

God of Life 1731

Chapter 1731: Fang Yue's Request

"Stand up? Stand on Mao's heel. When I really stand on my heels, I'm afraid this earth will already be cold!"

Fang Yue rolled his eyes, "If you want to join the advanced martial arts, there are other ways?"

"This....."

The old man showed a look of embarrassment and hesitation.

"Add another saint magic weapon!"

Fang Yue knew that this time was not the time to withhold.

When he raised his hand, it was a dark epee, which was made of black gold.

The heavy sword is thick, and a faint nebula atmosphere surrounds it!

"Black Gold Nebula Sword, you are really generous! Don't worry, I have always been a young man! As long as you pay me enough, I promise you will be able to do what I say!"

The old man patted his chest like ribs, and said proudly.

Fang Yue smiled.

At the same time, the three wisps of celestial qi extracted from this immortal world were transmitted to the deity's hands through the space heaven.

Although he couldn't let the clone return, but because of his attainments in space and heaven, among other things, there is no problem with this teleportation point item and fairy energy returning!

This immortal energy can be said to be collected in the earth immortal world, as long as it is desired to refine, even the cultivator of the Yin-Yang level can spend a few days to refine a strand from this heaven and earth aura.

And Fang Yue's body has three celestial scriptures, tempering the celestial energy can be described as a fish in water, more smooth and natural!

This celestial spirit is not very valuable in the earth celestial realm, but if it is placed in the universe of the ten thousand realms, it is definitely a rare rare!

Fang Yue sealed one of the fairy qi with a top-quality spirit stone and sent it directly to the Wanxiang Pavilion for auction!

In his auction this time, what he asked for was not spirit stone resources, but a one-time magic weapon that could cause large-scale damage to the saint realm powerhouse!

This kind of magical artifact, texture and material may not need much, often the material of the magical artifact of the ordinary master level can be cast into this kind of disposable magical artifact.

However, this type of magic weapon requires the forger to pay a lot of price when forging the magic weapon, and seal its powerful mana in it, so that this magic weapon can be formed smoothly!

This is to be prepared, at a critical moment, to frighten the powerful in Wanhua Universe.

He wants to make the powerhouse of Wanhua Universe, this earth is not a soft persimmon, even if they can invade the earth, they will have to pay a great price.

Fang Yue's fairy qi was directly purchased by Wanxiang Pavilion at a very high price!

Immortal energy is an extremely scarce resource in the entire universe of Ten Thousand Realms. This immortal energy can assist the powerful in the virtual fairyland to take a crucial step! Even in the breakthrough of some small realms, there are unspeakable magical effects!

There are a large number of powerful people at the virtual fairyland level in the Vientiane Pavilion. They also need to pay no small price if they want these powerful people in the virtual fairyland to obey their commands and scheduling!

At the level of the virtual fairyland, every time I want them to make a move, Vientiane Pavilion needs to offer a price that makes them be moved!

Especially for some tasks that may face the test of life and death, it is even more necessary to have a fairy qi that makes those imaginary immortal hearts move!

Vientiane Pavilion gave Fang Yue three anti-matter bombs.

These three anti-matter bombs are the top achievements in scientific and technological civilization. Anti-matter elements can annihilate each other with all tangible things in the world!

The effective killing range of each anti-matter bomb is about 100 meters in radius!

Within this hundred meters, even the strong of the Great Sacred Realm may not be able to resist the collision and annihilation of anti-matter bombs!

This thing is at the bottom of the pressure box in the Vientiane Pavilion.

Fang Yue knew that the real production cost of this anti-matter bomb in Vientiane Pavilion might not be too high. After all, they have mastered the relevant technology and can even mass produce!

But those who are difficult will not, and those who are meeting are not difficult.

This thing is absolutely invaluable in the universe of Ten Thousand Worlds.

The powerhouse of the Great Sacred Realm is already at the tip of the pyramid in the universe of Ten Thousand Realms!

This anti-matter bomb can cause powerful damage to even the strong of the Great Sacred Realm, and its value is self-evident!

Fang Yue readily accepted the request of Vientiane Pavilion.

At the same time, because of this ray of immortality, Wanxiang Pavilion also raised Fang Yue's VIP level once again!

You know, Fang Yue sells all kinds of weird pill in Wanxiang Pavilion all the year round, and every pill is invaluable.

His VIP level in the Vientiane Pavilion is already quite high!

And the VIP level of Vientiane Pavilion, the more you advance, the more difficult it is to advance again.

A ray of immortality made him a distinguished guest of nine moons and three stars. If Fang Yue needs it, he can even directly dispatch a powerful man from the Great Holy Realm to take the lead, and a small army of powerful members from a hundred saint realm to come. Destroy the mighty for him.

Of course, this army can only be dispatched once in a hundred years, and the expenses of this army or compensation for casualties need to be crossed off from Fang Yue's own account!

But this is also the treatment that countless Vientiane Pavilion customers dream of!

If it falls on other customers, maybe they will wake up laughing when they dream!

But Fang Yue was more interested in those three anti-matter bombs!

The dispatch qualification of the Vientiane Pavilion Legion is certainly good!

But he does not lack the combat power of the Great Sage level, especially on the current earth. Some powerhouses who have chosen to sleep since the very ancient times have recovered one after another! Among them, the combat power of the Great Sacred Realm level has exceeded three digits!

Even on the earth, there are a number of powerful people in the virtual fairyland who have recovered part of their previous combat power. They cover the sky with only their hands and sit on the earth. Even if the army of the Wanhua Universe is really attacked and killed, they can also have No return.

However, Fang Yue didn't want the earth to show his hole cards so quickly!

What he prefers is to pretend to be a pig and eat a tiger. At least he can kill Wanhua Universe by surprise, and buy more time for the earth!

Fang Yue's deity has returned to Earth.

The earth has reached the critical moment of life and death, and he must deploy his strongest combat power.

Not only that, Fang Yue's destruction clone has also fallen on the earth.

This destruction clone seemed to have reached its own bottleneck, and there was no trace of breakthrough after the physical body reached the peak of the Saint Realm!

Fang Yue once consulted the Monkey King about this matter.

After studying for a long while, Qitian Great Sage said that the material of this destruction clone itself is limited, and it is good fortune to be able to cultivate to the peak level of the Saint Realm!

If you want Fang Yue's destructive clone to advance to the next level, you must use some special materials to re-forged the body, such as the soil used when the girl made a person, or the colorful stone!

Fang Yue smiled bitterly, this special soil is the core material that can forge the magic artifacts of the Great Sacred Realm. Searching the entire Ten Thousand Worlds universe may not be able to find a few pieces, and even if he really finds the breathing soil, he may not be willing Refining for this destruction clone! Breathing soil has many effects, and there is a strong life force in it. Maybe his deity can carefully comprehend the breath of this breathing soil, and he can also break through the ninth level of life heaven!

As for the colorful sacred stone, the body of this great sage Qitian was tempered from the nurturing house of the essence of heaven and earth!

This colorful **** stone is more than enough to forge the legendary virtual fairy artifacts!

With the colorful **** stone, Fang Yue will definitely give it to the monkey to repair his body and return to his peak state!

Fang Yue pondered for a long time, he felt that his destruction of clones to the level of the Great Sacred Realm might be over!

Fang Yue's deity sits on the earth, and his destroying clone set out directly to Mars to find a powerful person in the Wanhua Universe to negotiate again!

Fang Yue contacted Qingyun.

Qingyun was extremely shocked by the fact that Fang Yue was still alive!

That day, he saw with his own eyes that Fang Yue was taken away by that huge beast claw!

According to his later memories and estimates, the lowest cultivation base of the master of the beast claw is also a great sacred realm peak level existence!

Fang Yue was taken away by such a strong man recklessly. It should have been dead or no life. Who could have expected that he could still appear in front of him alive, and the realm of cultivation he revealed was directly a saint. The cultivation base at the pinnacle level and the powerful aura made him feel depressed and unable to breathe as long as he stood within a hundred meters of Fang Yue!

"Fang Yue, what did you come to do with me? Last time the ghost tribe's incident had already attracted the wrath of Wanhua Universe! Moreover, the upper-level resolution of Wanhua Universe has come down, and there is absolutely no source of trouble left in this solar system! "

Qingyun's attitude is quite determined!

Fang Yue glanced at Qingyun who was decisive.

"This is one yard of things. Before you Wanhua Universe owed me a favor. You shouldn't lose sight of this thing!"

Qing Yun was taken aback, but he didn't expect that Fang Yue was actually talking about this this time!

Naturally, he still remembered this matter.

"Don't worry! The favor that Wanhua Universe owed before will be honored honestly. Even if the ghost race comes to the door and kills you, Wanhua Universe will repay this favor to your relatives and friends!"

Qingyun said quite proudly.

Wanhua Universe pays attention to credibility and morality. They follow the rules incomparably and realize their promises every time!

If it weren't for this, they wouldn't have played one-on-one against the Su family's brothers, and they wouldn't be born with so many moths!

"Wanhua Universe keeps its promises. I want to exchange favors into world crystals. Do you think I have the value of sending your Zergs from Wanhua Universe to every corner of the Milky Way galaxy? You can give me as many corresponding world crystals! "

Fang Yue's offer seemed quite generous.

The number of crystals in this world is up to you.

If Fang Yue really met a trader who didn't care about credibility and selfishness, maybe, in the end, Fang Yue's previous actions had no value at all, and would not even give him a piece of world crystallization!

However, Wanhua Universe pays attention to credibility the most!

No one will rely on Fang Yue's world crystallization!

"Wait, this matter, I need to coordinate with the above! After all, it is difficult to have a clear measure of how much your credit is!"

Qingyun secretly breathed a sigh of relief when he heard Fang Yue's clear request!

Although this world crystallization is considered treasured, there are countless saints in their Wanhua Universe, and the number of world crystallizations produced by this tempering is also extremely large. It is quite worthwhile to take out a few world crystallizations to settle the cause and effect with Fang Yue.
!

Chapter 1732 Creating the World

Back on Earth, Fang Yue patted his storage bag.

This Wanhua Universe is indeed a very rules-conscious universe, and it actually gave him 300 million world crystals through Qingyun!

Although 90% of the world crystals are inferior level, so many world crystals are also a fortune for Fang Yue!

Of course, Fang Yue's desire for these world crystallizations was not for the wealth he wanted, nor was it aimless.

His real goal is to create a world of his own according to the description in an ancient method!

In the process of creating the world, I realized the essence of the ninth layer of the heavenly path in this space!

As long as he promotes the realm of space and heaven to the nine-level realm, relying on the obvious induction between the deity and the clone, perhaps he can allow the deity to travel freely between the earth immortal realm and this ten thousand universe!

Of course, this is just Fang Yue's guess, whether it can be truly realized still needs him to verify the truth after reaching the ninth level of the space heaven!

Only a clone of the Destroyed Demon Race in the Earth Immortal Realm, although it can also transmit the wispy celestial energy in the Earth Immortal Realm back, but this is of little use to the current earth!

And if the avatars of the deity can shuttle freely, Fang Yue can rely on the deity to pick back some of the fairy grasses and medicines that are everywhere in the earth immortal world, and refine them into pill, so that the resurgents on the earth can speed up the cultivation. For the speed of recovery!

If it is those imaginary immortals, all the great sages are restored to their former peak state, even if the Wanhua Universe is strong, they will feel a headache if they encounter it!

According to the news from Fang Yue, even in the Wanhua Universe, the virtual fairyland is already a top powerhouse!

Every strong man in the virtual fairyland is a big boss on one side. It is not easy for him to cross-border battle. As for life and death, they will hesitate even more!

The fall of Xuxian...This may mean the collapse of a big power!

It is that if he cultivates to the level of the virtual fairyland, his name does not belong to himself but belongs to the thousands of descendants behind him and the great power behind them!

As for space and heaven, the practice is complete.

Fang Yue doesn't have that idea yet.

It's not that he doesn't want to, but that this is almost impossible.

