

But Fang Yue could feel the desire and greed in his eyes!

This Chen Mu is robbing, unscrupulous!

Chapter 1677: Made me look bad

"Chen Mu, this Fang Yue is the one I guided into the samsara. Can you give me some face and don't do anything to him?"

Gong Youmeng looked at Chen Mu, a faint light flashed in her eyes.

Chen Mu glanced at Gong Youmeng: "Why should I give you face? Gong Youmeng, you and I are both Level 4 reincarnations, I seem to be more in terms of points. Where is your face? Important, maybe if I take this true magic seed in my hand, I can be promoted to a level 5 reincarnation smoothly. At that time, my status will be higher than you, and you will be completely left behind by me forever. Can't catch up with me!"

Chen Mu was strong and domineering, and had no idea of giving Gong Youmeng any face.

At this moment, Fang Yue looked at Chen Mu, his mouth curled up with a cold smile.

"Chen Mu, fourth-level reincarnation, do you really think you are taking me down?"

Fang Yue didn't expect Chen Mu to be so powerful and domineering.

But Fang Yue was not afraid of Chen Mu's strength.

Fang Yue put the True Demon Seed in his hand into the storage space of another dimension, and at the same time all his equipment was concealed into the void.

In this case, even if Chen Mu defeated his aura clone, he would have not lost the slightest!

"I want to see what you, the so-called fourth-level reincarnation is capable of, can **** this true magic seed from my hand!"

"Fang Yue!"

Gong You dreamed of stopping Fang Yue.

Originally, she had already thought that even if she paid a certain price, she would let Chen Mu let Fang Yue go, but Fang Yue took the initiative to provoke that is another matter!

"Interesting, interesting! A person who has just entered the ranks of reincarnation dare to provoke me? Did you know that I walked in many worlds and integrated the essence of civilization from dozens of worlds into my body. Ten branches of civilization, even a child like you dare to challenge me?"

The corner of Chen Mu's mouth provoked a nasty smile.

Fang Yue laughed loudly: "If I change to another environment, I really don't have the courage to do something with you, but this place is my home court!"

"Yin, don't you think I can't save this world? Then save it for you!"

Fang Yue's voice became ethereal and arrogant!

The endless power of darkness around him is like a wave of crazily surging!

"Lord Night, the darkness is where my territory is!"

Fang Yue's voice fell!

The endless darkness fell down!

Those demon creatures hesitated for a moment, and they were all extremely tame. They fluttered their wings and flew to Fang Yue's side!

King Ye has a strong ability to control all dark creatures.

Especially these darkened creatures!

As Fang Yue's voice fell, those darkened creatures surrounded Fang Yue in the center like stars holding the moon, as if they were many courtiers worshipping the emperor.

"You kill him for me!"

Fang Yue's voice was extremely majestic.

Countless dark creatures flooded Chen Musheng like a tide.

When Yin saw this scene, he couldn't believe his eyes.

He originally thought that Fang Yue's first reincarnation must be inferior to him in all aspects, but he did not expect that Fang Yue would have such magical powers to direct these dark creatures to attack Chen Mu.

Although the cultivation base of these dark creatures is not very high. But too many ants killed the elephant.

Chen Mu's voice resounded in the void.

"Interesting, really interesting, you, a reptilian who is new to reincarnation, dare to do something to me! That's good, then I will catch you personally, and then force you to hand over the true demon seed in my hand. In this case, even if it's Gong Youmeng who can't say anything! I, Chen Mu, hasn't done anything for too long in the samsara, and have the samsara forget the majesty of my Chen Mu?"

"God said, there must be light!"

Chen Mu raised his left hand, and there seemed to be a sun in his palm!

The endless light swallowed all the dark creatures in an instant, and the dark creatures melted for a while under the shroud of light!

This Chen Mu has also cultivated the law of light to a very high level, and he has the blessing of magic!

This Chen Mu is Fang Yue's encounter with a difficult enemy.

The melting of the dark creature's ice and snow did not affect Fang Yue's mood.

"There are laws of darkness in the dark world! When darkness is over, everything follows the laws of darkness!"

Fang Yue also displayed divine art, which was one of the few divine art he mastered.

Fang Yue has also experienced **** civilization several times, and he has a strong control over the methods of this civilization.

At the same time, when Fang Yue performed the Dark Divine Art, his chest was lined up with nine dark subordinate divine powers.

This is the most orthodox use of divine power, and divine power is used to perform divine magic.

As for the short-term increase in strength, it is just a misuse.

Strictly speaking, Fang Yue's divine art was more formal than Chen Mu's divine art, because Fang Yue used divine power to activate the divine art.

"You even know the means of spiritual civilization, and you still have magical power in your hands!"

Chen Mu couldn't help being slightly surprised. Fang Yue didn't seem to be as weak as he thought.

