

## God of Life 411

### Chapter 411: Arms dealer

"Do you want brand new, 80% new, or refurbished?" Uncle Li started a business, quite professional.

Even the sale of fifty thousand stars has achieved the ultimate in service.

"Oh? What's the difference between these three?" Fang Yue had never been in the arms business, and for the first time he heard that there was such a choice. Uncle Li said in detail: "The brand-new ones are naturally the ones that just came out of the factory. They have the best performance and are not prone to problems. But the price needs to be doubled. 80% of the new ones are those that others have used before. The eliminated second-hand goods generally have no major problems, but in terms of quality, I don't dare to guarantee 100%. The price on this price list is 80% of the new price! There are also refurbished goods that have been eliminated from the military. After a while, it's okay to play, but it's not easy to say how long it will last. Your key needs to be refurbished, I can

In order to give you a 20% discount on this price! In the future, if you have any spirit stones, sell them to me first! "

Uncle Li is an old fried dough stick. If he were replaced by an ordinary customer, he would definitely not explain the doorway so clearly.

But Fang Yue's shot was five hundred spirit stones, and he didn't even blink his eyes, maybe there were more spirit stones in his hand to trade! Uncle Li doesn't just look at the surface like Cherry.

He pays more attention to putting long lines and catching big fish!

"You need a brand new one, one hundred thousand stars, no problem!" For Fang Yue, star coins are irrelevant. The ghost knows when the end will come and the entire civilization system will collapse. Star coins rely on the official government. The currency issued by credit is likely to face collapse, at least depreciation is inevitable! Instead, it's the munitions in hand

It's a real hard currency!

At this time, Cherry had already exchanged Star Crystal back.

She heard that Fang Yue and Uncle Li had reached another deal, for the arms business of one hundred thousand stars, she could have another five thousand stars in her pocket!

Cherry was extremely excited. When she looked at Fang Yue again, she was already a rich man with brilliant golden light.

In this short period of less than half an hour, her gains can already be worth one or two months of commission income on weekdays!

Fang Yue doesn't care about the consumption of star coins, he cares more about the time, the calamity of the doomsday, like a poor wolf and hungry tiger chasing behind him, always watching his figure.

"And do you have weapons of mass destruction? For example, high-energy bombs or something!"

Guns are good at small-scale operations. If you face a few people or dozens of small groups, there is no big problem. But once it encounters a large-scale battle, the deterrent power of this single-handedly is not great!

Uncle Li looked at Fang Yue with excitement: "Yes, yes, yes! Boy, what do you want, I have everything here!"

The arms business is not a feature for Uncle Li. In the black market, which company is not related to the military and doing similar business. Therefore, Uncle Li puts antiques in the first place on weekdays.

But even if Uncle Li doesn't have any special features in arms, he has everything he needs for all kinds of arms and equipment! "This is a high-explosive bomb of the T2 model! Each one only needs one thousand stars! Normal building construction can be easily knocked down. The only drawback is that there is a 3 second explosion delay. Its effective explosion range is about It's about fifty meters away from Fangyue! Ordinary fierce beasts in the innate state can hardly bear

Withstand the indiscriminate bombing of this T2 bomb! "This is a high-explosive bomb of the T4 model, which can be said to be an enhanced version of the T2 bomb in the model! In terms of power, it is about five times more powerful than the T2 high-explosive bomb, and the effective range of the explosion remains unchanged. The explosion delay is 2 seconds, there is no obvious defect, three thousand star coin, the price

Slightly expensive! "

"Also, this is a Z1 fixed-point blasting device. With a remote control device, it can be remotely commanded from 10,000 meters away. It is slightly more powerful than the T4 high-explosive bomb. The limited range of the explosion is 200 meters."

Uncle Li took out a bunch of bombs and let Fang Yue choose!

Fang Yue nodded slightly, thinking that the power of these bombs was pretty good!

"Let's do it! Ten of this T2 bomb! Ten of the T4! I want twenty of the Z1 fixed-point blasting device! This thing is suitable for concentrated explosions and has more power!"

Fang Yue pointed at random, and the excitement on Uncle Li's face became stronger! He realized that this is definitely a fat sheep!

And the cherries next to it are completely covered.

What kind of guest is this! Is it to blow up the terrorists in the entire 037 city?

But looking at it, it seems a bit different!

"However, the power of these things is still a little too small! If there are any more powerful munitions, small munitions, etc., you can give me some! There is also fighter armor! Mini nuclear bombs or something, as long as you have them, I will want!"

Fang Yue opened his mouth.

Cherry completely overturned her conclusion. In her mind, the name of the terrorist was completely posted on Fang Yue's body!

Micro-nuclear bombs and fighter jets are the most taboo things officially. Once caught, it will definitely be a serious crime to fall to the ground!

This guy even wants this thing.

What is not a terrorist?

When others buy arms, they are usually self-defense. This buddy, it is estimated that others need to guard him!

"Yes, yes, yes! What do you want, what do I have! Brother, don't worry, I will help you find the list of these things!"

Uncle Li was a little trembling with excitement, high-explosive bombs and the like, all of them are worthless gadgets!

It is a small amount of money that is dispensable, and the business is done, for him, that is to get some pocket money! But what are the miniature nuclear bombs and fighter jets?

At every turn, it is a big deal involving millions of stars!

A single order was made, enough for him to spend half a month.

"If I pay, can I choose to pay with a spirit stone? Pay at the rate of two thousand stars per spirit stone! I'm afraid I don't have that many stars!"

After Fang Yue accepted the list handed over by Uncle Li, he nodded slightly. The transaction amount involved was indeed a lot. Fang Yue made a rough estimate. According to his planned needs, he bought everything. The need is at least ten million stars. More than currency, even more!

He doesn't have enough star coins, and he wants to use spirit stones to buy recharges!

At this time, Uncle Li hadn't made a statement, and Cherry was already extremely excited!

Great customer!

Great customer!

Is this person sure to pay with spirit stones?

This payment mode is not without precedent in the black market. With Lingshi as currency, the commission she receives will also be half of the Lingshi!

What is hard currency? Not Star Crystal, not even Star Coin! It is a spirit stone that can be directly used to improve strength and break the bottleneck!

Uncle Li's eyes also lit up. He smiled and said, "This, of course, there is no problem!"

In the end, Fang Yue dragged away three small military combat spacecraft, two particle cannons, one hundred micro-nuclear bombs, etc., and left the black market with weapons worth nearly a hundred

million Lingshi! Of course, he was worried that when he used these weapons in the future, he would not have enough energy, and he would exchange it for a thousand star coins!

Anyway, in the end, Uncle Li, who Fang Yue left, felt that his feet were floating on the ground.

As for the cherry, it was because of the beautifully made order that he was promoted directly from the most common shopping guide to the negative twelfth floor regional director.

The portrait of Fang Yue was almost never offered by Cherry as a great god!

After leaving the black market, Fang Yue bought various necessities worth nearly one million stars, such as compressed purified water, high-energy food, medical bandages, hemostatic sprays, anyway!

If millions of stars are placed in the black market, they won't even be able to hit a splash, but they are definitely used to purchase various biological materials.

A large amount of resources were hoarded by Fang Yue.

He was waiting quietly, the so-called doomsday.

Doomsday, did not let Fang Yue wait for a long time! On the third day after the Viper incident.

The sirens of City No. 037 were sounded again!

The sharp siren tore the entire sky!

Fang Yue was eating in a small restaurant, when he saw zombies walking on the street!

"Fuck, Resident Evil? What about totems and fierce beasts?" Fang Yue saw the scarlet-eyed zombies, and he felt like a dog!

In the past few days, he has been collecting information related to the totem beast. The ghost knows that it will temporarily change into a zombie invasion!

There are no signs, no warnings.

There are almost 80% of the pedestrians on the street, with raised eyeballs, pale faces, sharp fangs, and they have become zombies full of death!

Every zombie is a cruel, bloodthirsty madness from head to toe head!

They bite at the sight of people, unscrupulous!

"boom!"

Fang Yue shot, and shot a headshot of a man who had just turned into a zombie! His brain cracked! Red and white splashed to the ground.

"A shot headshot, there is death but no life!" Fang Yue played cool, and blew the white smoke on the barrel of the gun!

However, what Ling Fang Yue didn't expect was that after losing his head, the zombie man still got up firmly!

Toward Fang Yue, he staggered and walked firmly!

"I wiped it? What's the matter? Yes, zombies are afraid of headshots? How come this buddy's brains have been beaten out, and he can actually stand up!"

Fang Yue's mind is a little confused, and the experience learned from the movies on the earth seems to be a bit unhelpful!

"Movies or something, it really is not very reliable!" Fang Yue mumbled, raising his hand again, and another bullet broke through the air!

This time, Fang Yue hit the zombie's chest!

The head and heart are the key points of ordinary creatures!

With a bang, the zombie's heart burst! Blood was splashing, ceiling, floor, furniture, tables and chairs, everywhere!

At the location of the zombie's chest, a hole the size of an adult's fist appeared.

But he still didn't stop moving forward!

At this moment, Fang Yue's head is big!

This thing has no weaknesses, no key points, how to fight it?

"what!"

"Help!"

The customers and waiters in the small restaurant are already running away after seeing this horrible scene. Although their physical fitness is not weak, they still have the fear of human instinct!

Compared with the people in the Xuanhuang world, the people on the deep blue planet live too easily and lack the necessary combat experience!

The combat effectiveness on paper is okay, but when it comes to realism, real swords and guns, they will all be useless!

"Where is the point?" Fang Yue narrowed his eyes. There is no such thing as a perfect creature in this world! There is no so-called immortality.

This zombie must be vital! Fang Yue's mental power suddenly poured out, covering the entire zombie's body. In the next moment, Fang Yue noticed that the position of the palm of this zombie's left hand was surging with slight energy fluctuations!

## **Chapter 412: Life Crystal**

"right here!"

Fang Yue caught the fleeting energy fluctuation with another shot.

The left hand of the zombie exploded.

A red crystal the size of rice grains clinked and splashed out.

The crystal fell to the ground.

Fang Yue bent over and picked it up!

It was this red crystal that flashed the faint energy fluctuations just now.

The palm exploded, and the zombie fell to the sky.

This red crystal is the source of energy in his body!

"Life Crystal!" Fang Yue keenly realized that this red crystal was the only source of energy in the dead body!

However, a zombie can clearly be classified as a kind of undead, but why is it that he is supplying his own energy with a crystallization of the aura of life?

There was a little doubt in Fang Yue's heart!

Leaving the restaurant, ran to the nearest supermarket!

The zombies on the street are in a rush, their actions are slow, but their lives are tenacious!

There is already a police organization responsible for killing and suppressing zombies, but they cannot capture the vitals of zombies as sharply as Fang Yue. The bullet rained down on the zombies, and none of them could hit the zombies. The key! Although zombies move slowly, once they get close to humans, the speed at which they move is simple and agile! Raising their hands, they may take the life of a policeman. They will take the other person's heart out of their chest, and then chew and swallow it in their mouths! Be yourself

The energy source of evolution!

Fang Yue turned a blind eye to these sights, this was a necessity in the early days of the end! He was on earth and watched countless disaster horror movies! The early days of the doomsday will cause a temporary collapse of human order and the death of a large number of people! But with it, there is also the powerful potential that humans have burst out of desperation. The oppression of life and death will produce incredible evolutionary power for humans! The weakness of zombies will be

Research it out quickly.

There is no need for an outsider like Fang Yue to worry about this at all!

Fang Yue is more concerned about the location of survival resources. When the end comes, the entire production system will be fatally hit and destroyed! In the process from destruction to reconstruction, some necessary materials will become the focus of people's competition-energy, food, water, weapons!

