

## God of Life 1991

### Chapter 1991: Yingxu Dan

"Thank you senior for taking photos!"

Fang Yue clasped his fists and thanked this true fairy in silver armor. At this time, his heart gradually settled down!

"My name is Chen Shi, and I am an official member of this World Conference. The holding of this World Conference is facilitated by my efforts! The strength of the World Conference is immeasurable, and it is definitely not a small like Chen Unmie. Fish and shrimp can mess up!"

Chen Shi's tone was full of contempt when talking about Chen Bumei.

This gave Fang Yue a deeper understanding of this world!

"The Tianxia Club borrowed the Tianfu Pavilion this time and re-arranged it! If you are interested, you can walk around, maybe you will get extra rewards!"

Chen Shi Fang Yue made suggestions.

Fang Yue nodded slightly, thanking Chenshi for his proposal.

Afterwards, Fang Yue strolled in the Pavilion of Tianfu.

"Senior Chenshi, is there no clear theme for this World Meeting?"

Fang Yue wandered for a long time within the scope of the first floor of the Pavilion of Heaven, but he never noticed any clear and specific tasks announced by the people of this world.

Fang Yue is curious, this world will spend such a lot of energy, gathering a large number of talents and outstanding people here is definitely not doing useless work, it is just as simple as letting everyone gather and hold their heads!

"The Pavilion of Tianfu has nine floors! Each floor has a different theme and goal!"

Chenshi smiled, and Fang Yue explained: "However, not all the people invited by the world will gather, so it will take a while before we enter the real theme!"

Fang Yue knew that it was so, and only then could it meet his expectations and expectations.

"In fact, it's okay to reveal some in advance. In this world meeting, no matter which level the theme is related to the future catastrophe! This catastrophe is quite serious, and it will sweep the entire underworld, and no one can escape the catastrophe. In terms of scope, some large forces that have survived in the world may be wiped out from this world forever! It is not that they have enough strength and foundation to be safe! The recent theme of the World Conference is almost always how to deal with it at any level. Work \*\*\*\* the catastrophe! Sometimes it will exchange and auction some treasures, cultivate more talents, and deal with the unpredictable calamities in the future, and sometimes release some reward tasks to find something the world will want!"

Chen Shi explained it a little bit, which gave Fang Yue a general direction in his heart!

The world would choose to hold such a rally at this point in time, and it was not a whim, but a preparation.

The pavilion of Tianfu is full of people.

The strong gather together, the talents gather!

Powerful people from different places have shown their true glory, some are chatting with each other, getting to know each other, and some are exchanging some secrets, frowning from time to time to understand the truth of some things!

"I know a secret of the supreme treasure left by a supreme powerhouse in the ancient times. Although it is only a legend, if it is true, it may be a great opportunity!"

Some people started to peddle some unreliable gossip. Although the news is not guaranteed to be accurate, it has attracted a lot of people's onlookers.

Because it involves the great figures of the supreme level, many news are impossible to be very reliable. The scheming and layout of such existence may run through the ages, and its influence and significance are inestimable!

But the big crisis is also accompanied by big opportunities. Some people like to take risks and want to take this opportunity to try it once to see if they can find a way out for themselves!

However, these tumultuous sounds soon ended!

The first floor of the Tianfu Pavilion was soon completely occupied by a majestic and heavy voice!

"First introduce myself. My name is Xi Guang. I am a director of the Tianxiahui. This time I invite you to participate in this gathering. I hope that Tianjiao from all races can have an opportunity to exchange and learn from each other, and exchange some exercises. Treasures, mutual benefit and win-win! At the same time, I also have a small wish in the world, that is, I hope you can help me to complete some small tasks!"

A young and handsome Jian Xiu boarded the first floor platform of the Pavilion of Heavenly Talisman, his smile was gentle, like a spring breeze!

"As we all know, the calamity of the underworld is approaching. In the years to come, the world will rise and fall. Some arrogances will rise up and become rare supreme figures in the world, and some will become bones and corpses under the scouring of the long river. Turned into a stepping stone for them to reach the top!"

"It's better to compare personal honor and disgrace with the rise and fall of the entire underworld, and it seems too stingy! This time the world will focus on the rise and fall of the entire underworld, and arrange the next tasks from the big eye!"

"The task list of each level will be distributed to you in the form of jade slips. If you are interested, you can complete the tasks in the jade slips. Then I will give you corresponding rewards!"

Xi Guang's introduction is simple and clear.

His voice fell, his sleeves opened, and rays of light rushed out from it, each of which represented a jade slip. These jade slips fell into the hands of different people with accuracy and accuracy.

"What will the world want to do? Will it recruit the world's wizards? There are thousands of tasks on each level!"

Someone exclaimed that the number of missions that will be announced this time is really amazing!

"A reward of 8,000 saint-level origin pills!"

"No wonder this World Conference will specially invite me to come to this party!"

Fang Yue glanced at the tasks on the list. Some tasks were specifically for alchemists and couldn't be issued!

The original pill is so rare that it can only be obtained from some ancient ruins.

Offering three or five rewards, there may be a chance to succeed.

The offer of eight thousand rewards must have bit the big tree Fang Yue!

"Gu Fang Taoist friend, admire the great name!"

At this time, a Tianjiao from the Great Sacred Realm of the Eight-Armed Race appeared beside Fang Yue.

His counterpart Yue was quite polite, without the arrogance of being a Tianjiao at all.

Fang Yue glanced at him and understood that 80% of the goods came for the pill!

Today, all races have regarded him as a long-legged pill furnace!

Everyone can't wait to get some pill from his hands!

"This Xiongtai, long up for a long time!"

Fang Yue, the great saint of the Eight-armed tribe, is naturally not unreasonable!

"I heard that the ancient Daoists' accomplishments in alchemy are amazing. I have a pill in my hand. I don't know that Xiaoyou ancient Fang can refine it! If it can be refined successfully, my eight-armed tribe must be grateful!"

The great sage of the Eight-armed tribe smiled and handed out a piece of paper full of handwriting.

The paper is densely packed with hundreds of medicinal materials, among which the steps of alchemy are extremely detailed, step by step.

"This is a kind of treasure pill secretly passed down in my eight-armed clan called Yingxu Pill. This pill is roughly at the level of the Great Holy Realm. The pill enters the body and allows practitioners to have three small realms. The Void Realm means to improve the cultivation base of three small realms in a short period of time, without having the slightest influence on one's own origin!"

The Great Sage of the Eight-armed tribe introduced this so-called Yingxu Pill in great detail, and its magical effect can be described as incisive and vivid!

However, Fang Yue glanced at this pill, and a sneer appeared in his heart.

The content of this pill was imprinted in his mind. The formula of the elixir in this pill was extremely unique. It seemed to be natural, but in fact, there was another mystery.

This is a magic pill formula, which itself has infinite magical effects, but the moment the pill is practiced, it will produce inexplicable magical properties, which will drain all the essence and blood in the alchemist's body as the last step of the sacrifice.

"Sorry, my knowledge in alchemy is limited. I can't refine this alchemy! Please also ask the Eight Arms to be clever!"

Fang Yue declined, unwilling to cause trouble to the upper body.

The Great Sage of the Eight-armed tribe looked at Fang Yue, his eyes drifting away.

He doesn't know what Fang Yue means, is it really impossible to refine this pill, or he has seen through the conspiracy hidden in this pill!

"I have heard that the ancient Taoists have amazing accomplishments in alchemy. Even the long-lost pill like the original source pill can be refined. This pill is just an ancient prescription circulated among my eight-armed tribe. I believe the ancient prescription. It shouldn't be a problem for the little friends to refine such a pot of pill with their attainments and understanding!"

The Great Sage of the Eight-armed tribe repeatedly asked.

Fang Yue shook his head again: "The world is misinformed, and I have no choice. It's hard to be known under the so-called reputation! My attainments in pill medicine are actually mediocre. The refining of this source pill is just a coincidence. For betraying the trust of the Eight Arms, I am really sorry in my heart!"

Fang Yue declined again.

The Great Sage of the Eight-armed tribe was helpless: "If this is the case, then please let go of your sea of consciousness, and let me cut off the memory of the ancient Danfang circulating in my eight-armed tribe in your mind! This involves me. The core secret of the arm clan must not be spread! Since you can't refine this Yingxu Pill, I can only cut off the memory in your mind!"

The great saint in the eight-armed clan suddenly became strong and violent. He couldn't make a single blow and made a living.

Destroying memories, this involves the most fundamental and original level of the practitioner! If there is a slight operation error, Fang Yue may become an idiot!

"Friends, you passed!"

Fang Yue's expression was serious, looking at the Great Sage of the Eight-armed Race!

"Obviously you have asked me for help, but you couldn't ask for help, so you have a bad heart! You were when I was young and weak and easy to bully, right?"

Fang Yue's momentum rose suddenly!

The Great Sage of the Eight-armed tribe said with a sneer: "So, little friend ancient Fang, do you want to be greedy for my Eight-armed tribe's Dan Fang?"

"Hey, the ancient prescription is indeed your fault this time! Since you have seen the pill of the Eight-armed tribe, you have to make alchemy for others. If you don't have this diamond, don't work on porcelain! Now people think you can't refine the pill. Wanting to know your own medicine is also the most normal thing!"

Feng Gu slapped the flames beside him, he laughed, and all of them teased!

It seems that they are not the only ones who want to deal with this ancient party.

Fang Yue glanced at Feng Gu: "It seems that your Feng Clan is on the side of the Eight Arm Clan?"

"I'm not waiting on the side of the Eight Arms, but on the side of reason!"

Feng Gu is awe-inspiring and righteous, and he speaks eloquently.

Fang Yue sneered, then looked at this pill.

### **Chapter 1992: Alchemy promise**

"Yingxu Pill? How do I feel that the content of this pill is more like the legendary ancient heavenly magic pill!"

As soon as Fang Yue said this, many powerful people around were shocked.

Ancient Heavenly Devil Pill, this kind of pill is simply thunderous to many practitioners of the older generation.

Three thousand years ago, the demons who survived some catastrophes in the ancient times woke up from the seal. They bewitched the practitioners and used various secret techniques and medicines to transform the practitioners of the ten thousand races into their own demon servants in large quantities. At the same time, some powerful people among the ten thousand races abandoned their identities in the pursuit of power and realm, and became the spies of the heavenly demon dormant among the ten thousand races. They have set off a \*\*\*\* storm among the ten thousand races and caused a great disaster.

That time, the powerful of the ten thousand races spent a lot of effort to calm it down!

And the pill of the ancient sky magic pill has become a taboo pill among ten thousand races! If this dispute really involves the ancient Celestial Demon Pill, the great sage of this eight-armed tribe can hardly protect himself even if he has a great background.

"Gu Fang, can you be sure that the pill in the hands of the great sage of the eight-armed tribe is the ancient devil pill?"

Chenshi strode forward and stared at Fang Yue. His eyes are shining, like two divine fires beating.

Fang Yue nodded and said, "I'm probably 80% sure!"

"it is good!"

Chenshi took a step forward, and a series of murderous intent fell, blocking all the retreats of the Great Sage of the Eight Arms.

"I hope that fellow Taoists will hand over the pill, let me wait for verification!"

Chenshi is quite strong. He represents the entire world society. The trump card behind it is definitely not something that the Great Sage of the eight-armed tribe can resist!

"This is slander! My Eight-Armed Clan walks upright and sits upright. How can I get the slightest relationship with the Heavenly Demon? This is the ancestral pill of my Eight-Armed Clan, and definitely not the ancient Heavenly Demon Pill!"

The Eight Arms roared, his heart was quite wronged.

Originally, he was only entrusted by others to kill the ancient prescription. Unexpectedly, he eventually became involved with the ancient Celestial Demon Pill!

"Hand over the pill, and the clearer will clear it up! If there is no problem with this pill, I will naturally go to the Eight-armed tribe to take the blame!"

Chenshi said that for this reason, his attitude is already very clear!

The Eight-armed Clan snorted coldly: "Skills can be killed, not insulted, it is impossible to hand over the pill in my hand!"

"You don't need him to hand over the pill, I have read all the contents just now! Star eclipse, icon blood, centipede..."

Fang Yue caught the contents of the Danfang he just saw, and recited them one by one!

Many people listened carefully, no matter whether this pill is really the pill of the ancient sky magic pill, it has great value!

