

God of Life 1741

Chapter 1741 is robbing people!

"How? Is my method qualified to be a disciple of your Eternal Palace?"

Fang Yue smiled and looked at Zhou Qi.

Zhou Qi's beautiful eyes flashed with brilliance.

This Fang Yue's method is simply and neat, and his comprehension of space and heaven has reached the point of detachment! Moreover, his cultivation level is very low, but he has just stepped into the threshold of the leader level. His future prospects are broad, and he may be able to become a giant.

"No problem! You are more than enough to become my disciple in the Palace of Longevity with your attainments in this space and heaven. This Golden Light Gate is really stupid to reject your genius!"

Zhou Qi said to Chen Kun without mercy.

Chen Kun's face was green, and he didn't know that Fang Yue's talent could reach this level.

The realm of the fifth level of the space heaven is basically able to walk sideways in the golden light array.

According to the truth, if Fang Yue displayed his current strength in the Golden Light Array, he could at least reach the seventh or even the eighth level of the Golden Light Array!

At that time, Fang Yue's identity and status would be different, and he wouldn't want to kill chickens and get eggs. For the memory and experience of other universes, he would be regarded as a fat sheep to be slaughtered on a cutting board.

"Fang Yue, please think about it. If you leave the Golden Gate now, but everyone has been punishable by the sin of betraying the sect, I can kill you now. If you can wake up and turn around in time, I can turn one eye and close one eye to what happened just now, and you will forget the blame even for the death of Wuchen!"

At this time, Chen Kun was still threatening Fang Yue.

Fang Yue sneered and said, "I have already said that I am the fifth level realm of the Space Heaven Dao, an ordinary sage, I kill like weeding grass, even the strong of the great sacred realm can't catch it. Me! Space and Heavenly Dao practitioners are best at escape! Although my realm status, I still have some accomplishments in escape!"

Fang Yue is quite a bachelor, which makes Chen Kun even more ugly. That's right, the comprehensors of the heavens in this space are just a teleport, front and back, left and right, heaven and earth, ghosts know where they will appear next moment?

If you can't catch them, what is waiting in the future is endless sneak attacks and revenge!

This kind of thing is not without precedent in Golden Gate.

In the Golden Light Gate, there were several disciples of the Saint Realm who died under the sneak attack of the practitioners of the Space Heavenly Path.

"Fang Yue, do you think I really have nothing to do with you? If I change a place, I may not be able to catch you. But this is my site! I have been here for many years and have set up countless secret tunnels. There are many arrays of stars, some of which are related to the essence of time and space, and can trap you in them, unable to escape!"

Chen Kun became fierce.

He threatened Fang Yue again.

These words make it difficult to distinguish between true and false.

The corner of Fang Yue's mouth provoked a sardonic smile.

"If you say so, you might as well let Elder Chen Kun try your formation! If you can catch me, I will confess to punishment!"

Fang Yue's attainments in the formation method were aloof and even better than that. Only the achievements of the alchemy could be comparable to the sword method.

Chen Kun's face was gloomy: "Fang Yue, I've been very good at admonishing you, but since you're toasting and not eating, and fine wine, then I'm not welcome!"

Chen Kun brazenly shot.

A silver rope soared out of the void, like a spirit snake entangled Fang Yue's body.

The rope tightened suddenly, almost strangling Fang Yue to death.

However, the rope was cut in half but could not be tightened again.

Fang Yue looked at Chen Kun leisurely.

"Elder Chen, your rope seems to be bad!"

The strongest place for Fang Yue is the flesh. His flesh is sanctified. Although it is not as good as the deity, Fang Yue has swallowed a lot of heaven and earth treasures in the Destruction Demon Race. The solidity of this flesh is also beyond the ordinary holy artifacts. .

Although this rope is exquisite, it can melt into the void, and suddenly launch a sneak attack, which is impossible to prevent.

But Fang Yue's physical body seemed to be one level better, stronger and indestructible!

It was because the rope entangled his body, and it couldn't leave any traces on his body.

Chen Kun was shocked.

What physique is this?

Obviously, he was only a junior at the level of the leader, the firmness of this physical body unexpectedly exceeded that of an ordinary saint magic weapon!

Chen Kun was unwilling.

"Look at this again!"

Chen Kun stomped, and a flame formation emerged under Fang Yue's feet. The color of the flames continued to change from red to orange, then from orange to yellow, yellow to green, and green to purple!

The rainbow and its colors are all present in this flame.

However, these flames still couldn't harm Fang Yue's flesh.

Fang Yue bathed in the flames as if bathing in rain.

Fang Yue said with a smile: "It turns out that the legendary Master Chen Kun is a wax-headed silver gun. It doesn't look good! The formation you set up is not good, no!"

Chen Kun's color of astonishment is stronger. His fiery sky burning formation was arranged by another elder at the Great Sacred Realm level. This formation can easily refine even the magical artifacts of the ordinary Saint Realm level, but when he arrived at Fang Yue's place, he even let him slightly injured, burned half of his hair can not be done.

"Monster, monster!"

The hairs on Chen Kun's body were exploded, and Fang Yue's existence and various methods were obviously inconsistent with common sense!

Such a physical body shouldn't exist in a junior at the master level. Even if it is a powerful person who is proficient in body refining, they may not be comparable to him in terms of physical attainments!

"Monster? Monster?"

Fang Yue laughed loudly: "Chen Kun, Chen Kun, you are too overestimating your formation! Now you look again, who is the controller of this burning sky formation?"

Fang Yue manipulated the flames in the formation to fly towards Chen Kun's body.

Chen Kun yelled and dodged quickly!

Fang Yue can hold this flame, but he is dying for a moment!

"how can that be!"

Chen Kun shouted in shock.

Fang Yue smiled narrowly: "Don't you know that the arranger of this formation left a back door when arranging the formation? As long as you find the back door, you can easily fight for control of this formation! Now this formation It's mine. Naturally, this blazing fire will not hurt my half-hairs!"

Fang Yue's words, every word is right.

Chen Kun's mind couldn't help but shake.

The arranger of the Burning Heaven Array is a good friend who has been with him for hundreds of years!

Chen Kun believed in him nine points.

But at this moment, the doubt in his heart is constantly magnifying!

Chen Kun's mind was a little dazed, and today's things seemed like dreams.

This Fang Yue is too strong!

His strength is beyond imagination.

"Fang Yue, you go! I know that I can't stop you, but it's not that simple for you to kill me!"

Chen Kun knew that Fang Yue could no longer be surrendered by him.

Although he still had the means and hole cards, seeing Fang Yue's calm and relaxed appearance, he also knew that he couldn't take Xiao Yue.

What's more, this Fang Yue is also proficient in space heaven, and has reached the fifth level. This space heaven is best at expressing his life and escape. Fang Yue is right, even if he does his best, he cannot be caught.

Fang Yue clasped his fist and said, "Then thank Elder Chen Kun!"

Fang Yue's gratitude to Chen Kun was a great irony when Chen Kun heard it.

At this time, the clouds gathered on the horizon.

In an instant, above Yunxia, there were a lot of people.

When Chen Kun saw the gathering of clouds, he suddenly laughed.

"Fang Yue, Fang Yue, I didn't expect the sect to pay much attention to you. I just broke the news about you, and there are some powerful people in this sect!"

Among the clouds, above a colorful cloud.

A young girl, dressed in purple.

Fang Yue knew that this girl was just a girl, because the faint aura of the virtual fairy realm over her body overwhelmed everyone present.

The girl landed and looked at Fang Yue up and down.

Chen Kun put away his shameless appearance, and said to the girl with a fist, "Chen Kun sees the saint Zifei!"

The girl Zi Fei didn't pay attention to Chen Kun at all.

In the Golden Light Gate, there are many influential elders like Chen Kun, but Fang Yue, a Tianjiao who can cultivate to the fifth level of the space heaven is extremely rare!

"I am the saint Zi Fei of the Golden Light Gate. I can apologize to you on behalf of the sect for the previous events. If you are not satisfied, I can punish Chen Kun strictly on behalf of the sect! I don't know if you can change your mind and bring it back into consideration. In the arms of Golden Gate?"

Zi Fei Fang Yue's attitude is quite sincere, this talent is different, and the value is also different.

Even if Fang Yue doesn't have much attainments in cultivation in the future, he can make a lot of contributions to the Golden Light Gate only if he is only in the cultivation realm of the fifth layer of Heavenly Dao in this space!

Zi Fei's words left Fang Yue slightly taken aback.

He is the master of eating soft or hard.

If the people sent by Jinguangmen still have a strong attitude, he can turn around and leave without saying a word.

This can't be beaten, and you can hide.

However, Zi Fei's attitude was so gentle and gentle, which made him feel embarrassed to refuse.

"The saint Zi Fei speaks so, it is difficult for some strong people! The old man just saw the elders in the golden gate of yours and make things difficult for this baby! Searching for the soul at every turn, this soul is the key place for practitioners, yes Can you search if you want to search? The lighter will become devilish, and the heavy will become dementia! This elder's word is that it can abolish a talented arrogant with unlimited potential. You golden gates are really overbearing!"

An old voice appeared from behind Zhou Qi.

This old woman with a faucet and a cane slowly walked out of the void.

She always wandered around here.

Fang Yue had actually sensed it through space and heaven!

This is also one of Fang Yue's confidence to join the Palace of Longevity. The talent he showed just now was not for Zhou Qi at all, but for this old woman!

The old woman looked at Fang Yue deeply, and then slightly revealed the aura of the peak of the virtual fairyland.

Although Zi Fei is both a virtual fairy, it is only the third level of the virtual fairyland, and there is still a considerable distance from this old woman.

"Master!"

Zhou Qi respectfully salutes.

The old woman nodded slightly and looked at Fang Yue: "On the fifth floor of the Space Heaven Dao, my old man from Nantian is willing to accept you as a disciple, Fang Yue, you can follow me and practice in the Palace of Longevity!"

Chapter 1742: Kang's decision

"Elder Nantian, I respect that you are the elder in the Hall of Longevity, but you, as the elder of the Hall of Longevity, have not yet accepted my traitor in the Golden Gate and become a disciple in the Hall of Longevity! Because once Fang Yue leaves with you, it means Since the Golden Light Gate and the Hall of

Longevity will not be at odds in the future, don't forget, the Hall of Longevity is no longer the Hall of Longevity before! If your sin causes the altar in the Hall of Longevity to fall, you can't bear the charge!"

Chen Kun seems to know something, he will make up for it and try to keep Fang Yue in the Golden Gate.

If Fang Yue leaves because of his misdeeds, Jin Guangmen will never spare him lightly!

Now, this is his opportunity to make up for it.

He snarled loudly at the old man Nantian, hoping that old man Nantian could think twice.

The old man Nantian glanced at Chen Kun.

She sighed softly and said: "Since the martial arts sent me to the Golden Light Gate, I have all my strength to do it arbitrarily. What's more, Chen Kun, you really think that your little Golden Light Gate has a place in my heart of the Palace of Longevity. How important is it? No matter how bad my Eternal Palace is, it still hasn't fallen to the point where a small sect is sent to control life and death!"

The voice of the old man Nantian fell.

Chen Kun felt his soul for a while.

Then he felt as if his body was drained, and fine lines appeared in the corners of his eyes.

"You are disrespectful to me, disrespectful to the Hall of Longevity, I will take away your one-hundred-year birthright for punishment! What qualifications do you have for a little great saint to yell in front of me?"

The voice of the old man Nantian fell.

Chen Kun felt as if he had been taken away from the most important things in his life.

Zi Fei glanced at Chen Kun, who was ailing. She knew what Chen Kun meant.

However, Chen Kun considered himself a character too much.

How could he understand the relationship between the Golden Light Gate and the Hall of Eternal Life!

"Chen Kun, you can withdraw! This time you are reckless. You have thought about the cliff face for a hundred years. You can't leave without the call of the school, do you know?"

Zi Fei punished Chen Kun quite severely. It should be understood that this practitioner not only needs to retreat, but also needs various opportunities.

Staying in Si Guo Cliff for hundreds of years will make Chen Kun miss many opportunities!

Jean Zi Fei is the saint in this golden gate. When the gatekeeper has never spoken, her words are a sacred metaphor.

