

God of Life 1701

Chapter 1701: A great achievement

"Fang Yue, you must have a basis for your words. There is no joking in the army."

Nujiang Hou was also stunned by what Fang Yue said. This news is of great value. If it is true, then it will mean that the Galaxy Star Alliance and the Northern Alliance have begun to deploy and take action to destroy the demons! In the future, the actions of the Destroy Demons in the galaxy will be more careful, and even they can grasp the internal information of the two major forces and use their conspiracy to arrange the out of the game!

But if the news is false, let alone Fang Yue, even their Su family will be implicated. Now, everyone knows that Fang Yue belongs to their Su family.

An accident in the Su family will definitely involve the interests of their family.

"There is no joking, my Fang Yue speaks for words, and we also have an incarnation of Fang Yue in the Galaxy Covenant, with a very high status. Although we have now quarreled with the high-level members of the Galaxy Covenant, there is still a big deal in the galaxy. Influential!"

Fang Yue justified himself and said that he was beginning to pave the way for his next step. His identity and background could not hold up the investigation of the Demon Race. Once it was found that he was a Human Race, all his efforts in the Destruction Demon Race would be in vain. .

But it's hard to tell the truth!

Fang Yue took the initiative to explain, on the contrary, it would make Destruction Mozu believe in the authenticity of his identity!

"Do you have other identities in this Galactic Alliance?"

Sima Shangwu's face was solemn, and Fang Yue surprised him too much.

"Yes, Master Sima can find someone to find out about Fang Yue's reputation! I have made great contributions to the Galaxy Star Alliance, but unfortunately, this Galaxy Star Alliance's jealous talents rejected me, which made me have to Disappeared and became a little low-key!"

Fang Yue briefly introduced some of his experiences in the Galaxy Alliance.

Both Nujiang Hou and Sima Shangwu nodded again and again, but they didn't expect that they actually picked up the baby this time.

If Fang Yue really had such a high popularity and appeal in the Galaxy Star Alliance, his value would far exceed that of a middle-level general among the Destruction Demon Race!

"Fang Yue, let's just believe you for the time being, but how can we use the conspiracy of the Galaxy Star Covenant and the Northern Covenant to make them lose their troops?"

When Sima rolled his eyes in the morning, he believed Fang Yue 80%.

The most important thing in this war with soldiers is this strategizing method.

Conspiracy is an essential part of war!

"Actually, this matter is difficult to say, simple and simple! Since the agreement between the Galactic Alliance and the Northern Alliance intends to calculate us, we can do the opposite. This earth will definitely not go! If they really do The stellar core that can detonate the earth, once we enter the earth, it is equivalent to handing over life and death to their hands! I can use my identity in the galaxy alliance to infiltrate this plan to people on earth, and people on earth will definitely Break with the people of the Galaxy Star Covenant and the Northern Covenant, then we can come up with a strategy that fits inside and out!"

Fang Yue's eyes rolled, and his strategy was already in his heart!

As long as the people from the Northern Alliance and the Galaxy Star Alliance begin to take action, he is ready to take action to kill all the people from these two forces, killing them all!

"Well, this matter is left to you to operate!"

Sima Shangwu understands that people are good at responsibilities.

Anyway, even if Fang Yue's plan fails, the loss will not be great for him, but once it succeeds, it represents a huge profit! At that time, his credit will definitely be indispensable!

"Fang Yue, what exactly is your plan? Tell me about it! This time the matter is really related, and I have to take it seriously."

Sima Shangwu greeted a few words before leaving! Chen Fang was also called away by Sima Shangwu, and the words were gone!

Only Fang Yue and Nujianghou were left in the camp.

Nujianghou asked Fang Yue.

Fang Yue smiled a little, and then said: "Actually, my plan is very simple! Since this Covenant between the Galaxy and the Northern Covenant is working together to use the Earth to deal with us, we will do our best to combine the Covenant between the Galactic Covenant and the Northern Covenant. The relationship is broken! The crowds are all for the benefit, and the crowds are all for the benefit. As long as the two words of benefit are grasped, the Galaxy Star Alliance and the Northern Alliance cannot truly join forces! I heard that this time A strong man from the Great Sacred Realm has come as a messenger in the Galaxy Star League!"

"This powerful man in the Great Sacred Realm is named Gong Hui, and he can be regarded as a powerful figure in the Galaxy Star Alliance! This Gong Hui has a strong and domineering character, and he protects shortcomings. It happens that this time Gong Hui's The youngest son came with the army! Gong Hui's youngest son was named Gong Changkong. This Gong Changkong was only in his twenties. He relied on the resources of his father's generation to cultivate to the level of the leader, but because his foundation is not solid, so Don't dare to try this saint's robbery! Without going through the robbery, it is impossible for this palace to become a strong man in the saint realm! If we place a treasure in this planet of Vegeta, there are ten drops hidden in this treasure What about the life essence? This life essence is a life-saving medicine to survive the catastrophe. No matter how severe the body is injured, as long as you take a drop of life essence, you can instantly recover and reach the peak state!"

Fang Yue's words made Nujiang Hou nod frequently, but he did not expect that Fang Yue's homework had been prepared so well!

"But this treasure arrangement must be trusted! The essence of life should be real, so that people from these two forces can be hooked immediately!"

Hou Nujiang frowned, his consideration was also meticulous.

Fang Yue smiled and said, "You can rest assured of this point. I have ten drops of life essence in my hand! These ten drops of life essence are what I found from an ancient ruin! But when this treasure was born, the competition is not the two forces of the Galaxy Star Alliance and the Northern Alliance, but the tripartite forces of my destruction of the demons. Only in this way will people be suspicious! Otherwise, such a good show, alone without me destroying the Demon Race, I'm afraid it will make this agreement between the Galaxy Star Alliance and the Northern Alliance a lot of doubts!"

"Leave this to me! I'll do the trick to the extreme!"

The Nujiang Hou laughed.

Afterwards, Fang Yue felt relieved and began to arrange his game.

Half a day later, in a col on the planet Vegeta.

A gleam of light soared into the sky, condensing colorful colors, and the purple auspicious auspiciousness in the sky appeared, covering a radius of 800 kilometers, and there was a phoenix and dragon, which made people stunned!

At the same time, the thunder roared, pouring like rain, and the endless thunder completely destroyed the forests around the col. Even the patrol team of 800 people passing by the Galaxy Star League was turned into ashes in the thunder!

The Galaxy Alliance immediately ordered an investigation, what is going on!

Soon, the spies reported that there should be treasures appearing in this mountain col. The auspicious fall on this day was caused by the treasures in it, and the following tribulations should be aimed at the treasures in the treasure. This treasure may be treasured. Heaven is forbidden!

The leader of the Milky Way Star Alliance sitting here is Gong Changkong. This Gong Changkong was greedy since he was a child, and immediately couldn't sit still after hearing the news!

This is Baoguang and Auspiciousness, Heavenly Tribulation and Thunder. What kind of treasure is hidden in this treasure that can cause such a big movement when it was born!

Gong Changkong immediately led five hundred elite soldiers to the side of the mountain col, but at this time, the ground was full of corpses!

Hundreds of teams from the Northern Alliance first came to this mountain col to hunt for treasure. Unfortunately, their average strength was too weak. From this mountain col, the three-headed master-level evil creatures actually tore them into pieces. Fragments!

After all, this is the territory of the Northern Alliance, and they should come here as soon as they discover the change!

Gong Changkong raised his eyes and saw three evil creatures guarding the mountain col. They were inseparable from the treasure in that mountain col!

"Heavy Treasures will inevitably be guarded by alien beasts! These three fierce beasts all have the cultivation level of the master realm, and they are not common creatures, but evil creatures mixed with obsession and heroic spirits. I am in ancient books I've seen relevant information in the Chinese, this kind of creatures should have disappeared in ancient times and appear now, most likely because they were sealed in the col with this treasure. Now that the treasure is born, these guardian beasts also appear. Up!"

Seeing the three evil-minded creatures, Chang Kong didn't suspect him, but he believed even more firmly in his own guess!

Fang Yue, who was thousands of miles away, was in a military camp, facing a mirror, looking at the surroundings of the col.

Fang Yue's side was Sima Shangwu and Nujianghou.

"Evil mind creature, Fang Yue, where did you get this thing from!"

Sima Shangwu admired Fang Yue's arrangement very well.

This treasure is simply arranged seamlessly, even if he goes there in person, he will be confused by this treasure!

But very quickly, he focused his attention on the evil creature.

Fang Yue was taken aback for a moment, and then said: "This evil thought creature was found by his subordinates from a deserted realm!"

Sima Shangwu nodded slightly, and said for a moment: "This evil-minded creature, you'd better provoke a little less in the future! This evil-minded creature itself is a kind of incompatible yin spirit. Their causes are mysterious and complicated, and the power of faith is involved. Many The strong men who came into contact with them all suffered ominously in their later years, and none of them ended well!"

This was the first time Fang Yue heard Sima Shangwu's statement.

He doesn't know much about evil creatures, and not only does he even seem to not have a good understanding of evil creatures!

"Thank you, Lord Sima, for your suggestion, but I also hope Lord Sima can clarify how this evil-minded creature is formed?"

Fang Yue asked humbly, his other clone is still exploring in the seventh realm!

If he doesn't understand evil creatures, he might suffer a big loss!

"I don't know much about this evil creature! I only know that the nature of this evil creature is ominous, because they represent the resentment of a group of people, or the resentment of a dead civilization,

only faith The civilization with the gods will leave this kind of disaster! There was once a great sage who dug up the relics of an ancient civilization, but his planet was implicated and destroyed by those evil creatures!"

Chapter 1702: Snipe and clam fight

Sima Shangwu's eyes were blurred. It was obvious that he knew more about evil creatures but he didn't want to say more.

Fang Yue was not aggressive either, anyway, he had been in contact with this Sima Shangwu for a long time, and sooner or later he would poke out the information about the evil creature from Sima Shangwu's mouth.

And under the mountain col, Gong Changkong's men and horses have already fought with one of the evil creatures. Although Gong Changkong has not many men and horses, they are all strong men carefully selected by his father for him.

For example, his guardians are mixed among them. All three of them are veteran powerhouses in the realm of saints. The three are responsible for protecting Gong Changkong's side and staying half a step. Their task is to protect Gong Changkong's life, instead of grabbing various resource treasures for Gong Changkong.

And Gong Changkong's subordinates naturally have a team responsible for the treasure!

A seven-person squad quickly rushed up. The seven-person squad was all composed of strong masters in the master realm. They surrounded the evil creatures that rushed down the mountain and formed a seven-star formation!

The Seven-Star Array is the oldest battle formation, it can attract the dazzling stars and diffuse the stars, falling down from the sky, and beams of light fall into their bodies. Xinghui was full of strength and turned into a cyan robe, which fluttered in the wind. It seemed weak, but in fact it was able to withstand swords, guns, water and fire.

Fang Yue looked at the Seven Star Formation, and he suddenly felt a little lost.

In the seven-star array, he vaguely felt a familiar taste.

The evil creature is besieged in the seven-star array, and its emotions become more and more manic!

Every breath of it became heavy, as if the wind was howling, and it made the wind grow stronger and stronger!

The qi condensed in the howling wind, and the qi turned into pieces of cold wind blades.

The void was torn apart, and the wind blade fell on the neck of a soldier under Sima Shangwu.

A red blood line slowly extended.

L.

The blood fell to the ground.

The cracked ground was stained with a rose-like red.

"Who am I? Where am I?"

The evil creature muttered to himself, the killing instinct in his eyes gradually faded, and a complex and dazed look appeared in it!

"This evil creature is about to awaken!"

There was a hint of trembling in Sima Shangwu's voice.

The evil creature slowly recovered, and a wild aura in his body woke up.

"I am Jack the Devil, and I am a believer in the great God of Purgatory!"

The evil creature muttered to himself, the breath on his body burst out like a blowout!

The power of the stars of the seven-star array was shattered by life.

