

## God of Life 191

### Chapter 191: A sensation

The strong man at the pinnacle of rotation is his close relative. He grew up looking after him, but because of his injuries, he has always been unable to make progress, making it difficult to take the most critical step!

I thought that he would sit down.

But this super Jiazi Shendan made him see new hope.

Sixty years have passed, and many variables can be added!

The number of 1.3 million high-grade spirit stones shouted, shocking many people!

1.3 million high-grade spirit stones, this is already a very high price, even in the city of gold, you can buy a good mansion!

Let alone Fang Yue, Sima Xiao, young people like Sima Xiao who are still in the innate realm, most of the world realm experts sell all their belongings, and they may not be able to make up this number of spirit stones!

"One and a half million high-grade spirit stones! You are buying it for others, and the old man is buying it for yourself!"

Master Yifan spoke with a faint voice. Increased the price again by 200,000 high-grade spirit stones!

"One hundred and eight hundred thousand high-grade spirit stones! Taiyi Church can't come here in vain. This Baicao Liquid can only be regarded as an addition! This super Jiazi Shendan is my real goal!"

Wang overbearing once again demonstrated the great wealth of Taiyi Church.

When he spoke, everyone else hesitated and did not increase the price again.

This super Jiazi Divine Pill, for Master Yifan, although useful, after all, it is 60 years of life, no one is too much.

However, if the price paid is too great, it is not worth it! After all, he is still seven or eight hundred years away from the exhaustion of his life. Without the kind of oppression that lives toward death, he would naturally look at prices more rationally.

Carl does the same.

For a pill, it is not worth spending too much.

If his elder wants to continue his life, there are other ways.

In the end, the super Jiazi Shendan was sold by Wang Domineering for 1.8 million high-grade spirit stones.

The entire Vientiane Pavilion was immediately sensational!

Before, the crystal that was still being watched by thousands of people immediately looked dim.

Compared with Shouyuan, all other magic weapons are nothing!

Wu Jian was pale, and all the lost rompers were dropped. The arrogance before has become a brutal violent eye!

"Damn Sima smile, \*\*\*\* Fang Yue, you two wait for me!"

However, the crowd was crowded.

Wu Jian was quickly squeezed into a corner.

Sima Xiao also gradually withdrew from the spotlight. Leave the position to Fang Yue!

"Little brother, it's not easy to come to God City once, why don't you go to Tianfu Pavilion to accompany him to drink two cups?"

Overbearing Wang walked to Fang Yue's side with a grin, an arm thicker than Fang Yue's thigh carried Fang Yue's shoulder!

He and Fang Yue called brothers and sisters, and there is no such arrogance that the strong treat the weak, and some people cannot calculate their value based on their cultivation level! For example, Master Yifan, although he is the pinnacle of the rotation realm, in the world of practitioners, he definitely has the status of the leader!

So is Fang Yue!

His value cannot be calculated based on innateness, but compared with Jiazi Shendan.

Being able to refine the Jiazi Divine Pill, its position in the world of cultivators is at least a rotation level. And he is a thousand times rarer than the ordinary rotation realm! Therefore, even if the king is overbearing, he needs to surrender his status and win him in!

"No problem, brother, prepare the table, and I want to talk to you!"

Fang Yue didn't refuse, and he really became a brother with Wang domineering. At the same time, Fang Yue took out a small can of Baicao Liquid from his storage belt.

"There are three hundred and sixty drops of herbal liquid in it, you take it, and go back to the younger generation, it is my heart!"

Fang Yue was also very generous, and sent out a jar of 360 drops of Baicao Liquid. This thing is not something that Lingshi can measure, because it has a price but no market. The problem is that Fang Yue exclusively produces it, and you can't get it if you have money!

"shameless!"

Seeing Wang Badao, the five big and three rough guys, was the first to run out to approach Fang Yue, and the others couldn't sit still!

"Little brother Fang Yue, he is a great talent! You and I are destined, so you can move around more in the future!"

After all, Master Yifan is a master, and he felt a little numb when he praised Fang Yue, but in the end he had to say a few polite words to defeat him!

"A talent? How do I feel that he is a scumbag with a bad stomach?" Sima smiled with a strange expression. He knew some deeds of Fang Yue quite well, and was deceived and deceived and did everything. Killing people and surpassing goods, and even being a trafficker, sold all the disciples of all families! Fang Yue almost wrote the words I am a bad person on his face, but there are still people who think he is a talent?

It's simply fake, it can't be fake again!

Master Yifan thought he was out of play.

But unexpectedly, Fang Yue ran over!

"Master Yifan, the juniors have admired you for a long time! I really hope to have the opportunity to get the guidance of the master! This is a little respect from the juniors, and I hope the master can accept it!"

Fang Yue didn't pay much attention to it. He grabbed a red brocade box from under Sima Xiao's auction table, then took out a potion from his storage bag, stuffed it in, and handed it to Master Yifan.

Master Yifan frowned slightly. Fang Yue's courtesy made him very useful, but this gift is a bit too much!

Just grabbed a box and stuffed a panacea, would you want to buy me?

Who do you think of Master Yifan?

Just when Master Yifan was hesitant to take it over, Wang jumped out in a bullish manner.

"If Master Yifan dislikes it, then give me this elixir! Give you this pot of herbal liquid, and you can reward your disciples well when you go back!"

Wang overbearing said, reaching out to grab it. But Master Yifan stretched out his hand and subconsciously took the brocade box into his arms.

He opened the brocade box and looked intently, and he couldn't help but breathe in, and his eyebrows were happy.

This is actually a 500-year-old earth spirit fruit.

Don't look at its age as the 3,000-year-old ginseng that Sima laughs, but if it is auctioned, the price will be higher!

Because different types of elixir have different effects.

The earth spirit fruit is a treasure for prolonging life, regardless of realm, after refining, it can be transformed into lifespan.

Earth Lingguo, for every 100 years of medicinal properties, it can prolong life for five years!

A five-hundred-year old fruit is equivalent to a twenty-five-year longevity!

After seeing the earth element fruit, people couldn't help but breathe a sigh of relief. For the celebrities and great powers, the preciousness of this earth spirit fruit is even higher than the Jiazi Shendan!

Because, although Super Jiazi Shendan has a better life extension effect, it has no effect on them.

However, this Earth Origin Fruit, regardless of the realm, even the saints will have 25 years of life to increase!

"Good, good! You can teach you! I think you are innocent, strong, full of blessings, and you will have extraordinary achievements in the future! In the future, I will discuss with your peers, what will happen in the future, you I can talk about it!"

Master Yifan's eyes are going to shine!

This meeting ceremony can be said to be delivered to his heart!

Seeing that both Master Yifan and Wang overbearing had benefited, even Karl and Keynes couldn't help coming over! This Fang Yue has great potential, and he can refine so many life-sustaining elixir. In the future, it may be useful to him.

"The appearance of the little friend makes me miss the appearance of the old man. You and I hit it off right away. If you go to the Western Military Region, you can come to me! I will definitely let the little friend play and eat!

Carl also spoke shyly.

Obviously he belonged to the faction of the Wu family, but at this time he rebelled and unexpectedly ran over to make friends with Fang Yue.

"It must be! These eighty-one lightning pills are no respect! I hope Lord Carl can laugh at it!"

Don't say anything about Fang Yue, but there are too many pills!

Those that extend life, add spiritual roots, and packages.

Many friends and many paths. Fang Yue saw the Fang family's attitude towards him in the past few days. He felt that the Fang family was unreliable, so he wanted to take advantage of this opportunity to feel for another backer!

Carl took the lightning pill, and his heart was also hearty. The more he looked at Fang Yue, the more pleasing he was, and he felt that this young man was sensible!

Keynes also greeted a few words and got eighty-one lightning pills. His heart was full of joy, and Fang Yue's favor immediately burst!

At this time, even Li Si and Sima Shan in the conference room could not sit still!

Sima Shan came over, patted Fang Yue on the shoulder and said, "Good friend! You can get in touch with my Sima Xiao!"

Sima Xiao saw the old man at home, and actually hid in the conference room, seeing him in a hurry, and then didn't come out to help! Sima smiled repeatedly and grinned his teeth and said: "Old dead man, are you waiting to see my joke? The cat won't come out to help me by the side!"

Sima grinned his teeth with hatred.

And Sima Shan simply ignored this little bastard!

The purpose of his coming out this time was mainly to win over Yixia Yue.

An excellent alchemist who is so young and has a bright future is definitely worth the investment!

Fang Yue climbed up the pole, yelling respectfully one by one. This made Sima Shan laugh, stroking his beard and sighing. This Sima laugh is not only a mess, and occasionally, he can make some valuable friends!

Li Si also came to courteously. Compared with those expensive pills and treasures, he valued Fang Yue more. An alchemist who can continuously make pills is a golden rooster who can lay eggs! If you don't win, I'm sorry for his position as the director of the Vientiane mezzanine floor!

"The auction proceeds from the two exhibitions are all owned by the auctioneer himself! My Wanxiang Pavilion absolutely does not draw a piece of spiritual stone!"

Li Si's decision was abrupt, but it was reasonable. For the Vientiane Pavilion of the God City, the amount of hundreds of millions of spiritual stones and flowing water was not actually a huge amount!

How much can you get even if it is a rake? Twenty to thirty million Lingshi heads!

But if it is used in exchange for the goodwill of the Sima family and the Wu family, and even the goodwill of a promising alchemist, then their Wanxiang Pavilion has made a lot of money!

"Master Li Si is really polite! My imperfect Sima Xiao still needs Master Li Si a lot of training!"

Sima Shan was a treacherous and cunning man, and before Sima smiled, he was responsible for this favor for the Sima family.

Wu Sansheng from the Wu family also walked out and gave Li Si a fist slightly.

In fact, the goal of the Wu family this time has been achieved. Release a signal to tell the family of God City that their Wu family has obtained the right to mine the world of flames.

As for the winning or losing of the final competition in the auction, it is not too important. Those are things that children need to pay attention to. As a famous star, Wu Sansheng has a higher vision!

## **Chapter 192: Long-term cooperation**

"Master Li Si, you are so kind! In the future, I will need to consign some things in the Vientiane Pavilion, and I hope Master Li Si will take care of it!"

Fang Yue smiled. The Vientiane Pavilion of the God City is the Vientiane Pavilion of the God City, and the Vientiane Pavilion of the Yandu is the Vientiane Pavilion of the Yandu.

Fang Yue would not confuse the two and bring some personal grievances into it.

Being able to handle it clearly is the real mature performance.

With Fang Yue's opening, Li Si was immediately surprised, and even the crow's feet appeared from the corner of his smile.

"Good cooperation! Good cooperation! In the future, the little brother Fang Yue will consign things in my Wanxiang Pavilion, and all will only collect half of the handling fee!" "Thank you, Mr. Li Si! We might as well make a small agreement for this consignment. ! For the next three years, I will auction three thousand drops of Baicao Liquid, ten sets of lightning pills, eighty-one in each set at the Wanxiang Pavilion in Shencheng every month! There is also a super Jiazi Shendan, I will also send one half a year Pieces, then

Now, Lord Lawless! "

Fang Yue spoke.

Li Si is simply ecstatic!

The benefits of this long-term contract are much better than two auctions!

The price of these three medicines is not important. What is important is that they are scarce and even unique. what is this? This is a live advertisement!

It can attract a large number of people to come every month, not only to buy these medicinal pills, but also to take a look at the other products of Vientiane Pavilion!

"This Fang Yue!"

Di Yi's eyes flowed, and his face smiled and cursed.

He knows Fang Yue's situation and status in the Fang family best!

Now is the time to find a thigh to hug tightly.

If you ask grandpa to tell grandma, or ask for gifts or something, people may not really work for you.

But if you are tied to the interests of others, then the other party will not make any losses to his own interests, and will not easily cause Fang Yue to have problems!

This contract is to give birth to common interests between Fang Yue and Shencheng.

Apart from other things, at least after these three years, those people would like to use some trivial circumstances! Congenital! Little people like that come to harass Fang Yue. Then you need to weigh the weight of the Vientiane Pavilion behind it!

Fang Yue is proving that he can live without the protection of the Fang family.

And he really succeeded!

Di Yi could see this, and Fang Shisan could naturally too!

At this moment, Fang Shisan looked at Fang Yue, who was surrounded by Star Pengyue, and he was almost regretful!

I knew that Fang Yue had such a profound knowledge in alchemy. Even if he paid for it himself, he had to buy a team of guards to provide for this young master!

Now, it's too late to say anything!

