

## God of Life 521

### Chapter 521: Enter the ruins

They stepped into Ruins No. 13.

In the void, there are colorful bubbles floating, and each bubble is an independent small space.

This thing is called a space bubble. Fang Yue has seen relevant descriptions in some descriptions of space.

Colorful bubbles are spatial means that some talents who have a deep understanding of the ways of time and space have come to understand.

Each colorful bubble can exist for a long time, and it forms a world of its own, trapping the enemy and killing the enemy, and its magical effects are endless. "This is the first level of Ruins No. 13, where there are thousands of space bubbles floating in it. Everyone can choose a space to enter it, and then go through the test. If it succeeds, the space bubbles will naturally shatter. Treasures, scriptures, and secret methods will all fall into your hands. If you fail, the space bubble will collapse on its own! Death will disappear without any possibility of survival! After the treasure in a space bubble is successfully captured, you can still Choose to enter the second space bubble. But enter the second space bubble, the test

And the difficulty will be doubled! And so on, the third and fourth space bubbles will be twice as difficult as the previous one! "

Lucas briefly introduced the role of these space bubbles and the rules for breaking through. "You are very lucky. This place is a place of inheritance left by the ancient gods and demons! The treasures in the space bubbles are good or bad, and the tests they face are also different in strength! If you can survive this test Surviving, he will surely become an elite in our army, and in the future will become a key training

The objects raised even hope to return to the ancestor star! "

Lucas drew a pie for everyone.

Like Maslow who loves the motherland and the people, the diehard fan of the ancestral civilization, naturally his eyes are glimmering, and the corners of his mouth are about to flow out!

But Fang Yue raised a trace of danger and vigilance.

Not because the ruins are dangerous, but because they are too simple!

In this team, there is a mixture of fish and dragons, and there are no less than ten people who are just trying to test the Xuanhuang world!

Lucas is not like that kind of silly person, it is impossible not to notice the tricks in this team.

However, Lucas still introduced them into the ruins, and then gave them such a good opportunity to grab the treasure.

If there is nothing tricky in it, you won't believe Fang Yue's death! "Where is the problem? This military is definitely not a welfare institution. It is impossible to pass such a big opportunity to them! Since Lucas allows everyone to grab the treasure, there must be a second hand to let everyone's treasure. In the end it all fell into his hands! But although his talent is amazing, he can't

Can be the opponent of so many monsters! "

Fang Yue's brows tightened, unable to think of a clue.

In the end, he had to take one step at a time and see what was wrong with this Lucas!

After the introduction, Lucas was the first to pick a space bubble floating in the air, and pour a ray of spiritual thought into it. The colorful bubbles quickly zoomed in to envelop Lucas.

Subsequently, the space bubble shrank and returned to its original appearance!

Lucas's performance in the space bubble is very delicate. In the colorful bubbles, Lucas first encountered an iron-armed ape who was nearly ten feet tall. It is about two or three small levels higher than Lucas's realm. However, every aspect of it One action, wide open and close, can break the mountain and break the mountain, and the average rotation realm can do nothing.

Up!

Iron arm \*\*\*\* ape, because there is a \*\*\*\* word in the name.

Its bloodline can be comparable to the level of the sub-divine beast!

Lucas and the Iron Armed Ape fought, and the two sides fought to an enjoyable situation.

Immediately afterwards, other people also filed in one by one, each selected a colorful space bubble, entered it, and then continued to fight various monsters in the space bubble!

"I have one too!"

Fang Yue's gaze swept over, and he randomly grabbed a space bubble and entered it.

But the moment he entered the space bubble, he released all his mind to observe the structure and formation of this space bubble. Others are interested in the trials and treasures in the space bubble, while Fang Yue is more interested in the composition of the space bubble itself. Because this space bubble involves a very complicated, mysterious, and obscure part of the laws of space and heaven. If there is no special opportunity, it is very

Difficult to reach, let alone comprehend and enlighten!

However, he entered the space bubble too fast, it was just a blink of an eye. He hadn't observed it carefully, and he had fallen into it with serious taste.

"It's too fast! I just captured the characteristics of a little space bubble. If you want to understand it thoroughly, I'm afraid I still need to enter it again ten or twenty times!"

Fang Yue's expression was serious.

He was talking to himself, the thoughts in his mind had not escaped from the regret of entering the space bubble too quickly.

At this time, a big red bird was full of flames, and it had fallen from the sky and pounced towards him.

Fang Yue was still thinking and experiencing.

I just feel the scorching sensation in my body!

"please do not disturb me!"

Fang Yue's expression was very solemn and serious.

Let the big bird feel a provocative taste. The ethnic group it belongs to is called Agni Huo Zhuling. In terms of blood relationship, it and Suzaku are absolutely close relatives!

In terms of bloodline, it is not much better than the iron arm \*\*\*\* ape, and it is a kind of sub-shen beast.

It screamed sharply and breathed fire.

An endless flame spread, enveloping Fang Yue.

However, the temperature of these flames was extremely high, but there was nothing to do with the official Fang Yue.

Fang Yue's attainments in the Avenue of Fire are deeper, and he has reached the fourth level early.

This fiery Zhu Ling is not a true sub-divine beast, it belongs to the guardian projected from this space.

One's own realm and strength are only three or five smaller realms higher than those who pass the barrier. There is also a limit to the understanding of the law.

Even if it is an expensive sub-divine beast, it is generally good to be able to comprehend the Great Dao of Fire to the first level when it is on the third and fourth levels of the heaven and earth realm.

The ghost knew that there would be such a perverted breakthrough as Fang Yue.

Before reaching the realm of heaven and earth, he had already comprehended the Dao of Fire to the fourth level!

Such attainments are very abnormal and far exceed the expectations of the designer of this relic.

The flames that even burnt and twisted the space, surrounding Fang Yue's body kept tossing. Not only did he not get hurt by the burning, but he seemed to be soaked in a bathhouse, and he moaned comfortably!

"Ah! This feeling is really cool!"

Fang Yue said to himself.

The blazing fire spirit almost vomited blood.

Its eyes are wide open, and its own ultimate move is so enjoyed!

Its pride as a sub-shen beast made it feel a deep provocation.

It screamed sharply again, ready to make another move, using its assassin, to destroy this ignorant and arrogant human that didn't put it in his eyes.

However, it hasn't waited for it to start. One of Fang Yue's big hands has already fallen.

Lihuo Zhu Ling was pressed under him by Fang Yue, and sat on it.

"Little guy, don't make a noise, brother is thinking about things here!"

A magnificent sub-divine beast should be invincible of the same rank.

However, on the basis that he was three small realms higher than Fang Yue, he was actually suppressed by Fang Yue.

What was even more shocking was that Fang Yue didn't even raise his head from beginning to end, as if he didn't regard this fiery Zhuling as his opponent at all!

Fang Yue continued to frown, pondering and studying how this space bubble was constructed with the power of space!

"What's going on? Is the test in Fang Yue's space bubble fake? God, what did I see? Why can someone suppress a higher-level sub-divine beast with one hand!"

Maslow never entered the space bubble. Before he set off, he had received a secret order from the military.

All military officers are not allowed to enter the space bubble.

Therefore, Maslow pays attention to the situation of every strong person who enters the space bubble.

Fang Yue is his key observation object.

As soon as Fang Yue entered the space bubble, he gave him a big surprise, single-handedly suppressing a sub-divine beast that was several levels higher than him, this is simply unreasonable!

What is the sub-shen beast?

Although it is not a real beast, it belongs to the existence second only to that sequence! They have different talents and sturdy blood, and they are almost invincible among creatures of the same order!

Every inch of muscles and bones is filled with mellow mana.

A roar can shatter the sky!

Stomping suddenly, can tear the earth!

In ancient times, they were the kings of this land, and many totem beasts were born of sub-divine beasts in essence!

In the face of the sub-divine beast, even the young king Lucas who descended from the ancestral star must be cautious, temptation and trembling with it, before daring to really make a move.

And Fang Yue actually raised his hand to suppress, everything is such an understatement!

Fang Yue frowned from time to time, and laughed sometimes, as if he was stunned. Only Fang Yue himself can realize that in this colorful space bubble, his comprehension of space heaven is constantly deepening!

For him, this is a rare opportunity.

Space bubbles can be encountered but not sought. They form a world of their own and are the embodiment of the prototype of the original world.

The fiery Zhu Ling finally couldn't bear the humiliation of being suppressed, and it burst into pieces with a low whistle. Died instantly!

At the moment when the fire Zhu Ling died, no bones of the sub-divine beast were left, and blood splashed.

Because it is a projection, a ray of spiritual imprint, not an entity, but ultimately comes from nothingness and then into nothingness.

With a snap.

The space bubble shattered and Fang Yue fell out of it.

A piece of golden feather slowly drew a graceful curve through the air, and finally fell into Fang Yue's hands.

This is a piece of Peacock King feather, the best material for refining the five-bird fan!

Its value is immeasurable, and it can be met but cannot be sought. In the eyes of some refiners, giving him gold and silver mountains can not be exchanged for a fluttering feather.

However, Fang Yue's face was full of regrets, and he did not have the joy of obtaining treasures.

If you can comprehend the true meaning of the rules contained in the space bubbles, it will be more valuable than all treasures!

The other space bubbles were also shattered one after another, and the whole ruins were full of beeping sounds.

Some spaces are broken, and some of them fall out of the trialists. Each of them has different harvests in their hands, or some kind of precious medicine, or a book of eternal sutras.

But there are also spaces where the bubbles are broken, and there is nothing inside.

This is to prove that the tester who entered has been defeated by the imprint of the guardian sub-shen beast. They lost the qualification to leave the space bubble, and finally could only sleep forever in this ruin.

"No, my understanding just now hasn't been completed. I can't give up halfway through this way. If I give up this opportunity, I will regret forever!" Fang Yue chose to enter a space bubble again!

**Chapter 522: Glass ball?**

"What is he doing? He actually chose another space bubble. Isn't it clear what I just explained? The second space bubble will be twice as difficult as the first one!"

At this time, Lucas also emerged from his own space bubble. In his hand, there is an extra piece of gold the size of a baby's thumb!

This is the material for forging the master level magical implements. Even among the ancestors, it is rare.

He seemed to be calm and unhurried, and he was not sick or injured, but Lucas, who had gone through a fight, fully understood how difficult it was to face the sub-divine beast that was several levels higher than himself.

"Fang Yue..."

Maslow suddenly didn't know how to describe the scene he saw just now.

Suppress a sub-shen beast with one hand?

Or did you use the fire Zhuling as a cushion and spread it under your butt?

This special code is too shocking!

Without waiting for Maslow's words, how to describe the scene just now.

People's eyes have been stunned by Fang Yue's performance in the space bubble!

The opponent this time is an evil eye!

A big eye is half a meter in diameter.

Evil Eye, although not a sub-divine beast, the spiritual attainments of this clan are not weaker than that of a divine beast!

They are good at confusing, and just a single eye can make each other's spirit and soul perish forever.

In a way, evil eyes are hard to guard against. It is more terrifying than the ordinary sub-divine beast!

Fang Yue entered the space bubble and continued to concentrate on comprehension.

He ignored the outside world.

The evil eyes floated to Fang Yue's face, silently.

The gray eye opened suddenly. The pupils are upside down, and it seems that another world has fallen into it.

"Huh? What a big glass ball!"

Fang Yue opened his eyes and felt the existence of the evil eye. He stretched out his hand and patted the evil eye twice.

The people outside the space bubble looked weird.

"Glass ball? Are you ignorant, ignorant? Or ignorant! This is the king of mental power, a great and evil evil eye! A single glance will kill people, eternal perish, and cannot be superborn!"

The hearts of those people are secretly contemptuous.

How can an idiot who doesn't even know Evil Eye be selected to participate in this expedition?

But when they were shocked.

Fang Yue and Evil Eye's eyes met each other.

He was not even affected at all.

Fang Yue's spirit is clear and bright, and his eyes are particularly piercing.

"Glass ball, glass ball, don't stare at such big eyes, my brother will be scared! Well, let me sing a lullaby to you, how about you sleep well?"

Fang Yue seemed to be coaxing a three-year-old child, speaking in a tender tone that made people sore.

