

God of Life 1871

Chapter 1871 Supernatural Fruit

However, this Xue Ziyun belongs to the Xue family. She has a special identity. It is obviously not appropriate to distribute the credit according to her merits.

Therefore, in the end, the mosquito road man gave 80% of the spoils to Fang Yue, and the remaining 20% went to Xue Ziyun.

Fang Yue has no opinion on this allocation.

Originally, this action was a joint effort of the three, although in the end Yin Gu Dao had not had time to take action, the battle was over!

But Xue Ziyun did indeed stand up and relieved Fang Yue!

"This supernatural power fruit is a rather rare fruit in the underworld. After taking this fruit, there is a certain chance that the practitioner can give birth to his own supernatural power.

However, this kind of supernatural power fruit can only be consumed by one in a lifetime, even if the birth of supernatural power fails, the second supernatural power fruit cannot be taken! Supernatural power fruit is actually divided into three levels. There are 800-year supernatural power fruit that can only give birth to their own supernatural powers by practitioners at and below the saint realm. There are also three thousand-year supernatural power fruit that can make the virtual Practitioners below the fairyland are born with supernatural powers, the highest level is the ninth thousand-year-old supernatural power fruit, which can make the practitioners below the Great Luoqing be born with supernatural powers! This time, Zawaxi has laid his blood, and among the 100 supernatural power fruits he contributed, there are 80 supernatural power fruits of 800 years and 20 supernatural power fruits of 3000 years! "

The mosquito road man explained the source and origin of this supernatural power fruit, of course, all these words were spoken to Fang Yue.

Xue Ziyun is the eldest lady of the Xue family, and is naturally very proficient in all kinds of heaven and earth treasures of the underworld!

"If you don't need these supernatural powers, you can give them to the disciples under your name or put them in the auction house to buy them! Supernatural powers sell very well in this underworld, and every time you put them in the auction house China will soon be sold out by practitioners!"

The mosquito person gave a brief introduction to this supernatural power fruit!

Fang Yue is quite interested in this supernatural power fruit. The so-called supernatural power is a means beyond the level of the secret technique.

Secret arts can be cultivated the day after tomorrow, while supernatural powers are born from blood and have a great relationship with the individual's physique. They cannot be practiced, imitated, or copied!

This supernatural power should only be awakened by blood, or it should be given by nature.

For the first time, he heard that by taking a special fruit, he can awaken his talents and supernatural powers!

Seeing Fang Yue's eyes reveal a look of suspicion.

The mosquito person said with a smile: "You don't have to doubt the origin of this supernatural power fruit, this is the fruit condensed from the supernatural power tree! The supernatural power tree is a special tree species, it is said that this kind of tree species is born innate! The main stem of the supernatural power tree is. It is the building wood that connects the heaven and the earth, also known as the world tree! And the supernatural power tree is just the transplanting of its branches! The supernatural power tree is born from the source of devouring the world! The average family simply cannot support the supernatural power tree!"

The mosquito person said a little bit about the origin of the magic tree.

Fang Yue immediately understood that the magic of this supernatural power fruit should be related to the growth of this supernatural power tree by devouring the world!

"However, I don't know if Fang Yue is willing to join the League of People? With your talent and aptitude, if you join the League of People, you might get better training and support!"

The mosquito man began to seduce Fang Yue.

Hearing this, Fang Yue couldn't help looking sideways at Yin Gu Dao and Xue Ziyun!

Whether it is Xue Ziyun or the mosquitoes, they are all trusted by Fang Yue!

He didn't know anything about this so-called human alliance, but if he refused blindly, he might make the mosquito man unhappy again.

After all, this mosquito person is also a real fairyland-level boss, if he can not sin, Fang Yue still try his best to not sin!

"The Human League is the alliance of human races in the underworld! The main task is to strengthen the human race and resist the invasion of the ten thousand races in the underworld! The human alliance organization is extremely large, and the requirements for the identity of its members are not strict, as long as they don't rely on it. Almost all the hostile races of the human race in the underworld can become members of the human alliance! In this human alliance, members of different levels will have different treatment and resource supplies!"

"And for some extremely talented people, this alliance will give some resources and guidance from famous teachers!"

The Mosquito Daoist wanted Fang Yue to join the League of People, so he asked many tempting conditions!

When Fang Yue heard this, he couldn't help but think of the Galaxy Star Alliance, how could such a messy alliance no matter where he went!

"Simply put, by joining the League of People, you can get more resources, right? But at the same time, you have to pay the corresponding price when you get it!"

Fang Yue briefly summarized what the mosquito man said.

The mosquito person nodded and said, "Probably that's what I meant!"

Fang Yue smiled and said, "Do you think I am like the kind of person who lacks training resources? Or, the resources for the practitioners I really need may not be available to the Alliance!"

For organizations like the Human League, Fang Yue instinctively associates with the Galaxy Star League, so from the bottom of his heart, he refused the invitation of the mosquitoes!

Where there is interest, there are struggles, and where there are struggles, there are rivers and lakes!

Fang Yue only wants to live his own little life purely, concentrate on cultivation, and is unwilling to participate in the right and wrong of this underworld human race!

"Hahahaha, what an arrogant tone! Do you know that this Human League is the dream organization of countless practitioners! What kind of resources in the Human League can't be obtained! What kind of genius can not be cultivated! Fang Yue don't look at you The level of Yin-Yang realm now has the strength to defeat a saint. In this corner of the Southern Territory, it may be regarded as a peerless Tianjiao, but your talent in the League of People is really nothing!"

The attitude of Fang Yue, the mosquito man, quickly changed from appreciation to disgust.

This Fang Yue is so proud!

His pride will ruin his future!

The genius who has seen too many geniuses died on their pride!

This Fang Yue may be inevitable!

"Fang Yue, don't be like this! The mosquito road man is the guardian of this human race! He invited you to join the human league for your own good!"

Xue Ziyun wants to reconcile it!

She didn't want Fang Yue and Mosquito Dao Ren to turn their faces!

This mosquito person is quite powerful in the people's league, and the mosquito person has a good heart, and Fang Yue is not a bad person!

If there is a conflict between the two, she really doesn't know which side she needs to be on?

Xue Ziyun's words made the mosquito man's face a touch of sorrow.

"Ziyun, there is no need to reason with this kind of prodigal son!"

The mosquito man is really upset this time!

But since they look down on the League of People, there is no need to force him to join the League of People!

"The prodigal son? Hahaha, this is the first time someone has used this word to describe me in so many years!"

Fang Yue laughed loudly.

Then he said: "I didn't want to argue with you! But since you said that! How about I make a bet with you? I will let my deity come, if you can raise my deity to a small level, I will obey you in the future! And if you can't do a good job, then take back your previous evaluation of me!"

"Your deity? Is this just your clone?"

The mosquito person could not help but shook slightly.

If this is just Fang Yue's clone, then what level of existence should his deity be?

Fang Yue nodded and said: "Yes, this is just a clone of me! I have a lot of enemies. If the deity descends, I am worried that I will be besieged and fall!"

The mosquito person took a deep look at Fang Yue: "Then what level of cultivation is your deity? If your deity is a true fairyland or even a higher level existence, I am afraid I really can't improve your strength by half! "

"Don't worry! My deity is only the first level of the leader realm! In fact, my clone is stronger than the deity! My clone has reached the second level of cultivation level of the leader realm, but it's just to hide it. The strength has never been shown!"

"The cultivation level of the first level of the leader realm? Okay! There is a word over there! Over the years, I have seen the world's heroes, all kinds of talents, and talented peers abound. I really don't know who can be here. At the level of the leader realm, it is possible to reach the point where I, a powerful person in the real fairyland, cannot improve the cultivation base by half!"

Fang Yue smiled slightly.

The next moment, time and space change.

Fang Yue's deity is here!

Streaks of chaotic air fell down, and the sound of countless Taoist priests and monks chanting faintly heard around Fang Yue's deity.

The whole world seems to be filled with Zen singing, blessing Fang Yue, blessings!

Fang Yue's feet fell, and the rules of the world within a hundred meters of his body were blurred. This space of one hundred meters seemed to be Fang Yue's domain. There were no fixed rules, but it was filled with an absolute will to dominate. !

At the moment Fang Yue appeared, the mosquito man took a breath.

Chaos body protection, Taoyin Zen singing!

This is a vision of heaven and earth that no ordinary existence at the Luoqing level does.

Even more terrifying is that Fang Yue's will around the world is changing, wherever Fang Yue goes, his world is!

You know, this is the underworld.

The rules of heaven and earth are ten times, a hundred times stronger than other worlds!

Even the realm of true immortals can't completely dominate the world around him, and Fang Yue has unconsciously completed the good fortune that the powerhouse of this true immortal cannot do!

"Are you really a revisionist at the master level?" Mosquito Dao asked incredulously.

"Replace it like a fake!" Fang Yue's deity answered with a smile!

During this period of time, Fang Yue practiced hard in the tenth-tier world of the Dream Family, and he subtly swallowed one thousandth of the world origin in the tenth-tier world of the Dream Family!

Fang Yue felt that if he stayed in the tenth level of the Meng Family like this, it would not take too long. The tenth level of the Meng Family would be destroyed by him!

If that is the case, Mengjia will definitely take over the endless hatred with him!

In order to prevent the masters of the Meng family from coming, Fang Yue decided to retreat strategically!

Only then did he let his own deity descend, but Fang Yue didn't even think that his appearance would cause such a strong shock!

Even Mosquito Dao Ren, a real powerhouse in the fairyland, had an incredible feeling!

Hearing the doubts of the mosquitoes, Fang Yue felt a little pride in his heart!

Chapter 1872: Earth Sha

After seeing the appearance of Fang Yue's deity, the mosquito man felt a little weak.

He has never seen such a sturdy leader realm!

Even the Qi of Chaos has been refined! The mosquitoes don't even know if Fang Yue is specifically a practitioner at the master level!

However, having said this, he had no reason to refuse Fang Yue's gambling agreement.

Although Fang Yue is powerful, as long as he has enough resources, he should be able to smoothly rise to the next level!

The mosquito person is quite confident in the accumulation of spiritual resources!

In the League of People, everyone has their own specific division of labor! The division of labor of the mosquitoes is responsible for the cultivation of the younger generations of disciples!

Therefore, the mosquito person has a lot of stocks of pills and the like!

Even if you use resources to smash Fang Yue to the second level of the leader realm!

The Mosquito Dao people did not really intend to use this gambling agreement to make Fang Yue look forward to him, as long as Fang Yue can join the League of People with peace of mind!

There is no shortage of geniuses in the League, but there is no freak like Fang Yue!

When you reach the human league, you don't need to be too high. As long as you can train Fang Yue to the true fairyland, no, as long as you reach the virtual fairyland level, a rising star will surely rise again in the human league!

It's not that the mosquitoes are stubborn, but that the mosquitoes are really not sure whether Fang Yue's talent can really step into the real fairyland level.

Because the deeper the foundation of this practice, the harder it is to improve the level of practice in the later stages!

With talents such as Fang Yue, it is estimated that this human alliance will soon be unable to support it at the level of the virtual fairyland!

To train such a practitioner, the resources needed are dozens or even nearly a hundred times that of other practitioners in the same realm!

"If you want to improve your cultivation in the realm of the evil realm, the first step requires the evil spirit of the earth! Every world is connected to the realm of the evil earth, and this earth evil is not really in the world's underground! Heaven and earth evil are two A very mysterious place, they are connected to all worlds, and its area is vast! There are legends that there are thirty-six levels of Tiangang and seventy-two layers of Earthshade, but in fact, the world of Tiangang and Earthshade is layered by layer, basically there is no People have walked to the end of the Heavenly Gang and the Earth Demon! But generally speaking, the world of Earth Demon to the 72nd floor and the Heavenly Gang world to the 36th floor can already fully satisfy the practitioner's requirements for the Heaven and Earth Demon. Now! Even most cultivators can almost complete the tempering of the body and soul in the world of Tiangang and Disha after walking up a few layers!"

