

God of Life 491

Chapter 491: Danger and opportunity

Wang Longhu finally suffered from this loss. After all, this action is not just his team! Out of the corner of his eyes, he could see that Fang Yue's sniper No. 03 had pointed the cold muzzle at his throat intentionally or unintentionally. And all the other people in the 04 team are not good. Locked a 01 team separately

Members became their own targets.

Once started, at least three of their 01 team will be injured or even fall!

This is clearly a posture of death!

Unexpectedly, the Fang Yue team, who was not in his eyes, was actually a group of ruthless characters!

Wang Longhu could only break his teeth and swallow it in his stomach!

Aruba still smiled brightly in the sun. He didn't deal with Wang Longhu's team, and he was very disdainful of Wang Longhu's arrogant person.

However, Fang Yue was able to make Wang Longhu suffer a dark loss, but it was a bit beyond his expectation.

Aruba was amazed by Fang Yue's methods.

It wasn't because of Fang Yue's strength, but his trick was too bad. This caused Wang Longhu to suffer a real dumb loss, and he lost a subordinate without telling it, and there was still suffering.

Fang Yue continued to lead the way.

Wang Longhu behind is always vigilant, his gaze is scattered, and he perceives every movement around him.

Fang Yue, this kid is too bad, he doesn't follow the rules at all! Presumably, even if he really discovered the problem, he would hide it and let them suffer a dark loss, but he couldn't say anything.

"Stop! Sniper 03, aim at a 20-degree deflection to the south!"

Fang Yue suddenly spoke, everyone was nervous!

Could it be that this kid really found something wrong?

Sniper No. 03 did not hesitate at all. He aimed at the position Fang Yue said, and pulled the trigger!

A bang.

The bullet rotates.

A mouse fell from the branch of the dense forest.

"Shadow cat demon, get back our trophy!"

"Meow!" The shadow cat demon jumped to the side of the mouse very excited and took it back.

"Dark Demon Rat?"

Wang Longhu couldn't help being surprised, he fixed his eyes on the mouse that was killed by the 03 sniper.

Dark Demon Rat is an extremely precious material.

Its own strength is not so powerful, but the blood contains a strange life-stabilizing substance, which can make the evolution of life proceed in a more stable state!

Swallowing life crystals, it can indeed awaken the blood of the ancient ancestors in the bloodline, making itself extremely powerful, but it has a very high chance of death, and almost no one in a hundred people can evolve successfully!

The blood of the Dark Demon Rat can triple the chance of success in evolution! On average, one in thirty people can evolve successfully with the crystallization of life.

In the military base. A dark magic mouse can be exchanged for 10,000 military merit points!

Fang Yue hunted down a dark demon rat, which made Wang Longhu feel greedy.

"Sure enough, there are dangers in this forest, but there are more treasures! This is the natural treasure that nature has bestowed on us. If you make good use of it, you may be able to harvest a lot!"

Fang Yue admired involuntarily.

And Wang Longhu cursed secretly "Shit luck!"

After walking another three hundred meters, Fang Yue suddenly bent over and picked a purple plant from under a centuries-old tree.

Fang Yue took care of the purple plants carefully!

"What is this again?" Wang Longhu had never seen this kind of plant.

Aruba shook his head slightly, indicating that he didn't know this plant either.

Only Jun Bufan hesitated for a moment, and then said uncertainly: "Fang Yue, is it a purple blood flower that you picked?"

"Purple Blood Flower? What is that!"

Wang Longhu was embarrassed to ask, but Aruba had already spoken. Jun Bufan showed a reminiscence expression: "I only heard a little about the role of this plant. The purple blood flower is a plant that grew on the earth in ancient times. It absorbs the essence of the sun and the moon and seizes the world. Good fortune only grows in some geomantic treasures

come out. Purple blood flower can promote biological evolution, bloodline rent return and life crystallization have the same effect! But unlike life crystals, the process of swallowing and refining life crystals is full of danger! A little carelessness will explode and die, and there will be no whole body!

The purple blood flower, on the other hand, can be harmless, allowing organisms to evolve smoothly. There is a 90% chance of success, and even if they happen to have a 10% chance of failure, they can ensure that they have no loss. The blood is closer to the ancestors! "

Jun Bufan said that, in fact, he also heard the legend of purple blood flower from the mysterious yellow world.

Fang Yue's palm shook.

The purple blood flower immediately turned into nine drops of purple liquid!

Regarding Purple Blood Flower, Jun Bufan is far less familiar than Fang Yue.

Fang Yue is an alchemist with a true root, and he has a good understanding of the medicinal properties of many plants!

Purple blood flower does not need to be taken as a whole, it can be refined into nine drops of liquid, called purple blood.

Every drop of purple blood has the effect of tempering the blood. Of course, it is only effective for low-level bloodlines. The more advanced bloodlines, the worse the tempering effect!

Moreover, after taking one drop of the purple blood, you cannot take the second drop. Otherwise, the purple blood will not only have no effect on tempering the blood, but will become extremely poisonous and kill people!

Fang Yue dripped a drop of purple blood on the body of the Shadow Cat Demon.

The shadow cat demon jumped to the sky with a "meow"!

A pair of black wings stretched out from the fur behind it!

Its bloodline evolved immediately and became a demon cat!

The demon cat demon is already a kind of demon bloodline, and the evolution can reach the peak level of the rotation realm!

The moment the Shadow Cat Monster evolves into the Demon Cat Monster, his own cultivation realm advances by leaps and bounds. In a blink of an eye, he reached the second small step of the heaven and earth realm, and he also realized the dark road on his own.

This is the advantage of monsters! Accompanied by the awakening of the bloodline and the evolution of the life level, they will involuntarily comprehend the law, and there is no need for epiphany and cultivation!

Of course, their corresponding comprehension is also weak, and how many law fragments are branded in the bloodline, and how many laws they can understand! As for letting them to enlighten and cultivate on their own, the effect is quite weak!

The demon cat demon returned to Fang Yue's side.

It involuntarily revealed a terrifying aura, which made Wang Longhu show a look of fear!

"Fang Yue, you should turn in such a precious thing and contribute it to the military! You even used it for your pet privately. This is a violation of military rules!"

Wang Longhu looked at the liquid in Fang Yue's hand and couldn't help showing a greedy look!

This thing is extremely valuable. If it can fall into his hands, even if this mission fails and returns without results, he will not return empty-handed!

"My things are mine! Could it be that you Wang Longhu still want to ask for it?"

Fang Yue gave Wang Longhu a cold look, and no one dared to grab the things that fell into his hands!

As an ancestral nail householder, Fang Yue's stingy, Sili and 8 villages are famous!

That Wang Longhu was slightly stunned. He didn't expect that even if he raised the banner of military rules, Fang Yue would dare to resist!

However, whether to resist, wait until the task is completed and return to the military, he has just the right to sanction Fang Yue! At that time, Yiding buckled the big hat of defying military orders to see if Fang Yue would have the courage to resist!

At the corner of Wang Longhu's mouth, a cold smile appeared.

In his heart, Fang Yue had been secretly sentenced to death!

At the same time, when Fang Yue led the way again, everyone became alert to something. This guy has made a lot of benefits.

Since everyone is here together, why can't they make a difference then!

These people's hearts are all rising up with their own careful thoughts.

At this time, Fang Yue stopped again.

"East, something changed! I..."

Fang Yue's voice has not yet landed.

Wang Longhu winked at the thin man behind him, and the thin man immediately flew out like a sharp arrow!

"Wang Longhu, what are you doing?"

Fang Yue was very angry and asked Wang Longhu.

Wang Longhu was finally able to let Fang Yue deflate. He couldn't help being extremely proud, and laughed loudly: "Fang Yue, you can't swallow this treasure alone. The so-called capable people live it!"

Wang Longhu's voice has not completely fallen.

There was a sharp scream in the forest.

"No....."

The scream stopped abruptly.

Following that, the earth trembled and the birds flew.

An earth dragon came out of the jungle and stole it!

"Wang Longhu, how can you entrust such a dangerous task of path-finding to your subordinates! Okay, this is what I want to accomplish! You, you really take your subordinates' lives as a kind of trifling matter!"

Fang Yue said angrily at Wang Longhu's pretentious accusation.

Wang Longhu's eyes widened.

"Obviously it is a treasure... how can it become an earth dragon!" The appearance of the earth dragon really shocked these people, although they all know that looking for earth dragon cubs is just a cover for a mission, the real goal, Other people! However, this earth dragon is definitely a small BOSS-level existence, at least dominating one side, ordering many beasts! And it is powerful

The single-handed combat power is also not to be underestimated.

In case this guy is really crazy.

A stomped foot, I am afraid they can be trampled into fleshy flesh!

The strong in the world may still have the power to fight, the innate level, want to survive? No drama!

Wang Longhu gritted his teeth, his eyes could almost emit fire!

This Fang Yue really played him like a monkey!

Even Mao of the mission target can see this! He actually lost two generals one after another!

"Fang Yue, you did it on purpose!"

Wang Longhu glared.

Fang Yue's face was astonished, at a loss and innocent.

"Intentionally? What did I do, did I say anything?"

Fang Yue's rhetorical question made Wang Longhu a pain! Obviously it was greedy in his heart, so he was caught in the trick of this guy.

"I'm just asking everyone to be careful, but the thin man under yours was not careful. Does he blame me for his own death?"

Fang Yue sneered. The tone of mockery made no secret, since he has torn his skin, then fight thoroughly to the end!

Wang Longhu roared: "Fang Yue don't think that you have the guts in your heart, I don't know! This time, you have to pay for my men. Even if you say the next big day, the result will be the same!"

Wang Longhu officially broke his face with Fang Yue! If he is immortal, how can he gain a foothold in this team!

"Pay your life? Wang Longhu, you really treat yourself as a person!"

Fang Yue sneered, no longer caring about it.

The demon cat demon meowed, the hairs all over his body exploded, and a cold breath fell from the sky, completely locking up Wang Longhu!

As long as he dares to do it first, this demon cat will do it the first time! Wang Longhu gritted his teeth with hatred, he glanced at the demon cat demon under Fang Yue's command, and then at the soldiers who were ready to fight.

Chapter 492: Earthworm

"Fang Yue, I have remembered this time. When I return to the barracks, I will look good with you!"

Wang Longhu put down a cruel remark, and stopped arguing with Fang Yue.

At this time, Aruba walked to Fang Yue's side, fearing that the world would not be in disorder, rubbed his shoulder and said.

"Dude, you have suffered something this time! Back to the barracks, Wang Longhu will definitely find his patrons and cry! No matter how much credit you have, you will have to make things difficult!"

"Then he has to get out of this virgin forest beforehand!"

Fang Yue lowered his head, his eyes were everywhere!

Boom!

Boom!

Boom!

Accompanied by a strong shaking of the sky.

The earth dragon slowly walked out of the forest. Its body was more than ten meters long, and its limbs were short and thick! The whole body is like a moving hill, with brown-gray skin, a bare piece, not even a single hair or scale armor!

This earth dragon gives people a faint sense of oppression, every step of the move seems to make the whole world shake with it!

There was a scarlet killing intent in a pair of lantern-sized eyes!

at this time.

A faint smile turned up at the corner of Fang Yue's mouth.

"Earth Dragon! Lord Wang Longhu, this is a good opportunity for you to do meritorious service! Don't miss it! Team 04, all of them, retreat five kilometers back! No one is allowed to get involved in the battle between Lord Dragon Tiger and Earth Dragon !"

The earth dragon shot, a huge claw obscured the sky.

As if a piece of sky was falling down, there was an illusion that dark clouds were pressing down on the city.

"The universe in the palm of the hand, this earth dragon is not born and grown out of the earth at all! It has the oldest secret technique, and someone must be teaching it behind it!"

Jun Bufan's expression was solemn. He was very serious, and the light smile he had had before disappeared in an instant.

The progress of this situation is beyond the imagination of the two of them.

It is not the most orthodox civilization of practitioners, and it is impossible to cultivate such orthodox magical powers.

The palm of the earth dragon slapped the ground, and Wang Longhu summoned a metal armor. This layer of armor is forged from a special metal, extremely strong, and the surface shines with a unique dark golden light.

Boom.

The palm of the earth dragon hit the metal armor.

The supernatural powers of the universe in the palm were actually ineffective, and this powerful and powerful blow was easily resolved by the strong and mysterious armor on Wang Longhu.

All magical powers and spells returned to basics at the moment of collision with the armor.

