

## God of Life 2321

### Chapter 2321: Surrender the monster

"Yin and Yang combined strikes, this mountain demon's brain is clumsy, and I didn't expect to know how to strike together!"

Luo Dao sighed, but this word was particularly harsh when it reached the ears of the mountain demon.

What makes our mountain demons clumsy? It seems that few creatures who can cultivate to the level of the virtual fairyland are really dumb!

However, this Luo Daoyi also belongs to the ranks that the mountain demons cannot afford.

Luo Daoyi is also famous among the ten thousand races, and even in the battlefield of ten thousand races, Luo Dao is not weaker than Fang Yue.

It's not how brilliant this Luo Daoyi's record is, but this Luo Dao is cheated and shameless.

There were also many powerful men of the ten thousand races who died in Luo Dao's hands, but this Luo Dao's killing was never done by hard work.

All kinds of lure enemies, all kinds of pit kills, and this Luo Dao will run away as soon as he finishes killing, and he will never make a stay.

This Luo Dao slipped and did not leave his hands. He once killed a Tianjiao who was the peak of the virtual fairyland in the Raksha tribe. Then the Raksha tribe furiously sent three powerhouses of the true fairyland level to chase and kill them. After a distance of more than a thousand kilometers, he did not even see Luo Daoyi's shadow.

This Luo Daoyi is also known as Luo Paopao.

And this Luo ran, and will come back to take revenge after finishing the run!

The mountain demon is also so bored and crooked that these two human arrogances.

Whether it is Fang Yue or Luo Daoyi, it is disgusting to compare one by one!

The two mountain demon races fought together, and a huge shadow of the fist slew towards the monster that came out of the fairy pond.

The monster seemed to be really delirious, he didn't evade, and forced the punch that combined the power of Ssangyong.

With a thud, the monster's body trembled, but this attack could only make the monster's body trembled! His body is strong and sturdy, even the shadow of the power of Ssangyong can't cause him the slightest harm!

"This immortal pond should have the effect of tempering the flesh! The immortal energy in it has been nourished for countless years, so that the bodies of the monsters in it have become incredible! In fact, the real cultivation level of this guy is not high. , At best, it is the third level of the true fairyland!

However, his physical body is unparalleled, and the body of the forbidden law! So this monster is difficult to deal with, and it is better than the ordinary masters of the seventh or eighth level of true immortals!"

Fang Yue inferred the advantages and disadvantages of this monster, his eyes flickered constantly.

The monster continued to walk firmly towards the dark demon step by step, and at the same time his hands were raised, a suction force came out, and the two dark demons were directly sucked into his palm.

Flop, flop!

The palm of the monster turned into a grasping shape, and two mountain demon races flew upside down, and the core of the heart was instantly taken away from the body.

The two imaginary fairyland-level mountain demons were killed by this monster without even the slightest resistance.

The dark demon turned and ran without saying a word.

Although he is a true immortal, he may be inferior to the mountain demon in terms of pure flesh!

The monster threw the corpse of the mountain demon into the Huaxianchi. Their huge corpses quickly melted, causing the water in Huaxianchi to grow slightly!

This monster turned out to be a master of the ten thousand races who wanted to kill, refining their corpses to turn into the water of Huaxianchi.

Wan Clan couldn't help being shuddered when he saw this scene, and the strong of the Dark Demon Clan shouted for help.

However, the demons are cold by nature. Even though the dark demons shout so loudly, no one among the demons dares to come forward to rescue.

No one can guarantee that they will be able to fight against the monsters that crawled out of the Immortal Pond. The spells are invalid, and they can only be contended by the power of the flesh.

At this moment, Fang Yue suddenly walked out of the crowd and said, "If the Demon Race is willing to pay a price, I might be able to fight off this monster for this senior in the Dark Demon Race!"

Fang Yue's words made everyone stunned.

Is this Fang Yue crazy?

There is no ambiguity between the demons and him!

If Fang Yue saved the dark demon, wouldn't he be making enemies for himself?

"If you can save me, I will agree to any conditions!"

The dark demon was completely chilled when he saw the attitude of his people, and Fang Yue had become his only life-saving straw.

"I want you to owe me a favor, and if necessary, make a shot for me! At the same time, I also want fifty lower-grade immortal stones in return!"

Fang Yue quickly offered the conditions.

The dark demon is already burning his eyebrows. The monster in this fairy pond seems to be slow, but his feet are running with a shrinking magical power.

He had already chased behind the dark demon, seeing that he was about to attack the dark demon.

"Okay, okay, okay, I promise you! My dark demon, Carlodo, swears by his soul that if Fang Yue can save my life, I owe Xiao Yue a favor, go up to the sword mountain, go down to the sea of fire, and I will not hesitate, and Give Fang Yue fifty low-grade fairy stones as a reward!"

The cold sweat of the dark demons!

If it were normal, fifty low-grade immortal stones would be extremely rare for him, and he would not easily agree to a transaction with Fang Yue.

But now these immortal stones are money for life, and he can't tolerate any hesitation!

The person is dead and the immortal stone is still there. I don't know which balao was cheaper in the end! Instead of this, it is better to buy life with immortal stones, as long as you leave the green hills without worrying about firewood! Sooner or later he can earn the lost fairy stone!

"Haha, refreshing!"

Fang Yue strode the meteor and walked in front of the monster that had crawled out of the fairy pond.

The monster suddenly shot Fang Yue, swinging his iron fist, like a meteor falling, the force was fierce and unstoppable!

However, Fang Yue did not evade, he took it with one hand.

In terms of physical strength, this monster is far worse than Fang Yue!

Fang Yue held the monster's iron fist with one hand, making him unable to move, while a little black blood was condensed from the other hand, which was printed into the monster's brow!

This black blood is the reward of the ancient road, this thing is the product of the ancient road, feeding the creatures in the early stage of the real fairyland can be transformed into his battle puppet!

Originally, Fang Yue was still hesitating, to capture what kind of true fairy and transform it into a puppet to maximize his benefits.

Don't hesitate now, the realm of this monster is in the early stage of the real fairyland, but its forbidden body and powerful physical body, its combat power is far beyond the ordinary real fairy early stage, if it is used well, the monster will be killed. It's no surprise that a powerhouse at the peak level of a true fairyland!

Therefore, Fang Yue imprinted the black blood into the eyebrows of this monster, and directly penetrated into the depths of the sea of consciousness to take effect faster than feeding, and the effect was stronger!

After struggling for a while, the monster stopped moving.

Then, there was a faint aura in the twinkling light in his eyes.

"Success!"

Fang Yue could clearly feel that he was connected with this monster.

The onlookers were all stunned.

What about this kind of operation?

The goal of others is to transform the immortal pond, absorb the water from it, and transform the Tianjiao in the clan into immortal as soon as possible.

But Fang Yue's goal is to transform the monsters in the fairy pond!

How strong is this monster?

Everyone still doesn't have a score in their hearts, but at least it is the start of the real fairyland, and his forbidden body and terrifying physical defense can definitely make this monster's strength comparable to the powerhouse in the middle or even late stage of the real fairy.

Such a strong man was turned into a slave by Fang Yue!

This Fang Yue will become even more unforgiving!

"Carrot, what did you just promise to count?"

Fang Yue squinted his eyes and looked at the dark demons with a smile.

"Forget it! My dark demons have always paid attention to credibility, one spit and one nail! These are fifty low-grade immortal stones, and this is one of my sound transmission stones. If there are any tricks in the future, I will come now!"

Kaloduo gave Fang Yue fifty low-grade fairy stones and one sound transmission stone.

Some people couldn't help but roll their eyes.

This dark demon race pays attention to credibility?

fart!

If it weren't for Fang Yue to be so strong now and then Carlodo swears by his soul, he would never realize his promise so simply and neatly.

"The rest, you continue!"

Fang Yue led away the monster in Huaxianchi.

This result seems pretty good!

Fang Yue retreated to the fringe of the crowd, and the ten thousand clan powerhouse stared wide-eyed, not knowing that Fang Yue should be evaluated.

Is this also considered successful?

Even the sword fairy of the human race and the true fairy of the giant race who have been fighting before will not fight!

Originally I thought it was a peak duel, and I wanted to shine in front of the ten thousand races.

But now they find that they are like a clown compared to Fang Yue.

The water in Huaxianchi was still boiling, this time the three-headed monster jumped up and at the same time jumped onto the ground.

The strength of these three monsters is stronger, and according to Fang Yue's aura insights into them, they should have reached the realm of the fifth level of true immortals, which is stronger than the monster just now. These monsters came ashore and immediately slayed towards the powerful men of the surrounding races.

One of the hands directly pressed the cover of a murloc tribe's heavenly spirit, and suddenly lifted it, tearing its head, and red and white things spewed out and scattered everywhere.

In the outside world, the majestic and powerful True Wonderland level powerhouses were slaughtered like chickens and ducks in the eyes of these monsters, without the power to fight back.

Fang Yue couldn't help being slightly surprised when he saw this scene.

Is this the real horror of Huaxianchi?

