Chapter 2291: Chaos Fire

"Things are man-made, everything is not necessarily impossible! I may be able to use you as a guide to reverse the years and bring you back to the moment when you never separated from the deity!"

Fang Yue said mysteriously.

The Demon Hou was shocked.

"If this is the case, I owe you another great favor. If it is useful in the future, I will die!"

The demon swears.

Fang Yue smiled slightly.

"I once refined a kind of pill called Suichen Pill, which can erase the traces of time and reverse the traces of years on practitioners! However, the quality of this pill is limited, and the level of cultivation that can be targeted is limited! And I want to refine a new kind of pill to reverse the years, so that the creatures can step into the long river of years and get the most powerful moments by themselves!"

Fang Yue is ambitious.

Summoning the long river of years is the exclusive magical power of the strong above the Great Luojin Wonderland.

And if Fang Yue could make it possible for anyone to step into the long river of time, it would be an earth-shattering event.

"If you don't enter the real fairy, it is difficult to withstand the slap of the power of time! This kind of pill may only be effective against the strong above the real fairyland!"

Fang Yue whispered, "I'm here to make alchemy, hoping that the devil can protect the law for me, no matter what happens, no one is allowed to enter my courtyard!"

"Tianmahou, obey!"

Tian Mohou looked at Fang Yue, with a glimmer of hope in his eyes.

If someone else said this, even if he was a powerhouse at the real fairyland level, Tianmahou would not believe it.

But Fang Yue's words, Tianmahou has a faint hope.

Because Fang Yue itself is synonymous with miracles!

Except for this Fang Yue, Tianmahou has never seen anyone at the level of the leader realm with combat power comparable to true immortals.

Tianmahou has never seen a cultivator under a hundred years old who can have such amazing accomplishments in runes, formations, and medicine.

Tian Mohou never knew who could combine three completely different powers to derive new powers.

Therefore, Tian Mohou is full of longing and expectation in Fang Yue's body!

Fang Yue began to refine the pill, he took a deep breath, and then summoned Xiao Tie out.

This time, Fang Yue was the deity who made the alchemy himself, and the flesh and blood clone was hidden in the dark to protect the law.

Xiao Tie appeared, and Xiao Tie at this moment had already evolved to the level of a true fairy artifact in the continuous alchemy process!

It can change into various appearances. In order to avoid the appearance of its deity from shocking the world, Xiao Tie has become a small white iron pot this time, which looks more delicate.

Seeing Fang Yue's unprofessional alchemy props, Tian Mohou somewhat doubted whether he had overestimated the reliability of Fang Yue.

Isn't this alchemy using a pill furnace or cauldron furnace?

When can this iron pot for cooking also be used for alchemy?

Under the suspicion of Tian Mohou's gaze, Fang Yue had already put each bit of medicinal materials into the small iron.

At the beginning, the medicinal materials Fang Yue put in were quite serious.

Years flower, longevity grass, nether water, etc...

But then, the things Fang Yue put into the small iron were a little uncomfortable.

With a bang, Fang Yue actually put a piece of space debris the size of a palm into the small iron.

This thing...is it really edible?

The face of Tianmahou was churning. Moving, he felt that Fang Yue's alchemy was a bit beyond common sense.

Then, Fang Yue put a diamond-shaped space-time crystal into the small iron, piggybacking on it.

At this moment, Tian Mohou felt that he was blinded by lard, and he believed Fang Yue.

The time and space crystals can form space by themselves, and control the flow of time. Its value is extremely precious.

But how can this thing be used to refine pills?

The materials for Fang Yue's alchemy are already a bit whimsical!

Tian Mohou had the urge to smoke a big-eared melon seed to see if he was not thinking about convulsions, only then would he believe in Fang Yue's nonsense.

It is so easy to refine the pill that can make people step into the long river of time.

At least for hundreds of millions of years, there has been no record in ancient books. Some people have stepped into the long river of time by taking pills.

There are many amazing talents who have set foot in the long river of time in some other ways!

Tian Mohou sighed slightly in his heart. After all, he was still a little old, and he was already a little fuzzy in thinking, and he couldn't even remember the most basic common sense!

At this time, Fang Yue's face showed a look of everything under control.

In fact, the appearance level of the pill he refined was not high, even if it was a pill, it was only a virtual wonderland level pill, but it was a lot higher than the Super Suichen Pill.

But he still has some backhands, this so-called backhand is the Nine Ranks alchemy technique.

This pill of rank nine is different. If it can reach the level of rank nine, even the most common pill can be transformed into a masterpiece.

Fang Yue did not expect that the pill he refined this time would be able to achieve nine turns, even though it was only three turns, almost this pill could reach the level of the real fairyland, and finally assisted with the way of the pill, forcing it to upgrade a rank. phase.

There is no problem with this pill barely reaching the level of the spiritual fairyland.

"I'm going to refine pill!"

Fang Yue reminded Tianmahou.

Fang Yue had already felt that the Mohou had been sealed for so many years, and the inner drama was already terrifying.

But Fang Yue felt that it was okay for you to entertain yourself, and don't delay my business.

This time, I didn't ban this courtyard. When the time comes, ghosts such as heavenly robbery and visions will know what will happen.

If it causes the demons to dance, they still need this demon to suppress it!

Tian Mohou converged his mind, and the opponent Yue Zheng nodded his head and said: "No problem, the rest is left to me!"

Tianmahou promised it happily, but there are more dramas in his heart!

If this broken medicine can be refined successfully, I will call you Dad from now on!

Tian Mohou promised, but he was still a little absent-minded.

In his eyes, Fang Yue's alchemy refining this time was nothing but a whimsical farce!

However, Fang Yue ignored what the Demon Lord thought.

His pill has been refined!

This time, Fang Yue did not use ordinary flames, but tormented with chaotic fire.

The fire of chaos refining everything, and only the fire of chaos can refining all the miscellaneous materials in the pot!

As soon as the fire of chaos came out, all the surrounding heaven and earth order temporarily retreated.

This chaotic fire is the power of the beginning of heaven and earth. Strictly speaking, when the chaotic fire appeared, the order of heaven and earth had not yet been born!

This chaotic fire is not easy to say about the level of the law of heaven and earth.

But in terms of pure generation, this chaotic fire is definitely half a generation higher than the law of heaven and earth.

Therefore, the law of heaven and earth still gives some face to the fire of chaos.

You are here, I am leaving, everyone will not interfere with each other.

Practitioners are most sensitive to changes in the laws of heaven and earth.

This is especially true for the strong above True Wonderland.

After stepping into the real fairyland, this dispute between practitioners has become a dispute between Taoism.

If the Tao changes and they can't sense it, then don't mix up!

"The fire of chaos?"

Working not far from Fangyue's courtyard, Chen Guoming instantly sensed the changes in Fangyue's courtyard.

He couldn't help but frowned slightly, the pen in his hand slipped from between his fingers, and he didn't even notice it when it fell to the ground!

He didn't expect that Fang Yue could even produce this kind of moth!

For Chen Guoming, the fire of chaos is only a legend. He has never seen anyone who can summon the fire of chaos for half a lifetime of cultivation!

This chaotic fire, smelting all things, incinerating the common people, is powerful, even in the ancient times of the strong, this thing is a taboo power.

If Fang Yue can really summon the fire of chaos, his value should be raised to a higher level!

"The fire of chaos, the residence of Baron Fang Yue!"

At the same time, the wolf king Gongsun Youying who was in retreat in the mansion slowly opened his eyes. His eyes were azure blue, as clear and pure as two gems, but the eyes were pure and scary, which made people feel these eyes. There seems to be no emotion at all in the child!

"This Fang Yue really surprises me everywhere! In this short period of time, the medicine he provided has been used in some small battles, and its effect is quite remarkable. Two times, it even saved a little for the city of a thousand towers. Some disadvantages, although we have lost, but not so ugly!"

Gongsun Youruo's voice was faint.

He pays more attention to this Fang Yue!

At the same time, within a thousand miles of Fang Yue's mansion, there were also four great figures above the true fairyland who paid attention to the chaotic fire summoned by Fang Yue!

However, they didn't know much about Fang Yue, and they didn't pay as much attention to him as Chen Guoming and Gongsun Youruo.

Soon, all the materials for alchemy were refined and Fang Yue's little iron was filled with faint aromas.

In the sky, silver-white thunder powers converge, and these thunder powers are tumbling and surging, seeming to fall at any time.

Fang Yue's expression changed when he saw this!

"I wiped, how did the power of calamity come so early this time? I haven't written the eight characters of alchemy yet! Why did the power of calamity appear!"

Fang Yue's mind trembled.

On the one hand, the appearance of this power of calamity is the recognition of the quality of his pill, and on the other hand, it is an attitude that represents the rules of this world.

If this pill comes out, the world cannot tolerate it!

"Change places, change places quickly!"

The decisiveness and determination of this world's will makes Fang Yue unexpected!

This interruption of alchemy is definitely impossible, but if he really does alchemy in this city of a thousand towers, it will cause some catastrophes and fluctuations of the power of heaven and earth, Fang Yue is not sure whether this power of heaven and earth can tolerate him. , But this city of a thousand towers definitely cannot accommodate him.

This pill has just begun to be refined, and the power of thunder brewing between the world and the earth is already in the stance of a virtual fairyland powerhouse.

If this pill really becomes, the calamity is so great that the ghost knows what level it can reach.

If the city of a thousand towers is really wiped out at that time, Fang Yue will definitely become the sinner that Qianfu pointed out!

Therefore, Fang Yue ran around the little iron directly.

This city of a thousand towers can't stay, but the blood wasteland is still possible!

Chapter 2292: Marathon chase

"Oh, yes, it seems that Tianmahou gave me a map before. This map depicts the location of Huaxianchi in the blood wasteland! The Huaxianchi in the blood wasteland seems to be in the forbidden land of mountains and rivers. In! This time the power of calamity may allow me to explore the details of the forbidden land of mountains and rivers!"

Fang Yue ran away holding Xiaotie directly, while Tianmahou was in the messy wind.

Fuck, what about this kind of operation?

Doesn't people always find a quiet hut for alchemy, and do it by themselves?

Why is Fang Yue running around the world holding the pill furnace!

"This Fang Yue ran away?"

Gongsun Youruo couldn't help but was taken aback.

This is a good alchemy in the city, what is Fang Yue running!

"The fire of chaos...this Fang Yue can't have an accident! If he knew that Fang Yue had mastered the fire of chaos, some dangerous tasks shouldn't be given to him!"

Chen Guoming and Gongsun Youruo followed Fang Yue.

Tianmahou had teleported away with Fang Yue!

In the **** wasteland, the city of a thousand towers is clashing with the tribal coalition forces.

Fang Yue suddenly appeared in this battlefield.

"Huh? Who are you?"

Nurha, a strong demon at the peak of the virtual fairyland, is fighting vigorously with the warriors in the city of a thousand towers in front of him.

But at this time, Fang Yue appeared beside them suddenly, and looking at the dress, there was no armor and armor, and he was holding a big iron pot in his arms!

"You shouldn't be the fire-head army of the city of a thousand towers! The city of a thousand towers has fallen to such a point now, and even a qualified soldier on the front line cannot be dispatched. It is necessary for this fire-head army to come to the front to kill the enemy! "

Nurha said mockingly.

Then, Fang Yue frowned, and then looked at his outfit.

Well, it is indeed a bit simpler, and with a big iron pot, it really feels like a kitchen!

"You continue, I will not join in!"

Fang Yue was perceiving his position, there was still a considerable distance between this place and the forbidden land of mountains and rivers where he wanted to teleport.

At this time, Tian Mohou appeared behind Fang Yue.

"This mountain and river forbidden area is a forbidden area on its own. The outside world cannot lock its spatial coordinates. If you want to enter it, you can't teleport, you can only walk!"

Tian Mohou Fang Yue reminded.

"Is there anything else?"

Fang Yue couldn't help but stunned, and then he glanced at the **** battlefield surrounding the killing corpses.

A blue blood demon at the pinnacle level of the Great Sacred Realm had flapped its wings and flew towards Fang Yue.

Although Fang Yue's appearance did not make the Demon Race feel threatened, but in this rather serious battlefield, the sudden appearance of Fang Yue is quite disgusting!

The demons have always respected fighting.

