

## God of Life 1751

### Chapter 1751: Invincible

"What? This Fang Yue suspected of possessing the Heavenly Way of Space, and has he reached this point?"

Xu Ziling's body was shocked upon hearing this.

Among all the heavens, the space heaven is one of the most difficult!

Practitioners of the Space and Heavenly Paths can not only travel freely across the world, but also create the world and divide space. In any universe, the number of Space and Heavenly Paths is extremely rare, and they want to move forward. Extremely difficult.

Heaven is powerful, but it is also difficult to practice!

If Fang Yue can really cultivate the realm of Space Heaven to the fifth or even sixth level, then his risk factor will rise in a straight line. The front line of the Wanhua Universe is not too afraid of his impact, despite his personal strength. Very high, but still can't jump up in front of the Great Sage, but if Fang Yue mixes into the Wanhua Universe, it will be too troublesome!

He wants to make trouble everywhere, killing people and setting fire behind them will cause chaos in the front line.

Xu Ziling's assessment of Fang Yue's combat power is probably around the second to third level of the Great Sacred Realm. He relies on the amazingly powerful physical body. If he suppresses it with monstrous magic power, he might even be a newcomer to the Great Sage. The strong can suppress Fang Yue.

This kind of combat power is nothing in the war, but any ordinary planet in the Wanhua Universe is definitely a level of destruction!

"Report the situation of Fang Yue to the above. This Fang Yue may be blessed by a real fairyland-level powerhouse. It is only our people at the moment that I can't help him! Only let the above know the situation here and let them send out The stronger, Fang might take Xiao Yue!"

Xu Ziling is extremely sensible and cautious at this moment. If he blindly spoiled and arrogant, Xu Ziling would not be able to make this step.

"Yes!"

Liu Chongyun bowed his head and obeyed, his eyes flickering.

Fang Yue is definitely over this time!

Once targeted by those old antiques in the Wanhua Universe, even if Fang Yue has a real fairyland powerhouse as a background, it will definitely be inevitable.

Fang Yue has taken the chessboard of the day and earth into his hands at this moment. Although he destroyed the world and caused devastating damage to the chessboard of the world, the foundation of

this chessboard is still there. Fang Yue only needs to rearrange the brand of the world. Let this world chessboard restore its own strength and have a stronger power!

At this moment, Buso had already retreated under the attack of the elephant protector, and his body was even cut with two axes by the elephant protector.

The strength of this elephant protector is extremely strong, and he himself is the king of fierce beasts-ancient idols.

This ancient idol is a symbol of power in the mythology of the ancient times. Their moves are so powerful that they are extremely powerful!

If it wasn't for Buso who used a despicable sneak attack to severely wound the elephant protector and then combined his several friends to kill it, how could he possibly refine the elephant protector into a living soul and sealed it in the chessboard that day?

"Busuo, you rubbish, you have even given you such a good treasure as the chessboard of heaven and earth, you are still so weak! In this case, there is no need for you to exist, then sacrifice your soul to me!"

An indifferent voice appeared in Busuo's body.

Fang Yue was shocked suddenly, and he immediately understood what was going on.

"This Buso used his body and flesh and blood to raise the dead souls of the ancient heroes of the Great Sacred Realm level, and sealed them in his own body! No wonder this Buso has the breath of death and the Great Sage in his body! in this way!"

At the same moment, Buso howled loudly.

"No! No! Lord Taylor, please give me another chance, please give me another chance!"

Buso pleaded bitterly, however, the ancient heroic spirit in his body was already eager to take home!

A black soul smoke enveloped Buso's body, and soon his howling sound disappeared!

It was replaced by another more powerful soul.

"Well, this Buso's cultivation base is not very good, but the strength of this physical body is still good. It should be able to withstand my strength of about 70% without collapse!"

Buso's body changed its owner.

His eyes became cold.

He looked at Fang Yue and said in a cold voice: "Fang Yue handed over the chessboard of heaven and earth, I can let you go! I am not from the silver-toothed Yaksha clan, and I have no interest in interfering with the grievances between you, but you are in your hands. But Buso borrowed the chessboard from me. I now request the property to be returned to the original owner. You should agree to this request!"

Fang Yue glanced at Taylor.

"This thing is mine now in my hands! Don't think that you make people and ghosts look like I am afraid of you! I want the chessboard of heaven and earth in my hands! Give you a chance, come to my hands now Grab it!"

Fang Yue doesn't have any good feelings for Taylor.

This guy is simply opening his eyes and talking nonsense. If it is someone else, he may not be able to distinguish what Taylor's soul breath and Buso have in common.

And Fang Yue has deep knowledge in the soul of heaven, and he is an expert among experts in this respect!

The soul breath of Taylor and Buso is exactly the same!

In other words, the two have an inseparable blood relationship. Maybe Taylor is Buso's ancestor.

Busuo is a pure silver-toothed Yaksha clan, Fang Yue doesn't believe it, this Taylor is not.

This Taylor wants to return to the chessboard of heaven and earth, I am afraid it is the superior and inferior to continue to deal with himself.

Fang Yue is not stupid, he will naturally not return this chessboard to Taylor.

"Ok?"

Taylor saw Fang Yue's refusal, and an expression of no anger and prestige appeared on his face!

"Fang Yue, I gave you a chance, but unfortunately you don't know how to refuse, then you have to go to \*\*\*\* with the ineffective guy Buso!"

Taylor's voice became more and more majestic.

His voice fell, like the voice of heaven's judgment!

Taylor stretched out a finger, and a beam of gray light rushed towards Fang Yue's chest.

The strong death breath sprayed out in that beam of gray light, wrapping Fang Yue directly in it.

"This death air is best at restraining all vitality! As long as you get a trace of death air, the blood in your body will begin to wither and eventually decline. Fang Yue, isn't your best at physical strength? I will use this wisp of death air to swallow the blood in your body completely, making you die in pain and annoyance!"

Taylor was confident.

During this period of time when he became an ancient hero, he did not give up his practice, but with the help of his heroic body, he began to study and cultivate the power of death!

Now, his Heavenly Way of Death has already achieved something, just to use Fang Yue to practice.

However, Fang Yue did not evade, letting the death air spread on his body surface.

In the face of "The True Scriptures of Death", this kind of low-level death spirit is simply pediatrics, this is a big sword in front of Guan Gong!

Those death auras gradually became tame in Fang Yue's body, and even became small snakes crawling under Fang Yue's feet.

Seeing this scene, Taylor was stunned.

This is the way of death!

This is the killer he has carefully researched out.

How come it doesn't work in front of Fang Yue?

And the breath of death, how fierce and brave you were before?

Why did he become a cartilage in front of Fang Yue!

Taylor felt that his worldview was subverted!

When the saints at the banquet saw this scene, all of them were silent.

The guys who were eager to try and want the opponent Yue to do something are all secretly squeezing cold sweat at the moment.

Fortunately, I hadn't been in the lead just now.

Did you see that even the powerful at the Great Sacred Stage level suffered in front of Fang Yue, if they stupidly rushed forward, they would definitely be giving away their heads!

"Master Tyler, do you have any other assassins? These death powers seem to be a little weak!"

Fang Yue looked at Taylor and said with a smile.

Taylor's heart trembled.

Is this Fang Yue a monster?

Taylor is no longer as strong and sturdy as he was just now.

However, in the face of life and death, he has no room to regress!

"Darkness falls, eternal perish!"

Taylor gritted his teeth, he showed off the dark road he was best at in his lifetime.

It fell with Taylor's voice.

Fang Yue felt that he was plunged into endless darkness.

He seemed to be isolated from the world around him.

Gradually, his five senses began to be gradually deprived.

"This is the combination of the dark road and the soul heaven, but this Taylor did not comprehend the soul heaven, so it is mainly composed of the dark heard elements, which seem to be powerful, but in fact they have irreparable flaws!"

Fang Yue muttered to himself, at this time, he was still in the mood to point out the advantages and disadvantages of Taylor's coming darkness.

Because Taylor made a huge mistake, and that was the level of comprehension of the Taoist rules when compared with Fang Yue.

Xu Ziling's thinking was correct. To deal with Fang Yue, he could only suppress it with absolute mana advantage. Whatever the comparison with the flesh, the comparison with the Tao, are Fang Yue's advantages.

That is like going to the pit with a lantern, looking for death!

Gradually the darkness converged, and the eternal darkness turned into a finger-sized ball that Fang Yue swallowed in his belly.

Fang Yue digested this dark power and turned it into his own power.

"Does the dignified Master Taylor only have these methods? This really disappoints me too much! If you are poor, I will take action against you!"

Fang Yue spoke to Taylor, he was giving Taylor his ultimatum!

Taylor was panicked, but he still pretended to be strong on the surface.

"I don't believe that a small Yin-Yang realm can kill my dignified heroic spirits of the Great Sacred Realm! As long as I regain my strength, killing you is as simple as pinching an ant!"

Fang Yue didn't get angry when he heard this. Instead, he said with a smile at the corner of his mouth: "I believe this, but unfortunately you have no chance!"

Fang Yue's voice was very soft, but it echoed in Taylor's ear like a curse and a nightmare.

Taylor's heart became more flustered.

Finally, the chain of order came out of the void, the sound of twitching!

The trial begins...

### **Chapter 1752: Xingrong Avenue**

My name is Taylor, and now I am panicking, and Fang Yue in front of me is just barely enough, what should I do?

Wait online, hurry!

Taylor was knocked out by Fang Yue before he could reply.

Taylor was hacked to death by Fang Yue.

But he was physically unharmed.

Soul knife, an ancient method recorded in the "Soul Truth".

Specializing in killing the spirits of ancient heroic spirits, it also has a miraculous effect on Yinling.

What Fang Yue is least afraid of is this ancient heroic spirit. Both the soul and the power of death are Fang Yue's best methods.

Tyler's body fell.

Fang Yue collected his body for him, and then he put Tyler's body in a storage bag, slowly moved everything on his table, and brought it back to the place he just made.

That was the last table of the entire banquet.

The elder brother of the leader level sitting next to Fang Yue was shaking with chopsticks.

It's not that his mental quality is not good, but that there is a killer sitting next to him, who just took a sacrificial sword from a strong man in the great holy realm, you are also shaking when you sit here!

"Everyone, don't look at me! Discuss something, if it's okay, continue to eat and drink!"

Fang Yue gnawed the wings of a saint-level flamingo.

The marinated taste is good, just like it!

The food at this saint level is different.

Fang Yue praised himself in his heart.

The others are about to be fascinated.

What did you do just now?

You killed a great sage of the silver tooth Yasha tribe!

In this negotiation, the Silver-toothed Yaksha is also a big force on one side.

But now, their representatives are gone.

A total of three people from this clan were sent, and they all died in Fang Yue's hands.

This clan was delisted and no longer had a say in this negotiation.

"Ahem! In fact, everyone can get back to business! I represent the Chen family of Wanhua Universe! My Chen family always pays attention to harmony. In fact, if you can sit down and discuss it, why bother with swords and guns! "

An old man spoke.

Fang Yue knew that his name was Chen Sitong. The name is very strange, but it is said that it has a lot of origin!

"The Chen family wants to do some business in the Milky Way, but they need a place. It's good to have a place called Aurora Star 3,000 light-years away from the solar system. I heard that this is the territory of the Northern Alliance, I don't know. Can you cut love and borrow our Chen family for a thousand years?"

Chen Sitong is a sixth-layer existence of Saint Realm.

His cultivation base is not high among everyone present.

But the Chen family behind him is a big clan in the Wanhua Universe. There are three powerful people in the virtual fairyland who are sitting in the clan, and they are still alive and have never sat down.

Chen Sitong is not strong, but he represents the Chen family!

He narrowed his eyes and looked at Wang Xingrong, the saint who came here on behalf of the Northern Alliance.

Wang Xingrong looked at Fang Yue and sighed inwardly.

In the past, they were enemies with Fang Yue and even wanted to destroy the earth.

But Fang Yue's strength just surpassed them too much.

