

God of Life 1891

Chapter 1891: mutation

The full moon deflected, and Hein was about to take his men back to the place to sleep.

But at this moment, Hein suddenly struck a spirit.

"No! There is a situation!"

Hein suddenly stood still, his gaze slowly swept down to the surroundings.

Although Hein is a bit tired and lax about the daily patrol work, his mind is not stupid.

In the past, the Sanshengfeng would have humming at night, and there were beasts swaying among the bushes, but today's Sanshengfeng was exceptionally quiet, let alone the movement of the insects, there was not even a trace of wind!

If something is abnormal, there must be a demon!

Haien is an extremely vigilant person, and he naturally understands that what lies beneath this weird silence is likely to be a shocking wave!

Keep your breath, gather strength!

Hein's palm merged into the long knife.

A palm fell and the wind howled.

In a blink of an eye, a knife shadow of several meters long cut through the sky, and at the same time a stern voice spread throughout the tranquil Sanshengfeng.

"Enemy attack!"

Hein's voice was stern, tearing through the quiet night like an awl!

In the sky, a long black bat was torn apart by palm wind, and its whole body was divided into two halves.

The azure blood splashed down from the sky, like a pouring rain crashing down!

This black bat is the black demon bat used by the black demon clan to explore the way.

The appearance of the Black Demon Bat means that the army of the Black Demon Race is around!

"Unexpectedly, the captain in charge of patrolling in Yongfeng Town is still very alert!"

Chen Pingping showed an unexpected expression. This dark demon bat is a common trick of the dark demon tribe. Although it is common, it is extremely easy to use. Most of the time, few practitioners below the sage level can find the existence of the dark demon bat. The army of the Dark Demons approached the city, only to discover their existence.

"This Haien practiced the "Night King" left by Fang Yue in Yongfeng Town. Although this "Night King" is only a saint-level technique, it can be greatly blessed in the dark, no matter Both the combat power and

the acumen level will skyrocket with the cultivation base, even the black devil bat cannot escape the divine exploration of the "Night King"!"

The mosquito person is more concerned about Fang Yue's every move than Chen Pingping, and he even watched every practice exercise Fang Yue stayed in Yongfeng Town.

Some exercises are ordinary and unsurprising, but some exercises are unique.

""Night King", a bit interesting! Turn around and ask Fang Yue if he is willing to donate this "Night King"! If he is willing to donate it to Renmeng, Renmeng can give him a subsidy of three hundred bronze merits! With this technique, it would not be so easy for the Black Demon Race to use the Black Demon Bat to sneak attack on our army's barracks!"

Chen Pingping has a strong interest in "The Night King".

Although Fang Yue didn't have much background, there were quite a few weird things on hand.

Before, the mosquito person had already told her about the purple light liquid. Chen Pingping was also very interested in this purple light liquid. If the thing can be mass-produced, the quality of the entire human race will be improved by leaps and bounds.

Chen Pingping didn't have much interest in this battle at first, but seeing the scene before her, she had some different thoughts in her heart.

The black devil bat is a big trouble for the human race. Countless human races have studied various methods to deal with the black devil bat and eventually they are unsuccessful. Unexpectedly, this Fang Yue could easily solve it with a technique!

The night is like ink, thick as juice.

The corpse of the black devil bat crashed down, smashing a deep hole in the ground.

However, at this moment, the night of Sanshengfeng is thicker, like an endless tide, rolling in madly towards Haien and others, trying to submerge Haien.

Haien's six senses are frustrated. This is the dark realm that the Dark Demons have jointly displayed.

Although they also practiced "Night King", the level of their comprehension was still far from Fang Yue.

If Fang Yue is present, this dark realm will be used by him instead and become his own main battlefield. Hain's limited wisdom is just to appreciate the fur. Although he can use the dark power of nature, it is difficult to turn the enemy's dark realm into his own use. !

"Alert, combine battle formation!"

Hein felt the dark power around him eroding the space around him a little bit, but he didn't become alarmed, and the whole person still maintained a rather calm state.

The more this kind of moment, the more he must maintain his normal heart, anger is the number one enemy of wisdom.

All the soldiers under Haien were on guard, and they had set up battle formations in groups of six around Haien.

These battle formations are shaped like snowflakes, constantly rotating, with sharp edges like knives.

"Death erosion!"

A cold voice came out from the darkness, and the endless darkness turned into the figure of a giant.

This giant is composed of pure dark power. It is a hundred feet tall, and endless storms are rolling in its breath.

A huge sole of the foot slowly lifted up and stepped on Hain's head.

"Strangulation!"

Hein spoke indifferently, without the slightest tension.

Several battle formations were in motion at the same time, and a series of blades burst out of the battle formation.

The light of the knife shines, shining on the whole world like daylight.

The darkness dissipated, and the indifferent, ferocious cheeks of the Dark Demon Race were exposed around.

The soles of the giant's feet were instantly strangled, turned into powder, turned into black elemental spots, and dissipated between heaven and earth again.

"This battle formation was also brought by Fang Yue?"

Chen Pingping was slightly stunned, the previous King Ye had already shocked her heart slightly, and this battlefield was injecting fresh blood into the human race.

The idea of this battle formation is quite subtle. The six people form a snowflake battle formation, which is independent of each other, but can be connected to each other, and finally integrated into one, showing incomparable power.

"This Snow Battle Array was placed in the Zhongwu Academy in Yongfeng Town by Fang Yue, but only the first three levels of exercise methods, that is, the Snow Battle Array can only be stacked twice. If Fang Yue can perform the fourth layer or even On the fifth floor, the Snow Battle Array can even affect the outcome of a small war!"

The mosquito man's eyes were burning, and it was not unreasonable that he valued Fang Yue so much.

This Fang Yue seems to be an endless treasure. There are countless secrets hidden in his body, not only the purple light liquid but also various exquisite martial arts and ancient battle formations.

His value lies in his wisdom. Even if Fang Yue's martial arts encounters a bottleneck and cannot break through in a short time, if he sinks his heart to study bloodline medicine, battle formation, etc., he will also contribute great value to the League. A pivotal existence in the human race!

"kill!"

Darkness came again turbulently, drowning all the black demons. Those black demons seemed to be completely silent in the darkness and became a part of eternal darkness!

A fierce murderous intent is like a sharp blade, splitting everyone's soul.

Haien and others have fallen into a short-lived state of sluggishness, their minds are dizzy, and they have lost their self-consciousness.

"At this time, the darkness is annihilated and kill these human races for me!"

A shrill sound came out of the dark tide.

A general in the Black Demon cried loudly.

His killing intent was awe-inspiring, and he had already believed in the killing of Haien and others.

The dark tide came down at the sound, turning into a raging sea, the huge wave touched the sky, and the endless darkness was about to swallow the whole world.

"Fang Yue, the black demon race, has taken an absolute advantage. Although your battle formations and techniques are amazing, after all, there are too few people in Haien and others, and their bloodlines are limited, and their individual combat power is not enough. If you don't make a move at this time, I'm afraid Hein and the others will be swallowed by the darkness, and they will be lost!"

Chen Pingping teased Fang Yue who was hiding in the dark.

Although she was amazed at Fang Yue's talent, she still had a grudge about Fang Yue's collision with her before.

"If the people in Yongfeng Town don't even have this resistance, it doesn't matter if this Yongfeng Town does not exist! This time, I will not make a move. I have given the people in Yongfeng Town a chance. , I will give them the possibility of becoming a butterfly. If they are really mud that can't support the wall, no matter how hard I try, I can't make them rise!"

Fang Yue's voice was rather cold, with a taste of indifference to everything.

Chen Pingping heard nothing, her lips curled up with a ridiculous smile, watching Haien and others were submerged in darkness.

After losing the Sanshengfeng, Fang Yue's identity as a member of the Human League who had just ascended might also be affected.

"It's this time!"

An Ruye made a sudden move. He always remembered that Fang Yue said when he was teaching in the martial arts hall that when the enemy was most proud of it and when they were most vulnerable, this was the truth.

At this moment, the sword is out.

Jianguang is like electricity.

This sword seems to be a slash to open the world, the clear one is the sky, and the muddy one is the earth.

An Ruye almost exhausted all her strength to cut out this sword.

The sword shines, and the world is dim.

The darkness was cut through, and blood beams rose from the sky.

Under the shelter of the darkness, the Dark Demons appeared uninterrupted.

Several powerful men in the Yin-Yang realm of the Dark Demons were caught off guard by this sword light.

The corpses were torn apart, with hideous faces and dead bodies.

"I tried my best, and the rest is up to you!"

The blood on An Ruye's face faded, and the sword light just now was caught off guard. Although he achieved great results, it was also An Ruye's full-strength sword. After using it, the zhenqi in his body was exhausted, and there was no three or five. Days are too late to recover!

"Damn human race, you still have an ambush!"

A black demons recovered from the shock the fastest, his eyes widened, looking at An Ruye who was ambushing in the grass.

After the mantis catches the cicada and the oriole, they are calculated by the human race!

The faces of the members of the Black Demon Race are gloomy.

At this instant, Haien and others also recovered from the vertigo just now.

Opportunity is fleeting.

The Black Demons didn't seize this opportunity just now, there is no new opportunity!

Chapter 1892: The power of technology

Hein woke up from the vertigo, and he immediately seized the opportunity to counterattack.

"Strangulation! It's better for jade to be broken than for tiles!"

Hein yelled, and he waved his arms, wind blades swept across.

The wind blade rioted and split all directions.

The black demons quickly returned to defense, mobilized the power of darkness around them, turned into armor and shields to resist in front of them.

The wind blade collided with the armor, smashing the Black Demon to step by step. However, the blood superiority of this Black Demon was outstanding after all. It is very difficult for the Human Race to gain the advantage in direct confrontation in the same realm.

Although the black demon clan that the wind blade hits were retreating steadily, the armored armor formed by darkness did not cause much damage to the black demon clan.

The Black Demons quickly stabilized their positions, and they all looked at Haien and the others with their teeth and claws.

"Yes, yes, the generals of the human race are as brave and agile as the legendary, but unfortunately, in the face of absolute strength, even if you have been prepared for a long time, how about you? In the end, it is not a dead end? Now I give you a choice, kneel Take it to death and leave you a whole body without pain. If you don't follow it, we will let you know what it means to survive, not to die!"

A general in the Black Demon Clan said coldly, even if they encountered an ambush, they still had a lot of confidence in their hearts.

What is Human Race? In front of their Black Demon Race, they were still just a group of chicken dogs. This time it was not only Haien and others who were ambushing in the dark as well.

A group of bed bugs hiding in the dark, death will be their best destination.

"Fang Yue, your hole cards are exhausted. Although I have to admit that you are resourceful and knowledgeable, in the face of absolute strength, resourcefulness is just as powerless!"

"If you don't do anything yet, your children will die! As the guardian of this Yongfeng Town, you can't just watch your own people being slaughtered!"

Chen Pingping spoke to Fang Yue again.

Deep down, she still didn't want to admit Fang Yue's excellence.

What is Fang Yue, his future is limited, he will eventually stop before the realm of a saint, even if he is a little clever, it is difficult to compare with the truly amazing talents in the League of People!

Fang Yue looked at Chen Pingping and said respectfully: "Master Chen Pingping, you are right. These people are my people. How could I watch my people be treated by a group of barbaric and stupid black demons? What about killing? Don't worry, they will never damage half of their hair on the site of Yongfeng Town! When these Black Demons stepped into the Sansheng Peak, their fate was already written!"

"I want to stand in front of the ten thousand races, and I want them to know that the human race's majesty is inviolable! Even if there is no higher-level powerhouse to take action, even if it is my human race that does not use the killer trump card, these dark demons are also It will be annihilated, and even the last trace of existence will be completely erased!"

Fang Yue's self-confidence made Chen Pingping feel like a lunatic and unreasonable.

She knows the strengths and weaknesses of the human race. The human race always wins by number. If the human race can really be in the same realm without fear of the black demons and other races, the human race will already be in the ten thousand races by virtue of its number advantage. Dominating the hegemony, how could it be reduced to where it is today, let others be bullied, even the Dark Demons in a small area dare to entangle the other three races to make noise with the human race!

