

God of Life 1791

Chapter 1791: Huque

"it is good!"

The blood demon responded, and he was quite moved by Fang Yue's suggestion.

Although the saint of the tiger tribe is not as powerful as the great saint of the white elephant tribe before, his vigor and blood is still an excellent choice to win the house!

But this process of seizing the house cannot be disturbed. After all, his opponent is a powerhouse who thinks of the Great Saint Realm.

As long as Fang Yue can resist a momentary attack by the powerhouse at the pinnacle level of the Tiger Terran Great Sacred Realm, he will be able to refine this Tiger Terran Great Sage into an external avatar of himself, and then he can control this Tiger Terran Great Sage. The saint's body can easily level the Quartet, and even team up with Fang Yue to defeat the strong man at the pinnacle of the Great Sacred Realm of the Tiger Race.

Fang Yue rose into the sky.

Kang Yue also looked at Fang Yue.

"How about letting us join forces to kill this tiger tribe? I only need the Great Sage in him, and everything else can be yours!"

Kang Yue took the initiative to propose to Fang Yue.

The origin of this great sacred realm peak powerhouse is the most precious wealth.

There was a bit of bitter taste in Kang Yue's eyes.

And Fang Yue nodded and said, "No problem!"

Fang Yue and Kang Yue are now comrades-in-arms in the same trench. They are both from the Human Race and are fighting for the Human Race! For the glory of the human race, the previous gaps can even be put down!

Both Fang Yue and Kang Yue are full of fighting spirit at this moment!

"Haha, the two weak human races still want to compete with me? Even if you join forces are not my opponents! If I hadn't been to comprehend the three ways in one, I had already stepped into the virtual fairyland. The level is up! I, Huque, used to train several powerful people in the virtual fairyland of the tiger race, and now each of them is well-known in the Wanhua Universe, and is a powerful one who dominates!"

The powerhouse at the peak of the tiger's clan great holy realm is quite terrifying.

Three auras emerged from his body.

These three auras all represent a kind of Taoism, and the Taoism that can condense the appearance is at least above the fifth level!

The most frightening thing is that these three auras have begun to blend in color, which means that this great sage of the tiger race is not only extremely high in cultivation, but also extremely accomplished in Taoism.

The fusion of the two ways is already quite terrifying.

And the three kinds of Taoism merged, which Fang Yue hadn't even heard of!

Fang Yue was also a little frightened.

If he encounters an ordinary Great Saint Realm peak powerhouse, he may still have some means to resist, but if it is a powerhouse who starts to merge the three ways, he does not know whether he is an enemy of others. .

After all, his advantage in Taoism is likely to be offset by the three fusion of Taoism.

"Kang Yue, if I lose, just avoid or even run away, don't worry about my life, death and safety!"

Fang Yue directly vaccinated Kang Yue.

He is just an aura avatar, the big deal is to disperse this avatar on his own, almost without much loss.

But Kang Yue is different, this puppet body is his main combat strength.

If there is a mistake, Kang Yue's strength will definitely suffer a huge loss!

This loss is hard to make up for the human race of the entire galaxy!

Kang Yue glanced at Fang Yue and snorted coldly: "These words, I don't need you to tell me that I know that my clone is worthless, and even your little life can't be worth it! This battle will do my best, if it is defeated. , I just left!"

Kang Yue's voice hasn't completely fallen down yet.

That Huque's attack had already arrived.

He squeezed the Yin Jue with his hands, and a sword qi came from the void.

Sword Qi cut open the space, to cut off Fang Yue's head directly.

This tiger is indeed powerful. Not only did he comprehend three different principles, but now he also has considerable attainments in kendo. This has already reached the grandmaster level, and it is only half a step before he can reach the masters. Level!

Sword energy, sweep the Quartet! This Huque's sword aura was extremely sharp.

Fang Yue didn't dare to block it, his fingers cut a space crack in front of him.

He wants to introduce this sword energy into the space crack, let the space crack swallow it!

However, Fang Yue miscalculated this time.

The strength of this tiger is quite strong.

The sword aura swept through the air directly smashed Fang Yue's space cracks, the power in the sword aura was only slightly weaker, and it continued to slash towards Fang Yue's body.

Fang Yue's body was directly split in half.

Even the art of refining the body is extremely fragile in front of this Jian Qi.

This sword aura turned out to contain the law of sharpness. Although it was a trail, it was able to ignore the physical defenses to a certain extent.

Fang Yue's physical body was formed by condensing spiritual energy, and after being split in half, it condensed again.

His body was unharmed, as if he had not suffered any harm.

However, Fang Yue already knew very well in his heart that this tiger should follow the same path as him. He practiced a lot of ways, and there are three other ways that he has reached a relatively high level and started to try. Fusion!

His true level has even surpassed the ordinary imaginary immortal. The reason why he has been reluctant to be promoted is to promote the imaginary immortal in the most perfect state. Once he reaches the level of the imaginary fairyland, he may go far away. Maybe within a thousand years, you can quickly break through the first three or even the first four levels of the virtual fairy and become the leader in the virtual fairyland!

At the level of the virtual fairyland, every step is very difficult. If there is not enough accumulation behind them at the level of the great sacred realm, some people may be trapped in front of the interface of the first or even second level of the virtual fairyland. Living for ten thousand years, there is no chance of making an inch!

Fang Yue's face was cold.

"You are the first person to be able to break the space crack with sword light!"

There are no emotional ripples in Fang Yue's words? I don't know if he is complimenting or marveling.

Huque sneered: "Is Fang Yue! It's rare to meet someone who is like me who does everything and does everything, so I will do it! The sword I just did not expect to take your life, I just wanted I want to tell you that there is no strong way in this world, only people who use the strongest way! Sharp trails are only trails, and your space heaven is the supreme way, but I can break through your space like a trail Heavenly Dao, the so-called Space Heavenly Dao attack is the strongest, and it is just an illusion and ignorance of people!"

Huque's words were indifferent and ruthless, as if he was stating an indisputable fact, but Fang Yue knew very well that Huque was not pointing and teaching him, but wanted to use this method to defeat him. Dao Xin made Fang Yue wonder whether the Dao he had mastered was correct.

Once this cultivator has doubts about his path, he will easily breed various demons.

In fact, in Huque's eyes, Fang Yue's threat and potential far surpass Kang Yue.

No matter how far Kang Yue would go, at best, he would add an extra powerhouse in the imaginary fairyland to the human race, while Fang Yue has a promising future. In Huque's eyes, he is very likely to reach the level of true fairyland. In the real fairyland, it is still extremely powerful!

The two of them walked the same way, and they knew the horror of this combination of methods best.

Their foundation is extremely solid, even to the point where it will hinder the improvement of their realm!

However, it is commonplace for them to beat the strong with the weak and fight by the leap.

If Fang Yue can be hit and eventually lose his self-born heart demon, then Huque is worth even letting Kang Yue go!

But Fang Yue's eyes were clear and clear, and there was no confusion in it.

The corner of his mouth only provoked a sneer.

"Master Huque, why should you be like this? In my eyes, you are a figure of the virtual fairyland level. You can defeat me at the level of the virtual fairyland at the level of the virtual fairyland. I think there is nothing to be frustrated!"

Fang Yue has neither joy nor sorrow, and the mental stimulation of this tiger lack has no great effect on him!

He has a very clear understanding of himself. It is not a big problem to kill a few strong people at the Saint level, but it is already very difficult for him to resist the attack of the other side when encountering a strong Saint at the Great Saint Realm!

As for defeating the opponent, Fang Yue still swelled to that level.

Hu Que was slightly surprised when he saw that his strategy was ineffective against Yue.

Just now, he had actually used the methods of the inner demon. As his voice fell, Fang Yue should have a lot of emotional ups and downs. But the reality disappointed him!

Fang Yue's inner mood was extremely firm, and he was not affected by his words!

In fact, what Fang Yue said was right. A practitioner in the Yin-Yang realm and a figure in the virtual fairy realm were not comparable at all!

If he is in the same realm, he must not be Fang Yue's opponent!

Fang Yue's Tao is more profound, at least in the same realm and in the same age.

Huque is definitely not Fang Yue's opponent!

At this moment, Yang Jian walked out of the crowd, without the slightest expression on his face.

"Huque, do you want to bully the weak? A strong man at the pinnacle level of the Great Sacred Realm, and even you personally trained a figure of the virtual fairy realm to run out to deal with Fang Yue, a small figure of the Yin and Yang realm. Your face is still It's really big!"

Yang Jian is not a good crop, he and Fang Yue belong to the same camp.

Yang Jian and his colleagues have calculated that several characters may be the destiny of this era on this earth.

But there is no Fang Yue's name, but Fang Yue is the most powerful of the young people on earth in this era!

Therefore, Yang Jian and others are quite curious, what is the origin and identity of Fang Yue?

Yang Jian came to Taichu Stars this time on the one hand for the immortal artifact that is about to appear. If he could grab it, he would naturally not be soft. On the other hand, he would observe this Fang Yue!

His identity is quite weird, even when they are calculating, there is no such a person as Fang Yue!

Chapter 1792 Reward

The meaning of this is quite terrifying. It is possible that Fang Yue is the reincarnation of a great figure, and he has hidden the secret.

It is also possible that Fang Yue has already jumped out of the long river of fate and reached another level.

Although this possibility is very small, it is not impossible!

Many powerhouses at the fairy king level cannot be fortune-telling their fate in their youth, and even their own existence is incredible!

Either of these two possibilities represented that Fang Yue himself had a great secret, and he could not provoke him.

He may become a life-saving straw for the earth in the face of war disasters in the future!

When Yang Jian appeared, Huque's eyes were filled with fear.

Among the many strong human races this time, this Yang Jian is the most taboo person in Huque's heart.

He couldn't see through the depth of Yang Jian, but at least he was a strong man at the virtual fairyland level, and Yang Jian took the path of the unity of soul and body, and his physical body became holy, and his physical attainments were elusive!

Yang Jian's physical sanctification is not the same as Fang Yue's physical sanctification.

If it is said that Hu Que and Fang Yue's combined practice of all methods, it is more of an extreme.

Then Yang Jian's physical sanctification is one less typical.

Yang Jian's body and soul have been completely integrated.

If his body falls, his soul will also be annihilated.

If the physical body decays and eventually grows old, he will not even have the chance to reincarnate in his soul!

But the unity of body and soul also has the advantage of unity of body and soul, that is, his physical body is several times the length of the same level of physical cultivation and the longevity is also not comparable to his cultivation of the same realm.

Yang Jian only lives this life.

But it is possible that his life will live forever!

Yang Jian shot, and the three-pointed two-edged knife in his hand stabbed Huque.

Hu Que raised his hand and resisted it with his palm. The palm and the three-pointed two-edged sword collided with each other, and there was a clear sound of metal collision!

Hu Que's palm was wiped out with a series of sparks.

This Huque is definitely a veritable powerhouse of the virtual fairyland level, and even his combat power is even more powerful than the general virtual fairyland level powerhouse.

Even Yang Jian's three-pointed and two-edged sword could easily be blocked by him, which was enough to prove that this Tiger was invincible, at least on the same level as Yang Jian.

"Actually, I didn't have much malice in my shot this time, just because I saw that Fang Yue took the same path as me, so I wanted to try his fineness and give pointers to his cultivation. , Since your human races don't appreciate it, let's forget it. It's better not to take it lightly up to our level. This immortal weapon has not been taken, and the power of this virtual fairyland does not have much value and meaning!"