"How is it possible? This seven-star formation simply cannot stop the attack of this evil creature, and the power of the stars is easily torn apart like a thin piece of paper."

Gong Changkong's eyes were full of red learning, and his eyes opened with anger, and they were full of hideous expressions!

This seven-star formation is his assassin. The seven master-level powerhouses work together to form an array, and even ordinary saint-level powerhouses can be easily trapped, but in front of this evil creature, it seems to belong to a child's family. Like toys, there is no resistance at all.

Gong Changkong's voice trembled.

His heart is also beating throbbing, not because he is afraid of the evil creature in front of him, but because he has an instinctive fear response under the influence of the invisible aura of the evil creature. This should be a special talent skill possessed by evil creatures themselves.

"Shock, fear, the means of the soul!"

Fang Yue found that after the evil creature awakened, the development of the whole thing had gradually exceeded his plan.

The evil thought creature after awakening is no longer the kind of muddle-headed, simple thinking.

The evil-minded creatures began to gradually restore their memories before they were alive, and various methods and their understanding of Taoism began to gradually recover.

Although the evil-minded creature at the master level was on the surface of the master level, his previous life was at the saint level. With the return of his memory, the various methods of his previous life were also revealed one by one!

The strength of this evil creature has exceeded Fang Yue's control over him!

But the most nervous person at the moment is Gong Changkong!

The evil creature awakens, and he vaguely knows what it means.

After death, not everyone's obsessions can be transformed into evil creatures. Only those powerful people or those who have gathered the luck of an era can inherit the destiny and become evil creatures after death. They are born as Outstanding people, death, is also a ghost.

Once evil creatures awaken, their rise will be unstoppable!

"Kill, kill him with all my strength!"

Gong Changkong's eyes were flustered, and he must not give this evil creature a chance to fully awaken.

As the awakening degree of evil creatures deepens, their strength will also increase geometrically! This evil thought creature is now at the level of the leader realm, and maybe it will reach the level of the saint realm in a while!

"The evil creature is so ferocious, it's better to let the old slave take action to destroy it!"

A guardian of the Saint Realm in Gong Changkong spoke, his beard and hair were all white, but there were red blood on both sides of his cheeks.

He is the protector of Gong Changkong, and a veteran powerhouse in the Galaxy Star Alliance!

He hadn't shot before because of disdain.

It is difficult for a cult-master level evil thought creature to be included in his law eye, but now that the evil thought creature has awakened, his heart is already a little excited.

"In that case, please be old Li!"

Gong Changkong bowed deeply to the old man.

The old man nodded slightly.

With a sound of "噌", the old man drew a long sword from his waist.

There are faint mountains and rivers in this long sword, and the sword light emerges from the aperture, suddenly illuminating the eternal night.

"punish!"

The old man put his fingers together and slowly swept across the sword.

A sword gas swept across the sky and crashed down towards the evil creature!

"Hellfire!"

The evil creature suddenly uttered words, and he seemed to have awakened all the memories of his previous life.

The world around the evil creatures twisted and changed and became a clone of hell.

Sword Qi sank into hell, as if sinking into the sea, without any waves churning.

"The strength of this evil creature has begun to gradually awaken, and the guardian of Gong Changkong is not its opponent!"

Sima Shangwu quickly made a judgment.

There was a cold light in his eyes.

"How is it possible? This evil-minded creature is only the level of the leader realm, and the protector of the palace Changkong is already a strong man in the saint realm!"

Nujiang Hou has a slight criticism.

But his voice just fell.

In that **** world, a hand full of scales came out of it!

The icy hands slowly fell and grabbed the old man's body.

"Exit!"

The old man didn't change his face, and the long sword in his hand burst out again with a sharp sword aura.

The sword qi fell, and a series of sparks formed on the scales.

The old man's saint-level sword aura was not enough to cut through the scales.

The old man finally felt a panic in his heart, and the strength of the evil creature in front of him far exceeded his expectations.

"help me!"

The old man turned to the other two protectors for help.

The two protectors felt in their hearts, helping the old man on the left and the right.

But the scales were still firmly grasping towards the old man.

Click, click, click!

The paw fell and grabbed the old man's body!

The old man wanted to dodge, but when he was about to dodge, he discovered that the two guardians of Gong Changkong were actually holding him one by one!

"You two..." The old man was angry.

"The two of them have become my servants!"

The evil creature said.

These two protectors were all controlled by evil creatures and became his slaves.

"The method of the soul line is really terrifying! Even if this evil creature has not fully awakened, it can control a powerful person in the Saint Realm!"

Fang Yue spoke, his expression was slightly complicated.

Some of the spiritual methods are derived from the soul of heaven, and on the other hand, they are derived from some extremely ancient heritage.

These ancient inheritances are even beyond the scope of Taoism.

The strength of this evil creature really exceeded Fang Yue's guess.

"This is an evangelist! He can't exist in this world, otherwise, the **** of purgatory in the past may come again. At that time, there may be many changes in the planet Vegeta!"

Murderous intent was in Sima Shangwu's eyes!

He always seemed to be extremely jealous of evil creatures.

"Not urgent!"

Seeing that Sima Shangwu was about to take the shot himself, Fang Yue stopped him with one hand.

At this time, Gong Hui had already come down.

Gong Changkong is his youngest son, and he will naturally protect him.

Gong Hui tapped a finger.

The eyebrows of the evil creature shattered instantly.

What kind of purgatory world, what kinds of sorceries, under his finger, all are all annihilated!

However, Gong Hui didn't show the slightest relaxed look on his face.

Instead, his brows were frowning, and there was a hint of tension!

I saw the gray death air entwined on his finger.

The breath of death lingered like a maggot with bones.

"cut!"

Gong Hui muttered to himself, and the light fell from his eyes.

The life force in his body turned into a long knife and directly smashed the death air.

The force of life and the force of death oppose each other.

Eventually all annihilated!

"This Gong Hui is also decisive enough, he actually cut off that ray of death with a hundred years of life!"

Sima Shangwu said to himself, his heart moved slightly.

"One hundred years of life in exchange for the power of a sword! Is this breath of death so terrifying?"

Fang Yue asked Sima Shangwu.

And Sima Shangwu was shocked at the moment without deliberately defending the opponent Yue.

"If this evil-minded creature hasn't awakened, it would be better. If it is killed, it will be killed. However, once the evil-minded creature is awakened, it will not only awaken the various methods of the previous life, but all of them are proficient in spiritual methods!

Even more terrifying is that if this evil-minded creature is awakened, it will not be able to kill it! If they don't kill, their awakening will become stronger and stronger, but if they kill, they will be surrounded by a ray of pure to the extreme death force, no one can escape! Unless it is hedged with the life force! "

Chapter 1703: Heavy dispute

Sima Shangwu quickly reacted, and he said something that shouldn't be said.

However, he glanced at Fang Yue and felt relieved again.

This Fang Yue can be regarded as his person from a certain angle. He has the blood of destroying the demons, and he should not use this information to do evil.

There was a faint light flashing in Fang Yue's eyes, and the strategies in his mind flashed past.

I didn't expect evil creatures to have such characteristics. If these characteristics are used well, this seventh realm might be a big killer against the enemy in his hands.

He doesn't worry much about the backlash of evil-minded creatures. This spiritual method is based on the premise that the strength of the soul is almost the same. What level is Fang Yue's soul strength? The power of the soul in his deity is increasing day by day, especially in reaching After the level of Yin Yang realm, his soul power has risen to another level, and now it can vaguely rival the powerhouses of ordinary virtual fairyland.

And if this evil-minded creature is really comparable to the imaginary immortal, Fang Yue would not need any soul power. The other party can crush him in all other aspects, without using spiritual means at all, so much trouble. As for the death aura, Fang Yue cultivated in "The True Scriptures of Death", and his ability to manipulate the power of death was unparalleled in the world.

Even if it is necessary to use life force to offset it, he is not afraid.

Anyway, even if he consumes his life force, he needs to lose his lifespan.

In the mirror, Fang Yue saw the place where the evil creature died, leaving a transparent fragment the size of a palm.

This fragment is a fragment of civilization.

And this fragment is no one cares about, Gong Hui seems to know some legends about evil creatures, so he will not let Gong Changkong touch anything left by this evil creature!

Be careful to make the Wannian Ship, Gong Hui got to this step just because of enough care and caution!

"Father, there is a heavy treasure born in that mountain col, and I vaguely feel that the heavy treasure in this mountain col may be extremely important to me!"

Gong Changkong pointed to the mountain col, and beside the col, there were two evil creatures at the master level loyally guarding him.

"Heavy Treasure!"

Gong Hui looked at the mountain col, and then glanced at the two evil creatures guarding the two sides of the col, his eyes involuntarily revealed a look of jealousy!

"There are evil-minded creatures as guardians. This is really a big handwriting, and the treasures left behind are definitely extraordinary. Forget this wealth and danger, anyway, these two evil-minded creatures at the master level cannot become a climate!"

Although Gong Hui was afraid of the existence of evil creatures, after all, he also existed at the level of the Great Sacred Realm. For the sake of his children, he would fight it again!

Gong Hui shot, a nine-story stone tower appeared in his hand.

Gong Hui's palm shook slightly, and the stone tower immediately flew out of his hand.

"Really poor!"

Fang Yue couldn't help muttering in front of the mirror.

The stone tower used by Gong Hui turned out to be only a magic weapon in the early stage of the Saint Realm. This stone tower looks simple and ancient, but its power is also quite limited.

This Gong Hui is an existence at the great sacred realm level. If he is still using this level of magical artifact, wouldn't it make people laugh out of his teeth?

Sima Shangwu glanced at Fang Yue: "Do you think that every powerful person in the Great Sacred Realm can each be equipped with a magical weapon of the Great Sacred Realm? This is required for the refining of the Great Sacred Realm's magical weapon? The materials are extremely cherished, and each rune imprint is very particular. In fact, the birth of every artifact of the great sacred realm level will attract competition from many great sacred realm powerhouses. It is a **** storm that will bury many great The corpse of a strong sacred realm. Only those who can obtain this magical weapon can obtain a magical weapon of the great sacred realm level, and the great sages with insufficient cultivation or luck will become the magical weapon of this great sacred realm level. Martyrs! In fact, about 50% of the great sages will never have a great sacred realm level magical weapon in their lifetime. They can only retreat to the next best thing and regard an ordinary sage level weapon as themselves The weapon. Although Gong Hui is also a great saint, it is a mediocre power among the powerful at the great saint realm level. He does not have a magical weapon at the great saint realm level, which is a normal thing!"

As Sima Shangwu spoke, Fang Yue's expression was a little strange.

In Fang Yue's view, this great sacred realm-level magical tool is no longer a treasure, because he has at least four or five great-sacred realm-level magical tools in his hands, and even dharma beyond the great sacred realm level. He has a lot of artifacts, such as the burial pagoda and the mysterious stone pendant absolutely surpassed the level of the magic artifact of the Great Sacred Realm.

Fang Yue secretly made up his mind that he must hide these magical instruments, otherwise, he would become a big fat sheep if he was stared at!

At this moment, Gong Hui's stone tower had been sacrificed, and the stone tower flew into the sky, and the rays of sunlight fell down.

Every rays of sunlight are extremely heavy, capable of crushing time and space and shattering the earth!

The sun light fell, causing the earth to tremble.

The two evil creatures became fly ash in a flash under the suppression of Xiaguang!

"This great saint-level powerhouse is really tyrannical, and an ordinary saint-level weapon can show such power in their hands!"

"There are two factors that determine the power of a magical tool. One is the material of the magical tool itself, and the other is the inscription on the magical tool. The more inscriptions there are, the higher the level of the magical tool will be. The number of inscriptions on this artifact has reached tens of millions! The true energy in the body of an ordinary saint-level powerhouse is limited, it is difficult to activate all the inscriptions in the artifact, and it can activate one-tenth of it. It's already pretty good, but a strong man at the Great Sacred Realm level has a huge mana. If he can activate and revive all the inscriptions in his hand, he can still display extraordinary power!"