When he reached the eighth level of the Space Heaven Dao, the speed of this Dao's comprehension had slowed down significantly, and the ninth level of the Space Heaven Dao's comprehension to the tenth level would be equal to the space heaven's path from the first level. The ninth level is ten times as high as the total difficulty of comprehension.

There are countless heroes in this universe of Ten Thousand Realms, but Fang Yue heard that some people can reach the level of real fairyland and ascend to the realm of immortality by breaking the void, but Fang Yue has never heard of someone who can practice a certain way to the level of perfection. , Don't talk about heaven, even if it is the easiest trail, there is none!

Fang Yue took out a grain of dust in an uninhabited desert. This grain of dust looked ordinary, but it was the black golden sand that Fang Yue bought from the Wanxiang Pavilion at the expense of a holy artifact.

This black golden sand is the core material for forging the Great Sage-level magical artifact. If it weren't because the size of the black golden sand here was too small, even if it was a sacred artifact, Vientiane Pavilion might not have exchanged this black golden sand for Fang Yue.

Because the great saint-level magical artifacts are hundreds of times more expensive than the ordinary saints!

That is exactly two levels of existence, the difference is just like the great sage and the saint!

This black sand is the space node between the world Fang Yue is about to create and this world!

Through this black sand, you can enter the world created by Fang Yue!

Without the existence of this space node, the world Fang Yue created would be like a rootless duckweed. Fang Yue's creator could sense the aura that clearly exists in this world and enter it at will, but other people it will be impossible to find the existence of this world.

This space node must be extremely strong, otherwise if it is destroyed at will, it will also make the world created by Fang Yue become a rootless world.

According to the Buddhist school, one flower one world, one leaf one bodhi!

In Fang Yue's eyes, these flowers and leaves may be space nodes one after another!

"To open up the world, you must first open up a new dimension in the void! However, this step is the easiest, because as long as you have a little understanding of the law of space, you can master the means to open up the dimension from the void. This is the reason!"

Fang Yue's fingers slowly moved across the void in front of him.

After eating, a half-meter-long crack appeared!

The crack is long and dark, hollow and monotonous.

This is a one-dimensional world, with only length, not width and height!

Afterwards, Fang Yue's fingers flicked twice again in the void, and the world evolved from one-dimensional to two-dimensional, and finally fixed in three-dimensional!

This three-dimensional space is the space where Fang Yue and others are located.

When this space takes shape, a different-dimensional storage space will take shape at any time!

This space is not large, but it has a volume of one cubic meter. Such a volume of space can only be called a storage space, not even a small dimension!

Fang Yue stopped, and then threw a low-grade spirit stone into it.

In this small dimension, there are strands of spiritual moisture!

Lingshi, strictly speaking, is not a substance, but a collection and condensation of Qi. When it arrives in the storage space, its state changes, naturally spreads, and again transforms into spiritual energy to nourish this dry and empty storage space!

"Sure enough, this storage space can essentially be regarded as a special life without wisdom but only instinct. This cosmic rule is the instinct of this storage space! Absorbing aura is a kind of storage space. Instinct! When the spiritual energy is absorbed to a certain level, your own consciousness will be born in this storage space! This is the original providence!"

Fang Yue's eyes flickered.

Then he put dozens of low-grade spirit stones into it.

After these low-grade spirit stones were decomposed 80%, the remaining low-grade spirit stones suddenly stopped decomposing and lay in the storage space intact.

"The volume of this storage space is limited, and the spiritual energy it can absorb has reached the level of saturation! Unless the volume of this storage space is expanded or its essence is qualitatively improved, otherwise, this storage space will not Continue to absorb aura!"

Fang Yue is very patient, as if he is raising a child, step by step, this storage space has evolved into a real world!

Fang Yue crushed a low-grade world crystal and placed less than one ten thousandth of the world crystal into the storage space.

This crystal entered the storage air and burst into pieces!

It has once again evolved into the original power of the world, traveling around and nourishing this storage space.

The barriers of the storage space are gradually clear and firm!

The more than ten lower-grade spirit stones that remained in the storage space also turned into gurgling auras, flowing in the storage space, and then absorbed by this storage space!

The storage space at the moment is different from the ordinary storage space!

Although this storage space is small in size, the barriers are strong. It is in the void, and it has been able to gradually absorb some of the floating space in the void to strengthen itself!

The storage space at this moment is more like a young life body, not a dead thing.

If this storage space is exiled to the void, after hundreds of millions of years, this storage space may naturally grow into a small dimension or even a medium dimension!

One civilization after another began to count, and this storage space might turn into a real world.

It's just that Fang Yue doesn't have so much time to wait!

He injected five different qi into this storage space.

These five wisps of true energy represent the five powers of gold, wood, water, fire, and earth!

These five forces grow and restrain each other and balance each other. The five elements are the foundation and origin of the laws of many worlds!

Fang Yue also gave this kind of origin to this storage space!

Although the power contained in these five wisps of true qi is very weak, even insignificant compared to the true world origin.

But this source has given this storage space a core!

"Reincarnation is true!"

Fang Yue hesitated for a moment, and added a ray of reincarnation in the process of the power of the five elements forming the origin of the storage space!

The world origin composed of the power of the five elements and the power of reincarnation is unheard of.

Fang Yue is just trying, not knowing what kind of impact this will have on the storage space!

Originally, the origin of the five colors suddenly became a round of gray Tai Chi patterns.

The Tai Chi pattern slowly turned, and gradually disappeared in the storage space!

The storage space has its roots. In just one cubic meter of space, it has become misty. Even Fang Yue's divine mind cannot completely control such a small storage space. It seems that there is a trace of the beginning of the universe. Open, the breath of chaos.

Fang Yue once again threw the low-grade spirit stone into this storage space, and this storage space turned into a gluttonous behemoth!

Ten, a hundred, a thousand...

This storage space seems to be extremely longing for spiritual energy, and no matter how many spiritual stones Fang Yue throws in, it can't fill the demand for this storage space!

Fang Yue clicked and hit the back of his hand.

Make you owe...

Originally a plan to shape the world well, now that such a monster has been created, I don't know what to do next!

However, now that he did, Fang Yue didn't mean to stop.

No matter how bad it is, everything is done again!

Fang Yue found that the concentration of aura contained in the lower-grade spirit stone was too low to satisfy the storage space, so he simply started to use the middle-grade spirit stone to feed the storage space.

Sure enough, after Fang Yue put in a hundred middle-grade spirit stones, the storage space stopped swallowing.

But at the same time, wisps of gray aura rolled out in this storage space, and turned into small hands to roll up the crystalline fragments of the world Fang Yue had just placed on the ground, and then incorporated them into his own. in vivo!

Click, click, click!

The crystalline fragments of the world were chewed and eaten by the storage space!

Fang Yue was shocked!

This is so amazing, even the storage space knows how to reach out for food!

Chapter 1733 Brothers, you're inflated!

"Does this storage space eat everything?" Fang Yue couldn't help but muttered in his heart when seeing the appearance of this storage space.

He took out another piece of fine iron the size of a palm and threw it into the storage space. The storage space was not picky, and the rich grey aura swept the piece of fine iron directly.

In an instant, the fine iron disappeared, as if it had never appeared in this world!

Fang Yue was stunned again.

This fine iron is strong. Although it is not a precious material, it is also metal. How could it be so silently evaporated in this world?

However, fortunately, Fang Yue created this storage space and he can clearly feel the rumored connection between this storage space and himself. This storage space is extremely close to him, as if it were the closeness of a child's mother.

Fang Yue hesitated. He didn't know how this storage space should be developed and cultivated. His hands were cheap for a while, and he created a monster that he could not even understand.

According to the current growth rate of this storage space, even if it is hollowed out, he will not be able to meet the needs of this storage space!

When Fang Yue hesitated, a small gray hand came out again in the storage space.

This little gray hand pierced into the sand, and a sand scorpion of the innate realm level emerged.

The eyes of this sand scorpion were red, and there was a faint breath of Wanhua Universe on his body.

Obviously, this sand scorpion is not a creature on the earth, but an eyeliner inserted in the earth by the Wanhua Universe to collect information on the earth.

The breath of this sand scorpion is too weak, and it is isolated from the sand.

So Fang Yue didn't pay much attention to the breath of the sand scorpion, but he didn't expect that the sand scorpion was pulled out by the storage space.

The little hand in the storage space directly threw the sand scorpion into his body, and then it was decomposed into a piece of the most initial life breath, which merged into itself.

A cute baby face appeared in the storage space, asking Fang Yue for credit.

Fang Yue couldn't help but smiled, "You are really amazing!"

There was a smile on the face of the baby in the storage space.

Fang Yue threw two middle-grade spirit stones into the storage space.

The storage space quickly absorbed the spiritual energy in the spiritual stone, and in a blink of an eye, the impurity powder of the spiritual stone was spit out.

"Maybe this storage space should be free-range! It can swallow everything and return to its origin! If it is used to find the spies that dormant in the earth in this universe of flowers, it might be a good choice!"

Fang Yue's road was completely off the track, but since it was off, he was ready to lie to the end.

This storage space should have its own development path, and it should not be restricted and restricted by traditional thinking.

Fang Yue also named the storage space Kongkong.

When Fang Yue told it his name, Kongkong's little face showed a bright smile again.

If Kong Kong wants to be strong, he is not depressed after he needs to search for food. Instead, he stretches out a small gray arm with bulging muscles, indicating that he is very strong!

A pair of small feet grew out of the empty body. It ran in the desert. In a blink of an eye, it spun out a sand scorpion spy from the sand and threw it into its own body, turning it into its origin.

Fang Yue gave Kongkong two more middle-grade spirit stones, and at the same time, there was a solemn taste in his heart.

In this huge area, Wanhua Universe used two sand scorpions as spies to investigate the situation around here! This Wanhua Universe seems to have begun to lay out the Earth and has a big plan!

And among Mars, in a tall building, here is a base and gathering point initially occupied by the Wanhua Universe on Mars!

Mars will be their first gathering point after the arrival of the Wanhua Universe!

One of the middle-aged men looked dignifiedly at the two small green dots on the screen in front of him.

"The two sand scorpions on this earth have disappeared! The life force of the sand scorpions is quite tenacious and they are good at hiding their whereabouts. These two sand scorpions should have been discovered by the people on earth and then destroyed! According to the influence of the sand scorpions finally transmitted back, The last thing they perceive is that a gray arm pulled them out of the earth, and then swallowed them into the endless nothingness!"

This middle-aged man is Chu Yu, the person in charge of Wanhua Universe for collecting information on the earth.

Chu Yu is a powerhouse at the pinnacle level of the leader realm, and has quite a deep foundation in intelligence collection.

He originally thought that using his rich experience combined with the various exploration methods in the Wanhua universe to deal with a small earth should be captured.

However, his sand scorpion was discovered and wiped out by the people of the earth less than half a day after it was dropped on the earth, which was slightly unexpected to him!

However, these are not too big problems for him, besides the sand scorpion, he has many preparations.

"Order the desolate snakes around to find the culprit who killed the sand scorpion, and clear the culprit in the shortest time!"

Chu Yu issued instructions.

Among the creatures they infiltrated on the earth, the sand scorpion is just one of them.

There are many sand scorpions, their breath is hidden, but their combat effectiveness is relatively weak!

And the reckless snake is the existence of the peak level of the heaven and earth realm, and there are also a huge number. Even if the murderer who killed the sand scorpion cannot be strangled easily, at least it is not a problem to send back some image data!

As long as they have the information of the other party, they can make targeted plans!

Chu Yu has a mature plan to deal with various problems.

As he received information and passed instructions, Chu Yu found that there were three fewer spots on the screen!

"The other party is so sensitive to the breath of the sand scorpion, it seems to speed up the speed of cleaning the target!"

Chu Yu said to herself, a slight sense of urgency rose in her heart.

On the earth, Fang Yue's expression was already a bit angry.

"How big is this? It's less than five hundred square meters in total. There are five sand scorpions hidden in this desert! This Wanhua Universe is simply bullying!"

Fang Yue couldn't help but get annoyed!

This Wanhua Universe seems to have regarded the earth as its own thing, and this sand scorpion was released in batches!

