

God of Life 2231

Chapter 2231: Grab a bunch

But fortunately!

This Void Blade seemed to outsiders to be killed by a meteorite and it has nothing to do with him!

The void creatures did not turn their attention to Fang Yue's body, but they were a little curious as to why such a second class appeared in the group, and the Void Blade at the pinnacle level of the Void Fairyland was killed by a heavy meteorite!

Thousands of kilometers away.

Augusta and Temuda who came in a hurry were stopped!

No, to be precise, it was not a human who stopped them, but a strong man of the Void Clan at the spiritual fairyland level!

At the level of the spiritual fairyland, it is no longer a matter of fighting against each other!

The old monsters of their level have countless ways to save their lives, and all kinds of hole cards are emerging in endlessly!

No one will easily make a move without the certainty of killing the opponent!

But the mouthpiece is indispensable!

"Augusta, this is the territory of our Void Clan, did you come here without telling it to start a complete war with our Void Clan?"

The spirit fairy of the void tribe and Augusta are obviously old acquaintances.

The two powerhouses of the virtual fairyland level who usually fight with the city of a thousand towers are just so few people.

Everyone who comes and goes is familiar with it!

"Rhine, don't talk nonsense! One of my disciples is trapped in the core battlefield! I want to lead people, you agree or disagree!"

Augusta is a research madman, and his IQ in runes is absolutely exaggerated.

But the emotional intelligence is not flattering!

However, as a powerful person at the spiritual fairyland level, speaking with a fist is generally enough, and he won't use too much emotional intelligence when communicating!

"No way!" Augusta's cold attitude made Rhein directly refuse!

If you put Augusta in this way, then he will have no face in the future!

More importantly, inside, there is a general battle between star creatures and void creatures.

If this Augusta were put in, it would be enough to change the outcome of a normal war.

After all, this Augusta is a relatively special powerhouse in the city of a thousand towers.

Generally speaking, he doesn't take part in the war between the unity and the void clan very much, but this does not mean that Augusta is weak and deceptive.

Quite the opposite.

This Augusta can never be regarded as a strong man in the fairyland. If he insists on measuring the combat power of this person, at least five peak spirits will have the hope to compete with Augusta.

Osgusta's combat power is strong, and his runes are better at bombarding indiscriminately.

Eighty years ago, the Void Creature sent a great Luojin Wonderland level powerhouse to hunt down Augusta, but was blown up by Augusta's talisman, and then returned with a feather!

However, the reason why Augusta was able to have such a detached position on the battlefield of the void has not died yet.

Not only because of his strength, but also a very important part of the reason is that Augusta actually rarely participated in the battle between the city of a thousand towers and the void clan. The city of a thousand towers is unwilling to intimidate a powerful researcher, and the void creature does not want to be an enemy of a monster with unlimited firepower!

So the void creatures have not actively attacked Augusta for nearly fifty years!

"Let me in! This guy will pay you back!"

Augusta can't softly ask for help. He is better at threats and transactions!

Augusta took out a warrior of the Void family who had fallen into a semi-conscious state.

This warrior of the Void Clan is the existence of the Void Fairyland level.

"My disciple only has the cultivation base of the leader realm. One virtual fairyland exchanges one leader realm. This is a good deal!"

Augusta said coldly.

Rhine's mouth twitched. Twitch, I had expected this Augusta to come prepared, but he didn't expect this kind of preparation.

"No!" Compared to a warrior at the imaginary fairyland level, the outcome of this war with the Star Clan is more important!

This action may be related to the future development of the void family.

For the future of the void clan, he would rather sacrifice the warrior of the void fairyland.

"One won't work, so how about two?"

Augusta fascinated and dragged out a warrior of the Void Clan of Void Wonderland!

"No way!"

Rhine resolutely refused again!

At the same time, there was a bad feeling in his heart!

How many warriors of the Void Clan have been brought by this stuff.

"What about a bunch?"

Augusta is a little impatient!

He even changed the unit of measurement!

He picked up a bunch of fighters from the Xuxian clan at the virtual fairyland level.

If you take a closer look, there are at least thirty!

Is this guy who captured all the generals in the Void Fairyland of their Void Clan?

In Rhine's heart, there are already 10,000 horses rushing past!

Look, look, are these all human things?

Is it easy for our Void clan to train dozens of powerful people at the virtual fairyland level? This is all caught by you, why are they fighting on the front line!

However, Rhein's attitude is still very determined.

No way, no way!

Even if this Augusta killed these little guys at the virtual fairyland level, he couldn't compromise!

The interests of the ethnic group are above all else!

He is a void creature with faith.

"What about adding this?"

Augusta was silent for a long time, and then he took out a half-dead, true fairyland-level void creature that was beaten up and bruised and swollen.

Rhein was silent, and he suddenly raised his eyes to Augusta.

"How many of us have you captured alive? Let's say that, I think my little heart should be able to bear it!"

The Void Clan at the real fairyland level has already involved their core strength!

In other words, the life and death of a real fairyland-level Void Clan cannot be determined and controlled by him!

"It's really gone this time! Give me a nice message, just do it, not pull it down! If I give these guys to the city of a thousand towers, no matter which side will give me a huge reward! Maybe I should think about it, use so much Is it worth it to exchange for a Fang Yue with the void creatures in the world!"

Augusta really seemed to be thinking.

But Rhein thought for a long time.

"You accompany me into the core of the void battlefield this time, and promise not to interfere with the normal progress of the war for our race! Even what you see, hear, and feel are not allowed to be disclosed to the outside world, do you know? ?"

Rhein had no choice but to compromise.

If a clansman of the real fairyland level died because of this, then he really would have nowhere to cry.

"it is good!"

Augusta readily agreed.

Every moment of delay in this time, Fang Yue's danger increases!

After all, Fang Yue is just a little guy at the master level, and his talent belongs to his talent.

In a place like the core battlefield, if it really hangs, it's nothing new.

"Hostage to me!"

"Fight people with one hand, and hostages with the other!"

The last sense of trust between Augusta and Rhein vanished!

Ever since, the three big brothers walked towards the inside of the core battlefield!

At this moment, Fang Yue was arching his waist, tiptoeing towards a void creature on the fifth floor of the half-dead True Wonderland drawn by a star creature.

Can it be Audi?

Just look at it!

As long as the mending is successful, he will not only be able to harvest all the property of a fifth-layer void creature in the true fairyland, but also be able to sacrifice his corpse and obtain a massive amount of energy!

The five-story void creature sacrifices to the true immortal, the ghost knows what reward the void tower will give him!

near!

Hold your breath!

Make up!

The fifth-layer void creature lying in the big pit on the ground thinking about life suddenly felt a fatal crisis.

On a whim, he looked towards where Fang Yue appeared.

However, it was too late.

Reincarnation!

The heavens and the daos seemed to be worshipping the sword in Fang Yue's hand!

Decapitate!

A beam of silver sword light cut to the earth!

The void creatures on the fifth floor of the true fairyland were unwilling to fall so miserably.

He struggled hard and jumped up, wanting to make the final struggle, but what greeted him was a tower of void slowly shrouded down, imprisoning his body!

Of course, this is not a tower of the void of bird feathers, but a nine-story tower of Fang Yue.

However, in order to avoid being discovered as an outsider, Fang Yue deliberately disguised the nine-story tower as the tower of the void!

This nine-story tower has no other skills, so try a good hand!

Knowing that he was covered, Fang Yue couldn't get out for the time being anyway!

Sure enough, the body of the void creature on the fifth floor of True Wonderland was taken aback. Then, the light of the sword fell, the head flew up, and the guy fell.

Living sacrifice of corpse.

A beam of extremely strong qi and blood penetrated down from the void!

When Fang Yue received the baptism, he did not forget to pick up the relic of the true fairy of the void clan on the ground!

The plan was unexpectedly smooth!

At this moment, both the void creatures and the star creatures on the battlefield were stunned!

The fifth-layer void creature of True Immortal has fallen, this is the strongest person who has died in the battle until now! And the extremely dazzling purple-red light beam made Fang Yue extremely conspicuous on the entire battlefield.

"kill!"

"kill him!"

The void creatures suddenly became the same enemy, with murderous aura!

This result makes them unacceptable for a while!

A compatriot from the fifth floor of True Wonderland just died?

What about the mortal blow?

What if the fish died and the net broke?

The star creatures are overjoyed here! Unexpectedly strong support, unexpectedly awesome!

Although the void creature was seriously injured and dying before he died. But dying and really dead have two meanings.

The dying blow made the stars of the clan have scruples, and they were unwilling to make the final make up.

But unexpectedly, this guy is still dead.

Died in the hands of an unknown little guy!

A look of pain appeared on Fang Yue's face.

So full! So full!

Fang Yue didn't expect that the blessing of energy and blood from killing a fifth-level void creature in the true fairyland was so strong that it was at least equivalent to hunting down five true celestial void creatures on the third-level in the void tower. The sum of rewards!

Fang Yue couldn't withstand the impact of such a powerful energy and blood, and the bottleneck at the Saint Realm level was instantly crushed!

With a bang, Fang Yue's body almost burst!

The breath of a saint filled his body!

Billowing blood, like a river surging, turbulent!

Streaks of chaotic air are floating around his body, melting and melting!

Chapter 2232: Chaos Fire

Fang Yue's eyes instantly became cold, and he felt that death was extremely close to him.

This is not an illusion, but the calamity for him to break through to the Saint Realm level!

This is not the calamity of cultivating all methods, but the test of his profound background, as an independent individual, breaking through to the level of the saint.

The master realm kills the true celestial being, heaven is intolerable!

His flesh-and-blood clone, as the one with the highest combat power among the many clones in the leader realm level, is also the most difficult to break through to the saint realm level!

Fang Yue used this flesh and blood clone as a pathfinder for his deity's promotion to the saint level.

This clone is powerful, and if the deity reaches the peak of the leader realm, its combat power is definitely stronger than the flesh and blood clone.

The catastrophe faced by the deity entering the sanctuary must also be the PLUS version of the clone!

"Heaven's murderous intent, the fight to the stars!"

"The ground is killing intent, the dragon and the snake start!"

"Human fatal intent, turned upside down!"

Fang Yue was in a daze when he heard such a voice.

Fang Yue suddenly understood that what he was going to face this time was not the traditional thunder calamity, but the three calamities of heaven, earth and man!

If it was the thunder tribulation, Fang Yue could delay and wait until later to cross the tribulation, but these three tribulations could not be stopped for a moment!

A flame pierced the sky, locked Fang Yue's direction and fell towards him!

This flame is dark red, and there are wisps of chaotic power on it!

"This is Chaos Fire!"

At this time, Augusta and the others finally arrived late and could not be too late.

The moment they arrived, Fang Yue happened to be facing the legendary chaotic fire! This kind of flame is said to be nothing but burning, and even chaos can be burned into a vacuum! The strong of Daluojin Wonderland will choose to retreat when they meet.

But Fang Yue knew that he had nowhere to go this time!

This chaotic fire has locked him, as long as it doesn't hit him, it will follow like a maggot with bones!

"This is the little guy at the leader level you said?!"

Rhine's complexion was pale, he had just received a voice from his tribe.

This guy just killed a void creature on the fifth floor of True Wonderland and sacrificed it to the Tower of the Void, before he was promoted to the level of the Saint Realm to face the baptism of Heaven!

However, this guy's calamity is too powerful to imagine.

Chaos Fire, the terrifying calamity that the powerhouses of true fairyland would never encounter when they cross the calamity, are just the beginning of this guy's calamity!

Fang Yue greeted him and took the initiative to accept the baptism of Chaos Fire!

It's better to face it than to escape!

This chaotic fire is claimed to be able to burn chaos, but after all, it is also a manifestation of the avenue of fire.

Fang Yue has amazing accomplishments in the Dao of Fire, and maybe he can use the power of Dao to dissolve the power of this chaotic fire!

"Is this Fang Yue's brain convulsed? Ordinary people are afraid to avoid this chaotic fire, he actually took the initiative to meet him!"

Tidam frowned, his eyes were filled with incredible expressions, he always felt that Fang Yue's brain seemed a little abnormal!