"From my observation of you, you probably haven't really traveled to the world of Tiangang and Earthsha! I will teach you the formula. You can enter the world of Earthsha and absorb Earthsha, first temper your body!"

Sure enough, the mosquito person will be as Xue Ziyun said, his personality is very good, and he is even more meticulous in giving advice to the younger generation!

"I know the formula for going to the Earth Shaman world. I don't need any guidance from my senior! It just so happened that I have been in the Sha Sha world for so long and I haven't really entered the Sha Sha world. I just took this opportunity to go in and take a look! "

Fang Yue said, and at the same time, he lightly stamped his foot.

One-person-high space cracks opened, directly penetrating the earth evil world!

A strong wind blows violently from the cracks in the space! If it is a general practitioner of the evil realm, it will definitely be hit hard!

The evil spirits in it can corrode human flesh and soul!

The ordinary practitioners of the Earth Demon Realm will make full preparations every time they enter the Earth Demon world, and prepare various magical items or spells in advance to resist!

And Fang Yue felt that he didn't need these troublesome things at all!

His physical body has been strengthened to the point where even Fang Yue himself does not know how powerful it is!

The evil wind had just blown down on Fang Yue's body, and the evil wind itself dissipated!

Instead, the blood in Fang Yue's physical body was slightly activated!

A strong blood rushed back into the space crack like a burning fire.

The cracks in the originally pitch-black space were instantly illuminated, and the flames stretched for dozens of miles, burning away all the evil wind and energy on the way.

This scene stunned everyone!

Even the mosquito person rubbed his eyes, feeling that his cognition has been subverted!

He recalled that when he was in the Evil Realm back then, he was also known as a genius who had seen it in the underworld for a thousand years.

However, when he entered the Earth Shaman world, he was cautious, lest he disturb the powerful existence in it!

Hidden dragons and crouching tigers in this earth evil world, even in some worlds with lower levels, powerful earth evil creatures may appear, but the higher the level, the greater the chance of encountering a powerful existence!

This Fang Yue is so public, isn't he afraid of disturbing the king of the evil world?

It turns out that the mosquito person thinks too much!

Fang Yue opened the space rift, and after the blood poured into this earth evil world, there was a powerful idea from this earth evil world!

This is definitely an earth evil creature at the pinnacle of the Saint Realm. It regards Fang Yue's behavior as a provocation to its authority.

He is the lord in this world of evil!

He rules everything! Never allow any creatures to be presumptuous on his territory.

Fang Yue released a stronger divine mind, this divine mind directly evolved into a spiritual storm that completely conquered the so-called master, and became his servant with a spiritual brand!

Under Fang Yue's mental control, the realm in the earth evil world turned out to be ran out by himself. He was a lion-like creature, and every part of his body was condensed by the pure earth evil power. !

It walked out of the crack in the space and crawled under Fang Yue's feet. It looked like an obedient little cat, sticking out its tongue, gently. Licking Fang Yue's feet!

He didn't have the slightest prestige that belonged to the king in the earth evil world, and now he looked more like a poor creature at Fang Yue's feet!

Immediately afterwards, in this space crack, more earth evil creatures received the lord's call and filed out.

In a short period of time, at least thousands of earth evil creatures gathered around Fang Yue.

Those who know this is Fang Yue rushing into the evil of Earth, but those who don't know think that Fang Yue is summoning the younger brother of the evil of Earth to attack other worlds!

"How should this evil creature be refined?"

Fang Yue asked the people around him for advice a little shy.

He had summoned a lot of evil creatures in this place, but there was a feeling of incomprehension.

This place is pure and pure, with four simple words. But there is no specific operation!

Whether it is Mosquito Dao, Xue Ziyun or Yin Gu Dao, they are a little speechless. This Fang Yue is unparalleled, and his combat power far exceeds that of practitioners of the same realm for hundreds of light years!

But he lacks the common sense of some practitioners!

Shouldn't this refining earthshak be the most basic operation for practitioners?

"Cough cough, most people enter the world of the evil spirits of winter, the essence of the evil spirits is to absorb the evil spirit from the wind, and blend into the flesh and blood! After all, the creatures in the evil of the earth are too wild! Too irritable! It's easy to encounter backlash. What they pay attention to with the earthshak essence is the skill of water milling! And since you can summon the creatures in the earthshak world, you can kill them, the body of this earthshak creature will naturally condense into one earthshak Bead! The evil spirit contained in this earth evil spirit is more pure and pure than the evil spirit contained in the ordinary evil wind! Refining is twice the result with half the effort, and the effect of the pure body is stronger!"

As a professional guide, the mosquito person is obviously more professional in giving instructions.

Fang Yue nodded slightly to express his understanding, and then said to the evil creatures: "You can kill yourself!"

Fang Yue gave an order, and these earth evil creatures actually committed suicide!

The earth evil creatures that were all over the ground before have now become earthy yellow earth evil beads!

The strength of this earth evil creature was all manifested in the size of these earth evil beads!

The earth evil creatures with stronger cultivation bases' earth evil beads are obviously bigger!

Fang Yue picked up an earth evil bead at random and refined it into his body.

This is an earth evil orb that was concentrated from an earth evil creature at the master realm level during his lifetime!

Massive earth evil power, raging like a tide, crazily poured into Fang Yue's body, and as a result, these earth evil auras blended into Fang Yue's body like a drop of water into the sea, not even a bubble came out!

Afterwards, Fang Yue refined all the earth evil beads, including the lord of the earth evil creature.

As a result, it is still a drop in the bucket!

It is difficult for Fang Yue's physical body to produce the slightest change!

Fang Yue said to himself: "It's no wonder that many practitioners have been trapped in the Earth Evil Realm for a long, long time! This tempered physical body needs so much Earth Evil power, I am afraid that there is no time to kill the Earth Evil. The creatures and the refining earth evil beads have no way to produce some changes in their flesh!"

Fang Yue's words left everyone speechless.

What you said is yourself!

If you change it to someone else, it's just a small realm. The power of the Earth Sha in the creature you just killed is enough!

Everyone is good at refining the evil spirits!

Who is as bold as you, a team of evil creatures commit suicide to provide you with evil spirits!

"No, no, this kind of efficiency is too slow. It takes years of monkeys and horses to make some changes in my physical body! This is a very time that requires extraordinary means! Since the body of this earth evil creature contains such a strong earth evil power, then this earth evil The world itself should be a collection of the power of the evil spirit! The origin of this refining earth evil world must be faster than refining the earth evil creature!"

Fang Yue directly shifted his gaze to this world of evil!

The mosquito person opened his mouth, trying to stop Fang Yue.

He wanted to say: "You can slow down! I'll wait for you!"

But the mosquito person finally did not say this!

He also wanted to see if this refining Earth Sha world could really get the power of Earth Sha!

Chapter 1873: Refining Earth Sha

Fang Yue didn't take a step forward, he just dropped a thought, which was to split the space of the Earth Shaman world of about 100 cubic meters.

His mind is like a knife, and it contains the power of space and heaven, and splitting space is a matter of random!

The mosquitoes could not help being shocked when they saw this!

This is the first time that he has seen someone smashing the body like this!

Ordinary cultivators can kill the head and earth evil creatures and use the earth evil beads to absorb the power of the earth evil. Tempering the physical body is already very impressive, but compared with Fang Yue in front of him, everyone is not a level at all. The existence of!

A piece of space fragment appeared in front of Fang Yue, among them there were two dazed earthshaker creatures. They were still hunting just now. Why did they disappear after taking the food in the blink of an eye, and they also came into a strange world?

Fang Yue ignored these, and he raised his hand to refine this space fragment. Sure enough, the earth evil spirit contained in this earth evil world was even stronger.

The earth evil aura contained in a small piece of space is more than a hundred times that of the earth evil creature at the peak of the saint state just now.

Fang Yue's body finally showed a slight change!

Each cell began to undergo metamorphosis, and each cell seemed to be infused with new life!

The transformed cell becomes a chaos. Each chaos seems to be a singularity of the universe, and it seems to be brewing a miracle and glory! Of course, this transformation is only the most preliminary transformation, and it is not enough to give birth to a real universe.

"This earth evil spirit is still too little! This meager earth evil energy is simply not enough to support the change of my physical body!"

Fang Yue muttered to himself, he has high requirements for the evil spirit of the earth!

Even though some of the space fragments of the Earthshade world have been refined, his physical body is only part of the cells transformed!

Compared to the billions of cells in Fang Yue's body, these cells are simply a drop in the ocean.

When the mosquito road man saw this scene, he was stunned. Is this Fang Yue really ready to refine the entire Earth Shaman world before he is willing?

The earth evil spirits collected by others are all covering the body to indicate the formation of earth evil armor, which is used to protect the body. It is a slightly higher level of refining into the body, fusing the power of the earth to form a corresponding change, and gestating a variety of supernatural powers!

He has practiced for so many years and has cultivated countless strong men in the League of Humans. He has never heard of that some people gather the evil spirit of the earth to nourish every cell.

This cell is the most basic unit in the physical body of the practitioner, and the power of the earth evil is cold and fierce, full of destructive power!

This integrates the evil spirit of the earth into the cells, which will cause the cells to burst and smash directly. This is not a way of strengthening at all, but a path to death!

But by the way, Fang Yue, a freak, was able to integrate the evil spirit of the earth into the cells in his body!

The earth smashed into the body, not only the cells were intact, but also all kinds of inexplicable transformations occurred!

This Fang Yue's body is mysterious and unpredictable. Although Fang Yue's realm is not high, the layer of chaos on his body has been able to block most of the detection of the gods!

Even if it is a super powerhouse at the real fairyland level like Mosquito Dao Ren, he can't penetrate his divine mind into Fang Yue's body to detect the various changes that have occurred!

Mosquito Dao's conscience is guilty, and he can vaguely guess the result of his bet with Fang Yue!

Fang Yue's physical body is simply a bottomless pit, and even the world of the evil spirits can't satisfy Fang Yue's needs. The pill in his hand is even more difficult to supply Fang Yue's cultivation realm, even if it is only the need to improve a small realm!

"This is too slow to absorb the evil spirit of the earth!"

Fang Yue said to himself, he took a step forward and walked to the entrance of the world of Earth Shaman he had torn apart.

Fang Yue's body seemed to be one with the entire entrance.

The space cracks gradually become nothingness, blur, and finally disappear!

Fang Yue actually followed the entrance of the Earth Sha world and began to directly assimilate the world origin of the Earth Sha world!

The earthshade world is vast and endless, and its origin is also endless. The world origin that Fang Yue has assimilated is like a drop in the ocean.

But even so, such a move still makes the mosquito person feel shocked!

This is too sturdy!

This is the world origin of the Shao Earth, and the level of the Shao Earth is difficult to determine, because no one has ever fully and truly explored the Shao Earth world.

In just a few breaths, Fang Yue has assimilated thousands of cubic meters of space in the world of the evil, which is equivalent to the permanent loss of thousands of cubic meters of space in the world of the evil!

This is absolutely an unprecedented madness, amazing and speechless.

However, Fang Yue was still disappointed, "Not enough, not enough, these evil spirits cannot temper many cells at all!"

Fang Yue muttered to himself, he cast his gaze to the deeper part of the earth evil world.

In Fang Yue's eyes, the terrifying world of the Earth Shame that countless Earth Sha Realm practitioners tremblingly turned into a treasure world worth exploring!

At this time, the world of the evil spirits was finally unwilling to be refined and played a firm counterattack!

In the world of Earth Shaman, a vast force is slowly recovering!

This kind of recovery is like the morning sun on the ground is about to rise, it has an unstoppable rhythm!

The world trembled, the world roared!

Even the stars of the Earthshade world are rising and tidal like the sea!

"This is part of the Earth Sha World's world will that is recovering! Fang Yue, you have caused a disaster!"