A great saint was wiped out as soon as he got it started. This has already deterred too many Xiaoxiao generations. Whether it is the Wanhua Universe or the small forces in the Ten Thousand Worlds Universe that have a little idea about the earth, they are now afraid to speak. Up!

Fang Yue did this, but their Beimeng agreement could not do it.

Now that the Northern Alliance's covenant is soft inside and outside, there is no daring to offend any party in the galaxy with the power of a great saint realm.

However, ceding Aurora Star Wang Xingrong to think about it is extremely painful. This is an extremely important strategic material planet in the Northern Alliance Covenant. Without the Aurora Star, the income of the Northern Covenant will be reduced by at least half. !

It is said that half of it is not much, but it corresponds to the huge base of the Northern Alliance Agreement, which is a staggering number!

Wang Xingrong folded his hands and said, "I don't know what price the Chen family is willing to pay for renting my Aurora Star?"

"How good is a low-grade spirit stone every year?"

Chen Sitong smiled, like a businessman.

"What? A low-grade spirit stone, you, you, you, this is a clear grab!"

Wang Xingrong immediately furious upon hearing this.

Chen Sitong took a sip of the fairy tea on the table and said: "I just said, everyone has something to discuss, why bother with such a big anger? If the Beimeng agreement is not satisfied with my price, I can Double the price again! Two low-grade spirit stones are all right! Your Beimeng agreement must be carefully weighed!"

Chen Sitong's words made Wang Xingrong almost angry.

This price has doubled and only two low-grade spirit stones are there any difference between Mingqiu and this?

Wang Xingrong said angrily: "You members of the Chen family shouldn't be too much. If you push my Beimeng covenant in a hurry, if you ask the ancestors who have been sleeping for many years, you will not be able to eat in the Chen family!"

Wang Xingrong threatened Chen Stone.

Not only was Chen Stone not angry, but he laughed.

"This is something you don't want to sit down and talk about the North League agreement. Since you want to try the force, why don't you stop and show me twice?"

Chen Sitong jumped out.

In the middle of the banquet there is a huge martial arts stage.

This is already designed by Wanhua Universe.

If it is a problem that cannot be solved by negotiation, then use your fists to tell the winner!

"it is good!"

Wang Xingrong is not a good stubble, after all, he is also a powerhouse at the seventh level of the Saint Realm. Years of accumulation and years of experience have allowed him to continuously improve his cultivation. He even speculated that at this rate, within a hundred years, he is sure Able to break through to the eighth level of a saint!

Although this Chen Sitong looks quite fierce, his cultivation level is not as good as himself after all!

Wang Xingrong wondered if he could beat this Chen Sitong half to death, and then spare his life, it would be considered a good deal for the Wang family.

"Make a move! Let me see what the powerhouses in the saint realm in your galaxy have to talk about force with my Chen family!"

Chen Sitong calmly did not seem to care that Wang Xingrong's cultivation level was much higher than him.

Wang Xingrong is also welcome.

He squeezed the Dharma seal and whispered: "All things prosper, the four seasons reincarnate!"

Wang Xingrong's practice turned out to be a rather rare Xingrong Avenue.

This kind of avenue also ranks relatively high in the three thousand avenues, about two to three hundred.

As soon as Xingrong Avenue exited, the environment around Chen Sitong changed.

Green grass sprouts, breaking through the soil, giant trees taking root, prosperous branches and leaves, autumn wind blowing, huge fruits, cold winter hiding snow, the earth is white!

Chen Sitong saw this scene, his heart trembled slightly.

Unexpectedly, in this universe of Ten Thousand Worlds, there are people who have comprehended Xingrong Dao.

This avenue becomes stronger and stronger as it goes along. If you cultivate to the fifth level, you can even change the world in one thought. Even in the prime of life, you will become a twilight old man under the influence of Xingrong Avenue.

But fortunately, Wang Xingrong's prosperous avenue did not have a deep comprehension. Although it could change the surrounding environment, it still did not affect his body, who was also a saint!

"One thought is eternal, and the world will be fixed!"

The Tao of Chen Sitong specifically restrains Xingrong Avenue.

He took the Eternal Avenue, ranking in the top 100 among the Three Thousand Avenues.

Eternal Avenue restrains Xingrong Avenue.

Xingrong Avenue takes the number of paths that all things change, while Eternal Avenue is the same, and everything will be eternal.

Chen Sitong's Tao was displayed, and the surrounding four seasons disappeared.

Wang Xingrong couldn't help spitting out old blood.

His way was deciphered by others, and he himself suffered a serious backlash.

"Do the saints in this galaxy have this ability? I advise you to surrender obediently and become slaves of our Wanhua Universe! Otherwise, wait until we kill them and leave none, all the corpses will become sacrifices. You don't even have the qualifications for reincarnation anymore!"

Chen Sitong said provocatively.

The purpose of his attack this time was not just to kill a little Wang Xingrong or to get the aurora star.

To be honest, the Aurora Star may be a baby bump in the eyes of the Northern Alliance.

But in his heart this aurora star is just a dispensable icing on the cake.

As strong as the Chen family, fighting in all directions, what is it?

His purpose this time was to provoke Wang Xingrong to let him take action, and then crush him to death in a way that made Wang Xingrong the most desperate.

Before the shot, Chen Sitong had already studied Wang Xingrong's principles.

He has full certainty that he can crack Xingrong Avenue, so he will be invited to fight.

However, this knew that Gui knew that when he really saw it just now, there was still a shock in his heart.

The Tao was broken, and Wang Xingrong's greatest reliance disappeared.

However, Wang Xingrong was not desperate or discouraged.

Instead, he laughed and said, "Does Wanhua Universe look down on the practitioners in our galaxy? But I alone cannot represent the thousands of practitioners in this galaxy, but as a practitioner of the Milky Way galaxy One of them, I want to reserve the last dignity for the practitioners in the galaxy!"

"I have a trick that I enlightened hundreds of years ago, but I have never used it! Now that you are here, try my trick!"

Wang Xingrong seemed to have made up his mind to make a major decision.

"Everlasting prosperity, Fanghua for a moment! Chen Sitong, take it!"

There is no knife in Wang Xingrong's hand.

But the thousands of fallen leaves in the void appeared as a yellow road.

The fallen leaves are yellow and exhausted.

Therefore, Wang Xingrong's knife was also withered and yellow. He raised the knife in his hand and chopped it down silently.

Knife shadows are scattered.

Chen Sitong's hair exploded, and he gave birth to an instinctive threat.

Using his magical powers, he summoned a golden shield in front of him to resist.

But when the deciduous knife fell on his shield, the deciduous knife disappeared by itself!

The fallen leaves were floating around Chen Sitong's body.

Chen Sitong felt vain and weakness.

Strands of white hair grew from his temples.

A trace of panic filled Chen Sitong's heart.

"What kind of trick is this? Why do I feel that my lifespan is shortened!"

Practitioners change their fate against the sky in order to increase longevity and achieve longevity.

However, this Wang Xingrong actually fell with a knife, at least cutting off his thousand-year lifespan. How can this prevent him from panic?

### **Chapter 1753: Sad song**

Pieces of withered leaves fell, and withered.

Wang Xingrong's sideburns also gave birth to silver threads.

He had bleeding from the corners of his mouth, and he obviously paid a great price.

"How about this magical power? Cut it down with a single knife, and drop your thousand-year life!"

Although Wang Xingrong received a strong backlash, his eyes became brighter.

Chen Sitong's breathing also became a little heavy.

"Wound the enemy a thousand, and hurt yourself eight hundred! Wang Xingrong, you have cultivated the Tao for thousands of years and become holy! Is it worthwhile to perform such tricks that hurt others and harm yourself for the sake of so-called face loss?"

Chen Sitong looked at Wang Xingrong, there was no scorn in his eyes.

Just now, Wang Xingrong's cut has won his respect.

This knife is close to Tao, almost without solution. Can only resist, but cannot resist!

There are not many people who can perform such a sword, even if they are among the powerhouses of the Wanhua Universe Saint level!

With blood in his mouth, Wang Xingrong smiled sorrowfully: "Worthy! What's not worth it! The North League covenant, give birth to me, raise me, and nurture me. All my glory today is given to me by the North League covenant! Now, I To kill you desperately, but to return to them what the Beimeng agreement gave me! Raise soldiers for a thousand days and use them for a while! The Beimeng agreement, I win honor for you!"

Wang Xingrong laughed, comfortable and comforted.

However, Fang Yue saw a hint of heroism in Wang Xingrong's body!

"Come again!"

Infused with Wang Xingrong's spirit, he looked at Chen Sitong again, holding a virtual left hand, and another deciduous knife appeared!

"The reincarnation of the four seasons, cut through the ages!"

At a moment, Wang Xingrong had forgotten his life and death, and had no distractions.

Suddenly, his realm actually broke through!

It's a pity that he has already made the determination to die, even if he breaks through, it is impossible to reach the level of the Great Saint Realm!

"One thought will be eternal, the battle will turn and the stars will change, the sea is dry and the rocks are rotten, my heart will not change!"

Chen Sitong was not afraid.

He shouted loudly!

He displayed all the eternal avenues he had understood, forming an eternal field around his body!

He wants to use his own thoughts to settle for eternity!

To resist Wang Xingrong's knife with eternity.

"This Chen Stone lost!"

Although he has not seen the result, Fang Yue has already judged the result.

"Why?"

Xu Ziling took the initiative to ask Fang Yue.

Dao restrains each other, and both Chen Sitong and Wang Xingrong are the arrogances of the saints.

Although Wang Xingrong is better in cultivation, Chen Sitong's understanding of the law is even more profound!

"At this time, Wang Xingrong has abandoned everything and immersed himself in the knife he was about to slash, and Chen Sitong still has some reservations, and he has pride in his heart. He is not looking for death for what?"

Although Fang Yue is inferior to Xu Ziling in terms of cultivation level.

But the understanding of the spiritual will to fight is far beyond the average practitioner!

Sure enough, Wang Xingrong shot again, and the fallen leaves all over the sky became denser, and the ink almost did not enter.

Chen Stone's eternal realm was fragmented every inch, so it was so vulnerable!

"No!" Chen Sitong roared loudly.

But his voice was gradually drowned in the fallen leaves.

Silver silk roots, dye black hair like frost.

Layers on the face are stacked, like a thousand trenches!

The qi and blood in Chen Sitong's body were withered, and his lifespan of two thousand years was cut off in a short time.

At the same time, Wang Xingrong's hair became gray, and there were more crow's feet in the corners of his eyes!

Wang Xingrong laughed boldly: "My Beimeng covenant must not be humiliated!"

Chen Sitong was already at the time when the oil was exhausted and the lamp ran out. When he was young, he used many taboo techniques to hurt himself to his original life! The number of his lifespan was originally not much left, but now he has been cut off by Wang Xingrong, which is even worse.

Chen Sitong's life has come to an end.

He glanced at Wang Xingrong, then fell to the sky and passed out.

Wang Xingrong's back rickets slightly, showing the vicissitudes of life.

"I, Wang Xingrong, again, who of the saints here is willing to fight me?"

Wang Xingrong's figure is not tall, but now it is a little short because of his rickets.

But in the eyes of all living beings, when they look at Wang Xingrong, there is a trace of awe in them!

"Cough, cough, cough! My Wanhua Universe hosted this banquet originally to let the powerhouses of the galaxy and my Wanhua Universe have a discussion and exchange! Now, this Wang Xingrong has issued a challenge, how can it be impossible in my Wanhua Universe? People fight!"

Xu Ziling spoke, his fingers twitched slightly on his chair.

Are they shameless?

Killed by the people of the Milky Way in your own territory!

Although this Wang Xingrong is respectable, they also find a place to return.

"Subordinate Yuan and Wang Xingrong have a battle!"

Xu Ziling sat down, and a big man at the pinnacle of the saint slowly walked out, his hands clasping the sledgehammer tightly.

A face of flesh, fierce and evil!

"Okay! Chen Kui, you are the one to fight! You are a member of the Chen family, so revenge for Chen Sitong is right!"

The big man went out to fight, leaving Xu Ziling's heart at ease.

Chen Kui played, and Wang Xingrong at the moment was already a little old.

