

## God of Life 201

### Chapter 201: Super genius

The physics class is still going on.

The starlight on Fang Yue's body is getting stronger!

Starlight baptism, physical transformation.

Fang Yue's physical body, unknowingly, has stepped onto a new level!

Hundred steps of the flesh, the third step!

Fang Yue felt that his body was like a brute! At the same time, he was already prepared for the tempering and upgrading of the physical body.

Take out the dried meat prepared earlier from the storage bag one by one. All are marinated from the flesh and blood of fierce beasts at the pinnacle of the world!

These things are very valuable, and it takes hundreds of spiritual stones for every catty to buy. However, it has a large number and is sold everywhere. Fang Yue asked Sima Xiao to help himself buy 500 kilograms in Vientiane Pavilion!

The realm of heaven and earth is indeed a realm of heaven and earth.

In their flesh and blood, the essence contained is extremely rich.

After only 30 or 50 catties of butcher shop digested, Fang Yue's energy deficiencies had already recovered by 30%!

For the rest, Fang Yue is filled with gluttonous herbal liquid! Because this butcher shop is too much, and the cost of Baicao pulp is extremely low!

For a moment, Fang Yue's blood rushed forward, and he even felt like he could kill a brutal beast with one fist!

"Hundred-level physical body! You have even cultivated your physical body to this level!"

Ling Feiyan was about to collapse. This Fang Yue was not very young, but he was involved in such a wide range of aspects. Refining Qi, refining alchemy, and magic, each path is worthy of countless people's life-long exploration and research.

And Fang Yue actually took care of everything. And there are achievements!

Ling Feiyan, ever since he was a child, thought that she was a genius. But compared with Fang Yue. She discovered that she was so failed and weak at her same age!

Fang Yue didn't have the energy to take into account the opinions of others, because the embryonic form of Dao Seed whirled slightly in his body. Not only are the embryonic forms of the three heavenly

paths of life, death, and soul forming the skeleton, at this moment, even the heavenly paths of space are also incorporated!

The embryonic forms of the four heavenly realms are the main ones, the Avenue of Flames, the Avenue of Stars, and the Avenue of Thunder, which have become the second layer of Taoism!

Suddenly, Fang Yue's zhenqi increased, although his realm still remained at the peak of the second small step of the innate realm, but his zhenqi amount skyrocketed by 30%!

In the soil of chaos, even strands of chaotic air flow turned out to envelop this Dao seed!

Fang Yue was stunned, how could he improve his strength?

Soon, Fang Yue woke up from the shock.

He realized that this Baili Secret Realm was probably his blessed land!

At least, one of his heavenly ways and three heavenly avenues are all beginners.

This is an achievement that many practitioners, who have spent their entire lives, are hard to achieve!

"Fang Yue, don't worry, stay in this cave and stabilize the four principles you have just understood! Although you have excellent comprehension, your foundation is easy to be unstable. After your enlightenment, you need precipitation to be solid! I don't want your cultivation. To become a kind of castle in the sky!"

Ling Feiyan reminded me carefully, the meaning of care is self-evident!

Fang Yue nodded, sat up cross-legged, and began to recollect the different feelings these four ways have brought him!

Ling Feiyan and others left the cave one after another.

This is Ling Feiyan's territory, no one can disturb Fang Yue's cultivation without her permission!

Outside the cave, about Mo Baili.

Ling Feiyan's smile converged and returned to her proud and lonely expression.

Runbo Erba and Tyrant Bolben are both respectful and respectful to Ling Feiyan, where there is the smell of democracy and harmony just now.

In Ling Feiyan's territory, she is the king!

No one can offend her status and authority!

"Princess, why do you want to take in this human kid! Although he has amazing talents and extraordinary savvy, after all, his origin is unknown, and he is likely to develop serious problems!"

Benbo Er Ba's tone was serious and advised Ling Feiyan.

At the corner of Ling Feiyan's mouth, a sneer appeared: "Do you think I am the kind of person who casually settles?"

"That is....."

Runbo Erba looked at Ling Feiyan, showing a look of doubt.

This Fang Yue's cultivation base was too low, and he didn't even have the value to be used by them.

"Do you know how this Fang Yue got in?"

In Ling Feiyan's eyes, an imperceptible strange color flickered across.

Runbo'er Ba and Ba Borben thought slightly, and they all showed a touch of horror!

Baili Secret Realm.

There are many secrets involved. Closed space, self-contained system! Except for regular gaps in the space between the world and the mysterious yellow world, at other times, there is absolutely no way to enter and leave this world.

So how did Fang Yue get in?

Obviously, there is still half a month before the gap between Baili Secret Realm and Xuanhuang World opens!

Both the eyes of Benbo Erba and Ba Bolben gradually lit up.

"Could it be that this kid has the ability to shuttle between two realms?"

In the Baili Secret Realm, there is no shortage of strong people, the horrors of the leader level, and even the saint realm are common.

However, the natives of Baili Secret Realm cannot walk half a step through the cracks in space, even if you have the means to reach the sky!

"Yes, I suspect that he has this kind of ability! He fell into my cave in a space crack. This may be in the dark. God gave us a chance to leave this Baili secret realm!"

In Ling Feiyan's beautiful eyes, brilliance gleamed.

If her inference is true, then this Fang Yue is the most sought-after baby bump in this Baili Secret Realm! "I heard in the process of his conversation that he originally built a teleportation array and headed to another secret realm. But midway, due to his spatial spiritual root awakening, he absorbed a large amount of spatial power, causing the teleportation to appear. Problem! I suspect that he has established Baili Secret Realm and Xuan

The strength of the teleportation array between the yellow world! "

Ling Feiyan's voice is even more exciting!

Although the resources of this Baili Secret Realm are infinite, it is also extremely threatening. In some places, there are dead beasts in sleep. Once revived, even the powerful saints may be slapped to death!

Moreover, the area of Baili Secret Realm is not large, roughly equivalent to two \*\*\*\* cities.

For Ling Feiyan and others, this is simply a natural prison! "Teleportation array? I'm afraid this is not very hopeful!" Benbo'er Ba shook his head slightly, and sighed slightly: "This possibility is not very big! I have tried, and ordinary space formations cannot break through the barriers of the world. If it is transmitted within the secret world, there is nothing, but once you encounter the world

World barrier, the teleportation array itself will disintegrate immediately! "

"But, what if Fang Yue mastered the teleportation array from the ancient era?"

Ling Feiyan was confident: "I have investigated. In ancient times, the Heavenly Court of the Immortal Realm hadn't established its current status. Humans had peerless geniuses and invented a teleportation array that could cross the barriers of the world! This teleportation array was eventually lost. .But it is also possible that through various twists and turns, survived, and finally fell into Fang Yue's hands. Don't forget, Fang Yue originally wanted to activate the teleportation formation and go to another secret realm, which is also a world of its own. When he turned on the teleportation array, the teleportation array operated normally, not collapsed.

The collapse was due to a coincidence. Fang Yue's spatial spiritual roots awakened, causing the spatial power to become disordered, and finally fell into the Baili Secret Realm! "

"So that's the case, then we have to take this Fang Yue well! He is our hope of leaving this Baili Secret Realm, and we must not lose any!" Benbo'er Ba nodded frequently. His eyes are also radiant.

"Or, let's put Fang Yue under house arrest! Let him set up a formation to take us away from here!" Ba Boer ran for words, but he was full of anger when he spoke. Ling Feiyan sneered: "If I could, I would have done it! In Fang Yue's body, there are some other big men's arrangements! If we dare to move him, I'm afraid that Fang Yue is not imprisoned if we dare to move him. The fly ash is annihilated! Do you know that Fang Yue's practice is

It is the level of the celestial scriptures. If he has no background, can you believe it? "

Running around, Ba Boer rushed to each other silently.

It's the turn to be rough, both of them are experts.

But if you use your brain, theirs really won't work! "So, for Fang Yue, what I mean is to put a long line, catch a big fish, give him benefits, make him owe cause and effect, and then will naturally help us leave this hidden realm of Baili! Even, there is really a big man behind him to take care of, Hundreds of thousands of years later, if Fang Yue could grow up, it would be worthwhile

It is a very good chess piece! "

Ling Feiyan's eyes flashed, and a smug smile appeared on the corner of her mouth.

In this world, there has never been love without a reason, nor hatred without a reason!

Fang Yue's kindness only gave Ling Feiyan a reason to be close.

Otherwise, as a demon, would she be moved by Fang Yue's clumsy story!

Fang Yue was in retreat, and his four new ways of understanding quickly stabilized.

However, Fang Yue did not leave the customs easily. It is an open mind, and in the midst of it, I feel the many morals in this mysterious realm of Baili. This Sima said with a smile. The Baili Secret Realm is a corner cut from the \*\*\*\* of the past. Many laws are intertwined and Taoism flows. It is a hundred times purer than the Xuanhuang world, and it is easier to be understood. In a moment, he has already learned from In the midst of the world, I feel the rotation of the heavenly path, recurring taste.

Among the Taoism, life, death, and soul are also circulating. Allelopathy!

The three heavenly realms in Fang Yue's body were then consolidated, gradually evolving from the embryonic form to reality.

At the same time, the four principles of Fangyue Space, Lightning, Flame, and Stars are also evolving, as if not to be outdone, they have entered a higher realm!

After an hour, there was a bang.

A creamy beam of light fell.

It broke through the sky and enveloped Fang Yue.

The immortal sounds are endless, as if there is a Buddha singing, Taoist chanting, all the Buddhas in the sky, blessing him, endless gods and demons, blessing him!

Fang Yue's realm suddenly skyrocketed, from the peak of the second layer of innateness to the peak of the third layer of innateness in one step!

A Taoist seed is solid, suspended in the chaotic divine soil.

This Dao seed is turning slightly, and it can involve the rules of the heavens, and it trembles in shock!

Looking far away, Ling Feiyan, running around Erba, Ba Boerben will have a panoramic view of the situation in the cave.

They were all dumbfounded.

A breakthrough in a small realm can actually attract such a great fortune!

Natural vision. It is an extremely rare sign, generally, it will only occasionally appear once when someone with a special fate is born or when the Communion comes!

However, Fang Yue's breakthrough in even a small realm resulted in the accompanying vision.

What kind of exercises does this guy cultivate? This is too exaggerated!

In fact, they misunderstood.

This vision was born, not because of Fang Yue's breakthrough in realm, otherwise, let alone a small realm, even if it was a leap in a large realm, Fang Yue would only provoke the blessing of the heavens, without the blessing of the vision.

But just now, Fang Yue, from the Baili Secret Realm, realized the meaning of the reincarnation of the heavens, the endless life.

Within the body, three volumes of immortal scriptures resonate, forming reincarnation, condensing Taoism, and just then accompanied by such a vision! Fang Yue could clearly feel that the blood in his body was surging, roaring like a rushing river! The seven different Taoisms have been condensed into one flawless Taoism. Profound and mysterious, with all kinds of powers that are difficult to predict!

## **Chapter 202: Way to leave**

The third level of innate realm.

This is nothing to most practitioners.

But falling on Fang Yue, it was not easy to be able to get to this point. The Dao-seed was first formed, and the most difficult hurdle of the innate realm finally disappeared.

The rest is to use all kinds of heaven and earth essence and life essence to water Dao seeds, make them germinate, bloom Dao flowers, and condense Dao fruits!

In a moment, Ling Feiyan returned. When she saw Fang Yue again, she couldn't help but give birth to a touch of surprise. Within a short period of time, Fang Yue transformed, his body was like jade, immaculate, and his eyes contained introverted divine light, as if it contained some inexplicable truth between heaven and earth. Every gesture can exude a touch of detachment. It's like a desolate immortal descended, following in the footsteps, but not touching the silk

No cause and effect!

"My younger brother is really extraordinary! In a short time, he is on a higher level!"

Ling Feiyan arched his hand, the shock on her face quickly dissipated, replaced by a faint smile, as if she was sincerely delighted because of Fang Yue's promotion!

Fang Yue smiled and said, "Thanks to the blessings of my sister and the two generals! Otherwise, it would be difficult for me to be promoted to the present state so easily! The Tao is misty and difficult to understand. If it weren't for this, there would not be so many people in the world. , Stuck in a certain realm, it is difficult to escape!"

Fang Yue would not be really proud of hearing Ling Feiyan's praise. Although he was invincible among the same ranks, he was far behind other people in realm.

Aside from anything else, it would be difficult for him to even even a strong man in the world realm. Invincible at the same level, only proves his solid foundation and tyrannical methods. But the realm is always a limitation, which makes it difficult for Fang Yue to truly rule the roost among the younger generation!

"The younger brother is indeed amazingly talented, and there is no need to be humble! If people in the world can understand the Dao Fa with a little explanation, then there will not be so many people trapped in the world and cannot go further!"

