

God of Life 881

Chapter 881: No sincerity

Tian Kuan's tone is deep and can set the atmosphere very well. Fang Yue coughed dryly, and then said, "Tian Kuan, you have misunderstood. I am not suspicious of your master. I am just suspicious of you, such a stunning and stunning teacher. Why did you nurture you

What kind of disciple? "

Hello, everyone, my name is Tian Kuan and I come from the Universe. Now, a year ago, there was a guy who owed him a lot. I wanted to kill him. Does anyone want to persuade me?

Reply: Go! Boy!

Old iron, 666

At this moment, Tian Kuan's heart is broken, and he is also very powerful in his own universe. After taking a breath of cold breath...it didn't come back...then took another breath, Tian Kuan was steady for a while before he said: "I am the teacher's youngest disciple, so my cultivation level is not very strong, but my talent is extraordinary. , I believe, my teacher

Will definitely be proud of me. "

Tian Kuan said confidently.

"Old iron, come on!"

Fang Yue was very perfunctory and encouraged.

"No sincerity at all!"

Tian Kuan also murmured, and then he continued to discuss his bloodline research with Fang Yue.

Tian Kuan was immersed in this way, not knowing how many years it has been.

He is definitely from a professional class and has a solid foundation.

However, even though Fang Yue was born in a wild road, he integrated the knowledge of Fulu, biotechnology and other aspects into the bloodline, and he was analogous, and at the same time, he was a demon body, and had an innate advantage in bloodline perception.

Therefore, when he was discussing with Tian Kuan, he was able to come up with some fresh insights from time to time, and the two thoughts collided, and some brilliant ideas often appeared.

Both of them are typical of not doing business properly!

The discussion was fierce, and things like fishermen's profit were all forgotten, and they were all forgotten! "This primary life evolution potion was obtained by me on a planet with biological civilization as the mainstream among the ten thousand worlds! After taking it, it can smoothly and steadily stimulate some sleeping genes in the body! In the gene chain, there are incedes and Exons. Usually, the

signs of exons are dubbed and transferred, but in the DNA chain, the number of exons is far less than introns! These introns are recorded A large amount of genetic information of ancestors! Inspire the intron, borrow

This return to ancestors is a relatively stable way of evolution! "

Fang Yue cleared his throat. During this time, he was quite obsessed with bloodline research.

In fact, Deep Blue Planet has delved into the research of biological genes to a very profound level!

Fang Yue just stole their achievements!

"Gene, DNA, and the direction of bloodline research in the Ten Thousand Worlds Universe is really different from that of my Universe. Stones from other mountains can be used for jade. This is indeed a good idea!"

Tian Kuan's eyes lit up.

He decided to do it!

The destruction of this great cloud world has just begun. Ninety-nine of the creatures are still alive, but if you wait another month or two, it is estimated that there will be no grasshopper left!

Tian Kuan ordered a little demon under his men to arrest a native of the Great Cloud World!

The natives of the Great Cloud Realm fainted when they were brought in!

Tian Kuan did experiments on living humans, and what substitutes for pigs, horses, cows, sheep, monkeys, and mice are genetically different from humans.

Fang Yue did not stop Tian Kuan.

Although he was a little compassionate, even if Tian Kuan did not capture this native for experimentation, he could not survive in this troubled world!

The natives were injected with the primary evolution potion by Fang Yue.

Fang Yue and Tian Kuan both opened the eyes of the sky and watched the changes in the indigenous vital signs intently.

He was originally a big man two meters tall, with dark skin and thick black hair like a barbarian.

But after the injection of the medicine, his body began to shrink, becoming about 1.8 meters tall, and his muscles became more developed, like a pile of rocks!

The black hair faded away, and the skin became fair and smooth!

The rough lines on his face softened a lot. It's like a gentle and beautiful man.

"Fang Yue, are you sure this is a primary evolution potion, not a beauty needle?"

Tian Kuan obliquely looks at Fangyue.

Special code, the effect of this stitch is too obvious!

Among other things, this native is at least a lot more handsome!

Fang Yue's face was dark, "Don't you feel that the aura in his body has changed?"

Tian Kuan felt patiently, and sure enough, the cultivation realm of this indigenous man had been elevated from the second level of the previous Xiantian level to the fifth level of the Xiantian level! His body surface is covered with a faint milky white light, giving people a gentle and elegant feeling! Tian Kuan sighed and said, "The blood medicine of the Ten Thousand Worlds is indeed ingenious. Although I can make similar things in the universe, and even more effective, it is better than the genetic evolution medicine on earth in terms of materials and cost. expensive

too much! "

"Is it enough for the two of you! This is in the Great Cloud Realm, the battlefield of two universes, regardless of the barriers of your respective camp identities, and you two join hands to form an alliance! Are you not ready to fight this battle? "

Xue Ji couldn't help but remind her.

