

God of Life 471

Chapter 471: Interest rate doctor

The lion mastiff fell.

However, it did not end.

This lion mastiff was carefully cultivated by the laboratory.

It took a lot of effort and resources to cultivate it to its current level! And this Xu Bai actually said that he was killed!

Naturally, the research institute couldn't let him go easily!

Don't you like killing? Then let you kill enough!

In the marked dangerous room, a zombie walked out with a staggering pace!

A dangerous alert suddenly spread in Xu Bai's heart!

"kill!"

The zombie growled. There is still a tattered robe on his body, which marks his identity before becoming a zombie.

"A disciple taught by Ziwei?"

Xu Bai frowned slightly.

This Ziwei Sect is a great religion in the Xuanhuang world, although it is not comparable to the top ten powers such as Taiyi Sword Sect, Tongtian Sect, and Taiyi Sect. But among the practitioners in the Xuanhuang world, they are also considered famous.

The people they selected who can enter the dark blue planet for black trials are all the best in the sect, their talents and strengths are all amazing.

When did their disciples fall to this point, captured alive by these natives, and even became their guilds, turning into such an appearance as human beings and ghosts are not ghosts.

At this time, hundreds of meters away, a tall and pale general walked out of the room.

There was also a suffocating breath of death in his body.

Although it looks like a normal human being in the slightest difference in appearance.

But Fang Yue could clearly judge that this guy is definitely a pure zombie!

"General Locke!"

An old man wearing a white coat, gray hair, and a thin body walked out of another room, his eyes gleaming with wisdom and excitement.

From a closer look, the old man's eyes actually contained the light of thunder and lightning.

This is a vision that will accompany the cultivation of the power of the soul to a certain level!

A gleam of light flashed in Fang Yue's eyes.

It seems that the inheritance and secrets of this third civilization have been acquired by the military.

The thunder and lightning is definitely a manifestation of the first-class soul secret technique.

"Dr. Kingley!"

General Locke seemed cold, but when he saw the old man, he immediately became humble. "General Locke, the old man has something to ask for. These two people must be captured alive and cannot be killed! They come from another civilization system, and they have blood in their bodies that are not in the deep blue planet. Inheritance! This is the best experimental material. Perhaps the hope of our solar ladder project success

It fell on them! "

Dr. Kinley spoke.

General Narok nodded immediately.

"Okay, just do what Dr. Kinley said!"

General Locke spoke. Jinkou Yuyan set the fate of Xu Bai and Xu Qing.

When Xu Qing heard the words, he was taken aback for a moment, and then laughed: "Catch us alive? It's up to you?"

Xu Qing shot, a big hand dropped down, and headed towards Dr. Jinli to capture him. His palm suddenly enlarged, the devilish energy was overwhelming, and the clouds were overwhelming!

However, before Xu Qing's palm was ten feet away from his body, countless red rays of light interlaced in the air, like a red cage, blocking Xu Qing's palm.

The "zizizi" sound resounded.

The smell of barbecue is all in the air!

Xu Qing's palm was burned by the light, and each red laser beam was at least tens of thousands of degrees Celsius. His palms were burnt and black as carbon. Under the scorching heat of intense heat, even the strong on the world rankings could not stand it!

"What kind of methods are these! Why is there such a magical technique without any vitality fluctuations!"

Xu Qing retracted his palm, grinning with pain. Drops of glittering sweat rolled down from his forehead.

"Spell? Hahaha, stupid guy, this is the power of technology!"

General Locke laughed, but there was a flash of cold light in his eyes.

It is their turn to cultivate supernatural powers, they are far from the opponents of the indigenous creatures of the Xuanhuang world, but if you compare the understanding of technology, the people in the Xuanhuang world are hard to beat.

"kill!"

At this time, the disciple of the Ziwei teacher who turned into a zombie roared, and the long sword in his hand was raised above his head.

As a zombie, he has no honor or disgrace during his lifetime, but those moves are integrated into his own bone marrow. Become your own instinct!

Any one of every move is to do it with all its strength, only to kill, not to seek self-protection, on the contrary, it is more powerful than using it during his lifetime.

Xu Bai easily confronted him.

Xu Bai seemed relaxed, but a stormy sea had already risen in his heart.

This disciple of Ziwei Sect, although he is also a leader in the realm of heaven and earth, but with his talents, means, and even the alternate gang of the realm of heaven and earth is difficult to enter!

If it is against Xu Bai, he can be chopped into mash with three moves and two methods.

If he did everything he could, even if Xu Bai fell in one move, he could take his life.

But after becoming a zombie, the blood of this Ziwei Sect disciple returned to the ancestors, with one move and one move, all of them focused, and the speed of his power has more than doubled!

With such a weird increase, the disciple of Zi Wei Jiao could barely fight him evenly!

How terrible the transformation of these indigenous people should be.

Xu Bai's expression gradually became serious!

His sword style is faster and sharper!

Vaguely, he already had a sense of the unity of nature and man, the vast heaven, transformed into infinite sword intent, silk strands, like wind and rain, woven obliquely.

Xu Bai's sword style is calm and calm, but the murderous intent is even more fierce!

There were gradually more scars on the Ziwei disciple's body, although each scar was not too deep.

However, thousands of scars are intertwined, but they are extremely shocked, making this Ziwei teacher's disciple become riddled and crumbling, and it is possible at any time to fail and fall completely.

"Die!"

Xu Bai's long sword was raised high, in the sky, a black cloud pressed down, countless lightning flashes into the long sword blade!

There was a bang.

Long sword chopping.

The disciple of Ziwei Sect is imminent, if he still has seven emotions and six desires, he may be afraid, panic, and at a loss, and finally cut two paragraphs in the sword!

However, at this moment, the disciple of Ziwei Sect has turned into a ruthless zombie. He does not know his life or death, only the instinct in his bone marrow is at work!

"Roar!"

The zombies roared, the world shook!

The zombie's eyes suddenly opened, and the red light was exquisite, splitting the world!

"This is an evolution! Tier 4 zombies!"

Dr. Jinli spoke suddenly, with a surprised expression on his face.

"Injecting a cultivator into a virus and transforming it into a zombie, although the base of strength is greater, talent and potential are stronger, relatively speaking, the difficulty of evolution is also higher! In addition to swallowing a lot of life crystals, there must be Grinding between life and death! Before, this zombie always wandered at the level of Tier 3 zombie, and spent a lot of life crystallization to make him stronger. I originally thought that all these resources were wasted. Actually produced an effect, making this zombie go one step further and reach a higher level

Times! "

Dr. Jinli is a madman in science.

He loves research and exploration, and he can ignore everything else.

What morality, power, wealth, money, in his eyes, are all just passing by!

The zombie that the Ziwei disciple transformed into has evolved again, causing the burning research heart in his heart. Suddenly became more excited!

Zombies have evolved and their strength doubled!

All the wounds on his body healed instantly!

One of his palms caught the long sword, and all the misty rain and the sword intent were all shattered!

"His strength is really strong!"

Not only Xu Bai, but Fang Yue was moved.

The force was reduced ten times, and it was fully reflected in the zombie's body.

From third order to fourth order. It was a qualitative leap, and the zombies had doubled their power and speed compared to before!

The disciple of Ziwei taught his hand, and strands of black death gushing out from the ground!

These lifeless angers all turned into black palms, and they slammed Xu Bai's ankles!

"Can Tier 4 zombies also give birth to talented supernatural powers?"

Dr. Kinley spoke in amazement.

General Locke frowned slightly, and then shook his head: "It's not like that! This black death should be a means of his spells and his own instincts during his lifetime. Such means are still a long way away from supernatural powers. !"

General Locke and Dr. Kinley communicate in a low voice.

They totally ignored Xu Bai and Xu Qing.

With the protection of the laser cage, even if the two of them tried their best, they could not escape.

Ziwei's disciple sword style, open and close, simple and swift, but the move is fatal, so Xu Bai has to withdraw from defense.

Basic moves, every move has countless flaws.

However, the extreme speed makes it impossible for people to grasp these flaws and can only fall into a passive defense state.

One move hasn't stopped, and another move begins.

The continuous sword shadow, silver light.

These moves converge together, as if the mountains are whirring and tsunami coming!

Xu Bai suffocated, his face pale.

He was struggling to defend, and he no longer felt the ease of coping just now.

"This is what you forced me!"

Xu Bai held the long sword upside down, the sword body blocked a direct blow from the disciple of the Ziwei teacher.

With a local sound, the sword trembled.

Shaking more than ever.

Xu Bai's tiger's mouth cracked, and blood stains flowed out along the hilt!

He roared, and a vertical eye suddenly appeared between his eyebrows.

A beam of red light broke through the sky.

The red light condensed into a small sword three inches long. The little sword flew around, slashing down!

The head of the disciple of Ziwei teacher was shattered in the middle, red and white splashed all over!

"Sure enough, the disciples of Taiyi Sword Sect are all extraordinary. They can be on the rankings of heaven and earth, and even more so than ordinary people can do it! This vertical eye has never been

recorded in Xu Bai's materials. I am afraid it is his trump card for special cultivation. , At a critical moment, used to come back!"

Sima Xiao whispered to himself, he was also startled in a cold sweat.

Before, he was too free and easy to go with the wind. Although there were many people with superb realms, he was not so famous, let alone such secret and powerful trump cards.

Sima laughed in a fantasy, if he was to resist this mortal sword, instead of the zombie transformed into a zombies from the Ziwei teacher, he would be caught off guard, maybe this Ziwei disciple would be his fate!

Tick, tick, tick.

Drops of sweat fell down. Unconsciously, his back has been wet.

Chapter 472: Unpredictable water depth

Immediately, Sima Xiao looked at Fang Yue, and the old **** was still studying the sword techniques of Taiyi Sword Sect.

Worthy of life!

Staring at Fang Yue's focused expression, somehow, Sima Xiao's mind suddenly echoed such a sentence.

"Be careful to make the Wannian Ship!"

Fang Yue comprehended Xu Bai's sword style to the extreme of his understanding, and then he saw the fall of the Ziwei teacher's disciple, and said with emotion in his heart.

Fang Yue's words seemed careless, but it made Sima laugh very reasonable.

Insignificance is the king of survival.

Reckless bravery, in the end it is eternal sleep!

"It's a pity that a very good test product was killed! But his genes and blood have been extracted. There has always been enough material to clone another one!"

Dr. Kinley looked regretful, but from his expression, there was not much waves.

The disciple of the Ziwei Cult, before he was injected with the virus and became a zombie, the value of information had been extorted by him!

As for his life, Dr. Jinli really doesn't really value it!

Just kill one and grab another.

Anyway, according to this person's memory, this time, the number of practitioners from the Xuanhuang world came to a large scale. Whatever you want, you can grab a bunch!

This Xu Bai and Xu Qing are good. Their physique is even better. If they are made into zombies, they will definitely kill life. Perhaps as long as you reach Tier 1 zombies, you can be more sturdier than the disciples of Taste Teaching when they are Tier 4 zombies!

Dr. Jinli definitely regards human life, as a typical example of grass and mustard!

He didn't care about the casualties of his test objects.

"This **** cage, do you think it can really trap me?"

After Xu Bai beheaded the zombies turned into by the Ziwei teacher, he became very fierce!

Towards the cage composed of lasers, he blatantly walked.

His body was exposed to the laser. Those red rays fell on him. However, a layer of milky white light radiated from the heart guard on his chest.

The soft and hazy mask resists the burning and erosion of those lasers!

"He actually passed the laser protection net?"

"No! Come on! Protect Dr. Kinley and General Locke!"

The guards in the institute panicked!

Only Dr. Kingley and General Locke are the same!

"Flap, pop, pop!"

General Locke slapped his palms with a slight smile on his face.

"It's a visitor to the civilization of the practitioners! The strength is extraordinary! The heart shield on your body should be what your practitioners call the magic weapon! This thing, although there is also in my deep blue planet, but This one is far less powerful than you!"

General Locke spoke calmly.

