

God of Life 341

Chapter 341: Makino

On the third level of the heaven and earth realm, there is no understanding of any principles. This is also a normal behavior.

Ordinary practitioners, even if they can break through to the rotation realm, generally begin to comprehend the principles of the Tao after the seventh level of the heaven and earth realm.

Every time a realm is raised, the level of the soul will jump once.

If the soul quality is not enough, even if you force enlightenment, the final result will be crazy!

But immediately, the practitioners of that day situation became angry.

"Even if you don't understand the Tao, what should I do? Today I will act against the sky, kill the Tianjiao, and kill the hero!"

The practitioners of the world realm shot again.

With a loud sound, he drew his sword out.

An inch of cold light fell on Fang Yue's throat.

Hair exploded. But Jian Guang couldn't make progress either.

Fang Yue's physical body made it extremely strong, comparable to the defensive magic weapon of the heaven and earth realm.

Even if it was an attack from the physical world, he was not afraid, striding to fight, for him, it was as simple as eating and drinking!

"Do you only have this ability? It's really disappointing! If you dare to take action for a leader-level existence, I think you have the magical power to kill immortals and destroy Buddhas."

Fang Yue's voice was cold, without any mood swings.

But the cultivator of heaven and earth realm felt that his tail vertebra burst, as if there was a cold current surging from the depths of his soul.

Fang Yue's palm fell mercilessly, and the practitioners in the world realm were photographed to ashes.

Comprehension of the Tao and no comprehension are two levels!

If he can deeply comprehend a kind of Taoism, even if it's just a trail, Fang Yue is willing to fight him again in three ways.

But for a practitioner on the third step of the heaven and earth realm who did not comprehend the Tao, there is no challenge to him. Even standing on the ground and letting the opponent attack at will, it is estimated that it is difficult to leave a trace of scars on his body.

This is no longer a battle, but a unilateral crush.

A Heaven and Earth Realm was killed by Fang Yue by leapfrogging, as if it had crushed an ant to death, insignificant.

The leader-level powerhouse, his face was stiff.

The practitioner in this world is fighting for him, although he did not make any demands. But Fang Yue killed the cultivator at the third level of the heaven and earth realm so contemptuously, but he slapped him in the face again.

"Boy, you are going to be rampant! The so-called Tianjiao, the so-called talent, it is easy to die and fall on the way of cultivation, the more genius, the easier it is to fight to death! Of course, your realm is not my turn! Makino, cut off his head for me.

I will deal with the overbearing king! "

The leader-level powerhouse knew that Fang Yue was delaying time.

Therefore, he no longer paid attention to this side, but randomly sent a disciple at the foot of the mountain to clean up Fang Yue.

That leader-level powerhouse started a big battle with the king's domineering.

Although Wang Badao has experienced thousands of thunder tribulations and his own vitality and blood are exhausted, after each thunder tribulation, there will be dots and dots, the most primitive vitality, baptizing his body, allowing him to continue to transform, and it is infinitely close to The real leader-level existence!

The two played against each other, and the mountains whispered to the tsunami. Suddenly, it was difficult to tell the winner.

And Muye, the disciple of that leader-level powerhouse, also walked out of the crowd, approaching Fang Yue step by step, and the land under his feet was constantly swept past.

Makino, with a delicate face, red lips and white teeth, smiled bright and sunny.

But his body was surrounded by a gloomy life.

With the falling of the pace, the vegetation behind him is all rotten and withered.

This is not a manifestation of the Heavenly Way of Death, Fang Yue did not feel the aura of the same origin in Muye's body.

The only explanation left was that Muye had experienced too many killings, which led to continuous contamination of his upper body, and finally became what he is now.

Someone in the crowd whispered.

When the leader-level powerhouse said Muye's name, they understood the origin of this person!

"Muye, ten years ago, he was once a strong man on the Xiantian list. His ranking was high. When he seemed to be the highest, he broke into the top 1,000. But he is a terrible murderer who seems

harmless to humans and animals, but in reality On the ground, he is full of wickedness, often slaughter one side, wherever he goes, blood flows into a river!"

"Before he achieved the realm of heaven and earth, he understood the Great Dao of Destruction, and on this avenue, his accomplishments are not shallow! Condensing the golden core with the great Dao, he is destined to start from exceeding the vast majority of the strongest of the world!"

The people's whispers revealed the origin of Muye.

Muye, who enlightened the way in the killing, poured out his wicked name with the blood of countless people.

Although he has excellent talents, on the bright side, no power dared to accept him as a disciple, because he did a lot of evil. If the karma is too deep, whoever dares to accept it, I am afraid it will be contaminated with boundless karma!

Mu Ye walked to Fang Yue's face, smiling brighter.

"In my whole life, Makino, my favorite thing to do is to kill geniuses! The higher your talent, the more I like to start!"

Muye looked at Fang Yue, with a cold expression in his eyes.

It seems to be two deep pools, with no bottom visible.

A random glance at each other, a glance back, can make people's soul fall, hard to extricate themselves.

"Really? It's just right. I also have this hobby. Killing the top one thousand seniors on the birth list is really fulfilling! Such things make me excited just thinking about it!"

Fang Yue licked his chapped lips, and the light of excitement in his eyes was self-evident! "Arrogant! Since Muye debuted, there has never been a person lower than my level who has ever said this to me? I am already invincible among the same level. Not to mention, your level is lower than mine! Innate level! Ants can never look at the mystery of the heavens and the earth! Just like a frog living in the bottom of a well,

Never know the vastness of the sky outside! "

Makino's voice gradually became cold.

His smile narrowed and changed to a gloomy expression.

His heart is exposed. Cruel and unrestrained!

He does not allow anyone to tarnish his invincible reputation, even if it is just verbal offenses and disputes!

Muye's palm slowly lifted, and the wind and sand in the sky moved wildly! The whole world suddenly became a yellow hazy appearance.

Fang Yue stood in the wind and sand, silently suffering the baptism of wind killing.

With the corner of his gaze, he looked towards the top of Wuliangfeng.

Although he was flanked by Heavenly Tribulation and that leader-level powerhouse, the king's dominance was still struggling to persist. He was not exhausted. Although he was slightly embarrassed and his long hair draped in a mess, the bright light in those eyes was never dim!

Therefore, Fang Yue was not in a hurry to make a move.

Because he only has one hole card!

Only at the most critical moment can it be completely opened!

As for Muye's wild sand, Fang Yue regarded it as a temper.

He wants to use his own cultivation base to resist the past and defeat Muye!

Top 1,000 in the birth list!

The proud son who once shocked the entire Xuanhuang world and was amazing!

After he entered the realm of heaven and earth, he naturally went to a higher level. But Fang Yue is not afraid of him! Because Fang Yue's own strength is far above the realm. He has been for a long time and hasn't made a full shot. The opponents he encountered were either too strong, so strong that even if he tried his best, he couldn't beat them. In the end, it can only be obtained by some side-by-side methods.

victory. Either it is too weak, just drop a finger and it can be crushed into meat sauce!

Such a person has no value even if he fights!

And Muye is Fang Yue's favorite opponent.

At least it seems to be different from him in combat power.

The wind and sand of Muye rolled out, crackling, and pebble and gravel fell on him. Fang Yue felt that endless pain was spreading everywhere in his body.

Little red dots emerged one by one!

But he still did not choose to defend. It stands silently in the wind.

In his body, a trace of pure vitality flowed through, and every injury would be instantly healed.

And every time it is cured, it seems to stand after a break!

His body also became stronger and stronger!

Fang Yue's vitality was boiling, and the aura of his whole person was changing! As the sandstorm grinds, his body becomes stronger. It seems possible at any time to promote his physical body to the hundredth rank of the physical body, the eighth step.

Fang Yue has no shortage of resources in his hands. During this time, he has accumulated a lot of resources by opening a shop in Qingyue Town.

Most of them are difficult to buy on the market, such as the blood of the fierce beast in the rotation!

The reason Fang Yue didn't dare to break through easily was because he was worried that lack of sharpening would lead to unstable foundations.

But this sandstorm gave him a chance to settle.

In the wind and sand, the power of the road of soil is moving!

After stepping into the realm of heaven and earth, Makino's savvy comprehend the second way.

Although he has just set foot in this road, it is still not something ordinary people can resist!

Under Wuliang Peak, many people are amazed, this Muye is so amazing.

Ordinary people, it is already thank God to be able to comprehend a kind of trail in the world. But Muye has already understood the two trails, and the obstacles to stepping into the cycle have been cleared. It is almost a certain fact.

Even if Fang Yue is so beautiful, it will be bleak under the cover of Muye, a rare arrogance in thousands of years.

The relaxed smile on Makino's original face gradually solidified.

I thought that with the advantage of the realm, it would be easy for a kid who occupied an innate realm.

But Fang Yue persisted in the storm, and he didn't even use a defensive method. "Yes, really good! You can actually withstand my sandstorm technique, which has surpassed most practitioners in the world! In the sandstorm technique, it is integrated into the road of earth, and in terms of power, it is even comparable to some Only by turning around the strong can the means that can be used! Of course, my

The realm level has not yet reached the rotation realm, this sandstorm technique is difficult to harm the strong in the rotation realm, but for your kind of innate, it should be more than enough! But I didn't expect it to be frustrated! "

In Muye's eyes, Fang Yue had a look of appreciation.

"Why don't you kneel down and surrender, and swear to be my slave. Maybe I can spare your life if I feel good!"

Muye's gaze is still arrogant, like a lofty monarch, looking down at the humble subjects and people below.

Fang Yue sneered: "Let me bow your head? Who do you think you are? A sandstorm technique is integrated into the law, and even my physical defenses have not been broken! Do you think you can really defeat me?"

Muye's eyes were cold, and he rarely invited people. The reason why he didn't kill Fang Yue and hoped that Fang Yue would become his servant was because he pity Fang Yue's talent and talent, but since Fang Yue doesn't know what's good or bad, No wonder he is ruthless in his hand!

Makino said nothing, a palm drew towards Fang Yue's heart! The palms are cold, and a touch of metallic color flows on the surface.

Chapter 342: Turn the stone into gold

"A little stone becomes gold!"

Makino growled.

Behind Muye, those who stood under the Wuliang Peak heard bursts of exclamation.

"How many avenues does Makino understand? Pointing stones into gold, this is the method of the avenue of gold! All living beings will become a golden sculpture after being clicked. This method is similar to petrochemical, but stronger!"

Makino's talent once again astounded everyone.

They found that they had seriously underestimated the notorious murderer Makino.

Fang Yue greeted him, his entire body covered by thunder.

His eyes also became clear. From the beginning of his hands, Fang Yue understood that this was a fierce battle. As for the road of soil that was worthy of entry, it was just an appetizer!

Turn stones into gold.

This represents a depth of understanding in the Golden Avenue.

Fang Yue had hoped that the five elements could be connected, merge and grow together, and eventually evolve into the five elements of heaven. Therefore, he has studied and studied the road of gold and the road of soil.

To cultivate into gold, the road of gold, reaching the second level is the basic threshold!

The Dao of Earth, but it was just finished, but the Dao of Gold is already in his hands!

"Thunderbolt!"

Purple thunders imitated thunder robbery, and went down.

Each path can break a mountain.

Every time it can shatter a piece of land!

In this thunder, there seemed to be a mighty heavenly might.

Muye bathed in it, and a golden bell-shaped instrument shrouded his head.

A faint golden light fell down, forming a curtain. Let the thunder beat wildly, while Muye stood there, motionless!

Even if the thunder light is tens of thousands of hours, it will be defeated.

In the golden light curtain, the forms of flowers, birds, fish and insects appeared one after another.

This is another form of the golden bell, which contains the law of gold. But Muye was manifested with magical implements. For example, Fang Yue's magical achievements in this area were obviously lower by a level!

The golden light curtain isolates the thunder.

The fingers with golden light still pointed towards Fang Yue's body.

Fang Yue's figure is blurry, not hard-wired. He showed the pace of the ghost night, like a ghost, erratic left and right, making it impossible to find a place for him to stay!

No matter how strong your magical powers are, you can't hit them, and you'll always be false!

Makino's face was green.

He didn't expect that his fatal blow would actually fail.

With his reputation, it took such a long time to use the Golden Avenue to kill a small reptile of innate realm.

This kept his face unconcerned.

A vertical eye opened from his eyebrows!

This is the martial arts celestial eye, can slow down all moves, in the martial arts celestial eye, the speed of any move will be ten times slower. The methods that were originally as fast as lightning will have traces to follow!

"I found you!"