It's not that Chen Pingping doesn't believe in the potential of Human Race, but that after too many setbacks and failures, Chen Pingping no longer dares to believe Human Race.

"When the enemy is the proudest, that is, when they are the most vulnerable! Sometimes, force does not mean victory or defeat, but it becomes a bondage!"

Fang Yue explained, and then stopped talking.

His pride and self-confidence need to be supported by blood, facts, and the life of the Dark Demons!

Other words, no matter how much they are said, are vain and useless!

The moment Fang Yue's voice fell.

Dozens of black demons have already rushed in the direction of An Ruye.

Compared with Hai En, An Ruye, who was dormant in the dark, made the Dark Demons feel a stronger sense of crisis.

Any variables beyond their expectations should be eliminated!

The figure is faint, like a ghost. The warriors of the Black Demon race quickly approached in the direction of An Ruye.

A strong, dark, and cold breath came to his face, as if with a declaration of death.

An Ruye's complexion was pale and motionless, surrounded by several Anjia guards, as if she had given up the last resistance!

"Go to hell! I hope you won't make such a foolish choice to be an enemy of the Black Demon in your next life! The majesty of the Black Demon must not be trampled on, and the glory of the Black Demon must not be tarnished!"

One of the black demons rushed forward, and he thumped Anjia's guard with three punches and two kicks.

The butcher knife was raised, consuming all the light and energy around!

The knife slashed down, and death approached.

An Ruye seemed to be able to hear the footsteps of the **** of death approaching over time!

"Master Fang Yue, please don't disappoint my hopes for you!"

An Ruye closed his eyes and slowly pressed a button in his hand.

A silver light suddenly cut through Ning Ji Tianye.

The scorching light stung everyone's eyes!

This is a silver lightning, strong and straight, piercing everything.

It turned into a spear of judgment, capable of determining the life and death of all beings!

Just a moment, and only a moment.

The distance of thousands of miles turned into a smooth road!

The figure of the Black Demons holding up the butcher knife froze afterwards.

A burnt smell gradually spread from his body!

The mosquitoes are creepy!

Chen Pingping is terrified!

All the dark demons are horrified!

There is no fluctuation of mana, no ripples of order.

This lightning seemed to appear out of thin air, suddenly appearing on the battlefield to determine the life and death of a heroic and powerful Black Demon Warrior!

This is beyond common sense and beyond their cognition.

Except for the power of nature, no one can have such mighty power, summoning such a fierce and powerful thunder power without using any law of any mana.

"This is impossible!"

Chen Pingping's voice was hoarse and unbelievable.

The laws of the underworld are the foundation.

This is the basic common sense in the underworld, how could someone bypass the law and summon such a powerful thunder.

This is the basic common sense, basic rule of provoking the underworld!

"Nothing is impossible! Only you don't understand! Human race is more intelligent except for force. When wisdom reaches its peak, it can also form unmatched combat effectiveness!"

Fang Yue's words are loud and loud!

Afterwards, thunderstorms burst out of the air and knit into a net.

Every bolt of lightning seems to have its own wisdom, and the warriors who have locked down the Black Demon race are chasing and fighting endlessly!

No matter how they dodge, it is difficult to avoid the end of death.

In an instant, the night was like day on the Sansheng Peak.

The strong death breath spread in an instant.

A scorched body fell on the ground, and the footsteps of the **** of death trampled on the corpses of every black demon, crushing the last pride in their hearts!

In just a few breaths, all the Dark Demons fell.

Haien and the others stood in the center of a scorched corpse blankly, shocked.

"this is....."

Chen Pingping had to re-examine the power in Fang Yue's hands.

Although he didn't want to admit it in his heart, reason told Chen Pingping that Fang Yue's strength and knowledge had far exceeded their understanding.

"The power of technology!"

Fang Yue said proudly.

The human race of the underworld is far more powerful than the human race of the Ten Thousand Worlds Universe, but when it comes to the diversity of power systems, the underworld human race is far behind the human race of the Ten Thousand Universe!

The witchcraft has fallen, and technological civilization, biological civilization, mechanical civilization, nuclear civilization, quantum civilization and even the civilization of God's Mansion seem to have never existed in the underworld!

Fang Yue's lightning is a miracle presented by the most classic Tesla coil on earth and the guidance of his partial consciousness.

This is the power of pure technology.

In the underworld, unprecedented!

"There is nothing impossible. There are only different civilization systems in the universe. There are many other branches of civilization outside the underworld. If each branch of civilization develops to a certain degree, it will give birth to immeasurable power! This is just a marginal corner of scientific and technological civilization. If a true scientific and technological civilization can fully show its charm, it can even make the entire underworld look at the human race!"

Fang Yue's voice revealed a fascination.

His words made the Mosquito Dao Ren and Chen Pingping be bothered.

Even if Fang Yue said that the power of technological civilization is not so powerful, it can only change the bottom ecology of the underworld human race, which is also a huge change for the entire human race.

In the underworld, the ecological structure of each ethnic group basically maintains a pyramid-shaped state. If the number of weak people increases, in fact, the number of times each ethnic group's battles, small troubles during the day, and strong saints are all shots. Not many, most of them are intrigues between practitioners below the Saint Realm of various races, you are fighting for each other.

Once the saint-level powerhouse takes action, it means a declaration of war between the two ethnic groups and an escalation in the scale of battle.

However, the action of the strong of the great sage, the virtual fairyland, and the real fairyland means that the scale of the war is further intensified.

Therefore, every tribe will be extremely cautious every time a strong player is dispatched.

Even if it's just the change and strength of the bottom-level combat power, this will make the race able to win more breath. Room for rest, more room for survival!

What's more, this kind of technological civilization does not have the slightest fluctuation of laws and ripples of mana when launching an attack. It can play a surprising effect in war. If it is used for sneak attacks, the success rate will be greatly increased!

"Fang Yue, do you say that your technological and civilized means can be popularized and promoted? If you can, you may be able to become a major contributor to changing the status quo of the entire human race!"

Chen Pingping was silent for a while. Although she didn't like Fang Yue, she had to admit Fang Yue's value.

Chapter 1893: Law enforcement department

"It's hard to say that it can be promoted, but I think it can be done to change the foundation and strength of the civilization of the entire underworld! This Tesla electric circle is just the tip of the iceberg of my scientific and technological civilization, which can be used in warfare. It is an excellent choice for production and people's livelihood!"

Fang Yue finally showed his ambition. What he wanted was not just a position as a guardian envoy, he wanted the position of a civilization pioneer in the League of People, and he wanted to become a pivotal existence in the League of People! Completely break free from the identity of being at the mercy of chess pieces on the chessboard!

"Hope as you say!"

Chen Pingping took a deep look at Fang Yue, and then floated away.

This sneak attack by the Dark Demons has completely become Fang Yue's personal show. Although Fang Yue did not do it himself, it was staged step by step in accordance with Fang Yue's script from beginning to end!

"The hope of the human race, the rise of the human race may be entrusted to you!"

The mosquito man fell to Fang Yue's side, and there was a trace of relief in his eyes, but it was more of a complicated taste.

He knew that Fang Yue was talented, and he also knew that Fang Yue was knowledgeable, but he never thought that Fang Yue might one day become the existence that changes the entire human race process!

"The mosquito person is serious!"

Fang Yue clasped his fists, slightly humble, but his waist was even straighter.

The next day, before dawn, the news that the Dark Demons had attacked the Sansheng Peak and returned from their feathers spread to several surrounding cities.

When this news came out, it was tantamount to giving the Black Demon a resounding slap!

The Black Demons, who have always been proud and powerful, encountered a serious Waterloo.

Combining the four clans to attack the human race Yongfeng Town, unable to compete for the mineral veins, but was counterattacked by the human race, and captured Tianshi Mountain. After that, they dispatched a hundred black demons of Yin and Yang elites to attack the human race's Sanshengfeng. As a result, the whole army was destroyed. The dead don't know!

The reputation of the Black Demons has plummeted, but the reputation of the Human Race has risen!

Especially the guardian of Terran Yongfeng Town, Fang Yue, has become a dazzling banner of Terran.

Successive victories have greatly encouraged Human Race!

Originally, in front of the gate of the palace mansion of the guardian of Menkeluoque, suddenly many enthusiastic young people appeared. They wanted to worship Fang Yue's commander, even if they became his soldiers, they wanted to follow Fang Yue to build a career and build for the human race. Immortal feats.

Fang Yue gladly accepted these people and incorporated them into the guards!

The number of this guard is only more than 300 people, and their average strength is the third or fifth level of the golden body.

However, this was after all the first power Fang Yue established in the underworld, and the first group of people he possessed was of great significance to Fang Yue.

In fact, the strength of these people is not important, because Fang Yue did not intend to let them go to the battlefield to kill the enemy, at least in the near future, their main responsibility is not yet there.

The first task Fang Yue gave them was to dig a well on the sky rock to extract oil.

Why did Fang Yue capture Tianshi Mountain?

Simply showing off?

Do you simply want to discredit the Dark Demons?

Although Fang Yue likes low-level taste, at this time he has no such plans.

What Fang Yue needs is the oil under the stone mountain! According to the pictures in Yongfeng Town, this stone mountain was a dense forest thousands of years ago.

Fang Yue also conducted exploration based on the law of soil and discovered that there is a small oil field with thousands of tons of reserves hidden under the Tianshi Mountain.

Petroleum is the foundation of industrial civilization.

Fang Yue can use space to transport some industrial equipment from the earth, but oil or something needs to be mined by himself in the underworld!

Moreover, oil itself is also a very lethal weapon. It is easy to burn, and can be deployed into a sea of fire at critical moments. Although the flames created by this oil are difficult to cause fatal damage to the dark demons, they can become a special kind of weapon. The environment is conducive to being good at fire skills to exert one's greatest strength.

Although the three hundred young guards didn't quite understand what Fang Yue wanted these dark viscous liquids for, they had just taken refuge in Fang Yue, and in order to express their loyalty, they would act as oil workers without any regrets.

Moreover, Fang Yue's payment of wages made these guards ecstatic, because after they worked for five days, Fang Yue gave them a blaze pill to change their bloodlines and change their bloodlines and physique from the yellow level. The level of the eighth rank has been raised to the level of the sixth rank of the yellow rank!

It's hard to find this kind of elixir of bloodline level!

Fang Yue's trick is to buy bones with a thousand dollars. This Fiery Pill Fangyue has been sold to the outside world before, but the amount he releases every day is limited, and every pill is hard to find.

"This Fang Yue jumped a little!"

In Tianque City, in an ancient mansion, a big man slowly spoke!

He is Gu Qiuyun, the second city lord of Tianque City. Although he looks like a handsome young man, his voice has a deep and hoarse smell!

There are four city masters in Tianque City, each with its own advantages and disadvantages, and each has talent. Although the four city masters are high and low, each city master has a status in the city.

Fang Yue made great contributions to the Human Race, but not all Human Race wanted to see this scene!

Gu Qiuyun couldn't see the other Yue!

As the substantive person in charge of Tianque City, Gu Qiuyun hopes that Tianque City can live in peace with the surrounding ethnic groups and maintain its original state.

In this way, it is more in the interests of the Gu family.

"But this Fang Yue is from Renmeng!"

An old housekeeper in the Gu family had white beard and hair, and he lowered his waist slightly and said to Gu Qiuyun.

"The League of People..."

A cold light flashed in Gu Qiuyun's eyes.

"This time, the third guardian of Tianque City, Yin Gudao, was also sent by the League! It is said that his relationship with Fang Yue is pretty good! I just happen to think he is not pleasing to the eye. Find a reason and get rid of it together! It is enough for Tianque City to have a city lord, and there is no need for a human alliance or the like to arrange a guardian for the city!"

Gu Qiuyun's eyelids were drooping, and there was an unangered and mighty smell in his voice!

The old housekeeper's body trembled slightly, and then said: "Yes, the old slave will follow the orders of the city lord!"

At the same time, in the mansion of the guard ambassador of Yongfeng Town.

