

## God of Life 771

### Chapter 771: Breathing

Lin Keer nodded and said, "That's right! I saw my grandfather several times when I was a child. He was ruddy and stout. Apart from occasionally coughing, he didn't look like a wounded and dying person! He also taught me something. Shallow breathing, let

I nursed my body and moisturized the internal organs. I was just drawing a gourd and doing it as I did it, but it didn't really take the same thing!

Now that I think about it, my grandfather has a horror and foresight, and has already walked a long way on the road of spiritual practice. In order to practice, he gave the power to the uncle, so as not to be confused by Hong Chen's ties! "

The more Lin Keer thought about it, the more certain it became. Any clues are pointing, her grandfather is likely to be a clever cultivator before the aura of heaven and earth recovers! He started earlier than anyone else, more than 20 years later, he was planning in the dark, I really didn't know he had arrived

What realm!

"Then let me take a look at the breathing method you taught your grandfather! Don't worry, breathing method is just an introductory method, and I can't pry into your secrets!"

Lin Kerr was generous.

"It doesn't matter, you saved my life, even if you think I want the whole set of cultivation methods of the Lin family, I will not refuse!" Lin Keer smiled, very bright, like spring time!

Lin Keer showed her breathing hair, her eyes were slightly closed, revealing a solemn treasure.

She breathed lightly, and the spirits of the surrounding world gathered towards her. In addition to the aura of heaven and earth, there are still strands of life essence and extremely thin vitality.

Every time I breathed, it seemed to wash the floor of Lin Keer's body.

Let her body be flawless and her spirit clean. This method is ancient and powerful, surpassing the vast majority of breathing methods Fang Yue has seen.

Breathing method is just the starting method of practice.

It does not represent the level of the exercises.

However, the martial arts corresponding to such an extraordinary breathing method must be extraordinary.

Every breath is a baptism to the flesh.

It has accumulated over time, and the effect it will cause is simply unimaginable. "Okay, you can stop! I can roughly estimate the level of the exercise you are practicing! This is a very ancient exercise, quite aloof, if it is extreme, it can be immortal! Nothing else, just is the breathing method, which can baptize the physical body

, Bright and pure spirit, even if it is a groundless mortal practice day and night, it can prolong life and be strong! "

Fang Yue made a very high evaluation of Lin Ke'er's breathing method. Lin Ke'er was taken aback for a moment, and then smiled sadly: "I'm afraid you really missed your eyes this time! My breathing method is nothing special, and it's not as profound as you said. If it can really make a common man transformed into immortals, then I

Will it still be as mediocre as it is now? "

Lin Ke'er had a faint sorrow in her eyes. She was dazzling since she was a child, and few of her peers could compare with her.

But since the arrival of the new era, she has recovered and swept the world.

The light on her body was quickly dimmed and transferred away from the core of the Lin Group.

Nowadays, she has been obscured by everyone, and was even abandoned by the Lin Group as a piece of marriage.

This made her heart inevitably lost and sad, always alone facing the bright moon in the sky, crying and sad.

"Your breathing method is by no means simple, I can't get it wrong in this respect! It's just that there seems to be another force in your body that seals you. It prevents your potential from being fully utilized! You need to break through!"

Fang Yue said his guess.

Seeing the goddess who used to be confident in the past is now so declining, he feels a little unbearable. "Seal? Fang Yue, you don't need to comfort me. I am already satisfied to be able to break through to the seventh level of physical skills. As long as I have enough time, I can practice to the level of nine physical skills! At that time, I will return to the family, I believe the Lin Group will be even more Value me!

"

Lin Ke'er thought Fang Yue's words were comforting herself.

She never sensed any mysterious and peculiar power in her body.

Fang Yue didn't explain much, the seal was very peculiar, somewhere between existence and nonexistence.

Even he can't sense and decipher. "In the past two decades, the earth has undergone dozens or even hundreds of spatial changes. People from other worlds have crossed the borders, and most of them come from the plane of spiritual civilization, the most powerful. People who are at the pinnacle level of the Innate Realm! Once they are discovered, they will be quickly hunted down, and the many treasures, spiritual stones, exercises and other cultivation resources on their bodies will be divided up by the major organizations and forces! All of this is in the first place! In secret, who would have thought that three years ago, the spirit of the whole earth

Qi completely recovered, and the secrets confined to the major organizations and forces could no longer be kept, and this was forced to disclose the practice of physical skills. "

Lin Ke'er briefly introduced these young things to Fang Yue.

Fang Yue didn't expect that the girl she liked in the past had so many secrets hidden in her body. "In fact, many people think that they are geniuses, and they have reached the level of innate realm in just three years. But they don't know that they have already slowed down others a lot on the starting line. It is said that some people within the Lin Group have already broken through. high

The level of heaven and earth, sitting in the center, prevent all accidents! "

Lin Ke'er exposed the biggest secret of the Lin Group to Fang Yue.

To show the trust of the other side Yue.

Fang Yue was taken aback for a moment, then smiled: "Are you in the realm of heaven and earth? Guess what realm I am?"

Lin Ke'er was stunned. She looked at Fang Yue, holding her chin, and Liu frowned, thinking and thinking.

Fang Yue's realm is not easy to guess.

Starting from the Innate Realm, it is very likely that you have reached the pinnacle of the Inborn Realm!

"Don't guess, I am also in the world realm, and I have already stood on the third step of the world realm!"

"The third step of the heaven and earth realm...Fang Yue, are you really that strong?"

Lin Ke'er had long guessed that Fang Yue's strength was very strong, and he could manipulate the flames like an ancient demon god.

But she didn't guess that Fang Yue turned out to be a master of the world.

To know.

The Lin Group exhausted all the resources and strength that could be used, and found the best cultivation genius they could find. Only then did they cultivate one or two powerhouses in the world and become the trump card at the bottom of the box!

"Don't you believe it? I can show it to you! The strongest person in the world realm, the most typical feature is that he can be one with the sky and the earth, temporarily borrowing the aura of the sky and the earth to fly in the air, and not fake anything!"

Fang Yue's feet were off the ground, floating in the air.

He looked at Lin Ke'er with a smile on the corner of his mouth.

Lin Ke'er was shocked, this Fang Yue had definitely cultivated to the level of heaven and earth!

Although her spiritual aptitude has continued to be very good, she has not been trained in the Lin Group.

But after all, she had also been at the helm of the Lin Group for a while, and she understood some Xin Mi that others didn't know.

Leaving the ground in the air is a symbol of heaven and earth!

Fang Yue's ability to do this undoubtedly proved his realm of strength! "Fang Yue, the realm of heaven and earth is indeed very strong. If you really want to have a sequence, you should be in the first echelon of humans on this earth! However, the realm of heaven and earth is not invincible. There is also a wave of people who are very special and some are powerful. To the extreme, you can row the mountain

Pour the sea and draw the land as the river. Some extremely weak and ordinary people are no different from ordinary people. They are called aliens, and they are a special group of lives that mutated in the age of aura recovery! "

"Another person?"

Fang Yue has never heard of this name in other worlds, and his ethnic group generally does not change at will. "Yes, they are strangers. Even if they don't go to practice, they are quite strong! Ten days ago, we once received a secret security, saying that a stranger had three heads and six arms and was dying of heaven and earth. The invaders of other worlds! In my Lin group, these three powerful aliens were worshipped. They were mutated and awakened five years ago. They have different abilities. In terms of pure combat power, they were at the beginning of their awakening. Have the strength comparable to the fifth and sixth layers of the Xiantian realm, and they

Everybody has magical powers, and even a little carelessness will even the strong of the world will be recruited! "

Lin Kerr explained the truth clearly.

Perhaps this is just a corner of the earth's aura recovery.

But these are all the information in Lin Ke'er's hands. She knows everything and can't say enough. It is Fang Yue who has already explained all the details. "This era is indeed beyond my expectations. Originally, a human being on Earth was very weak. I did not expect that among the folks hiding tigers, there were dragons among them, and the invaders from other worlds turned from hunters to prey! Even, Those big forces, big

Organize and treat them as resource suppliers! "

Fang Yue is admiring that people on the earth are unparalleled in wisdom, and their hearts are dark, and they are growing rapidly with the help of a special period! "In the next stage, according to my speculation, there may be big forces, and big organizations will start with some ruins containing ancient myths and legends! They will try to find out whether those related stories in the myths and legends of the major civilizations on the earth are true.

! "

"Of course, this is just a guess that can't be taken seriously! The ancient myth is very old and mysterious, and few people can touch the truth in it!"

Lin Keer was very cautious and provided another piece of information. She couldn't guarantee that this piece of information had real reference value, so she put it at the end.

Fang Yue nodded without saying much.

He is digesting this information.

The situation on the earth is indeed not simple, mixed with dragons and fish, and it is not as fragile as it seems. "Your news is very valuable! We are friends with each other, trading is trading! The value of these news is enough to benefit me a lot and make multiple preparations! This is a pill of a thousand catties, which is my little care. Take it, you can make

Your physical body adds a thousand catties! At least at the level of the acquired realm, you can have the ability to protect yourself! "

Fang Yue took out a jet-black pill, it was only the size of a glass bead, and under the sunlight, it shimmered with silver light.

Lin Kerr was slightly surprised when she saw this.

"This pill can increase physical strength after taking it?"

Lin Keer is not a person without knowledge.

Generally, the nine levels of physical skills, that is, the strength of the physical body is a little weaker, and with the help of external force to break through, the physical strength may only be eight or nine hundred jin! Taking this medicine pill is tantamount to being physically invincible at the level of acquired realm!

Multiplying power means that combat effectiveness can grow exponentially!

If this pill falls on the market, it will definitely cause countless people to \*\*\*\* frantically!

Her news, in fact, is not considered valuable. People with a little status in the major forces have heard about these things.

"Fang Yue, I can't accept this pill! These messages are not worth the price, and you saved my life! It is my duty to give you some necessary reminders!"

Lin Kerr has his own principles and bottom line. She rejected Fang Yue's pill.

## **Chapter 772: Come here**

Fang Yue smiled and said: "Let you hold it, just hold it! There are so many chirps. In your eyes, this thing may be a treasure, but in my heart, it is very ordinary, just like jelly beans! "

With that said, Fang Yue took out a tin box and shook it slightly, and there was a clattering sound.

Open the lid, and it is full of the same medicine!

Lin Ke'er glanced roughly.

There are at least five or six thousand pills in this box.

She no longer refuses.

It's not because Fang Yue's Qianjin pills are cheap, but her current situation is special. She really needs these pills to increase her trump card and gain a foothold in the Lin Group!

Three more days passed after a quiet day.

The people of Jiangdong Group seemed to pinch their noses to recognize this incident.

Fang Yue's display of combat power was so terrifying that the red leader was killed under his hands.

Sending more people to retaliate, at most, will only give Fang Yue a few more lives in his hands, and no one can pose a threat to him.

Strictly speaking, the realm of heaven and earth already belongs to the category of Superman!

Can vacate, can control thunder and lightning, can comprehend the principles of the Tao, and develop in the direction of the legendary devil!

Lin Ke'er and Fang Yunshan were practicing calmly, and under Fang Yue's guidance, they progressed quickly, and they would gain new gains every day.

With the assistance of Lingshi, the pill to help, and the guidance of a famous teacher next to them, their practice speed can definitely be called a thousand miles.

The results of one day's practice are better than those of ordinary people, and the results of six months of practice are exaggerated!

Fang Yue is also practicing Qingniu Jin, he is not in a hurry to break through!

Nowadays, Jin Dan hasn't fully formed yet, and still needs massive amounts of life, death, and soul essence to supply!

Was it the immortal scripture he was cultivating, and he was still three practitioners. The resources he needed were dozens or even hundreds of times more than those of the same realm!

And every resource is cherished, not only in large quantity, but also in terms of quality!

Instead of having an unstable foundation and rushing forward, it's better to get a solid foundation first!

This green bull strength is really extraordinary. Every time Fang Yue cultivates, he can radiate the lowest level of magic in his body!

In ancient books, there is a saying that the body is a demon, and the soul is a god!

Because human beings coexist with gods and demons, they have unlimited potential!

The instinct of the flesh is tapped to the extreme, that is, the instinct of the flesh alone can sweep the world, and it is invincible!

Of course, when the divinity is excavated to the extreme, it can also fall with a single thought, condense the world, create the world as a god, incomparable!