He was very interested in this goggles. It can withstand the energy radiation in the laser. This is also difficult research material in the military! If you thoroughly understand the principles and put them on standard protective clothing, the defensive capabilities of those protective clothing will surely improve a lot!

"You submit to me! How about I give you two a relatively free space for activities?"

General Locke is always confident, this is his place.

Although these two practitioners are fierce, but after all, they are the turtles in the urn, and they can't turn it over!

Xu Bai sneered. How proud he is, how could he be attributed to some indigenous people that he never looked into, but only knew how to use external forces to evolve?

"If you have the ability, let go! If you only have this means, wait for it to be completely destroyed!"

Xu Bai's tone was full of arrogance.

Even now, he has not displayed all his abilities!

You know, he is a strong player in the world rankings, and he can make a full shot, and he can match the strong player in the general rotation realm alone!

Even some weaker rotations are not difficult for him to kill casually!

Although he is frivolous and proud, he is also rich in capital!

Fang Yue looked at Xu Bai and the Xu Qing brothers.

I recalled scenes and scenes in City 037.

He suddenly sighed: "This Xu Bai, Xu Qing, I am so proud! I didn't know the details and made a rash move. I'm afraid they will all be planted here this time!"

Fang Yue said so.

Sima Xiao was suddenly surprised: "It is obvious that Xu Qing and Xu Bai have the upper hand, how could they easily lose!"

"Do you still remember the shocking battle in City No. 037?" "Of course I remember that battle! At the beginning, the wind was calm, and the military sent zombies to make a one-sided posture, but later, Different families have shown different cards, or they have high-end mechas that can compete with the strong among zombies, or those who have the world.

The strong recover and come back! Or, simply ask for a totem comparable to the powerhouse in the cycle..."

When Sima Xiao was talking excitedly, he suddenly shut up, thinking of something silently.

"Fang Yue, you mean, the natives in this deep blue planet are not as simple as we seem on the surface?"

Fang Yue nodded and smiled bitterly.

"Don't you think it?"

"According to Nalan Yunsheng, among the dark blue planets, the higher the ranking, the deeper and more mixed the water.

There are so many powerhouses in a small city No.037! Is it possible that the city 012, which ranks more highly, is that simple? Rotational realm, I am afraid it is not the peak! "

Fang Yue said this.

Sima Xiao looked at Xu Bai again, and Xu Qing's eyes changed slightly!

This guy was very pitiful. He was tricked into entering the game by Fang Dakeng. He seemed to be awe-inspiring and blood-washed, but in fact he became Fang Dakeng's pawn.

If he knew the details, he would vomit three liters of blood, maybe it would be Sanchizi.

Sima Xiao looked at Fang Yue again. This guy looked dignified and decent, but he was actually the worst. It's not a lie. "Young people, always don't know how to converge. By the time they know, most of them are dead. Do you think you are strong? The cultivation of the world realm can be comparable to the rotation realm. Well, it was destroyed in this city 012 At the time, there were some little guys who were as proud as you.

But they are all extinct! "

General Locke is not in a hurry, the aura on his body is rising steadily, starting from the fourth, sixth, eighth, and ninth levels of the heaven and earth realm! Rotation!

The first, third, and fifth levels of the cycle of rotation!

In the end, General Locke's breath stopped at the seventh level of the rotation realm.

The person is still that person, but his aura is completely different, he is suddenly an ancient demon god, standing there.

Xu Bai's face changed again and again.

Isn't this world dominated by technological civilization?

How could there be such a strong person in practice!

The rotation realm is not weak in the Xuanhuang world. A resource-poor place like Deep Blue Planet should not be able to provide such a strong one!

This is a little unscientific.

Xu Bai's heart was screaming.

Locke took a step to shrink the ground into an inch, this is a typical magical technique derived from the road of earth!

Extraordinary, all supernatural powers have been repaired!

Is he from the Xuanhuang world, or we are from the Xuanhuang world!

Sima smiled and rubbed his chin, feeling crooked for a while!

This Locke's strength is so powerful that he feels incredible!

"Junior, surrender now, I can still retain a trace of reason, and then refining to become my zombie guard! Otherwise, waiting for me to really take action, your soul may be completely annihilated! From then on, erase all the marks of existence."

Locke spoke again.

The voice is more majestic and solemn. He is like a divine mansion aloft, looking down on many red creatures.

This kind of temperament has nothing to do with state, but with mentality.

"God transformation! How does Locke know this trick, and he has cultivated more deeply than me! He has truly regarded himself as a god!"

Fang Yue frowned too.

The depth of the water in this deep blue planet is a bit excessive.

That magic spell, but he learned it from the deception in the heaven.

Although the specific power is not great, but the force is too high, is it possible that this deep blue planet is still connected to the heavens?

Xu Bai and Xu Qing are all shrouded in the magic of transformation. They gritted their teeth and insisted that their souls were still resisting strongly under the pressure of the Transformation Technique.

General Locke's God-Transforming Technique has exceeded Fang Yue's understanding of the God-Transforming Technique.

This is not a means of pretending to be gods and ghosts, but really evolved part of the majesty and field of gods!

"My generation is born arrogant, strong and unyielding, how could I be defeated by a small means like you! Fateful twins, strangling everything!"

Xu Qing and Xu Bai teamed up to show their unique fateful twins!

The surrounding space has become their domain.

The coercion of the **** transformation technique was blocked, Xu Qing and Xu Bai each incarnate into a star, entwining each other.

Every star is beyond words, rolling over, there is nowhere to escape!

This is Xu Qing and Xu Bai's famous killer move. They have killed the powerhouses in the Rotation Realm more than once.

What about superb realm? Under the crush of the twin stars, it will still become a meat sauce and be removed from the world!

The means of the two are very high!

Fateful Gemini is a killer move developed based on their special physique. It is impossible for others to imitate and difficult to crack!

This involves destiny, spirit, formation, and many other fields, which converge in one place and all kinds of opportunities have formed such a move.

Sure enough, one blow worked.

General Locke's magical transformation technique was cracked, and a ray of blood overflowed from the corner of his mouth!

He drew out the long sword at his waist and slashed towards the two huge stars, with the sword aura, ploughing the world!

But fell into the boundless twin stars, but like a mud cow into the sea, instantly dispersed!

"This trick is similar to the one star field created by Tutian Taoist, but in terms of details, it is even better! It's a pity that the two of them did not understand the Avenue of Stars. They were more than fancy and lacked in artistic conception. Otherwise, if so, the power should be even stronger!"

Fang Yue commented on the side.

He saw the true meaning and essence of this fateful twin.

It has a fatal flaw, that is, the lack of artistic conception. As long as it can be attacked by the way of the stars, this flaw will become extremely deadly!

General Locke obviously didn't have Fang Yue's comprehension. He attacked and said in a low voice: "The earth is upside down!"

With a low growl from General Locke. An earth dragon as big as the sky and the earth immediately broke out of the earth, and its figure turned over, like a snake. With a flick of its tail, one of the twin stars gave birth!

"The fourth floor of the Dao of Earth is superb! The natives in this deep blue planet are really not to be underestimated!" Fang Yue is admiring, he also cultivates the Dao of Soil, but in this respect, he is far inferior to General Locke!

Chapter 473: One after another

Break with force, simple and rude.

It seems that there is no technical content at all, but in the realm, under the premise that all the strength crushes the other party, this is the best choice!

Xu Bai and Xu Qing withdrew from the state of stars, both of them spurted blood, their faces pale!

"I'm not convinced!"

Xu Bai was beaten back to the prototype and was the first to speak up!

"If you have the ability to fight at the same level, you are definitely not an opponent of our brothers! You are bullying, what a hero!"

Xu Bai's eyes were full of bloodshot eyes, and his roar was full of despair and helplessness!

The two brothers are invincible in the Xuanhuang world, and even ordinary celebrities must avoid three points against them!

If they were given ten years, they would surely be able to kill this General Locke, even without the two of them working together, just one person would be able to do it.

General Locke sneered: "I am not a hero, but a hero. You can work together to break my **** transformation, which has actually proved your potential! This is enough to make you proud under the yellow spring!"

General Locke raised his hand again, ready to know the lives of the two.

A fight made him deeply aware of the horror of these two people, such a secret technique at such a young age. If they are really at the same realm level to fight each other, he really may not be able to survive the strangulation of the fateful twins!

The moment General Locke raised his palm.

A beam of golden sword light opened up the whole world.

"Who did my Taiyi Jianzong disciple?"

The angry roar shook the world. The mountains are shaking, the sky is shaking!

The protective cover of the research institute was split!

A Rotating Realm Taiyi Sword Sect expert came forward! He is a middle-aged man with a dark face and scattered hair, like a bull.

Fang Yue's expression was a little abnormal when he saw the strong of the Supreme Sword Sect. "Is this Taiyi Sword Sect preparing to relocate and conduct a black trial together? How come so many people have come this time. Starting from the **** world where one side was cut off, the number and strength of the Taiyi Sword Sect sent by Far exceeding the standard! They do not worry about being discovered and encountering

Do the ten parties strike together? "

Fang Yue was indignant, this Taiyi Sword Sect came so many people, how can this black trial be played?

Simply, let's become the back garden of their Taiyi Teacher! "No, it's not the same. This Supreme One Sword Sect's Rotational Realm powerhouse probably cut his own cultivation base and turned into a world-level creature to mix in. After entering this world, he returned to the Rotational Realm. Cultivation base, I can perceive that his aura is not stable, but it is the fifth rotation state.

The breath of the first layer is sometimes the breath of the first layer of the rotation realm!

His most glorious and peak moment, I am afraid he has reached the fifth level of the rotation realm! "

Sima Xiao analyzed carefully. He is very experienced in this area, and he is simply a living encyclopedia.

Fang Yue glanced at the rotation realm powerhouse of Taiyi Sword Sect, only then was a little relieved.

"It seems to be so!" "The people of Taiyi Sword Sect probably don't know that the corner of the **** world they are in is connected to this dark trial! And they have no means to convey too much, beyond the realm. Come. Such a method can be regarded as a kind of compromise.

The source will have huge damage! This damage is difficult to compensate. After returning to the original peak state, the self-slasher may not think about the slightest improvement in cultivation for decades! "

Sima laughed and felt that this Taiyi Sword Sect was really decisive, and he was so cruel to his own people. In order to protect Xu Qing and Xu Bai, they did not hesitate to compromise the cultivation potential of a strong rotation realm.

What do the decades of time mean for a practitioner? Fang Yue and Sima Xiao both knew it clearly!

But there was a spoiler of a strong rotation. This battle, which was originally not suspenseful, became treacherous!

In Taiyi Sword Sect, every disciple is extraordinary, and can become Xu Qing and Xu Bai's guardian. It is destined that this sloppy-looking sunspot is much stronger than the two together!

"Sima laugh, go quickly!"

Fang Yue pulled the corner of Sima Xiao's clothes.

"Go? Where are you going?" Sima smiled enthusiastically, even still there chattering.

"Do you really think you are here for the show? Don't forget our original purpose, to find the crystal skull!"

Fang Yue's face was dark, this guy was quite devoted.

Sima Xiao only then remembered, and forehead and Fang Yue left.

"Ahead, there is a trap thirty meters away. Be careful to avoid it. Don't step on the ground and fly directly at low altitude!"

Fang Yue plundered the memory of a staff member, so he was quite familiar with the terrain!

Three human figures slid across the low altitude and directly entered the first floor of the underground palace.

This palace is full of ghosts, the air is depressed, and the mood is low!

The wisps of gray mist sank down, and the gray light seemed to penetrate the body, reaching the depths of the soul.

"No way, no way, I'm so sad, I feel like I'm going to be depressed! Fang Yue, give me some baby, make me happy!"

Sima Xiao spoke very exaggeratedly. He covered his chest with one hand and wiped the non-existent tears at the corner of his eyes.

On his body, there is a very thin, very faint white light, which protects him from being corroded by this gray mist.

Seeing Sima laughed like a beating, Fang Yue wanted to kick him away with a kick.

It's this time, still thinking about cheating.