A burly and sturdy dark man walked into Fang Yue's study. He knelt on one knee and bowed his head and said, "Subordinate Su Ying, see the guardian!"

Su Ying was one of the slaves Fang Yue redeemed from the League of People.

He was originally at the seventh level of the Yin-Yang realm. Last time, he and nine other people joined forces to capture Tianshishan and had merit. Fang Yue gave them each a pill. Now Su Ying refines the pill. Has successfully broken through to the eighth level of Yin Yang realm cultivation realm!

Su Ying is therefore even more loyal to Fang Yue!

"Su Ying, how did you do the things I told you?"

"According to the orders of the lord, the subordinates have obtained some evidence of the Gu family colluding with the Black Demon Race!"

"Well, give me these evidences, this time the matter must not be spread!"

Fang Yue nodded. In this Yongfeng Town, these ten prisoners redeemed from the League of People were actually his most assured confidants.

As for the manpower recruited from Yongfeng Town, it is okay to use them to attack and do some peripheral affairs. Some key things, Fang Yue can't believe it!

The tens of thousands of people in the underworld are said to be very distinct, but they collude with each other directly and crisscross.

Fang Yue didn't believe that the people in Yongfeng Town and Tianque City had no interest in collusion with other ethnic groups.

There is even much collusion between Gu Qiuyun, the second city lord of Tianque City, and the Dark Demons!

Of course, these were not guessed by Fang Yue, but Zuo Sha told Fang Yue.

Zuo Sha has now returned to the Dark Demon Clan and has continuously provided Fang Yue with various internal news.

Sanshengfeng's sneak attack plan was revealed to Fang Yue by Zuo Sha.

Otherwise, how could Fang Yue expect things to be like a **** and make arrangements early in Sanshengfeng?

Fang Yue has repeatedly acted on the Black Demon Race, and it is estimated that Gu Qiuyun is about to be unable to sit still!

Fang Yue has never underestimated the goodness of human nature, but he will never think that human hearts are innocent.

"Come here! Give me a fierce search! Someone has seen the culprits break into the palace of the guard envoy of Yongfeng Town. You must encircle me the mansion of the guard envoy. The thief let go!"

"Unexpectedly, this Gu Qiuyun could not sit still, so he was already preparing to start with me!"

Fang Yue's mouth curled up with a faint sneer, this Second City Lord really couldn't tolerate him for a moment!

"The thief? Where did the thief come from? I think who would dare to step into Master Fang Yue's mansion for half a step!"

In front of the palace's door, two muffled voices were in unison.

All of them are made of flowing mercury, somewhere between liquid and solid.

These are the two flowing silver puppets that Fang Yue brought from the Ten Thousand Realms Universe, all of which are in the third level of the leader realm.

Although the brain is not very easy to use, but the victory is that the body can switch between solid and liquid, resist beating and beating, and not afraid of death.

A twenty-man law enforcement team from Tianque City was intercepted at the gate of Fangyue Palace.

Their faces were fierce and glaring, and their eyes glowed like hungry wolves.

"What are you two? You dare to stop me from waiting? Do you know that I am the law enforcer of Tianque City, and it represents the will of the law enforcement department of Tianque City! If it is blocked by you, let go and enter? Pirate, how are you waiting for such a responsibility!"

One of the leaders of the law enforcement at the leader level said angrily to the Liuyin guard.

"The law enforcers in Tianque City are really powerful! Obviously, I didn't see any culprits, so you have to break into my palace and search for the so-called culprits! You can see the human king law in your eyes. , Is there a guardian sent by the League of People, me?"

Fang Yue slowly walked out from the depths of the palace, he said coldly.

"It's just a guard in Yongfeng Town, your palace will be searched after I say it! Do you think you are something that can prevent my law enforcement team from doing it?"

The captain of the law enforcement team was quite tough, and he didn't even look at Fang Yue at all.

Not to mention Yongfeng Town. Even if the senior officials in this Tianque City saw their law enforcement department, they would tremble and cower, and the two silver puppets at the gate of Fang Yue dare to obstruct their steps. Disrespect of the Law Enforcement Department!

Chapter 1894: completely annihilated

Fang Yue glanced at the captain of the law enforcement team.

"It turns out that I'm just waiting in the eyes of the Law Enforcement Department to be slaughtered pigs and dogs! If this is the case, then I have nothing to say! Let the chief of the Law Enforcement Department come to redeem the people! What is the temper of the guards of other towns? I don't know, anyway, our Fang Yue can't bear such humiliation! This palace is my resting place. You can just find a reason to break in and search if you want, whether this will bring us people together The guards put it in the eyes? If you can't give me a satisfactory answer, you will kneel and die at the door of my palace!"

Fang Yue's sleeves flicked gently, and a mountain-like pressure suddenly dropped.

All the members of the twenty-member law enforcement team knelt down in front of Fang Yue's palace. Their bodies couldn't move, as if they had been cast a hold technique!

The captain of the law enforcement team was shocked. He did not expect that the guard of the Human League would have such magical powers, and he did not expect that the guard of the Human League would be so bold and brave. Fighting, let them all kneel down in front of the palace, leaving no room for affection.

"Fang Yue, are you crazy? You resisted the law enforcement without saying that you even suppressed me in front of your palace. You are humiliating the face of our law enforcement department. If a big figure in our law enforcement department investigates, you I will definitely not eat it!"

The hysterical opponent Yue, the captain of the law enforcement team, roared and said that he had never thought that he would kneel in such a humiliating manner in front of the guardian's palace in Yongfeng Town.

As the captain of the law enforcement team in Quecheng on this day, he should be able to get there early and give pointers to the country. His status and status are extremely high, and no one dare to offend.

However, the current situation made his heart quite uncomfortable.

If this incident were to spread out, his position in this Tianque City would be wiped out.

And this affects not only his personal glory, but more importantly, it will cause a strong blow to the pressure of the entire law enforcement department in Tianque City.

"I know that there are people close to the Department of Law Enforcement around here. You can speak to the top of the Department of Law Enforcement for me. This law enforcement team is now in my

hands. If they want to redeem someone, please come, if it is three days. If there is no one inside to give me an explanation, all these people will become my sacrifice!"

Fang Yue's voice was cold, and there was still a touch of murder in it.

Pedestrians in Yongfeng Town are in such a tidal wave, no one dared to look up at the expression on Fang Yue's face. Who could have imagined that Fang Yue was so tough before he waited for the law enforcement team to make a move!

This time Fang Yue was completely on the opposite side of the Law Enforcement Department. It is not good to say that this time the incident will cause great disturbances in Tianque City.

If the Department of Law Enforcement does not face Fang Yue's severe punishment, the majesty of the entire Department of Law Enforcement in this city will be wiped out in the coming years.

The captain of the Law Enforcement Department vaguely felt that he had made a mistake in taking on this task.

However, before the team leader of the Law Enforcement Department had too much thought, a powerful voice came from the horizon.

"Fang Yue, you are so brave to detain members of our law enforcement department!"

The clouds in the sky separated, and a black figure fell from the sky.

This is a middle-aged man. He is dressed in black armor, and there is a layer of light black smoke around his body. There is a faint purple halo in his eyes, and he breathes out unicorns, blue dragons, white tigers, and gluttonous animals. Phantom.

"People in the Department of Law Enforcement don't put me in their eyes, so why should I respect your people in the Department of Law Enforcement?"

Fang Yue sneered, with a faint look of contempt in his eyes. This person has been hidden in the clouds for a long time.

He was waiting for Fang Yue to bear the insult from the Law Enforcement Department, and then chose a good excuse for the opponent Yue Xia's black hand, but he did not expect that Fang Yue was so strong that the law enforcement team would not even enter the door of his palace.

"The Department of Law Enforcement safeguards the safety of the entire Tianque City. In the eyes of our Department of Law Enforcement, there is no distinction between the strong and the weak, only the difference between the good and the bad! The law enforcement team sees a gangster in your palace and disappears, but they want to enter. For the arrest, Fang Yue's guard has nothing to do with whether our Law Enforcement Department is defiant!"

This middle-aged man had already thought about excuses. As the head of the law enforcement department, he had to find enough reasons even if he wanted to pour dirty water on Fang Yue!

He spoke lightly, and there was an unquestionable smell in his voice.

Fang Yue said coldly: "Someone has entered into my palace, why don't I know? You said that you are arresting gangsters, you are arresting gangsters? How do I know that you are not making up an unreasonable charge and making shit? Buckle the basin on my head?"

Fang Yue was extremely aggressive this time.

If you are strong, you must be tough to the end.

What if it is the Law Enforcement Department?

The Department of Law Enforcement also has to rule and take evidence. Otherwise, let them turn black and white with their red mouths and white teeth. Doesn't Quecheng become the world of their law enforcement department?

"Naturally, this gangster was not made up out of thin air. His name is Luo Tianci, but a Jiang Yang thief. Some time ago, he stole a western jellyfish from the city lord's mansion. He searched the whole city for wanted. Three hours ago, I waited to find the clue. , I found this trace of Luo Tianci. My law enforcement team pursued him, but found that Luo Tianci fled to Fang Yue's guardian's residence, and Fang Yue's guard made you hardly stop you and didn't let me enforce the law. The staff of the Secretary entered into your mansion, don't know what the intention is?"

The middle-aged man spoke slowly, sonorously, with reason and evidence.

Now that he is ready to attack, he has made all kinds of preparations, all kinds of reasons, all kinds of excuses!

Fang Yue sneered: "What do I have in mind? I am clearly thinking about your law enforcement department! If this Luo Tianci can really enter my palace silently, I am afraid that with the strength of you people I can't even take any random tricks of others! My palace is a existence that can rival the saint-level magical artifacts. If you infuse mana, none of you can hold the palace's one-shot power!"

Fang Yue spoke, leaving no face to the members of these law enforcement teams.

The middle-aged man in black armor snorted coldly: "Every law enforcer in our law enforcement department is an elite of the elite, and the strength of his force will not worry Fang Yue!"

"Really? If this is the case, I really want to learn about the strength and methods of this law enforcement officer!"

The palace behind Fang Yue shrank rapidly, transforming into a huge brick.

Fang Yue picked up the bricks that the palace had turned into, and smashed it down at the man in black armor.

Colorful divine light shot out from the top of the palace tiles. The man in black armor wanted to dodge, but found that his body had been locked by a powerful mind, and he could not move anymore!

He could only watch the palace tiles continuously enlarge in front of his eyes and hit his face! Eventually, with a loud bang, his brain was cracked and blood splashed.

"Do not!"

A man from the law enforcement department in black armor was smashed into the ground.

The man in the black armored law enforcement department did not fall, but under the blow of the palace brick, the meridians in his body were broken, and it was difficult to escape a serious injury.

"This is only part of the power of my palace. If you can't resist even this power, how can it be compared with Luo Tianci, who sneaked into my palace quietly? I won't let you enter me. The search in the palace is to protect your lives! Don't bite Lu Dongbin by dogs or not know good people!"

Fang Yue painstakingly discouraged.

His words left everyone speechless.

The guards sent by the League of People this time are really rough and violent. If they say anything wrong, they hurt others. They are also completely righteous and awe-inspiring, making people speechless!

"Fang Yue's guard has made you really good at it! It seems that you are thoroughly prepared to break with our law enforcement department this time!"

The middle-aged man in black armor touched the dust and mud on his face and crawled out of the ground staggeringly!

There was almost an angry flame in his eyes.

As a saint, he has stepped into the high-level category in Tianque City, let alone in this small Yongfeng Town, even in Tianque City, he is considered a big man!

Who would have thought that he would be defeated by a young man in the Yin-Yang realm sent by Fang Yue.

"It's not that I want to break with your law enforcement department, but that you have been unkind before. The drunkard doesn't mean drinking! Since you don't want me to live well, then I don't need to keep you for the New Year!"

Fang Yue sneered, "Since you are here, don't leave, kneel in front of my palace and make atonement!"

When Fang Yue's thought fell, the man in black armor also knelt down in front of Fang Yue's palace. The scene was spectacular and shocking to countless people!

"This time the guards seem to be different from the previous guards!"