"Why don't the spirit immortals of all races take action!"

A true fairy of the Flame Race was being hunted and killed by the monster with his buttocks. He roared loudly and asked the spirit fairy of the big family for help.

This true fairyland level creature is not the opponent of these monsters, but should the powerhouse of the spirit fairyland always deal with each other easily?

However, those monsters were still killing unscrupulously, and the spirit immortals of all races looked solemn and never shot.

They were observing the still boiling water in this Huaxianchi.

There are even more powerful creatures hiding in it.

Another powerful person of the real fairyland level was torn alive by the monster. He was grabbed by his shoulders and torn in half. The flesh and blood was dripping. The warm corpse was thrown into the Huaxianchi, making the water in the Huaxianchi boil slightly. Cooled down a bit!

"The body of this strong man seems to be the pool water that can calm this immortal pond!"

Someone opened his mouth and said his observation.

This is an amazing inference.

### **Chapter 2322: Awe-inspiring**

To quell this transformation of immortality, there may be other options besides killing these terrifying monsters.

As long as the body of a strong enough person is thrown into Huaxianchi and the water lost in Huaxianchi is filled up, all the catastrophes may disappear.

"The corpse of a strong person above the true fairyland is the best, but if not, the corpse of the virtual fairyland can be used! It just needs to use quantity to make up for the quality, otherwise, the loss of this fairy pond will be difficult to fill!"

The man observed for a while and then spoke again.

The strong men of the ten thousand races looked at each other.

They saw a look called vigilance in each other's eyes.

They are all worried that they will become victims of quelling this immortal transformation!

"Everyone, don't fight inwardly. The monsters in the Huaxianchi are not invincible. If the strength of the Taoism exceeds their tolerance, the monsters in the Huaxianchi will be injured and fall!"

A true fairy of the Raksha tribe worried that he would become a victim, so he shouted. He used the "foundation" given to him by the race to sacrifice a ruler. This ruler was only three feet long, but it broke through with a single blow. Kill a monster that is attacking him.

The ruler was shining across the sky, exuding a radiant glow, shrouded in brilliance, the monster's body was actually affected by the law and began to evaporate, transform into particles, and die in the world!

"An imitation of the celestial ruler! It already has some of the power of its body. This thing is very powerful, but this thing is a taboo weapon. It can be scrapped after a few times!"

Experts will know if there is any!

This may not be obvious to others, but this thing, placed in front of Luo Daoyi, can see the problem at a glance!

The power of this ruler is not small, but the number of times it is used is limited. This is a life-saving thing, and it will not be used in ordinary battles.

The Tianzhi ruler suppressed, the monster turned into flying ash and annihilated, and at the same time, a series of fine cracks spread on the body of the Tianzhi ruler.

A monster was beaten to annihilation, which instantly restored everyone's confidence.

The body of the so-called forbidden law also has its limits. As long as the limit is broken, the monster still can't invade with all laws.

"Follow me, and work together! Use the forbidden secrets of my demon clan, and I will send this monster into the \*\*\*\* that will never be restored!"

A flame demon at the pinnacle of the true fairyland roared, his expression excited, behind him, two true immortals of the same clan joined forces with him, condensing the essence of heaven and earth, and turned into a fire dragon soaring into the air.

The fire dragon passed by, and everything turned into ashes.

In a low roar, the body of the fire dragon and the monster collided.

At the moment when the two sides collided, the sky and the earth cracked and the mountains and rivers flowed backwards.

This scene is like the end of the world.

The phantom surrounding the monster fell out, and the scene of the destruction of the old civilization reappeared on earth.

The monster roared, his eyes revealed unwillingness, as if part of the memory deep in the sleeping flesh body was awakening again, and as if the remnant soul had returned, letting him return to the most glorious and brilliant years.

The monster's hands stroked, drawing billions of rules.

A series of handprints emerged, condensed into one, transformed into a landscape of mountains and rivers, crashed down, smashed the fire dragon into the finest particles.

The three flame demons all suffered backlash, staggering back, spraying blood.

Their complexion was pale, their blood faded away, as if they were already dead soon!

"This monster actually has intelligence, if it triggers its physical instincts, it can occasionally use supernatural powers!"

The flame demon clan was furious, he roared violently.

Fang Yue's gaze shifted to the boiling immortal pond.

Another vague figure in the Huaxianchi condenses and forms, he is from the virtual to the real, as if coming from the depths of time and space.

"A monster at the peak level of a true fairy!"

Fang Yue's heart tightened, and what he expected came true.

As long as this transformation of immortality never ends, the monsters coming out of this immortal pond will become stronger and stronger.

"The three powerhouses at the pinnacle of true immortals took action, shook the Great Avenue of Heaven and Earth, and suppressed this monster!"

Rufeng whispered, his voice sonorous and powerful.

Although he has never stepped into the real fairyland level, but in terms of combat power, he is not inferior to the powerhouse of the real fairyland.

A strong man of the true celestial peak of the gods had even personally played the battle after hearing this, and took the lead, while Rufeng evolved a piece of divine soil, extending to the feet of the monster.

In the sacred land, the voice of birds and flowers, the petals of the sacred cherry petals, a peaceful and beautiful scene, however, things must be reversed, in Fang Yue's view, there are dangers lurking in this sacred land, murderous, and comparable to the \*\*\*\* of Yama!

The monster at the peak of the true fairyland had just walked out of the sacred soil, and was trapped in the sacred soil. The magical powers of the body of the forbidden law were temporarily stripped away, and the true immortals of the Celestial God race were oppressed at the same time!

The true celestial beings of the Celestial Clan were blessed in this sacred soil and became more and more sacred. On the back of his head appeared a circle of colorful halos swaying and swaying, indefinite!

He was transformed into a supreme god, overlooking the entire world.

"It's no wonder that Rufeng will become the \*\*\*\* son of the Celestial Clan. He actually awakened the unique innate and supernatural power of the Celestial Clan-the King's Pure Land! In the Pure Land, most of the Tao and Dharma can be suppressed, and he can bless his own creatures. , This is an auxiliary type of supernatural power, but it can produce unimaginable effects in battle!"

Luo Daoyi sighed softly.

This person is different from person.

The Pure Land of the God King is one of the strongest supernatural powers of the Celestial God Clan, which can only be given by nature, and cannot be obtained by cultivation!

The powerhouse of the Celestial Clan grows lotus step by step, oppressing the monster that came out of the immortal pond.

At the same time, the Angel Race and the Bright Race, the two traditional allies of the God Race, also stepped out of the peak of the true fairyland and besieged this monster at the same time!

The combination of the three powerhouses at the pinnacle of the true fairyland, together with the God King Pure Land, is enough to make it difficult for this monster to escape.

The two sides fought, and the monsters were very powerful, and with their powerful physical powers, they even slammed the three true immortals. This God King Pure Land could suppress magical powers and secret arts, but could not stop his fierce physical offensive.

However, the three powerhouses at the pinnacle of the true fairyland did not show their weakness, and they displayed all kinds of supernatural powers one after another, extremely gorgeous and brilliant!

The world is turned upside down in the pure land of the king.

But Fang Yue was not interested in the battle there.

At this moment, Fang Yue focused all his attention on the barrier on the edge of the Huaxianchi.

The flesh and blood clone has already researched how to decipher and assimilate the fragments of this first world.

"Every world has its own unique frequency. As long as it can resonate with this frequency, it is the so-called darling of heaven, the darling of destiny!"

Fang Yue looked excited.

He quickly mastered the frequency of the outermost world fragments. With this frequency, Fang Yue gradually refined it into a small door, and then he began to look for the frequency of the second world fragments!

This Huaxianchi is estimated to be unbeatable.

The ghost knows what powerful creatures are sleeping in it.

Therefore, Fang Yue still intends to run away first.

"Fang Yue, help me!"

Rufeng suddenly roared.

Fang Yue felt like lying down with a gun.

I wipe, what do you want me to do?

Fang Yue's deity looked like the wind with a bad face.

Rufeng showed a decisive look.

"There are monsters in the Immortal Pond who want to appear from it. My God King Pure Land is already difficult to suppress. You can quickly take action to help me strengthen the God King Pure Land. Otherwise, my God King Pure Land will be broken, the peak of this true fairyland. The monsters will definitely get out of trouble. When the time comes, your lips will die and your teeth will be cold.

There were a lot of strong people on the scene, but the strong above the Spirit Fairyland needed to be wary of the more terrifying presence in this Immortal Pond, so they had no time to take care of Rufeng and others.

Under the spirit fairy, Fang Yue should be regarded as the number one powerhouse.

At least, in Rufeng's heart, Fang Yue's methods are stronger than most of the powerhouses of True Immortal Peak.

"Is it good?"

Fang Yue blinked his eyes and asked Rufeng.

The roots of your teeth are itchy like wind hate, when are you still ripping off.

"Fang Yue, the enemy is now, and you are still thinking about what you want! How can such a character be worthy of the name of the arrogant?"

An imaginary fairy of the giant clan reprimanded Yue. They already hated Fang Yue.