When Fang Yue was halfway through the chanting, an old man with purple-gold hair had already occupied the crowd!

"Don't talk about it anymore! This pill is right, it is indeed the pill of the ancient heavenly magic pill! I have seen the content of this pill in an incomplete ancient book! Dozens of main medicines and the old friends said The medicinal materials are exactly the same!"

The old man of the Zijin clan is a true fairyland existence! He represents the Zijin clan participating in this world meeting! The Zijin clan is not a big clan, but the masters in the clan are like clouds, all of them are metal beings, their bodies are strong and indestructible!

This old man has a very high status in the World Association. He is proficient in both alchemy and refining methods. He can be regarded as an authoritative figure. He confirms that there are almost all problems in this prescription. nine!

"How come? This is obviously the Yingxu Pill of my Eight Arms!"

The Great Sage of the Eight-Armed Clan was obviously also a victim, his palm trembling, incredible.

At this time, Chen Shi snatched the pill in his hand and carefully watched the contents of the medicinal materials. As expected, it was no different from what Fang Yue had just said!

This is the pill of the ancient Heavenly Devil Pill, and it does not even need any other evidence to support it!

"The eight-armed tribe is so bold that they dare to rob alchemists publicly to refine the ancient heavenly magic pills that are listed as taboos!"

Chenshi snorted coldly, and he grabbed the Great Sage of the Eight-armed Clan with one hand and completely suppressed him!

Although the Great Sage of the Eight-Armed Clan is also a Tianjiao, Tianjiao is different from Tianjiao. He also only has the combat power of the virtual fairyland level. In front of Chenshi, he is vulnerable to a blow, and even if there is no room for resistance, he is given one by Chenshi. Suppressed!

"Bring this guy from the eight-armed tribe, I want to see what his origins are, dare to be so arrogant and presumptuous in the place where the world will meet!"

Chen Shi's face didn't rest, there was a hot feeling!

The great saint of the eight-armed tribe was crushed down, waiting for the final judgment!

"This eight-armed tribe actually colluded with the demon. This is really a big incident! It must be thoroughly investigated, otherwise it is worth it!"

At this time, Fengma completely changed the direction of the wind. Before he was still supporting the Great Sage of the Eight-Armed Race, but in a blink of an eye he became the most determined conqueror!

Fang Yue gave a cold snort and glanced at Fengma!

"The people of the Wind Clan really turned their faces faster than the book! Just now, the great sage who firmly believed in the Eight-armed Clan stood on the side of justice, and now he wants to fight them again! The Fengma brothers are not from the Eight-armed Clan. Is the Great Sage venting his nose and eyes? Why have you changed your mind now!"

Fang Yue sneered, although he wanted to take the opportunity to pull Fengma off the horse.

But obviously, Fengma just stood on the side of the Great Sage of the Eight-Armed Race because the personal grievances between Fang Yue and the heavenly devil are not very likely to be related!

People in the Tianxiahui also clearly understood this, so they didn't continue to investigate Fengmaxing Master after catching the Great Sage of the Eight Arms!

It is a pity for Fang Yue, but to no avail!

At this time, Chen Bumie jumped out again, and he said coldly, "How could this ancient Fang Yijie junior know the refining method of the ancient Heavenly Devil Pill? According to my thoughts, his identity is also suspicious! Why not arrest together? Get up, tortured and interrogated!"

Chen Bumie will not let go of any chance to target Fang Yue!

Fang Yue glanced at Chen Bumie, and sneered: "This senior of the Zijin clan also has the pill of the ancient Celestial Devil Pill. According to your statement, you should also arrest the senior of the Zijin clan?"

"Asshole! Gu Fang, you are a junior at the master level, humble like an ant, and with a low status. How can you compare with the respected and respected seniors at the real fairyland level! You should understand what identity you are!"

Chen Bumie's attitude was very cold, and Fang Yue's contempt or even ignorance was in his words.

Fang Yue sneered, he understood what Chen Bumie meant.

However, Fang Yue did not fight back, but looked at other people.

Chen Bumie can only represent his own will after all. What if he is a true immortal?

Now that there are many masters in the cloud gods, there is no shortage of powerhouses in the real fairyland, and an immortal Chen cannot cover the sky with one hand!

As soon as Chen Bumie's proposal came out, it was suddenly cold, and no one agreed and responded.

For a moment, Feng Ma said: "Senior Chen Wuxi's proposal is very reasonable. The origin of this ancient recipe is unknown, so it should be reviewed carefully!"

However, his voice fell and he was cold again!

What are the benefits of winning this ancient recipe?

This is a rare alchemist with amazing talents. If you make good friends, maybe it will be of great value in the future.

"Okay! I'll expose it at this time! No one is allowed to mention it again! I believe that there is nothing wrong with Gu Fang! The Great Sage of the Eight-armed tribe may have been used by others!"

Chen Shi hit a haha and took the matter over.

In the face of the catastrophe, the most important thing is unity and peace, not deceit, a life-and-death struggle!

Gu Fang couldn't die, because he was of great use to the World Congress.

But the eight-armed tribe and the wind tribe are also important pillars of the ten thousand tribes. If you offend, it is also not sensible!

In the end all disputes were temporarily settled!

"Gu Fang Taoist, I don't know if I can take a step to speak?"

Chen Shi hesitated for a moment, and then Fang Yue said.

"it is good!"

Fang Yue knew that the world would invite himself this time, and it would be hard to stop if he didn't achieve his goal.

Soon, Chen Shi guided Fang Yue to a cave mansion, which was like a fairyland, with fairy lees flowing, water shining, and a red sun rising in the sky, so bright!

"Gu Fang Taoist friend, I am waiting to invite you this time, hoping to make a deal! There are many sleeping Tianjiaos in my world. They were born in different times for various reasons, and it is only now that they have gradually recovered. Signs! But the years are gone, even if there is a secret method to help them seal their bodies and resist the erosion of the power of the years, but after so many years, their bodies are still hurting their origins! Therefore, I hope to exchange some from the hands of the ancient daoists As for the specific price, everyone can negotiate slowly!"

Chen Shi put down his figure, and did not have the slightest clever gesture of taking pretensions!

When Fang Yue heard this, he did not deliberately make things difficult.

"In fact, the biggest difficulty in refining this Origin Pill is that the refined medicinal materials are hard to find! This time the Shi Ling clan has also exhausted many rare elixir and immortals in the family, and only then has enough for me to refine one. The medicinal materials of the furnace source pill! There are still many of the source pill that I refined last time and I haven't used it. This is also part of the reward for the Shi Ling clan to let me refine the source pill!"

"If the world will need it, I can pool out nine original pill. It's not that I stingy, but if all the original pill is sent out, next time I want to refine and open the furnace again, I won't know it is the year of the monkey!"

Fang Yue showed a look of embarrassment.

When Chen Shi heard this, it was an inspiration.

"I don't know if the medicinal materials needed to refine the original source pill of the ancient Fang Taoist can be listed. My eyes and ears are all over the entire underworld! I can do my best to find the medicinal materials of the world, and maybe I can open the furnace again to make one or two. The origin pill of the furnace!"

"If this is the case, there is no problem! This is a list of medicinal materials for refining the original pill. Some of the old medicines are rare and there are substitutes! If the medicinal materials can be gathered, I can re-open the furnace for refining several times!"

Fang Yue nodded, he was also willing to take the next good destiny with the world society.

To be honest, Fang Yue has a good sense of the Tianxiahui. At least he just took the lead, even at the risk of offending the Wind Clan and the Eight Arms. This represents a kind of responsibility for the Tianxiahui!

"it is good!"

Chenshi nodded and put a big stone in his heart. What he was most afraid of was that Fang Yue would shirk in every possible way, and would not sell or refine the Origin Pill, so that their plans would come to nothing!

### **Chapter 1993: Goodbye Wu Siyu**

"At that time, the original pill refined by the ancient Fang brothers, on behalf of the World Association, I can decide to divide the original pill equally between five and five. The original pill that the ancient Fang brothers divided can also be purchased at a high price! In short, my world will do things upright, absolutely not. Brother Gu Fang will suffer!"

Chen Shi made a promise.

Fang Yue also sold nine original pill to the World Association!

The value of Tianxiahui's acquisition of the source pill is indeed high!

With nine original pill, the world will directly prescribe a 100,000-year-old medicine as a bargaining chip in exchange!

One hundred thousand years old medicine has become refined, and the concoction in it can even extend the life of the true fairy.

This is the first time that Fang Yue has come into contact with medicinal materials of this level. From this, it can be seen that this time the world will definitely be spent!

Fang Yue even had the urge to sell all the remaining Origin Pills to the World Association.

However, this was after all an impulse and was quickly suppressed by Fang Yue with reason.

It's not that this world will not be able to buy it, but that the years to come will be fierce, and Tianjiao will come out in large numbers. These original pill are stockpiled. As long as he can stand his temper, he should be able to sell it at a higher price!

Nowadays, many people in the cloud gods are whispering in secret, they want to draw Gu Fang into their family! Even if you have to, you can marry a jewel of the clan to the ancient party!

Because whoever can get the ancient prescription is tantamount to a drug spy who has guarded the future. It can create a huge number of talents for the ethnic group, and even make a ethnic group prosper!

Fang Yue and Chenshi reached an agreement, and eventually they walked out of the cave.

As soon as he walked out of the cave, Fang Yue was taken away by a bad old man! This bad old man probably has the level of a spiritual fairyland, and even his hair is about to fall out!

But the aura in his body is very strong, as if there is an ancient beast dormant, once it breaks out, it can destroy the world, and the 100,000 heavenly soldiers may not be able to stop him!

"My little friend, do you have the will to marry my Wu family? My Wu family is the bloodline of the human race, and the roots are red! Although the ethnic group is not that strong, but it is safe to provide your little friends with your lifetime glory! The future will be holy, big Saint, and even the various resources of Xuxian, my Wu family can get what they want!"

The bad old man patted his chest to ensure that his eyes were warm, as if there was a blaze.

Fang Yue was dragged away by him, but it was not because of the old man, his gaze crossed the old man of the Wu family and fell on the girl behind him.

"Is Wu Siyu you?"

Fang Yue's eyes were very complicated. He didn't expect to be able to return to Wu Siyu in the underworld.

"you are?"

There was a sense of confusion in Wu Siyu's eyes.

She could vaguely feel a familiar smell in Fang Yue's voice, but she couldn't think of who the owner of this voice was.

"I am Fang Yue!"

Fang Yue's spirit swept across, and there was no one around, his body changed, and he took the initiative to reveal his original appearance.

"Fang Yue! It turned out to be you!"

Wu Siyu showed a surprised expression. Who would have expected that the young hero who dominated the galaxy would actually appear in the underworld.

"Huh? That wasn't your deity just now? It's such a powerful change technique that you even concealed it from the old man for a while!"

The old man in the Spirit Fairyland was surprised. He didn't expect that the uproar in the World Meeting almost attracted the attention of thousands of people, the young Alchemist Tianjiao was actually another person.

"Wu Siyu, did you fall here just now when your true body fell and your soul returned to the underworld?"

Fang Yue simply ignored this bad old man, and the attitude of this old man was not important to Fang Yue!

"No! My Wu family originally originated in the underworld, and the line of the ten thousand realms is just a branch. I just came to the underworld Wu family because I mistakenly broke into the nine-fold trial of the clan, and it happened that the old man Wu Haoren took him as a named disciple! I came to

the world with my master for a second time, just want to see the world's heroes, but I did not expect to meet you!"

Wu Siyu also lamented that she had a chance in life. She originally thought that coming to the underworld would be a break from the past, and she would never encounter someone she was familiar with again. Who would have expected that she would encounter one shortly after coming to the underworld. Familiar faces!

This Fang Yue can dominate one party in the galaxy, even if he comes to the underworld, he can still rise up!

"What? Do you know my disciple?"

When Wu Haoren saw the familiar appearance of Fang Yue and Wu Siyu, his eyes rolled, and he couldn't help thinking!

"It used to be an old acquaintance, from the same universe, I didn't expect to meet here!"

Fang Yue didn't perfuse, but just told the truth.

"If this is the case, it proves that you have a relationship with my Wu family. How about a few days as a guest at my Wu family?"

Wu Haoren was quite moved in his heart, but he didn't expect to accept an apprentice from another universe, but he found a chance to approach the ancients.

"Okay! When this world meeting is over, I will stay at Wu's house for a few days!"