"Dare to fight?"

Chen Kui provocatively said to Wang Xingrong.

"war!"

If Wang Xingrong didn't say anything, he was gathering the situation in his hands.

At this moment, Wang Xingrong's spirit had reached the peak. Although his origin was severely injured and his lifespan was damaged, he broke through himself when he defeated Chen Sitong.

Chen Kui grinned: "I practice the way of greedy wolves, and greedy wolves is one of the stars! It contains boundless mana! My pair of giant hammers is also a magic weapon of the great sacred realm. If you want to give up It's too late! I don't think you dare to be talented, and you also gave birth to the love of talent. If you can kneel down and kowtow to me three times to admit your mistakes, and later join my Chen family, I can call the shots and spare your life."

Chen Kui's words are powerful.

Wang Xingrong closed his eyes.

"From the moment I stand on this ring, I have forgotten my life and death. I only ask for a battle to defend my dignity for the Northern Alliance!"

The fallen leaves spinning around Wang Xingrong's body accelerated.

This entire ring also seems to have ups and downs.

Fang Yue glanced at Wang Xingrong, also showing compassion and love for talent.

Unfortunately, he is a member of the Northern Alliance.

Fang Yue hesitated, but in the end he didn't make a move.

There are heroes in every force.

But someone else's hero is not his hero!

What Wang Xingrong defends is the agreement of the Northern Alliance, and what he defends is the earth.

Tao is different, not conspiracy.

Fang Yue watched Wang Xingrong burn out the last trace of his own roots and performed the final lore.

"I know that I will be defeated in this battle, and I am inferior to you no matter the way or the realm! But even so, I have to take action. This is my last understanding of Xingrong Avenue-Eternal Winter!"

Wang Xingrong shot again, his hair was all white, and all the vitality in his body flowed to the rotating dead leaves.

He burned out his last trace of strength to cause the last trauma to Chen Kui!

The dead leaves were sluggish, and the wind was bitter.

Winter is coming, frozen for thousands of miles!

Chen Kui grinned: "The same trick dealt with Chen Sitong's trash, but it can't affect me the slightest! My way is greedy wolves, stars, immortal stars, sitting and watching the clouds and clouds, the flowers bloom and fall!"

Standing among the dead leaves, Chen Kui showed the light of stars around his body.

When the dead leaves fall, they all become powdery.

In the end, it did not cause any harm to Chen Kui.

But Wang Xingrong exhausted his own origin, his body turned into the finest particles in place, and dispersed with the wind.

Before he died, he looked back in the direction of the Northern Alliance with nostalgia.

After that, Wang Xingrong was completely dusty, and dust returned!

Death in battle is the best ending for the hero.

Such a sentence suddenly appeared in Fang Yue's mind for unknown reasons.

He didn't understand before.

Get it now.

For Wang Xingrong, the obscurity at home is perhaps the greatest sorrow!

"Who will fight?"

Wang Xingrong's life and death are tragic.

But it's just an episode in this banquet!

Chen Kui stood on the ring, watching from all directions, waiting for the people of the galaxy to challenge!

"I come!"

Fang Yue stepped onto the ring.

I can't say it's heart-warming, but at the moment Wang Xingrong died, there was still an inexplicable shock in his heart.

"Fang Yue?!"

After seeing Fang Yue, Chen Kui was not afraid, but showed a cruel smile.

"I know that you can kill the strong of the Great Sage Realm, but this does not mean that you have the power of the Great Sage Realm! Although your physical body is strong and comparable to the Great Sage, I can suppress it with monstrous strength. You! If the stars are immortal, I will be immortal. I don't believe you can break the stars and defeat me!"

Chen Kui's heart became more and more excited.

The stronger this Fang Yue is, the greater the credit after killing him!

A Tianjiao who can kill the Great Sage's Yin-Yang realm level, if he is beheaded, Chen Kui will be completely famous in the Wanhua Universe in the future.

"Just you? Jumping beam clown!"

Fang Yue pursed his lips and chuckled.

"The greedy wolf is just one of the hundred thousand trails! If it weren't for Wang Xingrong's no longer prosperous, how could you kill him so easily!"

Fang Yue didn't pay attention to Chen Kui.

Because Chen Kui's path was wrong from the beginning!

The trail is not as good as the avenue, and the avenue is not as good as the heaven.

This is a well-known thing.

At the same realm, the avenue can completely crush the trail.

What if Chen Kui had cultivated the wolf-greedy trail to the sixth level?

"Huh, Huangkou boy, how do you know that I am greedy for wolves? Even when Wang Xingrong is in his heyday, I kill him, it is as easy as squeezing a baby chicken!"

Chen Kui said and shot at the same time.

He waved the sledgehammer in his hand.

Above the head, the brilliance of stars fell down!

The ten thousand ray of stars' brilliance fell on Fang Yue's body, and these stars' brilliance seemed to be powerful!

Fang Yue was oppressed, and his breathing became rapid.

"How? Fang Yue, can you bear my greedy power?"

Chen Kui almost had the smile of a winner.

And Fang Yue grinned.

"The power of the stars? Do you know what the power of the stars is?"

Fang Yue roared, all the power of the stars had been absorbed by his body!

Chen Kui was slightly taken aback.

"How is this possible? This power of greed is the result of my practice, how can it be absorbed by you?"

#### **Chapter 1754: Fang Yue's conditions**

"Because what I understand is the Avenue of Stars, and your greedy trail is just a trivial branch of the Avenue of Stars!"

Fang Yue smiled lightly, with a hint of sadness in his smile.

He felt worthless for Wang Xingrong to die in the hands of such an arrogant person.

"Avenue of Stars?!"

Chen Kui's face changed immediately upon hearing Fang Yue's words.

Of course he knew that what he was most afraid of was the Avenue of Stars, especially the kind that had an extremely high level of understanding of the Avenue of Stars.

But didn't Fang Yue comprehend space and heaven?

When did it become the Avenue of Stars?

A person generally practises one kind of Taoism, and it is enough to surpass the sutras. However, it is extremely sad to use limited time and limited life to practice many kinds of Taoism. Each kind of Taoism is commonplace. thing!

However, Fang Yue seems to have broken this common sense!

Fang Yue has cultivated the Avenue of Stars to an extremely high level, absorbing all the rivers, and directly integrating Chen Kui's greedy wolf trail.

It's like a son meets father.

Chen Kui really wanted to do something with Fang Yue, don't think about it, the final result was definitely being beaten by Fang Yue and called father.

Chen Kui's face changed and changed.

He had no power to greedy wolves, and absolutely no capital to suppress Fang Yue.

The saints who apply the principles of the Tao and the saints who do not apply the principles of Taoism are not at all a concept!

"Fang Yue, can I admit defeat?"

Chen Kui was very straightforward.

Knowing that he will die, there is still a battle.

He doesn't have the courage of Wang Xingrong's generosity.

Fang Yue coldly snorted: "Want to go? It's not that easy. Didn't you just say you wanted to kill me? Why did you want to slip away when you saw that you couldn't beat me? What about the backbone of your Wanhua Universe Saint Realm powerhouse? "

Fang Yue didn't plan to let Chen Kui go.

I finally grabbed a soft persimmon, and it was not good to pinch it.

"Fang Yue, what do you want?"

There was a thin anger in Xu Ziling's voice.

Partly because Fang Yue didn't let go, but more because Chen Kui was so spineless.

The face of Wanhua Universe was completely lost by Chen Kui. But although Chen Kui was ashamed, he was still saved.

After all, this Chen Kui represents the Chen family, and the Chen family is not weaker than their Xu family!

If this Chen Kui really died here, ruining a strong man in the Chen family's sage realm. Although the Chen family took care of their friendship with the Xu family and didn't say anything, they would definitely be upset in their heart, and maybe they would The Xu family has some unnecessary friction.

"Fang Yue, state your conditions, if I can meet them, try my best to meet them!"

Xu Ziling spoke.

This is what Fang Yue waited for.

This stupid Chen Kui can kill at any time, but this kind of negotiation opportunity is rare!

"Then what conditions do you want to offer?"

Xu Ziling is a cheerful person, too lazy to interact with Fang Yue.

Whether this price is agreed or not actually depends on the intention of the Chen family. After all, this Chen Kui belongs to the Xu family. How can his life and death be determined by himself?

"Help me kill the three saints, from the galaxy! I haven't figured out who it is for the time being! As long as you agree to this condition, I will immediately promise you to let Chen Kui go. If you don't agree, I won't kill Chen Kui. , Sell directly to the people in the sea of reincarnation, if you think they will offer lower terms than mine, you can also find them to redeem them!"

After Fang Yue finished speaking, Xu Ziling didn't have much reaction. Fang Yue offered the conditions and they could agree. Anyway, they killed the saints in the galaxy. They killed the saints in the galaxy. The powerhouse of the saint level left in the galaxy!

"it is good!"

Xu Ziling readily agreed to Fang Yue's terms. As for going to the Sea of Reincarnation to redeem people, what a joke.

Before the Wanhua Universe invaded the Ten Thousand Realms Universe, they actually did a detailed investigation, and they all knew about the major forces in the Ten Thousand Realms Universe.

The Samsara Sea is the largest assassin organization in the universe of Ten Thousand Worlds, and its overall strength is stronger than a hundred galaxies combined.

And they are famous lions who speak loudly. If they want to redeem Chen Kui, they will at least pay the price of a great saint.

"it is good!"

Fang Yue handed over Chen Kui.

And at this time, it was the turn of the representatives of the great forces in the galaxy that had offended Fang Yue.

Fang Yue had countless enemies, and everyone wanted to strangle him.

But this Fang Yue couldn't kill, and he was still getting stronger.

Who are Fang Yue's conditions for?

Are they not yet?

Fang Yue's purpose is to use this Wanhua Universe to form a deterrent. If anyone dares to provoke me, I will let Wanhua Universe kill you!

Fang Yue's move is really shameless.

But this trick is indeed effective.

The saints are green, they had already discussed it, and in this banquet they pointed out Fang Yue.

just now?

Who dares to jump out, Fang Yue doesn't kill him, Wanhua Universe must kill them too!

Fang Yueshi Shiran returned to his seat.

"Everyone continues to eat and drink! Don't look at me, I just showed my ugliness, just now I was just trying to make a fortune. Who wants to learn from the powerful guys of the Wanhua Universe? The lines of the system are roughly similar, but they have a deeper understanding of the principles of Tao. This stone of another mountain can be used to attack jade and maybe fight once, which can inspire your hearts and break the bottleneck of cultivation?"

Fang Yue said carelessly.

Encourage and encourage these powerful forces to send powerful men of the saint realm to power.

Those representatives have more toothaches, can't Fang Yue stop?

Fang Yue didn't count the battle just now, he was simply a strange thing, a strange thing, and the level of combat power could not be measured by realm!

Speaking of it, Wang Xingrong is the real touchstone, and he can represent the true level of the powerful in the universe!

To be honest, if they are fighting in the same realm, they really can't do it, these powerhouses of the Wanhua Universe.

If you come to power, you will wait for death.

Although everyone here is a big family, but the saints of anyone's family are baby bumps, and they won't use it as cannon fodder.

Fang Yue glanced at the representatives of the major forces in the silent galaxy, and said regretfully: "If you miss this opportunity, it will be a pity. In the future, you will go to war with Wanhua Universe! This is just to test Wanhua Universe. The strong have the opportunity to find their real strength and find their weaknesses. Maybe you will be able to lose a lot less in future wars!"

Fang Yue was still frantically testing the bottom line of these bigwigs.

The big brothers are about to hate Fang Yue in their hearts.

Whoever takes action on this occasion is tantamount to offending Wanhua Universe. When the time comes, the army of Wanhua Universe will invade, and they will come to the door as soon as possible!

Although there are no eggs under this covering nest, is it not fragrant to die later than to die earlier?

Seeing that his instigation was invalid, Fang Yue stopped talking.

In fact, everything he said just now came from the heart.

Unfortunately, these people are too careful.

Fang Yue has no regrets, he had already expected this result!