After an exhibition, Fang Yue wants the wind to get the wind and the rain to get the rain. It has become the focus of attention of many forces.

Fang Shisan didn't even know where to win Fang Yue.

For the spirit stone, for resources?

People may not be eye-catching!

Fang Yue now has a lot of money. The wealth at hand is infinitely less than that of a strong man who has just entered the rotation realm!

Climbing family affection?

This was given up by the Fang family before! Even at Fang's house, Fang Yue could be assassinated, and met eight waves of assassins in three days.

This story sounds funny to Fang Shisan himself! Without the secret promise of those idiots, can those assassins be so arrogant?

As for other aspects.

The Fang family may not be comparable to other families!

Take shame as an example, anyway, he was shameless to call Fang Yue a brother!

He took another look at Fang Yue's information in Yandu, which actually recorded Fang Yue's crude alchemy, and he was quite talented in this regard.

But other than that, there is no other record!

Now, Fang Shisan almost wanted to kill the person who inquired about him!

Your grandma's.

Is this rough alchemy? Blind your titanium alloy dog eyes, okay!

Even the super Jiazi Shendan can be refined, and Fang Yue has already stepped into the realm of the alchemy master with half his feet in the aspect of alchemy!

Fang Shisan had no face to talk to Fang Yue, and left the exhibition hall ashamed.

He did not report Fang Yue's problem to the family because once he reported it, he would push Fang Yue to the more extreme opposite of the family!

The stubborn veterans of the Fang family have high self-esteem. If you think you are a holy and powerful person, you can rebuke Fang Qiu. They don't change the family's business routines. They have a simple pair of fists, but they can't provide the Fang family's billions of heirs.

"Problem boy!"

Fang Shisan glanced at Fang Yue, who was still in the crowd, rubbed his temples, sighed, and left the Vientiane Pavilion.

Fang Shisan is gone. Fang Yue was dragged by the overbearing king to Tianfu Pavilion to relive the past. Accompanied by Diyi and Sima Xiao brothers, Taiyi Sect is the immortal master and has a good relationship with this big power. For their little shrimp, there is only good and no harm! Under Fang Yue's kind invitation, Master Yifan also

Join this ranks.

Fang Yue was still thinking about asking Master Yifan about runes after he was full!

Recently, Fang Yue was also studying runes, but the messy lines inside kept him confused. In this regard, he lacks a guide.

And Master Yifan is the best guide Fang Yue can catch!

Runes are the foundation of Fulu!

Without a deep understanding of runes, it is absolutely impossible for Master Yifan to achieve such a high level of achievement in Fulu!

As for other things, I am very fascinated. After a few words with Fang Yue, he left!

This is the home of the Taiyi Church, they don't want to wait for the face to go together! What's more, Tianfu Pavilion is expensive, and it is a first-class restaurant in God City.

Arrived at Tianfu Pavilion.

An entire restaurant is actually suspended in midair!

Tianfu Pavilion covers an area of tens of acres and is divided into nine floors. Taoism, nine is the ultimate, it seems that the building of Tianfu Pavilion also implies this truth!

The doormen of Tianfu Pavilion, standing on either side of the door, are a pair of golden boys and girls who look very gratifying!

But regardless of the childhood of these two sects, their own cultivation realm has actually reached the ninth level of innate realm!

This kind of breath made Fang Yue feel ashamed. He didn't expect that he was even worse than the doorman of Tianfu Pavilion! Wang Badao seemed to see Fang Yue's embarrassment, and he smiled and said, "Little brothers don't care! This pair of golden boys and girls are different. They themselves are yin and yang Pisces. Living together, they can complement each other and cultivate. The entry is naturally extraordinary! Don't look at Tianfu Pavilion and put them in the door

Mouth greeted the guests, but in fact, Tianfu Pavilion took good care of them both! The daily resource expenditure is not tied to the core disciples of other families in the world! Secretly, there are elder strong men who protect the way for them to avoid accidents! "

When Fang Yue heard this, he gave a sigh of relief, if everyone in the \*\*\*\* city was so perverted.

Then he would just pack up and salute, and go back to his hometown of Plants vs. Zombies!

"Yin and yang make money! Fu Lu is the same! This is also a kind of Feng Shui, Tianfu Pavilion invites such two young talents to put it at the door, not just to put it out!"

Sima Xiao interpreted it from Feng Shui.

Unlike Fang Yue's half-hearted man, Sima Xiao always goes out and out of various treasures and blessed places, seeking opportunities and treasures.

Some so-called treasures are simply the tombs of a certain great man.

If you don't understand Feng Shui funeral studies, I'm afraid Sima Xiao can't even touch the door!

Wang domineering couldn't help but look sideways. He found that he had underestimated the small evil of the Sima family!

Sure enough, he was a direct disciple of the Sima family. Even though he was rejected and expelled by the family every day, there was still a lot of work in his stomach.

"Everyone, let me come in!"

Wang domineering extended his hand to invite.

Master Yifan, Diyi, Sima Xiao, Fang Yue and others entered in file, but Wang Domineering followed. "This Tianfu Pavilion is divided into nine floors! But the level of the guests on each floor is different! The first floor is for ordinary guests, usually in the acquired realm. Often some disciples of the aristocratic family will meet guests here. And drinking! The price of a banquet on the first floor is generally 1888

Between 18 thousand and eighteen thousand and eight hundred and eighty-eight spiritual stones, among them, Linggu Qiongye is all the best. Auxiliary cultivation, treatment of dark diseases, every day someone will break through the banquet and enter a new realm!

On the second floor, entertain practitioners of the innate realm! Among them, delicacies are aimed at congenital repairs! In terms of price, between 38,888 and 93,888, it can nourish blood and regulate the physical body!

The third layer is a banquet for entertaining practitioners of the world. Among them, there are birds and beasts, spiritual flowers and exotic plants, and the price ranges from 360,000 to a million spiritual stones. The price gradient is quite large, but every time the food is provided, it must be a boutique!

The fourth floor is a place for banquets for practitioners in the cycle of life! There are almost every plate of medicines that are more than a hundred years old! The main dishes are often filled with some rare powder of elixirs. The price of a table is between one million Lingshi and Ten million Lingshi!

This time, I am worried that you will not be able to make up for it, so the customized banquet is on the third floor. It is a dragon and phoenix presentation banquet exclusively owned by practitioners of the heaven and earth realm. The price of a table is 7.79 million spiritual stones. get on! "

Wang domineering opened his mouth.

Fang Yue tightened his storage bag.

Originally thought, he was still a little local tyrant. Unexpectedly, the food in the Tianfu Pavilion is so expensive.

He has the bottom line, after a few meals, he will see the bottom!

Sure enough, big cities are big cities. In terms of consumption levels, Yan Du is on the same level as others!

Sima smiled and glanced at Fang Yue and muttered in secret: "I haven't seen the market! Don't worry, Fang Yue, the cost of this \*\*\*\* city is not as big as you think! Tianfu Pavilion is just an example, and prices in other places are even lower than those in the secular world. Be a little bit lower!"

Fang Yue breathed a sigh of relief when he heard this!

Wang Badao looked at it with relish, recalling his boyhood.

Just young!

Recalling for a moment, he dragged Fang Yue and others to the third floor for dinner.

The food at a table of 490,000 Lingshi, although it will not make Wang domineering feel painful, but at the very least, it is cheap!

Soon, the dishes are all ready, most of which are cooked with Linggu and vegetables. Of course, these spirit valleys and spirit vegetables were cheap goods of the first and second products that Fang Yue had made before. It's the spirit vegetables and spirit valleys above the fourth rank of the Eight Classics! This level of spiritual food must be planted in a specific environment before it can grow. The spirituality in it is gentle and easy to absorb. For Fang Yue, Sima Xiao also has practitioners such as Di Yi who are in the innate realm. Has great

benefit!

Master Wang Badao and Master Yifan moved their chopsticks a bit and took a few bites symbolically.

The banquet at the heaven and earth level is of little value to them. What they eat is just waste. Because the help to the body and cultivation is quite limited!

During the meal, Diyi and Sima Xiao just lowered their heads and kept eating without saying a word. They understood very well that they came here this time just to get acquainted with Wang Badao and Master Yifan. When they help, they don't know each other.

As for the protagonist, that is Fang Yue! Without him, this meal would be impossible for them!

**Chapter 193: Rune Way**

Fang Yue took two mouthfuls, and the spirituality was indeed abundant. It could sort out the stomach and regulate qi and blood. However, Fang Yue was in a rather special and embarrassing situation. He had eaten these spiritual foods, and it was estimated that it was useless!

He is on the second small step of the hundred steps of the physical body, and there is still some distance from the next small step! Physical cultivation is not just nourished by spiritual energy. He also needs to hunt down enough powerful beasts, ingest blood, and bathe the whole body to be able to step up to a new level!

In terms of cultivation, he is in the stage of consummation on the first level of the Innate Realm. The reason why you can't reach the second level is not the aura, but the law.

Without the embryonic form of Dao Seed, it is difficult to grow fairy seedlings in his chaotic soil.

Therefore, Fang Yue was very embarrassed. Even if he ate more banquets, he would at best nourish his flesh, no other effect.

"Master Yifan, let me tell you that I am quite interested in runes recently! I have read a lot of books, but I can't afford it!"

Fang Yue raised a topic.

Master Yifan's eyes suddenly lit up. He is an old scholar, obsessed with the study of Fulu. You talk about women or Fengyue, he has no interest at all, but when it comes to Fulu, rune, he is full of work. !

"Rune, where have you been in your research?"

Master Yifan's expression is serious and solemn, academic issues cannot be joking.

Fang Yue tapped his finger and dipped a drop of water.

On the table, simply outline two strokes. The simplest rune is formed.

With a clatter, thunder was born in the void, and a thick and thin thunder fell down!

It fell on the table where Fang Yue painted a symbol, and a tablecloth burned. The fire shines!

Nourish!

Fang Yue poured the tea in the cup onto the tablecloth.

Everyone else looked dumbfounded.

This is a good point, how come a flash of lightning came out!

This tablecloth is so expensive. If it breaks, we will need to pay compensation!

Only there is a master who understands Fang Yue's meaning. This rune is difficult to express in terms of realm. No matter how much he says, it is better to demonstrate it.

Master Yifan stroked his beard lightly, and judged: "It has its own shape and cannot be true!"

His words fell, Sima smiled, and the expectation in Wang's domineering eyes couldn't help extinguishing a bit.

I thought Fang Yue would be a master here, creating a new surprise for them. Unexpectedly, his comprehension of Rune Dao was only on the most superficial surface.

But also, Fang Yue's alchemy technique is already so powerful, if there are similar achievements in runes, how can others survive! All the expressions, Master Yifan has a panoramic view, and the corner of his mouth provoked a slight sneer: "It is not easy to be able to be vain! The change of runes is with one heart, and the use of clear water to draw symbols can attract Lightning, the memory skills of this pair of runes are beyond reach! You know, ordinary people, if they want to reach Fang Yue's level of runes, it will take at least 20 years to study carefully! And Fang Yue's How old is his age? Alchemy, physical body, and Qi refining are all taken care of, and he has a lot of accomplishments! Being able to reach this level in runes is enough to see him

talent! "

Sima Xiao and Wang's overbearing smile contradicted.

In these respects, they are completely laymen, and they know how deep the water is!

"Actually, Fang Yue, your intangibility in runes is good, but your mind is narrow and you haven't figured out the essence of it!"

Master Yifan stroked his white beard and showed a teachable expression.

Regardless of Fang Yue's previous meeting ceremony, just this talent of dripping water into a talisman is worthy of him to teach! "The way of heaven and earth is the same in all things! This rune way is actually similar to other ways! What is a rune? It is a condensate of the great power of heaven and earth! After the painting is finished, it is drawn and not sent until a ray of spiritual power is also Or the infusion of true qi has just become a primer, causing it to burst out

The power of!

For example, feng shui and the way of formations are essentially the accumulation of the great momentum of the world, using arrays of flags, mountains, and rivers as pens and inks to splash the world. Form a huge rune!

The reason why you are unable to achieve success in this regard is because you always believe that runes are runes, formations are formations, and mountains and rivers are mountains and waters! There is no connection between the way of runes and the way of nature in the world. In the end, it was naturally invisible and not restrained! "

Master Yifan just ordered a few words.

In Fang Yue's mind, Mao Sai suddenly opened!

Because he has a "Book of All Souls" in his hand, it is not a study, so he has covered a lot!

Formation runes, Feng Shui Yin and Yang are all his research areas.

