

## God of Life 2241

### Chapter 2241: VIP

Without potential, no amount of time and resources will be wasted.

And bloodline talent is almost equal to potential.

"it is good!"

Fang Yue nodded slightly.

Courage is an essential foundation in the growth process of a practitioner.

"I also choose runes to portray!"

The other thirty slaves spoke in unison, and only after experiencing the darkest moments of life did they know the importance of strength.

There are some things that they are worth paying for.

Fang Yue took a deep breath, he had never thought of such a uniform situation!

"Good, good, good! If you can achieve something in the future, today's choice may be the cornerstone for you to become strong!"

Fang Yue carved runes on the back of his right hand for them one by one.

This is a relatively basic rune researched by Augusta chosen by Fang Yue-the Rune of Genesis!

This kind of rune is extracted from a biological body called Yuanli Rat, and after being portrayed, the corresponding part can have a short-term energy accumulation effect after activation.

In layman's terms, if you engrave this rune on the back of your right hand, this rune activation can condense a large amount of energy within three seconds, and burst out an attack equivalent to 200% of a normal attack.

This attack can be a fist, it can be a palm, and even a wrapped hand holding a long sword can burst it out.

This is a kind of skill rune, no longer in the field of raising the bloodline level.

But this skill is quite practical, and at critical moments, you can cut off the opponent's head by surprise.

Yuanli rune is relatively low in quality, but has a great safety factor.

The safety factor is so large that this rune did not reject any of the thirty-one in the process of portraying it. All of them received a free magical power steadily!

"The rune depiction seems to be not very risky. At least some of the talent runes that Augusta has successfully tested are not too risky. Because most rune depictions are on the epidermis, they generally do not conflict with bloodlines!"

Fang Yue's experiment was successful, and he recorded his conclusion of this experiment.

This flesh-and-blood clone, when he entered the sacred, his cultivation base increased too fast, and he needed a period of time to adapt.

Therefore, he is not suitable for continuing to improve his cultivation quickly in the near future, but this is a good choice for studying the way of runes!

"Innate supernatural powers are also part of the talents of various creatures! If many factors are superimposed, a source power rune is portrayed, and everyone's bloodline talent is barely up to half a step!"

Fang Yue said to himself, and then began to continue to study the relationship between this bloodline talent and rune depiction. It was finally shallow on paper. This time he personally tried it again, and it was another kind of experience!

"Swallowing different fruits and injecting primary evolution potions are methods of improving bloodlines with the nature of a panacea! Generally speaking, the evolution of bloodlines is related to the individual's endowment and personality, and is full of uncertainty. , The bloodline improvement ability is directional, and the upper limit is limited, but the victory lies in stability. The stability of the rune description is higher. As long as it succeeds, the effect can basically be determined!"

Fang Yue said while deducing something.

Thirty-one slaves were scattered outside the tent to protect the little master.

If it is said that before, their protection of Fang Yue was mainly because of the slave contract and had to do it, then now Fang Yue's protection is an act from the heart.

After all, it is a great kindness to enhance the bloodline potential.

If you treat it as a scholar, you must repay it with a scholar.

Fang Yue spent the next three days in the barracks of the tauren tribe.

Every day, he provided a sufficient amount of talisman to the tauren, and his barracks would also send a steady stream of various materials from the Tiandao Pavilion. Fang Yue was obsessed with research and couldn't help himself.

Thirty-one slaves who had increased their bloodline potential also successfully broke through their original bottleneck in these three days, and their respective cultivation levels have advanced a lot!

They had already reached the peak of their original realm, because they were limited by their blood and resources, they were unable to break through.

Now that the bloodline is improved, the bottleneck is broken, and the improvement of the cultivation level has become a matter of course!

Their promotion did not cause any waves in the Tauren's barracks.

For the powerful Tauren clan, there is almost no difference between having a few more saints and a few less saints!

Only at the level of the virtual fairyland can they arouse their attention.

When you arrive at the real fairy, you are the boss, and you are qualified to talk to the tauren!

This is the rule in the city of a thousand towers, extremely realistic and cold!

Fang Yue didn't bother to win any position among the tauren.

As long as he is free, no one disturbs him!

It's just that he wants to be free, but some people don't want him to be free.

On the fourth day that Fang Yue came to this tauren clan.

A twelve-man armored guard broke into Fang Yue's camp.

The cultivation bases of the twelve people are all at the level of the virtual fairyland, and one of them has reached the level of the peak of the virtual fairyland.

Fang Yue's thirty-one slave guards were clearly displayed in front of the iron armored guards at the virtual fairyland level.

Together, they couldn't bear the coercion of one of them.

The Iron Armored Guards belong to a fighting ethnic group, yes, this is a race, the name is called Iron Armored Guards.

The armored guards are born with a special talent that is able to summon armors and weapons! The types of weapons are selected by the armored guards themselves, and the cultivation level of the armored guards is improved, and the quality of their weapons is also naturally improved.

In Fang Yue's words, the biggest advantage of this ethnic group is to save weapons.

Of course, the armor of the armored guards is not in vain, this race needs to constantly devour various metals to achieve advancement.

In the civilized era that Fang Yue lived in, the Iron Armored Guards had fallen out of the five hundred ranks among the ten thousand clan because of the scarcity of people!

But in the last civilized era, this was still a top 100 ethnic group.

The armored guards are good at fighting, and their strong defenses and exquisite martial arts are the strong guarantee for this race.

Once the number of armored guards reaches a certain level, their mutual breath can increase each other.

"What is it for me?"

Fang Yue looked at these armored guards with murderous looks, but in fact, Fang Yue decided that these people should not dare to trouble him.

In the city of a thousand towers, the iron armored guards belong to the top 20 ethnic groups, but compared with the overlord group of human race, the iron armored guards are still a group of younger brothers!

"A core disciple of the Great Sacred Realm level in my clan was attacked and killed. It is suspected that you did it! So I hope you will come to argue!"

In the outermost periphery of the city of a thousand towers, there are a total of three ethnic groups stationed.

The tauren is naturally the first force deserved, followed by the Iron Armored Guards and the Cat Spirits.

In Fang Yue's words, this combination is not without basis.

The Tauren rampage is tank cannon fodder!

The melee ability of the Iron Armored Guard is amazing, it can fight and retreat, it belongs to the fighter output.

The cat spirits are responsible for the side response and assassination, taking the enemy's first level among the best. This kind of cooperation is exercised in the tragic fight again and again!

"Do you suspect that I killed the core disciple of your race?"

Fang Yue's face was dumbfounded and surprised.

Every day I stay in my tent to do research and get runes. I can't get out of the door. Even the ladies don't have my house. You doubt me? Is there any reason?

Seeing Fang Yue's expression, the Iron Armored Guard didn't have the momentum.

Instead, they said with some guilty conscience: "Because adults are outsiders, the core disciple of our clan died as soon as they arrived at the first level, so the great talents will be included in the suspicion!"  
grown ups!

That's right!

This Fang Yue himself is an elite disciple of the Human Race. Although he is only at the level of the leader, his background is not weak!

He is a talisman maker, and the talisman he produced can kill even the strong of the virtual fairyland!

In addition, this Fang Yue is also Augusta's assistant. Although Augusta has been self-exiled, it is after all a pillar-level existence in the human race.

Anyone who has a relationship with someone like Augusta must be careful. If they are not careful, they will likely lead to terrible revenge.

If it wasn't for the three elders who insisted on arresting all the suspects this time, they would definitely not ran into the tauren's camp to arrest a human talisman when they were full!

"Okay! Then I will accompany you on a trip!"

Fang Yue instinctively smelled a conspiracy.

But what kind of conspiracy actually was, Fang Yue wanted to see what it was.

Since Fang Yue stepped into the level of the Saint Realm, his combat power has soared, and even the strong in the spiritual fairyland dare to break his wrist.

What's more, it was a big boss like Augusta who was defending his way in secret.

Not to mention the barracks of Iron Armored Guards, even if it is the nest of the Void Clan, Fang Yue dare to wander twice!

Fang Yue was taken away by the armored guard.

The news quickly spread among the tauren community.

A true fairy-level general of the Tauren looked gloomy, and he suddenly crushed the big tea cup in his hand.

With a click, the tea cup burst into pieces, and hot boiling water flowed out from between his fingers.

Fragments of porcelain were scattered on the ground.

"Is this iron-clad guard really bullying for my tauren clan? I even took people away from my tauren camp!"

What the Iron Armor did this time, in all fairness, was indeed very unnatural.

This person was invited by their tauren clan, and stayed in the tauren camp every day.

Although Fang Yue's contribution is not a lot, a certain amount of talisman supply every day is also an additional gain for their Tauren clan.

Now this Ironclad Guardian took Fang Yue away without saying anything.

Are they really not paying attention to their tauren clan?

The city of a thousand towers, because of the external pressure of the void creatures, caused the creatures of different races in it to unite.

But the internal contradictions are actually quite deep.

Especially the three major ethnic groups on the periphery, they are all the dominant ethnic groups within the first layer of the city wall, and there are countless conflicts of interest.

"The general calms down! This time the armored guard came with an order from the Celestial Clan, and I have no right to stop it!"

A goatee soldier persuaded.

"The gods? What do they join in for?"

The true celestial general of the tauren clan heard this, and only a little bit his anger.

There was a look of doubt and thought on his huge pair of bull eyes.

The honest and stupid tauren family in the legend is not as unbearable as the legend!

It's just that sometimes, they have no choice but to make some disguise to let people down!

### **Chapter 2242: Reappear like wind**

"Tell the Iron Armored Guard that they only have three hours. If after three hours, I can't see a complete Fang Yue coming back, I will lead my troops to level down this Iron Armored Guardian territory!"

The Tauren Niu Shisan at the real fairyland level said lightly.

This is not only a matter of the dignity of the tauren family, Fang Yue's life and death, but also the relationship between the human race and the tauren family!

If Fang Yue died on their territory because of the ineffective protection of the Tauren clan.

How did they explain to Augusta!

You know, Augusta had already given enough face to the tauren.

And the tauren clan must also find a way to give Augusta a favor!

"Yes! Your lord!"

The goatee retreated, and his turbid eyes also showed a faint light!

Fang Yue was taken into the armored guard.

He was sent into a tent.

What awaits him is not the trial of the Iron Armored Guard, but the arrogant wind of the gods.

Fang Yue had seen the wind in Thunder Canyon.

At that time, Fang Yue was just an unknown man of the Human Race and Rufeng was already the arrogant of the Celestial God Race under the stars holding the moon.

Like the wind today, the smile is still gentle.

However, meeting in such a place immediately caused Fang Yue to be extremely vigilant.

"Brother Fang Yue, is it alright to come in?"

Rufeng's smile is undiminished, quite sincere, with a taste of meeting old friends.

However, Fang Yue knew that this time it was definitely a feast.

The Celestial Demon Race is not a thing, and the Celestial God Race has absolutely no good intention.

"Fortunately, fortunately! This is hopeless without practice. I have been studying as a researcher recently! I can't extricate myself from being immersed in the ocean of knowledge!"

Fang Yue smiled.

And Rufeng didn't even believe a punctuation mark about what Fang Yue said!

Fang Yue studied the rune Thaksin, this guy has a lot of methods, and he can dabble in any way.

But there is no hope for practice?

Seeing a ghost, the practice is hopeless!

Why do you think I'm stupid?

Don't you think I can't perceive your cultivation realm that breaks from the leader realm to the saint realm?

At the level of the leader realm, you can fight against the strong in the real fairyland, and reach the level of the saint realm.

Rufeng shuddered involuntarily.

For the younger generation, the rise of Fang Yue is really unstoppable!

Although it was only a clone to advance, it also represented a substantial leap in Fang Yue's strength.

"Brother Fang Yue should be humble, Xiongtai's talent and strength are well known throughout the world, if Brother Fang Yue can join hands with me, he can do a lot in this city of thousand towers!"

Rufeng's attitude is very sincere. He invited Fang Yue to join forces with Fang Yue this time!

"Is it a collaboration between you and me, or a collaboration between Human Race and Celestial Race?"

Fang Yue stared closely at the wind.

He wanted an attitude like the wind.

The two have different meanings.