Chen Kun was unwilling to leave.

Fang Yue didn't try to kill him all. The Golden Light Sect was also a martial art, really offended it too cruelly, and it didn't do him any good.

"Saint Zi Fei, I don't know if I can leave the Golden Light Gate and become a disciple in the Palace of Longevity? If it is possible, Fang Yueding, I should be very grateful. If there is a call from the Golden Light Gate in the future, I will not dare to give up!"

Fang Yue tried his best to be polite, after all, he was still at the boundary of the Golden Light Gate.

Zi Fei took a deep look at Fang Yue. She knew that because of Chen Kun and Wuchen, this Fang Yue didn't have any good feelings for the Golden Light Gate. Even if she wanted to force Fang Yue to stay in the martial art, it was impossible. Thing.

But leaving a genius like this to leave is not her character!

She is a saint in the Golden Gate, and naturally she must consider the interests of the Golden Gate everywhere.

"Actually, this matter is not without room for maneuver. You can join the Hall of Longevity, but you are also a disciple of the Golden Light Gate! Don't the Golden Light Gate be allied with the Hall of Longevity? It is better to let you be the bridge and link among them. You are both disciples of two sects. If there is any misunderstanding or entanglement between the two sects in the future, you will be able to adjust as a person! This kind of thing is not uncommon in any era! You can enjoy both The benefits and treatment provided by this school for disciples!"

Zi Fei said with a smile, she made a plausible suggestion.

At this time, the old man Nantian frowned, but she couldn't say anything else.

Because Zi Fei's suggestion was already within her acceptable range, and Jin Guangmen had already made corresponding concessions.

If she is aggressive, it seems that the Palace of Longevity is a bit too bully!

After all, the alliance between the two martial arts is imminent, and she is not doing too much.

But in this case, it is not good news for Fang Yue. There are no eternal friends, only eternal interests. If the alliance between the two martial arts is broken in the future, Fang Yue will be the first to be impacted!

Fang Yue was taken aback for a while, and understood the twists and turns, but he still agreed to Zi Fei's condition.

Enjoy the benefits of the two schools, this is a good proposal first.

As for the destruction of the alliance between the two sects, I don't know how to wait until the year of the monkey!

Collecting resources, enhancing strength, and solving the earth's crisis are the top priorities now, and we will talk about the future.

When he cannot solve it now, he may not be able to solve it in the future!

Fang Yue agreed.

In this way, Fang Yue became a disciple of the two sects of Changsheng Palace and Jinguangmen in a daze.

And Zi Fei used her saint's rights to directly promote Fang Yue to the fifth-class disciple of the Outer Sect. The disciple and ordinary saints are in the same position, and the resources and benefits of the sect he received are also rising.

Although Fang Yue's realm is not high, his performance in the Golden Light Array before is outstanding. At the same time, he is also proficient in space and heaven and has reached the fifth level. This kind of attainment is already worthy of this outside school in the Golden Light. The treatment of fifth-class disciples.

The Palace of Longevity gave Fang Yue the treatment of a prospective disciple.

This prospective disciple meant that Fang Yue had to go through various tests to become a disciple of the Palace of Longevity.

The Hall of Longevity is one of the top ten immortal gates in this immortal world. Although it has encountered some crises now, the standard for recruiting disciples cannot be lowered.

In a few days, a special elder from the Hall of Longevity will come to take charge of Fang Yue's entry assessment. According to the results of the assessment, he will determine Fang Yue's future status in the Hall of Longevity and give him corresponding resources.

Fang Yue is quite satisfied with this result.

Afterwards, he also took away the one hundred low-grade immortal stones given to him by the Golden Light Gate, as a resource for cultivation this month!

In fact, ordinary practitioners in the master realm would not use precious resources such as immortal stones at all for their practice, but Fang Yue's practice standards were given to disciples at the sage realm.

These one hundred lower grade immortal stones are nothing in the earth immortal realm, but if they fall into the universe of the ten thousand realms, it will probably immediately cause an earthquake-like wave!

There is also a peaceful atmosphere on earth now.

There are a total of 3,800 cities on this Mars. In the constant tug-of-war, Wanhua Universe has taken a total of 1,600 cities and used it as a base to begin construction and repairs, turning them into the universe of Ten Thousand Worlds. The foundation of the first step in the battle!

However, in other cities, they couldn't take it all the time.

Mars is too mysterious, there are many pyramids, among them are the powerful men of all ages sleeping.

From the Pagoda of Gold, there are often some powerhouses of the Saint Realm level, and occasionally powerful people of the Great Saint Realm or even the virtual fairyland appear.

All of them have great magical powers, and the expeditionary soldiers who killed the Wanhua Universe turned their backs on their backs. As a result, the expeditionary troops are not willing to provoke these killing gods when they are idle!

The two sides fell into a weird peace situation!

And Wanhua Universe also tried to point the finger at the earth.

As a result, as long as the people of the Wanhua Universe came to the earth, even a small mouse would be killed. They simply went back and forth. Up to now, they have not tested the depth of the earth.

One is the uncle, and the other is even greater than the uncle!

Wanhua Universe had no choice but to extend its magic claws further.

As a result, people in Wanhua Universe discovered that the persimmon still had to be pinched softly.

As soon as they left the strange circle of Earth and Mars, they found that the enemies outside were so easy to deal with!

Leaving the earth, three successive administrative stars belonging to the Galaxy Alliance were wiped out by Wanhua Universe in a posture of sweeping thousands of troops.

They didn't even lose a strong man in the Saint Realm!

In this process, the people on earth also enthusiastically sold the layout of the three administrative stars. Although the autumn wind hit a little bit during the invasion of the Wanhua universe, they robbed some of the unique resources on these administrative stars, but those resources were not effective. As far as Wanhua Universe is concerned, it's just a drop in the bucket, and it doesn't even look at it.

The tacit understanding of the cooperation between the earth and Wanhua Universe has also made Wanhua Universe's idea of taking action on the earth weaker.

The Galaxy Alliance also verbally criticized the Earth for this matter.

As a result, the Earthlings directly fought back.

Since the Galaxy Alliance has abandoned the earth, it chose to ignore the earth during the invasion of the Wanhua universe. The two sides have been hostile since then!

As a hostile, there is naturally nothing wrong with killing someone with a knife.

The unspeakable Galaxy Star Alliance is speechless!

At the same time, the Galaxy Star Alliance also sent an army to start sniping the army of the Wanhua Universe, but after several snipers, the results were worse and worse.

Because the Galaxy Covenant has a dominant position in the galaxy all year round, it is corrupted internally and no one cares about it.

However, after a great battle, the problems of the Galaxy Alliance were immediately exposed!

Some so-called generals rely on nepotism. Both their individual strength and command ability are unqualified, and they lose without a fight when they encounter the Tiger Wolf Master of the Wanhua Universe.

The Galaxy Star Alliance loses again and again.

Dozens of powerful saints fell in succession.

Their prestige was already shaky in the Milky Way, and fell into a trough for a while!

At this time, Kang Yue and others finally realized the crisis facing the Galaxy Star Alliance.

As a last resort, Kang Yue personally pulled down her face and prepared to invite some great gods who had been hidden by them in their early years to take action.

"Come here! Then go to Chidori Mountain!"

Kang Yue spoke, but her voice was trembling a little!

This solar system is surrounded by their Kang family's territory. If they can't stop the unscrupulous expansion of the Wanhua Universe, their Kang family will become the first big family in the galaxy alliance to fall down overnight!

Chapter 1743: Xi Meng comes

Chidori Mountain is a taboo place in the Kang family.

In other words, the Chidori Star, where Chidori Mountain is located, is a taboo place for the Kang family.

Among the Thousand Birds, the old trees are lush and the green willows form a shade. The endless birds and beasts are just a vibrant scene.

In this planet, no one would think that the essence of the Chidori star turned out to be an ancient tomb of the Kang family.

Those who were buried were all non-Kang surnames who sacrificed for the Kang family.

And this endless vitality was deliberately arranged by the Kang family to counter the endless murderous intent that pervaded these large graves.

Kang Yue passed through one big tomb after another, and came to an ancient big tomb.

Buried in this big tomb is not the dead, but the living.

A living dead whose heart is dead, but the body is still alive.

咚咚咚.

Kang Yue knocked on the stone gate of the big tomb. The Shimen is tall, about a thousand feet high, on which there are paintings of patterns after another.

These patterns are exactly the scenes of the Kang family's army marching out year after year and sweeping the wasteland.

"Excuse me, is Mr. Xu here?"

Kang Yue's voice is particularly respectful and humble. The smell of arrogant and slamming Fang Qiu in the Galaxy Star Alliance was completely gone.

For a long time, there was no response in the room.

Kang Yue knocked on the door again.

A lazy voice finally came from the stone tomb.

"There is no old man here, only a house of living dead. The debt we owed to the Kang family back then has been paid off. Don't you Kang family want to let us go?"

The sound from the stone tomb sounded.

Kang Yue's eyebrows were overjoyed.

He was not afraid that the people in the stone tomb would be disgusted, but worried that his voice would sink into the ocean and be turned away.

As long as the people in the stone tomb still respond, he has a way to invite them out of the mountain.

"Grandpa Xu, it's me! It's your Xiaoyue'er! Do you remember? You raised me from childhood to adulthood, and kept watching me become a great saint and ascend to the throne of the elder of the Galaxy Star League. Have you forgotten? Am I?"

Kang Yue spoke in a hurry. He was afraid that the people in the stone tomb would not give him a chance to speak again.

There was silence in the stone tomb.

"Xiaoyue'er? My Xiaoyue'er was already dead the moment he became a great saint! The sly rabbit died, the lackeys cooked, the birds were exhausted, the good bow was hidden! It was indeed I who helped you grow up from childhood, but so is You banished me to this place where the birds are! That's all! That's all! The tomb of the living dead on Chidori Mountain, I was able to accompany these old brothers who traveled with me to the north and south for this life, in fact, my heart is also content!"

"Kang Yue, you a veteran of the galaxy star alliance aloft, the clan leader of the dignified Kang family, why do you want to pester me, an old fellow, I'm already dead, you still want to pester me?"

Old Xu's voice trembled, and there were grievances and complaints in it, but what was more hidden was a deep anger.

"Grandpa Xu, it's not like that. It's not that I want to see you imprisoned in this Thousand Birds Mountain. This is the will of the family elders. Even if I can become the Patriarch of the Kang family, it is impossible to violate the will of the elders!"

Kang Yue spoke, and there was a trembling smell in his voice.

It seemed that every word he said was extremely sincere and sincere.

However, Xu Lao fell silent again in the stone tomb.

"Kang Yue, Xu Yuanfang is dead, just let him go! When you exiled him to the Thousand Birds a thousand and two hundred years ago, he had already treated you and completely gave up on the Kang family! No matter how much you begged, no matter how much you argued, the former Xu Yuanfang can no longer go back!"

A different voice came from the stone tomb again.

The voice was harsh and hoarse, and there was endless resentment in the voice.

Xu Yuanfang suddenly became silent when he heard this voice.

"Kang Yue, you go! My old brothers can't come to me, and the Kang family has not really determined to change their past. When will the Kang family be alive and dead, when will I return to the Kang family? But when I return to the Kang family again, you may no longer be the head of the Kang family!"

Xu Yuanfang's voice was filled with sadness and helplessness.

After that, no matter how Kang Yue knocked on the door of the stone room, the door of the stone room remained motionless.

Behind Kang Yue, an old slave whispered to Kang Yue: "Master Kang Yue, why should I beg that Xu Yuanfang? He is just an outdated general, a loser in the family struggle! My Kang family There are countless talents, and the commander is like a crucian across the river. If Lord Kang Yue wants to find a general, the old slave is willing to recommend someone for the adults!"

Although the old slave behind Kang Yue looks very humble, like an old dog, she has no dignity, but Kang Yue knows that this old slave is also a pillar of the Kang family, but has followed her for many years in the Galaxy Star League. Handling chores, wasted all the skills!

In the end, Kang Yue gave up the idea of letting Xu Yuanfang go.

Xu Yuanfang is right. The Kang family has not yet reached the critical moment of life and death, and he is not yet ready. After Xu Yuanfang goes out, he will fight against the presbytery and appoint Xu Yuanfang.

