

God of Life 791

Chapter 791: I am not interested in men

"Hey, new here! If you want to get a foothold in this room K1129, you must pay me a protection fee of 50 stars! Otherwise, you will roll back to the wild land before you!"

Kalide straightened a wide palm and patted it directly on Fang Yue's shoulder!

Fang Yue found that in this virtual room, his physical body and cultivation base were no different from the real world.

Even including that Kaled patted his shoulder, there was a slight pressure.

Of course, this pressure is just a little bit!

After all, Khaled is also the cultivation base of the fifth layer of the Heaven and Earth Realm, and it is still a very ordinary one!

"Kaled, you can't do this..."

Wang Siyu wanted to stop, but his cultivation was even weaker than Kaled by a level!

And Fang Yue was even higher than Wang Siyu's realm.

Wang Siyu looked at Fang Yue and couldn't help but complain.

"Your guide hasn't told you that you shouldn't enter this virtual room unless you reach the fifth level of the world realm?"

"Normally, another 10 universe coins are wasted! That's 30 low-grade spirit stones! How many innate warriors can be created with 30 low-grade spirit stones?"

Wang Siyu complained because of Fang Yue's recklessness.

"Remind? Hey, no need!"

Fang Yue thought of Qing Song, and he understood that it was not Qing Song deliberately embarrassing himself, but that all of this was unnecessary.

With his strength, almost no one at the Heaven and Earth level is his opponent, even if it is in the Rotation Realm, the slightly ordinary ones are nothing but death!

"Remove your dirty hands! I am not interested in men!"

Fang Yue's attitude became cold and stiff!

Kalide couldn't help frowning.

A chick who was new to the virtual room dared to talk to him like this.

Doesn't he know that in this virtual aspect, everyone will have the same means as in the real world?

Kaled did not remove his palm, but snapped his fingers tighter!

This virtual world cannot kill people, but the pain is exactly the same as the real world!

He can't kill this Fang Yue, and it is not a problem to make him suffer often!

"Kaled, don't go too far, otherwise, the powerhouse of our earth line will not let you go!"

"Haha, the declining earth line will not let me go? I want to see how you won't let me go!"

Kaled's smile is more open and wild, and his fingertips are more powerful.

He wanted to smash Fang Yue's shoulder to show his authority.

However, no matter how hard his fingers were, they couldn't shake Fang Yue's shoulder half a point!

"Enough playing?"

Fang Yue looked at the lion man with cold eyes!

Called and Fang Yue's eyes met.

Suddenly his body trembled involuntarily!

Fang Yue's voice, like thunder, exploded in his ears.

This voice seems to be the judgment of heaven!

"You, what do you want to do?"

Kaled stepped back involuntarily, he stared at Fang Yue with wide eyes.

"Nothing! I just hate people touching my body, of course, I don't mind beautiful women! As for men, everyone who has touched me is dead!"

Fang Yue's tone suddenly became sharp.

He flashed down with a slap, and slapped Kaled by feet!

Kaled's head touched the wall, and there was a bang, blood bursting.

In terms of setting, the walls of this room are extremely strong!

Even the head hardness of a master of heaven and earth is far less solid than this wall.

The fear in Kaled's heart is even greater!

This Fang Yue's strength far exceeds his imagination!

Pooh!

Kaled spat out two broken teeth.

The tooth was bloody, and when Kaled looked at the tooth, the anger in his heart suddenly burned.

A native of a small earth, dare to be so presumptuous?

"Kalan, Odys, come here! I have a hard stubble here!"

Kaled called friends.

This room K1129, he is not alone in the fight!

Lion heads occupy 30% of the total in this room.

Karan and Odys are two of his best!

Karan, but the powerhouse of the eighth layer of the world realm!

Although Odys is slightly weaker and only has the sixth level of the Heaven and Earth Realm, he has his own unique experience in battle.

A slightly careless, even a master of the ninth level of the heaven and earth realm would be planted in his hands.

However, Nakaran and Odys did not appear!

Kaled's eyes widened and looked again.

Karan and Odys were stopped by one person!

Qing Song, wearing a loose white robe, stood in front of the two as if strolling in the garden.

The breath of the rotation realm fell, so that both Karan and Odys were born with great fear!

"It's okay to fight alone! How come it becomes a group fight if you can't fight alone?"

Qing Song looked at Karan and Odys with a smile.

As a strong person in the rotation realm, if he rashly shots at these two people, he is likely to lose the reputation of bullying.

Other lion heads will also take action because of this and target him.

But if it is simply blocking, other Lionheads will not bother to care!

"This....."

Kaled could not help being shocked when he saw this scene.

What exactly is Fang Yue's background? Even Qing Song has shot it!

Qing Song, although a high-ranking general among the people on earth, most of the time is a hand-in-hand shopkeeper, anyway, no life can be lost in this virtual room.

If the people on earth suffer a bit of surrender, they can become a driving force and let them practice hard!

Since he entered this virtual room a year ago, he has never acted because of anyone.

However, this time, Qing Song actually fought to protect this kid.

Personally intercepting the powerhouses of their Lion Clan, there must be no small tricks in this.

But how did Kaled know.

Qing Song's action was not to protect Fang Yue, his real purpose was to protect the Lion Race.

In Qing Song's mind, Fang Yue had a serious killing intention.

Especially before, he used the power of one person to match the powerhouse of the five thousand dark moon planes.

This is evident.

If Fang Yue is allowed to take action, I am afraid that 80% of the Lion Clan in this room will not survive!

Although this will relieve the qi, it is not conducive to the implementation of the strategy of keeping a low profile for the earth's people.

Therefore, Qing Song stopped Karan and Odys, and allowed the conflict to be limited to Fang Yue and Kaled.

Fang Yue walked past Kaled expressionlessly, it seemed that he had completely ignored Kaled!

This murder is not the greatest humiliation, but ignorance is the greatest contempt!

As a strong man who came out of the Alpha civilization of the first-class civilization, Khaled has never been so humiliated by the influential humans of the earth civilization.

"Fang Yue, I'm fighting with you!"

Kaled rushed behind Fang Yue, waved his fist, and fist blew towards Fang Yue.

Before his fist reached Fang Yue's side, his body had already begun to vanish!

Starting from the fist, then the arms, chest, head, and feet, all turned into black particles and dissipated in the air. Finally disappeared.

Annihilation!

Complete annihilation!

This scene.

Reflected in the entire room, a pair of pairs or leisurely, or leisurely, or nervous, or indifferent eyes all noticed that Fang Yue is here!

It's not difficult to kill a Lion Clan on the fifth floor of the Heaven and Earth Realm!

Many of you here can do this easily.

But like Fang Yue, he wanted to annihilate a lion-man tribe village in the world and erase all traces in the world.

This is not something ordinary people can do!

Even the strong in the rotation world can do nothing!

"The strong! A strong who has at least reached the rotation level!"

The same voice rang in the hearts of many people.

Room K1129 is not a high-end room.

About 70% of them are practitioners of the heaven and earth realm, and the rotation realm has already entered the forest of the strong!

And Fang Yue's methods have definitely reached the level of rotation!

Many people's eyes turned to Fang Yue's eyes again.

no way.

Rotational realm, even if you look at the entire ten thousand realms, belong to the ranks of the strong!

Anyone who takes refuge in a first-class civilization will be named a guest of honor!

Especially Fang Yue, a genius whose realm is still in the third level of the heaven and earth realm, but whose combat power has reached the rotation realm level, is even more welcomed by many big forces!

Low realm, strong strength. It represents endless potential!

The heaven and earth realm has this kind of combat power, so what about the rotation realm, and even the higher level of Yin and Yang realm?

"It's really a young hero! Under Drucker, I will toast you on behalf of the Martian civilization!"

A seemingly mad man walked in front of Fang Yue, his appearance and figure were quite similar to those of an earthling. However, on his forehead, there is a purple mark of a six-pointed star.

Condensing the free elements between heaven and earth all the time!

"Martian civilization? Are there real creatures on Mars?"

Fang Yue couldn't help being stunned when he heard this.

This is an astronomical problem that has plagued the earth for decades! "Yes, Martians do exist! It's just that they usually live under the surface of Mars, not on the surface! The Martian civilization is older and longer than the earth civilization! Now it is the pinnacle of the first-class civilization. I am afraid it will not take a hundred years, Mars

Civilization can be promoted to the second level civilization! "

The man carefully introduced the Martian civilization to Fang Yue.

Earth and Mars can be regarded as twin planets in a sense.

The positions of the two are similar, and the biological appearance and genes are somewhat coincident!

Therefore, the Martians still have a good impression of the people on Earth!

Of course, it's just a good impression!

If the Martians were to do something for the people on earth, it would be impossible!

"Come on, I toast you!"

Fang Yue is not an arrogant person either.

He naturally understands the significance of this Mars to the earth. If he really asks for help, Mars is probably the best reinforcement position on the earth. If the earth is willing to pay some price, it is not impossible for the Martians to help.

Fang Yue Drucker talked very happily.

The eyes of the others gradually moved away from Fang Yue.

Surprised, just an instant!

In this room, although there are not many strong players in the rotation realm, it is not worth their excessive attention!

"Brother Drucker! I don't know how this civilization level is classified!"

During the conversation, Fang Yue discovered that this Drucker was knowledgeable and powerful, and should be a real power in Mars! His cultivation realm has reached the third level of the rotation realm, even if he is placed in the Martian civilization, he can still speak.

Chapter 792: Civilization division

"There are many different types of civilization levels. But most of them are divided by strength! In a civilization, if there are more than one million masters in the world, or more than 10,000 at the rotation level, they can be listed after verifying their identity. To level one

The ranks of civilization! Below the realm of heaven and earth, even the power of heaven and earth has not been comprehended. Such people are simply included in the system of cosmic citizens! And if in a civilization, there are more than one hundred million masters in the heaven and earth realm, more than one million strong in the rotation realm, and ten thousand strong in the Yin-Yang realm, and there is a sage-level strong in charge, it can be regarded as a secondary civilization! Secondary civilization in the universe

It can be regarded as a not weak existence! Of course, it's just not weak! "

When Drucker said this, the corners of his mouth could not help but a faint bitter smile appeared.

The second-level civilization they dream of is actually nothing if you look at the entire universe!

But even so, this second-level civilization was achieved after decades of hard work! "Among them, if a planet reaches the first level civilization, it has the right to apply for the protection of the Space Guard,

and its sovereignty is not invaded! In the second level civilization, if someone wants to launch a civilization war, they must be notified ten years in advance before they can actually do it! can

It can be said that reaching the first level of civilization can barely have the guarantee of a foothold in the universe! Stepping into the second-level civilization can truly have inviolable capital in the universe!
"

Drucker suddenly stopped talking.

A pair of eyes looked at Fang Yue.

"The earth today has not even reached the first level of civilization. I am afraid that in the eyes of other cosmic civilizations, it is a piece of fat, a lamb to be slaughtered?"

Fang Yue said this. Drucker nodded slightly: "That's it! The earth's spiritual energy is revived, and no one knows what level it will eventually reach! Many civilizations have already watched the fat of the earth! Today, the situation of the earth is not bad, really When it is bad, it is the earth's will that is completely released, allowing the strong of the rotation realm to enter! The world realm, relying on various resources and elixir, can be piled up in a short time! But the rotation realm requires the understanding of the law and Taoism to step on Enter! Want to cultivate and

It's not that simple! So, I hope you can join my Martian civilization system! I can't guarantee anything else, we can guarantee your absolute safety before you officially reach the level of rotation! "

"Leave the earth and join the Martian civilization?"

Fang Yue was taken aback, he didn't expect this Drucker to be so blunt and open his mouth! "Yes, leave the earth and join the Martian civilization! On the earth, although there are still some cards that have never appeared, it is impossible to keep it intact in the face of the aggressiveness of many civilizations! Join Mars, this is your best choice! Nest of

Next, if there are no eggs, the earth will only be your grave! "

Drucker obviously valued Fang Yue very much, otherwise, in his capacity, he would not speak personally to dig people.

"This...Thank you for your kindness! I will not leave the earth. I am born a human being on the earth, and die a ghost of the earth! In my life, the most despised person is a traitor! And I will never become a traitor to the earth of!"

Fang Yue's words are firm!

Drucker didn't say much, but looked at Fang Yue with a pity. "Young man, after all, it is too impulsive! In front of life, what glory, what hometown, all are fake! One day, you will regret it! I am waiting for you in this room, when did you figure it out? You can find me anytime

! I just hope that it will not come too late that day! "

After Drucker finished speaking, he turned and left.

