

God of Life 231

Chapter 231: Looking for

"Master Richard! Is there anything you need to order?"

An exposedly dressed, plump and seductive demon girl Lianbu walked up to Fang Yue's side, sighing like blue in his ears.

Fang Yue felt his spring heart stirred.

Although the appearance of this demons was a little different from that of the human race, the beauty of them still looked the same. The witch's complexion was an extremely healthy wheat color, with well-proportioned lines and strong muscles, like a little leopard, giving people an unusual sense of bodybuilding.

Fang Yue coughed dryly, not daring to show the slightest tension.

Although he has a wicked heart, he can't touch this woman. In case of exposure, he will definitely be chopped into meat on the territory of the Demon Race.

Richard is the name of the old man. Now that Fang Yue has inherited his identity, he will naturally inherit everything from him.

"Help me investigate whether there are two human races living in the Golden Feather King's territory. They have special physiques and I need to use them for bloodline experiments! If so, let me know, and I have many rewards!"

"Yes, my lord!"

The beauty of the demon clan stepped back, Fang Yue took a sigh of relief. According to the old man's description, Di Yi and Sima Xiao had also haunted King Jin Yu's territory yesterday. They also killed a few demons and hunted their pill for recovery!

If the guess is correct, these two people have not gone far, they are both seriously injured, instead of being in the Demon Race's territory, slowly and aimlessly. Might as well find a place to recuperate.

Afterwards, Fang Yue went to the bloodline laboratory on the second floor of Richard's castle. This old thing doesn't look good on character, but in terms of hobbies, toxins and bloodlines are all his research areas. Moreover, he spent 80% of his time on these bottles and cans.

In the old man's own words, he was a bloodline expert who was delayed by his practice.

Fang Yue felt that if there were reincarnation and afterlife, he would be a very good scientist if he was reborn on the earth!

Fang Yue arrived in Richard's laboratory and began to pick up the bottles and cans. Fang Yue was also a science student at any rate. He didn't understand the blood, but he still didn't get in touch with biological experiments.

Soon, the chick sent to inquire about the news came back.

Di Yi and Sima Xiao were caught by another sacrifice under King Jin Yu, and this sacrifice happened to be Richard's old friend, Spatu. It is said that Diyi and Sima Xiao were caught by the demons early this morning. An unidentified person revealed their whereabouts. They were besieged by hundreds of demons, but they resisted desperately, although they were seriously injured. But still desperately killed dozens of innate realm demons and two

The demons in the world realm were seriously injured, and they just captured them!

Now, the two of them are being tortured in Spatu's prison. It is estimated that they will probably hang up within a few beats!

When Fang Yue heard this, he immediately got ridiculous. With his feet, he could think that Di Yi and Sima Xiao were sold by the human race who came to Baili Secret Realm together. He didn't know the strength of the two of them, but Fang Yue couldn't beat them alone if they talked about their combat strength alone. It's not that he is not genius enough, but that he has several levels in the middle.

!

These people clearly forced Sima Xiao and Di Yi to death!

Fang Yue's head got a headache!

"Hurry up and gather people for me, I'm going to Spatu's territory to have people!"

Fang Yue glanced at what valuable things were in Richard's castle, and all of them would be swept away! One is that he may not leave this time and is not ready to come back. Secondly, if it can be resolved peacefully this time and pay some price to redeem people, Fang Yue is prepared to resolve it peacefully as much as possible. After all, this is the territory of the Demon Race. In his outfit, it's okay to fool people, but in case it really does.

, He used the means of a cultivator, it must have been revealing!

"What is Fang Yuezhun being used for? He is hard to protect himself, does he still want to save people? Di Yi and Sima Xiao are pawns that must be abandoned! He wants to defeat our sixteen families. Will?"

A great power was furious, and behind him represented Liuhemen.

Sima Xiao and Diyi had offended many sects before, so these sects each paid a certain price. They jointly bought out the immortal empire and the Sima family and the two have the strength of the festival. They are ready to kill them!

They have great potential, especially their physique.

If they grow up, they will become very likely to become their confidant. Seeing that they have been sent to the Demon Race's territory, they can kill people with the knife, but they did not expect to kill a Cheng Yaojin halfway!

"Hmph, I know that you are the ghost of Liuhemen. If the emperor has something good or bad, all the geniuses of your Liuhemen in the Baili Secret Realm will be buried for him!"

The messenger sent by the Undead Empire was very tough. His figure was hidden under the dark black robe, and his eyes emitted a cold light. This light can give people a bitter chill.

There was a lot of speculation outside, but Fang Yue was still patiently laying out.

He prepared all the talisman of Master Yifan. In case his identity is exposed, he is ready to attack and kill a river of blood and corpses everywhere!

The place where Fang Yue and Spatu met was a pavilion. This place was located at the junction of the realms of Richard and Spatu.

This is the rule set by Richard and Spatu before, otherwise, with the feast of the two, no one will feel at ease on the other side.

"Richard, what do you want me for? For the pigs of those two human races?"

Spatu was very proud, his eyes squinted, and he glanced at Fang Yue. With a high-pitched tone, he was above Fang Yue.

"Human pig?" Fang Yue smiled, "Yes, since you know what I'm here for, then hand it over!"

Fang Yue is straight to the point, without any twists and turns, the Mozu has such a rule, if you have something to say, don't gossip.

"Here you are? Why?" Spatu squinted at Fang Yue, with a trace of disdain.

"What's the asking price? The magic stone is still the bloodline potion, you can prescribe it! I like the bloodlines of these two human races!"

Fang Yue was also indifferent, as if talking about two goods.

And Spatu's eyes suddenly showed a little cramp: "If you say, I don't want to give it to you?" Spatu laughed loudly: "Richard, I didn't expect that you would also ask me for Spatu one day. , I tell you, I know you want the blood of these two people, although I Spatu doesn't understand blood and other messy knowledge. But they can fight back and kill so many of my men,

It is enough to prove their extraordinary. How could I sell such a baby to you! I want to contribute to Lord Jin Yu! As long as Lord Jin Yu Wang is happy, my status will definitely rise rapidly in the future! "

Spatu seemed to have foreseen the scene below himself and above ten thousand people, he laughed out loud, immersed in the illusion.

"Spatu, are you really going to be obsessed?"

Fang Yue's face gradually became gloomy. This Spatu idea is dangerous!

If the Emperor and Sima Xiao fall into the hands of King Jin Yu, the difficulty for him to save people will increase exponentially!

Originally, Fang Yue still hoped to be able to solve it through peaceful means as much as possible. It seems that there is no such opportunity!

"Spatu, you die for me!"

Fang Yue did it himself, and he was physically invincible within a short distance! The demons are also known for their sturdy flesh. Fang Yue fighting with the flesh should not arouse anyone's suspicion.

Fang Yue is full of energy and blood, like a column of wolf smoke rushing into the sky, he wants to kill Spatu in one breath, so that he has no time to react!

There was a bang.

Fang Yue's fist penetrated Spatu's chest! Spatu's body burst and turned into a rain of blood, floating down!

The corpses collapsed and flew, scattered all over the ground.

Once he succeeded, Fang Yue's expression was still solemn, because he felt it was too simple, so simple that he himself was a little bit unbelievable!

"Hahaha, Richard, I knew you might jump over the wall in a hurry after being rejected by me, so I specially prepared a puppet clone and entered the Lord with a ray of divine thought! This time, you will definitely die on me There is no room for survival of the subordinates!"

Spatu's voice appeared again, and his figure was standing hundreds of meters away. That was his territory, and groups of soldiers surrounded him, spears and iron swords, all showing cold light!

"It's in the game!" Fang Yue's heart was slightly cold.

The demons in the realm of heaven and earth are all human beings, and they are not so easy to deal with!

What kind of hatred does this **** Richard have with this Spatu? Is he robbing his wife or **** his mother? How can he make this Spatu's guard so deep!

Fang Yue cursed secretly in his heart.

In front of Spatu, an altar slowly rolled out.

Above, there were all kinds of sacrifices, with immortal medicine, Baodan, and the corpses of some strange and weird beasts.

These things are messy, making it difficult to distinguish the categories.

But one thing is certain, these sacrifices are all substances that contain the essence of life!

The **** Spatu babbled and inserted the three sticks of incense on the desk.

These three sticks of incense have a great background, named Yinhunxiang. It can assist the sacrifice and summon the heroic spirits of the demons.

This Spatu was prepared properly, and in this way, the demon heroic spirit summoned would be extremely powerful. Moreover, with sacrifices, the price he paid will not be too great!

Fang Yue's expression became ugly, he was actually overshadowed by a demon!

This time, Spatu put on a posture of immortality that he would never give up.

Fang Yue has already greeted the 18th generation of female ancestors of Richard's ancestors! He is in the laboratory on weekdays, just pour some bottles and cans! It's okay to be idle, why do you mess with the neighbors!

Seeing Spatu gritted his teeth, the two people's hatred must not have been a day or two!

In this gap, Spatu has summoned the ancient heroic spirit!

"Richard, you are dead this time! The ancient heroic spirit I summoned this time is a cultivation base with the peak of heaven and earth. He can maintain ten breaths of time, enough to kill you!"

Spatu laughed loudly, as if he was already winning!

As Spatu's voice fell to the ground, a huge figure rose from the ground, like a mountain, with the reflection of a starry sky in his eyes. Between the gestures, there was an amazing breath, as if to surrender to him all day long!

Although Spatu said that he only has the strength of the peak of the heaven and earth realm, his past lies there.

Even if the realm is suppressed at the pinnacle level of the heaven and earth realm, with a handful of flicks, I am afraid that a strong person in the rotation realm can be brought to life!

Spatu calculated it well, and if it was Richard, he would have done it this time.

Because even if Richard sacrificed himself at all costs and summoned the undead ancestors of the demon race in the past, it was absolutely impossible to be stronger than the demon **** phantom he sacrificed under his careful preparation!

Unfortunately, it was Fang Yue that he met.

He had already prepared for the face of the devil ghost!

"Dear ancestor, I would like to exchange three thousand ghost shells for your shelter!" Fang Yue said indifferently.

Chapter 232: Backwater

The ghost of the demon **** gave a faint sound, and a pair of eyes reflecting the starry sky fell on Fang Yue. Has lived up to the majesty and indifference just now!

"Guibei? What is that?" Spatu was stunned, he had never heard of such a thing.

But immediately, he laughed loudly: "Richard, your brain is broken! How can my demon ancestor heroic spirit be moved by something that you don't know so-called?"

However, the next moment, the words of the Demon God Void made him feel slapped!

"Three thousand guibei, not enough to make my heart move! Ten thousand guibei, I will not help each other, 30,000 guibei, I will help you kill the enemy!"

The ghost words of the devil came out. Spartu's heart suddenly tightened!

The ghost of the demon **** turned against the water, and Spatu's eyes opened wide! In his opinion, this is simply incredible.

Every heroic spirit of the ancestor of the demon race that was summoned, in the past years, has been fighting the world and swept the invincible existence! Their majesty, inviolability, and utterance of the law are the supreme heroes in the world!

How could they turn to battle? This is not in line with his understanding of the ancestor heroic spirits!

Spartu has inherited sacrifices from generation to generation.

But I have never encountered such a thing! Only Fang Yue understands the root cause. The heroic spirits of these demons seem to be powerful, but that's how they are mixed in the underworld! You can only fight for a lifetime, and you won't even be proficient in the art after you die! The underworld is well-regulated, and it's not who is the boss! What everyone needs

Cooperation and peaceful development, the clumsy demons ancestors are very unhappy. Apart from doing odd jobs and making groceries, they are occasionally summoned by their children and grandchildren to get a little sacrifice. It's quick to change some!

Fang Yue offered Guibei as the price, so how could the ancestors of the demons not be moved!

Three thousand ghost shells are actually equivalent to his income for ten years!

If Fang Yue really gave out 30,000 ghost shells, it would be no problem to let him dance a pole!

"Well, 30,000 Guibei is only 30,000 Guibei! Kill him for me!"

As a local tyrant, Fang Yue is not only an uncle in the world of humans, but he is also a good man in the world of ghosts! You can call the wind and call the rain!

Ever since, the heroic ancestors of the demons turned back. He was once regarded as a killer by Spartu, giving unlimited hope. But in the first place, he was about to die in his hands. I have to say, it is a kind of irony and humiliation!