Fang Yue did not refuse, he also wanted to know what Wu Siyu had gone through these days! From the original point of view, Fang Yue felt that there was some love between him and Wu Siyu.

A slight red glow appeared on Wu Siyu's cheeks, she lowered her head slightly, and said no more!

"In fact, after I came to the underworld these days, the elders in the clan treated me very well. They taught me some powerful secrets and formulas that are hard to find in the universe of Ten Thousand Worlds!"

Wu Siyu and Fang Yue started talking, this is something Wu Haoren likes to hear!

If you can really use this girl to fish away an alchemy arrogant, this will be a great event for their Wu family!

"What techniques and formulas? Is there any superior immortal skill among them? Or is it the three thousand treasures of the last civilization era?"

Fang Yue asked casually, Wu Haoren was almost sweating.

What is the origin of this ancient prescription? The opening is the heavenly power of the supreme level.

As for the Three Thousand Treasures in the last civilization era, it is even more unattainable!

Not to mention that an outsider like Wu Siyu, even if they were the real arrogant, little heavenly king of the Wu family, could not easily obtain that level of inheritance!

"Well, it's a heritage called Yanyu Sword. There are nine layers in total, and each layer is very delicate. I just finished the first layer, and I feel that my attack power has been raised to a small step, and it has increased by almost one. Success!"

Wu Siyu was very excited, she was content!

In the Ten Thousand Worlds Universe, most of the inheritance of this level is incomplete, and few have such a complete magical power as the Yanyu Sword!

"Yanyujian? What kind of broken heritage is that?"

Fang Yue frowned when he heard this sword technique.

This swordsmanship is bad in the underworld! Fang Yue had heard of it before and bought a set.

He also cultivates ten thousand methods, no matter what kind of exercises he must practice!

The Misty Rain Sword is just a very common secret martial arts of the Great Sacred Realm level that is passed down in the underworld, but because of its relatively high degree of integrity, it looks more advanced than the inheritance of the Ten Thousand Worlds Universe! But this kind of scum inheritance is nothing in Fang Yue's eyes!

"Little guy, don't provoke! Wu Siyu is just coming to the underworld for the first time, and his cultivation level is not very high! To practice the Yanyu Sword for her is in line with her identity and foundation! So high-level may not be able to go long on the road of cultivation!"

Wu Haoren was immediately unhappy when he heard Fang Yue's evaluation!

This Misty Rain Sword is really bad, but Wu Haoren feels that such a secret method is already right for a little girl who has just entered the underworld!

"Forget it! I won't break with you! I have a practice method that is more suitable for you! Dao Aquarius Seal! Hand pinch the Seal Art, you can condense the Dao Aquarius, swallow all things, refine the world! This Dao Aquarius The seal is the carrier of Tao. It has evolved from runes and can have different changes. From the roughest time, thirty-six runes can condense the rudiment of Tao seal, 72 runes, 108 A rune, the more runes there are, the stronger the power of the Aquarius Seal of the Great Dao!"

Fang Yue took out a blank jade slip at will, and he engraved a set of ancient secret methods on the jade slip with his divine mind.

When Wu Haoren heard the five characters printed on Dao Baoping, his eyes were almost straight! This ancient recipe is really not particular about it, and even the secret technique of the level of the Dao Aquarius seal is dared to give it away at will!

"The Great Avenue Aquarius Seal, what secret is this?"

Wu Siyu is a little confused, she has not been in the underworld for a long time, and she has never heard of this precious technique!

"An okay secret technique. In short, you can practice it! If it is not enough, I will find you a few more secret techniques!"

Fang Yue said with his chest.

It's a man who always has some desire for expression, especially in front of girls who are a little bit tempted by him.

Fang Yue was caught in this strange emotional impulse now.

But Wu Haoren came next to Wu Siyu and whispered: "Keep the aquarium seal on this road! This secret technique is really precious, and it can be comparable to the secret technique of the true fairyland level when you reach the fifth floor! The origin of the ancient prescription is not simple, even this secret method can be obtained, and there is no relevant record in my Wu family!"

Wu Haoren realized that Wu Siyu had met a noble man this time!

That was the mark of the Great Dao Aquarius, an opportunity he never encountered when he was young! The secret method of this level says to give away people! This ancient recipe is no longer what can be described with lavish words!

This is simply a prodigal behavior!

"You two young people get along well, I will meet an old friend first!"

Wu Haoren felt that it would be easier for two young people to get along with each other to develop a relationship, so he smeared the soles of his feet and went straight away!

After Wu Haoren left, Fang Yue felt that the surrounding air had become a lot fresher. He chatted with Wu Siyu in a way, and he didn't even care about this so-called world meeting!

Fang Yue thinks this Wu Siyu becomes more attractive as he looks at it! The figure is exquisite, the front is convex and the back is warped, the curve is a little exaggerated, and it is exceptional!

She is dressed in a black gauze, hiding her perfect figure, with a mysterious sentiment!

Wu Siyu's frowns and smiles are very attractive, making Fang Yue feel like his heart is bumping!

Suddenly, in the distance, a huge boulder shook, and suddenly a demon spirit rose to the sky.

Someone was laying stones next to him. It was a strong man at the pinnacle level of the Great Sacred Realm of the Bear Human Race. He was caught in the demon spirit, and his whole person was thrown away!

## **Chapter 1994: Cracked Sky Stone**

Fang Yue narrowed his eyes when he saw this scene.

There seems to be an incredible opportunity in this boulder, and the texture of its surface faintly flows with a sense of charm!

It took a long time for the great saint of the bear human race to get up from the ground. His old face was flushed to show off, but he was beaten back to his original prototype!

"Sorry, Fairy Caiyun, someone who is not good at smelting stones can't solve this stubborn stone!"

The bear human race guy stepped back with a shame on his face.

And the owner of this stubborn stone, a beautiful girl dressed in white gauze, pursed her lips and chuckled, "It's okay, this stubborn stone has been placed in my house for hundreds of years. It's my father's wonderful hand in his journey again! This time I brought this rock to let you help you to untie it. It's a fluke that I want to try it. Even if I can't succeed, my fate is no wonder other people!"

The Fairy Caiyun thought very openly.

She didn't take the success or failure of jieshi in her heart. It is a joy to get it, but it is not a pity to lose it!

"Fang Yue, would you like to come forward and try?"

Wu Siyu had a vague impression. Fang Yue of her class seemed to have told her during a small chat that Fang Yue also had some means in calculating stones.

Fang Yue shook his head slightly: "There is a fierce spirit suppressed in this huge rock. If it is not unlocked, it is okay. If it is unlocked, no one will suppress it, it will be a disaster!"

Fang Yue understands the "Jie Shi Jing" and with his deep understanding of Tao and Dharma, he has a clearer understanding of the essence of the "Jie Shi Jing"!

The world's stubborn stones were brewed in different eras. Some are indeed just ordinary stones, while some contain earth-shattering secrets!

This boulder in front of you is like this, the interweaving of truth and reason that emerges on it is clearly part of the image of the demons!

Under the Suppression of Demons Picture, suppress the Great Demons. If the suppressed creatures die, it will be better. If they are still alive, the ghost knows what will happen!

"If you don't know how to solve the stone, don't talk nonsense. This huge stone was brought by Fairy Caiyun! How could it suppress the big demon? It's obviously you who slandered it!"

A handsome man with a long sword at his waist is an admirer of Fairy Caiyun, and Fairy Caiyun is pure and innocent in his mind!

Just when Fang Yue's words were spoken, the man's attack was attracted! He felt that Fang Yue was slandering the noble and pure Fairy Caiyun!

Fang Yue glanced at him.

Spray dog.

If you don't know anything, you dare to talk nonsense.

Fang Yue didn't even pay attention to him, and talking with this kind of thing was simply wasting his time and life!

Fairy Caiyun also heard Fang Yue's discussion, she couldn't help but was taken aback, and then she smiled brightly.

"This young hero invites you to explain to Caiyun! If it makes sense, Caiyun is willing to offer some small gifts!"

Fairy Caiyun had actually vaguely heard from the elders in the clan, this huge boulder is indeed a hidden secret! It's just that the elders of those clan are not proficient in the secret method of calcination, no one can see through the secret!

Now Fang Yue put forward a similar argument again, making her very curious, could it be that there is really a peerless evildoer suppressing this huge stone?

"Never mind a small gift or something! The lines of doctrine and reason that surfaced on this boulder are essentially the manifestation of the demon suppression map! There should be a demon suppression map imprinted on this boulder, and the suppression of the big demon should not be taken lightly. Release!"

"There are indeed some unknown creatures hidden in this stone. I was close to it when I was young. There is a ray of divine consciousness in this huge stone, imprinted with ancient scriptures, allowing me to understand and practice. , That is an extremely old scripture, the content of which is incompatible with the practice of this era. However, I practiced according to the above content, but in the end it was quite rewarding, and with an ordinary posture, I have practiced to the present level. "

Fairy Caiyun showed a reminiscence expression, and many people were shocked. Who is Fairy Caiyun? She is the jewel of a big family. Not only is she beautiful, her strength and talent can also be crowned among her peers.

She is a mundane posture, which makes many people can't believe that if Fairy Caiyun is mundane, then there would be no so-called arrogance and outstanding person in this world.

Fang Yue stared at Fairy Caiyun for a moment, his eyes streaming with brilliant light.

On Fairy Caiyun, Fang Yue felt an ancient and obscure aura, which was unstable, like waves in a sea.

Fang Yue and Fairy Caiyun faced each other, and Fairy Caiyun couldn't help but avoid subconsciously.

This is the breath of the last civilized era!

Fang Yue couldn't help but stunned slightly, he vaguely clarified the origin of Fairy Caiyun's breath.

"There is a big demon in this stone, but from a certain perspective, he is also my master. Without him, I would not be where I am today. Today I may still be a mediocre little girl. For others, He may be a great demon, but in my heart he is my eternal benefactor."

Fairy Caiyun is sincere, and she expressed her most true psychological thoughts.

"If you can help me untie this boulder, Gu Fang Taoist, no matter what the outcome is, you will be my benefactor for the rest of my life."

Fairy Caiyun's eyes are sincere.

Fang Yue hesitated for a moment and then said: "Okay, I am also curious about what is in this huge rock."

"However, this place is not a place to lay stones."

"Calcite requires a fairly quiet environment, pays attention to the right time and place, and everything is integrated. Especially some strange stones. There are some heart-shaking things in the stones. When these things are born, if the surrounding environment is uncomfortable It may cause some ominous consequences!"

"Then I don't know what kind of place to choose?" Fairy Caiyun asked Fang Yue.

"The mountains are green and the water is beautiful, the sun and the moon are bright, the dragon and the phoenix are mingling, the world is one!" Fang Yue said, he said a very general standard. If this kind of environment is in other universes, it may not be easy to find, but if it is in the underworld, it is everywhere! There are dangerous places everywhere in the underworld and the blessed land is closely related to the special environmental composition of the underworld.

"Well, if it's just such a standard, then there is such a place not far away. It is a place where a real dragon and a divine phoenix have once hatched! Although the real dragon and the divine phoenix have been completely removed from the world Extinct, but the traces they leave behind are still pervading the world today!" A follower of Fairy Caiyun thought for a moment, and he offered a blessed place.

"It's a coincidence that this place happens to be not far away! A brother of mine just broke through to the level of the Great Sacred Realm there!"

This follower has a face with a Chinese character and a decent look. He has a stern look and a round character.

"Chen Hao, are you sure that the place is suitable for ancient Taoist friends to lay stones?"

Fairy Caiyun confirmed again, for fear of some changes.

"Yes, that place is indeed the place where dragons and phoenix meet, the sky is bright and beautiful, the sun and the moon are shining! If you practice in it, you might get twice the result with half the effort!"

Chen Hao spoke, with a certainty in his voice.

"Lead the way ahead!"

Fairy Caiyun's voice is like dust, like a real fairy above the nine heavens, and there is an inexplicable rhythm in the sky, which makes people have an urge to sink into enlightenment at any time.

"Can I follow along?"

Wu Siyu's big eyes are fascinating, she came to this underworld, her status is not high, she is always passive, and her heart is tense, for fear that she has done something wrong to cause murder!

This time Fang Yuejie Shi, she finally found a point of release.

Fairy Caiyun smiled and said, "If the younger sister is willing to go, the slave family will naturally be unable to ask for it!"

