

God of Life 251

Chapter 251: A business

Fang Yue smiled: "Fang Yue! Richard is just my identity."

This is a strange world, and Fang Yue doesn't need to hide his head and show his tail at all. Zohaha laughed, "Since everyone is so refreshing, then I'm not welcome! This is the bloodline potion I promised to you. If you can come, then it proves that there is enough sincerity! Primary bloodline potion, one per person, After taking it, there are no side effects! It can make your

The bloodline initially awakened. Even if the measurement is not enough, or the blood is too strong to activate, this medicine can increase the corresponding blood concentration and promote the process of awakening!

Ten branches per person, right should be my little care! "

Zuo was very generous, and handed Fang Yue and Gu Linglong each of ten test tubes with the thickness of the baby's thumb. The test tubes also contained purple medicine. Among them were silvery white stars, which were mottled and unpredictable!

Fang Yue's eyes flickered. Putting away these ten potions, he didn't expect this Zuo to be so generous.

In the world of Xuanhuang, all medicines that are in contact with blood are sky-high!

It is conservatively estimated that such a primary bloodline medicine can be auctioned at a high price of tens of millions or even hundreds of millions of Lingshi! And Zuo Yi made ten shots. Such a demeanor made Fang Yue feel that he was generous and a little abnormal.

But on the other hand, Gu Linglong didn't seem to be aware of anything, and simply converged the ten potions! Zuo saw the suspicious look in Fang Yue's eyes and couldn't help but smile: "Don't be surprised, why I gave you so many primary bloodline potions, in fact, this thing is not as valuable as you think. What I got is a complete ruin with dozens of potions

For the production line, as long as the materials are sufficient, I can continuously manufacture this medicine. But this black blood battle, I must win! And still have to win beautiful! Once I lose, or show a trace of fatigue, the other members of the black blood gang will rush to me like a shark smelling blood, and divide all my wealth with nothing left! Even

I can hardly survive myself! "

Zuo's face showed a trace of fatigue.

Under the infinite scenery, every step he also took was not easy.

This battle must not be lost!

Because it is about life and death, and about Zuo Mirai's position in the Black Blood Gang! "The specific rules, let me introduce you first! The black blood battle, there are three rounds. They are ring battle, island battle, and sky battle! Fang Yue, the next two games are too thrilling, you don't need to

participate! In the ring battle, you can get a certain amount of points! In the ring battle, you will face all kinds of brutal beasts that are higher than yours. One round of nine games! In the first round, the realm of brutal beasts will be one level higher than that of only one. You face one brutal beast in the first round, two in the second, and so on, until there are nine in the ninth round! Then there are the second rounds, and there are still nine rounds, the state of brutal beasts.

The world is two levels higher than you, starting with one and increasing by one every round! And so on. There is no rest time between each round, and as long as a round starts, unless the battle is killed, it is impossible to stop halfway! This kind of wheel warfare is a huge drain on physical strength and spirit. So maybe you obviously have the strength to fight against a strong five levels higher than you, but in the third round you will

Already exhausted, unable to fight anymore!

The rule of this arena is the principle of points.

In the first round, kill a savage beast and get one point.

In the second round, kill a wild beast and get two points.

In the third round, kill a wild beast and get four points!

In short, for every round higher, the number of points for killing a savage beast will double! Zuo paused for a while, then looked at Fang Yue and Gu Linglong's expressions. He cleared his throat and continued: "My requirements for both of you are very simple, Fang Yue, as long as you can just get through the fourth round! Gu Linglong, your realm is too high, if you don't have enough energy

Support, complete the third round! I am ready to challenge to complete four rounds! Every time you earn a point, you can redeem something from me. For example, the primary bloodline potion just now is worth only five points! And I also have its advanced version here, the Intermediate Blood Vessel Potion, a bottle of which only requires 50 points, but the effect is ten times that of the Elementary Potion.

Times! "

The temptation given by Zuo is amazing.

Both Fang Yue and Gu Linglong couldn't help but their hearts beat.

This thing is hard to find, and the price given by Zuo is already quite low!

Fang Yue said straightforwardly: "No problem!" "As for the rules of the second game, the island battle refers to the many tokens on the island! These tokens have different points, high and low! This is a melee. , Beheading other competitors, you can get half of their points, or after you get a token, you may attract

Come chase and intercept between different forces. This second island battle is extremely dangerous, so I don't recommend Fang Yue to see it! With the cooperation of Gu Linglong and I, maybe we can get a lot of points.

As for the third game, the Battle of the Sky, it was entered into a tower of the Sky. There is no danger in passing through different levels. The test it represents has nothing to do with the realm. Fang Yue can try it. Every time he passes a level, he can get corresponding points. The number is quite expensive! "

Zuo confided his plan and account.

Fang Yue nodded, feeling that Zuo's consideration has been quite thorough.

"I have no problem with this plan!"

"I don't think there is a problem too!"

Gu Linglong quickly stated.

After the discussion, the three of them went to a black blood gang trial field eight hundred miles away.

This trial field is huge, and the architectural style is a bit like the ancient Roman Colosseum on earth.

The mottled blood has never dried up on each ring.

In this Colosseum, a **** blood gang sits in the audience, and two younger generations stand beside each big boss, watching the black blood battle together.

In every black blood battle, there is no one in the world.

Obviously, this is a rare opportunity to observe. Must not be missed easily.

And below the auditorium. Three hundred people each gathered into their own small group. These are the people who participated in the Black Blood War. Talk to each other, but there are also unspeakable guards between each other!

After Fang Yue arrived here, he understood why Pan Sen was so afraid that day.

This black blood gang master is like a cloud, and the thirteen elders in the audience are all in the realm of the leader! Even the whole generation of disciples standing by their side are powerful or famous.

And referring to the core members of the Black Blood War, although they don't have great abilities and reputations, the powerhouses in the rotation realm are already common!

This is only part of the Black Blood Gang. Take a glimpse and see the whole leopard. The strength of the entire Black Blood Gang can also be imagined from this!

"Everyone, come on stage and prepare for the battle!"

A middle-aged man walked out slowly. This was a mighty man with a Chinese character face, a tiger's mouth and a lion nose, and a breath of blood and courage exuded all over his body.

When he spoke, everyone was shocked.

Scattered conversations and arguments disappeared immediately.

The black blood battle, the ring match, a total of three games, each team will send one person to the field!

Fang Yue was ranked in the first game.

After all, he is the weakest of the three.

Fang Yue stepped onto the ring, without saying a word, he was closing his eyes and restoring his mind, accumulating strength.

Others have also stepped onto the ring. One by one, the dragons and tigers are fierce, shocking all directions!

On the contestant stand, a middle-aged man with a knife scar traversed from the corner of his left eye and approached the corner of his mouth and approached Zuo.

"Zuo, are you really poor! You are so bad, you don't even have a person to help you! You can't find even a master of the heaven and earth realm, so you can actually make a kid at the fourth level of the innate realm fill the number!"

The scarred man teased, looking at Zuo with cold eyes.

"Kenan, don't talk nonsense! You can see the truth! Don't think I don't know. The people I found before were killed by you or threatened to submit. What the Black Blood Gang wants is a real genius, your point little tricks that can't be used on the countertop will not become grand after all!"

Zuo's voice was indifferent, and an extreme hatred was brewing in it.

"Hey, the real genius? I think it's a rotten corpse! Back then, you killed my brother. I always keep this account in my heart. This time, I want you to fall from the altar and be caught Excluded from the core disciples, become the cannon fodder of the Black Blood Gang!"

Kenan also hated Zuo.

If it wasn't for his inferior strength, I'm afraid he would have been torn to pieces by the opponent. The hatred between the two is not shared.

Zuo was cold and speechless.

His gaze fell on Fang Yue's body.

A touch of worry that is not easy to detect, gradually emerged.

At the beginning of the first round of the arena, Fang Yue faced a five-tiered flying tiger. This is a relatively ordinary beast, fast, powerful, and in other respects, it has no characteristics at all!

Flying Tiger shot.

The wings spread out and culled towards Fang Yue.

Fang Yue's palm slowly raised, and he slapped the flying tiger to death. Flying Tiger's body was torn apart and blood splashed on the spot!

Crude and simple.

Fang Yue put away the corpse of the Flying Tiger. The skin of the tiger was good, bright in color, without variegation, and could be sold at a good price.

In the other arenas, the first round of the first round has also ended, and almost no fierce beast is an enemy of the players!

Those who can be screened out to see the ring are all Tianjiao.

Leapfrogging is as simple as eating and drinking.

Kenan saw Fang Yue's actions, and the ridicule in the corners of his mouth couldn't help but become strong: "So you found a poor ghost from the poor kiln, even the body of the fifth-story flying tiger!"

Zuo was silent.

There was almost no suspense in the first round.

But winning is not the same as winning. He hoped that Fang Yue could preserve his body and walk as far as possible to the next few rounds!

Time passed and passed quickly.

There are only seven or eight breaths.

The first round is over!

Sure enough, as expected.

Everyone stood firmly on the ring, no one was injured or even a little bit tired.

But this is just an appetizer, and the fierce competition is yet to come.

In the second round, Fang Yue's opponent was the Dark Ape. This creature is proficient in the art of darkness! They have understood the essence of darkness since they were born. Although he has never stepped into the threshold of the dark way, he can still cast all kinds of dark magic!

Facing the dark ape, Fang Yue still swept away.

Regardless of the number, it is not a concern for him. The corpse of the dark ape was still picked up by Fang Yue.

Chapter 252: Leapfrog Call

At the end of the second round, no one was injured and no one quit.

But some people are already slightly panting. Obviously the consumption is not small.

At the beginning of the third round, the black crow that Fang Yue faced had already reached the seventh level of the innate realm.

After the first two rounds, Fang Yue was a little tired of playing. He felt that this kind of unchallenging killing meant nothing to him! He simply closed his eyes and rested his mind, and summoned a zombie from the first level of the world to take action for him!

When the zombies on the first level of Fang Yue's Heaven and Earth Realm appeared, everyone's expressions were sudden!

"Leap-level summoning, how is this possible! He only has the fourth level of the Innate Realm, how can he summon the first level of the heaven and earth realm!"

Some players expressed dissatisfaction.

This is obviously contrary to common sense.

And with the zombie guardian at the first level of the heaven and earth realm, how to fight this battle?

A zombie is enough to wipe out a round of beasts! Everyone saw that the reinforcements that Zuo invited was a bit different, but unexpectedly, it was so different from what they thought!

"There is no problem with this zombie. It is indeed the young man summoned! As for why he can leapfrog and summon undead creatures, this is not in the category you need to track down!"

An old voice fell.

The owner of the voice is a big man in the audience. As the leader, his vision is much wider than others. He has seen many leapfrog calls like Fang Yue.

Speaking of the leader-level existence, the other players have no objections. Although they are the core of the black blood gang, they are definitely not comparable to those real high-levels.

Although some people are unwilling, but the big guy speaks, it is a final word.

They can only watch Fang Yue's zombies slaughter all around. What fierce beast is not fierce, even the hand is not as cruel as this zombie!

In the third round, casualties have already begun.

All five reinforcements were defeated. They were besieged and killed by the beasts on the opposite side, and in the end they did not even leave the complete body.

The remaining ninety-five people supported until the end of the third round, and the gap in strength began to become clear.

Fang Yue's little zombie is unique, proud among the heroes.

The rest of the people, even though they supported three rounds, were so tired from the uninterrupted wheel battle that their legs became weak.

Fifty-two of them all retreated.

Because their task has been completed, even if they barely persisted, they won't get too many points, but the degree of danger is soaring, and they may take their own lives into it!

Of course, there are also popular people who are at ease. Even if he fought hard for three rounds, he was unscathed.

But among them, Fang Yue is the most conspicuous. He is a **** and meditating with his eyes closed, without any consideration at all.

His zombie guards were still cleaning up the dead beasts on the ground for him, slamming into Fang Yue's storage bag one by one.

This is absolutely all-round, 360 degrees of care without dead ends.

Many people seem to feel jealous!

"The third round!" Zuo's expression gradually became relaxed. It seems that Fang Yue should have passed the fourth round without a problem!

