

God of Life 1721

Chapter 1721 Long Qian

"Fang Yue, I am afraid it will be difficult for the earthlings to survive this calamity with their own strength! I suggest that we should stop struggling and be whimsical! Taking advantage of the fact that Mars can delay our earth for a while, let's quickly find a new one. Prepare to move away from the planet! As long as our earthlings can be preserved, then the earth's civilization can continue to be passed on! If there is no home, just find another one, but without your family, then everything is gone!"

An old man in a white coat said Fang Yue sadly.

This old man is an older generation of strong Dragon Qian on Earth. This Dragon Qian is not a timid person. On the contrary, although this Dragon Qian only has the strength of the peak realm of the Saint Realm, it is on Mars. When the strong came, he charged to the forefront of the battle sequence of the strong on earth alone!

At the same time, this Long Qian is also a great scientist, and he is a leader among the people on earth in the fields of biotechnology and aerospace!

If there is a little hope, he will not choose to give up.

But this time, he, Long Qian really couldn't see that the people on earth still had the slightest hope of surviving this catastrophe!

What they are about to face is not a certain person, a certain planet, a certain organization, or even a certain star field, they are facing a complete and vast unknown universe civilization!

A planet against a cosmic civilization.

This is like despair and ignorance that a grain of sand wants to flood the entire sea!

It's not that Long Qian doesn't love the earth, on the contrary, he is one of the strongest human beings who love the earth!

But now, he Longqian can no longer see the slightest hope that the earth will continue!

Why not take all the earthlings to escape early!

Long Qian's attitude is not negative, but a rather sensible choice!

Fang Yue glanced at Long Qian deeply: "Senior Long Qian, in your heart, is the current situation really bad enough?"

Long Qian smiled bitterly.

"It's not in my heart, but the facts are like this. I have read the information. In the several events that I have known about the advent of the outer universe, they have swept through thousands of troops, like a bamboo, and flattened the surrounding stars. People want to resist, but their arms will never be able to twist their thighs! The arrogances, generations of heroes and heroes, they all eventually become the dust of history, and they can't even leave their names!"

Long Qian's words silenced everyone around him.

They must maintain their due rationality in this meeting. They must be responsible for the people of the earth and their children and grandchildren on the earth!

Although they are great saints as saints, they are absolutely not afraid of a **** battle!

But what about their descendants?

What about those mortals?

How can they withstand the impact of civilization in this outer universe!

"Senior Long Qian's meaning is probably also the meaning of most of you!"

Fang Yue's tone became cold.

This scene was actually similar to what he had expected.

Appeasement, compromise, escape...

In the face of unpredictable enemies, everyone has such a desperate feeling!

"If you think this can save the last ray of fire on the earth, you can do it! Even, I can help you set up a teleportation array, and you will want to leave, or those who you think need to leave quickly evacuate!"

Although Fang Yue's tone was cold, the content of the words made the big guys stunned!

They knew that Fang Yue meant fighting to the end.

But no one thought that Fang Yue would provide them with such convenience at a critical moment!

"It doesn't matter if you send away some of them, it means that even if the earth is defeated, there will be hope of rejuvenation! This also means that I can stand on my back, regardless of victory or defeat, I won't have any Worry for the future!"

Fang Yue's tone became impassioned again.

He is a nail house, a nail house who does not want to move.

It used to be and it is now!

The earth is his home, whoever wants to let him move away must be prepared to pay a huge price!

"Okay! Fang Yue, since you said that, I will stay on this earth and fight with you to the end! My children and grandchildren can leave, but I can't leave! This is my earth and my hometown. My mother, how can children and grandchildren leave easily when her mother is in danger?"

Long Qian spoke again, but this time he was on Fang Yue's side.

His purpose is only to preserve the earth's fire, but he has never thought that he should be so sluggish!

"If I can send away a part of the geniuses of the earth! I won't have any worries, no matter whether it is Mars or the outer universe, if I dare to hit my earth, there will only be a dead end!"

The battle of the strong on the earth is boiling, who has never been a teenager, and who has never been enthusiastic!

Sometimes they can retreat, but at this time, they must stand up and fight for the earth! Fight for glory!

Fang Yue was pleased to see such a scene.

There are so many powerful people on the earth who are willing to fight to the end for the earth, which proves that the spirit of the earth will last forever!

"Actually, all this is not as pessimistic as you imagine! As I said before, the arrival of the alien universe is a crisis for the earth, and it is also an opportunity. Although the alien universe is powerful, it is the strong one. How strong can it be? Great Sage? Virtual fairy? Is it possible that they really have powers beyond the level of virtual fairy... True fairyland? If there are real fairyland powerhouses in this different universe. , The true immortal powerhouses of my Ten Thousand Worlds Universe will naturally come to deal with them! You should know that there are also virtual fairyland powerhouses in my earth! In terms of the quality of high-end combat power, in fact, I am no different from another universe. It's so big! As for the number... this is just a portal to another universe. They don't know how many of the same portals have been opened. Although they will send a large army to come, it is absolutely impossible for them to come out for a portal. !"

Fang Yue's tone was calm, as if describing a trivial matter.

Fang Yue's words gradually calmed down the anxiety in the hearts of the strong present!

"Moreover, you probably all know that the universe of the Ten Thousand Worlds has gone through the cycle of epochs, and has recently reached its end! Today, the destruction of civilization and the arrival of natural disasters in the various worlds of the Ten Thousand Worlds universe have gradually become the norm! Even in the Milky Way galaxy, it's not peaceful. The army of destroying the demons has come one after another! I am now mixed into the destruction of the demons and led an army of tens of thousands to station outside Mars!"

Fang Yue's words made the saints and the great saints agitate.

When they were still on the verge of the destruction of the Demon Race, they did not expect that Fang Yue had already reached a high level among the Destruction Demon Race. He actually had an army of 10,000 Demon Race Destruction in his hands. Kind of and unreal feeling!

It's like a police officer ganging undercover.

After decades of undercover, he suddenly found himself in the position of the gang boss!

Fang Yuexu pressed his palm to signal everyone to be quiet, and then he continued: "Do you know how the army that destroys the demons is configured? The soldiers at the lowest level are all cultivation bases in the rotation realm, and the middle-level officers are all in the Yin and Yang realm. The strong man in the army, and the existence above the rank of lieutenant in the army is almost all the strong man in the leader realm! The ten thousand chief is the existence of the saint realm!"

Fang Yue's words immediately caused a commotion among many saints and great saints.

Especially the powerhouses of Saint Realm, their hearts are shocked!

The cultivation of this saint state is their greatest pride!

They always think that they are aloof and supernatural beings!

But who would have thought that in today's Destroyed Demon Race, a mere ten thousand chieftain could already sit on an equal footing with them!

This gives them the illusion of being knocked out of the world.

"Actually, the real enemy of this universe is not a strong man in a different universe. Although a strong man in a different universe has extraordinary means, the stronger the cultivation base, the greater the cost of traversing the universe! Dozens or even counts Hundreds of powerhouses descended and placed in the vast universe of Ten Thousand Worlds, not even a drop of water in the vast ocean! And the endless destruction of demons is the real enemy of the Ten Thousand Worlds Universe!"

"In other words, even if the Earth does not have this event of the outer universe coming, in the future, when the Demon Race army invades, who can resist the aggressiveness of Destruction Demon Race?"

Fang Yue's successive questions left everyone on the earth speechless.

Each of them knows the end of this era, but who is unwilling to admit it!

They all dodge and avoid subconsciously!

But now, Fang Yue exposed them to the crisis, giving them a sense of urgency.

"This time, you can let the seeds of the earth escape to other planets and even the world for refuge, but in the future, when the army of destroying demons sweeps the entire universe, where can you hide them?"

Fang Yue asked questions one after another, and all the saints were speechless!

"My proposal just now, everyone can think about it again. There is an era destruction in the universe of the ten thousand universes, but the civilization of the different universe may not have reached the end! It is the safest and safest thing to mix into the different universe! Moreover, even if this plan fails, in the process of fighting the alien universe, we can seize a large number of objects and materials that are not available in the universe and sell them, in exchange for a large amount of resources for the people on earth, and cultivate more power. Fight against the Destroyer Demons!"

Fang Yue mentioned his plan again.

This is the first time that all beings on the earth have solemnly begun to consider Fang Yue's proposal!

Originally a very unreliable proposal, at this time, in their opinion, there was a hint of feasibility!

Fang Yue saw how the sentient beings were thinking, he decided to add another fire!

"This is a magic weapon that I seized when I encountered a creature in the outer universe. It is called an inner magic weapon. It can refine the qi, blood and true qi in the practitioner's body, repeatedly tempering it, and turning it into gold. The effect is that even a mediocre cultivator who can be assisted by an inner magic weapon can also have the talent and potential comparable to the talent and potential of a hundred years of sight!"

Chapter 1722: Void Spar

"Inner Dharma?"

Long Qian was surprised: "Is there really such a magic weapon in this world that can turn mediocre people into geniuses?"

"Yes, I have personally experienced this inner magic weapon. It has high and low levels. As I said earlier, it should be a relatively low-level inner magic weapon in the outer universe! If it is an intermediate or advanced inner magic weapon, its value and effect will definitely be more exaggerated!"

Fang Yue didn't slow down, in order to increase people's trust, he took out a low-level inner magic weapon.

This inner artifact was not really obtained from the hands of the outer universe.

This inner magic weapon was refined by Fang Yue himself, and it was modeled after the inner magic weapon of the universe.

The grade of this inner magical artifact is not very high, it is only the first level product among the inner magical instruments, but this inner magical instrument has consumed Fang Yue's great time to research it out!

Fang Yue still has to stay in his hands to continue studying the real inner magic weapon. After all, he has only penetrated less than one percent of the inner magic weapon.

"This is what you call the inner magic weapon?"

A group of bad old men gathered around, and they were full of curiosity about this legendary inner magic weapon!

"Tsk tsk, this inner magic artifact is really unique. These exquisite designs make people novel! The base of this casting inner magic weapon is actually a void spar! This void spar can contain all things, and nature can also contain truth. Qi or blood is tempered and sublimated in it!"

The research on the Dragon Potential artifact was the most profound, and he could see the refining principle of this internal artifact at a glance.

"The inscription engraving on this inner artifact is unfamiliar, but the charm in it is full. If my guess is correct, this should not be the real inner artifact of the outer universe! It should be an inner artifact carved out by Fang Yue yourself. Magic weapon?"

Long Qian looked at Fang Yue.

Fang Yue smiled shyly: "It's true! The real inner magic weapon is a thousand times more powerful than it, but at this time I was able to take it out!"

Fang Yue's words are meaningful.

Why can't he take it out?

Who is he on guard?

Everyone is drumming in their hearts.

Although there was a hint of humiliation, no one objected.

This person's heart is separated by his belly. Who knows that none of them have other careful thoughts?

From a certain angle, Fang Yue's guard is not without the slightest reason.

"However, even if it is an imitation inner magic weapon, it has provided us with a new research idea. The only problem is that this void spar is a necessary refining material for the inner magic weapon. This thing is quite difficult to find on earth. "

Long Qian has already begun to consider how to mass-produce void spar on earth!

Fang Yue took a look at Long Qian, and then said, "I have a little bit of thinking about this matter. If you are conservative, you can exchange meritorious services from the Galaxy Star Alliance or buy it directly from the Galaxy Bank! This void spar is not an ore. It is the strange matter left over during the void riots. Every void riot will produce a large number of void spars. Although the value of this void spar is very high, there will be a large amount of inventory in the Galaxy Bank and the Galaxy Covenant. !"

"I have already inquired about the Galaxy Bank. About one or two void spars are worth about three hundred top-grade spirit stones! And to refine an imitation of the inner magic weapon of my color, at least five void spars are needed! "

Fang Yue's voice fell to the ground.

Long Qian couldn't help being silent.

This inner magic weapon can indeed create genius, but the cost and price also need to be carefully calculated!

It is obviously not cost-effective to create an inner magic weapon with 1,500 best spirit stones and create an ordinary level genius.

Long Qian was silent.

