

God of Life 781

Chapter 781: You Menglan

This may be the birthplace of an overlord.

Fang Yue took out a small mirror, and took a look at the left and right.

That You Menglan really couldn't stand Fang Yue's narcissistic appearance, and couldn't help asking:
"Fang Yue, what are you looking at here?"

"I'm looking to see if I have the luck of a peerless emperor! This Tenglong land, ordinary Tianjiao can't suppress it, it must be a peerless emperor to completely occupy this place!"

"Then do you see it?"

You Menglan heard this for the first time. She was a little surprised, and asked Fang Yue.

"Uh... it seems that this place is not our chance! I don't have the courage of the emperor. Although luck is still possible, it is at the upstream level!"

Fang Yue was a little frustrated.

A group of small dots floated through You Menglan's mind.

.....

.....

"This place is not ours, shouldn't it leave and let it wait for the wise master here!"

You Menglan probably also knows that all treasures and treasures are all free opportunities. It is yours and you get it naturally. It is not yours, even if you force it, you can't get it!

"This is too wasteful! How can you go home empty-handed in a treasured land?"

Fang Yue is a serious educational dream orchid.

You Menglan nodded seemingly.

"Let's take a little bit from it, there should be no problem!"

Fang Yue whispered secretly, as if to comfort himself.

You Menglan's face was dark, revealing a solemn expression.

"This stealing of treasures outside the chance, but it has to be implicated by cause and effect!"

In the history that You Menglan knows, many people have been punished by fate because they have obtained things they shouldn't get, and eventually suffered misfortune and unfortunately perished!

"This is no problem! I can reverse the cause and effect of chaos and avoid the scourge of fate!"

For other things, Fang Yue may have two knives, but he is definitely an expert at doing something sneaky!

"Reverse chaos causality?"

You Menglan looked incredible.

This cause and effect is difficult for even a saint-level powerhouse to change. Although Fang Yue is powerful, he is also at the level of the world, how could he have such a skill!

Fang Yue took out the fragments of the fairy soldier, and 80% of the runes had been revived by him.

On weekdays, Fang Yue instilled his body's true energy into the fragments of the fairy soldier when he was idle.

Fang Yue didn't know what specific skills this fairy soldier fragment had. But there is one thing that is beyond doubt.

Above the fragments of this fairy soldier, there is the will of the fairy lingering, which can suppress the eternity, break the eternity, reverse the chaos of the Yin and Yang, and break the cause and effect!

In the past, Fang Yue had worn him on his body to resist the divination of some big figures in the Xuanhuang world. Now, he protects his body with fragments of this fairy soldier. The opportunity to steal some of Tamron's land should be nothing!

Fang Yue is not the kind of hesitating person, especially in front of the treasure.

"I am able to come here to prove that I have a destiny with the treasures here. Although I can't completely occupy this place, there should be no problem taking some things as a memorial!"

Fang Yue comforted himself.

With a wave of his hand, the one-hundred-eight-stroke flag clanked.

This one hundred and eight-stroke array flag landed and turned into a supreme array, which directly locked the void, making this area a world of its own.

When You Menglan saw this one hundred and eight stroke flag, she finally understood how ridiculous her previous contempt of Fang Yue was.

These formation flags, every shot is tempered, absolutely not the natives on earth can have! Every array flag is at least the material of the heaven and earth level. Among them are the precious void gold, the lunar stone, the precious materials, and everything is rare. Even in the shadow plane, such an array flag is valuable Liancheng, let alone time

Refining a full 108 flags in one breath!

Void Lock has become an independent small world, and all the movement in it will not be known to the outside world!

After opening the venue, Fang Yue no longer had any taboos. He rolled up his sleeves and worked hard.

A group of small skeletons were directly summoned, and these small skeletons were all technical talents carefully cultivated by Fang Yue.

Some are driving the tractor, some are holding a small shovel, and some are driving an excavator, coming in aggressively!

Seeing this scene, You Menglan was dumbfounded!

What the **** is this.

Made a group of little skeletons,

In just a moment, this little skeleton digs three feet of the ground, digging out all the layers of spiritual stones under the ground.

This is definitely an ancient spirit stone mine. The spirit stone is densely packed. Once dug out, it is a whole piece. The length of the front and back needs to be measured in units of 100 meters. The spirit stone is very thick, more than five meters!

Such a large piece of spiritual stone, even if the spiritual energy in it is not very abundant, it is only a low-grade spiritual stone.

But after being excavated, it also felt very shocking. "I feel like I have dug up something incredible! Such a large piece of spiritual stone, when cut, is worth hundreds of thousands of lower-grade spiritual stones! And it is born with no trace of artificial carving, so Big chunks

The feeling of workmanship, the true value, cannot be measured by pure spiritual energy, it is a miracle, it is art, and even if it is sold at the price of a million spiritual stones, some people will rush to buy it! "

Fang Yue rubbed his chin, feeling that this huge piece of spiritual stone was incredible!

He put it away, unceremoniously.

"These spiritual stones can be made into the floor and become the foundation of the house. With such a high-standard floor, the house must be full of spiritual energy, rich and scattered, assisting in cultivation, and the effect is excellent!"

Fang Yue was still talking to herself, making You Menglan feel speechless.

This is a very wealthy person, casually, take out such a large spiritual stone to the local board.

Even if it is a strong person in the world, hundreds of thousands of spirit stones are not a small number.

Most people get such a large piece of spiritual stone, the first thought is probably not to absorb the spiritual energy from it, or to sell it directly in exchange for other spiritual resources!

This Fang Yue is too extravagant.

It is more bold than many second generations!

You Menglan feels that if such a large piece of spiritual stone falls into her hands, she can use these spiritual stones to exchange for some cherished spiritual resources, ancient pill, and help herself break through the current realm, soaring into the sky. Take another step up!

"People are really incomparable!"

You Menglan sighed softly, feeling that her life was really bitter.

It's nothing more than the wealthy disciples in the big world. Now, even the natives on a small planet that has just awakened from the Age of Domination are no match for them. It is really sad.

Fang Yue didn't give up, he continued to command those little skeletons, using various modern tools to dig out the treasures in this land of Dragon.

After the huge spiritual stone slab was excavated, more abundant spiritual energy burst out from the ground.

Countless scattered spirit stones are embedded in the ground, like the broken diamonds on the ring, crystal clear and bright!

"This is a middle-grade spirit stone!"

You Menglan felt her breath was directly held.

The value of middle-grade spirit stones and lower-grade spirit stones are completely different, the difference between the two is a hundred times, and even if you talk in the black market, the ratio of needs is higher!

All the scattered on the ground are middle-grade spirit stones, and to say that they are scattered, they are only compared with the huge and incomparable low-grade spirit stone slab just now! The smallest middle-grade spirit stone is the size of an adult's fist. In terms of volume, it is roughly equivalent to three middle-grade spirit stones with a standard volume. The slightly larger middle-grade spirit stone is just like a human head! Youlan Meng even sees a piece of

The Pin Lingshi is the size of a wall and is inserted diagonally on the ground!

These middle-grade spirit stones can be exchanged for standard-sized middle-grade spirit stones, at least one hundred thousand middle-grade spirit stones!

This has exceeded all her net worth!

One hundred thousand middle-grade spirit stones are tens of millions of lower-grade spirit stones, some small and mundane countries that are slightly weaker, and the accumulated heritage of hundreds of years is this resource!

The little skeletons took away those middle-grade spirit stones and sent them to Fang Yue's face.

Fang Yue took them all in his bag, his expression was indifferent, without the slightest surprise.

"Continue to dig, there should be more precious things below! The land of Tamron is a famous terrain among the ten thousand realms. Tamron is the king. If you get the wealth from it, you can create a powerful nation of practitioners!"

Fang Yue urged Little Skull, this resource might make him ecstatic for a practitioner in an ordinary world realm.

But in his eyes, that's what happened. It is far from his expectations!

"Fang Yue, didn't you say just take a little bit?"

You Menglan said weakly. She was worried that Fang Yue would be bitten back. After all, this is the land of Rising Dragon. Under the fate of the dark, his master is already uncertain, not Fang Yue!

Fang Yue died, she didn't worry, but now, Fang Yue is her master.

If the master dies, the servants will also disappear.

She is reminding Fang Yue that it's enough to stop, just accept it when you see it!

"How can this be enough? My future dream is to ride a horse across the world and conquer the world!"

Fang Yue said his magnificent dream, but You Menglan directly despised it.

He even went to the Ten Thousand Worlds!

Let's break through to the level of rotation first!

Fang Yue continued to dig, and under the middle-grade spirit stone was the top-grade spirit stone. When calculated, the top-grade spirit stone was almost 80,000 standard volume!

At this time, You Menglan's face was numb!

Fang Yue is a living bandit at all, and doesn't know what satisfaction is.

Already digging thirty feet!

Even if you stop now, it will leave a deep hole!

"Further down, will there be the best spirit stone?"

You Menglan looked at the underground expectantly. She had cultivated to the present realm, and the highest-level spirit stone she had touched was the top-grade spirit stone. To her, the top-grade spirit stone was just a legend, quite far away!

Soon, the best spirit stone appeared!

This superb spirit stone is a big ball with a diameter of three meters and a regular shape!

This large ball composed of the best spirit stone appeared, and bursts of spiritual energy whistled out!

You Lan Meng just took a breath, and she could feel the slight increase in her strength!

This top-quality spiritual stone can be exchanged for 60,000 standard-volume spiritual stones.

However, it is completely natural, and it seems to contain some inexplicable heavenly principles. No one will actually cut it open to absorb spiritual energy and assist cultivation.

That is violent, it is a great crime and extravagance and waste!

You Menglan felt like she was dreaming!

Such a large piece of the best spirit stone is already regarded as a treasure in the shadow plane. Not to mention the cultivators of the world, even those who can see it drool!

Chapter 782: Yin and Yang Di Lingcao

Fang Yue put away the best spirit stone, his eyebrows twitched slightly.

He was a little surprised. This top-grade spirit stone was completely natural, and there was a hint of natural goodness in it, which required careful understanding.

But he was just surprised!

This superb spiritual stone is far from the limit of Tamron Land.

The land of Tamron is very mysterious, and there are not many records in ancient books!

But some vague words are pointing out that this kind of terrain, if completely excavated, can forcibly create a strong man in the Saint Realm!

Moreover, Tamron Land is rich in resources and can create the foundation of an immortal dynasty!

Fang Yue still didn't stop after the best spirit stone.

He continued to dig.

This time he unexpectedly unearthed an old medicine.

This is a yin and yang earth spirit grass, which does not need sunlight and grows deep in the earth. Feeding on the essence of the earth and devouring the earth's energy is a miracle brewed by the Creator!

This yin and yang land spirit grass is five thousand years old.

Since China has civilization records, it has grown underground! This old medicine has ninety-nine and eighty-one roots, and each root contains fragments of the laws of the earth. After refining, people can directly cross the threshold of the road to the earth, even in a short time. Up to the third level of realm, condensing laws

field!

However, the ninety-nine and eighty-one roots contain the same fragments of law, and they are swallowed repeatedly without any effect.

The rhizome of the old medicine has the thickness of an adult's thigh. Any drop of the medicine can prolong the life span of three hundred years, regardless of the influence of realm!

It is precious and rare!

In terms of its pure variety, this yin and yang earth spirit grass can be called a magic medicine.

However, its age is still a little bit lagging. Today, the Yin-Yang Di Lingcao belongs to the growth period, and no grass leaves are produced. Until it gave birth to the first blade of grass, it was truly considered to be a magical medicine!

The yin and yang ling grass matures for ten thousand years, and a blade of grass grows every thirty thousand years!

A blade of grass can reverse yin and yang and bring back to life once! It is said to be able to reverse reincarnation, bring the dead to life, and live forever!

However, all this is the guess of the ancient pharmacist, because since ancient times, no one has seen the mature Yin-Yang Land Spirit Grass.

It will encounter the catastrophe in the process of growth.

Once every eight hundred years, once more ferocious!

It is said that the Yin-Yang Land Spirit Grass of Ten Thousand Years has suffered more fierce calamity than the saint robber.

Because this herbal medicine is against the sky, it is something that the world cannot tolerate!

Most of the Yin and Yang Earth Spirit Grass died early, such as Fang Yue's hand that can reach five thousand years!

You Menglan didn't know the Yin and Yang Di Lingcao, she didn't follow the path of an alchemist or a pharmacist, so it's normal not to know this thing!

"Good stuff!"

Fang Yue's eyes glowed.

If this thing is handed over to Ruyizi, I am afraid that he will take it personally to protect the earth, there will be no problem!

Ruyizi, using the pill to prove the Tao, cultivate to the level of the masters, thinking about this legendary magical medicine, is extremely obsessed with it!

