

## God of Life 461

### Chapter 461: cause and effect

"Has Nalan Yunsheng come back?" Fang Yue asked Nalan Yunsheng when he opened his mouth, because Fang Yue felt that this old man was quite mysterious, and what he knew seemed to have far exceeded the limit of what he should know. ! Liu Han nodded, "Three days ago, he had already returned to the Nalan family! His cultivation has broken through to the realm of heaven and earth, which made the Nalan family's strength soar! Now it has become the No.037 city. One of the eight great families! One of the ancestors of my Liu family

Waking up from a deep sleep, he also became one of the eight new families in City 037! "

Liu Han spoke with a proud look on his face! Because it was ranked in the number 037 city, I don't know how many generations of their Nalan family dreamed!

Now, the dream accumulated over the years has finally come true in his generation. It is fake to say that he is not excited!

"Well, did Nalan Yunsheng not say anything after he came back?"

Fang Yue is not interested in the prosperity of the Liu family. In this vast and troubled world, the eight or seven families may face the danger of destruction at any time.

If there is not enough strength, any false name may become the source of disaster.

On the contrary, the news of Nalan Yunsheng was related to his next plan, which was more critical. "Oh, I remembered that after Nalan Yunsheng came back, it seemed that he had contacted an elder of my Nalan family, saying that as long as there is news about the two of you, you must notify the Nalan family as soon as possible! , He also announced the death of other people, all of them died in the ruins

Among them, no one survived! "

"Okay, then you can tell Nalan Yunsheng the news that Sima Xiao and I have survived! If you have time, let him come to Liu's house. Here is what he wants, and there is more of his chance!"

As soon as Fang Yue said this, Liu Han immediately returned to the family to make arrangements and deployment.

Fang Yue and Sima Xiao returned to their rooms. They almost ignored the various developments of the Liu family. Everyone had their own cause and effect. The rise and fall of the Liu family depended on their own destiny. Both of them are unwilling to contaminate too much cause and effect.

Because the greater the cause and effect, the deeper the punishment.

At the beginning of the practice, nothing appeared.

The more you reach the realm of the heaven and earth, the more you can understand the terrible power of this cause and effect!

Fang Yue checked the situation of the recent doomsday development in Liu's house.

The evolution of the doomsday is not as bad as he imagined, most of the zombies are still at the second-order level! Occasionally, Tier 3 or Tier 4 zombies appear, and they are all kings among zombies, and there will be special forces that will carry out targeted attacks.

It can even be said that this entire deep blue planet has basically stabilized.

Human beings are a group with very strong adaptability. As long as they are given a certain amount of time, no matter how harsh the environment, they can adapt and even control it.

Although the human zombies had a large amount of territory in this apocalyptic catastrophe, in the end they established a large and small gathering place, and began to brew a counterattack!

However, in this information, Fang Yue found a greater threat.

Some animals and plants have also begun to mutate over time. Although this is just the beginning, the chance of mutation is not great! But as long as these animals and plants are mutated and they all return to their ancestors, their strength will become very strong from the beginning.

A piece of news report described that a docile sheep had mutated, and this sheep had actually begun to return to its ancestors, becoming a little demon standing up.

It is very different from the previous appearance. The only thing that remains is the pair of horns that symbolize identity. If it weren't for the whole process of its mutation captured by video surveillance, even ordinary people would not be able to judge that it was mutated by a docile sheep. Raw.

This little demon is covered with black scale armor, and the surface of the scale armor is shining with a metallic luster. This layer of scale armor is invulnerable!

Even the bullets of a small-caliber pistol can't break through its solid scale defense.

In the end, someone still used a shoulder-mounted bazooka to blast through the scaly defenses on the little demon's body, and completely died.

But after the little devil, few similar news were exposed. "According to the information I searched from the minds of the disciples of Taiyi Sword Sect! Luo Tianzong's method was very decisive! What they want is the life crystal nucleus in these corpses, so eventually the zombie virus will mutate and infect animals and The plant has created a

The world of zombies!

This is just the beginning of the disaster! The sooner the task assigned by the God Demon Sect is completed, the better, and if the delay is too long, even more terrifying creatures will appear. It will be even more troublesome when it is difficult to move an inch! "

Fang Yue said to himself, the urgency in his heart became stronger!

It is estimated that it will not take too long for the second wave of trialists in the dark trial of the mysterious yellow world to come!

At that time, the world will be plunged into greater chaos, and the strong in the innate realm will not be able to make too many waves, but when the practitioners of the world realm appear, they can contend with ordinary light weapons, which will cause the entire deep blue. The vigilance of the world!

Fang Yue's thoughts turned a thousand times.

at this time.

Nalan Yunsheng really came back.

At this time, Nalan Yunsheng has lived up to the appearance of his old age, his skin is firm, showing a healthy bronze color! Long Xianghu step, strong temperament, is definitely a man of prime.

Step into the realm of heaven and earth, condense the inner pill, swallow the essence of the sun and the moon, and mobilize the essence of heaven and earth! Longevity is extended, at least two to three hundred years. This allowed Nalan to rise, and could add hundreds of years of blessing to the Nalan family!

"Congratulations to Mr. Nalan for entering the realm of heaven and earth!"

Fang Yue gave his hand slightly, and was still quite polite to Nalan Yunsheng!

Among other things, this Nalan Yunsheng is knowledgeable and worthy of respect!

Nalan Yunsheng smiled and said, "Tongxi, Tongxi! I am afraid that the two of them have gained a lot from the ruins!"

Nalan Yunsheng smiled sincerely. Because he has seen Fang Yue and Sima Xiao's means and strength.

Although it is only a flash in the pan, the tip of the iceberg. But the means displayed are absolutely gods and demons, so he can't give birth to any thoughts of resistance!

Fang Yue and Nalan Yunsheng were very restrained, each touting each other, and soon they entered the subject. "Our Nalan family's recent days are very difficult! Although there is one more powerful person in the world, but it is hard to return, the younger disciples are too poor! I don't know if Master Fang Yue has spiritual stones, medicines and other resources, so that the younger generation of my Nalan family can quickly improve their strength!

The code can survive this stubbornness, and it won't fail to pick up! "

Nalan Yunsheng spoke frankly! He himself is also Men Erqing, he and Fang Yue, Sima Xiao, although there have been intersections, but they do not have a deep friendship! Therefore, the exchange of benefits does not hurt feelings, but easily brings greater benefits to the Nalan family. "Mr. Nalan's suggestion to the two of them in the ruins is something I will never forget! There are three thousand spiritual stones that can be used for the disciples of the noble family to improve their cultivation! There are also 36 pills that can be given to the noble family masters. To improve your strength, if you take it at the peak of the day after tomorrow, there is a 90% chance that you can break into the innate realm

, And the innate masters take it, there is a 50% chance to break the bottleneck and improve the strength of a small realm! "

Fang Yue is generous.

These spirit stones, pill, are nothing to him!

But in the deep blue planet, it can be an opportunity to change the fate of a family.

When Nalan Yunsheng heard the words, his eyes opened wide, and suddenly, he could hear the sound of his heart pounding, pounding, and beating in his chest!

Lingshi, pill.

These things are in short supply in the Nalan family!

In the Deep Blue Planet, these things are all priceless, and every time they appear, they have been looted by other forces before the Nalan family can make a move!

With these resources, the strength of the Nalan family can definitely be improved, and even the ranking of the Nalan family in the entire city of No. 037 is even higher. There is no problem!

Fang Yue looked at Nalan Yunsheng, his sincerity was already in place, and then it was time to watch the other party's performance!

"Mr. Nalan is knowledgeable and talented. I don't know if I have heard of this crystal skull thing?"

Fang Yue's eyes were burning, very eager!

Nalan Yunsheng frowned immediately, seeming to think of some life-and-death events.

"Master Fang Yue, I don't know where you heard about this crystal skull?"

Nalan Yunsheng looked nervous.

Fang Yue's heart was not surprised but rather happy!

There is a play!

In Fang Yue's heart, secretly said.

"According to hearsay, occasionally a little interest arises!"

Nalan Yunsheng hesitated.

"Actually, this crystal skull has many legends! But among them, I think the most reliable one is that this crystal skull actually came from the third civilization era in this deep blue planet that has been annihilated in the dust of history!

This era of civilization is very different from the era of technology today, as well as the era of the mysterious legendary practitioner! In that era, people used spiritual cultivation methods! In that era, everyone was full of energy and had three eyes! Their physical bodies are relatively weak, but they can be powerful men with abnormal mental power! With a little practice, you can summon wind and rain and control thunder and lightning! When they go out, they don't walk on their legs, but walk in the wind, or simply

Tengyun frame fog! In that era, many creatures agreed that the body is just a raft, and the soul is the truth!

What they are more good at is the soul crossing the catastrophe, transforming from the ghost into the pure Yang thought!

Among the deep blue planets, there are not many relics of the Third Civilization Era, and the Crystal Skull is one of them. It is said that this crystal skull contains the top heritage of that civilization era! And this crystal skull itself is an invincible soldier!

In addition, there is the Starwish Stone, Eternal Thought, which has also been discovered. The Star Wish Stone is a special kind of stone condensed by the infinite aspiration force using the light of the stars as the carrier to turn the emptiness into reality! If you make a sincere wish for the stone, it will consume the infinite aspiration power and fulfill the wish of the wisher!

The obsession with eternal life is the creatures of that era, and the thoughts left over are sealed in dust. Which also possesses unpredictable power! "

Fang Yue's head was right.

The civilization of the third era of the deep blue planet said in the mouth of Nalan Yunsheng that it was mysterious and unpredictable.

However, he observed with his own insights that this era should be a purely technical civilization!

The road to practice cultivation is also circulated in the Xuanhuang world, but it is classified as a side door, and there are not many practitioners, so the Taoism is incomplete and imperfect! The era of the third civilization of this deep blue planet, I am afraid that it has evolved the art to the extreme level.

#### **Chapter 462: Clue of the Crystal Skull**

Shuxiu represents another ancient and mysterious inheritance!

If you have a top-notch inheritance, your ultimate achievement is definitely not weaker than that of a gas refiner.

However, in the Xuanhuang world, Qi refining has only become the mainstream! The inheritance of physical cultivation and technical cultivation is pitiful, and the level is uneven, so it finally fell into the ranks of the side door!

"Do you have more faith in this information about the Third Civilization! Don't worry, I won't take your information for nothing, I will exchange it for the corresponding value of medicine and spirit stone!"

Fang Yue is fair, he never bullies others. "What you said just now can't be searched on the Internet at all! Obviously it is your privacy, I converted it into five hundred spirit stones to exchange it for you! There is also a Tianxin Pill here, and I will give it to you! Tianxin Pill is for heaven and earth. Living creatures in the realm have great benefits! They can nourish the inner alchemy and make your foundation stronger

Solid, can offset three years of penance! "

Fang Yue's generous move made Nalan Yunsheng's doubts cleared! "In fact, Lord Fang Yue, there is no need to be so polite. These materials are not valuable. I am ridiculously young, and I don't want to bury my head in painstaking practice. My qualifications are actually as early as decades ago

It should have broken through to the realm of heaven and earth!

