

God of Life 2281

Chapter 2281: The calculation of the ancient road

"Heavenly Dao Pavilion, of course, is a meritorious deed to enter, of course, this identity must also reach a certain level! Specifically, I am not sure, this Tiandao Pavilion is mysterious, and not everyone can enter it. As for the City Lord's Mansion, At least a strong person above the Duke is required to guarantee it! After all, this Huaxianchi is the lifeblood of the City Lord's Mansion. If some people of unknown origin are mixed in, the intestines of the City Lord's Mansion will probably regret it. green."

The words of Tianmahou made Fang Yue basically put off his thoughts of entering Huaxianchi from Tiandao Pavilion and City Lord's Mansion.

He could enter the Tiandao Pavilion, but according to Augusta's description, the existence of this Tiandao Pavilion is not simple. Even in the identity of Augusta, he is only an elder-level senior in the Tiandao Pavilion. Only, he was far from standing at the spire of the tower, able to see the whole picture of Tiandao Pavilion.

Augusta had secretly told Fang Yue to be careful of the people in Tiandao Pavilion.

Heavenly Dao Pavilion is more dangerous than this void creature, after all, this void creature is still a contest on the bright side anyway, and Heavenly Dao Pavilion is endlessly surging like an undercurrent under the ocean, with no end in sight!

For Tiandao Pavilion, Fang Yue avoided it for fear, and would never contact him unless necessary.

The City Lord's Mansion is even more difficult.

He killed the void creatures almost piled up.

Up to now, he has also been mixed as a first-class baron.

As for the Duke, ha ha! He was afraid that he would kill none of the Void Clan, and he estimated that he would not be able to reach the position of the Duke.

The closer you are to the core of power, the less the rank of this title will be affected by the so-called exploits and fame. What is more influential is the competition between background and interests.

Moreover, he now belongs to the camp of the city of a thousand towers.

If he really sneaked into the city of a thousand towers or the Huaxianchi in the Tiandao Pavilion, if he was caught, he would really become a grandmother and uncle, and he would be embarrassed on all sides. I don't know when he would be caught. People were hunted and encircled.

"The task of this third ring still has to start with the Void Race, the Black Wing Race, and the Blood Wasteland! The Void Race and the Black Wing Race are now on the front line. The rear defense may not be so strict, and the Blood Wasteland is also a demon. It's not that difficult to get in and out of the experience!"

In Fang Yue's mind, he was calculating in which direction he would start to achieve his goal.

However, Fang Yue is not in a hurry now, he has completed the second ring task ahead of schedule, gaining valuable time for him.

There were a lot of trialers who entered the city of a thousand towers this time, and the main missions had a certain chance of being the same.

If this is the case, he can wait for other people for a while, and when they are about to complete the third ring mission, he can completely fish in troubled waters and touch this fairy pond.

Half a day later, Fang Yue escorted the wolf shadow to the city of a thousand towers.

Fang Yue's hidden mission is completed. The arrival of five low-grade immortal stones made him a little sigh, this ancient road is rich in wealth.

Any **** mission will give such a generous reward!

You must know that this fairy stone can forge an important resource for immortal bodies. Many experts at the peak of the virtual fairyland have understood the mystery of true immortals, but they have been stuck at the peak of the virtual fairyland for many years because of the lack of immortal stones and insufficient immortal energy forging bodies. , Or it is difficult to improve again in the realm that has always stopped at the first level of the true fairyland.

Fang Yue and the others entered the city, but they were stopped by someone who had just arrived in the second layer of the city of a thousand towers.

When he came, a handsome boy, dressed in a golden armor, had his hips. There is a war mammoth underneath, the whole body is white, as if carved from jade.

Behind the handsome boy were hundreds of ancient chariots, with faint golden patterns on every corner of the chariot.

"Stop coming!"

The handsome young man stopped Fang Yue and the others, his eyes were like torches, scanning everyone.

"I am waiting to go to the city to do business in the name of Young City Lord, and I also hope that the adults will be comfortable!"

When Lang Ying saw the handsome boy blocking the way, his heart suddenly slammed, but he didn't change his expression and showed a pleasing smile.

"Young City Lord? Hey! In a very period of time, this second-tier city will be temporarily taken over by my Chen family. No matter who comes, it won't work! Come, give them a few to search for me!"

The handsome boy yelled, his voice domineering.

Fang Yue opened his arms with an indifferent expression, allowing them to search.

The treasures on his body are all placed in the storage space of different dimensions. If these people can really find something from him, it is really their ability.

This is the advantage of those who practice the heavenly ways in the space. Most treasures can be placed in the storage space of different dimensions. As long as you master the spatial coordinates, you are not afraid of things being lost, and all your wealth can be carried with you.

As for the Tianmahou, just recovered, only a piece of human skin was blown out, and there was nothingness in his body, and the real treasures were hidden in his body. Tianmahou refined himself into a human-shaped storage vessel. Unless he was beheaded and the corpse was cut open, no treasure could be found.

The only person with a guilty conscience is Lang Ying, but he doesn't have the skills of Fang Yue and Tian Mohou, and all his worth is placed in his storage bag.

These other things are not afraid of being searched, and that life orb is invaluable, and he is worried that after being discovered by this handsome young man, he will be moved by it.

The Chen family is one of the three big families in the second layer of the city wall. They belong to a powerful party, and they are absolute ground snakes. It is said that the Patriarch of the Chen family is a fairy-level existence, in the entire city of a thousand towers. All have a strong right to speak.

If this bead of life really fell into the hands of the Chen family, it would be the meat buns and dogs that were gone forever!

"I am a new wolf under the young city lord. I have a special mission, so please be generous!"

Seeing that two guards from the Chen family were about to come to search, Wolf Ying had no choice but to reveal his identity.

The matter of this life magic bead must not be leaked, otherwise, even if the Chen family does not covet it, it will set him on fire and bring him endless troubles!

"New wolf? Hey, do you think this thing can bluff me? Not to mention the new wolf, even if the lone wolf comes, I am not afraid of Chen Aotian!"

The handsome young man snorted, and then he waved his arms and said, "Search it! Now this void creature is at war with the city of a thousand towers. In order to prevent the creatures of the void clan from mixing into the city of a thousand towers, all enter the city of a thousand towers. All the idlers and others will search their bodies to verify their identity and prevent people of unknown origin from entering my city of thousand towers!"

Chen Aotian is quite domineering.

The two guards stepped forward and immediately surrounded the wolf shadow.

Lang Ying couldn't help but his expression changed. He realized that this Chen family was not good at all, and the life orb he had worked so hard in his hands might not be able to keep it. This time the mission might be difficult to complete!

Fang Yue watched coldly, his hidden mission had been completed, and he had completed the mission by escorting the wolf shadow to the city of a thousand towers and letting the life magic bead arrive smoothly. As for whose hands this life magic pearl finally falls into, he doesn't need to worry about it!

"Chen Aotian, you are so courageous, you dare to search the new wolf of my city lord's mansion? Could it be that your Chen family seems to betray this city of a thousand towers?"

At this time, a middle-aged man wearing a silver war spirit walked over.

Behind him, there are many big stars up and down.

This is a warrior, the martial arts aura is strong to the extreme.

Every time he fell, the ground under his feet would tremble.

"Yuan Gang! I didn't expect him to be here!"

Tian Mohou showed a complicated expression, and he slightly lowered the hat on his head.

Obviously, this time he met old acquaintances, but Tianmahou felt that it was not time to reveal his identity!

"The powerhouse at the pinnacle of true fairyland!"

Fang Yue judged the opponent's cultivation realm through his breath, but this cultivation realm does not necessarily represent absolute strength.

This Yuan Gang has amazing accomplishments on the Avenue of Stars. If Fang Yue hadn't expected it, this Yuan Gang should have cultivated the Avenue of Stars to the eighth level! Three Thousand Avenues, any kind, with a high level of cultivation, will have the ability to reach the sky and the earth!

Especially the Avenue of Stars, which ranks high among the Three Thousand Avenues, and the Tao and the cultivation realm cooperate with each other, and this Yuangang may be able to touch the level of combat power at the spiritual fairyland level!

"Yuan Gang! This is my Chen family's business, you have no right to interfere!"

Chen Aotian also recognized Yuan Gang's identity, however, there was no fear in Chen Aotian's expression. His vitality was strong, rushing away from all fears in his heart.

"This is inside the second layer of the city wall. It is the site of my Chen family. What about the lone wolf? What about the groom? If you want to lead someone, let your wolf king come! Otherwise, even if this guy is really new to you The wolves and my Chen family must also search carefully to prevent spies from infiltrating!"

Chen Aotian's voice was sonorous and powerful.

Before, the contradictions hidden in the dark were thoroughly aroused.

Today's situation in the city of a thousand towers has changed, and the city lord's mansion has lost its control over the major families in the city! Each family can be their own government, even if it is the order of the City Lord's Mansion, they dare not respect it!

"Chen Aotian, do you know? You are planting a bane for your Chen family! When this turmoil calms down, everything will be completely liquidated!"

Yuan Gang's expression changed slightly, and he didn't expect that Chen Aotian would turn his face back so simply!

This Chen Aotian is the arrogant of the Chen family. What he represents is not a personal will but a collective decision of the entire Chen family!

If this is the case, then I am afraid that the second layer of the city wall will be out of control!

A faint smile appeared at the corner of Fang Yue's mouth, and he was waiting for the arrival of the second hidden mission.

Sure enough, Fang Yue didn't wait long.

On the trial token, the second hidden mission appears.

"Trigger the hidden mission: Defeated Chen Aotian, and help Wolf Ying to carry the life orb into the city smoothly. Mission reward: Shadow Kill (True Immortal Level)

"Sure enough!"

Fang Yue narrowed his eyes slightly, and his heart was secretly clear.

The ancient road side's use of the city of a thousand towers as a place of trial naturally has a profound meaning.

This ancient road party has already participated in this dispute in the city of a thousand towers! It's just that the way they participate is somewhat special, and they help the city of a thousand towers by means of missions.

In the city of a thousand towers, there are countless different factions, large and small.

The hidden task Fang Yue waits for is to determine which side this ancient road is on!

Now, Fang Yue knew that the ancient road side seemed to be on the side of Xinchengzhu.

Chapter 2282: Offensive

Because the second task he received was to obtain the title of the baron, and the grant of the title is generally the authority of the City Lord's Mansion.

Only at that time, Fang Yue didn't dare to be too sure, because the Presbyterian Church was also qualified to bestow the baronship.

But his hidden task is to assist Wolf Ying to send the life magic beads into the city of a thousand towers.

The wolf shadow is the new wolf, the reserve of the lone wolf, and they are naturally the party who obeys the city lord's mansion!

If the mission of escorting the life magic orbs is still unclear on this ancient road, then the attitude of this ancient road will be very clear for this mission!

"It's just that I don't know which side this alliance chose in the end!"

Fang Yue said to himself in his heart.

On that day, Zuobang vowed to say that the League of People had withdrawn from the battle for the city of a thousand towers, and Fang Yue didn't even believe a punctuation mark.

If other ethnic groups said to withdraw from the competition, Fang Yue might still believe it 30%.

But if the human race said this, Fang Yue didn't even believe it half.

Different ethnic groups have different styles.

Protoss, faith is pious, most of the clan are old gods.

The demons are warlike and strong, their favorite is the way of fighting hard.

This tribe is typical of 怼天, 怼地, 怼air.

Most things are on the bright side, openly.

The monster race is weird, advocating freedom, the warhead is not strong, but individual heroism prevails. Among the monster races, there are abundant and powerful individuals with extraordinary abilities and endless changes.

Human race, on the other hand, is best at forbearance, scheming, and will never expose himself until the critical moment.

Zuobang handed over the teleportation formation and sold it to the Celestial Clan. It was estimated that the real purpose was to let the Celestial Clan relax their vigilance and make all the tribes really think that the Human Clan had withdrawn from the race for the city of thousand towers.

But maybe sometime, this human race will be like a dormant poisonous snake, suddenly sprang out from the dark, revealing its hideous fangs.

"Yuan Gang, don't cross the boundary. This is my Chen family's territory, not your lone wolf's territory! Now the situation is special. Regardless of your status, as long as you want to enter the second floor of the city of a thousand towers, you must pass through Strict inspection of my Chen family!"