This character is so bad, how come he is catching up with me?

Modan became more cautious. For the mysterious underground palace, even the strength of Tier 8 zombies was not enough!

However, his soul was dormant in the crystals of life and was not released, so the gray mist could not affect him and erode his soul and memory! "According to the news I have received, the danger on the first floor of this underground palace has been emptied! It's just that the gray haze is really hard to guard against, and no one in the military has set up a garrison! Even if someone enters it, at most Can stay in this underground palace for half an hour

time. Once this time is exceeded, the creatures that enter it will die immediately, regardless of realm and strength! "

Modan introduced Fang Yue and Sima Xiao.

Fang Yue nodded, his spiritual consciousness has spread.

In this mist, in addition to the breath that can hurt the soul and make people depress, there are still faint curses in the air.

The so-called sudden death should be caused by the accumulation of too much curse power in the body.

The curse has no solution, and it is the same in different worlds.

Fang Yue subconsciously moved the red string on his left index finger. This is condensed by the power of the curse. Ability to absorb curses and refine curses.

For others, it is like a nightmare curse. Under the influence of this red line, the opponent Yue couldn't cause too much damage!

"Look, these pillars are actually branded with soul and spiritual secrets! My God, the rank of this secret technique is so high, even in the treasures of my Sima family, the soul secret technique of this rank does not exceed The number of ten books!"

Sima Xiao walked to a scarlet pillar that was hugged by several people, and his two eyeballs were about to come out!

The secret technique, inheritance, for the disciples of the aristocratic family, is probably even more attractive than the amazing secret treasure. After all, no matter how strong the secret treasure is, only one person can use it. For the family, the enhanced strength is relatively limited.

And a piece of peerless exercises, immortal inheritance, it is possible to create countless strong people. Generation after generation, let that family survive forever!

Fang Yue also randomly selected a pillar and watched the soul secret method in it. This is a secret method of soul defense, although it is far less powerful than the mystery recorded in the "Soul Truth". But it also belongs to the top of the human world, and there are many places worth learning and learning!

And the methods recorded in the "Soul Truth" are too advanced for Fang Yue!

He could hardly display most of the secret methods.

Either the cultivation base is too strong to support the powerful consumption of the secret method. Either his realm is too low, it is difficult to understand the profound artistic realm in those secret methods.

"The Nine Turns of Thunder God Art" condenses minds, meditates on Thor, and constantly transcends in the thunder tribulation, sharpens the soul, and turns from pure Yin to pure Yang! This is a legendary exercise! In the world of Xuanhuang, there is only Fragmented scroll, I didn't expect that a complete chapter was printed on this pillar!"

Sima Xiao suddenly exclaimed. He gradually walked into the palace. I saw an extremely strong pillar with countless tiny texts as tiny as tiny, these texts constitute a scripture!

Sima Xiao's gaze fell on this scripture, his gaze was hard to look away!

In a pair of eyes, there was a sparkling lustre, and he even couldn't help but drew his hands together. He wanted to practice this exercise now!

"not good!"

Fang Yue was suddenly startled. Drink immediately.

"wake up!"

Fang Yue's voice, like Hong Zhong, like a divine initiation, shocked Sima's smile.

The obsessive expression on his face disappeared, and he took a closer look again. On this red pillar, where there is any "Nine Turns of Thunder God Art", all are bare, there is no word at all!

"Well, what is going on?"

Sima smiled with a look of astonishment on his face. He clearly saw the scripture "Nine Turns of Thunder God Art" on the red pillar just now. Even every point of the exercise route is similar to the fragments in his memory. Fang Yue snorted coldly: "This is heart magic! It is also a kind of subtle and mysterious method. What you see is the thoughts and thoughts in your heart that your heart demon is seduced and transformed into! "Nine Turns of Thunder God Art" is a scripture of immortals, how could it appear in such a place! This palace evil door

It's very, even if there are no monsters at work, ordinary people will be killed if they enter it! "

Sima Xiao looked at the column filled with scriptures in surprise. He no longer dared to cultivate easily, and there was no pie in the sky.

Some things that look like pies are actually bombs!

Fang Yue spoke again. "In the scriptures on other pillars, some of the secret methods are true, without any modification or omissions, and some are traps evolved from mental magic. If you practice according to the above records, what greets you is not becoming a god, but the heart. Demon possessed and set himself on fire! There were also scriptures on the pillars,

There is a big problem, and it is definitely not a problem to start practicing, but as the practice deepens, the magic seed will be planted! Eventually become slaves and followers of some people! "Fang Yue, his vision in this respect is not low, especially since he has mastered many aspects of the "Soul Truth", a little bit of comparison, you can know the trap!

Chapter 474: too easy

Sima laughed and stunned in a cold sweat: "The people who left the underground palace are really insidious! They actually set up such a trap. If all are fake, although it can confuse some people, it is easy for people to discover. The clue! But nine true and one false, this method makes people

The hardest to guess! ""sinister? Not counting! This palace is the place of inheritance of my crystal civilization! The purpose of establishing this palace is to screen out strong enough inheritors for my crystal civilization and to welcome the resurrection of the ancestors of my crystal civilization! Without enough talent and eyesight, how could it become the heritage of our crystal civilization?

Inheritor! "

A figure of nothingness gradually condensed.

The gray haze has become the element that builds this figure's body.

This is a middle-aged man with long hair and beard, and a gray cloth coat. He is unsmiling, not angry and mighty. He looks like a literati in ancient times!

The middle-aged man has long and narrow eyes, a pair of black eyes, pure and flawless like jade! He looked at Fang Yue and looked at it repeatedly, as if he was going to penetrate his body and see through his soul essence! "Yes! Yes! Your body is full of vitality. If there is a fire burning, your soul is restrained, and your potential is huge. It is far beyond your cultivation level! More importantly, I feel the thunder in your soul. Breath! It seems that you often encounter thunderstorms to temper your body and soul

! We are turning from pure yin to pure yang, striding towards the true meaning of fairy law! "

The words of the middle-aged man benefited Fang Yue quite a bit.

He also felt that his body and soul were very good!

But what does the back mean?

Are you struck by lightning every day?

Mud grandma! Does anyone talk like that? "As the spirit of this palace, I allow you to be a candidate for this inheritor! If you want to enter the second-story palace, you only need to record the nine elements in this palace within half an hour. Find the pillars of the secret method, and then start all the nine secret methods!

Returning to one, these nine secret methods can evolve into a spiritual supernatural power! The evolution of supernatural powers is the key to entering the second floor of this palace! Otherwise, even if the saints come, they would never want to step into the second half of the palace! "

The middle-aged man, with sonorous words, exudes a breath of awe-inspiring aura!

The number of paths he walked should be Confucian Taoism, a sub-collection of classic poems, and finally a sage heart!

"Nine secret methods, evolve a magical power!"

Sima Xiao heard the middle-aged man's remarks, and immediately showed a very shocked expression.

Moves, secrets, magical powers, cherish the same!

Ordinary practitioners, all the exercises are martial arts moves, only some people with a big background and great background can obtain secret methods, summon gods and demons, and control thunder and lightning!

And supernatural powers are generally cultivated by nature, sensing the world, and brewing!

Only a few saints, with extremely high cultivation bases and the unity of nature and man, can create their own magical powers!

This kind of supernatural power is difficult to cultivate and cannot be passed lightly!

And on the first floor of this palace, there is actually a spiritual supernatural power, which is simply incredible!

Sima smiled and fumbled for a long time, but he did not discern which nine pillars were branded with the true essence and mystery technique.

However, Fang Yue didn't move his steps when he heard the middle-aged man's reminder. Instead, he looked at the middle-aged man with a playful look. "Why? Do you have no confidence in completing our inheritance assessment? If not, I can send you to the palace! People without courage and faith are not worthy to be our inheritors! Even though our civilization has fallen, The strong have withered, but the glory of the past

We can't help but defile! "

The middle-aged man's words suddenly became intense, and in Fang Yue's eyes, he seemed to be a magic stick!

"No, no, no! I am not without confidence, but I think your assessment is a bit too simple, so I can't believe that no one has passed this first level assessment to enter the next level after such a long time. In the palace!"

As soon as Fang Yue said this, the middle-aged man seemed to be greatly irritated, and his eyes were red and he looked at Fang Yue. "Boy, don't speak wild words! How could our assessment be simple? There are a total of 108 pillars on the first floor of this palace, and each pillar is imprinted with soul secrets, some of which are the magic of the heart Evolve, some are variant secrets with hidden risk of delusion!

There are nine secret methods, there is no harm, they can be combined to form a peerless magical power!

Choose nine of the 108 pillars. If you choose randomly, there is almost no chance of success! "

The middle-aged man thinks that Fang Yue is self-defeating and arrogant.

But he didn't expect that Fang Yue would move his hands without saying a word, and strands of starlight would drop down!

Shrouded in stars, the sky of the palace immediately changed into an endless starry sky, and the light of the stars enveloped the world, making the middle-aged man stunned.

"How is this possible? Just now you found a truly perfect secret method by yourself?"

Fang Yue ignored him, but said to himself.

"Essence mystery, the soul of the stars!"

Fang Yue's voice was clear and clear, and seemed to echo this starry sky!

And the middle-aged man looked at Fang Yue and was in a daze. He didn't expect that Fang Yue's talent could reach this level. Without knowing the content of the assessment at all, he can choose the real secret method. Moreover, the secret technique he chose was still quite difficult to cultivate. In the era of the Third Civilization, even a talented teenager who wants to comprehend the secrets of the starry sky and practice it requires at least

Ten days and a half months.

This young man, when did the starry sky secret evolve so perfect!

When the middle-aged man was in a daze, Fang Yue had already begun to explain the secret method of the soul of the starry sky.

"The soul of the starry sky moves the power of the heavens and the stars, swallows the universe, and refines the soul! Starlight shrouds, the soul emerges from the body, breathes out every night, absorbs the essence of the sun, moon and stars, and can improve the progress of one's own soul cultivation by three times Double!" The middle-aged man suddenly said nothing. Seeing that Fang Yue's gaze had changed awe-inspiringly, he realized that this young man might indeed become the inheritor of the crystal civilization, learning all the methods they had previously studied. Resurrect their ancestors, and renew the civilization that was dissipated between heaven and earth

Come back!

"It is indeed commendable to be able to find and comprehend a subtle and mysterious method in such a short time! But this second secret method..."

Not waiting for the middle-aged man to finish.

Fang Yue already waved his palm again, his palm enlarged infinitely, stirring Qian Kun, and smashing the stars! All the stars, the sun and the moon, disappeared between the heaven and the earth, turned into the dust of the universe!

Then, these stars began to revolve around a point involuntarily.

Eventually turned into a huge cosmic vortex.

This cosmic vortex is a huge galaxy. The stars scattered between the sky and the earth have order and regulations.

"The second secret method, if I am not wrong, should be this one, the vortex of the universe! From chaos to order, from nothingness to existence! It represents an evolutionary process of the origin of the universe and is part of the order of heaven and earth!"

Fang Yue muttered to himself. But the starlight in the sky was mixed into one, and it was forced into Fang Yue's body. Let his soul shake suddenly and become condensed!

"Gather the stars, gather together and unite! Daigo empowers, tempers the soul! This secret technique can only be used occasionally. If it is used frequently, it will probably cause the soul to suffer because of the lack of nourishment! But once the body is infused, it will be harmed. It's worthy of half a month's daily meditation!"

Fang Yue continued to talk freely.

On the sideburns of the middle-aged man, drops of cold sweat were already falling down the hair.

"Yes, nothing is wrong at all! This is the second secret technique, breaking through chaos and reshaping order!"

The eyes of the middle-aged man looking at Fang Yue were no longer appreciation, but fear!

There are monsters here, there are monsters here.

If he is not a monster, how could he find the second mysterious method in such a short time and cultivate it successfully!

This cosmic vortex was a taboo in the era they were in.

Because of this secret method, it is possible to produce strong mental powers in batches, and it has a miraculous effect on breaking through the bottleneck!

