

## God of Life 561

### Chapter 561: Temporarily join forces

Blood God Peak raised his hand, trying to slap Fang Yue to death.

At this time, Zhang Yunyu stood up and guarded Fang Yue.

"Why, are you still going to kill someone?"

Zhang Yunyu guarded Fang Yue, not allowing the Blood God Peak to touch his hair.

Blood God Peak gave up bitterly, and finally said: "That's good, I promise you your terms!"

"Well, Yin Chuanxue, come here and take care of me! And your subordinates are also here. If I have any problems, I will launch a basalt battle, know?"

Fang Yue said to Yin Chuanxue.

Yin Chuanxue's face was cold and nodded slightly.

Then Fang Yue picked up a stone casually and threw it onto the barrier in front of him. The stone fell and cracked!

"Did you see where my stone fell? You used magical powers together and attacked that location frantically. This is where the barrier's weakness lies. The carrying capacity is the weakest! In other places, you hit it for nothing, everything Attack power will be transmitted to the ground below!"

Hit a club and give a sweet date.

Fang Yue's blindness is definitely not good, he needs to prove his worth!

Blood God Peak showed a look of suspicion, and didn't quite believe what Fang Yue said.

"You two join forces to attack and tear the barrier!"

The Blood God Peak arbitrarily assigns two blood eagle tribes at the heaven and earth level, and the yin and yang are combined to send out a chaotic light beam.

The light beam fell, exactly where the stone fell.

As a result, the ripples on the barrier rippled and disappeared quickly, without any change.

"Fang Yue, what is going on? We have already taken a blow, but we still haven't broken the barrier!"

Without a single blow, the Blood God Peak immediately asked the teacher to ask the crime, and the opponent Yue came aggressively!

Fang Yue sneered, and said with disdain: "What do you guys look like when you attack this softly? This is a barrier, not mud! Even the weakest place can't be broken casually! You can't. , Come and see me!"

"Five hundred soldiers, condensing the battle formation, with a full blow, blasting the barrier!"

Fang Yue gave an order, and the five hundred soldiers under him immediately fought each.

A group of five becomes a small battle formation.

Then five groups of men and horses form a new team again.

Twenty teams of men and horses, one hundred small battle formations, spun up in unison, stirring up the situation, and absorbing countless auras that wander between heaven and earth.

Between the heaven and the earth, the spiritual energy is surging, the waves are turbulent, all the power, all the means, finally converge into a blood-colored spear.

Spear swing!

With a bang, it pierced the void and stirred the world!

The barrier was pierced instantly.

A huge hole was torn out.

Blood God Peak showed a surprised look, extremely surprised.

However, Fang Yue didn't wait for his surprise to end. He urged: "Everyone enters immediately. This entrance can only last for a moment or three. Once the barrier is closed, this weakness will immediately disappear. It is not so if you want to enter it again. Simple things!"

After Fang Yue finished speaking, he led his five hundred subordinates into the enchantment.

Zhang Yunyu also shined, and ordered: "Follow Fang Yue and don't leave the team!"

The Blood God Peak also followed, leaping into the barrier, disappearing without a trace.

In this enchantment, the area is vast, and it is simply a world of its own.

Above the head, a big scarlet bird with wide wings flew across the sky, burning with soaring flames, like a legendary phoenix!

In addition, there are old snakes meandering, and white tigers crawling. Each head is an ancient beast, which is extremely cherished.

Surrendering one head casually, it is the blood of the profound level, used to guard the mountain gate, is the only candidate!

It's a pity that the Blood Martial Clan and the Blood Eagle Clan are all anxiously looking for the resurrection altar. Once the resurrection altar is found and brought back to the clan, the contribution is greater than the value of surrendering a thousand cherished animals!

"This enchantment can be moved, and the concentration of aura in it is about twenty times that of the outside world. This place is suitable for cultivation, no less than a place of blessing! After taking it away, it can establish a martial art and inherit immortality, which is equivalent to a place. Xanadu!"

Zhang Kui roared excitedly in Fang Yue's yin and yang mirror.

He has already recovered his memory and reason, and he is always thinking about the future of the Xuanhuang world.

Many worlds invaded the world of Xuanhuang, relying on their current strength, they want to resist, there are many dangers, and they must prepare for the worst.

If the Xuanhuang world really falls, the fire must be reserved for the human race.

And this small world is the best place!

Fang Yue also valued this place, with a radius of hundreds of kilometers, full of aura, and exotic animals rampant, among which there are strange flowers and plants, all precious, it is a reproduction of the wild world!

"Fang Yue, give me a physical body! Let me temporarily resurrect me, this world must fight for it, I am afraid it is not enough just by your means!"

Zhang Kui was not polite, and Fang Yue made a request.

According to normal principles, this request is very excessive, no matter who it is will refuse!

The relationship between the two is not friendly. Strictly speaking, the two sides are hostile. It is only because Zhang Kui is a hero in the history of the Xuanhuang world human race, Fang Yue let him go!

"it is good!"

Fang Yue released Zhang Kui for a while.

No doubt about hiring, no doubt about it.

Fang Yue is not a person with small belly and chicken intestines! If this Kui dares to rebel, Fang Yue also has a way to subdue him!

Zhang Kui casually found a soldier of the blood martial clan to seize the house, and then it turned into his appearance.

"Although the bloodline level of this blood martial clan is not high, it is naturally suitable for martial arts! Once you step into the martial arts threshold, you will immediately enjoy themselves and promote each other!"

Zhang Kui kept sighing, he was very satisfied with this robbing body.

Exercising any martial arts, can exert 120% of the effect, and every gesture can exude a powerful force.

Zhang Kui sighed. Fang Yue is staring at the front closely. These flowers and trees are exquisite. In essence, they are natural feng shui formations. People who know the feng shui formations can understand the profound truths, understand the secrets of the sky, and do their best. People who don't understand the formation will fall into it and die in vain.

in.

"Hahaha, we have finally entered the barrier, the resurrection altar, here I am!"

The Blood God Peak laughed openly, his eyes were full of burning flames.

"According to our previous agreement, you need to give me Xingyueyu and White Sun Pearl as a supplement! Master Blood God Peak, a strong man of such a realm, shouldn't be fattened by his words!"

Fang Yue looked at the Blood God Peak with a smile on his face.

Blood God Peak saw Fang Yue gritted his teeth with hatred!

"Fang Yue, you still have a role before entering the barrier, but we have broken through the formation. Do you think you have any qualifications to bargain with me when you enter it?"

The Blood God Peak resigned and became fat, even his body exuded murderous intent, locking Fang Yue down.

Fang Yue sneered: "I knew you would be like this a long time ago! However, it is not surprising that you have such thoughts, but it is a pity that you are too calm. I don't know if you want to cross the river to tear down the bridge, but unfortunately, your bridge is still No way, you can only throw yourself into the river when you deal with me like this!"

Fang Yue shook his head and sighed slightly, seeming to be the naivety of the poor blood \*\*\*\* peak.

Blood God Peak couldn't help being surprised. He seemed to realize something, but it was too late!

"Ah!" A blood eagle tribe's heaven and earth soldier was swept down by a cyan tree vine, and its body was drawn in half, and there was no resistance at all!

Fang Yue shook his head repeatedly, seeming to be a pity for him.

"A good man, why is he so impulsive and doesn't treat his life as the same thing!"

Fang Yue's expression greatly stimulated Xue Shenfeng!

He realized that even though he had entered the enchantment, the danger had still not been lifted.

His face suddenly changed, becoming a threatening tone.

"Fang Yue, you quickly break open the formation around here, otherwise, I will sue you for framing your colleagues!"

"Framed colleague? Hey, your eyes saw me framed colleague! You are trapped in the formation, I also sympathize with you, but it is useless for me to be anxious! This formation is really too mysterious, With my cultivation qualifications, I can't crack it at all!"

Fang Yue sneered.

The face of the Blood God Peak was almost green.

It turned out that Fang Yue had already calculated it a long time ago, knowing that there is still a formation inside the barrier, so he broke the barrier so happily for them, and then led the monarch into the urn.

"Fang Yue, you must die!"

One of the palms of the Blood God Peak fell, trying to slap Fang Yue to death like a fly!

But his palm fell flat, and Fang Yue stood still, he just couldn't hit Fang Yue.

"The end of the world is close, Mustard Seed Sumi! This formation is mysterious, and people like you who only know how to fight and kill will never understand!"

Fang Yue shook his head slightly, and then prepared to leave.

The Blood God Peak roared furiously: "Fang Yue, stop for me!"

"Sir Blood, what do you do?"

Fang Yue really stopped, and asked the Blood God Peak for instructions.

Seeing Fang Yue's expression in the eyes of the Blood God Peak, he was almost \*\*\*\* off by Fang Yue!

"If you have something to discuss, I promise that your Xingyue Dew and White Sun Pearl will not lose you! How about you release me?"

Blood God Peak bowed his head, there was no way, he knew nothing about the formation method. Put him here for the year of the monkey to leave!

"Okay! Xingyuelu, Bai Sunzhu, give me a hundred drops first! I wasted a lot of physical energy to break the barrier!"

Fang Yue said unhurriedly.

And that Blood God Peak almost dropped his chin in shock. "What did you say? Dare to say it again? Xingyuelu and White Sun Pearl are all treasures that can instantly restore the strength of the world's peak power. Every drop is extremely precious, and it is used well in battle, equivalent to a practitioner Second life! You really have a hundred drops with one opening, which is simply

It's the lion who speaks loudly! "

Fang Yue sneered, digging his ears and said.

"Oh, one hundred drops of each disagree, then two hundred drops of each! I'm bargaining with you here, but a lot of brain cells have died. You also need to compensate for this!"

Fang Yue sat on the floor and started the price.

Make Blood God Peak want to speak again, but there is no more text!

He was afraid that he would say a few more words, Fang Yue raised the price even higher! He could see that this Fang Yue simply didn't have the honest and honest character of any blood martial clan. He was an out-and-out anomaly. He was a profiteer and a black businessman!

"Well, Xingyue Dew and White Sun Pearl each have two hundred drops. I am trapped in the formation and there is no way to give it to you! You need to relieve me to get me out of trouble."

The Blood God Peak temporarily agreed, but who knew what kind of conspiracy was brewing in his mind!

However, no matter what he was thinking, Fang Yue was not afraid. Anyway, this place is full of feng shui formations, which is equivalent to his home battle. Even marine creatures may not have the real effect of him understanding these terrains.

### **Chapter 562: Resurrection Altar**

"Take the things out, I can naturally get them in my hands. In a word, pay first before speaking, otherwise, don't mention everything!"

The Blood God Peak took out the things.

Xingyuelu, floating in the sky, exudes a cold light like a bend of the moon. Just shining light can make people calm and spiritual. On the other hand, the white sun beads are like rounds of sun shining in the sky, giving people a warm and energetic feeling!

Xingyuelu and Bairidan are all treasures that the Xuanhuang world does not have.

These things can assist practitioners of the Innate Realm to break through, especially if the two complement each other, the effect is better!

Fang Yue got his stuff.

A little more casually, there is a green plant bursting.

That piece of Feng Shui was immediately destroyed.

The dilemma of Blood God Peak is solved immediately!

"Little bastard, without Zhang Yunyu's help, I see how long you can be arrogant!"

"Oh? Go back again and lose your promise? Haha, you are really naive! I can trap you once, but can't I trap you a second time?"

Fang Yue stepped back slightly, the world revolved, and another Feng Shui formation was instantly activated.

In an instant, the spirit of heaven and earth gathered vigorously, turning into a dragon and tiger figure, and besieging towards the Blood God Peak.

Dragon and tiger leaped, each roaring.

The sun and the moon are chaotic, and there is no light.

This feng shui formation is naturally formed, and Fang Yue's formation level can't be used to arrange one thousandth of it.

The most subtle thing is that the material used in this array is the plants and trees in the world, without the slightest trace of carving, and it also makes people have nowhere to start and cannot crack.

Xue Shenfeng's body trembled slightly, and the two air currents of Yin and Yang turned around.

The dragons and tigers are all shattered!

The powerhouse at the pinnacle of Yin-Yang realm has a mighty momentum, and it is not something that an ordinary formation can restrain.

However, a wave of formations disappeared, and another wave of formations appeared.

The Blood God Peak took a step, and the moon was ruined and the stars were sinking, the universe shattered, and the sky was chaotic.

There is no room for survival at all!

"Ah! Ah! Ah!"

The Blood God Peak kept roaring and felt depressed.

Fang Yue chuckled lightly, and sent the soldiers of the five hundred blood martial clan and Yin Chuanxue out of the enchantment.