The mosquito passage is as earthy!

He has seen someone who can cause trouble, but he has never seen such a person!

The recovery of this world will is not terrible, if it is the recovery of the world will of the general small plane, even its strength is not as good as that of the strong in the saint realm.

But this is the resurrection of the world's will in the world of the evil spirits, and an inexplicable world is waking up!

No one knows how vast and powerful this earthshad world is!

No one knows what terrible consequences will be caused if the world will in this world of evil spirits is revived!

Fang Yue's still refining and eroding the space of the Earth Sha world, even he is even more arrogant and unscrupulous, and his speed in refining the Earth Sha world has further accelerated.

When Fang Yue was refining the Earth Sha world, if he could still describe it by chewing slowly, now Fang Yue refining the Earth Sha world is just devouring it, it's a raging cloud!

This huge earth evil world has become a delicacy in Fang Yue's eyes!

Every cell in Fang Yue's body has become a starving ghost, and the evil spirit of this place will be snatched away by these cells as soon as it is refined into the body!

"I finally know why most of these people who have both practiced at all times since ancient times stayed at the level of Yin-Yang Realm and Earth Evil Realm! This is because ordinary families cannot support such practitioners at all!"

Fang Yue can feel the obvious changes in his body, and more of his cells are metamorphosing and evolving!

The transformed cell can already ignore the limitation of space, it seems to be everywhere, and it seems that it does not exist anywhere in this world!

Fang Yue closed his eyes, his mind moved, and the cells after the metamorphosis contracted and relaxed slightly.

A faint fairy air spit out from the cells!

These celestial spirits originate in the earth celestial world!

"Unexpectedly, the life transformation of the evil realm here has such a magical effect!"

Fang Yue felt the changes in his physical body, and he was also taken aback! His deity's body has refined countless space fragments and integrated into the origin of the world. It has long since been cultivated into the third layer of "The World Body". It can be integrated into the world. The world is so large that it can be obtained by yourself, but this This kind of integration into the world, wandering around the world is just confined to a certain universe!

As for crossing the universe between one thought, Fang Yue is still a rather remote realm!

But Fang Yue didn't expect that his "Ten Thousand Realms" had not yet cultivated to the realm of Dacheng, and the physical transformation of this earth evil world had already fulfilled part of his dream!

Although he has not yet reached the level of traveling through the universe between thoughts, at least the cells after this transformation have become space nodes. With these space nodes, he can let thousands of cosmic forces bless the body, the breath of the underworld and the immortal world. He can breathe easily, he doesn't need to be physically present!

However, Fang Yue didn't feel happy for too long, because the world will of the Earth Shaman world had begun to slowly recover!

Beast shadows appeared one after another not far from Fang Yue, these fierce beasts evolved from the power of the evil spirits are the incarnation of the will of the evil earth!

There are hundreds of fierce beasts in total, each of which is at the level of Great Sacred Realm and even Virtual Fairyland!

Even if it is placed in the underworld, a fierce beast of this size is enough to cause an uproar!

"This Fang Yue!"

Although deep in his heart, the mosquito person still does not want Fang Yue very much, but as a member of the Human League, it is his responsibility and obligation to leave the seeds of hope for the human race!

In any case, Fang Yue's talent and heart can be recognized by him!

If cultivated well, Fang Yue will surely become a pillar of the League of People in the future!

No matter what kind of consideration, Fang Yue could not die.

The mosquito person is ready to take action at any time.

However, before the mosquito man had time to take action, Fang Yue changed his body and became an earth evil creature. Although his appearance has not changed, his body has become the standard physique of earth evil creatures-every part of the body. They are all condensed from the evil spirit of the earth!

The physique of this earth evil creature itself is extremely special. The earth evil is condensed, with only a core and no soul.

Ordinary creatures, even if they are proficient in the art of change, cannot transform from flesh and blood creatures into horrendous creatures!

But Fang Yue just accomplished such an almost impossible miracle!

After seeing Fang Yue's posture, those fierce earth evil creatures were suddenly lost.

Damn it, your own person!

Is something wrong?

The breath they felt before was obviously not the aura of earth evil creatures!

Fang Yue saw these earth evil creatures summoned by the will of the earth evil world, he didn't evade and greeted him as if he saw his family!

"Brothers, you are here!"

Chapter 1874: God operation

"You stop!"

One of the earth evil creatures at the Great Sacred Realm level saw Fang Yue approaching, and an instinctive vigilance was born in his heart!

This Fang Yue looks innocent and seems to be the same kind of them, but why he is not in the earth evil world, but will appear here, which makes them questionable and thoughtful.

Fang Yue didn't expect that the silly earth evil creature would be so vigilant at this time.

He greeted him with a bright smile: "Big brother, I am really innocent! There were some dark demons who were very arrogant. They joined hands to open the space gap leading to the world of Earthshade. These people are extremely vicious and even split the space. Refining part of the evil world into sacrifices!"

Fang Yue opened his mouth to talk nonsense, and he dumped all the black pots on the head of the Black Demon Race.

According to the truth, these earth evil creatures should not believe it.

But what Fang Yue said about having noses and eyes made their hearts feel suspicious. More importantly, this matter involves the Black Demon Race, which is the dogleg of the True Demon Race.

The reputation of their race is not very good in the hundreds of millions of universes, including in the world of the evil spirits, they are even notorious.

The black demons once had a history of leading their troops to invade the world of Earth Sha!

Moreover, the purpose of the invasion of the Black Demons at that time was also to plunder Earth Shazhu as a sacrifice!

Earth Shazhu is a natural spiritual treasure, besides tempering the flesh, it has many magical functions!

In the eyes of many creatures in the universe, this earth evil bead is a priceless treasure!

But in the eyes of the creatures in the earth evil world, this earth evil bead is their lifeblood!

"Okay! Since you said that, I will accompany you to investigate later to see if this black demon race is so bold and dare to beat the idea of my earth evil world! Separate the world origin of earth evil world for sacrifice! If this black If the demons really dare to do such a rebellious thing, even if the world of our evil spirits fights to a single soldier, the entire black demons will be completely annihilated!"

This black demon is powerful, but the evil creatures are also very rigid!

Even if they don't want to come forward to maintain this kind of thing, it won't work!

"Okay! I'll lead the way!"

As soon as Fang Yue turned his head, he became the leader of the earth evil creatures!

But when the mosquitoes and others saw Fang Yue's operation, they were all dumbfounded!

This Fang Yue's rhetoric, murderous invisible, is simply too admirable!

It was originally the enemy Fang Yue provoked, but in a few words, he blamed the Black Demon Race!

Of course, Fang Yue's planting and blaming is also of quite a standard!

At the very least, his technique of change is something ordinary people can't learn!

"Could it be that after absorbing the evil spirit of the earth, this Fang Yue learned without a teacher, and realized the magical powers of the thirty-six changes of the evil earth? Besides, I can't think of any kind of magical ability that can change form before breathing, even The origin of life has also become exactly the same as the Earth Shaman creature!"

Seeing Fang Yue's method of change, even the Mosquito Dao people and others couldn't help being in a daze!

They are not rare and weird people, but the magical powers that can change the origin of life are rare!

The Thirty-Six Changes of the Devil is the only magical power they can think of.

In addition, in fact, the Seventy-two Transformation of Tiangang can also achieve such an effect.

However, the basis for practicing the Seventy-two Transformations of Tiangang is to reach the level of Tiangang realm, and then be holy first!

"Heaven and earth evil, life and death changes! All are the unspoken secrets in the legend, if Fang Yue can understand one of them, it will be enough to benefit his life!"

Yin Gudao's eyes are full of envy!

Even though he is the son of Heavenly Sovereign, he has never even had the qualification and possibility of enlightenment by these supernatural powers!

"Get your breath away, and Fang Yue has a big game this time! If you do it well, you may be able to cause a huge disaster to the Black Demon Race, and if you don't do it well, you may even burn yourself. Get in! I'll follow him when I wait! Escort him!"

Xue Ziyun was cautious, and quickly reminded.

"it is good!"

Yin Gu Dao constricted his breath, and only his eyes could capture the existence of his physical body. If he was probed with divine consciousness, in the divine consciousness world of many creatures, he was basically a mass of air, and it could capture his existence.

"In fact, I think even if we don't go, this Fang Yue should be shocking and not dangerous!"

The mosquito person Fang Yue suddenly had an inexplicable sense of trust. This sense of trust was not blind, but took root in the mosquito person's heart after Fang Yue showed his talent.

Mosquito Dao's words made Yin Gudao smile slightly: "This little junior's method is indeed very good, but this time the matter is not simple, we should follow him to see it!"

Yin Gudao's eyes flickered, and his heart obviously had other plans!

When the voice fell, the three of them acted together.

But in the dark, the black warrior and several other figures also chased up silently!

Fang Yue brought a group of people from the evil world to the Black Demon Race's resident.

Everyone in the Black Demon Race just settled down, and it didn't even slow down! This Fang Yue caught up!

The Black Demon race suddenly became nervous, why did Fang Yue come again?

Lord Zawaxi has just left, did Fang Yue get any information to prepare to cut the roots?

"Enemy attack!"

Without waiting for Fang Yue to approach, the most sensitive nerve in the Black Demon Race's mind was directly broken!

The people of the Black Demon Race are ready to start first to be strong!

Their various magic techniques and various magical instruments are whizzing towards Fang Yue!

The attacks of these black demons were all aimed at Fang Yue.

Of course Fang Yue knew this well.

But Fang Yue knew that these creatures in the earth evil world didn't know it! They were standing behind Fang Yue, and in their opinion, these spells and magic weapons rushed to where they were.

Originally, the evil creatures wanted to give these dark demons a chance to clarify.

It seems that it is no longer needed!

Fuck, their attacks are about to hit their foreheads, this is a clarification!

To be a guilty conscience, these dark demons must be a guilty conscience.

Creatures in the Earth Sha world swarmed up, and all kinds of methods greeted them.

The two sides fought against each other for a while, with great momentum!

The earth is shaking, the mountains are shaking, the world is dim, the sun and the moon are pale, and the stars are falling!

The powerhouses of the Great Sacred Realm and the Virtual Fairyland are on the battle!

The Black Demons even had their hole cards as their killer card!

What taboo artifacts, what scrolls of the imaginary fairyland level, the dark demons set off wars in the underworld. Their background and methods are absolutely not to be underestimated, but although the earthshad creatures do not have so many fancy methods, they are There are so many strong people! Dasheng and Xuxian are all in groups!

In the team of hundreds, all of them are the elite of the elite!

Xuxian is now a movie!

The resistance of the Black Demon Race quickly became futile. The strong members of the Black Demon Race, whether they were saints or those in the Great Sacred Realm, were quickly slaughtered and cleaned up. The imaginary immortals who had previously lived on the clouds were also counted. The earth evil creatures at the head imaginary fairyland level are besieging, just a few breaths of time are surrounded by the earth evil creatures for prey!

"Are these earth evil creatures so powerful? The imaginary immortal of the Black Demon Race is not weak. Even if it is easy to defeat several people who are also strong in the imaginary fairyland, it is quite difficult to kill it! This is only a while. With great effort, this black demon clan's imaginary immortal has already been punishable!"

Yin Gu Dao looked at the scene in front of him, which refreshed his understanding of the evil spirits of the earth. He had entered the earth evil world more than once and hunted the earth evil creatures, but he had never felt that the creatures of this earth evil were so strong. fierce.

"It's not that the evil spirits are powerful, but the world will attached to them is strong! The world will of this earth evil contains infinite power, just peeling off a little, falling on the earth evil creatures is enough to give them strength A surge of several times or even dozens of times! Once the will of this earth evil world takes back the will blessing it attached to the earth evil creatures, they will be beaten back to their original form and restored to their original form! However, this time Fang Yue has established a great power for the Southern Territory Thanks! During this period of time, the Black Demons have been in the Southern Territory, they have repeatedly provoked the Human Race! And the Human Race has

not yet formed a powerful counterattack, and this time all eight people have been destroyed, which can be regarded as a sound for the Black Demons. A wake-up call!"