"This is the calamity of heaven, the first calamity of the three calamities of heaven, earth and man! This kind of calamity is unavoidable, only active response, if you evade, you will die even worse!"

Aosta is a figure of the rank of philosophers at any rate. He has a wide range of knowledge and can see at a glance what kind of calamity Fang Yue has suffered.

The Three Tribulations of Heaven, Earth and Humans is one of the most terrifying calamities in this world.

This Fang Yue's talent has actually changed, and it has been taboo by the world.

Otherwise, with Fang Yue's cultivation realm at the master level, how could it be possible to encounter this kind of calamity?

"The fire of chaos! The first ray of fire born in the chaos! It burns chaos, and nothing is burning! So it is the fire of chaos!"

Fang Yue enlightened himself in the chaotic fire.

His body beeps and beeps, as if it's a dry fire!

However, Fang Yue had no thoughts or thoughts in his heart, and the weapon had absorbed the pain of physical perception, and concentrated on enlightenment.

His avenue of fire has returned to its original state and its original state!

After a while, a strand of fairy qi flew out of Fang Yue's body, and was instantly burned into a strand of blue smoke by the chaotic fire.

This immortal energy is the true immortal seal planted on him by the Wu family. Although Fang Yue's combat power is getting stronger and stronger, this immortal immortal imprint is always suppressed by Fang Yue, but it is always attached to him. Fang Yue's body is a hidden danger! It will be difficult to clean up in a while!

This chaotic fire did not burn Fang Yue's body, but burned this mark clean!

Fang Yue's body seemed to have been completely integrated with Chaos Fire, and that mark seemed incompatible with Fang Yue, becoming Chaos Fire's first attack target!

"Body and fire melt! Is this Fang Yue an elemental creature? Otherwise, how could he fit with Chaos Fire so well!"

Rhein's body shook slightly, and he showed an incredible expression.

This unscientific!

The Chaos Fire that even Daluo Jinxian avoided for fear did not cause any damage to Fang Yue!

Others are also eye-catching.

Even the void creatures and star creatures that killed you before, both of them seem to have temporarily forgotten their estrangement and turned their eyes to Fang Yue!

This scene is really amazing!

There are people who can not fear the burning of chaos fire!

"This Fang Yue should have a very high understanding of the Flame Avenue, so he can temper his body in the chaotic fire!"

After all, Augusta is a big scientist, a research madman.

He guessed part of the truth!

The higher the comprehension level of this flame avenue, the higher the resistance to the power of flame!

Being able to resist the burning of chaotic fire, Fang Yue has at least understood the Dao of Fire to the seventh level!

"Kill this guy! If this harm is not eliminated, there are endless disasters!"

Rhine's face suddenly became cold.

He suddenly changed his mind!

Kill the true fairy at the level of the master realm!

The saint crossing the robbery draws chaos fire!

Now, he is suspected of comprehending the Dao of Fire to the seventh level.

If Fang Yue didn't die, he would grow up completely, and he would be another powerful enemy of the void creature!

At this moment, Fang Yue had completely ignored the thoughts of outsiders.

If you want to resist Chaos Fire, let alone the seventh floor of the Avenue of Fire, his ninth floor is not very useful.

The fire of chaos focuses on the word chaos. How can it be so easy to deal with the first flame at the birth of chaos?

This chaotic fire can burn the soul, burn out the body, and put great pressure!

If it were not for Fang Yue's deep understanding of the Avenue of Fire, he would have become a pile of ashes now!

But because of this, Fang Yue just barely resisted, and the power of blood in his body was consuming wildly.

"Unless you understand the true meaning of Chaos Fire! Otherwise, I will die this time!"

Fang Yue has given birth to the consciousness of death.

However, the more dangerous Fang Yue was, the calmer Fang Yue's mind became.

"Chaos, flame!"

"Thousands of ways are chaos! Ten thousand ways are first appeared, then they evolve into fire! This chaotic fire is neither flame nor chaos, but the power of the primordial beginning when chaos first opened!"

Suddenly enlightenment emerged in Fang Yue's mind, and his thinking became more and more clear!

Fang Yue also understood this power from the beginning.

When he and Yin Gu Dao first met back then, it was in Taichu Star.

There is still a lot of light from the beginning in his hand!

At this moment, Fang Yue took out a ray of light of the primordial primacy as an introduction to comprehend.

The power of chaos that fell from his body suddenly surging, chaos regenerates all things.

Under the catalysis of the Light of the Beginning, the power of Chaos has new changes!

"Hahaha! That's it! That's it! Dao produces one, one life, two, two produces three, three produces all things! This chaotic fire is a special substance born during the three-life stage of all things! In fact, according to the same principle, it can be deduced from the beginning. The water, the wood of the beginning, the gold of the beginning, etc.!"

"The so-called one of the intangible avenue is the power of chaos! The chaos divides the yin and the yang, and there is turbidity. The clear rises to the sky, and the turbid sinks to the ground! This is a life two! This turbid change has evolved into three talents of heaven, earth and man , This is three! Only then did Chaos Fire, Chaos Water!"

Fang Yue's thoughts were instantly clear.

He only needs to continue to evolve this chaotic fire. This chaotic fire is also the mother of all fires. If it continues to evolve, it can become ten thousand kinds of flames. There are light fires, endless karma fires, purgatory fires, and extinctions. The fire of the world!

These flames are not as terrible as the Chaos Fire. Although each type of flame is also a famous and violent thing, it cannot cause substantial damage to the other side.

Fang Yue's body and time passed, and the flames split.

The chaotic fire instantly turned into ten thousand kinds of flames floating around his body!

Fang Yue inhaled a little, and all the flames were refining in his belly.

Chaos broke.

Fang Yue's perception of the power of chaos is even better!

Even when the chaotic fire dissipated into different flames, Fang Yue's understanding of the Avenue of Flames deepened. He had already made it clear how to cultivate the Avenue of Flames to the tenth floor of consummation.

You only need to comprehend all the power of the flame, and then reverse the deduction and turn it into a chaotic fire to be able to approach or reach the extreme of the flame avenue!

Dispelling the fire of chaos, Fang Yue's natural disaster is over!

The true calamity is not in the magnitude of its momentum, but in whether it is fatal.

This Chaos Fire is an assassin that even Daluo Jinxian can deal with. If this is not enough to test, then there is nothing that can serve as a catastrophe!

After refining the chaotic fire, Fang Yue didn't have the slightest joy, because according to his previous intelligence, the three great catastrophes of heaven, earth and people, often the heavens are only appetizers, and the latter two are the dinner.

"What is the ground?"

Fang Yue frowned and thought.

He waited for a while, but the tribulation of the earth did not arrive.

Is it a misfire?

The qi and blood in Fang Yue's body are surging, and he is making the transition of his life constitution from the level of the leader realm to the level of the saint realm.

This kind of transition involves the transformation of every cell, and there is a trace of pure vitality in these cells silently brewing.

This is a higher level of vitality.

Fang Yue has never seen it!

Even the essence of life doesn't have this kind of vitality to be more pure and rich!

Fang Yue's eyes were like a torch, and his breath grew rapidly at an incredible speed. Every breath of Fang Yue caused the power of the surrounding heaven and earth to surge wildly.

Fang Yue sucked greedily like a huge black hole. Sucking all the energy around.

Chapter 2233: Catastrophe

The azimuth of this black hole continues to expand, and it was only one meter in diameter before, and then the explosive expansion of this black hole reached a diameter of three meters in an instant.

When Fang Yue passed by, there was no blade of grass, energy vacuum, material vacuum, everything fell into a vacuum.

His life is undergoing rapid transformation, because the previous foundation is too strong, so the magnitude of this transformation is amazing!

"This threat, don't need a future! If this guy can transform successfully, it is estimated that he will be able to directly beat the 7th or even the 8th layer of real immortals!"

Tidamu said desperately, he felt that all these years of cultivation had fed the dog.

When someone first entered a saint, he could kill a powerful man on the seventh floor of a true fairy, and he had practiced for thousands of years, and killed a void creature on the second and third floor of a true fairyland, and was seriously injured by the human hammer.

At this moment, Fang Yue has turned into a large black hole with a diameter of 100 meters. This black hole frantically swallows all the surrounding energy to supply Fang Yue's life transformation. Fang Yue realized that this kind of opportunity is rare. The more energy this black hole consumes, he After the advancement, the stronger the strength.

The diameter of this black hole is limited, so he can only increase the range of swallowed items and energy within the diameter range.

Fang Yue glanced at his surroundings and went straight to the magma.

The magma billowing like a river is the legendary magma of hell, which is full of energy and scary with high heat.

The hot magma can distort the surrounding space.

The air evaporates, the material dissipates, and the terrifying magma becomes Fang Yue's support for his ascension realm!

Fang Yue felt that when the black hole dissipated, his cultivation realm might directly rush to the second or even third level of this saint realm, rather than the level of entering the saint realm for the first time!

"Kill! Can't let this guy continue to grow stronger! If you don't kill him now, there will be no chance in the future!"

A void creature on the eighth floor of True Wonderland showed a frightened color.

Once this guy is successfully promoted, they may all have to die!

As he said, his hands were knotted, and complex golden imprints were constantly superimposed.

The void was twisted, and a dark golden golden spear was condensed, and the spear pierced the air, piercing directly towards Fang Yue's brow!

In Fang Yue's eyes, dark red light flickered.

The dark golden spear pierced into the black hole! Fang Yue was about to resist, but when the spear pierced into the black hole, it actually decomposed every inch and returned to pure energy!

"Hahaha! No wonder the calamity of this place is not willing to come for a long time. It turns out that the black hole has the characteristic of devouring everything. No matter what kind of calamity comes, it will be swallowed in one bite!"

Upon seeing this, Fang Yue flew to the void creature with confidence and boldness!

"Little baby! I'm here!"

Can this pure energy be comparable to the void creatures in the real wonderland?

Fang Yue didn't hesitate, he walked straight to the void creature at the real fairyland level.

"escape!"

Seeing Fang Yue's approach, the void creature of the true fairyland level immediately understood what idea this guy was fighting.

Fang Yue, who was in a state of breakthrough, was in a state of invincible terror.

His black hole cannot be broken, and cannot be hardened!

Perhaps the spiritual fairyland or even higher-level powerhouses have a way to deal with this black hole, but they are absolutely unable to fight against it with their current strength!

The void creatures of True Wonderland are quite good at escaping, and their talent in space allows them to travel thousands of kilometers in the blink of an eye!

Fang Yue gave up the idea of hunting down the void creatures.

This black hole is powerful, but it also restricts his actions. The space around him in the black hole is swallowed clean. He cannot communicate with the void and teleport. At the same time, any spells he casts will also be swallowed instantly by a black hole.

Therefore, Fang Yue could only choose some creatures that were slower than himself to swallow, or simply find something immobile.

Fang Yue's gaze soon fell on a huge star essence not far from him.

This piece of star essence is the size of a house.

This was the largest piece of star essence that Fang Yue could see, and the energy and material essence contained in the star essence should not be underestimated.

Although Fang Yue didn't know how long the black hole could last, his intuition told Fang Yue that the time that the black hole could exist must be limited.

Once the black hole disappears, it will be difficult for him to have this kind of opportunity to rapidly increase his strength in a short time!

Today's flesh and blood clone has surpassed the deity in terms of absolute combat power.

Fang Yue approached the piece of star essence without hesitation, wrapped in a black hole, the star essence quickly decomposed at a speed visible to the naked eye, and finally disappeared completely.

The void creatures watched as a star essence they dreamed of was eaten by Fang Yue's black hole, but they couldn't stop it, and they didn't even have the courage to approach Fang Yue. They were heartbroken and powerless!

"Boom!"

After less than a third of the star essence was swallowed.

The black hole around Fang Yue disappeared.

The energy needed for his transformation is completely satisfied, and the meaning of the black hole's existence disappears.

The second floor of the Saint!

This was Fang Yue's cultivation realm after the black hole disappeared.

As for combat power, Fang Yue felt that he should be able to break his wrists with the strong on the eighth floor of True Wonderland.