In the era of crystal civilization, only great pharaohs or pharaohs could master this mysterious technique.

If it wasn't because their civilization was completely destroyed in that boundless catastrophe, how could they take out such a precious secret technique and let an outsider practice it at will!

"I don't believe it, you can still cultivate the third secret technique!"

The middle-aged man's eyes were blood red, and Fang Yue was challenging his bottom line of common sense.

"The third secret method is indeed difficult to practice! Because it contains not only the path of the stars, but also the path of primordial magnetism in the path of the earth! Gravity attracts each other, and finally condenses into a huge star, burning fire. , Dominate the starry sky!"

Fang Yue's palm waved again.

In the center of the vortex of the stars, a huge star slowly formed.

In the geography textbook Fang Yue studied in his previous life, this planet is called the Red Giant Star!

Its gravitational force is so great that the surrounding stars will be attracted and eventually collide, destroy, and become a part of it!

When the red giant star appeared, the surrounding space was slightly distorted.

Fang Yue's soul faced the red giant star far away. It absorbs the endless and endless tiny mental fragments around.

All beings have spirits, whether it is flowers, birds, fish, insects, or bacteria and viruses, they may not have their own will, but at least they have the instinct to survive.

This instinct for survival is the evolution of their spiritual power!

And Fang Yue swallowed all these small but huge fragments of mental power, turning them into a mess of filthy mental power.

Although this filthy mental power cannot be refined, it can be used to cast spells!

The number of these creatures is too huge.

Even though the mental power of every creature is quite limited, but when gathered together, they can also perform powerful taboo spells! "This magic method is like the sea of rivers and rivers. It is not for cultivation and growth, but simply to kill the enemy! Condensing the mental fragments of thousands of surrounding creatures, displaying a forbidden blow. Although it is powerful, it can't do it. Fine control, it is easy to hurt others and yourself, and even make the enemy easy to avoid!

"

Fang Yue's evaluation of these three secret methods is not very high.

And the middle-aged man was completely silent. In a daze, he remembered that before he became a tool spirit, he had heard the Pharaoh said similar words when he taught him this type of mysterious art!

Chapter 475: Hunyuan hit

This technique is taboo, hurting others and hurting yourself. Use it with caution!

Immediately afterwards, the fourth, fifth, and ninth secret techniques were displayed along with the continuous evolution of the starry sky above Fang Yue's head.

On the contrary, the middle-aged man had been stimulated by Fang Yue to his brain numbness, without any surprise.

This is simply a monster.

We are all normal people and don't fight against me.

Middle-aged men can only comfort themselves in this way!

In the end, in the starry sky, the nine secret techniques were completed.

Fang Yue pointed at Yaoyao in front of him.

A whole starry sky has turned into a single point of light.

A beam of black light shot towards the void in front of Fang Yue!

"Supernatural power-Hunyuan's blow!"

Fang Yue murmured in his mouth.

This beam of ordinary black light is the assassin of the nine secret arts!

Converging the power of the stars, all the laws, the power is compressed to the extreme, nothing is unbreakable, and nothing is unbreakable!

The void split, and a portal was born immediately.

This gateway is the gateway to the second floor of the underground palace.

As for the door to the end of the first layer, it is simply a huge trap.

There is a world of monsters connected there. Breaking into it, ten deaths and no life, it is impossible to get any chance!

Fang Yue, Sima laughed, and the magic pill stepped into the void portal one after another.

The second floor of the underground palace is no longer as simple as a few big red pillars!

This is a house full of scriptures, superimposed, there are probably hundreds of millions! Every scripture turned into a book demon, and only those whose strength surpassed them can surrender these book demon and read the content.

"Hehehe, after waiting for so many years, finally someone has come to the Dongtian Bookstore!"

"I want to drink his blood, I want to eat his meat!"

In the eyes of those book monsters, Fang Yue had completely turned into the delicacy on their table.

Fang Yue looked at these book monsters, feeling a panic in his heart.

Even the weakest book monster, I am afraid that they have the strength of the cultivation base of the world realm.

Dongtian Bookstore, a total of 18 floors!

The three innermost layers have all been transmitted by the coercion of the world-famous saint!

"The test of this second-story palace is not to surrender these book monsters!"

Fang Yue suddenly thought of a very unreliable assessment standard. And the middle-aged man nodded very surely, "Yes! These exercise scriptures are the essence of our crystal civilization. You will stay here

for a thousand years and learn the contents. ! How much you can learn depends on your good fortune, of course, your inner learning

Rong must do what he can and match your realm of strength! Otherwise, being killed by the Book Demon would really become a joke! "

The man in the middle looked at Fang Yue.

Fang Yue suddenly rolled his eyes: "A thousand years? Can't this be shorter?"

It has only been a few years since Fang Yue practiced, and since he fell to the ground, he has lived for more than 20 years!

Let him stay in this place with Sima Xiao, Mo Dan, the two great masters for a thousand years?

This shouldn't make him feel so tired! "A thousand years is too long for you? Do you know that all of this is the essence passed down by the ancestors of the crystal civilization! I don't know how many people who are trapped in a certain realm bottleneck, or even a saint? The strong, can't wait to stay here for a while! You really

It's because you don't know the blessing in the blessing! "

The middle-aged man reprimanded Fang Yue, he felt that Fang Yue's request was simply too naive!

Fang Yue pouted, disapproving of the middle-aged man's statement.

"If you think this is a blessing, then you can stay here by yourself! The little master staying here for three to five days is already the limit, a thousand years, impossible!"

Fang Yue was also very determined.

What is this practice for?

It's not for becoming immortal, it's not for immortality.

In Fang Yue's heart, the real purpose of cultivation is to gain strong strength, to travel around the sky without restraint, to enjoy the endless world of flowers and flowers!

What is the difference between letting him spend a thousand years in this cave where the birds don't **** and go to jail!

The middle-aged man sneered: "This is the rule left by my crystal civilization ancestors. Do you think you can resist with this strength of yours?"

"Don't let go?" Fang Yue was taken aback.

The middle-aged man nodded: "Be obediently studying the inheritance of the crystal civilization for thousands of years! You must know that being the inheritor of the crystal civilization is a great blessing for you. When you become a holy immortal, you will Thank you for leaving you here today!"

"Thank you? Yarn! Don't say being a fairy is holy, I feel like I can be here without becoming a lunatic, thank God!"

Fang Yue curled his lips, with a helpless expression on his face!

"No matter what you say, as long as you don't have my permission, you can never leave this underground palace for half a step!"

Middle-aged men are extremely stubborn.

Fang Yue's eyes narrowed, as if he could hear something from his words.

"Then you mean, if you allow me, I can leave this palace?"

The middle-aged man snorted coldly: "It is true. I am the spirit of this palace. I am in charge of all the rules. But do you think you can really leave this palace with your strength?"

"I can't! But I can find someone!"

Fang Yue's eyes were brighter, and these two cargo spirits actually guided himself a way out.

"Calling people? Hahaha, the palace is tightly guarded, even the saints cannot enter the palace directly from the outside!"

For his own strength, Qi Ling has considerable confidence.

A sly smile suddenly appeared at the corner of Fang Yue's mouth.

"Who said I want to call someone from the outside? Can't this reinforcement be brought along?"

"Teacher Ruyizi, it's time for you to debut!"

Fang Yue called in a low voice.

A figure slowly emerged from the crowd.

I saw that an old man slowly walked out of the void, his spirit was strong, and a pair of eyes flashed with wisdom.

Ruyizi appeared, and the majesty of the Great Sage immediately fell!

The spirited middle-aged man was stunned and muttered to himself: "This...this...how is this possible!"

The Great Sage, even in the age of their crystal civilization, there are not many!

On this day, there are thirty-six layers of Gang Thunder Tribulation, and each layer can trap the endless saint!

If you want to become a great saint, you must spend all the gods and evil spirits! The characters of that series are legends in the crystal civilization, even before he became a tool spirit, he had only seen it once!

"Fang Yue, you cheated!"

The sharp middle-aged man screamed! He pointed to Fang Yue, his face was full of anger, and he no longer had the boldness of being a Confucian scholar who had never changed his face!

Fang Yue glanced at him: "Cheating? I'm just looking for someone to help!" Ruyizi looked at the spirited middle-aged man and nodded slightly: "A saint weapon is worth my shot! But this saint weapon, seems to be a sacred artifact of the inheritance, you need Fang Yue to accept the inheritance to completely refine it! Otherwise, it can only be suppressed, and it cannot be refined.

Transform, conquer!

Only if you get the inheritance from Fang Yue and cultivate it to a certain level, can you leave your mark on it and be recognized! "

Fang Yue respectfully responded: "I know the teacher!"

"Ok!"

Ruyizi didn't say any more, a pair of indifferent eyes looked at the middle-aged man who was transformed into a spirit: "Are you going to submit yourself, or are you going to resist and let me kill you?"

Ruyizi's voice was cold.

Let that spirit middle-aged man fall into an ice cave!

He is a dignified sacred artifact, even because it is a treasure of inheritance, it is stronger than other sacred artifacts of the same level, and even more arrogant!

Originally, he thought that the crystal civilization had fallen.

The later practitioners on this deep blue planet are extremely weak. It is impossible for anyone to be his opponent, and no one can force him to subdue him.

But he didn't expect that Fang Yue could summon a phantom of a great saint, so that he didn't even have the courage to resist!

However, as a Confucian student, how could he succumb to the prestige.

"Skills can be killed, not insulted! If you want to get my approval, you must pass a test! Otherwise, it won't work even if the Great Sage comes!"

The spirited middle-aged man, loyal and dignified, suddenly spoke.

Ruyizi glanced at him coldly, immediately like a basin of cold water pouring down from the air, making him cold from head to toe!

"Dare you say it again?"

"Dare! What's not to dare! I am waiting for scholars, with arrogance in my heart, not surrendering to power! Scholars can be killed, not insulted! I want to..."

Before the Qi Ling middle-aged man finished speaking, Ru Yizi's sleeve robe was waved to draw the middle-aged man again!

With a bang, the middle-aged man's body hit the wall, the corners of his mouth were bleeding, and his body was limp. Visually inspecting his chest ribs, at least seven or eight of his ribs were interrupted during the impact!

He looked at Ruyizi again, all his eyes were aggrieved!

"Great saint, strong man, deserve dignity! How can I wait for the little weapon spirit to start?"

The middle-aged man no longer dared to shout loudly, but complained in a low voice.

Ruyizi sneered: "Those who obey me will prosper against me and die! I care about your state and identity! I just ask you, do you obey or disobey! If you do, then follow Fang Yue's dispatch! If you do not agree, Then don't blame me for my ruthless action and beat you down!"

When Ruyizi opened her mouth, a full of bandit spirit flowed from her words.

The Qi Ling middle-aged man was aggrieved, "Why are you like this!"

With a "click", Ruyizi's feet stepped on the chest of the middle-aged Qiling man, and his chest ribs were broken off again.

"Stop talking nonsense with me, are you convinced or dissatisfied!"

Ruyizi's brutal and domineering appearance has already scared Sima into a daze!

Sima laughed in Fang Yue's ear and whispered: "Fang Yue, this is your teacher of the legendary Great Sage Series! My God, this is much tougher than Yin Susu! But I think How can he look like a Liu Mang and a gangster!"

Fang Yue helplessly spread his hands, he knew that his Ruyizi teacher would be such a virtue!

Some time ago, Fang Yue told Ruyizijiang the story, telling him the Shanghai Beach Xu Wenqiang or something.

As a result, Ruyizi was unwilling to be interested in the big guys, but instead liked the arrogant style of the little gangsters on the beach.

According to Ruyizi.

"Big man should be like this!" So, this is what Ruyizi has today!

Chapter 476: I served

It doesn't matter if you want to chase stars.

This is a middle-aged man who has suffered from a sacred instrument spirit. As a sacred instrument spirit, when did he suffer such a sin!

When someone stepped on his chest, he didn't even have room to struggle!

"Are you convinced?"

Ruyizi's voice is like a thunder, forcing it again!