Makino's martial arts eyes flashed.

His hand, grasping towards the void, caught Fang Yue's true form and fleshy shell!

His palm fell, trying to tear Fang Yue Shengsheng out of the void. But he didn't expect that Fang Yue's strength was so great that he pulled it so hard that the opponent turned out to be like a stone sculpture, untouched!

"Damn, physical cultivation! Your strongest cultivation base is not refining qi, but flesh!"

Muye felt the incomparable blood surging in the fleshy shell, and it splashed out, making him feel like needles!

Makino let go, trying to get back.

It is definitely a rhythm of death to fight with a bodybuilder.

But it is too late. Fang Yue's other palm rested on Muye's wrist.

Once again, blood flew across.

Fang Yue ripped Muye's wrist alive. The bones are thick!

The masters fight, a trance, it is possible to determine life and death!

Not to mention, Muye has always miscalculated Fang Yue's combat power, and has always been so carelessly underestimating the enemy.

He was torn off a palm.

The blood gurgled behind.

With a click, Fang Yue threw that palm on the ground.

He walked out of the void slowly, and a pair of eyes showed an expression of extremely disappointment.

"Is this the one of the top 1,000 talents in the birth list of the year? It is so weak that he is not worthy of being my opponent! It is hard to be a good name! The so-called genius once seen in a thousand years is nothing more than this!"

Fang Yue's disappointed eyes deeply stimulated Muye's pride!

He has never been so insulted.

It's just an ant of the innate state, he didn't pay attention to it when he started.

But he actually relied on his carelessness and carelessness to make a surprise attack and almost made him capsize in the gutter and die here!

As for the broken wrist, he didn't care. After reaching the realm of heaven and earth, rebirth from a broken limb is already a fairly common skill.

In battle, no matter how badly the body is injured, as long as it can leave a small life. Everything can be restored!

"Boy, you are looking for death!"

Makino's throat turned and his voice became hoarse.

In his eyes, a piece of blood was red!

He was really angry.

How could a dignified arrogant of heaven and earth be so insulted!

The body surface of Muye, his best destructive aura, finally surged! The black smoke billowed and surged over his body, like boiling water.

"The method I am best at is not the road of gold and the road of earth that I understand after the heaven and earth realm, but the road of destruction I have understood in the innate realm!"

Makino finally roared out.

His palm was enlarged and it was extremely dark, and that darkness seemed to be able to swallow all light.

Any light falling into it is like a mud cow entering the sea, which can't stir up any waves!

In the blink of an eye, the palm of the hand is ten feet away, wherever it passes, the vegetation is withered, the rocks collapsed, and all the order and structure are disintegrated, becoming the most primitive atomic form.

As soon as this road of destruction came out, even those spectators at the foot of Wuliang Mountain were shocked.

Among them, the strong ones in the rotation realm have turned pale.

The battle between the juniors and the methods displayed were enough to threaten his life!

Fang Yue watched the formation of the Destroying Hand, observing this avenue at close range.

This is a rare opportunity. At his level, there are inherently few chances of encountering a powerful person who can comprehend the Dao in a real battle, and there are very few people who can comprehend the Dao of Destruction!

If he misses it, he will regret it for life!

Fang Yue felt that pure observation was not enjoyable, so a faint golden light appeared on his body. He also carried a layer of golden bell, with a violent impact!

Makino sneered.

For the first time he saw someone slam his hand of destruction.

This is his mortal means!

Even if the strong person in the rotation realm encounters, his heart will tremble.

No matter how strong Fang Yue's talent is, it is impossible to survive the hard regrets of the Destruction Hand!

Sure enough, as expected.

After colliding with the hand of destruction, the golden bell instantly disintegrated!

However, under the golden bell, there is a layer of golden bell.

The inner layer of the golden bell and the hand of destruction continued to collide, still hitting the stone with the pebbles!

But in this layer of golden bell, there is a new golden bell!

Layers of golden bells keep appearing and disintegrating.

Muye's heart had already begun to scold his mother.

What the **** is this. The golden bell that this fellow once summoned can't be used up!

Finally, Fang Yue's body was exposed after the eighteenth-story golden bell was annihilated.

But the hand of destruction, the light color that was as strong as ink, has gradually dimmed.

Fang Yue opened his mouth and blew it softly. The hand of destruction that once allowed Muye to kill countless powerful methods was completely destroyed!

At the foot of Wuliangfeng, the chin was already shocked.

Muye's hand of destruction is famous and widely spread in the world of Xuanhuang.

This is an invincible means. Gods block and kill the gods, and the Buddha blocks and kill the Buddha. There are almost no means that can overcome it. You can't take tricks and can only resist.

The way of destruction, for a period of time, has been hailed as the number one way to kill in the universe.

Among them is the hand of destruction, this kind of magical powers and methods are inseparable from the relationship.

But what did they see? Muye used the hand of destruction to attack and kill a congenital repair that was a great level lower than him, and he failed. This is simply challenging the common sense concept in people's hearts!

Fang Yue's eyes flashed, and he didn't care about the surprise and expressions of those around him.

From the perspective of a practitioner, he couldn't understand the way of destruction. But if you take a different approach and describe it in the language of earth science and technology civilization, it should be an anti-matter force!

Among them, the most important effect is annihilation!

The general composition of the world is positive energy and matter.

When encountering antimatter, the two phases will naturally annihilate, and eventually turn into invisible energy, which is scattered in the void.

"Different civilizations are actually the same. They all describe the world, but they use different frameworks and templates! They explain the world from different aspects and perspectives!"

Fang Yue said to himself.

Seems to be enlightened.

On the earth, although his academic performance is not very good, he has completed his undergraduate studies. Some of the theories have benefited him a lot. In a different world, he is even more epiphany.

Makino's face was completely green.

He came into contact with this technique for the first time, and with his own skills, he was able to disperse his hands of destruction.

Makino turned around and left without stopping. He felt that Fang Yue was the nemesis of his hit, and no matter how many hole cards he played, it might not be useful. According to reason, there is no solution to the road. Except for hard regret, there is no other way to resist.

But the guy in front of him was using cold wisdom to analyze his way of destruction. And there are some results, which is very alarming!

"Want to leave? Is it too late!"

Fang Yue's voice was cold, his eyes looked at Muye.

Chopping the weeds without removing the roots will cause endless troubles.

From the beginning of the battle, Fang Yue was not prepared to let Muye go.

Makino stopped, and turned around with a sword.

The black sword light contains a strong way of destruction.

He was not really ready to leave. But to lower Fang Yue's defenses, take advantage of his lack of preparation, and give him a fatal blow.

The sword light swept across and cut off the distant mountain. The towering ancient trees, corroded by the atmosphere of destruction, turned into ashes!

Fang Yue dodged, but did not resist.

Kong Tian Tian Dao, in terms of escape, is also peerless. The cracks in the space came and went, and Fang Yue shuttled between different locations.

No matter how great this Muye's supernatural powers were, he also caught Fang Yue's movement through the cracks in the space.

The eye of the sky fails.

He can only capture the weird body skills, but he can't predict the teleport method.

Trails, avenues, heaven.

The order is in order, and every time a step rises, its power and effect are showing geometric multiples.

"Space Heaven, you are in the innate realm, how can you comprehend Heaven!"

Makino exclaimed, he finally turned pale. In the Xiantian Realm, comprehension of the Great Way is his capital on the Xiantian list.

But Fang Yue was even more abnormal. Only in the congenital realm, he actually realized the way of heaven. If he grows up, there will probably be no one among his peers!

Chapter 343: Jindan

"Dimensional cut!"

Fang Yue didn't give Muye too many opportunities. He pushed out a half-meter-long space crack and appeared at Muye's waist.

One move fell, and the space burst.

On Makino's chest, a delicate bronze mirror emerged.

The quaint yellow light fell dimly, and Muye's body was dislocated and appeared a few meters away.

He avoided that Dimensional Slash attack. By luck, he avoided a catastrophe.

But this is not Makino's own means, but this simple bronze mirror automatically protects the owner.

Every Tianjiao has its own unique life-saving means, which can be defeated, but it is difficult to be killed.

Muye has been in the mysterious and yellow world for many years, causing boundless killings, and he has been chased and killed by the strong in the rotation realm. But it was still alive and kicking.

This bronze mirror is his capital.

Fang Yue narrowed his eyes, and in the bronze mirror, he felt a faint breath of space. Someone sealed the teleportation spell in the bronze mirror. As long as Muye's mind dropped the spell, the spell would be activated and used to save his life!

"I know who you are! Fang Yue, right! Once in the ancient city of Yin and Yang, one person fought tens of thousands of demons alone! Today, I have taken note of what happened to Muye. In the future, I will return it a hundred times to let you know about me. Awesome!"

Mu Ye put down a cruel word and prepared to escape. Such a peerless and fierce person doesn't care about his face, especially in front of life and death, even more so. In his heart, he secretly settled his attention, as long as he has a chance, he must give Fang Yue a little bit of color! Can't kill him, but it's impossible for all his relatives and friends to be such masters

Right!

Makino sneered and left!

But he just took a step.

Fang Yue's sword light has been cut down!

"Dao Guanghe! Thousand Waves Slash!"

The sparkling waves patrolled the ground.

The silver light shines on the entire Amano!

When one move falls, the world is silent.

It contains powerful sword moves, as well as continuous attacks on the water road!

Admiralty body protection.

Very strong.

Fang Yue immediately followed, stepping out, like a drum beat.

With a thud.

In the river of knife light, thousands of ares are surging.

The sky-shattering sea waves rolled down and landed on Muye with a snap. Admiralty shattered and became countless fragments.

Muye's physical body was swept by countless swords, and instantly fell apart, turning into limbs and skeletons!

A golden pill floated out.

Among them is the soul of Makino. It turned into a ray of golden light, and wanted to break through the sky, escape from the sky, wait for the next day, seize the house to rebirth, change a body, and be a hero.

But how could Fang Yue give him such a chance.

A big hand fell, like a cloud hanging down from the sky.

Jin Dan was held in his hand, instantly sealed and became a treasure.

The value of this golden pill can be described as infinite, not only contains rich and essential energy, but also has several avenues intertwined.

If the Dao Ze fragments are extracted and refined, and then refined into a weapon, a rare and precious rule tool can be created!

Makino fell.

Amidst a genius, it ended with Fang Yue's crushing posture.

Fang Yue sighed slightly. He didn't expect that he would overestimate Muye in the end. Although his talents were excellent, he was still bound by the constraints of the path of practice, and he did not walk out of his own broad road.

Otherwise, his achievements will definitely not stop there!

The genius who was ranked in the top 1,000 in the past, finally became a veritable Fang Zhongyong!

The fate of Makino is heart-shaking.

This is a peerless fierce man, and even the strong in the rotation realm has nothing to do with him.

But he fell into the hands of a little-known congenital realm junior.

This ending is surprising and shocking!

He is only innate, if he breaks into the realm of heaven and earth, how terrifying would he be?

Many people are extremely afraid of thinking. For Fang Yue this junior, I was envious and awed.

And the immeasurable peak.

The leader-level powerhouse wearing a bronze mask is still fighting the king's dominance.

The king's domineering four or nine days of calamity has passed, but there is no slight relaxed look on his face. He was coughing up blood, a little bit of blood, blooming in the void, dyed into plum blossoms!

The Forty Nine Tribulations had already exhausted all his hole cards and strength. Nowadays, there is a robbery and killing by a strong leader of the leader, no matter who it is, it will not be better!

There is also a powerful person who constantly uses the terrain to intervene in the attack and kill. They don't ask for one shot to kill, but they can cause continuous harassment, leaving a deep and shallow wound, which is very terrifying!

"The king is overbearing, you surrender! There are too many people who have sinned against you. I didn't mean to kill you alone!"

Wang domineering came to a dead end, a hero, covered in blood, wounds on his body, at least a hundred ways.

His eyes have become dimmed, and there seems to be a faint breath of death in it!

Without external force, he will finally be able to resist the siege of this strong man who has stepped into the leader's realm for unknown number of years and many powerful!

And the people at the foot of the mountain, either sneered or waited and watched, they also had a taste of eyeing.

"Ahem!"

The corner of Wang's domineering mouth was filled with a ray of red blood.

Is it possible that this time, he actually went to a dead end?

The day he became the leader was also the time he fell.

This seems to be a great irony, and may be written into the history of the Xuanhuang world.

The shortest-lived leader-level powerhouse?

The king smiled bitterly. Very helpless!

He was very grateful for Fang Yue's help next to him, but after all, Fang Yue's realm was too low to really give him critical help!

