

## God of Life 421

### Chapter 421: set off

Fang Yue was slightly stunned.

"Treasure map? Why do you want that stuff!" Now they are overwhelmed, and the zombies are evolving rapidly over time! The Tier 3 zombies have begun to rot. Even a few days ago, the Liu family got information that someone encountered Tier 4 zombies. Even the extremely sturdy steel mecha was torn apart, and the driver became

Zombie rations!

According to this kind of progress, within a month at the latest, this deep blue planet will be able to evolve zombies that can match the powers of the heaven and earth!

What they need to do most now is to collect all kinds of life crystals, and then prepare to run away!

A narrow light flashed in Sima's eyes. "But, in this treasure, there are records about zombies, don't you think you are not moved? The prehistoric civilization of Deep Blue Planet is an ancient biological civilization. Now the so-called totems and zombies are all researched in the laboratory. Yes! Only later, one of the civilizations

The laboratory did not know why, all of them burst, which led to the appearance of a large number of mutant creatures and annihilated the civilization! But I think since that prehistoric civilization created zombies and so-called totem creatures, then they should have corresponding restraint methods! "

Sima smiled and said his thoughts.

Fang Yue's eyes lit up suddenly.

"You fat man, you really have one!"

Fang Yue finally understood Sima Xiao's intentions, and Fang Yue naturally agreed with his ideas!

"But this operation is quite dangerous. Should we go together or wait for the others?"

Fang Yue has always been a typical conservative! The relics left over from the last civilized era are not a good place to hear.

There may not be great opportunities, but there must be great dangers!

The success or failure of the expedition is not necessarily the key, but there can be no problems or errors in your own life! Sima smiled and said: "In this regard, you don't need to worry! The danger you can detect, I can also feel it! Therefore, I made arrangements and plans early! This time the treasure map is not one Copy! There are seven sub-maps! All the treasure maps, put together,

Only then can we find the place where the ancient ruins are! The other six treasure maps have long been in charge! And they belong to different forces in this deep blue planet! At that time, we can show weakness and let them be the vanguard! In the end, as long as the goal can be achieved! "

Fang Yue patted the back of his head and looked at Sima Xiao's wicked smile. He almost forgot, this fat man, but a guy who is more greedy for life and fear of death than him!

When it comes to killing, Sima Xiao may not be able to rank among his peers, but when it comes to saving his life, this guy is definitely a centipede, dead but not stiff!

The next day, early in the morning, Fang Yue and Sima Xiao left Liu's house early.

In a very remote alley! Fang Yue and Sima Xiao joined the other six parties holding treasure maps! These six parties are all rebellious!

The representatives of each power have a deep arrogance!

"Huangfuqi, the second son of the Huangfu family! With eight levels of innate strength, he is good at both hands and guns!"

"Nalan Yunsheng! The older generation of powerful Nalan family! He comes from the Nalan family! It is said that he has half-footed into the realm of heaven and earth!"

"Yun Wanli! Military lieutenant! Innate nine-level peak, but not inferior to any master of the early days of the world! He is born with supernatural power, and at a young age, he can lift mountains! One of his most famous things is it was a fist in the army that broke a hill tens of meters high!"

"Gaofeng, Gaoshan, and the two brothers do not have any power background, but they are all natural nine-tier powerhouses! They are twin brothers, and they are best at the combined attack technique! If you let the two join forces, they are generally newcomers. The strong in the world is not an opponent!"

"I don't know the remaining two people! But it is estimated that they should be peerless people who came out of the black market!"

Wang Kai whispered to Fang Yue! Fang Yue nodded slightly, and was quite satisfied with this terrarium! Wang Kai is the brother Wang who sold the treasure map to the Liu family! He used a treasure map to exchange a lot of benefits from the Liu family! A strong man in his twenties, food, water and daily necessities to live for fifty days! There are also two thousand low-grade spirit stones and one that can be produced on Tier 3 zombies.

A low-level laser gun with lethal power!

These things are enough for his brothers to advance by leaps and bounds. However, Wang Kai was not reconciled, and the treasure map was divided like this. During the transaction, he also tentatively made a request, wanting to enter the treasure with Fang Yue and Sima Xiao.

Unexpectedly, Fang Yue agreed in one go, quite refreshing!

In this city No.037, he is not familiar with the place where he was born. It is estimated that even if he has a treasure map, he can't find a specific location.

Moreover, Wang Kai's strength is not dangerous for the two of them. If they dare to play some tricks halfway, they will kill them in two or two! "No need to introduce! The other two are from the monster race, one is a three-tailed cat demon, and has truly reached the level of heaven and earth! Her three

tails each represent a life! And the one next to him should be the Golden Crow The crow under the  
bloodline! The bloodline is not very pure, but

The talent is definitely not to choose! "

Fang Yue's eyes possessed the ability to break delusions, and he could see through the bodies of these  
two monster races at a glance!

They are all strong in the world! In terms of strength and realm, it is stronger than the other human  
races present!

However, the human race is more proficient in guns, weapons, and external forces, and is several times  
stronger than the monster race!

Comparing each other, the advantages of these two monster races are not obvious!

"Monster?"

Huangfuqi frowned slightly. He was handsome in appearance, dressed in a light blue robes, with a  
bamboo sword hanging around his waist, and he looked like a hermit.

This time, the seven parties met. According to the agreement, each party had no more than five people!

Huangfuqi was even lighter, and only brought an old man with him! But the strength of the old man is  
unfathomable! A black robe, like a bottomless black hole, swallowed all the light around the body!

The old man's body trembled slightly, and the surrounding space showed layers of ripples!

Fang Yue's eyes shrank suddenly.

He naturally understands what this means means.

"The Avenue of Water..."

Fang Yue muttered to himself, based on his estimation and induction. This old man is at best the figure  
on the second small step of the world, but he has already begun to understand the Taoist rules, and he  
is a bit stronger than the world-level powerhouses of the same level without the Taoist rules!

You can enlighten the Dao on the second small step of the heaven and earth realm. If it is placed in the  
world of Xuanhuang, it can be considered a genius well-known far and wide!

The two monster races each gave a cold snort, and they came single-handedly. Although each had a  
treasure map, they did not have any subordinates or younger brothers.

In the human race, they have their own identities. If they lead too many people, it is easy to reveal their  
original identity!

"This treasure hunt! The seven parties gather, I hope to work together and don't show any tricks! Now,  
this deep blue planet is in a state of chaos! If you get the treasures in the ruins, it will be good for  
everyone!"

Yun Wanli snorted coldly and interrupted the demonstration by the old man behind Huangfuqi. At the  
same time, with his narrow and long eyes, he also looked at the two monster races and warned!

Both of these are not fuel-efficient lamps!

The seven parties have their own minds, and they must be at odds with each other!

But now is not the time to fight. After all, the ruins have not yet been opened!

When the treasure inside is revealed, these people will fight whatever they want!

But now, it is not suitable for hands-on!

"I also agree with Lieutenant Yun's statement!" Fang Yue agreed with both hands! People from other forces also expressed their approval!

"The top priority is to merge the seven treasure maps together! Synthesize the real treasure map, and find the treasure!" Nalan Yunsheng is already a little impatient. The Nalan family is not rare for the information, but it is said that ancient times In the biological civilization, there is a potion for life!

Nalan Yunsheng, as an older generation of powerhouses, although strong and experienced, but the loss of lifespan is also quite serious. If there is no means to continue his life, it is estimated that he will only have thirty to fifty years. Alive!

The stronger the strength, the more afraid of death!

Nalan Yunsheng naturally didn't want to sit down and become a pile of dead bones, resting in the ancient tomb!

At the request of Nalan Yunsheng and Huangfuqi, the seven parties finally gathered together.

The fragments of the seven treasure maps came together.

The gap is connected, the treasure map is unified, and the golden brilliance of the sky rises to the sky, covering all directions!

The light of the treasure map shines everywhere!

A golden light burst out of the sky, guiding the east.

"This treasure map turned out to be not a map, but a magic weapon. It contains spirituality and can guide the location of the treasure!"

Fang Yue was stunned, he finally understood the function and function of this treasure map.

Nalan Yunsheng looked at this treasure map coldly, and there was a thoughtful look in his eyes.

"This treasure map should be a product of the civilization of practitioners, but in the last civilization era, the most prosperous is the biotechnology civilization! Who made this treasure map? What is his intention and purpose?"

Nalan Yunsheng is a powerhouse of the older generation. When he speaks, he points out many of the most sensitive questions!

Fang Yue frowned. This is indeed a problem.

They don't want to be other people's cannon fodder!

"This treasure map has been circulated in the world for at least a thousand years! If it is really the creator who has some unknown intentions, the maker of this treasure map should have fallen!"

Huangfuqi guessed.

"But people's hearts are sinister, we can't help but guard! Although we can't delay the time to find the treasure because of this unnecessarily guessing, we must be very careful in the process!"

Fang Yue spoke.

Among these people, Fang Yue and Sima Xiao are the least famous! However, all the two revealed were the aura of the pinnacle of the innate realm!

Even the unnamed congenital pinnacle should not be underestimated.

"Well, this can only be done first!"

A group of people and horses followed the direction pointed by the golden light, their speed was not slow, and the gods blocked and killed the gods, and the Buddha blocked and killed the Buddha! In the eyes of others, extremely terrifying zombies are just like chickens to them! Tier 3 zombies kill as if they were pulling weeds! Tier 2 zombies, even if they were destroyed by a single blow, couldn't slow their forward pace by half.

Chapter 422: Mass grave

Following the direction of the golden light.

They finally came to a mass grave outside the No.037 city.

The place is full of yin, with bunny red-eyed rabbits occasionally skipping, and black-winged crows landed on the withered branches. They croaked, and the noisy people were upset!

"This place is full of death, if you don't step into the innate, and the blood is insufficient, staying here for three to five minutes will produce many hallucinations and become crazy!"

Fang Yue is measuring the terrain and geomantic omen here.

The golden light of the treasure map pointed to this position and disappeared.

Mass graves are often places of great culprit! Feng Shui metaphysics is quite concerned about this kind of place. Key description!

In the graveyard, there are souls of injustice lingering all year round. "This mass grave is not easy! Three hundred years ago, there was a terrible battle near here. Explorers and the natives of this planet collided with each other! A tribe, up and down, more than three hundred natives were The massacre was all. The explorers paid a very heavy price! More than a thousand people

Burial, many of them are masters of the congenital realm and even the world realm! "

Nalan Yunsheng was quite old, and he knew better than others about the circumstances surrounding this No.037 city.

Fang Yue couldn't help asking: "Why are there no tombstones in this place! According to the truth, no matter which side wins, it will not leave his own bones here!"

"This is also the strangest place of this mass grave! In the first battle, the explorers won a terrible victory, but when they wanted to take away their own bones and scrape away all the wealth of the natives, they encountered something. What an incredible thing! Someone saw some strong men in ancient costumes coming out of the void! They shattered a piece of the world with one hand! The sky collapsed, the moon was destroyed and the stars sink. It seemed that the whole world had fallen into the doomsday of sinking. In! Someone also saw that a huge python stood upright, it was high

To the sky, touch the sky! The scenes are shocking and frightening! In the end, the surviving explorers left in fear and left this mass grave! "

Although Nalan Yunsheng said so, there was still a look of disdain on his face, because such rumors were too exaggerated, and some were not in line with the actual situation!

The giant python that can reach the sky, even the legendary totem, does not have such a huge body!

There are also those ancient people who can smash mountain peaks and destroy the stars by the moon. How can such creatures exist!

Heaven and Earth Realm is already a powerhouse of the pinnacle level in the deep blue planet.

None of them have great supernatural powers and mighty powers, how could such ancient people exist!

On the contrary, Fang Yue was listening carefully, thinking in his heart, and his vision limited one's imagination.

After staying in the Xuanhuang world for a while, Fang Yue had a better understanding of the strength of the practitioner!

The moon destroys the stars and covers the sky with only one hand. Such a method seems to exist only in myths. But in reality, it is not a false talk!

As long as you reach the stage of rotation and comprehend the law to the point of deep enough, such a method is not impossible to display!

Fang Yue is even more vigilant about this mass grave!