Ling Feiyan shook her head slowly, thinking that Fang Yue was too modest. But soon, Ling Feiyan turned around and said: "Brother has been in my place for a long time. I don't know when I will have the opportunity to visit my brother's place! This hundred miles of secret realm is like natural Prison, even though my mana is overwhelming, but maybe I can't escape this predicament

The end of old death! "

Ling Feiyan's eyes were filled with tears.

She looked extremely pathetic. Fang Yue couldn't help being vivid.

However, Fang Yue quickly woke up, and he understood that Ling Feiyan's purpose was finally exposed.

Fang Yue is not stupid, he will not think that he will make two rounds at will, this Ling Feiyan will be vivid. Mother's love is overwhelming, and she treats herself as a younger brother and protects her.

All relationships are based on the relationship between utilization and utilization!

If this relationship is eliminated, I am afraid that Fang Yue will not be much different from an ordinary ant in Ling Feiyan's eyes.

"My sister's experience is indeed sympathetic! But my younger brother is helpless! Although I have a rough knowledge of the formation, after all, my cultivation skills and vision are here. Even if the formation of returning to the world of Xuanhuang is built, it can only accommodate the world and below. People pass!"

What Fang Yue said was the truth. The higher the realm, the stronger the barrier against the world barrier! It is not easy for them to cross borders, otherwise, the world of Xuanhuang would already be full of gods and demons. The strong are like dogs!

However, there was not much loss in Ling Feiyan's eyes, but a face of surprise was revealed.

"That brother means that if it is the cultivation base of the heaven and earth realm, you can reach the world where you are through the teleportation formation?"

"In theory, this is true! However, every time it passes, the resource spirit stone that needs to be consumed will not be a small amount."

Fang Yue nodded. It is an unwritten rule of practitioners to reciprocate.

Otherwise, eating the benefits alone will not only ruin his reputation, but may even lead to cause and effect entanglements, breed demons, and cause various adverse effects on future practice.

"There is no problem in terms of resources. As long as I can leave this cage world, I am willing to pay no matter what the cost!"

Ling Feiyan responded readily.

Then the spirit stones were thrown out all over the place. These spirit stones were the best spirit stones that even Fang Yue had never seen! The aura in it is rich to the extreme, almost the concentration of the solidified heaven and earth aura.

The best spirit stone is extremely rare in the Xuanhuang world.

Generally, only high-ranking figures can reach it, and there are almost no impurities in it. It can be absorbed directly, and there are many low-quality spirit stones that cannot be achieved!

Although the concentration of spiritual energy is only a hundred times that of the top-grade spiritual stone, the price is calculated at ten thousand times!

Moreover, this superb spiritual stone has a price but no market, and it is difficult for ordinary people to get it!

Fang Yue glanced at it. There were at least thousands of top-quality spirit stones in this place. However, Ling Feiyan didn't cherish them, they were scattered randomly on the ground like dirt.

Fang Yue swallowed a mouthful of the star.

Obediently, big people are big people, and even their values are different from the little people at the bottom of theirs. They are so generous at first shot.

This can no longer be described as a local tyrant!

"This formation can be activated at any time! I don't know when my sister will leave here!"

Even the best spirit stone was moved out, and Fang Yue had no reason to shirk.

Ling Feiyan smiled and said: "The sooner the better!"

Fang Yue also had no ink marks, and took out various materials from the storage bag and began to build the teleportation formation.

This time he built a sun formation, while the formation in the Fang family courtyard was a Yin formation.

Yin and Yang are not important.

As long as yin and yang can grow mutually and resonate, it can be transmitted smoothly.

Seeing this, Ling Feiyan nodded slightly. This formation method was indeed mysterious. Even if the formation method was placed in front of her eyes, she could not figure out the essence and clues of one ten thousandth of it!

"Brother wait a minute, I'll be back soon!"

Ling Feiyan left the cave with Ben Bo Er Ba and Ba Bo Bor Ben.

Fang Yue is still constructing his own space formation, the teleportation array of the teleporting heaven and earth realm and the teleporting array of the teleporting innate realm are not at the same level!

The various formation patterns involved are combined with each other, which is a hundred times more complicated!

Sweat oozes out of Fang Yue's forehead, and big beads of sweat drip down. However, Fang Yue didn't give up, instead he understood every detail in the process of building the teleportation array.

Everything is done.

This teleportation array itself is an evolution of the rules of space.

If he can fully understand the essence of it, Fang Yue will definitely be able to step up to a new level in terms of the way of space!

Soon, Ling Feiyan, Ben Bo Er Ba and Tyrant Bol Ben returned together.

But this time, their auras were all lowered, only the level of the heaven and earth realm peak!

Fang Yue lost his mind for a while, could it be possible that they could suppress their strength for a short time?

But soon, Fang Yue discovered the trickiness in it, and he realized that the bodies of these three were very different from before. Reminiscent of the records in the "Book of All Souls", Fang Yue suddenly understood.

These three bodies should not be their deities, but each created a clone of the heaven and earth realm, and then a ray of divine thought entered the Lord.

Fang Yue didn't say anything, he completed the final arrangement of the teleportation array.

In the end, the key position of his teleportation array was inlaid with eight top-grade spirit stones to provide a steady flow of spiritual power and energy. In other positions, there were 1,008 top-grade spirit stones to stabilize the space passage!

"This teleportation array must be guarded! In the future, if you want to return to the Baili Secret Realm, you still need this teleportation array as a sun array to teleport!"

Fang Yue carefully exhorted.

Ling Feiyan nodded and agreed.

After that, the four of them stepped into the teleportation formation at the same time, and with only a blink of their eyes, the surrounding scenery changed and they arrived in Fang Yue's courtyard!

"How is this going?"

As soon as Fang Yue returned to Fang's house, he noticed a monstrous evil spirit coming from outside his courtyard.

"Fang Yue, open the door quickly! Otherwise, we will attack!"

"Now, Baili Secret Realm is about to open! You need to cultivate geniuses within the clan. You should actively contribute all the resources in your hands instead of waiting for us to actively ask for it!"

The sound of shouting continues, this sound should have been going on for a while!

It's just that Fang Yue never stopped, never heard, and there was a formation guard outside his mansion, so it was always difficult for these people to set foot in it.

"Brother, it seems that what you are saying is true! In Fang's family, you are really bad, embarrassed on all sides, and you have already been bullied by others!"

Ling Feiyan was a little stunned, and soon inferred the cause and effect of the incident. She giggled, her voice was charming, and her body was enchanting!

Fang Yue covered his face, it was really embarrassing to be lost home!

How did Fang Thirteen do.

Can't even this matter be settled?

"Do you want my sister to help you, just a few. My sister can shoot them into meatloaf! This kind of villain, the more you forgive and condone, the more presumptuous they will be in the end!"

Ling Feiyan bewitched Fang Yue.

Fang Yue refused righteously.

"Although this Fang family treats me badly! But I have always been a disciple of the Fang family. How can I let my sister be an outsider to intervene!"

There was a lost look in Ling Feiyan's beautiful eyes, and Fang Yue secretly pinched a cold sweat.

How could he let Ling Feiyan make a move. Ling Feiyan, Benbo Erba, and Bol Ben are all orthodox demons and come from hell. Once shot, in case a little bit of magic leaks. Then his big hat of colluding with the demons must not be taken off!

At that time, not only would he not be able to mix in this God City, but even the Terran Territory would have no place for him to stand!

Fang Yue calmed down a bit, his fingertips moved. Little drops of water condense in front of him, becoming an ice mirror, reflecting the situation outside!

Outside Fang Yue's courtyard, a group of people came, and roughly calculated, there are about 40 or 50!

Among them are Fang Bao and Fang Yao. But Fang Yue could see that the two men were not the masterminds, but vanguards who were used as guns.

The rest of the people are all disciples of the Fang family's main line, and their cultivation is fairly good, on average around the sixth to the ninth level of the Innate Realm!

But their physique is average, and they are not in the same series as Fang Qinglong.

At the end of the team, there are several figures on the body, and the aura fluctuates vaguely. According to Fang Yue's inference, it is very likely that he will be a master of the world realm, and the mastermind of this shot!

"Can't wait so much?"

Fang Yue sneered and opened the formation.

He took the initiative to walk out of the courtyard and stood at the door!

"Who! I came out so early in the morning to make a noise! Isn't the Fang family in charge of such annoying people?"

Fang Yue sneered. He didn't pay attention to this mob. Fang Leopard first stood up and said inwardly, "Fang Yue, I heard that you have obtained a lot of incredible treasures in the Yan Kingdom Divine Land! Now, your family needs your treasure to cultivate geniuses! I think you should understand that as a Fang family disciple, at this time, you should contribute all the treasures in your hand!"

### **Chapter 203: Shamelessly ask**

Fang Leopard was straightforward and unceremonious, and when he opened his mouth, he stood at the highest point of morality and asked Fang Yue for the treasure!

He is not afraid that Fang Yue will not make friends. Behind him, standing many disciples of the Fang family, under the eyes of everyone, he does not believe that Fang Yue dares to refuse!

"Who are you? Why don't I know you?"

Fang Yue turned off the topic and looked at Fang Leopard, his eyes were like electricity, shooting directly at Fang Leopard's mind!

Fang Bao's heart trembled slightly, and an uncontrollable fear swept across!

He didn't expect that Fang Yue really shot.

Fang Leopard's left index finger, a bronze ring glowed slightly, and a white halo enveloped Fang Leopard's body, which dispelled Fang Yue's light. Let him gradually recover from the panic!

"Fang Yue, you are bold! In the Fang family, how dare you attack the disciples of the clan!"

Fang Leopard stretched out his finger and tapped the tip of Fang Yue's nose. His voice was sharp and harsher than an awl!

"I did it? Which eye did you see when I did it? You don't know your background and slander the Fang family disciple. This is a felony. Before you speak, you need to think carefully!"

Fang Yue said quietly. It's not fast or sick, as if talking about an insignificant gossip, without the slightest anger.

"This....."

The other disciples were also speechless, because they didn't see exactly what happened just now. Their eyes were like electricity, invisible and invisible. Except for the strong induction of the person involved, it was difficult for others to capture the true power!

Fang Leopard suffered a dumb loss.

"Okay, okay, okay! Fang Yue, don't you know my identity? Here, this is my identity token, you are optimistic! I am the inner disciple of the Fang family, Fang Bao!"

Fang Leopard gritted his teeth, he originally thought things would go well this time. They are so many and powerful, caught in the moral power, they can easily surrender this Fang Yue's kneeling and offer all the treasures! At that time, the treasure was in hand, and they slandered again that Fang Yue failed to hand over all the treasures, planted a crime of concealing family treasures, and sent him to the sky prison. Ling Chi

Put to death! At that time, part of the treasure will be handed in, and the rest will be divided among themselves. All are happy!

However, he never expected that Fang Yue would not follow him, so powerful!

However, this is Fang's family, not Yandu. Fang Yue could not escape their palms after all!

"Inner disciple, Fang Leopard? Humph! You, a little inner disciple, dare to ask my elite disciple Xingshi! What's the crime if you ignore the family hierarchy laws!"

Boom. Fang Yue threw Fang Leopard's identity token to the ground.

At the same time, Fang Yue slowly took out the identity token of his core disciple, and injected a ray of true energy. The token shines, the words are as big as the red sun, dazzling!

In the Fang family, the rules are strict!

Among the disciples, the status of each level is different.

The handyman disciple is the lowest level, and is responsible for some of the groceries of the Fang family. They are usually people of foreign surnames who want to use the resources of the Fang family to practice.

Outer disciples have a slightly higher status, but they still can't reach the core of the Fang family. They belong to the Fang family's side branches and have average talents. Fang family, giving them such an identity can be regarded as a small friendship.

The inner disciples are already among the disciples cultivated by the Fang family, and there are many resources available! As long as they grow up, they may become the mainstays and pillars of the Fang family!

And elite disciples, one in a million, talent, talent, background, blood, all indispensable!

One level higher than the elite disciples are the core disciples and the saints. That is the future heir of the Fang family. Represents Fang's future and hope!

Originally, Fang Leopard thought his status as an inner disciple was already quite high! However, he did not expect that Fang Yue was actually an elite disciple, one level higher than him!

Fang Leopard has the urge to squeeze two of his own mouths. Why does he take out his identity token in a good manner!

Isn't this looking for abuse?

According to the family rules, the following offenders should be slapped with one hundred mouths and eighty with sticks. If the circumstances are serious, they may even have their legs broken, in order to emulate you!

"Come here! Kill this unruly guy with a stick! If something goes wrong, I will be responsible!"

Fang Yue's face was indifferent!

This time he is going to kill! No matter what your identity background, kill them all!

"Yes!"

Running around, Ba Boer walked out of the yard upon hearing this. They held Fang Leopard one by one!

"No, don't! Fang Yue, you can't do this!"