In the end, Xu Yuanfang left Thousand Birds and returned to the Galaxy Alliance.

He asked Chen Qing, an old slave who had followed him for many years, to find young generals who could be trusted in the Kang family. Although Xu Yuanfang did not invite him, the decadent Kang family also needed a new batch of blood!

At this moment, Fang Yue is still arranging formations with Xiaokong in the Sahara Desert, but this time, Xiaokong has made great contributions in the Sahara Desert. Xiaokong unexpectedly discovered a world entrance that has been abandoned!

Fang Yue didn't open the entrance to the world, but through an ancient seal, he sensed the vague and vague aura of the strong in the entrance of the world.

In the entrance of this world, there is an unimaginable existence.

Even if Fang Yue and the breath in that world feel a little bit, a kind of fright will be born, the instinct is the urge to escape.

The earth is mysterious and has experienced civilizational catastrophes time and time again. Dating back to the oldest era, the earth was once one of the most powerful civilizations in the universe.

It may have penetrated the ten thousand realms in the past, and Fang Yue dare not guess how many secrets there are in this earth, and how many similar space entrances there are.

However, Kong Kong's recent growth rate is very fast. Fang Yue is not stingy with all kinds of resources to give him food, such as spiritual stones, primordial stones, various materials, useless artifacts, and feed them to Kong Kong. Those who do not refuse, meet a little spy from Wanhua Universe or something, you can also give yourself a meal.

Today, Kong Kong is already an older child with a body of ten cubic meters! The aura in it was more chaotic and hazy, Fang Yue estimated that according to Kongkong's current growth rate, if there were no bottlenecks, in another three to five days, killing a leader realm would be a matter of minutes.

Only the strong of the saint realm can escape his claws, but it is difficult for the strong of the saint realm to kill it.

As long as the resources are sufficient, let Kongkong continue to grow, maybe the mission of protecting the earth and saving the world will fall on him in the future

Fang Yue thought about it and was a little excited.

This empty is equivalent to his son.

His son saves the world. Will his father, a hero, be able to stay forever and immortal?

Fang Yue giggled.

At this time, an expressionless figure slowly walked from behind him.

Fang Yue was wary and turned around suddenly.

He fixed his eyes, but it was a woman in a small leather jacket.

The woman's figure is hot, with unevenness, and she holds a small black whip in her hand, which is exactly like a queen.

Fang Yue was slightly stunned.

This woman is not the deity descending, she is an image projected and manifested, so there is no energy fluctuation at all.

"who are you?"

Fang Yue asked vigilantly.

The number one person appeared in the Sahara Desert for no reason, anyone would give birth to 10,000 be careful.

"Ximeng!"

The woman spoke with a very sweet voice, but Fang Yue couldn't catch the slightest sweetness in her eyes.

Her eyes were very cold, like a clear lake.

In her eyes, Fang Yue was like a dead person.

"People of the Wanhua Universe?"

Fang Yue tried again.

"Yes, I am a member of the Xi family of Wanhua Universe. I appeared this time to remind you that the army of my Wanhua Universe is hard to resist. Instead of making senseless resistance, it is better to lead the whole earth to submit to our Xi family. You people on earth have a chance to live!"

Fang Yue grinned, he was here to persuade him to surrender.

"Returning to Xi's family? What are the benefits? Can the strong man of my earth keep his body free, even to seal the ground?"

Fang Yue looked at Xi Meng and said seriously.

Xi Meng shook his head slightly: "This is probably impossible. As long as you in the Ten Thousand Worlds Universe enter the Ten Thousand Flower Universe, all of you will be monitored, and even strong people above the leader level will plant soul seeds. , Once you resist, you will immediately burst into death!"

Xi Meng's words made Fang Yue sneer: "You plant the seeds of your soul, what is the difference between being a slave?"

Xi Meng sneered proudly: "Yes, you are our slaves when you entered the Wanhua Universe! What do you think you are? You are all fish on my chopping board, let it be slaughtered, do you still think you still have a chance to negotiate terms? ?"

Xi Meng seems to be a high queen looking at humble courtiers.

Fang Yue couldn't help shaking his head and said, "I don't know who can see the situation clearly!"

"Now that the Wanhua Universe's invasion of the Ten Thousand Worlds Universe is blocked, it is already a loss for me on my earth. If you persist in this way, perhaps for the entire huge Wanhua Universe, this loss is insignificant, but it is for you as an emergency to invade the earth. Pioneer Xi's family will be the first to be able to bear it! This is the vanguard, if it succeeds, this will naturally be your Xi family's greatest contribution, but if you can't attack it for a long time, your Xi family will also receive the veteran of Wanhua Universe. Punishment! And how many saints there are in your Xi family, how many great saints, and how many strong people in the virtual fairyland should know in your heart. If you attack, you will suffer heavy casualties. I am afraid that even if you can win the earth, the rewards you get will not make up for you. The Xi family lost it!"

Fang Yue hit the point.

Xi Meng immediately became nervous.

"Fang Yue, how could you know these details about my Wanhua Universe situation!"

Chapter 1744: Overall situation

Xi Meng originally thought that Fang Yue would be able to be sure of his tenacity. After all, the strength of the Xi family can be said to be obvious to all. Most of the iron beetles that attacked and invaded the earth and the powerhouses of various levels came from the Xi family.

Of course, it is impossible for the Wanhua Universe to let the Xi family act as the vanguard alone. Wanhua Universe also sent high-level leaders from other races to assist the Xi family in invading the Ten Thousand Worlds Universe. It was said to be an aid. In fact, to monitor the Xi family, they were worried about Xi. Eating alone at home will eat all the benefits of the entire universe!

These family forces responsible for monitoring the Xi family accounted for at least 30% of all the invading cosmos of the Ten Thousand Worlds, and although each of the families behind these forces is not as good as the Xi family, when combined, they are several times better than the Xi family!

If Fang Yue did it alone, relying on the power of the earth would naturally not be Xi's opponent.

But if Fang Yue joins forces with the families that monitor Xi's family, then their Xi's family is in jeopardy.

After all, the strong dragon does not crush the earth snake, especially the strength of this earth snake itself is quite not weak.

Xi Meng was a little nervous, she didn't know how far Fang Yue had penetrated the Wanhua Universe.

"Fang Yue, don't be bluffing! If my Xi family wants to treat your earth with all their strength, it is as simple as crushing an ant to death. You can't hurt our Xi family's half hair!"

Xi Meng snorted coldly, the most important thing in this negotiation is the momentum. Once his morale is weak, then the whole negotiation will collapse!

Fang Yue sneered: "It's already time. Is the Xi family's eldest lady still stubborn? I know that your Xi family is now in a state of being attacked. Before, you just conquered a world called Mars. Although the world is only less than one percent of the size of the Ten Thousand Realms Universe, the resources in it are abundant, and there are so many powerful people. It is already extremely difficult for the Xi family to eat! This time your Xi family was sent by Wanhua Universe to become the vanguard, The eyes of the veterans of Wanhua Universe seem to be impure! This Wanjia universe is too big, and your Xi's family may not be able to get under the city at all. In addition, you have not completely digested the Mars universe before. This is to sustain you alive. Xi's rhythm!"

When Xi Meng heard this, he became even more nervous.

She had already determined that Fang Yue's understanding of the Wanhua Universe far exceeded her imagination.

This Fang Yue had already grasped the weakness of the Xi family.

Xi Meng's tone became a little softer.

"Although my Xi family is facing difficulties for the time being, it is more than enough to free up to destroy a small earth!"

Xi Meng refused to be softened.

This Fang Yue wanted to send himself away in a few words, that was no way.

Fang Yue did not speak.

He just took out a jade stone.

Xi Meng's face was still relatively relaxed before, but after seeing the jade, her indifferent expression disappeared.

"this is....."

"Skyfire crystal, oh, this is a special product of the Skyfire Sect of the Ten Thousand Worlds Universe. You may not know the effect of it. If this small skyfire crystal explodes completely, it is equivalent to a powerful person in the third level of the Saint Realm. A full blow! Only need to detonate such a small one, and it can fill a mountain and sea with a bang!"

"I know that if our earth is really hands-on, it will not be able to defeat the invaders of your Wanhua universe, but there is nothing else on our earth. There is still no shortage of this kind of thing similar to the crystallization of sky fire. I am sure the earth will fight to a soldier. A pawn, but when our blood runs out of the arrow, if we cannot hold the earth, there is no need for this earth to exist! I have buried a total of three thousand crystals of this kind of sky fire on the earth. With the sound of the sound, the entire earth will be completely detonated! How do you say this? Oh, by the way, it is better to be broken than to be complete!"

Fang Yue leisurely and Xi Meng explained.

But Xi Meng roared loudly: "Don't you dare! I bet you don't have so many sky fire crystals buried on the earth!"

Xi Meng looked at Fang Yue again, and she found that her previous introduction to Fang Yue was too shallow.

This is a madman, an out-and-out madman!

His thinking is completely different from that of a normal person!

Fang Yue smiled and said to Xi Meng: "You can try it, anyway, even if you make a move against the earth, you will never get back."

Fang Yue continued to say in a humble manner: "Anyway, I don't care. I have offended this Galaxy Alliance, and I have already offended the Vulcan Alliance. The two top forces in this galaxy all regard me and the earth as thorns in their eyes and thorns in their flesh. , I don't care if I have another Xi's family, but you are different! I'm a bad life, but your Xi's eldest lady is a very delicate daughter!"

Xi Meng discovered that Fang Yue was like a splash, and every word was like a small knife, and this small knife went to the most painful place in their hearts!

Xi Meng was arrogant, and Fang Yue's fate was indeed not worth mentioning in her heart.

But she is the goddess of the Xi family and one of the future heirs of the Xi family!

She will not allow any taint on her body, including mistakes in strategic decisions.

As for Fang Yue's words, Fang Yue dared to gamble, she didn't dare to gamble, she would rather believe that there was something than nothing.

Fang Yue saw the firmness in Xi Meng's eyes relieved.

He couldn't help adding more gusto and said: "Actually, it is not that there is no basis and possibility for cooperation between us. For example, the news about the Galaxy Covenant I sent you before is pretty reliable, right! However, I will give you all. I have sent eleven messages, but only nine of you have checked out. Shouldn't the remaining two messages be settled? I don't want the general benefits. I heard that the void spar that is abundant in the Wanhua Universe is good. Bring it to me. Two catties can be considered as the money you bought for news before!"

Fang Yue played freely, this shameless personality made Xi Meng speechless.

"Your news money, we will naturally give it, but if you can sell even your homeland and universe at will, your character is humble, I am afraid it will be difficult to gain a foothold in this universe of all worlds in the future! Why don't you take refuge in us completely Wanhua Universe, I can call you the title of Wan Huhou! In Wanhua Universe, I have my own fief territory, and will not be subject to any restraint by our Xi family. As a condition, you only need to give up the earth!"

Xi Meng offered a condition that he thought was very attractive.

In her eyes, this Fang Yue is a good knife. If it is not used well, it will hurt herself, but if it can be used well, it will be surprisingly sharp!

Fang Yue looked at Xi Meng and sneered: "The news of my betrayal of the Galaxy Alliance is because there is a rift between me and the Galaxy Alliance, but this earth gave birth to me, nurtures me, and protects the safety of the earth. This is my greatest Bottom line! If you Wanhua Universe want to continue to cooperate, I naturally agree with both hands! Even I can help you set up traps on the earth, so that those forces in the Wanhua Universe that are not friendly with the Xi family will come from the Tuluonet. ! But you want me to abandon the earth, there is no way at all!"

Fang Yue refused decisively, leaving Xi Meng not the slightest affection!

Xi Meng said coldly: "A family enemy that even my Xi family can't deal with can be destroyed by your little earth?"

Xi Meng looked at Fang Yue coldly. Although Fang Yue was resourceful, he still valued his strength.

Xi Meng knows those rival families that have been enemies with Xi's family over the years.

Each one has an ancient and powerful heritage.

Every strong man stood upright, even as opponents, Xi Meng had to admit that they were rare heroes.

A few of them suffocated even the strong in the virtual fairyland.

Xi Meng felt that Fang Yue was crazy, blowing the air.