Sima Shangwu is explaining the reason for Fang Yue.

Fang Yue nodded slightly. In fact, he had a lot of weapons in his hand, but he was able to fully activate the inscriptions, which was the master level magic weapon, because once it reached the saint level, the number of inscriptions in this magic weapon suddenly violent. increase!

The number of inscriptions is too much, even if he can only pick and pick, activate some of the more important inscriptions.

From a certain point of view, those magical instruments falling into his hands are tantamount to a waste. He can't even activate the magical instruments at the saint level, let alone the great holy realm or even those innate treasures!

However, Fang Yue did not think of a solution.

He once developed a formation method that can gather massive amounts of heaven and earth essence, and then put the magical artifact into it, fill the magical tool with the heaven and earth essence in the formation, revive all the runes in it, and cast the true artifact. The power of.

Fang Yue's thoughts were flying, but soon he returned his thoughts to the battle scene in the mirror.

The two evil creatures turned into fly ash, and this mountain col turned into a giant slowly rising from the ground, and this giant was transformed from the mountain col as a whole.

This is also Fang Yue's masterpiece. He placed five drops of earth's lower powers in the mountain cols, and then arranged formations in the mountain cols. These lower powers were used as energy sources to revive the formation patterns and the mountain cols became Mountain giant, this can make the play more realistic.

Sure enough, the appearance of mountain giants made Gong Hui more firmly believe that this was a treasure left over from ancient times.

Because he had read in ancient books that in the ancient times, there were some powerful people who were good at organs who could use the power of the world to throw beans into soldiers and turn all the mountains and hills into weapons in their hands!

"This time my palace is destined to get this precious treasure!"

The corner of Gong Hui's mouth curled up with a triumphant smile.

The treasures of the ancient times are all great opportunities, and some people even leap into the dragon gate because of the treasures of the ancient times, and the whole person's life has a different miracle!

Various thoughts flickered in Gong Hui's heart.

But at this time, the silhouettes of people are already hitting like meteors!

"Master Gong Hui, stop, this is a treasure on my planet Vegeta, it should belong to our Northern Alliance, and Master Vegeta please avoid!"

At the same time, a full five saints descended, all of them were strong resident on the planet Vegeta!

The person with the strongest cultivation base is a middle-aged Taoist aunt. She has a mean appearance and a whisk in her hand.

Fang Yue recognized this person at a glance, and this middle-aged Taoist aunt was one of the high-levels in the North League covenant against the earth.

After Fang Yue got the news of the alliance between the Northern Alliance and the Galaxy Star Alliance, he spent a lot of money to purchase a lot of lists and some important information about the personnel of the two forces against the earth from the Galaxy Bank.

Gong Hui and Gong Changkong are the top personnel on the list.

The same middle-aged Taoist aunt is among them!

This middle-aged Taoist aunt is obviously the head of the five saints. Although she smiled and seemed to persuade her, the magic power in her body was surging, and she was obviously ready to take action at any time.

There are no absolute friends, only absolute interests.

If this treasure was just an ordinary treasure, it would be fine for them to be good people if they gave it to the Galaxy Alliance.

However, this treasure is obviously a treasure from the ancient times, in which evil creatures can be guarded by evil creatures and can also be transformed into mountain giants.

This is obviously not something ordinary people can do. The treasure left by those who can arrange these methods must be extraordinary!

"Who are you? Do you represent the will of your Northern Alliance?"

Gong Hui looked at the middle-aged Taoist aunt with a hint of hostility and disdain in his tone!

Who is he?

He is one of the great saint realm powerhouses in the Galaxy Star Alliance.

In this huge galaxy, there is a unique existence!

Although he had descended on the territory of the Northern Alliance, Gong Hui didn't really appreciate these people from the Northern Alliance!

They are just frogs at the bottom of the well!

Short-sighted, what can you know?

What's more, just a saint, where is the qualification to talk to him?

Chapter 1704 The Death of Xin Anzhen

"Master Gong Hui, I am Xin Anzhen, the eighteenth elder of the Northern Alliance. If there is anything that offends the adults during the speech just now, please forgive me! But this planet Vegeta is indeed the area of my Northern Alliance. , This treasure produced on the planet Vegeta may have been left by our ancestors, so I invite Master Gong Hui to observe!"

Fang Yue was speechless as soon as this Xin An Zhen spoke.

This planet Vegeta is obviously also the place where your Northern Alliance later invaded and colonized, OK?

The treasure left by your ancestors?

Who are you fooling?

Gong Hui also knew about the planet Vegeta. Gong Hui couldn't help but snorted and said: "Xin Anzhen, you are too small to look down on Gong. Although Gong has not much knowledge about this planet Vegeta, but Some historical palaces in this planet Vegeta still know it! This planet was obtained by the Northern Alliance's covenant, how come your ancestor's treasure is said to be? What's more, who has always discovered this world's treasure? Whose! The youngest son of Gong X found this treasure, and it should belong to the youngest son of Gong X! Could it be Xin Anzhen that you insulted my father and son who are weak in this foreign land and want to take this treasure away?"

Gong Hui is indeed an old fritters!

In a few words, the ownership of this treasure is put under Gong Changkong's name. If the strong men of the Northern Alliance can compete with him for this treasure, it will be difficult for them and Gong Changkong to compete for this treasure. It's too cheap!

Xin Anzhen's face immediately became difficult to look after hearing this.

At this time, the mountain giant had already made a bold move on Xin Anzhen.

The mountain giant is refined by Fang Yue, and its every move is naturally controlled by Fang Yue!

Although the mountain giant doesn't have much magical powers, its size is huge, and its strength is so great that it can't even stand the power of the ordinary saint!

He slapped Xin Anzhen to the ground, and Xin Anzhen was slapped by the mountain giant to the point of breaking her tendons!

Sima Shangwu couldn't help but glanced at Fang Yue.

"You made this mountain giant?"

There was a hint of surprise in Sima Shangwu's tone.

The power of this mountain giant can be compared to a giant!

Even if this guy is huge in size, it is not very convenient to move, but its body is made of stone, and its defense is amazing, and ordinary methods can really not break his defense!

The mountain giant is powerful.

If used in war, it is an absolute war hegemon.

"It's just a fluke!"

Fang Yue did not hide that in the destruction of the demons, this low-key can not gain the respect of anyone, but the stronger your strength, the more others respect you and entrust you with important tasks.

"Bold, a mere mountain giant dare to do something to me?"

After all, Xin Anzhen is a strong man in the Saint Realm.

How could it be so easy to be defeated by a mountain giant!

Around Xin Anzhen's body, chains of order lingered around her, and the colorful lights illuminate every part of his body.

Xin Anzhen's injuries quickly healed, and she returned to her peak period!

Xin Anzhen jumped up, her expression stern and proud.

"No matter which of the ancient masters left behind you, you are destined to have a dead end when you fall into my hands!"

Xin Anzhen took out a pink long sword, and the long sword pierced straight, hitting the body of the mountain giant.

A huge boulder fell from the mountain giant's body, torn apart.

However, this huge boulder is just a drop in the bucket for the mountain giant, its body is huge, such an attack is almost ineffective to it.

The mountain giant waved his palm again and snapped at Xin Anzhen's body.

Xin Anzhen seemed to be prepared, her other hand was shaken, and a colorful light swept down, setting the palm of the mountain giant in the air!

The other four saints from the Northern Alliance and Xin Anzhen had an extremely deep understanding. The four of them used their magical powers to bombard the mountain giant with beams of light.

The mountain giant stepped back two steps, the chaotic world collapsed and the smoke was lost!

"Do it!"

Fang Yue gave an order.

Whoosh whoosh!

The huge crossbow arrows used to attack the city one by one blasted towards Xin Anzhen!

This crossbow arrow is engraved with a series of inscriptions. At this time, these inscriptions are born, and they all exude endless majesty!

Xin Anzhen was caught off guard, who could have expected that there were still people around waiting to kill them.

She was hit by one of the crossbow arrows directly through her chest.

Xin Anzhen was hit hard, and at this moment her secret technique to restore the body could not be activated.

This method has a certain cooling time, and it is impossible to activate continuously in a very short time.

The army under Fang Yue was naturally responsible for the ambush. How could he let such a good opportunity pass?

"Kill me, kill these mice hiding in the dark!"

Xin Anzhen's crazy roar, this is a shameful shame, she is a powerful man in the realm of saints, and an elder-level figure of the Northern Alliance will be hit by such a clumsy crossbow!

"Battle formation!"

Fang Yue spoke again. Although he was quite far away from these destroying demons, he was able to manipulate the actions of these destroying demons in the first place.

Eighteen destructive demons at the level of the leader of the sect, they joined hands and turned into a golden spear.

The spear condenses, vaguely revealing the majesty of a saint.

The spear pierced out of the void and pierced Xin Anzhen's head.

Xin'an Zhen wanted to escape, but the mountain giant suddenly shot, it seemed to be deliberately cooperating with the person in the dark! A loud roar came out, and the sound rolled, like thunder.

Xin Anzhen was trembling all over. She wanted to get rid of the harassment of the sound wave, but she unexpectedly found that there was a short-term disorder in her body's true Qi, and she was severely injured, and she didn't even have the power to move her body!

Xin Anzhen's mental breakdown!

She could only watch the spear stabbing.

Infinite despair came to her heart!

With a bang, the golden spear smashed Xin Anzhen's head directly, leaving nothing!

Shock, horror, horror!

At the moment Xin Anzhen fell, even Gong Hui's breathing became a lot lighter!

"Who is making this shot, it is so terrifying!"

Although Gong Hui had already discovered the traces of the ruined demons, he did not remind Xin Anzhen.

He hoped that Xin Anzhen would suffer from the destruction of the Demon Race, so that she could understand that this treasure was definitely not something she could take in.

But Gong Hui never thought of letting Xin Anzhen die.

Especially this Xin Anzhen will eventually die in front of him!

Although this Xin Anzhen was not killed by his own hands, his failure to save him would seriously damage the opportunity for the alliance between the Galaxy Star Alliance and the Northern Alliance.

Gong Hui doesn't have a clear understanding of Xin Anzhen's status in the North League Covenant, but Xin Anzhen is a strong person in the eighth level of the Saint Realm. Judging by her strength, you can know this Xin Anzhen. It must be the pillar of the Northern Alliance.

"retreat!"

Fang Yue continued to command the destruction of the demons.

The Destruction Mozu walked to a teleportation array, then filed in and disappeared on the scene.

These demons have only one chance to destroy the Yinren of the Demon Race, and being able to kill a Xin Anzhen is already good luck.

As for what they can do more?

Fang Yue has no hope!

Destroy the demons withdraw one after another.

Sima Shangwu admired more in the eyes of Fang Yue!

Whether Fang Yue can set up traps or summon mountain giants!

These are all tricks and tricks.

But Fang Yue was able to use his soldiers like a god, advancing and retreating, and there were only a few soldiers who destroyed the demons to destroy a powerful man in the Northern Alliance's Covenant Saint Realm. This was what he hoped to see.

"Master Sima, I don't know how much military merit it is to kill an eighth-tier strong man in the Saint Realm?"

Fang Yue jokingly said to Sima Shangwu.

"I will give you 800 medium-grade world crystallization, and add 800 soldiers! This credit will be remembered for you first, and I will reward you when you have cultivated to the level of the leader!"

Sima Shangwu knew it well.

This Fang Yue's credit is too great, but his credit cannot be rewarded immediately, otherwise, his official position is too high, his realm is not enough, and it doesn't conform to the rules of destroying the demons!

Therefore, Sima Shangwu can only convert Fang Yue's credit into the world's crystallization distribution. As for the organization of these 800 soldiers, it only allows Fang Yue's power to expand slightly!

Fang Yue nodded, he understood Sima Shangwu's helplessness.

However, Fang Yue was already quite satisfied in his heart to be able to wipe out this Xin Anzhen with the help of the destroyer demons!

