

## God of Life 481

### Chapter 481: Totem blood

Fang Yue and Sima Xiao were discussing how to obtain the blood of the totem creature.

The sky above them.

A shadow suddenly fell down!

A giant bird passed across the sky, like a legendary pterosaur, spreading its wings dozens of feet! Its whole body is in flames, and its exuberant cry can pierce the sky!

Behind the giant bird, there is another blue dragon chasing after him, everything is like returning to the wild land!

"Both are ancient relics?"

Fang Yue grunted and swallowed his saliva! He did not expect that such a creature could be born in this space.

Ancient relics, in terms of bloodline grades, are just inferior to the beasts, they have the blood of thin beasts flowing in their bodies, and they also have the power and magical powers of some of their ancestors!

If evaluated by bloodline level, the sacred beast is the bloodline of the earth level, the sub-divine beast is the bloodline of the peak of the profound level, and the ancient alien species are the bloodline of the sixth to the eighth level of the profound level!

Such bloodline levels are not very common even in the land of the Xuanhuang world!

The two ancient relics are fighting together, and the realm of both sides is not too high, at best, it is the third or fourth level of the rotation realm.

However, their bloodline level is too high, and the bloodline in the body is born with the supreme fighting instinct, and many supernatural powers emerge.

A piece of thunder and lightning blasted out, and the entire sky was shaking slightly with it, the sun and the moon were dim, and the stars were dull.

The thunder and fire interlaced with the electric light, almost tore open the chaotic cracks and shattered the eternal blue sky!

"These two guys are really lively fighting each other!"

Standing on the ground, Fang Yue looked up at the two ancient relics fighting hard. The beasts around had already been trembling with fear by this terrifying coercion.

Only Fang Yue and Sima laughed, as if nothing happened, they could appreciate this heroic and poignant scene!

Just at this time.

In the distance, two silver rays of light came from afar!

The sharp sword aura is suffocating!

Two demon-like figures appeared beside the two ancient alien species in a blink of an eye.

"A member of Taiyi Sword Sect?"

Fang Yue was surprised.

How come they are such annoying guys.

These two people obviously came to subdue or even kill the two ancient alien species.

Fang Yue and Sima looked at each other with a smile, and were too lazy to confront these two Taiyi Sword Sect disciples head-on.

The less trouble, the better.

The main goal of the two now is to find the essence and blood of the beast, the sub-shen beast.

Taiyi Jianzong or something, try to provoke less!

But the two of them wanted to retreat, but the two disciples of Taiyi Sword Sect refused to let them go!

"You two, come forward and test the strength of these two ancient alien species."

Among them, a disciple of Taiyi Sword Sect in Tsing Yi arrogantly instructed Fang Yue and Sima Xiao, as if he was giving out tasks to two servants.

"Sima laugh, do you know them?"

Fang Yue tilted his head and suddenly asked Sima Xiao.

"Huh?" Sima smiled blankly: "I don't know him!"

Fang Yue also said: "I don't know anymore! We are not familiar with each other, why are they shouting at us two?"

Fang Yue and Sima laughed and pretended to be crazy, and immediately made the disciple of Taiyi Sword Sect even more angry!

Deliberately, these two guys are definitely deliberate.

They are humiliating the face of Taiyi Sword Sect, but wherever Taiyi Sword Sect lives, the world's creatures dare not follow it.

"Are you challenging the majesty of Taiyi Sword Sect? Tell you two, obediently, maybe our Taiyi Sword Sect can still let you have a life. If you continue to persevere, be careful after your death, your family will also be implicated. There are clans behind!"

The two disciples of Taiyi Sword Sect had long seen that these two people were definitely disciples of the sect and aristocratic family who participated in the black trial in the Xuanhuang world!

They threatened, and thought they could make these two people afraid and worried!

But Fang Yue replied and gave them two big eyes.

"You have the ability to do it now! Why don't you just put your mouth on there! To tell you the truth, I am a disciple of the Tongtian Sect, and he is a disciple of the Sima family! With the ability, you Taiyi Sword Sect destroyed the clan behind us! My Fang Yue also persuaded you!"

Fang Yue does not cause trouble, but he is not afraid of trouble!

I was too lazy to take care of these two Taiyi Sword Sect disciples, but since they were sincerely looking for death, then no wonder he shot!

"Tongtianjiao? Sima Family?"

The disciple of the Taiyi Sword Sect was stuck in his heart.

Indeed, people from these two places don't need to obey them too much!

No, Fang Yue, how does this name feel so familiar?

The two suddenly thought of Fang Yue's identity. Isn't this the bug that was wanted by their Tai Yi Jianzong for a long time?

Jumping around all day, giving them too much Jianzong trouble!

It turned out he was here.

Reminiscent of the huge rewards in Taiyi Sword Sect.

The two looked at each other, and they all cast their eyes on Fang Yue's body!

The guy Xu Qing and Xu Bai did not kill, this time finally fell into the hands of their brothers!

"Hahaha, God has eyes, and we ran into you here again! Without the protection of Tongtianjiao, without the help of Ruyizi, I see how you can escape the hunt of Taiyi Jianzong this time And round up!"

Two disciples of Taiyi Sword Sect, Shuangjian merged!

A beam of sharp light slashed towards Fang Yue.

They did not underestimate the enemy, did not keep their hands!

One shot is a fierce killer move!

Fang Yue's methods are weird and fierce. If you don't make a move, you need a fatal blow. Don't give him any breathing room!

Otherwise, the time delays for too long and it is easy to be overturned by him.

On the reward order, the two of them will remember the information about Fang Yue!

"Fang Yue, do you need me to help?"

Sima Xiao gave Fang Yue a wink.

The two disciples of Taiyi Sword Sect are all the first level cultivation realm of the rotation realm! Although Fang Yue's combat power is against the sky, the difference in cultivation level between him and these two Taiyi Sword Sect disciples is really great! It's easy to capsize in the gutter!

"No! I haven't used any hands for a while recently, and I just seem to be flustered! I can't ask for two people to relieve my boredom!"

Fang Yue took a step forward and solemnly responded.

The sharp sword light approached his side.

Fang Yue's figure suddenly disappeared!

"No good, fraud!"

The two disciples of Taiyi Sword Sect were wary at the same time!

But it was too late, and Fang Yue suddenly appeared behind them, kicking directly one by one!

"Kacha, Kacha!"

Two disciples of Taiyi Sword Sect were kicked by Fang Yue abruptly!

Their tendons were broken and fractured, and they were obviously out of air and less air in!

"Fang Yue, you cheated!"

One of the disciples of Taiyi Sword Sect was holding his chest with his palm, coughing up blood, while Yue sternly accused!

"Cheat your uncle, this is brother's fighting wisdom, don't you understand it!"

Fang Yue was dissatisfied with the accusation made by this Taiyi Sword Sect disciple!

His advantage was originally the power of the physical body, so why would he compete with the disciples of Taiyi Sword Sect who are so much higher than these two realms!

"It's so scary!"

Sima Xiao's eyes widened. He had known Fang Yue's extraordinary attainments in physical cultivation a long time ago, but when he saw him abolish a disciple of the Taiyi Sword Sect at the rotation realm level, he still couldn't help taking a breath!

If this body cultivation is so powerful, then there is no need to confuse the many refiners in the Xuanhuang world!

Barrow came out from behind Sima Xiao.

He said, twisting his beard.

"This Fang Yue's physical training methods are barely so-so, make up for peace! The 100-step physical body has finally reached the twelfth step!"

"The twelfth rank of the 100th physical body? Hasn't the tribulation in front of him been over? How can he continue to break through!"

Sima Xiao looked at Fang Yue suspiciously, this is not in line with common sense!

Fang Yue looked back and smiled triumphantly.

"Brother hit an IOU, and I owe it temporarily!"

Fang Yue said hoarsely.

Sima Xiao didn't believe it very much.

"This day Jie can still call IOUs? You fooled the ghost!" "Hey, Sima exile, you don't understand this! Brother is the messenger of the heaven and has a relationship with him, he has a human affection! I asked the old turtle to send it two days ago It's a hundred quick days to go up the Heavenly Dao Stone! I immediately put this IOU down half of it! That day Dao Stone was also a rare object in the heavenly court!

If you give gifts, there is nothing you can't do! "

Fang Yue's words made Sima laugh almost speechless!

Barrow opened his eyes wide and held his breath!

He had long known that Fang Yue was an envoy of heaven. But never thought that this level of identity is so easy to use!

He hadn't even heard of this arrears to the robbery!

What kind of person did I find! Net engage in some crooked ways and do not do their jobs every day!

However, the 100th level of the physical body, the twelfth level, purely speaking from the physical realm, is definitely comparable to the ordinary powerhouses in the rotation realm, and they even have an advantage in close combat.

The cultivation of Qi refining in the ordinary rotation realm, as long as they are brought closer, it must be a dead end!

The two disciples of Taiyi Sword Sect, each of them was ashamed.

They never expected that Fang Yue was so much stronger than the reward order!

Defeating the strong in the rotation realm is easy.

Even at the innate level, the best disciple of Taiyi Sword Sect would not be able to reach his level!

"Fang Yue, if you want to kill, you have to scrape it! Although the two of our brothers are weak, they still have this spine. If you are a man, please give us a happy! Our brothers will never say a word!"

Among them, a disciple of Taiyi Sword Sect has a clear ambition to die.

This Fang Yue is a desperado, and he will never give him half the face because he is a disciple of Taiyi Sword Sect.

Since everything is dead, it's good to avoid pain and suffering.

Fang Yue said with a smile, "How happy it is to die! Do you think if I were to fall into the hands of your Taiyi Jianzong, would you let me die so happy?"

Fang Yue's voice was like the voice of a demon in hell!

The two disciples of Taiyi Sword Sect instantly turned pale.

This Fang Yue is right!

If Fang Yue fell into the hands of Taiyi Sword Sect, it would definitely be a dead end, and he would definitely be tortured in every way before dying, making latecomers feel in crisis and dare not attack Taiyi Sword Sect at will!

"How are you going?" The disciple of Taiyi Sword Sect asked tremblingly.

### **Chapter 482: Temple of Reincarnation**

"Killing for life, debts and repayments, it is justified! Since you are too Yijianzong treated me unkind, then I can't blame Fang Yue for being unrighteous! Hand over all the valuable things in your body! Then I will sell you to the Samsara Hall for exchange. Some resources!"

Fang Yue is a veteran of housebreaking, and even the industry chain is about to take shape!

He was too lazy to torture these two Taiyi Sword Sect disciples, but the creatures in the rotation realm can still be sold to the Samsara Hall for the benefits!

"Samsara Hall!"

After hearing these three words, the two Taiyi Sword Sect disciples still did not respond. Their level was too low to be able to reach such top forces in Yu Nei.

But Barrow knows the sturdiness of this power!

That is the supreme overlord who can stand side by side with the gods and demons!

"Why, you also have business dealings with them?"

Fang Yue squinted at Barrow.

Barrow shook his head violently.

"That group of guys, I don't want to contact them! Fang Yue, they are very evil! You can do business with them in the future, but it is better not to have a deeper understanding!"

"What do you say?"

Fang Yue doesn't have a deep understanding of the Samsara Palace, only knows that their big methods are not trivial!

"The Temple of Reincarnation is named for the reincarnation of the Reincarnation Hall! I passed by in front of a part of the Hall of Reincarnation, and occasionally I saw a giant who has been dead for hundreds of thousands of years appeared! I am still in the Hall of Reincarnation. In the army, I met a disciple of an old friend of mine.

He was full of vigor and worked hard to practice, but unfortunately fell through an expedition. I thought I would never meet again in this life, but I saw him appear in the army of Samsara Hall! "

Barrow said, feeling his heart and liver trembling!

"History has proven that anyone or forces who are involved in reincarnation will eventually be punished, and no one can escape the fateful punishment!"