This Qing Niu Jin is a key to awakening the instinct of the flesh, and it complements the hundred levels of the flesh!

Now, Fang Yue's body is stronger.

Even Fang Yue didn't know what direction his future path of cultivation would take!

Three days of tranquility are fleeting.

Pan Shao came to the door again.

Compared with the previous few times, Pan Shao became more low-key and amiable.

"Young Master Fang Yue, I'm here to see you for something!"

Pan Shao took a foothold in front of the door, he knocked on the door lightly, and directly explained his intention!

Lin Ke'er opened the door with a faint surprise on her face when she saw Pan Shao.

She and Pan Shao knew each other, and they were both senior leaders in the business circle! Pan Shao is the vice president of Huake Biological Company, and he is also a genius in business! Moreover, his background is quite profound. He is not like her, who is not like her. He is declining and is excluded from that circle.

An unknown person!

"Lin Ke'er? Why are you here?"

Goodbye Lin Ke'er, Pan Shao also showed a slightly surprised look!

Lin Ke'er, the goddess of the past, was once a warrior goddess of war in the Chinese business circle, a leader among people, and a hero among women.

Unfortunately, the times have changed and her status is declining. Pan Shao hadn't seen Lin Ke'er for three years.

I didn't expect to meet again here.

"Miss Lin, it's been a long time! I'm so fortunate to be able to see you here!"

Pan Shao is very polite. Although the surface is warm, there is not much real feeling in his eyes. Pan Shao is a typical businessman, in his eyes there is only interest, no affection.

If it were three years ago, he would inevitably greet Lin Ke'er by chance.

Exchange and exchange feelings.

But over the years, Lin Ke'er has been gradually squeezed out of the high-level circle of the Lin family.

Power left.

So he was too lazy to talk to Lin Keer.

"Shao Pan, what's the point of visiting the Humble House!"

Fang Yue walked out of the room.

There was still a slight smile on his face. Pan Shao whispered, "I'm here to invite Young Master Fang Yue out of the mountain! My Huake Biological Company recently took a business to study the genetic sequence of mutant beasts and artificially create some biochemical beasts. But these biochemical beasts

Most of them are in the wild and it is difficult to capture, so we came this time hoping to let Young Master Fang Yue help us once!

This mutant beast, we only need to be above the Innate Realm level. Depending on the difficulty of the capture, we will give Young Master Fang Yue a reward of 100,000 to 5 million! "

Pan Shao has investigated clearly.

Fang Yue and Fang Yunshan have lived quite poorly these years!

He didn't believe that, in the face of such a high price, Fang Yue could still refuse categorically!

"That's it? Not interested, Pan Shao should find someone else!"

Fang Yue responded lazily.

He is not short of money. If he wants to, he has a huge amount of gold coins in his hand, and a little melted is gold of good quality.

Returning to the earth, taking advantage of this period of peace, he still wants to spend two days of leisure.

"Not short of money?"

Pan Shao was a little surprised.

This is not the answer he had anticipated before.

How can Fang Yue not be short of money? "Do you think the reward for you is not enough? The price is negotiable! We have taken a fancy to a tyrannosaurus, a Komodo dragon mutated, it has the strength comparable to the peak of the innate realm, if you can kill it and Bring the whole body back

I can give you three million in cash! "

Pan Shao believes that Fang Yue's refusal must be because he did not give enough money.

"It's really not about money or money. If I am short of money and sell these things, how much do you think they are worth?"

Fang Yue took out a trident made of pure gold.

This trident weighed slightly, weighing at least three to four hundred catties!

The craftsmanship is fine, the texture is clear, and the surface and floating with a faint ocean atmosphere.

This thing was killed when Fang Yue didn't know which hapless guy he killed.

"How much can this thing be worth?"

Fang Yue put the trident in front of Pan Shao.

Pan Shao's eyes widened, his breath was held, and his whole body seemed to fall into a stiff state.

The value of this trident is no longer limited to the preciousness of the material, more importantly, it has a faint ocean atmosphere on it, which already belongs to the category of magical artifacts!

"This trident is worth at least tens of millions. If you can show the magic in it, it may be even higher!"

Pan Shao calmed down quickly. Although the artifacts were rare, they were not the first on earth.

Some ancient families, or hunters of otherworldly creatures, will have something similar more or less!

Including his family, there are also three magical artifacts in charge, and each magical artifact is amazingly powerful and can open up the world and increase the lethality of the holder several times!

"This magic weapon, the Trident named Poseidon, can mobilize ocean tides when it is swung, and fight on land. It can only form fresh water vapor to protect the holder of the magic weapon! But it can be controlled in a place with rich water vapor. Sea waves, Jewish

Like a divine residence in the sea! "

Fang Yue is bragging about here!

The quality and level of this artifact is not high at all. There is no magical material in it. Regarding the rank, at most the artifacts of the innate level are the top!

There are nine ancient inscriptions imprinted on it, which gives this trident a certain magical power!

"There is nothing to say, I hope you can demonstrate it!"

Pan Shao was calm on the surface, but there was a burning flame in his heart.

If it can mobilize the tide of the sea, then the value of this trident will be higher than he expected!

After all, their Pan family's three swords magic weapon can only increase the lethal power of the holder, not enough to mobilize the power of heaven and earth.

"There is no sea, just make do with it!"

Fang Yue didn't refuse, he understood that people like Pan Shao must be deterred before he would have respect for you!

In Fang Yue's hand, the trident shook slightly.

The sound of the tidal crash rippled in the air.

The pervasive water vapor turned Fang Yue's ten-meter circumference into a misty area of mist. The faint smell of the ocean made Pan Shao feel like facing the sea!

This trick is very new, Pan Shao has never seen such a trick!

To control the power of heaven and earth, this has briefly exceeded the understanding of practice of most practitioners on the earth!

"Thirty million, I want this trident!"

Pan Shao is a little excited!

One more magic weapon, one more life-saving hole card!

Behind him is the support of the Pan Group, and 30 million points out that it is not a big number for him.

Fang Yue smiled noncommittantly: "I said, I don't lack money for the time being! If you really want it, you can buy it later when I want to change it!"

After Fang Yue spoke, Pan Shao's eyes were disappointed.

Pan Shao knew Fang Yue's temper, the twisted melons were not sweet, and the things he didn't want to sell were useless to force him.

On the road in front of the door, the ten-meter-long gully is a warning!

"Well then! Let's say goodbye! If Mr. Fang Yue changes his mind, he must notify me as soon as possible! This is my business card, and I hope to accept it!"

Pan Shao politely handed over the business card in his hand.

If others saw Pan Shao's humble appearance, they would be surprised to hear from ear to ear.

After all, Pan Shao is known for being arrogant.

His behavior and dominance, the things he values, and the frequent buying and selling, is there such room for negotiation with the other party.

咚咚咚!

There was a rush of footsteps.

Fang Yue's house was opened again.

This time, a middle-aged man with tiger eyes appeared! He is wearing a \*\*\*\* windbreaker, his steps are steady and his breathing is even!

Every breath is like a bellows pulling strong and powerful!

Behind him, there were some people who followed, all of them exuding richness, strong stature and strong spirits.

"Lin Keer, are you not allowed to be taken home?" As soon as the middle-aged man showed up, he immediately gave Lin Keer a drink!

## Chapter 773: Lin Yao

"President Lin Xuan!"

When Pan Shao had time to leave in the future, he encountered such an appearance.

He greeted the middle-aged man with a faint smile on his mouth.

"Lin Xuan? Who is it?"

Fang Yue was a little surprised.

He could feel an inexplicable majesty in Lin Xuan's body, and at the same time, there was a trace of magical power lurking in the depths of his bloodline, which is not common among people on earth!

"The current leader of the Lin Group, Lin Keer's uncle!"

Pan Shao introduced Fang Yue.

President Lin Xuan glanced at Pan Shao, and there was no echo at all.

Pan Shao's face was slightly angry.

This President Lin Xuan is also somewhat defiant. At any rate, his Kehua Biological Company is also on the same level as the Lin Group. How can President Lin Xuan be so ignorant!

"Uncle, my freedom hasn't been restricted yet! I won't go back home, no longer within the scope of your interference!"

Lin Keer responded strongly, with resentment and coldness in her tone.

It was this uncle who kicked her out of the high-level core of the Lin Group.

It is also that he wants to betroth himself to Xiang Yuan to please Jiangdong Group.

For this uncle, Lin Kerr has never felt the slightest kinship.

"Lin Ke'er, how do you talk to the president? You are from the Lin Group. Obeying the orders of the president, that's a matter of course!"

Behind Lin Xuan, an old man with a slightly camel back suddenly stood up and scolded Lin Keer.

Lin Ke'er looked at the old man with a grieved expression.

"Uncle San! Why do you say such a thing!"

Lin Xuan looked at Lin Ke'er's pear blossom with rain, and couldn't help sneering. "Grievance? Grievance is useless! I heard that Xiang Yuan, the young president of Jiangdong Group, died because of you. You have to go to Jiangdong Group to explain the cause of the matter and let Jiangdong Group send it off! Otherwise, I, Lin Family Group is set by Jiangdong

Group blame, if there is any loss, you will be a sinner through the ages, Lin Kerer! Yes, there is also this Fang Yue, which has an unclear relationship with that matter. Could you please come with us too! "

Lin Xuanyi's imperative tone was completely decisive and imperative.

Fang Yue snorted coldly, "Lin Xuan, why should I follow you? Who do you think you are? The police? You can take others away at will!"

When Lin Xuan heard the words, a vulture flashed in his eyes.

Because he hasn't seen anyone dare to stand up and refute himself for a long time!

"I am not a policeman! But I have more rights than a policeman! Lin Yao, let this Fang Yue know how powerful I am in the Lin Group! If you can't take it away alive, you can die!"

Lin Xuan said indifferently.

With his voice falling.

A young man walked out, his eyebrows gave birth to a vertical eye, which looked like the \*\*\*\* Erlang in the myth!

His body was full of blood, like a tiger going down the mountain.

A slight movement of his steps was immediately accompanied by a roar of dragons and tigers emanating from his body.

This boy is extraordinary, definitely not an ordinary thug!

Well, he should be in Class 2.

"Uncle, don't!"

Lin Ke'er discouraged her uncle, he knew that Lin Yao was a powerful stranger carefully cultivated by the Lin Group!

He was born with three eyes, especially when the third eye is opened, it will burst out with the light of death. It is especially terrifying. It can penetrate everything and no one can stop it!

"Huh! You little bitch, dare to ruin my big business, and I will clean up you later!"

Lin Xuan scolded Lin Ke'er.

And stop.

Lin Xuan thought that Lin Ke'er was pleading for Fang Yue.

However, he didn't know that Lin Ke'er was thinking about the Lin Group!

Lin Ke'er knew Fang Yue's horror.

He is truly a strong man in the realm of heaven and earth, and when he really started, Lin Ke'er had an intuition that the entire Lin group would not be enough for Fang Yue to kill!

"Lin Yao, do it!"

Lin Xuan ordered Lin Yao.

Do it now!

Lin Yao took the order, he made a \*\*\*\* ho sound in his throat, and pushed a palm towards Fang Yueping!

This palm is so powerful that it hurts everyone to push the wall down!

But the problem is.

"Dude, your Chinese teacher teaches your physical skills! You don't even talk about any moves, do you think I am a girl? You can be overthrown so easily?"

Fang Yue sneered, he gently turned sideways, avoiding Lin Yao's palm!

At this time, Lin Yao suddenly opened his eyebrows. A beam of red light poked towards Fang Yue's heart!

The palm of the hand just now was just a cover, to prepare for this fatal blow!

Before coming, Lin Xuan had already investigated Fang Yue's information.

Suspected Heaven and Earth Realm, at the very least, he is also an innate-level peak powerhouse!

This made Lin Xuan full of vigilance in his heart!

That's why it pretended to be arrogant and set the game.

This Fang Yue must die!

Not because he killed Xiang Yuan.

But because he stood by Lin Keer's side!

Can't be used by me, kill it over there!

Therefore, today's matter is entirely a killing game planned by Lin Xuan in advance against Fang Yue!

"You really worked hard, in order to kill me, you did not hesitate to act in such a big drama!"

Fang Yue was a little surprised, and then calmed down. The light beam from Lin Yao's third eye dissipated in mid-air, completely gone!