"Turn miraculous into decay! What kind of armor is this that can destroy all laws and all means!"

Fang Yue exclaimed.

"Destroying the magic gold! Although it is only a little mixed, it has already shattered the ordinary magical powers and spells! The destruction of the magic gold, claimed to be one of the ten most precious gods in the universe, even if the existence of the saint level is extremely poor I won't be able to collect a fist-sized piece of magic gold in my life!"

Barrow didn't know when he jumped out.

One of its little heads swayed, showing off their knowledge and knowledge.

"Fang Yue, hurry up, kill this old guy. Although there is only a trace of smashed magic gold in this armor, if it is refined, it can still make some old guys in the saint state slam their hearts!"

Barrow is urging Fang Yue.

He did not hide his voice in the slightest.

Wang Longhu turned his head angrily. Where did this little thing come out. Not only did he not urge Fang Yue to help out, but he actually fell into trouble, hit the sap, and hit himself!

Fang Yue said with a serious expression: "Do you think I am that kind of person? I'm upright and righteous, how could it be possible to attack my own person!"

Fang Yue's gesture made everyone gag!

He is upright, how did the two guys in the 01 team die?

"Humble humans, do you think this little means can compete with me? This is ridiculous, just a piece of armor, even if it is not used by any means, I can still kill you!"

Earth Dragon shot again, his pupils upside down.

On the surface of the body, blood was tumbling, and heads of bulls stepped through the void and hovered beside it.

It was in a daze, incarnate into a demon **** of ancient times.

Between every gesture, there is a trembling power!

The earth dragon and Wang Longhu fought again, and the power of the earth dragon's flesh and blood was raised to the extreme.

With just one blow, Wang Longhu was photographed underground by the earth dragon, and his whole person was nailed to the ground like a nail!

"team leader!"

Each of the other members of the 01 team turned red, using their own methods to kill the earth dragon and rescue their captain.

There are bullets piercing the air, and the cold and sharp armor-piercing bullet is spinning in the air, and there are layers of fine and tight threads on it, which can drill the flesh and blood of all living things.

High-explosive bombs were also thrown out and exploded in the air.

It was like a small sun, shining dazzling light!

These are all high-tech weapons and require a lot of military merit points in the military's exchange list.

But the 01 team has gone mad to save Wang Longhu. They will kill the earth dragon in front of them at all costs.

"It's useless, this earth dragon is not a pure mutant creature at all. Someone behind it is cultivating and spreading the law! The technological means can no longer help the madness of this earth dragon!"

Fang Yue shook his head slightly, and he could feel the obvious qi circulating in the earth dragon.

This is the method of practice, surpassing the instinct of fighting!

Moreover, the cultivation realm of this earth dragon has also reached the peak of the sixth layer of the heaven and earth realm, which is more than one grade better than Wang Longhu!

Jun Bufan's eyes also flashed with thought.

Of course, he was definitely not thinking about how to save Wang Longhu.

This kind of annoying guy, if he dies, he will die. There is really no pity. It is a gift not to dig out the corpse from the graveyard!

What Jun Bufan really considers is who is the mastermind behind this earth dragon?

Why is it necessary to teach these mutant creatures such advanced methods?

Apart from the mysterious yellow world, other worlds have begun to invade and penetrate this deep blue planet?

Jun Bufan is thinking and pondering.

He is by no means as stupid as the roe deer appears on the surface.

On the contrary, he is very shrewd, strategizing and decisive. In his denomination, he is like a think tank.

Fang Yue didn't bother to think so much. His idea was very simple. If he was able to fight, he would get a little cheaper. If he couldn't fight, he would return to the world of Xuanhuang with Sima Xiao.

Anyway, Fang Yue belongs to the kind of guy who has nothing to worry about.

As for Sima Xiao, she was exiled by the Sima family all the year round.

No matter how many worlds you intervene in this deep blue planet. Anyway, they don't need to consider the overall situation, just measure their own interests and gains and losses.

Jun Bufan's effort to think, those bullets, bombs have taken effect.

The place where the earth dragon was, was a mess, and a storm of energy swept in all directions. The trees broke and the paraquat was defeated, but the figure of the earth dragon still stood tall, and was not affected at all.

"Do you dare to show off in front of me?"

Earth Dragon snorted coldly, showing a contemptuous expression.

With a bang, Wang Longhu was trampled to death by Earth Dragon, and his body became sauce.

The armor also collapsed and turned into countless fragments.

"He showed off for a long time, I thought he could hold on for a while! Just like that, a scum with only five fighting strength, and so arrogant, it's rare that he can live so many years!"

Fang Yue muttered softly.

There is no accident about Wang Longhu's fall.

This guy clearly doesn't have any background, and his strength is only that on the bright side. Among the four teams, Hidden Dragon and Crouching Tiger, in fact, whether it is Jun Bufan or Aruba, is extremely hidden. If he makes a move, he can't beat any of them.

Wang Longhu treated others as cannon fodder, but didn't realize that he was the real cannon fodder!

"What shall we do? Kill the earth dragon and catch the cubs or go home and declare the mission failed!" Fang Yue turned around and looked at Jun Bufan and Aruba for their opinions.

As for the defeated generals of the 01 team, Fang Yue has completely ignored them. If he is obedient, he may be able to show mercy and leave them a way to survive. If they are not obedient, kill them all. Don't even want to get out of this forest!

"I want to see the people behind this earth dragon!" Jun Bufan smiled like a spring breeze. He expressed his attitude and position.

Whether there are people from other worlds coming, it is quite important for him and the family forces behind him.

"I also want to see who is so talented who taught an earthly dragon to this state!"

Aruba is like the noon sun, warm and not dazzling.

"Since you are so persistent, then I have to die with the gentleman!"

Fang Yue shrugged.

Since the two of them said that, they were ready to reveal their trump cards!

"Haha, humble humans, are you still struggling in front of the great earth dragon?"

The eyes of the earth dragon were cold-blooded and merciless. In his eyes, these humans are all his dinner today.

"Speaking adults, don't interrupt the children!"

Aruba took a step forward, and his palm quickly zoomed in.

In the palm of your hand.

The same method was displayed from Aruba's hands. However, his method is more subtle, and has incorporated some of the mysteries of space and heaven, with one hand to suppress the earth dragon. There is no aura fluctuation in Aruba's body, people can't tell which realm level he is based on! Aruba raised his hand to suppress the extremely ferocious earth dragon just now, and behind that sunny smile, there was a strong and invincible aura! He is hiding, No. 009

In the military base, probably no one knows his true strength.

Between raising his hands, he suppressed a ferocious earth dragon, and he was simply cultivated by force. He is definitely the number one person in the military base 009!

"Awesome!"

Jun Bufan clapped his hands, and instantly broke the invincible momentum that Aruba had just created.

Aruba almost staggered and fell to the ground.

This kid is faint. Use this method to break the invincible spirit in his heart!

However, there is no doubt that Jun Bufan's method is very effective. His smile is very happy, like a crowd eating melons watching a performance!

Fang Yue, Jun Bufan, and Aruba are only a short-term cooperative relationship, harmonious on the surface, and full of competition in private. They are just superficially harmonious! In fact, each one has its own little abacus!

Aruba, if you just took advantage of the situation to stand up, it will leave an indelible and invincible image of God of War in the hearts of the other members of the three teams. This is something that Jun Bufan cannot tolerate!

All three of them are human spirits. Watching Jun Bufan and Aruba's two big-tailed wolves fight secretly, Fang Yue smiles even more happily!

at this time.

In the depths of the primeval forest.

A desolate back figure slowly emerged!

In this back view, there is a compelling temperament! A pair of huge eyes, like the sun and the moon, illuminate the earth!

"Giant race?"

Fang Yue was surprised, he was the first to call out the identity of this desolate figure.

Sure enough, he landed with his voice.

A giant with a height of ten feet appeared, his face was old, and his whole body was filled with a smell of corruption. However, this giant is terrible. Although he is about to end his life and his body is decayed, he can still show a sense of harmony with the heavens in his gestures!

Chapter 493: Extreme?

The giant, although standing at the level of the rotation realm, gave Fang Yue the feeling that it was even more terrifying than some veteran powers who had lived for so many years!

"What's going on? There is such a strong man in a deep mountain and old forest! Is he a living totem? Or is he a descendant of an ancient bloodline?"

Aruba regressed and he was terrified.

The giant just stared at him for a moment with muddy eyes.

He felt the hairs bursting all over, and he felt like a disaster!

"It's not because of bloodline or totem. When this old giant was young, the heaven and earth realm must have reached the extreme level before breaking through! I feel that his temper in the heaven and

earth realm has been completed, and he can mobilize massive amounts of heaven and earth spirits anytime, anywhere. Qi, put it for your own use!"

Jun Bufan frowned. He was also somewhat noncommittal about what he said.

"Extreme Realm? What is that, it sounds like a cow breaking!"

Fang Yue was not ashamed to ask, he didn't ask Bai anyway.

He didn't know much about some Xinmi in the world of practitioners.

"The extreme realm is a legend in the world of practitioners. In every big realm, it is difficult to fully tap the potential of it in accordance with ordinary exercises! However, the extreme realm uses special means and special opportunities. , To squeeze the potential of a certain great realm to the extreme level! As far as I know, among the descendants of the supreme great religions, there are one or two who have reached the extreme level in a certain great realm! As long as it can reach this level, even a mortal body can still be invincible in the world! Because the extreme realm is terrifying, it is almost impossible to resist in the same level.

hand!

In the initial Houtian realm, if you cultivate to the extreme realm, you can have four more small realms of cultivation than others! Leading one step at a time, leading step by step. This advantage becomes more obvious in the later stages of the practice! There is also a congenital realm, it is said that after reaching the extreme realm, you can have an extra life! After the lifespan of this life has withered, you can hold the soul, stand after breaking, return to the state of a baby, and practice for another life. In this process, you will experience life and death once, once reincarnation, as long as it is not heaven.

Fu is not too bad, and to break through a small state, it is not a problem in the slightest! "

Jun Bufan was from a big family. He knows a lot of information, and it should be the most precious information in the Tibetan Scripture Pavilion of various sects!

Fang Yue finally understood that his Houtian realm level should have been accidentally hit, and he had reached the extreme level of the acquired realm! That's why I was able to forcibly have four more small realms of cultivation than others, so invincible and so lonely among my peers!

"So what about the extreme realm of heaven and earth?"

Fang Yue was curious and asked. "Heaven and earth realm, in essence, this realm merges with heaven and earth and can mobilize the vitality of heaven and earth! And if the realm of heaven and earth reaches the level of extreme realm, the scope of mobilizing the vitality of heaven and earth is wider than others! Ordinary creatures, the realm of heaven and earth mobilizes the vitality of heaven and earth. Extreme, only those with a circumference of 80 meters to 100 meters

range. Even the existence of some geniuses, being able to mobilize the vitality of the world with a radius of 200 meters around the body is considered the ultimate! And the powerhouse of the extreme realm of heaven and earth can arbitrarily mobilize the vitality of the heaven and earth of three kilometres for their own use, and can use the vitality of the heaven and earth to easily condense a clone of vitality,

endless! There is also a legend that the strong in the extreme realm of heaven and earth can slowly draw the fairy spirit from the void

Qi, constantly use the spirit of the spirit to achieve the body of the fairy! "

The more Jun Bufan said, the more awe in his heart.

Every genius who can reach the extreme existence can be called the protagonist of an era!

"This kid knows a lot about the extreme realm! It's a pity that I am not the extreme realm of the heaven and earth realm, at best it is just a pseudo extreme realm!"

The giant's face was peaceful, without any hint of anger.

His fingers twitched.

The earth dragon, which was pushed into the pit by Aruba, slowly climbed up, wagging its tail like an obedient pug and walked to the giant's side.

Needless to say, this earth dragon is a pet raised by the giant himself!

This is terrifying. For ordinary practitioners, being able to reach the level of Earth Dragon is already an unattainable dream.

And this earth dragon is actually just a pet of a strong man, so how powerful this strong man should be!

"Pseudo-extreme? What is this?"

After finally catching a group of knowledgeable teachers, Fang Yue refused to let go of any opportunity to ask questions!

The giant spoke slowly. "The pseudo-extreme realm is like me. I know my level of comprehension is not enough, but people use great magical powers, magic power, and great means to forcibly promote the extreme realm! The extreme realm of my world is artificial. Manufactured, it's not worth mentioning. It can only mobilize the heaven and earth yuan of three kilometers.