Under the leadership of Chen Hao, the group of people finally came to an ancient secret realm.

This place also belongs to the shrouded area of the Pavilion of the Immortal Mansion, which is sparsely populated, and even tourists are hardly seen.

There is only one old man, his hair is about to fall out, staying at this place seems to be asking for rent.

"This is a dense land of celestial spirits. There are signs of dragons and phoenixes, and there are traces of celestial spirits reaching the sky. According to legend, there was a Daluo Jinxian-level existence that left Dao patterns here, so it takes three thousand top grades to borrow one day. The world is crystallized!"

When the old man spoke, people were shocked.

The price is so high, no wonder that few people come.

Three thousand high-grade world crystallizations, even the powerhouses at the peak level of the Great Sacred Realm are not necessarily able to take it out.

This is already comparable to the price of a peak saint-level weapon!

And this is just borrowing the price for one day. If you stay for a long time, the resources you need to consume may be even more alarming.

Chen Hao showed a bitter smile: "There is no way, the price is this price! If my brother hadn't stayed here for three days and three nights if it wasn't for a perfect breakthrough that day. However, the price of this place is not false. High, if you can practice for a while in it, you can naturally appreciate the subtlety!"

"it is good!"

Fairy Caiyun remained silent, she took out a colorful stone.

"This is a sky-splitting stone. According to legend, it will only fall when the will of heaven falls. It is a treasure of refining tools, and it is worth at least nine thousand top-grade world crystallization! I rent this place for three days. Anyone is allowed to disturb!"

Fairy Caiyun is worthy of being the seedling of the family, and her shots are quite generous.

The sky-cracking stone was one of the materials used to forge the virtual fairy artifact, and even Fang Yue was quite enthusiastic when he saw it.

And she took out a cracked sky stone without even blinking her eyes!

This is no longer what a local tyrant can describe! Fang Yue feels that his identity and background are not the same class as others.

"What is Sky-Splitting Stone? This small stone is worth nine thousand high-grade world crystals?"

**Chapter 1995: Special terrain**

Wu Siyu came here for the first time and didn't understand the many treasures of the underworld, but she understood the value of this high-grade world!

"Sky-Splitting Stone is a kind of precious refining material. It is said to be able to fight God's will by incorporating this stone into a weapon! This material is very rare and very special. I have only seen it in ancient books, the first time I saw it. Authentic! In fact, a piece of sky-splitting stone counts as nine thousand top-grade world crystals, which is already a bit of a disadvantage! According to my algorithm, the price of this sky-splitting stone is at least 10,000 top-grade world crystals!"

Fang Yue explained to Wu Siyu lightly, and he also complained about Wu Haoren in his heart.

Although the Wu family extradited Wu Siyu to the underworld, it did not give her the resources and treatment that a genius deserved!

At the very least, Wu Siyu can be regarded as a little genius in the underworld, stronger than some of the so-called fairy seedlings in Wu's family.

Those people are just some dudes, relying on the blood talents and some family backgrounds left by their fathers to go wild, taking over various resources and exercises in the family! .

But this is the Wu family's own business, and Fang Yue is too lazy to participate.

Chen Hao glanced at Wu Siyu and couldn't help but feel moved.

"If you are willing to be my concubine, I can also ask for a sky-cracking stone for you!"

Although Chen Hao is a follower of Fairy Caiyun, he knew in his heart that his birth and origins were seriously mismatched with Fairy Caiyun, and the chances of eventually seeking Fairy Caiyun were very small.

Therefore, Chen Hao is not taboo in marriage and love. He already had dozens of concubines, and now he saw that Wu Siyu had a moving temperament and a good foundation, like a piece of rough jade.

So he moved a bit of Fanxin, wanting to make Wu Siyu his new concubine.

As soon as Chen Hao said this, Fang Yue let out a cold snort, his voice thunderous, and Chen Haozen stepped back.

"Don't speak up!"

Fang Yue said four words faintly, if it weren't for Fairy Caiyun's face, Chen Hao was already a corpse at this moment!

As a man, some things can be tolerated, but some things cannot be tolerated.

This Chen Hao completely ignored him!

"presumptuous!"

Chen Hao is also a Tianjiao. Although he was hit by Fang Yue's sonic attack and suffered some internal injuries, he quickly recovered. He was also spoiled and raised in the family, how could he endure such an insult!

In front of Fairy Caiyun, he has always maintained his gentle image, but now his image is shattered because of Fang Yue's cold snort!

Chen Hao is about to clash with Fang Yue again, Fairy Caiyun shook his head slightly and said, "Chen Hao, forget it!"

Fairy Caiyun blocked it, causing Chen Hao to hesitate a little. He finally gave Fang Yue a bitter look and said cruelly: "Gu Fang, I will let you go for the face of Fairy Caiyun! But the woman I want, must No one can stop it!"

Fang Yue said coldly, he was too lazy to care about Chen Hao, he even dared to challenge the powerhouse of True Wonderland, a junior at the fifth level of Saint Realm, it was not that he looked down on Chen Hao, he was really in the ranks of Fang Yue's enemies Can't be ranked!

Fang Yue stopped talking to Chen Hao.

A look of resentment flashed across Chen Hao's eyes.

"This place is really good, the mountains and rivers are beautiful, the sun is shining, the earth is full of vitality, and the dragon spirit is faintly rising! If the stones are laid here, this place should be able to resolve some of the grievances of the creatures trapped in the stone. !"

Fang Yue measured the terrain and found that there is indeed no problem here!

Then he began to calcite the stone by himself.

This calcite is also quite a profound knowledge, and cannot rely on cultivation base and brute force! This is like dissolving a cow, and you need to be familiar with the texture of the stone to be able to untie the stone smoothly without losing the essence of it.

Fang Yue's fingertips flicked, passing the boulder and dropping one after another golden Dao patterns, Dao patterns were intertwined and criss-crossed, and the boulder was filled with faint demon aura.

This evil spirit is not strong, and it does not reject or hurt the stone-killers!

"It turns out that it's just moving in response to the situation and following the texture. It is not a clever technique, and it is not worth the slightest boast!"

Chen Hao said neither overcast nor overwhelmingly.

Fang Yue smiled faintly and didn't care.

This Chen Hao's knowledge is shallow, and his cultivation is not too advanced. The understanding of things only tends to the surface, how can we know the deep inside!

On the contrary, it was the colorful ripples in the eyes of Fairy Caiyun. The family and forces behind her have more than once invited the master of calcite to dissect this boulder in person in hundreds of years!

However, in the end all the masters of stone-solving failed, and many people were shocked by the demon in the stone.

Only the ancient Fang can really come into contact with this boulder, and will not suffer the slightest damage and backlash when the demon aura is filled!

This ancient recipe should be an expert in calcite, at least it has reached the pinnacle of the Grandmaster realm, and even approached the level of the subordinates.

The boulder was unplanned, and it was peeled off layer by layer like an onion.

The clues gradually emerged, and a burly warrior gradually emerged.

He is eight feet tall, he is dressed in black heavy armor, and he holds a dark war sword in his hand, heavy and vigorous!

The stone skin fell off, and the soldier's appearance was fully revealed, the corners of his mouth were tightly pressed, and his eyes closed tightly.

"Master!"

Fairy Caiyun saluted the soldier. She knelt down on her knees and respected each other in the manners of a disciple.

However, the black armored warrior seemed to have fallen, and there was no vitality in his body!

"Fairy Caiyun, this person is already dead! You don't have to be like that!"

Chen Hao said coldly: "Unexpectedly, Gu Fang, you brag for a long time, in the end you just found out a dead person!"

"Chen Hao, shut up!"

Fairy Caiyun roared, her heart was extremely respectful to the black armored warrior, whether he had passed away for a long time, or was temporarily in deep sleep.

"Hey, Fairy Caiyun, don't be shameless! Do you know that this place is the foundation of my Chen family, and it has already been purchased by my Chen family! This time I brought you here because I wanted to be with you Let's talk about marrying into the Chen family! And that little girl, who can become the dowry of Fairy Caiyun and marry into our Chen family together!"

Chen Hao suddenly turned his face, he is no longer as humble as he used to be, his face is full of hideous expressions, revealing his most vicious fangs!

"See Tuqian, you really are not a good person!"

Fang Yue commented, without the slightest expression of surprise on his face.

"Gu Fang, you should stay in our Chen's house and become my personal Danu! Then I will let you see me and two beautiful women enter the bridal chamber with your own eyes!"

Chen Hao looked at Fang Yue as if he was holding the winning ticket.

This is the land card of the Chen family, and Fang Yue and others are already inevitable.

"Chen Hao, do you know why I chose this place to calcite stones?"

Fang Yue was not surprised, watching Chen Hao jumping up and down like a clown in front of him.

Chen Hao was taken aback for a moment.

"Isn't it to find a place of geomantic omen to suppress the demon that is about to be born?"

"Hahaha, suppression? Do you think this guy needs suppression? I know how to watch and dissolve stones. When this guy was still in the stone, I already knew that the vitality and origin in his body were gone! "

Fang Yue's smile became brighter, and he could see everything very clearly! The reason for the latter is that he did it deliberately.

From the very beginning, he never fell into a passive position!

"Gu Fang, what do you mean?"

Chen Hao criticized and questioned again, and at the same time, the old man who was in charge of the goalkeeper had already dragged a heavy step closer. His body was so heavy that he seemed to be gradually unable to be controlled by his will.

Even on the old man, Fang Yue faintly smelled an old smell.

This old man is getting old, his life is about to end, and he has begun to corrode and degenerate gradually.

"Chen Hao, there is no need to ask anything! Refining this ancient recipe into Dannu, and send you and these two girls to the bridal chamber! When the time comes, the rice will be cooked and all the dust will fall, and any conspiracy will be useless!

The old man's voice had a taste of vicissitudes, his breath exploded, and the crimson blood was already mixed with black smoke. This was the breath of death, a sign before the end of life!

The old man's aura soared to the sky, and his cultivation was fully revealed. He is a strong man in a true fairyland. Even though he has not yet reached the threshold of this realm, he still stops in this realm and can overlook many creatures!

"A strong man in the real fairyland who takes care of the nursing home, the Chen family is really very courageous! But if it is just such an old thing, I am afraid that Fairy Caiyun can't be kept!"

Fang Yue's smile was full of sarcasm. He was inadvertently involved in an ambush and turmoil between the Chen family and Fairy Caiyun. He was treated as a supplement. His life was not worth money just because he accidentally joined in. So it ended up being involved.

"Hahahaha, there is really a way in the sky, you don't go, there is no way to hell, you break in! Gu Fang, this time you are destined to be my Chen family's servant, whatever your origins and opportunities are all our Chen family! "

Chen Bumei's hearty voice also came from afar.

He is also from the Chen family.

Chen Bumie's face was filled with delightful smiles. Before, he was as suffocated as he was in the collision with Fang Yue. There was a fire in his heart, and now he can finally get what he wants!

Falling to the land card carefully arranged by their Chen family, this Fang Yue is definitely hard to fly!

"That's all? Two true immortals, this doesn't fit the strong and domineering style of your Chen family!"

Fang Yue started to stimulate again. He hoped that more people from Chen's house would jump out!

"To deal with you two mere juniors, two true immortals have given you enough face! Gu Fang, Fairy Caiyun, just grab it with your hands! In this way, you can still have less torture and more joy!"

Chen Hao laughed. Two ancestors of the true fairyland level supported him. At this moment, he has confidence in his heart. No matter what trump cards this ancient party holds in his hands, it is impossible to escape from the two ancestors of the Chen family. Palm!

"It's a pity! You might need a slaughter knife to kill chickens!"

Fang Yue sighed.

"Gu Fang, stop bluffing! This is the site of my Chen family. Every inch of land in it has been measured and measured by the ancestors of my Chen family. There can be no variables in it for your use!"

Chen Bumie said in a sad voice, he treated Fang Yue like fish on the chopping board!

### **Chapter 1996: wake up**

Fang Yue glanced at Chen Bumie: "Xia Chong can't talk to Bingyu, you don't know the geomantic situation, how can you know the horror of this land of dragons and phoenixes!"

Fang Yue's voice just fell, and on the ground, layers of energy ripples burst forth! The power of extreme yin and extreme yang blends and collides with each other!

The phantom shadow of a real dragon appeared, and it rose into the sky, posing like a dragon, with a soft moan that directly shook Chen Hao and shattered its origin!