Fang Yue did what he said, and 30,000 ghost shells appeared in his hand. They photographed as a long dragon and flew towards the ancestor heroic spirit of the demon race.

When Gui Bei arrived, the phantom of the demon **** turned around with a palm, and the huge palm fell, like a sky collapsed. Spartu didn't even have a chance to wailing, but he was instantly annihilated!

The ancestors turned against the water and stunned the demons!

For the first time they saw such an operation in the sacrificial war!

The ghost of the demon **** had no scruples, his mouth opened and became a huge black hole. The cigarettes and sacrifices on the table were all sucked into it and became his womb!

Fang Yue covered his face and saw a shameless person. He had never seen such a shameless person.

Brother, you've already turned against the water!

Actually even eat those tributes.

The ghost of the devil is full of wine and food. I was quite satisfied with the results of this operation, and had 30,000 ghost shells. He has been happy enough in the underworld for a while!

However, the phantoms of these demons did not leave immediately, but shrank to the size of a normal person, looking at Fang Yue with flattery.

"Hey, buddy, can we make a discussion? Next time you have anything to do with me! I can give you a 20% discount on the appearance fee!"

When the heroic spirits of the ancestors of the demons spoke, everyone was thundered! Is this still the solemn and unsmiling ancestor in their impression? How does it feel like a street gangster!

"Twenty percent off? Twenty-four thousand at a time? You know, the landlord's house has no surplus food!" To be honest, Fang Yue was really excited about the suggestion of this demon hero.

Although this guy is not very reliable in terms of character, but in terms of strength is definitely a leverage.

A strong man in the heaven and earth realm would kill if he wanted to kill, just like crushing a chicken to death.

If such a fierce person can become a personal bodyguard, Fang Yue's safety factor will definitely increase a lot in the future.

However, this price is a bit high. Although he didn't know what the prices of the underworld were, he heard from Shang Jie that the inflation inside was not serious, and the purchasing power of this ghost shell was quite high. It's just a thug, and the appearance fee of 24,000 is not very worthwhile. "Hey, 20% off is not enough, then 40% off, can you get a 40% off? Don't think I have only this strength. If I come with all my strength, I can have a realm equivalent to the sixth level of the Rotary Realm! Below, I am almost invincible! Of course, the consumption is also quite large, the sacrifices and the price needed

Code, it is understandable that it is a little bit expensive! "

Fang Yue was killed by Lei.

The strength of the sixth layer of the rotation realm has come, and it will definitely be eaten in the world of Xuanhuang! This is already the standard of the celebrity class. As long as he doesn't cause major issues, he can walk sideways with him!

Fang Yue was surprised.

But the heroic spirit of the demon race showed a trace of anxiety, and the time for his arrival was almost here.

Finally found a rare gold master, he didn't want to just lose it. The heroic spirit of the Demon Race gritted his teeth, stomped his feet, cruelly, and said: "If you want, we can also come to the monthly

service! I can come three times a month! You only need to pay me fifty thousand ghost shells That's it! This is my bottom line! My dignified ancestor of the demons

Ling, this value cannot be lost too low! "

Fang Yue was surprised, his eyes widened, is this all right?

Can also provide annual service?

Do we still have a VIP annual card?

Fang Yue said in his heart.

"Okay, deal! This is fifty thousand magic shells, which is the service fee for this month!"

Fang Yue didn't say a word, fifty thousand demon shells flew into the hands of the demon ancestor heroic spirits. The heroic spirit of the ancestor of the Demon tribe smiled and handed a business card.

"Chenghui, my dear Mo Yuntian, I am honored to serve you! Next time you have something to do, just enter a ray of spiritual thought to activate the business card!"

Mo Yuntian's voice fell, and when the time came, the figure suddenly disappeared. As if it had never appeared in the world!

All the demons under Spartu were stunned. At the moment when Mo Yuntian disappeared, they all knelt on the ground, and the mountain shouted, "Master is mighty!"

Even the people in Richard's territory all bowed to the ground.

This Richard seems to be even better than before after a stroll from outside! Even the demon gods summoned by other sacrifices can turn back the water. Is this going to shake the sky?

Fang Yue was enjoying the tsunami-like flattery and windy city, and his eyes narrowed slightly.

It's no wonder that the ancient emperors liked that others bowed down to him, and Shanhu Long live this feeling, it's really cool!

Of course, Fang Yue didn't laugh at Di Yi and Sima while enjoying these worships, these hapless little brothers forgot!

"Come on! Bring those two human races to my laboratory, and I will develop a new blood medicine!"

The rules of the demons respect the strong.

When Fang Yue killed Spartu, he naturally took over all of his wealth, territory, and even his wife and children. Of course, Fang Yue's taste is normal, and he has no special hobbies for other wives!

God city, in front of the merit monument.

Those outside are going crazy!

Fang Yue's merit value skyrocketed, and he reached the number of two thousand merit points! This is his demon cloud heaven's credit for destroying Spartu, but the merit monument is finally counted on Fang Yue's head!

Is this Fang Yue a god-level big fool?

Even the heroic spirits of the demons followed him back! This also actively provides monthly services.

This cargo is almost ready to walk sideways in Baili Secret Realm!

Liuhe messenger or something, the intestines are almost regretful! He has a hunch that the disciple in his door will be targeted.

The advantage of this guy is too great!

The messengers of other religions are not much better. Fang Yue's play is simply a cleansing of their outlook on life and values.

When can the human race be mixed in the demons so like a fish!

If there was Fang Yue, the Human Race had already taken down the entire Demon Race, and had to guard the terrible frontier every day, haha!

"This evil animal actually colludes with the demons!"

The last thing Xuan's group did not want to see was that Fang Yue got better with each other. Under a little surprise, Xuan's group naturally gave Fang Yue a big hat of colluding with the demons.

Others were shocked, isn't this Fang Yue a disciple of the Fang family?

Why didn't even the Fang family wait to see him so much, not only didn't like it, but wanted to kill him!

"That's right, Fang Yue colluded with the demons, and he really should kill! In this Baili Secret Realm dispute, no matter how much merit he gets, he will not count! He must die, and he must be beaten by thousands of swords, in order to emulate you!" Liuhe The messenger of the door also echoed!

Other narrow-minded messengers followed in succession.

Anyway, they don't think it's a big deal to watch the excitement!

One less genius, in the future their disciples, if they want to rule the world, they will have one less competitor!

Only the king of Taiyi Church said domineeringly and quietly: "Some things are not your final decision! I only hope that you are so targeting Fang Yue, and you won't regret it by then!" Li Si hurried over, and he heard that in this Baili secret realm Fang Yue appeared, and Fang Yue was also curious about his whereabouts. Fang Yue and Vientiane Pavilion have a deep cooperation, and they involve a business worth billions or even nearly tens of billions of spiritual stones. This is not a small order! Even in his capacity,

Be cautious.

But when he arrived, he just heard Xuan and his party lead people to attack Fang Yue.

He was silent, and quietly found a corner of the corner, took out a small notebook, and recorded all the family lists that had just been opened.

It's great, this time there are fewer competitors!

Li Si thought of it silently.

Di Yi and Sima Xiao were taken to Richard's laboratory. The two of them had indeed been tortured to go out a lot, with less air intake! They all fell into a semi-conscious state. Welts all over the body, ragged clothes, messy! But Fang Yue discovered that Di Yi's life was tenacious, and he could absorb the strong demon energy in the air with the human physique. His body is repairing itself. Even if Fang Yue didn't give him any medicine, it is estimated that this guy would wake up automatically after three days.

In a month's time, he will definitely be able to survive and heal his injuries!

As for Sima laugh.

He doesn't have that good physique anymore. Although he is quite extraordinary, he still has a big gap compared with Di Yi. His breathing was weak, even intermittent.

Chapter 233: Meet again

Fang Yue didn't say anything, he simply poured two bottles of Baicao syrup into their mouths! The vitality in it immediately spread to the two of them, and their breathing became steady!

Immediately afterwards, Fang Yue took out a bunch of bottles and jars, all kinds of healing elixir, but he didn't know what these things were for, and he almost went into the mouths of the two of them!

"My ice muscle jade bone pill!"

"My Taishang Jiuhuan Pill!"

"My nine days of rain and dew!"

"..."

Heartaches roared one after another in the castle of God City. Fang Yue took out some holy healing medicines, and some of them were the kind that you couldn't sell on the market. Only some of the more important disciples and elders of various sects could carry them with him.

Just like this, Fang Yue fed it to Diyi and Sima Xiao like jelly beans. Naturally it makes them feel painful.

Only the overbearing king of the Taiyi Sect was muttering in a low voice. Back then, how many sects and aristocratic families had been robbed. Guai had to recruit people to be seen, and it was quite lucky that this sordid criminal record was not published by the entire world of practitioners!

The magic medicine is the magic medicine.

Sima Xiao and Di Yi's injuries healed quickly, and within a moment, the two of them had woken up faintly, and their faces were red. Sufficient blood, quite brave!

"You **** old fellow, even if I'm a ghost, I won't let you go!"

Sima laughed when he woke up, and jumped up, he put on a posture, ready to fight!

Fang Yue took off his cloak: "Who do you think I am?"

"Fang Yue, why are you here!" Di Yi and Sima Xiao were shocked and said unanimously!

Fang Yue smiled and said, "Of course it is to save you two hapless bastards! How about it, it feels uncomfortable to be calculated!"

When Fang Yue exited, the expressions of both of them changed slightly.

"That group of **** frauds, they don't have their own, and they are worried that the young master is better than their merits! Actually, they have teamed up to plot against the young master, this is endless!

Speaking of this, Sima laughed and gritted his teeth. He was always cheated and kidnapped to others, and he had never been cheated by anyone!

As a fraud, being scammed is the biggest shame!

Emperor Yi is much more calm.

"This matter can't be reckless, it needs to be considered long-term! If you fight a tiger, you will not die. If you are injured by the tiger, you will either not attack or kill with one shot. You will be killed, leaving no room for resistance to those people!"

In the city of God, the group of people in front of the merit monument who united to deal with Sima Xiao and Di Yi was already in cold sweat! These two were originally fierce men who had competed against each other. In terms of combat power, it is difficult to measure by realm! Now, they have added a difficult, but must-have, Fang Yue, forming a triangle alliance. After making a decision, they have a foreboding that their disciples will never do anything.

What a great end!

"They are to blame. I suggest sending a strong person to Baili Secret Realm to kill three people to ensure the fairness and justice of this trial!"

The messenger of Liuhemen spoke with a serious expression. His eyes were filled with strands of murderous intent.

No one around him responded to him.

"Do you think you can open the door to the Baili Secret Realm? Or, do you think you can send in the powerful person in the Rotating Realm? The demon heroic spirit summoned by Fang Yue needs at least a strong person in the Rotating Realm to suppress !"

Wang's overbearing complexion is not good.

The little moves in the Liuhemen's secrets are clever.

But they all saw it in their eyes, just because of the face of Liuhemen, so just open one eye, close one eye! Really said that it affects the fairness and justice of this trial, Liuhemen should be the first to be expelled.

What is going on with Sima Xiao and Di Yi, everyone's hearts are very clear! It's just that there are some words that are tacitly understood.

"If you can open the Liuhe Gate to the Baili Secret Realm and send someone in, I have no opinion!"

Li Si said with a smile, like a tiger in sheep's clothing.

He had already looked at this Liuhe men not pleasing to the eye, and he was too domineering in his conduct! They are just a first-class school, and have not yet reached the level of an immortal family, but their disciples are quite public, and have made trouble in the Vientiane Pavilion more than once.

The messenger of Liuhe men flickered and stopped talking, but obviously, his suggestion was not without any basis.

But before the fire, he just planted a seed now.

When the right time comes, this seed can naturally take root and germinate, bearing brilliant fruits!