Qi is turned into one's own use, but it can't create endless clones of vitality, let alone draw that endless fairy qi from the void to temper oneself!

However, for this pseudo-extreme realm, I also paid a huge price. I have been panicking for hundreds of years, all being spent in this virgin forest, watching this world, and waiting for the arrival of my Maya! "

The giant sighed softly!

He is weighing whether his hard work and gains over the past century are truly worth it!

"Maya?" Fang Yue's eyes slowly widened.

Is this special lady the same name, is it the same name, or is it the same name?

Fang Yue remembers deeply that there is an ancient legend on earth.

The earth is the cradle that breeds life. I don't know that a civilized country was born.

Mankind is only the master of the fifth civilization.

Earlier, four other civilization groups ruled this world.

The Maya is one of them!

They are the masters of the civilization of light! What has been handed down on earth seems to be a crystal head that can sing!

Crystal skull, crystal skull.

The so-called third civilization of this deep blue planet Te Niang is not the civilization of the Mayans, right?

Fang Yue couldn't help but asked the question in his mind.

The giant shook his head slowly. "I can't go back to your question! Because I am only the elder of a tribe in the Maya subsidiary plane. I was captured by the Maya as a strong man to guard the world. Once the world changes drastically, I will notify the Mayans as soon as possible. ! Three days ago, when they came again,

My guard mission is over!

Soon, I will leave this forest and look for the bones of my ancestors left on this planet! "

There was a sense of sadness in the giant's tone.

"When the Mayans fought against many totems to seize the ownership of this planet. My ancestors used to lead the Mayans, and finally fought **** battles and fell on this land! He is the warrior of our tribe, his bones Should be respected and courteous!"

When the giant finished speaking, he stepped forward and disappeared from the end of Fang Yue's vision.

He didn't take action from the other side Yue and others. Otherwise, the three of them estimate that the group will be destroyed here!

"This Teniang's cheating! An earth dragon is actually the pet of such a terrifying strong man, the world is in the pseudo-extreme realm, the rotation realm peak cultivation realm, even if his blood is declining, it has already gone downhill. But the few of us are still not his opponents!"

Jun Bufan spoke, and he wiped off the cold sweat from his forehead.

The earth dragon was also taken away by the giant, and their missions were correspondingly lost!

But he has videotaped, recording everything that happened after the giant appeared just now.

The difficulty of the task suddenly changed, and it rose to an unbelievable level. He believed that the military would not make things difficult for the three of them.

As for the hapless Wang Longhu, he died if he died, and no one would really pursue his cause of death.

In this troubled world, human life is the least valuable thing!

All four teams returned to the military base of 009 City after half a day.

Fang Yue, Jun Bufan, Aruba, did not suffer any difficulties from the military!

In fact, the information they brought back about the giant, as well as the information he dictated, is far more valuable than a cub of an earth dragon!

All ordinary members of the squad that survived, each got 120,000 military merit points. There is also a bronze medal of bravery!

Fang Yue, Jun Bufan, Aruba, each of them has won 300,000 military merit points and each of them has three silver medals of heroes!

A silver medal of bravery can be exchanged for ten bronze medals of bravery. If you want to go up from the rank of lieutenant to the level of school, what you need is the silver medal of bravery!

Fang Yue's rank reached the rank of lieutenant as he wished. At the same time, his authority to exchange items has also risen sharply.

Many weapons that can produce powerful damage to the world, but to the strong in the cycle, are placed in front of him.

But the corresponding amount of military merit points was too high to make him speechless!

It is like a W37 sniper rifle that can produce damage to the peak powers of the world, and one needs 30,000 military merit points! And every bullet is sold separately, which includes the effects of armor breaking, explosion, and nuclear radiation.

A bullet is also worth 100 military merit points!

However, Fang Yue felt relieved that he finally saw more minor exercises in the lieutenant officer's exchange list, including the follow-up exercises of the previous primary minor exercises!

Their prices are not too high!

Perhaps this in itself is considered a bonus for the lieutenant officer!

Fang Yue has not come yet and has explored too much.

Ruyizi, who was far away in the world of Xuanhuang, delivered a message to him through a ray of divine mind clone that had never recovered.

"Hurry up and return to the Xuanhuang World. The Xuanhuang World will start a cross-border battle, plundering resources and slaves! If you miss it, you will regret it for life!"

Ruyizi's divine mind was just a short message from Fang Yue, and then there was no more sound.

Cross-border sound transmission is too expensive.

Even if it is as strong as Ruyizi, if it is not a critical juncture, Fang Yue would not make such a call!

Fang Yue froze, cross-border battle?

Now that this mysterious yellow world is connected to many worlds, it is difficult to protect itself, and many places are full of flames. How can a cross-border battle suddenly begin?

However, Fang Yue himself did not hesitate. Since Ruyizi said this was a rare opportunity, he was definitely not an ordinary opportunity to compare!

As for this deep blue planet, he could leave a teleportation formation to travel back and forth between the two realms without delaying each other.

After becoming a lieutenant, he also became relatively free to act in the army! Leave a puppet as a stand-in to deal with the general situation. If there is a promotion situation, it will not be too late to come as the deity.

Soon, Fang Yue sent this news. Sima Xiao, Diyi was notified.

They got the news and hurried over.

"Cross-border warfare has finally started! This is the real big means for the Xuanhuang world to absorb resources!"

Sima Xiao was very excited, he was more aware of the history of the Xuanhuang world. The growth history of the mysterious yellow world will be a black history of killing and plunder. From the oldest age, the world of Xuanhuang was just a very low-level, small world, and now it has grown step by step to the current level. It has extremely high rankings in the universe of heavens, and it is almost the blood of countless other worlds. And the bones grew up!

Chapter 494: World class

"Fang Yue, do you know? The world of the heavens, according to the size of the space, the amount of resources, and the level of development of civilization. It is divided into semi-planes, small planes, medium planes, large planes, and small thousand worlds in detail. , The seven major levels of the middle and large worlds! The world is smaller than the demiplane,

Not stable, it is a space bubble! In the oldest books of our Sima family, it has been recorded that the Xuanhuang world has just been born, and there is only a small thousand world level! And now, my Xuanhuang world is already the top existence in the middle thousand level world! This Qi big world level, it is said that each big level is still divided

Become ten small levels!

The first class is the lowest and the tenth class is the highest!

And now, my mysterious yellow world is the seventh-class existence in the middle thousand worlds! "

There was an excited smile on Sima Xiao's face, he was gearing up, typically a warmonger!

"Then what level of world is this deep blue planet?"

Fang Yue asked.

Sima laughed suddenly.

"Small plane, second-class level!"

Di Yi didn't speak in normal times, it didn't mean that he knew little.

"The second level of the Little Thousand World is so powerful! Then what level is the world that the Xuanhuang World wants to fight for!"

Fang Yue asked suddenly, with a sharp tone.

Sima smiled and frowned, thinking.

"Looking at the situation of fighting and fighting, it is definitely no less than the level of Xiaoqianworld!"

"So how much space is there for the three of us to truly exert ourselves in a world of this level? Is it to be cannon fodder, or to make contributions and become a party? Powerful! In fact, it's not a nice thing to say! Although we are all outstanding among our peers, we are the strongest of the older generation.

In front of him, that's what happened! With the real war, there is a sea of people, who else will take our existence into consideration! If we develop at a normal speed, with our qualifications and our resources, it will last for as long as 100 years and as short as 20 years! At least you can become a famous powerhouse on the world list! Then another hundred years! We have our place among the strong players in the rotation world, so there should be no problem! Time deduction

, Five hundred years later, all three of us have reached the level of Yin-Yang realm, transformed into a great power, and in charge of the world! At that time, if we go to war and kill again, who can resist our footsteps? "

Fang Yue was not dazzled by the temptation in front of him!

The temptation is good.

But there is also the capital to eat!

Other aristocratic families, sect disciples dared to go out. Not necessarily because of their personal strength, but because they are supported by sects and have a strong confidence behind them!

They are the commanders of the war, and they will not take the lead and fight in blood! Their feats were piled up with countless bones of the people below!

And what about the three of them?

Fang Yue nominally has a master of the Great Sage level, but he is only half dead!

In Tongtian Sect, it is only respected, of course it is only respected! No one would really take him seriously!

Sima laughed, Sima exiled.

When you hear this title, you can imagine how you can mix in the Sima family! He is nominally a disciple of the Sima family, but his true status needs to be considered!

As for Emperor Yi, he is not low in the Immortal Dynasty!

But it's just not low!

Before he had become a powerhouse in the rotation realm, he was still a Fuzi in the immortal dynasty, and the power he could mobilize was quite limited!

Fang Yue smiled with Sima about all this, after Emperor Yi explained.

Sima Xiao seemed to be poured from a basin of cold water from head to toe!

He realized that Fang Yue's words did not deviate by half!

The reason is tempting, but it also needs to be obtained alive.

"Then Fang Yue, do you mean not to take risks?"

Sima Xiao looked at Fang Yue, his eyes were full of unwillingness! "Adventure? Of course! But it also depends on the way! The three of us can form a small group! Then start from the bottom and slowly mix up and fish in troubled waters! This tree attracts the wind, you should understand this simple truth! At the same time, you have to Understand, what is our goal? Not passionate

Youth, fighting hard, wandering on the edge of life and death, seeking a ray of hope for a breakthrough! It is to obtain more resources, and then lay a better foundation for future practice!

Genius, of course, is a kind of glory, but behind the glory, there is a heavy burden! For each step of promotion, they need several times, but dozens of times, the cultivation resources than other practitioners of the same level! Where do these spiritual resources come from? Will not fall from the sky! "

Fang Yue's tone was very low!

There is an inexplicable appeal.

Diyi and Sima laughed and were immersed in it, unable to extricate themselves!

Sima Xiao suddenly felt that Fang Yue had the potential to be a MLM leader.

"Then what are you going to do?" "Speculation! I feel that many technological weapons in this world are good, cheap, and powerful! At least they are quite lethal at the level below the heaven and earth! Especially some technological civilization content is relatively high High spaceships and the like, extremely fast! Shuttle through the void! Even some rotations

After seeing these spacecraft, the strong will feel that their speed is beyond the dust! "

Sima smiled with a clear expression.

Sure enough, this guy is more interested in trading than being a hero!

Emperor Yi was obviously a little resistant. He didn't want this unscrupulous profiteer to go with him!

But in the end, Di Yi still didn't resist Fang Yue's dissuasion, half-pushing, and decided to join in!

Three days later.

Evil moon world.

Above a low hill.

Three sneaky figures appeared under the cold moonlight. All are probes!

"Fang Yue, we're here to conquer this world, aren't we here to be thieves, are we doing such a messy thing?"

Di Yi's voice appeared.

It contains a feeling of helplessness!

Under the bright moonlight, the three of them all dressed up in the same way.

Black clothes, black pants, black veils.

Saying it's not a thief, I guess I don't even believe in ghosts!

"Uniform costumes, uniform actions! Only in this way can we have the appearance of some big corps!"

Fang Yue talked serious nonsense there, and you saw that there were only three people in a big army.

The evil moon world is the world that the Xuanhuang world wants to conquer.

The information has been clarified. The third-class level of Little Thousand World!

The main civilization system is the sorcery civilization. Regarding Wu Xiu, Sima Xiao is very clear!

There are twenty-three spatial cracks between the evil moon world and the mysterious yellow world, and each spatial crack can allow the strongest saint-level existence to enter it!

The men and horses of the Xuanhuang world are still outside, preparing to attack. Fang Yue, Sima Xiao, Di Yi and three people have already sneaked into it, inspected the situation, and called it, the early bird has worms!

"However, how did we land in this place! The mountains and plains are all loess and dust, and there is no trace of people!"

Sima laughed a little bit crookedly, and was rather dissatisfied with Fang Yue's selection of the transmission location. Fang Yue smiled: "You don't know this. This place belongs to a restricted area of the evil moon world. Legend has it that this place is buried with the great witch kings of the evil moon world! Every witch king has reached it. The realm of our so-called saints or even the great saints! Only the transfer point

Sent here, will not be discovered and destroyed by people in this world! Once the teleportation array has been established, the three of us will be able to move in and out freely in this world without any restrictions and restrictions! "

Fang Yue spoke.

Sima smiled and nodded.

"However, Fang Yue, the place you picked seems to be too desolate! The mountains and plains are full of yellow sand, so people can't tell the direction of the flight. I have a sense of spirit, I am afraid that within a thousand miles, there is nothing. Whereabouts of people and animals!"