However, this real dragon's soft groan was aimed at Chen Unmian, not Chen Hao, what Chen Hao suffered was just a little bit of spread! Real dragon, powerful since ancient times, its majesty is unpredictable! The countless sentient beings all bow their heads and worship. Among them are the power of the beasts and the blessing of faith!

Chen Hao vomited blood, his face was as pale as paper, this light moan almost abolished his cultivation base by half!

And Chen Bumie was also affected by the Dragon Yin. He staggered back and his face turned pale, but after all, he was a real fairyland powerhouse. The impact of the Dragon Yin was far less intense than Chen Hao's influence!

A gleam of cold light flashed through Chen Bumei's eyes.

"Okay, okay, okay! I didn't expect your ancient party to have such attainments in feng shui and formations! This treasure land, my Chen family has occupied for thousands of years, but I have never unearthed the exquisiteness of it. Now you have discovered for my Chen family For the essence of it, I would like to thank you on behalf of the Chen family!"

Chen Bumei's tone was icy. His heart is already a little frustrated. Just now, he said that the terrain has been measured by his Chen family's ancestors inch by inch. No matter how strong the ancient method is, he can't overcome any waves. However, his voice has not yet landed. The scene of Dragon Yin was summoned on this treasure land! His disciples of the Chen family were even injured as a result. This was simply slapping him in the face, and let his true majesty disappear!

"This place fell into the hands of your Chen family! It's a mess! If you change it to a family that knows the Feng Shui formation, you can reform it, and maybe you can use this terrain to forge a big Luo Jinxian!"

Fang Yue deliberately angered Chen Bumei.

Chen Bumie really was flushed by Fang Yueqi's old face.

"No, Fairy Caiyun has always been a strong person, how can he stop talking at this time! There must be fraud in this!"

Although Chen Hao was hit hard, his will was firm and he did not flinch.

He realized that the situation was not right, and moved his gaze to Fairy Caiyun, only to see Fairy Caiyun use a bowl of clear water to dissolve an elixir, and then a little bit of water into the black creature's life. in vivo.

"The pill that was dissolved is the original pill of the ancient prescription! Fairy Caiyun wants to use the original pill to bring this guy back to life!"

Chen Hao yelled, and he exposed the tacit cooperation between Fairy Caiyun and Fang Yue.

Fang Yue tried his best to attract the attention of the Chen family, and Fairy Caiyun was in charge of darkening Chen Cang.

"Master, please wake up!"

Fairy Caiyun murmured, begging and chattering!

At this moment, the body of the creature in the black armor shivered slightly.

However, the next moment, he returned to a state of dead silence, with no vitality in his body!

"Don't talk to Gu Fang, the jumping clown, first suppress Fairy Caiyun. If the creature in black armor is revived, maybe I will be suppressed and killed!"

Chen Bumie is full of crisis consciousness. After all, he was a creature of the last civilized era cut out of the boulder. What kind of magical powers and mana he possesses is difficult for them to figure out and measure. The only thing they can do now is to minimize the danger. Stifled in the bud, this terrifying creature will not recover and will not return!

"Suppress Fairy Caiyun, then leave this to the old man!"

The old man responsible for guarding this place dragged a slow and heavy step towards Fairy Caiyun.

He raised his hand and shot out a stone tower, the seven-story stone tower, towards the suppression of Fairy Linglong!

"On that day, if you wanted to suppress Shi Zhongtian with a stone tower, did you have a share of your Chen family?"

Fang Yue saw this stone tower quite familiar, that day Shi Zhongtian was robbed, and he encountered such a thing!

"Block me!"

Fang Yue's hands swept, seduce the general trend of the world, a ray of auspicious glow, soaring to the sky, directly lifted the seven-story stone tower! This is not Fang Yue's own strength, but the power that he can only possess with the help of this special terrain!

"Gu Fang, your opponent is me! You should play against it obediently! With your strength, you can't take into account other places!"

Chen Bumie spoke, and he glanced at Fang Yue.

Chen Bumie waved it casually, and a big golden handprint fell towards Fang Yue's location!

The palm prints cover the sky, permeating the power of King Kong.

Fang Yue moved the terrain again, and a thick fairy light flying barely blocked the big golden handprint!

"Hahaha, Gu Fang, you are nothing but this! The power contained in this terrain is infinite, but unfortunately, your cultivation is too shallow, you can't touch the essence of it! You still obediently die! I though Pity your talent, but your talent is too deep, but it makes people jealous! Instead of leaving the Chen family with a bane that does not know when it will erupt, I am more inclined to kill the genius!"

Chen Bumie decided to be cruel and asked the opponent Yue to be cruel!

The stone tower flew back, once again suppressing Fairy Caiyun's direction.

Fairy Caiyun snorted coldly, "Don't you think that your Chen family's perverse behavior is not afraid of revenge from the family behind me?"

"Hey, Fairy Caiyun, the Fengyun family behind you is certainly strong, but my Chen family is not weak! If you use raw rice to cook mature rice, I am afraid that the Fengyun family behind you will also be happy to marry my Chen family!"

Chen Bumie smiled. He took another handprint.

Fang Yue's use of the terrain to suppress it already feels a bit difficult! Running Feng Shui terrain, after all, he has not yet reached the point of lifting weights lightly. This immortal character is not good, but his vision is indeed very vicious.

His cultivation level restricts his control of Feng Shui terrain. If he is at the Saint Realm or even the Great Saint Realm level, it should be more than enough to suppress Chen Wumie with this terrain!

However, even so, Fang Yue still did not panic!

He believed that since this Fairy Caiyun dared to walk the world by herself and had no one to protect her way, she must have her own trump card and confidence.

Sure enough, Fairy Caiyun screamed, and she used her magical skill to summon a phalanx. The phalanx was very simple and even had a small insect bite hole.

However, as soon as the finger bones came out, the coercion spread out, causing mottled cracks to grow directly on the top of the seven-story stone tower, which was no longer strong!

"Ah! Whose finger bone is this? Even though he is dead, he still has such power?"

Chen Bumei roared.

It was just a piece of finger bone, almost suppressing Chen Bujiehuo, the chaotic air flowing in it, and every strand can crush the ages.

"The Fengyun tribe has an ancient heritage, and its profound heritage is far beyond your comprehension! The elders in my clan let me come out for experience, naturally guessing that I might encounter danger, so they will pick it up from a forbidden place in the underworld. The bone that arrived has fused into my body!"

"This bone involves some ancient Xinmi. The original owner's life and death are unknown. No one knows where it came from! However, when I face life and death, this bone will resurrect on its own, and its power will be immeasurable and crush the ages. , Even the powerhouse of True Wonderland can hardly resist its power!"

Fairy Caiyun spoke, and she continued to practice one of her phalanx, but unfortunately, this phalanx could only passively defend, not actively attack.

Both sides are deadlocked and it is difficult to make progress.

"Give up Fairy Caiyun and start with Ancient Fang first! Once ancient Fang dies, it will be difficult for this black-clad creature to recover! Only a piece of finger bone, only knows how to defend passively, Fairy Caiyun can't turn the sky!"

Chen Wuming's eyes flickered, and he decided to break through from a different angle, picking up a soft persimmon first.

"Gu Fang, die!"

The old man urged mana, the cracks on the seven-story stone tower were closed, and the stone tower descended from the sky and suppressed it in Fang Yue's direction! The stone tower was heavy and immortal power lingered, it suddenly suppressed from high in the sky, and hit Fang Yue's head with a bang.

"The dragon and the phoenix are in harmony, and it will penetrate the ages!"

Fang Yue refined a drop of middle-grade divine power, and the mana in his body surged and exploded, instantly reaching the level of a saint.

Fang Yue's cultivation level suddenly improved, and his ability to control special terrain instantly skyrocketed to an incredible level. The flame burned, the real dragon lifted into the sky, and Fang Yue seemed to be in another completely different world. The petals of the cherry blossoms fell down, a little bit of brilliance and beauty.

Fang Yue is like a fairy in the dust, his body has supreme divine light.

"Break it to me!"

Fang Yue shook his fist, and a flying fairy light rushed out from it, and the radiant light directly shattered the old man's stone tower!

The stone tower collapsed and turned into countless rubble falling like a meteor shower.

The old man's face suddenly turned pale, he pounced and spouted a mouthful of black old blood! This stone tower is for his life, and the stone tower contains the essence of life in his body!

The stone tower was shattered, and he also received backlash and shock. At least he didn't have hundreds of years of penance. It is difficult for him to make up for all the losses he lost!

"Gu Fang, I don't share the same spirit with you!"

The old man roared, and the roar sounded through the fields! His heart was full of anger. He has been in all directions over the years, deterring Liuhe, and he has never suffered such a loss!

That stone tower was only forged by him after spending a lot of money. It was his magic weapon for enlightenment, and it accompanied him from the level of the Great Sacred Realm to the present.

Unexpectedly, in this battle, the stone tower was actually destroyed in the hands of an unknown junior like Gu Fang, which made the old man's indignation difficult to calm, and some could not accept this tragic reality!

"It's just a stone tower. If it is destroyed, it will be destroyed! You and I are in a life-and-death battle, so what's the difference?"

Fang Yue said it was very light, and with the help of the terrain of the Chen family, he had a combat power comparable to that of a real immortal.

That drop of medium divine power burned like a divine fire, and the fierce light completely illuminated his whole person!

"Years are gone, a thousand years in an instant! I didn't expect that when I opened my eyes again, it was already after several civilizations!"

The sleeping creature in black armor finally woke up faintly, he stood up and looked at the surrounding environment.

"Master is here, please be respected by the disciple!"

Fairy Caiyun saw that the black armored creature finally woke up, she couldn't help being extremely excited.

"You were the little girl who was crying in front of me back then? I didn't expect to have grown up so much now!"

### **Chapter 1997: Separated Secret**

The black armored creature was taken aback for a moment, and then distinguished Caiyun's identity.

"Nine-nine gods and magic skills, I don't know which level you have cultivated to now?"

The smiles of the black armored creatures can be seen, and they don't have the slightest appearance of the big devil in the world!

"Reported to the teacher that the apprentice has already cultivated to the thirty-sixth level of the cultivation technique, and now he is trapped in the bottleneck and cannot advance any further!"

A layer of pink ripples appeared on Fairy Caiyun's cheeks.

I don't know if this ripple represents guilt or excitement.

"Yes, yes, the level of the Great Sacred Realm just now is capable of cultivating the nine-nine gods and demons to the realm of Xiaocheng. I really didn't pick the wrong disciple for the teacher back then! The realm of being trapped in Xiaocheng is actually very good. For normal things, when the opportunity comes, you will naturally be able to reach a higher level when the blessing comes!"

The black armored creatures did not deliberately point out that the practice is their own business.

The master leads the door, and the practice is in the individual, the same kind of exercise, different people will have different understandings!

Fairy Caiyun nodded, no longer insisting, her eyes were still full of wildness and worship!

The black armored creature then cast its gaze on Fang Yue's body.

"Did you free me from the stone and helped me restore part of my origin?"

The black armor creatures looked at Fang Yue, even if there were not too many people who could do this in their time!

Fang Yue nodded and said: "It is true that I untied the stone and took away the magical sutra! But your original loss is too great, and I can't fully make up for it. I asked Fairy Caiyun to take you one The primordial pill at the saint level can support your temporary recovery, but it cannot heal the losses left by your countless years!"

"Hahaha, that little source of power is enough, now that I have awakened, then who can make me fall asleep again!"

The black armored creature laughed loudly, and then he drew his hands in the void, forming a pattern in the void, motivating the endless essence of the Bahuang Liuhe into his body!

In a blink of an eye, the essence is like a tide, like a long river, crazy injecting into his body.

The breath of the black armored creature became stronger every inch, and there was a smell of heaven, earth and galaxy in his breath!

"This is a strong man in the Great Luo Realm, unmatched, unmatched!"

Chen Bumie's face changed drastically in an instant. He didn't expect that Gu Fang would really cut out a living ancestor from the stone!

The powerhouses in the Great Luo Kingdom have already jumped out of the Three Realms and are no longer among the Five Elements. The existence of this level is simply not something that creatures of their level can look up to and match!

"Run, run quickly, be sure to report this to the elders in the family! Fairy Gu Fang and Caiyun dug up a prehistoric great demon from the stone! He has the level of the Great Luo Jing, and perhaps the entire Palace of Heaven is not there. One can restrain his licentiousness. Might!"