Energy, in the civilization era where the deep blue planet is located, naturally is the star crystal! Xingjing is everywhere, but the place with the most storage is definitely the bank and the vaults of major forces!

With this strength of Fang Yue's current strength, going to grab the star crystals for other big men is no different from looking for death!

Then the only resources he can easily occupy are the food and water in the supermarket!

Highly compressed forms of food and water are naturally preferred. But Fang Yue did not have any opinions on other forms of water and food.

Anyway, the space in his stone pendant is unlimited, so many materials can be loaded.

As expected, people in the supermarket are already empty! The more crowded the place is, the more zombies will be born! These zombies appeared, and the customers and waiters in the supermarket must have escaped.

In the end, it was supermarkets and shopping malls, all of which were empty, leaving only a head of zombies, wandering aimlessly!

When he encountered a zombie again, Fang Yue already had considerable combat experience. He first scanned the zombie's body with his divine consciousness to find the location of the life crystallization, and then shot a headshot! No false hair! What Fang Yue found this time was a small supermarket closest to the place where he had just eaten. There were only twenty or so zombies in it. They were cleaned up by Fang Yue in just a few breaths! On the shelves, all the materials in the warehouse were swept away by Fang Yue at the fastest speed. Of course,

Before scanning the goods, Fang Yue broke all the monitors in the supermarket!

After collecting materials from a supermarket, Fang Yue quickly rushed to the second supermarket without stopping. Fang Yue stepped on the location of these supermarkets early!

In just half a day, Fang Yue swept away the resources of 23 supermarkets of different sizes within a radius of 10 kilometers. The resources reserved were enough for a unit of 100 people to survive in this end of the world. Half a year!

After collecting the surrounding resources. Fang Yue shifted his target and started running towards the location of a nearby bank! Fang Yue didn't want to rob the bank, but to seek asylum!

The army is well-regulated! It is impossible for him to join casually, and even if he truly becomes a member of the army, he must be subject to strong control, and his future actions will become quite inconvenient! The police station should also be a relatively fair and just pure land. But the police, there are too many people to contain, it is easy to become the target of zombies! Instead, it is the bank, which is ignored by people! There are many armed police who are responsible for guarding, monitoring devices, and defense systems.

perfect! Taking refuge in the bank is the best choice before the end!

Sure enough, when Fang Yue arrived at the nearest bank, rows of heavily armed armed police had already surrounded the bank! They were on guard, and all the zombies on the ground were sieved!

"Uncle Police, save me!"

Fang Yue staggered, he deliberately dressed himself up very embarrassed! Only in this way can it arouse the compassion of the police!

At the same time, the alert of these armed police can be reduced!

Huh huh!

At the moment Fang Yue approached, all the armed police picked up their guns in unison! The black hole's muzzle made Fang Yue's feet cold!

Damn it, is the plan unsuccessful?

Was someone discovered his attempt?

Fang Yue was thinking wildly in his mind.

An armed policeman examined Fang Yue with cold eyes, then pointed to the corner of the wall and said, "You, stay with them!"

Fang Yue followed the position where the armed policeman pointed.

In that position, there are already several buddies holding the little Mazha, sitting in the fight against the landlord!

Fang Yue was speechless, he understood that it seemed that he had underestimated the heroes of the world, and it was not he alone who could perceive the mystery of this bank.

"You guys, just stay here, we can guarantee not to let the zombies come near you! But if you dare to have any evil intentions against the star crystals in the bank, be careful I will shoot you one by one and throw the corpses to the zombies for dinner !"

A five-and-three rough armed police came out, pointing at Fang Yue and others rudely and rudely.

This buddy is obviously the leader of these armed police, his aura is stronger and he has stepped into the innate realm!

His eyes are piercing, obviously not a good crop! Fang Yue walked to the side very honestly, randomly found a newspaper, spread it on the ground, took out a red life crystal, and observed it carefully.

The crystal of life is obtained from the body of a zombie.

This thing is seriously at odds with the death attribute of zombies! But the zombies use this thing as the source of their power, which obviously contains an elusive secret!

The armed police saw Fang Yue honestly found a place to sit down, so he let out a sigh of relief.

Why don't they know that many of these people who have sought refuge in the bank have malicious intentions, but they know what they can do, no one will write the words I am a bad person on their faces! As long as they are here for refuge, as armed police, they are obliged to take refuge!

Before these people actually do it, they are still their key protection targets!

The police officer felt aggrieved. But there is no alternative!

He can only vent his full anger on the zombies that are pouring in!

Fang Yue studied for a long time, and he really made a little way out of this red crystal of life!

This thing is a special structural form of life force, and its internal structure is extremely complicated!

It can absorb the external life force to strengthen itself! At the same time, feedback to the owner of the body it has deposited to make it stronger!

In other words, the zombies of Deep Blue Planet are not undead creatures at all, but the life force in their bodies has all condensed into this kind of thing! This special form of life crystallization makes zombies have a very strong desire for life force!

Therefore, zombies will constantly look for the breath of living people, and then swallow, bite, and absorb the essence of life in their bodies!

For the zombies, this is the nucleus of life, but for the desperate creatures in the mouths of the zombies, this is the poison for death!

Fang Yue held this life crystal in his hand, and poured a trace of life energy into it. The color of this crystal dimmed immediately! The next moment it turned into white powder, flowing away from Fang Yue's fingers!

A very weak energy was fed back into Fang Yue's body! An ancient pattern appeared in his mind!

A black dragon roaring to the sky! Its body was locked by extremely thick chains, and it was unable to struggle!

This ancient pattern was only fleeting, and even Fang Yue couldn't leave a clear picture in his mind! But Fang Yue had heart palpitations, and he felt like the black dragon.

That despair, that helplessness, and that struggle made his heart tremble slightly!

Fang Yue shook his head and watched his palm that had absorbed the energy feedback. Infuriating energy revolved. A trace of black lines sprang out along with the palm lines!

"What exactly is that trace of energy? Why does it make me feel like I am wrong!"

Fang Yue was a little flustered. He found that he didn't understand the world. According to the pure energy level, the zombies were just like creatures in the acquired realm. Everything in it should not have any effect on him.

However, Fang Yue clearly sensed that in the instant that the faint energy was injected into his body, there was already an undetectable change in his body!

Soon, Fang Yue calmed down, this was a blessing, not a curse, or a curse that could not be avoided!

The life crystallization in this dead body may be the opportunity in this doomsday! And if he has the "The Book of Life" if he can't even understand the structure and purpose of the life crystals in this dead body, I am afraid that it is difficult for people in this world to understand the magical effects of this life crystal!

"You can't do the experiment on your own, in case something goes wrong, if you hang up, there will be nowhere to cry!"

Fang Yue changed the subject of the experiment. He leaned over and saw a small ant slowly carrying a small stone and walking past his feet.

"You are the one!"

Fang Yue picked up the little ant, and then grinds the life crystal into dozens of even smaller powders.

This life crystal has weird characteristics, no matter how tiny the particles are ground, this thing can maintain the same structure as the body! A small particle was fed to the little ant. The little ant immediately expanded from the size of a small rice grain to the size of a mung bean! On the surface of its body, a faint breath of demons and purgatory flowed out!

### **Chapter 413: Collect crystals**

"Hell ant?" When Fang Yue saw this little ant, he immediately rubbed his eyes, and an incredible look appeared in them.

Although he is reluctant to admit it, this little ant has the breath of a standard \*\*\*\* ant. Hell ants are very ancient creatures, they were born in purgatory! Every \*\*\*\* ant is infinitely powerful, and there is \*\*\*\* fire in his hands, and everything is burned!

The body of this ant is indeed the breath of \*\*\*\* ants, very strong and pure, but because its life level is too low, it is just less than one-billionth of the strength of the oldest \*\*\*\* ant!

At this moment, Fang Yue finally understood the effect of this life crystal, which can awaken the oldest gene fragment in the body!

However, the stronger the life, the more life crystals are needed! The black dragon bound by the chain is probably his ancestor in ancient times!

Fang Yue understood the tricks, and immediately changed his strategy and plan!

The life crystallization of this zombie is the real good thing! Before the zombies continue to mutate and become stronger, collecting more life crystals is the kingly way!

Fang Yue raised his eyes and saw that the patches of zombies were like gold and silver all over the floor. Fang Yue swallowed involuntarily! A green light appeared in his eyes!

"What are you going to do?" Seeing Fang Yue's greedy breath spreading all over his body, even the armed police officer was taken aback. He stepped back two steps, subconsciously raised the gun and pointed at Fang Yue Shouted.

Fang Yue smiled, "I'm hungry, find a place and get some food!"

After speaking, Fang Yue jumped a few times, and his figure disappeared in the group of zombies.

The police officer spit out a thick sputum and said, "Good going! Save it and stay and cause me trouble again!"

The police officer didn't catch a cold with people like Fang Yue! The identity is unknown, the origin is unknown, and the skill is extraordinary. If they really make a fuss, cooperate with the zombies, and attack them back and forth, it is very likely that they will fall into a situation where they are attacked by the enemy!

Fang Yue ran to a place where there was no one, and summoned a large group of skeleton soldiers. Against the little zombies, the strength of the skeleton soldiers is sufficient!

As soon as Fang Yue summoned, it was a small skull full of mountains and plains. If you look at it from the sky, it is a piece of white flowers, boundless! There are more skeletons than zombies! Moreover, they moved quickly, and wherever they passed, the zombies came down as if they were harvesting wheat.

Fang Yue was cleaning up the little zombies. A similar sight also appeared in other places in the 037 city! The doomsday comes, and the so-called disaster represented is relative!

Some big families have already received the news and made corresponding precautions! They quickly studied the weakness of the zombie and understood the value of the life crystallization.

So they dispatched a troop to try their best to establish a superior position in resources in the early days of the end!

They still refused to let go of all kinds of living supplies, the crystallization of the lives of zombies!

Zombies and humans have begun to stage the scene of hunting and being hunted! Such scenes are constantly being staged across the entire Deep Blue Planet. The ordinary people at the bottom, with poor strength, no combat experience, and no guns and weapons, can only become food in the sky of zombies and become the source of power for the evolution of zombies! And the armed soldiers, warriors

, They are taking to the streets one after another, hunting zombies frantically to obtain the crystals of life in their bodies!

Natural selection, survival of the fittest, will perform vividly on this day!

It's just that this kind of war dividends disappeared after only a day's time!

The dawn of the next day rose.

All zombies have evolved unanimously! Their actions are all keen, like ancient apes, tossing around, every movement is so smooth, as if they have been trained thousands of times! The attack power of these zombies is stronger, and some zombies even have some talent advantages. For example, Fang Yue encountered a zombie with black attributes. On its claws, there was a layer of corrosive aura. Contaminated, it can make the wounds of living people not

To break the decay, unless it is driven out by corresponding means, otherwise, it is equivalent to being sentenced to death, and will be tortured to death in the decay!

Other zombies have mastered the attack methods of flame, frost and other attributes. They are undefeatable and full of tricks. Instead, zombies with strength, speed, and solid attributes have become the easiest existence to fight against!

"What is this Nima!"

The little skeletons summoned by Fang Yue are no longer easy to kill the zombies, because the strength of the zombies they face is growing exponentially!

But yesterday, Fang Yue had already relied on these little skeletons to collect at least 100,000 life crystals, so Fang Yue didn't feel any regrets or surprises about this kind of change! In the face of the evolved zombies, Fang Yue put away the little skeletons to prevent them from making unnecessary sacrifices. Although they are all summoned creatures, no matter whether they live or die, they have nothing to do with him, but Fang Yue feels that this little skeleton After all, they are all the little brothers who do things for him, and the necessary humanistic care is still needed

Have it!