Fang Yue didn't say anything else, because his table legs were about to be gnawed off by Kongkong.

When Kong Kong came here, his appetite was particularly good.

However, this Wanhua Universe is indeed atmospheric, and even the tables where they put their dishes are made of gold wire and silver wood.

This gold thread, silver wood, is a rather precious material that can be used to make magical implements at the master level.

Unexpectedly, this Wanhua Universe used this precious material to make tables, chairs and benches, and its luxury is visible.

Kongkong saw the golden silk and silver wood and immediately gnawed frantically.

In a few moments, Fang Yue's table and everything were gone.

Fang Yue couldn't help complaining: "Does this Wanhua Universe's food do not care about it? Look at the empty and hungry table in my house!"

Fang Yue's voice fell.

Three black lines appeared on Xu Ziling's forehead.

I wiped it, your house gnawed our table empty, what haven't we said yet?

You turn around and bite us, is there any reason for this? Is there any king?

"Change, change! Bring Fang Yue the meal again, and give him another set on the table."

Can't afford to provoke, can't we not hide?

Xu Ziling ordered to go down, and soon, the maid of Wanhua Universe delivered a brand new table and food.

Kongkong jumped into Fang Yue's arms, and it turned into a well-behaved little black cat.

As for when this Kongkong knew how to change, Fang Yue didn't know either.

Anyway, I have understood the means of change since I came to the world in nothing.

A pair of empty eyes kept glancing at the whole banquet.

The table, the food, and the people attending the banquet are so tempting!

Kongkong's eyes fell on whoever shivered.

"Fang Yue, can you stop letting your pet look around?"

An old man next to Fang Yue reprimanded in a low voice.

Although he is at the level of the leader, but he is a person of the Galaxy Star Alliance, it is expected that Fang Yue will not turn his face.

Fang Yue couldn't help being stunned when he heard this.

Then he smiled brightly and said: "What's wrong with you in my empty house? It's so pitiful, and I can't eat enough for a banquet. What's wrong with you?"

The old man was taken aback.

Is this Fang Yue so direct?

"Or, you don't want to eat the food on the table, just let my family eat it empty, saving waste! You people from the Galaxy Alliance won't even be reluctant to even this thing!"

The old man's stomach full of bitterness, this Galaxy Star Alliance tree is a big draw, originally thought it was a golden sign, but unexpectedly it became the reason for being run by Fang Yue!

"This... why doesn't your pet eat what's on your table?"

The old man looked at the dazzling array of dishes on Fang Yue's table and couldn't help but accuse him.

"That's what I eat, so naturally I can't give it to Kongkong!"

Fang Yue said rationally.

The old man just wanted to fight back, Kongkong had already meowed, jumped onto the old man's table and started to eat haese!

Soon, the food on the old man's table was swept away by Kongkong.

After eating these meals, Kong Kong was still not satisfied, it even gnawed the table in front of the old man and the chair under his butt!

The old man was stunned, what should I do if the chair of his table is gone?

Is he standing while others are sitting?

Is he watching others eating?

He obviously came to the banquet, but in a blink of an eye, he became a waiter?

Chapter 1755: Xu Ziling's Compromise

"Naughty animal, how dare you be so arrogant in front of the old man, the old man is going to kill you, in order to follow your example!"

The old man roared, but he also glanced at Fang Yue.

He was worried that Fang Yue would be a hindrance, protect his shortcomings, and block himself.

However, he did not expect that Fang Yue not only stopped, but the old \*\*\*\* beside him said: "Kill, kill! If you have the ability to kill him, I will definitely not intervene in the middle to stop!"

Fang Yue looked at the old man with a smile.

The old man's heart gave birth to a faint hunch.

What does Fang Yue mean?

He means, he can't even do his pets?

The old man came back to his senses, and a soft cat's tail was already drawn toward his cheek like a whip.

With a snap, the old man was swept away by his empty tail.

Kongkong is very smart, he can understand the conversation between Fang Yue and the old man.

Dare to stop me from eating delicious food, I can't kill you, Xiaoye!

Kongkong's tail flew away a strong master at the master level, causing the saints present to give birth to a trace of sorrow again.

Among them, there are many experts at the master level, but they can't even do Fang Yue's pets!

As for the people of the Galaxy Star Alliance, they have no face to avenge the old man!

The powerhouses of their Galaxy Star Alliance were so useless, even the food was robbed by Fang Yue's pet, and people were also taken away by that pet.

This is losing the face of the Galaxy Star Alliance!

I do not know him.

I do not know him!

The hearts of the representatives of the Galaxy Alliance were silently muttering.

"Meow!"

Kongkong whispered again.

It had eaten the old man's dishes and table, and then, it looked at the neighbor.

Xu Ziling quickly stopped.

According to Fang Yue and this Kongkong's character, it is estimated that if they don't stop them, they can sweep a lot!

Then he will have a \*\*\*\* banquet.

Just become Fang Yue's private performance meeting!

Therefore, Xu Ziling said quickly: "This Kongkong is really a strange creature. Since he can repel Mr. An Sheng, then give Mr. An Sheng's deeds to Kong Kong!"

The guy who was flew by Kongkong's tail is called An Sheng!

His name is An Sheng, but this person doesn't know An Sheng at all!

In this way, Kong Kong became a distinguished guest of this banquet.

It sat at the same banquet with the saints and the great saints.

Some saints and great saints feel that it is not a taste in their hearts.

They have held a banquet for so many years is not the focus of much attention.

It's good now, even a wild cat has robbed them of the limelight!

However, they looked at Fang Yue with fear, but in the end they didn't say anything, this was a lunatic.

Who provokes him is unlucky.

This Fang Yue will kill sooner or later, but now is still not the most suitable opportunity to deal with him!

At this time, Kongkong was already eating happily.

In order to prevent Kongkong from eating up his plate and robbing others, Xu Ziling decided to give Fang Yue and Kongkong unlimited food.

For a while, the two men began to work hard.

It didn't stir up any more turmoil.

Until this time, Xu Ziling wiped off his sweat.

He said again: "The previous discussion, let's continue! In the future, the territories of these races should be respected by the strong! Divide the territories of the land according to the number of strong men above the Yin and Yang level in the clan! This is a planet that does not enter the stream level, for the time being Not to mention, the resources and locations in it are all unsatisfactory! These second-class and above planetary realms are divided according to the number of strong ones. For example, the strong ones in the Yin and Yang realm can correspond to the share of 500 acres, while the master realm The strong at the level can correspond to a share of 10,000 mu! The strong has more resources, and the weak have few resources. The too weak ethnic groups are simply eliminated or become slaves. This is the best ethnic development mechanism."

Xu Ziling's words caused many people to fall into silence.

Although this kind of proposal is obviously beneficial to Wanhua Universe, if an agreement is reached, it can allow them to preserve their strength and not confront Wanhua Universe. It is not a bad way!

"In this case, the earth is still owned by us earthlings, because the earth is an influent planet in the evaluation of the Milky Way galaxy!"

Fang Yue suddenly spoke, and Xu Ziling was shocked by his words.

Damn it?

Who especially evaluated the earth's influx?

This is clearly speaking nonsense with your eyes open, OK?

How strong the earth is!

You are enough.

The strong of the Saint Realm will kill if they want to kill, even the Great Saint will fear you three points.

It is said that behind you, there are strong people in the real wonderland.

Isn't this a fourth- and fifth-class civilization not as strong as you?

"Fang Yue, can you not be so shameless, the earth is not influx!"

Xu Ziling hadn't spoken yet, and Mr. Liu Chongyun beside him was angry.

It's not that he is angry, but what Fang Yue said is so irritating!

In order to avoid the result of being divided, is he like this?

"Liu Chongyun, are you looking for death? It was because you ran fast that day that let you escape. If I want to kill you, believe it or not, let you die now?"

Fang Yue looked like a street gangster. He threatened Liu Chongyun on the spot.

A junior in the Yin-Yang realm threatened a strong man in the great holy realm.

This kind of operation is also taken aback by others!

This Fang Yue is crazy!

A group of people eating melons are watching the show.

Waiting for Liu Chongyun's crazy revenge.

But before Liu Chongyun took the shot, he had already retreated.

Can not be done!

Can't do it!

This Fang Yue body refining was originally a hob meat that could not be beaten with a hammer.

And there are real immortals behind him!

What if Master Zhenxian shot him and hacked him to death with two swords?

Did Wanhua Universe chase him a martyr?

impossible!

Liu Chongyun's withdrawal was beyond everyone's expectations!

The people who eat melons have seen a different plot turn than they imagined.

For a while, they and their little friends were shocked!

Wait, the scene just now plays back.

What is Fang Yue talking about?

Luckily Liu Chongyun ran fast that day?

This means that Fang Yue has already played against Liu Chongyun, and it seems that Fang Yue has won?

Damn it!

Crazy!

The news is too big.

Fang Yue has beaten even the powerhouses of the Great Saint Realm level.

Although, people had also secretly classified Fang Yue into the battle power level of the Great Sacred Realm.

Think that his power level should be comparable to the Great Sage.

But being comparable and being able to do it are completely different things, OK!

"No, the earth where Fang Yue is located is indeed an immobile civilization. A few years ago, this earth was still dominated by low-level scientific and technological civilization, and even nuclear energy civilization has never really entered into it, but with the later aura Recovery, and some powerful people from ancient times waking up one after another, this earth is truly rising!"

"In the Galaxy Alliance, the rating between the non-streaming civilization and the star civilization is once every 100 years! And in this process, there is no civilization rating at all, so Fang Yue used the previous civilization rating, that is to say, the earth It's an influential civilized system!"

Ye Wushuang, a big sage-level boss in the Galaxy Star League, helped Fang Yue speak.

This time, many heavyweights came to the Galaxy Star Alliance.

Ye Wushuang is just one of them, there are three faces that Fang Yue doesn't recognize, and Kang Yue, a classmate Fang Yue is quite familiar with!

These are all powerhouses at the Great Sacred Realm level, being able to call the wind and rain in the galaxy star alliance, they were once the masters of the entire galaxy.

However, although they have fallen into the deep pool now, their respective strengths are still considerable!

Fang Yue did not speak.

If someone speaks for him, he doesn't have to continue to emphasize.

Xu Ziling's egg hurts.

This tossing for a long time, feelings and the earth are nothing!

Now, in fact, what Xu Ziling wants most is the earth.

Because the distance between the Earth and Mars is too close, Wanhua Universe has determined that the Earth will be their first goal to conquer. This place where the tiger lies, how can anyone sleep peacefully.

"Actually, if we follow the division method of the Wanhua Universe, our earth can still get a lot of territories! Because although our earth is not strong, there are still a lot of strong people with super-yin-yang level! For example, it is one. A cultivator at the Yin and Yang level! And my sister seems to have reached the level of the leader of the leader recently!"

Fang Yue smiled shyly.

Everyone shuddered.

Are you showing off?

Isn't it cool for a yin-yang state to sling a saint?

Everyone was slandering in their hearts, and Fang Yue was too low-key.

And can your strength be calculated based on the Yin-Yang level?

It is clearly to be measured by the Great Sage!

"This...Which one of you agrees to the proposal we made just now?"

Xu Ziling spoke.

All the saints under him, the great saint secretly agreed with Xu Ziling's statement.

Although in this case, part of the territory will be lost, at least they can guarantee their rights to survive!

If you disagree, the strong man in the Wanhua Universe will simply kill the Quartet, and none of them will survive by then!

But at this time they need a leader to stand up.

Although they knew that agreeing to Xu Ziling's request and fulfilling the request of Wanhua Universe was the best choice and the most correct expedient now.

But if this matter is written in history, it would be very ugly!

Insult the country?

Appeasement policy?

Anyway, it's a matter of stinks for thousands of years.

But this kind of thing is often because there are too many people involved, so the scolding is the leader!

Everyone, you look at me, I look at you, no one wants to bear this eternal infamy.

But at this moment.

A voice sounded.

"I agree!"

Fang Yue suddenly spoke, and everyone was overjoyed.

This silly boy finally did a good deed!

With Fang Yue taking the lead, the next thing they agreed to was successfully completed!

