

## God of Life 1911

### Chapter 1911: Tianque Conference

A faint smile appeared at the corner of Fang Yue's mouth: "These dark creatures must be able to bring some unexpected surprises to the Dark Demons!"

In Tianque City, the Black Demons are oppressing Tianque City more and more.

The entire surroundings of Tianque City have been blocked by the Black Demon Clan. The Black Demon Clan is thriving, and the number of the clan is inexhaustible, and these Black Demon Clan also used Xudu's big killer, the desert giant Fang Yue encountered before. The beast is just one of them, as well as the dark snakes and scorpions and the flame dragon birds. In short, the creatures cultivated by the various black demons are all ferocious, with murderous auras all over their bodies, and their own combat power is all top-notch. Feeling strenuous.

"This \*\*\*\* Fang Yue, he himself greeted the merits and repeatedly attacked the Black Demon Clan, but in the end it was inflicting me to be avenged by the Black Demon Clan! In just half a day, my Luo family has lost 300 elites!"

In the city lord's mansion of the big city lord, Luo Mengyuan, the lord of the Luo family, complained.

Luo Mengyuan's words immediately aroused the resonance of other clan chiefs. This Tianque City is not just the ancestral land of the Luo family.

Their family heirs and all kinds of wealth are all gathered in Tianque City. If Tianque City fails, their ancestors' inheritance, connections, family roots, and glory and wealth they have accumulated over the years will all be destroyed!

"Our Zhao family has also lost four hundred disciples! The monsters summoned by the Black Demon Race are too nasty. They actually have the ability to burrow from the ground. They start a surprise attack from the ground, and they are simply caught off guard!"

An elder of the Zhao family was also echoing Luo Mengyuan's complaint.

"If you had known it earlier, when Fang Yue had just attacked Tianshi Mountain, he should be impeached on the other side in the name of destroying the friendship between the two races. Not to mention arresting him and sending him to the Dark Demons for atonement. The title of Guardian Envoy was removed! It was this culprit that caused me and even the entire Tianyuan City to suffer with him! If he had not suddenly come to Yongfeng Town to act as Guardian Envoy, how could I have been so embarrassed! "

The mansion of Dachengzhu was originally a strategy seminar, but Luo Mengyuan gave it a biased rhythm, and it abruptly became a meeting of Fang Yue's crusade.

If Fang Yue were present, he would definitely sneer at these Patriarchs, commenting on one that did not succeed and that it was more than a failure.

"Everyone, please be quiet, I hope you can understand that this time I invite you to discuss any response to the Black Demon Clan's siege to protect the entire Tianque City, rather than letting everyone come to fight Fang Yue!"

On the main seat, Lin An, the great city lord of Tianque City, showed an expression of no anger and prestige. Being able to sit in this position and sitting in this position is nearly a hundred years old, which means that this great city lord is not a People with wine bags and rice bags!

"Fang Yue's attack on the Black Demon Race is essentially correct. First of all, the relationship between our Human Race and the Black Demon Race is the relationship between the hostile races. Secondly, the Black Demon Race forces the other three races to join forces. The attack on Yongfeng Town resulted in the loss of the two newly mined veins in Yongfeng Town. Fang Yue thwarted their conspiracy and counterattacked. This also demonstrates the majesty of my human race! As for the black demons to encircle and suppress my Tianque City, it was also expected. Since half a year ago, I have warned you that this Dark Demon Race secretly hoards soldiers, horses, grains and grass in the border, and is about to move. It is very likely that they will attack my Tianque City! It's just a pity! Yes, you all turned a deaf ear to my advice! That's why the passive situation is now caused!"

Lin An, the great city lord of Tianque City, is not a person who doesn't understand right and wrong. His strategic vision and ability to distinguish right and wrong are far from being comparable to the warlord leader of the family like Luo Mengyuan!

Lin An's thinking was from the perspective of the righteousness of the entire human race, while Luo Mengyuan was from the perspective of his Luo family.

This \*\*\*\* sits in a different position, and the conclusion drawn is naturally the opposite!

Luo Mengyuan's face turned dark, he didn't expect that Lin An would be so disrespectful to himself and openly contradict him.

"Then I want to know what City Master Lin An has! Now that the Black Demon Race is already under the enemy, what kind of remedy does City Master Lin An have to retreat from the enemy to keep my Tianque City safe!"

Luo Mengyuan's voice is full of ridicule and ridicule.

In today's situation, no one can see that the entire Tianque City is already in jeopardy. If you fight with force alone, Tianque City is definitely the opponent of the Black Demon Race.

The best ending of Tianque City today is to negotiate with the Black Demons. However, the so-called peace talks, in essence, will cede land and pay compensation!

Whoever puts forward this plan first, who is the sinner of the ages in Tianque City, will be nailed to the pillar of shame!

But let's not talk about making peace, and blindly desperate, how long can Tianque City survive, when Tianque City runs out of ammunition and food, the city is completely broken by the Black Demon Race. At that time, they probably didn't even have the capital to make peace with the Dark Demons!

"Guardian Envoy of the Yin Ancient Road, Fang Yue is your good friend. You should read the news from Fang Yue just now!"

Lin An's voice fell, Luo Mengyuan glanced at the Yin Gu Dao standing beside him.

Yin Gu Dao followed out, and Yin Gu Dao cleared his throat and said: "According to the news that Fang Yue just sent, he has led the soldiers from Tianque City in his hand to break through the three large gathering spots behind the Black Demon Race. This Black Demon Race is already unable to carry out a long-lasting siege, if they want to take the city of Heavenly Que, they have to make a desperate move!"

The voice of Yin Gu Dao fell.

The four are silent.

After Luo Mengyuan and others were briefly shocked, their first reaction was to disbelieve what the Yin Gu Dao said, how powerful the soldiers of the Black Demon Race were, and how could the defeat of Fang Yue's remnants break through the Black Demon Race's level? What about layer defense?

"Lies, lies, these are all the big lies laid by Fang Yue. The Black Demons are heavily guarded, especially for the heavy stocking of supplies. This Fang Yue is just a practitioner in the Yin-Yang realm, and his subordinates are only Soldiers in Yongfeng Town! This strength is not even sufficient for self-protection, let alone the tight defense of the Black Demon Race and breaking through their stockpiles of supplies?"

Luo Mengyuan widened his eyes and snarled frantically at Yin Gu Dao.

Yin Gudao gave Luo Mengyuan a cold look: "What you can't do doesn't mean that others can't do it!"

"What's more, I want to correct one point. Fang Yue's real cultivation level should be at the level of the leader, not at the level of Yin and Yang as you said. As for the soldiers of the Black Demon Race around Yongfeng Town, it has been handed over. Luo Chunqiu and the others resisted! Luo Chunqiu and the others were very brave and insisted on resisting under the encirclement and suppression of the Black Demon Clan. They have already killed hundreds of soldiers from the Black Demon Clan!"

The voice of Yin Gu Dao fell.

Luo Mengyuan and others were all dumb, and their brains were a little unusable. Didn't Luo Chunqiu and others go to Yongfeng Town to capture Fang Yue?

How come to Yin Gu Dao's mouth but become a hero who resists the Dark Demons for Yongfeng Town!

"Luo Chunqiu, Luo Chunqiu has been there for so long, why didn't he even hear from him!"

Luo Mengyuan's heart suddenly became tense. He thought that Luo Chunqiu led the team to Yongfeng Town to capture Fang Yue without fail.

As a result, he found that he was still careless, and now Luo Chunqiu had completely lost contact, and even the communication stones within their Luo family could not reach him.

There was a trace of panic in Luo Mengyuan's heart. He really didn't know what happened to Luo Chunqiu and the others. According to the truth, Luo Chunqiu led thousands of people to Yongfeng Town, and took the lower Yue as a matter of grasping. Why did the elbow and axillary be transformed into it?

Not only did Fang Yue escape and break through the black demon clan's rear stockpiles, but also Luo Chunqiu and others became gunmen.

There is something strange in this, and there must be a big conspiracy!

Luo Mengyuan had served as the patriarch of the Luo family for hundreds of years. Although he was arrogant, he still had basic vigilance.

"Fang Yue arranged a layer of formation to envelop the entire Yongfeng Town! Luo Chunqiu and the others were blocked from the formation, and did not enter Yongfeng Town. At this time, the Black Demon came, and they just saw people. Kill, so the Black Demon Race and Luo Chunqiu fought, and Fang Yue took the opportunity to leave Yongfeng Town and killed the three stockpiles behind the Black Demon Race."

Yin Gu Dao kindly answered questions for Luo Mengyuan.

Luo Mengyuan almost suffocated herself to death when she heard that she was suffocated in her chest and did not spit it out.

This Fang Yue is too bad, right!

The formations were arranged to protect the entire Yongfeng Town, not allowing their own people to enter, forcibly forcing Luo Chunqiu and others to fight back against the Black Demon Race!

"This Fang Yue is so courageous! He framed his clan, is there any King Fa?"

Luo Mengyuan roared loudly, filled with endless anger at what Fang Yue did. However, Yin Gu Dao slowly said: "No, no, no, this has nothing to do with Fang Yue's half-wool yarn. It is not that Fang Yue did not open the formation to let Luo Chunqiu and others in, but Fang Yue was inviting Luo Chunqiu. At the time, Luo Chunqiu refused Fang Yue's invitation, so this time the responsibility for the matter lies with Luo Chunqiu. If this team of 1,000 people is killed in battle, your Luo family will bear the main responsibility for this team of 1,000 people. !"

In order to testify what he said, Yin Gu Dao also deliberately took out a jade slip and a picture of the jade slip, which clearly showed the scene of Luo Chunqiu and others talking with Fang Yue that day.

When Luo Mengyuan saw this, his face turned black.

I wipe your uncle.

This Fang Yue is clearly setting up a set for Luo Jia to drill!

All your layouts around Yongfeng Town are all kinds of formations with great lethality. When nothing is wrong, the ghosts are willing to go in!

Ten thousand grass mud horses galloped past Luo Mengyuan's heart.

At this time and at this place on the Yin Gudao, this jade slip was released, which clearly meant that the Luo family was behind them!

"The content in this jade slip may not be true. I have several methods to forge this jade slip for taking pictures!"

Luo Mengyuan intends to deny it.

But Yin Gudao sneered, "Patriarch Luo, this jade slip is recorded by Yuan Qing, the elder of the virtual fairyland level in the Human League. Could it be that you are doubting the reputation of the Human League?"

### **Chapter 1912: Li Kuo**

"Human League?!" When he heard these two words, Luo Mengyuan's arrogant arrogance suddenly wiped out most of it.

The Human League is high above the top, and it is the top power in the entire human race in the underworld, and the Anlan Dynasty is under the control of the Human League.

Although on weekdays, the League of People is not very involved in local affairs, anyone who dares to speak disrespectfully and slander the League of People will not end well in the end.

When Yin Gu Dao moved out the two words Renmeng, the authenticity of this evidence was beyond doubt!

Luo Mengyuan's face was sullen, no longer speaking, more words were wrong, he didn't know that the Yin Gudao still had the cards in his hand waiting for him.

The Luo family's arrogance dissipated, and the other families were also out of control.

Lin An took a deep look at Yin Gu Dao, and he mastered the rhythm of the entire meeting again.

"I know what you are thinking in your hearts! You are fantasizing that I will compromise with the Dark Demons, negotiate a peace, and after cede some of the benefits, go back to the past. You are still the high-ranking officials in Tianque City, and you are still in Tianque City. The patriarch of the domineering big family, you want to preserve your strength and use appeasement and compromise for the short-term peace! It's a pity that I can tell you from a responsible person now that your wishful thinking is wrong this time! "

"The prince of Anlan Dynasty has already ordered that this time Tianque City will fight to give the Black Demon a head-on blow and blow down their arrogance. They know the courage and greatness of the Human Race! All the forces in Anlan City must obey my dispatch. No one can be half-passive. Of course, you can also choose to disobey the military order at this time. I may not be able to take care of the thousands of families in Tianque City, but wait until the prince comes to supervise the battle in Tianque City three days later. At that time, I will truthfully report all your behaviors and actions to the prince!"

Lin An's voice was not loud, but it was exceptionally clear in the city lord's mansion of the big city lord, who was so quiet that the needle could be heard.

The prince is coming!

The news seemed to have dropped a bomb in the calm sea.

For a time, the leaders of the various forces in the city of Tianque had thoughts and thoughts in their minds.

"Fang Yue, are you really ready to try the law?"

