

God of Life 2211

Chapter 2211: Fang Yue's concerns

"Yin Gudao, kill him!"

The black fat man shouted to Yin Gudao.

Yin Gu Dao did not hesitate, the power of the lunar yin in his left hand turned into flowing water, and turned into a dark long sword!

His attainments in swordsmanship are detached, a sword stabbed, and all abilities are destroyed.

The swordsmanship of Yin Gu Dao is strong.

No matter where the ghost ape flees, it is controlled by the long sword of the Yin Gu Road, and there is no way to escape.

A black primordial power flowed from the void and pierced the ghost monkey's throat.

The Ghost Ape roared, and he spouted a golden lock.

With a dingdong, the golden lock collided with the Taiyin Longsword.

Jin Suo trembled, and the Tai Yin Long Sword was also shaken away.

"Shenhua Golden Lock! This ghost ape's family is still pretty solid!"

Fang Yue never recognized the origin of the golden lock, but the fat black man was a well-informed person, and he could see the origin of the golden lock at a glance.

Hei Fatty chuckled his mouth and said: "Shenhua golden lock is made of sacred gold. It is extremely strong and can lock the universe and numerology. This thing can die once, and it is a powerful defensive magic weapon. It can resist most of the weapon attacks of the true fairyland level! This thing is definitely not something that the ghost and ape clan can refine by themselves. Interest is the means of gods and demons!"

The Ghost Monkey relied on the Shenhua Golden Lock to save his life, and he couldn't help panting heavily. Sigh.

"Huh, huh! You really annoyed me! I have summoned the strong from other races to come, and when the time comes, the true immortals will gather, and you will die without a dead body!"

Ghost Monkey's eyes were red.

There are still a large number of powerhouses at the true fairyland level outside the Giant Wood City. The reason why they never summon is because they can't show their faces.

The two real immortal fifth-tier powerhouses joined forces and were stopped by three juniors who were incapable of human race even in the virtual fairyland. If this matter were to be spread, it would probably become a shame for their lives!

But now, they can't take care of so much!

If you don't ask for help, they will probably die here.

"I'm not afraid of them coming, I'm afraid they dare not come! The 13-nation coalition sounds majestic, but in fact it is each of the thirteen ethnic groups with ghosts! The battlefield outside the giant wood city is such a slapped place, Do you think they can't notice the battle here? It's just that they deliberately pretended to be deaf and dumb. If they were fighting a tailwind, these people would naturally rush faster than anyone else! But when faced with this kind of headwind, Their first choice is probably how to escape and preserve their strength!"

Fang Yue sneered, his words extinguished the hope in Ghost Ape's heart!

At this moment, with a bang, the gates of Giant Wood City opened, and the dark seeds gushing out from the Giant Wood City like a flood bursting the bank. They were once residents of Giant Wood City, but at this moment they are completely plunged into darkness!

Become a monster who only knows to kill and swallow!

And Wang An and others also walked out, their cultivation is advanced, and they can suppress their bloodthirsty nature with special means!

A breath of terror also sprayed out from the giant wood city.

The whole world will be shaking slightly!

"It's over, it's over!"

Guisha's eyes were desperate.

His most worried scene happened.

All the creatures of the thirteen allied forces that entered the giant wood city have all fallen, and some have even been assimilated by the darkness, becoming the dark species under King An and others!

Wang An and others were unscathed, and even some of their sanity existed, never being swallowed by darkness!

With their appearance, the end of this war is basically written.

The reinforcements have not arrived, but they have been completely maimed.

"Thank you, little friend, for helping to intercept these aliens, the rest is left to me and the sinners!"

Chen Guang came in through the air, he saw the situation here, smiled and said to Yin Gudao and others.

"Chen Guang!"

The despair in Guisha's eyes is even stronger.

This is a titan in Giant Wood City!

Originally he had terrifying combat power, but now he is transformed into a dark species, his strength must be stronger.

It's just a Yin Gudao or that fat man, he won't be able to win.

Now add another Chen Guang.

Despair rippling in Ghost Ape's heart!

He took out a big iron rod and roared: "If you want to kill me, you have to pay the corresponding price!"

The ghosts have to fight for the last!

As a true fairy, how can he bow his head so easily!

There was no vivid color in Fang Yue's face.

"It's just a stubborn resistance! When you are waiting for you to join forces to attack Giant Wood City, in fact, all the endings have been written! Do you know why the thirteen groups of you sent troops instead of the gods and demons? Because they know this. The human race is not easy to play, it can't be played! The meaning of your existence is really the cannon fodder of the gods and demons. It is used to consume the vital power of the human race, and the human race has to open one card after another! Although the shocking strong race is not as good as it used to be, the heritage left from its ancestors is still there! If it were so easy to be annihilated, the human race nowadays would be long gone!"

After Fang Yue sneered.

The ghost ape's mind was blank!

Soul control!

Fang Yue used words to cause the ghost ape's mind to be confused, and his soul agitated, and then he used the secret technique to make a move, allowing the ghost ape's thinking and spirit to be temporarily interfered.

Master clash.

in a moment.

There is no need for a thousand moves.

A loss of consciousness is deadly!

The ghost of the ghost is dead.

The look in his eyes is dim!

A long sword of Taiyin has been pierced from the back of his head.

The Shenhua Golden Lock can be defensive and can die, but it needs its owner to activate it in advance.

With a bang, the Shenhua Golden Lock fell.

The Sacred Fire Golden Lock without the master's control is nothing but a dusty mortal thing!

"Shenhuo Golden Lock is mine! I don't need other things!"

Before this ghost ape died to breathe, Fat Black had already come to divide the benefits with grinning teeth!

Fang Yue found that the other party's greedy appearance had a bit of his own charm.

"This monster's weapon, armor, and storage bag belong to me!"

Yin Gu Dao didn't rush for his share of interest.

The collection and value of weapons of a powerful person on the fifth floor of the true fairyland is quite amazing!

"The corpse of the ghost ape belongs to me!"

Fang Yue happened to be the corpse collector of the ghost ape.

Chen Guang stared at his pocket.

What rhythm is this?

Are the young people so wild now?

The strong on the fifth floor of True Wonderland kill them if they say they want to kill them!

That's a ghost! Even in the real fairyland, it can be regarded as a powerful existence!

He just died unclearly. After death, even the treasures and corpses on his body were taken away as trophies!

At the moment, the ice was severe, and both strands trembled.

The ghost is dead!

He seems to have seen his future end!

What's the use of the cultivation base of True Wonderland? In this battlefield, it is still inevitable to die!

"Can I surrender?"

Bing Yan hesitated for a long time before uttering the word surrender.

This is a great shame for a strong man in the real fairyland!

However, shame is always better than falling!

"surrender?!"

Fang Yue, Yin Gudao and Hei Fatty looked at each other.

"As a strong man in the real fairyland, did you just surrender here? What about your glory as a real fairy? What about your pride?"

Hei Fatty grinned his teeth, he was still waiting to knock this Bing Yan to death and share the spoils!

Bing Yan was so frightened that he quickly separated a ray of spiritual thought into a six-pointed star formation to recognize the Lord!

Bing strictly selected the mummy.

This corpse is also a big boss of the Underworld at any rate, with a great backing, and stronger than the Human!

Moreover, this guy is proficient in the Five Elements Heaven, and maybe she will be able to introduce her from the Ice Trail to the Five Elements Heaven in the future.

If it doesn't work, let him specialize in the road of water.

Once the trail is built into the ranks of the avenue, his future potential will increase a lot!

Fang Yue showed a weird look.

It's that simple, does he have an extra follower of the fifth floor of True Wonderland?

"Fang Yue, it's cheaper for you!"

Yin Gu Dao said with a smile and didn't mean the slightest jealousy.

"Fang Yue?!"

Bing Yan's eyes widened, didn't he say a good Underworld?

How did you become Fang Yue!

"Yes, it's me! It's just a clone!"

Fang Yue didn't hide it.

This black pot seems impossible to be buckled on the head of the Underworld!

Fang Yue's mummy body became like his own deity.

Bing Yan was shocked.

Is this just a clone so powerful?

The methods Fang Yue showed were far more powerful than in the duel of Hei Bufan!

Perhaps, this Fang Yue is the true pride of heaven, the protagonist of this era!

"It turned out to be Fang Yue, how do I feel that you have a familiar smell on your body!"

Chen Guang knows it now too!

Originally thinking that it was the Underworld who took the shot, he still didn't know how to get along with the other party.

"You guys will leave quickly with this ice! This time you helped me kill the three true immortals, which greatly increased our advantage. If nothing else, this time the top of the thirteen allied forces All the

strong should be here! But from now on, there will be no more ties between my Giant Wood City and the human race!"

Chen Guang's expression is serious, but there is also a desolation and sadness.

They cut all ties with the human race in order to prevent the human race from being involved in any way because of them.

Although the Dark Seed is powerful, it is a taboo for everyone to shout and fight!

Human race may take the opportunity to draw a clear line from the darkness, although it is troublesome, but it will not be caught by others. And if the human race continues to be involved in the dark species in the giant wood city, the ten thousand race will have a new excuse to attack the human race, letting the race fall into a more passive situation.

"But without the protection of the human races, the ten thousand races will probably tear their skin and disregard the rules and send more powerful existences to take action. There should be a Daluo Jinxian level or even no superior among the ten thousand races in this world. The fight between the ten thousand races is among them. Generally speaking, they will not easily take part in it, but if it is to eliminate the Dark Seed, they may do their part!"

Fang Yue said worriedly.

Under Da Luo, everything is ants, even if there are two spiritual fairyland level combat powers in this giant wood city.

When the identity of the Dark Species in Giant Wood City was revealed, they had become rats crossing the street and everyone shouted.

Chen Guang laughed and said: "This thing is not as bad as you think! The Dark Seed above the virtual fairyland level already possesses part of the intelligence, and when it reaches the level of the True Fairyland, the dark seed will be affected by occasional emotions. It is no different from normal creatures. In the unknown land, the dark species also have their own huge tribes and races. They always want to invade the underworld and descend on the territory occupied by all races! Therefore, the dark species in the unknown land will also give We support accordingly. If there are really powerful people at the Great Luo Realm level among the ten thousand races, they dare to attack the Giant Wood City, and I can guarantee that they will not be able to eat!"

Chapter 2212: What can't be said

The Giant Wood City has been infiltrated by the dark forces for thousands of years, and they have already thought that this day will come sooner or later.

Therefore, Giant Wood City has secretly prepared.

When it's really time to lift the table, they are not afraid. As long as there is a strong person from the Great Luojin Wonderland among your tens of thousands of people who dare to come, I will let you not eat it!