If only Rufeng joins hands with himself, maybe this is Rufeng's own unilateral will.

But if this Rufeng represents the Celestial Race and the Human Race behind him, it means that the Celestial Race intends to cooperate with the Human Race in this city of thousand towers.

The two sides have no common interests, but they have common enemies.

The Celestial Clan has appeared, and the Celestial Demon Clan may have mixed into this city of thousand towers and even mastered some of its power.

"This cooperation not only involves my Celestial God race, but also the Celestial Demon Race, the Celestial Demon Race, and the True Dragon Race! Of course, this kind of alliance is only a small-scale alliance between individuals and does not represent the interests of the ethnic group!"

Slowly speak like the wind.

Fang Yue is more interested.

If this wind represents that the gods want to join forces with the human race, Fang Yue really can't be the master of the human race.

He has not yet mixed into the core level of the human race.

Although he can be regarded as someone with some background.

However, whether in the Human League or other human forces, he is at best a peripheral member and a thug. He really has no say in such important decisions as the ethnic alliance.

But if it was an alliance between geniuses, Fang Yue could agree.

"I don't know what the goal of our teamwork is? I have heard of Young Master Rufeng. One of the thirteen gods of the Celestial Clan, the level of the virtual fairyland has once killed three true immortals and the sixth-level powerhouse with his bare hands. Being chased and killed by a spirit fairy from the Celestial Demon Race also escaped without incident!"

Augusta once mentioned that, in fact, the higher the cultivation level, this kind of inter-ethnic grievance is more vague!

Especially among some geniuses, they often join forces across ethnic groups, because their enemies not only come from within the clan but also from within the clan!

"Haha! My past is not worth mentioning! Brother Fang Yue's methods and origins are amazing! Outside the Giant Wood City, Brother Fang Yue has made a great contribution to the Human Race, if it were not for Brother Fang Yue to stop those The true celestial beings of the Black Demons, even if all the masters in the Giant Wood City are transformed into the Dark Species, it is difficult to achieve such a brilliant result!"

"It's a pity that outsiders like me can see Brother Fang Yue's magnificent military exploits, but this League of Nations has never given Brother Fang an important position. The position of the guardian of Yongfeng Town in a district is far less worthy of Brother Fang. Talent and pride! If we join forces, I might be able to send Brother Fang Yue to a higher position in the League!"

Rufeng didn't express his purpose lightly, but instead began to provoke the relationship between Fang Yue and Renmeng.

In fact, there is no need to instigate the wind, what is going on between Fang Yue and Renmeng, Fang Yue knows best in his heart, just like Ming Jing.

"Brother Rufeng doesn't need to be like this! I know my own family affairs, just a Yongfeng Town I can't manage it properly, even if the League of People gives me greater authority, I can't make good use of it!"

Fang Yue knew that Renmeng had some grudges towards him.

But Fang Yue didn't want the relationship between himself and Renmeng to be used by outsiders!

"Brother Fang Yue's words are wrong! In fact, in addition to the combat power of our so-called Tianjiao, our external forces and background are also an important part of our strength! Back then, if I were not for the identity of the \*\*\*\* son of the gods, I'm afraid that was chased to death by the spirit fairyland

guy from the Celestial Demon Race! Because I am the \*\*\*\* son of the Celestial God Race, so the Celestial Demon Race will be jealous of me and my identity! Because of this level of fear, they gave me the possibility to get out!"

"Authority is sometimes more important than strength, especially before Da Luo Jinxian! Da Luo Jinxian, free and easy, jumping out of the five elements and three realms, is already unfettered! However, under Da Luo, there are all ants, and the vast number of people still need to be in the red dust. You don't care about gains and losses, but don't the relatives and friends around you care? I know that Brother Fang Yue has some close friends who are also serving in the human race, and now facing difficulties, it seems that life is not easy!"

With a smile like the wind, Fang Yue continued to persuade.

It is difficult for an undesirable guy to form an alliance with them.

Interest is a fragile relationship chain, but when the interest reaches a certain level, this relationship chain will also be indestructible!

"You want to shoot them?"

The murderous intent on Fang Yue suddenly rose, and the viscous blood seemed to freeze the surrounding space!

There are not many friends around Fang Yue, but every one of them is his close friend, who can entrust his life to each other.

"It's not that I want to deal with them, but the infighting in the alliance, the right to sway, the intrigue, and the death and the life, it may cause the building to fall at any time! For example, this little Thunder King, who has recently entered the level of the virtual fairyland, can compete with the real fairyland. Compete against each other! When the giant wood city was under siege, he also intercepted and killed three powerful black demons at the peak level of the virtual fairyland! This talent is amazing and the credit is dazzling! However, these brilliance may not bring him blessings Sometimes it will become a disaster!"

Like the wind, it pierces Fang Yue like a knife.

"The Thunder Palace is not weak in the Human League, but in the final analysis it is only protected by an ancestor of the Da Luo Jinxian level! However, the Da Luo Jinxian has not returned for nearly a thousand years! I don't know if it is missing or fallen! No one! The Thunder King Mansion of Daluo Jinxian does not have such a talented Xiao Lei King! Some families who want to \*\*\*\* the title of Immortal Seedling of the People League with Xiao Lei King may have to take action against Lei King Mansion or Xiao Lei King in the near future!"

Rufeng said some of the secrets in the League of People.

Of course maybe this is not Xin Mi!

Among the human races, Fang Yue didn't pay attention to these incidents of the stove!

If Fang Yue wants to understand, he can absolutely understand it with his identity and status!

"Little Thunder King! Intrigue me!"

Fang Yue thoughtfully. This Xiao Lei Wang was indeed loyal to him.

Even the two of them fought side by side a few times!

I thought that he was a leading figure among the younger generation of Human Race. He had a high status in the Human League and was guarded by the older generation of strong men. There would be no big problem. I didn't expect that this Xiao Lei King was also in disaster. People may be killed at any time in the power struggle!

"Not only Xiao Lei Wang, this mosquito person is also being squeezed out of the League! Otherwise, you think he will be killed to the point of being seriously injured and dying, so you have to display the nine-dead body and temporarily reduce his cultivation level. Realm to take refuge?"

If the wind is like, Fang Yue is a little suffocated.

If the relationship between Xiaolei Wang and Fang Yue is not very big, then the mosquito person has taken him extremely care!

When he was under duress, the mosquito man used to stand up for him several times.

Even strictly speaking, this mosquito man is his guide in the League of People.

If the mosquito person was killed, Fang Yue really couldn't guarantee what he would do.

Fang Yue's grudges must be avenged, but he must be paid for his grace!

"Okay! I promise you about the alliance, but you also have to state your goals. If they are the same, you can work together to protect each other. If they are different, you will be treated today as you I have never seen before!"

Fang Yue's words were straightforward, and he knew that Rufeng must have come prepared this time, and his goal was amazing.

Otherwise, with Rufeng's current status and power, there is no need to unite them, these foreign patriarchs.

"it is good!"

Respond immediately like the wind.

"My goal is actually to help this outermost city wall not be broken by the Void Clan within five days!"

If the wind is like a shot.

Fang Yue's expression immediately darkened.

If it is said that it would be a normal level task difficulty for him to kill a powerhouse of the Void Race True Wonderland now.

Then defending the outermost wall of the city of a thousand towers without being captured within five days is the difficulty of purgatory.

Before Fang Yue came, he had retrieved the history related to the city of a thousand towers.

The city of a thousand towers has cycled countless times. This siege will definitely be captured by the void creatures within three days. Not only that, the three layers of the city walls in front of the city of a thousand towers will sink under the iron hoof of the void creatures.

This is a general trend that no one can stop.

It would be an extremely fierce battle, and now it's just a prelude, in which even the powerful players in the Great Luojin Wonderland will take action behind the scenes, and the level of the game involved is far from what little people like them can participate in.

### **Chapter 2243: Battle of Thousand Towers**

"If this mission is successful, I will give out a hundred middle-grade immortal stones as a reward. At the same time, I can help you achieve a higher position in the league of people as much as possible! There is no shortage of people in the league. There are eyes and spies of the gods, and even some people in high positions owe me more than one favor from the gods!"

The price Rufeng offered made Fang Yue a little hard to refuse.

Fang Yue knows the value of middle-grade immortal stones.

The low-grade fairy stone is enough to make the strong in the real fairyland tempted.

The concentration of celestial energy in the middle-grade celestial stone is a hundred times that of the lower-grade celestial stone, and the market price is only one hundred and thirty-four lower-grade celestial stones can be exchanged for one middle-grade celestial stone. Even to put it in a bad way, if Fang Yue really has a middle-grade immortal stone in his hand, hitting it with the immortal stone can also produce many firm allies!

After all, this fairy stone is a necessary thing for the virtual fairyland to excessively cultivate to the real fairyland level.

Without the assistance of Immortal Stone, if I only rely on myself to slowly draw immortal energy from the void to assist in cultivation, this year of the monkey will not become a powerhouse in the real fairyland, and cannot forge a truly powerful immortal body.

"I will do my best, but if it is really a job to die, I will definitely not do it! And there is no reason to say that these hundred middle-grade immortal stones are not a small number. I have to see things before I can help. You do it!"

Fang Yue didn't believe that there were so many middle-grade immortal stones in the hands of Rufeng. Even if he was the arrogant of the Celestial Clan, he could not have such strong capital and worth.

If the wind smiled, he had expected that Yi Fangyue's caution would not readily agree.

He flipped it over, and a full thirty middle-grade immortal stones appeared in Rufeng's hands.

"This is a deposit. I will give you the remaining celestial stone after the event is over! Although my cultivation and talent may not be the best in the Celestial Clan, I still have this credibility! Back then, when I was in the Saint Realm, I strayed into it. The secret realm left by a powerful Daluo realm in my clan has inherited all the wealth of that lord. Perhaps I Rufeng is relatively rich among the Tianjiao of the same generation of Gods!"

Modest as the wind said.

But Fang Yue rolled his eyes.

Inherited all the wealth of a great Luo Jinxian, is this particularly rich?

It is said that the richest man in the virtual fairyland in your underworld is believed by everyone!

"Tell me about the specific situation! This time it is said that there will be two powerful players of the Da Luo Jinxian level in the Void Clan. Under Da Luo, our talents are useless! Maybe someone will be slapped to death. , There is no bones left!"

Fang Yue curled his lips, this immortal stone was hot to hold.

If this task is easy to complete, Rufeng will not spend so much effort to form an alliance with them!

"You don't need to worry about things about Daluo Jinxian! My God Clan will naturally have two powerhouses from Daluojin Fairyland to compete with them! The key is that the battle below Daluojing cannot be ignored! According to my current speculation, this The Clan of the Void will at least send out more than 30 powerful people in the fairyland, and more than 300 people in the true fairyland. As for the army below the true fairyland, I don't need to say more, it must be a sea of people, countless! All you have to do is Help me contain at least eight spirit immortals, 30 true immortals, the Void Clan under these true immortals, the more you kill, the better!"

Rufeng gave Fang Yue a clear mission.

Fang Yue had the idea of returning all these fairy stones to Rufeng.

This fairy stone is too hot to hold!

What's so special is that no matter how capable I am, I can't hold back so many spirits and true immortals!

In terms of pure force, without using the will of Tao, Fang Yue was able to fight with the void creatures of the eighth layer of true immortals without giving way to each other.

Even with the will of Tao, Fang Yue's ability to hammer a true celestial peak is already a super long play!

"Can I refuse?"

Fang Yue hesitated for a while and then said.

"I believe you can! After all, what I said to hold the eight spirit immortals, the 30 true immortals rely on you not only! You are in the Tauren's legion, there are also three strong spirit fairyland can rely on, Bull Head The number of true immortals of the human race is not small, at least as many as 21 on the bright

side! Dispatch these forces, and then use some other powers in the city of a thousand towers to achieve the goal I requested. It shouldn't be difficult!"

Rufeng encouraged Fang Yue to say.

Rufeng also had a headache when receiving this unlucky task.

The only way he can think of is to let his allies assist in it!

Fang Yue is already one of the most powerful allies he can find in the near future!

If he can complete this task, his position in the Celestial Clan will be raised to a big step, and all his efforts will be rewarded several times or even dozens of times!