"This place doesn't understand the formation method. It is too dangerous. A little mistake, it may become a disaster. I will send out the other blood warriors one by one. As for the blood eagle tribe, let them and the marine life Rush to fight between them, and lose both sides!"

Fang Yue was completely prepared to kill with a knife.

Then seek the resurrection altar for the creatures of this ocean world!

The nine resurrection altars contain the mystery of life and death.

Fang Yue must get his hands, and he has a hunch that these things will have a very profound impact on his cultivation.

In a moment, Fang Yue led the other members of the Blood Martial Clan one by one.

Fang Yue turned back to this enchantment.

"Sure enough, the Blood God Peak has escaped!"

Fang Yue returned to the place where the Blood God Peak was trapped, and the ground was sprinkled with mottled blood. Dozens of blood eagles in the world have become a pile of bones, the flesh and soul in them have all been dissipated, and they have been dissipated by this land. absorb. "With force to break the skill, this blood \*\*\*\* peak is hot enough to let his subordinates take risks and shed a blood path for him. However, this world is extremely vast, and it is not easy for him to find the resurrection altar! , He is very likely to encounter great danger again, even if he will not fall, it will also damage the soldiers

It's not to be afraid to fold generals and consume strength!

This truly terrifying world itself is simply a sacrificial space! All creatures fall into it, and after being killed, all flesh and blood souls will become sacrifices. "

I don't know when, this Kui has recovered to the fifth level of the heaven and earth realm. Before, his physical level was the third level of the heaven and earth realm.

In just a few breaths, he lifted his body by two small realms. This speed is simply terrifying!

In terms of bloodline, Zhang Kui also reached the ninth level of the Yellow Rank.

Zhang Kui has very deep knowledge in martial arts, and a little bit of insight will fully stimulate the blood potential in the blood martial clan.

"In this operation, we must step by step and be cautious. I am afraid that this world is not obtained by marine creatures themselves, but by chance, they entered into it!"

Zhang Kui calmly analyzed. He bent down and dug out a sea dragon scale from the mud under his feet.

On the scales, the lines are clear, and there is a faint smell of sea tides.

The sea dragon belongs to the royal family among the creatures of the ocean world. The bloodline is noble, and it is the bloodline level of the pinnacle of the profound level from birth! With a little evolution, you can reach an earth-level physique.

There are treasures everywhere on its body, even if it is just a dropped scale, it is extremely valuable, and it can be used to forge armor and treasure. "This is the scales of the sea dragon in the realm of yin and yang! My God, this time the ocean world has really lost its blood in this world! According to my understanding, although the individual strength of the sea dragon clan is extremely powerful and talented, but their ethnic group The number is quite rare, and it is a great loss to die!

"

Fang Yue stared, this episode has caught up!

Originally, he just wanted to be a small spy quietly, but no one thought of it. Encountered such a thing unexpectedly.

"Where did you two come from! How come the blood and martial people will appear in my ocean world."

At this time, a group of soldiers on patrol came. Each end is the level of heaven and earth, and the small level is at least on the fifth step.

Wearing silver armor and holding swords in their hands, they were all aggressive, full of stern, oppressive feelings.

This is definitely not an ordinary resident in Sea World, but a well-trained soldier.

Three or five people joined forces and fought by leapfrogging, even if the powerhouses at the peak of the heaven and earth realm attack them, they can support them for a while!

"Stop talking! A quick fight!"

Zhang Kui had no fear and let go of his hands and feet, his mouth opened, and a gluttonous shadow appeared behind him.

That team of Marine World soldiers had no strength to struggle and resist. They were devoured and digested secretly, and became Zhang Kui's supplies.

Zhang Kui's body became more and more tyrannical, and he broke into the sixth level of the heaven and earth realm in an instant!

His breakthrough speed is incredible, given him enough time, I'm afraid he will be able to return to the peak level soon!

His realm is sufficient, all he lacks is all kinds of resources.

Fang Yue looked at Zhang Kui and finally understood how terrifying the strong human race was written down in history.

"The energy in these marine organisms is indeed abundant, and the human race of the same realm is about 30% less than the energy in their body! Therefore, the human race will be very disadvantaged when fighting at the same level!"

Zhang Kui kept judging from the perspective of race war, worrying about the country and the people, with all kinds of anxious thoughts on his face. "This is a calamity, and it is also a temper. I have been able to sense that the Phoenix Nirvana and rebirth from the ashes. If the Xuanhuang world can survive this calamity, it will immediately become stronger! Every civilization has something to take, and a hundred schools of thought contend and absorb Everything can make the world of Xuanhuang become one

A different way! "

Fang Yue didn't care much.

Every war is essentially a clash and fusion of civilizations. Death and injury are certainly terrifying, but if they can take the opportunity to be reborn and get baptized, it may not be an opportunity for the Xuanhuang world.

Zhang Kui stroked what Fang Yue said, and couldn't help nodding his head again and again, his eyes flashing with brilliance.

"What you said is not wrong! It is a disaster and a test. Once the world of Xuanhuang has passed this crisis, it will surely rise to a higher level!" "Actually, these sea-eye creatures have huge bodies, and they are all kinds of seafood. Killing is food. It is provided to the human race people, which can definitely improve their bloodline and strengthen their physique! Perhaps after taking marine life for a period of time, the human bloodline can reach

How about the third yellow level and the fourth yellow level? If it is the evolution of individuals, it doesn't make much sense, but the number of human races is so huge, and all of them have evolved, bringing the entire human race to a higher level, and the ultimate impact is absolutely earth-shaking! "

Fang Yue looked very far-reaching.

Zhang Kui was also shocked by Fang Yue's thoughts.

Regarding marine life as seafood, only Fang Yue dare to think of such a thing!

The two of them talked and went deep, both of them were martial arts masters, and their figures were too fast to be captured and confusing.

Soon, they came to the front of a small temple.

This temple is the native architecture of this world and has nothing to do with marine life.

Around the temple, there are bones falling all over the ground.

It is densely packed, as if it is a \*\*\*\* on earth, extremely permeating.

"These corpses are all marine creatures, and the lowest level is in the realm of heaven and earth! Looking at the numbers, at least thousands of marine creatures have fallen here. They must have wanted to storm the temple, but they were endangered. failure!"

Fang Yue quickly made a clear judgment from the bones.

"This temple is weird, let me explore it first!"

After Fang Yue finished speaking, he took out a black scepter, and a scary skull was inlaid on the scepter.

This is the scepter of the undead, and Fang Yue has forgotten who extorted it from.

He had too much loot, so much that he couldn't sort it out.

Fang Yue's scepter waved, and the skeletons crawled up slowly from the ground. Staggering step by step towards that temple!

"The Avenue of the Undead? No, you are the Way of Death! My God! Who are you? Knowledgeable, proficient in formation, and even practiced a Way of Heaven!"

Zhang Kui was shocked again and again, it was incredible.

The Dao of Heaven is terrifying, the more you practice to the later stage, the stronger your strength!

Fang Yue shrugged, acting indifferently.

"The most indispensable thing in this world is genius. If you don't grow up, genius can be stifled at any time! Therefore, I master the way of heaven, and there is nothing to be proud of!"

Fang Yue is not arrogant, but the true feeling in his heart.

"Stop talking about this, look at the changes in this temple!"

The mighty army of undead went deep into the temple, but before it approached, it was directly shattered by a black wave emanating from the temple and turned into powder.

This black wave has an aura of destruction and killing.

"It enshrines a \*\*\*\* of destruction! All offenders will cause resistance from the temple!"

Zhang Kui became calm after seeing this scene. He seemed to be thinking of something and sighed slightly.

"Huh? Do you still know the gods?"

Fang Yue really wanted to see this Kui with admiration. In the world of Xuanhuang, it seems that there were totems and traces of gods in the very early ages, but since millions of years ago, gods and totems

have all disappeared. Up! The creatures in the Xuanhuang world don't know any gods, and the existence of totems thinks that these things are nothing but absurd.

### **Chapter 563: Gods**

"Yes, I know the gods, and I have even come into contact with the gods! In some mundane kingdoms in the Xuanhuang world, there will even be totems and gods! Of course, this is a matter of our time, and now, I am afraid these things are early. It has been cleaned up! Gods and totems are born on faith. In a sense, they will enslave the spirit and free will of believers. They are too harmful. Many gods, for their own strength, do not hesitate to fish for their own strength. Distorted the doctrine and let all believers become a tool for them to increase their faith. Back then, because of this

The matter has also broken out one after another in the Xuanhuang world. Some gods were killed alive, some left the world of Xuanhuang and went to other dimensional planes to spread their beliefs! "

Zhang Kui was born more than a thousand years earlier than Fang Yue, and he knew a lot more than Fang Yue. In a thousand years, the vicissitudes of life were enough to change everything and let the dust bury history.

Fang Yue couldn't help nodding when he heard this.

Belief in this kind of thing, he is entangled, but has not yet figured out what it is! "However, the gods are indeed powerful. They can condense the godhead and give birth to the gods. In terms of strength, it far exceeds that of practitioners in the same realm! If we two can hunt down this god, get his \*\*\*\* power, and godhead fragments, even The corpse of the gods will be an incalculable wealth

rich! "

Zhang Kui is too courageous.

Dare to shoot when encountering a god.

Fang Yue couldn't help feeling panicked. What kind of person did he know!

"Hunting the gods will lead to a scourge! Such a thing seems to be impossible!"

Fang Yue still had awe in his heart. And Zhang Kui sneered: "Heaven's Scourge? Those are gods created by nature. They are righteous and selfless, fair and just, and master the power of the Tao. The true gods existed when the chaos first opened, and it is indeed rebellious to attack them. Even hurt the origin of the world. But these gods

Spirits are all false gods, not to be afraid! "

Zhang Kui's tone was firm.

Convinced Fang Yue.

Fang Yue still didn't dare to make a move, because no one knew how powerful the gods enshrined in it were!

"This matter still needs to get ahead, let the creatures of the ocean world and the powerhouse of the blood eagle tribe to test. Even if it is a false god, killing the \*\*\*\* is a big thing, involving big cause and effect, and a big entanglement! This way! It's better not to do things!"

Fang Yue flinched.

Zhang Kui said regretfully: "Well then! Since you are not willing, this matter is temporarily stranded!"

The two are ready to leave.

But the temple suddenly opened.

A black figure appeared.

Wearing a black robe and holding a sickle, he was filled with the breath of death, killing, and destruction. His appearance seemed to be the \*\*\*\* of death in Western mythology.

"Take me away! Don't go!"

When the sound fell, the space immediately solidified.

Fang Yue and Zhang Kui were both immobile!

Fang Yue's eyes widened and his mouth opened, so he couldn't speak.

Zhang Kui is the same. In front of the gods, they are extremely small, and they are always ants.

"Oh, I'm sorry, I was too excited for a while, I used too much power!"

The Lord Shenling waved his sleeves.

Then he looked at Fang Yue and Zhang Kui, he restrained his breath and became amiable!

"Master God, I don't know what to order!"

Fang Yue looked at this \*\*\*\* humbly, he knew at a glance that he was definitely not the opponent of this god!

He is not an ordinary god, but the \*\*\*\* of death. The aura of death in his body surges by how many levels higher than him!

"I am the Lord Pluto sit down to the eighth warlord, Andrews! Leave a clone here, waiting for the descendants of Lord Hades to arrive! You have the ring of Hades, and you are the descendants of Hades!"

Andrews spoke quite straightforwardly. When he spoke, even Fang Yue didn't know how to connect!

"I am the descendant of Lord Pluto. That is the warlord who sat down with Lord Pluto. Then you descended to protect me?"

Fang Yue had a feeling of being dazzled by happiness.

This is a pie in the sky!

Pluto sat down on the eighth general, and he sounded very powerful!

Andrews shook his head slightly: "I'm not to protect you, but to test you! The inheritance of Lord Pluto is not to be disappointed. The weak are not worthy of inheritance! Once your test results are unqualified, I will obliterate you, and then Take away the value of Pluto and accept the inheritance by another person!"

Andrews is indifferent to life and death. Fang Yue felt a chill.

"You came to supervise me and even kill me? Then why am I taking you away?"

Fang Yue scatters his feet to run.

This time Andrews used the same method again to confine the space and it was useless!

What Fang Yue comprehends is the way of space and heaven, and he is an expert in this respect! He wanted to escape wholeheartedly, and no one could catch him!

Andrews was shocked, this time Lord Hades found some descendant!

"Don't go, I just put the ugly words ahead, of course I am good for you!"

"Huh? Good, what good?"

Fang Yue's deity was still far away, and then he casually used the will of heaven to condense a clone of vitality and walked in front of Andrews.

Fang Yue was very alert, as if he was a thief, and put Andrews in place.

Andrews's teeth itch!