Fang Yue's iron pair is a great insult to the battle.

"call!"

The blue blood demon even opened his mouth hundreds of meters away from Fang Yue.

What he was practicing was the law of swallowing, and he was going to swallow Fang Yue in one bite and become his dinner today.

However, Fang Yue did not move, but the Heavenly Tribulation that followed Fang Yue was sucked away by the blue blood demon.

The thunder riot turned into a frenzy and slapped in the direction of the blue blood demon clan.

"Do not!"

The blue blood demon's eyes widened. Before he had time to resist and struggle, he was swept by the thunder frenzy, and his body was wiped out.

"That kind of guy is worthy to do with me?"

Fang Yue showed a provocative look.

If you can't explore the forbidden area of mountains and rivers, you can kill some of the powerful tribal forces and earn some military merits, it would be a good harvest!

The blue blood demon sought his own way, and his fall was only a momentary matter.

A cold smile appeared on Fang Yue's face.

"If anyone of you Demon Race wants to die, just take action against me!"

Fang Yue's voice was utterly decisive. Although his subordinates kept moving and were still making alchemy, he already had a spirit of giving up to me.

"Who said this belongs to the Fire Head Army! If the soldiers in the city of a thousand towers have such strength, then my tri-ethnic coalition forces will not want to attack the city of a thousand towers!"

A great saint from the demon clan whispered.

The blue blood demon who just died has killed dozens of powerful men of the same level on this battlefield. He is also considered a small and famous powerhouse on this battlefield, but just now, he Death is unclear, unclear, unclear!

The death of the blue blood demon was a big blow to the morale of the tri-racial alliance.

The Great Sage Pinnacle, in fact, is no longer considered weak in the blood wasteland.

And he just performed the swallowing technique, but he didn't expect to be annihilated by the thunder tide and beaten to ashes.

"Set up a battle formation for me to kill this human race!"

An eight-winged demon of the imaginary fairyland level appeared, his figure was bloated and fat, and the eight dark green wings behind him gave people a sticky and disgusting feeling!

However, the appearance of this eight-winged demon invigorated all members of the tribal alliance.

"It's the powerhouse of the royal family here!"

"The powerhouse of the royal family! This human race is dead!"

The powerhouses of the tribal coalition have been talking about it, and obviously they have high hopes for this eight-winged demon.

"Royal family? What is that stuff?"

Fang Yue's pill refining skills and thoughts and gossip made the Heavenly Demon Hou even more certain, this Fang Yue refining is not necessarily a successful pill.

"The demon clan has a distinct pedigree. This eight-winged clan belongs to the royal clan! There are not many people in this clan, but they are good at fighting and fighting! If they are scored according to their blood level, the eight-winged clan is almost at the prefecture level. Of the blood! Below the real fairyland, it's not a problem for the Eight Wings to have one enemy two, and one enemy three! Of course, if it is at the level of the real fairyland, this way of measuring combat power by blood is not so easy to use! Because all people who can cultivate to the real fairyland are able to change their lives against the sky!"

Tianmohou introduced in a low voice.

At the same time his look is complicated.

Could it be that Fang Yue wanted to kill him?

But here is the wasteland of blood, the place where the city of a thousand towers and the tribal coalition forces confront.

Today, the city of a thousand towers is in a disadvantaged position, and even the fortress with one layer of the wall has been lost!

If Fang Yue kills too much here, it will inevitably be sieged by the powerhouses of the three-ethnic coalition forces. If there are true immortals and spirit immortals who will end up at that time, this Fang Yue is estimated to be in danger.

However, Tianmahou did not interfere.

Because he believed that this Fang Yue was definitely a thoughtful person and would not die easily.

Fang Yue's expression was faint, his gaze swept over the people of the three races around here, the number was not enough, and the overall strength was not strong enough.

Use them to consume a killer mace in your hand, it's not worth it!

However, you don't need a killer to kill them, you just need to move your fingers a little!

"Arrange, siege!"

The Eight-Winged Demon Race's virtual immortal powerhouse said in a deep voice, he vaguely felt a sense of anxiety in Fang Yue's body. Although the opponent was only a human race at the saint level, he did not dare to underestimate the opponent.

Because this Fang Yue had an inexplicable aura on his body, it made him feel a sense of endless panic.

Eighteen heads of the Black Wing Clan at the peak of the Saint Realm glanced at each other, and suddenly formed an array!

However, their formation has not yet been listed.

These black-winged tribes softened and fell to the ground, and the breath on their bodies disappeared in a short period of time, transforming into eighteen cold corpses.

At this moment, the horror in the hearts of the tri-racial coalition is deeper

The eighteen-headed Black Wings at the peak of the Saint Realm are not weak. His death is unclear, unclear, and it makes people feel terrified!

Even if they died in a fierce battle, they would not give people this strange and fearful feeling.

A chill came from their tailbone.

Fang Yue's smile became stronger.

"I said, you can't do it!"

At this moment, Fang Yue laughed openly and wantonly, smiling like a real demon coming back from the depths of hell!

"I laughed at the bodies of these guys!"

Fang Yue took away the corpses of the eighteen black-winged great sages. There were hundreds of tribal coalition powerhouses around, but no one dared to stop them, let alone an exit, even those who opened their mouths more than a moment. No!

They could only watch Fang Yue take these corpses away as if taking away their own things!

"If you dare not stop me, then disperse!"

After Fang Yue said, he turned and walked towards the forbidden land of mountains and rivers.

Unexpectedly, it was a group of counselors!

Fang Yue was secretly disappointed in his heart. Originally, he wanted to catch a big fish, and with the help of the power of heaven, kill a true fairy or something, but in the end, these people didn't even have anyone who dared to beg for mercy from the clan!

Fang Yue's pace was not fast, and the catastrophe above his head followed him.

The medicinal materials in the small iron have been refined under the fire of chaos, and Fang Yue's pill has entered the second step of forming the pill!

Sure enough, no one from the three tribal coalition forces caught up.

They just hung from a distance, sending news back to the camps of all races.

This Fang Yue's appearance is really a bit paradoxical.

His strength is unclear, and his identity is unknown.

At least there should not be such a number one among the human races in their data book, using iron pots to refine alchemy, and they can silently kill the eighteen black-winged great sacred realms!

In this way, an unimaginable scene appeared.

A human race walked in front holding an iron pot, and another person followed.

Hundreds of meters away, a group of powerful tri-ethnic forces were walking tiptoe, deceiving themselves and making no noise or movement!

The distance of several hundred meters is nothing but an instant movement for Fang Yue.

However, this seemed to have become a tacit understanding, as long as the tri-racial coalition forces behind him did not exceed this distance, Fang Yue would not attack them!

In this way, about hundreds of kilometers away!

The time for a stick of incense has passed.

Among Fang Yue's small iron, the pill has already taken shape, a total of 99,81 pill, which faintly emits a faint pill fragrance.

This Danxiang is not strong, but it gives a refreshing feeling!

Tian Mohou stared at these pills tightly.

Because these pills gave him a mysterious feeling.

Obviously these pills are at most the pills of the imaginary fairyland level, but from the eyes of Tian Mohou, this pill has a kind of unpredictable feeling that even he can't see through it.

"You have all chased so far, do you want to chase?"

Fang Yue stopped suddenly, and he looked back at the powerhouse of the tri-racial coalition behind him.

Chapter 2293: Pangu

No, it's not just the tribal coalition forces anymore, even the City of Thousand Towers has sent people.

The Wolf King Gongsun Youruo was hiding in the crowd, his expression still, he wanted to see what Fang Yue was going to do?

Using the fire of chaos to refine a pill, what kind of pill is Fang Yue refined?

Although Gongsun Youruo didn't keep close to Fang Yue like Tianmahou, he could directly sense Fang Yue's pill breath, but he could vaguely sense that the pill in Fang Yue's iron pot should be quite similar. Extraordinary!

"Fang Yue, what do you mean?"

A strong man in the true fairyland of the demon clan asked.

After such a long period of time, it would be strange if the tri-racial coalition could not investigate Fang Yue's true identity!

Among the tribal coalition forces, there are already powerful figures in the real wonderland.

This Fang Yue once hunted down a large number of powerful people in the Void Clan and killed the true immortals, and he refined a variety of pills to help the creatures in the leader realm of the human race break through, so that the injured powerful people can recover.

The existence of Fang Yue is already a big threat to the tri-racial coalition forces.

The value of a Fang Yue may exceed the two ordinary true immortals of the human race!

Therefore, even if Fang Yue used himself as a bait to get them hooked, their tri-racial coalition forces would also find ways to kill Fang Yue this time!

They are just the powerhouses of the tri-racial coalition on the bright side, and there are still many people in the dark waiting for the opportunity to kill Fang Yue.

Originally, they thought that the number of strong people attracted was not enough, and they wanted to attract more strong people to come, but they didn't expect that Fang Yue would not run halfway!

This made the powerhouses of the tribal coalition feel a little surprised.

"Behind me is the mountain and river forbidden land! To tell you the truth, my goal is not you but the Huaxianchi in the mountain and river forbidden land behind me! I have heard that the water in this Huaxianchi is extremely valuable! If you let me in. In Huaxianchi, everyone is the well water and not the river! Actually, I am not very interested in dealing with you. I believe that you don't want me to lose your army and defeat me in order to deal with it! Of course, if you insist on killing me, then Don't blame me for being merciless!"

Fang Yue looked at the people in the tri-racial alliance.

He has already said very clearly.

His goal is the Forbidden Mountain and River, the Huaxianchi in the Forbidden Mountain and River!

If you don't stop me, everyone will be better off.

If you stop me, who is dead is not certain!

"Is this a threat?"

The powerhouse of the Demon Race at the real fairyland level said in a deep voice.

Their demons have always threatened others viciously, and they have never threatened others so blatantly!

"Not a threat, just a reminder!"

A smile appeared at the corner of Fang Yue's mouth.

Unexpectedly, he would eventually become that early bird.

However, this is also good, I am in the early days, do other testers want to eat free food?

Fang Yue said that his goal was to transform the fairy pond, which was intentional.

Anyone who completed the task in the third link should be trapped in the first level of Huaxianchi.

These five Huaxian Ponds are not easy to enter.

Fang Yue gave them a chance this time so that they could join forces to enter the forbidden land of mountains and rivers and obtain this fairy pond.

This is a silent union, a tacit understanding, and also an opportunity.

If you miss it, you may never have such a good opportunity to enter Huaxianchi in a short time!

"Fang Yue, you can't enter the forbidden land of mountains and rivers, and you can't get Huaxianchi, because this is your burial ground! Today next year will be your sacrifice day!"

The true fairy-level demon Fang Yue roared and roared, he was not going to give Fang Yue any breath. The chance to rest!

He is not familiar with the forbidden land of mountains and rivers, but he has also heard of it, there are all kinds of weird, even if Daluo dare not guarantee that he will not fall!

The tri-racial alliance did not want Fang Yue to drag them into this forbidden land.

Because once you enter the forbidden land of mountains and rivers, this life and death cannot be controlled by them!

"This Fang Yue is about to enter the forbidden land of mountains and rivers! Do you want to help him!"

On the side of the city of a thousand towers, a little fat man in a Taoist robe said with a smile.

This little fat man has only the third level of the cultivation base of the virtual fairyland, which is not very conspicuous among the many masters present.

However, there was a middle-aged man beside him. This middle-aged man was full of sullen aura, but he was a strong man who had reached the level of true wonderland with half his feet!

"Wait! This Fang Yue is obviously fishing. He wants to ask the testers to help him, but there is no problem with helping them! But he can't be used as a gun, let alone Fang Yue's strength. We haven't studied it yet. If he can break into the forbidden land of mountains and rivers, it's better to say, if he is just a straw bag, wouldn't we help him expose his identity?"

There is already a commotion in the crowd, and different forces have their own ideas!

On the other hand, Fang Yue was alone against the demon at the real fairyland level.

"Since you have made a choice, if you die because of this, then you can't blame me! If you know under the Nine Springs, you can blame you for following the wrong person!"

Fang Yue's smile was brilliant, like a blooming flower.

The little iron in his hand suddenly floated into the air!

All the pills in it are shaped!

Ninety-nine-nine-eighty-one pill, unprecedented, they mobilize the power of time and space, and have all kinds of indescribable powers!

