

## God of Life 1841

### Chapter 1841: Tenth floor

Soon Fang Yue and Mengying sent Fang Yue to the ninth floor of the city.

The gate of this city is a hundred feet high, and it is the two strong men who are in charge of guarding the gate.

When they saw Mengying coming, they came forward to greet them from a distance.

"I have seen Grandma Wang, and Miss Wang!" The two guards showed respectful expressions after seeing Mengying and Grandma Wang.

The guards of this sage realm are quite in awe of both Mengying and Madam Wang. Although this madam Wang is only a cultivator who has just entered the realm of sages, her status in the dream family is quite different. . Because Mother Wang is the patriarch's wife herself, she represents a huge interest group behind her. Although Mengying has outstanding talents, she won the favor of the old patriarch. But after all, the old patriarch usually spends his days in retreat and hard cultivation. As for the affairs of the clan, he rarely intervenes, and Mengying herself has not really grown up. Although the cultivation base of True Wonderland is particularly powerful, she is in the underworld The powerhouses at the level of the true fairy realm can barely be regarded as the mainstay. Therefore, in the hearts of the two guards, the status of the maternal grandmother was even higher than that of Mengying.

Mengying's face was a little ugly. He was a disciple of Gen Zhengmiaohong's Meng family, but in the eyes of these two guards, his status was even worse than that of a mother.

It seems that it is really necessary to rectify the bad ethos of the Mengjia, otherwise, if there is a habit of slaves deceiving the master in this Mengjia, then the whole Mengjia will be messed up.

Mengying felt a little uncomfortable in her heart. This time she was forced by Mother Wang to place Fang Yue in the ninth-floor city. There was a big grudge in her heart. And when these two little-eyed slaves looked at Mother Wang, they were more submissive and humble than when they looked at her, and they couldn't even tell who was the real master of this dream family.

"Listen to you two. This Fang Yue is the guest I invited with a lot of money. You must take good care of his life. If he has three longs and two shorts, I will ask you at that time."

Mengying scolded at the two guards.

Both guards nodded.

However, the grandmother Wang next to him said, "Miss, why do you have to be so embarrassed, two people. This dream family has always emphasized a law of the jungle, the weak eat the strong, the survival of the fittest. This way Yue's strength is not good. If he died in the ninth-level city, it would only prove that he was just swindling his reputation. What does it have to do with these two guards?"

Grandma Wang was like to tear down Mengying again in person.

This made Mengying's face even more ugly.

Madam Wang's words are tantamount to telling the two guards in disguise that this Fang Yue and her are at odds and need to be managed and adjusted. Even if she is killed, she is supported by Madam Wang, they don't need to bear anything. responsibility.

Mengying can bear this kind of thing, but Fang Yue can't bear it!

Your dream family's own fairy fight has something to do with me. If you two fight, you will fight, and you will get me involved and kill me. What a thing!

Fang Yue looked at Mother Wang, his face was not good.

"Mother Wang, what do you mean by this? Do you dislike me for being weak? I call someone to kill you a hundred times!"

Fang Yue looked like a gangster at this moment, blatantly provoking this high-ranking maternal grandmother in the dream family.

When Madam Wang heard Fang Yue's provocative words, she immediately went into rage and furious.

"You're going to kill me a hundred times? You turned it back, I think you can also stop the ninth floor! Just throw it directly to the tenth floor and die!"

Mother Wang roared loudly.

The two saint-level guards glanced at each other, and they actually surrounded Fang Yue in the middle.

"Dare you!"

Mengying yelled at the two guards. This is the Meng Family, not the Wang Family. How can a maternal grandma be domineering and command wantonly in front of her?

Mengying's voice fell.

Mother Wang looked at Mengying in a gloomy manner.

"Miss, the human heart is more sinister than the mountains and rivers. You are still young, and you have little experience and don't understand these rules. This Fang Yue comes from other inferior universes. Originally, his blood identity is extremely humble. He is wild and untamed. I don't know the depth. If it's bad or bad, without admonition, it's very likely to cause terrible disaster for my dream family. Instead of this, it's better to imprison him in the tenth floor for a year and a half and let him rise well Increase your memory!"

Mother Wang's words were harsh, and everything she looked at Fang Yue was not good.

As long as it is until the tenth floor is imprisoned, the life and death of Fang Yue is not left to her to decide?

When the time comes, the five-color orb must be in her bag, and she can even turn Fang Yue into her slave to refine the pill for her day and night.

"Mother Wang, you passed!"

Mengying is already trembling with anger. As the little princess of Meng Family, she has never been bullied and insulted like this. This Fang Yue Mingming is hers, but she has to let an old mother come and make it!

Mother Wang said in a gloomy tone: "On that day, when the patriarch's wife handed you over to me, it was because the eldest lady was pure and kind-hearted, so she asked the old slave to assist her. If she is not obedient, old slave I have the courage to punish the eldest lady!"

This grandma is absolutely daring.

She actually wants to do something to Mengying!

At the same time, the four mothers appeared by Mengying's side like ghosts, and the five of them stood in five different positions in cooperation with the grandmother Wang.

What the five mothers arranged was a five-element trapped sky formation, with the cooperation of the five people, greatly increasing their strength.

"Come here! Detain this Fang Yue to the tenth floor, take good care of him, if he escapes from the tenth floor, I will definitely not be able to get around you! As for Miss Mengying, her mind is pure, she made a big mistake and led the wolf into the room. , She was kept in the confinement room for a period of time to reflect and reflect!"

Mother Wang's voice was cold and harsh.

The two guards directly escorted Fang Yue to the tenth floor of the city.

Fang Yue fell into the tenth floor of the city, a strong smell of fishy smell, instantly rushing to his face!

Entering from the entrance of the tenth floor, the landing place is actually random.

Fang Yue fell into a muddy pond of flesh and blood, and his entire body was soaked in the stench of flesh and blood.

However, Fang Yue was not angry, but showed a happy expression on his face.

For a long time, he has been quite thorough in the research and application of "The True Scripture of Life" and "The True Scripture of Soul", but he has some omissions and deficiencies in the practice of "The True Scripture of Death".

The "Death Scripture" contains the true meaning of death. Only by comprehending all the three celestial scriptures and working hard together can Fang Yue's cultivation reach a higher level.

Fang Yue understands that if he wants to break through to the level of the leader realm in a short time, he must eliminate the corruption and keep the essence and sort out the main context of the cultivation base.

Although he took the path of cultivating all methods, many Taoisms are developed around the three celestial scriptures. Only when the three celestial scriptures are one step closer and merge with each other to form a reincarnation can he be able to cultivate. Reach a higher level!

Fang Yue took a deep breath.

His palm slowly lifted, and in his left hand, the black death air swirled around, and Fang Yue's palm was slowly lifted by the quagmire of flesh and blood.

This quagmire of flesh and blood unexpectedly formed a giant of flesh and blood, it was a hundred feet tall, and its body was composed of rotting flesh and blood!

With a roar, the sky and the earth changed color, and the clouds above his head were full of haze clouds.

The body of the flesh giant moved slowly.

He stepped on the earth, and the whole world seemed to be plunged into darkness and dimness.

"Ah, where did the flesh and blood giant come from? A pool of flesh and blood brewing in our royal family, in which the flesh and blood of countless cultivators has been put into it, it is of great value, comparable to a master-level magical weapon! Who is it, which \*\*\*\* dares to be? Move our royal family's flesh and blood pool, is this the life of our royal family?"

A middle-aged man who was responsible for guarding the pool of flesh and blood yelled, the blue veins on his forehead violently, and the whole person appeared irritable.

He was a disciple of the Wang family, and he was cultivating the magic power related to flesh and blood. The flesh and blood in this pool were the resources for his future cultivation. He was easily stolen in this way and became a huge figure. Flesh giants.

"A member of the Wang family? Does Mother Wang have anything to do with you?"

Fang Yue was taken aback when he heard this, and then questioned the middle-aged man.

"Grandma Wang, that is my aunt. Now that you know the name of Grandma Wang, you should know how powerful my royal family is!"

The middle-aged man straightened his back and said proudly to Fang Yue.

"Since it's your aunt, then prove that I didn't kill the wrong person!"

Fang Yue's voice was cold, and a fierce light flashed across his eyes.

A huge palm of the flesh and blood giant slammed down, as if the world had collapsed.

This flesh and blood giant was at least at the leader level, and dealing with the middle-aged man in the Wang family was like slapped to death an ant.

Unless it is Fang Yue's metamorphosis, he will be able to confront or even kill the powerful at the level of the Great Sacred Realm at the Yin Yang level. Otherwise, leapfrog killing is simply harder than climbing to the sky for ordinary practitioners.

This middle-aged man of the king's family is not a peerless arrogant like Fang Yue, so when he encounters a flesh and blood giant, he is completely afraid, his legs are trembling, and he doesn't even have the courage to move!

Terrible, terrible, how could there be such a terrible existence in this world?

The flesh and blood giant is completely invincible to the middle-aged man of the king's family.

"I am a disciple of the Wang family, you can't kill me, you can't kill me!"

However, the more the middle-aged man of the Wang family shouted, the closer he was to death.

He used the secret method to form a blood beam, and he wanted to consume a part of the essence and blood to perform the blood escape. This blood escape is a relatively classic escape technique, which can be displayed in all realms.

The effect is to increase the speed by ten times in a short time, but the price is that a part of the lifespan may be lost.

But a serious injury is better than death!

The middle-aged man in the Wang family gritted his teeth. He already secretly swears in his heart that he must catch Fang Yue and break his body into pieces after escaping into heaven this time!

### **Chapter 1842: Death of Mother Wang**

However, this king's disciple couldn't wait for this day.

Because Fang Yue never planned to let him leave.

The disciple of the Wang family came back after a \*\*\*\* escape, and suddenly found that the environment around him had not changed at all.

"How is it? Seeing me, surprises not surprises, surprises not surprises?"

Fang Yue looked at the disciple of the Wang family very eagerly, and the disciple of the Wang family spouted a mouthful of old blood.

The ghost is surprised when I see you!

But this accident is really unexpected.

I have already used the \*\*\*\* escape method just now, but why did I meet you after turning around!

The hearts of the disciples of the royal family are all occupied by a mood called despair.

How could you appear in front of me.

The Wang family disciple looked at Fang Yue desperately.

Fang Yue patiently answered the questions of this Wang family's disciple.

"I know that in your heart you must really want to know why you must be very puzzled, why you can still run into me after using the \*\*\*\* escape! Originally, I was not going to waste my tongue with a dead person, but For the sake of my better mood, I will tell you compassionately!"

Fang Yue said to the middle-aged disciple of the Wang family: "Actually, I just used the method of ghost hitting the wall! I cut the surrounding space and the surrounding world, so you will meet me wherever

you go! This small world It's just that big, once you reach the end, you will return to the original place! This is also a new method I just figured out, do you feel honored and honored as the first experimenter! Hurry up and praise me , Quickly praise me!"

Fang Yue acted like a baby to the middle-aged disciple of the Wang family. This did not make the middle-aged disciple of the Wang family feel that Fang Yue was a very cute little Mengxin. Instead, a bit of cold came to his heart!

Although he didn't quite understand how powerful this so-called ghost hitting the wall was, he felt unclear when he heard the basic principle! You all listen, what kind of method is this, the space is fragmented, and the small world is the method they should have in their cultivation realm?

