

## God of Life 551

### Chapter 551: Mountain demon

"no problem!"

Fang Yue readily agreed that he was acting as an undercover agent. He didn't want to be a little guy, unknown. If you want to get in touch with the seniors of the blood martial clan, you must show your talents and give the other party a chance to promote yourself!

In fact, these groups that invaded the world of Xuanhuang are not in harmony with each other.

Like Qianyue Mountain, it is a treasured land for cultivation. The forcible occupation by the blood martial tribe has caused a lot of dissatisfaction among other races!

Starlight and moonlight, day and night pure body, nourish the soul.

If things go on like this, batches of great masters can be created. Potential talent, no one can match!

Ocean World began to covet this mountain, and it was the turn of the world rankings, they were higher than the blood world, so they didn't put the blood martial clan in their hearts.

Fang Yue led people down the mountain, and sure enough, under the foot of the mountain, there was already an army of crabs from the Ocean World of about 500 people stationed in it.

Among them, there are nine masters at the heaven and earth realm level, and the rest are at the innate realm level!

"Do these people dare to come to my Qianyue Mountain to show off their prestige? Seeing me alone can kill them cleanly!"

Zhang Kun showed a look of disdain!

I thought how strong these crabs are.

The opponent of the same rank was not regarded by Zhang Kun at all. He was a martial arts master, and his blood was awakened. Even the ninth level master of the general world realm, he dared to collide twice!

"Zhang Kun, don't be impulsive! Marching and fighting, pay attention to knowing yourself and the enemy, a hundred battles are not dead! You must investigate the opponent's real hole cards before you can start! These ocean world men and horses are not killed. Sending this person is not a power, but a death! "

Fang Yue's eyes rolled, and a thousand thoughts surged in his mind.

For the first time he led troops out to fight, a heavy sense of responsibility enveloped his heart. This time, he was not fighting alone.

It was more than a hundred people fighting with him, and when he was really in danger, he could easily run away alone, but the others would be wiped out, and there would be no bones left!

"Fang Yue, you are too careful! A group of shrimp soldiers and crabs, what's so careful!"

Zhang Kun snorted coldly, somewhat dissatisfied.

Fang Yue smiled slightly and did not answer.

Fang Yue took out an altar, then slaughtered cattle and sheep, and sacrificed directly.

Then above the altar. A fluttering wisp of smoke emerged.

This is a mountain ghost on a nearby hill. It is a lonely wild ghost. After death, he has nowhere to go. Then he went to a small hill to occupy the mountain as the king and set up a temple to practice.

"Little Hanyuepo Mountain Ghost!"

A mountain ghost slipped out of the altar, and he said respectfully to Fang Yue.

"Let me investigate how many marine creatures there are around here!"

Fang Yue gave an order.

The mountain ghost closed its eyes slightly, and its thoughts were connected to the surrounding terrain.

Mountain ghost fox spirits are not that powerful, but because of their special status, they have some special methods.

In a sense, the mountain ghost is also a little \*\*\*\* canonized by the heavens.

They have a karma position and possess some supernatural powers that mortals cannot possess.

"Report your lord, there are a total of one hundred and eighty thousand marine creatures here, and there is an illusion ahead! It seems that there is only an army of five hundred marine creatures, but in fact, the mustard seed is a realm of its own, but a space. Debris evolved and contained one hundred and eight thousand marine life!"

Mountain ghost report truthfully.

Fang Yue's heart suddenly became awe-inspiring.

Zhang Kun widened his eyes and exclaimed, "This is impossible!"

The one hundred and eight thousand marine creatures are definitely a large army. A squad of hundreds of people like them, even the elites, if they are trapped, they will all be horrible. "How impossible! The mountain \*\*\*\* will definitely not lie! He is in charge of the population situation of this place, and the investigation is a fairy spell, which is more accurate than our spiritual exploration! Hurry up, report the situation here! So many oceans Biology is no longer something we can contend with! I

It can even be guessed that this sea creature has laid out a net of heaven and earth, waiting for us to enter the urn! "

Fang Yue spoke very decisively!

Zhang Kun was speechless.

Fang Yue's information is uploaded.

Soon, the strong man in the rotation realm who had just assigned the task arrived, wearing a silver armor, carrying a battle axe, holding a spear, and a serious expression on his face.

As soon as he appeared, a pair of eyes fell on Fang Yue, looking at him!

"Are you Fang Yue who discovered the marine life conspiracy?"

The strong man in the rotation realm was quite rude, with a hint of judgment in his tone.

In his eyes, there are strands of thunder brilliance constantly flickering.

What he understood was the Avenue of Thunder, and it was quite profound.

Thunder represents the trial, upright and upright, any lie will have nowhere to hide under the scrutiny of the way of Thunder.

It's a pity that Fang Yue has a deeper understanding of the level of Thunder Avenue than him, and can completely conceal his secrets!

"Yes, I'm Fang Yue who discovered the conspiracy of the creatures in the ocean world! Please make up your next plan!"

The strong man in the cycle suddenly smiled.

"Yes, yes, it is an individual talent. Under the deterrence of my judgment eye, you can uphold the justice of your heart. This proves that your martial arts will be extremely strong, and you will definitely have a lot of achievements in the future!" The powerhouse in the rotation realm said: "This time, you discovered that if it is verified to be true, the above will definitely give you a generous reward! The ocean world is really mean. They are entrenched at the foot of my Qianyue Mountain and lured my disciples of the blood martial clan into it. Then they invaded the army and said

Our blood martial people attacked them first. In this case, even if the people of other worlds want to help our blood martial people, they will not stand up in name! "

This powerful blood martial artist in the rotation realm is not as full of ideas as Zhang Kun on how to improve martial arts skills.

He has his own thinking and is quite smart.

"My name is Zhao Qian! I am an elder of this blood martial clan! Fang Yue, tell me your thoughts, how should the conspiracy facing this sea creature be exposed!"

Zhao Qian introduced himself and revealed his identity, which was a recognition of Fang Yue.

He asked Fang Yue, not because he had no opinion, but because he wanted to test Fang Yue, to see if he did not have the wisdom to become the leader of the blood martial clan.

In fact, there is no shortage of strong people in the blood martial clan, but there is a lack of wise people.

The vast majority of members of the blood martial clan are martial idiots, martial lunatics.

What I ponder every day is how to defeat the enemy, study the subtle martial arts, and improve the blood.

They are not enthusiastic about power, they do whatever they are told to do!

This has also led to the overall combat power of the blood martial clan being extremely powerful, but it is lacking in development.

Armed force is only one aspect of an ethnic group's prosperity, and internal affairs are also an element that cannot be ignored.

With force and no internal affairs, such an ethnic group will collapse sooner or later. "Actually, these marine creatures are entrenched here. There are 100,000 horses and they need to eat, drink and Lhasa every day. The resources they consume are an astonishing number. They can't be carried with them, and they will definitely be continuously supplied to them. Coming in! I think it's only necessary to intercept them

With the supply of supplies and the solid walls and clear fields, they can get out of the ambush by themselves! "

Fang Yue's eyes rolled, and the historical knowledge he had learned on the earth overflowed.

There are countless war cases in China's history, and every war case is a classic.

After taking a little bit of the wisdom from it, and then carrying it to the war before him, he can easily find a way to deal with these marine creatures! "Strong walls and clear fields, what a solid wall and clear fields! Haha, your wisdom is extraordinary. Now I give you the authority to mobilize five hundred soldiers. This task is done by you! These five hundred soldiers can be at the level of heaven and earth, or they can be Innate level! If it succeeds, I will definitely not share

Report your credit badly, and if you fail, I won't say the ending, you know! "

"Yes, the subordinate understands!"

When Fang Yue took the order, he immediately realized that this was a fat man.

If the supply of one hundred and eight thousand marine organisms is successful, what a resource is it!

Among them, the level of resources is at least the level of the innate realm, and there will even be special resources for the powerful rotation realm and even higher levels!

Zhao Gan nodded and then left.

He was testing Fang Yue's wisdom and ability, and naturally he would not give him the slightest help.

Fang Yue didn't care either. If this Zhao Qian really gave him advice, he would feel like he was at a loss!

"Fang Yue, how many people do you need, I will help you convene!"

Zhang Kun finally understood that Fang Yue's wisdom in warfare was far from what he could match.

But from Fang Yue, he can learn a lot of wisdom.

"This kind of thing is crowded with people, but it gets in the way. I think this action requires only the three of us to take action!"

Fang Yue is very decisive, he has already made a decision in his heart!

He doesn't need other people to participate, and he can intercept all the goods on his own.

As soon as he makes a move, he directly has the strength comparable to the power of the rotation realm, and after breaking through the world realm, he has more methods, even if he encounters the power of the Yin and Yang realm, he can be hard without using any hole cards. Two regrets, escape!

However, it might be too conspicuous to do so, and it will attract investigation.

The three men shot just right, they could testify to each other, and they could kidnap Zhang Kun tightly on his chariot.

Fang Yue saw that Zhang Kun is definitely not as simple as it seems, he has a great background and a great identity!

Otherwise, his bloodline cannot be evolved so simply, and Fang Yue recently discovered that Zhang Kun has the intention to continue to evolve. It seems that he can break through to the level of the Profound Profound bloodline anytime and anywhere!

Such means, such strength.

No one would believe that he had no background or background.

"Okay! The three people acted as I wanted. This is a great opportunity for me to practice martial arts and hone myself!"

Zhang Kun breathed fire in his eyes and was eager to try. He was very excited and hoped to be tempered in the battle.

In ordinary battles, he can't kill people. They are all from the same race.

Life and death is different from this kind of competition.

It's a matter of thinking about life and death.

Life hangs by a thread, then break through!

"I can investigate this supply point a little bit!"

Fang Yue closed his eyes, his spiritual consciousness spread. The grass blowing and flying within a radius of a hundred miles all came to mind.

**Chapter 552: Broken needle**

Breaking through to the level of the heaven and earth realm, his soul has been improved in quality and quantity, combined with the will of the heavens, it is indeed able to explore the Quartet. Insight into all changes around the body!

"To the northeast, there is a group of marine creatures approaching for 500 kilometers! This is a small group, there are dozens of people in total, they disguised themselves and became merchants, escorting twenty large boxes of goods!"

Fang Yue muttered to himself, but confided the detailed information of marine life.

Zhang Kun was nothing, he thought Fang Yue was communicating with the mountain gods and obtaining information.

Yin Chuanxue was shocked immediately, not closing her mouth!

Yin Chuanxue was born in the supreme family and is naturally very familiar with these methods!

She was able to perceive the change of will in Fang Yue's body. From the previous soul breath, she gradually turned into a super strong air machine mixed with a powerful will of heaven and earth.

The will of heaven.

Yin Chuanxue immediately reacted, and the source of this breath was also recorded in the Yin Chuan family.

It is even said that there are a lot of Heavenly Dao Stones in the Yinchuan family, which were obtained from black trials by geniuses in the past!

It's just that this kind of precious thing is definitely not in Yinchuanxue's body. Only the disciple with the highest status among the Yinchuan family can come into contact with it, and have the privilege of refining it to strengthen his soul will.

There was a stormy sea in Yin Chuanxue's heart. She thought she had already overestimated Fang Yue, but now it seems that her estimation of Fang Yue is still far from enough!

"This is the place!"

Fang Yue led Yin Chuanxue and Zhang Kun to the bottom of an old tree, which was the width of a few people.

On the old tree, there is a nest of crows.

This place is the only way for marine life to transport supplies!

Horses and carts reel.

Fang Yue and the others waited for a while, and soon a team of business travelers came slowly from afar.

The dust is full, and the speed of this team is not slow.

Looking at Fang Yue, he immediately saw one of the dark-faced middle-aged men walking in the forefront on a horse. His breath was long and his eyes seemed to be idle. In fact, there was divine light condensed in it. Observe all directions, always be vigilant, and beware of other ambushes!

"This is the team, ready to do it!"

Fang Yue didn't know when he took out a longbow. The bowstring of the longbow was made of dragon tendons. The bowstring was tight and swayed suddenly. The bow and arrow shot out had enough power to penetrate the clouds and break the moon!

Yin Chuanxue had nine silver needles in his palm, the silver needles were poisoned, and the green light was faint.

As a disciple of the aristocratic family, one must not only be proficient in one type of weapon. You must learn a little bit of 18 martial arts, not to mention how exquisite, but at the very least, you will not suffer too much from distant and close attacks!

The carriage went in front of the three.

Stop suddenly!

Hush rate!

Before Fang Yue and others could take action, the middle-aged man's eyes froze, and he turned his palm into a knife, and slashed towards Fang Yue!

"No, it's exposed!"

Fang Yue's expression did not change, and the bowstring moved, and a sharp arrow burst out of the sky, flying towards the middle-aged man's heart!

There was a bang.

The arrow exploded in the void!