The appearance of these medicines will break the balance of various rules and orders in the city of a thousand towers. Therefore, these medicines have been locked by the tribulation of the sky. The tribulation has come and turned into an endless thunderstorm, which suddenly poured down and washed away. The whole world.

The area of the thunderstorm covered an area of three kilometers around Xiaotie.

Fang Yue took Xiaotie and teleported to the middle of the tribal coalition forces.

The powerhouses of the tribal coalition all felt a sense of imminent disaster.

"Fang Yue, you are so vicious! I am waiting to be at odds with you!"

A desperate roar came, and then all the sounds disappeared completely under the washing of the thunderstorm.

This thunderstorm is equivalent to the powerful spells that countless virtual fairyland powerhouses have jointly displayed. Within the scope of the rainstorm, every inch of space is equivalent to not being bombarded by the virtual fairyland powerhouse all the time!

The bronze medal on Fang Yue's chest was filled with merits in just an instant.

I don't know how many powerhouses of the tribal alliance of Saints Realm and Void Fairy Realm were annihilated under the bombardment of Heavenly Tribulation at this moment.

On the contrary, it was Fang Yue who was at the center of the calamity, because he had a strong ability to control the power of thunder.

"Massacre! This is a premeditated massacre!"

The real fairyland powerhouse of the Demon Race who was clamoring to kill Fang Yue said in horror!

If it hadn't been for a long time, how could Fang Yue attract so many powerhouses of the Tri-Clan Alliance.

At the beginning, Fang Yue was fishing, laying out, brewing the catastrophe, and trying to maximize the benefits of this catastrophe!

"Fang Yue, this is amazing! A single person can produce the results of a war!"

Gongsun Youruo was standing by, and he found that Fang Yue didn't need him to help!

A strange smile appeared on Fang Yue's face.

"Thank you for your military merit! Since you are so generous, then I totally laughed at it!"

The power of this day robbery is getting bigger and bigger!

In the vast thunderstorm, thunder creatures began to grow.

A thunder-formed pterosaur passed by. Its wings were as sharp as knives, and it easily split the throat of the Void Blade of the eighth level of the Void Wonderland struggling in the tribulation!

There is also an eight-armed silver dragon condensed by pure thunder power.

The strength of this eight-armed silver dragon is supernatural, and he is afraid to die a commander in the Black Wing Clan who has stepped into the real fairyland level with half his feet!

If this thunderstorm swept away the low-end existence of the tri-ethnic coalition forces, then this thunder creature was a conscious massacre.

As Fang Yue was the instigator, the summoner of this calamity was on the sidelines, completely unaffected by the thunder creature.

Because of Fang Yue's feet, the Thunder Realm has stretched out. In this realm, Fang Yue is the absolute controller of the power of Thunder. No matter how strong this Thunder creature is, it is impossible to invade the realm under his feet!

"Pangu Kaitian!"

At this time, the powerhouse of the Black Demon Clan finally couldn't help but the impulse in his heart, Fang Yue made a shot.

This is a super powerhouse at the eighth level of True Wonderland, his hands clasped a golden axe, lifted it high, and crashed down.

This axe actually split Thunder Falls, allowing the world to see light again!

Yes this vast thunder.

This power of heaven and earth was actually split apart by a true fairyland-level black demons!

Fang Yue's face showed a look of astonishment.

He did not expect that this day of robbery would have such a method of dispelling.

According to the truth, any magical power, any spell, can only temporarily resist the thunder robbery, and cannot completely disperse it!

"Pangu bloodline! Fang Yue has the bloodline of the Pangu clan in his body. They have two powerful bloodlines, the Pangu clan and the Demon clan, which can display the unique talents of the Pangu clan, Pangu Kaitian! At the same time, there are also many demon clan that are weird Changed fighting style!"

"Pangu opens the sky, can occasionally know all the ways and all the methods! This trick is said to be able to smash even the heavens. I did not expect that this is not a legend, but a truth!"

I don't know when, Luo Daoyi rushed out of the crowd.

He was the first to express his attitude to stand on Fang Yue's side.

There is a rare opportunity. Luo Daoyi understands Fang Yue very well. It is rare for Fang Yue to jump out and step into the forbidden land of mountains and rivers to find Huaxianchi!

With Fang Yue's cautious character, since he is ready to step into the forbidden land of mountains and rivers, it means that he has eight out of ten. Nine grasp of success!

"Pangu, no wonder! It's a pity that he hesitated for a little too long. My bronze medal has been filled with seven pieces!"

Fang Yue flaunted.

The true fairy of the demon tribe said indifferently: "What you kill is just some ants! My demon tribe has always followed the law of the jungle of the weak and the strong. Since you can kill them, it proves that they are a waste of life. The resources of my demons are nothing more than!"

The words of the demon tribe's true immortal not only made the members of the demon tribe chill, but on the contrary, all of their faces were covered with expressions that they should have.

Even if they sacrificed, the same treatment was applied. If they died in battle because of their weakness, then they could not blame others!

Chapter 2294: Vientiane Change

Fang Yue suddenly felt shuddering.

The thinking of this demon race is a bit distorted!

Not only do they not regard other people's lives as the same thing, they even don't even respect and cherish their own lives!

"If you want to kill me, then come! This day is gone, I will stand here waiting for you to kill!"

Fang Yue didn't feel the slightest loss without being dispelled by the robbery.

Because Fang Yue had expected it long ago, he understood that it was impossible to achieve the result he had imagined by relying on only a catastrophe.

The robbery of the sky is scattered, and it has brought a lot of feats to Fang Yue!

What's more, the deity's alchemy, the most indispensable thing is the punishment of the heavens!

This is where and where.

His pill was only refined to the level of the virtual fairyland!

"The pill is turned, it's reborn!"

Fang Yue demonstrated the alchemy technique of the Ninth Rank that he hadn't used for a long time! Even though this is only a level, the spirit of heaven and earth around here is already converging towards the little iron!

This is a total of ninety-nine and eighty-one pills of the virtual fairyland level. If you want a successful turn, you need to consume a huge amount of heaven and earth essence!

In just a few breaths, the essence of heaven and earth within a hundred miles has been vacuumed!

Even some of the original crystals scattered on the ground instantly turned into white powder, disappeared and disappeared!

"This medicinal pill consumes so much energy from heaven and earth!"

Not to mention others, Fang Yue himself was taken aback by the movement made by the pill.

In the past, the level of the pill he refined was not very high, so after refining, the amount of essence absorbed by the heavens and the earth was not very large, and he had never encountered such a lack of essence of heaven and earth!

Now, the pill that he refines in the little iron is all the pill of the virtual fairyland level, if it succeeds in the first round, it would be ninety-nine and eighty-one real fairyland level pill!

This promotion from the imaginary pill to the true immortal level, its span is terrible!

The required heaven and earth essence can no longer be measured with reason!

"This pill refining can't fail! Otherwise, all the materials I put in before will be wasted! If the essence of heaven and earth is not enough, then use the original crystal to make it together!"

Fang Yue gritted his teeth, he suddenly crushed a storage bag.

There are thousands of low-grade original crystals in this storage bag, and nearly a hundred middle-grade original crystals! There are also some rare materials and miscellaneous objects.

Those original crystals, both low-grade and medium-grade, instantly became white powder, the essence of which was instantly swallowed!

"Is Fang Yue so poor? Is this something in his storage bag?"

A Demon Race on the eighth floor of the Virtual Wonderland said in surprise.

Originally, he thought that Fang Yue's storage bag still had a huge amount of original crystals!

"Wait! Why is that storage bag so familiar? It feels like a storage bag made by my demon clan!"

The demons of the virtual fairyland level were suddenly stunned.

"I wipe it! This storage bag belongs to our demons!"

The Xuxian of the Demon Race suddenly felt shameful! Their demons have never been bullied so much before!

Even if the people were killed, they took away their storage bags!

If this kills and overwhelms, kills and overwhelms!

It can also be called a routine operation.

But you smash this storage bag in front of us and take out the essence crystals in it to refine alchemy!

Do you still have our demons in your eyes, and our old guys?

However, Fang Yue made a pill, but no one stopped him.

Because thunder gathers in the sky again!

This time the thunder catastrophe was even bigger than the one just now, and there was even a flame of fire emerging in the thunder!

The second wave of Fang Yue's calamity is here!

A turn of the medicine pill requires a huge amount of heaven and earth essence. Although Fang Yue's condensed amount of heaven and earth essence is not a lot, the trend of a turn has already emerged.

"another one!"

Fang Yueyou crushed a storage bag, which still belongs to the demon clan.

The original crystal in it was instantly annihilated, turning into strands of heaven and earth essence and falling into this little iron.

In the little iron, the heaven and the earth are rolling.

The entire heavens are shaking with it!

This pill involves the way of time and space, touching the source of the most essential law between heaven and earth!

"Not enough! Not enough! Hand over all the original crystals in your body!"

Fang Yue turned to robbery at the strong men who survived the tribal coalition forces.

This makes the powerhouses of the tribal coalition feel unbearable, no need to bear it!

"Bold fanatic! Look at the gun!"

One of the warriors of the third floor of the true fairyland in the demon clan roared, the blood in his body soared to the sky, shattering the clouds!

He is a dignified demon clan, even if it is a super strong clan in the underworld, it is just because of its low-key that, so on weekdays, there is not much activity in the underworld. However, although the demon clan has not been shown for these years, its reputation in the underworld should be given. Thousands of people are afraid, surrender and dare not offend!

A dragon spear burst out of the sky, and the spear contained endless power!

This shot is like a dragon going out to sea, with great momentum, and it is frightening!

"Fight me close?"

Fang Yue held the handle of the dragon spear with one hand while he opened his mouth!

A beam of white light instantly penetrated the sky, and directly tore the throat of the third layer of the Demon Race True Wonderland!

The body of the strong man on the third floor of the Demon Race True Fairyland was broken. Although he was hit to the point, his body was powerful, but he did not immediately fall! His consciousness is still there, he wants to turn around and leave, retreat to the coalition, avoiding its edge.

However, it was too late for him to leave at this time!

Fang Yue's other palm came out and turned into the size of a grinding plate. With his five fingers spread out, he directly scratched the head of the Demon Race on the third floor of this true fairyland!

This time, it was Fang Yue's deity, although in terms of realm, the deity was not as good as the flesh and blood clone, but in terms of physical body tempering, Fang Yue's deity was several times stronger than the flesh and blood clone!

Thirty-six true dragon powers, this is no joke!

Between the lightning and flint, the head of a strong man on the third floor of the Demon Race True Fairyland was scratched by Fang Yue. The vitality in his body disappeared, and even the storage ring he carried with him was taken away by Fang Yue!

Fang Yue put away the corpse of the true fairy of the demon clan, and at the same time crushed the storage ring.

Piles of original crystals emerged in the ring, and these original crystals didn't even have a low-grade or medium-grade, all of which were top-grade!

The origin crystallized into powder, and the power of the origin was incorporated into the small iron.

The continuous change of the medicine pill has gradually begun to truly begin to transform, to a level of transformation!

"Poor ghost!"

Fang Yue took a sip.

"A demon clan in a true fairyland has such a little original crystal!"

Fang Yue's words made all the demons present look ugly.

The true fairyland-level demon clan that was just killed by Fang Yue had carried a lot of original crystals, and there were almost three thousand original crystals at the high-grade level alone! There are 20 low-grade immortal stones remaining.

At the level of true fairyland, fairy stones are generally used for trading. As hard currency, who should carry a lot of original crystals?

However, Fang Yue's brutality is obvious to all at this moment!

This true fairy-level demon clan powerhouse kills as soon as it says kill!

Raising his hand, he smashed a powerful man of the Demon Race of the true immortal three-tier, and no one dared to treat Fang Yue as a junior at this moment!

The bronze badge Fang Yue carried with him was enough to accumulate ten of them together.

This beheading a powerful man of the real fairyland level is no less meritorious than killing the thousands of troops in the tribal coalition!

Fang Yue's rough estimate.

This time the transformation of the medicine pill requires a huge amount of original strength.

At least three thousand high-grade primordial crystals contained the power of the source to be able to reach this pill level.

"Three thousand top grade origin crystallization!"

Fang Yue muttered softly.

His gaze flicked over the tri-racial coalition forces present, and under this true immortal, no one dared to look at Fang Yue.