Fang Yue paused for a while before continuing: "If you don't buy, everyone can actually take another path, that is, hard grab!"

"grab?"

Hearing this word, everyone was stunned.

Who is Fang Yue going to grab?

Galaxy Star Alliance or Galaxy Bank?

These two people are huge monsters to the earth. Although the earth is gradually becoming stronger today, there is still an unspeakable gap compared with the two giants!

Fang Yue said with a sneer: "Of course it is to grab some information about the outer universe that is coming this time. I have searched it out from the soul of the iron beetle by searching for the soul!"

Although this iron beetle is only a kind of zerg , But they can cultivate to the level of the world realm, they also have their own wisdom!"

"This outer universe is called the Wanhua Universe! This universe is actually the same size as the Ten Thousand Realms Universe, and there is not much difference in strength! However, this Wanhua Universe is rich in a kind of Void Beast! This Void Beast is Relying on and swallowing the void for a living, their bodies will gradually condense a large number of void spars! The quality of these void spars is excellent, and it is even as good as the void spars produced during the void riot! This void beast, Xiu Because the weakest is probably at the level of the leader realm, the void beasts of the general bloodline are powerful as long as they reach the sage realm! And the king-level void beasts may be comparable to the strong ones in the great sacred realm! An ordinary Void Beast can produce three to five hundred kilograms of Void Spar from its body!"

Fang Yue's words made the hearts of all the saints tremble slightly!

At this moment, different thoughts arose in their hearts!

No matter what these people think.

Fang Yue finally moved these sage-level bigwigs. As for the follow-up, how they arranged it, it was not Fang Yue's control.

In fact, Fang Yue's position on the earth is extremely special.

He doesn't have too many troops or men. In a sense, Fang Yue is already a lone ranger! He does not belong to any power on the earth, and he has no decision-making power on the earth.

However, from another perspective, Fang Yue is a real tycoon on the earth.

For the time being, Fang Yue's real power is beyond the earth!

In the Galaxy Star Alliance, he also controls a large number of resources and horses, which are enough to be worth tens of millions of times the number of people under these big men.

Moreover, Fang Yue's prestige on the earth is very high, not only in terms of the people, but also in the face of those old antiques who have just recovered!

Therefore, Fang Yue was able to convene a meeting of these big bosses who really have the power to decide.

However, Fang Yue would not excessively interfere with the normal development of the earth.

Fang Yue's family knew about his family affairs, and let him fight and kill him, so that he could be kidnapped.

But let him command the development route for the people on earth, his knowledge is still not enough.

Afterwards, Fang Yue murmured a few more words before leaving. He said that the Martians were going to open up the military system to the people on earth. If they go, let these big guys make their own arrangements!

Above Venus.

Fang Yue stood in front of Su Tuo.

Su Tuo looked at Fang Yue expressionlessly, his gaze was looking up and down at the rookie of Destroyer Demon in front of him!

"Fang Yue, I really don't know whether you are Human Race or Destroyed Demon Race! Say you are Human Race. The bloodline of Destroy Demon Race in your body is so pure, but say you are Destroyed Demon Race. At the critical moment, you It's standing in the camp of earth people again!"

Fang Yue couldn't hear likes or dislikes in Su Tuo's tone.

Perhaps the real Sucho himself has no likes or dislikes.

"Give me a reason, continue to reuse you and not kill you!"

Su Tuo left a word, and the eight saints who destroyed the demons around Fang Yue were all nervous!

They had already inquired clearly about Fang Yue's record in the Galaxy Star Alliance.

The saints under his hands are almost killed!

They were afraid that Fang Yue would tear his face and violently.

Fang Yue chuckled: "Since I dare to come back, I have the confidence to convince you! These are the carapaces I peeled off from the iron beetle clan, the best material for refining, and the carapace of thousands of iron beetle flying together. , Assisting some other materials, enough to refine weapons of the leader realm level!"

Wow!

Fang Yue threw the carapace of the iron beetle on the ground.

Su Tuo was expressionless.

"Do you think I'm like someone who lacks weapons and materials at the master level? I don't have rare weapons at the master level, let alone these materials?"

Fang Yue glanced at Su Tuo and sneered: "Prodigal son, you really are not as good as Nujiang Hou! You are not short, but you Su Clan soldiers are not lacking. If every Su Clan soldier's armor is refined a little With this kind of carapace, the firmness of their armor will be increased by several or even several times! Armor is a life-saving thing. Is the life of your Su family soldiers worthless?"

Fang Yue's words made Su Tuo's eyelids jump.

With the sound of the prodigal just now, Su Tuo almost jumped up and killed Fang Yue.

However, Fang Yue's words are too heartbreaking!

The carapace of this iron-clad flying insect is not for their senior Su family!

These things are reserved for the soldiers at the bottom of the Su family!

These soldiers were like ants in his eyes, but there is no doubt that the entire Su family was killed by them!

"Zhu Xin! Fang Yue counts you as winning this time! Bring these carapaces back, and count you a great effort, I will extend your military authority by another 3,000 people!"

Although there is some reluctance in my heart.

But the distinction between rewards and punishments is a necessary method for Su Jiayu!

"Thanks to Master Su Tuo for the reward!"

Fang Yue clasped his fists and left!

After Fang Yue left, a saint of the Destroyer Demon Race who had besieged Fang Yue just now walked to Su Tuo's side in two hurries.

"President Su Tuo, the origin of Fang Yue is suspicious and unpredictable. I suspect that he wants to use my power to destroy the Demon Race to eliminate the iron armored flying insects. The fisherman is profitable. Don't be fooled!"

Su Tuo's face was slightly gloomy.

"Mr. Liu doesn't have to say much, I know these naturally! But if I don't wait for Fang Yue's arrogance, wouldn't it chill the hearts of the subordinates? This time, I will fight a beautiful battle. Otherwise, if this opportunity is taken away by the Nujiang Hou, my future position in the Su family will be worrying!"

Su Tuo said calmly.

Chapter 1723: The rise of Nujiang Hou

Hou Nu Jiang turned off the light brain on his wrist.

He was thinking alone in a dark wooden cabin.

A pair of brilliant eyes are like two stars in the dark night, shining strange lights in the darkness.

Hou Nujiang saw the video of Fang Yue's actions in Mars from Guangbrain.

To be honest, Fang Yue's displayed skills and strength have far exceeded his expectations.

Killing a saint is like killing a dog!

If this level of strength were to strike him, he estimated that it would be difficult for him to survive three breaths.

Although Nujiang Hou is strong, it has a limit.

But Fang Yue's combat power seemed to still have a lot of extra energy that he had never used!

Nu Jianghou's breathing was rapid, and his chest was violently ups and downs.

Now he faces a difficult choice, whether Fang Yue should use it or not!

Before, in Nu Jianghou's eyes, this Fang Yue was a sharp knife.

Holding this knife in his hand will not hurt himself, it will only hurt others.

But now, he can't hold this knife!

If you continue to cooperate with Fang Yue, it is equivalent to seeking skin with a tiger.

But put down this knife, Nu Jianghou was reluctant to bear it!

It was like a temptation from the devil.

People can't resist and give up.

The number of praises Nujiang Hou received from the family in recent days is the sum of the previous decades!

The merits of his name are advancing by leaps and bounds, worthy of his hundreds of years of hard work.

In the past, Nujiang Hou, who was not considered dazzling in Su's family, is now included in the observation sequence of the family heirs!

Nujiang Hou knew himself well, he knew that all these changes were brought to him by Fang Yue!

To give up Fang Yue is to give up the future.

However, this Fang Yue is unpredictable, if he rebels against the Su family one day, he will be implicated again!

Nujiang Hou felt that he needed to calm down and think about how to take the next step, and how to deal with the future relationship between him and Fang Yue!

After a long time, Nu Jianghou opened the door.

He opened the light brain on his wrist.

"Connect Fang Yue."

The voice of Nu Jianghou was low and hoarse.

He decided to take the initiative!

Fang Yue's avatar was cast on Guangnao's screen.

Fang Yue looked at Nujiang Hou with a faint smile: "Belong to Xianyue, take part in Nujiang Hou!"

Nujiang Hou was slightly silent, and then said, "How long have you been waiting for this call?"

"Three hours!"

Fang Yue gave a precise figure.

"However, I finally didn't make me wait in vain! It seems that Lord Nujiang Hou has made a decision!"

Nujiang Hou sighed slightly and said: "If you were really born in my Su family, you might become an insurmountable enemy for me. I am fortunate that I can have an ally like you!"

"Thank you for the compliment of Hou Nujiang. Hou Nujiang means that you don't mind my identity and origin, and you want to continue working with me?"

Fang Yue squinted his eyes, this Nujiang Hou was indeed a wise man!

In the past dynasties, the new emperor succeeded to the throne. How many princes who were powerful before can die?

The Su family is not a dynasty, but the struggle is even worse.

If this Nujiang Hou is always mediocre, it is fine, but since he has been included on the watch list of the family heirs, he must fight.

If he loses, what awaits him is the liquidation of the new generation of Su family heirs.

Without Fang Yue, the Nujiang Hou would die.

With Fang Yue, this knife may be dangerous, but at least it can give him a chance!

Nu Jiang Hou smiled bitterly, but Fang Yue chose to have already arranged a plan for himself.

Poor, he hadn't seen the essence of the problem clearly before, so he dumbly got into the cover.

"What is your plan?"

Nu Jianghou is straightforward. Now in a sense, he and Fang Yue are grasshoppers tied to a rope.

If he is strong, Fang Yue's military power will naturally become more abundant.

If he falls, Fang Yue will also be liquidated by the Destruction Demon Race.

"Make a contribution, kill Su Tuo!"

Fang Yue only uttered six words, but these six words fell into Nu Jianghou's heart as if Mount Tai was overwhelming!

"It's easy to make a contribution, but kill Su Tiao..."

From the arrangement of this operation, it can be seen that this Su Tuo has a higher status in the Su family than him!

Behind Su Tuo is supported by a series of powerful people. If Su Tuo is killed, he will be forge a deadly vengeance with those people!

"If you don't kill Su Tiao, Su Tiao will kill you. He has already regarded you as an imaginary enemy competing for the pillars of the Su family! What's more, killing Su Tiao is actually not as direct as you think. We can kill people with the knife! This Su Tuo didn't die in your hands. What did his fall have to do with you and me?"

Fang Yue's tone was quite light.

But Nujiang Hou felt a chill in his back.

Su Tuo is also regarded as an elite disciple in the Su family. He is with him and is protected by five Su family saints!

It was so difficult to kill him, but it was as simple as killing a chicken in Fang Yue's mouth!

The image of Su family, which is extremely powerful in Nu Jianghou's mind, is collapsing bit by bit.

At this moment, he didn't even doubt whether Fang Yue's plan could be successful, he just needs to wait here quietly for news!

At this time, Su Tiao had already led his men into the periphery of Mars.

There are many iron beetle races flying out of the borders of Mars like insects!

The iron beetle does not need to be able to breathe, to be able to fly and swallow in the void! They only need enough resources and minerals to swallow, absorb, swallow, and absorb again!

"Close the net!"

Su Tuo gave an order.

Thousands of elite soldiers who destroy the demons will form a battlefield!

A big net of powerful energy has formed in this battle formation, including the iron-clad flying insects that count money!

The value of iron beetle is high, especially their carapace.

However, although the realm of the iron armor flying insect is low, but the carapace is hard, so that the Martians are helpless to them and can only barely cope with them, but destroying the demons is different. Destroying demons is innately mastering the power of destruction, and this power of destruction has a miraculous effect on the iron-clad flying insects.

They have seen Fang Yue's demonstration before! If they can no longer deal with the iron beetle, then the general Su Tuo can go home!

Sure enough, the rays of destruction fell one after another, refining all the trapped iron-clad flying insects. The body of the iron-clad flying insect was refined, but the carapace behind it was left!

Seeing that piece of black armor, Su Tuo was overjoyed.

In his eyes, these are all white money, and he can exchange a lot of resources for him in the future!

Presumably, his status in the Su family will be higher!