Fang Leopard was struggling. He didn't expect that he was here to make a profit, but in the end he even had to take his own life! "Fang Yue, you are bold! Even if this Fang Leopard commits the crime, the enforcement of the family rules should be a matter for the law enforcement hall! You have committed a lynching, but you have violated a family taboo! Put the leopard down, kneel on the ground, and apologize, Maybe there is still room for relaxation. If you go your own way, then I will wait for the law enforcement hall

Disciple, I can only execute you on the spot! "

A loud voice sounded.

In the crowd, a middle-aged man with tiger eyes and lion nose walked out, wearing silver armor and holding a spear.

Cold evil spirit. Surround yourself!

This is a disciple of the law enforcement hall. His cultivation is at the sixth level of innate! Compared with ordinary disciples, he is already much higher.

"Yes, yes, yes! Hurry up and put me down and beg for mercy! I might still be able to help you out! Otherwise, you will be a dead end. Not only all your property but the Fang family will be confiscated! And even Mi's life is hard to keep!"

Fang Bao saw the savior coming. Quickly speak, he is confident and threatening Fang Yue.

But in exchange for a big-eared melon seed from Benbo Erba!

"Who asked you to speak!"

"Woohoo..."

Half of Fang Leopard's face was swollen, and the back molars in his mouth were all slapped off by Ben Bo'er Ba!

Fang Leopard's eyes widened, and he didn't expect that one of Fang Yue's servants would dare to be so cruel to him. He wanted to reprimand, but found that his cheeks were so swollen that he couldn't even speak a word!

"Law Enforcement Hall? Is there still this department in this Fang's house? A few days ago, my house had eight waves of assassins in one day, why didn't you show up! Now, this is shamelessly asking for money, you guys jumped up It's really happy!"

Fang Yue sneered, not afraid you won't come out! I'm afraid you won't pay it back.

To be honest, Fang Leopard's tricks, his toes can clearly figure out.

The reason why he knew that this group of people were bad, and dared to open the door, was because he was fully prepared to deal with this group of people!

"Is this Fang Yue crazy? Dare to make sense to the people in the law enforcement hall! The law enforcement hall of the Fang family is a group of madmen. Whether it's right or wrong, everything is not up to them!"

There was a lot of noise on Fang Yue's side. Soon there will be disciples of the Fang family, constantly gathering around the future.

They pointed and pointed at Fang Yue, but no one came to get justice for him!

This time, it was the people from the Fang's Law Enforcement Hall who took the lead. They were fierce and powerful, and a deep shadow was cast on the hearts of Fang's disciples. Who would dare to go to the Law Enforcement Hall at this time?

"My name is Fangkuo, in the name of the deacon of the Law Enforcement Hall, I abolished Fang Yue's status as an elite disciple! He resisted the law and was frantic. I sentenced him to death, killed him on the spot, and confiscated all his property!"

The middle-aged man in the law enforcement hall spoke again, his voice deep and sonorous.

He made a decisive move to put Fang Yue to death!

The corner of Fang Yue's mouth raised a slight smile: "I'm just waiting for you!"

"Give me a shot!"

Fang Kuo was slightly surprised when seeing Fang Yue's expression, vaguely feeling bad.

But he couldn't figure out where the error occurred.

At this time, Fang Yue waved his palm, and thousands of rays of light burst into the sky.

Tens of thousands of spiritual stones evaporate, turning to ashes in an instant, and all the spiritual power in them is taken out, spreading in stripes, covering an area of 200 meters in the Fangyue house.

Even some houses near his house were shattered.

It turned into rubble and flew into the sky!

"Oops, I won!"

Fang Kuo's face is white! No wonder this Fang Yue was so daring, it turned out that he had planned for a long time, and arranged a shocking formation around the house in advance!

"Ah! Don't!"

Next to him, Fang Leopard had already begun to be tortured, and with one blow, Fang Leopard's body immediately split the flesh!

This is a whip specially used for execution. The whip was soft and danced in the air, like a poisonous snake whistling. On the top of the whip are iron hooks and barbs. It will leave dozens of big holes when it falls on the body!

Fang Leopard screamed one after another. As the whip fell one after another, he was already bloody. If his face hadn't been tortured yet, even if his mother came, he wouldn't necessarily be able to recognize him!

"Fang Yue is bold enough to use lynching! Quickly remove the formation, otherwise, I will make you look good!"

Fang Kuo no longer had the excitement and confidence that had just given him the guidance, but he was still stubborn and wanted to delay time until the others in the law enforcement hall arrived!

This is the Fang's house, and Fang Yue's making such a big disturbance is impossible without any restraint!

As long as the real powerhouse in the law enforcement hall arrives, even if Fang Yue has the means to reach the sky, he will not be able to escape!

"Let me look good? Why don't we just make gestures now! I asked the law enforcement cousin to be arrogant and domineering, but I want to see how good you are!"

The corner of Fang Yue's mouth provoked a ray of smile, and Fang Kuo's eyes were full of ridicule and provocation in this smile!

"Don't worry! I won't be as shameless as your Law Enforcement Hall. I don't talk about the rules and bully the less! Let's fight alone, as long as you can beat me, this formation will naturally disappear."

Square brackets look around.

Sure enough, around him and Fang Yue, there was a place with a radius of three to five meters, without being surrounded by the formation!

Fang Kuo immediately gave birth to self-confidence!

With his inherent strength of the sixth level, is it not something to deal with a kid of the third level?

He is not the waste wood in the secular world, so incompetent, Fang Yue can leapfrog to kill! He is an inner disciple of the Fang family, who cultivates a worldless exercise!

Fang Yue can be easily shaken to death with one hand! "This Fang Yuetuo is big! Fang Kuo is a disciple of the Law Enforcement Hall. Is it comparable to ordinary people? In the Law Enforcement Hall, everyone is Fang family Tianjiao. The fighting strength is so strong that it is hard to resist in the same rank. Hand! This square bracket is also a genius! It has the eighth-level fire attribute spirit root of the yellow rank! If it weren't for him to suppress the realm

With a pragmatic foundation, with the resources of the Law Enforcement Hall, he might have broken through long ago! "

Onlookers talked a lot, no one was optimistic about Fang Yue. The disciples of the Law Enforcement Hall are rampant and domineering, bullying men and women. It's definitely not without the slightest foundation!

#### **Chapter 204: Strong rolling**

"Fang Yue, go to death!"

Fang Kuo raised his hand, and the fist was covered by a hazy fire. The red fire was flowing, shadowy, and the intense high temperature actually made the surrounding air slightly twisted.

He must kill with one blow, so that he can show the majesty of the law enforcement cousin!

It was just a small person, and so many people were dispatched. In Fang Kuo's eyes, it was a knife used to kill chickens.

The shadow of the fist fell, and the flames raged to the sky, a crimson pillar of fire burst out from the depths of the earth, engulfing Fang Yue's figure.

This style, caught off guard, even if the powerhouses of higher realm came, they would be caught.

Fang Yue was swallowed by flames, and he didn't even leave a corner of his clothes!

He is destined to turn into ashes and become a stepping stone for Fangkuo's fame!

"This square bracket is too insidious. It's obviously bullying, and it's still attacking!" Someone was young and energetic, fighting injustice for Fang Yue. But soon, the older generation of people around him covered his mouth.

Gently shook his head to signal them to be careful of misfortune!

The power of the law enforcement hall is too great.

If it didn't go well, I would shout and kill in the Fang family. Not only was everyone in the Fang family fearful, even in the Fang family, some of the older generations would have to be in awe of these people!

"A arrogant kid who dares to provoke the law enforcement hall. The ashes of your corpse will be placed in the law enforcement hall, displayed, and become an eternal reference for others!"

Fang Kuo's voice is majestic, and the winner is already in hand.

His move, as long as it hits, even the strong in the world will be seriously injured. Not to mention Fang Yue, there is only the second level of innate realm, and in terms of means, it is too far away from the real strong.

"With this ability, do you want to judge me? Well, this flame is good, it can be regarded as a new type of hot spring!"

In the flames, a light and fluttering voice came out.

Fang Yue stepped out of the fire pillar with one foot, unharmed!

"What? Fang Yue is not dead?"

I thought the overall situation had been decided. The people who came with Fang Kuo were relaxed, all gearing up and preparing to harvest the treasures of Fang Yue's body.

But when they didn't expect it. The party actually appeared in front of them intact!

"You, how is this possible!"

Fang Yue screamed and stepped back, revealing an incredible face.

Fang Yue's expression was cold, and he took a step: "Does the so-called genius in the law enforcement hall only have this strength? No three levels higher than me can kill me! No wonder those assassins can sneak into the depths of my mansion at will, maybe it's not your indulgence, but really didn't notice it!"

Fang Yue's voice was cold. Every word is like a meteorite coming from the sky, blasting down to the bottom of Fangkuo's heart.

Kill the heart.

It is more serious to challenge the power and majesty of the law enforcement hall than to say that their malfeasance and connivance.

"No, Fang Yue! You can't kill me!" Fang Kuo had no intention of defending the Law Enforcement Hall because Fang Yue's palm was dazzling!

The broad palms pressed against the square neck, the awe-inspiring murderous intent, flashed away!

With a click, Fang Kuo's neck was twisted, his eyes rolled white and he died tragically.

Fang Yue shot, simply and neatly. Without the slightest hesitation, like a veteran executioner.

The square corpse gradually slipped to the ground.

Fang Yue's eyes were cold, and he scanned the surroundings: "Whoever wants to copy my property and sentence me to death, I can give him a chance to kill me!"

Fang Yue looked like a peerless demon, murderous, indifferent and indifferent.

The square bracket is like an ant at his feet. It is not a pity to die. It's hard to even cause the slightest wave of emotion in Fang Yue's heart!

"Fang Yue, do you want to turn the sky over because of your high strength? I tell you, this is the Fang family, and you can't tolerate such a small grasshopper like you jumping around!"

When the voice fell to the ground, a young man of the eighth floor came out, his silver hair was like snow, and his figure was long and thin!

A face is exquisite, even more than many girls, blue eyes, like two gems, inlaid in the part of the eyes!

His voice was crisp, like a child, but the soles of his feet fell, and the ground froze instantly!

"Fang Han, why did he come too! Didn't he retreat inside the law enforcement hall? How could he appear here!"

The melon-eating crowd around them talked again, and some brainless female fans had even begun to scream and cheer for Fang Han.

Face value means everything.

This kind of thing does not only happen on the earth.

In another world, appearance is still the key to attracting popularity!

"Fang Han, I love you, I want to give birth to a monkey for you!"

"Fang Han, please accept my humble love! I will make you the most pious maid!"

Fancy confession appeared one after another.

In an instant, Fang Yue even mistakenly thought that he had returned to Earth and accidentally broke into the scene of a star concert!

The corner of Fang Yue's mouth twitched: "His surname is Fang, and your surname is Fang! This close relative is married, and it is indeed very possible that a monkey will be born!"

Fang Yue's voice fell.

He was instantly overwhelmed by the screams of Fang Han's various brain-disabled female fans!

Their expressions are crazy!

This Fang Han is the perfect spouse in their hearts!

"What's so good about this guy! Isn't it just white hair? I have dyed white hair again. If the dean of my high school sees this, he will not only cut the hair, but also have to deduct points!"

Fang Yue's belly slandered.

The more I looked at Xiao Bailian, the more unpleasant.

You're even more handsome than me. I'm going to beat you into a pig!

A middle-aged man narrated Fang Han's deeds in a low voice and solved Fang Yue's confusion. "Fang Han is the true arrogant in the Fang family. The body of innate cold ice is the physique of the seventh stage of the Profound Level! He enlightened him as a young man. He had reached the innate realm at

the age of thirteen. Within three years, After breaking through the seventh step, he is now respected as a strong man of the eighth innate! If he is not too young, he is likely to be

Selected into the list of Baili secret explorers! But if this opportunity is missed, Fang's senior management will also compensate. Open a brand-new secret realm to provide a trial for Fang Han! "

The middle-aged man didn't hide his voice, he looked at Fang Han with eyes full of worship.

Fang Yue is speechless, this is really more than popular!

Fang Yue is also a disciple of the Fang family, and Fang Yue thinks that his talent is no more than Fang Han's weakness. But the treatment gap is so big!

At this time, Fang Han shot, and lead-gray clouds swept across the sky.

Pieces of slap-sized snowflakes fell one after another, and the faint air-conditioning swept all directions!

"Frozen World!"

As soon as he shot, Fang Han used the ultimate move. The lion fights the rabbit. He also needs to do his best. He is not a square bracket, so naturally he will not make a low-level mistake of underestimating the enemy!

"Tao Ze?!"

Fang Yue felt a familiar breath from the snowflakes.

The Road of Frost and Snow, although only a trail. But being able to enlighten Dao in the innate realm, this Fang Han is indeed worthy of the name of a genius!

Frost and snow rise and fall, condensing a field of ice and cold, in which, other powers are suppressed, only the means of Frost and Snow are exceptionally blessed!

One ebb and flow. Fang Han can definitely take advantage of fighting in this environment.