"What's wrong with a 10,000-mile radius? Divine consciousness can reach the end, but our induction may not follow it! You see, what is this!"

Fang Yue waved his palm.

A small rocket launch base is impressive!

The metal frame shone with cold light!

A small silver-white rocket with a height of ten meters and a diameter of two meters is ready to go on the launch pad!

Sima Xiao was finally surprised.

"You actually brought satellite rockets!" "What do you know, satellites? This is a small world, not a planet. Even if there are satellites, I don't know what to turn around! This is me The Sky Eye purchased from the black market! It can be suspended at an altitude of 3,000 meters, and each piece is only three centimeters in diameter.

With the eye of the sky, the observation range can reach a radius of one thousand kilometers! And in this rocket, there are a hundred such sky eyes!

The eyes of the sky are hanging in the sky, and we will be in control of the nearby landforms! If these materials are sold back to the Xuanhuang World, how valuable is it! "

Fang Yue actually started the idea of selling intelligence.

But I have to say that his idea is very good!

Know yourself and the enemy, a hundred battles will never end.

This is the eternal law of war!

Once this information is passed back to the Xuanhuang World, it will reduce the ups and downs of the Xuanhuang World's conquering army. "I have negotiated the price with the Xuanhuang world! The map that I have observed from a hundred days' eyes will be imprinted on one hundred jade slips! The defense, population, and even landforms of each city will be At a glance! Each jade slip will be auctioned separately! The reserve price is over 100,000

Pin Lingshi! Moreover, I don't want spirit stones, just the various cultivation resources corresponding to them!

Spirit stones are easy to get, but many resources and materials can't even be purchased! I believe that all families will not be stingy with a little effort at this time! "

Fang Yue's eyes turned, and he had already calculated all the families in the Xuanhuang world!

As soon as the cannon rang, gold was ten thousand taels.

If these maps are really useful, those families will definitely not be stingy with this little effort!

"Of course, my dear brothers, settle accounts! These hundred jade slips are top secret! I can distribute the ownership of ten of them to the two of you. At that time, you can dispose of five jade slips at will! "

Fang Yue knows how to win people's hearts!

Don't do things that eat alone! Although, this time all is his own plan, credit.

But if you really take all the benefits into your own arms, although the two people will not say anything, they will inevitably have a trace of gaps in their hearts!

A little bit of the gap, it doesn't matter.

If they accumulate more, their relationship will inevitably be unfamiliar and they will stay away. Feelings need to be managed. If you don't even understand this, Fang Yue won't be able to mix it up like this!

Chapter 495: Sell map

"How embarrassing is this!" When the emperor heard this, he was obviously moved!

Observed by the eyes of the sky, it is silent and will not disturb anyone!

And if it is a divine sense exploration, it can achieve such a subtle manifestation of the eye of the sky, and it is not good, just that it is silent, it can't be done!

"Everyone is a group! If you are strong, I will naturally be strong too! If you really think of me as a brother, then don't see outsiders!"

Fang Yue said happily.

Sima Xiao and Di Yi didn't say anything more, they just recorded this favor silently in their hearts!

Agitated with a stream of heat. The rocket lifted off and exploded directly at an altitude of several kilometers.

Hundred Eyes, flying towards different places!

After a while, Fang Yue's chip contained a hundred more maps, and each map represented the city of an evil moon world!

The evil moon world is vast and boundless, even if it is just a small world, it is a thousand times larger than the land area of the earth where Fang Yue lived in the past! Among them, demons are rampant, and ancient beasts are hovering. For safety, all intelligent creatures will build cities and live in them.

Therefore, in the evil moon world, the gathering points of ordinary humans are based on cities! And around every big city there will be tribes of different sizes!

The gathering points of these tribes acted as a buffer and protection for the periphery of the city.

And once the tide of beasts strikes, the people in these tribes can also be contained in the city to ensure their survival!

Fang Yue just took a cursory look at the situation of these hundred cities. Even the smallest city has a population of at least several million. Among the tribes around the city, there are three to five times as large as the city. population!

With such a large population base, the number of strong people born is probably no longer a minority!

"Fang Yue, what do you know?"

Sima laughed like a cat scratching in his heart!

"give!"

Fang Yue quickly imprinted ten different jade slips on ten different jade slips with his spiritual thoughts.

Then he divided these jade slips into two, and handed them to Sima Xiao and Di one or two!

When Sima Xiao and Emperor saw the information in the jade slip, they couldn't help but swallow a few saliva.

They finally understood what Fang Yue said, in the vast war, what is meant by the novel about human beings!

A population of millions or even close to tens of millions of people will be drowned for life even if it is one person or one spit!

In the Xuanhuang world, the voice is boiling because of preparing for the foreign land. Countless young warriors have joined the military waiting for this achievement!

Even if it is a small thousand world, it still has a solid foundation, not to be underestimated.

The real war has begun. Among these people, I don't know how many of them will be buried abroad, and there is no hope of returning!

"Go! Sell these maps! You can choose the maps in your hands, give it to the family behind, the dynasty, or sell them yourself!"

Fang Yue glanced at the emperor deeply!

Sima exiled, the choice is simple! The probability of selling to Vientiane Pavilion is as high as 80%! And even if he was handed over to the Sima family, he had to be blackmailed, saying that he was called Sima exile!

"go!"

Emperor Yi couldn't wait. In this war, the immortal empire was destined to join the war!

If you have one more map, you will be able to seize the opportunity and lose a lot of blood and sacrifice!

The three soon returned to the world of Xuanhuang, each rushing to different locations!

Fang Yue found Ruyizi for the first time!

Although Fang Yue himself did not have a strong sense of belonging to this Tongtianjiao, Ruyizi always regarded this Tongtianjiao as his home!

"Fang Yue, what do you want me to do?"

It seems that because it has refined a lot of the will of heaven, Ruyizi's recent Tao has realized, and further, there is a vague feeling of wanting to lift the sky.

"The disciple has something to offer to Master!"

Fang Yue shouted outside Ruyizi's retreat Dongfu!

Suddenly, a gust of wind came.

The auras all over the sky were surging, and finally gathered into a figure.

Ruyizi's face is kind.

An aura avatar descended.

"Let's talk! What's the matter! According to my speculation to you, you should have already gone to the evil moon world and strolled around!"

Ruyizi said, sighing in her heart.

It is extremely difficult for other people to step into another world. But this little apprentice of my own seems to be traveling! Traveling east and west every day, dark trials, Baili Secret Realm, all seem to be my own back garden.

"Hehe, Master understands the disciple! First, congratulations to Master, disciple, who has gone further in his cultivation, and lives extremely hard, and will completely break the curse of reincarnation, I am afraid it will not be too far away!"

Fang Yue clasped his fists in congratulations.

Ruyizi laughed.

"You kid, your eyes are really poisonous! Only you can see that my cultivation level has been improved! That's right, it can take a hundred years as short as possible, but it can take a thousand years! I will die and be resurrected. The threshold of the second world! At that time, I will live for more than 20,000 years!"

Ruyizi's congratulations to Fang Yue are very helpful!

"The disciples here have ten jade slips! They represent the defense, population, etc. of ten cities in the world of evil moon! Master can donate these ten jade slips to the Tongtian Sect, which is regarded as a conquest army for them. paving!"

Fang Yue presented ten jade slips!

Ruyizi gave Fang Yue a deep look.

"Okay, okay, okay! You are interested in this matter!"

Ruyizi regards Tongtianjiao as his home, and always hopes in his heart. This Fang Yue has a sense of belonging to Tongtianjiao!

This time, Fang Yue presented ten jade slips.

Obviously understand what you want.

For her apprentice, Ruyizi can be said to be more satisfied as she looks at it!

"You think so for the Tongtian Sect, and the Tongtian Sect will not let you down! I will transfer these ten jade slips to Li Ruhai, and at the same time record the credit on your body!"

"Then Master Lao!"

Ten jade slips, not many.

But if you can conquer those ten cities, for the Tongtian Sect, it would be a big achievement in the early expedition!

Afterwards, Fang Yue left Tongtian Sect and came to the ancient city of Yin and Yang!

Duluth saw Fang Yue again and couldn't help but smile knowingly.

"Fang Yue, long time no see!"

Goodbye Duluth, he has become more and more unfathomable! Every move can trigger the origin of heaven and earth.

According to Fang Yue's understanding, Duluth was not far from the day he became a great saint!

"long time no see!"

Duluth's opponent Yue is also a teacher and a friend.

The relationship between the two is quite complicated!

"I heard that the demon army is going to expedition to the world of evil moon, I am not giving a gift for Brother Duluth!"

Fang Yue's sleeve flicked.

Ten jade slips emerged impressively!

"Oh?"

Dulus swept away his spiritual thoughts, and he couldn't help but be moved when he saw the contents of the jade slip.

He had never seen the city imprinted in this encounter!

After thinking for a moment, Duluth's eyes suddenly lit up.

"Is it possible, this is the map of the ten ancient cities in the world of Xie Yue?" "Yes! It is the map of the ten ancient cities of the world of Xie Yue! This knows ourselves and the enemy, and I know that Duluth is

the **** of war in the army. Invincible, invincible! This jade slip may be the icing on the cake for Brother Duluth! But it also represents a little bit of my care

I also hope that Brother Duluth will laugh! "

Fang Yue is humble. Duluth laughed loudly: "What the little brother said is really bad for me! Over the years, I have been fighting again and again, and occasionally I have been calculated by others! What I eat is the loss of this inaccurate information! I am worried about this evil moon world, Unfamiliar with the place of life, I don't know how to deploy. Fang Yue's younger brother sent these ten jade slips.

, Definitely not sending carbon in the snow, but icing on the cake! This favor, I Duluth took note! In the future, if it is of any use to my brother, Fang Yue, please speak up! I will definitely not refuse! "

"you are welcome!"

Fang Yue was very satisfied with Duluth's answer.

One more patron, one more way!

Fang Yue has a hunch that the world of **** will definitely come down in the future, and with Duluth's help at that time, he will also have a favor in hell, even if the war is fierce, it will not affect him!

Immediately afterwards, Fang Yue went to Wuliang Mountain without stopping.

He crushed a jade talisman, and soon, Wang Badao hurried over.

"Fang Yue, is there something so anxious to see me! This world of mine is preparing for the world of Xie Yue, and I can be said to be very busy in Taiyi Church!"

Since Wang Badao stepped into the complete state and became a leader-level powerhouse, his majesty has grown deeper!

A pair of eyes, like golden eyes, seems to penetrate all right and wrong in the world!

"Huh? No! Shouldn't you be participating in the dark trial? Could it be that Tongtianjiao changed his mind and cancelled your trial quota?"

Wang Overbearing suddenly slapped his forehead and felt that something was wrong!

Fang Yue laughed happily: "I can't be a deserter, have you come back?"

Fang Yue did not answer Wang's overbearing question directly.

And Wang overbearing did not ask much!

He just took a deep look at Fang Yue, "This is what a deserter is capable of! Since ancient times, how many arrogances have been lost in this dark trial! They want to come back, there is no way!"

Wang Domineering still values Fang Yue.

And I feel more and more that Fang Yue's unfathomable, black trial, I have never heard of someone who can walk back halfway!

And he could feel that the aura on Fang Yue's body became deeper and deeper, and his combat power was definitely not measurable by a simple realm. "Brother Wang and domineering, I am here to give you a gift! I heard that you are going to fight the evil moon world, and I specially investigated the terrain of the evil moon world! The evil moon world is all over the mountains and rivers, deep in the mountains and old forests. Are unfathomable beasts, alien species, their intelligent creatures, all

The tribes are gathered in the ancient cities, and there are countless tribes around the city, as their outer defensive force!

The main body of civilization in the evil moon world is the sorcery civilization! They are good at performing witchcraft and communicating with ghosts and gods.

There are also plans for the deployment of five Evil Moon World Cities, and their population status, given to the brother, the right should be the heart of the younger brother! "

Fang Yue took out five jade slips and sent them to Wang Overbearing!

Wang Badao took the jade slip, feeling heavy inside!

He can understand the key points of these jade slips, they are very important, and it can even be said to be quite precious! "Fang Yue, why is this embarrassing? I'm good enough for me! If it weren't for me, I'm afraid I wouldn't even be able to survive my own catastrophe!"

Chapter 496: Big deal

Wang knew in his domineering heart that he owed Fang Yue a lot.