This Huque was quite cunning, he knew it was not necessarily Yang Jian's opponent, so he found himself a step up and took the initiative to stop.

And Yang Jian did not continue to be aggressive, he just wanted to protect Xiaoxia Yue, and for this tiger, his murderous intent was not strong.

After all, his goal is also the legendary fairy.

There are a lot of weirdness and mystery in this primordial star. He can't exhaust his hole cards here. Among these people, there may be strong ones in the real fairyland. If he consumes too much in the process of dealing with Huque With the means, it is very likely that he will suffer a lot in the subsequent battle for the immortal weapon!

"These chaotic qi can evolve many creatures, and these creatures can get a great opportunity if they defeat one end!"

In the team, there is a veteran who speaks, he can divvy up the mystery of the heavens.

The cultivation level of this old Dao is not very high, only the fifth level of the Great Sage Realm. If placed outside, this is definitely a big boss, but in this terrifying team, he is just a mediocre team. That's it!

His responsibility is to foretell the good fortune this time.

Fang Yue glanced at him. This was the first time he saw a person who cultivated the path of cause and effect to an extremely high level.

This causal avenue is quite terrifying, and it is said that it can rank among the ranks of previous lives in the 3,000 avenue.

Buddhism and Taoism are the best at divination, but there are very few people who can understand the path of cause and effect!

Fang Yue smiled lightly: "This is indeed good! I didn't expect you to know this so early, but since this master has already said it, then I will get a chance first!"

Fang Yue beckoned gently, and the Da Ri Jin Wu in the sky suddenly opened his mouth.

A purple, one-person-high fireball spit out from his mouth, wrapping Fang Yue's entire body!

Fang Yue was recognized by this big day golden crow.

The flames around him represent the recognition of this great day golden crow!

In this flame, a long sword was born.

The top of this long sword also exudes a breath of the peak level of the Great Sacred Realm.

This is a magic weapon at the peak level of the Great Sacred Realm. It is extremely valuable, although it is far from comparable to the fairy weapon in the legend.

However, it is a magic weapon at the peak level of the Great Sacred Realm, and its value is infinite. The general power of the Great Sacred Realm is not qualified to be equipped with a magic weapon at the pinnacle level of the Great Sacred Realm. Only then can we collect and forge a magic weapon of this level.

This magic artifact is immortal, and it already contains a powerful artifact.

If the strength of the spirit weapon in the peak level of the Great Sacred Realm is fully recovered, it may not be weaker than a real powerhouse at the pinnacle of the Great Sacred Realm!

"This Fang Yue has gotten a **** luck, and he got a magic weapon of this level?!"

Envy and even jealous emotions have grown in some people's hearts, but they dare not brazenly rob, because this time, Fang Yue's masters gathered around him, and each of them is extremely jealous because of their origin and identity.

One Kang Yue is already a top figure in the Great Sacred Realm level, and there is also a Yang Jian who is difficult to determine the depth, even among them, the strength is quite outstanding, and the Tiger Que at the virtual fairy realm level is already scared back!

Such a team, if one of them dared to make a move, it is very likely that they would have died before grabbing this long sword!

One Yang Jian is enough to pacify most of them!

Fang Yue held the long sword in his hand, which was extremely heavy.

Even with Fang Yue's physical strength, when holding this long sword, he felt a kind of struggle.

"It is worthy of being a magic weapon at the peak of the Saint Realm. It was forged from fallen star iron! This long sword may weigh hundreds of millions of kilograms. It can be smashed to death without any sharpness. A deadly powerhouse at the Great Saint Realm level!"

Fang Yue said to himself, at the same time he put the long sword in his hand and gestured.

Those strong at the Great Sacred Realm level felt slightly cold in their hearts.

This Fang Yue was already so terrifying when he had no weapons, and now he has an extra long sword of the pinnacle level of the Great Sacred Realm in his hand. I don't know how arrogant and invincible it will be in the future!

The general powerhouse of the Great Holy Realm may not be able to restrain him!

And although Fang Yue looks very arrogant, but his heart is full of bitterness!

Is this funny to me?

Give me a long sword at the peak level of the Great Sacred Realm. Have I used it?

Fang Yue's realm is too low, only at the Yin-Yang realm, and this is a long sword at the peak of the Great Sacred Realm. Every time it recovers, it needs to consume a huge amount of zhenqi. Although he is in the dantian, he is self-contained. In the world, the true energy contained in it is like the ocean, but the quality of true energy is really not as good as the true energy of the great sacred realm. It is not bad that the true energy of the ordinary sage realm can be comparable!

If he really used this long sword to fight, he might have died before he killed the enemy!

Fang Yue roughly estimated that he might be able to use this long sword three times.

After using it up, his true energy was basically exhausted.

Give Fang Yue a long sword at the pinnacle level of the Great Sacred Realm instead of giving him an ordinary treasure of the Great Sacred Realm!

There is no shortage of treasures in Fang Yue's hands. Each of the nine magical weapons he used to build the foundation is transcendent, beyond the long sword in this hand!

"This opportunity is so tempting! I want to try it too!"

A strong man on the first level of the Great Sacred Realm of the Tiger Race is eager to try, and now even Tiger Que has stood up. I am afraid that no one in the room dare to fight when he fights the fierce beast transformed by the chaotic energy. He did it!

If he can be sure that the surrounding environment is absolutely safe, he also wants to challenge this legendary chaotic beast.

This primordial chaos beast is inherently talented, and if it can be killed, the combat experience gained is also a great opportunity!

"Huxiao, are you really sure you want to challenge that chaotic beast?"

Hu Que glanced at Tiger Roar. This Tiger Roar is also a strong man in their clan, but when this Tiger Roar broke through to the Great Sacred Realm level, it seemed that something happened, causing his cultivation to be in the Great Sacred Realm. It is difficult to break through again on the first level!

Fighting with the chaotic beast this time was an opportunity for Huxiao to break through himself. If he could kill the chaotic beast and swallow its body, he might make up for his physical deficiency.

But this fight with the chaotic beast is also extremely dangerous. Don't look at Fang Yue's playing the organ and even turned the chaotic beast into his own little brother.

But how many Fang Yue can there be in this world?

His miracle cannot be replicated. Fang Yue was able to surrender the chaotic beasts because of his amazing talents, and his understanding of the principles of the Tao was incredible!

Regardless of Hu Xiao being a powerful man at the Great Sacred Realm level, he was really thrown away by Fang Yue in terms of understanding the law!

"Tiger, you know my situation. If I can't seize this opportunity, I might only be able to stay at the bottom of the Great Sacred Realm for the rest of my life! Today, the competition in the orc empire is extremely fierce! I can only catch it. With this opportunity, you will be able to make greater contributions to the ethnic group if you are reborn and go up to the next level!"

"Death in battle is fate. If I can survive, I will definitely be the backbone of the future of the tiger race!"

Hu Xiao's expression resolutely said to Hu Que resolutely.

Chapter 1793: Tigers fall

"Now is a world of great controversy, all beings are swimming! If you don't advance, you will retreat, and even the strong of the Great Sacred Realm can hardly be alone!"

Yang Jian whispered softly, and he saw Hu Xiao's body that he felt like death.

This time he is here to fight!

He is different from Fang Yue.

Fang Yue was a clone of aura, in fact, in the process of contending for the immortal weapon this time, Fang Yue had the least pressure.

If others lose, it may be the end of the fall.

And Fang Yue lost, at most he was killed by a spiritual energy clone.

What's more, Fang Yue had already acquired a long sword at the pinnacle level of the Great Sacred Realm.

Oh, he is put away now!

Even if he couldn't get the fairy weapon, he didn't lose the slightest bit.

But Huque is different!

He is the deity playing this time!

If he really couldn't do this chaotic beast, he might really have spilled blood on it!

Not only is the pressure of Hu Xiao, but Hu Que as the team leader is also under great pressure!

Among their men and horses this time has fallen a strong man of the great sacred level. He was taken over by the blood demon, and now even his soul has been wiped out. It is estimated that he cannot die again!

resurrection?

That is impossible.

Even if you can find the Dragon Ball, it's no use!

And if this tiger howl hangs up again, their losses will be too heavy.

Although the tiger race is considered a strong race in the orc empire, no matter how strong the race is, it is impossible not to use the strong at the Great Sacred Realm level as dry food!

A strong man in the Great Sacred Realm is the backbone of a race!

Falling seven or eight strong men of the Great Sacred Realm, he committed suicide by scoring minutes.

But looking at Hu Xiao's firm look.

Hu Que finally let out a long sigh and agreed to the Huxiao adventure decision!

This Tiger's character is resolute, brave and courageous, making him always trapped in the first level of the Great Sacred Realm, watching those who were once inferior to his peers surpassing him one by one, he must be born in his heart. , May not be able to break through in the end, but was taken advantage of by the inner demon and eventually fell.

Instead of that, it's better to let this tiger roar try it!

The big deal is that he is optimistic about the process of this Tiger Roar trial, if the Tiger Roar is really invincible. Then he will forcefully save this tiger roar!

Although this may be a shame for Hu Xiao.

But shame is always better than being killed!

Hu Xiao hasn't shot yet.

Hu Que's heart was already ready to save him!

"Go, Huxiao, break through yourself between life and death, and bathe yourself with the blood of this chaotic beast!"

Tigers roared into the sky, and he roared at the endless chaotic air current.

"Who dares to fight me!"

The tiger roars loudly under the chaotic air current!

This chaotic air current seemed to be provoked by this tiger roar.

Among them, strands of chaotic air fell down!

Chaos evolved, and a blue dragon mythical beast was formed!

This Canglong Divine Beast turned out to be the fifth level cultivation realm of Saint Realm!

In terms of bloodline, this Canglong Divine Beast and the Great Sun Golden Crow are definitely at the same level.

But when it comes to cultivation, the Blue Dragon and Divine Beast far surpasses the Da Ri Golden Crow!

The level of the saint realm, the gap of a small realm is extremely exaggerated, let alone the existence of this kind of beast level!

The Da Ri Golden Crow screamed, as if he had a slight hostility towards this blue dragon divine beast.

They are all chaotic beasts, with arrogant dispositions. Why is this blue dragon beast so much higher than my realm when it comes out!

When Fang Yue saw this scene, he secretly rejoiced in his heart. Fortunately, what he encountered was the Great Sun Golden Crow. If it was also the Canglong Divine Beast, he might not be the opponent of this Canglong Divine Beast!

It's not so easy to be killed by the Canglong Divine Beast.

Because this azure dragon beast is powerful, but if he wants to save his life, he can still do it, but the problem is that it's shameful that he can't beat it!

He Fang Yue is also a celebrity in the galaxy, and now he is also a person of face!

Of course, these are Fang Yue's self-righteous thoughts. Whether he has face in the hearts of others, it is not easy to say!

When the Canglong Divine Beast shot, he didn't care what the realm of the tiger roar was.

The dragon claw stepped out, and the void shattered.

A space storm swept away in the direction of the tiger's roar in an instant!

"Fuck, this Canglong comprehends the Space Heaven Dao, and when he raises his hand, it is a Space Storm! This thing is capable of killing even the strong of the Great Sacred Realm! The great sage of the tiger clan is estimated to be cold!"

Fang Yue yelled aside.

Obviously it was a very serious battle, but it was a bit of a joke for him to interpret this way.

"There is not much time left for the Chinese national team!"

I don't know why, Yang Jian, who is always watching TV and watching football games, suddenly has such a nonsensical idea!

But the strength of the tiger roar was a little vaguely beyond Fang Yue's expectation.