Of course, this may also be his illusion, because Fang Yue has never competed head-to-head with the powerhouses on the eighth floor of True Wonderland. As for who will win and lose if he does it, it is really hard to say!

The black hole disappeared.

The calamity of the earth followed.

The manifestation of the tribulation of the earth is quite simple.

An earth stone demon slowly appeared from the ground!

There is a daunting breath rippling over the body of this earth stone demon!

The Earth Stone Demon on the fifth floor of True Wonderland, this calamity was obviously prepared according to Fang Yue's strength before he completely transformed into a saint!

If he is completely transformed, this is a stone demon that will make Fang Yue feel painful.

As for now, hey, it's hard to say who wins and loses!

The earth stone demon is an extremely terrifying elemental creature. This kind of creature claims that as long as its feet are connected to the earth, it can have endless power!

Especially on the ground where the power of this star is so strong, this earth stone demon can at least display the power of the sixth or even seventh level of True Wonderland!

"Let's attack together and besiege Fang Yue! If he doesn't die, he will definitely become a confidant of my Void Clan in the future!"

The void creature on the eighth floor of True Wonderland returned, and he continued to encourage everyone to hunt Fang Yue.

"With this earth stone demon to help out, our difficulty in hunting Fang Yue will be reduced by at least 30%!"

The void creatures on the eighth floor of the true fairyland continued to encourage him to not kill Fang Yue.

Fang Yue glanced at him faintly. At the same time, the earth stone demon had already killed Fang Yue.

The Earth Stone Demon had a single attack method, and he instantly appeared behind Fang Yue.

Shrinking the ground into an inch, it is reflected in the body of the earth stone demon to the extreme! He shook his fist with an iron fist, whizzing into the wind, and powerful!

The earth stone demon is said to have been the ruler of the earth.

It was just for unknown reasons that this crowd suddenly disappeared in ancient times.

As for the truth or falsehood of this rumor, Fang Yue doesn't know much about it, but the power of this earth stone demon is indeed fierce!

Its iron fist is opposite to Fang Yue's.

With a bang, Fang Yue's vitality surged and turned into a torrent of rivers!

The shadows of the three true dragons are solid, and the power of the three dragons is enough to kill most true immortals in seconds.

However, this earth stone demon actually only took a half step back, almost equal to Fang Yue's strength!

But Fang Yue was not satisfied with his record.

Power is his strongest place, and he is on par with the stone demon who just fought hard?

"Void Slash!"

A void creature on the fifth floor of True Wonderland suddenly appeared behind Fang Yue, and the void creature had already determined the main target on Fang Yue's body.

This is a young man with great potential, no one can be sure how far he can grow in the future!

If this person is not removed, there will be endless troubles.

I would rather abandon the star creatures temporarily and kill Fang Yue immediately!

The blade light slashed down, and the void shattered.

Void Slash is one of the most powerful Void tricks.

"I'm waiting for you! Do you think this stupid stone demon can really trap me? It just leaves you a glimmer of hope!"

Fang Yue sneered, he had never regarded this earth stone demon as his opponent!

The earth stone demon is not weak, there is nothing wrong with it!

But its attack method is too single, far from the realm of practitioners.

Fang Yue sideways avoided Void Slash.

He turned and killed the void creature that sneaked on the fifth floor of the true wonderland!

Since you can't pick up the leak, just kill the opponent directly!

The Earth Rock Demon took the opportunity to punch Fang Yue's back. There has never been a fair fight in the eyes of the Earth Rock Demon!

"Do not!"

The void creature on the fifth floor of the true fairyland could not achieve a single blow, and was ready to shield it immediately.

At the level of true wonderland, they are more cherished than anyone else!

What's more, the strength of Fang Yue's breath is definitely not something he can rival.

Hard resistance is almost equal to death!

It's just that the void is imprisoned!

This void creature cannot be teleported away.

Void creatures are good at space and heaven, but Fang Yue's understanding of space is beyond the reach of void creatures!

The power of blood runs through the void.

Another glorious fall of a void creature!

Void creatures without teleportation are just a scum in terms of escape!

The fist of the Earth Stone Demon also reached Fang Yue's back at this moment.

A door of the void opened instantly, and the earth stone demon couldn't control his figure and was sucked into it.

"Void Exile!"

Fang Yue used the time and heaven that void creatures are best at.

The earth stone demon was sucked into it, and exiled to an unknown time and space.

It is estimated that this earth stone demon will not be able to return if he does not cultivate to the realm of Daluo Jinxian!

The calamity of the earth was solved once again by Fang Yue, and it was still extremely easy!

The corpse of the void creature on the fifth floor of the True Wonderland was sacrificed by the Void Tower again, and a thick force of qi and blood penetrated the void and fell into Fang Yue's body.

However, at this moment, Fang Yue's ability to absorb energy and blood was not stopped.

Because Augusta had already come to Fang Yue's body, to come forward for him.

Fang Yue's soaring cultivation base is indeed a good thing, but the attention it attracts is also too great, and it is easy to be killed by fire.

"Give me face, how about letting Fang Yue leave?"

Augusta looked at the Rhine, no matter who was in charge of this area, but the Void creatures also adhere to the basic jungle law of the weak and the strong!

As long as Rhine spoke, no one would dare to make things difficult for Fang Yue.

The strong will never allow anyone to disobey!

Chapter 2234: Spoiler

"Okay! Give Augusta this face and let Fang Yue leave!"

Rhein took a deep look at Augusta and Fang Yue.

The current situation is indeed extremely unfavorable for them.

The strength of the star creatures should not be underestimated, this Fang Yue is even more of an embryo! Now, coupled with the unpredictable Augusta, once the three parties join forces,

Void creatures can only sling and fight!

Void creatures are not stupid, they have seen the current situation, it is basically impossible to find Fang Yue for revenge in a short time! Unless they want to face the harsh situation of the city of a thousand towers and the double-sided attack of star creatures.

The void creature unwillingly gave way.

But Fang Yue did not slip away.

Because he felt that the void around him was not peaceful, to be precise, his earth tribulation was not over yet.

"The Earth Rock Demon just now seems to be just the beginning!"

A bitter smile appeared at the corner of Fang Yue's mouth.

He knew that his calamity was not easy to get through.

But I didn't expect it to be so difficult!

Two earth stone demons slowly emerged from the ground.

These two earth stone demons are all super powers on the sixth floor of True Wonderland, and they have the ability to shield void exile.

Don't ask how Fang Yue knew.

When the two earth stone demons just appeared, the space around their bodies was in a state of chaos on the verge of breaking!

"The calamity of this place is really worthy of me! For me, a kind of stone demon was specially designed!"

Fang Yue's temples bounced around.

What he was worried about was not the two earth stone demons, but whether four such guys would jump out after the two guys were killed!

If the stone demon's multiples always grow by geometric multiples, then he will be destroyed sooner or later.

And this stone demon seems to achieve an alternative evolution because of the fall of the compatriots who were killed last time.

If that is the case, Fang Yue has an urge to slip away!

A happy smile finally appeared on Rhein's cold face.

The meaning expressed in his smile is quite simple: look! Even without the forcible intervention of our Void Clan, this Fang Yue estimated that he would not be able to survive this catastrophe!

Two stone monsters flanked from the left and the other, and their movements were so fast that they could not be captured by spiritual thoughts or naked eyes!

Two iron fists have appeared on Fang Yue's side in a blink of an eye!

Fang Yue sighed softly.

"It's not just you who are proficient in summoning in this world!"

Fang Yue also understands the Road of Earth!

And in this respect, his attainments are quite profound!

"Earth Rock Demon!"

Fang Yue raised his hand and also summoned two earth stone monsters. The two earth stone monsters summoned by Fang Yue were almost the same as the two earth stone mills in front of him!

If it were to be changed to another place, even if Fang Yue's soil avenue had a profound cultivation base, he would definitely not be able to summon two earth stone demons at the real fairyland level.

But this is his main battlefield. He has mastered the earth pulse of this planet. He can borrow more power from the earth. With the blessing of this powerful BUFF, Fang Yue has also created two real fairyland-level earths. Stone Demon.

When the stone demon saw the stone demon, his eyes were full of tears.

The two sides immediately fought together and let no one!

The battle between the stone demons is simply a hard hammer, which is full of a violent aesthetic that fists to the flesh!

Fang Yue didn't appreciate this kind of violent aesthetics. He was blessing some strange magic techniques for the earth and stone demons he had summoned.

Stone armor!

It can increase the physical strength of the earth stone demon by 30%, and condense a layer of thick stone armor to make it go farther and farther on the road of the tank!

Light spirits!

Let the body of the earth stone demon be light and get rid of the heavy and clumsy distress!

This kind of different auxiliary spells fell on this earth stone demon. This stone demon turned into a serf to sing in an instant, and its combat power increased by more than 35%.

Fang Yue looked at the trembling mental state of the Earth Rock Demon, and he suddenly smiled like a kind old father.

His purpose is not to use the stone demon summoned by himself to kill the stone demon summoned by this calamity.

This kind of plain consumption has no meaning.

Fang Yue just wanted to use his stone demon to hold the opponent, as long as he would not be beaten to death and he would not be hammered to death.

The old will not go, the new will not come.

If he guessed correctly, as long as the two earth stone demons are not dead, a new group of stone demons should not come in a short time!

As long as the new stone demon does not come.

Fang Yue has nothing to fear!

His plan is to cure the symptoms!

This stone demon summons continuously, even if it is a hard waste, it can consume him alive!

His only way out is not to break the game with brute force, but to find a way to overcome the constant dilemma and difficulties that the stone demon summons!

Fang Yue's thoughts flashed, and he quickly found a way to deal with it.

Only the avenue of earth can restrain the avenue of earth. It is said that after a certain kind of avenue is completed, the avenue can be controlled and the effect of element suppression!

Fang Yue's Road of Earth has reached the ninth level! If he could go further and reach the tenth level of Consummation, it would not be impossible for him to suppress the surrounding earth elements.

After the elements are suppressed, the calamity of the earth will not be able to summon new earth stone demons, and all the dilemmas will be solved!

"Just now, I realized the secret of Chaos Fire in the Calamity of the Sky, and I followed the other. In fact, this Chaos Earth or the Road of Earth can also be calculated in this way! However, if that is the case, it is true. It's too slow! It takes a lot of time to deduct the different forms of the road of soil and then merge them into one! And the thing I lack the most is time!"

Fang Yue understood his situation, so he gradually deduced that his deep thoughts were directly passed by him.

Really waiting for him to show all the manifestations of the Great Road of Earth, I guess he is completely cold!

"Avenue of Earth!"

"Avenue of Earth!"

Fang Yue kept talking as if he was caught in a demon!

At this moment, Fang Yue's eyes lit up, and he suddenly remembered something.

"Yes, that's it!"

Fang Yue took out the star essence he had collected before, and then instantly refined the star essence.

The other water droplets formed by the essence of all the stars floated in front of Fang Yue!

This star is the most essential way to condense the Dadao!

However, in the Dao of Earth that Fang Yue had previously comprehended, there had never been any rules for star condensing!

Now, Fang Yue has seen with his own eyes, thousands of stars are in sight, he feels that the road of soil in this area will naturally have a unique advantage!

Fang Yue suspended the earth-yellow drop of water in the center of his eyebrows, and the ripples of the earth rippled before his eyebrows.

"Just grind the gun, the displeasure is gone, but it's a bit sloppy if you only start to comprehend this road of soil at this time!"

Rhine couldn't help but laughed.

This Fang Yue seems to have really been forced to the end of the road! Otherwise, with his wisdom, he would not have done such a stupid thing! At this time, even if the Great Dao of the Earth is enlightened, what effect can it have?

The golden aura as thick as chopsticks in Fang Yue's body began to burn involuntarily.

Fang Yue feels his soul is surging, and his perception and analysis ability has been improved a hundredfold!

This is the rule reward of the Void Tower!

Fang Yue didn't expect this thing to be used to assist in comprehending the law!

The laws of the earth, which were still somewhat misty and chaotic, instantly became clear in his mind!

"Road! Dao! Dao!"