It's a pity that it's not just that he understands the principles of Tao.

Fang Yue twisted his fingers, and a cluster of faint green flames emerged!

"Ice spikes, kill me!"

Fang Han's eyes were cold, and a few inches long ice thorn condensed in his hand.

His palm pushed gently.

With a swish, that ice thorn pierced towards Fang Yue's throat!

The chill was whistling, and Fang Yue could even feel the blood flow in his body slowing down at the moment the ice spike approached.

But this was far from a threat to him, Fang Yue's palm flicked, and the faint green flame turned into a shield, blocking him.

The ice spikes melt instantly and evaporate in the air!

Water and fire are mutually restrained.

Fang Yue is not weaker than others in this respect!

"Blocked? Not bad!"

Fang Han raised his eyebrows, and Fang Yue's fire shield burst in. He was a little surprised at Fang Yue's ability to withstand this blow. But soon, his mood calmed down.

Because this is just a test. Cannot represent his full strength!

Fang Han's elbow, fist shadow slowly came out!

Within the frost and snow domain, a scream of cold wind roared, sandwiched in infinite frost and snow, the cold wind was like a knife, and it was icy cold!

This cold wind is colder, deeper than before, it has even affected the level of the soul, making people's minds stiff and frozen!

Fang Han, who has walked a long way in the Frost and Snow Road, is far from being comparable to Fang Yue's law of just getting started!

Fang Yue was not giving Fang Han a chance to make a move. Because he doesn't want to expose too much!

If this delay continues, the Frost and Snow Domain will become stronger and stronger, and the longer it is delayed, the more disadvantaged it will be for Fang Yue!

Fang Yue got close, lowered his waist, and punched!

There was a bang, blood raging, like a \*\*\*\* wave swept over.

Fang Han raised his hand and an ice shield emerged, trying to resist Fang Yue's attack.

However, he made a mistake, and Fang Yue's real strength was a hundred times higher than he had imagined!

The phantom of a bull, suddenly condensed.

Its four hooves trampled and crushed the ice shield.

The icy debris flying in the sky.

Fang Yue's fist continued, and the force was like a broken bamboo, and suddenly fell on Fang Han's chest!

Fang Han was blown away by Fang Yue's fist. Falling to the side, life and death are unknown.

Fang Yue's punch is very powerful. Not to mention the flesh and blood body, even the magic weapon of the ordinary world will be shattered by a punch.

"What? Fang Yue actually defeated Fang Han! How is this possible! There is a difference of five small realms between them, which is an insurmountable distance!"

The crowd was in a commotion, and some people had their eyes open.

This Fang Yue was too ferocious, with three punches and two kicks, he eliminated a genius!

"I remember, this Fang Yue seems to be inborn in flesh, with strong energy and blood. It is unstoppable! Don't be able to fight close to your body, otherwise, even the strong in the world will suffer!" Someone realized afterwards and pointed out The key to it.

Congenital flesh is quite rare.

Ordinary disciples of the aristocracy are mainly refining weapons, driving thunder and lightning, calling for rain, manipulating flying swords, cutting the enemy's head thousands of miles away, how can they fight with people in the most primitive way!

"Bull Bull Phantom! Has he been approved by the will of heaven and earth?"

Ling Feiyan in the courtyard had complicated eyes, and there was an unspeakable smell in it.

Others, just watch a lively. But as a princess of the demon clan, a big figure who covered the sky with only one hand, how could she not know what the bullish phantom that Fang Yue had inadvertently condensed just now when he threw a punch?

Barbarian bulls are the relics of ferocious beasts from the ancient barbaric era. They do not cultivate mana, but are good at flesh.

An adult bull can rely on the power of the physical body to force a strong man who has just entered the world!

This is the ancient land, a beast that symbolizes power. Only when the strength of the pure physical body reaches a certain level, can a bullish phantom be condensed between gestures, which represents a kind of approval of the will of heaven and earth.

### **Chapter 205: Gang fight?**

The demons focus on physical cultivation.

But in front of the heaven and earth realm, very few demons can condense a bull phantom!

The bull, the tiger, the giant elephant, and the flying dragon represent the four levels of physical power!

Able to condense the phantom of the bull, physical cultivation is considered a real entrance to the room, even if you don't cultivate true qi or cultivate your spirit, you can become a real powerhouse who stands alone!

To reach the realm of the tiger, you can be a master against the power, stepping on the mountains and rivers, drawing the land for the river, and you can do it just by turning your hands!

The giant elephant level already represents the sage of the flesh. In ancient Buddhism, the description of human power is huge, and it also refers to three thousand dragon elephants. The elephant in this

dragon elephant refers to the ancient idol. According to legend, this fierce beast can empty a sea with a sniff!

As for the flying dragon level, the desire is not enough. That is a broken vacuum, the level of Juxia soaring, even among the immortals, it can be regarded as a strong existence!

If Fang Yue's physical talent is placed in the demons, it will definitely be cultivated!

Only the Fang family, whose brains are convulsed, will send a group of young men who don't know the depth to test!

Fang Yue's strength shocked a group of people.

They have realized that Fang Yue is indeed rich in capital!

Someone's eyes flashed with fierce murderous intent!

"Everyone, go together, Fang Yue violated the clan rules and has become a sinner of the Fang family. He is heinous. With people like him, there is no need to pay attention to any principles and rules!"

The voice was misty, making it difficult to determine the specific direction of the message.

however. A lot of people are driven by business. No matter how strong Fang Yue is, he still has three heads and six arms. Even though he is physically innate, he is not invincible. As long as he stretches a distance, he is a moving target. Let them beat them by various means!

"Want to gang fight? You can try!"

Fang Yue stood in place, not panicking and dissatisfied, he even had a taste of leisure, making many people feel more panicked.

They secretly cursed in their hearts, why haven't the people in the law enforcement hall of this clan come! They were all played to death by Fang Yue, and he didn't look like a muddy leg out of the secular world at all!

On the other side, less than five miles away from Fang Yue's house, there was indeed a law enforcement agent in the rotation realm, and he hurried over with a younger brother with a vote.

These law-enforcers, all of them are horribly angry, holding all kinds of weapons, knives, guns and clubs, everything.

But they were stopped by another group on the way!

The leader is also a powerful person in the rotation realm—Master Yifan. He is leaning on a cane and is old-fashioned. He walks slowly, like a stroll in a leisurely courtyard! Behind him, there is the overbearing king of Taiyi Sect, he has the majesty of the king of the world!

Di Yi, Fairy Gu Yue followed close behind, showing respect to the two seniors, whether they were still warm and cold.

When this group of law enforcement officers saw this group, they had to stop and say a few words of greeting!

Although Master Yifan is a cycle, but this cycle is not another cycle! This is a mighty fierce man who can easily smash to death. The deeds of three talismans sticking to death of a leader-level powerhouse are still being talked about in the city of God after a meal!

He is a casual person, but it does not mean that he has no background.

In fact, as Master Fulu, countless forces are working hard to extend an olive branch to him.

Moreover, Master Yifan has no background, which means that he can act unscrupulously, as long as he can't catch him, no one can take him!

As for the king's domineering, he is even more incredible. His record is sturdy and he is notorious, and he often kills people if they don't agree.

And behind him, there is the Taiyi Church standing, this is the supreme power of one party, even the Fang family is slightly inferior by three points!

Together, the two of them made the disciples of the Law Enforcement Hall confused one by one, but no matter what they came to do, as disciples of the Fang family, they dare not neglect!

The disciples of the law enforcement cousin don't look at the cruel insiders, but they are not farts when they leave the Fang family! In front of Wang Badao and Master Yifan, a very well-behaved, like a kindergarten kid! On the other side, Fang Yue is already killing the Quartet. Regardless of your origins and sources, as long as you dare to stand up and defeat all of them, the one with better talent, the younger one is beaten to death by Fang Yue, and then thrown aside. , Those with bad talents, older ones, and arrogant attitudes, just kill them

, Not even a whole body will be left to them!

In a short period of time, Fang Yue had captured three so-called Fang family geniuses after Fang Han, all of whom had qualifications and spiritual roots were barely good. Five others were torn alive, dripping with blood, and splashed on the spot.

That scene was extremely brutal and terrifying. After seeing it, many people probably had nightmares at night!

But this is exactly what Fang Yue pursues.

In the previous life, Fang Yue was told about the experience of fighting with gangsters on the street. When encountering such an enemy who wants to target you, compromise and reason are all for nothing!

The only way is to catch a person, and then beat the opponent to death as hard as possible, so that all of the opponent's heart will be cast a heavy shadow.

Fang Yue succeeded!

A mutilated body lay at his feet. Every one looks so terrible!

Regardless of your background or background.

After death, don't you have to return to the underworld?

"what!"

"Wow!"

"Help!"

The sound of screams can be heard far away.

Even the reinforcements of the Law Enforcement Hall on the way can tell who is screaming! This time, the Enforcement Hall took the lead and personally planned it. Even the personnel in it are all big figures in the law enforcement hall, who are personally dispatched and selected!

However, they can only worry on the road, plainly worried.

Because Master Yifan was walking slowly step by step with a cane in his hand.

"You young people, take care of me, an old man, okay! Slow down a bit. I am getting older and my body is not as strong as you young people!"

In order to show the truth, even Master Yifan coughed twice, indicating that his health was not good.

However, the disciples of the law enforcement hall all felt like they had seen a ghost.

Not to mention that they are not in good health. They believe it, but you, a master of rotation, say that you are not in good health?

In the rotation state, the level of life changes repeatedly. It is beyond the scope of normal creatures!

Not only did their lifespan skyrocket, but their physical fitness also reached an almost abnormal state.

Even if his lifespan is exhausted, his oil is exhausted and his lamp dies, that is one second before he sits down, he can still live and live.

Although everyone understands that this old guy must have pretended, but no one dare to stand up and expose!

This is a master who can post a leader-level powerhouse with three talismans! The strength is terrifying, and one is upset. Doesn't it seem like playing them to death?

"Young people, you must know how to respect the old and love the young. I really don't know how the Fang family taught you! Stand behind Master Yifan one by one, and walk slowly!"

Wang domineering also followed to help.

From the screams, he heard that Fang Yue still had the advantage. So they are not too anxious to show up. What a hero! Always appear at the end!

The disciples of the law enforcement hall were completely stunned. They could only listen to the intermittent screams coming from afar, and their hearts were like cat scratching, but they did not dare to take a quick step! In other words, this Master Fan really knows ink. After walking without two steps, he actually put down the walking stick in his hand, saying that his leg was sore. Take a break! He also asked a disciple from the Heaven and Earth Realm in the Fang Family Law Enforcement Hall to come

forward and beat him! Then I caught the leader of the rotation realm and listened to the story of his passing...

...

The disciples of the law enforcement hall are going crazy!

Looking at the posture, when they arrived at Fang Yue's place, it was estimated that the daylily was cold!

What kind of supernatural powers is Fang Yue, and where did these two great gods come from? One is serious and one is kind, but the disciples in these law enforcement halls look like they are not good birds, and they are full of bad water!

Especially this Master Fan is exceptionally responsive. He has never used any threats or temptations, but he just pulls you and can't do what you want!

Fang Yue fought fiercely. He stepped on his bones and roared: "Is anyone else coming up to challenge? I'll give you a fair chance!"

Fang Yue's eyes are full of directions, with the background of blood and bones, there is quite a general feeling of going out, \*\*\*\* returning, magnificent and looking at death!

Behind the crowd, those seven or eight masters of the heaven and earth realm were tickling their teeth with hatred. Among them, anyone who appeared on the stage could slap the shameless fellow Fang Yue to death.

However, Fang Yue's formation is very strange, without any offensive power, but it restricts their actions. This is like a natural cage, making them unable to move one by one!

As for the cultivators of the innate realm, ordinary people are not Fang Yue's opponents at all. Regardless of the cultivation base, Fang Yue's restricted duel is only between the sizes. It is difficult for anyone to avoid Fang Yue's close combat!

A person with a hundred levels of physical body, who has taken the third step, will be shocked even if the cultivation of Qi refining who has first entered the realm of heaven and earth encounters a physical cultivation like Fang Yue! Moreover, this product is not only physically strong, comparable to a magic weapon, but also extremely powerful, seriously inconsistent with its own realm!

These provocateurs trapped in Fang Yue's formation already hate the person who advises them and provides information!

Who said that Fang Yue is weaker than an ant, anyone can take him down! This is clearly a male lion and it's the kind of murder and arson, unscrupulous!

The powerhouse at the pinnacle of the innate realm, he killed like weeding, the \*\*\*\* appearance made many people feel scared!

This is not a man, but a demon crawling out of hell!

A pair of icy eyes, sweeping around, people have a feeling of falling into the ice cellar and freezing the soul!

Fang Yue's appearance now is particularly terrifying. Many people understand that the indelible shadow he has left in the hearts of these people will leave an indelible heart in their hearts even if Fang Yue gives up this time. magic!