"Killers, kill them forever! You kill me today, and in the future, when you cross the catastrophe, there will be people who will kill you secretly!"

Wang domineering roared, like a tiger, pounced on a mighty power.

When he was dying, he had to pull on a back cushion.

But his pace was weak and he staggered.

The powerful sneer, dodges to avoid.

An icy long sword was inserted obliquely on Wang's domineering shoulder.

Blood gushes out.

Gurgling like a spring.

Wang Domineering's injury was more serious, and even his breathing became weak.

"The king is overbearing, you can't do it! Accept your fate! You will be transformed into a pile of bones after all your life. This immeasurable peak is where your bones are buried!"

That might speak on the ground.

Everyone thinks that Wang Overbearing has come to a dead end.

No one noticed, Fang Yue narrowed his eyes slightly and said in a low voice, "This is the time!"

Under Wang overbearing, a series of inconspicuous formation patterns lit up.

The power of the space was instantly diffused, and it was almost too late for people to react!

"No! Stop him! Someone wants to save Wang Dao!"

The strong leader in the Bronze Mask roared.

At the same time, his punch and iron fist fell, and he wanted to kill the king's domineering into scum!

But a silver shield condensed in the void.

With a local sound, his fist was pressed!

On the shield, cracks spread, seeming to break at any time.

But its mission has been completed. The formation pattern under Wang Badao completely recovered.

This is a teleportation pattern! Send Wang Overbearing to Fang Yue's side!

At the same time, the shield that was already full of cracks exploded.

A mushroom cloud rises slowly!

This is a talisman that Master Yifan gave Fang Yue his life. Although it is difficult to resist the powerful extermination of the leader of the leader, at least it can delay their pace.

Especially the final explosion, caught off guard, even the strong in the leader realm will be completely hit!

Fang Yue calculated the timing.

They must be at their most slack moment before they can take action, otherwise, with the acumen of the master class powerhouse. Even if there is a slight energy fluctuation, they can all insight and prevention!

"go!"

Fang Yue picked up the dying king's domineering, tore the space, turned and left.

Wang Badao has just penetrated the space and heaven, at most the first level.

And Fang Yue is still immersed in this aspect, even if this area is a world of its own, he can leave calmly!

A flash of silver light.

Fang Yue's figure disappeared.

The strong leader with the mask, a ray of blood spilled from the corner of his mouth, his fists clenched, and his joints pale.

He gritted his teeth and said, "Fang Yue, this thing is endless!"

Others wanted to chase, but were eventually blocked by the broken space!

"Hahahaha! Unexpectedly! This mountain is higher than a mountain, your careful layout, but in the end was disturbed by an innate junior! The king of my Taiyi Church is domineering, and you should not be killed! This time you lost!"

The saint of Taiyi Sect saw this scene, feeling very happy.

He laughed and left!

"Humph!"

The strong man who was responsible for blocking the protector of the Taiyi Sage snorted angrily.

The next moment, his figure disappeared.

Qingyue Town, Fangyue's grocery store.

Wang domineering sat on a simple wooden bed, the blood dripping from his body, stained with white sheets. His face was as pale as paper, and his whole body was full of weakness and powerlessness! But Daoyin boomed, and chains of order intertwined in the void.

His physical body recovered visible to the naked eye. The wound on his body quickly disappeared!

Fang Yue used a hill-like spirit stone around Wang Overbearing to set up a formation. The rich aura has almost reached the point where it can't be transformed.

Such an environment can help Wang Overbearing to recover better.

In a day and a night.

The mountain-like spirit stones were completely absorbed and turned into a pile of white powder, covering the ground!

Wang overbearing slowly opened his eyes, showing the majesty that belongs to the leader. He was not angry and mighty, like a waking lion.

Fang Yue let out a sigh of relief when he saw that he was finally unharmed!

"How? Is it fully recovered?"

Fang Yue asked with concern. Wang overbearing slowly nodded: "The injury has been initially healed, but it will take at least half a month to fully recover. The confrontation between the masters of the master realm is too dangerous, and every move is accompanied by profound principles! The injury is easy to heal, but the rules that remain in my body are

Fragments of order are not so easy to reject! "

Wang is domineering and full of energy, but in the depths of his eyes, occasionally a hint of fatigue is revealed.

Obviously, when he just broke through and the foundation was not stable, he experienced a life and death battle, which was a great test for him!

It involved life and death and also affected his Daoji.

Without a period of consolidation and cultivation, it would be difficult for him to reach a state of consummation!

Fang Yue said in a low voice: "These people have a vicious intention and are too hateful. They have selected the most sensitive reality. Even if you will not die in battle, it will also affect your future path of cultivation. From the team of the top strong Kicked out in the middle!"

The king smiled bitterly: "This is actually a cause and effect. In the past, I offended a group of masters because of my publicity! They were very jealous of my potential, so they chose to go out at this time! Karma, retribution! Maybe this is the fate I should face!"

"However, in the end, they missed a trick. Not only do you have Taiyi Teacher but also me! In terms of combat power, I am far inferior to you, but when it comes to collecting treasures, I am afraid that the things in my hand even your Taiyi No teaching!"

Fang Yue blinked, helping others to the end!

This overbearing king was once angry for him, and almost turned his face with many forces in God City, so he naturally wanted to retaliate. Give something to the king's domineering.

"Hahaha, Fang Yue, Taiyi Church has been established for millions of years. Is there anything in the treasure house? You said that you can collect treasures that Taiyi Church never possessed. I really don't believe it!" Wang domineering laughter Hearty, he shook his head slightly, talking about Fang Yue's wild words. He obviously didn't believe it!

Chapter 344: Treasure! Innate water!

Fang Yue smiled mysteriously, holding his palm up, a drop of crystal clear water gleaming with multicolored light, floating above his palm, slightly spinning!

"Innate water!"

The smile on Wang's domineering face froze, and a pair of eyes burst out with appalling light!

"Fang Yue, you put it away quickly. This kind of thing is a good thing that many great cults are eagerly eager for! How can you have it in your hands! Everyone is innocent and guilty. If you let others know, it must be It's not good for you to be coveted!"

The light in Wang's domineering eyes gradually converged, and he asked Fang Yue to converge this thing with a look of concern.

Innate water is a treasure that can strengthen the foundation and nurture the spiritual root. It ignores the realm and has an effect on people of any level!

In the history of the Xuanhuang world, innate water appeared many times. But every time it appears, it will be wildly scrambled by major sects and families.

It is a consumable!

Known to be able to change fate!

Even one drop can cause a **** storm. Make countless strong men mortal.

"This drop of innate water is for you! The fragments of Taoism and order, embedded in flesh and blood, are not so easy to be driven out! There is also the instability of the foundation, and it is not a simple retreat. You can make up for it with enlightenment!

Only such treasures can help you heal the injuries in your body, and Daoji can completely repair it! "

Fang Yue smiled and looked at Wang overbearing.

Wang Badao looked at the drop of innate water, and he really had an unparalleled desire.

What Fang Yue said is true, and Daoji's injuries are difficult to heal.

Even if the years go by, and the water drops through the stone, it will not be able to smooth the injuries of that battle!

On the surface, although he can't see much, once he goes through the life and death battle again, the unstable road foundation may break apart at any time, causing him to become confused and eventually fall!

But he couldn't ask for that innate water, Fang Yue had already paid a great price to save him.

Those powerhouses at the foot of Wuliangfeng Mountain may not be able to use him, but once the identity of prescription Yue is investigated, it is very likely that he will be angry with him. "Don't worry, brother, I still have some stocks of this innate water! This drop is for you, to show my heart, and only when you are really strong can you give me a safe shelter, my life is exhausted I'm lazy, I don't have much interest in practice, if someone can cover me, I

I'd rather eat and wait for death all my life and count money to pick up girls! "

Fang Yue's smile was brilliant.

A touch of emotion surged in Wang's domineering heart!

He understands that this represents Fang Yue's intentions, and if he refuses again, there will be some ink marks!

He can only keep this kindness in his heart and report it again tomorrow!

Wang domineering finally nodded, and subdued the drop of innate water.

The water droplet melted in his mouth, and a layer of colorful light appeared on his body!

The sound of chanting rang out from his body.

Among them are the morning bells and evening drums, like countless Buddhas and faeries, blessing and praying for him! Pieces of Dao and order were stripped from his flesh and blood. The unstable Dao Foundation was gradually repaired under the nourishment of innate water. In the end, his Dao Foundation was once again strong and as solid as a rock. His future path of practice is not to narrow, but to be wider, longer, and future.

broad.

Wang domineering adjusted his breath for a while, and his injuries really healed.

The healing effect of this moment of time for him was better than sitting cross-legged the day and night before.

The king domineering slightly clenched his fist, and the space broke in his palm! This is the power of a pure physical body. Although he has never embarked on the path of physical cultivation, as his realm has improved and his foundation has been solidified, he has reached an incredible level!

"The leader realm is indeed well-deserved! As long as you reach this realm, you can protect a party of orthodoxy, establish a sect, and become an ancestor! Although there is only a line between the power peak and the leader, the difference in strength is like a world. general!"

The king is overbearing and confident.

For the first time, he felt that he was so powerful.

After a lot of calamity, he has improved at least ten times in all aspects!

If he encounters the same degree of siege again, he is confident that he can retreat all over, and even find an opportunity to kill everyone one by one!

Seeing Wang Overbearing healed, Fang Yue's floating heart finally settled down!

Wang Badao officially entered the realm of the leader, which means that he will have a strong backing.

Although Duluth is strong, he is too far away after all! Moreover, he is a member of the Demon Race, so he can't intervene in disputes between the Human Race at will, otherwise, it is easy to cause misunderstanding and cause the two races to go to war!

But Wang Overbearing is different, he is an upright human race. Whoever will bully Fang Yue in the future, he will be able to make the right move!

Wang Badao appreciates the benefits of realm growth.

Then he looked at Fang Yue.

"The matter of innate water must not be spread outside! Otherwise, it will cause endless disputes! This is a treasure, the value of which is incalculable for you. In addition to improving your qualifications and repairing the foundation, it has a higher level. Even the saints will be moved by the magical effect!"

Wang's overbearing voice is very solemn.

After experiencing this incident, in Wang's overbearing heart, Fang Yue has been treated as a peer!

But some things involve ancient secrets, and Fang Yue's foundation is too shallow after all to be involved.

Fang Yue nodded, he naturally understood the truth of the fact that money is not revealed!

"In this situation, it will take a while for me to be completely stable. In your grocery store, I will stay for three months. You don't have any comments!"

Wang Badao put away his serious expression and looked at Fang Yue with a slight smile.

Fang Yue nodded: "Brother stay here, my grocery store is full of brilliance, so I can't ask for it!"

Fang Yue understands that it is not that the king has nowhere to go. On the contrary, breaking into the realm of the leader, the world is so big, he can go there.

The saints are already at another level. They have unwritten agreements with each other, they are rarely born, and they are not allowed to attack juniors!

Therefore, in the world of practitioners, in a sense, the leader realm is already the highest peak!

There is such a strong man.

For at least these three months, his grocery store was safe. At the same time, this is also an expression of Wang's domineering attitude. Fang Yue will be protected by him in the future! "Fang Yue, although you have a good relationship with me, you still have to beware of the Taiyi Sect in the future! Among the people who shot this time, I vaguely feel that there is a figure of a certain faction in the Taiyi Sect!" Wang domineering mentioned again, his Frown slightly, "The Taiyi Church seems to be more united than other sects and families.

Knot! But there are still undercurrents and factional disputes, so there are some things you have to handle yourself. "

"Sure enough, every family has hard-to-read sutras, no matter where you go, you will not be at peace!"

A wry smile appeared at the corner of Fang Yue's mouth.

This is the case of Emperor Yi, this is the case of Sima Xiao, this is the case of him, even the king's domineering.

If you have not entered the family, everyone will think that the forest is big and enjoy the coolness, but only when you step into that threshold will you understand that the door is as deep as the sea once you enter the Hou Gate!

"Brother, when it's okay, just recuperate with me! This is a great teaching, and you can wait until you get a firm foothold!"

Fang Yue appeased the king's domineering.

This Qingyue Town seemed dangerous, but it was also the safest place.

Among them, Hidden Dragon and Crouching Tiger has its own rules!

People from the local forces in the Xuanhuang world are not allowed to do anything without reason in Qingyue Town! Otherwise, those hidden masters in Qingyue Town will be shaken and killed by their own hands.

This rule is already soaked in countless blood!