Following this rhythm, this big cloud world has to become Fang Yue and Tian Kuan's experimental ground.

There should be a limit if these two people don't know the difference!

"Who said that we two are not doing business properly! Why do I feel so unwilling to listen to this? Am I that kind of person?"

Fang Yue is aggressive, looking at Xue Ji, you can insult Tian Kuan, but you can't insult me!

Xue Ji was also bewildered by Fang Yue, who was so compelling.

It was the first time she saw such a gentleman.

"Yes!"

Nangongque nodded very surely.

Fang Yue's aggressive aura immediately dissipated. Even my own people said so. That's it!

However, Nangongque, are you from there?

The two of us are together, alright! "Fang Yue, your idea just now makes me feel pretty good! In fact, we can inject elementary genetic medicine into the little devil's body! This little devil can continue to evolve. The principle is that their genetic chain is blocked.

It is printed with quite powerful genes. If it is to completely awaken the gene. The little devil can be turned into a real biological weapon, bloodthirsty and cruel, almost with the power of exterminating the world! "

Tian Kuan and Fang Yue once again entered a state of crazy experimentation, Xue Ji covered her face, feeling that what she said just now was for nothing.

This time, there are no indigenous people as guinea pigs.

Groups of little demons were tossed about by the two.

What genetic medicine, what life crystallization, what baicao liquid, Fang Yue and Tian Kuan almost injected something into the little devil for experiment.

The little devil almost thought that these two talents were real devil adults in human skin!

All day and night, Fang Yue and Tian Kuanjing said some terms they didn't understand.

Both of them had green light in their eyes. Xue Ji and Nangong Que tried to interrupt them several times, but they stopped abruptly.

They looked at the miserable little demons, and worried that if the two of them really rose up, they would be harmed by them as experimental materials.

If someone else's character has been trustworthy, he would definitely not do such an unreliable thing, but the problem is that Fang Yue and Tian Kuan belong to the kind of people who are already reliable and do such things. , Not surprising at all.

Fang Yue and Tian Kuan have gained a lot from this day-to-night research. They communicated with each other and learned from each other. In terms of bloodline research, they lowered their heads than their own research. Ten years of work has been more rewarding! Just when the two arose.

A figure quietly appeared behind a hill several kilometers away.

Wang Lin is a rematch player in this Beidou fight. After entering the Great Cloud Realm, he didn't have a long time to rest before encountering various pursuits by the little devil.

He comes from an ancient school, and his background is quite mysterious.

For him, the origin of this little devil is not enough to be called a secret at all!

These little demons come from the universe beyond.

That is a universe that is larger and more powerful than the universe of Ten Thousand Realms. The appearance of the little devil made Wang Lin feel terrified. After all, the danger of the other side universe has always existed for the ten thousand world universe, and even not long ago, there was a suspected arrival of the other side universe mixed into the host of the Battle of Bidou.

News about the framed players came out.

Although the spy of the organizer of the Big Dipper had already broken the law, Wang Lin's heart was still full of anxiety!

"This is Fang Yue?"

Since Wang Lin is a rematch player, he will naturally study the opponents he may face.

Fang Yue's information is a compulsory course on every player's desk.

Because, he may not be the strongest player in this Beidou rematch.

But at present it is the most noticeable existence!

In Fang Yue's first game, he didn't say one out of five, and even killed the saint with his opponent's knife.

Although the referee made some unfair judgments in the game, similar situations have occurred in previous Beidou disputes. No one has seen that the players have given the referee to die.

Fang Yue's old case was also revealed at the same time.

It turns out that this guy killed the referee in the Beidou fight.

Even the stories and hatred between his numerous cases and the organizers of the Beidou Controversy could not be finished even for three days and three nights.

"Fang Yue, am I going to join forces with him to attack people from the other side of the universe?"

Wang Lin was also hesitating, although Fang Yue was not very good in terms of reputation.

But after all, he is also a member of the Ten Thousand Realms Universe, so it is impossible to take refuge in the other side of the universe!

When Wang Lin hesitated, behind him, a cold shadow appeared.

"Wang Lin?"

The shadow turned into a human figure and raised his eyebrows, looking at Wang Lin, there was a slight scent of contempt in his eyes.

"who are you?"

Wang Lin felt cold in his hands and feet, he was not a traditional combat career!

Auxiliary skill repair, this is Wang Lin's profession, his profession is quite rare, even among the ten thousand realms, most of the world does not have this profession.

Wang Lin is not incapable of fighting, but compared to the contestants of the Beidou Fight, his fighting level is very average.

What Wang Lin is really good about is the auxiliary skills in battle. He can quickly bring a teammate back to life, and can also make people invulnerable, and his defense power can be increased dozens of times in a short time!

Wang Lin's talent is this type of dad.

As a man, Wang Lin is also very reluctant, but he has nothing to do with his talent!