The mosquito man was very relieved looking at the corpses of the Black Demon Race across the wild.

The status of the Human Race in the underworld is precarious. Without the support of powerful people at the Tianzun and Half-Step Tianzun level, some ethnic groups that had previously held hatred against the Human Race have jumped out and attacked the Human Race secretly.

Among them, the black demons danced the most joyfully.

Fang Yue's ability to attack the Black Demon Race, and destroying their eighth team is also considered a shock to the mountain, causing a deterrent to the Black Demon Race.

"But if that's the case, wouldn't Fang Yue become a target for everyone?"

Yin Gu Dao is for Fang Yue's safety. Although Fang Yue's cultivation is amazing, there is still a big gap compared with some of the older generation's strong people!

The mosquitoes said with a smile: "Don't worry! This time it was not Fang Yue who killed the Seventh Team of the Black Demon but the evil creatures. Fang Yue was very measured. During this whole process, he never took the initiative, except for self-defense. And counterattack, otherwise, he will definitely not touch half of the Black Demon's hair! Fang Yue's doing this is an excuse not to trouble the Black Demon! It was the opponent Yue of the Black Demon who took the initiative in Tianquemen!"

Although Mosquito Dao Man had some prejudice against Fang Yue before, as time passed, some of his views on Fang Yue were gradually changing!

Fang Yue can consider the human race, think for the sake of justice, have courage rather than recklessness, such a junior is really worth training!

"This Black Demon Race is so domineering and unscrupulous. After seeing me waiting, not only did she not repent, but also took the initiative to wait for me! This Black Demon Race must give a good lesson, only to destroy their seven teams. It's cheaper for them!"

A humanoid creature of the imaginary fairyland level in the earth evil creature said.

There was a tone of indifference and anger in his tone.

Earthsha World is their homeland, and the homeland is coveted by others, how can we not let him feel hatred!

"Thank you for your help and help me get revenge! I know the other gathering spots of the Dark Demons. I don't know if you are willing to go with me to pacify?"

Fang Yue spoke again.

Although the seven teams of the Black Demon Race were killed, the vitality of the Earth Sha creatures was quite tenacious, and the loss of personnel was not great!

They can set off again and quell several tribes of the Black Demon Race!

But these earth evil creatures didn't mean to stay in the underworld for long.

"The Shah of Earth has the rules of the Shark of Earth. I can't wait too long in other universes! Since this disaster has subsided, I will return to the Shark of Earth! Brother, you have to return to the Shark of Earth as soon as you finish things. It is, otherwise, once your trace is discovered by the will of the underworld, all traces of existence will be wiped out!"

The virtual immortal in that evil creature is also related to Fang Yue,

Fang Yue had some regrets, but after a few words of greeting, he let these earth evil creatures leave!

After all, these earth evil creatures have their own independent will, and they can flicker once, if there is more flicker, it will be really troublesome!

Chapter 1875: Local Tan

Fang Yue personally sent the army of the Earthshade back home. Although he had regrets in his heart and felt that he could not make the best use of it, he knew that this should be the best ending.

This time the Black Demon Race was hit hard, and even with the men and horses who died in the Tianque Gate, eight teams of strong men fell and disappeared.

This is definitely a great shame in the history of the Dark Demons!

The majesty of the Black Demons has been severely suppressed, and will even collapse for a long time!

The Black Demons were killed by so many powerful men at once, but in the end they didn't even have a chance to retaliate against the enemy!

They absolutely didn't have the guts of Fang Yue, they dared to tear apart the space, stepped into the earth evil world to invade and retaliate, and in the end this bitter fruit could only be swallowed by themselves.

Mosquito Man is already laughing and blooming. In the past few decades, this is the coolest battle he has witnessed in the battle between the human race and the black demons!

"Fang Yue, you are a hero! Your name will appear on the merit book for the human race! You have established power for the human race, and created and rewritten history for the human race!"

The mosquito road man Fang Yue said solemnly that his evaluation of Fang Yue was very high, not because of how many people Fang Yue killed.

In fact, for the entire Black Demon Clan's billion-trillion population, this Black Demon Clan is not even a mere dime!

The key is that Fang Yue is composing a miracle, a myth! A human cultivator in the Yin-Yang realm could cause such serious damage to the Black Demons!

The bones of the great sage piled up like a mountain, and even the strong men of the virtual fairyland were nailed to the ground, blood drenched, and the ground was red!

The gap between their cultivation levels is too great, and the resulting battle results feel too shocking.

Although Fang Yue didn't kill the eight teams head-on, it doesn't matter whether the formation or the knife is used to kill people, the long river of history is rolling, and all the processes will be watered down and annihilated. In the end, only the victory and defeat will remain in the annals of history. , Only the ending!

"The human race has a long way to go in the future. With the efforts of one person, unless the strong from the heavenly realm returns, it will be difficult to reverse the situation of the human race in the underworld!"

Fang Yue's expression was calm, he was not ecstatic about a big victory!

He was talking to himself, and it seemed to be a sigh: "The future road of the human race is still rugged and difficult!"

When the mosquito person heard this, the joy on his face gradually returned to plainness!

"Yes! The road of Human Race is difficult to move, and the years to come will be even more difficult!"

Mosquito Dao people said in memory: "Remember that in the past, the human race's Tianzun was in the world, he swept through the underworld, and made all parties bow their heads, and all became vassals! Some small tribes can only shiver in front of the human race, and humble surrender. If the human race left today, the human race suffered. With turbulent waves, where is the future of the human race, how many people can tell?"

The eyes of the mosquito man fell. Several people learned about the sadness and bitterness in his heart.

The higher the cultivation base, the greater the responsibility on the shoulders.

As a true immortal, a mosquito person carries more responsibilities and more burdens than others.

"Forget it! This time I used the creatures of the Earth Sha world to annihilate so many Dark Demons, and it was a great pleasure! But I can no longer refine the origin of the Earth Sha world! This is a small regret. !"

There is not much melancholy in Fang Yue's tone, but he still has many ways to get the evil spirit here!

For example, personally enter the earth evil world, kill the powerful creatures in it, and refine the earth evil beads. This is actually the most efficient method within the rules allowed!

"The progress of every small realm of this evil realm requires a geometric multiple of the evil spirit! You have already absorbed a lot of evil energy before, so you should barely reach the critical point of the first realm of the evil realm!"

The mosquito man looked at Fang Yue, and there was also a hint of uncertainty in his tone.

If it's someone else, he can see through it at a glance.

As for this Fang Yue, he had looked at him a lot, but still in the mist, he didn't know where his specific limit was!

Fang Yue was taken aback, then smiled and said, "It should be almost done!"

"If this is the case, then I will help you improve your cultivation according to the previous bet! I want to see if your body has a bottomless pit and can absorb endless pill!"

The mosquito person was in a good mood, and he said heartily.

Originally, the mosquito man didn't want to complete this bet with Fang Yue!

However, after seeing Fang Yue leading the Seventh Team of the Divine Creatures to Exterminate the Black Demon Race, he immediately felt refreshed. He felt that Fang Yue should be a plastic talent, even if he was consuming part of the precious pill to improve his cultivation. worth it.

The generosity of this mosquito man was beyond Fang Yue's imagination. Fang Yue originally thought that the mosquito man would not agree to his bet. After all, now everyone can see that he is walking on an unusual path of cultivation. The resources he needs to break through each small realm are several times or even thousands of times that of other practitioners in the same realm!

Moreover, his future is unpredictable. Such practitioners can rarely meet opponents in the same realm. However, their path will definitely become harder and harder. It is very likely that they will stop before the bottleneck of a certain realm, and then they will become Mediocrity, everyone, no longer brave!

From the perspective of the overall situation, there is not much difference between cultivating a Tianjiao who can be compared with a strong person in the virtual fairyland in the master realm and an ordinary virtual fairy.

After all, in a real ethnic war, everyone is torn apart, and no one will follow this rule of soldiers versus soldiers versus generals!

Xuxian may also attack the practitioners in the leader realm, and even the true fairy will personally end up!

The leader realm is comparable to the Tianjiao of the virtual fairyland, and it consumes more resources on the road to practice, but it is often easier to be targeted on the battlefield!

However, the mosquito people didn't care about this, and it was not the gambling that really made the mosquito people willing to go down and provide Fang Yue with the pill, but Fang Yue's previous feats of destroying the black demons!

If the human race really does it by themselves, and there are no special circumstances, the ratio of casualties between the human race and the black demon race's soldiers will be about 1.5:1.

That's right, the individual combat power of the human race is actually far inferior to the dark demons!

Fang Yue's action this time, one person eliminated the eight teams, which actually saved a lot of resources for the human race and saved a lot of troops.

From this perspective alone, the mosquito person felt that he should give Fang Yue some rewards!

Even if Fang Yue is unwilling to join the Human League, as long as Fang Yue's heart is toward the Human League, the Mosquito Dao people are willing to make some sacrifices to accelerate Fang Yue's growth!

"This is a secret pill in our League specially prepared for practitioners in the master realm-Earth Element Pill, which is a mixture of the power of the earth and the essence of the Earth Shaman! Taking the Earth Element Pill can greatly shorten the training time of the Earth Sha State. Two earth essence pills may not have much effect for you, but I have prepared a thousand earth essence pills for you. It should be possible to supplement the lack of quality with quantity!"

The Mosquito Dao Man's shots were quite generous, and the Di Yuan Dan he gave suddenly stunned Fang Yue!

He also heard about this Di Yuan Pill. Yin Gu Dao used to talk about the name of this Di Yuan Pill before in small talk. In fact, the prescription of this pill is not only controlled by the League of People!

Many large forces also have the refining and production of Earth Element Pill! The refining materials of the earth essence pill are quite precious, and a large amount of earth evil beads are needed as the raw materials for refining this pill!

And once a practitioner has crossed the level of the earth evil realm, it is difficult to enter the earth evil world again to obtain the earth evil orb.

Therefore, these earth evil beads were hunted and killed by cultivators who risked their lives and did not know how many cultivators in the pinnacle realm!

Every earth element pill is extremely precious.

This earth essence pill can create the strongest foundation for the practitioners of the earth evil realm. Every time this pill appears in the auction house, it will be sold out!

Some disciples of small races, even if they want to get an Earth Element Pill to stabilize their foundation, it is extremely difficult, but this Mosquito Dao Man is worthy of being a true immortal in the League of Humans.

Fang Yue is not welcome, he has taken over these earth pill!

He placed a thousand Earth Element Pills in his hand and carefully looked and pondered.

"What? Do you think the pill I gave you will still be poisonous?"

The mosquito man said half jokingly.

Fang Yue shook his head slightly.

He put a Di Yuan Dan in his palm!

A group of purple flames suddenly rose up a small flame in his palm.

This flame is very small, and it happens to completely wrap up this earth pill!

"Fang Yue, what are you doing? Even if you don't care about my earth pill, you can return it to me without ruining things!"

The mosquitoes could not help but feel heartache when seeing Fang Yue's behavior!

This Earth Element Pill is also a scarce resource in the Human League. If Fang Yue's talents were so outstanding, and he had just made a great contribution to the Human Alliance, he would not have given Fang Yue so many Earth Pills in one go!

Unexpectedly, after Fang Yue got the Earth Element Pill, he didn't even know that this precious pill was burned in the flames!

The mosquito person's heart faintly regretted that he gave Fang Yue these earth essence pills.

Fang Yue didn't say a word, the Diyuan Dan in his palm was beeping, a layer of black impurities penetrated from it, and was burned to ashes by the purple gunpowder!

The size of the Earth Element Pill has shrunk in a circle.

However, this pill is more compact and exquisite, and it seems to contain a stronger medicinal effect, which can build a solid foundation for practitioners and nourish the flesh!