Space heaven!

How invincible and lonely, how invincible, how distant and tall, how powerful and invincible.

What is the origin of this Fang Yue who knows such a sophisticated method!

The Wang family's disciple's face was as gray as death. He already understood that in Fang Yue's eyes, he might not be much different from a salted fish that would not turn over.

Although this Wang Clan disciple still wanted to struggle twice in his heart, he gave up again in his heart.

In this case, Fang Yue would be killed at most, but if Fang Yue is really struggling twice and annoys Fang Yue, his result may be worse than death! As a disciple of the Wang family, he was under great pressure.

Haven't the really powerful characters in this tenth-tier prison all been imprisoned in the middle, inner, or even the core of this tenth-tier world?

How can there be the existence of the heavenly path that understands space in this infinite outer layer close to the edge?

There are 100,000 puzzled and helpless in the hearts of this Wang Clan disciple.

There has never been such a difference in the tenth floor.

The Wang family's disciple realized that he was really planted this time. Who special mother can think of, a tiger could come out of the flock.

Fang Yue's strength is simply unfathomable. He estimated that he could break this stronghold of the Wang family alone.

"Let's talk about it, how many strong are there in this tenth-level world of the Wang family, and where are they located? If you can answer my question honestly, I might consider letting you go. After all, you are just one. It's just a small fish at the level of Yin and Yang, it doesn't matter to me whether to kill you or not." Fang Yue said lightly on his face.

Who are you talking about? You are still at the level of Yin and Yang Realm like me.

The Wang family's disciples were indignant, but he only dared to mutter in his heart, not dare to say it.

The temper of this big boss estimates how good I will be. It is already a great blessing to be able to have a way to survive.

The Wang family's disciples pondered in their hearts, anyway, when they encounter this kind of thing, they are all dead dao friends, not dead poor dao.

Originally, he wasn't the kind of person with a strong backbone, so let's just follow Fang Yue.

"My king's family has a total of 327 strongholds in this tenth-level world. Some of these strongholds are strong and some are weak. Like our stronghold, there are about 300 people in total, located at the outermost periphery of the tenth level. , So it is the weakest of the many strongholds. Our stronghold is mainly for the essence of the blood and flesh of the great figures of the king outside the family. These essences are all for the great figures to cultivate supernatural powers and exercises."

This middle-aged disciple of the Wang family was extremely afraid of death. Fang Yue hasn't asked too many questions. He already knows everything without saying anything.

Fang Yue glanced at the disciple of the royal family.

"You are really sincere. If I ask you, just say, are the Wang's disciples so spineless?"

There was a hint of indifferent mockery in Fang Yue's voice.

The Wang family's disciple suddenly felt his heart tighten. An ominous premonition came from deep in my heart.

"My lord, what do you mean? You just said that as long as I explained the situation of the Wang family, you can let me go." The Wang family's disciple felt that his body was constantly assimilating with the surrounding environment. I don't know when he will also become a part of the magical pool. This feeling made the Wang family disciples terrifying. He obviously didn't see Fang Yue doing it, but he had already been recruited.

This is the feeling that the ancestors of the Wang family and those superior powerhouses would not give him.

"What do I mean? Don't you understand it yourself? I have already probed with my spiritual thoughts just now. This area of eight hundred li is all your royal stronghold. There are more than a thousand disciples of the Wang family. The most powerful of them is already It has reached the level of the Saint Realm. There are about 80 practitioners at the level of the leader. The rest are practitioners of the Yin-Yang Realm and the Heaven and Earth Realm. Are you right or wrong?"

Fang Yue's words made this Wang Clan disciple feel cold all over.

"You, how can you know the specific situation of our Wang family?" The voice of the Wang family disciple brought out an incomparable fear.

"At the level of the Yin-Yang realm, it is impossible for the divine consciousness to be released. Not to mention the Yin-yang realm, even the leader realm, if you want to penetrate the divine mind, you need to cultivate to the peak of the leader realm!"

There was panic in the voice of Wang's disciples.

"In this underworld, the suppression of divine consciousness can be said to be the ultimate point. Generally speaking, the divine sword observes foreign objects through the body, and that is a means only available to the powerful at the saint level!"

The Wang family disciple continued.

"What you can't do does not prove that others can't do it. But your disciples of the royal family are still very sturdy and dare to lie to me in the face of life and death choices. Since you are so loyal to the royal family, then I will fulfill you. Then use your life to prove your loyalty to the Wang family."

As soon as Fang Yue's voice fell, the Wang family disciple's legs had begun to connect with the earth.

"No, you can't do this. We are members of the Wang family. If I die, I will never let you go." Fang Yue, a disciple of the Wang family, began to roar hysterically.

"Wang Jia won't let me go? That's right, I didn't intend to let the Wang family go. I was trapped in the world on the 10th floor because I was framed by Mother Wang."

There was a sneer at the corner of Fang Yue's mouth.

Sure enough, there is a sinister heart in this underworld.

The mother Wang's original intention should be to put herself on the territory of the Wang family. Then kill or tame him by the hand of the Wang family. Then robbed him of all his wealth, and all of it became Wang's belongings.

However, although this grandmother Wang was a good calculation with one heart, she miscalculated Fang Yue's true strength. He was not the same as on the surface, but an ordinary nourishing practitioner alchemist. It is a super power that can rival the existence of the Great Sacred Realm.

This time, Mother Wang must be bleeding. Because Fang Yue had already prepared to wipe out all the strongholds of the Wang Family in the tenth floor, and then plunder them all of their accumulated wealth for thousands of years.

Fang Yue thought in his heart that the disciple of the Wang family had turned into a pool of flesh in endless panic.

The death of Wang's disciples is not a pity. Fang Yue didn't intend to really judge the Wang family disciples one by one according to the standards of good and evil.

All the royal family, good or bad, will pay a heavy price because of the hostility of the mother.

Fang Yue whispered.

The flesh and blood giant suddenly became a clone that looked exactly like Fang Yue.

Development is also best at this kind of clone method, which is particularly dangerous in the underworld. Especially in this world on the 10th floor, all the people imprisoned were people who had offended the Meng Family. There were countless strong men, and Fang Yue did not plan to risk himself. So he created this flesh and blood clone. First, this flesh and blood clone can become stronger after

absorbing the nutrients from the blood pool of the gods and demons. Secondly, if there is a real danger, the most falling one is the flesh and blood clone. It won't cause much influence on Fang Yue's deity.

Fang Yue's flesh and blood clone was instantly refined. Fang Yue felt that there was an innate memory hidden in this clone of flesh and blood.

An ancient scripture flows silently from the clone of flesh and blood.

There is no name in this passage, and even the content in it is incomplete, but the passage automatically circulates in the flesh and blood clone.

Fang Yue can clearly feel that as the scriptures continue to flow, the power of flesh and blood in this avatar is constantly condensing and strengthening. This scripture consumes a lot of the power of flesh and blood, but at the same time the power of flesh and blood after concentration. But it was ten times and a hundred times larger than the previous density, and its firmness and contained power were far from comparable to the previous flesh and blood.

The inexplicable appearance of this passage made Fang Yue feel a bit weird. Where did this scripture come from? Why did he appear in my mind? Endless doubts suddenly appeared in Fang Yue's heart.

Chapter 1843? Strange Scripture

As the scriptures continued to flow in the body, this clone of flesh and blood actually shrank by nearly half in a few breaths.

Fang Yue quickly opened a storage bag and threw a corpse of Yin-Yang level into the flesh and blood clone. This corpse was crazily refined by the clone of flesh and blood. In a short time, the corpse disappeared without a trace, and the flesh and blood clone finally slowed down the shrinking trend.

"Why is the circulation of this scripture uncontrolled?"

Guessing about this scripture kept forming in Fang Yue's heart.

There was a boom.

Fang Yue's flesh and blood clone unexpectedly reached the second level of cultivation level of the leader realm.

This scripture is so amazing that it can allow practitioners to evolve themselves. As long as the energy is sufficient, it seems that relying on this scripture can continuously evolve this clone and reach a higher level.

Fang Yue showed a brilliant expression on his face.

It's not that he's rare and strange, the things Fang Yue has experienced over the years are no longer rare. I have seen any big winds and waves.

Some ancient ethnic groups even said inexplicable creatures, he also encountered many.

However, Fang Yue had never seen such a scripture. Without comprehension, no understanding, no hard practice, self-evolution can be achieved.

If this scripture spreads. Who could be the opponent of this flesh and blood creature between this world?

Fang Yue is more curious about the origin of this passage.

But this is not the time to study the scriptures. He must leave this world quickly. In the depths of this world, Fang Yue vaguely felt a shuddering breath.

Before Fang Yue had time to think about his next plan, the members of the Wang family had already swarmed from all directions to surround Fang Yue.

These kings are all brave and brave, and the blood in their bodies is boiling, as if there is a venerable heaven and earth melting pot.

"Where are you a thief who dared to steal into the blood pool of the gods and demons of my king's family. It is simply an indispensable sin to mutilate the king's disciples!"

One of the leading old men shouted at Fang Yue.

His hair is gray, but he is full of vigor. He is the cultivation realm of the fifth level of the leader realm. At the edge of the tenth level of the world, he is already a very powerful existence!

In this tenth level of the world, there are their own rules. When entering this world, the dreamers will screen the entrants on their own. According to the strength of the strength, they will invest in the different in this world. Location.

Weak in strength, placed in the marginal zone, strong in strength, will be sent to the interior or even the core zone.

And different areas are blocked by the world's diaphragm.

Only the weak can enter the area of the strong, and the reverse is impossible.

In this marginal area, there are generally practitioners below the master realm. Among them, practitioners from the master realm and above all came to this tenth level of the world and then broke through!

They can stay in this fringe area for about a hundred years, as long as the time is up, they will be drawn by the rules of the tenth world to the more inner area!

The person who sets the rules of this world is the ancestor of the supreme level in the dream family. Unless it is also the existence of the supreme level or reaches the level of the gods, no one can resist this kind of law at all. Of traction.

Fang Yuezhi's place was placed in the outermost area because of his cultivation realm.

The traction of this world law is based on the cultivation level of the entrant, who can measure the strength of your combat power.

This kind of rule is quite useful for ordinary practitioners, but it automatically forms an obvious BUG on Fang Yue's body.

Fang Yue came into this world as if a tiger had entered a flock.

No one is his opponent. Fang Yue, even a strong man in the Great Sacred Realm can break his wrists, and a strong man in the Saint Realm can kill and play casually. From the edge of this tenth layer of the world, he is simply an absolute king who is invincible.

Facing the Wang family, Fang Yue's eyes seemed to be a clown.

His flesh and blood giants trampled by, there is no need to have any explanation with them.

The flesh and blood giant stepped on it.

Those powerful men in the royal family are all flesh and blood, becoming part of the flesh and blood giant's body.

All the powerful members of the Wang family were so scared that their eyes were almost staring out!

This is where the great \*\*\*\* invited is so terrifying and terrifying!

This flesh-and-blood giant trampled to death the king's strong, while refining the flesh and blood in their bodies. In a short period of time, the powerhouse of the Kung Fu King's family was completely killed, and the flesh and blood giant smoothly expanded his body to a height of three feet.

But its body is still shrinking.