In different fields, he has opinions, but the degree and level are different!

Today, Master Yifan's three-sentences have allowed him to comprehend by analogy, isolating the different ways from isolating to compatible!

Even before he brought the circuit diagrams in those drawings, he instantly understood!

Isn't the circuit diagram just an evolution of runes?

The direction of the circuit is the general trend of the world, it is a kind of lead but not sent, and the electric current is the lead, like true energy, like spiritual power!

Electricity generates magnetism, electric current is not important, what is important is that the electric current is mixed and the magnetic field is born!

To understand the true meaning, you can see the source!

Fang Yue danced with excitement.

Comprehend the essence, and then from the outside to the inside, there is inside and outside, and then deduced backwards.

Fang Yue touched another drop of water and sketched it briefly on the table.

The same rune, but a different taste. Fang Yue modified some of the details according to his own understanding.

With a bang, the void split open. A bolt of lightning the thickness of chopsticks crashed down!

A corner of the table was shattered.

Debris flew everywhere, black smoke curled up!

Master Yifan stroked his beard and said: "It's all right, it's really talented!"

Sima Xiao also widened his eyes. I can't even close my mouth in surprise!

"This Rune Way, so powerful, can a drop of water summon the power of thunder and lightning?"

The overbearing king next to him looked at the corner of the table with a mournful face: "Can you two pay attention, learn from each other, and don't destroy things!"

Wang's domineering voice has not yet fallen.

Boom.

A five-and-three rough man broke in! He has a hideous face, and he carries a machete in his hand!

The man was naked, with his chest muscles rising like two hard rocks.

The machete in his hand has been polished so that it can even reflect the figure!

Centipede-like scars crisscrossed his chest. A pair of tiger eyes, scan everyone in the house!

"Tianfu Pavilion rules! No one is allowed to fight in Tianfu Pavilion. Violators will be severely punished!"

The man's body was full of suffocation, and the realm of the initial stage of the rotation state was revealed!

Fang Yue was speechless.

This small hotel actually has strong people in rotation as security.

This God City is God City!

Wang Badao explained: "No one was fighting, but two of my guests were studying runes and accidentally damaged the table here. Don't worry, we will pay the original price for how much the table is!"

Wang Badao knew that this Tianfu Pavilion had an amazing background.

He hopes that things can be calmed down, big and small things can be reduced to small things. However, the man showed a hideous expression: "Researching runes? Studying runes can still damage our table? Do you know how much this table costs? Thousand-years of Begonia pear wood. Crafted by master craftsmen. The craftsmanship! A table is worth 3.6 million spiritual stones!

Can you afford it? "

The man was aggressive, showing a gangster look!

This makes Fang Yue very dissatisfied. Is it true that the service industry in other worlds does this?

The customer is God, do you treat God like this?

Wang Domineering also lowered his face gloomily, only 3.6 million spiritual stones, who do you look down on?

However, this broken table is worth more than three million soul stones? Fool it! Wang Badao is not someone who does not know the goods. Although this table is exquisite in workmanship, at most hundreds of thousands of spiritual stones are on top!

The asking price of 3.6 million spiritual stones is a typical black!

Everyone feels slaughtered, and IQ is insulted and despised.

Even Master Yifan was not calm, being seen as if he was a thief, this was an insult he had never received.

Who is he? The master of Fuluo, three Fuluo, even the existence of the leader level can shock the fierce!

Wherever he goes, it is not flattering and flattering. Even if it is a big figure from every family and every sect, he must respectfully call him "Master Yifan".

Anyone who has ever been disrespectful to him is lying in the coffin board!

Master Yifan is about to take action and teach this thug who doesn't know what to do.

At this time, Fang Yue suddenly said: "What kind of broken restaurants are you all! The food is unpalatable, even the spirituality in the food is lost! This is so arrogant and dare to hack customers' money. I said you are bored in this \*\*\*\* city, don't want to mix it up, right!"

Fang Yue is an old oilman, he is the most professional looking for things.

Did you scold him, you must attack the enemy and save it!

Sure enough, when I said this, the thug's face turned darker! Since Tianfu Pavilion opened, no one has ever said that their food is not good!

Every chef they invite is the best in this \*\*\*\* city, whether it is the dishes or the quality of the ingredients themselves, they are all first-class!

"Do you know that slandering my Tianfu Pavilion's dishes is punished the most severely! Even if you are a customer of my Tianfu Pavilion, you can't easily let it go!"

Behind the big man, a faint voice came.

This was a woman's voice, but it made the burly big man slightly stiff.

"Sister Yulu, you are here!"

The big man bent over and let the door open.

A woman in a red leather jacket with long burgundy hair strewn randomly came in!

Frankly speaking, this woman has a special flavor.

The red tight-fitting dress, protruding forward and backward, with exaggerated curves, outlines her beautiful and perfect figure.

The fair skin is more enchanting and eye-catching under the bright and fire-like clothing.

She also held a delicate little whip in her hand, giving a full queen fan!

If it's on the earth, this makeup, such a temperament, if it walks on the street, it will definitely attract the crazy shouts of countless dead otaku!

However, Fang Yue's eyes were filled with an overwhelming, surging crisis!

"Master-level master!"

Wang's domineering pupils shrank slightly, and he immediately realized that something was wrong! In this Tianfu Pavilion, there will be masters at the master level, and they all say that the background of Tianfu Pavilion is deep and measurable, but it is not deep enough!

"Huh! There is a problem with the dishes of your Tianfu Pavilion! The taste is unpalatable, and there is a serious loss of energy. The good ingredients fall into your hands, it is really bad!"

Fang Yue's tone was full of disdain.

The red-clothed woman's lips curled up with an interesting smile.

"Could it be, you didn't come to eat, but to make trouble?"

The red woman's voice fell, and the big man immediately walked to Fang Yue's side with interest. How can sister Yulu do the heavy work of tidying up people?

## Chapter 194: Black shop?

"Why? Don't you let people say that your food is not good? Use violence to solve it? Huh! Even if you can stop my mouth, but you can stop the thousands of people who come to eat at Tianfu Pavilion The heart of a customer?"

Fang Yue's palm was already sweating!

He understands that he is in trouble this time! And it's a big deal!

This Tianfu Pavilion is simply a black shop.

The background is very deep, even if it is Master Yifan, the king is overbearing, it may not be easy to solve! And even if they solved this matter, he would owe a great favor to these two people!

At that time, his plan will fall short because of this meal!

This is what Fang Yue didn't want to see!

The woman in red saw that Fang Yue was still dead, and her face became gloomy. "You say that our cooking here is unpalatable, then you say, in this God City, apart from the three top restaurants, where else is there to cook better than my Tianfu Pavilion! If you can tell, then I Zhang Yulu will let you live! If you can't tell, be careful I chop you off

dog! "

The big sister in red is full of domineering!

Master Wang Badao and Master Yifan saw that the smell of gunpowder in this room was getting heavier, and they couldn't help but want to come forward to solve the problem!

I believe that no matter how deep the background of Tianfu Pavilion is, it will give them a little face!

However, Fang Yue stretched out his hand to stop them, and the sound transmission said: "I will take a gamble first. If I lose, it won't be too late for you to fish me!"

Fang Yue's voice fell, and Master Wang Badao and Master Yifan also stopped. They wanted to see what medicine was sold in Fang Yue's gourd!

Fang Yue held his head high, and slowly said, "Do you still need to find someone else for such unpalatable dishes? The meal I make is much better than you, and it won't waste a little bit of spirit and nutrition in the meal! "

"you?!"

Zhang Yulu's eyes widened, her red lips pouted, and her face was full of incredible expressions!

She counts everything, but she didn't count it, this young man would actually say such unruly things! "Hey! If you can make a meal that is better than our Tianfu Pavilion chef, nothing else, we are just like

that for today. In addition, our Tianfu Pavilion will give you 10 million high-grade spirits. Stone, as an apology and compensation, and invest millions of high-grade spirit stones every year to hire you to become

For my honorary chef of Tianfu Pavilion!

But if you lose, I will chop you off and feed the dog! Even if someone is behind you, they can't stop me! "

Zhang Yulu is extremely domineering, and her whole body is full of awe-inspiring killing intent!

"Okay, how do you compare?"

As an authentic otaku, Fang Yue inherited the essence of Chinese cooking for five thousand years. He does not know how much stronger than these barbarians who can only cook simple barbecues!

What's more, he has the killer little iron!

"Let's do it! Since you are so confident, my sister won't bully you! On the tenth floor of Tianfu Pavilion, you randomly select ten customers as judges! If there are five customers who say that the cooking is bigger than our Tianfu Pavilion The kitchen is delicious, then we lose the Tianfu Pavilion! As for the dishes, three dishes for one person! You can use the kitchen materials on the third floor of the Tianfu Pavilion! This time the chef I sent out to fight you is just like you. The person at the table!

Since you said his food is not delicious, let's try it with him! "

Fang Yue pondered for a while, this rule is fair, so he randomly selected ten people as judges among the people dining on the third floor.

None of these ten customers refused, but geared up one by one.

Tianfu Pavilion's meals are precious and precious, and one plate is a plate for nothing!

The third floor of Tianfu Pavilion was cleared of the position of a chef.

Let Fang Yue show his talents. "This is the chef you just cooked, Liu Quande. He was one of the top 100 contestants in the 107th Shencheng Chef Competition ten years ago! His dishes are known for their exquisiteness and deliciousness. Fang Yue, you are now If it's time to regret it, I will compensate my Tianfu Pavilion with 30 million Lingshi as a loss of reputation

Fee, and then break your legs, I can let you climb out of our Tianfu Pavilion! "

Zhang Yulu is still strong and domineering.

She didn't believe that Fang Yue could really surpass Liu Quande's food.

There are thousands of skills in the world, and that kind of skill requires endless years of accumulation and precipitation!

Fang Yue is so young, the fluff on the corners of his mouth has not completely turned into a beard. How could it be possible to surpass Liu Quande in cooking!

Not only Zhang Yulu looked suspicious, even Di Yi, Sima smiled with worry on his face.

This Fang Yue has expanded!

I thought I could do anything, but is it such a simple thing to cook?

Fang Yue said nothing, he began to choose ingredients.

I have to say that although the dishes in this Tianfu Pavilion are expensive, all the ingredients in it are top-notch. Linggu, Lingvegetables, all of which are Grade 4 or above, and the corpses and flesh of all kinds of birds and beasts in the world. !

Fang Yue was a little dazzled. I picked the same ingredients into my basket.

Then, start to cut the meat with a kitchen knife.

Dangdang Dangdang, the sword light rises and falls, radiant!

Liu Quande, who was next to him, showed a mocking smile. He has experienced many battles and is never afraid of someone challenging him in cooking!

Does good skill mean good knife skills?

This is not necessarily true, Liu Quande also began to choose ingredients. Started his own three dishes.

Liu Quande's vegetable cutting level is higher than Fang Yue's, all the vegetables in the sky, dancing in the air, holding a sharp knife, shhhhhh, is to select and cut the old vegetables, bad vegetables, and stale vegetables in the leaves!

This scene is quite gorgeous. Not only about a pleasing performance.

"This is Master Liu's exclusive craft-the sky full of stars! The light and stars of the knife decorate the night sky! My cooking in Tianfu Pavilion is an art in itself!"

Zhang Yulu showed a confident smile.

In her opinion, Fang Yue's challenge was actually an opportunity.

A good grasp can make Tianfu Pavilion more famous!

On the other side, Fang Yue seemed to fall into his own small world.

He cut all the vegetables and meat, then took out the small iron and replaced the stove in Tianfu Pavilion.

"Unexpectedly, you still brought cooking utensils with you! Sure enough, you came prepared, but in the face of absolute strength, all your opportunistic tricks will eventually come to nothing!"

The big man in Tianfu Pavilion sneered at the other Yue.

Fang Yue's knife skills are good, but it depends on whom to compare with. Compared with Liu Quande's sky-filled stars, his knife skills are simply a joke!

Now, he actually chose to change the pot.

What problem can this pot solve?

The quality of the food depends on the chef's cooking skills, and the pots and pans, but it has nothing to do with it!

Fang Yue was already immersed in the world of his own cooking. Suddenly, he returned to the earth and lived the life of a carefree bachelor.

With a snap.

Fang Yue snapped his fingers.

Below the stove. One hundred and eight middle-grade spirit stones were arranged on the stovetop.

The spirit stones form an array, summoning a kind of light blue flame from the emptiness, the flame is faint, and even a horrible grimace can be reflected in it!