Chen Bumei screamed frantically.

"Hey, big demon?"

The black-clad creature chuckled lightly, and then he reached out with his big hand, holding Chen Bumiao and the old man of the Chen family in his hands, like a little chicken!

"I enter the Tao as a demon, and become an immortal as a demon. In fact, your name is quite appropriate to me, quite appropriate! But since you have called me a demon, then I will do something that a demon should do, otherwise How can I be worthy of what you call me?"

The black armor creature joked.

Chen Buming ran his internal exercises and tried his best to get out of trouble.

However, no matter how hard he struggles, what kind of means he can use is like a trapped beast in a cage, unable to break free from the shackles brought by this black armored creature!

"Heaven's evil is still alive, self-inflicted can't live! If Chen Jiaken honestly provided such a blessed place to let me cut the boulder and revive the seniors, maybe we could have a relationship with a big Luo Jinxian-level powerhouse. Good fate, but now, they are guilty, and even cause the two true immortals to fall!"

Fang Yue muttered to himself, he was evaluating the deeds of Chen Bumei and the Chen family.

At this moment, Chen Hao was completely forgotten out of everyone's vision like an ant!

He is really too weak, so weak that people can hardly be interested in his shots!

And Chen Hao's intestines are almost regretful, what is he tossing about, what is it to offend this ancient Fang and Fairy Caiyun?

If the two powerhouses in the true fairyland fell because of him, then he would be a sinner of the Chen family, and it would be difficult to redeem his sins if he repented ten thousand times!

"Friends of Daoist, please be merciful, and forgive and forgive!"

At this time, Xi Mang appeared, and he hurried over.

It was not that Xi Mang had deliberately watched by and deliberately let the people of the Chen family attack Gu Fang and Fairy Caiyun, but just when Chen Bumie and another old man of the Chen family were about to be captured, they only made a call for help.

Xi Mang also bit the bullet to save people.

Although Xi Mang's cultivation base is not weak, he is only at the peak level of the spiritual fairyland, and there is still a very long distance from Da Luo Jinxian.

Although this black armored creature has just recovered and its own cultivation base has not yet fully recovered, after all, he is also a great Luojin fairyland, and Xi Mang is not sure enough to defeat it.

"You said that if you let me be merciful, don't you be merciful, don't I lose face? These two people prevented me from waking up and hurt the two children who cared about me! They deserve to be blamed and should not live in this world. !"

The words of the black armored creatures are murderous and sharp.

Fang Yue even said: "This Chen family is not worth saving. They violated the rules of the Tianxiahui Society and attacked me and Fairy Caiyun secretly. If these two old guys are allowed to survive, I don't know how many heroes and Tianjiao will suffer. His persecution and poisoning!"

Fang Yue's words weighed heavily in Xi Mang's eyes.

Because so far, Fang Yue is the only alchemist who can refine the source pill that the world will know.

If Fang Yue is completely offended, it may affect the future big plan of the World Club!

Therefore, there is also a hint of hesitation in Xi Mang's eyes!

"Xi Mang, take it! If I die in the World Club, none of your senior leaders can get rid of the relationship!"

Chen Bumei roared loudly. He threatened Xi Mang with the safety of the World Society.

Xi Mang hesitated for a moment, and finally clasped a fist and said, "Senior, please let them go, otherwise I will not be able to explain to the Chen family!"

"No way!"

The black armored creature decisively refused. He refined the two true immortals of the Chen family, and began to strip away their origins.

The origin of each road fell and turned into a colorful light, the light gathered, condensed in the hands of the black armored creatures, and turned into one after another nine-petal lotus!

This kind of nine-petal refining is actually very particular! Some people say that the lotus is the carrier of Tao!

Nine is the ultimate!

Therefore, the nine-petal lotus can carry the origin of everything!

"I am not a creature of this age. I have my own goals to pursue. I can't be with you all the time! However, my life-saving grace is unrequited. I condensed eighteen golden lotuses and gave them to you. Duo! Dao Jinlian contains two true celestial origins of Chen Family's true immortals. This Dao Jinlian can be used as medicine, or it can be refined separately, and it can provide a huge amount of essence and life origin! This thing has the effect of reviving the dead, at least in you. Before the two of them cultivated to the level of true fairyland, the effect of the golden lotus on this road was quite remarkable!"

The black armored creature presented Fang Yue and Fairy Caiyun with nine golden lotuses, and even Xi Mang next to him was very greedy.

The aura of Chen Bumie and the other old man of the Chen family was rapidly declining. The essence of the two of them was taken away, their realm collapsed, and they all fell into the realm of true immortals!

"The treasures and armor of these two people are also given to you both! The collection of true immortals should be expensive! As for these two old goods, they are no longer true immortals. If the Chen family wants them, return them to them! "

The black armor creature showed a look of disgust! He threw Chen Bumie and another old man from the Chen family to Xi Mang as if they were dealing with garbage!

Xi Meng suddenly felt that the two of them were extremely hot.

People came for the Chen family to meet, but the true celestial status is gone. I don't know if the Chen family will go crazy because of it!

"Well, the members of the Chen family are violent, and I will accept this blessed land too!"

Fang Yue's hands were interlaced, and he pulled out a chain of order from the void. The chain was silver and white, representing the space and heaven.

The heaven and the earth were cut, and finally the Chen family's hole in the heaven and the blessed land was abruptly separated from the heaven and the earth, and then Fang Yue used the means of fighting and shifting the stars, not knowing that this land was exiled into the void.

Xi Mang was stunned, the space attainments of this ancient party were simply superb!

Even Lingxian doesn't bring such a play!

The black armor creature couldn't help but be speechless.

"Okay, okay, okay! It really is a great generation! Even in the era when I was born, there are very few young people who can do this!"

The black-clad creature praised Fang Yue for his actions.

Fang Yue smiled shyly, touched the back of his head, as if he had done a trivial thing!

"Gu Fang, you must die!"

Chen Bumie was still hanging on his breath and didn't faint. Now he saw that the ancient party had copied away their Chen Family's Dongtianfudi. After a while, he couldn't get up with that breath and almost suffocated himself.

I've seen robbery, never seen such a clean one!

This ancient party has achieved the realm in the legend of the robber-digging three feet!

"Hey, after this battle, do you think you can still see me in this cloud heaven? I've long since found a quiet place to hide!"

Fang Yue smiled, quite nonchalant. Shame, he is robbing a wave of people for another identity.

"The Chen family's people attacked and killed me. Abolishing their two true immortal cultivation bases is enough to give them face!"

Fairy Caiyun is indifferent and ruthless, and her heart has already reached the point where she hates the so-called Chen Family!

This Chen family is brazen, and wants to force him to submit through despicable means!

This is already a violation of the tacit agreement established by the various ethnic groups, even if the Chen family pays a hefty price, it cannot be overstated!

"Master Xi Mang, take away all three of the Chen family!"

It's not that Fang Yue didn't give face to the world meeting, and transposed. This world meeting also has difficulties.

In particular, the Chen family is a big clan with a profound background, and it is suspected that there are strong people in the clan who are at the upper level. If the two real wonderland powerhouses were so lost in the world, the Chen family would definitely not let it go!

### **Chapter 1998: Five Elements Heaven**

Xi Mang handed over: "Thank you, little brother Gu Fang! This matter will definitely give little brother Gu Fang and Fairy Caiyun a proper explanation!"

Fang Yue nodded, this World Society is still clear, at least Xi Mang can see the root of this matter.

In fact, he and Xi Mang were the ultimate victims, and the people of the Chen family only estimated themselves too high, so they were unfortunately defeated and ended up like this.

In a blink of an eye, Xi Mang took away Chen Bumie and the old man from the Chen family, while Fang Yue and Fairy Caiyun returned to the venue of the World Conference quietly.

The banquets in the world are still noisy and prosperous.

"Well, this is a wind thunder fruit, which contains the power of wind thunder. After taking it, it can assist the integration of wind thunder power and increase the talent of wind thunder supernatural power!"

At the banquet, Fang Yue saw a list of Eight Immortals on the table, with fruit plates lined up with different spiritual flowers and exotic fruits.

One of them has the power of wind and thunder attached to its appearance, and the electric light is dazzling. It contains wind energy in the thunder light, and it seems to be able to split the void.

"Thinking about rain, take this wind and thunder fruit, don't refine it, and carefully understand the power of wind and thunder! Perhaps it will enable you to achieve something in the two ways of wind and thunder!"

Fang Yue didn't feel embarrassed at all. He took a thunder fruit from the center of the table, and gave it to Wu Siyu with a flower to present the Buddha.

"Where is this guy so ignorant of the rules! Is this Thunder Fruit that you can take if you want to take it?"

A young man in brocade came up, and he looked at Fang Yue with disgust and disgust. As a result, I have never seen such a shameless person.

The world will feast and entertain the heroes of the world, but only the real genius can pick the most precious one on each table.

This wind and thunder pass is something that the world will prepare for a real genius. This guy is only at the level of the leader, with a low status. I don't know how to get in by sneaking in. How can I take away the most precious wind thunder pass? !

"Who are you? Don't worry, this wind and thunder is not yours but the world's will. What does it have to do with you if I pick one?"

Fang Yue is tough, he hates this kind of nosy guy the most.

The young man in Jinyi snorted coldly, and said with an unkind expression: "I am the descendant of the ruined clan-Po Jiuxiao, well-known in the world, no one knows. You are so ignorant and ignorant that you don't even know my name. No wonder you are so crude and short-sighted. "

The young man in Jin Yi despised Fang Yue.

Fang Yue smiled brightly.

"The Broken Clan? Bro Jiuxiao? I have never heard the name before. It seems that you really don't know which cats and dogs are jumping out of the corner. It's not worth mentioning!"

Fang Yue finds fault, how does he think this young man in Jinyi feels that the other party is not pleasing to the eye.

I'm here to pick up girls well, why are you coming over to join in?

The smile on Po Jiuxiao's face converged, and then changed to a gloomy expression.

The ruined clan has been passed down for a long time. It was once a big clan in the underworld, and has never been so insulted.

"Give you a chance to apologize, otherwise, I will pull out your tongue!"

Po Jiuxiao is quite strong, as if there are stars rising and falling in his pupils, his breath is spitting out, clouds and mists are lingering, he seems to be a person among gods!

"Apologize? Why do you apologize? I didn't care about you, but you provoke me for no reason! Don't think that it's great to live in a ruined clan. There are many people who are stronger than you among these ten thousand clan creatures, not just anyone. I will endure your oppression!"

Fang Yue is strong and breaks Jiuxiao's needle to Maimang.

Both popular games are very strong, no one is weaker than the other!

"Okay, okay, okay! It's not that I am bullying, but that I gave you a chance, you don't know to cherish it!"

Po Jiuxiao laughed in anger, he laughed three times, dropped a finger, and abruptly zoomed in, trying to crush Fang Yue to death like an ant!

Fang Yue glanced at Po Jiuxiao indifferently, he did not evade, a layer of golden light on his body was rippling.

The golden light was like waves, ripples, and the fingers that broke Jiuxiao were bounced away, never hurting Fang Yue's body.

"Haha, Break Jiuxiao, your power of destruction is no longer good! Even the golden body defense of a small human race cannot be broken. It turns out that the name of the destruction family is just vain and empty talk!"

Someone fanned the flames nearby and laughed wildly at Po Jiuxiao.

Although the Disappeared Clan is well-known, this is a world meeting. Which one is not a distinguished person, and which one is not a Tianjiao?

The name of the Shattered Clan can't hold everyone down, and some groups are in conflict with the Shattered Clan, and naturally they do not hesitate to ridicule and sarcasm.

"Asshole! I was just a test just now, who would have thought that a humble human race would have such strength! The next blow, I will shatter his golden body and make all his cultivation empty!"

Po Jiuxiao roared, he shot again.

The wind and thunder were surging for a while, and the chains of order ten meters around the body were repeatedly turbulent!

"Po Jiuxiao, stop! What do you want to do? This Gu Fang is a distinguished guest of my world meeting. Do you want to do it to him in full view?"

A cold snort came out.

The sound was not loud, but it made Po Jiuxiao's chest stuffy, interrupted the mana movement in the body, and the previously brewing moves were also empty!

"Who? Who made a secret move and interrupted my moves?"