Fang Yue pulled out the yin and yang earth spirit grass, but he hadn't covered his heat yet.

Under the Lang Lang clear sky, there was a flash of lightning piercing the sky and coming straight to Fang Yue!

The lightning came extremely abruptly, and directly shattered Fang Yue's 108-stroke flag's blockade of the void.

"Scatter!"

Fang Yue stretched out a finger and pointed directly at the sky.

The thunder and lightning that was about to fall on his head dissipated, turned into wisps of smoke, and dissipated in the air.

"This....."

You Menglan's eyes were about to stare out!

This is not too scary.

Has reached the point of rebelling against common sense!

Heavenly Tribulation is the aggregation of God's will, representing the prohibition of the rules of heaven and earth.

When the tribulations fall, they usually fall into ashes. Whether you are the world's arrogant or a peerless hero, you are all turned into ashes. Never save again.

Even if it can survive a wave of calamity, it is extremely weak and exhausts all the cards.

Like Fang Yue, it is beyond her imagination to make Heaven's Tribulation retreat with one word!

"This is a lot of digging, and God has begun to warn me!"

Fang Yue calmly explained the cause of the catastrophe.

This Heavenly Tribulation was still at the level of the Heaven and Earth Realm, which was almost equivalent to the full blow of the fifth-level master of the Heaven and Earth Realm.

Its appearance is very abrupt, and it is impossible to prevent it. If it is replaced by another practitioner of the third level of the heaven and earth realm, this tribulation has already died!

This means that the will of this earth is dissatisfied with him.

This place is not for him to set up, let him get out.

"This warning is not strong enough! I think I should be able to survive the next wave of catastrophe!"

Fang Yue muttered to himself, taking the Yin-Yang Land Spirit Grass into his bag.

Then he ordered the little skeleton to continue digging.

Dang, Dang, Dang!

The little skulls dug out a delicate porcelain vase, which is forty centimeters in height, with a slightly withered wicker inserted on it.

People in another world certainly don't know what this is.

Fang Yue just stared at it.

"Isn't this the jade bottle in the hands of Avalokitesvara Bodhisattva? Oh, no, this is an imitation, only at the highest level of the leader realm!"

Fang Yue Jianbao finally came to a conclusion.

This jade jing bottle is a good thing, it contains the universe, absorbs a huge amount of heaven and earth aura, can transform into drops of dew.

Tianlu, a legendary treasure, can nourish everything and strengthen the flesh!

Even a person with very bad roots can immediately become a spiritual genius, choosing one from a hundred. Practicing martial arts, proficient in every aspect, various moves, deadly moves!

This jade bottle is of infinite value. Although it is not a sacred object, to a certain extent, its value has exceeded the ordinary sacred object.

Fang Yue stretched out the evil hand again, wanting to take it as his own.

Fang Yue's fingers hadn't touched the wall of the Yujing bottle, and in the void, the thunder spreading into a silver thunder dragon with its teeth and claws, culled down.

The thunder dragon was ten feet away, and his body was surrounded by silver lightning.

You Menglan's face was pale.

She thinks Fang Yue is doomed this time.

Lightning to transform creatures, this is a calamity that only powerhouses above the rotation realm will encounter.

Every creature is transformed by the elements of heaven and earth, there is no critical point, and it is endless!

"Void Crack!"

Fang Yue's fingers flicked, and a length of crack appeared in the void.

Thunder Dragon fell into it, and immediately, the cracks healed.

This crack leads to the endless void, and Thunder Dragon strays into it, which means that it will never return forever.

This is the catastrophe that Fang Yue encountered when he got the Yujing Bottle.

It looked menacing, but Fang Yue took the initiative to resolve it, understatement without any difficulty.

"This day's calamity is getting stronger and stronger, and it has surpassed several levels at once! This time, it is equivalent to a cultivator on the second level of rotation. Is this earth Germany trying to obliterate me?"

Fang Yue muttered to himself, there was a sense of alertness in his eyes!

This place of Tamron is very important, and it receives the attention of the earth's will.

The deeper he digs, the stronger the catastrophe caused!

These are just two treasures that are eye-catching, but in the end they have raised Thunder Tribulation to this level!

Heavenly Tribulation is always a line higher than the realm of practitioners.

There is destruction and there is life.

The two Heavenly Tribulations that Fang Yue encountered were already much higher than his cultivation level. This represented a kind of will of the earth, not a test but an obliteration!

You Menglan looked at Fang Yue, already stunned.

Before that, she was still not convinced by Yue, who believed that he was proficient in the way of spirit, and she had to succumb to her own mind with his subordinates.

Now, her senses have changed drastically.

This Fang Yue's strength is astonishing, beyond the realm too much, in the same rank is absolutely invincible, even some of the long-famous disciples of the martial arts in the ten thousand realms, in the same realm, may not be Fang Yue's opponent!

"Fang Yue, don't continue, just accept it when you see it! This tribulation is getting stronger and stronger! This represents the will of your planet, and the person it chooses is not you! Doing too much has caused the earth's will to counterattack. Neither of them will survive!"

You Menglan has a guilty conscience.

She looked at Fang Yue, her eyes flickering, flickering.

Fang Yue survived this day.

But if you encounter a loss, you will be blown up alive!

Anyone special mother can be as perverted as Fang Yue, even the catastrophe is not regarded as a thing!

"Dig another one and I will stop! Only one!"

Fang Yue said vowedly.

He was also considering what You Menglan said.

The will of this earth is indeed terrifying.

It's really annoying, the ghost knows what will happen.

Fang Yue has seen it in ancient books. Once there was a big man who touched the taboo of the heavenly path. As a result, the heavenly path directly incarnates as an adult, holding a kitchen knife in the lower realm to chase and kill, and chopped down the big brother who has cultivated to the level of saints. Eighteen petals!

Tianwei cannot be touched. Among practitioners of the ten thousand realms, this belongs to the consensus series.

But the treasure is tempting!

One piece of this underground treasure is better than one piece.

This is the second one, and even the jade bottle in myths and legends has come out.

What's next?

In Fang Yue's heart, there was really an eager anticipation.

"Little skull, come on!"

Fang Yue ordered Little Skeleton to go out.

What the little skeletons did was immediately in full swing.

Dang, Dang, Dang!

Eighty zhang has been dug out underground.

A coffin board suddenly came into view.

The material of the coffin board is made of a hundred thousand-year-old peach wood. The surface of the coffin is engraved with some patterns, including the great great flying to the sky, the sacrifice of the ancestors, the sun, the moon, the sky, and the mountains and rivers.

Fang Yue was taken aback when he saw this coffin board.

What a hatred and hatred this is! He even used a hundred thousand year old peach wood to make a coffin.

This mahogany is exquisite!

It can exorcise evil spirits and suppress demons, not to mention a hundred thousand years of peach wood, even ten years of peach wood can suppress zombies and subdue demons.

A hundred thousand-year-old Taomu can easily suppress even a saint-level big demon.

This is to prevent the owner of the coffin from changing.

That's why such a coffin is created.

At the same time, Fang Yue was also shocked, who was buried in this coffin, even a corpse could be regarded as a treasure, which was more valuable than a jade bottle.

Fang Yue touched the coffin Xiang, his palms trembled.

Damn it, this thing cannot be good or bad, it will be struck by lightning!

Fang Yue understood that this was stealing other people's chances, and he was caught by the will of the earth, and he was estimated to be able to hack him!

Start with the coffin.

"Huh? Why are you okay?"

Fang Yue was taken aback for a while, there was no expected thunder and lightning warning, only gentle breeze and drizzle, and the heavens and the earth!

Silently again.

"Still okay."

Fang Yue safely and boldly took away the coffin!

Among other things, just the relief on the coffin board is of infinite value.

That is the mark of an era. If you study it carefully, you may get a lot of gains.

The moment Fang Yue took away the coffin board. In the world, the situation changes suddenly!

Chapter 783: Power of merit

"To die! To die!"

You Menglan was not calm, and yelled like crazy.

What kind of master did he find, bold enough to even defy God's will?

But the next moment, You Menglan opened her mouth and almost dropped her chin.

Sudden change of circumstances, auspicious heaven descends!

The strands of golden light fell on Fang Yue's body, making him look like a golden arhat.

"The power of merit!"

You Menglan recognized the origin of this golden light at a glance.

On the plane of shadow, there are also Buddha cultivation, and when Buddha cultivation reaches above the realm of heaven and earth, he begins to accumulate merit!

The power of merit is the power that all beings dream of.

It can nourish the body, warm the soul, and strengthen the foundation in subtle ways!

More importantly, the power of merit can be used as a consumable to offset karma.

If someone kills a person who has merits, the power of those merits will turn into karma, entangled with the killer, and when the calamity comes, they will be settled together!

Moreover, this is not an ordinary power of merit.

The general merit, that is, saving a thousand or eight hundred people, is only able to form a cloud of virtue, surround the body, without the slightest strengthening effect, inaudible, invisible, it needs to be accumulated over time, and it will have an effect over time!

Going to another level is like stopping a war and saving thousands of people next time.

It is a cloud of merit, one strand, one strand, protecting the body and strengthening the body.

This cloud of merit is already rare!

Among the 10,000 Buddhas above the realm of heaven and earth, one who can cultivate merits and virtues is not bad!

And Fang Yue actually obtained a higher level of merit at once, the golden light of merit!

This is the treatment of a savior!

A golden light of merit is worth ninety-nine and eighty-one lines of merit.

With this breath, Fang Yue received nine rays of golden light of merit. If he was seen by the peerless Buddha, he might be saved to Buddhism!

Fang Yue naturally knew what this meritorious golden light was.

He was also wondering.

It doesn't matter if you don't give it to God.

How can I return the reward?

Could it be that when the will of the earth is in a sleepy state, is it wrong to slap merits and punishments?

Obviously, this is impossible!

The only explanation is that taking away the coffin board is a great merit!

"So, what is buried in this coffin board? It's worth the earth's will to inspire so much?"

Fang Yue didn't know.

But he understands that there is something incredible in this!

The coffin board was removed.

A stone stele slanted on the ground was exposed below.

The stele is half a person tall, with a silver hook and silver painting on it, and four characters written on it, forever town the world!

The handwriting is majestic and the sword spirit is pressing!

It seems that every stroke reveals an incomparable sword and sword intent, which can cut skin and shred space!

"Good stuff!"

Fang Yue took a deep breath, and the coffin board had long been left behind by him.

This stone tablet is the real treasure!

Nothing else, just the material, chaos stone! This thing is simply forging the supreme gods and magic tools! A piece of leftover material can be cast into a saint's magical weapon or that kind of extremely powerful.

And the fonts above are definitely left by strong people above the virtual fairy level.

A little bit of comprehension will yield a lot of gains.

If you move back home and learn about it every day, the harvest is definitely self-evident!

The stone tablet was pulled out by Fang Yue!

Hidden secretly in his own stone pendant.

The aura of this stone monument is too strong, it won't be able to restrain it if it is not placed in the stone pendant space!

Just at this time.

It's overcast!

The sound of thunder roars the universe!

Fang Yue pulled out the monument, obviously touching the bottom line of the earth's will!

Heavenly Tribulation at the pinnacle level of the rotation realm!

Fang Yue saw the level of the calamity at a glance.

"It seems that the fire has moved this time!"

The Heavenly Tribulation at the pinnacle level of the rotation realm was not enough to pose a real threat to him.

The lightning burst, and the lightning rushed down like a dragon in a blink of an eye!

A silver light pierced the sky.

Fang Yue opened his mouth, sucked slightly, and swallowed Lei Guang directly into his abdomen!

The Thunder Avenue he has mastered has reached the level of the fifth-level peak. For Yue, this point of thunder robbery is not a threat, but a nourishment.

"Uh, it tastes good, a bit of cola!"

You Menglan was shocked!

Her eyes were round, and her breathing was not smooth!

I have seen a cow, but never seen such a cow.

Since ancient times, whoever encounters the catastrophe is not trembling, like walking on thin ice. I am afraid that a small difference will lead to the destruction of thousands of years of hard work.

Fang Yue swallowed the heavenly tribulation in this life, which has simply subverted her knowledge of the heavenly tribulation.

However, the robbery did not disappear this time.

On the contrary, it was impossible to achieve a single blow, and a stronger calamity was brewing!

"The tribulation of the second layer of Yin Yang Realm!"

Fang Yue's eyes were slightly solemn.

This is not a single calamity, but a combination of multiple calamities!

Multiple catastrophes may be strange to other practitioners, but for professionals such as Fang Yue, what kind of catastrophe has never been seen!

In the day after tomorrow, he spent the forty-nine calamities, a full thirty-six floors, enough to be called earth-shattering!