Fang Yue really made him love talent.

But this kind of genius is not unique!

Too much time wasted on Fang Yue, for him, it is obviously not worth it!

Fang Yue had a few more conversations with Qing Song, and then walked around in the virtual room a few times.

In this virtual room, all kinds of magical weapons, elixir, and even high-tech martial arts are of great value! For the people on earth, it is indeed a rare treasure!

However, Fang Yue's vision was even higher.

In Vientiane Pavilion, things are more, more comprehensive and cheaper!

Therefore, Fang Yue just turned around and then left.

Return to the real world.

Fang Yue has vaguely understood the plight of the earth today!

Without a first-class civilization, the earth is a piece of fat that can be slaughtered!

But a million worlds, 10,000 rounds!

Earth, where are so many masters!

On today's earth, the number of heaven and earth realm can exceed one thousand, which is very good!

As for the rotation, there are at most dozens!

"Why, you are troubled by the current situation of the earth?"

I don't know when, Barron appeared beside Fang Yue.

During this time, Barron was always in a deep sleep state and rarely appeared.

He occasionally showed up, and he was also asking Fang Yue for resources for his practice.

Now, Barron's cultivation realm has been restored to the Yin Yang realm! Although it is far from the deity, there is still an unreachable distance!

But at the very least, he can be regarded as one of the strongest on earth.

Fang Yue glanced at Barron.

"You are so knowledgeable, don't you know if you have any ideas?"

Barron pondered for a moment.

"There is no way to improve this civilization!" "There are many precious medicinal liquids in the universe that can make the heaven and earth realm but the powerhouse of the rotation realm quick! However, those medicinal liquids are nearly sky-high, shaping one or two. A strong person in the world, the world of rotation, you can afford it, but the world is a million

, 10,000 rounds, still too difficult! "

Barron said nothing!

Fang Yue gave Barron a white look.

Barron could only smile.

Civilization promotion is not a bit fancy, it can be solved casually!

"By the way, you said the planet you are on is the earth?"

Barron seemed to think of something and suddenly said.

"Yes, what's the matter?"

Fang Yue looked at Barron and felt that there was a real drama this time. "In my impression, there is also an ancient planet named Earth! It's just that ancient planet, once extremely glorious, and even entered the ranks of the seventh-level civilization! Among them, there are many strong people, such as Lao Tzu and Sakyamuni. Ni, and the king

Khufu wait! These people, who just stand up, can protect the earth forever and peace, not to mention that they invade the earth, it is good that these people do not invade other planes and planets! "

"Lao Tzu? Sakyamuni? King Khufu? These people really exist?"

Fang Yue looked at Barron in surprise. Barron nodded: "These people do exist, and each of them is an existence that once stood at the pinnacle of all living beings! In the panic world, in the age when they were born, no one was qualified to compare with them! It was just that they were not well-known later. The original

Because they disappeared into the long river of history one by one!

Otherwise, with them in charge, who would dare to move the earth every plant? Anyone who walks out can wave his hands and destroy thousands of worlds! "

"Those people, all disappeared?"

Fang Yue looked at Barron again in surprise, and he vaguely felt that he seemed to have touched the ancient Xin Mi on the earth. "Yes, they have all disappeared! Some people say that they have entered the realm of Tianzun and disappeared in this universe to pursue a higher realm. Some people say that they have encountered an unstoppable enemy and have been defeated. Even the scraps of the corpse

Nothing left! Various rumors once swept the entire universe. But the only certainty is that they are all in the same era and disappeared! "

Barron seems to be cherishing the memory of that era. Although he has never experienced it, in some written records, he vaguely glimpses a corner of it. It is a golden world, extremely bright and dazzling!

Some people waved their battle flags and conquered the heavens, and some waved their halberds to slay the evil spirits of the ages!

The tide of the times is surging, and a number of arrogances emerge one after another, leapfrogging, and retrograde cutting down the immortals, blood staining the sea of red stars, flesh and blood moving through the sun and the moon!

"The disappeared person, what do you still say about him? Is it possible that you think I can summon them back?" "The disappeared person, you naturally can't summon it back. However, after that era, there have been places on earth. There were several silver ages. At that time, the gods came, the Eastern world, the establishment of heaven, the canonization of the gods, the Western world, there was the Pure Land of Bliss, and the Temple of the Gods! In that era, the earth was also a deterrent to the heavens! The reason for the name, some fall, some sleep, you can awaken a statue at will, it is endless good fortune, let the earth stand again

Forest of Ten Thousand Worlds! "

Barron finally came to the punctuality, and everything was paving the way.

"You said they can come back? Is this true?"

Fang Yue was suspicious of Barron's words. Barron said with certainty: "There is absolutely no falsehood! My deity once had a glimpse when he was wandering across the world, and he saw a shadow of True Monarch Erlang! His vertical eyes moved through the void, stabbing Break the chaos, without any

Power can be blocked! "That's the invincible divine might, definitely has reached the level of Xianjun, he surpassed Da Luo, and took the eternal step! My deity once talked with it, and the real-kun Jiro said that he just woke up from a deep sleep in the long dark years! now

, He was looking for Lao Tzu's footprints, and wanted to unlock the ancient Xin Mi of the earth's decline!

Since Zhenjun Erlang can wake up, then other people will not fall asleep for too long! "

Fang Yue is digesting this information, this Barron's statement is too amazing!

The vitality of the earth lies in the sleeping ancients, and a figure in mythology can wake up one, and it will make the earth rise again, no one dares to commit!

"Those secret realms and ruins are your best entry point."

Balun made suggestions for Fang Yue, and at the same time, his little eyes were filled with triumphant spirit!

"That's it!"

Fang Yue listened to Barron's plan and felt that it was indeed feasible.

However, since those ancients have completely fallen asleep, how can they be awakened so easily?

What's more, ancient ruins and secret realms may not have sleeping ancients. Everything is just speculation. What is really reliable is to accumulate more and stronger power to create a real life for the earth!

In the next three days, Fang Yue began to attack.

Although he was alone, he was invincible in front of the creatures on the Dark Moon plane of the Heaven and Earth Realm.

In just three days, he sneaked into the 37 camps on the Dark Moon plane.

Killed the 821 strong men of the Heaven and Earth Realm on the Dark Moon plane, and the descendants of the Innate Realm were even more than 10,000!

The spread of this news immediately caused a lot of pressure on the descendants of the Dark Moon plane.

Fang Yue's killing is still the second, the key is his invincible image, no one can break!

If it can be killed, no matter how much the Dark Moon plane pays, it will not be afraid. But the problem is that they can't kill them. If they offend Fang Yue, it's just sending him to death!

Chapter 793: mythology figure

For a while, the descendants of the Dark Moon plane near Anning County died down, and everyone was in danger. There are even many descendants who have already begun to withdraw from the station near Anning County, invade and conquer another place!

As for Fang Yue, he didn't push the people on the Dark Moon plane too hard!

Because he knows that if the earth's increasingly loose will, if the persecution is too ruthless, it will instead allow the people of the Dark Moon plane to bring down a large number of powerful people in the cycle at any cost! Nowadays, in the face of the present heaven and earth realm, the combination of invaders on the dark moon plane of the innate realm, the people on earth can barely accept, even relying on technology, relying on some ancient techniques, and gradually growing, stimulating potential under pressure, Ling Yi Batch another

The young generation of batches grows up, contends and rivals with it!

And if the Dark Moon plane really descends on a large number of powerhouses in the rotation realm, I am afraid that the earth will immediately collapse and completely fall into the hands of the Dark Moon plane, becoming a true colony!

This situation is relatively best.

Let the people of the Dark Moon plane be jealous, so as not to do too much, and at the same time give the young people on earth a chance to hone. The aura of the earth is gradually recovering, and some people with special talents and blood are beginning to awaken one after another! When they fully grow up, they will become the true mainstay of the earth. At that time, maybe even the strong face of the rotation

Or, they will also have the power to fight!

While beheading the descendants of Dark Moon, Fang Yue was also collecting some folk legends and looking for some legendary mythical characters.

Once you find those mythical figures and revive them, maybe the earth can really stand among the strongest of the heavens again!

Don't tell me, those things Barron said before are not reliable.

This time it is really eyebrows.

Anning County, it is said that there is an ancient temple of descendants, once manifested once ten years ago!

This temple is located in the void. If there is nothing, it is looming, like a mirage.

The temple is magnificent and brilliant! There is a black plaque on it with the four golden characters of "Houyi Temple".

These golden characters are so brilliant that they have been seen by hundreds of thousands of people!

This bizarre scene took a full half an hour.

Some people even use video recorders and leave images. In Fang Yue's memory, it seems vaguely about this, but because he was too young at that time and was still in school, he didn't see the appearance of this descendant temple with his own eyes! Will this descendant temple be similar to the legendary post-shooting

Related?

Back then, that great **** shot and killed the nine-headed big sun golden crow one after another, finally saving the people from fire and water.

"What? Fang Yue, you want to inquire about the descendant temple?"

For the Temple of Descendants, Fang Yunshan became interested when he heard it.

"What, you know?"

"Of course, I know! At that time, I was under the Temple of Descendants, and the sight was really real!"

Fang Yunshan has always been distressed that his cultivation is too slow, and he can't help his brother. It's like a burden, and it's useless.

Finally had the opportunity to show his role, how could Fang Yunshan miss it?

"Actually, this descendant temple has a lot to do with our family! For example, there are imitations of descendant bows buried in our backyard!"

Fang Yunshan said the mysterious Fang Yue.

Fang Yue couldn't help being shocked.

"Do we still have this baby? Why don't I know!"

Houyi bow, that is a legendary artifact, authentic, it is naturally impossible, but imitations may also be extraordinary! "Yes! There are a lot of things buried under our backyard! When I was a child, I used a

small shovel to dig the soil! I dug some very old things! But my mother saw it, her face changed a lot, I quickly bury all these things

. I was ignorant and frightened by my mother's expression, so I didn't dig deep, but buried all those things! It now seems that those things are probably incredible treasures! "

Fang Yunshan took Fang Yue to his backyard. Don't look at the dilapidated house of Fang Yue's house, but the real area is not small. Only the backyard has an area of five or six acres, which occupies a lot of space. Otherwise, there will be no developers. Staring at his house to demolish

Moved!

Fang Yunshan chose the location according to memory.

Then let Fang Yue excavate.

Fang Yue took out a shovel and dug it all at once.

With a chuckle, the shovel of the shovel rotted directly!

A ray of precious light shot out from the ground, turned a corner, and fell on Fang Yunshan.

Fang Yunshan was dumbfounded, still wondering what happened.

That precious light enters the body, her cultivation realm is three levels in succession, from the seventh realm of the Houtian realm to the first realm of the rotation realm!

Her breath is strong and long, and she doesn't seem to be the cultivation base that Yi Miao can help!

Fang Yunshan's foundation is extremely solid, in terms of breath and mana, at least ten times that of practitioners in the same realm!

Fang Yue is dumbfounded, what good fortune is this?

After digging a shovel, my younger sister has been promoted to three realms in a row, and she has a solid foundation. Isn't it due to years of penance?

Fang Yue understood that what he taught Fang Yunshan was the Taiyin Method.

It belongs to the oldest inheritance technique, which points directly to the origin of the universe.

If this technique is cultivated, it is certainly powerful, it can be called invincible of the same generation!

But when this thing is cultivated, it is difficult to practice, and the energy and resources of the cultivation are a hundred times better than other ordinary exercises!

It's just a beam of precious light.

It is equivalent to saving Fang Yunshan at least three years of penance, and it has no toxic side effects.

Where does this thing make sense?

Generally, people who work step by step, on the road of cultivation, are shocked by the sun and the moon, and cultivate hard, if they know this kind of thing, they will not be mad at all?

Fang Yue looked intently, and Fang Yunshan's head was full of luck, showing a red flame!

This is definitely a sign of the Son of Destiny!

Perhaps not the final protagonist of an era, but her strong luck is definitely the chosen one!

Qi Luck can be seen with the technique of watching Qi, the most unlucky Qi Luck is the blackening of the Yintang and the disaster of blood and light! The slightly better one is full of flour and Xia, which represents good health and everything goes well.

One level higher is the red light on the head, and the fortune is extraordinary!

Fang Yunshan has reached the realm of red clouds like fire! Only when the fate is pitiful and lucky, will it appear!

Her red clouds have a radius of 100 meters, which is just ordinary luck.