He is the eighth general under the throne of Hades. When has he encountered such treatment?

"Although I am your overseer, I am also your guardian. As long as your death heaven rises to a great realm, I will give you corresponding protection opportunities! Promote to the third realm, I will once for you Opportunities to shoot. Promote to the fourth level, I have three chances to shoot for you. Promote to the fifth level, I have ten chances to shoot for you! Promote to the sixth level, I can even be the deity Come and protect you personally! Also, you can also exchange various classic exercises from me to the underworld. Of course, this is an exchange of benefits and must be paid

For the corresponding price, even elementary divine power, medium divine power, and high divine power, I can exchange it for you!

This is a great opportunity for you. In short, you will never lose in trading with me! "

Andrews seduced Yue Xunxun, like an old fox, tempting a little sheep.

Fang Yue's frowned immediately, feeling that something was wrong.

The conditions that Andrews offered were a bit too generous! "According to my layout of this world, it should be in a symmetrical form. At the center, there is a main altar that resurrects the strong and

reverses Yin and Yang. Then there are eight subsidiary altars, occupying eight positions, equivalent to the oldest gossip shape. . And eight eight sixty four hexagrams, such a temple, there are a total of Sixty-four seats! In other words, besides you, there are sixty-four great temples nearby, right or wrong? "

Fang Yue took a deep look at Andrews.

Andrews was speechless immediately.

"Actually, you are not a warlord sent by Master Pluto to supervise me, but an independent deity who condenses a godhead! Then you were trapped in this world. After seeing me, you casually made up such a story! "

In Fang Yue's mind, thoughts revolved.

Andrews frowned immediately. Originally, he thought Fang Yue's knowledge was shallow and could deceive at will. Unexpectedly, he was so shrewd that he could see through his conspiracy at a glance. "Yes, I really have nothing to do with Pluto, just an ordinary god-level existence! However, I am a high-level \*\*\*\* who can condense elementary, medium, and high-level death powers. To you, the value is infinite. Release me, and immediately be able to reach the sky in one step,

Become a strong person comparable to the leader-level existence! Don't you have a heartbeat? "

Now that Andrews' conspiracy has been seen through, then he doesn't care!

He was frank and confessed to the conspiracy. But this kind of him is even more terrifying!

"I can't believe your words! Release you. I am worried that the entire Xuanhuang world will suffer disaster. I have a foreboding that you will have wolf ambitions. Once you leave this world, I am afraid that you will immediately lose your word and get fat and take action against me!"

Fang Yue scrutinized Andrews, causing the stormy waves to swell in Andrews' heart.

Originally, I finally had a messenger walking around the world, who could rescue him.

Unexpectedly, this guy was so smart that he could see through his conspiracy at a glance. "Yes, in the sixty-four temples, there are sixty-four high-level gods trapped. However, the other high-level gods are not as easy to talk as I am. Once you touch them, you will definitely be killed immediately. Because, you They must practice their corresponding principles before they can become their messengers.

Walk the world, establish temple beliefs in the outside world, and release them! "

Andrews negotiated again, his attitude was much better than before.

How noble is the status of the messenger of the upper gods.

He didn't believe that Fang Yue would bear to refuse!

This is a great opportunity, and no one can be trusted and unmoved.

Fang Yue couldn't help but smile upon hearing this.

"Do you really think I only know one rule?"

Fang Yue stepped on the soles of his feet, and in the sky, endless stars shone out, the stars were so vast that there was no end in sight!

The sun and the stars appear, changing the sun and the moon, this is simply a legendary method.

"This is, this is the Avenue of Stars, at least above the fourth floor! Unexpectedly, you still major in this kind of avenue, and one person cultivates both kinds of avenues and achieves both. This is simply incredible!"

Andrews was shocked again and again, and he no longer had the same peace as before.

The existence of the master of the Dao of Stars is only slightly weaker than him. That is because of the gap between the Dao of Heaven and the Dao, and it is even stronger than him in cultivating the subordinates.

"Two principles? Haha, you underestimated me! The thunderbolt, judge the world!"

Fang Yue deeply understands that in order to negotiate, we must strive for equality and initiative!

Fang Yue showed the avenue again, thunder and lightning traversed in the sky, and thunder dragons hovered in the air with a slight groan, which made the sky tremble and the sun and the moon shook.

Andrews almost didn't stare at him.

Is Fang Yue still a practitioner in the early days of the world?

What state is this?

Actually, he has cultivated the three ways to the fourth level or more.

This thunder dragon has the power to destroy the heavens and the earth, and if it really falls, it will be able to crush and break a mountain in an instant!

Andrews felt that his worldview was being severely impacted.

Could it be that in the years when he was sealed, the genius of the Xuanhuang world had been so enchanting?

Andrews no longer speaks, but carefully considers his superior hole cards.

Fang Yue had at least three gods to take refuge in, and he was just one of them.

Fang Yue's choice is no longer single. He is just one of the candidates!

"Fang Yue, how about this, I won't let you take me out immediately, just hope you can do me a little favor?"

Andrews's tone was calm, without the superior attitude that he had just now.

The resentment in Fang Yue's heart also eased slightly. As long as the communication is equal, he is still willing to talk to this Andrews!

## Chapter 564: Prison world

"Let's say, as long as it can be done, I'm still willing to leave a good destiny. After all, you are a superior \*\*\*\* and you are definitely a peerless strong man. You owe me a favor. I will ask you for help in the future. It's not easy to refuse!"

Fang Yue finished.

Andrews nodded. "This world is called the Prison World! Essentially, it is the place where the gods who initiated the war of the gods were imprisoned. According to the agreement of the gods, all gods in the Xuanhuang world will be within a thousand years after becoming gods. Ascend to the God Realm. The gods of the God Realm are not allowed to descend.

Yes, back then, there seemed to be some small flaws in the world will of the Xuanhuang world. The rules were changed. He became a \*\*\*\* for thousands of years and no longer forced to ascend. Many gods stayed in the Xuanhuang world! In just three thousand years, the world of Xuanhuang has accumulated hundreds of gods, and I am one of them. We each preach, accumulate faith, and enlighten the law, and divide this Xuanhuang world into countless regions, and then each preach, so that some sleeping old guys in the Xuanhuang world can't see it, and we issue orders to let all the gods ascend to the gods. Stay in the world. But we did not listen. Instead, because of the expansion of our confidence, the battle of the gods was set off. As a result of the First World War, we were defeated, and we were finally sealed and killed in battle. Sixty-four of us, the upper gods

Is sealed in the prison world, responsible for guarding the resurrection altar!

The water in this mysterious yellow world is too deep, and those old guys are even more exhaustive! Speaking of it, we were really a bit reckless back then and shouldn't stay in the mortal world! "

Andrews shook his head repeatedly.

Fang Yue was extremely surprised.

"A strong person in the realm, condensing faith, and cultivating the godhead, is the lower god, the heavenly realm, is the middle god, and the upper \*\*\*\* should be the strong at the great sage level! Sixty-four upper gods are Sixty masters beyond the level of the Great Sage! Who has the ability to surrender you?" "Young man, you don't understand, the world of Xuanhuang is extremely deep. Some Tianzun who is said to have left the world of Xuanhuang a long time ago even left behind here. For example, the old fellow of Yinyang Tianzun jumped out halfway. Back then, we had three lower gods as leaders, and wanted to reverse the Yin

Yang, conquer the world! As a result, they didn't even turn over a wave, but a big hand manifested by the Yin Yang Tianzun was shocked to death!

Then that big hand has evolved into this prison world, let us always be trapped here! "

Andrews talked about Yin and Yang Heavenly Sovereign, even if countless years have passed, there was still a deep look of fear in his eyes.

Yin Yang Tianzun, that is synonymous with an era, he is the pinnacle portrayal of an era, is the strongest, even if he appears in the heaven, he will have the supreme status.

"Yin and Yang Tianzun, no wonder he was able to refine the resurrection altar. According to legend, the power of Tai Chi he practiced can reverse the law and flow back time. He has stood at the pinnacle of infinite creatures. I have a saint-level weapon in my hand. , It seems he forged it!"

Fang Yue suddenly remembered the yin-yang mirror that he had obtained from Taoist Tu Tian, which he had never used.

Now that he reached the level of the heaven and earth realm, he could already use one-ten thousandth of the power!

If he were replaced by ordinary practitioners in other world realms, any saint-level magical artifact could drain him.

However, what Fang Yue cultivates is the Immortal Sutra, and the true energy in his body is even purer and purer than most saints.

In terms of quality, make up for insufficient quantity.

It's not a big problem for him to run the saint magic weapon a little bit!

"What? You got the magic weapon of the Yin Yang Tianzun? Could it be that you are the heir of the Yin Yang Tianzun? However, it is also very possible. The Yin and Yang Tianzun is a no-brainer. You came here, maybe it was his ingenious calculation. !"

Andrews was extremely shocked, and then there was a hint of equality in Fang Yue's eyes.

If Fang Yue is really the descendant of Yin Yang Tianzun, then his status is different.

Yin and Yang Tianzun, what a character is that, so high, he can even sit on an equal footing with the legendary \*\*\*\* king!

His descendants, with a little pointer, will break through the cocoon and become a butterfly, which is different.

Moreover, observing Fang Yue's strength methods, there is really some demeanor of heaven.

At least he has never heard of anyone who can comprehend many great ways and ways of heaven at the level of the heaven and earth realm, and even cultivate to the fourth level one by one, with extraordinary accomplishments.

In this case, he needs to invest early, and when Fang Yue is prosperous in the future, he can have Fang Yue's favor.

Andrews' thoughts changed instantly.

"Fang Yue, here are three drops of elementary divine power I give you, it can make your strength rise to a great realm out of thin air in a short time! And often use divine power, as well as temper the soul and the body. The divine power is definitely a kind of Good thing! You must not miss it!"

Andrews told Fang Yue carefully, as if he were an elder.

Three drops of divine power filled with death attributes fell into Fang Yue's hands.

Fang Yue held it gently, don't want this kind of thing for nothing.

Now, the entire Xuanhuang is in crisis, and the storm is precarious. The more cards he has, the better. "As for the transaction just mentioned, I hope you can go to the center of this cage world and get a bead of faith when you get the altar of resurrection. A bead of faith is equivalent to a practitioner of one hundred thousand heaven and earth. , Sleeplessly, for a full hundred years, one of all the faiths condensed

The sum of forces. Get the jewel of faith, I can promise you to help you once at a critical time! "

Andrews said the deal readily.

Originally, he actually didn't have much hope for Fang Yue, but if Fang Yue was the descendant of Yin Yang Tianzun, the final result would be different!

"Deal!"

Fang Yue readily agreed.

Andrews relaxed, he began to show Fang Yue the way.

Continuing this trail, you will encounter an ancient forest. In the forest, there are caves everywhere. These caves are infinite and far-reaching. When you reach the end, you can reach the center of the cage world!

Hearing this, Fang Yue walked out toward the depths of the forest.

The forest is gloomy, and there is no vitality.

"Is this sea creature already lost?"

Fang Yue saw that on top of a towering tree, on top of each branch, there was an icy corpse hanging. The corpse had no head, and even its limbs were incomplete.

However, from some details, it can be clearly recognized that the original appearance of this corpse should be a large sea lion in rotation.

The blood in his body was absorbed clean, skin and bones, as if it were a mummy. "This is what the blood eagles do! They absorb blood and increase their cultivation! However, according to my research, the corpses of the blood eagles are also valuable. Not to mention feathers, their energy is all concentrated in the blood. In. The evil spirit in the blood can be used to supplement your ghosts,

The degree of spiritual cohesion of the ghost. And their blood can condense out and become a small pill-Qixue Pill. This kind of medicine can increase strength and ignore realm! The real effect can be said to be against the sky! "

In Fang Yue's hand, I don't know when, a crimson red pill appeared. This pill was the size of a red bean.

But the blood hidden inside is surging.

Zhang Kui took a look and felt shocked in his heart. "This pill can increase the physical strength of about 300 kilograms. If you give it to a mortal warrior, you can become a great power, a general, with extraordinary power. Of course, a simple pill, no one will look at it. It's an acquired fix to be eye-catching, and the limit of swallowing is ten pills

Medicine, three thousand kilograms of strength superimposed, martial arts proficient, dragon and tiger jump, even ordinary congenital headaches! The same pill can also be given to innate, with the same effect, but they can take 100 pills continuously. Thirty thousand kilograms of physical strength can just make up for the weakness of the cultivation of refining qi, and the weakness of the physical body. When the time comes, once they shoot, the blood will roll, rolling the wind and clouds, the world is high

Be afraid of three points! "

Fang Yue talked about the effect of this pill.