An old man leaned on a cane and walked step by step.

The old man's hair was about to fall bald, but his breath was as unfathomable as an abyss.

Fang Yue frowned.

This task is not easy to complete, Chen Aotian is not strong, although he is the Chen family Tianjiao, but it is the third and fourth level of True Wonderland.

But this old man is different. He looks like a sick tiger. He looks sickly on the outside, but his true strength is hard to guess!

If he didn't have a proper starting point to attack Chen Aotian rashly, I am afraid that the old man would also attack him. Once the delay here is too long and the master of the Chen family comes, then he will not be able to leave!

"What an unlucky task is this special lady!"

Fang Yue's heart murmured secretly.

"Chen Bumie, are you still alive?"

Yuan Gang frowned slightly when he saw the old man from the Chen family trembling at this step.

Don't look at the hair on his head, Chen Bumei is about to fall out, his skin is full of piles and wrinkles.

But this thing has been like this thousands of years ago, half of the foot has stepped into the coffin board.

Every day, he looks like an old man, dying of the wind, and he will be sent to the crematorium tomorrow.

But in fact, this bad old man is so bad. Many people younger than him are already dead, old and dead, but this old thing still comes out and wanders twice from time to time, proving that he is still alive in this world. Up.

"Yuan Gang, as a junior, how can you talk to your elders like this?"

Chen Bumie smirked and looked at Yuan Gang.

"I remember, I'm the same generation as your master! Your master hasn't been seen for a long time, is it okay to come in? I want to come, there are not many people in the same age as me. If I have time, I really want to sit with your master. Sit and reminisce about the prosperous years back then!"

When Chen Bumie came up, he had lifted his seniority.

In terms of cultivation, he really doesn't necessarily compare to Chen Bumie, a rising star.

But in terms of seniority, Yuan Gang and Chen Bumei are far behind!

Chen Bumie looks like I am your elder, and it really makes Yuan Gang blocked.

"Hands! A body search!"

Yuan Gang is restrained by Chen Unmie, and Chen Aotian is even more unscrupulous.

The two Chen family guards stepped forward and walked towards Lang Ying.

They want to search the wolf shadow.

Chen Aotian showed a smug smile.

In the Chen family's territory, you have to lie on your stomach if it is a wolf, and you have to curl up on it if it is a tiger!

This is the site of the Chen family, and everything must follow the meaning of the Chen family.

"Dare you!"

The clay figurine even has a three-point temper, what's more, since this wolf shadow can enter the lone wolf and was once a new wolf, he has the courage to himself!

The two guards of the Chen family immediately displayed their dragon catching hands, and grabbed them towards the lock of the wolf shadow. The claws of the two guards of the Chen family suddenly turned into two golden dragon heads.

The soft groan of the real dragon came in bursts.

This Chen family's guard turned out to be cruel in order to be able to capture Wolf Ying!

There was a decisive look on Wolf Ying's face.

"This is what you forced me!"

The white robe on Wolf Ying's body suddenly tore.

Strips of white cloth are dancing in the air!

Each of these white cloth strips became extremely tough, and the cloth strips turned into knives, and they slashed towards the guards of the Chen family.

Flop, flop, flop!

The cloth strips fell, and the two Chen family guards were all severely cut!

The two servants of the Chen family all retreated, their eyes widened, revealing an expression of disbelief.

This is the site of their Chen family. They are used to domineering and blessing. Who would have thought that someone would dare to attack them?

Fang Yue bared his teeth and showed a cold smile.

This tiger will show his edge after all.

Fang Yue had known for a long time that this wolf shadow was by no means a simple imaginary immortal, otherwise, he would not have become the new wolf that Xincheng Zhu's subordinates focused on training.

"Chen family, don't be shameless! Don't think that you have some accumulation and heritage within this second-tier city wall. You are the masters of this second-tier city wall! Don't forget, all your glory, and Who gave you the glory of your ancestors! Your ancestors were just a slave of the city lord's mansion. Because of their loyalty, they were given the fief and became a big clan in the second layer of the city wall. The ancestors were slaves. , Your entire family will always be servants of the City Lord's Mansion!"

Lang Ying's words are powerful, like a sharp knife, just cut off the most painful part of the Chen family! In fact, Wolf Ying's words are not at all false. Their Chen family was really just a small clan attached to the city lord's mansion. Their ancestors were even a servant in the city lord's mansion. Because of their good service, they were able to trade for Chen. The glory of home.

However, as the years passed, the Chen family had deliberately forgotten the origin of their ancestors.

Now, the Chen family has become a giant family in this city of a thousand towers. Looking at the entire city, no one dares to mention the origin and origin of the Chen family at will!

Lang Ying said that, in fact, he had already taken the lead in the world.

Chen Aotian couldn't help but his face became cold.

"Xinlang, you are looking for death! How can the ancestors of my Chen family understand that you and other ordinary people can understand?"

"Come on! Catch me all of these people, none of them can let go!"

Chen Aotian has decided to cut the grass and remove the roots. Since he has already started, then come here to be cruel!

Not only the new wolf must be caught, but also those who are traveling with the new wolf!

Fang Yue smiled upon hearing this, he was worried that he had no reason to join in and act as this so-called victim!

A dozen more guards from the Chen family at the virtual fairyland level rushed towards the wolf Ying, Fang Yue, and Tian Mohou.

Six of them were all directed at Wolf Shadow.

After all, of the three, this wolf shadow is the mastermind, and the others are just accomplices at best.

The two killed Fang Yue, and the two killed the Demon Hou.

The two men who killed Fang Yue were vigorous and vigorous, like civet cats.

The two of them worked together in a tacit understanding, and in the blink of an eye, all of Fang Yue's retreat was sealed.

"Don't come here! You can't catch me! Otherwise, you will regret it!"

Fang Yue made a flustered expression.

However, his words did not stop the two guards of the Chen family.

All of them were expressionless and approached Fang Yue.

Among the second-tier walls of the city of a thousand towers, there is no one they cannot catch!

The two teamed up to besiege.

The sword shone out, and the light was dazzling.

One of them slashed towards Fang Yue's neck with a Wu long knife.

On this long knife, murderous aura is full, and these two Chen family guards obviously regard human life as a must.

Under this knife, there is no way to survive!

If anyone was struck by this long knife, he would have a different place on his head and blood splashed three feet!

"Ah! The Chen family, you are really vicious! I fought for the city of a thousand towers, guarded the border, killed the void creatures, and made contributions! You don't need to treat me with courtesy. Even if you want to kill me, I will let the people of the world know your face!"

Fang Yue let his feet go and ran away, his figure changed like smoke and mist, making it impossible to find a trace of his existence!

The swords and shadows fell one after another, but none of them could hurt Fang Yue.

Not to mention hurt, even if it touched Fang Yue's hair, there are no moves!

Fang Yue was clearly unharmed, but what he called was extremely lively!

He yelled loudly, and he could hear what he was shouting within a hundred miles!

"Don't let him yell again! It's offensive, it's really offensive, hack this little thief to death!"

A cold color appeared on Chen Aotian's face, but all big families cherish feathers.

Although their Chen family's reputation is not usually very good, but they can't tolerate someone shouting like this, tarnishing their Chen family's reputation!

Chen Aotian gave an order, and the two guards who were chasing Fang Yue were even more unscrupulous, and made a vicious move.

Their moves are deadly, and there is endless murder in the shadow of the sword.

Fang Yue ran fast, like light and lightning. In the process of running, Fang Yue also dropped bronze medals full of merits from time to time.

This medal is proof of his military exploits.

Every drop of a medal will cause a different color on the faces of onlookers.

Chapter 2283:

"The Chen family wantonly chased down my heroes in the city of a thousand towers! Has this completely rebel into the camp of the Void Clan?"

Yuan Gang is old and fine, he looks straight and upright, but there is more bad water in his stomach than anyone else.

He saw Fang Yue running while dropping a bronze medal from his body and immediately understood what Fang Yue was thinking.

When Yuan Gang said this, Chen Bumie's expression changed slightly.

The Chen family was not responsible for the crime of murdering the meritorious officials in the city of a thousand towers during the war.

"Ah! I'm going to die!"

Chen Bumie was about to raise his hand and shout to stop the Chen family's guard from stopping, and no longer chased Fang Yue.

But at this time, by coincidence, Fang Yue suddenly stopped, and a guard's blade hit Fang Yue's shoulder.

With a puff, the blood splashed, turning into a cloud of blood mist and condensed in the air.

Chen Bumie's face was all green.

Seeing that the Chen family was accused of murdering heroes, it was about to be taken seriously!

"Unexpectedly, our Fang Yue didn't die in the hands of the Void Clan, but today we are going to fall into the hands of our compatriots in the City of Thousand Towers! I am unwilling, I am unwilling!"

Fang Yue's palm covered his injured shoulder.

The gurgling blood ran from between his fingers.

Fang Yue lowered his head, his entire face buried in the shadows.

A trace of ominous premonition was brewing in the hearts of the Chen family!

"I am not reconciled! I am not reconciled!"

Fang Yue's mouth repeated it repeatedly, his voice became louder, and at the end of its evolution, it turned out to be like a rushing thunder, like a sensation Dalyu rippling between heaven and earth!

"boom!"

"boom!"

The two guards of the Chen family were shocked by the sound waves.

Their flesh and blood shattered and turned into a mist of blood floating in the air.

Fang Yue's voice actually shattered the two Chen Family guards at the virtual fairyland level into a mist of flesh and blood.

For a while, the surrounding air almost fell into stagnation.

"what?"

The six Chen's guards who were fighting against the wolf shadow slowed down, and they turned their eyes to Fang Yue's side.

This big brother is so amazing!

A voice actually smashed two guards at the virtual fairyland level.

Although the Chen family's guards weren't any powerful men with names and surnames, they were also big bosses at the virtual fairyland level.

Just like this, two people died, and there were no bones left. This method of death would be too chilling!

Chen Aotian's face suddenly became gloomy.

"You are so brave, you dare to attack and kill my Chen family guard!"

Chen Aotian shot himself, and a blue sky appeared behind him, his hands pinched the Yin Jue, and golden rays of light gathered from the sky and the earth.

"The body of the blue sky! It's difficult for your Chen family to spoil this son so much. I didn't expect him to be the body of the blue sky. This kind of physique is rare in ancient times and ranks in the top 100 in the special physique of the human race!"

Yuan Gang was shocked. He had only heard that a rare Tianjiao appeared in the Chen family, but he did not expect that the other party would be a rare Qingtian body.

Legend has it that this azure body can refine the will of heaven and regard the body as the heaven! Once this physique is completed, it will be incredibly powerful.

"The blood is not strong enough, it is not the first generation of Qingtian body. If I am not wrong, you should be the third or fourth generation of Qingtian body!"

Fang Yue also gradually returned to normal.

He is a demon-devouring body, extremely sensitive to various special physiques.

He could clearly see that the blood in Chen Aotian's body was not pure.

"Even if only three generations of the Azure Body are enough to kill you! No matter what your identity or background, but a mere saint who dares to spread wildly in my Chen family, I will use your blood to make people I know, my Chen family is not a cat or dog that can get involved!"

Chen Aotian showed a cruel smile. He was once hidden by the Chen Family, and he has always tolerated, never born. Now he can finally stand under the sun as the Chen Family Tianjiao. He wants to kill Fang Yue to send a sword to prove his power.

Chen Bumie also showed a confident smile.

Chen Aotian is one of the new generation of strong men cultivated by their Chen family. Although the Chen family has not yet been able to enter the ranks of the first echelon, it is enough for an unknown soldier.

"It's over, this Chen Aotian is going to be cold!"

I don't know when Luo Daoyi also appeared at the gate of the city.

He has completed the task of the first ring. He wants to run to the city of a thousand towers, find an opportunity to become the baron of the city of a thousand towers, and complete the task of the second ring.

As a result, before Luo Daoyi entered the city, he saw a confrontation between Fang Yue and Chen Aotian.

As Fang Yue's friend, Luo Daoyi had a vague understanding of Fang Yue's strength.

Although I don't know where Fang Yue's upper limit is, his lower limit is absolutely beyond the peak of True Wonderland!

Chen Aotian dared to challenge Fang Yue with any green onion.