It doesn't matter whether Evil Eye agrees or not.

Fang Yue's voice of half-tone singing had already begun to float out of the air.

"Go to sleep, go to sleep, my dear baby! My brother loves you, my brother loves you..."

Accompanied by Fang Yue's unpleasant songs.

Glass ball, oh no, the great and evil Lord Evil Eye actually slowly closed his eyes and fell into a deep dream.

Space bubbles outside.

More and more observers are staring with eyes wide open and staring with breathlessness!

Fuck, how could this be!

The evil eye that Fang Yue encountered is fake, right?

Fang Yue's confrontation with Evil Eye was far less simple than people outside thought. In order to keep this space bubble from breaking, Fang Yue used almost 30% of his mental power to freeze the evil eye and let it fall into a state of deep sleep.

Once the evil eye awakens and it is determined that Fang Yue's strength surpasses it, it will dissipate spontaneously, and the space bubble will also burst!

For Yu Fangyue, the reward in this space bubble is certainly a good thing, but it is still a lot different from participating in the true meaning of a law.

Fang Yue was suppressing the evil eye while comprehending the changes in the rules contained in the space bubbles.

With a bang, the space bubble broke again.

Fang Yue fell out from it.

"This is unscientific, the evil eyes are clearly still sleeping, and they cannot recognize my victory!"

It was only a short time before he could understand the true meaning of the rules of this space bubble.

But all the inspiration was interrupted as the space bubble burst.

The people outside looked at Fang Yue who was roaring hysterically, all of them were dumbfounded.

This buddy is thinking about it!

Is it not a good thing to come out of that space bubble?

He actually hypnotized the evil eye and tried to stay for a long time in the bubble of space. This meant that he was sick, or sick, or sick! Only Sima Xiao saw a clue. He even Fang Yue had a greedy and insatiable character that was a hundred times stronger than himself. This buddy was walking the path of space and heaven, thinking that he must be tempted by that space bubble! This is a role model for my generation! Goose plucking hair, can squeeze out of stone

Oil and water are no longer enough to describe our classmate Fang Yue.

Not only does he want to pluck the wild goose, but he also wants to stew the wild goose to sell meat!

"another one!"

Fang Yue's obsession is strong.

He looked at another spatial bubble.

A pair of eyes are scarlet, like blood.

His palm stretched out, and he wanted to touch another fresh air bubble.

But when his palm ran across it, the space bubble seemed to exist in another time and space, and it passed him by. Lucas smiled gently and explained calmly: "This is the characteristic of the space bubble. Not only can you win the projection of the gatekeeper in it, you can also get rewards, but the time to be able to fight with the sub-divine beast for more than ten breaths is also considered as a clearance! After every two passes, you need a stick of incense

In order to buffer, they can enter another space bubble. This is a benefit for the testers, so that they can get enough rest and adjust to the best state to enter the next level of trial! "

Lucas looked at Fang Yue's gaze, as if looking at a rare treasure.

Especially the extra scarlet red pill fragment that Fang Yue's hand had, made him extremely coveted.

Even the greed in Lucas's eyes was undisguised, as if a greedy wolf had encountered fat.

"What kind of look are you, I warn you, don't hit our attention!"

Fang Yue hasn't said anything yet.

A little girl dressed in purple had already rushed out and said fiercely to Lucas.

She has a delicate face and is not very tall.

With a pair of big eyes, staring at Lucas, he stood in front of Fang Yue intentionally or unintentionally, like an old hen protecting a calf.

Fang Yue didn't know this little girl, and he wasn't even familiar with her breath. He was only able to preliminarily judge that this little girl should come from the mysterious yellow world. There are large strands of mysterious yellow air flowing out of the body, which is quite mysterious.

"Where is the stinky girl, dare to speak to me like this?"

Lucas frowned. He came from the ancestor star and had a noble status. He should be treated like a noble divine residence on the deep blue planet.

He was disgusted with this crazy-looking little girl.

Fang Yue was also surprised, where did this little girl jump out, and why should she protect herself.

"Under the world, is it the king's earth, the shore of the land, is it the king's minister! You must be obedient and dedicated to the things that Master Lucas is fond of! Because originally, everything in this deep blue planet is Luca The private property of the Si family."

Behind Lucas, a strong warrior spoke.

His face was cold, and he sternly reprimanded!

Lucas didn't stop him, just watched his guard scold the little girl who didn't know the manners. Who did she think she was?

Even the Lucas family's face dare to refute?

"Cher, what are you crazy! Don't you apologize to Lord Lucas?"

At this time, a spirited and majestic blue-clothed young man walked out, frowning slightly. Pulling the girl's collar, she wanted to pull it back.

"Brother, don't stop me! This little brother is the fate of our Yinchuan family! He must not be lost, otherwise the catastrophe of my Yinchuan family a hundred years later will be difficult to survive!"

The girl was arguing. Her crisp voice made many faces in the crowd suddenly change.

The Yinchuan family is an extremely ancient supreme family in the Xuanhuang world. Their background is unfathomable, almost coexisting in the world!

The word "Yinchuan" represents the force that crushes eternity in the Xuanhuang world.

There are immortals in their clan, this is almost an indisputable fact!

"My fateful person in the Yinchuan family?" The young man frowned slightly, and finally stood up.

The Yinchuan family has three plagues and nine disasters. Every three thousand years there will be one disaster. Every ninety thousand years, a disaster will be born!

If it can survive, the Yinchuan family's background will be deeper and the incense people will be more prosperous. If you can't survive, then the name of the Yinchuan family will end!

The disaster is easy to hide, but the disaster is inevitable!

A hundred years later, the Yinchuan family is in a period of 90,000 years of calamity. Only the destined can help the Yinchuan family survive the disaster and survive the three disasters and nine disasters this time!

Of course, every time the Yinchuan family suffered three disasters and nine disasters, more than one person was hit. Sometimes three to five, sometimes even more than a hundred.

Only one of them is the leader, the others are all supporting.

The leading person cannot lose, and the supporting person is optional!

"Kneel down and apologize to Master Lucas! As long as you are sincere, Master Lucas will be generous, and you will be able to forgive your unreasonable troubles!"

The guard continued to yell at the girl, and a smile full of superiority appeared from the corner of his mouth.

In front of Lord Lucas. All the natives of Deep Blue Planet will lose the courage to resist. Since the day they were born, they are destined to become servants of the Lucas family.

"What did you say? Let me from the Yinchuan family bow down to you?"

Before the girl could say anything, the boy in blue was already furious.

They came from the Yinchuan family, the highest since ancient times, they did not respect the heavens and the earth, and only worshiped their ancestors!

What kind of \*\*\*\* the Lucas family wanted to make her sister kneel down to this Lucas. This is an insult to the Yinchuan family. As the core disciple of the Lucas family, how could he obey this arrangement!

"Okay, okay, don't quarrel! This matter is forgotten! Everything is a misunderstanding, you both take a step back!"

Lucas clenched his fist slightly, his joints were white. Deep in his heart, he was obviously not calm, but there was a gentle spring breeze on his face. It seems to be really trying to persuade him, with a broad mind, able to tolerate all disrespect!

But the vicious look in his eyes betrayed the true thoughts in his heart. If it weren't for these people's worth, he would have snatched all the treasures from these people!

### **Chapter 523: Under the Blood**

In the end, a turmoil subsided.

However, the team of 100 people, which had been combined on the surface, has already seen a faint gap within it.

There are some sneakers in the mysterious yellow world, each with a ghost, not only watching the people of the deep blue planet, but also looking at the siblings of the Yinchuan family unkindly!

People on the Deep Blue Planet may not know.

But in the Xuanhuang world, anyone with a bit of status and vision would know this hidden Chuanxue. Yin Chuan Xue, Xuan Huang Ling Body! Not to mention his own cultivation talent, it is a natural good furnace. Who can get her for the first time, can use the means of supplementation to get the Xuanhuang Linggen in her body! Even a person with mediocre qualifications can become a great genius that attracts worldwide attention.

Great master!

If it is possible to plunder Yinchuan Xue...

Many people's eyes flashed with greed. Although they are genius disciples and core figures of various sects and families, who would still think that their talents are too weak?

"Space bubbles are a world of their own! No, I still have to pick another space bubble."

Fang Yue seemed to be trapped in devilishness, and he had an almost paranoid idea about the understanding of the law of space.

He is very persistent, not to surprise people's opinions, otherwise, on the earth, he would not become a nail house that makes countless people feel headache!

Nail households are not something ordinary people can do.

It requires perseverance and perseverance.

Fang Yue extended a palm again and touched a space bubble. The space bubble is blurred, and according to the rules, he can't get it.

"I said! There are rules here. There needs to be a time interval between the second bubble and the third bubble."

Lucas's smile gradually faded.

There was a smell of impatience in his tone.

This is only the first level of the ruins, and it is not worth his wasted too long.

More important is the trial later. He has no time to accompany Fang Yue to toss around here!

Just when Lucas turned to leave, he banged.

The space bubble that Fang Yue touched suddenly opened!

Fang Yue's figure was absorbed, Lucas turned his head, all expressions instantly solidified.

"This, how is this possible!"

The guard behind Lucas said in shock.

The third space bubble, Fang Yue's opponent, is a Ba Xia, Ba Xia, the legend is the heir of the mythical beast Xuanwu, and their bloodline is already the top of all the sub-divine beasts!

Ba Xia roared, the water gleamed to the sky, and in a blink of an eye the blue light flooded Fang Yue.

Fang Yue didn't change his expression, he was still savoring, pondering the mystery in the bubbles of this space.

Even if this hegemony is already the seventh level of heaven and earth realm, even if his comprehension of the Great Dao of Water has reached the third level!

"Don't make noise!"

Fang Yue shouted angrily.

The beast under Naha seemed to really understand Fang Yue's words, and he subconsciously chose to obey.

It obediently, curled up, crawling in a corner of the space bubble!

But soon, it reacted, this was not right, how could it let a human being call around and drink because of its dignified overlord.

He stood up, roared at the other party, Yue Pentium, and left!

Just when it was about to approach Fang Yue's body.

Fang Yue's eyes suddenly lit up. "Yes, space bubbles, self-contained world! Derived from a little bit, and evolve the mustard seed into the Sumeru world! Master the Buddha kingdom, the world of a leaf, it is the same principle! By analogy, then use runes, the power of formation, Build a joint structure, you can keep this bubble world forever!

"

A clear understanding.

A silver light flashed between Fang Yue's eyebrows.

"A preliminary comprehension of the mystery of the universe! Give the status of a Tier 1 Heavenly Dao!"

This voice is magnificent and magnificent, like a god-given voice, reverberating and lingering endlessly!

The voice fell.

The space bubble Bi Bo burst.

Thirty-six drops of black cyan blood slowly fell into the void!

"Blood under the tyrant!"

In the void, those thirty-six drops of black-blue blood bloomed slightly.

Let everyone feel an oppression stemming from the essence of life!

Fang Yue didn't hesitate to take it with one hand, and stored all the blood of the tyrant in the stone pendant on his chest.

"Every drop of the blood of the sage level is invaluable! If it is refined, it can strengthen the muscles and bones and improve the bloodline, even the strong of the sage level will have a covetous heart!"

Sima Xiao walked to Fang Yue's side and reminded in a low voice.

Fang Yue didn't care.

His eyes flowed, looking at the space bubbles around.

He can obtain all the treasures in these space bubbles at will!

Because after obtaining the status of Heavenly Daoist, Fang Yue has become the person with the highest authority in this ruin.

Even some of the organs can be used directly, and the difficulty of some levels can also be adjusted within a certain range!

It can be said that this ruin, in a way, has become his half of his nest.

Part of the greedy gaze had already swept towards Fang Yue.

Although everyone did not speak, and no one wanted to be this early bird, it was clear that Fang Yue had become the fat sheep in their eyes.

A saint-level tyrant's blood can't be obtained by just one person!

Brothers and sisters Yinchuan approached Fang Yue's position intentionally or unintentionally, and they were always on guard against someone who would act suddenly, and that Fang Yue would be disadvantaged.