At this time, Kongkong grabbed a sixth sand scorpion from below the ground.

Put it in your mouth and chew it, crunchy, chicken flavor!

In Fang Yue's eyes, he was a spy, and in Kong Kong's eyes, this was delicious food.

Although each sand scorpion does not contain a lot of essential substances, it does not matter. There are enough of these sand scorpions, and the quality is not good. The number will make up, it will not dislike it!

At this moment, a hissing voice came.

The sand dunes turned, and a wild snake of more than three meters long with a yellowish brown skin swam out of the sand dunes, and it rushed in the direction of Fang Yue.

The speed of the wild snake is extremely fast, and its eyes are still shining with scarlet light.

The killing intent of this wild snake was awe-inspiring.

Obviously Fang Yue was regarded as prey.

"This is... Another biological weapon of the Wanhua Universe? Do they really look down on me? The biological weapons of the heaven and earth level dare to use them to kill me! Brother, don't you feel that you are too bloated?"

Fang Yue was angry, but Kong Kong was even more angry than Fang Yue.

You even started on Dad.

You little snake dare to hurt such a cute dad!

Uncle can bear it, baby can't bear it!

Kongkong let go of his little feet and rushed in the direction of the wild snake!

Its small gray hands directly held the reckless snake's body.

The red eyes of the wild snake are completely blurred!

What is this?

A box?

The reckless snake's limited knowledge reserve can hardly explain this strange creature in front of him.

However, it quickly stopped thinking.

Because its body had been put into Kongkong's body and was quickly refined away!

Even the wild snake at the pinnacle level of the world realm is as weak and weak as a baby in front of Kongkong!

It swallowed the wild snake in an instant, and the space of the empty body was slightly larger by three to four percent.

Fang Yue was a little speechless. This guy was really not something ordinary people could raise. Although this wild snake had a bad brain, it could not be faked at the peak level of the world.

There is already a lot of energy in its body, but after a bit of refining, Kong Kong's body has only grown a little bit.

If you want to completely change Kong Kong into a world.

The resources consumed are simply unimaginable!

On Mars, Chu Yu, who was always watching the screen, looked a little nervous.

"Who is this boy? Why do you look a little familiar, and what is this box-like monster? Why is there no such species in our data?"

Chu Yu was a little puzzled.

Knowing themselves and knowing the enemy, they have already conducted a complete investigation of the universe before entering the universe and opening the teleportation array, but they did not find the existence of this strange creature during the investigation!

"Strengthen! Dispatch all the nearby sand scorpions and wild snakes to besiege this monster. Be sure to send more information back!"

Chu Yu did not give up.

Even if he couldn't eliminate this strange creature, he had to investigate more accurate information.

However, he hadn't waited for Chu Yu's order to issue.

Having tasted the sweetness, Kongkong ran towards the sand dune where the wild snake had just emerged.

The gray mist turned into dozens of gray arms, these arms at the same time dived into the sand dunes and picked up one after another wild snake!

"Eye of Destruction!"

One of the wild snakes reacted, and a strange purple light burst out of its scarlet eyes.

The purple light is full of destructive power.

This eye of destruction was activated instantly.

The two beams of light fell on Kong Kong's body.

However, when these light beams fall, it is not painful to Kong Kong, and the energy contained in it instantly turns into Kong Kong's tonic.

Kongkong's body was originally a space, this space was not afraid of petrification, and Fang Yue's visual observation, Kongkong seemed to be invincible to a certain extent!

Unless the energy contained in this attack exceeds the limit that Kongkong can withstand, otherwise, any force entering into Kongkong's body is tantamount to a big tonic.

Fang Yue touched the back of his head and thought with pride, that he seemed to have made an extraordinary existence this time!

Chu Yu was stunned when he saw this scene.

What kind of monster is this, even the Desolate Eye of Snake can digest it!

Chapter 1734: The awkward Wanhua Universe

Kongkong swallowed those wild snakes in one bite, and its body grew by about one-fifth!

Fang Yue's eyes brightened, fighting to support war, which may be a good development route for Kongkong!

However, Kong Kong quickly became quiet. It was working hard to digest these wild snakes. It was still in an extremely young period, and it would take some time for it to digest so many wild snakes at once.

Kongkong turned into a black sand gold, Fang Yue put Kongkong in his own hands.

This black sand gold has a small body and is extremely convenient to put on the body!

"Little girl, follow some robots to clean up the surrounding sand scorpions! If you find it, you will kill it! It will not leave the slightest hope to the Wanhua Universe!"

Fang Yue's voice was cold, and there was a bit of murderous aura in it!

This Ten Thousand Flower Universe deceives people so much that they have touched his bottom line. If they don't give them a color, they really think they are good bullies!

"Good!" Fang Yunshan readily agreed.

Fang Yunshan is now a powerful force on the earth. The bases built by Fang Yue in the southern city of Beijing are now all controlled by Fang Yunshan! Moreover, Fang Yue will give Fang Yunshan a lot of resources every once in a while, let Fang Yunshan come to improve various facilities for the base.

Now, Fang Yunshan has turned the base into an iron bucket. Even if the powerhouse of the Saint Realm comes, this base can easily contend and even kill!

The radar detection system in this base is comparable to the divine consciousness of a saint-level powerhouse, and the various types of robots manufactured in the base can be used to complete these detailed tasks!

Not long after, Chu Yu saw the small green dot representing the sand scorpion disappearing quickly near the southern city of Beijing!

The disappearance of so many sand scorpions at one time is also a big loss for Wanhua Universe.

These sand scorpions do not form naturally, but are specially cultivated and trained by people in Wanhua Universe. They are implanted with high-end video and recording equipment.

Cultivating every sand scorpion requires a lot of manpower and material resources.

These sand scorpions died on the earth, and he had to bear certain responsibilities. It was not necessary for him to compensate for the cost of training these sand scorpions, but at least he needed to send a report to the top so that the senior management of Wanhua Universe would know how these sand scorpions died.

Chu Yu's head hurts a little.

He read many materials related to Jingnan City.

There are many descriptions of the base facing Jingnan City. But one of them caught his attention, and the real master of this Jingnan City was Fang Yue.

This Fang Yue, Chu Yu naturally understood something, this guy didn't know whether it was destroying demons or earthlings, but the methods were terrifying! It was he who sent those iron-clad flying insects to every corner of the Galaxy Star Alliance, that kind of control over the power of space, even though there are not many people in the Wanhua Universe!

Chu Yu was also a little timid. If Fang Yue found his position by touching the vine and finding his position, wouldn't Fang Yue kill himself as easily as crushing an ant?

Although Chu Yu's position in the Wanhua Universe is not low, his true combat effectiveness is quite limited.

At the very least, his cultivation at the level of the master realm is just a look or a finger in front of a big man like Fang Yue who can sweep a saint.

"Forget it, let's report this matter! Let the high-level people get their headaches! It's not that Chu Yu is incompetent, but some people really can't afford it!"

This is not the first time that Chu Yu has followed Wanhua Universe's army to crusade against other universes!

He really knows how deep the water is.

Even if they could occupy Mars and the Earth, it would be easy for the powerhouses above the saint level to run.

The strong above the saint level only need to find a place to hide, who can find them in this vast universe?

If they have resentment in their hearts and insist on revenge, the army of the Wanhua Universe will suffer extremely tragic losses!

After all, in the army, there are only a few who can resist the attacks of the strong in the Saint realm. If the battle formation is not condensed, the soldiers below the Saint realm are just lambs to be slaughtered in front of the strong in the Saint realm.

Dididi.

Chu Yu uploaded the news and let the senior management of Wanhua Universe handle the matter.

In the earth.

Fang Yue's Kongkong had already refined all the energy contained in those wild snakes after resting for a while.

It became alive and kicking again, and while walking, it also slurped out some sand scorpions from the desert as snacks.

This empty talent is extremely sensitive to the power of space.

But all creatures that appeared within ten kilometers around it, no matter the sky or the ground, could hardly escape its detection and devil's claws.

While Fang Yue was in the desert, he began to fiddle with a teleportation formation, which directly penetrated into the Heavenly Capital City.

There has been a lot of peace in the Heavenly Capital King City recently.

The major families have joined forces to suppress foreign enemies seven or eighty-eight!

Fang Yue is ready to dispatch troops to help suppress the invaders in the Wanhua Universe at a critical time.

It really doesn't work, he can still bargain with the dark side and let the dark side help.

To be honest, Fang Yue was forced to this step, and his heart was quite helpless.

He is essentially a human race, but none of the major forces of the human race were willing to lend a helping hand when the earth was besieged by the Wanhua Universe! He was forced to be helpless, and could only rely on the demon, destroying the demon and other forces. All these were owed to favors, and it was the day when the favors would always be returned!

When Fang Yue set up the formation, Kongkong swelled out dozens of sand scorpions from the desert as snacks!

Fang Yue looked at Kongkong, and couldn't help sighing inwardly, if Kongkong could eat more sand scorpions, wild snakes or something!

The earth fell into a strange peace for a while.

Above Mars, the Martians' trump cards were displayed one after another, and the Vulcan Alliance was supporting the Martians, which allowed the Martians to temporarily withstand the fierce offensive of the Wanhua Universe.

In just a few days, there are as many as 30 experts in the saint state of Wanhua Universe. Even in Mars, the experts in the saint state are not Chinese cabbage. Cultivated!

In addition, the addition of some of the strong on the earth has made the strong in Wanhua Universe quite painful!

People on Earth don't have a sense of belonging to Mars, and they won't come to battle in positions or the like.

If you can't beat it, you will run away, and the persimmon will pick and pinch!

The strong man in the saint realm on the earth doesn't pay attention to fighting against each other at all.

To get started is to go to the powerhouses in the leader realm or even the Yin-Yang realm. The two are not at the same level at all, OK!

It would be easy for an earth saint to kill seven or eight experts at the master level in the Wanhua universe!

The saints of the earth had impure goals from the beginning. They went for the military exploits of Mars. Naturally, we will kill the enemy under the premise of ensuring our own safety!

Because it is for profit, the number of saints that have emerged from the earth is surprisingly large. Those Taoist monks who have squatted in the deep mountains and old forests and have not gone out for hundreds of years have all come out to join in the fun!

What flying swords, flying knives, earthshaking seals, five-element flags, all kinds of weapons and magic weapons, the Wanhua Universe that has been hit is a battered!

There are also some powerful men in the West who are fierce and unparalleled. Even the devil in **** has crawled out thirteen heads. It is said that they were left over from the age of Satan.

They have no bottom line and don't pay attention to it!

Knock sap, throw bricks, sneak attack, disguise, all three bad methods are used!

According to incomplete statistics, in just five days, the Wanhua Universe has fallen on Mars with more than 1,200 masters at the master level, and three of them have died in the hands of the people on earth!

It is said that some strong men of the Vulcan Sect were converted by the monks of China and decided to reunite and became monks.

Some people were tempted by the devil and decided to fall and follow the devil back to earth.

The commanders of Wanhua Universe in this messy situation are all painful!

It's not that they didn't try to send people into the earth to deter and threaten these arrogant people on earth.

However, the dispatched people were weak, and they were swallowed by Fang Yunshan's behemoths before they arrived on Earth.

The starry sky behemoth has a very good appetite. It has eaten a group of 30 sentinel tribes of the Wanhua Universe without even hitting a full hiccup.

This strong, Wanhua Universe also sent it.

The two powerful men of the Saint Realm came together, and the cultivation methods of the two were mutually complementary. If the two teamed up to strike, they could even force the saint.

As a result, they landed in a place called Bermuda and disappeared somehow before they landed...

The commander of Wanhua Universe felt a toothache when he heard the news.

Where on earth is this earth, why is it bleeding and messy things!

The fall of the two saint-level powerhouses was also a big blow to the army of Wanhua Universe.

As a result, the commander of the Wanhua Universe also put out the two-line combat mind. They decided to wait until the matter of Mars was calmed down, and then attack the earth!

Fang Yue also had sufficient time to prepare. He used various resources and channels at hand to exchange a large number of materials for the arrangement of the formations, and arranged various formations in the earth. The earth could not be let go. Arranged in outer space!