Fang Yue simply ignored Chen Mu's surprise.

He is devoting himself to preparing his magic arts.

"Dark Sacrifice!"

Fang Yue's throat made a low and hoarse voice.

Those dark creatures that had not been shrouded by Chen Mu's light fell into Fang Yue's Night King's domain like moths fighting a fire.

They are like pebbles thrown into the rough sea, even if they disappear without a trace when they enter it!

"Dark Sacrifice!"

Fang Yue repeated it again.

The king's world that night became more tenacious and firm!

It seems to have truly become a world controlled by the laws of darkness!

"Judgement-Light Slash!"

Chen Mu felt a fatal crisis in the dark world that was about to form! He has a vague hunch that if this world really takes shape, he will lose his advantage together.

A big sword of hundreds of feet long took shape in the void instantly.

The person who shines can't open his eyes because of the strong light!

"Break it, darkness!"

Chen Mu said to himself.

Great sword chopped.

Darkness shattered!

The incomplete dark world was torn apart under the slash of Chen Mu's great sword.

However, Fang Yue still had a pious expression, as if he was completing a magical technique that he had never done before!

"The light dies, the darkness is reborn!"

After all, Chen Mu's Great Sword of Judgement could not last too long.

Although the Great Sword of Judgment is powerful, summoning and maintaining this Great Sword of Judgment requires a huge amount of Chi.

The trial sword in Chen Mu's hand dissipated.

The light is no longer, the power of darkness is coming back, and the fragments of the shattered dark world have merged again and returned to their original appearance!

This is a competition of laws.

This is a clash of divine arts!

The struggle between Fang Yue and Chen Mu gradually entered a white-hot stage.

At this moment, Yin next to him was completely stunned. He did not expect that Fang Yue, who had just joined the reincarnation, could fight the fourth-level reincarnation for so long!

"Dark magic is indeed a well-deserved reputation. I am not invincible to Fang Yue, but to this ancient dark magic!"

Chen Mu sighed and raised his palm again, "I wanted to defeat you just by using my understanding of God's civilization, but I didn't expect you to be so tenacious!"

"Darkness is eternal!"

Before Fang Yue waited for Chen Mu to take action, he had once again summoned the power of darkness!

This is the final blow of dark magic!

The dark world condenses into an unmeasurable origin.

Fang Yue shot this origin.

The darkness swallowed Chen Mu's whole body completely!

However, the moment when the darkness swallowed Chen Mu.

Fang Yue gave birth to a feeling of horror.

"That's not Chen Mu!"

Gong Youmeng reminded loudly!

Fang Yue got it, but it was too late.

The real Chen Mu had appeared behind Fang Yue, and a long sword dripping blood pierced Fang Yue's heart.

The blazing red light swallowed Fang Yue's body.

"It is your good fortune to force me to abolish a paper man clone!"

The flames reflected Chen Mu's ferocious cheeks.

At this moment, Chen Mu no longer dreamed of obtaining true magic seeds, he just wanted to eternally disappear Fang Yue into this world.

In Fang Yue's body, Chen Mu saw the potential of terror!

The long sword broke, but no blood flowed out.

Fang Yue turned around slowly.

"Do you know that there is something called Reiki clone in this world!"

Fang Yue grinned.

In his smile, Chen Mu saw an emotion called terror.

"This is not your real body?"

Chen Mu's eyes widened.

Fang Yue nodded: "Of course! You have a paper man clone, and I also have a spiritual energy clone! But this one should be your deity!"

Fang Yue's palm suddenly stretched out and plunged into Chen Mu's chest.

With a little effort in his palm, he took out a heart dripping with blood.

"Chen Mu, who do you think you are? Do you want to get my true magic seed? Come on!"

Fang Yue's expression at the moment was extremely cruel.

Chen Mu's body burst into pieces, and he died with Fang Yue's aura clone!

This is still not Chen Mu's deity.

It's just that this is a flesh and blood clone of Chen Mu!

But the explosion of Chen Mu's flesh and blood clone also meant that his last trace of existence in this world was also erased.

After a long time, Fang Yue's clone reunited!

When Yin looked at Fang Yue again, there was an inexplicable awe in his eyes.

"Yes, very good, I am worthy of the person I value!"

Although Fang Yue and Chen Mu's match was short, it was extremely exciting.

Fang Yue's potential exceeded Chen Mu's expectations.

At the same time, it exceeded Gong Youmeng and Yin's expectations!

"This Chen Mu has always been strong and domineering. Although you have suffered a small loss in your hands this time, he will definitely not give up. Chen Mu's deity is ten times stronger than his clone! Fang Yue, you will complete reincarnation in the future. Be careful of Chen Mu's calculations during the mission!"