This is a very scary thing. It will greatly affect their future progress of cultivation, if they can leave here alive!

"Everyone joined hands and killed Fang Yue together!"

Some people reiterate the old saying, even if the formation at their feet is dangerous, they must take the risk! Otherwise, they will be defeated by Fang Yue one by one, and there is no hope of survival!

"What? Someone finally dare to try my formation?"

An evil smile appeared at the corner of Fang Yue's mouth, his fingers were slightly raised, and a faintly gleaming milky light flashed on his fingertips.

There was a bang.

A pillar of fire reached the sky.

Instantly melt the person who just proposed! This fire is light green. As if the fire snake in \*\*\*\* swallowed out. It not only melts the flesh, but also burns the soul. This means that after death, there is no chance of reincarnation!

## **Chapter 206: Collusion Demon**

"Your courage is worthy of reward. I will give you the most decent way to die! Your soul is scattered, you no longer have to struggle in the six reincarnations!"

Fang Yue's tone was cold, making many people's hearts completely cool down!

He is not human! He was murderous, without even a trace of emotions!

These people are not afraid of the enemy being strong, but they are afraid that they are not people at all!

It is a relief to disperse the soul. Such a person, what kind of indifference should be in his heart!

Before, the people who provoked Fang Yue would have regretted their intestines. Why did they come to the muddy water this time to provoke such a demon king!

At this time, the reinforcements of the Law Enforcement Hall finally arrived!

They followed behind Master Yifan and followed each other step by step. They were clearly on the swift journey, stupefying that Master Yifan delayed the tea for various reasons.

When they saw the messy scene at Fang Yue's feet, their complexions suddenly changed, and their eyes were cracked!

"Fang Yue, you are so bold!"

The strong man in the rotation of the law enforcement hall headed roared.

"Am I courageous? Why don't I think! The law enforcement hall is colluding with the demons and committing crimes in Fang's house, who is bold!"

Fang Yue also roared and snarled.

"Hook? Collusion with the demons? What's going on? Fang Yue, don't spit people!"

Fang Yue's words stunned the strong man in the circle of law enforcement hall! He has no idea what happened in this!

The demons are the enemies of the human race!

No matter who has a little bit of a relationship with the Mozu, a traitorous collegiate hat is put on his head, he can't bear it!

"Blood-mouthing? Haha! Run around Erba, Bully! That Fang Leopard hasn't been killed by you! Bring it up to me, let them take a look! This time, what is the guy they sent to lead the battle? Kind of goods!"

Fang Yue's face was cold, like ice!

Benbo Erba and Ba Boer Ben carried Fang Leopard up.

The skills of these two are definitely high enough, after playing for a long time, this person actually stayed for a while.

"Fang Yue, I want you to die!"

Fang Leopard's face was savage, and his eyes were as red as blood! He glared at Fang Yue, and the hatred in his heart was as if the river was surging, and he couldn't control it!

"Who is this guy?"

Fang Leopard was dragged up, his back to everyone. His body is completely bloody, and he can even see the appearance of people.

That kind of tragic appearance, even the powerhouse of the law enforcement hall that turned around felt a little trembling.

What a hate it must be! Actually tortured a good living person into this appearance.

Fang Yue twisted Fang Leopard's head and turned around.

The hematoma face can also see his identity!

Hit people but not face.

Runbo Erba and Pa Bolben are obviously two excellent whip players.

This principle is fully guaranteed. Let Fang Bao finally have a more complete place!

"This is indeed Fang Leopard! But how can he, a good disciple of the Fang family, be the spy of the Demon Race?"

The Fang Family Rotating Realm powerhouse is still strong, with a sneer on the corner of his mouth.

Once Fang Yue couldn't justify himself, he immediately grabbed it.

At that time, the crime of slandering was condemned, and even the master Yifan and the king overbearing next to him could not say anything, otherwise it would interfere with the Fang family's internal affairs. This is a big taboo!

"He is not a demon, is it because you are blind? Look at what is on his heart, he is not a demon!"

Fang Yue picked up Fang Leopard, he was beaten with only a pool of rotten meat.

But there is still a trace of crystal light flowing in the position of his heart, and the dark atmosphere is extremely rich!

Fang Yue doesn't need to say anything, the facts are already irrefutable!

"Mozu! How could his Fang Leopard be a Mozu!" The leader of the law enforcement hall rotation realm roared in a low voice, his face full of incredible expressions. The demons are good at disguising, but no matter how to change themselves, there are two points that they will never change. One is that the demons can never understand the law of light, and the other is that the heart of the demons is

It is replaced by a magic core!

The exposure of the magic core means that Fang Leopard must be the undercover of the demons!

The disciples of their Law Enforcement Hall actually mingled with the undercover of the Demon Race to attack Fang Yue. No matter what the original nature of this matter, it was already doomed. Their Law Enforcement Hall was already at an absolute disadvantage in this matter. I can't stand up!

"Fang Yue, I am the law enforcement officer of the Law Enforcement Hall, Fang Sanshou. In the name of the Law Enforcement Hall of the Fang family, I will bring back the demons who lurked into our Fang family for strict interrogation!"

The leader of the Law Enforcement Hall Rotating Realm showed his identity, hoping to suppress Fang Yue. Then take this leopard back.

Whether Fang Leopard is the undercover of the Demon Race or not, it is always quite dangerous to put in Fang Yue's hands.

Only by holding him in his own hands, the Law Enforcement Hall can pick himself up from this matter, and even beat Fang Yue upside down, and buckle the \*\*\*\* basin that was in collusion with the demon on Fang Yue's head!

Fang Yue looked at this classmate Fang Sanshou with pity. "Your brain is going wrong! Now it is your Law Enforcement Hall colluding with the Demon Undercover to deal with me. You actually want to use the name of Law Enforcement Hall to bring people back? Are you stupid or I am stupid? He is in your hands Here, you must have made a move, and then colluded with him, and instead

Come and deal with me! As far as you are concerned, your brain capacity, no wonder you will get angry with the demons! "

Fang Yue's continuous beating made Fang Sanshou feel a little breathless!

This Fang Yue is too smart! He penetrated his conspiracy at a glance.

However, Fang Sanshou was not prepared to solve the problem! What if Fang Yue doesn't cooperate? This is the Fang family, there is no room for Fang Yue to spoil!

"Fang Yue, I'm here to warn you on behalf of the Law Enforcement Hall! If you hand over Fang Leopard, our Fang Family Law Enforcement Hall will definitely give you a satisfactory answer. Otherwise, you will deliberately harbor the Demon Undercover. When the time comes, I will You are welcome!"

As soon as Fang Sanshou spoke, the people behind him immediately put pressure on them! The powerful aura, like a stormy sea, crushed towards Fang Yue!

"Fang Sanshou, are you planning to kill someone?"

Fang Yue roared and roared, always standing on the side of justice!

"Fang Yue, you asked for this! In Fang's family, you are obedient, and you are kept in captivity. As a livestock, let us slaughter and drive us, we may still let you live two more days! But since you Resist and seek death on your own, then don't blame me for being rude!"

Fang Sanshou's face was gloomy.

He has already moved for real! This Fang Yue must die today, otherwise, if he traces it down, he will not be able to explain it!

As long as Fang Yue died, all problems could be solved. What kind of undercover demons, what bullying, and the course of this battle, didn't they let them arrange it at will?

Unfortunately, Fang Sanshou made a mistake!

Fang Yue is not what he imagined, let alone the crushed ants. And although he is a strong person in the rotation realm, he has not reached the point of an elephant! In the hands of Wang Overbearing, an exquisite pagoda was held up and enlarged in a blink of an eye to a height of ten feet. It hovered over Fang Yue's house and fell with colorful splendor. Inside, it's always sunny

Point the waves!

"Wang domineering, I respect you as a predecessor of the Taiyi Church, but this is the Fang family. We are dealing with internal affairs of the family and implementing the family law! You are an outsider and should not interfere!"

Fang Sanshou's expression was cold, even though he looked at Wang's domineering gaze, there was no awe from before.

This is the Fang family, his site!

Not to mention a domineering king, even if the leader of the Taiyi Church comes, he can't intervene at will! Wang domineering angrily turned back and smiled, "Okay, okay, okay! I didn't expect that a junior in the Fang family would dare to teach me! However, this time around Fang Yue, I have to intervene. Because the Fang family has a demon clan. Undercover, this is no longer your own business, but the entire human race

! Also, Fang Sanshou, don't think that you are a law enforcement officer of the Fang Family Law Enforcement Hall. The practitioners of Rotating Realm are really amazing!

You can't afford this Fang Yue! Today, even if Master Yifan and I do not come, you will not be able to kill him! Finally, be a \*\*\*\* for others, don't get into trouble! "

Wang overbearing suddenly shocked.

Eighteen tigers leaped out of thin air, roared, and utterly powerful!

Fang Sanshou's body trembled. His face turned pale suddenly.

With a flutter, Fang Sanshou spouted blood.

His internal organs were burning, and he was seriously injured!

Fang Sanshou's eyes were full of inconceivable, looking at the king's domineering, this is the Fang family, how dare he make a bold move!

Just at this time.

A long roar came out!

On the horizon, the golden clouds suddenly brightened, and patches of golden light were dazzling. Light up Amano!

"Master Yifan, Fellow Wang Daoist came to Fang's family to welcome you if you missed it, and hope to redeem it!"

The clear voice gradually approached.

The figure of a fairy wind road bone finally became clear.

Cyan Dao robe, foot on auspicious clouds, hand whisk in hand, long beard fluttering.

This is exactly an old fairy who came out of the fairy picture scroll. Shouldn't appear in the mortal world at all. As soon as he appeared, Fang Sanshou immediately seemed to have found a savior. He complained to the old man with great grievance: "Ancestor Xuanyi, you are finally here! Fang Yue colluded with the demons, and the two people actually bullied and sheltered Fang Yue. , They despised the Fang family and wounded my ancestors. You must

I am the master! "

Fang Sanshou was like a child who was irritated outside, crying to his parents, and still running the train with his mouth full, turning black and white upside down, without even a single word of truth!

Wang Badao no longer shot, but looked at Fang Sanshou with interest.

I have seen shameless people, I have never seen such shameless people!

This ability to open his eyes and tell lies is the only one among the younger generations he has seen!

"Why, friend Xuan Yiyi, I'm waiting for the two to despise Fang's family, and the crime is very heinous, are you planning to capture the two of us together and execute them on the spot?"

Master Yifan spoke. His eyelids were drooping, and when Xuan Yi appeared, he was not even interested in raising his eyes to look at him more!

Xuan Yi's face was completely black. He wanted to slap this Fang Sanshou on the ground!

If you slander Fang Yue, slander Fang Yue! This is the hatred between you!

But why bother to involve Master Yifan and Wang Domineering!

What are the names of these two people? The famous peerless murderer!

It is said that there are more than ten powers who died in the hands of the overbearing king! Master Yifan is a fierce man who killed a leader-level powerhouse with three talismans!

### **Chapter 207: I can't suffer for nothing**

Although Xuan and Xuan seem to be immortal and extremely dusty, they are still in the realm of great power. If they do it, he can at most be equal to the king's domineering.

And a master Yifan next to him, if he is making trouble, he will definitely win or lose!

Moreover, even if he could win, he would not dare to fight!

The domineering king of others represents the Taiyi Sect, which is an immortal great religion, one of the top powers in the Xuanhuang world!

If the king is overbearing, it is tantamount to declaring war on the Taiyi Church. At that time, who will bear this responsibility!

"Haha, the kids are ignorant! Nonsense! Hurry up, Fang Sanshou, apologize to the two seniors!"

Xuan patted Fang Sanshou on the back of his head. Fang Sanshou still showed a stubborn, aggrieved and disobedient expression.

But Xuan Yi's eyes widened, and he seemed to know his problem.

In the end, Fang Sanshou apologized and admitted his mistake. Wang domineering snorted coldly, indicating that he would not care.

However, Wang's overbearing disregard did not mean that Fang Yue would regard this incident as having never happened.

Standing under the pagoda, he shouted to Xuan's people: "This matter can't be forgotten! The Law Enforcement Hall colluded with the demons. And deliberately aimed at me, this matter must be investigated clearly, otherwise, my suffering It's nothing!"

Fang Yue shouted.

Those who were still trapped in his formation were all stunned!

From start to finish, you always have the advantage, okay! It was you who drew the Fang Leopard to its skin and its flesh and blood. It was not human-like. It was also you who was a powerful enemy, stepping on their bones. It was also you who beat Fang Han's genius to the ground, and you are still standing next to it. ! This method is so sturdy, it really has nothing to do with suffering.

what!

Of course, the group of people can only complain in their hearts and dare not speak out.

Because this Fang Yue is too sturdy, has no right to know, God first, Laozi second!

They dare to say no words, maybe this guy would dare to kill in front of so many big people!