"Too domineering! Too strong!"

The residents of Yongfeng Town who came and went to meet this scene all stopped to watch this Yongfeng Town, there is never lack of guards, but Fang Yue is the only one who can be so arrogant and domineering. Everyone in Tianque City does not know the status of the Law Enforcement Department. Apart from the City Lord's Mansion, the Law Enforcement Department is the most powerful department. Everyone dared to be angry but did not dare to speak, Fang Yue's attack on the people of the Department of Law this time was tantamount to a sigh of anger for them!

Fang Yue stood with his hands in front of the palace, waiting for the law enforcement department to continue the attack.

"Fang Yue, it seems that you have done this a bit too far! Although you are the messenger of the League of People, you should abide by the rules of the local city!"

An old man came from a distance, his beard and hair were all white, his face was red with a halo, and his smile was long.

This is the fifth guard ambassador in Tianque City. According to his status, he is the guard ambassador in Tianque City. His status is one level higher than Fang Yue's. However, in terms of the rank of the People League, he is a member of the ninth level. Fang Yue is the same, the two belong to the same level.

However, although the old man is a sacred man, his strength is much weaker than Fang Yue.

Chapter 1895:

"Sima Que, the fifth guardian of Tianque City?"

When Fang Yue saw this old man, he quickly recognized the identity of the other person, Sima Que, whose name has since been given to drinking a drop of Vermillion Bird's blood when he was a teenager.

Sima Que was originally a mediocre talent and a very ordinary background. It was good fortune that he could stop at the Yin and Yang level in his life cultivation.

However, a drop of Suzaku's blood changed his life.

He soared into the sky, from a most common practice to a spiritual genius among the human race.

He proclaimed and sanctified when he was five hundred years old, and then he assumed the position of the fifth guardian in the city of Tianque.

Calculating carefully, this Sima Que has been sitting in the position of the fifth guard for hundreds of years. He is usually kind and rarely shoots. Almost no one in Quecheng knows the depth of this Sima Que.

Fang Yue didn't know much about Sima Que. The only information he learned was from officials and people in Yongfeng Town.

"I don't know what advice Master Sima has in coming here?"

Fang Yue bowed slightly, expressing the humility of the younger generation towards the elders.

Fang Yue could treat the people of the Law Enforcement Department in this Tianque City inferiorly, but he really had to show some face when he really met the guards in the League of People.

After all, his identity as a guardian was given to him by the human alliance. If the human alliance is in conflict, it is easy to be seen as a joke.

"I know that Daoist Fang Yue's cultivation is amazing and his talent is supernatural. If he really makes a move, I am afraid that he will be able to upset the entire Tianque City. Even if the law enforcement department in Tianque City is exhausted, it is difficult to be an enemy of Daoism! But this Everything is balanced! This law enforcement department does not know right and wrong, but the law enforcement department is as high as the cloud. If the Dao friends cut it all out, it will greatly weaken the overall strength of the entire Tianque City. All of them are superior, and I must not stay in this underworld for too long. When the Daoists act as guards in Yongfeng Town, they can naturally fight against the might and defeat the heroes of all races, but if the Daoists leave Yongfeng Town one day, this Who will resist the four-ethnic life-killing door?"

Sima Que did not threaten Fang Yue, nor did he make strong words. His tone was very pertinent, his speech was simple, and every word was considered from the perspective of the entire human race.

Sima Que's consideration is actually very reasonable. According to his thinking, although the situation of Tianque City will not get better, at least it will not get worse!

Fang Yue pondered for a moment.

"Master Sima Que, your consideration is indeed somewhat reasonable, but if the Human race is always so contented with the status quo and refuses to break the arm of a strong man, it is tantamount to boiling a frog in clean water. As time goes by, the situation of the Human race will become more difficult. ! Instead of waiting for death in the torment, it is better to let go, fight for a future, and win a future!"

Fang Yue was not moved by Sima Que's words. Now that he has determined to turn Yongfeng Town into his first pilot, he is ready to overcome all difficulties and deal with difficulties and dangers!

"If this is the case, then I won't continue to persuade you! Since you are the guardian appointed by the League, you naturally shoulder the mission of the League! It is good for young people to have courage, but I hope you can act every time Before weighing the pros and cons and the pros and cons! If you still make this decision after rethinking, then as the guardian of the older generation, I will respect your decision!"

Sima Que did not insist on blocking Fang Yue and the Law Enforcement Department as enemies.

Over the past few years, the law enforcement department has become a big disaster in Tianque City. If Fang Yue can use Fang Yue's hand to give the law enforcement department a severe warning, it may not be a bad thing for Tianque City!

"Sima Que, please help!"

The captain of the law enforcement team saw that Sima Que was about to leave, so he immediately became anxious!

A pair of eyes became red, and if the Sima Sparrow really left, then their last straw would be gone!

Sima Que sighed softly: "It's not that I don't want to save you, but that I am not Fang Yue's opponent. Don't look at how respectful he is to me, but I still know how many catties I have! Unless it's Tianque. The strong at the Great Saint Realm level in the city will take action, otherwise, no one will be able to rescue you from Fang Yue's hands!"

There was a slight sorrow in Sima Que's voice.

The back wave of the Yangtze River beat the front wave, and the front wave died on the beach!

What's more, as a member of the League of People, Sima Que knows how deep the muddy water is this time!

A Fang Yue is already very difficult to make people head, and there is a third guardian in Tianque City even more difficult.

Yin Gu Dao, it is said that there is a person with a big background, he is favored by the big figures in the People League, and he is a member of the ninth level just after joining the People League.

This is an unprecedented situation!

According to the regulations of the Human League, even the strong of the Great Sacred Realm, after becoming a full member of the Human League, must follow the rules of the Human League to start from the first-level members and advance step by step.

And how could He De of Yin Gu Dao climb to the sky in one step, and became the ninth-class member of the People League just after joining the People League?

There is only one answer.

That is, the potential or identity of Yin Gu Dao has been recognized by the senior leaders of the League.

Such an existence may not necessarily appear in the People's League for hundreds of years.

The lord of Tianque City would inevitably encounter an extremely violent counterattack if he wanted the opponent Yue He Yin Gudao to make a move.

As for the victory or defeat, in fact Sima Que had his own judgment in his heart, and the victorious Tianping would inevitably lean in the direction of Fang Yue and Yin Gu Dao.

His appearance this time was actually to repay a favor of a big man in Tianque City.

He hopes to be able to try to mediate as an intermediary. Now that the mediation fails, his favor has been paid off, and what happens later has nothing to do with him!

"The rotten ones will eventually return to the dust! History will prove everything right and wrong!"

Sima Que walked away slowly with his hands on his back.

Fang Yue watched Sima Que leave.

"I know that you are entrusted by people to come to me to make troubles and provocations. In fact, you are not willing to be enemies with me, and you are unwilling to be enemies with others, but sometimes, our own behavior is our own. It's not the Lord!"

Fang Yue spoke to the people kneeling on the ground in the law enforcement team with an extremely slow rate of speech, "Although you are reckless, bullying men and women, and doing a lot of evil on weekdays, you are always the elites of the human race. I am willing to give you a chance. You will

redeem your merits and give you a chance to reform and renew! You can now choose to be killed by me or protect Tianshi Mountain for me!"

Fang Yue's voice fell, and the law enforcement officers all showed disdain.

They are the law enforcers in Tianque City, all with arrogance, how could they be moved by Fang Yue's words.

"Why? Not willing?"

Fang Yue's voice picked up, and a Yin-Yang-level law enforcement officer snorted coldly: "We are the embodiment of the rules in Tianque City, Fang Yue, even if you can defeat us, you dare not kill me! If you really dare Do it to me, I will definitely want you to survive but not to die!"

"It seems that you don't shed tears after seeing the coffin!"

Fang Yue sighed softly: "Do you think I will really be as soft-hearted as Sima Que, because I pity your cultivation and dare not do anything to you?"

Fang Yue's voice was faint, like a ghostly voice lingering in the ears of the law enforcement officer.

"If you die, your cultivation level can be inherited by others. Although there will be losses in the process, who makes you not obedient enough!"

Fang Yue's voice fell for the first time, and the heart of the law enforcement in Quecheng that day shrank slightly. He could feel that Fang Yue's words were not false, and a huge crisis had enveloped him.

"and many more....."

Before the voice of the law enforcers in Quecheng had settled on this day, the blood in his body had quickly dispersed and dissipated.

At Fang Yue's fingertips, a red spar the size of a small grain of rice was born from the void. This was clearly a condensation of blood in the body of the law enforcer in Tianque City.

"In this palace, I saw the various methods that its masters of the past generations were proficient in. Among them, there is a very interesting secret called-Transplanting Flowers and Trees. This migration of Flowers and Trees can absorb the vitality and blood of others and condense them into a red blood pill. In order for people below you to refine this red blood pill and gain 30% of your strength in a short period of time, although each person can only refine one red blood pill in his life, if you use this red blood pill to train your subordinates If so, my subordinates should be able to give birth to a group of extremely outstanding masters in the shortest time!"

Fang Yue's voice was light, but the law enforcer in Tianque City immediately changed color when he heard it.

"Fang Yue, what do you mean?"

"It's not the right way for you to be a magic way. If you do this, you will suffer retribution!"

That day the law enforcer in Quecheng shouted hysterically at the other side.

Fang Yue's eyelids drooped: "I never said that I walked on the right way. How about the right way? What about demons? As long as they can protect the human race, everyone will come to the same end by different paths!"

Fang Yue's voice fell.

Law enforcement officers in Tianque City felt a layer of fine goose bumps all over their bodies.

His breathing became hurried.

It's not that the law enforcers of Tianque City felt impatient, but Fang Yue was still absorbing the essence of life in his body while speaking, and his cultivation level also continued to fall from the Yin-Yang level to the golden body. The level of environment!

"Fang Yue, you must die!"

The law enforcer of Tianque City issued a final curse, and as his voice fell, his cultivation had fallen back to the level of innate realm.

The sound fell to the ground, the eternal death in the imagination had not come, and the situation of the fall of the cultivation base came to an abrupt end.

"I, I'm not dead?"

The law enforcer of Tianque City looked at Fang Yue with incredulous eyes.

"I won't kill you! You are right. I killed you, it means that the city of Tianque has officially started war. Now I have absorbed ninety-nine percent of the skill in your body, making you lose the capital to do evil, in my heart There is still a hint of kindness, so I decided to let you go!"

Fang Yue let go of the law enforcers in this Tianque City, but the law enforcers did not miss Fang Yue for it.

On the contrary, his eyes were filled with spitefulness.

The law enforcer looked at Fang Yue, "Fang Yue, you are so cruel! You let me survive, but you have lost all of my cultivation base. Do you know how the unpowered can survive in this Tianque City? Miserable! Ahhhhh! Fang Yue, you are a devil, you are more cruel and hateful than a foreign race! I curse you for life after life to become a beast and never turn back!"

The voice of the law enforcement officer fell, and Fang Yue's fingertips were wound with a thin red thread.

A ridiculous smile appeared at the corner of Fang Yue's mouth.

Chapter 1896: Hongmen Banquet

"Unexpectedly, the grievances you formed before you died can really form the most superficial curse power, but unfortunately, what I am most proficient in is the curse power even if the curse you

desperately activate is nothing to me. Function, since you really want to die, take your curse power to **** together!"

Fang Yue's expression was cold, his voice fell to the ground.

The red cursing power fell on the enforcer, and with a hoarse roar, the enforcer finally fell into endless reincarnation in endless pain.

"I really don't know if the people in the underworld will be reborn in the sun after their fall, or if a little real spirit is immortal and integrated into the origin of the universe!"

This thought came to Fang Yue's mind quickly. He had also read related books in the underworld. However, in the end, he was disappointed. In the underworld, the sayings about people after death are different. Some people say that yin and yang Since ancient times, the creatures of the underworld have died, and they may enter the sun to be reborn. Some people say that the so-called underworld is just a relative concept, not the real yin and yang. Some creatures in the underworld will indeed be brought by ghosts from the underworld when they fall. Brought into the underworld and transformed into yin spirits to replenish the power of the underworld, but after death, more creatures will enter the cycle of rebirth and disappear.