"I agree, I agree too!"

Everyone spoke and agreed to the treaty.

Xu Ziling nodded with satisfaction. Those who know the current affairs are outstanding, and the representatives of the forces of the Galaxy Star Alliance are indeed unbalanced!

### **Chapter 1756: Ape Thirteen and Little Iron**

However, this person is not in harmony!

Only if the hearts of the people are uneven, these talents are easy to use!

Xu Ziling was secretly happy that he had completed more than half of the banquet.

This process is so smooth that he is a little unimaginable!

at this time.

Fang Yue spoke again!

"If you put it this way, wouldn't my earth make a profit? There are a large population in my earth. There are probably three to five hundred strong people in the saint realm. There are no. 70 or 80 in the great sacred realm. There are also many strong people in the virtual fairy realm. If you divide the index with such a large population, at least you can get another three or five planets!"

Fang Yue smirked with his fingers.

The people around were stunned.

It seems something is wrong!

The others are paying indemnities everywhere, but Fang Yue seems to be collecting rent!

The problem is fine.

But the earth is an influent civilization, so their original territory does not need to be let out.

And the strong on earth are really terrifying!

It is not clear how much territory the earth can divide into the galaxy in the end, but perhaps this time the earth will be one of the beneficiaries of this treaty!

It turns out that Fang Yue is not stupid. He didn't jump out to block the gun. He jumped out to agree after seeing the benefits, not because he was afraid of the strength of Wanhua Universe!

"Since everyone agrees to this treaty, then I won't say much! Wanhua Universe invites everyone to this banquet. In fact, one of the most important purposes is this! As for the second purpose, I hope to give everyone A platform to learn from each other! Of course, there can be corresponding bets in the process of learning to add fun!"

Xu Ziling spoke again.

He smiled face to face.

This is the beginning of negotiations.

This bet is the trade-off and exchange of interests between them.

"My golden great ape clan has always admired all the saints on earth. I don't know if there is a strong man in the saint realm on the earth who is willing to compare my golden great ape clan with the ape thirteen?"

A golden great ape came out slowly, and his blood poured down like a waterfall!

This is a strong man of the older generation in the golden great ape clan, and he has rich combat experience!

"The Golden Great Apes?"

Fang Yue stared at the thirteen apes. They should be the group that had just recovered from their deep sleep.

Because the golden great apes of the same era were almost killed by Fang Yue's pit.

As soon as this golden great ape clan appeared, they named the saints of the earth by name and surname. Obviously, they wanted to take revenge on the earth, and it was necessary for the earth to make a fool of yourself!

Fang Yue didn't expect the golden great apes and the old ancestors to be born. If he knew it, he would lift the tombs of these old things before they were born.

"I don't know what kind of bet your golden great apes can make?"

Fang Yue narrowed his eyes slightly, and said to the golden giant ape.

If there are not enough benefits, he will not agree.

This fight is still in vain?

Not to mention risking your life!

"I have tens of billions of high-grade spirit stones here. Is it good to use it as a bet?"

This family of golden great apes deserves the name of gold.

This shot is quite generous!

One opening is ten billion high-grade spirit stones.

Even the powerhouse of Wanhua Universe wants to get on stage for a fight.

This spirit stone has been said to have lost its meaning to the powerhouses above the Saint Realm.

But this number is too big, it is still exciting!

"it is good!"

Fang Yue agreed.

He is about to fight in the ring.

But this time.

A golden great ape stopped Fang Yue, and he cruelly said, "Don't you understand? We want the battle of the strength of the earth at the saint level. Although we believe that you are only stronger than ordinary saints, but you After all, he is not a true saint! It does not meet the challenge of our golden great apes!"

The golden great ape spoke.

Fang Yue couldn't help being stunned.

I rub, and what else is this condition?

This is obviously trying to kill the saint in my earth!

There is a very special situation on the earth now. The strong in the Saint Realm are obviously weak in strength. Although there are a lot of them, the quality is not high. Most of them don't know how many tens of thousands of years they have slept, and they just woke up. .

Their vitality has not yet recovered, and they are much weaker than they were in their heyday.

If they are on the court, encountering this vigorous Yuan Shisan is very likely to be more ill-fortune!

However, he came this time to fight for the face of the earth.

Can't refuse!

Fang Yue rolled his eyes.

Yes!

"To deal with you, why do you need a strong man in the saint realm on my earth to take action! Xiao Tie, go out and kill him!"

Fang Yue beckoned.

Xiao Tie was summoned.

The little iron seemed to have reached the third level of the Saint Realm, and this little iron was the magic weapon that accompanied Fang Yue for the longest time.

Every time Fang Yue grows, Xiao Tie will grow with it.

Today's Xiaotie has become a stand-alone existence!

"Little iron pot? Fang Yue, who do you look down on!"

The golden great apes were furious.

Unexpectedly, Fang Yue actually made a small iron pot.

Even if people are not guys, they want to challenge them. It's just wishful thinking.

"Fang Yue!"

The golden great ape spoke again.

But this time Fang Yue blocked what he was about to say.

"If you can't even beat one of my iron pots, you won't be qualified to challenge the powerhouses in the Saint Realm on my earth!"

Fang Yue's words left the golden giant apes with nothing to say.

"Smash Fang Yue's iron pot!"

The golden great ape said bitterly at Yuan Shisan.

"okay!"

Yuan Shisan did not use any secret techniques, and an iron fist slammed down at Xiaotie.

For an iron pot, even though it is of the Saint level, if you try your best and use the secret method, it will always be a bit invincible!

The iron fist fell.

Xiao Tie dingdong blocked the iron fist.

Xiao Tie's body inherited part of Fang Yue's characteristics.

Nothing else, just fight!

Yuan Shisan saw that a blow could not be achieved, so he raised his fist again.

A layer of faint golden blood on the fist covered it, and surging waves like a river appeared on it.

With one punch down, all rivers meet the sea.

Yuan Shisan wants to smash Xiaotie in the shortest time.

Otherwise, how will the face of his golden great ape clan survive?

Therefore, he used the secret method-Baichuanhuihai, and with the help of the current, he forcibly increased the power of his fist nearly doubled!

The golden blood came to the sky!

Little iron also has no hard resistance.

Layers of the world emerged one after another, this turned out to be Fang Yue's golden bell, thirty-three days!

The golden fist shattered the world from layer to layer.

However, in the process of penetrating the world, the power in the Thirteen Iron Fist of the Ape was reduced layer by layer.

When the thirty-three days were finally broken, the blood of this fist force was also consumed.

Taking advantage of Yuan Shisan's old power was exhausted and new force was not born, Xiao Tie suddenly flew up and hit Yuan Shisan's brain with a pot.

Ape Shisan was so dizzy that he was knocked into a concussion by Xiaotie.

Everyone was shocked at this scene! This Fang Yue is awesome, and his pets are also extraordinary!

Like nothing, like a small iron, although they are all weird and varied, but their strength is not weak!

This ape thirteen has recently been considered famous in this galaxy.

As soon as he debuted, he even killed seven powerful men of the Saint Realm of Wanhua Universe.

In the level of the sage peak, he can be regarded as the existence of the first echelon.

But it is such an unparalleled hero who was beaten by Xiaotie, without even a little temper!

"Are you coming?"

Fang Yue looked at the golden giant ape who had just negotiated with him with a smile.

The face of the golden great ape was green.

This time, the ape thirteen was originally sent to find a place.

However, I didn't expect that Fang Yue's little iron was perverted. When he came on the field, he would crack the attack of Ape Thirteen and put it to waste!

On the other hand, Xiao Tie had beaten Ape Thirteen and lost his temper at all!

"hit!"

How could the golden great ape shyly say surrender.

Their golden great apes only have warriors who stand dead, not cowards who live on their knees!

"Xiao Tie will refine the thirteen apes into a bloodline pill! Although this golden great ape has no brains, but its strength is not weak! If it is refined into a bloodline pill, it should sell well! Maybe in a while Can be sold!"

Fang Yue spoke to Xiao Tie, but his voice was so loud that everyone in the audience could know!

Fang Yue, who gritted his teeth and said: "You are deceiving too much, you are simply deceiving too much, Fang Yue, I will kill you!"

As Yuan Shisan said, he began to take Xiao Tie seriously.

The loss just now was actually an underestimation of the enemy.

He is the existence of the first echelon among the top sages, how could he be defeated so easily?

"Golden Mountain!"

The Ape Shisan gathered slowly, and the shadows of the mountains around his body appeared.

Gradually, the phantoms of these peaks solidified, and then large mountains evolved into the direction of Xiaotie!

Around the small iron, layers of golden bell jars appeared again.

But this time, the golden bell is useless!

Mountain after mountain fell.

The golden bell shattered one after another!

This is the killing style developed by Shape Thirteen, how could it be blocked so easily!

It is impossible for the same move to succeed twice on Yuan Shisan at the same time!

Xiao Tie's figure is illusory.

It turned out that Teleportation appeared behind Yuan Shisan.

"Space Heaven..."

Fang Yue was a little speechless when he saw the tricks of this little iron. He didn't know how many tricks he had learned by stealth!

This is so special that even the space and heaven have been learned.

Could it be that it's floating now, just knocking out a concussion on this ape thirteen just now, and did not take advantage of the victory!

Xiao Tie shot again.

It threw a hammer at Yuan Shisan.

How could Yuan Shisan's head be harder than Xiaotie.

It was knocked out!

Ape Thirteen's body has no head, but after all, he is a strong man in the saint realm. Around his body, a chain of chains lingers in order to make him regenerate and give birth to a head of heart!

"Ape Thirteen is a genius of Tianzong, who has realized the way of life! No matter how severe the injury is, he can be healed, Fang Yue, you despair!"

### **Chapter 1757: Barbarian appearance**

"The Way of Life?!"

Fang Yue looked at the incomparably awkward way of life displayed by Yuan Shisan, as if a college teacher was watching the addition, subtraction, multiplication and division in elementary school.

He really didn't know that the other party only mastered the most superficial part of the path of life, and what he could be proud of.

Don't talk about Fang Yue himself.

Even Xiao Tie's understanding of the way of life is better than this ape thirteen!

Xiao Tie suddenly whistled.

It rose into the sky again.

This time, Xiao Tie did not violently attack, but flew above Yuan Shisan's head!

Ape Thirteen is still using the chain of life to heal his wounds, the phoenix bathes in flames, and Nirvana is reborn!

This is one of his most proud methods.

If you can't beat it, the hammer can't die.

Who will be his opponent.

Yuan Shisan's heart was extremely proud.

But at this time, among the small iron, strips of colorful glow fell down.

Those rays of light enveloped Yuan Shisan's body.

Let Ape Thirteen immobile.

Those chains of order representing the heavenly way of life suddenly became icy chains of life, tightly trapping Yuan Shisan's body.

Deprivation of order!

Everyone present was shocked.

This kind of manifestation will only show that the two understand the same principle, and the realm differs by more than two realms.

Although Yuan Shisan's understanding of the way of life is not too deep.

But he is at least in the second level of the realm of life!

That little iron pot can deprive Yuan Shisan's life heavenly order in order, could it be that this little iron pot can reach the realm above the fourth level of life heavenly path?

The realm of life is rarer than those who understand the realm of space, and most of them are not high.

Even if you are just getting started with the Tao of Life, you can greatly extend your lifespan.

Ordinary practitioners of the Way of Life will be taken away by the people of the Temple of Life, and occasionally some fish that slip through the net will be madly snatched by the powers of the major families and become their guest officials.

The practitioners of the Tao of Life are best at healing injuries, and even the pill that they refine has the effect of prolonging life, but whoever dreams, the Tao of Life that everyone dreams of and wants to understand is turned out to be an ordinary and strange The little iron pot has been comprehended.

And it's still at least the fourth level, which makes everyone feel a bit toothy!

Yuan Shishi struggled hard, but these life chains became more tenacious.

Colorful rays of light bloomed from those chains.

A powerful generation, Yuan Shisan was trapped by this iron chain and died under this chain.