Xin Anzhen played an extremely important role in the joint efforts of the Galaxy Star Alliance and the Northern Alliance to deal with the earth.

If it weren't for her to jump up and down there, why would the earth face today's crisis.

Fang Yue is not a gentleman, he will avenge his grudges.

Whoever provokes him, who provokes the earth, he will destroy whoever!

"There has been a gap in the cooperation between the Galaxy Star Alliance and the Northern Alliance. Even if they can consider from the perspective of the overall situation, the death of Xin Anzhen will always become an insurmountable gap in cooperation between the two sides. !"

Nu Jiang Hou felt that the death of Xin An Zhen had already represented the success of Fang Yue's plan.

Fang Yue shook his head slightly: "These are all good enough!"

"It's hard to set up the game, how can I stop this whole planet Vegeta from turning upside down!"

As Fang Yue said, the mountain giant sat on the ground slowly and turned into a col.

Fang Yue knew that the energy in this col was exhausted.

The roar just now consumed 90% of the energy in the five drops of lower power!

"Why isn't this mountain giant moving?"

Gong Changkong is ready to run away!

The gods fight, and the mortals suffer. Didn't you see that even the letter Anzhen of the eighth layer of the Saint Realm died? With this strength of his staying, it is easy to be accidentally injured to death!

But Gong Changkong hadn't ran away, and the mountain giant stopped by himself.

"This is an organ creature left over from the ancient times. It's not easy to get through to this era! Just now this mountain giant consumed too much energy when dealing with Xin Anzhen, so it collapsed halfway!"

Gong Hui guessed.

Chapter 1705: Give in

Originally, Gong Hui was already ready to leave, and it was not worthwhile to destroy the alliance between the Galaxy Star Alliance and the Northern Alliance for an ancient treasure that did not know what treasure was in it. So Gong Hui was going to abandon this treasure, and then proactively pleaded guilty to the North League agreement!

Only in this way can the possible estrangement between the two forces caused by the death of Xin Anzhen be eliminated.

But when Gong Hui saw that the mountain giant turned into a col, his thoughts were instantly shaken!

This mountain col has reappeared in front of him, does it mean that he is the destined son of this treasure?

Even if it is not, there is nothing to just look at anyway!

Gong Hui smashed the seal of the treasure on the mountain col, and then, a strong breath of life rose into the sky.

"Ten drops of life force?!"

Gong Hui's eyes widened, and his breathing became much faster.

The previous thought of giving up the treasure disappeared instantly when he saw the life force!

Damn it, let out the treasure!

This is how the life force handed down from the ancient times can be surrendered!

The power of life means that you can quickly recover from your injuries during battle. This is something that can save your life on the battlefield!

"Father, I can be sanctified! Children can be sanctified!"

More excited than Gong Hui is Gong Changkong!

Gong Changkong had stopped at the threshold of the Saint Realm for too long. He was worried about crossing the tribulation, worried that he could not escape under the tribulation.

But when the power of life appeared, his road of crossing the catastrophe suddenly had new hope.

If he takes the life force to survive the catastrophe, even if he is severely injured under the heavenly calamity, he can use the life force to recover immediately.

This is tantamount to giving him one more life, and at the same time providing him with an extra layer of protection to survive the catastrophe!

Gong Hui also realized the value of this life force to his young son. These life force not only represented the guarantee of a life, but also represented his young son through the catastrophe and the hope of a saint!

"Hahaha, it really is a treasure left by the ancient powerful, and its value is really amazing! This is a blessing given to my palace family from the heavens, and my palace family is about to rise to a new level!"

Gong Hui laughed.

He had already thrown the idea of giving up this treasure to the North League agreement to Java!

Are you kidding me?

This is ten drops of life force, which is rare in ancient times. Unless the legendary temple of life can be found, who can easily produce so much life force!

However, it is not so easy for Gong Hui to swallow these life powers.

Although one Xin Anzhen died, there are still four saints from the Northern Alliance's covenant who saw him get the treasure of these ten drops of life force!

A fierce light flickered in Gong Hui's eyes, he was thinking whether to kill someone!

And the four saints of the Northern Alliance Covenant all felt the danger. They had not waited for Gong Hui to make a move, but they had already given the high-level voice of the Northern Alliance Covenant to make them come quickly.

Just a few breaths.

People's shadows came one after another.

These figures are clear, and they are all high-level figures of the Northern Alliance, and the leader is Great Sage Chen Lu.

Behind Chen Lu there are twenty powerful saints!

It also includes Liu Xu, the nominally supreme officer of Vegeta planet.

Although Liu Xu is only the cultivation realm of the Saint Realm, his body contains astonishing blood!

Liu Xu, with a special bloodline in his body, coupled with his cultivation at the pinnacle of the Saint Realm, his combat power is not weaker than that of any powerful person in the Great Saint Realm!

Gong Hui only glanced at the lineup behind Chen Lu to know that they were not good this time!

In terms of pure force, such a lineup is much stronger than them!

Chen Lu and Liu Xu are both great sage-level combat power. Although the catkins are much inferior to him, it is more than enough to have Chen Lu next to him in a two-on-one fight!

"Is your Northern Covenant plan to turn a face with our Galaxy Star Covenant?"

Gong Hui preemptively issued a warning to Chen Lu and Liu Xu.

Liu Xuyin said sadly: "Naturally, this is not the case, but our saint died here, and there is the Great Sage of the Galaxy Star Alliance next to him, and this Great Sage is indifferent besides, which seems to be impossible to represent. The attitude of the Galaxy Star Alliance!"

Liu Xu is definitely not a good stubborn. He has ruled the planet for so many years and needs to deal with countless tricky things every day. He understands in his heart that no matter how strong his opponent is, he cannot show half cowardice. Otherwise, the opponent will Get an inch, so you have no room for retreat!

"Master Liu Xu is serious. Although Gong Mou is a great sage, he is far less powerful than Chen Lu. Before Xin Anzhen died in front of me, I was unexpected. I thought that with Xin Anzhen The strength of the mountain giant should be more than enough to deal with this mountain giant, so I did not superfluously intervene without permission! But I did not expect that I overestimated the strength of the saints in the planet Vegeta, this matter is indeed Gong Mou's fault, but Gong Mou should not be responsible. All responsibilities!"

Gong Hui didn't smile.

He shirks most of the responsibility in an instant, but instead he vaguely pointed his spear at the Northern Alliance Covenant, saying that their saints are not useful!

"It's useless to talk about it. Give up the life force in your hands. This is a treasure found on the planet Vegeta. It should be dealt with by our Northern Alliance!"

Behind Liu Xu, a sage who seemed to be flabbergasted suddenly spoke.

His tone is quite tough!

Gong Hui was taken aback for a moment. He didn't expect that this request was not made by Chen Luyi or Liu Xu, but by a freshman who had just entered the level of a saint.

"Shut up, how can you speak like this in front of Master Gong Hui! Master Chen Lu understands righteousness, how can you be greedy for our little life force?"

Liu Xu reprimanded the stunned young sage.

Afterwards, Liu Xu clasped his fist to Gong Hui and said, "Master Gong Hui still hopes to forgive me! It is because of poor discipline. After returning, I will definitely let him think about it behind closed doors!"

Gong Hui's eyelids twitched twice.

This Liu Xu is so powerful, he had already set the game when he came, and deliberately let him jump inside.

If he refuses to return the power of life, it means that he is not the so-called deep righteous person, who is robbing the property of the Northern Alliance, and if the Northern Alliance wants to deal with him, then he will be famous. And if he returned this life force, he was just doing nothing.

I don't know if the revival of this palace will be delayed until the year of the monkey!

"father!"

Gong Changkong also came to Gong Hui at this time, he was still thinking about his saint's great cause!

Gong Changkong is just a typical young boy brother, how does he know that there are so many doors and ways, and various calculations.

Gong Hui's face changed again and again!

On one side is the alliance plan between the Galaxy Star Alliance and the Northern Alliance, and on the other side is the future of his youngest son and the palace family.

The choice among them is also quite difficult for him!

But at this moment, a cold arrow struck suddenly and pierced directly at the stunned sage who had just scolded Gong Hui.

The stunned blue saint seemed to be caught off guard. He didn't expect that there were so many great saints and saints present, and someone dared to attack him with cold arrows.

The arrow broke through the air, and there was still a cold light on it!

"stop!"

Chen Lu's spiritual thoughts covered all directions and he also found this cold arrow.

He slapped the palm of his hand and slapped that cold arrow directly into powdery powder!

Chen Lu's face was gloomy, who knew there would be such a variable in this!

"Which arrogant is it that has eaten the courage of the bear-hearted leopard? Who dares to kill me in front of me?"

Chen Lu's gaze is wide.

There was a bad smell in his tone!

"Fang Yue, you missed!"

Nujiang Hou looked at Fang Yue with a smile.

This was the first time he saw Fang Yue miss.

Fang Yue smiled without saying a word, not the slightest loss.

"This Fang Yue didn't miss it. The effect of this arrow killing or not killing people is the same! It didn't shoot through the chest of the Saint of the Northern Alliance, but it pierced the Northern Alliance and the Galaxy Star Alliance. Fang Yue's heart of trust, I should be right!"

At this time, Sima Shangwu said.

Fang Yue clasped his fists, took a shot of a small horse, and said, "Master Sima is really wise, this little trick of Fang Yue can't hide the thoughts of Master Sima!"

Fang Yue's horse is very useful to Sima Shangwu

Sima Shangwu has always been most proud of not his strength but his vision!

"This arrow has nothing to do with Gong Mou!"

Gong Hui cursed secretly in his heart, who on earth was so wicked came a cold arrow at this moment!

Gong Hui, as a high-level member of the Galaxy Alliance, could not hold him firmly in his current position with pure force. What really made him a high-level member of the Galaxy Alliance was his wisdom in handling problems.

Gong Hui saw through the viciousness of this cold arrow.

But he has no way to clarify and throw himself out.

"Don't worry, Master Gong Hui, I'm waiting for you to believe that this cold arrow was not arranged by your person."

Liu Xu smiled at Gong Hui, showing an expression of understanding.

But Gong Hui's attitude towards Liu Xu was not cold.

He knew that a deep gap and gulf had appeared between the Northern Alliance and himself.

"Since these ten drops of life liquid were unearthed in the planet Vegeta, they will be returned to the original owner, and Gongmou will return it to you!"

Gong Hui finally compromised. This level of change has caused a deep estrangement between him and the Beimeng agreement. If he insists on taking these ten drops of life fluid as his own, I am afraid that he will really want to and The North League agreement fell out.

The treasure is attractive, but Gong Hui finally chose to put the overall situation first.

Gong Hui handed over ten drops of life liquid.

Gong Changkong next to him shouted unwillingly: "Father!"

Gong Hui glared at Gong Changkong.

"Zhangkong, there are some things in this world that you are destined to be yours, even if it is not yours, it is useless to force it! Since we have no fate with this life fluid, then there is no need to force it!"

Gong Hui sighed.

A shrewd light flashed in Liu Xu's eyes!

Chapter 1706: Lingering

Gong Hui's retreat at the critical moment gave the relationship between the Northern Alliance Covenant and the Galaxy Star Alliance a little more room for change.

But only they themselves knew that the appearance of this treasure had made the contradiction between the two parties deeply entrenched and could not be eliminated.

"Hahaha, Master Gong helped us get this treasure, how can we swallow it alone? These ten drops of vitality, we can use two drops as Master Gong's labor expenses."

Since Gong Hui has regressed, Liu Xu also knows how to be a human being. He knows that he can't really push Gong Hui into a hurry.

He took out two drops of life force. Although these two drops of life force were not enough to fill the grievances in Gong Hui's heart, they could at least calm the resentment in Gong Hui's heart.

Hearing this, Gong Hui's complexion also became better. Although Two Drops of life force was not much, at least his youngest son, Gong Changkong, became a saint through the catastrophe.

As for the death of Xin Anzhen, no one mentioned it again. This is a tacit understanding. Since Xin Anzhen is dead, let her completely disappear from this world!