The life of the underworld has fallen, and the final outcome is unpredictable and unpredictable.

Countless ancient sages have exhausted their lives to explore the whereabouts of the underworld creatures after their fall, but the outcome is elusive and no one knows.

This thought was just a flash in Fang Yue's mind. These things are not something he can influence, nor are they what he needs to care about.

Reincarnation and life and death are the greatest mysteries of all beings.

Although Fang Yue said he was proficient in the three powers of life, death, and soul, he still didn't even know the truth of reincarnation.

"Whoever wants to go with him, just speak up!"

Fang Yue's voice fell again, and everyone around him boomed.

This has already become a lesson for others, who dares to follow in his footsteps.

Generally speaking, the death of the lamp is already the most tragic ending. Who would have imagined that Fang Yue would be cursed and tortured after the death of the opponent and never exceed life.

"I am willing to guard the Tianshi Mountain for the Human Race in order to surrender the merits and crimes!"

Someone spoke, losing the last courage, he dropped his head, willing to surrender.

It's not that he has no backbone, but Fang Yue's methods are too cruel and ruthless!

This is no longer a question of life and death, even if he is willing to die, Fang Yue may not give him a happy life.

"it is good!"

Fang Yue nodded in response, and pointed a finger to the center of this person's brow.

A complex purple pattern criss-crossed. Someone saw that Fang Yue's purple pattern represented the seal of the servant, and only when the servant's party completely surrendered could this mark be made.

The imprint fell, which meant that the law enforcer's freedom of life and death was completely controlled by Fang Yue from now on, and there was no room for resistance.

But... this is a kind of statement, and it is also an opportunity.

Anyway, if you don't want to die, you will have to surrender sooner or later, and the first surrender can often leave a deeper impression in Fang Yue's heart.

Fang Yue smiled and said: "Since you are willing to do anything wrong, then I will not treat you badly. Now you can go to Tianshi Mountain. If your performance is good for ten years, I will return your free body!"

Fang Yue's words caused a blaze of hope in the eyes of the law enforcement officer of the law enforcement department.

If he could be free, who would be a slave to others, he originally thought that after he recognized Fang Yue as his master, he would have a rare freedom in his life. He did not expect that Fang Yue gave him a time limit, compared to when he was guarding in ten years. I will do my duty in Tianshishan!

With a beginning, other people's inner defenses became loose one after another.

"I am also willing to take the merits and crimes in the future as Master Fang Yue!"

The other law enforcement officers were also Shanhu's allegiance, and even the law enforcement officer in the sage state in black armor finally bowed his head.

The more saint, the more he cherishes his life.

Especially after they heard that Fang Yue could be released to freedom after they guarded Tianshi Mountain for ten years, their hearts were even more relieved.

"Since you are willing to do this, then I will fulfill you! In the future, as long as you perform well in Tianshi Mountain and kill more enemies, I will give you freedom!"

Fang Yue promised that many law enforcement officers would feel relieved.

People like Fang Yue are full of arrogance in their hearts, and they will never get fat easily by breaking their promises.

The law enforcement officers of the Law Enforcement Department came in with enthusiasm, but in the end they died and fell. One can imagine the prestige blow caused by the Tianque City Law Enforcement Department.

In the future, what dignity does the law enforcement department have to talk about? This matter is already about the life and death of the law enforcement department of Tianque City and the future. If it

is not well controlled, it is likely that the entire law enforcement department will become a laughing stock of Tianque City. After that, there is no trace of dignity to talk about.

"Is this Fang Yue going to be persistent to the end?"

Gu Qiuyun's low voice in the mansion of the second city lord revealed a hint of anger.

He originally just wanted to let the Law Enforcement Department give Fang Yue an ugly look, and then let him know who is the master in Quecheng this day.

If Fang Yue obediently acted as his guardian and was willing to bow his head to apologize to himself, Gu Qiuyun would not want to make things so stiff.

But unexpectedly, this Fang Yue was so unaware of good or bad that he didn't know the current affairs and acted on the people of the Law Enforcement Department.

Now that the Department of Law Enforcement is already riding a tiger, they don't know whether they should take the opportunity to start with Yue, or just pass it off, pretending to be deaf and dumb, and treating this as never happened!

This Fang Yue is indeed fierce, but he also has the corresponding capital.

If it is hard to fight, the Law Enforcement Department will also need to pay a great price to take Xiao Yue!

Although the Law Enforcement Department is subordinate to the City Lord's Mansion, they are also an independent organization. If the strength of the Law Enforcement Department lies in Fang Yue's struggle and suffered extremely serious losses, the status of the Law Enforcement Department in Tianque City will also be greatly reduced. When their status declines, the big forces they had offended in Tianque City will quickly counterattack. At that time, there are revenges and grievances. The law enforcement department is very likely to collapse completely and be overwhelmed.

"Master Fang Yue, it's not good, it's not good! This Tianshan has something wrong! An hour ago, hundreds of soldiers of the Black Demon Clan attacked Tianshi Mountain, causing violent conflicts between the defenders on the Tianshi Mountain and the soldiers of the Black Demon Clan. , The soldiers of Tianshishan fell by nearly a hundred. Although the Black Demon had some losses, the number of casualties was far less than that of the Humans! Now the Tianshishan has been completely retaken by the Black Demon, and there are hundreds of wounded soldiers in our clan. Captured by the Black Demon Race on Tianshi Mountain, the generals of the Black Demon Race asked Master Fang Yue to go to Tianshi Mountain to redeem our fighters. Otherwise, when the sky is dark, the Black Demon Race will take this into our clan. All of the wounded soldiers beheaded and killed without leaving!"

A dusty soldier stumbled forward to report.

His voice was hoarse and his face was sullen.

The Black Demons launched a sneak attack, they were caught off guard, and the Black Demons used powerful masters at the leader level this time to sweep everything, unmatched!

"Don't panic! Isn't it just a sneak attack? Race battles, life and death, what's the big deal!"

Fang Yue did not panic, all this was in his expectation.

It's just that the sneak attack from the Dark Demons came earlier than he expected.

"There is no movement in the city lord's mansion of these two city lords. It seems that their ability to defeat me and the Dark Demons is giving me a fatal blow!"

Fang Yue frowned slightly, this sneak attack was in his expectation, but it came earlier and more violently than Fang Yue expected! And Gu Qiuyun's patience was beyond his expectations!

Originally, it was necessary to settle the inside when fighting foreigners. According to normal principles, after the defeat of Sanshengfeng, the Black Demons should regroup and recover for a period of time to avoid exhaustion. I did not expect the war strategy of the Black Demons and Fang Yue's. The imagination is different. They have been fighting all year round and have been bearish on the outcome of life and death. They have excellent psychological qualities and will not feel sad and happy because of the occasional victory.

"It seems that the psychological quality of this Black Demon Race is higher than I thought! And they can spare Zuo Sha to attack Tianshi Mountain, is Zuo Sha discovered or Zuo Sha's news line is not clear enough?"

Fang Yue thought for a moment before he decided to leave for Tianshi Mountain.

The significance of this Tianshishan is more than just an oil mining area.

After a few breaths, Fang Yue had appeared at the foot of Tianshi Mountain. Tianshi Mountain was towering like a cloud, with pieces of rubble in disorder, and the mountain was bare, even a single grass had never grown.

This Tianshishan is a very famous mine around Yongfeng County, and many stones contain rare minerals.

Some minerals are quite attractive, and can even make the saint's heart bewitched.

Tianshi Mountain belongs to the area where the human race and the black demons meet. Although most of the minerals are taken away by the black demons, the human miners also occasionally visit here and secretly collect some valuable ores.

"This Fang Yue really came here personally, his heart was arrogant, he never saw the Black Demon Race in his eyes, but this time, we will let him suffer a big loss and stay in Tianshi Mountain forever!"

Gu Qiuyun's figure was hidden in the clouds. This sneak attack was made by him and the Black Demon Race.

Although Gu Qiuyun is not a smart person, Sheng Zai has a good master by his side!

Fang Yue's attitude towards the Department of Law Enforcement has shown that Fang Yue is so fearless and has proved the attitude of the League from a certain angle. Since the scheme is not feasible, then it is replaced by a conspiracy. Gu Qiuyun is ready to unite with the Dark Demon in the sky. Joined forces on the stone mountain to kill Fang Yue.

"It's just a guard at the Yin and Yang level, even if it is a little clever, where can it go?"

A great saint of the Dark Demon Race stood in the void, standing beside Gu Qiuyun.

A pair of black fleshy wings stretched out, like a demon in myths and legends, he was covered in black scale armor, as strong as iron, reflecting a faint black light under the shining sun!

Today, the sky directly above Tianshi Mountain has been occupied by dark figures.

Who are these people?

These people are all powerful sent by the Black Demon Race, and most of them are at the leader level, but a small number of elites still reach the Saint Level level, and even the headed Black Winged Black Demon Race even more. He is a strong man at the Great Sacred Realm level.

This time, the Black Demons had spent their blood. They would burst out with a thunderous blow when they shot, killing all the forces that Fang Yue had just cultivated in the bud.

Their goal is not just as simple as killing Fang Yue, they also want to take advantage of the trend to massacre the city and massacre all the people of the human race in Yongfeng Town.

They will use dripping blood to wash away the humiliation suffered by the Black Demons, and at the same time use the corpses of all the residents of Yongfeng Town to warn those with lofty ideals who are still thinking about the resurrection of the human race and frightening the dreams of all races.

However, the Dark Demon Clan didn't expect that Fang Yue would dare to go to the appointment even though he knew that this was a feast for a grand feast.

Is he really not afraid of his death without a place to bury him?

Chapter 1897: Mysterious curse

"I've already come, don't the people of the Dark Demon Race still plan to show up?"

Standing at the foot of Tianshi Mountain, Fang Yue said in a calm voice.

When Fang Yue arrived at the foot of the Tianshi Mountain, his thoughts were already connected with the world and integrated, but Fang Yue did not take the initiative to break the devil race's deeds but pretended not to know, waiting for the arrival of the black demon race .

Exposing all your hole cards in front of unknown enemies is an extremely stupid behavior.

The mismatch between Fang Yue's cultivation realm and his own combat power is his most natural protective umbrella.

Fang Yue's shout was greeted with a storm-like arrow.

Countless arrows came from Tianshi Mountain like migratory locusts towards Fang Yue.

This is the first gift from the Black Demon Race to Fang Yue. Each arrow is a precious artifact of the Yin and Yang level, and all the arrows of the arrow have been engraved with "piercing". Inscription.

The piercing inscription can directly penetrate into the body of the attacked person without any physical defenses.

Of course, this kind of rune also has limitations, at most it can only produce effects across a large realm.

The greater the difference in realm, the weaker the effect of this piercing inscription!

However, the Black Demons believe that this piercing inscription can be effective for Fang Yue, as long as there is an arrow that can pierce Fang Yue's skin, the violent toxin tempered therein can be directly sent to Fang Yue to the west.

This is the conspiracy of the Dark Demons.

Do not!

This is already a conspiracy.

Fang Yue had to come, and he couldn't back down when he came. As a guardian, Fang Yue must be responsible for the lives of every member in this Yongfeng Town.

If these captured soldiers in Yongfeng Town died because of Fang Yue's cowardice, then Fang Yue would be the sinner of the entire Yongfeng Town, and he would never have the qualifications to take on the important position of guards!

And Fang Yue couldn't back down as long as he came.

As long as he retreats for a while, the butcher knife of the Black Demon Race will fall on the necks of the captured soldiers in Yongfeng Town.

When the time comes, the head is rolling, and the blood is weighed, Fang Yue will also be responsible for the death of these captured soldiers!

Therefore, Fang Yue has only one way, and that is to bite the bullet and go forward.

And on Tianshi Mountain, the Black Demon Race has already set up a net of heaven and earth. As long as Fang Yue enters the urn, even if he has great magical powers, he will also have the great ability to keep his life here forever! These are the calculations of the Black Demon Race, simple, crude, and not afraid of Fang Yue seeing through.