"Remove the decay and keep the essence, ten percent pill!"

Yin Gu Dao exclaimed, his eyes lit up!

"Senior Mosquito Man, this Fang Yue is not ruining the pill, he is the impurities in the tempered earthen pill! When the general pill is released, it will always be contaminated with various impurities! Because of the impurity in the pill. It will seriously affect the effect of the pill, so the less impurity the pill, the better its appearance! According to the appearance of the pill, it will generally be divided into 10% to 10%! Ordinary pill, its product The physiology is about 50 to 60%, and 70% of the elixir is a high-quality pill, and 80% of the elixir is the best of the pill! The nine-finished pill is even some big names among alchemists. It is difficult to refine!"

There is a lot of research on Yin Gu Dao, not only in cultivation, but also in the aspects of pill, formation, and Feng Shui!

"As for the ten percent pill, it is rare in ancient times! The medicinal properties of this ten percent pill can be worth seven or eight pills with seven finished products!"

Chapter 1876: Super pill

The introduction of Yin Gu Dao made Mosquito Dao people feel ashamed. He didn't expect that Fang Yue had such an ability to temper pill!

The pill that I think is quite precious, in the eyes of others, is a semi-finished product that needs to be tempered and processed twice before it can be used!

"This Earth Element Pill should be able to smoothly promote a cultivator from the eighth floor of the Earth Evil Realm to the ninth level! Mosquito Dao People, this pill, you hand! Leave this Earth Pill to

those in need! This pill It's no longer valid for me! I already have a huge amount of evil spirit in my body, and the evil spirit in this earth essence pill does not have much effect on me!"

Fang Yue returned this Di Yuan Dan to the mosquito person.

At the same time, he tempered all the remaining Earth Element Pills in his hand, and all the impurities in it were refined to become a ten percent pill. It's just a splash, and the value of this pill has increased more than ten times!

There are no impurities in the pill, which will not only increase the medicinal properties of the pill, but more importantly, after taking it, the pill without impurities will not leave any toxins and impurities in the body and there is no hidden danger!

The mosquito man was even more ashamed, and Fang Yue's generosity gave him a feeling of saving the belly of a gentleman with the heart of a villain.

Fang Yue smiled slightly: "In fact, I still have to thank you for the pill! When I was studying this earth pill, I had already roughly understood its ingredients and figured out the pill of this earth pill. I can refine it myself. A pot of Earth Sha Pill. The refined pot of Earth Pill may enable me to go further on the level of Earth Sha Realm!"

Fang Yue's words stunned the mosquitoes!

This Fang Yue can still make alchemy!

However, since Fang Yue had the means to temper the pill, there was no surprise that he could refine the pill.

Mosquito Daoist just found himself a reasonable reason, but he soon realized that something was wrong!

wrong!

This Fang Yue just said that he refines what pill?

Earthshadan?

Where did he come from?

Although the pill of the earth pill is not an exclusive secret, right? But at any rate, this kind of pill is a very precious pill. The pill is rare, and the method of refining is not spread!

The mosquito person feels that his heart is about to collapse!

Does this Fang Yue really know the refining method of this earth essence pill after a glance?

If this is the case, it would be too scary!

This is no longer the standard that an average alchemist can reach!

This is definitely a ghost in the alchemy world!

The mosquito person repeatedly confirmed: "Fang Yue, I didn't make a mistake just now! Are you really going to refine a furnace of Earth Element Pill?"

The mosquito road people felt their voice trembling slightly, which was incredible!

Fang Yue nodded earnestly: "Yeah! I think the Earth Element Pill you gave is still a little lacking to make up for! And the process of refining the pill is also a time when you have a deeper understanding of the evil realm here! I have to say, this The predecessor who wrote the Diyuan Danfang is really a ghost! He has already understood the level of the earth evil state to an unprecedented level, and can only create such a Danfang! If I were to study it, even if it was concentrated for a hundred years, it might not be necessary. Can create such an elixir!"

Fang Yue's words came from the bottom of his heart, but when these words fell into the ears of the mosquito man, he felt a bit uncomfortable in his heart.

Because this person who created the Earth Sha Pill Pill was a sage pill Taoist in the human race who used the pill to enter the Tao and finally reached the level of the half-step Heavenly Sovereign Realm.

Daoist alchemy's attainments in pill medicine are of course well-known in the annals of history, no one can match, but listening to Fang Yue's words means that although he is worse than Daoist Dan, he is not much worse!

Fang Yue didn't take out Xiao Tie this time. He didn't want to refine this shaman pill this time.

Instead, he wanted to have an epiphany during the process of alchemy. The person who created the Earth Element Pill Pill was very impressive. His understanding of the Earth Evil Realm should have reached a certain level of extreme.

This pill is just a silhouette, a manifestation!

Fang Yue wanted to get a glimpse of the true meaning of part of the evil realm from this pill!

Fang Yue took out an earth evil bead, this earth evil bead is the level of saint realm!

When the mosquito road person saw this, he was silent, he put away the earth pill that Fang Yue gave him.

If Fang Yue can really refine the Earth Pill, the level of this Earth Pill is destined to be very high!

Because people can't compare to them when they start!

The Earth Element Pills refined in the League of People are all refined with the Earth Sha Orb of the Master Realm level as their source.

As soon as Fang Yue got started, he was an earth evil bead at the saint level!

Moreover, this earth evil spirit is also evolved from the highest level earth evil creature of the saint realm, and the power of the earth evil contained in it is hundreds of times that of the master realm earth evil spirit in terms of quality and quantity!

"Earth Sha Orb contains the power of Earth Sha, and it needs to absorb some earth origin to supplement it!"

Fang Yue said to himself, he bowed down. Body, hold the earth with one palm.

Trembling in the earth. The land in a radius of hundreds of miles was cracked, and the vegetation on the land was barren, and all the nutrients in it were taken away by Fang Yue's domineering!

Fang Yue's method is the same as the previous refining earth evil world. This is completely a rough plunder, very stiff, very reckless, and has no meaning at all.

An earthy yellow snake was caught from the ground by Fang Yue.

This snake is less than an inch in length, so it is an earthworm rather than a snake!

However, although his stature is small, he still cannot conceal the power of Teng Snake's own life essence!

This is the origin of the earth, and ordinary practitioners cannot ask for it!

Fang Yue integrated the Teng Snake into the earth evil bead.

The mosquitoes believe that the pill that Fang Yue has refined must be an unprecedented super earth pill in this underworld!

Especially, who has ever seen such a level of raw materials!

In addition to the earth evil beads at the peak of the saint realm, the earth origin that looks like a snake!

Any kind of material is enough to shock one party.

But Fang Yue seemed to come here at his fingertips, not cherishing it at all!

Two different materials merge with each other!

Later, Fang Yue added some rare herbs.

Seven star grass of 1,000 years, yellow spring water of 800 years, flat peach of 3,000 years...Any kind of herb can be called a kind of treasure medicine!

These are the main ingredients for refining the elixir of the saints and even the great saint realm. They are extremely precious and extremely luxurious!

And Fang Yue actually used it to refine the Di Yuan Dan of the leader level. If this matter were to be spread, Fang Yue would be besieged by a group of alchemists and drowned Fang Yue alive with the spit star!

Fang Yue's pill refining this time is no longer extravagant, but should be called extremely extravagant.

The alchemy materials at the saint level are only for refining an earth-sound-level earth pill. This is probably the most extravagant earth-sharing pill in the history of alchemy in the underworld in the past 100 years!

Fang Yue uses heaven and earth as the furnace and law as fire to refine the pill. The surrounding heaven and earth essence is directly incinerated, instilling a steady flow of heaven and earth origin power into the pill!

At this moment, the mosquito person was even more shocked!

What does Fang Yue want to do?

Heaven and Earth Copper Furnace, what level of medicinal pill is that method?

In the memory of the mosquitoes, he has seen heaven and earth copper furnaces three times. The first time was when a strong man in the fairyland was refining a true immortal pill, and the second time a strong man in the virtual fairyland was in When I was promoted to a true immortal, the appearance of the great calamity encountered! For the third time, a powerful man in the Great Luo Kingdom forged a peerless magic weapon based on the heaven and earth copper furnace, and once it was shot down, it suppressed a spirit fairy in the true demons!

Fang Yue actually used the heaven and earth copper furnace as the pill furnace to refine an earth evil realm pill.

This is definitely a slaughter knife!

The moment the heaven and earth copper furnace appeared, earth fire and geomantic omen, four calamities appeared at the same time.

Fang Yue whispered: "It turns out that the underworld did not suppress all pill disasters, but the laws around the Wangchuan River are strong and cannot be broken!"

Fang Yue understands everything!

The four calamities appeared together, this is the creation catastrophe, and it shouldn't appear when refining the master-level pill!

The embryonic form of Earth Sha Pill was born, it has nine orifices, and each acupuncture orifice is connected with a fuzzy world!

If you observe carefully, you can find that all the nine acupoints are connected to a world of earth evil!

It swallows the evil spirits, as if it is a creature, has the ability to practice on its own, can continuously swallow the evil spirits to condense, biochemically, and repeatedly temper it!

The four great tribulations of Earth, Fire and Fengshui fell on top of the pill. This pill seemed to be cast from iron and stone, not moving!

No matter how devastated this calamity was, this pill was unmoved. In the end, the power of the four calamities was exhausted and thousands of runes were imprinted on the pill.

All this is just between the electric light and flint!

There is no muddy water, no warmth and nourishment.

The pill was formed, turned into a black beam and fell into Fang Yue's palm!

"Is this the earth pill?"

The mosquito road man glanced at the Earth Yuan Dan in Fang Yue's hand, and said in a dare not to be sure.

It's not that he has never seen the earth pill, but he has never seen such an earth pill.

The earth essence pill refined by Fang Yue is not like a pill, it seems to be a treasure that can communicate with the world!

Its nine orifices are exquisite, and there is a layer of earth-yellow earth evil power around it. This pill is always communicating with the world, as if it wants to become one with it!

The grade of this pill is difficult to determine!

If according to the prescription, this medicine can only be regarded as the level of the earth evil realm, but if judged according to the materials, this medicine is the medicine of the saint realm level.

But if you look at the appearance of this pill and its associated supernatural powers, this pill is at least at the level of the Great Sacred Realm, and it is also extremely precious in the Great Sacred Realm, rare in all ages!

"That's it! That's it! The true meaning of the level of the evil realm is to communicate with the world! Every acupuncture point is a huge treasure! Just like this earth evil pill, its nine orifices, each acupuncture orifice represents a kind of magical power, A unique power!"

Fang Yue muttered to himself, he vaguely saw the path of the Taoist alchemy!

Although the road is different, but the same way!

Chapter 1877: Chen Pingping's invitation

The mosquito person can clearly feel that after Fang Yue refined the Super Earth Element Pill this time, although there was no breakthrough in his own cultivation realm, his understanding of the earth evil realm was significantly improved by more than one level. To some extent, the understanding of the earth evil realm level has surpassed that of his real fairyland powerhouse.

Fang Yue seemed to be opening one treasure after another in his body, accompanied by the opening of these treasures.

Fang Yue's combat power is bound to reach a higher level.

"In fact, every realm is a treasure with infinite potential and infinite value! If it is really digged, the level of the evil realm may be able to make a practitioner of the evil realm continue to improve with almost no upper limit!"

Fang Yue said to himself, after comprehending this pill Taoist's unique understanding of the Earth Evil Realm level, Fang Yue's previous anxiety about the rumors that people with all-round cultivation could not enter the Saint Realm suddenly disappeared.

First of all, this rumor may not be true. And even if this rumor is true. This so-called realm cannot be improved again, isn't it the two things that I fear most?