In the business travel team, there is actually a hidden skill repair, who is good at bursting.

The jewel scepter in his hand was swung slightly, and the arrows in the air burst into pieces, leaving no bones!

This time, marine life has already lost its blood.

Even the transport team is equipped with masters!

Whoosh whoosh!

The silver needle pierced through the air, sweeping to the vital parts of those people, the throat, the center of the eyebrows, and the heart, all becoming the place to be attacked.

"Wall of air!"

Na Shuxiu waved the staff again.

A thick wall of air appeared, trying to block the silver needle.

As a result, Silver Needle ignored the air wall, broke the face a little, and passed directly, still nailing the three alive and exploding!

"Huh! Little bugs, dare to shoot at me?"

Yin Chuanxue's mouth curled up with a smug smile.

Those sea creatures are all face changed.

"Spell-Breaking Needle, you can ignore all levels of magical defense below the rotation realm. Who are you, how can you have such a precious magical weapon!"

The leader roared loudly, his face full of uncertainty.

Dharma-breaking needles are very precious and only appear in the hands of some masters of various races or disciples with high status.

What they worry about is not the needle, but there is an ambush behind them!

Haven't waited for their worries.

Fang Yue had already activated the bowstring one after another.

Shooting nine arrows, each arrow turned into a dragon and flew, groaning in the air, stirring up the wind and rain, and going against the chaos!

The nine dragons swooped down at the dark-faced man.

The big man roared: "Moo!"

Shocked everywhere, shocked the world! Nine dragons fell one after another, bursting into the air!

"The six-character mantra of Buddhism! You are not an ordinary marine creature!"

Fang Yue was shocked again and again, thinking this was a task at hand. Unexpectedly, it is also a hidden master in the marine life transportation team.

Not to mention the art of cultivating the air avenue, just this dark-faced man is definitely not a good crop!

The six-character mantra of Buddhism represents the power that bursts out when the world first opened. In every word there is great power, great terror, and great strength!

The nine true dragons that Fang Yue shot just now were not without care, but a sophisticated martial arts, shooting nine arrows!

This is the martial arts inherited from the descendants of the great sun-shooting \*\*\*\* in the legend. Every arrow can shoot down a sun and explode a star.

Of course, it can't exert such a terrifying power in Fang Yue's hands, but it is enough to sweep all the characters below the seventh level of the world.

And these nine arrows came out with greater power, but in the end they did not pose the slightest threat to the dark-faced man.

This is enough to prove the origin of this big man!

At this time, Zhang Kun had already culled and killed a marine creature on the eighth floor of the Heaven and Earth Realm together!

The two sides actually fought a match, Zhang Kun even used his most proud sword technique, a piece of sword light and sword shadows continued to fall, but there was no way to hurt the other's life.

Yin Chuanxue also restrained the three strong men of the Ocean Race, but because she was present with Zhang Kun, she was worried that her identity would be exposed, so she was restrained and did not exert her full strength.

Fang Yue confronted the strong men of other ocean races.

He is trying to restrain his cultivation and try his best to be ordinary.

Otherwise, no matter what the origin and background of these marine creatures, all you need is a movement of thoughts, condensing formations, violent thunder blasting, all can be killed instantly!

"I didn't expect that there would be such a master in the Blood Martial Clan, who could fight me right after entering the level of the world realm!"

The big dark-faced man spoke without urgency. As if he were an eminent monk with Taoism, Zhizhu was in his hands, and every word had a deep Zen charm.

Fang Yue was not anxious to make a move, but was fighting against this dark-faced man.

Since Fang Yue started contacting the blood martial clan, he has deeply felt the world of black and yellow, or that his own knowledge of martial arts is still too shallow!

If martial arts were a huge iceberg, what he saw was at best the tip of the iceberg.

Especially this dark-faced big man, his own strength is not so superb, only the fourth level of the heaven and earth realm, but his real combat power has reached the eighth, even the ninth level of the world, rotation Under the circumstances, few people can easily kill him!

"The six-character mantra of Buddhism you comprehend is widely spread, but ordinary people are far from able to reach your level of exquisiteness! My nine arrows shooting the sun should be a more advanced and more exquisite martial arts. After learning, it turned out to be more profound and thick without your mantra!"

Fang Yue calmly discussed martial arts, hoping to find his own weakness in martial arts!

This is more important to his personal development than simply intercepting a batch of goods.

As for these people will escape to heaven, Fang Yue is not worried.

Although Zhao Qian honed and tested him, is he really assured that such an important task will let Fang Yue do it himself?

In Fang Yue's induction, Zhao Gan had been waiting in secret. Once Fang Yue and the others had an accident, he would immediately take action to defeat all marine creatures and complete Fang Yue's plan!

"Even when fighting, I feel martial arts and learn from the enemy's strengths. This Fang Yue... is really a good seed of my blood martial clan!"

Zhao Gan was watching in secret. Although he didn't show up, he couldn't escape the prying eyes of his soul in every move on the scene!

Fang Yue didn't do his job properly and asked about martial arts, which didn't make him angry.

Instead, it made him smile, which felt very interesting.

Because this is the clan style of the blood martial clan.

If Fang Yue single-mindedly wanted to perform the task, regardless of other things, it would make Zhao Qian doubt his origin.

"The martial arts is exquisite, not only in the moves, but also in both form and spirit! The combination of moves and mental methods can truly exert its power! Although your nine arrows shooting sun is powerful, it does not have the ancient Houyi God Although nine deaths And the spiritual realm of no regrets!"

The dark-faced middle-aged man was not worried, he was actually pointing Fang Yue.

Because he could see that Zhang Kun did his best, and both Fang Yue and Yin Chuanxue had left behind!

Once desperately, he might not be Fang Yue and Yin Chuanxue's opponent at all.

Although Fang Yue's understanding of martial arts was not meticulous enough, he could vaguely feel that Fang Yue's body seemed to be dormant with a devil. Once he shot it, it was immediately like thunder. He might even have room for resistance. No!

"Martial arts is not only tangible, but also requires gods! This superficial martial arts is essentially the evolution of the law, and Shen Yun is the true meaning of the law! And the profound martial arts, the condensing of emotions, is the condensation of a life experience! The descendants shoot the sun and shake the heavens. , Although nine deaths without regrets!"

Once Fang Yue had an epiphany, he immediately imagined that he was the descendant of shooting the sun.

Pull the bowstring again.

The nine arrows shoot in the sun, and the bowstring is pulled.

The nine black dragons had not yet fired their bows and arrows, they had already spread their teeth and claws, and flew towards the dark-faced middle-aged man!

The sound of dragon chants, rippling endlessly.

With the same strength, the power of the arrow shot again is completely different!

High above the sky, a golden light shines brightly.

Nine Dragons soaring into the sky, lingering and lingering, the middle-aged man was actually entangled by the nine dragon shadows.

The nine dragon shadows are vivid.

A moan of excitement echoed the world!

They have gone beyond the level of their moves, as if they had become creatures!

The black-faced man was so regretful that his intestines were almost blue.

He felt his feet hurt, because he pointed Fang Yue, purely lifting a rock to hit his own foot.

He originally thought that it didn't matter much to talk nonsense at random! There are many people who know the truth, but there are always very few people who can really understand it and apply it to actual combat.

Who would have thought that Fang Yue could not only comprehend the spiritual meaning in martial arts, but could even comprehend something deeper by analogy! Fang Yue suddenly muttered to himself: "There is no form of me, no form of life, no form of life, no form of living beings! If you don't cling to me, you can change into other people with one thought. One thought becomes a Buddha, and the other becomes a Buddha. , One thought is common people, one thought is heaven! As long as I say who I am, I am who!"

### **Chapter 553: Spiritual breakthrough**

"Oops, Fang Yue's level of comprehension is too deep, and he can't follow his own realm! Maybe he will breed demons, lose himself, and sink into hell!"

Barrow felt Fang Yue's soul change. An anxious expression was immediately revealed.

Its deity is still trapped in other worlds, waiting for Fang Yue to learn something and go to rescue. Wan Fangyue himself went astray, lost himself, and died here, then its deity is estimated to be trapped for thousands of years!

This way of the soul is extremely mysterious, and if you turn it a little bit, it is possible to take a fork in the road!

This is why, since ancient times, there have been so few people who have cultivated the way of the soul. Not only because there are not many people with this qualification, but also because many people who have taken this path have killed themselves!

However, Fang Yue soon woke up.

His eyes are clear and straight, without the slightest doubt.

"The Dharma is boundless, and it's all about the laws of the soul! What I have learned is just a little bit of it, and it is far from reaching the level of imitating the moves of the old fairy! This time I shoot the nine arrows to the sun, about Mo is also the descendant of the year. An adult's one-tenth level of artistic conception!"

Fang Yue kept sighing.

Barrow was surprised that his jaw was about to fall off!

"How is it possible! If I read the world, I will be born with endless thoughts, and have infinite ways! This level has trapped countless people to death. Since ancient times, many people who practiced the way of the soul have died. Here!

But not only did you not get into trouble, but the level of your mind rose greatly! This is not scientific at all. If you want to take and reach that crucial step, you must reach the ultimate realm of meditation on the soul level. "Fang Yue shook his head slightly: "I am taking the road of both gods and demons!" Divinity is nature, this vast world contains everything and all beings! And magic is pure self, the origin of nature! No matter that way, you will not fall under the thoughts of others, lose yourself, and think that you are someone else!

The way of the soul is too profound and cannot be explained clearly by words at all! "

Fang Yue explained a little bit, but didn't say more, because it involved some of the content of "Soul Truth"!

Barron also understood the truth. It began to smack it carefully, thoughtfully, and once again slipped back into Fang Yue's body! "You pointed me to know the supreme spirit contained in the move, I can't kill you. Good cause and good effect, evil cause and evil effect, causal cycle, tried and tested! But according to the rules, I will take these twenty large boxes of goods! Before leaving, I will control these nine blue dragons and turn them into eight heavens of your protector.

Dragon, help you wash the scriptures and marrow, and swell your blood! Take another level up on the talents of cultivation base, so that the creatures of the Ocean Race are reluctant to kill you! "

Since Fang Yue's enlightenment, the murderousness in his heart has greatly diminished. He has already begun to realize the cause and effect of heaven.

All dryness is heaven, and all life and death are karma!

It's not that it is not reported, the time has not come.

Following Fang Yue's calm voice, the black-faced middle-aged man was infected and became calm! He looked at Fang Yue, his eyes were clear, he nodded slightly, and said: "Causality is heaven, one peck and one drink are all definite numbers. I practice martial arts, but I don't understand God's will, so my achievements are limited. Although I am a genius, I am far from To the point of enchanting! This time you can have an epiphany, and I can touch

To some heavenly taste! From then on, the strong who first entered the cycle may not be my opponent!  
"

The black-faced middle-aged man has a burly body, like an iron tower. Once he has an epiphany, his soul is also boiling.

He was originally a dragon among people, the proud son of heaven.

Now, go one step further, and even gradually evolve in the direction of the evildoer-level existence!

"What a Cai Jing, what a peerless genius! Originally, I heard that a peerless arrogant appeared among the creatures of the Ocean Race. The level of the heaven and earth realm can easily cross four or five small realms to fight, and the use of moves is superb and superb. . Originally, I thought it was an error,

It's a rumor, I didn't expect that all of this turned out to be true, and even your talent is even more amazing than the legend! "

Zhao Gan stepped out, and suddenly walked in front of Fang Yue. He saw the dark-faced middle-aged man Cai Jing's aura transforming. He didn't stop him, but he admired and praised him upright!

This is the consistent style of the Xuewu clan.

They admire frontal fights, and disdain secret destruction!

Geniuses like Cai Jing are in their eyes.

There is only appreciation but no jealousy in my heart!

In a way, the blood martial clan is more like a Confucian scholar, with boldness and vigor!

It is precisely because of this courage, vigor and bosom, that their clan can prosper and continue to this day!

Cai Jing's transformation was quickly completed, and his temperament was completely different from before. If he was a sharp sword just now, then he is now a lofty and vast grassland.

"Spiritual breakthrough, gratifying!"

Fang Yue also congratulated him from the bottom of his heart, and he was speechless because of Cai Jing's instructions.

Cai Jing also learned some martial arts artistic conceptions from him.

The cause and effect are paid off, and the two are not owed. From then on, Fang Yue has no burden in his heart.

"A genius of the Ocean Race, I still disdain to kill! The goods are left, you go back and tell those people of the Ocean Race, this Qianyue Mountain is the territory of my blood martial race, they want to fight and attack it, like In this way, hiding the head and revealing the tail and setting a trap is not the work of a hero!"

Zhao Qian's voice penetrated the world with a strong and powerful voice!

Cai Jing was also shocked to make his face pale, and his blood was flowing stiffly.

Although his cultivation is close to the rotation realm, he can contend with ordinary people who are new to rotation.