On the level of red clouds, the rays of the sun should be in the sky, and it can be regarded as the top level!

Under the red clouds, there is still heaven's favor.

At that time, the light on the head was cyan.

Like Lin Tianyang before, this is the realm!

They are the protagonists of an era!

Fang Yunshan, at best, is a little lucky, one in a thousand!

But even so, Fang Yunshan's luck is much better than ordinary people!

Like Fang Yue, he is so lucky, even at the level of full flour and clouds, he is a little reluctant!

Of course, Fang Yue relied more on the three celestial scriptures. Qi luck had an impact on him, but as long as he was not too taboo, the earth's will would not really do him anything!

The will of the earth has the principle of the will of the earth.

Ordinary people don't have to give chance!

It won't be too difficult.

"Brother, I..."

Fang Yunshan slowly opened her eyes. She was a little hard to adapt to the changes in her body within a short period of time. In the meridians, the power of the lunar yin was rolling! She felt as if she had become a fairy in one step, her strength and spirit had skyrocketed dozens of times!

"Press your heart to realize this power!"

Fang Yue put one of his hands on his sister's shoulder to help her straighten out her true qi and prevent her qi and blood from flowing back and affecting her foundation.

Fang Yunshan's qi and blood soon came down, and gradually, her sudden surge of power was fully grasped! "Yun Shan, appreciate this power, don't open your eyes! This skyrocketing power is a good thing and a bad thing! The good thing is that it can shorten your years of penance and save a lot of spiritual resources! But the bad thing is that you The foundation is now

Still a bit shallow! It takes a lot of effort to master this power. If you can't master it, it will easily lead to death! "

Fang Yue is the voice of Fang Yunshan.

A worried look appeared on his face!

Fang Yunshan nodded firmly, and in accordance with Fang Yue's guidance, a little bit of cannibalization and control of these newly-increased powers, she was not arrogant or rash, and mastered all the power!

Then, with the help of these lunar forces, wash the meridians over and over again, and refine the body!

In this way, Fang Yunshan retired.

Fang Yue keeps guard!

The siblings sat in the yard, sitting cross-legged for a whole day and night!

As for the Houyi bow in the yard, Fang Yue didn't even look at it!

In this world, the overall situation, the treasures, and the gods are all less important than the safety of his sister!

When the morning light fell the next day, Fang Yunshan opened his eyes again, and there was a faint dark blue brilliance flowing in her originally black eyes!

This is the evolution of the power of the primordial yin, and Fang Yunshan is still trying to use it to the fullest.

Otherwise, like Fang Yue, send and receive with heart.

With a single thought, you can make yourself look no different from ordinary practitioners!

"Little girl!"

"Ok?"

Seeing Fang Yue's rare solemn expression, Fang Yunshan's heart trembled. "I will teach you a set of ancient secret methods in a while! It has no other effect, but can actively condense all breath! After successfully practicing this set of exercises, you have to work harder and not be slack in the slightest! Whether you are the head

The best luck Hongxia is still your lunar power, so you have to gather and hide it, so that there is no dripping left! "

Fang Yue carefully exhorted.

Because the chaos of this earth will cause it!

Probably, some people will specially select the geniuses who are pitiful by luck, take them away, use them, and use their luck to find many opportunities on the earth to strengthen themselves.

There is also "Lunar Law", the origin, it is a bit scary!

This is the most ancient power of the technique between heaven and earth. It points directly to the source. I don't know how many people are vying to get a scroll.

"I know, brother!"

Fang Yunshan was a little mischievous on the surface, but seeing her brother's solemn expression, she also understood that what Fang Yue told her this time must be very important!

"Since you have initially grasped the power of growth, then I will continue to dig! I really want to know what secrets are hidden under the ancestral home of our old Fang family!"

Fang Yue smiled and slashed away the soil on the ground with his own hands!

When Fang Yue dug the ground half a foot, he unearthed an eight-foot-long war bow, the bow body was forged from a thousand-year-old black iron wood! The bowstring is a dragon's tendon with the thickness of an adult's wrist!

Wipe the dirt off the bow.

The exquisite texture above emerges!

On the bow, there are nine holes the size of a baby's thumb, which seem to be specially used to inlay spiritual stones! At the bottom of the war kung fu bow body, the four characters "Houyi Bow·Fake" are written in golden small seals.

Chapter 794: Hou Yi bow

Fang Yue took out the battle bow, nine low-grade spirit stones, just inlaid in the bow!

Afterwards, he threw a mysterious iron arrow on the bow.

The bowstring is full.

It looks like a full moon!

Hold your breath, gravity!

Whoosh!

The mysterious iron arrow pierced the cloud and broke the moon and flew out instantly.

Above the nine grooves on the bow, the spirit stone aura was instantly drained!

The bow is fully stretched, and it has a strength of about 12,000 kilograms.

The aura bonus of the superimposed spirit stone is at least five to six thousand kilograms of power!

"This mysterious iron arrow, the power of one arrow, is almost equivalent to the full blow of a practitioner on the first level of the ordinary world realm! It shouldn't be a big problem to blow up a hill!"

Fang Yue narrowed his eyes slightly.

This is just the lowest-grade low-grade spirit stone inlaid.

What kind of scene would it look like if it were replaced with a medium-grade spirit stone?

Fang Yue is not the kind of person who dares, if he thinks about it, do it right away!

Nine spirit stones were inlaid on the bow.

These nine spirit stones have been quietly transformed into nine middle-grade spirit stones by Fang Yue!

Catch the black iron arrow.

Draw the bowstring.

However, Fang Yue had just tried hard, a look of shock appeared on his face!

This bowstring is as hard as iron, and it takes dozens of times more force to provoke it!

However, Fang Yue's physical body has a hundred ranks, and what he walks is a simple way of refining his body. He does not lack this power!

Bowstring full moon, release arrows again!

On the surface of the arrow, a layer of faint cyan light adhered to it, and a phantom shadow of a blue dragon emerged. The claws and scales were as lifelike as real.

There was even a touch of dragon pressure on the phantom of the blue dragon!

The arrow pierced the air again, all nine middle-grade spirit stones shattered, and white powder fell from the bow.

These powders are all the residue of the middle-grade spirit stone that has absorbed all the spirit essence!

An arrow shot.

Longyin Quartet!

It seems to have its own spirituality, sinking into the cloud and disappearing in a blink of an eye.

"This arrow is so high-end! It can be transformed into a blue dragon, and has some wisdom?"

Fang Yue was shocked.

This arrow is so powerful that it is nothing.

The most terrible thing is to be able to have the wisdom!

After a few breaths, Qinglong Arrow turned around and flew back.

There was also a blood-eyed eagle from the seventh layer of the heaven and earth realm in its mouth.

The blood-eyed condor is a special product of the Dark Moon world. It can fly into the sky and monitor every movement on the earth. Normal practitioners cannot detect it unless they reach the level of the Saint Realm. The presence!

Ten thousand meters high in the sky, covered by layers of clouds and fog, it is too difficult and too difficult to gain insight!

With a snap.

The strength of the Azure Dragon Arrow was exhausted and burst into pieces immediately.

The blood-eyed condor also wailed, was seriously injured and died.

"Even the blood-eyed eagle has been sent out to deal with me! These people are quite willing!"

Fang Yue could not help but sneer.

Putting away the corpse of the blood-eyed condor, this blood-eyed condor is not easy to cultivate. If you want to keep a blood-eyed condor on the seventh level of the heaven and earth realm, the cost of resources is greater than the cost of cultivating a strong person in the rotation realm!

At the same time, Fang Yue paid more attention to the imitation of Hou Yi bow.

Only nine middle-grade spirit stones can create such an amazing effect. What if it is replaced by nine top-grade spiritual stones, or even the best spiritual stones?

Fang Yue did not try easily.

The profound iron arrows shot out of the nine middle-grade spirit stones are equivalent to a full blow of the three-tier powerhouse in the rotation realm, and the arrows contain spirituality.

If it were replaced with nine high-grade spirit stones, the power of the arrow would definitely exceed the level of the Yin-Yang realm. At that time, the fluctuations caused would cause the people on the Dark Moon plane to notice themselves, which might cause unnecessary trouble!

The so-called hole cards are still hidden in the dark, so that they can be more powerful!

Fang Yue put away the Houyi bow, this guy will probably become his most commonly used weapon in the near future!

It has great power and low consumption, and most of its energy comes from Lingshi and Houyi Bow itself!

Moreover, this Houyi bow is a typical long-range attack type!

It is perfect for group battles and sneak attacks!

Fang Yue continues to dig!

He felt that in addition to Hou Yi Gong, there are other treasures in the underground of the ancestral house!

Sure enough, after digging the ground three feet.

Fang Yue can't dig anymore!

The land is extremely hard, like the legendary black jade!

Heiyu is the strongest stone in the legend, and even the powerhouses of the Great Sage will use Heiyu to build weapons!

A piece of black jade is invaluable, and even the saints will fight wildly!

And under the Fang family's ancestral house, there is actually a huge black jade buried!

If the depth was not enough, Fang Yue began to sweep.

Soon, he cleaned up the soil on the surface of the yard, and a piece of black jade that was ten meters wide appeared!

On the surface of Heiyu, there is also a layer of faint golden characters.

"This black jade is left by our ancestors of the Fang family! If our disciples do not act, there will be a murderous disaster. Hope to do it for yourself! If our Fang family's disciples reach the level above the heaven and earth realm, they will drip in blood. Ancestral inheritance!"

The handwriting on this black jade is scribble, but every stroke contains a breathtaking power, which is definitely not left by ordinary monks!

"Inheritance from the ancestors of the Fang family? What is this?"

Fang Yue blinked, it turned out that the ancestors used to be wide!

Fang Yue drops blood to recognize the master.

Click, click, click!

Drops of red blood fell into Hei Yu, and in a blink of an eye, his blood was absorbed by Hei Yu!

The surface of Hei Yu gave birth to a misty light!

Fang Yue looked at Hei Yu, with an expression of expectation in his eyes!

The ancestors of the Fang family were so solemn, what kind of treasure did he leave for his descendants?

The characters on the surface of Heiyu suddenly changed.

Transformed into a row of handsome fonts.

"If you want to wear a crown, you must bear its weight! To get the treasure, you need to pay a massive amount of spiritual stones!"

This time the font is obviously not the same as the previous one!

But this handsome font also contains Taoism.

Between the strokes, like mountains and rivers traversing, together with the world, it gives people a majestic and majestic feeling, dare not easily offend!

"I wiped it, took off my pants, and you show this to me? I heard that there are cheating fathers and cheating sons! This time I have learned a lot, and I actually met someone who cheated 18 generations of children!"

Fang Yue was speechless, he really wanted to turn around and leave!

But after thinking about it for a moment, his curiosity about the treasures of his ancestors defeated him!

"Just this time, if you dare to pit me, hum, just wait!"

Fang Yue took out one hundred thousand lower-grade spirit stones and threw them directly on top of Hei Yu.

On the surface of Hei Yu, Umang is even better, and in a flash, it has absorbed all the spiritual energy of the spirit stone, and there is no trace of it!

The font on the surface of Heiyu changed again.

This time, there are only two words.

"not enough!"

"Oh my god, this black jade is perfect! You can talk to me freely!"

Fang Yue was taken aback, this Hei Yu's intelligence level was really high enough!

Fang Yue is even more curious, what kind of treasure is buried under this black jade!

This time, another one hundred thousand lower-grade spirit stones were thrown on top of Hei Yu.

The aura in the spirit stone was instantly emptied.

This time the font has changed again.

"Too picky!"

Fang Yue couldn't help being furious when he saw this.

"You eat mine and drink mine! You still pick and choose and don't care what's in you! My buddy won't play with you!"

Fang Yue roared.

The font on Heiyu changed to: "Boy smash, don't be impulsive, you can discuss something! If you have another 300,000 spiritual stones, I will pass it on to me!"

This Hei Yu simply started a business with Fang Yue!

Fang Yue aggressively placed 300,000 lower-grade spirit stones on top of the black jade.

Hei Yu swallowed all the spirit stones in one go!

In the next moment, lines of text appeared on Hei Yu's surface.

"The "Sunflower Treasure", if you want to practice this skill, you must first come from the palace. If you don't come from the palace, you may succeed..."

Thousands of words.

Actually, everything written is the content of the Sunflower Book!

Fang Yue just glanced at it, and he wrote down all of it!

"A piece of shameless black jade!"

Fang Yue glanced at this Hei Yu. Could not help cursing.