After Barrow said this, he did not want to talk more about the world related to the Samsara Temple.

Rebirth in reincarnation is the most basic order of heaven, and whoever violates it will be arbitrated by fate.

Fate or something, the deeper the cultivation base, the harder it is.

On the contrary, some practitioners born at the bottom tend to believe that man can conquer the sky. Perhaps the ignorant are fearless!

Anyway, Fang Yue is cautious and courageous, and he will have an extra heart in the future.

In Fang Yue's hand, the token of the Samsara Hall was flipped, and a ray of divine thought was injected, and a delivery man from the Samsara Hall soon came to the door!

They have specialized means and personnel. As long as the token is lighted and the space coordinates can be determined, they can reach it quickly, no matter what the world, what universe, the end of the world or the sea.

Fang Yue removed all the good things from the two Taiyi Sword Sect disciples, and then the two of them were delivered to the deliveryman almost naked.

Their prices were not high, and they only sold three drops of magic liquid.

If converted into spiritual stones, it is probably the price of one billion spiritual stones per person!

Of course, the \*\*\*\* and devil liquid is regarded as a cherished material in the Xuanhuang world, and it has a price but no market, and it is pinched in the hands of those supreme powers!

Spirit stones can only be used to measure value, but they cannot be used to buy magic liquid.

After the final transaction was completed, Fang Yue could be regarded as having a breath of malice!

Sima Xiao looked at Fang Yue, his expression getting stranger.

Fang Yue squinted: "Sima laughs, what is your expression, what, do you have any comments on my approach?" Sima laughs suddenly shook his head: "No comments, no comments, but I feel that the rumors from the outside world are a bit unrealistic. People say that you are a human trafficker, but they

actually underestimate your personal connection! How can a human trafficker describe you! You should be the boss right! This human trafficker, you are fast

The industrial chain is formed! This Taiyi Jianzong has a grudge against you, you will not be caught by one, and then sell one!

The first sect to be sold in history, I feel ashamed for Taiyi Jianzong! "

Sima said with a smile.

Fang Yue glanced at Sima and smiled.

"This is what they deserve! Who will let them come to trouble me all the time! Selling their income, right should be my mental damage expense!"

As Fang Yue said that, Barrow felt a bit of cold.

I am looking for a descendant! Knock the bricks, sap! It's a full-blown character.

It turned out that he thought that his evaluation of Fang Yue was already very bad, but he didn't expect that he had a human trafficker that was simply, oh, no, now it seems that it is probably a main business!

Black Rose said with a smile: "Little brother, this has a good character! In this world, good people do not pay for their lives, and they have been harmed for thousands of years. Back then, my sister was calculated because of the soft ear roots. In that world prison, I still can't get out of it!"

In Black Rose's heart, there was a feeling.

Her words made Barrow also sigh.

There is nothing wrong with Black Rose!

It is indeed difficult for a good person to live long in this world.

Soon after, Fang Yue and Sima smiled, watching the two ancient alien species in the sky go away, instead of making an ambush.

Both of these ancient relics obviously have origins. If there is no protection and support from totem creatures behind them, even ghosts would not believe it.

Fang Yue and Sima Xiao are both kind of cautious people!

Taiyi Sword Sect may be arrogant, and can not put those totem creatures in his eyes, but the two of them can't!

"I finally found you two!"

It was another morning in the day.

A handsome young figure appeared in front of Fang Yue and Sima Xiao.

Di Yi, dressed in silver armor and carrying a spear, came in blood.

The silver armor glows with multicolored light under the sunrise. It looks like the young man's mansion that has been walking step by step since ancient times, with a different style and heroism. "I thought you were lost! How many times have I passed the news to you! According to our calculations, you should have arrived three or five days ago! Why did you delay it for so long? Did you change the world? East and west? Don't worry, to be honest, we two can't laugh

Talk to you! "

Sima smiled smirky.

His eyes, like a crescent moon, are full of cramps.

The emperor grew cold all day, disdainful of Fang Yue, Sima laughed in the same way.

"My important minister of the undead imperial dynasty, how can I get lost? I was on the road, and I met Li Rui, an alternate saint of the crape myrtle religion. Encircled and found you!

Ziwei Sect has old grudges with my Immortal Dynasty. I didn't expect that they would send alternate sons in this black trial! "

Sima laughed when he heard the words, and immediately shocked, the smile on his face converged.

The alternate saints have a lofty status in any major religion, and their speech is even more powerful than some ordinary elders!

Generally speaking, they represent the face of the sect, and it is almost impossible to appear easily.

What kind of opportunities are hidden in this trial.

Even the alternate son has appeared, is it possible that Ziwei Cult is not afraid that Li Rui will fall into this world? "This dark trial is about the key to whether the Xuanhuang world can survive the calamity in the future! This is the message that a top saint exhausted the last ray of divine consciousness and fortune-telling before sitting down! After saying this sentence, it was because of the leak

The word lightning in the chaotic color was completely erased from the world! What is the key, no one knows! However, all sects hope to hold the so-called key in their hands, so they have dispatched quite elite personnel! "

Di Yi came a little later than Sima Xiao and Fang Yue.

He got more information in the Xuanhuang world.

"Not only I am here! Even the Insect King has come personally! Also, the birth and death of the first fate on the heaven and earth list has also been invited to come out of the mountain, personally take action, and explore the key details!"

Di Yi is very serious! This time the matter is not a joke.

"So do you have any news?"

Fang Yue looked at Diyi. Di Yi shook his head: "I am following the team of the Heaven and Earth Realm. It hasn't been a long time since I arrived. My understanding of this planet is far less profound than that of

the two of you! But I know that in the Xuanhuang world, many schools are very good. Turbulence! Some old monsters walked out of the closed state and reclaimed their hands

Daquan, bloodbathed sect, no one knows what they want to do. It's just said that they are secretly planning a big event that shocks the sky. If they really succeed, it may change the entire Xuanhuang world! "

Di Yi brought a piece of heavy news for Sima Xiao and Fang Yue.

Under the calm appearance of the mysterious yellow world, there was an undercurrent surging!

Although Fang Yue had returned to the Xuanhuang world several times on the Deep Blue Planet, he used other identities every time except when he saw Ruyizi. He did not dare to go too deep into some of the Xuanhuang world's internal news for fear of being seen through. Identity!

Therefore, he did not know the internal changes in the Xuanhuang world!

The gathering of Di Yi, Sima Xiao, and Fang Yue means that the strength of their gang has reached its peak. In fact, the same is true. In order to have a stronger life-saving ability in the black trial this time, Emperor Yi did not hesitate to use favors in the Immortal Dynasty, so he invited some holy medicines to improve his cultivation level! He is a chaotic divine body, and every advancement in his cultivation will have a major breakthrough in strength. Now, he

Already standing on the fourth small step of the heaven and earth realm, raising your hand can suppress the powerhouses who have just entered the rotation realm!

In fact, the alternate sage Li Rui of the Ziwei Cult he met, if it weren't for two old guys on the fifth floor of the Rotational Realm, would have slapped him to death!

But even in the case of one enemy three, Di Yi can still win by a narrow margin, and his strength is naturally self-evident. Sima laughed, and he didn't even see the bottom. There was no his name on the world list, but it didn't mean that his strength was not as good as that of others. In fact, he had a lot of hole cards, and he could be scared to death by just taking out one. people. As for the potential, it's even more shocking. Otherwise, how could Black Rose

He is so amiable.

As for Fang Yue, he hardly knows how strong he is!

The body and soul have all reached the level of rotation! It's just his cultivation base, because of the suppression of Heavenly Tribulation, he dare not break through at will!

But once he breaks through, he will surely be a blockbuster, and he will be famous throughout the world.

"The emperor has arrived, and our men and horses are finally gathered! That plan should also be implemented!"

Fang Yue was very happy to see Di Yi, not simply because of the old friend meeting.

He and Sima laughed, and had already made a plan to start from another aspect to plunder the world's resources and wealth.

"what's the plan?"

When the Emperor looked at Fang Yue, he always felt that this guy couldn't sell any good medicine in the gourd.

He was abducted and deceived every day, and he hadn't left a good impression on him since the time of Yan Guo.

"What do you think is the most valuable thing in this deep blue planet?"

Fang Yue asked Diyi patiently. The emperor frowned, he really thought about this question. But the conclusions reached are not as good as expected.

### **Chapter 483: Intercommunication**

Crystal of life?

Although this thing seems to be a good thing, no one has researched its use for practitioners. After refining, it can return blood to the ancestors. This is really good, but the problem is that the side effects are too great!

Some people have refined some life crystals, and in the end they have indeed raised the level of bloodlines a bit.

But seven days later, he died because of the exhaustion of his vitality, and finally quickly aged and died by himself!

As for other things?

The things produced by scientific and technological civilization are indeed quite exquisite, but their overall power is quite limited.

Except for the satellites hanging on the planet, they are still a bit lethal. Other weapons are good against ordinary people. When you meet a real master, all will stop cooking!

"I can't think of it!"

Finally, the emperor shook his head. He really couldn't find a valuable place in this deep blue planet, and even regarded this deep blue planet as a place of trial, perhaps he valued the doomsday environment of this world. Can be a sharpening force for these people, standing after breaking, living toward death, and finally

Amidst the many dangers, he broke out and achieved something. "In fact, the most valuable thing on this deep blue planet is the technological civilization on this planet. The inhabitants of the deep blue planet are not the natives born in this planet! Their origin is a civilization that can span several civilizations. Galaxies, huge civilized empires built up, as for

This deep blue planet, in this huge civilized empire, is only a small branch, remote and insignificantly backward! "

When Fang Yue was in Liu's house, he obtained some information. Among them are some descriptions of their home planet left by the ancestors who first descended on the deep blue planet.

In that planet, there is something called Ziguangye, which can be mass-produced, allowing all residents to directly break through to the level of innate realm after they reach adulthood!

There is even a nutrient solution that directly transforms the body. It only takes one day to soak the body to raise the body to the pinnacle of the innate realm without any complications!

The technological level of that civilized empire can definitely be compared with the civilization of the Xuanhuang world, and even in some respects, it exceeds the civilization system of the Xuanhuang world!

Fang Yue explained to Sima Xiao and Diyi the information he had learned from Liu's family. Sima Xiao is very interested: "Can you produce innate creatures in batches? There are also things called robots that you said, which can have no less intelligence than humans, and can also control mechas and actively fight? What if these things , If all mass production is achieved, then in the low-end war

In the middle, don't we have the chance to win? Come up to five thousand robots, and then equip them with a world-level mecha, unified command, not afraid of death, and more than enough to destroy a small sect in the world! "

Diyi is not too interested in these external technologies.

"Things with strange skills and ingenuity are not going the right way. If they rely too much on these things, sooner or later they will be restrained, making the inner will no longer firm, and losing the heart of a strong man!"

Emperor Yi belongs to the most classical school of asceticism. He opened his mouth and kept his mouth shut. It was this kind of theory that overcame obstacles and brave the wind and waves to achieve great achievements and great luck.

"But apart from my plan, do you have a better place to go?" Fang Yue knew these thoughts of Di Yi, but he asked rhetorically.

Instead, the emperor was stunned.

"It's really gone!"

"Is that all right?"

Fang Yue belonged to a resolute activist group. After the three of them dressed up, they went to City 010.

Fang Yue has already inquired, this 010 city has already been completely ruled and occupied by the military!

Because of the mutiny of some zombies, the military did not trust the zombies. Even if they did not have a mutiny at hand, all the zombies who followed their call were isolated.

Therefore, the military began to recruit subordinate troops on a large scale!

As long as they have better physical fitness and some combat skills, they are all within their scope of recruitment!

Compared to zombies, they believe in living people more!

Moreover, the soldiers of these subordinate tribes have no access to core secrets. So in terms of identity review, it is relatively loose!