"Fang Yue, your plan seems to be unsuccessful! Don't end up losing your wife and breaking down!"

Nu Jianghou kindly reminded him.

Although one Xin Anzhen died in the end, it was not a serious matter for the Northern Alliance.

Fang Yue chuckled and said, "Don't worry about Nujiang Hou, this is just the first step of my plan. This Gong Hui is a great figure in the Galaxy Star Alliance. It's impossible not to understand the principles of tolerance and the overall situation! However, this Gong Hui knows that the overall situation is important, but Gong Changkong is not necessarily!"

Sure enough, Hou Nu Jiang shifted his gaze to Gong Changkong's face, and Gong Changkong's face was still full of unwillingness.

These life powers should obviously belong to them, so why should they be taken away by the people of the Northern Alliance, and then give them back two drops in a fake way, and they want them to inherit the favor of the Northern Alliance!

Gong Hui exchanged greetings with the people of the Beimeng Pact.

Then they went back to each house to find each mother!

This incident has caused a lot of grievances in the hearts of the two parties. As for this kind of superficially peaceful appearance, it is just a kind of vain and frustration!

After the people in the Northern Alliance left, Gong Changkong said to Gong Hui unwillingly: "Father, their people in the Northern Alliance are simply deceiving people too much. These vital powers are clearly obtained by us. Give it to them!"

Gong Hui narrowed his eyes slightly.

"In the sky, people have to bow their heads under the eaves. This time the Northern Alliance Covenant is coming violently. Even if it is really torn apart, our father and son are not the opponents of the Northern Alliance Covenant! This Northern Alliance covenant is a wolf-born ambition. The decline of the Galaxy Covenant makes us no longer look at us! If this is allowed to continue, the majesty of our Galaxy Covenant will gradually increase, and our identity and interests may also be affected!"

Gong Hui's complexion was solemn, and he thought deeply.

If the Galaxy Alliance is still the former Galaxy Alliance, the North Alliance's covenant is nothing more than a beaming clown in their eyes. They must not dare to be so presumptuous, but today's Galaxy Alliance is no longer the former Galaxy Alliance. There is the Vulcan Alliance. The threat is on the side, and even the beaming clowns of the Northern Alliance can bully them.

"This plan must be successful. Use the earth as a bait to attract the people who destroy the demons to the earth, and then find a way to let the people of the Vulcan Alliance and the people who destroy the demons come to a snipe! Wait until they When both lose and lose, detonate the planet's star core! Only in this way can we temporarily resolve the crisis of our Galaxy Star Alliance! Whether it is destroying the demons or the Vulcan Alliance, it is like a wolf and tiger to our Galaxy Star Alliance. what!"

A dignified light flashed in Gong Hui's eyes.

But his words were heard clearly by Sima Shangwu and others.

If Fang Yue had reported these news to them before, they still had a trace of disbelief, but from Gong Hui's mouth, they had to believe it!

"This Galaxy Star Alliance, they are really tired and crooked, and they have even calculated that I will destroy the demons!"

Sima Shangwu let out a low roar, the Galaxy Star Alliance actually regarded them as consumables to deal with the Mars Alliance!

This is simply tolerable or unbearable!

"Fang Yue, have your plans been arranged next? If there is anything else we need to help, we will definitely go all out! The people of the Galaxy Covenant are too much! If you don't give them some color, it's simply I'm sorry to destroy the reputation of the demons!"

"The subordinates are naturally prepared, Lord Sima, look okay!"

Fang Yue bowed slightly and sang a fat voice to Sima Shangwu.

Soon, Gong Hui returned to his mansion.

He began to prepare for Gong Changkong the various pill magic tools needed to survive the saint's calamity.

Although it is impossible for others to participate in Gong Changkong's tribulation and help him survive the tribulation, prepare more medicines and magical tools during the tribulation process, which can be greatly improved when used during the tribulation. The chance of crossing the robbery!

Gong Changkong also left with his own troops.

This time Gong Changkong was in a very bad mood. He didn't go wherever he went under the name of the Galaxy Star Alliance, and others treated him respectfully.

But this time a small North League agreement that he didn't put in his eyes unexpectedly dared to steal their palace's treasure. This North League agreement had already drawn a big red cross in his palace Changkong's heart.

On the way back, Gong Changkong suddenly felt a surge of murderous aura.

Gong Changkong's hair burst, and he immediately turned his head.

I saw a black figure rushing past his back, and then disappeared into the vast night.

"Chasing, chasing me! There are assassins in this planet Vegeta who want to attack me! The messenger behind him must be interrogated!"

Originally, Gong Changkong was aggrieved by the Beimeng Covenant. At this moment, when someone dared to follow him, Gong Changkong's heart was even more angry!

Gong Changkong had lost his sanity at this moment, and chased his men in the direction where the man in black had fled.

About a hundred kilometers away, Gong Changkong did not chase the man in black, but instead saw a group of people from the Northern Alliance being chased by the Destroyed Demons.

There are nearly a hundred people in this group of Northern Alliance Covenant Mayor. Two of them turned out to be powerhouses in the Saint Realm. The rest are also elites in the Northern Alliance Covenant in the Leader Realm and Yin-Yang Realm.

The number of people on the side that destroys the demons is slightly more than that of the Northern Alliance.

The saints of the Northern Alliance Covenant were entangled by the saints of the Destroyed Demon Race, retreating steadily, and felt powerless.

When they saw Gong Changkong rushing with people and horses, they couldn't help being surprised.

"Brothers of the Galaxy Star Alliance, hurry up and help us repel these Destroyed Demon Races. As long as these Destroyed Demon Races are repelled, I will certainly thank you!"

When Gong Changkong saw this, he couldn't help but froze.

Afterwards, he gritted his teeth and said viciously: "You deserve it, and you want me to save you. There is no door!"

The words of Gong Changkong stunned the people of the Northern Alliance.

They didn't experience everything just now, and they didn't know that Liangzi had been connected between the Northern Alliance Covenant and the Galaxy Star Alliance.

In their impression, the North Covenant and the Galaxy Star Alliance have already formed an alliance, and now it is during the honeymoon period, how can this Gong Changkong as the representative of the Galaxy Star Alliance die?

"Do it!"

Fang Yue commanded the remote control again, and this time he brought Gong Changkong to all the rounds he deliberately set.

He wanted to make Gong Changkong lose his mind, and watched these strong men of the Northern Covenant being robbed and killed by the Destroyed Demons. Only in this way, the gap between the Northern Covenant and the Galaxy Star Covenant would grow wider!

This enmity is like a seed. After continuous watering and growth, the alliance between the Galaxy Star Covenant and the Northern Covenant can be completely broken and disintegrated!

Those masters of the Northern Alliance that could have resisted a little, suddenly became fragile like paper men.

It is not that they have become weaker, but that the Destroyed Demons have become stronger!

Both sides fight and fight each other.

The powerhouses who destroyed the demons all shot, and each displayed supreme killer moves.

Sword Qi is like a forest, one after another.

Every sword qi can split the world.

"This sword spirit is definitely not something they can do!"

When Sima Shangwu saw this scene, he couldn't help exclaiming.

These Destroyed Demon Races are all his subordinates, and the saints sent out have also been personally agreed and nodded by him.

Powers above the saint realm are extremely precious strategic resources no matter which power they are!

Without Sima Shangwu's review and nodding, how could Fang Yue easily send these saints out!

"These sword auras were naturally not displayed by them. This is a piece of paper charm I asked for from Master Nujiang Hou. The paper charms store the sword auras of these 18 saints, as long as this paper charm is displayed. , Which means that this battle is coming to an end!"

Fang Yue's voice was a little soft.

It seemed to be babbling.

"After all, this is on the planet Vegeta, and it is the land card of the Northern Alliance. I am afraid they will soon be able to understand the fall of their troops. If these Northern Alliance covenants do not die, they will not give birth to the Northern Alliance. There are so many resentments in the heart of the Covenant, but if these two saint-level powerhouses die, from then on, the Covenant of the Northern Covenant and the Galaxy Star Covenant will probably be incompatible immediately!"

Fang Yue opened his mouth, telling his plan and details.

Sure enough, the eighteen sword auras fell, and the bodies of those destroying demons were all smashed to pieces.

Before, they barely resisted, and now there are 18 saint-level sword auras joining the battlefield, and they are immediately lost!

The saints of the Northern Alliance have fallen.

Their soul cards are broken!

At this moment, even Liu Xu was alarmed, and he suddenly let out a terrifying roar.

"retreat!"

Fang Yue issued instructions again.

Those Destroyed Demon Races didn't care about Gong Changkong and others who were in a daze next to them, and left and retreated in an orderly manner.

If they stay, the large forces of the Northern Alliance may be coming soon. Even if they can escape by then, I am afraid they will have to retreat.

"They are all dead! Hahaha, the two saints of the 33rd Army of the Northern Alliance are dead!"

Along with crazy laughter, Liu Xu came in person.

His eyes were red and bloodshot, as if bloodied!

This planet of Vegeta is his trump card, and each of the saints of the Northern Alliance is cultivated by him using countless resources and hard work!

The death of Xin Anzhen had already caused great anger in his heart!

Just because of the overall situation, he couldn't turn his face on Gong Hui.

However, this time, in their Northern Alliance Covenant, there were two powerful saints who died, and there were still people from the Galaxy Star Alliance standing by and watching!

Liu Xu could no longer suppress his anger.

To Gong Changkong, he shouted word by word, "Why didn't you save them while you were watching!"

Chapter 1707: The alliance is broken!

Liu Xu's voice was full of murderousness.

What if it is the messenger of the Galactic Alliance?

Since their Galaxy Star Alliance did not have any sincerity in cooperation, it would be no reason to blame him Liu Xu for his ruthlessness!

At this moment, Gong Changkong was completely stunned!

He had no idea that this matter would come to this point. Obviously, just now, he also saw that the people of the Northern Alliance could contend with the Destroyer Demons, otherwise, he would definitely not be able to stand by.

This Destroyed Demon Race is the great enemy of the entire Ten Thousand Worlds Universe. When fighting against Destroyed Demon Race, any force must put aside the prejudices in the heart and then make an all-out effort. This is the rule of the entire Ten Thousand Worlds Universe that no one can violate.

However, it became clear that this was not the case.

This destruction demons shouldn't be so powerful that they can quickly kill all these powerful men of the Northern Alliance!

At least they will be able to resist for a while, delaying the arrival of the large troops of the Northern Alliance.

At the moment, the palace chief Kong was flustered.

Especially when facing Liu Xu's questioning, he panicked even more!

"Liu Xu, what do you mean? Your men and horses died in the hands of Destroyer Demon Race, so you want to use a child to take responsibility for you?"

Gong Hui flew, he hadn't gone far yet, and he had given Gong Changkong a jade pendant. Once he was in danger, this jade card would alert Gong Hui.

Therefore, Gong Changkong had already notified Gong Hui with his jade pendant when he encountered Destruction Demon Race, but Gong Hui did not arrive for a while. When Destruction Demon Race retreated, he saw Liu Xu attacking Gong Changkong instead. An aggressive scene!

Gong Hui had always felt sorry for this young son.

Before, he chose to retreat in the dispute with the Northern Alliance, thinking that he had given enough face to the Northern Alliance.

However, this time the North League agreement turned out to be shameless. The supreme officer of Vegeta planet, who is comparable to the Great Sacred Realm powerhouse, turned out to attack his young son. This finally touched Gong Hui's heart. The last bottom line.

Liu Xu was also angry at the moment.

Three saints died in one day!

This is a strong man in the Saint Realm!

Perhaps this galaxy star alliance family has a great cause, and the dead saints can't take it seriously.

However, in their Northern Alliance Covenant, several of the strong men in the Saint Realm have died and one less. This is already a serious matter!