Subsequently, Fang Yue directly summoned dozens of zombies, all of which were at the fifth to sixth small levels of the Innate Realm. Their appearance is somewhat similar to that of zombies, but their strength is stronger than that of zombies.

Although evolved zombies are more difficult to deal with, the volume of life crystals in their bodies has also tripled! And the ability to change the gene sequence is several times stronger! Compared with the original zombies, the effect is better!

Fang Yue called the life crystals collected at the beginning as the first-order life crystals, but the current life crystals are regarded as second-order life crystals!

At dawn the next day, the order of the entire No.037 city completely collapsed and collapsed, and the army mutiny, no longer under the command and control of the above. In the black market, some wanted criminals also took to the streets with heavy weapons to burn, kill, and rob! Fang Yue was only one of the fish in troubled waters, not very conspicuous. Because on the way to collect the second-order life spar, Fang Yue saw with his own eyes dozens of three-meter-high fighter armors walking across the street. These mechas were all humanoids, made of steel, and shiny silver! fighting

The power is amazing!

This is just the tip of the iceberg.

But the degree of publicity is far better than Fang Yue! Fang Yue's heart was muttering, what exactly is the military doing to eat? Even this level of zombie turmoil can't be suppressed! Although there are a large number of zombies, the obvious single combat power is by no means strong. A heavily armed army wants to suppress these zombies, although it is not easy to say that

In terms of difficulty, it is definitely not high!

Of course, those were things that were considered by high-level officials. Fang Yue's people were humble. He felt as long as he could search for resources as much as possible and hoard life crystallization! This life crystallization is definitely a good thing!

Fang Yue refining five hundred first-order life crystals into his left hand, the strength of his left hand has doubled! Originally, Fang Yue had an advantage in the physical body! Now with the help of life crystallization, grow again!

If he could refine this life crystal into his body, then Fang Yue felt that his combat power could at least be doubled!

Just when Fang Yue was frantically collecting life crystals.

A message came suddenly!

"I'm in danger, come here!"

The content of the message is simple and straightforward! However, Fang Yue did not hesitate to take away the zombie army around him, and ran towards the direction that the message came from!

There is a location map on the information!

It is only less than three kilometers away from Fangyue! The sender of that information was Liu Han, and Fang Yue had only such an acquaintance in the entire Deep Blue Planet. As a native, Liu Han has far better information levels than Fang Yue, and his position in the Liu family, even if the zombie mutates, it will not make him such an urgent call for help. It must happen.

What happened!

Fang Yue had a preliminary judgment in his heart!

Sure enough, when Fang Yue resisted Liu Han's place, Liu Han had already collapsed in the corner. There was a wound several inches deep on his left arm, which was more than half a foot long!

The white bones are exposed in the air.

The gurgling blood flows out like no money!

Liu Han's face was pale. And in front of him, is a zombie!

One stronger than the zombie... Tier 3 zombie!

The classification of zombies, according to the number of times of evolution, did not evolve, the first mutated zombies are called first-order zombies! After dawn, life jumps! The zombies after the leaps and bounds of strength are called Tier 2 zombies!

In theory, as time goes by, the strength of zombies will continue to grow!

There will also be Tier 3, Tier 4, and Tier 5 zombies!

However, shouldn't the appearance of Tier 3 zombies still have a while?

According to the law of biological evolution, the more advanced creatures want to evolve, the longer the accumulation time will be!

But why, Tier 3 zombies will appear here?

Fang Yue's mind is totally puzzled!

"Hydrotherapy!" Fang Yue didn't have time to think. He raised his hand and it was a ball of water.

The water polo fell on Liu Han's wound, and the wound healed at a speed visible to the naked eye.

Liu Han's face looked a little better, but he still felt weak, because he had consumed a lot of physical energy in the battle just now!

The attention of the Tier 3 zombie also shifted from Liu Han to Fang Yue.

Because, instinctively telling him, this guy is more dangerous than the one he just injured!

Tier 3 zombies, in appearance, have not changed much from ordinary zombies, awkward eyes, slender and blue nails, and a smell of rotten, lingering around the body!

However, his muscles are tight and streamlined. From the outside, he looks more like a senior fitness trainer!

In the eyes of the zombies, red light gathered!

Once again, there were two deadly beams lasing out of his eyes!

"Damn. This is an advanced level! Even zombies have learned to kill with their eyes! Before you were alive, wouldn't it be the famous basketball celebrity Sakuragi Flower Road!" Fang Yue's mouthful of nonsense, wanting to influence the attention of that zombie Power and judgment!

He is still restraining, hiding his skills! Especially with a bystander like Liu Han around him, it is difficult for him to completely let go of his hands and feet. Sure enough, there was a slight twitch on the zombie's face. As the zombie continues to evolve, emotions and wisdom begin to appear!

#### **Chapter 414: conspiracy? the truth?**

Fang Yue raised his hand decisively and shot! The rotating bullets tear the air! The direction Fang Yue aimed at was the position of the zombie's left chest. Because of his spirit, he has insight into the location of the opponent's life crystallization! Although there is only a slight energy fluctuation, there is absolutely nothing wrong with the position!

With a bang, the bullet crossed, exploding the zombie's left chest instantly.

However, in the imagination, the scene of the Tier 3 zombies falling up to the sky did not appear. Instead, under those scarlet eyes, a ridiculous smile emerged from the pale face.

"You know what I'm talking about and what I'm doing right!" Fang Yue asked loudly, his face horrified! Sneer, ridicule, these are quite advanced expressions and smiles, which are definitely not something that a sane creature can have!

The intelligence of this Tier 3 zombie is likely to far exceed Fang Yue's expectations, and even he himself has not lost his sense of reason when he becomes a zombie!

Fang Yue's heart became colder and colder! This zombie incident is likely to be a thousand times more serious and terrifying than he imagined!

"Young people, knowing too much is not a good thing. The more you know, the sooner you may die, do you know?"

The zombie's mouth opened, and an old voice came out. His opponent Yue spoke, which meant that he admitted that his sanity had never been lost.

Fang Yue asked with a sullen face, "You haven't lost your mind, then why do you want to start with Liu Han! He is a human! So are you!" The zombie sneered, "Naive! From the moment I became a zombie, I have become another one. A group of creatures! Humans, this kind of despicable group is also on par with me? Humans, after all, will sink into birth, old age, sickness and death! Evolution is difficult and cannot be detached, and my zombie family means that it has an extremely long life from its birth. Can squander! Moreover, we don't need to practice, just swallow, swallow, swallow again! We can continue to evolve and achieve self-transcendence! We will master the power and authority that transcend all living beings! We are the children of destiny,

Is the eternal master of this world! "

In the eyes of the zombie, there was a feverish light.

It's like a fanatic on a pilgrimage!

"Not going into reincarnation means never transcending! If ordinary human beings die, they can continue to reincarnate and continue to transcend! And if you die, you are really dead! The soul has become the fuel of the crystal core, so it can be shaped Such a delicate structure!"

When talking about life and death and reincarnation, Fang Yue is ten thousand times more proficient in this aspect than this zombie!

In life, the body is just a skin, and the more important thing is the rotation and immortality of the soul!

This zombie had obviously gone astray and did not find a real evolutionary direction. Zombies are just alien species. Although there is no life-saving restriction, it also means that they have lost the protection of reincarnation!

Their state is somewhat similar to Ruyizi in a sense, but the only difference is that Ruyizi's perception of life and death is countless times greater than them!

"Could it be that this zombie virus is not a natural disaster, but a man-made disaster!" Fang Yue seemed to have touched some key points. In my mind, inspiration flashed.

The Tier 3 zombie's complexion changed a little, but the different color was fleeting. At the corner of his mouth, a sneer appeared: "Know too much, you will die faster!"

Tier 3 zombies made a bold move, and his figure was like electricity, culling towards Fang Yue!

His movements are agile, and the naked eye cannot catch him.

Competing for technology, Fang Yue may not be an opponent, but when it comes to eyesight and reflexes, these Tier 3 zombies feel like playing a big sword in front of Guan Gong!

"Go to hell!"

Fang Yue roared, he picked up the gun in his hand and repeatedly aimed at different parts of the zombie!

boom! boom! boom!

The rotating bullets constantly broke through the air, and the Tier 3 zombies were hit in different positions.

His shoulders, head, chest, and lower abdomen were all penetrated by bullets.

Tier 3 zombies were born alive and flew, smashing to the wall behind them!

The black blood ran all over the place.

Tier 3 zombies didn't look at him, he didn't understand at the end how Fang Yue could see his whereabouts clearly.

Fang Yue put away the gun and dug out the half of the red crystal exposed in the chest of the Tier 3 zombie.

The volume of this crystal is already three times the volume of the life crystal in the second-order corpse. Among them, the strength and essence of life force far exceed the life crystallization in the second-order corpse.

Fang Yue put this crystal in his hand, silently feeling the energy flow in it!

"Sure enough, the higher the level of zombie evolution, the stronger the effect of the life crystal in the body! The effect of this third-order life crystal is probably worth hundreds of first-order life crystals!"

Fang Yue muttered to himself, Liu Han next to him filled a small bottle of light blue liquid and slowly got up from the ground.

"Fang Yue, I am the one who caused you this time!"

Liu Han looked at Fang Yue with guilt.

"My brother, you are so polite. Besides, isn't this Tier 3 zombie already dead?"

Fang Yue looked at the Tier 3 zombie that had been beaten by him and died so hard that he could no longer die.

Liu Han smiled bitterly and shook his head slightly: "It's not that simple! I seem to have discovered the incredible secret of this zombie! This is already the fifth Tier 3 zombie who hunted me down!"

"The fifth head?" Fang Yue frowned. According to the law of evolution, it is understandable for Tier 3 zombies to occasionally appear one head, but there are five heads, and they were all encountered by Liu Han. This is too exaggerated. Right!

Is it possible that this buddy fell into the zombie den?

When Liu Han saw Fang Yue's expression, he also understood it very well. After all, in the entire city of No.037, the most are Tier 2 zombies, and Tier 3 zombies are almost rare!

"If I say that these Tier 3 zombies, I actually knew each other many years ago, do you believe it?" Liu Han said with a serious face.

Fang Yue showed a surprised expression.

"You mean, this zombie didn't appear suddenly, but it already existed a long time ago?" Liu Han nodded, "It seems to be like this! Five years ago, I had accepted a case, but someone witnessed it. There is a zombie. But because I was still in the internship period, I didn't have any big say in the police station. Although I wanted to work hard to find out the truth.

, But it was forced down by the above! Later, the case was left unfinished, and even I gradually forgot its existence. It wasn't until yesterday that the zombie appeared that I remembered the existence of this case! "

"You came across these Tier 3 zombies when you were investigating this case?" "That's right! That's it! Back then, I was young and vigorous, and wanted to find the truth behind all this, openly and secretly, I Through the investigation, I have actually found the approximate location of the zombies! Yesterday, I searched according to the previous information, and sure enough, the zombies are all there!

The zombies of the first order are actually just guards! The real big boss is still inside! "

Liu Han's words made Fang Yue fall into deep thought! He became less and less aware of whether the series of disasters on this deep blue planet were natural disasters or man-made disasters, the product of the struggle of modern civilization, or the curse of ancient totems!

But the only thing he understands is that he must investigate this matter clearly before he is qualified to survive in the dark trial. The dark trial, all the geniuses participating in the trial are not alive! You must work step by step and lay a good foundation in the previous life, and finally you can have a glimmer of hope of survival.