A cold face appeared before Fang Yue a few breaths.

Silver mask, purple eyes, light gray wings.

The breath of the saint realm diffused down, giving Fang Yue a strong sense of oppression.

"Try the law with your own body? Are you saying that I used the taboo secret technique?"

Fang Yue had long known that this flesh-and-blood sacrifice would violate the rules of the Human League, but he did not expect that the law enforcement officers of the Human League would come so soon.

"Now this is in the racial battlefield. The victory or defeat of this war will be related to the status and reputation of the Human Race in the Southern Territory. Even if it uses taboo means to sacrifice me alone, it can be exchanged for the victory of the entire Human Race. Even if I curse What about the demise of China?"

Fang Yue's smile carried a trace of tragedy and determination, which made the law enforcer's eyes show a trace of hesitation and hesitation.

"Do you know that flesh and blood sacrifices are listed as taboos, not just because the use of this secret technique will cause a strong backlash for the caster, there are many exchanges of benefits behind it!"

The law enforcer did not act impulsively. Although the duties were different, they were all defending the way for the human race in the underworld. The law enforcers of this alliance were much more humane than the law enforcers Fang Yue had encountered before.

"This flesh and blood sacrifice once set off a \*\*\*\* storm in the entire underworld. Many ethnic groups among the ten thousand races have hidden the secrets of flesh and blood sacrifices. Once in a war that affected ten thousand races, the ten thousand races in the underworld became angry and hundreds of big clans All the methods of flesh and blood sacrifice were used to summon a large number of creatures in the dark abyss. However, it is surprising that after the creatures of the dark abyss came, the entrance and exit of the dark abyss were not closed. The creatures in the endless dark abyss Following this entrance to invade the underworld, the underworld all races joined forces and spent a thousand years of time, killed and injured countless powerful people, before reluctantly suppressed it, sealed the entrance to the dark abyss, and since then, this flesh and blood sacrifice has become the ten thousand race Taboo! Some people worry that excessive performance of the flesh and blood sacrifice will make the entrance of the dark abyss fall into the underworld again! However, time has changed, the war that year has passed for a long time, and the shadow of the war will also disappear. The fear of the ancestors also disappeared. Although this flesh and blood sacrifice is still included in the ranks of the taboo secret technique, the people of the ten thousand races are occasionally used by people, and no one stops!"

The law enforcers told the reason why the flesh and blood sacrifice was included in the taboo secret technique, and told an unknown history.

Fang Yue couldn't help but stunned when he heard this. Who would have thought that this flesh and blood sacrifice would have such a source and past.

"If you insist on using this secret technique of flesh and blood sacrifice, I won't stop you, but when the curse and ominousness come, you must inform the League of Nations. Regarding the curse and ominousness, many big figures in the League are interested in understanding. With research, there are legends that this curse and ominousness involves Xin Mi at the Heavenly Venerate level."

The request made by the law enforcement officers is surprising. Although the secret method of flesh and blood sacrifice is taboo, it is not really prevented.

On the contrary, there are big figures in the League of People who are interested in the ominous and curse caused by this forbidden mystery. They want to use the practitioners of flesh and blood sacrifice to study the source of this ominous and curse.

"Well, if I provoke ominousness and curse, I will definitely notify you in advance!"

Fang Yue solemnly agreed to the law enforcer's conditions.

The law enforcement officer nodded slightly, and then looked at the scattered bones, which were the corpses left behind by the giant desert beasts.

"Sure enough, the black demons have become more and more excessive! They are colluding with the evil demon outside the sky, and these desert giants are clearly contaminated with the atmosphere of the evil demon outside the sky. One sacrifice. If this sacrifice is only once or twice, it may not be important, but if it continues to accumulate hundreds of millions of times, it may cause some strong men among the evil demons to descend into the underworld!"

The law enforcers seem to be quite knowledgeable, and they have a deep understanding of the taboos and Xinmi among the ten thousand races!

"Tianjiao among the human race has emerged in large numbers. Throughout the history of the underworld, the strong and half-step Tianzun of the human race have emerged in endlessly, always in the top five or at least the top ten among the ten thousand races! Now the human race has fallen, each The races are gearing up against the human races, and they want to let the entire human race completely evaporate from the underworld when the human race is at a low ebb."

"The Human Race is now in a precarious position. If it is not self-improving, the entire Human Race may be completely removed from the list of strong races in the underworld in the future!"

The law enforcement sighed involuntarily, and his heart was also full of anxiety about the future of the human race.

"Although I am the law enforcement officer of the Human Race and I am not qualified to participate in this war of the Human Race, but I am also a member of the Human Race. I must contribute my own strength to the Human Race. Within half a month, I will stay in this Yongfeng Town and listen to Fang Yue's dispatch. I have heard of your deeds. You attacked the Black Demon Race and captured Tianshi Mountain. You are the hero of the Human Race and you are also among the Human Race. As a famous general, I believe I can play my best role under your command!"

This law enforcer, Fang Yue, was full of confidence, even Fang Yue didn't know where he came from!

"It's easy to say, it's easy to say, everyone is fighting for the human race, you must be so polite to me! Let alone fighting under my command!"

Fang Yue made a haha, and then said, "I haven't asked your name, Gao yet!"

"Fifteenth-level member of the People's League, Li Kuo, Department of Law Enforcement!"

The law enforcer held a fist against Yue Weiwei and said his name at the same time.

"Are you Li Kuo from the Law Enforcement Department?"

When Fang Yue heard Li Kuo's name, before Fang Yue said anything, Chen Ming showed a surprised expression.

"What? Is this Li Kuo famous in the Law Enforcement Department?"

Fang Yue was a little surprised. Although this Li Kuo's shape is quite cold, he needs wings and wings, and has cosmetic contact lenses, but Fang Yue feels that his cultivation level is average, and he shouldn't have a great reputation. !

"More than being famous in the Department of Law Enforcement, he is very famous in the entire League of People, but in the underworld! Do you know that Li Kuo of the Law Enforcement Department in front of you was at the level of the leader It was designed to kill a strong man of the Black Demon at the eighth level of the Saint Realm! At that time, this incident even shocked a strong man of the virtual fairy realm in the league. Later, the Black Demon The people wanted to come to claim Li Kuo's life, but they were stopped by the strong man in the virtual fairyland and fought a fierce battle with another strong man in the virtual fairyland of the Black Demon Race! In the end, the emptiness of the human race Xian Dasheng, and the corpse of the Xuxian of the Black Demon Race was hung on the wall of a city of the Human Race. Since then, Li Kuo has become famous in the League of Humans and is also on the Black Demon Race's kill list. On the number!"

Chen Ming is quite clear about Li Kuo's origins. In the Department of Law Enforcement, Li Kuo can be regarded as an outlier. He has received key training from the People's League. The People's League has provided him with massive resources for practice. However, in order to ensure that Li Kuo Without losing the blood and blood, he still has to hunt enough dark demons within a unit of time before he can exchange the corresponding training resources.

Li Kuo took the initiative to help Fang Yue this time. On the one hand, he considered it from the perspective of the human race. In this regard, no matter who it is, it can't be denied.

But on the other hand, Li Kuo might also want to use his participation in this ethnic war to gain enough military merit to exchange the training resources he needs this time.

"With the help of Brother Li Kuo, the Dark Demon Race must be inevitable this time!"

Fang Yue roughly estimated that this young Li Kuo became famous and had an extraordinary talent. Although he was a sage level cultivation base, his combat power level was already at the great sacred level level.

"Those who have gained the Dao will help more, and those who have lost the way are few. It seems that the Black Demons are destined to be defeated this time!"

A faint smile turned up at the corner of Fang Yue's mouth.

"Fang Yue, what are you going to do?"

Chen Ming saw Fang Yue walking towards the crowd of the Black Demon Race, and he quickly called.

"I want to go deep into the Black Demon Race to see what their Tianyuan City looks like!"

Fang Yue didn't look back, just left a word to Chen Ming, and then his form disappeared in the crowd of the Black Demon Race.

### **Chapter 1913: Bloodline change**

I thought that the Dark Demon Race would meet Fang Yue afterwards, but I didn't expect that Zuo Sha, a powerful saint in the Dark Demon Race, went out to meet him in person!

Chen Ming was shocked!

This Fang Yue had already planted the seeds in the Black Demon race early, just waiting for the wind and rain to blossom and bear fruit.

"Subordinate Zuo Sha participates in Master Fang Yue! May Master Fang Yue enjoy immortality forever!"

Zuo Sha put his right hand on his left chest. This is a courtesy of surrender among the demons, representing respect and unswerving allegiance to death.

"No gift! These people should be yours!"

Fang Yue's gaze flicked, and all the surrounding black demons bowed their heads involuntarily.

"These are the personal guards of the subordinates. There are 3,000 people in total, all of them are elite. The subordinates do not dare to betray their lives and deaths!"

Zuo Sha's response was quite firm.

It's the opponent's control ability, the cruelty of the Dark Demons is far beyond the human race.

The generals of the Black Demon Race directly control the life and death of their soldiers, even if they are sent to death before they go into battle, they cannot hesitate at all.

"That's good!"

Fang Yue nodded slightly, he was barely relieved that Zuosha was doing things!

"I asked you to prepare the identity for me, are you ready for me?"

"Subordinates are ready to stop! Master Fang Yue can pretend to be a young master of the Dark Demon Clan, Dark Moon, coming from afar and coming to Tianque City to sell various resources. However, the blood of the Dark Demon Clan is difficult to disguise. , I don't know how to deal with it?"

Zuo Sha handed a thick pile of materials to Fang Yue, which recorded relevant materials and information about Dark Moon and the Shadow Family behind Dark Moon!

This Young Master Darkyue Dezhi, in his thirties, has cultivated to the level of the leader realm. He is good at the way of blood and the way of darkness and Fang Yue is good at the same field! The Shadow Family started as a merchant, and this Dark Moon boy personally led the caravan to go to Tianyuan City to conduct business in order to pass the family test.

Today, Tianyuan City's materials are heavily stocked and intercepted. In order to meet the needs of the front line, Tianque City needs this kind of support from Shanggu!

As long as Fang Yue can win the trust of the big figures in Tianyuan City, the high-level people who want to mix into Tianyuan City should be caught easily and easily!

Zuo Sha's identity for Fang Yue is absolutely perfect, just right, even Chen Ming and the ten guards under his command have correspondingly concealed the identity.

"Okay! You did a good job in this matter. If it can be done, I can consider giving you fragments of the three laws, so that you can understand three different laws!"

Fang Yue has rewards and punishments. If Zuo Sha does not do well, he will punish him naturally, but if he arranges properly, Fang Yue will naturally reward him.

Hearing Fang Yue's reward, Zuo Sha couldn't help but straighten his eyes.

For any practitioner, this new law has an unspeakable temptation!

It's a pity that the understanding of the new law can be met and unattainable, and it is not something you can obtain through hard practice and insight.

Three brand-new laws, this temptation is enough to make the most steadfast black demons betray their own race.

What's more, Zuo Sha was originally on Fang Yue's side, and had entrusted his life and death to Fang Yue's hands!

"But Master Fang Yue, although this identity is well arranged, the Black Demon Race has its own test standards for bloodline testing! If it fails to meet the standard, this disguised identity will easily be exposed by the Black Demon Race!"

Zuo Sha looked at Fang Yue with a worried expression on his face.

For so many years, the Black Demon Race has rarely been infiltrated by the Human Race. This is due to the Black Demon Race's own unique blood test method!

The various transformation techniques of the human race are all ineffective in the face of this blood test!

If Fang Yue were exposed, he would never have a place to stand in the Black Demon Race!

"Don't worry about this, I will naturally not use my life to make jokes! I asked you to help me get the corpses of ten members of the Shadow Family, how are you doing this thing!"

"The Shadow Family can be regarded as a big clan among the Dark Demons. Although the core clan members are noble and their bodies are not easy to get, some ordinary clansmen can still be found!"

Zuo Sha waved his hand, and after that, two soldiers of the Dark Demon Race brought up the corpses of the Dark Demon Race members.

These corpses were already extremely cold and covered with a thin layer of frost. No one knew how long these corpses had been frozen by frost.

However, the various material structures in these corpses should still be well preserved.

"These corpses are all the corpses of other disciples in the Shadow Family, and their bloodlines are probably in the 50th to 60th generation."

"not bad!"

Fang Yue knelt down and inspected the corpses on the ground, his eyebrows were slightly raised, and he said casually.

