Chapter 291: Yin Yang Dao Zun

Fang Yue suspects that this place has something to do with the former settlement of Yin Yang Dao Zun.

Yin and Yang Dao Zun, finally lifted the Xia soaring, ranking in the immortal class. The traditions and opportunities he left behind are very unusual. Even if it is the Great Sect of Yin and Yang, it is immortal, it is said that it has only got the inheritance of Yin and Yang Dao Zun!

As for Sima Xiao, the classics that I read out are even more mysterious.

This ancient city was once sacred. It was a blessed place with outstanding people, and its geomantic pattern was almost immortal. Powerful and famous places have emerged from generation to generation, and in the most prosperous era, there were even three saints sitting in town! But three thousand years ago, there was a catastrophe here, and the entire ancient city was almost destroyed! In the end, the three saints turned the tide, burned the source, and barely helped the ancient city through this disaster. But because of this

The source was damaged, and the three saints soon sat down after that catastrophe!

It is said that the catastrophe was not really passed through, and the three saints were unable to defeat the source of the catastrophe!

In the end, even if the three saints burned their source, they only sealed the so-called source of catastrophe.

One day, when the seal is broken, the ancient city will be destroyed!

Whether it is the news that Sima Xiao got or the news that Fang Yue got, they all point to one point. This ancient city has a very large background, once brilliant and prosperous, but in the end it declined!

"Many answers, perhaps in the legend of this city, the Yin and Yang Dao Zun once settled here, and the three saints joined hands to seal the great trouble. What exactly does this demon want?" Fang Yue and Sima smiled and looked at each other, combining the future. In the scene, they vaguely have an answer.

"Why not, this is a place where the devil sleeps! The devil awakened in the past, and only then did the three saints exhaust their origins, and jointly sealed, the Yin and Yang Tianzun settled down, also in order to suppress the devil. Everything can be connected together. Perhaps, Duluth's

It is no longer a coincidence that the place of sleep, the establishment of a demon camp on it! "

Fang Yue's voice was low.

Even if they inferred to be true and knew part of the truth, it would be difficult for them to stop the demon's plan. Demons are a great disaster that has always been hidden in the world of Xuanhuang. They are bloodthirsty by nature and take destruction as the source of their growth!

Duluth is so honest only because he was suppressed by the three saints of the Eternal Legion!

Fang Yue never naively thought that poisonous snakes would lose their cannibalistic nature!

As long as there is a suitable opportunity, he might become the first person to rebel!

"This guess, I will report to the teacher! After all, it is them who can determine the overall situation! What we can do is to collect as much information and data as possible, take precautions, and never fight uncertain battles!"

Fang Yue has made the worst plan!

In case the city is not guaranteed, he wants to keep some back players and try his best to let the people of the Eternal Legion leave safely.

As for those disciples of the aristocratic family or generals in the ancient city, he can't control so much!

Fang Yue never considered himself a hero!

Fang Yue passed on the corner of the future he and Sima Xiao had seen. And the information collected by him and Sima Xiao were also given to Yin Susu.

Yin Susu was expressionless after hearing it, and did not take it as a clear instruction.

"I know about this! If it is verified, it will be recorded in the military merit book for you! But who will tell you the future! It may be unknown whether this ancient city can survive this disaster. The number!"

Yin Susu showed a worried look.

Fang Yue looked at Yin Susu and asked, "Teacher, is there any change in it?" "Mozu, sent three powerful men of the saint realm to sit here as a strategic deterrent! Li Taixuan and I are just two saints. In terms of absolute high-level combat power, it's even slightly lower than the demons! And the demons have more and more pawns. According to reports from our spies, they mobilized a lot

Warlord! When the saints are holding each other's hands, the chance of a strong player above the rotation level will not be too great! The key is the battle between Xiantian and Heaven and Earth! Our Eternal Legion needs to garrison the frontier! Only less than 100,000 horses can be deployed to defend the city. In the ancient city, there are millions of garrisons. It sounds like a lot of them. However, it is a mixture of fish and dragons.

Strong soldiers contend against each other! "

Yin Susu told the current situation.

Seeing the demon clan's reinforcements are increasing and increasing, the anxiety in her heart is deeper! "That day, you attacked the demon barracks at night. Although you smashed the aura of the human race, you also aroused their vigilance! It is said that there are some high blooded demons mixed in the demon army, and some people even saw it Among the demons, there are some royal figures! Their combat power is very high, far beyond the realm!

I have deduced in the sand table, the final chance of winning is less than 10%! "

After Fang Yue heard this, he already had the urge to pat his **** and leave!

This is a fart!

There is a wool difference between a win rate of less than 10% and death!

"Is there no room for change? For example, let the big clans and sects in the rear send some people to help defend the city. Don't they claim to be casual. A big sect has hundreds of millions of disciples? Get some. It's not a big problem to serve as a trial to kill such a demons!"

Fang Yue's words are rough and not rough. Yin Susu had already laughed bitterly: "I have seen the scene where you confronted Fang Sanshou before! The contradiction between my Eternal Legion and the major families and sects is so deep that it is difficult to resolve. Now that we have intervned, then they Won't help! Everyone does their own thing,

The difference is clear, and the water of the well does not violate the water of the river! "

Fang Yue was stunned. He knew that the relationship between the Eternal Legion and the rear family was not good. But I didn't expect to have reached this point!

"What should I do? Shall we get slaughtered? Or let's retreat! Leave an empty city for the demons. The city is gone, it is better than the entire army is destroyed!" Yin Susu shook his head: "Your idea is too naive! Once occupied by the demons, this ancient city is easy to defend and difficult to attack. They will soon establish a city of their own in the hinterland of the human race, it will be like a nail, wedged on the throat of the human race. These families and great teachers Can be upset,

But it is the responsibility of the Eternal Legion to garrison the frontiers of the human race. Even if it is a single soldier, it must be held to the end! "

A look of resoluteness flowed past Yin Susu's side face.

Although she is a female player, she has the strength that ordinary beard and eyebrows can hardly possess!

"But, teacher, how did these demons come to the outside of this ancient city? They crossed the defense line and appeared outside the ancient city. Don't you think it is abrupt?"

Fang Yue's eyes rolled, and he got involved in another topic.

The demons are brave and good at fighting, and their bodies are unparalleled, but their talents in refining weapons, formations, and medicine are mediocre.

If you want to build such a large teleportation array and transport hundreds of thousands of soldiers, the ordinary teleportation array simply cannot bear it. The large-scale teleportation array requires the use of manpower and material resources, which is definitely not a force that can bear!

Calculated like this, it is extremely scary to think carefully.

Among this human race, I am afraid that someone is deliberately drawing the demons into it!

"This is a pending case, but it cannot be investigated for the time being. It involves too much, and at least it will lead to a second-rate human force!"

Yin Susu clearly saw this too. But for the sake of temporary stability and unity, it did not break!

Fang Yue understands all this, but he has deeper concerns in his heart. Even if they really win, will the human forces that respond to the demons stab them in the back!

If this is the case, the current Go'an may be exchanged for tomorrow's demise! "Actually, there may not be no way to break the game! We are short of people, but there is never a shortage of huge human races! Human race practitioners, counted by trillions, are only one or two percent attracted by various martial forces, and there are still a large number of them. Of casual repairs. Worrying about the resources of practice all day long! If we can

To allocate a certain amount of resources and hire some casual repairs to help, these demons are not a concern! "

Fang Yue stated his plan.

Yin Susu was dumb immediately. "Do you know what my Eternal Legion is most constrained by the family? It is the cultivation resources of various levels. If the resources are sufficient, the overall strength of my Eternal Legion can be greatly improved. All soldiers only need to be in the army for one year. The battles and fights we have experienced are enough! Just

Because of the lack of resources, it is difficult to advance!

If there are real resources, I must first give the many soldiers of the Eternal Legion, they will grow up better than relying on anyone! "

Yin Susu's eyes were red. She was one of the main leaders of the Eternal Legion. To her, every soldier in the Eternal Legion was like her child and relative.

She watched as the soldiers of the Eternal Legion were stuck in the bottleneck of the realm because of their resources, making it difficult to improve and taking a new step. Her heart is cut like a knife, and she is more uncomfortable than anyone!

Fang Yue was stunned. He did not expect that the huge Eternal Legion would be trapped by resources!

"If the resources are sufficient, to what extent can the soldiers of the 100,000 Eternal Legion be promoted? Will the chance of confronting this demons increase?"

Fang Yue asked a very serious question. Yin Susu nodded: "If there are enough resources for cultivation, each of them can improve their realm by at least two to three small realms. Of course, I mean the innate realm. In the world realm, one or two small realms should be elevated. Question! It's a pity that my Eternal Legion can't come up with this

Many things can only use military merit to limit the distribution of resources. This is the rule of the Eternal Legion, even if I have enough wealth in my hands, I cannot compensate them! "

"In this regard, you don't have to worry about it! Isn't it just resources! This is not a problem! Sima's smile here is equivalent to the material support of the Vientiane Pavilion that we can live at any time. Don't tell me that the Vientiane Pavilion has always been in a neutral position. I fell out with you too!"

Fang Yue's eyes turned and he already had his own plan! In his hand, there was a prescription for the bloodline medicine, which was obtained from the demons. This uses the blood of the demons as raw

materials to extract a dark essence substance! After taking it, if you are a warrior who cultivates the dark one pulse technique or secret technique, you can turn your blood in that direction.

Convert! This recipe Richard researched can be effective for any race. But because it was rather tasteless to the demons, it did not spread!

In the end, he fell into Fang Yue's hands and became the secret recipe for making a fortune!

Looking at Fang Yue's expression. Yin Susu knew that his strange disciple had an idea again.

If you put it in normal times, she would definitely ask about it, because this disciple is full of anger. Those who walk are often crooked ways. This is this time, it is hard to say whether the Eternal Legion itself can preserve it. She didn't bother to care about these details!

"If your plan can really be successful, then I can make an exception and agree to do it for you once! Of course, you shouldn't do too much, and it will be bad if it makes people angry!" Yin Susu didn't ask about the process, only the result.

Chapter 292: Be in danger

Fang Yue said with a smile: "This, teacher, don't worry! However, I need the teacher to give me a team! Don't have too many people, five hundred people will do!" Yin Susu nodded: "This is fine! You can start today, you It is the captain of my Eternal Legion who has the right to recruit a thousand-man army! Of course, you have to pay for their food expenses! Their military merits will also be counted on you! This team is counted as you Of guards, except

No one except you has the right to schedule! "

If this requirement is placed in peacetime, even if Fang Yue is a direct disciple of Yin Susu, it is impossible for him to receive such a good treatment, so that he can command a guard army composed of thousands of people.

This is equivalent to an officially recognized private army. In addition, Fang Yue is a warrior himself, this army grows up, and the future force is unlimited!

But this time the situation is special. When it comes to the life and death of the ancient city, and Fang Yue talks about military merits, not to mention the rank of captain, it is understandable even if he is given the position of major.

Give orders in danger.

Fang Yue finally had his first formed unit.

Fang Yue suppressed the joy in his heart and strode out of Yin Susu's headquarters, exulting!

In a corner of the ancient city.

A land of bitter cold, simple houses, leaking wind in winter and rain in summer! Stepping on the creaking wooden floor.

Fang Yue and Sima Xiao walked into this slum.

Rows of houses, although simple, but clean and tidy.

"Fang Yue, there are a thousand people! This is your guard, why did you come here to recruit? With your reputation, in the ancient city, all you need to do is to raise your arms and everyone will respond. Kind of arrogance, let you choose! I believe that few people will refuse your invitation!"

Sima laughed beside Fang Yue, chattering endlessly.

He was very dissatisfied with Fang Yue's choice.

The genius in the good old city didn't choose, why did Fang Yue go to this slum?

Fang Yue was silent for a long time before saying, "Sima laughs, do you know the origin of this slum?"