As soon as Sima Xiao and Di adjusted their breath for a while, they had already fully recovered. Especially Di Yi, he experienced a life-and-death grind, and even vaguely broke into the heaven and earth realm! "Suppress strength, don't break through for now! If this innate realm can enlighten Dao, the deeper and more understanding of the principles of the Tao, the better the golden core will be after breaking through to the heaven and earth realm! Ordinary golden core contains nothing! The power of rules, it sounds better to be the golden core, but in fact it is confused with some

The inner alchemy formed by the beasts of Og is not much different! In the congenital realm, comprehend the Tao, the condensed golden core is the top golden core! The greater the number of Taoism, the higher the level, and the more magical functions of the golden core! The most common golden pill, life extension for three hundred years! If you absorb a little bit of earth energy, sky fire or something while condensing the pill, you may be able to raise the gold pill to another level and add another thirty to fifty years! But it's extended by five hundred years

His Shouyuan is already the highest! If the lifespan is exhausted and unable to break through to the rotation realm, you can only sit and transform into a pile of dead bones! And the golden pill that contains the principle of Tao, even if it is only the smallest trail, at least condenses the pill once, and it can extend the life of eight hundred years! Dadao Jindan, the end of life extension is 1,600 years! According to the legend, the golden core of heaven can prolong life for at least 3,600 years! Back then, I heard that there was a perversion in the Sima family. The innate realm comprehended nine kinds of avenues and eighteen kinds of trails. Extending the life span of 8,600 years! This gold pellet spit out, and even the stars can be shattered! His lifespan is longer than that of the average leader, and he can bring others

To die alive! "

Sima Xiao reminded Di Yi very cautiously.

In fact, Di Yi, like Fang Yue, was a wild way in terms of cultivation, and his fighting strength was terrifying. However, the common sense in the world of some practitioners is blackened.

Especially Fang Yue, he is almost half illiterate!

Sure enough, Fang Yue nodded repeatedly, listening very carefully.

"So do you have a way to measure the length of lifespan?"

Fang Yue looked like a good baby, listening to Old Master Sima's foolishness. Sima laughed and coughed twice and was quite in the state, stroked the beard that was not there at all, said: "Actually, in the congenital realm, the general lifespan is between two hundred and three hundred, and the difference is not too big! Only individual physiques, Only then can the lifespan be extended, but usually it is also capped at 500 years!

If you ask for advice so sincerely, then I will teach you compassionately!

There is a technique called Tianshou! As long as you cast it once, you can see how much life you have! "

After finishing speaking, Sima Xiao taught Fang Yue the secret technique.

Fang Yue understood instantly!

He twists the flowers with two fingers, solemnly precious.

Three wisps of purple gas transpired from the top of the head, like a king, they instantly turned into three fairy flowers, blooming one after another, and then withered!

"Fang Yue, Nima!"

Sima laughed out of foul language, and almost shocked his chin!

This wisp of purple gas represents a thousand years of life! Three wisps of purple energy are the lifespan of three thousand years!

Fang Yue's innate realm! How come there are three thousand years of life! Some old monsters in the heaven and earth realm generally can't survive him, and even the more mediocre existence in the rotation realm, when it comes to life, this is the number!

Three thousand years of time have passed, how many countries can be prospered, and the vicissitudes of life represent epic volumes after volume!

This is too exaggerated. Fang Yue doesn't need to fight in the future, just by relying on that longevity, he can kill the unparalleled Tianjiao!

In front of the merit monument, the messengers were not calm anymore! They were jealous, panting, shouting in their hearts, God is not fair! The more you practice, the more difficult it is to move. Once they reach their level, it is very likely that a small step can trap them for three to five hundred years.

But what they lack most is their longevity, which is time.

If they have a life like Fang Yue, let alone the leader, the saints can be deceived!

The Emperor next to him also used that technique. Above the head, three wisps of purple smoke also appeared, blooming into flowers, and inside the purple flowers, there were six red stamens.

Three thousand six hundred years of life...

Sima Xiao already wants to get into the ground and eat the dirt!

Does he have enough food to support, teach the two men how to measure their lifespan. This is his typical look for abuse and blow!

"I took a look at my birthday..."

Although Sima Xiao has learned this secret method, he has never used it! Because he felt that he was still young, so he didn't need to worry about Shouyuan!

A faint purple air misted up. There are eight red stamens.

One thousand eight hundred years of life, alas, it is far worse than these two guys...

Sima laughed frowning, life frustrated.

But the old guys outside are already messy in the wind!

Show off?

This is naked show off!

I think back then, when they were in the Innate Realm, all of them were geniuses and outstanding people. They can live for four to five hundred years, they are already beautiful to fly! When walking, I don't know whether to take the left foot first or the right foot first.

But compared with Fang Yue, Di Yi and Sima Xiao.

They feel that their lives are fake!

Seeing the corner, Sima laughed in circles and doubts about life. The undead group wanted to shed tears and snarled, "You are wronged! We are the ones who are really hit!"

Fang Yue walked to the side of Sima Xiao, and comforted: "Come on, brother, here is a sugar, a super Jiazidan, after refining, one hundred and twenty years of life will be added! One of our three in one person! After I refine it, I still don't know what this stuff is like!"

"Boom!"

"Boom!"

"Boom!"

Three super Jiazidan that made countless people break their heads were eaten by the three!

"It's kind of like five-flavored beans!"

"My sweet and sour!"

"The leek stuffing is a bit salty!"

The three people commented that the super Jiazidan produced in one pot actually tasted differently.

Sima Xiao doubted: "Fang Yue, your pill will not expire too long, right?"

Di Yi also looked at Fang Yue suspiciously, and he looked back at Fang Yue with Sima Xiao.

Fang Yue is a little nervous. He can make alchemy, but there are no products and production dates, but he doesn't know the shelf life! "What about this? I don't know if there is any deterioration that will eat my stomach!" Sima smiled and looked at Fang Yue questioningly.

Chapter 234: Shouyuan comparison

Fang Yue pondered: "This is simple, just use the secret technique again to see if Shouyuan has grown!"

"it is good!"

Emperor Yi first shot, and the secret technique unfolded. Among his purple flowers, there was a red stamen, and four yellow patterns grew on the petals!

"One hundred and forty years of life extension! The medicine I took is no problem! Even more than 20 years of life than expected!" Di Yi was a little surprised. One hundred and forty years of life is not a small number. From his birth to the present, he has not experienced more than 20 years!

Then Sima Xiao performed the secret technique, and he also had a one-hundred and forty-year lifespan, and a touch of surprise and joy appeared on his fleshy face.

"Excellent value for money, it turns out that you are not a profiteer!" Sima laughed and Fang Yue built up their backs, and his mouth was almost crooked!

Fang Yue was the last to perform the secret technique. There are just two more purple stamens.

Sima laughed and pushed Fang Yue away: "Damn, why did you increase your lifespan by two hundred years? This is unfair. Are you more effective than the medicine we took!"

Fang Yue cast his eyes: "Pills or something, isn't it normal for the efficacy of the medicine to fluctuate up and down? Mine just wiped out the twenty-year fraction and rounded it up!"

The three of you say a word, I say a word, so that those great men in front of the merit monument do not know how much envy and hatred are!

You have all grown up like this for a long time, but you are still prolonging your life? Could it be that this is going to live to be old, and all beings are rotten?

This is so annoying! In order to prolong their lifespan for hundreds of thousands of years, they retreat, break through, collect the essence of heaven and earth, refine the pill, and put aside life and death, but the final effect is not as good as these three kinds of chewing a few jelly beans.

This person is more angry than others!

"Wipe off the odds and extend the life span of two hundred years?" The king of Taiyi Sect was dumbfounded. He quickly covered the Jiazi Shendan that Fang Yue had given him. The strength of the

medicine did fluctuate up and down, but it generally fluctuates downwards, and no one fluctuates upwards!

Li Si was happy, he made a lot of money this time!

Fang Yue's Super Jiazi Pill, they still had three collections in the Vientiane Pavilion but had not sold them. Originally, it was just waiting for the price, and I was going to give some strong people a personal affection.

This time, there are three live treasure advertisements. In comparison, the value of this favor must be greater! "This Fang Yue's pill is indeed very effective! Even he himself didn't know the mystery of it. On that day, he gave me a few super Jiazi Shendan, and I couldn't help taking it! I found that the first one extended my life span of eighty years, and the second one was still valid and extended my life.

Longevity of seventy years. There are still some super Jiazi Shendan, which I have never taken, but it is estimated that the effect will still be there, and the reduction is not great! Alas, you said that Fang Yue's child is too. I am a half-sick person with old arms and legs. Why do I have to give me such a precious panacea! "

Master Yifan, dangling from which corner, walked out.

Those powerful people are making way for him one after another.

This old man is a real fierce man. Three talismans posted the existence of a leader! At the same time, he is also an old scourge, relying on a small family, without worry, dare to say anything, dare to do anything!

He has many enemies. If you hear that he has extended his life span of at least 150 years, I am afraid that he will be so worried that he can't sleep again!

Master Yifan broke out another horrible ingredient, this super Jiazi Shendan can be eaten repeatedly. If there are enough, the extended lifespan may be even more terrifying! This makes many messengers unable to sit still! Their realm is too high and has exceeded the scope of the super Jiazi Shendan. But who doesn't have a disciple, son or daughter, even if they don't, the red flag at home will not fall, the colorful flags are fluttering outside, there is a small third, small four, small five, small six, etc., it is normal! This super armor

Zi Shen Dan is definitely a good thing to send to parents during the New Year, leaders in festivals, and friends and relatives in peacetime!

Before, the people who had always been indifferent to Yue, even a little hostile, began to gradually change their position and attitude!

After incorporating Spartu's territory, Fang Yue had greater rights, as if he had become a landlord. You can reprimand Fang Qiu! The three of them did not really chase down those disciples who had harmed Sima Xiao and Di Yi, because in Di Yi's words, some of them might be armed with a contraband, and when it's critical, they will be put on display and die together. , Unidentified, very dangerous, may have sealed the real

Strength, entered the Baili secret realm, it was unwise to fight with them, and more importantly, they didn't know where their people were!

Such precious time should be spent on enlightenment! Sima Xiao and Di Yi enlightened in Richard's castle, while Fang Yue wandered outside with a pair of small hands on his back! For him, entering the Baili Secret Realm was not as difficult as Sima Xiao and Diyi. Come and come whenever you want, just like visiting! The places where he enlightened Dao were Baili secret realms

Compared to the inner area, the roads are intertwined, more clear and obvious!

What Fang Yue has to do now is to temper his foundation and stabilize his realm! He has recently broken through the realm too quickly, lacking exercise, and has always been worried, and his steps are too big. So I never dared to make a breakthrough too eagerly.

Fang Yue quickly integrated the sites of Spatu and Richard, and found some valuable mineral elixir in their territory. He ordered these demons to mine and send them all to his hands.

Anyway, Fang Yue guessed that he would not stay long anymore. If the geese have plucked their hair, you must not give up!

A group of old guys outside were yelling again. Because of those spirit grass, such ancient mines, even they looked jealous. It's not because of how high the ranks of these things are. Generally, at most they are treasures of the heaven and earth realm, at most the rotation realm. But the problem is that they are rare in the Xuanhuang world, the territories of the human race, so the price

They were all fired up!

"When Fang Yue comes back, we must strengthen cooperation with him!"

"When Fang Yue comes back, we must strengthen our cooperation with him!" In Li Si's mouth, the two words repeated over and over again, he was almost confused. This Fang Yue is a small landlord, and there are more and more valuable things on him recently! However, two of these three people enlightened the Tao with peace of mind, and the other one pulled weeds to open a mine, which seemed quite peaceful, but let one

The messengers of these big forces nodded slightly, feeling a little less threatening.

As long as their merit value does not increase, it will not affect the final resource allocation!

As for collecting medicine and mining, let them go!

But the peaceful days, after two days, the landlord Fang was not calm! The territories of Spatu and Richard are about to be turned over by Fang Yue! But their territory is too small, and all resources have been collected by him!

Fang Yue owed his hand and dug into the neighbor's lot again! Fang Yue was messing around in his own territory, and no one paid any attention to him. Every lord had the right to exploit and dispose of his own territory. Even if Fang Yue opened the Heixiang School in the realm of Richard and Spatu, teaching excavators would be fine! But he ran to other people's lot to dig mines and pull weeds, then

It is tantamount to demonstration and aggression! The master of the family has found him, under the command of King Jin Yu, a famous general in combat power. He became a lord, not on sacrificial offerings or other side-by-side ways to communicate with ghosts and gods, but on the feats made by an inch of mountains and rivers and an inch of blood! He walked forward and backward, his blood tumbling like Jiang Haihao

Dang, you can feel a sense of depression and suffocation.

His name is Pan Sen, left sword and right shield, with a full-faced beard. He has the same name as the king of war in the League of Legends, but his appearance is even more powerful and burly! His territory is huge, more than five times that of Richard and Sparton combined!