He even roared, shaking the space storm with sound waves.

"This Tiger Roar is absolutely worthy of his own name, his talent and supernatural powers turned out to be a tiger roar! This buddy seems to rely on roar for output!"

Fang Yue said to himself, but there was an unexpected look in his eyes when he looked at Hu Xiao.

This ridicule is ridicule, but he still attaches great importance to this magical power that can smash space storms.

After all, Fang Yue himself is the space heaven of cultivation.

Fang Yue deeply knew that the space storm was powerful, and it contained countless space debris, and the edges of the space debris were extremely sharp!

As long as the powerhouses of the general Great Sacred Realm are involved in the space storm, they will basically be filled with meat when they come out.

However, the conditions for using the space storm are quite harsh. The first is to comprehend the realm of space heaven to the fourth level!

Space heaven is heaven.

And Sonic Avenue is just a avenue.

At the same realm, the power of the Dao is ten times weaker than the Dao of Heaven!

This also means that this tiger's sonic avenue is at least on the fifth floor!

Before, there was a tiger who was lacking in all ways. If it was an accident, what about this tiger?

Fang Yue had a little speculation in his mind. Perhaps this tiger race has a very high talent for comprehending the principles of Tao, and even practitioners of the same realm in the Wanhua Universe are practitioners of more than ten thousand universes in understanding the principles of Tao. One chip!

If that is the case, then the future war between the Ten Thousand Worlds Universe and the Ten Thousand Flower Universe will be extremely difficult.

The weakness of this principle is difficult to make up for with other aspects!

However, Fang Yue soon put these messy thoughts behind him.

These things are the issues that the chess player needs to consider, as long as he is to keep the earth!

Now it seems that this earth is quite powerful!

Among other things, this Yang Jian and others are extremely powerful!

There are some strong men who have been sleeping in history that have not yet awakened.

If they all recover, no matter who is calculating the earth, wanting to gnaw a piece of fat from the earth will have to pay an extremely tragic price!

The battle between Hu Xiao and Canglong Divine Beast had already entered a white-hot stage.

This tiger roar is obviously not the opponent of the blue dragon divine beast, but he actually evolved an external clone at a critical moment. The strength of this external clone is stronger than his own deity. With the cooperation of this external clone, this Tiger Roar is equivalent to two powerful masters of the Great Sacred Realm besieging the blue dragon divine beast.

In this case, the situation that would have been defeated has the possibility of reversing it!

"This tiger roar has lost!"

When Fang Yue saw the appearance of this avatar outside, he shook his head slightly, as if he had seen the scene of the tiger's fall.

When Hu Que saw this scene, his face changed slightly.

He whispered: "This tiger howls confused!"

Sure enough, the voices of the two had not fallen.

The Canglong roared and the void shook. Thousands of worlds descended at the same time, layer upon layer, even if the tiger was unable to break through it instantly, intervening in the duel between the Canglong divine beast and Hu Xiao.

Hu Que looked at Fang Yue.

"Fang Yue, you help me save Tiger Roar, how about my tiger's lack of favor for you?"

Now that he can save Tiger Roar through layers of space, among those present, Hu Que feels that he can't find a second one besides Fang Yue!

Fang Yue said with a chuckle: "Great Sage Tiger, you laughed, you and I are hostile, just before you wanted to kill me, how could I save your people? My heart is not that broad, and your so-called favor He is not worth the life of a great saint!"

With Fang Yue's voice, the Canglong Divine Beast reached out its two palms and crushed and killed the two tigers at the same time.

The tiger roar fell, and blood splashed on the spot.

Their battlefield is beyond the billions of worlds, but the people present all feel that their hearts have received an extremely huge impact when they see this scene!

Fang Yue sighed lightly: "If you don't die, you won't die. This tiger roars clearly can break through life and death, and even kill this azure dragon divine beast. As long as one of the clone and the deity can survive, he can live, but this weakens his will to fight!"

There was endless regret in Fang Yue's eyes.

This Hu Xiao was cowardly at the last moment and wanted to ask for life, but he didn't expect him to die faster!

And Hu Que did not blame Fang Yue for not saving him when he saw his death before. The two were originally hostile, and it was natural for Fang Yue not to save Tiger Roar!

The Canglong Divine Beast absorbed the great sage origin in his body after killing Tiger Howl. This Canglong Divine Beast broke through itself and became more powerful, reaching the sixth-level realm of a sage!

"This Canglong Divine Beast can even swallow the saint, which originated from my evolution?"

Fang Yue's eyes widened, this result surprised him.

The failure of this challenge means that the chaotic beast will become more powerful.

If this azure dragon divine beast was promoted to the level of the Great Sacred Realm, few people on the scene could match it!

"In the future, if anyone wants to challenge the chaotic beast, unless it is sure to win or escape! Otherwise, no one is allowed to rush, otherwise, this is tantamount to sending others into a more dangerous situation!"

Hu Que spoke, his voice low.

This is a lesson that they learned from the great sacred realm powerhouses of the tiger race.

Chapter 1794: Yin Gu Road

"I come!"

Even though Tiger Howard died in battle and was defeated, his blood still did not shock everyone who lived in the field!

A young man walked out of the crowd, his face was stern, and he wore a white robe, his cultivation realm was actually on the first small step of the leader realm!

Among the people present, except for Que Fang Yue, this young man's cultivation level is definitely the lowest.

But there was no wave of expression on his face, and there was no solemn and face-to-face expression towards this azure dragon beast!

"What's the mischief of your little kid's family? Whose child is this? This is a chaos beast of the sixth level of the Saint Realm. It is invincible in the world, and its combat power level has reached the more senior level in the Great Saint Realm. With the bloodline and supernatural powers, maybe even some veteran great sages may not be able to beat him! How can you be a newcomer to the realm level as its opponent! Go home quickly Cultivation for hundreds of years and thousands of years before coming out to challenge this azure dragon beast."

An alien at the level of a saint laughed. He was covered with silver luster, as if he was the silver horn king in Journey to the West.

He was also a disciple of an ethnic group in the ancient times.

This tribe is called the Silver Horn tribe. They are all silver and white. It is said that they will be extremely outstanding and excellent in their youth. Although the bloodline is not high, it is only at the mysterious level, but this tribe has appeared in books in the ancient times. A lot of amazing characters.

The saint of the Silver Horn tribe ridiculed, he originally thought that many people would ridicule with him.

But there was a cold silence behind him, a strange silence.

The Silver Horns slowly turned their heads and looked at the people behind them.

Only then did he discover the clue that these friends with whom he talked about wine and joy during the day were all silent as if they were wood, and the eyes that looked at him contained a trace of pity for the dead!

"What the **** is going on? Do you know the origin of this kid?"

The sage of the Silver Horn tribe finally realized that something was wrong, and began to panic slightly.

"You little guy from the Silver Horn tribe, do you know who you are talking to?"

An elderly great sage said, "The person in front of you is a descendant of the disciple of Yin Yang Tianzun! According to legend, before the endless years, Yin Yang Tianzun once incarnate into the Taiyin Body and the Sun Body, practicing the Taiyin Method and the Sun Method respectively. In the end, Yin and Yang became one, and only then achieved the position of Tianzun, but the Tai Yin body and the Sun body left their own offspring separately when they were practicing! If the person in front of you is our correct guess, he should be the Tai Yin body. Yin Gu Road for future generations!"

The voice of the great sage was hoarse, but when he spoke, there was a tremor from instinct!

Yin Gu Dao was once shocked in the Primordial Era, but because of his physique, he was not suitable for birth at that time, so he was sealed by Yin Yang Tianzun!

Unexpectedly, at the end of this reincarnation, even the parents and children of the Tai Yin body were born!

Although Yin Gu Dao's body only has half the blood of Yin Yang Tianzun, his strength is obvious to all!

That is the half-man's parent and child, and his strength is invincible!

Among other things, just a parent-child identity of Yin-Yang Tianzun is enough to frighten hundreds of millions of living beings and let them worship and worship!

The saints of the Silver Horn tribe are about to cry!

How come the lower the little guys now, the more they can't afford to provoke them!

It was Fang Yue before, but now a parent and child of Yin-Yang Tianzun came out.

A Fang Yue is enough to blow people, and the parents and children of Yin Yang Tianzun may be even more terrifying.

The blood flowing in his body is the legendary Yin-Yang Tianzun's blood, supreme, surpassing all physiques!

That is the blood of the emperor, even in the immortal realm and heavenly court, it is the highest.

Some people secretly compared Fang Yue with the parents of the Yin-Yang Tianzun, and they agreed that even if the two had never compared them, the Yin-Yang Tianzun's parents and children were far from comparable to Fang Yue.

Yin Gudao glanced at the sage of the Silver Horn tribe, he had no intention of taking care of this kind of clown.

Who is he?

He is the heir of Tianzun, who once followed the emperor's practice.

At that time, Yin Yang Tianzun overlooked the entire earth, if it were not for his special physique, he could only fall asleep, maybe he had already walked out of his own way in the Primordial Era.

He has a mind and a measure!

I won't be furious because of the little ignorance and disrespect of this silver horn tribe saint!

Yin Gu Road rises into the sky!

His body exudes the breath of the emperor!

With one hand down, hundreds of millions of runes poured down between his fingers.

Each rune is full of Yin Qi, these runes seem to be the size of a human head, which contains part of the supreme tradition and inheritance.

The runes fell one by one, making the blue dragon beast unprepared!

"Even if it is a chaotic beast, what can it do? I can only bow my head in the face of the emperor's parents and children! The divine beasts bred from this chaos are endless! But the emperor is unique in this world, even though thousands of times have passed, How many people can stand in that realm?"

Some people are sighing, in the eyes of others, the incomparable blue dragon beast is fragile in front of Yin Gu Dao as a toy!

One by one runes fell down, making the body of the azure dragon beast directly frozen into a sculpture!

The Canglong Divine Beast also fought hard. He used space turbulence to wrap himself up, trying to use the space fragments to crush the runes and protect himself, but these runes flowing from the Yin Gu Dao can directly travel through time and space. Obstruct and resist the side of Canglong Divine Beast.

Fang Yue was shocked when he saw this scene.

He is also proficient in space heaven, and originally thought this space heaven is unparalleled in terms of life-saving.

I didn't expect that a master at the level of Yin Gu Dao would be so vulnerable!

Yin Gu Dao put the ice sculpture of the blue dragon divine beast into his sleeve, it seems that he is preparing to refine it and become his mount.

This is a chaotic beast with unlimited potential, and now only the sixth level of the saint realm is not enough to show all the chaotic beasts!

Yin Gu Dao defeated the Canglong Divine Beast, and a silver light emerged from the body of the Canglong Divine Beast.

The silver light enveloped Yin Gu Dao's body, and there was an extra bronze mirror in Yin Gu Dao's hand.

This mirror is already infinitely close to the level of the virtual fairyland magic weapon.

For example, the quality of Fang Yue's newly acquired long sword is much higher.

However, some people will make Fang Yue's calculations, but absolutely no one will plan the semi-virtual fairyland level magic weapon in the hands of Gudao.

The level and level of this artifact is too high for ordinary practitioners to control. The peak of the Great Sacred Realm and the artifacts of the Half-Void Fairyland level are completely two-level things, and they only need to be among the artifacts of the Half-Void Wonderland level. Inject enough virtual fairy laws, this magical artifact can reach the level of virtual fairyland!

Chapter 1795: Figures in Chaos

This virtual fairyland level magic weapon is simply difficult for ordinary people to control.