Even if this Wanhua Universe wanted to take the earth, it had to break a few teeth first.

On the other hand, Fang Yue's avatar of Destroyed Demon Race followed Tie Sou in the Earth Immortal Realm and mixed into a small sect.

This sect is a true immortal-level sect, and it is also considered to be the top ten existence among the nearby sects with a radius of 100 meters!

This immortal world can be called vast and endless.

There are many strong people, but the region is also quite extensive!

"I can only send you here! As for whether you can be recruited into the martial art, it depends on your own good fortune!"

The old man Yue said, "You must be humble and serious in this immortal realm. I know that anyone who can be sent to the outer universe in this immortal realm must be a genius in this universe! But in those lower realms! Most of the geniuses in the universe become mediocre when they arrive in the immortal realm! Not because of your insufficient aptitude, but because the level of your practice is limited, which is far behind the requirements of the immortal realm!"

The old man is kind, although he is greedy, but he is a man who keeps his promise!

"Thank you for the old man! This Suichen Dan is a gift from Fang Yue to the old man! It's not respectful to talk about your thoughts!"

Chapter 1735: Cotai Array's assessment

"This is Suichen Pill? A pill that can reverse the power of time?"

Tie Man showed a look of surprise, then looked at Fang Yue in surprise.

"Unexpectedly, you still know the way of time. If you don't blend a ray of time and mood into it, it is absolutely difficult to refine such a magical pill! The old man needs this pill to prolong his life! Since you can be so precious If you give me the medicine, then I won't be stingy to give you some advice!"

There was a solemn expression on the old man's face.

He coughed and said: "This immortal world seems to be peaceful, but in fact it is contending for the great world! All the modesty and etiquette are just to maintain the prosperity on the surface, but in fact, the immortal world of this place All opportunities and all opportunities need to be fought for by yourself! For example, this true fairy sect does not exist independently. As far as I know, this golden light gate was established by a disciple of a Luo Tian-level fairy. If you can be in this golden light If you show up in the door, you may have the opportunity to be sponsored to a higher level of sect! This sect, every

level you upgrade, the opportunity that can give you is very different, on this road of cultivation, one step is a step. In the eyes of true immortals, some practice methods that are correct and perfect are full of flaws in the eyes of Luo Tian-level immortals!"

"Remember, you need to fight for all these opportunities yourself. There are some things that are impossible to do in the rules, but they may not be impossible to do by man!"

Tiedao gave Fang Yue a deep look, then turned around and left.

Fang Yue bowed deeply to the leaving figure of Tie Sou.

He watched the figure of the old man go away!

Fang Yue knew that this iron man was a good person. Although he might not be very enthusiastic, he at least constructed a basic understanding of the immortal world.

"The disciple Fang Yue came to apprentice! I hope that Immortal Master Jinguangmen can accept the disciple!"

Fang Yue's voice was so high that it spread all over the world in an instant!

Tie Sou said very clearly that one cannot be overly modest and clumsy in this fairy world.

Only if you are strong and others can look down on you will you have a chance and a fairy fate.

The more powerful, the more resources, the stronger the stronger.

The weak will eventually be eliminated in this fairy world!

With Fang Yue's voice falling.

A little novice monk who was responsible for sweeping the floor came from inside the Golden Gate, driving the flying dragon.

The little novice monk was clothed in sackcloth and had a broom in his hand.

He is not very old, at most ten years old!

This is just such a small desert at the bottom of the Golden Light Gate. There is even the eighth level of Yin-Yang realm. The flying dragon under his crotch is a powerful creature of the leader realm, and there are even strands in the body. The true dragon blood!

"Donor, I have a place for disciples in the Golden Gate! If you pass the test, you can enter my sect and become a disciple in the gate. If you fail the test and survive, you can do it again in three years! However, this is no more than three. , If the three assessments fail, then the donor please don't come again!"

The little novice monk's tone was quite polite, and his little face was flushed with red light.

If placed on the earth, he would be a child star.

But in this golden gate, he is an ordinary disciple!

"Please also the little master to lead the way!"

This little novice is polite, and Fang Yue is naturally not rude.

Fang Yue followed the little novice to a stone formation next to the Jinshan Gate. The little novice pointed to the stone formation and said.

"This is the place where my disciples of the Golden Light Gate are evaluated! This stone formation is the Golden Light Formation of my Golden Light Gate disciples. Entering into it, this golden light array will naturally transform you into the corresponding realm level according to the strength of the examinee. The examiner! The strength of the examiner in the Golden Array will change from weak to strong. Defeating the third examiner is eligible to enter my Golden Gate. If you can win ten examiners in a row, there will be additional rewards. !"

The little novice monk seems to be familiar with the introduction of the Cotai Array process.

I don't know how many people he has received over the years who want to be assessed!

He was too lazy to talk about this set of rhetoric.

"it is good!"

Fang Yue also liked the assessment of the Golden Gate.

Defeat one and then defeat another.

The assessment process is quite simple!

Fang Yue strode the meteor and walked into the golden light array.

The little novice smiled slightly, pinched the seal, and the golden light array opened immediately!

The golden light in the sky fell, transforming a winged demons.

The realm of this winged demon clan was comparable to Fang Yue's realm at the first level of the leader realm.

Beside the little novice monk, a middle-aged Taoist priest in a green robes with a goatee and a red mole on his forehead walked slowly.

"Uncle Wuchen!"

Seeing the middle-aged Taoist priest, the little novice could not help showing a slightly panic expression.

In the Golden Gate, all classes are extremely obvious.

It is said that all beings are equal, but how can ants and dragons be equal!

"Ok!"

A faint breath of holy spirit circulated on the body surface of the middle-aged Taoist priest!

Obviously, this middle-aged Taoist priest was a newcomer to the Saint Realm level and was not very proficient in controlling the breath of this realm.

"When did this little guy enter the Golden Light Array?"

When the middle-aged Taoist priest showed up, Fang Yue showed a lot of interest.

Because he actually realized that this little guy who wanted to join the Golden Light Gate came to this immortal world from other universes.

Wuchen Taoist is quite interested in other world conditions.

This cultivator travels thousands of miles and reads thousands of books.

If he can understand the brilliant civilizations of other universes, this will greatly promote his vision and heart, and maybe it will help him broaden his path of practice!

"Return to Master Wuchen, this Fang Yue just stepped into the golden light array!"

The little novice monk bowed his head and responded truthfully.

Wuchen looked at Fang Yue in the golden light array, his eyes could not help showing a greedy look.

"Take good care of this little guy! Don't let him be killed by the appraisers when his strength is insufficient! This guy came to our fairy world from other universes, and his own value is special. If he died in this fairy world That would be a shame!"

Wuchen asked the little novice consciously or unconsciously.

The little novice nodded slightly, and said humbly, "Yes!"

At this time, Fang Yue had already begun to break through the Golden Light Array.

He deliberately demonstrated some of his own strength to attract the attention of the middle and high level of Jinguangmen.

This earth is now in danger, who knows when this Wanhua Universe will be exhausted by a large force and annihilated the earth!

Although the earth is not weak, it is still a fantasy for a planet to oppose a universe!

Even if Fang Yue wanted to make it slowly, this time was not allowed!

Once again.

The Winged Demon Race's body was already torn, blood spurted, and it became a cold corpse!

At this time, Wuchen and the young novice monk saw that Fang Yue's hand did not know when there was an extra long sword!

The long sword was not stained with the blood of the Winged Demon Clan. This is because Fang Yue's shot was too fast, such as light and electricity. Even the blood did not have time to get the long sword. The Winged Demon Clan was already dead. Up!

"So fast!"

The little novice swallowed secretly.

In fact, the little novice monk didn't look at Shang Yue very much.

Because the Earth Immortal Realm in these many universes has vaguely ranked below the highest universe, the first echelon level, this ranking is not only because the Earth Immortal Realm has ample fairy energy and vast resources.

More importantly, the inheritance in the earth fairy world is unparalleled in the world.

In other universes, most of them are the inheritance left by the saints and the Great Sacred Realm, and the inheritance of the virtual fairyland level is already the head.

However, the inheritance of the Saint Realm and Great Saint Realm levels in the Earth Immortal Realm could not make it onto the stage.

The inheritance of the virtual fairyland level has just started.

The level of this inheritance is high. At the same realm, the disciples in this immortal realm are much more powerful than practitioners in other universes.

But according to the law, it is obviously invalid in Fang Yue's body!

The bloodline of this winged demon race is not weak, and it is a fierce demon race that is not afraid of death. If there is no actual combat and there is no **** blood, maybe the person under examination will have weak legs and the strength of the body will be gone. It was three times.

However, this Fang Yue was extremely powerful, and he had already sent him back to the west before the Wing Demon could take a shot.

"carry on!"

Fang Yue's voice fell, with a cold killing intent!

Soon the second examiner appeared, a magma demon living in hell.

The magma demon is huge, like a hill.

Its body is sturdy and harmless. The temperature of the lava that rolls on it all the year round is extremely high, and it can even melt the weapons of the master realm!

This magma demon is a standard physical shield in war.

This magma demon actually has the fourth level of the leader realm. As soon as it appeared, the ground under its feet showed signs of melting slightly!

"Humble humans, die!"

The magma demon roared at Fang Yue.

No dust is slightly nervous.

"Don't let this Fang Yue die!"

Before the dust-free voice fell to the ground, the magma demon was already covered with a thick layer of frost.

Its body was frozen and turned into powder, and its huge body shattered directly.

"This....."

Wuchen suddenly felt that he was nervous a little wrong.

He should be nervous for these examiners.

"Come again!"

Fang Yue felt that the assessment of the Golden Light Gate was like that.

Originally, he still looked like a big enemy, but as a result, he felt that the examiner summoned from the Golden Light Gate seemed to be weaker than the enemy he usually encountered!

The golden light flickered, and the third examiner appeared.

Before that, the examiner's figure was completely stable.

A flash of silver light, the examiner is already in two halves.

One knife!

The little novice monk swallowed again.

They seem to have encountered a great power this time!

This golden array is opened hundreds of times every year!

There are dozens of people who can pass the first three levels of assessment every year!

But when they face the examiners, even if they can pass the examination, they need a fight!

Wherever there is Fang Yue, just lift the knife, and the three examiners are better than the other, but there is not even one who can survive Fang Yue's knife light for an extra second!

Fang Yue looked around.

He was slightly bored.

If this Golden Light Gate's assessment is like this, then he is also a bit too disappointed.

The low level of this assessment means that the level of Jin Guangmen disciples will not be too high!

And the disciple of the Golden Light Gate is not strong, so this school is not as powerful as he imagined!

Chapter 1736: Master Yi

"Come again!"

Fang Yue's voice was a little less serious.

The golden array also seemed to be provoked by Fang Yue.

Another golden light and shadow fell.

This time Fang Yue faced the powerhouse at the top level of the leader realm!

This is a master of human swordsmanship.

He looks like a middle-aged man, but he is rather sloppy in ragged clothes!

He carried a wooden stick in his hand, without any other weapons!

If this guy is just looking at it from the outside, he really has the taste of a folk master!

"Three tricks for you!"

Fang Yue has a slight interest, he is also a knife.

When you meet a master of swordsmanship, it is natural to have a feeling of joy!

The sword master didn't speak, the small wooden stick in his hand slashed towards Fang Yue's body!

Wooden sticks are like knives, full of light and shadow.

Fang Yue seemed to be caught in a sea of swords.

"This is Master Yi's sword mountain!"

Wuchen was shocked.

He didn't expect that the test on the fourth floor of the Golden Light Gate turned out to activate Master Yi's sword mountain for Fang Yue.

This master Yi is also considered a famous sword master in this immortal world!

This golden figure should have been left by him when he was young.

But this is the case. Master Yi in this young age should also have a sharp edge in knife skills.

The little novice monk has been presiding over the operation of the Golden Light Array and the entry assessment for many years, and he has quite a good understanding of some of these situations.