This demons has an unwritten rule, what strength, and what a turf!

Fang Yue knew with his feet that this buddy is not easy to mess with.

And this time, it was indeed his fault, and there was no reason to make trouble with others.

Therefore, Fang Yue quickly apologized to the Pan Sen-sama. He personally cooked, took the small iron, fried three small dishes for him, and then took out the fairy brew that he bought from Tianfu Pavilion. Linggu fragrant, the taste of the spirit vegetable is dry and crispy! With a few cups of immortal fermented wine and three rounds of wine, Pan Sen, who was originally angry, has already abandoned all his previous grievances and anger to the country of Java! The demons are all big bosses, yelling at fighting or something, one at the top three. But food

On the one hand, it was not a bit worse than the Human Race, and all he encountered were warm men's homes like Fang Yue, and a bucket of Master Kong was able to soak 18 kinds of tricks.

The demons naturally bow their heads, and can't wait to swallow their tongues into their stomachs and leave!

"I said...brother...brother! My site, you just mine...that, can you bring me two cups of that wine!"

Pan Sen didn't care about territorial mining or something!

He is a general of the demon race, with a crude nature. The so-called territory is just a place for him to settle down. The battlefield, the shroud of horse leather, is his final destination.

The reason why Fang Yue was blocked before was simply because he couldn't see it.

"Don't worry, brother, I don't mine this place in vain! I have some treasures here for you, maybe it will help you a bit!" Fang Yue still understands this matter.

He took out a bunch of objects and let Pan Sen choose!

Among them are the war soldiers from the heaven and the earth, the exquisite armor of the human race, and there are magic stones and magic skills, all of which Fang Yue did not know where they were drawn!

But Pan Sen finally abandoned the others and chose a pill to put it down. This is a blood qi pill, not a high-level pill, but eating one can add 500 kilograms of physical strength! "Brother, thank you! I don't

need these foreign objects. We Demon Warriors have always been brave and have nothing but our own force. If it were not for protecting my life, I would not even wear armor! But Pills can add physical strength and increase my strength

On the first floor, I really like it! "

Seeing Pan Sen's affection, Fang Yue's body trembled slightly, and he finally understood why the demons were always superior to the humans in terms of force. Bloodline and talent are just a small part of the reason. It is more because the human race relies too much on external forces and has given up on its own tempering.

All kinds of magic weapons, the talisman formation, have become the supreme advantage of the human race, but they have also become their spiritual shackles at the same time!

Fang Yue was silent, waved his sleeves to put away all the treasures on the ground, he took out three more blood energy pills and stuffed them into Pan Sen's hands. One was too few to show my sincerity! Add three more to make me feel at ease!

Pan Sen clasped his fists and nodded: "Thank you brother! If you have anything in the future, even if you speak, I dare not say anything else, but in this one-third of acres, I still have a bit of weight!" Fang Yue nodded, and handed it over. My friend Pan Sen! At the same time, he began to inquire, consciously or unconsciously, whether any humans of unknown origin appeared on Pan Sen's site recently.

Chapter 235: Unwilling

"I don't know if it's a human race, but my territory is really not peaceful recently. A few days ago, someone fought on my territory! A phoenix phantom burst out of the sky with a hundred feet of flame! A soldier of the Innate Realm was burned to ashes, and even the commander on the first step of the Heaven and Earth Realm

All were burned alive, but unfortunately, when I went, it was too late. That person has already left, he has hidden his breath, leaving no clues! "

Having said this, Pan Sen clenched his fist slightly, drunk slightly, and suddenly woke up.

This was a great shame to him. Someone arrogantly ran on his territory, killing his soldiers and beheading his generals, but in the end he did not even catch a single hair of others!

Phoenix phantom. When Fang Yue heard this vision, he immediately knew that this should be one of the arrogances of the human race! Although he didn't know the approximate life, Wang Badao gave him a vague list and some special records, including the news of the owner of the vision. As long as he goes back and takes a look,

The owner of this phoenix phantom could be known immediately.

"From now on, Brother Pan Sen's business will be the business of the younger brother! Be careful and good at tracking, tell the younger brother, the younger brother is indispensable!"

Fang Yue clasped his fists in an earnest tone.

Pan Sen laughed loudly and patted Fang Yue on the shoulder: "Okay!"

After Pan Sen left, Fang Yue sent a mining and excavation team to collect resources. Of course, Fang Yue did not act as unscrupulous as his own territory. He asked the picking team to do it slowly, but it would be no problem, but it must be done properly. Don't mess with the handling!

At the same time, Fang Yue also returned to Richard's territory and asked Sima Xiao and Di Yi about the phoenix phantom.

Di Yi shook his head slightly: "I am actually a half-worldly people, and I don't know much about the world of practitioners!"

Sima laughed and coughed twice, pretending to be: "I don't care about disputes, I don't understand the world of practitioners!"

With a snap, Fang Yue gave Sima a big smile.

"You don't know what a fart! You grew up in the city of Gods, and you were given out because you were too capable of causing troubles! You know what color underwear you wear for all the teachers and female disciples of all forces in the city. Kill you!"

Fang Yue demonstrated with a small fist.

Sima smiled with tears in his eyes, very aggrieved.

"People just pretend to be innocent!"

"Okay, okay, okay, I said, oops, the gentleman speaks but doesn't do anything, don't hit me!"

Sima Xiao finally surrendered under Fang Yue's brutal force, telling the origin of this phoenix phantom. The owner of this phoenix phantom, named Sima Feng, is still Sima Xiao's cousin.

Of course, the two are not the same at all! Sima Feng belongs to another line of the Sima family. The line with Sima Xiao is very uncomfortable. Sima Xiao even suspected that as soon as he and Emperor were besieged, Sima Feng had also contributed, because at a critical moment, their storage bags were actually sealed. There are many methods, but the pill is not available! Otherwise, they won't be beaten so bleakly and fall into fighting for the pill with the demons.

To the point! Although Sima Feng did not show up from beginning to end, Sima Feng was one of those people who had contacted him and Diyi before.

She has this motive for committing the crime, and she also has this opportunity! Sima Xiao's resentment is still quite deep when it comes to this matter.

He had never suffered such a big loss, seriously injured and dying. If Fang Yue hadn't been rescued in time, he and Di Yi would hold small hands and set foot on Huangquan to see Wangye Yan.

"Then what is the strength of this Sima Feng?"

Fang Yue's eyes flashed, and he had not forgotten his special physique-Ten Thousand Devouring Devil Body. I can't say, this time I really have an enemy with this Sima Feng, he can swallow the opponent's physique and blood, replenish himself, and strengthen his strength!

The successive encounters made Fang Yue realize that his strength was still too weak.

If it weren't for all coincidences, he would have turned into an underground party too!

However, there are not many ways to improve strength, and raising the realm is one of them, but Fang Yue dare not run too fast, worrying about the unstable foundation of the road. And his Ten Thousand Devourer Demon Body provided him with another way out.

Swallowing all kinds of strange physiques, his physique will constantly awaken and transition! The stronger the physique, the more aggressive the means!

If it weren't for this, there wouldn't be so many pairs of improving spiritual roots and physique, and they would be eager!

"Unfathomable! Best not to provoke easily!"

In Sima's smiling eyes, there was a rare light of jealousy. "When I was in Sima's house, I heard that this cousin had reached the eighth level of innate when she was fifteen years old. Her combat power was shocking, and in the wilderness, one hand was the first in the world. A fierce beast on a small step! Now she is eighteen years old, three years later, she has

Has been honed to innate supremacy! Her combat power is definitely more against the sky! In the same level, it is rare to resist!

The Sima family said that my talent is unparalleled and my combat power is superb. But in fact it is not. There are many sisters and brothers of the same generation in the family, all of whom are stronger than me. But they were hidden by the family and kept incognito. Only I was pushed out to attract people's attention! "

When Sima smiled and talked, there was a trace of mourning.

After all, he is a Mingzi arranged outside by the Sima family. He looks alive and bright, but in fact, he is just a victim to conceal the existence of true geniuses! Sima Xiao's mood was a little depressed. For the Sima family, he was full of complex sentiments. In some respects, the Sima family did not cultivate him poorly. He never spared various resources, carefully liquidated them, he grew up, not manpower, not exercises, just all kinds of pills, cultivation resources

, The Sima family invested more than billions of spirit stones in him! This is an astronomical figure. People like Fang Yue and Diyi who have come out of the ordinary world step by step on their own efforts can't even think about it!

According to reason, Sima Xiao should be grateful to the family.

But on the other hand, Sima's attitude towards him is very complicated! If he was born in another age, he would be regarded as the core disciple of the Sima family and the future heir. It is a pity that he was born in the wrong time. Over the past hundred years, the genius of the Sima family has exploded like a

blowout. The number is amazing! Sima Xiao was finally fixed on the second line and excluded from the core disciples. But he is still being cultivated as an alternate and a cover for those true geniuses , To share their eyes and the attention of the outside world!

It was for this reason that Sima Xiao was willing to be sent to the country of Yan to find his own opportunity.

He doesn't want to be a chess piece in the palm of the Sima family, and everything is left to their mercy and control!

He wants to prove that talent does not mean everything! With my own efforts, I will still achieve something.

Fang Yue patted, Sima smiled on the shoulder, expressing comfort.

Whether in the dense forest world of Yan Kingdom or in this Vientiane Pavilion, he has seen Sima Xiao's efforts and understands his unwillingness!

"Fang Yue, do you know the significance of this Baili Secret Realm exploration?"

Emperor Yi took the initiative to speak, changed the subject, and asked an irrelevant question!

As soon as the emperor spoke, the old guys in front of the merit monument all secretly said: broken!

"Isn't it just a trial and selection? This Baili Secret Realm is indeed a good place. Although the environment is dangerous, it is easy to break through!" Fang Yue said as expected. The emperor shook his head: "This Baili Secret Realm trial really has two purposes! One is to let the disciples of the major sects take the opportunity to comprehend and comprehend the principles of the Tao. In the future, there will be a golden pill, and a long life. Second. One is to slaughter the indigenous creatures in the Baili Secret Realm. The more creatures killed, the greater the strength.

Stronger, you can get more things called merit points! This thing, in the dark, to perceive cause and effect, does not need any trophies to prove it.

These causal points will affect the allocation of some resources in God City! Every bit of merit, the corresponding resources, are almost massive! "

As soon as the emperor said this, Fang Yue's eyes lit up.

"Then your merit points correspond to the resources that the forces behind you can allocate?" "Yes! The more merit points we get, the greater the number of resources allocated by the forces behind! My merit points, It should be contributed to the Sima family. And the merit points of Emperor Yi should belong to the immortal empire! The Sima family promised me that every time I get a merit point, I can

Obtain resource training equivalent to one hundred thousand spiritual stones! According to the urinary nature of the Sima family, it is estimated that each of their merit points corresponds to a resource worth tens of millions or even more spiritual stones! "

Sima Xiao also shared the information he had learned about merit points. Di Yi smiled: "I am not cultivated by the undead empire, so I am a cooperative relationship with them! The first three thousand

points I get, one is equivalent to the resources of 150,000 spiritual stones. After three thousand points, One point is equivalent to the resources of two hundred thousand spiritual stones! If it is the past, I will Merit points are equivalent to the resources of 500,000 spiritual stones! Above one hundred thousand merits, one point is equivalent to a million spiritual stones! "

Hearing Di Yi's treatment, Sima Xiao took a breath. This immortal empire, in order to gain more merit points, has laid the blood on Di Yi's body!

Fang Yue looked at these two people blankly: "Then I have merit in killing the natives here?"

Sima Xiao nodded very surely, "As long as you die because of you, the merit points will be recorded on your body!"

"Then whose stamina is mine? Fang family?" Fang Yue's eyes widened. He doesn't even have a slight favor with the other family! If his merits count the Fang family, no matter how much he earns, it is estimated that the Fang family will be hacked, and even a feather will not be given to him as a reward.

"It should not be! You entered the Baili Secret Realm and did not occupy the Fang family's quota, so your merit points are not counted as Fang's! Whoever sent you in, you are considered to be whose family. For Fang Yue, how did you get in? of!"

Sima said with a smile, and suddenly realized a very serious problem.

These eight thousand people of them are all big bosses of God City. They gritted their teeth and worked hard to open the passage at the right place and at the right time to send them in.

However, Fang Yue is definitely no longer among the eight thousand people.