"Actually, you guys should be more dangerous than me! After this battle, all the races know your background! Especially Fang Yue, how many true immortals of the thousands of races have you killed in this battle? The ice of the ice clan, the ten thousand clan will probably kill you at all costs! Yin Gu Dao, I have heard of you, you are the heir of Yin and Yang Tianzun before enlightenment, your talent is amazing and you inherit the tradition of Yin and Yang Tianzun, Ten thousand races will not sit back and watch you grow up smoothly! As for this fellow Taoist, your face is very raw, so I can't guess your true identity, but if you can have such an accomplishment in refining, I can guess a little. Estimate your identity."

"Luo Daoyi, now ranks second in the refining list in this ten thousand race battlefield, and third in the saint realm!"

Chen Guang looked at the fat black man with a smile. All three of them were seeds of hope for the future of the Human Race.

Fang Yue felt a little bit sad in his heart.

Obviously this Giant Wood City has reached such a stage, this Chen Guang is still concerned about their juniors.

"Senior, I'm fine! My talents are limited, and I follow the path of cultivating all kinds of methods. Maybe I will not be able to break into the Saint Realm level in my entire life, and I cannot compare with the real Tianjiao among the ten thousand races!"

Fang Yue justified himself.

Chen Guang glanced at Fang Yue and said, "It's okay for you to deceive others. The old antiques of the gods and demons are all monkey spirits! I practice all methods and cannot be holy, this is only for ordinary practitioners! You can kill the true immortal in the master realm, and your future is unlimited. Who knows if you will really be trapped in the saint realm! You are already so powerful now, if one day you can really break into the saint realm. At that time, the cost of killing you will be soaring! If I were the powerhouse of the gods and demons, I would definitely take this opportunity to kill the danger in the bud!"

Fang Yue laughed, he thought Chen Guang was right!

Fang Yue had already started to finish the ticket, and then let the deity run to battlefield 1023 in the east to avoid the wind!

He didn't know exactly what the attitudes of these gods and demons were towards him, but this time he must have completely turned his face against the black demons!

"Senior, when I'm in danger, please ask Senior to wait for some life-saving cards! At the critical moment, you can also get away without being strangled by the ten thousand races!"

Luo Daoyi's eyes turned, ready to pretend to be pitiful and let Chen Guang bleed.

What Chen Guang said is also a long-standing veteran true fairy, who still has some good things in his hands.

Chen Guang glanced at Luo Dao: "Your greed is as famous as your refining methods! I have heard rumors about you on the battlefield of ten thousand races! Anyone among ten thousand races wants to hire you to do something. It has to pay a great price! The artifacts you refine are famous for cutting corners. Although they are new, they can only be used a few times! Even the gods and demons have been slaughtered by you. Who is the richest in the world? Looking at the entire underworld, I can't tell you, but in this world, you're definitely doing your part!"

"Slander! It must be smear!"

Luo Daoyi didn't feel the slightest embarrassment, but directly cursed.

"Which shameless guy is jealous of Young Master's talent, and even pours this kind of dirty water on Young Master's body!"

Luo Dao retorted, looking very angry.

However, Fang Yue felt that this lack of reason might not be without cause. Judging from Luo Daoyi's appearance, Chen Guang's words were 80% true.

"I won't be involved in matters on this battlefield. If there is anything that needs me in Giant Wood City in the future, seniors don't hesitate to give orders!" Fang Yue also understands that this dark seed is a quagmire. It's hard to get out!

Fang Yue's greeting was to leave with Bing Yan.

The war in the Giant Wood City subsided, and Fang Yue was also preparing to let the deity evacuate from the gate of Tianyuan City!

Originally Fang Yue attacked Tianyuan City in order to keep the Giant Wood City, but now that the Giant Wood City has been defeated, there is no need for Tianyuan City to besiege.

The Black Demons suffered heavy losses this time, and at least Zu Heng died in battle, which would definitely be a heavy blow to the Black Demons.

This black demon clan can't get up in a short time, and even the black demon clan in Tianyuan City will be affected by this. Maybe it will further shrink its territory under the threat of the evil demon outside the sky, it is not easy to say!

Fang Yue's deity quietly disappeared in the periphery of Tianyuan City.

The tribe of the Black Demons around Tianyuan City has been sacrificed a third by Fang Yue.

At this moment, that golden key has been able to open the way to the thirty-sixth floor of the Earth Shaman world!

"Fang Yue, are you ready to go now?"

Jiuhua held Fang Yue's deity, he said reluctantly.

The existence of Fang Yue's shit-chucking stick can greatly restrain the Black Demon Race.

Originally, he was still thinking about using Fang Yue's attack to further weaken the strength of the Black Demon Race in Tianyuan City.

As a result, the crisis in the Giant Wood City was resolved easily and unexpectedly.

This Fang Yue is also ready to retreat. At least the key to his earth evil world was successfully refined.

Fang Yue sacrificed a lot of the creatures of the Black Demon Race, and also captured a lot of the Black Demon Race from the saint realm to the virtual fairy realm level.

These black demons who were captured alive by him are enough to make the key level leading to the world of the evil spirit rise three or two small steps.

This key penetrates the world of Earthsha, and its value is special, and may exceed most magical artifacts of the real fairyland level.

"If Tian Waitian wants to drive the Black Demon Clan out of Tianyuan City in the future, I will cooperate, but now, I am fighting alone, and you Tian Waisheng Lin sits on the sidelines, my strength alone is difficult to be the coercion of the Black Demon Clan. !"

Fang Yue said lightly, and he showed a slight dissatisfaction.

Jiuhua was a little embarrassed, and they had taken advantage of others before.

If it weren't for the crisis of the Human Giant Wood City, how could Fang Yue come to Tianyuan City and the Black Demon Race to be tough.

If the crisis in Yuancheng is resolved today, it is normal for Fang Yue to pat his **** and leave.

"The future of the human race still needs the human race to walk on its own, and the same is true of Tianwaitian. After all, your own enemies have to face it by yourself. Outsiders who can help for a while cannot help you!"

Fang Yue repeated what Jiuhua had said before.

The embarrassment on Jiuhua's face couldn't help but thicken!

Fang Yue's deity floated away.

But the Dark Demons in Tianyuan City didn't know anything about this.

They looked at the guarding spirit at the gate of the city silently crouching.

At the same moment, the news of the defeat in Giant Wood City has spread to the city.

Fang Yue's Ben respect returns to the depths of time and space, and he needs to prepare to break into the Saint Realm.

The battle of the Giant Wood City caused Fang Yue to suffer a considerable impact. With his current combat power, he is too weak in the face of the battle of the vast races. Only by constantly breaking through and gaining stronger combat power can he be able to survive in this turbulent era. Standing tall.

The deity's breakthrough is extremely difficult and requires long-term consideration and careful planning.

But as long as his flesh and blood clone has enough resources, it can break through. As long as it is well planned, it may be able to break through to the level of the Saint Realm in the near future!

Fang Yue's flesh clone and mummy clone returned to the Giant Wood City at the same time.

This corpse was put away by Fang Yue.

This corpse was baptized by the power of calamity, and the blood in the body was awakened. If some materials were added, it might be able to break through to the level of the real fairyland and become a mysterious trump card for him to walk outside.

Bing Yan was also taken to Yongfeng Town.

Bingyan at the moment looked blank.

He didn't know where his future should go. Although he became Fang Yue's slave and surrendered actively, leaving him with a small life, his future destiny was in the hands of others!

Yin Gu Dao and Luo Daoyi also came to Fang Yue's Yongfeng Town as guests.

Yin Gu Dao has a lot to say to Fang Yue.

Luo Daoyi came to Fang Yue, the rich native.

If Luo Daoyi is the richest person among the saint-level creatures in this heaven and earth, then Fang Yue is the first wealthy person at the master-level level.

Even according to Luo Daoyi's understanding, the wealth in his hands is far less than Fang Yue.

This Fang Yue had killed the existence of several true fairyland powerhouses. After those true fairyland powerhouses fell, all the wealth of his life went into Fang Yue's hands.

Today's Fang Yue is definitely a wealthy country, and even a little less influential sect does not necessarily have more wealth in Fang Yue's hands.

"To make a long story short, Fang Yue, I am looking for you this time because I hope to get your help!"

Yin Gudao said with a solemn look of Fang Yue.

"First of all, the conspiracy of the Ten Thousand Races against the Human Race this time, whether it is a direct plot, must not succeed! The ending of the war in this world will directly affect the future of the human race's luck!"

"Secondly, everything you see in your eyes may not be true. The so-called relics and the so-called calamities are just superficial. The real battle in this world is a battle between geniuses for luck and proof!"

"The third and most important point is that in the near future, some extremely ancient places of experience will be opened, and those places may have antiquity but the seeds of hope left by the previous civilizations."

When Yin Gu Dao was talking, the laws of the heavens were turbulent, and dark clouds in the sky quickly condensed.

Without any gestation, Wanzhang Thunder crashed down, transforming into a huge blue dragon and heading straight to Yingu Road.

"broken!"

Yin Gu Dao's words broke the secrets of heaven and attracted the forcible interference of the will of heaven and earth.

Yin Gu Dao dissipated the power of thunder in the sky, and the little thunder light turned into silver elves and disappeared between heaven and earth.

"Stop talking!"

Fang Yue understands that there are some things that cannot be said or said.

This involves the past and the future, the most fundamental secret in the long river of fate.

Yin Gudao nodded, and he stopped talking.

At this time, the dark clouds in the sky gradually dissipated, and the sun fell on the ground again, and a clear blue sky was washed away, where there was a raging appearance of the dark clouds just now!

"There are some things you can't tell, you can't tell! Fang Yue, you can know about it! Don't be fooled by the illusion in front of you. The ten thousand race for hegemony is just an illusion."

Yin Gu Dao's reminder can only end here, if he says more, he might be killed by thunder.

Chapter 2213: node

Luo Daoyi looked at Yin Gu Dao curiously, and then looked at the lower mountain.

"We almost exchanged the secret with our lives. You told Fang Yue so easily? Do you want him to be our ally?"

There is no dissatisfaction in Luo Daoyi's tone, but he is full of curiosity about the choice made by the Yin Gu Dao, who has always been above the top.

For Fang Yue, Luo Daoyi actually learned most of it from scattered rumors from the outside world.

But the understanding of me is not very deep.

"If you want to become our ally, you need more than just combat power. People who only understand brute force are called Wufu, and they don't deserve to be our ally!"

Rarely, this Luo Dao said one by one with a serious counterpart, Yue.

"What ally?"

Fang Yue felt as if he had been involved in a big secret.

Yin Gudao smiled a little and said, "Fang Yue, don't listen to this fat man's nonsense. I tell you this secret, but I just feel that I am facing such an opportunity. If you miss it, it would be a pity! I don't want to forcefully pull in. idea!"

Yin Gu Road clarified.

But Fang Yue clearly read a kind of light called longing from Yin Gudao's eyes.

The Yin Gu Dao's heart is that he wants him to join their small team.

"Of course it is an ally of the minor league exploring the unknown!"

Yin Gu Dao is embarrassed to say, but Luo Daoyi has no taboos.