Fang Yue had already tried the teleportation array, but he couldn't make any connection with the mysterious world.

These two worlds seem to exist in different universes.

The coordinates of space and plane are not universal!

Fang Yue must make plans for his future, anyway, he feels that he cannot stay in this place. "If it is man-made, then everything that is not logical can be clarified! The Third Institute of Biology was bombed, it is a long-planned, a miniature nuclear bomb, the attack power is amazing, but in City 037 , Bombed the famous research institute of the entire Deep Blue Planet, there must be military indulgence and tacit consent in it! Tier 1 and Tier 2 zombies, under the deterrence of the military, such a national violent machine, should have nothing to fight back. Power, but they can still run rampant on the street! There is definitely a deliberate action! All the spearheads are pointed, this zombie incident is essentially caused by the high level of the deep blue planet! And their purpose will be What? I also have two levels initially,

one is to obtain a large number of life crystals from zombies to use to evolve myself, and the second is to simply want to make myself a zombie

, And then gain immortality! "

Fang Yue combed his thoughts and made a guess.

Liu Han looked at Fang Yue in surprise: "I think your reasoning ability is more suitable for being a policeman than me!"

"Thank you!" Fang Yue said modestly.

At this time, two tall figures appeared at the door of the house.

"Finally found it. This is where the Tier 3 zombies disappeared!"

The deep voice, hoarse and thick, gave people an invisible pressure.

Fang Yue frowned.

"Are you here to find me?" Liu Han slowly got up, and after drinking the recovery potion, his body was almost restored to its peak state. Under the high-tech civilization, all kinds of potions were Research it out! "Liu Han, you really are still alive! Give up unnecessary resistance! If you die, maybe your Liu family can last longer! Do you know that your blood has been out of five hundred in the black market? The price of Wanxingcoin! As long as you hand in your corpse, Starcoin can instantly

Get started! "

One of the figures spoke, laughing wildly.

Liu Han's face was grim: "Do you know that you are seeking skin with a tiger?"

"What kind of tigers are not tigers, don't drag these literary things, we Qi Wen, Qi Wu brothers, have never read books, don't know words, only know money! Five million stars, as long as we get it, we can buy junior The evolving potion now has the strength comparable to the five innate layers!"

One of the big guys spoke. He looked at Liu Han's eyes, as if a hungry tiger saw a fat lamb, all of which smelled of greed.

When Liu Han heard the names of these two men, his heart sank slightly. "Two brothers, Qiwen, Qiwu! The number one thousand eight hundred and twenty-sixth most wanted criminals on the City Wanted Order No. 037! Your heads are all valuable, and one person can exchange one hundred for the military. The reward of ten thousand stars! If both heads are offered, it is 3 million stars

bonus! Unexpectedly, you rushed here, dare to attack me as a policeman! "

Liu Han's voice was slightly cold, he was actually introducing Fang Yue's identities to these two people. Fang Yue's gaze crossed these two iron tower-like men, looking farther.

**Chapter 415: Terrible fat man**

"It's so familiar! It's getting closer and closer!"

"Fang Yue, what are you doing? Don't underestimate these two people, they are stronger than the Tier 3 zombies just now! More importantly, they are equipped with the art of combined attack, with weapons and weapons, and even the ordinary innate sixth layer. All the masters will suffer!"

Seeing Fang Yue's trance, Liu Han couldn't help but scold him!

Even if Fang Yue focused on teaming up with him, none of them might be able to survive Qi Wenqiwu's combined attack.

At the moment of the enemy, Fang Yue's appearance is simply looking for death!

"coming!"

Fang Yue opened his eyes suddenly.

That familiar feeling suddenly came!

A figure descended, pushing Qi Wen Qiwu to both sides with a bang!

They stick to the wall, and they all spray blood! The eyeballs almost stared out, and the bones on his body were at least seven or eight pieces broken!

"Fang Yue, I finally found you!" Sima Xiao's figure reappeared, his belly is rounder and more rolling than before. The smile on his face is extremely brilliant! Even when he saw Fang Yue, he showed a touch of emotion! "Who are you? How dare you attack us!" Qi Wen Qiwu was caught off guard, and was hit by Sima laughed and turned a man on his back, and waited until he was relieved. All of them felt frightened. Of course, I was caught off guard at the moment, but more importantly, this person's speed was too fast.

Quickly, after they are alert, they don't even have time to dodge!

Sima Xiao turned a deaf ear to these two people.

In other words, he didn't even know what these two guys were muttering.

All they speak are Chinese.

And Sima Xiao is a foreigner from the world of Xuanhuang, the ghost knows what Huaxia is!

Fang Yue patted Sima Xiao on the shoulder, "How did you know I'm here?"

Sima smiled and rolled his eyes: "You can guess it with your toes. Every time you explore the secret world, which time will you lose? You can even get into the secret world, let alone this time. Tried!"

Fang Yue pursed his lips: "Would you like me to order it?"

"How dare you ignore the existence of our brothers!"

"This is hateful! You deserve to die!"

The two brothers, Qi Wen and Qiwu, are both famous murderers in the entire city of No. 037. When passing by the residential buildings on weekdays, they are so scared that even the children who are less than the full moon dare not cry.

This fat man ran into them and ignored them. This made them feel a deep insult to their self-esteem!

"There is murder!"

Sima smiled and turned around suddenly, banging, banging twice, one person gave a fist, and he understood the lives of the two brothers Qi Wenqiwu!

Compared with Sima Xiao, they are simply the difference between ants and elephants!

Although Sima laughed at this guy, he was idle every day, and was banished and rejected by the Sima family, but the fat body, oh no, was not so powerful.

Fang Yue thinks it's normal. The difficulty of this Sima laugh is shallow. Fang Yue always feels that this guy hides himself very deeply. He really turns out all the old things, maybe he is not more than him!

However, Liu Han was taken aback. He saw a fat man with weird clothes and strange appearance. He had a mouthful and didn't know which planet's native dialect spoken. He suddenly appeared and brought the two brothers Qi Wen and Qiwu who were so famous. inverted. I feel all over my body, even goose bumps are coming out!

This fat guy is terrible! It is simply the reincarnation of the devil. In terms of personal strength, the two brothers Qi Wen and Qiwu are first-class existences in his world! Even if it is placed in the Liu family, the person who can stop the two brothers from joining forces is not more than one hand!

But when the fat man killed the two brothers, it was as simple as an elephant trampling on two ants! Liu Han couldn't even think about how strong he was.

"You were exiled by the family again?" Fang Yue squinted Sima with a smile.

This fat man stabbed himself as soon as he met. With Fang Yue's character of revenge, he naturally wouldn't forgive him!

Sima smiled and said, "Huh, didn't I just take carrots grown in an elder's vegetable plot in the family to satisfy my hunger! Why have to let me participate in this black trial to make up for it! A group of old stingies, waiting for my brother's strength, must Pull out all the carrots in the old vegetable garden!"

Sima smiled and hummed, with aggrieved expression on his face.

Fang Yue didn't even believe half of a punctuation mark in what he said.

Vegetable garden? carrot?

Based on Fang Yue's initial understanding of Sima Xiao, he has roughly guessed what this product did.

He must have twisted his chubby body, sneaked into the medicinal field meticulously managed by a certain elder of the Sima family, and then pulled out the precious and incomparable elixir, only then will the elder of the Sima family become furious and take him. Send it to the black trial and make up for it!

"You don't even know the language of this world. I really don't know how you survived these days!"

Fang Yuebai gave Sima a smile and flicked his finger. A ray of spiritual thought fell into Sima Xiao's eyebrows. This ray of spiritual thought was harmless, it was a simple message, and it was imprinted between the Chinese language and the Xuanhuang world. Mutual translation of languages.

Sima laughed and mastered a language instantly! He looked at Fang Yue's eyes with a touch of gratitude.

Only Fang Yue has such a method! Even if other people want to practice, it is impossible! This is based on the use of powerful soul power! Extract a piece of my own memory and refine it into a ray of spiritual thought.

"You can suffocate me! I finally know the language of this world! Special code, those people scold me when they come, uncle, I want to go back to revenge and destroy them!"

Sima smiled and rolled up his sleeves, ready to go back.

Fang Yue stopped him and stared: "Other people's affairs, what are you going to do!"

"Nanaidi, on the way I came, someone pointed me to me, saying that I was funny, like a lunatic fool! Others said that my IQ is problematic. Sima Xiao has never been insulted like this since I was young. , I will find the place back and let them know how great!"

Sima smiled impulsively on the surface, but actually said in his mouth that by the time he returned, he would have run out of sight. Who could he find if he was so violent?

"You are not from this world?" After holding back for a long time, Liu Han finally asked this question! Although he didn't know what Fang Yue and Sima Xiaoji were communicating just now, he also saw some clues from Fang Yue and Sima Xiao's clothes, language, and behavior.

Fang Yue was a little more normal, after all, he mastered the language of their world proficiently.

As for this fat man, do you have a problem at first sight?

Sima laughed and turned his head slowly, passing by Liu Han with a pair of murderous eyes. When Liu Hanru fell into the ice cave, he suddenly realized how big a mistake he had just made.

He actually dared to expose a demon that even the two brothers Qi Wen Qiwu could easily kill! Will he kill people? Will it be today next year, this time will be your own memorial day?

Liu Han was panicked.

Fang Yue looked at Sima helplessly and smiled: "Don't live all day as if you are a living bandit! Even if we are all engaged in burning, killing and looting business, but at least, my technical content is higher than you. some!"

Fang Yue educates Sima smile, and then pats Liu Han on the shoulder: "Don't worry, this Sima smile comes from the same place as me! He just scared and scared you! He won't really take you anymore!"

Fang Yue tried to control his voice, making it sound softer. But this so-called tenderness is even more tense in Liu Han's heart! Can't get the slightest relaxation.

Fang Yue actually was with this fat man too! They come from the same place! Could it be that they are all human beings from other planets other than Deep Blue? Are you alien?

In Liu Han's narrow vision and thinking, there is no other world or other concepts of the universe. In his concept, aliens are already the most exaggerated explanation!

"Aliens? Perhaps starting from your concept, we are so-called aliens!" Fang Yue didn't explain, it is difficult for him to tell clearly that there are other worlds outside of the universe where the deep blue planet is located.

Liu Han's concept still stays at the traditional space, time level, and the theory of dimensionality is often mentioned in this planet, but no one can really verify the existence of the corresponding theory!

Sima Xiao touched the tip of his nose, and found that this kid should have been fooled by Fang Yue and volunteered to be Fang Yue's guide. As a senior exile, Sima Xiao naturally understood that when he first came to a place, he could have What a key thing it is for a native to lead the way!

He smiled, trying to make himself look kinder.

However, the smell of blood on him just now cannot make him look like a harmless uncle next door!

"The big water rushed into the Dragon King Temple, and the family did not recognize the family! Little brother, I was reckless just now. This Qi Gathering Pill was refined, and it should allow you to break through to the next small realm smoothly!"

Sima laughed, still so stingy!

Qi Gathering Pill is the most common pill in the Xuanhuang world, which can assist ordinary innate cultivation to shorten the time of cultivation.

This kind of bad street goods is not very valuable. Even the price of a Qi Gathering Pill is not as good as the price of a drop of Baicao Pulp that Fang Yue easily refined!

However, Liu Han slowly widened his eyes, holding his breath, his palms trembling slightly. "Well, is this really for me? The legendary spiritual pill! That is something that only big people can enjoy! In my Liu family, there are only five or six such pill that are enshrined in the family's ancestral hall. In! Junior disciples like us are not qualified to touch such precious

s things! "

Liu Han's mood was extremely excited, he even ignored the shadow and injury that Sima Xiao had caused to his deep heart!