Fang Yue's smile was brilliant. He didn't say anything when he saw Xi Meng's suspicious and ironic eyes. He took out a human head and threw it in front of Xi Meng.

"Are you familiar with this person?"

Xi Meng fixed his eyes, this head is a dragon head.

It has a pair of coral-like horns that are red and jade-like, and its eyes are wide open, and it seems to be filled with endless fear before death.

"this is....."

Xi Meng was a little suffocated.

For this person, she has vague memories.

Among the vanguard forces of the Wanhua Universe, it is a brave warrior, at the pinnacle of the leader realm, and has repeatedly made military exploits on Mars.

When he was on Mars, Xi Meng had personally rewarded it, and offered very generous terms, hoping that it could join the Xi family and serve the Xi family.

But now, how could its head appear in Fang Yue's hands.

What did Fang Yue mean by throwing this head in front of him?

A middle-level general at the pinnacle of the leader realm, there are a lot of them in Xi's family. Although he has been tempted, he will not give the slightest compromise and fear to Fang Yue and Earth because of his death.

Fang Yue saw the suspicious look in Xi Meng's eyes, and he said unhurriedly: "If I say that he is your Xi family's old adversary and sent to your Xi family's undercover agent, how should you thank me?"

The corners of Fang Yue's mouth raised slightly.

The dragon head suddenly burst.

In the dragon's head, a purple bead appeared. It was only the size of an adult's thumb. However, this purple bead contained extremely terrifying energy. On its surface, there were flashes of thunder and waves of electric lights lingering around. It seems to contain a world of destruction!

"This is the Destroyer Orb. Only the strong breath of life can bury the traces of its existence. Each one contains extremely powerful destruction power. If it suddenly explodes, perhaps even the strong of the Great Holy Realm will be alive. Killed!"

Fang Yue introduced the power of the purple beads unhurriedly.

But Xi Meng's face changed slightly.

Destroy the magic orb.

What a familiar name this is.

Two Great Sages under her command have been seriously injured under this Devil Orb.

There are also three saints in the explosion that destroyed the demons.

She had investigated the origins of this ruined demons before, but now, maybe she doesn't need it!

Chapter 1745 Banquet

When Xi Meng looked at Fang Yue again, she felt that the roots of her teeth were sour, and this kid was sour!

Just as hard as it was, he came to Yin.

Xi Meng suddenly understood why the Martians were so powerful, but they suffered a lot in Fang Yue's hands. The mystery of this earth was part of it, but the more important reason was Fang Yue's crush on IQ!

Xi Meng looked at Fang Yue again, her eyes became complicated.

"Fang Yue, if I agree to cooperate, what kind of service can you provide us!"

Xi Meng didn't expect that he had originally sent an ultimatum to Fang Yue, but after weighing it repeatedly, he wanted to become Party A and one of Fang Yue's future customers.

"For example, help your hostile forces to eliminate a saint or some good seedlings with potential and talent? Of course, if you can pay a price, I can avoid killing a great saint for your help. Yes! Our business is really wide-ranging only you can't think of, nothing our earth can't do!"

Fang Yue smiled, gentle, his body no longer had the rogue scent of rascal and pompous skin.

Customer is god.

When dealing with God, Fang Yue naturally had to be polite.

Xi Meng asked again: "Fang Yue, are you really afraid of becoming a betrayer rejected by thousands of people after cooperating with our Wanhua Universe?"

Xi Meng felt that Fang Yue was an extremely realistic person, and this reality felt a little scary!

"Afraid! Of course I am afraid! But don't I betray, can this universe of ten thousand worlds escape the fate of being baptized by catastrophe? First destroy the demons, then recover the ten thousand races, and then this is the other cosmic expedition forces The advent of, this is the destiny of the universe of the ten thousand worlds! In the most ancient era, it is the great wisdom who has said the law of the universe's operation and change. This is a trace of the movement of the heavens. No one can Go against its will!"

Fang Yue's words made Xi Meng's heart more complicated.

"You mean..."

Xi Meng's words were not finished yet.

Fang Yue smiled and said, "Your arrival is not determined by your will, but the guide of your destiny! In this vast world, who can escape the control of fate? In fact, even if your Wanhua Universe does not come. , Or being repelled by us, other universes will be dragged down by fate to fight and kill wildly in

the universe! Since we can't stop the gears of fate, it's better to take care of yourself. Follow the waves of fate and do what you can do!"

Fang Yue's words touched Xi Meng a lot, as if a glimmer of light flashed through her mind.

But when she wanted to take a closer look, that ray of aura had quietly disappeared in her mind!

Xi Meng looked at Fang Yue, and she felt that Fang Yue was an expert, with a somewhat unfathomable and unpredictable taste.

"Okay! I promise that we Xi's family and you will reach a strategic alliance with the earth, but we don't speak secretly. The cooperation between us is purely an exchange of interests and has nothing to do with other things. If one day there is greater profit temptation, our Xi family will naturally abandon you, and even use your earth as a stepping stone. At that time, you must not say that our Xi family turned ruthless!"

Xi Meng put the ugly words on the front.

Fang Yue smiled and said, "There are no absolute friends, only absolute interests. I naturally understand such a simple and simple truth!"

Fang Yue seemed to be a good old man, smiling at Xi Meng.

His smile made Xi Meng's heart a little congested.

The two exchanged another few words, and Xi Meng left the earth.

Her figure disappeared, as if she had never appeared before on earth!

Seeing Xi Meng's figure disappear, Fang Yue's smile gradually faded.

He let out a sigh of relief, and finally left the Ximeng to Huyou!

Today's earth is already in danger. If the Xi family is really determined to take the earth, the earth will not be able to resist for too long.

This Xi's family is a true fairy family. The ancestors have the protection of the strong from the true fairyland, and there are at least dozens of the strong from the virtual fairyland under his command. Today, the earth virtual fairyland is already the top strong, and most of the injuries have not been healed. How can it be resisted? Won the elite soldiers of the Xi family.

Fang Yue's use of interests and Xi's situation to contain Xi's is only a temporary matter. If one day, Xi's can spare his hands to deal with the Ten Thousand Worlds Universe, I am afraid the first stop will be to take the earth with all his strength.

Fang Yue's heart was as clear as a mirror of the conflict of interests.

Today's top priority is to accumulate more trump cards for the earth, create more powerhouses, and let those sleeping powerhouses recover one by one, and restore the ancient times and the grand occasion of Jiuzhou!

Fang Yue sighed softly.

On the other hand, Kongkong caught another viper spy that was dormant in the earth in the Ten Thousand Flower Universe. It swallowed it in one bite and burped.

Fang Yue looked at Kongkong, feeling a little helpless.

If this Kongkong can be born a hundred years earlier and has time to grow smoothly, it may be a great help to protect the earth.

Unfortunately, Kongkong was born too late and there is no time to grow!

Three days later, a message came from the Wanhua Universe among Mars.

All parties in the Milky Way galaxy should be invited to discuss the future development of the Milky Way.

One of the invitations suddenly fell into Fang Yue's hands.

Fang Yue couldn't help but sink when he received this hot stamping invitation.

There are only a few characters on the invitation letter.

Moreover, these characters are universal fonts in the Wanhua Universe. Fang Yue's knowledge does not actually recognize this type of font, because this is the sacred character in the Wanhua Universe, which can only be recognized by strong people above the Great Sacred Realm. And write!

Fang Yue finally relied on the powerful soul power to barely recognize the mental fluctuation.

These few characters turned out to be a superficial technique.

Only by running this technique can we gain insight into the place where this meeting is held!

This little trick of Wanhua Universe is not clever, but it can clearly identify the strength of this participant.

If you don't reach the level of the Great Sacred Realm, you don't even have the qualifications to participate!

Fang Yue quickly identified the spatial coordinates of the meeting place.

Then he sighed in a low voice: "Fuck, this Wanhua Universe is indeed a thief, and even set the meeting place in the middle of the earth and Mars! Once the powerhouse of this great holy realm takes action, it will immediately be a tsunami. If the situation is really done, both the Earth and Mars are easily affected! This Wanhua Universe is really undead! This is to put Mars and the Earth on the fire to roast them!"

Fang Yue understood this little abacus of the Wanhua Universe. Not only did he not have any anger or frustration, he became extremely excited.

When Fang Yue faces real life and death challenges, he will show this state.

"Does this Wanhua Universe want to use this thing to disgust our earth? It's a pity that they made the wrong calculation!"

Fang Yue whispered, and then threw Xiao Kong to the location of the space node.

what?

Can't you enter this place without a magic trick?

Stop joking!

There is no space node in this world that Xiao Kong cannot enter.

Even when Fang Yue waited for the avatar of Destroyer Demon Race to figure out the location of this immortal universe, he was still preparing to let Xiaokong enter the immortal world for a tour.

Xiao Kong's existence is itself a spatial fluctuation, it is everywhere, and no one can stop its pace.

As soon as Xiao Kong turned around, he merged into that space node.

Fang Yue didn't have any special instructions to Xiaokong, just told him to open up and eat, but the energy is growing!

This Wanhua Universe should spend a lot of effort to arrange this banquet!

Looking at the back of Xiaokong leaving.

Fang Yue began to mobilize all aspects of the power in his hands to arrange the event after the event.

Three days passed in a hurry.

This solar system is extremely lively.

Fang Yue, the strong of the Great Sacred Realm, didn't see a few, but the strong of the Saint Realm seemed to be surging from all sides of the galaxy without money, like a torrent of water!

A swarm of sage-level coercion rushed to the sky. All of them were extraordinary identities. Some rode on the dragon, while others simply controlled the fire and phoenix. These sages looked at one side and were absolute overlords. Gathering is already quite difficult.

They all hold edicts in their hands, and these edicts are sketched by the powerful at the Great Sacred Realm level.

There is no way, if it is contaminated with the aura of the great sacred realm, the magic formula on the edict will not run smoothly at all!

The heroes gather, thousands of saints.

This is an unprecedented event in the entire galaxy.

All those people entered a piece of space debris.

This is said to be space debris, but in fact there is a hole inside.

Its size is no less than a medium-dimensional, abundant resources, birds and flowers, strange rocks, monsters lying prone, thousands of scenes, grotesque.

Many saints of the Milky Way galaxy came into this world with involuntary wonder.

However, in this vast crowd, Xi's Xi Meng, one of the organizers, was looking for Fang Yue's shadow everywhere.

This is a grand event, which concerns the determination of various interests in the future galaxy. If Fang Yue does not come, then many of these links have lost meaning and value.

Now, in her eyes, whether this can successfully take down the solar system, Fang Yue is the key person.

His supernatural powers are vast, the energy accumulated in his hands is too great, and the range of its radiation has surpassed the small solar system, whether it is destroying the demons or the galaxy covenant, or even in the huge universe, he has unimaginable influence.

With the deepening of Fang Yue's investigation, Xi Meng's attention to Fang Yue has reached a strategic level!

If they are warriors, then this Fang Yue is the prehistoric dragon that prevented them from rescuing the princess!

Chapter 1746: Grand event

Xi Meng looked around, but the result was disappointing. No matter where she looked, she couldn't find Fang Yue's figure.

"Is this Fang Yue not here?"

Xi Meng frowned. She muttered to herself.

According to the truth, Fang Yue's supernatural powers are vast. Although his cultivation level is not high, it is very simple to find a saint to get an invitation that can be entered into the banquet.

But the fact is that even Fang Yue's shadow has not been seen.

Could it be that the rumors are false, and there is not even a strong man in the Great Holy Realm on earth?

Or is Fang Yue simply dismissive of Wanhua Universe's banquet?

Just as the chaotic thoughts in Xi Meng's mind emerged one after another, a figure slowly appeared in front of her

"Xi Meng, are you still waiting for Fang Yue? Hahaha, my lovely little sister, you must have been deceived this time. It's really hard to be known under the so-called reputation. This Fang Yue is definitely not as good as you said. Great, maybe he doesn't know which Great Sacred Realm powerhouse is at the door now, begging hard for them to help make an edict!"

Xi Meng glanced at the middle-aged man who was close to her. This man was pale, peachy eyes, and rosacea. He looked particularly annoying, but he was the Xi family's Keqing, a third-level realm of the Great Holy Realm. He is a strong man, and he is proficient in formation and space heaven, and his position in the Xi family is quite high.