Fang Yue shouted out three Taoist words one after another!

At the same moment, the void was turbulent, and Fang Yue's insight into the Dao of Earth finally broke through the ninth layer of shackles.

After accumulating thick and thin, Fang Yue's scattered insights are all connected in series at this moment!

He used all his perception of the essence of stars.

The tenth level of law is ten times the power of the ninth level!

However, at the moment the shackles broke open, Fang Yue's tenth-level rule had already been comprehended by nearly 30%!

There is no other reason, the golden breath is too powerful!

At this moment, Fang Yue's mind is so simple for some questions that I don't understand or think through!

Fang Yue's whole body was wrapped in a layer of khaki halo!

His look is solemn and solemn, like an old monk enlightened!

That drop of star essence was quickly consumed, and it was quickly refined by Fang Yue.

While refining the essence of stars, it also represented Fang Yue's understanding of the rules contained therein to the extreme!

Afterwards, Fang Yue took out a high-level earth divine power for enlightenment.

This is the highest-level earth divine power in his hand, and the divine power itself is the embodiment of rules! The rules contained therein are different from the essence of stars!

At this moment, the fighting of the four earth stone demons has reached a white-hot state!

This is a fight at the real fairyland level, the earth shakes and time and space are chaotic.

Fang Yue's summoned two-end earth graphite has the upper hand, but the overall advantage is not big.

"Hehe, this Fang Yue wants to delay the catastrophe of the earth, but where is it so easy?"

A void creature at the pinnacle of the true immortal couldn't help but shoot. He flicked his fingers lightly, and a wisp of wind fell on the earth stone demon summoned by Fang Yue!

The hard skull of that earth stone demon was instantly pierced and burst!

The methods of the true fairy peak are unpredictable and unpredictable!

Fang Yue's face turned dark.

He didn't expect this void creature to dare to make a move at this time!

"Okay, okay, okay! It seems that you Void people never put me in the eyes of this old fellow! But that's right, I am older and my reputation is weak! You are all starting to bully me, this old man, right wrong?"

There was anger in Augusta's eyes.

Tigers don't show off, do they really think they are sick cats?

As one of the big bosses in the city of a thousand towers, Augusta is by no means weak!

It's just that he is infatuated with his research on weekdays, so he doesn't bother to take care of the fights between the races, you die!

But since this void creature has bullied him, then he can't bear it anymore!

The breath of Augusta gradually rose.

Rhine, on the other hand, hated iron and steel, and stared fiercely at the void creature at the peak of the true wonderland who had just shot.

It's really nothing to look for!

Even if they didn't make a move, Fang Yue might not be able to survive this level.

The earth stone demon is endless, and sooner or later it can consume Fang Yue.

Taking 10,000 steps back, even if Fang Yue can survive the Tribulation of the Earth smoothly, isn't there still the Tribulation of the Humans?

According to the urinary **** of the Three Tribulations of Heaven, Earth and Man, this one is better than one!

The calamity of the earth has become such a bird, and the probability that Fang Yue can survive the calamity of the human is basically zero!

Chapter 2235: Avenue is complete

Knowing this, he still added chaos to Fang Yue at this knot of bones. This is not going to be ruined, but playing with fire!

Haven't you heard of Augusta's fame?

Even Da Luo Jinxian had to give him a face.

Are you a little guy at the pinnacle of true wonderland able to withstand this Augusta's pursuit?

Although Rhine was irritated by his own person, the powerhouse at the pinnacle level of this true fairyland was already in the middle and high level among the void creatures! He can die, but he can never die in such a place.

So Rhine wanted the latter to plead for this unaware guy.

"Augusta, I admit that this matter is the impulse and recklessness of our Void people, but impulse can't solve the problem. Even if you kill this guy, Fang Yue's stone demon is already dead. It's better to take revenge than you. How about another way to solve the problem?"

Rhine said in a deep voice.

He stopped in front of Augusta.

Among the void creatures present, he may be able to break the wrist with Augusta!

With a bang.

Fang Yue hammered an earth stone demon!

He swallowed the power of qi and blood, refining it into physical power, and with the gradual passage of time, he has gradually adapted to this evolved body!

Fang Yue's physical strength is advancing by leaps and bounds with the improvement of his cultivation level. Without using any secret blessings, Fang Yue's pure physical strength has reached the power of eight true dragons!

Using the power of eight true dragons to deal with a rock demon on the sixth floor of a true fairyland is a crushing advantage!

A fist and a blow to the sixth floor of the true fairyland had no pressure on him.

The atmosphere, once embarrassing!

The void creature at the pinnacle of the true fairyland held his forehead, seeming to be annoyed by his wrong decision.

I thought that killing an earth stone demon summoned by Fang Yue would cause Fang Yue's pressure to suddenly increase.

As a result, I didn't expect that they all punched it.

The Battle of the Stone Demon has only changed from 2V2 to 1V1!

It's vain to be a villain!

The void creature at the peak of the true fairy had the urge to find a piece of dried tofu and smash it to death.

Seeing Fang Yue unharmed, Augusta also calmed down.

But he would never leave it alone.

The Void family must give him an explanation.

He has already said that if the void creatures are not allowed to interfere with Fang Yue's crossing the robbery, Rhine has also responded.

But these void creatures even dared to make a move. Isn't Augusta shameless for him?

As an existence at the rank of philosophers, Augusta still values his face very seriously!

Rhine let out a sigh of relief.

As long as the matter just now didn't have much influence on the other side, everything was easy to say.

If Fang Yue died or injured as a result, it would be really nonsense!

Isn't this Augusta going to kill him?

"If you do something wrong, you need to pay a price! If your subordinates don't pay their lives, then you have to pay a higher price for compensation!"

Augusta said in a natural way.

If he really makes a move, all the void creatures here will die except Rhein.

If there is the cooperation of celestial creatures, even Rhine may not be able to get out of this core battlefield.

But as a price, he will be included in the list of kills by the void creatures in the future. It is difficult to walk the void freely like here now and collect some raw materials from the laboratory!

"A picture of the avenue drawn by a supremely strong man in my clan who is good at the avenue of soil, I can be the master and let Fang Yue watch an hour of time!

The conditions given by Rhein made Fang Yue unable to refuse, and even Augusta had a feeling of shock.

The road map is to express one's own Tao in a more popular way.

If you can learn from it, maybe you will be able to travel a lot in the law.

The preciousness of the road map is hard to describe in words.

Even if it is just an hour of observation time, it is precious, and it cannot be exchanged with any resources.

"Will you be so kind?"

Augusta looked suspiciously at Rhine, who was a cunning breed among void creatures.

His reputation is not very good, his combat effectiveness is relatively average, but his heart is sinister and he has more tactics!

"Of course it's not for Fang Yue to see for free! We need ten strands of the primordial breath to exchange! Void creatures were born in the void, but if we want to evolve, except for the power of the stars or the flesh and blood of the powerful people of the ten thousand races, the most suitable resource is the Qi of the Beginning! The Qi of the Beginning is the evolution of chaos, representing the

"initial" power. A human race like you who is proficient in research should be able to understand what this initial power represents for me and others! "

Rhine told the truth.

Augusta nodded slightly: "Void creatures are, in a way, the darling of the power of the void. They are indeed advancing rapidly before the real wonderland! But once they reach the level of the true wonderland, all races are equal. The breakthrough is no longer as simple as the accumulation of resources. It requires some special insights and rare resources! The void represents nothing or the end, but the beginning is the beginning! If two opposing forces can merge with each other to consult together, it is indeed Can accomplish some incredible miracles!"

Augusta's voice fell.

Then he looked at Fang Yue.

"Aura of the primordial beginning! If you can exchange an opportunity to enlighten the Dao, even if it is given to you, he will not lose! If that is the case, then I will agree to this deal on behalf of Fang Yue! Give Fang Yue an hour of enlightenment. At the same time, Fang Yue paid ten wisps of primordial energy in exchange!"

Augusta didn't want to be too stiff with the void creatures, the spiritual fairyland did not mean that he could really be unscrupulous.

Fang Yue also understood the whole story of this transaction. He didn't hesitate, but directly surrendered ten ray of primordial energy. Fang Yue's top priority was to understand the road of earth.

The essence of the stars just now, combined with his scattered accumulation before, indeed caused his Great Dao of Earth to explode once.

However, if Fang Yue wants to reach the Consummation Level of the Dao of Earth, he still needs new inspiration.

The Divine Power of the Earth is a good medium, but unfortunately, the rank of the Divine Power of the Earth in Fang Yue's hand is too low, at most it can only increase his perception of the Great Way of Earth by 1%!

The road map is currently Fang Yue's best choice.

A supreme being, it is very possible that the Dao of Earth has understood the level of Consummation.

Even if the opponent didn't reach that level, the stones of other mountains could be used for jade, and Fang Yue could learn a lot from it.

As for the Qi of the Beginning, Fang Yue still has a lot in his hands.

Ten wisps of consumption are completely bearable for him!

Ten wisps of the primordial spirit, in exchange for a chance to comprehend the Dao map, this is nothing but a small broad.

Of course, Fang Yue also guessed some of the thoughts of the void race.

This primordial aura is very important to their clan, especially those who have reached the level of spiritual fairyland like Rhine.

In fact, he has been stuck at this level for a long time!

If there is no opportunity and external force, it would be even more difficult for him to break through.

That's why he used this opportunity to use the opportunity to comprehend the Daotu to give himself a little breakthrough!

Rhein's calculations are actually quite clear.

After all, time is limited for Fang Yue to study the road map once, even if it becomes stronger, it may not be able to become stronger.

He has held this Dao map for a hundred years, and although he has a lot of insights about the Dao of Earth, it is only from the first level to the third level!

An hour was too short, and it was estimated that Fang Yue could not comprehend anything.

Taking a step back ten thousand steps, even if Fang Yue has made a breakthrough to reach a higher level and survived this calamity, this enemy is also the common enemy of the void creatures, but the chance of these ten rays of primordial aura is His personal fate!

All races are selfish.

Even the void creatures!

Fang Yue smiled slightly when he saw this.

He can see through Rhein's mind, but he is too lazy to break it!

A road map was suddenly thrown out of Rhine's hands, and the road map slowly unfolded in the void.

The entire picture roll has a total length of 100 meters!

The above depicts the thousands of years and mountains, the ups and downs!

A road map depicts nine hundred and ninety-nine peaks of various shapes!

Some of these peaks are majestic, some are low, some pierce the sky and rise upward, and some are as inconspicuous as a dirt bag!

In the eyes of ordinary people, this painting is extremely clumsy, but in Fang Yue's eyes, every line in this mountain is a deduction of Taoism!

"It's a pity! This painter is only on the ninth level, and has not reached the level of consummation of the Great Road of Earth! He should have broken through the shackles of the ninth floor, taking the tenth floor out of nearly 50% of the way! But The avenue of soil he comprehended is not the same as the avenue of soil that I have comprehended. The sides are different and have the value of complementing each other and learning from each other!"

Fang Yue watched, the light golden aura in his body glowed!

At this moment, Fang Yue's wisdom soared, and his ability to comprehend that Dao Tu had reached a terrifying level!

This Rhine didn't understand that the slow progress of his understanding of the Dao Map was not because the Dao Map had insufficient levels, but because the Dao Map was too high-level, so that he could not understand the true meaning and connotation of it!

And Fang Yue's understanding of the Dao of Earth was deep enough, and he easily broke through the mystery.

Therefore, Rheinland is far from imagined that Fang Yue's harvest is so great.

Coupled with the bonus of this light golden breath, Fang Yue's wisdom was suddenly opened.

Four cities...

50%...

60%...

Six and a half...

A map of the Great Dao increased Fang Yue's understanding of the Great Dao of Earth by three and a half!

Although Fang Yue still didn't have the tenth floor of the avenue to be complete, Fang Yue was already confident at this moment!

In Fang Yue's eyes, this depiction of the avenue is like a piece of jigsaw puzzle. At the beginning of the puzzle, it was scattered, almost all relied on guessing and groping to piece together, but when the puzzle was pieced together, the remaining content relied on brain supplement. It can also be gradually improved!