Strictly speaking, for monsters like Fang Yue, Luo Daoyi thinks that he should be included in the ranks of the older generation of strong men.

Because it would be too shocking to count him as a generation!

However, at this moment, Chen Aotian is proud of the spring breeze. He thinks he is about to usher in the highlight moment of his life!

His breath gathered, transformed into a blue sky, full of blood, like a sea!

"The sky is mighty!"

Chen Aotian held a virtual hand with one hand, and the endless vitality between heaven and earth gathered and turned into a spear!

Chen Aotian held the barrel of the gun and stabbed in Fang Yue's direction!

In an instant, gun shadows filled the sky, stars dotted, as if the night sky descended, bright stars all over the night.

Fang Yue has a feeling of nowhere to escape!

This is the combination of the body of the blue sky and the principles of the stars!

The body of the blue sky, incarnate into the blue sky, the breath is vast, pulling the mountains and rivers hard.

The mighty murderous intent is endless, rolling like a wave, like a vast ocean.

Fang Yue only felt that he was in the endless sea, like a lone boat, with nowhere to stand.

"Is this the body of the blue sky? No wonder it is included in the top 100 human physiques! This is only a body of three generations, and it has such power. If you change to the first generation, I am afraid that you will really replace the sky! "

Fang Yue praised him, but he is like a reef in the vast ocean. No matter how you beat the waves and the turbulent waves are utterly unstoppable, I am still immovable and never moved.

"Who is this? Why do I feel a touch of familiarity on his face!"

Chen Bumie saw that Fang Yue, who was standing among Chen Aotian's spear light, had never been hurt by half, and his heart was slightly beaten.

"Well, his name is Fang Yue. A few days ago, he set up space traps under the city of a thousand towers to kill a large number of soldiers of the Void Clan, and he killed the true immortals of the Void Clan with the power of one person!"

Yuan Gang recognized Fang Yue's identity long ago.

This Fang Yue is also the focus of the City Lord's Mansion.

His talent is aloof and his combat power is strong, but more importantly, Fang Yue's methods in alchemy, talisman, and formation are all amazing. If he uses it, he may be able to slightly reverse the current situation of the city of a thousand towers!

"Fang Yue, it's him!"

Chen Bumie's face changed suddenly.

He quickly reminded: "Aotian, withdraw quickly! You are not his opponent!"

"I want to leave now, isn't it a bit too late!"

Fang Yue's voice echoed in Chen Wuxi's ears.

Fang Yue's hand squeezed the seal technique and turned into a round of red sun burning, the sun broke through the dawn, and the sky was burned away. Chen Aotian was immediately hit by a strong backlash, and suddenly he spouted a mouthful of old blood!

At the same time, Fang Yue's fist mark appeared again, and the phantom of a tiger appeared on his fist shadow.

The fierce tiger roared, opened its blood basin and swallowed it towards Chen Aotian!

"Roar!"

The roar of a fierce tiger shook the sky and earth.

In the blink of an eye, the tiger shadow covered the sky and culled Xiang Chen Aotian.

Chen Aotian's face showed a hurry, and the weakness of the so-called Tianjiao cultivated by Xue Zang was immediately revealed.

He has experienced too few life and death fights, and it is difficult to make the right choice at a real life and death moment.

Although his cultivation is not weak and his physique is strong, he is still a weak person without a strong heart.

"stop!"

Chen Bumie made a move! As the elder of the Chen family, he couldn't just watch his disciple die in front of him.

Chen Bumie reached out with one hand and smashed the shadow of the tiger. The other palm was to catch the stars and catch the moon, leaning towards Fang Yue's neck.

Chen Unmie's methods are strong, and the murderous aura on his body is like boiling.

The level of Fang Yue's only saint realm has such martial arts fortune. If one day, he steps into the level of the great sacred realm and the virtual fairy realm, what then?

Now that the grudges have been settled, it is better to kill them in the bud.

If he were alive, sooner or later the Chen family would become a misfortune.

Fang Yue raised his hand and slapped Chen Unmian with a palm, the phantom shadows of real dragons condensed out, and the real dragons raised their heads and chanted softly.

Fang Yue's body qi and blood boiled, and he actually used the brute force of his flesh to fight against Chen Bumie.

What Fang Yue bullied was the old and weak Chen.

Others may not be able to see it, but Fang Yue can clearly understand the secret of immortality.

This Chen is immortal, not really immortal, it's just that he has condensed his own energy and blood, and has reduced the consumption of vitality that is usually used to maintain his livelihood to an extremely low level.

This kind of benefit is naturally able to live for many more years. However, the seal of qi and blood represents that Chen Wujie's physical body is far less powerful than a true immortal of the same level.

Fang Yue was originally very good at physically working together, he used his own strengths and attacked the other's weaknesses!

Under the circumstances, Chen Bumie's physical disadvantages were instantly exposed.

Chen Bumei staggered back, a ray of black blood overflowing from the corner of his mouth.

"Chen Bumie, I respect you as my elder, but in your identity, it is a bit inappropriate for the junior of the other Yue's junior to shoot!"

A faint smile appeared on Yuan Gang's mouth.

With this Fang Yue disrupting the situation, their disadvantages were immediately reversed!

Chen Bumie's action against Fang Yue is already breaking the rules. If he can kill Fang Yue in three moves and two styles, it will be fine, after all, no one will stand up for a dead person!

However, not only was Fang Yue not dead, but instead he had to fight against Chen Bumie.

The value of Fang Yue immediately rose sharply, and with his record today, it was enough to attract all the forces!

Moreover, Fang Yue is not dead, and if he grows up in the future, he may become an important **** for the City Lord's Mansion to contain the Chen family.

He is such an important person, how could the City Lord's Mansion be willing to let Fang Yue miss something!

Chapter 2284: Gongsun Youruo

Chen Bumie's eyes were gloomy, he snorted coldly, flicked his sleeves with one hand, and stopped shooting.

It's just that in the sleeves that others can't see, there is a drop of black blood dripping out of Chen's tiger's mouth.

In the eyes of others, he and Fang Yue fought a defeat, but only Chen Bumie understood that he actually lost the fight just now! This Fang Yue's brute force is amazing.

There was a reckless atmosphere in his fists and feet, and the scorching energy and blood burned like a fire. In terms of strength, although he was only slightly better than himself, in terms of strength and blood, he was far inferior to Fang Yue. Young people.

"This Chen Aotian is a junior of my Chen family after all! He can't make any mistakes! What happened just now was Chen Aotian's recklessness, I apologize to you for him! These five low-grade immortal stones are a bit of apology from my Chen family! I hope you can stop worrying about it. !"

Chen's attitude changed extremely quickly, just now he was still a strong, fierce, domineering look, but now he immediately lowered his head to admit his mistake instead of Chen Aotian!

Chen Bumie realized that this time, it might be impossible for them to kill Fang Yue and Langying!

After all, You Yuangang is here, and Fang Yue's combat power is not weak. If there is not an upright name and the Chen family's heritage is used, such a large crowd will conspire against Tianjiao, it would be condemned!

As the saying goes, all the mouths are gold, even a big family like the Chen family, they are somewhat afraid of the mouth of you!

Chen Bumei retreated.

Fang Yue didn't bother to shoot again.

The Chen family is not a good bird, but the Chen family is extremely powerful.

Now give the Chen family a step down, so that it won't take up mortal enemies! As the saying goes, be a human being and stay on the front line so that you can meet each other in the future.

Fang Yue still understands this truth.

"Everything is just a misunderstanding. Since Master Chen Bumie has spoken, then the matter will be exposed directly, and it will be cancelled!"

Fang Yue smiled and took the five low-grade immortal stones that Chen Bumie handed over.

The value of this thing is extremely high, it can make the real fairy be moved, and can make more, Fang Yue will naturally not refuse!

Chen Bumei handed over.

Yuan Gang snorted coldly. The person concerned didn't care about it. It would be troublesome for him to find fault with the Chen family.

Therefore, Yuan Gang and others entered the city smoothly, and soon passed through the second layer of the city wall and entered the core area of the city of a thousand towers!

Looking at the back of Fang Yue and others leaving, Chen Aotian couldn't help but spit out a mouthful of old blood.

Just because Fang Yue's great sun shattered the blue sky, Chen Aotian was already hurting himself to the source, but it was just to save his face that he always resisted not vomiting blood. Now that Fang Yue and others leave, he can no longer bear it. Living!

"Six elders, why let Fang Yue and others leave! Chopping the grass without removing the roots, the spring breeze is blowing again!"

Chen Aotian looked unwilling.

He was full of spirits and fledgling, and he had just gotten this result in his first battle.

"Kill? What to kill? Just now, when Fang Yue and I started our hands, I clearly felt that several murderous intents had locked me down. If I really dared to hurt half of Fang Yue's hair, I'm afraid I would kill him on the spot. The person is me! Today, this city of a thousand towers is an eventful autumn. I am just a **** on the surface. No matter how powerful it is, it can't be compared to someone who is hiding in secret! This Fang Yue is afraid that he has a great background and a big background. I have already admitted the matter for you and exposed it! I will talk about it later!"

"Also, who is the man in black who entered the city with Fang Yue? Why do I feel familiar with his background..."

Chen Bumei gradually fell into deep thought.

Chen Bumie gently rubbed his temples, and now the situation in the city of a thousand towers is changing, the ghosts and monsters are gathered together, and the current situation has made him more and more incomprehensible!

"Hidden mission: Defeated Chen Aotian and helped Wolf Ying to carry the life orb into the city smoothly. It has been completed. Obtain the mission reward: Shadow Kill (True Immortal Level

Fang Yue's trial token appeared on his own.

A cloud of black mist suddenly appeared in his hand.

This mist is the shadow kill that Gu Lu rewarded him.

However, Fang Yue didn't know how to use this stuff.

According to the difficulty of this task, this shadow kill should be considered a good thing.

But if you don't know the purpose, it's useless to fall into your hands.

Fang Yue played the Shadow Killer in his hand for a while, and then pretended to be. Luo Dao knew well and worked with the dark business every day. Maybe he could find out the purpose of the Shadow Killer from his mouth.

"Brother Fang Yue, Lord Wolf King, Sun Youruo, please!"

Arrived at the gate of the City Lord's Mansion.

Yuan Gang's partner Yue suddenly spoke.

Originally, Fang Yue had already planned to pat his **** and leave, but he did not expect that another Lord Gongsun Youruo appeared.

Fang Yue hesitated, wondering whether it was good or bad for him to participate in these Dogecoins in the city of a thousand towers.

The battle for power and faction in the city of a thousand towers is no less dangerous than the fourth battle of the thousand towers outside the city.

If it is slightly different, it can be said that the fourth battle of the Thousand Towers is a battle of swords and spears, and the internal battle of the City of Thousand Towers is turbulent, and the murders do not bring blood.

"Trigger a hidden mission and join any (first-rate) force in the city of a thousand towers at will. Mission reward: ten low-grade immortal stones."

On the trial token, Gulu released the mission again.

However, the requirement of this task is to join any side (first-rate) forces in the city of a thousand towers, and he will not be asked to join the city lord's mansion by name.

The meaning of this is worth pondering.

Perhaps, this ancient road did not clearly stand on the side of the city lord's mansion, just chose the city of a thousand towers?

If this is the case, then in the previous task, escorting the wolf shadow to smoothly send the life orb to the city lord's mansion, the significance of this task is worthy of fun.

Fang Yue just entered the city lord's mansion with Yuan.

However, his toes had just started, and the trial token in his hand was hot again.

The corner of Fang Yue's gaze swept slightly on the trial token.

The text above appears.

"It has been detected that the tester has joined the Tiandao Pavilion. Tiandao Pavilion is a super force in the city of a thousand towers. If you exceed the mission completion degree, you will receive additional

rewards. The basic rewards and additional rewards will be settled together, and you will get fifteen low-grade immortal stones."

A stretched smile appeared on Fang Yue's face.

My previous efforts were not in vain.

However, whether he wants to join the city lord's mansion this time there is room for freedom.

Fang Yue followed Yuan Gang's footsteps to a side hall of the City Lord's Mansion.

Although this is only a partial hall, it is still magnificent and magnificent. The golden bricks and jade tiles give people a luxurious feeling.