This time, the formation of multi-layered tribulations is enough to prove that the will of the earth attaches importance to this place of dragon!

Fang Yue did not compromise.

Risk and opportunity often coexist, and the monument in his hand is definitely worth his risk!

Fang Yue waited for a long time, but the second level of Heavenly Tribulation did not fall.

In the end, after a long time in the making, the robbery finally dispersed by himself!

"Misfied?"

Fang Yue was surprised.

But soon, he woke up.

It seems to be recorded in ancient books. If within a hundred miles, two people cross the Tribulation at the same time, there is a one-thousandth chance that the person with the greater calamity will **** the Tribulation of the person with the less calamity!

This is a very coincidental thing, and it didn't happen a few times at the beginning of Ten Thousand Realms.

As for this probability, I don't know who calculated it.

"It's not that the years are quiet, but someone is carrying the weight for you!"

Fang Yue murmured to himself with his hands behind his back.

"Buy this pit! I'm just grabbing something and not overdoing it!"

Fang Yue is very free and easy, like an outsider with no desires.

In You Menglan's heart, 10,000 divine beasts rushed past.

If it weren't for this day's calamity to get stronger and stronger, would you stay a line?

It is estimated that even the land will be scraped away!

The little skeletons were very obedient, and directly restored the big pit to its original state. At least there was no abnormality from the outside, and Jian Changcao was also transplanted back. Grow luxuriantly, soar to the sky!

"Go, let's see which hapless person is crossing the Tribulation, who actually took the Tribulation for me!"

Fang Yue shouted, Xuan even led You Menglan to another place with a strong smell of Heavenly Tribulation.

Fang Yue left with Meng Youlan.

The two soon came to a place to cross the calamity.

The space here is blocked, and the means are better than Fang Yue's 108-stroke catastrophe.

"This is a young man crossing the Tribulation, white clothes like snow! He is already approaching the level of Rotational Realm. If he succeeds in crossing the Tribulation, he can step into the Rotating Realm level smoothly! And the calamity he encountered is the Nine Heavens God Thunder Jie! Also known as Washing the Marrow Jie!"

Fang Yue gathered and hid his aura in the outer periphery beyond the robbery. He condensed his eyes with the powerful soul power, penetrated the void and saw everything in the small blocked world.

"Nine Heavens God Thunder Tribulation? Is he the master of this world?"

You Menglan's palm trembled slightly.

The Nine Heavens God Thunder Tribulation was too dreamy, she always thought that it did not exist between the heaven and the earth.

The Nine Heavens Thunder Tribulation can cleanse the tribulations and revitalize the spirit of the body!

This is not a test, nor an extermination, but a favor or even a gift from the world to the practitioners!

Nine Heavens God Thunder Tribulation, one layer is stronger than one layer!

Every time you experience it, you have the effect of being reborn and reborn in Nirvana!

"There is also a Taoist protector beside him, who looks like a middle-aged Taoist priest, almost at the Yin-Yang level!"

Fang Yue continued to describe to You Menglan.

"The fruits of the earth are very deep. In everyone's cognition, the world is already the first echelon. However, there are strong middle players in the strong, and now even the strong in the Yin and Yang realm have appeared!"

Fang Yue was thinking and talking to himself. You Menglan seemed to think of her expression suddenly, and she opened her red lips and said, "Fang Yue, isn't this guy the real master of the Dragon Land! Every time there is a catastrophe, heroes will come, and they are the place of luck. To, the destiny belongs to! What

All such opportunities will condense on him alone! "

You Menglan finished her words.

Fang Yue was also aware of this problem, and he was a little vacant.

After all, strictly speaking, it was he who stole the chance!

Soon, the Nine Heavens Thunder Tribulation dissipated.

The white-clothed boy woke up quietly from the robbery, his aura rose to a higher level, reaching the level of the rotation realm!

With every breath, there is a vague sound of wind and thunder.

The young man in white actually used Lei Jie to enlighten the Dao and stepped into the second level of Thunder Avenue!

This is a kind of divine enlightenment, which is a kind of divine enlightenment. After all, it is obtained from external forces, so he is not suitable.

"Young Master mighty!"

The middle-aged Taoist priest stepped forward with a dotting look in his eyes!

His young master is destined to be the protagonist of this era!

Sweep everything, wave your arms, dominate the world!

And he will also be the protector of the youth, and his name goes down in history. Maybe, with the help of the young master, he can also reach the level of the leader realm and even the realm of saints!

"This is the second level of the Nine Heavens Thunder Tribulation! It has transformed my physique and reached the bloodline of the eighth level of the Profound Grade! Although the bloodline of this level is not very good, but in a sense, it's okay. That's pretty good!"

The teenager was slightly dissatisfied.

His physique is an innate mortal body, relying on the Nine Heavens God Thunder Tribulation, step by step to reach the present state!

Although every Nine Heaven God Thunder Tribulation is a big leap, a qualitative breakthrough.

But after all, his starting point is too low, not enough to be comparable to the real Tianjiao among the Harmony Realms!

The young man walked out of the place of crossing the catastrophe.

He had a keen sense of spirit, and the corner of his eyes swept away, and it fell on Fang Yue's body.

"Where is the rat generation, spying on the young master's crossing the robbery?"

The middle-aged Taoist priest immediately shouted, and his voice was like thunder, rolling in!

"The king dog egg!"

Fang Yue subconsciously reported a pseudonym.

"Huh? What kind of king dog, Li Goudan! You must die if you snoop on the young master's secret!" The middle-aged Taoist was very fierce, and the young man frowned slightly, tacitly agreeing!

Chapter 784: Qingfeng Taoist

"It's a little cleaner!"

The young man told the middle-aged Taoist.

The middle-aged Taoist nodded, as if he was seeing two ants, staring at Fang Yue and You Menglan in a lofty attitude.

"Did you break it yourself, or let me do it myself!"

"We want to call the police!"

Fang Yue shouted.

The middle-aged Taoist suddenly laughed: "Call the police? Can the police control it? It turns out to be two ignorant ordinary people. If this is the case, you will die even more!"

The middle-aged Taoist shot, his sleeves flicked, whistling the world.

This sleeve robe turned into a huge pocket and rolled towards Fang Yue and You Menglan!

"No, Master Qingfeng, be careful. The two of them are not commonplace, and commonplace cannot capture their breath. Watching me pass the catastrophe by the side, so that neither of you nor I can detect their existence!"

The boy in white suddenly realized the problem!

However, it was too late.

Fang Yue dragged You Menglan's feet and ran away.

The earth passed by Fang Yue's feet, and soon the two of them were gone!

You Menglan felt like she was floating, she had never run so fast before.

Fang Yuejian walked like flying, taking one step, at least several hundred feet of land passed under his feet.

The surrounding scenery is changing rapidly, and in the blink of an eye it is another world.

"Huh! Do you think you just left like this?"

Taoist Qingfeng snorted coldly, his sleeves were bigger, covering the sky in a blink of an eye.

"Universal sleeve!"

The cuffs are enlarged to cover the sky and the sun, the universe is dull, and the sun and moon are dim.

Fang Yue had only seen this trick in the ancient mythology of China.

Never thought that it actually existed!

It turns Sumi into a ring, and one cuff can hold the whole world!

"Sanwei is really hot!"

Fang Yue raised a finger.

A three-color flame was leaping at the fingertips.

He stuck his fingers out, the flames covered the sky, almost burning the sky and collapsed!

You Menglan is like avoiding ghosts.

This is how the great **** is fighting, her face is pale and transparent.

She touched it a little and guessed it would be a dead end.

The real fire of Samadhi, the universe in the sleeves, are all legendary magical means, and even the general yin and yang realm might not be able to master!

The flame burned, and there was a beeping sound from the sleeves.

Taoist Qingfeng's face changed slightly, and he immediately realized that he had encountered hard stubble.

"I'm just passing by, so why bother with you!"

Fang Yue was unwilling to fight against Taoist Qingfeng and the Son of Destiny at this time.

Because the Son of Destiny and the Taoist Qingfeng were born in response to the catastrophe, they had just been born and were blessed by Destiny.

Even if it is in danger, it will be turned away.

But their luck is limited, and they will be exhausted sooner or later. After exhausting his Qi, Fang Yue would kill them again, so that he would not be interfered by the will of heaven and earth at will.

"Huh! For the sake of your strength, I will give you a chance to surrender your soul, to be loyal to Lin Tianyang, to become a servant of the Son of Destiny, and follow us to conquer the world!"

This Qingfeng Taoist is still aloof, with a taste of judgment in his tone.

This seems to be a gift to him, a favor!

Fang Yue didn't sneer when he heard this: "Don't you think you think too much? I'm not an enemy of you, because you are favored by God and pitied by the destiny. If you really do it, you may not be mine. opponent!"

It's a clay figure and still has a three-point anger.

Fang Yue turned around and ran away just now, mainly because he stole part of the opportunity of the Son of Destiny Tenglong Land and felt guilty.

But now seeing the attitude of Taoist Qingfeng and Lin Tianyang, the guilt in Fang Yue's heart disappeared. "Hahaha, you are a little commoner, with the help of this world's aura, and luckily got a little bit of supernatural power. So you dare to arrogantly do not put me, a senior in the spiritual world, in the eyes? Do you really think that you are invincible. ?

"

The eyes of the Qingfeng Taoist flashed with a vicious look.

Taoist Qingfeng said harshly. But in his heart, there was also a bit of anxiety and anxiety.

At this level of Fang Yue's talented world realm, he could summon the true fire of Samadhi, it is hard to guarantee that there is no expert guidance behind him.

Although Lin Tianyang is the son of destiny, but his luck will eventually run out. If it is before the destiny runs out, Lin Tianyang can't really grow up.

Then the son of his destiny is also named but not real. In the end, it will become the source of too much blessing accumulated in the body, and become the fat sheep in the eyes of many forces, being looted, being killed, and even bringing him into trouble.

If Fang Yue really grew up at this time, maybe Fang Yue would be the first to wield a butcher knife against them in the future.

"You old clapper, those who have won the way will help more, those who have lost the way will be helpless, you are so arrogant and strong, you will use people to operate the operation casually, it will exhaust your young master's luck in advance!"

Fang Yue is warning Qingfeng Taoist that now, this earth is undergoing changes and turbulence.

Perhaps in the near future, there will be strong people from all realms one after another.

The Son of Destiny will be the mainstay of protecting the earth and defending peace. Fang Yue is unwilling to fight with Lin Tianyang, causing too much internal friction!

"Killing an ant is nothing more than a waste of energy? My way is the only one in the sky and the earth. In the future, I will step on the heavenly ways of this earth!"

Lin Tianyang was very arrogant, his eyes were light, still treating Fang Yue as an ant.

He didn't think that Fang Yue would have the slightest influence on him, and he would kill him if he killed him, so how to talk about the loss of luck.

"Get the stars!"

Lin Tianyang took the initiative this time, one of his fingers pointed at Fang Yue's eyebrows, and the shadow of his fingers was infinitely magnified in front of Fang Yue's eyes.

This formula is very strong and condenses the stars and brilliance.

Its origins are unpredictable and can be traced back to China's oldest civilization era!

The fingers fell, and the space was frozen, he wanted to break Fang Yue's eyebrows and let his soul fly away.

The dead will not retaliate!

Lin Tianyang's murderous intent was revealed!

Fang Yue took a gentle step, the sun and the moon were dark, and the mountains and rivers were dim.

He and Lin Tianyang's star picking fingers collided with each other, and they shook together with a bang!

Fang Yue's fists are simple and unpretentious.

Like the simplest and most clumsy move!

However, in this punch, there are thousands of changes in the moves.

This is the concentration of Fang Yue's martial arts essence, the essence of endless moves.

Star Reaching Finger met this punch.

With a click, Lin Tianyang's finger broke directly!

The white bones were exposed, and the flesh and blood on his fingers were swallowed by Fang Yue and absorbed cleanly.

I have to say that this Lin Tianyang deserves to be the son of destiny, just a little bit of flesh and blood, the life essence contained in it exceeds the sum of all the flesh and blood essences on the whole body of a general Yin-Yang realm.

Lin Tianyang is not Fang Yue's opponent!

His body was shaken back by a hundred meters, and he staggered dozens of steps before slowing down the momentum!

"It's impossible, I am the protagonist of this era! How can I even match an ant!"

Lin Tianyang stared at Fang Yue closely, his arrogant expression revealed an unbelievable expression.

"My cultivation base came from a little bit of practice. There is no fancy, no gods! And although your strength is strong, you have too much water, your foundation is not solid enough, your mind is impetuous, and you don't understand this star picking point. The real essence of the game!"

Fang Yue commented, Son of Destiny, but that's all!

Perhaps after just starting, Fang Yue discovered that this son of destiny was not as powerful as he thought.