Where is the "Sunflower Treasure" written on the black jade but the secret ancestral spirits of the Fang family!

All the strong in the Fang family, as long as the strong in the Yin-Yang realm, who can be separated from their spiritual consciousness will leave a ray of soul in the family ancestral hall!

If the deity falls, using this primordial spirit as an introduction, with the help of the ancestral spirits, the soul of the ancestor can return and regenerate!

This method can only be used with the blood of the Fang family!

This black jade, using "The Treasure of Sunflower" as a cover, is clearly molesting Fang Yue.

However, this ancestral spirit call for souls is true.

There is a similar chapter in "Soul Truth"! It's just that the chapters in "Soul Truth" are more detailed!

The ancestral tablet, the Fang family's backyard ancestral hall has a full 3,700 yuan! These tablets are all left by the ancestors of the Fang family!

The closest piece to today was also erected a hundred years ago!

"Three thousand seven hundred ancestor tablets? Could it be that since ancient times, there have been three thousand seven hundred strong men above the Yin Yang level in our Fang family?"

Fang Yue was puzzled, if it was true, how strong and invincible his Fang family was in the past!

He glanced at Hei Yu. Originally, Fang Yue still wondered how strong his ancestors were to refine a piece of Hei Yu to inherit the secrets of the Fang family.

Now, he understands!

The Fang family in the past is probably a great family!

Unexpectedly, to wake up the once strong on earth, the first stop to wake up is your ancestor!

Fang Yue's mouth couldn't help but a bitter smile appeared.

He really got this ancestral spirit calling.

But how easy is it to summon one's ancestors?

The scriptures in the Ancestral Spirit Calling for Souls are indeed profound and profound. They can reverse the chaos of Yin and Yang, break the cycle of reincarnation, and summon the heroic spirits of the Fang family's ancestors dispersed in the world.

However, there is a price to pay!

Every time you call, you need to pay a huge amount of flesh and blood, soul and even the spiritual energy of heaven and earth!

Spirit stones, masses of flesh and blood are not particularly precious resources.

However, with the number measured in millions at every turn, the price of summoning the heroic souls of the ancestors is so high that it makes people feel trembling!

In addition, the materials for building the summoning altar are also quite difficult to find! "The situation of the earth is not so bad that it is uncontrollable. This summoning of the ancestors' heroic spirits can proceed in secret, first slowly collecting the resources for building the altar! As for the massive flesh and blood, it can be quietly collected when the real war breaks out.

!"

Fang Yue didn't make any impulse, and at this time he began to summon the heroic soul of the ancestor at any cost.

Re-bury the black stone slab in the soil.

There are no more characters on this black stone slab.

At the same time, all the poems in the Fang's ancestral hall were also put away by Fang Yue. These things are placed in the unsuspecting Fang family's ancestral hall. If they are lost, then the hope of the resurrection of the Fang family's ancestors will be completely destroyed!

Chapter 795: The growth of earthlings

With the full explosion of the strength of the earth powerhouse, the descendants of the dark moon plane have gradually converged.

Although there are occasional small-scale wars between the powerhouses of the Earth and the Dark Moon plane.

However, the scope of the war and conflict has become controllable, and the casualties will not exceed a thousand people at most!

These are already within the acceptable range of the earth!

The outbreak of some small conflicts has both disadvantages and benefits on the planet.

The disadvantage is that some negative news spreads, which will inevitably lead to civil confusion and rumors.

The advantage is that in these conflicts, some of the geniuses of the earth people have been tempered, and many people have broken through to the level of the heaven and earth realm, becoming the mainstay of the earth!

Just half a month.

According to Lin Keer's message to Fang Yue.

On the earth, three hundred and twenty of the young people who can count have broken through to the level of heaven and earth!

At this rate, it actually gives the earth hundreds of thousands of years to develop peacefully.

Even if it is promoted to the first level of civilization, it is not without any hope.

Unfortunately, the will of the earth is getting weaker and weaker.

There is not much time left for the people of the earth!

On the Dark Moon plane, there are already some powerhouses from the seventh layer of the heaven and earth realm that can directly descend on the earth!

This means that the binding force of the earth's will is further declining.

In the process of the earth's aura recovery, Fang Yue felt in his heart, comprehended nature, and logically broke his realm to the fourth level of the heaven and earth realm!

His strength, speed, soul strength, and even the condensed degree of true Qi have all increased by 20 to 30%!

Regardless of the fact that the numbers on the second to third floors are not large, but in terms of Fang Yue's vigorous and almost terrifying foundation, the 20 to 30% improvement is also a terrible number.

Just at this time.

Fang Yue received an invitation.

"Invite Fang Yue to participate in the Dark Moon Challenge!"

The text on the invitation letter is that simple!

Only one line is flat.

However, there was also a ray of spiritual power on it, giving Fang Yue a preliminary understanding of the Dark Moon Challenge!

This is an out-and-out trap!

A trap that people on earth have to step into.

The Darkmoon Arena is set up for the people on earth and the people of the Darkmoon plane.

Practitioners above the innate realm of the earth can participate!

At that time, the Dark Moon plane will send strong players corresponding to its realm to participate!

One-on-one, fight the ring!

If the earthlings win, they can take away the resource rewards corresponding to their realm!

If you fail, you don't need to pay any price, just keep your life in the ring!

Moreover, according to this message of spiritual power.

After winning, the reward of this resource is quite attractive!

If the battle at the first level of the heaven and earth realm is won, the resource rewards obtained can train an ordinary practitioner of the first level of the heaven and earth realm!

If the battle of the third level of the heaven and earth realm is won, the resource rewards obtained can train an ordinary practitioner of the third level of the heaven and earth realm!

What is most lacking in today's earth?

Naturally it is a resource for spiritual practice.

In the era of aura recovery, a lot of talented people have emerged on the earth!

However, no matter how genius, the resources for practice are not enough, it is all in vain!

See the rules of this arena.

Fang Yue immediately understood that this Dark Moon plane wanted to use this battle to figure out the trump cards of the earth people, if it could take the opportunity to kill a large number of geniuses.

It would be better to weaken the high-level combat power of the people on earth!

With the passage of time, the binding force of the will of the earth gradually decreases.

The people on Earth are anxious, and the people on the Dark Moon plane are equally anxious!

They paid a huge price before opening the plane channel, bringing the army to come and occupy the earth in advance!

However, their offensive on Earth is now struggling.

Constantly encounter strong resistance from the people on earth.

If the earth cannot be taken in a short time, declare the earth to be part of the dark moon plane and wait until the binding force of the earth is weakened to a certain extent.

The powerhouses of other planes also come one by one, and the fat of the earth will probably be snatched away by others!

As a last resort, the dark moon plane only took a dangerous move and put out such a scheming trap!

If the plan is successful, they may be able to accelerate the pace of invasion of the earth.

But if it fails.

The earth may become stronger and more prosperous, even the fruits of victory they have already vomited!

"Make an appointment!"

Fang Yue almost didn't hesitate, he gave a refreshing response!

No matter what tricks this Dark Moon plane may play, he will be tricky!

In Fang Yue's mind, the Dark Moon plane is not an opponent.

If it is not for the survival of the earth.

Fang Yue had already gone to the Dark Moon plane alone, turning it upside down!

Fang Yue was almost in the construction.

But if it is destroyed.

Who is afraid of whom!

"Three days later, Tianren Island!"

The servant of the Dark Moon plane who came to deliver the letter said coldly.

For Fang Yue, they can be said to be hated!

In that servant's heart, there is already a trace of conviction!

As long as you dare to come, our Dark Moon plane will let you come and go!

"no problem!"

Fang Yue sent away the servants, and then summoned Lin Kerer and Fang Yunshan.

"Will you two join me in this competition?"

Fang Yue was not cruel, letting the two weak and weak women come forward. But without being tempered, you will never be able to become an indomitable practitioner!

He can shelter two people for a while, but he can't protect them both!

Especially Fang Yunshan, who practices the Taiyin Method, and has raised points many times in his daily life, it is not difficult to win a battle of the same level!

"I attended!"

Unexpectedly, Lin Keer was the first to speak!

"you?"

Fang Yue looked at Lin Keer, and to be honest, Fang Yue was not very optimistic about Lin Keer's strength!

Although with the help of many resources, Lin Keer broke through to the third level of the Innate Realm in a short time! However, her foundation is shallow. Although Fang Yue's guidance is provided on weekdays, her combat power is at best being in the middle of the same realm! "Yes! It's me! The earth in the future is bound to be in raging wars. Whether the Lin Group can continue to operate normally is two different things! If the Lin Group ceases, I hope I can protect myself! This time! The ring match is my piece

The sharpening stone, solidify those virtual strengths that rely on resources to improve! "

Lin Keer's eyes flashed with rational light!

Becoming the helm of the Lin Group can't be achieved by external forces!

"Do you really want to use this opportunity to temper yourself?" Fang Yue looked at Lin Ke'er and confirmed again. Training, between life and death, is indeed the fastest progress and the deepest insight. However, like this training, if you are a little careless, you may be overwhelmed and will always be buried in those dark

In the hands of the strong moon plane.

"Why, do you feel bad?"

Lin Ke'er looked at Fang Yue jokingly, a touch of joke in those beautiful eyes.

"No! We are just classmates, what's the pain?"

Fang Yue said that, but there was still an unnatural look in his eyes! "Anyway, this time, I have already decided! I can't survive for a lifetime under your protection. Only by proactively attacking and acquiring more resources and sharpening can I grow quickly! This time, the top leaders of the earth promised, no matter what pick

How many rewards the fighters get is owned by individuals! No organization or force can use all kinds of names to take advantage of it! "

Lin Keer said solemnly.

Fang Yue is not easy to stop! But since he was there, even if Lin Kerr wanted to die, it wouldn't be easy!

"Yunshan, how about you?"

"I also want to sign up for the competition! I have never been so good since I was little! I also want to become a legendary heroine!"

Lin Keer is deeply poisoned by various TV dramas and martial arts novels.

From a young age, she had a knight dream in her heart.

Before, without the strength, this dream could only be secretly buried in the bottom of my heart, not dare to show it openly. Now, she is also a young master at the innate level.

There is a chance to show off, how could she miss this opportunity?

"If this is the case, then you two should prepare a little salute, and let's go tomorrow!"

It is not that Fang Yue is in a hurry, but that Tianren Island is far away and needs to take a plane!

Tianren Island is a man-made island located on the open sea in the middle of the Pacific Ocean!

The area is only a few thousand square kilometers, but because of its special geographical location, it is favored by all countries!

Some important international conferences are all held on this Tianren Island!

If you fly, it takes twelve hours to arrive safely!

In the afternoon of the next day, at dusk.

Fang Yue three people just arrived at Tianren Island!

In the periphery of Tianren Island, there are already strong people from all over the world! Most of them are at the level of Innate Realm, and only about Mo Yicheng has reached the level of Heaven and Earth Realm!

There are too few strong players who are not in the heaven and earth realm among the people on earth, to the point that they can't handle this kind of competition.

It's because, in the world, all major organizations in the world are responsible for important tasks. Many people can't get away from them. Some people are even more of an organization, and even the soul of a country!

They can't tolerate the slightest loss, since they know this is a conspiracy and a trap, so they can't easily take risks.

This has led to the fact that there are enough practitioners in the innate realm on the island of heaven and human beings to exceed 10,000 in number, while the powerhouses at the realm of heaven and earth and above can not even reach a thousand!

People on this earth are naturally separated into circles. Different circles represent their respective status, rights, and identities!

Fang Yue and Fang Yunshan are like duckweeds without roots on the earth.

In the case of a big man, Fang Yue knew Qingsong alone at most, but he nodded his acquaintance, and didn't have much friendship!

Therefore, on this Tianren Island, he belongs to a user who doesn't care, and can only follow Lin Keer with Fang Yunshan!

Lin Keer is a person with status and status. She is the actual helm of the Lin Group, and now she is even a little master at the third level of the Innate Realm, and she has a certain status in these circles!

"Ker, here you are!"

A young girl in a red dress with small freckles on her face and small but energetic eyes found Lin Ke'er bounced around. She kindly grabbed Lin Ke'er's arm!

"Meng Xue, you are here too!"

Lin Ke'er saw Meng Xue with a slight smile on her face.

"These two are..."

Meng Xue followed Lin Ke'er's direction and saw Fang Yue and Fang Yunshan, who were following her.

Fang Yue showed red mouth and white teeth, and made a smile that he thought was quite brilliant!