At this moment, Fang Yue was like a vicious bandit.

If he is the one who is favored by him, it will inevitably end up being murdered.

"Three thousand high-grade original crystals! I can give it to you! But if this pill is practiced, I need a lone wolf!"

At this moment, Gongsun Youruo had vaguely sensed the extraordinary features of this medicine.

Every pill gives birth to the exquisite nine orifices, and every acupuncture orifice contains a huge amount of time origin power!

There are few medicines that involve time.

At least Gongsun Youruo has never seen this medicine that involves the power of time and space.

Therefore, as soon as Fang Yue's pill came out, it had not yet become a pill. Gongsun Youruo knew that this pill was extremely precious, and the pot of pill that Fang Yue refined reached the level of true fairyland, and its value was great. increase! It is difficult to measure with the original crystal!

Gongsun Youruo said with a wave of his sleeves.

And the top-grade original crystals he sprinkled were not three thousand, but a total of three thousand five hundred.

He was worried that the lack of the original crystals would cause the alchemy process to fall short.

Therefore, he gave more original crystals than Fang Yue needed!

The essence of these original crystals just appeared is instantly absorbed!

The clouds in the sky have become blood red! Hundreds of millions of Scarlet Thunder crashed down, transforming into a giant hammer and struck Fang Yue's head suddenly.

There is thunder and fire in this calamity, thunder light and flame intertwined, and it is so brilliant that people dare not look directly.

"Move the universe! The change of Vientiane!"

Fang Yue let out a low roar, the blood-colored giant hammer was actually led by Fang Yue with the force of the rules, and knocked towards the forbidden land behind him!

"The power of this giant hammer is equivalent to the combination of ninety-nine and eighty-one true fairyland powerhouses. How can Fang Yue forcefully move away even with this kind of attack?"

Some people in the tri-racial coalition were terrified, and with such supernatural powers, even some veteran spirits could not do it.

And Fang Yue also showed a trace of weakness!

This move is quite exhausting to him.

Not only did he use the power of his physical body, but he also consumed most of his willpower.

Chapter 2295: Dan Cheng

If it were not for the will of Dao, Fang Yue would definitely not be able to complete the transfer of the power of the calamity, the calamity was invisible and difficult to capture, but the will of the Tao was able to pull the power of the calamity slightly to deflect and smash it to other places.

With a bang, the mountains and rivers in the forbidden land collapsed, filled with dust, the mountains and rivers were turbulent, and the sun and the moon in the sky shook a few times!

Fang Yue took the opportunity to put away the small iron and flew towards the forbidden land of mountains and rivers!

The plan cannot keep up with the changes.

Originally, Fang Yue was going to refine this pot of pill to the second rank level, and then use the technique of combining pill to improve its quality. However, Fang Yue never imagined that this pill would turn once. It is to raise all these pills to the level of true fairyland.

Fang Yue didn't even expect that the Dan Tribulation in this round would be so powerful. Just shifting it would consume a full 60% of the will of Dao in his body. It would take him six days to make up for the will of the Dao consumed. come back!

If there is a stronger pill, Fang Yue may be beaten to death by this pill if the pill refining fails!

Therefore, Fang Yue used Pill Tribulation to flatten a forbidden area of mountains and rivers, and then ran away.

The tribal forces pursued more fiercely.

If Fang Yue killed a large number of people in their tri-racial coalition army just now, if he couldn't behead this Fang Yue and use his blood to wash away the shame, wouldn't their tri-racial coalition be very faceless this time?

In front of the mountain and river forbidden land, Fang Yue stopped again.

He didn't intentionally stop, but there seemed to be something extremely terrifying in the forbidden land of mountains and rivers recovering!

Fang Yue had a hunch that if he rushed into the forbidden area of mountains and rivers at this time, 90% of them would die inside, and there would be no place to bury the bones!

The next moment, Fang Yue hesitated for a while, and then stepped into the forbidden area of mountains and rivers with one foot.

Luo Daoyi and Tianmahou who followed Fang Yue just prepared to follow Fang Yue into the forbidden land of mountains and rivers.

But the scene around them changed. They came from the front of the forbidden area of mountains and rivers to an unfamiliar world!

"This is where?"

Both Tianmohou and Luo Daoyi showed a look of surprise.

Tianmahou had personally set foot on the forbidden land of mountains and rivers, and he had a general understanding of all of them. The order in the forbidden land of mountains and rivers was different from the outside world, and this place was definitely not a forbidden land.

"This is a remote place in my blood wasteland, about 30 kilometers away from the mountain and river forbidden land! Just now, one of my aura clones has stepped into the mountain and river forbidden land! The tribal coalition and the thousand towers Some people in the city have been chased and killed! Let them first test how much danger there is in this forbidden mountain and river, and then we will ponder over and see if we really want to walk in the forbidden mountain and river!"

When Fang Yue's words came out, Luo Daoyi was a little speechless.

This style is really "Fang Yue"!

This is a typical dead Taoist friend, but not dead poor Tao.

Just now Luo Daoyi was still wondering when Fang Yue, who had always been greedy for life and fear of death, changed his temper, dared to be the first, and ran into the mountain and river forbidden ground to be a pawn.

Fang Yue has set up a game for emotions, and let others be his pathfinder pawns!

No wonder Fang Yue is so noisy. The more people there are, the better he can detect the risk factor in this forbidden area.

Suddenly, Fang Yue's face paled slightly.

"I rub, my spiritual energy clone has fallen!"

Fang Yue's pride just disappeared, replaced by a solemn expression.

"How strong is this aura clone?"

Luo Daoyi was also a little surprised.

He knew Fang Yue's strength, and even if he randomly condensed an aura clone, his combat power level would not be weaker than that of an ordinary Void Fairy pinnacle.

And this Fang Yue's spiritual energy clone, it didn't take a long time to enter the mountain and river forbidden area, and it suddenly fell.

This is absolutely terrible news.

This represents the degree of danger of the forbidden area of mountains and rivers, far beyond the imagination of ordinary people!

"Probably half of the foot has stepped into the real fairyland level!"

Fang Yue made a rough estimate of the strength of his aura clone.

After all, this aura clone is a temporary condensed clone, and its strength is not too strong.

But the level of a half-step true fairyland fell only the moment he stepped into the forbidden land of mountains and rivers.

This ending is too bleak!

"Don't be surprised, this mountain and river forbidden land is a remnant of the era left at the end of a certain civilization era. Any kind of weird things can happen in it! Not to mention a half-step true immortal, even a strong person at the peak of a true immortal. Entering is still just ants to be slaughtered!"

Tianmahou was not surprised by what happened right now.

When Fang Yue heard the words, he was taken aback for a moment, and looked at the devil with a strange look.

"Tianmohou, did you leave your eyeliner in the forbidden area of mountains and rivers? How do you know that a real fairyland level powerhouse has fallen!"

While speaking, Fang Yue spread out his palm, and a full twelve bronze medals were instantly filled!

Tian Mohou was a little dumb, "These are..."

"The most reliable basis for judging the extent of the tribal coalition's losses! The tribal coalition strayed into the forbidden land of mountains and rivers and I have direct cause and effect. I have studied the accumulation rules of the merits of these races. The accumulation of merits is judged by causality. If the powerhouse of the tri-racial coalition died in the forbidden area of mountains and rivers, I would get 50% of the merits! Thirteen medals were instantly filled, and at least two of the three-racial coalition forces would have fallen to two true fairyland-level powerhouses!"

Fang Yue felt sorrowful.

This time the hatred between the tri-racial coalition forces and him is great!

Fang Yue had just killed one person, and then in order to chase Fang Yue into the mountain and river forbidden area, two true fairyland powerhouses died in the mountain and river forbidden area.

Three consecutive powerhouses in the true fairyland have fallen, which is definitely not a small loss for the tri-racial coalition forces.

Regardless of the reality of the whole game, the tri-racial coalition has invested thousands of real wonderland powerhouses, but these real wonderland powerhouses can not be cultivated casually! These true immortals are all powerhouses of the three tribes accumulated through countless years and countless resources.

One dies is one less.

Now that the three of them have fallen, it is enough to make them feel painful and painful!

Sometimes, after one or two battles, most of the deaths of the three-ethnic coalition and the city of a thousand towers are actually soldiers below the level of the Great Sacred Realm, and it is really at the

level of cultivation of the virtual fairyland, as long as the intensity of the war is not Very big, there will not be a large number of fallen people! As for the powerhouses of True Wonderland, they do not sometimes exist as a strategic deterrent!

Unless the battle between the two sides is a compelling moment, otherwise, within ten days and a half months, no strong man in the real fairyland will have fallen, let alone injured!

And for a Fang Yue, three true immortals died!

This is definitely a loss-making business for the tri-families!

"I don't think you are exploring the forbidden land of mountains and rivers, but you are here specifically to slay the powerhouses in the true fairyland of the tribal coalition!"

Luo Dao slandered.

This Fang Yue is about to become a true fairy killer!

When he was in the underworld, Fang Yue killed a lot of the real fairyland powerhouses in the Black Demon Clan. He made the Black Demon Clan look like he was incompatible with Fang Yue. Now he ran to the city of a thousand towers. This Fang Yue It is still a dead end, and the expert who specializes in real wonderland started!

The Demon Hou sighed slightly.

"Sure enough, each country has its own talents, and each has led the way for hundreds of years! Thinking back then, I also led an army on behalf of the city of a thousand towers to kill the Quartet! If it was the one who could kill the enemy in that battle The powerhouses at the real fairyland level are all rejoicing. When they return, they celebrate their feasts. I led my army to fight for hundreds of years, and the number of powerhouses in the real fairyland who killed the Void Clan is only a few dozen. Fang Yue killed three true immortals just now!"

Tianmahou sighed.

The true immortals that he met with the opponent back then needed the lives of countless sergeants to be able to kill one or two true fairyland powerhouses, but Fang Yue now simply kills three true immortals. Xian, this made his heart a little bit uneven.

"If he can be ranked as a knight by virtue of his military merits! Now Fang Yue is afraid that he has reached the position of Viscount! The military merits of others are counted according to points, while Fang Yue's military merits are directly counted by the number of bronze medals!"

Luo Daoyi fights for Fang Yue!

The city of a thousand towers has been mixed to the present level, and it is not because of no reason, but internal and external troubles, and self-accumulation.

The corruption inside the city of a thousand towers is serious, the factions inside are distinct, and the struggle is serious.

Some people with no background want to climb up with their own military merits, it is simply a difficult thing to get into the sky.

Without identity, no connections, generally speaking, being able to raise the title to the baron level is the limit.

"This city of a thousand towers has the rules of a city of a thousand towers. What you think is injustice may not be the drawback of the city of a thousand towers!"

Tian Mohou snorted coldly, he was slightly dissatisfied with Luo Daoyi's words.

Some things can only be seen farther if you stand higher.

Tianmahou still has a strong sense of belonging to the city of a thousand towers.

This Luo Daoyi said that the city of a thousand towers is not, naturally, Tianmahou's heart is also a little unhappy.

Luo Daoyi has a high emotional intelligence. He understands what Tianmahou meant, so he kept silent about the city of a thousand towers, lest he touched this big guy's brow!

Luo Daoyi also had some feelings about the origin and identity of Tianmohou.

This is definitely a tycoon-level figure in the world of the city of a thousand towers, his aura is as deep as an abyss.

"Tianmohou, this pill has been refined! Although it has not reached the level of the fairyland in the imagination, it still has the effect of reversing the time!"

Fang Yue took out an elixir from Xiaotie. The elixir was surrounded by strands of milky white elixir. The elixir looked like dragons. The value of the elixir was self-evident.

The palm of Tianmohou was shrouded in this pill, and he was also proficient in Jian Pill.

For some old-fashioned guys, this Jian Dan technique is actually a basic magical power.

After the Jian Pill technique was displayed, the medicinal properties of the pill instantly appeared in the sea of knowledge of Tian Mohou.

Chapter 2296: Not people inside and outside

"This pill is so powerful!"

Although Tianmohou had witnessed the two calamities encountered when the pill was turned into a pill with his own eyes, he did not expect that the effect of the pill would be so strong.