"Uncle Wuchen knows that every three levels of assessment in this golden light array are a barrier. If you pass, the corresponding status in the door and the allocation of resources will not be different! If Fang Yue can only pass the first three In terms of the level of assessment, he should only be regarded as a handyman disciple. He needs to train in the gate for three years and contributes to the sect without receiving the slightest benefit! Then, he will be officially included in the golden gate, but if he If he can pass the fourth level assessment, he should be able to directly become an outer disciple, and the outer disciples are also divided into nine levels. Although he passed the fourth level assessment only the ninth level disciple, but this The treatment and resources are much better than that of a handyman disciple! After that, he will be the eighth-class outer disciple who passes the fifth-level assessment, and the seventh-class outer disciple is the seventh-rank assessment if he is lucky. If you can pass the seventh-level assessment, you will become the sixth-class outer disciple, and will be invited by many great elders of the Great Sacred Realm, and be selected as a named disciple! An introductory group will have an incredible backing. The assessment of this Golden Light Array is indeed more difficult, but the treatment is also better than the first level. This is also the rule set by the martial arts to prevent talents from being buried in the door!"

The little novice monk talked eloquently, saying that when he was excited, he would give examples of a few highly talented disciples in the school!

"It's too unfair to be an outer disciple directly! It takes at least a ten-year evaluation period from a handyman disciple to an outer disciple, and at least three sect tasks must be completed each year during this evaluation period. OK! The nine levels of the outer disciple are difficult to climb step by step!"

Wuchen complained, and his heart was not at peace. Although he was a powerhouse at the Saint level, he was actually only a fifth-level outer disciple!

Only when you reach the eighth level or above of the Saint Realm can you hope to become an inner disciple. This is the rule of the Golden Light Gate, which will not be broken for ten thousand years!

In order to survive the identity of this fifth-level outer disciple, God knows how much he has suffered and how much resources and energy he has consumed.

Dust-free heart is angry.

And Fang Yue didn't know anything about things outside the Golden Array.

Maybe he wouldn't care even if he knew it.

Because there is only this Master Yi in front of him.

"Knife, only fast!"

Master Yi uttered four words, and then his sword light swept through the sky, reaching the limit!

Master Yi can become a master by a quick word.

The knife fell, and the void immediately caused ripples!

This affects the power of the void with the blade.

This is the skill of the knife to a certain level.

His power is not great, but he has interpreted a quick word to the extreme!

Fang Yue couldn't help but stunned slightly.

Unexpectedly, at this time, Master Yi would make a move.

This Master Yi's knife was really fast, flowing lightly, and he didn't even notice when Master Yi made the knife.

However, although Master Yi's sword technique is very fast, the power contained in it is not great!

The knife shadow fell and slashed on Fang Yue's body.

Fang Yue's body naturally gave birth to circles of black ripples.

This is the magical power born of the destruction of the blood of the Demon Race to a certain extent.

The magical powers of general destroying demons are probably attacking.

But Fang Yue seemed to be because of his personality, and his magical powers turned out to be defensive.

This black light spread, directly shaking the knife light.

Fang Yue shook his head slightly: "If it's just fast, what you have done is indeed very good. If my defense weakens by a bit, I will indeed be hacked to death by you, but your strength is insufficient, even my defense. I can't break it!"

Fang Yue shook his head and said, this Master Yi's sword technique caused a slight loss in his heart.

The phantom of Master Yi was slightly taken aback.

He seemed to be alive.

"Interesting, a bit interesting! This knife is just a tentative one for me, and naturally I didn't turn the knife to the point of perfection! The following one is my real killer move!"

Master Yi shot again, and his sword light turned into countless layers!

And after this sky full of sword light was superimposed, it turned into a long sword.

"Thousands of knives go into one, if there are no shadows!"

Master Yi made a knife again.

This knife is equal to ten thousand dollars.

This knife is faster than before, and it's almost impossible to dodge, and it can slow down the time.

Fang Yue frowned, this Master Yi's knife was really weird.

It clearly contained the artistic conception of the Dao of Swords, but Fang Yue could not tell which artistic conception Master Yi used.

This master Yi's knife is very fast, and if Fang Yue does not use any means, it is very likely that he will not be able to avoid this knife.

However, Fang Yue was the real nemesis of this sharp knife.

When the light of the knife fell around his body, the extremely fast knife suddenly became slow in Fang Yue's eyes!

The power of this time!

Fang Yue also mastered the time of heaven. He slowed the flow of time around ten times, and no matter how fast the knife slowed ten times, there would be no flaws!

"This knife is not a thousand knives that are about to be produced, but a mirror image! Only one of the knife light is the root, and all the others are the reflection of the knife's shadow! This is not the avenue of knives. Merging the avenue of light, the two different avenues merge with each other! That's why the sharp knife of Master Yi came into being!"

Fang Yue finally saw the clues clearly!

He was talking to himself, and he had his own understanding in his heart.

What he grasps is a kind of meeting point between the avenue of light and the avenue of swords!

The two avenues gradually merge, and its power will be several times, even dozens, hundreds of times that of a single law!

"Quick knife!"

Fang Yue swung his knife.

Layers of knife shadows will extinguish Master Yi's knife shadow!

Master Yi couldn't help being surprised, because he actually saw his own shadow in Fang Yue's sword technique.

He was stolen from his teacher!

A great shock arose in Master Yi's heart, because he knew that he had never included a disciple, and his sword technique had never been taught to anyone.

But the young man in front of him was clearly after he mastered the essence of his own sword technique, and stole his teacher!

Just reading it once was to clarify the principles of his swordsmanship and merge the avenue of light and the avenue of swords.

Is this guy a monster?

Master Yi was shocked.

Fang Yue raised his hand again and fell with a knife.

Ten thousand knives return to one, the one-cut reappearance of Master Yi just now!

After Fang Yue's victory, Master Yi's golden figure shattered!

"master Yi!"

Wuchen whispered.

He has realized that the juvenile potential of this other universe is extraordinary.

Master Yi is a sword master who is admired for hundreds of millions of kilometers around here.

And this young man was able to defeat Master Yi in the realm of the sword, this is no longer a genius, this is a pure evildoer!

And he wants to steal the memory from this young man's mind, and make his cultivation even further, I am afraid that he can't do it just with his own power!

Wuchen's eyes rolled around and his mind came to his mind, then he turned around and left, as if giving up Fang Yue!

"Fifth floor!" Fang Yue roared.

The light in the golden light array was activated again.

The person in front of Fang Yue turned out to be Master Yi.

However, at this moment, Master Yi clearly felt a touch of desolation.

His cultivation realm has also been elevated to the semi-sacred realm!

Master Yi looked at Fang Yue.

There was a tinge of desolation in his tone.

"This world is a person of endless cultivation, but who has the true meaning of nature, who can be invincible in the world, who can surpass the world!"

Master Yi seems to have some insight.

Every word of him is his own voice.

Fang Yue was a little puzzled. Why didn't Master Yi take action anymore. From this fifth level exam, has the content of this assessment changed?

If you don't want to fight, should you think about politics?

However, Fang Yue no matter what the test is, he must cooperate very hard.

"If there is no restraint in a person's heart, it is free, and if the heart returns to the future, it is delusional!"

These are the wisdom Fang Yue learned from Zhuangzi and Buddhist scriptures.

"Stay away from the upside-down dream, after all Nirvana!"

Fang Yue talked about mystery again.

The body of Master Yi could not help being slightly shocked!

"Away from the upside-down dream, Nirvana? Upside-down dream, hahaha! I understand, I understand!"

Master Yi suddenly enlightened!

He laughed, and his mood was instantly open-minded and bright!

With a bang, a beam of golden light fell on Master Yi.

This Master Yi was promoted to the level of Saint Realm at this moment!

"Come on, boy, take a knife to me!"

Master Yi was full of interest, Fang Yue said.

His eyes looked like stars, extremely dazzling.

Fang Yue was shocked, this is not a test of ideology and politics.

His on-demand broadcast of these two or three sentences turned this Master Yi even stronger!

Is he trying to find sin for himself?

Fang Yue can't wait to slap himself twice, isn't this pretending to be full!

Chapter 1737: Forcibly accepting disciples

This time, Master Yi's knife is faster.

He seems to have enlightened on the avenue of light!

Moreover, his sword technique obviously has no fixed momentum anymore, this move is unrestrained, all changes!

Fang Yue felt that this might be because he pointed to Master Yi just now. The two sentences just now gave Master Yi a different understanding.

Master Yi's knife is more flexible, and the knife in his hand seems to have instantly turned into a dexterous poisonous snake.

The core of the poisonous snake could almost reach Fang Yue's body.

But Fang Yue's control of his body can be avoided every time.

When Master Yi made a move, Fang Yue also entered a mysterious and mysterious state.

He seemed to have some inexplicable feeling with this sword. Even Master Yi himself didn't know where his sword would fall before he made the move, but Fang Yue was able to sense the sword in the dark. Where the light falls.

This is an intuition I'm afraid!

This is also called martial intuition.

In fact, in many cases, some top warriors can make accurate predictions, but this prediction comes from their previous combat experience.

But Fang Yue's is not a kind of prediction, but a kind of induction in the secret.

He had no thoughts, and cleverly avoided every knife and light of Master Yi.

At this time, the Golden Light Gate has already begun to have strong people flying out of the gate, and these people are all real tycoons in the Golden Light Gate.

Among them, the lowest cultivation level is also the master of the peak level of the Saint Realm, and even the Great Sage alone has come to ten!

"Who is this person? He has already reached the fifth level of the Golden Light Array, and he has found his own martial arts intuition when he passed through the barrier. Although this martial arts intuition cannot be activated all the time, it only needs to be activated once and the next time. It is much easier!"

Meng Yunyun, a strong man on the eighth floor of the Great Sacred Realm, said.

She is a middle-aged beautiful woman with unique charm and extremely attractive!

However, all the experts in the Saint Realm and Great Saint Realm in the Golden Light Gate knew that this Meng Yunyun was not a gentle person.

She was born as a killer, and she proves by killing. Every year, no less than a hundred people of the same realm die in her hands.

A few days ago, she had just killed an elder on the ninth floor of the Great Sacred Realm at Huxiaomen who had a bad heart for her.

But Huxiaomen, which has always been strong, finally did not choose to pursue it.

Because Huxiaomen knows the truth, and one of their strong men on the ninth level of the Great Sacred Realm actually died in the hands of a female sage on the eighth level of the Great Sacred Realm in the Golden Light Gate. This in itself is an extremely shameful thing. !

This Meng Yunyun is an existence in the Golden Light Gate that can often open martial arts intuition.

As long as she opens the martial arts intuition, she can almost be invincible among the great sage.

Her prediction is terrible!

Before waiting for the opponent to make a move, I already knew that the person's next move would fall there.

"Budo intuition! This little guy is good, if you have no objections, I want it!"

An old man came out, his clothes sloppy.

But none of the great sages present was the one who judged people by appearance, not to mention that they had been in contact with this great sage for more than one year or two!

The Withered Vine Great Sage looked mediocre, but he was the most top-notch powerhouse in the real Great Sage Realm.

It is said that half of his foot has reached the threshold of the virtual fairyland level. Even Meng Yunyun has challenged her several times. It is said that she has lost ten battles and ten defeats, and she does not even know how she loses every time she fails!

If Fang Yue was only able to pass the test of the fourth layer of the Golden Light Array, he would naturally not attract the attention of so many big saint level leaders, but this Fang Yue could actually understand the martial arts intuition.

This is a bit scary!

Everyone can see Meng Yunyun's martial arts intuition.

That is simply the existence of the enemy's nightmare.

Meng Yunyun squinted at the Taoist withered vine: "Great Sage withered vine, your hand is too long to stretch it out! I discovered this, why? You still want to fight against people?"

Meng Yunyun's words are rather sharp and domineering.

Withered Sage smiled wryly.

Among these people, the one he is least willing to offend is Meng Yunyun!

Others are easy to talk about.

At least he dared not clash with him face to face. After all, the name of this half-foot stepping into the virtual fairyland spread out, and at least the practitioners of the Great Holy Realm level in this golden light gate would not easily provoke him.