Because this is a shame, it is essentially to make Fang Yue fall into a dilemma of life and death.

"This time Fang Yue is in trouble! There must be an expert behind this Black Demon Clan. Although this round is not smart, it is a typical killing round. The picture is poor, and Fang Yue's key point is pointed! "

Chen Pingping and Fang Yue, who were behind the mosquito passage, came one step at a time.

The goal of the two people this time is quite the same, that is, to join hands to protect Fang Yue's life and safety, Fang Yue absolutely can't have any trouble.

Not only is he a genius of the human race, but also because he holds a different source of civilization in his hands.

In recent experiments in Yongfeng Town, Fang Yue has gradually shown the charm of this technological civilization.

Fang Yue's value and identity are no longer limited to the position of the guardian of Yongfeng Town in a district. More importantly, Fang Yue is a new kind of fire and new hope for the civilization of the underworld!

"I believe Fang Yue can solve this crisis by himself and finally turn the crisis into peace!"

Mosquito Man's position is still quite tough, and he has high hopes for Fang Yue.

"Difficult, difficult, difficult! This time the Black Demon Race has spent a lot of money! They even sent out powerful people at the Great Sacred Realm level to oppose the battle, and this time, the Black Demon Race sent out strong people at the Great Saint Realm level. An existence standing at the pinnacle of the Great Sacred Realm level, even if the Human Race wants to defeat him, it needs to dispatch a virtual fairy realm level existence. This Fang Yue is only at the Yin Yang realm level, what ability can he against an existence of this level !"

Chen Pingping asked the mosquito person.

She can admit that Fang Yue is very knowledgeable, but she is not optimistic about Fang Yue's ability to break the game.

This knowledge and strength are completely different things. At the level of the Yin-Yang realm, Fang Yue's ability to compete against the ordinary Great Sage in the frontal battle is already very remarkable!

"Look, the people of the Black Demon Race will definitely not succeed so easily this time, and look at how Fang Yue responds, I always feel that Fang Yue should be able to resolve this crisis with ease, and there is no need for you and me. !"

The mosquitoes did not speak too well.

His confidence in Fang Yue originated from the miracle scene after scene created by Fang Yue's deity. Although he didn't know whether Fang Yue's clone had the same skills as the deity, he had seen Fang Yue's deity act. Therefore, the mosquito person Fang Yue's clone is more optimistic.

"Is it just this capable? The so-called dark demons really disappoint me!"

A look of disappointment appeared on Fang Yue's face, his sleeves shook slightly, and all the arrows instantly turned to the direction of the Black Demon Race and ran!

Whoosh whoosh!

The arrows rolled backwards, rushing in the direction they came.

Arrows are like rain and burst into waves.

Large tracts of rocks in Tianshi Mountain were directly broken and turned into a large amount of powder.

The ore in it was bare. It was exposed, colorful and varied, and some of the minerals were extremely precious, and even attracted some members of the Dark Demon tribe.

The warriors of the Black Demon Race who were hiding behind the rugged stones also revealed their figures. Hundreds of the Black Demon Race armed with bows and arrows and knives and guns on their backs, waiting in battle, with murderous aura!

Fang Yue was not afraid of one enemy, and even his eyes didn't seem to have these ordinary Black Demon Warriors.

"You know why I want to take this Tianshishan!"

Fang Yue chuckled and did not give an answer.

Fang Yue's voice fell, whether it was Gu Qiuyun or the Black Demon Race with black wings, all frowned slightly, and their hearts slammed, and an ominous premonition rose gradually!

"I feel that Fang Yue's bad oil flow, although I don't want to admit it, but my instinct tells me that this time the Black Demon besieging Fang Yue in Tianshi Mountain is probably a wrong choice!"

Chen Pingping opened her mouth, her expression calm and watery.

"I also have the same intuition as you! These dark demons are likely to have been overshadowed by Fang Yue!"

The mosquito person has the same feeling and consciousness.

The two had been in contact with Fang Yue for such a long time, and Fang Yue had partly known each other.

What Fang Yue is best at is not force, but all kinds of messy methods. Last time, Fang Yue summoned a group of evil spirits from the world of evil spirits and caught the black demons by surprise.

What kind of bad water was being held in Fang Yue's belly this time, neither of them knew for sure!

"Do you know the origin of this Tianshishan?"

Suddenly Fang Yue stopped worrying, but slowly raised an unrelated question and became a teacher.

For a long time, no one cooperated with Fang Yue, and no one answered his question. Of course, this was not because the people of the Black Demon Race did not want to cooperate, but they, as the Black Demon Race who respected by martial arts, did not have this time at all. What kind of historical and academic research!

"Oh oh oh, I guess none of you know the origin of this stone mountain, and you are not interested in this stone mountain! If so, then I will not go around the corner, just say it! This stone mountain is handed down from the sky, but it is a piece that fell from the sky. It evolved from a meteorite fall!"

"Tianshishan itself is a huge meteorite, and the origin of this meteorite is weird and inexplicable. Eight thousand years ago, someone established a sect called Xuanzimen on Tianshan Mountain. It once flourished for a while, but after five thousand Suddenly the smoke disappeared during the years. From then on, the stone mountain seems to have been cursed. There is no grass and Jiamu is not long. It only produces a variety of minerals, but there is no shadow of life. Thousands of years ago, this day Stone Mountain fell into the hands of the Black Demon Race. The Black Demon Race once sent a saint-level

expert as the leader of the exploration team to study the secrets contained in the stone mountain. Half a year later, this team collected various rare ores. , Returned to the Dark Demon Race, but in the following thirty-six days, all members of the team died strangely, and their deaths were miserable!"

Fang Yue said eloquently, without slowing down.

But every one of his words seemed to be a magic sound, lingering in the ears of everyone present.

In the sky, the body of the Black Demon Race with black flesh wings trembled slightly, and his fists were involuntarily clenched. Obviously, the words Fang Yue said were true, even as the Great Sacred Realm of the Black Demon Race. The strong have also heard of it.

After all, the mining team's affairs are too close to the present. At that time, he first entered the level of the Great Sacred Realm and witnessed a scene where a member of the mining squad at the peak level of the leader realm collapsed and fell before his eyes. .

"I know that you all taboo what happened back then, try to avoid talking about it as much as possible, but if you don't talk about it, it doesn't mean that it has never happened! This day Shishan is quite weird, always before the mysterious disappearance of the mysterious magnetic door. It's a land of prosperous vegetation and outstanding people, where the concentration of Yin Qi is far higher than that of other places. It is a holy place for spiritual practice! But after the disappearance of the mysterious door, this stone mountain has become a lonely mine, like a curse, everyone Don't you be curious, what happened in this?"

Fang Yue's smile was rather weird, and the corner of his mouth formed a cold arc.

The people of the Black Demon Race were slightly panicked. Although they didn't know what Fang Yue was going to do, there would always be a bad premonition deep in their hearts.

Woo~

A black wind suddenly rolled up.

The earth trembled slightly, as if a prehistoric beast was slowly recovering.

"what is this?"

A warrior of the Dark Demon race lowered his head, and he saw a thick white smoke rising slowly under his feet.

"How did the mysterious door disappear back then? Don't you have any points in the hearts of the Black Demons?"

There was a deep chill in Fang Yue's smile.

Chapter 1898: Horrible truth

The look of the warrior of the Black Demons suddenly became flustered. Although he didn't know the truth of the mysterious door disappearing overnight, one of the members of the mining team was his elder.

Back then, the elder's seven orifices bled, his limbs exploded, his flesh and blood flew across, and his blood was dripping, which made people shudder.

The words that the elder murmured before his death still echoed in his ears.

"Fate reincarnation, who can atone for sins! Who can atone for sins!"

The voice full of resentment was like the whimper of a ghost in the underground palace.

He still can't forget the ray of resentment in that elder's bloodshot eyes before his fall.

"Fate reincarnation, who can atone for sins! Are we wrong? Are we really wrong? Hahaha!"

The warrior of the Black Demon Race seemed to have lost his mind, and his body was completely engulfed by the white smoke in his crazy laughter.

The milky white smoke engulfed the corpse of the Black Demon Warrior. After a while, the smoke receded, and the flesh and blood of the Black Demon Warrior was gone, leaving only a pale skeleton!

This scene is horrible, and all the hairs on the body are exploded!

Who could have imagined that a warrior of the Black Demon Race in the Yin-Yang realm fell like this, just a blink of an eye, he has only one bone left!

"How could this be?"

Someone asked in a hoarse voice that the appearance of this scene was illogical.

Tianshi Mountain has been mined by the Black Demons for thousands of years, but there has never been a similar situation!

"This is a scourge!"

Fang Yue said with a sneer: "You black demons have done a lot of evil, so you deserve to suffer such a calamity!"

"You are pretending to be gods and ghosts of all kinds of scourges! My dark demons have always admired power and respected the strong. There is no so-called scourge at all!"

A warrior at the peak of Yin-Yang realm among the Dark Demon Race spoke, he didn't believe Fang Yue's Heavenly Scourge.

However, his voice had just landed, and a red whirlwind was already whimpering, swallowing a comrade next to him in an instant. The red whirlwind appeared suddenly, without any signs, not even the slightest energy fluctuation. !

The warrior at the peak of the Yin-Yang realm in the Dark Demon couldn't help frowning. This scene was beyond his cognition!

Even if the supreme powerhouse appears in the dark, it is impossible to use the whirlwind without any signs!

The rustling sound then rang from the air, and the red sand fell from the sky and covered the ground!

This red sand was transformed by the corpse of the warrior of the Black Demon who just swept away. The red was blood, and the white was powder ground from the skeleton of the Black Demon!

This scene is quite terrifying, shocking, and frightening!

"This is a curse! This is the curse of the mysterious door!"

A warrior of the Dark Demon clan suddenly yelled frantically, as if he had lost his mind.

"Sooner or later, the truth of what happened back then will be revealed, and all burying is just being smart!"

The voice of this black demon is so loud that anyone within a hundred miles can hear it!

"Hahahaha, retribution is coming! No one can escape the punishment of the reincarnation of the heavens!"

The warrior of the Black Demon clan laughed three times, and then his body exploded in a sudden!

Blood splattered all over the world.

"What happened to Shishan Mountain that year?"

Seeing this scene, even Gu Qiuyun was a little bit shy.

Although he is the second city master of Tianque City, he does not know the past of Yongfeng Town!

"The things of the year have passed! Time has drowned all the truth! All of this is Fang Yue pretending to be a ghost. The old guy in the mysterious door is dead and out of breath. It is absolutely impossible to come back again!"

The Great Sage of the Black Demon Race with black flesh wings on his back roared in a low voice, his eyes were scarlet and bloodshot.

He knew part of the truth about what happened back then. Even the bones of those old folks with mysterious magnetic doors have turned into sand in the dust of the years, and there is absolutely no chance to come back and avenge them!

"We are wronged!"

"We are so wronged!"

A series of quiet voices suddenly appeared on Tianshi Mountain.

A group of silhouettes appeared, they were dressed in ancient costumes, coming from the end of heaven and earth, and appeared in front of the Black Demon Race for a few breaths.

"This is the costume of Xuanzimen!"

Gu Qiuyun took a deep breath. Although he was ignorant and unskilled, he still had some understanding of the mysterious door that had left the immortal heritage in Yongfeng Town back then!

"Isn't the people at the mysterious door extinct? They obviously have been completely wiped out that year!"

Even more nervous than Gu Qiuyun is the black demons with black wings. If the mysterious door is not dead, they will investigate it, and the truth of what happened back then may be opened again!

If that were the case, it would be a catastrophe for the Black Demon Race!

The things that the Dark Demon Race did not honorably, if it were spread throughout the underworld, there might be many big figures of the Dark Demon Race who would apologize with death.

"Since you were not dead, I will send you to the West today!"

The Black Demon Race with black flesh wings suddenly took action. He didn't care about hiding himself, and a large handprint of several acres fell from the sky, shooting down at those figures wearing mysterious costumes!

He was so cruel that he wanted to slap everyone into mashed flesh!