Like Zhao Qian, he has no idea how many years he has been immersed in this realm, and he is a genius himself. He can leapfrog and kill people. If he wants to kill Cai Jing, ten Cai Jing can't resist his little finger!

"I must report this matter truthfully! Ambush like this is really not like a heroic method, it's too much!"

Cai Jing disagrees with such an ambush, but others are humble and light, and his realm is too low to be able to mix into the decision-making level.

Cai Jing clasped his fists and left.

Everyone else has died.

Zhang Kun and Yin Chuanxue made their best effort, and the remaining marine creatures were ordinary, and they couldn't resist the footsteps of their joint efforts!

Fang Yue opened twenty large boxes of goods.

He suddenly took a breath.

Because these goods resources are not like the hoarding of materials as he imagined, but a full twenty large boxes of living blood! "All of these are the blood of powerful people in the heaven and earth realm. They are filled with special vessels to maintain their fresh characteristics. My blood martial clan can refine blood and increase strength. However, these blood are only useful to the creatures from my blood world. In effect, what did Cai Jing do with twenty boxes of blood?

Yes, they want to please our blood martial arts? However, this doesn't make sense! "

Zhao Gan's face was full of doubts.

Fang Yue hesitated for a moment, then said. "I thought of a possibility that it might not be true! The blood is not given to our blood martial clan, but to the blood eagle clan. Once the creatures of the ocean world break through Qianyue Mountain, it will be equal to it is provoking the blood world. The blood world has always been strong since ancient times, although the ranking is better than the ocean

The world is a little weaker, but the anger of the first world is definitely not something these people of the Ocean Race can calm down!

And if they bribe the blood eagle tribe to let them be a hindrance, even if the creatures of the ocean world conquer Qianyue Mountain, they can also be occupied by the blood eagle tribe in name, which will become a contradiction within the blood realm. , Even if the blood martial clan suffers, the high level of the blood world will not care! "

Fang Yue immediately saw through the conspiracy of marine life.

Although this blood martial clan has thoroughly studied martial arts, all of them are great masters and masters.

But they know nothing about the control of people's hearts and conspiracy changes. "It seems to be the case! My blood martial clan is upright, but the blood eagle clan has a lot of conspiracy! When in the

blood world, we have disagreements, and often fight because of some resource disputes. If they do this kind of thing it's not impossible to come! But for this matter, I must

Report it, study it carefully, and you cannot judge the facts based on your speculation!

And we will report your credit truthfully, and you will also be responsible for intercepting the transportation team nearby! It is not easy to build walls and clear the wild. Marine life is definitely not just such a transportation team! "

Zhao Qian has a clear mind and is a rare person in the blood martial clan who knows some tricks.

Fang Yue nodded. Let Zhao Qian take the blood away!

These twenty large boxes of blood are of little value to him. At most, they are used to sacrifice and summon mountain gods, but this kind of thing. Falling into the blood martial clan is a group of resources that can create at least five masters of the world.

For the creatures in the blood world, blood is equivalent to the spirit stone of the human race and the magic stone of the demon race. This thing is a cultivation resource, precious and rare.

"Fang Yue, what shall we do about the following things?"

The battle just now made Zhang Kun completely convinced.

Although the nine arrows shoot the sun, although it is high and deep, it is absolutely impossible to evolve nine blue dragons to shine in the world in the hands of ordinary people!

It is definitely not something ordinary people can do to evolve the martial arts of a bad street to such a level!

"Of course it is to intercept marine life, but the three of us are not enough! After this interception, the marine life will definitely be vigilant, and even they will send some advanced and powerful people to ensure the safety of delivery! We must have complete Ready!"

Fang Yue's eyes flickered like lightning and thunder.

Manipulate the war and manage thousands of miles.

He didn't have any certainty. However, this is an ability and quality necessary to survive in the Xuanhuang world in the future.

The battle in the boundless desert gave him a great shock!

The war in the future belongs to the generals and battle formations!

As long as the number is sufficient, the lack of realm can be offset!

Fighting against marine creatures in the blood martial clan is considered a military training, even if it fails temporarily, it doesn't matter!

"Zhang Kun, help me select five hundred innate pinnacles from the clan! Yin Chuanxue, let's study the knowledge of some warriors!"

Fang Yue's tone faintly revealed an irrefutable sense of confidence.

On the battlefield, the general's instructions are equivalent to the emperor's imperial edict, absolutely irrefutable, and every word must be followed! Otherwise, the hearts of the people will be uneven, if you miss you, I will do mine, and an army will be scattered. Even ordinary battles cannot be won, let alone winning battles, fighting hard battles!

#### **Chapter 554: Battle force**

Zhang Kun took the order, left immediately and returned to Qianyue Mountain to prepare for the battle.

Yin Chuanxue looked at Fang Yue with a hesitant look.

"Fang Yue, I only learned a little bit about this warlord, I am not proficient!"

Yin Chuanxue worried that Fang Yue's plan would fall through because of her mistake. So she showed a look of embarrassment, hope Fang Yue can understand! Fang Yue smiled and said: "You don't have to worry about this, I am also a junior in terms of generals! However, all masters are trained from mediocrity! Only after experiencing the baptism of blood, can they become real Strong! We are inexperienced and we can completely lead on the battlefield.

Go! The war in the future belongs to the generals, and we are just just right! "

"However, my warlord's way is only the roughest Black Iron Tier 1, which can only control the battle formation of twelve people!"

Yin Chuanxue was a little twisted, her heart was very restless!

Among the warriors, the Black Iron rank is the last.

Control the battle formation of twelve people, and belong to beginners.

In the Xuanhuang world, ordinary families don't pay much attention to war fighters.

Because of the same mind, it is too difficult to control the army.

Rather than go alone, comprehend the immortal law, fall in one move and destroy the world! "Black Iron Tier 1 is already pretty good! It takes at least half a year for an ordinary person to become the lowest rank of Black Iron Tier 4, and then they will be promoted again, and it will take at least a year for each entry. Order, it will become more and more difficult! You can reach the first order of black iron, which is quite

The strength of many veteran fighters in their forties and fifties! "

Fang Yue's gentle encouragement made Yin Chuanxue gradually confident.

"Then I will give it a try! If it fails, I won't let my soldiers suffer any harm!"

Yin Chuanxue clenched her fist slightly, a firm expression on her white face!

Fang Yue nodded.

Soon, Zhang Kun dispatched the soldiers of the Blood Martial Clan of the 500 Innate Peak.

Fang Yue gave Zhang Kun a scroll of Tier 4 Black Iron Warlord!

"Zhang Kun, give you three hours to master the battle formation in this scroll!"

Fang Yue's tone was indifferent, which was beyond doubt.

Zhang Kun originally studied some battle formation methods. Although he didn't practice it, he accepted the most superficial battle formation methods extremely quickly!

Zhang Kun chooses five people to practice battle formation.

Fang Yue nodded slightly, and then handed another Black Iron Tier 1 battle formation scroll to Yin Chuanxue. "Yinchuanxue, this battle formation is the battle formation responsible for defense. It is called the Xuanwu Shield, which can hold up a shield and resist all attacks until the shield is broken! What I took away from Zhang Kun is a battle. Array of fog shadows, which can drop heavy fog from the sky, cover all directions, conceal spiritual consciousness, and even some realms

Very advanced powerhouses cannot break through. One is responsible for confusion, one is responsible for defense, and I is responsible for offense! My warlord's cultivation base is about a level of bronze, and can manipulate a hundred people to attack at the same time! "

The first-order bronze is already among the outstanding existence among the warriors!

Combining a hundred people to attack, can forcibly increase the combat power of the main general by one or two small realms!

Yin Chuanxue nodded fiercely, she felt that she could not live up to Fang Yue's trust in her.

Each perform its duties, each in its place.

Fang Yue began to train these soldiers of the Blood Martial Clan. I have to say that the Warriors of the Blood Martial Clan were quite obedient, hardworking, hardworking, and had no complaints.

Fang Yue divided the five hundred blood martial arts fighters into one hundred groups, and each group was given a set of Black Iron Tier 4 battle formation scrolls.

A set of scrolls, a total of nine battle formations, three defenses, three attacks, and three assists.

Let each group of them be freely combined into a battle formation!

Fang Yue trains his subordinates and never hesitate to consume resources. As long as you have enough achievements, I will cultivate you well!

These scrolls of battle formation are not available casually.

The nine battle formations were carefully matched by Fang Yue, and each one has a follow-up!

After the Black Iron Tier 4 is proficient, you can ask Fang Yue for the scroll of the battle formation behind. If this kind of growth battle formation falls into the auction house of the human race, any battle formation is a spiritual stone worth tens of millions!

Time is tight and the task is urgent.

Fang Yue only gave these blood martial arts one afternoon to practice.

When the time came, Fang Yue immediately detected that another transport team had arrived nearby.

Their goal is obvious, that is, to transport cultivation resources and food resources to the marine creatures lying in ambush under Qianyue Mountain.

Those marine creatures reaching innate, heaven and earth, or even rotation, does not mean that they can not eat fireworks and secluded valleys every day. On the contrary, they have more stringent requirements for energy in food!

Ordinary food can't meet their requirements.

Their every move consumes vitality and blood, and the energy they need is a massive amount. If there is no food, they will feel hungry and consume their energy reserves in a short time.

If the energy reserve is cleaned up, their cultivation will be regressed, and even their will will be weak and fuzzy!

In history, there was even a great famine. Even the strong in the heaven and earth realm could not find food. In the end, a large number of the strong in the heaven and earth realm were starved to death. Corpse on the ground.

This time the transportation team has not many people.

There are only a dozen marine tribes, pulling the cargo of the troika.

They were ambushed and were easily killed.

These ten marine races belong to the third and fifth layers of the innate realm. Among the marine races, they belong to the small group, pathfinder, and cannon fodder!

They appeared not to actually transport food, but to test the attitude of the blood martial clan!

After the death of a dozen marine tribes, they became big lobsters and big crabs.

Fang Yue boiled their bodies into a pot of soup to share with the soldiers who followed him.

Fang Yue's craftsmanship is absolutely unique. Quite delicious and unforgettable! Moreover, the flesh and blood of the creatures of the Ocean Race contains a lot of spiritual power. After they are eaten, they are slowly refined, no less than some elixir, nourishing the flesh, and worthy of many days of penance!

And the five big boxes of goods were also opened by Fang Yue.

All of them are actually third-grade Linggu!

These spirit valleys, weighed a little, a total of 3,000 kilograms of weight, if they were exchanged for spirit stones, it would be equivalent to about 30 million spirit stones!

Linggu is not a precious commodity, it can only nourish flesh and blood, enrich aura, and assist cultivation. However, it is not precious because of its small demand!

Generally, in a pot of food, it is enough to pair with a half or two of Linggu!

And 3,000 kilograms of Linggu, it is already possible for an ordinary small human nation to consume Linggu for the whole people, and it will take a full year!

This large amount of Linggu is naturally valuable!

"These spirit valleys, I am going to use them to improve the food for our team! We work hard day and night, and consume a lot of physical load, and need a lot of Yin and Yang supplements! All kinds of obvious injuries and dark diseases, although usually not obvious, but Once it is really discovered that it affects the cultivation base, it will be too late!"

Fang Yue's mighty voice baptized his soul.

Every soldier of the blood martial clan is extremely excited!

They pursue martial arts, and naturally they also know that martial arts practice not only relies on talent, hard work, but also opportunity and wealth, but also indispensable! They belong to the lowest level in the blood martial clan. They are innate cultivation. Only when they work hard to reach the realm of heaven and earth can they improve their status slightly, get some resource tilt and be cultivated. Before again, they can only consume potential. , Self-improvement, many people are here

Falling down in the process, even if promoted, will leave a curse, which is difficult to get rid of, resulting in a great loss of life.

Fang Yue's hand is very beautiful!

Borrowing flowers to present the Buddha directly convinced the people of these blood and martial arts!

Fang Yue understands that to subdue the hearts of the people, you can't talk about the white wolf, just say that it is absolutely impossible, but also have practical actions to give the other party enough benefits!

Three thousand kilograms of the third-grade Linggu are distributed. These people store them carefully and take them slowly. This thing can regulate the physical body, nourish the flesh and blood, and is the best elixir to supplement consumption and heal dark injuries!

"This time the people from Ocean World sent Pathfinders. The next step is probably the arrival of the army! They can't just suffer a loss and not fight back! Two transportation teams have been destroyed in a row, and they should be conscious. Up!"

Fang Yue judges the situation. Starting to arrange, he sent the information to Qianyue Mountain.

The squad sniping the traffic force of the sea world once again won and wiped out the opponent!

Soon, Qianyueshan dispatched a group of troops to handle all parties, each of which was stronger than the team under Fang Yue.

These troops are composed of a hundred people, and every ordinary member is the cultivation base of the heaven and earth realm, and the leader of the team is even more powerful in the rotation realm.