Fang Yue returned to the territory of the Tauren clan.

In the end, he couldn't help the temptation of interest and agreed to Rufeng's request.

In fact, Fang Yue had another calculation in his mind.

The underworld of calamity pressure is becoming more and more dangerous, and it can even be said that the mountains and the rain are coming to the wind.

Just an unidentified people alliance can hardly become his backer, and the attitudes of Vientiane Pavilion and Nether Palace are even more gloomy. There is no problem in providing resources, but more help is estimated to be enough! If their people don't have enough interest as a temptation, I am afraid it will be difficult to participate in this muddy water!

Of all the forces, the most reliable for the time being is naturally the Fang family, but the Fang family can't quench the thirst of the near, not to mention the real strength of the Fang family in the underworld, it is difficult for Fang Yue to control.

So he will start to accumulate his own power silently.

If you go alone, it will take too long to accumulate, and if you form an alliance with Rufeng and others, it can be said to be rich and wealthy.

Once the alliance is used as a handle to attack, he may fall into a situation where he will never recover.

But if all goes well, Fang Yue will be able to obtain the greatest authority in the human race in the shortest time.

Rufeng's words were planted in Fang Yue's heart like a seed.

Sometimes authority is as important as strength.

Fang Yue is not a reckless man who blindly believes in force. On the contrary, Fang Yue was born in a nail family and has a deeper understanding of the power of power.

"If you want to help Rufeng hold the Void Clan, you need more than just the power of the Tauren! Although the Minotaur Clan is not very useful, it will definitely fight the enemy bravely on the battlefield, so in Void When a creature strikes, the power of the tauren clan does not need to be mobilized, instead, people in the other layers of the city wall need to help resist!"

Fang Yue quickly sorted out his own ideas.

What he needs now is not to quickly seize the command of the tauren clan, but to attract more power to help defend the outermost wall.

"It's no wonder that Rufeng will have a headache. Under the absolute strength comparison, any conspiracy and tricks will lose their effect!"

Fang Yue began to plan his line of resistance.

As for whether he could succeed in the end, he actually didn't have much confidence in his heart, after all, the gap between the strengths was too great.

Whether it is in the spiritual fairyland or the real fairyland level, this outermost city wall is in a disadvantaged state.

"In fact, everything is not without room for maneuver, but the price that may be paid after this may be greater than the fall of the three-layer wall! But what exactly does the gods want to do this day? They should be killed. Order Rufeng to guard the outermost wall."

Fang Yue's mind is messed up, it can be described as a lot of clutter.

This wind-like arrival completely disrupted his peaceful and peaceful life!

While everyone was paying attention, Fang Yue surreptitiously left the area of the city of a thousand towers.

He came to the blood wasteland to understand the situation.

The Blood Wasteland is a buffer zone between the city of a thousand towers and the void.

If you look down, you can find that the city of a thousand towers and the Wasteland of Blood are on the same continent.

This continent floats in the void, and the city of a thousand towers occupies the most core area, but the blood wasteland is the largest area on this continent.

The area of the blood wasteland is about three times the area of the city of a thousand towers.

Among them, a large number of survivors are void creatures, wild ancient beasts and some primitive tribes.

This blood wasteland has a nickname in the city of a thousand towers-adventurers' paradise.

Because there are no humans to develop and set foot in the blood wasteland, there are a lot of undeveloped resources and old medicines with a very long production year!

If the adventurer has enough strength and enough luck, he might be able to encounter a mature fairy medicine in this \*\*\*\* wasteland, pick it up, and return to the city of a thousand towers to sell it at a high price!

This time out of the city, Fang Yue brought out 31 slaves including Nalan Shuize.

They disguised as an adventure group to explore the blood wasteland.

The blood wasteland is extremely dangerous.

There may be wild ancient beasts at the true fairyland level. If you yawn, you may burn all of an adventure team to ashes, or you may be encountered by the void creatures at the virtual fairyland level. The team of a hundred people were all eaten up.

From a certain perspective, this \*\*\*\* wasteland is a wild and turbulent land. The rules are chaotic, full of dark laws of the weak.

In this kind of place where people can eat people without spitting out bones, if Fang Yue, a small cultivator of saint realm, ventured in the blood wasteland, it would be extremely dazzling and easy to be found wrong.

Even Fang Yue temporarily formed an adventure group as a disguise.

This kind of adventure group with the most powerful creatures only at the level of the Great Sacred Realm belongs to the bottom-level adventure group with the weakest strength in the Blood Wasteland.

Slightly large-scale adventure groups, at least are strong people with virtual fairyland.

However, Fang Yue did not leave the city this time to accomplish any task, nor did he want to hunt someone specifically.

Therefore, the strength level of this adventure group has not been too much in his eyes, as long as it can be justified and not noticeable.

Fang Yue's real purpose is to understand why the void creatures choose to launch a general attack on the city of a thousand towers at this point in time, knowing themselves and the enemy, and fighting forever.

If the two sides fought this fiercely, if they didn't even know the purpose of the other party, that would be a real joke.

Before Fang Yue entered the city of a thousand towers, he also purchased the relevant chronicles, but the record of this incident was vague.

This battle is called the fourth battle of a thousand towers.

The one who launched the offensive was the Void Clan, and the Void Clan paid a huge price in order to successfully win the city of a thousand towers.

The self-detonation of the five-headed true fairyland-level elderly clansman just blasted the defense of the city wall of the city of a thousand towers!

Then the two tribes fell into a tug of war that lasted six months.

**Chapter 2244: Stone of Annihilation**

At the most tragic time, the third layer of the city wall of the city of a thousand towers fell completely, and the city of a thousand towers burned the flesh and souls of 3,000 voluntarily sacrificed virtual fairyland-level creatures of all races into a forbidden wall. Lived at the pace of the void clan.

Afterwards, the powerful man of the Daluojin Wonderland of the Void Clan came forward to negotiate with the city of a thousand towers.

The City of Thousand Towers seemed to have offered some kind of treasure, and finally let the Void Clan die and withdraw its troops and return.

This is a few records in the historical annals.

And what Fang Yue is about to experience is this extremely tragic fourth thousand tower battle!

In this battle, the Void clan is destined to have the advantage. If it were not for this clan that did not want to lose too much of the clan's combat power, it would not be too difficult to even use the lives of the clan to flatten the city of a thousand towers!

However, if there is not enough profit, let the Void Clan pay such a high price to attack the city of a thousand towers, which also makes Fang Yue very confused.

You know, in the void, the void clan is not an absolute overlord, at least the stars creatures can fight against them. The City of Thousand Towers is equally powerful. There may even be a powerful person in the city, which really provokes the City of Thousand Towers. The Void Clan may suffer extremely fierce revenge, and even damage a lot of people. It is not impossible for the strong in Luo Jing and Xianjun Realm!

The Void Clan has not launched such a fierce offensive in thousands of years of playing the City of Thousand Towers so lazily, and this time, their attack on the City of Thousand Towers must have received some kind of strong stimulation.

One of Fang Yue's goals is to understand the purpose of this war of the Void Clan.

Then in the next step, he is going to play tricks on the purpose of this Void Clan!

Of course, this battle is still to be fought, but the resources must also be earned.

This war is about to come, and the interior of the city of a thousand towers is already panic. Many big forces have released corresponding war missions, and you can get corresponding rewards for killing the void creatures!

Naturally, Fang Yue couldn't just work for Rufeng's family. If it is good, he can fish more.

And there are some black forces in the Blood Wasteland, and they have also released some personal missions for the void creatures and missions to protect some noble disciples of the big family in the void city.

Fang Yue came to the Wasteland of Blood to take over these tasks.

In addition, the prices of weapons, pills and other war preparations in the black market in the Blood Wasteland have skyrocketed recently, and Fang Yue can also take the opportunity to make a fortune.

The rules in the city of a thousand towers are very strict. Even if he has medicines and magical weapons in his hands, if he wants to make a large number of shots, he can only be swallowed by some big forces. Those big forces will often make deliberate behaviors of lowering prices to make Fang Yue. Not much money. But in the blood wasteland, black market trading is quite free, and the only thing to worry about is the problem of black eating black.

But Fang Yue is still a little sure about his current strength. He really encountered a situation of black eating black, and I don't know who will eat whom in the end!

Fang Yue's first stop was the first black market in the Blood Wasteland-the Sacrifice of Ruowu.

There are nine black markets in the Blood Wasteland.

The Sacrifice of Ruo Wu ranks fifth among the nine black markets, but because it is closer to the city of a thousand towers, it ranks second among the nine black markets in terms of traffic.

Entering the Sacrifice of Ruowu, Fang Yue could feel a dark, sticky feeling floating in the air.

This feeling is like throwing people into the mud, no matter how hard you struggle, it is difficult to escape.

"The sacrificial stone! The top-grade sacrificial stone! It can replace any sacrifice and please the gods!"

Fang Yue took his slaves to walk in the Sacrifice of Ruowu. At this moment, there was an extra mask on their faces.

This kind of mask can isolate the breath, making it impossible for people to detect your true cultivation.

This is also a way to prevent the black market from eating black.

After all, if you can't judge the opponent's strength, if you rush to make a move, there is a high possibility that you will be eaten by someone.

The black market does not prohibit killing, but it is necessary to avoid unnecessary killing.

"Stone of sacrifice! Is there such a good thing?"

As soon as he entered the black market, Fang Yue stopped his footsteps.

He squatted down. Body, looked at the booth curiously.

An old man with a short stature, white hair and a khaki pony jacket was squatting and constantly shouting.

The old man wore a yellow mask with light blue stripes on it.

The mask is simple and unpretentious, but the eyes that occasionally flashed brightly make people afraid to give birth to contempt.

"How to sell this sacrificial stone?"

Fang Yue came to the old man's booth.

Fang Yue had seen the sacrificial stone in ancient books before, but it was the first time he saw the real thing.

The essence of the stone of sacrifice is the condensation of incense and the power of faith!

"Low-grade sacrificial stones, five hundred low-grade original crystals, middle-grade sacrificial stones, five hundred middle-grade original crystals, high-grade sacrificial stones, exchanged with virtual fairyland-level weapons or resources of equivalent value!"

The old man smiled brightly, showing his big yellow teeth.

How did Fang Yue look, how did he feel that under this simple mask, there was a wretchedness hidden. Trivial face.

"How much stock do you have in your hands with this sacrificial stone?"

Fang Yue was silent for a moment, then asked the old man.

The condensing of incense and the power of faith, if this stone of sacrifice is used, its value is simply beyond limit.

Fang Yue could perceive the incense and the power of belief contained in this sacrificial stone extremely solid.

However, the quality of each ritual stone is slightly small.

"For the low-grade sacrificial stone, I can provide you with 2,000 pieces a day, 500 middle-grade, and 10 top-grade! Of course, if you can become my long-term customer, I can increase the supply by about 20%. Floating quota!"

The old man was silent for a moment, and then said.

"Okay! I will leave you with a small space mark, which can be traded for a long time in the future! Give me all the sacrificial stones on this stall! These are my rewards for you!"

Fang Yue took out a bunch of high-grade original crystals and directly pushed them to the old man.

This stone of sacrifice is of great use to him.

This thing is a hard currency at the time of sacrifice, but it is common in the age of gods. Now this stone of sacrifice is a rare object!

"it is good!"

The old man accepted Fang Yue's original crystal. Originally, he just lacked the original crystal on hand, so he took out some inventory of the sacrificial stone at home and sold it.

The price he set was too high, and the stone of sacrifice was a rather unfamiliar thing.

This thing is not small, but not many people know it!

Unexpectedly, as soon as he came out of the stall, he encountered a fat sheep.

Getting started is to take away his share of goods.

The old man comes from an ancient family in the void. There are countless such sacrificial stones in his family, but the number he can bring out of the family is limited each time. This is related to his status in the family. Status has different limits.

"Abraham Ken! You can call me next time if you need anything!"

The old man showed a kind expression. To the gold master, he would never show his own arrogance.

The old man gave Fang Yue a purple communication stone. There are some in the underworld, but the price is more expensive.

The functions of the communication stone and the telephone are basically the same.

However, this communication stone can only make one-to-one contact, but the signal range of the communication stone is extremely wide, except for a few enchantments, you can contact at will!