"Lord Wolf King is inside, please invite Master Fang Yue inside!"

Yuan Gang was polite to Yue.

This is not because Yuangang understands politeness and obeys the rules, but because Fang Yue's strength has already won their affirmation!

For the strong, most of the forces in the city of a thousand towers are very respectful.

Fang Yue nodded and then started.

He pushed open the door of the side hall, and a damp smell instantly swept across.

In the partial hall, the light is dim, and the huge partial hall is empty, with only a huge stone chair placed in the middle of the partial hall.

"You are Fang Yue?"

There was a cold voice in the dark room.

"Yes, I am Fang Yue!"

Fang Yue is not afraid of each other.

Although the opponent is the Wolf King, it has a pivotal position in this city lord's mansion.

However, this wolf king is not enough to enter the decision-making level.

In the city lord's mansion, the lone wolf belongs to the direct jurisdiction of the lord.

The highest leader among the lone wolves is the wolf king. The wolf king's subordinates are just the nine wolf kings, and the wolf king's subordinates are eighty-one wolf generals. Each wolf will command hundreds to thousands of lone wolves, and there are new wolves below the lone wolf.

New wolves belong to the reserve of lone wolves, but most new wolves may not be able to become lone wolves after their entire lives.

Because the elimination rate of new wolves is extremely high in the process of completing the task, only one qualified lone wolf will be born out of hundreds of new wolves.

Like Wolf Shadow, he is already a leader among the younger generation, but he is still just a new wolf, and has never reached the level of a lone wolf.

According to Fang Yue's speculation, this wolf emperor should be at the level of Da Luo Jinxian.

The nine great wolf kings under his subordinates should be between the top spirit fairy and the first time entering the Great Luo Jinxian level, but the possibility of the peak of this spirit fairyland is extremely high. After all, this Great Luo Jin fairyland is extremely difficult to achieve. Once it reaches that level, it is the existence of lawlessness, and ordinary people cannot be restrained!

As long as the existence of the pinnacle level of the Spiritual Fairyland wasn't going all out, Fang Yue still had some cards in his hand that could support his escape!

What's more, according to Fang Yue's own speculation, this Gongsun Youruo must have asked him for something. Not only would he not do anything, but he needed to entertain him with delicious food.

Sure enough, the cold and silent atmosphere froze for a moment.

Gongsun Youruo said again: "It really is a generation of Tianjiao, but it is a pity that he has already followed Tiandao Pavilion!"

Gongsun Youruo broke Fang Yue's identity, but Fang Yue's face did not contain any emotions.

The fact that he went to the Heavenly Dao Pavilion can be known as long as someone who is interested in investigating a little, he has stayed at Augusta for such a long time, and he is also proficient in the methods of the talisman, if he is not a member of the Heavenly Dao Pavilion. , That's weird,

"Master Mingjian!"

Fang Yue handed over, still not saying much.

Gongsun Youruo nodded slightly: "Solid, atmospheric, and quite general. Although you are a member of Tiandao Pavilion, Tiandao Pavilion is based on research. It belongs to the neutral forces and many forces in the city of thousand towers are well water. Don't offend the river. And my City Lord's Mansion is more of Hainan's rivers, and will not stick to these trivial details. So, Fang Yue, are you willing to invest in the City Lord's Mansion? I can give you the identity of a lone wolf and let you be in the thousand towers. Walking in the city is less restrained!"

"Thank you, sir!"

Fang Yue belongs to the type that never refuses to come.

Anyway, he felt that he would not stay too long in the city of a thousand towers. After the task was completed, he patted his **** and left immediately. He added a layer of identity and convenience. As for the corresponding obligations and responsibilities, he would go with Fang Yue It doesn't matter much!

Chapter 2285: Luo Daoyi's thoughts

"Here, this is Lone Wolf's outfit and identity token. This Lone Wolf's cloak and tights can condense your breath and possess certain defensive capabilities! Lone Wolf's knife is an imitation of the ancient name Dao Tiangong. Although the quality is only the level of the virtual fairyland, the venom of the blue mystery is smeared on the blade. As long as the blood is seen, it is as difficult to disperse as a bone-attached maggot."

Gongsun Youruo's introduction is detailed.

"Thank you Lord Gongsun, but I am ashamed of these things!"

Fang Yue didn't take these things easily.

This outfit is good, but these things are very hot.

Maybe, a touch will burn him.

Gongsun Youruo said quietly, "If I want to be a non-staff to my lone wolf, would you like it?"

"What are non-staff personnel?"

Fang Yue was full of energy, the two met, and now he has just entered the topic.

"Being the white glove of the lone wolf, you are directly responsible for me or Lord Wolf Emperor! Over the years, the lone wolf has gradually surfaced, and many things have pairs of eyes staring at it, which is not easy to do! And you, as a non-staff, There are not many people who know you in this city of a thousand towers. If you take action, you can save a lot of trouble!"

Gongsun Youruo's words made Fang Yue's brows frowned slightly.

There are many talented lone wolves, and there are many capable people, and they will let the non-staff personnel take care of the difficult problems.

How can the task assigned to him be easy to complete?

"If it doesn't work, then forget it! The promise I just made is still valid. As long as you are willing to wear this outfit, you will be my lone wolf from now on. The gray rights of this city of a thousand towers still have secrets hidden for many years. Will gradually open to you too!"

Gongsun Youruo glanced at the outfit under his feet, and Fang Yue said again.

"Non-staff... adults appreciate, Fang Yue dare not disobey, but Fang Yuexiu is humble and unbearable! I hope that the adults can reduce the difficulty a little when arranging tasks for the next, otherwise, Fang Yue may not be able to complete what the adults do. The task to be explained."

Fang Yue agreed to Gongsun Youruo's request, but he also offered corresponding conditions.

"This is natural, after all, what I am waiting for you is not a warrior, but a researcher. Whether you are in the medicinal pill, formation, talisman, or space, your attainments are far beyond your realm of cultivation! In the future, you will be a special lone wolf in the City Lord's Mansion of the City of Thousand Towers!"

Gongsun Youruo's voice was sonorous and powerful, and he seemed to have made arrangements for Fang Yue's identity a long time ago.

"As for your next task, it's actually very simple! All you need is some holy yuan pill and source pill refined for the city of a thousand towers!"

Gongsun Youruo's words came out.

Fang Yue's own taste is the meaning of the representative.

Although Fang Yue had shown the origin of refining the sacred pill in this city of thousand towers, he had never refined the original pill before.

Who knows that he has the ability to refine the original pill?

It must be this outsider!

The League of People, or the League of Ten Thousand Races, of course it could also be other forces!

With these words, Gongsun Youruo was reminding Fang Yue that he knew Fang Yue's origins and some of Fang Yue's abilities and past. He hoped that Fang Yue would not perform any small moves in this kind of thing.

Fang Yue grinned and said, "A clever woman can't cook without rice. This is the material for refining the pill?"

"Double supply, refining a successful pill, I lone wolf will return to represent the city lord's mansion according to military merit, the price is 1.5 times the outside world!"

special period.

Gongsun Youruo can't be tolerated without bleeding.

Both the Shengyuan Pill and the Origin Pill are special strategic resources during the war.

Saint Yuan Dan can quickly create a strong man in the Saint Realm! Its value is self-evident.

And the original source pill has a miraculous effect in healing the original wounds suffered by the strong in the saint realm and the great holy realm. Even if the pill is short, this kind of pill can heal the strong in the virtual fairyland, but it is only needed The amount may be larger.

The war in the City of Thousand Towers seems to be another fight between the City of Thousand Towers and the Void Clan, fighting against masters, powerhouses above the Void Fairyland.

However, the most casualties every day are always the creatures below the virtual fairyland.

Once this cultivation base reaches the level of the virtual fairyland, there will be their own cards to save their lives!

They may be injured, but there are not many deaths in the battle, because not everyone is like Fang Yue, who can squeeze a strong man in the virtual fairyland to death.

On the battlefield, there are rules on the battlefield. Soldiers against soldiers, generals against generals, and more are fighting and fighting between the same ranks!

Xuxian killing Xuxian is not so simple.

On the contrary, there is not so much care under the Great Sage Realm and Great Sage.

This saint and great saint have died more, and it is also a matter of great damage to the city of a thousand towers. If there is the supplement of the source pill and the holy origin pill, the saints of the city of thousand towers will be born and supplemented continuously. There is vitality, and at the same time, those who are injured in the Saint Realm and the Great Saint Realm level will have the possibility of healing and regaining their combat power!

After thinking about all this, Fang Yue understood his meaning and value.

He grinned and said: "If the adults believe me, you can prepare enough raw materials. I can probably refine 500 Saint Yuan Pills and 500 Origin Pills every day! As for this military skill, I don't want it, give me all. All can be converted into materials for alchemy and refining, or the corpses and flesh of these various beasts! Since I want to be a research talent, I am not allowed to directly participate in the war recently!"

Researchers?

Good researchers! In the future, he can wait to collect the money, without risking his life or death to enter the battlefield.

As for this alchemy matter, as long as there are resources, there is no need for Fang Yue to act in person. Xiaotie can contract this matter to Yili himself!

Of course, this wolf king, Sun Youruo, would definitely not let him always make soy sauce.

Now that he has the status of a non-staff person, there will be absolutely no shortage of opportunities for him to make a move in the future.

Fang Yue quickly left Gongsun Youruo's residence and returned to his residence in the city of a thousand towers.

Fang Yue's residence is a separate courtyard, the area of which is not small, a total of five to six hundred square meters.

In addition, Luo Daoyi also found the Tianmohou who lived with Fang Yue.

Fang Yue had already met Luo Dao at the second gate of the City of Thousand Towers. It was just to not reveal their identity, so the two sides took a tacit look at each other, and no one actively supported him.

In the city of a thousand towers, after Fang Yue met the Wolf King, Luo Dao's party quietly sneaked into Fang Yue's mansion to meet him.

"What kind of cheating task is this!"

Luo Dao looked sad when he met.

"What ring is it?"

Fang Yue poured tea for Luo Dao and said at the same time.

"The third ring! Huaxianchi, if my guess is good, you should have come this far too!"

Luo Daoyi Niu took a sip of tea, the sadness on his face continued.

"Well! The third ring! I didn't expect everyone to have the same task!"

Fang Yue remained silent, as he expected.

The main task assigned by Gulu is no different.

"How did you resolve the identity of the baron?"

Fang Yue was curious.

At that time, he spent a lot of saliva when he got this status.

"Take the money!"

Luo Daoyi gritted his teeth and said.

"Those **** greedy guys, all of them opened their mouths to me as a lion, a third-class baron. They asked me for two virtual fairy-level magical weapons and a fist-sized water and fire emperor gold!"

Luo Daoyi was quite dissatisfied with the dark side of the bureaucracy in the city of a thousand towers.

And Fang Yue was speechless for a while, as expected, he was rich and arrogant!

The baronship that others might not be able to get through desperately, Luo Dao threw a lot of silver down and got it directly.

"I don't know why Brother Luo is looking for me?"

Fang Yue glanced at Luo Daoyi calmly.

This guy must have something to find himself.

Otherwise, Fang Yue didn't believe that he happened to be able to see him at the gate of the second wall.

"Hey, I don't know if Daoist Fang Yue has the idea to join me to make a big deal!"

Luo Daoyi glanced around and found no one before he said boldly.

If his plan was leaked out in the city of a thousand towers, it might be a matter of head loss.

"whats the matter?"

Fang Yue also came over curiously.

This Luo Dao is a ghost and a ghost, definitely not the one who suffers easily.

This Gu Lu wanted to use the title of trial to make them pawns, and Luo Dao might have the idea of countering it.

"Brother Fang Yue, I don't know if you have discovered it. The mission on this ancient road has a strong directional nature! If I am not mistaken, I am afraid this ancient road has two thoughts! One is to help us In some key links, he gave some help to the city of a thousand towers! On the other hand, I wanted to plunder the unique resources in this world as much as possible! As far as I know, this fairy pond is not everybody There are places, at least in the underworld. It seems that there are such places in the secret realm of two big clans!"