"Do not!"

Lin Yao widened his three eyes, his eyebrows were erect, and he was called the pupil of destruction!

In China's oldest records, there is also a description of the pupil of destruction.

This trick is very strong and no one can stop it! At the very least, there is no way to crack it within the scope of the first to third levels of the world!

Because Lin Yao once used this trick to kill an intruder from another world on the third level of the world.

It was a fierce battle. Lin Yao was wounded all over his body, but in the end he won. That master from the third level of Heaven and Earth Realm from another world died in the hands of the pupil of destruction!

However, nowadays, Lin Yao's most proud killer has experienced a mishap and an accident. The destruction light emitted by his pupil of destruction was instantly dispelled, and it did not cause the damage it deserved!

This was a fatal blow to Lin Yao's inner beliefs!

Let his heart be filled with anxiety and anxiety! "Mutation, it turned out to be such a thing! This world has just recovered, and some broken laws have been incorporated into the human body! It has caused you to give birth to three heads and six arms, or various magical powers! This kind of magical power is very advantageous in the early stages of cultivation, if you use it

Then, maybe you can sweep the invincible in the first few realms that you just stepped into practice! Unmatched! "

Fang Yue came into contact with the Pupil of Destruction and immediately understood the principle.

This has nothing to do with blood.

Mainly because of their talents, these people have received the pity of God and bought invincible seeds when they were just born.

Unfortunately, this invincibility is also relative.

If you rely too much on magical powers, you will eventually be restrained and killed by one blow!

Lin Yao's methods were restrained, and Lin Xuan also showed a touch of surprise.

This is different from what he expected and expected.

He Fang Yue had already made a very high estimate, but he didn't expect that he would eventually make a mistake in calculating!

"Fang Yue has nothing to do with you! I hope you will not participate in the internal disputes of the Fang family!"

Lin Xuan was calm and did not panic, he began to warn Fang Yue. All sensual!

"You just wanted to take me away? Regardless of life or death, you became the name of Jiangdong Group! Why, now you find that I am stronger than you thought and you want to stop me from taking action?"

Fang Yue sneered and looked at Lin Xuan.

In one sentence, he exposed the truest thoughts in Lin Xuan's heart. "Fang Yue, you are still too young to understand how deep the water is inside! Every big group can stand in this world, master so many resources and wealth to stand tall, naturally there are some unknowns Hole card! My hand

Lin Yao's hole card is not just one! Just because I cherish talents and don't want to see you die so early, I give you a chance! "

Lin Yao's eyes were firm, he was not afraid of Fang Yue.

Fang Yue's ability to block Lin Yao's attack really shocked him.

But heartbroken, he dared to come out in person, standing here meant that he had a hole card that Fang Yue could not contend with.

No fear of everything!

"Really? Since you have so many hole cards, let me study too!"

Fang Yue sneered, not because he looked down on Lin Yao, but for him, Lin Yao's cognitive level was still very low, and his so-called trump cards might not have much influence on him!

"Since you don't know what's good or bad, then I'm not welcome! Although I regret talent, you are too arrogant! I have no choice but to do something that kills genius once!"

Lin Xuan pretended to be benevolent and sighed at Fang Yue.

"Wang Han, come on! Kill Fang Yue and let him understand how powerful my Lin Group is!"

At this time, another young man appeared!

He is wearing a white sportswear, his eyes are a bit hollow and godless!

However, the blood in his body was vigorous, like a big furnace with blazing flames.

There is a pair of silver wings on his back.

Gives a sense of sacred and inviolable!

"Humanoid soldiers! Do you still have this kind of thing in the Lin family?"

Fang Yue recognized the origin of this thing at a glance. Humanoid combat soldiers are made with the master's body as the basic material, stripped of the soul, and filled with energy!

The moment the humanoid war soldier took shape, it had already lost its will, and its soul was sealed forever, serving as an inexhaustible source of strength for the war soldier!

This method is quite cruel and cold!

The birth of every humanoid war soldier means the fall of a genius master!

However, the strength of the humanoid war soldier is also unquestionable. After transformation, its combat power has soared, and it is completely loyal to the master's command, not afraid of death!

The materials used by this humanoid war soldier are at least a genius of heaven and earth! After the transformation, they already had strength comparable to the fifth and sixth levels of the Heaven and Earth Realm.

"Wang Han! The martial arts genius who turned to my Lin Group two years ago?"

Lin Keer seemed to know this Wang Han before.

When she heard the name again, her eyes opened wide.

That's right, it's that Wang Han!

Although Lin Ke'er didn't have much interaction with this Wang Han before, he had only seen two or three sides.

But Lin Keer clearly remembered his face! "Hahaha! I didn't expect to be recognized by you! But it doesn't matter! Anyway, both of you will eventually end up as humanoid soldiers like it! Lin Kerr, you can't imagine it! The humanoid war soldier is the biggest trump card of my Lin Group! The Linshi Group can only decline in your hands, because you are too soft-hearted! People of different surnames like Wang Han, who are not of my race, must have their heart Difference! Rather than cultivating an unfamiliar wolf cub, it's better to transform him

Become our puppet soldiers! "Lin Xuan's tone is domineering, with an unquestionable taste.

#### **Chapter 774: Doll soldier**

Fang Yue sneered: "Humanoid war soldiers, cruel methods, intolerable to all worlds, once discovered, it will be the time when your Lin Group is destroyed! Refining the humanoid war soldiers has already encountered part of the sky! At that time, there will naturally be The underworld and heaven come to execute

Destiny! "

Fang Yue understood that this Lin Xuan was taken advantage of!

Behind him, there are experts from Ten Thousand Realms who are pointing, adding to the flames and accomplishing all this!

The origin of the humanoid war soldier is very mysterious, involving topics such as reincarnation, life and death, eternity, etc., it was once in a certain era, very prosperous! But it was banned for some inexplicable reasons, and it quickly became the consensus of all worlds.

In the face of Wanjie consensus, what is a Lin Group?

Even some supreme teachers need to weigh!

"Don't be alarmist! Wang Han, after finishing this Fang Yue, I will refine him into your new companion!"

Lin Xuan's voice fell. Wang Han took the command. He jumped in the direction of Fang Yue. His body image was a smart ape. He had a war spear in his hand. The whole body was silvery white. It was a magical artifact, slightly agitated, and the inscriptions on it lit up one by one. , The surface is covered with a layer

Silver lightning.

This magic weapon is called Lightning Spear, which belongs to the inheritance of a certain family of magic weapons!

It has the lowest level and is the pinnacle level of the heaven and earth realm!

The quality and level of this root in Wang Han's hands is obviously higher, and it has obviously reached the level of the heaven and earth realm magic weapon.

The lightning spear pierced towards the defensive chest and heart!

His wings trembled and turned into a prison of lightning, imprisoning Fang Yue in it, making it difficult to break through.

This is a sure blow.

Simple and fierce, if the person targeted is not Fang Yue, but any other mind-cultivator in the world, it will be enough to kill the opponent instantly, and there will be no bones left!

"Thunder Cage!"

There was a beast-like roar from Wang Han's throat, and there was a sudden look in his godless and hollow eyes.

He was cruel and ruthless, as if he had an extreme desire for killing!

Even the tip of the spear with that war spear shone a scarlet light.

It made him look like a demon creeping out of hell!

"Lin Xuan, you are really being used! Poor, sad and sigh! This Wang Han is a humanoid weapon refined from the blood of the devil. He is naturally bloodthirsty. Sooner or later, if you can't control it, he will become your life after all. Death!"

Fang Yue said coldly.

The silver lightning was shaken and dispersed.

Fang Yue mastered Thunder Avenue, and his path was quite deep. How could such a clumsy Thunder Prison hurt him?

As for the lightning spear, it shattered on Fang Yue's chest!

Compared with Wang Han and Fang Yue's combat power, they were still far behind, and the two were not in the same series at all.

The battle spear at the level of heaven and earth, seemingly mighty, can rule the roost on the earth at this stage, but Fang Yue can't use a finger, just rely on his own breath to be able to smash it into pieces and turn it into ashes!

"This Fang Yue is too powerful! Even the puppets of the heaven and earth realm level are completely ignored!"

Pan Shao swallowed, he thought he had a high evaluation of Fang Yue!

But in the end, he suddenly realized that the Fang Yue he knew was just the tip of the iceberg!

"The humanoid war soldier shouldn't exist in this world! This time I will walk the way for the sky, and return this humanoid war soldier to dust and dirt!"

Fang Yue groaned softly.

One of his palms covered it!

The surging breath crashed down.

That humanoid war soldier is annihilated at any time, becomes ashes, and nothing is left!

"Do not!"

Lin Xuan roared, his eyes red.

This Wang Han is the strongest among the nine humanoid soldiers he carefully cultivated!

In Wang Han, Lin Xuan invested endless resources!

However, he did not expect that his proud humanoid soldier would be destroyed when Fang Yue raised his hand!

This is his most powerful trump card, and now it has dissipated, this loss is like cutting off his right and left arm, causing him to lose his strength greatly, unacceptable!

"Fang Yue! I curse you not to die!"

Lin Xuan yelled at Fang Yue. At this moment, he had lost his mind and became crazy.

"Lin Ke'er, do you need me to help you solve your uncle? He is already demoralized, and keeping him will not bring you any benefits to the Lin family, but will only become the root of your Lin family's destruction!"

Fang Yue is seeking Lin Ke'er's opinion. If it weren't for this guy is Lin Ke'er's uncle, Fang Yue would have killed him many times!

For such a guy, one minute is extra!

Lin Kerr nodded gently: "Then help me kill him!"

It's not that Lin Kerr is cruel, but that this uncle's attitude towards him is too cold and bad! Lin Ke'er was once the goddess of war in the market, and she is also not a soft-hearted person! The curse must be cut out, and she can predict that if this uncle is alive, he will be a stumbling block to return to the top of the Lin family in the future.

!

"Ok!"

Fang Yue nodded slightly, and with a single finger, he broke Lin Xuan's Qihai Dantian.

At this moment.

Lin Xuan woke up.

He realized what he was doing!

A chill came out of his back spine!

His dantian was shattered and his skill was completely useless. From the power of the Lin Group, a high-ranking master of innate level, he quickly fell to the altar and became a useless person, maybe even ordinary people are a bit inferior!

"Don't kill me! Don't kill me! I was deceived by lard! Only after observing the bewitching of the Titans will Lin Keer be expelled and the humanoid warriors refined!"

Lin Xuan wanted to ask for mercy, he told the origin of the humanoid puppet.

Just at this time.

With a flutter.

A lightning spear descended from the void and directly smashed Lin Xuan's head.

The soul is gone.

This lightning spear has a magical power, not only for the body, but also for the soul!

"The Titans..."

Fang Yuexu narrowed his eyes and took note of the incident.

What the Titans did was indeed shameless.

"Killing in front of me, did you get my consent? Or, you didn't put me in your eyes at all!"

Fang Yue snorted coldly, and the void trembled!

The owner of the lightning spear was shaken out of the void.

Sure enough, the shot was a Titan, the third level of the world, more than ten meters high!

Titans, cultivation base is proportional to height!

This one, born bloodthirsty and tyrannical, likes to invade and plunder!

The earth was watched by them.

According to reason, there is nothing to end. Because the Titans are inherently strong, the most ordinary Titans, even if they are mixed, have bloodlines above the eighth rank of the Yellow, and the Titan royals are born with the bloodlines of the earth!

The Titans fell out of the void.

It looked at Fang Yue with surprise in its eyes.

It has a secret void orb in the clan in its hand, so it can stand in the void and quietly shoot to obliterate Lin Xuan, so as not to be spied on the news of their Titans.

But this Fang Yue was a little bit astonishing, ignoring the Void Pearl and shook him out.

This is definitely not an ordinary cultivator in the realm of heaven and earth, even in the ten thousand realms, there are not many people with this ability! "Fang Yue, don't be nosy! My Titans dominate this land, it is already a certain thing! Although you are very good, but after all, your cultivation level is quite limited. You are only a practitioner of the heaven and earth level, and the praying man's arm is a chariot.

Without the torrent of history, roll forward! "

The Titans are still strong, and they scold Fang Yue with a bird's-eye view!