But Fang Yue had said everything, Xuan Yichang had to sell him a bit of face!

"Go ahead, what are you going to do?"

Xuan's eyes narrowed.

In the Fang family, people of different strengths and status are in an orderly manner.

An ordinary innate disciple, seeing him standing here, I am afraid that he would not even dare to breathe.

This Fang Yue dared to ask him for a price, it was interesting, indeed very interesting!

"My request is very simple! This time they colluded with the Demon Race, I believe it was not their original intention. Maybe it was a mistake, and fell into a trap set by the Demon Race! But I broke the mystery and caught one end. The demon's undercover, this should be regarded as my credit, and the Fang family can't help but reward it!" Fang Yue's words were very clever. On the one hand, Fang Yue's disciples were thrown out of the quagmire of colluding with the demon undercover and let Fang The family has separated from the Mozu, and on the one hand, he is inviting credit. His credit is not only to catch a Mozu undercover, but more importantly, he separates the Mozu undercover and

Fang family relationship.

Everyone in Xuan and Dao is mature, and naturally understands the meaning of Fang Yue's words.

He snorted coldly: "Look at you as a little ghost! Although you didn't make much contribution to the Fang family, this time I caught the Mozu undercover, and I also remembered you! This is half a million contribution points. Take it yourself, If you have time in the future, practice harder and don't cause trouble outside and cause trouble to the Fang family!"

Five hundred thousand contribution points, if converted into spirit stones, is fifty million spirit stones!

For ordinary Fang family disciples, this is already an astronomical figure!

Its corresponding cultivation resources are enough to allow an ordinary innate cultivation to reach the realm of heaven and earth!

However, this fell in the eyes of the local tyrants, but it felt too little! He even has a feeling that this is a beggar!

Fang Yue was unhappy, and the consequences were serious.

He exposed the matter and collected half a million contribution points.

But then he said: "Although these Fang family disciples are impulsive! They have caused extremely serious trauma to my young and fragile soul! I need a mental loss fee!"

Fang Yue spoke very awe-inspiringly and as it should be.

Those who are trapped in the formation are about to cry!

What is this special mother!

Obviously they were angry, they were trapped, they were beaten, and their young and fragile hearts were tortured by the old demon Fang Yue. But in the end, how could he compensate Fang Yue for his mental losses!

Xuan also frowned slightly.

But Master Yifan next to him was helping. "Yes, yes, what kind of style is your group of people besieging Fang Yue? And it's nothing more than fighting at the same level! Which of you is not higher than Fang Yue's realm? Huh? There are still several heaven and earth realms here! If you want to be shameless, gang fights will find someone who has crossed a big realm!"

"

Master Yifan directly cursed!

He has been very pleasing to Fang Yue recently. Especially Fang Yue has many fresh ideas on runes. Let him feel suddenly open.

Fang Yue, in the heart of Master Yifan, has been included in the ranks of the year-end friendship.

Fang Yue was insulted by others, he was naturally uncomfortable looking at him!

Since Master Yifan spoke, Xuan and the others were not good to say anything, and directly said to the other Yue: "Then what compensation do you want?"

"Nine cans of beast blood from the world realm! I don't have much demand, just normal quality!"

Fang Yue was so careless and offered the price.

Xuan almost fell to the ground together!

When will animal blood be measured in tanks? Usually, drops are used as the unit of calculation!

The beast blood in the world realm, even the most common kind, requires at least ten million spirit stones for a can! Because although there is a lot of animal blood, there are very few essences that can be extracted and refined.

A savage beast of average size requires almost three heads to make a pot of animal blood!

Nine cans of animal blood, that is almost one hundred million spirit stones!

Xuan and the others gritted their teeth with hatred: "Boy, don't let the lion open your mouth! You should know the value of this animal blood! I can only give you three cans at most. This is the limit of my compromise!"

Fang Yue heard this and ignored the old stingy.

He was just the corner of his gaze, and glanced at an eighth-floor teenager standing in the formation.

"You, come here! Little brother! It's really not my brother who wants to kill you, but your ancestors who think that the lives of you people are not worth three pots of animal blood!"

Fang Yue was talking to the little buddy in front of him in name, but he was actually talking with Xuan.

Xuan was stunned. As a master of the great power realm, he is high above the level. On weekdays, he even eats food and drinks, not eating fireworks! Where did he see this posture.

These are from Fang Yue's previous life, watching punks fighting on the street.

Xuan together hesitated for a while, and finally compromised. It is not easy to train these people. Although they are usually a bit asshole, they definitely can't die here.

In just those few world realms, the resources Fang Family spent on them were no less than 100 million spirit stones! Otherwise, with their qualifications, how could it be possible to cultivate to this level at this age!

"Well, nine cans of animal blood, I promise you! But I ask you to release people immediately!"

Although Xuan and the others were out of stock, Fang Yue never worried about this old guy's recklessness. Because as a big-time figure in the Fang family, he still has this credibility.

Fang Yue didn't say a word, just let go of his formation, and waited, and then left the range of Fang Yue's formation.

They are like avoiding snakes and scorpions, this Fang Yue's formation is simply too terrifying! Even if the powerhouse of the world realm fell into it, they were unable to move.

Fang Yue waved his hand, a little reluctant in his tone. However, these people ran faster than rabbits one by one, and they no longer wanted to face this murderous old demon! This guy is simply terrifying to an inhuman level. His strength is still unpredictable, but one thing is worthy of recognition, that is Fang Yue's method.

It's definitely not something they can solve!

When Xuan and the others saw that Fang Yue had finally dismantled the formation and let him go, his expression was slightly stunned.

However, the corner of his gaze fell on Fang Yue's body again, and he found that this man was walking towards a mountain of people next to him!

That's right, this is a mountain of people, composed of some elite disciples of the Fang family. Each of them was once valued by Xuan Yi, and even was a key object of family cultivation.

For example, Fang Han, a young man with aspirations and extraordinary physique, has even realized the way of frost and snow, and his future is boundless!

And he actually joined himself in, and he didn't know the life or death of Fang Yue.

Fang Yue opened the formation to release people, but he did not intend to return these geniuses!

Xuan and Xuan pulled down his old face again, and the other party Yue scolded him and said, "Fang Yue, what do you mean? Why don't you let everyone go!" Fang Yue gave Xuan a glance, "Those are trying to treat me They shot, but haven't shot them yet. And these have offended me! They just hurt me mentally, but these people have actually caused me physical trauma! Hey, I'm now This

The arms and legs are still hurting! This medical expenses, shouldn't no one take care of it! "

Xuan and the others have been annoyed by Fang Yue's ink marks.

He knew that Fang Yue was still blackmailing! If talking about importance, in fact, the things Fang Yue grasped were at least a hundred times bigger than those of the other party he had just let go!

Xuan and the others understood that this time it would be impossible to bleed once!

Before Fang Yue could speak, the group of Xuan had already said, "I will give you another two million contribution points!"

"Good!" Fang Yue didn't bargain this time. He understood that this Xuan person also had a bottom line, and was repeatedly blackmailed by a junior, which was about to touch the Xuan person's bottom line! If Fang Yue had to take another inch, maybe this Xuan gang would turn their faces directly.

Fang Yue accepted it, but he also smoothly took away all the fragments of magic weapons, clothes, storage bags, storage rings and so on on these people!

Xuan and the others are almost out of anger.

He knew that this Fang Yue was a hob meat, and this time, Fang Yue shuddered, and also grabbed a demon undercover, and there were two great gods beside him to help out, even if he questioned it, it was useless!

Therefore, Xuan and one person simply didn't see and didn't worry, they hugged their hands, seeing if they didn't see it!

He didn't have the time to care about this little ruffian.

Looking at Fang's family, there were five people and six people, Tianjiao who looked like a dog every day, and Tianjiao, whose eyes grew to the top of his head, had been beaten by Fang Yue.

An inexplicable sense of joy suddenly appeared in Wang's domineering heart. It seems that Fang Yue's burning, killing, and robbery is the real boss! Such concentration, such dedication, cultivation, etc., instead fall on Fang Yue's body, they are all side jobs in the side job! In the end, several talented disciples of the Fang family were thrown naked by Fang Yue at the feet of all Xuan.

## **Chapter 208: Ended**

Xuan felt that they were ashamed, and waved their sleeves, they all flew to their door.

Fang Yue threw Fang Leopard's half-dead fellow to Xuan and the others. Without raising their eyelids, Fang Yue pinched Fang Leopard's neck with two fingers, and sent Fang Leopard back to the west with a click.

It's not that Xuan is cruel, but that this is the best solution.

In Fang Leopard's mouth, no matter what was asked, things would happen in the end! It's hard to tell the real from the fake, but in the end it may be a mess of Fang family! In fact, it is nothing new for the demons to penetrate the human race! The tree attracts the wind, but all those big families have demon spies and undercover agents, but everything must be balanced, as long as these demon spies and undercover agents do not mix into the middle or even high level of the family, some

Things will pass with one eye open and one eye closed.

No way, the old ones will go, and new ones will come!

Moreover, the cost of investigating Mozu undercover is too high, so each family has reached such a so-called balance.

Not only are there demon spies and undercover agents in the human race, but in fact, among the demon race, there are also a lot of human undercover agents!

The relationship between the two races is tense, and the war will start at any time!

Together Xuan and Master Yifan, the king said a few words of overbearing greetings, ready to leave!

But the moment Xuan turned his head together.

Fang Yue was already Pi Dian Pi Dian, and walked over with a smile on his face! "Master Yifan! Brother Wang, it's really hard to let you run this time! I don't have anything to entertain here! Or, let's go to Tianfu Pavilion for a meal? It's too expensive and I can't afford it. , The fairy banquet in Rotary Realm is here for a table? Then I'm cooking in person and fry some side dishes for the two of you!

Let everyone not be in vain! "

Fang Yue is very proficient in human relationships and sophistication. His cunning and sleek appearance and the unsteamed and unboiled hob meat just now are completely two appearances!

Tianfu Pavilion, a fairy banquet in the rotating realm!

Not to mention the ordinary Fang family disciples, even Xuan has never eaten a few meals!

The landlord's family has no surplus!

The food in the Tianfu Pavilion is too expensive, even if it is a prisoner of the Fang family, if there is no need, Xuan and others dare not go there for consumption at will!

"it is good!"

Wang Badao and Master Yifan are smiling, this is to kill the big family!

Fang Yue is definitely a small local tyrant, and he is so rich that even them feel a little envious.

Xuan is drooling gluttonously.

Fang Yueyou took out twenty burning jujubes!

"Two people, I have a poor and white hand now, my grandma is not close, and my uncle doesn't love it! I really can't get anything else. These 20 burning jujubes are treasures I have treasured for many years, so I will give them to you! Expensive, let's talk about it!"

Fang Yue took out the burning jujube.

Tucked into the hands of Master Yifan and the overbearing king.

The two of them all smiled, and while giving in falsely, they said that they wanted to refuse, but none of them were satisfied with the actions under their hands, and they collected the burning jujube!

This thing is a good thing to improve your physical fitness! Generally, if you have money, you can't buy it.

Moreover, Fang Yue only gave ten of them. This is to create a rhythm of family blood!

Both parents have a fiery physique, so there is an 80% chance that the child born will inherit the physique of the parent!

Children and grandchildren, from generation to generation, all have a fiery constitution.

If it works well, the value of these 20 Agni Jujubes will be inestimable!

After seeing Fang Yue's move, Xuan almost staggered! Significantly improving the physique of the disciples in the clan has always been an eternal topic for every clan power!

Fang family, for this goal, how much effort has been made, how much sweat has been made!

Even Xuan and one person can't explain it clearly!

However, Fang Yue actually passed such a good opportunity to an outsider. Xuan and the others couldn't wait to choke Fang Yue, and then took these twenty burning jujubes, and used them on the Fang family disciples themselves.

Xuan and his intestines are about to regret it now!

How can those little king ba cake lambs do things so unfavorably?

If you want to kill Fang Yue, kill him. He has the ability to crush him to the ground, and there is no room for resistance. If you can't kill it, you can make friends!

After all, the huge Fang family is not bad at cultivating the resources of this person!

The result is so good now, you can't kill Fang Yue and you were blackmailed severely by Fang Yue. This thing made his old face almost lost!

Not only that, Fang Yue also gave precious resources to others!

You know, these things could originally belong to the Fang family!

The more Xuan and his colleagues looked at the group of disciples in the law enforcement hall, the more displeased they were. Although they were all five and six, with the resources of the family, the realm of cultivation was much higher than Fang Yue! But when it came to various means, they were forced out of Eight Streets by Fang Yue!

If they had half of Fang Yue's methods, this Fang family would be awesome!

In the end, the group left Fang's house.

Run around Erba, bully Borben, Ling Feiyan stayed in Fang Yue's yard honestly.

This is the Fang family, and there is a saint sitting in the town. Without the cover of the formation, maybe a divine sense falls, they are all exposed, all three clones have to be played!