"Gong Hui, you are so embarrassed to say! Your son saw that the saints of my Northern Alliance were in trouble, not only did he not know to lend a hand, but he also stood by and stood by! I know that I took away the life force in your heart. Unwilling, but after all, the Northern Alliance and the Galaxy Star Alliance are still in a state of alliance. You should also help a little bit because of your feelings! As long as

you help a little bit, my sage in the Northern Alliance will not Fall, once it is delayed until I arrive, those ruined demons are not the turtles in the urn!"

The tone of the catkins was rather bad.

He felt that things had reached this point, and there was no need to be polite with the people of the Galaxy Alliance.

Gong Hui's heart was also extremely upset.

"Then what do you want? Is it to send my son to the Galactic Court?"

"Yes, just send him to the Galactic Court! This kid actually condoned the Destruction Demon Race's murder, and more than once, I suspect that he was struggling with Destruction Demon Race, secretly communicating!"

A saint of the Northern Alliance screamed loudly.

Because one of the fallen saints this time is his brother!

He and his senior brother have a deep relationship, and there was a good story about double saints in this Northern Alliance.

But now, his senior brother unexpectedly died on the planet Vegeta, and the palace magistrate next to him was clearly capable of giving a helping hand.

"pardon!"

Gong Hui's murderous aura overflowed, and he was severely oppressed on the heads of the many saints in the Northern Alliance.

As a strong man at the Great Sacred Realm level, his life level is more than one grade higher than that of a saint.

Even if Liu Xu bowed his head in front of him, let alone other saints in the Northern Alliance.

The saint of the Northern Alliance yelled loudly: "What? Lord Gong Hui, do you really want to suppress others with power?"

"Gong Hui, what do you mean? Don't you think that only your Galaxy Star Alliance has a strong man in the Great Holy Realm, and there is no strong man in the Great Holy Realm in my Northern Covenant? Could it be that you didn't put me in your eyes? "

At this time, Chen Lu had also arrived.

The Great Sage contended for the front, and the auras opposed, so that the heavenly will of the entire planet Vegeta was slightly shaken.

Gong Hui's face was gloomy: "Great Sage Chen Lu, is this the will and attitude of your Northern Alliance?"

Chen Lu sneered and said, "Gong Hui, are you threatening me? Don't forget, the current Galaxy Star Alliance is no longer the previous Galaxy Star Alliance! If you continue to be so domineering and

aggressive, no wonder we The Northern Alliance Agreement has been thrown into the embrace of the Vulcan Alliance!"

Chen Lu completely tore her face this time.

He was already dissatisfied with this Gong Hui.

Planting an eyeliner in the planet Vegeta, wanting to seize their treasure, now, his son Gong Changkong has indirectly led to the fall of the two saint-level powerhouses of their Northern Alliance!

Don't forget about such cooperation!

When Chen Lu's words were spoken, Gong Hui's sore spot was stabbed.

Gong Hui looked at Chen Lu with a fierce glow in his eyes.

"Chen Lu, you said this, don't blame me for being ruthless in the Galaxy Star League!"

On Gong Hui's body, there seemed to be a horrible demon spirit resurgence.

Chen Lu was suddenly furious, and he suddenly realized that Gong Hui was definitely not as simple as he thought.

"This is, the blood of the ancient gods and demons! This Gong Hui has the blood of the ancient gods and demons!"

Sima Shangwu's face also showed horror.

This ancient bloodline of gods and demons is one of the oldest bloodlines, and ancient means strong.

This Gong Hui was originally a senior saint, who belonged to the middle and upper reaches of the saints, but his bloodline recovery immediately raised his position to the middle and upper reaches of the saint realm and even the top-level existence.

"If it hadn't been for this time that the agreement between the Galaxy Star Alliance and the Northern Alliance had been torn apart, I am afraid we would not have known that such a hole card was hidden in Chen Lu's hand!"

Sima Shangwu's heart was also afraid for a while. If Sima Shangwu suddenly displayed such a hole card when the war started, it would probably cause great harm to them in an instant to destroy the demons.

Fang Yue was also slightly surprised.

This Gong Hui's position in the Galaxy Star Alliance does not seem to be very high, but he actually has such strength and trump cards, do the other elders in the Galaxy Star Alliance know?

If they knew that Gong Hui still had his current status, what kind of strength did the other elders in this Galaxy Star Alliance have?

The more Fang Yue thought about it, the more he was afraid.

The galaxy alliance is very deep, although some people say that they have fallen.

But this skinny camel is bigger than a horse, and the strength of this Galaxy Alliance is still unfathomable!

"Do it!"

Gong Hui gave a low voice.

Liu Xu's expression suddenly changed, because a saint who had been with him all the year round suddenly took out a dagger and stabbed him in his heart.

"Zhang Teng, dare you!"

The saint didn't say a word, the dagger in his hand was dull and unremarkable, but it easily broke the barrier of Liu Xu's technique!

Demon-breaking dagger.

With the effect of breaking the law!

No spell can stop the footsteps it stabbed.

Liu Xu roared, like the sound of a dragon and elephant.

The saint was roared to death by Liu Xusheng.

At the same time, the dagger that hadn't pierced him also instantly turned into fly ash.

The blood in Liu Xu burned, and the phantom of the ancient dragon elephant appeared behind him.

In an instant, Liu Xu broke the realm, and he actually stepped into the level of the Great Sage Realm, and he was not at the level of the Great Sage Realm for the first time, but the realm of the second level of the Great Sage.

This Liu Xu actually stepped into the level of the Great Sacred Realm early, but he concealed the news too solidly, and no one in the entire Galaxy Star Alliance knew!

Chen Lu laughed: "Gong Hui, do you think that only you have the trump cards? How can we guard against you! I was really surprised that you could plant a spy next to Liu Xu. But my Beimeng agreement is not It's as simple as you imagined! The heads of you and your son can just become our nomination for joining the Vulcan Alliance. The Galaxy Star Alliance has fallen and has become a thing of the past. Our Northern Alliance will naturally choose good birds to live in trees. "

"Really? Great Sage Chen Lu, do you really think you are taking me? Since I dare to stand here, it proves that I still have your hole cards! Your tricks are nothing but a game in my eyes. It's a child's play!"

One after another spacecraft broke through the space shield of Vegeta planet and directly entered the planet's airspace.

A total of nine spaceships turned out to be all war machines of the Great Sage level!

"Do you guys know, why does my palace have a foothold in the Galaxy Star Alliance? My palace does not have a strong man in the virtual fairyland, but it still ranks in the top five in the Galaxy Alliance! Because of my palace There are spaceships of the Great Sage level! One spaceship is equal to half of the Great

Sage, and there are 18 Great Sage-level spaceships in my palace, which is equal to nine Great Sages, plus Bucai Gong, if it is combined It is possible to turn this planet Vegeta into fly ash!"

A confident smile appeared on Gong Hui's face.

Fang Yue's eyes were almost straight.

Unexpectedly, this Gong Hui was hidden to such an extent!

The nine spaceship ghosts of the Great Sacred Realm level know how long they have been wandering on the planet Vegeta.

These spaceships may be exaggerated to say that they can fight the saints, but their combat power level can reach the level of the saint level, but it should not be vain.

"Gong Hui, you **** it!"

Chen Lu's curses at the moment have become a little weak.

Who would have thought that this time they had all their cards out or lost in Gong Hui's hands.

Chen Lu's face already had an iron color.

"This time the North League agreement was lost!"

Sima Shangwu said disappointedly in the mirror.

The Northern Covenant and the Galaxy Star Alliance did not do anything directly. The dog biting the dog he most wanted to see did not happen!

"It's not over yet, Vulcan Alliance should take a shot at this time!"

Fang Yue chuckled and said.

Chapter 1708 I'm the Master of Ten Thousand

Everything seemed like a dream.

The alliance between the Milky Way Star Alliance and the Northern Alliance, which had been eyeing the eye, collapsed under Fang Yue's calculations.

The entire planet Vegeta was caught in a three-way melee of the Northern Alliance, the Galactic Alliance and the Vulcanism.

Sima Shangwu suddenly felt a bit of pain.

He was supposed to be the main member of the melee, but now he sits on the sidelines and stays out of the matter. He can only take his Destroy Demons and sit on a small bench and eat melon seeds and watch the dog bite the dog.

The three parties have gone through a full three days and three nights of melee, and their respective injuries have been quite serious.

Among other things, a total of five strong men from the Great Holy Realm participated in the battle, and they were all seriously injured.

For example, Gong Hui was nearly maimed by Liu Xu and Chen Lu.

However, Liu Xu and Chen Lu were also uncomfortable. There are other great saint realm experts in the Galaxy Star Alliance who secretly intervened. Although they did not directly attack them, they did a little bit of tricks to make their cultivation level perfect. After some influence, it is estimated that within a hundred years, it will not be able to recover to the strongest combat power.

As for the fall of the saint, it is naturally inevitable.

According to incomplete statistics, in the course of the war, at least twenty people from the saint realm of the three parties fell.

As far as the Vulcan Alliance and the Northern Alliance are concerned, this loss is nothing. They were originally a big family. Although the saint lost a bit of pain, it was a wave of training afterwards.

But the problem is that the Northern Alliance Covenant doesn't have such a strong family background. The successive falls of these saint-level powerhouses have already seriously hurt their vitality.

The confidence of the Northern Alliance to suppress those member states is no longer so sufficient!

As for the plan to attack the earth, it was forced to postpone and postpone it. This plan was originally proposed by the Galactic Alliance and the Northern Alliance. Now the two sides are fighting, and they are still fighting!

On the side of Destroying the Demon Race, Sima Shangwu negotiated with the other three great saints, and finally gave Fang Yue the status of a third-class baron, pardoned as a ten thousand boss, and commanded ten thousand Destruction Demon Races. His cultivation base used the means of Taigu initiation to directly elevate to the level of the master realm!

Destroying demons have always respected the strong. According to normal rules, the Viscount and Tenant are both at the level of the leader realm. In fact, the Destroying demons in these two positions are basically strong in the saint realm. .

Originally, Fang Yue's Yin-Yang realm's cultivation base could not be promoted to either position of Viscount or Tenant.

But his credit this time is too great, he can only make an extraordinary promotion.

In order to comply with the rules, the Destruction Mozu used the method of Daigo empowerment to forcibly enhance Fang Yue's cultivation level. This method of improvement is definitely beneficial to Fang Yue in the short term, but he did not practice step by step by himself. It has consolidated the foundation, and is much weaker than the Destroyed Demon Race who has normally cultivated to the level of the leader.

"This is tantamount to abolishing Fang Yue's cultivation path!"

Nu Jianghou returned to Su's house and said angrily to his patriarch father.

This time, Fang Yue's contribution was taken away by the Su family where the Nujiang Hou belonged. After all, this Fang Yue was also a member of the Su family in name.

Su Rui handed a cup of hot tea to Nujiang Hou.

He smiled cunningly: "My child, you are still too young, and some things are not clear. This Fang Yue's details are unclear, and he has made great contributions in this destruction of the demons. Many people are jealous of him. Fearing that he would threaten his position in the future, I made some stumbling blocks for him. Destroying the demons is respected by force. No matter how great the credit is, no matter how high the title is, they are all paper tigers. Since Fang Yue is good at resourcefulness, Then the destruction of the demons only requires his wisdom, and restricting Fang Yue's military development in this way is also a constraint on him!"

"But, this Fang Yue belongs to our Su family! The higher he stands, isn't it the Su family that is more advantageous?"

Regarding Su Rui's explanation, the Nujiang Hou was not reconciled. He finally recruited a capable minister and his future was abolished. How could he have his wish?

"Child, let me ask you, how long does it take for Fang Yueruo to cultivate from the Yin-Yang realm to the leader realm at a normal speed?"

Su Rui smiled, not the slightest displeasure because of Nu Jianghou's rebuttal.

The child has his own ideas, which proves that the child has grown up!

"As little as five hundred years, as many as thousands of years!"

Nujiang Hou made a slight estimate. Although Fang Yue's talent is not weak, every step from the Yin Yang realm to the leader realm is a hurdle.