If he were really a combatant, he would not hide in the Middle East of the Great Cloud Realm, and he would not even have the courage to confront the people of the universe!

"I surrender!"

Wang Lin raised his hands very simply. Between life and dignity, Wang Lin decisively chose the former.

Chapter 882: The one who killed you

"surrender?"

Carolan looked at Wang Lin in surprise. He had seen Tianjiao of Ten Thousand Realms without spine, but he had never seen such a spineless.

Brother, I haven't shot yet, OK?

He didn't even say anything threatening. I have no sense of accomplishment if you do this!

Carolan was also very reluctant in his heart!

But if they surrendered, it would be hard to say if you hit the killer again!

Carolan was about to take Wang Lin away and tortured him, oh no, maybe he hadn't tortured yet, he said everything!

Just this bone, just this fuck, tut!

"Carolan, this is my territory, you have crossed the line!"

Tian Kuan appeared beside Carolan. At such a close distance, with this big movement, both Tian Kuan and Fang Yue had noticed the changes here.

Carolan didn't show the slightest panic when he saw Tian Kuan. He knew that Tian Kuan had found himself. However, Carolan was not afraid of Tian Kuan.

Among the many immortal species that have descended, Tian Kuan can be regarded as a player of downstream strength.

Tian Kuan's force value is not very high, his real strength is bloodline research.

It is said that Tian Kuan has several precious blood potions in his hand, and every one he takes out will attract countless attention!

Carolan had already regarded Tian Kuan as a fat sheep to be slaughtered.

Carolan felt sorry for himself with a low force value and a heavy treasure, not to **** Tian Kuan.

"Where I am is my site! Why, Tian Kuan, do you want to take action against me?"

Carolan looked at Tian Kuan mockingly. Just now, Wang Lin really surrendered too quickly. He hasn't read the villain lines he prepared yet!

"Is this someone from the Universe?" Fang Yue glanced at Carolan. The third level of Yin and Yang! I guess, according to Tian Kuan's introduction, this time they are all immortal species from their sect. At this cultivation level and level, they are sorry if they don't have the strength of the leader.

The shore universe came thousands of miles away, the resource cost when it came!

"and who are you?"

Carolan only noticed Fang Yue.

It was not that he underestimated the enemy, but that Fang Yue's talented world realm really didn't deserve his attention!

"The one who killed you!"

Fang Yue licked his lips, there was a fierce murderous in his eyes!

Carolan was a little bit horrified. He felt the hairs on his back stand up, and instinctively sensed a sharp murderous intent.

Suddenly, Fang Yue shot!

A faintly blue dagger, like a tongue that utters a letter, slew towards Carolan!

The dagger had no wind, as if it had penetrated into a vacuum, without any resistance.

Carolan saw the almost incredible dagger, and quickly activated a talisman on his body.

Fu Lu was awakened by Zhen Qi, without fire spontaneously.

A layer of milky white mask shrouded Carolan's body, which was equivalent to a layer of mask formed by a strong man in the Yin and Yang realm to cast his spells with all his strength.

Regardless of whether it is in the universe of the other side or the universe of the Ten Thousand Realms, the prices are actually the same.

The price of this yin and yang level paper talisman is quite high.

Even Carolan feels distressed when using it!

Damn assassin, if it falls into my hands, see if I will not torture you to death!

Carolan gritted his teeth, and in his heart Fang Yue had become an assassin by default!

The first blow of the assassin was the strongest.

A single blow is impossible, and he flees thousands of miles away.

Carolan even started to outline in his mind how to block Fang Yue's retreat when he wanted to retreat, and then watched him disappear in despair.

However, Carolan's plan has not yet been completed.

Behind him, a little demon no longer knew when it lurked behind him.

The sharp claws were like tearing the silk, tearing his protective shield easily!

"No, this is impossible!"

Carolan naturally knew the origin and strength of Tian Kuan.

Fighting alone, 90% of the immortal species that came this time were better than Tian Kuan. But if it is a force collision, or a large-scale battle, Tian Kuan can instead rely on biological weapons to defeat 99% of the people!

He investigated the little devil's hole cards.

The newly born little devil is not too strong.

Their growth requires a relatively long process.

Tian Kuan was the best to kill in the first period of time.

But what the **** is this little devil?

Isn't this too strong?

The spy who made up information, your special code is to install titanium dog eyes! Even my light guard broke open.

This little devil is at least at the level of the Yin-Yang realm, and the cultivator still ignores all defenses!

At this time, even Fang Yue and Tian Kuan were shocked.

This little demon is Fang Yue and Tian Kuan, the little demon who used to experiment, it was injected with the primary evolution potion, and then swallowed the life crystal.

Fang Yue and Tian Kuan only felt that the little devil's physical signs had changed.

But Guitema knew that this little devil was already so strong!

The Avenue of Nothingness!

That is the top ten existence in the avenue, ignoring all defense methods and directly attacking the body.