One after another runes shined brightly in its body.

Under the action of this rune, the power of flesh and blood in this flesh and blood giant is constantly compressed and purified, making its body more powerful! This mysterious scripture is extremely powerful, as if it was specially created for the special form of life form like the flesh giant!

There are endless changes and mysteries in these shining runes. Even if Fang Yue is so proficient in runes, he feels very surprised when he encounters such runes.

"The third level of the leader realm!"

In just a moment, the realm of the flesh and blood giant's cultivation level rose a small step.

And its body is only 30% of the height it had before.

The flesh and blood power in its body was constantly compressed and tempered, and Fang Yue could clearly feel the flesh and blood giant's flesh after self tempering was stronger and more powerful.

"It may be a lucky thing for this flesh and blood giant to be born in this tenth level of the world, because there is nothing else in this king's stronghold, but this kind of gods and demon blood pools. These gods and devil blood pools can evolve into flesh and blood giants. With the supply and reserves of these resources, the flesh and blood giant may be able to reach the level of the Saint Realm, or even a higher level!"

Fang Yue knew why he was not taken seriously in the dream family, and easily became a victim of the dream family struggle.

It was mainly because of his lack of cultivation that he was underestimated.

In the dream family, the yin and yang realm is actually only the realm of the most ordinary servant, and the dream family is also respected by force, so Fang Yue will not be seen.

And if he is at the level of the master realm, his status in the dream house will be improved a lot. The master realm can already become a family general in the dream house, and at the level of the saint realm, he is also a guest in the dream house, with a certain degree status.

If Fang Yue could refine an avatar of a flesh and blood giant at the level of a saint, and after leaving the tenth level of the world, he returned to the dream house, his status would definitely be improved instantly!

As for the return from the tenth level of the world to the first nine levels of the world, it may be a great difficulty for others, but it is not a big problem for Fang Yue. He is proficient in space and heaven. He is in space and heaven. The attainments of this aspect can be regarded as a king even in this underworld!

He had left a space coordinate outside before being brought into the world on the tenth level.

At that time, he only needs the power of the space to be able to return to the ground smoothly.

Even if Fang Yue wants it, any strong man in this tenth-level world can take it out. If that's the case, this dream family may disrupt the world, because every person imprisoned in this tenth-level world One is a prisoner of the dream family, and their mortal enemy.

Fang Yue is a decisive person, just do it!

In just a few moments, the stronghold of the Wang family was swept away by Fang Yue.

The saint in this stronghold is not an enemy of Fang Yue's move.

The bodies of the disciples and elders of the Wang family were fed to the flesh and blood giants by Fang Yue.

And those gods and demons' blood pools have also become the things in the flesh and blood giants.

However, this flesh and blood giant can't swallow so much flesh and blood power in one breath, it needs to be refined slowly before it can completely digest the power of these blood demons!

In the third world of the dream house.

Mother Wang came to a house in ancient times.

The lush grass around this house is empty and empty.

Madam Wang came to the gate of the house, looking around, and found that there was no one, and she cautiously pushed open the gate of the house.

"Madam, the servant girl has come to see you!"

Mother Wang called.

Her figure disappeared suddenly.

In the next moment, Madam Wang had already appeared in a magnificent and extravagant palace.

The palace is spacious inside, the size of a football field, and the masonry on the ground is all extremely precious top-grade ghost stones.

The paintings on the walls are all Da Luo's hierarchical instruments.

At the left and right sides of the main hall, twenty maids were on the left and right.

These maids are all beautiful and charming, and what is even more rare is that these maids are actually powerful at the real fairyland level.

If it is outside, the existence of this true fairyland level is enough to be a world-shaking existence.

But in this palace, they are just the humblest maids.

Grandma Wang entered the palace and knelt down in front of the lady on the throne.

The lady was wearing a purple robe covering her body, but she couldn't hide her condensed skin, her face so beautiful that she made people crazy.

"Mother Wang, what's the matter with you coming to see me?"

The lady spoke, her voice hoarse with a hint of magnetism.

"Mrs. Report, that Xiao Nizi of Mengying has just recruited a little beast named Fang Yue. The servant girl has already penetrated Fang Yue into the tenth floor. It is said that Fang Yue entered the underworld in a physical body. There is a great talent in alchemy. If the lady needs it, the servant girl is willing to send this Fang Yue training to the lady, so that he can work for the lady."

Mother Wang came to ask for credit.

All her old faces are filled with flattering smiles! If she can be recognized by the lady, even if a little benefit flows between the lady's fingers, it will be enough for her to endure it in her life!

The lady nodded slightly: "In that case, let me see what Fang Yue is like!"

Chapter 1844 The Attitude of the Lady

A so-called genius like Fang Yue has seen too many times in her life. From a certain perspective, with the help of the power of the Meng Family, she has basically stood at the top of the pyramid of the underworld!

But the lady still wanted to take a look at the person that Mengying fancy, what exactly was it like?

Mother Wang saw the lady's interest in Fang Yue. A triumphant look appeared involuntarily on her face.

It was actually a big gamble that Madam Wang arrested Fang Yue before. If the lady had no interest in Fang Yue, she would have to bear the future Mengying's counterattack against her by herself.

Mother Wang slowly took out a mirror from her arms. This mirror can travel through time and space and reflect everything.

Mother Wang carefully used a piece of red silk and wiped the mirror a few times. Then chant the mantra to make the Wang family's situation appear in the mirror.

Grandma Wang was thinking about it. When Fang Yue entered the tenth floor, she had already done tricks in secret.

Grandma Wang has told Fang Yue that Fang Yue will definitely land on the Wang's site on the tenth floor.

As long as it is within the scope of Wang's family, Fang Yue seems to be a bird in a cage, no matter how it churns, it can't escape her palm.

Sure enough, a moment later, a scene of the Wang family appeared on the mirror. However, what was different from the imagination was that the Wang family was not prosperous in the past, but turned into a ruined wall.

The ground was broken and angry, and the houses had been stepped on and completely collapsed. Mother Wang saw a flesh and blood giant sitting cross-legged on the blood pool of the gods and demons that their Wang family had worked so hard to forge, refining the power of blood and flesh that was constantly flowing in it.

Mother Wang involuntarily showed a frightened expression. This is a stronghold managed by their royal family. The edge position on the tenth floor can even be said to be a domineering party. There should be no challenge. How can it be inexplicable? , He was turned into such a ruin.

Mother Wang's heart burned with anger.

"Who is it? Who is it that made my Wang family like this?"

Mother Wang growled in a low voice. It seems to use this form to completely vent the anger in the heart.

"Interesting is really interesting. This Fang Yue actually refined a flesh and blood giant in your royal family and became his own clone. If my guess is correct, this Fang Yue has already eliminated all the disciples and elders of your royal family. Refining has become a part of this flesh and blood giant!" It was different from the anger of Mother Wang. There was a different luster in the lady's eyes. For so many years, in this dream home, she has always been under one person and above ten thousand. Even the patriarch of the Meng family was helpless to him.

The lady has passed too many such calm days, and suddenly she saw some novel scenes, and her heart was born with long-lost excitement and impulse.

"What the courage of Fang Yue. I dared to uproot the stronghold of my king's family, and even draw a clone of him with the help of our flesh and blood pool. I really don't know if this Fang Yue has eaten the courage of the bear heart and leopard. Dare to make such an arrogant move."

Mother Wang already had a feeling of anger. She could be said to have been stealing chickens this time.

He didn't catch Fang Yue either, but instead caught up with her stronghold in the tenth world.

In fact, Madam Wang didn't feel much heartache and regret for the lives and deaths of these Wang's disciples.

There are not many other things in the underworld, that is, there are many kinds of spiritual resources and a large population. These elders and disciples of the royal family are dead. As long as he still has enough resources in his hands, he can continuously transport them to the tenth level of the world, and he can continuously cultivate more powerful tooth hunters than them.

What really made Grandma Wang feel heartache was the blood pools of the gods and demons in this stronghold. The flesh and blood essence produced in the blood pools of the gods and demons was used to honor some of the big men in this dream family. It was such a vain loss. So, her harvest this year will be reduced a lot.

Dealing saw the look of Mother Wang's eyes rolling. The corners of her mouth couldn't help showing a faint smile.

"Mother Wang, you have gained a lot of things in the dream house over the years, and you have lost some of the essence of flesh and blood. You don't need to be so angry!"

The lady said in a calm tone.

"Fang Yue, if you are willing to deal with it, please continue to deal with it. I really want to see if Fang Yue has the ability to compete with you in this tenth-level world. I remember you are here. A lot of arrangements and arrangements have been made in the tenth-level world. If he can live safely in this tenth-level world, it will not take too long, as long as three to five months. I will personally call him , Take a look at what kind of abilities and supernatural powers this little guy from other universes has."

The lady did not wait for Wang Moumou to continue speaking, she yawned and said lazily, "Wang, please go down first, my palace is a little tired."

Seeing the attitude of the noblewoman, although Mother Wang still has a lot to say in her heart, she can only swallow all those words back into her stomach. She has followed the noblewoman for so many years and understands this noblewoman in her heart. What she dislikes most about her disposition and preferences is that others disobey her. If the lady does not want to listen, but she just wants to say it, she will definitely not end up in a good way.

Mother Wang bowed, and then left the palace where the lady was.

After Mother Wang left the palace, her face showed a gloomy look. This hateful Fang Yue really didn't know good or bad. He even dared to make pictures on Tai Sui's head. I want him to die without a dead body, Wang Mother's face was extremely cold, and countless rays of light flashed in her eyes. This is a manifestation of her mental activity. If anyone who is familiar with Mother Wang is present, she will know it, but her heart does not know that it has been hidden. How much hate he has, is plotting against Fang Yue in the most vicious way, let Fang Yue use the most miserable end to pay for his actions!

In the tenth level of the world, the blood demon blood pool in the king's stronghold has been completely refined. The flesh and blood giant has also broken through from the early stage of the leader realm to the level of the current middle stage of the leader realm. Today's flesh and blood giant has reached the sixth level of the leader realm. The growth of the flesh and blood giant is amazing, but Fang Yue The Flesh Giant's changes were not very satisfied, because he did not have much understanding of the Flesh Law, and apart from that inexplicable old scripture, he could not provide the Flesh Giant with more strengthening methods.

It would be great if the Gorefiend was here. He is the real expert in the study of flesh and blood. Rebirth from a drop of blood can evolve countless clones. The former Gorefiend will spread across the entire universe and make countless bigwigs in the universe. All feel a headache.

Fang Yue said to himself.

In fact, there are countless powerful practitioners on the earth. These practitioners are unable to break through to higher levels due to insufficient resources, but their aptitudes, talents and understanding are extremely amazing. If they can all be sent to the underworld In other words, in the case of the Earth Immortal Realm, they will definitely be able to make even more significant breakthroughs, letting their talents and perceptions be fully utilized.

Fang Yue's heart is secretly for those practitioners on the earth. It's a pity that Fang Yue can feel that if he can break through to the tenth level, he will be able to successfully build a teleportation array and allow the creatures in the universe to appear. It forms its unique power in the immortal world or underworld.

However, the more you practice this law, the more difficult it is. It is a wishful thinking for many practitioners to cultivate the Heavenly Way of Space to the tenth level. Even Fang Yue has already encountered it on the way of practicing Heavenly Way of Space. Many thresholds completely blocked his progress.