There are virtual laws in this magical device, and every virtual law needs to consume the power of the virtual fairy to activate.

Ordinary cultivators, even if they are holding magical instruments of the virtual fairyland level, it is difficult to mobilize half of their power.

The same is true for the semi-virtual immortal level magic tools. Although the virtual immortal law is not fully formed, if you want to activate it, you also need to consume the virtual immortal law.

However, this is only for ordinary people. This Yin Gu Dao is the parent and child of the emperor back then. No one can say what kind of method Yin Yang Tianzun left him.

What is the emperor? It is a person who condenses the luck of an era.

Every emperor has great good fortune and great cultivation.

They are a combination of miracles, although their deities have disappeared from this world.

But their immortality and their strength are still deeply imprinted in everyone's hearts.

No one dared to show any disrespect to those supreme beings.

Fang Yue took a deep look at Yin Gu Dao.

He is predestined with Yin Yang Tianzun, and so far, he still holds the world left by Yin Yang Tianzun!

Among them are the countless strong men who have embarked on the road of divine residence!

However, Tianzun is mysterious and noble, and at his current level of cultivation, he is far away from that terrifying existence!

Therefore, he can only feel a little bit of the former demeanor of the emperor from Yin Gu Dao.

But now it seems that maybe the emperor of youth and him also seem to be... not much different.

Fang Yue pondered that if he could cultivate to the level of the leader realm, he could almost possess the strength of this ancient Yin Dao.

Moreover, Yin Gu Dao has the body of the Canglong Divine Beast, and he also has the Great Sun Golden Crow!

The real essence of these chaotic beasts swallowing creatures can advance smoothly.

Fang Yue was also thinking about killing the guy who was not pleasing to the eye. Feeding the Da Ri Golden Crow, the strength of the Da Ri Golden Crow's bloodline and his own talents are beyond doubt, but this guy's cultivation level is still lower.

Of course bullying and bullying the saints will be no problem, but when encountering the strong at the Great Saint Realm level, they are still a little too powerful!

Yin Gu Dao retreated into the crowd.

He was low-key, did not say much, and did not show off.

Just shot it because he wanted to try the strength of this legendary chaotic beast, and he didn't mean to show off at all!

As the emperor's parent and child, he doesn't need to show off, as long as he moves out his identity, he can also shock the heroes, and even let the powerhouses of the virtual fairy and the real fairyland follow him, and it is not impossible to protect him!

After Fang Yue and Yin Gu Dao surrendered the chaotic beast, many people felt their heartbeat.

Whether it is surrendering a chaotic beast or obtaining a magical weapon that is shocking to the sky, it is something that makes them worth the risk and even their lives.

However, the dangers and opportunities may not be proportional!

Because someone has already calculated that the higher the challenger's realm, the higher the level of cultivation of the Chaos Divine Beast facing him.

Fang Yue was only at the Yin and Yang realm. Although his understanding of the laws was shocking, the conversion of his cultivation level finally made him encounter the Dari Golden Crow, who had entered the Saint Realm level!

And if it is a saint going out on the expedition, you may encounter a chaotic beast at the same level as a saint.

Someone who really dares to blast the chaotic air current, maybe even the chaotic beasts of the Great Sacred Realm level will jump out!

At this moment, the great sage has its own ghosts in his heart, and the strong of the saint realm does not even have the courage to challenge.

They guessed that the starting point for the emergence of this chaotic beast was the level of the saint realm, and they were definitely not the opponents of these chaotic beasts when confronting enemies at the same level!

"Fang Yue is optimistic. Don't close your eyes at the moment when the chaos bursts. If you miss it, you may regret it for a lifetime!"

Yin Gu Dao concealed the other party Yue Chuanyin, but his body still stood upright in the crowd like a javelin, as if nothing had happened.

Fang Yue couldn't help being nervous.

He held his breath and looked at the endless chaotic air!

Are these chaotic airs about to burst?

There was a whisper in Fang Yue's heart.

Could it be said that they let the chaotic sacred beasts be born out of this chaotic air, and it is not the correct opening mode to win the battle and obtain the magical weapons guarded by the chaotic sacred beasts?

Fang Yue's thoughts have not settled yet.

Sure enough, there was a stream of colorful light shining down in the chaotic air.

The chaotic air in the sky suddenly kept tumbling like hot boiling water.

The chaos burst, the scene shattered to the sky, it seemed to be the scene when the chaos first opened, and it seemed to be a sudden change in the ancient battlefield!

Fang Yue's gaze was not an instant, looking at the chaotic beast, his eyes became indifferent and hollow, all the emotions in his mind disappeared, and replaced by a special state that penetrates the vain and has no emotions!

He seemed to dominate everything and became the only supreme in this world.

This is the magical power that Fang Yue had realized many years ago-the Eye of Deception.

This delusion-breaking eye requires absolute reason to maintain every strand of thought in the mind will suppress all emotions, too much forgiveness!

At this time, the sky is drooping. The chaos rolled, and finally there appeared a series of colorful lights, transforming hundreds of millions of scenes!

These scenes are bizarre, there is the battle for hegemony between the gods and demons when the confusion is first opened, and it is also the thorny thorny when the human race rises.

Fang Yue's comprehension of all kinds of things, the whole person seemed to be standing beside the long river of time.

He saw everything, but he didn't seem to see anything.

Because every scene was printed in his mind, appeared and then disappeared!

Fang Yue's powerful spirit power actually lacked the ability to remember one scene.

Not to mention the others, all of them covered their heads in pain.

The scenes portrayed by these colorful rays of light made their minds unbearable and almost burst, whether it was a great sage or a virtual fairy!

Only the gaze of Yin Gudao was always looking at the colorful light, and two lines of tears flowed from the corner of his eye.

He seemed to see a different scene from others, and his whole mind was greatly moved!

Fang Yue didn't move, because he didn't care whether the pictures in his mind could be remembered.

This indifferent state prevented him from having that kind of headache.

What really hurts people is not the colorful glow, but the obsession in people's hearts!

In the void, ripples continue.

A group of figures fell from the nine days.

These figures are blurry, without any details for reference.

When there is an immortal king, one foot flattened half of the mountains and rivers, and there was also King Kong roaring to subdue demons and demons! There is also a real dragon manifesting, causing hundreds of millions of creatures to crawl and worship!

Each of these figures appeared and then disappeared.

It's like a passerby in this world.

"Are these people the former Tianzun, the former emperor?"

Fang Yue was silent for a long time before he said to Yin Gu Dao.

Yin Gudao nodded: "Except for them, who else is qualified to make chaos imprint, but in order to preserve the origin of the universe, they have already left this world! A heavenly person, in exchange for a reincarnation, I don't know if this price is true. It's worth it! You know, even if they come to the immortal world, they are the strongest! If they never leave, what kind of calamity in this world cannot be suppressed or destroyed?"

A touch of sadness flowed in Yin Gudao's eyes.

He is Tianzun's parent and child, and he knows more than some old antiques!

Yin Gu Dao didn't expect that Fang Yue could actually see it.

Because he has the blood of the emperor in his body, he can see from the beginning to the end without any influence.

And what is Fang Yue?

No history, no background.

Because Yin Gu Dao felt a touch of inexplicable familiarity with him, he secretly transmitted the sound, asking him to try whether he could see the old figures of those emperors.

Unexpectedly, he actually succeeded.

Could this be a special **** left by his father when he was alive?

Yin Gu Dao has a lot of thoughts about the heavens, about Tianzun, about that era.

Each of them is the coordinate of an era, and no one can shake their position in the long history.

This involves some quite ancient secrets.

And the reflections of the past time imprinted by this chaotic air are even more revealing of these secrets.

After a while, the chaos exploded.

Strands of chaotic air are hanging down from the sky!

The colorful rays of sunlight scatter in all directions.

Some responsive people already showed excitement in their eyes.

They took the initiative to capture the wisps of glow in the void, which were the light of the primordial beginning, evolved from the power of chaos.

Every ray of sunlight is invaluable, and can be used to understand the principles of Taoism and even assist practice to break through the realm.

If the ten rays of Xia Guang are refining and refining together, there is a certain probability that they can form the Qi of the Beginning.

The value of the Qi of the Beginning is higher, and even the strong at the Great Sacred Realm level will benefit from it and break through the realm.

However, Fang Yue didn't have much interest in those Qi of the Beginning, his eyes were already aimed at the Qi of Chaos that was scattered in the void!

Compared with the Qi of Chaos, what is the Qi of the Beginning?

Chaos produces all things, and even chaotic beasts can evolve from it.

As long as he has sufficient means and skills, Fang Yue can even use these chaotic auras to revive some ancient people who have disappeared in the long river of history.

The difficulty of collecting Chaos Qi is also extremely high.

Most people, even if they are Great Sages or Xuxian, need to be cautious when facing Chaos Qi.

If one is not careful, they may steal the chicken and fail to eclipse the rice. Not only will they not be able to refine the Chaos Qi, they will be contaminated and assimilated by the Chaos Qi, and eventually they will get in!

Chapter 1796: Death of the Raider

When most people were collecting the colorful glow, Fang Yue turned his attention to Chaos Qi.

His understanding of Chaos Qi is far better than other practitioners present. He has encountered Chaos Qi several times in the course of his practice. Even the empty body contains Chaos Qi, but its chaotic Qi Quite thin, not even one-thousandth of the concentration of the chaotic air in this Primordial Star!

Fang Yue raised his hand and took it in the void.

Then wrap the Chaos Qi in the space debris without contaminating it.

This chaotic air is weird and terrifying. It has great luck, but it also contains great terror!

Fang Yue successively sealed the chaos, every time he worked carefully.

At the same time, Kong Kong also appeared.

It is also secretly collecting the Chaos Qi around it.

There is no way, it is still devouring too few things. The realm is at best comparable to practitioners of the leader realm level. Because of the special physique, it may be able to withstand the attacks of the strong saint realm, but it encounters the great holy realm level. Existence must be to stop cooking immediately.

Kongkong still had a small iron pot on his head, and now Kongkong is Xiaotie's little brother.

Xiao Tie's cultivation base entered the realm so quickly, Fang Yue used little iron to refine the pill when he was free. Each pill started at the level of the saint, and even the pill at the big holy level. It is often baked, and the medicine in it will penetrate into the body of Xiaotie from time to time.

Xiao Tie is now a magic weapon comparable to the Great Sacred Realm! It is extremely strong, and it's black and shiny, and even the strong at the Great Sacred Realm level may not be able to do it.

Xiao Tie is responsible for covering the sky, and the amount of Chaos Qi secretly collected will be 30% to honor the boss of Xiao Tie.

Kongkong seems to be an old scalper, paying for Xiaotie without any regrets.

Such a wonderful combination immediately attracted the attention of many people.

"This is Fang Yue's weird pet?"

A rat spirit on the eighth floor of the Saint Realm in the Wanhua Universe looked at Kongkong.

It has a pair of mouse eyes glowing, and if it can get this empty, it will be a worthwhile trip!

This empty body itself is capable of gestating Chaos Qi, and it can also absorb Chaos Qi nearby.

These chaotic auras are invaluable. It is not that he does not want to collect them, but lacks the necessary means.

And this emptiness made up for his last regret.

This makes the greed in his eyes flourish.

If he had this emptiness, he would wait if he could get countless Chaos Qi.

He is also arguing with these big guys for a shit, his small body is simply not enough to cut.

But this empty space is the most suitable for him.

If this chaotic air didn't burst, this mouse spirit would definitely not dare to make empty ideas.