The favorite killer of all assassins!

Carolan's back was scratched by the sharp claws of the little devil, and blood was dripping.

All the little demons are born with cursed buff.

The wounds left by them are extremely difficult to heal. Unless someone can banish the curse for them.

Carolan's face gradually became gloomy.

He didn't really care about the injuries on his body.

Everyone is afraid of curses, but in the universe beyond, the curse is not insoluble after all!

Carolan had already prepared a potion to dissolve the curse, just find a quiet place, take the potion, and heal the injury for three days and three nights, and the injury will naturally heal.

The top priority now is to cut off these two annoying guys.

Mainly Tian Kuan, as for the unknown Terran Assassin, but it is insignificant!

A strong murderous intent suddenly burst out of Carolan's body.

Murderous intent is like a horse training, slashing towards Fang Yue!

"We don't need your humble human race from the Ten Thousand Worlds Universe to watch the matter of the strong among us in the universe!"

Carolan's eyes were filled with killing intent.

He was going to clear the field. He didn't want to fight to death by himself, but in the end he was watched by an ant in the world.

"when!"

Fang Yue's body surface slowly condensed into a golden bell,

His eyes were clear, and he looked at Carolan blankly.

"You can tell me again if you have the ability!"

Fang Yue's tone was quite plain.

It seemed that this matter had nothing to do with him.

However, Carolan felt a swish coldness on his back.

The ants in this world, it seems that they are not as fragile as they think!

There was a little hesitation in Carolan's heart.

However, on the battlefield, this hesitation is fatal!

Fang Yue pointed out like a sword. Jian Mang pointed straight and fell on Carolan's brows!

The cold sword light, spitting and killing intent, seems to be a poisonous snake at any time, violently hurting people!

"Do you dare to point at me with sword light?"

Carolan was not in the mood.

He is in the other side of the universe, anyhow, he is also a stunner for a while.

Ever been so ruthlessly pointed at the eyebrows.

A layer of silver-gray armor slowly condensed out of him. There was armor and helmet. On this armor, silver runes flickered.

Every rune seems to be engraved with the will of heaven and earth.

"Runed armor? Carolan, you got this kind of thing!"

Tian Kuan was surprised, his eyes flashed with a little worry.

Although, in the martial arts, Tian Kuan is a typical representative who is not doing his work properly and is not learning and skillless.

But he is not ignorant of everything.

Rune armor, the existence of this thing is simply taboo among the martial arts.

Rune armor, known as unparalleled strong, its material, is the material for refining saint magical tools.

But the horror of rune armor is not only because of its sturdy material, but more importantly, in the flashing runes, and even more terrifying, for the blessing of wearing strength.

There are a total of 1,800 runes on the rune armor, each of which is a saint-level powerhouse personally branded on it!

Therefore, the rune armor can drive even the strong of Yin and Yang realm.

But its true power is not weaker than a true saint magic weapon!

Carolan laughed and looked at Tian Kuan contemptuously.

"Kill the human race in this universe and take refuge in me. I can go around you and not die!"

Carolan summoned the rune armor, it was truly emboldened.

This was the trump card that his grandfather gave him to come to the Ten Thousand Realms Universe to save his life, and he didn't expect to use it so soon!

"It's not fair that you rely on external forces!"

Tian Kuan was extremely excited, he accused Carolan.

To deal with a practitioner in the realm of heaven and earth, Carolan was already much higher than Fang Yue in realm.

Now he is still wearing the legendary saint's first magic weapon-rune armor.

This is simply RMB players versus ordinary players.

The gap is self-evident.

"Fairness? Huh! Where is fairness in this world! In my eyes, the human beings in the universe is a humble ant. Do we need to talk about fairness when dealing with an ant?"

Tian Kuan said with confidence. There is no even the slightest moral ashamed of bullying ordinary players!

Fang Yue looked at Carolan calmly, with no wave in his eyes.

"If you say so, don't blame me!"

Slowly, a figure appeared behind Fang Yue!

Tian Kuan was disdainful. Although he didn't see the figure clearly, what good things could be brought out by a little girl in the world.

Bluffing!

"Is this your clone? But, even your deity can't beat me. What use is it for you to summon a clone?"

The disdain in Tian Kuan's eyes grew thicker.

Fang Yue was still expressionless.

The silhouette of that figure gradually changed from fuzzy to clear, and the cold stone body shone with a metallic luster!

Sengoku!

This is the external incarnation that Fang Yue finally refined.

Born to be a stone spirit, because of the robbery, this physical body has entered the level of a saint!

If Tian Kuan wearing rune armor is a RMB player, then Sengoku is a standard inside player, and there is even a suspicion that the insider of the game is pretending to be a supporter!

Qianshi, too powerful, if it can really stabilize at the level of the Saint Realm, it won't even take long, he is a senior Saint, comparable to the existence of a heavenly gang that has broken through the 18th floor!