According to legend, the black demons are the descendants of some ancient gods and demons. They become extraordinary because of their solid blood.

However, because of the inheritance of blood from generation to generation, the blood of the gods and demons in the Black Demon Race is constantly being diluted. Therefore, the purity of the blood of the Black Demon Race is generally measured by algebra! For example, Zuo Sha, the blood purity of the 50th generation, of course, as his cultivation continues to deepen the blood concentration in the body will gradually increase!

If Zuo Sha can raise one or two more small realms on the basis of his current realm, the concentration of his blood can be raised by one to two more generations.

In addition, some of the youths of the Dark Demon Race have extraordinary talents, capable of regenerating changes.

According to normal inferences, the teenagers of these dark demons should be able to reach the bloodline of the 60th generation, but their bloodline returned to the ancestors. At the time of birth, they had the purity of the bloodline of the 40th or even the 30th generation, and the gift of practice Be tough, become a genius in the Black Demon Race, and be trained by the clansmen!

Fang Yue dropped his finger on the brow of one of the corpses.

A drop of dark red blood seeps out from it.

With a flick of Fang Yue's fingers, a gust of wind rushed over the blood drop.

The blood bead condensed in an instant and became a dark red bead.

Fang Yue played with the blood bead with one hand, "This should be the crystallization of the blood of the shadow line! If I swallow it, I can disguise the blood and identity of the ordinary people of the shadow family in half a year, but The identity you arranged for me is the young master. Such a low concentration of blood is inherently unrealistic! This will also become the biggest flaw for me to sneak into Tianyuan City! However, there is a solution to all this! As long as I can Purify the bloodline again to reach the bloodline concentration within the forty generations. My identity disguise can be regarded as seamless, and I will never worry about being seen through the bloodline test of Tianyuan City!"

"Purify bloodline concentration?!"

Fang Yue's voice fell, and Zuo Sha's breathing suddenly stopped.

The bloodline problem is a predicament that has plagued the Black Demon Clan for countless years. The sages of the Black Demon Clan have exhausted countless efforts and few people can make a breakthrough in bloodline.

There are many ways to purify blood in the Black Demon Race. On the contrary, there are still a lot of them. However, these methods are either expensive or extremely cruel!

"I can only purify the bloodline temporarily instead of eternity! After purifying this bloodline, I can only maintain the bloodline identity of the Shadow family for three months. When the time comes, I will be beaten back to my original form. The bloodline of the previous shadow family is bestowed My blessings and blessings will also disappear."

Fang Yue is rather modest. His method of purifying blood is a special talent belonging to the Ten Thousand Devouring Demon Body. Unless he has a special physique, he cannot easily purify the blood of other races.

"Even if it's just for a while, it's amazing!"

After Zuo Sha heard Fang Yue's explanation, his heart was slightly lost.

Fang Yue's finger flicked, and a large amount of impurities in this drop of blood bead turned into black smoke and evaporated, the blood bead became more condensed, and the bloodline power in it was more refined!

"The purity of the bloodline of the 35th generation is already the limit of the bloodline level that I can purify! If I continue to purify it, this drop of blood will probably evaporate directly if I continue to purify it!"

A look of regret appeared on Fang Yue's face.

Zuo Sha had a dumbfounding feeling: "Don't be unsatisfied! The bloodline of the 35th generation is already the bloodline level of the core disciples of the Shadow Race! Even if you go to the Shadow Race, depending on the purity of your bloodline, Qualified to fight for the heirs of some big tribes! If I was born with a talent of 35 generations, I am afraid that I am already the core figure in Tianyuan City!"

"Yeah! Let's do this first! Next time I meet a strong man in the saint realm of the Shadow Clan, I will kill one easily and use his blood to refine it!"

As soon as Fang Yue said this, Zuo Sha felt like his hair was bursting.

Fang Yueming in front of him had only the Yin-Yang level cultivation realm, but when he talked about killing the saint, it seemed as simple as squeezing an ant beside the road.

You know, Zuo Sha is also a practitioner of the saint level in Fang Yue's mouth!

When did the saints in this southern region be so worthless!

It turns out that the strong people in the Saint Realm are all aloof, a giant, now they have been reduced to pigs, horses, cattle and sheep, and they are slaughtered?

Afterwards, Fang Yue purified dozens of drops of blood from the corpses of other Shadow Races. The concentration of these blood was obviously decreasing, except for Chen Ming and Li Kuo, who were the blood of the 45th generation. In addition, everyone else's blood is from the 50th generation.

It is not that Fang Yue is stingy, but that the raw materials are not enough.

After people have refined their blood, everyone has the ability to transform into a black demon.

"What about these abyssal creatures?"

Chen Ming admired the methods of Fang Yue more and more. If the Human League could also control this method of refining essence and blood and temporarily possess the blood of the Black Demon Race, the spies and spies of the Human Race would have already been mixed into the Black Demon Race.

"These abyss creatures are naturally going to follow us! If it is just an ordinary caravan of the Shadow Race, how can it quickly attract the attention of the big guys in the sky? These abyss creatures are enough to attract the big guys in the sky Attention, and the abyss creature is more able to bring out the identity of me!"

Fang Yue said of course.

### **Chapter 1914: Refuse**

This remark made Li Kuo somewhat helpless: "I thought I was already bold enough, so I dared to design ambush saints at the master level. I didn't expect my courage compared with Fang Yue to be insignificant."

Fang Yue patted Li Kuo's shoulder, "If you don't enter the tiger's den, how can you win? Crisis, crisis, is to find opportunities in danger."

Everyone set off, Zuo Sha led the way. The three thousand soldiers under his command were silent. The black armor wrapped the body tightly, with only the eyes and nostrils exposed.

"Although the Black Demon Race is a big clan on the surface, the living environment of the Black Demon Race is quite bad. Some places are listed as taboos, and it is impossible to live and explore!

On the way to the Black Demon Race, Zuo Sha introduces Fang Yue to the customs of the Black Demon Race.

The land of the underworld is vast and vast, but many places are poor in mountains and rivers. The sages of the human race have overcome thorns and thorns, extinguished crises, and turned dangers to the end, leaving a lot of fertile land for future generations, and the dark demons are more good at killing. Good at Feng Shui metaphysics, so although the living environment in the Black Demon Race is slightly better than before, there are still many evil places in the territory.

"This is the land of the stunned rainbow, occasionally there will be rainbow light breaking through the sky, the rainbow light is like a sword, and it can smash gold and stone.

Passing through the villages of the Black Demons, Fang Yue secretly measured the terrain.

He also has some accomplishments in Feng Shui metaphysics. Although he is not at the level of the Grandmaster Realm, he still has the level of a half-step master!

This rainbow-stunned land is not considered a terrible place, but if no one arranges suppression, it will be difficult for ordinary creatures to live and survive in this rainbow-stunned land.

But here, the Dark Demons have thousands of people who form tribal groups. The houses are scattered with smoke and smoke. It can be regarded as a relatively peaceful place.

"We also know that this place is a stunning place. Every year there will be three or five rainbow lights. People in my clan often suffer losses, but compared to other places, this stunning place is much safer. !"

Zuo Sha was slightly startled. He didn't expect that Fang Yue would still understand this metaphysics of geomantic omen, but even so, it was of no use. There were a lot of people who could see through the terrain, but not many people could really decipher it.

"Ok!"

Fang Yue didn't say much. He is indeed capable of cracking this amazing place. However, if he wants to crack it, he has to pay a big price. This is the place of the Black Demon Race, not his Yongfeng Town. Yue Laan took a lot of trouble.

"This is the place where the real dragon dies!"

"This is the place where the Phoenix is bleeding!"

"..."

Along the way, Fang Yue showed some mercy to the Black Demon Race. The Black Demon Race's living environment is indeed terrible. Some territories are simply terrible places. Even the strong in the real fairyland may not be able to survive. . Although the territory of the Black Demons is vast, the place where they can live and produce is not even 30%.

Fang Yue finally understood why the Black Demon Race had to compete with the Human Race for territory at any cost. In comparison, the Terran Race had a vast territory and rich fields, and it was like a paradise on earth.

Finally, Zuo Sha brought Fang Yue and others to Tianyuan City.

The walls of Tianyuan City are towering, about a hundred meters high. The sky of Tianyuan City is covered with dark clouds all the year round, and the sky is crisscrossed with thunder and lightning.

Fang Yue and the others stood under Tianyuan City, looking up, a low breath was involuntarily oppressed, which was suffocating.

"At first, Tianyuan City was not established by the Black Demon Clan himself, but the residence of a demon god-Xuangu. Later, the Xuangu Demon God fell in a great battle. The Black Demon Race took the opportunity to enter Tianyuan City and killed his wife. My subordinate, Dove occupied the magpie's nest, and only then took the Tianyuan City!"

Zuo Sha whispered for Fang Yue.

There are some things they can't talk about.

Fang Yue couldn't help but stunned when he heard the words. He didn't expect that this black demon race was predatory, and even the former residence of the gods and demon dared to rob without authorization.

"The gods and demons have different talents and powerful bloodlines. They have been unmatched since ancient times. What realm this Xuan Gu was at when it was at its peak, I am afraid it is not an ordinary \*\*\*\* and beast that can build a city of this level!"

Fang Yue's palm lightly touched the heavy and solid bricks on the wall. These bricks survived the frost and frost of the years without dying out, and there was even a faint sun fire flowing out of them.

Where Fang Yue's palm passed, the essence of the sun was cremated into crimson runes one after another.

Fang Yue pondered carefully. He was studying and considering what kind of secrets were contained in this brick.

These runes seem to have evolved from the sun's spirits, but in fact the runes they make up are all different, as if they were a gorgeous piece of text.

Fang Yue lights up these flame runes one by one, comprehending the essence of them, but these flame runes are not chapters, they are just scattered as if they are describing something!

"No, unless it is to penetrate all the flame runes in this Tianyuan City, otherwise, it is difficult to obtain effective information from it."

Fang Yue was talking to himself, he shook his head slightly, his eyes showed a touch of loss.

"The gods and demons are actually divided into three or six. The ninth level, Xuan Gu belongs to the lower demon gods. When it comes to adulthood, it only reaches the level of the Great Sacred Realm, although its own combat power can be comparable to the ordinary due to its blood. Immortal, but among the gods and demons, it is only the lowest level, but this mysterious ancient demons is very strong. His starting point is not high, but he is knowledgeable and talented. In just a thousand years, he used his own bloodline advantage to successfully cross. He has reached the threshold of the Great Sacred Realm level and stepped into the virtual fairyland level! Then he has ascended to the true fairy realm for a long period of time, and finally stopped at the half-step spirit fairy!"

"Back then, Xuan Gu set off for the demons. He once killed three real fairyland powerhouses in a pair of three on the battlefield. In the end, a spiritual fairyland powerhouse of the gods came to an end. Only after five hundred rounds of battle, he found one of Xuangu. The flaw killed him and his soul flew away. Unfortunately, although Xuan Gu died for the Demon Race, the Demon Race did not remember his merits. After his fall, all his children, wives, and children were killed by others, even his home, Tianyuan City. It has become a gathering spot for the Dark Demons!"

Zuo Sha was sighing for Xuan Gu, his life is very worthless.

Fang Yue was also a little embarrassed when he heard this.

How many heroes and heroes frightened the Quartet before they died, and after they died, even their parents, wives and children were killed because of it, and they could not be seen.

"Master Zuosha, you don't call the battle outside Tianque City, but return to Tianyuan City. Are you greedy for life and fear of death, ready to defect?"

At this time, a harsh voice came, and a middle-aged man with a cold smile on his face came slowly, revealing an arrogant smile in his steps.

He also stood at the level of the Saint Realm. In terms of the pure realm, he was much higher than Zuo Sha, standing firmly at the peak of the Saint Realm.

There are also fierce struggles within the Dark Demons.

This person is one of Zuosha's opponents in the Dark Demons.

"Tian Tong, keep your mouth clean. You can eat this meal, but you can't talk nonsense!"

Zuo Sha retorted, his voice was cold.

Defection is a serious crime among the Dark Demons. If anyone is put on this hat in the future, he will not be able to lift his head in the dark demons.

"Hmph, what did you do, I know in my heart, if it weren't to escape, the army of my Dark Demon Race is still in the pressure realm outside Tianque City, why would you take your men back to Tianyuan City first! This time! The matter is as hard as a mountain, and the facts are solid, no one can keep you!"