The first point is that human strength, because the realm cannot be improved, stops moving, and is constantly surpassed by peers. The second point is that in terms of longevity, it is unable to further increase through the promotion of the realm, and eventually it will die. But these two points are not a problem in Fang Yue's mind. Because every realm of Fang Yue only improved after he had cultivated to the extreme. His life has been extremely long. Even the average true immortal can't compare with him in terms of longevity. Although the salesperson of the real immortal powerhouse is long, he has the same life span as the world. But Fang Yue's life span was at least as long as several civilizations. Even if it's civilization ruining the world and dying, Fang Yue doesn't have to worry about himself, because his life is exhausted and he will die.

In terms of improving strength, Fang Yue actually didn't need to worry too much. Even in the cultivation realm, it is impossible to continue to make progress. In the future, you can continue to open up the acupuncture points in your body to reach the treasures contained in it. And constantly improve one's own strength, enhance cultivation.

The acupuncture points in the practitioner's body can be said to be endless. Every acupoint contains infinite power of heaven and earth. Open up an acupuncture point and dig out the treasure contained in it. The future may become Fang Yue's most important way to improve his cultivation and combat power.

There are tens of thousands of practitioners in this world, but the vast majority of them follow a step-by-step approach, with the ultimate goal of cultivation as the improvement of the realm. Few people can understand that every realm can actually be experienced in detail. If you can grasp the true meaning of the realm well. Then, defeat the high realm with the low realm. It will not be a luxury and a dream in the future.

The mosquito man looked at Fang Yue, his heart was already determined. No matter what difficulties and obstacles Fang Yue encounters on the path of cultivation in the future, he will do his best to protect Fang Yue. In Fang Yue's body, the mosquito man discovered the hope for the future of the human race in the underworld. Although the light of this hope is still quite slim now, it is after all the rare light and fire in the dark.

Because of its own blood and talent, if the human race is practicing step by step, the more the later stage, the combat power of the same realm will be weaker than that of other races. Only a few practitioners with special physique or inheritance can compete with the same. The creatures of other ethnic groups in the realm are comparable.

On the other hand, Fang Yue completely subverted the cognition of the mosquitoes to the human race.

Not to mention being a creature of a foreign race of the same rank, even if it is one or two big realms higher than Fang Yue, in terms of combat effectiveness, there is still a big difference from Fang Yue!

This makes the mosquito-path person, Fang Yue, full of confidence in the future. If Fang Yue can really achieve the position of Heavenly Sovereign in the future, maybe Fang Yue alone can suppress the ten thousand races and raise his eyebrows for the human race!

"This practice is a slow effort. What you need is a step-by-step process! Fang Yue, your life is still very long. You don't need to sacrifice your own potential for development in order to hit the realm! You can stay at the level of the evil realm more. Time, appreciate the true meaning of it, and then break through

to the level of the Heavenly Gang Realm! During this time, I can protect you! At least in the realm of true fairyland, no one can touch half of your hair!"

The mosquito man said, his voice was not loud, but he was sonorous, and there was a firm belief in his words!

When Fang Yue heard the words, he couldn't help but stunned and then he smiled brightly: "If this is the case, please ask the mosquitoes for the younger generation!"

"Mosquito man, do you want to be Fang Yue's protector?"

Hearing this, Xue Ziyun couldn't help being shocked, and Xue Ziyun had heard of the origin and identity of the mosquito person!

This mosquito person is actually not an ordinary practitioner of true fairyland, he has a lot of power, and his cultivation and combat power are both outstanding in the same realm! He has cultivated countless arrogances for the Renmeng. Some true and spiritual immortals in the Renmeng regard him as a teacher and respect him!

The Tianjiao once assisted by the Mosquito Dao people has no one thousand but eight hundred! Various inheritances and physiques have been encountered by mosquitoes, but mosquitoes have never become the protector of any one person!

But now, the mosquito person has chosen Fang Yue as the object of his protection, and the implications of this are worth pondering!

"Mosquito Dao people, you are in the Human League and you are willing to protect Fang Yue. I have no objection to this matter! But according to the rules and regulations in the Human League, you, as the elder of the patriarch, should be my person. A member of the alliance! This Fang Yue even the Human League is unwilling to join, even if he has made a great contribution to the human race, no matter how talented he is, he cannot be protected by the mosquito person! The Human League can compensate for the contributions and contributions made by the Human Race in other ways!"

At this time, a slightly sharp voice came from a distance.

A beautiful young woman dressed in a white robe, with a towering bun and a lightly pursed red lips, walked slowly from a distance.

The ground under her feet swiftly passed. It was obvious that the pace of this beautiful woman was not fast, but within a short time, she had already arrived in front of Fang Yue and others.

The breath of this beautiful woman is very deep, like a bright starry sky, twinkling brilliance, vast!

"Spirit!"

Fang Yue had recognized the opponent's cultivation realm before!

Fang Yue, a powerful person in True Wonderland, has already seen a lot, but this is the first time that Fang Yue, who is at the level of Spirit Wonderland, has encountered it!

"I have seen Master Chen Pingping!"

Xue Ziyun saluted the young woman in the fairyland slightly, her expression respectful, without any hint of arrogance.

"Chen Pingping, you are here!"

The mosquitoes were not surprised to see the beautiful woman's arrival!

In the Southern Territory, such a fierce battle has arisen between the Human Race and the Black Demon Race. As the guardian elder of the Human League in the Southern Territory, if Chen Pingping turns a blind eye to it, it is negligence of duty!

"The Mosquito Daoist heard that you want to protect Fang Yue? This Fang Yue is not a disciple in the League of People. I'm afraid that your actions like this are a bit irregular!"

Chen Pingping opened her mouth, her voice indifferent, but there was no lack of a scent of instigating the teacher.

"Chen Pingping, you are my own intention and it has nothing to do with the League. Not all the arrogances in the human race have to be included in the League! Even if Fang Yue is unwilling to join the league, I am willing to protect him! "

The mosquito man opened his mouth with a rather determined attitude.

"In the League of People, there are intrigues, factional fights, and complex. How many human geniuses have never died under the battle of the group, but died in their own internal struggle. You should also understand these things! "

The mosquito person refuted Chen Pingping.

And Chen Pingping sighed slightly: "I understand all these things, but you have protected Fang Yue for a while, but have you been able to protect him for life? I have learned about Fang Yue, his identity and The origins are extremely complicated! He walked the path of the Nether Palace from other universes before entering the underworld. He is indeed a transcendent talent and enters the underworld with the flesh, not only him, but also behind you The same is true of the ancient Yin Dao. You should understand what it means to enter the underworld with the flesh! Their flesh and blood contain the blood of the Yang, and every drop of blood is a precious pill. Their flesh and blood can be refined into a great medicine. Let some old monsters who are dying of their lives extend their lives or even live longer! If those old guys really have such thoughts, can the mosquito man with your old arms and legs be able to protect these two people?"

Chen Pingping's voice made Mosquito Dao people startled for a while, and then he sighed helplessly, "In fact, I understand the truth! But how much protection can they get even if they join the League of People as the two of them? Wasn't it the gluttonous feast of those old guys?"

"No, as long as they join the Alliance, there is hope for them to join the Alliance! There is a protection mechanism for the Alliance members. As long as they can show their talents and make continuous contributions to the Alliance, they can be in the Alliance. Zhong keeps improving his status. When the identity and level of the two are sufficient, even some old guys can't cover the sky with one hand! Before they are targeted by the old antiques, they can get enough status in the league first. Can survive smoothly in the People's League, and be protected by the People's League!"

Chen Pingping said confidently.

"The members of the League of People are divided into ninety-nine-eighty-one levels. The greater the contribution, the higher the level, and the higher the authority, identity and status they possess! As long as these two people have the status of a member of level nine or higher, They will be able to obtain the status and status comparable to ordinary saints in the Human League, and if they can reach the status of a member of the eighteenth level, they can be compared with the Great Saint! In the Human League, even the strong in the virtual fairyland have no rights. Dealing with members above the eighteenth level, along with the higher the status of the two in the league, the more unshakable their status in the league!"

Chen Pingping's words are sonorous.

The mosquito person frowned slightly.

He knows that every level of status and status in the League of Peoples will increase its rights and security.

But some things are just like theories, there are many fetters in the human alliance and various rules, and it is also possible that the two will fall into a situation where they will not be restored!

"This final choice can only be made by Fang Yue and Yin Gudao. If they are not willing to join the League of People, I will not force it!"

The will of the mosquito person was somewhat shaken, and it seemed that Chen Pingping was persuaded.

Fang Yue smiled softly when he heard the words: "I didn't have much interest in joining the League of People, but since you say so, I am actually a little interested in this so-called League of People!"

Chapter 1878: Join People League

"Fang Yue! You have to think twice before you act! If you decide to join the Human League, this is equivalent to a road that cannot be turned back. There are many internal struggles in the Human League, and the level of danger is even no less than Disputes among the ten thousand races."

In all fairness, Mosquito Dao people don't really agree with Fang Yue joining the League of People!

In the human alliance, too many talents of the human race have been destroyed over the years. They should be able to become the pride of the human race, grow into a giant, and stand alone. But many of them finally fell into the internal fighting of the League!

For this phenomenon, the mosquito person feels distressed!

If those arrogances of the past had never fallen, the peak combat power in the current League of People would be at least three to fifty percent more than it is now.

The status of the human race will rise greatly in this underworld, no matter which race it is, how powerful a force or family it is, everyone will bow their heads in front of the human race.

Fang Yue smiled and said: "Since I am a member of the Human Race, I should contribute my own strength to the Human Race! The rise and fall of the Human League and the glory and disgrace of the Human Race are with me! Although my cultivation level is not high, I will do my best! It can be done with meager power!"

Fang Yue's voice was quite polite, but it also contained a very firm will.

Fang Yue's voice fell, and Chen Pingping's face couldn't help showing a bright smile. This is the attitude that disciples in the human race can have.

Chen Pingping couldn't help but nodded and received: "Fang Yue, since you have this kind of consciousness in your heart, I, Chen Pingping, can also assure you that as long as you join the Human League, if someone in the Southern Territory wants to harm you. If you do, I will try my best to protect your integrity!"

This is the promise of a strong man in the fairyland. She spends a lot of money, and the words are full of power. If this word is spread, whoever wants the opponent Yue to do it, first of all, consider the attitude of Chen Pingping and Mosquito Dao Ren. !

"Since you are willing to join the Human League, then all the procedures can be simplified! As for you to kill these Dark Demons before joining the Human League, we can also convert you into a human Alliance feat!"

Chen Pingping said, her voice firm.

"I can directly appoint you as a seventh-level member on behalf of the People's League, get a special contribution token, and give you three thousand bronze merits and eight thousand black iron merits! Among the southern regions, the seventh-level members You can choose any member position yourself! I will never refuse!"

The mosquito person looked at Chen Pingping, he couldn't help but laughed: "Fang Yue, you have to seize this opportunity. This time Master Chen Pingping has lost money in order to win you over! You know, the bronze in this alliance The merits and the black iron merits are invaluable! These things are absolutely hard currency in the People League! Even some of the high-ranking figures in the People League are also for this bronze merit and the black iron merits. Furious! In the League of People, the level of merit is generally divided into eight levels from low to high, including minor merit, great merit, black iron, bronze, silver, gold, platinum, and diamond! The contribution of each level is based on one One-to-one ratio for exchange! However, through official channels, this low-level merit cannot be exchanged for high-level merit! The black iron merit and bronze merit given to you by Chen Pingping can be exchanged for a large number of treasures from the treasure house of the League Secret method, even some of the so-called great sacred realm-level powerhouses in the League of Humans do not necessarily have such a wealth of merits as you! Of course, you were not ordinary people when you smashed the dark demons and weeping ghosts. Members of the Great Sacred Realm level in the league can do it!"

The mosquito person thought that Chen Pingping was here to look for things, but he did not expect that Chen Pingping was unexpectedly generous!

Chen Pingping glanced at the Mosquito Dao Ren: "These are all won by Fang Yue. The Human League has always been rewarded and punished. It is through this reward and punishment system that allows the League to stand in the entire underworld for a long time and achieve long-term stability. the goal of!"