Sima smiled, and Li Tiezhu also suppressed the intentional or unintentional smile on his face and became serious.

"The second level is the vertical ladder! This level has a total of 9,999 steps! Every time you step up, the pressure you encounter increases by one level! But when everyone reaches a fixed number of steps When the time, you can get a certain reward! The reward this time is the legendary attribute stone! Different attribute stones can strengthen a certain part of the practitioner's attributes! For example, the most common speed stones and power Stone

, Just need a drop of blood to refine, you can enhance the corresponding attributes of the body! There is almost no danger at this level! If you can't bear the pressure, just turn back immediately! "

Lucas's gaze only paused on Fang Yue's body, and then left immediately.

But that unabashed, hungry wolf-like look, presumably regarded Fang Yue as his possession!

"Attribute stone? Can it directly improve the attributes of a certain part of a person? Isn't there any restriction on this thing?"

Fang Yue was surprised.

This thing is a bit like an object in a game.

In reality, it shouldn't exist at all!

The same treasure, because everyone's physique, state, and absorption efficiency also change, so everyone takes it, everyone is different!

It is incredible that any treasure can ignore the gap and increase the attribute value of a certain aspect of a person.

This is obviously contrary to common sense. At least it is contrary to common sense in Fang Yue's world.

Lucas glanced at Fang Yue. "Yes, the improvement of attribute stones can ignore the realm! This thing belongs to the product of ancient civilization, and the principle of it is difficult to trace! But countless experimental results tell us that attribute stones are difficult to replicate and difficult to imitate, but it Absolutely beneficial and harmless! Any piece

All are extremely precious.

Everyone, if anyone is unwilling to absorb attribute stones, I personally would like to recycle them at a very high price! Whether it is star coins, evolution potions, or other precious materials, the final result will definitely satisfy everyone! "

Lucas's voice fell.

The crowd also became agitated.

Anyone who follows Lucas to explore.

What is everyone for?

Not for the improvement of strength.

Increase in realm?

This attribute stone is definitely a rare thing, even if the increase is limited, it is good to give to juniors if you don't use it!

An attribute stone can also turn a junior from mediocre to genius! Let him build up confidence and form a belief that I am invincible!

Faith is also important on the path of spiritual practice!

Sometimes, a person's talent is not simply a matter of destiny, but also in people's self-cognition.

Hear the situation of the ladder vertical that Lucas introduced. A pair of eyes are burning up.

Fang Yue also mixed in, and his heart became fiery.

The attribute stone does not make much sense to him. The strength increase of a fixed value, as long as the number is not too exaggerated, it is only for a while, when it reaches a higher level, these strength increases will become meaningless.

Because the realm is different, the base of the attribute is different.

The same is to increase the strength of a thousand kilograms. If this opportunity is placed on a mortal, it may mean that the strength is increased several times, and suddenly from a scholar without the power of a chicken to become a famous strongman. , This changed a life.

And if it is placed on a strong man in the heaven and earth realm, there will be hundreds of thousands of kilograms of strength between the hands and feet.

An increase of one thousand kilograms is optional and will not make much difference.

However, this attribute stone itself is something that Fang Yue is very interested in!

How is it structured and how it functions.

If he can thoroughly understand these studies, he believes that his understanding of Taoism can be further improved!

Get out of thousands of space bubbles.

Only three to five hundred meters away, one can see the first-level stone ladder extending to the sky.

The stone ladder at each level is only half a meter high. However, the black-green color and the mottled traces of swords and swords on it gave people a desolate, ancient, and even eternal taste.

At this time, someone could not wait to climb the first step of the stone ladder.

As soon as the sole of his foot fell on the stone ladder, a silver lightning fell from the sky.

This lightning is about the thickness of chopsticks!

But he is so fast that he has no room for dodge at all!

"Scatter!"

The first person to climb the stone ladder pointed at the lightning in the sky.

The lightning disappeared, as if it had never appeared from the world.

This person who climbed the stone ladder is actually not very strong. He only has the small realm of the second level of the heaven and earth realm. Perhaps, in the deep blue planet, he can be regarded as a master in the outside world.

But among the men and horses of this expedition, there are a few hidden powerhouses in rotation.

In comparison, the strength of the world realm is nothing!

"Is this the test of the ladder vertical? Is it too weak? The first lightning strikes, even the people of the Hou Tian realm are estimated to be unable to kill!"

Some people are whispering, feeling that the test of this ladder is nothing more than that.

Under Lucas's bragging, it was amazing. But in the real test process, it is not necessarily so powerful.

**Chapter 524: The power of rules**

The lightning was easily blown away.

Boom.

A small red stone the size of a rice grain fell from the void.

The man's spiritual consciousness fell and plunged into the stone.

His expression immediately became serious.

"The power of rules, with the help of the idea of heaven and earth, is a rule stone condensed with the vitality of heaven and earth as the carrier. Taking this stone can add three kilograms of physical strength!"

The man murmured to himself, his voice was not loud, but it fell into everyone's ears clearly.

"What, it's only three kilograms? That's ridiculous enough! I practice spitting, and in one day, the increase in physical strength is more than three kilograms!"

There was a burly tall man with a black face and a big face. His face was full of disdain!

Fang Yue paid more attention to the passage that the person said earlier. The power of rules, with the help of the idea of heaven and earth, with the vitality of heaven and earth as the carrier, the stone of rules condensed!

The rule naturally refers to the Great Avenue of Heaven and Earth!

The power rule may be the power avenue.

As for the mind of heaven, perhaps ordinary people can't reach it, but Fang Yue and the others came to see the black trial this time, isn't it the mind of heaven and earth?

The divine will contained in Fang Yue's soul is already quite not weak, and within a single thought, all the changes in the vegetation around his body can be imprinted in his heart!

It is even easier to gather the vitality of the world!

Fang Yue's mind moved slightly, maybe if he could understand the mystery contained in this attribute stone, he could also artificially create something similar?

Thinking of this, Fang Yue's heart couldn't help but raged.

Sima Xiao also thought of something similar to Fang Yue!

The Providence contained in his body is not as strong as Fang Yue, but in comparison, the number is quite large, at least not weaker than those returning from the previous black trials!

Lucas didn't explain much, but he walked up to the stone steps. He stepped on the first stone steps, and it was windy.

A half-moon-shaped wind fell suddenly.

Its edges are sharp, like a silver knife falling from the sky.

This gang wind is strong and powerful, and looks very strong, but in terms of realm, it is still only an acquired level trick!

Lucas dispelled it easily.

A cyan stone fell from the sky.

Red represents the power attribute.

Cyan represents the speed attribute!

Lucas didn't stop on the first small step, and then he moved on to the second step.

A fireball the size of a washbasin hit his face. The flames in it show a blue color!

This fireball is still an acquired-level method, but compared to the previous Gangfeng, it is already more powerful!

Lucas opened his mouth and let out a breath.

The fireball rolled upside down, flew into the void, then broke apart, turning into strands of blue smoke and passing by the wind!

This time the fireball was extinguished, leaving behind a silver stone. This silver stone represents spiritual power. And its volume is much larger than the red and cyan stone before.

"The higher this step is, the more fierce the test will be, but at the same time, the more rewards you will get under the fierce test!"

People finally realized the true mystery of this vertical ladder.

They no longer hesitate, one after another stepped onto the ladder!

Fang Yue also stepped onto the ladder, but he was not going forward step by step.

Instead, take one step, take three steps!

He wanted to see what the consequences would be if three stages were taken in this step.

After Fang Yue climbed three steps.

A white bone spear suddenly stabbed down from the void!

The bone spear is sharp, and the edges are full of black aura!

"Innate level attack!"

Someone saw Fang Yue's situation. After Fang Yue challenged three space bubbles before, many people secretly set their eyes on him. They hoped that they could find out Fang Yue through the process of exploration. The virtual reality makes it easy to get rid of the ruins and grab treasures!

The first three steps correspond to attacks at the acquired level.

And Fang Yue took three steps, obviously fusing three attacks into one!

"broken!"

Fang Yue's finger clicked.

The bone spear cracked!

Wow, a piece of pale fragments fell to the ground!

Then, a scarlet stone the size of a baby's thumb fell from the void.

"After refining, it will increase one hundred kilograms of power!"

Fang Yue whispered out the attribute increase of this attribute stone.

"One hundred kilograms? It turns out that if you step up several steps at a time, the difficulty of the test will suddenly increase, and the treasure benefits you will get will also increase!"

Someone's complexion changed slightly, and he had already reached three steps.

On the three steps, all the attribute stones he got were crimson.

However, the gains of the three attribute stones are three kilograms, ten kilograms, and fifty kilograms respectively. When added together, the room is the strength gain of 63 kilograms.

Compared with Fang Yue's one hundred kilogram attribute stone, it was only 60% more effective.

Seeing such results, people began to step over several small steps and directly boarded in.

Sure enough, if several small steps are crossed together, the final result is much better than the effect of attribute stones obtained by a single small step.

But not everyone has achieved better results after crossing several small steps.

A buddy was anxious, and he stepped up to fifty steps.

However, if the pace is big, it is easy to get eggs!

Haven't waited for his footsteps to stand. A word of lightning with a diameter of half a meter has come down.

There was a bang.

That buddy disappeared directly from the place, the world evaporated!

The stacking of the test energy of fifty steps is really terrifying!

A cultivator at the heaven and earth level just evaporates from the world.

This makes other people take a warning. They are not only greedy, but also start to test their personal safety issues!

In this way, half an hour passed.

Most people stay in the middle of the 40th to 50th steps.

The fortieth step is a threshold. The corresponding energy has reached the level of the heaven and earth realm. If you are not careful, you may be injured or even killed!

But at this time, the difference in the strength of different people has gradually emerged.

The first echelon is dominated by Lucas, and he has reached the sixtieth step.

The difficulty of the test of this small step is equivalent to a full blow from the ninth layer of the heaven and earth realm, but it is already calm and calm when falling on him, without the slightest lethality.

There are already ten people in his team!

They are all between the fifty-fifth and sixtieth steps.

The brothers and sisters of the Yinchuan family are all in this rank.

Originally, they didn't want to expose their strength prematurely, however, the reward of this ladder vertical is too tempting.

Moreover, after passing this village, there is no such shop!

The crimson strength attribute stone that fell down from the fifty-fifth step was already capable of adding three million kilograms of physical strength to a person.

Qi refiners, the physical body is undoubtedly a shortcoming, a weakness.

If the strength attribute stone can be used to supplement this short board, it is undoubtedly a very attractive choice.

There are several other people, all with mysterious identities. Unpredictable origin.

Instead, it was Fang Yue, who was previously dazzling. Already sat cross-legged on the forty-fifth step, let go of the spirit, and no longer advance!

According to Fang Yue's knowledge of the ruins just now.

All rewards are divided into grades and have levels!

What everyone can see is often not the most important thing.

According to Fang Yue's speculation, the most critical reward for this ladder vertical is the method of condensing attribute stones.

Every attribute stone fell down.

Will correspond to the process of condensing the attribute stone.

Within one thousandth of the blink of an eye, Fang Yue could clearly capture the fluctuation of the law.

Above the vertical ladder, there are power, speed, and spirit, three condensed into the form of a dragon cruising in the void.

If it wasn't for Fang Yue's astonishing mental power, if it wasn't for Fang Yue to be proficient in space and heaven, if it wasn't for Fang Yue's soul to integrate heaven's will. There is no insight into the existence of these three rules of the dragon!

Every dragon is the embodiment of pure law!

Just a glance at the mental power can make Fang Yue reach the entry level in the corresponding Dao!

A scale, a claw, and a palm print are all manifestations of truth and reason! "Who is setting up this ruin? The level of their understanding of Taoism is probably hard to reach even the fairy in the legend. Tao is Tao, very Tao, famous, very famous! Not everyone can Tao And the rationale out there! Not to mention the evolution of the rules into

The existence of regular creatures!

If you copy and meditate against this regular creature every day, it will be difficult to get started even if you don't want to go to the Tao! "

Fang Yue exclaimed in his heart, and at the same time, he did not let go of every moment when the attribute stones condensed and regular creatures appeared, copying their fleshy shells. It's just a pity that Fang Yue discovered this regular creature too late, and every time the regular dragon appeared was too short. Until now, Fang Yue is only the power avenue, the speed avenue, and the spirit avenue, all of which have reached the top. The realm of layers! If the rule represented by a complete highway

, Metaphorically becoming an endless ocean, this point he realized, not even a drop of water!