This pill is enough to make up for all losses.

Fang Yue was speechless, and his feelings were one that was detained to death, and the other was ignorant!

Fang Yue grabbed a lot of medicines like Qi Gathering Pill in the space of the stone pendant, and he didn't even bother to take it!

"Yes, it's for you!" Sima Xiao saw Liu Han's extremely excited expression, and couldn't help but made a painful expression: "Every mistake needs to be paid for! This pill It means that I apologize to you!" Sima Xiao is definitely a dramatist.

## **Chapter 416: Bashful**

It was just a Qi Gathering Pill, and it really seemed to have taken out the treasures of the family.

Soon, Sima Xiao and Liu Han became one, and the misunderstanding just now disappeared.

The power of the money offensive is immense. No amount of hatred can turn an enemy into a friend. What's more, there is no irreconcilable conflict between the two!

Even Fang Yue discovered that Liu Han seemed to be closer to Sima Xiao than to him.

Sure enough, he is a guy who has milk and a mother.

Fang Yue could not help but complain. But it doesn't take this as the same thing!

"Sima laughs, are you alone in the Sima family?" Fang Yue looked at Sima laughed. This is an issue that he is very concerned about. As long as most of the strengths come, they will definitely not be scattered. A disciple, either in groups or in groups. Sima smiled and rolled his eyes, "How is this possible! Black trial, although it is extremely dangerous, but as long as you can go back alive, it will definitely bring extremely rich returns and benefits to the family! This time, the Sima family has come to 500 congenitals. Disciples of the realm! Everyone is known as a friend of heaven,

Of course, compared with Xiaoye, they all exist like scum! "

When talking about this topic, Fang Yue's expression suddenly became weird, and he asked: "Sima Xiao, haven't you already broken through to the level of the heaven and earth realm? Why are you still following the innate realm group! Didn't you come in batches? The higher the level, the later the arrival time!"

Sima smiled and turned his head, unwilling to answer Fang Yue's question.

But Fang Yue was just curious, and Sima Xiao finally had to admit under Fang Yue's pursuit. "I'm here! Originally, there was nothing to do with me when I came to the Black Trial. That damned family elder, because I pulled out a carrot from his vegetable garden, he chased me down. Three thousand kilometers, in the end, I happened to pass by the altar where the Sima family teleported disciples, but

After that, I followed up in confusion! "

Fang Yue laughed, it turned out to be like this.

There really wasn't a single truth in this fat man's mouth. Obviously he was chased in, and he said he was exiled by the Sima family.

However, Fang Yue was even more curious. In the end, Sima Xiao had stolen the ancient spirit pearl medicine from the Sima family elder's medicine place, although the Sima Family didn't want to see Sima Xiao very much.

But his talent did not run there. Seeing that he was not pleasing to the eye, he had to do it secretly. It was indeed not appropriate to chase and kill a genius disciple because of an old medicine!

This time, Sima's mouth was very serious, and he didn't say he was killed.

In the end, Fang Yue could only put away his curiosity, and no longer asked what happened.

"Are those Sima family members ready to join you?"

There are many people and great power. After all, they are all out. Fang Yue feels that if he can unite more powerful people in the Xuanhuang world, there will be a sympathy for each other, but it is not impossible! Sima smiled bitterly: "Do you think they will join hands with me? My position in the Sima family is actually not much different from your position in Tongtianjiao. You offended the law enforcement hall and were called and killed. I They are excluded by mainstream forces. They don't offer me a reward. They join forces to want me. I am already Amitabha. Buddha blessed me! Really join forces, just wait for the emperor! It is said that he used special means this time to seal The strength and the insect king came in together! According to the experience I have mastered, the earlier this doomsday world enters, the easier it is to gain a foothold!

The environment can come early, which already occupies a great advantage.

The arrival of the doomsday also has a certain sequence of development and evolution. This may also be the last glimmer of hope left to the survivors in this doomsday world! "

"Well then!" Originally, Fang Yue didn't have much hope for this dead fat man, because this guy is very unreliable, and his popularity is not good. Being rejected by a disciple of the Sima family is quite Normal situation!

"So what shall we do now?"

Sima smiled at Fang Yue and asked naturally.

When it comes to fighting or getting a little bit of a bargain, Sima Xiao can still handle it, but when it comes to surviving in various unfamiliar environments, Sima Xiao can't keep up with Shang Yue.

In Baili Secret Realm, it was an obvious example.

Fang Yue's combat effectiveness might not be much stronger than that of him and Di Yi, but by relying on the endless means, Fang Yue was able to get mixed up! "Two ways, one is to keep hoarding resources, waiting for the collapse of the apocalyptic order, and then relying on resources to exchange resources for various apocalyptic specialties. I have studied it. In the apocalypse, there are two things that are worth fighting for for the time being. , The life crystallization born in the zombie has the ability to awaken the ancient blood! This is one of them, and the other is the medicine that makes people change into zombies. Although this kind of thing is cruel, it can continuously create zombies, not only it can produce life crystals, and even a large number of them. Although they are not under command, their strength is not weak.

Evil creature! "

Fang Yue's thinking is clear. He came to this apocalyptic world, originally not just to survive.

In the doomsday world, there is a big chance, Fang Yue has not seen other chances, but the life crystallization and the potion for making zombies have been clearly included in the list of must be obtained by him.

Of course, the products of civilization on this planet can be obtained, and you can also go hand in hand!

All kinds of mechanical weapons, although rigid, are definitely leveraged in terms of power! "The second thing is not easy to obtain, but the first one is everywhere! But our collection ability is limited. How much can we hoard even if we continue to kill zombies in the Doomsday period? My suggestion is to accumulate supplies in the Doomsday period, and then Wait until the doomsday order collapses before using supplies

Exchange life crystallization. At the same time, we are looking for something to restrain zombies in the early days of the end. The so-called antidote within seven steps. Since this world can give birth to zombies, there must be something to restrain zombies.

Pure violent resistance may still have some effect in the early stage, but the more the later stage, the greater the advantage of attribute resistance! "

Fang Yue's theory has risen to the level of the Tao of Heaven, where all things live together, and there is also mutual restraint!

This is hard for others to think of!

Sima Xiao pondered it carefully and felt that what Fang Yue said was reasonable.

"Okay, then it's up to you! First follow this plan, and after encountering other situations, we will see you again!"

Sima Xiao agreed with Fang Yue's theory.

Liu Han said weakly, "Then you can take care of our Liu family as much as possible when possible? Although our Liu family, in this City No. 037, is considered a second-rate family, we want to Preservation, it is estimated that the support of two people is still needed!"

"It depends on the situation!" Fang Yue pondered for a moment, not lightly promising, the crisis of the doomsday was like a frenzy sweeping.

It is not easy for him and Sima Xiao to protect themselves, not to mention the preservation of a huge family!

"Come to your Liu's house first!" Sima Xiao seemed to think of something, and the other side Yue winked.

Liu Han was immediately happy upon hearing this.

In his eyes, Sima Xiao is a rare master.

In the special environment of the end times, mechanical weapons are actually not easy to use. Because the speed of the zombies is too fast, they can't be caught by the naked eye.

If you can't even aim at it, then no matter how powerful a weapon is in your hands, it will be scum. On the contrary, some warriors with high realm will play a greater role.

The Liu family is not very far away.

The three of them arrived at Liu's house after walking about ten miles.

The so-called Liu's house is three high-rise buildings with more than ten stories. The rooms in these high-rise buildings have both residence and office space!

"Who is standing?"

Before Liu Han stepped into the range of the tall building, someone stopped him!

This is a fully armed security guard with silver-white protective clothing. His left hand was pressed on top of a dagger, and his right hand was holding the handle of a pistol.

He is quite wary. Definitely a well-trained security guard.

"Dude, is this your home? Why don't even the security know you anymore!"

Sima laughed and teased.

Liu Han's face immediately became embarrassed, the security guard was a strange face. At least a few hours ago, he was not this person when he left Liu's house!

Where did he come from without even knowing himself?

Liu Hangang wanted to swear.

A young man with a light pace and a feminine face walked slowly, and said in a nonchalant tone: "Hey, this is not our son Liu Han! Why can't even get in the house! It's just one to pass it out. What a big joke! Come, come, come! Let Master Liu Han come in!"

The young man with a feminine face spoke nicely, but in his eyes, a cold light flashed inadvertently.

His whole person feels to Fang Yue like a poisonous snake dormant in the grass, it can jump out at any time, choose someone and eat it!

This is definitely not a good crop!

Fang Yue silently put such a label on this man!

"Liu Si, what do you mean?" Liu Han confronted the young man, his tone was rather tough. "It doesn't mean anything! Now I am mainly responsible for the safety of Liu's family. Nowadays, special matters, special circumstances, whoever wants to enter Liu's family must undergo a body search! And your friend, a friend of unknown origin. , The face is very strange, none of them have entered the Liu family qualifications! "

Liu Si's face was pulled down, and there was obviously a grudge between him and Liu Han.

Fang Yue looked at it for a while. He thought that Liu Han's status in the Liu family should not be low, but he didn't expect that he hadn't reached the threshold of the Liu family yet! I saw the fighting within the family, such a \*\*\*\* scene.

"Since your Liu family does not welcome us, then the two of us will not stay strong!"

Fang Yue turned to leave. For those who didn't welcome him, Fang Yue didn't bother to put his face on his cold ass. Now he is in chaos. With the strength of him and Sima Xiao, he will be warmly welcomed no matter where he goes.

"Fang Yue, don't go!" Liu Han was anxious. He couldn't afford to invite the two great gods Fang Yue and Sima Xiao to sit in the family. He didn't expect that he hadn't even entered the door! He was actually stopped outside Liu's house by Liu Siqi.

"Don't go, why stay here? Do you watch the Liu family?" Sima Xiao didn't have any good feelings about Liu Si. What is Hupenggoyou, and the origin is unknown. Will this little dog speak?

"Huh, Liu Family, is it the place where you want to come and leave?" Liu Si saw Fang Yue and Sima Xiao preparing to rot away, but became more proud and arrogant.

"Stop the two of them! I want to run away when I see the Liu Family's tight security. It must be unruly!" Liu Si yelled at the security guards beside him!

Without saying anything, the security guard appeared in front of Fang Yue and Sima Xiao.

"You two, please stay!" The security guard's tone was a hint of arrogance. As the security guard of the Liu family, he felt that his status was much higher than many others!

### **Chapter 417: court death**

"Hey, dogs are starting to bite people! If the Liu family is all this stuff, I really don't know if any of your Liu family has survived until now!"

In Sima laughed, a hint of coldness had spread.

It was he who decided to accompany Liu Han back to Liu's house.

He didn't expect this incident to happen, he felt very embarrassed!

"Stop, stop! Liu Si, you are crazy, do it to my guests!"

Liu Han roared at Liu Si! He had seen Sima Xiao's shot, the famous murderer, Qi Wenqiwu, couldn't get past even two tricks under Sima Xiao's hands! With this at best the security guard at the pinnacle of the day after tomorrow, if he wants to stop Sima Xiao, he is like a man's arm!

"Who are you talking about the dog!" The security guard raised his pistol, and his black muzzle was blocked on Sima Xiao's temple. His face became dark and he yelled at Sima Xiao!

Sima Xiao is not a good stubborn, since when did he suffer such a loss.

Someone pointed his gun at his temple.

Sima Xiao felt that this was a shame to the sky!

"Give me to die!" Sima laughed and slapped the palm of his hand, and the security guard's head burst into pieces!

Like a big watermelon, vulnerable!

