

God of Life 1711

Chapter 1711: Galaxy Team

"The matter of the Pyramids in Mars must be investigated carefully! This may become an extremely important clue for finding the fairy!"

Su Wannian said very decisively, this won the prize for the fairy, but providing effective clues can still receive extremely rich rewards!

Su Wannian has been trapped in his current state for hundreds of years! If his realm still stays at the current level and cannot break through in another three to five hundred years, his qi and blood will begin to decline and it will be difficult to break through again!

In this mission, even if he was able to get some effective clues, he could also get extremely rich rewards. This reward was enough to make him break through three or five small realms in a row!

At the level of the Saint Realm, even breaking through a small realm can slightly extend the lifespan.

The only thing that practitioners of any ethnic group do is to fight for their fate with the heavens! The longer the lifespan, the greater the hope for the future!

Su Wannian got a vague clue, and he immediately reported it to the Su family's senior management.

Although Fang Yue's interrogation came out of this news, according to the rules of the Su family, whoever reported it early would belong to whom.

Fang Yue saw through Su Wannian's careful thoughts at a glance, but he pretended not to know it and did not reveal it.

In this case, this matter can be set aside, and even if there is something wrong with Su Wannian, he will not be suspected by the Su family!

Su Wannian was satisfied.

Fang Yue took Chen Zeming away, and went straight to a secret place to search for Chen Zeming's soul!

Fang Yue never planned to let Chen Zeming go back alive from the beginning!

He searched for several extremely important news from Chen Zeming's soul.

One of them is that this Chen Zeming is not his own deity, but a clone that he refined with the help of the flesh and blood pool!

This refining a clone of Saint Realm, the real purpose is to sacrifice!

But if you don't search for the soul, it's hard to know that the person Chen Zeming came to Destroy Mozu to report this time was a clone and not the deity.

As for searching for souls for saints-it is difficult for ordinary practitioners to do it.

The powerhouse of the saint realm has initially begun to change the soul to the direction of the soul, if the soul is searched forcibly, it can completely explode the soul.

Of course, if a strong man in the virtual fairyland is proficient in this method, he can also search for the soul of the saint.

But Mars already knew that there was no strong person in the virtual fairyland among the people who came to destroy the demons this time.

Unfortunately, they missed Fang Yue.

I don't know that Fang Yue's "Soul Fairy Scripture" is a method specifically aimed at the soul!

Fang Yue's fairy Scriptures can make him no less than a powerful person in the virtual fairyland!

Therefore, Fang Yue could easily search for the soul of Chen Zeming.

"The mind of Mars is still really meticulous. There are as many as twelve ways of saint clones sent out this time. One person may not believe it, or two people do not believe it, but this time there are many people who destroy the demons. They Spread this news, I don't believe everyone else! As long as one person believes, others will worry about losing their chance and have to believe! This is not a conspiracy but a conspiracy, and the dispatch is twelve saint clones, such a handwriting , Behind Mars, I am afraid there is really an expert in the back!"

Fang Yue said to himself.

However, he wasn't surprised at this situation, if there was no expert guidance behind this spark, it would be an accident.

"It seems that the earth should have been prepared early! This time the destruction of the demons is fierce, but the earth is not weak anymore! Moreover, it is impossible for the Galaxy Alliance and the Vulcan Alliance to stand by and watch! The disaster they themselves caused , Do you still want to not go to the end?"

When Fang Yue was talking to himself, a fierce glow flashed in his eyes.

It is almost impossible for the Galaxy Star Alliance and the Vulcan Alliance to bring disasters here to take care of themselves!

However, this Pyramid on Mars is actually used for the inheritance of civilization, which is really surprising!

This point of Mars is also desirable. The prosperity of a civilization cannot rely solely on a certain strong person. Once this strong person falls or is trapped, it will represent the decline of the entire civilization!

Fang Yue said to himself. At the same time, there was a thought of learning in his heart.

This Martian civilization is actually more mature than the earth, after all, Mars started too early, and the earth has only been revived in the last few years, and a large number of practitioners have appeared!

The earth can develop to this point, in fact, it is already pretty good!

But the bigger reason is that there are some sleeping strong men on the earth recovering, propping up a peaceful sky for the people of the earth.

If it weren't for those strong men, I am afraid that the current earth would have already become a colony of other planets!

Fang Yue's thoughts drifted far, and only after a long time did he return to the real world!

Involuntarily, Fang Yue laughed at himself.

There are many people on this earth who are much stronger than him, there are great sages, virtual immortals and even existence above them!

He doesn't need to care about the life and death of the earth. What he can do is to eliminate more enemies for the earth and make the earth's peaceful development last longer!

Fang Yue sacrificed Chen Zeming's corpse. This clone is full of magical power. Although it is a complete body in the Saint Realm, it is not suitable for the souls of other creatures to enter the Lord!

At this moment, a team of only ten people sneaked into the solar system! This squad is composed of a powerful person in the rotation realm and nine practitioners in the world realm. They ride a small spacecraft and shuttle through space, leaving behind them endless stars.

There are also dozens of sophisticated test instruments on board the spacecraft, and three explosive bombs.

Their mission is to come to the solar system, install detection devices on different planets and meteorites in the solar system, and bring all the creatures in the entire solar system into the vision of the Galaxy Alliance!

If you have spare power, you can install these three powerful blasting devices on every inconspicuous corner of the earth!

These powerful blasting devices are only the size of a button, and unless they are detected by special equipment, it is extremely difficult to detect the difference with the naked eye!

Regardless of the small size of these blasting devices, once blasted, with a bang, a mushroom cloud is set off!

The energy contained in those mushroom clouds can easily razor to the ground hundreds of miles of surface structures, and its power is no less than the full blow of a powerful rotation realm!

One and two are fine.

If hundreds or even thousands of them explode at the same time, these powerful blasting devices will also form terrible energy resonance.

After the energy resonance is completed, a more terrifying energy tide will follow.

Waves of energy tides can turn the world upside down in an instant, with the effect that one plus one equals ten or even twenty. At that time, even if you are a strong person in the Saint Realm, if you are unprepared, you may be under the energy tide. Turn to ashes!

A team like them, this time the Galaxy Star Covenant sent thousands or even tens of thousands of them. Even if they were discovered occasionally and lost a little, there was no loss to the Galaxy Star Covenant!

Within the Galaxy Covenant, only the level of the rotation realm can be used as an official peripheral member. The Yin-Yang realm can enter the inner circle of the Galaxy Covenant, but its status will not be too high.

The leader realm is just the main force of the Galaxy Star Alliance, and the saint realm can have a say!

Like their team consisting of only rotation and heaven and earth, if the Galaxy Star Alliance is willing, they can gather countless moths to fight the fire at any time, and die!

"Master Phils, do you say that our plan will be successful this time? I heard that there are extremely terrifying creatures on this earth! Even some powerful saints in the Galaxy Star League go as if they are sinking into the sea, No more news!"

On the spaceship, a young man with a green dragon tattoo was not sure about the spaceship's commander, who was the only strongman in the rotation world, Belen.

Belen sneered: "There are two stages in this mission. The first stage is to install a detection device in the solar system. This mission is the simplest, and the reward will not be too high. As a team member, one person can get three thousand star crystals. , And as a team leader, I can get you three times the reward! Three thousand star crystals, with your cultivation base of the world, working on any planet, you can earn this salary in a week, even more. But if you can install these three powerful blasting devices on the earth to complete the second phase of the mission, each of you can be paid instantly, and you can get ten points of merit! This star coin is not precious, With our strength, as long as we are willing to work hard and work hard, it is not difficult to get! But the merits of this Galaxy Alliance are different. This merit is a voucher that can be exchanged for various treasures in the Galaxy Alliance's treasury. We can all buy things that we can't buy with Star Coins! We are so prosperous and prosperous. It's all about the merits of these Galaxy Star Alliance!"

Belen said, his eyes released a strong light.

In his heart, he has a strong desire for the treasures in the treasure house of the Galaxy Star Alliance!

Belem's voice fell.

There was a bang!

The body of the spacecraft swayed, as if it was a small boat encountering huge waves in the sea, becoming very unstable!

"Oops, a star beast was discovered in front of the enemy attack!"

Belém returned to the cockpit and cancelled the autopilot state.

He saw through the screen that a giant star beast with a length of hundreds of meters, the giant kun, appeared in front of the spacecraft.

The giant Kun's tail swayed slightly, causing the spacecraft to shake violently!

"Ruined!"

The young man with the green dragon tattoo was pale.

This is what I fear most when flying in the sky.

The starry sky behemoth can fly in the starry sky and is generally the weakest strength above the Yin Yang realm.

Their physique is huge and they are good at fighting in the starry sky. What's more important is that the star beasts are generally cruel. Their favorite thing is to swallow all the creatures flying in the starry sky!

At this moment, the giant Kun's tail suddenly shook.

A violent air current fell from the sky, smashing the spaceship to pieces.

"run!"

Belen roared. Now they have no shelter from the spacecraft. The biggest chance of surviving is to flee in all directions. I hope that their teammates can distract Ju Kun's attention and cover themselves to escape smoothly!

Chapter 1712: Fire at both ends

"Giant Kun, heaven will kill me!"

A bitter smile appeared at the corner of Belen's mouth, and he had closed his eyes.

Belen actually understood in his heart that this giant Kun had an extremely obvious reaction to the vitality of living beings. In this ten-person team, he was the only practitioner in the rotation realm. As long as the giant Kun's brain was not bubbling, if it wants to eat people, it will definitely be the first to attack him!

His previous decision to flee was only for the sake of his teammates to run first, leaving them with the last glimmer of life!

However, after waiting for a long time, the imaginary pain of death has not come!

Belen couldn't help but opened his eyes secretly.

He unexpectedly found a girl in a black dress standing on top of Ju Kun's head, her body exuding a seductive breath.

She stood quietly on the giant Kun, this giant Kun turned out to be like a docile little pet, with no resistance or struggle to the girl at all!

"This girl, the master realm?"

Belen instantly sensed that the girl's aura was above the top, more than a realm higher than him!

However, this giant Kun is also at the level of the leader realm and the bloodline of the star behemoth is originally extremely strong! The behemoths of the starry sky can fight by leapfrogging, and they are born to be inferior. How can this behemoth of the starry sky be willing to succumb to a girl in the same realm?

Endless doubts arose in Belen's heart, but in front of the girl, he did not dare to ask.

"I'm Fang Yunshan, this little Kun is my pet. I just disturbed you. I apologize very much!"

Fang Yunshan bowed slightly to Belem.

Belen's heart is set off a stormy sea.

"Pet... pet?"

It is difficult for Beilunte to connect this huge, cruel giant Kun with the so-called pet!

Could this world be so crazy already?

Even the star behemoth can be raised as a pet.

How wild are the creatures of this solar system?

Belen even suspected that their action this time was simply a man's arm as a car!

"I can arrange for you to return to Earth, stay here for a few days, and then I will notify the people of the Galaxy Alliance to pick you up and go home!"

Fang Yunshan was quite polite, but behind the politeness there was a somewhat strange sense of distance.

"Good, good, and my teammates..."

Belen will never forget his teammates, since he brought them out, he must take them back safely!

"I will also be responsible for their safety!"

Fang Yunshan smiled sweetly, and almost turned Belem's fascination over, forgetting the goal of their trip.

A spaceship appeared behind Fang Yunshan.

Belen and others boarded the spacecraft smoothly and flew towards the earth.

"By the way, didn't I come to Earth on a mission?"

After landing on the earth, Belem suddenly recovered.

He thought of this mission, and he couldn't help but feel fear in his heart.

Fortunately, he has not attacked the earth, otherwise, if he is caught, he will not even know how he died!

The scene just now really frightened him.

The text description on paper and what you saw with your own eyes are basically two concepts!