Sima smiled and shook his head. He has never cared about such a place without oil and water. "In this slum, the people who live in this slum are not slums, but a subspecies of the human race-the werewolves! This race is not different from the ordinary human races on weekdays. Werewolves will be transformed every time the moon is full. Increase, the speed of the physical body's strength has reached three times the usual

Blood, darkness, and sanity! Originally, the werewolves were also a branch of the human race, but due to the invasion of **** hundreds of thousands of years ago, part of the werewolves betrayed the human race and took refuge in the embrace of the demon race, so they were joined by many big forces in the human race. Reprimanded as the poor, you will never stand up forever

! The debts of the ancestors have allowed endless descendants to taste the evil results. This is very unfair to the werewolf tribe. However, this tribe is not degenerate and decadent because of this. Even as a poor, living the humblest life, they still guarantee that their offspring will receive the best education! Their dwellings are clean. As mercenaries everywhere, because of the poor

, The cost of their employment is one-third of that of ordinary mercenaries of the same rank. And the risk taken is often several times that of other mercenaries!

In every battle, the werewolf race is the most brave race in the forefront! They have strict discipline and good professionalism! The spirit of extreme hardship, these, I have never seen in those people in the ancient city! "

Fang Yue sighed lightly.

In Fang's Tibetan Scripture Pavilion, he had seen some descriptions of werewolves!

Fang Yue admired this race sincerely.

The betrayal of the ancestors does not mean anything, because it was a decision of a small group of people.

This debt should not be borne by the younger generation!

Fang Yue is full of pity and sympathy for the werewolves!

Click, click!

At the end of the alley, a werewolf who was too old to look good came out.

He was leaning on a cane and his body was shaky, as if he would fall in the next moment.

However, Fang Yue felt a very dangerous aura on this old werewolf.

He squinted his eyes and didn't come close. One hand blocked Sima's smile, and motioned him not to walk around the old werewolf!

"Ahem!" The old werewolf coughed dryly, and then a hoarse and old voice said: "Don't worry, young man, based on the praise and recognition you gave to the werewolf just now, I won't hurt you! I am This ancient city of Yin and Yang, the elder Zach of the werewolf clan! All werewolves living in the ancient city are

my child! If you have any demands, you can talk to me! I can't guarantee anything else, but my werewolf children are all born warriors! "

"Dear patriarch, I need to form a personal guard of my own! Five hundred werewolf warriors, all under 30 years of age, with a cultivation level, at least five levels innate, and a brave who has seen blood. , Of course the best!"

Fang Yue leaned slightly, showing respect for the werewolf patriarch.

Old Zach narrowed his eyes slightly, smiling. Others are so sophisticated and don't eat this one at all.

In business.

He still has hundreds of thousands of wolf cubs waiting for him to earn money to feed.

"Boy, you want to hire my wolf clan warrior and become your guardian! But in terms of price, you have to think about it! My wolf clan warriors are all brave and fearless! Don't think casually. Give me some resource spirit stones to send me away!"

Old Zach looked like a shrewd businessman.

According to Fang Yue's experience in the arena, it is estimated that he will start asking prices in the next step.

However, Fang Yue did not wait for the old Zach to speak, but quoted his price.

"A werewolf warrior, I can bid five thousand middle-grade spirit stones! Fifty catties of brutal beast flesh and blood on the fifth floor of the Innate Realm, and two catties of middle-grade spirit valley! I think this price is high enough! "Fang Yue's offer was very generous. He knew that the price he was calling out was more than ten times the normal price of werewolf warriors on the market, especially the flesh and blood of Spirit Valley and wild beasts. It can be a resource for the growth of the little werewolves. In the future, when they grow up, the combat power that the werewolves lose, can

Get made up quickly!

Old Zach's expression was uncertain, and Fang Yue's high price did not make him ecstatic, just as he said.

Every werewolf race is his descendant.

High price code means high risk!

If for some resource wealth, the werewolf warriors under his command would risk their lives, then everything would not be worth it! Fang Yue smiled and said: "Benefits and rewards are equal! The five hundred werewolf warriors I hired will not let them die. Of course, it is inevitable to perform some dangerous tasks! But I promise that even if they become mine Subordinates, every day I will follow their cultivation level and send them

Give them equal training resources so that they will not fall too far behind others in this regard! "

Old Zach was still hesitating that he was shocked by Fang Yue's high price.

If you say that you don't move, it must be fake. On weekdays, the werewolf tribe was born to death, and the sum of thirty or fifty missions gained, stacking up, there is no such price offered by Fang Yue.

But the unknown makes him uneasy, and he is still hesitating and hesitating, and the interests are moving, but if it is to exchange the lives of his children and grandchildren, it is really not worth it!

"Patriarch Zach, how are you thinking? Actually, everything is very simple! I pay to hire five hundred werewolf warriors, you just have to pay the bill! There is no shortage of werewolves in the slums, but enough Resources! I believe that under your hand, there will be some werewolf geniuses,

These resources are enough to allow them to grow up smoothly for a period of time, and will not waste their talents! "

I have to say, Fang Yue's negotiation skills and superb.

In a few words, he touched the pain points of old Zach.

Among the werewolves, there is no shortage of genius. However, those geniuses were stuck at a certain level due to insufficient resources, and it was difficult to break through. It really made old Zach sad!

In the end, old Zach stood on the racial standpoint and nodded in response to Fang Yue's business.

Soon, five hundred werewolves were assembled by the warriors. Everyone is strong and fierce, and every inch of muscle exudes a faint **** breath!

After seeing this rigorously disciplined and well-trained werewolf, Sima Xiao finally understood why Fang Yue would abandon the so-called Tianjiao in the ancient city.

In such matters as war, personal bravery is an important aspect, but strict discipline and absolute obedience are the key to the success or failure of war!

These five hundred werewolves are no less than the veterans in the Eternal Legion who have trained for more than three years. The tacit understanding and cooperation with each other is something the new recruits in the ancient city did not have!

"Who is your boss?"

Fang Yue's gaze swept across these werewolves a little loosely.

Although recruited, the level of training of these werewolves remains to be determined!

Fang Yue has no shortage of spirit stones and resources in his hands! If the potential of these werewolves is enough, he will give these werewolves no less than some family sects, orthodox disciples training resources.

But if there is no potential, or get him some moths or something.

Fang Yue didn't mind, used them once and sacrificed them as cannon fodder!

Compared to indecisive heroes, Fang Yue prefers a strong-handed, unscrupulous hero!

"Werewolves, Gu Wan, come and report!"

A werewolf tribe who looked like a middle-aged uncle came out of the werewolf in a tattered armor. His beard was stubble, giving people an extremely desolate and decadent feeling! However, Fang Yue seemed to feel the wind and frost of the years in this middle-aged uncle.

This is a man with a story, even though his age is not as old as it seems.

But just by looking at the admiration and admiration of other werewolves, Gu Wan has a high status in this werewolf team!

"Gu Wan, good! You will be the leader of these five hundred guards from now on! I am your boss and your future employer, Fang Yue, do you all know?"

Fang Yue appointed Gu Wan as the leader.

Gu Wan said lazily, "Subordinates listen to orders!"

He kept his head down, as if hoping for something.

But it also seems to be a kind of disdain, aimed at Fang Yue!

Fang Yue is accustomed to this situation. He has never thought that he has so much personal charm that people can jump up and take the initiative to recognize the Lord at the first glance!

The master and servant always need a running-in phase. What's more, all the werewolf warriors in front of him, one by one, have experienced the battlefield. It is normal for Xinxin bosses who are like them in his realm and are too young to be younger than them. Thing!

Chapter 293: Werewolves

The werewolves don't care about the world, they are incompatible with the human races in the ancient city of Yin and Yang. The residents in the ancient city of Yin and Yang despise them, and the werewolves will not find it uninteresting and take the initiative to get close.

This has led to the fact that the relationship between the two parties is not friendly!

In addition to purchasing some necessary living supplies, there are daily necessities such as firewood, rice, oil, salt, sauce, vinegar and tea.

There is almost no intersection between the werewolf tribe and the people of the ancient city of Yin and Yang.

This also led to Fang Yue being in the ancient city of Yin and Yang, although he gained fame, he was even worshipped as a **** by some young people.

However, in the eyes of the werewolf tribe, Fang Yue is just a dwarf boy, with some wealth, a son who knows well the history of the werewolf tribe!

"Give you half a day to rest. In the afternoon, follow me to attack the camp! Target demons! If you are timid, you can quit!"

The soldiers are very fast.

Fang Yue didn't have time to fight, freeing up for these werewolf races to rest!

This is Fang Yue's initial plan!

Gu Wan took out a wine gourd from his waist, raised his head, and took two mouthfuls, his sallow cheeks showed an abnormal blush.

"No problem! I'm a werewolf, from a waste, but never a scumbag!"

Gu Wanyang laughed wildly.

Like a neuropathy.

Fang Yue didn't think he was handsome, only thought that this guy should see the doctor and take medicine!

Gu Wan spoke and responded.

The other five hundred werewolves were preparing nervously and orderly!

Fang Yue and Sima smiled and left. Go to the headquarters to apply for a transfer order.

Now, Fang Yue is also considered a captain. Although his rank does not represent his status in the army, he is at least the number one man with a face. He is not a wandering soldier. Before each action, he naturally reports to the top of the Eternal Legion.

Fang Yue found Yin Susu.

It wasn't because Fang Yue didn't want to find someone else, but Fang Yue was surprised to find that the middle level of the Eternal Legion, he didn't even know one of them, and only Yin Susu had the right to issue orders, and Li Taixuan knew him!

Tuobachang also has a fate, but he is in charge of the army of Yinyang Ancient City. It's not quite possible to interfere with the Eternal Legion.

When Yin Susu saw Fang Yue, her frown stretched slightly, and she waved her bare hand to make the lieutenant who was reporting to him leave temporarily.

"How about, is there a way to break the game?"

As soon as Yin Su said this, she was immediately dumb, and she felt that her thoughts were a bit ridiculous, and she was unable to break through the dilemma that even a magnificent saint could not solve. She actually asked Fang Yue for a plan!

I'm really tired lately, even my mind has become a little bit unclear!

Yin Susu said to himself in his heart. But she didn't expect that Fang Yue would really get a response. "The general idea is clear! The rest is up to your cooperation! I am going to the demon camp in the afternoon! Detour to the back. If you believe me, you can contain the demon army a little bit from the front. Let's They can't tell the sniper, and the final spoils can be divided equally.

! If you think my plan is not feasible, then I will go by myself! But if you get something, I will only hand in 10% symbolically! "

Fang Yue is straight to the point, as if he has become an old wealthy landlord.

When he opened his mouth, he talked about terms with Yin Susu. Yin Susu couldn't help but laugh. Since he became a strong man in the Saint Realm, the average young man saw him, who is not a promise, even the closest person around him, speaks carefully, lest he angered him with the slightest mistake! And this Fang Yue really has it

Meaning, dare to speak to yourself in this tone.

This makes Yin Susu feel quite fresh.

She nodded and said: "Well, if the demons attack you, I can send someone to stop them a little bit, but if there are too many demons, then don't blame me for intercepting them! After all, I am the top of the Eternal Legion and everything is needed. Consider the overall interests of the Eternal Legion!"

"no problem!"

Fang Yue readily agreed, everything is ready, only Dongfeng owes him, this time, he is ready to have a beautiful battle, telling the world that this war is not relying on pure force, and sometimes wisdom is also very important. Link!

In the afternoon, five hundred werewolf troops assembled. Their armor was all bloodied and dried. The traces of swords and swords on the armor were their most glorious medal! The sword in his hand is rolled up, and I don't know how many enemies have been hacked to cause such a result!

"This action, I will follow my orders! No doubts are allowed, do you understand?"

Fang Yue's expression was serious.

The whole army was rectified, but Su Ran was silent. Even the most daunting Gu Wan is showing a sharp sense of combat at this moment!

The contradiction between the demons and the human race is irreconcilable!

The battle of races is about justice.

From that perspective, they can't refuse! "This is a one-way teleportation array, which can only be teleported to the rear of the demons! Your goal is to plunder their materials, food, armor, magic stones, and other resources. In short, you can plunder whatever you see is expensive. ! Loot whatever you need! These looted

Things, part of them, will be exchanged for materials for your future cultivation, do you know? If you encounter a demon, you will run away, if you have a fight, you will fight, if you fail, you will run, you know? "

Fang Yue's voice is majestic.

But every word that is said is full of gangsterism!