Little Tie took away the corpse of Yuan Shisan. It knew that the corpse at the pinnacle level of the Saint Realm was of great use to Fang Yue.

Xiao Tie obediently returned to Fang Yue's side.

"How is it? Your golden great ape clan warriors can't beat me in a small iron pot on earth. Do you want to send another person to challenge it?"

Fang Yue squinted at the old ape.

The old ape was spurred with anger.

This kid is really disgusting.

Get cheap and sell well.

He raised his fist to beat Fang Yue violently.

But looking at the little iron standing on Fang Yue's shoulder and kneeling and licking Fang Yue, he hesitated.

His strength is not as good as Ape Thirteen. It is estimated that he can only be killed by Xiaotie and go to accompany Ape Thirteen!

In the end, the old man glared at Fang Yue in his hand and left with hatred.

The defeat of the Golden Great Ape clan left everyone speechless.

This Fang Yue is too abnormal!

I don't want to say that I am so powerful, can all the pets with him be able to defeat the powerhouse at the peak of the Saint Realm?

Of course, people with a discerning eye can see that this ape thirteen is actually doing it by himself.

If he really fought against Xiaotie, his real strength might not be as good as Xiaotie.

However, he just took a trick and used the way of life.

This Guan Gong played a big sword in front of him, and then the life order was suppressed by Xiaotie, and he was trapped alive by the iron chain of life!

The death of Ape Thirteen also made many people who want Fang Yue to attack and attack the earth sober.

There are so many weird things on this earth.

They can't even do the small iron pot under Fang Yue's. They really have to consider whether there will be back and forth if they want to rob the earth!

"Yes, not bad! A bit of my generation!"

At this time, a burly man with a black face wrapped in animal skins walked out.

Just now, he drank from a big bowl and got big pieces of meat.

He remained indifferent when the various forces discussed endlessly.

After he was drunk and satiated, he raised his eyes and watched the battle for a while.

The black-faced man patted his bulging belly, burped, and finally slowly stood up from his position.

He was sitting on the seat of a strong person on the sixth level of the leader realm. However, he arrogantly drove away the two people around him and grabbed the food on their tables abruptly!

The two people sitting next to him were also distinguished guests sent by various forces.

But they were beaten by the barbarians without any temper, each with their noses and faces swollen, lying on the ground.

Just now, Fang Yue's Xiao Tie fought against Yuan Shisan, causing people to focus their attention on Xiao Tie and Yuan Shisan.

But at this time, they discovered that there was still a fierce man here.

He stood up, the blood in his body was like a vast ocean, and the boundless red brilliance exuded bursts of red brilliance, which actually forced everyone around him to retreat.

"Body refiner!"

Some people marveled.

The body refining line is fairly common among low-end practitioners, but when it comes to the level of the leader realm, which is the saint realm, there are already very few people refining the body.

In this era, Qi refining is orthodox, and there are hundreds of thousands of methods, and you can choose at will.

The practice of body refiners is scarce, and requires great perseverance and courage. Of course, body refinement is not without the benefits of body training. This kind of practice does not require any talents and aptitudes, and only requires hard work. Achievement!

However, the resources required for body refining are surprisingly difficult for ordinary families and individuals to afford!

At the same level, the resources that a body refiner needs to consume are at least several times or even ten times that of a practitioner in other directions!

And in this era, resources for spiritual practice are scarce.

To train ten Qi refiners and train one body refiner, most families will naturally choose the former.

The barbarian stepped out of his smile openly.

"Are people of this era with this strength? It really disappoints me! The golden great ape clan are not? Back then, you were not wild monkeys in the mountains and forests, relying on the protection of the

tiger clan to survive forever. You dare to run out to rule the roost, the tiger is really not at home and the monkey is the king!"

The barbarian was quite ruthless.

"My clan is born and needs territory. Do you have a clan of golden great apes dare to gamble with me?"

The barbarian stepped onto the ring, every step he fell would make the earth tremble, and the barbarian carried a huge mace on his shoulder. This mace was honed by the white bones of the ancient fierce!

The mace is very gloomy, with the resentment of countless creatures lingering on it.

However, these resentments were suppressed by the powerful blood inside the barbarian!

Let the resentment and the evil spirit on the mace dare not make troubles, only to help the evil, obey the savages.

The faces of the golden great apes are dull.

They were uncovered?

In fact, back then, when the golden great ape tribe was just emerging, there was indeed such a history that people did not dare to look directly at it.

But nowadays, the golden great ape tribe is prosperous. According to the truth, no tribe should dare to mention this past that made the golden great ape tribe unbearable.

"I come!"

A golden great ape of the highest level of the leader realm jumped out of the golden great ape clan.

He is an old servant of the Golden Great Ape Clan, and the blood in his body has begun to wither away, but his strength is not weak, and it can even be said that he is already the top existence at the level of the leader!

Because he had stepped into the level of the Saint Realm in the past, and later fell back to the peak of the Leader Realm level for various reasons.

Despite this, he still retains some of the supernatural powers of the Saint Realm, and his physique has been tempered by the tribulations, still staying at the level of the Saint Realm!

"Old Nu Luosen, see the strength of your barbarian!"

The barbarian snorted.

"Does your golden great ape clan have this courage? Not even a saint dared to step out to confront me, but only introduced a half-dead old monkey! That way, your clan has fallen so badly, and you no longer have the glory of the ancient times. You don't even have the courage to be invincible in your heart, it is better to die than to live!"

The barbarian screamed arrogantly, and the old ape Rosen, who had half-footed into the sage level, was not even seen by him.

He is going to fight the golden great ape tribe at the Saint level!

And the old ape from the Golden Great Ape Clan just ran on Fang Yue coldly snorted: "Barbarian, don't want to show up! If you want to challenge the saint-level powerhouse of the Golden Great Ape Clan, there is no problem! But gold The saints of the great ape tribe are aloft, and no one can challenge them! At the very least, you have to defeat Lawson first to obtain the minimum qualifications!"

The old ape said, he was learning what Fang Yue said just now.

The barbarian laughed: "Okay! In that case, I will be this Rosen for a while!"

The barbarian said to Rosen, "Come on, let you three tricks. If you can hurt my half-hair, I will let you survive!"

The barbarian laughed wildly, and looked at Rosen with contempt.

Rosen has been a man who has lived for thousands of years. His life has experienced ups and downs, countless honors and disgrace. Now, his mentality is already calm.

No matter how Rosen provokes him, he will not get angry easily!

Rosen's shot was gloomy, and there was no such thing as the golden giant apes.

He has experienced too much, and the level of his methods has exceeded the constraints of ethnic talent!

Rosen shot, his fingers were slender, as if white bones were wrapped in white flesh!

The yin wind whistled, and the wind sounded like a knife.

These yin winds turned into sharp blades, the blood on the continuous flesh and blood barbarians!

"The wind is deadly!"

Rosen said to himself.

"Undefeated golden body!"

The barbarian laughed, still not paying attention to Rosen.

Fang Yue's face became more solemn while watching.

He was not only marveling at the barbarians' methods, but also carefully contemplating the wind of Rosen.

There are two types of principles, namely the Path of Wind and the Path of Corrosion.

The two Taoisms merge with each other and produce a different effect.

The levels of the two laws that Rosen has enlightened are not very strong, but when combined together, they can already produce unexpected effects, which can ignore the realm and weaken the blood in others.

Fang Yue's two ways are both profound and profound, but they have not found a point of integration.

This method of Rosen provided him with a lot of reference! It is worth studying!

Chapter 1758: The Art of Yin Wind

The barbarian performed the golden body method, his golden body was fixed, immortal, immortal.

All the yin wind swept over from both sides of his body, and it couldn't have the slightest influence on him!

Luo Sen frowned slightly, his Yinfeng technique has always been unfavorable, let alone a practitioner of the same level as the leader, even if he is a saint, the great saint is not necessarily immune to all!

Nothing was successful, and Rosen changed his methods immediately.

He chanted the mantra, and the blood in his body gradually returned.

The original skinny body swelled up quickly as if it was blowing.

The face of the golden great ape also became younger, as if going back in time, back thousands of years ago!

"Forbidden Secret Technique!"

Xu Ziling pulled his fingers.

"This kind of method that can reverse time is included in many big clans, but this kind of secret technique is generally not easy to use, because this kind of method is too bad, and it will cost the sacrifice of life. Often a moment of youth is the longevity of many years! This old ape's lifespan is already short, and now he uses such a method, I am afraid that after the First World War, even if he does not die, he will fall into the dead. To the point!"

Xu Ziling's words fell into Fang Yue's ears.

Fang Yue sighed slightly in his heart.

Originally, the major forces of the galaxy should have joined forces to contend with the Wanhua Universe, but they did not expect that they had not unanimously externally, but their own people would take the first step!

Rosen is back to heyday! His energy and blood are surging, like a river rushing, although the golden great ape family does not focus on refining, but their physique is amazing, far surpassing practitioners of the same level!

Rosen punched, and his fist shadow evolved thousands of times in midair.

There are countless shadows of fists, all over the sky, there is no way to avoid this fist!

Boom boom boom!

The barbarian was so bachelor that he didn't even mean to dodge at all. He let those fists fall on him.

But Barbarian's physique is too strong, his muscles are as hard as iron!

Any shadow of the fist that fell on his body dissipated instantly, leaving no trace of scars!

On the contrary, as an attacker, Rosen's fist was injured by the counter-shock force of the barbarian muscle. His fist was swollen and his teeth grinned in pain.

When he looked at the barbarian again, a look of fear appeared in his eyes.

This barbarian was too terrifying. He was an invincible God of War at all. Even if he stood in front of him, he couldn't help the barbarian at all with his strength.

At this time, Fang Yue suddenly gave birth to a hint of inspiration.

He lifted his palm slightly.

A yinfeng wind knife appeared, slashing at the golden great ape that had provoked him before.

The wind knife was unhappy, and the golden giant ape glanced at Fang Yue and raised his hand to resist.

His palm was in contact with the wind knife, and the hair on it turned into a gray color in an instant!

He was quite familiar with this knife. Isn't this the technique of Yinfeng that Rosen is best at?

However, how could this trick appear in Fang Yue's hands, and the Yin Wind technique that Fang Yue had used was obviously stronger.

"No, no, my understanding of the technique of Yinfeng is still not deep enough! I was a little awkward when I performed it just now. There should be a problem in a certain link!"

Fang Yue scratched his head, denying himself.

He didn't deliberately want to attack the golden great ape just now.

It was that he wanted to try the Yinfeng technique he had just understood, and he just found a test stone!

"That's not right!"

The golden great ape shrank his neck.

He used a secret technique to turn the qi and blood from other parts of his body to fill his palm.

Fang Yue's stab, at least cut off his nearly a hundred years of penance.

Although the golden great ape clan does not rely on physical cultivation, this is their natural capital after all, and it is also indispensable.

That Rosen had no intention of fighting.

He considered himself mature, stable, and his mentality as stable as an old dog suffered a devastating blow.

His attack is not effective on the barbarian in front of him.

Now even his tricks have been stolen away!

This kind of thing is unscientific!

His secret method is based on the fusion of two different principles.

Back then, he fell from the level of the Saint Realm, precisely for the purpose of fusing these two completely different secret methods!

But the secret method that he had only fused at such a price was easily learned by others!

This is simply unscientific!

"Don't look at other places, you still have a chance to attack me!"

The barbarian smiled grimly.

A strong \*\*\*\* light appeared in his eyes!

Rosen trembled.

His two moves just now are his most powerful killer moves!

Both of these moves are invalid for the barbarian. In fact, Rosen already knows his fate and ending!

"For the race, for the glory! Barbarians, let's die together!"

Rosen closed his eyes, and he actually performed the magic of the disintegration of gods and demons while he was in the most peak state!

Rosen burned all the remaining Shou Yuan, so that his strength soared three times in a short time!

The disintegration of the gods and demons is great. The method is to burn all potential and lifespan in a short period of time to obtain powerful combat power.

The disintegration of the gods and demons is great. If the law is played to the extreme level, it can even burst out ten times the level of combat power.

This Lawson obviously hasn't disintegrated the gods and demons to the ultimate level, but has three times the combat power.