According to Fang Yunshan's words, Belem sent a signal for help to the Galactic Alliance, and he briefly described his experience to the Galactic Alliance!

The Galaxy Star Covenant immediately sent troops to rescue Belem and others back to the Galaxy Star Covenant.

This is not to say that the identities of Belen and others are so important that they need to be sent by the Galaxy Star Alliance to pick them up.

It's that they worry that if they refute Belen's request, it will cause resentment in Belen and others' hearts to reveal their plans and account.

In that case, the hard work together was wasted.

As for why Fang Yunshan would appear in the starry sky to smash the spacecraft with a giant kun, the people of the Galaxy Alliance were not too surprised.

Well master.

The idea in the mind is always different from the average person!

Especially Fang Yunshan, a young generation master who is impetuous and has some power to wander around. It is normal to show off!

The Galaxy Covenant soon dispatched a small army of fifty people, which set out from the Galactic Covenant in the solar system.

Stationed in the outer solar system all year round!

There is a mixture of fish and dragons in this solar system. Even if the Milky Way Star Alliance is unable to firmly establish a base in the solar system when they don't want to pay too much, they can only choose to establish a base outside the solar system. If this happens in the solar system What matter, they can arrive at the first time.

This army is small in number, but it is elite. It consists of forty-eight soldiers in the rotation realm and two leaders in the Yin and Yang realm.

The Galaxy Star Alliance is not destroying demons.

Such a configuration is already elite in the outer troops of the Galaxy Star Alliance!

"Has my plan started?"

Fang Yue opened his eyes slowly, and on the light brain screen of his wrist, there was a small red dot beating and jumping rapidly.

This spacecraft is where the rescue forces' spacecraft is located!

There was a bang!

A brilliant firework blooms in the starry sky!

A star cannon slowly concealed itself in Mars!

The spacecraft was hit by a beam of light when it passed through Mars, and the entire spacecraft turned into brilliant fireworks and an eternal past!

This is the method used by Fang Yue's spies planted on Mars.

At the same time, the Earth sent a message to the Galactic Alliance.

Unfortunately, the rescue spacecraft was ambushed near Mars, the spacecraft burst, and all the members were killed!

"Martian, is this crazy?"

Chen Qingliang slowly opened his eyes and woke up from the retreat. It was not that his practice had come to an end, but that the light brain on his wrist was shaking.

Chen Qingliang looked at the optical brain on his wrist, and a piece of information came out. The media in the galaxy of the Milky Way galaxy were rushing to report that the Galaxy Covenant rescue spacecraft was sunk while passing by Mars.

Some time ago, Mars has completely announced its departure from the rule of the Galaxy Star Alliance and obedience to the Vulcan Alliance!

This Vulcan Alliance suddenly emerged, and has vaguely become the number one power in the Milky Way galaxy, replacing the former status of the Milky Way Star Alliance.

But even so, there is no need for this Martian to submit a vote to the Vulcan Alliance in such extreme ways!

The sinking of this rescue ship represents the Martians' complete declaration of war on the Galaxy Alliance!

As the chief of the garrison of the Galaxy Star Alliance in the solar system, Chen Qingliang felt painful.

Speaking of which, his official position is not small, but he does not have much real power under his hand.

He himself is just a less favored saint in the Galaxy Star League! Otherwise, he would not be sent to a remote place like the solar system to assume the official position of a garrison chief.

Originally, Chen Qingliang did not have much opinion on this arrangement. Although the place in the solar system is remote, it is relatively quiet, as long as the merits allocated to him by the Galaxy Covenant each year remain unchanged.

Chen Qingliang's right to station around this solar system is a penance!

But now that the Martians are taking the initiative to fire on the rescue spacecraft of the Galaxy Alliance, his peaceful life will come to an end!

There is nothing wrong with damaging a spaceship and killing someone!

However, this overwhelming public opinion hyped up the news to a great extent.

This has risen to the issue of the dignity of the Galactic Alliance. If justice is not recovered from the Martians, where is the dignity of the Galactic Alliance?

But to ask for respect, first of all, you must have a hard fist!

Now his garrison seems to have a lot of people, but they are all typical shrimp soldiers and crabs!

Really go head-to-head with the Martians, their heads are not iron enough!

When Chen Qingliang was depressed, it was the Martian diplomat, Cassino, who was more depressed than him.

Cassino has served as a diplomat on Mars for a full ten years. During this ten years, his handling of Mars' foreign relations has been smooth and smooth, even if the Martians announced their withdrawal from the Galactic Alliance and officially joined Vulcan. The alliance also tried its best to maintain good diplomatic relations with the Galaxy Star Alliance!

Although you can't be a family, you won't turn your face into an enemy!

But now the development of this matter is gradually beyond the control of Cassino, and I don't know that it is the guy who is not pumping enough to give the rescue spacecraft of the Galaxy Alliance a shot.

It doesn't matter that this gun killed people.

What matters is that the diplomatic relationship between the Galactic Covenant and Mars has deteriorated rapidly.

This thing is that the yellow mud fell into the crotch and it was not clear.

The Martians must not be able to clarify that this artillery has nothing to do with them, they are still very friendly to the Galactic Alliance!

If this is said, nothing else, the next day, the Vulcan Alliance will definitely come to the door and ask the Martians what does this mean?

The relationship between the Vulcan Alliance and the Galactic Alliance is deteriorating day by day, and now there is a tendency to become incompatible.

The attitude of the Vulcan Alliance is quite strong. All members of the Mars Alliance can only choose one party to join, and no one can be a fencer!

Simply put, there is you without me, and me without you!

If the Martians clarify at this time, the Vulcan Alliance will definitely be very angry!

Why?

What do you mean by Martian?

Do you think that my Vulcan Alliance may not be able to just pass the Galaxy Star Alliance, so are you planning to be a fencer?

If this is not clarified, for the sake of face, the Galactic Alliance will definitely attack the Martians.

This Vulcan Alliance is not afraid of the Galaxy Star Alliance, does not mean that the Martians are not afraid either!

The Galaxy Star Alliance is really lively, killing the Martians is only a matter of minutes!

"Fang Yue must have done this thing!"

Cassino gritted his teeth!

Anyway, the Martian and the Earth are now completely on the bar.

In the eyes of Martians, as long as there are bad things, Fang Yue must have done it!

Chen Qingliang is still struggling.

A red alarm sounded above Cassino's head.

Cassino's face changed suddenly, and this red warning was the highest danger warning among Mars.

He has not had time to escape. A huge wave of energy surged.

The city where Cassino was located instantly turned to ashes under the crush of the energy tide, and there was no **** left!

"Ah bah, bah!"

The energy tide comes and goes fast!

Cassino crawled out of the ruins of the city and he vomited two mouthfuls of dust.

Although this energy tide is powerful, it still does not threaten the safety of a saint-level powerhouse like Cassino.

In particular, Cassino practiced the golden body technique, his physical body was powerful, comparable to the sacred weapon!

This energy tide just made him look ashamed, but although Cassino was not dead, he looked at the surrounding ruins, but he felt like he was about to be blown up!

The fact that an ancient city with hundreds of years and countless residents was wiped out of the world in this way is a shame for Mars and a catastrophe that has not been seen in at least hundreds of years!

Chapter 1713: Yangmou!

The city of Rhine on Mars was swept by energy tides in an instant, and almost all the residents of the city were annihilated to ashes.

The news that shocked the entire Galaxy once again made the headlines of major newspapers in the Galaxy Star Alliance.

This kind of brutal massacre is rare throughout the Galaxy Star Alliance.

Planetary wars are common, and so are the wars of extinction.

But this kind of situation rarely happens in the civilization of the stream!

The civilization that has entered the stream, even if the army is defeated, will at most be reduced to a colony. The natives will become the slaves of the conquerors, but like this, the situation of a densely populated city is directly erased in one breath. , This is almost an invisible situation in the history of war within the Galactic Alliance in the past 100 years.

A huge city with millions of residents, but in the end Cassino was left alone.

After the battle for destroying the city, no one claimed responsibility for it!

Then, the Mars investigation team intervened, and they found a strong blasting bomb in the rubble that had not been ignited.

There are also vague words dedicated to the Galaxy Covenant on the bomb.

Combined with the previous news that the Martians shot down the Galaxy Covenant rescue spacecraft, the identity of the real murderer behind this scene is already self-evident!

Chen Qingliang was stunned after hearing the news.

He really didn't do this thing, this powerful explosive bomb was used to deal with the people on earth!

Thinking of this, Chen Qingliang couldn't help but tick his teeth with hatred.

To people on earth!

Asking for help, rescuing the spaceship, blasting bombs strongly, all of these are inseparable from the people on earth!

If he didn't guess wrong, all this is the earthlings behind the scenes.

The people on Earth probably knew the idea of the Galaxy Star Alliance, so they acted first and made such a show, and then it caused the Martians to fight with them!

But... But who would believe it if you say this?

Chen Qingliang's heart was filled with despair.

During this process, the earthlings stayed behind the scenes all the way, and it seems that except for the rescue spacecraft that flew to the earth, there is no other relationship with the earthlings even half a dime!

If he insists that this is a conspiracy by the people on earth, and the high-level members of the Galaxy Alliance know how, the Martians might also believe it.

But the billions of people in this Galaxy Star Alliance will not believe it!

They would only think that this earthling is a scapegoat, and the Galaxy Star Alliance has fallen, and they dare not attack the Martians supported by the Vulcan Alliance!

Chen Qingliang has never underestimated the minds of the people of the Galaxy Alliance. The people's minds of the Galaxy Alliance, which is already declining, will definitely collapse instantly, accelerating the decline or even destruction of the Galaxy Alliance!

But if the other way round, following Fang Yue's thoughts, the Galaxy Star Alliance declares responsibility for this time.

The prestige of the Galaxy Alliance is greatly improved!

Didn't you Martian offend my Galactic Covenant and destroy our Galactic Covenant's rescue spacecraft?

Then I will destroy your city and slaughter your thousands of people as punishment.

Only in this way can we show the majesty of the Galaxy Alliance!

Only in this way can we boost people's hearts with a strong attitude!

Chen Qingliang finally discovered that the people on Earth are not afraid that their Galaxy Star Alliance or even the Martians will expose the conspiracy, because the basics of the people are arrogant, making you dumb to eat coptis can't tell!

Chen Qingliang closed his eyes.

Slumped in his leather chair.

His breathing was extremely deep and his chest was constantly rising and falling.

He feels like a little white mouse locked in a cage, and can only passively wait for others to slaughter him!

"What a clever layout, what a clever means! However, will this earthling be so naive to mean that we will go to full-scale war with the Martian? Come on! Invite the Martian diplomat to come to my base for a description, nominally, We can go to war against the Martians, but we can still join forces behind the scenes to attack the Earthlings!"

Chen Qingliang quickly recovered his calm!

His tactics came to mind!

Chen Qingliang's invitation letter soon fell into Cassino's hands.

Cassino took the fastest spacecraft to the solar system base of the Galaxy Covenant.

Chen Qingliang's thoughts coincided with Cassino's thoughts. He also understood that this matter was a conspiracy by the people of the earth from beginning to end!

Only communication can truly solve the misunderstanding. Both of them can use this opportunity to unite and deliver a fatal blow to the earth.

Chen Qingliang had just landed on the base of the Galaxy Star Alliance with his words!

At the next moment, Chen Qingliang's optical brain watch ticked.

Turning on the light brain watch, a face popped out, with fiery red hair and a violent face.

Chen Qingliang's heart twitched, and suddenly there was an ominous premonition.

"Master Andrew!"

Chen Qingliang's spirited spirit instantly turned into humility.

No way, the person at the other end of the optical brain is really famous among Mars.

Andrew is the special envoy of the Vulcan Alliance among Mars. At the level of the Great Sacred Realm, he once smashed hundreds of powerful men because some Martians were disobedient.