Chapter 1678: The chance of swallowing rabbits

The dark creature disappeared.

The calamity that represented this city also disappeared.

Fang Yue stood in the void, he was silent for a moment, and then beams of dark light fell into the city.

In every ray of light there is a dark technique.

Only darkness can resolve darkness.

Blindly confrontation cannot solve the crisis of this civilization.

These exercises will become a spark, igniting the flame of hope for the entire civilization.

"I have done everything I can, and the rest is to look at your own good fortune!"

Fang Yue said to himself to the city under his body.

After that, in the sky, there were a series of heavenly wills hanging down.

Fang Yue was wrapped by the will of heaven.

A magnificent voice pierced my ears.

"You bring hope for a civilization that is about to die! I would like to send you an eternal blessing!"

Heaven is falling.

Fang Yue felt as if he was bathing in a warm hot spring.

A huge amount of information appeared in his mind.

This information is the basic content of this civilization, and various technologies and methods have appeared in an endless stream.

Fang Yue's mind simply couldn't bear so much information, and the information was turned into a seed and stored in Fang Yue's mind.

"This is the seed of civilization!"

Fang Yue realized the importance of this kind of child.

"Yes, this is the seed of human civilization in the Federation. I hope it can carry forward the opportunity of inheritance in your hands!"

The voice of heavenly consciousness resounded in Fang Yue's mind.

Obviously, this is an independent conversation between him and Fang Yue, and other people can't hear it, and don't know the content!

"I know that you are a reincarnation. The value of this civilization seed is self-evident to you, but I don't want you to exchange this civilization seed into reincarnation points. I will give you 30 civilization fragments. Come redeem the points of the reincarnation!"

The thoughts of Tiandao will be quite thorough.

Its voice gradually dissipated.

In Fang Yue's mind, there were thirty more fragments of civilization.

Afterwards, the will of heaven dissipated.

When Fang Yue opened his eyes again, Yin and Gong Youmeng had already gathered.

"Fang Yue, what kind of reward does the will of heaven give you?"

Yin first spoke, his eyes burning.

Fang Yue saw Yin's gaze, and a slight discomfort was born in his heart.

But on the bright side, Fang Yue didn't have any other performance.

"Nothing! Just baptized me a physical body and gave me some power of heaven!"

None of Fang Yue's civilization fragments and civilization seeds were said.

Because Fang Yue didn't know the bottom line of Yin He Gong Youmeng.

This civilization seed is naturally extremely precious. I don't know how many fragments of civilization can piece together a civilization seed.

The size of the civilization fragments that the world's will to Fang Yue gave to Fang Yue was also too big, and each civilization fragment was the size of a pot lid.

If this fragment of civilization is taken out, it may cause a shocking wave.

Because the larger the fragment of civilization, its value will increase exponentially.

Having said that, Fang Yue also used the power of heaven to display the magical powers of changing the world.

The power of heaven and earth around Fang Yue gathered crazily.

The sky above him changed instantly, and the entire sky changed into his appearance.

"Yes, this is the power of heaven, and it can affect the operation of heaven!"

Gong Youmeng is quite familiar with the power of heaven, and she deeply knows the power of this heaven.

This heavenly power is regarded as Fang Yue's extra harvest.

If this gain is said, I don't know how many people will be envious.
moment.

The three Fang Yue returned to the normal world.

In Fang Yue's hand, Chen Mu left the Heaven-Swallowing Beast.

"I have time to sell this Sky Swallowing Beast, its price should not be low!"

Fang Yue said to Gong Youmeng.

And Yin was speechless for a while.

The value of this Heaven-Swallowing Beast is certainly not low, this kind of beast is usually rare and has no market.

However, this thing belongs to Chen Mu.

Fang Yue killed his clone and sold the sacred beast he raised. This is the rhythm to offend Chen Mu every minute!

There is no change in the Anling ancestral hall.

But in front of Fang Yue, the corpse was already rushing to the street.

These corpses are all losers under the assessment of Anling Ancestral Hall. The vast majority of them are the corpses of the leader-level and sage level, but one of them is a strong man in the great sacred realm of the Zhang family.

Under the examination of Anling ancestral hall, he unexpectedly failed and was crushed and killed by his life.

These people who failed the examination in the Anling ancestral hall all have a common feature on their bodies, that is, their bodies are intact, but the souls in their bodies have been destroyed!

Fang Yue quietly cleaned up these people from the Zhang family. These corpses were so complete, it would be good to go home and refine them into puppets.

Yin is also a little moved. The corpse of this great sacred realm level cannot be retrieved, but if one or two of the corpses of the powerful saint can be sold, it can be sold for a large price.

The reincarnations are not all local tyrants, they do their best to complete the task, and in the end they only get points that can be used to exchange civilization information.

Although some people buy points at high prices.