Haven't entered city 010 yet.

Fang Yue and the others saw an army green camp, all of which were recruiting places.

This recruiting place is overcrowded, and you can feel it before it gets close. The voice is full of voices, and it feels like a rush.

"To enter the barracks test, you need to pay ten catties of rice, ten catties of purified water or something equivalent!"

At the gate of the barracks, two tough-looking soldiers guarded the gate of the barracks strictly and refused to let anyone in.

This military single-handedly led to the doomsday world, and then unified the entire deep blue planet. However, they also paid a corresponding price!

The entire civilized production system of this deep blue planet has been destroyed, and the food and water that are readily available on weekdays have now become treasured resources!

Fortunately, the high-level military officials have enough food and water resources to guarantee.

But like the low-level soldiers in such remote military camps, although they also have various resources issued by the military to ensure normal life operations. However, the number is quite limited, and it is not a big problem for a person to survive, but if there are wives and children behind them, they need to find another way!

Fang Yue and the three had just walked to the door of the recruitment office.

A man who seemed to be a strong figure, begged there.

"This military master, this is the only five catties of rice left in my hand! Give it all to you, and you can let me in! In case, I pass the assessment and become a regular army, I will definitely take the resources owed to you today. Complete it in one time!"

That man was also the cultivation base of the pinnacle of the acquired realm. If it were placed in a peaceful age, he would definitely be a powerful one.

But in the end times, people are inferior to dogs.

The dignity of the peaceful age has all become luxury items!

He knelt down and begged, hoping that the military janitor would let him go.

However, the military janitor sneered.

"If you don't have any money, just get out of coal resources! Your promise is just a shit!"

All beings are in various forms, and the world is bleak!

Especially in this troubled world, the roots of human nature are all revealed!

Fang Yue could only sigh in his heart when he saw the scorching world, but it was impossible for him to help.

In this world, how great, injustice, injustice, and injustice are more than just one thing in front of us.

Even if he can change the situation in front of him, he can't change the thousands of injustices, injustices, and improprieties in the world.

So Fang Yue just watched the man weeping bitterly, carrying the five kilograms of rice in his hand, and leaving in sadness!

At this moment, after the brush, a flying sword fell!

The cold edge pointed at the soldier's neck and throat far away!

A young sword fairy fell from the sky!

Between his eyebrows, there was a ray of heroism!

"Who are you? Someone who dares to threaten our military!"

The soldier was a little flustered, and he also heard vaguely. During this period of time, the deep blue planet was not peaceful, and weird things happened again and again, and there were often some characters like gods and demons in mythological novels.

However, he did not calculate that these gods and demons would appear in front of him!

As for Fang Yue, Sima Xiao, and Di Yi, their faces were even more shocked!

They were surprised, not because this young man made the move, but because of this young man, they didn't even sense the breath of this mysterious yellow world!

"Could it be that this person is not from the Xuanhuang world? Someone from other worlds of practitioners also descended on this deep blue planet?"

Fang Yue's heart faintly gave birth to such a guess!

He was surprised in his heart, but not surprised, this troubled world is approaching, and the luck of Deep Blue Planet has been in chaos!

It is not incredible that there will be zombies running rampant, ruining all living beings, countless practitioners from the Xuanhuang world going out for interviews, totem beasts, once again appearing in the famous mountains, and the arrival of people from other worlds! "Members of the military? Poh! My eternal dynasty is a two-star dynasty in this universe! We also appoint generals and organize troops, but

in my eternal dynasty, all soldiers are disciplined and self-improving. , Self-discipline! How come you have a scum like you

difficult! "

The young man was full of spirits and was very angry at the soldiers' actions!

Fang Yue and the emperor glanced at each other, and they became more sure that this young man came from the civilized world of other practitioners.

The star position of the dynasty is indeed prevalent in this cultivator civilization. It is the key to measuring a dynasty!

Like the immortal dynasty, it is a one-star dynasty!

And the Taichu Dynasty in the world of practitioners is also a one-star Dynasty!

The one-star dynasty belongs to the top power in the Xuanhuang world!

Although the Sima family is also a top power, there is actually a considerable gap compared to the Immortal Dynasty!

And the so-called eternal dynasty that this young man lives in is actually a two-star dynasty, which is even higher than the one-star dynasty! Its strength and background can be imagined!

"Dare you blame me?"

When the soldier heard this, he laughed instead. "Hahaha, I didn't expect to be able to encounter this kind of stupid hat that doesn't understand accidents this year! You know, I actually asked him for something for his own good! If he can't even grab this resource, he can't keep it. Even if he became a soldier, every time he pays food and payment, he still does everything

Can't catch it, can't keep it! Every husband is not guilty, but he is guilty! The identity of this soldier is indeed a good thing! However, it depends on what level you are and what character! If the cultivation level is not enough, and the character is too soft, even if it is to give him military status, rice, flour, oil, make him jealous and be jealous.

What will happen later? Isn't it a dead end? "

The soldier opened his mouth, speaking upright and arrogant, and the fallacies and heresies, and he was catchy in his mouth, as if all were right.

The young man frowned slightly, his heart tightened. This soldier's statement seemed to make some sense!

Just at this time.

The man turned around and turned back.

His eyes were scarlet and he looked at the soldier!

"Hero, don't listen to his side words, nonsense! He is obviously coveting the resources in our hands, and he wants to eat and get cards, where there is so much truth to say!"

The man's words fell in the heart of the boy.

Just when he hesitated, hesitated.

The man who was begging for the soldiers just now suddenly had a very spicy expression in his eyes.

From his trousers, with a swish, he took out a panicked sharp knife!

Outrageously stabbed!

Pierced the soldier's heart. Blood spurted and splashed all over his face.

"Bad guy, I should die if I prevent me from entering the barracks!" The man's voice was filled with indescribable aura.

#### **Chapter 484: Young Sword Fairy**

Seeing this scene, the young man held his breath and opened his eyes wide. He did a lot of calculations, but he didn't calculate it. He kindly shot it, and it will form the scene before him!

Although the soldier is hateful, he is not guilty of death, and even if it is a crime, it is state-owned and has its own rules. It should be transferred to a special trial agency!

But what is the scene before me?

Lynching? Heavy penalty?

There was confusion in the teenager's mind.

at this time.

"Dad, father!"

With a loud cry, two toddlers ran out of the barracks. They were dressed in floral cotton jackets, carved and jade, like little angels descending from the sky. At this moment, in There were crystal tears hanging from the corners of their eyes!

They surrounded the fallen soldier, weeping one by one, trying to keep their father from dying.

The teenager's heart is even more chaotic, he doesn't know whether his decision is right or wrong!

"The father is a devil, and it's definitely not a good thing when the child grows up!"

The man's eyes were red, and he raised the sharp knife in his hand and killed the two young children again.

At this time, even Fang Yue, who was indifferent, couldn't see it. This child is innocent and should not die here!

A little bit of Fang Yue's finger, a faint sword light fell on the man's sharp knife.

With a sound, the blade of the sharp knife shook violently.

The man's tiger's mouth trembled, blood was flowing, and the sharp knife flew up and landed on the ground several meters away.

"Dad, father, don't sleep! You can't don't want us!"

The two young children did not know that they had gone through a lot of life and death just now. They were still pulling the corners of their father's clothes and begging their father to wake up with the most childish voice!

When Fang Yue saw this, even his cold heart could not help but melt!

He stepped forward, pointing his finger.

A touch of green light fell.

The wound in the soldier's heart healed instantly under the nourishment of rich vitality! He woke up faintly, looked at his two children, weakly raised his rough palms, rubbing their little heads! At this moment, there is still the slightest horrible appearance of him just now.

He is a loving father.

The young sword fairy muttered to himself.

"Could it be that I was really wrong?"

His eyes were blank.

A slight crack appeared in his Dao Xin.

His youth's dream is to walk with swords and draw swords to help when the road sees injustice!

But the scene before him made his mind collapse. If he can't even judge right from wrong, then he is still talking about chivalry!

"Wrong? In this world, where is right or wrong! It's just that everyone is using different ways and means to fulfill their wishes!"

Fang Yue walked to the side of the young Jianxian and whispered.

The young Jianxian looked at Fang Yue suspiciously.

"There is no right or wrong?" "Yes, there is no right or wrong! There are only different positions and different positions, where is there any right or wrong! What this man does is in his position, in the position of his wife and children That's right! He won the status of a soldier by all means, in order to get enough food resources,

Feed your family! However, if it is from the standpoint of the soldier and the soldier's wife and children, what difference is there between the man's actions and the heinous devil! Even two or three-year-old children will start, the most cruel demon, but that's all!

The position has changed, this is right or wrong, naturally it is no longer so clear! "

When Fang Yue looked at the child's pitifulness, he made a point on purpose.

The young Sword Immortal was also a clever person, and soon understood Fang Yue's meaning.

"Different positions, right and wrong! I understand, I finally understand why the master sent me out to train my heart in Hongchen!"

As soon as the young Jianxian realized his understanding, the temperament on his body was vaguely different.

Fang Yue saw his changes, nodded slightly, and then prepared to leave for another city.

Because of his shot, in this city No. 010, pretending to be an ordinary refugee, the plan to mix into the military has been shattered!

The three left.

The young Sword Fairy followed behind.

Until hundreds of kilometers out. The young sword fairy still refused to leave.

Sima Xiao finally couldn't hold back anymore. He turned around and asked the young Jianxian, "Why do you always follow us?"

The young sword fairy is silent.

Waiting for Sima Xiao to ask again and again, he said, "I, I'm lost! I can't find my companion!"

The appearance of the young sword fairy made Fang Yue quite speechless.

A dignified sword fairy will get lost. This horror is a shame to the sword repair world!

"Then where is your companion now? We can do it well and send you over!"

Fang Yue felt that this young Sword Immortal was a pretty good man, innocent and kind, and couldn't bear to watch him live outside and be bullied.

The young Jianxian shook his head: "I don't know where my companion is now! Since entering this world, we have been separated! It seems that someone at the other end of the teleportation array deliberately changed the target of the teleportation!"

Young Jianxian's face showed a rare expression of heavy thought.

This feeling of being calculated is uncomfortable.

"Then you are going to follow us?" Fang Yue raised his eyebrows, he was considering whether to change his plan.

This young Sword Immortal is obviously a drag oil bottle. If he is disguised together, he may be easily dismantled. He is too innocent and obviously inexperienced!

And it was a little bit arrogant, maybe when they saw what the three of them did was not pleasing to the eye, they would be cut off with a single knife.

Of course, this young Sword Immortal still has the strength, and those soldiers in the 010 city may not be able to see it.

Fang Yue is very clear that this young sword immortal is definitely the cultivation base of the rotation realm.

They have all cultivated to the level of the rotation realm, and they are still so simple. His tribe or sect is so much a greenhouse to breed such a fragile young seedling.

"If I can, I hope to find a place to settle down, and then wait for my companions to come to me! We all have the soul of each other, as long as we are within a radius of 5,000 kilometers, we can detect each other. !

We once discussed that if I really get separated from them one day, I will wait where I am and they will come to me! "

A cheerful smile filled the face of the innocent teenager.

For his companions, he still believes!

"Well, we will go to City 009. It is said that there are also recruiting soldiers there! Only the conditions are relatively stricter! After we arrive in City 009, I will help you rent a house for you to settle down! "

Fang Yue raised his eyebrows and agreed to the boy's condition.

The teenager cheered.

Sima laughed but shook his head. I really don't know how such a stupid guy survived in the sinister society!

Maybe it's just that his simple luck is better!

The standard for soldiers in City 009 is much stricter than that in City 010.

They demanded that the soldiers' basic physical fitness was at the pinnacle level of the acquired realm!

And you need to be able to simply use modern weapons such as pistols, mechas, etc., and at the same time, you must strictly check your identity to see if there are any obvious problems!