After Fang Yue thoroughly refined one of the Wang's strongholds, then according to the record in the elders of the Wang's family, another Wang's stronghold rushed away.

I have to say that the members of the royal family are indeed very sturdy. Many of the disciples and elders of the royal family have been interrogated. They did not tell the truth to themselves, either they were silent or killed, or some did not have anything. Value information, even misleading, wants Fang Yue to fall into the trap of their royal family, but unfortunately Fang Yue's best at is the soul method, he can search out the spirits of the Wang family's disciples and elders The information you want.

Soon Fang Yue came to another stronghold of the Wang family. He also swept away the disciples and elders among them. Among them, the strongest were only two powerhouses at the Saint level. They might be able to reach the edge of the world on the tenth level. It is prestigious, but it is still far from enough in Fang Yue's eyes. In Fang Yue's eyes, the saints who write about the saint level can no longer be on the stage, unless they are people with special gifts. Otherwise, as long as they encounter Fang Yue, no one can resist his tricks.

"Mother Wang is not good, Mother Wang is not good." Just after Mother Wang returned to her residence, a disciple of the Wang family stumbled over. The disciple of the Wang family was covered with mud and faces. Today was an expression of horror. He seemed to have seen something extremely terrifying, which made his mind difficult to settle.

"What's the matter? Are you yelling?" Mother Wang was extremely unhappy because of Fang Yue's affairs. She saw that the disciples in her family were so uncomfortable and uncomfortable. Her anger couldn't help but rush to her heart, and said loudly to the Wang family disciple.

"Grandma Wang, Grandma Wang, I really have no choice but to find you! The Fang Yue who you were imprisoned in the tenth world last time, he is simply a great demon king. In the tenth-floor world, no

one is arrogant and domineering in his eyes, no one is in his eyes. He even flattened the two strongholds of our king's in the tenth-floor world in one go. The blood pools of the gods and demons have been taken by him. The refining is clean!"

The king's disciple said with horror on his face.

### **Chapter 1845: Ancient dust fairy**

"This Fang Yue is so daring. He actually slaughtered the disciple of my royal family like a cow or horse. Earlier, if I knew about this situation, I would have killed this Fang Yue directly. In the ten-layer world, it is damaging to the foundation of my Wang family."

Mother Wang was so angry that he didn't expect that Fang Yue would not give up after damaging one of the Wang family's strongholds. He once again took action to completely destroy the Wang family's other stronghold, and incorporated all the resources into his own. In the bag.

Now Mother Wang felt that her intestines were completely regretful, and she had known such a thing long ago. She would not be greedy and wanted to turn Fang Yue into a servant of the royal family. Now it is fine. Not only did Fang Yue not become his slave, but to create infinite value for her, she became the source of the royal family's disaster.

"Then Mother Wang, how should we deal with this Fang Hospital? Among the powers of my royal family on the edge of the tenth world, there is no master at all that can compete with him. Although the realm of this radius is low, his combat power is indeed Having reached the level of the Great Sacred Realm, I even suspect that even the average practitioner in the Great Sacred Realm may not be his opponent."

The disciple of the Wang family was still full of horror. He saw the ruins of the Wang family destroyed in the tenth world. It can be said to be a natural disaster.

Mother Wang took a deep breath. She knew that her anger had no value. Only when Fang Yue was killed in the bud, could they solve their Wang family's confidant troubles. However, in this tenth level of the world, different In the region, the number and level of the strong are extremely limited.

In the world of the tenth level, the Wang Clan was just a small force, even insignificant.

This dream family is huge, and the large and small forces in it are also crisscrossed and distributed in thousands. The world on the tenth level is even more mixed. Although the conditions are extremely bad, there are great secrets and great opportunities hidden in the world on the tenth level.

When some dream family disciples encounter bottlenecks, they sometimes choose to hone themselves in the tenth level of the world to seek breakthroughs. Although this kind of training is life-threatening, once they encounter some kind of chance It is also a great opportunity to break through, and it can even break through the limits of one's own realm and reach a higher level.

"It's up to me to figure out a solution for this matter! Although the tenth level of the world is strict, but if you really want to find some loopholes in the rules, it is not completely helpless!" Mother Wang's eyes kept on Rotate. In a moment of effort, there is a poisonous plan.

The different factions in the tenth world are distinct in latitude and longitude, and the Chen family is an extremely ancient family in the tenth world. The patriarch of the Chen family is said to be a transcendent existence at the level of the Golden Fairy Realm. He was imprisoned in the tenth level of the world because he angered the interests of a certain supreme realm of the Meng family. Among them, some people say that if the Meng family encounters a huge crisis, the patriarch of the Chen family will still be summoned by the Meng family to contribute to the Meng family. Being reused, the entire Chen family was rescued from the cage of this ten-layer world.

The ancestors of the Chen family are said to be the life and death friends of the ancestors of the Meng family. Part of the Chen family's ancestors contributed to the construction of this tenth-level world, so the Chen family knew many secret ways of organs in this tenth-level world. Some things that are difficult for others to do are just a matter of effort for the Chen family.

In a small effort, it includes the reverse crossing of the core area and the edge area.

Originally, Mother Wang didn't want to turn to the Chen family for help, because the Chen family's appetite was so great that every time she asked them to help, she had to pay the price of blood.

But this time about Fang Yue's incident, it can be said that Mother Wang lifted a rock and hit her own foot. If she didn't bite her teeth and smashed her blood and let the Chen family help, Fang Yue would probably put the Wang family on the tenth. All the strongholds at the edge of the layer world are cleaned up.

In the Wang family, it's not that Mother Wang alone has the final say. From a certain perspective, Wang XX is just a high-level member of the Wang family. The true ancestor of the Wang family is also a great Luojin Wonderland. The existence of the world level. However, the ancestor of the Wang family has not appeared in the Meng family for thousands of years. Some people say that the ancestor of the Wang family has fallen in battle. Others say that he is seeking new breakthroughs in retreat and reaching a higher level. level.

If you let the senior officials of the Wang family know, Mother Wang has affected the overall situation of the Wang family because of her own personal interests. The senior officials of the Wang family will also impose extremely severe punishment on Mother Wang.

Three days later, Madam Wang came to Chen's home, the stronghold in the seventh world.

This stronghold is just a small wooden house in an inconspicuous corner in a remote city.

Since the king's Daluo Jinxian was imprisoned in the tenth level of the world, the Chen family's power in the dream house has shrunk sharply. Even if the Chen family's disciples are not captured in the tenth level of the world, all Become a lot of low-key.

The once arrogance and domineering have all been reduced, and now the Chen family has become a small family in this dream family, extremely inconspicuous.

However, Grandma Wang did understand that this skinny camel was bigger than a horse. Although the Chen family had fallen to the extreme on the surface, in reality, the Chen family was still a powerful force on the territory of the Meng family. A behemoth with intertwined webs.

Mother Wang pushed the door in and walked into the cabin.

There was no one in this cabin, only a fireplace and a continuous charcoal fire.

Mother Wang took a piece of white paper, and then wrote three numbers on the white paper. These three numbers represent the price she is willing to pay.

If Fang Yue was captured alive by the Chen family and sent to him, Mother Wang could contribute five hundred water moon fairy stones.

This water moon fairy stone is a special product of the ancient adversity of the Wang family. Each stone contains the power of the rich water and moon path. The value of this water moon fairy stone is extremely high. In the outside world, the water moon fairy stone can even be exchanged for servants of the realm of saints.

These five hundred water moon celestial stones have been harvested in half a year from the Wang family's narcissus stone mine. This time, in order to deal with Fang Yue Wang's family, it can be said that he has spent his money.

But Grandma Wang did feel that if Fang Yue could really be captured alive, the deal would be worth it. Not to mention, just letting go of this pill refining ability and randomly refining three or five large biblical level pill can make up for this loss.

But if Fang Yue cannot be captured alive, then its value will be greatly reduced. Therefore, Mother Wang also placed another number beside her, which was the price of thirty shuiyue immortal stone Fangyue heads. A dead Fang Yue was at best getting rid of a big trouble for the Wang family, so its value naturally wasn't that high.

And there is a third at the end, which represents the price at which the Chen family can be provided with valid information about Fang Yue by the Wang family. Three represents three water moon fairy stones. This price is considered trivial to the Chen family, and may not even be concerned by the Chen family.

"Fang Yue! You little bastard, we have put so much effort on your behalf. If we can't kill you this time, my mother Wang's name is written upside down!"

Mother Wang gritted her teeth and said.

Fang Yue didn't even know that he had such a high value with Mother Wang.

Madam Wang put the note in the flame and burned it. As the note turned to ashes, Madam Wang's transaction was accepted by the Chen family.

At this time, Fang Yue had already levelled the Wang Family's eighth stronghold on the edge of the tenth world.

In the edge of this tenth-level world, Fang Yue is simply an invincible God of War.

Fang Yue's feet are in ruins, and all the disciples and elders of the Wang family will never be half alive.

This Wang Clan is his enemy, then Fang Yue will kill all the Wang Clan!

Only the blood of the enemy can calm the anger in his heart.

When Fang Yue's flesh and blood clone killed the last Wang family disciple and swallowed the opponent's body.

A fresh breeze hits.

A man in white slowly walked through the void and arrived.

This man in white is like a fairy.

He has a sense of elegance beyond the world.

A pair of bright eyes seems to be able to penetrate all the laws of this time.

This is a cultivator at the master level, but the feeling he gave Fang Yue is no less than some ancestors at the great sacred level.

"who are you?"

Fang Yue saw the white-clothed man, he knew that the other party must be bad.

In the underworld, Fang Yue has no friends yet, only enemies!

If his guess is correct, the man in white should have been hired by the Wang family to kill him.

"Gu Chenxian!"

The white-clothed man said his name, which was quite a fairy name.

As the name suggests, this ancient dust fairy gives people a feeling of detached from the dust.

He seems likely to fly into the fairy world at any time!

"Are you the one that the Wang family found to kill me?"

Fang Yue looked at this ancient dust fairy, his voice calm.

Fang Yue was not surprised that the opponent was able to fight across several great realms.

There are so many talents in the underworld, and the treasures of all kinds of heaven and earth are endless. What kind of genius has long been gone? What kind of outstanding person will not be born.

"No! I was sent by Vientiane Pavilion to protect you!"

Gu Chenxian spoke, and he showed a bright smile.

Red mouth and white teeth, like a real banter.

"There are big people in the Vientiane Pavilion who are very happy to know that you have entered the underworld, and at the same time are extremely angry at their actions towards Mengjia!

We have received the news that the grandmother Wang hired someone from the Chen family to kill you. The senior management of Vientiane Pavilion was worried that you would be hard to beat with four hands, so let me help you! "

The ancient dust fairy said his intention.

Fang Yue's heart couldn't help but warm up, no matter what purpose the Vientiane Pavilion was for, they were able to face themselves. Always make Fang Yue's heart warm!

#### **Chapter 1846: Turn an enemy into a friend**

"Thank you for coming to help, but these old dogs of the Wang family can't deal with me!"

Fang Yue's heart was full of confidence. He already had a preliminary understanding of this tenth-level world. Apart from anything else, at least in the marginal position, no one should be his opponent!