Tian Tong is very proud. He and Zuo Sha belong to two different camps in Tianyuan City. Zuo Sha belongs to the grassroots faction. All of them are mud legs that climb up from the bottom step by step. Although the quality is tough, Talent is aloof, but their rise is bound to divide the various limited resources in the Dark Demons.

So for the rise of these people, most of the veteran forces of the Dark Demons held a very repulsive attitude.

And Tian Tong belongs to the Tian family, who happens to be a disciple of the old family Tian family in Tianyuan City!

The dispute between Tiantong and Zuosha seems to be that the two have seen direct and secret fights, but if you have a little understanding of the distribution of power in Tianyuan City, you will know that

behind the dispute between the two people are the old nobles and grassroots forces of the dark demons in Tianyuan City. The epitome of the showdown!

"What is the iron proof? What evidence can you have in your hands? This time the commander of your Tian family's commander Tian Sicheng failed. The rear materials were heavily attacked by the human race. All three gathering spots were uprooted. Now the front is in a hurry. I specially invited a dark moon, the son of a merchant family in the shadow clan, to introduce him to the city to provide more material support for the army of Tianyuan City!"

Zuo Sha did not rush and argued for reasons. He knew that this time his early return would attract criticism, so he prepared his own policy early!

"The Dark Moon of the Shadow Clan? Why haven't I heard of this name?" Tian Tong was full of suspicion. This Shadow Clan is indeed an extremely large family in the Dark Demon Clan. Many disciples in the Shadow Clan are selling their products. This resource makes a living, but Tian Tong has never heard of a big merchant in the shadow clan whose heir is named Dark Moon.

"Hmph, the Shadow Family is a big family of the Dark Demons. There are tens of thousands of disciples in the family. How can you know them all! The military situation on the front is urgent and the resources ahead are tight. If the military affairs are delayed, Even the Tian family behind you can't afford it!"

Zuo Sha shouted angrily.

Tian Tong sneered: "My Tian family can't afford it? Zuosha, a bug-like fellow, dare to take the opportunity to threaten my Tian family? Do you know how deep my Tian family is in this Tianyuan City, even the city lord of Tianyuan City I dare not touch half of my Tian family disciple's hair!"

Tian Tong's mouth is open, and there is even a feeling that I am a disciple of the Tian family, and even the city lord of Tianyuan City can ignore it!

Fang Yue can feel more and more that the family power of the Black Demon Race in this Tianyuan City is not monolithic, and even the battles between them are more fierce than the human race.

"What's the matter with you Tianyuan City? Is this your way of hospitality? If so, it is not uncommon for my Dark Moon family to make deals with your Tianyuan City. Let Zuo Sha talk about the resources we negotiated before! Moon can't eat this closed door!"

### **Chapter 1915: Lu's plan**

Fang Yue snorted coldly, showing off his temper.

He turned to leave.

But it was stopped by Zuo Sha.

"Misunderstanding, it's all misunderstanding! Master Darkyue don't leave!"

Zuo Sha smiled and wanted to keep Fang Yue, while Tian Tong snorted coldly: "Who knows if this is the real young master of the Shadow Family, if he is willing to go, just let him go. I don't care about what he has in Tianyuan City. Resources!"

Tian Tong is quite arrogant and indifferent, his status is noble and he has great authority.

Even though he is both a saint, his status in Tianyuan City is more than 10% higher than Zuosha. The origin of this so-called shadow clan is unknown, and even if he has some materials in his hands, he can't match his disciple of the Tian family.

Fang Yue glanced at Tian Tong: "I suddenly changed my mind! A mere saint dared to stop me, could it be that I really can't be slaughtered?"

"Tianyuan City, it's just such a lax defense, I can wait to enter and exit like no one!"

Fang Yue whispered slowly, and runes poured out one after another from different acupuncture points around his body. Each rune represented a kind of rule and order. In a blink of an eye, the runes filled the sky and formed into pieces, just like black clouds. Suppression is on the top of everyone!

"Enemy attack! Enemy attack!"

Tian Tong's face changed slightly, he felt the murderous intent revealed in the rune.

However, before Tian Tong's voice fell, Fang Yue's palm had already strangled his neck.

"Uh uh uh!"

There was a difficult sound in Tian Tong's throat, but he couldn't get rid of the shackles of Fang Yue's palm.

"Is this the saint of the Tian family? It's so vulnerable, compared to the warriors of my shadow clan, it's almost a star and a half!"

There was a disappointed expression in Fang Yue's eyes.

Tian Tong's face was flushed from suffocation, not just because of the choking voice in his throat, but also the shame in his heart.

He is a disciple of the Tian family, how could he be so downhearted, his throat was choked by a young master of the shadow tribe, he didn't even have the ability to resist!

"Let go of our young master!"

"Hurry up and stop!"

All the servants of the Tian family were slaughtered, but they were all loyal.

It's a pity that there is not even a cultivator who has reached the level of a saint. In front of Fang Yue's runes, they were cut open their chests by black and black runes like paper, smashing their hearts. !

Blood spurted, everywhere in a blink of an eye.

All the servants of the Tian family fell to the ground, and they were slaughtered by Fang Yue in an instant.

"Dog-like things dare to do it to me! Are all the servants of your Tian family like that without a tutor, don't you know how to respect and humble?"

Fang Yue was angry, and this made Tian Tong's face purple. This Dark Moon was really so arrogant that he actually humiliated their Tian family tutor in public in Tianyuan City.

"Master Fang Yue, please stay back. If the big figures of the Dark Demon Race in Tianyuan City are sitting in town, if they are too public, they may attract the prying eyes of them! Even Master Fang Yue will be difficult to get out of!"

Nothing happened to Tian Kuan, Zuo Sha was already scared into cold sweat by Fang Yue!

This Master Fang Yue is really bold and dare to be so presumptuous in Tianyuan City.

Doesn't he know he is a fake?

If you act cautiously, you may be able to escape the catastrophe, but such a publicity will sooner or later attract the attention of the big people in the city.

"It's okay! I have already investigated the behavior of this shadow race! This group of people has always been extremely public. The more arrogant I am, the less doubtful the big figures in this city will be. After all, I am a shadow race. The talented young master is supernatural, rather than a worthless scumbag. It is normal to be spoiled by the clansmen in the Shadow Clan, a bit arrogant and domineering!"

Fang Yue solved it for himself.

Zuo Sha smiled helplessly, the master he knew was really maverick, and even the wrong things were done!

For so many years, he has never heard of anyone in the human race who dared to run undercover among the black demons. Fang Yue is already a precedent in the history of the war between the two races! Unexpectedly, Fang Yue not only came to the Dark Demon Race as an undercover agent, but also did so arrogant and domineering, lest the people of the world would not know that he had come to Tianyuan City.

Zuo Sha had already consciously tied his head to the waistband, ready to sacrifice and fall at any time.

"Hahaha, a guest from afar! Tian Kuan, this little friend of the Shadow Family has come from afar, how can you keep him out?"

A hearty laugh came from a distance!

Fang Yue saw a big man in a mysterious black armor walking slowly.

There are many ancient patterns on his armor, and each pattern represents a different content! Among them are tigers, cheetahs, fierce birds, and exotic animals.

This big man faintly exudes the aura of the great sacred realm level, and it is obvious that he is really a strong man at the great sacred realm level among the dark demons!

In Tianyuan City, when you reach the level and level of the Great Sacred Realm, you already belong to a big figure with the right to speak!

After all, in Tianyuan City, apart from a few old monsters of the virtual fairyland level that rarely show up, the most powerful creatures are the powerhouses of the Great Sacred Realm! The powerhouses of the Great Sacred Realm are among the top in the Tianyuan City. They say that they are no different, even the disciples of the Tian family still dare not contradict them.

"Master Lu Yuan, save me!"

When he finally saw the savior, Tian Kuan was like a drowning man who found a life-saving straw. He cried frantically to the big man. He had realized that the identity of the Tian family disciple could not save him.

This Dark Moon seemed to be a big demon who was unscrupulous, even in Tianyuan City, he was still showing up.

"This Dark Moon Daoist friend, can you sell him a thin face, let go of this ignorant Tian family disciple, now the human race is fighting fiercely with the dark demons, and the disciples in our race have suffered heavy losses! Although this Tian Kuan does not know what is good or bad, he is domineering and domineering. , But he is also a strong man in the Saint Realm anyway, and may be able to come in handy at the critical moment!"

Master Lu Yuan's attitude is rather gentle, not as ostentatious as Tian Kuan.

Fang Yue also had a slight affection for Master Luyuan, so he let this field go away casually.

"Remember, there are many people in this world that you can't afford to provoke! Don't bite people by the name of the Tian family, the Tian family may not be able to protect you forever! If you provoke an enemy you can't face , Even the Tian family may not be able to protect you!"

Fang Yue warned Tian Kuan, and then stopped saying more.

However, Tian Kuan completely ignored what Fang Yue said, and fled to Lu Yuan's side like wind.

"Master Lu Yuan, you want to avenge me! This Fang Yue is too arrogant. He even dared to commit assault on the street in Tianyuan City and wanted to kill me!"

Tian Kuan pointed at Fang Yue, his eyes almost bursting with angry fire.

Lu Yuan glanced at Tian Kuan: "Tian Kuan, Fellow Daoist Dark Moon said to you just now, that your temperament should indeed be reduced! If you keep spreading like this, even the Tian family will be the same. I can't protect you!"

Lu Yuan did not leave Tian Kuan face.

He is a strong man in the Saint Realm, and he is also aloof in Tianyuan City, and he is highly regarded by the city lord, and he does not need to be at the mercy of a junior because of a Tian family!

Tian Kuan heard this, feeling that his face was lost.

In the crowd, this Master Lu Yuan did not give him face, not only refused to help him get revenge, but even reprimanded him in front of so many people!

The narrow-minded Tian Kuan couldn't help but snarled: "Okay, okay, okay! Since you don't help me, then I will return to Tian's house to ask for reinforcements!"

Tian Kuan turned to leave.

However, he was worried that Fang Yue would stop him, but after taking a few steps, he found that Fang Yue was not there to talk to Grand Master Lu Yuan even though he was thinking about him.

"Master Lu Yuan entered the Tao with flames, cultivated the five flavors of real fire, and comprehended the realm of the Great Sage! At the same time, Master Lu Yuan is also an alchemist, and his attainments in elixir have reached the level of a master! It is common in the human race, but not many in my dark demons, so Master Lu Yuan has a high status in Tianyuan City. Even some old masters of the great holy realm level will give him some points after seeing Master Lu Yuan. Thin noodles!"

Zuo Sha secretly rumors to Fang Yue, introducing the origin and background of this Master Lu Yuan.

Fang Yue nodded softly when he heard this.

He could already see that this Master Lu Yuan seemed to be different from the general Black Demon Race.

"Hey, this Tian Kuan is really spoiled by the Tian family! He wasted all his talents and aptitudes. If he is willing to make progress independently, he may already be alone!"

Master Lu Yuan is broad-minded and treats Tian Kuan as one of his juniors!

He sighed for Tian Kuan's choice, and Fang Yue shook his head slightly.

"This wisdom and disposition are also part of the cultivator's talent. This Tian Kuan disposition and wisdom are destined to be difficult for him to go far on the path of practice!"

Fang Yue's two comments are no more.

Tian Kuan has returned to the Tian family to move the rescuers. If he can really bring the rescuers, Fang Yue doesn't mind using the blood of the Tian family's strong man to stand up.

If the Tian family doesn't come, even if it's over at this time, he doesn't need to bother with a saint of the Dark Demon race and waste his time!

"Dark Moon is very talented. I saw the blood in Dark Moon filling Amano from far away! The cultivation of the little friend is amazing. Although he is only at the level of the leader, he has real combat power. I'm afraid I can wait on an equal footing with me!"

As soon as Master Lu Yuan said this, Fang Yue's extraordinary point was directly exposed.

Fang Yue was slightly surprised, but he didn't expect that there would still be such a person in the Dark Demon Race who knew gold with such an eye.

Fang Yue was also not polite and modest.

"The shadow family has come out in large numbers, and I'm just one of them! Others take the route of refining qi, and I take the path of pure body, so I am obviously the cultivation level of the leader, but in terms of physical body But it is not weaker than an ordinary Great Sage! But this time I came to Tianyuan City to sell resources! I heard that Tianyuan City was fighting against the Human Race's Tianque City, so I brought a lot of resources to support Tianyuan City! "

Fang Yue smiled.