The fourth round of fighting became more and more tragic. Not everyone can leapfrog and fight across four small realms, especially when it comes to the heaven and earth realm, the span between each small realm is even greater!

Compared with the Xuanhuang World, the Wild Blood Plain can only be said to be a projectile land. Although the masters are denser, it is obviously impossible to appear in this black blood battle.

In the fourth round, some people gradually lost their lives. Their fighting was fierce. Even if they exhausted everything, they would kill more beasts. Among these people, some are dead men at all, come with the determination to die, and use their lives to win more points.

Even before their expedition, they had taken forbidden drugs, burning their lifespan and potential, in exchange for the last brilliance and glory!

Only Fang Yue's ring is still calm.

Even if the strength of the fierce beast has increased to the eighth level of the Xiantian realm, it is still not a zombie opponent.

There is a huge gap between the heaven and earth realm and the innate realm. A simple number can't form a battle formation, and it is difficult to fill this gap! Even in the strongest ninth wave, the nine beasts joined forces, and even a single hair of the zombie was not injured.

Until the end of the fourth round, Fang Yue had no intention of getting up to fight.

A little zombie is enough to help him settle everything!

The fourth round is over.

There are only nine people standing on the ring!

Undoubtedly, these nine people are outstanding people and talents, and it is not easy to survive such a fierce battle!

Five of them withdrew.

They admitted that they couldn't make it through the fifth round.

Although the points in the fifth round are more attractive, they need to be exchanged for life and blood!

Then, the fifth round began.

On Fang Yue's ring, the little zombie was still fighting alone. It is still unstoppable, wild and violent!

One person equalized the nine waves of attacks in the fifth round.

As an undead creature, the breath of the beast when it dies is its best nourishment! It is exhausted, even more and more courageous! The murdered beasts have no power to fight back. One by one, wailing and wailing, sacrificed heroically in mourning!

The fifth round is over.

There are only two people in the ring.

Except for Fang Yue, the other person ended his journey decisively. Although he was not exhausted, he did not think he could get through the next round.

And Fang Yue was still closing his eyes, meditating, without any intention of getting up!

He sits alone on the ring, not sturdy, but looks extremely tall.

He is like a mountain, difficult to climb! "Zuo, is the kid you invited a dead man? Why can't he still quit. Doesn't he know that in the next round, the realm of every fierce beast will be the first level of heaven and earth? He relies on that little one Zombies can't be resisted at all! He will be torn off alive and become food in the mouth of a beast."

Kenan made suggestions to Zuo, and his sour taste was very strong.

Zuofeng Qingyundan: "Don't worry, the person I invite is mundane. But you should worry about yourself! The person you invite will only support the three rounds and step down! Although this result is also for you Not bad, but if you want to hit the nouns in front, it is still too far!"

"You!" Kenan was angry.

"Don't think it's great to invite a summoner! I'll see how he was eaten by the beast!"

Kenan said in a gloomy voice.

In a blink of an eye, the sixth round has begun!

This time, Fang Yue still sat cross-legged, but the little zombie obviously felt a little strenuous when fighting a wave of beasts.

As an undead creature, it has few vital points all over its body, and it is not afraid of death. This is the equivalent of a fierce beast of the same level! But if you want to defeat it, it's still a little far away.

Different voices have been heard from the players' bench.

"This kid has pretended it! Leapfrog Summoning is indeed very strong, but after all, there is a limit. It is good to be able to survive four rounds by opportunistic means. I want to see how he survives the sixth round!"

"Yes! This time, even if his zombies can barely survive one wave, the next eight waves will definitely be torn apart."

Almost all the voices are not optimistic about Fang Yue. They think that Fang Yue's ability to go to the present is the limit. His best choice is to accept it at the end of the fifth round. Now, even if it is regret, it is already Too late!

The little zombie gritted his teeth and fought with the beast for a long time, and finally showed a trace of fatigue.

It is about to lose.

But at this time Fang Yue opened his eyes.

He raised his hand slightly, and there was a layer of death on the ground!

Ten zombies were summoned out of thin air. Every end is the second level of the world realm!

There are lessons from the previous experience. After the summoning, Fang Yue quickly crushed a restorative pill that was taken under his tongue, turned it into pure medicinal properties, and swept the entire meridian.

Originally, all the infuriating qi that had been exhausted had recovered.

When the zombies on the second floor of the Ten-headed Heaven and Earth Realm all appeared in the eyes of everyone. Everyone was stunned!

This special code can't be played!

The realm of this zombie is higher than that of beasts, and it has an absolute advantage in terms of number!

In the sixth round, Fang Yue couldn't help at all. Ten heads of the zombies from the second layer of the Heaven and Earth Realm joined forces to suppress the fierce beasts in the sixth round. The zombies on the layer are paddling beside.

In the sixth round, Fang Yue lived steadily, with rows of fierce beasts lying down, not even a single gasping.

It's not that they are too weak, but that the zombies summoned by Fang Yue are too strong.

No matter the number or the realm, they are beyond them.

Seventh round.

Fang Yue still won, this is a crushing gesture. No beast can survive.

Fang Yue didn't make a move. The ten zombies on the second level of the heaven and earth realm cooperated quite tacitly, and there was also a zombie on the first level of the heaven and earth realm, which would sneak attacks from time to time. Eventually the beasts were wiped out again!

After the seventh round, Fang Yue chose to give up.

It's not that he feels unable to pass the eighth round, but feels that there is no need to expose his true strength and hole cards in the arena!

Fang Yue stepped down, and behind him, eleven zombies stood in a row, like loyal bodyguards escorting him.

Under the attention of everyone, Fang Yue wiped the dust off his body and walked to the side of Zuo.

Fang Yue was really famous this time in the arena battle and seven rounds of trial clearance!

Five thousand one hundred and fifteen points.

This number is quite shocking in the eyes of others!

The usual black blood battles and ring battles, the gap between everyone is actually not big!

The strongest, generally the fifth round of clearance will be the head.

Weaknesses, generally there is nothing wrong with mixing all over the third round!

But who knew that Fang Yue would run away from such a pervert. The points he scored in the ring battle alone have surpassed the last points of the average team!

The battle has not started, it is over.

This sentence is more appropriate to describe this black blood battle!

But the waves only lasted for a while.

Although Fang Yue's sudden emergence is surprising, other people are not without a chance to comeback.

Island battles and sky-reaching battles are all their opportunities!

The next two rounds of arena battles proceeded normally.

Zuohe Gu Linglong's performance is also normal.

After Gu Linglong passed the three rounds of the arena, she gave up. When she left the ring, she was still comfortable. Obviously, she is not exhausted, but is retaining her strength and means to enter the next round!

Zuo also announced his waiver after four rounds of clearance.

When he stepped off the ring, he was also calm and relaxed!

There are too many points in the ring battle, and the island battle will attract hatred. Zoggen wants to be a hunter, not a prey in the eyes of others. "Huh! Don't think that you can get to the seventh round of the arena with that kind of opportunistic way! He is just the fat sheep in our eyes! The second island battle. He will be hunted by us! No one will let him go! "

Chapter 253: Rule change

Kenan spoke again, his eyes looking at Fang Yue were full of greed.

In addition to him, there are many others who are looking at Fang Yue unscrupulously. Fang Yue is a fat sheep in their eyes. If anyone can steal half of his points in an island battle, it means that they It will be a sure thing for the team to enter the top ten.

Zuo walked to the front of Fang Yue and blocked his gaze for him.

"The rules of the black blood war, any member of the squad, can give up the fight! I announce for Fang Yue that he has given up the second island battle!"

Zuo's expression was cold, and he looked at Kenan with a pity.

He had known the performance of these people a long time ago.

But they are calculating, is it true?

But Zuo's voice has not yet landed.

The corner of Kenan's mouth raised a sardonic smile: "Do you think this trick of yours can be successful? Use the rules to avoid risks, but do you understand that risks are not something you want to avoid?"

Kenan's expression caused an ominous premonition in Zuo's heart.

Zuo sank his face and secretly said something bad: "Zuo, what do you mean? Could it be that you want to change the rules of the black blood war?"

Kenan smiled and said, "It's not that I want to change, but that the upper level of the Black Blood Gang wants to change!"

Kenan's voice did not fall. A gangster's eyes flickered, and he stood up and said: "This time, the Black Blood War is different from the previous one! I will wait for the provisional decision. The Black Blood will stop three. Everyone must see for each battle! In addition to its impressive combat power, Zhiyuan has an excellent heritage!

Inheritance includes courage and sacrifice! As a member of my black blood gang, how can I be afraid to challenge! Even if it is an ally of my black blood gang, the same is true! "

The voice of the boss lingered in the empty trial field. Long lasting.

Zuo's face suddenly became more gloomy. He did not expect that these big men would change the rules because of Fang Yue!

"Temporarily change the rules, this is not in compliance!"

Zuo stubbornly raised his head.

Fang Yue was his temporary ally, and if he could play for him, he already owed a favor!

If Fang Yue commits a risk because of him, and eventually suffers the disaster of extinction, then Zuo's heart will be planted with a demon and become a permanent knot!

The big guy snorted coldly, looking at Zuo with cold eyes.

"Why? Do you think there is a problem with my statement, do you want to commit the following?"

The icy voice fell, the words like a hammer, falling on Zuo's heart, making his face pale and spouting blood!

"Zuo, dare not!"

The situation is better than others, Zuo finally chose to bow his head! Within the Black Blood Gang, various forces compete endlessly.

The bullying and bullying often happen.

Although Zuo is the arrogant of the Black Blood Gang, many big figures are optimistic about him.

But the same sentence, great potential, does not mean there is a future!

Before he grows up, I am afraid that few people will offend an extremely powerful leader-level existence in order to protect him!

Fang Yue watched Zuo stand out for himself, with a trace of relief in his heart.

He took the initiative and patted Zuo's shoulder lightly.

"This kind of thing is not something you can expect! So you don't have to feel guilty and sad for me!"

Fang Yue comforted. Instead, Zuo feels even more uncomfortable.

Fang Yue raised his head and looked at the big man who announced the change in the rules of the black blood war. The corner of his mouth couldn't help but lift a faint smile.

"Regulations, I don't know how many times you have to change it! If you change it at will, then I will give up the next game and the previous points, I don't want it either!"

In Fang Yue's words, use offense instead of defense.

His meaning is clear. Aren't you unscrupulous for the victory of the people below?

Since you are so shameless, then Xiaoye won't play with you at all!

Fang Yue's words made the big man's face turn blue and purple.

"Fang Yue, what do you mean? Are you questioning the fairness of my black blood gang high-level?"

Kenan stepped forward, unkindly.

Fang Yue glanced at him coldly, as if he was looking at a jumping clown.

"There is no place for you to speak! You get out of here!"

Kenan saw Fang Yue being so arrogant and immediately angered: "Boy, who are you talking to?"

Kenan raised his hand, wanting to teach Fang Yue a lesson he will never forget.

However, Gu Linglong waved casually and snapped, leaving a five-finger red mark on Kenan's face.

"If you have the ability, go to the ring, fight life and death! If you don't have the guts, just shut up!"

Although Gu Linglong is a woman, she still doesn't care about Kenan's style and bullying. Change the rules! Such a person, even if Gu Linglong is just a woman, despise him!

Gu Linglong made a heavy move, but Kenan was caught off guard.

His cheek was swollen and flushed with Gu Linglong's slap!

Kenan still wanted to talk, but was stared back by the big man in the stands.

At this moment, the heart of that big man was a little hesitant. He was wondering whether sacrificing a promising Zuo for a Kenan was worth it to the Black Blood Gang!

Kenan has an amazing background and an extraordinary origin.

Therefore, the upper level of the Black Blood Gang would favor and protect him in this way.

But based on the current situation, Kenan is simply a Liu Adou who can't help him. He can't even beat a woman. What if he throws more resources on him?

A faint disappointment flashed in the eyes of the boss.

But some things are not his alone.

Things like face should be given or given.

"The rule change is not my decision alone, but the meaning of the entire Black Blood Gang! It's not the style of my Black Blood Gang! Don't worry, there will be no other rule changes in this Black Blood War. !"

The big man's tone was flat, and he gave Fang Yue an explanation.

After all, Fang Yue was a real victim this time.

His easing of attitude is a kind of compensation.