Fang Yunshan nodded slightly, not as idiotic and exaggerated as her brother. Meng Xue couldn't help being slightly surprised when she saw Lin Ke'er brought two strange faces.

Chapter 796: Pimped

The Lin Group has gradually declined.

Nowadays, although there are nine puppets of the heaven and earth realm standing on them, maintaining the superficial prosperity, the various businesses of their group are not as good as each day.

The masters of the Lin Group's innate realm and above, they all know in their hearts.

And neither of them is on the list of masters above the Lin's group.

Could it be that these two people are the hidden cards of the Lin Group?

However, Meng Xue took a closer look again.

Fang Yunshan is just the first level of the Innate Realm.

And Fang Yue is also the fifth level of Innate Realm!

Their realm is so humble, and together they can't match a finger of a master of heaven and earth!

What about the hole cards?

In the end, it is still impossible to escape the fate of being annexed by their Dragon Group?

Meng Xue couldn't help but smile more.

Lin Ke'er introduced: "This is my high school classmate Fang Yue, and this is his sister, Fang Yunshan!"

Lin Ke'er glanced at Fang Yue. I don't know when his breath was hidden. From the outside, it only had the breath of the fifth level of Innate Realm. No wonder this Meng Xue looked at Fang Yue contemptuously. .

"Fang Yue, a good name, there seems to be a master with the same name in China! That master, one enemy five thousand, let me admire him, and the gap between you and him is too big!"

Meng Xue criticized mercilessly in front of Fang Yue.

And Fang Yue felt dumbfounded.

When is too famous is wrong.

He was actually beaten by himself.

"Yes, yes, yes! That Fang Yue is indeed a great hero, great master, I am indeed ashamed!"

Fang Yue boasted of himself, without the slightest psychological burden at all!

Seeing Fang Yue's confession, Meng Xue felt that there was no point in hitting Fang Yue again, so she snorted and said nothing.

Holding Lin Ke'er's hand, she began to whisper. "Ke, how are you thinking about the matter I said before? My brother Anderson has already reached the ninth level of the Innate Realm three days ago! He is only one step away from the Heaven and Earth Realm! If you can marry

He will be worry-free for the rest of his life! "

This Meng Xue looked serious and arrogant.

Unexpectedly, when she opened her mouth, she was pimping her brother!

"Meng Xue, your brother and I are not suitable! I have already rejected you before! Don't mention that! Otherwise, don't blame me for turning my face!"

Lin Ke'er's eyes suddenly became sharp.

Lin Ke'er knew in her heart that Meng Xue wanted to marry Anderson by herself, but she didn't really think she was a good match for her brother, so she wanted to match and be a good matchmaker!

Her purpose is to take advantage of this marriage to acquire the Lin Group under her!

Anderson, not single, he already has two wives!

Even if you married yourself, you still have a humble status and can only be a mistress of Anderson!

Meng Xue saw Lin Ke'er's stout appearance, her smile did not diminish even. "Lin Ke'er, don't stay in old ideas, old thoughts! This era is different from the past. After all, if women depend on men, I heard that you have recently gotten some opportunities to rise to the third level of Innate Realm. If you are going

In the year, the strength of the third layer of Xiantian Realm was indeed not weak. But today, the master blowout erupted, and the strength of the third layer of the Innate Realm was already commonplace, and it was not valuable! "

Meng Xue paused for a while, as if accepting reality in Lin Ke'er.

Lin Ke'er looked at Meng Xue, and in her clear eyes, there was no wave of Gu Jing.

"and then?"

Lin Ke'er continued to ask. "Follow my brother! You and the Lin Group behind you will be protected forever! Perhaps, you still don't know, our Longteng Group has already produced 52 masters in the world! Even in the whole On the earth

The power of gravity! "

As Meng Xue said, a blush of excitement appeared on her cheeks involuntarily!

In the previous era, Longteng Group was just a small company, a small group! Although there is some cash flow, it is far from comparable to Lin Keer's Lin Group!

However, now, Longteng Group has grown to an incredible level, transcending national restrictions, and even has some business dealings with powerful people in other worlds!

The goddess who used to be aloof must also bow their heads in front of reality and surrender to their Longteng Group!

"Meng Xue, I appreciate your kindness! As for your proposal, it is no longer within the scope of my consideration! If you have nothing else, I will leave first! Tomorrow, I still need to participate in the competition, so tonight must Recharge your energy!"

Lin Keer glanced at Meng Xue lightly.

Turn around to leave.

Seeing Lin Ke'er's cold expression, Meng Xue couldn't help clenching her fist slightly! "Damn, damn! Do you think it was that era? Lin Kerer, I tell you, you are not a superior goddess! If you miss this opportunity, next time you want our Longteng Group to take in Neither of you may! "

Meng Xue had completely torn her face.

His face was a little snarled and roared.

Lin Kerr smiled faintly, noncommittal!

Fang Yue also followed Meng Xue's turn and left, leaving behind his favorite roaring and threatening guy!

In front of Longteng Group, Lin Keer was nothing.

In the eyes of Fang Yue, how much stronger Dragon Group can be than Ant?

Watching Fang Yue and others drift away.

Meng Xue made a fist, her veins violent.

"Why, sister, your plan didn't succeed?"

At this time, a young man in a suit and graceful walk stood on Meng Xue.

His cheeks are very three-dimensional, and the edges reveal a taste of firmness!

This is a combination of Eastern and Western blood. I have to say that from a certain perspective, this young man is still a very handsome guy.

"The hateful Lin Keer doesn't know what is good or bad at all!"

Meng Xue was annoyed by the failure of her plan. The young man, Meng Xue's brother, Anderson laughed and said, "Everything is planned and anticipated! Lin Keer's character is firm, so how easy is it to be moved by your words! Face it! This kind of person, you have to tear her face first

Proud disguise! The former goddess of the Lin Group, in this era, she is not even a fart! To start, first attack the people next to her! Tomorrow's ring match, there will be a time when she looks good! "

Anderson smiled sharply. In his slightly blue eyes, there seemed to be a light green flame burning!

Whether it is a dragon or a worm, it will be announced tomorrow!

This time the arena, I am afraid it will become an opportunity to change the fate of the people on earth!

"Sorry, Fang Yue! I didn't expect Meng Xue to become like this!"

Back at the hotel, Lin Keer apologized to Fang Yue.

In Lin Ke'er's memory, Meng Xue was still her best friend and playmate, otherwise, she would not speak to Meng Xue!

"Years have gone by and have changed the whole world! The once, favorite, and caring person may become a knife and poke the softest part of your body!"

Fang Yue sighed softly.

He naturally remembered the scene performed by Meng Xue and Lin Keer.

Including, after they left, Meng Xue and Anderson's conversation, he also heard all the words!

This kind of little person who is born with inferiority complex will quickly expand once he gains strength!

Fang Yue has seen a lot of things like this, and listened a lot!

To be honest, he can't make any waves anymore in his heart.

"For the Longteng Group, don't worry! They dare to have any tricks, and there will be no such company again!"

Fang Yue said it was an understatement.

But Lin Keer's delicate body trembled slightly.

Originally, she wanted to remind Yi Xiaoyue to be cautious, that the Longteng Group has developed so fast in recent years, it is impossible to have no cards and reliance!

However, thinking of Fang Yue's previous strength, there are more than three thousand heaven and earth level servants.

She suddenly realized.

On this earth, the real overlord is probably the high school classmate around him.

Compared with him, the so-called Longteng Group is actually nothing more than a jumping clown!

the next day.

The dawn is beginning!

The Arena held on the Dark Moon plane has officially begun!

This ring match has a nice name-Dark Moon Blood War!

This is implying that the people on the Dark Moon plane must fight their backs!

At the same time, it is also hinting that the people on earth, this will be an extremely difficult **** battle!

Fang Yue and the three of them did not attend the morning opening ceremony.

Now that this battle has been destined to be a **** battle between death and death, there is no need to cover up the peace!

The battle site is a temporary arena built up, a total of nine, ten meters in diameter!

Earthlings will come to power at any time, and the Dark Moon plane will dispatch strong men with the same realm to fight against!

There is no draw, no order, just come and fight!

When Fang Yue's trio came to this arena, the arena battle had already begun!

On the No. 1 arena, a master of the fourth level of the Innate Realm of an Earthling is fighting vigorously with a werewolf of the Dark Moon plane!

The earthling is an old man with gray hair and a little decay in his blood!

He is not tall and wears white clothes, but he has fully displayed the mystery of Tai Chi!

And the werewolf wielded a saber and opened up!

Although the moves are clumsy, but in terms of strength and innocence, it is several times that of an earthly man!

One wins by skill, the other is relying on his own strength and wants to drop ten benefits in one effort!

The battle between the two, you come and I go, attack each other.

Fang Yue narrowed his eyes slightly, he saw a trace of the evolution of yin and yang in the wind of the old man's fist!

This old man, I am afraid that he has already begun to exercise Tai Chi in the age before the aura of heaven and earth has recovered!

Now, the spiritual energy on the earth has revived, and he jumped into a dragon. With the help of his understanding of Taijiquan, he has successfully broken into the innate realm!

If this era of the earth's spiritual energy resurrected a few years ago.

This old man was in his prime of life and would definitely go further on the road of spiritual practice.

But now, his age is too old, his energy and blood are declining, even if he has been tempered to the point of innocence in Tai Chi, the sixth level of the world is probably his peak!

Fang Yue looked at this old man, it was a pity that he secretly said!

At this moment, the old man suddenly swept the bird's tail and hit the waist of the werewolf! The old man threw himself up, shrugged his shoulders, and hit the werewolf's chin!

Chapter 797: Father Zhao Jing

With a bang, the werewolf's head was overturned and thrown into the sky. There was still blood on his neck, like a fountain, constantly gushing.

The old man clapped his palms to signify victory!

In the arena, the referee is a world powerhouse on the Dark Moon plane.

Just now, the old man and the werewolf were still fighting inextricably, why this moment.

Was the werewolf beaten to death by the man of the earth?

Some doubts surfaced in his eyes.

"Don't announce the victory of the old man?"

Fang Yue reminded the referee under the ring.

The referee was in full view, and it was not easy to cheat, and was forced to announce the victory of the father, and offered a bunch of spirit stones as a reward for the victory of the father!

The old man smiled slightly and put away those spirit stones!

Under the ring, the cheers of the people on earth have already come.

"Zhao Jing!"

"Zhao Jing!"

"Zhao Jing!" In the voice of the call, Fang Yue learned that this old man was named Zhao Jing, and he was the long-established Tai Chi master of China! When he was thirty years old, he had already understood Tai Chi to the level of the realm of transformation, even without the rejuvenation of heaven and earth, his hands

With a flick of the palm, there are three to five hundred kilograms of force, which can easily break through the cement wall!

The spirit of heaven and earth recovered, and Father Zhao Jing soon grew up.

The Chinese government once issued him a large number of spirit stones, so that he could practice with peace of mind and break through as soon as possible!

But Father Zhao Jing gave all these resources to his children and grandchildren, hoping that they would have a future!

Now, this time, Mr. Zhao Jing came to participate in the ring competition, also hoping to get more resources for his children, so that they can go further on the road of spiritual practice!

Poor parents in the world, even at the age of Father Zhao Jing, they still worry about their own children!

"In the next game, the resources will be doubled! Father Zhao Jing is still an opponent at the fourth level of the Innate Realm. Would you like to give it a try!"

The referee smiled and looked at Father Zhao Jing!

As early as after Zhao Jing entered the war, they had already investigated the details of Mr. Zhao Jing!

This cultivation resource is the weakness of the old man Zhao Jing!

This old man Zhao Jing, everything is good, but he cares too much about his grandchildren and children!

"Double the resources! Another battle!"

Zhao Jing hesitated a bit, he was thinking quickly in his mind, weighing the pros and cons!

He had just fought a battle. Although his energy and blood were not consumed much, the battle of life and death was always tense, and his mental loss was not small.

If it were to fight another game, he could only display ninety percent of his strength in his heyday.

If the challenger sent by the Dark Moon plane is stronger than the werewolf just now, he is not sure to retreat!

Father Zhao Jing wanted to refuse.

However, he hadn't spoken yet.

The referee said again: "I am waiting to admire the Tai Chi method of old man Zhao Jing, and want to observe it again! Therefore, the reward for the next match can be increased to three times the resources!"

"Triple resources!"

This seemed to be an invisible heavy hammer, which fell fiercely on Father Zhao Jing's chest!

His breathing became slightly quicker.

Three times the resource reward is equivalent to that if he wins this battle, he will be able to train three disciples of the fourth level of the Innate Realm!