Who is this empty?

This is Fang Yue's pet.

Give him ten courage, he dare not move Fang Yue's pet.

This will be stolen away in an empty space, he doesn't even have a place to run!

But now Fang Yue is collecting the Qi of Chaos, he cannot be distracted for a moment, and the Qi of Chaos has lifted the blockade of the Primordial Star. As long as he can escape from the Primordial Star, he will be able to leap in the ocean and the sky is high. Niaofei, even if Fang Yue has great potential, how can he have great talent? In the end, isn't it going to eat dirt behind his ass?

The mouse spirit became more excited as he thought about it.

Then he moved into action.

The mouse spirit looked around and found that no one was peeping into the sky, and he had no competitors.

However, the rat spirit lifted up his sleeves to cover the jingle of the robber, and suddenly shot towards Kongkong.

Several black rays of light rolled in the direction of Kongkong.

Empty can't help being taken aback.

What is this special girl?

Kong Kong did not hesitate, opened his mouth and swallowed the black light directly into it.

In the next moment, the mouse spirit found that he had lost all contact with those black lights.

The mouse spirit was stunned!

This is his natal black light, capable of sweeping away thousands of magic weapons in this world, which combines the two laws of darkness and plunder, which is his talent and magical power.

This life black light, tried and tested, once allowed him to take away the treasures of many powerful men in countless melees.

It also gave him the title of Loot Rat.

But now, his time-tested natal Black Light was actually eaten by Fang Yue's pet.

What kind of thing is this!

Is your little pet so good at breaking?

At this time, Xiao Tie also discovered the existence of the Treasure Rat.

This Kongkong has just been born, with a simple mind, and his brain is not easy to use. This is understandable.

However, it has been following Fang Yue's scams and abductions for many years. It has long been thoughtful and has a wealth of experience.

Xiao Tie immediately realized that the Treasure Rat was a bad person.

Therefore, the little iron pot shook, summoning the sky full of thunder and slashing towards the rat's head.

There is a faint curse in the purple thunder.

This was originally Fang Yue's ability but was directly learned by Xiao Tie.

The treasure rat was stunned!

What is this thing?

An iron pot can also be refined, can actually summon endless thunder?

However, the Treasure Rat did not produce fear, on the contrary, the greed in his eyes was even greater!

This Fang Yue is indeed the Son of Destiny, everything on his body is invaluable, not only the value of this Kongkong is extremely high, this iron pot is also extraordinary.

If he can get the iron pot in his hands, his position in the Wanhua universe will definitely increase!

The Raiders cast their gaze on Xiao Tie, and after the thousands of thunders fell, they all stopped three inches above the Raiders' head.

A layer of invisible gas shield blocked all the thunders and turned them into phantoms.

Since the Raider Rat is known as the Raider Rat, the treasures on its body are naturally infinite. It combines offense and defense, and is quite powerful.

The method used by the Treasure Rat just now was an invisible gas shield, which he had touched from the body of a strong man at the peak of the Saint Realm.

This invisible gas shield can resist all attacks below the Great Sacred Realm.

Of course, every time you use the invisible gas hood, you need to infuse a huge amount of true energy.

Before the energy in this gas mask is exhausted, no matter how harshly it falls on this treasure rat, it will not be able to cause any harm to it!

Fang Yue looked at this treasure rat, in fact, he had discovered the existence of this treasure rat long ago, but he felt that the realm of the treasure rat was not enough, so he has always been bothered to pay attention to this guy.

But I didn't expect this guy to have an inch. After seeing the strength of Kong Kong and Xiao Tie, he even wished to take away the two little pets.

Fang Yue couldn't help being angry.

He had already killed a lot of people, and he thought it was a magnificent military exploit, enough to frighten these young people.

But I didn't expect these short-eyed guys still didn't learn the lesson and didn't put him in the eyes.

Fang Yue was annoyed, bleeds and lays his body for thousands of miles.

But just when he wanted to make a move, Kong Kong made a move first!

Feeling after nothing.

Only now I realize that the person who came from this treasure rat is not good.

There was a trace of anger in the empty heart.

Kongkong is so cute, you hateful fellows still want to kill Kongkong!

Kong Kong is angry, Kong Kong is really angry this time.

Kong Kong is very angry, and the consequences are serious.

In the empty body, a black arrow shot out from it.

The arrow was pitch black, as if it could absorb all the light in the world.

The moment an arrow flew out of Kongkong's body, the whole world seemed to be much dim!

The arrow took his life and flew towards the body of the robbing rat.

The Treasure Rat was a little caught off guard, he didn't expect this Kongkong to be so powerful.

In the black arrow, he felt a deadly threat.

Arrows of this level shouldn't be displayed in a vacuum.

The black arrow arrived in a flash and fell on the invisible gas shield.

However, at this moment, the gas shield that could easily withstand Xiaotie Endless Thunder was torn apart as if it were paper.

The Treasure Mouse reacted extremely quickly. He took out a small shield and resisted it in front of him.

With a bang, the arrow and shield collided with each other.

However, the shield is still fragile.

The shield was torn apart.

The black arrow easily penetrated the body of the Raider Rat.

The Treasure Rat's eyes opened wide, and all of them looked horrified.

Because behind that shield, he still has a layer of defense.

The Treasure Rat is very life-saving, and there is a thin layer of soft armor on his body.

This soft armor is a magic weapon at the peak level of the Saint Realm, and it resists attacks from the Saint Realm level. Even a powerful person who has just entered the Great Saint Realm level can hardly kill him with a single blow.

But this is extremely valued by the Raider, and the soft armor that is considered a life-saving thing is so fragile!

When the black arrow penetrated the soft armor, there was no slightest hindrance, it directly tore it and penetrated!

The Treasure Rat's eyes were unwilling. In any case, he couldn't figure out exactly what substance the black arrow was that could penetrate his body and his soft armor!

And Fang Yue, who was watching the battle next to him, felt like he had some understanding.

Unexpectedly, Wukong was even more professional than him in the use of Chaos Qi!

The previous arrow was actually not Kong Kong's own ability, but the chaotic arrow in the Primordial Star was refined by it.

Chaos produces everything, and Chaos Arrow also has all kinds of incredible abilities!

With a bang, the chaotic arrow pierced into the Raider Rat burst apart.

The carcass of the Treasure Rat instantly burst into ash and annihilated!

When the Treasure Rat fell, the Chaos Arrow also annihilated.

When Fang Yue saw this scene, not only did he not praise Kong Kong, but instead he clutched his chest and said distressedly: "Prodigal son, prodigal son, who let you kill this robbing rat? This rat is worth a lot. If you live, you can take him All the treasures you get will be exploded!"

Kongkong was full of grievances.

Who knows there are so many moths in your heart.

However, Xiao Tie took a credit for showing a storage ring out of the pot.

At the moment before the rat fell, this little iron actually snatched the storage ring of the rat!

Chapter 1797: Kill Yin Gu Dao

"My little iron is still sensible. Know what his father wants!"

Fang Yue took the storage bag that Xiao Tie handed over, his face was already blooming with joy.

Because he opened the storage bag and saw that there were clearly piles of magical artifacts in the storage bag. The grades of these magical artifacts were not low, all of which were above the saint level.

There are also some precious materials that can even be used to forge magical artifacts at the Great Sacred Realm level. Some materials, just a little bit, are enough to make countless saints jealous and even sacrifice their lives for him!

When the people around saw this scene, their hearts were twitching slightly. This Fang Yue was too abnormal. Not only was his strength value superb and amazing, but now his pets were all so powerful and sinister.

What was the origin of this little iron pot? They didn't even notice when they shot it.

This storage bag appeared in Xiao Tie's hands inexplicably, and there was nothing that seemed so powerful before.

The Treasure Rat is a well-known existence in the Wanhua Universe. He has stolen the treasure house of the Great Sacred Realm but has not been caught. Wanted by the forces, but so far, he is still at large, enough to see his dexterity, but in the end he was planted in the hands of Fang Yue's two pets.

The treasures were all out and still did not resist Kong Kong's sneak attack.

Some people regret that it's a pity that this looting rat died.

But more people's eyes fell on Fang Yue's two pets!

"This Fang Yue must die, there are too many secrets in him, just a spiritual energy clone is not enough, he must also kill his deity!"

Some spies in the Wanhua Universe said in secret that his heart was ruthless. As Wanhua Universe's advance troops, their main task was to collect information for Wanhua Universe. Of course, they were in the process of collecting information. It is also necessary to kill all the people in the Ten Thousand Worlds Universe who are obstructing their future invasion of the Ten Thousand Worlds Universe.

This Fang Yue is on their list now, but they have not yet figured out how to deal with Fang Yue!

Fang Yue knew that he was showing off!

It's just that he is strong alone. Now that even pets are so awkward, they will inevitably be jealous. However, Fang Yue doesn't care about such a situation, because he is also a celebrity now, how can he do without a reputation?

When the Wanhua Universe came, Fang Yue knew that he was destined to be unable to keep a low profile.

He will walk from behind the scenes to the front desk, and kill until the sky is broken, and everyone is in awe.

The Four Wings, as well as the short-eyed Treasure-Raising Rat just now, are all his examples of killing chickens and scaring monkeys.

However, just they are not enough, Fang Yue still needs a large number of strong people to be the cornerstone of his power.

As the so-called one general is successful, ten thousand bones are dead.

Now Fang Yue felt that there were not enough bones under his feet!

Fang Yue's pet turmoil soon calmed down.

Because this chaotic air is gradually dissipating, the next test is about to come!

Every saint, the great saint's mood is almost no different from that of a mortal, because the trials they face are more dangerous than the others! These tests make the powerhouses of the Great Sacred Realm full of the possibility of fall!

Suddenly, the wind howled.

A group of figures emerged in the void.

These figures are dressed in ancient costumes, but their faces are rather vague!

Their number is about hundreds of people, standing in front of everyone to face off.

"What's the situation? Could it be that these figures are the next test?"

Fang Yue murmured to himself, the test of this primordial star is quite nonchalant!

It's magma again, and it's chaotic.

The handwriting tested by this early star is quite atmospheric.

At this time, Yin Gudao slowly said: "Everyone, if you want to give up, it is still too late to leave! This test of the Primordial Star should be left by a stunningly talented true immortal! He left behind in the void. The life imprints of the powerhouses of this group set out today's game!"

Yin Gudao pondered for a moment, and then said: "These imprints reflect the strongest people of a certain era in the past. They started with the virtual immortal, and even possess the imprint of the real fairy-level powerhouse! Who can Defeating these imprints is indeed qualified to obtain immortal artifacts, but the reflection of these imprints is a person who has left unparalleled elegance in history. It is not easy to defeat them!"

Yin Gu Dao has extensive knowledge and his father is Yin Yang Tianzun.

There was a slight desolation in his heart. Seeing these figures, he couldn't help but think of his father.

Even if it is invincible in the world, in the end, it will not blink into dust in the long river of history.

His father and emperor have already disappeared from the universe of Ten Thousand Realms, and these strongest people in the past who have left their mark on their lives, their endings are not much better!

"Huh, Yin Gu Dao, although you are the parent and child of Yin Yang Tianzun, you are not qualified to despise any of us! Your father and emperor have already left this universe of ten thousand worlds before countless civilizations, without the Yin Yang Tianzun's brush. According to photos, you are

nothing! Today's times are different. You are no longer the superior blood of the emperor. It is said that the blood of the emperor contains the supreme secrets. I don't know when you will become the dish we wait for. , Swallowed your blood, see if we can also appreciate the supreme dignity of the emperor back then!"