"What the hell? Isn't it just cooking a dish? How come the ghost flames of the Nether are summoned!"

Sima smiled back and forth.

For this kind of ghost fire, he has a natural fear.

Nether ghost flame, the temperature is not high, can not cause burning damage to people.

But it can unknowingly erode the soul, damage the soul, and become a useless person!

Fang Yue didn't say a word, just full of enthusiasm!

Inside the small iron, all kinds of spiritual vegetables gradually smelled of vegetables. Then Fang Yue took out a mess of condiments from his storage bag.

What salt, soy sauce, pepper, sugar, etc.!

How can you cook without seasoning?

Fang Yue's first dish is about to take shape.

Beside, Liu Quande's dishes are actually finished! A burst of fragrance wafted out from it.

The white smoke curled up into the air, converging into the appearance of a nine-day fairy!

Fairy dancing, beautiful figure, pleasing to the eye, can't stop it!

In contrast, Fang Yue's dishes are so terrifying that no one even dares to touch them!

"Hahaha! This is one of the ten famous dishes that Liu Quande specializes in, Fairy Linchen! This dish is delicious in color, fragrance, and flavor. After enjoying it, you can feel the feeling of dancing with the nine-day fairies! You might as well try it. Let's see how my dishes taste?"

Liu Quande was full of confidence.

Fang Yue showed a provocative look!

Fang Yue ignored him, but his dishes finally appeared.

This is a dish that looks like a black tower. It looks like the Buddha's Buddha statue in the legend. However, the Buddha's Buddha statue is golden. And Fang Yue's dishes are pure black!

From time to time in the windows of the tower, scary faces appeared.

Like ghosts and ghosts, just one glance makes people feel creepy!

The ten judges had already arrived next to Liu Quande's fairy Linchen, and they tasted this dish with relish.

They just clamped a chopstick and put it in their mouths, squinting their eyes one by one, revealing an extremely intoxicated look!

"The fairy dancing in the red dust, this is simply a wonder on earth!"

"Too much enjoyment, so touched! I think my heart will fly to the sky!"

Each of the ten public judges was stunned, and they were simply enjoying themselves. They were immersed in the illusion created by the dishes. I don't want to get out of it at all!

"I want to have another bite!"

"I'm coming too!"

The two judges broke free from the illusion, but in order to taste the taste of Fairy Linchen.

Soon, Liu Quande's first dish was eaten by ten public judges scrambling, but Fang Yue's dish did not even dare to move!

Where is this dish!

It is a projection of hell!

Although the final selection results have not yet appeared. But the outcome is already obvious.

Liu Quande's dishes were eaten thoroughly, but Fang Yue's dishes were not cared about!

However, Fang Yue seems to have completely separated from the real world. He has entered a state of enlightenment that is difficult to understand.

His eyes were full of fanaticism.

Cutting vegetables, cooking vegetables, everything is like flowing water!

"Dying struggling? I'm afraid it doesn't make any sense!" Liu Quande's mouth was full of jokes.

In his eyes, Fang Yue is an out-and-out idiot! But having said that, in addition to the competition, the more important purpose of this competition is to show off one's cooking skills and build a better reputation for Tianfu Pavilion!

**Chapter 195: Cooking competition!**

Liu Quande adjusted his state and started the production of the second dish.

The goddess scattered flowers!

This time, Liu Quande used a completely different knife skill.

Vegetables and meat were turned over by the tip of his knife, cut off, and flew into the sky, falling like flowers in the sky.

Colorful and colorful.

It looks like a peach blossom forest in spring, with colorful falling leaves, it is truly beautiful!

Watching Liu Quande cooking is indeed a kind of beautiful enjoyment.

Not only the ten judges, but even Diyi and Sima Xiao couldn't help but aim at Liu Quande's position.

Three hundred and sixty lines, the best.

Even the cook and the butcher may have some incredible characters.

Now, they no longer worry about Fang Yue. Because Fang Yue couldn't win at all!

Such a knife, such a craftsmanship.

If Liu Quande does not win, it is simply intolerable!

Fang Yue was ignored from the crowd's field of vision.

He was immersed in his own world alone, cooking what he thought was exquisite!

After a while, it was still Liu Quande's dishes that were first born.

This is a delicacy, like the reflection of a blue sky, with nebula flowing and birds swimming. Everything is so leisurely, natural and amazing!

Looking at everyone, the undisguised longing in his eyes made Liu Quande's pride deeper.

He cleared his throat and said loudly, "This one is also one of the ten famous dishes that I am best at. It's fluent and smooth! After taking it, you can feel comfortable and unblocked! For those who have a feeling of depression, it may be a good medicine for curing diseases!"

Liu Quande opened his mouth.

The judges could not bear to move their index fingers, and picked up the chopsticks in their hands!

They added vegetables to their mouths bit by bit, and sure enough, they felt that the depression in their chests seemed to have disappeared in an instant!

Replaced by a kind of joy! That kind of excitement from the depths of the soul is irresistible and hard to refuse!

Just when many judges enjoy it.

With another bang, a void and rift suddenly tore apart in the sky above Fang Yue's iron pot!

A bolt of thunder and lightning instantly vented, drowning all the dishes in his iron pot!

Sima Xiao's heart stopped beating for an instant, turned his head slowly, and looked at Fang Yue with an incredible look: "This is how terrible it is to make the dishes! It has reached the point where it is intolerable! Even God can't even see it. Going down, I even lowered the punishment of thunder robbery, wanting to destroy this dish!"

The emperor class is also stiff.

They have heard that there are practitioners who practice tribulation, alchemy tribulation, and instrument refining tribulation, and even if you arrange a formation, make a talisman, and save a tribulation, we can barely accept it.

But, cooking is all over the catastrophe, what is this?

This is so terrible! Only let God hate it!

The thunder dissipated, and in imagination, the scene of charcoal in the bottom of the pot did not appear.

On the contrary, many dishes are fascinating, more vivid and bright.

Fang Yue used shredded meat as the trunk and vegetable leaves as the crown, creating a dense forest.

The forest is full of life and bright colors. It is pleasing to the eye and refreshing.

Originally, several public judges were going to give Fang Yue some face and try.

After all, this dish seems to be edible when opened.

However, the other judges stopped them: "Are you crazy? Do you dare to eat the vegetables that have been struck by lightning? Are you not afraid of being poisoned?"

With such a reminder, the judges who had a hint of kindness in their hearts are all wilted! Put down the chopsticks one by one, let Fang Yue's second dish continue to dry!

Fang Yue didn't care about the actions of the outside world, because his eyes were full of heat.

If you hit it, you will hit it!

The long-awaited barrier seems to have passed, and there is only one dish away!

Fang Yuema kept kicking, and the third dish began to be meticulously prepared. This time, he collected almost all the ingredients that can be used in the kitchen and used it in his own dishes!

Liu Quande, who was beside him, smiled even more proudly and started his third wonderful performance.

In his eyes, Fang Yue had no threat.

It's just a clown with grandstanding. What's the deal?

In the end, he was destined to become his own stepping stone and a counterexample to his fame!

Liu Quande was confident and started the third course. This time, he changed to another kind of knife skill-inextricably linked.

The tip of the knife is like electricity, spilling all over the place.

Whenever the tip of his knife passes, all vegetables and meat will become strands thinner than hair. Countless thin strips are entangled, but they can be woven into various shapes!

While breathing, Liu Quande made a cold dish.

This cold dish is actually a wonderful landscape picture!

All the colors are made from vegetables and meat.

"This is my third famous dish. Life is picturesque! If you have eaten this dish of mine, you will feel a lot of worries in your life, but it's just a cloud of smoke, a dream, you can touch it by jumping out of it. The true meaning of it!"

Liu Quande's dishes are all, as expected, he was snatched up by ten judges and he was full of praise!

"This is the first time I have eaten such a delicious meal! When it's over, I won't have any taste for anything in the future!"

"This Tianfu Pavilion is indeed a Tianfu Pavilion. Even cooking can produce such an artistic effect!"

Many judges stood leaning on Liu Quande's side, and little golden stars almost burst into their eyes!

The three empty plates represent the highest achievement and medal of being a chef!

On the other hand, in Fang Yue's place, a bunch of messy food ingredients piled together, messy!

"Is this guy ready to give up on himself?"

"It's no wonder that compared with Liu Quande, the other chefs are all too far behind! One is the great \*\*\*\* in the cook world, and the other is the ordinary man in the cook world. There is a difference between the immortal and the world, how do you compare!"

The ten judges thought that Fang Yue could do something earth-shattering with his third dish.

However, the higher the expectations, the greater the disappointment. This time there was no ghost fire or thunder, and even the dishes on the plate did not appear to be any exquisite at all!

"Fang Yue just gave up like this? Impossible! I think he is definitely not such a person. He will never give up until the last second!"

Sima Xiao frowned slightly, he knew Fang Yue's character best. Moreover, in the depths of Fang Yue's eyes, he saw the frenetic flame suddenly become more vigorous!

"Fu Ling!"

Fang Yue's meal is finally coming to an end.

Suddenly, his fingers pointed to all kinds of disorderly vegetables and meat on the plate. A spiritual voice fell. All vegetables seem to resonate with it!

"Give spirits to the food, \*\*\*\* it, this is fine too?"

Sima Xiao was an eye-opener this time, even if he couldn't eat this meal, but Fang Yue's performance alone made him feel that his trip was worthwhile!

With Fang Yue's voice falling.

These different vegetables and meats gave birth to a hazy light, colorful and brilliant.

These vegetables and meat turned into different appearances, or the ancestors kowtow, perhaps the mountains stretched, or the dragon and phoenix mingled together.

This is no longer a dish, but a microcosm of the ancient land!

Every scene has both form and spirit, and is vivid!

At the moment when the last dish was completed, in Fang Yue's dantian, the earth of chaos.

A seed embryo the size of a baby's thumb was born suddenly!

The heavenly ways of life, the heavenly ways of death, and the heavenly ways of souls are cleverly integrated together!

This is a heavenly seed, which breeds reincarnation and is endless!

Fang Yue Xiuwei also broke through. From the early stage of the second layer of the innate, one step was to reach the peak and extreme of the third layer of the innate! He felt that the zhenqi in his body had doubled, and at the same time he had a deep understanding and even control of the changes in the heavens!

"Broken cultivation base?"

Zhang Yulu showed a look of surprise.

Cooking a dish can break through the cultivation base, this is really...

However, no matter what realm he is, he must pay a price for provoking the majesty of Tianfu Pavilion this time!

Zhang Yulu's confidence is firm and has not changed at all! After Fang Yue reached a new realm, his aura became more stable and thick. He pointed at his hand and introduced the last dish he cooked: "This dish is called the appearance of all beings! All beings are numerous, and all things have anim. Hong Chen, how can you be surpassed! This dish, if different people eat, there will be

Different perceptions! But no matter the kind of perception, if you have a thorough understanding, it will definitely be of great benefit to your practice! "

Fang Yue's voice settled, as if it had a certain infectious power.

Of the ten judges who were still hesitating before, finally one of them came out, plucked up courage, and caught a chopstick!

Although the recipe is very strange.

But at least it looks good.

Entrance to the dishes.

The judges were stunned on the spot!

He felt as if he had returned to the ancient times. There are ten days in the sky, majestic and majestic, there are savage beasts everywhere, and there are elixir everywhere, all races rise together, dragons and phoenix skyrocket, vast and magnificent, so that his heart will be broadened. enlarge!

His soul is burning, his blood is running!

"Ah!" Accompanied by a roar, the bottleneck of the sixth layer of the world realm that had troubled the judges for decades burst into pieces! His breath suddenly soared, and he stepped out in one step, reaching the seventh level of the heaven and earth realm!

The judges broke through in an instant, and this scene immediately surprised everyone!

What kind of cuisine is this, and it has a breakthrough effect!

The other nine judges didn't hesitate anymore. They picked up the chopsticks in their hands and put them in their mouths to taste them!

At the entrance of a dish, the first thing to feel is not the taste.

They all seem to be wandering around, appearing in different worlds, some of them are the Demon Realm in the sky, turning into a Heavenly Demon, and slaughter in the Demon Realm.

Others seem to have come to the deep mountains and old forests, feeling the breath of nature, the unity of nature and man!

Also, I went back to my childhood and experienced the happy time of the past again.

Different people give birth to different feelings, but these feelings are all what they want to be satisfied most in their hearts!

"I understand. It turns out that what troubled me was not a bottleneck, but a knot in my heart. The knot could not be opened. Naturally, I will stagnate in practice!"

Another judge had an epiphany and took his own realm to a higher level!