"If the city of a thousand towers wins, it is naturally a good thing, and if the city of a thousand towers loses, all the resources in this world are occupied by the Void Clan and the allies behind it, Gulu will make it in advance. A fortune is not really too great to lose. Therefore, our first task is to kill the strong of the Void Clan, and weaken the Void Clan's strength to a certain extent on the level of the Void Clan. Huan's task is to find Huaxianchi and get the water in it! The water in Huaxianchi is an important material for cultivating true fairyland powerhouses, and its value goes without saying!

Luo Dao had already thought through the doors and thoughts.

The corner of Fang Yue's mouth showed a frustrated smile when he met a friend.

"In addition to these things, you might have overlooked one point. That is the task of the second ring. The task of the second ring is to allow the trialer to obtain the title. Although it is only the baron, it has already entered the city of a thousand towers. The noble class, many important decisions, the baron has a certain right to speak and vote, maybe a baron's right to vote and speak is not very large, but if it is the vote of dozens or even hundreds of barons If the power is superimposed, it will also have a slight impact on the decision-making of the city of a thousand towers!"

Fang Yue added a copy of his own analysis conclusions, while Luo Daoyi slapped his forehead and suddenly realized.

Chapter 2286: The Way of the Deity

"I said this ancient road shouldn't make indifferent actions. It turns out that they are here waiting for us!"

Luo Daoyi couldn't help thinking again.

"If this is the case, my previous plan can be a little more perfect! This ancient road is actually purposeful and conspiring in the city of a thousand towers! Although I don't know who is behind the ancient road, but this Tokens are an alternative channel of communication. This task is essentially a transaction! One-handed payment, one-handed delivery! In this case, we can actually make some transactions with Gulu! As long as it is us If they can master the resources needed by the ancient road, they will trade by issuing tasks, and as long as they grasp the life gate of the ancient road, it is not difficult to blackmail the resources we want from their hands. !"

"We have worked so hard. Why do we want to step into the ancient road? It is not for the unique resources of the ancient road. If it can be obtained through this transaction method, the risk factor will be smaller and the gain may be its bigger than what we explored."

Luo Daoyi's thoughts are gradually sorted out. He is not afraid of the greed of the ancient road, but is afraid that the people behind the ancient road are really wantless and wantless. As long as they have desires and desires, then everything is easy! I grasped the opponent's demand point, and then. Making some trades that you want is equivalent to getting what you need.

Luo Daoyi's words actually touched on Fang Yue's heart, and Fang Yue had already analyzed these, but Luo Daoyi was more courageous than Fang Yue.

"Subsequently, our plan can be developed around the three requirements of this ancient road! First, strive for the city of a thousand towers to win the battle of the thousand towers, and stop the void race from occupying the city of a thousand towers! Second, get a higher position in the city of a thousand towers, and get a higher right to speak! Third, get some special products in the city of a thousand towers, so that the ancient road party has to trade with us!"

Luo Dao clearly stated the next goals and tasks.

"Actually, this first one is the easiest to satisfy. The stronger the combat power we show, the more we can get the attention of Gulu! The tasks released by this Gulu will also be greatly improved, and the corresponding rewards will also be increased. A big leap! However, there is no shortage of ancient roads for this strong person, so if you only rely on strong force to get the attention of ancient roads, the replaceability is too strong and it is difficult to bargain with the ancient roads!"

"The second article, relatively speaking, the technical content of it is a little bit higher! However, to obtain a very high position of power in the short term in the ancient road requires not only fists, but also brains! I am now on the side of the Chamber of Commerce Alliance. Power development route! This chamber of commerce alliance seems insignificant, but it actually controls 90% of the resource output and input of the thousand towers! However, this city of thousand towers is also classy, even with my current The materials and the various supplies provided are only the third-level peripheral members! The peripheral members are divided into five or five levels! Then there are four major members, inner members, core members, veterans, and the helm. Level! According to my calculation, I must at least be a core member to be able to bargain with Gu Lu!"

"This third item, obtaining the special resources of the City of Thousand Towers is a matter that complements the combat power and identity! The higher the combat power and status, the greater the possibility of obtaining the special resources of the City of Thousand Towers! So , These three can also be considered comprehensively!"

Luo Daoyi said his consideration in one breath.

Fang Yue couldn't help but nodded slightly: "Then what do you need me to do for you?"

Luo Daoyi gritted his teeth and said: "Yes! The promotion of the Chamber of Commerce in this Chamber of Commerce Alliance involves a multi-dimensional scoring mechanism, but since it is a Chamber of Commerce, it is always changing, and the degree of funding is naturally the first consideration. Elements! But this aspect is not very difficult for me! What I need is the monopoly of some rare

resources! The more resources I can monopolize, the higher my position in the chamber of commerce! Fang Yue, I know that you know how to make alchemy, so I hope you can refine some exclusive pill for me to sell! Of course, all the income from this sale belongs to you. If my position in the Chamber of Commerce is enough, in the future I can get a part of the rare resources in the ancient road to share with you!"

"Cooperation, naturally there is no problem! But I want to know why you came to me instead of Yin Gu Dao! According to reason, his background is deeper and the benefits of working with him are greater, and the relationship between you two seems to be More iron than us!"

Fang Yue poured Luo Dao another cup of strong tea.

Luo Daoyi didn't drink tea, and there was a look of pain on his face.

"I didn't look for him? The first thing I looked for was Yin Gu Dao, but he couldn't understand the difficulty of those of us who made it from scratch! His starting point was too high, so high that some people couldn't understand the fireworks in the world. When Yin Gudao and I talked about this plan, what do you think they said? Money is something outside of the body, and the important thing is practice, which is the heart! Don't delay your practice because of something outside the body!"

At this point, Luo Daoyi was a little depressed and sad.

Sure enough, most people are not qualified to be friends with local tyrants.

Everything in the family is arranged. There is a big boss from the heavenly realm as a father. In the eyes of the League, the Yin Gu Dao is a descendant of the heavenly sovereign. It is a baby bump. If you hold it in your mouth, you are afraid of melting. Up!

He naturally has no shortage of resources, let alone the power to provide him with spiritual resources.

However, in this world, not everyone is an heir of Heaven!

You really don't lack this extraneous thing, but we don't!

Without the help of resources, how can we practice and make progress?

Luo Dao paused, then looked at Fang Yue and said bitterly.

"I think we still have a common language in this respect, so I'm here to find you!"

Luo Daoyi's words made Fang Yue feel a little bit worried.

It turns out that everyone is poor, so use a common language, right?

Of course, it seems a bit insulting to describe him and Luo Daoyi with a poor pass.

The two of them are definitely not poor, and even most practitioners at the spiritual fairyland level are not as wealthy as they are.

However, this rich and poor is relative.

For ordinary practitioners, the two of them may be local tyrants, but for the second generation of Tianzun like Yin Gu Dao, they are really grassroots.

"I'm doing it for you, not for anything else, just because we two have a common background!"

Fang Yue gritted his teeth and said.

"There should be a lot of practitioners of the older generation at the master level and saint level in this city of thousand towers. They are stuck on the bottleneck and cannot make progress. Their lifespan is about to run out, their vitality and blood are declining, The strength drops, and I can't use all of my combat power, and I have years of dust pill here, which can reverse the traces of the years of a Jiazi for them, so that they can recover a little bit in terms of vitality and blood, and the combat power is closer to the peak! If it is the leader If the qi and blood decline in the peak of the realm is not very severe, if it is used in conjunction with the Saint Yuan Pill, it may be able to break through to the level of the Saint Realm and greatly extend the lifespan!"

"Is it just Sui Chen Dan?"

Luo Daoyi's face showed a lonely look.

If only Sui Chen Dan, he can indeed be promoted to the level of the outer second-level chamber of commerce.

However, this second level of the outer chamber of commerce is not his ultimate goal for him. For Luo Daoyi, it is just a transition. What Luo Daoyi ultimately wants to achieve is the identity of the core member.

"This road has to be taken step by step, and the meal has to be a bite! If you launch too many monopoly resources at once, it is difficult to guarantee that others will not make your idea! If it is just a kind of Suichen Dan, the demand is large. , Although the level is lower, but the quantity compensates for the quality, it is enough to make you famous! And then, you can launch the Super Suichen Pill, and even the strong of the Great Sacred Realm can use this pill to wipe it out. Go to the traces of years on the body!"

Fang Yue had made arrangements for Luo Daoyi clearly.

After this year old dust pill, there is also a super old dust pill.

If this old dust pill can only affect the low-end combat power in the city of a thousand towers, then this high-level old dust pill is already a panacea that can affect the middle-level combat power of the thousand towers!

"If it works well, I should be able to reach the level of the internal member of the Chamber of Commerce by relying on this and the super old dust pill!"

Luo Daoyi's eyes lit up, and Fang Yue was more reliable as expected.

The identity of this internal member is completely different from that of the peripheral members. Even the internal members of the lowest five-level membership status have an influence comparable to the ordinary third-class baron in the city of a thousand towers! And as his status improves, the scope of his friendship will continue to expand. When the scope of his friendship reaches a certain level, he has the qualifications to negotiate with the Gulu party!

Luo Daoyi's heart was extremely excited.

On the other hand, Fang Yue smiled and gave Luo Dao a batch of medicinal pills. These medicinal pills didn't have much use for him except for selling favors. The elixirs of the Saint Realm and Great Saint Realm levels are too low-end for Fang Yue now!

Luo Daoyi and Fang Yue left after a few polite greetings.

Fang Yue also gently rubbed his temples, pondering his next plan.

Fang Yue actually didn't have much interest in negotiating with Gulu, at most he could extort a little more resources!

The key is that one's own strength cultivation is the eternal theme.

This flesh and blood clone has now reached the level of the Saint Realm. If you want to go further, it needs massive resources as support. However, the progress of this flesh and blood clone is not the most difficult. After all, he is still far from the level of this Great Holy Realm. At least it will not encounter bottlenecks.

But the problem facing his deity now is by no means that simple.

The deity is still wandering at the level of the leader realm!

It is not that the deity is able to quickly reach the peak of the leader level, but the deity wants to take the strongest path!

The so-called strongest is to repeatedly compact the foundation, and wait until he can't make progress before choosing the advanced stage.

And Fang Yue's deity is now practicing in the depths of time and space, and has reached a certain level of extreme!

He recompressed his cultivation base and suppressed his realm at the first level of the leader realm!

However, this deity on the first level of the master realm has the physical strength of 36 true dragons, and the blood is boiling. If it is not converged, entering some small planes can cause the laws and The framework of order fell apart!

However, the power of the deity's physical body has also reached the extreme of this realm, unless he steps into a new small realm, otherwise, there is almost no possibility of making an inch!

And wanting to go one step further, it is necessary to strengthen the three hundred and sixty large orifices of the week in the whole body, and one thousand and eight small orifices of stars. Fang Yue has already figured out the specific strengthening method!

Chapter 2287: Shortage of resources

For each acupuncture point, he is going to strengthen it three times, once with the power of stars, once with the aura of earth evil, and then once again with the power of the world origin.

Each strengthening represents a qualitative improvement in strength.

However, Fang Yue had already dissipated the evil spirit of the earth before, and divided it into the skeletal muscles of his physical body. If he wanted to use the evil spirit of the earth to strengthen it again, he needed a higher level of evil spirit.

And the power of the stars and the power of the world's origin are all in huge quantities.

I am afraid that ordinary families and sects cannot afford it!

If this deity is unable to break through, sooner or later it will be trouble.

Although Fang Yue has many clones, most of these clones are the ranks of top geniuses.

Top, not peerless, this is a big trouble, even if the clones continue to break through and reach a higher level of combat power, if the deity is unable to break through, sooner or later these clones will encounter powerful enemies comparable to their realm. An even more powerful presence.

Moreover, Fang Yue also had a concern, that is, whether his own deity's entry would affect the clone's breakthrough.

After all, the deity is the root of all his cultivation. If the deity is gone, all the clones will become rootless duckweeds.

Death may not necessarily lead to death, but it may be even more difficult to cultivate diligently!

In a blink of an eye, Fang Yue's thoughts changed a lot, and he decided to use this war of the thousand towers to solve the problem of his own deity's practice.

"The deity, the clone!"

"This deity has also been cultivating for a long time in the depths of time and space, and it should be time to walk around now!"

After Fang Yue thought about it, he took a deep breath and finally summoned his deity from the depths of time and space.