The old man gave Fang Yue the communication stone, which also represented his importance to Fang Yue.

Because the value of a communication stone is the value of a middle-grade crystallization, it is not an important customer, he will definitely not give it out for free!

"Happy cooperation!"

"Happy cooperation!"

Fang Yue shook hands with Abraham Ken.

"Yes, I also have some gadgets of our local specialties. I don't know if you are interested and buy some!"

Abraham Ken suddenly seemed to think of something.

Finally found a gold master, how could he give up easily.

"This is a specialty of my continent-the Stone of Annihilation! This thing can be used to arrange some special formations. The Stone of Annihilation has an annihilation effect. At the price, it is about one ounce of the original crystal of one hundred middle grades!"

Abraham Ken took out another lead-grey stone.

This stone is only the size of a baby's fist. From the outside, there is no difference between the stone of annihilation and the small stone on the side of the road.

But Fang Yue could feel a faint wave of annihilation in the lead-grey stone!

The Stone of Annihilation is actually not a specialty of any place. It was born in destruction.

After some stars explode, the huge annihilation power fluctuates, and it will form an annihilation stone over time.

In the Galaxy Star Alliance, there is a lot of annihilation stones in stock, but this thing is even more side-track than the sacrificial stone!

Sacrifice stones are used for sacrifices. Although few people know about them, they are not without them.

However, the Annihilation Stone is usually used to make some one-time consumable artifacts or special talisman or as a raw material for making some special guns and bullets. There are very few people who truly understand the Stone of Annihilation. If it weren't for some special professions, they would hardly use such things.

"Eighty middle grade is the crystallization of origin!" Fang Yue bargained calmly.

The price of one ounce of Oblivion Stone for one hundred middle-grade original crystals is quite fair, even saying that Fang Yue is a big profit.

But Fang Yue didn't want a half-star of Annihilation Stone. If he wanted to buy it, it might be hundreds or even thousands of Kilograms of Annihilation Stone.

So he must suppress the unit price of the Stone of Annihilation lower!

When the weight reaches a certain level, the slight difference in unit price can also be magnified and become a huge benefit.

"Okay! Eighty is eighty!"

The old man readily agreed.

This kind of stone, which he found in the territory, has a huge vein.

There is a strong power of annihilation in it, but this power of annihilation is violent and unstable.

He has studied for many years, but he has not found out the serious use of this kind of stone.

This time someone was willing to pay this price, and he was overjoyed.

Abraham Ken is actually just a cultivator at the pinnacle level of the Great Sacred Realm in a big clan. He has been trapped in front of the virtual fairyland for almost two thousand years! It is only because of insufficient resources that it has been unable to break through!

If this transaction can be made this time, maybe, he can almost make up enough resources to break into the virtual fairyland!

### **Chapter 2245: Removal outpost**

Once he breaks into the level of the virtual fairyland, his status in the family will be greatly improved, whether it is the territory or the resource equipment that he holds, it is far from what it is today!

"I don't know how many such stones of destruction does the guest officer need?"

Abraham Ken looked at Fang Yue with scorching eyes.

Abraham Ken's heart was full of anxiety at the moment.

This annihilation stone is different from the previous sacrificial stone.

No matter how many reserves of this sacrificial stone are in the family, it belongs to their family!

He is just an insignificant peripheral member of the Great Sacred Realm level in the family, able to use his limited share to purchase and exchange at the family's internal price! What he earns is only a trivial price difference, and the profit is not very high.

But the Stone of Annihilation, he has a huge and incomparable vein in his hand. Apart from the almost insignificant mining cost, the Stone of Annihilation can be said to be a costless business.

If the other party buys the Annihilation Stone in large quantities, he will be able to trade immediately. Maybe after this transaction, he will be able to gather enough resources to impact the virtual fairyland level and try to step into the virtual fairy level.

"Give me a hundred kilograms first!"

Fang Yue hesitated, he didn't dare to say that he wanted too much.

Worried about making this guy suspicious and ruining this transaction!

But a hundred kilograms of annihilation stone is already a big deal for Abraham Ken!

The resources involved in this exchange are enough to have enough resources to attack the virtual immortal!

"Wait a minute!"

Although Abraham Ken was excited in his heart, after all, he was an antique who had lived for so many years.

Although his cultivation level is not high, he is still quite mature mentally.

In this way, the two of them completed a deal with ghosts!

Having harvested the Stone of Sacrifice and Stone of Annihilation, Fang Yue suddenly had a vague expectation for the coming war.

Fang Yue circled around at the sacrifice of Ruowu.

His harvest is unimaginable!

This kind of black market of existence and emptiness is so rich that it is unimaginable. It can even be said that as long as you can think of it, you can buy it here. The difference is just a matter of price.

But this is not a problem for Fang Yue, the human money maker!

On the way back, Fang Yue was still counting his gains this time.

Void dust, star crystal nucleus and even three drops of blood of a true fairyland beast!

Fang Yue didn't sell pill, because the price of pill and magical instruments in the black market was not as high as he thought.

Moreover, Fang Yue also worried that the pill that he sold would fall into the hands of the Void Clan, and eventually become a weapon for the enemy!

"I want to see Master Hei Gran!"

Fang Yue returned to the main city of the city of a thousand towers, and went straight to an ancient family in Dongcheng District.

The Grand family, the ancient Wang clan in the city of a thousand towers, has come from the strongest. Although they have not mastered a large number of troops, the force of the Grand family should not be underestimated.

Because the Grand family has three Grand Guards with a number of thousands of people, each member is a master at the pinnacle level of the Great Sacred Realm, and the chief and deputy commanders of Grand Sacred Realm are even top-notch figures in the virtual fairyland. Grand Guards are good at combining attacks. , It is said that every Grand Guard has killed a true fairyland-level void creature in the void battlefield!

In the Gran family, there are two more powerful people in the fairyland, and the number of true immortals in the family is said to exceed double digits!

Moreover, Grand Guard controls almost one-eighth of the wealth flow in the city with a thousand towers. It is said that behind Grand Guard is the support of the City Lord's Mansion.

"Master Hei Glan can't see a cat or a dog at random!"

A guard of the Gran family sneered and wanted to blast Fang Yue away.

The Grand family's position in the city of a thousand towers is quite special, and even the family's guards can walk sideways among practitioners of the same level.

"I came here to make a deal with Master Hei Grand! Please give me this thing to Master Hei Grand!"

Fang Yue's attitude was humble. He took out a Saint Yuan Pill and delivered it to the guards of the Gran family.

The guard showed a disdainful gaze, but as Fang Yue stuffed a high-grade original crystal into his hand, that disdain turned into a knowing smile.

Hades is aggressive, but the kid is difficult.

In Fang Yue's own words, there is no need to use physical means to solve problems that can be solved with money.

Soon, the guard made a round trip in the Gran family, and by the way, an old man with white beard and hair also walked out with him.

This old man is exactly the seventh elder Black Gran, one of the chief deacons of the Gran family.

Hei Glan is a member of the Human League.

This is news from Augusta infiltrating Fang Yue.

Fang Yue came to the joint this time, also using the identity of the League of People.

Although Fang Yue's power hasn't improved yet, his status in the League of People has silently rushed to the status of a twentieth level member.

Fang Yue's contribution in World War I in Giant Wood City was indelible. The League of People rewarded Fang Yue's massive contribution points, and forcibly raised Fang Yue's authority level in the League of People to the 20th level!

In fact, most of the members of the twentieth-level League are already at the peak of the virtual fairyland or even the real fairyland!

Hei Gelan should only be around the thirteenth or fourth level of the human league, at the level of the human league, he was completely crushed by Fang Yue.

"Is this holy essence pill made by you?"

Hei Gran hurriedly walked out of the Gran family's house. He stared at Fang Yue, his voice trembling slightly.

Hei Gran had already insight into Fang Yue's identity for the first time. Fang Yue deliberately revealed the identity token of his alliance. The tokens of the alliance could induce mutual induction. Of course, if Fang Yue puts this token If it's in a different-dimensional storage space, it needs to be another matter!

Hei Gran has noticed the identity of the members of the Human League, but he cares more about the Saint Yuandan.

Saint Yuan Pills have been refined in every civilized era, but not everyone is lucky enough to meet an alchemist who can refine the Saint Yuan Pill.

The significance of the Saint Yuan Pill is extraordinary, it can greatly increase the chance of stepping from the top of the leader realm to the level of the saint!

From a certain point of view, the Saint Yuandan is a Saint-making machine.

And the master state to the saint state is a qualitative leap in the level of life, no matter the quality of the true energy, there will be an essential improvement in the secret method of practice!

"Yes! These holy essence pills are all made by me!"

Fang Yue nodded with a bright smile.

"I wonder if the Gran family is interested in acquiring such a Saint Yuandan?"

Fang Yue casually took out a lot of Holy Yuan Pills, which in the eyes of countless people could change the fate, was displayed in batches like jelly beans in Fang Yue's hands.

"Price! How much can you provide with this Holy Yuan Pill?"

Hei Gran had no time to invite Fang Yue into the Gran family, and he negotiated with Fang Yue at the door!

"Ten Saint Yuan Pills can be exchanged for one or two Star Black Gold Stones! As for the number of Saint Yuan Pills, we can trade 500 in the first batch!"

Now, the number of Saint Yuan Dan in Fang Yue's hands is already piled up like a mountain.

After all, he doesn't need to refine this thing himself, Xiao Tie is fine, and will always come to two pots to refine the pill. For Xiao Tie, it is also an alternative practice!

The materials of this Saint Yuan Pill are not rare, Fang Yue will collect a batch for Xiaotie when he is free.

Now the Sheng Yuan Dan in Fang Yue's hands needs to be measured by a warehouse with an area in the football field. As for the specific number, he was too lazy to count.

"Good! Five hundred Saint Yuan Dan! I can exchange the corresponding Star Black Gold for you immediately, but I hope we can establish long-term trade relations in the future!"

Hei Glan did not hesitate or hesitate at all.

Whether it is the status of the undercover agent of the League of Nations or the status of the seventh elder of the Gran family, he must make this kind of transaction.

As for the Star Black Gold used for trading, although it is precious, this resource is nothing to the Gran family.

However, for Fang Yue, the black gold of the stars is extremely precious.

Star Black Gold is known as the mother of mechas.

The earth has already mastered the technology of making saint-level mechas. However, because of the lack of the necessary core material, Star Black Gold, it has not yet started work!

An average of one or two stars Black Gold can supply the core operating materials for making ten saint-level mechas!

It is not used much, but it is irreplaceable.

Fang Yue also learned from the strategy that there are a large number of black gold stars in the Gran family.

And this kind of material is precious to the Gran family, so Fang Yue put his idea on the Gran family.

Of course, selling the Holy Yuan Pill to the Gran family is also part of Fang Yue's plan.

For Fang Yue, the deal this time was two birds with one stone!

After completing the deal with Hei Grann, Fang Yue returned to the Blood Wasteland with his thirty-one slaves non-stop. This time Fang Yue's purpose was extremely strong. He went straight to a Void Clan in the Blood Wasteland. Away from the outpost.

Around the city of a thousand towers, there are countless outposts of the Void Clan. These outposts are like pairs of eyes, watching every move of the city of a thousand towers all the time!

The Void clan in these outposts are inexhaustible to kill, and the ten thousand clan in the city of a thousand towers have also dispatched people to fight against the outpost several times, but in the end they suffered tragic revenge from the Void clan.

Over time, the City of Thousand Towers gave up the idea of besieging the outposts, and the outposts that had been wiped out before have sprung up again like bamboo shoots after a rain!

Therefore, the outposts of the Void Clan around the City of Thousand Towers have become a unique landscape. A group of Void Clan whose cultivation level does not exceed the level of the Saint Realm, stares at the City of Thousand Towers every day. But there is no way!

The purpose of Fang Yue's attack this time was quite clear. He wanted to attack the outpost of the Void Clan, and he could remove as much as he could.

He and the thirty-one slaves were a total of thirty-two people. Naturally, they were divided into thirty-two groups, and they attacked different outposts.

The weakest among them is the peak level of the Saint Realm. There is no problem in dealing with outposts without saints garrisoned!