But they are not willing to sell, so some practitioners also have time when they are tight.

Fang Yue glanced at Yin: "Are you embarrassed to **** things from me, a newcomer to reincarnation?"

Fang Yue choked off Yin with a word.

But the more Yin Yin thought about it, the more things went wrong!

You Fang Yue is a fart newcomer!

Even the fourth-level reincarnation was beaten away by you.

Although it was only Chen Mu's clone, the general third-level reincarnation might not be his clone's opponent!

But after thinking about it, Yin didn't grab anything from Fang Yue in the end, because he really couldn't do it.

If Fang Yue can beat him to the ground alone.

Coupled with a Gong Youmeng, he is dead, and I am afraid that he can't even keep the bones.

"Fang Yue, this money is something outside your body, don't care too much!"

Gong Youmeng saw that Fang Yue was greedy for money, and feared that he would delay his practice because of his greed for these things, so he specially reminded him.

But Fang Yue said quietly, "But I just love this kind of outside thing!"

Fang Yue's words almost didn't choke Gong Youmeng alive!

"There should be fragments of civilization in this Anling ancestral hall! Perhaps this fragment is the Anling ancestral hall itself!"

Fang Yue took the corpse away, and then cast his eyes on the Anling ancestral hall.

Anling ancestral hall seemed to have born its own wisdom, guessing Fang Yue's thoughts.

Therefore, without saying anything, the Anling ancestral hall twisted the space and kicked the three of Fang Yue out!

Then, Yin full of eyes and resentment looked at Fang Yue.

It seems to be saying that they are all to blame, all to you, otherwise, they might be able to fish two fragments of civilization in the Anling ancestral hall.

Fang Yue grinned silly.

"Fang Yue, what are you laughing at?"

Gong Youmeng's acceptance of Fang Yue's becoming a reincarnation was actually just a whim.

But now she found out that she was getting more and more invisible!

Fang Yue turned over and took out twenty tablets.

Every tablet can be transformed into a fragment of civilization.

"Fortunately, I grabbed a handful while I was leaving, otherwise, it would be a waste of time!"

Fang Yue said with pleasure.

Yin was speechless for a while.

Are you here for nothing?

The power of heaven is for you!

Take away the body of this great saint realm, saint realm powerhouse!

Even if there are no fragments of civilization, you are still full of money in Anling ancestral hall!

Fang Yue divided this civilization fragment into three pieces of Gong Youmeng.

"Thank you sister for helping me!"

Although Gong Youmeng did not do anything to Chen Mu, she was willing to defend Fang Yue and persuade Chen Mu to leave. It was already a great kindness to Yue Mo!

"Yin, this is yours, everyone who sees it has a share!"

Fang Yue gave Yin a fragment of civilization.

In Fang Yue's view, this product is a full stroke!

Moreover, the eyes that Yin looked at him before were full of greed, which was a thorn in Fang Yue's heart, although Yin did not show anything.

But Fang Yue was already fully guarded against Yin in his heart!

To be able to give Yin a piece of civilization fragments, in Fang Yue's view, is already the most benevolent.

However, there was a flash of displeasure on Yin's face, just taking into account the Gong Youmeng next to him, so there was no eruption.

Fang Yue harvested fifteen pieces of civilization at once.

He has completed this task, and it is still excessive.

But Fang Yue was not ready to leave the seventh realm.

Fang Yue had a hunch that this seventh realm might become his blessed land!

"Sky-swallowing rabbit, is this sky-swallowing beast relative to you?"

In Fang Yue's arms, the Sky-Swallowing Rabbit was released.

In the previous scene, Sky-Swallowing Rabbit is not suitable for participation, although it is not weak! However, when encountering the existence of Chen Mu's level, maybe one inadvertently, an indifferent aoe from the other party will give the rabbit a second.

In Fang Yue's eyes, the biggest role of the Sky-Swallowing Rabbit was to lead him.

Swallowing Rabbit nodded, a pair of red eyes filled with excitement.

The Sky Swallowing Beast is the ancestor of the Sky Swallowing Rabbit!

In other words, the Sky-Swallowing Rabbit only has the thin blood of the Sky-Swallowing Beast, so it has evolved to this level.

"Then I will give you a drop of the Sky-Swallowing Beast's essence and blood. You slowly refine it, and strive to make your bloodline pure! After you refine this drop of essence and blood, you will refine the other Sky-Swallowing Beast's blood. For example, scale armor, flesh and blood, I want to see what it will look like after you refine the blood of the Sky-Swallowing Beast!"

Fang Yue said to Swallow Sky Rabbit.

The Sky-Swallowing Rabbit nodded again and again, but I didn't expect to receive this treatment after becoming someone else's pet. It was the long-cherished wish of many generations of the Sky-Swallowing Beast.