If it weren't for a coincidence, Fang Yue wouldn't get this powerful and unmatched body! It's just that this physical body is Fang Yue's assassin, and he wouldn't take it out easily if he had to.

Chapter 883: Local tyrant meets Shenhao

After all, Fang Yue's current realm is here, unable to display the ability of this physical body!

If Qianshi is immortal, by virtue of this physical body, he can at least be regarded as a powerful one among the saints.

An old saint who has been sanctified for two to three thousand years, he is not shocked.

But it fell into Fang Yue's hands, and it was estimated that he was the weakest saint in history!

Practitioners below bullying and bullying saints are still strong, and no matter how strong they are, they will stop cooking completely!

However, the weakest saint is also a saint!

A sage clone, in this big cloud world, is enough to frighten one party!

The smile on Carolan's face solidified.

Brother, can we do it all over again?

When local tyrants meet Shenhao, they naturally want to cry without tears!

Presumably, when his grandfather gave him the rune armor, he never thought that he would meet Fang Yue when he came to the universe of ten thousand worlds, a very unreasonable existence like Fang Yue!

"Do you still fight?"

Fang Yue looked at Carolan, his mouth curled up with a hint of mockery.

"do not fight!"

Caroland simply admits it!

What are you playing? Didn't you see that everyone is wearing a god-like costume?

"If you don't fight, you can sign a contract agreement with me! You will be my slave in the future. For five hundred years, if you behave well, the contract will be cancelled directly!"

Fang Yue had already prepared, took out the paper and pen, and the contract that had been prepared long ago, and pushed it to Carolan!

People from the other side of the universe will sooner or later come to the Ten Thousand Worlds universe in large numbers.

In Fang Yue's view, it is a very necessary thing to capture a few more livelihoods and understand the inside story of the Universe!

Caroland wanted to cry without tears.

"Not signed?"

"What do you think?"

Qianshi's body is approaching step by step, and the majestic holy breath is crushing towards Carolan!

Carolan felt suffocated for a while!

Is this a threat?

Yes, this special mother is a threat!

"I am an immortal species. Once detected and become someone else's slave, I will be disqualified by the sect. For my master, the sect will also send a large number of masters to chase and kill, endlessly!"

Caroland is still trying to fight for his rights.

Fang Yue glanced at him obliquely.

That wisp of cold murderous intent is as real as it is.

Carolan shut up immediately. He knew that if he dared to make ink, Fang Yue would definitely stab him.

"sign!"

Fang Yue is extremely domineering!

Carolan had to stop obediently and signed his name on the contract!

The contract took effect in an instant, and Carolan had a vague illusion that as long as he did anything that did not conform to Fang Yue's interests, he would be punished by the heavens.

"This is the contract of the soul. Unless someone has the ability to perceive the depths of your soul bit by bit, no one can detect the existence of this contract!"

Rarely, Fang Yue worked as a conscientious businessman and explained the origin of the contract for Carolan.

If you look from the outside world, even if it is a virtual fairy, you will not know that Carolan has signed a contract with himself.

Caroland nodded.

It turned out that Fang Yue had already considered.

Next.

Fang Yue set his sights on Wang Lin.

"I still have a contract here, do you sign it or not!"

Fang Yue took out another soul contract.

The smile on Wang Lin's face stopped abruptly!

"We are friendly forces!"

"In my eyes, there is no friendly army. In this world, the most untrustworthy is the heart! My friend is my heart, but you, I don't believe it!"

Fang Yue sighed.

In his words, there is no targeted meaning.

But when Tian Kuan next to him heard Fang Yue's words, he immediately felt that Fang Yue was a man with a story.

Look, the contract on his sleeve.

Can people without stories prepare so many soul contracts?

Wang Lin was greedy of life and fear of death, so he was planning to surrender Carolan.

This time, it was simply changed to a new owner.

Swish on the contract, signed his name!

"Well, good!"

Fang Yue succeeded in conquering the two younger brothers, but there were not too many waves in his heart!

The power he has now is simply out of proportion to the crisis that the earth will face in the future!

Du Cheng held the sword in both hands and sat alone on a smooth stone, his eyes gazed slightly, recovering from the intense physical strength.

On the ground, there was a mess of corpses.

All kinds of biological weapons were cut into pieces, incomplete stones, everywhere, the blood of the devil, gathered in a certain direction, vaguely forming a river!

Du Cheng comes from the realm of earth immortals and is a casual practitioner.

He has gone through the tragic fight of the cycle of a hundred battles before he walked here.

Du Cheng has no background and no talent.

His strength is honed by his own sword!

Within ten kilometers, all biological weapons have been cleaned.

However, Du Cheng was unharmed, not even a drop of blood splashed by the little demon!

Du Cheng is a sword repairer.

Do not repair flying swords, only repair sword moves.

Du Cheng believed that only the sword in his hand was enough for him to be.