It is born with arrogance. In its eyes, the natives of the human race are all ants, let alone on the earth, even the worlds are the same, the blood of the human race is too humble, if not every era will have some amazing people, and their ethnic group Too much

If it's big, the entire human race of the ten thousand realms would have been killed by other races long ago!

"Your Titans are going to rule the earth? Hehe, you are here alone, how do you rule? Although there are not many people on the earth, there are more than seven billion people on the earth, and a single spit star can drown you alive! "Fang Yue didn't care. Through Lin Keer's introduction, Fang Yue already understood that these alien creatures did not find a stable space channel to the earth. They all relied on the moment when the space crack formed, passive, and then immediately. By

Pass it over!

Some have been hunted by the people on earth, and the other part has been hidden and become the black hand behind the scenes!

The vast majority of these alien creatures that came through the space cracks are at the level of the innate realm, and occasionally a strong man from the world realm comes after fishing in troubled waters!

They all jumped over individually, and without any preparation, it is difficult to bring other tribesmen over! "I give you two choices! Surrender or die, choose one yourself! Don't tell me that your Titans are coming. If you can, I'm afraid that the mountains and rivers of this earth have long been affected by your great My feet are flat

! "

Fang Yue finished.

The Titan's heart was filled with surprise.

Fang Yue's attitude was indifferent, as if he felt like he was sure of them.

He seems to know the Titans very well, and he does not seem to be a native of this world at all.

However, the Titan Giant clearly felt that Fang Yue's soul and this land had a blood connection.

Not a native, can't feel this way! "This earth recovery has a process. Each stage of recovery requires a different space channel! Today, it is only the initial stage. Only the practitioners of the innate realm can

come and pay a small price. The creatures of the world may also be able to come. Appear! But this situation will not last forever. According to our speculation, within ten days at most, the creatures of the first three realms of the heaven and earth realm can come without any scruples! And some high-ranking experts in the heaven and earth realm, pay Some price also

Can cross borders! At that time, it will be a disaster for your planet! "

The Titan giant roared at Fang Yue again.

This time, he did not lie.

The inference of the Titans is similar to that of Fang Yue.

However, Fang Yue had another part of inference. This is accompanied by the revival of the aura of heaven and earth, and some ancient relics on the earth that have been submerged in the dust of history will also emerge.

### **Chapter 775: Titan Giant**

The age of ancient myths may come again!

This is not just a speculation, but also Fang Yue's deep premonition.

"Even like that, you won't survive today! Even if they come, it will be ten days later!"

Fang Yue is very domineering! This earth is his hometown, and he does not allow creatures from other worlds to trample on this land at will!

Even the most powerful, the oldest ethnic groups and forces are not good!

"Fang Yue, dare you!"

The Titan giant felt the wisps of killing intent permeating Fang Yue's body, condensed like a horse, just like the essence.

He widened his eyes and frightened Fang Yue.

Unfortunately, Fang Yue doesn't eat this set at all!

"What can't you dare? If you violate my territory, even if it is far away, you will be punishable! If the Titans really dare to come, I will kill a whole world, and blood will flow! You are only the first, but maybe not the last!"

Fang Yue's machete, which was the same as the delisting door, held it in his hand again.

Slash and chop down.

The Titans have different heads, and they don't even have the power to resist!

The behemoth over ten meters high was beheaded!

Fang Yue silently collected its corpse. It has some wealth and treasures, including resources for cultivation!

In addition, its blood is also very important.

In the ten thousand realms, people are constantly buying the bodies and blood of the Titans.

Titans are inherently strong! This has an inseparable relationship with their blood. Some people can use the blood of the Titans to extract the essence of it, and artificially shape some geniuses.

Pan Shao was about to hold his breath.

Titans, isn't this a mythical existence?

And did the Titan just tell the truth?

Ten days later, a large number of powerhouses from the heaven and earth realm arrived, which was simply breaking news.

If it comes true, the whole earth may be upset!

"Does Lin Yao kill or keep this?"

Fang Yue looked at Lin Ke'er asking for her advice. After all, this Lin Yao belonged to the Lin family.

Moreover, with his current strength, perhaps it can be regarded as the pillar of the Lin Group! In the previous battle, the Lin Group has already lost one of the heaven and earth level of combat power. If another one falls and is informed by other group forces, I am afraid that the entire Lin Group will become a delicacy in the eyes of others and will be eager to try it.

, Divide it!

"He is unfaithful to me, kill it!"

At this time, Lin Ke'er showed off his heroic side.

Instead of leaving a time bomb, the root cause of the disaster, it is better to kill it to avoid future troubles.

There are not many masters in the Lin Group. If you lose your army and lose your generals, your vitality will definitely be hurt!

However, leaving an unsuspecting master, the final result may not be better than the Lin Group's vitality injury!

"Ok!"

Fang Yue nodded and looked at Lin Yao.

Lin Yao knelt down and cried bitterly!

"Miss, don't! Lin Xuan forced me to do bad things! The lives of my wife's parents are in his hands!"

Lin Yao knelt on the ground with no moral integrity, and the opponent Yue shouted for his life!

In the face of life and death, what is morality?

What is dignity at the feet of death?

Lin Yao's submission made Fang Yue not embarrassed to take action.

Grandpa Mao taught us not to kill prisoners.

"Kill! He can betray Lin Xuan today, and he will betray me tomorrow!"

Lin Ke'er's face was even more cold, but she hoped that Lin Yao would be more backbone.

Lin Yao's performance made Lin Ke'er feel ashamed.

When Fang Yue heard the words, a palm fell.

Lin Yao's head exploded, red and white splashed to the ground.

This is the end of the Lin family's aggressive questioning of crimes!

As for whether the police will come here.

Fang Yue was not worried.

Today's police only care about mortals and ignore immortals.

They take cases below the realm of heaven and earth.

Above the heaven and earth, forgive us for nothing!

"What? Are you still going?"

Fang Yue glanced at Pan Shao obliquely.

This product was about to walk just now, why is it still dangling here now!

Pan Shao's old face blushed, and he dared not refute, and left in a low-key manner.

Fang Yue let out a sigh of relief after Pan Shao left.

He directed the little skeleton to clean up the corpses and blood stains on the ground.

It has to be said that the little skeleton summoned by Fang Yue is hardworking, with a slight obsessive-compulsive disorder, and has treated every trace completely, as if new.

Fang Yue feels that if he can't get along anymore, summoning some small skeletons and starting a cleaning company may also be a good choice!

"Lin Ke'er, I killed the three masters of your Lin group, which will inevitably lead to a deficit in your group and a great loss of vitality! In this way, I will send you ten puppets of the heaven and earth level! Nothing else, it is enough to support the scene. of!"

"Ten puppets at the heaven and earth level?"

The smile on Lin Ke'er's face froze, she seemed to be able to hear the thumping sound of her heart.

The combat power at the heaven and earth level already belongs to the top existence in this world.

Ordinary companies and groups, as long as there is a powerful person of Yin-Yang level sitting in town is enough to keep them prosperous, and no other company force dares to commit.

The combat power at this level of heaven and earth is like the previous nuclear weapons, and more of it exists as a strategic deterrent.

And the ten puppets of the heaven and earth level, don't be too strong, okay!

Send five statues to sit in the house, and the other five are fighting abroad, and even the Jiangdong Group must pay them protection fees!

"Fang Yue, can you tell me how strong you are?"

Lin Keer looked at Fang Yue seriously. The person who had a crush on her and liked her in the past has become unpredictable for her, even more mysterious than this time.

"In terms of the realm, the third level of the heaven and earth realm, and in terms of strength, probably the general Yin Yang realm powerhouse can't help me!"

Fang Yue said very modestly.

"Yin and Yang realm? What is that?"

Lin Keer felt very strange when he heard this term for the first time. "Practitioners are generally divided into nine great realms: nurture, innate, heaven and earth, rotation, yin and yang, thorough, tongtian, great sage, and virtual immortality, and each great realm is divided into nine small levels! Among them, The strong in the cycle, and

It is called a famous place. The strong in the yin and yang realm is powerful! Torudi realm is again called the leader realm, the Tongtian realm, and the realm of saints! "

Fang Yue briefly introduced the common sense among practitioners to Lin Keer.

Lin Kerr calculated carefully: "You are in the realm of heaven and earth, you can rival the realm of Yin and Yang! Doesn't that mean you can fight across two realms?"

Lin Ke'er took a breath, her eyes widened.

In her cognition category, the world is already flying in the sky, omnipotent!

And Fang Yue's combat power level is two greater realms higher than the heaven and earth realm, his level is simply unimaginable! "Among the ten thousand realms, in fact, the innate realm is the real beginning of the practitioner. Stepping into the heaven and earth realm is the threshold for practicing! The rotation realm can be called ascend to the hall! Only at the level of the famous Respected qualifications!

"

Fang Yue is instilling ideas and common sense derived from spiritual practice for Lin Keer.

If a large number of people from other worlds really arrive on the earth in the future, then this common sense may be the capital of Lin Keer's life!

Why is common sense popularized because it is really important.

Lin Keer is slowly digesting these concepts.

On Fang Yunshan's face, there was not much surprised expression, because she had always lived at the bottom of this society, and had no idea of the world of practitioners!

Fang Yue's strength is a matter of course to her.

In the world of girls, brother is always the strongest!

"If it is in the future, if a large number of strong men from the world realm will come, will this earth completely fall into the hands of alien creatures?"

Lin Keer showed a worried expression.

"Don't worry! Soldiers come to cover the water and earth, they will come, and they will have a way to deal with it!"

Fang Yue patted his chest to make sure.

In other places he can counsel. But in order to protect the earth, he will never back down.

After all, his sense of belonging to the Xuanhuang world and the earth is different!

How can he shrink back when he really needs to stand up!

In the following days, Lin Keer still did not return to the Lin Group, she lived in Fang Yue and practiced with peace of mind.

When using her words, the world has changed!

The brilliance of the Lin Group will not last long unless a strong man appears to become the guardian of the Lin Group.

Fang Yue here is the only place Lin Keer can think of, where she can become stronger at the fastest speed.

With a steady stream of spiritual stones, the guidance of Gaowu Jianling, looking at the entire earth, I am afraid that there is no second place like this!

In a short period of time, it seemed that because of the pressure in her heart, Lin Keer jumped two levels in a row and stepped into the eighth level of physical skills!

If it were in normal times, Lin Keer would definitely be ecstatic with such achievements!

The eighth level of physical skills can be regarded as the level of physical skills of the upper reaches of the earth.

However, Lin Ke'er always remembered the dialogue of that day. With the revival of the earth's spiritual energy, the strength of the powerful people coming from outside world will become stronger and stronger!

A group of powerhouses in the heaven and earth realm whizzed through the air.

Lin Ke'er just imagined this scene, and felt extremely terrifying!

Fang Yunshan's cultivation progress was a little slower than Lin Ke'er, not because Fang Yunshan's own roots were not good enough, but because her cultivation technique was too strong.

"Lunar Law" is a top-notch technique even among the ten thousand realms!

Lunar and the sun are the oldest origin powers among these ten thousand realms!

Fang Yunshan was stuck at the pinnacle of the sixth level of physical skills and couldn't make progress.

However, Xiao Nizi did not ask Fang Yue for help, but gritted her teeth, seeking a breakthrough with hard training!

In Fang Yunshan's words, her practice has just begun. If she can't overcome even this little difficulty, then what can she do in the future!

Fang Yue has not been idle for these ten days.

He began to mobilize people from the Xuanhuang world!

Fang Yue has his own power. He has an arsenal, spreading all over the corners of the Xuanhuang world.

It is roughly estimated that the number of workers has reached tens of millions!

Most of them are refugees.

But the refugees in the Xuanhuang world are not weak, because Fang Yue's treatment is very high, so the lowest realm is innate.

On average, two or three out of a hundred people have reached the level of heaven and earth realm!

These are one of Fang Yue's cards! If a large number of congenial realms and alien creatures in the realm of heaven and earth really appeared in this earth, then he would also activate the teleportation array to teleport these people over!

## **Chapter 776: Open the altar**

Is it more than people?

Who is afraid of WHO!

What's more, it's really unhelpful, Fang Yue still has spirit stones, so he can find mercenaries!

For the future of the earth, Fang Yue has already begun to plan ahead and plan early!

The earth is his hometown, so there must be no loss!

Jiangdong Group.