However, this guest Qing-Liu Chongyun has recently become arrogant by relying on her rising position, and recently she has even run over to provoke her from time to time!

"Liu Chongyun, this Fang Yue is definitely not what you imagined! His methods are powerful, definitely not what you can imagine!"

Xi Meng strongly praised Fang Yue, otherwise, her suggestion that the family should postpone the advancement of the earth would be a wrong view.

In the Xi family, the strict requirements for their own disciples, any small mistakes will become the handle of others and reduce the resources and rights in their hands.

Liu Chongyun jokingly said: "Really? But what kind of talent can be produced in such a poor country? You have no resources, and you have to pass on without inheritance! Xi Meng, you have to admit it if you do something wrong! If you admit your mistakes, the status in the family may only be reduced by one level of treatment, and if the family missed the opportunity to attack the earth because of you, then it is not a problem that can be solved by lowering one or two levels of treatment!"

Liu Chongyun is aggressive, not because he wants to offend Ximeng, but because the internal fighting among the family in Xi's family is also extremely fierce.

As the saying goes, the **** decides the brain, this Xi Meng is not in the same camp as him, so naturally he will not have any good words about Xi Meng.

This time as long as Fang Yue couldn't come to this banquet, or it was foolishness in this banquet. When that happens, Xi Meng's previous judgment will naturally be self-defeating, and she will be severely punished by the family.

With the gradual increase in the number of people in the banquet.

The panic in Xi Meng's eyes became more intense.

Obviously, Xi Meng's heart is upset!

Why is Fang Yue not coming at this time!

At this moment, Liu Chongyun laughed and said: "Ximeng, I think you were really fooled this time! This Fang Yue, I think I can't come!"

"It's just a muddy leg in the backcountry, it can even make our little princess Xi's eye, it's really strange, it's strange!"

Liu Chongyun's words did not fall.

Behind him, a big hand suddenly appeared!

Liu Chongyun, as a strong man in the Great Sacred Realm, was directly pulled away by that big hand.

"Sorry, I'm late, I'm late! I encountered a few small reptiles on the road, and I cleaned it up, but it was a delay!"

An apologetic voice came from behind Liu Chongyun.

Liu Chongyun's heart couldn't help but panic!

He turned his head and saw that Fang Yue stood behind him in awe, he entered this world only half of his body, and half of his body was stuck outside!

"Ouch! Ouch!"

Fang Yue squeezed the other half of his body into this world with some difficulty.

His appearance looked extremely funny, but falling into Liu Chongyun's heart was tantamount to setting off a stormy sea.

This is a world restriction set up jointly by their several powerful masters in the Great Sacred Realm using a huge piece of space debris. According to the truth, it should be able to block everything!

Unless you have a magic formula to enter it according to the rules they set, otherwise, according to common sense, even the strong of the virtual fairyland can't enter it!

However, how did Fang Yue enter this world!

What about the impenetrable barriers of the world?

How come to Fang Yue's place like a mouse digging a hole, you can easily enter this world.

Liu Chongyun suddenly felt a taste of subversion and absurdity.

When did the small world they worked so hard to create a mouse hole!

When Liu Chongyun looked at Fang Yue again, there was a sense of caution in his eyes.

"Look at me! You're blocking my way, do you know?"

Fang Yue stretched out his big hand and pulled it a bit, then directly pulled Liu Chongyun's head away.

Although Liu Chongyun is a strong man in the Great Sacred Realm, he has only achieved amazing achievements in refining Qi, but his physical body is weak, even inferior to Fang Yue's one hundred ranks.

This is where Fang Yue's deity is! The physical body is tempered day and night in the depths of time and space. Now, his physical body has reached the level of the forty-eighth steps in one hundred steps, and one step forward is to reach the state of Xiaocheng, the physical body is transformed, and the diamond is immortal. A thousand catastrophes are not bad.

Physical cultivation, difficult to walk, every step is extremely hard, requiring countless hardships and trials, but if this path is completed, it will have the greatest magical powers, even if it is only to reach the state of Xiaocheng, the body is not bad, and the blood is reborn. , Broken the Void, that's all easy things.

Fang Yue pushed Liu Chongyun away with one hand, as if he was a little chicken.

Liu Chongyun staggered, fell directly to the ground and was thrown into the mud by a dog.

Liu Chongyun's face flushed, he had never been insulted like this.

He is a great sage of a generation, even in the Wanhua Universe, he is a strong man respected by thousands of people!

But he actually suffered a great loss in this humble remote place of the Ten Thousand Worlds Universe, which is simply unbearable.

Liu Chongyun got up from the ground, his technique was grasped by his hand, and a purple divine light fell from the sky, turning into a hundred-zhang long sword and fell towards Fang Yue's head!

Purple light fell down like a cage.

Fang Yue roared and dispelled all the purple rays.

Fang Yue's flesh was surging like a sea. Although his physical body has not yet reached a minor level, it is no longer a problem to deal with the general saint!

Liu Chongyun's spells were shattered.

His body staggered again, and his already pale face was even more pale this time, his breathing became disordered, Liu Chongyun's eyes were dim, and all his looks disappeared. His body was stiff, as if it were a piece of it. Deadwood!

Liu Chongyun looked at Fang Yue again, with hatred and resentment in his eyes.

He never expected that he would actually slaughter somersault under Fang Yue's hands!

"Fang Yue, wait for me!"

Liu Chongyun said viciously to Fang Yue.

Fang Yue glanced at Liu Chongyun and said with a chuckle: "Wait? What are you waiting for? It is better to hit the sun if you choose a day. Since you resent me so much, then I will give you a chance, come and kill me!"

Fang Yue hooked his finger to Liu Chongyun and said with contempt.

Liu Chongyun couldn't help but stunned, why didn't this buddy play cards according to the routine!

This is just to threaten you with a few ruthless words. If I could have done you before, I would have done it long ago!

Liu Chongyun's face was ugly, and he couldn't ride a tiger.

"Xi Meng, this is a grand event held by Wanhua Universe, are you just watching this Fang Yue mess up here?"

Liu Chongyun shifted his gaze to Xi Meng, although the two were not in the same camp.

But after all, this is Wanhua Universe's face problem, this Ximeng should put the overall situation first!

However, Xi Meng stood beside him coldly.

"Liu Chongyun, didn't you just say that Fang Yue is just a fame? I believe that it is not a problem to deal with a small thief with your strength! If we make a move, you may weaken your reputation, Liu Chongyun!"

Xi Meng is completely irrelevant.

This Liu Chongyun often opposes her, and if this Liu Chongyun can be removed with Fang Yue's hand, it may not be a good thing for her!

This Liu Chongyun is worth living, but if he is dead, he won't even be a fart in Xi's family!

After all, it's just a guest with a foreign surname, so when he is alive, he is naturally delicious and delicious.

But if you die, you can hire another one. The Xi family's reputation is so big that there is never a shortage of visiting guest.

Liu Chongyun's face was green, and he didn't expect Xi Meng to be so decisive.

"Fang Yue, this is the place where the Wanhua Universe holds a grand event. If you attack me here, it is equivalent to declaring war with the entire Wanhua Universe!"

Liu Chongyun's eyes were erratic, and his face changed again and again.

He gritted his teeth and finally pushed out the name of Wanhua Universe, hoping to make Fang Yueer feel a little fearful!

Fang Yue said nonchalantly: "You don't have to think so much for me. Even if I don't act on you, this Wanhua Universe has no plan to let go of my earth! You big man, don't chirp. If you want to do it, hurry up, if you don't do it, I will do it!"

As he spoke, Fang Yue had already begun to accumulate strength. Around his body, the essence of heaven and earth converged towards him. The vegetation around Fang Yue was decayed and withered, and all turned into a withered color as if it were sinking. In the cold winter.

Liu Chongyun couldn't help feeling nervous.

He is obviously a strong man in the Great Saint Realm, but at this moment, he feels like an ant in front of Fang Yue!

This Fang Yue seemed to be the real master of this world, and he was just a grain of dust in this world.

"This is the heart demon art, Liu Chongyun's Dao heart is not strong, and he has not erected the idea of being invincible, so that's why! His fear has become an introduction, rushing Liu Chongyun's heart demon, making it difficult for him to break free!"

Xi Meng muttered to herself, the light in her eyes flickered, slightly drifting away, and there was a wave of shock in her heart.

Chapter 1747: Hard fight

The Inner Demon Art is an extremely weird method, this technique has no solution, it specifically restrains those with weak minds!

Anyone who is cultivating fears the heart demon the most. This external catastrophe may allow others to intervene to help, but once the heart demon is planted, there is almost no solution, even the powerhouse of the Great Sacred Realm.

Although Liu Chongyun has a high cultivation base, he is a strong man at the Great Sacred Realm level, but his disposition is arrogant and he always has shortcomings. He encountered Fang Yue and was defeated for the first time. He felt extremely humiliated in his heart, and his heart was unstable. Fang Yue took advantage of the vacancy and planted his inner demons.

Liu Chongyun definitely has the power to fight Fang Yue with the great sage's cultivation level, but unfortunately, his heart is confused, and at this moment there is no courage to fight Fang Yue!

"Heavy Cloud Fist!"

Liu Chongyun shot again, he plucked up the courage and concentrated all his strength in his palm.

He fisted like a dragon, a brown blue dragon came from the sky, with a length of hundreds of feet, and mighty all directions!

This set of boxing techniques is Liu Chongyun's unique knowledge to settle down and stand for life. Even if it is affected by the heart demon, it has already shown 90% of its power!

When the Canglong fell, there were clouds and mist under its body.

This blue dragon seems to be real, it drives the divine light to come, lifelike, as real!

Fang Yue couldn't help but Ling Ran, this great saint realm level powerhouse is really difficult to deal with, even if it is affected by the heart demon, he can still make a move firmly. Although the power of this move is not as good as before, it is after all the great saint realm. The level of the strong is too strong.

However, since Fang Yue is here, he is ready to fight.

Although this great technique of the heart demon is a supreme method, but after all, it is just a side-by-side approach, and it can't reach a big stage!

Fang Yue slammed his fist suddenly, and a golden light appeared behind him.

This is the gold gods of the gold clan, Fang Yue has refined the blood of the gold clan and can easily display it.

Axe, hook and fork, every golden weapon is extremely sharp.

They can smash the body of a saint, and even the strong of the great holy realm can hurt them.

"You are the golden race!"

Then Liu Chongyun roared, the gold family has blood in different universes.

Even in the Ten Thousand Flower Universe, this golden family has a lot of reputation! Every member of the Golden Clan can summon all kinds of imitations of divine weapons by virtue of the extraordinary blood in his body. The deeper the understanding of weapons, the greater the power of the summoned weapons.

Fang Yue took out a golden mirror from various weapons.

This mirror is a genuine projection of the mirror of life and death!

Red on the front represents vitality, and black on the back represents death!

Fang Yue also had an identical weapon in his hand, which was of the sacred weapon level.

Although the magic weapon was extraordinary, it would pale in comparison if it were used to deal with the powerful of the Great Sacred Realm.

Canglong waved its tail and rolled up an endless wind blade.

The edges of those wind blades were sharp, and they rolled crazily in Fang Yue's direction, as if they were trying to cut Fang Yue a thousand swords.

"Come!"

Fang Yue took out a rag pocket at random, and opened one end of the pocket.

A huge black hole appeared, and huge suction power came out from it.

The infinite wind blade was rolled upside down, all swallowed by the bottomless pocket.

Fang Yue's pocket is actually just a very ordinary snakeskin pocket, but it has been transformed into a space crack by Fang Yue. No matter what kind of attack technique is included in it, it will be directly transmitted to the distant and unknown depths of the universe.

Although this wind blade is strong, it can't resist the attraction of space cracks.

Fang Yue's gesture was to crack Liu Chongyun's ultimate move.

Liu Chongyun showed a look of shock, Fang Yue's methods were extremely mysterious.

Although he is proficient in space and heaven, he has only reached the fourth level. At his level, he still can't understand the mystery of Fang Yue's method just now.

"This snakeskin pocket does not seem to be a real magic weapon!"

After all, Xi dreamed of seeing a lot of knowledge, and her mind was extremely calm, and she saw some clues in it!