Feijian, too imaginary, powerful enough, not simple enough!

"Do you need a stamina pill? Only 20 middle-grade spirit stones are needed. After taking it, it is guaranteed that within three breaths, it will be vigorous and energetic!"

A twittering voice made Du Cheng tireless!

The visitor was Fang Yue, both of whom were born in the cycle of reincarnation, so that Du Cheng couldn't feel bad for Yue.

Fang Yue has watched many games in person.

Especially in the recent rematch, Du Cheng was quite admired for his pride and injustice.

However, this admiration collapsed when I met him yesterday!

Fang Yue took the rematch players from Ten Thousand Realms to and fro in this big cloud realm, as if entering the realm of no one!

Having no choice but to succeed, Fang Yue's strength is extremely strong.

One shot is a biological weapon to suppress!

This is consistent with Du Cheng's previous impression of Fang Yue.

However, Fang Yue was like a small merchant and a peddler, selling pills to himself, and Du Cheng almost collapsed!

This is the end of the world, OK?

Are you still in the mood for speculation?

"Fang Yue, two!"

Du Cheng threw forty middle-grade spirit stones to Fang Yue.

Fang Yue took the Lingshi and yelled: "Good!"

After that, he gave the two stamina pills to Du Cheng.

Du Cheng did not check and swallowed with his head up.

A warm current flowed through the meridians, and his violent physical energy quickly recovered some.

Physical strength pill is a very partial pill.

In the Ten Thousand Realms, the vast majority of practitioners rely on mana to fight. They may consume energy, but their physical strength is really not used much.

Without a market, no one is destined to do business at a loss!

Before meeting Fang Yue, Du Cheng didn't even know that there would still be such a magical thing as physical strength pills in this world!

To be honest, although Fang Yue's physical strength pill is not cheap in value. But the effect is really good, the two pills dissolve, and the physical strength he used before has recovered nearly half!

You know, if you let him recover slowly, it will take at least half a day to recover so much.

If it is placed in normal times, half a day may not be much time.

However, here is the Great Cloud Realm, the most dangerous battlefield between the two realms.

Not to mention half a day, even if it is a moment of weakness, he will be in fatal danger!

"Is there any pill?"

Du Cheng was a little embarrassed.

But Fang Yue's physical strength pill is indeed a perfect match for him!

"There are ten more!"

Fang Yue took out ten physical strength pills and shook it in his hand.

Fang Yue really didn't take much out of the physical pill.

This stamina pill was invented by Fang Yue, and the pill was improved based on a dilapidated ancient pill!

At that time, Fang Yue only refined a pot of physical strength pill when he succeeded in alchemy.

Unexpectedly, this thing still has such a market!

"I want it! These are two hundred middle-grade spirit stones!"

Fang Yue's inability to produce too many stamina pills was beyond Du Cheng's expectations.

After all, Fang Yue is not a professional medicinal pill dealer. He sells a few medicinal medicinal pills to himself, perhaps for hobbies, or even to help himself!

"Here!"

Fang Yue handed the pill to Du Cheng.

"I can refine another furnace if you need it!"

When Fang Yue saw that Du Cheng needed a physical pill so much, he was also a little itchy, so he wanted to refine a pot of pill.

"Are you still an alchemist?"

Du Cheng gave Fang Yue a surprised look.

"What? I think it's impossible?"

Fang Yue smiled and looked at Du Cheng. Du Cheng nodded: "I have watched your game in the reincarnation of the Hundred Wars. In terms of strength, you are definitely not weak! Moreover, when I look at your bone age, you should also be a young man, at your age and possess this Strength is not easy,

Few people dare to distract and seek other things. "

Du Cheng's words are very true.

Fang Yue also knew that Du Cheng was telling the truth.

In fact, it is more than rare. A talent like me is simply not good!

"A little knowledge of alchemy, not mastery!"

Fang Yue was deliberately polite.

Nangong Que kept rolling his eyes at Fang Yue.

This guy also knows low-key. "If you are confident of refining a physical strength pill, then it is okay for me to protect the law! This calamity, I am afraid that it will not be able to dissipate for a while. If you have a little more physical strength pill in your hand as a necessary supply, I may Can support more

A long time! "

Du Cheng was not in a hurry. In fact, it was commonplace for him to be chased and killed.

There is no sect of casual cultivation, it is normal to have disputes and conflicts with people for resources.

Often they killed one and ran out of a nest. The style of those big sects was not as dignified as they themselves said.

Fang Yue is also welcome.

He directly took out an exquisite bronze pill furnace.

Although the effect of Xiaotie's alchemy is good, it is easy to expose his hole cards.

Oops, too many cards is bad.

Hidden every day, I dare not arrogant.

Fang Yue complained triumphantly in his heart.

Fang Yue was very familiar with the herbal medicine and put it into the pill furnace, and began to boil slowly, watching Fang Yue's proficient posture.