Lu Yuan didn't naively think that Fang Yue really came to give away resources for nothing. As the saying goes, there is no free lunch in this world, not to mention that the Black Demons are unprofitable and early-character!

Fang Yue came to the capital of Tianyuan City from thousands of miles, and he definitely wanted to sell the resources in his hands for a high price!

"I don't know what resources the Dark Moon Daoist has? There are many family powers in Tianyuan City. I can't guarantee other family powers, but my Lu family is almost running out of ammunition and food! If the little friend has supplies, I must pay a high price!"

Lu Yuan's eyes are full of longing light.

### **Chapter 1916: Fairy Talisman**

Before Fang Yue spoke, Zuo Sha beside him showed a look of surprise.

"Master Lu Yuan, there seems to be less than a hundred people from the Lu family on this expedition! With the family of Lu family, there is still no problem supporting the expenses of these 100 people!"

Lu Yuan smiled bitterly: "The Lu family in Tianyuan City is just a family that has just ranked in the top ten. If it weren't for me to become a great saint, it would be for the Lu family to further its position in Tianyuan City. Can't get in!"

"This Tianyuan City expedition has little to do with my Lu family! After all, my Lu family is humble and light. Even if the expedition wins, it is difficult for my Lu family to have a say when the fruits are divided! It is worse than that. Just give up! Don't send too many disciples from the clan into the expeditionary army. At that time, the success or failure of the expedition will not affect the rise and fall of my family!"

Lu Yuan said his embarrassment and helplessness.

The Lu family is now in a position that is not embarrassing or embarrassing in Tianyuan City. Say that the Lu family has no position and right to speak in Tianyuan City. There is a great sage who is good at refining pills in their clan, and has a high status. Many great sages of the same realm will ask for him. But speaking of the Lu family's status in Tianyuan City, the Lu family's background is not deep enough. In the face of the real big interests and the division of the big cake, the Lu family actually does not have much say.

"What does the Lu family need so many resources for? Could the Lu family have other actions?"

Fang Yue showed a look of curiosity, this great sage Lu Yuan became more interesting as he talked.

"What can I do? It's just the glory and wealth of Bo !! During the expedition of other families, my Lu family got a place where the domain gate opened. I am waiting to explore this new domain. If I can transfer this domain Conquering the realm, my Lu Family may be able to add a little bit of heritage and position in Tianyuan City to a higher level. If my Lu Family fails to explore and the entire army is destroyed, there may no longer be the name of my Lu Family in this Tianyuan City in the future. The road to practice is like sailing against the current! If you don't advance, you can't retreat!"

Lu Yuan was a little helpless and sighed. He has a calm character. Compared with fighting, killing and killing, he is more willing to refine the pill in his alchemy room. However, the current situation in the Black Demons is very difficult to give him. One such opportunity.

"If it is possible, I hope to be able to purchase some high-level Linggu spiritual food from the dark moon son's hands. Of course, if the dark moon son has an elixir that can quickly restore and replenish his stamina, then I can't ask for it. !"

Fang Yue suddenly understood that Luyuan came here to buy resources. Now Lu's family is at a crossroads position. A slight bias in choice may lead to the decline of the entire Lu family, and it will never recover.

"I have no problem with Linggu! This time I have brought abundant resources to Tianyuan City. I have a fourth-grade Linggu that is suitable for consumption at the Yin and Yang level. I also have about 3,000 kilograms of me suitable for the power of the master level. There are also 500 kilograms in his hands!"

Fang Yue is quite generous and straightforward.

The spiritual valley contains a huge amount of gentle vitality, which can double the speed at which practitioners can recover their true energy.

Linggu usually uses quantity as the unit of measurement. Fang Yue's opening is kilograms, which shocked Lu Yuan's heart.

Lu Yuan's smile gradually expanded: "Thank you for your support, Lord Dark Moon! If you need to use the old man in the future, the old man is bound to do it!"

"Easy to say, easy to say!"

Fang Yue quickly concluded his first transaction in Tianyuan City. Three thousand kilograms of Fourth-Rank Spirit Valley and 500 kilograms of Five-Rank Spirit Valley were eaten by the Lu family, even if it was Fang Yue's price. The Lu family did not hesitate to improve by 30%.

In special times, it is no longer time to care about the gains and losses of those small details! As long as the price of this Linggu isn't too high, their Lu Family will eat it and send it to the front without hesitation.

This time the domain gate was opened, the choice at this time was not a coincidence, but a careful selection by the Lu family.

If it were changed to another time, the other families would definitely join hands. No matter how abundant the resources behind this domain gate, it would be difficult for his Lu Family to have a few points.

At this time, the main attention of the major families in Tianyuan City was focused on Tianque City. They had no time to control the Lu Family's opening of the domain gate. They had to fight quickly and use this gap to control the domain gate. The world behind is completely occupied, and all the resources in it are eaten up and digested as quickly as possible.

Otherwise, once the war in Quecheng is over, when the clans come back and want to intervene in this domain sect, they will not even have the right to refuse!

Fang Yue also saw through the plight of the Lu family, so he let go and supported the Lu family.

Fang Yue saw that the big families of the Black Demon Race in Tianyuan City were not monolithic, they had their own careful thinking.

If Lu's family is used well, it might be a good move to disrupt the situation in the entire Tianyuan City.

Fang Yue officially settled down in Tianyuan City, and at the same time, news of Fang Yue's support for the Lu family spread quickly throughout Tianyuan City as if wings were inserted.

Fang Yue's generous shots and abundant resources in his hands have given birth to different minds in many clan leaders.

Especially the tight supplies in Tianyuan City ahead made Fang Yue look hot!

"There are many clans in Tianyuan City! Different families have different backgrounds! If you study carefully, some families have a long history, even thousands of years ago!"

When he really came into contact with the Black Demon Race, Fang Yue realized that the Black Demon Race was not simple! Especially the old-fashioned families in Tianyuan City are all cunning like ghosts, and what is exposed is just the tip of the iceberg in their families!

In this expedition, there were only ten teams of troops used in Tianyuan City, and the remaining ten teams were recruited from other surrounding tribes in the Dark Demons.

Although there are many strong players in the expeditionary army, among them there are some of the black demon clan's hole cards that have been treasured for many years, but those are not all the methods in the black demon clan.

Since Fang Yue sold the Linggu in his hand to Lu Yuan, Fang Yue has become a distinguished guest of the Lu family, and has even been invited to enter the Lu family and become a guest of the Lu family.

Fang Yue's status in the Lu family is not low, comparable to the level of elders.

After staying in the Lu family for three days, he discovered that even a small family like the Lu family, who only relied on a great saint-level strongman like Lu Yuan, barely ranked among the top ten families in Tianyuan City, also has quite a few Uncommon background and origin.

The Lu family's research on the flame line is quite profound. Their family started with runes. The ancestor of the Lu family was a strong man in the virtual fairyland. He had an extraordinary opportunity in his youth. A "True Explanation of Xianfu".

The author of this "True Explanation of Fairy Talisman" is already ominous, but the content in it makes Fang Yue fascinated by it.

"Xian Fu Zhen Jie" interprets the true meaning of various runes. This "Xian Fu Zhen Jie" has a total of thirty-six chapters. The Lu family generally only opens up the content of the first three chapters. As a guest of Lu's family, Yue can read the first five chapters.

The content of this "True Explanation of Xianfu" is mysterious, and the more you study it, the more it has meaning.

Fang Yue only finished the first chapter and felt that his comprehension of runes had been sublimated to a higher level.

"This "True Explanation of Fairy Talisman" is actually the true foundation of my Lu family! Many elders and patriarchs in the Lu family rely on this "True Explanation of Runes" to achieve Dao enlightenment. I broke through the Great Sage in the past, and it was also in this "Rune Zhen I was inspired by the solution, but unfortunately, my dull aptitude was only able to penetrate the first three chapters, and I got stuck in the fourth chapter!"

Lu Yuan came to the Buddhist Scripture Pavilion of the Lu family, and he took the initiative to chat with Fang Yue.

Although in name he is the patriarch of the Lu family, his status is lofty, and he is even considered a pivotal figure in the entire Tianyuan City, but Lu Yuan's heart is filled with an inexplicable sense of crisis, making him uneasy.

He wanted to find a way for the Lu family to survive. At the very least, if the Lu family was in a catastrophe and eventually withered, it would be able to preserve some blood for the Lu family and the foundation would not be cut off.

The Dark Moon Lord of the Shadow Race in front of him should be a good choice.

His aptitude is transcendent, his wealth is rich, his shots are generous, and he should have a rather extraordinary status and status in the Shadow Family.

If you make good friends, you may be able to leave a way for the Lu family, and you can survive the critical moment.

"This "True Explanation of Fairy Talisman" is indeed unique, and many of the details are commendable."

Fang Yue praised him, but he was not obsessed with "Xianfu Zhenjie". He also went a long way in the way of runes. He already had his own way. As for "Xianfu Zhenjie", he could only take Come as a reference and reference.

"Actually, ten thousand ways are connected. My alchemy is also established on the basis of the way of runes. The elixir is refined, and the medicinal materials are the first. However, after the elixir is successfully refined, every trace of the pattern can construct a rune. Improve the quality of pill!"

Lu Yuan continued to share his own insights. In addition to the hard practice of practitioners, their own insights are also very important.

Sometimes, perhaps just a little bit of aura can allow a practitioner to break through the inner barriers and reach a new realm and level.

Fang Yue smiled, the realization of this long journey is the way he has walked.

Unexpectedly, he would still meet such a destined person in the Dark Demon Race. Perhaps he didn't know the distance, but he had already embarked on the path of cultivating all kinds of things.

"This way of practice is very distinct, starting from the beginning and ending at the end! Although different paths of practice can learn from each other, but they go hand in hand and practice together, but it is not necessarily an orthodox path! The more paths you practice, the more distracting you will be. Great, if you spend too much energy on various paths of spiritual practice, it may lead to exhaustion of lifespan and ultimately nothing!"

The road of multi-cultivation is not easy to follow, Fang Yue felt that this long road is also destined, so he reminded.

Lu Yuan sighed lightly: "I don't know this! But my talents are limited. The bloodline is only the bloodline of the 50th generation of the Black Demon Race. According to my talent, I can cultivate to the ninth level of the Saint Realm level. It is already a great fortune, and there is no further possibility! That's why I took the risk and broke the bottleneck through alchemy and runes to reach the level of the great sage."

#### **Chapter 1917:**

In fact, from a certain perspective, this long journey is also forced to be helpless. There is no humanitarian spirit among the Dark Demons at all. As a weak person, you can only die willingly, or succumb to others. At the mercy, the level of the Saint Realm is indeed transcendent, but the level that only belongs to the upper reaches of Tianyuan City has not yet entered the core level of power.

For Lu Yuan's sake, for the Lu family's sake, his only choice was to take risks.

Facts have proved that he chose the right path, and now Lu Yuan is already a strong man on the second level of the Great Sacred Realm!

With his own power, he dragged the family behind him from a first-class family in Tianyuan City into the top ten! For him, this may be the greatest achievement in his life!

"That's it! Now that you have reached the second level of the Great Sacred Realm, it should be difficult to continue to break through! After all, this rune's ability to promote cultivation is also complementary!"

Fang Yue was heartbroken, but every word was telling the truth, and Lu Yuan had to admit it.

Lu Yuan felt that what Fang Yue said was indeed a bit heartbreaking, and he also felt that he had a tendency to self-masochistically find this nonsense Ke Qing.

"However, if I say that I can make you one step closer in cultivation, would you agree to owe me a favor!"

Fang Yue glanced at Lu Yuan.

Lu Yuan also glanced at Fang Yue in return.

Lu Yuan couldn't bear to attack Fang Yue, but the meaning in his eyes was already quite clear. He was telling Fang Yue that you, a kid at the leader level, were not qualified to point me to a powerful man at the great sacred level!

Originally, Lu Yuan thought that Fang Yue was just a young man, but he didn't expect him to be a little crazy!

"Don't believe me?"

The corners of Fang Yue's mouth curled up, and he whispered: "What you don't recognize doesn't mean it doesn't exist! For example, I am more proficient in this rune than you!"

Fang Yue tapped a finger, and the ochre light in the void gathered together, and the ochre light turned into an ancient and obscure rune.

"This is an earth rune, and it is the oldest rune recorded in the true interpretation of this fairy rune! This rune represents the earth and has a generous and expansive charm! This earth rune can condense Out of the land! I'm right about these!"