"A small pill can add a thousand years of life to a strong person at the real fairyland level, and it can reverse the thousand years of life, and return his body to a thousand years ago! This is equivalent to two thousand years of life. ! And the most valuable thing about this pill is that its effects can be

superimposed on each other, and it will not lose its effect just because it has been taken once! If this kind of pill is to ask questions, I am afraid it will attract crazily coveted by all forces! The value of this pill is simply limitless!"

"In addition to being effective for the creatures in the Central True Wonderland, this pill also has extraordinary effects on the strong in the spiritual wonderland! Although this pill is not as effective as the real immortal on the strong in the spiritual wonderland, it can also have six Successful medicinal effect! Tianmohou, you only need to take two such pills to be able to return to the peak state thousands of years ago!"

Fang Yue said with a smile to Tian Mohou.

Fang Yue already understood that this pill is estimated to be less than the second-tier level of refining for the time being. Because if this pill reached the second rank level, it might have an effect on the powerhouse of the Da Luo realm. The Tao of Da Luo is eternal and free, no longer in the world, jumping out of the five elements.

If this pill can be effective against a powerful person at the Great Luoqing level, then its effect is really against the sky!

The birth of this pill will definitely cause infinite calamities, and it is difficult to resist the terrifying anomaly!

"This pill does not have a name yet! Give it a name!"

Tian Mohou looked at Fang Yue with a smile.

Fang Yue smiled slightly, and then said: "This pill is just its lead! Wash out the lead, and it will be a happy one! This name should be worthy of this pill!"

After Fang Yue said, Tianma Hou nodded slightly.

"This name is good, Qianhuadan, it has a good meaning and a better effect!"

"Give me three lead Huadans, count I owe you another favor! Originally, I didn't want to owe favors to others, but since I already owe you favors, I owe a few more if I owe more !"

Tian Mohou said shamelessly.

Fang Yue laughed and said: "Tian Mohou is joking! It's just three pills. What's the point of giving it to Tian Mohou?"

Fang Yue took out three pills and gave them to Tian Mohou, while Luo Daoyi looked at Fang Yue eagerly.

"Fang Yue, you bad guy! You gave me a bunch of Suichen Pills and Super Suichen Pills when I asked you for a pill before. If you die, it will have an effect on the creatures of the Great Sacred Realm! It hurts me. It just raised my chamber of commerce level by one level. If you can give me two lead Huadan, I can do it to fly, do you believe it?"

Fang Yue sneered, the expression on his face a bit strange.

"Do you think I didn't give you these high-quality medicines because I was stingy? Don't forget, we are grasshoppers on a rope, we are all glorious, and all we lose! Everyone is innocent, and we are guilty! If I am true I gave you the pill that makes the strong in True Wonderland jealous, maybe your Chamber of Commerce will be gone tomorrow!"

Fang Yue's voice fell.

Tianmahou nodded slightly.

"This year's dust pill and the super year's dust pill will not arouse the greed of the strong to trade with you peacefully, and if you take out a more precious pill, you may not only not be able to upgrade the Chamber of Commerce to benefit from it, but it will evaporate from the world completely!"

Tianmahou has been in the city of a thousand towers for so many years, knowing the darkness in it.

Luo Daoyi grinned and said, "If they dare to come to the door, I don't know who will live and die in the end!"

Fang Yue looked at Luo Daoyi's self-confidence, and then said: "I can't give you this lead Huadan for the time being. I will keep this thing useful! However, if you really have such confidence, I There is one thing that can be handed to you for auction!"

Fang Yue took out a talisman.

There are nine suns painted on this talisman.

"This is a nine-day map of paper talisman that I refined! If all the power in it is released, it is equivalent to the power of nine imaginary peak powers working together! There are nine days in the sky, turning into a golden crow, Burn the earth, and the vegetation will not grow! The power of this thing is extremely terrifying, if one is not careful, even a strong person who has just entered the real fairyland may not be able to resist the past!"

"I have refined three of these nine-day maps. You can auction them one by one. This thing is a weapon of war. If used in a war and used at the right time, it can cause mass destruction!"

Fang Yue's voice fell.

Luo Dao couldn't help showing a hint of vigilance.

"What do you mean to me? I'm afraid it's not just to help me upgrade the chamber of commerce!"

Luo Daoyi always felt that Fang Yue's intentions were unpredictable, and he didn't simply want to be a good person.

For example, this time Fang Yue said that he wanted to run into the forbidden land of mountains and rivers to find Huaxianchi, so he made a sinkhole.

This time, it is not just a matter of using how many people into the pit to explore the forbidden mountains and rivers as pawns to explore the way.

"I think the city of a thousand towers is a bit weak, can't you help the city of a thousand towers from the side?"

Fang Yue gave a reason that even six-year-old children would not believe it.

However, Luo Daoyi would not refuse to get a good item. If these three runes are used well, he might really be able to bring his Chamber of Commerce to a new level!

"City of a thousand towers, hehe!"

Fang Yue suddenly laughed, Fang Yue's smile made Luo Daoyi feel a kind of creepy!

Then, Fang Yue threw another fifteen bronze medals, which were full of merits.

Luo Daoyi no longer asked Fang Yue's thoughts.

Anyway, this Fang Yue is also calculating the city of a thousand towers, what does the rise and fall of this city of thousand towers have to do with him?

Luo Daoyi wanted to understand this, and there was not so much curiosity and entanglement in his heart!

Luo Daoyi stopped talking, while Fang Yue quietly waited for news from the forbidden area of mountains and rivers.

This time the matter is about whether his third ring task can be successfully completed.

About half a time later, Fang Yue took out his Human League token.

"Human League token, please tell me the current situation of this mountain and river forbidden land!"

Don't think Fang Yue received much attention in the League of People, but he made a great feat for the League of People, which no one could deny.

Fang Yue's status in the People's League is not low, so his authority in the People's League has increased accordingly.

Some permission functions of the Renmeng token are unlocked, including the permission to obtain some messages.

There were a lot of eyeliners in this city of thousand towers. Fang Yue didn't need to investigate some basic news by himself. He only needed to use the token to ask to know the status of the alliance on the front line.

"You need 300 Black Iron Merit to exchange the corresponding information!"

A row of beautiful characters appeared in the token of the League of People.

"give!"

Fang Yue said generously.

The number of merits in other alliances is extremely large, and this trivial 300 black iron merits are not worth mentioning to him.

Following that, Fang Yue's mind came up with several news about the frontline mountains and rivers forbidden land.

Fang Yue's smile became a little stiff.

"What's up, Fang Yue?"

Seeing Fang Yue's expression, Luo Daoyi couldn't help being curious.

Could it be that Fang Yue's calculation failed?

"I wipe it, fortunately some of us didn't rush into the mountain and river forbidden land. The previous day of the catastrophe was thrown into the mountain and river forbidden land. It seems to have caused a big trouble! In the mountain and river forbidden land, some old undead monsters have recovered. The tribal coalition forces who chased my clone and entered the forbidden area of mountains and rivers in the mountains and rivers forbidden areas suffered extremely heavy losses. Nine powerful people in the real fairyland were killed on the spot, and a spirit fairy of the demon tribe was killed by the mountains and rivers forbidden area. An evil dragon thrown out in the middle of it bit off half of its body and performed a forbidden secret technique. Only then did he hold his fist and save his life!"

Fang Yue looked at the merit tokens one after another that he had just been filled with merits, he suddenly felt that these merit tokens were a bit hot! There were not a few good things among the three-ethnic coalition forces, and he killed the true fairyland powerhouse among the many three-ethnic coalition forces at once. It is estimated that the three-ethnic coalition forces in the middle will count this account on his head.

"The three-ethnic coalition has suffered heavy losses. You are the hero of the city of a thousand towers. This is comparable to a great victory on the frontal battlefield. What's wrong with it?"

Luo Daoyi looked at Fang Yue curiously.

He looked at Fang Yue's expression and felt that this matter was not that simple.

The three-ethnic coalition army originally had the enemy Yue's hatred as deep as the sea. If there are too many lice, don't bite, and don't worry about debts. Fang Yue should not feel uncomfortable because of this!

"If it's just these, of course it's nothing! The point is that the party in this hapless City of Thousand Towers is not very firm in will. Didn't I just notify the party in the City of Thousand Towers before this incident? On one side, there are three true fairyland powerhouses who have also strayed into the forbidden area of mountains and rivers, and unfortunately died in battle! Moreover, these three true immortal powerhouses who are so immortal all belong to a duke family among the thousand towers—Grand Duke Kafi! Now this Duke Kafi has spoken in person, saying that if he can find me and catch him alive, he will reward him with a chance to enlighten the world. If he is dead, give them the body. As for the family, you can also get the reward of 20 low-grade immortal stones, and you can get the eternal friendship of the Grand Duke Kafi family! Now the city of a thousand towers is looking for me everywhere!"

"Who knew that this guy's true fairy was so stupid that he followed him into the forbidden land of mountains and rivers!"

Fang Yue could not help complaining.

And Luo Daoyi rolled his eyes from the other Yue.

"I'll rub, do you know how difficult it is for someone to cultivate a real fairyland-level powerhouse? Because of you, two died at once. If it is me, I will chase you at all costs. !"

"The Grand Duke Kafi family! This family is indeed an old-fashioned family in the city of a thousand towers. It is said that Duke Kafi is a half-step strong in the Great Luoqing. There are also rumors that he has already taken a crucial step thousands of years ago. One step, it has reached the level of Da Luo Jing! Moreover, this family has an ancient heritage and belongs to the hereditary grand duke family. Grand Duke Caffee is the successor of the third grand duke. On top of him, there are two former grand dukes. Live!"

To Fang Yue, the news of Tianmahou made the situation worse.

"So? I am not a human being inside and outside now?"

Fang Yue wailed.

Chapter 2297: Enter forbidden area

If he had known it, he wouldn't do things so absolutely.

Now, when he wants to return to the city of a thousand towers, he must consider the attitudes of all parties.

"The city of a thousand towers is full of strong people, and various factions are even more intriguing. Offending a Duke Kafi is actually not the worst news for you, as long as the first-class or above forces in the city of a thousand towers have not hunted down. You, the Grand Duke Caffee family can only privately launch power to do something on you!"

Tian Mohou comforted and said: "This time you have killed so many powerful men of the Tri-Clan Alliance, and you also killed a group of true fairyland powers in the Tri-Clan Alliance. For the city of a thousand towers, you are one. A great hero! They will not easily ignore your credit! I still said that, the city of a thousand towers can stand in the endless void, in the blood wasteland for so many years, not really worthless, but sometimes You can't see the power of this city of a thousand towers!"

Tianmahou mentioned Fang Yue, don't underestimate the city of a thousand towers.

Fang Yue nodded slightly and said nothing more.

His current situation can only take one step!

"So now, shall we go to this forbidden mountain and river?"

Luo Daoyi looked at Fang Yue and waited for his decision.

"Go! Why not go?"

Fang Yue gritted his teeth: "The most dangerous place is the safest place. What's more, so many powerful people have found the way for us this time. We can't let these powerful people die in vain, right? There is more than one entrance in the forbidden area of mountains and rivers! They only walked through one of them before! We can enter from other entrances!"

"Suddenly?"

Luo Dao suddenly realized.

"Yes, it's the sound of the east and west! The interior of this mountain and river forbidden area is connected, including four entrances in the south, east and northwest! Before we bombed the east entrance, and used so many powerful people to attract the attention of the powerful creatures in the mountain and river forbidden land. The entrance to the east is already dangerous, but the defense of the other three entrances will definitely be weaker than in the past! The forbidden area of mountains and rivers is a place of opportunity, which has great dangers and great opportunities! It is said that this city of a thousand towers has made Da Luoqing In the existence of levels, at least 40% of the strong have personally went to explore the mountains and rivers forbidden areas before Zeng Zuluo! If we can get the opportunity to achieve Daluo in the mountains and rivers forbidden areas, then we can in the future. Walking sideways in the wasteland! What kind of grandpa family, grandmother family, if we meet in the future, we have to bow our heads!"

Fang Yue gritted his teeth.

This Grand Duke Caffee's wanted warrant has forced him to the edge of the cliff.

He has no choice, no refund.

Before, he only offended the tri-racial alliance, which is not terrible!

But now this Grand Duke Kafi is wanted by him, making him dare not even go back to the city of a thousand towers!

If he continues in this rhythm, he can't stay in this world anymore.