On the silver-white protective clothing, a faint milky white light emerged.

But it couldn't resist Sima's smile at all!

"Sima laugh, don't!" Liu Han wanted to stop, but it was too late! Then Liu Si angrily laughed, pointing at Sima Xiao and roaring: "It's the opposite, it's the opposite! You dare to kill even my Liu family! You must be the spy who wants to sneak into my Liu family, honestly surrender and confess behind The mastermind, I can still let you make a living, otherwise, I will cut you a thousand swords to warn you

Xiaoyou! "

"Thousands of swords? Hehe, who do you think you are? The emperor in ancient times? Or the devil in hell!" Sima laughed when he heard this threat and just sneered. A family like the Liu family would have been flattened by people if it were placed in the world of Xuanhuang. A family can stay in the world without relying on absolute force. Force and wisdom are only part of it. The main thing is a precise look. People who shouldn't be offended should never

Can provoke!

A guy like Liu Si is completely causing trouble for the Liu family!

Fang Yue also sighed and stopped Liu Han.

"Sima Xiao wants to get angry, just let him do it! Otherwise, if you hold your breath in your stomach, maybe your Liu family will be destroyed!"

"but....."

Liu Han wanted to defend the Liu family.

But at this time, Liu Si has already started!

Although he has not awakened his family blood talent, Liu Si is also an out-and-out powerhouse in the innate realm.

He is confident in his own force, not to mention, he has high-tech weapons close to him.

Bang bang bang!

Three bullets shot at Sima Xiao from different directions.

Triangle nails!

This is a well-known method in the spearmanship world!

One bullet, aim at the key, the other two, block the left and right retreat. With such a method, even if it is an ordinary congenital encounter, it will shrink back.

It's a pity that Sima Xiao is not an ordinary innate!

Ding Ding Ding!

Sima Xiao poke out three wisps of finger wind, and each wisp of finger wind will fall to the ground with a bullet!

Three bullets fell down.

There is no strong momentum when it comes out.

Liu Si was surprised: "How is this possible!"

"Sima laugh, let Liu Si go! He is a direct descendant of the Liu family, and his grandfather is the head of the Liu family of this generation. If you really kill him, the Liu family will definitely die for you!"

Liu Han's tone became softer.

He is begging for Liu Han.

Sima Xiao didn't bother to take care of this Liu Si, and wasting his great youth for an insignificant little ant was not worth it!

Sima smiled, preparing to agree to Liu Han's request.

at this time.

An old, vigorous voice whispered like a tiger.

"Who dares to be wild at the door of my Liu's house?"

Several figures appeared downstairs in Liu's Building.

An old man who took the lead had a faint breath of heaven and earth on his body!

"Master Patriarch!"

Seeing this old man appear, Liu Han felt miserable in his heart.

Unexpectedly, things would develop to this point. The Patriarch of the Liu family, Liu Wanda's short-guard, and even the entire City 037 are extremely famous!

As soon as he appeared, Liu Han could almost predict the following situation!

"grandfather!"

Liu Si turned around and ran to Liu Wanda's side, almost bringing out a hint of crying!

There was a hint of doting in Liu Wanda's eyes.

"Liu Han, what the \*\*\*\* is going on?"

Liu Wanda's tone is already quite sharp, he is preconceived and has his own judgment!

Liu Han understood that no matter how he defended himself, Liu Wanda would not believe it, even in Liu Wanda's heart he might have been classified as a traitor to the Liu family!

"Yes, these two are friends I invited! They wanted to stay with me in Liu's house for a while, but Liu Si unreasonably stopped two of my friends. My two friends wanted to defend themselves. I had no choice but to attack the security guard just now!"

Whether Liu Wanda believes it or not, the necessary explanation is still necessary.

Whether to say or not, it is his business.

But whether to listen or not is Liu Wanda's decision!

"Haha, your friend? Killed my Liu's security guard out of self-defense? I saw everything just now in the surveillance video! Liu Han, you can really quibble!"

Liu Wanda's tone was cold, the ghost knew what he saw in the surveillance video!

"So how do you want to solve this problem?"

At this time, Fang Yue stood up.

Liu Han is a member of the Liu family, facing the Patriarch, it is inevitable that he will be a little lacking in confidence!

The banditry in Sima Xiao's body is too heavy. It is estimated that within a few words, he has to work with this Liu Wanda, and the two have to talk about things that could have been resolved peacefully!

Fang Yue had to come out in person to see if there was any room for recovery!

Liu Wanda narrowed his eyes.

"You are Fang Yue?"

Fang Yue was a little surprised, does this old fellow know him?

"Yes, I am Fang Yue!"

Fang Yue confessed his identity.

A name is nothing but a name. Liu Wanda suddenly sneered: "Come here! Capture this Fang Yue for me. He stole the spirit stone from my Liu family's treasury! He even dared to show up at my Liu family. It was really daring. Today he won't return all the spirit stones stolen from my Liu's house, otherwise, don't even think about leaving.

Open my Liu's house half a step! "

"I stole Liu's spirit stone? I wiped it, why don't I know!"

Fang Yue reacted in the next moment, it must be Liu Han's big mouth, who told Liu Wanda about his body with a spirit stone!

Nanaidi, I have always burned, killed, looted, planted, framed, and practiced others. Whenever I was framed!

Fang Yue is on fire, he still wanted to reconcile!

Now all this thought was thrown by him to Java!

This Liu family is really not a good place.

"You veteran food, you guys want to get things hard to grab, okay! When does it need to be sneaky! It's a bit of ethics to hit someone or not to frame someone!"

Fang Yue muttered as he carried out a shoulder-mounted bazooka!

The diameter of this bazooka is the same as the big basin for bathing!

This thing is specially used to counter the air.

Within three kilometers, there is an effective killing range!

Each of the cannonballs in it can blow up a building!

When Fang Yue took out the rocket launcher, Liu Wanda's face turned green!

He waved his hand again and again, "Young man, don't be impulsive! Let's talk if you have something!"

Liu Wanda was scared to pee by Fang Yue! Is this man an arms dealer? It was a terrorist who ran out of a certain al-Qaeda organization, special code, even the rocket launcher was picked up.

This thing is seven or eight hundred catties! Are they all configured for mechas? When has it become an individual weapon!

In Liu Wanda's heart, there are already 10,000 horses and horses galloping past! When Liu Han was speaking at the time, why did he only talk half way!

I had known that Fang Yue was so violent, he had tried another way of extortion!

Sima smiled and clapped his hands and exclaimed: "It's a man, just a moment! Patriarch of the Liu family, that old man, didn't you just stand tall?"

Liu Wanda looked at the black-hole rocket launcher and felt his heart flutter.

just?

Just a hairy!

This thing can blow him away in one shot! Even if he can rely on his skills to hide, the Liu family mansion behind it is definitely inevitable!

This mecha-only shoulder-mounted rocket launcher is worth at least five or six million stars!

Even their Liu family is reluctant to buy it.

How did this kid get it!

Sima Xiao looked at Liu Wanda's appearance, constantly provoking! "How can you, the Patriarch of the dignified Liu family, have no such backbone? Fang Yue is the thief who stole your Liu family's treasury! He just killed the security guard of your Liu family, almost even your grandchildren Now! Such a person is too disgusting. It is tolerable or intolerable. You can bear it, I

Can't bear it! Come, summon your courage and beat him! "

Sima Xiao waved his chubby fists, completely with an expression that was not too big to look at the excitement!

The corners of Liu Han's mouth were about to twitch!

What kind of character is this Sima Xiao?

"Young man, if you have something to say, you can say it!"

Liu Wanda admitted to counseling. As the saying goes, the soft ones are afraid of the hard ones, the hard ones are afraid of horizontal, the horizontal ones are afraid of death, and the ones who don't want to be killed are afraid of being dumbfounded!

In Liu Wanda's eyes, Fang Yue was completely unsuccessful.

In the city, the use of a heavy weapon such as a shoulder-launched rocket launcher is completely provoking the military's majesty.

As long as he can escape this disaster, he will immediately report Fang Yue to the military.

At that time, the military can chop Fang Yue without having to do it yourself! Maybe, the big boss of the military is kind, and he can even distribute the captured spirit stones to their Liu family.

Just when Liu Wanda wanted to be wrong.

There was a bang.

A head-sized cannonball shot out from the cannon!

The depressed low howl, accompanied by the rotating wind.

Liu Wanda was shocked.

"Fang Yue, you really dare to do it!"

Liu Wanda's soles spun, just about to flash past the shell, but he thought about it again, this thing is wrong!

He was able to escape safely.

But what about the Liu family behind him?

Liu Wanda's face turned dark, and he immediately understood Fang Yue's calculations.

"You kid, really vicious, you threatened me with the life of the Liu family disciple!"

Liu Wanda took out an umbrella-shaped magic weapon and opened it gently, star-light and moon-shaded.

The cannonball flew and collided with the umbrella-shaped artifact!

With a bang, Liu Wanda stepped back. The umbrella-shaped magic weapon in his hand was immediately torn and ripped, and the entire umbrella surface was burning.

#### **Chapter 418: Change to a bigger one**

Liu Wanda threw away the umbrella-shaped artifact in his hand, his face was painful!

This umbrella-shaped magic weapon was recovered after spending nearly a million stars in the black market. Although it was a second-hand item, the defense was amazing!

On weekdays, Liu Wanda often took out this umbrella-shaped artifact and played with it again and again, which is incredible!

Who could have imagined that when Fang Yue met such a desperate person, even the shoulder-mounted rocket launcher dedicated to the mecha was carried out!

No matter how strong the defense of this umbrella-shaped magic weapon is, it will have to be scrapped when encountering rockets!

"Fang Yue, I declare that my Liu family is immortal with you!" Liu Wanda looked at his severely damaged umbrella-shaped artifact, which was almost irreparable. He gritted his teeth and looked into Fang Yue's eyes, bursting with anger!

Fang Yue sneered.

"Oh, want to die with me? I think your Liu family is not qualified at all!"

Liu Wanda is not a good person, and Fang Yue is equally good at it.

I'm okay when I'm idle, but the bullying comes to the little master?

The buddy told you to come in vertically. Go out sideways!

"Can you block the bazooka? Then let's change to a bigger one!"

Fang Yue said to himself, not knowing from which corner he took out a half-person tall cannon tube!

Liu Wanda was stunned!

Liu Han was shocked!

At this moment, Liu Si was almost scared by Fang Yue's wildness!

Which one of these are singing! Particle cannon?

Paralysis!

Isn't this thing used to fight between the two armies? It is claimed that half a city can be wiped out in one shot.

Although there are exaggerated elements in it, the power of the particle cannon should not be underestimated!

Where did this guy get so many arms? Did he copy the army's nest?

Liu Han rubbed his eyes, and he could still feel his little heart thumping and thumping in his chest!

The sky and the earth were dim, and all the rays of light gathered towards the huge barrel!

This is a weapon modified by Fang Yue himself. Although it looks similar to the legendary particle cannon, it is a combination of out-and-out, fantasy civilization and technological civilization!

It was named Dragon's Roar by Fang Yue!

Fang Yue mass-produced such cannons, with a total of 3,000 units.

In the mysterious yellow world, in some deserts that no one has set foot in, or in the world of mortals, such dragon roars are still being created!

It is constructed with a total of 7,560 parts, and the process is complex, involving arrays, runes, refining, electricity, quantum mechanics, gravitation, the law of stars, the law of light, and so on.

The roar of the dragon, it takes a month to store energy each time!

It bathes the stars, absorbs the aura of the world, gathers energy, and finally forms a lethal shot!

Fang Yue's palm fell behind the dragon's roar!