"Didn't you find it? This sealed small world is simply a reduced version of the underworld! It contains the battlefield of ten thousand races, and there are also unknown places, and even the unknown land takes up 90% of this small world. The area! This unknown land is full of dangerous and taboo powers, but at the same time, there may also be opportunities for people to become super masters!"

Luo Dao said nothing but the purpose of their trip.

As for helping Giant Wood City quell the scourge of the war, the two just happened to meet, and it was just a matter of effort!

"Unknown land!"

Fang Yue pondered for a moment.

Why didn't he know that there are countless opportunities in this unknown place, and even that there are treasures in the unknown place. Looking at the entire underworld, it has become a well-known consensus.

However, it is not easy to get treasures from unknown places.

Even the supreme powerhouses have many people who never return after entering them in their later years, buried in them.

The unknown place is too dangerous, if it is not a must, who wants to set foot in that place!

"In fact, the unknown is not so dangerous!"

At this time, the old man, who was transformed from the Zhentian stone stele, walked into Fang Yue's mansion without knowing it.

"who are you?"

Luo Dao showed a look of alertness.

This old guy is really strong, he escaped the detection of his divine mind and entered the mansion directly.

"An old man!"

The identity of the Zhentian Stone Tablet is troublesome to explain, and there are too many secrets involved.

Therefore, Fang Yue can only use these words to explain the identity of the stone stele in this town.

"senior!"

Yin Gu Dao is not as taboo as Luo Daoyi.

He is the youngest son of the former Tianzun, and his identity tells him that he must be educated.

And the feeling the old man gave him was really different.

It seems unremarkable, but in fact it seems as unfathomable as an abyss!

"Tianzun son, don't have to be polite!"

The Zhentian Stone Tablet can see through the identity of the Yin Gu Dao at a glance. He himself is a follower of the Supreme Human Emperor. In that era, I don't know how many powerful people in the Heaven Realm have ever seen.

Therefore, he is extremely sensitive to the descendants of that level.

Yin Gudao was slightly startled, he suddenly felt that all the secrets in his body had been seen through!

"My son, don't be surprised! I will not disclose some secrets! I came this time only because of a whim and a sense of feeling, so I want to come to join the join, just a few words of advice!"

Zhentian Stone Tablet smiled and said, his smile gave people a particularly reassuring and practical feeling.

Gradually, even the hostility in Luo Dao's eyes disappeared!

Fang Yue had to sigh in his heart, the strength of the stone stele in this town, his smile can penetrate the deepest line of defense of the heart!

However, on a whim?

Can you give a more nonsense reason?

You are clearly a stone monument, a broken stone, with the hard work of a dog.

However, Fang Yue did not say anything.

He just smiled in an easygoing way: "Senior please give me some advice!"

Fang Yue clearly distinguished that this town's sky stele was refined by the Supreme Human Emperor, and he was generally inclined to the side of the human race.

So his reminder must be extremely important!

The Zhentian Stone Tablet nodded slightly, coughed twice, and cleared his throat and said: "This unknown land has been explored by countless pioneers since ancient times, and they all say that this

unknown land has no one! But in fact, there is no one in the unknown land. There are countless ancient roads spreading! Following these ancient roads, you can gain countless hopes and opportunities!"

"Only the human race, I only have three ancient roads! One of the ancient roads happens to exist in this blocked world! Even along that ancient road, you may be able to get out of this world. It might be banned! After all, the people who banned this world, no matter how great their supernatural powers are, it is impossible to seal the unknown land together!"

There was a look of nostalgia on the face of the Zhentian stele.

"The pioneers of the ten thousand races continue to explore unknown places from generation to generation, one civilization era after another. Some ancient roads may not be long and interrupted on the way, but that also represents the results of exploration by a generation or even a civilization era! The road paved by human bones for future generations also represents a kind of supreme achievement! If you want to set foot on that ancient road, I can provide you with that ancient road through this world. coordinate!"

"Then thank you senior!"

Yin Gu Dao couldn't help but be overjoyed, and he also had an ancient road in his hands.

However, the ancient road in his hands is a race of ten thousand races, and many opportunities on the way have probably been separated by some strong men of other races!

It would be a great opportunity to master a rare ancient road.

Maybe the three of them can enjoy all the opportunities alone!

"Here, these are the coordinates!"

The Zhentian stele displayed complex handprints, condensing an illusory map.

On the map, a series of complex patterns have appeared as the coordinates of that ancient road.

"Isn't this place coincident with the space node where my Yongfeng Town is located?"

Fang Yue showed an unexpected expression.

This town's sky stele is not a mistake, right?

"Yes, it is Yongfeng Town. This Yongfeng Town is exactly a space node of that ancient road. A space node may contain countless space dimensions. This Yongfeng Town exists in the space dimension of this node. The same goes for the nodes of the road!"

The sound of the Zhentian stele fell.

Fang Yue thoughtfully.

"No wonder, I always feel that Yongfeng Town has an ancient and deserted feeling. It turns out that other dimensional spaces in Yongfeng Town are at work!"

Fang Yue suddenly understood.

He is proficient in space and time, and he understands things like space nodes and space dimensions more deeply than others!

"But what fascinating place is in this unknown place?"

Fang Yue was a little puzzled.

Isn't it good to excavate the ruins in the battlefield of ten thousand races?"

Fang Yue has gained a lot in this world, and one after another, countless ancient civilizations have been bred.

He hasn't studied the relics of the magic star yet.

Moreover, he still has the token of the Silver Moon Ruins in his hand, which he never used.

Fang Yue was not willing to take risks in his heart.

He has a lot of resources, and he is prepared to estimate that he will soon be able to break through to the level of the Saint Realm. Even the deity still needs to accumulate and settle. If you can't break through in a short time, if you are a flesh and blood clone, give him a year and a half, breaking through to the Saint Realm is absolutely no problem!

"In this unknown place, there are the oldest magical powers, the most primitive treasure scriptures, the oldest immortal medicines and even some unimaginable dharma conditions!"

"For example, the great power treasures you obtained from the last civilization era were obtained in unknown places, but the distance report you practiced is only a simplified version of it! Although the power contained in it is amazing, there is a gap between the name of the Three Thousand Treasures, and it is far from comparable! The real Juli Treasures are written in divine writing, and they need to be written in the language of any of the ten thousand races. None of the exercises scriptures can fully express its most essential meaning!"

Fang Yue couldn't help being moved by the words of the Zhentian Stone Tablet. He seemed to have touched something incredible.

"Runes are really a condensing of rules, or a kind of language! The real secrets of the exercises are all written in runes, and only then can they directly refer to the connotation and essence! The scriptures of future generations are the simplifications left by the predecessors. Although the version is convenient for spiritual practice, it also loses the original flavor of merging with the avenue!"

Fang Yue kept talking to himself, and sparks of inspiration flashed in his mind!

The Zhentian stele nodded slightly, and the child can be taught!

It is precisely because Fang Yue has such an understanding that he is willing to personally show up to tell them the existence of an ancient human path!

"The long river of time washes the world!"

Fang Yue ordered the power of time to wash the entire Yongfeng town over.

This kind of scouring has no impact on ordinary practitioners, but the hidden nodes in Yongfeng Town have all surfaced.

There are a total of nine nodes, which lead to nine different places!

Only one of the nodes is the ancient road that leads to the Zhentian Stone Tablet.

Fang Yue carefully felt that he quickly found the node of the ancient road leading to the unknown. It was not that Fang Yue was talented and surprisingly sensitive, but only this space node contained a little barren aura.

The other eight nodes are scarier than one!

Some are dead, and the dead breath that seeps out is as heavy as a mountain, capable of crushing the void!

Either it was the slaying air of the soldiers, the sharp blades seemed to tear Fang Yue's soul!

Chapter 2214: Ancient road

"The power of time and space is really mysterious! This space node is extremely hidden. Generally speaking, it takes a strong person above the level of the Daluo Jinxian to explore and open the space node a little bit and step on the ancient road to the unknown, and you It turns out that the power of one person is to find all the nine space nodes in Yongfeng Town!"

Zhentian Stone Stele is sincerely admired!

If the Human Race could have a few more Fang Yue-like geniuses, it would not have fallen to the present level!

"Space Node, open it for me!"

With the help of this space node, Fang Yue forcibly tore the space apart, presenting a portal, and a barren aura came upon his face!

Before Fang Yue stepped into it, a ferocious ancient beast smashed out of it!

This is a three-headed crocodile with a body length of ten meters and a black scale armor covering the whole body, as if a demon **** came out of hell!

God crocodile was born, a big foot girl crushed the ground! One of his head bite away in Fang Yue's direction.

At the same time, the space portal that was forcibly torn by Fang Yue quickly healed under the influence of certain rules!

Fang Yue dodged, he suddenly raised his fist, a ghost of a real dragon appeared behind him, and Fang Yue hit the back of the crocodile with a punch.

However, Fang Yue's tiger's mouth was shocked to bleed, and the crocodile just felt a pain, and involuntarily took a step back!

"What kind of monster is this, it doesn't have any aura of cultivation base, but it's physically comparable to Fang Yue!"

Yin Gudao was slightly surprised.

This Fang Yue's physical attainments is so famous in this world that no one knows, no one knows.

His body is astonishing, as if forged by divine iron, even the strong in the real fairyland dare not approach Fang Yue, and he can only suppress Fang Yue with the monstrous magic power. What's the matter with this divine crocodile?

He only knows the most primitive brute force and is not proficient in any magical powers, so he can be comparable to Fang Yue in physical terms!

"I said that this unknown place is too dangerous. Any crocodile that runs out is so powerful. It's no wonder that some of the Supreme Realm's powerhouses traveled far away from the unknown place in their old age, but in the end even the corpse was not returned!"

Luo Daoyi complained.

A look of horror appeared on his face.

Is this still a trial ground for the younger generation?

There are a few of the younger generation who can compete with Fang Yue's body!

This place is too dangerous and terrifying, even if a real fairy enters it, it is difficult to protect itself!

On the other hand, Fang Yue struggled with the **** crocodile with great interest. Fang Yue's brute force was amazing, and this **** crocodile was also not letting go.

The blood in Fang Yue's body was like a river surging!

And the body of the **** crocodile was surrounded by a faint black aura.

This kind of breath Fang Yue has never seen before, including the heaviness and thickness of the earth and the effect of strengthening the body.

The great power of this crocodile basically comes from the tempering of this breath.

Every breath of this kind is as heavy as a mountain, unstoppable!

Fang Yue waved his iron fist, like big stars hitting the body of a crocodile.

A rumbling sound sounded, and a string of sparks grazed from the body of the crocodile.

The body of the **** crocodile twisted and opened his big mouth to bite towards Fang Yue's head.

Fang Yue's head was almost bitten off by a crocodile. Its teeth were sharp, like a fairy soldier.

Fang Yue used the technique of surviving death, replacing his body with a phantom before he escaped.