Su Tuo is a little fanciful!

One wave, two waves, three waves...ten waves!

Su Tuo was already excited and couldn't help himself.

Because each wave of iron beetle and black bugs seemed to him to be a large amount of resources sent to his door!

Just as Su Tuo became more excited as he thought about it, thinking that he had found a gold mine, a team of hundreds of people suddenly appeared in front of Su Tuo!

The configuration of this team is quite high. The team is a powerful sage of the eighth rank, and there are ten team captains who are all at the sage level, and their ordinary players are all at the seventh or higher level of the master realm. exist! How could such a highly-matched team not shock Su Chou!

"We are from the Wanhua Universe and are practitioners of the Wanhua Universe! You, the native of the Wanhua Universe, have forcibly plundered the iron-clad flying insects in my Wanhua Universe. You deserve to die. Leave a whole body!"

The captain said to Su Tiao.

Su Tiao was stunned, and then laughed, he had always destroyed the demons and forced others to judge himself.

This is the first time he has seen anyone who dare to threaten them to dictate himself!

Su Tuo snorted coldly: "If you want to make a move, hurry up! Don't think that people from other universes are great!"

Su Tuo is also a man, not to mention that he is quite confident in his own strength!

His cultivation realm has already reached the ninth level of the Saint Realm. Even if he is facing a powerful person who has just entered the Great Saint Realm, he is confident enough to escape from the opponent's hands!

The sages of Wanhua Universe didn't say much, now they can only see the truth under their fists!

With the cooperation of the team of hundreds of people in Wanhua Universe, the surrounding world was chaotic, and a thick haze surrounded Su Chuo and the others!

The smoke is airtight, and any divine exploration will also fail in it.

This is tantamount to making Su Tuo's army immediately lose the ability to understand Wanhua's universe.

And Su Tuo, trapped in the mist, was also unwilling to show weakness.

A beam of sword light slashed out, as powerful as the sky.

The silver light can illuminate nothingness!

This knife has initially reached the level of a half-step Great Saint Realm powerhouse!

When the knife light fell, many saints of the Wanhua Universe unexpectedly joined forces to cast a mysterious spell. This spell fell on the knife light, and the knife light was constantly weakened and corroded during the flight.

In the end, when the sword light really arrived in front of the Wanhua Universe Saint Realm powerhouse, the power of the sword light was already in ten!

All sentient beings can easily resist this sword light by joining forces!

When the people of Wanhua Universe, Ma and Su Tuo, they did not notice.

Two strange figures have appeared on the edge.

This figure is one big and one small, quite harmonious!

"Fang Yue, what are you..."

Nu Jianghou looked at Fang Yue in surprise.

This interstellar teleportation requires a very high price, and this is the first time for the Nujiang Hou to conduct interstellar teleportation!

Before they descended into the solar system, they relied on wormholes or teleportation arrays to reach here.

However, this Fang Yue was able to transport him from Pluto directly to the vicinity of Mars with the help of one person. This method is already unpredictable!

"This is the battlefield where Su Tuo and the saints of Wanhua Universe are fighting! Anyway, Su Tuo is dead this time, but there is still some value in letting him die! So just use his last battle to measure this. The strength and methods of the Saints of the Wanhua Universe! In case he can fight back and kill several Saints of the Wanhua Universe, we can sneak away the two corpses and bring them back to the destruction demons. Research and exchange a big credit!"

Fang Yue was completely sitting in rows, splitting fruits.

He waited for Su Tuo and the others to fall, and then took advantage of it!

Chapter 1724: Kill Saint

Su Trio had never paid attention to the powerful men in the Ten Thousand Flower Universe, even if there were a large number of saints on the other side.

He is a disciple of the Su family, an elite of the Su family, one of the candidates for successor to the future patriarch of the Su family!

What do these guys in front of me do?

In his eyes, everything is scum!

It is not that he is arrogant, but that he has enough confidence.

Others don't understand Wanhua Universe, but Destroy Mozu has detailed records about Wanhua Universe!

The Destroyer Demon Race is a powerful group that destroys the infinite universe. They have fought against the Wanhua Universe more than once.

Those materials exchanged for the lives of the predecessors of the Destroyed Demon Race can be easily exchanged as long as he has enough merits in hand!

"Are you coming one by one or are you embracing?"

Su Tuo looked at the opposing team proudly.

He knows that the soldiers of the Wanhua Universe have always been known for being jealous!

The warriors of the Wanhua Universe believe in the warrior creed.

There are only defeated fighters, but there is no shame in breaking the rules!

"I'll come first!"

A powerful man in the Saint Realm of Wanhua Universe walked out, and his cultivation was probably at the third level of the Saint Realm.

"Li Ran!"

The warriors of the Wanhua Universe threw their fists at Su Tuo.

The Fang Yue melon seeds next to me can't go down a bit!

How could these Wanhua Universe guys be so pedantic! What rules and truths are said, just rush to do it!

Fang Yue was a little worried for them.

If you are singled out, which one of you is Su Chi's opponent!

It's not that Fang Yuegao took a look at Su Cai, and it was not that he looked down on Wanhua Universe's warrior.

The combat power of this Su Choi is comparable to that of the Great Sage, these Wanhua Universe fighters are just vanguard troops, and their respective strengths are just average!

If Su Tuo couldn't single out these Wanhua Universe guys, then Wanjie Universe would simply surrender!

Although it is a universe of the 4th generation, the struggle between the two parties is inevitable!

"I want to play too!"

Fang Yue doesn't eat sunflower seeds anymore!

He is on the court himself!

Fang Yue also kicked Nu Jianghou at the same time.

Nujiang Hou yelled, and he couldn't watch the show next to him!

"I want to play too!"

Although there was a feeling of helplessness in Nu Jianghou's voice, Fang Yue had already reminded him that he would be too much to pretend to be!

He understood what Fang Yue meant.

If the warriors of the Ten Thousand Flower Universe had such a deadly dogma, then these warriors of the Ten Thousand Flower Universe would definitely give Su Chou a gift!

Instead of this, it is better for him and Fang Yue to grab some heads and make some merit!

Although you can't kill Su Chuo, a future competitor, you can give yourself more capital anyway!

Fang Yue and Nujiang Hou appeared.

Su Tuo was stunned.

Which corner of the corner did these two goods come out of?

Isn't this Nujiang Hou supposed to be in distant Pluto at this time?

At this time, Su Tuo was a little confused.

Then he set his sights on Fang Yue's body.

"Fang Yue, these are your ideas?"

Fang Yue nodded shyly, "Master Su Tuo is really eye-catching!"

"You were waiting for me to fight with the people of Wanhua Universe. You originally collected the corpses for me, but you saw that Wanhua Universe believed in the warrior creed, so you ran out to grab the credit!"

Su Tuo's eyes rolled, how shrewd he was, how could he fail to see Fang Yue's tricks?

Fang Yue clasped his fists: "Master Su Tuo is really wise!"

"Huh, wise? If I'm really wise, I won't fall into your tricks!"

Su Tuo snorted coldly, he didn't expect Fang Yue to be so cunning!

This scheme was seen through, which also meant that Fang Yue and Su Tuo were completely on opposite sides, and the thin layer of face before the two was completely torn!

"Fang Yue, please fight!"

Fang Yue stood up and said to everyone in Wanhua Universe with his head held up.

"Nujiang Hou, please fight!"

Nu Jianghou also came out!

The sage leader of Wanhua Universe gave Fang Yue a contemptuous look.

"Your cultivation level is too low, and the newcomer to the master realm is not qualified to fight against my Wanhua Universe soldiers!"

"As for you? Saint Realm, the youngest of you guys killed the Nujiang Hou who doesn't know what to do!"

The saint leader of the Wanhua Universe said indifferently.

A sage of the Wanhua Universe, a powerful man in the three-level realm, is out!

Fang Yue was dried.

His cultivation level is too low, and he doesn't even have the qualifications to challenge Wanhua Universe experts!

Despised!

Fang Yue's heart was burning with anger.

"Who dares to fight!"

Fang Yue shouted on the spot.

However, many powerful people in Wanhua Universe remained indifferent.

"Deploy five thousand iron beetles and destroy this guy!"

One of the saints said cherished words like gold.

"Yes!"

A warrior from the leader realm in the Wanhua universe responded.

Afterwards, five thousand iron-clad flying insects flapped their wings, buzzed, and flew towards Fang Yue!

Those iron-clad flying insects were flying extremely fast, and the time for a few breaths was already in front of Fang Yue!

They surround Fang Yue and may turn Fang Yue into their dinner at any time!

However, those iron beetles hovered in the air and suddenly stopped moving!

Those iron beetles fell like dumplings in the pot.

Soul die!

This is an extremely superficial soul method recorded in the "Soul Scripture", and it can only be successfully used when the essence of the soul between the two parties is very different!

There is indeed a huge gap between the iron armor flying insects at the heaven and earth level in terms of soul and Fang Yue.

This is like the gap between a drop and a sea!

All the armored flying insects landed.

Finally attracted the attention of those Wanhua Universe Saints.

"Qingi, you take action! Kill the natives of the Ten Thousand Universe!"

The saint leader of Wanhua Universe spoke up, he was aloft, like a gift!

Qing Nie is the weakest person in their team, but it should be more than enough to let him take action and kill a Destroyer Demon that has just entered the master realm level!

"Yes!"

A young man with flowers came over.

He has a shawl with long hair and a handsome face!

"Let's do it! Let me see the strength of the Demon Race in this universe of Ten Thousand Worlds, but remember, you only have one chance to do it!"

Qing Nie showed an evil smile, as if he was a cat catching a mouse!

Only after the cat gets tired of playing with the mouse, can he slowly kill it!

Fang Yue glanced at Qingyi.

A blade of light passed by.

The head fell to the ground.

Didn't even see clearly how this Qingyi died!

"too weak!"

Fang Yue closed the knife, the knife did not stain blood.

"This....."

The saint leader of the Wanhua Universe did not expect such a scene to appear.

Obviously it was a Destroyer Demon in the early stage of the leader realm, but how could he have the power to kill the evil.

This scene was beyond the expectations of the Saints of Wanhua Universe.

"Qingshang, you go!"

At this moment, the voice of the leader of the Ten Thousand Flower Universe Saint had already revealed a slight silence.

Although he hadn't noticed the situation just now, the destruction demons of the Ten Thousand Worlds Universe could leapfrog and instantly kill the powerhouses in the peak state of the leader of the Ten Thousand Flower Universe, and how did he even move this guy? Did not see clearly, this is indeed something that makes him a little wary.

Qingshang is a strong man who has just entered the realm of saints!

He went all out as soon as he played.

Qing Nie underestimated the enemy!

Qing Shang believes that this is the main reason for Qing Nie's decline.

He will not make mistakes as stupid as Qingyi.

A lion fighting a rabbit also needs to do its best, not to mention the young man in front of him is definitely not weak!

A layer of milky white light appeared on Qing Shang's body surface.

Holy armor!

Qing Shang was ready to defend himself before he even played!

The spear pierced straight, like a dragon in the sea.

A little silver light fell to Fang Yue's eyebrows!

This is a sure blow.

It seems to be calm, but in fact Qing Shang has exhausted all his strength!

Even if a mountain is stabbed by this gun, it will crumble and disappear quietly!

Fang Yue did not speak.

Just glanced at Qing Shang.

Draw a knife.

The light blooms!

Qing Shang's head fell to the ground.

His eyes opened in anger and he couldn't squint.

"Anymore?"

Fang Yue took the long knife back.

The long knife is in its sheath, and it is still not stained with blood!

At this moment, the sages of Wanhua Universe finally paid attention to Fang Yue.

Just now, Qing Shang did not underestimate the enemy, and even went all out, still killed.

The luster of the holy armor on Qing Shang's body has not faded, but the holy armor is broken, smooth as a mirror.

This destroying the demon chopping the holy armor is like tearing paper.

This scene gave them a silent amazement in their hearts.

"Fang Yue, right! You are qualified to receive the attention of our Wanhua Universe, but you still have to lose in the hands of my Wanhua Universe Warrior!"