However, this Qingyue Town is also quite dangerous from a certain angle, because it is surrounded by space cracks in various worlds. I don't know when there will be an army of different worlds coming across the border and fighting. This Qingyue Town will become the first battlefield!

Wang domineering nodded and decided to stay temporarily in Fang Yue's grocery store.

Fang Yue returned to Qingyue Town, and the days became happy and peaceful again. Every day he refines some Baicao liquid, and there is a steady stream of spirit stones.

At the same time, his sky-breaking crossbow has also been recognized by many big forces. Every day, he receives orders for as few as dozens and as many as nearly 100!

Space cracks appear, connecting different worlds.

People continue to explore the world behind those space cracks.

In order to ensure your own safety, some necessary weapons are indispensable.

For some low-end expedition teams composed of Innate Realms, the Breaking Crossbow has become their indispensable trump card.

This sky-breaking crossbow not only sells well in the human race, but because of the relationship between the star and the moon, it has also become a popular item in the demons.

Although Fang Yue's supply of Demon Race Crossbows is not a lot, this kind of hunger marketing seems to be more in line with the notion that Demon items are rare!

The price of the Demon Crossbow is even 30% more expensive than the Human Race!

Fang Yue's commercial power gradually penetrated, and among the human race and the demons, he gradually had his partners.

On this day, Xingyueye came in a hurry, dripping with sweat on his forehead. There were bloodshot eyes in a pair of eyes, and his face was pale, and he seemed to have indescribable fatigue!

"Xingyueye, what's wrong?"

Fang Yue looked at Xingyue Ye with some curiosity, he was a strong man in the rotation realm! Even the demons with many masters are not weak!

It is absolutely rare to be able to force him to such a vicissitudes of life. Xingyueye breathed a bit coarsely and said, "The red fire copper mine has exploded! The ore is flying, and the gravel is all over the ground! I have been deep into it, but almost can't get out! Under the red fire copper mine, there is an ancient Formation, under the erosion of time, it doesn't even have 1% of its power

! But with my strength, it still took nine days and nine nights to get out of trouble.

In that formation, I discovered this. Among the demons, I read all over the ancient books, and even some of the wise men underneath watched it all over, without finding its origin! "

Xingyueye carefully took out a brocade box.

The brocade box is not big, only the size of a palm.

The brocade box opened, and a cold breath came over!

This is a copper mine, only the size of a baby's fist. A layer of light green patina is attached to the surface of this copper mine.

It looks unremarkable, except that it is colder than other copper mines, there is nothing special!

Even, it is not as good as the red fire copper mine, without the aura of flame circulating in it.

When Fang Yue's eyes touched him.

Fang Yue's heart stopped beating for a moment! He recognized the origin of this copper mine at a glance! The king of wildfire stone, generally only the oldest wildfire copper mine can conceive such minerals.

Chapter 345: Ghost Flint King

The Ghost Flint King is a precious mineral that has made the ghost soldiers of the leader realm!

It is infinitely valuable, if it is placed in the underworld, it will definitely attract a **** battle.

But in the Xuanhuang world, there is no record in any classics. Because it should not appear in the human world.

Fang Yue calmly said to Xing Yueye: "A piece of ordinary mineral, because it is buried underground all the year round, it has a trace of yin air! It is not of much value."

Xingyueye showed a very disappointed expression.

He was trapped under the mine for nine days.

This copper mine is the only gain!

I thought that I could harvest a peerless treasure. Unexpectedly, it would end up like this in the end! Xingyueye laughed at herself: "I think too much. In fact, when I read the ancient books, I realized that it may be far less cherished than I thought. But I was unwilling to do so and asked the many wise men of the Demon Race. The final conclusion and the What you said, the difference seems to be! In that case, this ore will be given away

Give it to you!

In fact, I shouldn't spend so much energy on this broken stone to research and identify! "

In the end, Xingyueye left disappointed.

Fang Yue had an urge to tell the truth, but in the end, he swallowed back into his throat.

Charity does not control soldiers, righteousness does not practice business.

His relationship with Xingyueye is limited to cooperation, and there is no friendship!

Telling the truth would make Xing Yueye disadvantage him.

Don't look at the two people working together happily now, it is based on mutual interests.

Once Xing Yueye thinks that selling Fang Yue is more beneficial than cooperating with him, I believe he will make the choice to sell Yue without hesitation!

Fang Yue squinted his eyes and watched Xingyueye walk away.

He then took out the Wraith Flint King and looked at it repeatedly.

This ghost and flint king has rusty mottled on it, but it did not condense by itself. This patina is very particular, it is the combination of the free gold element and the water element between heaven and earth! Fang Yue carefully scraped it down, and then cast a secret technique to completely separate the two different elements.

The patina fell and turned into a sphere the size of a fingernail.

In one of the spheres, a faint water element flows.

A sphere is strong, but it is the crystallization of gold element. These two things are treasures! The refined weapons, even if they are mixed a little bit, can increase their quality to a great level!

Afterwards, a stone ball was exposed.

Fang Yue was like peeling a lychee, and gently stroked the surface of the stone ball with his fingertips, leaving a shallow trace.

The stone skin peeled off.

The thickness of the stone skin is just like an eggshell.

Among them, there is a fossil like an eyeball with clear pupils. There is even a reflection from the past years.

"The Wraith and Fire Stone King, the legend is that the body of the supremely powerful was preserved and evolved! Because the dead aura in it is too strong, it will lead to the formation of ghost and fire mines around! The records in the ancient books are indeed correct! A fossil that looks like an eyeball is the real gem!

As for this stone skin, everything can be sealed! The value of it cannot be measured by spirit stones! "

Fang Yue said to himself, he put the eyeball-like fossil in his hand and played with it repeatedly.

The master of this eyeball who can form the King of Ghosts and Flint, was at least the realm of a saint during his lifetime! The strong saint, the body has already evolved to an incredible level.

A drop of blood can evaporate an ocean.

A hair can be cut off, and a mountain can be flattened!

Even blood and hair have such power, not to mention the fossil of this eyeball. There may be superlative means hidden in it. If refined, it will become a rare treasure!

Fang Yue is pondering and studying repeatedly.

He dripped various liquid medicines into it.

There are innate water, **** and devil liquid, and the essence and blood of the rotation realm savage beast.

This is to resuscitate this eyeball according to the formula and procedure in the ancient book and wake it up from a state of sleep.

The saint is already at another level.

Their bodies are immortal, even if their souls have fallen, any part of their bodies can remain alive, and they can be activated thousands of years later.

This eyeball has become a fossil, but there is still a saint's way intertwined!

However, the conditions for its resurrection are harsh, and it is difficult for ordinary people to obtain it, especially the innate water, **** and magic liquid, this kind of material is even more difficult to find in the world!

It just so happened that Fang Yue collected these materials under various circumstances.

Want to resurrect the saint's eyeballs. Become a big killer in his hands.

With the start of leapfrog battles, some of Fang Yue's hole cards were continuously consumed.

Master Yifan's talisman, a variety of materials for the formation.

Now, he needs to create a new hole card for himself. Ensure that you can escape from the dilemma of life and death!

This resurrection of the eyeball is not a simple thing, since ancient times, it has rarely been able to do it. The Wraith King Stone is more of a rare material. After being ground, it is mixed into the ghost soldiers, making it a magic weapon at the master level.

However, in Fang Yue's view, this is a waste of violent things!

If the sage's eyeballs are resurrected, its value will be far greater than a master-level ghost weapon!

In the end, Fang Yue consumed nine drops of innate water, three drops of magical liquid, and a large amount of herbal liquid, so that his eyeballs got rid of the petrochemical state and had a bit of vitality.

This eyeball is vivid.

Fang Yue revived it, and in the process, Fang Yue naturally became its owner.

It only needs a strand of Fang Yue's spirit to enter the Lord to activate part of its power!

It has the ability to break delusions and can break through all illusions and nothingness!

Of course, this is just the most basic power of this saint's eyeball. It also contains countless magical powers! The sage level, transcends countless sentient beings. The magical potential contained in their bodies is beyond comprehension.

But one thing is certain.

Even though this eyeball regained, Fang Yue became its master. In addition to the magical power of breaking delusion, Fang Yue wants to activate other methods, and it must cost a considerable price!

For example, Fang Yue can use this eyeball to release boundless fire.

Once this kind of flame is contaminated, it is difficult for even the strong in the rotation realm to escape!

But correspondingly, Fang Yue needs to consume at least one hundred thousand drops of Baicao Liquid, high-grade spirit stones, a hundred! There are still twenty drops of soul liquid in one turn before the immeasurable fire can be released!

And Wuliangjiehuo is just a little supernatural power in the eyeball!

As long as Fang Yueken spends the price, there are even means that can threaten the safety of the saint. But the corresponding consumption is far from what Fang Yue can afford at this stage.

But a saint's eyeball can bring him such a degree of lethality, which has made Fang Yue quite satisfied!

For the next half month, Fang Yue was studying this saint's eyeball.

The supreme Taoism imprinted in it made Fang Yue fascinated!

This is definitely a rare treasure, falling into any family, can become a thing that suppresses the luck of the race!

Of course, the trading of Fang Yue's Baicao Ye and Potian Crossbow should continue as usual!

In the last five days, Fang Yue found that the number of orders for his Potian crossbow had skyrocketed. From the beginning, from dozens to hundreds a day, the order quantity reached several thousand a day!

And in order for Fang Yue to ship as soon as possible, some people have increased the price by 30%!

In these turmoil, Fang Yue keenly smelled a breath of war!

Fang Yue spent dozens of spiritual stones in the Vientiane Pavilion before he bought relevant news.

In a small border town of the Human Race, there is a space crack, and an army of foreign races descends.

All forces, dispatching people and horses, block the pace of the alien army.

As a result, the two sides exchanged fire, all with heavy casualties.

The army of alien races, although they are all based on innate and heaven and earth realms. But behind them, there is the Rotating Realm, where the strong of the Yin-Yang realm confronts the masters of the human race!

Above the rotation level, there are few fights, and more exist as a strategic significance.

The fight between the Xiantian and the Heaven and Earth was quite tragic, and the bones of both sides had already paved a grassland!

In the course of the war, the exquisite little crossbow that Fang Yue had previously cooperated with Wanxiang Pavilion played an extraordinary role in the battle at the heaven and earth level.

The Heaven-breaking Crossbow also caused heavy casualties to the strong of the alien race.

The names of the two weapons quickly spread among the human race.

This led to the increasing number of orders for the Potian Crossbow in Fang Yue's hands!

Space cracks continue to appear, and some people have predicted that the battle between the mysterious yellow world and other worlds is imperative.

Therefore, the strength of each family is based on the military history. Hoard money and wait for the battle!

On the market, the price of Linggu has soared, which is more than 50% more expensive than usual.

And some basic healing pills have also become popular items!

Storms are coming, this is the most appropriate summary of the current situation in the Xuanhuang world.

Even different ethnic groups have secretly formed alliances. When the real storm comes, we are ready to join hands to resist the outside world!

Fang Yue also began to intensively expand the scale of his factory, and the number of drawings of various weapons he researched gradually increased.

Now there are three new types of weapons.

Bursting bullets, flame swords, and thunder ball.

They are all weapons that are very common in mechanical civilization.

Among them, the blasting bomb and the lightning ball are all disposable consumables. With a single one, it can only deal with creatures in the world and below.

And if the number is sufficient, even the strong in the rotation can be injured under the bombardment of these two weapons!

The Flame Sword is Fang Yue's own masterpiece.

Among them, the method of refining tools of practitioners and the theory of Fu literature of mechanical civilization are integrated.

The material of the flame sword is not outstanding, it is just forged from the most common stainless steel, but it contains flame runes, strong runes, sharp runes, and other runes, which are combined with each other. Using the most common materials, forged weapons that are powerful against innate creatures.

Among the human races, there are a lot of casual cultivators, not all kinds of weapons at the innate level that everyone can buy.

Many casual cultivators step into the third, fifth, and even sixth and seventh levels of the innate. If the mix is not very good, they may use all kinds of ordinary soldiers to defend against the enemy.

An innate-level weapon requires a lot of special materials, and the refiner needs to work hard and concentrate on tempering and seal cutting.

Therefore, its price is not cheap, even the most common innate weapons, you need at least a panacea!

The tens of thousands of spiritual stones are naturally nothing to a local tyrant like Fang Yue, not even a mere dime. But those who don't have their own craftsmanship and can only use simple, low-level mercenary missions to make life easier, it is an astronomical figure, saving for ten years before they can buy an innate level weapon!