There are twelve teams, watching each other and supporting each other. Arranged into a net, it intends to wipe out all the supporting forces of marine life.

This is also very particular about the art of war.

However, Fang Yue still participated in this battle, but his team was not the main force, but the role of a scout!

After all, Fang Yue's subordinates only have 500 innate! In terms of strength, it is far inferior to any team!

This time let Fang Yue's team act as scouts, firstly to hone Fang Yue, and want to see how much his potential is. The better Fang Yue's record is, the more attention he gets!

Another point is that they want to confuse the creatures of the ocean world and make them underestimate the determination of this blood martial clan to ambush!

Sure enough, late at night.

The night is black and the wind is high, and the wind is calling.

Pieces of dead leaves rolled in the wind and flew into the sky.

All the creatures that come out of the ocean world are groping for the stones on their way.

Their steps are light, like leaves, falling silent!

They attacked Fang Yue's troops.

Late at night is the best time, because when darkness falls, the human spirit will involuntarily slack off.

At this time, the alertness will be reduced, and the chance of a successful sneak attack will be greater!

However, dozens of human figures just jumped onto the hillside where Fang Yue's team was located, and their soles had not completely settled yet!

Bunches of torches have been lit, shining on the sky, better than the bright stars in the sky!

"Hahaha, as expected! You will attack in the middle of the night to eliminate the threat!"

This time it was Zhang Kun, Fang Yue and Yin Chuanxue disappeared without a trace, not knowing where they went.

"You said that Fang Yue can survive this hurdle by themselves this time? For the people of Qianyueshan Ocean World, it has cost a lot of money and cost. If there are a hundred thousand elites, if they are all extinct here, I am afraid they will be hurt. Moving the bones!" In the dark, the two rotation realm

experts of the blood martial clan were guarded by the dark hands. Each of them had widened eyes, and their eyes were bright and bright!

### **Chapter 555: Cut off**

These two powerhouses of the Blood Martial Clan were originally high-ranking members of the Blood Martial Clan, and shouldn't be here, but to protect Fang Yue's safety, they still appeared!

Zhao Qian has reported Fang Yue's deeds!

His cultivating talent is still second. The blood martial clan is rich in various martial arts talents, and there are not a few practitioners who can understand my heart and heart, and master the artistic conception of exercises.

But they are brave and inexorable! Although they are loyal to the blood martial clan, they lack the wisdom and do not know how to calculate, and it is difficult for them to shoulder important responsibilities in the clan!

Only Fang Yue, a wise man, can become the commander and controller of the blood martial clan!

They secretly observed Fang Yue's actions and considered the score for him. The level of this score will directly affect Fang Yue's future prospects!

If Fang Yue is in danger, they will immediately rescue him, but in that case, Fang Yue's rating will probably drop drastically, and the rewards will be discounted.

"Did you introduce the monarch into the urn? I didn't expect the blood martial clan to have this kind of wisdom! It seems that you elm heads have finally found a person who can get insight!"

A crab-like marine creature on the fifth floor of the Heaven and Earth Realm came out.

He is not in a human form, but always maintains his animal form, and does not change at all!

The benefits of human form and human form, you can perceive the laws of heaven and earth, practice various martial arts, and the prototype also has the beauty of the prototype, the body is tyrannical, the blood is majestic, the mana is high, ordinary people are not opponents!

"Huang Kai! I didn't expect it to be you!"

Zhang Kun saw the crab and immediately recognized him. "Yes, yes, Zhang Kun. You guys did not expect to be alive now. In the last battle, your blood martial clan collided with my marine creatures. I killed your partner who got along day and night! And you are lucky because of your running fast. Okay, it escaped! But this time, it seems not so

Lucky! "

Huang Kai breathed freely, every time he breathed, he would roll up a hurricane, stir the universe, and dance the yellow sand!

The nature of Huang Kai's life seems to be extremely tyrannical. It is the nobleman among the crabs, the royal family! The bloodline level surpassed the Huang level, reached the profound level, and was much higher than Zhang Kun!

"Huang Kai, I am going to kill you!"

Zhang Kun's teeth shattered and his eyes were blood red.

Seeing Huang Kai's arrogant appearance, Huang Kai seemed to recall the appearance of his companion who died in Huang Kai's hands a month ago. The body was split by him, and then slowly and slowly, swallowed into the belly!

"Want to kill me? That's okay! If you have the ability, you can do it! Just rely on you remnants of defeated generals, and you still want to defeat us! Although we only have about 30 people, we are all masters in the world! Come and go without a trace, you can't even catch the shadow, how can you fight this?"

Huang Kai kept hitting Zhang Kun with words to make him completely angry! However, Zhang Kun suddenly calmed down: "Just now, Fang Yue taught me that in a war, only calmness and wisdom can achieve the greatest results. In tactics, there is a method called radical strategy! It is through words, actions, and stimulation. The other party's mental emotions make them lose control and eventually lose their sense

Chi, become a lunatic, and then destroy it with one blow! "

Zhang Kun calmed down and calmed down.

Huang Kai looked at Zhang Kun's performance and couldn't help being surprised.

The two blood martial clan's rotation realm powerhouses observed in the dark are even more ear-to-mouth.

Fang Yue was not familiar with them, but Zhang Kun grew up as they watched.

Both of them were very clear about Zhang Kun's temper and cultivation.

As a martial artist, Zhang Kun's temper is like gunpowder, and Zhang Kun's temper is just like gunpowder.

It is precisely for this reason that Zhang Kun is extremely impulsive and unbearable. It is only suitable for being a sharp-edged sword of the blood martial clan, but not able to hold power and become a real high-level.

Now, Zhang Kun's temper has changed unexpectedly, converged, and he knows that forbearance can see through the conspiracy. This is simply a shocking change. Yin and Yang are one, and future achievements can be expected!

Huang Kai was also secretly surprised by Zhang Kun's changes.

He didn't know what happened to this kid to be able to make such a change. "I don't know that you guys are not the main force of this operation. You concealed the plank road and crossed Chencang! There

should be other scattered small troops escorting supplies and hoarding them to the marine life at the foot of Qianyue Mountain. Once your conspiracy is successful, those oceans

Creatures can definitely get a lot of supplies and can last longer, but it's a pity, a pity! Your conspiracy was eventually seen through! "

Zhang Kun shot again.

Huang Kai's face changed suddenly.

That's right!

This is their plan for this action, and it's a shock.

Transport food!

"Impossible! Impossible! All of you blood martial clan are reckless men. There is absolutely no such a peerless figure who can calculate and know all these things well! Is there a spy in our marine life?"

Huang Kai was unsure.

Just at this time.

In all directions, bunches of bright fireworks bloomed in the sky.

This is a firework for help!

Each cluster represents a dangerous situation for one of their teams.

Marine creatures dispatched a total of 108 teams to transport grain and grass.

And the number of fireworks in the sky is no more, no less, just the number of one hundred and eight!

Huang Kai's face was pale, and he couldn't believe it. He widened his eyes and said, "These are all impossible!"

"Impossible? What is impossible!"

Fang Yuebing's icy voice appeared from the air, and the heads of marine creatures in his hand were stunned! "You are able to slam and entangle me, and I can also use this method to deal with you! Zhang Kun is the one who restrains you and paralyzes your chess pieces. If you don't find our large troops stationed here, I'm afraid you would not dare To send out with great fanfare

Send people and horses to sneak into the foot of Qianyue Mountain! "

Fang Yue returned, full of evil spirits.

He was draped with blood-colored clothes, and he felt like a Rakshasa walking out of the Asura Field!

This time, Huang Kai's expression calmed down instead.

"In that case, there is nothing to say! As long as I kill you, I can still deliver the goods to my marine life army, beset on all sides and fight against the water, just to sharpen our spiritual will!"

Huang Kai used life and death crisis as oppression at this time, and wanted to survive in desperation.

Once he succeeds, his cultivation base and state of mind can immediately be raised to another level!

There is a big horror between life and death.

At the same time, there are great opportunities in the great terror!

This Huang Kai is also a peerless genius, otherwise, it is absolutely impossible for the marine creatures to assign him to lead and perform such an important task!

"There are only three cultivators in the heaven and earth realm, and all the rest are young people in the innate realm! Hahahaha! It turns out that you are just pretending to be strong, in fact all of you are strong outsiders!"

Huang Kai calmed down and analyzed the situation. Although the previous plan was a complete failure, everything was not without a chance to comeback.

No matter how powerful the blood martial clan is, there are only three practitioners in the heaven and earth realm after all, and all the remaining innate realms are not taken into account. On the contrary, on their side, there are more than 30 masters of the heaven and earth realm who can jointly attack and defeat them in minutes!

"Arrangement, mist!"

Fang Yue started to command calmly, this battle was a training for him.

If they really fight, Fang Yue can kill them in minutes with his own strength.

However, if he does not participate in the battle formation method, the final result will be confusing and unpredictable!

The warriors of the blood martial clan have long been eager to try!

All of them are martial arts elites. They are firm in their hearts. Facing strong enemies, not only do they have no fear or timidity, but they have a sense of excitement.

The mist descended, and there was a vast expanse of whiteness, and it was such a scene in a radius of ten miles!

"Impossible, why can't I see the way ahead!"

"Ah, ah, ah! My mental power can't explore the surrounding situation, and I can't find the enemy's direction at all!"

All 30 soldiers under Huang Kai lost their sense of direction at this moment.

No matter how powerful the existence is, once they can't find the enemy's direction, they can only attack indiscriminately and cannot pose an effective threat.

"Hahaha, this Fangyue still has this kind of method, the way of battle formation, exquisite! In the blood world, there are also many exquisite battle formation methods circulating, but unfortunately, most people think that it is a side-by-side approach. Willing to learn!"

The two powerhouses of the blood martial clan who were responsible for scoring Fang Yue also became excited.

Their eyes lit up and they immediately realized that Fang Yue was a talent!

The vast fog he set up can suppress the divine consciousness, the power of the world realm, the divine consciousness can only spread within the range of five meters in the body, and the existence of their rotation realm can only support a radius of fifty. Mi's spiritual range!

This is an auxiliary type battle formation that is relatively unpopular among many battle formations.

Each volume is rare and precious!

Although this battle formation has no direct lethality, it can be used to trap the enemy, but it can have a good effect.

"Zhang Kun, Fang Yue, do you think this kind of buggery can trap us? You are really naive!"

Huang Kai's voice came out again, and the whole land began to shake.

The sky became chaotic.

Huge meteors fell from the sky and began to attack the foggy area indiscriminately!

"Fire rain meteor!"

Huang Kai's voice fell.

Thousands of meteors fall, this is the most inexhaustible way! Range attack, indifferent to the enemy, but often the best way to break the game!

"No, Fang Yue's battle formation is about to be broken. I know a little bit about the battle formation methods. The entire battle formation must be perfused. Once lost or distracted to defend, the power of the battle formation will be immediately reduced and it will not attack. broken!"

A strong man in the rotation realm secretly guarded by the blood martial clan suddenly became nervous!

Once the battle formation is broken, Fang Yue's accumulated advantages will be wiped out.

He has never seen Fang Yue make a move, and of course he doesn't know Fang Yue's true strength, but based on the average strength of the blood martial clan, Fang Yue and the three of them are not even the opponents of these more than 30 marine creatures. .

This is not to trust Fang Yue and the others, but to be outnumbered in the same realm, two fists are hard to beat four hands, this is a common sense truth!

"Yinchuanxue defense formation!"

Fang Yue let out a low roar, and a huge phantom shadow suddenly rose up!

Xuanwu is the strongest guardian among the Four Elephants. Although only Yin Chuanxue guided twelve martial artists of the Blood Martial Clan at the pinnacle of the heaven and earth realm to take action,

the formed basalt shadow was extremely strong, resisting the rain of fire and meteors and endless meteorites that fell from the sky.

### **Chapter 556: Fight in battle**

Fang Yue didn't make a move, but controlled the battle formations.

"Black Iron Tier 1 fighter, I didn't expect this newcomer Yin Chuanxue to be a rare fighter!"

Another expert in the rotation realm who is responsible for the protection of the blood martial clan spoke, and he praised that both Fang Yue and Yin Chuanxue performed exceptionally well. As long as they can grow up smoothly, they will definitely become a blood martial clan in the future. The outstanding powerhouse!

"No! Defensive battle formation! Don't your blood martial arts always admire personal force? When did you actually understand the learning of battle formation? Even the generals have started to train!"

Huang Kai's eyes were splitting, and the battle this time was far beyond his imagination.

Whether it is careful calculations or fighting methods, they are extremely inconsistent with the information he has obtained before! When did the blood martial clan become so powerful!

If this was the case, he would not have come even if he was killed!

"The rest is mine! The sword of stars, cut it for me!"