Zhang Kui simply set off a storm in his heart, this medicine can completely change the situation of the bottom combat power of the entire human race.

Once popularized, the entire human race will flourish as a result, and the strength of the race will be upgraded to a higher level!

"Then how much resources do you need to refine a pill like this? If the number of blood eagle tribes is too high and the grade is too high, then it would be equal to the loss outweigh the gain!"

Zhang Kui made precise calculations and thought of the cost issue.

"A blood eagle clan with a first level of innateness can refining five such pills!" Fang Yue took a preliminary estimate. Of course, these are his own output. If you can convert it to other alchemists, refining pills Without his precise manipulation of the soul of this intensity, the ultimate efficiency would probably be greatly reduced. An innate blood eagle tribe can only refine three of these

Kind of medicine! "A blood eagle of the first level of innate level can refine five Qi and Blood Pills, powerful, powerful! This kind of ability, even without any cultivation base, can be sought after by thousands of families, who is not a practitioner Starting from the grassroots training, the foundation is well laid out, and the road of cultivation will be better in the future.

More spacious! Next, we will continue to kill the blood eagle clan, and then refine this blood energy pill. At that time, a large number of acquired and congenital repairs can be created that can easily leapfrog. Enrich the bottom combat power of the human race! "

Zhang Kui was extremely excited.

He knew that the battle between the human races in the Xuanhuang world and other alien races everywhere was just hitting the rocks with pebbles, which was full of crisis and disadvantages.

And once Fang Yue's pill is popularized, the disadvantage of the human race at the bottom of the battle will be fundamentally resolved.

The current rules of battle are soldiers against soldiers and generals.

The day after tomorrow and the day after tomorrow's fight, the innate and the day before the death!

Leapfrog killing is tantamount to violating the rules of the game, and there is no problem in keeping a low profile. But once he was discovered, he was immediately hunted down and swept out!

"it is good!"

Fang Yue agreed to Zhang Kui, and then the two of them joined forces, not anxious to find the entrance of the cave, but unscrupulously killed the powerhouse of the blood eagle clan outside.

The powerhouse of the blood eagle tribe in the forest belongs to the outermost part!

They are generally at the level of the world realm, and even the cultivation base of the rotation realm is very rare.

Because all the real powerhouses have entered the cave.

In this secret realm, although the formations are everywhere, the Feng Shui is tricky.

But no one to activate, most of them are in a silent state, without any lethality!

In front of Fang Yue and Zhang Kui, the blood eagle in the realm of heaven and earth is simply a chicken and dog, and the lamb waiting to be slaughtered has no ability to resist.

By the way, the marine creatures they encountered were also killed directly! Some have become Fang Yue's ingredients, and some have been directly eaten by Zhang Kui to replenish energy and restore strength!

In just half an hour, Zhang Kui's physical body had reached the level of the rotation realm, and at the same time, his bloodline level had also been promoted one after another, reaching the level of the second rank of the mysterious rank! The martial arts he exercised are more subtle and full of charm, and even Zhang Kui has gradually fallen in love with this fleshy shell.

## **Chapter 565: Yin Yang Reconciliation**

[« PrevNext »](#) [≡ Table of Contents](#)

"If I can give me another ten years, so that I can use this fleshy shell to perform martial arts, I can even practice martial arts at the saint level! It's a pity, time doesn't wait for me, I can only reluctantly face it and play the master level. The level of martial arts!"

Zhang Kui secretly said it was a pity.

At this time they found a cave.

Inside the cave, there was a swarthy piece of black, in which a gust of yin wind roared out from it. "The wind of Xuanyin contains the air of Xuanyin, the air of death, the air of corrosion, and other negative auras. When the average person walks into it, it will be corroded into a pile of bones and die completely. ! And even some strong people need to expend strength to resist to enter it.

And according to this momentum, the deeper, the stronger the aura. The consumption of resources is also a terrifying number! "

Zhang Kui had a wealth of expedition experience before he was alive. He had already begun to analyze quickly before he even entered the cave.

"This shouldn't be a problem for you! Your deity is a ghost, even if you have already seized the house, you will not be afraid of these breaths!"

Fang Yue looked at Zhang Kui. Zhang Kui shook his head: "Although you are a ghost, you still don't have a thorough understanding of the ways of ghosts and gods! Although Li ghosts belong to the underworld, they are not afraid of death, but the air of corrosion and the air of Xuanyin can still cause us. A lot of harm. Especially the air of Xuan Yin, ordinary soul

Slightly blow, and immediately dispersed, leaving nothing! This kind of breath can be called the nemesis of the ghosts, and ordinary ghosts can't resist it at all! "

"Then the two of us will alternately resist the breath to ensure that we can maintain a state of prosperity before we touch the resurrection altar!"

Fang Yue took the lead, pinching out a talisman with two fingers.

Fulu burned, and a crimson fire shield resisted him.

On the surface of this fire shield, raging fire burned.

The flames in it cannot be extinguished by any wind blowing!

Fang Yue and Zhang Kui stepped forward with the fire shield and walked out about 100 meters.

I came across a stone room, and there was nothing in the stone room.

However, Fang Yue still stopped, letting go.

"Fang Yue, why aren't you leaving?"

Zhang Kui frowned, this kind of place is eerie and weird, staying for a while, it might cause them great harm.

"I'm in this place, it seems to have an unspeakable familiar feeling. You take a closer look, is there any different feeling here!"

Zhang Kui took a deep breath, closed his eyes, and began to comprehend according to Fang Yue's statement.

But for a long time, he didn't have any peculiar experience.

"Fang Yue, will you be affected by your heart? I don't have any feeling at all. I said, we still have to hurry. Just beheading the blood eagle tribe has already wasted a lot of time. Don't let marine creatures or The blood eagle tribe is the first to ascend and get the altar!"

"Right, that's how it feels!"

Fang Yue suddenly spoke.

In the void, a current of yin and yang turned down, baptizing Fang Yue's body!

"The way is yin and yang! There is yang in yin, yin in yang, holding yin and holding yang, reconciling Tai Chi!"

Fang Yue suddenly gave birth to a clear induction.

Hold the ball with both hands and press it down.

Layers of void ripples rippled.

The cold air around, disappeared instantly, of course there is no existence!

Yin-yang transformation, authentic and peaceful!

These breaths that originally hurt the soul and the body, after being reconciled by Tai Chi, turned into tonics that are beneficial to the body!

The zhenqi in Fang Yue's body, one by one, transformed into the shape of a Tai Chi disc.

The vital energy of life and the true vitality of death are merged and unique under the harmony of the true vitality of the soul, and the quality has risen geometrically!

In Fang Yue's mind, all of a sudden the appearances of villains appeared, they were practicing martial arts and Tai Chi exercises!

"Tai Chi Zhen Qi, refining Yin and Yang, and evolving mystery!"

When Fang Yue gained Tai Chi Zhen Qi, even he was shocked and delighted.

The fusion of Tai Chi and the union of yin and yang represent his true Qi quality to a higher level!

Before, if the quality of his innocence was cotton thread, now his innocence is wire steel wire. No matter how many cotton threads are put together, the quality is not as good as steel wire and iron wire!

Originally, when Fang Yue cultivated the celestial scriptures, the quality of Zhen Qi surpassed that of practitioners of the same level!

At the level of the realm of heaven and earth, his quality of innocence is roughly equivalent to that of the leader of the class! Now, his vitality of life and death is condensed into Tai Chi, which also contains the power of soul, and the quality is equivalent to that of a saint!

Fang Yue could barely mobilize the power of the sacred weapon a little bit with the quality of true energy at the leader level.

But now, his quality is advancing by leaps and bounds, and to a higher level, he can easily mobilize the saint's magical instruments. There is no problem in quality, but there are deficiencies and deficits in quantity!

There are also a total of 108 sets of Tai Chi martial arts, all of which are basic martial arts and are not complicated, but by comprehending true Qi, you can definitely understand the principles of Yin and Yang.

Cultivation in each realm will have its own unique understanding.

"These martial arts are probably the real connotation in this stone room! This is the inheritance of the Yin Yang Tianzun's strength! After leaving here, I can find an opportunity to spread these martial arts and let the Yin Yang Tianzun inheritance in the Xuanhuang world. Not to be cut off!"

Fang Yue's inspiration came and his breath calmed down. He felt exactly the same as he had just given, without any signs of change!

However, Zhang Kui beside Fang Yue clearly felt that Fang Yue's breath change felt completely different from just now.

If he was a sheep just now, now he is a tiger cub!

This is the difference in the essence of life, which is tantamount to the transition of life, the dragon becomes a dragon!

"Fang Yue, you are very lucky. You can actually get the inheritance of Yin Yang Tianzun here. This inheritance seems to be only for you, and no one else can get it! Could it be that you are the son of destiny, destined to become the focus of this era to save Humanity?"

Zhang Kui looked at Fang Yue, his eyes burning, he seemed to have discovered a big secret.

Fang Yue smiled bitterly: "Do you think I will be the son of destiny in your imagination?" Zhang Kui looked at Xiaoyue repeatedly, and then shook his head and said: "It's not like, it's not like, I know how to look for breath, all good luck All of them are born with purple light on their heads, shining all over the world. On the top of your head, there is a faint crimson light, which is slightly stronger than ordinary people, but it is far from purple.

Mang Yaotian is a thousand miles away! "

Zhang Kui also felt that his speculation was a bit funny, and then he denied it.

The two left the stone room and continued forward, the yin breeze in it thickened.

However, Fang Yue practiced Tai Chi, practiced gossip, and directly transformed the Yin Qi into the nourishing vitality of the physical body. Not only could it not cause the slightest harm, but it made his physical body continue to strengthen, and the power of life became stronger!

It is about five hundred meters deep into the cave.

They finally met the first wave of encounters.

This is an ancient temple, sleeping under the earth.

There are a total of nine stone walls in the hall, and each stone wall has a pair of ancient stone carvings!

The content of these stone carvings are all unknown characters. These texts are plain and unpretentious, without any rarity.

But in front of the stone carvings, there were hundreds of people sitting!

Among them are the blood eagle tribe, marine life, and some unknown tribes.

"Huh? Why is someone here again! Say yes, after the treasure is unearthed, I will share it!"

A marine creature opened his eyes, his skin was blue, and his appearance was no different from ordinary humans.

The height of 1.9 meters, the long blue hair shawl, and a pair of big eyes, contains the light that catches people!

"Sea God Race!"

Seeing this stalwart man, Zhang Kui couldn't help but aroused his vigilance.

The blood of the Poseidon is supernatural! The body is said to contain a thin strand of divine blood. As their cultivation level continues to increase, the blood of the Seagod race will continue to grow stronger, and eventually the divine blood will spread all over the body, even if there is no faith, there will be power comparable to the gods!

As soon as this Sea God Clan appeared, the sound of ocean tides continued to be heard behind him.

This sound seemed to wash the whole world, rumbling, making people uneasy!

"There is no owner in this place. The two of us are looking for a place to sit down. You should have no opinion!"

If he could not do it, Fang Yue tried his best to still be unwilling to do it.

Because once it is shot, it will definitely expose its strength and will arouse other people's vigilance.

"Who said that this place has no owner? This is already occupied by our blood eagle tribe, the strong of the ocean world, and the strong of giants. You either get out immediately or die here, there is no third article at all. You can choose the way!"

The blood eagle clan from the third level of the cycle came out, his attitude was even more tyrannical!

He completely regarded this place as his own lair, and he would not pay attention to the attitudes of other people.

"This place doesn't have your place!"

Zhang Kui completely ignored the blood eagle tribe on the third layer of the rotation realm! His bloodline is ordinary, that is, his realm is a little bit superb. With his martial arts methods, he can defeat and kill casually!

"Dare you say it again?"

The blood eagle clan looked at Zhang Kui and was extremely shocked. This place had been delineated by them and became their territory.

Unexpectedly, this blood martial clan would dare to refute.

Does he really want to die?

Zhang Kui was too lazy to say, and suddenly, his moves opened up.

"The sun and the moon are shining, the world is beginning!"

Zhang Kui used ancient and powerful moves as soon as he started, his fists waved out, and the phantom of the sun and moon hovered above his fists.

The two big stars were crushed, causing the blood eagle tribe's spirit to collapse directly!

"Ah! Don't!"

The Blood Eagles immediately realized that their disaster was imminent.

However, it was too late.

He was exploded with a punch by Zhang Kui, his body shattered, like a porcelain doll, turned into pieces, burned into a corpse, and completely broken.

"One punch to kill, leapfrog killing! Good means, good courage!"

The powerhouse of the Seagod tribe, not smiling, he did not deplore the death of the Bloodhawk tribe.