Chapter 346: Forcing home

Fang Yue studied this flame sword in order to satisfy this part of the market that was ignored by the Xuanhuang world. Although the price of each flame sword is only three thousand spiritual stones, the profit is only one thousand five hundred spiritual stones. But this can't hold the entire Xuanhuang world, the number of Xiantian realm is too many, as the bottom of the entire Xuanhuang world, the Xuanhuang world's innate random practice accounts for almost ninety-nine of all practitioners.

Number of people.

This is a big market that has not been explored and cultivated. A whole big cake has fallen into Fang Yue's hands. If managed properly, Fang Yue may become the richest person in the entire Xuanhuang world in the future.

But huge wealth has gathered in endlessly.

Also pushed Fang Yue to the forefront!

The peaceful years always pass quickly.

A team of people came to the door, but the visitors were not good!

One afternoon, Fang Yue's grocery store was crowded with people. They have great momentum, and the mounts under their hips are all fierce beasts of heaven and earth, unicorn horses, this fierce beast generates wind on all fours and can walk on clouds. From the nostrils, a raging flame spews out, which can burn the void and burn the wilderness!

On the back of the Qilin Horse sat a warrior. They were all wrapped in pure black armor, and they even had helmets on their heads.

Only the eyes and mouth showed dark holes.

All of them were surrounded by a cold breath!

"Who are you? What does it cost me to come to the door of my grocery store!"

Fang Yue stood at the door, knowing that the person who came was bad.

"According to the patriarchal decrees of Taiyi Sword, Fang Yue was ordered to hand over Baicao Liquid, Lightning Pills, Rosin Pill, Advanced Rosin Pill, and Super Jiazi Pill formula! Donate 3 billion spirit stones to supply the frontline soldiers of Taiyi Sword Sect to spend! If there is resistance, Slash without pardon!"

One of them said in a deep voice.

A pair of his eyes fell on Fang Yue's body, and he looked up and down with a light of contempt!

This is a strong man who has just entered the cycle of rotation, facing innate cultivation, he is arrogant! And he is the first sect in the world of human cultivators, Taiyi Jianzong, even more invincible and proud!

Even those of ordinary sects, or even great powers, will be respectful after seeing them. For fear of misunderstanding and displeasure.

Fang Yue laughed in anger when he heard the words. He had long guessed that he would be jealous when he had accumulated so much wealth, but he didn't expect that this is too ugly for the appearance of Jianzong!

When he opens his mouth, it is a high-pitched tone.

There is no reason, just ask for it.

If Fang Yue dared to defy, they would still kill people. What is the difference between this and the bandit leader in the forest!

"What if I say no?"

Fang Yue's face was slightly dark.

In this kind of thing, he can't bow his head!

Whether you are the first sect or the second sect in the world of practitioners. Those who dare to touch his things are his enemies of life and death.

The knight leader snorted coldly.

"Defied the decree of the Taiyi Jianzong, the rebellion is unreasonable, it should be cut! Come on! Take this Fang Yue up for me, tie it to the gate of Qingyue Town, Ling Chi put to death!

The knight leader didn't even hesitate.

He had expected Fang Yue to be reluctant, so he had no intention of leaving Fang Yue alive!

If you want to make a move, you will kill with one blow, and you can't give Fang Yue a chance to struggle.

Liuhe men is a lesson from the past.

Behind the knight leader, a servant walked out with gray hair and a huge banner behind his back.

On the flag, there are red texts.

The words Taiyi Jianzong are very bright.

This is a servant, even if he has already cultivated to the realm of heaven and earth, his status is still very low.

Let him come to fight and kill Fang Yue to show that Taiyi Sword Sect's opponent Yue's insult and contempt, that he can only be compared with Taiyi Sword Sect's ordinary!

"Fang Yue, kneel down and give you a head, I can give you a whole corpse! Otherwise, those who defy the Taiyi Sword Sect will have their souls in the eyes of Yong Zhenhai and cannot be superborn!"

When the old slave spoke, his attitude was arrogant and domineering! He was very powerful, and he didn't pay attention to Fang Yue at all.

"Bullying the big with the small, is this the strength of your Taiyi Sword Sect? You have cultivated immortality and enlightened Dao for at least hundreds of years. Do something to me, a junior under twenty years old, even if you win!"

Fang Yue spoke quietly and looked at the old slave. He ran against each other with words, deliberately wanting to be sick of Taiyi Jianzong's people!

The old slave's voice was indifferent: "It's just a slaughter of an ant. How can you talk about the realm? Only the real Tianjiao can have a fair fight. And you, a common man, don't deserve that kind of treatment!"

The old slave's attitude towards Fang Yue was very cold.

He never thought of leaving Fang Yue a way out from the beginning!

Whether it is fair or not, Fang Yue must die!

Then, the people of Taiyi Sword Sect will search for his soul, collect all the secrets in his body, and become their bag.

Taiyi Sword Sect's calculations are quite shrewd.

As long as Tang Yi died, they could replace Fang Yue's position. All kinds of pills are continuously refined.

At that time, Taiyi Jianzong could not only control a new way of making money, but those powerful schools that had promised to protect Tang Yi would not say much.

Tang Yi's greatest value is the steady flow of pill production.

Taiyi Jianzong replaced it, which was nothing to lose to those sect forces.

The corner of the old slave's mouth showed a cold smile.

He is not guilty, and he is guilty of his crimes. If he is to blame, he is too low!

The old slave shot, a dry palm slowly touched Tang Yi's position.

The palm of the hand seemed to be intertwined with countless dead tree bark. Although the movement was slow, it made people feel cold in the spine!

Tang Yi was frightened and regressed acutely.

In this palm, Taoism is actually contained. It belonged to corrosion and decay. He didn't know exactly which kind of Taoism it was.

"Destroying Palm! This guy is actually a killer move!"

In the nearby shop, Shangguan Guoer's grandfather, Shangguan Fantian, also walked out in small square steps. He twisted his beard lightly and was not in a hurry.

He had seen Fang Yue take action with his own eyes, and knew that this old slave of the Supreme Sword Sect could not help Tang Yi.

This is too much of Jianzong, thinking that the world is invincible.

Without investigating Tang Yi's details, he hurried forward, for fear of being snatched away by others!

"Can you run?"

The old slave couldn't help but smile more when he saw Tang Yi regress.

The withered light was brilliant in an instant.

The entire grocery store is shrouded in the shadow of this yellow palm!

The palm of his hand seemed to have turned into an autumn world, with dead leaves withered, and everything dying. All vitality will be wiped out in this world, and become history and dust.

"Huh, the mere rotten trails dare to show off in front of me!"

Tang Yi could see clearly that the Tao contained in this palm was not so strong.

It just looks fierce, but in fact, even the decadent trail has just been enlightened and reached the point of entry!

Tang Yi stomped, and a stone lion at the door of the grocery store suddenly woke up. It jumped, caught off guard, and rushed to the old slave's back, tearing his body apart, breaking his body, turning into a cloud of blood mist!

The old slave never even heard a muffled hum.

Blood everywhere, seeping and flowing!

The stone lion stretched out its blood-stained front paws and scratched his head gently.

Afterwards, it returned to its original position and restored to its stone appearance again!

"What is this?"

Those disciples of Taiyi Sword Sect were all slightly surprised.

This stone lion is very cruel. The shot was amazing, although he attacked and killed the old slave, there was a smell of surprise.

But its own strength also needs to be strong enough to be able to cause such a shocking effect.

It must be known that this old slave was an outer disciple in their Taiyi Sword Sect. Because he was too old, he had no hope of breaking through the cycle, so his status dropped sharply and he became a slave.

Taiyi Sword Sect, even if it is only an outer disciple, they are all amazing talents, not ordinary people.

The old slave comprehended the decadent trail, and was already considered a strong one among practitioners in the world realm!

The ordinary juniors, in front of him, are all devastated and unable to survive!

"The old slave of the Taiyi Sword Sect, it turned out to be too hard to hear, even a stone puppet I picked up from the roadside is hard to beat!"

Tang Yi became proud again, he straightened his chest.

The crowd gathered around again became dense.

There are no shortage of masters in Qingyue Town, and they are never afraid of things.

They were very angry about Taiyi Jianzong's arrogance.

In Qingyue Town, there are rules of their own, no matter who you are, even if your background is too big, you can't do it!

Because this is an area where the borders of all ethnic groups meet. Once you do it, it is likely to cause conflicts between different ethnic groups. When the battle begins, no one will be able to bear this responsibility!

"Stone puppet? Could it be that you obtained a treasure from the Celestial Stone Plane?"

When the knight leader heard this, he thought about it for a moment, and he was touched by the memory.

Recently, the cracks in the space leading to all realms have opened up, although some of the creatures from outside worlds occasionally ran out and made chaos.

But every world also has its own specialties and treasures.

The Heavenly Stone Plane is one of them, in which countless stone treasures are born.

Among them, stone puppets are one of them. They are naturally raised, possess their own souls and consciousness. With the flow of time, they can swallow the elements of the earth free between the heaven and the earth and grow continuously.

This pace, although slow, but firm.

There is no so-called bottleneck for this group of people.

If it can grow without calamity for thousands of years, every stone puppet can grow to the realm of great power, possessing matching principles.

Of course, it is not so easy to grow. There are all kinds of dangers on the Celestial Stone Plane. There are also some stone beasts, who stare at them all day long, and are ready to swallow the stone puppets at any time and absorb them. Essence. Recently, countless people have flocked to the Celestial Stone plane to capture the stone puppets, because only in the depths of the stone puppet's soul, can the stone puppet become the most loyal practitioner. Servant. And the stone puppets still have powerful achievements

Long potential, if you have some treasures in hand, you can even speed up its growth.

This Fang Yue actually has a stone figurehead. If it grows up, it will be an extremely loyal powerhouse, guarding the left and right, and loyal.

"This stone man puppet is mine! Everything in Fang Yue's hands, all the treasures are mine!"

The knight leader's heart was already full of hysterical roars, his eyes were scarlet, and his whole body was filled with a madness.

Fang Yue saw the madness in the knight leader's heart.

The murderous intent in his heart grew stronger. If you want it, you have to get it!

Chapter 347: Shock

"Your servant has become a corpse. Next one, who of you will come?"

Tang Yi looked at the knights, his eyes swept down, and the murderous intent was pervasive.

He once resisted the demon army by himself.

After experiencing such a scene, his heart condensed great courage, great perseverance, and great wisdom.

These are all spiritual matters, illusory and seemingly useless. But in the depths of the eyes, it can still bloom occasionally.

It made the knights feel a little timid and hesitating!

"Kill you, why discuss it! I am equal to advancing and retreating! Thousands of rides sweep and level the world!"

The knight leader already understood that this Tang Yi was not easy. Since he could use a stone figurehead to guard the door, he might not be able to come up with a stronger hole card.

Sending people to fight against Tang Yi one by one is likely to cause unnecessary losses, in that case. Then the whole army will be dispatched to destroy Fang Yue with the momentum of thunder, so as not to have many dreams at night!

These knights' shots were vicious, and there was quite a momentum of destruction, and their army was aggressive and sweeping.

"Taiyi Sword Sect, when has it reached such a shameless level? Do you have dozens of iron knights to target a small innate?"

At this time, Wang Badao walked out of the backyard of Fangyue grocery store. Originally, he also wanted to let Fang Yue exercise himself a little bit, alone against the powerful enemy, and increase some actual combat experience.

But these people from Taiyi Jianzong did a little too much. Among these dozens of cavalry, even the weakest one has the sixth level of the heaven and earth realm, and still understands the existence of Taoism.

The leader is even more powerful in the rotation realm. With Fang Yue's strength, it is difficult to rival.

Taiyi Sword Sect, although its reputation in the whole world of practitioners is quite bad. But every disciple is carefully selected, focused on cultivation, and in terms of strength and quality, he is better than other ordinary sects.

Even though Wang Badao came from Taiyi Sect and was responsible for related matters concerning the cultivation of disciples, he still had to admit that Taiyi Sect had more than one level of disciple training compared with Taiyi Jianzong.

Relying on some opportunistic means, Fang Yue may be more than enough to kill the ordinary rotation realm, but when he encounters an elite disciple carefully cultivated by Taiyi, it is difficult for him to win.

The moment when Wang domineering walked out of the backyard of the grocery store.

The faces of those Taiyi Jianzong disciples changed suddenly.

The promotion of Wang Overbearing from the Great Power Realm to the Leader Realm level has been thoroughly rumored in the world of practitioners.

The realm of the leader is the real overlord in the world of practitioners. Under the saint, it is rare to resist, especially the overbearing person, who can challenge the leader at the power level. His true strength may be even more terrifying!