The voice of the leader of the Wanhua Universe Saint Realm carried strong confidence!

"Qingyun, come here!"

The leader of the Wanhua Universe Saint still refused to personally end.

He dispatched his third strongest!

Qingyun, as the name suggests, a group of immortal winds, the fifth level of the Saint Realm!

The Saint Realm step by step is a small world!

The fifth level of the Saint Realm and the newly entered Saint Realm are not the same level at all!

It is almost impossible for Fang Yue to kill with a single blow!

Qing Yun stood in front of Fang Yue, and he bowed slightly to Fang Yue.

Flick the whisk in your hand!

Countless wind blades broke out of the void, attacking different points of Fang Yue's body.

Wind Blade Navy, which incorporates the power of Tian Gang!

These wind blades can kill the saints!

This Qingyun's strength is good!

A series of wind blades suddenly hovered around Fang Yue's body.

Space freezes!

This is the basic operation method of space heaven.

However, it is absolutely impossible for ordinary people to stop attacks at the Saint level level in the air!

Qingyun's face changed slightly.

Realized that this time I really encountered hard stubble!

Fang Yue drew his sword again.

The blade fell.

The whole world seems to be cut apart by this knife!

"I see it, it's the power of space!"

Qingyun roared, he raised a sacred shield.

The shield is glowing, and every rune is revived!

Layers of luster cover the shield.

Fang Yue's knife light finally ran out of power in the rune light that cut through the layers!

Qing Yun's face was pale, although he blocked Fang Yue's blow, he obviously didn't feel well!

"I blocked, I blocked!"

Qingyun muttered to himself.

"What about blocking it?"

Fang Yue's voice rang in Qingyun's ears.

The next moment, his head fell, and all consciousness was gone.

Fang Yue's knife didn't know when it appeared beside his neck.

His shield blocked the first sword, but it did not withstand the ghostly second sword!

Wanhua Universe, the strongest Qingyun of the fifth layer of Saint Realm has fallen!

On the side of Wanhua Universe, the faces of all saints are like earth!

Chapter 1725: Refusal of the Galactic Alliance

"Has the reinforcements of the Galaxy Alliance still not moved?"

Earth, in a bright room.

Fang Yue sat in a chair with a thick stack of papers in front of him.

Fang Yunshan sat beside Fang Yue.

"I am a human being on Earth! From the very beginning, I didn't expect this Galaxy Alliance to be able to help. If they could not fall into trouble, it would be good!"

Fang Yunshan played with the purple bracelet on his wrist.

She just got this bracelet from Mars. The wrist is very powerful and can connect to signals outside the Milky Way.

This kind of thing is taboo in the galaxy.

However, there are no taboos in Fang Yunshan's eyes anymore!

This taboo is stipulated by the Galaxy Star Alliance, and the Galaxy Star Alliance is already on the opposite side of them!

Even when the creatures of other universes descend, the Galaxy Star Alliance is already indifferent!

They want to use Mars and the earth as cannon fodder on the front line to consume the pace of the Wanhua Universe Army's offensive. By the way, it is the best to be able to consume some of the Wanhua Universe's vital forces!

"Do you think I might let them idle?"

Fang Yue suddenly smiled.

His smile was bright, as sunny as the boy next door.

But Fang Yunshan was already in silence for the Galaxy Star Alliance, and she saw a cold determination in Fang Yue's eyes!

Fang Yue fiddled with the light brain on his wrist, and said in a low voice: "Light brain helped me connect with Chen Qingliang, the highest commander of the solar system of the Galaxy Alliance!"

"Connecting... beep!"

The optical brain on Fang Yue's wrist made a beeping sound.

Waiting for a moment, Chen Qingliang's image appeared on the top of the light brain.

"Fang Yue, what do you want me to do?"

Chen Qingliang's brows frowned slightly, Fang Yue contacted him at this time, this is a typical weasel greeting the rooster in New Year!

"Not much nonsense, the people of the Wanhua Universe have already descended on Mars! After the Ironclad Clan, a large number of powerful people in the Wanhua Universe have appeared, trying to explore the information of the Wanjie Universe."

Fang Yue's words are simple and clear.

The information in it made Chen Qingliang frowned.

Chen Qingliang has already received instructions from his superiors, asking him to keep an eye on the situation in the cosmic teleportation array in the Wanhua universe on Mars.

But in this Mars, his spies are very few, Mars is the territory of the Vulcan Alliance, and the Vulcan Alliance once conducted a special cleaning of the spies of the Galaxy Star Alliance.

Chen Qingliang was only able to get some ordinary information, such as the arrival of human beings in the Wanhua Universe. This was the first time he had heard of it.

"Then what do you want?"

Chen Qingliang was silent for a moment, and he knew that Fang Yue was not aimless.

Such important information will not be given to him for free!

Fang Yue said with a sneer: "Let the Galaxy Alliance send troops to help us encircle and suppress the invaders in the Ten Thousand Flower Universe! I know that the Galaxy Alliance does not have many troops in the solar system, but how many of you give me so many people! Kill the saints, then consume more iron beetle races! This Wanhua universe is not my own enemy of the earth but the enemy of the entire galaxy and even the universe!"

Chen Qingliang was embarrassed, "Fang Yue, you also know the attitude of the Galaxy Alliance towards you now! I cannot agree to your request! This is not my intention, but the will of the Galaxy Alliance. The existence of the earth has always been It is a thorn in the heart of the Galaxy Star League! It has developed too fast, and the strong among them have recovered too much. A chess piece that cannot be controlled, it is better to ruin it at a critical moment!"

Chen Qingliang's tone was quite frank.

Fang Yue sighed and said: "Okay, I get it! Tell the high-level of the Galaxy Star Alliance about my request and decide that they will do it themselves. I only hope that they will not regret today's decision!"

Fang Yue's voice made Chen Qingliang's heart tremble slightly.

He looked at Fang Yue, his lips squirmed, but in the end he didn't say a word!

Fang Yue did not speak, he closed the page of optical brain communication.

After Chen Qingliang's screen dimmed, he immediately reported the incident to the Galaxy Star Alliance according to Fang Yue's statement.

This kind of thing involves Fang Yue and the earth, and he can no longer control and decide.

Fang Yue is too strong, he is famous in the entire Milky Way galaxy!

If Fang Yue really wanted to make some noise out of the dead fish net, this Galaxy Star Alliance would also be a rare safety and health.

However, Chen Qingliang's report was hit, and then it fell to nothing.

The senior officials of the Galaxy Alliance did not give any response! In fact, there is no response, and sometimes it is also a response.

After waiting for two hours, Chen Qingliang reported the attitude of the Galaxy Star Alliance to Fang Yue.

At the very least, Fang Yue wouldn't have him operated on if he did this.

On Mars, Chen Qingliang had already seen Fang Yue's methods, and it is no exaggeration that if he were a demon, no one in the entire Milky Way galaxy might be able to stop him.

"I know!"

Fang Yue replied Chen Qingliang's simple four words!

On the other hand, Fang Yue destroys the clone of the Demon Race and has become the number one enemy in the hearts of the Saints of the Universe.

They looked at Fang Yue, with awe in their eyes, like walking on thin ice!

They did not expect that they would encounter such a hard bone just after coming to Wanhua Universe!

Fang Yue looked at the trembling expressions of the saints of the Wanhua Universe.

He chuckles and said, "Why, are you here to continue to challenge?"

Qingyun is dead.

This seems to be a big blow to the saints in the Wanhua Universe, Qingyun, among them is the strongest in the first sequence!

"Actually, we don't have to fight for life and death. We are just Wanhua Universe's first exploration force. If you kill us, there will be other exploration forces coming!"

The powerhouse at the peak level of the Saint Realm in the Wanhua Universe slowly spoke.

His tone is no longer the tough one.

The fist is hard enough to have the confidence to negotiate.

At this moment, in the eyes of Wanhua Universe, among the three of Fang Yue, Fang Yue is the real protagonist.

Su Tuo and Nujiang Hou, all become foils.

Nujiang Hou had nothing to complain about, he already knew that Fang Yue was not a thing in the pool, he couldn't help him!

As for Su Tuo, he was not reconciled.

But what's the use of being unwilling?

He had already seen Fang Yue's knife.

One knife for one.

Even if it was Qingyun, it was just a knife, and when the second knife fell, his life ended!

"Negotiating? Take out your capital and confidence! Don't tell me those useless things, I am very practical, the big guys have come out! After a fight with you, you are invincible, so compromise! So! , We have to take something that can be exchanged for meritorious services back!"

Fang Yue's words were simple and clear, without the slightest sloppy.

And the powerhouse at the peak of the Saint Realm in the Wanhua Universe is also extremely simple.

"We know that there is no problem with paying money to redeem people! This is a celestial ore, weighing three kilograms in total, and can be used to forge the top sacred artifacts. This is my collection for many years. It should be more than enough to redeem life. !"

The powerhouse at the peak of the Wanhua Universe Saint Realm knows how to judge the situation.

He knew that he was invincible, and he could leave a small life of his own, and what a price to pay!

Fang Yue nodded slightly, this Wanhua Universe's person was fairly sensible.

Celestial ore is hardly produced in the Ten Thousand Worlds Universe.

Vaguely expensive, this thing may be able to sell for a good price in Vientiane Pavilion!

"What about the rest?"

Fang Yue's eyes circled.

The other saints looked at each other. They were not as wealthy as the captain, and could come up with precious materials such as Celestial Ores. To be honest, although they had many saints, their sacred artifacts had not been forged yet. Where can there be rich materials!

"I heard that there are a lot of void spars in the Wanhua Universe. How about 100 kilograms of void spar in exchange for the life of a saint, and 30 kilograms for the life of a leader? The price is not high. In, this void spar is not so precious!"

Fang Yue's voice fell.

The sage at the pinnacle level of the Wanhua Universe gritted his teeth and said: "I didn't expect my little brother to know the production of my Wanhua Universe so much! I admire Qingyuan, I have 3000 kilograms of void spar here and I am willing to redeem it. If the lives of all my brothers are still rich, I will treat you as a friend of Qingyuan!"

Unexpectedly, this Qingyuan turned out to be a rich native!

Fang Yue laughed strangely: "I also made a friend of you! I took note of your breath. If something happens in the future, I will naturally look for you!"

Qing Yuan handed Fang Yue a storage bag, which contained five thousand kilograms of void spar and...a small communication symbol!

Fang Yue understood what Qing Yuan meant.

People are not for themselves, and the earth will die.

What's more, Qing Yuan, who has reached the peak of the Saint Realm, understands this truth better.

If he is dead, any saint in the Wanhua Universe can take his place!

There is no shortage of powerhouses at the peak of the Saint Realm in Wanhua Universe!

But the family behind him needs him!

Qingyuan intends to fight Fang Yuehua for Yusi.

Multiple friends and multiple paths.

In fact, at their age, they don't have much feeling about the so-called division of the universe!

In their eyes, only enemies, friends, interests, as well as the strong and the weak!

Qing Yuan and the others greeted them and left.

Su Tuo and Nujiang Hou returned without success.

They did not defeat the strong man in the saint state of the opposite Wanhua Universe.

But this is also a matter of reason.

Not everyone has Fang Yue's ability to slay a saint with a single blow!

Even though their strength is slightly higher than the opponent, but if the opponent wants to go, they can't stop it at all.

This defeat and kill are two concepts!

However, Su Tuo's face was ashen, daring not to speak.

"Don't worry. Here's this thing for you!"

Fang Yue handed a jade slip to Su Cui.

Su Tuo took the jade slip, showing a look of surprise.

"What is this?"

There was a slight hunch in Su Tuo's heart.

"I've collected some news about the invading army of Wanhua Universe. The source of the news is reliable. This thing should be able to exchange a lot of merits in the destruction of the demons!"

Su Tuo's palm trembled.

This is a great achievement.

But why did Fang Yue give him such an important thing?

Fang Yue seemed to see through Su Tuo's mind and knew the doubt in his heart.

"In the Destruction Demon Race, I support the Su Family, in the Su Family, I support the Nujiang Hou!"