In order to find the coordinates behind the demon clan, Fang Yue spent a lot of money!

One-way teleportation array, you only need to know the coordinates of the teleported location! There is no need to arrange a corresponding transmission array on the other side.

Of course, this teleportation array also means there is no return!

Fang Yue had already arranged an escape route. If it succeeds, the Mozu will suffer a big loss!

But this mission is extremely dangerous. After all, it is going deep behind the enemy line. With good luck, the whole army may return. With bad luck, it is not new that everyone died under the encirclement and suppression of the demon army!

Don't be nervous, it's fake!

But if it succeeds, many things will reveal the answer!

This time, not only Fang Yue went out alone, but Sima Xiao, Chopper, and Duluth were all involved!

They are Fang Yue's hole cards, and they will not be revealed if they are not a last resort!

Five hundred werewolves, without hesitation, stepped into the teleportation formation uniformly!

The light flickered.

Fang Yue and others disappeared in the teleportation array!

In the next moment, they appeared on a wasteland! Withered grass follows the wind and withers its vitality. The whirring sound, scroll all directions!

Above the earth, the blood dries up, and on the cracked earth, there are wisps of black smoke and smoke constantly pouring out of it!

Luofengpo.

This is a dangerous place a hundred kilometers away from the ancient city of Yin and Yang. It is not a complete Luofengpo, but a broken version, otherwise, this is not a dangerous place, but a desperate situation, even if the saint goes deeper, there will be death!

But even a broken version is dangerous!

Ordinary creatures enter, there is death but no life!

But because it is too remote, it has no reputation.

Fang Yue and his werewolf guards fell on the periphery of Luofengpo.

The one-stroke flag was arranged by Fang Yue, a total of 720 flags, and each stroke is the level of innate peak! Buy these flags. Fang Yue spent a lot of financial resources.

Sima Xiao was also in the Vientiane Pavilion, with a lot of human relationships, and then customized it overnight!

In addition, there are other array pattern magnets.

Everything is a treasure, if it is placed in the secular world, it will be enough for some big forces to break their heads!

Fang Yue's heart was bleeding when arranging the formation patterns, this time it was definitely a loss-making business! If it wasn't for Yin Susu, he would never do it!

Fang Yue arranged for a full half an hour. Everything is in order.

He reluctantly left and led the werewolf army to the rear of the demons!

"Remember, don't fall in love with war! Run as long as you can, rush into the warehouse, and move when you see expensive things. Don't be merciless!"

Fang Yue repeatedly exhorted.

The werewolves nodded.

In the past, they were all cannon fodder, and all they needed to do was to fight desperately to attract each other's firepower.

Wherever they have done such a thing, although every werewolf is sullen, but his heart is filled with endless excitement and expectation!

After another, Fang Yue did not know where he pulled a piece of black cloth. Covered his mouth and nose!

His face has been blacklisted among the demons.

The hatred value is simply not too high!

One person singles out tens of thousands of demons. Once they show up, they will be hacked to death!

Even among the demons, some of the powers of the rotation realm will be shot.

They must be dead and dead!

The rear of the demons is on guard! Teams of soldiers patrolled around the warehouses.

Here is their top priority. The demon army has a total of nine such heavily stocked rears, stocking all the supplies of the army in front.

Once there is a problem in the rear, the supply in the front will be blocked!

Fang Yuemao hugged his waist and hid behind a small hill. He held his breath and looked calmly.

There are a lot of demon defenders here, a rough estimate, at least five thousand! There are many elites among them, and there are hundreds of the aura of the world realm experts that Fang Yue has detected!

"Sure enough, no one did this job!"

Fang Yue cursed, feeling that his brain was pretty funny at the time, and he actually took the initiative to take on such a responsibility!

But since it has already come, then there must be the consciousness that the thief will not go empty!

"Do you know how to fight?"

Fang Yue lowered his voice and asked Gu Wan next to him.

"Good point!" Gu Wan was a little embarrassed.

Because as a professional mercenary, battle formation is a basic skill.

But the werewolves are too poor and lowly in status. They have mastered some battle formations, but they are all mainland goods.

Among these five hundred people, there is not even a bronze-level warrior.

"What is the approximate average level?"

Fang Yue asked.

"Probably, there is no problem with the battle formation of ten people! No matter how large the number is, the chance of success is low because of the lack of cooperative mentality!"

Gu Wan was a bit twisted, the battlefield was a weakness of the werewolf race!

Singled, they have never been afraid of anyone.

But in battle, they have suffered more than once!

"This volume of ten squares will be distributed! A little practice, there are some ultimate moves. Try to learn as quickly as possible! If you are surrounded, you will not be instantly defeated! The cross uses energy to condense, and it is more flexible!"

Fang Yue took out a volume of ten square formation practice methods! This is from the Black Blood Gang.

In the Black Blood Gang, there are so many such messy things! More advanced wars, Fang Yue's hands are not without.

But the time is too short, these werewolves are absolutely beyond control! Originally, Fang Yue didn't want to rush all the ten square formations to the werewolves. But this time the situation was urgent, and even Fang Yue did not expect that the Demon Race would arrange so many guards in the rear warehouse!

Chapter 294: Dirty blood

The plan is as usual.

Fang Yue and others should have no problem escaped!

But these werewolves might be given up. As for life and death, it depends on their good fortune!

Gu Wan took over the formation. I couldn't help shaking my hands! The ten square formation, although he has never heard of it, is definitely an ancient and powerful battle formation. Because the general battle formation, it is impossible to derive ultimate moves! Any battle formation that can evolve ultimate moves, regardless of level, is not something they can buy, even with the words that some human races once rejected them.

Said the kiss.

Even if they have enough spirit stones, this formation cannot be sold to these humble werewolf races!

Fang Yue handed over such a precious battle formation to them, which fully demonstrated Fang Yue's trust in them. The scholar died for his confidant. Gu Wan felt that his heart had been destroyed and turned into gray. At this moment, he was once again Light it up!

After a moment of precipitation, Fang Yue was about to go to battle in person and go out to explore! Nearby, a cold and nervous voice called Fang Yue back!

"Wait, Fang Yue, don't be anxious! Don't you feel very weird in this place?"

Sima Xiao pressed Fang Yue's shoulder, suddenly showing a trace of horror.

Fang Yue was stunned and looked in the direction that Sima Xiao's finger pointed.

In the sky, a piece of azure blue, cloudless, as flawless as a piece of jade. But the sun is dark red, like a clotted blood scar!

Fang Yue's heart was horrified! He immediately opened his eyes and covered his mouth!

"Stained blood covering the sun! This is a sign of great evil! There are not many records of natural phenomena in ancient books!"

The half foot that Fang Yue had already stepped out, swished back! He was beating the drum in his heart. In this vision of heaven and earth, the ferocious appearance was too strong, and it would not have appeared several times in ancient times!

"Don't panic! This filthy blood covering the sun is not aimed at us! The landform it directly refers to is the treasure house. I'm afraid someone will do something against the demons!"

Drucker was expressionless. He didn't catch a cold for the visions of the heavens and the earth. As a demon clan, he did not respect the heavens and the earth, and only respected himself throughout his life! Although this is a kind of awkwardness, it is also an invincible belief.

Sure enough, Drucker's voice didn't last long.

When the earth is loose, there is a pale palm extending from the earth. This palm is struggling, like a drowning person, always trying to catch something!

Immediately afterwards, there was a puff, and another palm came out of the ground! This palm and the previous one should belong to the same person. Both palms were constantly shaking in the air, and for a moment, a patrol team of demons was attracted!

This demon patrol team has a total of twelve people!

Even ordinary players have the eighth level of the Innate Realm. The leader of the team is even more powerful than the Heaven and Earth Realm!

When they noticed the change here, they came right away!

"What is this? The territories of the human race are so uneasy! Yesterday, there was a bad wind whistling, killing a group of soldiers. Today, the dead were cheated underground!"

The captain of the Demon Race patrol team also whispered in a low voice, his heart is hairy, although they have seen zombies, they haven't seen it.

But he was born from death and came out of the underground corpse, but he has never seen it!

"Then captain, what should I do? Do I need to report to the superior?" The team members also showed caution. My life is my own, and I'm throwing it here, but I can't make sense!

"Report? Report a fart! If this little thing needs an adult to deal with, then what's the use of us? Kill the zombie and kill him if he cheats! The blame is bad luck, he didn't cheat the corpse long ago. , I will not cheat the corpse late, but when we are stationed here!"

The captain of the demon race is also a strong man in the world of heaven and earth, in the world of cultivators, enter the room!

He is very accurate in guessing the meaning of the above.

If he reports to the top if there is nothing to do, he will add a blockage to the senior management, then his position as the captain may not last long!

At the top level, force is only one aspect, the most important thing is to grow your mind!

The captain of this demons obviously thought he was a brainy person. He sent a soldier forward, waved his saber, and slashed at the two palms sticking out of the ground!

Once again.

The knife light collided with that wrist.

On the wrist, not even a single hair was hurt, but behind a string of dazzling sparks. The blade is curled.

The war knife of the Demon Soldier was instantly scrapped!

"What's the situation?" The captain of the Demon Race was stunned. Before he could react, the **** vision in the sky began to show off.

Twelve blood-colored brilliance fell from the sky, and fell vertically on the bodies of the twelve Demon Race soldiers, including the captain of the Heaven and Earth Realm, and instantly turned into a pool of blood.

The blood flowed and poured into the place where the hands were!

The pale hands gradually dyed a faint blood!

The withered fingers began to become fleshy. Meridians, flesh and blood, all began to reshape.

This is definitely not like a zombie resurrection, but like a transformation from death to life! "Dead fat man, you have more experience in the arena than mine. In this case, can you see a clue?" Fang Yue was beating the drum in his heart. He also has a different kind of innate awe for ghosts, gods and so on, even though Served as a ghost, but seeing such an incredible scene, Fang Yue still

I feel that my back is cold, and there is a swishing cold wind passing by from time to time!

Sima smiled and rolled his eyes: "You fool, stingy, and say who is the fat guy! Laughing Lord, I have been in the rivers and lakes for decades, and I have never seen any battles! Come, let me help you figure it out, See what this guy comes from!"

Fang Yue's face was dull.

What a mess!

Here is the source of the corpse, and fortune-telling!

What Sima Xiao took out this time was not coins, but three withered grasses.

He muttered to himself, and then his fingertips, a cluster of flames ignited three withered grasses.

These three withered grasses have a lot of origins, they are called 筮草. This thing is very rare and only used by some old gods who specialize in divination.

The hay burns.

Smoky.

Sure enough, there is a scene outlined, but in this scene, what is presented is not a picture, but countless strange and weird words, like tadpole writing, floating in the void, flashing light and dark.

This is astronomy for divination.

It means words that can communicate with God!

This kind of text is intangible, and needs to be interpreted with divine consciousness.

Sima Xiao looked at these words, and after a while, big beads of sweat left from the temples! His breathing became rapid, and his whole person seemed to be fished out of the water!

"No!" Sima laughed and spouted a mouthful of blood, falling on top of those words.

Those words, stained with blood, began to fade and disappear!

"This is a game! A shocking game! Everyone, restrain your breath, don't show the slightest life fluctuation, understand?"

Sima laughed and whispered at everyone. He seemed to have seen something from those astronomy, but the object of divination was too strong, so he suffered a backlash from heaven.

Sima Xiao's face was pale, looking at the figure crawling out of the ground, there was a strong flash of fear and expectation in his eyes!

Fang Yue held his breath immediately, and Chopper and Duluth did not object.

After all, they were just helping, even if they didn't think it was necessary, but they did what Sima Xiao said.

For the werewolf tribe, keeping interest is even more commonplace! Their breathing converged, and even their own vitality consumption was minimized!

They came from mercenaries, and the most common situation they encountered was an ambush and escape!

Regardless of the situation, they need to restrain their breath and avoid being noticed by the other party.

In an instant, this hill seemed to be without any creatures!

Those blood-stained palms struggled gently, and the earth shattered!

Then there was an ancient coffin to share. The wooden coffin is simple and unpretentious, like a burial place for mortals.

But in the coffin, there is a young man with a blank face and short hair lying down. His eyes are slowly opened. A pair of eyes are like stars falling from the sky, black hair is shiny, without any impurities. !