"Wang Domineering, why are you here? I advise you not to participate in my Taiyi Sword Sect's affairs, otherwise, Taiyi Sword Sect will be angry, even the Taiyi Sect behind you cannot bear it!"

The knight leader did not regress, but arrogantly uttered arrogant words to the king and threatened.

This king is domineering, although the realm is much higher than him, in terms of combat power, it is even more difficult for him to match, but as a disciple of Taiyi Sword Sect, he is very confident.

Not to mention the leader of a party, even a true saint, standing in front of them, he is angry!

Taiyi Sword Sect, once furious, it will immediately bleed for thousands of miles, and the bones will become mountains. Even some sects that have established religion for a thousand years are not immune. Wang domineering sneered: "The grievances between Taiyi Sect and Taiyi Sword Sect have been around for a long time. How can you be influenced by such a little disciple of Taiyi Sword Sect? What's more, the world of Xuanhuang, the world of practitioners, and Taiyi Sword Sect. Taiyi Sect is all in the top ten. Taiyi Sword Sect is known as the top ten, but actually

There is not much difference between the upper and the back of the Five Elements Pavilion, the Bahuang faction! And I, too, have lived forever, ranking fifth among the ten factions of the human race! You too want to destroy the sword sect, how easy it is! "

Wang Overbearing sneered at the so-called threat from Taiyi Sword Sect disciple.

He has a pair of tiger eyes and looks all around.

The knight leader of Taiyi Sword Sect was all nervous, and his eyes almost fell out of nowhere.

The fierce beast under his hip roared in a low voice. It's not showing up the momentum, but giving yourself boldness!

A powerhouse at the leader level of King Overbearing City, like the Knight Leader of Taiyi Sword Sect, exists in the rotation realm. In his eyes, even an ant is not as good as an ant. The realm between them is too different, no matter it is Neither the means, the magical powers nor the cultivation base are of the same level.

The knight leader of Taiyi Sword Sect, a drop of sweat on his forehead was shining brightly.

He was overwhelmed by Fang Yue's aura, and in the end even people and beasts knelt on the ground.

"In front of a leader-level powerhouse, where is there room for a junior like you to speak! Dare to threaten me, and if you don't teach you a lesson, you will always understand it!"

Wang's domineering gaze fell, one after another as heavy as a mountain.

In the end, the knight leader of Taiyi Sword Sect broke his teeth and took a few breaths before he could not hold on to it and admitted his mistake.

"I'm not waiting for this matter. I shouldn't offend the supreme majesty of the leader-level powerhouse! However, it is the will of my Taiyi Sword Sect elder to capture Fang Yue, ask for alchemy, and confiscate wealth. I also invite Elder Wang, Allow me to wait to bring Fang Yue back to Taiyi Sword Sect, to listen to the judgment and the decision!"

The knight of Taiyi Sword Sect is still extremely stubborn.

He couldn't give in to this matter.

Otherwise, they will come back unfailingly, and all of their knights will be severely judged by the great teachers! "At this point, you still want to take Fang Yue away? I don't think you can see the coffin or cry! For so many years, Tai Yi Jianzong has been really domineering, and no one will look at it, I To tell you the truth, you can't afford to offend Fang Yue! His background is deeper than you think

engraved! Once you do it, it will inevitably cause a catastrophe for you too!

What's more, he helped me through the terrible catastrophe, and he was a life-saving grace for me. No matter what, I must protect him from reason. "

Wang's domineering attitude is firm, and it is impossible to make any concessions.

But his aura gradually receded. If it wasn't particularly necessary, he couldn't have a life and death enmity with Taiyi Jianzong!

The knight leader of the Taiyi Sword Sect was confident, and it was not without any reason.

He had known for a long time that no matter how arrogant he was, with the power of Taiyi Jianzong, the overbearing king would not dare to kill him. At most, it is only a slight punishment, which is the ultimate!

The knight leader of Taiyi Sword Sect also knew that he would accept it.

Wang Badao has said everything to this point. If he still wants to be arrested, he is seeking death himself.

If the king is overbearing, here, a leader-level powerhouse shelters Fang Yue, even if they return without success, they will talk about the past.

As for the latter things, leave it to the elders in Taiyi Sword Sect to wrestle and deal with!

The knight leader of Taiyi Sword Sect coldly snorted, leaving the old slave's body, without even looking at it, coldly snorted, and then went away!

The people of Taiyi Sword Sect disappeared.

The dust is flying, leaving in a flash.

Fang Yuexu squinted his eyes, clenched his fists, and his pale joints revealed his unwillingness. Wang Badao also let out a long sigh of relief. He patted Fang Yue on the shoulder and said: "This is the same as the Sword Sect. It is like the emperor in the world of practitioners. It is arrogant and unscrupulous. You want to fight them, absolutely. Things happened overnight. You need to be cautious when you meet them in the future

And be careful, don't be caught by them! "

Fang Yue nodded, knowing that Wang Domineering's exhortation to him was in good faith.

But this time it is absolutely impossible to just pass.

This incident aggravated Fang Yue's sense of crisis.

In the afternoon, he passed the teleportation array and came to a barren desert.

The yellow sand is rolling here, there is no grass left, the scorching sun is in the sky, and the endless desolation.

The scorching sand, as long as your feet step into the dust, it will be cooked immediately, giving birth to a smell of meat.

However, in this barren desert, there are villages, and in each village, there are a group of lizard people. There is not much difference in body shape of this kind of lizard people, except that behind their **** is a long lizard tail. This belongs to a branch of the human race, which is naturally suitable for survival in the desert. However, in the desert, lack of nutrients and water sources has caused this race to grow from thousands of

Years ago, after moving to the desert, the number of masters gradually declined.

Ordinary lizard people, even reaching the innate realm are extremely difficult.

In the old days, the human branch that prospered in the realm of heaven and earth eventually declined and became a supporting role in this world.

This race was investigated by Fang Yue a long time ago. There are many of them, and they have branches in countless deserts in the Xuanhuang world. The character of this ethnic group is extremely tough. It bears hardships and stands hard work, and the ability to survive is quite strong, as long as there is a little water source, it can survive for a long time.

Although most of the lizard people have not practiced any martial arts, but they can survive in the desert and their bodies are extremely strong.

Fang Yue selected this race as well as the werewolf race as his key training object.

He wants to establish his own power, starting from nothing, and eventually occupying a side in the Xuanhuang world, becoming the ancestor.

Fang Yue walked to a village where lizard people gathered.

Every lizardman had a ray of hope in his eyes.

"Fang Yue great benefactor, you are here again! For the last gift, our tribe doesn't know how to thank it!"

An elderly lizard man saw Fang Yue. He was trembling with a cane in his hand, and he was not young enough to even walk.

But seeing Fang Yue's arrival, he went out to meet him personally.

In the muddy eyes, there are expressions of gratitude.

The last time Fang Yue came, he brought an exquisite small porcelain bottle to the lizard people of their tribe. In this small porcelain bottle, there was an independent space containing a full 3,000 cubic meters of water.

This is the most precious resource in the desert. Although their lizard people are very capable of enduring hunger and thirst, the water in this desert is extremely thin. Many lizard people, especially young children, died of thirst because they couldn't survive the drought. And with this three thousand cubic meters of water source, it can be guaranteed that even in

In the most difficult time, their village can still maintain its vigor. "Senior, get up quickly. It is my duty to alleviate the poverty and rescue. You said something like this, but I was a little bit different! Last time, I came too hurriedly. I just brought some clean water and nothing else. ! This time, I prepared some ginseng pills and Lingzhi pills for the tribe, which will be taken by the children in the tribe so that they can grow up better!"

Chapter 348: Cultivating power

Fang Yue waved.

Five thousand ginseng pills and five thousand ganoderma pills were piled into two hills, neatly placed in the square of the tribe.

The most important thing in acquired practice is to strengthen vitality and blood. As the so-called poor culture and rich martial arts, once you start practicing martial arts, the vitality and blood flow, day and night, the loss is quite large. Without sufficient nutrition, many potentials in the human body will be squeezed out. Not only is it useless, it is harmful.

Therefore, in the secular world, it is not easy to cultivate a martial arts genius at the pinnacle of acquired skills. Comprehension and aptitude are just some of the factors. More importantly, it needs to be assisted by various elixir for internal and external use. Supplement nutrients.

One person cultivates, the whole family provides, and if you want to achieve innateness, let's not say anything else, you must first smash Jinshan Yin Hai out!

Like this kind of ginseng pills and Lingzhi pills, each one is worth at least ten taels of silver in the world.

One or two dollars is enough for an ordinary family to live a happy and complete life for one month and support all expenses.

Five thousand ginseng pills and five thousand Ganoderma lucidum pills, measured by gold and silver, even the monarch of a small country like Yan will feel unbearable.

However, in the world of cultivators, this is not even a panacea, it is the lowest level.

You can buy ten Ganoderma lucidum pills or ginseng pills for one lower-grade Lingzhi.

Ten thousand pills, to Fang Yue, are not worth mentioning, like a drop in the ocean!

In cultivating these lizard people, if one person achieves something, then his contribution is worth it.

"No, no, no, we can't afford such a precious elixir!"

The old lizard man kept declining, and even his palm trembled slightly! Their tribe of lizard people has long since fallen, and the only source of livelihood in the weekdays is to cultivate some drought-tolerant coarse grains in the barren desert, barely enough to eat.

For the pill, they can't even think about it! "Senior, don't refuse. I can still pay for this pill. In the future, I may have to explore this desert, build factories here, and produce all kinds of weapons. At that time, I will need you to come forward and organize. , Help recruit workers! As for labor remuneration, I can use

Clear water, food, medicine, and even spirit stones to pay. In this desert, I want to gain a foothold, and I need a lot of support from my seniors! "

Fang Yue is extremely polite, he already has his own plan and blueprint in his heart.

This piece of desert that no one valued will become an important link for him to become a chess player.

As for the various resources he wants to produce, it has changed from mere weapons to transformation.

Division of labor is productivity.

This is an extremely simple truth on earth.

But in the Xuanhuang world, almost no one knew this very simple and clear truth.

All elixirs and weapons are the production of basic production materials, and are the most primitive production mode of small peasant economy. One person takes care of the entire process, time-consuming and labor-intensive, and the final quality is rarely guaranteed!

Cultivation is a long work, and it is almost impossible to eat a fat man in one bite.

Therefore, if Fang Yue wants to achieve something in force and reach the pinnacle of this world, Fang Yue still has an extremely long distance.

However, gradually infiltrating and controlling the world from the flow of wealth and resources is also a shortcut.

"In that case, thank the benefactor! If the benefactor has any instructions in the future, the people of our tribe will not hesitate to go up to the sword mountain and down to the sea of fire!"

The old lizard finally clasped his fists.

If these medicines can stay in the tribe, they can indeed bring long-term drought-like effects to the young people in their tribe.

The overall strength of the tribe will give them a stronger ability to resist all kinds of dangers.

The desert is not easy to survive, and the real threat is not just the lack of water.

The sand beasts raged, and the sand thieves were in all directions, which could cause their tribe to become completely extinct overnight and become a pile of bones that no one cares about in the desert.

The old lizard man accepted Fang Yue's pill.

Fang Yue greeted and confessed a few more words, then turned and left.

The same scene also appeared in several other deserts of different sizes.

Fang Yue erected one foundation after another in different places. The races he chose were all subspecies of the human race. The tribe that was once brilliant and finally declined. After undergoing various changes, they were exiled and distributed, and they could only live in the human realm, different barren and barren lands. In terms of practice, their overall level is not much different from that of many creatures in the mundane world. Occasionally one or two innate realm leaders lead

, The rest of the people all stay in the acquired realm! But under the tough environment, they have greater potential, and in terms of bloodlines, they are stronger than ordinary orthodox human races. The reason why they have been declining and failing to recover is because there is no corresponding resource to focus on them. And the various resources Fang Yue provided for them, once released

With the effect, I believe many people will break through to the innate realm, and even go further on the road of spiritual practice!

Cunning Rabbit Three Caves!

Fang Yue would never hang himself on a tree.

He selected different ethnic groups and different regions, and the number of tribes he focused on cultivation was as many as 108.

This is also in line with the number of heaven and earth evil, which secretly corresponds to a certain heaven and earth principle.

Among them, the werewolf race is the most cultivated race by Fang Yue!