"Then according to what you said, the black blood gang encourages bravery and encourages breakthroughs between life and death, but if I accidentally kill an important member of your black blood gang, you will not be furious, then ask me to settle the account!"

Fang Yue worked step by step, setting up traps and waiting for the black blood gang to jump!

The black blood gang sneered: "Is the black blood gang the kind of gang with small belly! I guarantee it in my own name. This kind of thing will never happen. In the black blood battle, life and death are arrogant, and no one can do it afterwards. revenge!"

"Then I can rest assured! I will participate in this island battle!"

Fang Yue's eyes fell, and he finally settled on the rule book of island warfare.

It is impressively written that, in order to ensure the fairness and justice of the island battle, the cultivation realm displayed by everyone in the island battle must not be higher than the peak of the nine innate layers!

The people who participated in the island wars were originally uneven in strength, and their years of cultivation were different. If they let go of their hands and feet and compete at will, then those strong in the rotation realm can definitely crush the ten sides!

This kind of battle without suspense is meaningless to the Black Blood Gang!

So the last method they chose was to suppress all human realms and stand on the same starting line.

The battlefield of the island war is a bit similar to the country of Yan where Fang Yue was before.

The rules are special and can suppress the realm of human beings to a very low realm.

If it was the suppression point of the realm, it was a certain realm of the world realm, even at the second and third levels of the realm, Fang Yue would turn around and leave.

But if it's the Nine Innate Words, he dare to give it a go and see if he can make a breakthrough before life and death!

Then, the island war began!

A huge teleportation array appeared in the Colosseum.

Everyone stepped on the teleportation array at the same time, and then appeared in another world.

It is an isolated island with a large area. Surrounded by the sea, the atmosphere of the entire island is full of depression and dullness!

There is no clear sky here, only gloomy clouds of lead.

Fang Yue stood inside, feeling that his breathing was not so smooth!

After the teleportation, the place where everyone fell is random.

Only after meeting, will the real spark be rubbed. Above the island, a loud voice resounded: "This is a savage island. It is a cut down corner of the wild world. Among them are ten thousand tokens placed by us. Each token can be exchanged. The points are different. As few as dozens, as many as tens of thousands! If you can harvest your hands, everything can be turned back! But the more the tokens, the more dangerous the place to put them. At the same time, you can also kill other testers. , Get half of its points! In addition, there are countless ferocious beasts, ancient ruins, geniuses and treasures, too many to list!

This is a place of opportunity! Even the slightest gain is enough to benefit you for life! The island was opened, and it only took three days. When the time comes, both living people and corpses will be teleported out!

Good luck, little ones! "

The voice disappeared.

The island war begins.

The place where Fang Yue was placed was on the edge of the island, not far from the ocean beside the island! The ocean water here is black. Rolling in, the huge waves are terrifying!

In the sky, one or two big birds flew by from time to time, red as fire, as if burning in the sky.

Pairs of big eyes, like two beacon lights in the dark night, illuminate the whole Tianye.

This big bird is very extraordinary, Fang Yue roughly estimated that this guy has at least four or five levels of heaven and earth! This savage and isolated island only suppressed the realm of outsiders, and there was no repression of the fierce beasts that were born and grown in the country.

Fang Yue first walked to the beach.

Picked up a stone from the isolated island.

The stones were thrown into the sea. It didn't immediately sink to the bottom, it was actually disintegrating and melting, and soon it turned into a black smoke, disappearing in Fang Yue's vision, disappearing forever! "My guess is true! This is a sea where the power of the yin is converged, because the qi of the yin is too strong, so it condenses into water droplets. The qi of the taiyin corrodes everything, even if it is stained with a strand, it can make Everything is turned into ashes. Not to mention a stone, even if

Throwing the magical artifacts of the heaven and earth realm inside, it will instantly melt and disappear!"

Fang Yue Jingran.

He didn't expect that the place where he tried the island battle would be so dangerous. Lunar Qi, even if you want to collect it, is rare in the Xuanhuang world. Unexpectedly, here, it can actually converge into a vast ocean!

Chapter 254: Lunar water

"However, although Lunar Qi is strongly corroded, it should not have much impact on the independent space! It is indeed a big evil thing, but at the same time it is also a precious array, paper talisman, and alchemy material, which will bring the Lunar Qi, Into the water, can form the water of lunar yin! Its value is extremely high,

For transactions, you need to use drops to calculate! "

Fang Yue muttered to himself, his fingers flicked, and a spatial crack appeared out of thin air!

This crack is only one finger wide and less than three inches long!

It appears in the lunar sea, and the sea is flooded and poured into it.

This was a method that Fang Yue had just realized after comprehending the spatial and heavenly path. He is too imaginary and can touch countless spaces.

Some, just bubbles, live and die at night, some are independent small worlds with all kinds of minerals, but there are no people, some flames are surging, and there are flame creatures in it, and some are independent dimensions. , Which is full of strange creatures.

Fang Yue chose a desolate dimension, imprinted his soul, and then used it as a coordinate to open a space crack and connect the two worlds!

The seawater of the Taiyin Sea flooded into that world. When Fang Yue needed it, he opened the space cracks again, and he could easily extract the seawater from the Taiyin Sea!

This scene fell in the eyes of the big men of the Black Blood Gang.

They are not calm anymore! "Space Heaven! What realm is he, he actually comprehend the heaven, although he only stepped into the threshold initially, but his harvest should be the greatest! That wild island, the most precious thing is this endless lunar sea. Inside. Every ray of the lunar qi of the sky can be sold at a high price!

"

When the boss spoke, Fang Yue showed his admiring eyes.

Although Fang Yue could not see any special bloodline and physique, there was no ordinary person who could comprehend the way of heaven.

"Zuo, where did this invite such a person who can control space and heaven!"

The other big guy spoke with a deep and serious voice.

The people who can control the way of heaven are all living legends, except for a few people who have fallen halfway, everyone else has become a giant!

The ten directions of heaven cannot be understood by just one person.

In addition to extremely high understanding, it also needs the assistance of many opportunities.

"If this child does not die this time, he will surely achieve a great atmosphere! You can consider winning it! Even if it is a price, it is worth it."

The voice of the boss could not be lowered. They talked and communicated, making everyone around them look surprised and envious.

The innate realm is to comprehend the way of heaven.

Such a talented arrogant may not appear in one hundred million practitioners. In the first battle of the same level, the degree of understanding of the law seems to be different, and the understanding of the heavens does have a crushing advantage against the road and the trail!

Of course, some people's eyes flicker and drift away. They overwhelmed Bao's body early on the other core disciples. In case Fang Yue gets attention and promotion, he will definitely stand with Zuo. At that time, Zuo will be liquidated afterwards, and they may all be involved!

This Fang Yue must die!

Otherwise, their hearts are disturbed. But no matter what the outside world, Fang Yue on the savage island is still patiently collecting the Sea of Lunar! The cracks in his space are not big, but fortunately, the water is fierce and flooding in the lunar sea! In a blink of an eye. The barren world marked by his soul was condensed into a lake by the water of the lunar yin

Moor!

Fang Yue muttered to himself as he drank the seawater in the sea of the lunar murky, "Little zombie! Let me come out quickly! Brother is very dangerous recently, people are chasing him behind his **** all day long!"

Fang Yue babbled, like a **** stick.

But the big guys who were watching the battle on the savage island couldn't smile, all with serious faces.

Some big guys clenched their fists, and even the joints were a little green!

Because Fang Yue's talk was not useless, he summoned a hundred zombies at the peak of the Ninth Floor in a blink of an eye!

Anyway, this savage island has rules to suppress it, and it is difficult for outsiders to exceed the rules of the world!

Fang Yue simply summoned the zombies of the ninth-class Xiantian peak. The cost of this thing is not a bit smaller than that of the zombies on the second level of the world!

A hundred innate zombies with nine levels were summoned, Fang Yue's true qi was not exhausted, on the contrary, there was less than 20% of his true qi remaining in his body!

Then, Fang Yue added his qi and continued to talk about it. Soon, the mountains and plains were full of innate nine-layer zombies.

Fang Yue summoned wave after wave!

Half an hour later, the coastline he was on was almost filled with zombies!

A thousand zombies, neatly and uniformly, stood in front of Fang Yue.

All of them are the peak realm of the Nine Innate Layers, completely surrounded by gray aura. They have war swords in their left hands, bucklers in their right hands, and black blood stains on their bodies.

In the world of undead, they have to go through battle every day!

These zombies seem to be dull and numb, but in fact they have experienced many battles, and I don't know how many times they have walked back and forth in the ghost gate.

Fang Yue looked at the uniform army of zombies, dancing with excitement.

This army is magnificent!

Who dares to beat him, he can crush it!

"Kang Muang, despicable! Get me moving! Arrange a trapping array! The zombies are sleeping!"

Fang Yue took out a ticket of materials from his storage bag.

All kinds of zombies moved under the control of Fang Yue. According to Fang Yue's arrangement, they began to erect large arrays of ancient and simple!

"It's a real hell! This little one will actually set up an array! The restraining array, the zombies are sleeping! Is this going to let these undead creatures stay in the dust forever?"

Those big guys are even more uncertain!

Is Fang Yue still in charge?

These big brothers have heard of the formation, and even saw it in person.

An ancient formation might even trap the saint to death! A shrewd and experienced master of formation is even more terrifying than a leader-level or even a powerful person in the Saint Realm!

But they thought and didn't guess that Fang Yue was actually proficient in formation.

The way of formation is profound and profound, with endless mysteries and changes! It covers a lot of aspects, landscapes, topography, and understanding of the origin of the universe and all things in nature.

Ordinary Array Masters are at least middle-aged people who have lived for one hundred and eighty years, and even some gray-haired elders! They need enough time to settle and accumulate.

And this Fang Yue hasn't even grown his hair yet! How could it be a Array Master?

The big guys are puzzled.

There are even some big brothers whose eyes flicker and drift away.

"Do you know what this sleeping zombie formation is? How many people know how powerful it is?"

One of the big men's voice is low.

The other big guys all shook their heads. In terms of formations, they have all come into contact with them, but they are not proficient. There are hundreds of thousands of formations and various magical functions. The ghost knows what uses you can arrange for a formation at random! The big guy showed a bitter smile: "This thing, I know. The zombies are sleeping, created by an undead who followed the rules of death in ancient times. All the undead, from the underworld to the sun. The time to stay is limited, generally not more than one hour!

As soon as the hour arrives, if the undead dies, nothing will be mentioned. But if they are still in the sun, they will be pulled back by the rules of the underworld! All, the number of undead summons can be stacked, but time has become an insurmountable ceiling! However, the cultivation of the undead who

practiced the rules of death started from the formation, and arranged such a large formation of undead sleeping, all the undead, who settled in it, would fall into a state of sleep. but

In this state, the heavens and the earth are rules, and the time for them to settle in the earth is not calculated. Only the undead in awakening will be liquidated by the rules! This also means that the upper limit of the number of undead summons will no longer exist! And this sleeping array of zombies is a branch of the sleeping array of undead! Back then, one of my mountain gates was enshrined. Unexpectedly, after hundreds of years, the school I once belonged to has turned into fly ash, and was completely annihilated in the world. But here, I saw the one that used to be

Great formation! "

The voice of the boss was full of emotions.

He is a very detached person. In the black blood gang, he has never formed a gang, and his three or two disciples have now become powerful masters who dominate the party!

There is no one close to him in this wild island, so although he is emotional, he is extremely free and easy!

Others are not calm anymore!

Because they have their own pieces to put in them.

If this zombie sleeps in a large array, it is really as powerful as this big boss, and it can summon the undead without a limit. Then their disciples are in danger.

Even in the outside world, it is the world, the master of the rotation.

Under the suppression of the savage island, at most it is the realm of the nine innate levels! The zombies in the same realm are not weak. If they are like mountains and seas, even if their individual combat power is slightly weaker, even if they use crowded tactics, even if they are stacked, they can give their disciples to chess pieces and pile them alive!

In a blink of an eye, Fang Yue's breath-holding formation and undead sleeping formation were completed.