The City of Thousand Towers turned one eye to Fang Yue's intermittent demon, and didn't care about it. Anyway, this outpost belongs to the Void Clan. If it is pulled, it will be removed. As long as the Void Clan doesn't account for it. Just put it on their heads!

And the void clan is also a bit dull and stiff.

They don't know how many outposts have been established around the city of a thousand towers, and the defenders are not too strong. The absence of hundreds or even thousands of outposts has no effect on them!

Know yourself and the enemy, never slack in a hundred battles.

For Fang Yue, a veteran in warfare, he is naturally very clear about the importance of intelligence in war.

So this outpost must be pulled out, at least the outpost that affects his layout needs to be pulled out.

### **Chapter 2246: Black Wolf Team**

The next thing is to stage a horror movie scene after scene for the Void Clan!

I hope they won't be scared to pee by then!

From going to the Sacrifice of Ruowu to trade, to returning to the city of a thousand towers, clearing the outpost layout.

Fang Yue had less than a day and a half in total.

However, Fang Yue had only this day and a half to prepare before the battle!

The fourth battle of a thousand towers is divided into about three stages.

The first stage is the small stock trial stage, the second stage is the full-scale raid stage, and the third stage is the stalemate between the two armies.

The fall of the outermost wall of the city of a thousand towers is the second stage, a full-scale raid stage. Before this time, it was the small stock trial stage.

This phase began in the afternoon of the second day after Fang Yue and Rufeng met!

The scattered distribution of small teams of the Void clan began to sweep and expel the people in the city of a thousand towers on the blood wasteland.

The high-levels of the void clan are no weaker than humans in terms of intelligence, and they are also proficient in war skills.

They will never allow the presence of spies in the city of a thousand towers behind the army of their ethnic group.

At the same time, it would be great if we could draw out some big fish in the city of a thousand towers with the help of this raid!

The spearhead of the Void clan is directed at the city of a thousand towers.

The inside of the city of a thousand towers is also already gathering forces, and the mountains and rain are about to come and be full of wind!

And Fang Yue's side is ready, the rhythm of the war will not follow the rhythm expected by the void clan!

The Void Clan sent a sweeping army, and the City of Thousand Towers was also equipped with an anti-sweeping team.

Both sides took the route of an elite team, and there were rarely more than a hundred people in a team.

Such a team is more flexible when performing tasks, and has small goals and is not easy to be noticed!

Fang Yue led thirty-one of his own slaves and directly joined one of the 42-person elite squad in the Void City, the Black Wolf squad, to cooperate with the sweeping work outside the city of a thousand towers.

Let Fang Yue, such an excellent and precious talisman maker, participate in the raid work, the Tauren clan was originally unwilling.

Although Fang Yue's refining talisman was not of high level, his victory was far from constant.

As long as Fang Yue is alive, they can get a large number of freshly baked runes every day, and they can't defeat the high-end void creatures, but it is not a problem to \*\*\*\* those sage-level and great-sacred-level void creatures. However, Fang Yue was unwilling to participate in this war as a logistician.

The identity of the logistics staff is safe, but it is also difficult to affect the changes in the frontline battle situation.

Therefore, in response to Fang Yue's strong request, he still joined the anti-sweep team.

The tauren was not too worried about Fang Yue's safety, and when Fang Yue was leaving, he deliberately put a tauren imprinted scroll with the pinnacle level of the virtual fairyland into Fang Yue's

hands. If Fang Yue encounters an invincible opponent At the time, release the soul imprint of the seal in this scroll, and naturally there will be a powerful Tauren soul appearing to save his life.

Fang Yue didn't reject the kindness of the tauren clan. After all, he was such an obvious non-combatant to join the anti-mob squad. The tauren thought he was dying by tricks, and there was nothing wrong with it.

"Black Wolf Team, Wolf Shadow!"

Fang Yue's temporary anti-sweep team, the strongest on the bright side, is this big brother who is introducing himself-Wolf Ying.

He is the only strong man in this team who has reached the second level of the virtual fairyland!

Wolf Ying is wearing a white robe and holding a golden scepter that is more than one metre long in his hand, with long white hair draped over his shoulders. This looks like a senior godfather!

A faint breath of light was still diffused around Wolf Ying's body, and his smile was gentle, like the winter sun.

However, Fang Yue sensed a deeply hidden \*\*\*\* smell in Wolf Ying's body.

This wolf shadow may not seem so kind on the surface.

He is very likely a lone wolf in sheep's clothing.

"Fang Yue!"

Fang Yue briefly introduced himself.

"Talisman, he is also proficient in alchemy and formation! These are my servants!"

Fang Yue's clothes were slightly similar to Lang Ying.

Fang Yue wore a light blue robe, which was the standard dress for non-combatants. Around his waist, there is a leather bag on which is a thick stack of freshly baked talisman!

Fang Yue's smile was brilliant, as if he was harmless like a boy next door.

"As a meeting ceremony, I prepared a set of battle talisman for everyone!"

"The three runes are all at the level of the Great Sacred Realm, and one is blessed by the gods. It only takes a ray of divine consciousness to give birth to a thick layer of light armor, which can resist the void creatures at the peak of the ordinary Great Sacred Realm. A full blow or multiple attacks by weaker void creatures! Then there is the ice blue blade, which will attach to the weapon after burning and will have a frost effect, which can freeze the opponent's body and slow down the blood flow! The last one is Life redemption, at the moment of life and death, light this talisman, and a large amount of life force sealed in it will emerge and penetrate into your body!"

Fang Yue's shot was generous and generous, and each directly presented three large sacred level talisman.

This behavior of spending money is naturally the best way to pull in relationships.

Fang Yue's Fulu sent out, and the entire Black Wolf team quickly got in touch with Fang Yue.

"This time our mission is to destroy at least two sweeping teams of void creatures. This is a guaranteed mission. Upon completion of the mission, the City of Thousand Towers will reward us each with 500 points of military merit! I don't need to say more about the benefits of this military merit. It is a good choice whether it is used to exchange positions in the army or to obtain various resources!"

Lang Ying said slowly.

"If the number of strangulations exceeds two Void Clan encirclement and suppression squads, each additional Void Clan encirclement and suppression squad will gain an additional 300 points of merit for each person. In the process, killing the powerful in the Void Clan above the Void Fairyland There will be additional merit rewards!"

"This battle is naturally targeted! I have already obtained a march map of the 13 Void Clan encirclement and suppression teams in the area we are in charge of, as well as a reference map of the approximate strength of each team! Of course, this stuff is only It can be used as a reference. The rapid changes in the war, if anyone really regards this kind of thing as a reliance, they are guaranteed to die worse than anyone else!"

Wolf Ying threw out a sheet size drawing.

Fang Yue's eyes fell on the drawing.

The small letters above are densely packed, marking the surrounding landforms, as well as the specific strength of the Void Clan Encirclement and Suppression Team.

"Thirteen teams, each of them led by the void creatures of the Void Fairyland! Originally, with our power, it would be good to be able to kill two void creature sweeping teams! But with the addition of Fang Yue, we will One person got a set of talisman, I think we can try to kill three or more raid teams!"

There was something called ambition in Wolf Ying's eyes.

War, for most people, means turbulence and displacement.

But in the eyes of people like Wolf Shadow, war is a special period that destroys the peace and order and quickly opens the upward channel.

It means authority, meritorious service, and even greater strength.

"I have no opinion!"

Fang Yue smiled shyly, really like a greenhouse flower that has never experienced the baptism of war, as if he came to the battlefield this time to see the world!

"What about the rest?"

Wolf Ying looked at the members of his team.

"No comment!"

"We all listen to the boss!"

The internal unity of the Black Wolf squad, obviously, this wolf shadow has a lot of means, and it does not seem to be so kind on the surface.

"The first goal should be to kill them in the sunset slope, about 12 kilometers away, within half a time of incense. You must be clean! The distance between the encirclement and suppression teams of the Void Clan is not very far, and once they are caught in a fierce battle, It is likely to attract other teams of the Void Clan!"

Lang Ying repeatedly emphasized that this is a war, not a child's play, a little carelessness, it is very possible to take in his wealth and life!

Fang Yue nodded in agreement.

War is dangerous!

But for the time being, he is the most dangerous person in this war!

Investigate! Lurking! near!

All in one go!

The members of the Black Wolf team cooperated tacitly, and the division of labor was clear!

Obviously, this team has undergone deliberate polishing and has reached a relatively mature stage.

"Report boss, the opponent has a strong second-tier Void, 21 great saints, and 32 saints! This Void Clan team is all composed of Void Blades, acting strangely and attacking powerfully. , Bad defense!"

The report by the investigators of the Black Wolf team is simple and detailed.

He obtained the information without causing any perception of the Void Clan.

"Division of labor, our Black Wolf squad is responsible for killing the strong man and the nine great sages on the second floor of the virtual immortal. Can you solve the rest by Fang Yue?"

Wolf Shadow is a discussing tone.

After all, people's mouth is soft, and people's hands are short.

They just got a set of talisman from Fang Yue, no matter how strong it is, it would be unreasonable!

"it is good!"

Fang Yue agreed.

After the bloodline evolves, the strength of the thirty-one under him has been improved by leaps and bounds.

Not to mention that all members have been promoted to the level of the Great Sacred Realm, they also have a combat power that exceeds their own realm by one or two levels. Nalan Shuize broke through two small realms in one breath, reaching the fourth level of the Great Sacred Realm!

If there are more than 30 great sages of the twelve great sages of the Qianbeng Xukong clan, plus 32 sages, if they sneak attack with mental arithmetic and unintentional, if this can't be won, then these people under his can apologize for themselves!

This time is the only opportunity for Fang Yue to accumulate merits, only enough merits can enable Fang Yue to have sufficient voice in the city of a thousand towers.

The right to speak is one of the foundations of his follow-up plan!

Of course, according to Fang Yue's own plan, the status he needs in the early stage does not need to be too high.

Quietly!

The swish cold arrow suddenly pierced the air.

The tip of the arrow is poisoned, and a faint blue light blooms under the cold moonlight.

Three of the Black Wolf squad are good at long-range shooting.

The three shot arrows at the same time, which was the first wave of sneak attacks!

Three arrows travel through the air, hundreds of meters away in the blink of an eye!

The three-headed heads of the Void Blade at the Great Sacred Realm level were exploded!

The blade of the void has an incomparable attack, but in terms of defensive power, it is really terrible!

#### **Chapter 2247: Carefully arranged**

"Enemy attack!"

The fall of the three-headed void blade has won precious reaction time for other void creatures.

The other void blades reacted quickly!

"Fang Yue, split up!"

Fang Yue reminded the wolf shadow.

However, Wolf Ying's voice did not fall.

Fang Yue's team was already missing one.

Nalan Mizusawa didn't know when he was gone.

Immediately afterwards, all the Void Blades gathered towards the location of the crime!

"Do not!"

A Void Blade felt the discomfort of the body, the power in his body quickly faded, and soon his face turned purple and blue, breathing hard, and entering a state of dying.

This is a blade of the void of the eighth level of the Great Sacred Realm. According to the truth, it is not weak, and it is not invading.

But now, he is indeed a symptom of poisoning, and it is still that deadly poison!

"Dark Roland! I left a little bit when I took revenge back then. I didn't expect it would have an effect on the Void Blade, but unfortunately, I didn't have much measurement left in my hand. I could only kill the three-headed Void Blade at the Great Saint Realm level! "

When Nalan Mizusawa returned, she wrapped her whole body in a black robe, and a faint black mist hovered around Nalan Mizusawa's body.

Nalan Mizusawa at this moment is more like a devil crawling out of hell, mysterious and terrifying!

With the voice of Nalan Mizusawa falling.

The other two Void Blades at the Great Saint Realm level were poisoned.

Their symptoms are exactly the same as the previous Void Blade!

Death is coming!

This Void Blade didn't know who the other party was, and the six-headed Great Sacred Realm level Void Blade had already died.

Fang Yue showed a cold smile.

"I didn't expect this Void Blade to be stupid than I thought!"

Lang Ying glanced at Fang Yue deeply. This seemingly harmless young man was far less gentle and deceptive than he seemed.

The six-headed great holy realm-level void blade fell.