"But this time, it took Fang Yue less than a day from the Yin-Yang realm to the leader realm. The weakest leader is also the leader realm! And I have heard that Fang Yue used the resources when he was empowered by Daigo. Thirty times more than the normal number! This Fang Yue's growth in Daigo's empowerment is not small!"

Su Rui's words made the Nujiang Hou a little startled.

From this perspective, Fang Yue is indeed stronger!

"A few centuries of struggle have stepped into the level of the leader realm. This Fang Yue should be grateful to me! What's more, this enlightenment is not impossible to continue. If he continues to make great contributions, the entire leader realm will be nine Even if he is really good enough, use the resources of my Su family to mobilize the powerhouse of the Great Sacred Realm to help him complete the initiation of Daigiao to reach the level of the Saint Realm. No, it's not impossible! Although Fang Yue's cultivation talent and potential seem to be ruined, in fact his future is very long and long! Destroyed countless demon races since ancient times, but can truly reach the level of saints. How many people are there?"

Su Rui's eyes became deeper and deeper.

Nujiang Hou Mingming felt that something was wrong, but he couldn't find any reason to refute it.

Because every word of Su Rui is perfect.

"But what should we do if Fang Yue had a grudge with my Su family because of this incident?"

Nu Jianghou expressed his worry.

Fang Yue has great potential, even if it is difficult to make progress in martial arts, but in terms of resourcefulness, he is still his best minister.

There are many disciples of the Su family, and if you want to stand out from them, it is far from enough to rely on the strength of Nujianghou alone!

"I will deploy five thousand personal guards to him again, and the expenses will be borne by my Su family. Since he doesn't need to consume any more energy in martial arts, let him strengthen himself in the command of troops!"

Su Rui's words convinced Nu Jianghou.

This gave Fang Yue military power, and was the best way to subdue Fang Yue.

As soon as there were more troops, Fang Yue was able to fight for the Su family from the south to the north and make great achievements. Secondly, this soldier was given to him by the Su family, and the Su family would naturally be able to take it back.

If Fang Yue really dared to be unfaithful, the Su family could easily deal with him.

When Su Rui and Nujiang Hou were discussing how to subdue Fang Yue.

Fang Yue was holding his chin and looking out the window.

"It's so blue! Who would have thought that Fang Yue, in the Destruction Demon Race, would have become a Viscount and a Master of Ten Thousand!"

Fang Yue didn't care about Daigo's initiation. He knew the idea of destroying the demons, but it was a pity that he used the wrong person and place.

He is just a ray of spiritual energy. He has the potential of a fart. With resources, he can continue to become stronger. Anyway, this understanding and understanding of the law are enough for him to cultivate to the realm of saints! Daigo empowerment can only be a kind of welfare for him, and thirty times the resources are not just fun!

Fang Yue feels that if he is an undercover agent, if he is going to go around again, these destroying demons will listen to him!

Fang Yue didn't feel so cool that he had 10,000 elite soldiers who destroyed the demons.

Each of these Destroyed Demon Races is not afraid of death, and the soldiers at the bottom are all at the Yin-Yang level, and the centurion's position is seated with powerful masters in the leader level.

What surprised Fang Yue even more was that his lieutenant turned out to be a Destroyed Demons of the third level of Saint Realm.

Although the guy looked upset at Fang Yue, he still had to obey Fang Yue's command because of military orders.

Such elites are not common even in the military of the Galaxy Star Alliance.

Although the army of the Galaxy Star Alliance is elite, it does not have the luxury of letting the strong from the Yin and Yang realm be ordinary soldiers!

Fang Yue has targeted a resource planet in the Northern Alliance, ready to occupy and plunder at any time.

This incentive strategy for destroying the Demon Race is quite excellent. Basically, whoever grabs it is the one who grabs it. Only 20% of the income needs to be paid in the middle, as the price for the destruction of the Demon Race high-level approval!

"Although the guard of this resource planet can be considered rigorous, but plan carefully, with the help of the troops of the Nujiang Hou, the chance of success in assaulting the planet down is still very high! There is an amethyst mine on that planet, this amethyst is One of the important resources for forging saint realm magical tools! There are not many people who are good at forging in the Destruction Demon Race. As long as you use a little bit of strategy, you can bring this amethyst mine into my hands, and then resell these amethyst mines. Galaxy Bank can definitely exchange for a good harvest, and even my VIP level in Galaxy Bank can be raised to a level!"

Fang Yue spread a map of Galaxy on the table in front of him.

He sketched on the map with a pencil and has already begun to plan his own strategy!

Nowadays, the Galaxy Star Alliance is an eventful season. The price of this saint realm artifact has skyrocketed. Following this, the price of amethyst mine, a common resource for forging saint realm artifacts, is also rising. Just send this amethyst mine to the Galaxy Star Alliance In front of his eyes, they must have taken the amethyst mine at any cost.

In their eyes, ordinary resources are just a number. The real value is this strategic resource!

Fang Yue's convergence of resources is no longer purely for himself!

More importantly, there is an earth behind him, and countless practitioners are waiting for resources and seeking breakthroughs!

As time goes by, the former nail households are more and more able to feel that there is something called responsibility on their shoulders!

Guarding the earth and guarding his homeland is Fang Yue's responsibility at all costs!

At this time, Nujiang Hou opened Fang Yue's door apologetically.

"Sorry, our Su family has worked hard, but in the end we still didn't keep your martial arts future!"

Chapter 1709: Europa

"It doesn't matter, I think it's not bad now, although because of Daigo's enlightenment, I have lost an experience of practicing step by step from the Yin and Yang realm to the leader realm, but my strength has not only increased tenfold!"

Fang Yue wanted to open, he was content with the current situation.

Nujiang Hou still said apologetically: "Fang Yue, don't comfort me. I know how much this divine initiation has had on a warrior. In the future, you may rely on your own hard work and practice. Progress, unless you can continue to initiate, otherwise, your future cultivation realm will probably stop at the initial stage of the leader realm, and you can no longer have a half-step improvement! As compensation, on behalf of the Su family, I am willing to provide you with five thousand relatives. Wei, these guards are all disciples carefully selected by the Su family, and all of their resources are borne by the Su family."

Fang Yue showed a surprised expression: "Thank you Nujiang Hou Grace, we are willing to go through fire and water for Nujiang Hou in the future."

When Nujiang Hou saw this, it was the same scene as his father had expected.

This Fang Yue is a smart person, he should have understood that his future can only be pinned on the Su family.

Nujiang Hou Fangyue said: "No gift, no gift, Fang Yue, why are you and I polite!"

"By the way, after a while, if you have time, you can accompany me to the solar system for a while! Yesterday, a saint who destroyed the demons captured a leader of the top level of the leader of the Galaxy Star League. After searching for souls, I got an amazing news-perhaps there is a legendary fairy tool buried in the solar system. Although 90% of this news is false, we can't miss it! This fairy tool is the highest level in the universe. Weapon, unless it is broken into the void, reaching the highest level, otherwise, this fairy weapon is the emperor among weapons, no one can break it, no one can surpass it! If my Su family gets a fairy weapon, Then in the future, it may reach the pinnacle of power among the Destroyed Demons in the Ten Thousand Realms Universe!"

Nu Jianghou's eyes were burning.

He showed an undisguised longing for the fairy.

"Fairy tool?!"

Fang Yue didn't expect this kind of legend in the solar system.

However, Fang Yue has estimated that these eight achievements are smoke bombs released in the Galaxy Star Alliance.

But this smoke bomb is actually a kind of conspiracy.

Destroying the demons would not guess that this is the news deliberately released by the Galaxy Star Alliance.

But what if this news is true?

Passing by a fairy artifact, no one can afford it!

The value of the fairy weapon is enough to magnify the chance of less than one in ten thousand by countless times.

And this amplifier is the greed in people's hearts.

"But, can't this be the conspiracy of the Galaxy Alliance? After all, the earth is in the solar system!",

Fang Yue persuaded the Nujiang Hou to think carefully. Fang Yue was really unwilling to let the flames of war that would destroy the demons burn on the earth.

"Don't worry! Since we already know the traps that may be set by the human race on this earth, we must be careful. It is not that simple to calculate our destruction of the demons!"

Nu Jianghou patted Fang Yue on the shoulder.

Fang Yue understood that this meant that the overall situation had been determined and was irreversible.

"Then hope that Nujiang Houqi will win the victory and obtain the legendary fairy artifact!"

Fang Yue showed a reluctant smile, with endless bitterness in his heart.

Unexpectedly, he calculated for a long time, but in the end he did not stop the conspiracy of the Galaxy Star Alliance.

Fang Yue was silent, already calculating the next step in his heart.

Knowing that the situation cannot be done, he simply pushed the boat along. This Milky Way galaxy is huge, but it's not just a planet on Earth. Mars is the chassis of the Vulcan Alliance. How can you be worthy of them if you don't mix them in!

Plans are already taking shape soon.

Fang Yue had his own plan vaguely in his heart.

Three days later, Fang Yue followed the army of destroying demons and descended on a meteorite in the solar system.

There is no air on the meteorite, and there are broken stones everywhere.

Some hematite, exposed on the ground, has a bright red color like blood.

The surface of this meteorite is only a few hundred square kilometers, among which are densely packed figures, all soldiers and generals who destroy the demons.

The dark areas all around were empty and dark.

"This place, it should be that the periphery of the solar system has not really entered the range of the solar system!"

There is an inexplicable sense between Fang Yue and the earth, and he can sense the distance between himself and the earth!

"You are all under my Su family. I believe you all have heard of this mission. Not much nonsense. This mission is glorious and arduous! The Vulcan Alliance, the Galaxy Star Alliance, and the Northern Alliance have covenants. The powerhouses from other factions of the Demon Race have already entered the solar system first. Not only do you have to fight against the natives in this solar system, but the real enemy is the powerhouse from outside the solar system! Who can find the fairy tools accurately? Clues, I will have a great reward!"

An unfamiliar voice resounded through the meteorite.

Although Fang Yue didn't see the other party's face, he knew that this person should be a disciple from another line of the Su family-Su Tuo.

This Su Tuo and Nujiang Hou belonged to the two camps of the Su family that did not commit each other.

At this moment, the Nujiang Hou led another group of Su clan men and horses that had sneaked into the solar system quietly.

Mingxiu plank road secretly crosses Chencang, this is the real plan of the Su family this time!

Su Tuo's team is in the Ming and attracts the main firepower, while the Nujiang Hou's team is collecting intelligence and secretly assisting.

Su Tuo began to assign tasks to his staff. His character was loyal and straightforward, and he didn't make any tricks for Fang Yue. Although Su Tuo knew that Fang Yue was from the Nujiang Hou, he did not make things difficult for Fang Yue.

Fang Yue's mission is to be responsible for the exploration of Europa in the Milky Way galaxy, which is Jupiter's sixth moon.

According to the investigation of the Su family, there were traces of ancient civilizations on this Europa, and clues related to fairy artifacts may appear in some ancient ruins.

At the same time, Su Tiao also gave Fang Yue a thick pile of materials on which detailed information about Europa was written.

After Fang Yue saw it, he had the illusion that this Su Tuo was the real native of the solar system, and he was just an outsider.

This task was not carried out by Fang Yue alone, and Su Wannian, the head of the Su family, and Fang Yue conducted the search together.

Su Wannian is a strong man in the third level of the Saint Realm. He has practiced for 1,200 years. He has grown old and respectful. Su Tuo asked Fang Yue to follow Su Wannian's suggestions before acting.

Fang Yue was very respectful to Su Wannian, but Su Wannian was ignored by Yue Ai.

Su Wannian is a strong man in the older generation of the Su family, and his status and status are all quite high, far from Fang Yue can match.

Moreover, the Destruction Demon Race has always respected strength, and this Fang Yue is just a person who relies on Daigo's empowerment. What qualifications does a guy who has entered the master realm level have to stand with him and talk about high and low.