Fang Yue's trio could easily meet the preceding conditions. They suppressed their own breath, and all they exposed were on the first level of the Innate Realm!

As for pistols, mechas, and other modern weapons, it is not a problem for the learning ability of the three.

Scanning the process again, it is basically the seven or eighty-eight that you have mastered, and then you have a little contact with the actual weapons. Not to mention that the three immediately became masters in actual combat. Anyway, the militiamen who have usually trained for three to five months have the ability to control this aspect. It is far behind the three!

The biggest problem is identity.

All three of them belonged to black households, although Fang Yue and Sima Xiao had already completed the identity chip in Liu's house.

But the information on the two people on the identity chip also began after the advent!

But Diyi is even more straightforward.

It belongs to the absolute three-no population.

You don't even have to check, and you don't even have an identity chip.

A three-year-old kid knows he must have a problem!

Fortunately, money can make ghosts go around. Before the three of them entered the army, they actually wandered around the black market in City 009.

After spending 3,000 star coins, he first reissued an ID chip for Diyi, and then filled out the information in the three ID chips.

This technique is considered mid-level, and there is no problem in fooling general inspections, but under strict investigation, the three people will still be investigated for identity problems.

Fang Yue didn't care about this, as long as he could finish the first level!

As for the rest, let's take a step by step!

Sure enough, Fang Yue, Sima Xiao, and Diyi successfully passed the selection of soldiers in City 009, and even the three of them were included in the key training targets.

Xiantian, even in City 009, is not a cat or dog. Not only are they scarce in number, but everyone has a natural arrogance and is unwilling to join the army and be sent to the fence.

The situation is different from other cities.

In No. 009 city, the strong came out in large numbers. In the study of that military department, some forces have not been calmed down. Instead, they have exposed tigers and fangs, becoming stronger and stronger!

In the city of No. 009, there are many heroes, and the military is only one of the strongest, not the strongest.

Therefore, there are very few people who have truly entered the innate level who are willing to join the military, and most of them have chosen to continue to wait and see, hoping to follow the strongest of the forces.

"Register your name, test your combat power, and then you can become a member of the military in my city No. 009! Since you are an innate powerhouse and join our army, you can have the privileges and become a member directly. The captain of the team!"

A middle-aged man with a nice face, he was very happy with Fang Yue's choice!

He also has credit for being able to recruit a strong man from the innate realm.

There is a big gap between the innate condition after enlistment and before enlistment.

The congenital cultivation before joining the army is a natural growth and has great potential. If you enter the army and train it well, you have great potential to be tapped in the future. After enlisting in the army, it is indeed possible to reach the level of the innate realm through some special means of

"growth", and even reach the peak of the innate realm. It will not be surprising, but that method is equivalent to killing chickens and eggs, which will be exhausted. There is basically no hope of a further breakthrough in one's potential

. Therefore, before joining the army, every person who has reached the innate state will receive key training.

Only by becoming a strong man in the world can they become the backbone of their military.

"Captain?"

Fang Yue was quite surprised by this status. He had just joined the army and he did not expect to be entrusted with an important task by the military! "Yes, squad captain, but this squad captain is not good! The military, there will be competitions between internal members of the squad every month. You must accept the challenges of other players, and if you successfully defend, you can continue to serve Captain, but if the defense fails, your status as captain will be

Strip it and give it to other members of the team!" The middle-aged man looked at Fang Yue with a narrow smile in his eyes.

#### **Chapter 485: Form a team**

Fang Yue laughed, "This is no problem!"

Fang Yue came to join the army, the real purpose is to win a high position in the army, and then get close to the scientific and technological civilization to which the deep blue planet belongs, and obtain many scientific and technological achievements.

Even if this middle-aged man doesn't say anything, he will work hard and strive for a higher official position as soon as possible.

Fang Yue, Sima Xiao, and Di Yi all received the same treatment.

Just after joining the army, he got the position of team leader.

As long as one of them can reach a higher position, the other two can be promoted!

Fang Yue came to the team under his control.

There are ten members of the team.

Counting Shangyue, there are eleven people.

Five of them belonged to sharpshooters, good at medium and long range shooting.

Two snipers can aim for headshots from three kilometers away.

Three close warriors are responsible for entanglement of opponents!

There is also a person who is good at blasting and investigation.

According to the information in Fang Yue's hands, these ten people are all veterans who have been in the army for more than one year!

Fang Yue's arrival did not cause any turbulence in the emotions of the ten people. Their team needs to be at work for at least ten days a month. During the days of work, they have to take over two to three tasks almost every day.

These tasks are extremely dangerous.

In the days of attendance, an average of three to five days, they have to change a member.

Either seriously injured and retired, or simply died in the process of performing the mission.

Therefore, in the team, everyone only has numbers.

There is no name, so that you don't always remember the name of the new person when you get it, and make some unnecessary errors when performing tasks.

Team leader Fang Yue's code name is 01.

The others are from No. 02 to No. 11.

To Fang Yue's expectation, the other members of this team were all in the innate realm. And eight of them are in the third level of innate, and two have reached the fifth level of innate!

"The captain does not have to worry about the problem of cultivation level! Ten of us, when we first joined the army, all were in the ninth and tenth level of the acquired realm! During the training process, the military was injected with innate catalysts before using external forces. , I barely broke through to the innate realm! The breakthrough by injection of medicine is destined to be hopeless. Although the realm of the physical body and the cultivation base is broken, the soul is not strong enough because of the lack of necessary training, and it is difficult to merge the world and break through to a higher realm! And once! Breakthrough with the help of external forces is doomed to our future

Need to use external force to break through!

We can only continue to strengthen our strength if we continue to perform tasks and exchange for corresponding medicines from the military. Constantly reach new levels! "

Among them, the "old man" of a sniper, Yue said kindly.

They did not covet the position of captain.

Even, this is a position to burn ass.

If the mission fails, the people below are usually fine and will not take any responsibility, while the captain will be held accountable and punished.

Those tasks they perform daily, it is not bad to be able to save a small life and come back!

As for success? reward?

Those things are destined to miss them!

Therefore, the sniper #03 looked at Fang Yue's eyes, and there was a faint smell of pity.

He has just arrived, and perhaps he still has some important feelings about his identity as the captain.

But I don't know that the position of this team leader is a fire pit, whoever jumps in will be unlucky!

"The mission is here!"

On Fang Yue's left wrist, a watch issued by the military suddenly lit up.

Above, a row of text is revealed through 3D projection.

"Kill position 329.405, mutant creature, shadow cat!"

"Shadow Cat?"

No. 04 warrior suddenly frowned, his face showed an ugly expression.

"The shadow cat is a very difficult one among the mutant creatures. Although it is in the realm, it is comparable to the fourth-level innate practitioners, but it is good at speed and sneak attacks! It is extremely vigilant, and it is not necessary to kill A simple thing!"

No. 04 warrior, the most annoying is this mutant creature.

As warriors, what they need to do is close combat! If you are not careful, you will be cut through the protective clothing by the shadow cat's claws, and the shadow cat's claws are inherently poisonous!

If you take a bit slower, they will return to the underworld!

"Don't worry, I will pester the Shadow Cat this time!"

Fang Yue also saw the difficulty of martial artist 04, so he didn't embarrass him.

It is not easy for these people, even if ten people join forces to hunt down the shadow cat, a little carelessness may pay the price of blood!

For him, what shadow cats, bloodthirsty dogs, etc.

Killing is just a matter of effort.

Even if he needs to hide his strength, entangle a shadow cat, and let others hunt it, it is quite simple for him.

"Captain, you!"

Martial Artist No. 04 didn't expect this captain to take on such a dangerous task on his body.

The captain is a good man.

A grateful thought came into the mind of Martial Artist 04.

"But the captain, it's not that I underestimated you! Although you are the innate realm you broke through, but your cultivation level is too low, the warrior on the first innate level encounters the shadow cat on the fourth innate level. It is not good to say that you are dying!"

I know that you have just joined the army and are eager to make contributions, but there is no need to joke about your life! "

No. 03 sniper, Yue, was painstakingly discouraged.

Fang Yue shook his head slightly.

"My heart is determined. Don't stop me. As the captain, you should be at the forefront of our most dangerous mission! Otherwise, how can you be your captain?"

What's more, I also have my own cards! It won't really be killed by the shadow cat! "

Seeing Fang Yue's decisive expression.

Sniper 03 stopped talking.

A team began to perform the task. Soon it reached the coordinate 329.405 position.

At this time, the shadow cat was curling up under the sun, sleeping. In front of it, there were several human corpses. These corpses were already incomplete, either with few arms or broken legs.

These people were obviously killed by Shadow Cat.

Shadow cats continue to evolve by hunting humans and zombies and obtaining the essence of life in them, making themselves stronger!

"Shadow Cat?"

Fang Yue murmured to himself, he jumped forward, as if a horror was born, and then slaughtered the shadow cat.

"Meow!"

The shadow cat's hair exploded.

It is said that cats can channel spirits and predict bad luck.

Although this shadow cat is mutated, it is clearly within the scope of a cat. He has not weakened his ability to foresee danger, but is stronger!

Accompanied by an exuberant hum.

Shadow Cat's pupils are upside down.

Its sharp claws were torn away towards Fang Yue's throat!

Above the sharp claws, the blue light shone, and strong poison!

"go to hell!"

Sniper No. 03 corrected his position.

With a bang, a three-inch long, sharp-pointed armor-piercing projectile flew out of the gun's chamber at great speed!

The bullet broke through the air and galloped in.

The Shadow Cat was in mid-air, and suddenly twisted into a strange arc, avoiding the bullet's attack!

"No! I was hidden away!"

Sniper No. 03's heart slammed.

When the warrior attracts the attention of the monster, it is the best time for the sniper to attack. Once a blow fails, the monster has vigilance. If you want to succeed in the next attack, it will be difficult!

"Meow!"

The Shadow Cat felt that the dangerous moment was approaching. This dangerous environment did not cause it to fear, and withdrew from it. Instead, it became more hostile and moved towards Fang Yue at a more agile speed!

"Bullets shoot!"

Fang Yue faced the side, and the five sharpshooters ordered an attack.

The five black hole muzzles all pointed at the monster's head!

Bang bang bang!

A series of bullets burst out of the air.

In the rain of bullets, the Shadow Cat is constantly changing his posture, avoiding the bullets that are coming.

The shadow cat's figure is too flexible, and ordinary bullets are too slow to hit its body at all.

The sharp claws of the Shadow Cat scratched Fang Yue's shoulder again.

Fang Yue dodged sideways, and the sharp claws passed his body!

"Meow!"

The Shadow Cat changed its attack direction again.

It repeatedly shot Fang Yue, but every time it shot, it returned without success. It was clearly only a few centimeters away from Fang Yue, but it still couldn't hit Fang Yue's body.

"This is... the realm of microcosm!"

In the distance, Sniper 03 suddenly stopped his aiming action. His figure was stiff, holding his breath, watching every move between Fang Yue and Shadow Cat in the distance!

This is simply a classic fight like a textbook!

Strong with weak strikes, every movement is accurate to the millimetre level.

Raising hands, closing elbows and punches, there is never a waste of energy!

"The captain's fighting skills are so strong!"

Martial Artist No. 04 also gradually stopped the movement in his hand, and dropped a pair of eyes on Fang Yue's body for a moment.

Fang Yue's gestures, every move, all have a sense of natural flow.

Although in the pure cultivation realm, he felt that he might be better than Fang Yue. But in terms of fighting skills and mastery of the fighting rhythm, Fang Yue's skill is hard to match!

"Technology is close to Tao! I have only heard of such a method in legends, but I didn't expect to see it with my own eyes today!"

No. 04 warrior exclaimed again and again.

He vaguely understood in his heart, I am afraid that none of them will come, and relying on the captain alone, I am afraid that he will be able to beat this shadow cat.