If these five jade slips are true, then its preciousness is naturally self-evident!

"If the overbearing brother really treats me as his own brother, then don't refuse! This is contributing to the Xuanhuang world! As a member of the Xuanhuang world, I hope that Taiyi Sect will pay the least price. The biggest gain!"

Fang Yue is bitter.

Finally let Wang Badao subordinate these five jade slips, he humbly listened to Fang Yue's suggestions, at least entering the world of evil moon will not be a black eye, like a headless fly!

Return from Wuliang Mountain.

Fang Yue was humming a little song and was in a good mood. His favor was already in place.

What will happen in the future, besieged and killed, at least Taiyi Sect, Tongtian Sect, and Duluth will not stand idly by!

Favor debts are the most difficult to pay.

But the jade slips Fang Yue sent out this time were something they couldn't refuse!

Fang Yue returned to Vientiane Pavilion.

In Vientiane Pavilion, the five jade slips that were originally sold on consignment have been sold out!

Looking at the smiling old face of the person in charge of Vientiane Pavilion, Fang Yue knew that he had gained a lot this time!

"A total of three thousand drops of thousand-year-old chalcedony were sold! Five million drops of ten thousand-year-old lotion! And the star iron you can order me to buy, a total of 300,000 tons!"

After seeing Fang Yue, the person in charge is more affectionate than seeing his own father.

This Fang Yue is the main patron of their Wanxiang Pavilion, and every time he takes out something, it is amazing!

Help Fang Yue to do auctions, not to mention, just sharing the harvest is amazing!

Because Fang Yue is a high-level guest, every time Fang Yue bids for beauty, in addition to the fixed fee of one hundred thousand spiritual stones, Wanxiang Pavilion will only charge 3% of Fang Yue's auction revenue as a rake!

However, with a huge base, 3% is also an amazing number!

Originally, these jade slips were not favored, they were careful of those suspicious big families, the big sects did not trust the contents.

But in the end, the popularity of Yujian's auction exceeded the limit of his imagination!

Because of the ownership of some jade slips, some envoys sent by the old people who have been based in the world of Xuanhuang for millions of years disputed with red ears! Tensions, almost really fought!

The reserve price for each jade slip is a resource equivalent to one hundred thousand high-grade spirit stones.

In the end, even the jade slips with the lowest auction price were sold at a high price of 300,000 high-grade spirit stones equivalent resources.

There was also a jade slip, which sold one million high-grade spirit stones equivalent resources.

This almost stunned the head of the auction with happiness!

Fang Yue ignored the flattering person in charge.

The first five jade slips he threw at the trading shop were just bait.

The real big fish is still behind!

After Fang Yue left the auction house, he returned to the valley where Ruyizi was located!

Sima Xiao and Di Yi have not yet returned, and Fang Yue is not in a hurry to return to Xie Yue World!

In the same cross-border conquest, different people see different opportunities!

The vast majority of people saw the rich wealth in the world of Xie Yue! Different civilizations, different creatures, and different world resources! They want to take risks, to conquer, to plunder!

In Fang Yue's eyes, what he saw was the ever-changing war business opportunities!

In the war years, it was the fastest time to accumulate wealth.

However, the ultimate owners of wealth may not be the most brave fighters on the front lines. Arms dealers are also the group of people who benefit the most in the war!

Weapons, intelligence, drugs, mercenaries!

Becoming the biggest rich man in the Xuanhuang world is now an extraordinary dream in Fang Yue's heart!

Lingshi, no one will dislike it!

As long as he has money, even a saint can live and die!

"Fang Yue, save me!"

In the Tongtian Sect, Fang Yue had only been born for three days.

A blood-stained paper crane flew from the distant horizon and fell into Fang Yue's hand!

Among them, Sima laughed quickly and faintly!

Fang Yue's heart suddenly tightened, and a strong murderous intent emerged from his heart involuntarily!

"position!"

Fang Yue used the paper crane to send a message, and a divine thought fell into it and asked Sima Xiao on the other side of the paper crane.

"Ding Ding Dong Dong!"

There was a violent sword strike.

Then came Sima Xiao's trembling voice.

"Blue and White Mansion, Vientiane Pavilion!"

Subsequently, the paper crane shattered.

Obviously Sima Xiao at the other end failed to keep the other paired paper crane in his hand, and was crushed by life!

Fang Yue's murderous aura suddenly became solemn. He doesn't have many friends in the Xuanhuang world, and he can be liquidated with his fingers!

But everyone is sincerely making friends with him, and no problems are allowed!

Fang Yue didn't hesitate at all, summoning Qiao Ba, and went directly to the Blue Flower Mansion through the teleportation array of Tongtianjiao.

Qinghua Mansion is a state capital quite far away from Tongtian Sect.

Its area is vast, more than dozens of times the area of Yan Country!

Because Qinghua Fuzhong produces all kinds of blue and white, it can be a good material for alchemy. Therefore, Qinghua Mansion, in this mysterious and yellow world, can be regarded as a quite famous place! All major sects have set up special teleportation formations in this blue and white mansion!

Just because of the distance.

The cost of this transmission is also quite expensive!

Fang Yue came to this Blue and White Mansion with the help of Tongtianjiao's teleportation array, and spent a full 300,000 lower-grade spirit stones!

However, Fang Yue didn't care about anything for Sima Xiao's safety!

When Fang Yue arrived at the Blue and White Mansion, the entire Blue and White Mansion had already sunk into the sound of war and fighting!

Just stepped out of the protective formation around the teleportation array.

The light of a ten-foot-long knife fell from the sky!

A monster with a human body with a shrimp head has eight arms and eight arms, each brandishing a weapon, and slashing towards Fang Yue!

Fang Yue is not in the mood to pester him!

Suddenly roared, and the sword light from the sky was immediately shattered! Even the monster with the prawn head bleeds, and its soul ascends to heaven!

The monster with the head of the shrimp head is also a powerhouse in the world! If you encounter other congenital repairs, you will definitely get one shot at a time, and you won't even have the strength to resist! But the problem is that the person he met was Fang Yue!

Roar broken mountains and rivers, turbulent universe!

Not to mention the strength of the Heaven and Earth Realm, even if it is the Rotating Realm, he will be seriously injured and fall off if he is caught off guard!

"Give me!"

With a wave of Fang Yue's robe sleeves, the methods of Qiankun sleeves were immediately displayed.

The corpse of the prawn-headed monster was immediately taken away by Fang Yue!

He searched the memory for the ignorant soul of the monster, and immediately understood the cause and effect.

Ocean world, secretly formed an alliance with the evil moon world!

Wanting to attack on both sides will cause severe trauma to the people in the Xuanhuang world!

The conquest army of the Blue and White Mansion has just set off, the internal guardian power is empty, and the people of the ocean world have fallen from the sky, and they want to completely fall into the Blue and White Mansion and become their territory!

"The seniors of the Xuanhuang world are really ignorant of the drill. It is clear that their back garden is already in a mess. Why are they still thinking about how to conquer other worlds?"

Fang Yue's teeth were tickled with hatred. He felt that this was a high-level decision-making error in the Xuanhuang World Human Race.

Fang Yue thought it was Sima Xiao who provoked the enemy, and was chased and killed.

Unexpectedly, this involved a large-scale war!

Blue and White Mansion is not a big state capital in the vast Xuanhuang World.

However, this battlefield still involves the lives and deaths of hundreds of millions of people!

Fang Yue looked deeply at the chaos, fighting, and taking a look at the battlefield.

Then he turned around resolutely and began to look for Sima Xiao. Others were humble and could not control the life and death of so many people.

If you want to be a hero, you must find Sima Xiao!

"Don't kill me! Don't kill me!"

Fang Yue didn't go too far, he heard Sima laugh that ghost crying wolf howling sound, now, his body is stained with blood, the dust and blood mixed together, solidified on the top of the robe sleeve.

He looks crazy and looks very embarrassed!

However, his body is hundreds of meters around, all of which are densely packed silver-white robots, one by one holding a laser pistol and shooting wildly!

Bunches of red light criss-crossed, knitting into a big airtight net!

All the people who rushed into this big net were instantly shot into a lot of holes, like briquettes, without a living!

Sima Xiao was standing in the middle of these robots. While howling, he kept taking out high-explosive bombs, and the one on the left and the right was throwing wildly.

Wherever it is thrown, there will be a mushroom cloud slowly rising.

The creatures in the ocean world of the heaven and earth realm are better, they can be dodged, but they are affected by a little bit of prestige.

The creatures of the innate ocean world have simply become seafood in the pot, not to mention avoiding it, it is good if it is not steamed directly!

Fang Yue's face was speechless!

He really wanted to slap this unreliable fat man to death!

There is something like this?

What was said to be embarrassing? What about life and death struggles?

I even took off my pants, so let me see this?

Extraordinary, the transmission fee of 300,000 lower-grade spirit stones that I spent!

Fang Yue could see it. This Sima Xiao looked messy, but none of the blood on his body was his own. All of it was splashed on his body during the murder.

You are so proud of the spring breeze, sweeping all directions, please help me with wool!

Around Sima laughed, layers of bones piled up. Not to mention, there are thousands of dead bodies of marine life!

Although most of them are cannon fodder at the congenital realm level, there are also powerhouses at the heaven and earth realm level!

It's not that Sima laughed and was chased down by ghosts and wolves, but all the marine creatures went around like a ghost.

The power of the weapons of scientific and technological civilization should not be underestimated, especially in such low-level wars.

Fang Yue carefully counted the silver-white robots. They were all born for war. The black market won the bidding price. At least one hundred thousand stars can be used to buy one!

There are hundreds of units beside Sima Xiao.

This cargo manages the logistics, and can think of all these things from his corruption!

At Military Base No. 009, it seems that it is not Fang Yue who has gained the most benefit, but Sima Xiao, a veritable pit cargo!

"Hey, I am such a straightforward man, I really disdain to be with this fat man!"

Fang Yue's body is cold!

Silently, a blue faint dagger resembled the fangs of a beast, suddenly pierced out of the void!

"court death!"

Fang Yue's eyes condensed!

A bolt of lightning fell from the void!

The owner of the dagger was instantly chopped into charcoal, and everything on his body was charred.

"Fang Yue, you are finally here!"

Sima smiled with a hint of crying and looked in Fang Yue's direction!

"Originally, I didn't want to come!"

Seeing Sima laugh and kill smugly, Fang Yue said without annoyance. He had known this kind of scene a long time ago, so he should accompany Ruyizi in the Tongtian Sect to retreat, instead of wandering in this muddy water.

"It's not Fang Yue, it's not what you think!" Sima Xiao quickly explained. At this moment, a black figure suddenly fell from midair.

Chapter 497: Sima Xiao's request for help

"You **** little fat man, I finally found you! You dare to attack my emperor and grandson, my Qing emperor will definitely not spare you!"

A cold voice fell.

I only saw a super crab with a length of nearly a hundred appearing in the air.

Its small eyes shone with the light of killing!

The cultivation of the Yin and Yang realm is undoubtedly revealed!

Behind this big crab, there are endless little crabs. These little crabs, so-called small, are only relative to this Qinghuang!

These crabs, even the thinnest, are ten feet in length when viewed horizontally. There are two crabs following the green and yellow sides, and they are more than eighty feet in length. Two huge crab tongs are erected, and it is estimated. Even mountains can be pinched off!

Fang Yue finally understood that this Sima Xiao's call for help was not boring. It is really in danger.

But we are very special. We are about the same strength. Do you think it is dangerous, am I dangerous?

"Run!"

Fang Yue ran away without paying attention to loyalty.

When Sima Xiao saw the gesture of hurting your friend, his anger simply didn't hit him.

I asked you to come here to help kill the enemy, how come you run faster than me! I really don't know how a guy like you got in this state!

Sima Xiao put away the robots around him, and ran with his legs raised!

Those ordinary shrimp soldiers and crabs could not stop him at all!

The speed of the two is not at the same level at all!

Sima Xiao is definitely an expert in escape!

These two guys are very unscrupulous and run faster than one!

The Qinghuang was angrily behind the two of them. Isn't it all said that humans pay attention to heroism? How come these two people don't even talk about a little bit of rules!

"The army goes out, chase me down! This Sima Xiao dare to kill my grandson, I killed him alive today!"

Qinghuang has locked Sima Xiao's breath, even if he escapes to the end of the world, he will be caught up!

He led a large army to hunt down, and tens of thousands of crabs passed by in the sky, passing one piece after another!