Their confidence has greatly increased!

"Array! Kill the enemy!"

Wolf Ying let out a cold voice, and all his soldiers took their orders and began to lay out to kill the enemy!

Every member of the Black Wolf team is well-trained.

They divided into three waves and arranged three battle formations.

The iron shield formation is responsible for guarding and resisting.

The angel's blade is a melee attack.

Eternal fort, long-range bombardment.

The three battle formations are neither sophisticated nor complicated, but they cooperate with each other and are well-founded, but they are extremely suitable for deployment during war.

The blade of the void was killed, and the icy blade lights danced all over the sky.

A faint metallic luster was condensed on the iron shield array, and all the blades falling on it were blocked, and there was even no trace left on the iron shield array!

"This iron shield is so tough!"

When Fang Yue saw this scene, his heart trembled involuntarily.

The blade of the void is good at attacking and killing, which is well known in the world. In the same rank, the sword energy of the void is known as invincible.

Not to mention the level of the Great Sacred Realm, in general, even a virtual immortal would not dare to resist.

But this iron shield formation blocked it abruptly.

Seeing Fang Yue's surprised expression, Lang Ying couldn't help but secretly proud.

He explained: "Although this iron shield formation is just a basic battle formation, its power is also related to the practice of the caster and the cooperation between them! The eight people in our Black Wolf team are practicing The defensive exercise "Jade Armor Gong", their exercises are of the same origin, and the true energy is interoperable. The iron shield array displayed can withstand the full blow of even the third and fourth layers of the virtual fairyland!"

The Black Wolf squad showed Fang Yue a truly professional war squad. From the beginning of their practice, they have been serving the war, the shadow of killing, and the nightmare of the enemy!

When the Iron Shield Array blocked the Void Blade's attack, the three archers of the Black Wolf Team shot again.

The stern arrow engulfed the whistling wind and slew towards the three-headed saint-level void blade.

In the past, they had mental arithmetic and unintentional, so they were able to kill a Void Blade at the Great Sacred Realm level. Now this is facing the gong, they want to shoot the three Void Blades at the Great Sacred Realm level so hard. It's just wishful thinking.

So they can only retreat to the next best thing and replace the target with a saint-level void blade at a lower level.

If the enemy's vitality is less by one point, their odds of victory will be increased by one point.

The soldiers of the Black Wolf Squad are never picky eaters!

The marksman of the Great Sacred Realm level dealt with the Void Blade of the Saint Realm level. Their divine consciousness locked the opponent's vitality, and the divine consciousness flickered, and the sage of the Void Blade could not move at all.

Flop, flop, flop!

Three blood flowers splashed, followed by the fall of the saints in the three void blades.

Their vitality quickly receded, as if the flowers withered, after the brightly blooming, they became cold and silent.

The eyes of the archer of the Black Wolf team are still indifferent and calm. It seems to them that hunting the void creatures is like eating and drinking water and can no longer cause any waves in their hearts!

"The members of these Black Wolf squads are probably all professional soldiers! And they are the kind of elite troops. Whether it is the well-trained battle formation or the extreme indifference, they are not ordinary mercenaries or casual repairs. What you have!"

Fang Yue had a preliminary judgment in his mind.

It seems that they have mixed into an incredible team this time.

The Black Wolf squad, including Wolf Shadow, has a lot of history.

At the same time, the Eternal Fortress condensed, and dots of white light were bluntly extracted from the void.

The light spots rushed crazily, and finally turned into a cannonball and exploded in the direction of the post.

"Do not!"

The eyes of the void creature at the virtual fairyland level opened in anger, and he used secret techniques to evolve a huge black hole to absorb the milky white shell the size of a human head.

However, the cannonball fell into the black hole and showed a strange twist.

The suction of the white shell and the black hole stalemated with each other.

By the way, the void creatures of the void realm level can only struggle to maintain the black hole, and dare not make any bigger moves.

"This Eternal Fortress seems to be a bit particular! The shells condensed in it are definitely not a simple condensation of the power of light!"

Fang Yue said to himself.

If it were the shells condensed by the power of light, it would have been absorbed and assimilated by the black hole.

However, this shell is capable of constantly absorbing the surrounding light particles and the black hole is restrained by a stalemate.

"Holy baptism!"

Lang Ying's face showed a fatherly smile, everything was under control!

He raised the scepter in his hand, and in the sky, golden clouds fell and gathered.

The clouds are shining, bright and dazzling.

At the same moment, golden light rained down, purifying the entire world.

The blades of the void are all wrapped in it, and the drops of light and rain seem to have no lethal power.

However, those void creatures showed horror, avoiding them for fear.

"Purification of light and rain, a branch of the purification of light in the three thousand treasures, it is said that the combination of the two secret arts of purification of light and rain and sacred prayer can piece together a complete three thousand treasures of light and rain!"

A look of wonder appeared on Nalan Mizusawa's face.

Obviously, from a big family, she has a deeper understanding of the practice system of this era than Fang Yue and others.

"The greatest effect of purifying the rain of light is to wash the killing intent of the living beings. Once the killing intent is dissipated, the hungry wolf will become a soft lamb!"

Nalan Mizusawa explained.

"What kind of ghost power is this?!"

For the first time, Fang Yue heard that there is this magical secret technique that can affect people's will and killing intent.

Obviously, this kind of secret technique is more difficult to guard against than secret techniques such as killing fantasy.

The void creatures quickly escaped from the purifying light rain range, but the killing intent in their hearts at this moment was greatly reduced, and they even hesitated to act.

"Only three breaths! These Void Blades react very quickly, and this Purifying Light Rain does not corrode them too much! After three breaths, they will restore their previous killing intent!"

Langying's words were obviously said by Fang Yue.

The others in the team are very familiar with this ability of Wolf Shadow.

Auxiliary system, but more terrifying than any attack.

The arrows of the \*\*\*\* archer burst out of the air, and the killing intent was directed at the soldiers of the saint realm of the blade of the void.

Safe, old and spicy.

This is Fang Yue's evaluation of these archers.

They did not choose the more powerful Void Blade of the Great Sacred Realm to take the risk, but chose to weaken the vital power of the Saint Realm in the Void Blade in the most secure way.

There were too many ants and killed the elephant.

What's more, these sage-level void blades are not weak, and they are not really ants!

The Eternal Fortress has once again condensed the elements of light, preparing for the second launch.

Under Fang Yue's command, the thirty slaves of the Great Sacred Realm other than Quanalán Shuize also assembled for battle, arranged into a snowflake shape.

Fang Yue didn't have time for them to master a more complex battle formation. This snowflake battle formation was both offensive and defensive, and could even be dispersed in groups of six to form five smaller battle formations.

Nalan Mizusawa was responsible for the coordination of the dispatch in the bureau and secretly attacked.

Fang Yue played soy sauce all the way, and he was not suitable for this level of war.

If he makes a move, the others won't have to fight!

This time, Fang Yue pretended to be a scientific researcher, this person can't easily collapse!

The Snow Battle Array was advancing in the direction of the Void Clan, and pieces of snow really fell from the Void. These snowflakes have sharp edges, like a knife.

Snow is all over the sky, and the world is frozen.

These snowflakes seem to be endless, making people nowhere to escape, nowhere to hide.

The blades of the void gathered and formed their own battle formation.

I suppressed the killing intent so I couldn't force the attack, but could the defense still not work?

A layer of milky white mask emerged. The mask was very thin, like an eggshell, but it was extremely tough, and even the snow covered the sky with a milky white mask.

"Thirty human races who have just entered the Great Sacred Realm level have joined forces to set up a battle formation, and they can't even break their defenses. This is really embarrassing!"

Fang Yue covered his face, he didn't expect that his subordinates would be off the back of the entire team.

"Brother Fang Yue, don't be upset! All those who are going out this time are the elite teams of the Void Clan. They are good at all kinds of cooperation hunting, not to mention, they are still next to the newly established post! There is a Void Energy in this post. The formation can provide them with at least 30% increase in power within 100 kilometers! You are a scientific researcher and have never experienced a large-scale war. Some mistakes in the first shot are inevitable!"

Wolf Ying comforted.

This battle went extremely smoothly.

Even without the help of Fang Yue and his men, the Black Wolf squad should be able to obtain the final victory.

Therefore, Lang Ying didn't pay much attention to Fang Yue and the combat power of his men.

What kind of outstanding combat power can a talisman who comes out to see the world have on the front battlefield?

### **Chapter 2248: doubt**

At this time, a faint spatial fluctuation spread from Fang Yue's side.

A big holy realm-level void blade appeared behind Fang Yue.

The brain of this Void Blade is also very useful!

Can't do your combatants, but you can kill one of your non-combatants!

Fang Yue's weak aura in this team in the city of a thousand towers is only the second level of cultivation realm of the Saint Realm.

"not good!"

Lang Ying's face changed suddenly.

The previous smoothness made him ignore the sneak attack by the Void Blade.

As a scientific researcher, Fang Yue's defense capabilities are really worrying.

The blade of the void was slashed out, and the scene of the fragile human race in front of him was completely broken in his mind.

Blood dripping, brains all over the floor.

Think there is a little excitement!

Then, a piece of Fulu stuck his face.

The yellowed talisman paper fell on the head of the void blade, the talisman burned, and masses of underworld fire fell.

The blade of the void instantly turned into ashes under the burning of the dark fire, and it was blown away in the wind.

A great holy realm-level void blade fell.

Wolf Ying showed a bitter smile... It seems that he has a certain misunderstanding about the combat effectiveness of scientific researchers.

A talisman with sufficient talisman is a mobile fort!

"boom!"

The second light cannonball has fallen into the camp of the void clan.

The light is covered, like a falling sun!

The thin mask can hardly withstand the burning and corrosion of the power of light, and soon the thin mask is eroded and dissipated by the power of light at a speed visible to the naked eye.

As the cover dissipated, the three-headed Void Blades of the Great Saint Realm level suddenly looked at each other, and they disappeared in place at the same time, appearing beside the wolf shadow.

Shoot the man first, shoot the horse, catch the thief first, catch the king!

They already understood that the commander-in-chief of this black wolf team is Wolf Ying.

Although the wolf shadow is a powerhouse at the imaginary fairyland level, the void creatures are not imaginary.

On the battlefield, the realm of cultivation is not so exaggerated that there is a possibility of victory!

What's more, these three void blades think that their blood is far beyond the ten thousand races.

Relying on the advantages of the ten thousand clan, it is not impossible for them to perform a combination of secret techniques to kill the virtual immortal.

As long as this evil first dies in battle, the opponent will immediately fall into a state of no leader in the group of dragons, and when they get it, the little reptiles that come out of these thousand towers city are not at their disposal. kill.

However, they found the wrong enemy again!

Since Wolf Ying can become the leader of the Black Wolf team, how can he be a weak one?

Three Void Blades instantly appeared in front of Wolf Ying.

"Hello there!"

"Goodbye!"

Wolf Ying said two words naughty, and then the three-headed Great Sacred Realm-level Void Blade exploded directly on the spot!

Even Fang Yue didn't understand how these three void blades died.

"There are more powerful mid players! This is the real strong, this is the real war!"

Fang Yue couldn't help sighing.

He had heard Augusta tell him a long time ago that the real powerhouse in any era came from the army.

Their talents may not be the strongest, but after struggling with countless life and death, they know how to develop their potential to the maximum! And one soldier and two soldiers may not be a big deal, but when this number becomes extremely large, you will find that even those who are several great realms above them are in danger of being beheaded!

Fang Yue had this feeling after seeing the Black Wolf team, and Wolf Ying's shot made his feeling stronger!

The talent of this wolf shadow may not be high, but his command talent and combat ability are definitely the most outstanding on the battlefield!

The raid team of the Void clan now feels soft!

At this time, the opponent was still unscathed, but their side was already suffering heavy casualties.

"retreat!"

The imaginary wonderland powerhouse in the blade of the void shouted.

He made the most sensible and clear decision.

He was restrained, the most powerful combat power of the Void Blade could not be displayed, and the others were not even the opponents of the Old Yin Bis in the city of a thousand towers.

If you don't leave now, you may not be able to wait a while!

However, they did not expect that it would be too late to leave now!