"These three levels of strengthening need to go hand in hand! Now the deity does not lack the origin of the world, but the power of the earth and the power of the stars are still lacking! The origin of the world, the origin crystallization can be solved, even if the origin of the origin crystallization is The power is not strong, but the quantity compensates for the quality, even if it is a quantity pile, it can gather enough world origin to promote the deity! And the power of the stars, there are three ways to seek, one is to absorb naturally, to arrange a large array, Gathering the power of the stars, condensing the origins of the stars for swallowing and absorbing, but this project is quite large, the foundation of the deity is too strong, I am afraid that you need a huge amount of origins of the stars to promote, if the range of the absorption array is not enough, create it The origin of the stars is simply not enough for the deity! The second is the star stone! This star stone is the condensation of the power of the stars, and it is not difficult to obtain. It is in the League of People, Ten Thousand Clan and even the city of a thousand towers. The powers are stored in them, and the star stone is a common resource, but the purity of the star power is not very high, and the exchange requires a huge amount! The last method is to start with the star creatures, which are the power of the stars Condensing, refining the corpse of a star creature

may be equivalent to refining a massive star stone! Of these three paths, the last one requires careful planning, and the first two can be prepared now!"

"As for the evil spirit of the earth, there is the key to the high-level earth evil world. Open the door to release the earth evil creatures in it. Those earth evil creatures have experienced years of pure earth evil spirit, and the earth evil crystal nucleus in their bodies is absolutely incomparable. , Enough to support my consumption!"

Fang Yue's thinking clarified that the promotion of the deity he found might not be as difficult as he imagined!

As long as the resources are sufficient, it shouldn't be a big problem to let the deity's cultivation base abruptly rush to the peak of the Earth Demon Realm!

Fang Yue feels that what he can do now is to acquire Star Stone through various channels!

These various exchange channels can wait until later before centralized exchange.

Fang Yue was worried that the excessive amount of the Star Stones he exchanged among the various forces would arouse their suspicion, and it would be detrimental to him!

As for the task of Huaxianchi, Fang Yue felt that there was no need to worry!

This Huaxianchi will go sooner or later, but it's definitely not this time!

"An Luhai, come in!"

Fang Yue hesitated for a moment before summoning An Luhai, the butler arranged for him by the lone wolf.

This Anluhai Great Sacred Realm peak cultivation base, but his real ability is not to fight, but to be good at handling various things. He wanted to buy the Star Stone, he would definitely not be able to rely on himself, after all, he was unfamiliar with the place in this city of a thousand towers, and it would be difficult to find a vendor.

An Luhai, as a local snake, may not be professional in fighting, but there should be no big problem in buying something!

An Luhai came here.

An Luhai's heart was like a bright mirror.

The little master he was serving this time was not easy. Although his cultivation level was a little lower, his abilities and combat power were not weak! In the pits outside the city of Thousand Towers, hundreds of Xuxians of the Void Clan were killed, and even one of the strong men with the real fairyland was killed.

In terms of specific combat power level, this little master is definitely a true fairyland level, and the combination of his formation, pill, talisman, etc., may have more influence than the old true immortal in the city of a thousand towers. Strong.

An Luhai has been in the city of a thousand towers for a long time, so he naturally understands what these abilities add up.

This master is likely to become a pivotal existence in the city of a thousand towers in the future, and even his future status can be comparable to that of the Wolf King.

Therefore, An Luhai respects Fang Yue very much. If he hugs this thigh tightly, maybe he will also hope to become a powerhouse in the virtual fairyland in the future.

"Little An Luhai, I have seen an adult!"

An Lu Haisheng has fat head and big ears and a big belly, but his face is not disgusting. He smiles all day long, giving people a very kind feeling.

"An Luhai, I have not been in this city of a thousand towers for a long time, and I am not very familiar with everything in the city! Recently, a new type of medicine that I want to study needs some star stones! If you have time if you do, you might as well help me buy some in the market! I know that the price of this star stone is generally not low, maybe it may not be able to get as much as the original crystal, there are 500 original pill, you can help me barter! If you think the price is right, you can redeem it!"

Fang Yue's conditions for An Luhai are quite broad. Regardless of the price, you think it is OK!

Five hundred source pill, if it is exchanged into resources, it is definitely not a small sum. More importantly, this source pill is now in hot demand in the city of a thousand towers. If you use the source pill to exchange for the star stone, it will be a big one. Favors.

An Luhai was slightly taken aback when he heard the words.

"Use the star stone to refine the pill? I don't read much, don't lie to me! This star stone has always been used to assist in cultivation or to make formations, but used to refine the pill? Yeah!"

However, An Luhai did not stupidly expose.

Because this errand is obviously a beautiful job.

He just exchanged it for the Star Stone, and what did Fang Yue do with the Star Stone!

Moreover, this is also a test. If his deal is done, the next time he will do the same job, he will definitely be allowed to do it!

A slave has the principle of being a slave. If anyone violates the principle, then he is really not far from being killed!

When An Luhai left, he wanted to find the source of the Star Stone in the shortest possible time.

It was the first time to serve Fang Yue as an errand, it was definitely not that the little master could wait long.

An Luhai left, Fang Yue built a simple version of the Yin-Yang Teleportation Array in his backyard mansion, and returned directly to Yongfeng Town.

When he came back this time, he didn't mean anything else. He just asked the forest tree to help him find a way to buy the star stone between the world and the earth. At the same time, he also gave Linmu a map of the star gathering force formation for him to find The open space builds such a star gathering force array.

This star gathering force formation is a relatively simple formation recorded in the Book of All Souls. Its gold content is not very high. It only has the level of the Yin-Yang realm formation. As long as it is a little introductory in the formation, you can build one. The Star Gathering Array itself does not have any lethality, the only effect is the power of condensing the stars!

The area of a star gathering force is only ten square meters, and the amount of star power condensed every day is also relatively limited. It is equivalent to a practitioner who has comprehended the power of the stars of the three levels of the Yin and Yang realm. The power of the stars condensed.

However, if there are thousands of constellations in this formation, the power of the stars condensed every day is not a small number.

The technical content of this arranging star gathering force formation is not high, and the required materials are also very common. As long as there is enough space, this star gathering force formation can be arranged in large quantities, extracting pure star power, and supplying his body. For tempering!

Now, in the rear of the human race, there are not many others, there are definitely many places in this place.

The last time the 13th Nationality Allied Forces wiped out a large number of Terran villages. These places were left unused, and the trees were sent to settle in. First, they occupied the site, and secondly they could be used to mine some resources to subsidize Yongfeng Town. Daily consumption cost!

According to Fang Yue's plan, this star gathering force formation is not only arranged in Yongfeng Town, but also in Giant Wood City. The area in Giant Wood City is more extensive, and the idle space is wider. More importantly, no one dares to fight now. No one would find out about the idea of Giant Wood City and the arrangement of the Stars Gathering Array. Fang Yue also confessed to Lin Mu to do this contact matter. If it can be achieved, it will be better, and it will not cause much loss if it fails.

Fang Yue arranged star gathering forces everywhere, not only Yongfeng Town and Giant Wood City were planned by him, even the first-level sub-battlefield he occupied in the battlefield of ten thousand races also began to be arranged, the space in that sub-battlefield was not Small, if you don't arrange it, the area will be lost.

Fang Yue was tossing so much, a large number of star gathering forces were built, and the power of stars tempered every day is not a small number!

Then, Fang Yue returned to his residence in the city of a thousand towers, and he arranged two stars in his residence. Anyway, this place was given to him by the Wolf King. It's up to you how to toss it. If you don't arrange this place, it will be a waste of place. Simply put it in one pot!

Half a day later, this An Luhai came back to life.

Five hundred original source pills, he exchanged a total of 1,500 middle-grade star stones for Fang Yue.

After conversion, it would be an average of three middle-grade star stones for one original source pill.

Chapter 2288: Three force mixing

This ratio was about the same as the market price, and even compared with the exchange of military merit, Fang Yue still had a little bit cheaper.

"Well, not bad!"

Fang Yue inspected it, and the fineness of the star stones brought by An Luhai was quite good.

In fact, this low-grade star stone is a saint-level material, and the middle-grade star stone is even a great saint-level material.

The star power content in this low-grade and middle-grade star stone is about a hundred times different!

Calculating according to Fang Yue's comparison, in fact, one original source pill should not be exchanged for three middle-grade star stones, but unfortunately, now there are many stars in the city of a thousand towers. Reserve, but the original source pill is in short supply, in short supply, everyone from saints to virtual immortals has a great demand for the original source pill, maybe, prepare a few more original sources of pill, you can save your life at the critical moment !

Therefore, this original source pill can be exchanged for the Star Stone to achieve such a ratio, which gives Fang Yue a lot of advantage.

"There are still thousands of Origin Pills here, and then help me exchange some Star Stones! If the number of these Star Stones is used for research, I am afraid it is not enough!"

Fang Yue gave Anluhai a thousand original pill.

An Luhai swallowed and spit instinctively.

In the market, this source pill is a life-saving pill, and one pill is hard to find.

And this person is often delivered to himself in thousands of units, which makes An Luhai a little suspicious, is this pill really as valuable as the legend?

But An Luhai didn't ask much, he took the order directly.

Thousands of Origin Pills can have a lot of room for operation, and when used well, he can make several small families owe him a lot of favor.

After An Lu Haipidianpidian left, Fang Yue visited Tianmohou, Fang Yue just wanted to make Tianmohou some psychological preparations, no matter what happened in this courtyard, don't be surprised and act rashly.

This stone of stars has a reserve, and the power of the world's origin is supplied by the stone of origin. The only thing lacking in the three powers is the pure earth evil spirit!

Fang Yue was going to use the key of the earth evil world to open a small gap in the thirty-seventh layer of the world, drain some earth evil air out of it, and make a little experiment.

"what are you going to do?"

Tianmahou is not too anxious to regain his former identity and position in the city of a thousand towers.

Those things can't be completed in a moment. During this time, he often walked in the city of a thousand towers and contacted some old men and dead men.

Fortunately, the time he disappeared was not too long.

Thousand years of time, for an ordinary dynasty, may be the vicissitudes of life, the sun and the moon.

But for a practitioner of his level, the millennium is just a change of mind.

Many old people are still there, and their minds have changed.

"My deity is trapped at the level of the leader realm. I want to advance with a stronger posture. The pure evil spirit is not enough to meet the needs of my deity. Therefore, I hope to refine more transcendent power to satisfy my deity. Needs!"

Fang Yue did not conceal the devil.

Because his deity will appear in this world sooner or later.

If he were in the underworld, he would make too many enemies, and nothing else, when he was promoted, the dark demons would probably kill him at all costs, and in this world, he was relatively safe and promoted. At that time, the artificial resistance will be much smaller.

Rather than being discovered by the Tian Mohou at that time, it is better to confess as early as possible. Perhaps when the time comes, the Tian Mohou can still help Shang Shang Yue.

"Isn't the power of the evil spirit enough to support your advancement? Could it be that you are on the extreme road?"

Tianmahou was very knowledgeable, and he quickly guessed the truth.

"Forget it! In addition to the extreme realm, there are all kinds of methods! If my deity is not strong enough when I am promoted, just the calamity when I break into the saint realm is enough to crush me and make me wiped out!"

Fang Yue told the truth and helplessness.

Tian Mohou looked at Fang Yue strangely.

"The road to the extreme realm is inherently intolerant of heaven and earth, and coupled with a combination of all methods, I really don't know what your predecessors think. Is it because you think you didn't die fast enough?"

"Could it be that your clone will be so powerful, at the level of the Saint Realm, it has a combat power comparable to the level of the True Wonderland.

"Don't worry! Since you rescued me from the seal, I owe you a great favor. If you need it, I will naturally help you, but since you are taking all methods and extreme conditions The road, really has reached the critical link, with my cultivation base and vision, it may not really help you much!"

Tianmahou said with emotion.

"Seniors don't need to worry too much, just do their best!"

Fang Yue didn't expect that the Demon Lord could help him in this regard.

After all, the extreme realm and the simultaneous cultivation of all methods are equivalent to double death. Others are limited to help him. The key is to see if he can get out of this life and death puzzle.

Tianma Hou promised to keep it secret, Fang Yue set up a three-layer enchantment in the courtyard with eight formations to block the breath.