For the rest, Fang Yue's own deduction can also roughly deduct one or two!

A wisp of light golden aura in Fang Yue's body has been consumed!

The remaining eight strands became more precious.

But now was not the time to sting, Fang Yue began to burn a faint golden breath again to accelerate his understanding of Taoism.

Seventy percent!

80%!

90%!

Complete!

With the help of the pale golden aura, Fang Yue realized that if Dao had divine help, he seemed to be connected by the origin of this world.

You can figure out many things in one change!

The road of soil is complete!

Chapter 2236: Will of Tao

Dadao will come!

This great will is the most fundamental law that constitutes the heaven and the earth. He has no emotions and is only responsible for operating the various rules between the heaven and the earth.

And the avenue is perfect, the origin blessing!

This is also part of the order of heaven and earth!

The moment the will of the Great Dao came, everyone felt a humble feeling like an ant!

A golden dust was condensed under the will of Dao.

This dust was imprinted in Fang Yue's brows and became a sign of the consummation of Fang Yue's road of earth!

As the golden dust imprinted on the center of his eyebrows, Fang Yue suddenly felt that he had absolute control over the Dao of Earth!

This kind of control is hard to express in words!

But he felt that he wanted to dispel the disaster in this place, it was not difficult to dispel the stone demon in front of him!

"Scatter!"

Fang Yue tried to stretch out a finger.

His finger pointed in the direction of the stone demon.

As Fang Yue's voice fell, the stone demon also disappeared!

At the same moment, Fang Yue saw the rusty regular lines in the void intertwined, crisscrossing each other, as if to summon some new earth stone demons to appear.

"Go away!"

Fang Yue spoke again, a sense of weakness surged in instantly, but at the same time, the other regular lines faded away!

The Tribulation of the Earth, successfully ended!

Dadao will then retreat.

Fang Yue is now stronger than ever before!

"Tao's will! Unexpectedly, this Fang Yue would have reached this point so quickly, on the day of sanctification, when the avenue is consummated! His understanding of Taoism has surpassed most Da Luo Jinxian!"

Augusta had just guessed that Fang Yue might complete the Dao of Earth.

But I didn't expect his movements to be so fast!

"Shifen Dao's Will! Fang Yue, who has completed the Dao, is no weaker than the newcomer in Da Luo Realm! The City of Thousand Towers is destined to add another super strong this time!"

Augusta's words made Rhein's face suddenly hard to look.

His intestines are almost regretful!

Who really knows that Fang Yue is so perverted, just looking at this great road map is to cultivate the great road of soil to the perfect level!

The Tao is perfect!

Fang Yue, who possessed the will of the Great Dao, became more terrifying than before, and in many respects, Fang Yue's abilities were what they could only look up to and never possess now!

"What about human disaster?"

Fang Yue's eyes were like electricity, sweeping down the square.

After the Great Dao of Earth was consummated, Fang Yue obviously had more courage to deal with the three-tiered calamity of Heaven, Earth and Human!

"There is no human disaster! The Tao is perfect, the heaven and the earth bless! Dispel the disaster! The previous disasters of the earth only continued because of inertia, and the subsequent human disasters were dispersed at the moment when the road was completed! "

Augusta looked at Fang Yue with complicated eyes.

Fang Yuedao was fulfilled, there was congratulation in his eyes, but there was also sadness!

"Rhine, if I take Fang Yue away now, you should have no objection!"

Augusta glanced at Rhein indifferently. He had already returned a bunch of void creatures he had captured to Rhein!

Now, Augusta's tone was not begging, but telling.

Rhine shook his head: "Go well, don't send it!"

Fang Yue after Dao Ze Consummation is like a tiger out of the cage, keeping him is tantamount to doing evil for the Void Clan!

The horror of the will of Tao is difficult for ordinary people to understand. According to the truth, this special power generally needs to be above the level of the Daluo Jinxian to be awakened!

Augusta, Tidamu, and Fang Yue followed away.

Subsequently, the core area of this void battlefield once again heard the extremely tragic sound of fighting.

As for the final result of the war, it has nothing to do with the three for the time being!

After half an hour, the three returned to the city of a thousand towers, and Tie Damu's clone returned to the Void Tower to suppress them. Augusta led Fang Yue back to his cabin with a heavy face.

"The Dao is complete, the will of Dao!"

Augusta looked at Fang Yue in a daze, a little surprised.

"A very special power, I don't know how to use this power! Before, I used this power to cut off the law of the tribulation of the earth, causing the total dissipation of the tribulation of the earth! But that power It consumes a lot of money, and nearly 40% of them are lost!"

Fang Yue said his feelings.

Able to tear order and disperse rules.

The so-called will of Tao is powerful and special!

"Tao's will is a very special force, which can be obtained through the achievement of Da Luo, surpassing time and space, or the Tao is perfect and achieves the masters!"

Augusta spoke slowly and introduced.

"The will of the path is perfect, and we call it a will of the path! And the will of the path is ten times stronger than the path, so the will of the path obtained at the time of completion is also ten times that of the path, that is, ten times. To share the will of the Tao, if someone can achieve Consummation in the Way of Heaven, he will be able to obtain a hundred shares of the Will of Tao! Different Taos are fulfilled, and the will of Tao obtained can be superimposed on each other!

"In addition to being consummated by the Tao, in a certain Tao, you can also obtain the will of Tao when you step into the level of the subordinates, and you can obtain ten wills of the Tao when you first enter the level of the subordinates. As the research on the new Tao deepens, this The upper limit of the will of the Tao will slowly increase! For example, I reached the level of the Talismans five thousand years ago, and now I have studied five thousand years, and the will of the Tao has probably reached about 18! But! Neither the Taoism nor Taoism is the main way to obtain the will of Tao! In this world, countless practitioners, how many people are able to achieve Taoism and achieve Consummation? Even though there are many supreme realms. The powerhouse never occupied one of them! The most traditional way to obtain the will of this Dao is to achieve the Great Luo Jin Fairyland!"

"Daluo Jinxian transcends all constraints! Jump out of the Three Realms, no longer in the five elements! Before Daluo Jinxian, all practitioners still have traces to follow, but once they reach the peak of the spiritual fairyland, they need to cast their own way! Different! People who follow a different path can only learn from it, but they cannot be imitated! Step out in one step, and you will become a big Luo, an infinite sky, free and easy. At the moment when the big Luo Jinxian is achieved, the will of the great will also come once and give five This willpower is the blessing of Da Luo Jinxian! Da Luo's nine layers, each

level up, this Dao will add a share, your current level is about the same weight as the Da Luo Jinxian's sixth level strong Dao will!"

Augusta explained the source of this will for Fang Yue in detail.

Fang Yue couldn't help nodding, he could feel the depth and rareness of the will of this Dao.

"This Dao's will is ever-changing and has infinite ways of operation! The simplest of these is to attach to your physical body and use it for reinforcement! Dao's will is possessed by your body, spells, and various magical techniques. The power of all skyrocketed ten times! But a will of Tao can only last for about ten breaths! Ten will of Tao can only last for fifty breaths! Once this will of Tao is consumed, it is normal The means cannot be restored. Only after experiencing the rising and falling of the sun can the will of the Tao be naturally restored! In addition, the will of the Tao can also break the order, dispel the rules, and just run when you crack the calamity of the earth. This is the method! Dispelling the rules, the will of the Tao consumed is more intense, because you are the road of soil consummation, so when the rules of the road of soil are dispelling, the will of the Tao consumed is very much in the normal state. One! Otherwise, even if all the will of the Tao has been dissipated just now, it may not be able to successfully crack the calamity of the land!"

Augusta has a good understanding of the will of Tao, after all, he is also the master of the will of Tao, which is very few under the great Luo Jinxian.

"How to use the will of Tao, you have to carefully explore in accordance with your own specific situation. I have told you too much, but it will affect your understanding of this power. But there is one sentence I have to say, this The will of the Tao is extremely mysterious. The closer the practice is to the later stage, the stronger and weaker the combat power depends on the expression of the will of the Tao! If you do not use the will of the Tao, you will have already cultivated the Tao of the Earth to the level of consummation. It is comparable to the ordinary nine-level creatures of the true immortal! But once you display the will of the Tao, I am afraid that you can challenge the power of the spiritual fairyland level! Of course, the will of the Tao is only suitable for outbreaks, and cannot be a conventional means of attack! "

Augusta spoke highly of Fang Yue's current level of combat power.

As soon as Fang Yue stepped into the level of the Saint Realm, his combat power increased by leaps and bounds!

Fang Yueqian smiled peacefully, not too arrogant, because this experience in the void battlefield let Fang Yue know that there is a sky outside the sky, there are outsiders, and his strength is still very weak.

"There is one thing, I don't know whether I should tell you or not!"

Augusta hesitated for a long time, then suddenly spoke, the other side Yue said very solemnly.

Augusta's solemn attitude almost frightened Fang Yue.

In Fang Yue's eyes, this Augusta is always a researcher who is indifferent to everything. He can ignore even the grievances between the city of a thousand towers and the void clan. What will make him so solemn?

"Senior, please speak!"

Fang Yue also looked serious.

"Do you know my true identity?"

Augusta asked seriously.

"Humans? A strongman of the ranks of Fudao? A big-time figure in the Heavenly Dao Pavilion...Well, you don't come from outside the city of a thousand towers too!"

Before Fang Yue finally spoke, this Augusta's body had already revealed a trace of the unique temperament of the underworld.

That is the unique aura of the creatures of this civilization era, creatures of other civilization eras can't pretend to be at all!

"Yes! I am also the person sent by the underworld to sneak into the city of a thousand towers, but I am not an undercover agent, but in name, the reinforcements sent by the people of the underworld to the city of a thousand towers! This time the city of a thousand towers will not be repeated Reincarnation, the creatures in it can also get out of it and enter the underworld! The human race in the city of a thousand towers also hopes to have the upper hand in the battle between the two powers, so they will leave me in the city of a thousand towers and pretend to be a researcher! "

Augusta's words made Fang Yue suddenly realize.

He finally understood why he was so lucky, and he was absorbed into the Heavenly Dao Pavilion when he first arrived in the city of a thousand towers.

It turned out that everything was not an accident, but a deliberate arrangement by Augusta.

Chapter 2237: Tauren asks for help

"Your teacher Ruyizi and I are good friends! Because we are both people at the level of Zhuzi, our relationship is also exceptionally strong! Because I sensed a trace of Ruyizi in your breath, I introduced you to In my cabin! I just didn't expect Ruyizi's apprentice to have such talent and attainments in runes!"

After Augusta revealed his identity, his attitude became more and more kind.

Fang Yue was stunned. It turned out that there was still this relationship between him and Augusta.

"But, you seem to have a lot of pasts in this city of a thousand towers, and these pasts shouldn't be disguised too!"

Fang Yue asked Augusta tentatively.

Augusta chuckled and said, "All of this is naturally true! Who told you that I am from this civilized age? Your teacher has gone through several civilized ages, isn't it possible for me? In terms of spiritual fairyland, it is difficult for practitioners to survive the collapse of the civilization era, but how many

simple characters can become philosophers? Other things are hard to say, there are still some means to save lives!"

Augusta straightened his back, his eyes gleamed faintly.

At this moment, Augusta is not like a scientific researcher, but a peerless hero and overlord!

"My lord is wise!"

Fang Yue said flatly.

Dao Zhi's Will can be on the same level as Da Luo Jinxian, if this Augusta is stronger in other areas, combined with the Talisman Art, his combat power level is afraid that he is at the senior Luo Jinxian level.

"In the last era of civilization, I was walking in this city of a thousand towers, and in this era of civilization, I just joined the progress of the last era of civilization, impersonating myself, this is not difficult!"

Augusta's smile was brilliant, and there was a bit of pride in it.

Fang Yue showed a dull expression.

Then he secretly said in his heart that he did not expect that this simple and simple scientific researcher turned out to be a deeply hidden old man.

Fortunately, this guy is his own.

"I wonder if Senior Augusta can get me some trial tokens?"

Fang Yue rubbed his hands, and if he could get the trial token through Augusta, then the following things would be easy!