The palm shadow fell, and the figures in mysterious costumes disappeared, as if they had never appeared in this space before!

"Can't help but shoot so soon? It's a pity, this is just a trick left by the people of the mysterious door! This is a projection left by them in the past. Although lifelike, it does not mean that they are here again. World!"

Fang Yue sneered, mocking the black demon with black flesh wings on his back.

His gaze swept down, the clouds in the sky disappeared, and Gu Qiuyun's figure was exposed!

"I didn't expect you to have a part in killing Gu City Master this time. Why? I feel that the people from the Law Enforcement Department can't kill me. Have you pinned your hopes on the Black Demon Race?"

"Fang Yue, you are doing evil to destroy the friendship between the human race and the black demon race for many years. The world is punishable, there is no place for you to stand in this Tianque city! This time I will join forces with the black wing master of the black demon race to do you. The scourge is removed, and the friendship between Tianque City and the Dark Demons is restored!"

Gu Qiuyun said without embarrassment, he said his thoughts.

When Fang Yue heard this, he felt an extremely absurd feeling in his heart. When did the unbreakable friendship between the Black Demon Race and the Human Race begin! It is difficult to say that there is a shameless lord in Quecheng on this day.

"Don't stop me, I want to kill this Gu Qiuyun! I waited to fight hard to fight against the Dark Demons. I didn't know the strong Tianjiao, just to fight for the right to speak among the ten thousand races for the human race, but this Gu Qiuyun actually asked the seller Rong, he took refuge in the embrace of the Black Demons. He also said that this is the friendship between the Human Race and the Black Demons.

Shit, the hatred between the Human Race and the Black Demons is not shared. When did he have his so-called friendship?"

The mosquito man's heart was furious, he had seen shameless, but he had never seen such shameless before.

Let this Gu Qiuyun become the second city master of Tianque City, this is simply a shame to the human race!

"Gu Qiuyun, interesting, hahaha, so interesting!"

Chen Pingping's eyes also contain endless murderous intent! Although she can't understand Fang Yue, as a member of the Human League, she is jealous and extremely loyal to the Human Race. She never thought that there would be such a shameless City Lord in the Human Race!

Originally, Chen Pingping looked at Fang Yue not pleasing to the eye, but now, Chen Pingping hopes that Fang Yue will quickly kill this brazen Gu Qiuyun. The appearance of such a city lord in the Human Race is a shame to the entire Human Race! If he doesn't die, how can he behave like this!

"City Lord Gu Qiuyun, what you said is really awe-inspiring! If you follow your train of thought, I occupied the Tianshi Mountain of the Black Demon Clan before and also ambushed the Black Demon Clan in Sansheng Peak, and defeated them. I should not apologize with death and ask for forgiveness from the Dark Demons!"

Fang Yue laughed in anger. Although he didn't have much sense of belonging to the Human League in the underworld, he had a very strong sense of belonging to the Human Race!

Gu Qiuyun's blatant betrayal of Human Race's interests has already touched Fang Yue's bottom line.

"If you don't die, you will arouse the anger of the Black Demon Race, when the Black Demon Race's army will attack the city, who will bear this responsibility?"

Gu Qiuyun righteously accused Fang Yue: "In recent years, through negotiations with the Black Demon Race, I have finally made the Black Demon Race promise that within ten years, I will not invade the land of Tianque City. Since you came, all the mischief was to kill me. Years of hard work and sweat have ruined the peace and future of Tianque City. Do you know how unforgivable sin you have committed?"

Gu Qiuyun's voice became louder and louder!

His accusation from Fang Yue was also sonorous and powerful.

The more he talked, the more tragic and strong he became, saying that he was like a human hero!

Fang Yue was about to be amused by this Gu Qiuyun.

"How did you exchange for this short-term peace? Are you relying on betraying the interests of Tianque City? Your great City Lord Gu, in order to win the favor of the Dark Demon Clan, every year, he sends a thousand people from Tianque City to the Dark Demon Clan as a black The blood food of the demons, there will be a large number of missing people in Tianque City every year, part of it is the short-term peace given to the black demons by your Gu family, and part of it is sold by you to human traffickers for huge benefits! Not only that, On this day, 30% of the tax revenue in Que City was given by you to the

Dark Demons! This makes the Dark Demons more powerful and the resources for cultivating younger generations are more abundant, and the resources for cultivating younger generations in Tianque City are almost exhausted, which makes many Talented, talented, and qualified young practitioners have no resources to practice well, and can only become mediocre people!"

Fang Yue has records of Gu Qiuyun's actions over the years in his hands. When he saw these records, he almost wanted to tear up Gu Qiuyun immediately.

Countless strong men of the Human race fought bravely on the front line, throwing their heads, and sprinkling their blood in exchange for the results that Gu Qiuyun gave to the Black Demon Race.

Such a person is not as good as the city lord of the human race, even a pig or dog of the human race!

There was no shame on Gu Qiuyun's face.

Chapter 1899: Ended

"Fang Yue, what's the use of what you said? Do you know that my intentions are very good, and you know that I am a poor man, and I have only exchanged for the rare years of peace in Tianque City! Although I will spend a thousand days in the city every year The inhabitants of the black demons were given blood food to the Black Demons, but this prevented more casualties and more lives in the city of Tianque!"

Gu Qiuyun is plausible, he praised himself as a hero!

"The reason why the human race has been poor and weak for years is precisely because there is someone like you who sells the lord and asks for glory! If the human race fights with the dark demons with all your strength, you may not lose, but if someone like you is the leader of the human race, the human race will definitely On the road to decline!"

Fang Yue snarled, he was angry at Gu Qiuyun.

A cold smile appeared on Gu Qiuyun's face: "Hahaha, no matter what you say, you can't leave this stone mountain today anyway! All the saints of the Black Demon Race have come, and there is a great saint with Black Wings. The realm-level powerhouse personally suppressed the formation, Fang Yue this time you are hard to fly, and for you, a dying person, I don't bother to care about what you say to me!"

Gu Qiuyun's attitude became more and more public.

Fang Yue sighed softly: "Gu Qiuyun, do you really think I didn't know what happened to the Law Enforcement Department before that you were tricking things in secret? Didn't I know that Tianshishan was a great feast this time?"

"I dared to come to prove that I have the confidence to win, but it's a pity! Such a big net only nets a large holy realm-level black demon to become a big fish, it is really a pity!"

Fang Yue's voice fell, and at the same time he stomped lightly.

The entire Tianshi Mountain was lit up, and the lines criss-crossed into an ancient array pattern.

The world is dim, and the stars appear.

The day suddenly turned into the eternal night!

The surrounding world is self-blocking and turned into an independent world!

Whether it was Gu Qiuyun or Hei Yi seeing this scene, their faces became difficult to look. They had realized that they had fallen into Fang Yue's plan to invite Jun to the urn.

"Fang Yue, what the **** is going on?"

Gu Qiuyun roared and roared, and he found that a strange seal had formed in his Dantian, which directly sealed his cultivation to the level of the master realm. It's not only the Black Wings of the Dark Demon Race and other saint-level powerhouses, their cultivation is all sealed, only the power of the leader level!

"Do you still remember what I said just now that the essence of this Tianshi Mountain is transformed by a meteorite from outside the sky? This suppressing cultivation is one of the effects of this meteorite from outside the sky! Gu Qiuyun, you don't know, but the darkness around you Wing should have heard of it!"

The ridiculous smile at the corner of Fang Yue's mouth grew richer, and this smile filled the hearts of Gu Qiuyun and Hei Yi with an unknown premonition.

"Heiyi, do you know the origin of this Tianshishan?"

Gu Qiuyun looked at Black Wing, but Black Wing was not even interested in paying attention to Gu Qiuyun.

Hei Yi's eyes stared at Fang Yue closely: "Fang Yue, how could you know what happened back then? There are some details, even me!"

Fang Yue smiled and said: "There is reincarnation in the way of heaven. You, the Black Demon Race, carried out the annihilation of the mysterious gate back then, thinking that everything will be submerged in the dust of the years and no one will mention it again, but you did not expect that, Xuan When the magnetic gate was finally destroyed, someone took his own spiritual thoughts and memories, so that people who came later could know the truth of what happened back then!"

"Impossible. When the Black Demon Clan destroyed the mysterious door, I had thoroughly inspected every corner of the entire Tianshi Mountain inch by inch to ensure that there would never be any traces of the mysterious door left on Tianshi Mountain. "

Black Wing retorted with a fierce expression!

He believed that the ancestors of the Dark Demons would never be so sloppy when doing things, letting go of the slightest clues and traces.

"The things the ancestors of the Black Demons did were really clean, but have you ever imagined that part of the stone mountain in this sky has been opened and removed by the mysterious door and became a stone monument in Yongfeng Town? This stone monument has survived to this day, and it

was erected. At the gate of Yongfeng Town, as long as someone infiltrates it with powerful mental power, the truth of the year will naturally emerge."

"The truth of the year will soon be revealed to the world, you black demons are waiting to be judged by the world! Who would have thought that your black demons would collude with the outer demons for their own selfish desires, and would not hesitate to release the outer demons suppressed in this outer meteorite, also We must destroy the mysterious gate! The outer evil demon is the great enemy of the entire underworld. Ten thousand tribes fight internally, but when encountering the outer evil demon, you must follow the old rules to unite and fight against the enemy!"

Fang Yue's voice was sonorous and powerful, like a collision between gold and stone, his voice and words were trembling, making people tremble.

"It's crazy! This Tianshi Mountain is Tianshi Mountain. How can it be connected with the evil demon outside the sky, and what does the mysterious magnetic door have to do with my black demon clan when it evaporates overnight?"

Hei Wing strongly argued that he wanted to separate himself from the evil demon.

Fang Yue snorted coldly: "How could you Black Demons learn the martial arts of the Human Race without the help of the evil demon? And what will happen to the Human Race that Gu Qiuyun sent to you? You know better than me in your heart! What they have become? The blood food of your Black Demon Race has become a sacrifice that you used to sacrifice to the evil demon in exchange for Martial Soul. I think Lord Black Wing, you know better than anyone else!"

Fang Yue's words made Hei Yi's face pale! Of course he knew that Fang Yue's words were true, but he didn't expect that the fact that their Dark Demon race tried so hard to cover up would be so easily seen through by Fang Yue and still see so thoroughly!

"Fang Yue, you know too much! The more you know, the faster you will die?!"

Heiyi no longer quibbled, he murmured and wanted Fang Yue to die!

The Black Wings' collusion with the evil demon outside the sky must not be revealed! Once leaked, it is tantamount to pushing the entire Black Wing Clan into a situation where it is impossible to recover.

"The Black Wings colluded with the evil demons outside of the sky, and their heart is cruel! No wonder they have developed their wisdom in recent years and have the ability to practice martial arts of the human race. I originally thought that rare talents and arrogances appeared in the black demons. I did not expect it to be them. It is caused by colluding with the evil demon outside the sky, and relying on the sacrifice of my human beings in exchange for Wuhun!"

The Mosquito Man's heart was full of hatred. He did not expect that there would be such traitors and scum among the human race. He would sacrifice his tribe to the black demons and let the black demons sacrifice the human race in exchange for martial souls. This behavior is simply better than Betraying the human race is even more hateful!

"It's hard to tell what happened back then. Some of the truths are not as simple as you think, including Fang Yue who just saw the tip of the iceberg. Just watch the development of this matter and don't rush to a conclusion!"

Chen Pingping wanted to say something but stopped, and finally a complicated look appeared on her face. She knew more things than the mosquitoes, including those things that happened in the past. She didn't want to say more about the past because it was so involved. , The invasion of the evil demon from the outside world is a boundless catastrophe for the entire underworld, involving not only the human race, but also many other ethnic groups.

If you study it carefully, even some old antiques will turn out the old bottom. If that is the case, the human race will suffer an unimaginable disaster!

For the safety of the human race, Chen Pingping would rather hide some things in his heart.

However, Chen Pingping did not dare to tell the truth, but Fang Yue was never busy!