In the evening, Fang Yue returned slowly after he was full of wine and food!

When he left, he was still at the third level of the innate, but he had already broken through to the pinnacle of the fourth level of innate when he came back from a meal!

After condensing Dao seeds, Fang Yue needs to give Dao seeds sufficient nutrients!

What is this nutrient?

It is the essence of all kinds of heaven and earth aura!

Eat a fairy banquet in the rotating realm! Fang Yue's realm will not be improved to have a ghost!

Now, his Dao Seed is already strong and full, and a trace of green teeth and tender leaves are driven by the desire to break the seed!

In the next step, Fang Yue already knows what to do!

This variety needs all kinds of spiritual water containing the essence of heaven and earth to water!

If this is placed on an ordinary person, it will definitely be difficult to enter the sky, because what kind of spiritual water can be used to water the seeds of the great road condensed by the heavens!

But this is the easiest step for Fang Yue.

There is nothing more appropriate than Xiantian Lingshui! Xiantian Lingshi, claimed to be able to wash the menstruation and cut the marrow, reborn! It contains innate aura.

Many big people hope that their children can be baptized with innate water when they are born, because that can make their children have an inexplicable spirituality and be born in harmony.

In addition to its effect on children, the innate water can also water the spiritual roots, make them grow naturally, slowly promote, can heal the wounds, supplement vitality, the magical effect of which can be written into a book!

Back then, the disciples of Taiyi Sword Sect would be overjoyed when encountering the innate water!

This is enough to prove the preciousness and rarity of this innate water!

Now, Fang Yue is going to use it to pour Dao seeds. If this is known to others, he will definitely think it is an extremely extravagant and wasteful thing!

However, Fang Yue did not choose to do it right away and was promoted to the fifth level of the innate. The cultivation needs a solid foundation and should not be adventurous!

During this period of time, his spiritual realm was a bit too fast. It is easy to cause unstable foundation!

It takes some fighting and training to make his road foundation stronger, so that it won't fall apart halfway and fail!

After eating this meal, it was not only to satisfy the appetite, to win over the personal relationship with Wang Domineering, Master Yifan. Fang Yue even invited Li Si, the supervisor of the first floor of the Vientiane Pavilion.

Fang Yue plans to promote his newly researched rosin pill.

The Taiyi Church and Vientiane Pavilion have become Fang Yue's main buyers!

The prescription of this rosin pill is top secret, and it was researched by Fang Yue himself.

Some of its medicinal effects have been improved by Fang Yue and Xiao Tie, and are much stronger than at the beginning!

Rosin Pill, if Fang Yue refines it himself, use an ordinary pill furnace. About 36 furnaces can be refined at once! One pot in ten minutes, each pot can produce a hundred pills!

This kind of rosin pill, after a ray of true qi is activated, can produce rosin for nine days and nine nights. Below the heaven and earth, everything has the effect of calming the nerves. It can be guaranteed that the demons will not invade, and the effect of the closed-door practice will be improved by about more 30%!

This kind of rosin pill works well, but there are many competitors on the market! Although it is impossible for the rosin pill made by Fang Yue to have such a complete effect, it is roughly the same, and even surpassed in some places!

But this kind of rosin pill, Fang Yue is going to take the route of winning by quantity!

The value of one piece is only sold for five hundred Lingshi, which is absolutely excellent value for money! Fang Yue basically, ten minutes is thirty-six thousand pills! The cost is scattered, and there are thousands of spiritual stones.

For Fang Yue, this is simply making money!

And this kind of rosin pill is called ordinary rosin pill by Fang Yue. The price is low and the quality is high. This ordinary rosin pill really shines in the eyes of Taiyijiao and Vientiane Pavilion. But it is just a bright spot, for both companies, there is no shortage of money. They want to get better quality rosin Dan, which is everywhere on the market, and the price may be expensive, but they no longer

care!

What really moved Wang Overbearing and Li Si was the second pill launched by Fang Yue, Advanced Rosin Pill!

This is made by Fang Yue using small iron, and each pot needs a full half an hour! The ingredients are also more treasured. In addition to the basic raw materials of ordinary rosin, the century-old ginseng, Fang Yue's ginkgo fruit picked from the dense forest world.

In each pot, only nine pills can be made!

In addition, as a service fee for Xiaotie, Fang Yue had to take a weapon of innate realm for it as a snack.

But the effect of these nine pills was almost to calm Li Si and Wang overbearing.

Because this pill is nominally rosin pill, but its effect is completely different!

A pill, after activation, can only burn for six hours!

But the rosin gas in it can repair the wounds of the soul and soul, making people feel too imaginary within six hours! The medicinal effect of this high-grade rosin pill is effective for the strong below the saint!

This premium rosin pill comes out. Li Si and Wang Domineering almost pinched each other!

Healing the soul, wandering too empty. No matter which kind of medicinal effect appears, it is enough to be classified as the ranks of cherished pill.

These two effects are too rare! The healing pills for physical injuries can be seen everywhere, at all levels, they are about to rot! However, there are very few known medicinal pills or medicinal materials for the healing of soul injuries. They are expensive and the effect is not guaranteed. The most annoying thing is that this kind of pill, even if it is

You can't buy it for money!

Some peerless powerhouses have wounded their souls, and many of them would rather spend endless time to heal themselves, rather than buy those pills that are as good as souls.

As for the effect of this madness, it is another shocking method! The soul is floating in the void, may penetrate the ancient and modern future, the infinitely distant world!

The vision is limited and the soul is infinite. This imaginary travel is too imaginary. In the impression of the two, it is a secret magical skill that is difficult for outsiders to learn. But it fell into the hands of Fang Yue, and it became a state that can be stimulated by a kind of pill. How could this not make people happy and eager!

## **Chapter 209: Fruitful**

The value of high-grade rosin pills can no longer be measured by spirit stones casually!

On the spot, Li Si took out rare medicinal materials worth 1.5 billion Lingshi and took away three high-grade rosin pills! Not to be outdone by the overbearing king, he took out five ancient books, each of which was a handwriting or essay by a powerful person. It records powerful feelings and even the secrets of eternal life. In this kind of handwriting, there is a ray of spirits of the powerful and powerful people in the past, and they can communicate with the spirit. Roll hand

Zha, you can only recognize the master, you can't copy it, generally speaking, it is an orphan!

The five-volume manuscript has replaced Fang Yue's five high-grade rosin pills!

This lavishness made Li Si a little stunned. This kind of handwriting left by the spirit of the great power realm is not common even in the Vientiane Pavilion! Taiyi Sect actually took out five volumes in one breath, enough to see Wang's domineering determination!

Master Yifan exchanged his own essay on basic runes and three talismans at the level of heaven and earth for a high-grade rosin pill!

His behavior was despised by Li Si and Wang overbearing on the spot.

What others bring out is real gold and silver, but what the masters bring out are all self-produced and sold.

Of course, they said so, but in their hearts it was the other party Yue Wubi's admiration. Master Fulu's essays on the insights are of immense value. If they are spread out, I don't know how many people will be crazy!

Fang Yue finally returned with a full load. The cooperative relationship between Taiyi Church and Vientiane Pavilion and Fang Yue has become closer invisibly.

After all, like Super Jiazi Shendan and Advanced Rosin Pill, they are not for sale in the general sense.

Only Fang Yue has relatively stable supply channels here!

As for Master Yifan, Fang Yue is always a teacher and friend, and the relationship between the two is close. Like-minded people, on the contrary, are more closely related than interests.

After returning to the courtyard, Fang Yue directly set up a teleportation formation to teleport the three of the demons to the outside of Fang's house. It is too dangerous for them to go out so swaggeringly! The Fang family sage sits in town, maybe there is some way to break the disguise of the demons.

In a relatively remote corner of Shencheng, Fang Yue bought a small courtyard for the three of them. Arranged to hide the aura, Fang Yue also took 30 million Lingshi to the three of them as spending money before leaving!

Fang Yue felt that when he reached the point of being a human being, he had already done his best!

The city of God, every inch of earth and gold. That set of small courtyards covers an area of less than two hundred square meters, and the black-hearted seller of homes actually demanded Fang Yue's high price of fifty million spiritual stones! As for the formations he set up, although simple, it is definitely a master. In the courtyard, unless the saint carefully investigates, it is impossible to find any of them.

What clues. If he wants to sell it, it must be worth more than five million spirit stones.

Plus 30 million Lingshi pocket money.

Fang Yue feels like a good person!

Ling Feiyan and others are quite satisfied with Fang Yue's arrangement!

After all, their deities are all in the Baili Secret Realm. In fact, they are cloned and just want to adjust their lives a little bit!

"Next time, when you go to Baili Secret Realm, my sister must repay you well!"

Ling Feiyan said to the other Yue very seriously.

Fang Yue expressed his gratitude, because he thought that if he had time, he would have to take a stroll around Baili Secret Realm!

However, Fang Yue threw this idea to Java the next day.

Xuan did not break his promise, the next day. Nine pots of beast blood in the world, but the one who came together, there is a call for letters!

The content of the text, let Fang Yue read it for a long time, realized that the general meaning is to let him be enlisted in the army and join the army to conquer the demons!

Fang Yue's eggs are almost broken!

He didn't expect the Fang family to come to such a move last.

The relationship between Human Race and Demon Race is like water and fire.

No one can defy the military's call-up order. This is a matter of principle of Human Race!

Involving ethnic justice. No operation can be put on the table!

Even if you ask for help from Wang Badao and Vientiane Pavilion, the final outcome will not change!

Fang Yue swallowed this bitter fruit. He knew that Fang Yue would fight back, but he didn't expect it to come so quickly, but it was still so fierce!

The time limit is very short and will be reported in the afternoon.

This has almost blocked any possibility of Fang Yue's struggle!

In a short period of time, Fang Yue could not do anything other than preparing to salute.

In the end, Fang Yue was also very interesting. He spent all the contribution points on hand without hesitation.

There were two and a half million abducted by a person from Xuan, and half a million that Fang Yue had not used up after exchanging the spirit stone.

A full three million contribution points were all used by Fang Yue to redeem Fang's less valuable resources.

Linggu, spiritual vegetables, medicinal materials, minerals, some black and white, although the price is not high, but you may use simple tools and pills!

Three million contribution points, you may not get much if you buy things in the world. But it has become the most basic material.

The purchasing power is full!

Three thousand tons of materials are piled up like a mountain.

Fortunately, the space in Fang Yue's stone pendant is almost infinite, otherwise, Fang Yue really doesn't know where to put these things!

Fang's warehouse was almost emptied by Fang Yue!

However, no one prevented his behavior.

Now, Fang Yue is a clown in the eyes of the Fang family leader!

Finally, I made him jump a few times, and then he fell dimly!

In the afternoon, the military reported that everything went well.

This is Fang Yue's second time in the army. In fact, the army of the world of practitioners and the army of the ordinary world made Fang Yue feel similar.

Of course, this time Fang Yue has become a pioneer from logistics!

The recruitment order clearly and clearly stated Fang Yue's recruitment position!

"You are from the Shadow Department, the third team! Take the token and go to the quarters to get your equipment and supplies!"

The conscription office did not make things difficult for Fang Yue this time. But after seeing Fang Yue's call-up order, he didn't even turn his head!

That feeling, mechanical and numb!

Fang Yue took the token and arrived at the quarters. The moment he stepped into the gate, Fang Yue was shocked.

The Military Supplies Department covers an area of tens of acres, and uses space folding methods. Outside, it seems that there is only a room the size of an ordinary store, and there is something else in it.

Above the rows of shelves. All kinds of armors are placed in order, as brand new as ever.

The top of the armor is glowing with a cold luster, showing the extraordinary material in it!

"Wow, this is a tungsten steel armor! It is also mixed with thousand-year-old mysterious iron, and there are ninety-nine and eighty-one inscriptions inside, shockproof, strong, guardian, etc.! This is definitely a high-grade armor in the innate realm. Generally, the brutal soldiers of the 3rd and 5th floors can't cut them!"

Fang Yue's mouth kept talking, his eyes flashed with blue light!

This is the standard armor, which can be produced to such an extent by means of assembly line. The craftsmanship contained in it is definitely worth learning and learning!

In the past two days, Fang Yue has been thinking that it is difficult for him to make a big business. If you want to make a lot of money, you must be the boss!

The craftsmanship of this assembly line is essential!

Just as Fang Yue was wondering how the armor was made, a stern roar came from behind Fang Yue.

"Boy, what are you doing? How can you move this military material at will?"

Fang Yue turned his head and saw a scared face covered in armor and full of anger! On his body, the armor was torn apart, and the blood began to congeal.

The red blood congealed a purple scab. This Scarface was all over his body, and there was no place that exuded a tragic breath!

Although Scarface had only seven levels of innate realm, Fang Yue felt a sense of horror because of the fierce killing aura left by that hundred battles!