"Token? No! That thing is only available for the large and small indigenous forces in the city of a thousand towers! Although I have a chance to get it, I always feel that this is a test for you juniors, and there is no need for us to do it for you!"

Augusta shook his head slightly, and Fang Yue's face showed a lost expression.

"However, it shouldn't be difficult to get a trial token based on your ability! This is when you try in the Void Tower. The Void Tower rewards you with the rewards of your own forces. I will also give it to you. you!"

Augusta produced ten big snakeskin bags, which contained different levels of medicine.

If these medicines are released to the outside world, I am afraid it will cause a shocking wave!

Fortunately, the low-level pill, but there are some pills that can be combined to be comparable to the real immortal level.

This kind of pill, even the strong in the real fairyland will be jealous, and the immortal will be moved by it!

"Thank you for keeping it!"

Fang Yue was a little uninterested. Although the value of these pills was not low, Fang Yue himself was an alchemist.

If he wanted it, as long as the materials were sufficient, he could easily refine the precious medicine below the real fairyland!

"Also, the Void Tower that you entered with the token of the Heavenly Dao Pavilion! The Heavenly Dao Pavilion is the number one power in the human race in the city of a thousand towers. As long as you become a member of the Heavenly Dao Pavilion and kill the Void Clan, you can get the corresponding Heavenly merits! The token on your body has recorded your heavenly deeds of killing the void beast. I just looked at it and it was probably 358 million worth of merits! These merits can be exchanged for a large number of secrets in the Heavenly Dao Pavilion. Technical knowledge is even a resource that has never been produced in this civilization era! You must grasp these feats and don't waste it!"

Augusta warned carefully.

Fang Yue couldn't help being taken aback.

"More than 300 million meritorious deeds, is there such a good thing?"

Fang Yue's divine consciousness fell into the token of his Heavenly Dao Pavilion, and as expected, he had more than 358 million merits on his merit book! More than 8,000 redemption catalogs dazzled him!

Among them, one of the exchange items is trial tokens.

The inventory of this trial token is five, and the corresponding merit is 100 million merits!

"Really expensive!"

Fang Yue chuckled his mouth, he didn't change it impulsively, but continued to watch the exchange list.

He is weighing whether it is worth using 100 million meritorious service to exchange for a trial token!

"A war puppet who has just entered the saint level can be exchanged for the merits of the Heavenly Dao at only 20 points! A little merits of the Heavenly Dao plus 30 low-grade original crystals can be exchanged for ten parts of the raw materials of the Holy Yuan Dan!"

Fang Yue discovered that this heavenly meritorious service is so precious, if it is used to exchange trial tokens, it seems a bit unworthy!

"Why? Not willing?"

Augusta looked at Fang Yue jokingly.

"There are indeed a lot of trial tokens in the Tiandao Pavilion, but unfortunately, the exchange price is too high, and it is vaguely not worth it! If you want to get the trial token, you can try some other ways! From the Tiandao Pavilion Exchange may not be the best choice!"

"Actually, that ancient road trial is not necessarily a good thing! Although there are many treasures in it, it is also extremely dangerous! Especially the human race and the ten thousand races have deep enmity. If your talent is too high, some of the ten thousand races Old Antique will take the risk and kill you!"

Augusta slowly said: "This city of a thousand towers actually has many opportunities. For example, your trial in the Void Tower is a rare opportunity. If it weren't for the help of the Void Tower, you I am afraid it will take some time for the clone to break through to the level of the Saint Realm! For another example, if you follow me here for a period of time to learn the Tao of Talisman, the opportunity you get may not be as good as the treasure on the ancient road!"

Fang Yue heard this and thought deeply.

In fact, his obsession with Gu Lu is not strong.

As a result, this ancient road is not an entrance, even if there is no trial token, they can still enter the ancient road through the entrance of Yongfeng Town. Although the road is dangerous, as long as the three of them grow up for a period of time, the ancient road will not necessarily become a dead end! More importantly, there are only three of them walking on that road, and the harvest will definitely be more than walking the ancient road of ten thousand races!

Secondly, Fang Yue has a vague concept about what can be gained in the ancient road, everyone agrees, but it may not be his chance! This Augusta is right. The opportunity for this city of a thousand towers is more than trial tokens. If he can follow a master of the ranks to learn the way of runes, even if it is only a little bit broadcast, he will get the opportunity. Not smaller than a trial token!

As a result, Fang Yue's obsession with the ancient road is much lighter. If this trial token can be obtained, it is gratifying, if not, he will find another way to enter the ancient road!

"Thank you senior for the point, junior is enlightened!"

Fang Yue clasped his fists and said respectfully.

Augusta nodded slightly, then stopped talking.

"If you put out the obsession in your heart, maybe there will be greater good fortune! The things of life are good for people! Many things cannot be forced, and no one knows where their real opportunities are!"

Augusta sighed slightly.

Fang Yue began to learn this rune from Augusta at ease.

Time passed, and a month has passed in a blink of an eye. Under Augusta's concentrated guidance, Fang Yue's attainments in rune-by-stroke have advanced by leaps and bounds, reaching the level of a new master!

There seems to be a small gap between the peak of this master and the new master.

But one step away is sometimes a world of difference!

If Fang Yue didn't have Augusta's guidance, it would take at least a hundred years to fumble and step into the rank of Grand Master Rune!

On this day, Fang Yue was studying the bloodline characteristics of the Dark Demons in the cabin in Augusta, and extracting runes from it.

Boom! Boom! Boom!

There was a rapid knock on the door.

Before Fang Yue went to open the door, the wooden door had already been violently pushed open.

With a bang, the wooden door burst into pieces!

This person does not understand rune methods! He touched the wooden door mechanism. Although the wooden door was not powerful enough to explode, the halo fell down and encircled the body of the visitor, making it impossible to move.

"Void army is coming, please help Master Augusta!"

This halo encircled a general of the ox human race. He was wearing a heavy armor, and his armor was stained with blood. His bull's eyes opened in anger, scanning the surroundings.

"Let him in!"

Augusta's voice came from the room, and there was a bit of majesty in his voice.

Fang Yue raised his hand and shattered the golden energy halo.

The tauren got out of trouble, took heavy steps, took two steps, and then knelt down in front of Augusta with a puff.

"Lord Augusta, please take action to save the life of our soldiers!"

The tauren banged his head three times, and then pressed a head on the floor and couldn't get up.

This tauren clan is notoriously real, and this oxen warrior is able to do this, it is estimated that it is really in a life and death crisis!

"What's the situation? Why do I feel that this city of a thousand towers is so peaceful, and there is no fierce battle happening?"

Fang Yue showed a puzzled expression.

Could his perception be wrong?

"The city of a thousand towers has five floors! We live in the innermost layer, and there are four floors outside, responsible for defending against void creatures! This tauren clan is responsible for the defense of the outermost layer of the city of thousand towers!"

Augusta said slowly: "You idiot, the defense on the periphery of the city of a thousand towers is in a hurry. Why don't you go to the city lord's mansion to find reinforcements, come to me? Power, the

second has no friendship with the Void Clan, even if you kneel to death here, I can't help you withdraw from the enemy!"

The tauren got up and said helplessly: "My lord, don't make fun of us! No one in this city of a thousand towers knows the supernatural powers of adults. All you need is a piece of talisman to stick it down, and you will be able to kill the Void Clan's thousands of troops! !! There is no other way before I ask the adults for help!"

The face of the tauren is sad, it seems that he has really come to an end!

Fang Yue looked at Augusta, waiting for Augusta's choice!

Augusta can help with this kind of favor, but he can also choose not to be busy!

This group is love, but not helping is also a duty!

Chapter 2238: Augusta's request

Augusta did not play any important role in the city of a thousand towers, did not get the benefits of the city of a thousand towers, he was not very busy to help, it was reasonable, no one would point his nose to curse him afterwards.

"Please come back! Everyone in this city of a thousand towers has the responsibility of everyone! Your duty is to protect the outermost periphery of the city of a thousand towers from being captured by the void creatures, and my duty is to create more talismans Supply to the front line! On weekdays, I have fulfilled my obligation. Every year, I will provide you Tauren tribe with thousands of Great Sage-level talisman, 200 Xuxian-level talisman, and eight True-Xian-level talisman! My obligation has been fulfilled. As for the extra supply, I can't give you! The Void City has the rules of the Void City, and I also have my principles! If I give this talisman to you, what will the other defenders think? Is it an imbalance in the heart, or Why don't you ask for runes from me?"

Augusta spoke clearly and plainly.

Rules are restraints, but from a certain perspective, is this not a kind of balance and protection?

Fang Yue can understand Augusta's considerations and difficulties.

This opening cannot be opened. Once opened, Augusta's transcendent status in this void city will be broken.

Although the tauren generals seemed to understand but not understand.

But in the end he was downcast and ready to leave!

Anyway, this Augusta Rory talked a lot, but in the end it was just a word, this talisman will not be given to them!

A coquettish purple flashed in the tauren's eyes.

Then he left Augusta's cabin in two steps.

"Hahaha! Since you officials of the city of a thousand towers don't give us the lower-level tauren a way out! Then let's go the other way!"

The tauren suddenly looked up to the sky and roared, and his roar pierced the wind and clouds and spread thousands of miles.

"not good!"

Fang Yue realized that there was something wrong, he reached out and tried to capture the tauren back, but the tauren's body had burst like a bomb, and the flesh and blood filled the sky and covered the earth!

"I was overcast!"

Fang Yue's expression was gloomy.

As a standard Xiaoyin ratio, he certainly knew the consequences after the tauren blew himself up.

The interior of this city of a thousand towers is essentially racially lined with different factions. Where there are people, there are rivers and lakes, and where there are races, the conflicts are even greater.

In the city of a thousand towers, the four major groups of gods, demons, dragons, and humans dominate the will of the entire city!

The power of the four major ethnic groups in the city of a thousand towers can basically be said to be divided into courts, and no one is worthless.

There are hundreds of other ethnic groups, large and small, such as the Dark Demons, Giants, and Tauren tribes. They are all large clans with a large population. However, because there are not many strong people in their tribes, they are often sent to relatives. Hard job.

The honest tauren was placed in the most dangerous place—the outermost periphery of the city of a thousand towers!

The tauren are extremely loyal guards on the outer periphery of the city of a thousand towers. They work tirelessly day and night to give their lives for the safety of the city of a thousand towers!

However, now that such a diligent tauren is facing a crisis in the outer city, and the people in the inner city are reluctant to help and help themselves, this is definitely not good news!

It will cause turmoil to the military spirit of the entire city of a thousand towers, and the ethnic conflicts that are originally undercurrents may become a stormy sea! Especially this incident may have a greater impact on the tauren clan!

This ethnic group was originally an angry youth with a muscle, and the people died because of this. They must not hate Augusta!

The more Fang Yue thinks about it, the more terrifying!

This planner only paid a very small price to cause huge turbulence in the entire city of a thousand towers!

Augusta's eyes narrowed slightly.

He slowly walked out of the wooden house!

He is an old fried dough stick who has lived for several civilized eras!

He is also very experienced in dealing with this situation!

Although he was a little angry, he was calculated by someone, but the current situation makes him have to come forward to explain, otherwise, it will cause the internal turbulence of this city of a thousand towers, and he is a sinner forever!

"I am very guilty and surprised for the death of this tauren! The tauren clan is the most loyal guardian of my city of a thousand towers, and at the same time their clan is also the most steadfast alliance of our human race! Although I am defending the rules, so I refuse This tauren friend's begging, but his blood also awakened the guilt and conscience in my heart! So I decided to punish myself, exile the void, behead the three true fairyland-level void creatures, and then use their heads and The blood comes to worship this brave warrior of the bull head clan!"

Augusta's voice spread throughout the city of a thousand towers.

His voice is spreading throughout this city!

Including the tauren stationed in the outermost layer is also clearly audible!

Originally, the resentment and anger that had just been born in their hearts, now they are gradually dissipating!

This is where the upright tauren is so foolish. Their anger comes quickly and goes quickly!

Fang Yue looked at Augusta, and an inexplicable respect came into his heart!