He wandered around this cemetery, seeming to be surveying the terrain. In fact, he was changing the position of some strange rocks and deadwoods, reversing Feng Shui and changing them into his Feng Shui pattern!

Reverse Yin and Yang! Good luck and decay!

This is something that only those who have reached the level of a master of formation can do it!

Fang Yue's cultivation base has become increasingly diligent with time, and it is not incredible to be able to do this!

Fang Yue's formation skills have become more profound over time.

If given him enough time, he can use this mass grave to summon half of the underworld.

Of course, this kind of method involves the harmony of the sky and the yin and yang. It is very likely that he will be killed by the endless thunder before he succeeds! "We need to go to the depths of the mass grave. This mass grave does not look very large, but it actually has a radius of more than ten miles. Inside is an ancient indigenous village! There is an extremely ancient heritage and curse in it! Someone has gone deep into it, and came back safely, and got the message

Inherit, the strength skyrocketed, although only the second-tier innate realm, but it can compete with the strong in the fifth-tier! It's a pity that his background is not good, he was coveted, and then killed! Before dying, the man burned all the jade and stone and abolished the secret law he had obtained from the depths of this mass grave! "

Nalan Yunsheng glanced at Yun Wanli.

Yun Wanli snorted coldly: "What happened back then, our military did the right thing! We have already offered a high price in exchange for that kind of secret technique, but he was too greedy and had no racial righteousness, so he actually rejected our military. It was only after the request of the government that there was a stalemate, and there was a lose-lose ending!"

Fang Yue pouted.

What Nalan Yunsheng said with awe-inspiring righteousness was actually intentionally or unintentionally applying eye medicine to the military.

Speaking of which, among the seven forces, the military is the largest! If they really want to kill at the end, they may not be able to survive it!

In the end, everyone stopped talking and walked towards the center of the mass grave.

With every step, the Yin Qi around here will be thicker.

Only then entered the mass grave, less than ten feet.

The concentration of this Yin Qi is more than twice that of before!

Yin Qi is too heavy, corroding flesh and blood! Except for Quo Fang Yue, everyone else was affected.

Fang Yue's method of running ghosts is not only not corroded by Yin Qi, but is always refining, making his cultivation level always at its peak, and even vaguely improving!

The people of the seven parties, observe each other!

They all displayed their own magic weapon!

Even Fang Yue pretended to sacrifice a magic weapon fire bead. Try not to make yourself seem so obtrusive!

However, offering magic weapons is also costly!

On the road ahead, I don't know what dangers exist. The seven parties have their own minds.

Walked ten feet again.

The concentration of this Yin Qi is five times that of the outside world!

Yin Qi is five times, corroding flesh and blood.

Many magic weapons operate, and the mana consumed is also increasing.

"If this goes on, I'm afraid it's not the way! The more you go in, the heavier the Yin Qi, and maybe I can't reach the depths of the mass graves at all. I will be exhausted because of the depletion of mana to fight against Yin Qi!"

In Yun Wanli's heart, he secretly said, involuntarily, his eyes turned outward and he moved some thoughts.

"Fang Yue, your magic weapon is not bad!"

Yun Wanli suddenly showed a malicious smile, causing Fang Yue's heart to suddenly tighten.

"Lieutenant Yun praised him. How can we be compared with the treasures of the military! There are many tricks!"

Fang Yue is humble, but soft but hard.

Yun Wanli saw Fang Yue not accept the move, and immediately snorted coldly. "I think it's not easy for us to walk in this Yin Qi! It's better to have one person take on the task of fighting against Yin Qi! Others can still maintain their peak strength when entering the mass graves! Otherwise! , According to the current situation, I'm afraid we humans

I couldn't get to the inside of this mass grave, and I was already exhausted! "

Yun Wanli spoke out his thoughts directly.

Except for Sima Xiao and Wang Kai, everyone else's eyes also focused on Fang Yue.

Persimmons are naturally selected for a soft pinch!

Guys like Fang Yue with a weak background and no reputation have naturally become the soft persimmon in Yun Wanli's eyes!

Yun Wanli opened his mouth, and the taste was full.

But no one else spoke for Fang Yue!

Sima Xiao naturally knew that Fang Yue was born as a ghost in the world. For him, this yin energy is a tonic. Not only can it not constitute a burden, but it can keep his cultivation level constantly improving! Worry about Fang Yue? That's no use!

Wang Kai is the weakest of these people. He is trying to reduce his sense of existence. How dare to show the limelight at this time and fight for Fang Yue!

As for the other forces, they were even colder. Although this Yunwanli gunpowder is full of flavor, it is Fang Yue who is aimed at!

If it succeeds, it is all about reducing the burden for them, and if it fails, Fang Yue's resentment will fall on Yun Wanli's body and have nothing to do with them!

Fang Yue was taken aback when he heard the words.

Immediately, he said: "Lieutenant Yun, it seems inappropriate to do this! I am alone, and I will bear the yin of the seven directions. When I reach the center of this mass grave, I will definitely run out of strength! If there is really a treasure, Why should I fight for it?"

Although Fang Yue didn't say too much, in his tone, a strong resentment was already showing! Yun Wanli sneered: "It doesn't matter. You will remember your contribution for everyone! If you can live with us, we will naturally share what we have gained to you! If you bury your bones in the mass grave, the Liu behind you

Home, we will also help take care of it! "

This Yun Wanli was obviously running a train with his mouth full, and he probably wouldn't believe what he said.

This is the fat in the mouth, and the reason to spit it out?

It is estimated that even if Fang Yue can come out alive, no one will give him a little benefit!

Fang Yue showed hesitation.

Yun Wanli immediately raised his voice by a pitch.

"What? Fang Yue, can you not believe in the character of us people?"

Yun Wanli's words were to pull everyone on the battleship! If Fang Yue dared to refute, it would be tantamount to offending everyone!

Fang Yue squeezed and waited for a long time before saying: "Then you must keep your promise!"

Fang Yue's full face of grief and anger clearly smelled of being forced into helplessness!

Only Sima Xiao was more curious. How could Fang Yue, who had always taken advantage and never suffered, agreed to such demanding conditions as Yun Wanli!

Yun Wanli is more proud.

Seeing that the area covered by the fire bead increased, he took back his magic weapon and became comfortable! The other parties, the other side Yue despised a bit more.

Don't even dare to resist such demanding requirements. It seems that these two guys of unknown origin have no real skills! At that time, if they get any treasure, they can tentatively \*\*\*\* it from their hands.

This time, Fang Yue and Sima Xiao were both classified as soft persimmons by them!

Even Wang Kai was sighing that he chose the wrong person! This Liu family is far less powerful than I thought!

With the gradual deepening of everyone.

The central part of this mass grave was finally in sight. The shadow of a small tribe fell into the eyes of everyone!

### **Chapter 423: unpalatable**

The flags to be displayed are ancient and simple buildings.

Every inch of the land is filled with a desolate, ancient taste!

And the center of this mass grave is rare, without any yin air!

At this time, Fang Yue finally retracted the Fireball Magical Artifact. At the same time, on his forehead, dripping beans of sweat rolled down, his face pale, and he looked like he was letting go!

"Huh, he!"

Fang Yue was gasping! Intermittently said: "You must keep your promise!"

Fang Yue said so, and no one paid any attention to him!

Yun Wanli, who had made a promise before, looked at him with a sneer.

"In this tribe, maybe there is still some danger! Since Fang Yue has been with you for so long, it's better to be a good person to the end and act as a pathfinder for us! See if there is any danger in this tribe!"

In Yun Wanli's smile, the taste of contempt has not been concealed!

After Fang Yue had held it for so long, he was already at the end of his force!

Resist? Hehe, Fang Yue in his heyday, he was not afraid, and at the end of the crossbow, he was even more vulnerable!

"Yun Wanli, don't go too far!"

Fang Yue's face was gloomy and roared at Yun Wanli.

open circuit?

Pathfinder?

What does Yun Wanli think of him! Even representatives of the military do not bring such bullies!

"Excessive? No, no, no! I'm just giving you a chance to be loyal to the country! The ancients said it is good, "Gou is the country's life and death, why should we avoid misfortune and fortune? As a young man, we should consider the overall situation." Ideas! Sacrifice the ego and become the greater ego!"

When Yun Wanli spoke, he said some grand-sounding principles! Say these words.

Yun Wanli is already blatantly oppressing Fang Yue!

Fang Yue Qijie, this guy is really getting more and more excessive!

Sacrifice the ego and become the ego?

Your mother, why don't you sacrifice yourself!

However, plan for yourself.

Fang Yue finally chose to attract people. He stared at Yun Wanli fiercely: "The one surnamed Yun, wait for me!"

After speaking, Fang Yue turned around and smashed into the central village of the mass grave.

The smile on Yun Wanli's face is even stronger!

Sure enough, Fang Yue had just stepped into one of them, and there was a strong yin wind roaring! The wind was strong and swept like a knife. Facing Fang Yue's face, it severely splits!

Fang Yue opened his mouth slightly!

Swallow these winds into the abdomen.

The blade turned into by the weather may be fatal to others, but to him, it is like a panacea!

After swallowing these wind blades, Fang Yue felt that his meridians were slightly full!

The ghostly tricks he cultivated are even better! It was the first time he encountered such a pure Yinfeng!

"Wow! So cool!"

Fang Yue exclaimed.

Sima laughed secretly: "What a pervert!"

He naturally recognized that it was the Yin Weathering Blade! Even if you are a strong man in the world, there is no special means, and you have to dodge in a hurry when encountering such things!

Able to swallow the yin wind and turn cost into power.

Only Fang Yue can do this easily!

Sima Xiao knows the doorway inside, but the others are not famous!

Especially Yun Wanli's eyes flushed when he saw Fang Yue actually swallowed the Wind Blade. Rushed in!

How could he be missing from such a good opportunity?

With a cry to the ground, a wind blade turned into a yin weather rolled in!

Yun Wanli also opened his mouth following Fang Yue!

Once again.

The icy, sharp Yinfeng Fengfeng directly tore Yun Wanli's mouth apart!

The blood splashed, but it was not fatal!

Because after Yun Wanli's flesh and blood broke, the silver-white metal skeleton was revealed! This metal skeleton is extremely strong, even the wind blade did not cause any harm to it!

"Transformation of people?"

Fang Yue's eyebrows were raised slightly.

This thing, Fang Yue only knew his existence in theory!

Use part of the metal to replace the physical components to make the transformed person stronger and even longer life! But this method has a fatal flaw, that is, after becoming a transformed person, one's own blood will be disrupted, and the progress of cultivation will not be greatly delayed! At the same time, it transforms people like people but not people. The real masters are not ashamed to use this method to strengthen their own strength.

!

"Fang Yue, you hurt me!"

Yun Wanli's eyes widened, and Yue glared at him, his mouth still dripping with blood!

It looks extremely hideous.

Fang Yue shrugged very innocently and said, "Hurt you? I didn't let you in! I was the one who said that I was exploring the way!"

Yun Wanli, although not having his head cut off by Yinfeng's wind blade, such a messy appearance also caused Fang Yue's heart to breathe a sigh of disgust!

Yun Wanli was speechless by Fang Yue. It was indeed Fang Yue who didn't say anything, so he rushed in recklessly, thinking it was good. As a result, the benefits were not caught, but rather embarrassed!

The injury of this body, but not light!

His mouth was almost torn by the wind blade of Yinfeng. Some yin qi invaded his body along with it! It is estimated that it will take some time to completely refine or discharge it!

"This time Yun Wanli suffered a lot! He even exposed his mechanical body!"

Others are talking about it. In fact, many people know the details of Yun Wanli and his talents, but he does not show

It's so strong. The reason why he was able to reach the innate realm was that the Yun family behind him gave him a lot of money

The result of the resource!

After Yun Wanli reached the pinnacle of the Innate Realm, he had reached the extreme, and his potential was exhausted. Absolutely

It is impossible to continue to move forward and reach the point of heaven and earth! So, he chose another way, using

Mechanical means to transform the flesh!

In this way, his strength and longevity have increased a lot, although he still hasn't reached the level of a world powerhouse,

But they are already the most powerful group of people in the world!

However, for Yun Wanli, it is a taboo to transform a person's identity!