In their hearts, this human race should decline, and all the glory will pass away with the wind.

But this Fang Yue's sudden emergence broke their dream of trampling on human bones.

Even Fang Yue even killed many powerful giants, which greatly damaged their clan power.

"When did I say that I was a talented arrogant? I'm just a grassroots man. The overall situation is in my heart, but you are so awe-inspiring. Why don't you step forward bravely?"

Fang Yuebai took a look at the virtual fairy of the giant clan.

The moral kidnapping trick is useless to him.

This moral kidnapping came from people who wanted face, but for shameless people like Fang Yue, this kind of trick didn't work.

"Besides, didn't I just catch a monster alive? It's something for everyone! And what are you giants doing? Do you stand beside to cheer the warriors?"

Fang Yue snorted coldly, and he instantly turned the situation around.

The ball kicked to the feet of the giants, and at the same time, the monster who had been refined into a puppet by Fang Yue with black blood stood quietly behind him.

The Xuxian of the Giants suddenly felt suffocated.

They wanted to take advantage of this incident to disgust Fang Yue, even if they could not force Fang Yue to go to war, at the very least they could make Fang Yue and the Celestial God Clan engage in hostility and provoke their relationship.

But he did not expect that he was not disgusted to Fang Yue but Fang Yue was disgusted!

Now that Fang Yue said this, he has become a giant clan!

"Fang Yue, you are wrong to say that! This person with strong ability should naturally take the initiative to take the greater responsibility! Since you can surrender a monster, you can surrender more monsters. Although the giants have the intention to kill the enemy, they are unable to recover. If my giant clan can also help you resolve these transformations of immortality, even if I wait for my life, I will take action and go all out!"

Said the true fairy who had just fought with the human sword fairy.

What he said was awe-inspiring, generous and heroic.

Fang Yue sneered, and glanced at the true fairy of the giant clan and said: "If this is the case, I have an idea. This Huaxianchi has changed because of the excessive absorption of water in the pond, so I might as well send an eight. Nine. The giants of the Touxu fairyland level are thrown into the Huaxianchi! As long as this Huaxianchi melts their bodies into the water of the Huaxianchi, it will temporarily calm down!"

Fang Yue's words changed the complexion of the powerhouse of the giant clan slightly.

"you dare!"

### **Chapter 2323: Fierce fighting**

"you dare!"

The true fairy of the giant clan roared.

"If you can sacrifice the ego, there is nothing you dare not dare to do! If you delay this way, everyone will die sooner or later, but it is not as generous as your giants, sacrificing the ego, and fulfilling the greater ego!"

Fang Yue looked at the giant clan unkindly.

The expression in his eyes made the giant clan's true celestial heart tremble slightly.

"I think Fang Yue's idea is good. Since the giants are so vigorous, you might as well let me wait to fulfill you once! I will remember the sacrifice of the giants!"

Luo Daoyi also stood up at this time, and the Giants were the first to jump out and embarrassed the Humans.

If you don't show them some color, they really think Human Race is a soft persimmon.

"You bastards! My giant clan is an ancient and strong clan, how can I become a sacrifice like pigs, horses, cattle and sheep! I would rather fight to death on the battlefield than be the water in this fairy pond!"

The giants trembled.

At this time, Rufeng stepped forward.

"I'm really going to be unable to suppress it anymore. I am afraid that there will be another true fairyland peak-level monster born in this Huaxianchi! Giants, you might as well sacrifice three or five of the virtual fairyland-level clansmen and sacrifice yourself. Come to suppress the riot in the pool of Huaxianchi!"

Rufeng is not a soft-hearted person. He had come forward to stop the giants and the murlocs from attacking the humans, but they refused to listen and stood on the side of the demons.

Rufeng had already remembered these things in his heart, just waiting for the opportunity to erupt.

Now, Fang Yue is in trouble, Rufeng takes the opportunity to strike.

People who stand on the wrong team always have to pay some price!

The true fairy aura of the giants suddenly erupted like a volcanic eruption.

"Dare you!"

The true immortals of the giant clan stared in anger. Although their clan is not a top-notch strong clan, they have not yet received such insults.

"Since the giants are so powerful, let the monsters in this Huaxianchi be handed over to the giants to suppress!"

Fang Yue suddenly suggested.

The wind-like eyes flickered, and it was also an inspiration.

"Okay! Since the giants are righteous, then hand over the monsters in this fairy pond to the giants!"

Rufeng suddenly weakened part of the power of Divine Land, and a monster at the peak level of True Wonderland suddenly rushed out.

"Dou Zhuan Xing Yi!"

Fang Yue mobilized the supernatural powers of space to shift the figure of the monster at the peak level of the true fairyland, and appeared beside the true fairy of the giant clan.

The monster roared and went to kill the true fairy of the giant clan.

"Fang Yue, you must die!"

The true fairy of the giant tribe was taken aback.

He didn't expect Fang Yue to have such a show operation!

"Rufeng, quickly destroy the monster you are besieging, this is going to be a big one out of Huaxianchi!"

Fang Yue felt that the water in the Immortal Pond was boiling more intensely.

His eyelids throbbed, and a heart tightened.

The breath of the creatures at the spiritual fairyland level only spilled a little, which made him feel almost suffocated.

The flesh and blood clone has also successfully found the resonance frequency of the second world fragments!

Seven world fragments, two of them have been cracked.

Fang Yue is still struggling to crack the others, but he doesn't know, and there is not enough time left for him!

The true fairy of the giant tribe fought against the monsters at the peak level of the true fairyland. To Fang Yue's expectation, the true fairy of the giant tribe still had two brushes. The giant tribe was based on a physical body and evolved its foundations, so it has great power. Amazing, shaking the world.

The giants are not greatly suppressed by the body of the forbidden law, so they can fight with their lives to fight against this monster. Although it is also at a disadvantaged level, it can still persist with reluctance, at least not completely defeated in a short time!

"The giants of the real fairyland are going to fight, to share the worries of the tens of thousands of people, don't act rashly! But the murlocs are ineffective, and they need to send five people to die to appease the water in the fairy pond!"

Fang Yue pointed the finger at the Murloc this time.

This murloc has also shot him before, and can't let it go easily.

"Fang Yue, you grass. You. Grandma!"

A strong man in the real fairyland of the murlocs roared, this Fang Yuetai was not enough to beat him, after framing the giants, he even made things difficult for them.

"I would rather bear the eternal infamy, but also relieve the worries of the thousands of people!"

Fang Yue didn't give the murloc a chance to resist at all. He slid under the palm of his hand and directly grabbed the five-headed murloc virtual immortal.

Speaking of five people, Fang Yue definitely doesn't need more than one!

Fang Yue grabbed five murlocs' virtual immortals, and then threw them directly into this immortal pond.

The five powerhouses of true fairyland fell into the water, and they were completely refined by the water of Huaxianchi without a bubble even coming out!

The water in Huaxianchi really became a lot more stable, and for the time being, the spirit of the fairyland level was not surging.

"Ten breaths! This five-headed murloc clan can only maintain the calmness of the Huaxianchi water for ten breaths!" Fang Yue estimated it a little and gave a desperate figure.

Throwing the strong into Huaxianchi to temporarily calm the water in Huaxianchi can only be a way to quench thirst by drinking poison.

However, even everyone knows that this is not a long-term solution and has to default to Fang Yue's method.

If it can be delayed for a while, it is for a while!

The longer the delay, the more likely they will escape and ascend to heaven, although for the time being, they have nothing to do with the monsters that ran out of the fairy pond.

But after a long battle, they will be able to see the weakness of these monsters in Huaxianchi!

"I found it! I found it! These monsters are called Sky Eaters. They are a kind of monsters that appeared before the thirteenth civilization era. They evolved from the immortal corpses of the powerful men of the past. This kind of monster can swallow the will of heaven, strengthen the body, all laws are invaded,

and all evils are immortal! However, this kind of monster is the power of fear, because the power of Chaos can quickly assimilate this kind of monster into the most primitive source. Power!"

After some inquiries, a strong man of the Celestial Clan in a true fairyland finally found the data record of the monster in the Huaxianchi.

The sky-eater, known as the power of the sky-eater, born by swallowing all things! Its power is endless.

Knowing the foundation of this sky-eater, all races have a plan to deal with it.

"The power of chaos, is anyone proficient in the power of chaos?"

Called like the wind.

However, there are very few people among the ten thousand races.

"I have a chaotic golden gong. The sound can only emit chaotic sound waves, disturbing the mind and confusing the soul."

A real celestial three-tiered powerhouse of the tiger tribe reluctantly walked out of the crowd, reluctantly taking out his fairy weapon.

This immortal artifact was not made by himself, but the treasure of the tiger race passed down from the ancestors.

This magic weapon is a true fairy magic weapon, the most advanced and the best kind.

The chaotic golden gong is extremely precious.

If this thing is contributed, it is unknown whether it can be recovered after this battle.

But now, the enemy is currently, but can't think about so much!