But this dream is different.

This woman is simply a lunatic.

And every time he fights against Meng Yunyun, it is extremely difficult to win!

Although he has reached the half-step virtual fairyland realm, but God knows when he can bring the other foot to that level!

But this Meng Yunyun still has the ninth level of the Great Sacred Realm to go.

As long as she doesn't fall halfway, it is almost certain that she will be able to step into the ninth level of the Great Sacred Realm. At that time, Meng Yunyun's strength will rise to a higher level. It is not easy to say whether the two will win or lose if they fight!

Other powerful people in the Great Sacred Realm are completely afraid to participate in the fight between the two. This is completely a fight between the gods!

And Fang Yue was already immersed in a strange state.

He has no four thoughts, his heart and mind, only the enemy in front of him and the battle right now!

He was completely immersed in a state of being me.

All emptiness caused by thoughts.

At this time, Master Yi's sword light whizzed out.

Fang Yue's mind was completely quiet, and the golden figure of Master Yi was directly broken up in front of Fang Yue and turned into countless spots of light and dissipated in the void.

"What's the matter? How did Master Na Yi be killed by Fang Yue just now?"

Fang Yue, who had entered the state of martial arts intuition, was able to kill Master Yi, which was reasonable.

But how exactly Fang Yue made the move, none of the great sages present could see clearly.

Everyone's eyes fell on Meng Yunyun's body, because among the people present, she was the only one with martial intuition!

Meng Yunyun narrowed his eyes slightly.

"I didn't expect this Fang Yue to be so powerful! Just when he touched the threshold of martial arts intuition, he was able to operate the martial arts heart to crush Master Yi's phantom!"

"The heart of martial arts? What is this?"

At the moment, the many great sages of Golden Gate are all incarnations and become curious babies. They have never heard this word.

"The heart of martial arts is a further manifestation of martial arts intuition. It is a means to condense martial arts into one's instinct!"

This time, it was Great Sage Withered Teng who spoke.

The Great Sage withered Teng also has an understanding of the heart of martial arts.

Because in the course of his previous battles with Meng Yunyun, he has already learned how Meng Yunyun martial arts is!

The will of martial arts that pervades it can make him feel depressed, and even doubt whether his martial arts path is correct!

This golden incarnation was originally a martial arts phantom left by Master Yi.

The core of it is a ray of Master Yi's own martial arts ideas!

This martial arts heart just restrains this martial arts idea!

Fang Yue's understanding of the martial arts heart also ended the battle between him and Master Yi!

"Being able to cultivate the heart of martial arts, this little junior may have extraordinary achievements in the future!"

Meng Yunyun said that Fang Yue's name had become Junior Brother.

This Fang Yue was able to comprehend the heart of martial arts, which meant that neither she nor Great Sage Withered Teng could teach Fang Yue.

If you want to become Fang Yue's master, at least you need to be a strong person above the virtual fairyland!

This Fang Yue's talent is too amazing, this martial arts intuition, even the ordinary imaginary immortal can't be understood!

As for the heart of martial arts, only one or two of a hundred virtual immortals can touch the threshold!

Let the elders of the Great Sacred Realm teach Fang Yue, this is simply a violent thing!

Meng Yunyun gave up the rivalry Yue. The Great Sage Withered Teng also withdrew from the competition silently!

Immediately afterwards, the sixth test of the Golden Array came.

What appeared in the Golden Light Array this time was a fierce beast from the second level of the Saint Realm.

This fierce beast is simpler for Fang Yue!

Although the energy contained in it was stronger, it was far inferior to the previous Saint-level Master Yi in terms of combat skills.

Fang Yue had three tricks and two methods, and it was easy to fight the fierce beast.

Fang Yue also withdrew from the Golden Light Array while killing the fierce beast.

The reason is the same, the number of people around here is simply too much.

Moreover, each of them had a vicious eye, and they were all powerful at the Great Sacred Realm level.

He has just arrived, and although he wants to show his worth, he also has to hide his hole cards. If the hole cards in his hand have been seen.

Then he is not far from death!

Fang Yue stopped in time and stopped in time.

This makes a lot of great holy realm powerhouses secretly regret.

If they continue to watch Fang Yue fighting, they might be able to find some clues and know the trick to enter the realm of martial arts intuition!

Unfortunately, Fang Yue stopped.

Their purpose is also unachievable!

As soon as Fang Yue walked out of the golden light array, a powerful man of the Great Saint Realm level suddenly crushed him.

"Fang Yue, the old man is willing to accept you as a registered disciple, are you willing?"

An old man of the third level of Saint Realm walked out.

His breath is powerful, like a scourge to Fang Yue!

"Chen Kun, you!"

The Great Sage Withered Teng did not expect that Chen Kun would come to this hand. They were worried that their level would not be able to teach Fang Yue, causing Fang Yue's talent to be ashamed, but who would have thought that Chen Kun, who was a thousand miles worse than them, would have missed it, and wanted to accept Fang Yue as a named disciple!

There was a vicious smell in Chen Kun's smile.

At the same time, Wuchen Taoist quietly appeared behind Chen Kun.

Fang Yue looked at Chen Kun, his heart sank slightly.

He had a hunch, this Chen Kun took the initiative to accept disciples, definitely because he didn't have any kind in his heart!

"Fang Yue, are you willing to be my disciple of Chen Kun?"

Chen Kun spoke again.

He puts more pressure on Fang Yue!

The strong of the Great Sacred Realm is more than ten times more powerful than the saints!

Even the most powerful saint will feel a sense of powerlessness when facing the great saint!

Chapter 1738: Chen Kun's conspiracy

Chen Kun's smile is not correct, but there are rules in the Golden Gate.

The disciple of the master realm has the ability to choose a teacher, but this is only limited to the level of the saint realm. If a strong person with the great sacred realm wants to accept disciples, the disciple of the master realm does not have any full power to choose.

In the Golden Light Gate, disciples at the master realm level are accepted as disciples by the elders at the Great Sacred Realm level. This is a great glory, and the powerhouses in the Great Holy Realm are already the power stratum in the Golden Light Gate. Their will is not tolerated. Violated.

"Disciple Fang Yue pays respects to Master!"

Fang Yue didn't hesitate. Although he knew that Chen Kun had no good intentions in his heart, the situation was compelling. There were rules in the Golden Light Gate. If he refused, he would be severely punished.

This immortal realm is different from the universe of ten thousand realms. Among them, the strong are like clouds, and even the strong in the virtual fairyland are not uncommon. If he resists in public, it is very likely that he will be killed by the law enforcers of the virtual fairyland in the golden light gate! At that time, he would not make sense at all.

"Good apprentice, good! Let's go with Master now!"

Chen Kun smiled like a flower, and Wuchen who followed him sneered, looking at Fang Yue as if he was looking at a dead person.

"Meng Yunyun, don't you care about this matter? This Chen Kun is obviously a person with wrong intentions. He put Fang Yue into the door wall, it is very likely that a good seedling was wasted!"

The Great Sage Withered Teng has seen Chen Kun's thoughts a little bit, but he is not very good at taking action, because he still has some friendship with Chen Kun's master. Before he can get full evidence, if he rashly takes action on Chen Kun, there will be something wrong. Can't explain it!

Meng Yunyun glanced at Great Sage Withered Teng.

"You don't want to do anything, so what do you want me to do? What's more, this Fang Yue is not my disciple. What does his life and death have to do with me, and I feel that Fang Yue is quite difficult. Chen Kun may not be able to overcome it. Got him!"

After the two talked, Fang Yue had been brought back to his cave by Chen Kun.

Chen Kun looked up and down Xiaoxia, and then tried to make an amiable expression and said, "Fang Yue, right? You should come from other universes. You as a disciple should share your worries for Master. Open your mind and let Master take a look at your past and the universe you have stayed in before. You can rest assured that Master has a unique method for the soul. When observing your soul, he will not change your mind. Serious damage! If Master can gain something, he will definitely reward you! In this golden gate, I will be your future pillar and support!"

Chen Kun coaxed Fang Yue by coaxing children.

Fang Yue sneered in his heart. He had the soul celestial scripture, and naturally knew that Chen Kun's words didn't even contain a single word of truth!

As long as his mind is let go, Chen Kun will directly plunder his memory. At that time, he will either become an idiot, or he will be refined into a puppet with Chen Kun.

"Master, there is a seal in my divine mind, which I left in the universe! If the master can break my seal, the disciples will naturally want it!"

Fang Yue's face was sincere.

Chen Kun couldn't help but his spirit.

It looks like this Fang Yue is a shrewd person. He didn't expect him to be so stupid, so he would get the bait so easily!

"Which seal, let the teacher see! If there is any seal, the teacher can help you solve it!"

Chen Kun has a big deal.

Fang Yue nodded slightly. He then closed his eyes and sat cross-legged in front of Chen Kun.

A strand of Chen Kun's spirit fell into Fang Yue's eyebrows.

Fang Yue directly stole the beam and exchanged it, leading Chen Kun into the seal of the Underworld Ring.

Fang Yue hadn't cracked those seals for a long time, and the profound entrances in these seals were thrilling, even though he was not sure to break them all.

Fang Yue needs to find a pathfinder.

And this Chen Kun seems just right!

Chen Kun's spiritual thoughts fell into the Ring of Underworld, and the seven seals in front had been cracked by Fang Yue, so he was unimpeded.

But then Chen Kun ran into trouble, and he encountered the eighth seal.

Among them is a world of Netherfire, this Netherfire can burn the soul and spirituality!

Underworld, specifically restrains the soul.

Chen Kun was caught off guard, and the divine mind was burned by the flame as soon as it fell into the underworld.

His spiritual thoughts turned into strands of blue smoke and dissipated in the void!

"what!"

Chen Kun cried out in pain, and he did not expect that he would be unfavorable when he came out of the teacher. He had just fallen into Fang Yue's divine mind and was so traumatized!

Chen Kun's complexion was slightly pale, although the loss of a ray of spiritual thought was nothing to him. Within three to five days, he could recover by meditation and breath adjustment, but he did not break the seal in Fang Yuemei's heart. Makes him quite unhappy!

"Master, are you okay!"

Fang Yue asked quite concerned.

At the same time, Fang Yue said to himself in his heart: "It turns out that the eighth seal in this Hades ring is Hades!"

This Chen Kun looks very powerful, but his soul cultivation is just average.

Fang Yue's words made Chen Kun's face turn blue and white.

He was still full of confidence just now, but he didn't expect to be beaten in the face in an instant!

However, Chen Kun still coveted Fang Yue's memory, but he comforted Fang Yue on the bright side.

"Hahaha, the seal in your mind is really weird. I was caught off guard just now by the teacher! Fang Yue, your talent is amazing, and there is nothing to teach you as a teacher! This is in the Golden Gate. Jin Guangzhan's fame and unique knowledge, you first take it to your own comprehension!"

Chen Kun handed over a exercise to Fang Yue.

This is a jade slip.

The engraved technique is the entry-level technique of Golden Light Slash in the Golden Gate. This technique is not mysterious!

It was created by Jinguangdao, the founder of Jinguangmen, in his youth.

Generally even handyman disciples are qualified to learn this secret method.

It can be seen that Chen Kun is not interested in Yue Duo.

However, Fang Yue didn't care about it. Originally, he didn't come to this Golden Light Gate to learn any messy secrets!

He has three celestial scriptures in his hand, and each of these celestial scriptures is of extremely high level. If these three celestial scriptures are practiced step by step, it is enough for Fang Yue to cultivate to the peak! He really doesn't like the exercises and secret techniques in the Golden Light Gate, but Fang Yue didn't waste it either. He directly used the Golden Light Slash to let the deity re-record the inside in the universe of the Ten Thousand Worlds. Then sold the secret method to Galaxy Bank.

Even an extremely common technique in this immortal realm belongs to an extremely advanced treasure scripture that falls into the universe of ten thousand realms.

This Golden Light Slash has corresponding secret methods from the level of the leader realm to the level of the great sacred realm, and the secret methods of the great sacred realm are rare in the universe of ten thousand realms, and their value is inestimable.