After all, if you can choose, no one wants to be this kind of person, not human, ghost or ghost!

Yun Wanli's identity as a reformer was exposed under the sun, and Yun Wanli immediately became angry!

"Do you dare to frame me? Do you know what a crime this is!"

Yun Wanli questioned Fang Yue. He was about to point to Fang Yue's nose and yell at him! He has never eaten like this

A big loss, framed by an unknown pawn!

Fang Yue's face was innocent: "Lieutenant Yun, this is your fault! There is nothing wrong with it! I know I didn't say anything, I was trying to find the way for you, you must jump out! "

What Fang Yue said is correct! Indeed, from the beginning, Fang Yue did not ask Yun Wanli to do anything! He even

It was because of Yun Wanli's persecution that he continued to suffer. Just now, Fang Yue did not call Yun Wanli to enter this tribal building

s position! The reason why Yun Wanli jumped out was because he himself was too greedy! I want to compete with Fang Yue

!

According to this logic, Yun Wanli is completely looking for death by himself! Fang Yue, on the contrary, is an out-and-out recipient

The victim!

"You!" Yun Wanli pointed at Fang Yue, and he became angry with him! But he is really irresponsible and can't tell

What come!

"Me? What's wrong with me?" Fang Yue narrowly looked at Yun Wanli, his smile was somewhat indifferent.

! This Yun Wanli often made things difficult for him, Fang Yue had long seen him not pleasing to his eyes!

I didn't do it before, because this guy is still useful!

Now that he has completely torn his skin, then teach him thoroughly!

"Fang Yue, don't seek death!" Yun Wanli sank his face, even if he didn't take reason, he wouldn't show weakness! Other generations

That watch is the military! The most powerful force in this entire deep blue planet!

Under the command of the military, the mountains and the sea can be leveled. As for Fang Yue, in the eyes of the military, it is just a small

ant!

"I'm looking for death? Do you think I'm looking for death or you are looking for death! The military? The military is amazing! Outside,

I am worried that you will contact the military, inform me, and frame me, but when you get here, you think you still have a way

Is there any contact with the military? "

Fang Yue, taking so much time, looked at Yun Wanli with a playful smile.

Yun Wanli had a bad feeling immediately!

There seems to be something wrong with Fang Yue! Is everything before him disguised?

Others also had the same premonition as Yun Wanli in their hearts! Fang Yue seems to be far from what it seems on the surface

So simple!

"All the people in the military obeyed the orders, aimed at me and shot Fang Yue!"

Yun Wanli became angry from embarrassment! Not killing Fang Yue is not enough to stand up! Just a master of a family! Never been

The military, put it in the eyes.

If we say that among these people, Yun Wanli really feels jealous, and only the black market and the two murderers! before

The power is very strong, and the military will face off in the dark, and will not give way to each other. And those two murderers are pure

Nothing to worry about! And what they are best at is assassinations and ambushes, which really annoys both of them.

Even if he can't eat it, just walk around!

The three guards of Yun Wanli all raised the black hole muzzle in his hand!

Fang Yue narrowed his eyes, looking towards Yun Wanli.

"Are you really going to do it to me?"

Fang Yue confirmed again. If he could not do anything, Fang Yue still tried his best not to conflict with the opponent!

After all, the military is not easy to mess with, saying that there is no signal from here, but who knows what else the military has

What about the means of communication?

"shot!"

Yun Wanli didn't talk to Fang Yue at all.

Give an order.

Bang Bang Bang, three bullets burst out of the air. All three bullets are armor-piercing bullets with special materials, let alone blood

A fleshy body, even a solid tank armor, will be shot through by this bullet!

"This is what you forced me!"

Fang Yue lowered his head, a decisive indifference in his voice.

With a cry, a piece of paper talisman in Fang Yue's hand burned without fire.

The void solidified, and all three bullets were frozen in the void.

"Ancient Talisman?!" Seeing Fang Yue's use of such a technique, Yun Wanli's eyes were hot and greedy.

It means that it comes out thickly!

Fu Lu also spread among the deep blue planet. It has a low threshold for use and great power, and it has become popular among many people.

Object. However, the general talisman can only be used once, and it is quite difficult to produce.

Let the price of this talisman soar!

Even the most common talisman can cost more than ten thousand stars!

Fang Yue's Fulu can hold the void, even bullets can't penetrate it, it must be the best of Fulu!

Fang Yue has a talisman like this in Fang Yue's hand, and there is probably a second and third one!

If these talisman fall into his own hands, wouldn't he be rich?

Thinking of this, Yun Wanli's heart became more and more hot!

With a swish, Yun Wanli took out the dagger from his waist and pierced towards Fang Yue's neck! On the dagger, the blue light shone, shining with a penetrating luster!

#### **Chapter 424: Stealth**

"This talisman can hold bullets, but it can't hold me! Fang Yue, give up resistance, I will give you a happy one! No

Then, I will let you know what is not to survive, not to die! "

At this time, Yun Wanli was still full of confidence! He is the strongest group of people in the world, even if

Without the identity of the military, he is still aloof! Isn't it easy to kill an unknown soldier?

The dagger fell.

The phantom dissipated.

Where Fang Yue stood just now, there was not even a ghost shadow!

"Stealth!"

Nalan Yunsheng said in surprise! He can be regarded as a highly respected senior. When it comes to strength, among these people

Maybe it's not outstanding, but it's about the breadth of vision.

I am afraid that no one can match him!

Stealth.

It is an ancient spell! Every spell represents an ancient inheritance, absolutely not relying on a

People's efforts and insights can be understood!

When Nalan Yunsheng yelled these three words, there was also a vague hint of respect in the eyes of other people looking at Fang Yue.

fear.

Fuluo, spells!

These are the characteristics of the ancient practice school!

It is almost impossible to master these two skills without any means!

This Fang Yue has no unknown origins, and can't find out the past. Could it be that he escaped from the world of a large sect in a deep mountain and old forest.

The disciple of potential cultivation, the cultivation base encountered a bottleneck, and he tempered himself in the red dust, and then he was born?

Everyone started to replenish their brains.

And the more you think about it, the more possible!

Not only did they think so, but Yun Wanli also had the same idea. However, he did not turn the enemy into a friend

On the contrary, Fang Yue's killing intent became stronger!

Those ancient schools, one by one, but none of them are good! They are all famous for protecting short, if Fang

Yue walked out alive and told what he had done to the sect behind him. Maybe one day, this deep

An old monster will jump out of the old forest to attack him!

It is better to kill people than to wait and die.

If Fang Yue is dead, he doesn't know it, maybe the school behind him doesn't even know who to seek revenge!

Fang Yue could not guess that so many thoughts had already appeared in these people's minds.

The reason why he didn't slap this Yun Wanli to death with a neat slap is because he still has value!

"Sure enough, it appeared!" Fang Yue narrowed his eyes slightly, his figure flashed, and immediately disappeared from the crowd.

Right now!

At this time, a beast appeared on the spot where Fang Yue just appeared, and his whole body was covered in black.

Covered by long hair!

"Ghost!"

Nalan Yunsheng spoke again, and he recognized the identity of the monster at a glance.

At this time, even Fang Yue somewhat admired this Nalan Yun ascending, the ghost ape is a creature in the underworld, very

The young meeting was born in the sun! He only knew this because he was a ghost and had a heritage and understanding of ghosts.

The identity of the ghost.

Otherwise, even if this kind of big guy is standing in front of him, he will think that this is the gate of which zoo

The chimpanzee came out of the mouth without closing it!

Ghost monkey, nearly ten feet tall, very muscled! His long arms, if they are fully opened, are definitely one foot long

length!

Ghost ape is bloodthirsty, and his favorite is to eat human flesh.

Once the ghost and ape are born, they will not give up easily if they don't eat enough human flesh! However, this guy looks scary, start

The appetite is not large.

You can be self-sufficient as long as you eat almost one.

Creatures like ghosts and apes can not be guilty, but generally they are not guilty, because this thing is fierce by nature and extremely cruel.

Violence, a little carelessness, can put people to death. Even more frightening is that ghosts and apes live in groups! kill

Turning around will cause a group of people!

Yun Wanli naturally became the dinner of ghosts.

Of course, Fang Yue's calculations are absolutely impossible to know.

Yun Wanli still looked at Fang Yue with a ferocious face.

The cold eyes were full of killing intent, and Fang Yue was already like a dead person in his eyes.

And in Fang Yue's eyes, this is not the case!

"Your good luck is over!"

Fang Yue's killing intent was finally revealed.

A slender sword, like a light willow leaf, fell on Yun Wanli's neck unknowingly.

Yun Wanli's eyes widened, like falling into an ice cellar, and his mouth opened, but he couldn't say a word.

Because Yun Wanli felt that as long as he dared to say one more word, this ruthless war knife would spin up and let

His head and neck are separated in two places!

"no, do not want!"

Yun Wanli's eyes were full of horror, he realized the huge gap between himself and Fang Yue!

"I regret it now? Unfortunately, it's too late!"

Fang Yue didn't hesitate, the chopper in his hand spun up. Red blood splattered the earth.

A chubby head landed instantly!

Just one move!

With one move, Yun Wanli, known as the strongest in the world, fell instantly!

"You, you actually killed Lieutenant Yun!"

All of the three guards that Yun Wanli brought with him showed horrified faces.

This is horrible! Yun Wanli, although his rank in the army is not very high, but when it comes to pure strength... Yun

Wanli is definitely not weaker than the veteran major in the army!

Kill Yun Wanli with one move. Even a strong person who is new to the world can't do it.

Who is this Fang Yue? Actually have such a powerful strength and means.

"Yes, Yun Wanli is too bullying! I have repeatedly backed down, but he is still in good measure! Even if he is you

People from the military, I can't let him go! "

Fang Yue said it was grand-sounding, and at the same time, he threw the headless corpse directly at the ghost ape!

The ghost monkey took the corpse and tore it cruelly. The stumps and arms were all put into his mouth and chewed wildly!

Watching Yun Wanli's body be swallowed. The guards showed an unbearable look. However, they are in Fangyue

Under the sharp eyes, there was no idea of resistance at all.

"This Fang Yue did nothing wrong! He is doing this for our good! This ghost ape must be full before he can stop

It hurts people, otherwise, in its hungry state, we are all targets and targets of its attack!

As long as the ghost ape is born, it has the strength equivalent to the innate realm strong, and once it reaches adulthood, it is promoted immediately

Become the existence of heaven and earth! And its body is huge, naturally powerful, and its true strength is better than the average world.

The strong are even more terrifying! "

Nalan Yunsheng stood on Fang Yue's side without hesitation.

In terms of pure force, Fang Yue's performance was even more exaggerated than they thought!

If Fang Yue is offended, they might all have to die during this expedition!

Nalan Yunsheng's heart was extremely worried. He stared at Fang Yue's eyes nervously, trying to read his next step

idea.

Fang Yue smiled: "Don't worry, I'm not a murderer! It's just because Yun Wanli has done too much, so I was forced to fight back helplessly! "

Fang Yue tried to make an expression that I was a good person, but everyone no longer believed in the existence of this kind of appearance!

After the ghost ape ate Yun Wanli's body, he threw metal bones to the ground.

What it hopes is only flesh and blood, this kind of iron bumps does not meet its appetite!

Looking at Ghost Ape's disgusting expression, Fang Yue also felt a little funny. Yun Wanli was extremely proud before his death, but after his death, he ended up like this!

"Are you the guard of this village?" After the ghost and ape had eaten and drunk enough, the manic breath on his body also became thinner.

Fang Yue asked at this time.

Nalan Yunsheng and the others all felt incredible!

I have never eaten pork, but I have seen pigs run! This ghost ape is notoriously ferocious in the records of ancient books!

If he can prevent it from attacking, he is already Amitabha! Is this Fang Yue's brain teasing? He even started talking with the ghost monkey and asked him questions?

Everyone thought Fang Yue was crazy.

Only Sima smiled with a smile on his face.

This is where Fang Yue's true ability lies. Fang Yue is not at the top in the Xuanhuang world if he speaks of combat power. Yue is definitely a great fellow!

The ghost ape has a deep wisdom, all creatures can evolve to the level of heaven and earth, and no one is a fool.