"Chaotic golden gong, chaotic sound wave! This thing is not bad! My gods will borrow them temporarily. These ten low-grade immortal stones are considered as our temporary borrowing expenses. After the battle, we will definitely return this golden gong to the original owner! My gods, This credit is still there!"

Like the wind, he knows best to build prestige and buy people's hearts. His goal is not to become a simple peerless powerhouse, but a master of ten thousand races, a peerless hero.

Fang Yue has no grade, because Fang Yue is a bachelor, and he didn't expect much achievements and accomplishments in the future, but he couldn't. He is the hope of the gods in the future! Must establish their own prestige!

As soon as the wind-like sleeves were opened, ten low-grade immortal stones fell into the hands of the tiger race.

The real fairy of the tiger tribe's eyes lit up, and he immediately clasped his fist and said, "Thank you, Lord Rufeng!"

Rufeng nodded, and handed the chaotic golden gong to a true fairyland existence in the clan. This chaotic golden gong is not low in rank, and only the strong in the true fairy high stage can exert its full power. !

"I also know a little bit about the power of Chaos! However, the power of chaos that I use is quite expensive, and you also know that there are not many true qi in my realm status, so if you want to use it continuously, I am afraid you need to contribute some fairy stones. Support!"

Fang Yue rubbed his hands and looked at the strong man of the ten thousand clan.

After seeing Fang Yue, these tens of thousands of powerhouses felt disgusting as if they had eaten fly shit.

They were not surprised that Fang Yue was able to display the Qi of Chaos. Even if this guy could summon the phantom of Tianzun, they would not be surprised.

But his use of Chaos Qi is expensive and unsustainable?

This is a lie.

Fang Yue is obviously that kind of existence with a breath of sea, and his aura is probably longer than most of the real wonderland powerhouses present.

This Fang Yue clearly wanted to take the opportunity to blackmail and get more fairy stones.

But this immortal stone is precious, and everyone doesn't have much inventory on hand, so they all watch their noses, noses, mouths, and hearts, ignoring what Fang Yue said.

If you treat him as air, you will ignore him!

Fang Yue touched the tip of his nose, regressing with interest.

Forget it, forget it, the popularity of this road has been lost, and the fairy stone can't deceive it.

But if you don't give it now, there will be some time for them to bleed!

Fang Yue's eyebrows twitched slightly.

The process of deciphering the fragments of the world by this flesh and blood clone was exceptionally smooth, and it cracked another layer in a short period of time!

"Cotai Strip!"

The powerhouse of the true celestial peak of the Celestial Race suddenly exploded with an unimaginable blow.

He condensed the Golden Avenue into a projectile and suddenly shot out, directly piercing the eyebrows of the monster in God's soil.

The monster's eyebrows burst immediately, blood stained everywhere! The gods and the true immortals of the Guangming clan cooperated with them, and joined forces to beat the monster's corpse into fly ash, completely annihilated, and gave him no room for resurrection!

The monster's corpse was gray, but in his abdomen, a milky white pill that resembled an inner alchemy was retained. This thing is immortal, even if it is the cooperation of the real fairyland powerhouses, it is difficult to shake it.

"This is the Heaven Devouring Pill, and it is the essence of the Heaven Devourer's fall. This Heaven Devouring Pill contains pure immortal Dao origin, profound heavenly will and life origin. Its value is indescribable, and it is difficult to measure with immortal stone! "

### **Chapter 2324: Harmony**

The true fairy who had investigated and dealt with the identity of the sky-eater from the Celestial Clan spoke again.

After hearing these words, the strong men of the ten thousand races showed greed in their eyes.

This Heaven Devouring Pill is a hundred times more precious than the water in the Huaxian Pond. Whether it is the origin of the immortal Dao, the profound heavenly will, or the origin of life, all are priceless treasures. If it is swallowed and refined, it can bring the cultivation of the practitioner to a higher level!

The powerhouses of all races swayed in their hearts, wanting to take this Heaven Devouring Pill as their own.

"Everyone, the Heaven Devourer this time is the result of my Celestial God Clan's killing. This Heaven Devouring Pill should belong to my Celestial God Clan. Only the Angel Clan and the Guangming Clan cooperate. I will thank you. There are probably a lot of Sky Devourers, and all of them contain the Heaven Devouring Pill! Therefore, if you want to take the Heaven Devouring Pill, you can start with the Heaven Devouring in the Huaxianchi!"

Rufeng ordered the person to take away the Heaven Devouring Pill, if this thing is sent back to the clan, it is equivalent to a great achievement, and it will be of great benefit to his future!

"Just now, I remember that someone used a sky ruler to kill a Sky Devourer, but the Sky Devourer never left the Heaven Devourer!"

The majesty of the Celestial Race is very strong, after all, this race has been ranked among the heavens for hundreds of millions of years.

Therefore, if Rufeng wants to occupy the Heaven Devouring Pill, no one of the ten thousand races dare to jump out to compete with it!

Someone thought of the Sky Devourer they had killed before. After the Sky Devourer was smashed, there was no Heaven Devourer.

"What about the one who used the sky ruler? How did he disappear?"

Everyone was surprised. The existence that was still mixed in the crowd at this moment seemed to have evaporated.

Fang Yue squinted at Luo Dao in the crowd with the corner of his gaze. This guy was very openly looking for the user of the ruler in the crowd.

Fang Yue didn't doubt it, but now it is almost certain!

This is the trick of the thief shouting and catching the thief. The first Sky Devourer who just used the Tianzhi to kill was not a stranger, but the lively Luo Daoyi who flickered in the crowd.

The refining of magical instruments and the art of clone are all the methods Luo Daoyi is good at, and Luo Daoyi's background in the crowd to comment on this measuring ruler is the same as him. The personality of the development is quite different.

Combining all kinds of clues, Fang Yue can be almost certain that the person who used the celestial ruler before was not someone else but Luo Daoyi did not know when he created a clone. He evaluated the celestial ruler deliberately to give Dispel the suspicion by yourself.

Luo Daoyi might have known the origin of this sky-eater, and the power of chaos was mixed in the measuring ruler, just so easily killed the sky-eater into ashes!

The origin of Luo Daoyi is quite mysterious.

It doesn't seem to have much sense of existence, but being able to spend so many years in the battlefield of the heavens with his own power, and still being ranked third on the saint list is definitely not an ordinary Tianjiao can do!

Luo Dao made a fortune in a muffled voice. His disguise probably deceived most people.

Fang Yue couldn't help but admire Luo Dao, being able to pretend, this is also a skill!

Ten breaths of time passed in a blink of an eye.

The water in Huaxianchi was boiling again.

However, this time Fang Yue did not once again put the powerhouse of the virtual fairyland into the boiling water of Huaxianchi.

Because the powerhouses of these tens of thousands of races are already eager to try at this moment, gearing up, and preparing all kinds of magical tools that are connected with the power of chaos to deal with the sky-eater to obtain the sky-devouring pill.

Seeking wealth and insurance.

The Sky Eater who knows his weakness is no longer scary!

But Fang Yue stayed far away.

A sentence suddenly appeared in his mind, if you want to make it perish, you must first make it crazy, probably speaking of these guys in front of you!

How can the Sky Eater be so easy to deal with, even if you know that the Sky Eater fears the power of Chaos?

The means of the Sky Eater are there, and one is stronger than the other.

This sky-eater who came to the level of three or five heads of the fairyland, these people estimated that they would be finished.

Fang Yue approached the Tianmohou, this is the real thigh tightly.

At the same time, Luo Daoyi no longer yelled in the crowd. The thief's trick of shouting and catching the thief was enough, and it was too easy to be suspected! Nangongye also realized what was wrong, and walked towards Fang Yue and others. It's better to hold a group than to do it alone! And Nangongye subconsciously felt that following Fang Yue would never suffer!

"This time Huaxianchi is going to be a big one. I have the feeling that there will be more than one sky-eater in this Huaxianchi!"

Fang Yue's face was serious, he had already warned of the existence of the crisis.

Luo Daoyi also took a deep breath and waited.

With a bang, the water in the Huaxian Lake burst, and seventeen figures rushed out of the Huaxian Lake.

Among them, three of the sky-eaters have reached the level of the spiritual fairyland, and four of the remaining fourteen sky-killers have reached the level of the peak of the true fairyland! The remaining ten sky-eaters are also strong, the weakest are in the realm of the fifth level of true immortals, and the strongest have reached the level of the eighth level of true immortals!

In the sky, drops of water in Huaxianchi fell like rain and dew.

Every drop of pool water weighs hundreds of millions of catties, and a drop of water seems to contain a world!

Fang Yue took a deep breath, and he used a secret technique to take the drops of water in the sky into his hands to prevent them from pouring down!

With his big hand covering the sky, he stopped seven drops of Huaxianchi's water with one hand. However, this pool contained a surge of murderous intent and almost smashed Fang Yue's palm through!

You know, Fang Yue's palm is sturdy, comparable to a magic weapon of the real fairyland level. Such a physical body is injured by the water in this fairy pond, and the power of this water is naturally visible!