In an abandoned factory building!

Xiang Yuntian inlaid the spirit stones he collected carefully on the ancient altar!

This is the altar through the Dark Moon plane.

As long as the altar is opened, it means that the portal between the dark moon plane and the earth is opened!

At that time, the powerhouses of the Dark Moon plane will come down continuously and will conquer the entire earth.

At that time, as the human messenger of the Dark Moon plane, his status will be below one person and above 10,000!

Those former high-ranking officials, rich men, will shiver and tremble at his feet!

And the \*\*\*\* thing, Fang Yue, who killed his son, will also be executed by the great figure of the Dark Moon plane Ling Chi!

Think about it, Xiang Yuntian was shaking with excitement!

As for the safety and survival of the earth, those things are his shit!

All he wants is unlimited wealth, unlimited rights, and the longevity and powerful strength promised by the dark moon plane powerhouse!

Finally, the last spiritual stone is placed!

A total of thirty-six spirit stones are all crazily outputting heaven and earth aura into the altar!

In the center of the altar like a millstone, the complex dark golden patterns gradually light up.

Threads and threads, crisscross.

A door to the void opened immediately!

"The great powerhouse of the dark moon plane! Please come to this plane! I will be your most humble guide and let your brilliance spread throughout the world!"

Xiang Yuntian's voice rang through the air.

In the portal of the void, a burly, even stalwart guy walked out of it!

There is a circle of thin animal skins around his waist, his upper body is open, his body is more than two meters high!

On his shoulder, he also carried a heavy axe.

The bare soles of the feet landed with a bang, and almost trampled the entire ground!

"Well, Sima Yan is here!"

A muffled roar came from the burly population.

The air billows.

Xiang Yuntian, who had already cultivated to the level of the heaven and earth realm, was unsteady even on his footing.

"Okay, so strong!"

Xiang Yuntian's eyes widened, he looked at Sima Yan.

I thought I had absorbed the blood of Kabuda, and barely elevated to the level of the world realm. I was already regarded as the top group of people in this world!

In the face of the creatures from the Dark Moon plane, even if he is lost, he can completely protect himself!

But facing Sima Yan in front of him, he felt a little suffocated.

After Sima Yan descended, the altar under his feet immediately collapsed. All the stones became a pile of powder, and even the dark golden patterns on it disappeared!

The Void Gate disappeared.

Xiang Yuntian feels uneasy.

One's own destiny, future, everything is controlled by others!

In case this Darkmoon person repents...

Xiang Yuntian suddenly had a trace of bad guesses in his mind.

"Are you Xiang Yuntian?"

Sima Yan gradually calmed down from the feelings of his passion and ambition that had just passed through the success, and his large copper bell-like eyes looked down at Xiang Yuntian.

"It's under!"

Xiang Yuntian said respectfully and humbly.

"You are doing very well! You are the hero of the Dark Night plane! These three drops of Dark Moon blood are your reward!"

Sima Yan grinned, like a gorilla walking out of the zoo. His whole body and hair were very long, giving people a rough and savage feeling.

However, Sima Yan's appearance and heart are completely different!

When it comes to appearance, he is very carefree, mad, and even slightly arrogant.

But deep down in his heart, Sima Yan's thoughts were thorough, without any negligence.

These three drops of Dark Moon blood can change Xiang Yuntian's bloodline. Every drop is extremely precious. In the Dark Moon world, even a slave at the pinnacle of the heaven and earth realm is far less valuable than a drop of Dark Moon blood!

But what he has to do is to buy bones!

After all, he is an outsider. If he wants to rule the earth, he must work with the natives of the earth to help him explore all aspects of the earth!

And this cloud sky is his best choice.

If you can let Xiang Yuntian follow him steadily, then why worry about the future, the dark night plane will not happen?

"Blood of Dark Moon!"

Xiang Yuntian looked at the three drops of dark red blood the size of a longan floating in front of him, and his breathing suddenly became abrupt!

The blood of the dark moon is the treasure that this dark moon plane promises to reward itself!

Every drop of Dark Moon's blood has the effect of making him reborn!

A drop of Darkmoon's blood can raise the bloodline level of the royal family and the Darkmoon family in the Darkmoon plane from the most mediocre third-rank Yellow to the ninth-rank yellow, which is comparable to that of the Darkmoon royal family. Twelve generations of disciples!

Moreover, his cultivation realm will unconditionally break through one level!

It is worthy of his decades of penance! If he could refine the second blood of Dark Moon, his Dark Moon bloodline would also increase, and the bloodline concentration in his body would be even higher, reaching the bloodline level of the third rank of the Profound Rank, comparable to the ninth generation of the Dark Moon royal family! The cultivation level is once again unconditionally promoted

Floor! If he refines three drops of Dark Moon blood, his dark blood lineage will reach the bloodline level of the eighth rank of the Profound Rank, comparable to the seventh-generation disciple of the Dark Moon royal family! The cultivation level is once again unconditionally promoted by one level, even if you step into the Dark Moon plane with

With the help of blood, he can become a royal disciple!

Three drops of dark night blood, refining and refining all have certain risks.

One drop of refining has a 90% chance of success!

But if it fails, it will burst and die immediately!

Refining two drops, there is a 50% chance of success!

Failure will immediately become ashes, even the soul will dissipate, and there will be no qualifications to step into reincarnation!

Refining three drops, there is a 10% chance of success!

Failure means encountering thunder, thunder and thunder!

Xiang Yuntian carefully put away the three drops of dark moon blood, thinking about refining, this danger and opportunity coexist.

He is a businessman, how could he not understand this truth.

However, he would not refining the blood of the Dark Moon at will, and only when he encountered a bottleneck in his cultivation would he refining the blood of the Dark Moon.

There is a small threshold for every three floors of the path of spiritual practice, and every nine floors is a great calamity!

If the blood of the Dark Moon is refined at a small threshold or at a time of great calamity, then the bottleneck can be smoothly broken through. This is the way to maximize benefits.

Before getting the blood of the Dark Moon, Xiang Yuntian had already used the blood of the Dark Moon at the point in time and used it properly!

"This dark moon blood, even if it is on my dark moon plane, is an extremely treasured thing, I hope you can make good use of it!"

When Sima Yan saw Xiang Yuntian put away the three drops of Dark Moon blood, he couldn't help but feel a little distressed.

Such a precious thing is given to such a humble ant, if it is not distressed, it is also fake.

Putting away the benefits, Xiang Yuntian became active.

"So sir, why are you alone in coming from the Dark Moon plane this time?"

Xiang Yuntian expressed the doubts in his heart, and opened the door of the void to penetrate the two realms. According to the truth, shouldn't it be the powerhouse of the plane of dark night coming continuously, stepping on the earth, and fighting invincible?

This script seemed a little different from what he had imagined before!

Sima Yan squinted at Xiang Yuntian. The aboriginal is indeed an aboriginal. Even if you want to take a high look at him, it is difficult to do it!

He actually asked such a stupid question.

But Xiang Yuntian's question is stupid.

But after all, he is now the spokesperson of the Dark Moon plane on the earth, and the answer is still to be answered! "Although this dark moon plane is adjacent to the earth, it is still quite difficult to open the passage between the two worlds! The altar you constructed is indeed suitable for the real altar size, the specifications are the same, but the materials used are too poor, Can only accommodate me to come, and then be destroyed by the rules of the void! If you want more warriors from the Dark Moon plane to come, you need more and better materials to build the altar! Of course, these materials, I Can only provide you with some major

Yes, you still need to collect the rest on earth! This is a list. There are a total of 327 auxiliary materials, all of which need you to find! As for the number, the more the better! "

Xiang Yuntian took the list, and he couldn't help feeling that his heart was about to break!

This Dark Moon plane still dared to speak loudly.

Except for a few of these materials that are relatively common, other things are rare on earth.

Before he built this altar, he has consumed a lot of working capital of Jiangdong Group.

And the materials on this list are worth a thousand times the value of the altar he built before. If he dares to buy as order, he will definitely be impeached by other directors of Jiangdong Group.

Seeing Xiang Yuntian's embarrassed look.

Sima Yan couldn't help but smiled and said: "It is said that in your earth, spirit stones are a rare thing! I have prepared a thousand low-grade spirit stones for you, and you can use them as operating funds for collecting materials!"

Sima Yan waved a hand.

Neat rows of spirit stones appeared in front of Xiang Yuntian.

Xiang Yuntian involuntarily took a breath!

This is the first time in his life that he has seen so many spirit stones!

With these spirit stones, Xiang Yuntian has some confidence. Although in terms of value, these spirit stones are still not enough to purchase the materials on those lists.

But this spirit stone can be used to buy major shareholders, open one eye, close one eye.

Lingshi is now an extremely demanding object on the earth!

It represents the strength of the future, I believe that no one will refuse his request.

Thinking of this, Xiang Yuntian couldn't help but smile, and his face was smug.

"Fang Yue, Lin Keer, you are waiting! I will mention my son for revenge sooner or later!"

In the bottom of Xiang Yuntian's heart, a fierce murder intent flashed away! "Now we are broadcasting, and we will convey the latest and fastest information to you every day! It is reported that there were abnormal noises in the sky yesterday morning, and dozens of alien creatures descended on the earth. These alien creatures are preliminarily estimated that there are energy responses at the level of heaven and earth. Please each

Citizens take precautions and warnings! "

Fang Yue took the phone and got stuck in the sofa.

"It's still comfortable on the sofa at home. The chair in Xuanhuang World is too hard, even if it is covered with tiger skin, it will not be effective!"

Fang Yue muttered to himself while sitting on the chair. He looked at the news broadcast on the phone, and he had plans and preparations in his heart!

This message was sent three hours ago.

The live news room below is constantly updated with text and pictures!

"The alien creatures that came from smuggling have been killed in Sichuan. The corpse was sent to the East China Institute for anatomical research."

"The second alien being smuggled into the capital lost its way in the sky and was killed by a missile! According to expert speculation, this alien creature may be confused by the smog."

"..."

Looking at the information in the live news room, Fang Yue suddenly found that reality may be far less tragic than imagined.

He was able to get the news, how could China's senior officials know nothing. Unexpectedly, the smog is actually a killer for dealing with alien creatures.

#### **Chapter 777: Various causes of death**

A few years ago, he followed to engage in environmental governance.

Thinking about that time, I was really naive!

Oh!

The third piece of information came out.

"Just now, the third alien creature was arrested. This creature is a humanoid creature. It fell into a coma directly because of stealing roadside snacks and drinking too much waste oil. So far, it has not regained consciousness and is under close observation!"

"This is also OK?"

One gets lost in the smog, and one is poisoned by waste oil!

MMP!

The great China is really touching!

"Brother! There seems to be a strange big fish flying over our house!"

Outside the door, Fang Yunshan shouted in the courtyard.

"Huh? Big fish?"

Fang Yue ran out of the room.

Then, he looked up and saw a big fish tens of meters long passing by, all on his body covered with dense black scales!

In the big fish's eyes, there was an unparalleled killing intent.

Look down and compare the photos on the phone.

That's right!

This is one of the alien creatures that smuggled in last night!

Haven't waited for Fang Yue to make a move.

Wow!

Dozens of flying swords have burst out of the air, chasing them!

Every flying sword pierced the sky, reaching an incredible level!

The flying fish disintegrated directly in mid-air.

The blood of hula la was scattered all over the ground.

It was like a \*\*\*\* rain.

Fang Yue's eyesight is very good. He can see the words "Shu Mountain" inscribed on the hilt of the flying sword at a height of several tens of meters!

"Shu Mountain!"

Fang Yue muttered silently, feeling clear in his heart.

Earth, people from the spiritual world have stepped in!

Ten minutes later, Fang Yue's mobile news broadcast room refreshed the news again.

"The fourth alien creature died in battle."

The news is brief.

The picture is the flying fish Fang Yue saw.

"The earth's water is really deep! I just don't know how long it will last!"

Fang Yue muttered to himself.

At this time, the courtyard door outside was knocked suddenly.

someone is coming!

Lin Yuan is a member of the China Secret Service Team!

When he was admitted to the special service team, Lin Yuan always felt like a dragon!

The top exercise.

The supply of spiritual resources for three spiritual stones every month!

Standard magic tools and robes, walking on the edge of darkness and light to fight evil every day!

However, ideals are often full.

The reality is very backbone.