These rumors are all by-products of my research on the sidelines! "

Nalan Yunsheng smiled bitterly, recalling his self-righteousness back then, Nalan Yunsheng couldn't bear to look back! "Here is a piece of information, I will pass it to you! The above information about the Third Civilization has everything you need. If Master Fang Yue is really interested, you might as well ask the military! All these materials are blocked by the military, so I don't want to Make it into the civilian population, the information in my hands and the military

In comparison, it's just a fur!

Some people in the military have even begun to rebuild the art of the third civilization! "

Nalan Yunsheng reciprocated, and gave Fang Yue all the information of several Gs.

There are pictures, text, and even related images.

Fang Yue watched it for a while, then nodded again and again.

The content is quite rich, which can provide him with very specific clues to find the crystal skull. "Crystal Skull, according to the information on the Internet, should be treasured in city 002. Among the deep blue planets, according to the degree of development, the largest 137 cities have been named from 1 to 137. City 037 is only considered to be The upper level is medium strength, it is already unfathomable!

For a while, I once saw a Tier 6 zombie being bombarded and killed, and a silver-white mecha flashed away!

As for the cities that rank higher, the water depth is unpredictable! Especially in the top 30 cities, an insurmountable gap will be opened every 10th! When I was a teenager, I used to go to City No. 029. The innateness is very common. In almost a city, two or three tenths of it can reach this level! Even the strong in the world is not scarce in that city, a small clan of hundreds of people, the patriarch must

Let the powerhouse of heaven and earth be taken care of! "

Nalan Yunsheng kindly reminded!

Fang Yue accepted Nalan Yunsheng's reminder, and then Nalan Yunsheng talked freely for a long time.

Fang Yue needs to verify the news of this crystal skull through various channels!

Making decisions and then acting has always been Fang Yue's criteria for life!

Haven't waited for Fang Yue to come to the military to come.

In the military, a fellow with the rank of captain has come to the door!

This military captain has a pair of eyebrows, tall in figure, and his skin is like bronze! He put on a tall and straight military uniform, just like a big copper pillar!

Behind him there are eight guards on the body, and every guard is at the level of innate realm!

"I don't know if Captain Gu Yun is no longer planning to contribute to the city in the army, how can he clean up all the nasty zombies, but what is the cost of coming to my Liu's house?"

Although Captain Gu Yun is a high-ranking officer in the military, he is also a master at the heaven and earth level.

But Liu Han stood opposite him and drank fragrant tea while standing with Da Ma Jindao, but he didn't mean the slightest respect or fear!

In the 037 city, the situation of the human race is not clear!

The black market, the military, are evenly matched, facing away!

The appearance of zombies is a disaster for ordinary citizens.

But in the black market, the military is a rare opportunity for an organization with enormous strength!

Zombies cannot pose too many threats to them.

Instead, the land and resources occupied by zombies have become unowned, let them redistribute and rob!

In some areas, the black market and the military have exchanged fire several times over and under.

The strength of both sides is equal! All, in this No. 037 city, these families that were not very eye-catching before have become the last feathers that overwhelm the camel-whoever gets more family support may have the temporary upper hand!

Because of this, Liu Han dared to face the military and was not afraid.

"Despicable! Dare to be so rude to me?"

Gu Yun didn't seem to be ready to please and win him over. As soon as he took his seat, he put Liu Han in the position of Diao Min!

"Oh, Diaomin? What a heavy bureaucracy! In this deep blue planet, federal democracy is a national policy! Everyone is equal, and the government and the people are in the same position! You said I am a gangster. Could it be that you want to restore the monarchy and overthrow it? Federation, be the emperor!"

Liu Han is not a good crop either.

With a silly sentence, he was able to slam a bucket of \*\*\*\* on Gu Yun's head. Gu Yun sneered: "Say you are a spoiler, you are a spoiler! There are so many sayings! Last night, the Federation announced that the zombie scourge has spread to all parts of the Deep Blue Planet! To ensure the safety of the Federation, the whole Deep Blue The planet is temporarily under military control! All materials, personnel,

All are temporarily dispatched by the Federal Army! "

Gu Yun said this.

Liu Han immediately changed color!

He did not expect such a big change in this federation!

For many forces, military control is a nightmare existence!

The countless resources, people, horses, and treasures accumulated by their ancestors for generations will all be wiped out overnight.

On the Deep Blue Planet, who doesn't know that this Federation Army's wolf ambition is a group of insatiable tiger and wolf generations! Something fell into their mouths, it was meat buns hitting dogs, and it was gone forever!

"I asked the Liu family's background that everyone is loyal and patriotic. Now is the time for the Liu family to carry forward its style! Liu Han family, please also hand in the list of Liu's personnel, which will be uniformly dispatched by our military. Donate all the assets of the family for free!"

Gu Yun sounded gloomy, and the expression on his face was indescribably proud!

The Liu family is a fat sheep, and it took him a lot of effort to win his hands! If you don't do a good search, how can you be worthy of the hard work he put in.

Liu Han seemed to be limp to the ground as if his whole body was drained!

No matter how bold he was, he dared not openly defy the military's orders.

In their eyes, the military is heaven!

No one dared to violate the order issued by the entire federal military!

"What to do! What to do!"

Liu Han was anxious like an ant on a hot pot.

But Gu Yun still added fuel to the fire unhurriedly. "I heard that your Liu family has developed very fast recently! Two guys of unknown origin have come to provide you Liu family with a lot of spiritual stones and medicines, and our military has just lost a batch of training materials recently. , I suspect it was stolen by these two people! Both of them have problems with their identities.

People hand it over! "

The smile on Gu Yun's face was even stronger.

What is the Liu family?

The cultivation resources of those two people are what he really greets.

Liu Han's face changed suddenly, turning pale.

Fang Yue and Sima Xiao must not be taken away!

As long as they are there, the Liu family still has a chance to turn over, and if they leave.

The Liu family will never make it out!

"Gu Yun, you can't..."

Liu Han wanted to stop Gu Yun from thinking.

With a snap, one of Gu Yun's slaps fell on Liu Han's face.

"Liu Han, what kind of thing are you! Do you dare to stop my decision?"

Arrogant, domineering, strong!

As a representative of the military, Gu Yun has enough confidence.

At this time, Fang Yue and Sima Xiao walked out of Liu's house side by side. After such a big change occurred in Liu's house, how could they not know with their cultivation bases!

"Yeah, this military is so handsome! A disagreement is a slap in the face! It is really scary to make us brothers!"

Sima laughed in a cheap tone.

Fang Yue showed a look of disgust.

Wherever you really go, there will be such bullying things!

A disagreement is a slap in the face! Such a guy really doesn't know how he lived until now.

Gu Yun saw Fang Yue and Sima smile.

Immediately sneered: "You two have stolen a lot of training resources in our army, Fang Yue and Sima Xiao? You two knelt down quickly and grabbed your hands?"

Gu Yun would not give Fang Yue and Sima Xiao a chance to refute.

A big hat is just snapped off.

His slander and planting methods are very skillful, and it is estimated that in ordinary times, he has not done such wicked bubbling things!

When Gu Yun said that, Fang Yue gave him a big roll of eyes.

"Stealing the training resources in your army? Yes, do you think that the junk stuff in your army can enter the eyes of the two of us?" Fang Yue's tone was full of disdain for what Gu Yun said. !

Gu Yun suddenly became speechless. He thought that with the great reputation of the Federal Army, the two men could be easily fooled. He didn't expect that they would not only disdain the Federal Army, but also be full of contempt!

"Shoot me! Shoot them two! I don't believe them. They have three heads and six arms, and they have three heads and six arms, and they can be invulnerable! As long as they dare to resist, they are defying

military orders and will be hunted and killed endlessly in the dark blue planet. Become a character on the military's wanted list!"

Gu Yun was frustrated and angry. He had never been treated like this in the name of the military.

Just kneel down and beg for mercy in fear! Actually even raised contempt for their military!

The eight guards of the Innate Realm raised the black hole of the gun in their hands at the same time, and shot towards Fang Yue and Sima Xiao!

I have to admit that the military's level of weapons equipment far exceeds the supply of the black market!

Every bullet has a powerful lethality. Perhaps, even the strong of the ordinary world and the earth will be shot into a sieve if they come to be hit. But the problem is that this bullet can only be lethal if it hits. The world's strongest in the world of Xuan Huang, each with a keen tactics, such bullets have not been fired from the gun, and it is estimated that the person who fired the gun has been killed. Up!

### **Chapter 463: Intricate**

"You are betting with their lives, are you betting that I dare not make a move?"

Fang Yue's mouth was filled with a smile, very cold, very icy, and murderous, like the cold wind of midwinter, sweeping!

Gu Yunru fell into the ice cave. Although Fang Yue didn't do anything to him, he was crushed on a spiritual level. The blood in his body stopped flowing, his hands and feet were cold, his limbs were numb, and he couldn't move a bit.

This Fang Yue is terrible!

You can kill him without physical contact.

A faint remorse rose in Gu Yun's heart, and he felt that he should not have come to provoke this killing god.

As for the bullets pouring in frantically, they all hovered in mid-air. Fang Yue expanded his domain, and those bullets in the domain were not as powerful as raindrops!

"Fang Yue, you can't kill me. If I die in Liu's house, it's unclear or not, the military will still not let you go!"

Gu Yun spoke with difficulty, and he exhausted the last bit of strength to break free from the shackles of Fang Yue's spirit.

Fang Yue smiled and said: "Of course I will not kill you myself! You will die in the hands of mutant creatures. We want to save you, but we don't have that ability!"

Fang Yue's smile was faint. But the cold and murderous intentions are full.

There is no other Fang Yue, he has stocked up a lot of strange creatures in the laboratory!

Fang Yue raised his palm, and a spatial vortex suddenly emerged.

An ape with black fur all over walked out of the spatial vortex, its eyes were extremely scarlet, filled with strands of murderous intent.

Its fangs are sharp, gleaming with cold light!

With each step, the vegetation within three meters of the body will wither and turn into ashes instantly.

This monster has agility and bloodthirsty nature. It was an ape that Fang Yue caught from the forest at will, and then fed a little life crystal change!

Its blood is back to ancestors.

Although he has never practiced, his own strength has soared dozens of times at the moment of transformation, comparable to those of ordinary innate realm!

"What kind of monster is this!"

Gu Yun's eyes widened.

The fear in my heart is simply hard to express in words.

Since he was young, he has never encountered such a situation. Someone dared to disobey the military order and insisted on shooting him!

"I don't know what its name is, it's just one of the by-products in my bloodline laboratory. It has the blood of the forest ancient ape, and it also has the magical powers and characteristics of some vampires! What it likes most is to eat raw flesh and blood. To drain their blood."