Covering an area of ten acres, these zombies have a place to sleep! But when he glanced at the zombies lying on the ground, he still felt that he had too few people and horses, not spectacular enough! As a result, Fang Yue spent another half an hour to expand the number of the zombie army to 3,000. At this time, he felt at ease, patted his butt, Xin Xinran, and left here

The zombies are sleeping!

Fang Yue's actions, the big guys who watched are all panicked!

This little guy is too strong.

Is this preparing to use the undead army to sweep this savage island?

The three thousand innate zombies of the nine layers, assembled, even make people feel terrible, even panic!

Fang Yue left the big formation, but he did not go far.

He will not take the initiative to hunt down other participants in the Black Blood War, because his principle is that people do not offend me, and I do not offend others.

Fang Yue is more interested in the tokens and treasures of this wild island!

Because before he entered the wild island. Zuo felt guilty, and in order to let Fang Yue have a greater chance of saving his life here, he told Fang Yue a lot about the wild island.

This isolated island was discovered by an ancestor of the Black Blood Gang.

It used to be an ancient battlefield. Here, there were great battles in those days. Half of the sky was stained with blood. The creatures involved are at a very high level, and there may be existences beyond saints involved. Moreover, the war started and lasted for thousands of years. In the end, because this island could not bear the raging power of such sturdy power, it was eventually cut to the earth! As for the wild beasts, they are all in

It was born after that war. Their ancestors were the mounts who once participated in the battle!

All the savage beasts have extraordinary origins from their ancestors and have different bloodlines. Therefore, the strength of the wild beast is also beyond the constraints of realm. Leapfrogging is as simple as eating and drinking!

Chapter 255: Dig three feet

The brutal beasts are so powerful that Fang Yue dare not wander around indiscriminately. After all, the brutal beasts here are not restricted by the rules, and each of them has high realm and is scary!

In case of a casual stroll, the beast is just hungry and wants to find some meat.

Fang Yue is admired by people, and it is estimated that all of his two pieces of meat have to become after-dinner snacks and desserts!

Fang Yue summoned two thousand little skeleton soldiers, all of them at the acquired level!

The lower the realm of the summoned creature, the less the summoner's true energy will be consumed. For Fang Yue, two thousand skeleton soldiers have almost no burden, and a few middle-grade spirit stones will help him recover clean after spending a little bit of true energy. Up!

"What is this kid doing? Summon a group of little skeleton soldiers?"

The savage beast island is very large, and the trialists who enter it have their own encounters.

But almost all the bigwigs fixed their eyes on Fang Yue.

Because this kid is so weird!

What **** battles, brave beasts, conspiracies and traps.

These tricks, the big guys have long been tired of looking at them! The plot is too **** and repetitive.

On the contrary, it was Fang Yue who used strange tricks to make them feel novel.

Soon, the answer appeared!

Little Skeleton Soldier, Fang Yue summoned more than one batch!

After a few breaths, the skeleton soldiers summoned by Fang Yue were all over the mountains. Counting crudely, there are three to fifty thousand.

Obviously it is a wild island, but if you only look at this corner of the coast, it will soon become an island of undead!

Occasionally, savage beasts pass by, but after a glance at the little skeletons, they are not interested. Let's be lean, even the bones are rotten, and they don't even have two or two meats. They can't be snacks and desserts after meals. They don't even have the interest to make do!

The huge target army of skeletons, although dazzling, has become Fang Yue's umbrella.

Fang Yue's figure was buried in it, overwhelmed by the strong undead aura, and the beasts passing by could not find his figure.

The savage beasts are very utilitarian. If there are any benefits, they must all pounce on them one by one.

But killing the army of the undead, such an obvious unthankful thing, they don't even bother to do it, even if it's just a matter of effort!

This fulfilled Fang Yue. He became a contractor in an instant, and all the little skeletons became migrant workers under him.

One by one, they started digging three feet, looking for the treasures left over from the ancient battlefield for Fang Yue!

From Fang Yue's point of view, the treasure must be buried underground. As long as the digging is deep enough and ruthlessly enough, it will definitely be rewarded.

"Hmph, I'm so smart, I'm a great archaeologist!"

There was a piece of grass in Fang Yue's mouth, saying very narcissistically.

All the big guys looked speechless. Originally, a serious and tragic island battle was destroyed by him!

In Fang Yue's eyes, what is this doing? Is life and death tempered? How does it feel like a mining game.

A group of small skeletons are diligent and conscientious, and they are really digging three feet! Soon, dozens of acres of land were turned over, let alone really let Fang Yue dig out dozens of huge skeletons! The age of the decay of these bones is not very long, at most only a few hundred years, or even a few decades. They belong to some ancient savage beasts, and their bodies were exceptionally healthy.

Strong and strong.

However, as the years passed, their flesh and blood were corroded clean by various microorganisms in the soil, leaving only a pale skeleton.

But in those bones, they have been imprinted with their understanding of Tao and Dharma! The patterns are intertwined and entangled closely, which is definitely the best material for the refining device.

Some bones belong to the creatures of the heaven and earth realm, but more, they are in the rotation realm before they are alive!

Their bones are priceless, ground into bone powder, can be used as medicine, extract the principles, refining into the device, can form a ruler! If it were one or two ordinary skeletons, even if the owner was a powerful person in the rotation realm, it was not enough to make the black blood gang's big man heart. But Fang Yue found dozens of them as soon as he dug them, and each of the skeletons was ten feet away. Such a big bone, how many intertwined in it

then! Even some of the leaders at the leader level are not so calm, they beat their chests and feet, and secretly said in their hearts, why didn't they have this kind of wisdom back then!

Of course, Fang Yue's digging career has not been smooth.

When Fang Yue dug up the thirty-sixth skeleton. A demon ape sleeping underground awoke. It is nearly ten feet tall and covered with black fur.

The devil ape was born, and a fierce atmosphere swept across all directions instantly! This devil ape is very powerful and has the third level of cultivation in this world!

Its eyes were scarred as blood, and it neighed, and when it raised its arms, it smashed dozens of small skeletons that were digging into the ground!

Fang Yue's heart stopped beating for a while.

That's it, this time I dug a big one!

Of course, Fang Yue did not back down.

What about the third small step in the world?

Fang Yue also prepared a backhand, his palm slightly lifted, and a hurricane took shape in an instant.

The hurricane has a height of several tens of feet, sweeping across all directions.

This is an innate realm technique. Originally, it was far from being so lofty and magnificent.

But supported by Fang Yue's soul power far beyond his own realm. This hurricane is a hundred times stronger than an ordinary hurricane!

The devil ape was in a daze, and did not wake up completely from his deep sleep.

As a result, it was scraped off raw.

I almost can't see a shadow!

"Brothers, hurry up!"

Fang Yue quickened his pace.

On the side of the fierce beast, there must be a treasure!

The devil ape was scraped off, and it is estimated that there will be no time to run back.

Fang Yue was fighting this time difference, taking advantage of the fact that the guarded beast was no longer there, and then stole the treasure guarded by the devil ape!

Why can you be fair and honest!

Fang Yue didn't intend to smash with others.

It was Fang Yue's plan to change a place with one shot and carry out guerrilla warfare to the end.

That's it from the beginning!

Sure enough, the sleeping place of the devil ape. An old mine was dug out, and it was full of Devil's Stones, slanted in the ground!

"Devil Stone, is this kid out of **** luck?"

There was a big guy with his eyes flushed, looking at the image in the Colosseum, wishing to rush in and take away Fang Yue's chance!

What is the devil stone?

The background of this thing is too big!

That was the fossil formed after the devil tree withered in the past years. The devil stone is very useful, but the most mainstream one is to summon the demons in hell, and then use the devil stone as a sacrifice in exchange for powerful combat power.

What are the demons in hell? Can be accustomed to fighting, find one at will and can cross three or five small realms to fight!

The devil itself represents a supreme lineage.

The devil ape is just a kind of descendant of their blood!

However, Fang Yue saw these devil stones more calmly than those big guys. Recently, he was a little numb to digging more good things.

"Is it just this devil stone? It's really disappointing! A dignified devil ape, actually guarding this point for a living, I am afraid it is a fake devil ape! Even a devil ape, it is also a devil without ambition ape!"

Fang Yue pointed to a group of small skeletons to dig up all the underground minerals, shaking his head and sighing.

"Don't stop me, I want to rush in and kill that kid!"

A big guy was not calm, he stood up, and had to run to the wild island to beat Fang Yue violently!

That's the devil's stone!

The treasure that so many families dream of.

It can be a town house, can block it, and if it can collect a considerable number of Devil Stones, it can even summon a saint-level demon to help a big force withstand a catastrophe. And this Fang Yue actually didn't take it seriously, and was still talking coldly next to him.

"Calm down, calm down! We have promised this kid not to participate!"

The other big guy stopped him. Because if they intervene, everything is really messed up!

"I think this kid was deliberate! He had his own plan long ago, so he said such conditions!" A big guy thought calmly. Finally understood it.

They were actually calculated by a kid with an innate state.

Don't even mention how sour the taste is!

A group of big guys face black.

If you speak out, you can't participate in the water thrown out! Even afterwards revenge is not enough!

They could only stare at them one by one, watching Fang Yue dig the ground on the savage island. Pieces of Devil Stones were all put into his pockets by him!

Many people are powerful, and the correctness of this sentence will indeed make all the difference in different environments.

But in the matter of mining, there is absolutely no error!

With the help of the tea, Fang Yue dug up the sleeping place of the devil ape to a depth of nearly 100 meters, and pieces of the devil stone were packed into Fang Yue's pocket.

The big guys outside are bleeding!

Pedal!

A furious footstep came from a distance.

The Devil Ape ran wildly and ran over violently, wanting to find Fang Yue's revenge. It had never suffered such a big loss before, and it was actually overcast!

"Brothers, go back to each house and find each mother! Next time you mine, let's see you again!"

Fang Yue dissipated his mana, and all the little skeletons were recalled back to the underworld.

Fang Yue ran away without knowing his feet! A slip of smoke disappeared!

When the Devil Ape came back, there were still traces of white bones and skeletons all over the mountains, and he couldn't even find a bone shelf. As for the culprit, Fang Yue, he disappeared even more.

Fang Yue's figure disappeared, leaving nowhere to vent the anger in the devil's heart.

It was careless for a while, and even its own nest was given up.

Finally, it beat its chest and angered, raised its head up to the sky and roared for a long time, and plunged into the dense forest, disappearing.

It needs a new nest.

This place was almost tossed by Fang Yue.

But it doesn't know that its miserable life is just beginning...

"Huh, huh, huh..."

As Fang Yue ran, panting heavily, he ran wildly, tens of kilometers away, and then gradually stopped his footsteps.

"This devil ape didn't chase it! It's really great!"

Fang Yue patted his undulating chest and let out a long sigh of relief! The devil ape puts a lot of pressure on him. This is an ancient fierce beast, powerful means, extremely powerful.

Fang Yue once saw some records about demons in the ancient books of the Fang family.

The ordinary monks of the human race do not have the advantage of three or five small realms, and they do not even have the confidence to fight the devil ape!

"It really helped me! I ran into you! Fang Yue, where do I see you going this time?"

Fang Yue had just set his mind, and behind him, a proud voice appeared. When the road was narrow, Fang Yue turned around and saw a figure walking far away.

Chapter 256: Kenan

Kenan.

Fang Yue's mouth couldn't help but a touch of bitterness appeared.

Originally, he wanted to develop a wretchedness first, and then leave the wild world for ten days. It seems that this time, he has no chance!

"Did you kneel down to death or let me give you a break?"

Kenan stood with his hands in his hands, acting like an expert. Looking down on Fang Yue, his eyes were full of contempt.

A guy on the fourth level of the Xiantian Realm is not qualified to stand alongside him.

Even if his undead technique is weird. But still not in the eyes of Kenan.

Fang Yue said, "Can we talk about it and not face it?"

Fang Yue's request stunned Kenan.

I'm going to die, what do I care about?

"No!" Kenan decisively refused: "Aren't you pretty beautiful when you were outside? Why did you get to this island battle?"

Kenan's voice was full of ridicule and sarcasm. He has a feeling of cat and mouse!

"What should I do? I'm so sad! I was eating with this face. I was beaten up by you. I can't mix in the underworld!"

Fang Yue squatted down with a sad face, as if he really cared about it.