"Shadow Cat, does it just have this ability? If it's only like this, I'm afraid I will fight back!"

Fang Yue suddenly spoke, showing a disappointed expression.

This mutated creature has returned to its ancestors, but its ancestors are also very bad!

Although it gave the Shadow Cat a very powerful fighting instinct, it did not have more superb magical powers.

Fang Yue's disappointed expression immediately angered the Shadow Cat!

It meowed.

It turned into a black shadow and moved close to the ground. It's faster, just like a ghost.

#### **Chapter 486: Shadow Elvis**

No. 04 warrior's face changed suddenly.

He shouted: "Captain, be careful!"

The Shadow Cat is not terrible! Although the action is quick and the claws are poisonous, if you cooperate well and rely on the strength of their team to destroy the opponent, there is no big problem!

But the shadow sneaked.

This is the method belonging to the Shadow Elvis!

The Shadow Cat is considered mid-range among many monsters. It occasionally appears in the city and is not too harmful.

But the Shadow Elvis is already at the top of the innate level among many mutant creatures! They are evolved from the Shadow Cat, fully grown, and can reach the pinnacle of the Innate Realm!

Its appearance is not much different from the ordinary shadow cat, but when it comes to reaching out, it is more than ten times stronger than the ordinary shadow cat! Even more frightening is that Shadow Elvis is also proficient in various stealth assassination methods.

Even if it is a single master of the world, it may not be able to capture and kill a shadow Elvis!

"Captain, go back! You are not the opponent of Shadow Elvis, the \*\*\*\* military department has mistaken Shadow Elvis and Shadow Cat. This is not to let people perform tasks, but to send people to die!"

No. 04 warrior is extremely anxious.

The captain shot for him this time, fighting this shadow Elvis.

This is tantamount to being experienced in generations. Wan Fangyue has a good or bad, he will be immersed in guilt for a lifetime and cannot extricate himself.

at this time.

Fang Yue also realized that the situation was wrong, but there was no panic on his face.

How about Shadow Cat?

What about Shadow Elvis?

In his eyes, all are vulnerable!

Since it is the first time to perform the task, he cannot fail! You have to show some achievements to the military department before you can reuse it!

Shadow Elvis?

It is just suitable to use Liwei, let the military see his strength, it is definitely not something that a cat or a dog can easily compare!

Fang Yue's figure suddenly became more elegant, like a breeze blowing in the willows, and every movement of his feet was so light and natural.

Shadow Elvis no longer hides his strength, the sixth level of the Innate Realm is fully utilized, and the speed is at least three to five times faster than before!

It is still far from reaching the peak strength level of the Shadow Elvis. Although the bloodline returns to the ancestors and evolves, from the beginning to the peak, it still needs to hunt many creatures and swallow the essence of life in their bodies before it can completely complete the evolution. .

Therefore, it is always hiding its own strength, appearing as a shadow cat.

Unexpectedly, even though it is so low-key, it still attracts a nasty human being, and fights hard against it.

Out of helplessness, Shadow Elvis revealed his true identity and blood. But I didn't expect this human being to be arrogant and dare to fight himself!

Shadow Elvis decided to bet this arrogant human, the lesson of blood, to let him know that in this world, some people he can afford, and some people he simply can't afford it!

The murderous intention of Shadow Elvis suddenly emerged.

On the ground, the black shadow formed by the Shadow Elvis moved faster, like a bottomless vortex that would completely swallow and drown Fang Yue!

"Meow!"

"Meow!"

"Meow!"

The voice of Shadow Elvis was everywhere, and each figure corresponded to a black phantom.

Shadow Elvis' shadow clone!

An Elvis, eight clones, and nine silhouettes are exactly the same, making it impossible to tell which one is true and which one is false!

"Finally it's kind of interesting!"

Fang Yue was not surprised and rejoiced. Whether it was this shadow sneak or shadow clone, it belonged to the evolution of the law of darkness.

Even if there is a corresponding technique in the magic technique, the same scene can evolve.

It's just that the spells are too rigid, and they are far from the exquisite and flexible methods of Shadow Elvis.

Fang Yue has learned a lot from this shadow Elvis, and when he uses these two spells in the future, many changes will happen!

"Shadow clone!"

Fang Yue drank low, and Elvis cloned himself, he also cloned himself.

Eight figures appear and each figure corresponds to Elvis!

Shadow Elvis' paw fell.

唰唰唰。

Fang Yue's eight shadow clones were all shattered. Like the moon in the water and the flower in the mirror, they can only play a deceptive role. The breath and appearance are all the same as the deity, but they don't have the slightest combat power.

The shadow avatars of Shadow Elvis are different. They are not only similar in appearance to Elvis, but they all have the same combat power as Shadow Elvis!

Clone versus Clone.

Deity to deity!

Fang Yue, the deity of the Shadow Elvis, suddenly bent over and elbows.

The most flat fist was blown out.

This fist is simple and simple. But it's getting to the extreme!

The moment Fang Yue's fist fell to the abdomen of Shadow Elvis. Shadow Elvis' claws also drew towards Fang Yue's cheek.

Fang Yue's face was sideways, and he was able to pass the blow of Shadow Elvis.

The Shadow Elvis was not so lucky, and he bluntly took Fang Yue's punch.

Shadow Elvis bends slightly.

A mouthful of old blood spurted out!

Its eyes opened wide, and it never thought that this human being could be even more agile than it!

However, the belly of the Shadow Elvis was soft and very tough.

Although Fang Yue's punch could hurt its internal organs, it was only a minor injury!

Shadow Elvis leaped to fight again.

Eight shadow identities are gathered in one place. Although each shadow identity is only one-tenth of the combat power of the deity, it is equivalent to the full power of an ordinary innate first-level warrior!

"If there are many people, it must be great?"

Fang Yue sneered suddenly, he mastered the subtlety, and the most feared was the siege of many people. Because within the range of three meters in his body, every change of grass and tree can be reflected in his heart!

No matter how many people, as long as they haven't reached the point where he can't avoid hiding.

There is not much difference between a multiplayer siege and a single one!

Fang Yue's heart was bright and pure.

All means are reflected in his heart.

Dodge, move, fight back.

Fang Yue continued to fight each other with Shadow Elvis' shadow clone. At this time, no one in the team dared to intervene.

Because they may accidentally injure Fang Yue if they are not careful.

Puff puff!

The shadow avatars of Shadow Elvis were defeated by Fang Yue and disappeared.

After a while, all the eight shadow avatars of the Shadow Elvis were gone.

The remaining deity had also been attacked by Fang Yue several times with his fists.

It fell to the ground embarrassedly, panting.

The original proud expression was gone, all that was left was the cautiousness when looking at Fang Yue.

"Are you convinced?"

Fang Yue looked at Shadow Elvis, and was not ready to hurt the killer. Instead, it was a pair of eyes, staring at it.

Let the shadow Elvis feel a faint oppression in the invisible.

"Meow!"

The shadow of Elvis Presley dropped sharply. In the voice, there was a gracious taste.

It wasn't because it was too persuaded, but Fang Yue's methods really made it feel unsolvable, unable to fight, and unable to escape. There is nothing to do after returning!

The surrender of the Shadow Elvis made the other members of the team all shocked their jaws!

Is this still the shadow Elvis of the legendary mission killer?

They were actually overwhelmed by their captain who had only one level of innate realm!

Fang Yue nodded slightly, his fingers dropped between Shadow Elvis' eyebrows.

The master and servant contract is condensed immediately!

Originally, in accordance with Fang Yue's request, the realm strength of this Shadow Elvis was far unworthy to be its servant and battle pet.

However, it is a mutated creature in the deep blue planet. If its bloodline can be further improved, it may become an ancient alien species, or even a sub-divine beast! At that time, the identity and strength of this Shadow Elvis will be very different!

Shadow Elvis and Fang Yue signed a master-servant contract, no longer have any rebellious heart, even it and Fang Yue's will are connected, and the two can communicate with each other at a single thought.

There is no separation of thoughts.

"Master-servant contract? Sorcery? Physical skills in the smallest possible way?"

Martial Artist No. 04 seemed to hear the sound of a pounding heart in his chest, puffing constantly!

Their captain is definitely from an extraordinary origin!

These things are definitely not something ordinary civilians can touch or even master.

"This surrendering to the Shadow Elvis, counts as completing the task?"

Fang Yue smiled and looked at Martial Artist 04, which shocked him. He is very satisfied.

Fang Yue didn't plan to really start from the bottom, a little bit of time and qualifications, and slowly go to the top!

"Forget it! Of course! If it's the Shadow Cat, this quest should be a H1 level quest! And the Shadow Elvis we encountered, the level of the quest was immediately raised to the H5 level!

The level of this task has been increased by 4 levels, and our rewards can also be increased several times! I thought I had to complete seven or eight tasks smoothly at least to get enough military service and the capital to evolve again! Unexpectedly, this time, it was done in one go! "

No. 04 warrior was happily.

In this chaotic apocalypse, only strong strength is the basis for survival!

Being able to raise the realm of the cultivation base again means that his ability to save his life in the doomsday greatly increases.

The other team members are also smiling.

Looking forward to the scene after the strength increases again.

Back to the military.

Military merit confirmed.

After Fang Yue took out the Shadow Elvis, he was in charge of checking, and the personnel who registered military merits were all dumbfounded.

Shadow Elvis, it's not unheard of. But those were all corpses or parts of Shadow Elvis.

The living Shadow Elvis. They are all unseen. "According to the military rules, you originally performed a H1 level mission. When you complete the mission, the captain will get 2000 military merit points, and each team member will receive 1500 military merit points! Because of the mistakes of the early investigators, the difficulty of the mission suddenly changed, and the difficulty of the mission increased to H5. Level, default task

After completion, the corresponding reward will be distributed to your personal account. Due to the temporary change of the mission and the promotion to the H5 difficulty level, after the mission is completed, the captain will receive 22,000 military merit points and the other team members will receive 13,000 military merit points! According to satellite video recordings, team leader Fang Yue performed outstandingly during the mission, and the military gave a bronze medal of bravery and awarded 5000 military merit points! "

#### **Chapter 487: Permissions issue**

One task is completed.

Fang Yue himself had gained 29,000 military merit points.

Even the logistics personnel responsible for military merits cast envy when they looked at Fang Yue!

The other team members also gained a lot. These military exploits can all be exchanged into precious survival resources.

If you simply use military merits to exchange star coins.

One military merit point can be exchanged for ten stars!

29,000 military merit points are equivalent to 290,000 stars!

For example, the extremely scarce water, rice noodles, and one military merit point can be exchanged for two kilograms!

Of course, the things that can be exchanged for military merit are too much, it can be said that there is no market, and no one is stupid enough to exchange military merit for star coins or some cheap necessities of life!

Fang Yue opened the exchange list of military merits.

The scope of Fang Yue's authority is clearly marked above.

Corporal authority.

There are only hundreds of exchange items open to him.

If you want to increase your authority, you need to exchange military merit points.

For example, to upgrade from a corporal to a sergeant, you need 500 military merit points.

"This system is really cheating. It is clear that every military merit point is difficult to obtain and needs to be exchanged for life. However, the so-called non-commissioned officer authority system will be opened, and the so-called military ranks need to be exchanged for the points earned by hard work. !"

Fang Yue couldn't help but complain.

But he still changed the rank of sergeant very decisively.

Every time the rank of a non-commissioned officer is raised, the right to speak in this army will be correspondingly important.

Corporal, belong to the bottom of the army officers.

The general representatives are newly recruited officers, and they do not even have the right to know on major military decisions.

The sergeant has the corresponding right to know, and even has the right to speak and vote on some tasks!

Promoting military rank is a path Fang Yue must take.

After being promoted to sergeant.

Fang Yue's military merit exchange authority immediately increased a lot.