Qi Ling still wanted to be hard-headed, saying that he was dissatisfied, but when the words came to his lips, he couldn't say it anyway!

This gangster is simply awesome!

Don't pay attention to identity and face! If he continues to dissatisfy, he will still have to be beaten.

The hero doesn't suffer from the immediate loss, huh, let's give in temporarily, and wait until the big guy leaves, and see how the buddies clean up Fang Yue!

"Served, I took it!"

Qi Ling's mouth shouted to be convinced, but there was still a ruthless light flashing in his eyes.

Ruyizi lifted her feet, and then pressed a palm onto Qi Ling's body.

The middle-aged man struggled slightly, but to no avail.

"This, what's going on? How do I feel that my power is sealed, and I actually don't even have one millionth of the power in normal days!"

The middle-aged man screamed in horror.

He was also a master at the saint level. But after encountering the seal, he has at most the level of Heaven and Earth Realm!

Ruyizi handed a paper talisman to Fang Yue.

Then he said: "I can see that you are rebellious. If you say that you are convinced after I leave, you will definitely be dissatisfied in your heart! You will take action by Yue! Then use him to threaten me, so I will Only Fang Yue can gradually unlock your seal of strength!"

Ruyizi's thoughts are delicate and his Jianghu experience is extremely sophisticated.

How could he be deceived by a weapon!

With one move, Fang Yue's worries were completely eliminated!

Fang Yue played with the paper talisman in his hand and immediately laughed.

He looked at the Qi Ling middle-aged man and said provocatively: "How about? Are you really convinced now?"

"Humph!"

The Qi Ling middle-aged man turned his head and ignored Fang Yue, as if he was angry with Fang Yue like a child!

Even if this guy has his own life and death door, what should he do?

The noble status of oneself is definitely not something such an unlucky child can easily handle!

Fang Yue didn't care about Qi Ling's reaction. As his cultivation realm grew, this guy would succumb sooner or later!

Fang Yue clasped his fists again and begged Ruyizi: "Teacher, do me a favor and take out a crystal skull on the third floor of this palace!"

Ruyizi nodded.

An instant shot of his palm.

In this palace, layers of institutions, all kinds of obstacles, as if they were in vain, were caught in the hands of Ruyizi.

A crystal skull appeared in front of Fang Yue.

Ruyizi only gave it a whisper after putting it on the ground, and carefully observed it. "Fang Yue, this crystal skull is amazing! This is an external incarnation! You only need a ray of divine thought to enter the Lord, and it is equivalent to a clone whose strength is comparable to the level of the leader! Just, outside this body The avatar cannot provide you with rules, although it is not easy to die, but attack

The ability is also quite limited. And if you use this thing, you must be cautious. Because it is easy to be coveted by others, even if it is a real leader-level powerhouse, if you find it, it is estimated that you will not let this crystal skull go! "

Ruyizi reminded Yue carefully.

Fang Yue nodded again and again, loving this crystal skull! Seeing that Fang Yue had nothing to do, Ruyizi said again: "While my body still has a little surplus, I will travel in this deep blue world! Different civilizations can often collide. The spark of creation! Maybe, I stay here for a while

It can give me inspiration again and break through the shackles and shackles of cultivation base! "

After Ruyizi finished speaking, without waiting for Fang Yue's response, the monkey left anxiously!

Fang Yue did not leave in a hurry, but summoned Barrow.

"This crystal skull is here, you can inspect the goods! If there is no problem, my assessment should be passed!" Barrow glanced at the crystal skull and nodded: "No problem! But, Fang Yue, you It's really amazing, even the dharma body of the great saint-level powerhouse will personally shoot to protect you! However, the gods and demons recruit disciples and conduct assessments. Except for individual tests, everything else is not considered extraneous.

Power influence! External forces are actually part of their own strength! There are great saints who can protect the way for you! It's also a kind of good luck for you! "

"What about my reward?"

Fang Yuehou is anxious, he is not uncommon for a disciple of the God Demon Sect.

Although the Gods and Demons Sect is the supreme sect in the entire universe, it is a great heritage!

But the position of that sect is not known, and it is said that the strong inside are as old as Barrow.

Even if he worships into the sect, he may not receive much protection and help!

On the contrary, with Ruyizi, the teacher defending the way, Fang Yue can walk sideways in the Xuanhuang world! The Great Sage's Law Bodies can be called at any time.

I am afraid that even if he is a direct disciple of Taiyi Sword Sect, he may not be treated like this! "As an S-level reward, I have decided to give you one hundred thousand original crystals! This original crystal is the original substance that makes up the world! Even the saints will flock to them, constantly refining the original crystals to strengthen themselves! I know that you cultivate like you For the scum of very low level, I didn't see it at all

This kind of thing through the original crystal..."

The show of Baro Baro Baro Baro raised a sense of superiority.

Fang Yue frowned suddenly. self-mumbling.

"Essential Crystal, such a familiar name! Oh, yes, I almost forgot, I seem to have got some original crystals when I was in Yan Country! Barrow, are you talking about this kind of thing?"

Fang Yue's palms spread out.

The size of a baby's fist, a crystal clear stone emerged!

It is radiant and colorful, constantly changing with different luster!

Barrow's eyes widened, and all the words he wanted to show off later were held in his own heart, and he couldn't even jump out a word!

"How is it possible! Fang Yue, how can you have the original crystal in your hands?"

Barrow's eyes are almost staring out! Fang Yue had more and more secrets. The crystallization of origin would definitely not be given to him by Fang Yue's teacher of the Great Sage Series. Because the origin crystallization, unless it reaches the level of a saint, it cannot be refined at all. On the contrary, everyone is innocent, carrying a lot of guilt and carrying a pile of origin crystallization. If the news leaks, you will definitely encounter

To the red-eyed jealousy of a bunch of saints!

Fang Yue felt Barrow's expressive surprise, but he was full of beauty in his heart. No wonder this guy loves him so much. The feeling of pretending to be 13 is so wonderful!

"It's my genius to be able to get the original crystals! You don't have the right to ask about more details! One hundred thousand original crystals! Get them all! With this thing I don't need it for the time being, but I believe it will be soon It works!"

In the end, Barrow handed over one hundred thousand original crystals!

This is something that can seduce saints!

If it works, it can be of great effect in the future!

Oh, yes, the nine treasure chests of the Wind Clan had not been opened that day! There should be a lot of original crystals in it too!

Fang Yue's task is considered complete.

Although it is an S-level task, it is simply not dangerous.

Sima Xiao had a new understanding of Fang Yue's strength again!

No wonder this guy is always arrogant, and there is a great saint-level powerhouse guarding the way, even he is far from that treatment!

In the end, Fang Yue and Sima Xiao left the underground palace with the sad eyes of the little wife of the middle-aged Qi Ling man.

And when they returned to the institute.

The entire institute is already in tatters!

In the sky, a group of Taiyi Sword Sect's disciples Yujian flew, dark and black, covering half of the sky! Among them, there are disciples of the Xiantian realm, and even the powerhouses of the Heaven, Earth realm and Rotating Realm!

On the ground, there are hordes of zombies, as well as military personnel, fully armed, facing the disciples of Taiyi Sword Sect who fly with swords in the sky!

"What's the situation! Dark blue Star Wars aliens?"

Fang Yue raised his head, looking up at the dark sky, a large area of Taiyi Sword Sect disciples, he felt his little heart, in his chest, always pounding, pounding!

On the ground, there are already broken limbs, blood and blood!

Almost most of them are the corpses of military soldiers, occasionally mixed with the corpses of one or two disciples of Taiyi Sword Sect!

The vaguely flesh-and-blood scene, a well-established research institute has become a veritable slaughterhouse!

"Strangulate the natives to avenge Xu Qing and Xu Bai!"

"Strangulate the natives to avenge Xu Qing and Xu Bai!"

The whole sky is full of the same sound.

Fang Yue was stunned by mistake: "Xu Qing, Xu Bai, were they really killed by me?"

Originally, Fang Yue just wanted to add obstacles to the two of them. Who would let these two guys take aim at him and treat himself as prey!

But I didn't expect that these two people actually fell in the hands of the military, and their lives were lost under Huangquanjiyou!

"No, Xu Qing and Xu Bai didn't die! They were just seriously injured! Fang Yue, where do you look, isn't it the two brothers Xu Qing and Xu Bai?"

Sima Xiaoyao pointed forward.

Sure enough, Xu Qing and Xu Bai were recovering from their injuries on a stretcher. Both of them were pale and bloodless, and their injuries were very serious. It is possible that it has affected its origin!

"Oh, I'm not dead yet! Cut, it's still so loud."

Fang Yue felt that this Taiyi Sword Sect was a bit fussy, and was a little disapproved of their extreme coping methods! Sima Xiao sneered: "This is the tradition of the Taiyi Sword Sect. Their sect, known as the leader among the hundreds of millions of human sects, values their own face very seriously. Not to mention Xu Qing and Xu Bai, these two Taiyi Sword Sects are extremely The important seed disciple was injured, even if an ordinary disciple met

When something happens, this Taiyi Sword Sect will kill the Mountain Sect Tuzong! "

"It turns out that Taiyi Sword Sect is so domineering!"

Fang Yue and Taiyi Jianzong were enemies and killed many of their disciples and elders.

Originally, Fang Yue thought that this Taiyi Sword Sect was also called Huanshi, but he didn't expect that he would actually do it!

"You foreign invaders! Do you really think that our military has nothing to do with you? Now you stop at the level that you have returned. If we really wait for us to kill, then everything will be too late!"

General Locke was covered in blood, and under his feet, there were three or five bodies of Taiyi Sword Sect disciples hanging out! This scene looks extremely cruel.

Chapter 477: Xu Qian

The corpses were everywhere, blood flowed into rivers, there were corpses everywhere, and dead souls everywhere.

Taiyi Jianzong seems to be powerful, but in fact it does not have much advantage! Because this is an away game, there are military personnel everywhere! But Taiyi Sword Sect is powerful only by individuals, and the tricks that stand against the crowds, even if it is life for life, can change them from life to death.

What's more, this military can occupy No. 012 city. It must be a strong person who has his own background and is not afraid of general rotation. Taiyi Sword Sect is very arrogant. One of the young leaders who does not know his life said: "You aboriginals who dare to speak hard when they die. If you offend our Taiyi Sword Sect, it is a dead end. There is no other choice. I advise You still obediently submit, otherwise, after death

Even the bones will be incomplete! "

The people of Taiyi Sword Sect have always been domineering, how can they yield to the natives, not to mention, now it seems that they are in an advantageous situation.

General Locke looked at this group of illiterate people who didn't understand the powerful technology with pity, and then sighed: "It's not that I am bloodthirsty by nature, but that these people are really killing themselves! If this is the case, then I will send you a ride! "

General Locke's voice fell.

With a bang, outside the universe, a beam of several meters in diameter crashed down.

The leader of the One Realm disciple who was still teaching General Locke just now was instantly evaporated from the world!

Fang Yue could see through a pair of yin and yang eyes that this guy's soul after losing his body was still standing in a daze, without knowing what he had experienced!

"What I said, everything was not my intention! I gave you a chance, but unfortunately you don't know how to cherish it!"

General Locke, this is a typical example of getting cheap and selling well!

When Fang Yue saw such a scene, his whole body was blown up!

This thing is terrible! It is the light from the falling satellites in space. It is silent and unpredictable. The key is that it is extremely fast, and there is no time for reaction at all!

Of course, this beam of light can be weakened through the layers of the atmosphere, and when it hits the ground, it can crush a leader of a young disciple of Taiyi Sword Sect. The energy consumed is definitely an astronomical figure!

Fang Yue noticed that General Locke seemed relaxed, but the corners of his mouth twitched again.

After this shot, millions of star crystals were evaporated out of thin air! "Aboriginal natives, you have the courage to eat the bear heart and leopards, dare to deal with me, the young leader of the sword sect! Do you know the identity of this young leader? He has a huge background, and he can live alive. Scared you to death! Even if you are natives, all add up to

Not as precious as a little finger of this young leader! You even killed him, just wait for that lord to come and destroy you! "

An elder in charge of protecting the road tremblingly said.