He wants to use this opportunity to make the Black Demon vomit blood, and even Gu Qiuyun, the Lord of the Second City, cannot escape the relationship!

"Fang Yue, do you really want to poke the sky into a hole? You know, that incident was definitely not the decision of my Black Demon family! If it is really involved, even some of the top ten races The big people will also be involved. When that happens, let alone you, even the entire league behind you will not be able to eat them!"

Hei Wing said sharply, he still didn't want to make things happen.

If he could calm things down at this stage, he would be considered a great contribution to the Dark Demons.

"Do you think I will accept your threats?"

Fang Yue's smile became more and more weird, "I have finished the game, and I am waiting for you to jump!"

"I am a strong man in the Great Sacred Realm. Even if the cultivation base is suppressed, only the level of the leader realm can be killed at you! Whether it is the understanding of the Tao or the combat experience, you are not my opponent!"

Heiyi decides to take the initiative, if he remains passive, he will be led by Fang Yue! Only when you choose to take the initiative can you get the first line of life!

The black wings stretched out their wings slowly, and the wings spread out to cover the sky!

The huge double wings shrouded all around and turned into two black whirlpools, the whirlpool scrolling, and the wind whistling.

A phantom of the demon **** slowly emerged behind Black Wing, the phantom of the demon **** could cover the sky, his pair of cold eyes scanned the surroundings!

"Fang Yue, do you know how exquisite the human martial arts is, it is a great tarnishment to fall into the hands of your humble reptiles!"

Black Wing's voice was cold, with a hint of sarcasm in it, "This is the great **** and devil of your human race who can burn blood and evolve the shadow of **** and devil! I suppress Bafang with the power of **** and devil, can you have the power to fight?"

The breath of Black Wing broke through the suppression of Tianshi Mountain and rushed to the level of Saint Realm for a short time.

The power of this saint did not originate from Black Wing itself but the majesty generated by the ghost shadow he summoned!

"Human martial arts communicates with all worlds and summons gods and demons. This great **** and demons evolved from this. It condenses the power of gods and demons, distorts the changes in time and space, and affects the rules of Hunyuan. It is an extremely delicate martial arts. Cultivating to the level of the Dacheng Realm, it is even comparable to a talented magical power in my Dark Demon Race! In the hands of your human race, jewels and dust, falling into the hands of my Dark Demon Race can carry forward!"

Black Wing laughed, he was Chi. Naked and humiliating the human blood talent.

Fang Yue's complexion remained unchanged, and he was not surprised. He had already expected such a scene.

Chapter 1900: Backhand

"Human martial arts is indeed vast and vast, and it contains the hard work of countless human predecessors! However, although your black demon race is slightly better than my human race in terms of bloodline talent, you are still at the surface level in terms of martial arts enlightenment! Do you know that the origin of this great God and Demon Judgment, if I expected it to be true, it should be the birth of the era of prosperous witchcraft, witchcraft pays attention to transactions, and sacrifices in exchange for powerful power! Later, witchcraft In decline, some people transformed this great **** and demon into an exquisite martial arts! But even so, the essence of this martial arts is still a witchcraft, pay attention to trading and balance, you will summon this ancient **** and demon to fight for you , And you haven't offered any sacrifice transactions, this ancient **** and demon will use your flesh and blood as a sacrifice to enjoy! You can feel your faint pain in the three positions of Tianque, Temple and Baihui Can you feel that every time you cast this great God and Demon Jue, after a short period of strength, there will always be a kind of weakness of blood loss?"

Fang Yue didn't want to fight, and only communicated with Black Wing verbally.

Hei Wing's face suddenly gave birth to a hurried look, what Fang Yue said seemed to be really reasonable!

"How is this going?"

Black Wing instantly lost the thought of fighting and killing. What kind of race is thriving, what is the future overall situation, in the face of life and death, all become no longer important!

"What's going on? Naturally, you have a problem when you practice martial arts. The great **** and devil you cultivate should be incomplete. In addition to the martial arts chapter, there should be a sacrifice chapter, a warm-up chapter and so on. It's easy to break after passing. Although this great God and Demon Jue is brave, it has fatal shortcomings. Otherwise, Human Race Tianjiao will come out in large numbers, and there is absolutely no shortage of smart people, but they put this great God and Demon Jude on the shelf, and there are few practitioners!"

Fang Yue's words are like needles, poke the key.

Hei Wing became more guilty, and even his breathing became heavy, fluctuating!

"No, this is not true, these are all forged and fabricated by you! You are destroying my Dao Xin, and you are affecting my belief in fighting! How can such a subtle martial arts have such obvious flaws!"

For a while, Black Wing collapsed a little, he yelled frantically and hysterically, he didn't want to admit this fact.

The martial arts of the human race is so exquisite, every move and every style contains Taoism, these days, he is already a little immersed in it, and even he uses this big **** and devil as his trump card at the bottom of the box.

And Fang Yue's words are subverting his cognition and annihilating his hope!

This made Black Wing's heart become irritable!

"Nothing is impossible! In this world, a peck and a drink is a fixed number! You colluded with the evil demon in the past to conquer my human martial arts, and now you suffer from the malpractice of this human martial arts backlash is the cycle of cause and effect, and retribution is unhappy! If I were you, I would choose to disperse all the martial arts learned from the human race and concentrate on studying the bloodline techniques of the Black Demons. If this is the case, it can be regarded as a righteous way, at least one can avoid a disaster, otherwise, come Once the martial arts of the Japanese human race is completely backfired, you will go crazy and die!"

Fang Yue loyally advised, but this Black Wing didn't put Fang Yue's words into his ears at all.

"Impossible! These are all you lie to me! My Black Demon Race has martial spirit possessed, and can perform various martial arts without any drawbacks!"

Hei Wing muttered to himself, his face changed drastically in an instant.

The phantom of the gods and demons behind Black Wing suddenly twisted and turned into a huge demon figure. The demon's figure revealed a breath of hell, boundless and deep, boundlessly terrifying!

"The gods transform into demons and exterminate all living beings! No matter how frankly you are today, Fang Yue, I will kill you!"

Black Wing is almost crazy!

He roared loudly: "Ahhhh! I'm going to kill you!"

Heiyi performed extermination moves in the roar, and crosses rushed out frantically from the body of the ghost shadow behind him!

Every cross is so big that it covers the sky, and the huge cross falls down suddenly, almost capable of tearing the world apart and destroying rivers!

However, Black Wing's voice has not yet dispersed, and the crosses have dispersed out of thin air in the void.

Fang Yue stretched out a finger and pointed at the sky, the space around him solidified, making it impossible for those crosses to break through, and eventually the power dissipated and disappeared!

"If you are still at the pinnacle level of the Great Sage, it would be easy to kill me! But now, you don't even have the level of the Saint Realm, and in my eyes you are nothing more than a chicken! Don't do a dying struggle! Fate! It has been written, and the ending is clear. The moment you step into this stone mountain, it is impossible for you to go back!"

Fang Yue's voice was indifferent, like a judgment from heaven.

There is no emotion in every word, but every word is causing a devastating blow to the black clothes!

"Exterminate all beings!"

Fang Yue didn't take another shot at Hei Wing. In his body, red blood runes burst out.

Each rune flew towards a warrior of the Dark Demons as if it had its own mind.

In a blink of an eye, hundreds of soldiers of the Black Demon Race were already shrouded in blood runes, unable to get out!

"Fang Yue, what is your method?"

Hei Yi was horrified, and he discovered that Fang Yue's methods were endless, which had exceeded his understanding of Human Race.

The warriors of the Dark Demon race have hands and feet, and they are all powerful at the Yin and Yang level. According to the truth, it is easy for them to escape the envelope of this rune.

However, these blood runes seem to have some magical power, like bone-enclosed maggots, and the ghosts are not scattered. No matter how the warriors of the black demon race dodge, they will be chased by these runes, even if they are the martial arts of the warriors of the black demon race. No matter how high the achievement is, you can't escape the chase and cover of these runes!

"This is the oldest sutra among the human race!"

Fang Yue said softly: "Human martial arts are unpredictable and evolve in thousands. What you see is just the tip of the iceberg! One thought of life and death, one thought of grievances! Since you come to this stone mountain and want to kill me, then Use your death to pay for the heinous sins you committed!"

Fang Yue's voice fell, and the blood runes came to light one by one. All the black demons who were enveloped by the blood runes collapsed physically, and the blood flowed back, turning into streams and poured into the runes!

The red light on the blood rune is getting stronger! It's as dazzling as the sun!

Fang Yue's mouth opened, and the runes poured into Fang Yue's mouth as if they were the sea of Baichuanhui!

Rune refining, disappear in an instant!

There is only a stream of life essence left to warm Fang Yue's flesh and blood!

Heiyi's face is as gray as death!

This Fang Yue is simply a demon **** who descended into the world. If he hadn't been suppressed by Tianshi Mountain, he would be able to advance and retreat at the very least. Even if he was invincible, there would still be no problem to escape from his birth!

But now his cultivation base is sealed, and only the master-level combat power is left, even if it is to mobilize the Great God Demon Jue, it is not Fang Yue's opponent!

"The seal of heaven and earth, the five elements of gossip, the sun, the moon and the stars, the stars are moving!"

Fang Yue made four handprints one after another, and each handprint contained endless mystery. The four handprints combined with each other and transformed into the Suzaku, Xuanwu, Azure Dragon, White Tiger, and the four elephant beasts. They evolved out of thin air, each with majesty.

Four elephants surrounded the black wings, and the black wings struggled like a trapped beast in a cage.

However, the four elephant beasts showed their magical powers to suppress the black wings, the red bird bathed in the fire, the green dragon spit out beads, the white tiger carried the corpse, and the basalt camel stele. Various visions were staged, swelling the black wing's nose and face without the slightest temper.

In the end, Black Wing's cultivation base was completely sealed, and even the realm of a warrior was no longer there. The four elephants turned Black Wing's body into a marble size, turning it into a stream of light and falling into Fang Yue's hands!

The surrender of Black Wing by Fang Yue means that the overall situation of this battle has been determined.

Although other people's cultivation is not weak, they will definitely not be Black Wing's opponent.

"Fang Yue, let go of the Black Wing and everything can be discussed! Otherwise, your kidnapping of the powerful in the Great Sacred Realm of the Black Demon Race will immediately be a catastrophe!"

Gu Qiuyun threatened Fang Yue, his voice trembled, and his thoughts turned overwhelming.

The situation in front of him was changing too fast, and he felt like a world away, like a dream and illusion.

They obviously set up all kinds of ambushes, so why did Fang Yue take the initiative to fight back?

"What a catastrophe, isn't it that the Black Demon Race is coming down the city? Do you really think that I have killed a few saints and a few great saints, this Black Demon Race will really do it immediately at any cost? Don't worry! No! Yes, the greater the number of these strong people, the larger the territory occupied, the richer the resources they occupy. This is the default contract between the ten thousand races, and an eternal agreement! This dark demons is here. The region is much stronger than my human race, their territory is vast, and their resources are abundant! However, around here, there are not only the two races of the Dark Demons and my human race. The Thunder Titans are eyeing their eyes, and if the Dark Demons dare to send troops. The human race, the Thunder Titans, will never let go of this opportunity for the snipe and clam! And his races, big and small, also have territories such as the orcs, such as the ocean races, and the strength of these races is not weak. , At least it can cause enough danger to the Dark Demon Race. After repeated battles, the Dark Demon Race has already lost one after another. This time they have lost a great sage. The background of several sages is weakened. The vast territory that they are proud of will become the root of their disaster! There are no eternal friends among all races, only eternal interests! Loyalty is only because the bargaining chip for betrayal is not enough!"

Fang Yue quoted the scriptures to explain the situation to Gu Qiuyun.

Of course, Gu Qiuyun was already a dead person in Fang Yue's eyes. Fang Yue's words were not for Gu Qiuyun, but for the mosquito man and Chen Pingping who were hiding in the dark nearby.

Both the mosquito man and Chen Pingping nodded after hearing Fang Yue's explanation!

Fang Yue's words are not bad and they are justified.

This means that Fang Yue's move was not a momentary impulse, but a long-standing plan!