Kenan laughed. Pointing to Fang Yue with his fingertips: "I knew that day, why bother! Come on, kneel down, and lick my toes with your tongue, I might be able to give you a decent square!"

Kenan's face was full of pride.

In his eyes, Fang Yue is no longer afraid!

"That's not so good!" Fang Yue raised his head, with a strange smile drawn at the corner of his mouth!

Kenan's heart was half beaten, and the secret path was not good.

He just wanted to retreat, but his back hit something as hard as a telephone pole!

Looking back, a series of indifferent faces looked down at him.

A hundred zombies with nine levels of innate, surrounded him!

"Fang Yue, you fool me!"

Kenan screamed, his face changed because of anger!

Fang Yue never thought of begging him for mercy. These are Fang Yue's tricks, delaying time and summoning the zombie brother!

In the Colosseum, the big guys sighed in secret.

This Kenan is indeed Liu Adou who can't help him. His combat experience is too shallow! Old rascals like Fang Yue are not a series.

Any technique has a fatal flaw, that is, it takes a certain amount of time to accumulate energy and meditate.

This time gap is when they are most vulnerable.

Fang Yue was obviously delaying time to prepare for his summoning technique!

The flowers in the greenhouse may be bright and brilliant, but once they experience wind and rain, they are very likely to die instantly.

Undoubtedly, Kenan is a flower in a greenhouse.

He was surrounded by icy zombies. Under the command of Dao Guang. It crackled and was instantly beaten into a pig's head. Full of blood!

"Fang Yue, you are looking for death!"

Kenan resisted a lot of attacks.

But fortunately, the armor on the body is sturdy and cannot be broken by innate-level means!

His angry voice floated out, and he slammed a punch, the phantom of the dragon and tiger intertwined, causing all directions to move!

Kenan, although he has some dull personality, his cultivation talent is indeed amazing! Otherwise, the simple background would not make him the core of the Black Blood Gang.

Even if his cultivation was suppressed under the realm of heaven and earth, he was still able to leapfrog.

The three-headed zombies on the ninth level of the Innate Realm were shattered by this fist, and the rotting corpses flew horizontally, and red blood was spilled on the ground.

Kenan's talent and combat power are fully demonstrated at this moment!

Fang Yue drew away, touching the ground with his toes, floating like a fairy!

Opened the distance.

Fang Yue's spells fell one by one like raindrops.

What lightning, hail, fireball, meteorite, came one after another.

Almost all the most basic spells Fang Yue displayed were! Fang Yue learned a lot of magic techniques, but lacked the opportunity to practice. On weekdays, he didn't feel like practicing against the target. This time he finally found a fleshy man. He simply, no matter what method is useful, let's see how powerful it is in the end!

The big guys outside looked dumbfounded.

What tactic is this?

They all know the spells, but Fang Yue's unthinking one after another should be the most basic spells!

But for Mao, his basic magic is so powerful. Obviously it is just the most basic small fireball, but it seems like the sun has fallen. The meteorite block of other people's house, that is, the size of a fist, what is Fang Yue?

You moved the hill of whose house you are!

Perhaps it is the reason that the "Soul Scripture" nurtures the soul. As long as Fang Yue does not deliberately control it, any of his spells will be exaggerated dozens or even hundreds of times more than others!

A vine peeled out from the ground, it looked like a python, and it hit Kenan's body fiercely, protected by armor, so that he would not be injured. However, the strength of the vines was so great that they took Kenan out for many miles!

A group of zombies were besieged again, crackling, beating and hacking!

Kenan was beaten into a pig head. Although his cultivation base, he is not very good at fighting, especially this kind of group fight. Each individual zombie comes out, and the strength is far inferior to him, but he comes to a group. . He can only eat food!

Kenan has never experienced a life or death battle. His every move is fed by a special sparring on the school field.

On weekdays, he practiced one-on-one, even if it was one-on-two or one-on-three, he had obvious routines at all.

Has he ever encountered such a situation. Being beaten by a group of zombies, each one is not weak, and not afraid of death, there is no obvious dead spot.

"Fang Yue, have the ability to single-handedly! What a hero you are to get a bunch of zombies to deal with me!"

Kenan was beaten so much that he had no choice but to use radical tactics.

Fang Yue was surprised and sneered: "Who told you that Lao Tzu is a hero? I am a Shuxiu and you and a warrior. You are embarrassed to say that?"

Fang Yue made it clear that he wanted to be shameless.

There is no way to get Kenan.

"When I kill these zombies, I will deal with you! Fang Yue, wait for me, and I will make you die!"

A sharp, desolate scream came from the zombie group.

Fang Yue took out a small Mazha from his storage bag, and sat next to him, watching a good show.

"If you don't tell me, I really forgot! A hundred zombies deal with your genius, it is indeed a little bit less, since it is not enough, then another 100!"

Fang Yue pretended to be serious.

He raised his hand slightly, and summoned a hundred peaks of the nine-layer innate.

The mighty army of zombies joined the gang fight. This time, Kenan was really desperate!

A hundred zombies, he still hopes to kill one by one, and then rush out.

But two hundred heads, when are they tall!

What's even worse is that there is Fang Yue outside, who releases a few weird basic spells from time to time, with great power! Seeing that the number of zombies is reduced, he will add more energy and jealousy, come up a little.

Let Kenan continue to kill!

Kenan is almost desperate!

What kind of tactics are these, in the end shameless.

One shot, there are hordes of small zombies, clumps, and they are almost buried alive!

Fang Yue suddenly looked upright, seeming to realize something.

"It turned out to be like this, I understand..."

Before the filming, the big shots were all eye-catching.

What does this kid understand...

"As the saying goes, two fists can't hold four hands, and heroes are no match for gang fights! Many people are powerful, and there are many things to call people! This principle, when used in fights, must be true!"

Fang Yue's words came out.

A bunch of big guys grind their teeth.

What kind of **** is this.

You are obviously playing a rogue!

Kenan inside also heard this.

He vomited blood suddenly. In his ears, Fang Yue was a naked mockery. This is pulling hatred! In the end, half an hour later. Kenan was completely on the ground and motionless! It's not that the little zombie started too hard and beat him to death. Although Kenan is a straw bag, he is also a master of the world realm. Even though the realm is suppressed, at the very least, the basic physical qualities are still there, especially

What's more, the armor on his body is quite expensive. It is the highest rule tool in the world.

Even if he was standing and being beaten by a group of small zombies, he would not be really beaten to death.

Injured at most, only a black nose and a swollen face!

This guy was tired by himself. Infuriating exhausted. Weak and unconscious.

Seeing that Kenan stopped moving, Fang Yue was very skilled in ordering the little zombies to remove all the armor on his body!

There was nothing left of Kenan's storage bag.

Afterwards, Fang Yue also took out a handful of yellow immortal ropes and tied Kenan firmly. This rope is wholesale from the Wanxiang Pavilion by Fang Yue. I bought ten bundles in one go.

Its rank is not high, it is not the kind of magic weapon in the legend. But at least one or two practitioners of heaven and earth are no problem.

It can suppress the blood qi and true qi in the opponent's body, and once it is tied up, it will be a waste!

Afterwards, Fang Yue put Kenan into a storage bag. This storage bag is very advanced and can hold living things. Fang Yue bought it from the Wanxiang Pavilion.

Used to kidnap tickets.

It is very inconvenient to carry hostages or something. There is a place to dress up, it works best!

The big guys outside are almost dumbfounded.

Fang Yue didn't kill Kenan, it was indeed a sigh of relief for them. But what the **** is this stuff?

How come you look darker than the Black Blood Gang?

Carrying immortal ropes and a storage bag that can be filled with people at will, no one believes that he is not specializing in house robberies.

This buddy's props are so complete!

With more, you can open a specialty store.

"What kind of help did Zuo invite? Have you investigated it clearly?"

A big boss spoke with a black face, he was the one who announced the change in the rules of the island war.

Now, his intestines are almost regretful.

This Fang Yue is obviously not a good crop.

I knew it, I changed the rules of wool! If he has more points, let himself keep it, why should he be drawn to the island battle!

A bunch of big guys all coincided with a hint of unknown premonition.

This island battle will be made special because of Fang Yue.

Many people will suffer because of it, but Kenan is just the beginning!

"Is this stuff a token?"

Fang Yue played with this bone, it was crystal clear, like a piece of jade. This is a beast bone, derived from some fierce beasts with unusually strong blood. These creatures often have talents and supernatural powers. As long as he grows to a certain level, he can display his supernatural powers.

The source of their magical powers is a magical power bone on the forehead. There is a natural interweaving of reason and reason. Sacrifice the bleeding vein to activate it!

This beast bone is a supernatural power bone. Immortal Dao marks are imprinted in it. Its owner may not be so powerful, but his bloodline must be extremely detached. At least Fang Yue has been in the

world of practitioners for a long time. But he didn't see a fierce beast, unleashing his talents and supernatural powers!

Chapter 257: A nest of monkeys

Fang Yue could sense that there was a shallow spiritual mark on this supernatural power bone.

It represents one hundred points, which is not cheap in terms of value!

This was Kenan's biggest gain after entering the wild island, but it eventually fell into Fang Yue's hands.

Fang Yue played with this supernatural power bone, and then sent all the zombie brothers back to the underworld.

With so many zombie brothers, the targets are too big and it is easy to attract the attention of others. Fang Yue was born with a high hatred value. If someone finds out, he will definitely be surrounded and gang fights!

Fang Yue is not afraid of a single tester, but if there are a bunch of people, he will only have to run away!

However, this piece of supernatural power is indeed a good thing. The Dao patterns are intertwined and formed by nature, as if it is expounding some of the simplest and most primitive truths between heaven and earth.

Fang Yue was enlightening while walking.

This thing is similar to runes and Feng Shui.

Fang Yue pondered, this token will not be returned if you keep it. For him, a hundred points is worse than nothing, far inferior to this supernatural power bone, it is more valuable!

"Huh? What is this place? Why is there a flat peach tree?"

Fang Yue stopped because there was a giant tree standing before his eyes.

This tree is very tall and huge, towering like a cloud, even if the branches on the canopy are divided, they are thicker than Fang Yue's arm!

On the branches, flat peaches hung one after another, brightly colored, with a fairy Taoism flowing through it.

This should be a fairy tree that can absorb the essence of heaven and earth, and the essence of all things.

"No, this is not a real flat peach fairy tree, but a subspecies, a real flat peach tree, which should only grow in the heavenly court of the fairy world. This savage and isolated island, although it is full of aura, can not afford a real plant Fairy tree!"

Fang Yue frowned. Insight into the tricky.

But even if it is a subspecies, the fairy peach that it produces is also extraordinary!

Around this kind of treasure tree, there must be fierce beasts guarding it.

According to the general principle, the more treasures of heaven and earth are cherished, the stronger the strength of the beast responsible for guarding!

Fang Yue figured out the key, and he withdrew. Guarded by the fairy tree. Lian hid his breath, waiting for others to commit danger!

"This kid is too cunning! Comparing with him, all the core members we have cultivated are obedient boys!"

A big guy saw the image.

Flapping the handle of the chair. His eyes were round, and he couldn't tell the joy or sorrow.

This isolated island war showed many problems of the Black Blood Gang.

The black blood gang is a black gang in name, but in fact, they solve problems with an iron fist.

Their methods are excessively violent and direct. Not in line with the original intention and temperament of the establishment.

On the contrary, Fang Yue is more like a **** than they are. The methods and thinking all need them to study hard!

as predicted.

A young man dressed in Tsing Yi came under the flat peach tree. He couldn't help but feel overjoyed when he saw the tree full of peaches.

"Haha, my Wang Dongqing is indeed the son of emperor, and even God is protecting me! I just got a token worth two hundred points, and this time I ran into the flat peach fairy tree. There are three thousand peaches, which is in line with the road. The technique. I will definitely become the one who has gained the most in this isolated island battle!"

The boy in Tsing Yi laughed arrogantly.

He is very contented.

Originally, his strength and background were mediocre among all the testers. When he entered the island, he just hoped that he would not be killed.

Unexpectedly, he always works. There was a token on the location immediately transmitted to the wild island. Afterwards, he walked around at random and encountered this flat peach tree again!