Fang Yue will also face two choices. One is to complete the main task of the ancient road trial as soon as possible, and formally step into the ancient road. From now on, the various disputes of right and wrong in these thousand towers will have nothing to do with him. The other option is to strengthen himself as soon as possible. If he can have the means to not fear the immortal and slam Da Luo, what is the wanted order of Grand Duke Cafi?

"Actually, I should have expected this kind of result! There are many factions in this city of a thousand towers. The survival of this city of a thousand towers seems to have something to do with everyone, but because of the scattered responsibilities, it is ultimately It has nothing to do with everyone! What they care more about is the gains and losses of their own interests! Even if I was born and died for the city of a thousand towers, and destroyed so many imaginary immortals in the tri-racial alliance, it would not become their mind The true hero!"

There was a touch of sadness in Fang Yue's words.

But Tianmahou showed a strange look.

Brother, I haven't seen you here sincerely considering the city of a thousand towers.

Didn't you attract these powerful tribal forces to come here and want them to serve you as a pathfinder in this forbidden mountain and river?

However, Tianmahou did not say this.

There are some things that can't be said, and even friends don't have to do it.

Fang Yue is careful, if he tells the truth, he still doesn't know how this guy will toss and retaliate!

"We are actually closer to the South Gate! So I suggest that you walk through the South Gate and step into the forbidden mountain and river. When I entered the mountain and river forbidden area, I walked through the South Gate. The light car and familiar road..."

As he spoke, the words of Tianmahou suddenly became smaller.

He looked at Fang Yue with a skeptical look.

"Fang Yue, you said, are you ready to abandon the east gate and use the east gate to attract the attention of the terrorist existence in the mountain and river forbidden area!"

Tian Mohou looked at Fang Yue with suspicion.

This possibility is not non-existent.

Because Fang Yue had already consulted the Tianmohou about the situation in the forbidden mountains and rivers, Fang Yue also knew that when the Tianmohou entered the forbidden mountains and rivers, he used the south gate instead of the east gate!

"It's just a coincidence!"

Fang Yue smiled.

But the more Fang Yue laughed like this, the more people wondered whether he had arranged and arranged for a long time!

"If my guess is correct, this time the Tri-Clan Alliance and the City of Thousand Towers were really pitted by Fang Yue! He had anticipated everything early and set the game! Even in Nadong In the door, even some of the practitioners who wanted to complete the third ring mission had entered the urn! At that time, Fang Yue said that he had stated clearly that his goal was Huaxianchi in the forbidden land of mountains and rivers! Finally someone did the exploration. Pioneers of the road, how could they miss this rare opportunity to enter the forbidden land of mountains and rivers to find Huaxianchi! After the mantis catches the cicada and the oriole, this Fang Yue is the real old oriole!"

Luo Daoyi understood everything. It turned out that Fang Yue's layout was behind all seemingly accidental coincidences.

Fang Yuezheng'er looked at Luo Daoyi.

"Do you believe me by coincidence?"

Luo Daoyi also looked at Fang Yue and shook his head with a serious face and said, "I don't believe it!"

"If you don't believe me, forget it! Have mercy on my character!"

Fang Yue pretended to be disappointed.

And Luo Daoyi said coldly: "You still have character?"

"Don't quarrel between you two! Hurry up and enter the forbidden area of mountains and rivers! The major forces at the East Gate find that the situation is not good, they must retreat quickly to reduce losses! If they are all gone, Fang Yue's previous layout will be ruined!"

Tianmahou urged the two.

He didn't want the great situation to be ruined by the bickering between the two!

"Leave now!"

Fang Yue arranged the teleportation point of this teleportation formation here, in fact, he was already ready to enter the forbidden mountain and river from the location of the south gate!

The three quickly entered the south gate.

This mountain and river forbidden land is full of vitality and vitality. The air is not simply the vitality of the world but the source of the world!

The lush vegetation, placed outside are all rare spiritual herbs and elixir.

"This place doesn't seem to match the name of the forbidden place!"

Fang Yue felt that this place was a restricted area of life, it was a perfect place for spiritual practice!

Tianmahou glanced at Fang Yue and said: "You haven't seen the original appearance of this mountain and river forbidden land, otherwise, you would not think so! This place is paved by the wreckage of hundreds of worlds falling and exploding. As a result, the power of the world's origin is naturally extremely abundant! For practitioners in the saint state, one day of practicing here is worth one year of practicing outside! However, the danger here is not from the saint state. What a practitioner can face!"

"The mountain and river forbidden area is extremely dangerous. More than one powerful man from the Great Luo Realm has fallen here. The higher the realm, the stronger the enemy faced in this mountain and river forbidden area! However, like me who used to be People who have been in and out of the forbidden area of mountains and rivers once are not so dangerous in the forbidden areas of mountains and rivers! Because I have a part of the original aura of the forbidden areas of mountains and rivers, from a certain perspective, this mountain and river forbidden areas will assume that I am the forbidden area of mountains and rivers. Part!"

Tianmahou explained his situation.

Fang Yue slowly expanded his spirit.

Fang Yue found that the consumption of his will in this forbidden area of mountains and rivers was recovering quickly, at a rate of about a hundred times that of the outside world.

This also means that the Will of Tao, which originally took him six days to repair, can be fully recovered in this forbidden mountain and river within a few hours!

From a certain perspective, this forbidden mountain and river is really a blessed place for practitioners.

"Roar!"

Fang Yue just wanted to compliment.

An angry tiger roar came!

A tiger with two pairs of white wings on its back was culled from the sky, its eyes widened, and it came straight to Fang Yue.

"Maybe, do you think I am very weak?"

Fang Yue touched his nose, this dumb head couldn't help others, so he looked for him specifically.

"spread!"

Tian Mohou opened his mouth and shouted.

As he spoke, he had withdrawn a distance of tens of meters, and Luo Daoyi's reaction was not slow, and he had appeared dozens of kilometers away in a flash of smoke.

What can't you do, escape first!

Luo Daoyi definitely has a unique talent for escaping!

The teammates escaped, but Fang Yue was the only one left to face the flying tiger with two pairs of wings.

When the flying tiger was less than ten meters away from Fang Yue, a ten-meter-diameter ring slowly rose into the sky, covering Fang Yue and the flying tiger!

All creatures outside the ring are restricted by rules and order, and none of them can interfere with the battle in the ring by any means.

Feitianhu roared again, his voice rippling, like a raging sea slapped in Fang Yue's direction!

However, this level of attack on Fang Yue couldn't cause any damage at all, and even this sound wave couldn't shatter a single hair of Fang Yue.

"A flying tiger at the peak of the Saint Realm, is this the so-called terrifying creature in the Forbidden Land of Mountains and Rivers?"

Fang Yue showed a slightly disappointed expression, and then he slapped the flying tiger to death!

The flesh and blood of the flying tiger was blurred, and all the flesh and blood essence in it was refined by Fang Yue, and even the soul of the flying tiger was refined into the soul fluid by Fang Yue.

Fang Yue discovered that the vitality in the creatures in the forbidden mountain and river was exceptionally abundant, and the power of the essence contained in the body and soul was about three times that of the outside world!

The ring disappeared and the battle ended.

Fang Yue felt that he had not stretched his waist yet.

Chapter 2298: Remnants of the Siege League

Tian Mohou looked at Fang Yue as if he was looking at a monster.

"Perhaps this mountain and river forbidden land is set up for you freaks! In the mountain and river forbidden land, all the opponents you encounter are set up according to your realm! The higher your realm, the strength of this opponent is also The stronger! However, all the treasures and relics in the forbidden area of mountains and rivers are strong and guarded by creatures. These guards will not reduce their combat power level because of your low realm!"

"In the forbidden area of mountains and rivers, if you encounter such a beast that descends from the sky, it is best to face it alone! Others must hide far away, lest they are interfered by the order in the forbidden area of mountains and rivers at the moment when the ring is formed! Order has insight into the existence of other creatures, and will punitively summon creatures that are at least two realms higher than the realm of the corresponding creatures for the test. Because this kind of city gate fires and the test of pond fish, every year A large number of intruders fell into the forbidden area of mountains and rivers!"

Tianmahou is so familiar with everything in the forbidden land of mountains and rivers.

Back then, in order to find Huaxianchi in the forbidden land of mountains and rivers, he did a lot of research on the forbidden land of mountains and rivers!

Forbidden mountains and rivers are dangerous everywhere, the more powerful the existence, the higher the risk of falling in this forbidden mountains and rivers.

"The fierce beasts flying from outside this day deal with outsiders? Then who is the outsider from that place?"

Fang Yue pointed at a distance. About tens of kilometers away, a huge flame-flaming bird fell from the sky, and the flames burning on this huge bird was a colorful fire!

"Colorful flame bird, a fierce beast at the real fairyland level! Its opponent is at least an intruder at the virtual fairyland level!"

Tian Mohou recognized the identity of this giant bird with burning flames.

This kind of fierce beast has an extraordinary talent and strong ability to control flames. When it grows to the level of a real fairyland, its body will naturally produce a layer of terrifying colorful flames. This colorful flames can not only burn the flesh, but also can Burn the soul! If the colorful flame bird makes a move, it means that the realm of the intruder who appears in the forbidden area of mountains and rivers this time is not low!

"The mantis catches the cicada and the oriole! It seems that it is not just our family who wants to be the oriole!"

Fang Yue whispered.

And at this time, another black ape descended from the sky. This ape was the cultivation realm at the peak of the Great Sage Realm, and its goal was the fastest Luo Daoyi who had just run!

"Ah, no!"

When Luo Dao saw the fierce ape coming, he screamed loudly, his stern voice, as if he was really about to face the enemy of life and death!

But Fang Yue turned a deaf ear to Luo Daoyi's screams. If such an ape could deal with Luo Daoyi, then Luo Daoyi would not live at this time.

Fang Yue's figure flashed, lurking in the direction where the colorful flamingo came.

Knowing oneself and one another, Fang Yue needs to understand the strength and means of the opponent before he can win the opponent as quickly as possible when conflicts with him.

However, when Fang Yue arrived, the intruder had disappeared.

The corpse of a colorful flaming bird that had been chopped in half was left on the ground.

This colorful blazing bird just died for an instant, and the colorful blazing flames on its body have not yet dispersed.

Fang Yue observed the opponent's corpse with divine mind, and immediately found that the colorful flame bird had died extremely simply.

A knife light slashed, the colorful flame bird of the virtual fairyland level fell instantly, its wound was smooth as a mirror, and a faint sword aura permeated it.

"Opponent, so strong!"

Fang Yue showed a solemn look. He was able to get rid of this colorful blazing bird in such a short period of time, proving that his strength was at least above the level of True Wonderland, or even higher!

Fang Yue took away the corpse of the colorful blazing bird, and this investigation was not without results.

At least the value of the corpse of this colorful flame bird is not low, at least equivalent to three times the value of the corpse of the Void family of the same order!

The bloodline in this fierce beast's body is extremely high, and it is attached to the power of fire. It is a good choice if it is used to blend talisman ink or as an auxiliary material for alchemy.

Moreover, Fang Yue also determined the lower limit of the opponent's strength!

This person who killed the colorful flame bird is at least a arrogant talent with true fairyland combat power!

"Could it be that this is another tester of the ancient road?"

There was speculation in Fang Yue's mind, but he couldn't be sure.

Fang Yue returned to his original place while thinking.

At this moment, Luo Daoyi had completely killed his fierce ape, without even leaving a trace of life.

Luo Daoyi was dissecting the ox, picking off the previous things from the fierce ape.

He didn't know that Space and Heaven could create a different-dimensional storage space to store various treasures without restriction.

The space for his storage ring is limited, so he can only take out some of the more valuable things from this fierce ape!

"Fang Yue, how is it? Do you see the appearance of the intruder?"

Tianmahou asked.

"No! Only a corpse of the colorful flame bird was obtained! When I arrived, the opponent had already killed the colorful flame bird and left!"

Fang Yue put the corpse of the colorful blazing bird on the ground, letting Tianmahou judge.

After all, Tianmahou is a powerhouse in the fairyland. In terms of vision and perception, he is stronger than Fang Yue and Luo Dao.