He slowly stood up from the coffin enjoyment, and his eyes swept away!

"Thousands of years! I didn't expect that I would be back again! The blood covered the sun and obscured the way of heaven! Back then, my plan really didn't have any omissions!"

The young man muttered to himself.

In his body, what Fang Yue sensed was the cultivation realm at the peak of the heaven and earth realm, but the aura exuding from him was like a black hole, which was bottomless.

This is a strange feeling, his strength and realm are extremely mismatched.

Even Fang Yue felt that his scalp was numb!

"Thousands of years of slumber, in exchange for today's awakening! The years are merciless, although I am stealing the sky and changing the day, but after all, the years have swept away too much vitality! If I want to restore my peak, I need to absorb enough life essence!"

The young man muttered to himself, his icy eyes swept around, and he paused slightly where Fang Yue, Sima Xiao and others were hiding.

Immediately, the corners of his mouth curled up with a playful arc!

But the next moment, his gaze drifted to a farther direction-the Demon Barracks!

At the moment the young man's eyes fell, Fang Yue knew that he had been thoroughly seen through by the opponent! What is holding interest, what is hiding, in the eyes of the other party, it is like a joke left by a child's play!

Under that wise gaze, they had nowhere to escape.

It's just that the young man seems to be because of his race, but also because of other reasons. Nothing to do with them!

Fang Yue and others continued to dormant.

This kind of standing still and not irritating young men seems to be the best way!

The young man looked up at the sky, his heart seemed to be surging endlessly!

He raised his left hand and opened his five fingers, as if he was going to appear in the sky and sunlight!

He seems to be cherishing something and mourning for something, but he was immersed in the faint sadness for not too long, and there were teams of demons rushing out amidst killing and shouting. !

The crazy roar, to the young man, seemed like yesterday's lament!

He has returned to that crazy and reluctant era!

The young man's eyes were blurred, and he didn't have any vigilance for those demons who were waving their sabers and getting closer.

The footsteps are approaching.

The sword and the shadow fell on the body. All the weapons, get out of their hands, change directions, and kill their former masters!

Chapter 295: Mysterious young man

Flop, flop, flop!

Heads rolled to the ground!

Blood, surging from the neck like a fountain!

The young man remained silent, immersed in memory.

But on the ground, the blood that spewed out seemed to be the sea of Baichuanhui, flowing towards his feet!

The hazy light of blood engulfed the whole body of the young man, and his pale complexion gradually became blushing! Those dead demons, the vitality that has never dried up, all become supplies for young men!

Even if you were asleep, even if you just woke up.

Young men have never been weaker than anyone!

He is like a true demon standing in the world, this is a look back, a raise of the hand, you can shake the master of the blockbuster to death!

Those demons are not afraid of death, and the sound of rushing is still endless!

In their eyes, this young man is the human race who came to attack the camp. If he were alive, he would be unsafe in the entire camp!

The young man just glanced at them lightly.

There was a look of disgust.

"It's really disappointing. I have been sleeping for such a long time. I didn't expect that these demons would still be as usual as usual!"

The young man said to himself, casually, he slowly leaned down.

A pair of large palms touch the ground.

The whole land, at this moment, seemed to be connected to his flesh.

The blood-colored light, with his hands as the source, continuously spread out toward the distance! A radius of a hundred miles, a **** glow!

A pair of palms broke out from the feet of every demon! The palm grabbed the opponent's wrist.

The vitality in those demons was vented to the palms of both hands like a pierced ball!

In a blink of an eye, an extremely strong and powerful Demon warrior has all become skinny corpses, no matter innate or in the world, all creatures are not immune!

All five thousand demons have fallen.

Even most people have never even seen the appearance of a young man!

What is this method?

Almost a terrifying curse!

Absorbing the blood and vitality of others is even more terrifying and trembling than the most evil devil in the legend! The blood light on the young man's body suddenly became rich, and every inch of this blood light represented a fresh life of the demons! After that, the blood light gradually disappeared and

was absorbed by the young man. The flesh and blood of the young man began to plump up, and his short half-inch head was changed into a long black

Hair hanging down, extremely thick!

His breath has not changed, he is still at the level of innate peak! However, this innate pinnacle is even more terrifying than the so-called strong men in the innate list that Fang Yue has seen!

Among all the congenitals he has seen, the only one who can compare with this young man is probably the only insect king.

The same unfathomable, the same monstrous means!

The young man looked back again and glanced at the land where he once slept.

Then he turned his head, his face resolutely took steps, three steps in two steps, and disappeared to the edge of Fang Yue's vision!

He left an empty warehouse.

There is also a terrifying mummy!

After a few breaths, Fang Yue finally determined that the terrifying young man walked away and never looked back. Just dared to move and walked out of the hill!

"Who is this man? His combat power is really terrifying! If he makes a move, who else would dare to rule the roost by an innate level creature!"

Fang Yue was amazed. Fortunately, the young man had no ill will towards them. Otherwise, even with Duluth, he might not be able to keep him. Sima smiled and shook his head: "I have read all over the ancient books in the Sima family, but I have never heard of such a man who is too strong! He is not like any of the strong people he knows! Sleeping for thousands of years, if you want to find out his identity, I'm afraid it's from his ancient books

Find among them! "

Fang Yue and Sima Xiao discussed a few words, and finally gave up. Such an existence, since they have no intention of being an enemy of them, they should not ask for boring questions.

For some people, investigating their past is disgusting.

But the end result is not bad.

The five thousand demons are dead, their heads will become the military exploits of Fang Yue and others, and the materials in the warehouse will become trophies in their hands! Under the command of Fang Yue, the werewolf tribe will orderly evacuated the warehouses. The resources in it are endless, and most of them are things that can be shared by ten thousand tribes. Like healing medicine, standard armor, spirit valley, spirit vegetables, dried blood and flesh of fierce beasts, etc., so are magic stones and spirit stones

Pile up like a mountain. All were taken away by Fang Yue!

Resources are divided into categories. Eighty percent of them are at the innate level, and another 20 percent belong to the use of creatures in the heaven and earth realm. Higher level things are not available on warehouse flags. Those things are obviously carried by the strong of the demons. Carry, not in this place!

However, only 20% of the resources used by the creatures in the world realm account for 90% of the value of all resources!

Fang Yue roughly estimated his own harvest this time. If you use the spirit stone to calculate it, it would be a high-grade spirit stone worth hundreds of millions!

If the demons knew about this, they would probably jump their feet in anger.

As soon as the cannon rang, gold was ten thousand taels.

The real war is manpower and material resources!

Fighting in war is just a kind of appearance. If the financial resources are insufficient, then even the soldiers of the demons will be strong and they will not be able to fight!

Fang Yue was reluctant to leave.

This time he picked up a leak, and many of the previous arrangements were of no use!

Fang Yue built a one-way teleportation array and went home!

Array flags, magnets and other array materials were all converged before leaving!

Fang Yue's illusion, if every attack on the camp is like this battle, how much should there be, if you want military merit and merit, and you want trophies and trophies, you don't need to take any risks in the end.

Of course, Fang Yue understood that he was pure wishful thinking!

Such an opportunity can be said to be met and unattainable. Even if it is encountered next time, it is difficult to guarantee that the existence of terrorist youths will not remain hostile to them and will not take action!

Fang Yue wandered back to the headquarters of the Eternal Legion in the ancient city of Yin and Yang.

Yin Susu saw Fang Yue calmly and calmly, and couldn't help asking in surprise: "It's all this hour, your people haven't set off yet?"

Fang Yue smiled triumphantly and said: "We have returned! And we returned in triumph, and destroyed the five thousand demons! The heads have been sent to the military service. This time, I will be destined to be famous in the ancient city of Yin and Yang!"

"came back?!"

Yin Susu's beautiful eyes widened: "Then what about your casualties?"

"No one was killed, not even injured!" Fang Yue was satisfied with Yin Susu's surprised look.

Being able to surprise a saint is no one!

"Then how did you do it?" Yin Susu kept asking, five hundred pawns, annihilated five thousand demon people, and there were no casualties, no matter what era, this is a mythical record!

Fang Yue no longer sold Guanzi, he described the situation he and Simashan had encountered truthfully.

Yin Susu listened carefully, and it was a surprise and a loss!

Surprisingly, she did not expect that there would still be such a strong man in the hinterland of the Demon Race. According to Fang Yue's description, this terrifying young man was probably also a Human Race!

Even in a glorious and prosperous age of talents.

The combat power of the horror youth is also enough to shock the world! If he grows up, he can definitely become the only existence in the human race!

But what made her disappointed was that Fang Yue was a blind cat and a dead mouse, so he was out of luck!

Before, Fang Yue's layout was clever. But according to his description, Yin Susu inferred that even if there were no changes, Fang Yue's winning rate was less than 50% in the end, and even if he could win. That also suffered heavy casualties.

As for such a terrifying youth, it is not something you can meet casually.

Fang Yue won without fighting because of good luck! No one is sure to repeat such a battle!

However, the final result is good.

The soldiers of the Demon Race have many casualties. They can be regarded as wounds and bones. There are also a lot of losses of their materials. After a period of time, it is estimated that it will be difficult to ease over!

Fang Yue also honored the materials he had promised before, and he wanted to allocate 10% of the resources to the Eternal Legion. With these materials, Yin Susu can at least guarantee that thousands of soldiers of the Eternal Legion can make breakthroughs and greatly increase their strength!

One ebb and flow.

Yin Susu finally saw a glimmer of hope in the fog of chaos.

Although the dawn was still faint, it at least pointed her the way!

"Fang Yue, this is the matter. I must give you the best training environment. You are our lucky star. If the ancient city of Yin and Yang can be preserved this time, I will write down a great contribution for you!"

Yin Susu made a promise.

Fang Yue nodded and left!

The reason why he is so good to the Eternal Legion is because of Yin Susu's relationship with the teacher. On the other hand, he may be branded with the Eternal Legion for a long time.

He is proud of the prosperity of the Immortal Legion!

The eternal legion decays, then his life, I am afraid it will not be easier!

Five hundred wolves will return to the ancient city of Yin and Yang, and they will hand in all the materials they have moved from the warehouse without any reservations!

Fang Yue is their employer, so these materials are extremely tempting to them, but the werewolf will not lose his reputation because of these resources!

Although the werewolf never played this time.

But Fang Yue was quite satisfied with his attitude when executing the order!

And afterwards, they didn't show any greed for the spoils.

Fang Yue was very pleased with this.

As a boss, rewards and punishments are clear, which is a basic skill.

Fang Yue didn't hesitate, and directly gave all the werewolves a half-day holiday, and everyone replaced a new set of standard armor. Fang Yue had long been displeased with the tatters on the werewolves before! Just for no reason, he can't change the equipment for the werewolf at will!

Change shotgun.

Each set of armor was acquired by Fang Yue from the logistics of the Eternal Legion!

For his massive military exploits, five hundred sets of innate-level standard armor, in fact, it's not even drizzle.

But those werewolves, from the day they became mercenaries, have always been arduous. Even the most talented of them wear second-hand armor that others don't want!

Putting on his own brand-new standard armor for the first time, it was fake to say that he was not excited. These armors once made Fang Yue greedy. Although it is mass production, there is absolutely nothing to say about the quality!

Chapter 296 The power of faith

Looking in the mirror, he was wearing armor and looked very heroic.

Those werewolves are all excited!

For Fang Yue, they finally had a trace of loyalty, from a pure exchange of benefits to a kind of gratitude and conviction!

Fang Yue was not surprised by this change. The lower the material level, the easier it was to be satisfied.

This is also the reason why Fang Yue chose the werewolf race instead of giving up those diehard fans in those ancient cities.

Although these people don't talk about wealth and wealth, but a little talented person, they will definitely be well trained. There is no shortage of all kinds of resource supplies. If you want to impress them with benefits, it will be even more difficult!

What Fang Yue wants is not a bunch of duplicity mercenaries, but a dead soldier who is loyal to him and can deliver his back!

In this regard, Fang Yue was not in a hurry. He felt like a grandmother wolf, tempting Little Red Riding Hood out of his safe home little by little.

Sure enough, Fang Yue's brilliant victory came out again.