"This Immortal Pond is really awesome! Even if it's just ordinary pool water, it's a big killer without refining!"

Fang Yue was not afraid, and his other palm stuck out and took nine drops of Huaxianchi water from another angle.

Even though his palm was shattered by the pool water, he still had no regrets at all.

The water in this Huaxianchi is extremely precious, and a drop of water is as valuable as a treasure.

What if the palm is injured? It only takes a little bit of life force to recover quickly.

Fang Yue used both hands together to take 15 drops of Huaxianchi's water in one go.

And Nangongye also shot at the same time, smashed his teeth grinning, but his harvest was not small, he caught ten drops of Huaxianchi's water, his physique was strong, but his recovery ability was not as good as Fang Yue, he did not dare to do his best. Avoid physical injuries and affect the next battle.

Luo Daoyi had the biggest gain, he had prepared the container early.

He held a rusty and mottled bronze jar in his hand, and then muttered a word, he even took away twenty drops of Huaxianchi's water in one breath.

This is because he is deliberately low-key and doesn't want to be noticeable.

Fang Yue suspected that if he let this fat black man let go, he would be able to stop at least thirty or fifty drops of Huaxianchi's water in one go.

The water in the Huaxianchi pool fell from the sky, which was a rare opportunity for Fang Yue and others. But for some people with weaker cultivation bases, it is simply a nightmare existence.

Heads of thousands of races were smashed to pieces by the murderous Huaxian pools, their flesh and blood became fog, and those who died could not die again! There was even a strong man in the real fairyland who was injured again, and his body exploded like broken porcelain, covered with scars.

At the same time, in the shadow of the water of Huaxianchi, several real fairyland-level sky-eaters were killed in the direction of Fang Yue and others.

"Sure enough, this pool of water in Huaxianchi will attract the attention of Sky Eaters!"

Fang Yue had anticipated this situation a long time ago, he suddenly raised his hand, and blasted towards one of the sky-eaters!

A phantom of true dragons rose into the sky, tearing through the world, and between the endless world, there was only one rugged fist shadow!

Fang Yue punched out, the world was shaken, and the mountains and rivers rolled back.

Whenever the wind of his fist hits, the sky is torn apart, and the earth is cracked, and everything does not grow.

The Heaven Devourer on the sixth floor of the True Wonderland was directly beaten to pieces by Fang Yue's fist strength. There was no need for any restraint of chaos. Fang Yue's powerful physical body was enough to destroy everything!

A Sky Devouring Pill flew out from the abdomen.

Two swords suddenly slashed towards Fang Yue.

These are the two true immortals of the Gengjin clan who hung on their sides. Instead of attacking the Heaven Devourer, they secretly attacked Fang Yue and tried to \*\*\*\* this Heaven Devouring Pill.

Fang Yue glanced at the two lurking villains. He raised his hand at will and made two dings to resist this sword energy.

"Insidious villain, secretly attacked, if so, then don't blame me for turning my face and ruthless!"

Fang Yue's palm took the Heaven Devouring Pill in his hand, and at the same time he slammed his fist again, and a fist shadow blasted towards the two true immortals of the Gengjin clan.

The two looked at each other and moved hand in hand, with a thick iron-stone mountain between them and Fang Yue.

With a bang, the iron stone mountain shook slightly.

Fang Yue's fist shadow that even the Sky Eater could smash into pieces was actually resisted by the Geng Jin clan.

"Friends, please don't take action! These two fellow Taoists of the Gengjin Clan should be confused for a while, so they made a big mistake. As the saying goes, you have to be forgiving and forgiving. Since the fellow Taoists are innocent, don't go with this. The two Taoists from the Gengjin clan are arguing!"

At this time, an old man of the eighth-level true immortal of the Iron Eater clan drifted over. He wanted to be a peacemaker and stood in front of Fang Yue.

He has a kind eyebrow, a gentle smile, and a shrewd look at the corner of his eyes.

The Iron Food Clan and the Gengjin Clan are allies for generations, and the two clans are dependent on each other and never leave.

Seeing the true immortal of the Gengjin clan and Fang Yue were at odds with each other, the iron eating clan naturally came out to persuade him to fight.

"Go away, otherwise, I will kill you together! Anyway, my human race is already declining, and maybe I will be removed from the underworld at some point! Why not let me do it wanton once, whoever dares to deceive me, I will let others Head down!"

Fang Yue's shawl exudes, and there is a sense of madness.

He wanted to break the can and fell!

Gods block and kill gods, and Buddhas block and kill Buddhas.

Fang Yue's appearance made the true immortals of the Iron Food Clan and Gengjin Clan look ugly.

This Fang Yue is simply a little madman, wouldn't he even give the iron-eaters the face?

"Friends of Taoism, please listen to my advice, harmony is the most important thing!"

The true immortal of the Iron Clan suppressed the anger in his heart, and once again the other party Yue persuaded him.

**Chapter 2325: Breaking the world**

"The peace of Nima is precious. Why didn't you come out to stop when the two souls of the Gengjin clan attacked me just now? You iron-eaters are typical to come out and pull sideways! If this is the case, then I will connect you People from the Iron Eaters will kill them together!"

In a blink of an eye, Fang Yue was murderous.

He shook his iron fist again, and this time the shadows of nine real dragons were intertwined in his shadow.

The power of Kowloon!

As soon as Fang Yue hit this fist, even the Sky Eaters who wanted to attack Fang Yue turned around and ran.

With such vitality and strength, even if these sky-eaters only had the fighting instinct left in their lives, they were aware of the danger and did not dare to resist it.

The Iron Mountain of the Gengjin clan was directly shattered by Fang Yue's fist, turned into iron blocks, and flew high into the sky!

The true fairy of the Gengjin tribe was vomiting blood, and at the same time, the smile on the face of the old man in the true fairyland of the iron-eater tribe converged, and a blood-stained bronze sword pierced Fang Yue's throat!

"Monster Blood Sword! Fang Yue be careful! This is the most vicious magic weapon in the underworld, killing and contaminating blood!"

When Luo Dao saw this small sword, his expression changed slightly.

This thing may seem inconspicuous, but killings and killings are often only in the blink of an eye.

Fang Yue snorted coldly.

The small sword burst in the air.

"Do you dare to show off your small carving skills?"

Fang Yue didn't keep his hands this time, he stepped out, and the mountains and rivers changed.

A long and turbulent river winds from an endless distance.

Fang Yue drew the two true immortals of the Gengjin tribe and the true immortal of the Iron Eater tribe directly to the bank of the long river of years.

Others felt like a flower in front of them, the true immortals of Fang Yue, Shitie Clan and Gengjin Clan had disappeared on the spot!

"Fang Yue, where is this?"

The true immortals of the Gengjin clan have already been scared, and now their intestines are about to be regretful. They have provoked anyone not good, so they have broken the ground on the head of Fang Yue, the Tai Sui!

The power of this Fang Yue's physical body is absolutely powerful, not like a human race, but more like a demon \*\*\*\* who walked out of the Chaos Age.

His physical combat power may have already exceeded the limit of the real fairyland level.

"Fang Yue, you can kill us! If you kill us, our people will avenge us!"

A true immortal of the Gengjin clan was still threatening Fang Yue at this time.

Fang Yue sneered coldly: "If they really have this ability, then they should go out of this Huaxianchi first! The water in this Huaxianchi is a good thing. I am worried that I will be too late. The pool water I got is not enough! Right now, you have a lot of Huaxianchi water on your body. Killing you will happen to take away the Huaxianchi water from your body!"

As soon as Fang Yue's words came out, the expressions of the true immortals of the Gengjin and Iron Clan changed.

Others stared at the water in Huaxianchi, while Fang Yue regarded them as a treasure house of long legs!

"Fang Yue, do you really think you can kill me and the three of you together? I am also a real fairyland-level powerhouse, fighting together, even if it is a spiritual fairyland-level existence, it may not be me waiting opponent!"

The true immortal in the Iron Eater clan was proud of his face, he still didn't think that Fang Yue could kill the three of them.

A true immortal is a true immortal, detached from the mortal world, and awe-inspiring.

Fang Yue is just the arrogant talent of a human race, and he has got a little chance, so why should he challenge the true immortal!

"Is it?"

Fang Yue's smile showed, one after another of real dragons appeared behind him. Fang Yue didn't release all of them. The 36 real dragons' phantoms vacated, and they almost scared the strong of the Gengjin clan's true wonderland. Up!

With the power of thirty-six true dragons, this Fang Yue is definitely a \*\*\*\* and demon who walked out of the chaos, he can crush them into meat sauce with a single finger.

Although the old man of the Iron Eater still pretends to be calm, his face is not very good!

Where is this freak coming from?

This kind of guy should compete with the powerhouse in the fairyland!

Who is his opponent in True Wonderland!

A normal fairy can have the power of a dragon!

The power of 36 true dragons has exceeded their knowledge of true immortals!

Of course, the true immortals they recognize are ordinary true immortals who follow the rules and practice step by step. Some gods and saints of various races may have this level of combat power even if they are not as good as true immortals!