"As for the position Fang Yue wants to hold in this alliance, you can provide him with some references for the mosquitoes. Since you want to become Fang Yue's protector, you must fulfill the duties of a protector. !"

For the mosquito person, Chen Pingping's temper does not seem to be very good!

The mosquito road man smirked and said: "Fang Yue, if you believe me, you might as well be at the foot of Tianque City and become the guardian of Yongfeng Town in this Tianque City! The guardian of Yongfeng Town happens to be a human alliance. The official positions that can be held by the seventh-level members, and the distance between Tianque City and Tianque Gate is very close, which does not prevent you from continuing to practice in Tianque Gate! More importantly, this Yongfeng Town is originally a fairly secret and historical place. Towns! If you can explore well, you will surely gain a lot in the future!"

"Okay, then I will choose to be the guardian of this Yongfeng Town!"

Fang Yue actually doesn't care about this official position! Anyway, his deity will soon return to the depths of time and space to cultivate, and what is outside is his flesh and blood clone, his own vitality is extremely tenacious, and it can even be said to be able to be reborn with blood! He has an identity in the League, and he also allows himself to have a belonging and a backing in the underworld!

Chen Pingping sneered: "Mosquito person, your appetite is not small! The guardian of Yongfeng Town is indeed the most popular official position in Tianque City! However, if you let Fang Yue sit in this official position, you will put him in the volcano. Go up and bake!"

"If Fang Yue can't afford this official position, he might become a target! Not only will he not get any benefits in the Human League, he will suffer as a result!"

The mosquitoes said with a smile: "Since Fang Yue has joined the League of People, we must see the darkest side of it! If Fang Yue doesn't even have this point of responsibility, how can he be in the League of People in the future!"

"Yin Gudao, how are you thinking about? Do you want to join the League of People? Your status is extremely special. Once you join the League of People, your identity will be kept secret according to the highest standards in the League of People!"

"At the same time, the treatment you get must be extremely high. The son of Heavenly Lord is the core of the entire Human League! I can guarantee you that as long as you join the Human League, you can directly follow the nine-level member's Identity, take an important position in the Human League, and the Human League will send at least two powerhouses in the fairyland to protect you!"

Chen Pingping looked at Yin Gu Dao, her eyes were burning, and she seemed to be able to spit out fire!

This Fang Yue is actually just an appetizer. It doesn't make much sense for him to join the League of People. Although Fang Yue's talent is unparalleled, he doesn't have an extremely deep background. It's too difficult to make a breakthrough. Perhaps the threshold of the Saint Realm will make him unable to step through for life!

But this Yin Gu Dao is completely different. Yin Gu Dao is a child of Tianzun. Whether it is the inheritance in his hands or the various blood lines of his own, it is worth all the efforts of the Alliance to cultivate. Not to mention that Yin Gu Dao can reach the level of Tianzun in the future. At least half a step Tianzun has great hopes.

If Yin Gu Dao can grow into a half-step Tianzun, in the future in the underworld, the status of the human race can also be restored smoothly to restore the glory of the ancient times!

"If the League is willing to train me, I can't ask for it! But the little brother Fang Yue is my friend, and I don't want to be separated from him for the time being! If the position is arranged, please arrange one for me around the gate of this day. !"

Yin Gu Dao did not reject the kindness of the League.

After all, in the underworld, his identity is too special and it is easy to be targeted by others.

Although he had someone secretly defending the way, and there was more than one, if there was an old antique of the half-step Tianzun among the various races, even his protector would be difficult to resist.

Although the Human League has fallen, there is no longer the Heavenly Venerable Realm and Half-Step Heavenly Venerable, but the foundation in the Human League is still there, even if the power of the Heavenly Venerable Realm really makes a shot at the Human League, it may not be able to take advantage of it.

"it is good!"

Chen Pingping immediately agreed: "If you are willing to join the Human League, you will naturally choose various positions in the Human League! There is also a third guardian post in Tianque City, and this position is just right for you!"

"it is good!"

Yin Gudao nodded and agreed!

Regarding the position arranged in this alliance, he actually didn't care about it.

With his strength and means, how can the position of the third guardian of Tianque City be able to satisfy and appease?

For Yin Gu Dao, this is just a starting point in the League of People!

In the League of People, within one day, two generals will be reaped!

This made Chen Pingping and the people of Mosquito Dao's heart a great surprise!

She quickly ordered the arrangement of positions for Fang Yueyin Ancient Road.

Fang Yue personally took office the next day!

Yongfeng Town is not a large town in the underworld. Its population is only about 6,000. There are about 300 guards in Yongfeng Town, and there are more than 100 people responsible for public security and other work in Yongfeng Town. !

However, in Tianque City, there are quite a few people who are staring at the guard position of Yongfeng Town! Because Yongfeng Town has a long history, it is said that there is a big secret in Yongfeng Town that can make people become saints!

Therefore, the tourism and cultural industries in Yongfeng Town are quite developed. There are also many industries such as alchemy, refining, paper talisman, minerals, etc., and the annual profit and tax exceeds five thousand middle-grade yuanshi!

The currency in the underworld is the common currency of ghost stones, yuan stones, world crystals, etc.

The value of ghost stones is about the same as that of human spirit stones of the same level!

The primordial stone is a stone formed by vitality. A low-grade primordial stone is equivalent to a top-grade spiritual stone, and a hundred top-grade spiritual stones!

Five thousand middle-grade yuan stones are already a fortune in the villages and towns of the underworld. After all, not everyone in the underworld is a master of cultivation.

Yongfeng Town is nothing more than a small town, where the average cultivation base of the residents is about the level of the heaven and earth realm. These residents are already quite not weak if they can have such a productive effect!

Even some medium-sized towns with a population of more than 10,000 are far inferior to Yongfeng Town in terms of production efficiency.

Chapter 1879: Not the Raptors but Jiang

This guardian, whether in the township or in the city, is the overlord of the city.

There is a town owner in the town, and there is also a town owner in the city. Both the town owner and the town owner are selected by local residents. They are responsible for the daily production and living conditions, and the guard envoy is to supervise and guide the work of the town lord and the town lord and the daily exercise of various rights on behalf of the League.

Generally speaking, both the town lord and the city lord are local snakes, and their understanding of the various forces in the place is far better than that of the guards sent by the League of Nations.

However, the guardian envoy represents the authority of the League, and the rights between the two parties are often in a state of relative balance!

In some towns, the guardian envoy has a high status and can slightly suppress the town lord or the city lord. In other cases, the local power is stronger and the guardian envoy's position is completely empty.

But on average, most places are town owners and town owners have a slightly higher status.

Because the guardian is only a transitional position, if you can live in peace, you are generally unwilling to offend the local forces! For this situation, the People's League also knows and hears about it, but for the game of this situation, the People's League is too lazy to take care of it most of the time!

If you have the ability to gain a foothold in the locality, it is naturally a good thing. If you are not capable of suppressing the local forces, it is also your own business. The League of Peoples is not willing to force it out for you!

After Fang Yue became the guard envoy, he immediately encountered a disarming force from Yongfeng Town.

When he came to the mansion of the guard ambassador of Yongfeng Town, there was not even a single figure in the mansion, empty, dilapidated and withered, not like a guard ambassador's residence, more like a ghost house. same!

Fang Yue saw that there was not even a single figure in the huge mansion, and a cold smile appeared at the corner of his mouth.

He had already guessed that such a scene would appear before he came to the guardian's residence.

But he didn't expect that these people would do it so simply and decisively.

"This mansion is too dilapidated! Instead of standing in the city like this, it is better to disperse in this world forever!"

Fang Yue muttered to himself, his voice was very spicy and decisive!

Falling with his voice.

A cold wind started suddenly!

The howling wind blew through the air, and the entire mansion was turned into endless rubble in his voice, and disappeared since then!

A mansion covering a full ten acres disappeared out of thin air.

This caused an uproar in the entire Yongfeng Town!

Not the Raptors but Jiang!

Is the guardian this time really a raptor who crossed the river?

In a single thought, a mansion that had stood for hundreds of years as a guardian was dissipated out of thin air. This method is actually not uncommon. Many practitioners above the Yin and Yang level can do it!

But this kind of courage and courage is definitely not something ordinary guards can have!

Because Fang Yue's actions like this are equivalent to expressing his dissatisfaction to the people in Yongfeng Town, and he is declaring war on those local forces in Yongfeng Town who want to make things difficult for him!

Once this declaration of war begins, it means that the relationship between the two parties has become endless!

"This new guardian envoy really still has confidence!"

In an ancient mansion in Yongfeng Town, a ghostly spirit lingers around!

A middle-aged man held a bronze wine cup in his hand, and there were traces of ghosts with blue faces and fangs in the wine cup constantly wandering in the wine cup.

Those ghosts showed their ferocious faces one by one!

They seemed to choose people and eat them, full of a hideous and terrifying taste!

If there are other people present in Yongfeng Town, it must be possible to recognize that this middle-aged man is one of the three powerful ghosts in Yongfeng Town.

Ghost Eater is a rare powerhouse among the middle-aged generation in Yongfeng Town!

He was a young man, and he achieved the cultivation of a saint at the age of a hundred.

There are only eight saints in Yongfeng Town!

Except for him, all the other saints did not reach the status of saints until they were at least 500 years old.

The lord of this Yongfeng Town is his father, Gui Yao, who was devoured by ghosts.

Gui Yao kept his tacit consent to the behavior of Ghost Eater, and they wanted to give the new guardian a good start.

After all, in Yongfeng Town, their ghost family has ruled the roost for thousands of years! If it is seized by a new guardian envoy, how majestic will remain in this Yongfeng Town in the future!

"I heard that the new guardian who came this time is only at the level of the leader, if he is really disobedient, then send someone to kill him! Remember, when doing things, your hands and feet are clean, although for the life and death of the guard, The League of People has always closed one eye! But if things are too obvious to make it impossible for the League to come to Taiwan, it is very likely that some old guys in the League will be liquidated!"

Ghost Eater's tone was light. To Fang Yue, he seemed to think that the other party was just an ant that he could pinch to death at will.

His voice fell, and a ghost image broke out from behind him and flew towards Fang Yue's location!

"This Renmeng seems to be not as powerful as Chen Pingping said! The guards didn't even have a place to live, and any tribe with a cat and a dog dared to disarm the guards! Is the Renmeng stocking or has lost the entire underworld? The ability to dominate!"

Fang Yue said to himself.

As his voice fell, his left arm slowly lifted, and a tall and majestic palace rose to the ground!

The palace is towering and towering!

The golden light shines down, the golden light diffuses, illuminating the whole world!

Fang Yue displayed extraordinary means, as if it were a void creation, and forcibly created a new palace on the previous ruins!

Of course, a discerning person can tell at a glance that Fang Yue's method of creating a void is not true!

He directly summoned a palace of the leader level in the space storage bag. This palace was plundered by Fang Yue from the hands of a powerful saint in Wanhua Universe!

Palace magical tools at the master level, the consumption of materials for forging, and the use of manpower and energy far exceed those of ordinary master level weapons and even armor!

Its value is hundreds or even thousands of times that of weapons!

The value of this palace magic weapon is even about to catch up with an ordinary sage level magic weapon!

The birth of this artifact represents not only a miracle, a good fortune, but also an expression of wealth!

Palace magical weapons have never appeared in the entire Yongfeng Town. The materials in the underworld are scarce, and masters frequently appear. The general saint-level experts are using the master-level weapon armor, and no one knows that. Luxury wants to buy a palace artifact with the limited resources in his hand.

Fang Yue had already refined this palace artifact since it was born, and he was branded with his own brand, but Fang Yue didn't quite understand how to use this palace artifact.

After all, this was something he grabbed at hand back then, and it may be precious in the eyes of others, but it is probably the same in Fang Yue's heart.

Fang Yue used this palace artifact for the first time, and he didn't even know the name of this artifact!