There are more people admiring him in the ancient city. For the sake of morale, the truth is sealed in dust. Everyone thought it was Fang Yue who led the five hundred werewolf guards who made such a great contribution!

The power of faith in Fang Yue's body was nearly doubled.

He has felt the obvious benefits. Nourished by the power of faith, his soul and body are growing at a slow and steady rate every day!

According to Fang Yue's own estimation, if he were to be replaced by an ordinary mortal, he would not need to practice, and he would be nourished by such a strong power of faith. It would only take three years to enter the innate level!

The improvement of strength is only one.

What makes the power of faith even more terrifying is that it nourishes and nourishes the growth of living beings without bottlenecks.

For example, for ordinary people, a physical strength of three hundred kilograms is already the ultimate acquired.

After that, no matter how you exercise, you can't improve it any more!

But the power of faith ignores the existence of this bottleneck. As long as the power of faith continues to nourish, the power of the body can continue to increase.

Three hundred and one kilogram, three hundred and two kilograms...all the restraints will be gone!

Fang Yue was very frightened, he had never thought that this power of faith would have such a powerful effect! How many people are stuck for their entire lives because they are stuck in a certain bottleneck. If you take the road of faith, maybe you can go on!

But why since ancient times, there has never been a shortage of all kinds of strong people, but there are not many people who have truly embarked on the road of faith and left a name in history?

Fang Yue hesitated, he never thought he was so smart, he was far behind those ancient sages. Some things, there must be a reason why the sages finally gave up the road of faith.

Fang Yue continued to read the ancient books, hoping to find some clues.

But outside the ancient city of Yin and Yang.

The demons are almost crazy!

They were attacked by a human race twice, once in the middle of the night, caught off guard, one person's strength, against thousands of demons, was shocked that after they had washed one of their camps, they also killed a strong man in the rotation realm, and finally they were unscathed. Go away!

If only once, forget it. It can be said that occasionally, there is barely a reason to get through. But the second attack on the camp was unbearable! Actually, in broad daylight, they swaggered into the heavy ground behind them. Five thousand soldiers had no one's life, and their deaths were quite tragic. They were soaked up, and even their heads were cut off. Not to mention the warehouse behind them, where

The material is hoarded, as if it was eaten by a mouse! Needless to say, the resources must have been evacuated!

Special code, how come the land was gnawed off in the end!

This Fang Yue is too arrogant and too much!

The Mozu is simply unbearable!

They issued a reward, no matter which ethnic group, anyone who can take the head of Fang Yuexiang and dedicate it to the demon can be exchanged for a world-level ruler.

The price offered here is much more generous than Fang's!

It can be seen that the devil's hatred and hatred for Fang Yue have reached what kind of level!

In that messy camp, a handsome demon boy stood in a former warehouse. His eyes are purple, like gems inlaid, his smile is sweet, his skin is fair, and he is harmless like a young man in his home! This demon boy came from a royal clan of the demon clan, named the star demon clan. People of this group can innately vomit and refine the power of the stars for their own use! The juvenile is one of the best. He is named Xing Bufan, based on the eighth small realm of Xiantian realm, in the demons

, is a famous young genius!

After Fang Yue attacked the camp, it immediately attracted the attention of the demons!

They appointed Xing Bufan to come and deal with Fang Yue's affairs. It is best to kill Fang Yue with the same realm before the three armies. In this way, Fang Yue's influence on the reputation of the demons is washed away!

There was an old woman beside Xing Bufan, her hair was pale and her back buckled.

The years have left countless wrinkles on her face, like a thousand years of wealth, and almost can't see the style and Yinghua of the year.

Although she is old, the demons and soldiers who came with her are all respectful, because this old woman is the guardian of the star. Although she has little lifespan, she can win a few in the last time of life. A genius or a peerless strong man was buried.

"Old lady, I don't have much lifespan. Why don't I kill the kid of the human race? Even if the saint of the human race says that I broke the rules, I can apologize with death!"

The old woman's voice was gloomy, with a slight sluggishness.

Murderous intent splashed in her muddy eyes. She didn't want Xing Bufan to take risks. Xing Bufan was what she looked like from a young age.

It is not worth it to risk your life for a humble human race. The blood of the Star Demon Race is noble, far from being comparable to a human race wild kid who doesn't know where he came from. Xing Bufan shook his head slightly: "Fang Yue is my opponent, none of you should move. Killing him is not the goal. The most important thing is to save my face for my demons. The demon army was killed by a human innate. People turn their backs on their backs, and it is a joke to say such things!

Among them, the status of my demons is not low, and I definitely cannot lose my reputation because of this! "Xing Bufan said, openly and domineering: "Fang Yue is not an opponent in my opinion, but a small ant, too humble, he can shoot to death by raising his hand!" What you really want to watch out for is the killing of the five thousand defenders this time! Although this person is also the aura of the Innate Realm, it is definitely not Fang Yue's little jumping beam

Ugly can be comparable! Once he appears, he must be stifled strongly! I have a hunch that if this person grows up smoothly, he might become a confidant of my demons! "

The old woman was slightly startled and looked at Xing Bufan and said, "Isn't Fang Yue who leveled the warehouse?"

Xing Bufan sneered, "Fang Yue is just a guise. He is far from having the courage to slaughter five thousand demons with one hand! I am familiar with his aura. Although he was also there, he just moved it inside the warehouse. Various items!"

Xing Bufan opened his mouth, and he was nailed.

Because the old woman knows that the star is extraordinary, and what he is best at is astrology, he can foretell things that others can't know!

"I just wanted to restore the scene of the day with the power of the stars, but it was blocked by an inexplicable force! The person who shot is very extraordinary, and there must be an incredible power behind him!"

Xing Bufan's divination became more and more accurate, and some of his personal inferences were mixed in it.

"Tomorrow, I will slay Fang Yue for me and fight in front of the three armies! In a life and death battle, only one person and I can survive!"

Xing Bufan spoke domineeringly.

A strong attitude is heart-shaking!

The old woman also wanted to dissuade Xing Bufan from thinking about it.

But in the end, Xing Bufan's attitude resolutely insisted on confronting Fang Yue with life and death in front of the three armies!

"Well! Since you are so resolute, the old woman will no longer block it! But it is extraordinary, once you are in danger, the old woman will save you even if you don't fight for the last three to five years of life!"

The old woman's eyes flickered, as if she had made up her mind!

Xing Bufan didn't open his mouth, but just a white and delicate hand, caressing his waist, the star war knife that hadn't been unsheathed for a long time!

In the ancient city of Yin and Yang.

In a conference room.

In the ancient city, representatives of various forces sit around.

Next to a small round table, there are six people who represent different forces!

Yin Susu, the representative of the Eternal Legion, Fang Yue stood beside him, Tuobachang, representing the defenders of the ancient city. Although the overall strength is not very good, it is also known as the army of one million, which cannot be ignored. Strength!

The remaining four are actually familiar faces. Li Si represents the Vientiane Pavilion and the Vientiane Pavilion. Although it is called neutral, it is the strength of the real human race. Now the demon army is approaching the city. On behalf of the Vientiane Pavilion, Li Si has sent materials worth 30 million high-grade spirit stones! This is a kind of heart, but also a generous gift.

For the city, it can be said that it is sending charcoal in the snow! Next to him, Sima Xiao stood sideways. No matter what, Sima Xiao was from the Wanxiang Pavilion. It is said that he has done well in business during this period and has been promoted to the qualifications of fifth-class deacon! The power in his hands has greatly increased, and he is a rookie! Fairy Gu Yue, represents the immortal empire, she is a beauty, and she leads the elite of fifty thousand immortal empires! Although the undead empire is based in the mundane, its true heritage is unfathomable! They do not participate in the disputes among the practitioners, families, and sects. Usually located in the corner, looking up

Relying on the boundless territory, cultivate the talents of the human race from generation to generation!

Goodbye to Fairy Gu Yue, her cultivation base has been raised a bit, she is brave, and even a strong man on the fifth step of the world realm!

Standing next to Fairy Gu Yue is a female general. According to Fang Yue's inference about the breath, this female general should be a powerful person. She is the guardian of Fairy Gu Yue, reflecting the immortal empire's attitude towards Fairy Gu Yue. Pay attention.

Her identity is too big, and a slight loss will cause an unpredictable earthquake in the undead empire!

Xuan is also present this time. He represents the power of the family in the world of practitioners. Although the family is at odds with the Eternal Legion, it has even reached a certain level of difficulty. But in terms of face, they still sent a symbol of ten thousand disciples to help. But these disciples of the aristocratic family only obeyed the orders of Xuan and one person! The specific role it can play is unknown!

Chapter 297: Enraged

Fang Sanshou stood by the side of Xuan and looked at Fang Yue with a bitter expression on his face.

He hadn't forgotten the previous loss, and he was still thinking about finding an opportunity to get back with revenge, so that Fang Yue might die!

There is also a face that is not very familiar, belonging to a female cultivator of a powerful state. This is a Taoist aunt who looks very sorry to the audience. She is just an aunt's face, full of freckles and pleats.

The female cultivator looked at Fang Yue, also full of bitterness. She was the representative of the sect in the world of practitioners.

Liuhe men Situ Jing!

Fang Yue has a big hatred with her! Before, Fang Yue robbed Liuhe men's disciples in Yan State, don't mention it! In Yandu, Fang Yue took advantage of the fire and robbed him. She was the leader of Liuhe men! Fang Yue's blackmailing, almost stripped off her pants! The shame of that day made her almost crazy! And it's not over yet, Baili

In the secret realm, Yan Dong slaughtered by Fang Yue is her personal disciple!

Situ Jing's greatest glory ever!

After including Yan Dong as his disciple, Situ Jing treated him as if he was his own, and treated him like a son!

In the Baili Secret Realm, Situ Jing hoped that Yan Dong could comprehend more principles, break through the realm of heaven and earth, and condense a more powerful golden core.

Who would have thought that if Yandong went away, it would be a farewell! Even the corpse is still in Fang Yue's hands and has never been returned!

The shame of being humiliated, the hatred of murder!

Situ Jing couldn't face it calmly!

She came in person this time, and the main purpose was to kill Fang Yue and get revenge. As for supporting the ancient city of Yin and Yang, it was just a cover!

Liuhe men, this time led a total of 10,000 elites to come, of which 10% were masters of the heaven and earth realm, and the remaining 90% were all masters of the eighth and ninth levels. escape!

Of course, this kind of thing cannot be put on the table.

Although Situ Jing's opponent Yue Hen reached the extreme, her eyes were still cold and clear. Put all the light on the negotiating table!

"This time, I think it is feasible. Let Fang Yue be a decoy to kill the prince of the Star Demon Race! Xing is extraordinary, and it is listed on the black list of the Demon Race. Although the ranking is not high, it is definitely a bane! "

Xuan was sitting together with a serious face. The Mozu sent a challenge book and wanted to send Xing Bufan to fight Fang Yue at the same level tomorrow morning!

Everyone here understands that this is definitely a feast.

Even if Fang Yue can really win the battle, the Demon Clan will not let Fang Yue come back! They will definitely find various reasons to take action and kill Fang Yue in the bud!

He used to sweep the face of the Demon Race too harshly, and the talent and potential are all top-notch. It is impossible for the Demon Race to let such a human talent grow up freely!

"Second! It's about the face of the human race. If I am a few hundred years younger, I will play in person! Fang Yue, this is a performance opportunity given to you by the Demon Race. You must take it well and don't disappoint everyone's trust and expectations!"

Situ Jing squinted, looking very optimistic about Fang Yue!

But in my heart, I was already happy, and being able to kill someone with the help of a knife, the best result!

Let Fang Yue give the head under the hands of the powerful demon clan, and ruin his reputation!

The Eternal Legion, the Immortal Empire, the Vientiane Pavilion, the Dan Pavilion, and the Taiyi Sect are all standing by Fang Yue's side, and there are some old guys who are about to die, their attitude is very unclear.

If someone dared to move Fang Yue, they might be hated by those old guys!

It's better to let the Demon Race take action and kill Fang Yue. When that happens, even if they want revenge, they can't find a specific target!

Human Black List... Hey, Fang Yue is definitely dead this time!