"I am waiting to surrender to Master Fang Yue, and I will never betray you!"

A true fairy of the Gengjin clan knelt to the ground with a thud, and said with tears.

"no need!"

Fang Yue was not moved. If he accepted the true immortal of the Gengjin clan as a slave, he would be completely opposed to the Gengjin clan.

The true immortals who killed the Gengjin clan can at best be regarded as inferior to the people.

And the true immortal who surrendered them to act as a servant entourage would be tantamount to peeing on the head of the Gengjin clan!

As soon as Fang Yue said this, the true Xiandun of the Gengjin clan felt desperate.

"Since you don't give me a way to survive, don't make it easier for everyone!"

The true immortal of the Gengjin clan showed a decisive look. He was about to explode and burned the jade and stone with a move, but a powerful will of heaven came down, the law in his body was sealed, and the blood was condensed!

"Want to explode? It's not that easy. Do you know why I brought you to the riverside of this long river? Just to use this will and not be discovered by others!"

Fang Yue sneered, the true immortal of the Gengjin clan was completely sealed.

Fang Yue stripped his soul and body and stored them separately.

The soul and body of the true immortal powerhouse are all treasures.

The other two were shocked.

"Tao's Will, you have reached the level of lawful consummation?"

The elders of the Iron-Eater tribe have a lot of knowledge, and there is also a super existence of the Da Luo Jin fairyland level in their clan. He has seen the appearance of the will of this Dao, and he also understands that in addition to understanding Da Luo, The main way of the will of Tao is to practice the power of the law to perfection

"Yes!"

Fang Yue did not deny.

This is the end, none of these people can go out alive!

"If I can die in the hands of someone who has perfected the Great Dao, I have no regrets in my life!"

The old man of the Iron Eater clan seemed to have given up resistance, because he knew that he could not escape Fang Yue's claws anyway.

The will of the Tao is always strong in the past, and the reason for Da Luo's detachment is mostly due to the will of the Tao. The difference between those who understand the will of Tao and those who have not understood the will of Tao is like cloud and mud.

The remaining true immortal of the Gengjin clan still wanted to resist, but he had been imprisoned by Fang Yue before he could wave any waves.

"It's useless, the will of the Tao is another level of power. Unless the power can reach the sky, or the Tao is perfect and perfect, otherwise there is no way to resist the power of the will!"

The old man of the Iron Eater clan laughed miserably. The more you understand the will of the Tao, the more awe in your heart. That is not the power they can fight against. It is mysterious, ancient and eternal.

Fang Yue stripped off the spirits and flesh shells of the three true immortals to prevent Fang Yue from making any moths.

Afterwards, Fang Yue left Time Changhe and reappeared next to Huaxianchi.

"The three true immortals are gone!"

Fang Yue disappeared with the three true immortals when he left, but when he reappeared, he was left alone. This scene shocked countless people.

These three true celestial beings are probably not good enough.

"Return the life of the ancestors of my clan!"

An Xuxian of the Gengjin clan said sadly and angrily, holding a long sword in his hand and stabbing towards Fang Yue, like a flying fairy outside the sky, turning into a beam of bright light, falling from the sky.

Fang Yue raised his hand to suppress it, sealed by his soul and imprisoned his body.

Fang Yue didn't kill him, not because he wanted to spare his life, but if it was used for sacrifice, a living virtual immortal would have a better effect than death.

"They took the blame for themselves and wanted to sneak on me and try to seize the Heaven Devouring Pill, but they didn't expect that they would fall short of their work and be suppressed by me instead. The Gengjin and Iron Clan tribes are in a fight. There is no good thing. Who of you thinks? Those who want to make the first of their two races can do it now! If not, I will also take away the virtual immortals of the two races! They don't have the powerhouses of the true fairyland, and it will be a death sooner or later to stay here. Let me take it away and keep it as a sacrifice and make the best use of it!"

Fang Yue looked at all directions, and the strong from all races dare not speak.

This Fang Yue was fierce, and smashed a sky-eater with a punch, and then easily suppressed the three true immortals. It was difficult for everyone present to figure out how strong he was. He provokes him for the Gengjin Clan and the Iron Eater Clan. Such a terrifying existence is really not worth it!

Afterwards, Fang Yue gave a chuckle, seeming to be a mockery, and then he waved his sleeves and suppressed the rest of the Iron-Eater Clan and the Gengjin Clan, leaving none of the 57 virtual immortals behind!

"This Fang Yue is really cruel and crazy, he seems to be a little different from other human races..."

A spirit fairy from the demon clan displayed a stele-smashing hand, and a stone stele with a height of one hundred feet came from the sky to suppress all directions!

A heaven-eater at the level of a spiritual fairyland was completely retreated. Even though it was not blessed by the power of chaos, the spirit fairy of the demon clan faced the offensive of the sky-eater without the slightest fear.

He even has a leisurely mind, paying attention to the things around him.

Fang Yue's every move fell into his eyes.

Fang Yue's very spicy style is somewhat similar to his demon clan's behavior!

It's a pity that Fang Yue already has a grievance with the Demon Race, otherwise it would be a good choice to recruit Fang Yue to the Devil Race!

"The fourth world fragment is broken!"

When Fang Yue's thoughts moved, this flesh and blood clone cracked the resonance frequency of the world fragments more and more handily.

This is also because of the fragmentation of the world. If it is really a complete world, it will take a lot of effort to crack the resonance frequency in it!

"when!"

A true celestial clan rang the chaotic golden gong, and the sound wave spread like ripples, tearing apart the void, and making the figure of a heaven-eater at the peak of the true celestial freeze freeze!

At the same time, the two true immortals of the ten thousand races, one from the left and the other, attacked and killed, their spears broke through the air, and the chill was pressing!

As the gun shadow approached, the Sky Devourer suddenly came back to his senses, and he was sideways capable of avoiding this mortal blow.

At the same time, the Sky Eater held the handle of a long spear in one hand, and he was suddenly powerful, almost snatching the spear in his hand!

**Chapter 2326: Conditions for leaving**

The two powerhouses of the ten thousand races withdrew from each other, they were extremely decisive, without any hesitation.

"The power of chaos contained in this chaotic golden gong is too weak to affect this sky-eater too much!"

One of the sky-eaters roared frantically.

This is the result of his trial, risking his fall.

The Sky Devourer rushed forward, turned his palm into claws, and crushed his shoulder!

With a flutter, the blood mist filled.

Rufeng summoned the Divine Land and ordered a strong man of the Celestial Clan at the pinnacle level of the true fairyland to stop this sky-eater, and only then did the true immortal of the ten thousand races avoid death.

"Fang Yue, take it! If you don't take it, you and I will fall!"

As the wind's eyes were cracking, he looked at Fang Yue again.

Now, under the spirit fairy, Fang Yue's record is undoubtedly the most prominent.

"I am also powerless. I want to kill the sky-eater, but I have to beware of sneak attacks by the ten thousand races. I am exhausted and mentally exhausted!"

Fang Yue showed a helpless look.

And Rufeng was so bitter with hate that the three idiots of the Gengjin Clan and the Iron Eater Clan were all blamed for their greed and heart. Not only was he suppressed by Fang Yue, but they were also implicated.

With Fang Yue's strength, let alone anything else, it would definitely not be a problem to contain a Heaven Devourer at the peak of the true fairyland.

However, if Fang Yue didn't make a move, they would at least need three powerhouses at the pinnacle of true fairyland to work together to trap a sky-eater at the pinnacle level of true fairy!

Ten thousand races are not single-minded, this is the biggest problem!

Otherwise, they twisted into a rope, each displayed their magical powers, if they had no scruples, even if the number of these sky-eaters doubled, they would jointly suppress them!

"Don't kill me! Don't kill me!"

Just now, Luo Daoyi collected a lot of Huaxianchi's water, and now he has become the target of this sky-eater.

Behind him is a sky-eater from the eighth floor of True Wonderland, stepping on the stars, trying to tear Luo Daoyi alive.

This Luo Daoyi was crying and lively, but he ran extremely fast, like a wisp of blue smoke, although the Sky Eater struggled to pursue it, but he never touched half of Luo Daoyi's hair!

"This Luo Pao is indeed a well-deserved reputation!"

Someone sneered and said to himself.

Luo Daoyi was chased and killed by the Sky Devourer, and no one among the tens of thousands of people actually helped.

Ten Thousand Clan targeting Human Clan has long been a foregone conclusion.

Although the Celestial Race and the Human Race have made good relations for the time being, other races have maintained a pressure on the Human Race.

At the same time, Nangongye also encountered a heaven-eater of the sixth realm of true immortality. Nangongye was good at physical strength and was not restrained by the sky-eater, and it turned out to be a fight for no distinction!

Fang Yue glanced at these two people.

Nangongye didn't say that there was still a heavy treasure gift from the Alliance on his body, and he would definitely not die for a while.

As for Luo Daoyi, his hole cards are hidden deep, and it is only a matter of minutes to kill this sky-eater while others are not paying attention!