He has the right to exchange for weapons and bombs with ordinary power. Even Deep Blue Planet's current situation chart, he can also spend 1,000 military merit points in exchange for one.

"The level of the sergeant is still too low to touch the core level of the military! Well, look at the sergeant to the sergeant, the required military merit points are 2000 military merits! This is really a bit cheating."

While complaining, Fang Yue exchanged his military rank to the rank of sergeant.

As the authority once again increased, he can exchange more various items.

"Huh? Minor exercises? What is this? A set of H-level minor exercises with the lowest score actually requires 10,000 military merit points to be exchanged?"

Fang Yue was a little shocked.

These military merit points are extremely precious, and the corresponding redemption purchasing power is extremely strong.

Since this redemption system dares to mark so many points. Then it means that this thing is worth the price!

"Minor exercises? You don't even know this?"

At this time, sniper 03 smiled and leaned over, and Fang Yue said.

"Minor practice is a practice created by those who have been promoted to the extreme with no breakthrough in order to enhance their combat power!

Most people only practice one kind of practice, one kind of inheritance! However, on the path of spiritual practice, it is inevitable that you will encounter bottlenecks, and it will be difficult to break through for a while, or it may be difficult for us to break through with pure external force after reaching a certain level!

At this time, people will choose a minor practice method to find another way. Continue to increase your own combat effectiveness! "

Sniper No. 03 shook his head and got so many points in one go. He was just ecstatic!

"The minor exercises were brought here before our ancestors descended on the deep blue planet. Different major exercises have different minor exercises that can cooperate with each other! The minor exercises can not only greatly enhance combat power. , There is also the effect of the emperor and the minister, breaking through the bottleneck!

It's a pity that minoring exercises requires a lot of manpower, material resources, and financial resources! As a result, the vast majority of the residents of Deep Blue Planet gave up this path of minor exercises! "

No. 04 martial artist, obviously has a better understanding of the auxiliary exercises.

It is said that he was a disciple of a certain martial arts family, because he was not talented enough, so he was given up and had to join the army!

His family history knows more about some Xinmi than others!

Hearing this, Fang Yue couldn't help but develop a lot of interest in minor exercises from deep in his heart!

"Or, I'll exchange a copy to see what's magical about this minor exercise technique!"

Fang Yue is very interested in the technological civilization behind the deep blue planet. Since this minor exercise was brought from that civilization, there is naturally something extraordinary!

"Captain, you have to think carefully about this. 10,000 military merit points are not a small number! And this minor exercise method is not suitable for everyone! In case the minor exercise method you redeem is not satisfactory, I am afraid that you will regret it by then. No chance!"

No. 04 warrior sincerely advised Fang Yue, hoping that he would not do things that he regretted because of impulse.

"It doesn't matter, it's only 10,000 points, even if I can't practice, I won't regret it!"

Fang Yue opened the menu of minor exercises, which recorded ten H-level minor exercises.

There is a brief introduction behind each exercise.

After Fang Yue saw those minor exercises, a trace of interest rose in his heart!

"Ten Thousand Kills Secret", the more the number of people who kill, the greater the power of "Ten Thousand Kills Secret", but it belongs to the magic cultivation method, and the hostility is too heavy. As the main practice method, or the Buddhist "Blessed Heart Sutra" can relieve evil spirits.

In the introduction, the pros and cons of "Ten Thousand Kills Jue" are introduced in detail, and the major exercises that need to be cooperated are also listed.

Fang Yue nodded slightly, so that one yin and one yang, the two exercises cooperate with each other, and they can indeed exert unexpected power.

In addition to the Wansha Jue, Fang Yue looked at many other minor exercises.

Each one is as powerful as the "Ten Thousand Kills Technique". But it also has great practice drawbacks, and if you cooperate with the corresponding major practice exercises, you can offset some of the drawbacks!

This kind of training method is indeed quite peculiar, which makes Fang Yue feel worth learning.

In addition to "Ten Thousand Killing Jue", there are "The Lancet", "Wuxiang Gong" and other minor exercises.

The reason why these minor exercises are positioned at level H is not because the power of the exercises is weak, but because they need to cooperate with the major exercises to be too harsh, and these minor exercises are all in a complete inheritance. A small part cut off.

It's just the first chapter, and there is no follow-up practice method.

In fact, this is also in the interests of the military.

First, this can prevent the leakage of precious minor exercises, and second, a complete minor exercise can not be purchased by a sergeant-level non-commissioned officer!

On the contrary, it is an early chapter, easy to understand, and can fully meet the training needs of sergeant-level officers. If they need more advanced minor exercises, they can continue to redeem them after reaching a higher military rank.

"This "Ten Thousand Kills Technique" is quite suitable for me, give me the last one!"

On Fang Yue's account, 10,000 points of military merit were instantly wiped out, and the minor exercises of "Ten Thousand Kills Technique" were printed on his personal chip.

On the cover of the minor exercises, there is a line of small red characters that is very eye-catching.

"Military exercises are only allowed to be used by the exchangers themselves, otherwise there will be no mercy!"

Fang Yue smiled slightly, ignoring these small characters, then opened the exercises, slowly savoring the true meaning of it.

In this deep blue planet, if the military's exercises are discovered to be leaked, the military can indeed cover the sky with one hand, and do it without mercy.

But he is going to bring this sub-practice technique back to the world of Xuanhuang, to practice for his own people! The military there doesn't even have an eyeliner, how can it be done without mercy!

Fang Yue read carefully, and between the lines, it is indeed the good intentions of someone who can taste the book.

Minor exercises are a set of special inheritance!

It's not that you can replace the effect of a minor exercise with just one exercise!

"How can I redeem these military merit points?"

Fang Yue suddenly looked at the military officer in charge of registration and asked. "There are three possible methods for military merit points. The easiest is to complete the tasks assigned by the military! This method is the most common and the procedure is the most convenient. The second method is to use some urgently needed resources by the military. To exchange military merit points! For example, a lot of rice, noodles, oil, or

It is the magic weapon and material of some alien invaders! You can redeem a lot of military merit points in the military! In the end, it is a great contribution to the military! And this great credit needs to be decided by the people above! Fang Yue, for a person like you, you can actually take over some more small tasks between H1 and H3. Although the points for each task are not many, it is better to accumulate less! By your side, there is the support of this shadow Elvis. For you, the H1-H3 tasks should not

There will be too big a problem! "

The military officer worked hard to make suggestions for Fang Yue, and he was also worried that Fang Yue's youth was \*\*\*\* and courageous for a while, but he would be delayed by that time!

Fang Yue smiled slightly, not commenting on what the military officer said!

He already had a preliminary plan in his mind to redeem all the ten minor exercises corresponding to this sergeant level!

This thing is not valuable in the Deep Blue Planet, but it is sold to those who are trapped in the innate realm and unable to break through the heaven and earth realm in the mysterious yellow world, I am afraid that they can make them crazy!

Fang Yue can see that these auxiliary exercises can not only increase the combat power of innate cultivation, but also increase the probability of breaking through the world by 30 to 50%!

In the Xuanhuang world, the population base is too large, and almost everyone is practicing, and there are countless practitioners of the innate realm!

Their desire for breakthroughs is extremely strong. Even if it only increases the possibility of a breakthrough by 10%, they are willing to risk death to fight it!

Different civilizations collide with sparks of wisdom.

These things are really not trivial.

Fang Yue called up the list of tasks.

He directly passed the tasks below H5 level.

The military merit points rewards for those tasks are too few, it is worth his time to waste!

Fang Yue's indifferent attitude immediately made the military officer next to him scorn. "I just completed an H5 level mission. I don't know how many chances are in it. Do I really think I have this ability? H5 level missions are generally prepared for the strong people above the seventh level. Yes! The sixth floor is congenital, can barely take over, and the lower level

The warrior accepting the H5 level task is simply looking for death!

An innate level, with the team's cooperation, the task of receiving H3 level is the limit! "The military officer remarked unscrupulously, ignoring Fang Yue's presence.

#### **Chapter 488: Crazy task**

Standing in his position, he has seen how many people do not know what they can do, for the temptation of military merit points, and receive tasks that exceed their own capacity, but eventually never return?

Fang Yue heard the nagging of the military officer, but he didn't take it seriously. He just smiled and didn't say much.

Shadow Elvis quit.

It grinned and had a ferocious face.

Although it can't speak, it can understand the evaluations and discussions of these people!

Fang Yue is its master, and outsiders say that Fang Yue is overpowered, which is tantamount to commenting on it.

At the moment when the master and servant contract was concluded with Fang Yue, Shadow Elvis clearly felt a strong and strong sense of oppression in Fang Yue's body, making it look like a demon god, not Fang Yue's expression. So weak!

Shadow Elvis froze.

The military officer shut up immediately. It was not that he realized that his words were excessive, but that a cold murderous intent completely enveloped him, like a basin of cold water poured down, making him cold from head to toe.

"shadow!"

Fang Yue sternly scolded Shadow Elvis.

The Shadow Elvis was obediently obedient, turned into a fluffy ball, crawling under Fang Yue's feet, becoming docile!

"Meow!"

Shadow Elvis licked Fang Yue's ankle please.

The military officer breathed a sigh of relief. The back of his hand wiped his forehead. I don't know when, his forehead was soaked with sweat!

"This \*\*\*\* Shadow Elvis!"

The military officer whispered secretly in his heart, but he never dared to say anything bad about Fang Yue again.

At this time, Fang Yue had already selected the task.

"Help me receive these five tasks!"

Fang Yue outlined his task list.

The military officer immediately glanced, and his discoloration immediately changed, "Fang Yue, you are crazy! You have to take over five tasks at the same time! These five tasks are all single-player tasks, and your team can't help you at all! Three H6 Level quest, there is also an H7 level quest, and there is actually an H8 level quest!

Do you know what the H8 level mission means? That is a task that even the masters of the ninth-tier innate dare not easily take over! The tasks of this level are basically prepared for the masters of the world level! "

The military officer chattered endlessly.

However, Fang Yue looked at him with a gentle smile, waiting for him to say everything in his heart.

Although the military officer was a little more arrogant and his mouth was a bit more vicious, he was kind-hearted and he was barely a good person.

He discouraged Fang Yue, originally for Fang Yue's sake.

Fang Yue can still tell this point!

"It doesn't matter, I picked this task myself, and I am sure to complete it! And without a team, isn't there this Shadow Elvis by my side?"

Shadow Elvis heard the master's praise, and immediately meowed happily, kicked his legs on the ground, and jumped into Fang Yue's embrace.

Seeing Shadow Elvis' actions, the military officer's eyes flashed with envy.

Special mother, how can I forget this!

A Shadow Elvis, perhaps even if it is taken independently, can easily complete tasks below H5 level!

Fang Yue threw a Qi Yang Pill into Shadow Elvis' mouth, and it was chewed to pieces by Shadow Elvis like a jelly bean.

The strands of medicinal power spread and turned into a strong force, flowing in the body of the shadow Elvis, venting into the limbs! Soon, the Shadow Elvis fell into a drowsy state.

The nourishing effect of this pill is obviously better than simply eating flesh and blood!

"This is the legendary pill?"

The military officer's eyes widened, and 10,000 incredible things were written on his face!

The pill is indeed circulated in a small range among the high-level officers in the military, but if it is taken out to feed pets, I am afraid that high-level officers can't do such a luxury!

Fang Yue smiled, and under his watch, the military officer completed the task registration unwillingly.

After receiving the task, Fang Yue turned and left.

In the deep blue planet, he always has a deep sense of oppression. The ghost knows what will become the next day in this ever-changing world of doomsday!

For Fang Yue, any of the H-level tasks were not difficult.

Many tasks, even Fang Yue handed over to Shadow Elvis to complete independently!

Shadow Elvis, as long as it grows smoothly, it will soon reach the pinnacle level of the Innate Realm. The reason why its realm is still on the sixth step of the Inborn Realm is the accumulation of pure vitality.