Fang Yue's explanation made Su Tuo feel embarrassed.

At the same time, his awe of Fang Yue felt deep in his heart!

Chapter 1726 What did I throw away?

After Su Tuo left, there were only two people left: Xianyue and Nujianghou.

Nujiang Hou looked at Fang Yue, waiting for Fang Yue's explanation.

Fang Yue gave the news to Su Tuo instead of him, which made Nu Jianghou feel a little angry.

But reason told him that Fang Yue was still on his side.

Will not easily betray to Su Tuo's side!

"Fang Yue, why?"

Nu Jianghou finally couldn't help asking.

"This time it's you and Su Tuo! If Su Tuo dies here, you will be to blame! And the power behind you is not as good as Su Tuo. Su Tuo is dead. If it is related to you, they will definitely treat you. The forces behind put pressure on their side!"

"Since you are not ready to be completely enemies with the forces behind Su Tiao, then use that jade slip to ease some relations for the time being. Maybe the forces behind you and the forces behind Su Tiao will join forces one day? In this world Who can tell you clearly? Many friends, many ways!"

Fang Yue's change in attitude surprised Nu Jianghou.

"Your vision is the entire universe, not just the position of the head of the Su family or even the heir! The situation is bigger, and things can only be atmospheric!"

Fang Yue advised the Nujiang Hou.

Nujiang Hou seemed to be inspired.

He muttered to himself, if he realized something.

Fang Yue let out a sigh of relief.

This Destroyed Demon is really a tendon, so foolish!

Why didn't Fang Yue kill Su Tuo just now?

Did Nu Jianghou think he didn't want to?

Fang Yue clearly felt a faint murderous intent emanating from the void when Su Tuo was fighting against the strong man in Wanhua Universe.

This murderous intention is precisely the saint of the Wanhua Universe.

And the master who exudes murderous intent is definitely a senior saint.

Behind this Su Choi must be the protection of the powerful at the Great Sacred Realm level!

Fang Yue still couldn't do Su Tuo, so he showed his favor to Su Tuo!

If you can't beat it, you'd better be friends!

That jade slip was not for Su Tiao, but for the Great Sage behind Su Tiao!

"Then how do I go back on business?"

Nujiang Hou said pitifully.

"The saintly realm powerhouse here chooses one to take away, it's your credit!"

Fang Yue glanced at Nujiang Hou, this eldest brother is still cute?

Where is your backbone?

Where is your pride?

When Nujiang Hou heard this, he was very excited to choose Qing Nie's body.

With his strength, there are people who can kill Qingyi.

Kill Qingyun?

I'm afraid he doesn't even believe his father!

Fang Yue took away the other body.

Then the Nujiang Hou branch was removed.

There are some things that Nujiang Hou can participate in, but some things he doesn't know well!

Buzzing!

Fang Yue reached the surface of Mars.

Today's Mars is already a battlefield and scorched earth!

There are ironclad insects everywhere, but they are also the corpses of ironclad insects!

The Martians showed extraordinary background, in the moment of life and death, they no longer hide their clumsiness.

The number of flame giants has reached a thousand!

Each of these flame giants is the combat power level of the Saint Realm.

This is the accumulation of Martians over the years.

This time it's exhausted, I'm afraid it will be painful to the blood.

However, the effect of these flame giants is quite obvious, but wherever the flame giants arrive, the iron armored worms are no longer a threat!

However, the armies of the Wanhua Universe have arrived one after another!

Among them, there are so many powerhouses in the Saint Realm that it is horrible.

These flame giants were able to kill the iron-clad flying insects with low cultivation bases, but facing the powerhouses of the Saint Realm, they immediately appeared to be incapable.

The flame giants were extinguished one after another, and their clumsy bodies couldn't compare with true saints.

However, in the depths of the pyramid, heads of mantis demons walked out of it.

These mantis demons are extremely fast and are good at assassination and lurking.

Each mantis demon race has the speed and lethality comparable to that of a saint. However, these mantis demon races are not real creatures. They are war puppets forged by Martians. Their bodies are fragile. Even the average Yin-Yang level practitioners They can leave holes in their bodies, but they attack transcendence, even if they face the power of the saint, they are fearless!

These mantis demons took action, and large swaths of humans who had descended on Mars were killed.

Even though it is the existence of the Saint Realm, there are always times when the spirit is relaxed.

And when their spirits were relaxed, it was the time when the Mantis Demon Race started.

I have to say that this Martian's research on puppets has reached the extreme!

Whether it is the flame giant or the mantis demon clan, they are all outstanding in the works of Martian puppets!

However, Fang Yue didn't have much interest in the methods of these puppets. If he needed to, he could put all the corpses in the burial tower for good pregnancy.

The strength of the corpses refined in the burial tower can even exceed the strength of their lives, and the reborn souls in their bodies have nothing to do with their previous lives, obedient, loyal, and flexible!

Fang Yue's arrival on Mars this time did not add to the obstacles to Martians.

This Martian is already blocked enough.

I didn't know how many years of accumulation had been accumulated before all burst out overnight.

Moreover, their future is uncertain.

No one knows when this Wanhua Universe teleportation array will disappear.

Fortunately, the Mars Alliance did not abandon Mars at a critical moment. They transported a large amount of supplies for Mars, and also dispatched many powerful saints to help.

From this perspective, the Vulcan Alliance is indeed more reassuring than the style of the Galactic Alliance.

However, Fang Yue had long been fighting with the Vulcan Alliance. At this time, it was too late even to join the Vulcan Alliance!

Fang Yue came this time, his real purpose is to catch some iron beetle flying insects.

Fang Yue specially built a teleportation array, which was erected on Mars, and he worked tirelessly to capture batches of iron-clad flying insects alive. Then send it away through the teleportation array!

The other end of the teleportation array is the headquarters of the Galaxy Star Alliance!

Isn't this galaxy covenant helpless?

Then disgusting you!

Fang Yue is so careful, you won't make me feel better, and I won't let you live in peace!

Heads of iron-clad flying insects entered the teleportation array.

In the headquarters of the Galaxy Star Alliance.

There was a buzzing sound suddenly.

Then countless iron beetles arrived!

Before the headquarters of the Galaxy Alliance had time to sound the alarm, an office building was swallowed up!

All the saints of the Galaxy Alliance have a numb scalp!

How come there are so many iron-clad flying insects in the headquarters of the Galaxy Alliance?

A strong man in the saint realm can handle hundreds or even thousands of iron-clad flying insects with ease.

However, the iron-clad flying insects in front of them have reached a point where they cannot count them clearly!

A random saint who breaks into it may be exhausted of mana, and eventually become the ration of the iron-clad flying insect!

"Fang Yue, this is definitely what Fang Yue did!"

Kang Yue's roar and roar sounded from the void!

Kang Yue kept secretly following Fang Yue's every move and refused Earth's request for help. He contributed a lot!

Kang Yue did not expect that Fang Yue would make such a crazy act of revenge.

Isn't he worried that he will be accused by a thousand men?

However, he doesn't know if Fang Yue will be accused by Qianfu, but his territory is about to be washed by the iron-clad flying insects, he is sure of this!

Kang Yue's complexion was ashen.

His deity is now out. This Galaxy Star Alliance is in a troubled autumn. As a veteran powerhouse in the Galaxy Alliance, it is impossible for him to sit in the headquarters of the Galaxy Alliance every day, and he is only a clone here. That's all, this clone is not weak, but it is only the cultivation realm of the eighth level of Saint Realm!

If the deity is there, he can control the universe with one palm, and slap all these iron-clad flying insects to death.

But now, he really broke into the iron-clad flying insects, it's not always certain who killed him!

"Fang Yue, I will cut you a thousand times!"

Kang Yue quickly organized the manpower and used the saints to set up a large array.

Dozens of powerhouses in the Saint Realm teamed up to set up a large array, and in the end they barely killed all the Iron Armor Clan!

However, they were killed off guard, and this Galaxy Star Alliance headquarters, the area controlled by Kang Yue was still messed up.

Kang Yue gritted his teeth. Of course, he understood that these iron-clad insects were not Fang Yue's ultimate move. These iron-clad races were clearly disgusting them!

Fang Yue sent away a large number of iron beetle races, in fact, the people who benefited most were the people from Mars.

The pressure on the Martians plummeted.

This even caused the saints of the Martians to free up their hands to fight back against the people of Wanhua Universe!

Fang Yue is a living Lei Feng, and he did good things without leaving a name!

He wandered through this Mars, and saw a cosmic saint of thousands of flowers or various weird monsters, all of which were caught and thrown into Kang Yue's lair.

Some of these were thrown to the headquarters of the Galaxy Alliance and quickly wiped out.

Some were thrown into the planets under Kang Yue's name, causing a great riot.

In the galaxy, the existence of the Saint Realm is definitely not considered weak.

The reason is that Fang Yue recently felt that saints were everywhere. It's because the Earth and Mars are too special, they are both planets that have survived from the ancient times and evolved!

"This Fang Yue!"

Kang Yue directed her men to fight the fire everywhere.

In his heart, Fang Yue has been included in the list of kills!

As long as he has a chance, Fang Yue must be put to death.

What did he regard as the headquarters of the Galactic Alliance and his possessions?

Junkyard?

When Kang Yue's clone was gritting his teeth, a huge shadow suddenly fell over his head.

"What is this?"

Kang Yue dumbfounded!

Soon, the shadow fell, and a huge nuclear bomb fell.

With a bang, the nuclear bomb washed the ground.

Large tracts of buildings were directly razed to the ground, and mushroom clouds slowly lifted into the sky.

Kang Yue's face was pale, and Shuangsou trembled.

"Fang Yue, you must die!!!"

Fang Yue, who was collecting all kinds of disgusting tools in Mars, was taken aback.

Wait, what did he throw into the teleportation array just now?

Nuclear bomb?

This Wanhua Universe also has such a thing.

Alas, civilizations are different, but in the end it is the same goal!

Chapter 1727: Don't think about it

Fang Yue's harassment tactics have made the Galaxy Star Alliance disgraced.

Especially the iron beetle clan is flying all over the world.

At the beginning, Fang Yue only sent it to the headquarters of the Galaxy Star Alliance. Afterwards, Fang Yue felt that this was too benevolent, so he turned on the random teleportation mode. Batches of iron-clad flying insects entered the teleportation array, even Fang Yue I don't know where the iron beetle went.

The pressure on Mars has not been reduced by a single star, and the number of iron-clad flying insects that Fang Yue has captured has already reached several billion!

In fact, this is not due to Fang Yue's work alone or deliberate manipulation by the people of Wanhua Universe.

The people of Wanhua Universe invaded the Milky Way Star Alliance, their real purpose is not to conquer a small Mars, their goal is the sea of stars.

Therefore, Fang Yue established the teleportation array and placed those iron-clad flying insects in every corner of the Galaxy Star Alliance, which was just in line with the wishes of Wanhua Universe.

These iron-clad flying insects are scattered, and although they are not able to cause much damage, they can collect a large amount of data and information in the universe of the world, and provide sufficient information guarantee for them to fight a protracted battle in the future.

So at the beginning, Fang Yue needed to coax and trick those iron-clad flying insects into the teleportation formation. Later, those iron-clad flying insects no longer resisted, and flew directly into the teleportation formation!

Later, because there were too many iron armor flying insects, this teleportation array appeared some unstable conditions.

Those later iron-clad flying insects even took the same small materials or elixir in their mouths and threw them under Fang Yue's feet as tickets!

Fang Yue was stunned. He didn't expect the people of Wanhua Universe to be quite sensible. Although these materials are not very precious, they are very rare, and they are billions!

What's more, the Ten Thousand Flower Universe and Ten Thousand Worlds Universe are two completely different universes, and their rules are also different!

The resources in the Ten Thousand Flower Universe may be everywhere, but in the Ten Thousand Worlds Universe, they are scarce resources with great value!

Seeing these resources, Fang Yue's motivation in his heart is even greater.

Isn't he always worried that the earth will develop too slowly without resources?

All these resources are now available!

Fang Yue's heart was filled with excitement.