After two consecutive breakthroughs, this can never be explained by coincidence!

"So happy! I'm so touched! It turns out that I love my parents!" Another female judge's eyes shed moving and happy tears, crystal tears, as brilliant as crystals! Her cultivation level did not break through, because she was already standing at the peak of the ninth level of the heaven and earth realm. However, her temperament changed, unconsciously, there is a gentle and pleasant temperament!

**Chapter 196: Peerless product!**

Ten judges, ten different feelings, ten illusions, each of them has made breakthroughs and made progress in different aspects!

Among them, four judges made a breakthrough when they were tasting Fang Yue's dishes, and six others were relieved of the frustration in their hearts and suddenly became clear!

"All sentient beings, all the worlds of the world, how can you be free if you don't enter it!"

Fang Yue said softly.

The ten judges all opened their eyes, and they paid a deep respect to Fang Yue, expressing their deepest respect!

This is no longer a dish, but the condensation of the wisdom of life!

The grace of pointing is unforgettable forever.

No sentence is required.

The comparison result of the third dish has appeared!

Liu Quande's face is ugly, he breaks through with dishes, and he is still the realm of heaven and earth? What international joke?

At the realm of heaven and earth, wanting to break through the realm is no longer a matter of pure aura and accumulation! What they need is an insight into the laws of heaven and earth and a deep understanding of their hearts! It's epiphany, it's detachment! And these things, how can a dish be given?

"Hmph, even if you won the third dish, but for the other two dishes, the judges didn't even move the chopsticks. Two to one, I still won! The ending will never change!"

Liu Quande sneered.

But his voice hasn't all fallen yet.

Some judges have already tasted Fang Yue's second dish!

The third dish can be epiphany, so what is the role of the second dish, which does not seem so scary?

A tree entrance. The mouth melts, and the rich vitality suddenly flows and melts in the body of the judge! He felt as if he had returned to his mother's embrace, bred and grew again! The whole person was instantly renewed, and all the hidden injuries and old illnesses on his body were erased! Even, he can still feel

I feel that my lifespan has increased slightly.

Although the range is not large, there is always a year and a half!

Prolong life, heal injuries!

The judges were shocked!

This is no longer a dish, but a rare treasure and elixir!

The other judges also tasted them one after another, and they all felt the same as the first judge. Their bodies were changing, not sublimation but new life.

All the traces of wind and frost in the past seem to disappear with the addition of this bite of dishes!

The strong life force, as if it can't be transformed, flows like limbs and a hundred skeletons, venting to the internal organs!

The growth of Shouyuan will follow! Even their bodies are growing backwards, and the crow's feet at the corners of their eyes are slowly stretched out, making them smooth again. The calluses on the palms of Bi Bo faded away, and the resulting skin was delicate and radiant, just like suet jade!

"This is incredible!"

Fang Yue's dishes are obviously much larger than Liu Quande's. After the ten judges tasted them, both dishes had surplus! Seeing the enjoyment expressions of the ten judges, Zhang Yulu also showed a suspicious look. She wanted to taste this delicious delicacy, but she returned to her childhood, carefree childhood when all living beings entered the first day of the year! At that time, she was not a practitioner, just an ordinary

A girl, catching butterflies in the mountains and fishing in the rivers, she does not have the power and glory of today, and the strength and longevity of today, but she feels that she once was happier!

Zhang Yulu's heart was filled with sorrow and sorrow.

Unlike the judges of the heaven and earth realm, she herself is a leader-level figure, able to easily distinguish between reality and illusion, and even if she has a single thought, she can eliminate the illusion and return to reality.

However, Zhang Yulu felt a little hesitation in her heart.

This hesitation made her reluctant to leave the world in this illusion!

For a moment, the illusion is illusion after all, and it disappears like smoke.

However, Zhang Yulu has a clear understanding of Fang Yue's dishes! A dish, like waking up from a big dream.

Even though it is illusory, it is also a kind of relief to the heart, a kind of relief!

This is no longer a question of cooking, but involves the understanding of the human heart and heaven.

Zhang Yulu glanced at Fang Yue again, and couldn't help but marvel, at such a young age and such a low level of cultivation, he could have such a profound understanding of all beings!

Fang Yue saw Zhang Yulu's stunned eyes, and a smile appeared at the corner of her mouth: "The sentiment in this dish has nothing to do with me! It is given to you by the spirituality of the dish itself! Everything is alive, and this dish can also be possessed. Spirituality!"

Fang Yue's words are specious and ignorant.

But Master Yifan's eyes suddenly lit up. Isn't this the way of the rune that he just taught Fang Yue?

Unexpectedly, he could comprehend and understand so quickly, and by analogy, it was also applied to cooking and cooking.

Nothing else, just this. Master Yifan felt that he had to taste Fang Yue's dishes himself.

He picked up the chopsticks and took away a flying bird.

At the entrance of the dish, Master Yifan immediately froze in place!

After a long time, a trace of muddy tears slowly flowed from the corner of his eyes.

Master Yifan took a deep breath and raised his thumbs. Fang Yue praised and said, "This smell should only be found in the sky! How many times can it be heard in the world!"

The ten judges nodded one after another, and the praise of Master Yifan was recognition, which was not an exaggeration. It is a sincere evaluation!

A bite of food, a dream reincarnation.

Huang Liang Yimeng, I am afraid it is nothing more than that!

Immediately, Master Yifan and Zhang Yulu tasted the second dish of Xiaoxia Yue, and the vitality in their bodies immediately boiled.

Even if they reached their realm, they felt the slight increase and extension of their lifespan!

This feeling is simply incredible to them!

"What is the name of this dish? Why do I feel that my life has been extended by at least seven days!"

Master Yifan's eyes suddenly opened!

This is simply a fantasy! At the level of the rotation realm, if you want to extend your life, even for a while, you have to pay an extremely high price!

And Fang Yue could prolong his life for seven days with just one bite of the dish. Wouldn't he be immortal if he took it every day?

Compared with Master Zhifan's surprise, Zhang Yulu's is more of a surprise!

Her realm is higher than Master Yifan, and her longevity is long, often thousands of years. But although she has a lot of lifespan, it is even more difficult to increase her desire!

She took a bite of the dish, which also added three days of life.

How can this make her not surprised or shocked! "This dish is called Green Bamboo Grove! Green bamboo is in a hurry, the years are like water, it takes root every year, and joins each other year after year! If you take this dish all the year round, you can live longer regardless of your realm! Of course, if you take it too many times, the effect is also Will weaken! Moreover, this dish is limited by the quality of the material and cannot

Enough to play a perfect effect! If it is replaced with a higher-level spirit vegetable, the effect should be better! "

Fang Yue's voice was calm and detailed.

Master Yifan and Zhang Yulu's hearts trembled slightly, understanding the value of this dish.

No matter how delicious and delicious your meals are, they are not as important as dishes that can prolong your life!

Among other things, just this green bamboo forest can be worthy of Liu Dequan's three dishes, and the value is even ten times higher!

"So, what about this first dish?"

There is a pavement for the next two dishes. People naturally realize that Fang Yue's first dish must be extraordinary, but because of the appearance, they have a preconceived bias! "This dish is called Buddha Demon Buddha! Not a madman, not a Buddha! Only those who have truly entered the world can truly transcend! The Buddha and Demon Buddha is divided into seven layers, and each floor has 36 demon gods. The shadows guard it, step by step, climb up the level, enter the master with divine mind, and defeat them all

, Can become a Buddha and an immortal! After this Buddha and Demon Buddha is completely eaten, the soul will experience thousands of battles. But there is only one thing, the battle is your soul, even if you lose, it will not really die, but will be born again!

Life and death training, a thousand battles! For those who lack real combat experience, this is actually the best food for a solid foundation! "

As soon as Fang Yue said this, everyone took a breath!

This dish is indeed scary, but from a certain angle, it is also a life-saving recipe!

There is no need to face life and death, you can have countless display experience, not afraid of life and death, not afraid of reincarnation!

Such dishes are simply a rare treasure!

"It's a pity that this dish has some shortcomings. It is limited to the ingredients. It can only be consumed by practitioners of the heaven and earth realm and below.

Fang Yue said.

This dish was not tasted by anyone in the end, it was left by Zhang Yulu as the treasure of Tianfu Pavilion!

"This time, I really lost the Tianfu Pavilion! But it was not the dishes, but the cultivation base and Tao Xing!"

Zhang Yulu smiled bitterly.

In full view, she can't be fooled! "I will personally apologize to several distinguished guests for this matter! The compensation for the ten million high-grade spirit stones that I promised before will be sent back soon! If you are willing, Brother Fang Yue, our honorary chef position will also be given to you. !

The salary of a million top-grade spirit stones will not break your promise! In addition, these three dishes,

It is indeed rare in the world! I would like to purchase one hundred thousand high-grade spirit stones as your labor expenses! "

Zhang Yulu is a queen, but also a very refreshing queen. To win is to win, to lose is to lose! There is nothing to hide!

"Hey, where did this young lady come from! The previous bet was just a joke! Before, we were reckless and impulsive and destroyed the tables, chairs and benches of your house. As for the compensation, there is no need for compensation!"

Fang Yue sold a good guy!

At first glance, Tianfu Pavilion has a very deep background. If he really wants the so-called compensation, he will definitely be able to get it, but whether he can spend it alive is another matter!

In this \*\*\*\* city, a Liuahmen and a Fang family are enough for him to have a headache. He doesn't want to leave a few more enemies because of money!

"What young lady? Do you dare to be disrespectful to adults!"

The big man flew at once with a cross knife, his anger was erected, and he looked at Fang Yue with anger. "Ma Feng, what are you doing? I admit this brother! But this bet, I will give it to Tianfu Pavilion! Come on, order the following, prepare ten million high-grade spirit stones, and send it to my brother! This Tianfu Pavilion is open for business, the most particular You are sincere! If you dare to bet, we dare to lose!

The guest left me the notoriety of Tianfu Pavilion bullying! "

When Zhang Yulu heard the three words of Fang Yue's little sister, she was immediately excited!

This woman, who doesn't want to be seen as younger by others, let alone this newly recognized little brother, although his age and cultivation base are still relatively young. But it is a real genius! In the three dishes, she felt three completely different flavors of heaven!

## **Chapter 197: Honorary Chef**

It is rare to be able to enlighten Dao in a mere innate realm.

And to comprehend the three ways of heaven, this is simply unimaginable.

As long as he can grow up smoothly, he will definitely become the overlord of one party!

Zhang Yulu seemed unrestrained and unrestrained, but in her heart, how could she become the principal of this Tianfu Pavilion without a city mansion!

In Fang Yue's heart, he finally let out a sigh of relief. He understood that this hurdle was completely passed!

Not only has he not been blacklisted by Tianfu Pavilion, but he has also become a VIP in Tianfu Pavilion, turning enemies into friends in the future!

Fang Yue's actions were overbearing by the king, and Master Yifan saw him.

Even if both of them are considered old treacherous and cunning, but Fang Yue's ability to turn his hands into clouds and hands into rain and turn enemies into friends deeply admires them!

To survive in the Xuanhuang world, the strength of this cultivation base is only one aspect.

There is also a more important aspect is to know interest and hold the thigh!

On the first aspect, Fang Yue can only barely do. After all, at his age, second-tier innate, he can only be said to be average.

But on the second aspect, Fang Yue has achieved the ultimate in transformation! Whether in Sima Xiao's horse racing meeting or in this Tianfu Pavilion, Fang Yue's strong contacts and the use of contacts have already reached the pinnacle!

I really don't know what this Fang family thinks.

For such a talented person, are their brains flooded?

He turned it away for no reason, and even tried to harm him!

There is no impermeable wall in the world.

In fact, the kind of exclusion, indifference, and even entrapment that Fang Yue suffered in Fang's family has long been inquired by the overbearing king!

If it weren't for this, Wang Overbearing wouldn't have tried so hard to draw Fang Yue to Taiyi Teacher.

The Fang family's exclusion and inattention is the best opportunity for Taiyi Teacher!

In the end, Fang Yue served as the honorary chef in Tianfu Pavilion. In fact, this position is basically a false position. Because Fang Yue has nothing to do, he doesn't have to go to work every day, he just needs to cook two dishes when he needs it!

Such an easy job can easily reap the annual salary of one million high-grade spirit stones a year, and maintain a good relationship with Tianfu Pavilion!

This Sima laugh, who worked so hard at the Vientiane Pavilion and was squeezed and suppressed by the guides every day, gave a thrilling excitement!