The strands of spiritual power are injected into it. The light of the sky suddenly gathered, the sky and the earth went dark, and after that, the world was bright!

A beam of white light penetrated the void.

It completely envelops Liu Wanda and Liu Si, with the incalculable high temperature, dissolving everything!

They were submerged, melted, and finally evaporated in the world completely and all traces of existence were erased!

The owner of the Liu family has been removed!

The light of the dragon's roar gradually dissipated.

Fang Yue will slowly put away.

The members of the Liu family are still immersed in the turbulent waves in their hearts.

"This, this is definitely not a particle cannon! But it is more powerful than a particle cannon!"

An elder of the Liu family stammered, his eyes were full of fear!

The particle cannon and the roar of the dragon are actually difficult to compare who is strong and who is weak.

But the two are powerful and each has its own focus.

The horror of the particle cannon lies in its terrifying coverage after its launch!

A shell will be severely affected and affected at least ten miles in radius!

And the dragon's roar, the advantage lies in the lethality and penetrating power of the comparison!

A master like Liu Wanda, within the coverage of the particle cannon, may not have the ability to survive, but in front of the giant dragon, he even has no room to struggle!

In the Liu Family, all the remaining elders were shaking their legs. This Fang Yue was so cruel that he would not blink at all to kill! Even the most powerful Liu Wanda in the clan was killed, what else can they do with this strength?

Even if they struggle, it is just futile. For such a murderer, they have no ability to resist.

"Devil, kill us! My Liu family will never surrender in front of you!"

Among them, one of the elders is very staunch, preferring to die than surrendering, and his tone is full of grief and anger.

"Okay! Then I'll do what you want!" Fang Yue has no affection for the Liu family. Although he and Liu Han were pretty good before, it won't make him soft on the Liu family. In the last days, any grievances may develop into great cause and effect. A lot of human suppression will disappear, and everyone may be exposed

Come out, the darkest side of his human nature.

Fang Yue understands human nature, understands the sinister existence in people's hearts! So he was very ruthless, and raised his hand to cut the elder's neck.

"Fang Yue, please, don't kill again! Kill the Liu family again and there will be no more!"

Liu Han is begging Fang Yue for mercy. Some members of the Liu family are hateful, but they are the foundation of the Liu family.

If the elders of the Liu family have any more casualties, then without Fang Yue's hands, those people in City 037 who covet the foundation of the Liu family can also lift the entire Liu family.

The Liu family, of course, is strong, and it is quite famous in the surrounding area. Even the people in the black market need to give them three points of respect.

Otherwise, he would have been robbed of many times in and out of the black market.

"Liu family, forget it! Forget it! I'll give you some face! But remember, if the Liu family dares to target me, maybe there will be no Liu family in this 037 city in the future!"

Fang Yue said domineering.

Let the elders of the Liu family clenched their fists, and the pale joints showed blue veins.

As the elder of the Liu family, he was very energetic. In City 037, he was able to walk sideways. What Yaoou suffered such treatment was threatened by a junior.

However, he looked at a deep gully left on the ground.

Realizing the reality, he finally released the clenched palm slowly, sighed in vain, and finally waved his hand and said: "Fine, nothing! I apologize to you on behalf of the Liu family! This matter, My Liu family was wrong!"

The elder of the Liu family finally bowed his head. Although he was very unwilling, he had to do so in order to preserve the Liu family.

Fang Yue glanced at the elder, causing the elder's heart to tremble slightly.

"I killed a Patriarch of your Liu family, and I will return you a master!"

Fang Yue raised his hand and a puppet appeared. This puppet is full of innate strength. When it appeared in the first year, the elders of the Liu family were actually backing away from the momentum that had never converged.

He opened his eyes, involuntarily inhaled and lit up.

"This is... a humanoid weapon?"

The elders of the Liu family were surprised. In his barren vocabulary, he could not find another way to describe it. "This is a puppet refined by a cultivator. It has preliminary fighting wisdom. In terms of pure combat power, he should be comparable to the powerhouse of the innate peak! Even the general powerhouse in the early stage of the world may not be able to break its defenses. Now, I am giving this puppet to Liu Han,

Be regarded as compensation for the loss of your Liu family! "

Fang Yue didn't care about a puppet, on the contrary, he cherished the friendship with Liu Han even more.

Among the deep blue planet, Fang Yue is an out-and-out alien after all. And this Liu Han is the real native-born aboriginal. For many things, it is difficult for Fang Yue to obtain information, but for Liu Han, such things are not difficult!

"The puppet at the pinnacle of the Innate Realm? Even the Heaven and Earth Realm does not necessarily break through its defenses? This, this is too precious! Our Liu family can't afford it!"

Liu Han felt confused.

The treasure Fang Yue gave out casually made him feel shocked!

How powerful are the powerhouses at the pinnacle of innate realm?

Even in the black market, you will receive great courtesy and respect!

Because they can't afford it! Can only serve with good tea and water! In their Liu family, only a few hundred years ago, there was a strong person at the peak of the innate realm. It was also at that time that their Liu Jiazai had a firm foothold in the No.037 city. And about two hundred years ago, the strong man at the congenital peak was trapped in front of the heaven and earth realm, unable to break through, and in the end he could only sit and transform

From then on, the limit of their Liu family's past powerhouses is the eighth level of innate!

Because of this, Liu's family can only guard the family, unable to expand!

Sometimes even some other families make things difficult!

With this puppet, their Liu family might be even better than when Liu Wanda was there!

Moreover, the puppet has a greater advantage than the strong, that is, the lifespan is endless and will not fall!

This is an evergreen tree.

As long as it is not damaged or lost, the eternal prosperity of a family can be guaranteed!

Recognize the Lord with a drop of blood.

Liu Han became the master of this puppet. At this time, Liu Han's mind was still a little confused.

Is this done?

Their Liu family also has an innate realm-level powerhouse sitting in town?

This, this, this is incredible!

Fang Yue smiled, watching the change of expression on Liu Han's face.

The humiliated elder of the Liu family also held his breath at this time, and Nie looked at the puppet blankly.

Shouted.

The puppet's fist suddenly rushed out!

Scrape the bottom three feet, effortlessly. Absolutely the mighty power of the pinnacle powerhouse of the Innate Realm!

"Fang Yue, me, this..."

Suddenly, Liu Han's mind was trapped, and he didn't know what to say. This is simply the pie that fell from the sky and smashed him.

"It's just a puppet, it doesn't need to be like that!" Fang Yue waved his hand, so Liu Han didn't have to say much.

The whole atmosphere, inadvertently, revealed!

Liu Han finally understood that Fang Yue and Sima Xiao had mysterious origins, and they probably all had a past and strength that he could not imagine! Normally, they are just low-key! The true background, I am afraid it will be so powerful that it is heart-shaking!

In the Liu family, eighteen elders quickly discussed and held a simple ceremony to push Liu Han to the position of Patriarch!

Liu Han, first, is an outstanding disciple of the Liu family, and his status is justified. Secondly, there is another puppet bodyguard of the ninth class innate, which is invincible in the Liu family! Third, he has a super powerful presence like Fang Yue as his background and backing!

If Liu Han became the head of the Liu family, he was unanimously approved!

Soon, Liu Han invited Fang Yue and Sima Xiao to stay in Liu's house temporarily! And Fang Yue and Sima laughed, neither refused!

### **Chapter 419: Precious spiritual stone**

For Fang Yue, this Liu family can serve as a foundation for him to temporarily stand on the Deep Blue Planet! Putting this big sign of the Liu family in front, he can avoid a lot of unnecessary trouble!

Second!

In the Liu family, there are a lot of information about scientific and technological civilization! For most of the black trial participants in the Xuanhuang world, these things are probably tasteless and have no purpose!

But in Fang Yue's eyes, this is a real treasure. If he can get all these materials in his hands, and understand them thoroughly, then he is likely to go further on the path of spiritual practice!

comprehend by analogy.

Stones from other mountains can also be used for jade

Many civilizations are basically the same, whether it is technological civilization or spiritual civilization, in essence, are they all projections and derivations of the most original Tao in this universe?

After Fang Yue's Sima Xiao moved into Liu's house, he soon came into contact with many materials in Liu's house.

At this time, Fang Yue and Sima laughed, and they realized how huge this so-called Liu family really is!

The Liu family is the highest ranked family in the city of No. 037. Although the absolute power is only a second-rate family, when it comes to relationships, influence, contacts, etc., all of them are among the best in the entire city of No. 037. !

Just Liu's direct disciples, there are more than 1,500 people! All of them have the blood of the Liu family, and if they have cultivated to the innate realm, it is possible to awaken the bleeding talent!

In addition, there are more than 5,000 side disciples who are spreading branches and leaves. Distributed in various fields, the military, politicians, business, black market, there are countless relationships!

Just in these buildings, inside and out, there are thousands of people who belong to the diehard Liu family!

"Such a great potential? If it is fully tapped, what a huge force it should be!"

Even Sima Xiao was surprised!

Originally, he thought that the Liu family had so few congenitals and that this family was two or three big cats and kittens. It was a very influential force, but he did not expect that the scale of the Liu family was not smaller than the average third-rate force! "I have seen the history of the Liu family. There are indeed not many congenitals in the Liu family! But it is inextricably related to the environment of this world! The dark blue planet, the aura is thin! Even the spirit stone is difficult to form, let alone all kinds of The strange flowers and weeds! Everyone can only rely on Tu Nazhi

law! Refining the light of the sun, the moon, and the stars, accumulate over time, using the work of water mills to slowly break through!

There is no spiritual stone, no magic medicine, bad environment and superficial techniques! In this deep blue planet, the probability of a breakthrough among all civilians is less than one in a thousand! And the Liu family is tyrannical! You can awaken the talented bloodline, the stronger the bloodline, the harder it is to promote.

Even if it is slightly better than ordinary people in terms of cultivation resources. Among the disciples in the Liu family, there are thirty or fifty people in each generation who can be promoted to the innate level! Even at their peak, a hundred innate coexistence!

After reaching the innate realm, the resources and cost required for cultivation are even more astonishing! This makes their promotion road more difficult! "

Fang Yue had already thoroughly studied this Liu family's background color!

I have to say that the blood of this Liu family is indeed very strong!

If it is placed in the world of Xuanhuang, at least it can be rated as the bloodline of the eighth level of the yellow!

This is because their blood is awakened and there is a certain chance of failure!

Prophecy talent, Shura talent, speech talent, ghost eye talent...and so on talents, placed in the mysterious yellow world, all are the objects of competition and pursuit by many sects!

If it weren't because the cultivation environment in this deep blue planet was too bad, the Liu family would have dominated one side long ago! Fang Yue drills the content of science and technology in the Liu family day and night, and almost ignores the operation of many things in the Liu family! Although Liu Wanda, the former owner of the Liu family, died, the entire operating framework of the Liu family has not been damaged in the slightest! Under Liu Han's command,

The Liu family is operating normally, and even vaguely has a feeling of prosperity!

Liu Han summoned the many disciples of Liu's family who were left out, and used the strongest strength to hold on to one side!

In three full days, the zombie disaster of this deep blue planet has become more and more intensified, and even Tier 3 zombies have begun to appear, raging, but the Liu family is always as solid as an iron bucket, and any zombies can never step into it. Half a step!

"Brother Wang, Brother Wang! Our rations are running out! At this rate of consumption, I'm afraid I can't last for three days!"

In a dark basement.

Seventeen or eight strong men crowded it, and the smell of sweat wafted everywhere in the small, confined space.

However, none of the strong men complained.

In this troubled world where life is like grass, it is a blessing to have a foothold and a safe place.