But Kang Yue and other big guys in the Galaxy Star Alliance began to scold their mothers.

This Fang Yue is simply too wicked, and his life is not easy, so he stirs up the wind and the rain, making life difficult for the entire Galaxy Star Alliance.

They don't need to investigate at all. There is no other person besides Fang Yue who can even transmit the iron beetle flying insects in the entire universe!

And they also understand Fang Yue's character. If you don't make me feel better, I won't make you feel better.

Whatever the overall situation is the most important thing, to Fang Yue is all bullshit!

The senior management of the Galaxy Star Alliance now vaguely regrets, why do they want to be angry with Fang Yue and not help Fang Yue take action and protect the earth!

However, it is too late for them to regret now!

These billions of iron-clad flying insects were thrown into the entire Milky Way galaxy, as if a drop of water merged into the endless sea. It would be impossible to find it.

The Galaxy Star Covenant immediately issued a reward. Whoever can capture the iron beetle can take its corpse and exchange it for the corresponding reward in the Galaxy Star Covenant.

In order to make people motivated, this time the Galaxy Star Covenant has directly laid the blood.

The rewards are extremely generous, including some internal merits of the Galaxy Alliance.

The reward of the Galaxy Covenant has just been issued in less than ten minutes, and a large number of iron-clad flying insects have been sent into the Galaxy Covenant through the wormhole channel unique to the Galaxy Covenant!

Massive internal points of the Galaxy Star Alliance have been redeemed.

Kang Yue couldn't help showing a relieved expression when she saw the bodies of these iron-clad flying insects.

"Huh, this Fang Yue actually wants to be with the Galaxy Star Alliance, doesn't he know? As long as we use some small means, we can put him in a situation where he will never recover! What is this iron-clad flying insect? In the entire galaxy, we also have a way to kill all these iron-clad flying insects, and let people send the corpses of iron-clad flying insects obediently!"

After Kang Yue finished speaking, she pondered for a moment.

"Adjutant, tell me, where did the corpses of these iron-clad flying insects come from?"

The adjutant checked the information for a while, and then his face became extremely ugly.

"Huh? Is there anything I can't say?"

Kang Yue noticed the adjutant's expression, and he couldn't help asking curiously.

"Big, sir! The corpses of these iron-clad flying insects seem to all come from Earth and Mars!"

Kang Yue's face instantly became difficult to look.

They forgot about this. Although Fang Yue had dropped a lot of iron-clad flying insects in this galaxy, the places where iron-clad flying insects were most wiped out were Mars and Earth!

Isn't this an enemy?

Kang Yue's voice was trembling with anger and said, "Quick, quick, stop the reward for me, and take back all the merits that have been redeemed!"

The adjutant shook his head: "My lord, it's too late! Those merits are instantly credited to the account. After the exchange, they are quickly used to purchase various resources in the Galaxy Star Alliance. I am afraid that all those resources have been transmitted to the place by the wormhole. The resources that have been given out may be difficult to recover!"

Kang Yue's face was green, and he had never seen any wind and waves at the level of the Saint Realm, but this was the first time he had encountered such a thing. He realized that Fang Yue had been tricked by himself, I am afraid that Fang Yue had already calculated this trick, and then he was waiting for them to issue a reward!

"Forget it, seal the exchange channels between Mars and Earth, and the exchange channels in other places remain the same!"

Kang Yue sighed, he knew that Fang Yue was cunning.

In the end, he did not continue to care, but chose to continue to focus on the overall situation. The Galaxy Star Alliance could not be destroyed in their hands because of a momentary struggle of spirit.

Kang Yue's voice fell.

The adjutant executed according to his orders!

Fang Yunshan's small face was filled with excitement, her small face flushed with excitement.

She stared at her light brain closely.

Sell the iron beetles in your hands at extremely high prices through online shopping!

However, these orders from different planets are coming in like a tide.

Even if the price set by Fang Yunshan is already quite high, there are still countless people who want to buy.

After all, the rewards given by the Galaxy Star Alliance this time are really tempting.

Especially the merits of the Galaxy Star Alliance can be exchanged for some things that they can't buy with spirit stones in their usual days.

Even the Galaxy Bank bought a lot of iron beetles at a high price. The merits of the Galaxy Alliance are also valuable hard currency for them!

"My brother is simply a genius!"

Fang Yunshan looked at the ever-increasing numbers on his account, and within a short while, he got a full digit!

Others take one step at a time, and they are already a wizard if they can see two steps.

But Fang Yue turned out to take one step and watch three steps, and watch four steps!

This made Fang Yunshan admire him, and Fang Yue gave the Milky Way Star Alliance to the calculation.

Are you unwilling to send people and materials to support the earth?

Then let you be forced to provide material support!

Fang Yunshan allocated one-tenth of the spirit stone he just earned to sell some puppets, talismans and other powerful disposable consumables to major merchants in the galaxy!

These spirit stones can be exchanged for resources, and it is too late to improve the overall strength of the earth people!

The easiest way is to buy some powerful weapons that can immediately be transformed into combat effectiveness and lethality.

Among them, technological weapons are the cheapest, but they are too slow for transportation.

And weapons such as Fulu and Puppets are light in size and fast in transportation, so they can be put into battle in as little as half a day!

Fang Yue made a lot of money this time.

However, after sending tens of billions of iron beetles to the entire Milky Way galaxy, he also closed the teleportation array.

All this is enough, and the tens of billions of iron-clad flying insects with the strength of the galaxy can still digest them in three to five days! If you really get a hundred billion, one trillion iron beetle flying insects into the entire galaxy, then he may really become the sinner of the entire galaxy!

After Fang Yue closed his hand. Qing Yuan came to the door.

Qingyuan Fang Yue raised his thumb and said, "Brother Fang Yue is really a good method!"

This time, Fang Yue and the Galaxy Star Alliance were angry, opened the teleportation array, and immediately teleported the iron beetle. Wanhua Universe benefited the most!

Wanhua Universe is about to treat Fang Yue as his own!

Fang Yue said modestly: "Easy to say, easy to say!"

"Brother made a great contribution to my Wanhua Universe this time, say, what kind of reward you want, I can report it for you!"

Qing Yuan started straight to the point and tried his best to win over Fang Yue.

This Fang Yue is an absolute talent!

Not to mention, just the ability to comprehend the heavens and the ways of this space is unprecedented.

The tycoons of the Wanhua Universe have already conducted a rough assessment of the insights of the other side's Yue Kongtian Dao in secret, and the conclusions they have come to are quite amazing!

This Fang Yue's comprehension and good luck in space and heaven are quite shocking!

At least he has reached the seventh level of the Space Heaven Dao, only then can he open the teleportation array so easily to teleport the iron beetle to any corner of the Galaxy Star Alliance!

The seventh-level realm of the Space Heaven Dao is already beyond the reach of many powerful people in the Great Sacred Realm.

Some imaginary immortals who are enlightened in space are only the sixth level of space heaven, struggling, unable to break through!

An old antique from the Wanhua Universe who practiced Space Tiandao even passed down a word, and he could consider putting Fang Yue into the door wall!

You know that big guy has reached the level of true wonderland ten thousand years ago!

In the Wanhua Universe, he is definitely known for his promises!

Fang Yue pondered for a moment and said, "Qingyuan, can you ask Wanhua Universe to temporarily let go of my home earth? As long as you don't actively invade the earth, the earth will not hinder your various actions in the Ten Thousand Universe!"

If this Wanhua Universe can really agree to his request, then he has not been busy for a long time.

The vision of the Wanhua Universe is definitely not limited to the gains and losses of a planet.

From a certain perspective, the fact that so many iron beetle flying insects have entered various parts of the Milky Way galaxy is far larger than a small earth for the strategic significance of the Wanhua Universe!

Chapter 1728: Ghost

"Okay, let me ask!"

Qing Yuan turned on his communication device and contacted the commander of Wanhua Universe.

However, the commander did not hesitate to refuse Fang Yue's request!

His reason is simple. The future of Earth and Mars is the foundation and springboard for them to invade the universe.

This solar system is their nest in the Milky Way. How could there be other people in your nest?

The commander's decisive refusal made Fang Yue's face a little ugly. He actually knew that this would be such a result, but he didn't expect that the opponent's refusal was so decisive and straightforward!

"Fang Yue, I'm sorry!"

Qing Yuan bowed his head to Fang Yue and apologized.

Fang Yue patted Qingyuan on the shoulder, "It doesn't matter, these are not caused by you! However, when you invade the earth, you had better not participate in it! Even if the earth is truly defeated, it will also make Wan Wan The invaders of the Flower Universe paid a heavy price!"

Fang Yue made a sincere suggestion to Qingyuan.

Qing Yuan recalled the scene of the previous battle, he couldn't help feeling palpitations and nodded slightly.

According to Wanhua Universe Fang Yue's inference, Fang Yue didn't actually use all of his strength to fight him.

Otherwise, based on Fang Yue Space and Heavenly Dao accomplishments, their team will definitely not be Fang Yue's opponent alone!

Fang Yue's spatial attainments are too high, and he can explode a thousand times more power if he casually incorporates it into his moves!

However, Qing Yuan knew Fang Yue's strength, but the other Wanhua Universe powerhouses did not.

A strong man of the Wanhua Universe with blue faces and fangs strode forward with a meteor.

He just heard Fang Yue's words and couldn't help but sneered and said, "A ant at the leader level would dare to say such a thing? To tell you the truth, this earth has already been included in our Wanhua Universe's next attack and invasion. The goal, well, maybe the invasion of Mars and the Earth can be carried out at the same time! All the people on the earth will be sacrificed alive, and the demon **** who can inspire my Wanhua Universe will descend. When it sweeps Mars, there will be no resistance in this solar system!"

The strong man of the Wanhua Universe with the blue face and fangs is also at the peak of the Saint Realm. His cultivation is at the same level as Qingyuan. However, Fang Yue can feel the ghostly spirit on him. There should be ghosts. The special blood of the clan.

The ghost tribe is a fairly old tribe. There are people in the universe of the universe, but they are mysterious and rare. It is said that the ghost tribe did not come from the universe of the universe when it was first born, but this tribe came from other universes. .

The methods of the ghost tribe are ancient and powerful. Legend has it that they are born with the potential to understand reincarnation.

"Ghost?"

Fang Yue glanced at this guy.

There was a playful smile on the corner of his mouth.

This special physique is still missing in Fang Yue's Ten Thousand Devourers!

Legend has it that this kind of physique is born to be close to reincarnation, perhaps blending into his blood, his deity will become stronger!

"Huh? The humble little guy is actually a savvy guy! However, I am Zhaka, the saint of the ghost clan! You know I am a ghost clan, don't you knelt down and beg for mercy!"

This Zhaka is quite arrogant, but in fact he also has this capital.

The strong of the ghost race is hard to meet in the same rank! Not to mention Qingyuan, an ordinary cultivator at the pinnacle of the Saint Realm, even some veteran powerhouses, half-legged to the Great Saint Realm level, need to evade three points after encountering Zhaka!

The talent of this race is too high, so high that even Tiandao is deliberately limiting the population of this race to maintain a balance!

However, once the disciples of the ghost race grow up, they are invincible at the same level, and no one can hold them back!

"You said you want to sacrifice the earth alive? I want to see if you have this ability!"

Fang Yue has already opened the door and prepared to have a fight with this Zhaka!

Xhaka also showed an evil smile: "I heard that you are also a genius, but the flesh and blood of genius is the most delicious! I want to taste your flesh and blood!"

Xhaka and Fang Yue faced each other.

A pale wink appeared on Qing Yuan's face.

"Zhaka, let Fang Yue go. He is a distinguished guest of my Ten Thousand Worlds Universe. If something goes wrong, even the elders of your ghost clan can't afford it!"

Zhaka sneered and looked at Qing Yuan.

"Qingyuan, you rubbish, don't get in the way here! I want to kill, who can stop it? What really happened at that time, naturally I will be up to it, I see who dares to ignore me!"

The blood in Zhaka's body was surging, and it turned Qing Yuan to life, and he was also a practitioner of the peak state of Saint Realm. Zhaka was really much stronger than Qing Yuan!