It has been two years since Lin Yuan entered the special service team from a small folk genius with the sixth level of physical skills two years ago. He has also changed from a fledgling kid to a mature and old master!

Innate six levels!

Among the hundreds of geniuses recruited at the same time in Secret Service, they belong to the middle ranks, not too strong, not too weak!

However, his assigned responsibility is the wiping team, captain!

Lin Yuan's main task every day is to wipe the buttocks of those strong men in the spiritual world, so as not to be found out!

What to buy the aunt, persuade the uncle, coerce and lure to give the hush money.

Such things are his daily life.

Fighting against the imaginary power of defending the home and the country and evil is simply one place every day!

After all, it is the same world, can we also have the same dream?

Knock on the dilapidated door.

Lin Yuan is ready to be blackmailed by this family!

Squeak.

The door opened.

Fang Yue stood in front of us.

"you are?"

Fang Yue frowned slightly. He looked at Lin Yuan, with a strange breath surging through his body.

This breath is different from ordinary practitioners of physical skills, the faint dragon aura seems to be inexplicably related to the dragon!

Dragon Race, this is an extremely ancient and powerful ethnic group in the Ten Thousand Realms, but anyone or something that can be related to this ethnic group will not be too simple!

"Secret Service Team, Lin Yuan!"

Lin Yuan skillfully took out the token from himself.

This token is made of inexplicable metal. It is indestructible. It can be used as a defensive weapon to block one's chest to prevent others from sneaking on the vital points and crush their hearts. At the same time, it can also be used as a status symbol and cannot be copied!

More importantly, this token has storage capabilities.

It can form an independent small space by itself, no matter what is placed in it, there will be no damage!

"Void Gold?!"

Fang Yue glanced at the diamond-shaped token, with a big dragon written on it.

The font of this dragon character is very public, it really looks like a flying dragon alive, the dragon flies and the phoenix dances, with an air of arrogance.

"Fang Yue, can you see the token material in my hand?"

Lin Yuan was slightly surprised. Before coming, he had simply investigated the origin and identity of this boy from the police station.

A poor nail household.

Such people are generally greedy and ignorant, but it is difficult to really connect with being strong!

"That's right! Void gold is a necessary material for making storage artifacts. Such a large piece of pure void gold is really worth more than your life, even if it is a strong person in the rotation realm that sees it so fast Void gold will give birth to greed and covet

Emotions! I advise you to change the way the next time you prove your identity! "

Fang Yue kindly discouraged.

Although this void gold is rare, there are still thousands of catties in his hand!

In addition, Fang Yue himself is proficient in space with a random stroke, he can open a world of different dimensions and store various products in it.

Therefore, Fang Yue did not have any greedy emotions for this palm-sized void gold.

"Do you know this material?"

Lin Yuan felt more and more that the people he met this time were quite extraordinary!

Void Jin, just by listening to the name, he knew that Fang Yue was not fooling people!

"I'm here this time to collect the dead body and blood of the alien beast! At the same time, on behalf of the special service team, I ordered that you are not allowed to disclose any relevant information to the outsiders!"

Lin Yuan's tone was rather severe.

Fang Yue nodded and said: "Come in and sit down! I will help you clean up the flesh and blood of that fierce beast!"

Fang Yue is so easy to talk, but it makes Lin Yuan hard to say anything.

"Don't bother you so much! I can clean up myself in a while!"

Lin Yuan said politely. But the moment he stepped into the courtyard, he was directly stunned!

What kind of family did you find?

It is not humans who clean up the flesh and blood of the beasts, but a group of small white skeletons. And these little skeletons have sharp hands and feet, some are holding brooms, some are holding dustpans, and some are wiping the floor with a rag!

This is simply more professional than the cleaners of the cleaning company.

Every detail is handled exquisitely!

"Am I in the wrong world?"

Lin Yuan was a little skeptical of life, and in the Secret Service team, he was beaten.

This is so powerful for visiting a family at random?

Lin Yuan had never seen the one who summoned skeleton soldiers to kill.

But let the little skeleton do the housework.

Special code, Lin Yuan has never even heard of it!

"You did not go to the wrong world! This is the earth!"

Fang Yue made tea for Lin Yuan, then brought the tea cup up!

This tea was brought back by Fang Yue from the world of Xuanhuang.

It belongs to the ranks of fairy tea. Drinking it every day can remove impurities from the body and help improve the realm of cultivation!

Lin Yuan subconsciously resulted in the teacup. He took a sip, and immediately felt the fragrance of his lips and teeth, and the whole body was light and fluttering, and he seemed to be able to hear fairy sounds in his ears.

It seems that the whole person has already risen to the fairy world!

"What kind of tea is this?"

Lin Yuan stared at Fang Yue with wide eyes.

"It's not enough to take a look at the small specialty of my hometown! If you need it, I can give you a pack!"

Fang Yue smiled slightly.

If you say that this tea is really not cheap.

One or two tea leaves are worth five spirit stones. It is estimated that there is not even sold on this earth!

After all, this tea is abundant in other worlds, and it is not produced on the earth at all!

But the aliens invaded, they weren't here on vacation. Guys with weapons can easily explain, whoever is idle with a bunch of tea!

"OK then!"

After not a fierce psychological struggle, Lin Yuan finally accepted the tea that Fang Yue gave him.

Although he didn't know the function of this tea, but vaguely, he could feel that this tea was of great benefit to his practice!

Who in the special service team doesn't want to get ahead, who doesn't want to be superior in cultivation!

People who are not good and strong will not enter the special service team. With their strength, aptitude and talent, they can change a department at will. They are definitely VIP treatment. I won't be in the wind and sun all day, running around outside, wiping the bottoms of those in the spiritual world.

Seeing Lin Yuan's hand had made tea.

Fang Yue also showed a sly smile.

How can Fang Yue, who has always been stingy, give benefits to others in his spare time!

Fang Yue just wanted to use Lin Yuan's line to get in touch with the national department of Secret Service.

The existence of the special service team is no secret in China!

Their number is between 100,000 and 1 million.

Among them, there are not a few masters, even those in the world realm.

With universal strength, even with the open supply of resources from the state machinery, about 80% of people have reached the level of innate realm!

In China, there is a little difference from other places.

That is China, the country will always be the strongest voice of the entire society!

You say you are bullshit?

It angered the bottom line of the country and wiped it out in minutes, believe it or not?

With the line of the secret service team, at least the information will be much better than now.

As the saying goes, that person's hands are short, and his mouth is soft.

Lin Yuan's attitude towards Fang Yue improved a lot immediately, and his alertness was 90% less!

"Fang Yue, if you have anything to tell me in the future! Although my position in the special service team is only in the middle, I still have the rank of major! At the local level, I still have the right to speak!"

Lin Yuan directly patted his chest and promised.

Before Fang Yue started to hook up, his bottom line had already begun to loosen.

Fang Yue was a little speechless.

Do you rely on these goods to defend your home and country?

Is it a bit of integrity?

I thought you would just and awe-inspiringly reject me!

"Where will the corpses of these beasts be collected and transported, can you tell me about it?"

Fang Yue asked Lin Yuan.

Want to know how to deal with the dead bodies of these beasts!

"These fierce beasts are fierce beasts in the heaven and earth realm. The life essence and vitality contained in every inch of their flesh and blood is much stronger than that of humans of the same level!" Lin Yuan explained to Fang Yue, "These fierce beasts will remain. About one-tenth of the part is sent to China's major research institutes for biological research and analysis of the ingredients! 20% of it will be frozen and stored for emergencies, and 70% will be divided into two evenly. A public auction can be purchased by all major domestic forces or foreign organizations! The other is a pill for refining, rewarded to meritorious officials or talented geniuses of the special service team, and assist

Cultivation base breakthrough! "

Lin Yuan said quite in detail. Let Fang Yue feel his sincerity, at least these tea leaves were not given away for nothing!

## **Chapter 778: Bought Lin Yuan**

"Now there are a lot of practice resources in the special service team?"

Fang Yue asked again. "There are more wolves and less meat! In the Secret Service team, the competition for resources is fierce! The resources we get are generally divided into three parts. The first part, and the most important part, is the gains from hunting the strong who arrive in the foreign land! The second part, is collected from the heavens, earth, mountains and rivers of the earth, for example, in Tibet, there are some places where precious spiritual stones and spiritual liquids can be mined! The third part is some obtained from some ancient ruins, and someone opened it An ancient line of the Emperor Qin

Gong, a full 100,000 low-grade spirit stones were found! It is said that it is the most inconspicuous one in the palace of the Emperor Qin, and only the periphery is opened! Among the three sources, the first one is the quickest, but the price to pay is quite high! The second type, although safe, the collection process is extremely slow. Heaven and Earth aura has just recovered, and there are not many mines that can collect spiritual stones and spiritual fluids! There is a third, the most dangerous! In order to obtain the one hundred thousand low-grade spirit stones, the secret service team paid a total of 500 mechas of the sixth-tier combat power of the Innate Realm! These mechas were made alive by the terracotta warriors in the tomb of Emperor Qin

Chop and tear! The drivers among them are all dead! "

Lin Yuan explained the basic situation and details of the secret service team. For them, these things are not classified as confidential. If they even have a way, they can know more in detail than his oral statement!

"The Palace of the Emperor Qin? This place is not open to the outside world, right!"

Fang Yue has always had an inexplicable worship of Qin Shihuang, the name of an emperor through the ages, has been passed down through the ages!

His real tomb has not been discovered, and all that has been excavated are his fake tombs!

"Not for the time being! However, the forces of various countries have been eyeing the palace of the Emperor Qin, and they all want to get a share of the unearthed treasure!"

Speaking of this, Lin Yuan clenched his fist tightly.

Anger was erupting in his eyes.

"What? You also participated in the excavation of the Qin Emperor's palace?"

Fang Yue couldn't help being slightly surprised when he saw Lin Yuan's emotional reaction.

"No! Although I am also a member of the Secret Service Team, I am only a peripheral member. If the Secret Service Team wants to come into contact with the Qinhuang Operation and other A-level secret relics, it must become a core member with the eighth level of Innate!"

Lin Yuan was a little sad.

"Then you were so excited when you were talking about Emperor Qin's palace? I thought you had suffered a loss there!"

Fang Yue rolled his eyes.

This buddy's mood seems to be a little unstable! Lin Yuan sighed softly, "Although I did not participate in the exploration of the Qin Palace, I have experienced some related things! Except for the unearthed Qin Palace, every country wants the treasures. What do they say about it? Things are not Hua

Xia's is global! That shameless appearance makes me angry just thinking of it! "

Lin Yuan's words made Fang Yue think a little bit.

China's current situation may not be optimistic.

Its crisis not only comes from the birth of the creatures of the ten thousand worlds, but also other countries are eyeing and coveting the treasures of China.

In the four ancient civilizations of the year, only the Huaxia family has not been interrupted, and it has continued to this day!

Among them, the number of treasures and relics is also the largest!

Other countries want to take a share of China's relics, political pressure, and moral supremacy, I'm afraid they will do everything!

"Fang Yue, I don't understand why you can't escape the world with your unpredictable means! In fact, if you show your strength, you might be able to share part of the pressure for China!"

Lin Yuan suddenly raised his head and looked at Fang Yue with burning eyes.

Fang Yue pointed to the tip of his nose and said, "You mean me?"

"Yes! Today, the situation in this world is quite complicated! There is no harmony between countries! Many major issues are solved by flashing their fists and showing their muscles! In a country, the number of powerhouses in the world is enough to show The strength of the country!"

Lin Yuan looked at Fang Yue, eyes full of expectation.

He didn't know whether Fang Yue was a real world powerhouse, but he could tell by just seeing how he could drive those skeleton soldiers to clean his courtyard.

This Fang Yue's strength is quite extraordinary, even if he is not a strong person in the world, he should have special means!

"Oh, the powerhouses of this world, but even if they are powerful, they can fly into the sky, but they won't affect the diplomatic relations between some countries!"

Fang Yue doesn't really know much about the high-level affairs on the earth now!