Fang Yue pressed this rune to the ground!

Sure enough, at the instant of Rune Land, a new piece of soil condensed.

Lu Yuan's heart trembled slightly!

He is very familiar with this rune, because it is one of the five basic five-element runes described in the opening chapter of the fairy rune.

Back then, he spent a lot of time and energy studying these five most basic runes in order to get a good introduction to runes.

It took him three months to comprehend the fur of this earth rune, and then it took him five full years to evolve the true meaning of this rune.

His speed is not fast, but in the history of the Lu family, his speed has already been regarded as a genius-level existence in the Lu family!

But compared with Fang Yue, he can be said to be the gap between the snail and the train!

This Fang Yue only studied the true interpretation of fairy runes for a few days, no more than five hours at most, and he was able to comprehend the true meaning of this earth rune and portray it easily. In terms of understanding, he was one and a half stars away from Fang Yue.

"This inheritance is very ancient and powerful, but in order to fully understand it, in addition to the comprehension of runes, it also requires some special opportunities! What you understand is only part of the essence, if you can penetrate all, even if only Comprehending the first two chapters will allow you to go one step further!"

Fang Yue pointed out Lu Yuan.

At the same time, his finger fell on the land where the earth rune evolved.

A ray of blue energy lingered on the ground, and then the blue energy condensed into a blue rune.

This cyan rune represents vitality and Yimu. This is the second of the five basic runes in the opening chapter of the fairy talisman.

This rune is very simple and clear, without any complexity or obscurity.

However, the more such a rune, the more incomprehensible it is, because life is changeable, regardless of form, and may be in various shapes, which is unpredictable and unpredictable.

Fang Yue's yimu rune is in contact with the earth rune, and the two complement each other. In the earth, yimu breeds, first the tender grass sprouts, and then thousands of fairy flowers grow, and the whole ground is filled with fragrance. , Refreshing.

"The five kinds of runes, respectively, are the most superficial realm. Comprehending the five elements is just the basis for comprehending the true interpretation of the fairy talisman. Before the different runes intersect with each other, it is the beginning of the true interpretation of the fairy talisman!"

Fang Yue personally demonstrated the teaching profession, and Lu was far from shocked.

"These rune laws can be merged with each other? It turns out that the true interpretation of fairy runes I have understood is just a fur? Yes, different laws can be merged with each other, so why can't different runes merge? I'm really stupid, even so simple I have never understood the truth, it is the power of the five elements that are mutually generated and restrained. This is the real reason why Xianfu Zhenjie uses the Five Dao and Five Elements Rune as the true interpretation chapter!"

Lu Yuan got inspiration from Fang Yue's mouth, and his heart was very happy.

The fusion of these different runes can be an opportunity for the fusion of laws, let alone the fusion of five kinds of runes, even if only two different runes are merged, he can easily break through one or two small realms, breaking the current From then on, the sky is wide and the sky is wide, and the position in Tianyuan City is even further!

Seeing Lu Yuan's joyous appearance, Fang Yue couldn't help but raise a faint smile.

"The true explanation of this fairy talisman is from an extraordinary source. If you study it carefully, it may give you a chance to break into the virtual fairyland in the future!"

Lu Yuan nodded, the other party Yue held a fist: "Little friend is really the nobleman of my Luyuan, and also the nobleman of my Lu family. This time I think someone on my road owes the little friend a favor. If the little friend needs it, Lu Yuan me Born to death, fierce and fierce, my brows won't be frowned!"

Lu Yuan owed Fang Yue a great favor.

Fang Yue didn't say much, just chuckled, and then said: "I hope Lord Lu Yuan can remember his promise!"

The real progress between the Human Race and the Black Demon Race was in full swing, but Fang Yue settled down in Tianyuan City.

Fang Yue didn't like the city of Tianque, especially those so-called big clans who joined forces to come to the door because of his crusade against the Black Demon Race, and Fang Yue's cheeks were even more displeased.

This time the Black Demons besieged the city, it can be regarded as a lesson for them! This is not because Fang Yue Xiaodu Jichang does not consider the overall situation of the human race, but if the future of the human race depends on the support of those short-sighted people, the future of the human race is really ruined!

"Clang! Clang! Clang!"

At this time, an ancient bronze bell with a height of several tens of meters appeared in the sky of Tianyuan City.

The bell rang, the sound wave oscillated!

Under the ancient clock, the entire Tianyuan City was swept in, the heaven and the earth shook, and the sun and the moon trembled.

"What is this?"

Fang Yue stared at the ancient bronze clock that emerged from the sky. This is an incredible master-level magic weapon. Although its level is not high, it is hidden in the firmament, able to absorb the essence of the sun and the moon, and realize continuous self-transformation in the passage of time!

Hearing the bell, Lu Yuan's voice couldn't help changing.

He didn't have time to explain, and he shouted directly: "Open the guardian formation!"

As his voice spread, the formations of the Lu family were lit up one after another.

The ancient formation is like a behemoth that has been sleeping since ancient times, waking up slowly to his roar.

Countless formations have turned into a fierce place for the entire Lu Family in an instant, even if the strong of the Great Sacred Realm step into it, they will be torn into pieces by these formations!

"Gu Zhong warns, this is a sign that Tianyuan City is about to fall into a war crisis!"

Zuo Sha walked out of the other courtyard on one side, his eyes staring at the ancient bell that had turned out of the sky.

This ancient clock has not ringed for hundreds of years.

Who would have expected this ancient clock to make a sound again!

"The ancient bell is silent, even if there is a virtual fairyland level, it has not easily warned. Now that the ancient bell rings three times in succession, it may mean that the entire Tianyuan City is about to face unexpected disaster!"

Zuo Sha's fist was clenched, dripping with sweat.

Hundreds of years ago, this ancient bell rang, and it just rang, and it was a catastrophe that swept across the entire Tianyuan City. There were three strong people from the virtual fairyland in Tianyuan City. The corpses of the eight great sages lined up in a row. He also participated in that battle, and left in his heart the memory of the nightmare that could not be erased.

Now that the ancient bell rings three times in succession, does it foretell that Tianyuan City is about to be destroyed?

Zuo Sha couldn't imagine, he was very nervous.

This ancient clock has been suspended in the sky of Tianyuan City for thousands of years, and it will never give a false warning.

"Hahaha, I have been trapped outside the sky for hundreds of years, and now I can finally reign in the underworld again! The life of the underworld is full of flesh and blood, just enough to make me wait to eat and replenish the blood of so many years!"

An evil figure sounded from outside Tianyuan City.

This is a ten-foot-tall giant. He stands out of thin air, standing in the void, his whole person is enveloped by an evil atmosphere, chaotic and hazy, it is difficult for people to see his true face!

"It's an evil demon!"

Zuo Sha saw the other party's appearance clearly and distinguished the other's breath, he couldn't help clenching his fists, clenching his teeth, and said every word.

The evil demon outside the underworld is the great enemy of the entire underworld. In front of the evil demon outside the underworld, the entire underworld needs tension and vigilance.

"The outer demon at the pinnacle level of Saint Realm! This is probably just the beginning, not the end!"

Sure enough, the voice of Lu Yuan's prediction fell.

A place in Tianyuan City where the evil demon outside the sky was imprisoned burst open.

Massive evil demons from the outer world gush out from it, like a surging river!

These people weren't the evil demon outside the sky at first, but because of the techniques taught to the black demon clan by the practitioners, they have only become like this.

"Heaven does evil, you can live, if you do evil, you can't live!"

Fang Yue commented that at this moment, he already understood the cause and effect of the matter.

These black demons who have been converted into outer demons are probably the black demons who have been sacrificed by the outer demons and gifted with martial spirits!

**Chapter 1918: The origin of the evil**

Back then, they wanted to use the spirit of the evil demon to cultivate the human clan and become more powerful, but they did not expect that they would be used by the evil demon and transformed into their own servants!

At the same time, in an ancient temple in Tianyuan City.

The figures of the three outer demons slowly lifted into the sky. These three outer demons were all levels of a virtual fairyland. They were unfathomable. Each one seemed to be an immortal demon god.

"Thank you, stupid Dark Demons, for allowing my people to come and regenerate with your bodies! In return, I will sacrifice all the Dark Demons in the entire Tianyuan City and become our food. Let me wait for more people to descend into the underworld and escape the bondage!"

A heavenly evil demon at the imaginary fairyland level spoke, with a loud voice, arrogant!

His words completely shattered the plans of the Black Demons, and even crushed all the pride in their hearts.

Originally, they treated the Black Demon Race as a cow and horse. Who could have expected that the Black Demon Race also took advantage of their greed, reversed their spearhead, and targeted them.

"It's just a demon from the outside world, do you really think that you can make a big storm with you? I am prepared to prevent you from counterattacking since I dare to raise you like pigs and horses!"

A great sage from the Dark Demon race stepped through the void, his posture was no longer tall and straight, the blood in his body had declined to the extreme, only dry bones and wrinkled human skin were left!

The great sage of the Black Demon Race, although he was at the level of the Great Sacred Realm, his cultivation base was so high that it could be comparable to a strong person who had just entered the virtual fairyland. He is one of the foundations of this Tianyuan City, his lifespan is exhausted, and he sleeps underground all the year round. Unless Tianyuan City encounters life and death, the power of destruction, otherwise, it is impossible for him to appear in front of everyone!

"Yuan Changqing, I didn't expect him to be alive!"

Chen Ming also walked out of his house and stood beside Fang Yue. The Human Race and the Dark Demons were enemies all year round. Chen Ming was very familiar with the Dark Demons of his own rank.

This great sage of the Black Demon Race is one of them, Yuan Changqing, from a certain perspective, can be regarded as a practitioner in the same age as him, but he finally crossed that threshold, and from then on, And Yuan Changqing was finally stuck in front of the virtual fairyland for various reasons, unable to break through, and became what it is now!

"Does the Black Demon Race also face disasters?"

Li Kuo said softly. This time he went out, he saw a side that was impossible to see in the League of People.

At least there were not a few people in the League of People, who dared to go deep into Tianyuan City at this time, dormant, and saw such wonderful changes taking place in Tianyuan City.

"The reincarnation of the heavens, the killers will kill them all! In fact, the timing of the outer demon's choice is really right! I have to say that there must be an expert behind them! Now, the elites in Tianyuan City are all out, it must be the easiest time for them to take possession of the magpie's nest when the city is empty! As long as they can take down the city, they can build an altar and allow more people to come! When the evil spirits outside the sky dominate the city, who can stop the pace of their entire race coming!"

Chen Ming secretly communicated to Li Kuo. Li Kuo is also a seeded player in the League of People. Although he is not a monster like Fang Yue, he is at least normal. It can be expected and controlled not like Fang Yue, like the clouds on the horizon were as erratic, and it was impossible to judge his next move and strategy.

"Hahaha, you dark demons are really naive! The time has come, don't you still admit your vulnerability?"

A heavenly evil demon at the imaginary fairyland level said softly, his voice was illusory, as if it were played by a special musical instrument! The voice of the evil demon at the level of the imaginary fairyland fell, and the soldiers of the Black Demon Race in Tianyuan City who had not been defiled and infected by the martial spirits burst into flesh and blood, and became a heavy rain!

Yuan Changqing's complexion couldn't help but become livid!

This imaginary fairyland level evil demon has reached the point where he can speak and speak, and a note or a gesture can change the law and order between the heavens and the earth, showing a variety of different methods!

Fang Yue noticed that those black demons who had burst into pieces were not wasted by the evil demon outside the sky, their bodies became sacrifices and were sacrificed by the evil demon outside the sky.

Those flesh and blood were sucked away by black whirlpools appeared in the void.

Those black whirlpools are the source of the sacrifice, and no one can control how terrifying the source of the sacrifice is.

"The evil demon outside the sky is planning to play a big game this time! They want to cut the entire Tianyuan City away from the roots, not leaving one!"

Fang Yue whispered, this is his first formal contact with a demon outside the sky.

Sure enough, this tribe is very demons, a bit similar to the destruction demons encountered by the Ten Thousand Realms Universe, but the outer demons are more evil than the destruction demons, and the rising dragons in the tribe are ever-changing and different.

For example, the three evil demons in front of the sky exist at the level of imaginary fairyland. Among them, one looks like an evil eye, and a huge eye hangs in the air, directing people's hearts like a black sun, while the other two evil demons are the appearance of the God of War with three heads and six arms and the appearance of the lion head human body. The appearances of these evil demons are very abnormal, and it is difficult to find a common place in appearance!