Originally, Fang Yue needed to be quiet when making alchemy. There were not many people in this yard. Apart from Quetian Mohou, there was only An Luhai, and An Luhai was sent by Fang Yue to trade the Star Stone. Yue and Tian Mohou are two!

Fang Yue found a place to sit down, and then he sat upright, pinched the seal technique with his hand, and injected it into the key of the earth evil world with the power of space.

Immediately, a crack opened in a space less than five centimeters in length.

The other side of its counterpart is the earth evil world.

A strand of earth evil spirits, as thin as hair, fell down from it, fell to the ground, and attached to an ordinary stone.

As a result, the stone changed, and immediately gave birth to a trace of consciousness. The stone opened its teeth and danced its claws, and its face and limbs were instantly refined!

"I rub! What rhythm is this! It's just a ray of evil spirits, and it can turn a stubborn stone into a fairy. At least it has the power of the Yin and Yang realm!"

Fang Yue was shocked!

He had known for a long time that in the seventy-two-layer Earth Shaman world, every nine layers was a ridge, and the thirty-sixth to thirty-seventh layer Earth Shaman world was a huge watershed!

But he never thought that the Qi of the Earth in the 37th floor of the Earth would actually change. To this point!

A wisp of unremarkable earth evil air turned a stone into a monster of Yin and Yang level.

Not to mention that this is turning a stone into a soldier, it's almost the same!

The stone monster turned towards Fang Yue's claws and slaughtered it, Fang Yue tapped his finger, the stone monster fell apart, and the pure earth evil spirit re-emerged and was refined by Fang Yue!

"The monsters enlightened by the evil spirits of the earth are not weak, but it is a pity that they are a little stupid!"

Fang Yue wrapped the wisp of evil spirits around his fingertips, and at the same time began to draw in more evil spirits that permeated from the cracks in the space.

Soon, strands of evil spirits permeated from the cracks in the space, but this time Fang Yue was wary of not giving those evil spirits a chance to transform into demons.

Strands of earth evil spirits were refined in Fang Yue's hands, and finally thirty-six drops of earth evil spirits were collected and turned into a thumb-sized earth evil ball.

Fang Yue placed the earth evil ball in his palm, and then placed 36 middle-grade original crystals and 36 middle-grade star stones on the ground, and then placed the earth evil ball in the center of the original crystals and the star stone.

"Fang Yue, what are you doing?"

Tian Mohou asked curiously.

The three things, the original crystal, the star stone, and the spirit of the earth, were originally irrelevant! But now, Fang Yue wants to forcibly merge these three, which is obviously beyond his scope of cognition!

"I want to refine a higher level of energy! An energy that has never appeared in this world! The stars represent the sky, the evil spirits represent the earth, and the origin of the world is the root of pregnancy, which can represent The power of chaos! The stars and the evil earth have nothing to do with each other, and there is no possibility of fusion, but with the origin of the world as a medium, this fusion becomes a possibility!"

Hearing this, Tianmahou couldn't help being slightly surprised.

The power of the origin of this world, the power of the stars, and the aura of the evil earth are all quite high auras.

If it is said that the ordinary earth evil spirit is only the power of the earth evil realm level, then all of the three powers that Fang Yue mastered have reached the level of the Great Sage! It is two levels higher than the evil spirit of the earth, and Fang Yue is still thinking about combining these three different powers. So Fang Yue intends to create a kind of power at the level of a virtual fairyland and even a true fairyland?

This sacred body is an ancient road explored by countless sages, but Fang Yue is breaking this ancient road and taking another path out of the ordinary!

If this kind of exploration is successful, I really don't know how strong Fang Yue can be at the level of the Earth Demon Realm!

"This fusion of the three forces is so easy to talk about. Although these theories of yours are reasonable in principle, they are still somewhat difficult in actual manipulation!"

Tian Mohou pondered for a moment, then Fang Yue said.

Fang Yue sneered: "This will not bother Master Tianmahou! Now that I have made a choice, I am prepared to fail! If I can't lose even if I can't lose, how can I talk about more than billions of lifetime achievements? Which one is the best?"

Fang Yue's voice fell.

Tianmahou couldn't help but feel a sense of vicissitudes.

He felt that he was indeed a little old compared to these vigorous young people!

This Fang Yue is right. If he doesn't have the courage to lose, how can he win?

Fang Yue flipped his hand and made a knot after another. Each knot was the essence of his own understanding of Tao and Dharma!

When the Jieyin fell, the original crystal shattered, and the power of the world, which was turned into powder, dissipated from it and replaced it with a mist that remained condensed.

Then the stars of the stars burst, and the light of the stars circulated, and they were also subject to certain restrictions, converging.

"Hey!"

Fang Yue's hand pinches the seal tactic.

The three powers merge again!

Using the power of the origin of the world as the medium, it unites the power of the evil spirits and the power of the stars!

The three have turned into a three-talented formation, and the three live together, repeating!

Afterwards, the three forces penetrated each other and gathered together!

In the end it turned into a three-color bead and fell into Fang Yue's hands with a sound!

Chapter 2289: The killer of the future

"Failed?!"

Tian Mohou couldn't help asking when seeing these three-color beads.

What Fang Yue wants is the fusion of the three forces, and these three-color beads are obviously the three or their own governance. They are distinct and not completely integrated. Even if these three forces complement each other, but without fusion, the essential level cannot be improved. .

"No! Tianmahou, how do you look at the power of the three colors?"

Fang Yue was not in a hurry to let the three powers completely merge, but asked a question that seemed to be irrelevant.

Fang Yue threw the three-color bead to the Tianmohou, who caught it.

A ray of divine thought of Tianmahou permeated it, and then slightly frowned and said: "The three powers complement each other, and the structure is quite stable. Even if the three powers have not been completely integrated, if they burst together, their power will be close to the power of the virtual fairyland. !"

Tianmahou's words are very pertinent.

"Tianmahou, these three powers are only at the level of the Great Sacred Realm, and after cooperation, they have the level of the virtual fairyland, and do you know why I am good at leapfrog fighting?"

A faint smile gradually appeared at the corner of Fang Yue's mouth.

Tianmahou couldn't help but froze slightly.

Then he said: "I don't know much about the dhamma and the same line. In this city of thousand towers, there are very few practitioners who have the same line. But I have heard that the most powerful thing in your line is the fusion war. Fa! This fusion tactic can integrate the power of different types and systems!"

The Demon Hou's words fell, and then said: "Could it be that your idea is to use these three-color beads to let the ordinary Great Sage display the fusion warfare?"

"The Demon Hou really understands me! Each of these great realms can hold countless practitioners! The practitioners of this great sacred realm are hundreds or thousands of times the number of strong people in the virtual fairy realm! If the person can also use the methods of the virtual fairyland level, then he will have some of the combat power of the virtual fairyland level! In line with our fusion tactics, the three different systems of earth evil, world origin, and stars The fusion of power, if it really does not care about life and death, it may not be the powerhouse of the virtual fairyland level that cannot be killed!"

Fang Yue's voice fell to the ground.

Tianmahou couldn't help being shocked.

He carefully observed the three-color beads in his hand again, and could not help showing a solemn expression.

"If you really don't care about life and death, even the power in the saint realm can force the power in these three-color beads. Under a single blow, if it hits, the power in the virtual fairyland will not die and be seriously injured! If three or five saints exchange for a virtual immortal, it is an extremely cost-effective business!"

After careful calculation, Tian Mohou felt that Fang Yue was more and more terrifying.

Fang Yue didn't take action on the face anymore, but it was very likely to secretly influence the direction of the war in the city of a thousand towers.

"It's not a good deal to change the saint! What if you add this thing?"

Fang Yue spread out his palm, it was the Holy Yuan Pill, which could help the practitioners at the peak of the leader realm quickly step into the magical pill of the Saint Realm-the Holy Yuan Pill.

"Are you going to exchange the life of the master of the virtual fairyland with a creature at the master level?"

Tianmahou was taken aback for a moment, and then his back was pierced by sweat.

If the saint had a slight status in the city of a thousand towers, then the creatures in the leader realm would really be like running dogs!

For countless years, there have been countless practitioners trapped in the city of a thousand towers at the pinnacle level of the leader realm!

If it were replaced by the souls of the peak of the leader realm, I am afraid it would really be able to fight the allied forces of the void clan to vomit blood.

"The power of these three colors is precious, I will not release too much! This is just one of the ultimate moves for the future of the City of Thousand Towers!"

Fang Yue is just thinking, not putting it into practice.

Even if the life of a creature at the leader level is used to exchange the name of the other party's virtual fairy, the price is not small.

There are indeed a lot of creatures at the level of the master realm in the city of a thousand towers, but the materials of the three-color power are also expensive, and three different power combinations can only be completed by him!

If it's just to deal with the creatures of the Void Fairyland level in the Void Clan, such a lot of effort is actually worthless.

But if you are looking for an excuse to search for the Star Stone, this is a good choice!

"The power of three colors, killer, hey!"

Fang Yue chuckled and slapped the three-color bead to pieces.

Between his fingers, a ray of chaotic power flowed out.

The power of chaos, refining Wanli!

The clear distinction of the three powers is a joke in front of the power of Chaos!

The power of chaos, refining and melting everything, even if there are three unrelated forces that can be integrated into one, not to mention, the power of the evil earth, the origin of the world, and the power of the stars are the three powers of mutual generation, under the impact of chaos, The three powers immediately attributed to the integration layer a milky white energy!

This milky white energy has just been born, and all kinds of powers are born in the void.

Thunder rippling, ground fire burning, ghosts and gods coming, the lunar piercing sky...

The power of this kind of calamity is mysterious and weird, and people give birth to a sense of fear that originates from the depths of the soul!

"What is this?"

The demon Hou frowned slightly, he turned a blind eye to the power of the calamity.

Fang Yue refining new energy that did not originally belong to this world, breaking the rules would have to withstand the test of the power of calamity.

It has been like this since ancient times!

However, Fang Yue refining the amount of this energy is too small, the power of this calamity is also quite limited.

Fang Yue flipped his hand, and the seal of the guard of Yongfeng Town suppressed it.

The power of calamity that had been born from the void was swallowed in an instant, integrated into the seal of the guardian envoy and disappeared in a moment.

If Fang Yue's research on the power of calamity was not deep in the past, he may only be able to let the power of calamity come, but now, in the underworld, the power of calamity is everywhere, and Fang Yue's research on the power of calamity is so high that it is difficult for ordinary people. The point of imagination!

With this power of calamity, he can suppress it by raising his hand.

"This kind of power is what I call the power of heaven and earth! Take the stars as the sky, the earth evil as the earth, and use the power of the world's origin to interpret all things!"

This kind of power has been conceived by Fang Yue for a long time!

Just after the idea was successful, Fang Yue immediately put it into practice to create this power.

That wisp of pure heaven and earth power wrapped around Fang Yue's fingertips, like a tame little snake.

"This power of heaven and earth is a kind of energy that I specially researched to break through the evil realm and forge my flesh. Its level should be at the level of the virtual fairyland! Although its quality is not as good as the fairy energy, the gap is not too big! Success in body forging may be able to elevate my evil realm to the ultimate level!"

Fang Yue talked freely. Although the power of the world was just born, Fang Yue was already very familiar with the characteristics of this power in theory.

If it weren't for waiting to construct and study this kind of power of heaven and earth, his deity would not have spent a lot of time in the depths of time and space without ever showing up!

"Heaven and earth! It's interesting!"

Tian Mohou stared for a moment, then a faint smile turned up at the corner of his mouth.

"The fusion of the power of the three different systems and the evolution and rebirth are indeed in line with your style of cultivating the same vein! However, even if this power of heaven and earth can help you break through to the peak of the leader realm, this is a huge amount! The energy contained in it is pure, but your foundation is too deep, and I am afraid that the billions of heaven and earth power may not be able to be used by your body!"

Demon Hou paused and said.

"The road is long and long, I will search up and down!"

This direction has been set, and even though the rest of the road is difficult and tortuous, Fang Yue has the determination to overcome all obstacles and will come to an end!

As for resources, Fang Yue naturally has a way to satisfy!