Fang Yue landed on both feet, and his fingers came together to become sword fingers.

Behind him, a full 36 innate peak blood martial races continuously instilled the true qi in his body.

A black-blue long sword with a length of ten feet is condensed and formed in the void, and dots of cyan light are surging and embellished around the long sword.

This is the sword of stars, condenses the stars and cuts all directions!

A sword fell, and the momentum was like a broken bamboo. At the beginning, Huang Kai, who was very arrogant at the beginning, was cut open like tofu without the ability to resist under the power of the sword of stars!

"A battle formation of thirty-six people! This Fang Yue is at least a second-tier bronze fighter! Even in the Golden Temple, how many of this level exist? This is simply incredible!"

The strong man in the rotation realm of the blood martial clan muttered to himself, and the whole person fell into a sluggish state.

The Golden Temple is a place in the universe that specializes in training war talents.

However, not everyone who enters it can reach the level of a bronze warrior.

It's actually not uncommon for a fighter at the Black Iron level. It can be achieved with a little practice.

However, if you want to become a Bronze fighter, you need to meet many requirements, even if it takes thirty to fifty years to meet these requirements!

Huang Kai fell, his body in two halves.

He was cut in the middle, and he couldn't die anymore! Even if Daluo \*\*\*\* descends, he cannot be saved!

Fang Yue shot again and continued to slash the sword of stars, beheading all the other thirty marine creatures.

These marine creatures are not just waiting to die. They sacrificed various treasures to resist the sword of the stars, but unfortunately, their resistance was in vain.

No one can resist the combined blow of the 36 Innate Peak Blood Martial Races.

Soon, the fog cleared.

All on the ground are the corpses of marine creatures. They are all running and running, their blood is drained, and they are all dead and cannot die again. A miserable defeat, sadly fall.

"There should be a lot of wealth in the masters of more than 30 heaven and earth realms. Everyone has credit for this battle. After the wealth is collected, we will reward them!"

Fang Yue is very generous, extracting 50% of all the wealth he found, and distribute it! Even the corpses of these marine creatures were cooked into a pot of seafood soup, ready to be consumed by these \*\*\*\* warriors.

"Master Fang Yue is such a luxury! How much essence is contained in the corpses of so many sea creatures of the world's strongest realm! It is purely wasteful to boil it into soup! But for us to eat, even a sip is worth it. Three days of hard work!" "Wow, I was assigned a clover clover. After taking it, I was able to immediately promote to the level of the heaven and earth realm! Before, I was stuck at the top of the innate realm, and I couldn't make progress. Because the comprehension ability is too poor, but because the body's nutrition can't keep up! Comprehension is important, so are the resources

The essential! As the saying goes, it is difficult for a clever woman to cook without rice. Only with sufficient resources can she leap into the sky! "

The soldiers of the Blood Martial Clan who followed Fang Yue started talking, but they looked at Fang Yue with different eyes!

Worship, joy, loyalty, hope, all eyes fell on Fang Yue.

Even, the power of faith surging in their bodies, these powers of faith were absorbed into Fang Yue's body to help him temper his flesh and nourish his soul! "What a trick to buy people's hearts! No wonder he refuses to ask the blood martial clan of the heaven and earth realm to become his subordinates. Even if the blood martial clan of the world realm is not as good as him, they will not listen to his call. , At the very least, they are not convinced! But these innate blood martial races are different. They have endured hardships and tempered among the races, and even they themselves don't know when they can be promoted to the level of heaven and earth. Lost in the heart and no direction, now Fang Yue

sends them resources to promote them to the realm of heaven and earth, which is tantamount to sending charcoal in the snow.

Great benefactor! Great Sage. People who pull them up with one hand are naturally loyal and will not betray! "

The guardian of the turning realm has brilliant eyes. He greatly appreciated Fang Yue's behavior in cultivating direct lineages.

If it is in the human race, such a method will definitely be excluded by those in power.

But in the blood martial clan, everyone cultivates martial arts, just lack this kind of general who knows how to imperial!

Sure enough, on the spot, someone broke through the realm and reached the sky in one step, reaching the level of the world.

From then on, the status is different, and the blood martial clan can be focused on training, the resources are inclined, and it is no longer a small cannon fodder!

"Flap! Pop! Pop!"

There was a round of applause.

A lonely figure appeared at the end of Fang Yue's vision.

This is a white-clothed boy, with handsome eyes, harmless to humans and animals. There is also a long sword hanging from his waist. This shape is very similar to the kind of arrogant swordsman described in martial arts novels!

But Fang Yue did not relax his vigilance.

This white-clothed boy seemed to have only the fifth level of the cultivation realm of the Heaven and Earth Realm, but under his feet, wisps of breeze passed by.

Watch carefully, his feet are not touching the ground.

It seems to be walking against the wind in the legend.

This is an expression of comprehending the Dao of Wind to a very profound level. This young man's attainments in the Dao of Wind are at least three levels above.

At a young age, he reached such an extent in the Avenue of Wind. This is simply not a genius but a monster!

"Nalan Yunfeng, what are you doing here? You are a member of the Caiyun tribe and we have no grievances against our blood martial tribe. You should not interfere in the internal disputes between my blood martial tribe and marine life!"

Haven't waited for Fang Yue to come forward.

The two Rotating Realm powerhouses secretly responsible for guarding all jumped out.

They defend Fang Yue everywhere, for fear that Fang Yue will suffer.

If it were the creatures of the general ocean race, even at the level of the rotation realm, they would restrain their temperament and wait for Fang Yue to take action, which would be considered a challenge and temper.

And facing this Nalan Yunfeng, they really didn't have the guts to let Fang Yue face it.

Nalan Yunfeng is a famous powerhouse among the many foreign creatures who have descended into the world of Xuanhuang this time!

His inheritance is mysterious, and his father is said to be a god.

Therefore, he contains divine blood in his body, and his physique is at a prefecture level when he is born!

Although his realm was still at the level of heaven and earth realm, he was the result of deliberate suppression by his father's generation and clansmen, and Nalan Yunfeng's real combat power was even more terrifying than the ordinary rotation realm powerhouse.

Moreover, he has never done anything lightly or severely, and I don't know how many powerful men of the older generation have died in his hands.

"No grievances and no grudges? No, this time the strong man in the sea world asked me to take action and let me kill the person who obstructed their plan! The strong man in the sea world paid a tear of the sea as a price, and I couldn't help but not be tempted!"

Nalanyun was windy and clear, even if the two powers of the blood martial clan in the rotation realm were on the side, he did not have the slightest fear.

Because he wants to shoot, no one can stop it!

Really annoyed him, these two blood martial clan rotation realm powerhouses will also be killed.

At this time, Nalan Yunfeng carried his hands on his back. He looked proud and despised Fang Yue.

"Are you going to kneel and die on your own to avoid pain, or let me personally suppress you!"

"Master Nalan, I'm afraid this is not good!"

Fear of Nalan Yunfeng's identity, even if he did it too much. However, the two powerhouses of the blood martial clan are still very good-natured, unwilling to completely offend him!

"Taking money from people and eliminating disasters with others. What is good or bad! But it is a pity! I will kill a wise man who just appeared in your blood martial clan! This seems to belong to your blood martial clan. No luck. You can go back and investigate it!"

Nalan Yunfeng didn't put Fang Yue in his eyes at all, nor did he put the blood martial clan in his eyes.

He is such a character, unscrupulous and fearless!

Anyway, something happened, and the ethnic group behind him was against it. The Caiyun tribe is one of the most powerful clan in the universe.

"Nalan Yunfeng? Do you want to kill me?"

Fang Yue looked at Nalan Yunfeng with a strange look, as if he was looking at a fool.

"You know, this is a sea creature borrowing a knife to kill people! Because you are not my opponent at all! People in the sea world want me to kill you, so that there is less publicity in this world, and at the same time let the Caiyun tribe Take over the \*\*\*\* feud with the blood martial clan, and never die from then on!"

Fang Yue's voice was very firm. It seems that what he said is an out-and-out fact.

But Nalan Yunfeng laughed loudly and didn't believe the nonsense that Fang Yue said.

"You can kill me, it's really a big joke!"

Nalan Yunfeng believed that what Fang Yue said was simply unrealistic.

Fang Yue didn't worry, but slowly took out a crimson pill from his hand.

This pill, the size of a baby's fist, is surrounded by a scarlet killing aura!

"Ah! What is this! Why do I feel a fatal danger from it!"

Before Nalan Yunfeng completely approached Fang Yue, he retreated ten feet. His eyes were wide open, and all of them were expressions of horror.

"This is a Raksha Pill. I bought it from the Raksha clan. As long as this thing is slightly crushed, all creatures below the Yin and Yang realm within a radius of ten miles will be killed by it. There is absolutely no reason to survive!"

Fang Yue's voice was light and fluttering, as if it were cotton, without strength.

But Nalan Yunfeng seemed to have seen a snake and scorpion. He was born in the Caiyun tribe, and he read the information of various races day and night. He naturally understood what this Rakshadan meant.

This is a big killer, a big horror. Once displayed, the ten directions will be exterminated, and it will only be used in the battle of genocide.

"Fang Yue, this thing is so rebellious, do you dare to show it?" Nalan Yunfeng condemned Fang Yue with awe-inspiring righteousness.

### **Chapter 557: Summer month**

Fang Yue sneered coldly: "You are going to kill me, can't I just do a struggle before I am dying? People are dead and birds are in the sky, I care about your flood, you want to kill me, I can't beat you, but Before I die, I will drag you to bury you. I think I have earned it too!"

Fang Yue was completely a bachelor attitude.

The Rakshadan in his hand is the two powerhouses in the rotation realm of the blood martial clan next to him who are in cold sweat.

Who on earth is Fang Yue and how could he have such a thing.

"Fang Yue, good, you wait for me!"

Nalan Yunfeng stared at each other Yue, but he was threatened for a long time, but he didn't have the courage to start the attack!

Because Nalan Yunfeng was really afraid that Fang Yue would crush this Rakshadan on impulse! Although he has a treasured body protected by his clan, Rakshadan is too evil. Who knows if this thing can be pierced.

In the world of the heavens, there seems to be a legend about Rakshadan recorded in the history of any race.

The endless horror hidden therein can only be described clearly by those who have witnessed it.

Nalan Yunfeng walked away, his back was gone.

Fang Yue looked at Nalan Yunfeng with a smile and squinted, waving his hand, and said, "Go slow, don't give it away!"

A crisis resolves the invisible.

All the strong players in the rotation stage of the two blood martial clan squeezed a cold sweat.

The pressure that Nalan Yunfeng brought to them was too terrifying, and even if they really took action, they couldn't guarantee that they would survive in Nalan Yunfeng's hands.

Fortunately, Fang Yue has a big killer in his hands-Rakshadan.

In Fang Yue's evaluation, the hearts of these two Rotating Realm powerhouses could not help but take another step! "Damn, damn, this Fang Yue must die! When did such a figure appear in the Blood Martial Clan, who is good at calculating, and even knows how to fight, how exactly did the Rakshadan in his hand come from? It must be thoroughly investigated! Even Nalan Yunfeng, whom we invited at a high price, was shocked

Retreat, what is the origin and identity of Fang Yue! "

In a luxurious mansion in a small town 800 kilometers away from Qianyue Mountain.

With a bang, a strong man of the ocean clan with a shrimp head smashed the tea cup in his hand.

He is Xia Yue, the principal of this operation.

There are still six strong men in the ocean world seated in the room, all of them silent and afraid to speak.

Xia Yue has a grumpy temper, and her personality is uncertain. If anyone makes him frown at this time, he might be violently beaten by Xia Yue!

"Report to your lord that Nalan Yunfeng refused to return the Breath of the Sea. He said that the resources we provided were extremely inaccurate and almost killed him. Although he did not complete the task, he has tried his best. That drop of Breath of the Sea is his Shocking expenses!"

A young man from the ocean world ran in, half-kneeling in front of Xia Yue and whispered.

He trembled all over, not even daring to lift his head.

It is a pity that he is fully guarded, and the final result will not change. "What? Nalan Yunfeng is really brave enough to greet the things of our ocean world! That's the breath of the ocean! After taking it, the sensitivity to the avenue of water between heaven and earth increases within ten days. Five times! If it's taken by people who don't understand the Great Way of Water,

You can enlighten the Tao in a short time, break through the obstacles, and have the qualifications for promotion to the rotation realm! "

Xia Yue is utterly desperate, and his seven orifices are about to emit white smoke!

His voice was too loud, and it contained the power of thunder.

The little servant responsible for reporting the letter couldn't resist it, and died directly, blood, corpses, and splashes everywhere!

"Would you take back the breath of the ocean in Nalan Yunfeng's hands? This thing is the treasure of my ocean world. A drop of the breath of the ocean can cultivate a powerful person in the rotation realm!"

A strong man in the ocean world of rotation made a suggestion.