Fang Yue didn't worry about these two people. This flesh and blood clone was about to lift the ban on this world fragment. As long as the fifth world fragment was broken, he would be sure to take people out of the scope of this immortal pond!

Taking advantage of the last moment, you might as well get more benefits from this fairy pond!

Fang Yue aimed again at Huaxianchi, the water in Huaxianchi is a good thing for shaping the fairy body!

Since I'm here, I won't fish for nothing.

As for the water in the Huaxianchi after being refined again, it caused the water to change dramatically, and more sky-eaters appeared, what does this have to do with him!

Fang Yue quietly appeared next to Huaxianchi again, pinching the seal of the treasure bottle with his hand, and evolving the phantom of a great treasure bottle, the mouth of the bottle was aimed at Huaxianchi! Dozens of drops of water from Huaxianchi are directly included.

The water in this fairy pond is extremely heavy, and it contains strong murderous intent.

Fang Yue counted, he just sucked away 36 drops of Huaxianchi's water, and the mark of the treasure bottle on the great road gave birth to mottled cracks, which might break at any time!

Fang Yue took away the water in the Huaxianchi, and suddenly the closest Heaven Devourer from the seventh floor of the True Immortal came to him.

They appeared just to kill the creatures and throw their corpses into the Huaxianchi and refine them into pools of water to make up for the deficit. How could he allow someone to steal the water from the Huaxianchi at this time.

"Is this Fang Yuemo crazy? When is it, is he still thinking about the water in this Huaxianchi?"

Rufeng was taken aback, he was wondering what was in Fang Yue's head.

The Sky Eater roared, and part of his fighting instincts during his lifetime unexpectedly recovered a little. He used a secret method to hang upside down ninety-nine-eighty-one waterfalls behind him, and the huge waves slammed towards Fang Yue.

Fang Yue was rushed into the ocean, and disappeared in an instant.

However, at the next moment, Fang Yue rushed out of the ocean, and he squeezed the seal of his hand, turning it into a golden lightsaber.

He swung his sword and slashed, reaching the eyebrows of the Sky Devourer.

The Sky Eater retreated, staggering, but avoided Fang Yue's golden sword shadow!

"This sky-eater is indeed a well-deserved reputation, and his combat instincts during his lifetime have been restored, and his combat power level has gone to a higher level!"

Fang Yue's tone showed admiration.

"It's a pity that I don't have high-quality black blood in my hands. Otherwise, I will be refined into a combat puppet and a strong supporter!"

Fang Yue's voice fell, he shook his fist, and hundreds of millions of heavens and earth's essence were condensed in his fist, and billions of stars emerged from the sky, and the starlight burst out, shattering the body of the sky-eater, turning it into The muddy flesh merges with the earth.

Fang Yue took away another Heaven Devouring Pill, but at this moment no one dared to fight for it!

Others have worked so hard to entangle the Sky Eater, and they can kill Fang Yue with three moves and two methods!

Fang Yue is so fierce at the moment that all the powerful people of all races are afraid of three points and dare not easily offend him.

"Come on!"

Fang Yue used great mana to repair the cracks in the mark of the treasure bottle on the avenue, and then ingested 36 drops of water in the fairy pond.

This opportunity to draw water from Huaxianchi is rare. If he misses it, Fang Yue doesn't know that next time he wants to get the water from Huaxianchi, it will be in the Year of the Monkey!

This time, Fang Yue used the will of Tao to bless the seal on the treasure bottle of the avenue, and the amount of pool water drawn in this treasure bottle was more than last time.

A full seven to seventy-nine drops of water in the Huaxian Pond was taken out by Fang Yue.

Fang Yue took the pool water away, then turned his head and left!

Fang Yue already felt that his repeated provocations had angered Huaxianchi.

There is about to be a powerful existence leaping out of it, wanting to shoot him!

"Get ready, flash people!"

Fang Yue ran to Nangongye's side, and fought Nangongye for a long time to get the Sky Eater down. Nangongye took advantage of the situation and pressed down with an overlying seal, killing the opponent and taking away the Heaven Devouring Pill from the Sky Devourer.

On Luo Daoyi's side, it was Pi Dian Pi Dian running over, his face was full of smiles, and there was still the embarrassed appearance when he was chased by the Sky Eater just now.

As for the sky-eater had been slipped away by Luo Daoyi, needless to say, that guy must have been sneaked to death by Luo Daoyi, and even a little movement was not heard!

With a bang, Huaxianchi burst again.

A sky-eater in bronze armor burst out of the sky!

He is armed with a silver spear and his eyes are murderous. This sky-eater has the cultivation base of the fifth level of the spiritual fairyland. The key is to look at his eyes. This buddy has intelligence, unlike the previous sky-eaters who only kill and fight. Instinct!

"The person who steals and robs the water of Huaxianchi Pool, kill!"

The sky-eater's voice is low, and the killing intent is shaking the sky!

"Devil, save me!"

Fang Yue slipped a cigarette and hid directly behind Tian Mohou!

At the same time, he said to Rufeng with eyebrows: "Rufeng, for the sake of the friendly alliance between the human race and the gods, give you a chance, fifty low-grade immortal stones, and leave this ghost place with me!"

As soon as Fang Yue said this, his windy expression immediately solidified.

He said in an incredible tone: "Fang Yue, you have mastered the way to get in and out of this immortal pond?"

"If you believe it, give it to Xianshi. If you don't believe it, I will give you three breathing time to consider!"

Fang Yue said to Rufeng in a hurry.

This fifth-layer world fragment has been induced by the flesh and blood clone to resonate the frequency. He has already started to build the Yin-Yang teleportation array. As long as this teleportation array is 10%, he can instantly flash people!

If it weren't for Fang Yue's belief that Rufeng should have a backhand from the Celestial God Race and should not die, he would never pull him out.

As long as Fang Yue rescued the gods, no matter how much he charges, it would be a great favor.

"There are a total of fifty-four people in this immortal pond of my God Clan this time, each with fifty low-grade immortal stones, a total of 2,700 low-grade immortal stones! This is an immortal stone, I will believe in Master Fang Yue once!"

There is no time for Rufeng to hesitate, this time the life and death of the people of the Celestial Race is in his hands.

At the same time, the wind secretly rejoiced. Fortunately, there are not many celestial celestial celestial beings that he brought this time. There are only a few. Otherwise, he might not have paid the price of fifty low-grade celestial stones per person!

A large number of low-grade immortal stones were obtained, and this time was the biggest gain for Fang Yue immortal stones.

Fang Yue took a deep look at this like the wind, the local tyrant is the local tyrant, and he is generous and unique in his actions.

"Fang Yue, I am willing to pay the price and leave this ghost place!"

A spirit fairy in the demon clan said slowly, his voice low and depressed.

The eyes of this demon clan seemed to reflect the heavens and myriad worlds, and he alone defeated a sky-eater of the fairyland level, and he was unable to fight back.

"The Demon Clan is not an ally of my human race, but it is not necessary to want to leave this immortal pond. There are one hundred low-grade immortal stones per person, and the other people are also at this price. If you are willing to go, leave together, if you don't want to, stay here. ! And if you give me the immortal stone, you have to swear by your spirits that you will never be an enemy of me for the rest of your life. I don't want to. The one who will kill in the future is the one I save today!"

Fang Yue smiled and offered the conditions.

The powerhouses of the ten thousand races did not hesitate too much, even the gods of the heavens had already chosen to trust Fang Yue, this Fang Yue should really have a way to send them out of the ban in this Huaxianchi.

As for these hundred low-grade fairy stones, it is not an unbearable price for the former of some senior true wonderland!

### **Chapter 2327: Return to the underworld**

"it is good!"

The spirit immortal of the Demon Race first responded, and he slightly raised his hand and a hundred low-grade immortal stones fell into Fang Yue's hands.

At the same time, the spirit fairy of the demon race put up \*\*\*\* and swears: "If Fang Yue can take me away from this place, my Armoni will not be an enemy for life!"

Armoni's voice fell.

The other powerful people of the ten thousand races also vowed to take out the spirit stones and hand them to Fang Yue.

"Fang Yue, hurry up! If you want to leave, hurry up, I can't stand it anymore!"

Tian Mohou cursed, he blocked Fang Yue from the front, but Fang Yue collected money from the back.

However, although he scolded fiercely, he was always hitting the sky-eater.

At any rate, his deity had already reached the level of Daluojin Fairyland with half of his foot, and the sky-eaters in the mere fairyland could not trouble him.

"In addition to the Chotian God Clan, there are forty-seven ten thousand clan powerhouses who are going to leave the barrier of Huaxianchi with me. Are the others not going to go with me?"

Fang Yue glanced around.

The remaining people stared with big eyes.

Basically all the rich masters are gone, and the rest are relatively poor true immortals, not even a hundred true immortals can be collected, or simply servants of the virtual fairyland, they are not worth ten inferior goods. Fairy stone.

This is the reality at the critical moment.

The gap between the rich and the poor is clear!

"Tian Mohou, move closer to me, and those who leave with me will come to me!"