"The spring is splendid, so beautiful! Why should you leave in a hurry?"

Fang Yue walked out with a bright smile, a talisman burning in his hand.

A faint blue light fell on the ground.

A strong vitality bloomed from it.

I don't know when, dozens of seeds have been planted at the feet of the Void Clan.

Under the urge of vitality, these seeds quickly broke the soil and sprouted!

Vines like baby arms emerged from the ground, entwining the bodies of these Void Blades!

The appearance of these vines is so abrupt, that these Void Blades don't even have time to react!

"these are....."

The faces of those void blades showed desperate expressions.

"Void vines! I bought their seeds in the Sacrifice of Ruowu! The profiteers are all black running water. These dozens of seeds cost me 100 cents to get the original crystals!"

Fang Yue showed a heartbroken expression.

And the blade of the void is sad!

Void Vine, this is the natural enemy of Void Blade.

Once entangled by the Void Vine, the power of space in their bodies will be quickly absorbed and swallowed! And under the restraint of the Void Vine, any of their spatial power could not be displayed.

For the Void Blade, who used the power of space to eat, it was the same as the death penalty.

However, fortunately, there are not many void vines in the void. Generally, the Void Blade would avoid it.

But who could have expected that this insidious and despicable fellow didn't know where to get so many Void Vine seeds, which became their death stimulus after spawning!

The Void Vine swallowed all the Void Blades, from the Void Immortal to the Saints, none of them could escape the Void Vine!

At the same time, the Void Vine was also growing as it swallowed. Hundreds of Void Vine criss-crossed, and a seed was born on the Void Vine.

Fang Yue roughly calculated that there were more than 500 of these seeds.

"Void Vine can make weapons like vine whips, which have extra damage to void creatures. For Void Blade, the damage of weapons made by Void Vine can be doubled! Of course, this thing can also be made into The vine armor greatly weakens the damage caused by the power of space!"

Wolf Ying is very knowledgeable, and he obviously doesn't want Fang Yue to suffer.

Basically all this victory can be attributed to Fang Yue.

Although they also have some contributions, the share of this contribution is extremely limited compared to Fang Yue.

"Thank you Brother Wolf Shadow for your reminder!" Fang Yue smiled and put away the Void Vine and the seeds of these Void Vine. This thing is like a nightmare to the Void Blade, at least the Void Blade below the true fairyland sees the void Fuji has no choice but to turn his head and run!

"This battle thanks to Brother Fang Yue! Otherwise, you will inevitably face some unpredictable losses!"

The wolf shadow Fang Yue was still polite.

"It's just a coincidence. If it weren't for the help of the Void Vine, I would have to spend a lot of money to kill these Void Blades!"

Fang Yue is not arrogant, he still wants to keep a low profile and pretend to go on.

This wolf shadow team is his best umbrella.

Otherwise, he, a talisman of the Saint Realm, led more than 30 slaves of the Great Saint Realm to run wild in this \*\*\*\* wasteland, and he would definitely be doubted by people.

"Wisdom is also a kind of strength. Many people on the battlefield have no strength but no wisdom comparable to it. In the end, they can only die in the endless swamp of war! The one who eventually survives is often not the one with the most powerful force. People, but people with both wisdom and force!"

Wolf Ying sighed.

Afterwards, both sides began to divide the spoils.

The wealth of the Void Blade is very high, and after an agreement between the two parties, he still chose to divide it in half.

Although Fang Yue contributed the most in this victory, he didn't want to cause conflicts because of this trophy!

So Fang Yue proposed a 50-to-five division method, and Lang Ying declined, and finally agreed.

It's not that Wolf Ying is brazen and wants to be greedy for Mexican loot.

It was because he was not alone and the Black Wolf team behind him was playing this time.

Everyone is living a life of licking blood on the tip of a knife, and never fighting for dreams and justice.

They want to quickly accumulate resources to improve their cultivation in the war, break through their limits in the battle of life and death, and continue to grow stronger.

In the war, the merits of the city of a thousand towers are only part of this benefit, and more resources come from the distribution of post-war spoils!

Only more resources will stimulate the expansion of their ambitions and give them stronger courage in the fight!

This victory has given every member of the Black Wolf squad enough benefits. Next time, they will kill the enemy even harder!

"War is always a meat grinder! Only life and death, there will never be justice or evil!"

Fang Yue sighed, and then they began to attack and kill other void teams.

Fortunately, they soon met the second raid team of the Void Clan.

Fortunately, this raid squad has been crippled before. The whereabouts of the leader of the virtual fairyland is unknown, the Great Sacred Realm has been damaged more than half, and the rest are wounded!

Under the guidance of Wolf Shadow, the Black Wolf team killed the opponent in less than a cup of tea.

A big victory made the morale of the Black Wolf team soar!

"What the \*\*\*\* is this Fang Yue doing? This war is about to begin! He is still messing around in the anti-mob squad to fish in troubled waters!"

In the outermost wall, an old man of the Celestial tribe with white beard and hair was slightly irritable.

He is a strong man of the eighth level of true fairyland sent by the gods to the city of a thousand towers, and he is also one of the three true fairyland gods under Rufeng!

"This Fang Yue is just one of our helpers this time! Hasn't the Sky Demon Race already begun to gather manpower? Also, the Human Race's Sky Demon Race has already received a similar task, the Dark Demon Race's side. Hei Bufan has joined in! Although the various races have ghosts, their strength is not weak overall, and everyone's goal is to preserve the origin of the universe in the city of a thousand towers! This thing is the core of the power to deal with the calamity, if it is If the origin of the universe is

lost, all the forces that enter the city of a thousand towers this time will be unlucky and will be severely punished!"

Rufeng didn't have the slightest tension, he delivered a peeled amethyst grape to his mouth!

For this action, he didn't have a specific plan in his mind, but the final outcome was already in sight.

### **Chapter 2249: Can't catch up**

"But all races are here, fighting each other! If the strength of all races is consumed in the internal fight, and eventually a defeat is caused, and the peach is picked by the void creature, it will be really not good!"

The old man of the True God Realm of the Celestial Clan still looked worried.

This action will really concern the fate of the future underworld!

The city of a thousand towers is a very special city.

It can be preserved from the last civilization era to the present day, which has proved the particularity of this city of a thousand towers from a certain angle!

The success or failure of this operation is even more relevant! If something goes wrong, it will be difficult for all races to end.

"Don't you think that only you can see this kind of thing? Don't worry! Those old guys hiding in the dark are all cunning! The ten thousand races really need a force to intervene, if I expected If it's not bad, the people of the Ten Thousand Clan Alliance have been waiting for a long time in the City of Thousand Towers! It's just that it's not time for them to come forward. If the time comes, they won't even be able to come forward!"

A smile spread from the corners of Rufeng's mouth, but there was always a hint of coldness in his eyes.

"Boss Wolf Shadow, did you say that the void creatures were convulsed this time? What a good way to mobilize troops to attack my city of a thousand towers! Whether you win or lose, the void clan will surely lose a lot this time, maybe other races will take advantage Enter, start with their lair!"

Fang Yue seemed to chat with Wolf Ying once and for all.

The origin of this wolf shadow should not be simple!

The Black Wolf squad under his command is well-trained, and it is not comparable to an ordinary mercenary squad, whether it is to assemble a battle or to kill an enemy.

In Fang Yue's estimation, this Black Wolf team was either a strong team that didn't know which force sent out to investigate the enemy's situation, or it was a team that had experienced military experience and had complicated origins!

But no matter what the situation is, this wolf shadow should not be easy!

At least they know a lot more than outsiders like Fang Yue!

"Who said no!"

Lang Ying avoided the topic and ignored Fang Yue.

But Fang Yue is more and more certain, what should this wolf shadow team know!

Fang Yue's purpose of bringing people to this \*\*\*\* wasteland to eliminate the Void Clan's raid team is not pure.

The purpose of this Black Wolf team should be more impure than him!

"The strangulation missions of these two sweeping teams have been completed, and we have to go our separate ways! I just received a special mission, and I can't kill the enemy with Brother Fang Yue!"

Lang Ying seemed to deliberately wanted to keep away from Fang Yue.

He was leaving with his Black Wolf team.

Fang Yue couldn't help showing a look of surprise.

He finally got a protective umbrella. Before he really opened the umbrella, the umbrella was about to go.

However, Fang Yue quickly recovered, and he showed a faint smile.

"If this is the case, it would be a pity. I also hope to fight with the Black Wolf squad brothers to kill the enemy! Since the Wolf Shadow brothers have something to do, then I can't stay more! May the Wolf Shadow brother go well! "

Fang Yue simply bid farewell, without any pretense to stay.

Because Fang Yue knew that it was useless to keep him. People like Wolf Ying seemed to have a gentle personality, but in reality no one could change the decision he made.

However, Fang Yue did not feel frustrated because Wolf Ying had parted ways with him.

Because the more this wolf shadow decides to disband at this time, the more proof this wolf shadow actually knows.

As for what the wolf shadow knows, Fang Yue is difficult to judge, but what he knows must be related to the source of this war.

Fang Yue's swiftness surprised Lang Ying, and he thought that Fang Yue would say something to himself.

But this is also good, save ink.

The two sides greeted each other, and then it turned into two teams of people running their own things!

Nalan Shuize looked at the back of Wolf Ying's departure, thinking further and further, she said to Fang Yue.

"Master, let them go like this? Then our previous efforts were all wasted?"

Nalan Shuize vaguely knew that Fang Yue's incorporation into the Black Wolf squad had some ulterior motives.

Obviously, Fang Yue's goal had not been achieved yet, and the wolf shadow left with the black wolf team.

"It's going to rain, and my mother is going to marry someone. Some things can't be stopped! If the wolf shadow wants to go, let him go! After he is gone, we can better catch the creatures of the void clan to interrogate this. The source of the second war! This void creature is very good. Choosing this time to assemble soldiers and horses to attack the city of a thousand towers, they must have come with a purpose! With the black wolf squad, we have to catch a living void creature. Be careful! Now that the Black Wolf squad is gone, we can just let it go!"

Fang Yue thought clearly.

But he did not share his thoughts with Nalan Mizusawa.

Fang Yue actually had a decision in his heart, if this wolf shadow looked at the same level of practitioners in this battlefield, it would be considered a not weak existence.

But compared with Fang Yue, he still does not exist on the same level.

When Fang Yue said goodbye to Lang Ying, he had planted a ray of divine consciousness on Lang Ying's body.

This wolf shadow's every move is under his supervision.

Wolf Ying, who had relaxed his vigilance, might reveal some secrets in his words and actions.

Fang Yue is now advancing in two lines. On the one hand, he is counting on Wolf Shadow to provide him with some effective information. On the other hand, he has to take the initiative to capture a few void creatures alive to understand the truth.

Without the constraints of the Black Wolf squad, Fang Yue let it go, his spirit sweeps away, and soon he found a sweeping team of void creatures less than one kilometer away from him.

"go!"

Fang Yue led Nalan Shuize and the others in that direction.

They didn't mean to hide their breath at all.

The sweeping squad composed of void creatures is heading straight towards Fang Yue and the others. Originally, they appeared in this \*\*\*\* wasteland to kill the brave skirmishers dispatched in the city of a thousand towers.

Moreover, Fang Yue's team didn't even have the aura of a virtual fairyland powerhouse, and the strongest was Nalan Shuize, a mid-level practitioner of the great holy realm.

Fang Yue's team, walking in this \*\*\*\* wasteland, is simply a beacon in the dark for the void creature team, and the fat sheep among the hungry wolves.

"My lord, be careful! Void creatures are approaching! I'm afraid there is a strong person on the fourth level of Void Wonderland, so don't be careless!"

Nalan Mizusawa has a keen sense of consciousness. She has sensed the opponent's level of strength less than one kilometer away from the void creature team. Lan Shuize still had insight into the other's existence.

"Are you talking about this guy?"

Fang Yue didn't know when he had already appeared in the Void Creature Rescue Team.

Nalan Shuize didn't even see Fang Yue's move, and this void creature team had been destroyed by the regiment!

Forty-one sage-level void creatures, twenty-five great sages, their corpses were neatly arranged on the ground, without a trace of wounds on their bodies!