The **** crocodile immediately attacked and killed the other people around.

Its appearance is not for singles with Fang Yue!

All living creatures are all its targets, and the breath of death on the body of the **** crocodile rises and falls.

Its eyes were blood red and excited. Two beams of light fell in the direction of Luo Daoyi.

Luo Daoyi was also taken aback.

I am a melon-eating crowd, why do you use me?

But this Luo Daoyi was also a human being. He was flustered and not confused, jumping with his feet, avoiding the two **** beams.

With a bang, the wall behind Luo Daoyi shattered directly.

The strength of this crocodile is unexpected, even if it is only two beams of eyes, it is not the material of this mansion can bear!

There was a dignified look on Fang Yue's face.

He found that he still underestimated this **** crocodile after all. This guy definitely has the strength to crush new creatures in the real fairyland. If you don't finish casting the fairy body and get close by this guy, you only need to click to kill Huangquan!

Of course, Fang Yue was not afraid of this guy.

Even in terms of a pure physical body, Fang Yue still crushed this **** crocodile.

Fang Yue tested out the strength of this **** crocodile, he no longer hides his clumsiness, the blood-colored relics in his body are lit up one after another, and a thin layer of blood is blessed on him.

Bloodcoat!

Fang Yue slapped the crocodile with one palm, and a faint shadow of a high mountain emerged between Fang Yue's fingers.

This is the magical power of Wuzhishan!

A big mountain fell down.

Put five fingers together and turn into fist marks!

With a bang, the divine crocodile was punched by Fang Yue abruptly.

The crocodile struggled on the ground for a while, and then stopped moving!

The internal organs of this crocodile were all broken, although the hard shell still showed no scars.

Fang Yue's punch was very particular, and he used a kind of ingenuity to be able to beat cattle across the mountain and smash the opponent's internal organs!

This crocodile is not a creature proficient in cultivation, it is still a savage beast after all.

Even if the power is amazing, it is not Fang Yue's opponent. It does not have the magical power to rebirth from a drop of blood. Once the key is broken, it means death!

"The flesh and blood of this crocodile contains the rules of Dao and Dharma. If these flesh and blood are cooked and used as food, the essence and Dao in it will have infinite benefits for practitioners!"

Zhentian stone stele tut tut admiration.

This generation of people is really wild!

He hasn't finished speaking yet, this ancient road to the unknown land just opened up!

And this Fang Yue is really powerful, even this kind of crocodile can kill in one battle.

In fact, the fierce beasts who don't know how to cultivate in this unknown place are the most difficult to deal with. They don't know how to practice, but their bodies are so strong that they won't be beaten!

That hard shell surpassed the defense power of the ordinary immortal weapon. When the ordinary practitioners came, they couldn't break the defense of others, so what would they use to beat them?

However, this crocodile is dead, and the value of his flesh and blood is quite amazing.

The essence of his combat power comparable to the real fairyland is all in his flesh and blood, and every inch of flesh and blood is a kind of treasure!

"The essence of this flesh and blood is too strong. It is the so-called emptiness. The practitioners below the saint level will be blown up even if they eat a couple of flesh and blood! Only the creatures above the saint level can slowly refine it. In fact, the flesh and blood of this crocodile is most suitable for practitioners of the Great Sacred Realm and Void Wonderland level. No matter how high the cultivation base is, the effect of the flesh and blood of this crocodile is no longer obvious!"

Fang Yue is an expert in eating!

He carefully analyzed the value of this crocodile!

"The essence of this guy is all in his flesh and blood, but his teeth are sharp and strong, and can also be used as a primitive magic weapon. I am afraid that it can't be made by immortality, but as a top virtual fairyland level. As far as the swords are concerned, these teeth are not the slightest problem! There is also the shell of the crocodile, which is a natural fairy armor! Wearing this thing on the battlefield is invulnerable and can scare a large number of people to death!"

Luo Daoyi is a money fan!

He had been eyeing the body of this crocodile long ago.

"Tsk tusk tusk, the ancient road leading to the unknown land is really fascinating. Killing a few such crocodile, at least I have the resources to cultivate to the level of the Great Holy Realm!"

Luo Daoyi's words stunned Zhentian Stone Tablet.

Don't you be afraid of such a powerful crocodile?

You know, on that ancient road, a **** crocodile of this level is just a commodity of ordinary grade, it is just a small head, not even a leader!

Fang Yue is more rational.

"In all fairness, the fighting power of this crocodile is not weak! This crocodile should have just grown up. If he lives for a period of time, he does not need to cultivate, he will naturally grow to a level of strength comparable to that of a true immortal three-tier practitioner Now, with our strength, if we rashly set foot on that ancient road, we will face not chance but danger!"

"That's right! This fierce beast is powerful, if it is placed in this space, it will already be a hegemon!"

Yin Gudao nodded. He and Fang Yue had the same views. If you want to wear the crown, you must bear the weight, but if there is danger, you can not die!

Now their strength is not enough to set foot on the ancient road of unknown land opened up by the ancestors of this human race. If they only use the strength of the three of them to set foot on that ancient road, it is basically not much different from looking for death!

"Our future must be in our own hands! If we pin our lives on illusory luck and embark on that ancient road with a fluke, I am afraid that none of the three of us will survive!"

Fang Yue said in a heavy voice: "So, if I suggest that if you want to enter the unknown, you should follow the ten thousand races and set foot on the ancient road with more people. At least this is a buffer. This kind of exercise, when we know enough about the unknown, it will not be too late to kill the ancient road opened up to this human race!"

After Fang Yue finished speaking, Yin Gu Dao agreed.

Luo Daoyi's eyes clearly showed disappointment.

Fang Yue couldn't help but vomit secretly, this Luo Daoyi is indeed one of the best talents among the ten thousand races in this world, and also the hope for the future rise of the human race.

But this guy seems to have a problem with his brain, how can he always give people a feeling of asking for money but not life.

The ancient road opened by this human race is ten dead and lifeless, and it can be found only from the body of this **** crocodile, but this Luo Daoyi is still interested in this ancient road, does he not understand that no matter how many resources there are, If there is no way to enjoy it, is it a emptiness?

However, Fang Yue would not say these words in front of Yin Gudao and others.

After all, he and Luo Daoyi are not very familiar with each other, so rashly speaking this kind of words might break their newly formed alliance instantly!

"The ancient road chosen by the ten thousand races is actually very dangerous! Because on that ancient road, you not only have to face the various creatures in the unknown land, but also need to beware of the ten thousand clan stabbing a knife in secret! For a treasure or a piece It's not uncommon for the

brothers to rebel against each other due to the exercises! So no matter which ancient road you choose, everyone must be careful!"

Yin Gudao reminded.

If it wasn't that the ancient road was too dangerous, Yin Gu Dao would not choose this time to find Fang Yue to form an alliance!

After all, from Yin Gu Dao's point of view, this Fang Yue was born in the Universe of Ten Thousand Worlds just like himself, and he can still be trusted in his origin and origin!

Chapter 2215: Magic City Ruins

"Where is that ancient road?"

Fang Yue asked.

"I don't know! That ancient road does not have an entrance in a certain space node, but should be pinned in the void! Among the ten thousand races, there are some trial tokens circulating, and these trial tokens are all Left over from the ancient times! Only by obtaining the trial token and completing the designated tasks can you be qualified to lead the ancient road!"

Yin Gu Dao said softly: "But it is not easy to get a trial token. There are already many large races in the ten thousand races who have learned about the existence of this ancient road! They also want to send the Tianjiao among their races to Trials are going on in that ancient road! So they are also spending their efforts to get trial tokens!"

"It is said that there are three ways to obtain the trial token of this ancient road! The first one is obtained from certain designated relics. In this world, there is a unique relic called the magic city. Ruins, these ruins are fragments of time and space that record the times, everything in them seems to be true, and even the treasures obtained from them can be brought out! But this kind of ruins is extremely dangerous, because it is an open world, No one knows what kind of danger is hidden in it! It is said that half a month ago, a true fairy top powerhouse of the dragon race entered into the ruins of an illusion city and wanted to obtain a trial token for his tribe. After the queen, his soul card jade fell apart, and never came out of it again!"

"However, the ruins of this fantasy city are also the easiest ruins to find. There are now a total of nine, all of which are shared by ten thousand races! These ruins are immortal, but the dangerous and ordinary creatures dare not easily set foot in it!"

"Illusory City Ruins, has that kind of thing appeared again?"

There was a solemn expression on the face of the Zhentian Stone Tablet, and he seemed to know quite a bit about the ruins of this fantasy city.

Zhentian Stone Tablet seems to have a deep understanding of the ruins of Illusory City. When Yin Gudao said the words "Illusive City Ruins", the face of the Zhentian Stone Tablet showed a different look.

"The ruins of the fantasy city are, from a certain perspective, a fragment of time and space that has been formulated with different laws. The people and things in it are a repetition of the things of the year! This great secret is hidden in the remains of the fantasy city, and there was once a heavenly state. The powerhouse wanted to reveal the secret, but in the end it was to no avail!"

The Zhentian Stone Tablet seems to be quite a taboo for the remains of the Magic City.

Fang Yue also showed a look of alertness.

"In addition to the ruins of the fantasy city, there are only two ways to step into the ancient road and obtain trial tokens. One is to grab them from the hands of some big clans! Some big clans have many trial tokens in their hands. It's just that they cherish these tokens very much, unless they are some of the top talents in the clan, otherwise, they are not willing to use the trial tokens!"

"The third way is to create a one-time trial token! The real trial token is extremely stable, similar to a teleported spatial coordinate! You only need to inject enough world origins into it, and the token can be activated, and the corresponding Tianjiao of Tianjiao is transmitted to the ancient road! However, some people have tried to imitate real tokens to create some bubbling goods. These one-time tokens are expensive and not stable enough. Once used, they will be completely broken and cannot be repaired. It's hard to say where exactly it was transmitted to the ancient road!"

Yin Gu Road gives two other ways to enter the ruins.

One is more unreliable than the other, and is it obtained from other big clans?

Whether it is the gods and demons, or the dragons and the elves, which one is unimaginably powerful?

Compared to the top ten ethnic groups, the so-called 13 ethnic alliance is actually just a joke!

Any ethnic group in the top ten has an unimaginable background.

As far as the human race is concerned, the crusade by the 13-nation coalition forces was so vigorous this time, but what happened in the end?

The Terran didn't even reveal a real hole card, only relying on the power of Giant Wood City itself to calm this matter down.

Although the human race's way of dealing with the problem was a bit tragic, the matter of all the practitioners in the Giant Wood City turned into a dark species was completely exposed.

However, this also shows the powerful background of ethnic groups in a certain way.

Humans' majesty should not be offended, and they would go back to them on weekdays, but when it comes to life and death, the fighting power that erupts is unimaginable.

Taking the trial token from the hands of the big clan is tantamount to grabbing food from the mouth of a tiger.