Among them, there are as many as ten strong people in the Saint Realm.

Suspicious and irritable is one of Chen Qingliang's impressions of Andrew!

"Chen Qingliang, where are you now? Why did it take so long to reply to me?"

Andrew's voice was rough.

Chen Qingliang didn't dare to tell the truth.

"The subordinates are chasing the fugitive in the starry sky, so the time to reply to Lord Andrew has been delayed! Please also Lord Andrew atonement!"

"Chasing the fugitive? Hey! Chen Qingliang, what kind of fugitive are you a diplomat pursuing? If you are really pursuing the fugitive and delaying the time to reply to me, you will naturally forgive you! But you actually cheated me and the Galaxy Star Alliance secretly People collude, this is a heinous sin!"

Andrew roared.

Chen Qingliang's feet were immediately cold.

Unexpectedly, this matter was really known to the people of the Vulcan Alliance.

Chen Qingliang naturally understood the consequences.

He can only carry the pot this time.

It is impossible for Mars to speak for him!

Mars is already a member of the Vulcan Alliance. If the Martians secretly collude with the Galaxy Alliance, it is tantamount to being betrayed by the Vulcan Alliance.

Chen Qingliang said to Andrew in a deep voice: "I am guilty, and all guilt should be borne by me alone!"

After Chen Qingliang finished speaking, a puff of black blood overflowed from the corner of his mouth.

His eyes were empty, and he turned out to be self-defeating!

"What's happening here?"

Cassino, who was preparing to warmly welcome Chen Qingliang, happened to see Chen Qingliang's suicide when he went out.

It's over, it's over, this time it's even more unclear.

Even if the two armies were fighting, Chen Qingliang died in front of his door. He couldn't tell even if he had eight mouths!

Fang Yue, who was far away in Ganymede, already knew the news of Chen Qingliang's suicide.

In his camp, he shook his head slightly: "Why do you think this is necessary? A strong man in the saint realm, with a lot of lifespan and incomparable glory status, but he chose to be right with the earth, so he can only be like this It was an ant who died silently!"

Fang Yue left the camp with his hands behind his back.

This little spark between Mars and the Galaxy Alliance has been wiped!

What if they all know that all this is their own conspiracy?

At this moment, the two sides are already involuntarily!

A faint light flashed in Fang Yue's eyes!

The layout of this Europa formation has been completed.

Su Wannian might fully awaken this formation at any time!

Once this formation is awakened, the sleeping ancient existences in Ganymede should also be awakened one by one!

How could Fang Yue miss such a grand event!

Fang Yue walked out of the camp and the whole formation opened.

Bunches of sun's essence fired up into the sky, and a huge gravitational force was conducted in the direction of the sun!

The endless fire of the sun pouring down!

The entire Europa is completely enveloped by the flames of the sun!

"I am back!"

A weak voice was transmitted through the star core of Ganymede.

The voice is so small that no one can hear it!

But with the passage of time, the voice gradually became louder!

"I am back!"

"I am back!"

"I am back!"

There was a bang.

A huge energy fluctuation came from the core of Ganymede!

A thin old man jumped out of a bottomless well.

He opened his mouth, and all the solar flames that had been drawn over were swallowed by him, including the solar fire on Gany Six, which became food in his mouth!

The skinny old man appeared from the surface of Ganymede.

Su Wannian, as the formation's eyes, felt the existence of this old man for the first time!

Su Wannian came to the old man almost at the fastest speed.

The old man glanced at Su Wannian coldly and said, "Are you the one who disturbed my sleep?"

There is no energy fluctuation in the old man's body, as withered and eternal as the abyss of the ancient universe.

In front of the old man, Su Wannian felt like an ant looking up at Mount Tai.

He felt that his breathing was completely suppressed!

"Senior, me."

Su Wannian wanted to explain, but there was no chance!

The old man opened his mouth again, swallowing Su Wannian completely with one mouthful!

"If you are wrong, you should bear the price of your mistake. There is no excuse, only punishment!"

A generation of saint Su Wannian has fallen.

Su Tuo's hand, the soul card representing Su Wannian shattered instantly!

The moment Fang Yue appeared, he also rushed towards the old man.

However, his distance was too far away from Su Wan, and all was still too late.

When he arrived, he happened to see the scene where Su Wannian was swallowed.

The old man glanced at Fang Yue.

The old man grinned and greeted Fang Yue and said, "I didn't expect to see Fang's kid here!"

Fang Yue smiled reluctantly.

Unexpectedly, there is really a great existence hidden in this Europa.

At this moment, the old man gave Fang Yue the feeling that he was one with the entire universe!

He is at least a strong Xuxian, and he has even taken the final crucial step!

"Hello senior!"

Fang Yue greeted the old man politely.

No way, the situation is better than people.

This Su Tuo had just fallen, and he didn't want his own spiritual energy clone to follow in Su Wannian's footsteps.

The old man looked at Mu Xiaobai's eyes. There was a green light in his eyes, but he looked at Fang Yue for a moment and showed a look of disgust!

Chapter 1714: Old man, King Zhou

"It's boring. Your Fang family has always been strong and supreme. It is a saint family. Every member of the clan is strong and unparalleled. They never fear life or death. But passing on to you will defeat the Fang family's reputation in vain. A ray of spiritual energy evolves into a clone! Even if the aura clone is

eaten, it doesn't make much sense, no matter what, the old man is reluctant to spare you a small life, it is to give Fang family a little face!"

The words of the old man made Fang Yue speechless, the old man really wanted to eat himself.

Unfortunately, he did not meet the deity, so there is no way to really attack him.

"Dare to ask the old man's name?"

Fang Yue saw that the old man was slightly kind, and Fang Yue had a vague guess in his heart that he might be an old person on earth.

"Old man! Well, back then, I once practiced the Taoism and entered a dream. A thought turned into a human emperor on the earth, and ruled an era! It is a pity that the destiny of the sky changes, and my divine thought finally falls and returns to my deity. , Not forever!"

The old man said somewhat dissatisfied.

Although that life was not the reincarnation of the deity, he was also immersive, and his clone fell and became a pronoun for the monarch.

Fang Yue couldn't help being stunned.

This old man is actually the deity of King Shang Zhou?

The name of King Zhou, I'm afraid every Chinese person knows it!

The huge Yin Shang was defeated in his hands.

But who would have thought that this king of Shang Zhou would survive forever.

Moreover, his deity is unfathomable, perhaps comparable to the gods and demons when Chaos first opened.

"Master Zhou, now that the earth is being framed by others, it is already a crisis. I hope that King Zhou can see his relationship with the earth in the past, reluctantly, make one move to help the earth destroy the enemy!"

Fang Yue spoke earnestly, his eyes burning.

This deity King Zhou is unfathomable, if he is willing to make a move, I am afraid that few people are his opponents in the sky and the earth!

King Zhou sneered: "That is just my first life. In the past, in order to realize the true meaning of reincarnation, I have been reincarnation ninety-nine times. There are many places in the universe of ten thousand realms that have traces of my mind clone, even I There are dozens of thought clones that have not been destroyed yet! If that is the case, should I become the savior of this universe? The earth has the fate and destiny of the earth, and its survival has nothing to do with me! Boy, you hurry I left quickly, and I continued to fall asleep. In fact, I woke up unexpectedly this time. I was supposed to devour thousands of creatures and kill them. But just now, I swallowed a lot of the sun's spirits and barely felt full, so I just woke up. Let you go for a while!"

King Zhou said carelessly.

Then he returned to the center of the planet Europa.

Fang Yue can only watch King Zhou leave, but there is no other way!

At this moment, there is already a gathering of ancient creatures on the periphery of the earth.

On a meteorite with a diameter of hundreds of kilometers, a group of ancient and powerful creatures occupy each side. These ancient creatures represent different ethnic groups, and some of them should have disappeared in the long river of history!

The number of these creatures is not very large, but each of them represents a powerful and terrifying ethnic group. Among them, the lowest cultivation base is the fifth level of the Saint Realm, and some have reached the level of the Great Saint Realm!

In the center of these powerful creatures, a great sage from Mars stands tall.

He looked around like an unsurpassable monument, like a wolf tiger.

Cheng Qian is a veteran great sage in the universe of Ten Thousand Realms. In his hand, he holds a magical tool of the virtual fairyland level-Shanhe Dang and stands out among the many great sages.

It is said that this mountain and river clang was refined by Cheng Qian's ancestors with the soul of life. If Cheng Gan does not hesitate to burn his blood, this mountain and river clang can be completely revived, and even the strong in the virtual fairyland can be killed!

"Cheng Gan, what are you going to do with us this time?"

A giant with eight silver arms said impatiently.

Had it not been for Cheng Qian's hand to have a virtual immortal order, he would not have paid attention to a great sage in the solar galaxy where the bird does not shit.

Although Cheng Qian is a strong man in the Great Sage Realm, he is also a Great Sage!

Cheng Qian has mountains and rivers in his hands, and he also has eight great sacred implements in his hands. Eight great sacred implements are at the same time, even if they are not equal to this virtual fairyland. He left calmly but still no problem!

Cheng Gan smiled and said, "I'm here to ask for your help! I know that you are all outstanding people in the world, and the ethnic groups behind them are all eternal existence. Each of them has left a great deal in this world. Prestige!"

"This planet under my feet evolved from the Jiuzhou continent in ancient times! Jiuzhou was once one of the top ten worlds in the Ten Thousand Worlds Universe! I don't need to say more about the treasures and wealth in it! Jiuzhou has survived several times of extinction of heaven and earth, and it is getting stronger and stronger! If it were not for the last time of heaven and earth, the nine true wonderland powerhouses in Jiuzhou burned and sealed the world and the outside world. Entrance, this Nine Continents will probably not be destroyed yet!"

"However, this Nine Continents has finally become the past. It has turned into a planet. The spiritual energy on this planet was once exhausted, and it was impossible to sustain even practice. But now, this planet is resurrected, and many seals and treasures are contained in it. It will also appear one by one! There has been more than one fairy weapon in Jiuzhou. Back then, the true fairy of Jiuzhou repaired the sky, but they left their own fairy tools in this Jiuzhou! I want to go to one A fairy weapon suppresses my eternal luck on Mars! I may not be able to do this alone, but if you help me, I will definitely succeed! If anyone can help me fulfill this long-cherished wish, I owe Cheng Gan I have given him a great favor! If there is a need in the future, I promised Cheng Gan that I will do my best!"

Cheng Qian's words fell.

The sound of the needle landing on the entire meteorite is clearly audible.

"The old Jiuzhou contains immortal artifacts? Hahaha, I didn't expect that my Eight-Armed Clan had just woken up from the deep sleep of Taikoo and encountered this kind of opportunity!"

The eight-armed clan laughed, his laughter all day long.

The surrounding void gave birth to layers of ripples.

He didn't even look at Cheng Gan and jumped into the earth.

Subsequently, many other ancient creatures jumped into the earth, and only less than 30% of the ancient creatures remained on the meteorite, waiting for Cheng Qian's dispatch.

When Cheng Gan watched those Primordial creatures leave, a faint smile turned up at the corner of his mouth.

He was not angry because those Primordial creatures hadn't obeyed his orders to leave without permission.

He hadn't really planned to let these Primordial creatures obediently follow him to attack the earth.

The Primordial Creatures are all awkward, and the blood in the body is extremely extraordinary.

It is impossible for these primitive creatures to obey his call and bow their heads to him.

Cheng Ganzhen's idea is just to use these ancient creatures to muddy the earth's water.

This earth has framed Mars one after another, and it is time for them to fight back!

With these Primordial creatures taking the lead, even if the earth can survive this time, it will definitely lose its troops!

Cheng Qian's smile never faded.