Fang Yue also carried a shadow of the void on the fourth floor of the Void Fairyland!

All the power in this void shadow at this moment has been completely sealed, and his combat power at this moment is not as good as a rabbit.

The rabbit can still kick, but he doesn't even have the strength to kick!

"Let's talk! What is your purpose of invading the city of a thousand towers this time?"

Fang Yue asked indifferently, without any urgency.

"I'm waiting for this to be ordered to act, and I don't know it. I want to kill or kill as much as you want! My Void people will never surrender!"

This empty shadow looks like a generous go to justice.

However, Fang Yue swung his knife and really ended the shadow of the void.

Blood splashed, and his head was in a different place.

Fang Yue killing a shadow of the void at the level of a virtual fairyland is like cutting melons and vegetables!

Nalan Mizusawa and others were dumbfounded!

They were still worried about the master's safety just now!

Worry about the fart, worry about it, this time it seems that I really hugged my thigh!

Killing a virtual immortal is like killing a chicken.

Is this Fang Yue really a practitioner of the Saint Realm?

His strength is so strong!

I am afraid that most powerful people who have just entered the real fairyland do not have such means and strength!

"Remove all the armor and the like from the corpses of these void creatures! Collect it, turn it back into a resource and provide you with cultivation! Although your fighting consciousness is not weak, your cultivation level is still too low after all! Put you on this battlefield, I am afraid that after three days there will be only bones! If you really want to follow me, try to improve your strength! Otherwise, this operation is over, I will take your slaves All the contracts are untied, and you and I will never know each other again!"

Fang Yue's words made Nalan Mizusawa and the others slightly shocked.

According to the truth, leaving the slave contract and regaining freedom should be what they dream of.

But now they heard Fang Yue say that, they all felt a bitter!

This feeling of being abandoned is really bad. Before they were captured and become slaves, they were all arrogant and ambitious strong men, if Fang Yue abused them. Treating them, they break free from the shackles with their own strength and regain their freedom, then their hearts are full of joy.

But now, Fang Yue treats them well, improves their bloodlines, bestows talent, and also gives them a lot of resources to improve their strength.

If it is because they are not able to keep up with Shangyue's pace, they will be ashamed forever in their hearts if they are disgusted and cancelled the contract!

"I will seize this opportunity to practice well. I dare not say anything else. I will at least break through a small realm within a month and take my combat power to a higher level!"

Nalan Mizusawa promised!

It's not that she refuses to make progress in her practice, but because she could not keep up with her practice resources before, plus her limited talent in practice, so she did not advance all the way to a higher level.

Now, Fang Yue has given her enough resources and made up for her shortcomings in talent. If she can no longer step into the virtual fairyland level, she can really wipe her neck and commit suicide!

Others also expressed their opinions one after another, willing to improve their strength to play for Fang Yue.

Fang Yue didn't make a statement, in fact, he didn't have much hope for these people.

Today, the level he involves is too high, and the real enemies are the arrogances of all races of the same time! There are also some older generations of people who are often at the level of the real fairyland. If these people join in, there is probably only a dead end.

However, if they are willing to make progress, they may be able to bring out the city of a thousand towers and integrate it into Yongfeng Town in the near future.

After all, these people are also the combat power of the Great Sacred Realm level. As long as it is not involved in this kind of epic-level battle, ordinary small fights still have enough voice.

**Chapter 2250: Holy spirit**

"If one team is not enough, find two more teams! Anyway, one of the purposes of coming to the Blood Wasteland this time is to accumulate enough military exploits!"

Fang Yue is barefoot and not afraid to wear shoes. If he really couldn't investigate the reason, he would paddle the whole way.

He would rather not have this kind of remuneration than to be a gunman so confused.

Soon, Fang Yue's team accelerated.

Fang Yue's spiritual thoughts are like waves, covering all directions. He wants to capture the whereabouts of the void team, it is as simple as eating and drinking water.

In just half an hour, Fang Yue had already killed eight void squads. The standard of these void squads was unified. They were all led by a void creature at the fairyland level, and the void creatures at the great sacred realm and sage level were responsible for their cooperation. !

Under Fang Yue's interrogation, he finally got some answers and replies.

These replies made Fang Yue a little speechless, and every answer was different. Some people said that the Void Clan was revived recently because of a king who is suspected of having the strength of the Immortal Monarch realm. The Void Clan's strength has risen sharply. , Shot against the city of a thousand towers. A large number of top powerhouses in the city of a thousand towers will be controlled by the king of the void race, and will have no time to take care of this war.

It is also said that this time the Void clan launched the war to plunder the foundation of the city of a thousand towers. The city of a thousand towers can exist in the void for so many years because there is a rare treasure in the city of thousand towers. If the void creature can obtain this rare secret treasure, it is possible to build an important city of the same scale as the city of a thousand towers in the void and stand immortal in the void.

There are two or three versions of other rumors, but Fang Yue feels that these two versions of rumors are the most likely to be true. Of course, it is also possible that all the rumors are false, but the smoke bombs released by the Void family confuse everyone!

At the same time, some news came back from the spirit of Fang Yue attached to him from the wolf shadow side. Wolf Ying inadvertently talked about this incident in a chat, and he didn't fully understand the reason for this void creature's siege. But Wolf Ying vaguely knew that the siege of the void creature seemed to be related to the origin of the universe in the city of a thousand towers. Three thousand years ago, there was also a fierce confrontation between the void creatures and the city of a thousand towers, the purpose of which was to compete for the origin of the universe in the city of a thousand towers.

In the city of a thousand towers, every tower of the void can absorb the uninterrupted origin power of the universe in the void. After these origin powers are rich to a certain degree, they will form a solid universe origin.

The origin of the universe is extremely precious.

Even the origin of the universe the size of a grain of rice is more valuable than a powerful person at the real fairyland level.

The origin of the universe can assist the enlightenment and increase the speed of enlightenment a hundred times!

This thing has a fatal temptation for some powerful people who have entered the peak of the immortal and are stuck at the bottleneck.

For the origin of the universe, Fang Yue felt the most reliable.

Because he suspected that the pale golden breath reward he got in the Void Tower was the so-called diluted version of the origin of the universe.

Fang Yue had already tasted the sweetness. If he hadn't been helped by the pale golden aura, he would definitely not be able to break through to the consummation of the Great Dao of Earth in a short period of time.

"If that thing really is the origin of the universe, then I have to follow it anyway!"

Regardless of the breakthrough in Taoism or the reward of Tao's will obtained after Tao's completion.

All these made it difficult for Fang Yue to resist the temptation of the origin of the universe.

Fang Yue became more active on the battlefield, and he began to kill the sweeping team of void creatures with higher efficiency.

Three hours later, Fang Yue had already killed thirty-two teams of void creatures, and the corpses in the storage space piled up like mountains.

"Receive the team!"

Fang Yue glanced at the military merit medal on his body.

A faint red light gleamed faintly above!

This military merit medal is only a relatively low bronze level, and the merit record has a certain upper limit.

In fact, the bronze medal of military service is not the lowest medal.

Below this is the Black Iron Grade Military Meritorious Medal.

"The upper limit of a bronze medal of military merit is six thousand military merits! If it is not enough, ordinary people should not know this upper limit rule. After all, ordinary people will not be able to obtain so many merits after a war! And those who can obtain so many merits are in the thousands. There should be a higher status in the city of towers, at least the strong in the real fairyland, and the strong in the real fairyland will never wear the bronze medal of military merit!"

Fang Yue tore off the bronze medal of military merit.

The faint silvery white layer above shimmers!

Subsequently, this bronze military medal of merit, which had reached its bearing limit, turned into a ring.

Fang Yue put the ring on the finger of his left hand.

An illusory light and shadow descended!

This is a woman with a graceful figure, enchanting figure and good-looking face. She wore a translucent white gauze that gave people a hazy temptation and a sense of holiness!

"You are the Holy Spirit of the Void Tower? I felt a familiar feeling in your body!"

Fang Yue looked at each other.

He was not fooled by the opponent's appearance.

"Yes, powerful warrior! I didn't expect to be lucky enough to meet you in this way!"

The woman's voice was ethereal and fascinated her soul, and her black eyes were as pure as obsidian.

"This bronze medal should have the ability to absorb the souls of the void creatures that died in battle! Therefore, this thing is essentially a vessel, and the so-called merit value displayed on it represents the soul of the void creatures absorbed. the quality of?"

Fang Yue played with the bronze medal and said with a smile.

"Yes! This bronze medal is indeed a vessel researched by the strong in the city of a thousand towers to carry the power of the void creature's soul!"

The Holy Spirit did not deny that everyone is smart.

Otherwise it doesn't make any sense.

"But let me guess, it's not that you will appear when the merit of every medal is overflowed! I just felt the brand of the Void Tower left on me, so you can use the brand of the Void Tower. To locate my position! Then the astral power in this bronze medal is absorbed by you to provide you with the energy to descend!"

Fang Yue said to himself that he was constantly speculating and restoring the truth of the matter.

This is very important to him!

He can only know what the real purpose of this war is after he understands part of the truth.

"Yes, the merits in the ordinary medal are overflowing, and this medal will also produce changes. The medal will merge into the void and be taken back by me. I will also lower the corresponding reward for him! However, because you are my former substitute, there is my mark in the body! That's why I chose to appear in front of you!"

The Holy Spirit's patience is very good, and he is not bored at all. Instead, Fang Yue's wisdom made her feel more at ease and handed Fang Yue the next task!

"So, all the truth has surfaced! The so-called city of a thousand towers, the confrontation between the so-called city of a thousand towers and the void creatures, is essentially a conspiracy of both parties! The most precious of the city of a thousand towers Things are towers of the void one after another! These towers of the void have the ability to transform the corpses and souls of the void creatures into the origin of the universe! The void creatures, as the name suggests, come from the void! The creatures of this race are probably essentially eroding the universe The origin is born! And the tower of the void extracts the power of the origin of the universe. When the power of the origin of the universe reaches a certain amount of accumulation, the upper level of the void creatures will send troops to attack the city of a thousand towers, and force the city of a thousand towers Hand over the origin of the universe!"

Fang Yue's words made the Holy Spirit slightly surprised.

Then she lowered her voice and said, "Did you know that these things you are talking about cannot be known by outsiders? These things and even taboos and secrets! Even if you can infer it, or even know it well, you cannot People have the slightest disclosure! Otherwise, you will face the catastrophe!"

The Holy Spirit warned Fang Yue, but there was nothing malicious in it.

"Let's talk! What is the purpose of your cooperation with me this time?"

Fang Yue looked at the Holy Spirit of the Void Tower with great interest.

"Your existence should not be what the strong in the city of a thousand towers like to see! After all, in their eyes, this so-called Void Tower is just a tool they use to transform the void creatures into the origin of the universe! They will be extremely afraid of your existence, even if they don't even know your existence!"

Fang Yue's eyes were burning.

He seemed to have access to the most core secret in the city of a thousand towers in one step.

The Holy Spirit chuckled: "Fang Yue, do you know? Because you are a smart person, I chose to cooperate with you, but now that you are smart makes me feel scared!"

"Sometimes you know too much and you won't live long!"

The tone of the Holy Spirit already had a slight threat of threat!

"But if you live in the deception of mist and chaos all your life, isn't that another kind of sorrow?" Fang Yue defended.

"Okay! You can infer so much, my province explained it to you! I really came to ask for you this time! My existence, no powerful existence in this city of a thousand towers have ever known! They absolutely I will not allow it. The magic tool I used to transform the origin of the universe gave birth to the slightest accident, especially when a powerful will was born in it, and this powerful will may be out of their control!"

The Holy Spirit hesitated for a while, and then said: "I am here this time, the purpose is to let you help me to shape another body! Let my will have a place, since I have born my own will and spiritual mind, then I don't want to go back to that chaos and confused ignorance again!"

"Build another Void Tower?"

Fang Yue felt that the Holy Spirit looked up to him too much!

"You don't need to forge another one! I already feel that there is a small tower of very high grade in your body! You only need to add some special materials to re-harden this small tower to become my new body!"

The words of the Holy Spirit stunned Fang Yue.

There is a small tower on him?

Oh, right!

It seems to be there!

The nine-story tower gave him a small tower that day!