He can be regarded as a genius, but it is difficult to rule the roost among the same rank!

If he were in the world of Xuanhuang, he could at most rank in the top 100 of the world rankings. Even the top 50 would be difficult to enter! "No! This is not true. I understand. You have practiced magic skills and activated your body's potential with evil methods in exchange for a strong blow! My finger flesh is absorbed by you, which is like a mountain of iron proof You should be banished, and eventually

Enemies all over the world! "

Lin Tianyang justified himself.

He muttered to himself, as if he really made such a point.

"I practice magic power? Haha, why don't I know? If the skill is not as good as humans, then the skill is not as good as humans! Even if I know magic skills, it is not worth exposing because of you!"

Fang Yue's face was full of mocking smiles.

"You dare not even face the reality, how can you become the savior of the earth! I really doubt whether you have the courage to come to the earth with the courage to come to the earth!"

Fang Yue was shaking his head, a little sad at the same time.

If the hope of the earth rests on such people, then the earth will really be over!

Lin Tianyang roared: "What are you talking about? I am destined to become Tianzun! No one can stop me from the road ahead!" "I don't know, who gave you such courage! Tianzun, three or two of the ten thousand realms since ancient times, From ancient times to the present, there have been only a handful of Tianzuns that have appeared in the ten thousand realms. It is difficult for you to be a superior person by chance to set foot in that realm! Let alone the heavens

Respect, with your temperament being able to cultivate to the realm of Yin and Yang without being killed by others, it is estimated that it will be quite difficult! "

Fang Yue was ruthlessly praised and criticized Lin Tianyang, except for some variables of the proud of heaven, even if Lin Tianyang joined hands with his guardian Qingfeng Taoist, he might not be his own opponent!

The proud son of heaven is nothing more than that before he grows up!

What else did Lin Tianyang want to say? From the horizon, a Dapeng with golden wings suddenly spread its wings!

This roc turned out to be a master-level powerhouse. Although it is not pure blood, its feathers are golden, like cast iron, and there should be some inexplicable connections between it and the legendary golden winged roc.

Dapeng came, grabbed one with one paw, and grabbed Lin Tianyang and Taoist Qingfeng directly away!

Fang Yue was stunned, and understood that this is the opportunity for these two goods to have another chance, and they have an adventure.

But this way gives them opportunities and adventures, don't you think it's too routine, too bloody, too deliberate?

Fang Yue seemed to be able to hear the beating of his little heart in his chest, the golden winged roc spread his wings and flew away, leaving only a place of dust, letting Fang Yue eat the dirt!

"Fang Yue, this Qingfeng Taoist and Lin Tianyang were taken away by the Golden Wing Roc!"

You Menglan obviously had never seen such a posture, she couldn't help but said softly! "Catch it and take it away! Lin Tianyang is the proud son of heaven recognized by the will of the earth. He is his destiny, and it is impossible to die here! Even if the Dapeng does not come this time, there may be brave or something, protect them. Dao! But the pity of destiny, mighty

Power is limited after all. When his luck was exhausted, Lin Tianyang would immediately be beaten back to his original form. "

Fang Yue sighed quietly, the emotions in his heart were a bit complicated, it was fake to say that he was not jealous.

However, the person chosen by fate cannot be changed, which makes him very helpless!

Fang Yue carried his hands behind his back, preparing to go home with You Menglan. Lin Tianyang was temporarily out of the range of opponents he was considering, his starting point was too low. It will take some time to fully grow up. Now, what they need to solve most is many problems on the earth!

Chapter 785: Put your hands up

For example, the power of the ten thousand realms comes, the will of this earth has released the upper limit of the strength of the descendants, some powers in the first three levels of the heaven and earth realm can come without hesitation, even the power below the sixth level of the world, pay a little After the price

Strong coming.

This is unbearable for the earth!

On the earth, there are too few strong people above the heaven and earth realm, and the positions of the ten thousand realm powerhouses coming out of this space crack are random. When they appear, it is like a tiger entering a flock!

Even if it is jointly killed by the strong on earth, before being discovered, it will cause one party to kill.

Just when Fang Yue worried about the future.

Beside him, a ten-foot-long space crack suddenly opened!

Hoop!

A team of people rushed away from it!

These people came prepared and appeared immediately after the space crack opened, without wasting a little time!

However, the location where they arrived was a coincidence, just adjacent to the location occupied by Fang Yue.

"Put your hands up!"

Fang Yue looked serious.

There were three thousand people and horses appearing in that space crack. Ninety percent of them were the powerhouses of the third layer of the heaven and earth realm, and 10% were the cultivation bases of the sixth layer of the heaven and earth!

Fang Yue was alone, blocking the three thousand descendants, this scene is very funny!

However, the people blocked by him can't laugh!

Because Fang Yue was very simple this time, without showing weakness, he directly summoned nine puppets of the sixth level of the rotation realm to stand behind him.

These puppets are all the spoils that he seized when he murdered.

There are many similar things in Fang Yue's stone pendant space and storage bag!

Their combat power is good, and they are not afraid of death. They are the wonder soldiers of war.

The puppets on the sixth floor of the Nine Reincarnation Realm appeared, directly forming a battle formation.

They are all ferocious.

Before the three thousand traversers had time to get acquainted with the local waters, soils and customs, their legs had developed and their hairs had burst.

One level of realm, one level of heaven!

This is the cultivation base of the sixth level of Heaven and Earth Realm, the strongest talent among them!

And the natives of this earth, the puppets on the sixth floor of the Rotating Realm when they are summoned are a big realm higher than the strongest among them!

How to fight this stuff?

Not everyone has the means and power to leapfrog.

Moreover, the leapfrogging in their conception is also to cross one or two small realms. There are a few who, like Fang Yue, can cross dozens of small realms at will, shouting and screaming, and fighting by leapfrogging!

"We are disciples of the Heavenly Spring Realm, and there is no harm in coming to this planet!"

A disciple from the sixth level of the world realm led by said tremblingly. He is the leader of this group of people, and at the same time a genius disciple, his level of combat power can be comparable to the powerhouse of the ninth level of the world, and he is quite famous among his peers.

Originally, when he descended on the earth, he was full of ambition.

Must kill the Quartet, seize the many resource treasures in the earth, in order to forge one's own path of invincibility, promote to the level of rotation, the hometown of honor.

As a result, there is a certain gap between reality and imagination.

Before he arrived, he had not had time to be energetic, and he had already been blocked by someone in front of Fang Qiu.

Faced with the puppets on the sixth level of the Nine Revolving Realm, he can only admit to counseling.

"If you don't have any bad intentions, then come to the earth to do construction! Now you have served on the earth for ten years to build some fairy palaces and refine some magic weapons!"

Fang Yue didn't believe what the Tianquan Realm disciple said.

The Tianquan realm belongs to a small realm among the ten thousand realms, but because the Tianquan realm produces Tianquan mineral water, it is rich in oil. The monks in the Tianquan realm are not mainly fighting, they will spend more energy in the operation of the business.

Refining tools, formations, pill, Tianquan realm does not lack any kind of assistant positions for cultivation. With the huge demographic dividend, they only need to run a business to make a lot of money. Rich and rich!

"Skills can be killed, not insulted!"

Some of the monks in Tianquan Realm shouted.

He was full of grief and anger, he hadn't done anything bad yet!

Although it is a preparation, you can't convict us without any evidence!

"Then I will kill you!"

Fang Yuexie smiled, slashed down, and directly killed the monk indiscriminately!

Blood splashed and fell to the ground!

All the monks in the Tianquan realm took a breath, and their hearts were so cold!

This is too vulgar, too barbarous!

Call and kill at every turn! They are the monks of the Heavenly Spring Realm!

Everyone is a master craftsman, a master alchemy master, or a master formation master, a master Fulu!

Ordinary powerhouses caught one of them that didn't feel like getting a treasure, and support them. Wherever there is such a vulgar person as Fang Yue, they would call out and kill at every turn, or kill with a knife!

"What? Is there anything to kill and not to humiliate?"

Fang Yue chuckled, wiping the blood-stained long knife.

Those monks in the Tianquan Realm were full of grief and anger, and resentment.

But none of them dared to speak up.

This is a rage, an executioner! Raise your hand to kill, don't pay attention to it!

However, they dare not speak up!

This kind of executioner is too strong, they don't even have the ability to resist!

The hand lifted the knife and fell, there was no livelihood.

At this time, at the cusp of the storm, who would dare to disobey Fang Yue's meaning.

After all, these people started as businessmen, and they were born with a trace of cowardice in their bones.

Before making a move, they will carefully consider the pros and cons!

If it were replaced by a group of elite fighters, swarming forward, condensing the battle formation, and going all out, united in a city, it may not be impossible to defeat the nine puppets at the rotation level!

"Actually, I don't mean anything else! Now the earth is in a precarious state, among the ten thousand realms, a pack of wolves is watching! We have to develop a defensive heart against all the descendants of the ten thousand realms! As long as you are in the earth, Ten years of service

, I can give you a freedom! In a while, I hope you will let go of the sea of knowledge and let me imprint the next slave mark! Of course if you refuse, I will not make things difficult for you..."

Fang Yue's words were not finished yet.

One person jumped out and couldn't wait to say: "I want to refuse!"

The silver light slashed down, the blade shadow lingering.

The man was cut in half by Fang Yue with a single knife. The left and right sides were even, and the wound was smooth as a mirror.

"I won't make things difficult for you, I will only send you to Huangquan! Rotational reincarnation! Oh, and I have a bad temper and many problems. When I speak, I hate others to interrupt in words!"

Fang Yue took out a white towel and wiped his white palm!

Hiss!

Those practitioners in the Tianquan realm took a deep breath again.

This is about to die!

This Fang Yue is so cruel!

Kill if you don't agree.

Demon even more than the legendary demon!

These monks in the Tianquan realm looked at each other, although no one wanted to lose their freedom and was branded as a slave by Fang Yue.

But the problem is that they don't want to die here either!

Fang Yue just said that if you serve the earth for ten years, you can return them to freedom.

I hope this Fang Yue has the final say!

With a hint of luck, all of them were branded as slaves by Fang Yue.

In this way, the three thousand people came violently, and in the blink of an eye, they all became Fang Yue's people!

"Brother, it's okay! Someone surrounded our ancestral house and said it was someone from the plane of Sirius. Come back quickly!"

Fang Yue hadn't had time to set the rules for these three thousand people and establish their prestige.

This is a call from Fang Yunshan!

Fang Yue heard this, and immediately gave birth to a surge of anger.

In Fang Yue's home, these people from all realms dare to move?

"Follow me! You can kill them!"

Fang Yue waved.

Three thousand people set off together!

In just a moment, the group returned to Fang Yue's residence.

Looking from the distance, there really is a fat man with all the fat and trembling, leading more than 30 people dressed in black, surrounded by a cold and murderous person all over the Fang family's old house! "This Fang family's old house is a treasured land of geomantic omen! The aura in it is more than five times that of other places! Maybe there are some incredible treasures hidden under this old house! And in this house, There are two beauties, both beautiful

Quite outstanding, if you uncle like it, you can enjoy it, if you are tired of playing, you can also reward me! "

The fat man's flattering smile directly sold Fang Yue's old house, and even hit Fang Yunshan and Lin Keer's ideas!

The leader among the thirty-odd people in black nodded slightly.

He turned out to be the seventh level cultivation realm in the world realm!

According to Fang Yue's speculation, it was estimated that he was to conquer the earth and descend early, and he deliberately suppressed his own cultivation realm, only after he descended on the earth!

"My Sirius position is always rewarding and punishing. If you are so proactive in serving the powerhouses of our Sirius position, we will naturally not treat you badly! If this house is really like you said, it is a blessed place. , Then we will perform

Means will help you to break through to the level of innate realm! At the same time, we will also consider allowing you to become the spokesperson of this Ning'an County, where you will enjoy endless prosperity and wealth in the future! "

The black man said indifferently.

He patted the fat man's shoulder lightly, and a ray of energy was injected.

A blush immediately appeared on the fat man's face.

His cultivation base, which was originally stagnating at the sixth level of the Houtian realm, immediately broke through the bottleneck and reached the seventh level!

The fat man seemed to be beaten up, with high morale, and he wanted to take out all the old guys to serve these people on the plane of Sirius.

In his eyes, sooner or later this earth will fall into the hands of the powerful of the ten thousand realms. Instead of passively conquering, it is better to actively surrender. Perhaps after the earth is conquered, they may still become officials!

"Sister, who is this person?"

God does not know, ghost does not know.

Fang Yue has returned to the ancient house.

The little brother who had just taken over the three thousand was still on standby outside the village!

"Brother, you are finally back!"

Fang Yunshan was relieved when Fang Yue came back. In her heart, her brother is invincible!