A fierce beast revived from ancient times slowly said, his deity is a Qiongqi of the eighth level of the Great Sacred Realm! The blood in the body is not pure, but it is much stronger than ordinary creatures!

That Qiongqi is deliberately reminding people that this Yin Gu Dao itself is a walking treasure. If the human emperor's blood is refined, it will be able to appreciate the emperor's extreme realm after refining, and even have a certain chance of being able to understand that year. The Yin-Yang Taoist tradition left by Yin-Yang Tianzun in Yin Gu Dao!

When the Qiongqi's voice fell, many people began to look at Yin Gu Dao.

How many people can Tianzun have since ancient times?

The entire Wanhua Universe has never seen a few Heavenly Sovereigns throughout the ages, and the Heavenly Sovereign's bloodline is extremely respected, but if they can refine and swallow the human emperor's bloodline in this Yin Gudao and get a little human emperor's lineage, they will not be considered this time. False trip.

Yin Gudao did not expect that he kindly reminded him that he would end up like this.

Fang Yue curled his lips and said, "My Lord Yin Gu Dao, the Emperor only taught you the supreme practice, but didn't teach you the sinister heart? There are not many good people among these people, so what do you think of them? Use it? Do you think they will really retreat? Master Yin Gu Dao, you think it is too simple!"

Fang Yue sympathizes with this Yin Gu Dao. He never knows how many civilized epochs before he began to sleep endlessly. It was not until this era that he woke up. If it is about talented combat power, there are few people in the sky and underground. Opponent, but in terms of people's hearts, the son of the emperor is probably a little confused, so it's not so clear!

Yin Gudao was a bit dazed.

He was also a little horrified at the scene before him.

He was obviously kind, but he didn't expect to be thought of like this.

People are immortal, probably what they are talking about! Yin Gudao felt sadness in his heart.

How could there be such a thing in this world!

However, Fang Yue did not speak any more to discourage Yin Gu Dao. After all, this was the heir of a human emperor, and even if it was unhelpful, there must be a means left by the human emperor.

Don't look at these people in front of you as being a great sage, a virtual immortal, five people and six people. They dare to walk sideways in this ten thousand realms, but in front of the human emperor, they are nothing, even if the human emperor left behind. The means are enough to make them unable to eat!

"If anyone wants to get the blood of the emperor in my body, please do it. After passing this village, there may be no such shop! I just regained my life. After I reach the level of a sage, I will break into the Saint Realm level. , The so-called Great Sage among you may not be my opponent!"

Yin Gudao's voice was cold and cold, and said to those who were staring at him.

Yin Gudao's heart was already quite annoyed, but there was not the slightest wave or emotion in his tone.

This is the basic cultivation of a prince's heir.

But what Yin Gu Dao said, on the contrary, made those who want to attack him feel jealous. They think of the origin of Yin Gu Dao and the attitude of Yin Gu Dao who is actively calling noisy now. Perhaps the hands of Yin Gu Dao Are there any hidden cards?

Those people looked at each other one by one, just now they still had an eager expression, but now they are wide-eyed, and no one dares to take the initiative!

Yin Gu Dao snorted coldly, and said to the Qiongqi: "Didn't you just say that you want to take the blood of the Emperor in my body? I'll give you a chance now, you do it!"

Yin Gudao shouted at that Qiongqi.

Qiongqi was a little panicked.

He has vaguely felt a trace of the emperor's demeanor on Yin Gu Dao, although these demeanors are all from Yin and Yang Tianzun, the shadow that remains on Yin Gu Dao's body!

"You are unwilling to make a move, then I will come! Everyone in the Wanhua Universe is ordered to kill the prince at all costs!"

A strong man in the virtual fairyland finally made his move. He came from an extremely ancient tribe in the Wanhua Universe.

He is the protector of a young generation of masters in the Wanhua Universe, but at this moment, he has changed his responsibility on his shoulders and took the initiative to attack Yin Gu Dao!

This Yin Gu Dao is the heir of the human emperor, and there is a certain possibility that he will reappear the demeanor of the human emperor, and he will be a more dangerous factor of instability than Fang Yue!

So he decided to kill the prince heir even if he was fighting for his own life!

"Okay! Chen Yuan, you are responsible for killing Yin Gu Dao, and the rest of the human race is left to us!"

Another elder of the imaginary fairyland level of Wanhua Universe appeared. He was a strong human race looking towards Wanhua Universe with a gloomy face. Beware of them disturbing Taoist Guardian Chen Yuan and killing Yin Gu Dao.

Chapter 1798: Tragic sea snake spirit

Wow, Wanhua Universe echoed a hundred responses.

Two masters of the virtual fairyland level took the lead, and nearly a hundred people walked out of the crowd. The strong men in the flower universe, among them, took the saint realm as the starting point, the great sage, the virtual fairy, everything!

And that Qiongqi was standing on the side of the Wanhua Universe. Although he was also a powerful creature in the Ten Thousand Worlds Universe, he still stood firmly on the side of the Wanhua Universe.

The meaning of this is very simple, he has already betrayed the Ten Thousand Worlds Universe and became an accomplice in the Ten Thousand Flower Universe!

Fang Yue's face changed slightly, and he even saw the shadows of many Wanjia universe creatures behind the strong man in Wanhua Universe.

They don't have the distinction of territories, they just hope to get a share when Wanhua Universe kills Yin Gu Dao!

Fang Yue Lengsi said: "Back then, the emperor was the common respect of all races, calmed the calamity turmoil, and wiped out hundreds of thousands of thieves. In order to preserve the longevity of a civilized era in the universe, he was willing to step on the road of no return! , The Emperor Human left, but his heirs were besieged by the descendants of the ethnic group he had protected! If the Emperor Human knew what he would think?"

Fang Yue's tone was full of sadness and sarcasm!

This Wanhua Universe is sympathetic to Yin Gu Dao, because they are originally hostile. It is what they should do to stifle the danger in the bud, but even the creatures of the Ten Thousand Universe finally betrayed the human emperor's will. Some unruly taste!

A sea snake spirit of the Ten Thousand Worlds universe hid before and after the powerful man in the Ten Thousand Worlds universe. Fang Yue shouted: "Fang Yue, don't be arrogant! The end is coming! After this Yin Gu Dao was killed, The spearhead of Hua Universe will point to your throat, and then you will even be razed to the ground, even your home earth, and you will never be overborn in the bottomless abyss!"

The sea snake spirit is quite arrogant and public.

He didn't pay attention to Fang Yue. Nowadays, the powerhouse of the virtual fairyland on this battlefield has become the dominant player. How can a beam jumping clown like Fang Yue make too much trouble?

"You little long worm, stand up for me if you have the ability! I want you to know why this peach blossom is so red!"

Fang Yue pointed to the sea snake spirit and threatened him.

There was an indifferent murderous in his voice.

He hated this sea snake spirit even more than the strong man in Wanhua Universe.

A sea snake spirit on the sixth level of the Saint Realm dared to make a noise with him. Could it be that he thought Fang Yue was a vegetarian?

The sea snake spirit is not as good as Fang Yue's combat power, but it is relying on the shelter of Wanhua Universe and the fox is fake.

Fang Yue couldn't help but sinking his face, he looked at the Sea Snake Spirit, "Do you know that your actions like this will make you fall into a dead end, and you will be spurned by the endless creatures in the entire universe!"

Fang Yue's warning not only didn't let this sea snake spirit get lost, but made him even more

"Fang Yue, do you dare to do something to me? If you dare not, then you will obediently surrender. Now the overall situation is very clear. This Yin Gu Road is about to die, and you are also in disaster!"

Seeing Fang Yue didn't do anything, the Sea Snake Spirit became even more blatant and mad. He provoked Fang Yue again, with a sinister light on his face.

Compared to Yin Gu Dao, this sea snake spirit wanted to kill Fang Yue more.

Yin Gu Dao is a strong man in the ancient times. Behind him is the figure of Yin and Yang Tianzun. Although his cultivation level is still shallow, the many magical powers in his hand may not be weak. Able to win the Yin Gu Road.

Moreover, Yin Gu Dao is the heir of a human emperor after all, and he holds his own identity, and will not start with him at the level of a saint.

But Fang Yue is different. Fang Yue's background is not as deep as the Yin Gu Dao. As long as he besieged the earth, he can definitely force his deity out!

At that time, slaying Fang Yue's deity will definitely be a hundred!

However, this sea snake spirit had neglected Fang Yue's influence.

Fang Yue said to the powerful people of the Wanhua Universe who were staring at him, "I want to kill this sea snake spirit, will you stop it?"

There was a hint of sarcasm in Fang Yue's voice.

And those powerful people at the virtual fairyland level of the Wanhua Universe frowned.

In fact, Fang Yue's resistance is greater than Yin Gu Dao, because this Yin Gu Dao is after all the parent and child of Yin Yang Tianzun, his inheritance, his heels and feet are all traceable.

But this Fang Yue seemed to jump out of a crack in the stone!

No one knows how he appeared!

This Fang Yue's talent and potential are even greater than Yin Gu Dao. If he says that he doesn't have any background, no one will believe it.

Enough talent is not enough, you must have enough resources to hit it!

And this Fang Yue was able to cultivate to such a realm, in the eyes of these Void Fairyland bosses of the Wanhua Universe, it was obviously not his own credit.

The Yin-Yang Tianzun behind the Yin Gu Dao had already left the universe of the Ten Thousand Worlds, and even his Dao protector was estimated to be dead.

He was alone, even though there were some trump cards left by Yin Yang Tianzun in his hand, after consumption, it was his death date.

But this Fang Yuegui knew how many hole cards he had in his hand.

If the big guy behind him jumps out, then they will regret it too!

However, if they want them to hand over the sea snake spirit who took refuge in them in full view, their hearts are full of unwillingness.

They are powerful people at the virtual fairyland level, how can they easily bow to Fang Yue's yin and yang level junior.

What's more, if they really handed over this sea snake spirit today, in the future, when they are in the universe, who will trust them with confidence and entrust their own future and future to the hands of Wanhua universe. .

Just when the strong people of the virtual fairyland in the Wanhua Universe are all in trouble.

Fang Yue's smile became stronger.

As long as they are not decisively rejecting, that is all there is to discuss!

Fang Yue took out a brocade box at this time, and then he slowly opened the brocade box.

This is a supreme spiritual stone, this superb spiritual stone is regarded as a treasure in the eyes of practitioners below the heaven and earth realm.

But in the eyes of the virtual fairyland powerhouses present, the top-quality spiritual stone in this brocade box is not much different from the dirt on the roadside!

"Friends of the Wanhua Universe, I would like to have this superb spirit stone in exchange for the life of this sea snake spirit, can you agree?"

Fang Yue's condition is a bit ridiculous, even a bit nonsensical. What is the value of a top-quality spiritual stone?

This Sea Snake Spirit is a powerful person at the dignified saint level, this choice between the spirit stone and the saint-level powerhouse, these powerhouses in the virtual wonderland of the Wanhua Universe hardly need to spend any time and energy to make a choice!

However, just when everyone thought the overall situation was set.

A powerful man in the virtual fairyland of the Wanhua Universe suddenly picked up the sea snake essence and threw it in front of Fang Yue.

The cultivation base of this Sea Snake Essence was even sealed off by the powerhouse of the virtual fairyland in the Ten Thousand Flower Universe!

"A reptile exchanges one of your best spirit stones. This transaction is indeed a good deal!"