But even so, his current strength can also fight a saint!

Three times the combat power, the physical burden on Rosen is already extremely serious.

There were traces of cracks on his body.

In fact, this is the most normal performance. It takes a long time for Sun Wukong to get a Triple Realm King boxing, let alone an old ape like Rosen?

Rosen closed his eyes now.

Before, the minutes and seconds spent in the golden great ape clan flashed through his mind one by one.

These pictures made me sigh.

"It's a pity! Everything is there and I can't go back!"

Rosen shot, every long golden hair on his whole body turned into a golden appearance.

"Fall!"

Rosen sang an ancient, obscure spell that no one could understand.

His body disintegrated.

Turned into an endless thunder hovering in the sky.

At the critical moment, Rosen actually sacrificed his own in exchange for a killer blow.

The endless thunder brewing, colliding, stirring, and finally merged into a blood-colored thunder falling from the sky!

Fang Yue had already smelled a terrible smell on the battlefield!

Fishy!

Blood rain!

Death is pervasive!

There was a bang!

The blood-colored lightning pierced the sky, and it became a word penetrating down!

A line-shaped \*\*\*\* lightning directly pierced the barbarian's body.

The golden light on the barbarian's surface became much dim when he was submerged in the blood-colored lightning.

"Master Rosen!"

"Rosen!"

The messengers of the golden great ape clan are all mourning for the fall of Rosen.

Among the golden great apes, Lawson actually has a very high status! He has taught many generations of strong men of the Golden Great Ape clan, but he fell from the realm of saints and returned to the level of the leader of the leader. It was also Rosen who used himself as a test product and wanted to develop a set of research for the golden great apes. Killer!

"Kacha", "Kacha", "Kacha"

The earth shattered and the blood dissipated.

The barbarian's figure still stood in place.

He seems to be an unattainable mountain that will never decay.

All creatures are so small and humble in front of him!

The barbarian never fell.

Even the blood-colored lightning did not cause him the slightest harm!

"The golden great apes have real warriors. They are really respectable, sigh, and sad!"

The barbarian sighed slightly, then he waved the mace in his hand and pointed it at the other golden great apes.

"Now, the representative of the leader of your clan has been killed by me, now you can let the saints play!"

The barbarian's voice was full of anger.

There is no such thing as exhaustion after experiencing the war.

The old man in the golden great ape clan who provoked Fang Yue with complicated eyes said: "You are naturally qualified to challenge my saint-level powerhouse, but I want to know which race you belong to! Why am I in the heavens of the galaxy? I have never seen your name in the list of the strong!"

"List of strong men in the heavens? Hey, what is recorded in that thing is only the characters of this era, but the history is long, how can there be the names of the strong barbarians in the last civilization era in the long river!"

It was not the barbarian who answered the old ape, but a ratman with a sharp-mouthed monkey gill on the seat of the saint.

Their clan has a large number of people. Although the probability of birth of the strong is not very high, it is better than being able to see the wind.

"Liu Er, you know?"

The old ape looked at the sage-level rat people.

It is named Liu Er, and it has only the fifth level of the Saint Realm realm, and because of its own talent, its own combat power is not even stronger than the practitioners of the 3rd or 4th level of the Human Saint Realm realm.

But Liu Er is extremely fast, and the six senses are keen, if you want to escape, even the powerhouse at the peak of the Saint Realm can't catch him!

"Ape Dagang, in fact, you should be able to guess his true identity from the very beginning! The only people who know your golden ape tribe's \*\*\*\* in the ancient times are only those of the ancient times! This kid can One word to break your origins, what is he who is not a barbarian from the last civilization era? Last civilization era has abundant resources, which is many times as many as this civilization era, and can cultivate such a strong person in the direction of body training. It should be!"

Six ears spoke, sneered at Dagang Ape.

But Yuan Dagang was not angry, but shuddered.

"You mean, the strong from the last civilization era will also return?"

Yuan Dagang widened his eyes and said to Liu Er in amazement.

"If what I expected is not bad, it should be so! There will be a big liquidation at the end of every epoch! The old antiques who pretended to be dead in the past have to stand up and respond, if they can survive smoothly, they can continue to survive. In an era of civilization, if they can't survive, they will instantly become ashes under the calamity! The calamities of each civilization era are stronger than one! It may not be easy for those old antiques to survive!"

Six ears sighed, showing a pitiful expression.

All sentient beings are living, as if they are swimming in a sea of suffering, who is not working hard and struggling for their own life and death!

When Fang Yue heard this, his heartstrings trembled!

There is no other reason. The things said by these six ears, it seems that he has experienced much more than others!

Fallen, old antique, ancient heroes...

It seems that from the beginning of his practice, these ordinary people have not been able to encounter an ancient existence for thousands of times!

### **Chapter 1759: Changing times**

"The strong who came out of the last civilized era..."

As soon as Yuanda heard this, his breathing was almost stagnant.

The last civilized era was a very prosperous era, in which the stars were shining and the arrogances were like forests.

Even though they were the most ordinary practitioners of that era, they were all powerful people who could overwhelm a Tianjiao in this era.

There is no other reason, the resources of that era were abundant, and the exercises were perfect.

In this era, many of the exercises have been broken, and they have come from the tail.

The level of cultivation technique and secret technique is more than one or two levels worse than the previous era.

The corners of Yuan Dagang's mouth were a bit bitter, and he finally realized that Lawson was unwilling to lose.

He did not lose to this barbarian, but to the difference of the times.

At the same time, Yuan Dagang also looked at Fang Yue intentionally or unintentionally.

Is this Fang Yue also a strong man in the last civilized era, so he can burst out such a powerful combat power and fight across several great realms one after another!

Yuan Dagang's mind was floating, and he didn't know how to evaluate Fang Yue and the barbaric in front of him.

"Don't know the name of the hero?"

Yuan Dagang looked at that barbarian no longer maintaining his arrogance and pride!

This barbarian's recovery is probably not because he is alone. If there is a group behind him, it will be an existence that cannot be ignored! Perhaps, in order to come to this Milky Way galaxy, they will be ruled.

The barbarian said, "My name is Hong Gang, where are you fighters of the Golden Great Ape Clan?"

The blood in the barbarian's body churned, his eyes were red, eager to fight.

This is the characteristic of the barbarians, born for war, they are addicted to warfare, and they are more and more courageous!

"Hong Gang, good name! I don't know what areas the hero wants. If it is possible, my golden great ape clan is willing to give it to the nobles free of charge, and hope to make the Qin Jin good with the nobles forever!"

Yuan Dagang is very cunning.

In his heart, he already knew that this young man could not be matched, even if the best in the saint realm of their clan could defeat this Hong Gang?

Will he still be found by the big man behind Hong Gang?

At that time, their golden great ape clan couldn't resist the attack and killing of that big man. I was afraid that the loss would be even more serious. They were not as acquainted as they were, and they surrendered the territory themselves and sold it to Hong Gang for a favor.

When Hong Gang heard this, he took away the mace.

"It's really boring. I didn't expect your golden great ape clan to be so cowardly. I can't even find anyone who can fight for a fight! But our barbarians have never taken advantage of others. Since you don't want to fight for a fight, then The previous bet is void. When other people in our clan come out of the desolate world, we will personally occupy the land of your golden great ape clan inch by inch!"

Hong Gang is an upright boy.

He doesn't owe favors to others, and even the golden great apes clan will give them the land for nothing!

He only believed in the mace in his hand and the supreme faith in his heart!

Hong Gang returned to his role and took a seat.

And all the saints here are already so worried that they can't eat!

"Master Liu Er, what does this barren world mean?"

A saint asked Liu Er.

These six ears are equivalent to the human form Baidu in this galaxy.

Liu Er groaned for a moment and said: "In fact, in this universe of thousands of families, there are actually less than 20% of the areas that have been explored so far. 10% is a forbidden place, even if it is a powerful person at the Great Holy Realm level. All of them turn flesh and blood into mud, and it is difficult to survive. It is said that there are endless horrors hidden in them, and no creatures can easily desecrate! There are less than 70% of the places, which belong to the category of the waste world, and the so-called waste world is not Refers to a certain realm. This is a big category, referring to the territory that has not been developed by intelligent creatures! There are abundant resources in the waste world, and the number and quantity of them are beyond the imagination of practitioners in the universe. However, There is also a huge danger hidden in it. Most of the creatures are powerful, but their wisdom is ignorant. If they walk out of the wilderness, they will cause huge damage to the civilization of the outside world! There are also some weird worlds in the wilderness, among which are ancient The remains of the Divine Mansion Civilization may also seal some incomparable demon heads. Therefore, they were sealed by the powerful men of thousands of races hundreds of millions of years ago. They penetrated into the depths of time and space and cannot enter!"

When Liu Er mentioned the word Wasteland, its expression was quite solemn. These two words seemed to have a huge weight, which could crush the ages and make people feel breathless!

When Fang Yue heard this, he thought of the seventh realm and the world left behind.

He still has a clone wandering in it.

However, the deity used to inquire about news in many large organizations in the Ten Thousand Realms, but still did not know the specific location of these worlds, or even found out any news about their existence. Now everything seems to be clear, including the seventh realm. The world should all belong to the category of wasteland.

There are huge resources hidden in it, but the strength of the creatures is also unfathomable!

And the existence of Samsaras seems to exist precisely to explore these wild worlds!

Many scattered fragments in Fang Yue's mind suddenly came together, and Xu Du's things became clear immediately!

Fang Yue's heart was clear.

Many mysteries have also been solved.

"Could it be that the wasteland is opened?"

Some people have begun to sit still.

The opening of the wasteland is more terrifying than the invasion of the Wanhua Universe.

Although the Wanhua universe came from another universe, the creatures in it came with wisdom after all.

They have their own bottom line and worry about losing too much strength in the process of conquering.

Able to negotiate, to compromise, and even possible to cooperate!

But the creatures in this wild world are completely different!

All those ignorant and bloodthirsty evildoers appeared in this wilderness.

They don't know that they are tired, and they are so powerful that even death cannot form fear or threat to them!

"Hong Gang, how did you get out of the wilderness?"

Someone asked, his eyes were fixed on Hong Gang.

"The seal of the waste world has been loosened! A space crack has appeared everywhere, and a space crack has appeared at the door of our tribe, but every day about Mo can only travel with three or five people!"

Hong Gang is more sincere, he really told how he got out of the barren world!

However, when other people heard this, they were very worried.

"Then how long have you been out of that barren world?"

Liu Er asked, and he worked hard to make a nice smile.

In that way, it looked like the grandmother wolf who abducted Little Red Riding Hood.

Hong Gang hesitated for a moment.

He really felt that these six ears did not look like good people.

"I don't want to talk to you!"

Hong Gang simply refused.

Liu Er stunned and asked subconsciously: "Why is this?"

"Too ugly!"

Hong Gang's answer was straightforward.

And his words caused ten times more crit on Liu Er.

I rub, do the barbarians who come out of this waste world have such a worldly vision?

Whether this long ugliness is ugly or not is not something I can decide, these are all natural, natural good!

Hong Gang reluctantly retreated.

Then, a seductive-looking female demon came out.

She is dressed in a thin black gauze, and there is no inch in the black gauze.

She looked at Hong Gang and smiled happily.

"Then sister will ask you if you are good!"

There was a sultry charm in the witch's smile, and even some of the old antiques who had already cut off their emotions were feeling hot in their lower abdomen at this moment.

This is really a peerless plaything!

It's a pity, it's a thorny rose, you can watch from a distance but you can't play with it.

"it is good!"

Hong Gang smirked, as if he was hooked away.

However, Fang Yue saw a look of clarity and contempt in Hong Gang's eyes. Obviously, this Hong Gang was not lost in the female sex. On the contrary, he might be using this witch by tactics!

Fang Yue smelled a conspiracy on Hong Gang.

But he didn't break it.

He wanted to see what trick Hong wanted to play when he first arrived!

"Then Brother Hong Gang, can you tell my sister, how long have you been out of the wilderness?"

The witch's voice Su Mei made Fang Yue feel a little overwhelmed.