"This is really luck, and it can't be stopped. My Wang Dongqing is destined to rise here!"

Wang Dongqing clenched his fists, full of confidence.

And the big guys in the Colosseum, holding their foreheads with their hands, they are suspecting that their previous vision was really wrong!

Is this the disciple they carefully cultivated? The future high-level of the black blood gang.

Why is he suffering from second-degree illness all over his body, stupid, and not even alert at all.

You can't find Fang Yue behind, but at least you should know that there must be a beast on the side of the treasure!

This is common sense! Okay common sense!

At this moment, Wang Dongqing's triumphant smile attracted a group of monkeys!

These monkeys were vigorous and slaughtered in the direction of Wang Dongqing. This flat peach tree belongs to them.

No one is allowed to defile!

Wang Dongqing's face changed slightly, and he felt the aura of these monkeys all extraordinary. He immediately became vigilant, and swung the long sword in his hand, and slashed towards these rushing monkeys!

A monkey leapt up with a green vine. While gliding in the air, it is still spreading its teeth and claws!

In its hand, there was a stone, which was thrown at will, cutting through the air.

The speed of the stone was faster than the bullet that came out of the chamber.

It's so powerful!

Wang Dongqing stood up with a sword to resist, and the bullet was blocked by the sword.

But Wang Dongqing's tiger's mouth was numb, as if it was being passed through by electricity.

He raised his eyes and saw that the monkey who had been slaughtered towards him was circling the aura of the second level of the world realm! If it is placed in normal times, his cultivation base is not suppressed, and between turning his hands, he can shoot this monkey into mud!

But now, he only has nine levels of innate cultivation base, and he wants to cross three small realms and behead this monkey is not easy!

Fang Yue quietly left, leaving further.

Because his eyes were squinted, he found that the number of monkeys was huge! At a glance, there are at least a hundred heads.

Together, I am afraid that the powerhouse at the pinnacle of heaven and earth is coming, and it will be too much!

But although Wang Dongqing is in second grade, the identity of the core member of the black blood gang is undoubted.

His peak strength is on the eighth step of the heaven and earth realm, and the many treasures on his body are naturally very extraordinary!

Wang Dongqing took out a piece of talisman paper and poured a ray of true energy into it.

A faintly blue fireball took shape in a blink of an eye, and this fireball was like a ghost fire spurting out of hell!

Such a piece of talisman paper, worth at least a few thousand middle-grade spirit stones, is a talisman at the level of heaven and earth.

One-time consumables. When it is used up, all the spirit stones are all washed out!

This thing is quite expensive and luxurious, and most people are not willing to buy it at all.

But Wang Dongqing had done everything for this isolated island station. He is prepared to have a pile of talisman at the heaven and earth level!

The fireball collided with the gliding monkey.

With a puff, the monkey burned and became a mass of ashes, falling silently.

Nether fire corrodes vitality and burns souls. If anyone dares to approach, they will find that this kind of flame has no temperature!

This kind of flame originated from the Netherworld, and it was not easy to refine it, but once it took shape, it would immediately become the nemesis of all creatures.

As long as it hits, few people can survive!

"What a rich man!"

Fang Yue muttered to himself, his eyes were almost green! He had seen one of this nether fire talisman in the Wanxiang Pavilion.

At that time, he had also moved, but after seeing the price of the three thousand middle-grade spirit stones above, he immediately backed down!

Such things as Fu Lu definitely have a great hit power.

But if it fails, it's no different from knocking the spirit stone into the water.

This time, the monkey was careless! Otherwise, with its skill, it can definitely escape easily.

When one compatriot was in trouble, the other monkeys immediately became angry and passionate.

One by one, they had scarlet eyes and looked at Wang Dongqing. They had a kind of enthusiasm not to kill his family and vowed not to give up!

Wang Dongqing just sneered, not putting these monkeys in his eyes.

He stretched his muscles and bones, and the dark breath filled his body. He was hidden in the black mist, and he couldn't see the specific truth.

This is a manifestation of understanding the way of darkness.

The way of darkness is an ancient way.

Among the Three Thousand Avenues, it ranks among the top 100.

There are various means, all derived from it.

Wang Dongqing is not the kind of flower in the greenhouse of Kenan. He only relies on the shadow of his father's generation. Although he is a second grader, his core disciple status is punched out with his own fists.

The life and death trials he has experienced are countless. Even in the face of the surging apes, he never cared!

An ape approached, and its sharp claws grabbed Wang Dongqing's Tianling Gai.

Wang Dongqing suddenly raised his head, his mouth opened, and a thick black smoke spit out, which was full of insoluble corrosive power.

The monkey was hit by the black smoke and suddenly screamed, its flesh and blood turned into pus, and its entire body was corroded.

Even if they stand at the level of the realm of heaven and earth, they are unable to resist the pressure of the Tao!

Fang Yue was shocked when he saw this.

He reminded himself once again that everyone who understands Tao is not easy to mess with!

Even if the cultivation base is suppressed under the realm of heaven and earth, Wang Dongqing's methods are still tyrannical.

Another monkey came to the slaughter. In the dark mist, a pale palm came out, and the speed of that palm seemed to be slow. He grabbed the monkey by the neck. With a slight squeeze and a click, the monkey's neck twisted into a weird arc, and it died instantly!

"It's still fair!"

The big man in the Colosseum stroked his white beard and nodded slightly, showing a look of approval.

In Wang Dongqing's body, he finally saw the potential of being a core member of the Black Blood Gang. Whether it is combat power or other, they all performed quite extraordinary!

At this moment, Wang Dongqing turned into a **** of death in the dark. Although his cultivation base was still suppressing at the Ninth Innate Realm, the strange method turned out to suppress a group of monkeys step by step backwards, all revealing a look of uncertainty!

Fang Yue was also fortunate that this Wang Dongqing represented the true strength of the core members of the Black Blood Gang. As for Kenan, it's just a scum!

Fortunately, it was Kenan that I met before, not Wang Dongqing, otherwise, with this dark and fierce energy. Fang Yue could hardly guarantee that he could escape from his men alive.

The way of darkness is weird and inexplicable, and Wang Dongqing has already understood it quite deeply.

At this time, Wang Dongqing did not enter, but chose to retreat.

Because he felt an inexplicable crisis, approaching.

Bang!

A low, heavy voice cut through the quiet air.

A bullet, spinning the flames, fired toward Wang Dongqing's heart!

Fang Yue was dumbfounded, what did he see?

Damn it, isn't this a fantasy world? How can there be a heavy sniper rifle! The bullet fell into the dark mist of Wang Dongqing, and the bullet body was quickly melted and dispelled. But the rotating bullet is still too powerful. It pierced the mist on Wang Dongqing's back, and finally a residual fragment was embedded in his back muscles!

Chapter 258: Sniper

"what!"

Wang Dongqing is like an angry beast. He rises up to the sky and screams, his eyes are scarlet, like blood!

He was attacked by a group of shameless monkeys.

This touched his bottom line.

Wang Dongqing hammered the earth. A violent aftermath, ripples of energy dispersed!

The earth trembles, and countless cracks run horizontally and vertically, like a huge spider web, spreading across the sky!

The whole land was shaking. Countless cracks do not reach the bottom.

In that crack, strands of dark smoke rose slowly.

Every wisp of black smoke condenses into a black grimace!

"The ghost curse, there is no life but death!"

Wang Dongqing lowered his head, with slanting bangs covering half of his face.

Scarlet eyes, shallow shadows.

Everything is intertwined and combined. A silent fear appeared in everyone's hearts!

Li Guiyouyou, raid all directions!

Wherever there is blood, it will be swept away by ghosts!

"The Law of Curse! It is known as the most weird one of the Three Thousand Avenues! This Wang Dongqing still retains this hand, even I don't know that he has already understood the Law of Curse!"

A big man in the Colosseum couldn't help himself. This Wang Dongqing is his key training object. From the relationship, he can be regarded as his disciple and grandson.

He can have certain grades and prospects, which is also a matter of face for this big man!

There is nowhere to escape!

Wang Dongqing's methods once again surprised Fang Yue.

The cultivation of the Black Blood Gang over the years has not been in vain.

The core members among them walked out, even if they were placed in the world of Xuanhuang, they were amazing talents.

All the monkeys turned around and ran away. This black ghost is simply not too scary!

"You guys, can you run away?"

Wang Dongqing smiled evilly, sweeping away the cowardice and second-degree temperament he had before, as if he had become a **** of death, walking from the underworld into the mortal world!

Li ghost chases and kills like a maggot attached to a bone.

No matter where you flee, it will chase and kill it on time.

Fang Yue was horrified.

Such a method really reveals an indescribable gloom and terror.

There were screams, all the monkeys did not escape too far in the end, they were possessed by the ghosts and melted into a pool of pus and blood!

Secretly, a black hole's muzzle aimed again!

It's three kilometers away.

A half-colored monkey skillfully manipulates the sniper rifle in his hand. Load the bullet, leaning over, aiming, and pulling the trigger.

All actions are completed in an instant!

boom!

Another bullet broke through the air.

This time the bullet is stronger and more powerful than the last one.

Fang Yue's chin was about to fall to the ground. Because what did he see?

This is an armor-piercing bullet, heavy and hard. It was born specifically to deal with heavy weapons such as tanks, airplanes and so on!

For a moment, Fang Yue felt that the whole world was chaotic!

All this in front of me is really incomprehensible and incredible.

Is this Alien vs. Avatar?

Obviously they are two unrelated civilized systems, how can they be intertwined!

However, this time Wang Dongqing was prepared.

He turned around, fingertips vacant. A black shield immediately appeared in front of him.

The bullet fell into the black shield, like a mud cow into the sea, without even a single bubble floating.

Fang Yue's figure quietly disappeared.

Like ghosts and ghosts.

The opportunity is here!

In a profile, Fang Yue saw the slight undulations on Wang Dongqing's chest.

After successively displaying various powerful methods, Wang Dongqing has become the end of the crossbow, whether it is in the body, mental power or true energy, it should be at the lowest point!

Wang Dongqing followed the direction that the bullet flew from, a little out of thin air, a ray of red light turned away.

It fell on the old ape!

The old ape turned sideways.

Avoid Wang Dongqing's red light.

At the same time, Fang Yue has appeared behind Wang Dongqing.

A brick greeted me!

With a bang, Wang Dongqing's eyes went dark, and he felt an unbearable pain in the back of his head. The next moment, he lost consciousness and fell into a coma!

Fang Yue swiftly tied Wang Dongqing with the immortal rope. He was worried about one, and he took a long breath after he had three at all.

This buddy is much stronger than Kenan's 250. If it weren't for the sneak attack, he really wasn't sure that he could take the opponent down.

The storage bag, armor, and various equipment naturally became Fang Yue's pocket.

Immediately afterwards, Fang Yue also looked in the direction of the old ape.

Be focused again.

"Fuck your grandma!"

A foul language broke out, because apart from this, Fang Yue really couldn't find any more civilized words to describe his mood.

The old ape put down the sniper rifle, and came out with a special mecha!

The five-meter-high mecha was covered by a cold iron shell.

The sun fell, flashing a layer of cold light!

Without saying anything, the old ape picked up a rocket launcher and shot Fang Yue frantically!

Fang Yue feels confused, this is a trip to the future world, or is making a science fiction movie!

"Teleport!"

With the blessing of the way of space, Fang Yue used his magic spells, and Fang Yue teleported farther.

Quietly.

A cold palm came out from behind the old ape.

The palms are pale and not physical.

It has pure spirit condensed. Through the shell of the mecha, the old ape's throat was strangled!

With a click, the old ape's neck was twisted.

Spirit manifestation, this is the secret method and method that can be displayed by talents who have condensed their spiritual power to a certain level!

There are not many people who understand the manifestation of the spirit, but it happens that Fang Yue's "Book of All Souls" has a method that is clearly related to the manifestation of the spirit.

This old ape is actually quite wise. But it is too old, and its physical body has begun to decay and decay.

In addition, Fang Yue's spiritual manifestation caught people off guard. That's why the old ape was strangled to death by Fang Yue, and he didn't even have a chance to scream!

When the driver died, the mecha naturally became a dead thing, which was occupied by Fang Yue.