In the Mars, a gleam of light soared into the sky, the spiritual energy between the heaven and the earth converged and turned into a sky full of vitality snowflakes, the petals fell.

"How is this going?"

Cheng Qian's smile is frozen!

The precious light soared into the sky, and even broke the **** of the planet, such a sign, the world must be the most precious treasure above the virtual fairyland level!

How could such a treasure appear on Mars.

Cheng Qian has been walking on Mars for hundreds of years, and he knows the details of Mars. If there is such a level of treasure, he would have gotten it!

"Which guy is setting up to frame Mars!"

Cheng Qian grumbled to himself.

His fists were clenched, the veins violently burst, the anger in his heart burned, and his lungs were almost exploded!

"The fairy weapon is on Mars, the fairy weapon is on Mars!"

Fang Yue had already notified Su Tiao to take action the first time that Baoguang was born.

But the Baoguang that appeared from Mars this time was indeed not his arrangement!

"Could it be that someone is targeting Mars in secret?"

Suspicion grew in Fang Yue's heart. But this is also very possible.

The earth's water is too deep, and an old antique from the ancient times crawled out of the coffin one after another. They are all so mature that even their eyelashes are almost empty.

Mars is calculating them, and they are calculating Mars, which is also normal!

Su Tuo got news from Fang Yue, and he immediately sent an army to destroy the demons to appear and besiege Mars.

This Baoguang definitely didn't run away!

Even if it is not a fairy tool, it is a treasure above the virtual fairyland level.

If you can't get the magic weapon, get the magic weapon of the virtual fairyland level, that is also a great achievement!

At the same time, other forces from all sides also acted. They would rather kill by mistake than let go, and must get the treasure in Mars!

Even those Primordial creatures that have gone deep into the earth, just halfway through, and haven't completely landed, all flew back, turning around and flying in the direction of Mars!

No one can guarantee whether there is a fairy in this earth, but it is certain that there will be a treasure in this Mars!

Ten birds in the forest are not as good as one bird in hand!

Those Primordial creatures are all very shrewd!

Cheng Qian also hurried back to the fire star.

What is so special is to lift a rock to hit one's own foot!

If it is not possible, this time the siege of the heroes will destroy the inheritance of Mars in their own hands!

"You guys stay! You guys! There is no great treasure born in my Mars. In the scene just now, someone is deliberately framed Mars! Please discern the truth, don't fall into the conspiracy of the villain!"

Cheng Gan looked at the archaic creatures flying towards Mars like a meteor.

He said loudly to discourage.

These primordial creatures are unreasonable one by one. If they all fall into Mars, the ghost knows what unpredictable effects will be caused on Mars.

Chapter 1715: Mars chaos

Among the people from all walks of life, Fang Yue should be the most excited one. Although I don't know why the treasure on Mars came out, after all, this precious light has attracted all the strong from all walks of life!

Fang Yueyima is currently rushing into Mars!

Before the others arrived, he had already refined a small city of hundreds of square kilometers, and all the creatures in it had evaporated.

There used to be a strong man from the eighth floor of the leader realm in this city. He had already been refined by Fang Yue when he discovered that Fang Yue had arrived.

They were sacrificed alive and sent to the small white jade cauldron. All the flesh and blood of the creatures became sacrifices, used to summon the powerful and heroic spirits who had climbed to the top of the world in the past.

This was not because Fang Yue was cruel and swept innocent people in Mars, but when the snow collapsed, in fact, no snowflake was innocent.

And to explain it in another way, if the strong on Mars had such a chance to attack the people on Earth, would they let the ordinary people on Earth go?

Obviously not!

Therefore, Fang Yue came with the idea of cutting the grass and removing the roots, and he wanted these Martians to subdue the country and exterminate the species.

Fang Yue's behavior is in line with the usual style of Destroying the Demon Race. The Destruction Demon Race under Fang Yue's sees such a scene, all of them are as if they were beaten with blood!

"Here, there is actually a magic weapon at the master level!"

When a soldier of the Demon Race was cleaning up the mess, he saw a scepter of the leader level. There were fine runes on the scepter, and each rune represented a concentration of rules.

The magic weapon of the master realm level has already been regarded as a rather precious trophy.

"All the treasures in this city belong to you! Whoever finds it early belongs to whom! This is our first battle on Mars, and all the spoils do not need to be turned in!"

Fang Yue smiled, he was surprisingly generous, he had never done anything to inspire the military before.

However, he issued an order.

All the Destroy Demons under his command are extremely supportive of him!

This world is such a reality, if you have milk, you are a mother!

You can't even do it without milk!

The destruction of the demons cheered, which is tantamount to giving them welfare.

The whole city was destroyed by Fang Yue alone, and they didn't even paddle.

And the treasures and resources in it belong to them. Where did you find such a good thing!

The destruction demons are going crazy!

All of them are making a lot of money.

Fang Yue's lieutenant was also a saint who destroyed the demons. Originally, he looked down on Fang Yue, thinking that Fang Yue was only relying on conspiracy and chance to get the upper hand.

But after this incident, his impression of Fang Yue has also changed a lot. In a short period of time, Fang Yue has been able to subdue the soldiers who destroy the demons!

Of course, in this process, the adjutant also got considerable benefits. He had obtained a piece of divine iron that could be used to forge a magic weapon at the saint level!

With Fang Yue's model taking the lead, people from other forces and some ancient tribes also know how to do it.

They landed on Mars and were not busy looking for the legendary celestial artifacts or heavy treasures. They first attacked the cities in Mars, slaughtered the creatures in them, and searched for the treasures in the city.

After all, no one is sure whether this so-called fairy tool is true or not.

Even if it is true, do they really qualify for it?

Ten birds in the forest are not as good as one bird in hand.

They are all adhering to the idea of making a little bit of money, and starting with the cities and civilians on Mars.

Of course, some boldly opened fire on the pyramid.

However, those who play against the pyramid do not end up very well.

There is a squad of three thousand people from the Galaxy Star League, and they are led by a strong man in the Saint Realm.

They were guilty of a relatively small silver pyramid, and jointly sacrificed a holy instrument to destroy the pyramid.

But their saint fell, instead of smashing the pyramid to pieces, instead the sacred artifact was swept away by the colorful divine light falling from the pyramid.

In the pyramid, a big hand that covered the sky came out, crushing them all to death, and they were all turned into scum, even the saint who led the team was no exception!

This makes the Pyramid of Mars an instant forbidden place.

Even the saints have fallen away, and they don't want to take risks with their lives. Anyway, there are many cities and treasures outside the pyramids of Mars.

Suddenly, the entire Mars was plunged into chaos and killing!

"This Mars is over!"

Chen Qingliang also unconsciously mixed into Mars, and now the dragons and snakes in this Mars are together, he is ready to fish in troubled waters, and don't walk three or five saints on Mars with his cultivation base of saint realm!

Chen Qingliang can become the supreme ruler of the Milky Way Star Alliance outside the solar system. In addition to being unwilling, his strength is also leveraged. At the eighth level of the Saint Realm, plus a special talented bloodline, as long as the great sage in this Mars is wrong with him Start, he will be able to escape and ascend to heaven smoothly.

"Fang Yue, I finally found you! I knew you were taking advantage of the situation to make trouble!"

An elderly Martian sage appeared in front of Fang Yue, his beard and hair all white, and he said to Fang Yue angrily accusing him.

"Master, who are you? How come you appeared alone in front of me? Did you know? It's dangerous to walk around by yourself at your age!"

Fang Yue kindly reminded.

The Martian Saint was taken aback for a while, he looked around, as if he was really the only one!

The surrounding Martians instantly became fly ash, the vitality in their bodies was absorbed by Fang Yue, and even their souls were refined.

At this moment, Fang Yue is like a great Martian demon. If Mars can survive this catastrophe, Fang Yue will definitely be described as a world destroyer in the textbook.

The old Martian saint walked away.

He doesn't know how powerful this Fang Yue is, but in the description of Fang Yue issued by Mars, there are more than one saying that this Fang Yue is a great demon who has killed several Martian saints!

Although he is a saint, he is only a strong man on the third step of the saint realm.

It's okay to present a prestige in front of practitioners below the realm of saints, but when you meet Fang Yue, you just stop cooking!

"Don't go in such a hurry, go so fast, if you stumble while crossing the road, isn't it my fault?"

Fang Yue said to the old man with a smile.

Five fingers spread out in his palm, and a huge suction came from his palm, directly grabbing the old man back!

"Well, although this Destroyed Demon Race has not good intentions to me, it used the method of divine enlightenment to forcibly promote me to the level of the leader, but the foundation of this physical body is gone, and my various moves are dozens of times more powerful. The improvement! When I met the saints in the past, I still weighed and weighed a little bit, but now I kill it, how come it seems to be dealing with a little chicken?"

Fang Yue's voice was not loud, but the saint old man was sweating profusely.

He felt as if he had degenerated into a baby, and tried his best to be Fang Yue's opponent!

"Forget it, after all, I am a saint, so I will leave you a little dignity, and treat you as a sacrifice to the ancient heroic spirit! Well, I really look forward to it, I don't know if the Baiyu Xiaoding is summoned this time. What kind of heroic spirit, this time even the strong of the saint realm will be given to you as a sacrifice, don't let me down when you appear!"

Fang Yue's voice fell.

The body of the saint old man collapsed, and his flesh and blood flowed to the Bai Yu Xiaoding gurgling.

By the side, Fang Yue's adjutant Ding Simiao of Destruction Demon Race was sweating in cold sweat.

Part of the reason why he was Fang Yue's adjutant was to assist Fang Yue, but more importantly, he was monitoring Fang Yue for the Su family.

Once Fang Yue had any changes, he would be killed immediately without saying anything.

But now it seems that Wu Fan has completed his task.

This Fang Yue really had any other thoughts, it was not that he came to punish Fang Yue, but that Fang Yue could make him unable to return!

This Fang Yue killing the third-tier human race of the Saint Realm is like killing a little chicken, and he is only the strength of the fourth-tier Saint Realm. Although the strength of destroying the demons is generally stronger than the human race in the same tier. But the problem is that he can't easily capture and kill a third-tier human race in the Saint Realm!

Using this old man as a reference, his strength is at least three to five times weaker than Fang Yue!

Is this Fang Yue really initiating?

Unstable foundation?

Special, who believes it!

If this foundation is not stable, there will be no solid foundation in this world!

Fang Yue controlled the movement of Zhen Qi to the extreme, and there was no even the slightest escape when he made moves.

Ding Simiao wondered if he wanted to report the news to him.

Remove him and change a strong one who is at least above the eighth step of the saint to stare at Fang Yue.

However, when Ding Simiao saw Fang Yue's smile, his heart was cold, he knew that he had been targeted by Fang Yue!

If he really dared to do this, he might not see the sun tomorrow!

"Master Ding has worked hard, and this will give Master Ding the saint-level vestment! If Master Ding encounters an assassination, he can still use this to resist one or two!"

Fang Yue had seized a saint-level vest from the Martian Saint to Ding Simiao.

There are two meanings in this. One is to borrow this vestment to buy Ding Simiao. In the destruction of the demons, the saint-level artifacts are originally extremely resource-intensive. Unless it is a saint with a background, talent, and history, otherwise, it's hard to be classified as a magic weapon at the level of a saint like Ding Simiao.

This saint-level magic weapon was enough to make Ding Simiao tempted.

But at the same time this vestment also has a second meaning.

Even if you are a strong man in the saint state, it is still not safe. If I want to kill you, you are still in a disaster. Haven't you seen this old man in the martian saint state?

Wearing a saint-level vestment, he was still easily slaughtered by Fang Yue!

Ding Simiao took over the vest, thank you Yue Qian for kindness!

He put out the thoughts in his heart, and follow Fang Yue anyway!

At least, as long as Fang Yue can't afford to be rebellious, he can follow Fang Yue to pick up the sacred artifacts, and he has the merits, so where to find the good things that fall in the sky.