The strong of the saint realm is already considered to be the top of the pyramid, and the higher-level existence should have been introduced to a more internal position in the tenth world.

"If it's just the Wang family, then you naturally don't have to worry about our Vientiane Pavilion, and we won't use a master to protect you because of a small Wang family. This time we have got the exact news. The Wang family has already spent money to catch you. For the blood, they hired the masters of the Chen family at all costs and let the people of the Chen family catch you and kill you!"

"This Chen family has a very high status in the tenth-level world. They don't even need to do it themselves to make countless powerful people in the tenth-level world go crazy for killing you!"

The ancient dust fairy said to Fang Yue, "Don't underestimate the Chen Family's control over the tenth-level world. They are one of the builders of this tenth-level world. The secrets and resources of many masters, after being locked up in the tenth world, they all chose to take refuge in the Chen family and became their lackeys and minions."

"This place is clearly distinct from that world in name. Different levels of practitioners have different distribution positions. However, any rule has its own loopholes. The Chen family is the controller of loopholes in the tenth world. The people of the Chen family have dispatched three powerful people of the Great Sacred Realm level at the edge of the tenth level of the world. The existence of these three Great Sacred Realm levels is not from the Chen family, but is imprisoned. Practitioners in the tenth world have taken refuge in the Chen family and are willing to become their thugs. Even if these three great sacred realm powerhouses crossed the barriers and were discovered by the dream family, the Chen family can easily interact with this. The three have cleared their relationship so that they will not be implicated or punished at all!"

Gu Chenxian is quite familiar with the world of the tenth floor of this dream family, and he has already come here to perform more than one mission.

"Gu Chenxian, you don't need to continue talking, I think you are a bit too late, the master of the Chen family has arrived!"

Fang Yue opened his mouth, he saw that they jumped out of the void, the auras of these three people were all sturdy, and at first glance, these three people were not the powerhouses of the ordinary Great Saint Realm!

"You are Fang Yue! The three of us are here to kill you, don't ask why we killed you, blame you for offending people who shouldn't be offended, but the three of us look at you as young and tender. It's not too big. We can give you another chance to choose. You committed suicide, but let us personally cut off the flesh and blood on you!"

A big man with a hideous face, Yue said, that he didn't seem to have any plans to capture Fang Yue alive from the beginning, instead he wanted to kill Fang Yue directly.

"If you don't say that I also know your identities, you are the people sent by the Chen family to kill me, but it seems that it is still difficult to kill me with the three of you!" Fang Yue said that the breath on his body suddenly broke out. This time Fang Yue didn't hide his strength too much. In the eyes of the three big men, Fang Yue seemed to be a bottomless abyss.

The eyes of the three big guys all showed a look of uncertainty. This Fang Yueming was just a yin-yang mirror. Why did the three of them feel a terrifying feeling like the end of the world in him.

Not just the three of them, even Gu Chenxian had an unpredictable feeling on Fang Yue's body.

He often feels this feeling only in the body of some peerless arrogant or big boss in the organization.

"Fang Yue, what are you going to do? Are you trying to kill the three of us? If the three of us die, the Chen family will inevitably give birth to induction and send a stronger presence to kill you. A strong man in the holy realm, next time it may be a strong man in a virtual fairy or even a real fairyland to kill you!"

The man who spoke first said that the other side Yue, who was stern and stern, said, his eyes showed endless surprise.

Fang Yue hadn't really made a move yet, and the aura from his body had already made him feel a powerful shock! If he really hits the three of them, it will definitely be wiped out! Kill their three brothers so much that even the scum can not be left behind! This Fang Yue is really terrifying, and the business the Chen family took this time may be a loss-making business.

Such feelings were born in the hearts of the three brothers.

"Of course I wouldn't kill you. This time, the Chen family was also entrusted by others and was used by the Wang family, right?" Fang Yue and Yan Yue said to the three brothers, who could not feel the slightest killing in Fang Yue's body. meaning. On the contrary, this Fang Yue gave them a sunny feeling as if he were the big brother of the neighbors.

After performing so many missions, the three brothers have never encountered such a weird mission target. If everyone else meets the three brothers, they will all be like a big enemy, or be shocked, angry or angry, and this Fang Yue turned out to be and They talked so smoothly and freely that they didn't treat them as outsiders at all.

"Yes, this time our three brothers are only entrusted by others, including killing you is not the Chen family's meaning, but the Wang family's thoughts, but this time the Wang family concealed your true strength, the Chen family will definitely pursue the Wang family. Responsibility, if you can let our three brothers leave this time, then we will return to the Chen family and try our best to intercede for you, but whether we can let the Chen family let you go depends on what others mean!" Seeing that Fang Yue

didn't have much intention of killing people, they also began to persuade Fang Yue to let Fang Yue let them go.

"This is natural, I've heard about the power of the Chen Family in the tenth world. How can I, a small figure of Yin and Yang level, be willing to be an enemy of a behemoth like the Chen Family?"

Fang Yue showed an extremely humble expression, and even when he mentioned the words Chen Family, there was a look of worship and yearning on his face.

Fang Yue's words made the three brothers breathe a sigh of relief. Since Fang Yue had such a sense of consciousness, they returned to the Chen family to intercede, and they were extremely confident that they could acquit Fang Yue.

This Fang Yue is really good enough to fool, he had just heard of the Chen family's name from his own mouth, but now it sounds like a thunderous.

However, only such people can survive smoothly in the underworld. There is even one mountain high in the underworld. People who blindly rely on force can't live for too long!

Gu Chenxian suddenly felt that he might be over here this time!

Even if he didn't come this time, Fang Yue was able to handle the relationship with the Chen family and successfully resolve the crisis.

"Oh, by the way, the three came to kill me this time, and the journey was exhausting. I have three great holy realm-level pills here that can restore their original consumption a little bit for the three!"

Fang Yue's politeness even made the three big men feel flattered.

This time it was obvious that the three of them came to kill, and they couldn't do this Fang Yue. Let Fang Yue let them go. This Fang Yue didn't care about the predecessors, not only gave them a way to survive, but also sent them to the Great Holy Realm. Even if these three great men are powerful at the Great Sacred Realm level, they have never seen a Great Sacred Realm level pill, because the conditions for refining the Great Sacred Realm level pill are extremely harsh, and every A kind of medicinal material is extremely rare. Generally, strong people at the Great Sacred Realm level take all the medicinal pills of the Saint Realm level. Although the effect is not good, the quantity can make up for the lack of quality.

This time the three of them joined forces to kill Fang Yue. The price offered by the Chen family was exactly three middle-grade saint-level pills. They did not expect them to walk around this time. Although the mission was not completed, they could still get it. Three coveted pills of the Great Sacred Realm level.

There was a feeling of flattery in the hearts of these three big guys. They were both panic and emotional. Fang Yue's methods are extraordinary and able to have such a mind, and he will surely be able to accomplish a great cause in the future.

The three big guys even started to whisper to the Wang family in their hearts, how could they offend such a young talent, not only has a strong shudder in a humble state, but the future potential can be said to be unlimited, even he has such a powerful The means and the mind are much stronger than those of the Wang family.

The pill that Fang Yue gave to the three great men were not those he made by himself, the pill he made was extremely valuable. Not to bribe these reckless men.

Although all the three medicines Fang Yue gave were obtained from the enemy, and the quality of each medicine was not very high, this kind of medicine was already an invaluable treasure in the eyes of the big man. Everything is good in the underworld, but the population is too large, so the limited resources are divided up, even the strong ones in the Great Sacred Realm are not very rich. This great sacred realm-level pill can be worthy of their achievements in performing several or even dozens of tasks. The three big men looked at Fang Yue's eyes, and they showed gratitude.

The Gu Chenxian next to him was also sighed in his heart, with Fang Yue's pill bribe. After these three big men returned to the Chen family, it was impossible not to say good things for Fang Yue. Even though the Chen family is domineering, it is impossible that they will not listen to anyone's persuasion. What's more, these three big men are originally from the Chen family. Although they are not the Chen family, their status in the Chen family is not very low. They are beside them. To be fair, Fang Yue may be able to turn the enemy into a friend with the Chen family, and turn the dry waves into a jade silk, which will completely defeat the Wang family's wishful thinking.

#### **Chapter 1847: Auction requirements**

"Hahahaha, Princess Mengying made the person she protects really extraordinary. We just received the news from Princess Mengying that we can't do anything against you. You are the guest Qing she invited, so I came here to stop Gao Yigao. Brother Huan, they will start with you. I didn't expect you to have resolved the crisis by yourself."

A silhouette jumped, and a handsome black-clothed man leaped out of the void, his eyes seemed to reflect endless stars, and it seemed that a huge black hole could swallow all the light between the sky and the earth.

The breath of the man in black was extremely weak. It seems that even an ant is inferior. If he were in the crowd, Fang Yue would not be able to notice any difference between him and others.

"I have seen it, San Gongzi!"

The three big guys saw the man in black, bowed their heads respectfully and politely, and said in a salute.

"You three don't need to be so polite, you are working for the Chen family, and I am also working for the Chen family! From this perspective, everyone's identities are the same!"

The man in black had a hearty voice and said openly.

"Are you the legendary third son of the Chen family, Chen Undefeated?"

Seeing the legendary third son, Gu Chenxian also showed a look of confusion and confusion.

"There are no legends that are not legendary. Chen Unbeaten is Chen Unbeaten. In this tenth-level world, everyone is a prisoner. There is no such thing as a high or low status."

Chen Unbeaten's voice is extremely hearty. He really has no pretensions.

The third son of the Chen family immediately aroused Fang Yue's favor.

"San Gongzi, Miss Mengying asked you to save me?"

Originally, Fang Yue thought that Mengying would just leave her in the tenth level of the world, but she didn't expect that she was actually kind and righteous, and she could still remember herself as a little girl.

Chen Unbeaten laughed and said, "Naturally, Miss Mengying asked me to come. I had heard a lot of your stories before. You were framed by Grandma Wang and you were imprisoned in this tenth level of the world. . And not only did you have no complaints, but on the tenth level of the world, you called for the wind and rain, and successively wiped out many strongholds of the Wang family. All of their years of hard work were destroyed in one go, and the mother Wang was vomiting blood. !"

Chen Unbeaten looked at Fang Yue's eyes with a strange smell. When others came to this tenth-level world, they were shackled, fearful of their heads and tails, and some were even bullied, and finally died unbearable and humiliated, but this Fang Yue is good. When he arrived in this tenth-level world, he turned out to be home, using the resources of the tenth-level world to the fullest, and even the Wang Family was tossed by him.

Fang Yue scratched his head embarrassedly.

Unexpectedly, his affairs had spread throughout this tenth-level world.

"In fact, even if I don't come, Young Master Fang Yue shouldn't encounter any danger or setbacks. With this Young Master helping you, on the edge of this tenth level of the world, I am afraid that no one is your opponent anymore.

But this grandma Wang was also blind, and he unexpectedly chose you to have no opponent. This is planting the bane of the Wang family! "

Chen Unbeaten sneered.

"In fact, in this Meng Family, Miss Mengying's position is not low, but this grandmother Wang deceived people a little bit, taking herself too much.

I don't know that Meng's ancestors favored Miss Mengyun not because of her pedigree and appearance, but because Miss Mengying really had her own extraordinary.