The evil demon outside of the sky does not abide by the rules of war in the underworld, and proceeds step by step in accordance with normal war standards.

As soon as war was declared, the army of the evil demons outside the sky gathered quickly outside the city of Tianyuan.

In the blink of an eye, the evil demons from the sky appeared outside Tianyuan City as if they had fallen from the sky!

"Tianyuan City is really doomed this time! The evil spirits outside of the sky have calculated them for a long time, echoing from inside and outside, and united to make a joint action to put Tianyuan City to death!"

Although Chen Ming said so, there was no excitement on his face.

The evil demon outside the sky is the enemy of the Black Demon Race, but also the enemy of the Human Race.

If the evil demon outside the sky had conquered Tianyuan City, the next step would be to stretch out the hand of sin to Tianyuan City and head towards the human race!

"These outside demons can kill one, right?"

Fang Yue sighed helplessly. This plan couldn't keep up with the changes. Originally, he was going to go to the undercover in Tianyuan City to stir up the dark demons in the Tianyuan City to earth-shaking, but who would have thought that before he could take action, the evil demon outside the sky would already be there. Can't hold back!

What Fang Yue didn't expect was that under such circumstances, he would have to change his camp, fight for Tianyuan City, and help them resist the evil demon!

"His!"

In Lu's home, a formation was broken by a demon from the outside world that looked like a poisonous snake with a long red letter. It was a venomous snake at the level of the leader, covered in green, and its eyes seemed to be two ghost fires embedded in this poisonous snake. In the eye sockets.

The poisonous snake suddenly jumped forward, easily crushing the calf and leg bones of a disciple at the main level of the Lu Family Teacher.

"Ah! Viper!"

The disciple at the main level of the family teacher exclaimed, and his backhand was slapped towards the poisonous snake at the main level of the teacher.

His strength is quite strong, and there is a faint smell of howling wind.

The disciple of the main level of the Lu family teacher slapped it down with a palm, the poisonous snake of the main level of the teacher suddenly released its mouth, its head raised, and the red core pierced as easily as a sharp sword. The palm of the disciple of the Lu Family at the master realm level.

Lu Yuan couldn't bear to see the disciples of the clan fall down. With a finger, he turned into a red light.

The red light broke through the air, piercing the snake's head, and the snake's brain burst, leaving only a soft body.

And the disciple at the main level of the family teacher suddenly turned dark, and the poison in his body broke out. The whole person's skin was as black as a piece of coke, and he fell to the ground.

He fell silently, the essence of his body escaped.

Lu Yuan sighed lightly: "The evil demon outside the sky is like the description in the legend, which can be inferred according to common sense!"

"It's pretty good that the Lu family can do this!"

An old man slowly walked out of the ancestral hall of the Lu family. His steps were slow, but he had a firm taste.

"Great Elder!"

Seeing the old man, Lu Yuan also showed a respectful look. He bowed his waist and bowed his salute. This great elder had a very high status in the Lu family, and even gave Fang Yue the illusion that the status of this great elder had already surpassed that of Lu Yuan. The patriarch of the Lu family.

"Great Holy Land!"

The old man approached Fang Yue, Fang Yue's keen sense of consciousness caught a very faint wave of true energy in the old man's body. This seemingly ordinary old man turned out to be a strong man in the Great Holy Realm, and this old man was in I am afraid that the years of immersion in the Great Sacred Realm level far exceed that of the patriarch Lu Yuan!

Only then did Fang Yue understand that this old man might be the roots of the Lu family.

Lu Yuan was only used by the strongest of the Lu family to attract the attention and attention of all races, and the real backing of Lu family was the great elder.

"Dark Moon, this is the Great Elder Lu Wanli of my Lu Family! He is also my enlightenment teacher in cultivation!"

Lu Yuan introduced the great elder to Fang Yue.

Fang Yue clasped his fists and said, "I have seen the Great Elder!"

Lu Wanli laughed and said: "You are welcome! You are the benefactor of my Lu family. If it weren't for your generous donation, it would be difficult for my Lu family to find enough resources to support the exploration of that small domain!"

Lu Wanli was quite hearty. With a wave of his hand, his sleeves trembled, and a five-color light floated from it, which turned out to be blocking the hole in the Lujia formation drilled by the poisonous snake.

"Little friend Darkyue, the body of this headless alien demon can be taken away. The right is my compensation for making you frightened at Lu's house!"

Lu Wanli spoke, but the words he said made Fang Yue quite confused and confused.

It seemed that the corpse of the evil demon that looked like a poisonous snake was quite precious, and it was a rare gift to give him.

Seeing Fang Yue's doubts, Lu Yuan laughed and quickly explained: "Little friend Dark Moon seems to be not very familiar with the evil demon outside the sky, and doesn't know that the body of the evil demon outside the sky contains all kinds of peculiar effects! The evil demons outside the heavens are actually countless years ago, the dominant race between the heavens and the earth, they have appeared in the outside world beyond the underworld through the distortion of time. These creatures from the distant past, the cultivation techniques, and the resources they enjoy are exhausted. They are all surpassed this era, so these alien demons meet their opponents in the same realm! But at the same time, the essence contained in their flesh and blood is far beyond the creatures of this era!"

When Lu Yuan revealed the origin of the evil demon outside the sky, Fang Yue couldn't help but be surprised.

Ancient creatures from time and space!

No wonder these evil demons often give him a feeling of ancient, vicissitudes and eternity!

### **Chapter 1919: Close up**

"The pure blood of the creatures of the evil demon in this world can be used to baptize the flesh and improve the purity of the blood. The various essences contained in the flesh can even be refined into a rare drug!"

Lu Wanli introduced with a smile: "If it weren't for your great kindness to my Lu family, I wouldn't be willing to give you the body of this viper! If I leave this body in my clan for tempering, at least I can let him Hundreds of our clan members have been baptized, and their bodies are stronger!"

Fang Yue knows that the coming of the evil demon in the sky is not necessarily a disaster, and there is also a blessing in the catastrophe. The evil demon in the sky has a relatively ancient and pure blood. If it is used, a group of great geniuses can be produced in batches!

"Then I would be disrespectful!"

Fang Yue put away the corpse of this poisonous snake. If he has time, he can study its value.

"Prince Dark Moon, the old man still has a ruthless request. I don't know if Young Master Dark Moon can help the Lu Family, fight against the evil demons outside the sky, and help Lu Family survive this calamity and difficulty. The corpses of the demon from the outside world killed by Lord Moon are all owned by Lord Dark Moon! And after the event is completed, according to Lord Dark Moon's efforts, my Lu family will also have corresponding compensation!"

When Lu Wanli spoke, Fang Yue immediately understood that Lu Wanli gave him the corpse of the poisonous snake to attract others. Fang Yue's strength is extraordinary. The Lu family already knows that Lu Yuan once personally said that Fang Yue's combat power The level is not weaker than that of an ordinary great sacred realm powerhouse. What's more, there is a strong team behind Fang Yue. There

are unfathomable guardians who are suspected to be the great sacred realm powerhouse, and Fang A team of abyssal creatures in Yue's hands, all fearless and fearless, their origins are mysterious.

If Fang Yue nodded, Lu's high-end combat power would have doubled.

In this case, the probability of Lu's surviving in this catastrophe would be much higher.

"Naturally, there is no problem with this. I am waiting to be in the same spirit as the Lu family! What's more, I have already got a good bond with the Lu family's patron before. The Lu family is in trouble. If I don't help, wouldn't it seem like I'm too much? Ruthless?"

Fang Yue had originally planned to help. If the evil demon outside the sky had occupied Tianyuan City, he would never let go of the Tianque City not far away from the Human Race. Only by controlling the danger under the territory of the Black Demon Race can he be sure of the human race's territory. Not harmed.

"The old man is here to thank Master Dark Moon!"

Hearing Fang Yue's willingness to help, Lu Wanli couldn't help but smile. This Fang Yue is definitely a strong aid, at least able to help them at this critical moment of the evil demon invasion.

"The Lu family now has an array of formations, which can temporarily stop the evil demons from the outside world! However, these formations are strong and weak, and they are arranged by the Lu Family's Patriarch of the past. This formation can resist for a while, and cannot resist for a lifetime. If only the tortoise is huddled in the formation, the Lu family will only linger and it will be difficult to escape the calamity of this killing!"

Lu Yuan's long-term vision has already seen the real crisis.

In this Tianyuan City, the various races have successively activated their own clan guarding formations, fighting on their own, and there is not much idea of a united front!

For example, today's garrison of the outer demons in the massacre city and those disciples who have not had time to return to the family, when these people are slaughtered by the outer demons, their butcher swords are about to be swung at each family!

"If that's the case, what then? Could you open up the formation and let the disciples of the clan kill them?"

An elder of the Lu family said in a sad tone.

The Lu family has been standing in Tianyuan City for thousands of years. When it comes to the profound background, who would have thought that today's Lu family will suffer such a calamity, and if one cannot handle it, it is very likely that the entire Lu family of Tianyuan City will be removed.

"Don't be so excited! The ancestors of my Lu family thought that there would be such a day when they established the gate in Tianyuan City. So when they established the Lu family, they left a back hand. There was one in the Lu family. The ancient altar, the upper part of this altar is dedicated to thirty-six sleeping blood sculptures. These thirty-six blood sculptures can be revived with the blood of the strong. After the recovery, each sculpture can play a half-step virtual fairy. Level strength! But these thirty-six sculptures can only be used once, and after use, they will be annihilated and no longer exist! So the

ancestors once stared, if it is not for the critical moment of the life and death of the entire group, you must not use these Blood sculpture!"

Lu Yuan slowly began to explain that he did not appear to be very flustered, because there are cards in the Lu family to face the crisis. Although this background cannot be used at will, but it has reached such a time, they can't help but hesitate!

"The refining method of this blood sculpture is also recorded in the Buddhist Scripture Pavilion of my Lu family. In addition to the half-step imaginary-level blood sculptures left by the thirty-six ancestors, my Lu family has also sculpted over the years. Although there are a lot of blood sculptures, although the level of realm is not as good as the heritage left by the ancestors, the victory is that they are huge and can also serve as the guardian of the family for my family!"

Lu Yuan's voice was heavy and deep, and by this time it was no longer the time to hide.

After Fang Yue heard this, he knew how high-quality his previous plan was. The so-called expeditionary force may be just a superficial force for Tianyuan City, at least not to the point where it can hurt them.

A Lujia who barely made the top ten in Tianyuan City actually had a variety of hole cards.

And the clans in Tianyuan City ranked higher than those in the Lu Family's family may have accumulated more profound details, and it would not even be an exaggeration to describe them as unfathomable.

"The problem now is that these blood sculptures need to use the blood of powerful creatures as sacrifices for sacrifice and resurrection. Now my main task is to hunt down the evil demons outside the house and bring their bodies back as sacrifices. Sacrifice!"

Lu Yuan made arrangements in an orderly manner, and the entire Lu's house began to rotate gradually as if it were a huge machine.

"Friend Dark Moon, I will deliberately expose a flaw in the Lu family's formation for a while. Then, the evil demon from outside the sky will break through this flaw and break into my Lu family. Then I will wait to catch the turtle in the urn. You must Help me wait for a helping hand!"

Lu Yuan said to Yue solemnly.

He already has a careful plan in his mind!

And Fang Yue, as an important part of it, must not flash and neglect.

Fang Yue was taken aback when he heard the words, and then said, "Master Lu Yuan, don't worry, I won't drag Lu's back!"

After dozens of breaths.

Sure enough, there was a problem with the Lu family's defensive array. A gorilla-like demon from outside the sky smashed a wall of Lu family with one punch.

The wall, which was far stronger than steel, was easily torn apart like a thin layer of paper under the gorilla's fist.

The wall opened, and the influx of other evil demons was unstoppable like a flood that opened the gate!

In a blink of an eye, hundreds of extraterrestrial demons had infiltrated the Lu Family. The extraterrestrial demons had different levels, some were only at the level of Yin and Yang, and some had reached the level of Saints!

The whole road was in chaos!

However, the three heavenly evil demons of the virtual fairyland level suspended in the air are always watching with cold eyes and unmoved!

"These Void Fairy-level Heavenly Outer Demons have a lively mind. Although they are not sure whether this is the conspiracy of the Lu Family, they can definitely restrain their desires and not take action at will!"