It could feel that Fang Yue had an aura that made his heart tremble! If it is under extreme hunger, it may go crazy and fight Fang Yue. However, Fang Yue just gave it fresh flesh and blood, enough to eat and drink, at least it can support him without eating for a year or a half!

Life is very good, even for ghosts who are cruel by nature, they are not willing to take the risk easily to offend an enemy that it simply can't provoke.

After hesitating for a moment, Ghost Monkey nodded.

It can't speak, but it can understand what the other person says.

"Does this ghost really respond to him?"

Nalan Yunsheng couldn't help but sucked in a cold breath. He was so knowledgeable, he had never seen such a sight.

That's a ghost! Recorded in ancient books, the most brutal existence, can't offend, can't provoke!

However, Fang Yue can actually communicate with it! This is simply a miracle.

"Then what is this place? Treasures? Ruins?"

Fang Yue continued to ask. The ghost ape immediately changed his face! Some questions can be answered, and some questions are related to its taboos, and it cannot be said at all!

"Squeak!"

The ghost monkey gestured to Fang Yue, defending, trying to explain his difficulty.

Fang Yue sighed, as expected! This ghost ape did not appear out of thin air, but was deliberately placed here.

Even Fang Yue guessed that this ghost ape is the guard of this place, but it doesn't know much about it!

"Then are there other ghosts in this place?"

Fang Yue spoke again. The ghost nodded, thinking Fang Yue made a number nine!

"There are nine ghosts?" Fang Yue's old face turned black. He turned around and looked at the people behind him, guessing that it would be enough for these ghosts to eat supper.

Those people's faces were pale! What exactly is Fang Yue thinking about!

The ghost nodded fiercely. He turned happily and walked towards the interior of the tribal ruins.

Fang Yue turned around and looked at the people who came with him. His tone is deliberately deep and suppressed. "Now, you should all understand the general situation! This place is definitely not a good place! Treasures, chances, maybe! But the dangers are definitely not less! Just the ghost and ape, count the one just now. There are ten heads! Ten ghosts, if we rush in

If it is, it will definitely be torn to pieces! "

Fang Yue's words suddenly stopped. There was a heavy depression in everyone's heart.

### **Chapter 425: Raising ghosts**

Innate, among the 037 cities, he is definitely a master.

But if they are placed in front of the ghost monkeys, they won't even count as farts! In addition to being sturdy in nature and capable of fighting, the most famous is the art of combined attack!

A ghost, maybe not too strong!

But the ten heads working together to drop a mini-nuclear bomb will not be able to harm one of their hairs! "So, I want to say, if you are afraid of death, I advise you to leave early! At this time, saving a small life is the most important thing! And if you are not afraid of death, then take out your hole cards. , At this time, don't have any preserving power and treat others as

The idea of pathfinder stones! "

Vaguely, Fang Yue already had a hint of leadership! Although some people were dissatisfied, no one dared to jump out and refute openly. After all, the scene where Fang Yue killed Yun Wanli just now is still vivid!

The blood left by Yun Wanli on the ground has not completely dried up!

"it is good!"

Nalan Yunsheng was the first to speak in agreement. When the ghost appeared, he knew that this expedition was extremely difficult!

Together, there may be hope of success, and internal fighting will inevitably face failure!

Fang Yue nodded slightly, then set his gaze on the other people. He was observing the expressions on these people's faces and guessing their inner thoughts.

"Since I have chosen it, I must be prepared to sacrifice! For the sake of the Huangfu family, I have already put my life and death out of my mind! Joining forces, naturally there is no problem! As for this hole card, I will also release it at a critical time!" Huangfuqi Although he expressed his attitude, the laugh was hearty.

But he didn't really say what his hole card was!

Fang Yue took a deep look at Huang Fuqi and put him on the blacklist.

Subsequently, other people also expressed their opinions one after another, their attitudes were similar to those of Huangfuqi! Obviously, at this time, they are still concealed. Although it may not be aimed at Fang Yue, it is not worth trusting to give them the back!

Sima Xiao and Wang Kai were calm. There is really nothing to keep Wang Kai belonging to. Originally, he just wanted to fish in troubled waters, to see if he could get something good for his brothers to enjoy. And Sima Xiao has too many pure hole cards, occasionally revealing one or two of them, which is also for him.

Nothing serious!

"Since you have this attitude, then I have nothing to say! Nalan Yunsheng, are you willing to form a team with me to advance and retreat together?" Fang Yue set his gaze on Nalan Yunsheng.

Huangfuqi and others said, "Fang Yue, what do you mean?"

Fang Yue shrugged, "I don't mean anything. Since everyone doesn't want to expose their cards and cooperate frankly with me, then it's better to split the troops!"

As soon as Fang Yue's words came out, those people changed their colors! Fang Yue's methods and strength are obvious to all. If they walk with Fang Yue, they can definitely avoid a lot of trouble and danger!

Split the soldiers?

Said lightly!

They were just so few people. Next time, what if they encounter a ghost ape?

Fang Yue can talk to Ghost Ape, but they guess they can only serve Ghost Ape for dinner!

"Fang Yue, you can't be like this, I'm sure to watch and help!" Huangfuqi said again, his tone faintly showing weakness!

However, Fang Yue's heart was determined. He shook his head and said: "In fact, it is not necessarily a bad thing to separate! We are too many and full of blood! For ghosts, it is simply a bright light, still in the sky! If everyone is separated, the blood will be slightly weakened. Maybe it will not attract the covetousness of too strong ghosts!

"

What Fang Yue said seemed to make sense.

But everyone understood that this was just an excuse for him. Fang Yue was determined this time and wanted to separate from them. No matter who would persuade them, it would be of no avail!

"Okay, then!" Except for the one power represented by Que Nalan Yunsheng, the other power representatives expressed their acceptance.

Following Fang Yue, it is safe, but Fang Yue's strength is unfathomable. What if they get the treasure in the end, what should Fang Yue do?

Without Fang Yue following, they have pros and cons!

The disadvantage is that it is in danger and lacks a powerful aid.

The advantage is that they are missing a strong competitor. Maybe, the chance will eventually fall into their hands!

Nalan Yunsheng readily agreed to Fang Yue's proposal.

Because Nalan Yunsheng had a rough guess about the origin of Fang Yue's identity based on his years of experience!

In this respect, it should be some disciples who have been carefully trained in the old forests in the deep mountains! He is the most orthodox cultivator, maybe he has some pills in hand that can prolong his life!

In the deep blue planet, although orthodox practitioners are rare, every appearance will cause an uproar!

Because those orthodox practitioners not only have amazing force and higher realm, the most rare thing is that they are also proficient in various methods.

For example, alchemy, refining tools, and making talisman!

The elixir of practitioners can assist breakthroughs and prolong lifespan.

Why did Nalan Yunsheng come this time? Isn't it just to find ways to prolong life? After taking care of Fang Yue, he was happy and rewarded him with a panacea. At that time, it doesn't matter whether he gets the treasure or not!

The two sides separated quickly!

Fang Yue walked a few steps into this tribe pretendingly, and saw those people's silhouettes disappearing quickly. With Sima's smile, Wang Kai, Nalan Yunsheng and others quickly retreated out!

"Fang Yue, what are you doing? I have seen a totem pole in that tribe! This pillar contains spirituality. If you practice it well, you might actually be able to summon an ancient hero!"

Sima Xiao was very upset that Fang Yue prevented him from continuing to penetrate this tribe!

The corner of Fang Yue's mouth curled up with a slight sneer.

"You really didn't notice the sleazy of this place?"

"What's the tricky? What's the tricky? Everything is normal! Beside the treasure, there must be a guardian! If there is no such special environment, the treasure would have been taken away long ago!"

What Sima said with a smile was taken for granted.

Fang Yue kicked his \*\*\*\* fiercely.

"Give me a clearer mind and don't be fooled by greed! You forgot, what are we looking for here? The biotechnology of the last civilized age! But do you think there is a trace of biotechnology from the beginning to the present? ?"

Fang Yue's words seemed to be pouring down a pot of cold water.

Sima Xiao was completely awake.

Fang Yue is right, they are here to find biotechnology!

This place, why are all the products of fantasy civilization, starting from the treasure map, it is the most common magic weapon in the world of practitioners!

There are ghosts, totem poles, all of them!

Sima smiled and looked at Fang Yue: "What's going on? Could it be that this legend is simply wrong?"

"Is it wrong, I don't know, but what do you think is the best place for such a ghostly place?"

Fang Yue looked into the distance, no one knew what he saw. His tone became deep again.

Sima Xiao asked curiously: "What is the most suitable one?"

"Raise ghosts!" Nalan Yunsheng answered Sima with a smile.

His complexion is heavy, and he looks very worried!

"Raising ghosts? Could it be possible, someone deliberately arranged here?" Sima smiled secretly, the more he thought about this treasure, the more loopholes there were.

The \*\*\*\* biological civilization is clearly a branch of the spiritual civilization of the practitioner, OK?

In Sima Xiao's heart, a million heads of grass, mud, horses galloped past!

Fang Yue bowed, twisting a trace of black dust with his fingertips. "To be precise, this is not a place to raise ghosts, but a place to raise souls! When the realm of cultivation reaches a certain level, the soul will grow and become stronger! The ordinary acquired, innate and even heaven and earth realm If you don't have a strong background or a chance to guard against the sky, your soul will be relatively weak. After death, you will be confused, will be taken away by ghosts, and fall into reincarnation. On the Mengpo Bridge, you will have a bowl of Mengpo soup. , The memories of the previous life are all forgotten, toss and turns, another one! But the real strong, the soul is strong, and some even practice the secret method of the soul

, Even at the moment of death, you can keep your sane clarity! After death, you can exceed the arrest of ghosts, and then create a place for the development and cultivation of the soul! In this soul-raising land, their souls are no longer nourished and nourished at all times! The ghost will grow stronger day by day! When the ghost is strong to a certain degree, it will start to choose an object to win the house, and then come back! Although every seizure of the house is for the soul source, a lot

There is little damage, but the key is that memory is not damaged! With the previous life's practice experience, as long as you succeed in seizing the house, you can have the qualifications, and you can grow up quickly if you are not stupid to die or bad luck! Become a powerful party again! "

In this regard, Fang Yue is definitely an expert level, with a memory inheritance belonging to ghosts. It can be said that such a situation is not strange!

"It turned out to be like this!" Sima nodded with a smile!

"Then shall we leave now or wait and see for a while?" Nalan Yunsheng asked Fang Yue, although Fang Yue is not very old, but the means reach the sky, and he knows more about ghosts than him!

No wonder that Fang Yue had divided his troops into two ways before. It turned out that he was not being careful, but wanted to use those people to seduce the ghost!

"If I leave now, isn't the bait I left behind for nothing?"

The corner of Fang Yue's mouth curled up with a strange arc! Fang Yue had discovered the nuances in the mass graves before he completely entered the mass graves, but he never said anything, waiting for this moment to come!

If it wasn't for these people who still had use value, Fang Yue would have slapped these guys a long time ago by relying on the bullying and indifference!

Shortly after Fang Yue's voice fell to the ground, wisps of overcast wind slowly fell.

Like catkins light, harmless to humans and animals!

"Taking the house, it's starting!" Fang Yue said, the expression on his face became solemn and serious!

This yin wind only lasted less than a moment, and even the sound of struggling was not heard!

Huangfuqi walked out of the depths of the tribe again!

This time there was no jealous look on his face, and the whole person was extremely low-key, even in the gaze looking at Fang Yue, there was a trace of fear! That's right, it's fear. The more the ghost, the more you can see the horror of Fang Yue's strength, especially the incomparably condensed, substantive soul, which can give people a kind of pressure like a god!

### **Chapter 426: The will of heaven**

"You succeeded in winning the house?" Fang Yue glanced at Huangfuqi lightly. At this moment, Huangfuqi is no longer the Huangfuqi before. Now, in that unchanging flesh shell, resides a powerful and ancient soul.

According to Fang Yue's estimation, this soul's strength during his lifetime has at least reached the level of rotation!

If it is in the Xuanhuang world, the rotation state is nothing at all! Even if you have cultivated to a certain level, you will be famous in all directions, that is, it is just a famous person!

In small places, they can be regarded as local tyrants, but in large places, they can't get along!