Po Jiuxiao looked around, his face was cold and he looked around.

"Naturally it is me!"

Xi Mang's face was cold, walking out of the crowd, he represented the will of this world to some extent.

All the people invited by the world will live in peace, one is bolder than the other!

Before the Chen family somehow led Gu Fang and Fairy Caiyun to a remote place where no one was left, and this Po Jiuxiao was actually ready to fight Gu Fang at the banquet!

This country has national laws and family rules.

At the banquet of the Tianxiahui, no matter what kind of grievances and entanglements the two sides have, they are not allowed to do it, otherwise they want to be the enemy of the Tianxiahui.

This one who breaks Jiuxiao is crazy, and I want to do it at the first opportunity! He didn't look at what occasion or place it was.

Especially, the other party who is doing this this time is the ancient party that the world will try to make friends with.

The ancient prescription has the pill of the original pill in his hands, and he has the ability to refining. Before dealing with the problems of the Chen family, the World Society has already been a little ashamed of the ancient prescription. If the same thing happens again, then the ancient prescription is even I am afraid that a good temper will be completely turned over this time!

Therefore, the handling of this matter needs to be cautious!

"Master Ximang, it was the ancient party who provoked first, and I was forced to helplessly, only to protect the dignity of the ruined clan!"

Po Jiuxiao roared, he had a lot of opinions on Yue.

Even if Xi Mang came forward to stop him, he didn't want to stop there.

Now, so many eyes are watching!

If he gives up halfway, what face will be in front of Ten Thousand Clan Tianjiao in the future!

Xi Mang wanted to slap this Po Jiuxiao to death.

If he retreats in the face of difficulties, he will punish this guy a little, and this will be the case!

But when you confronted me in front of so many people, do you think the world can talk easily?

Let you continue to fight against Gu Fang, you will have face, but where do I put my face!

"It's all up to Master Xi Mang!"

Po Jiuxiao ignited there, and Fang Yue accepted it when he saw it!

This Po Jiuxiao is a brave and brave man. Even if he is successful in cultivation, he will not be able to become a big man in the future.

Fang Yue's humility is in sharp contrast with the instant of breaking through!

Xi Mang glanced at Fang Yue, and said in his heart, this is really a cunning guy!

"In order to maintain the dignity of the ruined clan you were forced to take action, but just now, did the ancients have more than a little bit of slander on the dignity of the ruined clan?"

Xi Mang's voice was violent and scolded Po Jiuxiao.

Po Jiuxiao was speechless for a while, and was speechless.

He recalled carefully, it seemed that the ancient Fang had only said that he had never heard of the name of the Shattered Clan, and other words were never related to the Shattered Clan.

"Say, what did I just say about the insults related to the Disappearance Clan? If you can say a few words, I have had a fight with you and won't let the people of the world participate again!"

Fang Yue was domineering, and had an aggressive taste.

Po Jiuxiao's life has been smooth and smooth, and has never encountered such a dilemma.

"If it doesn't, let this matter go! After all, friends should be settled but not be settled. One more friend is better than one more friend!"

Xi Mang persuaded, and finally broke through Jiu Xiao and left bitterly.

Fang Yue watched Po Jiuxiao leave with a smile on his face.

"Master Xi Mang, do you say that Po Jiuxiao will let go of this?"

Fang Yue looked at Xi Mang and asked lightly.

"The Shattered Clan has always been sparsely populated and narrow-minded. Since you have been hated by Shattered Nine Heavens, you will never have peace from now on!"

Xi Mang spoke and told the truth.

"Forget it, don't think about him for these bad things!"

Xi Mang heard the other party's heart in Fang Yue's tone.

In fact, Fang Yue has always been testing the world's attitude and importance to him, whether it is the Chen Family or the Disappeared Clan.

Although Tianxiahui is willing to calm down and persuade others to make peace, its stand and attitude are not so firm.

But Xi Mang's heart was clear. This Fang Yue was nothing more than an alchemist in their eyes. His value was limited to cooperating when refining a few pills. Because of Fang Yue, he turned his face with some ancient clans. That is absolutely impossible!

I believe that Fang Yue will understand this and will not take his own humiliation, and provoke the majesty of the World Society without any means.

"Well, one of the many tasks of this World Society is to find a pill that involves the rules of the Five Elements Avenue. The lowest quality must be at the level of the Great Sacred Realm. The higher the quality of the pill, the reward is more convenient. The more generous, I wonder if this is true or not?"

"The missions that I will publish are naturally true!"

Xi Mang nodded and said in approval.

"If I can refine a kind of pill containing the Five Elements Heaven at the pinnacle of the Great Sacred Realm, I wonder how much the world will be willing to pay?"

Fang Yue looked at Ximang with a serious face.

Xi Mang took a deep breath, and then said after a daze, "You are talking about the five elements of heaven?"

### **Chapter 1999: Disaster is coming**

"Yes, it is the Five Elements and the Way of Heaven. It is not the Five Elements Avenue. The five ways of the Five Elements Avenue are fused with each other. It is the Way of Heaven! This pill containing the Five Elements and the Way of Heaven should be better than the one containing the Five Elements Avenue!"

"The Five Elements Heaven...Do you know the Five Elements Heaven?"

Xi Mang looked at Fang Yue, two rays of light suddenly lit up in his eyes, and even his breathing became slightly heavy.

The higher the cultivation base, the more you understand the meaning and value of heaven.

The ten directions of heaven all involve the most primitive and simple truths of the universe and life.

Compared with the Five Elements Avenue, the Five Elements Tiandao is more than one level higher.

It not only contains the five principles of gold, wood, water, fire, and earth, but also contains the basic principles of mutual generation and restraint of the five elements.

People who can be proficient in heaven have their own special value, just like the five elements of heaven, the five elements refined from it can nourish the viscera and warm the soul. Long-term use has unspeakable benefits for practitioners!

"The Five Elements Heaven, are you talking about this?"

Fang Yue smiled and raised his hand, as there were strands of the Five Element Essence flowing down between his fingers, and every strand of the Five Element Essence was as heavy as a mountain. If it really falls, it can crush a mountain.

Although these five elements are nourishing, they are also a powerful killer.

Ximang took a breath of cold air, and was able to refine the five elements essence, at least representing that this ancient prescription had already surpassed the third level of the Five Elements Heaven!

"If you can refine the elixir containing the Five Elements Heaven at the peak of the Great Sacred Realm, my world will be willing to bear all the materials for the elixir, and the refined pill will only be 30% in my world!"

There was a wry smile in Xi Mang's heart, this is really the present report, coming quickly. He was still arrogant just now, as a representative of the World Society, there is no need to bend to the casual cultivation of a human race in ancient Fang, but now he has to pay a greater price to beg Fang Yue to refine his pill.

The difference between the levels of the pill containing the Five Elements Avenue and the pill containing the Five Elements Heaven is simply too big, and the effects of the two are not the same.

Although the alchemist who can refine the five-element heavenly pill is in the underworld, this ancient prescription is definitely not the only one.

But people may not be willing to condescend and condescend to become the world congregation alchemy, and can comprehend the five elements of heaven, which one is ordinary?

Either it is a Tianjiao standing on top of all beings, then it is a big clan who lives in seclusion in the depths of time and space, practicing silently, fighting for fate with heaven.

"If you don't believe it, we can first refine a pot of saint-level pill! But the medicinal materials for this alchemy will still be burdened by the world, and the harvested pill will be divided into three to seven! I want seventy percent of the pill! "

Fang Yue smiled, he saw hesitation and doubt from Xi Mang's face.

In fact, if it were him, it would be the same!

The pill at the pinnacle level of the Great Sacred Realm, and contains the power of the Five Elements Heaven, how could such a pill be so easy to refine.

It is one thing to master the five elements of heaven, but it is another thing to be able to incorporate the five elements of heaven into the medicine.

"Okay!" Hearing this, Xi Mang immediately agreed. Anyway, he doesn't have too many pills of the Five Elements Heaven.

The pill containing the five elements of heaven is cherished, even if it is a slight loss in the distribution of the pill.

"This is the materials needed for alchemy. You can collect them for me. Although some materials are valuable, it shouldn't be difficult if you want to collect them with the strength of the World Association!"

Fang Yue's spirit fell into the blank jade slip, among which hundreds of materials were listed in sequence.

Not all of the medicinal materials are the materials needed to refine the pill containing Heaven's Path, and some of the materials are collected for himself.

"Okay!" Xi Mang took the jade slip and quickly disappeared.

Fang Yue and Wu Siyu continued to wander in the Pavilion of Tianfu. Among them, Tianjiao was like a cloud and was worthless.

After wandering for a while, Fang Yue led Wu Siyu away quietly and without interest.

"Why isn't Fang Yue staying in the world? This is a rare opportunity to make friends with the world's heroes!"

Wu Siyu was puzzled.

A faint smile curled up at the corner of Fang Yue's mouth: "This world will soon be in trouble! Even this cloud \*\*\*\* may not be able to save!"

"Why?"

Wu Siyu frowned. In this world, there will be a gathering of strong people, a gathering of heroes, and there will be many capable people, such as Fang Yuexiu who are superb. If there is really a catastrophe, why would they not know.

"The second wave of \*\*\*\* tide is coming! The cloud \*\*\*\* is within the scope of the second wave of \*\*\*\* tide, I have vaguely felt the faint smell of blood in the air! I have been deep into the \*\*\*\* tide, so I am particularly concerned about its breath sensitive!"

The smile at the corner of Fang Yue's mouth was slightly cold.

Wu Siyu was slightly surprised.

"Then let's run away! Anyway, I don't have too deep feelings for the Wu family in the underworld! As the saying goes, gentlemen don't stand under the dangerous wall! We don't need to stay and share adversity with the people in the cloud gods."

Fang Yue rolled his eyes, how could Wu Siyu be younger than his courage.

"Run? Where can you go? In the future catastrophes will envelop the people, there will be no safe and pure land in this huge underworld! Only by striving for the upper reaches and breaking through can you achieve something!"

Fang Yueyi was speaking rightly, and Wu Siyu was suspicious.

This doesn't match Fang Yue's style!

It's not the first day that Wu Siyu and Fang Yue met each other, everyone doesn't know whom!

This Fang Yue is notoriously timid and fearful. If it is not necessary to solve the trouble, he must be able to hide it. It is precisely because of Fang Yue's personality that he can kill many of his peers. Level.

And at this time, Fang Yue actually wanted to take the initiative to welcome the baptism of the Scarlet Territory, there must be a problem, and there is a big problem!

"Hey, the secret of heaven cannot be revealed! Now our two tasks are to buy the materials for the formation and one-time consumables! What kind of talisman at the level of saints, great saints, virtual immortals, taboo artifacts, healing pills, etc. Purchase as many strategic materials as you can purchase!"

Fang Yue narrowed his eyes, this time he wants to make a big vote!

Wu Siyu rolled his eyes, and then exclaimed: "Are you hoarding stocks?"

"It's not just a hoarding of goods, it's a big deal! We will have a long road to practice in the future, and we need massive resources to support our cultivation. Maybe others don't know it, but I have long felt it! You are a kind of Quite special physique, if it is ranked, it should be ranked in the top 30 among the 129,600 special physiques of the human race!"

"The special physique, although the combat power is amazing, the potential and talent of cultivation far exceed those of the same generation of creatures, but the consumption of cultivation resources is far from comparable to that of the same generation of creatures! The resources you need for breakthrough and accumulation in each realm are at least There are dozens or even hundreds of times the number of people of the same generation! The Wu family does not trust you, and has never spent too much money to train you! This time, Wu Haoren even uses you as a tool for their marriage. This is the Wu family's attitude towards you It's obvious!"

"The Wu family can't count on it anymore, so we can only support ourselves! I don't have much background. Although I have something to do with the League, but because I take the path of cultivating all kinds of methods, the last person Meng will not hold too much hope in me. Therefore, for the future, we must play a big ticket this time!"

Fang Yue's eyes were Sheng Guangxing, and he looked back again, looking in the direction of the Pavilion of Tianfu, his eyes were brilliant, as if a cat was looking at fish.

This gaze penetrated people, and even Wu Siyu felt a little frightened!