Because they and the Bloodhawk Clan are not in the same group, it is only because the strength of the two sides are evenly matched and they don't want to lose both sides, so they will temporarily form an alliance and exclude others from entering.

And the strong of the blood eagle tribe, losing their soldiers and losing their generals, is simply great news for them.

If the two people in front of you can kill a few more \*\*\*\* eagle clan powerhouses and greatly damage their strength, then the crews of their ocean world can immediately annex them and occupy this palace alone!

"It's a pity that the blood in the blood eagle clan! Otherwise, it should be refined into a high-level blood pill!"

Fang Yue couldn't help showing a look of regret!

His words were not suppressed in any way, so that the other blood eagle races were listening.

When they heard what Fang Yue said, they all hated the roots of their teeth. What is this guy saying?

I just want to die!

Their blood eagles have noble blood, how can they collect their blood and refine them into pill. However, seeing the eyes of marine creatures staring at them, their floating murderous hearts immediately became quiet.

## **Chapter 566: Stone stele**

[« PrevNext »](#) [≡ Table of Contents](#)

Two dogs fight, play off.

They don't want to make marine creatures become fishermen, and finally count them!

"You don't know how the two heroes are called. In our impression, there seems to be no two among the blood martial clan!"

A warrior from the fifth floor of the rotation realm of the blood eagle clan slowly walked out, his eyes were gloomy, and he obviously had a very strong killing intent towards Fang Yue and Zhang Kui.

Being from the same world, the relationship between ethnic groups may not be so good!

The blood martial and blood eagle tribes belong to that race group in the blood world. The talents are relatively ordinary, but the number of races is extremely large. The conflict of interests between each other is inevitable. Because of some conflicts of interests, they will do their hands and kill each other. Tribal things happen frequently.

Pieces of hatred accumulated one after another.

This made the \*\*\*\* feud between the two ethnic groups irreversible.

"Hmph, how could the Blood Eagle tribe know about our blood martial clan? If you have investigated the details of our tribe, then our blood martial tribe might have already been conspired to exterminate the clan by you!"

Fang Yue's voice was frank and frank, without any doubts from the Blood Eagle Clan, and gave birth to any feeling of guilty conscience.

"Humph!"

The powerhouse of the blood eagle clan snorted coldly and didn't say much.

Because Fang Yue's words were not wrong, the powerhouses cultivated by the blood martial clan would never be known by all their blood eagle clan.

"However, we are not without the possibility of cooperation! These nine stone steles contain great secrets. Once unlocked, we will be able to obtain great opportunities, and the secrets on the steles will not be unlocked. There is no possibility of entering the next level!"

A man with a height of two meters, a muscular man with long golden wavy hair and a shawl came out.

The blood in his body burned like a big stove burning.

Fang Yue recognized at a glance that this was the giant clan recorded in ancient documents.

The Giant Race is an ancient and powerful ethnic group, and there are scattered branches in the Xuanhuang world, and they are born with infinite power.

Even giants with the lowest bloodlines are bloodlines above the Profound level. They can eat, sleep, and fight every day. They are typical violent elements!

The place they passed was like a locust crossing the border, killing, glorifying, and burning all, crueller than the Dongying people who invaded China back then!

For the giants, Fang Yue has no good feelings.

This giant tribe obviously wants to use their wisdom to unlock the secrets on the stone tablet, and then cross the river to demolish the bridge, kill them all, and enjoy the secrets exclusively.

There are a total of ten giants present, and each one is a powerhouse above the rotation level! "I can also roughly know that you want to use us and then kill people, but if you want to use me, you have to pay some sincerity and price. For example, these creatures of the ocean world and those of the blood eagle tribe, Was very unkind to me, I was worried, in the process of enlightenment

Killed by their sneak attack, or if you kill them all for me, I will help you understand the secrets on the stone tablet? "

When Fang Yue opened his mouth, he wanted to kill someone with a knife, and he didn't even bother to hide his motives.

To kill is to kill, so why be polite!

The giants immediately smiled sarcastically: "Empty Glove White Wolf, do you think I am stupid? I will obey your instructions?"

There was a hint of murder in the giant's smile! Fang Yue waved his hand again and again and said, "No, no, no! I'm not talking about killing people now, but how about using the mystery I discovered to exchange with you? For example, you probably haven't seen the stone tablet for such a long time. I fumbled for the clues, but I can see at a glance, this

The text on the stele is not a problem in nature, but a picture! "

"Not words, pictures?"

The smile of the giants diminished, and he knew the origin of these steles better than others.

Because the giants discovered that this place is no longer a day or two! The reason why I haven't done anything is that I want to use the power of other ethnic groups to act as a pathfinder.

This prison world is quite dangerous, traps, and crises.

In order to explore this piece of the world, they have fallen at least 70 or 80 reincarnation level masters. Among the giants, all grown-up giants are at the cultivation level of the world realm, so the giants of the world realm are not valuable, but the giants have clumsy minds and it is not easy to understand the laws of the world. The giants of the rotation realm are rare. All of a sudden, seventy or eighty fell, for the giants

It is also a big price!

"Pattern, what pattern?"

The blood eagle tribe and the creatures of the sea world all turned their eyes to Fang Yue's body.

They have been here for a long time, but they don't even have a clue. If this Fang Yue can really find them a clue.

It's okay for them to leave Fang Yue jumping for a while!

"I said, my wisdom exchanges the lives of the blood eagle tribe or marine creatures, a message, a human life, otherwise, even if I really understand all the contents of this stone tablet, you will even kill me, I won't say it!"

Fang Yue showed a sly smile and solidified. This smile made the creatures in the ocean world and the blood eagle tribe hate it until the roots of their teeth were itchy.

The strong man of the giant race was very interested. He looked at the men of these two races and said: "Instead of wasting time and time here, it is better for you to make a little contribution in exchange for some clues!"

Giants are powerful and domineering, and their individual strength is the most powerful.

Otherwise, it would be impossible for only the ten giants to reach a balance with the blood eagle tribe and the people of the sea world, and they would not violate each other.

Suddenly, the strong man of the Sea God Clan made a sneak attack, unpredictable, and a hand buckled on the clavicle of the shoulder of a Blood Eagle Clan.

His hands were suddenly hard.

With a click, the blood eagle clan's shoulder broke!

"You sneak attack!"

A strong man in the rotation realm of the Bloodhawk tribe was furious, but he couldn't keep his tribe's life.

The strong man of the Sea God tribe shook the palm of his hand and threw the blood eagle tribe in front of Fang Yue. Between the lightning and flint, the blood eagle tribe's sea of consciousness had been shattered, and the dead could no longer die!

"The reincarnation of the heavens has been unsatisfactory. When the blood eagle tribe dealt with our blood martial tribe just now, it was still tough and aggressive. Unexpectedly, the feng shui took turns, and the blood eagle tribe would become the bargaining chip of other people's trading information in such a short time!"

Fang Yue looked at the corpse of the blood eagle tribe at his feet, and he was immediately excited.

He was elated.

And the giant snorted coldly.

"Don't patronize and be happy, give me a good analysis of the content on this stone tablet. If you let us know that you are talking nonsense and deliberately picking things up, be careful of your head!"

The giant's voice was cold and full of shock. Fang Yue responded very readily and said: "This is no problem! Didn't you find that these text patterns are all winding like dragons and snakes? These curves are the most critical place, which is the movement of heaven. Track! It's like the strokes in Fulu!

What you really need to understand is these strokes, not the entire content of the pattern! "

Fang Yue finished.

The eyes of the three major ethnic groups all converge. All fall on top of these words.

Sure enough, these curves made them feel a faintly mysterious feeling, and they were carefully observing them carefully.

In these curves, it seems that there are endless swords, lights and shadows, martial arts moves, which seem to be the world's martial arts, everything is included!

"Okay, okay, okay! There really is mystery in this stele! Every stroke is a dragon and snake dancing, and careful understanding can greatly improve my martial art realm!"

The blond giant beamed his eyebrows.

The resurrection altar is the heroic spirit that has been resurrected in the long river of history, and it is a contribution to the ethnic group.

But martial arts advancement is his own strength.

In terms of benefits, it is a thousand times better than getting a resurrection altar! "It's not right. I look at these strokes. Although I feel endless swords, lights, swords, and martial arts moves, there is always a feeling of looking at flowers in the fog, looking at the moon in the mirror, nothingness and ethereal, not real! I seem to have gained a lot, But when I taste it carefully, it feels like nothing is gained!

"

Another red-haired giant spoke. Said the feeling in his heart.

The blond giant immediately activated his spiritual mind and analyzed it carefully, and as expected, he had the same feelings as the red-haired giant.

Although he was observing these martial arts moves, he felt that he hadn't gained anything.

"Boy, you say, what is going on?"

A strong man from the seventh floor of the Blood Eagle Clan Rotation Realm stepped out in one step, shaking the sky.

He was so aggressive that he wanted to peel and dig the bones of Fang Yue and kill him alive.

It is because of this kid that their blood eagle clan has lost two consecutive great masters in the rotation world!

His palm fell, but he caught it empty.

The blond giant shot, and a slap missed his palm.

"What do you want to do? Capture Fang Yue and swallow the secret? Don't take yourself too much of your blood eagle clan. This Fang Yue is the common treasure of our three parties. It is absolutely impossible for you to monopolize the blood eagle clan!"

That's right, in the eyes of the blond giant, Fang Yue is their treasure, but his attitude towards Fang Yue is better than that of his son!

Because as long as Fang Yue is unhappy and doesn't analyze the mystery in the stone tablet, they will get stuck immediately and everything will be cleared.

"In a word, if you kill a blood eagle tribe or a sea creature, I will help you answer a question!"

Fang Yue's attitude is still very determined. He is trying to accumulate hatred between different ethnic groups and let them have internal struggles. For example, all the scenes before him are recorded in his mind. As long as he leaves here, he will spread out as a photo crystal.

He didn't believe that the blood eagle tribe could swallow their breath, and eventually the two tribes fought and consumed each other's strength.

The fishermen benefit from the humans in the Xuanhuang world.

Spies, spies, sow discord. Fang Yue always remembers his identity and strives to achieve his goals.

Fang Yue's words made the creatures of the ocean world and the strong men of the blood eagle tribe grind their teeth with hatred, and they simply wanted to cut Fang Yue into pieces and smash them into pieces.

However, Fang Yue's eyes were clear and straight, looking at the two forces, without the slightest insignificance or cowardice.

"It is good!"

The giants have been forced to reach Liangshan. He had to obey Fang Yue's command. Killing one person is also killing, and killing ten is also killing. What's more, in order to get the deep-seated secrets on the stone tablet, killing each person is nothing!

"The heavens and the earth are faint, with many ghosts! The ghosts are calling out, Yan Luo is killing!"

This time, it was the blood eagle tribe who took the lead. Anyway, sooner or later, people will die. The dead fellow can't die from the poor! A strong man in the rotation of the ocean world was caught off guard, and was entangled with creatures like dragons and snakes that were surging from the ground.

### **Chapter 567: Void Cover**

The strong man in the rotation of the ocean world was stiff and unable to move, his eyes opened wide, looking at the sneak attacker of the blood eagle tribe.

"Despicable man, have the ability to fight in a decent battle? Your action like this will make us look down on your blood eagle clan!"

The marine creatures struggled hard, the waves fell, and those dragon and snake-like figures began to loosen and collapse.

Immediately afterwards, the powerhouse of the blood eagle clan took out an empty, transparent cover and placed it on the head of the sea creature!

At the beginning of the battle between the two parties, they tried their best to show their magical powers, especially the transparent cover. Even the eyes of the giants couldn't help flashing a look of jealousy, fear,

"Void cover, cover the void, seal the world, imprison the soul." The giant of the giant clan was muttering to himself, he originally looked down on the blood eagle clan and the powerful person of the sea world at all, but, looking at the scene before him, he also shivered involuntarily. If I were to be shrouded in this void, the spirit in my body would be immediately sealed.

The assassination of the body is over!

"Ahhhhhhhhhhhhhhhhhhhhhhhh! Burning longevity, a thousand catastrophes are over, the demon disintegrates, I have fought with you bloodhawk tribe!"

The strong people in the rotation of the ocean world are staunch and die. He burned the Dan in his belly fiercely and disintegrated instantly. It turned into a tall \*\*\*\* of war, and broke through the envelope of the void.

The Void Cover, although powerful, has limited quality.

Under the turbulence of the powerful force, it will still break instantly and lose its effect.

What other dragons and snakes entangled, also instantly collapsed.

The smile on the corners of the \*\*\*\* eagle clan's strong man's mouth narrowed, and the two sides fought and smashed into one body, turning into a mushroom cloud.

The aftermath of the energy caused by the death of the two of them was as turbulent as the tide of the sea.