"This is the sword technique of the sword king, one of the thirteen holy kings of the Void tribe thousands of years ago! But these thirteen holy kings are all the pinnacle figures in the spiritual fairyland, and the power of this sword is simply compared to the sword king. There is a huge difference! If I expected it to be true, this should be a disciple cultivated by the Sword King who entered the forbidden land of mountains and rivers!"

After all, Tianmahou has been in this city of a thousand towers for many years, and he knows the strength of all parties' moves.

"If it's a disciple of the Sword King, all this makes sense! All the thirteen holy kings have high self-esteem. Their disciples inherit their mantle, and they must all be Tianjiao-like characters! The cultivation base of the Great Sacred Realm, It's not surprising that you have the power of a true fairyland! Fang Yue, if you meet this disciple of the Sword King in the forbidden land of mountains and rivers, you must be careful, maybe the Sword King has also taught him the taboos and genres he studied before. If it is at all costs, it may be able to perform a fatal blow comparable to the powerhouse of the spiritual fairyland!"

Tianmahou watched seriously.

This Fang Yue was kind to him, whether it was unlocking the seal or giving a pill, the Tianmahou felt that he owed Fang Yue a lot!

"Don't worry! If he meets me, whoever will live and die in the end might be!"

Fang Yue smiled confidently, not to mention that he has a lot of hole cards, just that the will of this Dao can recover a hundred times faster in this forbidden mountain and river, it is destined that he can have a strong advantage in this forbidden mountain and river, and crush his peers. Strong enemy!

"I can feel the breath of the members of the League of People in this forbidden land of mountains and rivers!"

Luo Daoyi, who was collecting the body for the evil ape, suddenly said.

"People from the League of People are here too?"

Fang Yue was slightly surprised, but his Human League token did have a similar feeling.

"Here! And there is more than one! This time the mountain and river forbidden area will be very lively!"

Luo Dao grinned and showed a bright smile, but it was difficult for other people to guess what he was thinking.

"Stop!"

Just when Fang Yue was talking with Luo Daoyi.

Not far away, a loud shout suddenly came.

A golden cloud drifted by in the sky, and the clouds dispersed in an instant, turning into a large net to cover the ground.

This large net covers a large area, a full radius of ten kilometers.

This also includes the location of Fang Yue and the three.

Fang Yue's face couldn't help becoming gloomy.

"This is someone who doesn't have eyesight dare to do it to me!"

In the forbidden land of mountains and rivers, there is danger everywhere, once trapped, it will be an extremely dangerous thing.

This big net was ingeniously refined by Yunxia, and its structure and design were ingenious, but Fang Yue did not have the slightest appreciation for this big net!

"Shank the sky!"

Without waiting for Fang Yue to make a move, a golden seal broke out.

The golden big seal turned into a mountain peak, it hit the sky, and suddenly broke down the overwhelming net!

"It's not enough to deal with me!"

An open voice came out.

Then a savage man with a dark skin, a wild face and a strong body with animal skins wrapped around his waist appeared in front of Fang Yue and the others.

There was also an alliance token in this savage body, and he had an instant reaction with Fang Yue and Luo Dao!

Although this savage is only the second level of the cultivation level of the virtual fairyland, the phantom shadow of the real dragon behind him floats, a full number of nine, qi and blood rushing to the sky, shocking the world!

Obviously, this is a peerless arrogant cultivated by the League of Nations, who walked along with the flesh!

In terms of physical body alone, this savage is comparable to the powerhouse of True Wonderland, and even if it is close, the powerhouse on the third and fourth floor of the ordinary True Wonderland is not his opponent!

"The remnants of the Human League must be killed! This time the battle for the ownership of the city of a thousand towers, your human race has been out of the game, if that is the case, why bother you guys come to this muddy water?"

Eight wind clan experts at the peak of the virtual fairyland made their moves. All of them are quite extraordinary. Although the cultivation realm is still at the peak of the virtual fairyland, their breath is not weaker than the third level of the true fairyland. The strong!

The eight men surrounded the savage in a siege.

Their killing intent was awe-inspiring, aimed at the savages, and their eyes seemed to contain lightning, lightning, and fire.

This is a killing and robbery against the League of People!

The virtual immortals of these eight wind clan are definitely planning for a long time!

"Renmeng, as expected, they have not given up the city of a thousand towers! It's just that they have moved from the light to the dark! But this wind clan is also willing to pay for it! In order to encircle and kill the Tianjiao of the Renmeng, they actually sent eight rivals like Zhen The arrogance of the fairyland, is it possible that they are not afraid that all these people are folded here?"

Fang Yue has no affection for the People's League, but he is also a member of the People's League.

Chapter 2299: Nangongye

Although it did not get the attention of the People League, the merits of the People League and the corresponding level authority did not leave him.

Therefore, Fang Yue has no ill feeling towards Renmeng.

But this Feng Clan is Fang Yue's enemy!

Soon after Fang Yue descended in the underworld, this Wind Clan person targeted him swiftly.

Now that the Wind Clan had sent eight Tianjiao comparable to true immortals to his front, Fang Yue was not ready to put them back!

"These eight people are not arrogances! They are eight real immortals, but it is the Wind Clan who has sealed most of their aura and a small part of their strength with a secret method, so they will show what they are now!"

Tianmahou said with a chuckle.

"Unexpectedly, the world outside this world is so wonderful! All kinds of secret methods surpass the city of a thousand towers! The sealing methods of these eight people are quite clever. Originally, these eight people are all strong in the fifth level of True Wonderland, but they I suppressed my own strength with the secret technique and changed my breath, only then will there be the so-called Tianjiao who is comparable to the three-tier real immortal at the peak of the virtual immortal!"

Fang Yue was shocked by the words of Tianmahou.

If this is the case for the Wind Clan, the Tianjiao who besieged and killed the Alliance would really have lost his blood!

The eight real wonderland powerhouses did not hesitate to lower their cultivation bases to enter this mountain and river forbidden land. What is their purpose?

Is it just to intercept and kill the Tianjiao of Human Race?

Fang Yue shook his head slightly, he thought it was unlikely!

Fang Yue frowned, thought about it slightly, and suddenly realized that the forbidden land of mountains and rivers this time might be one of the treasures of the ten thousand realms and ten thousand races!

The powerhouses of these tens of thousands of races have never been profitable, and they have always been low-key. All the tribes of Suo sent Tianjiao to the forbidden mountains and rivers, it must be because there is something that attracts them in the forbidden mountains and rivers!

"Wind Clan, Human League, what are they fighting for?"

Fang Yue muttered to himself, his eyes wandered, and he did not dare to determine the true motives of these ten thousand races.

"According to legend, this mountain and river forbidden land was formed by the fall of hundreds of world debris from several civilizations before the era. It was the place where the last civilization fire was preserved under that era! Even Huaxianchi is not in this mountain and river forbidden land. The core thing! According to legend, in this forbidden mountain and river, there is a supreme opportunity to achieve the **** of heaven! However, the years have passed, billions of years of vicissitudes, and passed away in a blink of an eye. In this mountain and river forbidden land, there has never been a strong person beyond the supreme realm. Therefore, this opportunity to achieve Tianzun has become a kind of joke!"

Tianmahou said softly: "But I have gone deep into this mountain and river forbidden area once. I once felt in the core area of the mountain and river forbidden area a bit of pressure that belongs to the unique power of the Supreme Realm. Although the pressure is weak, it is still It almost broke my

physical body to pieces! If there is a real chance in this forbidden land of mountains and rivers, it might be in the direction where the breath of the supreme realm is coming from!"

Fang Yue couldn't help but glanced at Tian Mohou in surprise.

Unexpectedly, the Demon Hou went so deep into the forbidden land of mountains and rivers.

Fang Yue had also purchased a copy before coming.

In fact, this mountain and river forbidden area is divided into three areas. The outermost area is the place of trial. As long as you have considerable confidence in your own cultivation and talents, you can set foot in it. The test encountered, the higher the level, the more difficult. On the contrary, if the cultivation level is relatively low, it is easier to pass the test! There are also many opportunities in this, although it is not a great opportunity against the sky, but if you can get it, it may also change the fate of the practitioner.

In the periphery, it is the land of treasures. There are various secrets and inheritances in this land of treasures. Huaxianchi is just one of the nine secrets! In addition to the Nine Secret Vaults, there are hundreds or even thousands of Small Secret Vaults! These secrets are one of them, and they all have the hope of becoming immortals! Even some powerhouses in the spiritual fairyland broke through to the level of Daluo Jinxian because they got some secret inheritance!

And the innermost core place is a forbidden place, and the name of this mountain and river forbidden place comes from this!

It is said that this forbidden place has been cursed by the supreme powerhouse. Any creature stepping into it will die without life. Since ancient times, it seems that only three people have stepped into this forbidden place and returned successfully, but those three people also disappeared and disappeared, seeming to have evaporated from the world, and they have never left any trace of existence in this world!

Originally, Fang Yue thought that he would become a true immortal in this forbidden mountain and river, and Yomo had only explored it in the land of treasures, but he said that he had felt the aura of the supreme powerhouse in this forbidden mountain and river. Fang Yue wondered whether the devil had stepped on this forbidden place and returned safely!

But Fang Yue didn't ask much, because if the Demon Lord wanted to say something, he would naturally say it.

In the current situation, even if Fang Yueqiang asked more questions, Tian Mohou might not be able to say that aggressive words would instead arouse the evil feeling of Tian Mohou.

"All directions are extinct, yin and yang grow together!"

A hunter of the wind clan shouted, and all eight people scattered.

The lion fights the rabbit still needs to do its best.

The eight of them teamed up to deal with the Tianjiao savage in this alliance, and they dare not neglect the slightest!

The eight people joined hands, each standing in one position, eight people and eight positions, sealed all the savages' retreat!

Fang Yue didn't take the shot rashly, he was watching from the side with his breath.

Fang Yue has never had an intuitive understanding of the so-called Tianjiao cultivated by the Renmeng. This time, Fang Yue wanted to see what talents the Tianjiao cultivated by the Renmeng had.

"Bagua is born, yin and yang turn, reincarnation is reversed, heaven and earth disappear!"

The eight wind clan powerhouses all shouted together, and they stared in anger, as if they were using their strength to feed themselves.

This time, they can only succeed in besieging the Nangongye of this alliance, not fail.

If you can't kill Nangongye this time, it will be difficult to kill him when this guy is promoted to the level of true fairyland!

This time, their Feng Clan came to the forbidden land of mountains and rivers for a mission.

The Tianjiao of the Hunting League is number one.

Get second chance and treasure!

When necessary, you can even give up all chances and strangle the Tianjiao of the human race with all your strength, so that it can't get any harvest in this mountain and river forbidden land.

A huge gossip pattern rose slowly from the void.

Gossip, eight directions, deduces eight different powers.

The gossip resonates with the universe, and this gossip picture transforms into a world and covers Nangongye.

"This gossip array is not weak!"

Fang Yue nodded slightly.

Although the Feng Clan made him dislike it, this clan is a traditional strong clan, with a profound foundation and various techniques of secret cultivation are emerging in endlessly.

"Shank the sky, suppress the sun and the moon!"

There was no fear on Nangongye's face. He roared, shaking the earth.

A huge earthshaking mark fell from the sky.

This earthshaking seal turned into a rising mountain, falling from the sky, suppressing the universe!

With a bang, a fine crack appeared on the gossip array, which spread like a spider web in all directions.

"The gossip pattern is born in exquisiteness, but it is useless to encounter this force to break the ten thousand magic! If I am not wrong, this earthshaking seal should be the peak of the true fairyland, this Nangong wild force Prompting, it gives this earthshaking seal a different kind of power!"

Fang Yue commented to himself.

However, Fang Yue's voice was also revealed.

This immediately aroused the vigilance of the wind tribe.

"Who is hiding in the dark? If you are a hero, don't hide your head and show your tail!"

One of the wind clan's Xuxian roared.

All of them were shocked, and they did not expect that there would be people watching as they besieged Nangongye!

Fang Yue took the initiative to walk out of the dark and introduced himself: "Renmeng, Fang Yue!"

"Fang Yue?! You are Fang Yue!"

When the Xuxian of the Wind Clan heard this name, he immediately thought of the wanted person in the Wind Clan.

Their eyes towards Fang Yue were immediately filled with badness.