"Little fat man, Sima laughed, you can't run anymore! Tomorrow today must be your sacrifice day, you should still be honest and surrender!"

That Qinghuang is shouting in the air!

As a result, Sima Xiao didn't even bother to respond to him a word. He ran very happily.

Striding away, in a blink of an eye, the distance of these crab army eight streets was thrown away.

Beside Qinghuang, a big crab that was eight feet long suddenly frowned, as if he realized something was wrong!

"Master Qinghuang, how did the human kid who saved Sima laugh just now disappeared! He also killed a noble assassin of my crab clan just now, and his life must not be kept!"

The big crab suggested Qinghuang.

The corner of Qinghuang's mouth provoked a disdainful smile.

"It is estimated that he is timid. Seeing that my crab army is so mighty, he has been frightened by the wind, so leave by himself!"

The Qinghuang is full of confidence in his army. Although he is only the patriarch of a small clan in the ocean world, in this mysterious yellow world, he feels that he can show his power!

Just when Qinghuang was narcissistic.

A huge shadow suddenly fell!

Do not know what time and space. The space above their heads cracked!

A silver-white shell with a diameter of tens of meters crashed down!

Caught off guard!

Millions of crabs have no time to react at all.

The shell fell, and a huge mushroom cloud slowly lifted into the sky!

A vast expanse of white light flooded the entire world.

Even Sima Xiao, who was desperately escaping in front, stopped his footsteps!

"Fuck! What's the situation! Where did Fang Yue stole an atomic bomb!"

Sima's smiling mouth grew big.

Among the deep blue planets, the atomic bomb is definitely one of the strategic weapons!

Whether it is the power of an instant explosion, or the nuclear radiation generated after the explosion, it has a lethal power, which is frightening!

After the atomic bomb exploded, three seconds later.

The world finally regained clarity.

Tens of thousands of crabs were hit directly, lying on the ground and flipping directly.

Even if they are the powerhouses in the world, after the violent explosion of the atomic bomb, they are still dead or alive!

Tens of thousands of crabs flipped over, making Qinghuang directly jealous!

This time, all the fighters of the crab clan who accompany him are the elites of their clan.

The crabs in the heaven and earth realm were already the mainstay of their clan, and they lost tens of thousands of them at once. Even if he can't bear it!

But this is far from over. The surrounding army of hundreds of thousands of crabs has also been severely affected, and they have all been injured in varying degrees!

Some have lost arms and broken legs, while others have simply produced huge mutations under the action of nuclear radiation.

"What kind of method is this! Is it secretly targeting my crab family!"

The green emperor's eyes were scarlet, and he roared at the sky.

This method is weird! Obviously there is no strong vitality fluctuation, but it can radiate all directions, causing huge damage to their crabs! This is not magic, nor martial arts! The weird blow, the damage caused, is no less than the full blow of the pinnacle of the rotation realm!

A sense of vigilance immediately rose in Qing Huang's heart.

Although the power of the rotation realm is not as strong as it, if they hide in the dark, ignore their face, and attack its subordinates with black hands, then their crabs will still suffer a great loss!

Just when Qinghuang was uncertain.

Sima Xiao has been run far away! Fang Yue temporarily set up a teleportation formation, dragged him in, stepped into it, and then both of them disappeared.

"Huh? Run? Do you think you ran away?"

Qinghuang snorted coldly. Then he followed the remaining marks on Sima Xiao's body.

As long as the imprint on Sima Xiao's body is not erased, then he can grasp Sima Xiao's whereabouts at all times!

In the next moment, Qinghuang appeared in the last place Sima Xiao appeared!

A teleportation formation suddenly appeared in front of him.

The teleportation array is still running. Obviously Sima Xiao just left on the teleportation formation!

"Little ones charge! Kill that fat man and avenge my grandson!"

Qinghuang disappeared in the teleportation array when he flashed.

Others filed in with this!

"Fang Yue, quickly destroy the teleportation formation, the dead crab will chase and kill you!"

Fang Yue and Sima Xiao finally came to the end of the teleportation.

Sima laughed watching the teleportation formation was still running, so he urged Fang Yue urgently.

"Don't worry, don't worry! Sima laughs at you to see where this is?"

"Where?" Sima smiled for a moment, then looked up.

In the foggy sky, chains of order crisscross.

Whether it was him or Fang Yue, the cultivation realm was crushed to the sixth step of the Xiantian realm.

Sima laughed and took a breath.

"Fang Yue, you are really too bad!"

At this time, the light flickered in the center of the teleportation array.

The figure of Qinghuang appeared in front of Fang Yue and Sima Xiao.

"You two despicable brats, quickly kneel down and die!"

Qinghuang was still smiling at each other's Yue and Sima, but at this time, Sima's smile was already full of weird smiles.

"Kill me? You come to kill us!"

Sima smiled and twisted his butt, and said to Qinghuang sternly.

At this time, Qinghuang also felt something wrong!

Between this world, a chain of orderly chains fell down, layering his cultivation level.

The first layer of Yin-Yang realm.

The eighth floor of the cycle.

The sixth floor of the cycle.

The second layer of the cycle.

The fifth floor of the world.

The sixth layer of the Innate Realm!

It wasn't until its cultivation realm was degraded to the sixth level of Xiantian realm that his strength was not continuously suppressed and tended to stabilize!

At this time, Qinghuang finally realized where the problem was!

"You two cheated me!"

Qinghuang roared and turned to leave.

But Fang Yue's teleportation formation was a one-way teleportation formation! You can come in, but you can't leave!

And there is a steady stream of crabs pouring into it, Wuyangyang, occupying a lot of space!

In a blink of an eye, an army of millions of crabs has arrived.

The Qinghuang quickly turned his anger into joy: "The cultivation realm of the two of you is also suppressed on the small steps of the sixth level of the Xiantian realm! And our millions of troops are oppressed and let you two There are great magical powers, all will fall here!"

Fang Yue looked towards the sky, that mysterious, majestic figure still stood, looking through the ages, insight into the spring and autumn.

There is depth in his eyes, as if reflecting an endless starry sky.

When Fang Yue came last time, Fang Yue hadn't set foot in the innate realm. Now, he has stood in the innate supremacy, with pure combat power, and even some strong men who have just entered the rotation realm are not afraid.

However, facing this desolate, eternal, eternal figure, he still felt extremely humble, like a tiny ant, looking up at an insurmountable mountain.

"Master Qing, please come out! What I promised you back then has been completed!"

Fang Yue shouted at the void.

A glamorous and indispensable young woman walked out gracefully with her lotus steps!

"Hehe, my little man is really reliable! In just a few years, you have grown to this point! So many sacrifices really make my sister feel very surprised!"

Concubine Qing's voice was hazy in a hazy haze, making it difficult to see her face anyway.

Concubine Qing appeared.

That Qinghuang was already domineering.

"In this world, the avenue is hanging down, full of rule suppression! No one can display the strength above the sixth level of the Innate Realm!"

The Qinghuang was full of confidence. In the same realm, even with the use of human tactics, he could kill everyone, millions of crabs. Don't fear death! Join forces to attack and kill, and even one sky can be shattered!

Qing concubine smiled softly: "Is it? Really a majestic man! It's a pity that I gave birth to a crab figure, let my sister send you to reincarnation, and you will fall into the sea of reincarnation forever!"

Concubine Qing's voice slowly drifted away.

Her palm flicked, and the essence and blood of the Qinghuang body was taken away by half abruptly!

Concubine Qing lives with this world, her origins are mysterious and unpredictable, and her strength is bottomless!

She wants to shoot, no one will be her opponent.

Even this world can't suppress her powerful cultivation!

"No!" Qing Huang's expression changed suddenly, and he felt the weak feeling quickly spreading from his body! The mad woman was not suppressed. She can control the life and death of everyone in this world at will!

Fang Yue and Sima stepped back with a smile, and they all showed awe.

It's not that the two have never seen the saint. But even the saint is not as powerful as the Qing concubine!

"So many crabs, I really like it!"

Concubine Qing spoke again.

A layer of white smoke descended. An army of millions of crabs was covered. Then the screams came one after another, one after another! After a long time, the screams gradually calmed down.

Chapter 498: Qing Fei

The white mist dissipated instantly.

All the crab army disappeared!

Their fleshy shells, souls, essence and blood all become the tonic of the Qing concubine.

In the cold breath of Concubine Qing, there was finally a hint of warmth!

"Swallowing a million sun souls finally made me feel a little bit of reincarnation! It's just that this little blood is far from enough! My little man, you have to work hard to get more sacrifices for your sister!"

Qing Concubine giggled.

Afterwards, a slender finger fell on Fang Yue's chest.

Fang Yue felt an itchy sensation in his chest!

A green silk, slowly falling!

"This is a piece of elder sister's hair! It is entrusted with a strand of elder sister's spirit, if you are in danger, you can awaken your sister's spirit, but this strand of hair can only help you resist one disaster!"

Concubine Qing's voice gently lingered in Fang Yue's ears!

In the next moment, Concubine Qing's voice has disappeared.

She seems to have never appeared in this world.

Sima Xiao let out a long sigh of relief long after Concubine Qing left.

Concubine Qing's aura is too strong. When she is with him, he doesn't even dare to breathe a breath.

"Who is this woman, I feel more terrible than my ancestors!" Sima smiled and looked at the place where Concubine Qing had left, and now there was a feeling of lingering fear.

"Concubine Qing, one of the masters of this dense forest world! The terrible water depth in this dense forest world is far beyond our reach!"

Although this dense forest world is rich in resources. But Fang Yue did not want to come often, because there were too many secrets here, and Fang Yue was afraid that he would accidentally fold it here.

In comparison, Baili Secret Realm is much simpler.

The corner of the **** world that the deep blue planet penetrated, Fang Yue even regarded it as his back garden!

"These millions of crabs have been killed, I am afraid that it will bring some small relief to the situation in Qinghua Mansion!"

Sima Xiao breathed a long sigh of relief again. This blue and yellow chased him for a full half day, causing him to be terrified, and now he can finally relax a little!

Fang Yue rolled his eyes.

"What the **** did you do? Isn't it normal that the grandson who killed someone was chased by someone?"

Sima smiled bitterly: "That old crab was too persistent! At that time, I was besieged by a group of seafood, and the ghost knew which one of his grandsons was! We were weak, and he went to the front line with the blind participation! He doesn't belch, he doesn't. It's because of the laws of heaven!" "Well, it makes sense. When killing seafood, who knows who has the background, who is who is the grandfather, who is who is the grandson! Kill it! It's a contribution to the Xuanhuang world! He's a veteran who doesn't repair, and it's against the rules to shoot at you! A powerful man in the Yin-Yang realm chases and kills one

Junior in the world. Isn't he afraid of the saints of the Xuanhuang world, slapped to death a few geniuses in the ocean world? "

Faint dissatisfaction arose in Fang Yue's heart for Qinghuang's arrogant shot.

Even in the war years, crossing two realms in this way and shooting at a junior is also against the big taboos of the practitioner world!

"However, shouldn't you trade those five jade slips? How could they appear in Qinghua Mansion?"

Fang Yue looked at Sima in confusion again. Sima smiled and said: "I gave out two of those five jade slips to the old guys in the family who supported me! Although I am often exiled by the family, there are people in the Sima family who secretly support me. Me! Otherwise, my nickname might be Sima's corpse instead of

It's Sima exile, it's easy! I brought the remaining three pieces to this Blue and White Mansion, looking for the Blue and White Family, and trading some materials for refining! These materials, precious and unusual, can not be exchanged for purchase with spirit stones! "

Sima laughed out his purpose.

Fang Yue showed a puzzled look: "Materials? What do you want materials for refining? Is it possible that you are still a refining master?"

"Refiner? Fang Yue, you look down on me too much. This lord is a famous refining master in the world of Xuanhuang!"

Sima smiled and straightened his chest, and said confidently.

Fang Yue curled his lips. Fang Yue didn't believe even a punctuation mark when Sima laughed!

In Fang Yue's eyes, Sima Xiaokeng was abducted and deceived. He was proficient in everything, and his cultivation talents were not weak, nor false. But like himself, he was always ignorant.

After spending such a long time together, Fang Yue had never noticed that Sima Xiao had any talent for refining tools.

"Fang Yue, don't look down on people! Your uncle Sima will show you one or two things! This is the immortal rope that I refined. As long as you infuse infuriating energy, the rotation level is below five levels, everything You can be trapped in an instant! Blocking the infuriating energy will leave the opponent with no room to struggle!"