The demons have a reward list for human Tianjiao.

Terrans also have black lists, which are specially used to reward demons!

Anyone who is a bit famous among the demons is on the list. Among them, there are tens of millions!

Each person has different potentials according to the ranking level, and the corresponding reward amount is also different!

On the list, there is no bounty, and the corresponding training resources are hard to buy with various spirit stones!

Xing Bufan corresponds to a bottle of Protoss Liquid, its value is amazing! It is specially prepared for practitioners with the spiritual roots of stars! After taking it, it can make the level of the spiritual root skyrocket. It is said that after taking the Protoss liquid, it can still be pure! Make skin and bones metamorphose! Able to attract the power of stars and temper oneself! It is extracted from thousands of meteorites

The essence of the substance. Can meet but not ask!

Fang Yue was very interested in Xingling Ye, which was simply a reward specially prepared for him.

But seeing the eagerness of Situ Jing and Xuan all jumping up and down, Fang Yue felt greasy and crooked in his heart.

Even if he wants to accept this challenge book, he is not willing to let the wishes of these two people succeed!

Fairy Gu Yue's beautiful eyes flowed and stopped for a moment on Fang Yue's body.

Di Yi is now returning to the Immortal Empire, and she has naturally heard about the relationship between Fang Yue and Di Yi.

Before leaving, Diyi even told her that she must take good care of Fang Yue.

Fairy Gu Yue is a woman chasing a man, so naturally he would not take Di Yi's words as a buzzword!

In her beautiful eyes, ripples continued.

"I think the Mozu must have a purpose in this move! Maybe it is to kill Fang Yue to preserve his face, or to collude with some people to avenge them! In short, it cannot be done according to the enemy's intention! Otherwise, once it falls into Trap, it will be too late to regret!"

Fairy Gu Yue's words are quite sharp and have some pertinence.

Xuan and Situ Jing made their faces all over again. They looked at Fairy Gu Yue and roared: "Fairy Gu Yue, what do you mean? To be clear, why bother referring to mulberry and huai!"

Situ Jing was the most uncomfortable, she glared at Fairy Gu Yue.

Fairy Gu Yue didn't care, she seemed to ignore Situ Jing. She lowered her head, sipped a sip of tea, and pondered for a moment before she said again: "Fang Yue didn't even make the Human Race's innate list, and was not qualified to fight on behalf of the Human Race! On the contrary, it is Liuhemen, who is a great teacher of the Human Race, and is a domineering blessing on weekdays. , Scoured the land and cultivated many days on the innate list

only! Instead, let Liuhemen make a little contribution to the human race, send a master on the innate list to take action, sweep out the stars, and show off my human reputation! "

Fairy Gu Yue has thorns in his words. The Immortal Dynasty has always looked at the fact that these aristocratic families and sects of the cultivator's family are not right, and they are tit-for-tat. It has not been a year or a half!

Fairy Gu Yue said.

Situ Jing jumped immediately: "You little girl, did you talk to elders like this? I think you lack tutoring. It is necessary to find someone to take care of you!"

Situ Jing coldly snorted, he has shifted from discussing the matter to the personal attack on Fairy Gu Yue!

"Lack of tutoring? I think you should talk to my brother! He just broke through to the realm of heaven and earth. He is just boring. If you Liuhemen are willing to send someone out to talk about upbringing, he should be very happy!"

Fairy Gu Yue still doesn't have any panic or irritation. If a mad dog bites you, you don't need to return it immediately! If you can hold your breath, you can finally have a big picture!

In this regard, Fairy Gu Yue thinks that her self-cultivation is good enough!

"Insect King that lunatic!"

Situ Jing fell silent when it came to the King of Insects. She was even afraid to speak again.

The word insect king is a pain that many sects never want to touch!

His combat power is far from being measured by his realm! With a wave of his hand, he opened the plane channel leading to the worm world, and the endless zerg races were overwhelming, endless!

He is backed by the undead dynasty. It is said that there are saints secretly guarding the way. People above the rotation state dare not attack him, and under the rotation state, no matter how many people there are, it is also a gift for him! Moreover, the insect king is a madman. Cruel, unscrupulous.

Six months ago, a subsidiary sect of Liuhemen angered the insect king because of a little profit.

As a result, that sect went up and down overnight, and tens of thousands of disciples were wiped out, all reduced to dry food in the mouth of the worm!

Situ Jing herself is not afraid of the Insect King, but she still has many disciples.

The insect king was angry and bloody.

Situ Jing was killed by the insect king and turned into a polished commander, and it would not surprise anyone! "As for Fang Yue's shot, I think it needs to be considered! Fang Yue's talent no longer fights, but in other aspects, he has studied alchemy, refining tools, and various side sects, and he has studied deeply! Especially his lightning pill can create lightning roots and improve bloodline,

Upgrade your qualifications! If he had something good or bad, it would be a great loss for the entire human race! "

Li Si also spoke, disapproving of Fang Yue playing.

Fang Yue is a long-term partner of Vientiane Pavilion, and only Fang Yue produces many resources!

If Fang Yue falls here, it will mean a huge loss for Vientiane Pavilion! The amount of spirit stones involved, measured by the above-mentioned spirit stones, will be at least hundreds of millions!

"How can a young **** who is not doing his job stand up to Master Li Si's evaluation? His life and death alone will not affect the honor, disgrace and prosperity of the human race! There are some things that Master Li Si said is a bit too much!"

Xuan, a voice of compassion! Belittle Fang Yue.

Li Si sneered: "Little bastards? If the Fang family can have such ten or eight talented bastards, Fang Yue will play, I will never stop!"

Li Si almost choked Xuan to death with a word.

Just one Fang Yue!

No other disciple of the Fang family can compare with Fang Yue!

On the negotiating table, the smoke of gunpowder was suddenly strong!

In the end, only Yin Susu and Tuobachang did not make a statement! Yin Susu pondered for a moment before he said: "Fang Yue is my disciple, emotionally speaking, I don't want him to take risks! His potential is too great, and he has fallen here. In the future, the human race may lose a stunning power. 者! But as a high-ranking member of the Eternal Legion, I hope he can fight for the Terran

Famous! Public and private conflicts, I delegate the decision-making power to Fang Yue. "

Immediately afterwards, Tuobachang also expressed his opinion.

He believes that Fang Yue is the hero of the ancient city of Yin and Yang. He is a human race, and Fang Yue has done too much. There is no need to take risks again, knowing that it is a trap, let Fang Yue jump!

The final decision is in Fang Yue's hands.

Fang Yue flatly rejected this challenge.

Why should he listen to the demon clan's arrangements? Do they want to make an appointment?

If they let Fang Yue die, would Fang Yue die obediently?

This is Fang Yue's original words.

It sounds harsh!

He doesn't care about the evaluation of the outside world, the previous two impressive feats are enough to demonstrate his value! Both Situ Jing and Xuan were unhappy, and they were persecuting from a moral perspective.

Chapter 298: God logic

"Fang Yue, as a human race, how can you be timid! Your shame is not only the face of our Fang family, but also the face of the entire human race!"

Xuan spoke very hard to hear, and directly pushed a duel to the righteous position of the human race.

If Fang Yue avoids the war, it is tantamount to humiliating people! "Lost the Fang family's face? I'm happy! Anyway, since I entered the Fang family, I have been persecuted every day, and I haven't looked at any resources or training! And you old stick, don't stand up and talk! If you really want to fight for the glory of the human race, hurry up, fight for me, and tie

The army of the demons! "

Fang Yue was not afraid of this threat at all. Moral kidnapping or something, he has encountered so many!

As long as you are shameless, no one can force you to shame!

Situ Jing's face became darker: "You arrogant kid, if it wasn't me and you caused the disaster, how could the Demon Race be so aggressive and let you play! If you cause things, you have to wipe your butt! The Demon Race will let you play. You go, and only a triumphant victory can save people from shame!"

Situ Jing confessed a divine logic.

Even Fang Yue was stunned!

He doesn't play, it's entirely his own business, how can he get involved with the previous things. "You said that, before I single-handedly killed the demons, it was all my fault? The demons shouldn't be killed, but to treat them as their ancestors like you Liuhe men? I said, what about these demons? The son ran out of the ancient city! Could it be that you brought the demons here?"

Well, I think this is very possible according to your conduct! "

Situ Jing stopped being reasonable, and Fang Yue began to slap hats.

Situ Jing's face turned darker: "Fang Yue, this meal can be eaten indiscriminately, but you can't talk nonsense! You are slandering, with this sentence, I can kill you!"

Situ Jing was murderous. Reminiscing about the previous hatred, she raised her palm.

Fang Yue is dead. Situ Jing has given up a bit!

"Who are you going to kill? Tell me clearly!"

Yin Susu stood behind Situ Jing, the air condensed. Road rolling.

Situ Jing's body was stiff, unable to move! The whole person is like an insect sealed in amber!

Yin Susu had long seen that Situ Jing and Xuan were not pleasing to his eyes. With her presence, these people dared to make things difficult for their disciples and let him die.

These people are crazy and arrogant.

Even though the factions are opposed, she is also a strong man in the Saint Realm!

Yin Susu is very protective of shortcomings. Because of her face and the overall situation, she never made a clear move to help Fang Yue.

But this time, she really couldn't bear it!

She wasn't going to make a move, this Situ Jing was afraid that the opponent Yue would really make the move!

Situ Jing's eyes widened, she opened her mouth, but she couldn't even say a word! This time, she was really scared, because she felt the huge threat of death!

"Since you are going to oppose each other, then completely oppose each other and tear your face away! From now on, I will kill one of the disciples of Liuhemen and Fang family. If you have the ability, don't go out! Otherwise, be careful of your own life!"

Fang Yue was also annoyed, he kept regressing, trying hard to calm down.

But I didn't expect that Fangjia and Liuhemen were always aggressive and regarded him as an ant! Want to be crushed to death, beheaded!

At this point, Fang Yue understood that giving in was useless!

He stood out from behind Yin Susu, a pair of cold eyes swept away!

"Snapped!"

Xuan clashed on the shore, and the negotiating table was instantly cracked.

"Fang Yue, you are so bold! Openly betrayed the Fang family and provoke Liuhemen. Are you trying to become a traitor to the entire human race?"

"Traitor of the human race? You can't be convicted just by the two of you! But there are some things, I want them to appreciate it!"

The corner of Fang Yue's mouth curled up with a sneer.

After completely tearing his face, Fang Yue seemed to have broken some of the depressive shackles on his body, making him more relaxed than before!

"I found this from the warehouse of the demon! The jade pendant dedicated to Liuhemen disciples! And this, the storage bag of the Fang family! I have long suspected that this demon will come suddenly, whether it will be human Nei Ying! These things seem to have been telling me the answers and truths of some questions!"

Fang Yue took out two things, a ring-shaped jade pendant and an empty storage bag.

On the jade pendant, the Saint Laurent petals exclusive to Liuhemen are exceptionally bright and colorful! The big square characters on the storage bag are also quite amazing!

"Fang Yue, what's going on?"

Yin Susu let go of Situ Jing.

If Fang Yue's remarks are confirmed, it will cause great waves in the human race!

The Fang family and Liuhemen are all first-class forces that have been standing for thousands of years in the human race, and the interests involved are almost limitless!

They colluded with the demons and were implemented, and the two first-class forces will be overthrown and become the dust of history.

In the face of the interests of race, there is no favor at all! "Originally, what I didn't want to say, I just wanted to remind the two powers secretly, so that they would know when they lost their way! But I didn't expect that they were so persistent, so I had to break the news! These two things, I am sweeping the demons. I found out in the warehouse, what do they mean, everyone

It should be clear! Although, having these two things does not mean that the two major forces have participated in this matter. But at the very least, it also represents some kind of suspicion! "

Fang Yue opened his mouth, with evidence and utterance!

It's the turn to pour dirty water and moral attack.

Compared with Situ Jing and Fang Yue, Xuan Dao is too far behind!

If Fang Yue didn't make a move, he would definitely be astonishing!

"But, do you have any way to prove that this thing comes from our two families? Maybe you planted and framed it, or you deliberately figured out a way to divert everyone's attention, maybe?"

Xuan's face was completely gloomy at this moment!