Even if there are so many bad guys, as long as there are brothers, they will not threaten their lives!

"Yun Shan, don't be afraid. With brother, none of these people can hurt you half of your hair!"

Fang Yue calmed Fang Yunshan softly, his eyes were soft.

"With you here, we can't hurt him? Hahaha, the natives of this earth are really ignorant and ignorant!"

There was a mocking sneer from the headed man in black on the plane of Sirius.

In his eyes, Fang Yue is just a humble native!

If he wanted to kill, even if Fang Yue died tens of millions of times, he would not be able to stop him.

At this moment, Fang Yue's aura is restrained. At first glance, outsiders are just a mundane who has no power to bind a chicken!

"Fang Yue, hand over your sister and Lin Keer obediently, how about I let you die?"

That fat man, the fat trembled. His tone was full of pride and frivolousness.

Chapter 786: recover

The fat man's level is too low, and he is far from reaching the Jiangdong Group level.

In his eyes, Fang Yue was just a salted fish that couldn't turn over. It was destined to become a fish on a chopping board.

"Don't you think you are a little too confident? Or, you believe too much in the people behind you!"

Fang Yue's words made the fat man stunned. Doesn't he know that he is already dying?

Dozens of powers from the Heaven and Earth Realm made their move, enough to smooth out any of China's forces, and against them, Fang Yue's outcome was almost doomed.

"Let's do it together! This is your only chance!"

Fang Yue looked at these people in black indifferently. Although they were hateful, it was a question of position after all.

Fang Yue doesn't hate them very much. They have different positions. Everyone is right from their own point of view.

On the contrary, it is this **** fat man, who is obviously a strong man on earth who actually took refuge in other worlds. He is too hateful and must be severely punished, and there is no room for negotiation!

"Arrogant boy, what are you talking about? To kill you, we just send one person!"

One of the people in black refuted Fang Yue. He was very proud. The natives of the earth were like ants in their eyes. To kill them did not need to waste much effort.

"I gave you a chance! You don't cherish it!"

Fang Yue didn't bother to take action against these people, he secretly transmitted his voice, calling those people from the Tianquan realm to come!

In a blink of an eye, the powerhouse of the Three Thousand Lai World Realm appeared.

The fat man still refused to accept it. He sneered: "Fang Yue, is this your trump card? Times have changed. It is difficult to make up for the quality gap with more people!"

The legs and feet of the people in black were numb, and they felt that their bodies were stiff and difficult to move.

Fatty's realm level is not enough, they can't feel the realm strength of the strong, and they are in the world realm, they naturally understand that this is the power of the three thousandth world realm!

This **** fat man, what kind of broken road he brought, where is this place, it is clearly a den of thieves.

And the person who provided information is also unreliable.

Is there no strong on this earth?

There is no strong man!

The powerhouses of the world realm are like a nest when they come, and when you look around, they are covered in black, as if they don't need money!

"Fang Yue, we were wrong! We had no intention of being an enemy of you, but these **** fat guys led the way blindly, causing us to have a beautiful misunderstanding!"

The leader of the man in black barely squeezed out a smile, his smile was even more ugly than crying!

"It's a misunderstanding, but it's not beautiful! Since it's here, please live with peace of mind! Give you a chance to be imprinted as a slave by me. The 20-year construction period is used as an atonement!"

Fang Yue has a charming smile, red mouth and white teeth.

Isn't the strong on this earth not enough?

The powerhouses of the other world who have been branded as slaves can still be used for him!

Those people in black appeared angry one by one!

"Fang Yue, we are on the plane of Sirius, and we can kill but not humiliate! Don't humiliate us!"

"Skills can be killed, not insulted, how do I feel that this sentence is so familiar! I have heard this sentence just now, but I did not expect to hear it again in a short time!"

Fang Yue looked at the 3,000th person on the plane of Tianquan.

They all showed weird smiles.

This Fang Yue is not a gentleman of Qianqian. He is an executioner and a slave owner. He just doesn't know how to associate with a good person!

"Knock them unconscious and serve them with great punishment! Whoever refuses to accept it, I can die! You are welcome, in the process of conquering, it is normal to have a casualty or something, I won't mind!"

Fang Yue spoke.

Those people on the plane of Tianquan had long been eager to try, and Fang Yue couldn't do it.

But these thirty people, are they still afraid?

The ratio of one to one hundred, the same realm, can't beat them anymore, the people on the plane of Tianquan will not have to live!

"Ah, no!"

"Hit people don't slap their faces!"

It's banging, ding-dong, clicking.

The thirty-odd people in black clothes on the plane of Sirius were all knocked out by the people on the plane of Tianquan.

At the scene, only the fat man was left.

Fang Yue looked at him with a smile, but there was an indescribable coldness in his eyes.

"Little girl! Do you remember who I hate most when watching anti-Japanese dramas?"

"Traitor!"

Fang Yunshan said very cooperatively.

"Then what should we do after encountering a traitor?"

"Five horses divide the body, or Ling Chi put to death!"

"Ah! No! No! I'm Ma Quan, the son of the Director of the Anning County Public Security Bureau. You can't kill me!"

The fat man was scared to pee!

That's more than 30 people in black! All of them were masters of the heaven and earth realm level, so they were all dragged down by Fang Yue and knocked unconscious.

When he meets such a master, where is the possibility of half resistance?

"Hmph, no one's son is good! Drag it down, cut it off!"

Behind Fang Yue, two small skeletons walked out, behind them also wearing blood cloaks.

On the cloak, the big characters are clear.

"Which excavator professional is better?"

"Lan Xiang in Jinan, Shandong!"

The fat man was dragged down.

For a long time, he only heard a scream like killing a pig, and he was killed.

"Brother, he is the son of the director of the Anning County Public Security Bureau. Wouldn't it be a problem to kill like this?"

Fang Yunshan looked at Fang Yue, with worry on her face. "The times are different! The rich and powerful of the past may not be able to control the world today! What is the director of the Public Security Bureau of Anning County? His son has taken refuge in the plane of Sirius and betrayed the earth. He deserves to be beheaded! What's more, even if he doesn't Convinced and able

Is it strong enough to fight more than three thousand heaven and earth realms? "

Fang Yue opened his mouth.

Fang Yunshan was convinced immediately.

If you are reasonable, I will reason with you. You come by force, and the powerhouses of more than three thousand worlds are waiting!

Lin Ke'er looked at Fang Yue's gaze more complicated. The emergence of an ordinary force with a strong person in the world is enough to gain a foothold in China and develop rapidly. With this breath, Fang Yue produced more than three thousand people in the world. It is definitely the gods who block and kill the gods, and the Buddha blocks and kills the Buddha. No one can stop him from moving forward.

!

"Well, little girl, you must be a low-key person. We have more than three thousand heaven and earth realm powerhouses. Must we not know about it?"

Fang Yue exhorted Yunshan.

He has a hunch that the earth is deep.

Too high will be used as a gunman!

"Well, I see, brother!"

Fang Yunshan nodded slightly, agreeing with Fang Yue's words.

Lin Keer next to him said softly: "Recently, the situation on the earth has changed. Don't Fang Yue really have any thoughts of fighting for the hegemony?"

"Huh? What's the change? I watched the news broadcasts are very good!"

Fang Yue said with a smile.

Lin Kerr couldn't help but roll his eyes. "Some truths cannot be made public, but are deliberately buried. Without a certain status, it is impossible to understand the status quo and truth of the earth! I got news that three days ago, in the Taihang Mountains, an ancient treasure was born. , There were creatures from other worlds, and nine powerful men from the heaven and earth realm came together! They directly cut off dozens of strong men above the innate realm from a large family on the earth where the treasure was discovered, and they wanted to try to seize it. An unknown earth native strongman

With one shot, the nine world realm experts beheaded and killed, and they won the treasure! "

"Slaying nine world-level experts with one blow?"

Fang Yue raised his eyebrows, revealing a look of surprise.

The heaven and earth realm that the alien world descends may not be so strong, but it kills nine people with a single stab, and it is absolutely extraordinary!

"It is said that the sword bearer is also at the level of the world realm, and his realm is only the second smallest level of the world realm!"

Lin Keer revealed another astonishing news. It is nothing unusual to use realm to overwhelm people, but to kill the strong with the weak and win the more with the few. There are many stories about this person!

Fang Yue frowned slightly, the fruits of the earth were so deep!

Win the strong with the weak, and win the more with the few, it's not that you have talent!

Inheritance and chance are all indispensable!

Behind this buddy, there is either a big chance or a big background!

In Fang Yue's heart, he actually prefers the latter.

Opportunity is something that can't be found, and in this world, where is there so much romance.

"Yesterday, when a boy of the Bai family left the customs, he showed up to be the seventh level of the world realm! Holding a long knife, he broke into a nest of alien descent alone, setting off a **** storm and smashing the alien descent. 271 people

, And more than 80% of them are powerhouses in the world! "

Lin Kerr seems to be silent and endlessly dead!

Who said that the earth has fallen, the passage of this heaven and earth level has just been opened, and there are strong people on the earth successively shooting, and picking the strong people in other worlds!

Of course, none of their stories add up to Fang Yue's shock.

One person captured three thousand people who descended from another world, all in the world. If this matter spreads, he may be able to stand on the cusp of the storm immediately!

"The earth's water is too mixed, so let's wait and see before you take action!"

Fang Yue chose to bear it temporarily. He had a vague hunch that the edge of the earth nowadays is not even the tip of an iceberg. The earth of the past was extremely glorious, and the Age of Doom only allowed those old guys to temporarily retreat from the world. Rejuvenation of Reiki means that the earth will welcome again

Come to its peak and glory!

People from other worlds want to ravage the earth and treat it as a colony, I am afraid they will be disappointed!

"The latest news is here! There is a silver mecha, under the control of the fifth-tier driver of physical skills, with the help of high-tech weapons to kill a world-class powerhouse who has descended from another world!"

Lin Ke'er's mobile phone vibrated suddenly, and a message popped up on it.

"Has the technology pulse also begun to awaken?"

Fang Yue muttered to himself, raising his head to the sky, feeling a little unbelievable in his heart!

At this moment.

A **** crack in the sky suddenly appeared!

The cracks are as black as ink, billowing!

"Are creatures from another world coming again?"

Fang Yue looked at the vision of the sky, and his heart moved slightly.

"It's not quite right! There must be slight spatial fluctuations around this space crack, but this space crack is not! It is extremely stable, as if it is fixed! Fuck, this is a space channel, not a space crack."

Fang Yue finally realized something was wrong! "Where is Nuwa? Need her to fill the sky? What about people?"

Chapter 787: Dark moon descends

Fang Yue looked around.

Lin Ke'er is full of black lines, she is really stupid, how can the future of the earth rest on such a person?

The cracks in the space remain unchanged, and beams of light are shooting in all directions!

A rough estimate, this is at least hundreds of thousands of beams of light!

Fang Yue stretched out his hand, and in a blink of an eye, he covered the sky with one hand!

With a bang, a beam of light collided with Fang Yue's big hand, bursting into mud, and there was a trace of spiritual energy fluctuations in the scarlet blood mist.

"Each pillar of light represents a strong person at the heaven and earth realm level! Hundreds of thousands of light pillars, hundreds of thousands of practitioners at the heaven and earth realm level?"

Fang Yue was in a daze!

The sky of this earth is about to change!

Heaven and earth realm powerhouses and so on, occasionally come hundreds of them, they can also be used to build power and kill them just like playing.

Hundreds of thousands of heaven and earth, is this the doomsday catastrophe of the earth?

However, the world of hundreds of thousands is not over yet.

Immediately afterwards, there were hundreds of thousands of silver beams!

Each beam of light is a soldier of a hundred innate realm.

Hundreds of thousands of beams of light are tens of millions of horses!

The earth's food is tense, and tens of millions of people have been put away all of a sudden! "It's the Dark Moon plane, that's right, they are! There has long been a dark line saying that the people of the Jiangdong Group have secretly arranged 108 teleportation formations, spreading all over the corners of the earth, the one hundred and eight teleportation formations can actually Space cracks really stabilized

! "

A touch of bitterness appeared on Lin Ke'er's face.

Originally, they wanted to use Jiangdong Group as a sharpening stone. Who would have thought that the knife would be broken if it was not sharpened too sharp!

The army of Dark Moon is invading, and all of them are experts in cultivation. With the strength of the current earth, can they resist it?

After all the beams of light fell.

The space passage has not disappeared, it is pitch black, deep and narrow. "This space channel, once activated, needs to consume a huge amount of resources. On the earth, it is just an introduction. The real main array is still in Darkmoon World! If the manpower dispatched this time is insufficient, I guess Darkmoon World will come again.

! "

Fang Yue whispered to himself.