Fang Yue roared, and the universe was shaking.

Dao's will is contained in it, and the sky-eater who fought against the demon prince shook his body in Fang Yue's roar and fell into a short-lived state of stiffness.

Fang Yue has repeatedly used the will of Dao, and the previous twenty will of Dao has only 12 points left. His roar just now consumed three parts of the will of Dao.

However, the effect of the will of this Dao was obvious, and the sky-eaters in the spirit fairyland were all shocked.

Tianmahou took the opportunity to display the ancient magic arts, the sun and the moon changed and the sky was turbulent, a pitch-black claw was pulled into the abdomen of the sky-eater, and he forcibly took out the sky-devouring pill from the sky-eater .

This is a heaven-devouring pill of the spiritual fairyland level, its value is inestimable.

"go!"

The Heavenly Demon Hou took advantage and ran towards Fang Yue's direction quickly.

He killed a sky-eater at the level of the fairyland and caused the water riot in the Huaxianchi. This Huaxianchi obviously already made people unable to stay.

If you don't leave, maybe the existence of this great Luoqing layer will jump out!

A faint smile appeared on Fang Yue's face: "Everyone, you will definitely not regret it!"

Fang Yue's voice fell to the ground, and in an instant, the stars shifted and the earth turned upside down.

The yin and yang teleportation array directly tore through the fragments of the world that had not been refined by the clone of flesh and blood, and directly teleported them out of the mountain and river forbidden land.

Fang Yue just set up a sun formation outside the forbidden area of mountains and rivers, and there is no space coordinates within the forbidden area of mountains and rivers.

Although they were sent out of the forbidden land of mountains and rivers, everyone was amnesty.

The previous experience in the Immortal Pond was like a nightmare to them. In front of the Sky Eater, their proud secrets and forbidden techniques all failed, and they could only rely on the most primitive physical power to fight.

On weekdays, the real wonderland powerhouses aloft, fell like pigs and dogs in front of the sky-eater.

This is an unforgettable nightmare, which casts a heavy shadow on the hearts of the powerful.

"Thank you, Master Fang Yue, for his salvation this time. My God Clan will definitely be unforgettable!"

Rufeng did not choose to turn his face after leaving the forbidden area of mountains and rivers.

Although the loss of the Celestial Clan was not small this time, it was a kind of luck to survive!

As the sound of the wind fell, the strong men of the other ten thousand races were much more indifferent.

Only the spirit fairy Amoni from the devil clan thanked Fang Yue and said something polite.

"There are many dangers in this forbidden area of mountains and rivers, and I am not going to wait to enter again for some time in the future!"

Rufeng said, his voice was a little sad.

I thought that this time I entered the forbidden area of mountains and rivers to seek some opportunities to serve the gods, but I didn't expect it to end in this way.

The Celestial Clan finally gained a lot later, but relatively speaking, the loss was also huge. The immortal stone handed to Fang Yue was only a part of their loss, and more was the loss of the Celestial Clan's personnel in the forbidden area of mountains and rivers.

After a few sentences, everyone went back to each house and looked for each mother!

Fang Yue watched the powerhouses of all races leave, and quickly scattered, leaving only Fang Yue, Luo Daoyi, Nangongye and Tianmohou.

"The water of the Huaxianchi has been obtained, and your entry into the forbidden land of mountains and rivers this time is considered to be complete!"

Tianmahou breathed a sigh of relief. This time the battle was fierce, but he had not touched the core of the forbidden land! This time, he was quite rewarding, at least that spiritual fairyland level Devouring Heaven Pill was a rare harvest.

"After a while, I will lead Qiansi and Yuanfeng from the forbidden area of mountains and rivers. This trip can be regarded as the real accomplishment of merit!" Fang Yue wanted treasures and treasures this time, and masters and masters!

If he wants to occupy one side and dominate the king, he can already command Lishantou!

"The third ring, the task is complete! Find the Huaxianchi and submit ten drops of Huaxianchi's pool water! Task completion: Pass. Obtain the basic reward of Fumo Sword!"

"The Fumo Sword is a specialty of the ancient road and has extra lethal power against the dark and evil races!"

The handwriting appeared on the trial token.

Fang Yue's third ring mission was successfully completed. He did not turn in all the water in Huaxianchi he had obtained, because Fang Yue vaguely felt that the water in Huaxianchi might have other uses.

The value of this pool of water is immeasurable, and Fang Yue might regret it if it is consumed for the extra rewards of the ancient road.

Luo Daoyi made the same choice. He also completed the third ring task with the lowest requirements.

Subsequently, the fourth ring task was triggered.

However, Fang Yue's and Luo Daoyi's tasks for the fourth ring were different.

Fang Yue's mission in the fourth ring is to kill three powerhouses above the true fairyland in the void creature camp. The evaluation of the task completion is based on the number of powerhouses killed in the true fairyland and their respective strengths.

Luo Daoyi's task was to obtain an official position above Jinshanwei from the camp of the void creatures in the city of a thousand towers that he had sneaked into.

Luo Dao bared his teeth: "What kind of \*\*\*\* task is this? Fang Yue, this task is easy to complete. You can walk around the blood wasteland and shoot a few disobedient guys to death to complete the task easily! And my task, It's just dead! In this city of a thousand towers, everyone of the void clan creatures shouted and beat them, they were originally dormant extremely deep! Want to find their base camp is extremely difficult, and now they have to connect with them and mix in Among them, if it is exposed, it will be the end of a thousand cuts, three cuts and six holes!"

Luo Dao frowned, this Gu Lu would not have any opinion on him, right?

Otherwise, how could such an arduous task fall to his head? This is not to complete the task at all, but Gu Lu wants to eliminate aliens!

"This task is actually suitable for you! Your cultivation level is not high, so it is easy to disguise! Even if it is discovered, as long as it is a saint-level void creature, it is easy to leave in the crowd! After all, this Void creatures at the sage level are simply too common. There are thousands of them, and it is difficult to investigate!"

Fang Yue casually comforted Luo Dao.

Fang Yue knew that this guy was just hypocritical.

This kind of undercover task may not be easy for others, but for Luo Daoyi, it is simply a piece of cake. This guy is the most careful and wretched on weekdays! If you want to pretend to be someone, it is really not easy to be recognized!

And his mission is the real hidden danger.

After his battle in Huaxianchi, he is definitely already famous in this world!

If he appeared in this \*\*\*\* wasteland and exposed Fang Yue's identity, the ten thousand clan would definitely send a master to besiege, and this demon clan would not be soft.

They will never allow such a variable to grow smoothly.

A guy like Fang Yue is equivalent to an unknown variable in the future!

"I am going to go back to the underworld for a few days! In the next few days, whether it is the city of a thousand towers or the camp of the Void Clan, I will definitely send a large group of people to search for me! Although they have different purposes, they absolutely It's all uneasy and kind! I can't stay in this area. I will go back to the underworld to avoid the wind, and wait until this matter comes back!"

There is no time limit for this Gulu mission.

According to Fang Yue's inference, there must be a deadline for the completion of this task.

However, this period is extremely long, and it may be the span of the entire fourth Thousand Towers War, so it was not clearly marked in the mission!

"I'll go back with you too! Grandma Di, this ancient mission is too insidious! I want to go back to the underworld to digest this harvest, and then prepare some means just in case!"

Luo Daoyi also seemed to have lingering fears.

When Fang Yue goes back, he will also go back.

"You can still return to the underworld at any time?"

Although Nangongye didn't have any ancient missions, he was the arrogant man in the League of People, and the League of People gave high hopes to him!

So you must stay in the city of a thousand towers to complete the follow-up tasks assigned by the task.

"Underworld? Is this a piece of heaven and earth outside the city of a thousand towers?"

Tian Mohou's eyes flickered, obviously he was very interested in the world beyond the city of a thousand towers.

Fang Yue returned to the forbidden area of mountains and rivers and led Yuanfeng and Fallen Qiansi out. On the road, Shangyue also met Master Xuanzhen, and he wanted to leave the forbidden areas of mountains and rivers to spread the Buddhist mantle.

Fang Yue's return team had three more masters.

Fang Yue led the team back to the underworld, and now the underworld is already in flames.

Fang Yue has been away for less than half a month, but earth-shaking changes have taken place in this underworld!

The immortal dynasty came across the border and sent nine true immortals to break through the three cities of the Hundred Killers, slaughtering the population, which is as many as hundreds of millions. Almost all the powerful Hundred Killers in this world have been wiped Go and leave one.

The Hundred Killers are a small clan in the underworld, but even though the ethnic group is not large, there are many masters among them. Among the three cities, the true fairyland powerhouses of the Hundred Killers are among the seven. Many, the number of virtual immortals is over a hundred! However, in front of the iron knights of the Immortal Dynasty, they were like chickens and dogs, and they were easily destroyed. The nine true immortals joined forces to attack, and the eight thousand virtual iron knights responded to them, and in the process of destroying the hundred killers The imperial dynasty almost did not have any casualties, that is, the Hundred Killers were completely removed!