At this time, people's courage to move on has slowly disappeared.

It often takes a long time for everyone to think before taking another step tentatively!

There are even people who have already started the way back. They feel that their gains are not small, and there is no need to take risks and go further.

"This void is open, and the frequency of falling attribute stones is significantly reduced! I can hardly observe more regular dragons."

Fang Yue looked up at the void, anxious in his heart.

This way of observing the dragon of rules and understanding the mystery of the rules is almost like cheating to understand the Tao.

Fang Yue knows that he does not have much talent in power, speed, and Dao. If he is allowed to comprehend painfully, he wants to comprehend these Dao to the second or even third level, the ghost knows that it will come. Year of the Monkey Horse Month.

"No, I can't be so passive. Looking at these people's postures, I guess they are almost reaching their limits! Let them continue to move forward, and they will not be able to walk a hundred or two steps! Others are unreliable, this thing is still It depends on yourself!"

Fang Yue had a clear understanding.

As soon as he gritted his teeth, he emptied his fingers, a place under the ladder that day.

Everyone looked in the direction of the imaginary point of his finger, all in awe.

"What's the trick? Don't continue climbing the ladder, but point to the ground?"

Compared with Fang Yue, everyone's behavior always seemed a bit quite satisfactory.

Every time Fang Yue makes a change, it always attracts the attention of many people.

The open space pointed by Fang Yue. A little zombie with three layers of congenitals stood up. Its eyes are dull, and its actions are slow!

### **Chapter 525: This unscientific!**

"It turns out that Fang Yue is also proficient in the law of death, but he just summons such an undead creature to be useful for birds? Does he still want to rely on such a small innate level zombie to resist thunder and lightning for him?"

The surrounding people who eat melons showed mocking expressions.

Before, Fang Yue's performance was too good, so good that it made them jealous and made their eyes hot!

Now that I finally find such an excellent person, there will be times when he is poor.

In their hearts, they are finally relieved!

They began to desperately slander Fang Yue and let their mood become more relaxed!

Fang Yue ignored him.

He still sticks to his own path.

The little zombie stepped onto the first floor of the steps.

With a cry to the ground, a fist-sized fireball roared.

The little zombie stiffly raised his elbow and shook it slightly to collide with the fireball.

The fireball dispersed.

The little zombie's arms were also completely dark.

Then, the void cracked, and a rice-sized attribute stone fell out of it.

"Special mom, is this okay?"

A group of melon-eating people were shocked, and even their jaw dropped.

This unscientific!

How can the summoned creature be counted separately according to the new entry barrier!

If this is the case, isn't there a bug in this ladder vertical, unlimited summons, unlimited single brush attribute stones!

The hearts of these people are fiery.

Fang Yue can, and so can I!

But wait, who will come with this undead summoning technique?

A group of big lords stared at them. It was all embarrassing expressions.

Young and strong work hard, but the boss is sad!

Special code, who on earth defines the summoning of the undead as a side door.

Everyone look at me, I look at you.

There are inherently few skills, and there is no one who is proficient in Undead Summoning, except Fang Yue!

With the bug, it became Fang Yue's exclusive use.

With trembling steps, the little zombie climbed the second step.

Struggling against the lightning that broke through the sky.

There was a bang, lightning fell, and the little zombie was smashed in black!

However, at this time, no one laughed anymore.

On the contrary, they all raised envy and jealous eyes!

The void split twice, and the three-headed dragon appeared.

Fang Yue understands the essence and appreciates the mystery.

Every time Void leaves, for him, it is a great opportunity.

One is not enough, then another!

Fang Yue was not afraid of trouble and waved his arms.

In a blink of an eye, small zombies were summoned in the open space below the ladder.

The strength of each little zombie is not too strong.

Wandering between the third and fifth layers of the Xiantian Realm!

What Fang Yue wanted was the moment when the void splits, the figure of the regular dragon, as for the attribute stone, it can only be regarded as an extra reward.

If the three avenues are truly understood, their value cannot be exchanged for many attribute stones!

Looking at the Wuyangyang, a small black zombie climbing the ladder.

Everyone feels very upset!

A piece of pie fell from the sky, but it was snatched away!

This is the true portrayal of this group of people, unbalanced and unwilling!

Even Lucas's mood was slightly disturbed.

Before, the pride of being the leader of the first echelon, under the shadow of those little zombies, was overwhelmed to an extent!

This is to replace quality with quantity!

There is an incomparable difference in quality between large attribute stones and small attribute stones.

Replacing quality with quantity, this number of routes can be done!

Lucas has always believed that he is the proud son of heaven, descending on the dark blue planet, it is like a phoenix falling into the chicken coop.

He can rely on his talent, proud to be these turtles.

But he didn't expect that after he really came, he would be severely shocked repeatedly on Fang Yue's body.

Space bubbles, vertical ladders...

Fang Yue is the one who benefits most from every level!

If there is no arrangement behind, Lucas really feels like he is going crazy!

However, fortunately there is the following arrangement, yours is mine, and mine is mine! In this ruin, all the good things are mine!

A steadfast light fell on Lucas' eyes.

The rest of his gaze swept down on the Wuyangyang, a large swath of little zombies.

Lucas is still a little broken... Mom, there are monsters!

In that emptiness does not break apart and bridge.

Fang Yue kept observing the image of the three-headed regular dragon. In his mind, some details of the three-headed regular dragon began to be outlined gradually.

A scale and a beard, although they are all small pieces, they contain profound principles!

"It turns out that everything is like this! The laws and Tao are so profound that they cannot be described in words, but they can be manifested in ever-changing runes.

Runes are essentially the language and words of Heaven. The dragons of these rules look vivid and lifelike, but in fact, they are all put together in endless runes of rules! "

When Fang Yue's power, soul, and spirit all reached the third level.

There was an epiphany in his mind, and a deeper understanding!

To comprehend these three rules of the dragon, it is better to comprehend the power of more detailed and specific runes!

Runes are the foundation of all rules.

It is another embodiment of Tao and Dharma!

at this time.

In Fang Yue's mind, the desolate, eternal voice before, resounded in his mind again.

Like Hong Zhong Dalu, deafening and shocking!

"Understand the mystery of runes, the true meaning of the rules! Get the status of a second-order heavenly path!"

The sound was rippling, only Fang Yue could hear it.

In the center of his eyebrows, that little silver light flickered, and suddenly it became a silver twelfth-grade lotus platform!

The silver light flickered and disappeared again.

Fang Yue suddenly felt that his control over the ruins had increased tenfold!

In his mind, there were three more ancient scriptures.

Each character in this verse is a regular rune representing strength, speed, and spirit.

These runes are the foundation of the rule dragon.

With these three runes, Fang Yue can continue to comprehend the three great avenues without having to continue to comprehend these rules and dragons.

Fang Yue stood up suddenly. There was a rough sack in his hand.

The sacks were released, bulging in midair, and hunting.

All the attribute stones in the hands of those little zombies fell into their pockets.

Fang Yue's goal is achieved, and there is no need to stay on this ladder any more!

Fang Yue stepped down, his expression calm.

It's exactly the appearance of a okay person.

But other people's hearts have already set off a stormy sea, and at the same time they are slandering, such a precious attribute stone, you can take out a pocket with big colorful patches, is it really suitable?

Fang Yue walked down the ladder.

Others have also lost the mood to continue through the barriers, something that was originally quite exciting, but being so mixed up by Fang Yue, how do you think, how do you feel aggrieved.

The ladder is vertical, over.

The person who had the last laugh in the end was naturally Lucas.

He walked to the top of the seventy-second ladder before turning back!

A scarlet attribute stone the size of a human head that can add 36 million kilograms of force is invaluable.

But his smile felt a little stiff in every way.

That head-sized attribute stone, no matter how you look at it, can't compare to Fang Yue's full harvest in a torn sack.

mmp, make you arrogant, sooner or later you will cry! "The next level, ancient memory, imprinted with the spiritual fragments of the owner of this ruin when he faced powerful enemies in the past! This ancient memory is a pure spiritual world! If you die in it, you will probably really die. Now. But that ancient memory, together with the ancient world. If in

Among them, learning exercises and practicing secret techniques can also bring the corresponding achievements back to reality!

If we say that the previous two levels are a kind of background and a kind of accumulation.

Then the third hurdle is a complete explosion. The stronger the creature, the greater the benefits will be gained from it! Of course, luck also occupies a large part of the influencing factors! "

Lucas calmed his mind.

Afterwards, he coughed twice and cleared his throat. Introduce it to people.

In the bottom of his eyes, triumphant, cold expressions alternated vaguely.

Fang Yue keenly caught the change in Lucas' expression, but made no announcement.

Others don't suspect him, and they are all gearing up.

The opportunity is bigger than the treasures and attribute stones in the space bubbles, which makes them quite excited!

Fang Yue retreated to the back of the crowd and smiled at Sima, Li Tiezhu whispered.

"Be careful, there is a conspiracy in this third level!"

At the same time, Fang Yue also secretly transmitted and reminded the brothers and sisters of the Yinchuan family to keep them vigilant and not fall into Lucas' trap.

The third level is a futon. Every futon is all tattered and bright yellow. They are corroded and weathered in the wind and sand of the years, although every futon is woven with extremely precious materials. But they couldn't stand the endless devastation of the years.

"This futon is weird!"

Fang Yue said in a low voice.

He smelled a weird breath, and now, he has become a Tier 2 Heavenly Daoist, and he has authority over the many institutions in this ruin.

The ruins are long and there are many levels ahead. Fang Yue was able to produce weak feelings with him.

However, these futons couldn't have a half-distance feeling with Fang Yue. They did contain a hint of ancient and mysterious atmosphere, but they were incompatible with the ruins themselves!

"Everyone only needs to choose a piece of futon and sit down! You can enter the mind and enter the ancient memory fragments. Among them are countless ancient techniques and secrets that have been lost. There are also some mysterious inheritances that should not be missed!"

Lucas' introduction became more enthusiastic, and the smile on his face became a bit brighter!

Fang Yue stepped back and was buried in the darkness.

At the same time, a clone of vitality replaced his place!

Fang Yue's movements were very subtle, but he did not escape the smile of Sima next to him. He also smeared the soles of his feet, and the first-class smoke ran far away, not knowing where he came out with a transparent cover to cover himself, breath, The body is concealed in it, like invisible air!

As for the classmate Li Tiezhu, it is even more amazing. He neatly manifested a Harry Potter version of the invisibility cloak, draped it on his body, his figure disappeared, and even the spiritual consciousness could not be found.

Others did not notice the movement of these three people in the crowd, one by one stepped on the futon, all sitting cross-legged.

They closed their eyes. Falling into a state of meditation, thoughts were flying, a flush of excitement and a smug smile appeared on his face.

Fang Yue's clone is no exception, stepping onto the futon. The wisps of mental power, desperately infiltrating his mind, could not stop it at all.

### **Chapter 526: Puppet body**

"This mental power is poisonous, and it contains a ray of cursing power. Once it penetrates into the sea of consciousness, it will take root as a seed in the sea of consciousness, taking the endless consciousness and soul within it as nourishment, swallowing, refining Change, strengthen yourself! In the end, one will lose and become stronger

The person becomes a puppet, loses all consciousness and is at the mercy of this Lucas! It's really a calculation for good or bad, so insidious! "

Fang Yue's heart instantly realized that he knew where Lucas' conspiracy was.

However, he can understand, but it does not mean that other people can also find the tricky!

All those people are desperately refining this strand of spiritual power, and they have discovered something wrong with their spiritual power.

But it was too late, that ray of spiritual power had taken root in their souls. And Lucas slowly got up from the futon he was sitting on, laughing: "All of you are really amazing and talented, and you are so talented. There are fifty or three people who can enter the space bubble and pass the test. Not to die! There are even people who can break through space bubbles twice and three times.