But in the deep blue planet with the harsh cultivation environment, even the practitioners of the heaven and earth realm are rare. As for the rotation realm, they are even more like gods.

"What about the rest?"

Nalan Yunsheng looked around.

Obviously many people had entered before, but only Huangfuqi came out.

If it is said that Huangfuqi was taken away. Then other people, shouldn't it be the same!

One such ghost is already enough! How many more? What a joke!

"They have already been sacrificed by blood! If the heroic souls who seize the home are too strong and their bodies cannot match them, they need to sacrifice some powerful creatures in blood to strip the blood out of them! Then bless them on the flesh shell!

The physical body and soul are like yin and yang two qi, and balance between each other is the best choice! "

Fang Yue is still relatively clean about things like taking homes!

The ghost possessed Huangfuqi nodded quickly.

"My lord is right!"

"grown ups?!"

When Nalan Yunsheng heard this call, he immediately took a breath. The previous honest conversation between Ghost Ape and Fang Yue had already made him feel a little bit wrong!

Now, even the ghost who captured Shehuangfuqi calls Fang Yue that way, could it be that he is the chief culprit in arranging this place?

Fang Yue couldn't laugh or cry, he understood that Nalan Yunsheng had misunderstood!

"I have nothing to do with this place, and even I came here for the first time like you. The reason why they fear me is more probably because of my identity!"

Fang Yue explained a little bit, but didn't say more! "You set up this place?" Fang Yue glanced at Huangfu Qi obliquely, and the robbed Huangfu Qicheng said in fear, "No, no, no one has this kind of ability! This mass grave is the original. Naturally born, the little one just died, not reincarnation immediately, accidentally

, Fell here, and then they continued to practice, nourish the soul body, and cultivate a little bit of the source of the soul lost after death.

This place is very weird! Occasionally there will be Yin soldiers, and there will be some ancient beasts, roaring and roaring from time to time! Although the area here is not large. But it was clearly divided into ten layers!

Where I am is only the second floor!

The ten ghosts are hovering on the first floor!

Although we have not received any instructions, we all seem to be the most loyal guards in this place, guarding here at all times! "

The ghost told the layout of this place.

Fang Yue didn't have any surprises, a ghost in the rotation realm is far from being able to arrange such an exquisite pattern!

Because the comprehension of pattern geomantic omen is closely related to one's own realm level. Like him, his cultivation base is low, but his realm is high, it's just a very unique existence!

The cultivation base of most people matches the realm with each other, and even many people have the cultivation base beyond the realm!

Those who can lay out this place are at least the top masters in Feng Shui!

And the ghost of this possessed Huangfuqi, such a solemnity, is far from the tolerance of Feng Shui master!

"Squeak!"

I don't know when, the ghost monkey ran out holding a pile of black stones. It looked at Fang Yue as if asking for credit, squeaking, and pointed at the black stones with its thick fingers!

A ray of Fang Yue's spirit fell into it.

There was a bang.

In Fang Yue's mind, a towering figure appeared!

Pedal! Pedal! Pedal!

Fang Yue stepped back involuntarily! Because the power of this figure is too strong, even if it is just a projection, it makes Fang Yue feel as heavy as a mountain and cannot bear it!

This figure suffocated Fang Yue, not because of the strong energy contained in it. In fact, it was a reflection, hollow and nothingness that would be broken with a single poke, without any power.

However, there is a certain ancient and eternal artistic conception in this figure, a person alone against the eternity, dominates the world! Fang Yue had never had such an experience even in a powerful person like Ruyizi.

He seems to be the embodiment of the principle of heaven and earth! Every gesture has unmatched power!

Fang Yue enlightened him quietly, and then showed a surprised expression.

Because, he suddenly thought of something that Ruyizi had told him before he came. In every dark trial, there are two ways to return smoothly, one is to get the approval of heaven! The second is to get some special treasures!

Fang Yue had an intuition that this black stone seemed to be the kind of special treasure that could travel between the two worlds. Has an unimaginable power!

Fang Yue opened his eyes again. The figure in his mind gradually blurred and faded. Fang Yue's realm is not enough, such a figure that is close to Tao, even if he visualizes it, he can't visualize it!

This is a gap in realm, which is difficult to measure with reason.

Sure enough, when Fang Yue's palm touched the black stone, a ray of providence melted into his soul. Fang Yue felt a wave of will, containing a faint disappointment.

This is the will of heaven belonging to the deep blue planet, although it is thin, it is pure!

Every black stone reflects the will of heaven and earth in this deep blue planet!

Fang Yue took a cursory look. This ghost ape actually held out nine black stones!

"Sima Xiao!" Fang Yue's voice suddenly rang in Sima Xiao's ear.

"Huh?" Sima smiled slightly and looked up at Fang Yue suspiciously.

"Do you know what these black stones are?"

"What?" Sima Xiao didn't pay extra attention to these black stones. Because of Fang Yue's reminder, his gaze condensed slightly on the black stones.

"Each stone is formed by the condensation of a thin will of heaven! Nine stones represent the will of heaven!"

Fang Yue's voice is sonorous and powerful!

Sima laughed and held his breath immediately, and his eyes opened wide.

"You mean... these stones are the so-called tokens we passed the dark trial?"

Sima Xiao's breathing suddenly became urgent! I can't help shaking my hands! This is not because Sima laughs are rare and strange, but these black stones are too precious!

The will of heaven is not only a token of leaving this world! It is an unprecedented treasure!

Every strand of the will of Heaven can make his strength in this world tenfold and a hundredfold increase! The vitality of the heaven and earth is more intense, and the consumption of itself will be negligible!

"Give you one, you also try refining!"

Fang Yue handed a black stone to Sima Xiao, and Sima Xiao did not refuse to be polite. Direct refining!

With a bang, that stalwart figure burst and spread in his mind!

Behind Sima Xiao, a gluttonous phantom appeared in an instant! A huge mouth can swallow the sky!

Sima Xiao's body trembled slightly, instantly refining this ray of heavenly will!

Sure enough, he felt that within ten meters of his body, all the vitality of the world could be freely assigned by him, and there was no resistance or resistance at all!

Sima Xiao refining, Fang Yue is also continuing to refining!

The nine black stones were quickly refined by the two.

Fang Yue refined five yuan, Sima Xiao refined four yuan!

Because, after all, this thing was obtained by Fang Yue's main effort, and it is normal to take one more piece! "I feel that my soul is stronger than ever before! Divine will, that is, divine will! With one word, heaven and earth follow! Although the will of heaven and earth is too thin. But it still raised my soul to an unprecedented level! I faintly, I have felt the luck of this heaven

turn!

All things come and go, life and death reincarnation, as if they are all in hand! "

Sima smiled and looked at his palm, showing an incredible expression!

Among the oldest legends. The so-called gods are practitioners who have refined many wills of heaven!

They walked for the sky and possessed supreme means, but in essence, it was because of the refining of the will of the heavens that they had such supernatural powers!

"Ghost, represents the first level! If they are convinced, they can get the black stone! Then it represents the second level for you! What benefits will it give me?"

Fang Yue's eyes were bright.

He didn't completely believe in the ghost possessing Huangfuqi's body!

The ghost looked like a ghost and ape, with a face of anger on his face!

"Don't be too greedy! Not every level is past, you can get corresponding rewards!"

The ghost immediately showed a hideous expression, the previous humility, tame, everything was pretended!

"So you want to fish in troubled waters and swallow those treasures? No wonder I am always on you, and I feel a little weird!"

At the corner of Fang Yue's mouth, a cold smile gradually emerged.

In his eyes, strands of murderous intent continued to spread! If it is replaced by other treasures, he might also consider whether it is worth it to turn his face with the ghost. After all, the strong dragon does not crush the ground snake and guards this place for thousands of years. Who knows what kind of back-hands this ghost will arrange!

However, the black stone condensed for the sake of the will of heaven, even if it takes a big risk, it is worth it!

The will of heaven can be met but not sought!

Any strand is cherished and priceless!

Miss it once, maybe it will be difficult to see again in this lifetime!

The ghost looked at Fang Yue, his eyes filled with vultures.

"Young man, I advise you to accept it as soon as you see it, and don't take it too far! This place is definitely not something you can do arbitrarily!" The ghost's complexion was rather unkind, and it was not the first time he encountered this situation. This mass grave has been gloomy since ancient times, and many people have already set foot in it, and those people have also killed the ghost and ape and entered his territory! But no one has passed the barriers he set up

card!

This place is his territory, no one can \*\*\*\* those black stones from his hand!

"I don't have the right to act wantonly here? Hahaha! Do you really think I am as weak as you look?" There was no onlookers from other people. Fang Yue no longer hides his strength.

Wang Kai, Nalan Yunsheng, if you are obedient and give some benefits, they can be included. If they are not obedient and die with one blow, they will definitely not have any ability to resist!

"Thousand ghosts kill the sky!"

The ghost is no longer inked, and a series of gloomy ghosts rise to the sky! The hideous face was chosen by someone to eat. These ghosts were all buried in mass graves, buried in the bones, unable to enter the underworld, and return to reincarnation. Therefore, their resentment was so strong that each one turned into a ghost! Thousands of ghosts, culled Xiang Fang Yue.

### **Chapter 427: Wangui culled**

Fang Yue's expression changed slightly, "Such a heavy resentment, there is a good fit!"

"Is there a goddamn? Haha, what is that! Do you think I'm afraid of the so-called scourge?"

There was a wave of grief and anger in the ghostly laughter.

"Since I was trapped in this ghost place, I cannot reincarnate or detach! Even if I seize a fleshy shell, it is only temporary! It will not take three to five years for the fleshy shell to decay on its own, making me unable to Detached! Become the eternal guardian here!"

The ghost is also very sad, he has his own helplessness!

If he hadn't been supported by the obsession of protecting those treasures, I'm afraid his spirit would have completely collapsed long ago!

If he can choose, he would rather lose his soul than stay in this ghost place for long!

Wangui culled, crazy and stern! Every soul is a strong obsession, they are powerful people who can tear the world alive!

Nalan Yunsheng was so frightened that his face was pale, and his legs were trembling constantly!

Fang Yue was fearless, stepping out in one step, and the whole world was shaking with it! He is the will of Heaven in the initial working body. From the origin of the soul, he is much stronger than Sima Xiao, and he has a deeper understanding of the will of heaven.

Refining God's Will, to a certain extent, he is the master and center of this world, and the pride of heaven!

The moment Wan Gui culled in front of Fang Yue, there were small thunders falling, and each thunder was just the thickness of the chopsticks. But it's just shining!

Trigger the tribulation, this is the preliminary magical power mastered in the operation of heaven! Although not very powerful, it is enough to deal with these grievances!

Every thunder of the thickness of the chopsticks falls, and it can turn a wronged soul into fly ash, and annihilate it in an instant!

Injustice is the most yin and evil, while the thunder is fierce and unforgiving. The two forces are naturally intolerant and restrain each other! Thousands of wronged souls, all turned into ashes, turned into strands of green smoke, and dispersed in the wind!

Sima smiled and was dumbfounded: "It turns out that there is still this kind of operation, why can't I control the robbery? When that happens, whoever dares to offend me, I will hack someone, and see who dares to exile me and bully me! "

Sima laughed and said very sad and angry! In the Sima family, he suffered from exile.

"This is a magical effect of God's will to walk the way for the sky! Don't worry, after surrendering this ghost, I will teach you the corresponding methods!"

Fang Yue spoke to Sima Xiao.

The ghost suddenly stared: "Do you think you can defeat me after you get rid of those wronged souls? Fight against me, you dare to be distracted!"

The ghost shot again, but this time, he was completely replaced by a hideous ghost! The blue-faced fangs, like a devil crawling out of purgatory, the sharp fangs, thorns fiercely down towards Fang Yue's neck!

Whoosh whoosh!

The sound of breaking through the air spread.

The pair of fangs glowed with dark green luster. This is his most powerful assassin. Every fang is far better than a flying sword. It is poisonous. Once the opponent's body is pierced, even the strong in the Yin and Yang realm will turn into a pool of pus!

"A ghost?"

An involuntary smile appeared at the corner of Fang Yue's mouth, and he touched his chin.