Xia Yue immediately widened her eyes, slapped a slap, and slapped down the strong man in the rotation realm. He couldn't find the north! "The soul is pale, the soul is pale, the soul is pale! What do you know? Is the Caiyun tribe something we can offend? The Caiyun tribe is a tribe of gods, which enshrines a full 108 gods, the world Will, space interval, ordinary saint realm powerhouse cannot come,

However, the gods are able to radiate thoughts, condense the clones with the help of faith, ignoring the barriers of the world's will space and descend on this world.

This Nalan Yunfeng was originally the son of a god, whoever offends him is tantamount to offending a god! "

Xia Yue roars again and again, and the gods are an unfathomable existence.

They are taking another path of cultivation, condensing faith, and brewing godhood!

They are mysterious and capable of reaching the sky. Although they have given up the hope of becoming a fairy, their strength is stronger, not weaker than the ordinary fairy!

"Nalan Yunfeng can't offend, but this Fang Yue must die! This time, I invited the Death Organization to take action personally, and we must kill Fang Yue!"

Xia Yue suddenly calmed down.

According to their understanding of the Blood Martial Clan, Fang Yue will definitely be able to receive attention after experiencing these things, and there will be a strong person at the rotation level personally guarding him in a short time.

They send people to assassinate, the price is too high, and they are likely to fail, and then lose everything.

Therefore, to deal with Fang Yue, you can only kill with a knife!

The sleeves of the summer moon robe flicked, and a black token appeared immediately.

The token shattered and a very fine crack appeared.

Xia Yue's heart twitched, and a distressed expression appeared involuntarily under her eyes.

This death token, every time it is used, it will break into a crack, use it ten times, ten cracks, the token will be broken by itself and no longer exist!

A token is of great value!

He spent a lot of favors in exchange for it!

A precious opportunity was wasted on Fang Yue, which made him hate Fang Yue even more in his heart. at this time.

Void crack.

A puppet came out of it, which was a letter puppet organized by the \*\*\*\* of death, which itself was refined from precious wood.

Its eyes were extremely scarlet, as if they were stained with blood.

Scarlet puppets, once they are born, they must be blood!

"Scarlet Puppet, help me kill a Heaven and Earth Realm practitioner named Fang Yue from the Blood Martial Clan! Give me an estimate of how much it will cost to kill him!"

Xia Yue restrained her ostentatious expression, became respectful and extremely humble!

The Scarlet Puppet has its own intelligence, although it is only a high-level puppet, but if it is angry, they will probably all be killed.

The Scarlet Puppet nodded slightly, and his \*\*\*\* eyes flickered slightly.

"Investigate Fang Yue's information. Complete the information! A total of two battles, warriors, warriors, and practitioners with combat power equivalent to the first level of the rotation realm!

The most suitable way to kill, curse to kill! There is a price to pay, one hundred thousand superb spiritual stones or equivalent treasures! "

The Scarlet Puppet spoke.

A mouth almost scared Xia Yue to death!

One hundred thousand superb spiritual stones, why didn't he rob!

In general, the reward for the rotation realm is around 30,000 to 50,000 best spirit stones!

One hundred thousand superb spiritual stones is equivalent to the total resource expenditure of an elite army of one hundred thousand for three to five years!

"Could it be cheaper!"

Xia Yue has a guilty conscience. He has paid one hundred thousand best spirit stones for a warrior on the first level of the world realm. No matter what he thinks, he feels that it is not worth it!

"The Grim Reaper Organization has never bargained. If you are willing to trade, you will pay the bill, and if you don't want it, you will fall!"

The Scarlet Puppet didn't leave Xia Yue any affection, and his tone seemed to be a reprimand, quite blunt.

Xia Yue showed a thin look of anger. But to think of the horror of the death organization is to forcibly suppress the anger in the heart.

"Well, one hundred thousand top-grade spirit stones is one hundred thousand top-grade spirit stones, but this Fang Yue must die!"

Xia Yue took out a delicate storage bag, which was not too much or too much, which happened to be filled with one hundred thousand best spiritual stones.

The Scarlet Puppet weighed it a little and nodded slightly. Without a word, he set up an altar.

The silver altar was mottled with blood.

The Scarlet Puppets placed pieces of the best spirit stones on the sixty-four grooves of the altar, offering sacrifices to the world and requiring energy, and the best spirit stones are the best energy stones!

"In my mind, summon ghosts and gods to punish Fang Yue and never exceed life!"

The altar oscillated, cause and effect lingering.

The words of the Scarlet Puppet fell, as if the whole world resonated with him!

Sixty-four top-grade spirit stones disappeared and turned into sixty-four strands of black smoke, dissipating between the sky and the earth.

The wind screamed and the sky was bloody.

The chaos of the sun and the moon, it seems that even the will of heaven and earth has become obscured at this moment.

On the altar, a picture emerged, and the protagonist in the picture was Fang Yue.

At this moment, Fang Yue is reading a book in the stone house he constructed. He has ten lines at a glance, and his spirit is focused, and he no longer improves himself at all times! "This is indeed a good seedling. The spirit is concentrated and the heart is quiet. There is no demon in this state. As long as he

is given enough time, the bottleneck of the cycle and the yin and yang cannot hold him. It is a pity that he will die soon. , The people selected by our death organization have never survived

Precedent! "

The scarlet puppet shook his head slightly, feeling a pity, but there was a wicked smile on the corner of his mouth, betraying his true thoughts!

"What's going on? Why do I smell a curse!"

Fang Yue put down his books without delay. Slightly getting up, a wave of righteousness spread out immediately.

I am good at raising my awe-inspiring spirit!

This is the famous epigram handed down by Mencius during the Spring and Autumn Period and Warring States Period.

Originally, this sentence was pale and weak in the mouth of Confucianism and could not be verified. It was just a common famous saying in the textbook.

But after Fang Yue stepped into the practice, he gradually understood, his heart was mighty and he was not afraid of ghosts and gods!

Reading day and night, nourishing the spirit, the ancient great scholars are full of economics, and they can have an epiphany without cultivation and become immortals.

During this period of time, Fang Yue has been studying and practicing, involving politics, history, humanities, and geography. He keeps words and phrases in mind. He has gradually developed some bookish qualities, able to sense crises and predict misfortunes.

At this time, a ghost floated and appeared in front of Fang Yue.

The ghost's eyes were extremely cold, and the curse of crimson aura lingered all over his body.

"Nine curses, heavy murders, I am only the first curse, humble ants, you should give up resistance!"

The ghost stood with his hand in his hand, his face full of disdain.

For practitioners like Fang Yue who had just entered the realm of heaven and earth, he didn't know how many he had killed!

"Someone is cursing me?"

Fang Yue was surprised, then his face was cold. "I understand, it must be the marine creatures that shot me! Do they really think I'm a soft persimmon? Guys like you dare to come up!"

**Chapter 558: Haoran**

The ghost shot, the palm of his hand enlarged, and in a blink of an eye, it seemed that a piece of sky was falling down, and Fang Yue was about to collapse to death!

His face was stern, Fang Yue, he didn't bother to talk more.

Anyway, it will be a dead person sooner or later, and it is useless to say more.

"Dare to show off in front of me?"

Fang Yue roared, righteous and restrained all evil.

The curse on the surface of the ghost body was dispersed and washed away. This unsolvable power is not invincible after all, it belongs to the category of Yin and Xie and is restrained by Haoran's righteousness.

With a roar, the ghost's body burned, and the flames could not be extinguished.

"Do not!"

The ghost's eyes widened and unbelievable. It swept across the world, and the world was invincible. Even people who were many levels higher than him would feel helpless because the curse was insoluble, and no one could break it.

If it is contaminated, even some big people will feel very troublesome.

"Die!"

Fang Yue roared again, his voice thunderous and exploded on the ground.

A cursed ghost destroys itself and becomes ashes in the burning fire.

"Haoran is righteous!"

The scarlet puppet in front of the altar muttered to himself. Its eyes flickered, revealing a ray of surprise.

The curse is his specialty and the killer of the Death Organization.

The first wave of curses was broken, and the chances were small, and this Fang Yue could easily survive it, it was indeed unexpected!

"What to do? What to do? This Fang Yue is too invincible, even the curse has been cracked! The Death Organization has nothing to do with him, or Master Summer Moon, you can do it yourself!"

An Ocean World's rotation realm expert said anxiously.

This Fang Yue became stronger as he fought, giving them a lot of pressure.

"What hurry, this is the first wave, and there are eight waves of curses. Even if Fang Yue has the power to reach the sky, he will fall here!"

The Scarlet Puppet reprimanded.

It shot, and there has never been a precedent for failure.

Sure enough, the second wave of curses came as scheduled, it was a \*\*\*\* whirlwind, sobbing constantly.

This whirlwind is unsolvable and can corrode the flesh and blood of human beings, even if a strong person in the world is scratched, in a blink of an eye, the flesh will become a pile of dead bones!

"and also?"

Fang Yue raised an eyebrow.

He roared again.

As a result of roaring for a long time, his voice was almost hoarse, and the whirlwind did not dissipate.

"Uh, too little study, Haoran is just a little righteous, and the result is exhausted, there is no way to resist the curse!"

Fang Yue chuckled.

It's not really serious.

The scarlet puppet sneered: "Without Haoran righteousness, let me see how you can resist my scarlet whirlwind!"

At this time, the spirit stone power on the altar was consumed.

The Scarlet Puppet filled two consecutive strokes.

A full 128 pieces of the best spirit stones were consumed and turned into powder.

The \*\*\*\* face was stern, and Fang Yue's strength had actually exceeded his expectations.

"There is no way, I can only deal with it seriously!"

Without the blood martial clan by his side, Fang Yue's instincts recovered and he was stubborn, no longer his previous serious expression.

"The wind is scattered!"

Fang Yue tapped a finger.

The wind suddenly dissipated, and the curse power in it was absorbed to the red line on his finger.

The light of the red line flashed, and then it returned to dimness. It looked ordinary, but it was designed to absorb all curse auras.

"impossible!"

A stream of blood spilled from the corner of the Scarlet Puppet's mouth.

Sacrifice and curse, take risks, if it succeeds, it is natural to say, if it fails, it will encounter backlash.

The strength of the backlash depends on the strength of the curse.

The first wave of curses, it can barely bear.

The second wave of curses failed, and it has already suffered some trauma.

With this kind of trauma, all defenses are ineffective.

The blood-colored puppet stared at Fang Yue, showing a crazy and endless expression.

Occasionally, Bloody shot again, and its palm waved, and in a blink of an eye, sixty-four blood-colored beads were placed on the altar.

Every bead exudes an astonishing evil spirit.

Each one is condensed from the blood of the strong in the world, and is worth a thousand gold.

"Ghosts and gods, open the gates of the underworld, wailing from hell, and raining blood on the world!"

The Scarlet Puppet was almost crazy, and he gave a long scream.

A \*\*\*\* storm was spilled on Fang Yue's head!

The door of the underworld was opened, and a black chain wrapped around the hideous ghost rushed out from it. His aura was very strong, and when he appeared, Qianyue Mountain almost trembles.

Fang Yue's eyes trembled slightly.

This fierce ghost turned out to be standing at the pinnacle of the rotation realm. His talent is extremely high, I am afraid it can sweep the primary Yin-Yang powerhouse!

"Fang Yue is dead this time, no one can save him!"

The Scarlet Puppet is very proud, because this fierce ghost was released from the ghost prison in the underworld, and all the detainees are felons in the underworld!

The ghosts who are not the peak are not eligible to be locked in a ghost prison.

Even if he can defeat this ghost with his own shot, there are two counts.

"Ghost?"

Fang Yue showed a strange look.

If it is said that the creature he fears most among the many creatures is this species.

"Jiuyou Huangquan, show it to me!"

Fang Yue also cultivated ghost skills. With the strength of his soul, using this method of cultivation was like a fish in water, and he could reach extremely high levels without expending too much energy.

When that Li Gui saw Jiuyou Huangquan appear, he shivered before turning around and ran away!

He was screaming, irrational, out of instinctive fear!

"What's happening here?"

The proud look on the Scarlet Puppet's face was dull.

He doubted whether the ghost released from the ghost prison was fake!

The fierce ghosts of other people's families are fierce and not afraid of death, and they are so fierce that no one can resist them.

"Don't run, stop for me!"

Fang Yue roared.

The ligui oiled the soles of his feet and slipped faster, Mad, if you say you don't run, you won't run, this Huangquan has been summoned, so the fool won't run!

In Fang Yue's hand, a ghost soldier appeared, which was an imitation of a Yin and Yang mirror.

Black is sentenced to death, red is alive!

Fang Yue's black mirror shone down, and the ghost was shrouded in it. He was contained in the imitation of the Yin Yang mirror. He struggled repeatedly and couldn't escape. Eventually, he was trapped in it and became Fang Yue's prisoner!