The faces of his children, grandson, and granddaughter appeared in front of him one by one.

He has a large number of children and grandchildren, and the resources he received in the past are evenly distributed to his children and grandchildren, not much!

If he gets three times the resources this time, then all his children and grandchildren may be able to step into the level of innate realm safely!

The wages of avarice is death!

"Okay! This time, I will fight!"

Father Zhao Jing jumped up and jumped onto the ring.

And in the depths of the referee's eyes, there was a smile of conspiracy.

Their purpose is to kill all the people on the earth who have the potential to grow into the threat of the Dark Moon plane!

This old man Zhao Jing is ferocious, but can he survive one round of the ring, and can he survive the second round of the ring?

You must know that what they dispatched this time was in the hands of the innate masters of the entire Dark Moon plane, and the ranks had reached the top 1,000 talents! His grasp of fighting skills is far from the previous clumsy werewolf can match!

"I come!"

On the Dark Moon plane, another werewolf came onto the stage.

But the temperament of this werewolf was completely different from the one before!

The last werewolf was pure savage, crude, and violent. Although fierce, he always gave people a simple mind and simple limbs!

And this werewolf has well-proportioned muscles and is full of inexplicable explosive power. His pair of brown eyes seemed to contain some inexplicable mystery.

"Werewolf, Besca, welcome advice!"

Besca speaks, polite, and if not because he has a wolf head, it really makes people feel that he is a handsome gentleman.

"Earthman, Zhao Jing!"

Zhao Jing stood in a variety of postures, it seemed that there were flaws everywhere, but it seemed to be one with the world, without the slightest flaw!

Fang Yue watched Zhao Jing's figure carefully.

In an instant, Fang Yue understood that he still underestimated Zhao Jing's accomplishments in Tai Chi.

At a pure realm level, I am afraid he has already reached the level of harmony between man and nature!

If the resources for cultivation are sufficient, he can quickly reach the level of heaven and earth realm!

All martial arts on the earth are summarized from nature.

This Zhao Jing had long understood was not Yin-Yang Tai Chi, but the Way of Heaven, the way of all things in nature, all arising and passing away!

"Make a move!"

Besca, who holds his own identity, did not act first.

Zhao Jing didn't decline either, but as if he was facing an enemy, a soft fist slammed into Besca's chest!

This punch seemed soft and weak, but it pulled the wind at the moment it was punched!

The surrounding gusts of wind roared like an invisible shackle, blocking all the retreats on Besca's four sides!

Besca's breathing was slightly stagnant, and he was actually locked by Feng Jin, like an insect in amber, he couldn't move anymore!

"This style, the cage of heaven and earth!"

Zhao Jing's voice was not loud, but it fell into Besca's ears as if it was thunderous! "This Zhao Jing is worthy of being a human genius that our Dark Moon plane cares about! At the level of the innate realm in a small area, he has understood the level of "power"! Above the move, it is to use the power of the world, and then, it is An introduction to the law! Ordinary practitioners usually reach the level of the heaven and earth realm. Only when their mind, mind, and body begin to become one with the heavens and the earth, can they gradually understand the level of momentum, and this Zhao Jing is only in the innate realm, and he has not experienced the sense of harmony with the earth and heaven. Is at the level of "potential", not

That is not rare! "

By Fang Yue's side, a man in a splendid robe appeared silently, his appearance was no different from that of a human being on earth.

However, Fang Yue was uncomfortable with a cold breath exuding from all over his body!

This man has reached the third level of the rotation realm! I don't know whether he came to the earth through the self-slashing cultivation base and then recovered, or the Dark Moon plane used other means to teleport him over.

He arbitrarily evaluated Zhao Jing, both in his eyes and in his tone of voice, there was a faint taste of watching a play.

"who are you?"

Fang Yue stared at the man and asked unceremoniously.

"Dark Moon Royal Family, Eighteenth Prince, Zhang Yin!"

The man smiled gently, but Fang Yue always felt a hint of coldness in his smile.

The moment the two talked, the situation on the ring has changed.

On Besca's body surface, a layer of silver flame hunts and burns, forming a protective film, directly swaying the surrounding wind!

Although Zhao Jing was a master of boxing, after all, he had entered the Innate Realm in too short a time.

Even if you have understood some of Feng Jin's mysteries, it is only a fur, and there is still a long way to go before the real mastery.

His move, if it were replaced by other opponents of the same level, perhaps he would really win.

But Besca, after all, is the genius of the younger generation in the Dark Moon plane, how could he not have any means to save his life.

This silver flame is his talent!

Can protect the body, can attack, there are few opponents in the same rank!

"This trick is very good, but if it's only like this, then our battle can be over!"

Besca broke through Feng Jin's shackles and easily avoided Zhao Jing's punch.

To be honest, Zhao Jing's ability to pull Fengjin to trap him really surprised him, but that's all!

Master clashes, the winner can be decided only by breathing!

Before Besca's words fell, he had already taken the initiative to attack, his body was like a dragon, his steps were like electricity.

Fist out, the silver flame rushes!

The flame turned into a long dragon, and the dragon scales were clear and lifelike!

The dragon head lifted up and his mouth opened, as if he was about to swallow Zhao Jing into his stomach!

"Tai Chi, grab the tail of the bird!"

Zhao Jing didn't rush, and with a four or two strokes, he directly knocked the long silver dragon away. The dragon's head shattered and turned into a silver flame, bit by bit in the air, constantly shattering!

"Tai Chi, single whip!"

Zhao Jing single-handedly launched, the wind is healthy!

Due to the shadow of the boxing, it hits Besca's chest!

Chong.

The breastplate in Besca's clothes blocked Zhao Jing's single whip!

Zhao Jing was slightly startled, and his mind was broken.

Besca showed a ferocious face: "It turns out that you, an old fellow, still have a hand! Take the move, and start a prairie fire!"

Besca placed one palm toward Zhao Jing's skull.

The flames poured down like a waterfall, engulfing Zhao Jing in an instant.

All the white clothes on Zhao Jing's body became ashes and burned out in an instant!

"It's a pity! This Zhao Jing is over! Besca's flame may be nothing in the eyes of the real strong, but it is still a bit powerful at the level below the world realm!"

People are sighing softly.

Zhao Jing, when it comes to his understanding of Taijiquan, he has definitely reached the level of a master of boxing.

Among the peers, if you ignore the talent gap, Zhao Jing is definitely a rare opponent.

Unfortunately, he met Besca!

At this moment, in the silver flame, a thin palm came out suddenly.

Suddenly he grabbed Besca's shoulder!

Besca was slightly surprised and wanted to resist, but the great power in that palm came suddenly!

"Yin and Yang are born and die!"

Zhao Jing's palm tugged.

Flesh and blood on Besca's shoulders!

The blood spurted up to several feet high!

"No!"

Besca looked up to the sky and roared, but unfortunately, it was too late!

Zhao Jing came out with another boxing shadow, taking Besca's heart position!

The black tiger digs his heart!

This is the simplest move, and even the small gangsters on the street can master it, but this mediocre move is displayed in the hands of a boxing master like Zhao Jing, but it is very powerful!

Zhao Jing took out a beating heart! The heart is still beating.

Chapter 798: Miserable victory

Blood gushing, flowing down from between Zhao Jing's fingers!

Besca looked at her chest with a black blood hole with incredible eyes!

"Do not!"

Besca again wailed bitterly, however, losing his heart, no talent could save his life.

Especially in the congenital realm, all the blood is sprayed out from the position of the heart!

Besca's face turned pale, then his vitality dissipated, and he collapsed!

In the silver flame, Zhao Jing stepped out!

He has been burned by the flames, and the life essence in his body is almost exhausted!

"Am I winning?"

Zhao Jing looked at the referee from the plane of shadow.

The referee was also stunned by Zhao Jing who was like a dead man!

He did not expect that a person's obsession with victory can be so strong!

"Win...win...you win!"

The referee stammered.

This is a corpse crawling out of hell, a devil!

"Just win! Just win!"

Zhao Jing was muttering words, staggering down the ring step by step.

When he walked down the last step of the ring, the last attachment that supported him also dissipated.

Zhao Jing fell.

The breath is faint, and the lamp is dead.

"Hopeless!"

Zhang Yin glanced at Zhao Jing lightly.

This Zhao Jing was finally able to be burned by the silver flame, killing Bescar was indeed beyond his expectation.

However, he couldn't stand against the sky after all, killing Bescar, he still couldn't live!

"Nothing? Why don't we make a bet? I said, I can still save Zhao Jing. If I win, you will give me ten resources for ordinary people to cultivate to the heaven and earth level! If it fails! How does this give you?"

Fang Yue smiled and took out a purple stone.

Zhang Yin hadn't noticed anything at the beginning, but the more he stared at the stone in Fang Yue's hand, the more he was frightened.

"this is....."

"A piece of jade with a ray of dragon air in its seal!"

Fang Yue said it lightly, but Zhang Yin's heart tightened.

The dragon spirits have little effect on ordinary practitioners!

Unless you are practicing dragon-related exercises, you can learn something from Dragon Qi!

However, to their princes, the value of Dragon Qi is self-evident!

After this dragon energy is absorbed, it can change the air fortune in the underworld, and the fortune of becoming the crown prince who inherits the Datong will continue to increase!

"A ray of dragon spirit, to bet on Shifen's resources at the world level? Good! This bet, I promise you!"

When Zhang Yinkai came, Zhao Jing had already reached the age of Zhao Jing when his oil was exhausted. It is quite large. Before really entering the practice, a lot of blood and life have been consumed! Now, he was burned by the silver flame, although with

I used my strong willpower to resist, but the viscera, qi and blood had been destroyed to the point where it was unnatural!

It is almost impossible to save Zhao Jing!

If it is a simple injury, some rare panacea can be treated.

Today, Zhao Jing is facing the limit of life and death. Even some legendary panacea can hardly cause little healing effect on his injury!

Step by step, Fang Yue walked to Zhao Jing's side.

In his hand, drops of Baicao liquid kept falling down!

These Baicao liquids covered Zhao Jing's body surface.

The sizzling sound continued to be heard from Zhao Jing's body!

These herbal liquids provide the most basic life essence, nourish Zhao Jing's viscera, and hang his life by a thread, at least not immediately.

Zhang Yin saw the essence of life flowing out of Fang Yue's hands, and a look of puzzlement was revealed in his eyes. "Fang Yue, even if you have a treasure liquid that is good at healing in your hand, you shouldn't squander it like this and use it indiscriminately! If I can't guess, the treasure liquid in your hand is an elixir that can prolong your life! Take out three or five drops, even Can buy one

An innate slave with a strong stature! This thing, used to save a dying person, is not worth it! What's more, what Zhao Jing lacks now is the essence of life, but the foundation of life! "

Zhang Yin felt that Fang Yue was still a bit too young and naive!

His insight is superficial. Although he has precious elixir in his hand, he doesn't know how to use it to maximize its value!

Fang Yue glanced at Zhang Yin.

"In my eyes, Grandpa Zhao Jing deserves respect! If a master of boxing can be saved, how can his value be comparable to what you call a slave of the innate realm!"

After Fang Yue finished speaking, he stopped speaking, and the essence of the drops of herbal liquid continued to melt into Zhang Yin's body.

Zhang Yin's breathing also gradually became steady.

These Baicao liquids, although they did not add to Zhang Yin's life background, but they were regarded as pulling back the edge of his life and death! "It's useless! As the saying goes, medicine doctors don't die, and Buddha is destined! This Zhao Jing, when fighting the silver flame, has completely hollowed out his burning potential! Even if you can cure it! His skin injury, but that share

You can never make up for the potential of life! "

Zhang Yin was not deliberately attacking Fang Yue, he was just telling the truth.

To tell the truth about Zhao Jing's fall, Zhang Yin also had some regrets in his heart.

However, if he wants to treat Zhao Jing, he is also weak.

Fang Yue didn't pay attention to Zhang Yin, but gently attached to Zhao Jing's ear and said. "Blessing comes from misfortune, from misfortune to blessing! Father, you are now on the verge of life and death, and no one can help you! However, life and death are both Yin and Yang and Tai Chi! If you are able to comprehend The truth is that it can be extremely dead

Health, come back to life! "

Fang Yue's voice was faint, and fell into Zhao Jing's ears!

On Zhao Jing's already desperate and abandoned face, suddenly a trace of survival instinct emerged!

"Ok!"

The corners of Zhao Jing's mouth trembled, and a voice of consent came from his throat!