Everyone else was affected, and suffered various injuries!

"Boy, your goal has been achieved. You have killed two powerful players in the rotation realm at once. Even if you are now killed and there are so many masters in the rotation realm buried for you, you should feel content. !"

The blond giant looked at Fang Yue with a rather unkind expression.

He felt the taste of being exploited.

The heart is upset, the rabbit is dead and the fox is sad. This time it was the blood eagle guy who took the first shot, causing both sides to lose. If he came to do it, then he would probably be the one who died under the explosion.

Fang Yue is also unambiguous.

Excited, he seemed to really want to use this method to vent his anger. "These strokes, you need to describe one by one, to exercise! It is not a night to comprehend all the essence of them, and the best of

them is to incorporate the means of talisman! For example, the first stone tablet, the first one The first stroke of the text, I outline in the void

Take a look! "

Fang Yue stretched out a finger, and a faint qi was injected into it.

Stroke description, leaving marks in the void!

The words like a dragon and a snake are left behind!

The void was rippling, and a white snowflake floated out.

This snowflake is pure, elegant, pure and beautiful, and there are no more adjectives to describe the characteristics of this white snowflake! "Vital energy snowflakes can be absorbed at will, enhance their strength, and replenish true essence. It comes from the void without any impurities. As long as it is swallowed, it will be refined immediately. It is cleaner than any pill and has no residue! What is more precious is , It can cleanse the menstruation and cut the marrow, treat dark injuries, especially those below the leader

The benefits of taking it are the greatest! "

Fang Yue flicked his fingers.

The snowflake fell in the hands of the blond giant.

The blond giant bowed his head slightly, refining snowflakes, he felt like a trickle, surging into his body!

The blonde giant's heart was extremely shaken, showing an expression of ecstasy.

"I understand, I understand! These nine stone steles are essentially rune steles! Martial arts, swords, are all illusions, and only runes are real. They are of infinite value and should belong to me, our giants!"

Since Fang Yue's first Fulu was depicted.

The nine stone steles were loosened one after another, and they no longer stood forever as before, unshakable!

The blond giant took the opportunity to uproot the nine stone steles!

Prepare to fight alone.

"Alsace, your giants are really very ambitious, and they say you can even split the chances? Why are you turning back!" The strong men of the Seagod are not doing it! The giants are simply deceiving people too much. The creatures of their ocean world have made an indelible contribution to seize this opportunity. The cost is huge. Now, the giants actually want to cut their beasts without even benefiting at all. To them,

This is simply outrageous!

The powerhouses of the three ethnic groups went to war immediately.

Fang Yue stood by the side in a daze, not evasive.

Because suddenly there were nine more stone steles in his mind, each of which was the height of a palace stele of tens of millions.

This is the real stele, the spirit within it, and the stone stele outside is just a dispensable carrier and is of no importance.

The three tribes were fighting chaotically, and in an instant, the sky was dim and the earth was dark. The aftermath of their energy made the entire palace tremble. At this moment, they only had stone tablets in their eyes. As for Fang Yue, it was no longer important!

"Go, leave right away! These people are simply crazy, they are fighting at any cost, and the true division of the winners and losers, I am afraid that many people will fall!"

Fang Yue hurriedly dragged Zhang Kui away.

Zhang Kui was still looking at the stele reluctantly.

The nine stone tablets are too precious.

Just a piece of vitality snowflakes born in the void can make countless people go crazy for it!

Fang Yue said: "Don't worry about this. I have already remembered all the patterns in the stone tablet. When I go back, I will write it silently. It is no longer the key to seize the stone tablet!"

Fang Yue lied slightly.

Brothers have to settle accounts, let alone him and Zhang Kui.

Fang Yue didn't trust Zhang Kui, but in history, Zhang Kui was an overly rigid person who values the righteousness of the human race.

What if he is stupid and dies once, and his character is still the same as before, let Fang Yue contribute everything to the race?

Did Fang Yue really contribute the nine stone steles in his mind?

Fang Yue is not such a fool!

Although he is also a human race and dislikes foreign races, he always puts his own life interests first, and the second is the interests of the ethnic group. The Xuanhuang world is inviolable!

Although Fang Yue's ideas are more selfish.

But relatively speaking, it is the most realistic.

Only when a person is alive can there be ethnicity, pride and dignity.

If you give up your life for justice, you will belch! That righteousness, dignity, and a bird's use!

"Fang Yue, finally let me catch you! Without the protection of the formation this time, where do I see you going?"

Suddenly, a proud, public voice came.

A figure appeared in front of Fang Yue.

This person is the Blood God Peak, the powerhouse at the peak of the Yin and Yang Realm of the Blood Eagle Clan!

The path of this underground cave is criss-crossed and criss-crossed like teeth, so chance encounters are very likely!

The Blood God Peak appeared in front of Fang Yue and Zhang Kui. In his body, waves of qi and blood surged and swept across all directions.

The Blood God Peak is a true genius, a true powerhouse, and a general leader-level powerhouse may not be able to easily suppress him.

As soon as he appeared, Fang Yue and Zhang Kui immediately retreated.

They felt the oppression, and under the aura of the blood \*\*\*\* peak, the strength of the two of them all regressed, and they couldn't even play the three to fifty percent of the power of the heyday! "Hahaha, Fang Yue, you humble little reptile, little ant, finally fell into my hands! Now you obediently kneel down to death, let me refine you into a puppet, maybe you will suffer less pain, Because our blood eagles cherish talents and be kind in our hearts, otherwise, let me out

Killing you with your hand will put your soul on the light to burn, and there is no possibility of turning over forever! "

As soon as the Blood God Peak spoke, Fang Yue's expression was eaten.

The fact is also true.

How noble is a strong man at the pinnacle of the Yin and Yang realm, he is a hegemon in any world, a veritable giant.

They already belong to the mainstay of a world, their status is respected and undecidable!

When Fang Yue looked at the appearance of the Blood God Peak, he sighed slightly in his heart. Unexpectedly, in the end, he would still be able to defeat him by playing some hole cards!

"Blood God Peak, do you really think you have taken me down?"

Fang Yue didn't see the Blood God Peak in his eyes, and the air of space on the surface of his body was already rippling.

Blood God Peak frowned suddenly.

He felt something was wrong.

This Fang Yue is treacherous and does not conform to common sense, is he doing something tricky here?

"Now there are only three of us, and one of them is your family. Even if you take out your Rakshadan, I am not afraid! Because that kind of thing can't kill me at all!"

When the Blood God Peak spoke, he was suppressing Fang Yue's spiritual will. He hoped that in this way, Fang Yue could give up resistance and become his slave.

Fang Yue's amazing talent is truly amazing, and it really gave him the heart to love talent. As long as he cultivates it well in the future, he will definitely become his right-hand man!

Fang Yue didn't care about the words of the Blood God Peak at all.

That space fluctuates and ripples continue. Fang Yue's figure gradually faded, as if to completely disappear from the void!

"Stop in the void, it's hard to move!"

The Blood God Peak methodically sacrificed a silver bead. This bead, solidifying the space, happened to be restrained by Fang Yue's methods. Under Zhang Kui's eyes, a cold expression floated by, "Ding Kongzhu, I didn't expect you to have such a magic weapon, Fang Yue, the essence of this Ding Kongzhu is a piece of space fragment. If you can refine it, The attainments in space will immediately rise to the next level! Crisis, crisis, and danger

It is an opportunity, whether you can grasp it, it depends on your luck! "

Zhang Kui has completely treated Fang Yue as a junior and cultivated.

Zhang Kui understands that he will be punished by heaven and earth sooner or later if he rebirth after taking the house and rebelling against chaos. Once he can't get through it, he will fall immediately, even his soul flies away, and there is no chance of making a comeback!

Therefore, he must try to make Fang Yue stronger, exercise more, and become the pillar of the human race.

And he is a protector, at the end of his life, he will shine for the human race in the Xuanhuang world.

Exuding the last little afterglow of life!

Fang Yue understood the essence of Ding Kongzhu, and he found a way to crack it all at once.

Ripples in the void, rippling constantly. Ding Kongzhu is also constantly shaking, it seems that it may lose the advantage of controlling the field at any time.

### **Chapter 568: Take home**

"The power of space is limited after all! The power of time is real!"

Fang Yue didn't choose to use the power of space to regret it, but cut it casually.

This knife was just a thin aura, not so fierce and sharp.

But it was just such a knife that landed on the Ding Kong Pearl, making the Blood God Peak feel the obvious passage of time.

The power contained in the Ding Kong Pearl gradually faded and disappeared.

A space fragment the size of a palm fell into Fang Yue's hands. This space fragment is extremely solid, at least about a hundred times as stable as the Xuanhuang world's space!

"Time is heaven! Fang Yue still underestimated you! Your talent is really amazing, and even I feel jealous!"

Seeing that his Ding Kong Pearl was cracked, the Blood God Peak did not show any expression of surprise. Instead, he looked at Fang Yue with scorching eyes, as if he was looking at a peerless treasure.

As Fang Yue showed higher and higher strength talents, the expectations of the Blood God Peak for Fang Yue grew stronger.

He is not only preparing to refine Fang Yue into his own slave and puppet, but also to transform him into an external incarnation of himself.

That's right, it's the avatar outside the body.

Generally, refining the external avatar requires cutting the soul and separating the will, which consumes a lot of the deity. Moreover, refining the external avatar requires a huge amount of resources and energy, which is far from comparable and comparable to that of refining puppets!

Therefore, the average powerhouse would be very careful and deliberate if he wanted to refine his external incarnation.

But the Blood God Peak was different. When he saw Fang Yue, he seemed to have seen a great opportunity. He wants to swallow Fang Yue's memory of Fang Yue, and attribute everything about Fang Yue to himself.

Only in the realm of heaven and earth, you can comprehend many ways of heaven.

If you give him such a talent, he will surely soar into the sky. From then on, he will sweep the world invincible!

"Soul seizes the house, suppress the will!"

Blood God Peak did not hesitate, just do it if he wanted to.

His eyebrows flashed, and all of his will and soul rushed into Fang Yue's mind.

The evolution of the soul is different.

With a difference of two great realms, the Blood God Peak has an absolute advantage to conquer Fang Yue's soul.

Fang Yue felt that the Blood God Peak had entered his own sea of consciousness, he was not afraid, but showed a weird smile.

"There is a way to heaven, you don't go, there is no way to hell, you actually broke in! Comparing your soul with you, your mind is pretty funny!"

Fang Yue's sea of knowledge is extremely wide, and it is simply a small world.

Inside, Fang Yue's soul sits in it, and he waits for work at ease.

Fang Yue cultivated the "Soul Scripture" and condensed it day and night. Only in terms of quantity, he could even catch up with the masters of the fifth and sixth levels of the ordinary leader.

In terms of quality, his soul is condensed, and few people can match it. He doesn't know how many times he has experienced thunder tribulation baptism, and he has crystal meditation, and the impurities in it have almost been removed.

As soon as Blood God Peak entered Fang Yue's Sea of Consciousness, he realized something was wrong.

He has no experience in fighting souls, but he also knows that Fang Yue's sea of consciousness is almost a hundred times wider!

In comparison, Fang Yue's Sea of Knowledge is an ancient castle, mysterious and majestic.

The Sea of Consciousness on the Blood God Peak is just a small hut, and the gap is self-evident.

"How is this going?"

The Blood God Peak was promoted carefully and looked at Fang Yue.

Fang Yue didn't bother to talk to him, he didn't need to be polite anymore in his home court.

"The fire of \*\*\*\* refines the ghost."

Fang Yue's spell was pronounced.

In his sea of knowledge, it immediately became a \*\*\*\* on earth.

Among them, the surging flames rolled and moved, and the faint blue color filled the field of vision.

The soul of Blood God Peak was immediately burned, and this pain was a hundred times stronger than a physical injury!

This is really painful to the soul, cannot be erased, cannot be resisted.

His eyes even closed tightly, and his breathing became much weaker.

"Fang Yue, you can't die! If you have the ability, let my soul go out, let's fight one-on-one."

Even if the blood \*\*\*\* peak was not working well, he knew that he had fallen into Fang Yue's trap.

This place is completely his cemetery. It is a tomb. It will leave him forever, and it will be impossible for him to live forever!

"Let you go? Do you think it's possible? Didn't you always be arrogant before? You want to refine me into a puppet and your slave! You are aloof, you look at me like an ant! How do you feel now, don't you? The ants are so powerful they can kill the elephants!"

Fang Yue did not have the slightest sympathy or pity for the Blood God Peak, because he believed that if he fell into the hands of the Blood God Peak, the end result would be even more miserable.

"Fang Yue, this is what you forced me. Do you think I fell into your trap and there is no room for resistance? I know some secret methods of the soul. Kill you!"