Fang Yue's attitude towards Su Wannian was not surprising. Although he had made great contributions, the criticisms against him within the Destruction Demon Clan never stopped.

Some people think that he is not worthy, but some small conspiracy, small calculations, and if you want to truly gain a foothold in the destruction of demons, you need strong force and wisdom.

Riding on a spaceship looted from the Destroyer Demon Clan, Fang Yue and Su Wannian brought their men and horses and quickly arrived at Europa.

This Europa is an irregular satellite with a surface area of about 90,000 square kilometers. The temperature of Europa is extremely low, about 178 degrees Celsius.

Although Fang Yue and Su Wannian's subordinates were at least strong at the Yin-Yang level, the extremely low temperature still caused them slight discomfort.

The ultra-low temperature affected the qi and blood in their bodies, and even the movement of their thinking became slightly slower.

To survive normally on Europa, they need to consume the true qi in their bodies all the time to maintain their body temperature, and the concentration of spiritual qi in this universe is extremely low, and it is difficult to recover after the zhenqi is consumed.

Fang Yue had just arrived on Europa and distributed a flint mine to each of his soldiers.

This flint mine is actually not gold and expensive, it belongs to a relatively land-grade mineral vein, and the flint mined can only be used to make artifacts at the innate level.

However, this flint mine has an effect that can generate heat from time to time, and the heat in it is absorbed by the Destroyer Mozu to better resist the pressure of the outside cold.

These flint mines were kept in storage bags by Fang Yuefan on weekdays, and he didn't know which hapless man looted these things from.

With the help of these fire ore, the life of Fang Yue's destroyers of the Demon Race has become a little better. Although they still need some qi to maintain their lives, the qi used for heating has been reduced by more than 30%.

"I think the main goal of this mission is to find the whereabouts and traces of the fairy weapons. This task is difficult to say, simple and simple. As long as the satellite is exploded, it is natural to see whether there are fairy weapons in it."

Su Wannian directly showed his point of view, his method is simple and rude.

"Blast this Europa? Su Wannian, don't you want to live anymore? It's okay if there are no ancient ruins in it but an ordinary planet, if there are some traces of ancient human existence in it, this Europa Once exploded, it is likely to cause some unexpected backlash!"

Fang Yue strongly opposed Su Wannian's ideas.

Fang Yue had heard of the name of Europa before he even set foot on the path of spiritual practice. This satellite contains a lot of organic matter, and it is very likely that there have been traces of biological activity.

At the moment when he set foot on Europa, Fang Yue had an instinctive instinct that there might be real creatures on Europa, and he hadn't even left yet.

This solar system is weird and inexplicable, not even weaker than some of the top ancient worlds, the earth, Mars, and even a small moon of Jupiter, which is full of unspeakable secrets!

Chapter 1710: high density! Martian!

"Huh, the timid, I really don't know why Lord Sima would let you be the chief of ten thousand! Fang Yue, the main force of this operation is me, you are just a helper, I just discussed with you, but it is You just called out from the ward, do you really think I am discussing with you?"

Su Wannian sneered in a low voice.

He looked down on Fang Yue from beginning to end.

Fang Yue was slightly stunned.

Scream from the ward?

That being the case, let him die! Just let me see what kind of secrets are hidden in this Europa!

Fang Yue spoke to dissuade Su Wannian just now. He was essentially kind, but he didn't expect that his kindness was regarded as a donkey liver and lungs.

Fang Yue no longer speaks, he is too lazy to argue with Su Wannian.

Fang Yue left with his hands behind his back. This decision made Su Wannian's eyes narrowed slightly, and Fang Yue was slightly optimistic.

Don't be surprised, this is the demeanor of a great person, but it is a pity that he is not a member of a big family. At the moment of the enlightenment, the future of the future has been locked to the limit!

"According to the order, act according to the plan, arrange the Sun Spirit Fire on this Europa, and use the Sun Spirit Fire to incinerate this Europa directly!"

Su Wannian said to his messenger in an orderly manner.

Although this Europa is just a satellite, it is also a big star after all. If you want to crush it, it would be difficult to achieve a cultivation base without a virtual fairyland.

However, Su Wannian knew the formation method, and could not directly crush it, then use the formation method to refine it!

Su Wannian's order was passed on, and a disciple of the Su family moved quickly.

"Sun Jinghuo? Su Wannian is really willing!"

Fang Yue watches the formation of Su Wannian on Europa.

Since this Su Wannian was able to achieve the position of the head of the Su family, and was entrusted with the important task of Su preparation, it was definitely not a rash fool.

Every move of his chess pieces should have its own profound meaning.

For example, the large solar array that Suwannian deployed this time is capable of arranging three hundred and sixty solar essence and fire large arrays as the base of the array to include the entire Europa, and then arouse the power of the sun, using the power of the sun to bring this Europa gives birth and refinement.

If there are no creatures in this Europa, this Su Wannian plan might really succeed!

However, Fang Yue is almost certain that there are creatures on this Europa, but these creatures should still be asleep or sealed.

Because the three celestial scriptures that Fang Yue cultivates are extremely closely related to living beings!

Each celestial scripture is extremely sensitive to the existence of various creatures, and now that Fang Yue's three celestial scriptures are all running together, he actually felt a hint of danger on this Gany Six!

The three hundred and sixty solar fires are arranged into a large array, which may really attract the power of the sun. However, the power of the sun is too turbulent, and it is very likely that the seal on the Europa will be burnt, and even this Some powerful existences in Europa that have fallen asleep for tens of thousands of years have completely awakened.

Fang Yue didn't want Su Wannian to suffer a loss on this Europa, because he was still on the side of the Su family in destroying the demons.

Fang Yue doesn't understand this Rong Jurong principle. If there is a big problem in this Su family, the master of it will fall, and the death of the elite soldiers will make the entire Su family decline. Then, if he finds another one on this big ship. The owner also needs to spend a lot of time and energy!

At this time, Su Wannian unexpectedly summoned Fang Yue again.

This made Fang Yue a little surprised.

This Su Wannian formation has been set up to almost complete. At this time, he let himself go to appreciate the scene of the destruction of Europa, while showing off his wit and strength?

Although Fang Yue's heart was a bit greasy, he still needed to go there for the sake of face.

At least in such details, don't be caught by the Su family. In the eyes of the Su family, no matter how much credit he has given to the Su family, he will always be an outsider. What went wrong, he would not care about Su Wannian by then.

Su Wannian is dead, and he is fine, and he will definitely be questioned and questioned by the Su family.

If he had conflicts with Su Wannian before, then the suspicion on him would be even greater!

Fang Yue didn't say a word, he came directly to Su Wannian's camp.

This Su Wannian looked solemn and didn't have the ostentation and show-off that Fang Yue had imagined.

In the camp, besides Que Fang Yue and Su Wannian, there was a strong man in the saint level kneeling on the ground.

This saint-level powerhouse is not destroying the demons, but on his body, Fang Yue actually felt a trace of Martian aura!

"The noble Master Su who destroys the demons, please believe my suggestion! This immortal tool really fell into the hands of the people on earth. In the past, this earth used to be an extremely powerful and prosperous civilization because of some unpredictable things. Things, this civilization finally fell asleep, but the earth is waking up gradually, and the glory of the past will be completely restored! Now that the earth has not recovered to its peak, take this opportunity to kill the earth in the bud, so as to put an end to it. Otherwise, when the earth is completely restored to its former glory, with all due respect, all the soldiers who destroy the Demon Race under the Lord will be slaughtered by the people on earth!"

The strong man in the sage state gave a generous statement.

Fang Yue couldn't help showing a cold smile.

This Martian actually knew the news of the destruction of the Demon Race, and also sent a strong man of such a saint to Gaomi, wanting to destroy the earth with the help of the Destruction Demon Race!

The minds of these Martians are vicious, they are really wicked!

"Fang Yue, what do you think about this matter? I called you this time to discuss this matter with you! Before, I heard that you helped to discover a big secret, that is, the Galaxy Star Alliance and the North Alliance. The people of the Covenant teamed up to introduce us into the earth, and then kill all my great warriors of the Demon Race! However, now this Martian also came to report the secret and said the same thing! Whether it is true or not, whether it is a human conspiracy, it is really difficult for me to judge for a while!"

Su Wannian surprisingly respected Fang Yue's opinions.

Fang Yue understood what Su Wannian meant, he was throwing the pot. Because he didn't quite believe what the Martian saint said, but no matter what decision he made was risky.

This risk requires two people to bear.

If he made the decision arbitrarily, it would be fine. Naturally, he was rewarded by the Su family's senior management. But in case of a wrong judgment this time, whether it is falling into a human trap or a missed opportunity, it is his responsibility. No serious sin.

"Old fritters!"

Fang Yue cursed secretly in his heart, this old thing would only think of him at this time.

But this time Fang Yue didn't have much hatred for Su Wannian. If he didn't come this time, he didn't know that the Martian had already carried out such a conspiracy against the earth!

"If Master Su doesn't dislike it, why don't you let me interrogate this Martian? I still have some understanding of Mars. They seem to have fallen into the arms of the Vulcan Alliance! This incident may be part of the Vulcan Alliance. Idea, now in this galaxy, the dragons and snakes are fighting for hegemony. The Vulcan Alliance and the Galaxy Star Alliance have equal strengths before. Which of them will be my enemy of destroying the demons! And the Vulcan Alliance seems to be quite hostile to the earth. , This time they want to use our hands to destroy the earth, and it is very possible to fight a lose-lose event!"

Fang Yue's few words made Su Wannian more convinced that this was a conspiracy!

And the Martian saint Chen Zeming who came to report the letter was dumbfounded.

This Destroyer Demon's general is not at a high level, and it seems to be at the level of the leader realm, but why is Su Wannian's attitude toward him so good?

And who he is, seems to have a good understanding of both Mars and Vulcanism.

Is it possible that in the Vulcan Alliance or Mars, there is still his undercover?

"Fang Yue, you can interrogate! This Martian betrays the human race with a bad temperament. If he dies, he will die!"

Su Wannian deliberately pushed this matter to Fang Yue thoroughly.

Fang Yue gave birth to a sense of relief.

Just leave it to him and it will be easy!

Isn't this Martian high-density?

Then let the Martians point their fingers, ruin, and even completely become the past in the galaxy!

There was a ruthlessness in Fang Yue's heart.

This Martian was so vicious that he wanted to use the hands of Destroyer Demon to subdue the earth people from their country and species. This time, it is not so easy to pass!

"Let's talk about it, what's the matter with your Martian pyramid? What kind of secrets are hidden in it? I have heard that there are sleepy existences in the Martian pyramid, and the lowest realm is the peak level. Experts in the Saint Realm, among them there are even a large number of experts in the Great Saint Realm! I always feel that the probability of this fairy weapon in Mars is not lower than that on Earth!"

Fang Yue's words made Chen Zeming, the Martian saint, almost lifted his throat.

How could the leader of this ruined demons know this kind of thing!

The existence of the pyramid is top secret in Mars!

Even some sages with aloof status may not know the details.

However, Chen Zeming was fortunate enough to have entered a pyramid a hundred years ago.

He has accepted the inheritance, so he knows a thing or two about the situation in that pyramid.

This pyramid is the birthplace of Martian civilization. In every pyramid, there are as few as several tens of sages or powerful people above the sage level!

Every once in a while, they will select some Martian elites from Mars for inheritance and cultivation.

Because Chen Zeming's talent is limited, the scene of staying in the pyramid for a full ten years has not entered the middle and inner layers of the pyramid. As for whether there will be fairy artifacts in the inner layer of the pyramid.

He Chen Zeming really doesn't know!

Seeing Chen Zeming's silence.

Su Wannian's eyes lit up, and it seemed that Fang Yue really had some abilities, and he got to the core of the problem!

"I don't know the situation of this pyramid either!"

Chen Zeming knew that, as a strong man in the Saint Realm, there is no point in lying about this kind of thing!

They can grab ten, and twenty are a hundred Martians for interrogation.

If they really insist on knowing the answer, sooner or later they will know!