Miss Mengying's life has been linked to Wangchuan, as long as Wangchuan does not die, Miss Mengying will not fall.

This mother Wang and Miss Mengying are enemies, and she is simply too stupid. Miss Mengying herself is a talented superman, and she is also immortal and has endless life. It only takes enough time sometimes, and Miss Mengying can certainly grow into a new supreme being, and it is not impossible to even become a new heavenly being. "

Chen Unbeaten's eyes were a bit complicated. Even as a peerless arrogant of the Chen family, his heart is full of deep respect for the two words Mengying.

At this time, Fang Yue knew how terrifying Mengying was and how detached his potential was. Compared to Mengying, his own arrogance might be considered a fake.

People can reach the level of immortality from birth. Being able to live with Wangchuan is an opportunity that many practitioners dream of.

Seeing the envious expression on Fang Yue's face, Chen Unbeaten couldn't help but feel a sense of comfort.

That's the feeling, this is the expression.

When I heard about it back then, I felt the same way. How unfair this world is, some are born above all else. Some people are born unknown, humble and humble like ants, even if they struggle to die in the long river of history, they can't stir the slightest waves!

"Then what do you think the Chen family will do with me? You took the benefits and money of the Wang family. If you don't give the Wang family an explanation, wouldn't your reputation damage your Chen family's reputation?"

Fang Yue said.

"Do you think my family cares about fame? My Chen family is able to gain a foothold in this tenth level of the world, based on the foundation left to us by our ancestors, and by relying on our fists. Provided us with wrong information, and wanted to kill someone with a knife, and killed you by the hand of our Wang family, offending Mengying. We haven't asked the Wang family to give us an explanation. Our Chen family has already said that, no matter what They won't participate in the battle for the direct line of the Meng family. And their Wang family had bad intentions and wanted to take the opportunity to pull us into the water. With such a vicious mind, our Chen family will definitely ask the Wang family for an explanation. As for what they paid us Those water moon celestial stones are nothing to our Chen family. Do they think they want to play and beggars? So a little good, let us kill a peerless Tianjiao, their Wang family too despise our Chen family, too. I look down on you, Brother Fang Yue."

There is a taste of pride in Chen's words.

Fang Yue some silent mourning for the Wang family. On the surface, this Wang family is domineering, but in fact it is not too deep. In the eyes of some really big families, they are nothing more than clowns. So they danced so joyously, but these big families have no time to liquidate with them. Once their value is exhausted, when the cards are shuffled, this king family will definitely become the one to be cleaned.

"Prince Chen Unbeaten, since you said so, then I am not polite. However, there is still some ruthlessness in my heart, please hope your whole family can help."

When Chen Bubai heard this, his face changed slightly.

This Fang Yue really doesn't know whether it's a great blessing to see Mengying's face and let him go. This Fang Yue actually wants to push his nose on his face and use their Chen family to help him. This Fang Yue's face is a big face.

Chen Unbeaten thought so in his heart, but there was no rejection on his face, even his Fang Yue's expression got closer, patted Fang Yue's shoulder and said.

"Brother Fang Yue needs help if there is anything to do, I am naturally obliged, but my position in the Chen family is not as superb as they say. If this matter is within the abilities of the brothers, the brothers will naturally help. But if it is beyond your brother's ability, then please forgive your brother's powerlessness."

Chen Unbeaten's words were used in Fang Yue's ears. Fang Yue naturally knew what Chen Unbeaten was thinking, but he didn't want Chen Unbeaten to help him deal with the Wang family. The grudge between him and the Wang family needs to be settled by himself.

Fang Yue said with a smile, "This is natural. Brother Gu Chen is actually from the Wanxiang Pavilion. This time I want to hold an auction. After all, I am an alchemist, not an orthodox practitioner. , I may not be able to be included in the eyes of a big man in practice! But I still have considerable attainments in alchemy. Coming to this underworld, resources are scarce. I want to sell some pills in exchange for practice resources, hoping that Young Master Chen is unbeaten. Can be accommodating. Find a place for me to be the auction house. As for the specific auction staff and auction details, I will trouble Fairy Gu Chen."

Chen Unbeaten was taken aback for a moment. He didn't expect that Fang Yue's conditions were so simple. He just wanted to find an auction place in this tenth-tier world. For their Chen family, it couldn't be easier.

Chen Unbeaten also took a deep look at Gu Chenxian. He didn't expect that Fang Yue had such a deep connection with Wanxiang Pavilion.

Long ago, Chen Unbeaten had heard of the reputation of the Vientiane Pavilion. The Vientiane Pavilion is a more powerful and ancient force than the dream house in the Yin world. The tentacles of Vientiane Pavilion are all over the hundreds of millions of universes. The resources in their hands are extremely rich, and there are countless strong people under their clerks, like the stars in the sky, the Chen family is simply the difference between Yinghuo and Haoyue compared to the Wanxiang Pavilion.

How deep is Fang Yue's foundation? Just when he came to the underworld, he was so valued by the Vientiane Pavilion, and he even sent a strong man to the tenth floor of the Dream House to protect him in his world.

The more he thought about it, the more he was frightened. He suddenly realized that he still looked down upon Fang Yue, whether it was Mengying's favor or the protection of Wanxiang Pavilion. They all verify the extraordinary origin of this Fang Yue from the side.

"No problem, I can still take charge of this kind of small thing. I don't know how big the place Fang Yue wants is to auction on the edge of the tenth level of the world or go to a deeper level to find more powerful gatherings for auction. ."

"I think the edge of this tenth-level world is a very good place. No matter how core forces in this tenth-level world, in this remote area, they actually have their own eyes, eyes and distribution. If they want something I buy If they are not, they will naturally send someone to come forward and buy them. If they are not interested in the things I refine, even if I open the auction floor to the core area, it will not help." Fang Yue's thinking is extraordinarily clear. What he said makes Chen Unbeaten gave him a higher look.

"If this is the case, then I started to prepare. About 300 kilometers away, there is an auction house of my Chen family. I will lend this auction house to Master Fang Yue for three days. I don't know Master Fang Yue. Are you satisfied?"

Chen Bubai did what he said, and his thoughts locked an auction house not far away.

He briefly described the relevant information to Fang Yue, and Fang Yue nodded and said: "Naturally satisfied, then I would like to thank Master Chen!"

#### **Chapter 1848: Preparation before auction**

Since this is the auction held by Fang Yue. So this auction is to issue invitations in the name of our Vientiane Pavilion.

This Gu Chenxian was absolutely amazing, and the conditions he offered made Chen Unbeaten a little too slow.

What is the origin of this Fang Yue? What kind of relationship does Vientiane Pavilion have with him? His auction was able to issue invitations in the name of Vientiane Pavilion.

Others may not know, but Chen Unbeaten really understands that every auction of Vientiane Pavilion is arranged after careful selection.

Vientiane Pavilion takes business as its business, and they attach great importance to the reputation and response of every auction. I am afraid that there are not enough treasures in a certain auction and defeat the reputation of Vientiane Pavilion.

And this ancient city of Xi'an even asked Fang Yue to auction it off in the name of Wanxiang Pavilion. It is enough to show the trust of the Vientiane Pavilion in Fang Yue.

"Thank you Vientiane Pavilion, then!" Fang Yue is not surprised by this choice of Vientiane Pavilion, because his cooperation with Vientiane Pavilion has been going on for a long time, including many of its ghost soldiers and some pills. They have all flowed into the underworld and auctioned the Vientiane Pavilion on their behalf. After each auction, the Vientiane Pavilion will have a large commission and income. This Vientiane Pavilion Fang Yue's trust was not blindly formed, but slowly formed through cooperation. Using the name of Vientiane Pavilion to conduct an auction will definitely attract a large number of onlookers, even some big clans in the tenth world will be moved.

Wanxiang Pavilion can use this auction to obtain a large amount of commission income, and can gain Fang Yue's trust and favor, and Fang Yue can also use this auction to expand his reputation, so that all practitioners in the tenth world will know Having him as the number one person makes it easy for him to plan for the next step.

I don't know what Fang Yue's son is going to auction this time. If there is something that can make our Chen family's heart fascinating, I will report to the senior management of the Chen family and prepare enough resources to purchase Fang Yue's treasure.

Chen Unbeaten took the initiative to inquire Fang Yue.

Fang Yue smiled softly, and then said, in fact, I was also temporarily conscious of holding this auction. I haven't figured out what to auction.

When Chen Buwei heard this, he was shocked. He looked like Gu Chenxian and wanted to observe what kind of wonderful expressions Gu Chenxian would have on his face.

This Fang Yue is simply too unreliable. He asked others to help him prepare for the auction, but you didn't even have to think about what to auction for this auction. I don't know if this ancient dust fairy will regret agreeing in advance to auction in the name of Wanxiang Pavilion.

However, Chen Bubai did not see any wave of expression on Gu Chenxian's face.

Because the ancient dust fairy Fang Yue already knew enough, they knew that any thing Fang Yue took out at random could be a diluting treasure and become an auction item for everyone in the underworld.

What kind of character this Fang Yue is, whether it is in refining tools or in alchemy, is surprising to everyone. Those great sacred realm-level medicines refined by Fang Yue on the bank of Wangchuan River. They have been coveted by Vientiane Pavilion for a long time. If Fang Yue really couldn't bring out any good auction items, let him take out those pills, which would be enough to preserve the reputation of Wanxiang Pavilion.

Even the ghost soldiers refined by Fang Yue and the Suichen Pill can make the tenth-tier practitioners fight frantically at all costs.

"Young Master Fang Yue, don't joke with us anymore. To conduct pre-auction publicity, we must always come up with some gimmicks. Otherwise, even if the reputation of a Vientiane Pavilion is, it will be difficult to attract some truly powerful guests." Chen Wubai said with a smile without a smile.

"Oh, it turned out to be so, then you can see if this kind of thing can attract some distinguished guests."

Fang Yue took out three brocade boxes. A pill is placed in each brocade box. When the brocade box opened, a breath of time came to his face.

Chen Unbeaten looked like three pills, and he couldn't help swallowing. Although he didn't know much about pill, he could understand how precious the pill is when he feels the breath of time coming from it.

"This is Suichen Dan? No, these three pills are similar to Suichen Dan's breath, but they are a hundred times stronger than Suichen Dan. Among them, the breath of the years, even though I can feel the vicissitudes of life Desolate smell!"

Gu Chenxian couldn't help but be moved when he saw these three pills. The pill that Fang Yue refined, as expected, each one was a top-quality product.

Fang Yue smiled softly, and then whispered, "These three pills are the super Suichen pills that I have modified on the single prescription of Suichen pills.

Every super-year-old dust pill can be returned to a hundred years ago by another strong man in the great holy realm. Both physical fitness and spiritual soul will be affected by this super-year-old dust pill. "

Fang Yue's words stunned Chen Unbeaten next to him.

As the son of the Chen family, he naturally heard of Sui Chen Dan's name. This Suichen Pill is a peculiar pill operated by Wanxiang Pavilion. It can reverse time and reincarnation, and can erase the traces of the years of one or two cultivators in the saint state and below. However, it is a pity that the Chen family is difficult to get out of the tenth level of the world, so he has never touched the real Suichen Dan.

Unexpectedly, Fang Yue turned out to be the real refiner of this Suichen Pill, and he also modified the alchemy on the basis of Suichen Pill, and refined this kind of higher-level super Suichen Pill.