This Augusta is a good example for him, especially in response to emergencies, he is definitely out of reach.

The decision was made in just a moment.

Apologize to the tauren with a seemingly serious self-punishment.

This kind of thing is not reasonable. If the Augusta low EQ and Tauren clan insisted that he rejected the Tauren's request because of defending the rules, then the Tauren would be able to let Augusta Know what it means to be rage and madness!

But Augusta chose to confess his guilt and self-punish.

A strong man at the spiritual fairyland level was willing to exile himself because of the death of a tauren with only a sage level. He was determined to kill three true fairyland-level void creatures to bury this tauren. This is already a kind of Great courtesy.

In the city of a thousand towers with distinct classes of strength, this dead tauren should also feel a kind of respect that is worthy of glory under Jiuquan!

This way of handling makes the conflicts between the ethnic groups that were originally undercurrent turbulent instantly disappear, and it can even make the tauren feel the respect of the human race, turn fighting into jade, and make the relationship between the two races more friendly!

"This is also changing from light to dark! Once Augusta exiles himself, he enters the void, then no one can grasp his whereabouts! Whether he is in the city of a thousand towers or in the void No one knows!"

"Such a strategy of killing two birds with one stone was made in a short period of time, but this Augusta is also a dragon and a phoenix!"

Fang Yue said to himself.

During the contact with Augusta, he learned a lot, not only the technique of the rune line, but more importantly the way to solve the problem.

"Master Augusta doesn't need to be like this! My clan was impulsive and decided that it had nothing to do with Master Augusta! If Master Augusta punishes himself for this, it is the sin of my bull head clan!"

An old man of the Bull Head clan at the pinnacle of a true fairyland stepped through the void, and he personally came to discourage Augusta from self-exile! The tauren people are upright by nature, and Augusta's handling of the problem has made them grateful!

"The human race and the tauren have been in good relationship for generations. My personal reasons have affected the relationship between the two races. This is my Augusta's sin! This time I self-exiled, first, to redeem my sins and make me feel The feeling of guilt has been reduced. Secondly, it is also to show an attitude that the relationship between the human race and the allies does not distinguish between high or low, regardless of high or low, there is no sense of difference!"

Augusta's voice is deep, giving people a sense of promise.

What he said, the allies of the human race in the city of a thousand towers all felt warm in their hearts. It was originally a scandal, but it was easily resolved by Augusta's tactics, and even had a taste of buying people's hearts.

"However, this talisman matter is related to the rules of the city of a thousand towers. As a high-level human being, I cannot easily violate the rules! But in this world, everything is flexible! I cannot provide you with runes, but I have one The newly-acquired assistants are also proficient in the talisman, but they can go to the outermost area to draw the talisman for the tauren clan to help you through the difficulties!"

Now, anyone with a discerning eye can see that the tauren blew up this time because someone was deliberately framing Augusta, splitting the relationship between the human race and the tauren family, but he did not expect that Augusta was so generous, not only Self-surrendering status comes from the punishment, and at the critical moment, he helps the tauren people find a way to overcome the difficulties!

The tauren people are even more guilty and grateful!

Fang Yue was stunned.

Augusta's assistant?

Isn't this me?

This big guy sold me in a blink of an eye. Is this right?

Augusta patted Fang Yue's shoulder lightly and said, "The materials you will use to draw the talisman for the tauren in the future can be sold to you at a 30% discount in the Tiandao Pavilion! The normal market price will measure your merits! Consumables such as formations and medicinal materials can also be sold at 10% off according to the state of wartime. Of course, how you plan to use these things is your own business!"

On the bright side, Augusta is using preferential treatment to appease Fang Yue.

But in secret, Augusta was a voice transmission: "This tauren is a big clan, and the trial tokens in their hands are at least two digits! As long as they can have a good relationship with this clan, this trial token should not be questioned! This time the matter is tricky, maybe someone is targeting me, people or even the city of a thousand towers. You go to the tauren clan to find out the reason, and according to the development of the matter, I will help you. Please merit! You are in the light, I am in the dark, don't worry about security issues!"

This is Augusta's real purpose for arranging Fang Yue to enter the Tauren clan.

Augusta is scheming, there is no reason to passively defend and not attack.

However, if he personally enters the tauren clan on the bright side, the goal is too obvious. Although he is a researcher, he is also a strong man in the fairyland after all, and it is easy to be jealous and guarded.

And Fang Yue is different. Even if he is promoted to the level of Saint Realm, he is still just an inconspicuous ant. As for Fang Yue's actions in the Void Tower and Void Battlefield, Tiedamu will not spread. .

As for the Void Clan, it feels even more embarrassing, and even this Rhine is suspected of being an enemy, so the Void Clan's parties will not spread it out, and everything seems to have never happened.

"it is good!"

Fang Yue agreed to Augusta's request.

But Fang Yue had other plans. If it is only to find out the hidden behind-the-scenes hand, Fang Yue does not need to go to the Bull Head clan in person. However, after Fang Yue got the inspiration from Augusta, he wanted to do something he imagined. experiment.

Chapter 2239: Evolutionary path

"He? Okay?"

The old man of the tauren clan glanced at Fang Yue.

Although researchers are generally weak, the realm of cultivation is also the ceiling of researchers' achievements.

Research that is too advanced and inferior is generally difficult for researchers to do.

The rune requirements are even more demanding!

Rune masters at the saint level are generally worthy of being able to produce runes at the great saint level!

If it is just runes at that level, it will not help them much!

"For the time being, there is no other person around me who can replace me to go to the tauren clan! And don't underestimate this little brother Fang Yue, he is already a rune master at a young age! Although he is just a newcomer, But if you go all out, it will be no problem to portray some Fuluos at the virtual fairyland level!"

As a human spirit, Augusta immediately noticed the contempt and distrust in the eyes of the old man.

However, he will not expose Fang Yue's hole cards too much, as long as he can be accepted by the tauren clan. If Fang Yue is too conspicuous, it is likely to become a new living target!

"Talisman of the virtual fairyland level! Okay! Then ask this little friend to go to the tauren clan together!"

Although it is somewhat unsatisfactory, it is better than nothing!

A person who can refine the level of the virtual fairyland talisman may have a greater role in battle than a strong person at the peak of the virtual fairyland!

Fang Yue and Augusta separated on the face of it, and Augusta packed up to prepare to go into the void, self-exile, and kill the true immortals of the void clan as a atonement.

And Fang Yue went to the outermost layer of the city of a thousand towers to help the Tauren clan guard the checkpoint!

Under the leadership of the old man of the tauren family, Fang Yue came to the outermost area of the city of a thousand towers. This is a ring-shaped city, in which there are also merchants doing business, warriors defending the city, and even different ethnic groups. Trade is as prosperous as the core of the city of a thousand towers!

The periphery of the city of a thousand towers has the advantage of the periphery. The periphery is bordered by the void. Some tribes in the void can trade with the residents of the city of a thousand towers. The clan of stars and chaotic creatures often trade here with the ten thousand races. , And sometimes even some desperate merchants trade with the Void Clan and exchange what is needed. These are things that the City of Thousand Towers has one eye open and one eye closed.

This fight, kill, kill!

After all this year after year, although the forces of both sides have taken over the **** feud, they have never seen who can destroy who in the end!

Therefore, as far as the senior management is concerned, everyone's heart is numb, and it is better to do a small business occasionally, which is good for everyone!

These do not involve issues of principle, and in the end they become a tacit understanding that cannot be put on the table!

Fang Yue was arranged by the tauren in an independent tent in the barracks. Every day someone sent a steady stream of materials according to Fang Yue's request. Of course, these materials were all purchased by Fang Yue himself from Tiandao Pavilion. The tauren people themselves are suffering, haha, they don't have so many messy things to supply Fang Yue!

Fang Yue's goal was not high. He produced 20 saint-level talisman and five great saint-level talisman every day, and provided a virtual fairy-level talisman in three days!

That's right, he is indeed able to make a rune of the virtual fairyland level, but if it is drawn too quickly, it is easy to cause suspicion.

After all, he is only a cultivator at the level of a saint. This level of identity is a protection, but it is also a constraint!

Because of Augusta's endorsement, it is normal for him to be able to refine the talisman at the virtual fairyland level. However, after all, his realm status, the efficiency of the refining of the talisman at the high level is relatively low, which is reasonable. in.

The tauren clan are generally satisfied with Fang Yue's efficiency in refining runes!

It's just that they don't know that Fang Yue actually only needs less than half an hour to refine these talismans every day!

Fang Yue's real energy is used to study the bloodline.

In fact, this Augusta was born in the way of blood. Although he does not admit it, his rune skills are basically aimed at blood and talent.

This gave Fang Yue a lot of inspiration.

The effect of this transformation is fast, and the cost is small, and it is not easy to be noticed! With the pill that he refines, two-pronged approach will make the effect even more obvious!

Fang Yue's short-term goal is to fully reflect the effects of this bloodline transformation.

Is Fang Yue here alone this time?

The answer is no!

Before coming to the Niutou clan, Fang Yue directly spent 3,000 contribution points to purchase 31 slaves.

These thirty-one slaves are all of human blood. Thirty of them are stuck in the realm of the peak of the saint, and it is difficult to enter. Another is the second level of the cultivation realm of the Great Sacred Realm, which is also stuck. The bottleneck has not been improved for hundreds of years!

Fang Yue brought them into the Bull Head Clan and was responsible for protecting his own safety.

In Fang Yue's words, this place is close to the border and very dangerous. So I need to dispatch some people to protect myself!

At this point, the Tauren clan did not object at all.

As a result, the strongest of these 31 human races is only the level of the Great Sacred Realm, which can be wiped out with a backhand for them, and they are not afraid that they will make some waves and make some moths.

Secondly, Fang Yue's worries are actually in common sense.

This Fang Yue is a researcher and Master Fu Lu. Such people are generally weak and not good at fighting.

Among the talisman maker, existence like Augusta is just an example.

If it weren't for this, this human race would have been too strong for a long time!

"This city of a thousand towers inherits the orthodoxy of the last civilization era, and it continues everything from that civilization era! In the last civilization era, the human race was just an ordinary member of the ten thousand races, and there was no such deep hatred between the two parties! Moreover, in the last civilized era, the art of bloodline does not seem to be a prohibited method! The methods of studying and using bloodline are all fair and honest! So I can carry out bloodline research and bloodline modification here! As for these thirty-one Slaves are my first experiment!"

Fang Yue's safety needs these guys to protect?

joke!

If the will of Dao in the body is activated, Fang Yue can even challenge the existence of the strong in the spirit fairyland!

The greatest significance of the existence of these slaves is to allow Fang Yue to conduct bloodline research.

The biggest source of the weakness of the human race lies in the humbleness of its own blood!

Most human races have only the second-grade yellow rank in their bloodlines, and some ancient families will have more powerful bloodlines.

If the human race can make up for the shortcomings in the bloodline, the strength of the entire race will have a big leap, and the status in the underworld will definitely be able to produce a significant change.

Shortcomings are potential!

This is what Augusta and Fang Yue said the most!

If Human Race's goal is too big, so are Fang Yue's men!

In this Yongfeng Town, Fang Yue has provided all the races with a bloodline-enhancing medicine, even though it only raised the bloodline level from the second-grade yellow to the sixth-seventh-grade yellow, the Qi luck of this Yongfeng Town has already skyrocketed. More than doubled, among them, talented people came out in large numbers, and the arrogances were like a forest. The speed of the practitioners in Yongfeng Town was also more than twice that of ordinary human races!

If Fang Yue can go a step further in bloodline research and upgrade all the bloodlines of the residents in Yongfeng Town to the level of ninth grade yellow, giving Yongfeng Town a hundred years of development time, 90% of the residents may be able to reach the leader status. At the level, there will be more than five hundred saints! This Yongfeng Town is just a template. According to the same template, all the towns of the Human Race will be built into the model of Yongfeng Town. Then the Human Race will become the absolute overlord in the future underworld!