Even so, how? You are not all going to be my puppets, my slaves! Well, creatures from a foreign land! Your blood, knowledge, all will become my treasure! And this little beauty, I really don't want to kill you! Dare to confront me! I will implant the soul of a licentious woman into your flesh, and I will be blessed and loved by me day and night

of! Hahaha! "

Lucas's expression was crazy and distorted.

This time, the so-called expedition was completely set by him!

The explorers he selected are either exceptionally talented and have broken through to the realm of heaven and earth or even rotation at a young age, or they are suspected to be extraterritorial creatures, all of them are geniuses, studying their bodies, bloodlines will gain great benefits, great opportunities !

Lucas stretched a finger under Yin Chuanxue's chin, slightly outlined, wanting to enjoy this beautiful body first.

Just when he hooked his finger.

A ray of silver light has already shot out from Yin Chuanxue's hands.

"not good!"

Lucas instantly changed color!

He never expected that his meticulous research and design methods would actually fail.

He retreated quickly, but it was too late by this time!

The silver light collided with Lucas's finger, quietly.

The silver needle was inserted along the tip of Lucas's finger. A finger burst into pieces, completely scrapped!

A small gray bell floating out from the top of Yinchuanxue's head, it is branded with flowers, birds, fish and insects, mountains and rivers and beasts. This is a soul magic weapon, specially used to resist attacks from the soul.

The expression on Lucas's face was full of anger and anger. He finally knew that his method was not a hundred-thirty-five-hunting, it could target anyone!

One of his fingers was blown off, but there was no blood in the wound, and a black breath hovered and lingered on the wound, and soon a fresh finger grew out.

This is not a method of life, but a method of the undead.

At this time, Fang Yue also opened his eyes. There was originally a ray of divine consciousness in his clone, and there is no talk about whether the cursed spiritual power will destroy the sea of consciousness.

Fang Yue stood up.

To Yin Chuanxue reminded: "Yin Chuanxue, you must be careful, this Lucas is not the real body, but a puppet made from a corpse refined by a ray of divine thought!"

"You're not dead?"

Lucas was even more surprised. In the past, this kind of method he used to test Bailing, this ruin, no longer knows how many genius puppets have been created for him.

Now, his method was broken one after another, which had to surprise him. I wonder if my methods are outdated!

"It's not just Fang Yue, I'm not trapped by your trap! The people on this planet are a bit interesting, but it's too tender to target us!"

Another purple-clothed boy stood up. The corners of his mouth grinned and dusted off his body.

In front of him, a ray of divine thought was isolated, burned in the air, and quickly turned into ashes.

This purple-clothed boy is also a strong man from the Xuanhuang world.

His realm is quite high, he has reached the ninth realm of heaven and earth! In him, there is always a hazy aura ups and downs, seeming to cover up his true identity!

After the purple-clothed boy, Yin Chuanxue's brother Yin Chuanming also got up.

"The Jiang family's disciples are really extraordinary, and apart from those on the surface, they really have a deep foundation!"

In a word, Yin Chuanming pointed out the identity of the purple-clothed boy. He and the purple-clothed boy faced each other, and a faint smell of gunpowder permeated. "It is said that although the Yinchuan family and the Jiang family are both the supreme family and live forever, they are not in harmony with each other! This thing is really true! Because the two families are the supreme family, once they open fire, it is very likely that the immortal soldiers will be used to cause disastrous life, so the adults of the two families

Things, only then acquiesced and allowed the juniors in the indulgent clan to compete with each other, fighting against each other for generations! "

Sima Xiao reappeared. He didn't know what dangers contained in this futon, so he chose the safest and safest method, and he ran away to avoid disaster. Did not visit the scene in person! Wait until everything is settled, reappear and see if you can get any benefits!

Sima Xiao, although he is not among the real high-ranking members of the Sima family, his status in the Sima family is still quite high. He knows some gossip circulating among the supreme families!

These families are superior to the outside world, their attitudes are high and cold, and they always give people a feeling of inhumanity.

But if you get close, you can still find a lot of bits and pieces, which makes people complain!

Lucas was originally the center of the crowd, he was the layman and the man behind the scenes.

But as Yin Chuanming confronted the young Jiang family, he unexpectedly found that he had gradually been excluded from the center of attention.

This made him deeply ashamed and indelible!

"I am the protagonist here!"

The hysterical roar and roar in Lucas' heart, he, as the descendant among the ancestors, should be high above and respected.

But imagination and reality have opened a huge gap.

He was ignored, ignored, and became a clown-like existence!

Lucas was the first to start with Yue. Somehow, he was particularly disgusted with this man who took away his glory and glory.

From the first level, Fang Yue took the limelight!

In the second level, he was the one who had reached the farthest on the ladder, but in the end, everyone's eyes fell on Fang Yue.

This time, again!

Why is the method he has arranged for a long time to be seen through by him and escaped, why is he, a barbarian from outside, actually shines brighter than himself.

Lucas's heart is not balanced.

But his steps just moved, he didn't take a few steps.

It was stopped by a bone spear that broke out of the air.

The bone spear is sharp, especially the tip, with a bit of cold light, and it is set towards his brow.

Fang Yue no longer tolerated.

On this road, Lucas repeatedly cast greedy eyes.

Fang Yue hated the feeling of being regarded as a fat sheep.

Now that he tears his face, he doesn't need to have any tolerance.

Fang Yue's spear was cold, and it brushed between Lucas's brows.

However, a drop of blood still fell, and this was the sharp breath on the spear rubbing out.

"The way of death dare to show itself before me?"

Fang Yue sneered and looked at Lucas.

The same type of Taoism is the most repressive.

Especially when there is a big difference in the understanding of Tao between the two.

Fang Yue's death heaven has reached the middle stage of the fourth layer, and he has cultivated the "Death Book" of the comprehension of the power of death, and he has built everything up and down.

Even if this Lucas was extraordinary, Fang Yue was also thrown eight blocks away in the way of death.

He has only the early attainments of the third level in the way of death. Among his peers, he is already quite rare, and he is extremely talented.

But this little trick is not enough in Fang Yue's eyes!

More than ten times the difference between Dao and Ze, Lucas has fallen into a passive state!

The realm of death suddenly unfolded. Enveloping Lucas in it, the Heavenly Path of Death in his body was completely suppressed, showing no trace of power.

Under this absolute suppression, Lucas couldn't help but knelt down in a cold sweat!

"Fang Yue, don't be proud of it. This is not my deity. If you dare to touch a single hair of my clone, I will completely wipe you out, and you will never be superborn!"

Lucas' hysterical roar and roar, he didn't care about this clone.

Over the years, with this ruin, he has possessed countless talented and powerful physical puppets. This is just one of the mediocre ones, nothing.

But he was annoyed that he actually knelt to a savage.

This puts his pride and dignity away!

"Kill me? Do you think you can?"

Fang Yue's smile remained the same. He was not in a hurry to kill Lucas from Ancestral Star. Fang Yue was very interested in the Ancestral Star of Deep Blue.

Some of their black technologies can already accomplish almost miraculous things in the mysterious yellow world in some respects!

For example, let those who have no talent for acquired cultivation force breakthrough to the innate realm, relying on the external force of drugs to stimulate the potential of the body, and even reach the peak of the innate realm without hindrance!

Or, with the help of medicine, the cultivation of the innate peak can force a breakthrough to the heaven and the earth. Although the quality of the condensed inner pill is not high, it can only increase the lifespan of more than 100 years.

But this is simply the supreme gospel for those who are at the peak of their innate life, who are struggling for a lifetime, and are almost about to sit down.

Even if it is destined to not reach the level of rotation.

But being able to live more than a hundred years is also great news!

"I can't do it? Hahaha!"

Lucas laughed wildly.

At this time, on another futon, Lucas's tower-like bodyguard suddenly opened his eyes.

His figure is like a tiger, his feet are on the ground, his knees are slightly bent, he pedals suddenly, his hands are like claws, he is like a tiger coming out of the cage, and he rushes towards Fang Yue. The methods are simple and powerful, and there is even a phantom of the tiger behind!

"The blood of a silver-winged tiger?"

Fang Yue was slightly surprised.

This blood is impure, it is obviously an acquired transplant, although it is only half a profound level.

But this added another reason for Fang Yue to explore Zuxing!

Easily create a powerful person with a half-step profound bloodline, this is also impossible in the Xuanhuang world with normal means!

But Fang Yue didn't hesitate, patted one hand down.

The guard in the turning realm was slapped to death by Fang Yue and turned into fleshy flesh!

The physical body is Fang Yue's greatest reliance. The level of rotation is almost invincible! This guard and his close hand-to-hand combat is the biggest thing. Otherwise, if you fight with your cultivation base, you might be able to survive ten tricks in Fang Yue's hands!

## **Chapter 527: Hades, shadow**

Lucas was completely dumbfounded.

"This, this is impossible!"

The scene before him has provoked the so-called bottom line of common sense in Lucas's mind.

In his heart, there is a limit to leapfrog battles, no matter how powerful a genius is, it is impossible to challenge the strong in the rotation realm in the innate realm and can also kill with one move.

"Nothing is impossible! Fang Yue is such a freak, but unfortunately, this freak will fall into my hands now!"

With a flutter, a silver knife cut through the air and pierced Fang Yue's waist. Fang Yue slowly turned his head and looked at the silent figure behind him. This was a middle-aged man with a plain face, a gray

shirt and black trousers, looking rather inconspicuous. Even Fang Yue has never noticed such a person in the team from the beginning to now.

exist.

He seems to be a mass of air, never attracting anyone's attention!

"who are you?"

There was a gurgling sound in Fang Yue's throat.

The eyes were filled with unbelievable eyes.

"Pluto, shadow! Fang Yue Demon God's bloodline should not be passed down to the world!"

The voice is cold and spicy!

The dagger in his hand also rotates!

The dagger quenches poison and kills in blood!

In the history of the Pluto organization, there are rare examples of failure!

"That's it!"

Fang Yue's complexion suddenly remained as usual, and the dagger gradually melted within his body.

The shadow of the killer looked astonished.

"My dagger has pierced your waist. You can't be unscathed!"

The shadow growled at Fang Yue.

Fang Yue said Shi Shiran.

"You are killing flesh and blood, the deity! And I, this is just a clone of vitality, a ray of divine thought enters the lord, and the body is evolved with the vitality of heaven and earth. It has a combat power not weaker than the deity, but there is no obvious vitality. Disadvantages!"

Fang Yue's smile was hearty.

This makes the shadow assassin frightened!

This is too terrifying, condensing a vitality clone, with aura cultivation base, it can almost be fake!

More importantly, it has no weaknesses. It is a real battle and can be completely used in a desperate way.

"Fang Yue, don't!"

The Shadow Assassin drew away and repelled, his breath was weakening rapidly, trying to escape into the void and escape the range of Fang Yue's divine consciousness.

However, his reaction was still a bit too late!

A big hand of Fang Yue popped out and pressed his shoulder!

Fang Yue's spiritual consciousness has locked the shadow assassin, he will not commit the same mistake twice!

The shadow assassin, the figure twisted into a strange arc.

With a bang, the shoulders held by Fang Yue, along with the arms, all exploded, bursting into a thick blood mist.

He took the opportunity to escape, and his speed suddenly increased tenfold!

The strong man broke his wrist, this shadow assassin showed his decisiveness and hotness at this time!

He is not only vicious to the enemy, but also decisive to himself.

"Fang Yue, wait, I can't spare you!"

Before leaving, the shadow assassin was still making harsh words.

"Don't wait, I will kill you now! The Xuanhuang world is now in danger. You actually communicated with extraterritorial creatures, the arrogant of the poisonous Xuanhuang world! Your heart is shameful, and the Pluto organization behind you will also be implicated!"

Fang Yue's spatial domain unfolded suddenly, making the shadow assassin's movements slow like a snail.

Different fields have different attributes and effects.

In the space field, you can control the stability of the space.

The higher the degree of stability, the smaller the power of various magical powers.

The shadow assassin is like falling into the mud, every step is quite difficult!

"Die!"

Did not wait for the shadow assassin to say anything. Fang Yue had already shot, one of his palms fell, smashing the head of the shadow assassin, red and white, splashing to the ground!