He realized that this event might affect the future destiny of the earth!

This is a turbulent era, and it is difficult for any manpower to prevent this change from happening!

The human beings on the earth have reached the crossroads of fate, either struggling to break through, dominating destiny becomes more and more prosperous, or ending miserably in the dark world.

Become a dust of the past in history!

In the next half month, the earth ushered in extremely drastic changes!

The Dark Moon plane invades the overall situation, centering on the powerhouses of the heaven and earth realm, leading the sky and conquering the north and south!

The major forces of the earth, all countries, are fighting hard! Some powerful people in the hidden world also walked out of the old forest on their bodies, doing their best to resist the steps of the creatures on the dark moon plane!

In the world of just over ten days, nearly tens of millions of people have died in battle on the earth.

The army of the Dark Moon plane only had tens of thousands of casualties!

They are unstoppable, occupying half of the earth one after another, and cities have become bases on the Dark Moon plane!

They walked on the corpses and bones of earthlings!

However, the Dark Moon plane is not completely unstoppable! Some famous mountains and rivers, they also encountered incredible enemies!

In Songshan, an old monk hits the bell. He is located in an ancient temple on the mountainside, his hands clasped together, and the sound of "Om" comes out, shocking Jiuxiao.

Hundreds of creatures on the Dark Moon plane burst directly into pieces and turned into blood crows. Among them were the powerhouses of the seventh layer of the heaven and earth realm leading the team, but under the bombardment of Tianyin, there was no room for resistance!

The nine sword-slashing heaven and earth realm experts on the earth reappeared.

He took advantage of the darkness to sneak an attack on a barracks of the Dark Moon Army.

Overnight, killed more than a thousand Dark Moon army.

Among them, there are only 56 strong people in the heaven and earth realm. In the morning, their heads are lined up in front of the camp, all their heads, their eyes are angered, and they are not stunned!

Under the Shu Mountain, the sword rain is like a tide.

A layer of silver sword light surging for thousands of miles, a wave of swords fell, and the three thousand dark moon planes all smashed their bodies, their souls were strangled, their flesh and blood became mud, and there were no complete bones left. !

On that day, a magnificent voice came from Shushan.

A hundred miles around Shushan, no creatures from outside the world are allowed to set foot, and those who violate the order will not be amnesty!

...

In the earth, many places of interest and historical sites, which used to be nothing extraordinary, are now manifested magical powers!

In addition to these places, there are also some hidden ancient families, also forming their own faction, secretly contending with the creatures of other worlds!

Fang Yue's Anning County has also become a rare pure land!

It's not that people without the Dark Moon plane sent their ideas to Anning County.

However, this Anning County is calm on the surface, and for those who come to explore and invade the Dark Moon plane, it is not only a peerless magic kiln.

In just half a month, dozens of people from the Dark Moon plane have come to explore.

After they went deep into Anning County, it was as if they had evaporated from the world, with no return. From then on, there was no news.

This Anning County has also been temporarily listed as a forbidden place by the people of the Dark Moon plane!

During this period, it wasn't that there were no strong men in the Dark Moon plane to explore.

But all the people who came to the Dark Moon plane in Anning County were like sinking into the sea, without the slightest word of news. "The high-levels of the earth collectively decided to preserve their strength and retreat, exposing some historical sites to the invaders of the Dark Moon plane. If the guardians of those historical sites can passively participate in the battle! At the same time, this is also based on space. exchange

Time strategy! Let those people on the Dark Moon plane spread across the vast earth and finally break through one by one! "

Lin Keer is passing on the message of the higher earth to Fang Yue. "Why are you so familiar with this method? In the history of China, there has been such a case. Chairman Chiang adopted a similar strategy during the war against Japan. Although from the end point of view, Chairman Chiang failed, but it is undeniable. , This

The strategy has also achieved certain results, but the price paid is too great, and some of the gains outweigh the losses! "

Fang Yue is picking his teeth. His recent days on the earth have been very moist.

The outside world, no matter how **** it is.

He had a very comfortable life in Anning County, and those who dared to come to him to make troubles have disappeared!

This Anning County has been turned into a paradise by him!

"Fang Yue, are you not going to make a move? With the power in your hands, even if you can't repel the army on the Dark Moon plane, at least it is enough to protect one city after another!"

Lin Keer was encouraging Fang Yue.

In her opinion, Fang Yue now has too many levels beyond the heaven and earth realm! The army commanding the three thousand heavens and the earth realm is more elite than the army of the Dark Moon plane! Moreover, Fang Yue has been training these slaves from the world and the earth recently, combining battle formations, invincible power, and a random breath that can be split.

One side Amano! "It's not time yet! I'm also waiting for the people in the famous mountains and rivers to take action. Last time, I have watched the video of the old monk of Songshan that you showed me! This old monk, in terms of strength, definitely has the pinnacle of rotation. ! He has a strong bone and a thin body

, It's not that his essence and blood are exhausted, and his life will be exhausted. He is practicing an ancient Zen technique called "Withered Wood Zen", which restrains all the vitality of life. Once released, it will be like a landslide and tsunami, increasing his strength by at least ten times! "

Fang Yue still didn't want to be this early bird.

Although the battle for the past half month has been fierce.

But in fact, most of the people who died were people from small countries!

The real big country, organic armor, has the foundation, as a shock, even those strong in the Dark Moon plane dare not act rashly!

At Huaxia, the deaths and injuries amounted to several thousand at most, and some of them were trampled to death by compatriots when they were evacuated from the city!

The casualties of other countries have little to do with Fang Yue!

Fang Yue is not a big-minded person. He loves his motherland, but he doesn't love other people's country. "The latest news, Dongying, a ninja has taken action. A total of fifteen people have taken

action, and they have directly taken away a military camp on the dark moon plane. More than 500 soldiers on the dark moon plane have died in the tsunami! In the process of making the move, Someone saw Onmyoji's

shadow! They summoned the Shiki, and with the help of the Shiki, the fifteen Shishigami did not lose the slightest! "

Lin Keer once again reported the latest information she got!

"Xia Ren? Onmyoji..."

Dongying, as an ancient country, also has a profound background.

Ninja culture and Onmyoji are one of them!

A ninja apprentice is probably equivalent to a practitioner in the acquired realm.

Xia Ren is a practitioner of Xiantian and Heaven and Earth.

Zhongren represents the practitioners in the rotation and yin-yang realms.

Shangren is a practitioner of the realm through the earth and the sky!

However, in Dongying, it is said that there are only three Zhongren who can be confirmed, and they are all the people who began to practice in the era of the end of the law, and suddenly progressed in the era of spiritual energy recovery.

Onmyojis are quite mysterious. No one knows how many onmyojis exist in Dongying. As for the specific strength of onmyojis, it is even more a mystery. "The sun never sets the empire! They invited fifty iron-clad knights, turned them into a torrent of steel, and also took away a barracks of creatures on the dark moon plane. Because it was a raid, they had a lot of results. There are eight hundred strong men on the dark moon plane, whose

Thirty-six strong people in Zhongtiandijie! "The U.S. has just launched a biochemical battle, releasing 3,600 crawlers and airdropping them to the base of the dark moon plane. The specific casualties are unknown, but it is said that the fight was quite tragic! According to reliable sources, there are still three

Hundred Batman is ready to go! "In an inconspicuous pyramid in Egypt, five hundred mummies walked out of the surrounding area for fifty kilometers. The bandages of these mummies were like iron, and they were impenetrable. The four hundred dark moon plane patrols passing by around the pyramid were dragged.

Into the pyramid, life or death is uncertain! "

"In Northern Europe, there is a giant who is twenty feet tall and can manipulate thunder and lightning. The three giants killed the barracks on the plane of the dark moon. The coming was menacing and unstoppable!"

"..."

Suddenly, all the countries on the earth, as if they had negotiated for a long time, dealt with the people on the Dark Moon plane at the same time.

What they send out are all existence in myths and legends!

One by one, the unpredictable methods gave the army of the Dark Moon plane a surprise attack!

Swiftly.

Lin Ke'er's eyes were round. "Our country also has strong players! Dunhuang, Songshan, Tibet, and Longhushan all have advanced players who have launched a full counterattack against the army of the dark moon plane! In just 15 minutes, there are already more than 8,000 shadow positions. The face of the invaders have fallen, here

There is a video, Fang Yue, do you need to watch it? "

Lin Ke'er put her mobile phone in front of Fang Yue. When Fang Yue opened the video, it took only three minutes to see that there were an endless stream of masters in the earth, and the various methods were overwhelming.

Chapter 788: Surprise

Flying swords are densely packed, covering the sky, as if locusts are crossing the border, passing by.

In addition, there are Xingyiquan, Taijiquan, Baguazhang, and many ancient methods can be seen everywhere.

Each of the tricks reveals an ancient charm, which makes people feel dazed and seems to be attracted to another world.

All of these people seemed to have descended to the world of death, and they were ruthless and extremely decisive.

Those who descended from the Dark Moon plane were taken away as if they were cutting wheat. They were killed one crop after another, and eventually the blood became a river, staining the entire land! The floor of the debris and broken skeletons is like a shura field on earth.

No one can resist their footsteps.

Because the two sides are not on the same level.

This is a counterattack that has long been considered good, involving all the countries and forces on the earth.

Many people who participated in the counterattack did not exist in the present world, but walked out of the long river of history. What's more, they are suspected of being in myths and legends!

Fang Yue fixed his eyes.

He didn't understand the people of other countries, just the group of people killed by Huaxia, there were no less than a hundred powerful people in the rotation realm.

Their martial arts are advanced and skilled, and they are clearly martial artists who have been honed for many years, and they are not characters who have grown up in the era of rejuvenation of heaven and earth.

The content of the short three-minute video is quite shocking!

Fang Yue was a little bit stunned, but immediately, there was a clear taste in his expression.

This is consistent with his initial guess that the earth is not an existence that can be bullied by just a cat or dog. The water of the earth is deep, and there are ancient great mysteries in it.

These powerhouses, the gods blocking and killing the gods, and the Buddha blocking and killing the Buddha, all have an extremely long and ancient heritage.

Within a day, the situation on the entire earth suddenly reversed.

More than one hundred thousand strong men on the Dark Moon plane were smashed, and they were so beaten that they didn't even have the power to fight back!

After one night, Fang Yue clearly felt that the aura in the earth was a bit richer than before!

The will of the earth seems to be reviving violently, and there are miracles in the ancient ruins everywhere.

In Dunhuang, a scene of flying immortals took place.

Eight hundred phantoms of fairies walked out of the stone wall, dancing in the sky, graceful posture.

This scene lasted for half an hour, and everyone who saw this scene had a level of cultivation level unknowingly, and their martial arts became more exquisite!

On Mount Olympus in Greece, some people said that they saw the trace of the sun **** Apollo. A huge fireball, hundreds of meters long, rose directly from Mount Olympus, as if it had become the second sun on the earth.

After dozens of breaths, the fireball fell, burning to death nearly a thousand invaders on the Dark Moon plane.

They struggled in the flames, and fought hard, but the flames were present and could not be extinguished.

In the end, the invaders of nearly a thousand dark moon planes died in despair and fear.

They regretted when they were dying, and should not have come to this ancient and mysterious planet!

Egypt, a stone **** three fist in Cairo city inexplicably transformed into flesh and blood.

It was unstoppable, killing people like pulling weeds, killing hundreds of garrisons in Cairo City on the Dark Moon plane before returning to its original position and becoming the same as before!

Various visions have appeared one after another, some are to assist the growth of the earth people, and some are directly aimed at the invaders of the dark moon plane!

Those invaders of the Dark Moon plane are not afraid of this.

Instead, they invaded more quickly. Everywhere they passed, there was no grass, and even the little mice that didn't open their eyes would be thrown to death, not to mention the indigenous people on the earth!

They declared that this was a punishment for the resistance of the people on earth! If the people on earth dare to resist, they don't mind letting them all die!

Including Fang Yue's Anning County has also become a key target for Darkmoon Planars!

They kept garrisoning, and there were five thousand troops assembled, and they wanted to attack Anning County!

"I don't believe that this small county can also withstand our invasion!"

Ling Yuehou, a general of the Dark Moon plane, said in a low voice.

With thick eyebrows, sturdy limbs, and dark skin, he looks at first glance like a **** of war from a barbarian. He is the commander of the descendants of the dark moon plane nearby, a strong man in the rotation realm! In order to break through the limit of the earth's will, he used secret method to cut his own cultivation base and descended to the sixth level of the heaven and earth realm! Now, he has used himself to carry

The pill he was carrying restored the cultivation base to the first level of the rotation realm. Although he had not fully recovered to the peak combat power, he believed that with his own means, no one on earth could resist his means. !

"Is it?"