Fang Yue smiled, describing the horror of this beast.

Gu Yun had goose bumps all over his body!

"Kill it for me! Kill it!"

Gu Yun once again ordered his guards to start.

The guards glanced sideways at Fang Yue, Fang Yue's expressionless face, they dared to shoot.

The scene just now gave these guards a deep understanding of Fang Yue's strength. This is simply a humanoid demon, able to manipulate space, it is simply not something they can resist!

Fang Yue's face was expressionless, and he didn't stop him before the guard dared to shoot.

The bullets rained.

The apes shuttled in bullets with amazing agility! Those bullets all passed by it, seemingly dangerous and dangerous, but none of the bullets can rub it on its body and wipe out the wound.

The guards were all surprised, showing incredible expressions. At this time, Barrow woke up from his deep sleep and climbed onto Fang Yue's shoulders, and said with great excitement: "The subtlety of

physical skills, this turned out to be the state of subtleties! Fang Yue, have you seen it? This is what you learned. Role model! Keep any tricks and tricks within a small consumption range

. Without wasting the slightest physical strength, this is the true meaning of the martial artist!

Fang Yue stared at the ape.

Sure enough, the power of instinct is the most powerful. This ape has a low IQ, only the most primitive hunting, killing, and fearful instincts.

Not to mention the profound meaning of the warrior, it doesn't even understand the moves.

However, the inheritance imprinted in the depths of its bloodline is telling it how to fight to save its energy to the greatest extent!

In the micro, a fighting skill of the warrior.

Being able to reach this level has nothing to do with the martial artist's cultivation realm!

When some saints make a move, they are still thousands of miles away, opening and closing. Among the moves, 80% of the power is wasted, and only 20% can hit their opponents and exert their effects!

There are also some mundane people who only have the acquired realm, but because of years of fighting and fighting, in order to save their lives, they have to start to delve into the smallest methods.

Over time, they can also reach the smallest state without wasting any physical strength.

Of course, there are very few such people, at least when Fang Yue was in Yan State, he had never seen one.

Passed by countless bullets.

The ape soon appeared beside one of the guards, and its palm fell suddenly, whizzing into the wind, and it scratched the opponent's head.

The white brain became the food of the apes. It ate with relish, then the heart, then the limbs. In less than two or three breaths, the original live guard has become a delicious meal in the apes!

"This... this is unscientific! That ape has only five levels of innate aura, but why can he escape the W37 pistol of our military envoy!"

Gu Yun's mouth grew wide and his face was full of incredible expressions.

Fang Yue hadn't spoken yet, Barrow on his shoulder already coughed twice, attracting people's attention.

"Ignorant human beings, what do you know? Although the higher the realm, the stronger the combat power, but the combat power is not determined by the pure cultivation realm!"

Barrow carried a pair of small hands on his back, and then said in a serious manner: "Innate talent, race, blood, skills, secret techniques, and even the sudden inspiration during the battle can affect the strength of combat! This ape bloodline Returning to their ancestors, they have become miscellaneous ancient alien species. They are born to fight, and can survive in the worst times. Millions of years of fighting

experience are all imprinted in their bones. The realm of cultivation of this ape may not be high. But in terms of combat skills, they are definitely at the master level! You want to use absolute combat power to crush

Pressing on it is simply empty talk and delusion! ‘

Barrow loves showing off and hopes to use various methods to build up his little sense of superiority!

"What do you have?"

Suppressed by Fang Yue, Gu Yun's heart was already filled with fire. Now, a little monster who didn't know where he came from was also yelling at him. This is simply a kind of to Gu Yun. What an insult!

"What? The deity is not a thing! Ah bah! The deity is a good thing! Watts, why doesn't it feel right!"

Barrow was also furious when he heard this, he was a fierce temper. Just one point!

"Little ape, kill me this soulless bastard!"

Barrow said to the ape's arrogant order.

Hearing this, the monkey was really obedient, and gradually focused his eyes on Gu Yun.

"Naughty animal, dare you!"

Gu Yun was angry at the monkey. The pressure of heaven and earth suddenly dropped!

Although apes awakened to ancient genes, they were cruel and domineering. But when facing a strong man who was a realm higher than him, he already showed an expression of instinctive fear!

"Don't be afraid of him! Come and do it! I'll bless you! God of fierce beasts, great blessing. Double the power!"

A red beam of light fell on the ape.

The blood on the ape's body boiled, and even vaguely, a faint red halo formed on the body's surface!

Faced with Gu Yun again, the monkey was still a little frightened despite his eyes.

But it already has some strengths that are opposed to the aura of that day!

Fang Yue was surprised, but he didn't expect that Barrow was really capable!

Just this hand can bless the beast's blessing means, in a war, you can be worshipped as a \*\*\*\* and reverse the success or failure of a war!

"Chish!"

The ape jumped up suddenly and fought to fight against Gu Yun.

"What about the innate fierce beast, even if it is doubled in strength? Ants, after all, they are ants, even if they are stronger, at best, they are just stronger ants!"

Gu Yun sneered indifferently.

Barrow spoke again: "Double the speed, kill him for me!"

The ape in mid-air, grinning, suddenly fell, its hands wanted to hold Gu Yun's shoulders.

Gu Yun suddenly raised his head: "This is the time!"

Gu Yun's mouth suddenly opened, and a black hole immediately appeared.

"Transformation of people!"

Fang Yue suddenly spoke. From beginning to end, he didn't find any traits of transforming people in Gu Yun!

In the blast hole, a beam of red light suddenly shot out.

"Blessing of Light!"

Fang Yue pointed away.

Between Gu Yun and the monkey, a thin film of light suddenly appeared, which was very bright!

This light film separates the monkey and Gu Yun from it.

The red light in Gu Yun's mouth became brighter and brighter! The red light collided with the milky white light film, and the light film seemed to be a bottomless quagmire, dissolving all the red light in it. This light film is the pinnacle of the innate realm. It is displayed with Fang Yue's extraordinary soul power, and its power is equivalent to the number of ordinary spells.

Ten times the power!

Attacks at the ordinary level of the world and the earth can never pose a threat to this light film!

Gu Yun's killer feature failed. The ape's hands, clasped with sharp claws, landed on Gu Yun's shoulders.

Gu Yun was in pain and wanted to struggle, but it was too late.

After another, Gu Yun was torn alive by the monkey! His arms were completely abolished, and his vision was dripping with blood!

The ape is excited, if it is based on its own strength, it is far from being able to kill a master of Gu Yun's level!

Gu Yun's flesh and blood is a great tonic to him! It can make its cultivation realm, quickly improve, and diligently advance to a higher level!

"Fang Yue, Sima laughs, I curse you not to die!"

Anyway, death was approaching, and Gu Yun had no scruples. He called out loudly, cursing Fang Yue and Sima laughing.

It's a pity that Fang Yue and Sima laughed and didn't care at all!

If the curse could kill people, they would have been killed countless times!

Gu Yun's head was twisted off by the ape, took out his brain, and ate it bit by bit.

This ape's method is fierce and cruel.

It makes people shudder.

Fang Yue knows that this is just the nature of apes and monkeys. People eat pigs, horses, cattle and sheep, in fact, they are not essentially different from fierce beasts.

Gu Yun fell, and every one of his guards felt terrified!

Gu Yun is a master of the military in City 037! He is not only a strong person in the world realm, but also transforms people, even those strong in the world realm are extremely rare!

Gu Yun is dead, do they have a way to survive? In the eyes of these guards, a look of despair was revealed!

#### **Chapter 464: surrender**

"I can give you a chance! Let you not die!" Fang Yue's eyes patrolled over the faces of the guards! He also knew that all these people were acting on orders, and it was not their original intention to attack the Liu family. Moreover, in this troubled world, the masters of the innate realm are also quite rare. What's more, these guards are also good at guns, all kinds of

The use of thermal weapons is really good, and the combat power far exceeds the warriors of the same level!

"What? Is there a way to survive?"

As the guards heard Fang Yue's words, a faint hope rose from their desperate hearts!

Can live, who wants to die here unclearly!

"Actually, as long as you leave the army and join the Liu family, you will be members of the Liu family in the future! I will naturally not kill my own people casually!"

Fang Yue guessed that he and Sima Xiao would not stay long in this No.037 city.

This Liu Han is pretty good to them.

No matter what, we must leave some foundation and backing for the Liu family!

A few more masters of the Innate Realm can be considered to give Liu Family a little more strength!

When Liu Han heard this, his eyes lit up!

These seven guards, he was also greedy! Well-trained, the individual strength is not weak. If you join the Liu family, you will definitely be able to bring the strength of the Liu family to a higher level!

As for the military's response.

Usually, Liu Han still cares. But now that the face has been completely torn, the federal military has decided to military control.

Then they are the old enemies of all the tribes and forces in the entire Federation!

After all, the federal military is notorious.

They have long represented the power of warlords everywhere, not the interests of the federal people.

Their military control means that they want to annex all forces, large and small, in this Federation!

Maybe, the leaders and backbone of those forces will still be targeted by the federal military after they defect, become cannon fodder, and be framed and wiped out by the federal military by various means!

They will not easily introduce the jurisdiction of the federal military.

The end result is to rise up and resist!

It is foreseeable that there will be a \*\*\*\* storm in this deep blue planet, and there will be a big fight within the human race. Even the federal military will be crippled against those large and small forces.

The federal military in the 037 city needs to deal with the main enemy, which is their Liu family, but must be careful of counterattacks in the black market, unite with many forces, and wipe out the military base!

The seven guards of the innate realm finally surrendered. Between death and glory, they still chose to survive!

That night, turbulence and drastic changes occurred in the 037 city!

Those zombies actually launched an extremely tragic attack on all the forces that refused to surrender to the military in City 037!

It was a \*\*\*\* night. Dozens of micro-nuclear bombs were fired on the black market in succession, eliminating one zombie gathering place after another. Some experts from the innate realm and the world realm that had never been seen walked out of the black market. The zombies fought for a while, resisting the fierce offensive!

In addition, some smaller families did not resist the attack of the zombie tide and were eventually wiped out. All the masters have become food for the zombies!

The scourge of zombies is actually the military's first-hand director.

This makes all the residents of the entire Deep Blue Planet feel cold!

In order to consolidate their power and rule, they were extremely vicious and madly adopted such extreme methods, spread the zombie virus, and manipulated all the zombies, becoming a killer in their hands.

"No wonder the military dared to adopt military control. It turns out that they had premeditated and planned! Eliminate all the discordant voices in this dark blue planet. From then on, the military is the only one!"

In Liu's house, Fang Yue said, stepping on the bones of countless zombies.

Around Liu's house, Fang Yue had already arranged a defensive array.

As long as there are zombies who dare to approach Liu's house, they will all be strangled and turned into mud, leaving only crystal clear crystals of life!