Lin Yuan glanced at Fang Yue, really asking Zai himself. Only then slowly said: "Things are not the same as you think! First of all, the strong in the world is a very powerful force. It is difficult for ordinary thermal weapons to threaten their lives! Secondly! , Some ancient small secret realms, if you want to open, first of all, you need to have the power of the world realm to act as a guide! For example, the Shennongjia secret realm in China is opened by a total of three hundred and sixty strong worlds Yes! Then Huaxia's army was able to enter. Although it encountered some dangers and killed nearly 5,000 soldiers. However, Huaxia also harvested a 30-kilometer secret realm. The concentration of aura in it is the concentration of the current earth's aura. Close to a hundred times! Use this small secret environment

In just one year, China has cultivated more than fifty powerhouses in the heaven and earth realm, as well as nearly a thousand special soldiers of the innate realm! This is in China, there are many masters, and you can open the secret realm! If this small secret realm appears in some other small countries, there are not enough masters in the world realm, and even if you find the secret realm, you can only stare at it. If you go to other countries to ask for help, people will definitely take the opportunity to get a share of the pie, or even take possession of it. Nest, this is not impossible! However, China's discovery of the Shennongjia Secret Territory has made many national powers look red. However, the gathering of China's masters prevents them from entering.

Half a step in the scope of Shennongjia! "

"Small Secret Realm? Is there such a place on Earth?"

Fang Yue's complexion was strange, and the small secret realm described by Lin Yuan was indeed small!

Generally, as long as an independent secret world can be formed, at least it will start with a radius of thousands of miles. The area is too small and the power of the world is insufficient, and it is difficult to support for too long!

And this small secret realm of Shennongjia is only 30 kilometers in radius, which is indeed a challenge to Fang Yue's bottom line! "There are also some rumors in this small secret realm. It is said that this small secret realm itself is part of the earth! In ancient times, the volume of the earth was dozens or even thousands of times larger than it is now! Except for the surface area of the earth itself, There are countless layers of space! But in the last era of aura, there was a battle between gods and demons! That battle directly knocked the entire space of the earth to collapse! Those broken spaces, some The long river that has been in the years

Completely annihilated and disappeared. Some have been preserved intact, which is what is now called the Little Secret Realm! "

Lin Yuan whispered.

Fang Yue summed up a sentence, although the earth has fallen, but the ancestors have also passed it! "Small secret realm, there are many problems involved! So far, there are only eight small secret realms opened on the earth! Only Shennongjia has been fully explored, and the other secret realms are like the sun never set empire. King Arthur's secret realm, where

The monsters are extremely comparable, and it is said that they are several levels higher than the masters of the world realm! The secret realm has only been explored a little at the periphery, and the inner core is still being discovered! Another example is the secret realm of the Temple of Heaven in China, which directly penetrates an ancient world! That little secret realm is big! According to preliminary calculations, at least half the surface area of the earth! Inside, there are also monsters. It's hard to explore! But every

A small secret is the treasure of the corresponding country! And the key to this treasure lies in the hands of the world realm powerhouse! "

Lin Yuan finished.

Fang Yue just realized it!

These small secret realms should be the gifts and gifts left by the ancestors of all countries on the earth to future generations!

The people on earth can develop so fast, I am afraid they are inseparable from these things!

"The last question, I want to know, what happened to the Taoist priests of Shushan who killed the strange fish before?"

"You actually saw it?"

"What? Can't it?"

Fang Yue and Lin Yuan stared with big eyes.

Lin Yuan couldn't help but smiled bitterly and said: "Since I have seen it, I have also seen it. Your realm is not low, anyway, sooner or later you will come into contact with it!" "Even in the Age of the End of Dharma with the thinnest spiritual energy among the countries, there are still people who insist on practicing! Each of them has secret realms opened up by their ancestors. In the Age of the End of Dharma, although these secret realms will also be affected, the spiritual energy in them will be reduced, but it will not be as serious as the earth! Today, there are three largest practitioners that China can reach. Mai, Shushan, Kunlun, Longhushan! But the practitioners in these three places can't interfere with the operation of the red dust at will! They can only secretly shoot and kill some alien creatures that may affect the safety of China! I am here this time, the main purpose is I want to seal your mouth to prevent their existence from being leaked out by you! Now, Shushan, Kunlun, and Longhushan are still Huaxia's cards! If it is revealed

On the table, it can't be called a hole card! "

"But, their cultivation level is beyond the realm of heaven and earth! Why would no one stop them from taking action?"

Fang Yue complained to Lin Yuan about his encounter with Wu Zhongfeng.

Lin Yuan was stunned. "Fang Yue, why did you encounter everything! Wu Zhongfeng should belong to the line of the guardians of China. Their origins are mysterious, and they are also quite powerful! They manage the world and do not allow power beyond the realm of heaven and earth. , Interfere with the operation of the Red Dust! However, recently, because of the arrival of the creatures of the ten thousand worlds, the Guardian One Line has reached a consensus with the high level of Huaxia, and will no longer hinder the aboriginal masters above the world of heaven and earth to take action! At the same time, if there is a world above the world The strong

Come, they will also assist in killing! "

"In the future, that Wu Zhongfeng should not trouble you anymore! However, the guardian line is quite mysterious and powerful! They often sleep in an era. If it is not necessary, don't irritate them!"

Lin Yuan finished.

Fang Yue nodded! After an era of the end of the Dharma, the earth's cultivation of people is scarce and declining, but after all, the incense is still there, and it is still protecting the safety of the earth's people!

### **Chapter 779: Mysterious place**

"You keep these one hundred spirit stones, it's a little bit of my heart to you!"

Fang Yue raised his hand and took out a hundred spirit stones from the storage bag!

At Lin Yuan's level, although three and five spiritual stones can help him accelerate his cultivation, it will not help him much after all!

With the aid of a hundred spirit stones, Fang Yue felt that he should be able to break through to the seventh level of innate realm within half a month!

Lin Yuan was dumbfounded when he saw the package of low-grade spirit stones!

"Gudong"

Lin Yuan swallowed a mouthful of saliva.

With a hundred low-grade spirit stones, Lin Yuan has never seen so many spirit stone resources since his practice!

On weekdays, he can accumulate three or five spirit stones and use them to rush through the barriers together, which makes him feel extremely bold!

No one thought that someone would bribe him one day, and a hundred pieces of low-grade spirit stones would be obtained with a shake!

Lin Yuan naturally knew Fang Yue's careful thoughts! In fact, the Secret Service Team is a golden sign in China, and everyone is playing tricks with this golden sign.

Give them some non-confidential information in exchange for some daily practice resources or monetary wealth!

But what others gave was all small favors, and it would be great if they added up to a piece of low-grade spirit stone!

But what did Fang Yue give this to?

A hundred low-grade spirit stones, a spirit stone mine that has not been dug up, can only produce just half a month!

"Fang Yue's spirit stones are too precious, I can't collect them! The news I give you is well known, and someone else can tell you!"

Lin Yuan declined and shook his head desperately!

Fang Yue said indifferently: "Accept it! A hundred small low-grade spirit stones are just not worth much!"

Fang Yue's smile was gentle.

There is no doubt in his tone.

Fang Yue is going to cultivate a secret line in the special service team. As far as Lin Yuan's current strength and status is, he doesn't even have the qualifications to become his secret line. It is really too weak!

"OK then!"

Seeing Fang Yue rushing to send the resources up, Lin Yuan finally declined, accepting these spirit stones, he secretly said in his heart, this time I owe Fang Yue a favor, if I have a chance, I will definitely repay it!

At this time, the little skeletons outside had also cleaned up the flesh and blood.

The corpses of the strange fish that fell into Fangyue's yard were directly packed, weighing five or six kilograms in total! Fang Yue didn't stay a bit, but gave everything to Lin Yuan.

Lin Yuan received it and left a contact method to wave goodbye to Fang Yue!

Then came another period of relative calm.

For five consecutive days, there were only sporadic alien creatures coming from the world!

Although some creatures from other worlds can cause short-term storms after their arrival, the water in the earth is too deep. After a short period of arrogance, they all return to peace, the wind and clouds are scattered, and no longer exist!

On the contrary, Fang Yue's own little life had a good time. After receiving the news from Lin Yuan, he was no longer anxious to dispatch the forces of the Xuanhuang world to assist the earth.

The earth itself is quite deep and it is only the tip of the iceberg.

According to this kind of progress, the earth should be able to support for some time.

When the earth needs it, he will help again!

"Fang Yue, do you have time? I want to find a time to talk to you!"

Fang Yue's prestige lights up.

He doesn't have many contacts. The three words You Lan Meng are striking, it is the foreign spy who hooked up with him that day!

"No problem, free! Time and place, you decide!"

Fang Yue's eyes lit up. This Orchid Dream is not a simple spy.

According to Fang Yue's recent overall understanding of the creatures that have descended from another world, the strength of this Orchid Dream is definitely among the best.

"Three in the afternoon, Ning'an County, light music coffee shop!"

"Good!"

Turning off WeChat, Fang Yue always feels like making an appointment!

But forget it!

About Mao!

It is estimated that the opponent regards himself as a native, as a pawn!

Fang Yue stared at him for a while, at three o'clock in the afternoon, he went out as scheduled!

The light music cafe has an elegant environment. It is indeed a place for small and medium-sized couples in Anning County to make appointments. Oh, no, it is a place for rendezvous.

In the coffee shop, the faint scent of jasmine is constantly permeating!

KISSTHERAIN's piano repertoire echoes in the air, endlessly!

Fang Yue found You Menglan's location.

Today, she is wearing a black low-cut dress. The exquisite figure is impressive, and her body is still sprayed with a faint fragrance of perfume, which makes many innocent boys passing by inevitably look sideways.

"Hello there!"

Fang Yue sat down, his legs crossed, he was wearing sandals, big pants, and a cool outfit, without the slightest feeling of rendezvous with beautiful women!

Seeing Fang Yue's attire, You Menglan couldn't help but frowned.

As a girl, no matter what the relationship is, dating a guy to dress like this, how you look at it, it feels a bit too much!

"Fang Yue, don't you know how to respect women?"

You Menglan frowned and groaned softly.

"You are not my wife, what do I respect?"

Fang Yue still didn't care.

You Lanmeng's brows furrowed deeper. This chess piece, it seems that I don't want to be as obedient as I imagined!

"Fang Yue, do you know who I am?"

You Menglan's voice became severe.

"A spy head from another world! I know!"

Fang Yue sneered, his calm, sarcasm-effect costume made You Menglan feel uneasy!

Fang Yue knew his identity and dared to treat himself like this. Could this kid feel confident?

You Menglan looked around, nothing unusual.

Fang Yue took a sip of the tea on the table, "It tastes good! Don't look at me! I don't need to wait for you!"

Fang Yue still said lightly.

You Menglan realized that there was really no ambush beside Fang Yue, she gradually relaxed, thinking that Fang Yue was bluffing.

"By you?"

You Menglan looked at Fang Yue with contempt in her eyes.

In her own world, she is also one of the top 100 masters in the world. Isn't she able to deal with a native of the earth?

"Do not believe?"

Fang Yue smiled at You Menglan, and the environment around the two suddenly changed.

From a café where Xixi was crowded, it became an ancient virgin forest.

Ape sings and birds sing endlessly!

Even the faint scent of green grass around her penetrated You Menglan's nostrils.

At this moment, You Menglan's pupils suddenly shrank, realizing that Fang Yue was stronger than she thought!

Fantasyland!

This is definitely an illusion!

You Lan Meng played with things all her life and would never admit her mistakes.

However, Fang Yue's illusion was so vivid that she didn't even know when she was dropped into the illusion.

You Lanmeng's face gradually became gloomy.

After playing the illusion of a lifetime, I didn't expect it to be capsized in the gutter.

"Fang Yue, what do you want to do?" "Actually, nothing! Just to warn you, the earth's water is deep and muddy. Don't step in when you are free! You look down on the natives of the earth, I understand! But because of this Contempt, and lost my life, even affecting you behind

The world is not good! "

Fang Yue's smile grew stronger!

Youlanmeng's anxiety is also getting stronger.

She feels like a tiger in a cage in a zoo, being looked at and watched wantonly, without any room to fight back!

You Lan Meng quietly condensed the true energy, ready to make a move, testing the bottom line of Xiaoxia Yue's strength.

She doesn't believe that in such a remote and desolate place on the earth, where even aura is rejuvenated, there will be such a master who can surpass her and penetrate her reality. As a result, before You Menglan made a move, Fang Yue said lightly again: "I am a relatively low-key person. Normally I am not willing to make a move to expose my strength, but most of the people who have seen me make a move. People are dead

Up! "

Fang Yue said that it was an understatement, but You Lan Meng had already been wet with sweat before she knew it.