While Fang Yue was studying this palace artifact, the killer of the ghost family had already arrived. There were a total of eight masters at the master level, all of them burly, with piercing eyes!

They stood in eight different positions, each holding a different magic weapon, with long spears, both short knives, and advantageous arrows, with fierce expressions on their faces.

A wave of evil spirits steamed up.

Fang Yue was surrounded by the eight powerful masters at the master level, and the spirit of these eight people together locked the position where Fang Yue stood.

"Why, so I can't help myself, have you seen it?"

Fang Yue's posture did not move, he was still infiltrating the palace with his own divine mind to comprehend the essence and essence of it.

This palace has actually experienced eight masters and all of them are powerful men above the Saint level. They have left their own inheritance and methods in the palace!

Fang Yue didn't expect that he was just trying to make a palace to pretend to be a fork, frighten people, and unexpectedly found a treasure!

Eight different inheritances were obtained.

These eight inheritances have their own charm.

The more Fang Yue tastes, the more memorable it is!

Although these eight exercises are no longer necessary for him to practice, but as a reference, they can enrich his knowledge. The stones of other mountains can also be used for jade.

Fang Yue received eight inheritances, but still did not find a normal way to use this palace.

The method used in this palace seems to have been annihilated by these eight traditions.

Fang Yue cast his lips helplessly, although these eight inheritances are good, but they are not a top priority.

But the method of using this palace could not be found smoothly, which seriously affected him to resist powerful enemies!

"Why don't you just kill it directly! Anyway, the eight cult masters at the level of the young people are only able to absorb the essence of their bodies and become corpses!"

When Fang Yue's thoughts moved, he felt that he didn't need to spend a lot of time, but after another thought, he had summoned this palace!

If you don't need it, how to install a fork!

"Since this palace can't find a way to use it, it will forcefully create one!"

Fang Yue gritted his teeth, for the sake of his great cause of pretending to be a fork, even if he was kneeling, he would have to finish the road!

Fang Yue changed his mind and adjusted his method!

He directly laid his own runes on the blank walls of the palace.

Different rune brand flashes alternately, emitting a colorful light!

Nine kinds of runes, with nine different principles and orders, and nine kinds of rules and orders alternately evolve, making this palace artifact give birth to brilliance.

Nine different radiances cover the sky, and the entire town of Yongfeng is shrouded in it!

"Shoot!"

The eight assassins dispatched by the ghost family saw that the situation was not good, and they immediately prepared to act first!

The eight of them joined hands, and the surrounding void became virtual, and strands of gloomy ghost energy flowed out of the void, and all the creatures in the surrounding area of a hundred miles turned into blood and water, and from then on in this world. There is no trace of their existence!

Chapter 1880: Devil family

Fang Yue's knowledge in refining is too high, and he can easily create a sacred weapon at the peak level of the leader realm. Nine kinds of runes represent the chain of nine orders and rules!

Where did the ordinary practitioners in the master realm have encountered such a method!

The ice melted and the snow melted, as if they were shaped by mud.

Although these masters of the leader realm are very extraordinary, their respective methods are shocking, but their power is only limited to the scope and level of the master realm!

When encountering a real Tianjiao, they have to stop cooking and fall on the spot!

Everyone in the ghost family is terrifying!

They could feel that in the family ancestral hall, eight of the dozens of poems placed in the second row were broken!

They are all destroyed, without a trace, piece by piece, flying into the sky, like stars in the sky!

"The eight disciples who were responsible for besieging the new generation of guard envoys are all dead! They were killed directly, and there was no room for resistance!"

A strong man in the sage of the tortoise family spoke. He opened the sky eye and used the sky eye to see what had just happened.

That is definitely not an ordinary master-level palace magical implement!

Although palace-type magical instruments are powerful, it is impossible to suppress eight powerful men of the same realm in a flash!

"I feel the aura of Tao and Dharma! What flickers in the palace is not runes, but the endless rules between heaven and earth! This palace artifact has been infinitely close to a sacred artifact, its value is infinite, if it falls to me The hands of the ghost family may be equivalent to adding an eternal and immortal saint-level power to our ghost family!"

An old man in the ghost house walked out from the depths of the family. He shakes the dust on his shoulders. This is a rather simple old man, like an old farmer, with black skin and dry skin. Cracks, his lips are chapped, I don't know how long it has been since he had drunk water!

However, when his left foot stepped forward and left the ghost house land card, the sky of the whole ghost house changed suddenly. The wind and clouds rose, the sky changed, and the endless stars became dim, and there was no trace of brilliance!

This old man's book has become the center of nine heavens and ten earth!

Originally sitting firmly on the Diaoyutai, and taking the best chance of being the master of the family, the strategizing ghost family master Gui Yao fell from his seat, his eyes widened, and all of them looked terrified.

"The ancestor of the ghost family is born!"

"Please peace to the ancestors!"

Gui Yao shouted, with a slight tremor in his voice! He knelt on his knees, and shouted loudly towards the eastern position.

The old man walking out of the depths of the ghost house seemed to have turned a blind eye to Gui Yao's behavior!

He will not be born too much time!

If it weren't for the value of the palace artifacts born this time to be too high, it could be comparable to a saint, and could add endless background to the ghost family, he would not even choose to be born at this time!

In Yongfeng Town, each of the eight major families has an ancestor-level figure, and they are responsible for guarding the family's heritage. Their cultivation level is extremely deep, at least they are at the peak of the Saint Realm!

Their status is detached, and their respective methods are perfect!

However, there is a tacit agreement and agreement between them. In a hundred years, each person will make a maximum of three shots!

Once more than three times, they will be conquered by the strong from other families!

"The Ghost Division of the Ghost Family finally couldn't help but make a move!"

In Yongfeng Town, another ancient family, An Jiushan, the patriarch of the family, said slowly.

An Jia is the family second only to Ghost Family in Yongfeng Town.

Over the years, Anjia has always been in a very embarrassing position because the ghost family has monopolized power in Yongfeng Town!

The new guardian envoy took office, and for An Jia, it was a great opportunity to stand up and sing!

However, An Jiushan never acted rashly when the ghost family laid out and ambushed the new guardian envoy!

The ghost family is testing, and the An family is also observing.

If the guarding this time makes the temper weak or not strong enough, the settlers rushing to stand in line will cause the settlers to be trapped in a cage and unable to extricate themselves!

"The ancestor of the ghost family, is the ghost secretary?"

Fang Yue said faintly.

With his back to the Guisi, the palace at this moment has crashed to the ground. A plaque hangs directly above the palace, and the five characters "Guardian's Mansion" are striking!

"Guijia, Guisi!"

The old man carried his hands on his back and introduced himself in an honest manner.

However, the calm tone in his mouth is incompatible with his old farmer-like appearance!

"Renmeng, Fang Yue!"

Fang Yue's self-introduction is not a new guardian, but the word "Renmeng"! He is emphasizing that he is a person appointed by the People's League, hoping to use the name of the People's League to scare away the old man from the ghost family. Others may not be able to see it, but Fang Yue can recognize it at a glance. This old man should have just stepped into the level of the Great Sacred Realm. Maybe he is the number one master in Yongfeng Town today!

Even if he is a senior great sage, Fang Yue is fearless, let alone an old man who has just stepped into the great sacred realm level, but the human race in Yongfeng Town can cultivate a great sacred realm level powerhouse. It's not easy, Fang Yue doesn't want such a master to fall into his own hands, because of internal fighting, causing heavy losses among the people!

But the old man had never understood Fang Yue's many meanings.

He rubbed his hands and said: "Every guardian is appointed by the League, but the guardian may not be able to represent the will of the League!"

Guisi laughed a little honestly, but he was heartbroken! His attitude is also quite tough, even if Fang Yue is sent by the League of People, what should he do?

Do you represent the League of People?

You can only represent yourself!

Fang Yue turned his head, he glanced at the old ancestor of the ghost family in front of him, then Fang Yue shook his head and said: "The ghost family finally has an old ancestor of the great sacred level. I really don't want to see it. When I fell here, I knew in my heart that you must have come this time for the palace artifact behind me. If it is fully recovered, it would be no less than a saintly powerhouse sitting in town. However, you have you ever understood that there are some things you can covet, but there are some things you are not qualified to covet! Coveting things that do not belong to you will cause you to kill!"

Fang Yue's voice fell, and he was poignant. Among the human race, it is not easy for a strong man in a small border town to get out of a great holy realm. It would be a pity to die in his own hands!

Guisi no longer speaks.

The sky thunder descended from the sky towards Fang Yue and burst out.

Thunder and black, like ink stain.

This is Nine Heavens Ghost Thunder is the secret technique that Guiji is best at!

When the ghost thunder fell, the power of Yin and Yang entangled each other.

This Nine Heavens Ghost Thunder is known to kill the creatures of all realms, its black light flickers, it can open mountains and crack rocks and exterminate all living beings!

This Guisi is a killer move when he gets started, and he has a desperate taste.

When Fang Yue saw the ghost thunder falling, a sharp light flashed in his eyes.

"It seems that you are determined to kill me!"

"It's not that I want to kill you, but God wants to punish you!"

Obviously, it is not the first time that this kind of thing has been done so easily for Guisi!

He manipulated the ghost thunder to blast Fang Yue, and Fang Yue closed his eyes and let the ghost thunder fall into his body!

The ghost thunder that killed the creatures of the ten thousand worlds fell into Fang Yue's body, but it was like a cow entering the sea, unable to stir up the slightest waves.

The ghost thunder merged with Fang Yue's body, and the energy in it was easily decomposed and swallowed by Fang Yue!

Fang Yue opened his eyes and muttered to himself softly, "Is this the unique skill of your ghost family? But so!"

The smile on Guisi's face suddenly stiffened, and he looked unbelievable at any time: "Impossible! This is impossible! Guilei is the secret of my ghost family, and it is impossible to be swallowed and refined so easily!"

Fang Yue smiled and said: "Nothing is impossible! You are too shallow to understand Thunder Avenue. The mere third level of Thunder Avenue begins to try to integrate with other Taoisms, although this integration makes you The power of the ghost thunder has soared, and it has reached the lethality not weaker than the peak of the fourth floor of Thunder Avenue! However, the foundation of this Thunder Avenue is shallow, this ghost thunder is a castle in the sky after all! It is like a dream bubble, the wind blows, all pride It's all gone!"

Fang Yue's words pierced his heart, causing the expression on Guisi's face to change hideously!

"Impossible! Impossible! Even if you are a carefully selected genius in the League of People, it is impossible to refine a ghost of mine at the level of the district leader and be safe!"

"You can't say that. You know, there is a big difference between the leader state and the leader state! My leader state is different from your leader state! I'm really taking steps one step at a time, walking on the strongest path. Come here! Finally step into the level of the leader of the leader!"

Fang Yue explained: "Your leader state has finally reached the level of leader state on the way of blindly pursuing the state. You just drive blindly and forget the scenery along the way! Do you know that in every small state? All of them contain endless opportunities, and every step of the path of practice can be realized with thousands of customs!"

Fang Yue's words made Guisi frowned!

He can clearly feel that this new guardian is very different from the previous guardian!

This guardian seemed to really consider it from the perspective of the entire human race.

If he was replaced by the former guardian with such strength, I am afraid that he would have been killed in a single thought, forcibly unifying the entire Yongfeng Town and turning the entire Yongfeng Town into its own back garden!

But Fang Yue is still pointing to himself.

Among other things, just this mind and spirit, this Fang Yue is enough to make him feel impressed!

"From then on, the ghost family is willing to use guard to make the adults look ahead!"

Guisi knelt down on one knee and said in a powerful voice.

He is a strong man at the Great Sacred Realm level, and every word and deed will give birth to a powerful cause and effect!

When Guisi spoke these words, it represented his soul's oath. If he violated it, he would be condemned and retributed, and even be invaded by the heart demon. In the end, the whole person would be annihilated and no longer exist!