Although Fang Yue was courageous, he was still not bored.

Soon, Fang Yue rejected this plan, and who can refine the fake trial token?

Anyway, he doesn't have this ability, he hasn't even seen how to make a fake one!
wrong!

There seemed to be someone who could do it.

Fang Yue set his gaze on Luo Daoyi.

The magical artifacts Luo Daoyi used before were all ingenious.

Maybe this Luo Daoyi can achieve his own unique attainments in this respect?

Luo Dao coughed twice, and he felt Fang Yue's gaze.

"If there is no other choice, I can indeed create some one-time trial tokens! But this kind of trial token must have a sample! So we still need to go to the ruins of the magic city! Of course, I personally In fact, I am more inclined to directly open the ancient road left by the ancestors of the human race! If we do not have the courage to overcome obstacles, how can we lead the rise of the human race and reproduce the glory of the ancient times?"

Luo Daoyi still remembers that ancient human road.

This ancient human road has been deserted for so many years, and the benefits must be many.

The ancient road shared by thousands of people, who knows how many people have explored it, must be much less dangerous, but most of the chances are estimated to have been taken away by those seniors!

Fang Yue and Yin Gudao ignored this fat man's statement.

Everyone is not stupid, can they still guess Luo Daoyi's careful thoughts?

This guy is definitely not someone who is willing to dedicate himself for the future of the Human Race, he mostly wants to drag Fang Yue and Yin Gu Dao together for the treasure on that ancient human road.

"The ruins of the fantasy city are quite dangerous! Although the higher the level of cultivation, the greater the price of entering it! But if you pay a certain price, the older generation of powerful people among the ten thousand races may also be mixed in it, just trying Practicing tokens is enough to make the ten thousand races take the risk! What's more, the treasures in the ten thousand clan ruins are not just as simple as trying tokens! There are also some ancient techniques and secrets that are extremely attractive! So, enter the magic city ruins One hundred thousand people must be careful in the middle. If you are not careful, you may fall into the enemy's calculations without even knowing how to die!"

Yin Gudao reminded repeatedly.

This Fang Yue is Human Race's future hope.

As long as he can break through to the level of the Saint Realm, his future combat power can at least reach the level of a spirit fairy!

The combat power of the true fairyland level is the mainstay of the human race, and the spirit immortal is the existence of the giant level. What's more, this sage level may not be the end and end of Fang Yue's

practice. Going all the way to the level of the true fairyland may be comparable to the top-level Da Luo Jinxian, reaching the point where it can affect the luck of the human race.

Only Fang Yue can cultivate to the spiritual fairyland or even a higher level. Yin Gu Dao dare not imagine. It is not that he looks down on Fang Yue, but that he has cultivated the same line of all methods and walked to such a pure, historical record, true fairyland. Basically it has the highest state.

There are many side branches in this line, with one Dharma as the mainstay, and several other traditions. These people are also referred to as the one line of ten thousand dharma and cultivating. Some of them have reached the supreme level, but compared to Fang Yue. For this kind of orthodox method, it is more than one level worse!

"Then it's settled! Give me half a day to settle things in Yongfeng Town. My flesh and blood clone will accompany you on a trip to the magic city ruins. My flesh and blood clone has been trapped in the leader realm for a long time! It's time to make a breakthrough! , Stepping into the level of Saint Realm!"

Fang Yue also made up his mind this time.

No matter how well the various forces develop, the most fundamental thing in this world is their own strength.

Insufficient combat power, all power means are moon in the water, flowers in the mirror. If he dies, all the forces he cultivated will disappear.

But this time in Yongfeng Town, there was Bingyan, the woods and Niu Yi cooperated, and the Zhentian stone stele was secretly lining up. As long as these tens of thousands of people do their best to fight, Yongfeng Town should have no problem defending the site.

Really something went wrong, with his friendship with King Lei, King Lei's mansion would not sit idly by, and even Giant Wood City would secretly support it.

Nowadays, Yongfeng Town is gradually on the right track. Various resources are produced, and its own system has been formed for the cultivation of practitioners.

Fang Yue's departure can also temporarily deliver Yongfeng Town to Lin Mu's hands.

After Fang Yue gave some explanations, he left Yongfeng Town and went to the Magic City of Thousand Pagodas, one of the nine ruins of the City of Magic.

The Thousand Towers Fantasy City is located in the northern part of the battlefield of ten thousand races, and its territory is close to that of the demons.

However, the nine relics of the fantasy city are all governed by the ten thousand races, and they will not belong to one power. This is also the compromise result of the ten thousand races after countless open and secret fights!

It took about a day for the three of Fang Yue to cross the entire battlefield of ten thousand tribes to reach the fantasy city of a thousand towers.

There are three thousand entrances in this thousand towers fantasy city, and the corresponding is Three Thousand Avenue.

The 3000 portals are all controlled and operated by different family forces.

If you want to enter the relics of the Thousand Towers Magic City from these entrances, you need to pay a corresponding price!

"Of these three thousand entrances, there are more than 300 entrances controlled by the human race, but I do not recommend that you go through the human race entrance! The human race is now more hostile than the ten thousand races, and the spies of the ten thousand races are ubiquitous. If you walk through the human race entrance, it will be very good. We may be targeted. The identities of the three of us are very sensitive and easy to be targeted!"

Yin Gu Dao is carefully considered, careful and cautious.

He was not born like this. As a parent and child of Tianzun, he was the jewel of the human race at the time he was born. Even if he is treated with courtesy among the ten thousand races, no one dares to attack him or perform any conspiracy.

However, with the fall of Yin Yang Tianzun, that era came to an end, and the human race today is declining.

The bloodline of the descendants of Tianzun in the past is no longer just a symbol of nobility, but also the object of tens of thousands of races to fight against.

Even if everyone knows that this Yin Gu Dao can prove Dao alone, it is not very possible to ascend the position of Heavenly Sovereign.

But even if this Yin Gu Dao became a supreme powerhouse, for the ten thousand races, he didn't want to see it.

Fang Yue nodded, he was also on the blacklist of the Ten Thousand Clan.

Chapter 2217: enter

Thoughts fluttered in Fang Yue's mind.

In a blink of an eye, he has arrived in the illusion city of a thousand towers.

More than sixty people gathered together and quickly dispersed.

They ran in different directions in groups.

For people who are not familiar with each other, each other is the biggest threat!

This dispersion is the safest choice for each of them.

"This Thousand Towers Fantasy City circulates once every 100 years, starting from a time node. Today's Thousand Towers Fantasy City is in the first cyclic reconstruction of the world node, everything is derived, and history has just begun. The time and space fragments represented by the Thousand Towers Fantasy City, Is an event that occurred in an ancient city in the middle of the last civilization era. In 229

years of the thousand towers calendar, the fifth city lord of the city of a thousand towers, Basi, usurped the throne. In the city of thousand towers, there are a total of five powers. Interweaving, fighting over and under."

"These five forces are the conservative faction left by the old city lord, the emerging faction represented by the new city lord, the popular opinion faction that resists the rule of the city lord among the people, the subversive faction represented by the endless barren land outside the city of a thousand towers, and the guardian of the thousand towers. The order faction represented by the city order! These five factions are almost in a state of equal strength. Each faction has at least one powerful person from the great Luo Jinxian sitting in existence! Each faction has at least two digits or more. The spirit immortals and a large number of powerhouses at the real fairyland level! Therefore, our combat power can only be regarded as a powerful force for the city of a thousand towers, and it is difficult for even the top powerhouse to be included!"

The person responsible for the introduction this time is Yin Gu Dao. He suggested this Qian Pagoda Magic City ruins, so he has already had a detailed understanding of Qian Pago Magic City in advance!

"The city of a thousand towers is said to be a city, but in fact it is more like a huge country, with a population of hundreds of millions, a vast land, and gangs of all sizes! This trial token actually exists temporarily. In the hands of various forces in the City of Towers, the five major factions must have trial tokens in their hands. Whether other forces have trial tokens in their hands depends on luck! This trial token is one in the city of a thousand towers. A symbol of status! There are many tokens, but the difficulty of obtaining them is not very low!"

"However, this City of Thousand Towers is generally a city that is more friendly to Tianjiao! Because the City of Thousand Towers is civilized with a thousand towers, there are a total of 1,008 Void Towers in the entire city, and Tianjiao characters can enter it. For trial and inheritance, this Void Tower has a total height of ninety-nine and eighty-one floors. The higher the height you climb, the higher the status and status you will get after walking out of the Void Tower!"

Yin Gudao introduces the general idea of mixing in the city of a thousand towers.

Enter the Void Tower for trial, gain inheritance, and then join a party to gain a very high status and obtain trial tokens.

"However, this Void Tower is not accessible to anyone, generally you must have some identity before you can enter it. The trial of the Void Tower, the content of the trial varies from person to person! The higher the realm, the trial. The more difficult it is. After the trial of the Void Tower is completed, the family behind the trialer will receive corresponding rewards based on the results obtained by the trialer! So, first select one power, and then enter the void In the Tower, the rewards for the trial results of the testers will become part of the merits of the testers for the ethnic group behind them!"

Luo Dao interrupted.

He took out a "Perfect Guide to the Ruins of a Thousand Pagodas".

This Raiders was obviously bought by Luo Daoyi from the stall without knowing it in advance, and the materials were quite ordinary.

Compared with Yin Gu Dao, Luo Daoyi's body has more the breath of a stock market.

Yin Gu Dao only obtains some confirmed news or information from some more reliable official channels.

Luo Daoyi is a three-in-one, and he likes to collect some gossip from unknown corners.

Sometimes, this kind of gossip may be more precious, but it cannot be exposed to the sun for various reasons!

Fang Yue looked curiously at Luo Daoyi's "Perfect Guide to the Ruins of a Thousand Pagodas Fantasy City", "Where did you get this thing?"

"Obtained on the black market, you can get a copy of only ten top-grade Yin Stones. The cost is very low, but the quality is guaranteed! This guide has been verified by countless people, and many details have the value of reference and reference. !"

Luo Daoyi opened a page again and said in a serious way: "For example, this news, the power distribution of the Thousand Towers Fantasy City is in the shape of a pyramid. According to inferences, it is possible that there may be hidden in the two sides above the five major factions of the Thousand Towers Fantasy City. The super powers are facing each other vaguely!"

"Some people have inferred from the oldest hexagram that there are two superpowers standing above the five first-rate powers in the Thousand-Pagoda Fantasy City, and there are 18 second-rate powers under the five first-rate powers!"

"Does this thing still have a fortune?!"

Fang Yue is quite knowledgeable!

"What can't be, it's just that you don't have enough knowledge!"

Luo Daoyi sneered, "This hexagram image is mysterious and unpredictable, conforms to the yin and yang path, and the theory of Wanxiang. If you can practice the hexagram image to the peak and extreme, you will be able to seek blessings and avoid disasters, and travel in the five elements and three realms !"