"The law of heart magic, the law of temptation, this witch has merged these two disciplines! Sure enough, there are talents from generations to come, and this is also the case in this galaxy!"

Fang Yue couldn't help being alert.

In the past, he thought that the Milky Way was only a corner of the universe, but now it seems that he underestimated the depth of the Milky Way's water.

"I have been out of the wilderness for a week, because I am the first tribe to come out of the crack in that space, so how is the average level of world practitioners sent by the patriarch to explore this era!"

Hong Gang's voice was dull.

He seemed to be really lost and controlled by this witch.

He knows everything, without saying anything, without any hiding!

A sly look flickered in the witch's eyes.

Sure enough, the wasteland hasn't been opened for long!

"Then do you know how much the space gap between the desolate world and the Milky Way has opened?"

The witch asked again.

Hong Gangmumu said blankly: "I only know that the crack in the space at the gate of our tribe has opened. I have never heard of the other cracks!"

Hong Gang's words relieved everyone present.

It turned out that Hong Gang was bluffing.

This hateful kid, for his having an honest face.

At this time, many people's minds became active.

This may be a huge opportunity. If they can destroy the ethnic group behind Hong Gang, maybe they can dominate the entrance to the wilderness.

Why is the decline of the ten thousand races in this era? The exercises and secret techniques are just the second. The main reason is not because of insufficient resources. If they have enough resources, they are confident that they can cultivate Hong Gang to fight across several realms easily. The talented fighter!

Fang Yue saw the greed in everyone's eyes, even Xu Ziling, who was always sitting firmly on the Diaoyutai, was no exception!

Fang Yue backed away quietly.

I am afraid that there are huge risks hidden in this incident.

He could not forget the contemptuous and calm light in Hong Gang's eyes just now.

This Hong Gang was not deceived by the witch at all, all the words just now were deliberately revealed by him!

What is the purpose of Hong Gang?

Fang Yue dare not figure it out, but he must be uneasy and kind, that's right!

Chapter 1760 Leaving the Wasteland

"The appearance of the entrance to this wilderness is a major event that may affect the future prosperity and decline of the entire Milky Way galaxy. Therefore, it is recommended that everyone leave together and go to the entrance of this wilderness in person, and jointly seal all those entrances again, so as to make up for it. , It's not too late. If we wait for some more time, I'm afraid there will be more twists and turns in this galaxy!"

A saint from the Galaxy Star Alliance said, righteously speaking.

Fang Yue glanced at the saint of the Galaxy Star Alliance.

Does he want to seal the entrance of the wasteland? Wholeheartedly for the people?

I believe this!

Why did he not say a word when he first learned of Hong Gang's identity, but at this time, he was calling out in the name of righteousness?

Haven't you seen that it is not difficult to enter the entrance of the wilderness, and there are still a lot of rich resources in the wilderness that the outside world does not have?

Everyone else called on them accordingly, all gearing up, eager to try!

"People of the same Milky Way galaxy, I should do my part, how can we let the people of the Galaxy Alliance fight alone?"

Someone echoed and wanted to get a share of the pie. This barren world has not been opened for hundreds of millions of years, and the resources contained therein must be extremely rich!

Everyone wants to get a share now, and no one wants to make the Galaxy Star League unique.

If the entrance to this barren world is really occupied by the Galaxy Star Alliance family, then the Galaxy Star Alliance will control resources in the future, and they may not even have a way to survive!

Representatives of various forces have their own worries.

No one would easily believe what the Galaxy Star Covenant said.

"Since my Wanhua Universe wants to make an alliance with you to conspire with the development of the Milky Way galaxy, in such a prosperous world, how can my Wanhua Universe be missing?"

Xu Ziling spoke, smiling.

He reluctantly found an excuse. In the face of great opportunity, there are everyone, and they cannot be less than the Wanhua Universe!

Fang Yue was stunned, seeing the shameless appearance of these people really made his heart doubly sigh.

People are shameless, and the world is invincible. The entrance to the desolate world in this galaxy drama has a relationship with your Wanhua Universe!

Now that you all have to intervene, is there any king's law, or heaven?

After a brief discussion, all the forces said that they would take action when they shot, and the huge team went straight to the entrance of the wild world.

On the other hand, Fang Yue didn't have much interest in the desert world. The key is that the eyes that Hong Gang showed at that moment made him instinctively think this was a trap!

He stood in different places, and accompanied Xiao Tie and Kongkong to continue to eat Haisai here.

The fairy fruit and the elixir left on the table were not touched by anyone before. If so many copies are wasted, what a pity!

"Fang Yue, I will all go to the desert world, why don't you go?"

Yuan Dagang saw Fang Yue's hesitation and couldn't help but yelled.

Fang Yue glanced at Yuan Dagang.

"You all, with great righteousness, go to the space crevices of the wilderness, and seal the entrance to the wilderness for the common people of the world. We, Fang Yue, are deeply admired and grateful. But our Fang Yue's cultivation is shallow, so I won't get involved in such things! I think, With my strength, it's best to stay here and wait for your glory to return!"

Fang Yue smiled shyly, seeming to apologize because of his lack of strength.

But Ape Taigang is not so similar.

The hatred between Fang Yue and their golden great ape clan is so terrible, if you can use this opportunity to kill Fang Yue, it will be the best!

There is bound to be a battle at the entrance of the desolate world. At that time, taking advantage of the chaos of the war, even if it is the strongest of the great sacred realm in their clan, they will smash Fang Yue with one finger.

Yuan Dagang's mind is delicate and vicious.

The strength of Fang Yue's yin and yang realm just now has such a means to smash the saint, and even the most elite Tianjiao of their clan is not an opponent of Fang Yue's pet.

If Fang Yue cultivated to the leader realm and he was a saint, wouldn't it be that none of their entire ethnic group would be Fang Yue's opponent?

Saru Taigang wants to kill the danger in the bud!

"Fang Yue is not weaker than the older generation of strong in terms of formations. Wouldn't it be a pity if he doesn't go this way?"

Coincidentally, Hols, the saint of the Galaxy Star Alliance who had just said that he wanted to seal the entrance to the wasteland, also asked Fang Yue to go along.

He actually had the same idea as Yuan Dagang.

He represents those interest groups of the enemy Yue in the Galaxy Star League.

If Fang Yue can be used as a \*\*\*\* and a sharpening stone to explore the path, and take the opportunity to kill Fang Yue, wouldn't it be a beautiful thing?

Halls and Yuan Dagang exited, which made it difficult for Fang Yue to refuse.

Because Fang Yue already felt that many saints were paying attention to him in the dark.

There are even more powerful people in the Great Sacred Realm ready to speak, but when the powerful in the Great Sacred Realm speaks, it is not a persuasion but an order.

"Well, then! If that's the case, then I'm not as smart as respectful! Xiaotie, Kongkong, take all these meals away! It's shameful to eat on the road, it's wasteful!"

Fang Yue's voice fell.

Xiaotie and Kongkong were quite excited, they quickly swept away all the dishes on the table.

In this scene, Xu Ziling's mouth twitches and twitches a little speechlessly.

I have seen shameless, but I have never seen Fang Yue shameless!

If you can't finish it, you have to take it away, and he also takes away other people's dishes.

You know, these dishes have spent a lot of effort in Wanhua Universe, and the value of their ingredients is very high.

Put it in the Milky Way, the price of these dishes is more than enough to buy a small ruling planet!

Originally, they wanted to recycle and use them to train some of their heroes and war beasts!

As a result, they were all taken away by Fang Yue, and they were too embarrassed to come back!

This shameless person and shameless person always suffer!

Xu Ziling secretly reviewed, it was not without reason that Fang Yue was able to achieve this kind of attainment at a young age!

A group of people set off in a mighty expedition. In the middle of the expedition, various forces including the Galaxy Star Alliance, the Vulcan Alliance, and the Wanhua Universe also called for massive forces.

The lion fights the rabbit, but also needs to do its best.

Facing the wasteland, they had to be more careful!

An army is mighty and mighty, almost sweeping half of the Milky Way galaxy!

Finally, after dozens of teleportations, they finally came to the position of the space crack leading to the wasteland.

This is a narrow crack, in which the light is dim and hidden in the void.

If it weren't for the guidance of Hong Gang, who had been charmed by the witch, it would be difficult to find the clue even if the powerhouse of the Great Sacred Realm passed by here.

"This space crack..."

As soon as he arrived at his destination, a cultivator of the leader of the Ten Thousand Flower Universe who practiced the Heavenly Way of Space revealed a solemn expression.

He was specially dispatched by Xu Ziling because Wanhua Universe wanted to explore the void and reality of the cracks in this barren space!

Xu Ziling said, "But it doesn't hurt to say it!"

"This space crack has just formed, the problem is not very big, but it is contaminated with a complex atmosphere, among them are the powerhouses of the Great Sacred Realm, and there are also the ants of the Yin and Yang Realm! Perhaps there has been an incredible existence in this space crack!"

The leader of the cultivator in the Ten Thousand Flower Universe whispered.

A little different color flashed in his eyes.

And Xu Ziling nodded slightly: "Sure enough, this should be the entrance to the barren world, and the creatures coming out of it are of different strengths and weaknesses!"

The words of the strong leader in the master state not only did not make Xu Ziling and the others suspicious, but strengthened his previous judgment.

Fang Yue frowned secretly, and he also sensed an unusual aura in this space crack.

It's just that he has a deeper understanding of space heaven.

Although there are auras of creatures at various levels from the Great Sacred Realm to the Yin Yang Realm in this space crack, the number of them is not in line with what Hong Gang said.

Hong Gang meant that among them, there were only a few hundred strong people who emerged from the cracks in this space, and Fang Yue estimated that at least thousands of strong people emerged from the cracks in this space or even more!

This number is different, but the meaning is completely different!

Hundreds are not the same as thousands.

Fang Yue turned around, trying to walk behind the team.

This time, everything was weird, and he had chosen the best escape route.

These people lined up to die, Fang Yue didn't want to train them.

He is still young, and he still has a great young to splurge.

However, at this time, it was impossible for Fang Yue to want to leave.

Because Yuan Dagang had already stood in front of him with a smile!

"Fang Yue, the time has come for you to contribute to the Milky Way galaxy. This space crack is right in front of you, and your space heaven is probably the topmost in the entire Milky Way galaxy! I think I should trouble you to walk into this space crack. Take a look!"

Yuan Dagang's mind was extremely vicious, he actually wanted Fang Yue as a pathfinder.

Fang Yue's face changed slightly, and he said sharply, "Yuan Dagang, don't deceive people too much!"

Yuan Dagang said with a compassionate expression: "Every innovation and every development must be sacrificed! Why? Let you sacrifice for the benefit of the entire galaxy. You should die well, what else do you not have? Satisfactory place?"

See you at Dagang Ape.

And the representatives of the major forces around are also watching this good show.

Although most of these forces have nothing to do with Fang Yue, the strength and talent that Fang Yue has shown before are too strong, and they have given rise to alertness and threats in their hearts!

If you can take advantage of this opportunity to kill Fang Yue, it might also be a good choice!

Afterwards, Hols also stepped forward and said blankly: "Fang Yue, you have amazing attainments in space and heaven, and you are up to you to explore this wild world! The wild world is strange, if you replace it with someone else, save your life. The odds are not high! Only you, who have strong ability to respond immediately and are proficient in space and heaven, are best at escape methods. If you really encounter any danger, you can still save your own life!"

You must be the first person to venture into the wilderness! "

Although Halls was praising Fang Yue.

But this is the legendary cheer!

This is equivalent to putting Fang Yue on the fire to bake!

Fang Yue felt that he was going to be burned by this Hols!

"Fang Yue, you should go there!"

At this time even Xu Ziling spoke!

He represents the will of Wanhua Universe, and Fang Yue's selection this time is also a kind of hope that everyone can't help but go!

Fang Yue's eyes swept over the people present.

Those indifferent or mocking faces made him deeply remember.

"Okay, I'll go! But I hope you don't regret it!"

Fang Yue resolutely turned and walked towards the entrance of the barren world!