Chen Unbeaten finally understood why this Vientiane Pavilion is so important to Fang Yue that he even sent a master to the tenth level of the world without hesitating to offend the Dreamer, and also bet on the reputation of Vientiane Pavilion for him. auctions.

Because Fang Yue has this value in itself. What does it mean to be an alchemist in the Great Holy Realm? Chen Unbeaten already had the answer in his heart.

This level of alchemist is no longer comparable and comparable to a powerhouse of a certain level. A great alchemist at the level of the Holy Realm may represent the future prosperity and prosperity of a large family, and even the rise of countless young disciples.

Pills are extremely scarce resources in the underworld, and different pills represent different levels of strengthening and breakthroughs. An alchemist can refine countless elixirs in his life, and these elixirs can feed back to the disciples in the family, making them stronger, saving a lot of time for practice, and understanding the laws and various This secret technique leaves enough time and energy.

Chen Unbeaten feels that Mother Wang's decision is so stupid and incomprehensible. If the elders of the Meng family were to know Fang Yue's talent and reputation in alchemy, even ten grandmothers would not be enough to kill, because this kind of power conspiracy by the grandmother was equivalent to cutting off the growth of countless disciples in the future of Meng's family. His hope is also ruining Mengjia's glorious and bright future.

"In this auction of Mr. Fang Yue, my Chen family will definitely help. No matter what kind of request Mr. Fang Yue makes, my Chen family will try its best to satisfy him. However, I hope that Mr. Fang Yue will give me an opportunity if possible. The family provides some medicinal herbs. As for the resource cost, please rest assured that Mr. Fang Yue, my Chen family will never get the slightest cheapness from Mr. Fang Yue, and all the pill will be purchased at the market price plus 20%. "

Chen Unbeaten has already begun to please Fang Yue, even if Fang Yue cannot be brought into their camp, he still has to leave Fang Yue with enough goodwill, and at least leave a good way when buying pills in the future. .

"Young Master Chen, where are these words? If I want a pill, I don't dare to say anything else. At least I have everything below the level of the Great Sacred Realm. Look at me, there are ten saints. The pill that I have eaten, this pill is called Jiazi Divine Pill, if it is taken, at least ten years of life of Jiazi can be increased by at least ten years of life for practitioners in the Saint Realm and the Saint Realm."

Fang Yue looks quite generous, but this Jiazi Shendan was actually not made by himself, but he searched it out from the body of a big man in the Wanhua Universe. If Fang Yue refines the Jiazi Shendan, The effect of this medicine can at least be about twice as strong as these pills.

However, Fang Yue himself really didn't have time to practice this kind of pill. Although Jiazi Shen Pill was precious, in Fang Yue's view, this kind of pill was like a chicken rib to him.

Because all of the three scriptures that Fang Yue has cultivated are capable of greatly improving the practitioner's lifespan, and Fang Yue's practice has only been a few years now, and his requirements and desires for lifespan are really great. Not as strong as those old antiques.

But this kind of pill is dispensable to Fang Yue, but it is like a treasure in the eyes of others. Generally, practitioners are fighting for fate with the heavens. The longer the lifespan, the future possibility. The more it is, the more it can improve the lifespan of ten Jiazi for the disciples of the saint realm in the family, this is a dream thing for the Chen family.

This Jiazi Shendan is also widely circulated in the underworld, but every time it appears, it will be sold out.

An alchemist who can be as generous as Fang Yue and can take out a hundred Jiazi Divine Pills with one shot, at least Chen Unbeaten is the first time he has seen it.

"If this is the case, then I, someone from Chen, would be more respectful than fate. With these Jiazi Shendan, in the future, our Chen family will be an iron ally of Fang Yue. If Fang Yue needs it, our Chen family will definitely die. Without hesitation.

Apart from anything else, in this tenth-level world, our Chen family still has a little face. In the future, whether Master Fang Yue goes to the core area or stays in this marginal place, our Chen family will do our best to serve Fang Yue. The son provides protection. As for the threat from the other party of the Wang family, the son of Yue, Fang Yue doesn't need to remember it in the future. A royal family has not been put in the eyes of our Chen family. If they are half of Fang Yue's hair, let alone the mother of Wang. , Even if the ancestors of the Wang family came, our Chen family would not spare them lightly. "

Chen Unbeaten opened his mouth with great atmosphere this time. He has regarded Fang Yue as an inevitable object of alliance in the future.

Gu Chenxian looked at the scene in front of him with a smile, and his heart was also secretly admiring Fang Yue.

In terms of wooing allies, this Fang Yue is really unique. In the future, the so-called Wang Clan offended Fang Yue, and he would definitely suffer in the future.

### **Chapter 1849: Meng Tianyu**

Fang Yue's auction hadn't started yet, and the tenth level of the world already had a feeling of boiling. Whether it is the reputation of Vientiane Pavilion, or the call of the Chen family. In this tenth level of the world, it was as if a thunder and thunder bomb was placed in the calm sea, causing countless forces to boil instantly.

At the same time, the Wang family also got news. Not only did the Chen family fail to kill Fang Yue as agreed, but instead formed an ally with Fang Yue and jointly held the auction.

Grandma Wang was extremely angry when she heard the news.

She smashed the table next to her, then growled.

Is this Chen family crazy? They even disregarded faith. Not only did not kill Fang Yue, but also turned Fang Yue into an ally in perfidy.

Could it be that the Chen family didn't put our Wang family in their eyes from beginning to end.

Mother Wang hated the Chen family and Fang Yue to the point where she gritted her teeth. However, he quickly contained his anger again. Because Mother Wang knew that her power and status were nothing in the eyes of the Chen family, and even the Wang family behind her was nothing more than a slightly stronger ant in the eyes of the Chen family.

This is the extremely unwillingness in Mother Wang's heart. She spent so much effort to get Fang Yue into the tenth level of the world. She originally wanted to subdue Fang Yue and become her most loyal servant. The Wang family refined the pill until he died of old age. Unexpectedly, her calculations eventually made the Chen family cheaper.

Moreover, this Fang Yue also turned their king's family upside down and overturned dozens of strongholds in a row. This ill-fated Wangma couldn't be swallowed in her heart.

I can't deal with Fang Yue under the protection of the Chen family, but there are people in this dream family who can deal with Fang Yue.

As long as Fang Yue dared to be wild in the dream family, he would be able to report to the big man in the dream family and let the dream family come forward to punish Fang Yue himself, and even the Chen family would be implicated.

There was another poisonous scheme in Mother Wang's heart immediately. She would put this Fang Yue to death, and even the Chen family would have to pay a painful price.

This time, Mother Wang was about to voluntarily, she wanted to watch Fang Yue tragically die in the hands of the Meng family disciple.

The dream family is a big family in the underworld. Since the ancient times, even the ancestors of the dream family don't know how many heirs and great-great-grandchildren he has. Some disciples of the Meng family spread out their branches and established their own small families, which became branches of the Meng family. Countless disciples of genius have emerged from these branches, and some disciples will return to the Meng family's home to recognize their ancestors and return to their ancestors after successful cultivation.

Meng Tianyu is a disciple of Tianjiao in the Meng family. He only became a saint at the level of Yin and Yang realm. Such a powerful combat power, even though most of the disciples in the dream family never had it.

Ten years ago, Meng Tianyu returned to the home of the Meng family to recognize his ancestors. He received the secret attention of several elders in the dream family. Therefore, in the dream family, this

Meng Tianyu's position is quite detached. There are disciples far beyond the dream family in terms of the guidance of famous teachers or the allocation of resources.

Although this Meng Tianyu was extremely talented in cultivation, his mood was not very good. Meng Tianyu is quite proud and domineering, even some of the older generation of strong men in the Meng family, he has never seen it.

Meng Tianyu is confident that he will definitely become a big figure in the dream family in the future, at least able to surpass the real fairyland level and become the real high-level of the dream family.

This time, Grandma Wang was planning to use Meng Tianyu to kill with a knife. Mother Wang came to Meng Tianyu's mansion. When Meng Tianyu saw that the visitor was Mother Wang, she turned out to be dismissive.

"What are you doing here in my mansion?" Meng Tianyu didn't even have the awe of the yin and yang realm practitioners for the real wonderland powerhouse after seeing the grandmother Wang. There was a hint of scolding in his tone.

Mother Wang heard Meng Tianyu's scolding, her face changed slightly. She didn't expect this Meng Tianyu to be so shameless, she had heard that Meng Tianyu was extremely arrogant and domineering, with a similar temperament. Unbearable. But never thought that this Meng Tianyu would be domineering to such an extent that he would not even look at his own veteran true fairy.

"Meng Tianyu, what kind of attitude do you have? I am also a strong man in the real fairyland anyway. This dream family has always respected the strong and respected the strength. You have not really tapped your potential and will All the potential is transformed into strength, and you are so arrogant and proud. Sooner or later, your character will suffer a lot."

"Hahahaha, the powerhouse of the real fairyland, you are not an old dog of my dream family. An old slave dare to reprimand me, the real Tianjiao disciple of the dream family, do you know this is in the territory of the dream family? Only people from the Meng family can be regarded as noble. An old dog like you, even if he cultivates to the level of Da Luo Tianxian, is also an old dog in our family. How can he deserve our respect."

Meng Tianyu yelled at Grandma Wang constantly, but Grandma Wang's face was green and green. She has been in the dream house for so many years, ever since she reached the level of true wonderland. No matter where you go, you will be embraced by outsiders and sought after by countless people. The people around here, whether they are disciples of the Meng family or some servants, have no time to flatter her, no one would dare to be so presumptuous to her or even insult her as an old dog.

But Mother Wang thought of her intention this time, but she felt a little relief in her heart. It doesn't matter, it doesn't matter, the more proud this Meng Tianyu is, the better. If he is not proud, it is not easy to use it.

Mother Wang suppressed the anger in her heart and smiled flatteringly at Meng Tianyu.

"The son's reprimand is correct, and the son is correct. It is the old slave who doesn't understand the rules. But this time, seeing the old slave is actually bringing great news to the son. In the tenth level of the world. There was a prisoner who was imprisoned, and his name was Fang Yue, who was an

alchemist. He was not very talented in cultivation, but he did have a different style in alchemy. He refined a great holy realm level. After using the medicine, it can make the practitioners of the Great Sacred Realm and lower levels speed up the practice speed several times or even dozens of times. I think this medicine is just right for the current situation of the son."

Mother Wang's words gave Meng Tianyu a hint of interest. But Meng Tianyu is not the kind of person who is willing to express his heart lightly.

He sneered and said, "What kind of treasures are there in the dream house, how can I be greedy for the medicine made by a kid at the level of Yin and Yang? I have already enjoyed the treatment that elite disciples can enjoy in the dream house. Although this great holy realm level pill is rare, I can get one from the dream family every ten years."

Meng Tianyu's words gave Mother Wang the urge to slap him to death. I really don't know that such a silly fork can actually have such a talent for cultivation and live smoothly in the dream house to the present.