Luo Daoyi seemed to admire this hexagram image extremely.

Yin Gu Dao reminded him in a low voice: "Fang Yue, Brother Luo is the best at refining tools, this is the technique of deduction of hexagrams."

Fang Yue couldn't help being stunned when he heard this.

Unexpectedly, Luo Daoyi still has the potential of a **** stick.

Luo Daoyi seemed to understand his mind from Fang Yue's eyes.

Luo Daoyi couldn't help but said in disgust: "Fang Yue, don't take it seriously! I have seen a strong man who is proficient in the way of hexagrams and images, who can do everything in one mind and infer all the changes of your next move during the fight. , And then seal it, leaving you nowhere to start!"

"Guaxiang, I believe it!"

Fang Yue did not refute.

In fact, Fang Yue has also met some people who are good at hexagram calculations. Although he has never had a deep friendship, he also respects the strong in this line!

Luo Daoyi let out a cold snort and stopped talking to Fang Yue.

This Fang Yue's attitude was still extremely perfunctory in Luo Daoyi's view, and Fang Yue's words should not be trusted.

Fang Yue shrugged, a little helpless.

These days, nobody believes the truth!

"Close to the subject, the place we are teleporting to is the eighth district in the east of the city of a thousand towers! In this area, there are actually three families to choose and take refuge in!"

"The largest of them is the Phils family in the second-rate family! In this family, there are only two spiritual fairyland powerhouses sitting on the bright side! There are as many as 41 true immortals in the family, according to the data. , There are at least eight trial tokens in the Phils family!"

"Secondly, both the Zhu family and the Liu family belong to the third-rate powers. The strongest person in the family only has the strength of the pinnacle of true fairyland, but these third-rate families usually have one or two trial tokens in their hands!"

Fang Yue was unwilling to argue with Luo Daoyi over some trivial matters, so he brought the topic back to business.

"According to the rumor, the power of the calamity is infinite. When the power of the calamity of the world broke out, it not only spread among the major ethnic groups, but also rushed into some ancient ruins. This ancient city of thousand towers may also be affected. Some influences have produced some unknown changes, and it is no longer possible to explore solely on the basis of previous experience!"

Luo Daoyi broke out an amazing news again.

His words surprised Fang Yue and others.

"Does the power of this calamity affect even the ruins?"

This is not good news. The power of calamity itself represents chaos and change. If the power of calamity really invades this space and time, it may mean that their trip this time will be even more dangerous.

"That's just a possibility! It has not been verified, but everything should be done carefully! I think everyone can join a small clan, a fourth-rate or fifth-rate family! The strongest in the clan is only the third and fifth floor of True Wonderland In the realm of, they will also have the qualifications to allow people to try the Void Tower! If the opponent turns his face, we can overturn it directly! If nothing happens, you can use these small clans as stepping stones to gradually understand this The world of the city of a thousand towers!"

"Actually, the world of this Thousand Towers City is a civilization left over from the last civilization era. Its practice system is similar to this civilization era, but it is more complete! The trial token is just one of the treasures of the Thousand Towers City. Kind of! Among them, there are some unique methods of

cultivation of the last civilization, which are also of infinite value. For example, three thousand treasures, each of which can produce amazing power to the extreme! And the combination of different treasures can burst out Power than some talented supernatural powers!"

Luo Daoyi's ambitions are even greater. He came to this city of a thousand towers and was unwilling to get only one or two trial tokens.

His goal is some ancient heritage and secrets from the last civilization era!

"Three Thousand Treasures are indeed good things!"

Yin Gu Dao is also a little excited.

According to the records in ancient books, the last civilization era was actually one of the more powerful civilization eras experienced in the underworld. In the later period, the tens of thousands of people joined forces and worked together, and almost completely suppressed the power of the calamity and continued civilization to the next. In this era of civilization, it's a pity that at the last moment, it fell short. The history books did not record the reason for the true defeat of the last era of civilization!

"In that case! Then I will accompany you to spend more time in this city of a thousand towers!"

Fang Yue is also a little interested in the Three Thousand Treasures. He now has the lowest ranking of the Three Thousand Treasures, but because it fits with his practice direction, it has already brought him great benefits!

Among the three thousand treasures, the top ten reincarnation techniques, the five-element great immortal technique, and the world technique all fit his direction of practice. If he could get one of them, he would be considered a worthwhile trip!

"If you are a small clan, you don't need to worry about choosing too much! There are hundreds of small forces at the fourth-rate level in the East Eight District, five or six thousand forces at the fifth-rate level!"

Fang Yue opened his pamphlet.

There is also a record of the forces in the Thousand Towers Fantasy City. The entries are extremely detailed, and even the identity of each force suitable for disguise is clearly written!

"Then join this force!"

Yin Gu Dao glanced at it, then clicked at will.

Chapter 2218: Refining Runes

"I think everyone can disperse and join different small forces. If it is a big force, the three of us still need to report to the group to keep warm, in case of accidents, but for small forces, the top strongest among them is only true. The level of the peak of the fairyland does not need too many taboos and constraints!"

Fang Yue said, he felt that it was too eye-catching for the three Super Tianjiao to appear in a small force at the same time.

Needless to say, they all feel tricky, easy to be targeted, and even more dangerous.

And if the three of them are separated, they will join a small force to hide their identities for a little bit. The goal is small and it is not easy to be noticed!

"it is good!"

Yin Gudao felt that what Fang Yue said was reasonable.

"I have three jade charms that can interact with each other! It can be effective in most prohibitions! If there is any trouble or major discovery, you can use this jade charm to locate and communicate with each other!"

Yin Gu Dao took out three magic charms and gave Fang Yue and Luo Dao one each.

After that, the three of them dispersed and disappeared into the crowd.

Fang Yue chose a black whale, an underground force of four streams.

This black whale belongs to the dark side of the city of a thousand towers, and it is specially accepted for some assassinations, intelligence trafficking, or smuggling and other invisible sounds! For members of the Black Whale, the review mechanism is not so strict. As long as you have the courage, you can take over some common tasks!

The members of the Black Whale are about seven to eight thousand people, and their requirements for the members' cultivation level are above the leader level.

Fang Yue's realm is up to the standard.

This also made Fang Yue sigh secretly that he really wanted to improve his realm. Otherwise, the sky would wander in the underworld with the hat of a master realm cultivator, and it would become troublesome to get mixed into one force in the future. Up!

"I want to join the Black Whale!"

Fang Yue went to a small wooden house in a hidden corner based on the information in the manual provided by Wanxiang Pavilion.

The door of the wooden house was closed tightly.

Fang Yue pushed in directly.

The runes on the facade of the wooden house gave birth to colorful glazed light.

The Zhen Qi in Fang Yue circulated slightly, and the light on the wooden door naturally dimmed.

"Different civilizations have their own worthy lessons!"

Fang Yue secretly admired, the design of this wooden door is quite clever.

The runes on the wooden door represent the power of three different rules: firmness, burst, and imprisonment.

If someone wants to break through hard, the people in this door can control the wooden door for solid defense. If the defense is not enough, the wooden door will burst. If the repair base is slightly lower, it may even be blown to death by a wooden door, even if it is not afraid of the wooden door. The explosion, the remaining power of imprisonment, can also trap the intruder for a while, giving people in the house enough time to react and escape.

Unfortunately, this wooden door met Fang Yue.

Fang Yue's attainments in runes were equally astonishing, he only saw through the purpose of these runes at a glance, and then a wisp of his mana was injected into the wooden door, and the rules in the wooden door were wiped out.

The wooden door is still that wooden door, but there is no danger at all!

Squeak.

Fang Yue pushed in!

In the door, a gray-haired, well-dressed old man was spreading out the book, reading a book of jade slips with gusto.

"Hello senior!"

As soon as Fang Yue entered the door, he almost turned and left.

Fang Yue almost thought he had gone wrong!

The old man in this wooden door seemed to be an ordinary cultivator of the great sacred realm level, but Fang Yue felt through the power of reincarnation that this old man was actually pregnant with a divine fetus! Most of the power in his body was used to conceive the fetus, only a trace of power remained to maintain the external skin.

This tiny bit of power is the cultivation strength of the Great Sacred Realm level.

If the full strength of this old man is shown, the ghost knows what level of old monster it is!

Fang Yue even felt a breath similar to Ruyizi in the old man's body.

Who is Ruyizi?

Existence at the level of alchemy!

Although Fang Yue was proficient in alchemy and formation, he was still at the pinnacle of the Grand Master Realm in these two aspects.

Don't look at this grandmaster's peak and the ranks of the masters are only one step away, but this one step away, sometimes it is often a world of difference!

The grandmaster level can establish sects, and become the master of the sect.

And the rank of Zhuzi is opening up an era.

Master, hard practice can be achieved.

The scholars need to embark on a road that no one has ever set foot in!

To put it simply, the existence of the sub-level, one person is a genre, towering fortune, is the creator of civilization.

And this old man is actually the existence of the ranks of runes?

I did not go the wrong way!

What about the four-rate small forces?

Even an uncle who is responsible for bringing new forces to the forces is so strong, what a mess of me!

"My security door has been cracked?!"

The old man slowly raised his head and looked at Fang Yue with a kind smile.

This smile made Fang Yue feel a little creepy, even a little oozing.

Then the old man's gaze fell on the already ordinary wooden door.

"Sorry senior! Junior didn't mean to offend! Junior is leaving now!"

Fang Yue prepared to apply oil on the soles of his feet and went straight away.

This world is too dangerous, he can't get along with his strength at all!

When I went out, I ran into an existence of the ranks of all kinds of people. According to Fang Yue's experience, such people are often unfathomable old monsters.

"No need to go! No need to go! Old man, I am getting older, and my favorite is the young man who is diligent and motivated! I have sensed the breath of Rune Dao in your body, you should also have a profound knowledge of Rune Dao! Just right, here I am To conduct some rune experiments, you can be my assistant! In return, I can pass on some knowledge of runes to you!"

The old man looked at Fang Yue kindly.

Fang Yue found that the rune on the wooden door behind him had been renewed. This time the rune was complicated and mysterious, and Fang Yue had never seen it before, so he did not dare to touch it easily.

"Did this fall into the wolf's den?"

Fang Yue muttered to himself.

"Your current status is my first-level assistant, you can help me complete the most superficial experiments!"

The old man did not give Fang Yue a chance to refuse at all.

"Is it in a small room?"

Fang Yue knew that he couldn't resist, so he began to enjoy it silently.

He comforted himself and said that it might not be a bad thing to be able to learn from a master of the ranks of runes, this is something countless people dream of.

Although a little passive this time, it might not be a good thing in the long run.

"This hut is enough! There are thirty-three seal runes I arranged in this house. Every time you find and crack a seal rune, you can get a part of my knowledge, although the knowledge in each seal is not a lot. But for a beginner of runes like you, it is enough to comprehend!"