Blood God Peak glanced at him slightly, and whispered a spell in his mouth. Sure enough, there was a light in his hand, and a black machete emerged.

On the machete, there is a black tiger totem brand.

This machete has a strong killing effect on the soul!

The machete fell and the wind howled. The flames of \*\*\*\* were split in two, cutting a path.

The Blood God Peak believed that Fang Yue's Sea of Consciousness had been transformed by a treasure, and did not believe that it was Fang Yue's own power.

As long as he gets close to Fang Yue, destroys or fuses his soul, this sea of consciousness will not break through, and that treasure will also fall into his hands, giving him such a powerful sea of consciousness.

"Oh, it's quite capable, this condensing machete spell should have spread from the underworld!"

Fang Yue glanced at the black machete.

This is the most superficial technique in the underworld-soul condensate.

Of course, this technique has spread to the world, and it seems that becoming popular has become a means that many people dream of!

"Boy, don't be arrogant. Seeing that you are cut off will let your soul fly and live forever, and you can't be overborn!"

The Blood God Peak's machete cut through the void, and it was about to fall on Fang Yue's head.

Fang Yue's fingers touched slightly, and seeing the blur, they became strands of soul power, dissipating in his sea of consciousness.

"The method of your soul condensate is not authentic enough. The real soul condensate is guided by will, and then constantly observe and meditate, condensed weapons!"

Fang Yue was quite dissatisfied with the machete condensed from the Blood God Peak, as if he was a disciple who was pointing to his ineffectiveness!

The Blood God Peak was stunned.

How did this Fang Yue feel more arrogant than himself.

"Soul Condensation, this is the method I learned from the classics of the teacher, it is definitely the top secret technique in the soul, there can be no flaws!"

The Blood God Peak roared at Fang Yue.

Fang Yue glanced at him contemptuously.

"Hey, you are really a frog at the bottom of the well, and your heart will not die until the Yellow River! Do you know what is the top soul secret technique, what is the soul condensate?"

Fang Yue's palm moves.

A black machete appeared in his hand, and a black tiger's phantom was condensed on the machete. The black tiger roared and shook the world!

Roar!

With a roar that shook the sky, the blood \*\*\*\* peak was almost roared by the black tiger to the point of dispersal and annihilation of the will!

The same secret method, the same black machete. But it was displayed in the hands of Fang Yue and Blood God Peak, as if they were two completely different secret methods!

Fang Yue's machete, both form and spirit, is murderous.

And the machete condensed by the Blood God Peak just now is just ridiculous. How do you look at it, how does it feel like a toy for children when they play house!

Blood God Peak's heart collapsed, and his beliefs and cognitions were even subverted ever since.

How could the secrets of inheritance in his sect be Xibei goods, mainland goods!

Fang Yue didn't want to know the inner activities of the Blood God Peak at this time.

Take advantage of his illness and kill him!

When fighting, as long as you have the upper hand, you must follow the snake and beat the stick to put the opponent to death, and do not talk nonsense to the opponent.

Back then, when Journey to the West, how did the goblins who caught Tang Seng be killed by Monkey King?

It's not because they were idle, wasting time, discussing whether this Tang monk was going to eat steamed or boiled, when Monkey King called for someone to come over, broke through the gate, and extinct all!

In Fang Yue's eyes, the mixed light condensed, turned into a chaotic color, and fell suddenly, with a bang, and the mixed light burst. The soul of the Blood God Peak penetrated and lost consciousness, and then was quickly refined by Fang Yue, becoming three hundred and sixty drops of four-revolution soul liquid!

A generation of heroes, the powerhouse at the peak of the Yin and Yang realm, the Blood God Peak just fell.

Originally, he would not have died so tragically, at least there was still room for struggle.

But because of greed, he wanted to seize Fang Yue, and as a result, he entered Fang Yue's sea of knowledge and was crushed to death by Fang Yue with absolute strength!

Three hundred and sixty drops of Four Transition Soul Essence is definitely an amazing wealth!

If you get to the underworld, you might be able to say that the leader-level powerhouse will take action to \*\*\*\* Fang Yue.

There is also the corpse of Blood God Peak, which is also of considerable value.

When he died, his soul came out of his body, and his body remained alive for three days.

Fang Yue collected his soul into the stone pendant.

This is definitely an excellent carcass for robbing the house. It must be cultivated and cultivated, the realm must be realm, and it must be vigorous and energetic!

Rare, priceless!

"Blood God Peak was killed by you like this? But he deserves it. You are a ghost in the world, and the most proficient is the soul method. He is a good practitioner who wants to compete with you in the soul method. It is definitely an old birthday star hanging himself. Life is long!"

Zhang Kui couldn't help being surprised when he saw the fall of the Blood God Peak, but soon, he recovered his inner peace. This result is expected and reasonable!

"Actually, according to your level of strength, you should already be able to reach the circle of powerful people at the Yin-Yang level, but your cultivation level is too low. If you don't use your strength, others will always underestimate you, so even if you return to the human race, which is just a member of the world circle!"

Zhang Kui looked at Fang Yue, with some appreciation and some regret.

Fang Yue opened his eyes wide, and said without understanding: "I have a lot of resources in my hands now, and even many powerful people who are new to the saint level are not as good as me. I don't ask for resources. What is the use of joining their circle?" Zhang Kui shook his head, and Fang Yue said, "I don't understand that circles are resources, information, and authority! How much a person's achievements are, it is definitely not just his strength, but also the environment, circles, and energy around him! For example, if you want to hunt down creatures in a certain world, you also need

Do it yourself, or hire a killer. And if you join the circle of the rotation realm, in a word, there will be many strong people in the world realm who will sacrifice their lives for you, and they will not hesitate to kill the creatures in the world realm that offend you! For another example, if you need to inquire about a certain news and consume wealth, you may not get it, and if you join the circle of rotation, or even the circle of yin and yang, just ask a question, maybe the answer will come out! In the Xuanhuang world, the heaven and earth realm is only the basic level, everything is hindsight, while the rotation realm and even the Yin-Yang realm are the middle level. Information and the like are much earlier than you know! "

### **Chapter 569: Basic knowledge**

Zhang Kui spoke openly and began to teach Fang Yue's circle of importance.

In this world, information, resources, and connections are all wealth! And the importance of these things, most people simply don't realize it.

Zhang Kui seemed to be a teacher. He was born to death. He didn't know when the catastrophe came and killed him with a bang!

Zhang Kui felt that he was a dying person, and there was nothing worth keeping, so he was very straightforward and gave Fang Yue everything he could think of and teach.

Fang Yue also listened carefully and figured out the true meaning. Although he may not do what Zhang Kui said, many places are also worth learning! "The fall of the Blood God Peak will definitely set off stormy waves in the Blood Eagle tribe. After all, the Blood God Peak is a strong man with the potential to be promoted to the realm. In any race, the realm is the pillar of the clan! Because of him Can absorb the power of the evil spirits and condense the origin of the world, the more powerful there are

, The origin of a world is more stable! "

Zhang Kui said astonishing again.

Said the connection between heaven and man.

Fang Yue had never heard of this, and had never been in contact with it.

"Why, don't you know such a basic thing?"

Seeing Fang Yue's curious eyes, Zhang Kui understood in an instant that Fang Yue didn't know what he had just said.

He was very surprised, because in his era, it was simply common sense that children knew at the age of nine.

"Sorry, I don't have any sect inheritance. Although I am nominally a disciple of the Tongtian Sect, I have not stayed in the Tongtian Sect for a few days! I belong to the Ye Luzi background, and it has been the same now!"

Fang Yue explained why he didn't know common sense.

But Zhang Kui suddenly realized. "That's it! Then, I will explain the key points and points of the cultivation path for you. The initial level is the acquired state, conceived in October, and fell to the ground. At this time, the creatures first understand, ignorant, and need to temper their flesh and condense. Spirit! Nine levels of the acquired day, step up the level, and finally have an epiphany and break through the innate. In the acquired realm, it should be noted that martial arts is not used for fighting, but for health! The bones and muscles are strong and the five internal organs are thunderous. I hope to be promoted to the innate realm, otherwise, I will blindly fight hard, and my body's potential will be too much.

, The blood is empty, let alone the innate realm, it is still unknown whether he can survive a hundred years! "

Zhang Kui sneered. What he explained was not only common sense, but also his own practice experience and experience. Many people begin to squeeze their potential in the acquired realm, learn martial arts, and want to find the possibility of breakthroughs on the edge of life and death! Such people can really make a breakthrough smoothly. Very few, most of them are

On the edge of life and death, he fell directly!

Fang Yue nodded again and again, this was exactly the same as the master in the China World in his memory.

The real martial arts masters are all idle clouds and wild cranes. Because they understand deeply that they can stand tall if they live long.

Like Zhang Sanfeng, Bodhidharma, and the Six Patriarchs!

"No wonder Yin and Yang Tianzun inherited my thousands of basic martial arts during the first level. These basic martial arts should not be for me, but for the descendants of the Xuanhuang world human race! The Tao of Tai Chi, regulating Yin and Yang, is even more internal. Family health, rather than aggressiveness!"

In an instant, Fang Yue had realized the true meaning of Yin Yang Tianzun.

Zhang Kui nodded slightly. I am very pleased.

"The second step is to step into the innate! The innate realm is mainly the baptismal dust and wipe out the acquired dirt! One step in, you immediately need to wash the menstruation and cut the marrow and cut off the acquired dust!"

Zhang Kui has a long heart.

"The path of practice is to go straight to adulthood, and to become immortal in retrograde! Stepping into the innate is a key step to becoming immortal! This step requires returning to the origin of life and condensing a group. It is best to experience thunder and tribulation, with the richest life essence Step into the realm of heaven and earth again!"

Fang Yue nodded again and again, although he made a mistake, but his innate realm required him to do it.

"The level of the heaven and earth realm is equivalent to returning to the womb, before the soul appears and the body comes! A hazy chaos, it is still a part of the heaven and the earth! It is for this reason that the strong of the heaven and earth realm can mobilize at will The power of heaven and earth is allocated to our own use. However, the essence of the heaven and earth realm level is tempering the inner alchemy! The inner alchemy heat, the level of strength and weakness, and even the training method will lead to longevity, and the foundation will give rise to a huge gap, you There is no doubt that the one who has been condensed is the golden core of heaven. But how to refine the golden core is no doubt

Is a problem!

The most common golden pill is the one golden pill, a lonely one, without any change!

Then there is Liangyi Golden Pill, which is a relatively high-level Golden Pill! Two golden pills, yin and yang can be turned each other! This is twice as powerful as the pure Taiyi Jindan! The potential is greater and the magical powers are stronger, but the required resources are also exploding exponentially!

I also know the condensing method of Liangyi Jindan, which is a big secret among some schools. For me, there are no secrets! "Don't listen to him, what is Liangyi Jindan?" Child-like trick! There are also three-

talented golden core, four-like golden core, five-element golden core, six-alloy core, eight trigram golden core, nine palace golden core, etc., one is stronger than the other! It's just that the requirements for the cultivation of these golden cores are too high!

The resources needed are almost massive. Even if it is a tradition, a heritage, and exhausts all resources, it may not be able to cast these golden pills! "

At this time, Barrow appeared suddenly and stopped everything.

Zhang Kui frowned: "These three-talented golden cores, four-like golden cores, I have also heard about them, but the five-element golden cores, six alloy cores, gossip golden cores, and nine palace golden cores are all legends, and no one has ever successfully practiced!" "Huh, it's rare and weird, do you think that no one has ever succeeded in cultivation without knowing it? Back then, when I became a Taoist, I practiced as a golden pill of gossip! The level of heaven and earth, the control of gossip, the universe and the hurdles are trembling to Gen Xun, Once trained, the world is invincible, even some old-brand Yin-Yang realm experts

Not my opponent! "

Barrow spoke, very proud.

The Gods and Demons Sect is a large sect that can be counted among the heavens and all realms. It reaches the sky and is supreme!

The inheritance stretches, every disciple is the strongest of the same generation, no one is invincible, suppressing all generations.

"Then what golden core are you going to let Fang Yue cultivate?"

Zhang Kui was a little guilty.

He could feel that what Barrow said was not a lie.

With such a big figure present, he no longer dared to point Fang Yue at will.

"The world's golden core, don't leave Luotian!"

Barrow suddenly spoke and said a proverb in the heavens and the world.

"At the level of heaven and earth, Luo Tianmen has the most ingenious method of condensing golden cores. They use the advanced golden core method. Starting from the first golden core, it will continue to change and evolve. How many golden cores can be cultivated depends on their own good fortune!"

Barrow raised his head proudly and looked at Zhang Quina's surprised expression extremely contented.