Just when Ding Simiao thought it through, the aura of several sage levels descended one after another, and the team of sages in Mars finally arrived!

Chapter 1716: Mu Fang's ultimate move

"one two three four....."

Fang Yue deliberately stretched out his fingers slowly and pointed at the saints in the coming Mars, and counted, he made a dull appearance.

"You Martians really see me. Now this Mars is in chaos. There are so many powerful saints coming to Mars. Don't spare your time and manpower to take care of those saints and powerful saints. But I ran over to make things difficult for me. This really touched me!"

Fang Yue said, he also showed a touched expression pretendingly.

The saints of Mars all showed expressions of gritted teeth.

They have already guessed that 80% of the incident this time may be Fang Yue's ghost, acting as the instigator behind the scenes.

This Fang Yue stirred up the wind and rain when he was in the Milky Way Star Alliance, and he had made the Mars a mess before.

His name has long been blacklisted on Mars.

This time Mars was able to mobilize four saints, and he didn't want to besiege Fang Yue.

After the last incident, the high-level Mars knew that what Fang Yue was best at was the method of the aura clone. It was impossible to encircle Fang Yue and kill him.

I really pushed this guy into a hurry, and the dog jumped over the wall, maybe he could drag the four saints down to hell.

Today, the number of saints on Mars has plummeted, and the existence of each saint has become more precious.

It would be really a pity if they just died in Fang Yue's hands like this!

One of the leading Martian saints said: "This time we are not here to fight with you, but to negotiate with you!"

The saint was burly and tall with dark skin. He was a Martian version of Li Kui. He was also carrying a broadsword behind his back. The weight of the broadsword was amazing. At first glance, it was no ordinary weapon!

"Negotiating? What is your status? Does it represent the will of the Martian?"

Fang Yue asked the sage on Mars.

Fang Yue is no longer the original Fang Yue!

Now that he has the upper hand, it's the imminent time that the formerly strong Martian was.

If this matter cannot be resolved properly, maybe the entire Mars will fall into a hunting ground for many saints.

Although there are one pyramid after another in Mars, the foreign saints and great saints are still afraid to step into it for the time being, but when the wealth of Mars is looted, the invaders Eyes will eventually fall on the top of those pyramids.

Although Mars has full confidence in the pyramid of his home, in front of those fierce invaders, it is not known whether he can hold it with full confidence.

"I am Bron, the saint of Mars. I have a certain prestige in Mars. When I was 800 years old, I became a saint in the flesh. When I was a thousand years old, my martial arts reached the level of saints! Double saints, I feel The entire galaxy can be regarded as the number one person. In this solar system, my words should still have a bit of weight!"

Na Bron's eyes were hollow, he did not put Fang Yue in his eyes. Although his task this time was to give orders to Fang Yue to negotiate with Fang Yue, but Bulong never thought that the youth of the leader level in front of him could be equal to him.

If it wasn't for the physical realm to go hand in hand with his martial arts, he has now entered the Great Sacred Realm level for many years!

Bron is the real leader among the saints of Mars.

Even the great sage aloft must listen to many of his opinions.

"Physical sanctification, martial arts sanctification, double saints, tut, it's really amazing! However, I hate your eyes, so I refuse to negotiate with you on Mars!"

Seeing Weizhi's work and seeing Bloom's attitude, Fang Yue understood that this Martian has not really realized his crisis.

Their attitude is still arrogant, even if they follow Bron to go, this will also be a feast!

"You can't help it if you go or not!"

Behind Bron, an old man whose energy and blood began to decay said hoarsely.

There was a cluster of flames burning in this old man's body, and this flame was strange, giving Fang Yue a sense of danger!

The old man grabbed it with one of his palms, his palms were like chicken claws, skin and bones, full of decay!

The gray mist was lingering around his palm, and there was a smell of decay, decay, and destruction in the mist. As long as it was stained with a trace, it would be like a bone maggot, lingering and extremely difficult!

"Rotten Claw!"

Ding Simiao spoke in amazement.

"Fang Yue, stop, this person should be the destroyer of the last era! He is our predecessor, he should be his own!"

"I'm shit!"

"Those who dare to attack me are all my enemies. Kill him!"

Fang Yue did not expect that there was a sudden change in this Mars. There was a Destroyer of the previous era in this Mars. However, if he killed this Destroyer, he would kill it. After all, the Destroyer is

to a certain extent destroying the demons. The status of the vassals and servants is far higher than that of destroying the demons!

Golden light emerged from Fang Yue's body, and the blood in his body surged!

At one hundred physical levels, Fang Yue had already cultivated to the forty-ninth level, and he was a strong man who was able to force his first entry into the Great Sacred Realm.

Although this is just an incarnation of his spiritual energy, the 100-level power of the physical body cannot be projected, but the strength and means of one-tenth of the deity always have!

The qi of the flesh, to the sun, just to restrain decay, destruction, and other gloomy powers!

Fang Yue's body is like a furnace, capable of smelting all things in the world, and the red blood and blood are like flames.

The decaying claw was instantly evaporated as soon as it fell, and even the old man's palm was turned into ashes!

However, the old man did not get angry, instead he gave a gloomy smile.

At the place of his broken arm, the palm of his hand regenerates, and he has reached the level of the Saint Realm. Who doesn't master the two restoration methods.

Severing limbs and rebirth is a basic method. Although it consumes a lot of the body's origin, it only needs to be supplemented with elixir afterwards!

Fang Yue suddenly realized that something was wrong.

His consciousness is a little fuzzy.

"The fire..."

Fang Yue recalled that when the decayed claw fell, a ray of snake-like fire rushed into his body in his body!

The fire light can affect his peace of mind.

"Jie Jie Jie Jie, I didn't expect to be as shrewd as Fang Yue, and when you had a chance, the legendary earth's hope was nothing more than this! Do you know that what you were in just now was the fire of the Fallen, and I am a civilization on Mars Mu Fang, a Martian who has been sleeping in the Era, back then, I also used to dominate the Milky Way. At the peak, I was far away at the level of the Great Sacred Realm! But do you know why I fell like my cultivation base, my body? Decay, even the lifespan has been reduced to less than a hundred years?"

The old man was not in a hurry for Fang Yue to shoot, or that he had done what he wanted to do.

Fang Yue shook his head slightly, but he vaguely guessed the reason for the fall of Mu Fang's cultivation base.

"You said it was because of this fallen fire?"

Ding Simiao guessed.

"Yes, it is because of this fallen fire. This fallen fire is collected from the depths of the great abyss and can easily burn the soul, and it is extremely poisonous, and the deity and the clone can be passed on to each other. It was to harvest it and refine it, so that it wasted 80% of the power of my soul, and my realm was broken, and I became what I am now! However, being able to completely annihilate you with this ray of fallen fire is worth everything. Up!"

Mu Fang's smile was weird.

He was very pleased and satisfied.

This Fang Yue's repeated attacks on Mars has touched his bottom line. This time, a strong man in Mars used a secret method to wake him from his deep sleep, specifically trying to use this fallen fire to crush Fang Yue.

The clone came, and the deity could not come out, and it was not without solutions. Some special methods could still make Fang Yuefu punish him.

"The Martians really did their best for me! But do you really think this trick is useful to me? Fallen fire is indeed powerful, but, do you know that this kind of flame is also divided into levels! Fallen The fire is divided into one to nine layers. The fire on the first layer can kill the saint, and the fire on the second layer can destroy the great sage. If the nine-layer fallen fire in the legend is picked, even the legendary Tianzun can burn to death. But the level of the fallen fire you picked is not enough, it's just between the first and second floors. This flame can't even burn you to death, let alone me?"

Fang Yue cultivated the "Soul Scripture" and was proficient in the soul of heaven.

This fallen fire may be incomprehensible to other creatures, but in Fang Yue's eyes, it is nothing more than that!

There are even records of secret techniques in the "Soul Scripture", allowing Fang Yue to evolve the fire of the fall on his own, but the conditions for this secret technique are quite harsh, so Fang Yue never has the time and energy to practice this secret technique!

Fang Yue slightly turned the "Soul Truth" and the depraved fire dissipated.

His eyes returned to clear eyes again.

And the expression on Mu Fang's face solidified, and he instantly felt that he had actually lost contact with the fallen fire in Fang Yue's body!

"Mu Fang, your tactics are not effective against me. If you really want to kill me, please show some real skills!"

Fang Yue said to Mu Fang with some contempt.

At this moment, in a certain pyramid, an ancient strong man slowly opened his eyes.

The majesty of the Great Sacred Realm slowly spread, and all the eighteen peak saints under his seat saluted respectfully.

"Welcome the return of the king!"

Those saints are extremely humble. Outside, they may be brave, but when they come to this pyramid, all of them are people with their tails clamped.

The owner of each pyramid is unfathomable, and the king of heaven in front of him is one of them!

"Mu Fang has locked the position of Fang Yue's deity and clone! I am now handing you the spatial coordinates of those places! A group of three of you, take the hole card I gave you and quickly go to kill Fang Yue. The deity and avatar of, I have deduced the future some time ago, that is, I have seen the fuzzy part of the future. My foundation for thousands of years on Mars may be destroyed in the hands of this Fang Yue! However, in the future, everything has not been brought, There is a possibility of reversal. If Fang Yuezhu is killed, it is also possible to reverse the future, making the corner of the future I saw a possibility!"

"Yes, King!"

Everyone clasped their fists, retreated, and left according to the space coordinates given to them by this great sage!

Chapter 1717: I'm just a ghost on earth

"Mu Fang, you step back, let me come to know Fang Yue's strength means!"

Bron spoke, he let Mu Fang lean back.

Mu Fang's face was slightly ugly, but he finally walked behind Bron unwillingly!

If he can still return to his previous peak realm and possess the means of the Great Sage, even if Fang Yue has three heads and six arms, a hundred methods are definitely not his opponent!

However, all this was difficult to achieve, his soul was burned by the fire of depravity by 80%, and he was hopeless to return to the level of the Great Sacred Realm for life!

Without the fire of corruption, his combat power is definitely not Bron.

So rationally speaking, letting Bulong take action against Fang Yue is the best choice!

"The realm of the flesh is good, but I just don't know if you really understand the power of the flesh!"

Bron said quite proudly.

He became a saint in the flesh at the age of eight hundred, and became a saint in martial arts at the age of a thousand. His cultivation talent in the flesh is better than martial arts.

Bloom despised Fang Yue.

Bron prides himself on being invincible in this physical refinement.

At least in the creatures below the Great Sacred Realm, he hasn't found out who would be his opponent!

Fang Yue smiled lightly: "Really?"

"It seems that you are going to confront me with a physical realm! If you change time and place, I might still discuss with you one or two, but unfortunately, I came to Mars this time to send you the end of Mars. It's not here to learn martial arts with you!"

Fang Yue understood that the real purpose of these four people was to delay their pace.

At this time, there will definitely be strong people in the Great Saint Realm on Mars preparing or coming here!

"Send my end to Mars? Huh, what a big tone! Even if a strong person beyond the virtual fairyland dare not say that, what do you guys know!"

When Bron heard Fang Yue's words, his face changed slightly.

Mars, in his heart is eternal and immortal, how can there be a moment of destruction, even if it is a temporary crisis, in Bron's heart it is also a tempering of Mars. After experiencing disasters, Mars will transform again and become stronger and stronger. !

"Forget it, I won't talk nonsense to you! Nine-tailed man, leave it to you!"

Fang Yue summoned the nine-tailed demon fox from the small white jade cauldron. During this time, the nine-tailed demon fox received a lot of Fang Yue's soul liquid insufficiency, and her remnant soul and heroic spirit became more complete!