Du Cheng realized that Fang Yue probably didn't just know a little bit like what he said.

This is not a master of alchemy, but at least an experienced alchemist.

This Fang Yue was covered in mist, which made Du Cheng feel more and more unpredictable.

Tian Kuan, who was next to him, was even more turbulent.

During the previous discussions, Tian Kuan realized that this Fang Yue was not only a pure warrior but also an old bloodline expert.

In terms of bloodline experts, Fang Yue has definitely reached the level of a master, and he can bring forth new ideas without sticking to the rules of his predecessors.

In addition to martial arts and bloodline experts, Fang Yue's alchemy is so excellent!

He is so young that it is really hard to understand how he takes care of it perfectly.

Fang Yue didn't speak, his expression was extremely focused.

He had only refined the physical pill, and the pill was deduced by himself.

He must be careful and not make any mistakes. Otherwise, the foolishness will be big.

Chapter 884: Ten percent?

The herbs entered the furnace, and a bright red flame was reflected from the furnace.

In the red light, there seemed to be a world condensed in it.

"Pill life vision! This is a sign of the formation of a ten percent pill!"

Tian Kuan studied the bloodline and inevitably had contact with some alchemists in the universe beyond.

Although not much contact, but some basic common sense for alchemy.

The medicinal strength of the pill, because of the alchemist's alchemy technique, the proficiency and the quality of the medicinal herbs, the final refinement looks different!

The general pill is actually 50% or 60% of the pill.

If it reaches 70%, it will double the price.

Those who are able to refine the seven-product phase pill are all veterans who are immersed in this Tao.

The eight-phase medicine is already difficult to find in the ordinary market.

Because this kind of pill, once it appears, it will be bought by the big wealthy families and families.

Although the pill can help the cultivation base to improve, the appearance of the pill is closely related to the final effect.

If this pill enters the body, a lot of impurities will remain! If there are too many impurities, it will affect the cultivation of practitioners.

However, if the elixir has a higher grade, the relative impurities will be reduced.

If you take one or two pills of the eight-phase pill a day, impurities can be excreted through normal metabolism, and will not affect your future practice!

The nine-phase pill, which is already the best pill in the world of practitioners, is very rare.

In general, the nine-phase pill, in addition to the obvious efficacy and less impurities, will be accompanied by a little life extension effect!

The nine-finished phase elixirs are rare in the world. Nowadays, few alchemists can completely refine the nine-finished phase elixirs.

And what is Fang Yue refined?

Ten finished medicines, in the alchemy world, it is said that only masters of the alchemy Dao and above can make a furnace by accident and from time to time.

The pill of ten finished products is pure and incomparable, without any impurities at all.

It has the effect of improving qualifications, the higher the level of the medicine, the more obvious the effect of improving qualifications.

The ability of this commission qualification does not limit the realm, that is to say, the powerhouse of the saint level will be tempted when encountering ten finished medicines.

Ten finished medicines have a vision.

Tian Kuan was shocked, just who Fang Yue was sacred and had profound knowledge in bloodline.

In terms of alchemy, he is not weaker than others.

At least a master above the master level. Whether in the universe of the other side or in the universe of ten thousand realms, Master Alchemy is always worthy of respect. A master of alchemy may become the root of the prosperity of a party. Although they are non-combatants, generally no one dares to disobey them.

Chi!

Du Cheng has mixed feelings.

Is this small merchant and peddler now a master in pill medicine?

No matter how emotional the two are.

Fang Yue is still focusing on refining the pill.

Physical strength pills are not so easy to refine. If according to the grade, this should be regarded as a pill of heaven and earth level.

Pill refining, one level is a level one thing.

The pill at the heaven and earth level has already begun to be integrated into the Taoist principles, and has extremely high requirements for fire conditions when refining!

Before Fang Yue's alchemy, he also paid attention to the pills below the heaven and earth realm, such as super Jiazi pills. Although they were of high quality, they were all trained with the help of Xiaotie.

With the help of a small iron, it was originally a hell-level refining difficulty, but it will also be reduced to a normal or even simple level.

This time, there was no help.

It is an extremely high test for Fang Yue's alchemy level!

Ten percent pill, the vision is born by itself!

However, Fang Yue's pursuit does not stop there!

Who is Fang Yue's master?

It is a Ruyizi, a powerful person at the level of the alchemy!

After studying with Ruyizi for a period of time, Fang Yue's requirements and vision for pill medicine have also improved.

Ten finished medicines are just the beginning!

Eleven percent, twelve finished elixir medicines are the pursuit of their alchemists!

Ten percent represents perfection.

Eleven percent and twelve percent represent the breakthrough after exhaustion of lead!

In the furnace, a layer of soft orange flame burst out!

This flame, like the afterglow of the setting sun, gives people a silent and warm feeling!