"The first level of this evil realm does not have much demand for this kind of heaven and earth power. If there are three hundred and sixty rays of heaven and earth power, it will be enough for me to break through! However, as the realm rises, every small realm has this. The demand for heaven and earth will grow exponentially!"

Fang Yue paused a little.

He was not in a hurry to get the deity to reach the top level of the leader realm. He had to walk step by step. Focusing on the moment, if he could successfully break through to the second level of the leader realm, he would be very satisfied!

Fang Yue retrieved the key to the earth evil world, and the light on it was dim.

Fang Yue sighed lightly: "The key to this world of evil is indeed a huge consumption. It took a while to maintain, and the energy in it has a huge consumption. At least it needs to sacrifice a living being at the peak of the Saint Realm. Can make up for consumption!"

This world key is a consumable item, and it must be filled with energy from time to time!

Tian Mohou looked at Fang Yue obliquely, offering sacrifices to the creatures alive or not. How could he feel that this guy was like an evil demon crawling out of hell, and he was not at all involved with justice.

However, the eldest brother does not talk about the second elder brother.

His reputation as a devil is not in vain!

In those days, he killed countless, no matter innocent or not, he became his dead soul.

Therefore, he has the name of Heavenly Demon Hou, his demon nature is strong, more than ordinary Heavenly Demon!

"I have a lot of this original crystallization, but the number of middle-grade star stones is short! It may still be a drop in the bucket by relying on an Anluhai alone. Looking back, it is like a way to find more channels for collecting star stones.!"

Fang Yue said to himself.

His practice is tantamount to burning money.

They all say that they are poor, civilized and rich, which is particularly obvious in Fang Yue's body.

"If you are talking about the Star Stone, I can recommend a family to you, the Shao Family, the City of Thousand Towers. Don't look down upon this family, but it occupies four veins of Star Stone in the void! They specialize in this family. There should be a lot of reserves of various minerals, the star stones in the clan!"

Tian Mohou said to Fang Yue.

"The Shao family?"

Fang Yue didn't expect to have such a family in the city of a thousand towers.

"Why haven't I heard of this family before?"

Tianmohou people are old and fine, and what they say may not be completely credible.

The ghost knows what bad water is in his stomach, in fact, what is thinking in his heart.

"There are tens of millions of families in this city of a thousand towers, and the water inside is deep! Some of the family's strength is on the bright side, but these family forces are not strong, some have a long history, and they have gradually turned from the stage to behind the scenes. It's a common occurrence that this kind of family's reputation is not obvious. If you can figure out all the details, then they are not far from extinction!"

Tian Mohou smiled happily.

Fang Yue thinks this also makes sense!

Chapter 2290: Chen Guoming's mission

"The Shao family! Well, if there is a chance, I will meet this family, but at the moment, I am afraid I don't have the time and opportunity!"

As soon as Fang Yue's voice fell, a slightly shrill voice came into the room.

"Master Baron, slave Chen Guoming, please see you!"

The cold voice was slightly harsh.

Fang Yue waved his hand to remove all the prohibited formations.

"In!"

Fang Yue's voice was deep and powerful.

At this time, a middle-aged man pushed the door and walked in. He was slender and thin, like a patchwork of several tree trunks!

This Chen Guoming looks shameless, but the breath in his body is cold and deep.

"When does a minion in this city of a thousand towers have the cultivation base of a virtual fairyland?"

Tianmahou spoke with a hint of sarcasm in his tone.

The virtual fairyland, although not a strong person in this world, but when it comes to the virtual fairyland, there are usually people with status and status, and generally speaking, they will never commit themselves to slavery!

What's more, this Chen Guoming still has a faint temperament.

This temperament further shows that Chen Guoming is definitely not the status of a slave he said.

"I am the coat slave of Lord Wolf King. I grew up with Lord Gongsun since I was a child, so no matter what level of cultivation I reach, I will always be Lord Gongsun's slave!"

Chen Guoming smiled and introduced his identity.

Fang Yue couldn't help being stunned when he heard this.

"Are you a coating slave of Lord Gongsun?"

"Correct!"

Gongsun Youruo said with a chuckle: "My identity is known to everyone among these thousand towers! If you don't believe him, you can ask about it!"

Fang Yue said nothing.

"What's the command of Lord Nalan?"

Gongsun Youruo thought for a moment, and then said: "Master Nalan wants to entrust you with three tasks! Among these three tasks, Sir Alex can choose one at will. Of course, if Sir Alex is looking for his face, all of them are completed, and the adults will naturally be even more. happy!"

"Go ahead! What mission!"

Fang Yue knew that this should come sooner or later.

This Gongsun Youruo treated him well, so naturally he wouldn't let him practice alchemy at home with peace of mind.

"The first task is for the adults to hope that Sir Alex will be able to refine a thousand madness pills in addition to his daily share of pills. These madness pills need to be kept secret by Sir Alex as a secret weapon! Of course! As a reward, adults can pay with twice the share of military merit!"

"The second task is to hope that Sir Alex Ferguson can assassinate a person--Mu Fengchun! If Sir Alex Ferguson can take this task, I will naturally offer this information about Mu Fengchun. If the adult refuses, it is Quandang. I never said it!"

"The third task is to find something in the city of a thousand towers-the Hunyuan sword. This thing is of special value. If Sir Alex can find it and offer it, the adults promise to sponsor Sir Alex's identity in the city of a thousand towers. Step up!"

Chen Guoming's voice fell.

Fang Yue closed his eyes slightly.

He was not thinking, but new information emerged from the induction trial token.

"Trigger the hidden task, complete the three tasks assigned by Chen Guoming, and reward you with an enlightenment fruit after completion!"

The task assigned by Chen Guoming... sure enough, there is something tricky in it!

This Chen Guoming is indeed Gongsun Youruo's person.

But the task he brought might not have been arranged by Gongsun Youruo!

At the first moment Chen Guoming appeared, Fang Yue had already noticed the abnormality.

On the surface, Chen Guoming seemed to be the cultivation base of the virtual fairyland, but Fang Yue could clearly feel that there was a deep hidden power in Chen Guoming's body!

The level of this deeply hidden power is not low, at least the level of a true fairyland.

Not only did he feel it, but the Demon Hou also felt it.

Therefore, when Chen Guoming appeared, the Demon Lord would speak to remind him.

Moreover, this task assigned by Chen Guoming is also problematic.

Fang Yue knew from An Luhai that the Origin Pill and Saint Yuan Pill he had refined during this time had been sent to the front.

These medicines have already caused a strong sensation in the frontline army. The Holy Origin Pill has elevated a large number of practitioners at the Master Realm level to the level of the Saint Realm, providing a lot of vitality. In order to heal the wounds in the road.

Nowadays, Fang Yue's value in alchemy is manifested unless it is an extremely compelling situation.

Otherwise, Gongsun Youruo would never let him perform some more dangerous tasks!

Therefore, these three tasks made Fang Yue more sure that this task was not arranged by Gongsun Youruo himself.

For the first task, it is possible to speculate according to common sense. But the next two tasks, as long as Gongsun You is not stupid, it is absolutely impossible to arrange.

So who is this Chen Guoming?

Why is it that his mission can still be recognized by Gu Lu!

Fang Yue's fingers gently moved the chair under him.

There was already a faint speculation in his heart-whether this Chen Guoming would be the eyeliner of this ancient road in the city of a thousand towers!

This task was assigned to Fang Yue through Chen Guoming.

As for Gongsun Youruo, it was just an excuse.

The more Fang Yue wanted to feel that his guess was more reasonable.

"Okay! I'm all up to these three tasks! For this crazy magic pill, wait until tomorrow afternoon to get it! Of course, the corresponding materials need to be provided by you and must be doubled! As for when the next two tasks will be completed, we still need to consider the long term!"

Chen Guoming smiled and said relievedly: "This is naturally no problem! These two scrolls contain information about Mu Fengchun and Hun Yuanjian! In fact, the second mission is not dangerous, but it must be completed. Mu Fengchun's position among the thousand towers is quite special. If it were to be killed explicitly, he might be pointed out by Qianfu in the city of thousand towers!"

Chen Guoming reminded again.

Fang Yue unfolded the scroll and took a look at Mu Fengchun's information.

Fang Yue's eyebrows couldn't help but raised slightly, and he felt like he was on a thief ship!

This Mu Fengchun turned out to be the captain of the eighteenth squad of the third guard in the city of a thousand towers.

His cultivation level is only at the peak of the virtual fairyland.

However, his identity is quite special. The Imperial Guard is the last layer of defense in the battle for thousands of towers, and the soldiers are all elites!

The Imperial Guard is at the highest level among all the troops in the City of Thousand Towers, regardless of treatment or authority.

Even if the treatment of the lone wolf in the city lord's mansion and the imperial guard can not be compared.

Although the lone wolf has an advantage in the allocation of special resources, after all, this lone wolf is a ugly existence in the shadows!

"Thanks for reminding, I will pay attention!"

Fang Yue smiled to see off the guests.

Chen Guoming also had other affairs involved, so he didn't delay much, and soon got up and left with interest!

After Chen Guoming left.

Fang Yue sighed softly.

"The person is not good!"

Tianmahou played with the cup on the table.

"Chasing the wolf and the tiger!"

Tianmahou naturally saw that the origin of Chen Guoming was unknown, and among the three tasks he arranged, except for the first one which was normal, the other two tasks were not well mastered, maybe the heat was eaten without spitting out bones. trap.

"Unexpectedly, I was targeted!"

Fang Yue's face was slightly gloomy.

"This Mu Fengchun is not easy to kill! If you kill him, it is likely to cause a series of troubles. He is a member of the Imperial Guard. Once the killing of him is made public, there is no legitimate reason to wait for the prohibition. Revenge from the guards! There may be no place for me in this huge city of thousand towers!"

Fang Yue had already thought of the consequences of this task.

"This is equivalent to a vote certificate. Once the vote certificate is handed over, the life and death is left to the control of the other party!"

Fang Yue muttered to himself.

"It is definitely not a wise choice to entrust your own destiny to the other party!"

Fang Yue suddenly became calm, even though this Chen Guoming was really Gu Lu's eyeliner, and he was carrying out the release mission on behalf of Gu Lu, it was impossible for Fang Yue to entrust his destiny to his hands!

"In the afternoon, I will personally visit Gongsun Youruo once! I want to see how sacred Chen Guoming is!"

Fang Yue changed his mind.

He decided to take the initiative to break the game.

If you blindly wait passively and let Gu Lu lead his nose, it would be too sad!

At this moment, Fang Yue somewhat understood why Luo Daoyi must take the initiative to control his destiny!

Only if you can sit on an equal footing with Gulu, or obtain a relatively equal position, can you control the rhythm of your own destiny!

However, before visiting Gongsun Youruo, Fang Yue needs to make some preparations, otherwise, he might not even see Gongsun Youruo's face!

Gongsun Youruo, although the opponent Yue Li received a lot of attention, he was quite valued, but after all he was also a great figure in the city of a thousand towers.

And Fang Yue is just a genius among the younger generation, and he is far from Gongsun Youruo in terms of identity and status!

If Gongsun You wanted to meet Fang Yue, naturally he would see if he wanted to. However, Fang Yue would need to inform each other if he wanted to meet Gongsun Youruo. It may not be possible to succeed. It is precisely because Chen Guoming knew this. Only in the fake mission, because even if Fang Yue is suspicious of these missions, he may not be able to see Gongsun Youruo and verify the authenticity of the mission.

Fang Yue asked to see him actively, but Fang Yue might not be able to see Gongsun Youruo.

But if Gongsun Youruo personally summoned him, Fang Yue would definitely be able to see him.

Fang Yue already had his own strategy in his heart!

"Tianmahou, do you want to restore your peak combat power back then?"

Fang Yue looked at Tian Mohou, he suddenly said.

Tian Mohou pondered for a moment: "I naturally wanted to! However, these years have passed, my deity has completely fallen, and now I am just a human skin clone. It is good to have 30% of the combat power of the deity before it fell. Talk about being able to have the peak combat power of the year?"

Tianmahou is very self-aware in this respect, his current state is far from the peak state of the deity back then.

Today, even if he has the relics of the Sun Clan added to his body, the combat power he can display is only a relatively mediocre level among the spirit immortals, how can it be compared with the combat strength of the spirit immortal peak of the deity back then!