Fang Yue appeared, he was alone against Ling Yuehou and the five thousand army behind Ling Yuehou!

He came here for killing.

Not too many people were gathered.

It's just a group of practitioners from the heaven and earth realm and the innate realm. He comes out alone, that's enough!

"Boy, are you the one who secretly made trouble in Anning County?"

Ling Yuehou giggled and sneered, and casually tore a captive of the Earth he had just captured in the Innate Realm.

The earthling was torn apart by Ling Yuehou in the air, and blood was splashed all over the ground.

A few drops of blood fell on his lips, and he gently licked, revealing an expression of enjoyment. "Do you know why he died? It is because of you ignorant rebels! If you directly admit your fate and become slaves to my dark moon plane, although life will be a bit harder and you will not be free, but you will not be free. To die

The end of Dao Xiao! "

That Ling Yuehou Yangtian laughed wildly.

The previous calamity did not bring them too much pressure, but aroused the anger in their hearts.

This time, tens of millions of strong people came and hundreds of thousands died. It seems that the number is staggering, but the proportion is not large. It only hurts their skin and hair, and will not damage their bones! "Let the entire earth's people become slaves to your dark moon plane? This is what you said? The murderer is better than Zhu! Originally I wanted to imprint your soul as a slave and let you do it for the earth. Contribute to pay for your sins

However, it seems that there is no such need! "

Fang Yue shook his head slightly. Looking at Ling Yuehou even more annoyed: "Arrogant! You little native, how do you know that the sky is high and the earth is thick, the strong in my Dark Moon plane is like a forest, and there are countless people who can kill you just among those who descend! Today, I'll let you see how powerful it is! Wang Gan

, Beat the natives of this earth! But you have to be careful, don't be too vicious when you start! Don't take his life, stay, twitch his muscles, knock his bones, and torture slowly! "

Ling Yuehou ordered a young man at the fourth level of the heaven and earth realm behind him to take action. What an identity he is, it is not yet his turn for a small native of the earth to act personally.

"Subordinates, take orders!"

The young man named Wang Gan just walked out from behind Ling Yuehou.

Fang Yue smiled contemptuously: "You are worried that you can't understand my details, so do you send a subordinate to die?"

Wang Gan saw that Fang Yue didn't even look at himself, "Indigenous people of the earth, you are too arrogant! Your cultivation level is one level higher than mine, so dare you to speak such a wild word?"

Behind Wang Qian, a phantom of tiger and leopard emerged.

His muscles bulged and were as strong as a rock.

Step out, the earth shatters!

Wang Qian wanted to kill Fang Yue with the strongest posture, in order to behave like you.

But he hasn't shot yet. Fang Yue's eyes rolled over.

Wang Qian's eyes were furious, his canthus was cracking, the corners of his eyes were bleeding, and then his body stiffened. With a bang, he fell to the sky and passed out!

Subsequently, Wang Gan's body quickly weathered and became a pile of bones.

There is a layer of crumpled skin covering it, like an old man who has been dead for thousands of years.

This scene is extremely shocking.

A strong man on the fourth level of the world was stared alive!

This is beyond people's understanding. Even if Fang Yue waved and slapped Wang Gan to death, no one would feel weird.

Although leapfrog killing is rare, there are many precedents after all.

But Fang Yue, with just two eyes, stared alive at the fourth level of the heaven and earth realm! Is this the coming of the devil, or the reappearance of the death in hell?

"Who is next? I'll wait for your appointment!"

Fang Yue did not act vigorously, killing all the descendants of the Dark Moon plane! He is going to kill these people with cold, heartbroken, heartbroken despair!

Kill them on the earth, dare not be mad again!

"who is the next?"

Ling Yuehou's pupils suddenly condensed, and immediately, as thin as a needle.

He also saw the scene just now.

So weird, so oozing!

Originally, he did not intend to test Fang Yue when he sent Wang Gan to take action, but now he has it!

This Fang Yue's methods are weird, and he is unwilling to take risks.

"Li Jun, you go!"

Ling Yuehou once again appointed a subordinate of the fifth layer of the world realm!

"Here!"

Li Jun just responded, he hadn't left the queue yet, he fell on his back.

There are still two cold eyes!

After falling down, his body was decayed, skinny, and the essence of life disappeared.

"Who else?"

On the empty battlefield, only Fang Yue's voice remained.

His methods are weird, staring at everyone!

A strong man on the fourth floor of the heaven and earth realm died.

After that, the strong man on the fifth step of the world realm followed in his footsteps!

The other people's hearts are all beating the drums, lest Ling Yuehou may click their name!

"Don't be afraid, I have seen his routine clearly! His secret technique is practiced on the eyes, as long as you close your eyes and don't look at him, you can make his secret technique invalid!"

Ling Yuehou seemed to have discovered the New World.

He said to his men very excitedly.

"Zhao Kuo, come here!"

Ling Yuehou said decisively, but he was still not very sure about his inference.

Once the inference is wrong, it is likely to have to pay the price of life!

The soldier named Zhao Kuo hesitated, he didn't believe Ling Yuehou's speculation very much either.

"Zhao Kuo, get out! Defeating the military order, impinge upon the Nine Clan! Do you want your wife and children to be buried with you?"

Zhao Kuo closed his eyes and walked out. Before he could make a move, he was nailed to the ground by a spear of bones!

His heart was pierced by a bone spear, and blood was gushing, gurgling.

This spear was pierced by Fang Yue's summoning.

"You're not my opponent with your eyes open. When you close your eyes, did you come here to die?"

Fang Yue's murderous intent was awe-inspiring, and a spear nailed a master of the sixth level of the world realm to death!

Ling Yuehou's heart twitched slightly, and he suddenly realized that his guess might be correct, but if they close their eyes, their combat power will drop sharply, and perhaps they are really not Fang Yue's opponent!

"Set up the battle formation, kill me!" Ling Yuehou no longer cared about the face of the Dark Moon plane. On the battlefield, the winner is the king and the loser. What is the truth?

Chapter 789: One enemy five thousand

The battle formations are condensed!

These people on the Dark Moon plane are in groups of six. These are the lowest-end battle formations, but they are quick and effective.

The aura of each battle formation is rising steadily, and in an instant it has reached the sixth and seventh level of the heaven and earth realm! Individual battle formations have very strong members. As soon as the battle formation emerges from the eighth floor of the world, the breath of the ninth floor appears one after another!

"Snowflakes battle formation, strangle the enemy for me!"

Ling Yuehou roared, a flush of excitement faintly revealed on his face.

Destroyed one by one, his subordinates were indeed not Fang Yue's opponents, but he condensed the war, strangling one after another, watching what other methods Fang Yue could display!

Even if Fang Yue can break through one or two wars, he will die even if he is employed!

Fang Yue opened his eyelids slightly.

"Do you bully less with more?"

Another beam of gaze fell, and then thousands of pairs of eyes appeared on the entire battlefield.

These eyes are everywhere, and closing your eyes will not help.

These eyes are like a nightmare in their hearts, no matter who they are, they only need to be caught by those eyes. It will be confused and fall to the ground!

The darkness fell.

The entire battlefield seemed to be under a long and endless night.

"Ah! Don't!"

"I'm still young and don't want to die!"

Some strong willpower on the Dark Moon plane are still struggling, but most of them are already like dumplings, puffing, puffing, falling to the ground, limbs numb, and convulsions.

The essence of life in their bodies passed towards Fang Yue.

A little bit was picked up, and finally all emptied.

In Fang Yue's body, the essence and qi surge, blood surging, like an immortal **** of war.

Although the life essence in the practitioners of the Xiantian and Heaven and Earth realms is not abundant, they can't hold up too many of them, and they are also filling the gaps in Fang Yue's golden core.

However, the golden core in Fang Yue's body is unparalleled in ancient times, and it is too shocking and terrifying to frame the cycle of life and death.

No matter how much life essence is injected into it, it is not enough to fill it completely.

After a few breaths, all the vital energy is absorbed, and there is no water left!

The entire battlefield, in a flash, was nothing but bones.

Only Fang Yue and Ling Yuehou stood opposite each other.

"Is this your hole card? It doesn't seem to be the case! I said that if you want to kill you, you won't let it go!"

Fang Yue said slowly.

Ling Yuehou felt bitter at the corners of her mouth and her body was weak.

It's all dead!

The men and horses he brought out from the Dark Moon plane are dead!

With one enemy to five thousand people, the final outcome will turn out to be like this!

"Fang Yue, if you are acting like this and devouring the essence of life, aren't you afraid of thunder and lightning?"

Ling Yuehou yelled at Fang Yue angrily.

There was grief and anger in the voice. Some of the people killed by Fang Yue were his colleagues, and some were his disciples!

Their laughter and their faces are still faintly visible, never dissipated!

However, they left themselves forever.

Plunge into the darkness of endless death and never return!

In his eyes, Fang Yue is a ruthless devil, devouring lives, ruthless and indifferent!

"When you killed the people on earth, have you ever thought that they also have close relatives and friends, and use Tongze! The killers always kill them. I think you are reckless and ruthless when you kill, but now you remember to blame me!"

Fang Yue sneered.

He is not afraid of being struck by lightning, and if he doesn't kill, he won't be struck by lightning?
joke!

Now he still owes me how many tribulations!

Forty Nine Tribulations, Thunder Fire Tribulation, Zhuxian Tribulation, Universe Chaos Tribulation!

These calamities have really fallen, and the calamity caused by the so-called murder is trivial!

Ling Yuehou understood that he would die today. Even if Fang Yue didn't kill him, all the men and horses he brought out would die, and the people on the Dark Moon plane could not spare them!

"Fang Yue, do you know why we descended on this planet!"

Ling Yuehou looked at Fang Yue, there was no fear in his eyes, the big deal was death.

He is ready to die, so what to fear!

"do not know!"

Fang Yue shook his head with an honest expression.

"We are here to resurrect the ancestors who died on the earth 30,000 years ago! This was an ancient battlefield, where endless powerhouses were buried! As long as our ancestors come back to life again! My dark moon plane It will prosper and rise again!

At that time, all of you who were contaminated with the blood of the warriors on the Dark Moon plane will all be liquidated and killed one by one! Hahaha! "

Ling Yuehou was a little crazy, he laughed wildly at Tian nine times.

Afterwards, he blew himself up and wanted to kill Fang Yue by the last resort.

It's a pity that Fang Yue had expected it long ago and retreated.

A hill died with Ling Yuehou.

The turbulent times pierce through the sky, the scene is terrifying.

Fang Yue stood unscathed in the dust and smoke, thinking about all this silently.

"Jun Hun!"

Fang Yue stretched out a hand and exploded that physical body, and Ling Yuehou's soul, who was about to reincarnate, was intercepted in the void!

Fang Yue was not polite, and directly searched out the information in Ling Yuehou's soul. After that, he rubbed his palm to refine the soul into five drops of three-revolution soul liquid.

The confidence in Ling Yuehou's soul was terrifying.

The earth was at its peak 100,000 years ago, with a surface area of at least hundreds of thousands of times as large as it is now. The space is folded, and there are many powerful people everywhere!

However, 100,000 years ago, a terrible catastrophe swept across the entire earth, and those folding spaces were either shattered by life or closed the passage.

From then on, the earth was only the area it is now, and the spiritual energy in it became thinner and thinner, and finally reached the lowest point in history at the end of the Qing Dynasty, casting the Age of Doom.

The ancestors of the Dark Moon plane had also seen that catastrophe.

Dozens of saints came out to join the war! Under their command, there are hundreds of master-level powerhouses, nearly 10,000! The powerhouses on the Dark Moon plane had also worried about the issue of falling before they set out, so each of them left behind a wisp of soul, condensed into the soul orb supreme treasure, as long as the soul orb can be combined with the remnant body. Can make them die

resurrection.

It is a pity that the war that year was extremely fierce, and in the end not only the earth was beaten to pieces, but the plane channel between the earth and the world was also closed!

Until recently, the aura of the earth was revived, and its channels with different worlds opened.

The talents of the Dark Moon plane descended violently.

As for the so-called colony, it is just a cover!

If it is for a colony, the Dark Moon plane has several options besides the earth, and there is no need to pay such a big price!

moment.

A jeep came.

Behind Fang Yue, the jeep stopped.

A young man in a light green military uniform walked down, with a faint smell of blood on his body. On his shoulders, he carried the rank of major general!

After the young man got out of the car, the Jeep's co-driver and the driver got out of the car at the same time.

They are all dressed in full armor, and their faces are quite serious.

"Fang Yue?"

The young man raised his eyebrows slightly. In the information he had, there was no such a strong one!

"Ah you are?"

Fang Yue turned around and looked at the young man. He felt that the other side's body was surrounded by a murderous atmosphere, but there was no malice against him.

"Major General Huaxia, Qingsong!"