The old man said with a smile.

Fang Yue felt a little awkward in his heart.

Beginner of runes?

Although he is not the top in rune attainments, he is also at the pinnacle of master level or even half-legged to the master level, especially the combination of runes and rules, and he has his own attainments. Although he is not as good as a powerhouse at the rank of zhuzi, he also has his own uniqueness.

"Untie these thirty-three seal runes and learn the knowledge in them, I can promote you to the second-level assistant as appropriate!"

The old man did not introduce his identity and history, nor did he ask where Fang Yue came from.

It seems all this is so logical in his eyes.

All this is so smooth that Fang Yue has an awkward and weird feeling!

In this... what seems to be a misunderstanding?

Such a feeling arose in Fang Yue's heart inexplicably.

"As a first-level assistant, you need to help me complete the first test. I will assign you a task that will be completed within three hours! You must first configure a copy of the ice soul and snow ink! According to the ice soul and snow ink you configured Level, I can give you corresponding resource rewards!"

The old man assigned a task.

Fang Yue didn't even know the name of the old man.

The old man didn't seem to care about Fang Yue's name and origin, he came to work for him.

But ice soul and snow ink are nothing more than ice, does this old man really regard him as a beginner in runes?

This rune together, imitating Dao marks, portraying runes is the core ability, but the length of time the rune is maintained, and the power of the rune depends on the rune ink, rune paper, and the brushwork used to outline the rune and even outline the rune. The pen and other factors.

Blending talisman ink is the basic skill and method of a talisman maker, and this ice soul snow ink is one of the basic talisman making!

The ice soul rune ink uses the soul of the ice and snow beast as the basis, and then selects the blood of nine ice and snow creatures as ingredients, of which nine types of ice and snow have a vein of spirit grass attached. The higher the quality of these basic materials, the higher the configuration The level of the fumo that comes out is also higher.

"The beast of ice and snow has the most important biological bloodline of the ice element! Its bloodline is composed of pure frost power, pure soul power, yin to cold!"

Fang Yue muttered to himself, with a move of his palm, the void shattered, and an ice dragon at the master level was photographed by him out of thin air!

This means of void positioning is the combination of the Great Way of Water and the Way of Space.

The Dao of Water is superimposed on the Dao of Space, and what it forms is the art of summoning!

Void Summoning, runs through the world of ice and snow. Fang Yue just caught such an ice dragon out.

The ice dragon at the leader level fell into Fang Yue's hands and was directly cramped, refining his soul.

The old man's eyelids lifted slightly, revealing a look of surprise-what about this kind of operation?

This ice dragon soul is indeed the top ingredient in the production of ice soul and snow demon, and the runes made with it are not too bad in quality. However, this method of collecting the soul of the ice dragon is probably impossible for ordinary people, even if it is a powerful person in the great holy realm and even the virtual fairyland, it is not easy to find an ice dragon!

"Start with the main ingredients, as for the blood of these nine bloodlines and one bloodline, it is easy to find!"

The treasures in Fang Yue's storage bag became mountains. He didn't know how many powerful people were captured and killed alive. All their life savings were robbed by Fang Yue, what kind of materials did he not have!

Fang Yue easily found nine different Frost-line life essences and blood, and each drop was at the level of the leader realm.

Chapter 2219: Deductive rune

This refining talisman ink is not because the higher the quality of the material, the better, but the attributes are compatible with each other, and the grades of the materials are suitable. If the main material is the spirit of the ice dragon at the leader level, but the auxiliary material is the essence of the nine saints, it will lead to the strong and weak of the minister, and the refined rune will definitely have problems. !

The old man's eyelids throbbed.

This guy is a prodigal!

Forget about the soul of the ice dragon, although it is hard to find, it is not precious.

But does he know what these nine excipients and blood represent?

The creatures of nine different ethnic groups are all in the Frost line. If they are seen by those old things who study bloodlines, they will definitely come over and grab them.

The bloodline attributes are similar, and the integration is easier! This is an excellent material for researching new blood vessel medicines.

But forget it!

Lao Tzu is in the line of runes, and Lao Tzu is not involved in the essence and blood. If you are violent, you will be violent! I don't cherish it anyway!

Finally, Fang Yue took out nine seeds.

These nine seeds are also Frost's veins. Fang Yue didn't know where he got nine flowerpots and planted all the nine seeds.

The corners of the old man's mouth twitched a little. Twitched!

Is this elder brother ready to plant now?

How long does it take to let the nine spirit grasses mature!

You know, the growth cycle of lingcao is very long. It takes three to five years for the short ones to sprout and mature and bloom, and some are slightly longer, and they are not fresh for one hundred and eighty years! When these spirit grasses grow up, even the daylily will be cold!

However, Fang Yue devoted himself.

But it has never been disturbed by any external factors.

This cultivation of flowers and plants is also an area where Fang Yue is good at. The way of life is the most good at promoting birth.

Fang Yue squeezed the printing technique with his hands, condensing little green light.

The cyan light flew to the nine seeds buried in the soil like fireflies.

Then, all the nine seeds had green sprouts emerging from the ground, and this thought seemed to be a matter of days.

"The Way of Life! It was born with this method!"

The old man was shocked, the one he met this time was really a bit unusual!

In this short period of time, a variety of methods have been displayed, and the scope of these methods involves many different ways of heaven.

Both the space heaven and the life heaven are unpredictable, and even among his friends, few can master one of them.

The old man never thought that mastering many Dao would have much to do with refining talisman, but now it seems that mastering Dao is mostly convenient. Whether it is to find materials or to promote cultivation, it will have great uses and great achievements!

Fang Yue continued to display the life of the heavens, and after a series of exquisite techniques were displayed, the "Life Truth" in his body was running, and all that he drew from the void was the purest life essence!

These life essences are injected into the seeds, and the growth speed of the seeds is superimposed at a speed of ten times, a hundred times, and a thousand times!

After another half of the incense, the nine seeds have grown into corresponding plants, and all of these plants contain the power of frost.

The years in which Fang Yue controlled these spirit grass fairy flowers ranged from 70 to 80 years to hundreds of years!

The nine spirit grass fairy flowers were actually controlled at almost the same level.

Fang Yue picked it, mashed it, and turned it into the freshest rune ink material.

Mainly based on the soul of the ice dragon, supplemented by nine types of blood and nine elixir!

Fang Yue's meticulous workmanship, and soon a full 20 copies of Ice Soul and Snow Mo are released!

These twenty ice souls and snow inks have their own frosty aura, even if they are not drawn as talisman, the power of this talisman is weaker than the general master realm one-time magic weapon!

"Senior, I don't know how these ice souls and inks I have configured? If there are deficiencies, I hope Senior can prove it!"

Fang Yue showed a humble expression.

The old man pondered for a long time.

Just now he said: "The ice soul and snow ink you have deployed should be considered the ultimate among the holy products! If it is used to outline the talisman, it should be possible to outline the saint-level or even the great-sage-level talisman! The combination of various materials is uniform. It's the best, it's amazing!"

Even though he was a master of Fudao, the old man admired Fang Yue's ability to configure Fumo.

This ice soul and snow ink is only the most basic rune ink according to the truth. Its own level is limited. Generally, it is only configured to be the rune ink of the yin and yang level at most in the heaven and earth realm. It can reach the level of the leader realm. The level of level, it has exceeded the limit of the quality of this rune ink!

This is related to Fang Yue's choice of materials. Each material is luxurious, and the materials are matched with each other. The heat reaches the highest level. Even if the old man personally configures the talisman, he may not be able to configure the holy talisman. ink!

"These rune inks can be converted into heavenly merits for you! One rune ink is considered a little merit point! Twenty ice soul and snow inks are regarded as twenty heaven deeds! This merit point can be exchanged into a mysterious secretary. Or maybe I ordered it personally during half of my time!"

"Heavenly meritorious deeds? What is this?"

Fang Yue was a little at a loss, as if he really found the wrong person this time!

This old man is not the gatekeeper of the Black Whale organization!

The Black Whale Organization is just an unremarkable underground fourth-rate organization, how could it be possible for Master Fu Lu of the various ranks to guard the gates!

"You don't even know this? Who recommended you to come to my Tiandao Pavilion?"

The old man finally realized something was wrong.

"No one recommended me to come to Tiandao Pavilion! Isn't this the registration office for joining the Black Whale Organization?"

Fang Yue asked the old man with a look of astonishment.

"Damn black whale, that organization has already been wiped out! This is where my runes are made! I thought you were directed to learn the way of runes from me!"

The old man was speechless.

He really misunderstood.

Fang Yue thought about it: "That's it! Maybe the information in my hand is out of date, and I only met the predecessors! But since we met, I have a destiny with the predecessors! With these twenty days of feats, I want to learn some talismans from my predecessors! "

The guidance of the philosopher level, fools don't learn it!

"You can ask me questions, I can know everything about you in this half-scented time!"

In fact, at the level of the old man, he is already considered a transcendent existence in the Heavenly Dao Pavilion! Don't say it's 20 o'clock heavenly merits, if he is unwilling, even if it is two hundred, two thousand heavenly merits cannot be exchanged for his guidance.

The old man just thought that Fang Yue was a little bit interesting. It was not easy for this kid to formulate such an ice soul rune at such a high price, so he gave him a chance!

"I want to ask the quintessence of the Rune Tao that the predecessors have realized!"

Fang Yue said with a smile, as long as the existence of the ranks of the lords has its own uniqueness in any one.

The old man was taken aback for a moment, and then he laughed: "I didn't expect you to be a greedy little guy! But if you ask me this question, I want to ask you, what is your understanding of runes?"

"Runes are the manifestation of rules, a simplification of formations, and a general trend!"

Fang Yue gave three answers in one breath.

A faint light flickered in the old man's eyes.

He thought that Fang Yue was just a beginner in runes, but after hearing these three answers, he began to feel that this little guy did have some insights in runes.

"Talk about your three sources of understanding!"

The old man asked again.

"Road!"

Fang Yue stretched out a finger and traced it slightly in the void, and the power of the Thunder Avenue in his body shook gently.

In the void, ripples of energy spread out.

These energy ripples gradually transformed into the power of silver thunder!

With a slight move in Fang Yue's hand, the power of thunder gathered again and turned into a word of thunder.

The word thunder is not a rune, but every stroke contains the power of the rules of the road of thunder.

The characters are shocking, making people feel trembling.

It was like thunder breaking through the sky, thunder blasting, people could not help but feel shocked, mind blank!

"Writing runes with the power of rules, this rune is no longer fixed on the strokes of the rune text body! The writing of this rune requires an extremely deep understanding of the corresponding Tao, and the element is the magic. The tip is a pen, the void is paper, and runes are written! These runes are like void creations, which are admirable, but this method is not easy to pass lightly, or most people cannot master it in their lifetime!"