It seems that among the many methods, he is least afraid of this kind of underworld method.

"Chain of life and death!"

Fang Yue's palm shook slightly, and a dark golden chain shook out.

The chain, like a poisonous snake, trapped the ghost transformed into a ghost, and the ghost was tied into a zongzi. He wanted to struggle, but he couldn't break free!

All the Yin Qi in his body is blocked, no matter how hard he struggles, he can't tear the chain apart!

Yin Qi is locked, which means that the whole body can not be used. This is a concept that the ordinary Qi refiner's Dan Tian was broken, and his cultivation base was destroyed!

The chain of life and death is the exclusive magic weapon of the ghost chase.

Restraining all the ghosts, in the underworld, I don't know how many powerful people, giants, the heads of the world have exhausted their lives, and they have only studied this kind of magic weapon that specifically restrains the ghosts!

The ghost cannot move.

But his eyes towards Fang Yue were still filled with coldness and murder!

"I'm telling you, if you let me go now, I can still let go of the past. If you dare to move again, I will make you unable to survive or die!"

The ghost gave a sullen expression.

Fang Yue was slightly surprised.

"Can't survive? Can't you die? You are already a prisoner of my rank, and you dare to threaten me?" The ghost sneered: "Do you think this place is really as simple as you think? Ghost ape, just the first Level, and I'm the second level! Ghost ape, can have the strength comparable to the world realm. Do you think I may not have any hole cards and backhands in my hand? It's just that every time I use the hole cards, I need to pay no small price! Therefore, I am always hesitating! Didn't really start with you! "

"In that case, let's do it! I will give you a chance to show your hole cards! After saving your soul, you will complain again. I didn't give you a chance to make a move!"

Fang Yue was quite disdainful of the threat of this ghost!

As a ghost, how could he fear the threat of a little ghost!

"Humble and ignorant human, this is what you forced me!" A sullen look appeared on the ghost's face.

The ghost roared, and his fleshy shell suddenly burst! The red and white colors splashed Fang Yue's entire vision.

"Blode? Would you rather die than give me the black stone that the will of heaven has turned into?"

Fang Yue showed a surprised expression. He didn't expect this ghost to be so resolute.

"No, he is not completely dead! This ghost is not his deity!"

Fang Yue suddenly raised his head, and in the distance, a ghost of tens of meters high rose from the ground. His body, like a mountain, was towering, towering, and unshakable!

A huge palm slowly fell down!

This palm covered the sun and the sky, like a sky collapsed! "Humble man, you have to pay the price for your arrogance! Originally, my deity always sleeps under this land. Every time I wake up, it will consume a hundred years of accumulation of cultivation base! That ray of ghost, but mine It's a clone, I have compromised with you, but you are still so aggressive

! "

The ghost's voice was full of anger.

His heart is bleeding! A hundred years of penance, just like that!

This man must pay a corresponding price for his ignorance!

"Once you are awakened, it will consume a hundred years of hard work? This is really not a small price!"

A sarcasm flashed past Fang Yue's eyes.

"But, do you really think you can dominate my life and death with your clumsy body?"

"Through the sky to call the spirit! Eight-armed silver dragon, wake up!"

Fang Yue called out loudly, his voice resounding throughout the world.

"Roar~"

The figure of the eight-armed silver dragon emerged from Fang Yue's back. It slowly walked out, and its soles fell.

Every step it takes, it makes the earth tremble!

A sharp claw fell and hit the huge palm!

With a bang.

Smoke and dust are everywhere.

The air burst, and even the surrounding space became slightly distorted!

This was the first collision between the eight-armed silver dragon and the ghost, and the two sides were actually evenly matched.

The power of this ghost is far better than that avatar!

In real terms, the clone might not even have one percent of the strength of the deity!

But even so, it still fell into a passive state under the attack of the eight-armed silver dragon.

Eight-armed silver dragon, fierce by nature, fierce and bloodthirsty, every shot is a must!

"Damn human beings, why can you summon such a powerful heroic soul to fight for you!" That ghostly deity roared again and again, and Fang Yue's displayed means and strength far exceeded his previous expectations.

"Hand over your rewards for this level, I can let you make a living, otherwise, you just wait to be swallowed by the eight-armed silver dragon!"

Fang Yue's expression was serious and indifferent.

For the black stone condensed for the will of Heaven, he is already a little unscrupulous. After all, this thing is about whether he and Sima Xiao can leave this doomsday world safely. The black stone of the will of heaven that the two of them refined before, although they already have a trace of will of heaven in their soul origin, they are still far from this world.

distance!

The ghost roared: "You despicable and shameless fellow, don't want to take the reward from my hand! Even if I die, I won't give in!"

There was a feeling that the ghost would rather die than yield.

At the corner of Fang Yue's mouth, there was a faint sneer.

"Really? Quite stout! That being the case! Mo Yuntian, come out and teach this ghost!"

Fang Yue raised his hand again, and Mo Yuntian's figure also appeared from the underworld!

Mo Yuntian, as Fang Yue's long-term hired thug, is always on call every time he is summoned.

Compared with the time when Baili Secret Realm appeared, Mo Yuntian showed stronger strength this time.

"What kind of ghost is this? How do you feel more fierce than me!" The ghost was almost frightened when Mo Yuntian appeared!

Originally thought that in the deep blue planet, his deity's strength was sufficient to deal with all dangers. After all, the heaven and earth realm is usually the peak of cultivation among living beings. The rotation realm is the invincible level in the world!

And the strength of his deity can cover the sky with one hand, if it is not because of the shackles of this chaotic grave. He has broken through the obstacles long ago, and has ruled the dark blue planet!

A silver dragon with eight arms already made him feel trembling inside!

Another Mo Yuntian came, and he felt even more liver trembling!

When it comes to momentum, Moyuntian is stronger than the eight-armed silver dragon! If the two of them join forces, do they have a way to survive?

Although it is already a ghost! But ghosts are also afraid of death!

A trace of regret has sprouted in the ghost's heart! Before, it would rather die than surrender, because it estimated that this human race's trump card was the eight-armed silver dragon!

Who would have thought that this guy could summon one and another!

On weekdays, such a powerful ghost is rare.

Come out with this breath? They will not come in groups!

"Give you another chance! Convinced!"

Fang Yue questioned again.

The ghost opened his mouth and said, "I'd rather die..."

The word unyielding has not been said yet.

A big mouth of Mo Yuntian had already slapped over.

The ghost is drawn from the seven meat and eight elements, and the eyes are full of gold stars. His head was circled.

"Convinced!"

Fang Yue questioned again.

Shameful grievances! "Pop!" With a sound, Mo Yuntian's mouth fell again, and the ghost was completely frozen, and he didn't even have the strength to resist!

### **Chapter 428: Connectivity**

"It's violent!"

Nalan Yunsheng swallowed a mouthful of saliva starzi, the scene in front of him was completely beyond his cognition. He believes that this realm of heaven and earth is already the pinnacle that creatures can reach through cultivation. The rotation realm is like a god!

And what about it?

The strength of this ghost is definitely not comparable to that of the ordinary rotation realm, but in front of the two monsters summoned by Fang Yue, it seems to be as weak as a baby.

"I'm convinced, I'm convinced!"

For fear that Mo Yuntian would come to himself again, Yin Hun quickly asked for mercy.

Shi can be killed, not insulted! !

This Mo Yuntian, if he hits himself twice, then where will he put his face in the future!

"That's right!"

Mo Yuntian patted the ghost on the shoulder fiercely! His strength is so great that the pain makes the soul grin!

"What? It hurts?"

Mo Yuntian squinted at the ghost, and the ghost was immediately frightened. This Mo Yuntian is simply a living bandit. If he dares to say that it hurts, this Mo Yuntian will definitely do it again for himself.

"No, no, no!"

The ghost quickly defended.

Mo Yuntian snorted coldly: "Hmm, you know you! Hurry up, hand over all the messy treasures to me!"

The ghost did not dare to hesitate, waved his palm, and the void was torn apart.

Crash, a pile of black stones rolled out of the void.

Pass the first level.

It is the reward of nine black stones!

And the second light passed through, it was eighty-one black stones!

Fang Yue immediately divided these black stones and Sima Xiao equally, and the two immediately refined them without any hesitation!

Fang Yue refined forty-one black stones.

The power of Providence in the two of them suddenly soared!

Fang Yue felt more clearly about the will of this world. With a body circumference of 100 meters, Fang Yue felt that he was the absolute master!

Moreover, Fang Yue could already vaguely sense the position of the mysterious yellow world! Although it is only an outline, it represents the possibility of going home!

"If there is love in the sky, the sky is also old! If you really want to hold the will of heaven, you need to first eliminate your emotions and six desires, and look at the whole world from an absolutely calm perspective!" Sima laughed, and he also has his own understanding of the will of heaven. And insights.

The same is the study of heaven.

Different people have completely different research directions!

The direction Fang Yue is based on is the angle of the way of space! He used the will of heaven to find the way back to the world of Xuanhuang.

And Sima Xiao's perspective is to walk the way for the sky, how to use the power of the sky to annihilate the enemy and kill people to a greater extent!

This is like a blind person touching the elephant. This heavenly will has infinite benefits, but they can only stand from their own perspective to understand one of the billions of subtleties!

"You're a fat man, don't let yourself be scrapped! If the sky is affectionate, the sky is also old. If you really don't recognize your relatives, I will kill you first!"

That kind of ruthless old monster with only Dao and Dharma in his eyes, Fang Yue found it infiltrating after thinking about it! If a person doesn't even have his own feelings, he still cultivates ass!

Sima smiled and said: "No, I have a sense of measure! Now we have too little will of the heavens! Even the deep blue planet will not have a billion trillion points! This revolution has not yet succeeded, the rule still needs hard work! "

Sima Xiao no longer ponders those crooked ways of the sky if there is love and the sky is also old. Start to feel how to get to the third level! See if you can get more benefits by surrendering the gatekeeper of the third level!

"Little ghost, your chance to contribute your own value is here! Tell us, what's the third level?"

Fang Yue seems to have thick lines, but in fact he is extremely delicate.

This second level is so difficult to break through. If it were not for his unique attainments in the soul, it is estimated that he would fall under the hands of this ghost.

The third level, according to normal logic, should be more difficult!

First inquire about the situation, if you can't do it, just run away!

After refining so much providence, in fact, they have gained quite a lot.

Take it when you see it! If it's really because of greed, it won't be worth it to hang here in the end!

Sima Xiao is also listening carefully. When it comes to wretched development, Sima Xiao is definitely not weaker than Fang Yue.

The ghost looked at Fang Yue bitterly, and said nothing. Thinking of the humiliation just now, he was really angry. He should have been a domineering existence in this deep blue planet! I was actually bullied by two unknown men!

"Don't tell me!" Mo Yuntian hasn't left yet, he is very excited when he sees this ghost and doesn't know what the wind is, and stops talking!

The time has come to show his worth!

Mo Yuntian raised his big hand and drew it toward the ghost!

Yinxun stared with a pair of big eyes, but didn't say a word. This time he was going to stick to the end and would never surrender to the devils!

Happiness!

Mo Yuntian stunned the unlucky ghost. This is the ghost's stubbornness this time! Really very vigorous and energetic, without saying a word!

"Grandma Di, are you looking for death, right? You don't even give you the face of your uncle, I will give you one hundred and eight tortures, believe it or not!"

Mo Yuntian was very displeased with this ghost. This was when he showed himself in front of his employer. This employer, it can be said that he wants his identity and his talents!

If he was happy, and kept talking in the underworld, his life would be much better! Others didn't know that Mo Yuntian often beat Fang Yue, going in and out between the world and the underworld!

Mo Yuntian knew that the ghost soldiers refined by Fang Yue were especially popular in the underworld!

Refining division, in the underworld, has such a high status, if Fang Yue speaks, let people take care of him, the life of Moyuntian in the underworld will be much easier!

Restraint, this ghost is too shameless!

Threats or threats! Just refuse to compromise and yield!

This caused Mo Yuntian to miss a great opportunity for meritorious service! It made him very upset and angry!

Fang Yue glanced at the ghost coldly: "Mo Yuntian, you retreat and let me come! I have just practiced a unique skill, and there is no place to experiment. This ghost can become my experimental product. His pleasure!"