This, for other people, may still be a big problem. In the deep blue planet where cultivation resources are scarce, the cultivation resources for people are still insufficient. Who will use the precious pill and spirit stone for pets? Body.

But this, in Fang Yue's eyes, is a trivial matter. Who made him a local tyrant and landlord?

There are so many resources on your body. If you don't use it for your pets, can it be moldy in your storage bag?

Fang Yue completed the five tasks easily.

In the satellite video, no flaws can be found in the process of completing the mission.

The congenital level or the congenital level.

It's just the alternate coordination of different spells, and the subtle level of body skills, which is amazing.

The cooperation of Shadow Elvis makes others even more enviable!

Not everyone can have such a good helper, able to assault left and right, and when completing the task, give the opponent a fatal blow.

After completing the five tasks, Fang Yue's military merits soared instantly!

The 150,000 military merit points are enviable!

Fang Yue also exchanged ten sergeant-level minor exercises smoothly.

When Fang Yue handed in and exchanged military merits.

The military officer's expression is really wonderful!

Fang Yue felt that he should really record his expression and appreciate it slowly!

Fang Yue's military rank has also been promoted from the rank of sergeant to tuatus!

The position in the military is even higher!

However, Fang Yue only knew when he exchanged his military merits that his rank promotion was not the fastest.

In the military base in city 009.

There are two more promoted faster than him!

Jun Bufan is a young strong man who joined the army five days ago. This buddy is rooted in Zheng Miaohong and is a native of this No. 009 city.

The cultivation base of the Seventh Innate Layer is extremely eye-catching among the recruits who have just joined the army.

As soon as he enlisted in the army, he served as a personal guard for a senior officer in the army.

On the second day of enlistment, the high-level officer encountered danger during the mission. The high-level officer nearly died, but was dragged out of the dead by the recruit named Jun Bufan!

From then on, that high-ranking officer simply treated Jun Bufan as his own son!

The position in the army has soared all the way, and now it is the rank of lieutenant!

The other is Sima Xiao, this guy does not take the usual path. Simply use force to perform tasks. He took the logistic route, all kinds of intimidation, all kinds of tricks, and even coax and deception were used, and he returned a head-level official in charge of logistics to become his own sister!

He has only been in the army for three days, and he has become a pivotal member of the logistics post in the military base in City 009. The rank of Lieutenant, although it was slightly inferior to Jun Bufan, who had brought out a high-level officer from the dead.

But the power in the hands may be even greater!

The logistics department is responsible for the distribution of specific materials! They have considerable discretion for many materials.

For example, even if the simplest bullet supply is of the same model, because the manufacturers are different and the batches are different, their quality is also very different.

The manufacturer with the best quality may be able to guarantee that every bullet can exert its maximum power.

And for manufacturers with poor quality, there will be one stinky bullet in a thousand bullets!

All this is within the scope allowed by the rules.

In the real battle, a stinky bomb may cause the rhythm of a battle to be broken and eventually plant the consequences of failure!

Compared with Fang Yue and Sima Xiao, Di Yi counted as the most satisfactory member.

He performed tasks in accordance with the military's standards, every time he completed it without compromise. He is still a sergeant to this day. However, it is said that his style of work has been more highly praised by the military.

The army is the machine of war. It is difficult to determine the final outcome and direction of a war for personal bravery.

But discipline is an important factor in the victory of war!

Fang Yue, Jun Bufan, are all too good, so good that makes people feel dazzling!

Such a person can be used as a knife soldier, but as an officer, it needs to be considered!

Fang Yue, Sima Xiao, Di Yi, and the three of them have different personalities, resulting in different routes.

But they choose the most suitable method for them. If they use other people's routes on them, it will be nondescript, and it will not be an anti-dog!

After Fang Yue completes the task, each task is completed, 500 military merit points will be allocated to each of his team!

After a mission, 5000 points of military merit were given away.

This kind of action, in the eyes of some people, must feel a bit silly, but it is because Fang Yue is at the bottom of the army and has won a good reputation!

Why are the soldiers at the bottom serving as soldiers? Why join the army?

Whatever protects the home and the country is just shouting slogans. There are not so many people who can really reach this ideological and political height!

Their purpose is to exchange military merits, let themselves fight for a better future, and obtain food and clothing for their families!

No risk, no work, you will be able to get 500 military merit points.

Where can I find such a good thing?

As the saying goes, under heavy money, there must be a brave man.

Many soldiers are scrambling to join Fang Yue's command!

Fang Yue also used this method to establish his prestige in the army a little bit!

Positions, rights, and sometimes are given by your position.

But more often, it was your subordinates who carried you to that place!

The ten members of the team will resign at the beginning! Later, as they saw that each of the tasks that were quite dangerous in their eyes, Fang Yue seemed to be playing a house with a child, and after completing it easily, they would no longer refuse this kind of heavenly welfare!

With the accumulation of military merit points, they continue to exchange into various weapons or physical powerhouses.

The combat effectiveness of the entire team is constantly strengthening!

"Captain, a new mission has been dispatched for us! Four teams are required to cooperate with each other to complete this mission!"

Sniper No. 03 stopped Fang Yue.

If Fang Yue goes out to perform a single-player mission and cannot rush back in time, then I am afraid that their team will only be able to dispatch ten people to cooperate with other teams to perform tasks!

In that case, without the captain, the members of their team will be extremely passive.

All team members must obey the command of other team captains. At that time, I will become cannon fodder, and I don't know how I died!

**Chapter 489: Heroes**

"Okay, I get it now!"

Fang Yue didn't care about this kind of mission. He was wondering whether he would start to take over the H10 level mission, accumulate more military merits, and then go one step further and become a lieutenant-level sergeant.

Fang Yue found that in the army, for every additional rank, the status and rights in the army are different!

However, he was promoted from Tuashi to Lieutenant.

Except for the extraordinary improvement that looks like Sima Xiao, Jun Bufan's relationship and finding ways to improve. The only way is to exchange military merits.

In addition to the requirements for military merit points, this military merit exchange requires three bronze medals of bravery.

This medal is not available in every mission.

So far, Fang Yue's three-level bronze medal of bravery is only a trivial one!

Want to get the second Bronze Hero Medal?

Not only strength, but luck!

Because the bronze medal of bravery will not be clearly marked on the reward of the task!

There are two possibilities to get it.

First, as before, the task changed and the difficulty suddenly increased. If it is completed, you will naturally get a bronze hero medal as a disguised compensation!

Second, the military has an emergency and will issue corresponding tasks. If completed, there will also be a bronze medal of bravery!

This condition for promotion has virtually stuck many people.

This is a deliberate arrangement by the military to close the channel for promotion!

The military has a lot of resources at its disposal. In this doomsday world, it will definitely attract the coveting and watching of many people!

Some low-level resources are okay. The army has a huge amount of resources and is open to them. You complete the task and I give you the resources. It can be regarded as a fair deal, and the military has no loss!

And some advanced resources, if there are no restrictions, if they are exchanged in this way, I am afraid they will all be taken away soon!

At that time, the military wants to train its own troops, and it will become stretched!

In order to prevent this from happening, the military had to deploy such a method as a last resort!

This is also a kind of helplessness, not against anyone deliberately.

When Fang Yue was frowning.

Sniper No. 03 has transmitted the mission to Fang Yue's chip.

Task introduction.

The four teams are working together to find the earth dragon cubs!

Complete the mission and get a lot of military merit points based on the contribution of each team!  
Completing particularly outstanding individuals can also get a bronze medal of bravery!

Fang Yue grinned after seeing the reward for this task.

As soon as I fell asleep, someone came to deliver pillows.

Seeing Fang Yue's proud look, Sniper 03 kindly reminded him. "Captain, this task, you must not be careless! Earth Dragon, the bloodline of the giant lizard beast in the dark blue planet before, mutated from the ancestors! This adult earth dragon has a strength equivalent to the third level of the world. The realm of cultivation! And because the body is huge, the skin is thick and the ground

Dragons can rely on their flesh, blunt resistance, ordinary bullets, and artillery fire! And it can also command the beasts around to fight for it! Every time I shot, all were crushed in droves! "

Sniper No. 03 is worried, and he is not optimistic about being able to defeat this earth dragon. "In the operation of this mission, our four squads acted together, and the headquarters has already numbered our four squads in turn! Our squad, the 04 squad, is at the end of the four squads! And the commander-in-chief Officer, it is Wang Longhu, the captain of Team 01! I heard that this person,

Cruel by nature, indifferent, and very jealous, there is a high possibility that our team will be used as cannon fodder to lure Earth Dragons to complete tasks! "

Sniper No. 03, tell what he knows and everything he knows!

Fang Yue froze slightly, rubbing his temples gently.

He really didn't expect that a small task would be so complicated by the military!

"Give me the list of the four teams, let me see, those people are going to act with us to complete the task!"

Recently, Fang Yue's team, under his grace and power, has actually all been built by him into his own!

People from other teams came to intervene, which really made Fang Yue quite inconvenient.

Many of his methods could not be fully displayed, and the strength of the first level of the Innate Realm in the information greatly restricted his actions!

Sniper No. 03 handed a piece of information to Fang Yue.

Fang Yue looked down.

The smile on his face gradually faded!

This task is by no means easy!

Fang Yue just glanced at the list of personnel, and based on his sophisticated experience, he came to this conclusion! Team 01, as the strongest existence of the four teams, leader Wang Longhu, is already a veteran of the world realm. He is based on the third level of the world realm. He is a master of "Dragon and Tiger Technique" and is unique in 009 City! If it weren't for being a vicious person that prevented the military from being promoted, it would have been

It's a middle-level officer!

Of the ten players under Wang Longhu, all of them are elites!

One of the vice-captains, all of them are strong in the first level of the heaven and earth realm, with veteran experience and very spicy methods!

The remaining eight players are all on the ninth level of Xiantian Realm! Each has its own strengths and cooperates tacitly!

It is no exaggeration to say that if their goal is really to hunt down earth dragons and capture cubs, the strength of this team is more than enough!

The 01 team is so strong.

The next 02 team is not weak either!

The leader of the team is Jun Bufan, who is now in the midst of the barracks base. The ten members of Jun Bufan's team are all the pride of the sky. The average strength is about the eighth level of the Innate Realm!

Team 03, Captain Aruba!

Fang Yue had never seen this person, but he had heard his name. He is a mutant in the military! After a nuclear explosion, he survived smoothly.

His own cultivation realm is in the first level of the heaven and earth realm, but because of the nuclear explosion, it has produced many incredible abilities.

Aruba's teams are all subhumans of various kinds, some of them mutated due to various constant reasons, and then gave birth to unique superpowers, and some of the team members are simply descendants of the demon race themselves!

The Aruba squad can be regarded as a rare soldier of the military base in the city of No. 009. Normally, it will not be dispatched at will. Barrow's squad will only be dispatched when completing some tricky special tasks!

According to this sort of order, Fang Yue's team was ranked last, but it was a matter of course. Perhaps the reason Fang Yue's team could join this mission was also Fang Yue's personal reason.

Recently, Fang Yue has completed H-level tasks one after another, and the military's rating on him must have risen rapidly! There is also the shadow cat demon, which has been successfully promoted to the pinnacle of the innate realm under the feeding of the pill!

Generally speaking, mutant creatures of the same tier are stronger than humans!

After a comprehensive evaluation, Fang Yue's team was qualified to participate in this mission.

However, after Fang Yue had read the information provided by the military, a cold light flashed across his eyes!

The information on this mission was incomplete, and even the information provided by the military was very simple.

It only briefly introduced some basic conditions of this earth dragon, and even the specific weaknesses were not mentioned.

"Sure enough, my squad is treated as cannon fodder! Although I continue to complete tasks, in the eyes of the military's senior management, it is estimated that it is a chess piece that can be sacrificed at any time!"

Fang Yue said to himself.