The strong man in the virtual fairyland has a cold expression on his face. He is high above him. He doesn't pay attention to the life and death of all beings at all. Let alone this sea snake spirit, even if his disciple can exchange their lives for the best spirit stone. He will not hesitate to exchange the things in the game!

Everyone was stunned.

This powerful man in the virtual fairyland of the Wanhua Universe should be Fang Yuean's spy in the Wanhua Universe!

A piece of the best spirit stone exchanged the life of a sea snake spirit, which is too sloppy!

This is a powerful person in the Saint Realm. Although it is not powerful in this Primordial Star, it is a supreme existence on any ordinary planet in the Ten Thousand Flower Universe or Ten Thousand Realms Universe. I don't know how many years will it take for a peerless Tianjiao to appear!

"It's a pity that you were ahead of you by Augusta. It's so straightforward to exchange the life of this sea snake essence for a superb spirit stone! Fang Yue, you see who is not pleasing to your eyes, come again with this superb spirit stone, I can help you kill it he!"

Another strong man in the virtual fairyland of the Wanhua Universe spoke. There was no joking in his words. He was serious, because if there was another spiritual stone like this, he would definitely get it at any cost. In hand!

Fang Yue shook his head slightly: "I don't have anyone that wants to kill for the time being! But there will always be opportunities for trading in the future! I believe you will be able to live after the birth of this Primordial Star's fairy!"

The conversation between Fang Yue and the imaginary wonderland powerhouses of Wanhua Universe made everyone around him feel a little inexplicable.

What are they doing?

Exchange the lives of the saints as if they were grass and mustard!

Finally, an old man in the Great Sacred Realm among the ancient tribes said tremblingly: "Could it be that the seal in Fang Yue's best spirit stone is such a thing!"

The old man's voice was filled with excitement, regret, and incredible emotions.

The emotions in his heart were tumbling, and his soul was about to fly out of his body!

Because that thing is almost invisible, there are not a few strands in this universe of ten thousand worlds!

"Yes, what is sealed inside is a ray of immortal energy. I did not expect that things that are hard to find in my Wanhua universe can be found in this remote universe! This Fang Yue is the great lucky star of my

Wanhua universe. Ah! Hahaha, if we have this ray of immortality and let us comprehend together, maybe we will be able to spy on the secret of becoming immortal!"

That Augusta got Fang Yue's celestial spirit, and he couldn't help feeling very good.

This thing is too cherished and too rare. Even if it appears in the Wanhua Universe, it has all been refined by the previous practitioners and even the powerhouses of the true fairyland level!

Cultivation at the virtual fairyland level is extremely difficult to make a breakthrough!

But with the immortal energy as a reference, those difficulties will disappear!

This immortal spirit is too precious, and its value can hardly be measured by reason!

And when Augusta's voice fell, it was tantamount to acknowledging that the seal in this top-grade spirit stone was a ray of fairy energy.

The powerhouses in the Great Sacred Realm among the ancient tribes may miss their eyes.

But there are so many powerhouses at the virtual fairyland level, they will definitely not go away!

Immortal Qi, its degree of preciousness far exceeds that of Chaos Qi.

Because the Qi of Chaos is of little value to practitioners, only a few practitioners can use it to refine alchemy, but this immortal energy is different, no matter which realm level practitioners are, as long as they are tempered by immortal energy. And baptism, refining it into the body, can make great progress in practice!

"Defense, you actually gave this immortal energy to the people of Wanhua Universe because of your own selfish interests. You are a traitor to the human race, a traitor to the universe of the ten thousand worlds!"

An old man of the human race came out to make moral accusations against Fang Yue.

There was a sense of indignation in his voice.

This is a strong man of the ninth level of the Saint Realm, and Fang Yue vaguely felt a trace of the aura belonging to the Galaxy Star Alliance from his body!

Chapter 1799: Zhongxing Pengyue

Fang Yue glanced at Kang Yue who was silent beside her.

He couldn't help sighing in his heart, the people in this Galaxy Star Alliance are indeed mixed!

There are people like Ye Wushuang, Kang Yue who stepped forward when the Ten Thousand Worlds Universe was facing a crisis, willing to let go of all previous prejudices and fight the enemy with all his strength, but there are also such irrespective villains that have reached this time. Still using the sword, not against the people of Wanhua Universe, instead, they are trying to get rid of him!

However, his accusing voice fell, but no one in the room followed his voice and accused Fang Yue. Because the people present are all powerhouses at the saint level at first, and their knowledge and wisdom are profound, how could they be fooled so easily?

These people understand that the intention of this human race is that he has a personal grievance with Fang Yue and wants to kill people with the knife.

But they don't want to be the knife in this person's hand, at least they don't have the idea of antagonizing Fang Yue now.

Because Fang Yue's own cultivation level is not high, but the methods are weird and unpredictable. Even the powerhouses in the virtual fairyland of Wanhua Universe are not ruthless against the opponent Yue Xia, they are even more reluctant to take risks. Look at Fang Yue's bottom line.

What's more, they vaguely realized that Fang Yue's alliance might be better than being hostile to them. Since Fang Yue can exchange a ray of fairy energy for this sea snake essence, he will naturally have more in his hand.的仙气.

If they can exchange some fairy qi in a peaceful way, then they would rather pay a price!

Fang Yue looked at the great sages and imaginary immortals behind the old man, those people didn't even have anyone to care for him.

The old man's face couldn't help but an awkward look!

It's such a **** situation, he has already stepped up to be the first bird, is there really no greed in your hearts?

This Fang Yue is a man with a treasure!

He doesn't know how many immortal spirits are still in his hands. If all these immortal spirits are obtained, he might be able to create a digital powerhouse in the real fairyland!

However, no one on the scene followed in his footsteps. I don't know if his appeal is not enough or Fang Yue's strength is too terrifying, and people have a strong fear in their hearts.

Fang Yue chuckled: "I think there are more people. It's really interesting that you pour dirty water on me like this? However, I can satisfy your wish. Because of your accusations, I decided to temporarily disagree. The powerhouses in the virtual wonderland of the Wanhua Universe have traded fairy qi! I just don't know if these powerhouses in the virtual wonderland of the Wanhua Universe are willing!"

Fang Yue's voice fell off.

All the powerhouses in the virtual fairyland of the Wanhua Universe changed their faces slightly.

This Fang Yue's words happened to hit their key point. If Fang Yue really stopped trading with them, then their future sources of immortal energy would be interrupted!

Their hearts had long secretly locked in Fang Yue to establish a long-term trade relationship with Fang Yue, as long as Fang Yue was willing to give them immortality, they would even be willing to become Fang Yue's bodyguard and thug.

"Fang Yue, you can't do this. What do the old things in the sage state do? He has reached the age when the oil is exhausted, and his brain has become confused! You put his words in your heart, basically There is no need at all!"

Augusta is trying to persuade Fang Yue to want to open it!

Fang Yue said helplessly: "Actually, what this old man said is also very reasonable. His righteous gaze makes my heart feel very pressured. Under his watch, I really can't betray the world. The matter that the universe entrusts you with immortal energy!"

"Under his watch? It's fine if he doesn't watch you!"

Augusta couldn't help but chuckle, he finally understood what Fang Yue meant!

It turned out that he didn't want to continue trading with the virtual immortal of Wanhua Universe, but needed their hands to destroy this eye-catching fellow.

The old man's heart was a little alarmed, he felt a sense of imminent disaster.

This Fang Yue is too insidious, he is cunning!

He was actually killing someone with a knife, wanting to kill him in the virtual wonderland of the Wanhua Universe!

"Fang Yue, you have colluded with the thieves of Wanhua Universe to murder your colleagues, you are rebellious, you are a sinner of Human Race!"

The old man shouted, but at this moment Fang Yue was already accusing the oil and salt of not entering this level.

And Augusta, the imaginary fairy of Wanhua Universe behind him, showed a hideous smile.

"Sinner? No, no, no, this Fangyue is just for self-protection, and why did you call me just now? Thief? I have practiced for so many years and no one has used this name to refer to me! But since you think I am Thieves, then I will do something that the thief should do!"

Augusta will raise his hand to seal all the true energy and mana in the old man!

The old man's face changed drastically!

He felt that all the true energy in his body was no longer circulating!

"No, you can't do this!"

The voice of the old man's shouting became smaller and smaller, because the only bit of life in his body was being emptied by Fang Yue!

"An elderly person shouldn't be so exhausted. You say how good it is for you to take care of the elderly at home, and to support you forever, with your children under your knees!"

Fang Yue said slowly, every word of his poked the old man's heart!

The old man has never had such a desire, but he always chooses to take risks in front of the interests of time and time, and choose to give up a peaceful life!

The old man can feel the vitality in his body, he knows that he must be dead soon!

The old man's eyes showed a faint perplexity!

Scenes from the past emerge, dissipate, and finally become an eternal freeze, a darkness, life and death sinking!

The old man fell, the vitality in his body dissipated.

His body has become skin and bones, and his physical body is nothing more than a corpse, where there is still the abundance and fullness of the powerful saints in the past!

Life is gone, death is forever!

The death of this old man was a wake-up call to those around him.

Fang Yue's methods are unfathomable. This is a strong man in the Saint Realm. Even if his cultivation base is sealed, he still has a powerful physical body and may not be able to defeat Fang Yue, but at any rate he still has some resistance.

But in front of Fang Yue, he was like a scholar without the power to bind a chicken, let Fang Yue's control!

Many people feel the creeps in their hearts. Will they become the old man?

"Thank you Master Augusta for your dedication! However, the amount of Immortal Qi in my hand is really small. If Master Augusta doesn't dislike it, I have a Rank Six Star Pill here, Master Augusta might as well take it. under!"

Fang Yue flipped his hand, and a nine-aperture pill appeared in his palm.

As soon as this Rank 6 Star Pill appeared, it immediately drew countless people's exclamations!

The pill was floating in the air, almost three inches from Fang Yue's palm.

There are dots of brilliance constantly falling on the pill, giving people a mysterious, rare and unpredictable feeling!

"Sixth Rank Star Pill, which contains endless star power! And it turned out to be refined by Nine Rank Alchemy, and it must have peculiar medicinal effects that other pills don't have!"

Augusta felt flattered.

Few people in this Ten Thousand Worlds universe understood the magic of this nine-turn alchemy, and when Fang Yue heard the name again, it was passed from the mouth of the virtual wonderland powerhouse of the Ten Thousand Flower Universe!

Fang Yue couldn't help but asked curiously: "Master Augusta also knows how to make alchemy?"

Augusta slowly shook his head and said: "I don't know much about the path of pill medicine, but I have a brother who is an alchemist at the level of the princes. He refines pill to achieve the realm of virtual immortality, and everything is in his mind. All can be refined into a pill! However, I don't quite agree with some of that brother's ideas! He once said that there was a secret method in this world called Nine Turns Alchemy. The refined pill has experienced nine The number of revolutions can have some magical powers. If this medicine can have nine kinds, even in ordinary medicines, it can make a supreme immortal medicine! Originally I thought this nine-revolution alchemy was just for those who like to

pretend to be gods and ghosts. The legend created by the teacher, but seeing the Rank Six Star Pill in the hands of Little Brother Fang Yue, I understand that this rumor is not false!"

Augusta didn't understand the pill, but this did not prevent him from experiencing the magical power contained in the pill.

He just absorbed a little bit of the light radiating from this pill, and he felt that his body was warm, as if he had returned to the mother's womb!

Augusta accepted Fang Yue's pill, and he valued Fang Yue more.