In the evening, Zhang Yulu held a banquet on the third floor of Tianfu Pavilion again, set up a table of dishes, and asked Fang Yue and others to have another meal!

This meal was meant to compensate everyone for not eating well at noon, and to celebrate at the same time, Fang Yue joined the big family of Tianfu Pavilion.

This meal was eaten late at night, and Fang Yue was the main one at the beginning, but afterwards, there was basically nothing wrong with him! Zhang Yulu personally toasted Master Yifan, expressing her respect in her heart! At the same time, I have a cordial talk with Wang Overbearing, hoping to have more in-depth cooperation with Taiyi Church.

Even later, the food was almost gone.

Fang Yue was also instructed to make two more plates for them to eat!

Fang Yue is full of resentment. If I say yes, am I the protagonist?

Of course, he also understands that his value to these people is more of potential, and among them, what they value is real status and rights!

One more layer of title protection.

Fang Yue finally dared to meet the Fang family!

No matter how unreasonable this Fang family is, it is impossible to take action on such a crucial point!

Sure enough, everyone in the Fang family turned off their flames. Even if someone calculated on him occasionally, they would be caught by Fang Shisan. Those with background gave a severe lesson, and those without background simply killed the demonstration.

The Fang family's senior management seemed to have gradually changed Fang Yue's attitude.

From exclusion to Huairou!

Fang Yuean was also inserted the title of an elite disciple of the Fang family!

Although this title is useless for Fang Yue, it at least represents a change in attitude!

After the next month, Fang Yue lived in peace and quiet. He was idle and was fine. He browsed through the books in the library of Fang's family and collected information about the three ways of heaven, death, life, and soul. If he was bored, he would go to Master Yifan to sit down and ask for some advice on the way of runes.

Occasionally, he would go to Tianfu Pavilion, show his hands, and cook a few dishes for some of the more high-end guests!

As an honorary chef, he feels that he can't get money every day. Occasionally, I still have to do some work!

However, Fang Yue seemed leisurely, but he was really depressed.

Because he found that he had dug a big hole for himself, then jumped down and buried himself alive!

When he was cooking at Tianfu Pavilion that day, he really showed his hand. The three dishes actually represent life, death, soul, and the understanding of the three ways of heaven!

This is not a specific law, but a vague program.

If you make a comparison, it's like a table of contents of a book, an outline of an article! It's a skeleton thing!

This is more valuable than general understanding of specific laws.

But the problem is that Fang Yue used these three kinds of heavenly Dao to condense the embryonic form of Taoism. If he wants to enter the third level of innateness, he needs to continue to condense the three heavenly ways to form a real Taoism!

He is a little innate, where can he condense these three heavenly realms?

Even if it is a powerhouse of the world realm, it is difficult to understand the three kinds of heavenly realms!

Cultivation realm, step by step to the sky, every step taken, the soul origin is more strengthened, and it is in harmony with the heavens and all things!

Fang Yuexiu has "Soul Scripture", and the power of the soul is strong.

But the problem is that no matter how powerful it is, it is also quantitative. The realm is a qualitative leap for the improvement of soul origin!

It is almost impossible for Fang Yue to enlighten the Tao.

Because the origin of the soul is there.

Things like cooking and enlightenment are just a coincidence!

It can never be done again!

Otherwise, Fang Yue should be professional and just be a chef!

Just when Fang Yue was depressed.

Sima smiled.

This guy is also the elder of the face. It's like someone owes him a debt!

"What do you want to do? Let's talk about it first, there is no way to borrow money!"

Fang Yue looked wary and smiled at Sima.

Sima smiled and gave Fang Yue a white look: "I'm the seventh-class deacon of the dignified Vientiane Pavilion, do you need to borrow money from your grandma who doesn't hurt, and the guy your uncle doesn't love?"

"Then what do you want?"

In a certain way, Fang Yue and Sima Xiao are damaging friends through and through!

In major matters, they must be unanimous to the outside world, but in minor matters, the two quarreled all the time.

"Here, look, I'm wondering if my special code is my father's own birth!"

Sima smiled and narrowed his eyes, which were not too big, his cheeks bulging.

The fleshy little face does not show anger, but makes people feel more cute!

Sima Xiao stuffed an invitation card into Fang Yue's hand.

Fang Yue looked down. The invitation card is exquisitely framed and gilded, and it also says: "May 10th, Baili Secret Realm, waiting for your visit!"

"Well, an invitation letter? Go to the secret realm to search for treasures? It's good! Don't you just like to explore treasures? I will go for me! Recently, I have been getting tired of water in the God City!"

Sima laughed and said with a sneer: "You take a closer look, what is this place?"

"Baili Secret Realm, what's wrong?"

Fang Yue was at a loss, wondering what's in it.

Sima smiled and covered his face with his hands, and didn't bother to take care of this guy.

"No culture, it's terrible! Do you really don't know the ten most dangerous secret realms in this God City? This Baili secret realm is one of them! It is said that the legendary \*\*\*\* world was killed by a peerless powerhouse The chopped corner, then evolved into a secret realm!"

Fang Yue gradually reduced his smile, waiting for the following.

During this time, he made up for it in Fang's Library. I also have a good understanding of some basic common sense.

There are countless worlds and dimensions in this universe, and these world dimensions are divided into different levels and levels according to the amount of resources and area in them!

Like the fairy world and hell, they all belong to the highest-level world. The rules are so powerful that you can't figure it out!

Below the supremacy, other worlds and dimensions can be divided into one to nine levels according to the amount of resources in the world and the size of the space!

Like the Xuanhuang world, it belongs to the third-class world.

Upper midstream!

And the earth where Fang Yue used to be, according to this standard, is at most the eighth or even ninth class world. Because the resources are too few and the pollution is serious, it can reach the eighth class, and the ninth class is already considered good!

Below the world, there are planes, and below the planes are the dimensions, and there are fragmentary space debris below the dimensions.

They do not have strict levels, only three levels!

The so-called secret realm is actually some relatively stable space debris, these space debris, either from some worlds, planes, or even the remnants of the destruction of the dimension. Either it was artificially broken!

In the secret realm, the special rules of the previous world or plane are maintained. It is a self-contained system and often does not interfere with the attached world!

Baili Secret Realm is a fragment of the \*\*\*\* world that a big man shot and shattered during the battle between the immortal world and hell. The rules are strong and easy to understand. However, the powerful creatures do not know the geometry, and they are simply not something ordinary people can face and rival!

Even with regard to the word Baili, there is another origin and explanation.

The Baili secret realm, every time it is opened, generally only the creatures below the heaven and earth realm can enter it, beyond this realm, the higher the strength, the greater the price to be paid to enter the secret realm!

The Baili Secret Realm, on the other hand, means that the creatures below the heaven and earth realm cannot go beyond Baili if they go deep into the secret realm. Otherwise, there will be death and no life!

"This time, the Sima family is really willing to let you go?"

Fang Yue looked at Sima with a faint smile, feeling that the Sima family was willing to pay for it.

In fact, the relationship between Sima Xiao and the Sima family was far less tense than Sima Xiao himself said.

From the last auction, he could see that the Sima family's attitude towards Sima Xiao was still quite caring. Otherwise, a small exhibition would not allow Sima Shan to go out and watch by himself.

It's just that Sima Xiao's character escapes, which makes Sima Family angry! That's why I racked my brains and came up with various methods to hone!

There was even a hint of envy in Fang Yue's situation with Sima's smile! "I am willing? Of course I am willing! That group of pit goods are all calculated! Let me enter the Baili Secret Realm, understand the rules before the Heaven and Earth Realm, and once I break through, I can participate in the Baizu Tianjiao battle five years later! Grandma's, I won't go to such a dangerous thing!

Honor is not honor, brother has not lived enough yet! Sima smiled and cursed, very dissatisfied in his heart!

### **Chapter 198: My uncle, can be exciting!**

Fang Yue was speechless. Unexpectedly, there will be this crop later.

The battle of Tianjiao of a hundred races is held only once every thousand years, and each race will select 500 Tianjiao to participate in the war on behalf of its own race! Then according to the different

rankings of Tianjiao, the ranking of each ethnic group is finally determined, and some important and rare precious resources are allocated by this!

This thousand-year battle of Tianjiao among a hundred races represents not only the distribution of resources, but also the glory of each race!

The impact and meaning are so great that it is absolutely impossible to explain clearly in a few words!

"Heaven descends to take responsibility for the people of Sri Lanka. It will work hard, hungry, and empty... Sima laughs, this is the importance your Sima family attaches to you, how can you refuse so categorically?"

Fang Yueqiang suppressed his smile and said with a serious expression.

Sima smiled and grinds his teeth, "Fang Yue, gloating, your uncle!"

"Haha, my uncle has hemorrhoids, and it's \*\*\*\* after a poke! This is exciting, I will introduce you to you when I have time!"

Fang Yue teased.

Sima laughed and jumped up, wanting to beat this guy out of anger! The two had a quarrel before they said, "Sima laughs, in fact, you don't want to go to this secret realm of Baili, but I really want to go! There are treasures in the world, which can not be bought with money. ! And the rules inside are powerful, which is more conducive to perception! You say, I want to follow along

Can you go? "

Fang Yue rubbed his chin.

In order to condense the rules of the three heavenly realms, he has already used everything! Sima smiled and rolled his eyes: "Do you think this is a car? There is no quota, how can you get in? Although this Baili secret realm is dangerous, it is also a good place to sharpen disciples and mine resources! There are all kinds of people. Quotas. There are 13 quotas in our Sima family.

Not many have five to six places. Fang Yue, would you like to talk to your thirteenth master, if you want to be accommodating, you will have a quota? "Fang Yue sneered: "Will he give me a place?" Then I saw a ghost! After I returned to the Fang family, my grandmother never loved me, and my uncle didn't love me. Fang's guards against me all the time like thieves. If they don't trouble me, I'm thank God Amitabha! Wait for them to give me a place, daylily

It's cold! ""what is it now? Did you miss this opportunity for nothing? In fact, I also understand that although this opportunity is rare and dangerous, if I can come out alive, my strength will definitely make a qualitative leap! In itself, your cultivation level is not very high. If you miss this time, you may be with the younger generation

The genius of China is getting farther and farther away! "

Sima smiled sternly and began to worry about Fang Yue.

Practitioners rely on not only personal talents, but unremitting efforts.

Other aspects, such as family shelter and help are also very important!

One is to start from the beginning, and the other is to stand on the shoulders of giants. The position of the starting line has already determined the end!

Sima laughed deeper.

Fang Yue had to sigh: "For this kind of thing, you can only count one step at a time!"

Sima Xiao finally left. He understood that this might be the last time he saw Fang Yue before entering the Baili Secret Realm.

It is impossible for the Sima family to really ignore their lives. They will be specially trained before entering the secret realm!

With the life-saving hole cards, they have the confidence to go to Baili Secret Realm to try, instead of sending them to death.

Before Sima Xiao left, Fang Yue gave him two jars of Baicao Liquid.

"Although this thing is not very useful, it is used to restore vitality and heal dark injuries! Baili Secret Realm, I hope you can come back alive!"

Sima smiled and nodded. Then turned and left!

At the same time, the senior officials of the Fang family of Shencheng had a heated discussion. This time, the Fang family got a total of five places to enter Baili Secret Realm. But who is allocated to it becomes a big question! To be honest, there are really not many disciples of this generation of Fang family's younger generation! Not because of the decline of the Fang family, but because of the Fang family disciples of the previous generation

The blowout-style outbreak caused this generation of disciples to feel a little desperate in their hearts.

It is an insurmountable mountain. No matter how hard they work, they can't catch up and cross!

It is a good thing to have a goal, but if the previous goal is really not achieved, it is a...great disaster!

"The main line, Fang Qinglong must occupy a place! He is the sacred body of the Qinglong, the undisputed number one talent among the young generation! Moreover, after returning from Yandu, he knew his shame and was brave. He has worked hard and has reached the innate. Nine levels of realm! Half a foot, stepped into the threshold of the world realm

, This trial, maybe, is his breakthrough opportunity! "

Fang's main line, Fang Gan spoke, the scar on his face was slightly hideous. "The Fang family's spirit body line also needs a place! I think, in terms of talent, everyone actually ignores one person—Fang Yue! Back then, when he was in Yandu, he hadn't reached the innate realm, so Tossing a master to the death and alive, even Fang Qinglong is no exception!

The high talent and strong adaptability are evident! And Fang Yue has now entered the realm of the second level of innate. Perhaps in the world, few people are his opponents!