He clearly realized that with Fang Yue's entanglement, it was absolutely impossible to aimlessly.

After this move, there must be a coherent back hand. Combination fists are Fang Yue's most proficient combat method!

"Slander, this is slander! How dare you say that my dignified Liuhemen colluded with the demons, wouldn't you be afraid of being struck by lightning?"

Compared to Xuan's calmness, Situ Jing has completely lost his due calmness!

Although they were all standing on the same front, Xuan and the others couldn't help casting a contemptuous look at Situ Jing.

Standing with such a mindless mad woman really insulted his reputation!

"Is it slander? Haha! If there is no tangible evidence, I will talk nonsense? Yesterday, did Senior Situ have been in close contact with the demons! And Fang Sanshou of the Fang family seems to be a general What materials, hand it to the Mozu!"

Fang Yue didn't panic. Take out his so-called evidence!

Suddenly, Fang Sanshou and Situ Jing's expressions changed in shock! It's pale!

"No, no! Fang Yue, you are talking nonsense!"

Fang Sanshou had already begun to refute before Fang Yue had followed.

Xuan glared at him fiercely: "Don't do bad things on weekdays, and don't be afraid of ghosts knocking on the door in the middle of the night! This Fang Yue buckles his hat indiscriminately. If he wants to say, let him speak! In the future, everything he said will Will be the evidence of his punishment!"

"No, my lord!"

Fang Sanshou seems to want to quibble. But every word I wanted to say was blocked by Xuan's team!

Xuan's heart is peaceful, and he has indeed not had any contact with the demons recently! Just let this Fang Yue say it, when it's over, his death date is also coming!

Xuan's heart still sneered. However, Fang Yue gave Sima Xiao a wink, and Sima Xiao immediately said: "Fang Yue's matter, I am willing to help him verify! All the iron evidence is not as good as we have seen with our own eyes, and it is more real! This future is uncertain. , But the past cannot be changed! As the saying goes, there is no

The impermeable wall, if you pay a certain price, everything in the past can be fortune-telling! "

Sima smiled.

The blood on Fang Sanshou's face faded, as if he had lost his soul, he fluttered and slumped on the chair behind him.

"No..." Fang Sanshou moaned weakly.

At this time, Xuan and his colleagues finally realized that Fang Sanshou's performance was wrong.

He wanted to ask, but it was too late.

Fairy Gu Yue looked at Sima with interest.

"Are you still fortune-telling? It doesn't matter, this matter involves the righteousness of the human race! If this Fang family and Liuhemen really have something to do with the demons, my undead empire will naturally call the shots for you!"

Fairy Gu Yue spoke.

It gave Sima Xiao enough confidence, her aim is self-evident!

However, Fang Sanshou and the others did not have any solution.

From the standpoint of human righteousness, no one can be partial!

"Predecessors, as a friend of Fang Yue, if I fortune telling that the Liuhemen and the Fang family have something to do with the Mozu, then the final result will definitely be doubted! If I cheat, if any of the seniors are also proficient in this Regarding Taoism, we might as well take action to show that Fang Yue and I are innocent!"

Sima smiled and clasped his fists.

What he said was very polite.

The people present looked at each other, gossip divination, and nothingness, which is the most difficult to comprehend among the three thousand ways!

They are all proficient in fighting, but when it comes to these delicate tasks, their eyes are dark.

In the end, Li Si walked out of the crowd.

"As a member of the Vientiane Pavilion, I have participated in the formulation, deduction, and divination techniques of the world ranking list, but it is a little bit the same. May I assist Sima Xiao and divining the past. I believe I will use the character of the Vientiane Pavilion as an example. Guarantee, you should be able to trust it!"

As soon as Li Si said this, who would dare to say something.

Among the human races, the Vientiane Pavilion has a transcendent status and is always neutral. No matter who you can't trust, you can't trust Li Si!

Everyone nodded their heads to express their conviction.

Sima laughed and heard the words, immediately set up an offering table, lit the sandalwood and the grass and began to burn. The fairness this time is not a lot, and in terms of origin, it is also commonplace. Because divination in the past is much less expensive than divination in the future. The future is misty and unpredictable, but the past is fixed and no one can change it! In addition, their divination is not very strong

!

If you are replaced by a leader or someone who is proficient in this way and cover up the secrets, the difficulty will suddenly skyrocket!

The sacrifice disappeared.

The grass is lingering.

The smoke fills up and finally forms a pattern!

This is the scene that Fang Sanshou experienced yesterday, frozen at the moment when he raised his hand with a black demon. The black demon clan stuffed a black storage bag into Fang Sanshou's hands, and Fang Sanshou took out a jade slip and handed it to the demon clan!

Chapter 299: Get stolen

The demon's appearance and posture are too clear!

Black scales and horns can be distinguished even by a three-year-old child!

At the moment of image construction.

Xuan's group also seemed to be exhausted from strength. He sat down in his seat, his whole person limp, very weak!

This picture is maintained for only a moment before it disperses.

Immediately afterwards, what condensed was the scene of Liuhemmen Situ Jing trading with the Mozu.

Situ Jing's expression was arrogant. As usual, she walked to the front of a demon and handed a purple stone to the demon!

It is still the black demon.

Only this time, the black-clothed Demon Race was extremely humble towards Situ Jing!

This humility is not a respect for strength, but as if the lower level is facing the higher level!

That kind of attitude, related to what I said before, could not help but make people appear together!

Eventually the image disappeared.

People's thinking continues!

"People get stolen goods, I don't think there is much to say!"

Yin Susu spoke again, this time she was full of confidence! No one can stop it when it comes to the safety of the human race.

Any excuses will be trivial in this matter!

Xuan, Fang Sanshou, and Situ Jing were controlled by her on the spot. In front of the saints, their proud strength was swept instantly like a chicken, which was extremely ridiculous!

Yin Susu found items related to the Mozu in the storage bags of Fang Sanshou and Situ Jing!

Xuan is very clean.

However, he and Fang Sanshou have a close relationship, but they can't wash away the suspicion!

"It's not like this, it's not what you think! I don't want to betray the Human Race, I just want to kill Fang Yue!"

Fang Sanshou's hysterical defense.

He understands that once his charges are fulfilled, he will face a dismal fate!

But his final struggle was too weak!

Regardless of his motivation, as long as he has trade and contact with the demons, he will not be tolerated!

Situ Jing's face was calm, but under that calm, it was extremely crazy.

"Hahaha, you are all going to die! None of you can live. I have already handed over the defense plans in the ancient city of Yin and Yang to the Mozu. In less than half an hour, this ancient city of Yin and Yang will be destroyed! Fang Yue, Your agency calculates, kills my disciple, and humiliates my disciple!

But you can't think of it anyway, this challenge is just a cover! Whether you win or lose, you will eventually fall! Because my demons are swept by the army, how can anyone talk about it! "

Situ Jing's body exploded.

Surrounded by evil spirits!

Her unpleasant face immediately became even more ugly!

She is actually an old woman. Bent over! A crutches in his hand touched the ground. If Xing Bufan saw him, he would be surprised to find that this old woman and his guardian actually looked exactly the same!

"Arrangement map? Are you talking about such a thing?"

Fang Yue's face was calm and he took out a purple stone. The appearance of this stone was exactly the same as the pattern that Situ Jing had handed out!

Situ Jing's eyes widened, and his whole body was shaking.

"It, how could it be in your hands! Fang Yue, who are you? The defense plan I carefully stolen was not sent out!"

Situ Jing muttered to herself, like crazy!

"No, no, no, the defense plan has been sent out! It's just that it's not your deployment plan, but my defense plan!"

Fang Yue sneered, and at the same time was playing with the coquettish purple stone.

Situ Jing's face changed again. She was able to lurch in Liuhe Gate for so many years, and naturally she would not be as rough as it appeared on the surface.

What is the deployment plan sent by Fang Yue?

She can think of it with her feet.

Yin Susu did not expect things to develop to this point!

The messenger of Liuhe Gate will actually be the undercover of the Mozu who have been dormant in Liuhe Gate for many years. Fang Sanshou also rebelled against the human race and hooked up with the demons. "Teacher, this ancient city of Yin and Yang, give it up! The Demon Race who traded with Fang Sanshou and Situ Jing has been killed by me! From my mouth, I got information that this time Demon Race is bound to win the ancient city of Yin and Yang! The army of one hundred thousand demons is just a superficial number! They still have one hundred thousand complete

With the help of Situ Jing, the elite teachers composed of the heaven and earth realm and the rotation realm have lurked outside the ancient city of Yin and Yang. Once a war starts, the ancient city of Yin and Yang will be destroyed! Perseverance is one thing, but death is another thing! "

Fang Yue spoke. Tell everything you know.

Yin Susu's heart is full of waves.

"Why didn't you say such an important thing earlier!" "Don't let these two clowns play their roles. Do you think there is room for me to talk? Yesterday, Xuan led the disciples of the family into the city. I I

have seen Sima and I laughing in the divination. In the scene I saw, the costume of the human corpse!
Fate is hard to move, the teacher listens to me.

Persuade, give up! "

Fang Yue is bitter!

This is the only thing he can do.

Fang Yue has never considered himself a big man, and he is not a hero who can save the world.

If he can save, he may only hope to save the people around him.

Sima Xiao, teacher, subordinate of the werewolf tribe, Fairy Gu Yue, and nothing else!

The entire conference room fell into silence.

At this time, Xuan suddenly opened his eyes, revealing the exquisite brilliance! "If the radical leader can believe me, I would like to fight with Fang Sanshou and lead the disciples of the family to stop the demons! Use our blood to return the Fang family's innocence! Although our Fang family is aimed at Fang Yue, it has never been born. Rebellious heart! This transaction, Fang Sanshou was indeed confused! But I

Hope, Master Radicals can give us a chance to regret! "

Xuan said earnestly.

An old face exudes a different kind of brilliance!

Not only Yin Susu, even Fang Yue was moved!

There was already a trace of death in his eyes. He is willing to use his life to pay for the sins committed by Fang Sanshou!

"Report! The guard sentry of Yinyang Ancient City, there is important news to report!"

At this time, in front of the meeting room.

A defender from the ancient city of Yin and Yang came to report!

"In!"

High-level meeting. As long as there is nothing extremely important, the defenders will certainly not interrupt. As long as they come, there must be important information!

A soldier trot quickly and reached Tuobachang's side. Attached to Tuobachang's ear, whispered to report!

When Tuobachang heard this, his face changed slightly!

"Fang Yue's words are true. Indeed, an army of one hundred thousand demons suddenly descended, trying to treat me against the ancient city of Yin and Yang!"

As soon as Tuobachang said this, everyone's face changed drastically.

This news is true, which means that the ancient city of Yin and Yang is really unguarded! In terms of combat power, the two sides are not at the same level at all!

The saint was pinned down, and the fighting power below was at least a realm higher than the human race!

In the end, how did this fight?

Even sending troops is tantamount to death! "If it were me, between the destruction of the city and the simple destruction of the city, I am willing to choose the city! The teleportation array I set up has been set up in the ancient city, a total of 36, and a certain amount of spiritual stones. It can be activated! This is a large-scale teleportation array that can send away five hundred at a time

people! The werewolves in the city, I have sent away! The rest is up to you!

As for the demons, let me delay. Doesn't Xing Bufan want to fight me? Then I will fight him! Whether we win or lose, we can send away at least tens of thousands of people! In exchange for the lives of tens of thousands of Human Race with our Fang Yue's life, this time, I am worth it! "

Fang Yue's red eyes!

This time, others can withdraw, but he can't! Otherwise, a hat that disturbs the military's mind and retreats without a fight will fall on his head, and the mind is sinister!

Fang Yue had learned a lot!

Fang Yue said so righteously!

Let everyone around you be moved!

"Well, this time, Fang Yue, I will stay with you!"

What's your life like for Tuobachang? How about death?

He once watched this ancient city of Yin and Yang flourish with his own eyes, and perhaps this time he has to see it collapse with his own eyes!

The ancient city of Yin and Yang is gone. Even if Tuobachang died in battle, he would drag some demons to bury the ancient city!

"Master Tuoba, don't be like this! Fang Yue is alone, fearless in life and death! But you are the pillar of the ancient city of Yin and Yang, the people of the ancient city of Yin and Yang, when they arrive in a new place, you still need your support!"