How did he get here!

"Hey, didn't I just come here just like this?" Fang Yue avoided the heavy and light. Hippie said with a smile. He always has a feeling of being watched by others, so he doesn't want to expose many secrets.

Chapter 236: Make suggestions

Emperor Yi is vigilant. Smiled to Sima and made a color, and signaled him not to ask indiscriminately, because after he came in, he also had the feeling of being watched. It was not obvious at first, but it suddenly strengthened just now!

God city, in the castle, in front of the merit monument.

A group of old antiques leaned their heads, and stood their ears up in front of Fang Yue's image, just about to hear how Fang Yue entered the Baili Secret Realm.

But their eyes were too strong and too hot.

So much so that Fang Yue and the emperor felt intimidated.

Finally, Fang Yue made a joke and stopped abruptly, causing a group of old guys to sigh with grief.

Mad, we even took off our trousers, and you actually let us look at them. Some people felt upset, and Fang Yue gave them one.

"It's not the Fang family! I have to pay more for this merit point, and it will all be mine! Those resources, how should I spend them!"

Before he really got many merit points, Fang Yue was already thinking about how to spend it with his fingers.

The old folks outside were stunned. This kid is too confident!

The messenger of the Fang family, Xuan, was embarrassed.

He had a hunch that with Fang Yue's ability to toss, the merit points he finally obtained would never be less!

"Or, let me start a war! Clean up all the nearby territories! In this case, after a war, you will have to kill an eighty ten thousand demons, and we will count the merits at that time. On your head, isn't that a fortune?"

Fang Yue's financial mischief has committed again, and he is already in the bone marrow.

Sima Xiao and Di Yi also nodded one after another, agreeing with Fang Yue's idea! War is the easiest and fastest way to kill!

If you want to gain merit points in a short period of time, you must fight! They even added: "Actually, you can conquer a place and search a territory! Of course, you can't point the finger at your neighbors. After all, they are all in the territory of King Jinyu. Sometimes you have to look at a Buddha without looking at the monk's face. Noodles! It's too noisy, there are two shortcomings, one

It is easy to cause everyone to be in danger, and the neighbors around you are surrounded to deal with you! The other is the face of King Jin Yu, I'm afraid I won't let it go. After all, he is the real owner of these territories! "

Diyi's analysis is straightforward.

He is also a general in the undead empire. He commanded thousands of armies and fought in the north and south. He has rich experience in fighting and dominance, and he is very sophisticated.

This kind of fighting and commanding ability is definitely not something Fang Yue can get with the King of Glory, who has played thousands of games, or he has played Red Police for more than ten years!

Fang Yue accepted it seriously and began to plan his own plan.

Sima Xiao is also a dog-headed strategist, and he joins in blindly. Although he does not understand the overall situation, he is quite proficient in some unpopular knowledge or common sense in the world of practitioners.

In the end, the three heads got together and agreed on a strategy. They have to start with the small forces around Jinyu King and slowly clean up each other! This is when King Golden Feather opens up the

territory and King Golden Feather will definitely support it. At the same time, the small forces that Fang Yue and others attacked are quite far away from Richard's territory. Even if it fails, if someone finds it, you have to

Thousands of thousands of mountains and rivers, to ensure that they will not be annihilated and burn themselves!

As for the reasons for the war, this can be nonsense!

Why did you steal my chicken! Or your old sow and strong girl! **** our little bull! It doesn't matter.

In war, the important thing is always the result, the distribution of benefits after the war!

Move after you decide.

Fang Yue, Sima laughed, Di Yi felt that his strength alone was a bit weak, so he discussed it again and decided to drag Pan Sen into the group.

What about the loot, Pan Sen half!

This is definitely a big cake. As for what Fang Yue needs are merit points, the minerals and herbs on the site, in this regard, the demons are not good at development, and it is difficult to understand the value!

Sure enough, Pan Sen came and joined the group decisively.

Fang Yue said the plan, and his eyes started to glow green.

"My big sword is already hungry and thirsty!"

When this word came out of Pan Sen's mouth, he almost gave Lei Fang Yue a soft spot. This is obviously the line of the barbarian king! What do you grab as the king of war! "The last loot, I only need four achievements! Can you exchange the rest for me into the pills you gave me before? After refining five of them, I feel the blood in my body is boiling! My body is said to be Has the blood of ancient trolls, only passed down from generation to generation.

Under the wind and frost, it has become thinner and harder to wake up!

Originally, I was desperate, but after getting your medicine, I rekindled hope. Because I can feel a certain power in my body reviving! "

Pan Sen looked at Fang Yue, his eyes burning.

Fang Yue was stunned. He had never thought that this human pill had the effect of awakening the blood of the demons. This may be an example, but it is worth studying.

If something happens, he can walk sideways among the demons!

Regarding racial differences, Fang Yue did not have the big prejudice of ordinary people.

One world, one dream!

As long as they can make money, Fang Yue sees them as good customers!

"This is no problem! These ten blood qi pills are considered as a deposit, I hope my brother can wake up soon!"

Fang Yue was very happy and took out ten blood qi pills directly from the storage bag!

If Pan Sen's bloodline can be awakened, it will surely make their team's strength in this battle to a higher level!

The demons are straightforward by nature, and their promises are generally more weighty than those of the human race's big brothers who feignly please. Although Fang Yue belongs to the human camp, there are some things that are realistic.

From a certain perspective, the order and morality of the demons are a bit stronger than that of the humans. Of course, order does not mean benevolence. After all, the main theme of the demons is always war and fighting. The naked law of the jungle is their only belief.

After the ten blood qi pills were in hand, Pan Sen's eyes showed a little grateful.

He thought that with his shallow friendship with Fang Yue, at least he had to make a little action before he could get some rewards and benefits. I didn't expect the other party to be so generous, which fully demonstrated the trust in him! "This action is on me. Speaking of war, I have not been afraid of anyone! By the way, the little boys in your territory have not learned the battlefield! Come on, let me practice fiercely Look at them, the battlefield is the strongest killing machine in the war. A simple individual, no matter how strong

, After all, is a kind of reckless martial arts! "

Pan Sen said, his lips were red and his teeth were white, but it was not harmless like a boy next door, but like a demon from hell, and finally opened his **** mouth! Fang Yue naturally had no opinion in this regard. Regarding the battle formation, he can say that he still yearns for the battle formation. When he was in the Fang family of the secular world, he had seen records about the battle formation in ancient books. But the language in it is unknown, it has been lost for many years. It is said that in the Eternal Legion, there are also battlefields

exist.

But he has always been a cannon fodder, where did he come into contact with such a tall thing!

"The battle formation is actually a form of combination of arms that has been handed down in the ancient times. It spreads and evolves in different patterns among different races. For example, the human race, their battle formation is to gather the strength of all people together. Form a huge power! The battle formation of the demon race is the cooperation and complementation of different sorceries. And the battle formation of my demon race is the most fierce one! The power of all people is concentrated on General One

In an individual, one person becomes a god, and all beings are ants! When it comes to power, the battle formation of the three major races is definitely my demons the strongest! "

Speaking of the battle formation of the Demon Race, Pan Sen couldn't help showing a bit of pride and pride!

Fang Yue nodded slightly, and did not make any comments.

"The study of battle formations, broad spirit! The way of change is endless exploration! But in general, although the battle formations of different races are different, the division of levels is basically the same!

The leader of the battle formation is the general, and the more powerful the battle formation will endure. Then the level of the battle formation is higher! The ranks of the battle formation, from low to high, can be divided into eight ranks: black iron, bronze, silver, gold, platinum, diamond, obsidian, and king! In each rank, there are four small levels that can be divided into four to one. Four of them are the last and one is the strongest! First learn

Those who practice the battle formation can only control the three-person battle formation, which is the lowest stage of the black iron four-stage battle formation! The level of the general is the same as the highest level of battle formation he can control! Becoming the strongest king is the only dream in every warrior's heart! "

As Pan Sen introduced, he was impassioned and spit wildly. Fang Yue has a kind of fancifulness, like feeling feet in a dream.

Fuck, the rank of this warlord is set by Tianmei!

Also the strongest king, why don't you get ninety-nine stars!

"Then this warlord's technique is secret? I also want to learn it!" Knowing himself and his opponent, Fang Yue never hoped that he could become an all-rounder, but at least, he had contact in all fields. , He will not be fooled by others at will. "Do you also want to learn the art of warlords? In fact, everyone who specializes in one art is the best choice! Richard, as a sacrifice, if you develop steadily along that path, your future is bound to be limitless! This The art of warlords is much more dangerous than sacrifices. You don't need to waste your energy here.

Kind of things above. "

Pan Sen preached and discouraged. Fang Yue shook his head slightly: "I don't want to learn how to master the warlord, and study it to the point of exquisiteness, but I don't think it is a problem to get started! Sacrifice, summon ancient heroic spirits, although powerful, but relatively short in melee combat. ! If you study the theory of warlords a little bit, even if only

It's a beginner's guide, this shortcoming will also make up for it, and my chances of saving my life are greatly improved! "

Upon hearing this, Pan Sen felt that what Fang Yue said seemed to be very reasonable. Pan Sen no longer insisted on blocking, and he said: "If you want to learn from this dark iron rank warlord, I have everything here! The warlord's entry, thirty-six black iron rank classic battle formations, I can give You! These are some rotten street stuff, not valuable. But the bronze and even higher level battle formations, you need to feel it yourself! Moreover, every high-level warrior will have his own warrior heart Fa. Although I have a copy of this kind of thing, it is not of a high level, and it is the personal biography of King Jin Yu. If there is no King Yu's Tsui Hark, I would not dare to teach it casually.

! "Fang Yue nodded, he understood Pan Sen's difficulties.

Chapter 237: Warlord

"Thank you, big brother! Just need big brother to give me the introduction of those warriors and 36 classic black iron battle formations! As for other things, I have my own way!"

Pan Sen nodded and gave Fang Yue all the information about the warlord. There was even a thick stack of Pan Sen's own thoughts and rules as a warlord over the years.

His records are quite detailed, with war cases, as well as his own thinking and exploration.

When Fang Yue read it, he felt quite a bit of a taste!

The study of warlords is indeed broad and profound, and an army that can display battle formations can definitely not be formed in a day!

The core of the warlord lies in resonance, one person moving, tens of thousands of people moving, and the movements are neat and uniform, so that everyone's strength can be united!

There is a certain amount of energy loss in the process of resonance.

For example, the first-level fighter of the Black Iron IV, the energy loss in the process of resonance is as high as 90%! The energy finally condensed in the warlord is very few!

Therefore, although a fighter of this level can be strong with a weak attack, on the whole, it is a tasteless existence, but with an additional means of fighting!

But as the level of the warlord increases, the energy loss of resonance will gradually decrease, and the number of people in charge will also greatly increase! Of course, the larger the number, the higher the energy, which is also a huge test for the warlord's own physical load!

The generals of the Demon Race, their physical growth is usually higher than their own realm!

No wonder Pan Sen was ecstatic when he saw the **** Dan Empress. It turned out that there was such a reason. Fang Yue studied the knowledge of the warlords of this demon clan, and the more he looked at it, the more he felt that this road was tailor-made for him! For Fang Yue, fame or fame is not difficult. He only needs to summon a few little zombies at a higher level to complete it! Zombie's low spirits, self

Consciousness is quite weak, which is a fatal flaw in combat. But in the same way, this is also a great advantage in the study of warlords. Only when you have your mind, you can have no selfishness and distracting thoughts! For war fighters, it is easier to control and resonate! And zombies are summoned creatures, even if they die some, don't feel distressed and don't need to be refined.

Heart training, consume some infuriating power, call it again!

As for the physical load, Fang Yue's physical body absolutely does not have to worry or consider in this regard!

One hundred ranks of the flesh, not just talking about it! He is only the fourth small step of the Innate Realm, but he really fought, and it is estimated that many strong people in the Heaven and Earth Realm will be crushed by him!

Fang Yue became more excited as he watched, he even felt that these methods were simply made for him.

Fang Yue didn't say a word, and summoned five innate zombies at the fourth level in one breath. After the four zombies were summoned, all of them looked dull as if they were being beaten up.

Five little zombies come out. Fang Yue slowly raised his arm, and he began to resonate with the little zombies in accordance with the records of the demon battle formation.

The resonance is smooth.

This little zombie was summoned by Fang Yue after all.