Mo Yuntian stood beside Fang Yue, and he was always ready to prevent this unlucky ghost from rising up to resist, and Fang Yue was disadvantaged!

Fang Yue took out an extremely delicate silver knife and cut it off the ghost!

A palm-sized soul fragment fell into Fang Yue's hands. The ghost bitterly, gritted his teeth.

He stared at Fang Yue, but he didn't have the strength to resist. Whether it was Mo Yuntian or the eight-armed silver dragon, they were all staring at him.

There was a word in Fang Yue's mouth! The soul fragment in his hand was quickly refined into a drop of gray liquid.

This drop of liquid is very unremarkable!

But Mo Yuntian and the Eight-armed Silver Dragon looked at the drop of gray liquid, instinctively gave birth to a feeling of desire!

Three soul fluid!

Each drop is equivalent to the life-long soul essence of a strong person in the first layer of rotation! If refining, it will have infinite benefits for the eight-armed dragon, Mo Yuntian, and other heroic souls!

This thing, at the same time, is in the underworld, hard currency that can't be harder!

"Third Rank Soul Liquid, the soul power on this guy is really strong!"

Fang Yue praised!

At the same time, he couldn't help himself. He had long wanted to refine the soul liquid according to the method recorded in the "Soul Truth" to see if it could be successful!

However, he has been procrastinating all the time because there is no time! This time, he finally remembered this matter and refined a drop of Third Transformation Soul Liquid!

The successful refining of the soul fluid means that he has added another way to make money!

Even in the underworld, he can eat two things very well with his soul fluid and ghost soldiers!

The eight-armed silver dragon and Mo Yuntian are more awed by Fang Yue, and it can be said that they have already fallen into the ground!

The ghost roared, he felt that he had completely lost a part of his body. He was a ghost and had no real flesh and blood. The so-called loss of a part of the body meant that his soul was damaged and could not be recovered!

"Humble person, what do you want? I have given in. Don't do too much!"

The ghost finally spoke, his heart was afraid! Although that Mo Yuntian was fierce, but was slapped twice by him, it was humiliating at best, traumatized, and would never die, let alone leave this kind of eternal and indelible damage!

"Originally, I just wanted to inquire about the situation of this third level, and then I was going to cut off your related memories and let you have a way of life, but since you are so obsessed with understanding, then I am not polite anymore!"

There was a green light in Fang Yue's eyes, and he looked at the ghost as if a hungry wolf had seen a fat lamb! That ghost trembling, this guy is really terrible!

Refining the soul fluid is the method of the top big figure in the underworld in the legend, how can it appear in the hands of a small figure who is not even the realm of heaven and earth.

Fang Yue waved the silver knife in his hand, and cut down another soul fragment on the ghost!

Fang Yue instantly refined the soul fragments, and another drop of the three-revolution soul liquid appeared instantly!

The ghost cried and wailed, his face was sullen, and the painful light circulated endlessly in his eyes!

"I said! I said!" The ghost, Yue, prayed, begging for mercy!

"Say!" Fang Yue looked at the ghost, full of regret, thinking in his heart that this buddy is too spineless. Originally, he wanted to cut some more ghost fragments. As a result, this guy surrendered directly, without any sidelines.

Looking at Fang Yue's regretful expression, the ghost was even more frightened, this guy is simply not human!

Special code, if it is a human, how can it be so cruel!

The ghost confided the situation of the next few layers with the fastest speed. On the third level, a puppet is stationed, and it tests the strength of the physical melee. This melee ability has nothing to do with the realm. Because around the puppet's body, there is a realm that can suppress everyone entering the realm to the same level of cultivation! This puppet,

With tens of thousands of years of martial arts experience, combined with the life-long combat experience of nine martial arts masters, it has no soul, so soul attacks are invalid to it! If you are not strong enough in martial arts, it will be difficult for even a saint to pass the level!

The fourth layer refining a piece of \*\*\*\* world! The reward was placed on the altar in the middle of the \*\*\*\* world.

The demonic energy inside was overwhelming, and the ghost had only been close and far-sighted. With his strength and realm, he didn't even have the courage to get close!

It doesn't understand the next five levels, but they are all testing the strength of the practitioner in all aspects!

The lower the level, the more generous the reward!

The ghost knows everything he knows, knows everything, and talks endlessly, for fear that this fierce Fang Yue will continue to brutally attack him!

"That's good!"

Fang Yue released the ghost according to his promise, and at the same time, he cut off the memory of the opponent and himself.

Fang Yue worried that someone had located the location of those people and wanted to break into this chaotic grave. Therefore, he left ghosts and ghosts behind to stop other people's footsteps!

### **Chapter 429: Test after another**

"Budo test, this is not terrible to me!"

Fang Yue didn't hesitate anymore, pulling Sima's smile towards the inside.

Wang Kai and Nalan Yuntian seemed to see another world. Whether it was Fang Yue or Sima Xiao's methods, they were far beyond their cognition, and there was a strange feeling.

Several people went deep into the tribe.

Sure enough, I encountered an arena!

Above the ring, a golden armored warrior stood among them, dazzling light all over his body.

Fang Yue and Sima smiled and looked at each other. This place should be the third level where the puppet described by their ghosts is stationed!

The golden armor warrior was expressionless and cold.

Fang Yue and Sima Xiao knew that if they could not defeat it and get its approval, they would not be able to enter the fourth level.

The lower the level, the more generous the reward!

Thinking of the black stones that contain the will of heaven. The hearts of the two are getting hotter!

"Close combat, I'll come!"

Fang Yue stepped in and stepped into the ring!

The golden armored warrior immediately recovered!

"Born to fight!"

The deep, deep voice immediately filled the ring! In his hand, the blade fell with a single blow, and the silver light, like a thundering horse, covered the entire world!

The realm of the two of them was indeed suppressed on the ninth step of the innate realm!

However, the combat power displayed by the Golden Armored fighters far exceeds the limit that can be achieved at this level!

"Huh? The Way of Thunder!"

Fang Yue felt the majestic pour of the law of thunder in this simple and sharp knife!

Thunder, to the sun!

Cut it down with one knife, as fast as a thunder! Between the lightning and flint, he has appeared in front of Fang Yue, even if Fang Yue wants to resist, there is no chance!

"Thunderbolt!"

The golden armor warrior displayed the power of thunder, and Fang Yue did not let it out, resisting with the same means!

The thunder is flowing down from the horizon! The vast silvery white light drowned and destroyed that war knife!

Fight Thunder with Thunder!

The golden armored puppet only supported it for a moment, and then stepped back!

Although all the ways of thunder are also displayed, Fang Yue's understanding of the ways of thunder is obviously more profound than that of the Golden Armored Warrior.

The level of the Golden Armored Warrior is at best a preliminary understanding, and Fang Yue has understood the ultimate level of the third layer of the way of thunder!

At each level of law, the level of comprehension is ten times different!

The Golden Armored Warrior's level of comprehension of the Way of Thunder is not even one-thousandth of Fang Yue's!

Nalan Yunsheng watched from the side, the more he looked, the more he felt that he was not a good feeling in his heart.

He had clearly cultivated to this age, but compared with Fang Yue, he seemed to have lived on dogs all these years!

"The Way of Thunder!" Sima's eyes glowed with a smile.

He is still quite interested in Thunder Avenue, although he is not practicing the laws and orthodoxy in this area. But this does not hinder him, Sima laughs a lot to understand, and will not be caught off guard when he fights the way of Thunder in the future!

"Take a knife from the golden armor puppet Thunder and get three heavenly stones!"

A cold, merciless voice exploded in the void.

Three black stones rolled down from the void!

Fang Yue waved his hand and put away three stones!

Immediately after that, the cold voice sounded again: "You can choose to leave the trial place or continue to be tested."

"Continue to be tested!"

Fang Yue was obviously a little surprised at the appearance of this cold voice.

But the three heavenly stones are obviously far from satisfying his requirements.

The golden puppet moves again!

In his hand, the saber brandished. This time the saber is no longer a simple brutal attack from the Way of Thunder, and there is a hint of lightness and elegance in it.

"Storm and rain!"

The golden armored puppet roared, his sword light fell again.

The knife shines like rain, endless.

Fang Yue was in it, as if he had come to a rainy night. The entire sky was black and heavy, dark clouds were low and lightning thundered.

Every drop of raindrops is a gathering of sharp sword energy!

The rainstorm was splattering and the sky was everywhere, there was nowhere to hide at all!

In the light of the sword that contains the artistic conception of thunder, the avenue of water is mixed again!

Two different principles are perfectly blended together!

Two different artistic concepts are intertwined. Although they are at an entry level, when it comes to strength, they are ten times stronger than a simple rule!

"The Tao is fused! So perfect!"

Fang Yue watched for a moment with pure appreciation. Then there was a wave of the palm of the hand, a dazzling star, dispelling the dark clouds, falling down, steaming away all the water droplets.

In the face of absolute strength, any technique is so pale and weak!

Although the two principles in this knife light merge to perfection, after all, their level is too low and too superficial.

Throw the clouds and see the sun.

Fang Yue broke the second move of the golden armor puppet.

The cold voice sounded again: "Cracking the second type of the golden armor puppet, violent storms. Get the reward of nine heavenly stones!"

Nine black stones rolled down again!

Fang Yue bent over and built it!

At this level, rewards are divided into gradients and grades!

The stronger the strength, the greater the harvest!

And even if the strength is insufficient, as long as you can see it well, you can get a lot of benefits!

"You can choose to leave the place of trial or continue to be tested."

The cold voice came again.

Fang Yue chose to continue the test without hesitation!

Although the strength of this golden armor puppet is getting stronger and stronger, Fang Yue still has many hole cards that have not been exposed!

The Golden Armored Warrior shot for the third time, and his aura suddenly rose, reaching the first level of the heaven and earth realm!

The strength of the ninth layer of innateness can no longer cause any damage to opponent Yue!

This time, he gave up the saber in his hand, squatted, slowed his elbows, and punched!

Between heaven and earth, all the light is dim!

All the energy is converging towards his fist!

The rays of light were drawn from the void!

In a blink of an eye, the fists of the golden armored warrior are already like a small sun, bright and dazzling!

"Too...yang...fist!"

The tone of the golden armor warrior is no longer so dull and cold, and gradually there is a trace of emotion in it!

Fist roll out.

The light is dazzling!

The whole world was completely melted under the sun fist!

After a long time, the light dissipated.

Fang Yue stood in front of the golden armor warrior.

"Is this your third trick? It doesn't seem to be great! It really disappointed me a bit!"

Fang Yue originally thought this golden armored puppet's third move would be so powerful and overbearing!

The fist fell, but you!

Although the law of light of the first level has been integrated! But the power from the attack was too scattered. Can't concentrate a bit!

When Sima laughed, he gave Fang Yue a vicious look. "This test is set for normal people! Normal qi refiners are physically weak and have strong attacks! This sun fist, even if the strength is slightly scattered. However, ordinary qi refiners encounter Will be melted instantly and become dust! Who can guess, there will be a pervert like you

, Obviously there is only the cultivation level of the innate realm, but the physical body is firm but surpasses the most peak magic weapon of the ordinary world realm! "

Sima Xiao was almost speechless.

Where is this to break through!

Obviously it is the welfare bureau that gave Fang Yue Lingshi!

In nominal terms, Fang Yue may be considered a congenital cultivation technique, but his true level of strength requires careful handling of even the strong in the rotation realm!

Then, the cold voice appeared as expected.

This time, eighteen black stones rolled down!

Fang Yue put it away, the more he hits, the more energetic he gets! He likes such a test!

Immediately after the fourth move, the fifth move, one after another.

Fang Yue was able to deal with it freely, and at the same time, his accumulation of Heavenly Dao Stones also increased, after he had survived the fifth move.

Only in the third level, the number of Heavenly Stones he had accumulated was as many as 108!

When Fang Yue was arrogant and ready to let this golden armor warrior perform the sixth move.

The golden armor warrior, suddenly, the momentum is elevated! The cultivation realm has been upgraded to the sixth level of the world realm!

This is already a full six levels higher than Fang Yue!

Without a word, a big hand fell towards Fang Yue!