After receiving Fang Yue's Golden Light Slash, Galaxy Bank directly arranged ten powerful saints at the pinnacle level to garrison the earth. Although they will not fight for the earth, they will absolutely provide one for the earth if they can. A strong combat power!

This is the value of Golden Light Slash, which can be exchanged for the help of ten powerhouses at the peak of the Saint Realm.

And Fang Yue didn't treat these ten powerhouses at the pinnacle level of the Saint Realm. He gave each of them two Sui Chen Dan!

These ten saints are even more devoted to the earth!

Taking people's money and people to eliminate disasters has been the principle since ancient times!

"The biggest advantage for me in this Golden Light Gate is that I can obtain resources that are only available in the various earth immortal worlds, such as finding some elixir and the like, to help my clone of the Destroy Demon Race to consolidate the foundation. More room for development!"

Fang Yue cherishes this incarnation very much.

This is his only reliance between the immortal world and the universe of ten thousand worlds.

If this clone was broken by someone, he wouldn't even have a place to cry!

"Little Junior Brother, I am afraid that you are not familiar with everything in the Golden Light Gate when you are new! Come, let Senior Brother come to guide you and stroll around in this school?"

Wuchen appeared at this time, and his smile was full of goodwill.

Fang Yue was a little speechless when he saw this. Did the bad guys in the Golden Light Gate write me directly on his face?

Are they not concealing or disdain to conceal?

However, since this Wuchen took the initiative to deliver it to the door, Fang Yue would not refuse.

"Then please ask Wuchen Brother!"

Fang Yue smiled and sent three middle-grade world crystals.

The crystallization of this world is the hard currency among the saints, even in the realm of the immortal!

Wuchen couldn't help but smile brighter when he saw the crystallization of these worlds. His eyes looked at Fang Yue a bit more greedy. He didn't expect that Fang Yue was still a fat sheep!

The crystallization of this world is a good thing, and it can assist in the cultivation of saint origin!

"Easy to say, easy to say! I don't know, what do you want to know first?"

Wuchen looked at Fang Yue with scorching gaze, his gaze even made Fang Yue feel a little scorching!

"I first came to the immortal realm. I heard that the various resources in the immortal realm are extremely rich. I have encountered some difficulties in my practice and need to use some spiritual grass for a pragmatic foundation! I don't know if Brother Wuchen has any good recommendations. ?"

Fang Yue's words brightened Wuchen's eyes.

This Fang Yue is really a fat sheep!

He should be a bumpkin from the universe below.

The insight is not good, but the wealth is quite rich. This Fang Yue's spirituality will definitely belong to the master, and he can consider robbing some of his wealth!

Wuchen touched his chin, and countless poisons flashed through his mind!

At this time, Fang Yue's body suddenly trembled slightly.

When a girl in colorful clothes passed by, Fang Yue had a feeling for something on the girl in colorful clothes!

"Sister, please go slowly!"

Fang Yue could sense that the girl's cultivation level should be around the fifth level of the Saint Realm!

In the Golden Gate, the disciples of the same generation are called brothers and sisters.

Fang Yue was able to break through the first five floors of the Golden Light Array, and his status and status were already comparable to the saints in the Golden Light Gate!

"Ok?"

The girl stayed away, her big eyes looked at Fang Yue.

"Do I know you?"

The voice of the girl in colorful clothes is very nice, slightly hoarse, sexual and magnetic!

Chapter 1739: Zhou Qi

"Naturally don't know each other! I'm Fang Yue, a beginner, and I ask my senior sister to be able to take a lot of photos!"

Fang Yue worked well and did a good job of etiquette.

The indifference of the girl's face was slightly dispelled, and it seemed that although this kid had a low cultivation level, he was courteous, and he should not be a reckless person!

"I am Zhou Qi in the Palace of Longevity. I don't know why you stop me?"

Zhou Qi asked Fang Yue straightforwardly. As a disciple of the Palace of Longevity, her status is quite dignified and transcendent. It's not that every cat or dog needs to take care of it!

Fang Yue said: "I sensed an object in Senior Sister's body. This object can be beneficial to my practice. I don't know if Senior Sister can cut love and trade this object to me? I can naturally offer a price that is satisfactory to Senior Sister!"

"Oh? I have something beneficial to your practice? Tell me what it is? If you can say it, how difficult is it for me to cede that thing to you?"

Except for Zhou Qi's Lingluo shirt, all the valuable things on his body were placed in the storage bag around his waist.

This storage bag can isolate the detection of Divine Mind, even if it is a powerful person in the Great Sacred Realm, it doesn't know what is in it.

This kid actually said that she felt something beneficial to her practice. This is not because she is the kid who has great attainments in space!

"Eternal Life Palace, the name here seems to be very familiar!"

Wuchen frowned, he vaguely felt that he had heard these three words.

In an instant, Wuchen's face changed suddenly.

"Seeking longevity in the Hall of Longevity! Could it be possible, you are the descendant of the Hall of Longevity, one of the ten great immortals in the realm of Earth?"

The dust-free voice even trembled a little!

The Palace of Longevity is a legendary existence in this immortal world! Its existence can even be traced back to ancient times.

The Hall of Longevity is an ancient sect in the immortal world, and it has a great reputation in the world of immortals. The Hall of Longevity in this immortal world was founded by a disciple of the founder of the Hall of Longevity, Changsheng Tianzun, and the longevity Taoism is ancient and pure. Make countless practitioners yearn for it.

However, the acceptance of disciples in the Hall of Longevity is extremely strict, and it is not that the peerless Tianjiao cannot be included in the eyes of the Fa.

This also means that Zhou Qi is likely to be a peerless master.

Wuchen looked at Zhou Qi, a greedy look appeared in his eyes.

If he can hold the big thick leg of the Hall of Longevity, even if he just marries one of the outer disciples, his status in the Golden Light Gate will soar, and even Chen Kun will no longer dare to call five and six if he sees him!

Dust-free minds turn around.

Zhou Qi gave Wuchen a cold look.

She is not a fledgling practitioner, and she has a deep understanding of the sinister heart of this person.

However, this is in the Golden Light Gate, and she does not want to make too much noise.

If this Wuchen gave up since then, if he wanted to disadvantage himself, then the entire Golden Gate could not keep him.

"Sister, there should be a small black flower in your storage bag. This small flower is called the Flower of Destruction. It has budded for five hundred years and bloomed for five hundred years. Its seed is the Destroy Demon of the Saint Realm or even the Great Saint Realm level. The corpse of the strong man was transformed and evolved! This flower of destruction is useless to most practitioners, but it contains fragments of the Destruction Dao, which is useful to the Demon Clan or practitioners who practice Destruction Dao. The supreme gem!"

Fang Yue's voice fell.

Zhou Qi couldn't help but be surprised.

"There is indeed a flower of destruction in my storage bag, but this thing was obtained by chance again. If you don't say anything, even I have forgotten that there is such a thing in my hand! But this flower of destruction is also extremely precious. I wonder what price you are going to pay in exchange for this flower of destruction?"

Zhou Qi's smile was sweet, she was almost certain that Fang Yue must have extraordinary attainments in the way of space and heaven, and could sense the breath of this flower of destruction, because the flower of destruction had already been put in her hands. Ten years, but during this time, absolutely no one knew that she had this thing in her hands!

This flower of destruction was obtained by her in an ancient ruin, when she went for a magic weapon of the virtual fairyland level.

It's just that in the ruins, she picked this flower of destruction easily, even Zhou Qi didn't even know that it was called the flower of destruction.

She was still going back to the Hall of Longevity and looked up some ancient jade slips before she knew the origin of this thing.

In the earth immortal world, there is no epoch reincarnation, and the destruction demons are just an ordinary ethnic group in the earth immortal world!

"Ask Changsheng in the Hall of Longevity. I have a sage-level questioning fruit. If the senior sister likes it, you can take it away. It's a little bit of the younger brother's mind."

Fang Yue didn't make the deal too straightforward.

If you use this kind of human relationship, you can add a layer of human relationship between the two!

"Ask Daoguo, are you really willing?"

Zhou Qi originally wanted to tease Fang Yue. Since this Fang Yue has extraordinary attainments in space and heaven, it is inevitable that Fang Yue will have trouble in the years to come.

This flower of destruction does not have much effect on her, so it is better to give it to Fang Yue as a good bond.

But who would have thought that Fang Yue was really serious, and he also took out such a rare godlike thing as Asking Daoguo.

This question is not as simple as an ordinary fruit.

This fruit itself contains a touch of will of heaven and earth. After taking it, it can not only increase the strength of the soul and fit the way of heaven, but also have a chance to enter the realm of harmony between heaven and man during the process of refining. Then, more than ten times the speed of the past!

Many ancient powerhouses were able to realize the Dao and Enlightenment with the help of this question.

In fact, Dao Guo does not have any ranks, but because of its age and effectiveness, it is divided into different levels.

This questioning fruit was just born of the yin-yang level holy medicine, while the ten-year questioning fruit was the fruit of the leader level, and a hundred years later, it was the saint-level questioning fruit.

This asked Daoguo's age, the better its efficacy will be.

As Fang Yue said, he really took out a questioning fruit, and the surface of the questioning fruit was overflowing with colorful light.

This questioning fruit turned out to be a questioning fruit of 300 years.

Even if Zhou Qi saw this questioning fruit, he still had the urge to swallow it.

The dustlessness at this moment is even more full of greed.

Asking Daoguo this kind of good thing is simply something you can meet but not ask for. If you swallow one when you encounter a bottleneck, almost all the thresholds below the Great Sacred Realm can be easily passed.

In addition, it strengthens the soul and conforms to the power of heaven. It is definitely an extremely rare top product in the holy medicine!

Wuchen's eyes rolled around, even if he was thinking about it.

He immediately changed his face and said angrily, "Fang Yun, you are so courageous, you dare to steal the holy medicine from the door and ask Dao Guo! Senior Sister Zhou Qi, you quickly help me take this thief!"

When dust-free turned his face, a basin of dirty water poured down.

When Zhou Qi heard Wuchen's words, he couldn't help but snorted.

"What are you? You dare to command me? Even the elders at the Great Holy Realm level in the Golden Light Gate would not dare to talk to me like this!"

Zhou Qi came from the Hall of Longevity, and is one of the top ten immortal gates in the immortal world. The disciples in the gate are all proud, and almost never see the small gates like Jinguang Dongtian.

What's more, Wuchen had no good intentions to her just now, she just didn't have any episodes, but she didn't expect Wuchen to get worse at this time, and actually played moths in front of her.

This made Zhou Qi even more disgusted by Wuchen.

Like this kind of cultivation base, in the Palace of Longevity, there is no qualification to sweep the street.

He dared to show off his cleverness in front of him. If he were in the Palace of Longevity, he would have slapped this dust-free slap to death!

"Do you ask Daoguo?"

Fang Yue had long known that Wuchen was a greedy person, but there was no evidence, and he couldn't deal with this guy.

Unexpectedly, a mere questioning fruit would lead out this guy's greed!

Fang Yue's questioning not only didn't let Wuchen put away his greedy thoughts, but instead he raised his head and said shamelessly: "Yes, I lost a questioning fruit in the school some time ago, no I thought it fell into your hands!"

"Fang Yue, you really disappointed me too much. The martial art thinks that you are extremely talented. I didn't expect you to do such a ridiculous thing. Have you ever thought about your cultivation when you did it right? Are you worthy of the master's trust in you? You, you, you! Alas! I think you are young and ignorant. If you know that you are confessing your mistakes, return this question to me, I can help you hide the secret and prevent it The sect knows that it will give you a chance to reform yourself!"

Wuchen looked awe-inspiring.

Fang Yue sneered: "Senior Brother Wuchen said that I still want to thank you?"

Wuchen seems to have not heard the ridiculous meaning in Fang Yue's words: "At the same time, brothers, thank you for your tolerance!"

"Shameless!"

Zhou Qi next to him couldn't listen anymore.

This dust-free is simply a shameless typical.