Talking about that big man, even he felt scared in his heart!

"It's all dead. It's useless to say more. I'm giving you a chance to surrender unconditionally. Otherwise, you will all die here. Don't blame me for being merciless!"

An indifferent expression appeared on General Locke's face.

Those disciples of Taiyi Sword Sect shouted in unison: "Deem death as home!"

The disciples of Taiyi Sword Sect are extremely united in this respect! They never worry about death, and each fight for the honor of the sect!

They understand that everything they own is bestowed by the Taiyi Sword Sect, and they are arrogant and domineering on weekdays, but in a critical period, everything will not be ambiguous!

"A group of dead men, this Taiyi Sword Sect's brainwashing method is really powerful!"

Sima grinned in his mouth, but he still shuddered involuntarily.

On weekdays, the major forces in the Xuanhuang world are exercising restraint, and occasional disturbances are just rants.

Like the top ten sects, or the supreme family like the Sima family, it is almost impossible to rub and fire casually!

This has also led to the fact that the strength of each family is a comparison on paper. Without a real fight, no one can judge who is strong and who is weak!

However, when Sima Xiao saw the momentum of Taiyi Sword Sect's move this time, he secretly exclaimed, this Taiyi Sword Sect was known as the billionaire sect, the leader, it really was not bragging.

At the very least, relying on the dude disciples in the Sima family is absolutely impossible to contend with the aura of others who regard death as home!

"Then, keep firing!"

General Locke did not hesitate. There is no better way to deal with such diehards. Since people are not afraid, then beat him and be afraid of him! The human spirit always has a bottom line to withstand. If it doesn't work at once, then twice, if it doesn't work, then it will completely evaporate from this world!

Bunches of bright light rolled down from the starry sky!

Ten beams of light fell at the same time. However, they did not achieve the one-shot effect as imagined.

Those disciples of the Taiyi Sect united and propped up a huge mask in the void!

This mask is sturdy, like a tortoise shell, blocking out all the ten seemingly powerful beams.

"The art of combined attack! The way of war!"

Fang Yue fixed his eyes, he saw a gentleman who looked gentle among the members of Taiyi Sword Sect.

He is only the fifth level of the Heaven and Earth Realm, but vaguely, he has stood among many Taiyi Sect disciples.

Such a standing position of the stars holding the moon must signify that this young man has a unique identity.

The way of war, the art of combined attack!

Fang Yue had imagined thousands of possibilities, but he didn't expect that this young man would be good at this. The way of war is one of the most partial of the three thousand avenues. Its strength is

difficult to measure. If it is just a single person, it is almost useless to build this kind of avenue. The power of this kind of avenue can even rank among the three thousand avenues.

In the top three!

Because he can make any battle formation, the power can be instantly increased several times!

And briefly let the people around you communicate and coordinate!

Ten rays of light are blocked!

Those disciples of Taiyi Sword Sect still looked light and gentle.

Although the energy contained in the beam of light was terrifying, it became bearable if it spread to hundreds of people!

General Locke was surprised when he saw this scene.

He knew the power of these beams. When ping city No. 012, the military encountered a lot of resistance. In some families, old monsters in the rotation realm woke up from their deep sleep.

These people, one by one, are called kings of the world, red fairy spirits.

In the end, these beams were extinguished one by one, and there was no scum left!

The beam of light that could not even resist the rotation was actually blocked by the barbarians who descended from outside the sky!

A trace of ominous premonition finally rose slowly from General Locke's heart!

"Ready to save people!"

Fang Yue suddenly turned around and said with a smile at Sima.

Sima smiled slightly stunned.

"Save people? Save who?"

"Dr. Jinli!" Fang Yue resolutely decided.

Among the military, Fang Yue saw at a glance that to him, Dr. Jinli was the most valuable!

In the research institute, the status of Dr. Kinley is probably no less than that of General Locke! And Dr. Jinli still has a lot of information related to zombie research.

Sima Xiao's task is to get the origin of the zombie!

This Dr. Jinli is one of the most important links!

Sima Xiao is also a wise man. When Fang Yue spoke, he understood what Fang Yue meant!

"it is good!"

Sima Xiao looked at Fang Yue, with a flash of excitement in his eyes.

"S-level reward, here I am! Don't let down my expectations!"

The battlefield is changing rapidly.

General Locke, who had the upper hand before and controlled all life and death, had already had a thought of escape in his heart at this moment!

Those monsters that the beam of light can't even kill. In the event of a real riot, and to kill him with all his strength, I am afraid that with his strength, he will be doomed.

Stay in the green mountains without worrying about no firewood!

General Locke was ready to smear the soles of his feet.

At this time, the battle formation has changed from a defensive posture to a sharp attack!

The formation conversion, if it is on the real battlefield, even the best warrior will need three or five breathing time.

However, under the command of the gentlemanly youth, such a change did not even take a blink of an eye.

"Who is this position in the center of the war? Do you have his information?"

Fang Yue looked sideways and smiled at Sima. He always has a hunch that among the top powerhouses in the Xuanhuang world in the future, there will definitely be a place for this young man. "Xu Qian, it is said that he is a young man in the Taiyi Sword Sect. He is a member of the old Xu family among the twelve core families. It is said that he is related to Xu Qing, Xu Bai, and cousins! But he is in the Taiyi Sword Sect. The reputation of Xu Qing and Xu Bai is far less good! If Xu Qing, Xu Bai fell out

If it is prestigious! Then Xu Qian is more infamy! Xu Qian is a well-known dude in the entire Xuanhuang world. With his blood and identity, he takes away billions of spiritual stones from the Taiyi Sword Sect every year, but his progress in cultivation is not fast, 27 Years old is still only the cultivation base of the world, and he has no special

Special cultivation base talent, the level of singles is unsightly!

But I didn't expect that Xu Qian's approach was not a single-deck line at all. They were playing group fights. Those who looked down on him before would probably be dumbfounded! "

Sima smiled with emotion. Sure enough, any disciple of the aristocratic family should not be underestimated.

Just as he was the laughingstock of the Sima family, he made mistakes every day and was exiled every day. Outsiders almost jokingly called him Sima exiled!

Xu Qian is lower-key than him, never showing mountains or dew.

But he is a blockbuster!

If he grows up, this Sima family will probably become his world!

The gray sword light condenses on the horizon.

The ten-foot-long sword crashed down!

General Locke ran around in embarrassment and exhausted all his energy before he escaped from the slash of that sword!

He didn't know his head, he spread a pair of wings behind his back, and disappeared to the horizon!

After all the cards are used, they still have nothing to do with the natives. If they don't run, it is tantamount to looking for death.

General Locke was able to sit in this position, and at a critical time, it was clear who was more important.

As soon as General Locke ran away, the entire army of the institute lost its backbone. Although they were quite large in number, they were already a mob. At this time, Fang Yue had already sneaked up to Dr. Jinli's side.

Chapter 478: Hair is gone

"Doctor, come with me! General Locke is gone, we have no hope of victory here!"

Fang Yue spoke earnestly.

Dr. Jinli suddenly looked at Fang Yue.

"Your voice, why is it so strange? There is absolutely no person like you in my research institute!"

Dr. Kinley's gaze was fierce.

He seemed to have golden eyes.

Fang Yue cursed secretly in his heart, why this old man knew so well, there was no way he wanted to fool him!

"Don't care about these details! Anyway, I'm here to save you! Falling into the hands of those Taiyi Sword Sect disciples, you promise that you won't even be able to keep a complete bone!"

Fang Yue has begun to threaten.

Dr. Kinley is extremely stubborn.

"If you don't make it clear about your identity, I will never go with you! I am a doctor of the military, and I have important information in my hand. What if the information in my hand is targeted by you? It's dead, and it won't reveal the secrets of the military!"

Dr. Kinley is a string.

When he opened his mouth, he felt awe-inspiring, and the five strong men of Langyashan felt possessed!

With his accent, Fang Yue couldn't wait for a brick to be bored here!

"Old man, don't be stubborn, do you want me to be cruel?"

Fang Yue's tone was stronger.

Dr. Kinley already felt a little bit of justification.

"No way! Offended!"

Fang Yue's hand, I don't know when a golden brick appeared, and then it banged on the back of Dr. Jinli's head.

This brick is not an ordinary brick, but a ghost brick carefully refined by Fang Yue spent countless materials!

In addition to a pure physical attack, it also has a soul dizziness function!

Otherwise, how could Dr. Jinli, a powerful person comparable to the first-time rotation level, be thrown down by Fang Yue?

Dr. Jinli's body fell softly in Fang Yue's arms!

Before Fang Yue had time, a disciple of Taiyi Sword Sect who was aiming at Dr. Jinli and was about to take a shot suddenly screamed.

"There are people here, who want to take Dr. Jinley!"

His voice is quite loud and everyone knows what he does.

Whether it was the soldiers of the military or the disciples of the Taiyi Sword Sect, they all fixed their gazes at Fang Yue!

"Damn it, how can this be! I want to keep a low profile, why is it so hard?"

Fang Yue found himself exposed, so he didn't hide his traces anymore.

"Little boys of Taiyi Sword Sect! This Dr. Jinli is mine! You should grab others!"

Fang Yue spoke.

Then Xu Qing and Xu Bai brothers also set their sights on him.

Xu Qing was quite excited: "Yes, he deliberately pointed me the wrong way so that we were discovered by the natives of this world, and then we were severely traumatized in the battle!"

The wrongdoer, the debtor, this time, finally found the root!

Even if Xu Qing didn't say anything, the members of the Supreme Sword Sect would not easily let Fang Yue go.

Dr. Jinli, it is one of their goals this time! Taiyi Sword Sect's large group of men and horses haunted these indigenous peoples, their purpose is not only to fight for a breath, but also to get some important

figures in this civilization, and then ask for information to integrate the systems of different civilizations.
, To make one's vision wider, touch

By analogy, get inspired, let the cultivation realm reach a higher level!

The military also yelled, "Let go of Dr. Kinley! Otherwise, we will shoot!"

If Fang Yue didn't say anything, he ran away with his feet, so he would throw away the fat in his mouth?

Modan looked at him, thinking that he was a man like a **** or a monster, sweating violently.

Sap, knock on bricks.

Isn't this the behavior of street gangsters? How could it appear in such a master!

And this buddy is too tough.

He abruptly attracted the hatred of the two sides that had just returned to his body!

Fang Yue's ability to run is not small, and he shrinks the ground as soon as he gets started.

Originally, Fang Yue's attainments in the Great Dao of Earth were not shallow, and he had seen other people use this method several times before. He just pondered it a little bit and mastered the key points.

Taking one step forward, all the mountains and rivers are all behind him.

When it comes to fighting, Fang Yue dare not say that he has beaten invincible hands all over the world among his peers, but he is definitely one of the best in his escape!

Soon, those soldiers couldn't even see his back.

Even Taiyi Sword Sect's Royal Sword could only eat dirt behind Fang Yue's buttocks.

This product runs so fast, it is simply the reincarnation of a rabbit.

Sima Xiao and Modan had a jade charm left by Fang Yue and were not afraid of chasing them away, slowly dangling in the back. The men and horses of Taiyi Sword Sect tracked them out for dozens of kilometers, and finally returned with a feather. They couldn't even keep up with the shadows of them. How could they find someone! This deep blue planet, although far inferior to the bleak and vast world of Xuanhuang. But if you want to find Fang Yue from a population of tens of billions, it's just like

Finding a needle in a haystack is still difficult.

Eventually they gave up and Xu Qing was so angry that Qiqiao gave up smoke.

Looking at the extremely skilled means of shrinking the ground into an inch, it is absolutely true that the descendant of the world of Xuanhuang is right!

Although people in this world also practice spells, they are far less proficient than disciples in the Xuanhuang world

As for the shrunken magical power he displayed, how does it feel that there are traces of Taiyi Jianzong!