Fang Yue persuaded him to speak earnestly, and he seemed to be a different person!

Tuobachang thought twice, and finally decided to consider the overall situation.

"Well, since you two have the intention to make contributions, then I will give you this opportunity!"

Yin Susu gave Xuan a person and Fang Sanshou a meaningful look.

There is not enough time, someone must cut off!

Yin Susu was unwilling to let the people of the Eternal Legion make unnecessary sacrifices because they inferred more things.

In the future, the entire Xuanhuang world is likely to have wars and smoke.

Every trace of vitality must be used on the blade! Moreover, Fang Yue is cunning, no matter who dies here, he can't die here!

Yin Susu will not be fooled by Fang Yue's awe-inspiring attitude, this kid must have already thought of the means to save his life!

"As a member of the Human Race, I, Wanxiang Pavilion, can't contribute too much combat power, but I have all kinds of resources and materials. In this regard, I Wanxiang Pavilion is not stingy!"

Li Si patted his chest and promised!

Vientiane Pavilion will never be stingy in the face of justice.

Moreover, taking 10,000 steps back, for Vientiane Pavilion, even if this ancient city of Yin and Yang needs to consume more resources, what should it do? Their background is so thick that they are not even a mere dime!

"Hey, just wait for your words! Sima laughs, take out the list I gave you!"

Fang Yue spoke.

Sima smiled so hard, he fumbled out a blue-skinned notebook with the names of dense materials recorded on it!

Li Si's face was dark and he felt cheated.

He glanced at the name of the material on it, and immediately interrogated: "Fang Yue, what are you doing? Defending the city and defending the city, why do you want a hundred cans of alien beast blood at the peak of the world? Don't let us down. The trust in you is in your pocket!"

Fang Yue didn't have a trace of timidity, and said awe-inspiringly: "It's that you are rare and weird. I want to set up a ten thousand beast formation. Naturally, I need beast blood essence!"

Fang Yue is a typical nonsense, he doesn't even blink his eyes. There are big people here, why don't you kill them! Li Si didn't bother to care about Fang Yue, anyway, all the material consumption this time would be counted towards the headquarters. If he makes meritorious service, Vientiane Pavilion declares that he is still good!

Chapter 300: A playful scene

"Hmph, I really don't understand the formation, but if you can't achieve results, be careful that I kill you!" Li Si threatened not salty. That is, the order was handed back to the headquarters, ready to send materials.

A green light appeared in Fang Yue's eyes. He had been looking forward to this day for a long time!

Kang Muang, despicable!

"All the ordinary people in the ancient city of Yin and Yang go first, and I am the soldier of the immortal empire!"

Fairy Gu Yue was brave, and seeing the excitement in those big eyes, it was obvious that he was also a war dealer!

In the end, it was decided that ordinary people in the ancient city would leave. There were a total of 13 teleportation formations in the city, plus the 36 temporarily built by Shang Yue. It is estimated that it will take at least one day and one night to send them all away.

Fang Yue is responsible for the battle with Xing Bufan. Efforts to delay time, but the soldiers and troops are the last to leave. If there is not enough time, they will die with those demons!

Everything is finalized.

Fang Yue also prepared a little and stepped onto the city wall!

The people in the ancient city of Yin and Yang, hand over to Tuobachang to evacuate!

Li Taixuan is responsible for arranging the formation in the ancient city, even if it is destroyed or killed, the demons must pay the corresponding price!

Fang Yue ascended to the ancient city, still holding the challenge book of the demons between his fingers!

"Xing Bufan, aren't you going to kill me? Come on! Do it!"

Fang Yue stood on the city wall with a very coquettish look! He has a strong provocative taste.

Didn't even wear the armor!

A strip of red cloth was tied to his head.

At this moment, the demons were approaching the city, and a total of 30,000 horses came out under the wall! Xing Bufan's face was dark, looking at Fang Yue's unsmooth appearance, wishing to slap him to death!

He is admired by thousands of people among the demons. Although he is not the strongest of his peers, he is at least a peerless talent!

His record is outstanding, and he has once killed more than one strong man on the Human Race Innate List.

He has more than one human powerhouse, but he has never been so despised by anyone!

"Fang Yue, if you have the ability, you go down the ancient city and fight with me!"

Xing Bufan is very aristocratic. Although his heart is already burning with anger, he still can't lack the kind of grace that he should have on the surface.

Fang Yue can have no face, but he can't!

In his capacity, how can he have general knowledge with Diao Min!

"Who did you lie to in the battle down the city? The following are all from your demons. If I go down, I won't be slashed by you! There is a kind of you come to the city, let's fight a fair fight, I promise, except No one besides me will attack you!"

Fang Yue is a full-fledged little **** who speaks scornfully.

Some things cannot be broken, but he has no scruples!

"I can't believe you!" Xing Bufan's eyes flickered, and finally he spoke!

"Then I can't believe you!"

Fang Yue pinched his waist and said to Xing Bufan!

The two confronted each other with big eyes and small eyes! Suddenly, before the three armies, there was a scene like a child's play!

Yin Susu stood on top of the city wall, pressing for Fang Yue. She couldn't help but smile, and secretly said in her heart, this Fang Yue's ability to delay time is really strong!

Every time Fang Yue delays a breath, he can safely send away hundreds of people in the city!

This hasn't really fired yet. Fang Yue, Luo Li, has been delayed for almost twenty breaths!

Time is life, which is fully manifested this time!

As an excellent Liu Mang, a qualified bastard, Fang Yue is a top-notch talent.

"Then how are you going?"

Xing Bufan said with a cold face.

"You and I don't trust each other, this battle is difficult to start!"

"Then, let me think about it!"

Fang Yue found a small bench, sat on it, resting his chin in his hands, frowning, and he looked thoughtful!

Time, bit by bit.

Xing Bufan wanted to interrupt repeatedly.

But that was Fang Yue's serious look, but Xing Bufan felt unbearable.

I am a qualified person...

I am a man of good quality...

I am the royal family in the demons, and I absolutely can't do anything to lose points...

It is very immoral to interrupt other people's thinking in the Mozu. My enlightenment teacher once taught me this way...

Xing Bufan's constant self-hypnosis. But in the end it was unbearable.

"Ma De, Fang Yue, are you going to end there! It's almost time for a cup of tea, haven't you thought about it?"

Xing Bufan finally couldn't help but interrupt.

Fang Yue looked at him slowly now.

"It seems a little eyebrow, let your demons retreat ten kilometers, let's fight to the death under the city!"

Fang Yue finally spoke.

He procrastinated long enough.

If you continue to meditate like this, it is estimated that the demons will be unable to help directly attack the city! Letting Xing Bufan challenge is just a process, and the real goal is to capture the ancient city of Yin and Yang.

They cannot wait indefinitely like this.

If the army is at war, if you delay a quarter of an hour, there may be countless changes!

Fang Yue's meditation finally ended, Xing Bufan raised his hand and ordered the demon army to withdraw ten kilometers. This is not an unacceptable condition. A distance of ten kilometers is just a distance for the demon army to charge.

Forgive him Fang Yue, he can't play any tricks!

But when the account goes to Fang Yue, that is not the case!

His purpose is not to kill the demon army, nor to turn things around and win by surprise!

Fang Yue's original intention was just to delay time, to make the Demon Race back ten kilometers, at least half a cup of tea, but charge, does it take no time to charge?

For today's ancient city of Yin and Yang, every breath time is precious!

It could mean thousands of lives!

The armed forces withdrew.

Finally stabilized.

Fang Yue was not playing any tricks, floating down from the city wall!

Standing under the city, Fang Yue was dressed in plain clothes with a red cloth hanging on his head. He didn't look like a soldier, but rather a porter!

Xing Bufan looked at Fang Yue's rather unprofessional decisive battle outfit.

I couldn't help but asked with a cold snort: "My demon warrior has always been cheap! Fang Yue put on your armor suit and will die with me!"

Fang Yue frowned. Squatting on the ground almost made a small circle. "You tell me! This is my only battle suit! When I first came to the Eternal Legion, I was put on one. They all have sophisticated armors and swords, and my equipment was squandered before I reported. The third birthday was taken away! Therefore, the uncle in charge of logistics saw me pitifully and gave me one

The cloth strip allows me to be distinguished as a member of the Eternal Legion! "

On the city wall, everyone looked at Fang Sanshou with weird eyes.

Unexpectedly, there is this one!

Xuan covered his face together. He knew that Fang Sanshou couldn't do things well, but he didn't expect to be so stupid.

These are all things done by children, without the courage of adults at all!

Fang Sanshou gritted his teeth and looked at Fang Yue under the city.

At this time, he still remembered the little things before. Is this Fang Yue holding a grudge like this?

Xing Bufan looked at Fang Yue and gave a blank look: "Since this is your armor, let's use it to fight me!"

Xing Bufan's blade hummed. Obviously, his patience was exhausted, and he had no time to gossip with Fang Yuexian!

Xing Bufan suppresses the realm. At the level of the fifth level of the innate, he wants to defeat Fang Yue with the same realm strength!

The white blade is dazzling, reflecting a vast white light in the sun!

Fang Yue was instantly submerged in it, feeling as if he had fallen into a sea of blade light!

"Destroy the Nine Heavens with a single blow!"

Accompanied by a soft moan.

Xing Bufan shot, and on him, the silver armor came down like a **** of war, and the sword in his hand was suddenly ten feet!

The blade is dazzling, as if it can break the mountains and rivers and tear the heavens!

There is nothing to stop the long knife!

Fang Yue's heart shuddered, and the descendants of the Star Demon Race were truly extraordinary.

Similarly, the other party has already stepped into the realm of Tao and Dharma!

What Xing Bufan understood was the path of the sword, such a weapon. Although the level is not high, if you fully understand, the pure attack power is not lower than the ordinary Dao!

"Oh, it hurts!"

Fang Yue avoided the sword's chopping, but the place where he was standing just now was already cracked by a deep seam!

Fang Yue's heart was lingering, and even the earth was easily torn apart, what would be the fate of this sword light falling on someone!

A small stone flew up and fell on Fang Yue's arm.

Fang Yue just screamed. Bare teeth grin, an expression that I am very painful and about to cry!

Xing Bufan regarded it as a kind of provocation. He never missed a knife, and he didn't cut off half of Fang Yue's hair.

As for the stretched stone, the arm that touched Fang Yue was broken into powder.

Who is harder, it's clear at a glance!

"Innate realm, you can realize that, in the future, Xing Bufan will definitely become a dazzling star of the Demon Race!"

Fairy Gu Yue did not hesitate to praise, ordinary people, the world is able to comprehend Dao is a lot of difficulties, countless people are stuck in the Taoist level until sitting.

I have spent my entire life without touching the edge of Taoism!

Innate enlightenment, this is alien glory!

However, Yin Susu showed a strange look.

If Xing Bufan is a genius, then what is Fang Yue, a freak?

Yin Susu kept silent and would never mention Fang Yue's methods. She was watching the changes to see how Fang Yue continued to delay time.

"Two knives open the waves in the clouds!"

If one misses, then another one. Xing Bufan's face was solemn and the long sword in his hand, the cold light swayed, rolling everywhere!

This knife, covering all directions, makes people nowhere to escape, no place to shelter!

The previous one, if it can be described as sharp. Then the artistic conception of the second knife is infinite!

"Dao Guanghe, the night is sparkling!"

Fang Yue looked sternly, putting away his previous joke, he understood that this knife must be resisted, and it must be taken!

The knife shines like a river, sweeping the earth! The sparkling light and shadow are endless.

Fang Yue's knife light collided with Xing Bufan's knife light.

The storm aroused, and the whole ground seemed to be plowed.

The soil was opened, and even the land was missing a layer!

Fang Yue's expression was solemn. This star is extraordinary, and it really deserves its extraordinary name. After walking through the Tongtian Pagoda, Fang Yue sorted out all his moves and secrets once again. The artistic conception of each move was completely different from the previous one!

It can be said that the vast majority of powerhouses in the world realm are far inferior to him when they try their best! Because of different levels, different realms. But this star is so extraordinary, it actually matched him!