This night, there were tens of thousands of zombies attacked and killed in the Liu family, among them there were even Tier 5 and Tier 6 zombies haunted! But those zombies were all strangled by the formation, and the only Tier 6 zombie that could break through the formation was slapped to death by Fang Yue!

The federal military overestimated the power of its own zombie army, and at the same time underestimated the number of civilian hidden masters.

For Fang Yue, this night's sneak attack only gave him tens of thousands of life crystals.

The Nalan family is also crippling the military.

When the zombies attacked, the Nalan family actually jumped out of the three-headed revolving totem beast!

These three-headed beasts are not real, they are just a projection of the beasts in ancient times. But the level of rotation is enough for those zombies.

The tens of thousands of zombies that besieged the Nalan family were broken down, and the three beasts took the initiative to attack. A military station in the city of No.037 was eliminated, and all materials were confiscated!

There is also a dilapidated small temple. A high monk walks out. He has long beard and eyebrows, all of which are snow-white, and his body is bronze, like cast steel.

With a sing of the Buddha's horn, thousands of zombies passing by the small temple were all shattered to pieces, and the old monk was overtaken by the reincarnation!

Fang Yue and Sima Xiaolian manually used the power of heaven.

Restored the scene of the old monk's hands. The strength of the old monk is astonishing. Fang Yue initially estimated that he has the strength of the pinnacle of the rotation realm. Moreover, he is taking the route of mind power. At the same time, he cultivates his physical body, and has no flaws in the long-range attack and close combat. The strong!

The whole city of No.037 is surging.

Overnight, the variables were quite large.

The level of war has been elevated!

Originally, the Heaven and Earth Realm was the peak level of combat power, but now, there are powerhouses in the Rotating Realm jumping out one after another.

"This Nalan Yunsheng is indeed a cunning old fox. The Nalan family clearly provides for the great god, but he shows weakness all day long. It is the Nalan family that has fallen! The phantom beast of the rotation level, let out three in one breath. head!

I am afraid that in the short term, no one dares to do anything to their Nalan family! "

Fang Yue complained about Nalan Yunsheng's actions.

But in empathy, Nalan Yunsheng is actually helpless. Any family who wants to develop steadily, keep a low profile and show weakness is actually the best choice!

Of course, in addition to these forces, there are also some strange families that also show sharp minions.

The Huangfu family turned their faces, and hundreds of silver mechas smashed into the air. All those who control these mechas are masters of the innate level! And every mecha has the combat power of the early days of the world.

The ghost knows how the Huangfu family made it, and actually mass-produced innate masters, mass-produced mechas of the world level!

As soon as the mighty army of mechas set off, they had been blasted into scum by the overwhelming army of mechas before they had completed their assembly!

Later, someone called up the data of the Huangfu family.

They discovered to their horror that the Huangfu family is an ancient Wu family, and they own dozens of military factories in private. They produce some matching parts for firearms on weekdays, but they actually sell dog meat with sheep's heads. A large number of mechas have long been secretly produced.

The Huangfu family became famous in the first battle and has vaguely become the first family in the 037 city.

The Nalan family followed closely behind. After all, the high-end combat power of the three-headed reincarnation level could not be ignored.

The Liu family ranked fourth.

Because there is another family in the Liu family, that is the Tuoba family.

This family, who does not show up or dew on weekdays, does business honestly, engages in retail, wholesale, and so on. It definitely looks like a typical good family.

But when the army of zombies attacked them, they encountered an unprecedented setback.

They released 10,000 biochemical beasts that no one had seen before, all kinds of tigers, wild boars, reindeer, etc.

Every biochemical beast is above the fifth level of innate!

Among them, there are fifty biochemical beasts at the heaven and earth level. Then a one-sided war broke out. Biochemical beasts are more ferocious than zombies, and they are more aggressive than death!

Tens of thousands of zombies became dinner in the mouth of the biochemical beasts, and even 70% of the biochemical beasts, after eating the life crystals in the zombies, realized evolution and their own strength went further.

The military's high-levels almost made smoke!

When did the Tuoba family master such powerful black technology?

They didn't even get a little bit of news, how did this intelligence system do it?

Why does the biochemical beast of the Tuoba family seem to be no weaker than their zombie army!

In the end, after a night of \*\*\*\* cleansing, only less than a hundred of the original thousands of forces in the entire No. 037 city could survive.

However, all of these hundreds have become hard bones to gnaw. If you want to eat it, at least you have to break a few big teeth.

Among the less than one hundred powers, the weakest is backed by a strong man in the world realm. If you want to kill a strong man in the world realm, relying only on the zombies' crowd tactics is probably not enough. Zombies, every time they are upgraded, although there will be a leap in strength.

But generally only the zombies that reach Tier 6 can have the strength comparable to those of the world realm.

Today, the time for this zombie virus to mutate is still short, and Tier 6 zombies can't even get much out of the military's hands.

Recently, the military's life has not been easy.

The zombies came and the chain of material production was destroyed. Although the zombies' calamity had been predicted, they had prepared a large amount of materials a long time in advance. However, these materials also need to occupy the warehouse and occupy space!

The number of warehouses, there are a full 170, originally, these are the military's confidence and capital based on the end times.

But they didn't expect that under the attack of the army of zombies, in this No. 037 city, the usual meek family forces showed their fangs and were not wiped out by the zombies. Instead, they became enemies looking at it!

Their warehouses have become the focus of care for these families.

These warehouses are scattered with large distances. If there is no key handle, just a few people, you can plunder all the things in this warehouse!

If there are too many people gathered, it will lead to insufficient offensive power!

In the end, the military was also caught in a dilemma. In order to temporarily protect the warehouse, it died down and did not continue to attack! The stalemate battle in City No. 037 lasted three full days.

**Chapter 465: The second wave of practitioners arrive**

On the fourth day.

An unexpected accident happened by the military!

Among the deep blue planet, a group of uninvited guests suddenly arrived!

Tens of thousands of heaven and earth, masters of unknown origin, appeared in various cities!

The masters of these heaven and earth realms are generally more powerful than those in the deep blue planet, and some even have the strength of the rotation realm.

These masters have come one after another, which is a devastating disaster for Deep Blue Planet!

These people run wild and become veritable destroyers, the king of destruction!

In the city of No. 037, there are also five strong men from the heaven and earth realm.

Fang Yue and Sima laughed, and they knew at a glance that they were both strong in the Xuanhuang world!

As soon as these people appeared, they went straight to the army of zombies. In their eyes, the spiritual energy of this place is thin, and it is estimated that the real opportunity lies in the life crystallization in the dead bodies!

The military has suffered a disaster!

One of the descendants of the Xuanhuang world is proficient in kendo.

A sword light fell, one after another, the silver light, like a silver waterfall, vented down, directly cutting a military base in half.

If you don't say anything, take a knife and slash. They are not as gentle as Fang Yue, they can do business and pay attention to the one you love me!

The military dispatched several mechas from the Heaven and Earth Realm in a row. As a result, they were chopped into tatters without touching their hairs!

In the end, there was also a master in the rotation realm who was hired by the army to compete with the master sword repair master in the world of Xuanhuang World Heaven and Earth Realm, and after doing hundreds of moves, they were evenly matched. In the end, Jian Xiu in the realm of that day left with regret.

In addition to this sword repair, everyone else is not weak, each has magical powers, all of them are from the sect, in order to participate in the dark trial, carefully selected masters!

After destroying at least 170,000 zombies.

These five talents died down because they also realized that the military power in this world is not simple. If it is really shaved, I don't know what kind of crazy world it will make.

"Huh? Why are there formation guards around this family? And looking at the style of the maze, it definitely doesn't look like ordinary people can arrange it!"

The master of sword repair was dangling at the door of Liu's house.

Fang Yue looked at this guy, looking crooked.

Fang Yue and Sima Xiao always stayed simple and kept a low profile, just to avoid being exposed to the sun and being hunted down.

Whether it is Fang Yue or Sima Xiao, it is a forehead lawsuit in the Xuanhuang world.

Especially Fang Yue, when he was in Yandu, he was the messenger of the world of practitioners who robbed one vote alone. People still remember it!

In the Xuanhuang world, they are embarrassed to do it.

One is because of Fang Yue's significant contribution in the ancient city of Yin and Yang.

Secondly, Fang Yue joined the Tongtian Church. In other words, they are all the top ten disciples, and if they are investigated by the top ten, they must be dead!

But in this dark trial, there is death but no life! Everyone is too embarrassed to be able to go back, so naturally there is not so much consideration, revenge with grudges, revenge with grievances!

What's more, Fang Yue is still a well-known local rich man, his wealth is unparalleled, killing him, Budi opened a small treasure!

Fang Yue and Sima Xiao were afraid that Jian Xiu would come in and recognize their identities.

That's why the big array was opened.

As a warning!

As a result, this sword repairer was also a dazed man, the more he observed, the more powerful he felt that this formation was powerful.

"Guarding such layers, there must be a great treasure in this family!"

This buddy became more excited the more he thought about it, waving the big sword in his hand, he slashed towards the Liu family's formation.

The sword light is like a waterfall, crashing down!

Like a nine-day galaxy, cathartic flowing!

He is a disciple of the Green Mountain Sword Sect. Although the Green Mountain Sword Sect is not as good as the top ten, he is also a first-class power in the world of Xuanhuang!

The disciples selected by them are definitely not too weak.

Before, he was able to compete with the military's rotation realm powerhouse, and he was able to see one or two!

When Jianhe fell, Fang Yue's formation at Liu's house was not enough!

All mazes, phantoms, and traps are all torn apart!

The sword repair of the Green Mountain Sword Sect broke into the formation and stepped into the territory of the Liu family.

Fang Yue understood that he couldn't hide this time! The attitude of the other party was very determined. He believed that this amazing treasure in the Liu family might be a chance in the dark trial.

As a result, the disciple of Qingshan Jianzong broke in recklessly, and he saw Fang Yue waiting at the door at a glance.

After seeing Fang Yue, the disciple of the Sword Sect of Qingshan, his legs were soft, and he ran away without looking back!

Fang Yue is a celebrity in the Xuanhuang world, not only a notorious trafficker, black merchant, bandit, and robber, but also a very famous evildoer!

His record is brilliant and remarkable.

There are not a few of the powerful rotation realm who died in his hands.

He is only an undefeated strong man who can match the rotation state, and Fang Yue can kill the strong man in the rotation state!

The disciple of the Qingshan Sword Sect had a numb scalp. He had long heard that this evil star came to the dark trial. He was proficient in the formation, and he should have guessed it was him.

The disciples of Sword Sect Qingshan were all crying.

However, he couldn't run away under Fang Yue's hands!

Fang Yue stomped on the soles of his feet, spreading out patterns. The surrounding air has become extremely strong, so that every movement of the Green Mountain Sword Sect disciple needs to consume a hundred times more strength!

"Since you are here, what do you leave in such a hurry? Why not sit down and have a good chat!"