The young generation has very few geniuses, and Fang Yue's talent can be developed a little bit, enough to take on the important task! "

Fang Shisan spoke slowly, with a deep tone.

He now represents not himself, but the will of the whole divine body!

With this opening, the entire conference room produced a moment of tranquility.

Breathing slightly, the needle drop can be heard!

"I don't think this matter!"

After a long silence, Fang Gan's eyes flickered, and he finally spoke and categorically rejected Fang Shisan's proposal.

"Fang Yue, his origin is unknown, his personality is extreme. Zeng had enmities with many sects in Yandu! I waited to provide him with a place of refuge, and it was my benevolence and righteousness. There is no need to waste Fang's entry into the Baili Secret Realm for such a wild child. A precious place!"

Fang Gan's voice was firm and resolute, not a discussion but a judgment!

No one can rebut his will to refute! Because when he came here, he did not represent himself, but the most powerful clan leader in the Fang family! Fang Shisan sneered: "The origin is unknown? The third line of the Fang family back then, how clear is the origin! Why they were expelled? I think your family line understands better than us outsiders! Fang Gan, this time you can Refute my request and even continue to make things difficult for Fang Yue, but one day

, You will regret your decision! "

Fang Shisan was furious and walked away!

Fang Gan looked at Fang Shisan's back, and the corner of his mouth couldn't help provoking a sarcastic smile.

dusk.

The result of Fang's discussion is out!

In the Baili Secret Realm, Fang Qinglong, Fang Wuye, Fang Ying, and Fang Yu and Fang Qiong were sent by the Divine Body Line!

There is no Fang Yue's name on the list.

Fang Yue had expected this.

But when it was announced, there was such a result. Fang Yue's heart inevitably still gave birth to a touch of loss!

"Hmph, if you don't let me go to Baili Secret Realm, my brother will go to other places! No master here, free master place, no master everywhere, master has a small shop!"

The corner of Fang Yue's mouth cocked.

Several flags scattered.

Fang Yue began to carefully arrange a teleportation formation. The location of this teleportation is the jungle world!

In fact, Fang Yue had died, he knew it.

Before being kicked out, he had already set up a space formation in the jungle world.

The space formation is a rather advanced one among the formations. Among them, it is divided into a Yin formation and a Yang formation. Both sides are arranged to achieve the effect of transmission!

Fang Yue arranged a sun formation in the dense forest world. As long as the spirit stone is enough, you can activate it!

As for the Yin Array, Fang Yue has already arranged it under his feet!

He can leave Fang's house at any time and step into the jungle world again!

A total of 108 high-grade spirit stones are arranged in the array eyes, and the farther the array is transmitted, the more energy is needed to tear the space! Shencheng and Yan Kingdom are separated by millions of miles. And the jungle world is a unique space.

Wanting to shuttle among them is expensive!

However, this is not a problem at all for local tyrants!

Isn't it just one hundred and eight high-grade spirit stones?

Brother is rich!

A group of you rushed to fight for a secret realm, and brother has a secret realm himself!

Thinking of this, Fang Yue's mouth couldn't help showing a trace of pride.

This kind of superiority is hard for ordinary people.

The formation was activated, Fang Yue stood in the center of the Yin formation, among the 108 high-grade spirit stones, a steady flow of aura was supplied.

The whole pattern lights up instantly!

The space is torn, Fang Yue's body struggles and the stars move!

Now Fang Yue is proud, looking forward to entering the world of dense forest again, killing the Quartet, and harvesting.

In his body, the spiritual root of the sleeping space, which has always been dormant, suddenly lit up without knowing which door it had drawn!

Around, the power of the endless space formed fragments, rotating towards Fang Yue's body!

Fang Yue opened his mouth wide and his face was full of horror, but there was no sound coming from the corridor of the dark space!

next moment.

Don't be fooled. A piece of flat space debris hit Fang Yue's forehead.

Fang Yue only felt pitch black before his eyes. Then I don't know anything!

"This time... really dead!"

This is the last thought in Fang Yue's mind!

"Tick, tick, tick!"

When he opened his eyes again, Fang Yue no longer knew how long the time had passed, and even he didn't know where this was and why he was here!

In the dark world, the demonic energy is raging.

Amidst the howling wind, there is a bit of coldness, deep into the bone marrow, tearing the soul!

"This is where?"

Fang Yue rubbed his eyes. Supporting the ground with both hands, then all over the body, the soreness from countless corners made it seem like being eaten by ants. Every action will be accompanied by severe pain!

"In the terms of your Xuanhuang world people, this is Baili Secret Realm! Welcome to here. My cute little pet!"

A coquettish voice came.

Fang Yue's ninja was in intense soreness and raised his head with difficulty.

An enchanting shadow gradually entered his field of vision.

The body of the devil, the face of an angel!

The woman in front of you is simply the best gift God has given all males!

Of course, it may be the greatest punishment for all men!

Stunning! Beautiful! Wild!

Fang Yue racked his brains, unable to imagine a word to describe the appearance and figure of the woman in front of him!

Exaggerated to the extreme S-curve, under heavy makeup, beautiful cheeks.

Fang Yue felt that his heart burned.

But it only took three seconds to burn. The fire in his heart went out!

**Chapter 199: Ling Feiyan**

The coquettish voice just now echoed in his mind.

This is Baili Secret Realm. In the past, the corner of \*\*\*\* that was chopped off by the strong in the fairy world!

Among them, ordinary creatures cannot survive at all! Those who can stay are great powerhouses!

"You are not human?"

Fang Yue was lucky in secret, and the vital energy in his body was like a gurgling stream, swiftly flowing through his body. Living up to expectations, life qi is indeed a panacea for trauma.

Just an instant of operation, his injuries healed by almost 80%!

It seems that Fang Yue is healing.

The enchanting woman giggled and said, "Yo! It seems that the little pet I caught this time has a good talent! In addition to having the space aptitude, I actually understand the laws of life!"

The voice fell.

Fang Yue's heart tightened!

He has operated Life Zhen Qi to heal his wounds more than once, but he has never been exposed like this!

The soreness of the whole body disappeared.

But Fang Yue's heart tightened even more!

Seeing Fang Yue's nervous look, the enchanting woman couldn't help but chuckle. She stretched out a jade covered with red nail polish and pointed at the lower part of Yue's forehead.

"Don't worry! Why am I willing to kill such a cute little pet?"

The soft voice echoed in Fang Yue's ears.

Fang Yue's mind also slowly settled down.

"The deity, Ling Feiyan! He is the master of this dense realm within a thousand miles! No one dares to move you in the deity's territory! You can heal your wounds with peace of mind, and refine the space fragments in your body!"

The enchanting woman reported herself to her family.

When Fang Yue heard the name Ling Feiyan, he always felt familiar, as if he had heard it from somewhere.

But he thought about it, but he couldn't find the real source and root cause.

In the end, Fang Yue had no choice but to give up, took out a pot of Baicao Liquid, and poured it in! This time, he was seriously injured.

Even if there is vital energy to heal the wounds, the consumption is quite large.

Pouring a pot of Baicao liquid into it, his true energy barely recovered.

Then, Fang Yue sat there frowning, and didn't want to heal his injuries at all.

"What's wrong? Although space debris is dangerous, as long as the catastrophe survives and refines it, it is not a big opportunity for you and others who have space talents! Why are you sitting here? Why not go refining?"

Ling Fei raised Yanfeng's eyes diagonally. Could this little pet be stupid by the space storm?

Fang Yue spread his hands and said helplessly: "I also think of refining, but I can't!"

"What? You won't? You want to lie to me, it's not so easy!" Ling Feiyan screamed, feeling that Fang Yue's lie was a series of stories.

Spatial talents are among the most abundant types of talents.

If you use it well, you can even easily comprehend the way of space.

Such a talented teenager will not focus on cultivation in which ethnic group falls into, but strive to cultivate.

All kinds of teachers and resources are all asking for what they want, and they will definitely not miss the upper half!

Fang Yue curled his lips and looked at Ling Feiyan's suspicious appearance. He smiled bitterly and said: "This beautiful sister, if you don't believe me, you can look into my body and see if there is any space power inside!"

Ling Feiyan was taken aback when she heard the words.

Could it be that this kid really didn't lie?

Ling Feiyan's bare hands fell.

The situation in Fang Yue's body was immediately clear! The three exquisite and pure powers flowed through the whole body, and they are nurturing Fang Yue's soul and body all the time!

But among these three forces, there is no spatial force.

Moreover, Ling Feiyan also perceived that Fang Yue's body not only has spatial spiritual roots, but also star talent, fire talent, and thunder and lightning talent. All of them are not weak, but they have not been developed, and they are all in a state of sleep!

Ling Feiyan's beautiful eyes opened wide.

The shock in my heart can no longer be described in words!

The mere repair of the second layer of innateness has actually mastered the three embryonic forms of life, death, and soul!

And besides him, there are stars, space, flames, thunder and lightning, all talents are extraordinary, but they are all for development!

This can no longer be described by genius, more accurately it should be the word evil, which can describe Fang Yue's current talent and state!

The higher the level of cultivation, the more he understands the importance of many Taoisms for practitioners!

Ordinary people who understand a kind of trail are considered to have good aptitude!

And that's also a practitioner of the world.

And Fang Yue, adhering to the three traditions, all heavens!

It's no wonder that people don't care about space, stars, flames, thunder and other talents, because they don't care at all!

The corner of Ling Feiyan's mouth could not help but a touch of bitterness emerged.

She often prides herself on her amazing talent.

But in front of Fang Yue, those self-confidence is so pathetic and ridiculous!

"Actually, it's not that I don't want to develop these talents. It's just that I'm a humble background, and inadvertently offended the son of a powerful elder in the family. That's why I was tragically hidden in the snow. I was so talented that everyone!"

Fang Yue entered the mode of China's good voice, and began to snort and tear his own past, how painful, how harsh and indifferent this Shencheng Fang family treated him!

Of course, if there is a skinny old man next to him, wearing a black gown, catching his erhu erhu with his legs up, the bleak mood is even more full!

Listening to this story, Ling Feiyan was filled with righteous indignation, and she couldn't wait to slap all the high-level Fang family who had no eyesight with her hands one by one!

"Little pet! Oh, no! You will be my brother Ling Feiyan from now on! Ooo, such a talented person has been so downhearted. It's so pitiful, so sad!"

Ling Feiyan made her own claim and recognized Fang Yue as her \*\*\*\* brother!

Even as a cold-blooded demon, she gave birth to compassion!

"Your talent is so good! If you don't dig it out, it would be a shame! Don't worry! With these methods, my sister can help you cultivate one by one to make it generous and radiant!"

Ling Feiyan is extremely determined! In the eyes, all are the rays of the Virgin!

In Fang Yue's heart, secretly rejoiced.

It's better to have a fist than a brain!

This work of holding the thigh finally saved his life again!

Thank China Blue, thanks for the good voice!

If it wasn't because they had taught General Fang Yue the story, then Fang Yue's life would be lost this time! "In fact, my sister is a demon, and her cultivation methods are very different from your human races, but in terms of fighting skills, I can give you some pointers! Also, this flame, the way of thunder and lightning, I also understand and can help you take a few detours! As for space, the way of stars

, I don't know how, but my subordinates are all masters. Among them, there are many people who understand the way of space and the way of stars! At that time, they will give you tips on how to cultivate in this area! "

Ling Feiyan blinked.

Has a somewhat playful taste.

Fang Yue was struck by the happiness that burst into him.

It feels wonderful, this result is simply good, don't want it! "The way of flame is actually to appreciate the essence of flame! It is passionate and unrestrained, you can think of it as an elf! Burst is a very important characteristic of flame! If you know how to spell, in fact, even if you don't have fire talents can also be condensed by magic

The power of flame! It is easier to appreciate the essence of the flame. "

Ling Feiyan became serious, explained the profound things in a simple way, and began to start from the very origin of the flame.

All the spells and martial arts are just the most surface things in the way of flames.

There is no doubt that it is a way of learning and cognition.

But as a master like Ling Feiyan who doesn't know what level, starting from the essence is the easiest way!

"Fire spell? Does this count?"

Fang Yue pointed, a small fireball pulsed at his fingertips. It is like an elf in the dark, with the cold wind blowing, swaying and dancing, and every tremor seems to express a kind of strength and indomitability!

In order to comprehend the law, Fang Yue learned almost all the basic spells.

Although the law still hasn't progressed, he has changed endlessly in terms of spells, and he can use it freely!

Before, the situation where a small fireball could blast off a courtyard completely disappeared.

He can control the power of every spell freely!

"Do you still know magic?"