Xi Meng said to herself, she found Fang Yue more and more interesting!

This is obviously a rag pocket. I don't know what kind of entrance method Fang Yue has arranged in it to turn it into a magic weapon that can take away the attacks of the great saint realm!

Xi Meng is more and more grateful that his previous judgments are correct. Otherwise, if Fang Yue's methods and ruthlessness are different from Dai Tian's grievances, if he wants to retaliate completely,

with the current Xi's family in Ten Thousand Worlds Universe. The forces, I am afraid it will be difficult to hold them!

"Canglong ascends to heaven!"

Liu Chongyun shot again, and he even injected a strand of his own soul into this blue dragon.

put all one's eggs in one basket!

Liu Chongyun had a fierce spirit in his heart. His pride allowed him to win this time without fail, no matter how much he had to pay!

Canglong wagging its tail, and the faint scales glowed coldly in the sun.

A pair of cold eyes were dark brown, and indifferent light reflected in them.

The Canglong shot, wanting to kill Fang Yue with a single blow, and its dragon claws fell, holding Fang Yue in his hand as if it were a goshawk looting!

Fang Yue raised his head, he looked at Canglong.

The golden mirror of life and death in his hand turned slightly.

A beam of black death light fell on Canglong's dragon claws.

The blue dragon's claws swung slightly and easily blocked it, and took a picture to the side!

"The blue dragon with Liu Chongyun's soul and soul is already close to the real Great Sacred Realm level Canglong, because this Liu Chongyun once received a Great Sacred Realm level Canglong inheritance when he was a boy, and it was branded with the true form of the blue dragon. , If Liu Chongyun goes all out, he can reveal the real blue dragon back then!"

By Fang Yue's side, Xi Meng muttered to herself, and Fang Yue reminded him intentionally or unintentionally.

"Ximeng, you!"

Liu Chongyun pointed to Xi Meng.

He was furious!

This Xi Meng actually wanted Fang Yue to reveal his ultimate move and which side of the guy was on?

Just when Liu Chongyun roared at Xi Meng, Fang Yue already knew where Liu Chongyun's hole card was.

The real shape of the blue dragon.

This is indeed a treasure.

It's a pity that Liu Chongyun's true form of Canglong is only at the level of the Great Sacred Realm!

Although it contains part of the power of the blue dragon, it has evolved to the extreme, and it is difficult to escape the level of the Great Sacred Realm.

And the powerful creatures Fang Yue had seen were far more than the level of the Great Sacred Realm!

Fang Yue closed his eyes slightly, and the six golden body behind him appeared.

This Zhang Liu jin body slowly manifested, turned into a Ruyizi appearance.

Among the powerhouses Fang Yue has come into contact with, only Ruyizi spends the most time with him, and imitating his breath is the easiest!

Ruyizi sat in the void, his eyes closed.

Under Ruyizi's body is a pattern of Yin-Yang Tai Chi, with black and red light and shadow intertwined.

Black represents death and red represents life.

This Yin Yang Tai Chi is somewhat similar to the golden mirror of life and death in Fang Yue's hand!

The roulette turns slowly.

The blue dragon flew down again. It turned into a curve, cutting towards Fang Yue's body. This was no longer a simple spell or magical power attack, but the true shape of the blue dragon, the body, and the mark. It is the manifestation of the avenue, and it is impossible to prevent everything from breaking apart!

Dao body can only fight with Dao body. This is the experience that countless ancestors of cultivators have summed up with their own blood and lives over the years!

The blue dragon flies into the sky.

Dao marks appear.

Xi Meng stared at this scene closely.

As a descendant of the Xi family, she naturally understands Dao marks, but there are hundreds of thousands of Dao marks around the world. The Dao marks she practiced are different from those of Liu Chongyun.

More control over one kind of Dao Mark, even just understanding it is good.

Because Dao hen is a rare thing on weekdays.

Every time you cast Dao Mark, you need to sacrifice a strand of soul of the caster.

Even at the level of the Great Sacred Realm, the power of the soul is very important, and it is difficult to recover quickly after use!

Dao marks manifested, and Liu Chongyun's face showed a hideous look.

"Fang Yue, you are dead this time!"

Liu Chongyun gritted his teeth, the murderous aura on his body was extremely strong!

Suddenly, Ruyizi behind Fang Yue opened his eyes.

His eyes were plain and unremarkable.

There is no Dao mark, nor is it true.

Fang Yue's six-year-old golden body turned out to be like Ruyizi's true body coming!

"Has the creatures of other universes descended?"

Ruyizi muttered to herself.

He actually communicated with Ruyizi's deity, and as his voice fell, the true form of the blue dragon was shattered by life.

What a terrifying magical power this is!

Break the iron order.

The unremarkable sonic method can even shatter the powerful blue dragon!

This is beyond the cognition of Xi Meng and others!

"Which big person's projection is this? It's just a weak will, and it can control Fang Yue's law body to display such power!"

Xi Meng's heart was extremely shocked.

This method is simply to challenge the limit of her cognition!

Fang Yue sighed softly.

Sure enough, there is still an insurmountable distance between him and Ruyizi's understanding of Tao.

"These characters should be considered strong in the Wanhua Universe! It's a pity that they blindly pursue realm, but they lose their pursuit of Tao!"

Ruyizi's idea is to infer the cause and effect of all this.

He walked off Fang Yue's body, and turned this Daozhang Liujin body independently into his Dharmakaya projection.

Fang Yue felt that his golden body had severed contact with him, and he grinned in pain.

Canglong shattered.

Liu Chongyun's Dao marks shattered, which was a great blow to him.

Liu Chongyun seemed to be a hundred years old, his own realm collapsed.

He fell from the third level of the Great Sage Realm, and actually fell to the first level of the Great Sage Realm!

Xi Meng saw this scene.

At this moment, she was already cold all over her body.

Who is this Fang Yue sacred, he was able to summon such a character.

Xi Meng's heart was guessing the true identity of this Ruyizi.

If she hadn't expected it to be bad, this Ruyizi was at least an existence of the pinnacle of a virtual fairyland or even a true fairyland!

"Master!"

Fang Yue respectfully worshipped Ruyizi.

Ruyizi glanced at Fang Yue: "Your kid is usually not so respectful to me, this time you want to pull my tiger skin!"

Ruyizi said Fang Yue's careful thoughts.

Fang Yue smiled awkwardly and scratched his head.

"Forget it, forget it, since you are my disciple, I will protect you! In the future, you will have three opportunities to ask me to protect your earth! Each time, I only kill one person. I hope you can cherish these three opportunities! "

After speaking, Ruyizi returned the Dharmakaya to Fang Yue.

And the voice of Ruyizi was still flowing in the void.

"Great catastrophe, all phenomena arise, all beings are destroyed, reincarnation is broken! Hahaha!"

Chapter 1748 Pet Meal

Ruyizi's figure disappeared, as if he had never appeared in this world.

Fang Yue's Law Bodies also returned to the body, all under his control.

Taking advantage of the chaos, Liu Chongyun sneaked into the crowd quietly, his face was pale, his eyes were full of horror, he no longer had the courage to fight Fang Yue, Xi Meng appeared in front of Fang Yue.

Her face was simple and elegant, and her smile was calm, as if she were harmless, gentle and pleasant like a girl next door.

She just saw a thrilling scene.

The coming of Ruyizi's thoughts is enough to force release and crush the Great Sage.

This is definitely a strong man in a true fairyland, even if it looks at the entire Wanhua universe, it is also the existence of the pyramid tip!

And Fang Yue is a direct disciple of a true immortal powerhouse. No wonder he has so many methods, he can attack the Great Sage with his Yin Yang realm cultivation base.

Fang Yue also had the opportunity to summon Ruyizi for three shots.

One chance may be able to kill a great sage and even Xuxian.

Xi Meng did not dare to neglect Fang Yue.

This was definitely an existence that could not be offended. Her heart became more grateful that she had compromised before and at least did not offend Fang Yue too cruelly.

"I hope Fairy Xi Meng can keep things a secret today! I'm used to being low-key, and I don't like publicity, and I don't want to use my master's tiger skin to slander everywhere!"

Fang Yue showed a shy smile, and even a hint of blush on his cheeks.

When Xi Meng heard this, he couldn't help being taken aback.

Then he felt cold in his heart and immediately realized Fang Yue's strategy.

This guy is so bad!

He is full of black water, he is clearly preparing to pretend to be a pig and eat a tiger and play a big one!

However, Xi Meng cooperated. In this grand event, the Wanhua Universe was not hosted by her Xi family, and there were other large and small forces participating. The relationship between these forces and the Xi family was not harmonious.

If you can use Fang Yue's hand to get rid of the masters of other clan forces, then Xi Meng can't ask for it!

Xi Meng's heart secretly calculated that he wanted to find a good opponent for Fang Yue.

But at this time, in the blink of an eye, Fang Yue's figure had disappeared again, not knowing where he had gone.

Half a day later, the grand meeting began. The long flowing water table was thirty kilometers long. Everyone who entered the world had a place in this banquet, but all the powerful people were arranged according to their own cultivation bases. of.

The eight powerhouses of the virtual fairyland naturally sat in the initial position, and the positions of the Great Sacred Realm, the Saint Realm, and the Leader Realm were in order.

The cultivation base of the first level of Fang Yue's Yin-Yang realm was at the end, because the strongest who entered this world this time were basically at the level of the master realm. Moreover, these master realms are only the servants of the saints and saints, and their status is low.

However, the food on this banquet is indeed good, even the last yin and yang level food is a five-hundred-year-old peach, dragon wings, phoenix lanterns and other things.

However, the higher the cultivation level, the better the quality of the meal.

Next to Fang Yue, the master-level banquet was filled with a thousand-year-old birthday peach and even a master-level spirit pill as dessert.

As soon as Fang Yue sat down, he started to feast regardless of his care. I have to say that the practitioners of the Wanhua Universe are not good at combat effectiveness, but they are better than the practitioners on earth in the study of cooking. There is more than one grade.

Fang Yue was eating Zhenghuan, and as for the discussions and speeches of those virtual fairyland experts above, it seemed that he was completely out of the same world with him.

The others are all self-reliant on their identities, listening carefully to the teachings and teachings of the strong in Lingxuxian Realm. Only Fang Yue sneered here, drinking soup and eating vegetables, and the voice was very loud, so that the strong people around were involuntarily looking at him. Obliquely, I was extremely unhappy.

However, Fang Yue has no guilt about it. He has always held the view of eating his own food and letting others see it!

The more people see him, the more joyful he eats.

"Which servant is this? Why are you so ignorant of the rules!"

A sage of the Milky Way frowned.

He belonged to the Silver Winged Yasha clan, who had just recovered recently. Originally, their clan didn't have much favor with Human Clan. This time, seeing Fang Yue doing this is even more unhappy.

This household is simply losing the face of the Milky Way. What's more, is it suitable for you to join in a feast of this scale?

Therefore, the powerful saint of the Silver-winged Yasha tribe actively ordered that Fang Yue be killed for the people.

But when the sage of the Silver-winged Yasha tribe jumped out, he didn't see the pity of the people around him.

Do you think that you are smart enough to please Wanhua Universe to deal with Fang Yue?

Everyone is not a fool, but no one dares to be this early bird!

This is Fang Yue.

Fang Yue who stirs the wind and rain in the Galaxy Alliance!

He was almost as strong as a legion, and the saints who died in his hands were all unknown.

Who wants to start this frowning opponent Yue stupidly.

Everyone is not stupid, but afraid!

Everyone's hearts have begun to mourn for this silver-winged Yasha.

A dignified saint-level powerhouse eventually fell into this banquet because he did not know the current affairs and became the first person to be sacrificed.

Perhaps his name will be imprinted on the bamboo slips of history as a negative model!

Yin Wing Yasha saw that everyone was interested in the opponent Yue's shot.

So he excitedly ordered Fang Yue, a servant of the third tier of the leader realm under him, to start.

"Abbe, take this little guy who doesn't know much about it. This is a feast hosted by the strong of the virtual fairyland. Such humble ants are not qualified to stay here at all!"

Yin Wing Yasha coughed dryly, pretending to be arrogant and honorable.