The old man pointed out the advantage of this kind of rune, that is, it is no longer sticking to the fixed strokes, and at the same time, even the pen and ink needed for the traditional runes have been discarded. The runes are outlined, freely and unexpectedly, and they are extremely powerful, weird and changeable.

However, this kind of rune is difficult to pass on because it requires a very high level of understanding of the law.

This kind of rune seems to be a rune, but in fact it is based on the understanding of rules!

"Formation!"

Fang Yue sketched runes again, but this time the runes he sketched were not words.

The pen and ink ignite, delineating thousands of hills and valleys in the void, stretching and undulating like a real dragon.

The runes that Fang Yue outlined this time had a hint of landscape painting.

Fang Yue's last stroke fell, and the world roared.

The Avenue of Heaven and Earth was aroused, and even the whole world resonated with it.

The formation method originated from the study of Feng Shui.

Feng Shui exists in the sun, moon and stars, rivers and mountains!

What Fang Yue drew was not a landscape painting, but a great array of heaven and earth.

But this formation is condensed into a small rune.

This rune is only the size of a thumb, but once it is enlarged, it is a big battle array!

The old man couldn't help but move!

"Runes, formations, I didn't expect that there is something in common between the two! The connection between runes and rules can be understood by 90% of the talisman maker, but it is more or less shallow, more or less! The relationship between this rune and formation is something that few people can understand!"

"Although the relationship between your runes and formations is relatively superficial and not deep enough to understand, it gives me another way to study runes!"

The old man sighed in admiration, he originally wanted to teach Xiaoyue.

I didn't expect it to be educated by others!

Chapter 2220: Tiandao Pavilion

"The trend!"

Fang Yue didn't stop, he showed the third rune he had comprehended.

With the pen and ink falling, the world is in your hands!

With ink rendering, the sun and the moon change.

The wind and clouds in the sky turned into a big sun and a bright moon.

The sun and the moon come out at the same time, and the galaxy is in all directions.

Fang Yue portrayed the big changes, magnificent and thrilling.

The sun rises and the moon sets, and the battle turns to the galaxy.

This is an everlasting law of heaven and earth.

The general trend contained therein symbolizes the change of yin and yang, ancient and no one can stop it!

The old man's look was solemn.

The sun, moon and stars displayed by Fang Yue finally condensed into three different runes.

The three runes are combined into three different powers, and these three powers influence and bless each other, forming an unbreakable general trend.

"The general trend of heaven and earth, the evolution of the rune scrophulariaceae is unpredictable. This has already involved the domain of the origin of heaven and earth!"

The old man whispered silently, his eyes narrowed slightly.

The interpretation of the general trend of the world is still rough.

If it is true that Xing Shen has, then these three runes should have the effect of reopening a world!

But such runes are still strong!

As soon as the three runes come out, there should be no problem with shaking a great saint to death!

The Great Sage is not strong in this city of a thousand towers.

But you must know that these three runes are only at the peak of the leader realm!

"The general trend of the world is irreversible, this is really terrifying!"

"Your three rune ways are all exquisite. If you postpone any of them, you can get supreme good luck!"

The old man said softly.

This is his affirmation of Fang Yue!

Fang Yue's three kinds of rune methods, each of them are at the level of a master, and the three superimposed, not far away, he is still at the level of a master rune.

But the gold content between the master and the master is different!

The gold content of Fang Yue's rune master is higher than the gold content of ordinary beginners!

"The way of runes I walked out of is the way of runes that imitates the deduction of beings! Have you ever wondered why many beings are born and powerful, especially some chaotic gods and demons, ancient beasts, with talents and supernatural powers! All kinds of gifts?"

"I have exhausted my life to study and finally understand that this is the result of runes. Some runes are branded on the soul and become magical powers and faculties of the soul, and some are branded on the flesh and form talents. Supernatural powers or some special gifts! What I am going to study is to study

the runes imprinted on different creatures, and I want to implant some acquired runes into the creatures to create some geniuses!"

The words of the old man made Fang Yue's body tremble.

There was an incredible look in his eyes.

He didn't even think about this path.

But thinking about it now is not incredible.

"Senior don't know what achievements have been made in this regard?"

Fang Yue became humble. Sure enough, this kind of existence at the level of the masters, all capable of changing the destiny of countless races in an era!

Even though this old man is not a strong person in terms of strength, if his research is successful, his imagination and value will definitely not be weaker than that of an ordinary supreme powerhouse, and even his influence in history will be close. A strong man in the heavenly realm.

"There are a total of eight thousand nine hundred and twenty-three of the ethnic groups I studied, and three thousand five hundred and eleven kinds of different physiques! However, the final shaped inscriptions I got were only nine thousand three hundred and twelve, some The rune is imprinted on the soul, and it is impossible to study and strip it away! But the number of runes that can be portrayed is even less, there are only more than 3,000 kinds! There are only 822 runes that are truly harmless and portrayed in the body Eleven kinds!"

With that said, the old man's eyes were a little dim. Although he had researched some results on his own path, he had not yet reached the point where he expected to influence the change of an era!

"Before, I had some insights and gains from your three rune ways, and the most rewarded, I will give you a basic acquired rune for free!

The old man slowly opened his mouth and his expression was extremely solemn.

These runes are all his secrets,

I don't know how many forces want to pry into the mystery, but they are out of it.

And Fang Yue just got an acquired endowment rune with the old man. If this matter is spread, I don't know how many people would envy Fang Yue.

Fang Yue didn't think there was anything in it.

Some things are just a layer of window paper.

Fang Yue is proficient in blood and runes and has amazing talent.

If the two are combined, it is definitely not difficult to extract some acquired runes!

"This is a kind of rune that I have refined called Spirit Fire Rune. If this rune is portrayed in a living being, it can increase the sensitivity of living beings to the fire element, and the speed of gathering the fire

element can be increased by about 30%. The magical power of the fire element that comes out can also be increased by 20%!"

The old man introduced very solemnly that he had consumed a lot of time and energy when studying this spirit fire rune.

Only this kind of spirit fire rune made him stand firm in Tiandao Pavilion.

In the Heavenly Dao Pavilion, I don't know how many practitioners of the fire attribute line begged him to engrave this rune in their bodies!

The old man sketched out the spirit fire rune, and tried his best to explain the uniqueness of this spirit fire rune to Fang Yue!

Hearing this, Fang Yue could not help but nodded again and again, his eyes released a series of brilliant colors.

This old man's rune method is really unique!

Every rune he researched is a powerful lineage.

Even if the spirit fire rune is completely controlled, it can be branded in the body of the creature, and a powerful fire attribute army can be created.

"The transformation of this rune line is less dangerous than the bloodline transformation, and it is faster, but it cannot carry on the bloodline inheritance. After all, these things are acquired, and it is good to use it in my own generation! It is impossible to inherit the bloodline. Into the body of the next generation!"

The old man compares his rune depiction with the research of bloodline experts.

Although the principles of the two are different, in terms of effect, they are absolutely the same in different ways!

Fang Yue nodded slightly, the old man said nothing wrong!

"Actually, I also have a pill that has similar effects to the spirit fire rune!"

Fang Yue took out a fire yuan pill that was originally made with the burning jujube. This pill was recently researched by Fang Yue, and the effect was more stable than the previous pill!

A Fire Element Pill can create a genius with a sixth-grade Yellow Rank talent in terms of fire attributes.

This level of talent is simply out of reach of the ten thousand races, but it is already a small genius among the human races!

The old man was surprised: "Do you also have research on bloodline?"

"Occasionally dabble!"

Fang Yue said modestly.

At the time he was in, the use of the paper in the underworld to transform blood vessels was expressly forbidden.

I just don't know if there is a similar ban in the era of the city of a thousand towers!

"If the bloodline change and rune characterization are superimposed together, I don't know what the effect will be!"

The old man said that he took out a small cage from under his table.

There was a little white mouse in the cage. The little white mouse was obviously a little sluggish. He didn't know what kind of experiments the old man had conducted on him.

"Give me that pill!"

The old man is going to experiment with mice!

Fang Yue was also curious, wondering if this bloodline transformation method and rune depiction could coexist.

If it can coexist, it would be terrible, whether it is rune portraying or bloodline transformation pills have limitations on the promotion of talent.

Once the ceiling is touched, the cost of continuing to improve has to be doubled!

And if the two can be superimposed and complement each other, then the ceiling of this talent can be raised to a level!

Fang Yue handed the Fire Yuan Pill to the old man. The old man turned the fire yuan pill into powder and fed it to the mice.

The mouse swallowed the Fire Yuan Pill into his belly, and the originally sluggish spirit suddenly cheered up!

This little white mouse squeaked as if it had been beaten with blood, and the white fur on his body turned into a fiery red color!

"This guy seems to have really changed!"

Fang Yue observed that this little white mouse got the Fire Yuan Pill, and his bloodline changed extremely quickly.

He has changed from an extremely ordinary white rat to a flame rat with spiritual talent!

"Fire attribute bloodline talent, sixth grade yellow!"

The old man used a special method to measure the bloodline talent of this little white mouse!

Yellow rank 6th rank, this is already a good level of talent!

The white mouse opened his mouth, and could even squirt out illusory Naruto.

Afterwards, the old man took the mouse out of the cage, and carved a fire spirit rune on the mouse's abdomen with precious materials.

The rune was completed, and the mouse's hair was almost dyed with a layer of scarlet flame!

This little white mouse is like a little fierce beast with amazing endowment, and there is a ray of fire flashing all over his body.

"The two are superimposed and do not interfere with each other, and their talent has been upgraded from the sixth yellow rank to the fifth yellow rank!"

The old man's voice is low!

But there was an indescribable joy!

The change of this little white mouse means that his experiment has been successful, although the upper limit of this talent is only raised by a small rank.

But what this experiment represents is that the pill of bloodline transformation can coexist with the talent rune!

"This is an epoch-making experiment! The future may affect the evolution of countless creatures!"

The old man's spirit became excited, and his eyes towards Fang Yue also changed.

Although this is a junior, he is amazingly talented and may be able to help him complete some different experiments.

"I don't know if you are willing to join the Heavenly Dao Pavilion! Start with the most basic level experimenter!"

The old man Fang Yue issued an invitation.

Fang Yue couldn't help but be stunned, and then asked, "I don't know what kind of organization this Tiandao Pavilion is?"

Fang Yue hadn't seen any records related to Tiandao Pavilion in the prior information.

But Fang Yue vaguely felt that he had come into contact with some information about the City of Thousand Towers that other people could not.

The old man thought for a moment, and then said: "I don't know how to introduce it to describe what kind of existence this Tiandao Pavilion is! Tiandao Pavilion is an organization formed by a group of explorers. Many materials and resources are shared, although there is a certain force organization. But it does not aim for any hegemony! The status and authority of the Tiandao Pavilion are different, and the status in the Tiandao Pavilion is also different! The most basic identity in the Tiandao Pavilion is the experimenter, but this belongs to the Tiandao Pavilion. Insider!"