Fang Yue can almost affirm that although this Scarface has a mediocre state, in terms of combat power, it is definitely much stronger than the innate peak disciples piled up by resources in the Fang family!

"I'm here to touch the armor!"

Fang Yue has a guilty conscience. After all, the owner is not here, and it is always a bad thing to move others' things by himself! "Huh!" Scarface snorted coldly, and then he said: "Anyone must strictly abide by the rules in the military camp. You should be a newcomer if you look at your hands and feet! I don't

know if anyone is guilty, I won't punish you! But You have to remember that in a military camp, you should be careful, otherwise, you will

I don't even know how I died! "

Scarface looked harsh, but there was a hint of care in his tone.

Fang Yue nodded.

Scarface walked into the quarters!

"Old man Bao, here comes someone! Don't sleep!"

"Ah? Shangguan Tiehu, how are you here?"

Old man Bao rubbed his sleepy eyes and stretched his slack body bones.

Old man Bao is not tall, at most one meter six. He has dark skin and thin body. On the palms of both hands, all are hard calluses.

At first glance, this old man looks like a farmer who has worked hard for a lifetime in farming. He is extremely simple. But Fang Yue caught a sly look from the depths of his eyes!

This old man is not a good thing either.

Fang Yue saw the familiar look in the eyes of Old Man Bao!

He often saw this look in the mirror and his own reflection.

"Tiehu, I said, why are you so careless! Although you are eager to work, you can't use your own life to fill it!"

Old Man Bao looked at the tattered armor on Shangguan Tiehu's body, and the heart in his chest trembled slightly.

The armor forged with tungsten steel was chopped full of cracks. What a fierce battle Shangguan Tiehu experienced.

However, Shangguan Tiehu didn't think there was anything. He grinned and said: "This armor suit is still well-dressed, so I won't change it for the time being! If you have time, I would like to ask you to sew it for me. The old rules, one repair, one hundred points Military merit!"

Old man Bao looked sad. "Shangguan Tiehu, are you worth it? You accumulate so much military merit to go home to marry your woman? A brand-new set of armor is not expensive. I will give you a 20% discount and 1600 points of military merit! The suit has been worn for almost three months. After dozens of battles, big and small, if you fix it again

, I am afraid that even the skeleton is rotten. It may not be able to protect your life with one knife! "

Although Old Man Bao is a bit of a trader, the Shangguan Tiehu in front of him is really distressed!

Shangguan Tiehu has been in the army for three years, and he has grown from an initial 5th-layer innate little guy to a 7th-layer veteran.

The battle he has experienced is not eight hundred but one thousand! In order to gain more military merit, he was at the forefront almost every game!

After nine deaths, it is hard to describe the danger that Shangguan Tiehu encountered.

After hundreds of battles, Shangguan Tiehu's military merits have accumulated to almost 100,000 figures! However, Shangguan Iron Tiger is always accumulating, and he is not willing to exchange a little bit of it for cultivation resources or many treasures.

## **Chapter 210: A red rope**

Shangguan Tiehu's only expense might be to buy a brand new armor. Every time his armor is broken and ill-formed, he will grit his teeth and spend two thousand military merits to buy another set!

Now, even the old man Bao, who has always been stingy, can't stand it anymore.

He even had the urge to buy another set of armor for Shangguan Tiehu!

However, in the end Shangguan Tiehu refused: "I think this one I have now is pretty good! If you really can't hold on to the next fight, then buy a new one! My mother said that you have to be frugal to get a wife! "

Shangguan Tiehu smiled honestly.

The smile made Old Man Bao sad.

After the two talked for a long time, they remembered that there was a crowd of people who were accustomed to eating, Fang Yue, who was about to be idle to the point of pain!

"It's finally over? The old man, hurry up and choose a suit of armor for me!"

When Fang Yue looked at the standard armor, he felt greedy, and his craftsmanship was meticulous and worth learning!

"Yours? Token!"

The old man Bao squinted at Fang Yue, whose child was this, how could he not be polite with a gangster.

"Here!" Fang Yue handed over the token, and his eyes stared at the standard armor for an instant, and even the Harazi was about to flow out.

If this thing falls into my hands, within three days, I will definitely be able to study the production process.

"Called?" Old man Bao glanced at Fang Yue's token, and plunged into the pile of debris next to him.

"Oh! The welfare of this army is pretty good! There are other things besides armor!"

Fang Yue was happy to smile.

He suddenly felt that enlisting into the army was also a good thing. Perhaps it was the Fang family's real conscience discovery this time, and it started not to toss him!

But this thought, the thought that only lasted for less than a second in Fang Yue's mind, disappeared!

"Here, this is all your equipment!"

Old Man Bao put a lonely red cloth strip on Fang Yue's hand.

"Nani?" Fang Yue felt that his world was collapsing, what about the good standard armor? What about military welfare?

A strip of red cloth, is this Yuelao's red thread? "Yes, this is all your equipment! According to the record, all your equipment has been taken away by a man named Fang Sanshou! As a responsible logistics officer, I can only personally sponsor you for free. Cloth strips, tied to your head when fighting to avoid being injured by your own people

!"

Old Man Bao said solemnly, and at the same time, there was a trace of sympathy in those cunning eyes.

There is a young man entrapped by a family.

"Fang...three...shou!"

Fang Yue paused and gritted his teeth. At this moment, his heart was full of anger. If Fang Sanshou stood in front of his eyes, he would definitely be stripped and torn by him!

"The conflict between you and the Fang family, turn around and resolve it yourself, of course, if you can come back alive!"

Old Man Bao's expression of pity became stronger, he had seen countless similar faces.

Under the sign order, several volunteers joined the army!

What's more, this little family actually joined the Shadow War Department!

Hey, that's interesting! When did the Shadow War Department begin to recruit such inexperienced young people!

Old man Bao bowed his head, his eyes flashed with an imperceptible cold light.

A voice suddenly came.

"Fang Yue, are the armaments ready? The teleportation array is about to start! You are the only one left!"

"Oh! Here comes it!"

Fang Yue pulled the cloth strip and turned to leave.

Fang Sanshou, Fang family, you remembered it for me! One day, our Fang Yue will still come back! "Lao Wan, what's your inking power! Come out quickly, we are going to the Vientiane Pavilion today to catch up with the exhibition! It is said that this time the exhibition is held by a disciple of a family with a very

high status. In order to enhance his position in the Vientiane Pavilion, I did not hesitate to move out a lot of good things from my family!

As soon as we can get one, then we will be really rich! "

"Wait, wait, wait again!"

In the room, Lao Wan's palm trembled slightly.

He was holding a pill in his hand, and his chest was fluctuating with heavy breathing!

"This is an illusion, this must be an illusion!"

In Lao Wan's mouth, he kept mumbling.

He closed his eyes, opened them again, and then it felt the same!

"how can that be!"

Lao Wan seemed to be able to hear the heartbeat in his chest, puffing, puffing, like beating a drum.

Lao Wan had a pair of muddy eyes, staring closely at the pill in his hand, its appearance was different from ordinary pill! Obviously it is a pill, but there are 16 small holes on it. A puff of true energy is injected to activate it, and puffs of white smoke can escape from it.

Its name is Rosin Dan, which is said to have been bought by Mr. Wang from an unscrupulous profiteer.

In terms of price, he is not quite sure. It is said that it can get rid of the demons, and one pill during cultivation can increase the effect by 30%!

As a disciple of the Taiyi Church, Lao Wan easily caught one.

Originally, Lao Wan didn't take it seriously. He ordered it before going to bed last night!

Who would have thought that when he woke up the next day, he actually felt that his mental power that had been trapped in a bottleneck had increased slightly! Although, the bottleneck has not loosened. But that slight increase does exist!

Old Wan was ecstatic.

For him, this is simply a gospel that fell from the sky.

Anyone who is familiar with Lao Wan knows that the number of paths he walked is a combination of magic and Qi refining. It's just that, in comparison, Lao Wan's Qi refining is stronger and he has reached the eighth level of innate realm, while Shuxiu, because of mental power, is still unable to advance at the pinnacle of the ninth level of acquired!

Among the practitioners, there are many people like Lao Wan who are both practicing the two ways. Generally, it is mainly focused on refining qi, supplemented by shushu. Although most people lack talents, it is difficult to cultivate to a very high level. But its methods are unpredictable, and it is always difficult for people to give up!

Lao Wan's mental power has skyrocketed, and he, who was already desperate for the road of art repair, has once again ignited the spark of hope!

Rush out the door.

Lao Wan shivered, stumbled, and walked to Wang's domineering residence.

"Report to your lord, disciple has important things to see!"

God City, Fang Family.

Wang's domineering expression was complicated, and between his fingers, he pinched a small pill. A pair of eyes looked at it, uncertain.

This Fang Yue is really amazing!

Even this kind of pill can be studied!

Before coming to Fang's house, Wang Badao had already found the person at the Dan Pavilion. This so-called ordinary rosin pill really had the effect of nourishing the soul and increasing spiritual power! Especially for some people whose mental power growth has fallen into a bottleneck, it will have a miraculous effect!

Years and months of use can almost double the chance of mental breakthrough!

After appraisal, the people of Dange strongly requested to purchase a batch!

Such an elixir is undoubtedly a boon for those who have gotten into a bottleneck in their mental power!

Overbearing, Wang naturally understood what this ordinary rosin pill meant. Compared with the high-grade rosin pill that can only be produced in small quantities and supplied to individual strong people, this ordinary rosin pill can be mass-produced!

Although, its most effective range is limited to the realm of heaven and earth!

However, the use of the pinnacle of the acquired realm may break through to the innate!

People who use the pinnacle of the innate realm may break through to the world realm!

The chances are not too high. As long as one of ten people can break through because of this pill, multiplied by a huge series, then the effect of this rosin pill will be limitless! This time, Wang's overbearing purpose is very simple. Before the effect of this ordinary rosin pill has been completely spread, I bought 8 million pieces of it to ensure the supply of Taiyi teaching disciples! No way, Taiyi Church's plate is too big. As an immortal great teacher, Taiyi Church is just an ordinary brother.

There are nearly tens of billions! Among them, there are no small numbers of people who practice or concurrently practice magic techniques.

Even if Fang Yue offered a higher price, Wang Badao was ready to be slaughtered!

Next to Wang Overbearing, there was Lin Xiaoyao, the chorus master of Pill Pavilion God City.

The rosin pill refined by Fang Yue had already been reported by the people below during the appraisal.

Lin Xiaoyao took the news very seriously and even came to inquire! This rosin pill is a new type of pill that has never been seen before!

The emergence of every new pill is something worthy of attention for alchemists!

Especially Fang Yue's rosin pill, it is very likely that it will become an elixir that will affect the fate of the entire human race in the future. If it can be popularized and mass-produced, then a large number of masters will emerge from the human race! Let the strength of the entire ethnic group be improved!

Therefore, Lin Xiaoyao also followed Wang's domineering approach. He wanted to meet Fang Yue, a great talent in alchemy. Even if possible, Lin Xiaoyao hopes to invite Fang Yue to join the Shencheng Pill Pavilion and contribute his own strength to the growth of the Pill Pavilion!

With the addition of Lin Xiaoyao, Wang Overbearing had to formally ask the elders of the Fang family, and then looked for Fang Yue.

This is the rule for an official visit, especially for such big men as Wang Domineering and Lin Xiaoyao. If they come uninvited, they are likely to cause unnecessary misunderstanding and tension!

In a moment, Fang Yongqiu, the principal of the Fang family, hurriedly rushed in on a popular stride!

In the Fang Clan of God City, without the saint, Fang Yongqiu can already be regarded as the representative of the Fang Clan, dominating all matters!

He is a veteran leader-level figure. On both sides of him, Xuan and Fang Shisan accompanied him.

They represent the two forces of the Fang family and can solemnly express the Fang family's respect for the two guests!

To tell the truth, Fang Yongqiu was also a baffle for Wang Badao and Lin Xiaoyao's sudden visit.

These two are both resident in the city of God, and have the ability to call wind and rain!

Needless to say, Wang domineering. Behind it is the Taiyi Church's support, and it is also domineering in its own way, as the name suggests!

And Lin Xiaoyao is a famous smiling tiger. The Dan Pavilion behind him, although not like the Taiyi Sect, was a super-class power of the Immortal Great Sect. But it is more troublesome than Taiyi Church.

Where is Dan Pavilion?

A loose alliance created by almost 80% of alchemists in the entire Xuanhuang world!

Most families and sects need to reach out to the pill pavilion when they need medicine. In the unlikely event that this tycoon becomes unhappy and says who to block, the corresponding power will soon decline!

Lin Xiaoyao himself is a leader-level figure, his alchemy can reach the sky, and even the saints have to ask him from time to time!

The arrival of such a great \*\*\*\* made Fang Yongqiu say that it is fake if he is not nervous. Fang's family and Dange have always had business contacts, and their friendships were dull as water.