Although it was a licking dog, he was also licking the thigh of a strong man in the virtual wonderland.

The average dog can't even lick it!

Hearing that, on the seat of the leader realm level, a silver-winged Yasha Abbe on the third floor of the leader realm stood up.

He showed a grinning smile and walked step by step in Fang Yue's direction.

He looked at Fang Yue's skin and tender meat, his skin was as delicious as his flesh.

As long as he took this Fang Yue out of the banquet, he could swallow this Fang Yue alive.

Yasha is bloodthirsty, and the favorite of the silver-winged Yasha clan is to eat human flesh.

Compared with the panacea that has faded from the taste of birds, all kinds of fairy peaches are still more delicious than the flesh and blood of this delicate skin and tender flesh!

Abei walked to the front of Fang Yue's position, but Fang Yue didn't even lift it up, as if everything that happened just now had nothing to do with him.

He feasted here, and his mouth still made a crackling sound.

"Will you go with me, or let me carry you out!"

Abe looked at Fang Yue ferociously, and shouted loudly.

Hearing this, Fang Yue raised his head blankly.

"What is this? People are not humans, ghosts are not ghosts! Is it for my pets to add meals? Your service from the people of Wanhua Universe is really caring!"

Fang Yue opened his mouth, looking very happy.

When Abbe heard this, he was even more ferocious. He raised his hand, hoping to drag Fang Yue out in the most rude way.

Hundan, this is simply Xiao Hundan, he actually used the noble and great silver-winged Yasha fighters as pet food.

Before Abbe's palm fell.

An illusory shadow slowly emerged from the void.

With a click, Abbe's palm was bitten off by Qi's wrist by the shadow in the void.

"Ah!" Abbe wailed in pain, blood flowing from his wrist.

Click, click, click.

The illusory figure in the void finally gradually became clear.

What is this?

A small box?

There are even short arms and short legs, which looks quite happy.

This is Fang Yue's pet?

It's so patience!

But wait, how could Fang Yue bring in his pet?

This is a very high-spec banquet held by Wanhua Universe at a huge price, and all the participants are strong.

This is a very serious and serious banquet.

Pets are not allowed to participate in it in principle!

Otherwise, every strong man brings one or several pets of his own.

There is no need to continue the banquet, and it simply becomes a dog-walking conference.

Therefore, when entering this world, the people of Wanhua Universe also deliberately checked the identities of these strong followers.

"Who put this Fang Yue in?"

A middle-aged man from Wanhua Universe sitting on the lotus throne at the top of the banquet solemnly asked.

He is a strong man in the virtual fairyland in the Wanhua Universe, Xu Ziling.

His position in the Wanhua Universe is also extremely high, and this time he is one of the planners of the Wanhua Universe!

This is a meeting of the ten thousand races to discuss the direction of the galaxy.

How could it be destroyed by such a jumping clown like Fang Yue?

Under Xu Ziling, a saint with long eyebrows and long beards in Wanhua Universe, with cold sweat, he quickly flipped through the jade slips in his hands.

But his divine consciousness fell into the jade slip, and each name quickly passed through his divine consciousness, but there was no Fang Yue's name in it.

This also means...This Fang Yue didn't come in from the front door of this world at all?

But there are no wickets in this world!

The old man couldn't help but think of a guess that he couldn't believe him.

Could it be...

"How is it? Did you find it!"

Xu Ziling said impatiently, if he knew who Fang Yue was put in, he would definitely punish him seriously!

"No! Nothing in this jade slip!"

The old man responded truthfully.

Xu Ziling could not help but stay.

"No! You mean this Fang Yue got in here?"

Xu Ziling's voice was furious, and he shouted at the old man.

"The ones who are in charge of the door are the three great sacred realm-level powerhouses in my Wanhua Universe. Unless they are the powerhouses of the virtual fairyland, it is impossible to converge their aura, and they enter this banquet without interrogation. Among them!"

There is anger in Xu Ziling's voice, why are his men so unbelievable!

The old man whispered: "This Fang Yue probably didn't get into this world, but he broke through the space barriers of this world and walked in swaggeringly!"

"how can that be!"

Xu Ziling exclaimed and lost his voice.

Chapter 1749: blue sky

"If it were someone else, the subordinates would naturally not be so suspicious, but his younger brother Liu Chongyun was inexplicably attacked by Fang Yue before. This Fang Yue's background is so scary, it seems that there is a real fairy as his Background and support, if Fang Yuezhen is behind a strong person in the real fairyland, then all the impossible will be able to make sense!"

The old man's voice fell.

Xu Ziling couldn't help but shiver.

Don't look at what he is dragging here is like two to five or eighty thousand, but the real cultivation level is the cultivation level on the fifth step of the virtual fairyland.

When I meet a great saint, saint or something, I naturally call out five and six, and no one pays attention to it when he walks the eight steps.

But I met a real fairy.

Hehe, he is a fart in the eyes of a real fairy!

"Forget it, forget it, don't say it, don't say it! It turned out to be a guest. Since we set up a banquet, it is for people to eat, and the fragrant he eats is to give us face! There is nothing to say!"

Xu Ziling's face changed, and he changed his tone directly.

I knew that there was a real fairyland powerhouse in this galaxy, so he wouldn't come to take this job if he was killed!

What is that true fairy?

That is the existence at the top of the food chain.

Except for some old monsters that cannot be hidden in the long river of history, Zhenxian is almost the strongest in any universe!

If there is a real fairy, he can kill a virtual fairy alone.

Xu Ziling's pride faded.

But the silver tooth Yasha on the third floor of the Master Realm didn't know the episode!

Although he had a hand bitten off by Kongkong, he thought it was caused by a sneak attack!

Yintooth Yasha continued to say to Fang Yue fiercely: "Despicable Human Race, since you toast and not eat, you eat fine wine, then I'm not welcome!"

He held his waist empty in his hand, trying to pull out the saber from his waist.

But his palm is empty.

Damn it, where's the knife?

Where is my knife?

Yintooth Yasha lowered his head.

The saber around his waist was gone!

When he looked back again, he saw that the little monster had stolen its saber, and put it in his mouth, squeaking, chewing like a cookie, and slowly swallowing it!

At this moment, that silver tooth Yasha felt that his world was overturned!

Although he is only a servant of that saint, he is also a strong man in the leader realm!

His saber is a standard master-level magic weapon. Although it is not qualified to chop a saint, it is not as crisp as chicken!

It's delicious to eat empty.

Fang Yue looked at Kongkong dotingly.

"Hey, baby eat slowly, there are still around, you are growing up, if you are not picky about eating, remember to eat more!"

Fang Yue's exhortation really seems to be to a baby who is growing up!

However, Na Kongkong even replied, and then continued to chew with the saber of Yasha.

The Yinfang Yasha in the leader realm is about to collapse!

Are you really sure that Fang Yue is a practitioner of the first level of Yin-Yang realm?

How do you feel that his pet can kill him hundreds of times in minutes!

Soon, Kongkong ate the silver-toothed Yasha's saber!

Although the Sabre is not low-grade, it does not have many materials.

Silver-toothed Yasha finished eating in two bites, still unfinished, and then a pair of small green eyes looked at silver-toothed Yasha.

Silver Tooth Yasha felt his calf soft.

I want to go home to find my mother!

However, Fang Yue didn't plan to give him a chance to go home. More precisely, Kong Kong didn't give Yinfang Yasha a chance to survive.

Darkness shrouded.

Then know nothing.

Silvertooth Yasha's body was swallowed by a touch of darkness, and then he lost all consciousness.

Kongkong swallowed the silver tooth Yasha, and the energy contained in the flesh, bones, and soul became its dinner.

The expressions of other people were different, and most of them showed what they expected.

If Fang Yue didn't toss some moths, it would not be Fang Yue!

The death of this silver tooth Yasha was expected.

He is just the first sacrifice in this **** feast!

"Thanks to Wanhua Universe for the hospitality, but my pet seems to have only ate a three-point full. I don't know if Wanhua Universe takes care of this dessert?"

Fang Yue's smile was shy.

There was an awe-inspiring taste in the heart of the saint-level silver tooth Yasha!

He didn't expect his servant to die like this.

Although there was a little regret in the heart of the saint-level Silvertooth Yasha, there was not much sadness.

He has lived too long, and his past needs to be calculated in units of millennia.

The past glory and disgrace have been washed away in the long river of years.

When the teenager passed, he was used to seeing people around him appear and disappear.

Today, in addition to his own life, the lives and deaths of others have hardly caused the slightest waves and ripples in his heart!

"Hehe, it depends on whether this Master Bi Luo is willing to entertain!"

Xu Ziling kicked the ball in front of Yintooth Yasha.

After all, licking the dog is licking the dog, licking the owner happy, maybe some bones to eat.

Once the owner is in danger, licking the dog is also the object of abandoning the car.

The sage-level silver-toothed Yasha Biluo looked at Fang Yue.

"Fang Yue, the silver-toothed Yaksha you killed just now is the general of my clan. On this feast, all living beings gathered, Fang Yue, you killed my silver-toothed Yaksha in front of everyone because you wanted to make the earth Will we go to war with the silver tooth clan completely?"

Bi Luo was violent.

Since he has already met Fang Yue, it means he can't stand back.

Because he has no retreat.

Once they give up lightly, their silver teeth clan's face will be completely wiped out.

Fang Yue was surprised: "So that guy turned out to be the general of your silver-toothed Yasha clan? It is not a dessert for our pets from Wanhua Universe! But if it is completely opposed to your silver-toothed Yasha clan, more pet desserts will be delivered to your door. If you come, this is also a good choice!"

Fang Yue pretends to be crazy and stupid, in fact every sentence points to something.

Bi Luo was annoyed, this Fang Yue completely treated their silver-toothed Yasha clan as a monkey!

"Since you are looking for death by yourself, don't blame me for being rude!"

Bi Luo shot suddenly.

Seven forty-nine flying swords fell from the sky.

These flying swords fell and formed a sword formation. Each flying sword was like silver light, spreading down the sky, turning into a cage and trapping Fang Yue in it, unable to escape.

"This is an ancestral seven-star sword technique of my Yinfang Yasha. All the seven or seventy-nine flying swords contain a trace of my spiritual power. I can activate all of these flying swords with a single thought, killing immortals and destroying demons. , It's just between my thoughts!"

Bi Luo straightened his chest and said proudly to Fang Yue.

Fang Yue was taken aback for a moment, then glanced at these flying swords.

"Is the silver-toothed Yasha clan already impoverished to such a degree? You, a magnificent saint, don't even have a saint-level flying sword. After taking out so many sacred master levels, it looks down on me. drop?"

Fang Yue's words stung Bi Luo's heart like an awl.

Although the sword formation formed by the combination of these seven forty-nine flying swords is powerful, if it were to be converted into a saint-level sword formation, the cost was almost unimaginable.

Therefore, he can only use the flying sword of this sect master level to form an array.

However, losers do not lose the battle.

Bi Luo heard Fang Yue's questioning and still snorted coldly: "Even though it's only a sword formation at the leader level, it is still more than enough to destroy a small Yin and Yang realm!"

The voice of Bi Luo just fell, and the sword auras were like a dragon, and the silver sword auras crisscrossed, as if a net had locked Fang Yue firmly in it.

Thousands of swords of light roared in, and the surrounding area of Fang Yue was reflected like bright tomorrow.

Fang Yue didn't move.

He allowed those sword lights to pass from his body.

Those sword lights fell on his body without a trace of white marks.

"Fang Yue's body refining is almost small, and even the attacks of the Great Sacred Realm level may not be able to help him. This kind of sword light will not leave the slightest wound on his body!"

Liu Chongyun, who was unhealed, also participated in the feast.

His voice trembled, and there was endless despair in it.

Although the heart demon seed in his heart has been dispelled, but the shadow of his Fang Yue's fear is lingering.

Fang Yue looked at Liu Chongyun, but he didn't expect his recovery speed to be quite fast. The realm that had fallen down unexpectedly recovered to the second level of the Great Sacred Realm.

Liu Chongyun didn't dare to look at Fang Yue, he was worried that his demons would re-emerge.

"Body refinement?"

When Bi Luo heard Liu Chongyun's words, his heart trembled suddenly.

He realized that he really provoked someone who couldn't be offended this time!