The young man introduced himself very casually.

After Qing Song introduced himself, he revealed a faint coercion belonging to practitioners at the rotation level. This was not to warn Fang Yue, but to show that he was qualified to talk to Fang Yue!

He had already seen Fang Yue's encounter with the enemy in satellite surveillance.

With one enemy, five thousand people were killed in just ten minutes, unscathed!

This puts a lot of pressure on Qingsong, to be precise!

Such a strong person, if in terms of pure combat power, his attainments exceed the level of the rotation realm, and even the power of the legendary Yin-Yang realm, I am afraid that there is not much difference!

Killing eyes, countless eyes, all over the battlefield.

This is beyond his scope of cognition!

"Fang Yue, the third level of the Heaven and Earth Realm, an unknown soldier from China!"

Fang Yue smiled and let the other party gradually relax.

To be honest, he still has considerable respect for the soldiers of China.

China, before the world has changed, is the most stable country in the world, there is no one!

The most important credit among them should be attributed to these passionate men who defended their homes and the country!

Even in the era of aura recovery, they are already the main force to protect the peace of China.

Among the many countries on the earth, during the invasion of the dark moon plane powerhouse, the population loss was the least. A large part of the reason should also be attributed to the Chinese military!

As a descendant of Yan Huang, Fang Yue's body was filled with the blood of China!

Therefore, his belonging to Huaxia made him feel good about Huaxia soldiers!

"Nobody?!"

Hearing Fang Yue's introduction, Qingsong was a little bit dumbfounded!

Divided by combat power, Fang Yue is definitely the top group among the powerhouses in China!

But speaking of fame, this nameless description is really not too wrong.

Before Fang Yue started this time, he had never heard of Fang Yue's character.

Even the collection of his information is extremely plain, and no problems can be seen! "Now I am an unknown soldier. After this battle, I am afraid that I will stun the north and the south! With one person's power, slay the five thousand strong people on the Dark Moon plane, and one of them has returned to the level of the rotation state! This Dark Moon plane People are afraid to want you

Seen as a thorn in the eye, pierced in the flesh! "

Qing Song sighed.

This reputation is actually not a good thing. Huaxia, there is an old saying that people are afraid of being famous, and pigs are afraid of being strong!

As long as this person has fame and troubles, problems will naturally follow!

"This reputation is a burden to me, but it is also a shock to the Dark Moon plane! If you die for the country, you will die well! What's more, those on the Dark Moon plane, I am afraid they can't kill me!"

Fang Yue's tone was plain.

Before this shot, he was mentally prepared!

The advent and ravages of the army of the Dark Moon plane have exceeded his expectations.

Originally, he wanted to lie dormant for a while and enjoy the peaceful life of a normal person, but now, all his plans have been disrupted!

"Are you willing to play for China?"

Qing Song's eyes lit up. There is no shortage of masters in China, it is indeed good! In the deep mountains and old forests, in historical sites, in temples and Taoist temples, there are many people who have been practicing since the age of spiritual energy has not yet recovered!

Chapter 790: Voting rights

In the age when the spiritual energy has not yet recovered, many of them have cultivated to the innate level, and even stepped into the threshold of the world!

The aura has just recovered, and all of their accumulated heritage burst out in an instant, and a group of extremely powerful masters immediately appeared, among them there is even no shortage of rotation!

However, some of these people have weird tempers and some are bound by rules, and most of them are unable to serve the Chinese military!

When he came, he didn't hold much hope that he could win Fang Yue.

It would be good if Fang Yue can remain neutral in Qing Song's heart!

However, unexpectedly, this Fang Yue was actually patriotic!

Seeing Qingsong's surprised expression, Fang Yue understood that Qingsong might have understood it wrong! So he explained: "I share my worries for China, but I don't necessarily join the military! I respect the soldiers very much, but I am also free and unrestrained. I am used to being free and sometimes restrained. I am afraid that I will be a little uncomfortable! means,

If China needs it, I will help the country if possible! "

Fang Yue said this.

The light in Qing Song's eyes was a bit dim immediately.

Taking action for the country is much less helpful to them than joining the military!

However, this is fine, with Fang Yue's strength, even if he joins the military, I am afraid that ordinary people cannot suppress it!

As a foreign aid, he helped the military solve some of the more threatening descendants. This is already a great boon for China!

"Fang Yue, your identity will be different from now on!"

"Is the identity different?" Fang Yue looked at Qingsong in confusion. Although his strength was quite amazing, the military couldn't directly give himself a high identity.

According to Fang Yue's estimation, putting himself on the rank of lieutenant would be the best!

In the army, no merit is not rewarded!

It is really difficult to reach the sky in one step! "On this earth, there was a parliamentary system a long time ago, but any major problem decision needs to be resolved by the parliamentary system! Every country, every big power and organization comparable to the United States , And even the heads of large companies, will get a certain amount of voting rights based on the strength of their own power! For example, Lin Keer, who lives in the courtyard, has now mastered the Lin Group behind her and once again became a The real nameless man at the helm, according to the international assessment of the Lin Group, she has the right to three votes in her hands! In addition, every strong person who transcends

the world will have the right to vote. The third floor is one ticket, and the fourth to sixth floors are two tickets

, From the seventh to the ninth floor, there are three chapters! If you can reach the level of rotation, even the first level, there will be ten tickets! "

Qing Song's expression gradually became solemn!

This voting right is too important! Some decisions are likely to affect the fate of the entire planet.

And the number of votes in a country's hands also determines the amount of resources in their hands!

"This ticket is very important?"

Fang Yue blinked. He looked at Qing Song's serious expression and couldn't help but realize that he seemed to have overlooked something! "Yes, it's very important! Like Anning County, which is part of HB Province! This Anning County has to make a strategic sacrifice or be preserved by the military, and it also needs to be voted! There are probably only a few forces that have voting rights in HB Province. There are ten strong people above the level of heaven and earth, and there are about hundreds of people! Among them, the vast majority of them have nothing to do with themselves and choose to abandon the right to vote. In the end, only a few dozen votes will take effect. It is decided that Anning County is Keep or give up! This time you

The six tickets in the hands of Lin Keer will play a decisive role! "

When Qing Song said this, Fang Yue immediately understood the value of his vote.

This is the supreme right to truly control the destiny of mankind. With one vote, his choice may affect the future destiny of the entire mankind! "This is a 3D medal! Through this medal, you can connect to a virtual world! In that virtual world, there are good things you unexpectedly can buy and sell freely! At the same time, you can also pass through this virtual world , Into

Vote. The future that changes the destiny of mankind! "

Qing Song handed a 3D medal to Fang Yue.

This medal is entirely black, only the size of a baby's fist, and looks flat.

Qing Song branded Fang Yue's pupils, fingerprints, and soul breath to prevent others from using them fraudulently.

After Fang Yue got the 3D medal.

Be reminded immediately.

"Your account balance is 0 coins and 887 fixed votes!"

"Fixed votes? 0 coins? What are these?"

Fang Yue is a complete noob in this respect.

This is a level that ordinary people simply cannot touch. "Coin, it is the cosmic coin! This is the currency of the entire universe, at least on the planes near the earth! A cosmic coin is worth about three low-

grade spirit stones! You can exchange and trade with the help of medals! As for the fixed vote, you After making meritorious service, many votes were obtained. Many of them were able to make major inventions and discoveries that changed the destiny of mankind for the earth. They killed invaders in other worlds, Xiantian, and they all killed five people and got one vote. , Heaven and Earth Realm, kill the first to third layers of the Heaven and Earth Realm, get one vote, get two votes for those on the fourth to sixth floors, get three votes for those on the seventh to ninth floors, and get the first place in Rotating Realm. Level, get ten votes! Before you, you killed so many strong men on the dark moon plane, get

887 votes are normal!

However, these tickets can only be used once! Unlike votes brought by identity, every meeting will be automatically generated! "

Fang Yue understood the meaning.

In addition to identity, this vote can also be obtained for making a significant contribution to mankind!

Fang Yue nodded...this thing is quite interesting!

During the conversation, Fang Yue had already searched the corpses of these Dark Moon Plane Descendants, and all the harvest had been put into a storage bag and given to Fang Yue.

These descendants of the Dark Moon plane are not wealthy.

This gain is not as good as Fang Yue robbing and killing a disciple in the Xuanhuang world rotation realm in the dark trial!

However, no matter how small the mosquito's legs are, it is meat.

Fang Yue would not dislike this little gain.

Qingsong looked at Fang Yue blankly, and stopped talking.

Fang Yue immediately understood what Qingsong meant!

He wants his trophies, especially the resources related to spiritual practice!

Although the military has gained a lot in the wars, it is a big family with a lot of wolves and less meat!

In the military, there are many people with a talent for spiritual practice.

But there are very few who can really get enough resources to train.

Fang Yue hesitated for a moment, and then took out another storage bag.

"There are one hundred thousand low-grade spirit stones in it, which is my little care!"

Qing Song took the Lingshi in his hand, and felt a little loose in his heart, and the food and payment for next month was settled again.

One hundred thousand spiritual stones are not much for practitioners like Fang Yue.

But for those soldiers and officers at the bottom, it is the hope of a breakthrough! "One hundred thousand spirit stones! How many soldiers at the bottom can benefit, how many soldiers trapped in the pinnacle of the acquired realm, can use these spirit stones to break through! Fang Yue, I represent the military, thank you for your help! If you are in the future What is needed

If I help, I will die! "

Qing Song said with excitement to Yue.

Fang Yue nodded, everything was light and windy.

It's not that he doesn't want to give China's military more spirit stone resources, but because if he uses too many resources, it will definitely be very eye-catching, and people will doubt whether he has more resources in his hands!

He killed so many strong men on the Dark Moon plane, and he might not be too eye-catching.

But he has extremely rich wealth, but it will make some greedy people covet it!

Fang Yue hopes that China will be stable, but he also hopes that he can have a more peaceful life.

Under the balance, one hundred thousand spiritual stones is an appropriate number, which will not let people take risks because of greed, and it can also allow the soldiers of the Chinese military to benefit from this breakthrough!

Qing Song left. As a major general, as a strong man in the rotation realm, he shouldered a heavy responsibility. Since Fang Yue did not rebel, he should also leave and settle other things!

Fang Yue turned his back to the corpses and returned home.

the same day.

Another message broke out.

Hua Xia, a middle-aged man with a scar face, carrying a hammer on his back, smashed the void, and with one blow, three thousand Darkmoon warriors were shaken to death. He became famous in World War I. Blood stained the earth, which greatly affected the army Shock, postpone the expedition to China!

China, the dragon is noisy, and talented people come forth in large numbers!

After Fang Yue saw the news, he was very pleased and began to study the 3D medal in his hand.

The medal, after confirming Fang Yue's identity, directly brought Fang Yue's consciousness into an ancient palace.

In terms of decoration, this ancient palace looks like a western church.

Among them, there is a constant flow of people!

"Welcome to Room K1129 under the Virtual World Company. Entering the room this time will consume 10 Universe Coins! Because your account balance is insufficient, it is recommended that you recharge in time, otherwise you will not be able to enter the room!"

A clear female voice came.

Jiao Didi's voice is quite pleasant.

"Do you still need 10 universe coins to enter the room?"

Fang Yue was taken aback for a moment, and immediately took out three hundred Lingshi.

"Give me all of them to become universe coins!"

"Dip! The exchange is complete, 300 lower-grade spirit stones, standard volume, exchange for 100 universe coins."

"After deducting 10 universe coins, the virtual environment is in progress..."

"Processing current data..."

"Enter room K1129 in 3 seconds."

"The room is constructed, enter the room."

At this time, Fang Yue really entered the room, instead of merely seeing and not being able to move.

The room is very large, it is said to be a room, but in terms of area, it is at least 700 to 800 mu.

The walls and roof of the room are inlaid with night pearls the size of a goose egg.

These night pearls exude a faint light.

Let the entire church be white, with gentle light and not dazzling.

"Yeah, there is another newcomer?"

Fang Yue has not yet fully adapted to the environment and atmosphere in this room.

I heard a voice that was not very kind.

"Kaled, this is my new little brother on earth! Don't use your face to provoke others, otherwise, don't blame me for being polite!" "Wang Siyu, why are you polite? Your earth is even a first-class civilization. It's not a small planet. Don't think that if you get a few spirit stones, you can compete with our Alpha civilization! Tell you, based on your background and technological strength,

It's too far! "

The quarrel between the two was heard, and Fang Yue saw the real appearance of the two.

This Wang Siyu is a typical Chinese face, Mongolian yellow race. Carlisle is a lion head. Although he has a human body and limbs, he still has a long tail behind his ass. The head of the lion is very eye-catching, and the brown eyes are full of naked greed and the smell of predation.