Didn't he know that this pill is also divided into three, six or nine? In the Meng Family, all the medicinal pills of the Great Sacred Realm level that Meng Family can allocate to him are all one-off pills. Although the medicine can hit the bottleneck violently after taking it, the side effects of this kind of pill are extremely great. Will leave irreversible damage to the body. And the more times the pill is taken, the stronger the resistance. When you take this pill again in the future, the side effects of the pill will be doubled. Moreover, the auxiliary effect of this pill for cultivation will continue to weaken, eventually approaching nothing.

Although the pill that Fang Yue refined is important and gentle, and no major changes can be seen in a short time, this pill is silent, like running water, and can nourish every cell of the practitioner. Such a pill will not cause any burden to the practitioner's body, but will make the practitioner's body stronger through constant nourishment. If it weren't for the wonder of this pill, how could Grandma Wang start at will, risking offending Mengying, and forcibly breaking Fang Yue into the tenth level of the world!

Grandma Wang patiently explained to this Meng Tianyu, "My son, the pill that Fang Yue refined is different from the pill of other great sacred realm levels. What Fang Yue refined is a magic pill. Fa Pill can continuously improve the physical potential of the practitioner. Your son's talents, reaching the real fairyland is a matter of decree. What is lacking is only the precipitation of time, and if the son can obtain such a great sage in Fang Yue's hands A realm-level pill will definitely be able to do twice the result with half the effort in the future, reach the level of true belief as soon as possible, and become a pivotal existence in this dream."

Mother Wang's words made Meng Tianyu smile. It's like you, an old slave, has a bit of eye-sight. What you said I really thought about this pill. You might as well talk about how this pill Fangyue was refined What other effects are there?

Meng Tianyu finally became interested in Fang Yue's medicine. Mother Wang breathed a sigh of relief. That's good, that's good. As long as Meng Tianyu is interested in Fang Yue's pill, then I can introduce him to the world on the tenth level. Yue made trouble. A trap was set up nearby to break Meng Tianyu into a situation where he could never recover.

Mother Wang let out a soft breath. Then he said, this pill was changed by Fang Yue on the bank of Wangchuan River, and I also left a special image for the son to take a look.

Mother Wang really took out a photo-taking stone and infused it with true energy. The scene of Fang Yue's alchemy refining that day emerged.

Meng Tianyu saw the scene of Fang Yue's alchemy. He couldn't help showing a surprised expression. This Fang Yue is really interesting. If others want to cross the river from this Forget River, they must either rely on the background of their own family, or pay a huge price to make those who ferry people love. And this Fang Yue turned out to be the fishing wisher Jiang Taigong who took the bait, and he refined the pill there, making the ferrymen scrambling to help him get through Wangchuan.

### **Chapter 1850: Conspiracy**

A few days later, Fang Yue's auction was held in this way.

Although the auction house provided by the Chen family this time is on the edge of the tenth world, the luxury of this auction house is no less than that of the auction house in the core area of the tenth world.

The huge auction site, suspended above the sky, stands tall in the clouds.

The auction site occupies dozens of acres of land, underneath is a suspended ceiling of colorful clouds, and surrounded by colorful phoenixes flying together, and birds welcoming guests.

If it is more luxurious, this auction house is on the edge of the world on the tenth floor, which can be regarded as one of the best!

Even if it is used to receive some real wonderland level bosses, the luxury of this auction house is enough!

Fang Yue stood in the auction house, his body was surrounded by some old guys who were about to lose their teeth.

These old guys have moved their eyelashes one by one. The blood in some people's body is exhausted, and there is only a breath left, holding on!

They did not hesitate to put down their faces, and the other side Yue carried on crazy flattery! Moreover, what they said was more exaggerated than a sentence. If Fang Yue's inner will was a little bit not firm enough, he would have been fooled away by someone!

These old guys are all old antiques whose life is about to die, there are saints, but also powerful people at the great holy realm level.

Fang Yue underestimated Fang Yue's influence on the underworld!

He did not expect that when the word "Fang Yue" was typed in the auction, people would be even more crazy than Wanxiang Pavilion.

Vientiane Pavilion, after all, is just an organization and a force.

Although every auction is bound to have amazing and extraordinary things. But these amazing and extraordinary things may not have the effect of supplementing lifespan and prolonging the age.

But the two words Fang Yue are completely different!

The pill that Fang Yue refines every time, even if it is just Baicao Liquid, will slightly prolong lifespan and replenish the vitality of the internal organs!

These two words have a fatal attraction for those old people who are about to die!

Often there is a circle of news exchange among practitioners of the same generation.

There is also such a circle among these saints who are about to die!

In this circle, Fang Yue is like a savior. They often hear that so-and-so, because of taking Fang Yue's pill, his life is greatly increased, and he temporarily avoided the nightmare of sitting and falling.

A strong man in the saint realm is actually considered a giant in the underworld, although the pyramid of the underworld is very high.

But there are even more ordinary people and low-level practitioners!

It is not easy to be able to cultivate to the level of a saint, even in this underworld!

These people are imprisoned on the edge of the tenth level of the world, just like a tiger entering a sheep pen. Without the suppression of practitioners above the Great Sacred Realm level, they are even more unscrupulous and occupy resources.

Therefore, these old guys seem very unscrupulous, but all of them are hidden local tyrants.

"Young Master Fang Yue, you are selling me a Suichen Dan! The old man is willing to give away the corpse of a Saint-level Thunder behemoth as a price!"

An old man's beard and hair are all white, and the blood in his body is basically exhausted!

A thin layer of human skin is attached to the bone frame, giving people the feeling of a skeleton walking on the earth!

However, his shots are quite generous, and his mouth is the corpse of a Saint-level Thunder behemoth!

The corpse of this saint-level Thunder behemoth can be said to be quite precious, and its value is no less than the corpses of three ordinary saint-level experts.

However, Fang Yue was not easily moved.

His gaze flickered slightly, and then he said: "The things I prepared this time are all hoping to be auctioned at the auction. There is no extra to trade with the predecessors. If the predecessors need what kind of medicine, you can get them at the auction. , There is no need to bargain with me in private!"

Fang Yue's tone was soft and polite, but it was extremely tough.

He vaguely felt a hint of conspiracy in the words of these old men.

These old skaters at the saint level are good at calculating. In the blink of an eye, I don't know how many thoughts and conspiracies will flash in my mind. How could Fang Yue take advantage of their character easily.

The corpse of this sage-level Thunder behemoth is an incomparable precious treasure. If the Thunder bloodline contained in it falls into the hands of an expert, a large amount of bloodline pills can be refined. Created one after another peerless genius, these bloodline pills can be exchanged for several or even dozens of Suichen Pills. And with the corpse of this Thunder behemoth in hand, these old guys wouldn't use it to come to themselves and beg for an ordinary old dust pill.

From this, Fang Yue immediately concluded that there must be an unknown secret in it. These homecomers came to exchange pills for the sake of drunken men, not drinking!

When the old man in the saint state heard Fang Yue's refusal, his face changed drastically. He roared and said, "How can you kid be so ignorant, so greedy. I can take out the body of a saint-level Thunder behemoth to exchange it with you, which has given you a lot of face. You don't want to be so shameless!"

Fang Yue didn't get angry when he heard this. He smiled and said, "I will decide who and what to exchange for my medicine. What's more, this auction will be held soon. If you have enough resources, it's completely up to me. You can win the pill from the crowd at the auction. There is no need to whisper down here to trade with me!"

Fang Yue's face showed a slight mocking smile. This underworld saint really has no patience to set up a trap, the flaws are so obvious.

The conspiracy plan was a little unfavorable. He immediately tore his face and threatened.

With such unbearable temper, I really don't know how they lived until now.

If they were born on the earth, they would definitely be sold as fools if they could not survive for three days.

"Fang Yue, you are so domineering, and you will eventually pay for it. We exchanged the body of the Thunder Giant Beast for your old Chen Dan, which is enough to prove our sincerity, but you resolutely refused. This is for this. This auction will attract trouble!"

The eyes of the old man in the saint state glowed, and the chaos in it disappeared.

He stuck out a skinny palm, which had no flesh and blood on it!

He is about to sit down and die of old age, but his own cultivation has reached the pinnacle of his life.

That palm grabbed Fang Yue's Tianling Gai!

He shot quite decisively and ruthlessly!

This is to completely wipe out Fang Yue from the world, and the means of the Saint Realm have been completely used.

The palm of his hand fell, gloomy, and endless death air flowed down from the wind between his fingers.

Fang Yue was infiltrated by these death energy, and his whole body was stiff, unable to move for a short time!

"Jie Jie Jie, Fang Yue, since you don't toast or eat fine wine, then I can only fulfill you! This is my Netherworld Xuanbing Dafa, don't say you are a small person at the Yin-Yang level, even though Powerful people in the Great Sacred Realm will also be affected, their bodies stiff for a while!"

This old saint is very arrogant, this is his lifelong knack, and he never fails every time he makes a shot.

"Are you from the Wang family?"

Fang Yue's face was pale, he said with great difficulty.

The veteran saint nodded and said, "Since you are dead, I will not let you know, you have offended the Wang family, and the Wang family sent me to wait to kill you! I originally wanted to poison the body of the Thunder Giant. When you refined the Thunder Behemoth, this poisonous attack made you fall immediately! But I didn't expect that you were not fooled. If so, then I will have to kill you myself!"

"The Wang family, it is indeed the Wang family! Don't they know that this auction was jointly organized by the Chen family, the Vientiane Pavilion, and me? You killed me, and the people from the Chen family and Vientiane Pavilion will never let you go. !"

Fang Yue roared hoarsely.

And the old saint said gloomily: "This is the Meng family's trump card. Even the Wanxiang Pavilion and the Chen family can't protect you!"

A flash of cold light flashed in Fang Yue's eyes, and there really was the shadow of Mengjia behind this incident.

"Really? This is the territory of the Meng Family, and the Meng Family doesn't even care about my Wanxiang Pavilion?"

Gu Chenxian walked out slowly, a bitter chill in his voice.

Originally, he didn't want to shoot, because he believed that Fang Yue's strength was more than enough to fight these saints!

However, since this old saint mentioned their Vientiane Pavilion, he had to personally prove the strength and determination of Vientiane Pavilion!

As soon as Gu Chenxian's voice fell, the world was solidified by a thick layer of frost.

The bodies of those decaying old saints have all become ice sculptures, and the expressions of triumph, panic, etc. on their faces are all condensed on their faces!

"Wang Family, Meng Family, I didn't expect them to really dare to take action against Wanxiang Pavilion! If they dare to jump out again, I will let them know what it means to be a Raptor but Jiang!"

There was a bitter chill in Gu Chenxian's voice.

Fang Yue laughed softly: "This is my own business. I still hope to solve it with my own strength! If I really can't solve it, I will naturally turn to Vientiane Pavilion!"

Fang Yue knew that in this world, the debt of favor was the most difficult to repay. He didn't want to owe Vientiane Pavilion too much. In the end, the debt of favor was not clear, and he could only pay off with his life.

Gu Chenxian nodded slightly: "This is your business, I will naturally respect your will, but if this Wang family dares to challenge the bottom line of my Wanxiang Pavilion, I will definitely let this Wang family disappear in the underworld!"

"The auction is about to begin! You and I will all go out and have a look! Don't let those old folks just now take away my interest in waiting!"

Fang Yue glanced back at the few frozen saints.

He said silently in his heart: "This king's method is absolutely not so! These are just some appetizers, I am afraid the real good show is yet to come!"