"Ghost soldiers! Ghost soldiers in the Yin-Yang realm, who on earth you offended Xia Yue! Do you know? Just this ghost soldier can make a leader-level powerhouse kill all of you!"

The Scarlet Puppet was shocked again and again, he really realized that he was wading in a muddy water, and he was pitted by the stinky fish in the ocean world!

Those who can take out ghost soldiers are not simple characters, at least in the human world, there is no such weapon circulating at all.

Ghost soldiers, run through yin and yang, shared by humans and ghosts, in which world this thing is a priceless treasure, inherited from the world!

The scarlet puppet gritted his teeth: "If you don't do it, you won't stop. As long as you kill Fang Yue, this ghost soldier is mine! If you want to do it, you can do it with a big vote! People have no windfall or wealth, and horses have no night and grass or fat! I'm giving it up this time!"

Before the Scarlet Puppet came and raised his hand, Fang Yue had already opened the door to the underworld.

A group of Yin soldiers appeared.

Among them, the leader is actually an old acquaintance, Xiyue Guicha!

"why you?"

Fang Yue and Xiyue Guidi stared at each other.

"How come there are you everywhere! Are you not a ghost? I am reporting this time to tell you that a ghost has run out of this ghost prison!"

All the detainees in the ghost prison are felons from the underworld, and it is no small thing to escape one person!

If you report something, there will definitely be great credit.

According to the truth, if he reports a ghost messenger on the earth, he will definitely receive attention immediately, and let the special management personnel in the ghost prison come out to investigate and strictly judge.

What is this sending a ghost to do?

Could it be that Xiyue's ghost chase is also engaged in part-time jobs, and he doesn't make money as a ghost chase, so he went to the ghost prison to find an errand to develop the secondary industry? Xiyue ghost sent Fang Yue and said: "I am the second commander of the Zhenger Eight Classics in this ghost prison. I am responsible for over 300,000 ghosts from 100 to 199 districts. This time the ghost escapes. The management is lax in the ghost prison! If it is discovered by the above, I will definitely not run away from joint responsibility

! Therefore, this fierce ghost must die in the human world, at least not be able to continue to make waves and be discovered above! "

Yuzuki Guichai's words were rather harsh.

Because this involves his destiny, he has to be cautious.

"Oh, I originally wanted to take advantage of this opportunity to be promoted. I didn't expect it was because of your negligence in work!"

Fang Yue was a little disappointed that he and Xiyue Guichao had an old relationship.

Since it has affected the future of Xiyue Ghost, Fang Yue naturally cannot say anything! Xiyue Guichao shook his head slightly: "It is not without a chance to make meritorious service and promotion. Recently, the ghost prison has been loosened, and people have been using sacrificial methods to release prisoners from the ghost prison. These people are extremely hateful! Do not put the underworld in their eyes, they mess up the universe

, Affecting order, must be brought to justice! This time there is this ghost that has been released, we can follow the vines, pick out all these wicked people, and send them to the underworld for trial! "

Xiyue Guicha's eyes rolled, and he thought about it immediately. In this case, both he and Fang Yue would be good, and it would be good for him and lay the foundation for future promotion!

The two of them sum it up for a while, just do it!

And at the moment when Xiyue Guichao appeared, the scarlet puppet knew that the situation was not good and was about to flee.

"Hey, did you escape? Dare to release the ghosts in the underworld ghost prison and openly defy the underworld rules. Who do you think you are?"

Xiyuegui was like a dragon and snake, jumped, tore through the space, and came directly to the Scarlet Puppet.

Fang Yue also followed the torn space and jumped out.

Both of them disappeared.

On the Qianyue Mountain, a group of blood martial ancestors were all stunned, they were about to stare out their eyes!

what is happening?

Their genius actually ran away by a space jump from the ghost, and disappeared!

The ghosts belong to the underworld, which is impossible for ordinary people to see.

However, in order to stabilize the roots of the ethnic group, the Xuewu tribe arranged several ancestors in the Yin-Yang realm to sit in Qianyue Mountain.

They penetrate yin and yang, and they can already detect the appearance of ghosts!

The ghost is poor, the status is extremely high, and he is a public official in the underworld, with great authority and great strength.

When the blood-colored puppet moved slightly, it was enveloped by a cold, secluded, and gloomy aura.

The blood-colored puppet's body was stiff, and it couldn't move!

Fang Yue saw the scarlet puppet and the altar in front of him, and immediately understood that the curse he had just encountered was completely influenced by him!

There are strong men in the ocean world around, but when they see the ghosts coming, they all shivered and bowed down!

This is not an ordinary kneeling, but three kneeling and nine kowtows, kowtow as if to pound garlic!

Even though Xiyue's ghost is poor, it is now in the realm of Yin and Yang. But his yin and yang realm is not an ordinary yin and yang realm, he breathes, he breathes, he vomits, and he seems to be able to drink river water!

Yuanyuan's billowing heaven and earth aura rushed toward his body!

The underworld is a high-level plane comparable to the heavenly court! The exercises and resources in it are all unparalleled in the world, and the strong people cultivated are all first-class and powerful.

### **Chapter 559: Scarlet Puppet**

"My lord, I was wrong, my lord, I was wrong!"

Xia Yue had been frightened by the ghosts of Xiyue, and no matter how strong the people of Ocean World, they would not dare to be arrogant in front of the underworld.

The supreme power represented by the underworld, such as people like them, if there is no soul annihilation after death, they will fall into the underworld, experience six reincarnations, and obey the judgment and command of the ghosts!

Xiyue Guichao ignored Xia Yue at all, and looked directly at the Scarlet Puppet, broke the ghost prison, and summoned the ghosts. Xia Yue was at most just an introduction.

The real culprit was the Scarlet Puppet. If it weren't for him, he wouldn't be able to do such a thing even if Xia Yuetian had the courage.

"I'm a ghost chaser from the underground palace, you still wait for the creatures to punish?"

As soon as Yuzuki ghost shot, he was ready to kill.

Opening the ghost prison will inevitably contaminate the atmosphere of the underworld ghost prison.

"Hahaha, a small underworld ghost chaser dare to be arrogant in front of me? Do you know what identity I am and what kind of existence I am behind? I advise you to leave as soon as possible, and don't make repeated trips to this muddy water !"

The Scarlet Puppet has an arrogant attitude. Yuzuki Guichao stared angrily: "No matter what your status is, what kind of existence you have behind it, in short, if you violate the law of yin and yang, it is your fault to open the ghost prison privately. It is an unpardonable sin! No matter what your background and Reason, in the face of Yin and Yang order, all must be

Trial! "

Yuzuki Guichao has a tough attitude, this scarlet puppet has a background, and he is also from an extraordinary background!

"I am from the Reaper Organization! We belong to the underworld as powerful as in the underworld. If you dare to move a hair of me, the underworld army will kill you immediately and make the forces behind you roll over!"

The Scarlet Puppet roared loudly. His eyes opened in anger, threatening Yuzuki Guichai constantly.

Yuzuki ghost said slowly.

"Underworld? Sorry, I am not threatened. I am the underworld ghost chaser and the underworld are not at the same time, but I recorded your words! I have done a great job in the underworld. It turns out that this ghost prison thing It is a conspiracy involving the underworld!"

The ghost of Yuzuki was slow and conspiring.

He asked the Scarlet Puppet to speak, completely inducing a confession.

Only with a confession can a capital punishment be imposed. The greater the secret involved, the deeper the credit he and Fang Yue will allocate.

The Scarlet Puppet immediately paled. He covered his mouth, knowing that he had said something that shouldn't be said. The Underworld of the Underworld were indeed two great underworld forces, but on the surface, the two families were harmonious, and they had never made a big fight!

Once this matter was known by the underworld, even if it wanted to protect him, it would be powerless. Because the underworld and the underworld have not yet completely smashed their faces and fired them.

People in the underworld who dare to save him is tantamount to admitting in disguise that they are working against the underworld.

The Scarlet Puppet was eventually taken away by Yuzuki Guichai.

The creatures who left Xia Yue and waited for the ocean world were dumbfounded, like puppets, they didn't even dare to breathe, for fear that the gods would fight and harm mortals.

The underworld and the underworld are all giants, war machines, let alone them, even the ocean world behind them dare not be involved casually!

Taking advantage of the entire gap, Fang Yue quickly slipped away.

When they reacted and killed them hand in hand, he really couldn't get away without using his hole cards!

Fang Yue soon returned to Qianyue Mountain, and his expressions were different from the big guys!

Only Fang Yue was able to contact the Underworld Mansion to give him high officials.

This patron is harder than anything!

The underground palaces and heavenly courts are all high-ranking existences, and the level of creatures in them is not comparable to them!

After several considerations, the senior blood martial clan on Qianyue Mountain decided to give Fang Yue a position of chieftain. Let him recruit a thousand soldiers of the blood martial clan, and the blood martial clan will support the daily consumption of the army.

This is a considerable authority.

Because this is free recruitment.

Recruiting one thousand innate is also recruiting.

Recruiting the strong of a thousand worlds is also recruiting.

Moreover, the disciples of the Blood Martial Clan are all martial arts masters. When they arrive on the battlefield, they are all arrogant and powerful soldiers with one enemy to ten and one enemy to one hundred!

Fang Yue nodded slightly, not surprised by the decision of the Blood Martial Clan.

His performance is outstanding, and he deserves this treatment from the Blood Martial Clan!

The commander of the thousands became the middle level of the Blood Martial Clan in Qianyue Mountain in one jump! In the future, he can participate in the research and discussion of some secret incidents of the blood martial clan! Status and status are drastically different!

At the same time, the blood martial clan gave Yin Chuanxue an identity, centurion!

In the previous battles, Yin Chuanxue's performance was also quite good, especially in the control of the basalt battle formation, that can withstand the defensive power of the rotation level, so that many high-level blood martial clan are bright!

Fang Yue and Yin Chuanxue are also considered to have a little status in the blood martial clan!

At least he has gained a firm foothold in the blood martial clan and gained trust! "This time the matter of the Ocean World still needs a long-term plan. I just followed the Xiyue ghost chase to the station of the Ocean World, and discovered that there is a strong person in the Yin-Yang realm and six strong people in the peak of the rotation realm in his residence. This is also a force not to be underestimated! Although it may not be

It's really enough to break through our Qianyue Mountain, but if we are really crazy, it will also pose a great threat to us! "

Fang Yue hit the iron while it was hot and wanted to stand again.

Among the blood martial clan, only those who reach the level of a ten thousand chief or have a title can be regarded as a real high-level, with the right to speak and make decisions.

Otherwise, all centurions and thousands of commanders belong to the middle level. If you do well, you will naturally be rewarded, but if you do not do well. It is directly dismissed or even obliterated!

"Oh? Fang Yue, what insight do you have in this regard?"

A middle-aged man of the blood martial clan spoke, his voice was pleasant, like a ringtone.

This is a strong man in the Yin-Yang realm, belonging to the real high-level of the blood martial clan!

His name is Zhang Fengyu, Zhang Kun's grandfather!

Because Fang Yue trained Zhang Kun, his vision of strength has been greatly improved.

Therefore, Zhang Yunyu and Fang Yue also had a great affection.

The cycle of cause and effect, retribution is unhappy.

Good is rewarded for good, and evil is rewarded for evil, but so! "This time I followed the ghost mission of Xiyue, and heard from him that the place occupied by the marine creatures is essentially an ancient, \*\*\*\* altar. This altar can be used three times in total to sacrifice endless flesh and blood and revive ancient heroes. I am afraid that the creatures of the ocean world are struggling to arrange

The strong men of the blood martial clan are attracted into the urn, and the real purpose is to kill them, and then sacrifice with flesh and blood to resurrect the strong men in their clan. They are malicious and have to guard against! "

Fang Yue's tone was firm.

As soon as these words came out, Zhang Fengyu and others immediately held their breath and trembled fiercely!

The resurrection altar, this thing only exists in the legend.

In the most ancient era, when the chaos first opened, the heaven and the earth were full of gods and demons. Indeed, there were amazing talents who had done this.

In addition, he left thousands of altars to resurrect the dead!

Summon the heroic spirits that have been broken between heaven and earth to come again and live anew, but there is also a great risk in this.

Human beings cannot be resurrected from the dead. This is the law of heaven and earth. If you violate the law, you will be condemned by the heavens. Those who are resurrected have only a short one hundred years of life, and they have to endure the great thunder. Died from heaven!

If you get this altar. People like them can definitely make a big contribution!

Resurrect some talented powerhouses who have left a reputation in the history of the blood martial arts!

In fact, none of this information was told to Fang Yue by Xiyue ghost messenger, but was told by Li ghost who was sealed by him.

Among the imitations that were sealed on the Yin Yang mirror, that Li ghost gradually recovered his wisdom.