From the details of Fang Yue's hands, the people of Taiyi Sword Sect had no clue at all.

"Report your lord, the location of that palace has been found!"

In front of the gentle young man, a disciple in gray robes came with his sword light and reported himself.

"Well, that's good! You lead the way, I'll see if the legendary palace really contains a spiritual and unparalleled method!"

The gentle face was indifferent, and he didn't care about Dr. Jinli's departure.

Dr. Jinli is not the only one who understands the essence of the civilization of this deep blue planet. Their more important goal is the underground palace where the research has come down.

This is the place of opportunity for a supreme strong man in Taiyi Jianzong, who spent ten years of his life to deduced the performance.

If this supreme spiritual discipline is brought back to the Taiyi Sword Sect, it is enough to give the Taiyi Sword Sect one more method of inheritance of the formation of the law.

The grey-clothed disciple trembled all over, not daring to move, puffy beads of sweat rolled on the ground, soaking the loess beneath him.

"Huh? What's the matter? Don't you dare to move forward?"

The gentle smile on the face of the gentle young man gradually reduced, becoming cold and serious.

According to their plan, the inheritance of that place cannot be lost! Otherwise, most of the meaning of his adventure into the dark blue planet to start the dark trial has disappeared!

This planet that opens the dark trial seems to be impossible, but the mysterious place one after another, if each place can be fully excavated, it means a lot of opportunities.

But this is impossible, and it can even only be a kind of undivided thought.

Because some places are taboo places, and people of his rank can't get involved.

"No, my lord, although we found the place, the so-called palace has disappeared. There is only a space that is about to collapse. I suspect that the palace has been taken away!"

The grey-clothed disciples reported the truth, and when they saw that scene, they were also shocked.

How could an underground palace covering an area of nearly 100 acres disappear out of thin air so quietly!

"What did you say? Disappeared?"

The gentleman was stunned, then looked back again, looking at the disappearing figure on the edge of the horizon.

"It turns out that I underestimated them after all! Their goal is also not just a little Dr. Kinley!"

Xu Qian is not as vulnerable, arrogant and proud as Xu Bai and Xu Qing.

On the contrary, he grew up in abusive voices since he was a child, and he knew the terrible world even more!

The disappearance of the palace did not drive him crazy, but silently calculated in his heart whether there were other remedies.

This time, their action was a complete failure, and Dr. Jinli did not catch it. The palace was also stolen. And they also lost a lot of people.

There was also a son of a saint who fell completely under the bombardment of that beam of light!

"Go to the next place!"

Xu Qian broke through the air and left.

The other disciples of Taiyi Sword Sect followed with their swords.

After everyone left, Fang Yue and Sima laughed, and Modan's voice appeared again.

Fang Yue squinted his eyes, looked at Xu Qian's leaving back, and muttered to himself: "Really a terrible opponent!"

Sima smiled and felt the same. In this generation, among the descendants of the Sima family, there are no longer a few with exceptional talents, and even a few people have been hidden in the snow, and their bloodlines are returned to their ancestors. The existence of the prefecture level.

But when it comes to xinxing, they are just like Xu Bai and Xu Qing, each of them is the number one in the world, and everyone is helpless!

"Forget it, there is no need to deal with them! The future things, no one said that it is not good! If you have time, let's interrogate this Dr. Jinli! Finding the origin of the zombies is the real key!"

Fang Yue is very sensible, he knows when and what needs to be done!

Sima Xiao also nodded, and then took the unconscious Dr. Jinli from Fang Yue's hand.

Then he fed some brown unidentified liquid to his mouth.

"What is this thing?" Fang Yue always felt a sense of grotesqueness and molestation when seeing the liquids of unknown origin. "

Fang Yue said solemnly.

Sima Xiao was stunned: "Indecent uncle, shouldn't it be an underage girl who is obscene? How could it be a teenager?"

Fang Yue pondered for a moment, before he said, "Don't you feel that it's more obscene to blame the indecent youth?"

"@%% ¥%"

Sima smiled speechlessly.

This Fang Yue is really enough!

Dr. Jinli quickly awoke, but his eyes were blank, without any focus.

He looked at Fang Yue and Sima and smiled, with a feeling of despair. "This is Ecstasy! People below the saints, at any level, lose their minds and become servants at your mercy! Of course, the potion is precious and requires countless precious medicinal materials to successfully configure it, and its effect is only one day, after a day has passed, the effect of the medicine is lost, and the person who is given the medicine will recover

Regain his sanity and become mad again! "

Sima Xiao introduced his potion, brown, without any energy fluctuations.

When Fang Yue saw this potion, he felt even more chill.

This thing is really scary, if it is given to him, he will refuse it!

Sima smiled as he wished to interrogate all the news about the origin of zombies. In the end, the results made him shudder.

Chapter 479: Zombie origin

The origin of the zombies is also a relic of Luo Tianzong. The military found four types in total, each representing a different direction.

The zombie virus scattered in the air is considered to be the lowest level of its origin, which can transform humans into zombies. The stronger the body, the smaller the chance of change! This kind of zombie has been created and has unlimited evolutionary possibilities. After a certain number of evolutions, it will break through itself and restore the memory of previous lives. At the same time, this virus has a high probability of mutation, and it may produce unexpected effects, such as flowers, birds, fish and insects all mutate! most

Eventually everything went out of control. The origin of the second type of zombies is another way to become a zombie in a sensible situation, possessing the power of a zombie without losing oneself. This kind of controllable virus is difficult and costly to make! But his benefits are obvious, for some

Long-term cultivation, but for ordinary people with power and power, it is simply the gospel of eternal life, and it has opened a path of cultivation they dream of.

The second type of zombies needs to swallow life crystals to continue to evolve. At the top of the military, many of them are the second type of zombie!

The third kind of zombie origin is the zombie ancestor plan! The military excavated an ancestor of a zombie that had been dried, and then continuously refined and extracted the origin of the zombie to bring him back to life! Dr. Jinli's level of authority is not enough to be able to access the plan of the ancestor of the zombie. He just vaguely knows that the ancestor of the zombie is a zombie that has evolved forty-nine times. The military wants to implant the soul of a big man into the ancestor of the zombie. In the flesh, it was finally replaced, the dove occupied the magpie's nest,

Climb to the sky in one step and become an invincible existence in Yunei!

The fourth source of zombie is the legendary zombie holy emperor! It is the strength of the zombie holy emperor, inestimable! It can swallow the will of heaven and steal the origin of the universe, and only after the zombie evolves to ninety-nine or eighty times will it become the real zombie emperor!

After Sima Xiao got the news, he finally completed his S-level mission.

This was not his own comprehension, although there was a little suspicion of opportunism, but in the end, Black Rose also acquiesced in the success of his mission.

After all, wisdom is also a kind of strength.

If you really let Sima laugh to understand the origin of zombies, the ghost knows that it will only succeed in the year of the monkey!

Sima Xiao's S-level reward is a volume of Scripture.

Sima Xiao began to feel disgusted, but after seeing it for the first time, he immediately felt like a treasure, and he couldn't put it down. "Stealing the sky scroll! Black Rose, you are really willing! Back then, in order to obtain this stealing scroll, Tianji Pavilion did everything possible to attack a forbidden civilization. In the end, they suffered heavy losses, and this stealing sky scroll The scroll was picked up by a passing saint in my gods and demons sect!

Tongtianjiao and Tianji Pavilion have a rather unpleasant quarrel! "

Barrow was surprised.

In Black Rose's beautiful eyes, there was a gleam of light.

"Stealing the sky scroll, I really cherish it, but in my gods and demons sect, there are a group of rough men who only know how to fight and kill. Who can really understand the mystery of this heavenly secret! Instead of letting the treasures become dusty, it is better to be eclectic and gift Sima laughs!"

Black Rose is very optimistic about Sima Xiao.

Fang Yue is jealous, so why is his messenger so good?

Good looks, good character, and caring when it matters!

This messenger of my own, just scream! I'm not doing anything, always wondering how to cheat myself twice!

After waiting for a long time, Sima Xiao finally woke up from the immersion of stealing the sky scroll.

He danced and danced, "The content inside is really great! Change your fate, Ziwei Emperor Star is really fascinating!" "Hmph, this pirate scroll, the content is mysterious, not at your level. Get in touch! Some of the taboo chapters can't be understood even by the heavenly immortals! Moreover, it's said that the reincarnation of the heavens will have their own rewards! If you use the methods too much, sooner or later

Will be struck by heaven's thunder, and heaven will continue to condemn!

It's like those old things in the Tianji Pavilion. In the early days, they can be pinched, and the wind is smooth, but in the later years, they encounter various ominousness, and there are not many that can leave complete bones in the end! "

Barrow is very jealous and seems to be looking down upon others!

He spoke at this moment, sincerely smiling with disgusting Sima.

However, Sima smiled very much.

"Since I embarked on this road, I have been prepared! The practitioner, who is not going against the sky and fighting for his fate with the sky, look at Fang Yue, he did not practice these divination techniques, right? Are you struck by thunder every day?"

Sima Xiao used Fang Yue as an example.

Fang Yue's face was dark.

Is he a lying gun?

I didn't participate in your fight, what are you doing with me!

"Ahem, the task at hand, both of you have already been completed. As far as your status is concerned, you can barely be regarded as a disciple of the God and Demon Sect! However, as a disciple of the God and Demon Sect, you must have the corresponding means! Otherwise, even if you say it, it will be laughable!"

Barrow gave a rare face, he coughed twice, and the other party Yue and Sima laughed seriously.

"What means? Isn't this an identity token that can prove identity?"

Fang Yue is curious that the general sects have many inheritances, and even a single sect has many inheritances.

Therefore, although each sect has some iconic exercises, it may not be suitable for all disciples in all sects, and it is not forced, all disciples practice!

"Barrow is right! Since you are already disciples of the Gods and Demons Sect, you must learn "Ancient Gods and Demons Secret Art". This set of exercises does not require any qualifications and talents, but you must be of the Gods and Demons Sect. The elders in China personally inherit it!

"Ancient Gods and Demons Art" is said to be a kind of exercise, but it represents a supreme method! It is not weaker than any magical powers, as long as the chance is enough, even beyond the world, the most powerful magical powers! "

The smile on Black Rose's face was gone, revealing a rare serious expression.

There was a trembling breath in her eyes!

"What kind of technique, it is so powerful, it is comparable to or even surpasses the strongest magical powers in the world! It won't be your gods and demons sect bragging!"

"God possesses body, even incarnate ancient beast, do you think such a method is strong?" Barrow asked, with absolute confidence in this "Ancient Gods and Demons Art"!

"Incarnate into a fierce beast, possessed by a **** and demon?" Fang Yue slowly widened his eyes. Isn't this special is the ultimate transformation?

Is there such a technique in this world?

If he changes into a unicorn, true dragon, or phoenix, the sky is so big that he will not let him go sideways!

Seeing the surprised expression on Fang Yue's face, Barrow enjoyed it very much. This kid is simply a strange sky, with strength and means far beyond his own realm! Finally, there is a time when he is deflated, which is indeed a rare experience. ""Ancient Gods and Demon Techniques" is a practice method developed by countless ancestors of my Gods and Demon Sect with painstaking efforts and exhausting human, material, and mental energy! There are a total of 108 layers, which corresponds to the number of days of the week! It belongs to It's a rare universal secondary secret technique that can be combined with any practice

Match!

However, the resources consumed by each layer are quite terrifying numbers, so even in the Gods and Demons Sect, there are not many people who practice this exercise to the extreme! "

Barrow introduced carefully.

"Each nine levels of "Ancient Gods and Demons" is a node! Each node can be merged with the soul of an ancient creature! However, the soul of this ancient God and Demons cannot be much higher than the realm of the host itself, otherwise, , It's easy to turn away from the guest and rebirth!"

Barrow babbled and emphasized for a long time.

Fang Yue and Sima laughed very seriously.

But everything that seems to be infinitely powerful, must have its own huge shortcomings.

Heaven is fair, and there has never been such a good thing for nothing!