Fang Yue had already understood in the exchanges with Augusta that if you want to live well in this era, the survival mode of being alone is definitely not enough! The Lone Ranger is suitable for low-end players. The higher the level of cultivation, the more you need to have allies and have your own power. It is impossible for everyone to do things by themselves. It always needs to have an errand, and when the cultivation level reaches a certain level After the level, you will definitely face a bottleneck. At that time, there is no way to enter. It is very difficult to rely on your own strength to improve. All many people begin to put their energy into some side business.

For example, Augusta himself is a living example. He had reached the peak level of the spiritual fairyland in the last civilized era, but if he wants to go from the peak of the spiritual fairyland to the Daluojin fairyland, that's not the case. What pure penance can do! Therefore, Augusta himself cultivated a group of forces to help him collect various resources, classics, and find inspiration for breakthroughs. At the same time, Augusta used his excess energy to study bloodline rune results. In order not to make a breakthrough, it was the rune that reached the rank of the masters, gained the will of the Tao, and became a pseudo-big Luo Jinxian!

Although there is no realm of Great Luo Jinxian, Augusta already has a preliminary level of combat power of Great Luo Jinxian!

Fang Yue agreed with Augusta's statement.

Although he hasn't reached the bottleneck of the cultivation base, and no progress can be made, the stronger the subordinates he cultivates, the more powerful the energy he contributes! This kind of luck can't do anything else, but it is a good hand to neutralize some calamity power.

The power of Qi Luck and the number of calamities are counteracted, and this is the only method Fang Yue discovered that can restrain the force of calamity!

Fang Yue got these thirty-one slaves, and Fang Yue didn't have any pity.

It is their honour that these people can fall into his hands, after all, his bloodline experiment is relatively mature!

Once successful, all these thirty-one slaves will be able to advance by leaps and bounds in strength and bloodlines, transforming into butterflies!

As for the failure, it is hard to say, it may be a direct death, or it may be a monster that even Fang Yue can't imagine.

But on the whole, these people are still very lucky. After all, the other slaves were killed in battle, and there was basically no other fate!

"Purple pine nuts per person! Then add an elementary evolution potion, and everyone's left hand must be branded with a diamond rune!"

Fang Yue has made a list of his first experiment plan!

Chapter 2240: Nalan Mizusawa's choice

The bloodline evolves in a single way. In the later stage, the cost of this consumption will increase exponentially!

If you just cultivate one or two confidantes, there is no problem.

But if you want to mass-produce the strong, it's not worth it!

Therefore, Fang Yue is going to mix in a variety of ways to see if he can complete the high-level bloodline evolution in one step!

Thirty-one human slaves stood in Fang Yue's tent, their eyes were indifferent, without the slightest expression of emotion.

For the future destiny, they have no expectations in their hearts!

Since the day they became slaves, their future has been completely written!

Fang Yue didn't bother to give them psychological counseling. At first, one person and one elementary evolution potion were injected into their neck arteries!

This elementary evolution potion is the stuff of bad streets on earth, and it inherits an ancient biochemical civilization in the galaxy!

This thing is effective for practitioners of every level, and can raise the bloodline level from the second-rank yellow level to the third-rank level!

The specific effect is to increase the affinity of the elements by 30%, that is to say, after injecting this medicine, no matter what kind of elemental power is cultivated, it will be 30% faster than usual!

Over time, the advantages accumulated by these 30% elements will gradually be transformed into strength.

Now that the people on earth have been injected with this primary evolution medicine, the bloodline level of the whole people has reached a higher level.

"Roar!"

After the primary evolution potion was injected, one of the slaves at the peak of the Saint Realm suddenly glared and roared.

The ripples of flames under his feet spread, and the flames lingered, it is possible to miss Fang Yue's tent at any time!

"What are you doing? Are you trying to burn the tent for me?"

Fang Yue roared and stopped loudly.

However, this slave had already reached a certain critical point, and he could no longer control his strength breakthrough.

The power of the flame slumped!

Fang Yue had no choice but to arrange a space barrier to isolate this guy!

"It's a breakthrough, from the third level of the Avenue of Fire to the fourth level!"

Fang Yue nodded gently and recorded it.

The Great Sacred Realm, the third floor of the Avenue of Fire, this is a common Taoist cultivation level in the Great Sacred Realm.

However, after breaking through from the third floor to the fourth floor of the Avenue of Fire, this guy's combat power will skyrocket, and its value will also increase a lot.

"No loss!"

Fang Yue said to himself.

Although the bloodlines of other people have evolved slightly, they have not changed so much.

That eldest brother just now has accumulated rich experience!

As for other people, there is no such strong accumulation, and naturally there is no room for explosion!

"What kind of potion did you inject us? Why do I feel an inexplicable change in my body? It seems that I am much closer to the surrounding water elements!"

Nalan Mizusawa, the only slave of the Great Holy Realm level, couldn't help but ask.

She was the only female among the slaves Fang Yue bought this time, and at the same time the only strong man at the Great Sacred Realm level.

Nalan Mizusawa looks soft and beautiful, with long light blue hair hanging down, giving people the feeling of a gentle big sister!

However, Fang Yue had read this woman's resume.

Whoever treats her as a gentle big sister will die miserably!

This woman's deeds are no longer cruel and cruel! She was originally an eldest lady of a small family of five-rate in the city of a thousand towers. Because she offended the nobles, the whole family was destroyed, and Nalan Mizusawa survived because she went out to study!

Then Nalan Mizusawa returned to her hometown. It took her three years to devise various traps and tricks to frame or ambush all the senior members of the opposing family one by one!

The people she killed included a strong man in the virtual fairyland and five great sages.

All of these people were stronger than her, but none of them survived in her hands!

In the words of Nalan Mizusawa after being arrested, the murder was done with the brain, not the force!

This is also one of the reasons why Fang Yue bought Nalan Mizusawa!

Subordinates who use their brains are often more likeable.

If this Nalan Mizusawa can survive his experiment and become stronger, Fang Yue can consider cultivating her to become his confidant!

"A kind of elementary bloodline evolution medicine! The reason why the human race encounters so many bottlenecks in the process of cultivation, the combat power is weak, and the speed of cultivation is slow, mainly because of the weakness of the bloodline!"

Fang Yue gave a rough explanation.

He is not totally unkind.

Especially, the opponent may become his future assassination captain!

The war will always end.

When he returned to peaceful times, he would no longer be so casual if he wanted to kill! Fang Yue needs a dark power of his own to get rid of some unharmonious voices.

"Indeed, after injecting that kind of medicine, I felt a little loose in the bottleneck of my cultivation base!"

Nalan Mizusawa nodded slightly, she showed a sweet smile, her gentle and gentle temperament is the best camouflage color on her body.

She didn't look like Biyue, she was not a serious girl.

"The first primary bloodline potion is just an appetizer. The injection will not improve much, but it is not dangerous! The latter two experiments have the risk of becoming a monster or death, and the risk factor is very high. Unfortunately, you There is no right to refuse!"

Fang Yue's words were a bit cold and ruthless.

He wants to establish a role in these people's hearts that cannot resist the will.

These people are his future assassination squad, and they must absolutely obey his will without being able to disobey or resist the slightest!

As for the strength, it is actually secondary.

Some difficult opponents may not have so advanced and profound backgrounds.

Really powerful opponents, Fang Yue will personally get rid of them, and Nalan Mizusawa and the others will deal with some difficult little fish in the future!

"Dangerous? How dangerous? When I was arrested and became a slave, my heart was already dead!"

Nalan Mizusawa said nervously.

At any rate, it is a person who has been wiped out by others, and the mental aspect is a little abnormal, but it is normal.

"A purple pine nut can probably increase your talent to the sixth or seventh yellow rank. Of course, there is a very small chance that your luck will burst and increase to the eighth yellow rank! The probability of failure is about 30%. If the willpower is strong enough, the chance of failure may be lowered!"

Fang Yue's blood experiment was not for killing people, but for training subordinates, so he naturally wanted to minimize the chance of failure.

Fang Yue gave each of them a purple pine nut.

This thing can also ignore the realm of the practitioner, below the true fairy, after taking purple pine nuts, everyone can raise the bloodline level.

In order to cultivate these purple pine nuts Fangyue, a lot of original crystals were consumed.

Thirty-one people each had one, and they swallowed the purple pine nuts into their abdomen without hesitation according to Fang Yue's instructions.

Except for Qunaran Mizusawa, the other thirty people are actually all veterans on the battlefield. They have an unusual desire for strength!

As for Nalan Mizusawa, she was once covered by the flames of hatred, and her persistence in strength was higher than that of veterans!

This is an opportunity to increase their potential and talents. How could they easily miss it?

Pine nuts enter the belly.

Every slave reacted differently.

Some have a faint layer of frost condensed on the surface of their bodies, while others have expressionless faces, and the vitality on their bodies is drastically reduced, as if they will fall at any time!

The most peculiar thing is Nalan Mizusawa, her eyebrows actually gave birth to a white lotus.

The nine-petal lotus slowly unfolds, giving people a sense of holiness and peace!

"Everyone's physique, talent, and temperament are different. Although they are all awakened by the purple pine nuts, the direction of their potential development is also different! This meticulous and good at assassination Nalan Mizusawa awakens is the direction of healing life. Her talent! Tsk tusk, if it is not a joke of fate, it means that her heart is infinitely pure and kind!"

Fang Yue couldn't help but admire.

Facts have proved that people who crawled out of the dead are not easy to die.

Among the thirty-one slaves, only three had blood rejection, but they all managed to survive through their own strong willpower.

All the bloodlines of the thirty-one slaves were transformed successfully.

Twenty of them reached the bloodline level of the sixth yellow rank, nine reached the bloodline level of the seventh yellow rank, and two reached the bloodline level of the eighth yellow rank.

This Nalan Shuize is one of those people who have reached the eighth-grade yellow bloodline!

The awakened bloodline of Nalan Shuizawa is quite unique, holy, noble, and has a special affinity for the light element.

Even at the moment when the bloodline awakened, Nalan Mizusawa had an understanding of the Avenue of Light at the same moment, and he instantly started!

You know, Nalan Mizusawa has never touched the Avenue of Light before, and has not even practiced related secret methods!

"The power of this bloodline is really powerful! It can directly give people talent! No wonder the strong human race such as Lin has a huge population base, but it is still at a disadvantage in the competition with the ten thousand races, unless it is used to pile up people. , The Human Race may not even be able to enter the top 100 races among the Ten Thousand Races! It turns out that the Human Race has such a big gap compared with the Ten Thousand Races in terms of blood talent!

Fang Yue could not help but sigh secretly.

This yellow bloodline of the eighth level is still in the lower and middle reaches of the ten thousand races. However, this level of blood has already given Nalan Shuisawa such a big advantage. According to this development, Nalan Shuisawa may be able to In just a few years, he realized the Avenue of Light to the first level.

When the ordinary human race is practicing, the understanding of this Taoism is a great moat, because the intimacy with the elements is limited, and the four words of the law understanding do not know how many human heroes are stuck. However, the promotion of this bloodline is equivalent to a direct gift of a rule. The advantages of this high-level bloodline can be imagined!

"The third type is to engrave runes and improve some talents! I am not very proficient in engraving runes, plus. You have already improved your bloodlines twice before, so the chances of various problems are higher! You have already increased your bloodline potential from the previous two bloodline enhancements. These potentials are enough for you to advance to a greater level. It shouldn't

be a problem! Therefore, the third bloodline enhancement opportunity, you can choose by yourself, and those who are afraid of risk can refuse I will not blame you either!"

Fang Yue didn't really know how successful he was to portray the rune's bloodline potential. After all, he was just a beginner, and these people had already experienced bloodline enhancement twice.

If they were all stuck in the last level, Fang Yue's previous efforts would be wasted.

"I am willing to accept the third chance of blood baptism!"

Nalan Mizusawa spoke first.

Her eyes were clear, without any hesitation.

Why she was arrested, not because she was not strong enough!

If she can be successfully promoted to the level of the virtual fairyland, even those people who want to catch her will have to pay a greater price! Maybe after weighing the pros and cons, those people will give up their plan to arrest her.

Potential + time + resources = strength.

Nalan Mizusawa knows this very well, so she is more eager for powerful strength!