Now that this long-cherished wish can be realized in its hands, this dream has been accomplished too suddenly!

When Fang Yue saw the excited little eyes of the Sky-Swallowing Rabbit, it couldn't help but smile.

Perhaps he will create the strongest swallowing rabbit in history.

Seeing Fang Yue's smile and the expression of accomplishment.

Gong Youmeng couldn't help but asked curiously: "Fang Yue, what are you doing?"

"Nothing!"

Fang Yue said lightly.

In the distance, dozens of familiar figures appeared in Fang Yue's field of vision!

Chapter 1679: Demon's team

"Rosen?"

The familiar figures Fang Yue saw were from the Wuka tribe of the Demon Race.

Among them was Rosen with a frustrated expression.

Behind Luosen are the members of the Uka tribe. After the war, dozens of powerful men in the Yin-Yang realm and the leader realm of the Uka tribe were all looted and treated as pawns to explore the way!

Behind Rosen is a complete team of demons.

There are clear distinctions in this team, some of them are from the Wing Demon clan and some from the Shimo clan.

These two ethnic groups are considered to be of higher bloodlines among the demons!

Each of the two ethnic groups has five powerhouses in the saint state, and the rest are each of the hundreds of clansmen, all at the level of the master state. There are also some low-ranking officers from the Yin-Yang realm level demons who will be used as cannon fodder when necessary.

If this team is placed outside, it cannot be said that it is not strong, but if placed in the seventh domain, it seems a little weak.

Especially Fang Yue had already passed the Zhang family team before.

Regardless of the human nature of this family, the strong team they sent before is indeed very strong!

Among other things, just the three great sages are already giants who can be alone, and Zhang Teng is also a cultivation realm with the peak of the saint realm, and his true combat power is only stronger than the average great sage!

The demons' team is relatively thin.

Not to mention the strength of the tribesmen of the Uka tribe that were used to explore the way in the past, including Lawson, all of them are all rat demon tribes of the leader level. It is estimated that it will be easily obliterated.

The remaining teams of the Winged Demon Race and the Beginning Demon Race are also lacklustre.

The personnel of the two teams are not very large, and the strongest among them is only at the level of the Saint Realm.

Fang Yue walked to the front of this demons team.

The moment Luo Sen saw Fang Yue, his eyes lit up instantly.

The gloom of despair in my heart was dispelled by a ray of light called hope.

"Rosen, long time no see!"

Fang Yue greeted Rosen easily.

Rosen also managed to squeeze a smile.

"long time no see!"

Lawson didn't dare to call Fang Yue's name directly, because Fang Yue's name was almost a taboo among the demons.

Fang Yue alone forced the 30 billion Rat Demon army to retreat. This is an unprecedented shame for the Demon Race in the war history of the Broken Land!

The name of Fang Yue, the high-level generals of those demons, kept secret.

However, both the middle and the bottom of the demons knew that as long as Fang Yue was killed and his Xiangshang head was sacrificed, he would get the glory and wealth that he could enjoy forever!

"Who are you? How did you know Rosen?"

An officer from the Yin and Yang realm of the Demon Race stood up and asked Yue He.

The reason why he came forward to question was mainly because the demons wanted to uphold their arrogance.

Fang Yue is the cultivation level of the Yin-Yang realm, and received equal reception. Naturally, an officer of the Yin-Yang realm level was sent to question Fang Yue among their demons.

Fang Yue chuckled, "I know Luo Sen! Give me a face and let these people from the Uka tribe go away! They lost a lot in the process of attacking the King's City! The saints of the clan suffered a lot. The few remaining saints also suffered serious injuries."

Fang Yue's words were calm and calm, as if he was a great figure who could directly talk to the demon saint.

"You? What right does a human race have to plead with us for the Uka tribe here!"

Fang Yue scolded the officer of the Wing Demon Race at the Yin and Yang level.

It is ridiculous that a human race is actually pleading for the Uka tribe.

Fang Yue's tone was still peaceful.

"You are not qualified to decide the future of the Uka tribe! So you don't want to interject."

"Humble human race, you only have the level of Yin and Yang, and you are also not qualified to speak to me like this!"

The officer of the Wing Demon clan felt a trace of contempt in Fang Yue's words, and his pride was greatly insulted!

Therefore, the officer of the Wing Demon clan angered Fang Yue.

He felt that Fang Yue was just making trouble out of nowhere.

Fang Yue sighed lightly.

The officer of the Winged Demon Race started from the soles of his feet, and his body was suddenly annihilated!

The officer of the Winged Demon Race showed a look of horror.

What kind of situation is this, why this humble human race can even annihilate his body.

The most terrifying thing in the world is not death, but feeling that death is approaching step by step and cannot resist!

The officers of the Wing Demon race are experiencing this process at this moment, and this annihilation is a slow and painful process.