Qing Yuan's face was pale, and blood spilled from the corner of his mouth.

This Zhaka's strength is too great, even if he is also a strong person in Wanhua Universe, he does not show any mercy.

At that moment, his body has been shaken out of internal injuries!

A flash of killing intent flashed through Qing Yuan's eyes.

My Qingyuan is also a powerhouse at the pinnacle level of the Saint Realm anyway. If you Zhaka didn't give me a face, then you deserved it by Fang Yue!

In fact, before the battle, Qing Yuan had already determined the strength gap between Fang Yue and Zhaka!

Although Zhaka is strong, he is still in the sequence of normal genius!

As for Fang Yue, he was able to comprehend the Heavenly Way of Space and reach at least the seventh level. He is simply a freak, and he cannot be measured according to normal principles!

Zhaka's arrogant life, this time I am afraid that it will be planted in Fang Yue's hands!

He just blocked Xhaka just for the sake of Xhaka!

"Zhang Liujin body!"

Zhaka did not underestimate the enemy, in fact, he also vaguely felt Fang Yue's extraordinary breath!

It is precisely because the aura on Fang Yue's body can make him feel dangerous, he Xhaka will choose Fang Yue to be his opponent!

An enemy who has no challenge can hardly promote the diligence of his cultivation!

Zhaka's body was six feet tall as soon as he shot, and his body suddenly rose one level, and the whole body was emitting bright golden light!

This six-foot golden body can strengthen the strength and defense of the physical body!

Fang Yue sneered: "I'm afraid of death before starting a war, are all the geniuses of your ghost race so timid and weak?"

One of Fang Yue's palm came out, and the wind howled!

The dense wind blades suddenly attacked and killed Nazhaka's body!

Wind blade becomes gang!

This turned out to be brewed by the wind in the Nine Heavens!

Every wind tunnel has the power to attack and kill saints!

This is the case with this strong fighting method, a move is a deadly killer move!

"Roar!"

Zhaka roared, and behind him appeared a phantom lion!

The sound wave spreads and shakes those wind gangs away!

The roar of the Buddhist lion, with the blessing of the Zhangliu golden body, showed a different charm!

The power of this lion roar showed unparalleled dominance in Xhaka's hands.

At the same time, the shadow of an old monk appeared behind Zhaka.

"This old monk is a powerful person on the ninth level of the Saint Realm. He has enlightened the Dharma for eight thousand years! That day, when I went down the mountain to hunt for food, I met this old bald head. He even said that I had killed too much and demanded I have never abandoned evil! In my anger, I swallowed him and refined it into a part of my body, and all his supernatural powers belong to me! How about? You don't want to be a part of my body and live forever with me Immortal?"

Zhaka's provocative opponent Yue said.

Upon hearing this, Fang Yue finally understood what the ghost clan's supernatural powers were!

The creatures they had swallowed turned some of the magical powers in front of them onto the ghosts.

No wonder Fang Yue felt that Zhaka's body was full of ghosts, and in general he would not practice Dharma, this kind of upright method!

It turned out that this method was not Zhaka's own enlightenment, but that he swallowed an old monk who had attained Taoism, and then plundered all the magical powers of the opponent!

Fang Yue sighed slightly: "May the dead rest in peace!"

Fang Yue's palms are put together.

Zhaka was shocked to find that the old monk phantom behind him seemed to have a hint of independent will.

He smiled at Fang Yue, the color of compassion on his face!

"Suppress me! You old bald donkey, you have been killed by me, and you still want to turn the sky over?"

Zhaka's face is quite ugly!

This Fang Yue's strength and methods are simply beyond imagination.

No one can break the magical powers of their ghost tribe, but there is a hint of shaking in front of Fang Yue!

"Rebirth, destiny! The monk rests!"

Fang Yue said again.

Behind the old monk phantom was a whirlpool of reincarnation.

This vortex is formed by the power of heaven, even if it is a strong person in the virtual fairyland, it is impossible to resist!

Zhaka only felt a powerful suction coming from behind him, if he did not give up the spirit of the old monk, even he would be involved in reincarnation!

At a critical moment, the strong man broke his wrist.

Zhaka cut off the relationship between himself and the soul of the old monk!

Zhaka's six golden bodies suddenly disappeared, and he also lost the magical power to perform Buddhist lion roar!

"The power of reincarnation is the way of heaven! The ghost race defies the way of heaven and intercepts the soul, it is a trail!"

Fang Yue scolded!

This made Zhaka a headache!

Only then did Zhaka realize that he really underestimated Fang Yue, and underestimated the human power who came out on this earth!

However, Zhaka's heart is still unwilling.

"This reincarnation is invisible, even if some of the older generations dare not say that they have a lot of insights, how can you really understand reincarnation as a kid in the district?"

Zhaka angered Fang Yue.

Fang Yue smiled and said: "Although I dare not say that I understand reincarnation, at least I know more than you! Don't think that the ghost clan is really that powerful. In front of the real strong, the magical powers of your ghost clan are just a joke. !"

Zhaka was furious, and he glared at Fang Yue: "You crazy boy talk nonsense, be careful that the wind slaps your tongue!"

Fang Yue said coldly: "You are the frog at the bottom of the well. Do you know that this reincarnation is brewed by the combination of the three heavenly realms of life, death and soul! And your ghost clan is only proficient in the way of death, it is difficult to truly understand the true meaning of reincarnation!"

After Fang Yue finished speaking, he stomped lightly.

The world around is changing.

It even wrapped Zhaka and Qingyun!

Thousands of creatures around were turned into skeletons and died of old age, and their vitality rushed toward Fang Yue's body like a sea of rivers and rivers!

Fang Yue said softly: "This is the power of life!"

Chapter 1729: Fate

"The true meaning of reincarnation, life and death depend on each other, Fang Yue, you have walked such a long way on the Tao of life and death! This is the realm that some powerful people in the virtual fairyland dream of! If you don't become a big Luo, you will be troubled by life and death after all! Transcendence, it is difficult to comprehend the true meaning of immortality, but since ancient times, it has been difficult to become immortal, and being able to become a virtual immortal is the end of the way for most practitioners! They cannot break through the level of true fairyland and step out of the most critical threshold Therefore, half of the virtual immortals choose to take the slanting front of the sword, choose to understand reincarnation, and go out another way, through the brand of reincarnation, accumulate the cultivation of one life after another, and finally burn the ninth reincarnation brand, desperately, and take the last step. !"

"But how many people are able to comprehend reincarnation and condense the mark of reincarnation? There are few in the past, just a beautiful dream!"

Zaka's hysterical roar caused great waves and shock in his heart.

This Fang Yue far exceeded his level of understanding of reincarnation.

Reincarnation is mysterious and unpredictable, and Lien Dao cannot directly touch it.

But Fang Yue in front of him actually took this step, born from death, and began to merge the Heavenly Way of Life and Heavenly Way of Death!

This is the scariest place.

The road that even the strong of the virtual fairyland couldn't get out was passed by him.

Although Fang Yue had just taken a small step, this was a landmark breakthrough. This Fang Yue is too young and his cultivation realm is too shallow. As he continues to break through the realm, he will have a lot of longevity to squander in this lifetime. It is conceivable that he will be able to comprehend samsara in the future and find a way to condense the mark of samsara!

This is the method he or countless practitioners dream of!

Xhaka's heart was filled with a roar of hysterical desire.

Qingyun did not have such a profound obsession with Zhaka in terms of reincarnation, but he also understood what the reincarnation world that Fang Yue Shihou had represented.

At least with the strength of him and Xhaka, he can't break through the shackles of this world. This represents a truly invincible level below the Great Sacred Realm!

Existence at this level is often able to sit on an equal footing with the strong in the Great Sacred Realm! Fang Yue in front of you may become a legend in the future!

"Zhaka, let you see the real reincarnation before you die! Your heart should be satisfied too! I will send you reincarnation and take away your blood and flesh!"

Fang Yue is ruthless, this Zhaka was originally the enemy in his heart.

Leaving him has great potential and endless troubles. This Zhaka has already reached the level of the peak of the Saint Realm, half of his foot has entered the level of the Great Saint Realm. If this guy is inspired and stimulated by himself, it is really a step forward. The final step was taken, and a real great holy realm level karma was achieved.

Then he will be beaten!

From the level of the saint to the great holy realm, that strength grows like a flying one!

This is no longer a quantity that can be accumulated, but a qualitative improvement!

Xhaka wanted to struggle, even though he had understood that he was definitely not Fang Yue's opponent, but he was unwilling to die like this.

He is the arrogant of the ghost race, and the man who will carry the tripod in the future Wanhua universe.

He still has a bright future and a glorious family. He can't fall to Mars, a remote place where birds don't shit!

Zhaka's fist was punched, and the power of reincarnation permeated through it.

The fist was full of ghostly spirit.

"Reincarnation Fist!"

Xhaka screamed, and a ghost image appeared in his shadow.

Every ghost is a strong man who was killed by Zhaka!

After these people died, they couldn't get rid of their souls. Their souls were imprisoned by Xhaka and became consumables for Xhaka to use secret methods and supernatural powers!

Each ghost image was a strong man in Wanhua Universe before his death, and even the weakest person had reached the fifth level of the Saint Realm!

Fang Yue sneered: "A senseless struggle!"

The whole world of reincarnation slowly rotates, and the power of reincarnation covers the eight laws.

All the souls have severed the connection between Zhaka, and they regained their consciousness.

Those souls gritted their teeth at Zhaka!

They recalled the past that Zhaka had enslaved them and drove them like slaves.

Those souls swallowed Xhaka, although none of them alone was an opponent of Xhaka, but when they joined forces, even Xhaka was not an opponent!

"Don't hit me, I am a noble ghost clan, even if you kill me, you won't be free!"

"Your real enemy is Fang Yue, not me!"

"Ah! Don't tuck my hair, don't pull my tongue!"

Xhaka was finally exhausted in a gang fight of souls, he used all kinds of magical secrets to suppress ghosts.

However, the cultivation of these ghosts was too high, even if the strength of the suppressed part was still unmatched.

Fang Yue can't stand it anymore, his time is limited, so naturally he can't waste this kind of thing!

"Retreat! Let me take care of this Zhaka!"

Fang Yue's voice fell, and although many souls were unwilling, their eyes were full of awe.

Finally hesitated for a moment, all souls chose to stop.

This is not because they have no courage, bullying and fearing hard work, but that there is an aura that makes them inherently fearful in Fang Yue's body!

This breath is enough to suppress them all!

Fang Yue walked in front of Kaza, who was already messy at this moment, no longer the vigorous and unparalleled spirit of the world!

"Fang Yue, huh, huh! You can't kill me, you can't kill me, I am a noble ghost, you will definitely leave our ghosts curse and brand on your body! At that time, all ghosts in the universe will hunt down and kill To you! There will be no place for you in the sky and the earth!"

At this time, Nazhaka was still threatening Fang Yue with the ghost clan.

Fang Yue glanced at Zhaka disdainfully.

"Don't worry, after I kill you, I will refine your blood and become a new ghost race!"

Fang Yue's voice was low.

Nazhaka laughed: "This is impossible. The blood of my ghost clan is extremely noble. Even if it is a strong person in the real fairyland, it is impossible to refine our blood!"

"impossible?"

Fang Yue chuckled lightly.

"Do you think the blood of the ghost race is more difficult to refine than the blood of the destruction demon?"

Fang Yue slightly revealed the blood of the Demon Race in his body, and then his breath changed, and it became the blood of the Human Race!

Xhaka opened his mouth wide, with a complicated look in his eyes.

"This is impossible, this is impossible. Destroying the Demon Race is a different species of heaven and earth. It is impossible for anyone to refine their blood! Unless, unless..."

Xhaka hasn't unless it's over.

Fang Yue stretched out a finger and gently tapped it on the center of Zhaka's brow!

Zhaka abruptly leaned back to the sky and fell down, his eyes opened in anger, and all of them were incredulous!

"Unless, I am the Devourer, right?"