This Sima Xiao really took out a golden rope, the material of this rope is not very good, but one of the runes is leaping, it is indeed a magic weapon of the rotation level!

Fang Yue is also quite accomplished in refining tools.

But what materials do he generally have and what weapons he refines! At most, the weapons he refines are one or two ranks higher than the materials, which is already the limit!

But Sima Xiao's bundle of fairy ropes is definitely a realm higher than the quality of the material itself!

"Can this bundle of fairy rope really be used?"

Fang Yue looked at Sima with some suspicion and smiled.

Under Fang Yue's gaze, Sima Xiao immediately stopped being arrogant like a deflated ball. "Yes, because of cutting corners, the artifact I made can only be used once at most twice and it will be scrapped by itself! However, when it is cast, the power of the artifact is not inferior to the original one! And, I can Imitation artifacts are not only large

Land-based goods, many famous fairy artifacts and artifacts in history, I can imitate them with some of the more common materials!

The preparation this time is to go to the Blue and White House and the Blue and White Family in exchange for the keel of a Yin-Yang black dragon! If this keel bone is crushed into powder, and then combined with many precious materials, I can imitate an ancient artifact, the Tianlong Buddha! "

Sima smiled, his expression very serious.

When it comes to refining tools, his expression is serious and he definitely has the style of a master.

"Tianlong Futu is the place where ancient divine dragons rest. Once the futu comes out, you can summon the eight directions divine dragon!"

Fang Yue has also heard of the name of the Tianlong Buddha. This thing is too evil. It specifically restrains the creatures of the dragon bloodline, surrenders all true dragons, and becomes the protector of it for my use.

Since ancient times, the Tianlong Buddha has not forged a few altogether! And the slight signs were all destroyed by the Tianlong clan! Sima smiled and nodded: "Although my Tianlong Buddha does not have the majesty of an artifact, it can still suppress a saint of dragon bloodline for a moment! This time the ten thousand worlds are coming, there are some dragons in it, and they send them out. To our own dragon son and grandson, specifically to target us

The human race of the Xuanhuang world! If we can use the Tianlong Buddha to kill one or two dragons, then the blood of the sub-divine beast will be available to us. "

Sima Xiao was still thinking about the God and Demon Sect.

It is definitely one of the rare super backers in the universe. If it can be officially included in the door wall and recognized, his status in the Sima family will be unique. "It turns out that you are fighting this way! Is there really a dragon bone in this blue and white mansion? The dragons are naturally powerful and are listed as the top beasts in the universe! The dragons of pure blood are all the top blood of the sky! Some flying dragons and black dragons with weaker blood are all ground-level blood.

Intertwined with the natural Dao pattern in the bone! "

Fang Yue knows the Dragon Clan well, and he has read many articles in the Tongtian Sect.

It is all-encompassing and covers a wide range of content! The dragon clan is just one of the groups that has been introduced in detail. This is a powerful ethnic group in the world. "Yes, I have already investigated. A saint in the Blue and White family once killed a black dragon in the Yin and Yang realm when he was a boy! The blood and blood of this black dragon are all treasured by the Blue and White family, and even the Blue and White family also uses these The flesh and bones have shaped many bodies for the family

The descendants of dragon blood! "

Sima Xiao was quite solemn, he had always made plans before moving.

Originally thought it was a very simple transaction, who knew that there was a massive invasion by the creatures of the Ocean World and attacking the Blue and White Mansion!

Sima Xiao couldn't forget the skeleton of the black dragon. Fang Yue felt that this matter would not be as simple as Sima Xiao thought.

What is the keel of the black dragon? There is a natural interweaving of truth and reason, which can make people understand the truth, even a small section is the supreme treasure.

If he were replaced by him, no matter how high the price was, it would not be exchanged, because this thing can be kept for future generations to continuously understand and understand the true meaning of Taoism!

"I'll accompany you this blue and white family! I hope they haven't been crushed by the ocean world and destroyed!"

Fang Yue spoke.

Sima Xiao also nodded.

The two left the jungle world, returned to the Blue and White Mansion, and ran towards the direction of the Blue and White Family!

Without the pursuit of the crab army, the action of the two became quite agile!

Their strength is not weak, and their humble state is a good disguise!

When the sky is up, there will be some powerful men in the boring world of the ocean world who will hunt them down! In the end, he was easily slapped to death by Fang Yue, and even the corpse was captured and pretended to be kept for the seafood soup.

When the two came to the most central area of Qinghua Mansion-the clan of the Qinghua Family.

Fang Yue and Sima laughed and were shocked by the scene in front of them! A disciple of the Blue and White family, with indifferent faces, all stood in front of their clan lands, each controlling a formation and cooperating with each other. The creatures in the ocean world die as many as they are, and there is no exception!

There are only 36 disciples dispatched by the Blue and White Clan, and each disciple's cultivation base is not very high. Between the sixth and eighth levels of the Heaven and Earth Realm, it may be considered a master in some small places, but in the big In the eyes of the sect, that is, the little lotus showed sharp horns. But the formations controlled by each of them have reached the level of the rotation realm. The 36 formations cooperate with each other, and even the strong of Yin and Yang will be trapped in it!

Chapter 499: Local tycoon

Of course, these thirty-six large arrays cooperate with each other and are infinitely powerful, but at every moment, the energy of the spirit stone consumed by the array is an astronomical number! "This Blue and White family is really rich. Of course, a combination of formations has been extracted from the pile of dead people! Each of them can operate independently, cooperate with each other, and increase their power! It can even cross a large realm to kill people. But the combination formation is for the spirit stone. The consumption is too great, every formation, one breath

In the time, nearly a million lower-grade spirit stones will be evaporated! "

Fang Yue seemed relaxed, pointing and commenting at will, but those eyes stared at the trajectory of those formations!

He is a master of formations, and he is very clear about the rules of formations. If he has more time to observe, he can even reproduce these formations one by one. "The Blue and White Family has mastered 80% of the blue and white planting, nurturing and selling in the Blue and White Mansion. They have been in the Blue and White Mansion for millions of years, and you can't even imagine the wealth they have accumulated! What counts as one formation with a million spiritual stones? The combination of the six formations is only 36 million spiritual stones!

At this rate of consumption, the Blue and White family probably won't feel painful all year round! "

Sima Xiao disdainfully said to Fang Yue, a rich native like Fang Yue, it is hard to imagine what kind of heritage a family that has ruled a mansion for millions of years!

Fang Yue could not help being silent upon hearing this.

He silently looked at Sima and smiled and nodded slightly.

"A local tyrant is a local tyrant, not something I can covet!"

Fang Yue commented.

Afterwards, a huge lobster tongs descended from the sky toward one of the formations!

"Finally, the great power of the peak of the Yin and Yang realm has taken action! Since the Ocean World has decided to take action, how can it be possible to send only two or three big cats and kittens?"

Fang Yue's expression remained unchanged.

It was in his expectation that he could make a big shot in this ocean world.

Thirty-six formations change together.

Each gushes out a golden mist.

These mists combine with each other, change, and become a giant with a big body!

"The Guardian of the War God! A powerful person comparable to the Yin and Yang realm, every moment of maintenance requires a billion spirit stones!"

Fang Yue stared at him, muttering in his mouth. The consumption of this guardian war **** is amazing, but it itself is known as immortal!

As long as the thirty-six formations that gave birth to it are constantly surging out of golden mist, even if it receives a fatal blow, it can regroup and continue to come again!

Condensing the formation of the guardian and the **** of war is quite precious. I did not expect that there are still experts in this blue and white family who can melt this formation into these 36 formations!

Fang Yue's evaluation of this blue and white family is getting higher and higher!

Qinghua Mansion is famous because of the huge demand for blue and white materials!

The Blue and White family, in the eyes of outsiders, is an ordinary business family. Perhaps the wealth is amazing, but the chakras are very ordinary!

"People from outside seem to underestimate this blue and white family! The creatures of the ocean world may have to plant a big somersault in this blue and white mansion!"

Sima Xiao also has a serious face.

Thirty-six disciples in the world realm can rely on the formation to operate, consume the spirit stone, and contain a powerful and powerful person. If it is spread out, this blue and white family will immediately become famous!

The powerful and powerful were restrained, and the other shrimp soldiers and crabs immediately lost their backbone!

Teams of soldiers walked out of the Blue and White Family. These soldiers were not humans, but composed of flower monsters!

There are a hundred soldiers in each team, their steps are neat and vigorous, and their golden horses and iron horses are filled with a smell of killing.

"Blue and White Soldier! I didn't expect the legend to be true..."

Sima smiled in a daze, even he didn't anticipate the appearance of a team of people.

"Blue and white soldiers? What the **** is that?" Fang Yue could feel a deep breath in these soldiers! They seem to be an independent individual, but they seem to merge into one, and they are a rare whole! The strength of individuals, they are all strong in the world, and they melt into a whole, each

A team of men and horses are comparable to the powerhouses of the third and fifth layers of the rotation!

A total of ten teams appeared.

It is equivalent to ten powerful players in the rotation realm. Sima Xiao meditated for a moment, and then explained: "In this Qinghua Mansion, it has long been circulated that the Qinghua family is studying a mysterious new type of blue and white soldier! Blue and white are alive. Once trained for more than a thousand years, there is a certain chance that wisdom will be born. Become a flower demon! A vine can bear a hundred

A blue and white flower, these blue and white flower monsters are connected and loyal, they are the best candidates to form a battle! However, breeding and cultivating flower monsters is not easy, and a lot of resources are needed.

I thought that the Qinghua family was just for fun, but I didn't expect them to achieve mass production!
"

The ten teams of blue and white soldiers were like a cyan torrent, and in an instant, they poured into the shrimp soldiers and crabs.

They are like killing machines, with their hands up and down, and every move is horribly accurate.

When encountering a slightly more difficult enemy, they chose to besiege and kill by several people, because they are connected with each other, making their killing power stronger!

Compared with the loose teams and uneven sea creatures.

These blue and white soldiers are really well-trained soldiers!

The battlefield presents a one-sided situation!

A large number of shrimp soldiers and crabs, under the slaughter of the blue and white soldiers, have become stinky fish and rotten shrimp!

"Blue and white family, you are so bold!"

The strong man of the yin and yang realm of the lobster clan who confronted the law-guarding **** of war immediately showed an expression of anger! With him present, I thought it was worthless to destroy a small blue and white family!

Who would have thought that this Blue and White family still has such a backhand, bypassing him, and specifically targeting the soldiers behind him! In just a few breaths, at least thousands of shrimp soldiers and crabs will fall down, and those blue and white soldiers, with indifferent and serious faces, are covered with the blood of creatures in the ocean world. They are like ruthless executioners who kill machine. Step on countless blood to achieve self

Your reputation!

If the Blue and White Clan can survive the invasion of the ocean world, the prestige of the Blue and White Soldiers will be passed on to the world!

"Your ocean world is so bold!"

At this time, there was also an angry voice among the Qinghua family!

In the depths of the Blue and White Clan, an old man walked out slowly. He took one step, and thousands of mountains and mountains would be left behind!

His beard and hair are white, his face is white, without the slightest wrinkle.

Only in the bottom of my eyes, occasionally revealed a taste of vicissitudes, it seems that I have been used to the vicissitudes of this world.

"Blue and white Jie!"

Before Sima smiled, he had done enough homework for the Qinghua family.

Qinghua Jie is a predecessor of the Qinghua family who should have fallen thousands of years ago.

In his peak year, he possessed the strength of a leader.

It has been spread by the outside world that thousands of years ago, he was dead, who would have thought that he would be seen again thousands of years later!

"Master-level powerhouse, this is impossible!"

The strong lobster saw Qing Hua Jie's figure, his pupils suddenly shrank. Although he didn't know the origin of this blue and white Jie, the rippling and swaying aura of cultivation on his body couldn't be faked.

He had a thorough investigation before going out.

The blue and white family does not accept the green and yellow. Although the ancestors are extraordinary, in the past few hundred years, there has been no strong person in the leader of the leader.

The group of elders formed by five great powers is the ultimate trump card of the Blue and White Family!

However, he did not see the elders, but a leader-level powerhouse came out from the depths of the Qinghua family! "The Blue and White Family, is it really going to be expelled from this mysterious and yellow world? According to my estimation, this leader-level powerhouse is already the foundation of your Blue and White family! If he really falls, I'm afraid it is your Blue and White family. It's hard to get a foothold in this blue and white mansion even if you can survive.