The more powerful the exercises and secret techniques, the greater the corresponding restrictions!

After listening for a long time, Fang Yue realized that there were three advantages in this "Ancient Gods and Demons Art". First, "Ancient Gods and Magic Techniques" can transform those who practice this technique into the physique of an ancient demon god! Each level of cultivation is a step towards the body of the ancient gods and demons! If it can be cultivated to the thirty-sixth level, it is considered to be the minor level of the ancient gods and demons, regardless of the physical body or

It is the soul, which will greatly increase with it, far surpassing its peers!

Second, "Ancient Gods and Demons Secret Art" is a must-practice secret technique in the Gods and Demons Sect. Only when this method is completed can it be used to display many supporting methods in the Gods and Demons Sect. Third, it is also the most powerful aspect of "Ancient Gods and Demon

Techniques", that is, every nine levels of "Ancient Gods and Demon Techniques" can be integrated with the soul of an ancient **** and demon, and can be transformed into a **** and demon at critical moments. However, the greater the difference between the master's cultivation realm and the ancient gods and demons' cultivation realm, each time you transform

The shorter the time, and the longer the interval required! Everything is pros and cons. As for what kind of spirits of the gods and demons to merge, the host needs to consider it himself!

"Hurry up and teach us this "Ancient Gods and Demons Art"! I can't wait! When I merge with the souls of the ancient Gods and Demons and return to the Sima Family, who would dare to exile me?"

Sima laughed and wondered how to return to the Sima family to show off his power!

He was exiled by the family every day. In the Xuanhuang world, he has a nickname called Sima exiled!

This is shameful! Especially for Sima Xiao, he felt that what he said, he was also a small genius, how could he be exiled with so much face every day?

Fang Yue is not in a hurry.

He has a lot of methods now, one more is not more, one less is less.

Of course, if he could cultivate into "Ancient Gods and Demons Secret Art" with another method of change, he would also be desperate for it!

"Then we will teach them separately! In the process of the infusion of divine consciousness, you may experience a little bit of pain. You must resist this pain, and you must not pass in a coma. Otherwise, the inheritance will be incomplete, and it will appear in the process of practicing later. We are not responsible for any problems!"

Barrow reminded.

Then the inheritance begins!

Countless text patterns emerged in the minds of the two.

Fang Yue's eyes closed tightly and he constantly understood the content in the process of accepting the inheritance. His soul is powerful and vast, like a vast ocean, endless! The so-called load does not exist for him! After a few breaths, Fang Yue accepted the complete inheritance!

Chapter 480: "Ancient Gods and Magic Techniques"

Sima Xiao's inheritance process is quite painful. His strength is good, but it is only relatively speaking. His realm is too low, only the level of the world realm, and the soul does not exceed its own realm too much. Suddenly, countless The influx of information made him feel distraught.

Fortunately, Black Rose taught in accordance with his aptitude, and did not peruse countless information like Barrow.

She has a long stream, and it took a full half an hour to end the inheritance.

After all the information rushed into his mind, Sima smiled and fell down, his eyes turned black, and he immediately became groggy and didn't know anything!

Fang Yue and Sima Xiao both accepted the ancient heritage.

They can be regarded as official disciples of the Divine Demon Sect!

Fang Yue first awoke from the state of accepting the inheritance, and he immediately vomited an evaluation: "It's really cheating!"

Black Rose and Barrow are all looking at the nose, nose and mouth, mouth and heart, as if they hadn't heard.

They also practiced this "Ancient Gods and Demon Techniques", so they naturally understood what Fang Yue meant by cheating.

This secret method, if it can be successfully practiced, is really against the sky, but from the beginning of the practice, it is quite difficult, and the conditions that need to be met are too harsh!

"If you want to cultivate to the first level, you need to surpass your own great realm for a whole level or more of the essence of nine kinds of gods, demons and beasts. Each one needs ninety-nine-eighty-one drops! This kind of thing, you let me Where to find!"

Fang Yue kept complaining.

Black Rose and Barrow felt ashamed, and no one responded. They know that this condition is too harsh, and most disciples of the gods and demons are prepared by their masters and elders. And the two of them are trapped in other worlds. With a ray of soul, self-preservation is very choking, not to mention preparing the blood of those gods and demons for Fang Yue and Barrow

!

"If the essence and blood of the gods and demons is not enough, they can also be used as sub-sacred beasts, and the quantity can make up for the quality. Some people have tried to make up for the lack of quality as long as ten times the number. The first layer can still be completed without any trouble. !"

A kind reminder from Black Rose.

Fang Yue almost passed out.

Damn it!

Sub-shen beast, what concept is that!

In the Xuanhuang world, those are the strongest ethnic groups! Every clan member is the bloodline of the pinnacle of the profound level!

Crossing a great realm, it is estimated that Fang Yue can't kill others, but will be chased all over the world and killed!

Soon, Sima Xiao woke up, and after seeing the harsh cultivation conditions, he squatted and fainted again!

"This is not true..."

Even in a coma, Sima was still muttering in his smiling mouth.

This shows that the child is really hurt.

This time even Fang Yue couldn't help him. He had a lot of wealth in his hands, but he was reluctant to use it for himself! There is no time to take care of Sima and smile!

In order to gather resources, Fang Yue made a special return to the world of Xuanhuang.

The final conclusion silenced him, with an idea of wanting to blow Barrow and Black Rose.

Not to mention the essence and blood of sacred beasts, even the lowest level of sub-sacred beasts, the essence and blood cannot be sold at will!

There are indeed stocks in the Wanxiang Pavilion, but they are all used to suppress the background and cannot be easily sold.

Other places are similar. There are indeed stocks, but they will never be sold to outsiders. They are ready to cultivate their strongest heritage! Everything is prioritized for internal use. As for Tongtian Sect, Fang Yue is an insider, but he did not dare to show up easily. The dark trial hadn't ended, so he bounced back. This kind of thing would cause an uproar. I'm afraid that countless great teachers will target him and ask him the secret of being able to go back and forth to the dark trial at will.

dense!

Fang Yue also found Ruyizi and explained his intention.

Ruyizi rejected Fang Yue quite simply.

"Although I am your master, it is impossible for you to complete everything on the path of practice! In this case, you lack the necessary sharpening and it will not be good for your future practice!"

Fang Yue begged bitterly, but in the end Ruyizi did not agree to help him obtain the blood of the sub-shen beast.

Even Fang Yue even took out the Heavenly Dao Stone, hoping to exchange it, Ruyizi shook his head slightly and said that his accumulation was enough! Only then did Fang Yue understand that this old man is the real bad guy! His clone, after helping him conquer the underground palace, wandered around the deep blue planet. With his great saint-level means, even a clone could take in endless opportunities and providence. natural

No more words.

It turned out that he thought that the old man gave him the doppelganger to protect the road for his safety. He didn't expect that he had a ghostly eye for the opportunity in the deep blue planet!

Others don't help.

Fang Yue decided to find a way by himself, isn't it the blood of the sub-shen beast? Can it be hard to beat me?

Fang Yue's stomach full of bad water began to bubble again!

Over time.

The doomsday calamity in the deep blue planet is getting worse and worse!

After half a month, some of the zombies on the Deep Blue Planet completely awakened their self-consciousness and restored their memories before their lives. They led some of the zombies and broke away from the rule of the military!

Among them were zombies. It is said that they have evolved to the sixteenth level. When they left the military rule, they also personally took action, tearing up a military rotation level powerhouse!

The speed at which zombies evolve and become stronger is frightening!

But what is even more frightening is that in addition to the popularity of human zombies, there are also a large number of animal zombies and plant zombies!

In an old forest deep in the mountains, a piranha with a height of one hundred meters was infected with a mutated virus and became a zombie creature. No one knows how many years it has grown! What a solid accumulation of background.

Anyway, as soon as it appeared, it turned into a human form, directly appearing in the form of a Tier 8 zombie!

It slapped a slap in the face of a rotation realm powerhouse of the Taiyi Sect who was trying to turn it into a pet slave. It became famous in the first battle and immediately became one of the powerhouses on this deep blue planet!

The scourge of zombies has become a corner of the doomsday world.

They are not the scariest existence!

Ten days ago, in some deep mountains and old forests, totems of unknown age awakened one after another!

These totem beasts are sturdier than the other, and they occupy the famous mountains and rivers one after another, and the holy land for cultivation! And the most primitive natives in the deep blue planet that worshiped their tribes also crawled out of the coffin board.

Almost every totem beast will respond to the resurrection of these millions of natives.

Deep Blue Planet, with dozens of unfathomable combat power, is located at the top of the food chain totem beast.

There are nearly 100 million indigenous creatures! These natives, one by one, are physically arrogant and powerful! As long as they are adults, almost all of them are innate realm strength! Like some warriors, the cultivation base of the heaven and earth realm occupies most, and the elders above are all the cultivation base of the rotation realm! Patriarch, sacrifice

What's more, there are strong and weak, the power of Yin and Yang is part of it, and the existence of the leader-level, deterring all directions!

The entire dark blue planet has changed accordingly!

A planet of science and technology civilization that was rooted in red has become a planet of half totem civilization!

"Bah, baah!"

Sima Xiao got out of an old forest deep in the mountains. He is studying the origin and origin of these totems.

"Sima exile, is there any result?"

During this period of time, Fang Yue has been collecting life crystals at all levels, Star Crystal and various high-tech weapons. Now, he is also a high-tech weaponry, and he is about to become a standard arms dealer!

Sima smiled and glanced at Fang Yue: "How many times have I said this, and I warn you seriously, I can't say that I am Sima exile in the future, and I will be anxious to you if I mention this again!"

"Hurry up and talk about business, don't talk about it!"

Fang Yue changed the subject.

Sima laughed and let out a long sigh of relief. "Your guess is correct. These totems are really not awakened in a deep sleep. They come from another world, as if we are all coming from outside! Moreover, the natives are also brought by them, not from Crawled out of the grave! I'll just say, these pictures

Although Teng is powerful, it has not yet reached the point where life and death, flesh and bones, reversing reincarnation, and resurrecting the dead! "

Sima Xiao's smile seemed relaxed.

But Fang Yue could feel the obvious pressure in his heart!

The opponent they faced this time was a totem creature in myths and legends! These totems are stronger than the other! They have the blessing of faith, and countless believers are guarded. They want to kill, even the saints are not sure! However, the two of them had to target these totem creatures. Because, totem creatures have pure blood, at least they are at the level of a beast that can suppress or kill one, then take a part of the essence and blood, and then use the other essence and blood to exchange for other beasts.

, The blood of the sub-shen beast, the two of them can both be promoted! Successfully completed the first layer of "Ancient Gods and Demons"!

If this "Ancient Gods and Demons Secret Art" doesn't start for a day, the two of them will not be regarded as official disciples of the Gods and Demons Sect for a day!

For this identity, Fang Yue said that he didn't care much! Anyway, he is a bachelor, and he doesn't care a lot!

Sima laughed, but it was different. He was a disciple of the Sima family, although he had been squeezed and squeezed by other forces in the family since he was a child, and even exiled all the year round.

But under his nonchalant, hippy smiling expression, he has a deep concern for the family!

In the future, if the Sima family is in trouble, he will definitely be the first to help!

One more level of identity as a disciple of the Divine Demon Sect makes his weight heavier!

The world of Xuanhuang, chaos is coming! Under the calm water, an extremely fierce storm is brewing!

Under the covering of the nest, there are no eggs. Even the Sima family, which is the supreme family, may not be able to escape the baptism of the storm of calamity.

"From other worlds!" Fang Yue muttered silently, and kept sketching in his mind, restoring the condition of the Deep Blue Planet back then! The foreign colonists, who descended on the deep blue planet, may not have destroyed all totem creatures at all. Those totem creatures are either under pressure from outsiders or due to their own reasons.

Because, retreat to other worlds, even their believers were taken away together!

What remains are some abandoned believers and totem creatures who are not strong enough.

Thousands of years later, these totem creatures once again killed themselves, wanting to retake the deep blue planet, which led to the current situation!