He was ignorant by the power of the sacrifice before, and lost his will. The name of this ghost is Zhang Kui. He was a master of Yin-Yang realm during his lifetime, and a supreme genius of Human Race! Later, because the murders committed during his lifetime were too great, he was thrown into a ghost prison and tortured continuously. For a full three hundred years, his cultivation was turned back, and he fell to the level of Yin and Yang.

Times!

Zhang Kui was summoned this time because it was a blessing in disguise. From then on, he was free from the ghost prison!

He is respectful and respectful to the other party, Yue Gong, who knows everything and says nothing.

Originally, Fang Yue didn't know the resurrection altar, but Zhang Kui introduced it to Fang Yue. "There are nine resurrection altars in total. One of them is the main altar, which can resurrect the ancient heroic spirits ten times. Of course, it will not be restored to full prosperity immediately after the resurrection, but can only reach the peak of the Yin-Yang realm at most! The Yin-Yang realm is equivalent. The special realm, the division of Yin and Yang, Chaos Tai Chi, can resurrect the dead, and those who are resurrected from the main altar can have a thousand years of life, while the other eight altars belong to the auxiliary altar, a total of eight, each altar, Can only resurrect the ancient heroic spirit three times, and even if it is resurrected, it will only have a hundred years of life, the cultivation level of the peak of the world.

World!

With these nine altars, you can assign an auxiliary altar to the blood martial clan. With this credit, you can definitely make you a leader in the blood martial clan! "

This Kui is extremely smart and seems to know everything.

Fang Yue hesitated a little, but he obeyed his opinion.

After all, this Kui is a human race, and he also came from the world of Xuanhuang.

In the history of some ancient books, there are even records of Zhang Kui's deeds.

He has left a good reputation among the human races, and it is for this reason that Fang Yue believes his words.

Fang Yue said about the resurrection altar, and the whole Qianyue Mountain was like a frying pan! "This matter is too big! It must be reported upward! The resurrection altar, the resurrection altar, can completely suppress the luck of the family. Once a master falls, he can initiate a sacrifice, let the flesh and blood altar immediately pay homage to the master Resurrection! One hundred years of life is nothing, the high after the resurrection

Although it is difficult to increase the lifespan by hand, there are many ways. As for the restoration of cultivation base, it is even easier. With resources and realm, he can be restored to prosperity in three to five years!

A resurrection altar is equivalent to three lives in vain, and its value is too great! Just three or two of us, the big cats and kittens, simply cannot afford such a big cause and effect! This matter must be reported! Can't be sloppy! "

Zhang Yunyu roared loudly, extremely excited!

"Report? Haha, we have already reported! This time the credit belongs to our blood eagle clan, oh no, the resurrection altar is also our blood eagle clan!"

At this time, a figure appeared, covered in blood, and the whole body was filled with a bloody, murderous, cruel smell. As soon as he appeared, all the powerful blood martial artists felt a deep suffocation.

## **Chapter 560: Blood God Peak**

Because this powerhouse of the blood eagle clan is the pinnacle realm of Yin-Yang realm, anytime, anywhere, it is possible to break through to the level of the real realm!

"Blood God Peak, when did you come! This Qianyue Mountain is the territory of our blood martial clan, according to the truth, you can't appear!"

Zhang Yunyu roared loudly, his eyes full of incredible.

Family has family law, family has family rules!

To appear in the territory of other ethnic groups at will is tantamount to a great provocation.

"What can or can not appear, in the world, is it the king's soil, the land of the land, is it the king's minister! Zhang Yunyu, don't forget, I am a noble in the blood world, a third-class viscount! What happened to the territory of your blood martial clan? It is reasonable and legal to inspect!"

This Blood God Peak is quite domineering, relying on his superior strength, is to reverse black and white and do whatever he wants.

But Zhang Yunyu didn't even use him to do anything. After all, this is the case in this era, and the big fist makes sense.

"Oh, by the way, Zhang Yunyu, you don't have to struggle now, this emptiness has been enveloped by me with treasures, and no thoughts or information can be transmitted!"

The Blood God Peak was slow and tidy.

A pair of his eyes flashed with pride.

Afterwards, the fingers of the Blood God Peak flicked in the void, smashed, into a film, and the strong blood eagle clan flew out with flapping wings.

This is not a spatial technique, but also a summoning technique.

The Avenue of Summoning is also quite profound, although it can't be compared to the Way of Space, but it is also a rare method.

In a moment, Qianyue Mountain was occupied by the Blood Eagle tribe. There are a million blood eagles hovering in the air, and each blood eagle is quite strong and full of breath.

This is a typical dove occupying a magpie's nest! His heart is terrible!

Zhang Yunyu glared at the Blood God Peak: "Blood God Peak, if you do this, you will suffer retribution!" "Retribution? What kind of retribution can you do? You have two or three big cats and kittens of the Blood Martial Clan on Qianyue Mountain. There are only nine people, and all of them are below the fifth level of the Yin-Yang realm. Who can repay me? And this time, I have brought 30 \*\*\*\* eagles from the Yin-Yang realm.

, 3,000 elites in the rotation realm, the rest are soldiers of the blood eagle tribe at the heaven and earth realm level! Whoever flicks half of your finger, I promise you will be wiped out immediately, with no bones left! "

The expression of Blood God Peak became more and more public.

Although Zhang Yunyu was angry, he clenched his fists, his joints turned white and creaked.

However, he dared not say anything. It didn't matter if he died. If one hundred thousand people on Qianyue Mountain were also buried here with him, then he would be a sinner forever! "Hahahaha, are you angry! But what's the use of being angry? You who have no strength are just a bunch of scum! In this operation, you will also become disciples of Pathfinder, helping us to explore the traps set by the creatures of the ocean world. In short, all costs must be borne by you, and

All the benefits belong to our blood eagle clan! "

Seeing Tuqiong, the Blood God Peak didn't even bother to hide his true purpose.

At the same time, he looked at this Qianyue Mountain greedily, and the incomparable brilliance of the stars in it also made him feel excited.

"From now on, this Qianyue Mountain will belong to our blood eagle clan. You can do it if you want to cultivate, but you have to pay a high rental fee. Well, under 300 meters, one day of cultivation will give us ten middle-grade spirit stones. From 300 meters to 700 meters, cultivate one hundred middle-grade spirit stones a day!"

When the Blood God Peak said this, it was already a naked robbery.

He let the blood martial clan wait, the anger in his heart burned, but he was helpless.

A small leak will sink a great ship!

These powerful men of the blood martial clan have distorted expressions and their hearts are burning with anger, but they can do nothing, and in the end they can only frustrate themselves with themselves.

Fang Yue looked at this scene, although his heart was extremely angry.

But from another aspect, he was a little happy.

His original identity was an undercover agent. If he could use this opportunity to strengthen the contradiction between the blood eagle tribe and the blood warrior tribe, to instigate the discord, and to cause constant internal friction among their tribe, then he would have made a great contribution. Make a big contribution!

This is taking chestnuts from fire, walking a tightrope, extremely dangerous, life hanging by a thread.

But once he succeeds, he will also get various benefits.

Fang Yue's eyes flickered, considering his next plan. "Oh, you are called Fang Yue, right! I have heard of you. Recently, you have been quite good in the blood martial clan! Know the battle formation, understand the strategy, this time the resurrection altar was discovered by you! Come on! , Open your heart, contribute your faith, and let me be your master! I will focus on you in the future

, Become my right man! "

The Blood God Peak began to target Fang Yue.

There is even an aggressive, undeniable feeling in the tone!

Fang Yue frowned slightly, he didn't expect this Blood God Peak to be so domineering. One mouth is to let him open his heart and contribute to his faith. Once he becomes a believer of the Blood God Peak, from then on he can only be at the mercy of the Blood God Peak and lose his independent will.

This kind of belief is too terrifying. It is completely tantamount to losing oneself and becoming a puppet and slave to the other party! At this time, Zhang Yunyu stood up for Fang Yue, "Blood God Peak, you are too much! Fang Yue is a genius of our blood martial clan, what do you mean by letting him believe in you? Do you want to devour our blood martial clan? The foundation of the blood, thoroughly, let the blood eagle tribe and the blood martial tribe go against each other? I

I tell you, don't think that our blood martial clan really does not have the ability to resist, the soldiers can be killed, not insulted. If you continue to be aggressive, I will choose to blow up!

You must have heard of the demon disintegration Dafa. Burning lives and choosing to burst out for a short time, I can display ten times, a hundred times the strength, although only three or five strikes, but you may not be able to resist it! "

The blood martial character is staunch, at this moment, Zhang Yunyu finally broke out.

Fang Yue had also heard of the great law of the disintegration of the heavenly demon, and this method was widely spread among all ethnic groups.

However, the conditions for using it are also very harsh. It is necessary to condense the inner alchemy to be able to burn the potential and burst out the most brilliant brilliance at the last moment of life.

When Xue Shenfeng heard this, he immediately became jealous.

He believed that Zhang Yunyu did what he said, and he really did such a thing.

"Hehehe, forget it if you don't want to! I'm just giving Fang Yue a chance! My blood eagle clan's resources are a thousand times, ten thousand times, that of your blood martial clan. With our training, it is always better than in the blood martial clan. Good delay!"

Blood God Peak gave a dry smile, and his strong attitude eased a bit.

The blood martial clan is a tough bone. If the blood martial clan is really bullied so much that it will be filled with indignation and fight to the death, then their strength will be greatly damaged, and everything will not be worth it!

Fang Yue was temporarily protected.

Subsequently, the Blood God Peak led the blood martial clan, the blood eagle clan, and the two major groups to explore the place where the 100,000 troops of the ocean world were stationed.

Chi is going to change, the resurrection altar is too precious to be able to resurrect a peerless powerhouse, and even suppress the luck of a clan.

In a blink of an eye, fluttering, hundreds of blood eagle tribes from the world realm flew into the barrier first.

As a result, they seemed to be sinking into the sea, without a single splash of water agitated, they had all become flesh and blood sacrifices and disappeared without a trace!

"How is this possible! A soldier of my blood eagle tribe, my trusted disciple!"

The eyes that Blood God Peak looked at almost fell out. Originally, he wanted to break through the secret surroundings of marine creatures and take down the resurrection altar in one fell swoop.

But they had lost more than three hundred men before they could touch the door.

"I said earlier that this place is full of traps. It is a big trap arranged by marine life, a big pocket, waiting for our men and horses to enter it, and then all of them are captured and turned into flesh and blood offerings to sacrifice to the sky. Finally, they will resurrect their ocean world. Ancestor heroic spirit!"

Fang Yue was not surprised by this result, even he didn't see through the place this time.

If it were not for the mountain \*\*\*\* to report the news, he would have fallen into it and couldn't help himself. Not to mention, these blood eagle tribes seem to be aggressive, but in fact they have no brains and dare to break in without knowing the changes in the formation.

"Oh, do you know the secret inside? Why didn't you say it earlier! Now, I order you to unlock the mystery of this place immediately!"

Blood God Peak has a sharp tone.

Fang Yue grabbed the handle of the Blood God Peak.

"Oh, I am a member of the Blood Martial Clan, why should I work for you the Blood Eagle Clan? And you don't know, it takes a lot of effort and brain power to solve this formation, and someone needs to act as a chess piece to explore the way. Anyway, I am afraid of danger. Won't go down in person."

Fang Yue began to bargain.

Blood God Peak simply hated the roots of his teeth.

"Let's talk, what conditions do you want, as long as you can unlock the power of this formation, everything is easy to discuss!" Under the eaves, people had to bow their heads. Originally, none of the blood eagle tribe or blood martial tribe was proficient in the formation. The law changed, even if he offered a huge reward, he couldn't find other suitable candidates to solve this formation. Who knows that among the blood martial arts, an unknown junior, God

Connected continuously, the realm is not high, but the ability is not small, there is still an understanding of the way of formation, and has his own unique insights! "It's easy! Solving the formation method consumes energy and wastes physical energy. I need Xingyue Dew to replenish my mental consumption, and White Sun Pearl to replenish my physical strength! And I am a noble array mage, exploring this danger I can't do it myself! I need someone to give

I'm exploring the way, and someone is responsible for protecting me! "

Fang Yue was slow to make the conditions.

This Blood God Peak is anxious, Fang Yue is not anxious.

Hearing the words, the Blood God Peak immediately furious, "What, do you dare to threaten me? Do you know whether I am young or old, do you know, what a terrible price it would cost me to threaten me!"

Blood God Peak was furious, what status was he, what status was Fang Yue.

In this world, the fist has always had the final say.

In his eyes, Yue was a reptile, an ant, how could he have the guts to challenge him.

"If you don't want you to get there, without my help, all of your men and horses have been swallowed by this formation, and there may not be anyone who can break into it, let alone seize the resurrection altar in it!"

Fang Yue was not afraid of Blood God Peak at all. It really made him anxious, and it was a big deal.