The body refining is small, such a physique is already invincible in the realm of saints. This invincibility is not a flattery but a true invincibility.

None of your skills, swords and spears can leave the slightest wound on his body.

This is equivalent to Fang Yue being able to punch him to death, and he cannot hurt Fang Yue no matter how he chisels.

This thing is still a fart!

There is endless despair in Bi Luo's heart.

He wanted Liwei, so why did he choose Fang Yue, a copper peas that was not cooked and cooked?

"Fang Yue, I was rash about what happened just now! I am here to apologize to you!"

Bi Luo waved away forty-nine flying swords.

He turned his face faster than a book, and said with a smile at Fang Yue.

This big brother can't afford it!

In order to save his life, Bi Luo felt better to admit counsel.

With so many saints present, Fang Yue shouldn't be aggressive and embarrass him!

Unfortunately, Bi Luo overestimated Fang Yue's character.

Don't you surrender?

Fang Yue does not have such a noble character!

He likes to abuse the trumpet.

Fang Yue snorted coldly: "When you encounter a strong person, I will admit it. If I am not as strong as you, I am afraid that your flying sword has already been chopped into fleshy meat! The Silver-toothed Yasha clan is so bullying and fearful of hardship, I have seen it. ! But since you have offended me, don't want to leave alive!"

Fang Yue said harshly.

When Bi Luo heard this, his smile narrowed and showed a hideous look.

"You kid, how do you shame on your face? Before you start, think about your earth. Now your earth is a candle in the wind, and it can be extinguished at any time! Wanhua Universe, Galaxy Alliance, Vulcan Alliance They all regard your earth as a thorn in the eye and a thorn in the flesh. No one protects your earth. If you are provoking our silver-toothed Yaksha clan, even if there are more powerful people in your earth, it will take less than ten and a half months. Completely fall and perish!"

The safety of the earth is in Fang Yue's heart!

Dragons have inverse scales, they will be angry if they touch them!

"Dare you say this again?"

Fang Yue's killing intent was awe-inspiring, and the temperature of the entire banquet dropped by more than one degree!

Chapter 1750: Liwei

Bi Luo's heart trembled, and he felt extremely depressed.

The bloodline of their silver-toothed Yaksha clan is extraordinary, but in front of Fang Yue, he feels like an ant has seen a real dragon!

Mountain rain is coming.

Bi Luo's heartstrings were tense, almost breaking.

He opened his mouth and bit his scalp and said: "Your earth is already in disaster, so why bother to make more powerful enemies!"

"This one is killing, and two people are also fighting. Anyway, if there are more lice, don't bite. Even if there is one more enemy, it will be fine for the current earth!"

Fang Yue suddenly smiled brightly.

He didn't seem to be angry anymore.

However, at the moment Fang Yue smiled brilliantly, Bi Luo's heartstrings suddenly broke.

He bleeds from his seven orifices, and fell on his back.

A sage-level silver-toothed Yaksha fell silently in front of Fang Yue, and no one even knew how Fang Yue killed him.

"This blue soul lamp has gone out, and there is no possibility of resurrection!"

Xu Ziling's gaze fell on another Sage Yaksha who participated in the event.

The saint glanced secretly at the blue soul lamp he was carrying with him.

The soul lamp goes out, and the green smoke curls, which means that Biluo has no more vitality!

"This is the way to attack and kill in the soul realm! This is extremely dangerous, even a slight wound is extremely difficult to heal, killing is invisible and extremely terrifying!"

The voice of a saint in the Wanhua universe trembled.

He recognized Fang Yue's method of attacking and killing Bi Luo.

The soul line is regarded as a taboo in the Wanhua universe, because most practitioners have no relevant defense methods!

"Who is going to use my earth? Don't be afraid, everyone can discuss it!"

Fang Yue smiled and looked quite kind, but everyone in the room had already learned Fang Yue's dominance just now. The ghost is willing to be killed by Fang Yue when the whole bird is in his early years!

"Fang Yue, you are so domineering and arrogant, just because my silver-toothed Yaksha tribe's trivial words are killing the saint of my silver-toothed Yaksha tribe. My silver-toothed Yasha tribe has always had grievances, and we can't spare you!"

The sage of the Silver-toothed Yasha Clan who carried the Jade Soul Lamp on his body spoke. He gritted his teeth as if he had a different hatred from Fang Yue.

"Fang Yue be careful, this silver-toothed Yaksha is very weird, he appears to be a strong man of the eighth level of the Saint Realm, but I vaguely sensed the breath of the Great Saint Realm in his body!"

Secretly, Xi Meng even reminded the opponent Yue Chuanyin.

This is certainly not that Fang Yue's charm has attracted Xi Meng's attention.

Xi Meng hopes that Fang Yue and the powerful races in the galaxy will fight more fiercely as possible. They are all enemies of the Wanhua Universe in the future. One less one will allow the Wanhua Universe to rule the world and conquer the Universe. Relax!

Fang Yue also noticed the weirdness of the saints of the Silver-toothed Yaksha clan. He looked at the blood and energy, but in him, Fang Yue also felt a faint and pure death aura!

Qi and blood represent vigorous vitality and death energy represents eternal death. According to the truth, the two should be two extremes that do not merge, but they are all manifested in this silver tooth Yasha. Common sense is violated.

"Where are you?"

Fang Yue still looks dismissive, he wants to be strong to the end, let the ten thousand races see the mystery of the earth in his body! He wants to delay the earth for a longer period of time. Only when all the forces have awe in the hearts of all parties, can his next plan be carried out easily.

"Huh! Silvertooth Yasha clan Buso!"

The silver tooth Yasha gave a cold snort, raising his neck quite proud.

Among the silver-toothed Yasha clan, his status is quite high, and the level of combat power is far from what that wasteful blue sky can compare and match!

"Fang Yue, you killed Bi Luo just now, and I will use your head to pay tribute to the warriors of my silver-toothed Yasha clan. Today next year will be your day of sacrifice!"

That Busuo didn't have too much nonsense, it was the opponent Yue who made a strong shot.

He held a chessboard in his hand. The chessboard was old, and the purple blood stains on it had not yet dried!

"The magic weapon at the peak of the Saint Realm, Heaven and Earth chessboard?"

When someone saw what Buso had taken out, his expression changed slightly. Obviously, this chessboard of heaven and earth once left a great reputation in the universe!

"Here you have played! The chessboard of heaven and earth is one of the most mysterious and supreme magical weapons among many magical weapons. Although its body is no longer here, even a replica of the sage peak level can be easily achieved. Crush and kill the average peak saint! Although Fang Yue's combat power is detached, he only has the cultivation realm of Yin and Yang realm after all. He does not have a deep understanding of Taoism, and relying on some side sects, he has the capital to fight against the saints! This world! As soon as the chessboard comes out, this Fang Yue may hardly have a chance to survive!"

Someone secretly discussed that they were full of hostility to Fang Yue, and they did not want Fang Yue to grow up smoothly.

This Fang Yue's potential is too great. Only the first level of Yin Yang realm is able to easily kill saints. If he can cultivate to the level of saints, then these older generations of powerhouses will not let this Fang Yue. Feel free to use it?

In this grand event, fish and dragons are mixed, and all forces have their own small calculations and think carefully.

"The chessboard of heaven and earth, covering all directions!"

Buso picked up the heaven and earth chessboard in his hand, and he was shocked suddenly.

The chessboard from heaven and earth fell from the sky, trapping Fang Yue in it.

Fang Yue fell into the realm of the chessboard of heaven and earth. He felt that the chessboard was boundless and vast. Each grid seemed to be an independent world. It was impossible for him to break through one world after another without his great magical powers. , Reach the end of this board!

"Heaven and earth are the plate, and all beings are children!"

Buso's majestic treasure, his voice is extremely majestic.

A silver elephant head appeared in a grid. He was wearing heavy armor and holding a battle axe, capable of crushing the ground with every step.

"Like protector, give me this Fang Yue Fa-rectification!"

Buso's voice fell.

The elephant protector was swinging the battle axe in his hand towards Fang Yue's direction.

This battle axe is shining, and it also contains unparalleled power!

Yinhua fell, as if it could tear the entire world.

"On this chessboard of heaven and earth, the guardian of the sage peak realm can be summoned. Under this great sage, who can break the game? Who can survive?"

Some saints exclaimed that this is the saint in the Wanhua Universe. Originally, they were very contemptuous of the creatures in the Ten Thousand Universe. Even the saints always felt that they were weaker than them.

However, when they saw Buso, they suddenly realized that all this might not be the same as what they had imagined!

This Buso's methods and instruments are far beyond their imagination.

Secretly, Wanhua Universe has regarded Buso and even the silver-toothed Yasha clan behind Buso as its enemy!

And Fang Yue had completely cut off contact with the outside world.

This chessboard of heaven and earth is indeed an extremely delicate magic weapon, forming a realm of its own, containing thousands of worlds.

The chessboard is also sealed with the spirits of many saint-level beasts. If someone breaks in, the chessboard will project these spirits to kill the enemy!

The cost of making this heaven and earth chessboard is probably no less than an ordinary magic weapon of the Great Sacred Realm level.

However, the true value of this chessboard of heaven and earth may not stop there. Its true value lies in its application to war.

This chessboard is shrouded, and thousands of creatures are included. Regardless of your strength and talent, as long as you fall into this chessboard, all will become chess pieces on this chessboard. Life and death are at the mercy of the owner of this chessboard!

However, if this thing is to deal with other people, it would be a tragedy that meets Fang Yue!

The core origin of the chessboard of heaven and earth is space and heaven.

However, Fang Yue is an expert in space and heaven!

With a ding-dong sound, Fang Yue raised his arm to withstand the tomahawk attack of the protector.

At the same time, he stretched out his left hand and gently pressed it against the void in front of him.

Layers of space rippled and moved.

Fang Yue presented the projection of the elephant protector, breaking the shackles of the heaven and earth chessboard, in front of Busuo.

The elephant protector saw that Busuo was an enemy meeting, and he was extremely jealous. It was this hateful silver-toothed Yasha that killed his deity, and then trapped him on the chessboard of heaven and earth, unable to escape forever!

The elephant protector even uses milking power!

He swung his battle axe and slashed at Busuo.

Busuo was shocked.

How did Fang Yue release this elephant protector!

Busuo left the branch again, and under the desperate attack of the elephant protector, he also appeared quite embarrassed!

"The infinite world, the number of sands in the Ganges River, like a dream like electricity, with life and death."

Fang Yue circulated the space heaven, chanting scriptures, and in a blink of an eye, he shattered the infinite world on the chessboard of heaven and earth and got out of it.

"This Fang Yue got out of trouble so easily from the chessboard of heaven and earth!"

Not only the saints present, but even Xu Ziling, who presided over the banquet, showed a surprised look.

In his opinion, the design of this heaven and earth chessboard is exquisite, and even from the perspective of a powerful man in the Great Sacred Realm, there is no flaw in it. He integrates trapping and killing into one, integrating into the three thousand worlds. Quite large, even in the Wanhua Universe, I haven't seen a few similar magical artifacts.

But this kind of magical artifact is not worth mentioning like a child's toy in front of Fang Yue!

He got out of trouble easily and effortlessly, even if the powerhouse of the Great Sacred Realm encounters this world chessboard and wants to leave it, he needs to spend some hands and feet!

In Xu Ziling's eyes, this Fang Yue became more mysterious!

"Great Sage, Fang Yue must kill but not stay!"

Next to Xu Ziling, Liu Chongyun wailed at Xu Ziling with a hint of crying!

Liu Chongyun had suffered from Fang Yue's big loss, and he was most afraid of Fang Yue.

Xu Ziling couldn't help being stunned when he heard this.

"Why is this?"

"The reason that Fang Yue can break the heaven and earth chessboard is because he is proficient in space and heaven. The space and heaven contained in this heaven and earth chessboard are exquisite, at least at the third level, and Fang Yue can easily break through, proving his space and heaven. It is also much higher than the comprehension of the space and heaven of the world chessboard maker! This means that if this Fang Yue may be able to travel through the world easily, if that is the case, he will mix into my Ten Thousand Flower Universe to make trouble, kill and revenge, It's not impossible!"

Liu Chongyun explained.