She has now recovered to the peak of the Saint Realm. Although there is still a distance from the Great Sage, as long as Fang Yue can continue to provide her with a sufficient amount of soul fluid, she believes that one day, she can return to the best of the past. The pinnacle of realm!

Kyuubi was born, this time she was not temporarily in the image of a white fox. At this moment, Kyuubi has become a young woman in white, with a smile and a charming taste!

"The nine-tailed demon fox at the peak of the saint?!"

After the birth of Nine Tails, Mu Fang's face changed slightly. Although his realm has fallen, only the cultivation base and combat power of the saint realm remain, but his vision has not changed.

In the last civilized era, he once had an intersection with the white fox family. His level in the Great Sacred Realm was to fight with a six-tailed white fox, but in the end it was on par.

Now, Fang Yue has recovered a nine-tailed white fox. Although it is only a fragment of a heroic spirit, it is still quite terrifying. If this white fox really returns to the state of its heyday, she may be enough to calm the whole thing. Mars!

The white fox clan is an extremely ancient group. The people of their clan have gone through dozens of civilized epochs without ever declining. The more the tails of the white foxes, the stronger their strength and the greater their potential! The Nine Tails are the strongest existence in the white fox family, and their bloodline and methods can directly compare with the true dragons, phoenixes and other divine beasts.

"Bron, step back!"

Mu Fang ordered Bron, but unfortunately, he said it was too late. After Bron saw the white fox, his eyes were already confused.

"Do you see me beautiful?"

Said the white fox charmingly.

"Beautiful, so beautiful, hehe..."

Bulong showed an expression of intoxication. He was actually bewildered by the spirit power of the white fox. At this moment, this Bron was completely selfless and became a puppet of the white fox!

Bron lost himself, lost his reason.

When Mu Fang saw this scene, he couldn't help feeling horrified.

"This Mu's aptitude is indeed good. Whether it is physical or martial arts, I have to admit that he has extraordinary attainments. However, in battle, no one is willing to head-on with you. The real victory or defeat depends on your shortcomings. board!"

Fang Yue said calmly.

His voice is dusty, without the slightest murderous intention.

But Mu Fang understood that the reason Fang Yue was able to be so cool and calm is because he is already standing in the perspective of a winner!

Bron joined his camp, one after another, and now he has completely lost the qualification to challenge Fang Yue!

"Time!"

A dagger stabbed from behind Mu Fang.

A Martian saint standing behind him also suddenly showed a look of confusion. His spirit was controlled by the nine-tailed white fox, brandishing a dagger, and piercing the back of Mu Fang's heart.

The dagger was pulled out.

A cluster of black blood spewed out!

Mu Fang is too old, and the blood in his body has turned into black poison.

"Fang Yue, you are such a powerful method!"

There was a trace of weakness in Mu Fang's voice. He did not look back, nor did he glance at the saint who betrayed his Mars, because he knew that maybe all the Martians on this street or even this city have been nine. Controlled by the tail white fox, he is the only one who can really stay awake and sensible!

He is now embarrassed on all sides, here has changed from his home court to Fang Yue's home court, and there is only a nine-tailed white fox in the middle.

"Fang Yue, do you know what the cost of doing this is? You are forcing Mars to completely break with you! In fact, at the beginning, Mars just wanted the earth to surrender! But you This stirs up the wind and the rain, disrupts our plans, and may force us to completely destroy the earth! Do you know that the Mars you see is not the real Mars, and the power of Mars today is just the result of the development of this civilization That's it! The real Mars is so powerful that you can be depressed! Among the pyramids of this Mars are the powerhouses before the civilization era several times or even dozens of times! Unimaginable! Mars is a special planet like the earth, hahahaha!"

Mu Fang raised his head and laughed.

The wound pierced by the dagger on his back healed strangely.

The vitality of Mu Fang's body disappeared little by little, but his lifelessness was gradually becoming stronger!

On his forehead, there was a half mark of reincarnation.

The reason is half because he has only experienced the process from life to death! And there is still half of the true reincarnation seal, which is born from death, but the final half of the reincarnation seal is the most difficult to condense!

"Fang Yue, thank you for providing me with a desperate situation, so that I dare to take the step I have always wanted to take, but did not have the courage to take!"

Mu Fang's body gradually became younger, his flesh was plump, and the folds that had been layered before were smoothed out!

In a blink of an eye, Mu Fang seemed to be twenty years younger.

There was a gleam of light in his eyes, and he had become a hungry undead creature, no longer need to be constrained by the life force and life force.

Of course, after becoming an undead creature, he is tantamount to completely giving up his identity as a living person.

"You have taken this step, do you plan to build a pyramid for yourself and make yourself immortal!"

Fang Yue gave Mu Fang a mocking look.

He quietly watched Mu Fang go from life to death, but did not stop it, because this step was actually not a major breakthrough.

But all creatures will have such a day, but because this Mu Fang was once a strong man in the Great Sacred Realm, he can rely on the secret technique and the strong soul essence to experience one less mystery in the womb!

Mu Fang was stunned: "Pyramid...You mean, is the pyramid shaped like this?"

Although Mu Fang is also an older generation figure in this Mars, he seems to be a little kid in front of the pyramid owners.

He only knew that the pyramid was the sleeping place of the powerful people of the ancient civilization, but he had not thought about why these people lived in the pyramid.

"What do you think? They were in the pyramid because they only took half a footprint and did not condense the real reincarnation mark! The pyramid is immortal by death, but they are always looking forward to the day when they come back!"

Fang Yuebai glanced at this Mu Fang. He thought that Mu Fang knew everything, but he didn't expect that this guy knew as much as him!

Mu Fang's heart trembled slightly.

He saw Fang Yue's calm and unwavering expression.

This scene seemed familiar, it seemed that Fang Yue had this expression when Bron challenged him just now.

However, how could this be possible, he had condensed the mark of reincarnation, and in terms of strength, he was much stronger than the previous Bloom!

His physical body is gradually recovering, if it returns to its peak, at least it can be regarded as half of the battle strength of the Great Sage.

"Mu Fang, do you know why these ancient heroes listen to me?"

Fang Yue suddenly said to Mu Fang with a serious face.

"why?"

Mu Fang didn't even notice it, his voice was already trembling slightly!

"Because in the world of death, I am the real master!"

Fang Yue sighed faintly.

An entrance to the world behind Fang Yue manifested.

Among them is gloomy, ten thousand ghosts marching.

Mu Fang felt a great suction from that world!

It is possible to involve him at any time.

Mu Fang needs to consume at least 80% of his strength to be able to resist the attraction of that world.

At this moment, Mu Fang finally understood what Fang Yue meant.

"You actually mastered the gate of the underworld! Are you the legendary gatekeeper of the underworld?"

Mu Fang was shocked, his face pale.

The soul returns to the underworld, this is the fate of all undead creatures.

However, if he is like him, he can transform the life force into the force of death on his own initiative, and becoming an undead creature can temporarily shield off the traction of the underworld, thus staying in the world for a long time!

But if you encounter the gatekeeper of the underworld and open the gate of the underworld, you can still expose him to the laws of the underworld, be involved in it, and become a serious undead!

"It's not a gatekeeper, it's just a ghost in the world!"

Fang Yue looked at Mu Fang who was shocked and his smile became brighter!

Chapter 1718: Mars has changed dramatically!

"Okay, okay, okay! It really is Fang Yue, even if it is Mu Fang's breakthrough, it is still not your opponent. In fact, I have paid attention to you a long time ago! I once suggested that the top Martians should not hesitate. They hunted you down, it's a pity that they were too conservative, underestimated your strength, and didn't send enough strong manpower."

A somewhat excited voice came from a distance.

A young man walked slowly from the crowd. Wherever he passed, the crowd entered and returned to normal again.

The mind control of the nine-tailed white fox also lost its due effect.

A young boy in white clothes with a handsome face and a brilliant smile, without the slightest murderous intention!

"Vulcan Alliance-Wang Zi'an!"

Fang Yue narrowed his eyes slightly, and he recognized the identity of the boy at a glance.

Fang Yue had regarded the people of the Vulcan Alliance as his imaginary enemy a long time ago. In fact, in Fang Yue's heart, the Galactic Alliance is a higher level than the Vulcan Alliance.

Through countless years of accumulation, keeping a low profile, and accumulating resources, how can the strong people cultivated be like the two or three big cats and kittens that you see in front of you. Although the Vulcan Alliance is strong and has emerged, it is in the process of bulging. I don't know how many resources accumulated in the past have been consumed!

However, many young masters in the Vulcan Alliance are also the focus of Fang Yue's attention.

This prince An is one of them!

Wang Zi'an, there is a young Vulcan in the Vulcan League.

Although he only has the pinnacle of the leader realm, he is not even a saint, but he has a glorious record of killing the great saint!

Wang Zi'an is good at controlling fire, not only has a deep understanding of the laws of fire, but he also discovered the remains of an ancient flame temple hundreds of years ago, and put nine high-level gods into his body day and night Refining.

"Hahaha! I didn't expect my reputation in this galaxy to be so big, even you Fang Yue knows the name of my Prince'an, I don't know if it should be an honor or something else!"

Wang Zi'an laughed, but his eyes looking at Fang Yue were extremely clear, with no intention of killing.

"I'm not here to be your enemy this time! Although I really want to fight you once, it is not this time. The faction disputes in the Vulcan Alliance. The faction I am currently in has no intention of doing it against you for the time being! I am entrusted by others to take this Mu Fang away! He has realized the true meaning of life and death and cannot die in your hands! But don't worry, he will not appear on Mars again from now on, even he Neither will appear in the range of the Milky Way, nor will they be your enemy!"

Wang Zi'an said calmly, he never seemed to worry about what Fang Yue would do if he didn't let him go!

Fang Yue chuckled and said, "Has the situation deteriorated to this level?"

Wang Ziwen sighed and looked at Fang Yue in surprise: "You know?"

"Yeah! Know a little! How much responsibility you have to enjoy if you want to enjoy it! The Vulcan Alliance should not feel comfortable right now!"

The conversation between Fang Yue and Wang Ziwen listened to Mu Fang Yunli, but the only thing he knew was that Wang Zi'an was here to save him!

"Yeah! No one feels well! If I knew it would be like this, I would advise those old guys not to be king! In fact, now I imagine that the previous little life was also pretty good! There is a nest on the ground, no one needs to pay attention to it, how good it is to practice quietly! It's a pity that everything can't be returned!"

The prince replied with a long sigh in relief!

"Nine Tails, let go of these Martian saints, and let Wang Zi'an take them away!"

Fang Yue turned to Jiuwei and said.

Nine Tails were surprised, how did Fang Yue change his temperament? Buy one and get two free!

However, Kyuubi was very obedient, and she unlocked the spiritual control of the two Martian saints under her!

But Bron has already planted the seeds of charm, unless she is self-defeating, she can't let anyone go!

"thanks!"

Wang Zi'an beckoned and took Mu Fang and others away.

After Wang Ziwen left, the nine-tailed white fox asked Yue puzzledly: "Why let them go? If the three of Mu Fang were sacrificed alive, I could at least reduce hundreds of years of hard work!"

Fang Yue sighed softly: "Give it to him! Anyway, there are too many saints on Mars, so catch it if you don't have enough!"

"Some things are very important to personal grievances, but compared with some things, what we see in front of us is not so important!"

Fang Yue's words were specious, and Kyuubi didn't understand it.

There were people destroying the Demon Race beside him, and Fang Yue couldn't understand what he said too much!

The arrival of this prince's An, made Fang Yue's Yaxing disappear!

The nine-tailed white fox followed Fang Yue ignorantly, thinking in his heart, what could be more important than the survival of his hometown!

Fang Yue took two steps, and the Prince An turned around and came back!

Na Mu Fang and others had been sent away by him, and he came alone this time.

"What else will you do this time?"

Fang Yue's tone to Wang Zi'an was obviously not friendly.