He can only watch his body annihilate from childhood to every inch without the slightest way!

Endless despair spread in his heart, and he had no way of resisting the painful wailing.

"Ah! No, I don't want to die like this!"

The voice of the officer of the Winged Demon Race was extremely loud, and his face was full of hideous and painful expressions.

And Fang Yue had no pity on his face.

"It's not that I am bloodthirsty, but that I have told you that you are not qualified to speak to me."

Fang Yue killing the Yin-Yang-level officer of the Wing Demon Race was like killing a humble reptile ant.

And those powerhouses of the Winged Demon Race and the First Demon Race were also indifferent to the death of that winged Demon Race's Yin-Yang level officer.

The guys in the Yin and Yang realm are cannon fodder.

If you die, you will die. They already have some casualties when they come to the seventh realm!

The key is who is this character in front of you?

The method he just used was derived from the standard road of destruction.

The human race may be a human, or it may be a destroyer who submits to the destruction of the demons.

If Fang Yue is a pure human, it's okay to say, and if he is the destroyer, then they really can't do anything to him easily.

The destruction of the demons is extremely terrifying, and this group of people is also extremely short-sighted.

Whoever dares to touch half of their destroyer's hair is tantamount to declaring war on his master.

Destroying the demons is a hornet's nest full of taboos.

Neither the Wing Demon Race nor the First Demon Race have the courage to destroy the demons!

"My friend, you report your own house. If we have some ties or relationships, maybe we can really release these ants from the Uka tribe!"

A sage of the Simo clan spoke.

This is a strong man of the First Demon Race in the third level of Saint Realm.

The Beginning Demon Race is the bloodline of an extremely ancient Demon Race. They have a unique talent. If they display any means related to the power of darkness, their blood will provide them with 50% power blessing!

And some of the stunning generations of the Beginning Demon Race, feeling the blood, can summon some of the ancient undead of the Demon Race in the void to possess their bodies!

Fang Yue didn't have a deep understanding of this demon clan, but the bloodline of the first demon clan had reached the level of the pinnacle of the mysterious rank, which was an indisputable fact.

"You are not qualified to know my identity and origin."

Even when facing the saint, Fang Yue was equally indifferent and aloof.

Fang Yue's aloofness caused a smile on that face to be barely squeezed out, but the smile of the sage of the Shimozu gradually narrowed.

"What an arrogant junior, I'll give you another chance to give you a quick report. Your origin, otherwise, even if you are the heir of some special status big man or the destroyer under the ruining demons, we will not let go. It passed you! Even if we killed you, it is not blame for those who do not know!"

Fang Yuebai glanced at the saint of the Shimozu.

"The same thing, I'll give it to you too! I am giving you a chance to release Rosen and the others, otherwise, the fate of the Winged Demon Officer just now is your future!"

Fang Yue's tone was even more arrogant, he had just found the fault!

The sage of the Si Demon clan was slightly stuffy in Fang Yueqi's chest.

He repeatedly said: "Okay, okay, okay. Since you are looking for death by yourself, I will fulfill you! Even if you say that you have something to do with the destruction of the demons, I will abolish your cultivation base and let your master take you Take it!"

The sage of the Shimo clan raised his palm and slapped Fang Yue's face directly.

Fang Yue sighed and said, "I am kind, so why don't you listen to advice!"

Fang Yue's voice fell, and the palm of the Shimozu began to gradually annihilate.

"Ah! What kind of weird method is this, why can't I stop the erosion of this destructive force with the protection of the true Qi of the Saint Realm!"

The saint of the Si Demon cried loudly.

However, everything is irreversible.

The sage of Shimozu couldn't resist the erosion of this destructive force, and his body began to annihilate every inch.

Even if the First Demon Race summoned the undead of its ancestors to attach to the body, it would not help.

"This is the means to destroy the Demon Race, everything is certain! I have seen related records in an extremely ancient book. Destroying the Demon Race uses a magical power called Great Annihilation. This magical power needs to be destroyed. The power of the blood of the demon race can be used, it is impossible to do this without the real destruction of the demon race!"

The saints of the winged demons screamed, and their hearts were filled with endless fear. In their hearts, this ruined demons was synonymous with nightmare.

Their power and means cannot be resisted, even if they are as powerful as they are weak and fragile under the power of destroying the demons.

"We agree to release all the people of the Uka tribe, and only ask you to let go of our saint-level powerhouses!"

A saint of the Winged Demon Race finally started. He couldn't have watched the saint of the First Demon Race fall in front of his eyes. They were a team, all prosperous and all lost, if he looked at this. The sage of the Si Demon clan fell in front of his own eyes, then he would receive the most severe punishment when he returned to the demon clan.