There is no mood swing on Fang Yue's face!

Whether it is the young man from the Jiang family or Yin Chuanming, they are all shocked when they see such a scene!

The Pluto organization is very famous in the Xuanhuang world. These four words represent one of the ten long-lasting killer organizations in the Xuanhuang world.

Countless arrogances and evildoers fell into their hands.

Even for nearly a thousand years, the Pluto organization has become more arrogant.

Even some saints dare to slaughter, quite tough and arrogant!

Some supreme families have remained silent about this organization, for fear of causing trouble.

Killing the killers of the Pluto organization is equivalent to stabbing a hornet's nest. They will not succeed in one wave, and there will be a second wave, one after another, like a maggot attached to a bone, the ghost will not disperse!

Only Sima smiled with a calm expression!

Fang Yue's details, he knows best, Fang Yue's past is completely a dark history, and many major families and major sects have been blackmailed by Fang Yue.

He is a bandit, bully, and human trafficker, quite shameless and shameless.

If Fang Yue is to be killed, the Pluto organization will not be ranked!

First of all, it is impossible for Taiyi Jianzong to let Fang Yue go!

Don't bite if there are too many lice, and don't worry about more debts!

To Fang Yue, one more Pluto organization would be nothing.

The shadow assassin was shot dead by Fang Yue, and then searched with the most skilled means. Soon, all the belongings of the shadow assassin were searched out by Fang Yue.

With a huge amount of various materials and tens of millions of spirit stones, he is definitely a wealthy household among practitioners at the peak of the world!

Moreover, the assassins of the Pluto organization have a habit of taking valuable items with them, and they are precarious. It is possible to fall at any time, and no matter how much wealth is left, it will become a chance for others.

It's better to put it on yourself at any time and react accordingly.

If it falls, people are dead, no matter how much wealth, what use is there!

This is cheaper Fang Yue.

When looking at various relics. Fang Yue saw a blood-colored token, which was the mission token of the Pluto organization, and a ray of spiritual energy was injected.

The text emerges.

"Hunt Fang Yue, offer a reward of 50 billion spirit stones or equivalent resources, the person who issued the task, Fang family."

This line of text is very short.

But Fang Yue's face was completely dark.

Damn it, this Fang family is still endless?

He had already given in, and left his hometown, no longer entangled with the Fang family.

But this family still refuses to let it go.

A reward order was issued, and the Pluto organization has chased him into the black trial!

At this time, Lucas, who was kneeling on the ground, suddenly showed a strange smile.

"This assassin can't kill you! But I may not be able to kill you! Wake up, my servants!"

There was a low call from Lucas.

Those strong men who had been eroded by the sea of consciousness on the futon and lost their will woke up one after another.

Their eyes are open, their eyes are hollow.

After becoming puppets, they have lost their ability to be autonomous. However, although their souls dissipated, their fighting consciousness and fighting instincts still existed.

Dozens of strong men besieged, each with its own abilities.

If unable to break through, even Fang Yue would be in danger of life.

"More than people?"

Fang Yue glanced at these people around with contempt.

His fingers dropped in the void. Layers of ripples rippled.

A group of Yin soldiers appeared. Headed by a Yin will lead.

This yin general is a powerful person at the Yin and Yang level. He is dressed in black armor and his voice is majestic.

"Who dares to call me out of the underworld?"

Na Yin will speak, and there is a majesty in his voice.

His aura alone suppressed the audience!

Fang Yue took off the token from his waist and said to the Yin General: "Fang Yue, a ghost in the world, has seen Master Yin!"

As soon as the token comes out, the identity becomes clear!

"It turned out to be a ghost man, I don't know what business do you have to call me?"

The Yin Jiang's speech was mild, but he still had a sense of business affairs.

Not everyone will sell the face of the world.

What about ghosts?

In the underworld, ghosts fill the streets, not very valuable!

Fang Yue was not discouraged by Yin Jiang's cold words. Instead, he came close to the Yin General in a humble manner.

"Master Ghost, please respect yourself!"

Yin will continue to have a cold attitude.

"What is Fang Yue doing?"

The look of Fang Yue, the onlookers who watched were all taken aback!

He has nothing to do and summons a group of Yin soldiers to do in the future!

This is a human dispute and has nothing to do with the underworld.

Could it be that Fang Yue is really out of skill?

But that looks really different!

When everyone was puzzled, Fang Yue suddenly stuffed a jade bottle into the Yin General's hand.

"Big Brother, you have been struggling to travel from the underworld to the world. It is not easy. It is not easy to think carefully and not respect. This is to honor your old man!"

Fang Yue's predecessor's attitude was full of smiles.

As the saying goes, reaching out and not hitting the smiling man, this Yin Jiang also nodded slightly, his expression even more relaxed.

He lowered his head and pulled out the cork with a pop.

Fully twelve drops of the Three Transformation Soul Liquid are suspended in it.

Yin Jiang was slightly startled, and immediately plugged the bottle stopper. His previous serious expression disappeared for an instant. He slapped Fang Yue's shoulder and said, "They are all my own brothers, why be so polite!"

Soul fluid, in the underworld, can be regarded as hard currency.

Third-ranking soul fluid is already valuable and without market. For Yin Ling, it is a supreme magical thing. Whether it is to assist in cultivation or to heal injuries, these third-ranked soul fluids are of great significance to him. the value of.

The yin general is also a kind of intelligent creature. Although his life forms are different from those of the yang, the rules of collecting money and eliminating disasters remain the same!

Fang Yue's shameless energy made people stunned.

Is this blatant bribery?

This kind of thing, although everyone would do it more or less in private, it is really rare to do such an upright thing as Fang Yue.

Sima Xiao even covered his face.

Brother, can't you find a place where you can't make it to the table?

Under such a big crowd, in full view, bribing the evil generals and letting others be ghosts would not be reconciled!

Just under the contempt of a pair of eyes. This Yin Jiang talked happily with Fang Yue.

The link of interest makes these two people hook up on their shoulders, and it's just like it happened.

Lucas was stunned!

This Fang Yue is simply too shameless! He originally thought that his shamelessness and nastiness had been able to dominate the dark blue planet.

Unexpectedly, compared to Fang Yue, he is nothing short of a big difference, and the difference is still far away, no!

"Brother, what's the matter, even if you tell him, he can still catch a few criminals without his other skills!"

That Yin Jiang is already a big deal! He patted his chest and said to Fang Yue.

Fang Yue pointed to Lucas.

"It's him, that's because he is destroying the order of Yin and Yang. Killing human geniuses at will, grabbing flesh and refining puppets!"

Fang Yue complained and looked sad and angry.

In this way, Lucas felt like he was a heinous criminal!

But is this really a problem?

In the world of practitioners, is it not the most normal thing to seize homes and refine puppets? I've never heard of anyone who was approached by the yin soldiers of the underworld for taking homes and refining puppets.

### **Chapter 528: Get stolen**

Upon hearing this, the yin general immediately became angry and yelled at Lucas: "The bold thief, who violated the law of yin and yang, made puppets without authorization, and harmed the soul. You must know that there are laws in yin and yang, and laws in heaven and earth! Life and death are important matters. Once he died, he was already in the Yang world, and he was full of grievances!

Can you take this opportunity to destroy the soul and make people unhappy? "

Yin Jiang stared.

Sternly interrogated Lucas.

Lucas was asked dumbfounded.

Fuck, there really is such a clause in this underworld law!

Fang Yue was secretly proud of himself, the order of Yin and Yang contained thousands of rules. It's just that on weekdays, Yin Bing Yin will not bother to manage so many miscellaneous things.

Unless it is grievances, some people violate the rules of heaven and kill wanton.

Otherwise, how can they control it? Are you murdering or setting fire? Are you chasing souls or trespassing!

No matter what. Once managed, it is a serious crime.

Yin Jiang's eyes swept away.

Sure enough, the stolen goods were obtained by others, and dozens of Tianjiao were all made into puppets without their own will by Lucas.

"Master Yin, this time, the little one has already known the mistake! I will definitely not do it again! This time, I hope Master Yin will be able to open up the Internet and give the little one a chance to reform!"

Lucas' eyes rolled.

Immediately, he took out a purple bead from his storage bag.

This bead is an injustice orb, in which a million souls are condensed!

Lucas also has a lot of research on puppets and ghost repairs.

This injustice orb is quite pleasing in front of many gods and demons and ghosts. It cannot be directly refined, but it can be integrated into weapons and treasures, making it so powerful that it can be worthy of many precious materials!

The unjust soul beads came out.

Na Yinjiang's original aggressive attitude has changed again.

He hesitated a little.

This Wrong Soul Orb, although far less valuable than Fang Yue's Soul Liquid.

But in front of his eyes, it is also a rare object.

What used to be a serious and tense life-and-death battle has now become a ridiculous farce.

The thoughts of life and death are all in the hands of a yin general.

Seeing Yin will hesitate.

Fang Yue could not help but sneer. "Master Yin, this Wronged Soul Orb is a stolen item! I don't know where Lucas got it. Since he can take out one, he naturally has the second and third in his hand! The lord will arrest this gangster Lucas and then confiscate all the loot from him!"

"

Fang Yue spoke.

Lucas' face changed suddenly.

Damn Fang Yue, so viciously damaged!

Yin Jiang's eyes, the greedy light immediately flourished!

He patted his forehead, how could he have never thought of this problem! This guy can take out a bribe to himself, he must have more on hand!

He doesn't care about this black matter!

As long as there are benefits, what about the reputation of the outside world?

Anyway, after death, the soul is sleepy!

Kick him into the yellow spring and wash away the memories of his previous life, what else can he know?

Yin Jiang's heart, a burst of clarity.

In Lucas's heart, the secret path was bad, this soul bead was originally something he brought out to save his life! But after Fang Yue's instigation, it turned into a reminder of life!

"Do not!"

Luca felt a cold murderous intent drifting past the Yin General's eyes.

He hasn't resisted yet, but his head has fallen to the ground!

"These puppets are handed over to you! But I will take Lucas' corpse! However, this is not Lucas's deity, but a clone controlled by divine consciousness!"

Yin Jiang waved his hand and swept Lucas's body away. At the same time, a beam of eyes fell, erasing the marks that Lucas had left in their bodies from these corpses.

These corpses, in fact, are still alive. The souls in them have just been annihilated, and they can even be used to seize houses, dove and occupy the magpie's nest, and have vitality again!

The Yin General did not wait for Fang Yue to speak again, he already opened the domain gate and left with his men.

Fang Yue was not polite, and put all the puppets into his storage space.

These puppets are all people with identities, some come from the world of Xuanhuang, and they are saints of the first religion, and some are elites from the deep blue planet, with great identities and origins!

Moreover, they still have the treasures obtained from the space bubbles on their bodies, and the attribute stones obtained by harvesting them on the ladder.

These things, just take out one, can make people greedy!

Fang Yue naturally couldn't let it go easily.

"Behind, there are many levels, are you going to continue to break through?"

Fang Yue ate thoroughly, looking at the brothers and sisters of the Yinchuan family, and the purple-clothed teenager from the Jiang family.

"I still want to continue exploring this..."

It hasn't waited for the Jiang family's youth to finish the last two words "remains".

There was a bang, and the sky was shaking.

Outside the ruins, there was already a violent sound of killing!

"It's so fast! Lucas just killed the army of Deep Blue Planet and killed him!"

Fang Yuemen Qinger knew that Lucas had other clones outside.

Between different clones, ideas are connected.

When one of them falls, the other clones will have induction.

"We are hiding in this ruin, I don't believe that the army of this deep blue planet can blast away this ruin!"

Sima Xiao was very bachelor, and he squatted in a corner and stopped moving!

Fang Yue rolled his eyes.

"Hide a furball!"

"Lucas brought us in this place. Do you really think he has no way to enter the ruins again? Leaving the ruins now, there is a chance to break through. If you continue to stay in the ruins, wait to be caught in their urn. !"

"You are the turtle!"

Sima smiled and stared.

Fang Yue's analysis was very reasonable, and they all showed clear expressions.

Now leave the ruins, and then choose to break through, is the best choice!

Without a second word, everyone chose to leave behind.