They worship Fang Yue as their masters, and they listen to what Fang Yue says!

Five little zombies are synchronized. Slowly raise his arm.

An inferior power was instilled into Fang Yue's body, and Fang Yue's body suddenly trembled. The eyes are suddenly sharp!

With a bang.

A figure broke through the window!

He rolled over and reached Fang Yue's body with a chuckle. Yin Liang's dagger pointed towards Fang Yue's throat, and the faint blue light seemed to be like the death god's sickle, approaching Fang Yue infinitely!

"There are assassins!"

Fang Yue yelled. The rough voice was deafening.

The black-clothed assassin was also taken aback for a moment, his body stiff, he was caught off guard, and he did not expect that Fang Yue's voice would be so loud!

Just in this gap.

Fang Yue's heart was cold, involving life and death, and his six senses increased to ten times their usual speed at an incredible speed!

"you wanna die!"

Resonance is complete.

The reflection of the blow came down!

The sword shines like a waterfall, venting for nine days.

Thousand waves cut, six waves cut.

The five little zombies seemed to have been evacuated by Fang Yue in an instant, and each of them became stiff and numb.

But Fang Yue's technique of warlord has been completed.

Successive knife lights flooded the entire room.

The silver knife light, like waves in the ocean, swept one after another, slapped against the sky.

No matter how strong you are, if you encounter such an attack, you have to stop eating!

The assassin was submerged in the boundless light of the sword, and the violent light of the sword tore its body into powder and fragments!

The knife light disappeared.

Heads of little zombies slumped to the ground.

Fang Yue's face was cold, watching the assassin who turned into countless pieces on the ground, there was no blood, no bones in it!

This is a puppet with rounds of combat power, only equivalent to the eighth level of innate realm!

This kind of puppet can only be produced by the human race.

The point of the finger is self-evident.

"I don't want you, you actually came to test me?"

At the corner of Fang Yue's mouth, a smile appeared, full of murderous intent, extremely sensational!

"Fang Yue, what's wrong with you?"

Ding Ding Ding Deng Deng Deng, Pan Sen's footsteps were heavy, making the castle tremble slightly.

He was training on the school ground just now, and heard Fang Yue's hoarse cry for help, he rushed over immediately, only to find that the battle was over.

"It's okay, I encountered the assassination of a human puppet!"

Fang Yue didn't hide it, he pointed to the puppet fragment on the ground.

The human race, the enemy of the demons era, is the same in the Xuanhuang world, and it is the same in the Baili secret realm! Therefore, Fang Yue encountered an assassination of Human Race, it was nothing.

Pan Sen saw that Fang Yue was unharmed, so he relaxed.

"These human races are too rampant! They are so unscrupulously committed in our territory. Now, he has assassinated the little brother! If we don't rectify it, won't they go to heaven?"

Pan Sen was angry. Before, the human race carrying the phoenix phantom slaughtered his territory, and he was already full of grudges in his heart. This time, he blatantly came to assassinate the sacrifices of the demons.

The arrogance of this human race can be imagined, and it seems that King Jin Yu's men are no longer in the eyes!

Fang Yue closed his eyes slightly and adjusted his emotions.

Such things cannot be impulsive.

"This matter can't be delayed. You must report it to Lord Jinyu! It's okay for me to assassinate this time. What if I replaced it with another priest or general of the Demon Race? There is a slight damage, that is, my Demon Race is huge. The loss! These human races must be thoroughly investigated and beheaded to show the public, in order to show their example!"

Fang Yue is not going to do it himself, but is going to let these sneak attacks on him plunge into the vast ocean of People's War. When he does it, it is very likely that he has been hit by the other party's tricks. Now, he must respond unchanged. Only after all changes can we sit firmly on the Diaoyutai!

"Yes, this matter must be reported to King Jin Yu!"

Pan Sen nodded, agreeing with Fang Yue's views!

Pan Sen left to write the report.

Fang Yue sat quietly in the room, looking at the puppet fragments all over the floor, thinking about the power of the battle just now...

Richard's territory is not far from the territory of Lucas, a demons general.

A mediocre, even slightly ugly man showed a wicked smile.

"The puppet was killed by Richard! This Richard is indeed well-deserved!"

The shameless man didn't have the slightest anxiety because his puppet was damaged. On the contrary, his smile was so strong that he seemed to have probed Richard's bottom line.

"Then what are you going to do? I once promised me that it only takes two days to annex Richard's territory!"

In the room, Lucas gently played with the silver-white ring on his finger. On the top of the ring was carved an extremely hideous face of a demon. Demon Lucas, this is his title under King Jinyu!

Because his ancestors inherited the blood of the devil for him, once he enters the battle state, Lucas can easily wake up the blood in his body and transform into a demon! In terms of combat, it skyrocketed several times!

In terms of status, Lucas is actually above Pan Sen!

The territory of Lucas is fifteen times that of Richard. From this we can see the gap between Richard and Lucas.

Even Pan Sen is weaker than Lucas.

But before, Lucas was able to get along with Richard because he hadn't completely broken through to the sixth step of the heaven and earth realm!

Some time ago, Lucas got some chances, accidentally broke through, and reached a new height. He stood firmly on the seventh step of the heaven and earth realm, the devil turned into a demon, and even the strong man who had just entered the rotation realm dared to break his wrist.

Lucas' ambitions swell instantly!

The territory under his name is no longer enough to satisfy his ambition and demonstrate his strength.

So Lucas turned his attention to the neighbor Richard!

Richard, who had annexed the territory of Spatu, was undoubtedly a fat sheep in the eyes of Lucas. Recently, this human race voluntarily surrendered to him, and said that he could solve Richard without bloodshed and occupy his territory. Lucas naturally accepted it.

Of course, the guy in front of him who became a puppet magician had not gained much trust from Lucas.

Lucas gave him a three-day deadline. If Richard can be killed, he will naturally be reused. If not, hehe, it will become his delicious meal.

The human heart is Lucas's favorite.

The puppet magician sneered: "Believe me, this Richard, he must not survive tonight!"

The puppet magician smiled, but when his gaze swept away from Lucas's body, a flash of imperceptible killing intent disappeared!

"Where is the problem? Why did the tester kill me? If my identity is revealed, then he shouldn't send out a puppet with eight levels of innateness! This is not an assassination, but a provocation. !"

Fang Yue shared his experience and analysis with Sima Xiao and Diyi.

These two goods have been full of fighting spirit recently. They were originally talents of the sky, who could comprehend the laws of the Great Dao in the Xuanhuang world. When they arrived in this secret realm of Baili, the rules were exposed, and naturally they were like fish in water, and they were even more proud of them!

Recently, they have studied their own Taoism more deeply, and their strength has skyrocketed.

This is the result of accumulation, and many previous thoughts and guesses have been verified in Baili Secret Realm.

Therefore, their strength can show an explosion like a blowout.

Otherwise, even if they stay in the Baili Secret Realm for one more month, the improvement in strength will not be too obvious! "Lure the enemy! Almost all the people who came to the Baili Secret Realm this time are human spirits. Not only are they superb combat power, but they are also quite proficient in various layout strategies! To put it a bit exaggerated, if they are Putting it on the race battlefield, all of them are generals and talents! People who have no brains, no matter how strong they are, will not get the attention of the race!

Chapter 238: Insect tide

Provocation is the lowest level method. They will not use it casually. More likely, they are dependent on a certain force. Then through provocation, provoke the dispute between the two parties! The casualties on our side can be his merit point, and at the same time, killing someone with a knife is definitely a

A drug trick, a trick! "

Emperor Yi played around with applause on things like tactics. It was like a commonplace meal.

"If my inference is true, then you can definitely investigate the other side's hiding power through various clues."

Diyi continued to analyze.

Fang Yue patted his head, "Why didn't I think of this?"

Everyone has their own limits of vision.

Fang Yue made a small fight, being an excellent Liu Mang, an excellent thug, there is absolutely no problem! But talking about the overall situation and calm analysis, even if the two heads of Fang Yue and Sima Xiao are packaged and stacked together, they are far inferior to Emperor Yi.

"Report to Lord Lord! We have already investigated that the puppet came from the direction of Lord Lucas's territory!"

At this time, a soldier reported, he clasped his fists with a serious expression!

"Lucas, this guy can't do it!"

Fang Yue rubbed his temples. Some said helplessly.

The location of Richard's territory is indeed not good. Not to mention the lack of resources, but also a strong enemy.

Among them, the biggest grievance is Spartu. And the surrounding Pansen and Lucas were all wolves and tigers, and none of them was good.

Fortunately, Pan Sen said, a tendon, as long as you treat him well, he will not give birth to other thoughts.

Lucas, demon blood, cruel, suspicious by nature! Fang Yue had guessed that he would eventually collide with him, but he did not expect to come so soon!

To be honest, Fang Yue still listened to Lucas.

His strength is unpredictable. In Pan Sen's words, I can probably support about 30 moves in his hand.

"Offensive will definitely lose, but if you defend, Lucas may suffer serious losses!"

Fang Yue changed his mind, why did he follow the other party's layout! Turning offense to defense, Fang Yue is best at fighting in his own territory!

Deploying formations and killing enemies, as long as there are enough materials, Fang Yue can set up his own territory as solid as golden soup! "But the other party may not follow your thoughts! Look! Since this Lucas can live to the present, it must not be good! Usually, people like to say that people who are public will die soon! Those who haven't died are really capable people. I have a hunch that Lu

Cass will not be a knife at will! "Di Yi's mouth was filled with a smile: "In fact, everything is not as pessimistic as expected!" A companion is like a tiger. The master of this puppet wants to use Lucas to get rid of us, and at the same time gain a lot of merit, but if he is not careful, he may become Lucas's dish!

"

After the discussion, the three began to get busy. Emperor Yi is responsible for integrating the commander-in-chief of the Demon masters in the territory of Spatu and Richard, training soldiers, and cooperating with Pan Sen to condense the battle.

Sima Xiao made up a mess of things, not knowing what he was doing.

Fang Yue is relatively simple, the arrangement of formations, a set of serial formations, is easy to use in his hands. He even used the power of Feng Shui to build mountains and divert water. He arranged Richard's territory into a forbidden area for Feng Shui!

During this time, Fang Yue was very happy to play on Richard's site.

So hardly anyone has asked him what he does, and he has become accustomed to it!

Fang Yue's arrangement is not only Richard's territory, but also the inner enclosure. Another part belongs to the outer part. He is also arranging the border between Lucas and Richard's territory. He doesn't want to hurt the enemy too much, as long as he can delay Richard's footsteps!

If you don't play, forget it! Since we are playing, we must have a big ticket.

Fang Yue does not cause trouble, but he is not afraid of trouble. What Lucas, what puppet master. Come on all of you! It's a big deal!

In Fang Yue's hand, he held the talisman that Master Zhang Yifan gave him. This is his hole card and also his ultimate bottom line!

All day long, Fang Yue's trio were busy. From time to dusk.

Richard's turf has changed drastically!

Large arrays rise from the ground, and the pattern of feng shui changes ups and downs. The surrounding demonic energy was affected by the pattern of Feng Shui. In some places, it was so rich that it was appalling. In some places, it was almost thin, like a vacuum zone.

Fang Yue and others waited on Richard's site.

However, there is also a storm brewing in Lucas' site! Only unexpectedly, the direction of the storm did not blow where Fang Yue was. But the milky white bugs spread in Lucas' territory! These worms have all

kinds of appearances, some are only the size of a thumb, and some are bigger than a python! When dusk fell, so many bugs suddenly appeared in Lucas's territory,

Howl, Lucas didn't have time to react at all, his territory was completely submerged in the vast sea of worms.

Lightning, flames, meteorites, cones of ice.

Those bugs have their own different methods, and the scenes summoned are like the end of the day!

In the face of this calamity, the incomparably powerful demons in the past are as vulnerable and helpless as a baby! They waved their swords in their hands and tried hard to chop these nasty bugs.

But after killing one, there will be tens of thousands of them, and the mountains will come surging like a tsunami, submerging and gnawing it!

This is an unsolvable game.

Even if the Demon Race's single combat power is strong, facing the endless Zerg Race, it can only feel a kind of pessimism and despair!

In Fang Yue's territory, he and Di Yi and Sima Xiao stood side by side.

Everything that happened in Lucas's territory was under their eyes!

"I didn't expect to be the insect king, it really scared me to death!"