I really don't know how I would encounter such a person in this golden gate.

If this person were in the Palace of Longevity, the brains that had already been beaten would have come out!

Hearing Zhou Qi's comment, Wuchen was not ashamed, but said with pride.

"Non-toxic and not a husband. What's more, this Fang Yue is my younger brother. This is something inside my Golden Light Gate. Although Senior Sister Zhou Qi is a disciple in the Palace of Longevity, it might be a bit bad to participate in my internal affairs at the Golden Light Gate. !"

Wuchen did not put Zhou Qi too much in his eyes.

Although Zhou Qi was a disciple of the Ten Great Immortal Sects, this Golden Light Gate was his site. Now that the Emperor of Longevity Palace is far away, they don't need to look at the face of a disciple in the Palace of Longevity.

Fang Yue looked towards Wuchen with a smile.

"Brother Wuchen, do you know that there is a law in this world called the strong eating the weak?"

Fang Yue's voice fell.

Wuchen could not help but nodded: "I naturally know this. Now that I am strong and you are weak, you naturally want to contribute all the resources in your hands to me! The strong in this world are always strong, Fang Yue, you should know this truth! I am already I gave you a chance, but I don't know if you can live with me!"

Wuchen is still a disgusting and compassionate expression!

Fang Yue's voice has gradually become lowered.

"Originally, in this Golden Gate, I really wanted to come to learn art, but you didn't give me this chance to be a beautiful man in peace, so I had to use some means to let you know that I was not good. Bullied!"

Chapter 1740 Migration Dislocation

Fang Yue's voice gradually evolved into a nightmare-like magic sound in Wuchen's ears.

This magic sound reverberates in the dust-free mind all the time, making him unable to concentrate at all!

No dust could not help being shocked.

"Fang Yue what did you do to me?"

Fang Yue chuckled and said, "Don't worry, this has just begun, and the show is still to come!"

Fang Yue knew that everything that happened in the Golden Light Gate would be easily found by those elders in the Golden Light Gate, and the truth could even be restored.

However, Fang Yue did not intend to hide them.

When he first arrived, it is inevitable that some people will treat him as a fat sheep that can be slaughtered wantonly.

If you don't find someone to stand up for power, he won't do anything else in this golden gate in the future. The nasty flies of daily play are over!

Dust-free eyes glanced slightly, his hands clasped together, and he was muttering words, which turned out to be chanting Buddhist scriptures.

This Buddhist scripture is claimed to be able to calm people's hearts and suppress all demons.

Unexpectedly, although Wuchen has a despicable character, it has a wide range of aspects.

The dust-free and solemn treasure image, with the chanting of the Buddhist scriptures, a circle of golden halo emerged from the back of his head!

At this moment, Wuchen has actually entered a state of no other, no self and no form.

That Mo Yin was slightly suppressed by him, but only for a moment, he ushered in a stronger counterattack from Mo Yin.

The dust-free complexion was instantly hideous, and his eyes were blood-red, as if he was enchanted!

"Fang Yue, you plant me a demon, you must die!"

It's already this time, Wuchen still doesn't know where, this Fang Yue's shot is to plant him an incomprehensible demon.

As for that magic sound is just an introduction.

If the heart demon invades, if it can't be killed in time, it will become a demon, the cultivation base will be destroyed, and it will be transformed into a demon.

"Brother Wuchen, you have to pay attention to evidence for this statement. It is obviously that you are not righteous and want to deceive the Tao fruit in my hand. When did I become the demon I planted for you?"

Fang Yue said without urgency and slowly: "The voice just now is just torturing your original heart. If your original heart has a clear conscience, it will naturally dissipate. Only if your original heart has any regrets and guilt will it arouse. Your heart demon is breaking out!"

Fang Yue and Wuchen fight method.

In Zhou Qi's opinion, there is a feeling of beating a child.

When they first met, Zhou Qi felt that the young man in front of him was extraordinary.

Otherwise, she would not talk to Fang Yue for such a long time.

And this dustless greed and heart, even wanted to blackmail Fang Yue.

Wuchen was angry, and the blue veins on his forehead burst.

At this moment, his inner demon has completely attacked, his original heart is greedy and fragile, and he has not survived the torture of the inner demon and is transforming in the direction of the demon.

at this time.

A patrol disciple from the sixth floor of the Saint Realm was finally late.

He just arrived and didn't take care of the danger. He was about to change into the devil's Wuchen, but instead looked at Fang Yue and Zhou Qi.

"Ye Hanshuang met Senior Sister Zhou Qi!"

Ye Hanshuang's patrol disciple who was responsible for maintaining the security of this sect's territory had already cultivated into a human spirit.

He had seen all the things that just happened long ago in the images of the surveillance sect, and he kept these images and sent them all to the high-level sects.

Later, he was late.

Because Ye Hanshuang can roughly guess that this time the incident itself is the blame for Wuchen, so the martial arts will not punish Fang Yue and Zhou Qi in the end, but will also punish Wuchen aggressively, or let him give birth to himself. Off.

No dust, after all, he takes his position in the martial art too much!

In the Golden Light Gate, there are many disciples like him who have just stepped into the saint level sect, and they are not worth any money.

And Fang Yue's information was already in the hands of Meng Yunyun and the Great Sage of Withered Teng when he broke into the Golden Light Array, and can get the attention of the two Great Sacred Realm elders. This Fang Yue's talent is absolutely extraordinary, far more than one. It took thousands of years for the disciples who only reached the level of the Saint Realm to be much more important.

And Zhou Qi is a disciple of the Palace of Longevity. It is said that her teacher's inheritance is quite big! This time Zhou Qi came to the Golden Light Gate by the kind invitation of the martial arts.

Many senior elders at the Golden Light Gate wanted to flatter Zhou Qi, let him leave a good impression in the Golden Light Gate, and return to the Palace of Longevity to say a few more words for them.

Who knows, there was such a villain, Wuchen, even if Fang Yue did not resist this time, afterwards, the elders in the Golden Light Gate would find Wuchen to settle.

"Senior Brother Ye, save me!"

Wuchen was almost completely destroyed under the influence of the inner demon, but occasionally he was able to recover a little wisdom and struggled hard.

He asked Ye Hanshuang for help.

But Ye Hanshuang was a cold face.

"Wu Chen, you are up to your own responsibility this time, and no one can save you!"

Ye Hanshuang resolutely refused.

On the one hand, he is really powerless. How to surrender the demons has always been a major issue that practitioners need to face.

Secondly, for the sake of a stranger Wuchen, he is not worth offending Fang Yue and Zhou Qi, two people with a lot of background.

Fang Yue looked towards Wuchen with a smile, but Ye Hanshuang respected him and Zhou Qi's attitude. There should be some reason for this.

However, no matter what the reason, the result is finally good!

"Since Senior Brother Ye is here, I should give this Wuchen to the martial art. No matter how the martial art deals with him, Fang Yue believes that the martial art will not be unfair!"

Fang Yue smiled slightly, and then he waved his palm.

The magic sound lingering in Wuchen's ear for a long time gradually disappeared.

The dust-free demons also disappeared.

This killing of fellow brothers is a serious crime in the Golden Gate.

Was severely sentenced or even hunted down by the martial arts because of a dust-free?

not worth it!

Although Fang Yue didn't like this Wuchen, but Wuchen was not a threat in his eyes after all!

This dust-free strength is just a slightly stronger ant in Fang Yue's eyes!

Ye Hanshuang couldn't help but admire Fang Yue even more when he saw Fang Yue's magical methods.

"Brother Fang Yue, it's really a good skill!"

Fang Yue said modestly: "You are welcome, you are welcome!"

"Senior Brother Ye, this Fang Yue robbed me of my questioning fruit, and I became ashamed to become angry when I asked him! If you want to murder me, you have to be the master of me, and the school should be the master of me!"

Wuchen suddenly hugged Ye Hanshuang's thigh and cried.

At this time, he even pours Fang Yue's dirty water.

Fang Yue was a little speechless. He had seen someone who didn't know life or death, but he had never seen someone who didn't know life or death!

At this time, there was still a trace of greed in the Wuchen looking towards Wen Daoguo.

"No dust!"

Ye Hanshuang was also a little angry.

The more this dust-free is, the lower Zhou Qi of the Palace of Longevity would give their Golden Light Gate a lower evaluation?

They had said to Zhou Qi that they would provide a good hospitality. Wouldn't all the hard work they have done be wasted?

"Ye Hanshuang, when is my disciple's turn to intervene?"

At this time, Chen Kun didn't know which school he had walked out of.

When he showed up, he stood on the clean side.

The aura of Chen Kun's Great Sacred Realm suddenly fell.

Ye Hanshuang fell on the ground unexpectedly.

Ye Hanshuang gritted his teeth, he stiffly resisted the pressure of the Great Sage and slowly climbed up from the ground.

"Elder Chen Kun, do you know what will happen to the inspection disciples in this way?"

Ye Hanshuang is also a tough one, and he is extremely dissatisfied with Chen Kun.

Inspect disciples and are responsible for the security of the sect. Although their status is not as good as that of the elders, when they are performing official duties, even the elders of the Great Sacred Realm cannot intervene casually.

"Oh? Your little inspection disciple would dare to shout at me? This is obviously the housework between my two disciples. What does it have to do with you? Inspection disciple? Your hand stretched out too much. Let's grow up! Looking back, I'm reporting to the sect and let them manage your so-called patrol disciples, take back your authority, and take a good look. What have you done over the years?"

Chen Kun is extremely domineering.

As soon as he opened his mouth, he was about to withdraw the rights from the inspection disciples.

And Fang Yue sneered and said, "Master Chen Kun, this brother Wuchen slanders me, but you have to be the master for me!"

Fang Yue's expression was cold, obviously he didn't mean to be close to Chen Kun.

This time the trouble was so big that it happened to allow him to get out of Chen Kun's hands.

Chen Kun's face was cold.

Is this Fang Yue putting on small shoes for him on purpose?

"Stigmatize you? The truth of this matter needs to be investigated for the teacher!"

Afterwards, without saying anything, Chen Kun directly used his soul-satisfaction technique on the other Yue.

He wanted to photograph Fang Yue's soul from his body and observe Fang Yue's memory.

This dementia is extremely overbearing, but anyone who hits it will almost become an idiot!

At this moment, Chen Kun also lost patience, trying to see.

But his thoughts fell on Fang Yue, but disappeared instantly like a clay cow entering the sea.

"Fang Yue, you!"

Fang Yue saw an expression of anger on Chen Kun's face, he couldn't help but slowly said: "Master Chen Kun, I know you want to take a look at the memory in my mind and learn about the other one. The civilization of the universe is not pure! However, people are doing it, and the sky is watching. Do you really get the permission of the Golden Gate to do this?"

Fang Yue tore his face and didn't bother to talk to Chen Kun and Wei Snake again.

Chen Kun was furious and reprimanded Fang Yue: "Nonsense!"

Fang Yue didn't bother to talk to Chen Kun again.

He turned to look at Zhou Qi beside him.

"Senior Sister Zhou Qi, I wonder if your Eternal Palace still recruits disciples?"

Fang Yue's voice fell.

Zhou Qi showed a surprised expression: "Junior Brother Fang Yue, are you planning to join me in the Hall of Longevity? However, the Hall of Longevity has extremely high requirements for my disciples. If I don't have the ability, I am afraid it will be difficult to enter!"

"Can the fifth-level realm of Space Heavenly Dao enter the Hall of Longevity?"

Fang Yue didn't say that his talent was too enchanting, otherwise, it was too public, and he might attract a major enemy.

"The fifth floor of the space heaven?!"

Chen Kun couldn't help but horrified when he heard this. He knew that Fang Yue was extraordinary, but he had never thought that he turned out to be a heavenly arrogant who could comprehend the way of heaven.

"Yes!"

After Fang Yue finished speaking, Wuchen next to him was a small space dislocation in the position of his neck.

His head and body are ectopic, and the incision in the middle is as smooth as a mirror.

Space and heaven, migration and dislocation.

This isn't an overly sophisticated method, but killing the saint instantaneously makes people horrified!