"Five Finger Mountain!"

The name of this trick comes from the mouth of the golden armor warrior.

Fang Yue was really taken aback.

The five fingers contain the power of the five elements of gold, wood, water, fire and earth! Five rules, mutual growth and mutual restraint!

And every kind of Taoism has reached the peak level of the second layer.

With the palm of your hand falling, there is nowhere to escape, nowhere to stop!

"Fuck, this won't be the same trick that the Tathagata used to deal with Monkey King back then!"

Fang Yue looked more and more like it, but the Wuzhishan displayed by the Tathagata Buddha in Journey to the West was much more powerful than the moves of this golden puppet!

The five fingers fell, and the sky fell apart.

Fang Yue was smashed under the Wuzhi Mountain and had nowhere to escape.

Fang Yue struggled hard, but the five-finger mountain was extremely strong. No matter how hard Fang Fangyue tried and struggled, the five-finger mountain would never be broken!

"It's over, Fang Yue is playing with fire! The birth and death of the Five Elements is already the predecessor of the Five Elements Heaven! His rhythm is about to be shaken to death! Hurry up and prepare his funeral!"

Sima Xiao finally exposed his nature to hurt friends, licking sunflower seeds and watching jokes next to him.

Fang Yue was suppressed for a while at the foot of Wuzhi Mountain.

A physical body is condensed!

The physical body is infinite strength! With one hand, the Faxiang pulled up the huge and heavy Wuzhi Mountain for life, and then took it out of the distance!

Ten times in one effort!

This is the oldest fighting technique, without any technical content, but it has been tried and tested in this battle!

"Pass the sixth pass, reward three hundred and sixty stones of heaven!"

The cold voice came again.

The Faxiang behind Fang Yue slowly retracted!

"Please choose, continue the test, exit the trial or enter the next level!"

This time the cold voice gave Fang Yue one more choice!

"Exit? Or go to the next level?"

Fang Yue was taken aback for a moment. Originally, he had already adapted to the two options!

Now, there is one more to enter the next level. Let Fang Yue realize that he has reached the minimum strength required by the third stage!

However, he still has the right to continue through the barriers!

"I choose... continue!"

Fang Yue's purpose is to obtain more Heavenly Dao Stones, so as to refine more Heavenly Will and integrate them into his soul.

Entering the fourth level, facing unknown dangers, you can get the stone of heaven, and you can get more stones of heaven by continuing the ring battle of the third level!

Since there are familiar ones, why choose to face unknown dangers! Fang Yue's voice fell. The body of the golden puppet suddenly lifted up!

**Chapter 430: King of Foundation**

Originally, the golden armored puppet was only seven feet tall and the height of a normal adult man seemed to be different, but this time it was raised, making his body suddenly ten feet!

A pair of cold eyes looked at Fang Yue, and there was a faint emotional wave in them!

The Golden Armored Puppet made another move, but this time he made a move, no longer one move, but a close fight with Fang Yue, not a big move. It is the most delicate basic boxing technique.

His fist technique is delicate, like a long stream of water, although every move and every style is extremely simple, but it is continuous, just like a storm!

Fang Yue's only feeling in it is fast!

The simplest move does not require too much infuriating energy, one move and one move can be easily done!

Changquan, short cannon, five elements gossip!

Many boxing routines are mixed together! Fang Yue had no room to dodge at all, and he could only recruit hard resistance! And this golden armored puppet with enlarged body is extremely powerful, and every fist and foot dance can break the world!

Fang Yue passively counterattacked, and felt strenuous for the first time. The life in his body was surging, and his body was firm, beyond common sense. Under the superposition of this punch and kick, he also felt a heavy depression!

Avenue to Jane!

This simplest move contains the most difficult attack and kill technique!

In Fang Yue's heart, Ming Wu rose, but he did not compromise. This method of attack, although it can be called a good one!

It's just good!

Fang Yue casually shot out a spell.

Layers of heavy earth shields rise from the ground! The rock is strong and there is no gap!

Boom boom boom!

Fists and feet were mismatched, lingering continuously, and fell on the top of the rock wall!

The cracks are staggered.

It was like a broken cup, full of scars.

"Five Finger Mountain!"

Fang Yue also displayed the exact same moves as the golden armor puppet just now.

The power of the five elements flows out! Although they transform and collide with each other, they are not as smooth as golden puppets. But in that stagnation, the meaning of the Five Elements Heaven's Path contained in it is even stronger.

Golden Armored Warrior, the Five Finger Mountain that was just displayed, each Five Elements Avenue is the second level!

Fang Yue's power of the five elements, every avenue has reached the peak level of the third layer!

The gap between the two is now to be judged!

A five-element mountain was suppressed, and with a bang, it suppressed the golden puppet underneath. All the moves were broken, unable to move!

Turn the complex into simple, keep attacking and killing with basic moves, the speed is very fast, and the defense is impossible!

But such a method is not without flaws, that is, the power of basic moves is too small, and it can be easily blocked with a little method!

As long as you block for a moment, Fang Yue's ultimate move is brewing, and one move can determine the outcome!

"Defeat the golden puppet, the basic master, get a reward, a thousand heavenly stones! Get the inheritance, the king of foundation!"

Fang Yue was a little surprised. After he passed the sixth level, he continued to break through. Not only did the rewards increase sharply, but there were even other things besides the Stone of Heaven?

The king of foundation? What it is.

When Fang Yue was still curious. A beam of golden light fell from the air and fell into Fang Yue's eyebrows!

Fang Yue hadn't reacted yet, it was just a feeling, a faint warm current flowing through his strange meridians, eight meridians, and hundreds of limbs! He seems to be born with any basic moves, and he is easy to come by, and he no longer has the slightest sense of stagnation!

"inherited?"

Fang Yue muttered silently. His heart gradually became calm!

This mass grave is probably more complicated than he thought!

It is not a simple test, there is also a certain power or a certain big sect's heritage!

"Mine seems to be remembering! The location of this mass grave is very similar to the old inheritance location on the Deep Blue Planet before several civilizations! The Deep Blue Planet has also flourished, and there has been a civilization of practitioners! "

When Nalan Yunsheng heard Fang Yue's muttering to himself, he seemed to remember something suddenly, his face was frowned, and the whole person looked a little desperate! "There was a civilization

of cultivators in this deep blue planet?" Fang Yue asked, feeling curious, this planet, the aura is exhausted, even the innate is difficult to reach! The appearance of individual practitioners is no exception! After all, in every era, there will be individuals who are amazing, breaking the rules of heaven and earth.

Bound, break through to an incredible realm.

But if a civilized system is formed, it will definitely not be possible for an individual with amazing talents. That requires a large number of practitioners to appear, showing an explosion like a blowout! Not only must there be a congenital realm, at least there must be an innate realm, and the strong in the rotation realm must emerge in endlessly! Nalan Yunsheng sighed and said: "This involves a very old Xinmi. My Nalan family has always had a strong man in the cycle of rotation! He sealed himself in an ancient coffin, always sleeping. , Occasionally awake. No one knows how old he is now, but it is only clear that the ancestor of the Nalan family is not a figure in this civilized era! To be precise, he is the person who survived that era! After waking up I will cherish the memory of the glorious years of the Deep Blue Planet! In this planet, there have been countless powerful people who have a strong aura, and they are everywhere.

grass! Not only do the strong in the rotation realm repeatedly appear, even the existence of the Yin-Yang realm and the thorough realm is not rare! Even in that era, some people became sacred against the sky, and they could cultivate to the level of the Heaven-passing Realm and conquer other planets! "

When talking about the Simmi of the Nalan family, Nalan Yunsheng did not evade too much. After all, the two people in front of him are unfathomable. They really want to know something. With the current strength of the Nalan family, they can't hide at all. .

It's better to speak up, maybe you can win their favor!

Fang Yue was very interested in Nalan Yunsheng's words.

In the ring, the icy voice resounded again.

Choose to continue, exit, continue, or enter the next level!

Fang Yue did not answer for the time being.

He was listening to the so-called Xin Mi from Nalan Yunsheng's mouth.

"How could the cultivator of the cultivator of that year suddenly fall into such a prosperous civilization? And it was still so clean and thorough, and caused the aura of this planet to dry up?"

Fang Yue asked.

Nalan Yunsheng shook his head: "I don't know the specific situation! But my ancestors mentioned some scattered words, which may inspire you! The gods...fallen...the gods...the will of heaven ...Compete...extinct!"

These few words are puzzling.

With Fang Yue's limited understanding of this planet, it is difficult to connect them together and find the answer he wants. Nalan Yunsheng did not evade, and then said: "My Nalan family has been searching

for answers to the past for a lifetime! Some vague records in ancient books combined with our inferences have come up with one that may be correct, but terrifying. The answer! In the past period of time, there may have been

exist! In their bodies, there is a supreme godhead, which represents the cohesion of the will of heaven! These gods are naturally raised, and they have infinite power without practicing! They are above the common people, and they are granted by the gods and are the undisputed masters in the deep blue planet. However, as the civilization of the practitioners became more and more prosperous, a number of saints continued to appear. These saints gradually had a sense of resistance. In terms of pure strength, they can also compete with weaker gods! As a result, these saints were unwilling to accept others, and even made some crazy actions like killing gods! In the end, the bigger the two sides, the more lively, and almost shattered the will of the deep blue planet! Those fragments of God's will have become the stone of heaven before your eyes! This thing, from a certain perspective, is an incomplete Godhead! God's will is broken, the gods and the practitioners

Both lose and lose even the entire deep blue planet has become exhausted, and then the three-eyed civilization was born, biotechnology civilization and now mechanical civilization! "

Nalan Yunsheng expressed their past bit by bit, and worked hard to piece it together.

Fang Yue felt that this statement was still quite credible!

"Back then, Deep Blue Planet had such a calamity! No wonder there will be the stone of heaven handed down!"

Fang Yue nodded slightly, feeling clear in his heart, he took out a small delicate porcelain bottle and handed it out.

"This is the Baicao Pulp I refined. In this small bottle, there are 36 drops! Every drop of Baicao Liquid can extend your one month's life! Thirty-six drops is a three-year life! Although there are not many, it is better than nothing!"

Fang Yue understood that this Nalan Yunsheng came for life extension.

That's why he gave Baicao Pulp. Fang Yue has a lot of these things in his hands, one pool, one pool, and countless numbers.

However, he understood that things are faintly precious, and the elixir of life extension is rare even in the world of Xuanhuang, let alone in the dark blue planet where the practitioners have fallen.

Thirty-six drops of Baicao Liquid are definitely rare objects.

Can make this Nalan Yunsheng, quite beneficial.

Sure enough, Nalan Yunsheng was grateful to Dade, what he said was only a speculation of the Nalan family, which may not be true, but he actually got a life-saving elixir!

Adding a three-year lifespan can add endless variables to his life! "Also, this so-called place of inheritance is the sect that was destroyed in the battle of the gods because of the theft of the providence. The inheritance may be tempting, but the cause and effect of that sect will follow. The inheritance falls on you! The more inheritance you receive, the greater the cause and effect! Such

inheritors are not rare among the deep blue planets, but in the end there are few good deaths! Some people walk on the street, inexplicably Encountered a thunderbolt from the blue sky, they were struck by a silver ray and turned into ashes in a flash! Others encountered ominousness, especially at a certain stage in their lives!

Kind of enemies, have appeared on the stage, attacked in groups, and finally fell! "

Nalan Yunsheng opened his heart.

Fang Yue was secretly shocked, really what great benefits, in exchange for what benefits!

If he didn't send the bottle of Baicao Liquid to Nalan Yunsheng, Fang Yue was sure that Nalan Yunsheng would never tell the rest of the story together!

This is human nature, it has nothing to do with good and evil!

Fang Yueyou took out an exquisite small porcelain bottle, which was still the essence of 36 drops of herbal liquid!

"Thank you for your reminder!" Fang Yue said sincerely and seriously!

Nalan Yunsheng got another bottle of Baicao Liquid, and his heart was extremely excited!

This small bottle of elixir represents three years of life!

The ability to extend the life span of six years is a pleasant surprise for him, who has only three or two years of life to live, which is already short of life! "However, even if there is so-called calamity, cause and effect, will I still be afraid?"