Sima smiled and patted his chest, revealing an expression that scared the baby to death, you are responsible for the bag.

"What? My own person?" Fang Yue was also relieved to see Sima Xiao's relaxed expression.

This kind of worm tide is simply the power of the Galaxy team.

If he could not be an enemy, Fang Yue still hoped that he could live in peace.

"Ask Diyi about this matter! This insect king is his elder brother!"

Sima smiled and cast a sideways glance at the emperor, revealing a provocative look.

"What big uncle! I have nothing to do with Fairy Gu Yue!" The emperor repeatedly emphasized. However, his cheeks gradually became blush, but he betrayed his heart! "There is a kind of insect king coming for a while, you say it again, look at those little bugs that don't eat you! You are the son-in-law of Fairy Gu Yue! Hey, you will get rid of her after the emperor! Look at Fairy Gu Yue, In terms of appearance and appearance, in terms of family history, in terms of family history, in terms of talent, there is talent, in terms of brother, there is a strong

Incomparable brother! You will never lose out with the insect king! "

Sima laughed in his eyes full of teasing!

Soon after, Lucas' entire territory was drowned in endless blood! The Zerg swept across, and no creature could resist their footsteps. According to Sima Xiao's description, these zergs are not species of the

Xuanhuang world. They come from an ancient space, invincible vertically and horizontally. The insect king is the spokesperson of the Zerg in the Xuanhuang world. He can open the door between the two worlds and release it at all times. No one knows the insect king

How strong is it. Because many people didn't even have the opportunity to play with the insect king, they were already eaten by the Zerg! "Human Race, there is a list called Xiantian List, which is a list that Vientiane Pavilion collects and summarizes information from the world. It is published regularly every month. The list of the top 100,000 masters of the Human Race is all in this column, the king of insects, ranked eighth, can be ranked among the billion trillion innate strong

In the top ten, his strength and talent can be imagined! "

Sima laughed and talked about the King of Insects, and a stern respect came from his heart. He is the leader of the younger generation. Although he is unruly and withdrawn, even the strong of the older generation dare not provoke him easily.

"There is still such a list? Only such a terrifying powerhouse is ranked eighth? Then how terrifying the first seven will be!"

Fang Yue was sighing, among this human race, Tianjiao appeared in large numbers, and God City was just a microcosm.

Some people claim to be unparalleled in talent, but looking at the entire human race, they don't even count as a fart!

"Tianjiao who can be ranked in the previous life of the human race is the kind of exaggerated to perverted existence! You may not believe it, I once met the sixth-ranked master by chance, in the same realm, she just gave me a light touch Without any hostility, my realm almost collapsed and fell!"

Sima smiled wryly.

The scene of that day is still fresh in his memory.

It was a feeling of the superior to the inferior, which made him unable to even think of resistance! "Sima laughs, in fact, you don't need to belittle yourself. Many people are mediocre teenagers. Then they soared to the sky, and finally realized the secret of heaven and achieved the position of a saint. You are now ranked 96,570 in the birth list. Three names are already a rare honor! As long as you work hard for thousands of years

Later, it may not be worse than the crowd in front of you! "

Emperor Yi was sacred and solemn, and he felt an inexplicable pressure when he talked about the Xiantian list.

Thousands of creatures have entered the same list and calculated the most powerful batch of top-notch talents. That kind of feeling made him feel heavy in his heart.

Fang Yue was curious: "Sima Xiao's ranking is so low, then how much do you rank?"

The emperor said with a dry cough: "The 66th, 66th, is barely higher than Sima's laugh!"

Damn it, brother, 666!

Fang Yue couldn't help being a little stunned when he heard Di Yi's strange ranking. After hearing this ranking, Sima Xiao couldn't help but gritted his teeth: "You still said that it was so high, it is a lot higher, right! If I can be ranked in the prioritized list for a few months in the morning, I won't be excluded from Sima's house. Among the core disciples! No matter how extravagant the Sima family is, it will not even be

No one on the list looks good! "

Di Yi chuckled and did not respond.

At this time, Lucas's territory suddenly became quiet, and all the Zergs receded like a tide.

All the demons have disappeared and become a delicious meal in the belly of the Zerg! The rest of the buildings, vegetation, were not damaged in the slightest. After a cup of tea, a handsome young man walked in the void, carrying a **** head in his hand, and his eyes were furious. Unwilling to die! Behind the boy, there are still two men following, who are more wrong than him. One man's face was plain, even slightly ugly, and the other was the same handsome man, but with an evil smile on his mouth.

Chapter 239: Bug King

Sima laughed when he saw the three of them, he almost jumped up in surprise!

"Insect King, Puppet Demon Master, Twin King, how did the three of them come together?"

The emperor frowned and showed a look of jealousy.

These three people are not simple, otherwise, it would not be so caring about Diyi! "Insect King, rank eighth in the Innate List! Summon the Zerg race and sweep the world. The Puppet Demon Master, specializing in shaping various puppets, the body's combat power is average, but the endless army of puppets is enough to drown everything! On the Innate List, the Puppet Demon is ranked The top 100, the specific ranking, often changes, but basically hovering around the 70 or 80! This is definitely a very stubborn, the master of killing the world is like cutting leek! When he was the strongest, he was alone A big teacher's stronghold was eliminated. Among them, none of the three hundred and twelve masters of the world realm escaped. All the heads were placed in front of the mountain gate. But because his backstage was so hard, that The matter turned out to be nothing in the end! The Twin King, a young king came out of the twelfth house. He has the physique of a twin king and is almost invincible in terms of combat power. He has no other means, so he is innate

The list is out of the top 100, but if it's solo, it is said that he can hardly turn around a master. Much stronger than many people in the top 100! "

Sima Xiao secretly rumors for Fang Yue.

How did the trial of God City provoke the coming of such three great gods!

In the Xuanhuang world, the territories of the human race are endless, and the city of God is only a part of it. According to the truth, it is quite difficult to have a great **** descend. These three powerhouses gather, what is the possibility for others to compete? Even the masters of the older generation will be crushed!

Others simply surrendered!

After seeing Emperor Yi, the insect king moved his gaze and looked up and down: "Yes, the Chaos Divine Body is really extraordinary, becoming stronger every time! If you are on the birth list next month, you should be able to advance thousands of places and enter the top 50,000. After the ranks of the names!"

There is a smile on the corner of the insect king's mouth.

But in Di Yi's eyes, he felt an inexplicable humiliation.

His emperor Yi, as a chaos divine body, the peerless Tianjiao, when has been so looked down and overlooked.

Although, Emperor Yi knew that the insect king did not have any malice, but treated him as his future brother-in-law.

But this kind of feeling made Di Yi feel quite upset, if it weren't because he couldn't do it, he would definitely violently beat this guy!

The Twin Kings and the Puppet Demon also stepped forward separately.

The puppet magician looked at Sima and smiled, showing a somewhat stiff smile: "Sima family boy, meet again! This time, what treasure are you planning to sell me!"

Sima Xiao felt a guilty conscience after seeing the puppet magician. He lowered his head, afraid to speak, like a kid who had done something wrong.

The Twin King strode towards Fang Yue and sniffed his nose: "You have the **** smell of the Sagittarius Palace. I like this smell. I hate the hypocritical guys in the Sagittarius Palace!"

The insect king looked at the two people around him with interest.

"Why, they and you also have holidays?"

The Twin Kings shook his head: "There is no holiday, but he has the blood of the Sagittarius Palace. I have an inexplicable kindness to him!"

The puppet magician smiled rather than smiled: "I've dealt with this Sima family a few times. The various imitations of ancient gods he refines are quite powerful! Unfortunately, the quality is not good. At most three times. , Surely burst! If you have a need in this regard, you can find him!"

Seeing that the puppet magician was not angry, Sima laughed and calmed down.

It turned out that he wasn't bothering him, but he was scared to death!

Sima smiled and patted his chest, soothing himself.

At this time, the insect king looked at Emperor Yi again: "The three of you are not weak! They are all very interesting guys, but the trial of Baili Secret Realm is a bit complicated. Be careful. Our combination is not the only one. , Dare not even claim to be the strongest!"

The insect king spoke, obviously reminding Di Yi that Fang Yue and Sima Xiao just followed. Secretly pondering the meaning of it. "By the way, kid, I'm here to find you this time! I heard that you have a pill to prolong lifespan. Give me three pills. Lucas's territory is all yours! I don't have all the plants and trees inside. After moving, what resources you want, you have everything! As for the aftermath, I have done it, no one will

Come to trouble you! "

The insect king has a big appetite, and one mouth is three super Jiazi Shendan.

Fang Yue weighed it a little, and felt that it was not a loss.

Lucas's site is much larger than Richard's, and the resources in it are far from comparable to those of Richard and Spantu's!

Moreover, the buildings and various resources in it were kept intact, which gave Fang Yue a different thought.

"Three super Jiazi Shendan!"

Fang Yue simply took out the pill, paid for it, and delivered it!

The insect king took a deep look at Fang Yue, then turned and left.

The twin kings and the puppet magicians also all left. The three of Fang Yue were left behind, quietly thinking about the meaning of this insect king's words!

God city, in front of the merit monument.

The envoys of the various sects have been thoroughly fried! This time it was more thorough than the last time.

Because the insect king, the twin king, and the puppet demon are not on the list of the eight thousand people in the **** city! With them, there is no need for others to fight for merits!

This time, all the demons in Lucas' territory were wiped out, and the insect king's name had been shining out. The number of 378,400 merit points passed everyone and became the well-deserved number one! "How did they enter the Baili Secret Realm! If there is a Fang Yue who can barely be explained as a coincidence, then there are three more guys. It is definitely not a simple reason that can be explained by coincidence! We need an explanation! Otherwise, this time Baili

The trial of the secret realm will become meaningless! "

The emissary of the great religion was restless.

Both the Insect King and the Puppet Demon are fierce characters, and if they don't agree with each other, they will bleed thousands of miles.

The practitioners in Baili Secret Realm are all the elites of their teaching. These people are unparalleled in talent and are given high hopes. In case one is not pleasing to the eye, they are slaughtered by the three, but there is no place to cry! The old man guarding the merit monument raised his eyelids slightly: "I know their origins! Before the endless years, there was a spatial practitioner who was brilliant in his life. In his youth, he also came to the secret realm of Baili. Practicing! He took a fancy to the various environments of Baili Secret Realm, and didn't want this chance to be a flash in the pan, so he made hundreds of Pokémon Talisman, the talisman burned, and he could enter Baili Secret Realm at any time! He was in the Baili Secret Realm, in and out, almost a hundred times! After that, his cultivation base advanced by leaps and bounds, and he felt that Baili Secret Realm could hardly be of any help to him anymore! So the breaking air talisman was sealed by him, Buried everywhere in heaven and earth! Waiting for those who are destined to enter the Baili Secret Realm and realize breakthroughs! These people use the Breaking Talisman that Tianjiao made in the past! Time flies, like a passing moment, I didn't expect it to be so. Long

, I am lucky enough to be able to see the Breaking Hole! "

The old man guarding the merit monument sighed with endless emotion. The messengers of the great religions and families are all discolored!

They can only hope in the middle of their hearts that the disciples in their own door will not be convulsed to provoke these three disaster stars. This is a fierce person who can even wave a hand to destroy the strong in the rotation realm. Their proud strength is simply not enough!

But it was a coincidence.

Richard's territory was surrounded by another wave of people, all of whom were full of blood. Waving the wolf Yang Bang in his hand, he yelled.

A full three thousand soldiers and horses, rolling in the clouds, the leader is a strong barbarian on the seventh step of the heaven and earth realm, his waist is wrapped in animal skins, and the mace in his hand is still soaked. Full of purple blood!

This is a cavalry of the barbarians. Under their crotches, they are all rare brutal beasts, with four hoofs and flames, covered in scales, and shaped like tigers and leopards, but they are taller and more mighty!

These savage beasts, with the worst strength, are all on the fifth step of the innate realm. And the masters who straddle them all have innate strengths above seven levels.

Next to the leader of the brutal soldier, there was a young man dressed in purple, expensive. Under his hip, riding a flood dragon, ten feet long, seemed to be able to stir the situation.

"Master Chief! In Richard's territory, there are a number of important criminals we want to capture! As long as they are captured alive, the things that were promised to Master Chief will be done!" The young man talked freely, his expression was natural, and he was handsome and handsome. . Has an unspeakable self-confidence temperament.