Fang Yue's tone was extremely majestic, and it was accompanied by an indisputable smell.

"Fang Yue, what do you want to do? I tell you, I am a disciple of the Qingshan Sword Sect, you can't do anything to me!"

The disciple of Qingshan Jianzong, with a hint of crying in his tone!

Doing something with a man, he hasn't had that bad taste.

Fang Yue rubbed his chin, and asked Sima beside him with a smile, "Am I that kind of person?"

"Yes!" Sima laughed as a damaging friend and nodded in agreement quite firmly and affirmatively.

Fang Yue curled his lips, he even had the thought of killing this guy!

Although he is not a good person, he is normal in terms of basic outlook on life and sexual orientation.

And Liu Han who hurried over saw this scene.

It is from ear to ear.

The horror of the disciple of the Green Mountain Sword Sect, he had seen yesterday that the situation where he was fighting against the military rotation powerhouse was photographed by the satellites in the sky.

The ground broke that day, like a scene of world destruction, still echoing in his mind.

However, why did this person see Fang Yue as if it was a mouse seeing a cat!

Could it be that this amiable Fang Yue is so terrible?

Before that, Liu Han had a rough guess about the strength of Fang Yue and Sima Xiao. He thinks that Fang Yue and Sima Xiao are powerful, but they are ranked higher in the world. Belongs to the top ranks!

As for the rotation.

Weakness has restricted Liu Han's imagination. It is the fighting power of gods and demons. He does not dare to hope that the two guardians invited by the Liu family can have such strength.

"Don't do it, you have something to say!"

The disciple of Qingshan Jianzong stammered. He was already a little scared by Fang Yue to the point where his soul was scattered.

Realm, this is definitely the realm of law!

If it is not in the realm of law, it is absolutely impossible for him to be restrained a hundred times, reaching the point where it is impossible to move an inch!

As a disciple of Qingshan Jianzong, the necessary common sense is still there.

Three levels of law, birth field!

And although he is already considered the best in the world, even the strong in the rotation realm can show twice, but in terms of law, it is the second level of the middle realm!

Facing the strong in the field of law, he didn't even have the idea of doing it.

The three levels of the law are a watershed.

There is a world of difference in strength between domains and no domains!

In the realm, the master of the realm is the absolute king, and any method of speech will be magnified several times. And without domain, if you fall into the domain of others, your strength will be doubled.

One will lose one's strength and the other will make a judgment!

The disciple of Sword Sect Qingshan, thinking of this, even thought of crying!

He was free to wander around and fell into the hands of this evil star, either being chopped off or being trafficked!

He didn't want to be sold naked like the group of people in Yandu.

"I didn't think about how you were. As long as you help me conceal my identity and don't make it known to the world, and then help guard the Liu family for a year, how about I give you a chance?"

Fang Yue looked at this Qingshan Jianzong's expression of tears without tears.

I couldn't help but slander in my heart, how did Qingshan Jianzong cultivate his disciples!

This psychological quality is a bit too bad!

Before he did it, he was almost too scared. Originally, Fang Yue's murderous intent was not strong, and he disappeared instantly.

The disciple of Sword Sect Qingshan heard that Fang Yue would not kill him or sell him, and immediately opened his eyes, and his heart relaxed a lot.

"Fang Yue, the man has said nothing, but it's hard to chase after him! What you said is true?"

Fang Yue smiled bitterly: "What I said is naturally true! Only you swear that you will not reveal the traces of Sima Xiao and I, and protect the Liu family for half a year, I will give you a super Jiazidan!"

The disciple of Qingshan Sword Sect, breathing quickly, his eyes flushed.

As if he was afraid that Fang Yue would go back, he immediately raised his fingers and swore with Dao heart.

"My disciple of the Qingshan Jianzong, Zhang Yunxin swears with Dao heart! We will never reveal any news about Fang Yue, Sima Xiao, and protect this Liu family from any harassment within half a year! Otherwise, Zhang Yunxin will be a demon. Invade and die!"

Daoxin swears, the oath is extremely heavy!

There are hardly any practitioners who dare to violate their vows.

Fang Yue promised to take out a super Jiazi Pill! Give it to Zhang Yunxin.

Zhang Yunxin got this pill, and his heart was surging!

Coming to this dark trial, in fact, everyone's purpose is for chance.

For practitioners, what is the highest chance?

Isn't it possible to increase lifespan, not to grow old and not to die!

Although Fang Yue is notorious in the world of Xuanhuang, his character is very poor.

But his ability to refine the medicine pill made countless sects scramble to cooperate with him and obediently send the spirit stones and resources to his hands!

The efficacy of Super Jiazidan has been verified by countless strong people. No doubt!

Good deed, one hundred and twenty years of life, for him, is a great blessing.

In this way, Liu's family has one more guardian sitting in it.

Even the military has tasted Zhang Yunxin's power, and dare not attack the Liu family easily. "Liu Han, in the Liu family, I have left five mutant creatures for you, each of which is equivalent to the powerhouse of the third to fifth level of the heaven and earth realm! This is the token to order them, you can drive it at will, as you A hole card of the Liu family, killer! And this Zhang Yunxin, I also let him sit

Your Liu family in town help guard for half a year! These six months have been a period of stable development for your Liu family.

After half a year, Zhang Yunxin leaves. The fate of your Liu family will all depend on how you develop and operate in the past half year! "

Fang Yue suddenly spoke. The expression is solemn. There was a panic in Liu Han's heart.

### **Chapter 466: Speculate**

Liu Han stuttered: "Fang Yue, this, this..."

Liu Han has long understood that powerful players like Fang Yue and Sima Xiao are at ease, and their Liu Jiamiao is small, and they simply cannot hold back.

However, Liu Han didn't expect Fang Yue to leave so early, so suddenly that he didn't even have time to react!

"Don't be so mother-in-law, hesitate! I did this to make arrangements for you. When I was chased and killed, no one thought about me like that!"

Fang Yue looked at Liu Han.

This is the first friend he made in this world.

Although Fang Yue was also a little bit reluctant, and he could lay out a stronger guardian formation for the Liu family, making it difficult for the strong in the rotation realm to step into it.

But if you really do that, it's not helping the Liu family, it's entirely possible that Liu Han will be harmed!

In the greenhouse, no real strong can grow up!

Only by facing the wind and rain alone can you become more mature.

Die, or stronger!

Two ways, one choice!

This may be cruel, but in the shadow of death, the strong who honed out are often better!

Did not say much.

Fang Yue and Sima leave with a smile!

Crystal skeletons, and looking for the origin of zombies.

These two tasks urge them to cherish their time!

Of course, before leaving, Fang Yue and Sima laughed, in line with the principle that thieves should not go empty, they ran to the military station and grabbed a handful!

A million life crystal nuclei were stolen, and tens of billions of star crystals became Fang Yue's possession.

After the military got the news, even Fang Yue and Sima Xiao could not be caught.

They can only go crazy and sigh with regret.

"Barrow, tell me honestly, is this crystal skull only one pair or a collective name for inheritance!"

On the way, Fang Yue suddenly stopped.

I asked Barrow this question very seriously!

In Barrow's eyes, a flash of surprise!

"Fang Yue, I am the messenger of inheritance and your examiner. I will never reveal any news about the crystal skeleton, so that you can reduce the difficulty!"

Barrow's very serious Fang Yue said.

Fang Yue's sudden smile was completely different from the serious expression just now.

"It's okay, you don't need to say! I already know the answer from there!"

Fang Yue spoke.

This time it was Barrow's turn to be dumbfounded.

"You said, did you get the answer from mine? Did I tell you in my sleep?"

Barrow had just finished speaking, and then shook his head violently.

"This is not right. Although Barrow likes to sleep, he never talks nonsense when he is dreaming!" Fang Yue smiled, "Naturally it was not what you told me when you were talking in a dream, but when I asked you just now. A look of shock flashed across your eyes! So I can infer. The crystal skeletons are not one, but a series! Even a type magical artifact. They are real

The function is to inherit the secrets of that world by various means, and even can carry the soul and act as a shell of flesh! "

Fang Yue's inference shocked Barrow again.

But he quickly woke up, flapping his wings, glaring at his small eyes and looking at Fang Yue.

"Fang Yue, you despicable and shameless guy, actually bombed me! The great Barrow, actually fell into your evil, you are wicked!"

Barrow was just a mouthpiece, Fang Yue didn't give him too many resources at all to restore his strength.

Regarding the realm, he is now at the level of the early days of the world. With the battle experience of the great demon god, if he is singled out, he should be on the front line like Fang Yueqiang.

However, Fang Yue's methods cannot be inferred by common sense at all.

The second after Barrow Fang Yue started his hand, he was ruthlessly suppressed by Fang Yue!

Fang Yue is a ghost in the world, and has some magical tools to restrain the ghost.

Although Barrow is not a ghost, it is only a virtual body formed by a ray of divine thoughts. This state is inferior to a ghost!

A ghostly chain, wrapped around the upper body, immediately disappeared completely, and fell to the point where it was even worse than a little chicken! Let Fang Yue sling mercilessly!

Seeing that he could not stop Fang Yue's crazy reasoning. Barrow said bitterly: "Yes, this crystal skull is indeed not a thing, but a type of magical weapon! The creatures of the Third Civilization Era specialize in spiritual spells! Although their spirits are strong, their bodies are Weakness is surprisingly weak! Some have reached the heaven and earth level

The strong, pure physical offense and defense, even the level of the Qi refiner in the acquired realm!

Therefore, the creatures of the Third Civilization Era are depositing their souls in the crystal skeletons! Then use this to shape your strongest body! Of course, according to the strength, realm, and status of the creatures in the Third Civilization Era, the crystal skeletons inhabited by the souls have different levels!

Generally, as long as you reach the level of the heaven and earth realm, you can forge yourself the strongest body of a crystal skeleton! However, it is difficult for a crystal skeleton of this level to exist in this world for a long time!

At least it is a crystal skeleton created out of the ground to be able to spread into this civilization era! "

Barrow, cherish the word as gold.

Although he confirmed Fang Yue's guess, he did not give Fang Yue any substantial breakthrough!

For these remarks of Barrow.

Fang Yue had expected it. This crystal skull is indeed a kind of magical artifact.

If there is more than one thing, it is much easier to get it!

Barrow looked at Fang Yue's confident expression and couldn't help but chuckle softly! "Young people, don't really think that this crystal skeleton is a series of magical artifacts and it's easy to get it. S-level missions are S-level missions after all! When it is defined as this difficult mission, it already represents something. Some things! Any opportunistic tricks are easy to steal and not reverse.

A handful of rice! "

Barrow once again taught Fang Yue old-fashioned.

An icy smile curled up at the corner of Fang Yue's mouth.

"You don't need to worry about this aspect!"

For the following plan, Fang Yue obviously already has his own draft.

The laughter of the black rose is like a silver bell.

Because she saw Sima Xiao holding a life crystal in her hand and was stunned.