Well, we all take a step back. I promise that the army of the Ocean World will not attack the Blue and White Family, and you will not take the initiative to attack the creatures of our Ocean World. "

The big lobster felt that the blue and white family was a hard bone.

If you really want to head-on, even their Ocean World will have to suffer heavy casualties before they can take this blue and white!

Therefore, the big lobster decided to take a step back and take a postponement plan, wait until the Qinghua Mansion is taken by them, and then attack the Qinghua Family. "Haha, under the cover of the nest, there are no eggs! When this Blue and White Mansion is completely broken by the creatures of your ocean world, my Blue and White Family still has half room for remnants! And the citizens of the Blue and White Mansion, nourish and nurture me, so that my blue and white family can survive on this land for millions of years

. If we retreat now, just to linger for a while, what face do we have to meet the people of Qinghua Mansion, ancestors! "

There was a firm light in Qing Huajie's eyes.

"If you want to fight with you, then fight! Even if my Blue and White family fights to the last pawn, there will be no compromise in the slightest!"

Qing Hua Jie's tone was cold and hard, she had already made her final determination!

As soon as Qinghuajie said this, all the disciples of the Qinghua family behind him shouted.

"The fighting spirit of the Blue and White family is immortal, defending the people, not afraid of life and death!"

"The fighting spirit of the Blue and White family is immortal, defending the people, not afraid of life and death!"

The louder the voice.

The louder the sound surging between the world.

It seems that this world has a sympathy with the Qinghua family, in the dark, blessing the family's luck.

"Huh, life and death, stubborn and spoiled!"

The big lobster snorted coldly, and then his eyes became cold. He looked at the guardian war **** and said, "Do you think such a stupid guy can stop me?"

The sound of the big lobster fell.

A trident immediately appeared in the void, and the big lobster grabbed the handle on the trident and slammed it down.

The wind neighed.

The halberd falls!

The body of the guardian war **** was split in half by force.

The misty blackish yellow aura wants to condense, once again forming the body of the **** of war.

But at this time, in the trident, the sound of the waves of the sea was surging, drowning everything!

The unbelievable waves are rising from the sky!

The whole world seems to be covered by the flood of sea water.

The hazy mysterious yellow aura was immediately destroyed, unable to form the body of the guardian war **** in a short time.

The trident in the hands of the big lobster fell again.

A beam of black light traverses the entire world.

"Teacher-level means!"

At this time, Qing Hua Jie also became uncomfortable.

Originally, he thought it would be a sure thing to kill this big lobster at the peak of Yin-Yang realm by virtue of his master-level strength. But now the black light blooming from the lobster's trident, even his leader-level powerhouse felt a huge threat!

Chapter 500: Blue and White Jie

"Blue and white ripples, the void is lightly blooming!"

The blue and white Jie shot, and the flowers bloomed in the void.

Countless blue and white flowers clustered in the void, turned into a thick wall.

The black light fell on it, and countless blue and white flowers, as if they had their own lives, evolved into smiling faces, decomposing and swallowing the black light!

A beam of black light, under the ingestion of countless blue and white flowers, turned out to be hundreds of millions of threads.

Before the power in every ray of black light was greatly reduced, there was no one-hundredth of a millionth of the power!

Blue and white collide with black light, annihilate each other, and cancel each other out.

The original shocking leader-level collision disappeared in the blue and white blooms of the blue and white jie!

"Haha, the Blue and White family really deserves its reputation, but I don't know if you are exhausted, how many times can you use this method!"

The big lobster laughed. The blow just now didn't work.

But he admitted that he had discovered the reality of Qinghuajie!

Blue and white Jie's complexion was cold.

"Old man, I don't have many years to live, but it's more than enough for you! Relying on external forces to display magical powers, this trident is not yours, but a master-level powerhouse who instills his own means into the weapon. in!

How many times can you use this black light? "

Blue and white Jie is tit-for-tat against that big lobster!

The corner of the big lobster's mouth provoked a mocking smile.

"You stupid fellow, do you think I will fight against so many powerful men in your Blue and White family with one person? Don't forget, you have your blue and white soldiers, and I also have my ocean army!"

The lobster retreated half a step.

In the army of countless sea creatures, a group of lobster soldiers walked out of it.

The queue of these lobsters was neat and serious. Compared with the previously chaotic and chaotic stragglers, they are not at the same level in terms of discipline.

The lobster army directly condenses into battle formations. Their breaths are connected, their minds are connected, each team of thousands of people is led by a strong person in the rotation realm, and the rest are all strong in the world!

The battle formation is condensed, and a spear is suspended in the air!

Each spear is the condensing of the vitality of heaven and earth. Comparable to the full blow of the Yin-Yang realm three-tier powerhouse!

This spear is not one or two.

It is a total of 36 roots.

"Swish" "swish" "swish"

One shot of vitality spear tore through the void, like a dense raindrop, falling toward the blue and white family's residence!

Over the resident of the Blue and White family, layers of creamy white masks emerged. This is the guardian of the Blue and White family that specializes in resisting external attacks.

"Boom" "Boom" "Boom"

The spears and the masks collided with each other and the sky shook in an instant, the sun and the moon were dark!

Thirty-six vitality spears dissipated completely.

Cracks have also appeared in the mask of the blue and white family.

This is a lose-lose ending.

However, behind the big lobsters, the lobster team is still gathering vitality and spears, violently blasting towards the blue and white family's light shield shield!

The disciples of the Blue and White family turned pale. They looked at the family's mask with concern! Once this shield is broken and completely shattered, they will all be exposed to the minions of the creatures in the ocean world, and they will fight in blood until they die tragically!

"Bold thief, dare?"

Qinghuajie's eyes are red, and the Qinghua family has been based in Qinghua Mansion for so many years, and has never been so suffocated.

Someone hit the door. All kinds of bullying, and they have no room to fight back!

Qinghuajie was furious, and tried to exhaust the last bit of life and killed the soldiers of the lobster clan.

The big lobster sneered, the void split open, and another strong man in the ocean world appeared.

This is a strong sea cucumber clan in the Yin and Yang realm. His arms are sturdy, and one hand is blocking the weapon that Qing Hua Jie is waving down!

The two sides are at war. Don't make a deal.

Qinghuajie was entangled by this sudden powerhouse of the sea cucumber family, and the two sides were on par.

Occasionally, although Qing Hua Jie was able to rely on his sophisticated combat experience, he was slightly better in his moves. However, in terms of physical strength, he is far inferior to the strong sea cucumber clan with strong blood and energy, just at the time!

The powerhouse of the lobster tribe is so busy, waiting for the guardian formation of the blue and white tribe to be completely broken!

Once the Qinghua family is conquered, the millions of years of wealth accumulated by the Qinghua family will be directly exposed to him.

"Business is here!"

Fang Yue's eyes lit up suddenly, and he was smiling. Called to the blue and white tribe: "Hey, blue and white tribe, can you hear it?"

Fang Yue yelled loudly in a place less than a few hundred meters from the edge of the Qinghua family residence.

The disciples of the Blue and White clan looked astonished.

As a cultivator, everyone is keen on the six senses, and within a thousand miles, they can even hear the sound of a mosquito flapping its wings.

This guy is so close, and his voice is so loud.

They can naturally hear clearly.

"Can hear! Is there anything?"

One of the elders of the blue and white rotation circle responded.

"How about let's make a deal?"

Fang Yue spoke again. But his face was blocked by a lobster from the fifth realm that came to him.

"You covered my face, get up for me!"

Fang Yue slapped the lobster far away, his strength was fierce, and the lobster was immediately thrown into disarray and injured all internal organs!

He is wild.

A lobster soldier on the fifth floor of the Heaven and Earth Realm was treated like a little chicken cub!

The elders of the blue and white tribe were also suppressed.

It's not because Fang Yue's strength is amazing, nor is it because he has the ability to leapfrog.

It's his bandit style, really doesn't look like a good person!

"What kind of business can you do with my blue and white family at this time? If you want to buy blue and white, please do so after these marine creatures have gone. Now my blue and white family is in trouble, life or death is uncertain. I don't have so much leisure and elegance. You talk about business!"

The elder of the Qinghua family resolutely rejected Fang Yue's request.

Fang Yue said calmly: "The business I'm talking about is related to the survival of your Qinghua family!"

"It has something to do with the life and death of my blue and white family? Could it be that you can still destroy these marine creatures?"

The elder of the Blue and White family had a contemptuous tone.

He saw through Fang Yue's cultivation realm at a glance.

The level of innate realm.

In the Qinghua family, that is, an ordinary disciple at the bottom.

With his level of realm, what can affect the survival of their Qinghua family?

"As sincerity, I can kill some seafood first to prove my strength!"

Fang Yue spoke.

The big lobster snorted coldly.

"Things that are beyond your ability, do you really treat yourself as a person?"

The voice of the big lobster still reverberated in the air, not completely falling.

Fang Yue's palm covered the sky, and his five fingers fell, corresponding to the power of the five elements.

"Five Finger Mountain, suppress!"

Fang Yue roared.

The palm falls.

When the five fingers fall, they represent the power of the five elements.

On top of each finger is the power lingering rules.

A uniform and uniform lobster army has been suppressed!

Those lobster army had no time to condense their vitality spears to Fang Yue's Wuzhishan, they were crushed into mud, with no bones left!

"The power of the five elements, the five avenues!"

Fang Yue's shot was unusually strong, even the big lobster was taken aback. Each of the lobster troops under his command is well-trained, and the formations are transformed, just in a flash. If it weren't for Fangyue's Five Finger Mountain that contained five great powers, it would condense the vitality of the heavens and the earth, and strip away the vitality of the surrounding heaven and earth at the moment of formation, so that the lobster troops could not condense the vitality.

Gas shield, they wouldn't have died so tragically!

"This..." The eyes of the elder of the Blue and White Family suddenly lit up, and the contempt in his heart disappeared in an instant! Fang Yue's Wuxingshan has fully proved his strength. Even if he can't fight the endless army of marine creatures, if he is willing to help, the Qinghua family can be shared.

Less pressure.

"The bold junior, dare to attack my lobster warrior!"

The yin and yang realm powerhouse of the lobster clan was furious for a while, and he wanted to ask Yue to start.

With a flick of his tail, the sound of sea water rushed!

The waves are overwhelming, and the road contains water.

The waves roll and the clouds are about to fall down in a blink of an eye.

"Do you dare to be presumptuous in front of my blue and white family?"

The earth swelled up, and layers of chaotic and misty earth elements emerged. These earth elements gathered into the appearance of a giant dragon, with a huge body, covering the sky!

Canglong flicks!

Break the sky!

Even Na Darang was overwhelmingly shattered by the tail of the earth dragon!

The raindrops all over the sky rushed down. Although it seems to be pouring, wet the ground, but it has no lethality!

"Old ancestors!"

A disciple of the Qinghua family spoke very excitedly.

He turned his head and looked at the ancestral land of the Blue and White Family. An old man at the peak of Yin-Yang realm walked slowly with a crutch.

His face was serious, with a tiger's mouth.

Even if he is quite old, he still has an aura of no anger and prestige!

Qinghua Jie is too far away from the disciples of the Qinghua family today! In order to leave a legacy for the Qinghua family, Qinghuajie has always been in a muddle sleep over the years.

The blue and white family is not very impressed with the blue and white Jie!

But the ancestor of the blue and white dragon in front of me is one of the great abilities born in this era of the blue and white family!

Blue and White Dragon shot to stop the big lobster's poisonous hand.

The elder of the Blue and White clan who mocked Fang Yue just now realized that Fang Yue was very likely to be the turning point in this war!

Although his cultivation level is not high, he has five great avenues when he shoots!

His unpredictable methods and profound strength may really have the potential to kill the army of marine creatures!

"Boy, what are the conditions for you to help my Qinghua family retreat?"

The elder of the blue and white family spoke. A pair of eyes glowing like fire fell on Fang Yue's body.

"Conditions? Of course it's one-handed payment and one-handed delivery! I need your family to provide 100 tons of ordinary blue and white! Ten tons of second-grade blue and white! One ton of third-grade blue and white! And five hundred jin of fourth-grade blue and white!"

When Fang Yue spoke, he stunned the creatures in the ocean world!

The lion has a big mouth, this is definitely the lion's big mouth!

Blue and white is a precious alchemy material. In the entire Xuanhuang world, few areas are suitable for planting and production.