The vast majority of people who are struggling outside may die tragically under the claws of zombies at any time!

However, they are also facing a very difficult problem!

Food, water.

These indispensable materials for life, it is impossible to store too much in this kind of basement. Some of the previously collected materials have already been consumed! Even if it is frugal, I guess it will not last long!

A relatively spacious place.

The scar-faced man who was called Brother Wang nodded slightly.

Brother Wang is burly and tall! On the waist, there are two scars left by bullets!

Brother Wang's background is quite extraordinary.

Before he was a special soldier in the army, he was dissuaded from fighting because he fought in the army.

Before the end, there is always a famous big brother in the city of 037! The reason why he was able to survive in the apocalypse was not because of how lucky he was. In fact, at the beginning of the apocalypse, three zombies appeared beside him. And he was not afraid of danger, and used the fighting skills that he had cultivated in the army for so many years to kill the people around him.

Three zombies!

At the same time, he also obtained three first-order life crystals, and continued to consume them!  
Makes his own strength increased by about 20%!

Originally, Brother Wang was an innate master, proficient in fighting, hot weapons, sentry, and ambush!

Now, after killing the zombies, he continues to consume life crystals, and his life level changes!

He is now more than twice as powerful as before the end!

Even Tier 2 zombies, he can surely defeat them!

If there are too many people, they can even ambush and siege!

But with the advancement of the end times, the life level of the zombies evolved too fast!

Even Tier 3 zombies have begun to appear, which makes them more and more dangerous every time they go out to collect food!

"Everyone is a brother who has followed me for many years! At this time, I will not give up everyone!"

Brother Wang was silent for a long time, and suddenly said.

Everyone pricked their ears, waiting for Brother Wang's instructions!

Brother Wang's decision today is about their life and death!

Although, all of them, there is no shortage of people who have successfully hunted down zombies and absorbed the crystalline energy of life. But their cultivation realm is too low, the general acquired, absorbing the energy of three first-order life crystals, it will end!

No matter how much, they can't absorb it!

If you forcibly absorb it, it is very likely that you will completely return to your ancestors, lose your mind, and become a monster-like existence!

It's just them, it's more difficult to besiege and kill a Tier 2 zombie! And if there are hordes of Tier 2 zombies, they will only have to escape and be killed! Therefore, they cannot do without Brother Wang! A pair of eyes also fell on Brother Wang.

#### **Chapter 420: arctic fox**

While those eyes fell, Brother Wang felt that the pressure on his shoulders was even greater! He clenched his fist slightly, then gradually released it, as if he had made some major trade-off! He gritted his teeth and said: "Nowadays, everyone is watching! The difficulty of collecting food and water,

is gradually increasing! Even today, we can let a few brothers bear the danger of being killed by zombies! Some water and resources have been collected, but with so many brothers, how many days can these resources be maintained? Not so! It's better to hand in the treasure map in your hand! In exchange for some benefits! For example, some spirit stones, weapons, and even the life crystallization in Tier 2 dead bodies! If the strength of each of us can be raised to the level of the innate realm, then even in these last days, survival

The odds will also be much greater! "

Brother Wang said, his eyes buried in the shadows have been spread and dyed by the cobweb-like bloodshot eyes.

That treasure map is the biggest secret of these people!

Originally, they were preparing to improve their strength, and when they were sure, they would go to find out again, and hope that they will become prosperous for life! But now it seems that this hope seems to be shattered!

You can't even save your life, so why talk about it!

Brother Wang's voice fell.

Those burly big men also clenched their fists!

That treasure map was made by people like them, desperate for their lives! The treasure in it is destined to be extraordinary!

If you can get the treasures inside, it would be no wonder that all of them have reached the innate peak. Even the strongest and best cultivating talent among them, Wang Ge, may become a master of the world, in the entire 037 The city can be the king and hegemony!

And if you hand over the treasure map, how much benefit can you get?

one tenth? And a tenth? It may even be less than 100%!

Not only is Brother Wang struggling, but they are also very entangled in their hearts!

"That's it! If I regret later, I will be the sinner!" Brother Wang made a decision. He didn't want to see these brothers again, risking his life to walk through the city full of zombies for a little food and water. !

Even if he regrets it later, he must first save the lives of these brothers!

"So, who do we deal with?"

A gentleman with a thin body and black framed eyes said to Brother Wang.

arctic fox.

Nicknamed the fox.

He is the number two player in this team! No one knows his real name, but he has a wide network of contacts. When it comes to force, the second level of Xiantian realm is only slightly weaker than Brother Wang! And he is notoriously resourceful.

Many times to get food, it was only under his careful planning to survive!

Therefore, the white fox is also deeply trusted by Brother Wang and regards him as his right-hand man!

Although the white fox is also unwilling, he understands that it is probably the wise decision they made now to hand over the treasure map and win the benefits!

The situation is better than people.

Nowadays, in the Deep Blue Planet, zombies are raging everywhere, not to mention exploring treasures, even their survival is a problem!

Surviving is the biggest problem they are currently facing!

As for treasures, nothingness is ethereal, truth and falsity are still different.

"White Fox, do you have any suggestions?" Brother Wang was also considering this matter.

"Now, in City No. 037, there are only a few that can swallow our treasure map! The military has the best reputation, and it is almost impossible to kill people and win treasures! But they may try to lower the price. Let our gains be reduced again and again!

The black market may allow us to do more! But who are in the black market, I think everyone knows! The situation of black eating black happens, but it is normal, risks and benefits coexist, but this risk needs to be carefully evaluated, whether it is within our tolerance!

There are still nineteen relatively complete families in City 037!

The reputations of these aristocratic families are good or bad, not all of them can be negotiated! But the price they can give will definitely be higher than the military, and the risk is lower than the black market!

Bai Fox, although he didn't clearly say what he liked.

But his meaning is quite clear!

Compared with the military and the black market, they are more inclined to the family!

Brother Wang is not stupid, he can easily understand the clues!

"The white fox, which one do you prefer?"

Brother Wang looked at the white fox. The white fox said firmly: "The Liu family! The Liu family has just changed the principal! It is said that they have found a new backer! The force value of this new backer is suspected to have exceeded the innate peak, reaching the level of the world! Recently, I got the gossip. This Liu family has hunted

Kill at least ten Tier 3 zombies! Moreover, in the Liu family, there are spirit stones flowing out, saying that they are their backers, and they have taken out a full two thousand spirit stones, so that the disciples of the Liu family can practice, and strive to enter the innate as soon as possible and awaken their blood talent! In just three days, six disciples of the Liu family had reached the level of innate realm. A trapped congenital

The elders of the sixth floor have recently broken through, reaching the realm of the seventh innate! With such a strong background, I believe they can come up with a higher price in exchange for our treasure map!

And the Liu family is also in the business of buying life crystals, food, water, various thermal weapons, and even spirit stones can be exchanged for! "

Under Baihu's analysis, Brother Wang had no better choice.

After thinking about it a bit, Brother Wang agreed with Baihu's point of view and made Liu's family the target of the transaction!

As for the following connection, it is left to the white fox to complete!

Although it has fallen into the doomsday world, the zombies can't destroy satellites outside the planet and the base stations of signal stations.

The communication is constant.

It's just that the various forces are sweeping their doors, and they don't help each other.

When Baihu contacted Liu's family.

Fang Yue was also tinkering with his experiments in the laboratory. During this period of time, he has thoroughly studied the technological civilization of this deep blue planet! Although it is difficult for him to obtain the most high-end information, it is only the most basic knowledge that is three hundred years advanced than the earth! After he had eaten these things thoroughly, Rune Dao had no idea

Suddenly, he has been promoted to the level of a master, and even in some ways, he can be close to the master!

The way of blood, the way of Fulu, in the eyes of many Qi refiners, belong to the side door! Even the formations, refining tools, and pill are all miscellaneous arts in their eyes! Physical training, witchcraft, and witchcraft have gradually declined in the course of historical changes.

Only the way of refining qi can last forever and be regarded as orthodox!

However, although these Taoisms were despised by the Qi refiners, they were abandoned. But in terms of power, they are not weak at all!

The way of blood, the way of Fulu, if you study it to the extreme, you can kill the enemy, you can rule the roost, and it can be comparable to those who have made great achievements in refining qi!

The bloodline researched by Fang Yue has yielded results. He asked many disciples of the Liu family for dozens of catties of blood! Among these blood is the thin blood of the ancient ancestor Liu family!

These blood was repeatedly studied by Fang Yue, and finally came to an amazing conclusion!

The so-called bloodlines are actually divided into two types. One is that the DNA is arranged differently, resulting in differences in the appearance, talent, and even innate strength of the ethnic group!

The DNA code is essentially a rune derived from countless laws of life, arranged in a certain order! This kind of rune is too perfect, so it leads to the jealousy of God! The DNA potential that ordinary creatures can unearth is only less than one ten thousandth of the power! And more DNA is in a state of deep sleep. This deep sleep is not dormant, but seems to be locked! In the Deep Blue Planet, there is such a saying as gene lock! Under special circumstances, the gene lock will be temporarily or permanently opened, allowing the owner of the gene to produce powerful strength! The other part is the function of the power of the soul. All living beings sleep in the sea of consciousness with their soul origin! The sea of consciousness is invisible, it may be in the middle of the eyebrows, it may be in the heart

, But all these places are the sustenance of the sea of knowledge, not the body! The origin of the soul in the sea of consciousness is just the source of the soul, not gathering all the soul power.

More soul power is hidden in the blood.

The so-called blood rebirth is based on this theory.

In the blood, there is the power of genes, and at the same time it is the residence of the power of the soul!

In the ancient times of China, during the Xia Dynasty, witch roads were rampant, and people sprinkled some hematite around the graves of the dead. The color of hematite is similar to that of blood, and it is considered to be a place for souls who have nowhere to convert!

The inheritance of blood originating from the ethnic group is hidden in the DNA, while the inheritance of memory from a certain ancestor is derived from the soul!

Like the blood of the Liu family, it is a typical soul inheritance, and their ancestors should have had one or several great existences. Because of the shadow of those ancestors, their bloodline was sheltered!

Therefore, when the disciples of the Liu family are promoted to Innate, there is a certain chance of awakening the bleeding power!

Fang Yue's Ten Thousand Devouring Demon Body is the inheritance of soul and blood!

It's just that Fang Yue's research on his physique is not thorough, and he dare not use it indiscriminately, so as not to leave some unimaginable sequelae!

In terms of bloodline, Fang Yue maintained considerable restraint.

This thing is mysterious and unpredictable, who knows the mystery inside!

Those Liu family disciples whose blood was drawn by Fang Yue were strong and weak, some had already been promoted to the level of innate realm, and had awakened blood talent, and some were still hovering at the acquired level.

But as long as they are willing to contribute their blood to Fang Yue, they will be compensated by Fang Yue!

The mind-cultivator of the acquired realm was directly promoted to the pinnacle of acquired by Fang Yue! Only half a step away from Xiantian! The innate repairs have all raised a small realm, greatly increasing their strength!

"Blood, inheritance!"

Fang Yue was talking about these two words. Recently, his research on these two words has almost become intoxicated!

at this time.

Sima Xiao walked into Fang Yue's room quietly and slapped Fang Yue's shoulder suddenly, causing Fang Yue to be awakened from the state of enchantment.

"You're so fat, what do you want to do? I'm scared to death!"

Fang Yue patted his chest, pretending to be angry.

Sima smiled and said: "This, can I scare you? Don't pretend! Guess what buddies have gotten recently? A treasure map, a relic of the prehistoric civilization on the dark blue planet!" Sima smiled as if offering treasures. Yue said with a smile.