This guy abducted his three important saint-level prisoners as soon as he arrived. Although there were also Fang Yue's voluntary elements, Fang Yue, who had always been stingy, was so generous and regretful!

Wang Zi'an showed a shy smile. He pointed to the nine-tailed white fox: "Can you lend us this young lady for a while?"

"No!"

Fang Yue resolutely refused!

"Don't use righteous excuses to block me! I have done everything I can do with my benevolence!"

The prince screamed, and there was a faint loss in his eyes!

"Actually, the person I want to borrow the most is you, because I know you won't go with me, so I put it next!"

"Has the situation really deteriorated to this degree?"

Fang Yue was slightly frightened.

"It's okay! But in a hundred years, my Vulcan Alliance has lost thirty-two saints, and five great saints! As for the master realm and the Yin-Yang realm, there are countless!"

There was a trace of melancholy in Wang Zi'an's voice.

He slightly waved his hand to set up a barrier.

This enchantment wrapped Fang Yue and Wang Zi'an inside, and no one else could hear any of their voices from outside!

"The opponent this time is an ancient mechanical civilization! They are coming fiercely. As long as they have enough resources, they can create a sufficient number of robots! Those robots are not afraid of death and will explode at every turn, making us tireless, but their spiritual will is quite weak. I heard that you and the Nine-Tailed White Fox both have high spiritual attainments. It's better to take a trip with us. If you can make an enduring feat, our Vulcan Alliance can also consider temporarily supporting your earth! To put it bluntly, now that you have launched Mars as a target, you can indeed relieve the temporary pressure, but the earth is a piece of fat after all, and anyone who sees it wants to take a bite! There is no powerful one. Backing and background support, you are very difficult to sustain! I have discussed with some principals in the Vulcan Alliance, if you can follow me to the front and kill a saint, the Vulcan Alliance can protect your earth. Years!"

The conditions offered by Wang Zi'an were quite attractive.

This Mars was not blessed by the Vulcan Alliance. If there were, these monsters and ghosts would definitely not dare to gather here.

Recently, the Vulcan Alliance in the galaxy is in the sky, and no one dares to disobey their will.

"Forget it! You sheltered for a while, sheltered for the first time? The earth is to strengthen itself after all, to rise, only by stepping up on the bones of the endless strong, the earth can truly stand in this galaxy!"

Wang Zi'an was not disappointed. Before he came, he knew that it was unlikely that Fang Yue could leave with him. He came this time just reluctantly to try. If they succeed, they will make money!

"By the way, what is going on with the treasure of Mars this time?"

Fang Yue suddenly pulled out another topic. In a sense, this Mars is also a land card of the Vulcan Alliance. Although this little brother is not very obedient and has his own ideas, the eyeliner of the Vulcan Alliance on Mars should be able to know some internal conditions.

"You didn't arrange this heavy treasure?"

The prince An looked at Fang Yue in surprise.

Fang Yue's heart slammed, and he suddenly realized that something was wrong!

There was a bang!

The place where the colorful light once pierced the sky suddenly distorted!

The power of the huge space has turned into an endless wave surging!

Fang Yue's body floated in the air, and he displayed the space heaven to absorb all the power of the space that rolled to his location!

Fang Yue's absorption at this moment is equivalent to refining the energy of a space debris of hundreds of square kilometers! His spatial power has been greatly improved!

The Ten Thousand Realm Body reached a level close to the third level of Consummation in one breath.

But Fang Yue did not smile on his face.

"This is a universe-level space teleportation array!"

Fang Yue took a deep breath, and he recognized the source of this spatial fluctuation at a glance.

"I'm done! I was pitted! This is not a treasure at all, but a deadly super kill!"

How similar is this scene!

The scene that Fang Yue encountered on Tianlu was so similar.

Other universe invasions!

They just didn't expect them to choose the location on Mars, at this time node.

The scene where Chung Treasure was born was not deliberately arranged to pit Mars at all, but a complete coincidence, a sign of the successful establishment of the cosmic teleportation array!

Heads of flying insects flew out of that space-distorted black hole!

These flying insects are all levels of the world realm!

One flying insect and two flying insects are of course nothing.

But hundreds of flying insects flew out, and their breath of life was faintly connected, and they turned out to be like a strong master at the master level!

"These flying insects should have run out to find the way!"

Fang Yue's heart speculated slightly!

Without saying anything, he stuck out his palm and grabbed the flying insects into his hands!

Each of those flying insects was only the size of a grain of rice and had a hard outer shell. Fang Yue exuded an aura that was comparable to the peak of the leader realm, but he couldn't break the outer shell of these flying insects!

"These should be the legendary iron-clad flying insects! This kind of flying insects has nothing to eat, and the shell is hard. Even the sturdiness of the flying insect shell at the heaven and earth level is not inferior to the weapon materials of the master level! I have seen this kind of little flying insect information when I was in the frontier! The individual strength of this flying insect is not strong, but once a group is formed, it has the ability to compete with the saints and destroy the world!"

Chapter 1719: Martian catastrophe

"Okay, now there is no need to say whether I want to go to the frontier! This Mars is now the frontier of the universe!"

The smile on Fang Yue's face gradually faded, his body revealed a rare seriousness.

"All the Destroyed Demons, follow my orders, line up, and prepare to meet strong enemies!"

Fang Yue's voice fell, no doubt!

At this moment, Fang Yue has completely entered a state of strong and domineering! The emergence of this cosmic teleportation array is far more dangerous than the existence of Martians!

"Fang Yue, without the above order, is it a bit bad for you to make such a decision?"

Ding Simiao asked with some guilty conscience.

Fang Yue didn't have the slightest tone to discuss with him.

"Since I am the leader of this army, it is up to me to decide everything in this army. Even if it is the Su family who asks questions, I will bear all the consequences. No matter who it is, as long as I disobey my military order, I will take it. I will not be amnesty!"

Fang Yue's voice is sonorous and powerful!

At this time, layers of iron-clad flying insects have flown out of the huge black hole!

These iron-clad flying insects are so black that it is impossible to tell the number of these iron-clad flying insects!

"This time, the creatures of these outer universes must be delayed on Mars, and the earth must not be set up as the main battlefield! Otherwise, the current situation of the earth will simply not be able to withstand the ravages of this level of war!"

Fang Yue's heart had secretly settled his attention, and he wanted to give them power at all costs before the creatures in this outer universe arrived!

"These iron-clad flying insects are terrible! Ordinary means can't kill them at all. Their carapace is hard and invulnerable. Unless it is the first attack of the leader of the master level, it is possible to cause damage to these iron-clad flying insects. However, even so, the number of these iron-clad flying insects is too much, and the damage caused by the iron-clad flying insects by relying only on dozens or hundreds of experts in the master realm is just a drop in the bucket!"

Wang Zi'an poured cold water on Fang Yue. He could understand Fang Yue's thoughts, but it was not easy to do it!

These iron-clad flying insects, one by one, are sturdy in flesh, and they are good at combining attacks, let alone Fang Yue, even if they are experts in the Great Sacred Realm, they will have a headache!

Fang Yue glanced at Wang Zi'an.

"I don't need to kill all these iron-clad flying insects. My mission is to kill a part of them. It is enough to establish a belief that these iron-clad flying insects are not invincible for the Martians!"

"All Destroy Demons obey my orders! All cast destruction beams on the Ironclad Flying Insects!"

Fang Yue's voice was high.

Many destruction demon races are all obeyed. This destruction beam is not a sophisticated method, but any destruction demon who reaches the level of the world will naturally understand the law of destruction, and the destruction beam is the most superficial application of the law of destruction!

This destruction beam is specifically aimed at various indestructible defenses!

Destroy and fortification happen to restrain each other!

If someone else came, it would really be helpless to deal with these iron-clad flying insects, but in the eyes of Destroyer Demon, these iron-clad flying insects are just living targets!

Destroy the demons order is prohibited.

A series of black beams of destruction broke through the air.

Those iron-clad flying insects were hit by the destruction beam, their bodies naturally decomposed and became the smallest dust and powder in the world!

The attack of Destroyed the Demon raised the belief in fighting in the hearts of Martians!

At first, desperate thoughts had arisen in their hearts, thinking that it was the end of the day. Unexpectedly, these iron-clad flying insects seemed not so difficult to kill!

What kind of particle laser cannon, laser gun, vibration annihilation bomb, all kinds of weapons came one after another.

This ordinary cultivator's fighting method is ineffective against these iron-clad flying insects, but some high-tech methods are just to restrain the iron-clad flying insect's unbreakable carapace!

High-tech methods have always been known for their high lethality. The only drawback is that they are rigid and not flexible enough.

If it can't hit, even the most lethal weapon will not take effect. But the problem is that there are too many of these iron beetle flying insects, and you can hit one with your eyes closed. There is no need for any technical mass to carry out specialized aiming and shooting!

For a time, the iron beetle fell like rain.

Fang Yue glanced at Wang Zi'an triumphantly.

"In this world, there is more than just a civilization of practitioners. Since every civilization once existed, once it was brilliant, it must have its merits!"

Wang Zi'an heard the words, a gleam of light flashed in his eyes, he seemed to be inspired by Fang Yue's words, and he nodded slightly!

"However, Fang Yue, don't be proud of you too early! These iron-clad flying insects are just pawns! The real ultimate move is yet to come. Since the other party's civilization is ready to take action, it will not end in a hurry. Let alone build this. The price paid by the cosmic teleportation array is an astronomical figure!"

Wang Zi'an warned Fang Yue not to underestimate the enemy.

However, how could Fang Yue make such a low-level mistake of underestimating the enemy!

A large number of iron-clad flying insects fell, followed by endless death.

The higher the cultivation base during this lifetime, the more vigorous the vitality in the body, and the more powerful the power of death transformed after death!

Fang Yue ran the "Death Scriptures" to transform these dead qi into thick miasma. These miasma converged into Fang Yue's palm, condensed into gray **** one after another!

"I am the son of the sun!"

There are too many flying insects in the iron beetle, and they fly out continuously from the black hole.

Heads of iron-clad flying insects flooded into Mars, and they were like messengers of death, bringing endless destruction and despair to Mars.

Although the Martians are powerful in science and technology, they are ultimately unable to catch the iron-clad flying insects that are like the ocean.

After eliminating about less than 10% of the iron-clad flying insects, those iron-clad flying insects have completely landed on Mars and have begun to devour Martian creatures, buildings, vegetation, and even the land!

These iron-clad flying insects have inherited the traditional zerg's characteristic of not picky eaters, and everything they pass is barren!

However, Mars can be regarded as quick to respond, and a piece of Martian ground is torn apart!

A giant one hundred feet tall slowly crawled out of it!

This is a flame giant, a humanoid combat weapon! Its realm is about as good as that of a strong man in the saint state, but the energy contained in that burly figure is a hundred times more than an ordinary saint!

The flame giant appeared on the stage, and black flames spewed out of his mouth!

This black flame represents the power of the fusion of death and the law of flame!

Although the carapace of the iron armor fly can withstand the attacks of the master realm level, it becomes steam in an instant under the burning of this black flame.

This flame giant spit out flames at will will bring hundreds of thousands of iron-clad flying insects to death, but the iron-clad flying insects cannot cause any damage to the flame giant!

"This is a war weapon carefully researched by Mars. Perhaps they were originally intended to use it against the earth! But they didn't calculate the sudden arrival of this alien universe, so they could only show this hole card ahead of time!"

Fang Yue said to himself, this flame giant also has its own shortcomings, its actions are slow, its own means are powerful, but the scope of damage is limited after all, even if it can kill the iron beetle, it is a drop in the bucket!

"Space Split!"

Fang Yue didn't sit idle when the flame giant started his hands!

With a single stroke of his finger, a space of hundreds of cubic meters of the world was directly separated. Thousands of iron-clad flying insects were trapped in it, and they could not escape from this independent space.