"The origin of the so-called zombies should be worthy of this life crystallization! It is driving the zombies to become that kind of instinctive bloodthirsty creature! The life crystallization, condensing the essence of thousands of lives, can be obtained by constantly absorbing the force of external life. Self-growth!

Although a zombie, the more advanced it is, the more wisdom can be born, but no matter how deep the wisdom is, it will still be driven by instinctive impulse. Its core is still the crystallization of life, and the body is just a tool! "

Sima Xiao's eyes gradually lit up, and he didn't know where he was stimulated, but he realized the true meaning of the origin of zombies.

Black Rose smiled and said: "Sure enough, it is the person I chose. His savvy and talent are extraordinary. In such a short time, he has realized the origin of zombies!"

"But comprehension and comprehension, the true depth is still far from enough! Little guy, keep working hard, if you can fully understand the origin of zombies, there may be unexpected benefits for you!"

Black Rose said encouragingly to Sima Xiao.

"Are your gods and demons so pitted? Given some specious tasks, people can't even touch their heads! Even the tasks are full of confusing things!"

Fang Yue couldn't help cursing.

What are these things?

Every task is too big and scary, and there is not even a friendly reminder.

This will make people crash around the world like headless flies. It's okay to hit the right place. The process may be difficult, but there is hope of success in the end.

And in case they hit a dead end, they may walk on a road of no return, it doesn't count as long as they walk in the dark, and they are more likely to get themselves in. "Any chance is accompanied by risks! If you want to get benefits without paying, there is no such thing as a drop. Maybe the sky will really fall, but will you dare to pick it up? If you can really accomplish this Two S-level quests, don't worry, the Divine Demon Sect can open them for you

The treatment can definitely satisfy both of you! "

For the first time, Black Rose was serious about the other side, Yue preaching.

However, the more Fang Yue pondered, the more he felt wrong! If it is placed in an ordinary world, then forget it. But when is this, the dark land, the end is coming, God is doomed, this world will not last long! The zombies are just the beginning, and there are even more terrifying totems in the back. What will happen later, I'm not sure, it's possible

It may be an alien invasion, or it may be death.

At the end of a civilization, all kinds of incredible misfortunes happen every time.

These are ominous, and God cannot resist it!

Completing tasks in such a world is itself a very dangerous thing.

If you don't hurry up, you might really fall into this world. With the aboriginals of this world, they will sleep forever!

A day later, the group came to city No. 012, where there was also a legend about the appearance of a crystal skull. Moreover, according to Fang Yue's inference, there may be more than one crystal skeleton in the city of No. 012. Relatively speaking, the chance of obtaining it is even greater.

"Stop, do you have a pass to enter the city?"

A guard stopped the group of people.

Fang Yue stopped. Look at this guard.

This guard is very extraordinary. Standing on the small steps on the seventh floor of the innate, he walks along the tiger's footsteps. At first glance, he has the ancient internal fist and hair in his practice. Every breath and every spit is accompanied by wind and thunder, and the world is roaring. .

In the Xuanhuang world, this kind of cultivation may not be a big deal. In any school of cultivators, one can catch a lot of them.

But here is the deep blue planet, and the opportunities for practitioners are extremely rare.

People who can cultivate to the level of innate realm are all geniuses in cultivation.

When Fang Yue saw this guard, there was also a slight shock in his heart.

Sure enough, the higher the number of the city, the stronger the living strength and means.

City No. 012 is not yet in the top ten, but the strong in the innate realm has fallen to the point of being a gatekeeper.

"Pass? There really isn't this one!"

Fang Yue spread his hands, how could he have such a thing!

"Then I'm sorry, the city of No. 012 is currently under martial law. In order to prevent the invasion of zombies, no one can enter!"

The guard spoke very politely, but there was a cold look in the pair of eagle eyes.

There are so many people who want to take refuge in City No. 012 recently, and not everyone is eligible to enter the city.

"Oh? According to what you said, what is needed to get your so-called pass?"

Fang Yue was not angry, but patiently asked.

There are rules on one side. If it can be resolved within the rules, he is also trying to avoid bloodshed.

### **Chapter 467: Death trap**

[« PrevNext »](#) [≡ Table of Contents](#)

The guard glanced at Fang Yue: "In fact, it is very easy to apply for a pass. You only need to collect ten Tier 1 life crystals to exchange for a pass!"

"Oh, that's easy! There are three of us, thirty first-order life crystal nuclei, all for you!" Fang Yue called thirty first-order life crystal nuclei to the guard.

The guard was taken aback suddenly, and a surprised expression appeared on his face. He obviously did not expect that this ordinary-looking man could easily take out thirty first-order life crystal nuclei. You know, during the recent period, among the top 30 cities, the price of life nuclei has been exploded, even the lowest-level first-order life nuclei are valuable

Five thousand star crystals.

Thirty first-order life crystal nuclei, when added up, are the price of 150,000 stars!

Such a large amount of wealth, even in the city of No. 012, can live a very leisurely life for a year.

"Deep dick!"

The guard didn't know where he got a white machine, and then put life crystal nuclei into the machine one by one.

"The first-order life crystal test passed!"

"The first-order life crystal test passed!"

The beeping voice kept ringing in Fang Yue's ears.

The guards put away these life crystal nuclei, and then issued a black token to everyone. "This is your qualification token. You can live temporarily in city No. 012 for a month! But you are only temporary residents, and many rights and interests will be restricted and restricted. Some of the places that are expressly prohibited are not allowed. Get closer, otherwise, you can die in the city

Can't blame me! "

The guard ordered a severe warning.

Fang Yue nodded, indicating that he knew.

When he arrived at other people's territory, he was naturally unwilling to toss about moths!

As long as he can find the Crystal Skeleton, he must leave immediately. He is not willing to stay in this city 012 for a long time!

A group of people entered the city 012. The atmosphere is really different from that of City 037. In the city of No. 012, almost all the people walking on the streets are at the level of innate realm. Even some 17 or 18-year-old teenagers are approaching the level of breaking through the innate realm!

In the city of No. 012, there is a rush of people.

Fang Yue and Sima Xiao whispered.

"This city No. 012 seems to be different from the city No. 037, and there is no military control. Moreover, they are in a strict hostile state with the zombies."

A faint doubt flashed through Sima Xiao's eyes.

Fang Yue also had the same feeling.

"Could it be that in City No. 012, the army has not yet launched military control. They are trying to restrain themselves, waiting to join forces with the zombies and fight together?"

Sima laughed guessing. Fang Yue shook his head: "No, your guess cannot be established! Although the city is on the fringe, riots and military control occurred throughout the city. The dark blue planet, information flows too fast! I am afraid that something will happen in city 037. For a moment, the big people in this city No. 012 were

To the corresponding information. I'm afraid there is something else hidden here. "

A faintly strange atmosphere filled Fang Yue and Sima Xiao's hearts.

At this time, a teenager hurried by the roadside and Sima Xiao's shoulders suddenly hit!

"Ah! What do you want to do?"

The boy's finger nails were pierced suddenly, sharp and sharp, and they slipped down lightly on the soft flesh of Sima Xiao's waist!

Sima Xiao's body was firm and iron-like. Although he hadn't specifically practiced physical training, his physique was special and he was born strong.

Even if the magic weapon of the world realm slashed on his body, it was difficult to leave a trace of scars.

What's more, although this young man's nails are sharp, at best, they are nothing but a magic weapon equivalent to the innate level!

"Oops, fooled!"

Sima Xiao's face changed suddenly.

All the hurried pedestrians around suddenly showed a hideous appearance!

"Zombies, all are zombies! Damn, this 012 city has been completely destroyed by zombies and has become a ghost town!"

Fang Yue's heart suddenly tightened.

The guard who was at the door just walked in slowly.

A faint mocking smile appeared on his face. "Fang Yue, Sima Mountain, do you think you can escape and ascend to heaven in the city of No. 037, will you be safe and sound in this city of No. 012? Tell you, you are too naive! This entire deep blue planet will become our military's back garden, private territory! You guys

Rebellion will eventually become the bones of our military's road to dominance! "

The guard was frantic. There are crazy looks in his eyes!

Fang Yue and Sima Xiao finally understood.

What the guard had done before was just to paralyze the two of them, and then invite Jun into the urn.

"With these people, do you really think you can trap us?"

Fang Yue took a breath, then sneered. The guard sneered: "Trap you? No, no, no, what I want is to kill you! Your blood is evolutionary ration for these zombies! The higher the cultivation level, the blood contained in the body, The stronger the life! Now committing suicide, you can also avoid the torture before death

And pain! If you are caught by these zombies and become rations, I am afraid you will not be able to do it even if you want to die! "

"It's just a group of half-dead monsters. Do you really think they can fight the world? That is to say, you treat them as baby bumps, play with fire carefully. In the end, you will be bitten by these zombies, and finally complete a story of a farmer and a snake!"

Fang Yue sneered, taunting the guard. He looked around and found that there were so many zombies around, and most of them had evolved to the third-order level, and fourth- and fifth-order zombies were not uncommon.

They swallowed the blood of the strong in City 012. Eventually evolved to the current level. There is even a Tier 7 zombie looking out from a distance. He looks like a middle-aged person, and his body is thin and now is no different from a normal human!

Only a pair of sharp fangs pierced the red lips, showing their identity!

Fang Yue and the seventh-order zombie's eyes met, and the two faced each other far away.

In the gaze of the Tier 7 zombie, Fang Yue clearly saw the light of wisdom. He was sure that this zombie would not always surrender to the military's prostitution. One day he would rise up and resist. Maybe, it would become The ultimate mourner of the military!

"Are there more people? I'm afraid of you?"

Fang Yue planned to let go of his hands and feet, and would rather slaughter the No. 012 city, but also to find the crystal skull.

The longer it drags, the more dangerous he becomes.

Fang Yue's fingertips slipped, tearing the space apart.

The zombies filed out one after another, and each one is the first level of the heaven and earth realm!

The zombie summoned by Fang Yue was not a single head, but a complete army.

A full 300 heads of zombies appeared on the first level of the world. The face of the guard changed!

He can clearly sense the power of those zombies.

Every zombie is equivalent to a Tier 6 zombie! Many zombies unite to form an existence like an iron barrel. Let the zombies not even touch Fang Yue's hair!

"Fang Yue, you have hidden your strength in City 037!"

The guard gritted his teeth.

"Hidden strength? You guys? Am I?"

Fang Yue looked at the guard contemptuously.

"It's just that your strength is too weak, it is not worth my shot at all!"

Fang Yue's voice fell, and many zombies arranged into a battle formation.

A strong death aura rose up, surging all over the sky, and finally all concentrated in Fang Yue's hand, becoming a pure black spear.

This spear is clearly formed by the emptiness of death, but it is just like the substance, and it is even covered with various and complicated patterns.

"Death spear, nail the universe!"

Fang Yue whispered softly, like a whisper.