What he likes most is to be a teacher and guide others. This is his hobby. After every teaching, he will give birth to a spiritual satisfaction.

"However, Luo Tianmen's method of condensing golden core should be top secret, do you have their secret method of condensing golden core?"

Fang Yue looked at Barrow, he already vaguely knew the position of Luo Tianmen in the vast universe.

That is a big force that can fight against the gods and demons.

"This, of course I have it!"

As expected, Barrow said: "The method of condensing the golden core is the foundation of Luo Tianmen's teaching. How can I have such a thing?"

"You said it for nothing. Where did I go to find it?"

Fang Yue looked at Barrow with a guilty conscience. Soon Barrow said confidently: "Although I don't have one, but you do! There is Luo Tianmen's method of condensing golden core in your Underworld ring! Back then, Pluto comes, sweeps the world, collects the inheritance of various religions! Many of these secrets are hidden in your Pluto ring, there are legends

Said that this is Master Pluto who is cultivating the strongest heir for himself. "

Barrow talked freely, he didn't even know the contents of this underworld ring.

How could Barrow know so clearly. "Fang Yue, you don't know, this Underworld God is a god-king level existence! He is also a supreme elder in my Divine Demon Sect! Everything about him is clear in the Divine Demon Sect. The record, even when I was young, my master once followed me and saw this underworld god

grown ups! "

As soon as Barrow spoke, he asked a crucial question!

Pluto is the \*\*\*\* king, also known as Lord Pluto.

This big man turned out to be a supreme elder of the Divine Demon Sect, and even Barrow had even seen him! "According to my speculation, there are ninety-nine seals in the Ring of the Underworld. You only need to open the nine seals to get the secret magic of Luotianmen's golden core! Back then, Luotianmen also tried their best to obtain from Master Underworld. I want to return the golden core secret method in my hand, but unfortunately, Master Underworld Megatron, right

Yu Luotianmen simply dismissed it! "

When Fang Yue heard this, his whole body was boiled with blood!

Originally, Fang Yue thought that he had obtained the three celestial scriptures, it was already a great adventure, and he no longer needed any other assistance.

Unexpectedly, he was still guarding a big treasure-the Ring of Underworld!

Open the seal and you will be able to get the unreserved inheritance of a \*\*\*\* king class powerhouse!

"I will open the seal and get the inheritance! I have the inheritance of the Lord Underworld, and I need any messy adventures to break the ninety-nine seals, and I will be able to cultivate to the realm of perfection!"

"No!"

Barrow wanted to stop.

But it was too late.

Fang Yue's thoughts fell.

The seal of the underworld ring opened.

A violent, illusory figure appeared immediately!

His figure is vague, without saying anything, a slap is to slap Fang Yue.

The wind was whistling, the world was dim, flying sand and rocks, the whole world, he seemed to be the only protagonist!

"What is this!"

Fang Yue widened his eyes and held his breath!

A space secret fell.

The space solidified, the figure was stiff, it was temporarily sealed. However, less than a tenth of a blink of an eye passed, click, click, and the space seal immediately shattered.

### **Chapter 570: Valkyrie power show**

The vague figure appeared again.

He was like a devil released from hell, and his whole body was full of murderous aura.

Once shot, extremely sharp.

Kill the sky, kill the land, kill the Buddha, kill whatever comes!

Fang Yue used martial arts to confront him.

Fang Yue immediately discovered that the other party and himself were even vaguely even in terms of physical fitness!

However, the opposing party's murderous intent is strong, once you do it, you will die without regrets!

Regardless of your own defenses, go all out and fall into a strong attack!

"What kind of monster is this! With his attack, even the strong of Yin-Yang realm will be crushed! This quality is too cruel! I seem to see nine flying tigers stepping through the void, trying to tear Fang Yue!"

The energy aftermath of the battle is too great.

Zhang Kui couldn't help but stepped backwards one after another.

His eyes opened wide, and his breathing became quicker.

Barrow was beside him, full of resentment. "Fang Yue is really too impulsive. Why didn't this kid listen to me and finish the story? How could the ninety-nine seal of Master Underworld be broken so easily? The

test of every level is quite difficult! First! This demon Guan is the devil projection of a martial arts master branded by Lord Underworld

, His physical fitness is about the same as Fang Yue! Fang Yue's martial arts is far from reaching the level of a martial arts master, at best, he is a relatively ordinary martial arts master! "

What Barrow says now is of no use.

What Fang Yue did was almost insane, and the blood eagle clan powerhouse who was turning around was corroded and destroyed.

The air of death encroached on the viscera, and the old man of the blood eagle tribe didn't know the moment before he died. The last blood and essence of his body were all transformed into a shadow of death, thrown into the copper furnace of heaven and earth. Let the copper furnace of the day add strength.

Fang Yue's methods shocked the sky, and Wu Shentong immediately closed his mouth. He saw that Fang Yue's methods were unpredictable, and even he did not perceive the air of death contained in the airflow. This made him look at Fang Yue's gaze again and it was all different, brilliant!

That's right, this time, Fang Yue did it to express himself.

He knew that this time the Martial Skills would definitely leave the cage world and return to the blood martial clan again.

Once he regained his cultivation, he would immediately become the senior of the blood martial clan. Elevated status, different!

Someone above is easy to do things, if he can be appreciated by the blood supernatural power, his future status in the blood martial clan will be different!

This is Fang Yue's wishful thinking, crackling.

Fang Yue's methods were not shown to the blood eagle tribe as a deterrent, but to win the appreciation of the blood supernatural power!

"Fang Yue, you are so courageous. A small practitioner on the first level of the world realm dare to bully our blood eagle tribe. Don't you really know what the sky is high? I want you You can't survive, you can't die!"

A middle-aged man from the fifth level of the Rotating Realm of the Blood Eagle tribe made a move, and with his punch, countless thunder rolled in. What he comprehended was the road of Thunder, which was extremely profound.

The billowing thunder, turned into a long sword of judgment, fell from the void. Want to take Fang Yue's life!

"roll!"

Wu Shentong roared and moved the universe, although he said that he was unwilling to intervene in the fight of the juniors, but he couldn't just ignore it when others bullied him.

At the fifth level of the rotation realm, he actually shot a junior on the first level of the world realm.

This is not a challenge, but a slaughter. It is strangling the geniuses of their blood martial race. He cannot tolerate it!

With a roar of Wu Shentong, the middle-aged man of the blood eagle tribe spit out blood again and again. The blood he spewed out instantly evaporated, and was attracted by the copper furnace of heaven and earth, quickly refining! "Although the leader of the blood eagle tribe has already fallen, there are still some big cats and kittens left, one by one still alive. These people were originally annoying, but now they are just right to be dealt with by Fang Yue, but this Fang Yue You must also pay attention to what means he just displayed, even

I haven't studied it clearly!

Is it the way of death? He is in the realm of heaven and earth. If he can really comprehend the way of heaven, he is a rare talent. If he has time, he will draw him in. If he refuses to submit to our ocean world, he will simply wipe it out! "

Among the marine creatures, a big man on the eighth layer of Yin-Yang realm muttered to himself, and he couldn't help but utter a sound.

He didn't care about Fang Yue's feelings at all.

In his eyes, Fang Yue was the first realm of the world realm, that is, an ant, and he was a master of the 8th realm of Yin and Yang, a giant dragon.

Ants, no matter how great their potential is, they still haven't turned into strength.

A dragon can trample countless heads to death with just one step!

"Bold, I am really impatient to calculate the genius of our blood martial clan! Don't think that I am a member of the ocean world, I dare not move you, I can't kill even the messenger of the heaven back then!"

Martial God is a fierce nature, and he doesn't recognize him when he does it, and he is very short-term protection. Once he recognizes Fang Yue's potential, he will treat him as a baby bump and want to cultivate it.

The outside world, the slightest threat will be seen in his eyes, and he will do his best to kill.

In Wu Shentong's eyes, two beams of light suddenly shot out.

There was a bang.

The strong body of the eighth layer of the Yin-Yang realm in the ocean world exploded, and the dead can't die again!

Wu Shentong's palm was photographed slightly in the void.

Those corpses, blood fog, all fell into his hands.

"Boy, here you are!"

Wu Shentong threw the corpse and blood mist directly into the heaven and earth copper furnace.

With a bang, the flames in the copper furnace burned extremely fiercely, trying to refine all the corpses and blood mist.

However, the level of the Heaven and Earth Copper Furnace was too low, and the samādhi real fire in it had not yet reached the point where it could refine the Yin and Yang corpses.

The powerhouse of the Yin-Yang realm, in line with the yin-yang principle, has begun to comprehend the mystery of heaven and earth, and every inch of flesh and blood is intertwined with the texture of heaven and earth!

Even if they die, a drop of blood in the body is a great treasure.

Because the yin and yang airflow in it is endless and can be used well, it can be refined into a pill, to regulate the viscera, wash the menstruation and cut the marrow, and transform an ordinary baby into a genius of a thousand miles!

The martial arts ability threw this corpse into Fang Yue's heaven and earth copper furnace was also a test for Fang Yue.

If these can be refined, Tiandi Copper Furnace will be powerful to an astonishing level.

And if the refining fails, the heaven and earth copper furnace will burst.

Fang Yue might be blown into a boy chicken!

However, how could Fang Yue only have this means.

Heaven and Earth Copper Furnace is just a small method that is less than one thousandth of his.

Fang Yue slammed a punch, shattering the yin and yang energy in a slap-sized corpse, turning it into the purest heaven and earth power and being refined by the heaven and earth copper furnace. The Tiandi Copper Furnace suddenly produced all kinds of incredible changes!

Around the copper furnace, countless carvings of flowers, birds, fish and insects became clear. These carvings seemed to be born congenital without any traces of artificial carvings.

"Heaven and earth copper furnace is the supreme artifact when heaven and earth first opened! It refines sentient beings and condenses chaos. Even if this heaven and earth copper furnace has only one billionth of the energy of the deity, it can shock ordinary Yin-Yang masters!"

Wu Shentong glanced at Fang Yue appreciatively.

If Fang Yue can really successfully refine this heaven and earth copper furnace, he can draw on the will of the deity and condense the force of the universe.

I am afraid that everyone present will be swept out by him.

It's a pity that no one else can see the clues.

At this moment, after the wars, Ocean World has sacrificed dozens of people in the rotation realm alive, and summoned an ancient divine residence of Ocean World to directly suppress and crush Zhou Yi.

But Zhou Yi was not a vegetarian, he burned a shabby, old yellow paper talisman.

One of the sage's thoughts drew out and bombarded the divine residence.

The forces of both sides cancel each other out and annihilate each other.

The aftermath of the battle swept across all directions, almost damaging all the surrounding creatures.

"The patron saint!"

"The patron saint!"

At the scene, Fang Yue and Zhang Kui had the lowest surface realm and the weakest combat power.

But when the aftermath swept away, the two unanimously stirred up the seal of the patron saint.

The mark turned into a ray of silver light, covering the two of them.

Let those air currents sweep and swept. Both of them remained motionless and would not suffer any harm.

The light of the \*\*\*\* seal gradually faded until it disappeared completely.

The aftermath of the battle finally dissipated.

All the creatures below the fifth level of the Rotating Realm were all shattered, not even a single person survived.

And the other rotation realms that survived, even if they saved a small life, all paid a different price.

The masters of the Yin-Yang realm are slightly better, but they are all pale, with a detached look.

The battle at the Saint Realm level, even if it is just a slight aftermath, is definitely not something that people of their level can bear!

"Heaven and Earth Copper Furnace, devoured like crazy!"

In the space, strands of blood are permeated, and every strand of blood contains pure energy.

Fang Yue took advantage of this opportunity to shine in his eyes. Continuing to refine his heaven and earth copper furnace, he was harmless and unharmed, the heaven and earth furnace condensed the blood around him, and in an instant it became a palm-sized furnace.

This stove, as if it were real, did not tell at all that the formation was condensed.

The flame transformation in it is already the real fire of Samadhi, transformed into real fire of Wumei!

"It's done!"

A look of surprise flashed in Fang Yue's eyes.

But he dared not show it, and if nothing happened, he continued to glared at the remaining blood eagle tribe!

"You people, do you want me to kill them one by one? The explosion just now left you with no strength, but Zhang Kui and I were protected by the seal of God and didn't suffer any harm!"

Fang Yue looked like a villain and walked in front of the \*\*\*\* eagle clan's powers. Those \*\*\*\* eagle clan powerhouses looked at Fang Yue and bit their teeth with hatred, but he was helpless!

Just at this time.

A surging breath suddenly descended! Everyone felt that they were being strongly oppressed, and even the blood circulation in the meridians was not so smooth!