Fang Yue was the first to leave the ruins. After that, Sima Xiao, Li Tiezhu, the Yinchuan brothers and sisters, and the purple-clothed youth from the Jiang family all left the ruins.

The moment they left.

An icy voice suddenly appeared in Fang Yue's mind. "The selection of the heavenly path is complete! The ruins return to the void! The first-order heavenly path can have three opportunities to summon and open the ruins! The second-order heavenly path can have five opportunities to summon and open the ruins! The third-order heavenly path can have the summoned and open ruins. Twenty chances! Heavenly Taoist level increase

, The ruin opening opportunity can accumulate and stack! "

Accompanied by the Jiang family, the purple-clothed boy left the ruins with his heels.

The entire ruins dissipated instantly in the void!

But Fang Yue didn't have time to think about these things.

The laser beams all over the sky are already in their direction, like dense raindrops, coming over the sky and the earth.

Fang Yue sneered.

"Sure enough, Lucas has already set up the sky and earth nets waiting for us to come, but they too underestimated my strength and means!"

In Fang Yue's hand, a scarlet pill was thrown towards the sky, and the black warship threw it away.

With a bang, the crimson pill burst into pieces instantly.

Within a hundred miles, everything was shrouded in a crimson weapon.

The battleships that were still fiercely releasing lasers, all of them rested, and gradually died down.

Then there was deathly silence.

No more interest.

"Rakshadan! How could you have such a thing!" The purple-clothed boy in the Jiang family has an extraordinary origin.

His expression was startled.

Said in an incredible tone.

Raksha Dan, even in the Raksha tribe, is a taboo. Normally, it is too powerful to be used easily!

"Fang Yue is a personal trafficker, bandit, and robber. He has too many enemies, and he probably can't even count him! If he doesn't prepare some powerful weapons, what if he is besieged and hunted down?"

Sima smiled and cleared his throat, explaining for Fang Yue.

But his words made Fang Yue a black line in his head.

Does anyone talk like that?

He is said to be a bandit, a robber, and a human trafficker. Even though this is the case, he is also forced to be helpless!

Fang Yue rolled his sleeve robe.

All the dozens of battleships moving in the sky were all taken into the stone pendant by him.

In this deep blue planet, there are not many strong people who can reach the rotation realm. Under the bombardment of Rakshadan, it is naturally difficult to survive!

Dozens of warships were confiscated, all of which were weapons of war.

The application is good, and even the strong in the Yin-Yang realm can be seriously injured and killed.

In fact, if it wasn't for Fang Yue's surprise this time. He threw a Rakshadan decisively, guessing that he is still fighting with these warships, and victory is difficult!

Fang Yue did his best.

Kill instantly!

But this is not the end, but just the beginning!

"Soul Dan! All Soul Dan!"

At the 03 military base.

Lucas's other clone was furious.

This time, he had a total of nine clones descended on the deep blue planet.

One of the clones had been killed by the Yin Jiang for leading Fang Yue and the others to the ruins. Fang Yue saw through the conspiracy.

As for the second clone, it was on the battleship that he wanted to besiege and kill Fang Yue, but Fang Yue was poisoned to death by Fang Yue with a Rakshadan without even seeing the figure.

Losing two avatars one after another was a heavy blow to Lucas, because every avatar could not be refined by refining.

In this process, you still need to temper your soul and blend into the clone, and then after almost three to five years of tempering, you can truly command like an arm, without the slightest gap.

In order to make each clone possess not weak combat power, the clone's hands still have various magical weapons, armor, and weapons, all of which are valuable.

Two consecutive losses of avatars made Lucas a pain.

The most important thing is that Lucas' second clone was actually destroyed by others without even seeing Fang Yue's leg hair!

"Grab this Fang Yue for me, who can do it and reward one hundred million stars or equivalent treasures! You have to see people when you live, and you have to see a corpse when you die. Even a cold corpse can be exchanged for 10 million stars. Currency reward!"

Lucas trembled and finally offered a high price reward.

Fang Yueyuan didn't know how many tens of thousands of miles away, at this moment he was already in a desert with no one.

"Fang Yue, are you reliable? It's a good idea to return to the military base in City 009? Why did you get into a desert that is even Saharan than Sahara! I really want to be like you Cousin and feel shame!"

Li Tiezhu's face was full of contempt. He looked at Fang Yue and drew his middle finger.

Fang Yue was also stunned, his fingers swiping among the yellow sand on the ground.

Calculating whether there is really a problem with the location of their teleportation, they just escaped from the ruins, and in order not to be chased by Lucas, they established a directional teleportation array, wanting to temporarily return to the 009 military. In the base.

However, reality is not the same as their imagination. The destination of the transmission is reached. But there is not even a small amount of people, and it is not the military base in the city 009 as imagined.

### **Chapter 529: Barren desert**

"Where is this? How do I feel that this place is not suitable for human survival?"

Yin Chuanming also muttered in a low voice.

He looked at the blazing red sun in the sky, and the light projected from it was quite dazzling.

The air in this desert is almost distorted, and there is no trace of moisture in it.

The temperature here is extremely high, almost eighty to ninety degrees Celsius. Ordinary human beings simply cannot stand here.

"Let me inquire about optical brain. Other people's things on this deep blue planet are not good, but optical brain is very useful. As long as there is optical brain, we can locate our position at any time!"

Sima smiled and said, beeping, inputting information constantly on a white optical brain on his arm!

In Sima Xiao's light brain, a three-dimensional map appeared.

There is no place where the desert is located.

"I rub, Fang Yue, where did you send us? Obviously, it is beyond the range of the deep blue planet!"

Sima smiled and held his forehead with a helpless expression.

Originally, he felt that he was already unreliable, but he didn't expect that Fang Yue was actually even worse than him.

Fang Yue's face was solemn, and he was not affected by the emotions of Sima Xiao and Li Tiezhu. He looked into the distance, and a hint of signs rose in his heart.

"I understand. This desert belongs to the part of the deep blue planet that was broken out in the past. It is a coincidence that we were transported to this place! It has its own separate magnetic force, which can affect the formations and other magnetic fields. Such changes!"

Fang Yue spoke out his thoughts.

As laymen, Sima Xiao and Li Tiezhu could not understand a word.

"speak English!"

Sima smiled and rolled his eyes.

"That is to say, we were teleported to the Deep Blue Planet, a separate piece of space debris. More precisely, we are now lost!"

Fang Yue finished.

Sima smiled and rolled his eyes.

"Then you are highly accomplished in formation and space? You can even travel through space! Hurry up, send everyone back! If you can't return to the dark blue planet, return to the mysterious yellow world!"

Sima laughed a little carelessly, and accidentally revealed Fang Yue's hole cards.

Li Tiezhu didn't even know what this mysterious yellow world was referring to.

But the purple-clothed youth of the Jiang family and the two brothers and sisters of the Yinchuan family were all surprised.

"What? Fang Yue, do you have a way to go back?"

Yin Chuanxue's face was slightly startled, this is simply impossible, the black trial, in the mysterious yellow world, has been passed down since ancient times, and it has already been opened for a while.

Every time the black trial is opened, only a very small number of people can get the approval of heaven, and then return to the mysterious yellow world.

No one has ever been able to return between the two worlds, even if left in the world of black trials, even if they are powerful as the saints of the upper levels of the teachings, they are powerless and powerless. The person leads back smoothly.

Fang Yue stared at Sima with a smile.

Sima Xiao hurriedly covered his mouth. He covered up his mouth by mistake. This time he finally realized that he had said the wrong thing. Although they had a good relationship with Yin Chuanxue and Yin Chuanming brother and sister.

But it's not good enough, you can reveal such a secret, not to mention, there is a disciple of the Jiang family next to it!

Immediately, Fang Yue admitted generously: "Yes, I have an ancient teleportation formation in my hand. It needs to be opened with a very high-quality fairy stone, and it can indeed travel back and forth between different worlds!"

Fang Yue understood that no one would listen to his sophistry now.

After all, his previous record was too obvious.

In Baili Secret Realm, others are cautious, not knowing how much manpower, material resources, and personal connections have been spent to get in. He was the only one who wandered around, and unexpectedly appeared in the Baili Secret Realm by himself.

But he deliberately added a need for a fairy stone to the prerequisites for opening the teleportation array, which is actually half true.

His Yin-Yang Teleportation Formation, without his True Qi support, would indeed require Immortal Stone to be able to fully open.

Because in the Xuanhuang world, there hasn't been a fairy Scripture spread.

Fang Yue's words made the two brothers and sisters of the Yinchuan family realize the horror of Fang Yue.

Being able to travel through different worlds at will is to be able to obtain resources that others dream of.

Although there is a certain price to pay, if it is replaced by any supreme family, such a price is not unbearable.

The immortal stone is only, if you achieve the realm of the great sage, you can communicate between the immortal and common worlds, draw the meager fairy qi from the void, condense the immortal stone, and even use it for cultivation!

In the depths of time and space of the supreme families, nothing else.

But there are still three or five big saint-level powerhouses!

There are hill-like fairy stones in their treasure house, which can be used as an opening at the critical moment. Use the ultimate move!

The purple-clothed boy of the Jiang family also realized Fang Yue's value.

He took the initiative to speak, "My name is Jiang Bufan! I am a core disciple of the Jiang family! Don't worry, Brother Fang Yue, I will never pass on your secret! If you violate it, you will be struck by lightning!"

Jiang Bufan is very smart.

In this team, he alone is an outsider!

This secret is of great significance. Even Fang Yue can't bear it even if it is passed on by Wan Xian!

Therefore, if he simply swears, express his attitude.

For practitioners, the vow is an extremely important commitment. If you violate it, you will encounter backlash from the demons during cultivation.

Jiang Bufan said.

Fang Yue's eyes immediately narrowed with a smile. He likes people who are interesting.

"Brother Jiang, why be polite! The Jiang family is the supreme family in the Xuanhuang world, with a reputation, and the character of the Jiang family, I am naturally very new!"

Fang Yue took Jiang Bufan's hand and deliberately pulled in the distance.

Then he took out a small book from his arms, squinted his eyes, and glanced down line by line.

"Well, there is no Jiang family! It's great!"

Fang Yue exclaimed.

Yin Chuanxue immediately turned her head over curiously, "What is written in this little book!"

"These are the lists of people and forces I robbed, offended! If the relationship is not good, I always have to write them down, otherwise, even if they are dead, I don't know who killed them. No sense of accomplishment!"

As he spoke, Fang Yue added an asterisk to the back of Fang's house. The more stars, the deeper the hatred!

Yin Chuanxue's eyes widened, looking at the dense group of names, she couldn't see her head at a glance.

Involuntarily, she swallowed a mouthful of saliva.

How could Fang Yue get into trouble, he actually offended so many forces. Among them, some forces, even Yin Chuanxue had never heard their names.

"Huh, cousin still likes to hold grudges so much!"

Li Tiezhu groaned beside him.

Fang Yue immediately stared.

"Tie Zhu! You have itchy skin for two days, have you been so nonsense, do you want me to be a cousin, let me teach you a lesson!"

Li Tiezhu immediately covered his mouth, his eyes widened.

He finally succumbed to the lewd might of Fang Yue Great Demon King.

Jiang Bufan is also holding his forehead, this buddy is indeed a famous \*\*\*\* in the entire Xuanhuang world.

This character... is really unique! "Okay, okay, I've been biased by you! Now, let's study what should I be able to leave this desert! Anyway, my yin and yang formation method is invalid here. There is a strong magnetic field distortion in this place. ! Now we are still thinking about how to leave here

A ghost place! "

Fang Yue hit a haha, and the conversation turned.

Fell to a very critical place.

Even the yin and yang formations in the fairy books are not a hundred-thinking lark.

Who is it that deceived this!

It's you! It's you! It's you!

Everyone looked at him with a very resentful look.

On the horizon, an old man riding a green bull slowly appeared in their field of vision.

"The green cow turns into a Hu! I'm out for a trip! I'll rub, this won't be the old man who met the pre-Qin era!"

Sima smiled in surprise, his mouth widened and he looked at the figure gradually coming in the distance.

"Dogdan! I went west out of Hangu Pass, Zixia three thousand miles away! This old man is clearly a cattle herd, where is the slightest boldness of Laozi!"