After putting it away, Fang Yue was very interested in this stuff. He finds time to study slowly.

The ape is dead. Fang Yue uprooted the subspecies of the flat peach tree and threw it directly into his stone pendant. There is a chaotic space in it, and time and space are in an absolutely straight state.

Wait until Fang Yue finds a suitable place, and then transplant this old tree.

But the big guys in the Colosseum didn't know Fang Yue's plan, and they all jumped and cursed, saying that Fang Yue was violent.

It doesn't matter if all the subspecies of flat peach are picked. After tens or hundreds of years, they can naturally re-grow, and in the end, even the roots of the tree are uprooted! This hatred seems to be a bit big!

Fang Yue not only uprooted the flat peach tree, he did not even let go of the monkey's nest.

These monkeys have cultivated one by one to the realm of heaven and earth, and are essentially psychics. It is their turn to be wise. They are not much different from the human race, and in some ways, they are even more spiritual than the human race.

Sure enough, when we arrived at the monkey's nest, there was not even a monkey in it.

In order to protect the subspecies of flat peach trees, they are all dispatched.

There are many good things in the monkey's nest. They also stored 500 subspecies of flat peaches, and they didn't eat them.

There is also the self-brewed monkey wine, which has eight big gourds, and this gourd is a natural treasure of space. The space inside mustard sumi is no smaller than a lake.

Every gourd is filled with monkey wine.

These are all spiritual liquids of the world, not only delicious, but also nourishing the body!

In addition, there are all sorts of ancient weapons and scrolls. These are the relics left by those who once fought on the wild island.

But what Fang Yue cherished the most were the products of technological civilization.

What grenades, rifles, particle cannons, everything! These things were filled with five or six caves, and Fang Yue deeply suspected that these monkeys might have looted an arsenal.

Fang Yue took everything away. In the end, there was not a single hair left.

Even if there are some things, even he doesn't know the purpose, but Fang Yue has a very firm belief—even if he doesn't need it, he can't make others cheaper!

In the process of searching, Fang Yue also accidentally found a token, which was worth fifty points and was a crystal clear bone. The broken bones were not supernatural bones and had no great value. Besides being hard, even Fang Yue couldn't see the mystery hidden in them.

Fang Yue put it away at will. He is not cold about points.

Anyway, the final benefit is also Zuo.

He can exchange some blood potions, even if it is not bad!

The savage island is very large, its area is not weak, and a medium-sized city, hundreds of people put in it, like an endless ocean, dripping with a few drops of water. If you want to meet, in addition to some tracking methods, you rely on that very small chance!

Fang Yue walked for a day without encountering a black blood war tester.

On the contrary, it is a variety of wild beasts, he has encountered many! He also slaughtered the ones that were not pleasing to the eye. Became his dinner. Below the second floor of the world realm, as long as he is not too strong, he can kill with one hand. Become delicious on the plate.

In one day, Fang Yue killed more than a hundred wild beasts.

Two or three of them belonged to wild alien species, and the others, although they were extraordinary. But it has not yet reached the level of heterogeneity.

Fang Yue extracted the beast blood essence in their bodies and drank it, only to increase the brutal strength of his physical body by a thousand kilograms, but did not loosen any bottleneck of the 100-level physical body! "Sure enough, this physical body has a hundred ranks, and the more the later, the more precious the resources it consumes! In the world, the ordinary beast blood essence has little effect on me! At least the beast blood essence of the different species of fierce beasts can be used to make my physical body again. Get tempered. No wonder the practitioners who set foot on the road of the flesh are so

Scarce, without considerable financial resources, this road is simply unworkable! "

Fang Yue condensed the essence and blood of the remaining wild beasts, and put the ordinary and the alien into two different jars.

Ordinary savage beast blood is of little use to him. However, the amount of the blood of the alien beasts was not enough to allow him to baptize the flesh and break through again!

On the third day, Fang Yue finally ran into trouble.

When he was picking a different fruit, he was spotted by a fierce beast.

Originally, Fang Yue thought it was just a very ordinary strange fruit and wanted to eat it to quench his thirst, but he did not expect that there was an extremely vicious beast next to him.

This is a different species of a fierce beast, born with a tiger-headed leopard body, a vigorous posture, and extraordinary! Opening your mouth is a thunderstorm, knocking Fang Yue's head-holding rat.

Chapter 259: Encounter danger

"Made, is this fate? I am destined to be struck by lightning often?" Fang Yue ran very fast. He was about to get used to being smashed by thunder. He has strong resistance to thunder and lightning. Shengsheng was chopped three times. But he was just embarrassed on the surface, and a puff of black smoke appeared, but in fact, he didn't have much problem. It just shows that the life in the body is really

Angrily, circling around, immediately became alive again.

But he didn't dare to resist, because this beast was so powerful! At least it was already standing on the sixth step of the heaven and earth realm. Unless Fang Yue really used some hole cards, he wouldn't be able to do the opponent at all.

"Fang Yue! Why are you here?"

Fang Yue jumped quickly, in the forest, like a clever ape! Behind, the fierce beast followed. The roar of the tiger's head turned out to be a lion roar.

This roar shook the mountains, rivers and the earth. Attracted many people's onlookers.

Zuo happened to be around. Seeing Fang Yue, his face was full of surprise.

What surprised Zuo most was that Fang Yue was still alive.

According to his calculations, Fang Yue gained so many points in the first round. He was definitely the master of hatred, and everyone was killed. It is estimated that even the skin has been pulled clean long ago.

Being able to live on a savage island for three days is really surprising!

"Don't talk cold words, give me a hand! This fierce beast is about to die! I can't fight it!"

Fang Yue saw Zuo as if he saw a savior. Even if the realm of cultivation is suppressed, Zuo should not be afraid of this fierce beast. There are free thugs, why not use them.

Fang Yue is a typical pragmatist.

Never waste any resources around you.

Sure enough, Zuo made a move.

He stepped forward in two steps. One hand is holding the earth!

A cage emerged from the ground, erecting twelve straight and thick stone pillars, trapping the fierce beast in it. No matter how the opponent roared or howled, it was difficult to break through.

The fierce beast's eyes were ruthless, and he looked at Fang Yue as if he had an unshakable hatred.

Fang Yue's face was full of grievance.

Holding the dewy fruit in his hand, he whispered softly, "Didn't I just take one of your foreign fruit and want to bring it to quench my thirst? As for you, you have to kill me like this!"

Fang Yue muttered to himself, making the beast roar in a low voice!

Zuo revealed a strange color, looked at the strange fruit in Fang Yue's hand, and couldn't help taking a breath. "Fang Yue, do you know what you are holding in your hand? The legendary thousand-year fruit. Every spirit tree has a one-tenth chance of giving birth to such a kind of spirit fruit. There is no variety, but it needs enough. It takes a full thousand years to fully mature! A thousand years of fruit can extend a person's lifespan indiscriminately

. Down to ordinary people, up to immortals, a single spirit fruit can prolong the life of thirty-six years! According to legend, the benefits are even greater if the beast eats it. Able to baptize the flesh and pure blood. Let the blood of ancestors be completely awakened and sublimated! "

Zuo has been in the Wild Blood for many years, and he has seen some of this kind of heaven and earth spirit fruit.

Fang Yue was also surprised. Unexpectedly, he had such a vision, and any fruit he picked off at random was of such an extraordinary origin.

He knew what an undifferentiated longevity represented for thirty-six years.

If you take back the Xuanhuang world, it will be enough to make those old antiques crazy!

No wonder this fierce beast is going to kill him all his life, it seems that everything is not without reason.

"Then the fruit shall be divided into half when we meet?"

Fang Yue is sorry to swallow this thousand-year fruit, after all, this fierce beast was trapped by Zuo!

Zuo Wei shook his head slightly: "Forget it! This is your chance, I don't want to divide the profit! I have been in the land of waste and blood over the years, and I have got a lot of opportunities greater than this!"

Zuo Wan refused, although he was cold and bloodthirsty. But there is still nothing to say in terms of justice.

In the Colosseum, the big guys turned blushing like pig livers.

Some people even start to yell at Zuo in their hearts, you are okay to pretend to 13.

Is there too much dislike for something like Millennium Fruit?

If you don't give it to us, you can do it!

The big bosses of the Black Blood Gang, although they are all aloof, in terms of Shou Yuan, there are not many left. Some people only have a few hundred years to live, and some people still have a thousand years of life, but they have already begun to consider how to extend their life.

The higher the cultivation base, the more afraid of death!

Even though he was powerful and powerful in his lifetime, it was no match for him after his death.

Fang Yue is a scourge in the eyes of these big men. When something arrives in his hand, it can be regarded as a meat bun hitting a dog, it is difficult to pick it out!

Fang Yue smiled, but did not decline.

He put away the thousand-year fruit and looked at the fierce beast with a tiger-headed leopard body.

"Man, don't catch anyone and chase someone next time! Some people are not destined to be something you can afford!"

Fang Yue felt extremely stunned, completely forgetting the embarrassment he had just been hacked into smoking.

Now this fierce beast was already a prisoner in Fang Yue's eyes.

The fierce beast in the tiger's head and leopard's body was furious. This guy took away the thousand-year-old fruit he had guarded for many years. He had already made it extremely angry. Now he actually found someone to trap him and came out to laugh at him again!

As a result, its anger started from its heart, and its evil grew to the guts. There was a roar of tigers, and the world changed color. The situation is rolling. Thousands of thunder pouring down like raindrops!

This is his gift of supernatural powers. Even if the actions of the physical body are temporarily blocked, they can still be displayed easily and unimpeded!

Crackling, the stone pillars were shattered by lightning.

Zuo's face changed suddenly: "Fang Yue, you hurry up and run away!"

Zuo didn't need to speak, Fang Yue knew what to do. He originally thought that this fierce beast with a tiger-headed leopard body had become a fish on the cutting board, and it was doomed to escape. Unexpectedly, it still has this method to turn over!

"Zuo, I said this thing is too weak! It was turned over, how can I believe you in the future!"

As Fang Yue retreated, Luo Li was still complaining.

Zuo was speechless for a while. If it weren't for you to have to quiver, run in front of others to stimulate the excitement, it is estimated that this fierce beast with a tiger-headed leopard body will not burst into thunder and rage, and at any cost, you will also get out of trouble!

Zuo's figure flickered, avoiding the thunder falling from the sky.

Fang Yue fled in a straight line, simply propped up the golden bell. No matter what thunder and lightning are you, I will block them all!

The wind screamed and thunder, all the scenes, as if the end is coming.

Fang Yue's golden bell was extremely bright at this moment, with golden light shining in all directions!

No matter how the Thunder strikes. Fang Yue's golden bell is like a reef in the waves, motionless.

The guy with the tiger head and leopard body also showed a slightly horrified expression. It didn't expect that its own talents and magical powers would have no effect on this hateful enemy.

"Thunder Transformation! Kill me!"

Fang Yue snarled, and solved his own problems. This time, he really got the benefit, and Zuo had no share. So Fang Yue was not ashamed to let Zuo continue to help him.

Fang Yue reversed part of the thunder falling from the sky and used it for his own use. He evolved into a series of birds and beasts, overwhelming the sky and killing the tiger-headed leopard-body.

Fang Yue has already understood the Thunder Avenue, the catastrophe he experienced before, and has become his best teacher! The thunder and fire phoenix with a long stretch of length, gleaming with ice-cold thunder light, counter-killed the fierce beast facing the tiger head and leopard body.

They are not strong at each end, but they are born in huge numbers and are not afraid of death.

Zuo withdrew from the area of Thunder Chopping. He looked at Fang Yue with a look of surprise.

No wonder this guy has survived for so long. It turns out that there are really some means and skills!

Innately, he actually comprehended Thunder Avenue, and it looked like it didn't seem to be the first realization, at least it had been immersed for a while.

Originally, Zuo was also planning to use the Dark Domain to wrap up this fierce beast and kill him with one blow.

But now it seems that it is not his turn to take action.

Thousands of thunder creatures came all over the world. Originally, the fierce beast with the tiger head and leopard body turned around and ran away!

The gift of supernatural powers is a gift from heaven and earth and has nothing to do with the way of comprehension.

It is very powerful. But it is difficult to control.

If you meet someone who understands the corresponding laws, it is easy to be used in reverse.