A spear burst out of the air with a swish, tearing the void, and nailing it down in the direction of the guard!

"Want to kill me? You are not qualified!"

The guard laughed, his uniform was torn apart.

Pieces of strong abdominal muscles were revealed.

The guard transformed into a giant ape that stood tall.

His cultivation realm is still at the seventh level of the Xiantian realm, but his bloodline has grown several times!

His strength showed a crazy growth of geometric multiples.

At least the ordinary creatures who have entered the world realm are no longer his opponents.

"The bloodline returns to the ancestors! You really have refined the crystal of life!"

Fang Yue didn't have the slightest expression of surprise for the guard who had left behind and even completed his transformation.

The black spear, accompanied by the howling of the wind, has approached the guard's chest.

The guard turned into a great ape, and a big hand took it down, and the black spear was in his hand.

There was a bang!

The spear burst. The strong death breath spread, and the guards immediately turned into a pile of bones, scattered on the ground, with no vitality!

"This world is finally quiet!"

Fang Yue said lightly.

This spear was not meant to nail the guard at all. The real back hand was the intense death air produced after the spear exploded, which could corrode all vitality.

The fall of the guard did not cause the slightest waves in the eyes of the distant seventh-order zombie.

"I think we can do it and talk about it!"

The seventh-order zombie finally spoke, his voice was very gentle.

That gentle attitude is incompatible with the legendary brutal and bloodthirsty zombie image.

"You can really talk about it. The military is not your best partner. In their eyes, you are only the providers of life crystal nuclei, so that they can continue to evolve and give birth to strong men with \*\*\*\* veins!"

For the zombies, Fang Yue did not have a strong sense of disgust.

Their predecessors are all humans, from a certain perspective, they can be regarded as a heterogeneous and branch of humans!

The biggest difference between smart creatures and non-smart creatures is that smart creatures know how to cooperate and compromise. Being guided by the situation, rather than intelligent creatures, they are all driven by instinct!

Behind the seventh-order zombie, a pair of gray wings stretched out.

Before the wings spread, Fang Yue had never noticed the existence of this pair of wings!

"This is your wings?"

Fang Yue asked in surprise.

Tier 7 zombies nodded slightly, and exuded an elegant aura between their gestures.

"Zombies, when they evolve to a certain stage, they can awaken some rare talents! The talent I have awakened is transfiguration supernatural powers! I can change into any appearance, my body and my soul! Most people don't even notice me. The art of change!"

The Tier 7 zombies spoke out their magical powers without concealment.

He was expressing his sincerity to Fang Yue. "It is indeed a rare magical power. If it is used for assassination, I am afraid that at the level of the heaven and earth realm, few people can escape your poison!"

## **Chapter 468: Tianxintong**

Fang Yue commented, without fear.

His body is strong, even standing here and letting this Tier 7 zombie hack, may not be able to leave the slightest scar!

"I'm afraid I won't be able to enter your Dharma Eye. I hope to cooperate with you now, because I want to use your means to get me to the next level! In addition to the magical powers of this transformation, I also gave birth to Tianxin Magical power!

This supernatural power level is too high! It is difficult to control freely in my realm, but occasionally, I will whim and see a corner of the future! "

The seventh-order zombie spoke, and his eyes were full of clear and bright expressions.

Just relying on Fang Yue's current strength is far from enough to impress him and personally communicate with him.

What really urges him to meet Fang Yue is that he can vaguely sense that Fang Yue has an opportunity to evolve him again.

Zombies, life is endless.

The essence of life lies between life and death!

They have a long life and powerful magical powers.

But the only thing that worries him is that the more he evolves in the later stage, the slower the evolution!

The seventh-order zombies are already equivalent to the existence of the fifth layer of the human world! They are born with a supreme majesty, they can order other zombies lower than them!

In this 012 city.

He is one of the top dozens of Tier 7 zombies! You can freely order hundreds of thousands of zombies, which are millions.

As long as he doesn't show up, even if he uses the low-level zombies below to grind, Fang Yue can still be grind to death.

But in that case, he would not be able to obtain the resources from Fang Yue that allowed him to evolve again!

"Tianxintong!"

After Fang Yue heard these three words, he was also slightly startled!

This magical power is also recorded in the ancient books of the Xuanhuang World. Only some high monks or sages with high respect can awaken this method after becoming a sage.

My heart, Tianxin!

Can penetrate the future and look back at the past.

In this world, all the past and future, the endless variety, are glances that can't hide this magical power and the gaze that looks back!

"It's not difficult for me to let you evolve again! But since it's a deal, then you have to spend some money! I have a drop of death liquid in my hand! After you swallow it, it only takes three days to refine, these eight The stage realm is just around the corner! But this holy liquid of death is also extremely cherished!

If you don't put out some capital, how can I be willing to give it to you! "

Fang Yue flipped his hand, and a drop of pitch-black liquid hovered in his palm.

Around the liquid, layers of space are rippling!

The strong power of death is a deadly poison for ordinary creatures. Avoid it!

But in the eyes of the seventh-order zombies, there is a fatal temptation!

"Gudong!"

The Tier 7 zombie swallowed a mouthful of saliva.

His eyes looked straight at the drop of pitch-black liquid floating in Fang Yue's palm!

With instinct, no verification is required. He could judge that what Fang Yue said was true.

This drop of liquid will definitely help him go to a higher level, reach the eighth level, and even go higher and farther!

"what do you need?"

The greed in the eyes of the seventh-order zombies gradually receded.

No matter how good things are, it depends on the price!

If the price is too great, he needs his life in exchange for it.

Then he would rather not use this drop of death sacred liquid, relying on the time water milling time, to really advance again.

"My requirements are not high, you have the magical power of Tianxintong! I only need you to do ten free divinations for me!"

Fang Yue opened the bid code.

Tianxintong is the supreme supernatural power and metaphysics!

Its level is better than Sima Xiao's altar divination.

The art of divination requires all kinds of reliance, either the fortuneteller's fur, or the fortuneteller's spirit, breath! Without these things, the process of divination requires a great price! And it is easy to be backlashed and struck by thunder!

The zombies of Tier 7 hesitated a little, and then agreed.

He could feel that Fang Yue's means reached the sky, maybe he tried his best, and he might not be able to keep him.

There is only one opportunity for evolution! As long as he can enter the category of Tier 8 zombies, in this city No. 012, he can be regarded as a king, overwhelming other Tier 7 zombies. At that time, with the best resources in the entire city, he can Choose arbitrarily, lead by one step, lead by step, maybe he still has a chance

, Further impact the level of the ninth order.

"I, Modan, the zombie, swear by the life crystals in my body, after getting Fang Yue's death liquid, I will fortune for Fang Yue ten times free of charge! Otherwise, the life crystals will immediately shatter!"

The body around Modan, the seventh-order zombie, fluctuated with the majesty of heaven.

The more advanced a person is, the more the vow will be recognized by the heavens and will be fulfilled in the end.

Fang Yue threw the death holy liquid in his hand to Modan.

Modan opened his mouth excitedly.

Zombies are not good at cultivation, and all their instincts are still the most primitive habits of creatures.

Swallowing and taking food are their best means of refining any natural treasure, extremely efficient! No other creatures can compare! The death sacred liquid fell into Modan's lower abdomen and was absorbed at the fastest speed, refined into pure energy.

His body began to transform!

The breath of life and death kept intertwining and spinning in their bodies!

Heaven rumbling, suddenly changing color!

The huge thunders slashed down one after another, obviously blocking Modan's evolution and transformation.

Zombies are between life and death, detached from the six reincarnations, and are not accepted by heaven.

Every time they change and evolve, they will encounter the obstruction of heaven.

The zombies below Tier 4 don't feel obvious in this regard, because their cultivation realm is too weak and not worthy of the way of heaven.

After reaching Tier 5, the strength of the zombies has increased sharply, and some have even begun to awaken their talented supernatural powers like Modan!

Since then, every time it changes, it will encounter the obstruction of heaven.

If they were chopped into ashes under the tribulation of the sky, they would be completely destroyed. Because of the special ethnic attributes of the zombies, their souls even fell into the Huangquan Hells, and there is no hope of returning!

And if you can survive the baptism of the catastrophe, then the death aura that is continuously born from the dead body will turn into a strong breath of life. If it is absorbed by the life crystals in the body, you can jump into a dragon and become more powerful!

Modan raised his head and looked at Tian Ji.

He opened his mouth and swallowed all the lightning that fell from the sky and entered his abdomen.

Streaks of lightning flashed on his body surface!

The fierce and unforged thunder and lightning could not cause him the slightest harm.

"Why is it so weak! It's not fair!"

Fang Yue looked at the thunder and lightning that fell from the sky, and was not moved by Modan's courage to swallow the thunder and lightning.

On the contrary, it was his heart, thinking about it, why is this guy's thunder and calamity so weak!

This zombie crosses the robbery, he also crosses the robbery every day.

This Modan, measured according to the realm of the practitioner, how to find the existence of the fifth and sixth levels of the heaven and earth realm!

But the tribulations he experienced were not as good as the last waves of tribulations he encountered in the 49 days at the peak of the day after tomorrow!

If the number of calamities he had survived was so weak, then it would be great. He didn't need to suppress his cultivation base so much every day, and he would not dare to reach the level of the world realm for a long time!

Fang Yue's voice was not loud, but Modan was at what level of cultivation level.

After hearing Fang Yue's broken thoughts, he was almost \*\*\*\* off by Fang Yue!

How terrible is this tribulation! That zombie is not walking on thin ice!

If it weren't for his innate talent, strong physical body and indestructible, this tribulation would also be a life and death threat to him.

This is the case, he was also cautious when crossing the catastrophe, for fear that something went wrong and the catastrophe would be lost.

But this kid actually said that the robbery was weak this day.

It is really tolerable, which is unbearable!

However, after thinking for a moment, Yue gave him a drop of Death Sacred Liquid just now, and finally Modan endured it!

Since he likes to brag, let him do it, anyway, in the end, it won't hurt half of his hair!

Modan's catastrophe passed quickly, that is, nine lightning bolts fell one after another.

Although, a lightning bolt is thicker than a bolt.

But in Fang Yue's eyes, that is, drizzle, even the current performance of Heavenly Tribulation for him was not intense enough!

Modan transformed smoothly and became a Tier 8 zombie. His strength has advanced by leaps and bounds, and now he can rival the powerhouse of the eighth layer of the Heaven and Earth Realm!

The evolution of zombies is quite sturdy!

As long as the resources are sufficient, they can evolve rapidly and increase their strength.

In Fang Yue's eyes, there are some similarities between the evolution of zombies and magic repair.

It's just that compared to magic repair, zombies seem to be more fierce and fierce!

Of course, if there are no resources, zombies want to evolve, it will be more difficult than the cultivation of human beings. They can only rely on water milling skills to slowly break through from the seventh to the eighth, without a hundred and eighty years. Time, I am afraid it is far from enough!