This living super alchemist also has such wonderful things as Xianqi, his value is definitely much higher than that of a difficult opponent! In the future, who wants to say things like killing Fang Yue, Augusta was the first to disagree!

The war between these two universes and Mao Dun are far less important than the future and future of his own practice in his eyes!

Yin Gudao waited for a long time beside him, and he was ready for a **** battle on the battlefield.

But the rhythm of all this was disrupted by Fang Yue!

Fang Yue robbed him of all the limelight, and now everyone revolved around Fang Yue, even directly treating him as air.

Yin Gu Dao had a feeling of dumbfounding, he didn't know whether it was a chance.

The imaginary immortal in the universe of Ten Thousand Realms was wondering how to please Fang Yue for making pills and immortal energy, and now no one cares about this Yin Gu Dao.

This Yin Gu Dao will grow up when it grows up!

He has only taught the first level of the main realm, and it takes at least a hundred years to become holy. From a saint to a great saint, it is as short as a thousand years, and the length is immeasurable.

When the Yin Gu Dao became the powerhouse of the Great Sacred Realm and threatened them, they might all have become the powerhouse of the True Wonderland! As for Yin Gu Dao's ability to deal with other people in this Wanhua Universe, it has a relationship with them.

People with higher cultivation bases are more selfish, because their age is already too big.

They are used to seeing the vicissitudes of life, the rise and fall of dynasties, and the changes in personnel!

For those so-called righteousness, so-called justice, there is no interest at all.

In their hearts, their own strength is eternal. They are virtual immortals, and they are big brothers in the Wanhua Universe. They let the Yin Gu Dao and Fang Yue let go, who dares to say three things. Dao Si, even if you can't understand it, you can only talk about it behind your back, and no one can slander so many powerful people in the virtual fairyland!

With the stars holding the moon, Fang Yue became the protagonist this time!

And Kang Yue was also a bit dumb. This Fang Yue seemed to be suspected of surrendering to the enemy, but he was providing a way of thinking for the Galaxy Star Alliance. It seemed that war was not the only way to restore peace to the Galaxy Star Alliance!

Chapter 1800: No top game

Fang Yue had never imagined that one day he could stand shoulder to shoulder with the powerhouse of the virtual fairyland and be called a brother with him, but this time, he has realized his dream for many years.

"I feel something is not quite right, as if I smell a familiar smell here! Back then, King Zhou came and messed up the world, and I had a similar feeling!"

Yang Jian spoke, his eyebrows frowned slightly, the vertical eyes between his eyebrows always closed tightly.

"The breath of that era?"

Fang Yue's pupils also shrank suddenly. He naturally understood what the era that Yang Jian was talking about represented!

That was the age of the Conferred God, rising in the chaos.

At that time, the stars were shining and the gods and Buddhas filled the sky, but that time was also the darkest, most turbulent, and most chaotic era.

Fang Yue once asked some people who survived that era, and they always shook their heads when they mentioned the Age of Conferred God!

Because of that era, it was extremely dark and turbulent.

Even the powerhouses in the real fairyland are just cannon fodder and ants!

The stories and myths in the "Fengshen Yanyi" circulated by the people are only a description of the corner of that era. The fierce war in it is beyond description and description in words.

That is the real chaos, the real catastrophe!

"The gentleman will not stand under the dangerous wall, and the many powerful men who have walked out of the earth will all return to the earth. This fairy weapon is attractive, but life is more important, not to mention that you have not fully recovered to the heyday of that year!"

Fang Yue made a decisive judgment, he believed Yang Jian's words.

Unfortunately, it is already too late.

The entire primordial star was once again wrapped in a strong chaotic air, and the mountains and rivers in it changed drastically, and time reversed, as if it was back to countless years ago.

This primordial star was once an endless land, in which birds and flowers are fragrant and full of aura!

In the boundless land, there are figures of gods and demons that sometimes appear, and chaotic beasts crisscross the land.

It was an extremely bright and glorious era, and even the strong in the Great Sacred Realm were just disciples!

Fang Yue saw that he was in an ancient mountain range, and all his companions had disappeared.

Only Kong Kong and Xiao Tie had a contractual relationship with him in terms of soul, so they were never removed by teleportation.

"Roar!"

Fang Yue heard a roar.

The earth was torn apart, and a fierce ape came out from it. This fierce ape had three eyes. Its realm was not very high, only the ninth level of Yin-Yang realm!

However, Fang Yue still did not dare to underestimate the three-eyed fierce apes, which are said to be fierce beasts comparable to the chaotic beasts. They came from the oldest ruins-the market.

This ruins is the ruined place left over from the ruined cosmic civilization in the past.

The three-eyed fierce ape feeds on thousands of creatures and is the enemy of all creatures in the universe.

It should have been sealed in this piece of enemy in the past, I don't know why it escaped from it!

When the three-eyed fierce ape saw Fang Yue, he immediately slaughtered him. The blood in its body is boiling, like a river rushing and surging!

Although its cultivation realm is only at the ninth level of Yin-Yang realm, its combat power level has clearly reached the level of a quasi-sage!

Its bloodline and talent are too strong, if it is allowed to step into the level of the leader, it is appropriate to be able to challenge the strong of the saint!

"I understand. This should be the brand of a certain period of time. Someone has sealed a fierce beast in a period of time and space with great magical powers. Unless the beast can be killed, otherwise, no matter what it is difficult for anyone to get out of the seal of this time!"

Fang Yue is proficient in time and space, and he understands this method even he has mastered it!

But he didn't expect that he would be sealed today, unable to extricate himself from the seal of time and space.

The three-eyed fierce ape was killed. He was a hundred feet tall and was able to pull the mountain. He held a mountain peak with one hand, and then the rotating mountain peak slammed down towards Fang Yue's head!

This three-eyed fierce ape is absolutely worthy of the fierce word in his name!

With mountains as weapons, this is no one!

Even the powerhouses of the ordinary Great Sacred Realm do not have such strength and ability.

Fang Yue suddenly realized that he was still in a trough of the three-eyed fierce ape's combat power. Its body was extremely powerful, and he estimated that even the body alone could punish an ordinary saint!

"set!"

Fang Yue didn't mean to fight these three-eyed fierce apes, and Fang Yue never forgot that he was still in the primordial star!

People who came from the earth this time don't know him and Yang Jian, there are many other strong people!

While Fang Yue was saving himself, he also wanted to find a way to rescue everyone else.

This earth has just recovered now, even a saint is extremely important and cannot be easily sacrificed!

An eternal fairy light fell on the three-eyed evil ape.

The body of this three-eyed fierce ape couldn't move a minute, he just raised the mountain in his hand, but he couldn't drop it all the time!

The body of the three-eyed fierce ape freezes, and even the speed of blood flow in his body is slowing down!

The three-eyed ape immediately realized that he had encountered an opponent. But its character is unruly and rebellious, and would rather die than surrender, even if it is a war dead, than to bow and surrender to Fang Yue!

Fang Yue didn't have time to convince people with morality with these three-eyed fierce apes.

He slapped the head of the three-eyed fierce ape to pieces.

The blood splattered three-eyed ape who died on the spot is no longer able to die!

Then Fang Yue stripped the blood from the three-eyed fierce ape into a blood projectile!

If this bloodline projectile is used well, he might be able to create a three-eyed fierce ape again in the future.

If it really doesn't work, Fang Yue himself can refine this bloodline pill to strengthen the bloodline of the Ten Thousand Devouring Devil Body in his body!

The more blood that this Ten Thousand Devourers devours, the more noble, the stronger his power.

Even Fang Yue now finds that he can even break the realm directly as long as he swallows a powerful enough bloodline.

The three-eyed ape fell.

The world around Fang Yue slowly dispersed!

Fang Yue saw the loneliness of the surrounding mountains and the strong chaotic energy above his head. He immediately realized that he had returned to the surface of the Primordial Star and returned to normal time and space!

He looked around again, and unexpectedly saw small transparent bubbles floating around him.

There are still figures moving in this small bubble.

One piece after another is reflected in the different world!

Some bubbles are shaking with human figures, and some are silent environments in which there is not even a bird's feather!

"I understand, this Primordial Star was supposed to be a cage of powerful creatures in ancient times! These bubbles should be the time and space fragments that trapped them! In order to seal a beast, I finally chose to use an era for funeral! This Primordial Star What kind of handwriting did the former master have!"

Fang Yue observed the bubbles one by one.

The powerhouses who have descended on the Taichu Star before are all trapped in different space bubbles!

The fierce beasts or big demons in these bubbles have roughly the same strength as the strong ones involved!

At least they are consistent in realm, but in terms of combat power, the powerhouses who have descended on the Star of the Beginning this time are obviously at a disadvantage!

Their bloodline level is not enough, and their insights into secret methods and exercises are not deep enough!

When encountering those who dominate an era, they are basically hanged.

Of course, there are exceptions, such as classmate Yang Jian.

Yang Jian is really unfathomable, his opponent turned out to be Kunpeng who is a strong virtual fairyland! Kunpeng is vast, with wings covering the sky.

But this Kunpeng hadn't displayed his strength yet, he was stared to death by Yang Jian!

That's right, it was stared to death!

This Yang Jian has a lot of means, the flesh is sanctified, and he also has a heavenly eye.

Viewing the entire Conferred God List, there are only two people with heavenly eyes.

One is the old lady teacher Wen Zhong! His heavenly eyes can understand good and evil, and argue against loyalty and evil.

And the second one is classmate Yang Jian, his heavenly eye possesses supreme magical powers, a beam of light can fall to the dead, flesh and bones, and can penetrate the world at the same time, no one can stop it!

This Kunpeng was stared to death by Yang Jian!

A beam of light fell directly through Kunpeng's eyebrows!

Although Kunpeng is strong, he has to stop when he encounters a BUG-level killer like Skyeeye!

Kunpeng was killed by Yang Jian, and Yang Jian's time and space seal was unlocked by himself.

But others are not so lucky.

Fang Yue saw a great sage of the four-winged clan meet a gluttonous head.

Taotie opened his mouth and ate the four-winged tribe directly.

The Four Wings are reborn once, and this gluttony is once digested!

Among the chaotic beasts, this gluttonous beast can be regarded as the top existence!

Its existence lies between the divine beast and the fierce beast, and its position is difficult to determine, but its supernatural power and strength are absolutely beyond doubt!

The gluttony can even swallow the world directly.

And the four-winged tribe's ability and gluttony is not the same level!

Fang Yue also saw some scenes in which the Wanhua Universe experts took action from other bubbles.

For example, Fang Yue's old customer Augusta, this Augusta is definitely really powerful.

When he was fighting with a snake, he even vaguely gained the upper hand.

He came up with all the rules at his fingertips.

Sometimes the void beasts in the void can be summoned to help out.

At the level of the virtual fairyland, the gap between the bloodlines is narrowing.

Who can become a virtual fairy who is not a stunning person?

Some of their methods are already comparable to talented supernatural powers!

Just when Fang Yue watched it with relish.

Chirp.

A bubble shattered!

What fell in the bubble was not the outsider who had descended from the Primordial Star who wanted to seize the immortal weapon, but a saint-level divine beast and shadow Luo Huo!

This shadow Luohu is a kind of extremely partial divine beast!

It lives by killing, devouring death and killing.

The more killing and death air it swallows, the faster it will be promoted!

After Fang Yue saw that Luohu, his first thought was to run away.

This saint-level shadow Luo Huo is already comparable to the existence of the Great Sage!

His little arms and legs definitely can't do this kind of beast!