Sniper No. 03 is even more gloomy.

He was aware of this problem before!

Once the military really abandons them, then their team is likely to be wiped out in this mission!

"Captain, let's just reject this mission! Although rejecting the mission will result in a deduction of 1,000 military merit points per person, it is also better than sending death!"

Sniper No. 03 discouraged Fang Yue.

Fang Yue's mouth turned up with a cold smile.

"Give up? Why give up! The military's senior officials treat us as cannon fodder, but they have not thought about it. Will their plans be used by us?"

You help me list the weapons that can be exchanged for Tuas level! If the military wants to calculate me, I will make them cry even though they cannot cry! "

Seeing Fang Yue's heart so determined.

Sniper 03 no longer obstructed.

The next day, Fang Yue led his team to gather in the military training ground as scheduled.

The other three teams are ready!

Among them, Wang Longhu's team is the most arrogant, and his team is far away from the other three teams.

The corner of Aruba's mouth is always a faint smile, gentle and very gentle. With his handsome appearance and long golden hair, it makes people feel like he is a prince from a fairy tale world. !

Jun Bufan looked like a fool, with a piece of grass at the corner of his mouth.

His eyes were constantly moving, and he didn't seem to have the nervous, serious look of a soldier!

"Jun Bufan?"

Fang Yue glanced at this guy, and immediately felt a breath from the world of Xuanhuang from the depths of his soul.

This kind of breath is difficult for ordinary people to detect.

Fang Yue was also able to perceive his difference keenly because of the will of the heavens in his soul!

Jun Bufan's gaze also fell on Fang Yue at the same time, he waved and greeted Fang Yue.

It seems that this monarch is extraordinary, he is a self-acquaintance by nature, and anyone who meets him can quickly become his own good friend!

Fang Yue was a little speechless about Jun Bufan's rough nerves, and really didn't know, which spy undercover this buddy was dispatched from, how could he not even talk about a little professional ethics!

However, Fang Yue smiled in response to Jun Bufan's favor.

Also from the Xuanhuang world, the two of them can be regarded as old friends from hometown!

"What's the matter with your team? How dare you do it, don't you know how to prepare before you perform the task? Your team is late for such an important task! If the task fails, your team will take full responsibility!"

Wang Longhu was quite irritable at the moment.

As the name suggests, this time really looks like a grumpy tiger! However, Fang Yue saw a trace of anxiety and anxiety under his violent appearance.

This emotion, in Fang Yue's interpretation, should be a vague resistance to future tasks. "Starting to shirk responsibility so early? However, we weren't late and came to the training ground at the agreed eight o'clock. Well, it's just right now at seven fifty!"

#### **Chapter 490: Jun Bufan**

Fang Yue always looks unhurried, as if strategizing and winning a thousand miles!

This feeling made Wang Longhu very uncomfortable. He felt that this kind of tolerance should only be possessed by him as the captain of the first team!

"Then do you know that this mission is very important! You must always keep your spirits up!"

Wang Longhu's face was sullen, and he did not expect to encounter the old fried dough stick.

This guy has not been in the army for a long time, but he doesn't have the slightest respect for the officer!

"The mission is important, but I don't think our team is important in your eyes!"

Fang Yue continued to fight Wang Longhu haha!

Wang Longhu hated Fang Yue's statement so much that the roots of his teeth were itchy, but he was helpless!

This is obviously the next set, competing with him for the initiative, once he says that their team is important, I am afraid that Fang Yue will have a certain right to speak in future actions!

"Huh, let's go now!"

Wang Longhu wouldn't be able to put on the set, so he turned around and led the team away.

At this time, Jun Bufan leaned forward with a smile.

"How about? Cooperation, this task is not easy! A little carelessness will be sold as cannon fodder!" Jun Bufan said to Fang Yue. Expressed his kindness.

From under Jun Bufan's smiling face, Fang Yue saw a trace of cold reason!

For Jun Bufan, Fang Yue always had a slight doubt in his heart.

This guy is from which force in the Xuanhuang world, if he knew his identity, what kind of attitude would he have!

It is not that Fang Yue is suspicious, but that his reputation in the Xuanhuang world is really not that good!

When he was in the country of Yan, he robbed too many schools and families.

Some sects and aristocratic families have turned enemies into friends with him and don't care, while others are stubborn, and even in the black market, they still have high rewards for him.

These bounty rewards made Fang Yue feel his heartbeat!

Maybe, this Jun Bufan will sell him as soon as he knows his identity!

"No problem! Happy cooperation!"

Fang Yue is very happy to give high fives to Jun Bufan, no matter what the future is, at least the relationship between the two is still friendly now!

Jun Bufan and Fang Yue's team immediately signed an offensive and defensive alliance!

"Humph!"

He saw this scene in his eyes, but he was very disdainful of Jun Bufan and Fang Yue's holding together to keep warm.

Ants, after all, are ants.

Even if the two are united together, they cannot escape their humble destiny!

The four teams ride on a small airship, which can fly at low altitudes and is equipped with a simple laser cannon barrel!

The laser cannon on the spaceship is specially made by the military, which not only has the locking function, but also causes powerful damage to the creatures in the world.

However, the consumption of this laser cannon is also quite large. The energy of three thousand star crystals will be consumed instantly!

In ordinary tasks, even the military is reluctant to use weapons of this level.

This thing is essentially a money-burning gadget. If it is used on a large scale, it will consume too much money, even the military cannot afford it.

The spacecraft flew extremely fast, and after a few seconds of acceleration, it entered a high-speed flight state of three kilometers per second.

At this speed, even an ordinary rotation realm powerhouse would be difficult to track without a special secret method.

This is also the advantage of technological civilization over the civilization of practitioners.

About ten minutes later, the spacecraft landed.

This is a primitive jungle, and there is still a warm and humid feeling in the air.

But in this green environment, Fang Yue did not relax his vigilance at all.

"Fuck, such a big mosquito! Are you sure this is not Jurassic AD?"

Fang Yue saw a half-meter-long black flower mosquito, flapping its wings, flying by in the air! This big flower mosquito has a long tone, with a silver light shining on the edge.

This is like a long sword in the Middle Ages, sharp and sharp, giving people a sharp chill! "Blood back to the ancestors! Since the emergence of zombies, creatures have continuously swallowed life crystals, and mutated creatures have continued to appear. They have shown a strange look! Like Fang Yue's shadow cat monster, among the many mutated creatures, it can only be regarded as a threat to human beings!

Of course, this is not to say that your shadow cat demon is weak, but it is difficult for such creatures to appear in groups, and they want to go further, and it is very difficult, generally at the pinnacle of the innate realm! "

Aruba is explaining to Fang Yue. His character is quite gentle, and the whole person gives people a warm feeling, which is in sharp contrast with Wang Longhu's arrogance! "Like these mosquitoes, they are quite scary. Among them, a few mutations can quickly multiply and form a huge community. Occasionally a text with one end and two ends is not terrifying, but thousands of mosquitoes are in groups. The appearance of the group, a large area of Wuyangyang, even if

Some experts in the realm of heaven and earth are struggling to clean up thoroughly!

Mosquito plagues, locust plagues, and ant floods have appeared in the deep blue planet more than once, and no grass will be left wherever they pass. Even babies that fall to the ground will be sucked into mummy by them! "

"Huh, Aruba, why are you telling them so much? The 04 team was originally used as a pathfinder cannon fodder! Before leaving the base, I was worried that they would regret it and need to be comforted, but at this time, Even if they know the truth, they can't leave!"

Wang Longhu was very uncomfortable, he told the truth directly.

When Fang Yue's ears moved, a faint anger could not help being born in his heart.

Does Wang Longhu really treat them as ant crawlers?

"Oh, Lord Longhu Wang is really refreshing. In fact, I had anticipated it when I received the task! I just didn't expect that Lord Longhu Wang would speak out openly! I'm afraid there are more precious things in this virgin forest, far better. Yu Dilong's cub!"

Fang Yue's tone is half-yin and not yang.

He is not a good person either, if this Wang Longhu really does too much, he intends to kill this guy directly.

As for the methods, there are many. The mosquito disaster is a good reason! "Haha, what do you know so much for? I now order everyone in your 04 team to explore the way ahead! If anyone dares to take a step back, they will all be dealt with according to the crime of deserting! If the 02 team is wrong, if 04 The people in team number are dead and clean, your people will replace them

The position becomes a pathfinder, understand? "

Aruba's tone was full of unkindness.

Before he set off, when Fang Yue bumped against him, he was already seeing Fang Yue not pleasing to his eyes! Now you can finally let go of your hands and feet and take revenge!

Everyone in Team 04 looked gloomy.

For this sudden change, they didn't panic too much. During this time, Fang Yue gave them a lot of military merit, making their strength much stronger than before. Even if you encounter danger in this virgin forest, it is not without the slightest hope of escape!

"I'll take the lead!"

Fang Yue winked at Sniper 03.

Before the start of this mission, he was already prepared.

This Wang Longhu's reaction was in his expectation! He told the team members that as soon as they found something wrong, they would run immediately, regardless of whether they could complete any \*\*\*\* task!

If the mission fails, the military merit points will be deducted and you can earn again.

And if the small life is lost, it is really a hundred, and there is nothing!

"it is good!"

When Wang Longhu saw Fang Yue so refreshed, he also showed a gloomy smile.

In his opinion, Fang Yue had to bow his head under the eaves!

The weak are always weak!

No matter how arrogant, bow your head to them!

Fang Yue walked ahead.

Just stepping into the virgin forest, only less than a hundred meters away, there was a hummingbird whistling towards him!

The beak of this hummingbird is extremely sharp, and it flies at low altitude and is extremely fast.

Accompanied by the whistling sound, it was like an awl trying to pierce Fang Yue's throat.

"Ah! Help!"

Fang Yue did not resist at all.

Hold your head, turn around and run.

"A coward is a coward, just a mere hummingbird! Are you worried too?"

A scar face in Wang Longhu's team showed a sneer.

But the next moment, with a dazzling eye, Fang Yue had already arrived in front of him.

Fang Yue hugged Scarface, his lips turned pale, and he tremblingly said, "Brother, help me!"

Scarface sneered: "Get out of here!"

Scarface tried to push Fang Yue, but Fang Yue's arms were like iron hoops!

The hummingbird approaches.

Fang Yue suddenly used force, he turned around, using the scar face as a meat shield, blocking him in front of him!

"Pump"!

Blood splashed!

Scarface's heart was pierced, and a blood hole the size of a baby's fist appeared!

Scarface felt the life passing by in his body, he opened his mouth, wanting to say something.

Fang Yue's arms clinging to him suddenly tightened, making it hard for his lungs to breathe. He didn't even leave a last word, and his soul returned to the underground palace!

"Meow!"

At this time, the shadow cat demon rose into the air, and his small sharp claws cut through the air, pressing the hummingbird to the ground!

"Oh, I'm sorry! I'm really sorry! Just now you said that hummingbirds are nothing! I thought you were not afraid of it!"

Fang Yue's arms loosened.

The corpse of Scarface was thrown on the ground!

His eyes opened in anger and he couldn't squint!

Wang Longhu's teeth rattled, but Yue was helpless!

"Fang Yue, you bastard, you actually killed my men!"

Fang Yue wiped the dust off his sleeve casually?

"Ah? I killed your men? I really didn't mean it!"

Fang Yue's words were not sincere. It seems to be blatantly saying that this is what Lao Tzu did, and you have killed me!

"Obviously this eldest brother under yours, he can't pretend, if he didn't deliberately behave, saying that a hummingbird is nothing, I wouldn't run to him and let him help me with disaster!"

Fang Yue was completely angry and not paying for his life.

This caused Wang Longhu to have stomach pain, lung pain, and liver pain!

Wang Longhu's eyes flashed with a ruthless look. "Kid, wait and see! You will look good at that time!"