Fang Yue's gaze fell on the three heavenly evil demons at the virtual fairyland level, and these three heavenly evil demons at the virtual fairyland level were the real initiators of this catastrophe.

"Close the door and hit the dog!"

Lu Yuan's voice fell.

The wall that had been hammered by the gorilla healed spontaneously.

In the earth, a wall made of obsidian grew out to fill the vacancy of the wall just now.

The evil demon from the outside world that just poured into Lu's Yuanyuan has become the fish on the Lu's chopping board!

"what!"

Before the disciples of the Lu family began to counterattack, a stubborn evil demon swallowed a disciple of the Lu family at the master level.

It is not pure blood, but its blood is relatively pure, at least the blood of a sacred animal within ten generations.

This stubborn cultivation realm is only in the first level of the leader realm, but it swallows the same level of the leader realm, and even the Lu family disciples who have a higher cultivation realm than him are one by one, and it takes time to digest No need.

"I really don't know whether the road family closed the door to beat the dog or led the wolf into the room this time!"

Fang Yue shook his head lightly, and then shot according to the agreement with the Lu family, a palm fell, and the scorpion seal was thrown into a barren dimensional space!

This kind of pure blood is more valuable than death!

Fang Yue took Suohu away, but it was only a drop in the bucket. That Suohuo was only in the middle of the ranking among the many alien demons who broke into Lu's house. Although his bloodline was pure, his cultivation level was not high enough!

The other evil demons have the top level of the leader realm and even the powerhouse of the saint level!

"Is this the evil demon from the outside world? It's far beyond my imagination! Fighting against them and the records in the books, the gap is really big!"

Lu Yuan fought against a demon outside the heavens that looked like a fallen angel on the eighth level of the Saint Realm.

Although Lu Yuan is a strong man in the Great Sacred Realm, he can't have the upper hand in the battle of the evil demon that looks like a fallen angel!

He fought quite hard in this battle, and various treasures showed the colorful glow of the sun, but he could only retreat the evil demon that looked like a fallen angel, but couldn't completely kill it!

Lu Wanli also fought with a demon outside the heavens at the pinnacle level of the Saint Realm. His condition was slightly better than that of Lu Yuan. His age was older and his precipitation was solid. Even at the level of the Great Sacred Realm, he could be regarded as one. The strong.

But he also has his problems.

Lu Wanli did not dare to exert his full power, because although there was only one outer evil demon fighting him head-on, there were still four weaker saint-level outer evil demons staring at him. If he dared to relax a little, the four-headed saint realm. I am afraid that the demon of the outside world will be culled immediately!

Lu's miscalculation.

They put hundreds of days away evil spirits into the Lu family, but they were not confident that they could defeat them!

## **Chapter 1920: Son of Poseidon**

"Let's do it! If you don't do it again, I'm afraid this family will be gone!"

Fang Yue spoke, he took the initiative to step forward, clenching the fist of his left hand, giving birth to a brilliant brilliance.

The golden brilliance is gorgeous and dazzling, and the golden runes linger around Fang Yue's fist, blasting out with one punch, the endless golden light is gorgeous, occupying everyone's vision!

Fang Yue's fist shadow fell.

A demon from the outer world of the fifth level of the Saint Realm returned with a vertical eye on his brow and blue skin, which made Fang Yue unable to distinguish the blood and feet in his body.

However, the saint among the evil demon in the outer world was not nervous when he encountered Fang Yue's punch. A disdainful smile appeared on the corners of his mouth.

"Is there only this kind of Xiaoxiao in the Dark Demons?"

Behind him, the water soared into the sky and turned into a monstrous wave.

The waves lifted the sky and slapped towards Fang Yue, the waves collided with the shadow of the fist, and the surrounding space was shattered by the aftermath!

The collision between the waves and the shadow of the boxing eventually became equal.

Fang Yue was slightly startled, this day the evil demon is really very different from the ordinary underworld creatures! If his punch were to fall, ordinary underworld creatures would have been torn apart long ago, let alone the fifth level of the Saint Realm, even the strong people of the 8th and 9th levels of the Saint Realm would not be spared.

But the evil demon in front of him was different, his combat power far exceeded his own realm.

Fortunately, the punch just now allowed Fang Yue to test out the source of the opponent's blood.

Son of the Sea God, this is a rather partial race!

There are not many people in this group, but they are born with extraordinary ability to manipulate waves!

There are also creatures of this race in the universe of Ten Thousand Realms, but those guys who talk about the ability to understand the Great Dao of Water are far from the opponents of the evil demon in front of them.

"Son of Seagod! Outer Devil!"

Fang Yue whispered softly, but Fang Yue actually didn't expect to meet the creatures of this race again.

But by the way, he really met this time!

Moreover, the son of the Seagod is likely to be a pure-blooded creature with extremely high bloodline concentration. On the surface, it is at the level of the Saint Realm, but in fact it is already at the level of the Great Saint Realm!

At this level of combat, the leapfrog battle is no longer exclusive to Fang Yue alone. Each of these out-of-the-world demons possesses similar methods, and has a great advantage over the creatures in the underworld in terms of blood and secret techniques. !

"The Dark Demon Race of Tianyuan City is simply too difficult! It turned out to be such a perverted player! If the trouble is not good, there may be no tomorrow in the entire Tianyuan City! These alien demons are simply a group of fighting geniuses! "

"Prince Dark Moon doesn't say thank you!"

Lu Wanli in the distance suddenly felt the pressure drop sharply.

This Fang Yue helped him contain a son of the Seagod who was comparable to the Great Sacred Realm level. Even if other people joined forces, they would not be able to take him down for a while.

"Tianshan Black Seal!"

Fang Yue slowly circulated the zhenqi in his body, his face was full of stern expression, a phantom of a high mountain appeared on his left hand, and a torrential river appeared on his right hand!

The two palms merged together, and the endless river entangled the mountain. This mountain turned into a huge seal. Fang Yue lifted it high and stamped it against the evil demon that day.

The big seal is like the sky, covering the sky!

When a seal falls, the world is broken!

This is a combat technique that Fang Yue randomly collected from the mind of a cultivator in the Saint Realm of Wanhua Universe.

After all, he is still an undercover agent, and it is not good to use too many martial arts that contain his identity brand.

As a result, the big seal had just fallen down, and a huge basalt appeared on the surface of the son of the sea god. The basalt sprayed water, and a column of water rushed into the sky, directly punching a hole in the black seal of the Tianshan Mountains.

"Fuck, what is the secret method of the Wanhua Universe! Dare to show off even with this power?"

Fang Yue was speechless, originally he thought this martial arts was very powerful!

It turned out that it was an unusable look, so I started to complain!

The Tianshan black seal was directly penetrated, not to block the desire of the son of the sea \*\*\*\* to do it.

One of his fingers twitched, and endless tidal sounds rushed from all sides. The huge waves rushed across the world, and the clouds on the horizon were shattered by the waves.

This son of the Seagod wanted to use the huge waves to completely shred Fang Yue's body and smashed it into fleshy flesh.

"You angered me!"

Fang Yue glanced at the son of the Seagod. He has never suffered from the law in fighting with people for so many years. He has always trampled others on the rules. When is it his turn for others to use the power of the rules to suppress him!

Fang Yue decided to expose his true skills a little bit!

He snapped his fingers, and all the waves subsided instantly.

Everything was calm and calm, as if nothing had happened, the Son of the Seagod suddenly spit out a mouthful of black blood, his face turned pale, and he lost all his blood!

"What is this method?" The son of the Seagod asked in anger, he is the son of the Seagod, and the natural darling of the Dao of Water!

However, he had never thought that one day he would suffer a big loss in the way of water, which he is most proud of, and be held back by others.

"What kind of method is this? This is a god-like method!"

Fang Yue displayed the God Transformation technique, and his temperament suddenly changed. His feet were off the ground, floating in the air, behind his head, a series of divine rings appeared one after another!

He seems to be a god's residence in the dust, giving people a feeling of boundless magic!

When every character falls, it resonates in the void, causing the resonance of the law!

Lu Yuan beside him was stunned!

How can this dark moon become bigger and stronger?

Previously, he said that Fang Yue had comparable combat power to the Great Sage Realm, which was actually an eight-point compliment, but now it seems that he is a word that people can really fight against the Great Sage level creatures!

Moreover, people can not only fight, but also pretend to be fools to bluff the evil demon.

What is the origin of the Dark Moon Lord, when did such a player appear in the Shadow Clan?

"Pretend to be a \*\*\*\* and play a ghost, we outside the evil demon never believe that there is a real god's residence in this world!"

The son of the Seagod sneered. He recovered from the shock just now. Although he didn't understand what kind of means was used by this human race to instantly annihilate the tsunami that he had summoned, he was still proud in his heart, thinking of all this. It's all coincidence, and the same method can't be repeated.

"Boy, die!"

The son of the Seagod rose into the waves, and he held a blue trident in his hand. The sharp tip of the trident reflected a faint brilliance under the sun.

The trident pierced towards Fang Yue's chest, fiercely, and a phantom of a nine-headed sea snake appeared behind him.

"The Fury of Poseidon!"

The son of the Seagod roared, and the icy blue law and order fragments hovered on the trident.

"It's already this time, are you still struggling meaninglessly? Accept your fate! You can't beat me this time!"

"Frozen World!"

Fang Yue bent over and touched the earth with his hands, and a breath of extreme cold spread from his hands, the earth was covered with frost and frozen for thousands of miles.

The waves at the feet of the Poseidon's feet directly turned into a layer of ice-blue sculpture, and even the Poseidon himself turned into an ice sculpture.

Click, click!

The frost attached to the surface of the Seagod's child shattered.

The son of the Seagod struggled out from it, but his face was blue, and he was obviously frozen from internal injuries.

"This, what kind of method is this, how can it be able to run the Great Avenue of Water to such a subtle level!"

The Seagod's Son had become calm, and he realized the gap between himself and Fang Yue.

Fang Yue just defeated him is the Great Avenue of Water that he is most proud of.

His Dao of Water has reached the pinnacle of the fourth level, and he is already considered a leader among the group of the children of the Seagod of the same generation, and he is a world-famous arrogant in understanding the Dao of Water! At the very least, Fang Yue's water avenue has realized the level of the middle or even later stage of the fifth layer, and it is purely crushed by law in terms of laws. Only then did the water avenue freeze his body into a sculpture.

A dark demons of the underworld at the level of the leader realm is even stronger than the children of the sea \*\*\*\* at the level of the saint in terms of understanding the law of the road of water. This made his mind suddenly a sense of absurdity!

What is going on in this world?

Could it be that their clan hasn't descended to the underworld for three thousand years, and the creatures in the underworld are already so terrifying?

The thoughts of the Seagod Child's heart rolled, but fortunately, his gaze fell on the body of the other dark demons who were fighting hard, and his heart was slightly comforted.

It is estimated that only one freak like this has been met by him. Otherwise, the Dark Demon people are like this, then they don't have to counterattack the underworld, they will simply spend their old age in their own time and space!

The Seagod's children turned their heads and ran away without saying anything. Their clan was fairly straightforward. They would fight if they could not fight, and they would run away. The Seagod's children knew that he was definitely not Fang Yue's opponent.

So as soon as he turned around, he plunged into the other clansmen, wanting to join forces to resist Fang Yue's killing technique.

"Arrange an array, arrange an array! Use the Purple Light Thunder Array to kill him!"

The son of Poseidon roared hoarsely.

However, Fang Yue still moved forward very calmly, his steps were firm, the soles of his feet were strong, and every step he fell, he showed strong confidence.

What is the son of Poseidon?

He was hesitant in his eyes.

Even in the area where the Seagod's Son is best at-the Dao of Water, this Seagod's Son is far from his opponent.

The two clashed, and the Son of the Sea God had already lost.

This scene fell in Chen Ming's eyes, and Chen Ming was nervous, ready to protect Fang Yue at any time.

Fang Yue's cultivation base is good and his combat power is amazing. Perhaps he can stabilize the son of the Seagod in solo fight, but in the real aspect, it is difficult to take advantage. The school of battle formation of the evil demon is unique, and several people fight together. Can leapfrog to kill the enemy, and reach the level of dozens of battle formations, even across one or two realms, killing the enemy is not arrogant.

If Fang Yue slightly underestimated the enemy, he would easily capsize in the gutter.

Clouds moved in the nine days, and thunder raged.

The purple thunder hovering in the air brewing, may come down at any time.

Thirty-six heads of the cultivator realm-level alien demons united to form a large battle formation slowly moving around.