Fang Yue banged on the back of Sima Xiao's head.

Sima laughed, hey, pain, and only then eased.

Sure enough, this old man is a very ordinary old man. Although there are also cultivation bases close to the body, that is, the cultivation base of the innate realm is topped! As for the blue ox under his crotch, it is extraordinary, it is a powerful demon ox, once an adult is a spirit beast of the innate realm!

The old man passed by.

Stopped by Fang Yue.

"Old man walk slowly! Stay!"

"Ouch!"

The old man fell off the green bull.

I can't get up with my knees!

"Come here! Come! I smashed my old waist to death!"

The old man was rolling in the desert.

Fang Yuefa looked at him and rubbed his eyes.

"Let me wipe, why does this scene look so familiar?"

Fang Yue couldn't help but explode.

Li Tiezhu laughed loudly next to him: "Cousin, this old man bumping into porcelain actually touched you!"

"Old man, it is wrong for you to do this!"

Fang Yue squinted his eyes, feeling this was very interesting. It turned out that there are people who touch porcelain in this world. It is really a familiar formula and a familiar taste.

"I didn't even touch you just now and you fell down! In this case, even if you really fall out, I don't have any responsibility! Touching porcelain in the air, although it is the legendary \*\*\*\* of Porcelain. Skills, but the display of this magical skill also has its own conditions and requirements!"

Fang Yue said with a serious expression to the old man.

The old man stared, his mouth grew big.

Unexpectedly, he finally came out to commit the crime and met a fellow man.

"You are not professional, look at me!"

Fang Yue slammed the blue bull sideways and stepped, and his body immediately came into close contact with the sand.

Then Fang Yue took out a piece of cinnabar from his pocket, and touched it on his leg.

With two beeps, he spit out some saliva, melted the cinnabar, dilute it, and filled his eyes with vermilion. It's like blood that just shed.

The old man was stunned.

This professional method, this skilled technique, this portable prop!

It's really a role model for my generation! "Oh, my little brother! I'm really sorry! I didn't expect that I had no eyes on the old man, so I actually chose the little friend as the object of touching porcelain! However, we can't know each other! This time the incident is revealed. How is it! From now on, we will not change the green hills, the green water will flow, the rivers and lakes goodbye!

"

The old man's words are also set.

He turned on the cow and snapped his palms on the cow's ass.

With a moo of the green cow, he stepped on the cloud and was about to leave!

Fang Yue said quickly, "Senior, go slowly! The junior just wants to ask the next for the next generation!" But the old man's movements kept moving away!

### **Chapter 530: Old liar**

Fang Yue looked at the old man disappearing among the clouds and couldn't help but beat his chest and feet, and said annoyedly: "Oh! If you want to spend a drop of the magic liquid to ask the way down, you can't do it! Why am I so useless! "

"Gah? Divine Demon Liquid?"

The old man rode a cow, several times faster than he had just left, and galloped home!

He slammed the brakes in front of Fang Yue, oh no, he stopped the blue bull under his crotch.

A pair of eyes opened wide, looking at Fang Yue and said, "Little brother, what were you talking about just now? Make it clear! Are you going to ask me the way to use a drop of magic liquid?"

"Hey, since the senior Xianyun Yehe is unwilling to take care of the affairs of secular people such as me, the juniors are not willing to embarrass seniors, so please leave seniors!"

Fang Yue looked regretful, this time it was the old man's turn to get hairy. The sacred and devil liquid is so precious, legends have evolved from the corpses of the sacred and devil. Among them, contains the majestic breath of life, can live long, can prolong life, and inside, there are innate runes branded in the blood of the legendary gods and demons. Any one is infinitely valuable, and there is nothing to do with it.

Comparable!

The old man jealous.

"Little brother, I didn't mean that. I'm an old man. What I like to deal with is this kind of red dust. The cause of today can evolve into the fruit of tomorrow. This cycle of causality is unsatisfactory. I am willing to plant good causes. Leave it to the future to condense good fruits!"

The old man's appearance was grotesque.

But what he said was really a bit of Zen and Buddhism.

"A gentleman is not difficult for others! As a junior, how can I be embarrassed by the elderly! I should ask someone else on my way! This drop of magical fluid, I guess your elderly, will not be in the eyes!"  
Fang Yue still decline.

This made the old man immediately shy and posted.

"This desert is an endless desert, and no one can get out of it! But it is dotted with 36 large oases, 108 small oasis, and one hundred and eight thousand small forests. , Embellished with vitality in the deadly and dull desert!

In the desert, there are terrifying sand beasts. Some of them are in groups, covering the sky and the sun. Once they appear, they are like natural disasters and cannot be resisted. Some have extremely strong individual strength, with no less than human thinking and wisdom! "

Before Fang Yue could continue to ask, the old man rushed back to Fang Yue's question.

That's a drop of magic liquid, a few words, how can such a good deal be given to others?

"But when I measure the terrain here, I feel that this huge desert is a field on its own. It takes the sky and the earth as the curtain, and then uses the oasis as the front eye. It seems that under this land, what great treasure is brewing!"

Fang Yue's expression was serious. Look at the old man.

Just asking for directions, Fang Yue didn't need to spend a drop of magic liquid as a price!

But if you can find out the reason why this endless desert can't be teleported, then the representative of this drop of magic liquid is worth it.

"Field?!"

The laughing expression on the old man's face gradually receded, and he became solemn and serious.

"It turns out that Xiaoyou is a Array Mage! It's really disrespectful!"

The old man spoke with a serious face.

His hands twitched, showing a respectful expression.

Fang Yue was surprised. Although the array mage was rare, he wouldn't be treated like this!

"Little friends do not know that the reason why this endless desert has become what it is today is that this endless desert itself is an ancient mining area! The underground, rich in various old mines, may produce peerless magical materials, or Contains ancient elixir! These old mines are self-contained magnetic fields, interlaced and chaotic! This makes this endless desert difficult to transport! However, the position of the mages in this endless desert is even more detached. Because they can judge the mountains and the terrain, find some new mines, rich ore , And even the Master Formation Master can fix the dragon veins of mountains and rivers, condense the sky

The origin of the earth, the stone king and the stone \*\*\*\* are found, and immortal scriptures and immortal materials are drawn from them, which are of infinite value! "

When the old man said so, Fang Yue finally understood what kind of place it was.

There is a record in some ancient books that the heaven and the earth are pitying, the world is out of mines, the magnetism is disordered, and it eventually becomes a sandbank!

This kind of terrain is a rare treasure for some big forces.

But for mortals living in such a place, it is a disaster!

There are fairy demons in the mine, and underground ghosts and gods are pregnant.

When mining, some weird things often happen, or there are ghosts or curses. If encountered, even if it is some celebrities, Mighty Neng can't escape bad luck. Some turn into blood and die immediately, and some are doomed, and eventually the old age is desolate and encounters ominous.

"Then how do I get to the nearest oasis?"

Fang Yue spoke to the old man.

The old man took out an old map. It is stamped with the distribution map of all the oasis in the desert.

This oasis distribution map is indeed very much like an array map. Each oasis is an array eye, and the infinite monks in it provide a steady flow of energy for the array!

The more Fang Yue looked at this map, the more he felt the chilly wind on his back spine.

This terrain is too weird!

Neither immortal nor devil, both righteous and evil. The closer you look, the more we can detect the weirdness. "Where is this? Among the rolling sand dunes, why is there still a mountain range stretching! At first glance, it looks like a real dragon is lying around, but if you look closely, you can see that this is a real dragon. Corpse! This is a terrible place, extremely ominous! And this one, with seven sand dunes

Cheng Beidou can attract the stars. But in the center of the Big Dipper, why does a lone star appear! This is the lone star of the evil god, destined to give birth to big evil spirits, big evil spirits, between the heaven and the earth, the endless evil air will converge towards that oasis! The true demons cannot be found. Once they appear, no one can remove them.

Suppress. "

Fang Yue looked more and more evil, and even had an urge to run away with his feet.

He was able to sense that this world was enveloped by a heavy and depressive aura, and all the layouts were not natural, but someone was secretly pushing the flames to achieve his own secret.

There was a shrewd light in the old man's cloudy eyes.

"It's you! A standard miner! Come here! I found a third-level miner! Hurry up and catch someone! Don't let him run away!"

The old man yelled.

In a moment, several people descended from the sky, all of them were steel armor and silver armor, and everyone's cultivation was above the rotation realm! They are just pawns, as for the team leader who is late to come, he is a great power of the sixth layer of Yin and Yang realm!

"Old Stone Mill, where are the third-level mine slaves you mentioned? These days, the third-level mine slaves are not easy to find, and they need to have a certain level of knowledge and level in the game!"

The power of the Yin-Yang realm seemed to be quite familiar with this shameless old man.

When he spoke, it was the tone of an old acquaintance!

The old man patted his dry chest and said, "I have been a trafficker for many years, and I may not be able to fight when it comes to fights, but when it comes to scams and abductions, there are a few in this endless desert that will be my opponents!"

The old man grinned and smiled confidently!

Fang Yue simply wanted to take out the small iron, a pot bottom slapped him to death.

What about the good guide you just said?

How come you become a trafficker again in a blink of an eye!

And if you want to sell them all as mine slaves, how does it feel a bit similar to his style?

"Boy, do you know how to make a formation?"

The powerful man in the Yin and Yang realm looked at Fang Yue with a pair of majestic eyes.

Fang Yue's head was shaking like a rattle.

"No, no! I only eat and drink Lazarus!"

Fang Yue is so cute, pretending to be silly and sweet, he is still reluctant to fight and fight if he can't conflict with this strong man in the Yin and Yang realm.

The old stone mill grinned again, revealing his big bright yellow teeth.

"Hey hey! Boy, do you really think that this trick of yours can escape the eyes of my law? When you were talking about it just now, I was able to record all your every move, every word and deed! "

The old stone mill took out a dirty picture crystal, the picture in it was not very clear.

On the picture of this photo crystal, there is occasionally a snowflake.

This is definitely something that is old and can be collected in a museum!

Even so, from the silhouette of the figure, it can be barely distinguished that the two parties in the conversation are Fang Yue and Old Shimo!

Fang Yue's talk was recorded, and his voice was clear and loud.

When the general saw this, he couldn't help but nodded slightly: "Yes, yes, you can see so many mysteries in this desert at a glance, it is difficult for ordinary beginners to do it!"

The general's voice fell, and a huge stone pillar surrounded by twelve groups of people broke ground in an instant!

Fang Yue was trapped in it and became a prisoner in a cage!

Sima Xiao's few people are very unrighteous, and they don't know where they fled!

"These bastards!"

Fang Yue simply didn't have the energy to complain about his poor friendship.

Not to mention Sima Xiao, even his cousin Li Tiezhu, who is related to him by blood, has run out of sight.

They knew that Fang Yue would be able to escape smoothly!

Facts have proved that even the general leader-level powerhouse has nothing to do with Fang Yue, let alone the sixth-tier general of the Yin-Yang realm!

Fang Yue wanted to resist, but after a little pondering, he withdrew his thoughts.

He felt that the magnetic field problem in this place should be understood from the perspective of minerals.

Being a miner may be a good choice!

"I surrender!"

Fang Yue raised his hand, simply and neatly!

Then, Fang Yue watched the old stone mill and the general conduct a shameless human trafficker transaction.

The general gave Old Stone Mill a storage bag, and the two were cleaned up.

Fang Yue was escorted by the general to a mine three hundred kilometers away. Then towards his ass, a big foot kicked him in!

"Turn in five valuable ore every day, otherwise, be careful of whipping at night!"

This was the last voice Fang Yue heard before the mine was closed.

Then, there was a bang, and the mine closed. No more light streaming in!

"It's so dark!"

After rubbing it, a red flame appeared on Fang Yue's finger!

He patted the footprints on his butt, and then looked at the environment around the mine.

"Damn!"

Fang Yue raised his foot, and there was a skeleton under his feet that had no flesh and blood!

He didn't die normally, there was still black smoke in his bones.

This is the death of being invaded by demonic energy. The death is quite miserable! This mine is quite dangerous.