"I have warned you, but you still maintain your arrogance and never put me in your eyes. Now it is too late for you to know that you are wrong. He will disappear before your eyes forever as the price of your mistakes!"

Fang Yue's eyebrows drooped.

As his voice fell, the saint of the Shimozu really fell, his body dissipated, and his soul became smoke.

And none of the remaining saints of the Wing Mo Clan and Shi Mo Clan dared to say more, their eyes looked at Fang Yue in awe!

Chapter 1680: All my pawns

In the end, everyone from the Uka tribe was released, and they were no longer the cannon fodder of the Shimozu and Wingmozu.

Moreover, when the First Demon Race and the Wing Demon Race left in the Uka tribe, they also saw Fang Yue's face as a reward for giving them a very precious resource.

Fang Yue signaled that the Wing Demon Race and the Beginning Demon Race can leave, they are all amnesty.

The people of the First Demon Race and Wing Demon Race quickly disappeared from Fang Yue's vision.

"A bunch of villains!"

When Luosen left the first demon clan and wing demon clan, he spit out a sputum at the back of those people who left.

These days, he is extremely frustrated.

If it weren't for Fang Yue's unexpected arrival, I am afraid that he and his people would be the pathfinder pawns of the First Demon Race and the Wing Demon Race and eventually die in the seventh realm.

"Thank you, Master Fang Yue, for your life-saving grace!"

Luo Sen said to Yue with gratitude.

A few days ago, he had also heard that Fang Yue lost power in the King City, besieged by the Zhang Family in the King City, and eventually fell to his death. His heart had been uncomfortable for a while.

But without thinking, Fang Yue not only did not fall, but became even more unfathomable than before!

At the very least, Fang Yue had no ability to decide the life and death of a saint-level expert of the Beginning Demon Race in a single thought in Luosen's impression!

The first demon clan is also considered to be a quasi-royal clan in the demon clan.

The blood of the Si Mo clan is extremely strong, especially the saints produced in this clan are amazing.

The strong people of the Shimo tribe can often fight beyond the ranks. Usually they are the only ones who can burn others. No one can be like Fang Yue. Raising their hands is to make a sage in the Shimo tribe strong. The annihilation, death so unclear, made all the other people regress!

"Don't thank me, this is what I should do. Since you have taken refuge in me, then I should shelter you. Before, I did have some small problems in the city of Kings, but I cannot protect you! Now that I have returned, I must fulfill my promise to you!"

Fang Yue's words made Luo Sen feel deeply moved.

And Fang Yue then bestowed Lawson some life essence and soul fluid.

"Take these things away and return to the clan to improve my strength. This time I pretended to be a means to destroy the Demon Race. Before the Shi Demon Race and the Wing Demon Race figure out that I am not the real Demon Race Destruction, I guess they dare not do anything to your Uka tribe. However, no one in this world can protect you forever. Only when you become stronger can you make others fear you and dare not easily I'll shoot you!"

Fang Yue told Luo Sen to leave when he told him.

Yin looked at the back of Rosen and the others, and he couldn't help but whispered: "These demons are nothing but ants to me, and it's not worth your effort to support them!"

Fang Yue chuckles: "All beings are chess. From the day the troubled times come, some unknown existences have begun to arrange their own chess pieces, and I don't want to be a chess piece on this chessboard, so I also began to lay out my own chess pieces, hoping to jump out of the board and become a real chess player!"

Fang Yue explained a little bit.

Gong Youmeng glanced at Fang Yue: "I don't know how many people in Samsara have had the same thoughts as you, but most people have failed. Only a very small number of people are truly extraordinary. I hope you can become the ultimate The successful one!"

And Yin was next to him, in a daze, as if he was thinking about something, and did not easily rebut!

At the same moment, Fang Yue's aura avatar left on Earth received an invitation letter.

The content of the invitation is for him to represent the earth to participate in a meeting called the Northern Alliance Covenant.

Fang Yue probably heard of this Northern Alliance agreement.

It contains dozens of civilization planets, and every civilization planet has entered at least the first level of civilization!

Before, Fang Yue had never heard of the fact that the earth had joined the Northern Alliance, but now that he has been rashly invited, Fang Yue has a feeling of being unkind!

However, soldiers will come to block, and water will cover the earth. After all, the earth will continue to develop and progress. It cannot always be in a closed state, and ultimately it will return to the big family of cosmic civilization.

Fang Yue wanted to see what the Northern Alliance agreement was, and why did they invite Fang Yue to join it.

Therefore, Fang Yue agreed.

The meeting of the Northern Covenant will be held about three days later, and the location is about three hundred light-years away from the earth on an ancient small civilized planet.

This is also a test of civilization. Within three days, it will reach the planet where the Northern Alliance Covenant begins over a distance of 30 billion light-years. If this technological civilization has not developed to the point where the space leap, even if it is a strong saint. It is impossible for the person to cross the void so easily and resist the destination within three days!