Ling Feiyan was surprised again. As an unworldly powerhouse, she shouldn't be so gaffe. But the talent that Fang Yue showed, really makes people unable to calm down!

"Slightly understood!"

Fang Yue is humble. Ling Feiyan quickly reduced her inner surprise, "Since you understand the magic, it should be easier for you to comprehend the law! The magic is essentially a simplification and condensing of the rules of heaven and earth! You experience it with your heart, Treat the condensed elements of each magical technique as

It is a living life, they also have will and emotion! As long as you can clearly understand the emotions contained in each technique, you can use its full power, and even comprehend the true meaning of the law! "

According to Fang Yue's words, in the cave, he practiced his spells continuously.

Flames, lightning, and staggered falling.

Sometimes rumbling, sometimes ding-ding.

The originally quiet Dongfu suddenly became so lively!

Standing next to Fang Yue, Ling Feiyan stood silently with a smile, pointing out from time to time.

Fang Yue's spells continued, but the power of the spells was slowly increasing, creating more changes!

"The way of flame, I understand! It turns out that flame is like this!"

Fang Yue suddenly stopped the spell in his hand, spreading out his palm, a fresh flame swayed out. But the flame did not condense into a ball of fire and released it, but gradually outlined a fuzzy shape, gradually clear, and finally became the shape of a sparrow.

Sparrows and firebirds are lifelike, even every piece of feathers is as real.

It is twittering, combing the spread feathers in the sharp beak.

Ling Feiyan was stunned: "The flames transform into creatures, you really realize it?"

"Of course, I'm a genius!" Fang Yue patted his chest and said proudly.

Ling Feiyan's mouth is bitter. She had heard that people who know how to use magic techniques are especially easy to understand the laws. But I always feel that it will take at least ten days and a half to get an epiphany!

Unexpectedly, people are more popular than others.

How long is Fang Yue now.

It is to comprehend the way of flame!

Flame transforms creatures, it is a manifestation of the maturity of the way of flame.

It's not that kind of hazy state, but everything is clear to the chest, and the flame has been integrated into his life!

But this was just the beginning. The sparrow and the firebird fluttered their wings and quickly flew from Fang Yue's palm. She landed next to Ling Feiyan's cheek and shook it a few times.

Ling Feiyan was surprised. In any case, she is also a devil!

In front of the demon, there are also gender constraints.

Encountering such a scene of love, her emotions immediately overflowed!

"Thank you brother, what an exquisite gift!"

Fang Yue smiled, spreading his other hand gently, the thunder gathered, and a small dragon appeared. A silver dragon with five claws was born. Although it was not as thick as chopsticks, it had the majesty of a real dragon.

The silver dragon rose into the sky. Flying towards Ling Feiyan. The dragon and the sparrow, one on the left and the other, are like two naughty elves rolling coquettishly on both sides of Liang Feiyu!

### **Chapter 200: acquaintance?**

"Do you understand the way of thunder and lightning?"

Ling Feiyan's heart was even more surprised, and it could even be described as shock! He was pretty sure that before he taught himself, Fang Yue knew nothing about flames and lightning.

But in a short period of less than two hours, he actually realized the flames and the two avenues of thunder and lightning one after another!

You have to know that in the ordinary world, you only need to realize one, even if it is a trail, you can be ecstatic, because this is the biggest threshold for promotion to the rotation realm!

But more world-level experts are in front of the law's door, staying trapped for life, wasting thousands of light years, and even the threshold of the law can't be touched.

And Fang Yue actually comprehended two ways in two hours.

And all of them are at the avenue level!

If this is for those who are trapped in the realm of heaven and earth, because they cannot comprehend the Tao and the law, but still can't realize it, I am afraid that they will have the heart to find a piece of tofu!

It must be known that trails, avenues, and heavens are hard to comprehend one by one! If a number is used as a crude measure of difficulty, the difficulty of each layer is a hundred times different!

Fang Yue is only in his innate realm, and he has actually understood three heavenly paths and two avenues!

In those days, she had been in the ethnic group for three days, comprehending a trail, and she was already known as the rare cultivation genius in the family in a thousand years! Compared with Fang Yue, this glory was simply dumped eight streets!

If so, let Ling Feiyan know that Fang Yue made three dishes, and all three ways of heaven would be a master.

I am afraid that Ling Feiyan will carry a knife and chop off the enchanting Fang Yue!

Fang Yue smiled honestly: "It's all my sister's advice!"

Ling Feiyan was overjoyed upon hearing this, and raised her head and said: "That is! Since your understanding is so good, then we might as well strike while the iron is hot! Come on! Call me Benboer Ba and Ba Boerben! I want to see with my own eyes They teach space to my brother Fang Yue, the second way of stars!"

"Bun Bo Er Ba, Bull Ben? Why is this name so familiar!"

Fang Yue stayed and woke up instantly: "Damn, aren't these two catfish spirits in Journey to the West? What's wrong? Is it because the earth's water pollution is too serious?"

For a moment, two burly, dark-faced big Han Longxiang walked in with two long catfish beards on his upper lip!

Fang Yue was stunned, he was really a catfish!

It's not that Fang Yuelian got the golden eyes of Monkey King, but the shapes of these two goods, even with their \*\*\*\* you can see their prototypes! "Fang Yue, these are the two generals under my command. This is Benbo Erba, who is proficient in the way of space, and this is Borbun who is proficient in the way of stars! Two generals, this brother Fang Yue is just recently. Recognized \*\*\*\* brother! There are extraordinary talents in space and stars. Please two generals, one

Must be taught to him, the two ways of space and stars! "

Ling Feiyan's entrustment was solemn, the two catfish generals, although their eyes were full of different colors, no one said anything!

"You must know that the stars and the two realms of space are all illusory and elusive, and I will teach them with all my strength, but the specific level you can understand is your own savvy and good luck!"

Running around Ba's voice was steady and deep. He didn't blindly answer, he put the ugly words on the front, even if Fang Yue could not comprehend it, Ling Feiyan could not say anything!

Ling Feiyan nodded slightly: "This, I naturally understand! I also invite the two generals to teach each other. As for the result, I will not pursue it!"

Benbo Erba nodded, and then looked at Fang Yue. "The way of space lies in infinite change! In ordinary people's perception, this space is no longer anywhere, emptiness and ethereal, or it is like a blank sheet of paper, endless! As for thousands of creatures, everything, but It's the splashing ink above! But it's not true. The essence of space is actually composed of infinitely tiny space elements! If the space is condensed to the point of infinitesimal, the time in it is foamy. Space is also broken and broken, no

longer complete! This provides a certain foundation for space transmission. Manipulating space is essentially transforming itself into countless particles smaller than space elements, and transmitting them out of the gaps in space! This process actually has a speed. , But after the space is subtle to a certain extent, it will affect the change of time! Therefore, only a moment in a thousand years, a moment in a thousand years, will cause disappearance in one place

Lost, another phenomenon appeared immediately!

Of course, if you don't understand, I can describe it in another way. When your speed reaches a certain level, your quality will increase, but the flow of time around your body will slow down..."

Run around Erba, every opening is the endless space theory!

Fang Yue was stunned looking at this spit flying wildly and passionately!

Seeing Fang Yue's expression, Ling Feiyan thought that the god-brother she had just recognized was frightened. In fact, she had almost the same expression when she first listened to Benbo'er Ba explaining the law of space.

But Fang Yue and Ling Feiyan imagined them completely different!

The more he listened, the more excited he got!

This is not a space law at all. This is the literary simplified version of Einstein's "General Relativity" and Hawking's "A Brief History of Time". Okay!

Among them, not only includes the law of space itself, but also some content has even involved the more mysterious law of time!

If it were a native of the Xuanhuang world, he would definitely not be able to understand.

But Fang Yue is a science student who has received a complete four-year full-time university education. He can still understand this physics knowledge!

But the content of Benbo Erba's explanation is far beyond the cognition of Einstein and Hawking. He is a tall building and almost combines law and science!

Do not! From a certain perspective, the essence of science is a crude and simplified version of the law!

A lot of Fang Yue's previous knowledge suddenly became clear and coherent.

Getting started with the way of space is a matter of course!

It's another introduction to heaven!

A hazy blue light appeared on Fang Yue's body surface! The space debris accumulated in the body was instantly refined and transformed into a steady flow of space power, circulating in Fang Yue's body!

"You actually understand?"

Benbo Erba felt the breath of Fang Yue's body surface rippling slightly, like ripples of water, slowly spreading away!

His previous eloquence stopped suddenly!

Fang Yue smiled and nodded: "Gao Wu Jian Ling, I have a deep understanding!"

Fang Yue gave a thumbs up, and sincerely praised the carp spirit.

Damn it, no wonder my mother forced me to study hard every day when I was young. Work hard to get an undergraduate!

These days, being a fairy is more cultural than a scientist.

People who are illiterate can't really hurt them!

"Woo! Someone finally understands my theory! Someone finally understands my theory! I'm really touched, so touched!"

Runbo'er wept with joy, and came up to give Fang Yue a big hug.

A man with a height of nearly two meters, arms thicker than Fang Yue's thighs, and a measurable forehead, gave Fang Yue a big bear hug.

Fang Yue was almost out of breath. The ribs creaked, I guess they were two broken!

"Quick... quickly... get up, cough... I can't breathe... get up!"

Fang Yue struggled feebly.

At this time, Benbo Erba noticed Fang Yue's feelings, and a rare shy blush appeared on his dark face.

"Sorry, sorry, I was really so excited just now!"

Runbo Erba let go of Fang Yue. Fang Yue slowed for a long time before he gradually recovered! The breath of life flowed through his chest, only a crackling sound was heard, and the bones in his body were constantly repairing!

It seems that this time it was really broken...

"It's another..."

In Ling Feiyan's beautiful eyes, light was flowing.

For Fang Yue's almost perverted understanding, she was almost numb!

The open life needs no explanation!

This guy is not human.

Ling Feiyan had no choice but to comfort herself!

"Fang Yue, it is rare that you can understand Benbo Erba's explanation. He is a madman who studies space. Originally, he didn't have any talent in space, but he was unique with his own research on space! He finally stepped into space. The temple of the Tao!"

Ling Feiyan introduced with a smile.

If she has a lot of freaks, this rushing ba is definitely one of them!

Able to break into the mysterious and unpredictable realm of space and heaven. At least, Ling Feiyan had never seen it except for running around Baer.

Compared to Ben Bo Er Ba, Pa Bol Ben is more direct.

Even the first warning was too lazy to proceed. He started straight to the point and started the introduction of the star theory.

"What is the nature of stars? You must first understand that this universe is composed of countless stars. My mysterious yellow world is also an extremely huge star. The sun in the sky and the moon at night are all stars!

It's just that some of these stars contain huge energy, which can burn, glow and heat! So it constitutes the starlight of the stars! Some can be reflected, and the light can also be observed on the closer stars! "

Fang Yue is a little bit stunned, and he has just been exposed to the theory of relativity, but he is actually a heliocentric theory! Brother, are you sure you are a catfish, not a high school teacher, or a university professor?

"I understand all these things! The movement of the stars depends on the gravitational force between them!"

Fang Yue turned out all the knowledge of high school.

He can even list the calculation formula of universal gravitation clearly!

Tyrant Bolben nodded slightly, revealing a teachable appearance. "Yes, gravity and repulsion are the two greatest forces in the universe. They are no longer anywhere, controlling the operation of the vast universe! But you have to understand that the essence of these two forces is related to gravity, and Gravity comes from mass. So more specifically, gravity and repulsion

, Comes from the interaction between atoms! "

Fang Yue's brain was about to explode.

Sister Feiyan, are you sure that you are looking for two catfish spirits, two masters, and not Sir Albert Einste and Isaac Newton?

Ling Feiyan next to Fang Yue looked at Fang Yue with a pity on her face, and she explained in a low voice: "Usually, this bully Bolben is not like this! He is taciturn, who knows that he is so talkative, and what he says is all Some weird theories that even I can't understand!"

Finally, Ling Feiyan gave Fang Yue a self-seeking look.

Shi Shiran stood aside.

Although she is the boss in this force, she obviously has no right to intervene as long as her subordinates do not commit extremely serious mistakes!

Fang Yue had no choice but to listen to this bully Boer Ben's endless talk about his star theory, which is indeed unique! The three major laws, Doppler theory, have all been covered.

In the end, Fang Yue really heard something.

Stars fell one after another, covering the whole body! As for Tyler Bolben, he was obviously more dedicated than his elder brother. He hadn't seen such an obvious change!