In the ancient city of Yin and Yang, Fang Yue established a relationship with the werewolf tribe. At that time, the werewolf tribe was not mature enough and its strength was too low. Embarrassment is important, so Fang Yue arranges to dormant. Now, Fang Yue is spreading a lot of resources to the werewolves. As long as you can show sufficient potential and talents, then there will be a lot of cultivation of various resources. Even if you are really good enough, Fang Yue will make an exception to open the way. The teleportation array in Baili Secret Realm gives them a chance to comprehend Tao then.

The cultivation of these races is not complicated. At the most critical moment, they are tortured and not demanding. As long as the appropriate resources are given, they will bow their heads to you and be grateful!

Even these races will take the initiative to build temples, worship them day and night, and worship Fang Yue as a god. Generating a wave of power of faith, entangled Fang Yue's body to assist in his cultivation. Thousands of miles!

Of course, such a layout is also a big deal.

Spend money like dirt and consume energy.

Ordinary family forces will never do such a thankless thing. The resources in their hands are tight, and even their own disciples cannot be trained. There is no leisure and leisure, and they waste precious precious things on these marginalized ethnic groups. Resources and time!

A full month has passed since Fang Yue's peaceful years.

Within this month, the people of Taiyi Sword Sect seemed to be jealous of the words before the king's dominance, and did not make another move, but chose to disappear, seeming to have forgotten Fang Yue's matter.

But Wang Overbearing reminded Fang Yue that Taiyi Sword Sect had no purpose and vowed not to stop. It's definitely not the kind of character that gives up lightly, all this may be just the tranquility before the storm, a truly terrifying disaster, still brewing!

Time is like water, passing in an instant.

Wang Badao stabilized his realm in a thorough situation and gained a firm foothold at the level of the leader.

At the same time, the seventy-two layers of Earth Shaman had already been broken through three layers by him, making his strength even further, even among the strong ones in the senior leader realm, he was not a weak one. "Fang Yue, I am going to leave after all! This Taiyi Sect, as well as my people, relatives and friends. I cannot always protect you here! I hope you can understand this! The Taiyi Sect, although it is also undercurrents, But there are some things that need to be faced, and I have to face them after all

!"

The king is overbearing and the other Yue Yu has a long heart.

Fang Yue also understood the difficulty of Wang Domineering. During this time, Wang Domineering was able to shelter him and he was extremely grateful in his heart. "I can understand my mind! The flower seedlings in the greenhouse cannot bear the torture of wind and rain, and I have never been tempted to grow up under the protection of my brother! I don't need to be too concerned about my safety and feelings. I experienced the last time. I have some preparations, even if they really want me

I will not sit back and wait for the operation.

Perhaps it cannot be recovered without information, but at least it can be done to save a small life! "

Fang Yue clenched his fist slightly, thinking of the last time, his mood couldn't be calm for a long time, too strong and overbearing!

Arrogant and blatantly disrupt order and rules.

They are even more evil than cults!

Quite unreasonable, arrogant!

Fang Yue will never bow his head in this regard!

If you want Taiyi Jianzong to suffer, you may not really have to head-to-head, use force to solve problems and resolve disputes! "Since you have this kind of preparation and mentality, then I am more relieved! This is a sound transmission talisman, if you have any time, a ray of divine consciousness can be injected into it, it can instantly tear the void, even Qianshan Wanshui will reach my hands as soon as possible. As long as I have the ability, one

Will definitely be by your side as soon as possible! "

Wang Badao handed a paper talisman to Fang Yue's hand. The next moment, he turned and left, not attached to it!

When Wang domineering left, Fang Yue also began to ponder his own affairs.

He has been busy during this time, but he did not delay his practice.

His foundation is solid, and he is close to the bottleneck of the innate realm. As long as he stimulates a little, he may cause heaven. Step into the level of heaven and earth!

With the experience of crossing the catastrophe last time, Fang Yue understands that his calamity is not trivial, and God cannot tolerate it!

Relax a little, and he will be submerged in the endless calamity and become the dust of history.

Therefore, he needs to prepare carefully for the matter of the tribulation, and keep enough of his hole cards.

Originally, Fang Yue also hoped that Xiao Tie's transformation would be successful, and he could refine several new types of pill. But Xiao Tie was always asleep, unable to wake up anyway.

Xiaotie is a creature evolved from an iron pot, and there is no record or reference in history.

How long does it take for him to transform, and what he will eventually become.

Fang Yue's eyes were also blackened, and he didn't know anything.

All preparations depend on Fang Yue himself.

Foreign objects can never be counted on!

But this matter is not very anxious. His longevity is long, and it will be delayed for three to five years, so that the foundation will be more stable, and there will be no problem with it!

The biggest crisis now comes from Taiyi Jianzong. Three or five days after Wang Badao left, Taiyi Jianzong's spies and secret whistles had appeared many times near Fang Yue's grocery store! Fang Yue was frightened every day, saying he was not worried, it was all fake!

Chapter 349: Rolling heads

Whoever is stared at by Taiyi Jianzong, such a careful and powerful sect, can't be ignored.

Even Fang Yue has shut down all the factories near Qingyue Town, and the tasks of production have been assigned to the production bases of various human subspecies!

Even the things in the grocery store, except for the less valuable exhibits on the shelves, he converged, ready to run away at any time!

If the enemy's strength is equal, it is a kind of courage to use the sword on a narrow path.

But if the enemy is obviously more bull-breaking than you, and you rush up with howling your voice and squat with others, then it is a typical old birthday star hanging himself, and your life is long!

Sure enough, on the seventh day after Wang Domineering left, it was a murderous night with black and wind.

A man in black sneaked into Fang Yue's grocery store, holding a panicking long knife in his hand, ready to take Fang Yue's head away, and scrape away his soul and memory.

That night, Qingyue Town was red, and huge mushroom clouds rose into the sky.

The man in black was killed by the bombing, and the body was torn apart, and no body was left. The rest of the men in black escaped from the dead, but were lifted into the sky by a hidden master in Qingyue Town, and smashed to death with one hand! These people in black are all inner disciples dispatched by the Taiyi Sword Sect. The weakest are at the fifth level of the Heaven and Earth Realm. The two leaders have even reached the level.

Cycle state.

But he concealed his identity and attacked secretly, so he was killed and died in vain!

The results of this battle spread, and the loss suffered by Taiyi Jianzong was shocking. And they killed dozens of undead masters, two strong players in the rotation realm, and in the end they didn't even touch a single hair of Fang Yue.

Taiyi Jianzong ranks extremely high among the human races in the Xuanhuang world.

They are strong and domineering and have never suffered such a big loss.

Dozens of strong men in the world have fallen, and two elite disciples in the rotation world have buried their bones.

And the target they wanted to assassinate, Fang Yue was just a small congenital repair, and eventually retired peacefully, without even being touched by a single hair!

Fang Yue disappeared in the entire Xuanhuang world, as if the world had evaporated.

No matter how madly Taiyi Jianzong was, he still couldn't catch any trace of his existence!

Subsequently, news continued to spread that Taiyi Sword Sect disciples were attacked and killed when they went out.

Heads rolled to the ground, and all their wealth was looted, even their souls were sold, and they were refined into soul slaves by the Samsara Hall.

This is stormy and crazy revenge.

Although the disciples who were assassinated were not strong in cultivation, most of them were in the innate realm. They were handymen and outer disciples of Taiyi Sword Sect, but they were outside, and they also represented the face of Taiyi Sword Sect!

Only three days.

The number of disciples of the Innate Realm level who died in Taiyi Sword Sect exceeded one hundred!

Their bodies were stripped of white chickens, and they were placed at the foot of the Taiyi Sword Sect.

A pair of eyes furiously stared, never staring! Everyone was killed by a single blow, cutting off their throats.

This made the elder of Taiyi Jianzong furious, and someone screamed and shattered a mountain.

But it didn't help.

This Fang Yue seemed to be incarnate as a ghost, appearing in different places.

Take a shot and change place.

Fang Yue's whereabouts are unpredictable. The Outer Sect and the handyman disciples of the Taiyi Sword Sect's Innate Realm are more than hundreds of millions. If you want to protect, you can't protect them!

On the black market, something of unknown origin has gradually spread.

There are jade pendants personally protected by Taiyi Sword Sect disciples, standard armor and weapons, and even the flesh and blood of some special Taiyi Sword Sect disciples are selling. Some people want to use this material to research newer bloodline potions!

The handyman and outer disciple of Taiyi Sword Sect are all in danger.

They claim that they are extremely talented and invincible of their generation, but when they encounter a freak like Fang Yue who can't be measured according to normal principles, they can't even match a little finger!

Taiyi Sword Sect also sent someone to chase Fang Yue.

Once there was a murder case, a disciple of the Heaven and Earth Realm of Taiyi Sword Sect appeared immediately.

But this effect is not great.

In the realm of heaven and earth, if there is no comprehension of the power of Tao, encountering Fang Yue is equivalent to giving food.

And the cultivation of heaven and earth, who has understood the power of the Tao, may not be able to save his life in front of Fang Yue.

In just half a month.

Taiyi Jianzong's casualties increased suddenly! There are already thousands of bones of disciples in the innate realm, and dozens of disciples in the world have fallen! Three of them have even realized the existence of a trail.

They only need the time of water milling and patiently practice for a period of time, and promotion to the level of rotation is almost a matter of course. There is no obstacle.

This is equivalent to killing the three future rotation realm powerhouses of Taiyi Jianzong.

Some sects who had an enemy with Taiyi Jianzong saw that Taiyi Jianzong had suffered such a heavy loss, and they wanted to beat the gongs and drums and cheered.

Taiyi Sword Sect was in a posture that the mountains and rain were about to come. They seemed to be brewing a strong storm, giving Fang Yue the most deadly blow.

This Fang Yue's shamelessness completely exceeded their expectations.

A person has nothing to do with, not even a handle.

As for the family, the Fang family has completely stated that they have severed relations with him, and there is nothing to do with them.

As for his friends, none of them are easy to mess with.

Sima Xiao was rejected by the Sima family and was exiled again. Now even the Sima family does not know where he went. I don't even know whether it is life or death. Because I don't know when, Sima Xiao's soul lamp was removed from the ancestral hall of the Sima family.

Emperor Yi retreats in the depths of the Immortal Dynasty. The immortal dynasty valued the emperor. The chaotic divine body contained all the origins, and once it grew up, it would definitely become the pillar of the immortal dynasty. The Immortal Dynasty is very strange. Although it has never penetrated into the world of practitioners, it is full of strong faith. Any official, as long as he has a certain official position, can ascend to the sky in one step by virtue of the power of the fruit position, possessing the strength comparable to that of a mighty, leader, and even a saint

.

Although Taiyi Sword Sect was arrogant, he did not dare to easily offend the Immortal Dynasty.

There is also the overbearing king, which has now become the baby bump of the Taiyi Church. Now, he has been accepted as a closed disciple by a saint and taught himself that no matter how domineering Taiyi Sword Sect acts, he will not offend an invincible saint because of a small innate cultivation.

As for Master Yifan, that buddy himself is a terrorist who has nothing to do with him. Back then, the Taiyi Sword Sect sent people to encircle him more than once, and as a result, he came back unflinchingly every time.

His realm is not high, it was just a rotation realm. But a piece of talisman, can make him burst out of extraordinary combat power far beyond his own realm.

The powerhouses of great energy levels fell one after another, like dumplings, the corpses falling from the sky.

The leader-level existence that allowed Master Yifan to achieve the prestige of Master Fulu was sent by Taiyijian Sect to chase and kill Master Yifan.

As a result, three talismans fell, and a dignified leader-level existence was directly posted, and the soul was destroyed, and even the scum of the corpse was not left.

During this period of time, I heard that Master Yifan received Fang Yue's three super Jiazi Pills, and his life was filled again, and once again hit the bottleneck of Yin-Yang realm, and finally took that crucial step!

He crossed the calamity in a barren desert, and the sky was full of calamity, and he flattened one mountain after another.

The desert with a radius of hundreds of miles blasted 10,000 tons of yellow sand into dust, and a deep pit was exploded under the feet.

Let go of the constraints of the realm, Master Yifan will definitely go further in the Tao of Fulu.

This old terrorist leader has finally managed to settle down a bit recently, and Tai Yi Jianzong is absolutely unwilling to provoke him.

Within the Taiyi Sword Sect, some people have already begun to complain about why they should offend Fang Yue, the evil star. Obviously, his strength is not weak, and his talent is stronger. If he grows up, he will definitely become a big trouble for Tai Yi Jianzong.

According to his past performance estimation, even if he does not use formations, talisman, and various weird weapons, his own combat power and cultivation talents alone are enough to rank in the top 3,000 of the innate list. .