If it is said that the existence of this Nangongye is a threat from the Wind Clan, so if the Wind Clan encircles and suppresses this Nangongye at any cost, then Fang Yue is a thorn in the heart of the Wind Clan. If he does not kill him, the face of the Wind Clan will be Nothing!

"Yes, I am Fang Yue! You Feng Clan is so shameless, eight powerhouses besieged and killed one of the arrogant people in our alliance! This is more than enough to win the less, and no victory! It is better to separate four people from you. Practice with me?"

In it, the human race can fight inwardly, quarrel, and fight because of disagreement.

But externally, the human race must be consistent!

At least Fang Yue couldn't watch the genius in this alliance being worn to death by the eight wind tribes, and stood by and did not support him!

"Fang Yue, this encirclement and suppression has nothing to do with you. If you leave now, I can pretend not to see you! If you insist on being an enemy of me and saving Nangongye a little life, then stop blaming me. When I am ruthless, I will summon the secret ambush and besiege you together!"

The Wind Clan's Xuxian threatened.

At the same time, his eyeballs rolled steadily.

This Fang Yue is different from Nangongye.

This Fang Yue was not very easy to kill, even impossible.

Fang Yue killed the true fairy Fenggu in their clan long ago, and the hatred between him and the Feng clan was as deep as the ocean.

But the reason why the Wind Clan hasn't been diametrically opposed to Fang Yue like the Black Demon Clan is because Fang Yue came from the Fang family and has already recognized his ancestors!

Fang Yue is a relatively special existence in the human race. This family has an ancient heritage and has not declined after several civilizations. Although the Fang family has been relatively low-key in the underworld in recent years.

However, Fang's methods and background cannot be ignored.

However, if the Wind Clan didn't take action against Fang Yue, it was not that it was impossible not to take action. As long as it was handled cleanly afterwards and the news was not allowed to escape, for the sake of an outside disciple, I believe this Fang family would not pursue too much.

"My lips are dead and my teeth are cold, don't you think I don't know such a simple truth? If the Tianjiao of the Human League falls in front of me one by one, I will be helpless in this forbidden mountain and river!"

Fang Yue resolutely rejected the request of the wind clan.

He decided to personally deal with these guys of the Wind Clan.

"Then don't blame us for doing our utmost to encircle and suppress, and win with more!"

The voice of the wind clan's Xuxian just landed.

Tick, tick, tick!

Luo Daoyi walked out of the woods carrying a **** head.

"Is him the reinforcement you are talking about?"

Luo Daoyi's bangs covered half of his face, and the corners of his mouth outlined an evil arc!

"If you just rely on these wastes, I am afraid it will be hard for you to achieve your wish!"

Luo Daoyi threw the head in his hand to the ground, and the killing intent permeating his body seemed to be frozen.

Chapter 2300: Xuan Zang

"How is it possible!" The smile on the face of the Feng Clan's Xuxian stiffened.

Xuan thorn.

This is one of the many chess pieces arranged in secret by their Feng Clan. He is good at assassination and lurking.

Although Xuan Thorn is only a Wind Clan assassin at the pinnacle level of the Void Fairyland, there are already no fewer than three true wonderland powerhouses of various races who have died in his hands!

"Nothing is impossible!"

Luo Daoyi kicked Xuan Ci's head like a ball.

"Back then, when your Wind Clan slaughtered my Luo family, I thought that one day I would meet my Luo family disciples again! Did you ever think that all of your exposed methods would ring your death knell in advance!"

In the old days, the little black fat man who was greedy for money and cherished his life was extremely solemn and serious at this moment.

His expression was indifferent, and his whole body exuded a icy cold that made people approaching.

"The Luo Family... I didn't expect that there are still remnants of this family in this world!"

A frivolous voice came from behind Luo Daoyi.

The long red hair fell down on the waist, and the beautiful cheeks made women feel jealous!

This is another assassin placed nearby by the Wind Clan.

His left hand is a dark black awl, and there is a dark gold inscription on the awl!

"Xuan Zang, you are here too!"

The Feng Clan's Xuxian's mood seems to be riding a roller coaster. I didn't expect the Wind Clan to send out the Xuan Zong in the clan to kill the Tianjiao in the Alliance!

The Xuan surname is the most common surname among the Wind Clan, and the assassins who are proficient in assassinating one group appear the most in this surname!

If the Xuan thorn belongs to the elite among the Xuan family assassins, then this Xuan Zang is the king of assassins.

There are eight young kings in the younger generation of the Xuan family.

This Xuan Zang is one of them.

In terms of realm, Xuan Zang is actually inferior to Xuan Ci, he is only on the sixth step of the virtual fairyland.

But in terms of killing, ten profound thorns combined are not as good as one profound thorn.

Because Xuan Zang is the most elite assassin in the Xuan family, and the king among them!

Xuan Zang's hands were contaminated with the lives of hundreds of arrogances of various races, and even some powerful men of the older generation could not escape Xuan Zang's poisonous hands!

One Xuanzhang is worth the four of them together!

If Xuan Zang is there, this Nangongye will die, and Fang Yue and the remnants of the Luo family will all be inevitable and fate!

"How prosperous the Luo family was in the past. Among the clan, eight powers of the supreme realm were born, hundreds of transcendent existences in the Great Luo realm! Spiritual immortals are like clouds, true immortals are like rain, and the history of a family runs through Three eras of civilization! It's a pity that your ancestors were too self-conscious and tried to find the gods of the human races that

have disappeared in the long river of history, and restore the power of the human race! Overnight, the five races shot, Luo The family disappeared, but a huge family was wiped out in a short time!"

Xuan Zang seemed to know quite a bit about what happened back then.

A sardonic smile waved from the corner of his mouth.

"Since you are the remnant of the Luo family, you should also follow the footsteps of your ancestors! So, you should die obediently!"

Xuan Zang appeared in front of Luo Daoyi, his speed reached the extreme!

Even Fang Yue, who is proficient in space and heaven, didn't sense how this mysterious creature moved. The next moment, he appeared in front of Luo Daoyi!

The icy thorns pressed against Luo Daoyi's throat!

"Do you have any wills you need to explain?"

Xuanzang's voice is still full of contempt and provocation. Since this Luo family has disappeared from the long river of history, there should be no disciples in this world again!

"Wind tribe, punish you!"

Luo Daoyi only spit out these four words.

At the same time, a pair of pale palms broke through the ground under this Xuan Zang's feet.

The palms of both hands held Xuan Zang's legs tightly like iron hoops.

Xuan Zang struggled hard, but it was sad to find that no matter how hard he tried, it was difficult to break free from the shackles of these hands.

This move is like a method of the undead.

But in Luo Daoyi's body, there was no trace of death power permeating.

"Magic artifact! The palms of both hands are an inexplicable artifact! Luo Family, he is Luo Daoyi!"

A virtual fairy of the wind clan suddenly realized.

He hurriedly reminded Xuan Zang.

The Luo surname is also considered a common surname in the human race, but the cultivation level of the saint realm, the best among the human race, is not much in the outside world.

Luo Daoyi is one of them!

There is a clear introduction to Luo Daoyi on the list of Ten Thousand Clan Battlefield.

What he is best at is not force but refining tools.

Luo Daoyi's magical weapons are strange, but these magical weapons that do not follow the routine can often have unexpected effects on the battlefield!

"Got it? It's a pity, it's too late! Ghost claw, burst!"

Luo Dao roared, the magic weapon ghost claws at the peak of the virtual fairyland exploded!

A powerful impact instantly swept through Xuan Zang's whole body, and the raging flame swallowed the young assassin king among the wind tribes and turned into a charred corpse!

"No! Xuan Zang!"

The wind clan's virtual fairy roars in pain, and Xuan Zou is the hope of the younger generation among them.

If he were to fall here, these bystanders would be severely punished by the Xuan Family!

The Xuan family is not an easy one, if they are targeted by them, there will be absolutely no good fruit!

"What a ghost, I'm not dead yet!"

A cold voice came from the darkness again.

Xuan Zang reappeared, still as handsome as before, still looking like a hero who despised the world!

"Xuan Zang, not dead?"

Luo Daoyi's brows were slightly furrowed. He had just clearly felt that this mysterious creature had really died under his own ghost claws to explode!

"Luo Daoyi, that was a clone, which split a part of the clone of the deity! This mysterious creature was ruthless to him, and even split himself into three parts in order to make his clone and the aura of the deity the same! , The soul will also split, but the advantage of this is that if only one or two of the clones fall, the other clones can spend a lot of treasure to resurrect it!"

Fang Yue's research on the clone is too deep.

He could see through Xuan Zang's method at a glance.

The deity's three points will cause the deity to become temporarily weak, but it is also good to do so, that is, this mysterious creature has three lives, and as long as there is one life in the other two lives, it can recover on its own!

However, Fang Yue can see through this method but cannot imitate it!

This deity is three-pointed, and the secret method that splits the soul is profound and mysterious, and I am afraid that it needs the power of the supreme to be able to deduct and cultivate it.

"That's it!"

Luo Daoyi regained his spirits. Generally speaking, the ghost claws that he had just exploded were not completely useless.

At the very least, at the moment when the ghost claw exploded, Xuanzang's life was killed.

Now there are two of Xuan Zang's three hits!

Luo Daoyi cheered up again.

Xuan Zang frowned slightly.

He glanced at Fang Yue and said in disgust, "Noisy! The clone that just died is just my weakest clone! This magic weapon is indeed mysterious, but it can be used once. That's it! If you use too much, it's easy to get caught!"

Xuan Zang shot, his cold palm burst out of the air, covering Fang Yue's body!

Xuan Zang hated other people's means to see through themselves, and hated others to speak out in the public.

The reason why this hole card is a hole card is because these methods are not visible.

If everyone knows it, then this hole card has no meaning and value!

Compared with Luo Daoyi, Xuan Zang now hates Fang Yue more.

So before beheading Luo Daoyi, Xuan Zang decided to take Fang Yue down first.

Fang Yue smiled.

I'm waiting for you!

You took the initiative to attack me, it was me who intervened in the battle between you and Luo Daoyi!

One hit one, this Xuan Zang will win or lose against Luo Dao.

However, if Xuan Zang dealt with Luo Daoyi and Fang Yue at the same time in one-to-two terms, he was like playing a lantern in the pit to find death!

This Xuan Zang lived in the compliment of the Wind Clan for too long, and he was about to forget his surname.

In Fang Yue's words, this Xuan Zang himself was a little floating!

"Your opponent is me!"

Luo Dao roared.

This Xuan Zang is a bit too defiant. He is clearly fighting against him, and he actually wants the opponent Yue to take action in the middle of the battle!

"If this Xuan Zang really wants one-to-two, let him come!"

"I also want to learn about the style of the Assassin King among the Wind Clan!"

Fang Yue's end, he didn't care about the notoriety of deceiving less.

Fang Yue raised his hand and held a palm with Xuan Zang, the intense blood rushing like magma, incinerating the world!

Xuan Zang's palm was directly shattered by Fang Yue's qi and blood, turning into a pool of mud.

Xuan Zang couldn't help showing a look of horror.

He has never encountered such a powerful enemy.

Obviously, the opponent is only a human race in the leader realm, but why is the strength in his body so fierce.

The palm of the opponent just now used at least the strength of five real dragons, otherwise, the strength of his physical body would not be shattered by life!

Nangongye was also slowing down at this moment, and his eyes showed excitement.

I thought it was unlucky this time and was killed by the shameless guy of the Wind Clan.

But he did not expect to encounter unexpected strong support.

Fang Yue, Luo Daoyi.

He has indeed heard of these two names in the League of People, but they are not as well-known as meeting them. When they really saw the two, Nangongye was still amazed by the strength of the two!

Fang Yue's physical body is like a chaotic beast, and the blood brewing in it is as great as a sea, which is hard to measure!

And Luo Daoyi is also not to be underestimated, the ghost claw magic weapon just now, even if it is changed, he may be difficult to resist smoothly!

If the three of them can work together to deal with the hunters of these wind races, they will definitely be able to **** them!

A faint smile appeared on Fang Yue's face.

This Xuan Zang is really too floating!

If he competes with them according to the way of assassins, it is still unknown who wins and who loses.

However, as an assassin, these Xuan Zong did not wait in the dark for a chance to kill, instead they walked from the dark to the front of the stage, Yue and the others to attack. This is no different from death!