Fang Yue said softly.

His voice was very soft, like a murmur.

Qing Yun standing next to him felt cold all over, and a burst of cold air rushed up from the soles of his feet.

Ten Thousand Devourers!

What an old name this is!

Although Qingyun is a powerhouse at the pinnacle of the Saint Realm, and even an erudite person in the Ten Thousand Flower Universe, he has only heard of Ten Thousand Devourers, and has never seen it.

This is one of the ten most supreme physiques among the human races, and the nearest one of the Wanhua Universe's Ten Thousand Devourers of Demons appeared seven or eight thousand years ago!

Once this physique is encountered, it must be strangled, otherwise, a truly powerful devourer will become the biggest nightmare in the life of all practitioners!

"Ten Thousand Devourers! This Fang Yue turned out to be Thousand Thousand Devourers!"

Qing Yun finally understood why Fang Yue had such a terrifying means and combat power at such a young age and low realm!

This is completely gifted to him by Ten Thousand Devourers!

The ten major physiques of the human race in the legend are all the existence that can suppress a universe by one person!

Fang Yue probed and threw the corpse of Zhaka into the storage space of another dimension. This corpse will become one of the many bloodlines he prepared. If it is a last resort, he will refine those bloodlines and ask for it. breakthrough! Fight all over the world!

Fang Yue turned around and looked at Qingyun.

"Qingyun, how do you choose?"

Fang Yue's voice is quite gentle, it seems that no matter what Qingyun chooses so, he won't be angry, but Qingyun himself understands! He has no choice at all. Once he refuses, Xhaka's fate is his fate!

"Subordinate Qingyun is willing to serve Master Fang Yue as his master! In this life, I will never betray!"

Qingyun knelt down on one knee, swearing by his soul.

Fang Yue gently shook his head: "I'm sorry Qingyun, I can't believe your pledge! I am a little suspicious, I don't want to believe in the promises of others, I believe in my own methods even more!"

Fang Yue's voice fell faintly.

His fingers dropped slightly on Qingyun's forehead.

A drop of Rank Six Soul Liquid penetrated Qingyun's spirit.

Qingyun only felt that a tinge of coolness permeated his soul!

His spirit power suddenly soared, at least 10%.

If there were such opportunities at other times, Qingyun would definitely be overjoyed.

But now, he understood that this was Fang Yue's method of controlling himself.

In this soul fluid, Fang Yue must have taken his hands and feet. Once he has the idea of betraying or resisting, this drop of soul fluid will become his life-death poison!

"Qingyun see the Lord!"

Qingyunfu said docilely.

At this time, a beast claw fell from the sky and suddenly grabbed Fang Yue's reincarnation world!

Fang Yue raised his head and saw that a huge beast claw slowly retracted above the gray sky.

At the same time, a huge vortex appeared in the clouds in the sky.

In the whirlpool, a beast face appeared!

The beast's face opened his mouth and said lightly: "I didn't expect that there is such a junior who has realized reincarnation in my Mars! Although your realm is not enough, I think it is an exception for your outstanding talents. Let you enter the ruins of true immortals to find the way to fight against the powerful people in the Wanhua universe!"

Chapter 1730: The six great universes!

Fang Yue was grabbed by that huge beast claw, and the cultivation base in his body was instantly sealed!

It was the first time that Fang Yue experienced that he was so small, under the claws of this beast, he was so weak that he was not as good as an ant!

A strong mental pressure caused Fang Yue to faint in an instant. When he woke up again, the surrounding environment had transformed into a strange world!

This is a low hill, on which weeds grow, and weeds grow arbitrarily, some of which have reached half a human height.

"here is....."

Fang Yue looked around.

The rich aura in this place is almost close to liquefaction, even the concentration of aura in some of the most famous caves in the universe!

But what attracted Fang Yue the most was not the rich aura in it, but the aura that was even mixed with strands of faintly thin fairy aura.

Even if this fairy gas is thin, it is also a fairy gas!

In the universe of Ten Thousand Worlds, immortal Qi is almost impossible to meet but not to seek!

Fang Yue swallowed a swallow of the surrounding air, and the fairy qi of the thin hair also entered his body.

The three celestial scriptures in his body circulated together, making a thunderous sound!

The origin of this celestial scripture itself needs celestial energy to support it.

In the universe of Ten Thousand Realms, it is still extremely reluctant to only rely on the true energy of reincarnation to display the three celestial scriptures, and can only display less than one-tenth of the power!

Fang Yue continued to observe the surroundings. The weeds and trees were all extremely precious fairy seedlings in the universe.

The value of these fairy seedlings is unparalleled!

Even Fang Yue has never seen most of them!

In this place, the fairy seedling turned out to be the cheapest weed, which made Fang Yue feel angry.

These immortal grasses, wonderful flowers, if they were refined into a pill, how many masters and powers could be created in the universe!

"Is this a new fairy seedling sent from the Ten Thousand Worlds universe? How do you feel that the quality of the fairy seedling sent from the Ten Thousand Worlds universe is getting worse and worse!"

An old man in a white robe walked over slowly, and the ground beneath his feet quickly passed under the soles of his feet!

He looked at Fang Yue as if he was an aunt at Caishikou, choosing the least valuable leeks.

Fang Yue hated the look in his eyes.

But he didn't have the courage to resist in a really unfamiliar environment!

This old man's cultivation realm is too high!

He had already reached the peak level of the Great Sacred Realm!

In front of this old man, he was like a fragile little sheep, who could only be slaughtered!

"Even the little guys at the master level are sent here? Is this ten thousand realms universe really at the end?"

The old man looked at Fang Yue, tailored and weighed his body, the expression of disgust on his face could not help but change!

In this immortal realm, the beings at the level of the leader are even a problem for survival!

Because the cultivation environment of the Earth Immortal Realm is completely different from other places, even the newly born rabbits have the strength of the Heaven and Earth Realm! Slightly more powerful beasts, such as lions and tigers, are cultivated at the Yin and Yang level. As for the fierce beasts with a little blood, they are all at the leader level!

Fang Yue is still in a state of being trapped.

He doesn't know where he was sent!

He respectfully said to the old man: "I don't know how the old man should be called?"

The old man snorted coldly, and two beams of white smoke came out of his nostrils.

"Boy, do you know the rules! When you come to this fairyland, I am your guide. The elders of your family didn't tell you, do you need someone to respect?"

Fang Yue was slightly stunned.

personnel?

What personnel?

Human Resources?

HR?

It must not be this!

Is it possible that he is asking for something from me?

Fang Yue suddenly remembered a scene in Journey to the West.

Fang Yue hurriedly took out a saint-level pill from the storage bag around his waist, and respectfully gave it to the old man!

The old man put the pill on the tip of his nose and sniffed a little, his face was slightly dark, and he no longer had the expression that turned away thousands of miles away!

"Huh, you kid is pretty sensible! Although this pill does not even have the price of three low-grade immortal stones, but because you still have a bit of vision, I will answer you three questions! These three questions, you are Think about it and ask questions! Otherwise, if you have any questions in the future, I will not answer them unless you can pay more!"

Fang Yue nodded, like a chicken pecking at rice. He first entered a new environment and needed someone to guide him and answer questions.

"Dare to ask Senior, where is this? I seem to be caught here by a furry claw!"

Fang Yue said this.

The old man was taken aback for a moment: "You were caught by beast claws? And you don't know where it is? Haha, it is really interesting. I can answer your question! This place is The immortal world, this immortal world is a corner of the immortal world that was cut off during the war between gods and demons in the past, and then several cosmic origins were refined, forming a strange world! Said it is a world, its level is actually better than ordinary The universe is still high! Although its level is not as high as the immortal world, underworld, ghost world, etc., the universe of the highest level, but it is much stronger than the universe of the ten thousand worlds where you are!"

"Earth immortal realm? Immortal realm? Is it possible that this immortal realm is not part of my universe of ten thousand realms?"

Fang Yue was surprised!

He always thought that the immortal world, ghost world, underworld, etc., were all part of the universe of the ten thousand worlds, but those worlds were higher-level world planes! But as soon as the old man explained it, it seemed that he was wrong!

The old man said coldly: "This is the second question! But I can answer you this one too! The immortal world, the gods, the underworld, the ghosts, the hell, and the demon world are the six highest universes in this endless void. The six supreme universes have projections in thousands of universes, so it will make people misunderstand that these six supreme universes are part of the world you live in! As for

the beast claws that grab you, it should be the immortal world that has delegated to you. A guardian of a true fairyland or even a higher level in the universe, occasionally saw your amazing talent, that's why he was sent to the fairyland!"

Fang Yue finally understood the difference.

He said to the old man: "Thank you senior for your advice! Junior has another question. Will I still have a chance to return to the original universe when I come to this fairyland?"

The old man groaned slightly.

"It's not impossible! In fact, people who enter other universes in this immortal realm are basically only able to get the entry quota given by the immortal realm when this universe encounters destruction!"

"Therefore, people who enter other universes in the Earth Immortal Realm all want to return to their own universe after learning to work for their own universe and resist powerful enemies! Therefore, your thoughts are considered to be among many outsiders. More commonly, there are nine levels in this immortal world. If you pass one of them, you have a chance to return to the original universe. If you are willing to return, the immortal world will summon you back again! Of course, other than that If you can cultivate to the perfect state of space and heaven, you can freely travel through thousands of universes, and even reach the legendary immortal world, no one can stop you! However, this space and heaven is so difficult to cultivate, if you can cultivate to perfection in space and heaven Maybe they have reached the level of Da Luo or even higher. At that time, which universe you want to go to is a matter of thought!"

The old man finished.

Immediately shut up.

He cherishes words like gold, and he has answered all three questions of Fang Yue!

"Apprenticeship to learn art? Where do I go to learn art?"

Fang Yue realized that only then did he ask the point.

However, the old man looked at him with a smile, but he stopped talking.

"Senior, this is a little bit from the younger generation, please accept it!"

Fang Yue didn't have much, but there were a lot of medicines at the saint level.

Part of it was that he went smoothly when he killed other saints. This saint-level pill was much larger than the number of saints! There is also a part that he refines himself, and there is no shortage of pills that can rival the level of the Great Sacred Realm!

Fang Yue directly gave the old man three sage-level pills.

The old man was slightly surprised, but this time he met a big family!

"These pills are a little better than the one just now, probably worth fifteen low-grade immortal stones in total! So, I can answer you 15 more questions! What do you want to ask, please feel free to ask! "

The old man was somewhat delighted.

In fact, he has nothing to do with being a linker!

Although he is a strong man in the Great Sacred Realm, he has been fighting for years, and the accumulation of injuries on his body has caused him to lose his vitality and blood. He has only a few hundred years of life, and he has not been able to do anything with others in these hundreds of years. Otherwise, if he does it once, the number of life dollars will be drastically reduced!

So, helpless, he can only be an avenger in the remote areas and attract visitors from other universes.

His one-year salary is only a few thousand celestial stones!

The extra income is the filial piety of those who have been referred!

Originally, he thought that Fang Yue had only the cultivation level of the master realm, and thought he didn't have much wool on his body.

Unexpectedly, this person is not good-looking, and the sea water is not enough.

This little guy actually has a lot of elixir and magic medicine on his body!

"This immortal realm is vast and endless, and it is several times larger than the universe of the Ten Thousand Realms you are in! The sects in it are also listed, and the highest level is the ten sects established by the eternal and immortal Tianzun! In addition, they are Immortal monarch-level sects, Daluo-level sects, and true immortal sects! These sects are all considered to be advanced sects in the realm of immortality! However, the requirements of these sects are extremely strict, and it is difficult for ordinary people to join them! There are sects at the virtual immortal level and the sage at the great sage level. These are all small sects in the earth immortal world. It is easy to join, but the sect is weak and precarious! It is easy to be destroyed by the enemy without much stability. Sex! A cultivator in the outer universe like you, except for those who are particularly talented, usually joins a great sacred realm or a virtual fairyland to learn, and then waits until they adapt to the environment of the earth fairyland and gain a firm foothold. Slowly try to find a sect at the advanced level to join it!"