And this is still a fairly conservative estimate.

Some relatively radical people believe that Fang Yue is more likely to reach the top 500 of the innate list! You must know that the entire Xuanhuang world has more than hundreds of millions of innate repairs! It's rare to be on the innate list, and to be in the top three thousand, or even five hundred, is the blessing of great fortune itself, and is loved and loved by God, even if you want to kill, you won't see it. Must be able to kill

.

Facts have proved that such a person, as long as he falls on the road of no longer practicing, once he grows up, all of them are peerless heroes!

Wang Overbearing is a clear example. You can break your wrists with ordinary leaders while still in the realm of power!

Such a person is better if he has a background and concerns, at least he has weaknesses in his hands, and is easy to deal with and control.

The most terrifying thing is that Fang Yue is a widowed person like Fang Yue. He is a terrorist through and through. He has no worries and is proficient in all kinds of teleportation and teleportation methods. Once you want to escape, you can't even catch a single hair of others.

Moreover, in the world of practitioners, some major sects and families have also expressed their dissatisfaction with Taiyi Sword Sect.

Fang Yue flees, his whereabouts are erratic.

The price of Baicao Liquid on the market has risen suddenly!

All previous trade agreements are automatically cancelled. According to Fang Yue's words, I couldn't even save my life, and he sold a baicao lotion of wool!

More importantly, what Fang Yue has in his hands is not a kind of Baicao Liquid. Rosin Dan, Lightning Pill, and Super Jiazi Dan are gradually recognized and accepted by some schools. They are cost-effective and have no effect on taking them. The necessary things that the forces need to purchase.

This out-of-stock has caused even greater waves than before!

Some experiments and baptisms had to be stopped and waited for Fang Yue to return.

This puts Taiyi Jianzong under considerable pressure. They claim to be the first school in the world of practitioners. They are strong and aggressive everywhere.

But if you target individual schools, there is no problem, they are sweeping everywhere, and it is hard to resist. But the problem is that they are now facing a combination of many big forces.

In the middle are the shadows of Pill Pavilion, Eternal Legion, Taiyi Sect and other big forces, jumping up and down, fanning the flames. Let Taiyi Sword Sect become burnt out!

Chapter 350: Black market reward

In the end, Taiyi Jianzong did not bow and compromise. On the contrary, they took the risk and increased the reward offered by Yue.

Whoever can provide Fang Yue's news will be rewarded with one hundred thousand high-grade spirit stones.

Who can capture Fang Yue alive, send it to Taiyi Jianzong, reward a volume of saints, and teach a unique magical power of Taiyi!

The reward for the second item is priceless.

Taiyi Jianzong has been teaching in the Xuanhuang world for many years. Their Taoist books and magical powers are rarely circulated, and the content of them is too much. May mention ancient mysteries. Can make people understand by analogy and promote to a higher level!

Many abilities that are trapped in a certain realm and cannot be detached, even the leader-level figures will be popular!

They broke out one after another and began to join the mighty army searching for Fang Yue!

This method of Taiyi Sword Sect is quite harsh.

They used the knife to kill people, and avoided sending the strong people of rotation and above to search for Fang Yue, and fell into the notoriety of bullying.

The next day, Fang Yue made a fierce counterattack.

A hundred heads of the disciples of the Supreme One Sword Sect's Heaven and Earth Realm were neatly placed at the gate of the Supreme One Sword Sect.

Every human head is full of fear during his lifetime, and their eyes are wide open, reflecting the figure of a demon!

Fang Yue became a nightmare for the bottom disciples of Taiyi Sword Sect.

Regardless of whether you are innate or in the realm of heaven and earth, you can always kill it!

Among them, three of the disciples of the Heaven and Earth Realm were still the arrogances of Taiyi Jianzong who gave high hopes. What they comprehend is the Taoist principles at the Dao level, and the future is boundless, and Taiyi Sword Sect is included in the list of key training!

The elder of Taiyi Sword Sect, seeing these heads, hated and mad!

He looked up to the sky, his eyes were red, his fists were clenched, and the joints were pale!

Some people say that the elder of Taiyi Jianzong dropped 18 teacups that day, venting his inner anger!

This Fang Yue seems to have hit the bar with someone from Taiyi Sword Sect! The shots are fierce and fierce.

This is the greatest disaster suffered by the bottom disciples of Taiyi Sword Sect in the past 100 years!

Although there are so many disciples at the bottom, they can't stand the tossing. Every disciple of the Heaven and Earth Realm has devoted countless efforts to cultivate Taiyi Sword Sect. Taiyi Sword Sect does not know how many resources it has expended to get them to this step.

Now, Fang Yue raised the knife with one hand.

The disciples of Taiyi Sword Sect fell one after another!

This was a heavy blow to the reputation of Taiyi Sword Sect and himself!

But this is only the beginning, not the end.

Fang Yue's reward was posted on the black market. He announced that he would drop a billion Lingshi to buy the heads of the Taiyi Sword Sect Innate Realm disciple! Each human head is worth 500,000 Lingshi, and one hundred million Lingshi is spent!

Lingshi is already lacking in charm for practitioners above the rotation realm, because the scarce resources they really need are not what Lingshi can buy!

But for the monks at the bottom, it is still a hard currency, meaning massive resources.

Five hundred thousand spirit stones, a human head of innate realm, and not limited to a single person.

Such a sale is simply not too cost-effective!

Taiyi Sword Sect, with a fierce reputation, can shock a large number of people.

But this does not mean that everyone is really afraid of it.

Some peerless fiends, demon heads, have lived a life of licking blood from swords. They were chased and killed by the enemy with their ass. In their hearts, whoever is chased and killed is not chased and killed. If they can get a reward of 500,000 spiritual stones, they don't mind, one more swordsman and one enemy.

In just three days, the reward of 100 million Lingshi was taken away.

In Taiyi Sword Sect, another two hundred innate disciples have fallen, and all kinds of people have died!

Some lost half of their heads, some were divided by five horses, and there was an elder brother who smashed them into meat sauce with the meteor hammer in his hand, making the disciples of Taiyi Sword Sect completely different. If it weren't for a badge to testify, it would be really hard to recognize that the owner of this corpse came from Taiyi Sword Sect!

Taiyi Jianzong was beaten in the face again. They didn't even see Fang Yue's figure. But the way he was offered a reward, lost two hundred innate disciples!

Fang Yue is wealthy, and the consumption of this spirit stone is nothing to him.

As soon as this precedent was set, Taiyi Sword Sect became even more panic.

Is there a possibility that Fang Yue will spend a higher price in the future to offer a reward to the higher-level disciples of Taiyi Sword Sect.

If he took out the Super Shelf Pill to offer a reward to the strong person in the cycle of Taiyi Jianzong, someone would definitely be tempted.

Moreover, this kind of reward is not aimed at individuals, but a group.

Their worries did not come true, and Fang Yue was quite stingy in this regard. He felt that it would be fine to make Taiyi Jianzong disgusting. Since he didn't suffer a real loss, he didn't have to fight for both losses and spend a huge price to offer a reward to the disciple of Taiyi Sword Sect.

Of course, Fang Yue said to the outside world that he could kill the disciple of Taiyi Sword Sect at will.

As for consuming all kinds of cherished resources and offering a reward to the disciples of Taiyi Sword Sect, they are not worth the price!

The disciples of Taiyi Sword Sect were despised.

This makes them more uncomfortable than offering a reward!

But Fang Yue's behavior was like a fuse. It ignited the anger of many big forces that had been arrogantly oppressed by Taiyi Sword Sect.

Forced by the deterrence of Taiyi Jianzong, they dared not speak.

This anger did not eventually disappear with the passage of time, but became more intense under the gestation of time.

This time, Fang Yue set a good precedent for them.

They didn't dare to take the lead, but they could retaliate and attack Taiyi Jianzong in another way.

They spent a lot of money to offer rewards to the disciples of Taiyi Sword Sect, from the lowest innate disciple, to the mainstay, the world realm disciple, and the rotation realm disciple!

In the black market, there is no shortage of murderers. And there is a strict confidentiality principle for the identity of the employer.

Suddenly, the reward list of Taiyi Sword Sect disciples was posted on the entire black market.

There are at least tens of thousands of large and small rewards!

The disciples of Taiyi Sword Sect encountered ambush everywhere. People's heads are rolling, blood is flowing everywhere.

In the past, the most arrogant disciple of Taiyi Sword Sect was killed so much that they couldn't lift their heads, and many people even chose to hide in the depths of the school. So as not to encounter an ambush.

The Taiyi Sword Sect is very powerful. They sent people to negotiate with the black market, demanding that the reward for those of the Taiyi Sword Sect be closed, and the list of the culprits behind the scenes was handed over, ready to retaliate one by one.

The toughness of the black market exceeded Taiyi Jianzong's expectations. Because the messenger of Taiyi Sword Sect is too strong, he has repeatedly offended, and the generation will lead the iron cavalry to flatten the black market.

As a result, a strong man from the leader realm in the black market took a shot, took out a kitchen knife and chopped the messenger of Taiyi Sword Sect into meat.

They claim that there is a way to steal.

It's not like a certain sect, who obviously does things that are more disgusting than the bandits, but they are dressed in the cloak of a famous sect.

As a result, many sects dropped their jaws.

Is this Taiyi Jianzong about to fall from the altar?

How does it feel like there is a feeling of pushing the wall down!

The messenger of Taiyi Sword Sect's death this time is not a cat or dog of the innate realm, but a serious and veteran power, like the sky!

If the world is the mainstay of a sect, then Da Neng is the backbone of the sect!

The power has fallen, a piece of veneer. The cry is so loud that the funeral will last for nine days and nine nights!

That night, Taiyi Sword Sect had several saints who came together and personally arrived at the black market Xingshi to inquire.

But at dawn, someone saw the saint of Taiyi Sword Sect leave, each with his nose and face swollen, and his body was wounded to varying degrees!

They came back unflinchingly, and even lost miserably in battle!

It is said that the black market has invited a great man, and a single finger is the saint powerhouse who suppressed all Taiyi Sword Sect! But in short, this matter didn't stop, and finally ended with the recognition of Taiyi Jianzong.

This news came out, the world was shaken!

Taiyi Sword Sect's reputation as the number one faction of the human race was shaken.

It means they will have enemies too!

At the same time, following the reputation of Taiyi Jianzong, the black market has risen strongly. Regarding that battle, the people on the black market didn't mention anything too much, but the final record was in front of people. Let people have a new perspective on the black market!

The black market has also gradually restricted the reward for Taiyi Sword Sect, which is regarded as a bit of face for Taiyi Sword Sect.

In the dark world, there is also a certain order. The black market was born not to promote chaos and destroy order, but to establish a new order from another angle!

The farce of Taiyi Sword Sect finally ended in no way.

As for Fang Yue, the instigator, he completely disappeared from people's vision.

No one knows where he has gone. This mysterious and yellow world is boundless and vast, and it is too easy for Fang Yue to find a place to hide!

In an ancient mountain forest, giant trees are towering to the sky, apes screaming and tigers roaring, and from time to time there are giant pythons that are thicker than buckets, passing through the lush forests, and the green figure shimmers in the sun. Light.

The giant python snaked and swept the fallen leaves, and the rocks were broken one after another by its tail.

Its eyes were as big as lanterns and were full of scarlet red, and its sharp fangs shone pale.

Fang Yue set foot in this barren forest, using the methods in "The Truth of Life" to converge his breath. Either the crow on top of his head quacked past, or there was a hare who raised his ears, raised his front paws, and stood beside him.

These creatures turned a blind eye to Fang Yue, as if he was a lifeless rock.

"The True Scripture of Life" is a celestial scripture with a true roots. Its origin is mysterious and cannot be guessed.

Even if it's just a small method recorded casually, it is unpredictable and can be hidden from the sky.

In this deserted mountain forest, Fang Yue's eyes swept down, and in the extremely remote place, a group of people flickered. In this barren forest, it is said that a large bronze tripod was unearthed a few days ago. The cauldron was rusted and mottled and dilapidated, but there were some powerful identifications. It was an ancient treasure. It's just under the seal, and it's filled with extremely precious liquids.

Muscles and bones metamorphose, from a mortal body to the sky in one step, metamorphose to the eighth level of the yellow rank!

therefore. This barren forest has become a place for many casual repairs and treasure hunters. Fang Yue also followed the crowd and came here, but after wandering for a few days, he did not see any traces of the so-called treasures. Instead, in this barren forest, he felt an increasingly gloomy and terrifying aura.