The fierce beast with the tiger's head and the leopard body understood that he had hit the iron plate this time!

Li Gui met Li Kui.

Playing Thunder, it is not the opponent of the enemy at all!

Thirty-six strategies are the best strategy.

At this moment, the fierce beast with the head of the tiger and the leopard body, no honor or disgrace, no grievances!

But if it wants to go, will Fang Yue let it go?

Fang Yue didn't say a word, deceiving himself and approaching. Swinging his fist, he headed towards the fierce beast hammer on the tiger's head and leopard's body. His iron fist was like a stone, cold and strong. At the moment of exerting his force, it was even plated with a faint metallic luster!

With a punch down, the fierce beast in the tiger's head and leopard body wailed.

Its internal organs trembled, and even though it was a fierce beast, its flesh was unusually strong. But he couldn't hold Fang Yue's powerful fists!

Who is the beast?

Why is this guy's physical strength so strong?

This kind of thought flashed through the head of the tiger-head and leopard-body fierce beast.

The next moment, Fang Yue's fist wind fell, smashing its head. Two colors of red and white, splashed to the ground.

The head of the fierce beast with the tiger's head and the leopard's body burst. Both eyeballs burst into pieces!

Rough, violent.

This is Fang Yue's fighting style.

Even Zuo couldn't help being speechless.

This is the first time he has seen Fang Yue use close combat methods!

Such a strong body, is it possible that he is a barbarian with an incomparable body among humanoid creatures?

Even the strange beasts on the sixth step of the Heaven and Earth Realm were so easily wiped out by him. This caused Zuo's heart to feel a faint trance. Fang Yue cleaned up the corpse of the beast with the tiger head and leopard body, and extracted the essence and blood in it, and the supernatural power bone was also taken away by him. It is intertwined with the law of thunder, which is of great reference for him! As for the rest, Fang Yue was still on the ground. Wait till this vulture, jackal, wait to live on carrion

Animals come to share food.

Fang Yue understood that he could defeat this fierce beast this time, and there were a lot of luck in it.

Its talent and supernatural powers have been restrained by itself, and it has lost most of its fighting spirit.

If the beast with the tiger's head and leopard body turns around to fight when chasing it by himself, it is really unknown who will die.

A hundred levels of physical body is not invincible.

In Fang Yue's own estimation, in terms of pure physical body, he and this fierce beast should be at the same level!

This fierce beast was not defeated by Fang Yue's hands, but by his own timidity.

Fang Yueli slashed the fierce beast on the sixth step of the world.

Whether in the Colosseum, watching the mirror image or from Fang Yue, Zuo, who was close at hand, was stunned. This is too cruel!

Chapter 260: Druid

What realm is Fang Yue? On the four small steps of the Xiantian realm, this will be able to cut off the fierce beast alien species on the sixth floor of the Heaven and Earth realm. However, a big man soon recalled: "Unexpectedly, this Fang Yue took the path of physical cultivation. He has already entered the ranks of the 100th physical body! According to my estimation, he should be in the 100th physical body. On the fourth to fifth steps. The pure physical strength is not inferior to the fierce beast!

The means of infuriating energy, perhaps just a part-time cultivation. The real trump card is the flesh! "

The boss explained and spoke, and the others showed a look of relief.

Otherwise, Fang Yue can fight across more than a dozen small realms. This is no longer a genius, but an existence completely contrary to common sense!

But this is the case, Fang Yue's performance is still amazing, whether it is physical training or technical training. Being able to possess such combat power at this age can no longer be measured by the word Tianjiao.

Especially, Fang Yue himself, as well as the terrifying summoning technique, the swarms of zombies sleeping on the beach and all over the mountains, will be easily forgotten by anyone!

Zuo also reacted quickly, Fang Yue was quite powerful in both his spells and his body.

The means of refining qi, not to mention. Changing the thunder and evolving endless creatures is a profound understanding of the principles of the Tao, almost invisible in the innate realm!

Until now, Zuocai has admitted the identity of Fang Yue's teammate from the bottom of his heart. Before, although he would cooperate with Fang Yue and his words were polite, from the bottom of his heart, there would not be much recognition. Because the two are not in the same series. The level of standing is completely different.

The world of practitioners will always be a place where they can speak with their fists and strength. This will not change because of anyone.

No matter how big Fang Yue's potential is, it is always potential.

Only if his strength can be brought into view by Zuo, will he be truly accepted and recognized.

"It's time to come!"

Fang Yue rested for a while, a faint sound of footsteps gradually approached.

The leaves were rustling in the wind.

At the same time, a series of indifferent faces appeared around Zuohe Fangyue.

Seven testers appeared at the same time. Fang Yue and Zuo surrounded the center. Greed and indifference are written on the face of every tester.

Their gazes towards Fang Yue were extremely hot!

The one headed is a druid. There are two lone wolves beside him, both of which have reached the third level of the heaven and earth realm.

Druids are a rare race. They are barely a branch of the human race, they are proficient in natural summoning, elemental spells and beast transformation. They are the darlings of nature, and this forest happens to be their ideal battlefield.

"Barut, did you bring people here?"

Zuo didn't show any panic when he saw the seven besieging him.

These seven people are not ranked high among the testers. The most powerful druid, Barut, is about the fiftyth.

Druid Barut gave a cruel smile.

"Yes, these are all attracted by me! Just now, when you used the Tao of the Earth, I discovered your position, but I may not be able to catch you alone, so I invited six Tianjiao Help out!"

Ballut is quite cautious and deceitful. When he looked at Zuo, there was a hint of alertness in his eyes.

In the outside world, his strength is definitely not weaker than Zuo by the first half.

But here, the realm is suppressed. Under the same realm, it is difficult for Barut to compete with Zuo!
"Zuo, in fact, I don't want to embarrass you! Give this Fang Yue to us. We can let you go! This guy's performance in the first round is too eye-catching. With so many points, he definitely can't let him alone! It was him who fell here, and you can also leave half of the points. Guaranteed

The top 20 ranking is not difficult for you! "

Ballut tried to persuade Zuo to give up Fang Yue.

No matter who meets Zuo's decisive killing and the dark realm, they will be shocked! Zuo sneered: "Do you think I am that kind of person? And if you don't kill me, others will still want to kill me! Since I dare to participate in this black blood battle, it proves that I have the courage and determination to kill and be killed!" Barut, don't talk nonsense. If you want to fight, then fight, let me give up Fang Yue and escape alone,

This is absolutely impossible! "

Zuo's tone was determined. A pair of cold eyes swept toward everyone!

Barut and the others shook their hearts.

The siege of Zuo is actually not what they wanted!

The difference in strength is obvious. Even if Zuo can be killed by the advantage of the number of people, at least two or three of them will be pushed back!

Zuo's fame is too strong, it would be best if he could defeat the enemy without fighting!

They are not a group, just because the interests are united together, no one wants to sacrifice themselves and let others pick the peaches!

Fang Yue has already shot.

He took advantage of the time of communication between the two sides, summoning in meditation.

The zombies on the second step of the Ten Head Heaven and Earth Realm appeared. When Fang Yue saw that the druid was able to tame two lone wolves at the heaven and earth level, he knew that his calculation was wrong!

This savage island rule only restricts outsiders, but it does not have any suppression effect on the summoned creatures!

Sure enough, the zombies on the second small step of the Ten Head Heaven and Earth Realm appeared, and their cultivation was not suppressed.

Suddenly, a green vine broke the ground! It has the thickness of a baby's arm, and there are sharp barbs on the vine. Once entangled, it must be skinned and venomous!

This is a very insidious method.

Being caught off guard, even the geniuses of the world are likely to be caught.

Fortunately, Fang Yue had taken precautions long ago. He has always been sap and sap on people behind his back, and he has never been successfully calculated.

Fang Yue withdrew and retreated, avoiding the range where the cyan vines were beating.

At the same time, a little red flame burned on his fingertips, and with a flick of his finger, the cyan vines were instantly incinerated to ashes.

This is an undeclared war. Even if he tried to guess with his toes, Fang Yue could understand that this shot must be Druid Baruch. Druids are best at summoning and manipulating various forces of nature. Beasts and vines are their servants!

Barut's face was pale. For a little guy with only four layers of innateness, he even used an unglamorous means of sneak attack, and he didn't even hurt a single hair on his face, which made his face quite unremarkable. Light!

Barut's undeclared war also represents the beginning of the battle!

The lone wolf roared, Lang Lang was clear, and a faint blue moon shadow suddenly appeared from the sky! The quiet moonlight is spreading, illuminating the whole world.

Three lone wolves pounced on Fang Yue, while the seven Baruts chose different positions to besiege Zuo.

They don't want to kill Zuo, but hope they can stop Zuo's pace. Only three lone wolves killed Fang Yue, and then their mission was completed. Zuo was also a smart man, and he would definitely not smash them for a dead man!

"The earth is split, heaven and earth cage!"

Zuo's hands touched the earth again, and stone pillars broke out!

Zuo wants to set up his own battlefield. Bound these seven people, end the battle with the fastest speed, and then turned around to rescue Fang Yue.

"Thunderbolt! Give me a crack!"

Among the seven, a woman wearing a black robe whispered, her bare hand raised, and waves of lightning like dragons passed by! With a thunderbolt, Zuo's stone pillars were broken one after another!

Almost being able to become a core member of the Black Blood Gang, comprehending the law is just a basic skill!

"Zuo, hurry up, I can't support it for long!"

Fang Yue was beside him, yelling, the signal of rescue continued.

Three lone wolves came to the slaughter. In the power of Yuehui, their speed and strength seemed to have been blessed beyond the ordinary.

Fang Yue jumped up and down, looking quite embarrassed.

Barut gave a sarcasm smile: "Don't worry, no one will come to save you! Give up resistance and be bitten by my wolf, maybe you can die less painful!"

Ballut is almost in his hands.

His three lone wolves are carefully selected, and all of them have rich combat experience.

Among the armies of the army, taking the enemy's head is like trying to get things from the bag. As long as the opponent selected by them, almost no one can leave alive.

However, Fang Yue called out to be lively. But the ten stiff heads remained motionless as if they had dementia.

The three lone wolves ignored the zombies, waved their claws, and rushed towards Fang Yue.

Fang Yue's figure flickered, moving like a ghost among the three lone wolves.

The steps of the ghost night are on display again.

Every time when the lone wolf is about to touch the corner of his clothes, he will eventually pass by with a slight difference!

Zuo saw this scene and gradually felt relieved.

He understood that Fang Yue's methods were far from being as fragile and vulnerable as these people imagined!

The three lone wolves hardly bother him.

He began to concentrate on the enemy, as long as all seven of the instigators were killed, then Fang Yue's crisis would naturally be lifted!

"Night comes!"

Zuo unfolded the dark realm, trapping all seven people in it. They wanted to withdraw from the domain, but found that although the thick lightning was constantly falling, the thick stone pillars were still rising from the ground, blocking their way of retreat.

"Damn Barut, are your wolves reliable? It's been so long, why haven't you killed that kid!"

The woman who summoned the lightning suddenly had an ominous premonition and sign in her heart at the moment when the dark field descended.

She condemned Barut.

Barut slapped his chest and said confidently: "This is definitely not a problem! After giving me three breaths, that little boy will definitely die without a place to bury him, and now he's just warming up! The real The battle has not yet begun!"

Barut's words just fell. The scene of slaps on the face came immediately.

Fang Yue traveling through the wolves. Under the palm of the hand, a ball of lightning condensed out!

"Palm Thunder!"

Fang Yue aimed at Balut, and a flash of lightning came suddenly.

Ballut didn't even have any mental preparation. I was struck by lightning.

This palm thunder did not cause substantial damage to Balut. The armor on his body glowed, forming a faint light film.

In order to hunt Fang Yue, he was fully prepared.

This is a piece of armor at the level of heaven and earth, just the refined materials are extremely amazing!

There are countless inscriptions on it. At the moment when the palm thunder and the armor collide, the rays of light shine on the inscriptions, and all the energy contained in the palm thunder is absorbed!

"Fang Yue, you can't protect yourself, you dare to attack me?" Barut was furious. He didn't expect that Fang Yue was so bold and brave, and he was still thinking about them.