"Sister Gong, do you know the Northern Covenant in this galaxy?"

Fang Yue asks for help and Gong Youmeng.

This Gongyoumeng is a reincarnation. She has completed missions across the entire universe and is knowledgeable. In previous exchanges, Gongyoumeng has said that she has been in the Milky Way galaxy for nearly a hundred years.

Gong Youmeng pondered for a moment, and then said: "I know something about the Northern Alliance. This is a loose alliance. The management is said to be the five powerful masters of the Great Sacred Realm. The Northern Alliance is governed by the agreement. In fact, there are only three planets, and the rest are all franchised planets, and the influence of the Northern Alliance Covenant on them is not very large."

Gong Youmeng introduced Fang Yue according to his vague memory.

"This earth received an invitation letter from the Northern Alliance Covenant yesterday. The Earth obviously never joined the Northern Alliance Convention, but it asked me to participate in the Northern Alliance Convention meeting on behalf of the Earth."

Fang Yue explained his situation to Gong Youmeng.

Fang Yue felt that this Gong Youmeng was worthy of his trust, and even told some of his secrets.

Gong Youmeng did not disappoint Fang Yue's hope.

She thought about it for a moment, and Yue Fang said, "Which planet is your NATO alliance held on?"

"Planet Vegeta!"

Fang Yue replied.

"Planet Vegeta? If you are not mistaken, this is the expanded meeting of the NATO alliance. It will include some planets other than the planets of the NATO alliance into the meeting. However, this weasel gave the rooster a New Year greeting. If you are not at ease, the NATO Dream asks you to

participate in their meetings. The topics they discuss will definitely affect the interests of the people on earth!"

Gong Youmeng sneered.

For this NATO alliance, she obviously does not have much favor in her heart.

"Fang Yue, after all, I guided you to join the reincarnation. If nothing happens, you will become a member of my camp. So, if you need any help, I can help you. After all, I was back then. I also stayed in the Milky Way galaxy for a long time, and I still have some influence when it comes to my turn!"

Gong Youmeng took the initiative to show favor to Yue, and extended a helping hand. Fang Yue's heart was slightly moved, but in the end he refused Gong Youmeng's help!

"Sister Gong, I can handle it for the time being! If you really need it, please ask Sister Gong to help me!"

Fang Yue declined, making Yin feel that Fang Yue was a little bit ignorant.

Fang Yue didn't even know how powerful Gong Youmeng was, how much influence she had in the ten thousand realms.

Among the four-level reincarnations, Gong Youmeng is definitely a leader!

If Fang Yue asked Gong Youmeng to help, she would definitely wipe out all the enemies and foreign troubles on the earth with ease.

In fact, Gong Youmeng is even better than Chen Mu when it comes to the influence of various relationships.

"Are you self-reliant? Then I'm waiting for your good news!"

For Fang Yue's refusal, Gong Youmeng didn't have much emotional fluctuations, all of which was in her expectation.

She sees Fang Yue's strength.

Such a strong man has his own dignity.

Without a last resort, she believed that Fang Yue would not ask for help.

After all, asking for help is a favor, and the hardest thing in the world to repay is favor.

After Fang Yue Earth's aura clone knew the space coordinates of Vegeta, he directly opened a space door and stepped into Vegeta!

Vegeta's planet is rich in aura, almost ten times that of the earth.

Fang Yue appeared in a barren mountain and ridge. There were beasts everywhere, without any humans.

"This place is great! The aura is rich, and the land is sparsely populated. I guess the owner of the planet Vegeta doesn't mind if I transport part of the aura here for the people on earth to use!"

Fang Yue said to himself, he didn't know what an extra carving knife was in his hand.

He secretly opened a few spatial cracks around, and that rich spiritual energy flowed into the earth along the spatial cracks!

Reiki is like water, gurgling.

Although this space crack is not too big, will it be of great help to the improvement of the earth's aura concentration for a while, but over time, it will have a great auxiliary effect for the increase of the earth's aura.

After Fang Yue opened a few spatial cracks, he felt that it was not very enjoyable. Every few steps he took, he opened a few similar spatial cracks.

Then he opened almost hundreds of space cracks before he closed his hands contentedly!

"The arrival of the distinguished guest, I will wait for a miss, and I hope to forgive me!"

Fang Yue spent less than half an hour in the wilderness and forest, and a little white face in a tuxedo with a level of Yin and Yang just found Fang Yue.

It's not that someone in the Vegeta star can detect Fang Yue's existence, but that there is a faint imprint of divine consciousness on the invitation card in Fang Yue's hand. Whenever they reach the planet Vegeta with the invitation card in hand, they will immediately have a sense , And come as soon as possible to receive VIPs!