Afterwards, the wrinkles on Zhao Jing's brows gradually eased.

His breathing is like a river, surging endlessly!

"He really realized it?"

Zhang Yin's dumbfounded look was not due to Fang Yue's methods that surprised him, but that Zhao Jing was able to realize the mystery of Tai Chi on the verge of life and death!

Cycle of life and death, just between thoughts!

This is the realm that many practitioners dream of!

Such a realm, although it cannot live forever, but it can keep oneself on the verge of life and death, in a very special state!

Slowly, on Zhao Jing's body, there are two qi of yin and yang flowing from all directions. The two qi of yin and yang gradually evolved and turned into a yin and yang taiji picture the size of a millstone!

This Tai Chi pattern gradually sinks into Zhang Yin's body!

A little red light appeared on Zhao Jing's eyebrows.

His eyes gradually opened, and a pair of Tai Chi patterns appeared in each pair of eyes, which was quite strange.

"Like life but not life, like death but not death!"

Zhang Yin slowly spit out eight words, then gently shook his head!

These eight words are describing Zhao Jing's current state!

Originally, Zhang Yin was actually quite contemptuous of the people on earth and looked down upon him.

People on earth are considered to be barbaric natives, and they don't know how to practice!

But now, there is a hint of awe-inspiring taste in his heart.

Among the aborigines of the earth, there is also Fang Yue, who has quite venomous eyes! There are also people like Zhao Jing who have reached the pinnacle of greatness in their comprehension of the Tao of Tai Chi!

Like life but not life, like death but not death, it may fall at any time!

It is also possible that life will last forever!

In this special state, Zhao Jing's enlightenment will be quite simple!

Zhang Yin seems to be witnessing the rise of a real strong man on earth!

"Wish to bet! I will give you all the resources of the world level!"

After Zhang Yin finished speaking, he ordered him to deliver ten storage bags!

At this time, the eyes of the earth people around Fang Yue were greedy and hot!

Ten resources are equivalent to creating ten powerhouses!

In today's earth, the powerhouse of the heaven and earth level is still the pillar, the bottom line of the finale!

If you can get these ten resources, no matter which power is, it will be much stronger!

At this time, Anderson of the Longteng Group was the first to walk out of the crowd and stopped in front of Fang Yue!

"These ten resources are not safe in your hands! Give them to me and I will keep them for you!"

When Anderson spoke, he was extremely domineering!

At this moment, Fang Yue still showed the aura of the fifth layer of the Innate Realm, and Anderson still did not recognize his identity!

This is clearly a trickery.

If the resources were put in Anderson's hands, wouldn't it be equivalent to beating a dog with a meat bun and never returning?

"Is it safe to put in Fang Yue's hands?"

Zhang Yin laughed blankly!

He naturally knew Fang Yue's identity before he could approach.

In his eyes, Fang Yue is one of the few people on earth who came to the artificial island this time and is worthy of his contact.

Originally, he was going to leave after a little understanding and worked out a strategy to deal with Fang Yue.

However, he hasn't gone far yet, but he saw such a ridiculous scene.

This Anderson actually dared to threaten Fang Yue, reminiscent of Fang Yue's cruelty when he killed the powerful Dark Moon plane.

Zhang Yin shook his head slightly.

The people on this earth are really a mixture of fish and dragons. There are experienced, poisonous and unfathomable geniuses like Fang Yue, and there are also self-righteous and stupid guys like Anderson who are looking for death!

Wandered around.

Zhang Yin is back!

There are free shows, why not watch them?

"Since I won these ten resources myself! I will keep them for myself! They are lost and have nothing to do with you!"

Fang Yue was too lazy to have general knowledge with Anderson.

He just said something indifferently, hoping that Anderson can get out of the trouble! However, he did not expect that Anderson put on a very serious face, and said to Fang Yue with a stern voice: "Fang Yue, this is your consciousness is too low! Now, the earth is in disaster! You are getting resources again. Especially cherish,

This is not your resource, but the resource of the entire human being on the planet. If these resources are lost, can you afford this responsibility? "

Anderson reversed black and white and suppressed Fang Yue with righteousness.

Fang Yue sneered: "I won this resource myself, and it is my business to be ashamed, you can't control it!"

Fang Yue's voice did not fall.

An old man in a cyan road robe walked out of the crowd. His beard and hair were white, and his skin was wrinkled. It seemed that his age should be quite large. "Fang Yue, what you are saying is that yours is wrong! These resources represent the future ten powerhouses of the heaven and earth realm. I think they should be delivered to the people who need them the most. Son of Anderson has already stood in the heaven and earth realm. The edge! The distance

There is only a thin line between breakthroughs. If you donate these resources to Young Master Anderson and let him break through smoothly, there will be one more powerhouse of heaven and earth on our earth, and you will be counted as your boundless merit! "

When the old man in green robe spoke, he was a moral bitch. There is not even the slightest logic in it, but the expression is absolutely righteous.

Chapter 799: The dead don't need respect

"Which green onion are you?"

Fang Yue glanced at the old man in Qingpao coldly.

Is this going out without reading the almanac?

How come so many mad dogs bite people!

"Why don't you know how to respect the old and love the young! Is there anyone who talks to elders like this?"

The Qingpao Taoist's complexion turned red, and the opponent Yue made accusations.

Suddenly, Fang Yue had an extra piece of software in his hand.

The swish sword fell.

Qingpao Taoist sleeves are split.

"The dead don't need respect!"

Fang Yue said lightly.

The accusation of Taoist Qingpao also came to an abrupt end!

From the center of his eyebrows, a thin red line emerged.

Afterwards, Taoist Qingpao's body split into two halves and fell towards the left and right halves respectively.

One sword!

The Taoist Qingpao has fallen!

A faint smell of blood diffused in the air.

"Fang Yue, are you killing people in the street?"

Anderson suddenly spoke gradually. By his side, three strong men from the world realm slowly gathered.

Bring those ten resources from Fang Yue's hands with the help of Dayi's name?

Anderson didn't report much hope for this!

If it were him, he would never give it!

Anderson's real idea is Ming grab!

However, Ming grabbing also needs a reason! That Qingpao Taoist was the reason Anderson found.

I have to admit that the Qingpao Taoist is very annoying.

Even Anderson himself can't wait to tear him!

But he successfully angered Fang Yue.

Originally, Anderson thought Fang Yue would only frighten him, or hurt him.

Unexpectedly, Fang Yue was so simple and neat that he would kill with a sword.

However, in this case, it is better!

Fang Yue killed people, he no longer needed other reasons to deal with Fang Yue!

"I killed someone, how? Are you still fighting for the old guy? Oh, even the three world powers of the Dragon Group are invited! It seems that you are going to kill me once. what!"

Fang Yue laughed, laughed openly, laughed nonchalantly!

His strength has long exceeded the limits of the rules on earth.

Unexpectedly, there are people who use conspiracy and tricks to deal with themselves!

Conspiracy deals with people who live under the rules.

And Fang Yue, not even afraid of rules, is he afraid of conspiracy?

"Fang Yue, what are you talking about nonsense? Why can't I understand? Your actions are too public! I'm here to maintain order and walk for the sky!"

Anderson is serious!

Fang Yue sneered.

"Walking for the sky? Do you think that the sky will be on your side?"

Fang Yue suddenly raised his index finger to the sky!

Wow!

A chain of silver lightning chains fell from the sky, directly trapping Anderson and the three powerhouses behind him!

It's just a moment of effort.

The three powers of the heaven and earth realm also have the pinnacle of the innate realm, and Anderson, who can enter the world realm level in only half a step, was defeated by Fang Yue and captured alive!

"How is this going?"

Whether it was Anderson or the onlookers watching the excitement, after seeing this scene, they were all stunned!

The realm of heaven and earth is already the peak combat power on earth.

Rotational realm exists, but it is a legend!

In the battles and fights with the Dark Moon plane, the Heaven and Earth Realm has fallen a lot, but even if they fall, it is impossible for them to be captured and captured alive like they are now like puppets with no resistance.

"Didn't you say that you are walking the way for the sky? But, it seems that God is not on your side! This thunder represents the punishment of the heavens, is the will of the heaven! And you are trapped by the thunder, Can't move!"

Fang Yue looked at Anderson and others playfully.

Dese, let you dese!

Fang Yue's eyes suddenly became sharp, like a sharp knife, which made Anderson and the others feel distressed!

This Fang Yue is terrifying!

He is not at all in the fifth layer of Xiantian realm!

In Anderson's heart, there was a burst of regret and regret!

Knowing that Fang Yue is so strong, why did they provoke this fierce spirit?

"Go ahead, how do you want to die?"

Fang Yue said proudly with his hands on his back.

Now, the life and death of the four Anderson are all in his hands.

Anderson roared: "Fang Yue, you can't kill us! Now, this earth is being attacked by a powerful enemy. It is precisely when using people. Any master of the world is a precious resource, and you can't tolerate you to slaughter at will!"

"Precious resource? Just you?"

At the corner of Fang Yue's mouth, a ridiculous smile appeared.

"This master of the world realm, I can make as many as I want! Two little guys on the third floor of the world realm, and one little guy on the second floor of the world realm, do you really think you are really good?"

Fang Yue said, waving his sleeves.

In an instant, the void burst.

Teams of puppets at the heaven and earth level are coming out one after another!

A total of ninety-nine and eighty-one puppets of the heaven and earth realm are all the pinnacles in the heaven and earth realm!

There was a cold, scarlet light in their eyes.

Just looking at each other made Anderson's heart tremble!

Anderson is finally desperate!

He realized that the Fang Yue opposite to him was probably Fang Yue who had an enemy of five thousand in the legend!

Otherwise, there is a person named Fang Yue who can be so magical!

As soon as the ninety-nine and eighty-one puppet warriors at the pinnacle level of the heaven and earth realm emerged, the smile on Zhang Yin's face gradually converged.

He could feel that these ninety-nine and eighty-one puppets were extraordinary.

A single end may be easy to deal with.

But if the eighty-one puppets at the pinnacle level of the heaven and earth realm join hands, I'm afraid that even the ordinary strong rotation realm will fall among them!

"Fang Yue, let me go!"

Anderson wailed in despair.

However, Fang Yue did not waver, what would be the result if he fell into Anderson's hands.

He could guess with his toes.

Hands up.

Sword fall!

The silver light shone brightly.

Anderson and the three masters of heaven and earth behind him were in different places, blood spurted, and a piece of land was dyed red!

"Killers, kill them forever!"

Fang Yue gave a six-character sigh. After that, the ninety-nine and eighty-one puppets were put away.

He summoned the puppet, not for Anderson at all.

But as a deterrent, Zhang Yin understood that the earth also has its own heritage, and it is not so easy to be manipulated by him at will!

Before Zhang Yin left, his evaluation of Fang Yue's threat was even higher!

Fang Yue stood in front of the ring, watching the strong men of the earth and the descendants of the dark moon plane continue to fight.

Did not shoot again!

After about Mozhan tea time.

Zhao Jingcai completely broke free from the edge of life and death.

Resurrected from the dead, standing after breaking.

Zhao Jing's cultivation base does not retreat but advances, and he breaks through to the sixth level of the Innate Realm next time!

He stepped forward and clasped his fists to express his gratitude to Yue.

Fang Yue nodded slightly.

He took out a copy of the world-level resources and gave it to Zhao Jing! "This resource is given to you! Not to your children and grandchildren! You are a generation of boxing masters. If you grow up, you will be bigger than your children and grandchildren! You must understand that you have given your children and grandchildren too much practice. Resources, let them get something for nothing, and

It is not helping them, but a kind of entrapment to them! "

For Fang Yue, stop here.

As for how much Zhao Jing can understand, it all depends on his own understanding and good luck.

This Zhao Jing, everything is good, but Fang Yue feels helpless because of being too spoiled for his children and grandchildren! "Children and grandchildren have their own blessings, I understand that! If you told me this before this battle, I would definitely dismiss it! However, after experiencing this life and death, I realized that since ancient times, blessings and misfortunes depend on each other. Let your children and grandchildren wear it

To grow up and bear some pain is not necessarily a bad thing for their growth! "

Zhao Jing's mind suddenly opened up!

He felt that his vision was too narrow before.

He can protect his children and grandchildren for a while, how can he protect them for the first time!

Only letting them break free of protection and grow by themselves is the best gift and gift to them!

Fang Yue nodded when seeing Zhao Jingming now!

In the next battle, Fang Yue seemed to be watching a play, occasionally giving pointers, but he never broke the rules of the Dark Moon plane!