Warning, this is definitely a stark warning.

But she no longer thinks Fang Yue is bluffing. Because she gathered her strength secretly and was extremely careful. If Fang Yue hadn't been able to see her insightfully, she would never remind her at this moment!

"Say it! What do you want to know from my mouth?"

You Menglan finally gave up and said dejectedly.

People are knives, I am fish.

Is there any room for her to struggle?

"Which plane is behind you? How many people came to Earth?"

Fang Yue played with the tea cup in his hand, lowered his head, and didn't even take a second look at You Menglan.

However, You Menglan didn't dare to be presumptuous. She felt that her every move, even a blink of an eye, was under Fang Yue's supervision! "I come from the shadow plane adjacent to the earth! The area is about five times the size of the earth, and the concentration of aura in it is slightly higher than the concentration of the aura of the earth now three to five times! As for how many people descended on the earth, I am not know because I am

It was because of a coincidence that it was absorbed by the cracks in the space, and it fell to this place! "

You Menglan's response was very straightforward. Unlike other lurkers, she belongs to a free person!

There is no heavy task on his shoulders.

"Then you haven't thought about contacting your shadow plane and descending on the army to conquer the earth?"

Fang Yue's spirit slowly released, quietly affecting the surrounding space.

Under his guidance, You Menglan will speak out the most true thoughts in her heart! You Menglan shook her head slightly: "Even if you conquer the earth, the Shadow Plane cannot be held! There are six nearby planes around the earth, and the Shadow Plane is only one of the weaker ones! If you are on guard, even more you should worry about the Darkmoon Plane! The Jiangdong Group is under their control! The Darkmoon Plane has a smaller area than the Shadow Plane, but it has rich cultivation resources and abundant resources, and the number of strong men cultivated is also The Dark Moon Plane is several times larger! Moreover, the Dark Moon Plane

The rulers in the face, the Darkmoon royal family, are cruel and bloodthirsty by nature. With their character, the iron hoof will sooner or later fall on the territory of the earth! "

What You Menglan said, Fang Yue knows, Lin Keer has an intelligence network in his hands, and can report to her the changes of various forces on the earth anytime and anywhere!

Although Lin Keer has always been cultivating in Fang Yue's home, the various resource forces in her hands are dormant in the dark, providing her with a steady stream of information and seeking financial benefits!

Although three years ago, Lin Keer was expelled from the senior management of the Lin Group.

But she also has her own hidden son, as the last trump card.

The Dark Moon Royal Family was already under Hua Xia's surveillance, including the Jiangdong Group's small actions! The reason why no one has acted on them for a long time is not because they are considering the powerhouses of the Dark Moon plane. But Huaxia is setting up a shocking game!

### **Chapter 780: Anning County**

Huaxia has a large population and many geniuses, but the number of resources is limited, and it is not enough to supply all the Tianjiao with the resources to practice without worries!

The resources for practice generally come from two sources.

One is the ruins, the secret realm, and the other is plundered from the descendants of other worlds.

As for mining the earth's own minerals, the quantity is almost negligible!

This secret realm of relics requires chance to be discovered, and exploration is even more costly! Therefore, China has set its sights on the descendants! They want to put a long line, catch big fish, and wait for the powers of the Dark Moon plane to come to seventy or eighty, and then try their best to kill them with the least cost and get them to carry with them.

Resources!

"Then you came to me this time, is there any purpose?"

Fang Yue looked at You Menglan again and her voice became soft. "I want to use you to release the news that in Anning County, there will be an ancient small secret realm open! This small secret realm requires at least eighty-one powers of the world realm to input the true energy to open it! At the beginning of the secret, I want

Take the opportunity to mix in and get the chance! "

You Menglan's voice was a little dull.

She has been thoroughly hypnotized by Fang Yue!

"In Anning County, there is an ancient small secret place? How come I don't know this!"

Fang Yue was slightly surprised.

Anning County is not a big county with a long history.

Its history is quite short. It is close to the Bohai Sea. It only appeared after the founding of the People's Republic of China, when the sea was reclaimed to make land!

If there were secret realms and ruins in other places, Fang Yue wouldn't be surprised.

But Anning County, the emergence of a secret environment, is really an indescribable weirdness!

"Go, take me to see!"

Fang Yue acted decisively and let You Menglan lead the way!

You Menglan got up and settled the cafe list, and then the two of them walked to an abandoned building in Anning County.

This unfinished building is quite famous.

It was said that the building was to become a landmark in Anning County.

Then, there is no more!

The developer ran away with his sister-in-law!

This real estate also ended without a disease.

When this building was developed, Fang Yue was just eighteen years old. Today, the weeds here have grown taller!

In fact, there are many rumors about the unfinished property.

Some people say that the feng shui here is not good and the yin is too heavy, which will attract some bad things at night!

It is also said that it is the developers who have dropped their heads here! I can't make money from it, and other people can't imagine!

Anyway, all kinds of rumors are endless!

In history, four or five developers who wanted to accept this real estate and resume work on it did not end well. In the end, this place became an ominous place, rarely visited by people.

Thinking about it now, there was a weirdness in the things back then.

The original developer did not owe money, did not offend anyone, why did he take his sister-in-law and run away overnight?

Fang Yue stepped on the gravel and rubble on the ground, and the grass on the ground had already reached more than half a person's height!

These grasses are lush and scary. The grass is like a sword, soaring straight into the sky, with sharp edges, just like a bright front!

"The growth of this grass is indeed amazing! On top of every grass, I can even feel a faint murderous and sword intent! This is definitely not ordinary grass, but the legendary Jianchang grass!"

Fang Yue is proficient in the way of elixirs and knows how to identify plants.

This Jianchang grass is one of the more common plants in the Xuanhuang world.

The sword grows grass, grass can be a sword! This is the Jianchang Grass that has just grown. Although it contains a touch of sword energy, it is still not enough to kill! If Sword Changcao grows to a certain level, it will look like a long sword, which contains a ray of sharp sword energy.

Move, you can cut all directions!

However, it is not easy to be able to grow grass and grow to that level! Because Jian Changcao needs to absorb a lot of heaven and earth aura to grow continuously!

Ten years of Jianchangcao can be comparable to the innate-level magic weapon!

The century-old Jianchang grass does not need to urge the spontaneous sword light.

With the concentration of aura in the Xuanhuang world, the average sword prosperous grass can only grow for three years, and it can survive the average sword, and it's good for the ordinary use of the acquired realm.

No matter how powerful a master is, this Jian Changcao can't hold it!

Fang Yue's attention.

These sword chang grasses have clearly grown for five or six years, and the edges are getting sharper and withered. That means that these sword chang grasses are nourished with ample spiritual energy during the growth process!

However, according to Fang Yue's calculations, the concentration of aura around this abandoned building is far from enough to allow these Jianchang grasses to grow to such a level!

If there was no clue, Fang Yue would not believe it if he was killed!

"The entrance of the small secret that I sensed is nearby, but I still can't determine the exact location!"

You Menglan Fang Yue said.

Fang Yue asked: "I can't find the entrance to the small secret realm. How can you be so sure that there will be a small secret realm nearby?" "I practiced an ancient secret technique that can sense the existence of treasures and secret realms! The secret technique of the door, called treasure hunting, was created by a predecessor Tianbao Taoist who was a stunning and brilliant saint on my shadow plane back then! This treasure hunt is forever

There can be no mistakes! Because this involves part of the Xin Mi who works in heaven! "

You Menglan's extremely confident Fang Yue said.

Fang Yue's eyes lit up: "There is such a secret technique?" "Treasure hunting is powerful, but not everyone can practice it! First of all, treasure hunting requires the practitioner to have a rather superb perception of the concentration of spiritual energy. To the point! Second is the need to have the acquired treasure! The cultivation of this treasure is not easy. Every small realm needs to refine a magic weapon of the corresponding realm into its own body, so that the body and the magic weapon can merge! Only when you reach the level of the heaven and earth realm, the power of this precious body will initially appear!

During the process, countless practitioners in my shadow plane exploded and died! "You Menglan briefly introduced this treasure hunting technique, and Fang Yue immediately lost his interest! To get a chance, treasure hunting may not be the only way, and this spell is quite evil, and it involves the rules of heaven's operation! Practice

The process of treasure hunting is dangerous.

Fang Yue was not interested in putting each piece of magic weapon into his body.

This slight fusion of flesh and blood and magic weapons has some conflicts, which will affect the future path of practice, and will cause the magic weapons to explode and destroy the flesh, becoming a lonely ghost!

"Then what level of realm have you cultivated your treasure hunting technique?"

"The seventh level of the heaven and earth realm! The ordinary secret realm magic weapon, I can feel it within a thousand miles! But this is just the beginning stage of treasure hunting! As my practice of treasure hunting becomes more and more refined,

I can even sense the existence of treasures in a farther range! At the same time, when one of my thoughts falls, I can know the specific information of the treasure, as well as the location of the secret environment and how to open it! "

Hearing this, Fang Yue was moved, this You Menglan is of great value! Bringing her not to mention one more artificial treasure GPS location.

She alone is worth tens of millions of treasure maps!

Fang Yue originally planned to let her go after hypnotism!

After knowing the news, Fang Yue directly condensed a spiritual mark with his mind, making You Menglan his eternal slave!

Fang Yue doesn't have much sense of moral guilt in this regard!

This You Menglan originally came to invade the earth and plunder the treasures of their earthlings, making her his own slave, and driving her in the future can be regarded as an atonement!

Of course, these are self-forgiveness from Fang Yue's standpoint!

This slave brand is called the eternal contract.

It is recorded in the soul scripture.

The master of the brand separates a ray of divine consciousness and penetrates into the slave's body. If the slave does not have any resistance and is imprinted with the divine consciousness, then the brand of the slave's mark can be regarded as successful!

Once the imprint of a slave is cast, there is no possibility of turning over eternal life, even if the body is shattered and the soul falls into reincarnation, the imprint of the slave remains immortal.

And there is another advantage of the eternal contract, that is, even if the slave's soul is scattered, the remnant soul that is dispersed between the heaven and the earth still has an inexplicable relationship with the master!

If Fang Yue displays the spirit of call, there is still a certain chance that the slave will be resurrected and reappear between heaven and earth!

"This secret environment is probably related to this piece of Jianchang grass! There is no such plant on earth, otherwise, it would have been recorded in the encyclopedia!"

Fang Yue muttered to himself, since the aura in the air is not enough to support the growth of Jianchang grass, is there a problem with the soil?

Fang Yue's eyes fell into the soil under Jianchang Grass.

Peeling away the rubble, Fang Yue found the problem!

The soil under Jianchang Grass is extremely fertile, and there is still a thread of spiritual energy permeating, the concentration is extremely high, and it is almost liquefied!

Fang Yue took out a small shovel and shoveled the top layer of soil!

With a chuckle, a piece of low-grade spirit stone showed an irregular edge!

The cyan light is misty.

Constantly moisturize the roots of Jianchang grass, absorb and grow!

One of the Jianchang grass roots directly in the spirit stone.

No wonder this Jianchangcao can successfully grow to this year!

"Could it be that there is a spirit stone mine below this!"

Fang Yue uttered his guess to himself, even he himself was taken aback.

It might not be uncommon for Lingshi Mine to be replaced in other worlds. But on the earth, where the spiritual energy has just recovered, where does the spiritual stone mine come from?

"There must be a gateway and passage to the secret realm near here!"

Fang Yue let go of his spiritual thoughts, covering a hundred li radius, sweeping across inch by inch, but he didn't even find a single hair! "Forget it, no matter! The secret realm is hidden in the void. If there is no special exploration harvest, or the time comes, even if you dig three feet, you will not be able to find its clues! This spirit stone mine will be available first! ! According to my research

Investigate, there must be something better under this spirit stone mine! "

Fang Yue constantly measured the geomantic omen of this terrain.

After studying for a while, he really found the problem!

This is a land of Tamron, if you don't have enough luck, you won't be able to suppress this kind of terrain at all.

This Tenglong land must be a person with great sources of good fortune and great magical powers before it can be suppressed.

But if we can suppress this land, there will be endless blessings and benefits! This place is not just as simple as being able to breed spirit stones!