"Fang Yue, I'm Modan, what you want to know is what you want to know, I can immediately use Tianxintong to fortune telling for you!"

Modan spoke, his eyes staring at Fang Yue.

After the breakthrough, Modan was more able to feel Fang Yue's power and fear!

As a Tier 7 zombie, Modan only felt that Fang Yue was a powerful summoner. My own strength may not be great.

But after the breakthrough, Modan actually felt that Fang Yue's body was surging with a force like a volcanic eruption. This force made it difficult for him to figure out, like a baby, facing an adult tiger and leopard!

"Crystal Skeleton! I want to know the location of the Crystal Skull in this 012 city!"

Fang Yue made his request.

Modan was taken aback for a moment, then closed his eyes and began to divination and induction.

His thoughts merged with heaven, and then he kept reciting the name of the crystal skull.

Soon, the shadow of a crystal skull was reflected in his mind! "In the city of No. 012, there are three crystal skeletons! The closest one is in the east, eighty kilometers away! It is an ancient palace, sleeping underground! It has survived since ancient times. Above the ancient palace, there is a laboratory."

#### **Chapter 470: Xu Brothers**

In this deep blue planet, looking for someone's trace is tantamount to finding a needle in a haystack, just like a headless fly.

The corner of Xu Bai's mouth turned up with a faint smile.

"Do you think I didn't prepare before I came? I have a tracking crystal here. Just put any object with the breath of the tracked person into the crystal ball to find the tracked person's trace! "

Xu Bai spoke slowly, confidently.

He slapped the storage bag with his left hand, and among them, a crystal ball suddenly jumped out.

This crystal ball is crystal clear, seemingly immaculate.

Afterwards, Xu Baiyou carefully put a hair on the crystal ball.

The moment the hair is contaminated with the crystal ball, it burns spontaneously without fire, and finally becomes ashes.

The hair disappeared, and a hint of white light appeared in the crystal ball.

Xu Bai feels attentively.

He immediately sensed the location of Fang Yue's existence.

"Haha, God really helped me too! This Fang Yue is actually in this city, he is only less than three thousand kilometers away from us! As long as he is found, he will be killed immediately, and all his amazing wealth is it's our brothers!"

When Xu Bai and Xu Qing celebrated each other.

Fang Yue has come to the periphery of this laboratory.

Fang Yue casually disguised himself and became a logistics staff of the laboratory. Wearing thick protective clothing and clumsy gas masks, everyone looks the same.

At least from the appearance, there is not much difference from other staff.

Sima Xiao is a master in this way, and he seems to be very proficient in all kinds of sneaky things. Barrow, the black rose simply turned into a strand of the most primitive spirit, deposited in Fang Yue's body.

Modan was even better at disguising than Fang Yue. He killed a staff member and changed his appearance directly.

The three of them successfully sneaked into the research institute without disturbing anyone, and the research institute's identity check system did not find any problems.

Because Modan changed the appearance of the opponent's fingerprint and iris, even the inspection system could not find a trace of flaws.

"Strange, it should be this place! Why didn't you find Fang Yue?"

Xu Qing and Xu Bai stopped at the entrance of the institute. They looked around, looking for Fang Yue.

Then tracking the crystal ball can only delineate a rough range.

Xu Qing and Xu Bai only made sure that Fang Yue was near the research institute, within ten miles.

"Find me?"

Xu Qing and Xu Bai did not realize that at a corner in the distance, three people were preparing to go upstairs, but one of them suddenly froze.

This person is Fang Yue.

"Xu Qing, Xu Bai!" Fang Yue didn't know the powerhouses in the Xuanhuang world, but Sima Xiao knew them well.

These people are all targeted by Sima Xiao.

Which strong man on the world list has no background or accumulation?

Sima Xiao is dedicated to staring at these people who have gotten great opportunities. If he can plunder one or two opportunities, his cultivation level will definitely go further!

"You know?" Fang Yue was surprised, but he didn't expect that Sima Xiao could still call out the names of these two people. "Know a hair ball! These two people are all strong on the world list, and they have a great reputation. Back then, these two goods even ran into our Sima family and called for a challenge! We lost seven of our Sima family in a row. Powerful young generation! Unfortunately, the little master was not at home at the time, otherwise, he had to be beaten

We don't even know our parents! "

Sima Xiao looked at Xu Qing and Xu Bai, a pair of brilliant green light appeared in his eyes.

Xu Bai and Xu Qing regarded Fang Yue as their prey, but how could they have thought that they have also become prey in the eyes of others!

"Do you want to kill both of them? Let's share the benefits! Brick, sap, Mongolian medicine, whatever means you choose!"

Sima Xiao looked at Fang Yue, the two masters on the world rankings. Although he was confident that he could kill the two with a sneak attack, he could not achieve the effect of being silent and not disturbing anyone.

"Banzhu, sap, Mongolian sweat medicine?"

When Modan heard these three things, a surprised expression immediately appeared on his face.

Who are these two people!

How come you say something on the underworld!

Fang Yue looked at Sima contemptuously with a smile: "How can a person like me use such shameless things?"

Sima smiled and rolled his eyes: "Are you upright? Please don't insult the word integrity! If you are considered upright, then there really are no bad people in this world!"

Sima laughed, disdainful of Fang Yue's boasting.

The two bickered.

Xu Qing and Xu Bai came over.

An icy murderous intent came from the sky, like a basin of cold water, pouring Fang Yue and Sima Xiao from beginning to end.

"You two, do you know Fang Yue?"

Xu Qing spoke, and a pair of eyes showed an air of supremacy.

As a disciple of Taiyi Sword Sect, he was born with a temperament proud of being above all beings, which is even more obvious!

"Fang Yue, who is that? Why have I never heard of this name!"

Fang Yue showed a dazed look.

Both Xu Qing and Xu Bai have black faces.

Turned out to be a fool! They are asking for nothing.

Xu Qing raised his hand and was about to shoot Fang Yue's Tianling Gai! Killing people, destroying corpses and ruins. As an invader, in order to hide his whereabouts, Xu Qing still has this professionalism!

Just when Xu Qing's palm was about to fall.

Fang Yue suddenly spoke again.

"However, I remember that just now, a figure rushed past my eyes and reached that direction! His steps were very strange, and he was accompanied by bursts of lightning and movies!"

Fang Yue pointed to a room with the words "Danger! Don't enter!" clearly marked with red Chinese characters on the doorway.

Xu Qing and Xu Bai's eyes lit up immediately.

The shadows passing by, the strange steps, the lightning, the movie, these information all have a great fit with some of Fang Yue's information they have collected.

Could it be that Fang Yue is in this place!

Xu Qing, Xu Bai looked at the room Fang Yue pointed to.

My heart was about to move, like a fire burning.

"You know what news, tell me everything! I can guarantee that not only will not kill you, but I can also give you great benefits!"

Xu Bai used all the methods of coercion and temptation.

Fang Yue showed a timid expression.

"The specific situation, I am not very clear!"

"I don't know? Huh! It really is a waste!"

Xu Qing raised his hand again to slap this guy to death.

But at this time, the alarm system of the institute suddenly sounded.

Red and white light, staggered rotation!

The hearts of Xu Qing and Xu Bai both raised a slight sense of vigilance!

"Hurry up and leave them alone! Although the indigenous people of this world are weak, they are technologically weird. If they are really trapped, it is not easy to get out!"

Xu Bai pulled Xu Qing and gave up the idea of killing Fang Yue.

Xu Qing snorted coldly, looked at Fang Yue and said, "Good luck!"

Xu Bai walked to the door of the room marked with the word Danger, and suddenly kicked his foot.

With a bang, the door panel shattered, and the object made of aluminum alloy could not withstand such a wild attack by Xu Bai.

Roar!

In the door of that room, Fang Yue's figure did not appear, but a monster that looked like a Tibetan mastiff came out.

Its eyes were filled with the instinctive brutality of beasts.

A low roar can even make people feel very heart palpitations!

"This is the ancestral beast!"

Fang Yue and Sima looked at each other with a smile, and immediately pulled Modan back three feet!

In the military research institutes, there must be all kinds of strange biochemical monsters. Some of these studies have been successful and some have failed.

But since the military has marked the word Danger, this monster like a Tibetan mastiff is definitely not a good thing!

"Naughty animal, die!"

As soon as Xu Bai got started, he pinched his fist marks, and phantom shadows of Cangshan appeared.

""Thousand Mountain Art!"

Xu Bai suddenly slammed his fist, pushing horizontally one after another high mountain phantoms, smashing them down towards the Tibetan mastiff-like monster.

The monster like Tibetan Mastiff roared at the sky again.

The phantom shadows of those mountains shattered together!

"This is the alien lion mastiff, these \*\*\*\* aboriginals, actually cultivated this kind of monster!"

Xu Qing was knowledgeable and recognized the true body of this Tibetan mastiff-like monster.

The lion mastiff is an ancient mastiff. Because of the blood of the three-eyed golden lion in the body, it has become a different species of heaven and earth.

As long as the alien species are all above the profound grade, or the flesh, the spirit, or the secret technique, they will always form a unique talent in some way.

The lion mastiff, the strongest method, is mental shock.

A roar of a lion can make the beasts surrender, and the minds of other creatures will also form a blank space, causing them to be interrupted in the process of attacking or casting spells, causing instant flaws, and then being killed by a single blow!

"Damn lion mastiff! You dare to attack the noble Taiyi Sword Sect disciple. Do you know how big a mistake you made? I want you to die!"

Xu Bai, as a disciple of Taiyi Sword Sect, is a strong man on the list of heaven and earth.

His moves were actually broken by a canine beast, which deeply stung his inner self-esteem!

He desperately shot, piercing the sky with a sword, and immortal in the sky.

A faint silver light fell from the sky like a shooting star, stabbing the lion mastiff's body. This lion mastiff immediately had a different head, his neck was broken, blood flowed across, and he fell into a pool of blood.

Even though the lion mastiff is powerful and his blood is back to his ancestors, after all, his realm level is just a gateway to the world.

And Xu Bai, a master who has been immersed in the world for a long time, may be in a trance for a moment because of his lax spirit and negligence! But he really got serious, this lion mastiff was definitely not his opponent.

Fang Yue saw Xu Bai's move.

The sword just now made him almost shocked.

It is worthy of being a master on the world list, the sword just now is like an antelope hanging horns, without a trace. In a daze, there is a trace of heavenly reflection, and there is no dodge feeling! "It deserves to be the first sect in the world of Xuanhuang! Taiyi Sword Sect's sword style has reached the point where the skills are close to the Tao! Any move contains infinite mystery, even if you can't understand the Tao. , But as long as you follow the moves and show them one by one, you can also hit

Out of power comparable to those of enlightened people! "

Fang Yue muttered to himself, the shadow of Xu Bai's sword was all in his mind. Fang Yue also saw other Taiyi Sword Sect disciples using the same trick, but it was on the same level as Xu Bai's trick!