This is a tempering of the strong on the earth. To survive, the battle experience itself is wealth.

And if they are unfortunately lost, it is that their talents and aptitudes are not enough, the survival of the fittest, natural selection, no one can stop it!

Three consecutive hours of time.

Fang Yue watched dozens of battles.

For every battle, he carefully observes.

He discovered that the earthlings are really talented in combat.

Regardless of the level of the innate or the world, the practitioners of the earth people have the upper hand.

Of the ten games, about seven of them will be won by the earthlings!

Even a few people can win three or five games in a row!

Those who descended from the Dark Moon plane gradually became gloomy, which did not match their previous expectations.

According to their previous predictions, the earth has just recovered its spiritual energy, even if the earth people are strong, they are not much stronger. Their combat experience should not be much, it can even be said to be pitiful!

The moves and secret methods are almost blank.

There is no advantage in combat.

However, reality subverted their previous guesses.

Among the people on earth, there are many martial arts masters and masters! The fighting method they comprehend is natural, and more sophisticated than the practitioners on the Dark Moon plane.

Fang Yue saw Zhang He, a hundred-year-old master of the earth boxing technique, his figure has been tempered to the pinnacle. The figure is like a real dragon, or a crane, or a phoenix, or a spirit turtle!

Zhang He's Xingyiquan is no longer limited to the twelve true forms of traditional Xingyiquan.

He can easily express the meaning of some gods and beasts in myths and legends.

As soon as Zhang He appeared, he used the cultivation base of the first level of the heaven and earth realm to challenge the descendants of the dark moon plane of the second level of the world realm to warm up!

Three strokes to defeat the enemy!

Zhang He has obtained three resources for cultivating strong people in the second level of the heaven and earth realm!

Immediately afterwards, Zhang He successively challenged the descendants of the dark moon plane on the third, fourth, and fifth levels of the heaven and earth realm!

The other party, no one can survive a hundred moves in his hands!

Zhang He has leapfrogged and challenged one after another, and the reward resources he received are also quite generous.

He decided to stop after winning five games in a row.

And the people on the Dark Moon plane are distressed!

Especially in the last game, Zhang He directly won ten points to cultivate the resources of the fifth layer of the heaven and earth realm!

Those resources, if measured by spirit stones, are probably equivalent to nearly 100 million spirit stones!

Such a large number is not a small number even for the royal family on the Dark Moon plane.

However, if they are willing to bet, they have to admit it! After observing so many battles, Fang Yue let go of Fang Yunshan and asked her to challenge a descendant of the first level of the Innate Realm in the Dark Moon plane!

Chapter 800: Fang Yunshan's strength

Fang Yue was extremely cautious by nature. After confirming that the descendants of the Dark Moon plane had average combat effectiveness, he only let Fang Yunshan take risks.

Even Fang Yue had already imprinted a spiritual mark on Fang Yunshan's body!

If Fang Yunshan was really careless or something, he would suffer life and death.

He would also disregard the rules and act brazenly to protect his sister's life!

In Fang Yue's eyes, what are rules?

His sister's life is the most important.

Fang Yunshan took the stage.

Her opponent was a warrior from the first level of the Innate Realm on the Dark Moon plane with three heads!

The three heads represent different attributes!

One is the head of a hungry wolf, representing the attribute of destruction, the other is the head of a tiger, representing the attribute of devouring, and the head of a brown bear, representing the attribute of earth!

The three heads have different meanings.

They have different magical powers!

"Three heads?"

Fang Yue frowned slightly. He didn't expect that when his sister came on stage, he would encounter creatures of this race.

The three-headed tribe has three heads in total, and each head has independent wisdom!

They fight separately and cooperate with each other, which is more terrifying than facing three people at the same time!

This is Fang Yunshan's first battle.

Fang Yue just wanted her to practice her hand against an ordinary Darkmoon person!

"You, do it!"

Before Fang Yue continued to think about it.

Fang Yunshan's crisp voice came from the ring!

"This Nizi!"

Fang Yue smiled bitterly and shook his head.

Although Fang Yunshan is her own sister, she does not have the slightest cunning and wisdom of her own.

If he were to be replaced by him, he would definitely choose to be the strongest player. After all, this battle was a battle of life and death.

Fairness and morality are not important.

The most important thing is to win and kill the opponent!

The three-headed clan is also welcome, and even saves the time of self-reporting!

Its head, which belongs to the hungry wolf, opened its mouth directly.

A three-inch black small sword spouted from it!

The surface of the black little sword was surrounded by a faint aura of destruction.

The small sword pierced and turned into a black line, and appeared in front of Fang Yunshan in a blink of an eye!

Fang Yunshan's face was tight and serious!

She seemed to have completely entered a fighting state, and a scream came out.

"broken!"

In front of Fang Yunshan, hundreds of millions of dark blue silk threads condensed out, directly splitting the small black sword into dozens of pieces, and cracking to the ground!

Seeing Fang Yunshan's response properly.

Fang Yue also let out a sigh of relief.

It seems that my sister is not as immature as she imagined.

"Taiyin Xuansi! It turns out that you practiced the method of the power of the Taiyin!"

The three-headed people smiled lightly, with a clear look on their faces.

Fang Yue's sister, if she defeated it so easily, she would kill it. On the contrary, he would suspect that there was a problem with all this!

He came this time, but it was very purposeful!

Capture Fang Yue's sister or kill him, forcing Fang Yue to submit!

The three-headed family said this.

Fang Yue's heart was slightly flustered.

Oops, it was targeted!

This was Fang Yue's first thought!

The power of the lunar yin can not be recognized by just one person!

Even the vast majority of practitioners in the heaven and earth realm are still in a hazy, chaotic state, unable to distinguish the difference between Lunar and Shaoyin!

Since these three-headed tribes can be recognized at a glance, it means that his origin and identity must be extraordinary!

Such an opponent must have been deliberately arranged for Fang Yunshan by the people on the Dark Moon plane!

At this time, Fang Yunshan finally took the initiative!

One of her fingers pointed at the tribe.

A Taiyin mysterious silk pierced straight toward the chest of the three-headed tribe, like a sharp arrow that broke the string!

Three heads share the same body.

The head is obviously not the weakness of these three heads.

Three heads, one burst and two.

But if the heart breaks, all three heads are finished!

Fang Yunshan found the weakness of the three-headed tribe and wanted to kill him with one blow.

But at this time, a faint milky white halo appeared on the body surface of the three-headed race.

These three-headed tribes actually wore a armored magic weapon of the pinnacle of innate level!

Ding.

Taiyin Xuansi collided with the magic weapon.

Taiyin Xuansi only left a small groove on the armor.

The armor trembled.

The three-headed tribe showed a very surprised expression.

"Yes, yes, it really is the opponent I value! The first level of the innate realm just now can leave a faint trace on my white light armor!"

There is a trace of indifference in the smile of the three-headed race!

He praised him, but in his heart, he hated this unparalleled genius!

How did he get his proud and similar cultivation base?

It came from fighting among tens of millions of peers, and experienced countless trials of blood and fire.

And those so-called geniuses, but with good talents and hard backgrounds, can stand out from their peers!

Why are they so good?

The hearts of the three-headed tribe were burning with jealousy, and the murderous intent of the other party Yunshan gathered in an instant, suddenly like a knife!

"Accept the move! The shadow of the sword is lingering!"

The three-headed tribe swung out.

Layers of sword light turned into thousands of shadows.

Every shadow looks exactly like the three-headed tribe!

They were so shadowy and surrounded Fang Yunshan in the center!

The three-headed clan did not procrastinate, and directly used the killer!

Thousands of shadows are equivalent to thousands of three-headed tribes making simultaneous shots.

Knife cut, tear the void. Like a net of heaven and earth, Fang Yunshan didn't leave any room for survival at all!

"Shadow Technique!"

Fang Yunshan turned into a shadow at the same time, lurking on the ground, no more entity!

When Fang Yue taught Fang Yunshan, he didn't teach much about attack!

Instead, they are all kinds of life-saving means. Every day, Fang Yunshan is required to practice, exercise, study, and be proficient!

According to Fang Yue's statement, in the battlefield, only if you can protect your little life can you have the possibility of winning!

Your opponent can't kill you, but you can slowly kill the opponent!

It's clear at a glance who wins and loses in such a battle.

Once the Shadow Transformation is released, you are immune to all physical attacks!

The three-headed tribe was slightly surprised. At this time, Fang Yunshan made a bold move.

"It's overcast and drizzle!"

The patter of black raindrops fell.

Every drop of rain is not very big!

In the gentle breeze, mixed with drizzle, every drop of raindrop is like a filament of cow hair.

However, these rains are not as soft and harmless as ordinary spring rains.

Its essence is the condensing of the power of the lunar yin free between the heaven and the earth. Every trace of the power of the lunar yin is extremely corrosive!

Don't miss the drizzle.

The white light armor on the surface of the three-headed race was quickly corroded, and it didn't rot into shape!

However, the three-headed tribe did not show the slightest despair or angry expression.

A weird smile curled up at the corner of his mouth.

"The stronger you are, the more interesting it is to kill!"

The three-headed clan said to himself!

The breath of his body is skyrocketing!

From the first level of the innate realm, it gradually climbed to the second, third, and fourth level of the innate realm, and finally stayed at the fifth layer of the innate realm!

"No! These three-headed tribe concealed their true strength!"

Fang Yue was caught off guard. He didn't expect that Dark Moon plane would break the rules earlier to deal with Fang Yunshan in order to deal with him!

"Stop it to me!"

Fang Yue took a step forward, trying to stop him.

"Fang Yue, your opponent is me!"

At this time, a soft voice appeared!

See the poor picture.

Zhang Yin appears again!

He looked at Fang Yue with a faint smile, with a hint of sarcasm in his eyes.

"Zhang Yin, get out of here! Otherwise, I don't guarantee what I will do!"

Fang Yue looked at Zhang Yin, his voice became extremely low and suppressed!

This seal, hitting his sister, has already met his principles and bottom line!

"Fang Yue, your sister is practicing the Taiyin method! The ancient technique is a good material for refining Taiyin puppets! With her body as a carrier, I might be able to have a good ancestor in the Dark Moon family. Host!"

In Zhang Yin's voice, the gloomy taste became stronger!

And the soles of the three-headed tribe stomped the ground suddenly.

The earth shattered.

Fang Yunshan was shocked alive, severely injured and vomiting blood!

Isn't she Fang Yue, an old fritters like Fang Yue who has experienced many battles and countless methods!

Shadow transformation is absolutely invincible for physical defense.

But she hasn't reached that level yet!

The three-headed tribe shook slightly, and she was completely exposed!

The three-headed tribe stretched one palm to Fang Yunshan, and turned into a golden rope, which directly tied Fang Yunshan into zongzi, and sealed all the flow of true energy in her body!

"We have taken this Fang Yunshan! Fang Yue, if you want to exchange her, please come to my Dark Moon plane at any time!"

The tiger in the middle of the three-headed tribe opened his mouth, and he grinned.

The expression is getting hideous!

"Did you go?"

Fang Yue's face was gloomy, and the 108-stroke flag was directly thrown into the air. Form a formation to seal the void.

"Magic Formation?"

The smile on Zhang Yin's face was slightly frozen. He obviously didn't expect Fang Yue to have such an ability.

The void is sealed, which means that they cannot leave in a short time!

"Kassim, please cut off Fang Yunshan's hand muscles for me, and let his brother know how powerful our Dark Moon plane is!"

Although it was a bit unexpected, Zhang Yin still had the chance to win.

In their survey data, Fang Yue's biggest weakness is this sister!

"no problem!"

Three-headed clan Kassim took out a short dagger, panicked, and pierced Fang Yunshan's wrist.

However, before he swung the dagger close to Fang Yunshan's wrist, his palm had lost his intuition, and he flew out with the blood!

Behind Qasim.

I don't know when, another Fang Yue appeared.

This Fang Yue's figure is formed by the complete aura of heaven and earth!

"It's just a three-headed clan, who do you think you are? Can you commit a crime in front of me?"

Fang Yue's avatar had an indifferent expression, carrying a war knife in his hand, and on the blood tank above, Li dripped the blood that spewed out when he cut off Qasim's wrist just now!

"Do not!"

Qasim suddenly discovered that he could not move at all under the majesty of Fang Yue's clone!

The next moment, Fang Yue's clone slashed three heads on Qasim's neck with a single blow. The wolf's head, the tiger's head, and the bear's head all fell to the ground with blood flowing.