Fang Yue also put a yin-yang zerg into it. The zerg was like a dragon entering the river and sea, and quickly launched a fatal attack on these iron-clad flying insects!

Fang Yue's Zerg restrained the iron beetle, which can treat the iron beetle as a delicious food.

This makes Fang Yue's eyes shine!

You have the Zerg, and I also have the Zerg!

Fang Yue's iron-clad flying insects are roaming around in this universe every day, because the little resources in Fang Yue's hands really can't feed them!

However, the resources in the dead planets and the ups and downs of meteorites in this universe are destined to be limited, making Fang Yue's entire Zerg race slower than ever!

For the Zerg, the best evolutionary resource is flesh and blood!

Now, don't these iron beetles just happen to be full of the best evolutionary resources of his Zerg race?

However, Fang Yue was not in a hurry to summon all his Zerg back.

After all, this is Mars, not Earth.

Although he was temporarily helping Mars to defend against the enemy, Fang Yue never planned to reconcile with Mars. If Mars can survive this crisis, it will still be the number one enemy of the earth!

Fang Yue wanted to use these iron-clad flying insects to consume more power of Mars and open more trump cards.

This time the civilization of the outer universe descended on Mars, already driving Mars to a dead end, leaving them nowhere to escape!

Sure enough, with the passage of time, the flame giants one after another tore the earth and came out from the depths of Mars. The bodies of the flame giants at each end were extremely burly and mighty. The place where their soles landed is full of flames. Noisy place!

Fang Yue didn't know how many flame giants appeared in the entire Mars, but he was only able to sense the number of dozens of flame giants within the range he could sense with his divine mind. Although the individual realm of this flame giant was barely enough It is equivalent to the powerhouse who has just entered the saint, but with their amazing body, they are stronger than the ordinary middle-level saint!

"This Mars is really not easy!"

Fang Yue squinted his eyes and said to himself.

Wang Zi'an also raised the same sentiment.

He is a member of the Vulcan Alliance, and now the strength displayed by this Mars and the Mars Alliance's perception of Mars are like two extremes day by day!

This method of making flame giants comparable to the saint level is not even controlled by their Vulcan Alliance!

Although the Vulcan Alliance also has similar cards and skills, after all, there is one more method and another way!

A strange spark slowly emerged in front of everyone.

At this moment, the light brain on Fang Yue's wrist suddenly lit up.

After Didi's voice, Fang Yue communicated with the optical brain, and a strange face popped up on the other end of the optical brain!

"Hello Fang Yue, I am Xu Yunsheng, the Great Elder of Mars!"

Chapter 1720 Fang Yue's amazing plan!

Fang Yue was a little surprised, why did Xu Yunsheng look for himself?

Although he boosted the courage for the Martians just now, he shot the first shot against the iron-clad flying insects, but this Xu Yunsheng should not be naive, thinking that he will help Mars defend the enemy.

"Xuyun grows and grows old, what can you do with me?"

Fang Yue's tone was slightly unkind, but he didn't completely choke the virtual cloud back.

Xu Yunsheng glanced at Fang Yue deeply through the screen of Guang Brain.

"Now Mars is facing a formidable enemy and is at stake. I won't say any more polite words! Mars and the earth are cold lips and teeth! If my Mars is destroyed, the creatures of this outer universe will destroy the earth next. I know that Mars and the earth There is a long-cherished wish, but at this time, I hope you can focus on the overall situation!"

Xu Yunsheng tried to convince Fang Yue.

Fang Yue sneered and said, "Xu Yunsheng, don't you think you said this too much? From another perspective, if the party that is being invaded by the outer universe is the earth, you will spare no effort to help the earth fight the outer universe. A creature of the universe?"

"will not!"

Xu Yunsheng said categorically, without the slightest drag!

Fang Yue sneered and said: "There is a saying on the earth called don't do to others what you don't want to do to others! I think this sentence is just right for Xuyun to grow old! What you Martians can't do, don't want the earth. People can be more generous than you!"

"Naturally, I don't want you to help in vain. Now, the earth is in the initial stage of just recovering! All kinds of resources are scarce. Although the foundation is strong, there is not necessarily the opportunity to use all the foundation to develop into a galaxy giant! If you can lend you part of Mars's background, the earth's development speed will surely be hundreds of times faster than it is now. I know that you

have a good relationship with the Galaxy Bank and often buy some scattered information from them. However, the real civilization It is a complete system, and every detail is very important! With your or the earth's financial resources, it is still very difficult to buy all the knowledge of the entire civilization system!"

Xu Yunsheng said unhurriedly: "I have all kinds of knowledge and information you need in Mars. As long as you are willing to help Mars overcome this difficulty, I am willing to provide all these information on behalf of Mars! And Mars and the earth will We will always be friends and will not violate each other!"

Xuyunsheng made a vow.

And Fang Yue chuckled and said: "Xu Yunsheng, don't you think it's too late to say this kind of thing now?"

"Whether this Mars can be kept, no one can say it is bad! This is a cosmic teleportation array after all, and the strength of the different universe behind it will inevitably be strong and terrifying! Since they chose Mars as their landing site, it means They must be confident that they can conquer Mars and use Mars as their springboard!"

"Use some illusory temptations to let the earth wade into this muddy water, imaginary, do you think your conditions are a little too ridiculous!"

Fang Yue stared at Guangnao closely.

Xu Yunsheng couldn't help laughing: "This earth and Mars are originally the relationship between the lips and the teeth. If my Mars is destroyed, the next turn will be your earth! Even if I don't make any conditions, you want to prevent the earth from becoming the final main battlefield. Help too! Fang Yue, I believe you don't understand this simple truth!"

"Earth is the earth, Mars is Mars, when will my lips die? Even if Mars falls, what I have is a way to bring disasters to the east and the creatures of this outer universe to other places! I don't have any other skills, but I have planted them. It is my specialty to put blame on the trouble, and to attract the water to the east! Xu Yunsheng, come up with some practical benefits, otherwise, don't blame me for turning my face and ruthlessly, and now leaving with all my men and horses!"

Fang Yue's voice fell.

Xu Yunsheng could only sigh lightly in the end.

"Fang Yue is indeed Fang Yue. If you want to empty the white wolf, it seems that it won't work for you! But that's okay! Don't care about your interests! If my Mars can really escape this time, We will not owe anything to the people on earth!"

"Let's do it! My Martian military system is open to earthlings! If the earthlings can help us kill the enemy on Mars, they can enjoy the same treatment as my Martians!"

Xu Yunsheng finally compromised.

Fang Yue agreed: "Well, if you dare to go back or refuse to honor it, be careful I get into trouble!"

Fang Yue threatened indifferently. He knew that people like Xu Yunsheng kept their promises, and would not easily make such contradictory things in such matters!

Xu Yunsheng took a deep look at Fang Yue: "Don't worry, I won't use Mars' fate and future to joke with you! However, Fang Yue, you have to remember that if Mars can survive this catastrophe, Mars He and the earth are still enemies, endlessly dying!"

"I hope you Mars still have this qualification!"

After Fang Yue finished speaking, he turned off the light brain. After seeing the flame giants, he knew that even without his help, this Mars would not fall into the desperate situation of destruction temporarily depending on its own background!

So he needs to return to the earth and plan his future actions from a long-term perspective!

"Receive troops, retreat!"

Fang Yue yelled the Destruction Demon Race under his opponent!

"Good good!"

Ding Simiao was overjoyed, he was really worried that Fang Yue would take these people and the iron beetle tribe with them to the end.

Destroying the demons is powerful, but it is necessary to distinguish who the opponent is!

Like these iron beetle races are endless, every time they do it they swarm up, the mountains are whistling and tsunami!

Even if it is the destruction of the demons, it is impossible to withstand such worm-sea tactics!

Fang Yue left with the Destroyed Demon Race, he wanted to go, but the Iron Armored Clan stopped!

They are a race that bears grudges. Fang Yue just wanted to leave, and behind it was a black iron beetle race chasing him up!

"Hahaha, Fang Yue, you also have today! It's not that easy to want to go!"

A Martian sage laughed happily when he saw this scene, and he already hated Fang Yue a long time ago!

If it weren't for Fang Yue, Mars might not have been so troublesome.

How great it would be for your little earth to be conquered by Mars!

"Is it the iron beetle? Since you want to die, let's give you a ride!"

Fang Yue took a deep look at the tsunami-screaming iron-clad zerg in the mountains behind him, his voice was faint, and he summoned heads of zerg out of the void!

Those Zergs saw the iron beetle Zergs chasing and killing them, as if they had seen superb food.

They headed up and feasted on those iron beetle tribes!

The iron-clad zerg like a **** killer meets Fang Yue's zerg, it's like a mouse has seen a mess.

They turned around and left without saying a word.

But they were caught up by Fang Yue's zerg before they had gone far, and they began to swallow frantically!

"This Fang Yue... actually has a way to deal with the iron beetle clan?"

The Martian Saint couldn't help but stare at the scene in front of him with an incredible face!

In his thinking, the Ironclad Zerg race should be invincible in the world, at least the strong below the Great Sacred Realm can hardly cause fatal damage to them.

But the Zerg in Fang Yue's hands is like the nemesis of the Iron-Borrowed Zerg.

These iron beetle tribes who were hunted just after they were born are running around!

Groups of iron beetle tribes were swallowed by Fang Yue's zerg army, it was just a cup of tea, and this iron beetle tribe lost nearly a billion!

When the Zerg's interest in hunting down the Iron Armored Zerg was growing, Fang Yue suddenly retreated and summoned all the Zergs back!

"Goodbye Mars!"

Fang Yue sent the Zerg back to the void.

And the Martian saint shouted: "Fang Yue, you come back to me!"

Unfortunately, Fang Yue's figure has disappeared into the void.

The destruction demons behind him also gradually disappeared!

Earth.

Sacred meeting room.

This conference room is a conference room specially built after the earth's aura has recovered.

The meeting room is located on a small island in the Mediterranean.

The area of the meeting room is not very large, only a few hundred square meters!

There are very few seats, with less than a hundred places.

And this time, there are only about thirty people in the conference room!

It seems that this is not a solemn meeting.

But if there are really high-level people on the earth, you will be surprised at the high level of the participants in this meeting.

The people in the conference room are all leaders of all forces on the earth today!

Among them, the lowest level of combat power is at the level of Saint Realm!

"Fang Yue, is there anything important for you to summon us this time?"

Fang Yue, a beautiful snake with a head of snake god, winked.

This guy looks a bit red, but anyone with a certain identity on the earth knows that this woman is a real iron fist on earth!

What she represents is the monster race from all sides in the Amazon jungle!

Powerful people among these monster races have emerged in large numbers. They have awakened from the ancient times, and each one has inherited the power and wisdom of the ancient times and has various advanced methods!

"Nasa, don't be like this! I am a serious man!"

Fang Yue said pretendingly.

The beautiful snake Nasha smiled idiotly: "Who doesn't know that you Fang Yue is afraid of the inside! Although you have not really established a relationship, everyone knows that you Fang Yue already has a sweetheart! Like me, a teacher and nurse I am afraid you are not interested in the old woman! Alas, it is really the wrong time!"

"Ahem! I'm here this time to talk business! The arrival of the creatures in the outer and outer universe on Mars is a great threat to my earth, but the threat is also an opportunity! If we can take advantage of this opportunity, let us Being able to sneak into another universe and plunder the resources that are not available in the universe can become the true foundation of our earth!"

Fang Yue's words shocked the crowd.

They all know something about the arrival of this different universe!

After all, they are all powerhouses above the saint realm, and there are even eight great saints among them. Their eyeliner will never be simply limited to the earth!

But they are thinking more about preserving the earth. As for plundering the resources of the outer universe, this thing is whimsical!