"Yantong, why did he come!"

Sima laughed and looked down, and the three thousand soldiers and horses of the Barbarian were all in sight. This army of soldiers and horses rushed into the sky, and every barbarian was born with divine

power. Among them, at least one-tenth of them had already broken through the heaven and earth realm!

There are still some that have already begun to comprehend the laws of heaven and earth, and understand the Taoism!

"Who is Yan Dong?" Fang Yue rubbed his temples, complaining in his heart, which also made people not develop well! The three great gods just walked away, thrilling but not dangerous, and immediately after this, a group of barbarians came!

These barbarians are all extraordinary. This bit of regret from his staff is probably not enough to stuff their teeth!

Fang Yue counted on Pan Sen's support, but he would not be there until at least 15 minutes. Organizing personnel, ready to go, each process requires sufficient time.

But fifteen minutes later, if these barbarians attacked, it is estimated that their corpses will soon become meat sauce!

Is this insect king reliable, doesn't it mean that the aftermath has been dealt with?

How come such a nasty guy jumped out of the cracks in the stone! "Yantong, the top 1,000 geniuses in the innate waiting list! What he is best at is to control various beasts and conquer all directions! He is a disciple of Liuhe. A generation of peerless talents! If he is on the right battlefield, he even can threaten the characters in the Xiantian list! That day, Emperor Yi and I were

People besieged, this Yandong is absolutely indispensable! He summoned hundreds of savage beasts, all of which had the power of innate peak. Those savage beasts are not afraid of death, and their skin is thick and thick, making people feel soft! "

Sima's smile narrowed down, and the eyes of Yan Dong flashed with hatred. "Innate waiting list? What is this?" Fang Yue was stunned. He had just heard of an innate list, so why did he jump out of a waiting list!

Chapter 240: Yandong

Diyi explained: "The Innate List, the list of 100,000 people is too small. There are too many Innate Talents. Therefore, after the Innate List, Vientiane Pavilion has launched the Innate Alternate List. There are a total of millions of people on the alternate list. , Although they can't be included in the innate list, but they also have their own strengths.

According to legend, the top five thousand on the alternate list are actually not much different from the five hundred behind the innate list. If it is in the right battlefield, even counter-attack and counter-kill can be achieved! "

"Does that matter?"

Fang Yue smiled bitterly, watching the barbarian soldiers approaching the city.

This Yan Dong made it clear that he wanted a group fight, and he would not give Fang Yue and the others a few chances to fight alone.

If you are singled out one-on-one, even if you lend this Yan Dong three courage, you will not dare to provoke Emperor Yi! The alternate list may provoke the lower-ranking figures in the innate list. But encountering a master with more than 60,000 players like Emperor Yi, the odds of winning are almost slim! "You give me pressure! I will delay the time! I suspect that this time Yandong's call will not be so simple. These simple-minded and well-developed barbarians are likely to be just cannon fodder in the lead! Let's try our best to delay until Pan Sen leads the team. Come here to support! Damn, these guys are giving faces

Shameless! I really thought we were good persimmons! "

Fang Yue leaped forward, leaped down, swaggered to the front.

He moved his muscles and bones, among them the tiger and leopard thunder rumbling!

In fact, Fang Yue was worried about Yandong on the surface, but in fact, he didn't have much fear! He has a lot of backhands, so he is really pressing, and a few talisman can stick him to death!

Not to mention, the formation pattern in the fragments of the fairy soldier in Fang Yue's hand had already lit up by a tenth. You can barely use it once, if you really do it, even Fang Yue doesn't know how powerful it will be!

"A group of barbarians! They only know about sneak attacks and have the ability to single out! My demons are not convinced!"

Fang Yue used the magical power of the Buddhist lion roar when he shot.

His voice was thunderous, and his heartstrings trembled.

All the masters of the barbarians were shocked by him.

In a moment, the chief of the barbarian tribe was the first to come back to his senses, and there was a great shame in his heart! They have so many barbarians with strong energy and blood, and they were single-handedly called by a barbaric sacrifice! And the roar just now captured them all.

This is a great insult to the proud barbarians, it is tolerable or unbearable!

"Okay! Then I will fight with you a warrior of the barbarian!"

Yan Dong just wanted to stop, the leader of the barbarian clan had already responded.

Only by dignifiedly defeating the opponent, can the barbarians be justified!

The glory of the barbarians must not be defiled! Even if it is defended with blood and life, it will not hesitate!

Yan Dong thumped his chest, he made a mistake.

Originally, his plan was to crush and eliminate Richard with the momentum of thunder, and to take advantage of the situation to kill Emperor Yi, Sima smiled to avoid future troubles.

But I didn't expect that this barbarian was so stupid. He actually responded to Fang Yue's call!

On the other hand, Fang Yue was slightly happy.

Although the barbarians in this Baili secret realm are different in appearance and strength from the Xuanhuang world, their traditions have not changed, and they are still so easily irritated.

Heads-up, Fang Yue has never been afraid of anyone!

Fang Yue's eyes flashed with cold light, and he planned to use these barbarians as his own whetstone to temper his realm, stabilize his foundation, and make full preparations for breakthrough!

"One person is not enough, let's get five people!"

Fang Yue's voice was not high, but it was filled with a high spirit of war! This time, he changed his cringe from outside Japan, and did not pretend to be a pig and eat a tiger! What he needs is fierce battle, tempering, and a momentary transition at the edge of life and death!

And this voice fell into the ears of the barbarian chieftain, and his expression suddenly changed!

"Bold! My barbarian kills, why besiege! Patton, come, understand the life of this arrogant demon, and shame my demon!"

The chief of the Barbarian tribe sent an eighth-layered man of the Barbarian tribe. He had a big waist, a burly figure, and an arm that was thicker than Fang Yue's thigh. The fierce beast under the crotch neighed, filled with a strong murderous intent!

In the eyes of the chief of the barbarian tribe, the demon in front of him is just a weak sacrificial ritual. There is not enough time to summon the heroic spirits of the demon. He is nothing!

"Bold Demon, kneel and die!"

Barton, the warrior of the barbarian tribe, despised Fang Yue, the stone axe in his hand moved, whistling and blowing wind!

Fang Yue raised his eyelids and slowly raised one hand.

Tiger Leopard Thunder sound suddenly reappeared. In Barton's eyes, the world seemed to be a dangerous jungle.

The mountains are full of fierce beasts, the sky is full of sky, giant pythons are lying around, unicorns are everywhere!

This is the spiritual shock naturally derived after the physical body reaches a certain level!

Fang Yue had no intention, but Button still felt an invisible pressure.

This coercion is like the collapse of the sky, like the collapse of a mountain, as if the ocean is rolling upside down, causing him to give birth to a humble and even hopeless sentiment!

Button froze.

Just a moment.

But at this moment, Fang Yue's palm fell gently, like a feather withered, spinning to the ground.

Barton's brain cracked, red and white, and filled the sky.

With a puff, a headless corpse fell to the ground. His death was miserable and heart-shattering.

"too weak!"

Fang Yue sighed faintly, and took out a white handkerchief to wipe the blood splashes on his hands.

A barbarian warrior is brave, vigorous and powerful as an ox. If it is placed in the world of Xuanhuang and cooperating with the mount to charge into the battle, even the powerhouse of the ninth level cannot stop him! But under Fang Yue's hand, he couldn't survive a single move.

The cold corpse, lying on the ground, no more vitality left!

The leader of the barbarian was furious, he didn't expect this to be the result.

Even though the sacrificial body of the demons is in the realm of heaven and earth, according to his information and knowledge, the sacrificial body is weak and far inferior to their barbarians in melee combat! Even if Button would lose, it would not be so miserable.

A life of blood and bravery, only three words of evaluation in exchange!

too weak.....

This sound is like a continuous curse, lingering in the ears of the barbarian leader.

"Richard, you are crazy, this is just the beginning! My barbarians will never let you bully!"

This time, the chief of the barbarian tribe sent a barbarian with nine levels of innateness. This one was more vigorous and surging. Behind him, his blood soared into the sky like a column of wolf smoke, breaking through the sky.

There was a mace in his hand, and without a word, a stick knocked over.

He didn't give Fang Yue a buffer of time, and getting started was the ultimate move!

A hideous dragon phantom roared out of the mace. With teeth and claws, you want to choose people and eat! He not only wants to win, but also to win beautifully. Only by defeating the strong with the weak and swiftly, can he wash away the shame of their barbarians! Fang Yue stretched out his fingers, seemingly slow but fast, and the tip of the finger touched the center of the barbarian warrior's brow. The body of the barbarian warrior immediately became rigid! His eyes widened. The whole person fell to the ground. The phantom of the evil dragon disappeared instantly, and the whistling mace became soft and weak. It clicked and fell.

Fall to the ground!

"I said, it's hard for you to pose a threat to me without three or five people! Singles are just purely seeking death!"

Fang Yue was helpless. He was clearly telling the truth, but he was misunderstood and thought he was pretending to be coercion.

Two consecutive barbarian fighters were easily obliterated by Fang Yue.

This made the chief of the barbarian finally pay attention.

Who said that the demons sacrificed their bodies to be weak, pure special nonsense! This physical strength and fighting skills are no less inferior to them.

I wanted to defeat the strong with the weak and use the weakness of the sacrifice to move back to a round, but I didn't expect that the final plan fell through!

In front of the merit monument, a group of envoys stared at the scene of Fang Yue fighting.

"What kind of physique is this guy? He has only four innate realms, but he fights across five small realms!"

"Even the barbarians of the ninth level of the innate can easily be killed, I am afraid that he already has the strength and the powerhouse who has just entered the world to challenge! With this potential, if he reaches the peak of the innate state, I am afraid that he will be another innate alternate list. Master of the game!"

Many envoys talked about it. Fang Yue's performance was indeed amazing. Human beings are not as good as barbarians in terms of physical fitness. Especially the strength of the physical body was thrown away by eight streets.

This point is a consensus and indisputable. But Fang Yue can actually smash the barbarians who are five small realms above him and win the battle. This is indeed beyond people's expectations. From the beginning of Fang Yue's chaos, people always thought that he was a lucky man who could refine alchemy. Little guy, never guessed, he is also an amazing performance in combat.

!

Wang domineering outside the crowd, hehe sneered.

He secretly said in his heart that surprises you are still behind!

Wang Badao can't forget the scenes he saw in Yandu.

At that time, Fang Yue didn't even have an innate, so he was able to press down on a master of the seventh innate level. Even Fang Qinglong, who was aloof, was chased and killed by him with his **** in his ass. He was embarrassed and he didn't even have the time to gasp!

Now, Fang Yue is standing on the fourth step of Innate Realm.

Wang Badao didn't believe it, and the methods Fang Yue showed now were his limit!

He even suspected that without the congenital peak, on the current basis, Fang Yue could be included in the congenital waiting list by stepping up two or three small steps! If you step into the congenital peak, even entering the congenital list may not be his limit!

"You asked for it!"

The chief of the barbarian clan roared, this time, he sent a barbarian powerhouse in the early days of the world.

His name is Cuba, his beard and hair are thick, his eyes are as big as copper bells, his mouth and nose are like an orc walking out of an ancient battlefield, and his muscles are extremely solid, like cast iron, unshakable!

"I will fight you!"

Cuba's voice was low and deep, like a thunder cloud.

Each of his hands holds a huge copper hammer.

The edge of the copper hammer is hexagonal, once it hits it, it must be **** and bloody, and even the whole body can't be left! "It's a shame for Fang Yue! The talent is good, but he is too confident! He must have thought that he could easily kill the ninth-layer warriors of the barbarian race, and he would be able to contend with the powerhouses of the heaven and earth realm! But he didn't understand the heaven and earth realm and the underworld Huge difference. It's like a baby and a giant.

The chasm and the sky cannot be estimated and measured by common sense! "

Someone sighed in front of the merit monument. They had been optimistic about Fang Yue, but they didn't think he could defeat the barbarians in the world.

"This rebellious son died quietly, and the province stayed in the world, harming others!" Xuan and his colleagues hoped in their hearts more than once, and Fang Yue fell in danger in the secret realm of Baili. Because he is indeed looking forward to seeing each other Yue! "I said, you barbarians, there are no three or five people to form a battle formation to besiege, it is very difficult to pose a threat to me, how is the world? Do you really think you can defeat me?"