Fang Yue has lost his blood this time! In one day, he rushed around, using the relationship of the Vientiane Pavilion to sell all the miscellaneous trophies in his hand, in exchange for various precious pills and disposable consumables! There are a lot of treasures on him, and weapons of the Saint Realm and Great Saint Realm levels are piles! There are even more than ten artifacts at the virtual fairyland level! It is impossible for ordinary forces to digest such a large sum of wealth in one breath. Only the Vientiane Pavilion, with a large handwriting, plus Shangyue's high status in the Vientiane Pavilion, the various medicinal materials he exchanged are piled up like a mountain. Need to be measured in tons.

As for the finished medicine, boxes of large bottles and small cans were transported to his dimensional storage space. These elixirs are not expensive, they are the most common healing elixirs. Its realm level ranges from the leader realm to the virtual fairy realm! Fang Yue also exchanged all the merits of his

own alliance, and replaced them with various types of medicinal materials, medicines, and assassins such as the banner of formation!

In order to hoard more goods, Fang Yue even used his own clone of the earth. There were no other things in the earth, but there are definitely many high-tech weapons that are lethal to the creatures of the Saint Realm, the Great Saint Realm. There are fluid liquid robots! There are also antimatter particle bombs.

I believe this time the enemy will be very surprised when they see these weapons!

Time is like water, in a blink of an eye, the sun rises and the moon sets, and one day passes!

The sky gradually revealed the whiteness of the fish belly, and a faint red glow dyed the east!

An expectant smile appeared at the corner of Fang Yue's mouth.

"Come, finally here!"

Suddenly, the scarlet light was like a flood catharsis, just a blink of an eye covered the entire world with cloud heaven!

At the same time, darkness fell, and huge vortexes emerged from the sky!

"Has the Abyss and the Scarlet Realm joined forces?"

Fang Yue muttered to himself, he did not expect that the scene before him was even more terrifying and cruel than the scene he had imagined!

Originally thought it was a \*\*\*\* tide, but unexpectedly it was a superposition of two calamities!

In the black abyss, a group of little demons leaped out of it, a piece of ebony, waving a knife and falling from the sky!

"Boom!"

"Boom!"

"Boom!"

In the sky above the clouds, a huge ancient clock emerged from nothingness, and the ancient bell rang, ripples rippling in layers!

The void was scattered, and the hundreds of little demons who first landed on Tianque were directly shattered by sound waves and turned into blood fog!

At the same time, the masters walked out of different buildings, and their expressions were unusually solemn.

**Chapter 2000: Conscript**

"The surrounding void has been imprisoned! Someone has constructed seven or forty-nine worlds superimposed on each other to isolate Tianque from the outside world!"

A true immortal walked out of the Pavilion of Tianfu, his hair was disheveled, and he wore a white robe, his voice revealed a solemn smell.

"Not only is the cloud heaven, but the surrounding area of 8,000 kilometers is also imprisoned, and it has been refined into seven or seventy-nine worlds! Layers of world barriers are superimposed, so that we are completely isolated from the outside world and it is difficult to get out. !"

"This is a conspiracy. Someone secretly lays out, and wants to use the power of calamity to refine all the heroes and princes who will gather in the world this time. Even the strong ones of the older generation have never let them go. Urn, no one can escape!"

Wu Haoren also spoke slowly. He stroked his beard lightly and said in a cold voice.

Fang Yue said nothing, he felt that he had miscalculated a little!

Originally, he thought it was just a \*\*\*\* tide, and he should be able to run rampant and come and go freely with his blood cloak technique, but he did not expect that there would be an abyss in it, and an invisible big hand would dominate everything!

"Should not be greedy!"

Fang Yue self-examined, he was just a flesh and blood clone here at best, even if it fell, it would not cost much, and would not affect the deity at all, but if Wu Siyu died here, it would really be dead!

If you had known it earlier, you shouldn't have taken her to adventure together!

Wu Siyu saw the faint trace of self-blame and guilt on Fang Yue's face.

Wu Siyu said with a smile: "It's okay! What you said before is correct. This calamity has come and swept the entire underworld. Nowhere is it safe. Rather than just avoiding it, it is better to face it! With so many masters here, we may not be able to. Lost, didn't you?"

Wu Siyu was comforting Fang Yue.

This made Fang Yue's heart even more uneasy.

"Don't worry! No matter how terrible this calamity is, I will take you out of it safely!"

Fang Yue's sonorous, loud voice, this is his promise, but also the oath in his heart.

Fang Yue returned to the Pavilion of Heavenly Talisman, but this time he did not find Xi Mang.

The situation suddenly arises. As the strong man at the apex of the pyramid in this heavenly fault, Xi Mang must participate in more important decision-making discussions. As for the elixir and the like, it seems insignificant.

However, Fang Yue still got ten copies of the refining materials for the elixir containing the power of the five elements of heaven at the level of the saint!

It was Chen Shi who sent Fang Yue the medicinal materials, and Chen Shi also seemed to be in a hurry at this moment, and his soul was unsettled!

He never thought that this is a short time for holding a world meeting. How could the catastrophe befall suddenly?

"Gu Fang, I may not be able to take care of you lately. You! You have to be careful! Because of your accomplishments in alchemy, many old guys in the race have set their sights on you!"

Chenshi warned and reminded Fang Yue.

A bitter smile appeared at the corner of Fang Yue's mouth.

"I understand this in my heart, thank you Master Chenshi's system. After the refining of this pill is completed, I will send the refined pill to the Pavilion of Heavenly Talisman as scheduled!"

Chenshi nodded and then left. As a true fairyland-level existence, he was also one of the important combat forces in this world.

He was able to personally send Fang Yue the materials for alchemy, which already showed the importance of Fang Yue from the World Association.

After Chenshi left, Fang Yue still wanted to enter the Pavilion of Tianfu again for refuge. After all, in the cloud heaven, the strongest man in the Pavilion of Tianfu should be considered the safest place.

However, before he reached the door, he was driven out by a guard in light blue armor.

"No one is allowed to enter the pavilion of Tianfu!"

The voice of the guard was cold and stiff.

"I am not an idle person, I am the arrogant talent that the world will invite!"

Fang Yue frowned, the world would say that the style of turning his face just turned his face makes him uncomfortable!

"Hey! It's just a junior at the leader level, what kind of arrogance? But the ants! If you don't let you in, you won't be able to enter! Why? Are you still trying to break through?"

This guard in light blue armor is becoming more and more public. He only has a saint-level cultivation base, but his identity represents the will of the Tianxiahui.

Fang Yue took a deep breath, and instantly understood in his heart that someone was taking this opportunity to make things difficult for him!

Now, Xi Mang and Chen Shi have everything they need to be busy with, and there is no time to take care of him. If he dares to act on this guard at the gate of Tianfu Pavilion, he will be swarmed by many powerful people in the World Society. Into meat sauce.

"It's all this time, are you still calculating?"

Fang Yue muttered to himself, suppressed the anger in his heart, turned and left.

"Hahaha, I didn't think that the so-called alchemy genius Ancient Fang who was famous for a while has only this courage!"

Fang Yue had already turned and left, but the guard in the light blue armor was still making provocations.

Fang Yue didn't say anything, but just dragged Wu Siyu away.

"There is fraud in this, so be careful!"

Fang Yue whispered to Wu Siyu, he had already smelled the wind and rain coming!

However, Fang Yue was still a step late for his sense of danger.

He and Wu Siyu didn't take two steps. A strong man of the Great Sacred Realm had already nailed them on the road like a flagpole.

"Gu Fang Taoist friend, since he has already arrived, why not sit down and have a good talk?"

The strong man in the Great Sacred Realm had a dull expression and a lifeless spirit, but there were gloomy and cold fluctuations in his divine thoughts.

This is an ancient corpse of a great saint realm powerhouse who has been refined into a puppet, and is responsible for robbing Fang Yue.

"Nothing to talk about! Hit if you want!"

Fang Yue understood that this ancient corpse was by no means his only adversary. The delay was too long and it was very likely that more powerful enemies would be attracted.

"Young man, why is it so angry? I just want to ask for a few pills!"

The ancient corpse spoke slowly.

Without saying a word, Fang Yue directly released a blood-colored weapon of the Great Sacred Realm level! A faint blood coat appeared on his body, and he used blood coat technique to cover his breath, so that he would not be the target of this scarlet weapon!

There was a bang.

The blood was overwhelming, and the crazy blood swept the world, attacking and killing in the direction of the ancient corpse!

"Gu Fang, stop going!"

The ancient corpse roared, he wanted to intercept Fang Yue, but was stopped by the \*\*\*\* spear.

The spear swept across and penetrated all directions!

The \*\*\*\* edge seems to be able to poke a hole in the sky!

The ancient corpse displayed a variety of magical powers, and from time to time a rainbow of light shook the sky.

But at this time, Fang Yue had already run out of sight!

Finally after dozens of fights, the strength of the ancient corpse was finally hard to beat. The blood-colored spear was pierced through the body, and it burst into dozens of corpses, blood and flesh flying, and the dead could no longer die!

"Who did it on me in the dark? Are you the Feng Clan or the Chen Family? Or other families and forces?"

Fang Yue scratched his head. During this time, he walked the world as an ancient Fang. He was quite high-profile. He erected a lot of opponents. In addition, he was able to refine all kinds of magical elixirs with his own alchemy, which made all parties involved. It is greed and covetousness.

Unpredictable!

I am afraid that I will no longer be able to use the identity of the ancient party to walk in this area in the future!

Fang Yue pondered, and then his body changed, returning to his own deity!

At this time, there was a bang, and a beam of red light with a diameter of 100 meters fell from the \*\*\*\* sky.

The beam of light was fierce, directly tearing through the void, knocking down with one move, and the sky trembled.

Where the blood-colored light beam fell, Tianque was blasted out of a big pit, and even the ground paved with magical materials was easily torn apart like paper!

Heads of blood-colored creatures slowly stood up from the big pit, they were all at the level above the saint realm, and they rushed towards all directions!

At the same time, the abyss rotates, and the monsters among them spit out like they don't need money!

In an instant, the sky was filled with monsters of all kinds, and none of these monsters were weak. Indiscriminate killing was an unreasonable killing!

Some big tribes use all their methods, including puppets and war soldiers, all of them rush out to fight these monsters to life and death!

There was a victory and defeat between them, and they fought to a very tragic situation.

Fang Yue was watching, watching coldly, and didn't mean to join in!

He didn't have a strong sense of belonging to Yun Tianque, and he had just suffered a tragic ambush. If it weren't for getting away quickly, I'm afraid it has been surrounded by masters from all walks of life!

At this time, the token on Wu Siyu's waist lit up.

Wu Siyu's face changed slightly, and she took off the token on her waist.

"This is the highest-level convening order of the Wu family. All disciples and elders, no matter what is in their hands, must immediately put them down and gather at the designated place. If they fail to arrive,

they will be punished by the Wu family according to the highest standards. Disposal-abolish all mana and exile into the Taiyin Ancient Mine!"

"It's okay, I'll go with you!"

Fang Yue decided to leave with Wu Siyu.

Although the Wu family's identity is tasteless, the Wu family is a big clan, who can give Wu Siyu corresponding shelter!

"But your identity?"

Wu Siyu looked at Fang Yue hesitantly. Nowadays, Fang Yue's identity is quite sensitive, and it can even be said to be a target of public criticism.

If Fang Yue's identity is exposed, it is likely to become a piece of fat in the Wu family, and even some old antiques in the Wu family will be forced to stay and become a Dan slave for alchemy.

Wu Siyu does not have a strong opinion of the Wu family.

Some of Wu's methods, dirty and nasty, even made her feel shameless!

She was worried that Fang Yue would accompany her into Wu's house because it would be a meat bun and a dog and never return!

"I will accompany you into Wu's house as Fang Yue! This ancient Fang's name is temporarily unusable! If your cheap master is correct, I should be studying how to deal with the calamity in the Pavilion of Tianfu , I won't come back for the time being and I won't care about you, so in a short time my identity should not be in danger of being worn out!"

Fang Yue's thinking Zhou Xiang already had his own consideration.

The Wu family is considered to be a third-rate family in the human race in the underworld. The patriarch of the Wu family is a powerhouse at the pinnacle of the fairyland. It is suspected that there is more than one powerhouse in the great Luojin fairyland in the Wu family. The human background is still quite solid.

The Wu family's residence in Tianque in the cloud is a courtyard. This courtyard is very large, covering an area of tens of acres. There is a cave in the other courtyard of the Wu family, and a big figure reshaped the courtyard for the Wu family and shaped the depths of the Wu family into a cave sky!