"It's coming out soon! The sunset and sunset, a moment of Fanghua! This is a strange sign before the way out of the ten finished medicines!"

Tian Kuan suddenly became nervous.

Ten finished medicines! He has only heard it, but never seen it!

"Dare to make alchemy?"

A little demon a few kilometers away, holding a half-moon-shaped blade in his hand, stood up swayingly, as if he was drunk, and his body was not stable.

However, this little demon is different from other little demons. Its eyes are not scarlet, but blue!

This is not bloodline mutation, but a manifestation of soul invasion.

It has been taken away!

The magpie's nest is occupied by Shang Yun Diyu of the Universe!

The immortal species dispatched by Bi'an Universe are of different strengths, and Shang Yundi can be regarded as a relatively powerful one, but what he is proficient in is not martial arts, but fantasy, seizing homes, and other strange methods in the soul!

His talent is the Sky Soul Sea. From the time he was born, his soul power was ten times larger than the others!

As he grows older and his realm improves, this kind of talent is still improving, and he is constantly widening the gap between him and others.

The little demon after seizing the house became the most terrifying assassin!

Silently, it was close to Fang Yue.

No one noticed that it was different from other little demons!

Du Cheng held the sword in both hands, sensing the surrounding wind and grass, but the little demon slipped past under his eyelids, and he turned a deaf ear!

As for Tian Kuan and others, their eyes were staring at Fang Yue.

They were all holding their breath, waiting for the accident of a rare pot of ten-finished medicine.

The weird behavior of a little devil can't be seen by them at all!

"The pill will turn!"

When Fang Yue turned, the sweat on his forehead.

He tried to challenge the elixir of eleven phases, but in the end he failed!

The potential of this pill seems to be tapped clean, it is difficult to transform and sublimate again.

However, in addition to the 11% of the pill, there is another way to make the pill stronger!

Nine rounds of pill, turn mysterious!

Fang Yuejing came to his heart, motivating the pill to turn around.

One turn is successful!

Fragmented thunder rushed from all directions, like a tide, sparkling.

This thunder is very stable.

Tian Kuan and others all retreated involuntarily.

Although this pill is not strong, if it is contaminated too much, it is likely to cause their own karma.

At this time, Fang Yue's body was a hundred meters away, and there was only a little demon, carrying a knife, and walking towards Fang Yue with a strange smile on his face!

The atmosphere at the scene was weird.

The little demon possessed by Shang Yundi is even more embarrassed...

I am Shang Yundi, the fairy seed of the universe beyond.

I was assassinating Fang Yue. Now I was discovered for no reason. Standing in the middle of the enemy, I was panicked. What should I do now?

...

"Which little devil is this?"

"Who is this expression mocking?"

Tian Kuan and Nangongque all looked upset.

Is this challenging their IQ?

The controlling little devil is lurking next to Fang Yue!

Haven't waited for the two to shoot.

The little devil felt tight all over.

A beam of silver sword light fell!

The little devil's body was split in half by force, and there was no chance to explain it.

Du Cheng is a straight man.

He understands that he doesn't know how to talk and may be deceived.

Therefore, in order not to be deceived, he simply did not even give the other party a chance to speak.

enemy?

killed!

Why do you keep it?

New Year...

This is the thinking of a straight man. Simple, simply!

Tian Kuan and Nangongque were suddenly a little frightened.

This Du Cheng is a bit scary!

The two of them are also arrogances, but they didn't even notice how Du Cheng made the move!

"Our position has been discovered and needs to be transferred!"

Du Cheng closed his sword and spoke slowly.

It's not time to do it now, they are too strong, and they are likely to be wiped out by others!

However, Fang Yue remained motionless.

The pill furnace in his hand is emitting a scorching temperature.

The flames condensed, like a small sun.

Du Cheng's breathing became rapid!

Because he felt more and more that the pill that Fang Yue had refined for him was extraordinary. If it were a pill, it might be amazing.

Therefore, Du Cheng decided to wait for a while and restrained his impetuous heart!

hold on!

Du Cheng gritted his teeth and determined to continue defending Fang Yue!

For a moment, a turn of pill was over.

Strands of Danxiang drifted out.

A few hundred meters away, Du Cheng just smelled it, and he felt that his physical strength had recovered a lot, and even his spirit was buoyant, as if he was living a new life!

"This medicine is finally going to be made!"

Du Cheng said to himself with a collapsed heart.

However, wait a while.

Fang Yue sat there with his eyes closed.

The pill failed, the army of this little devil is here!

Shang Yundi manipulated hundreds of little demons to spread their teeth and claws! Every little devil has the fighting experience of a martial arts master!

Any little devil manipulated by Shang Yundi is equivalent to a clone of him.

It is also Shang Yundi's talent to use it for nothing!

This is also the most disgusting thing about him, he can kill you, but you can't even find his deity!

"Tian Kuan, your biological weapon used to have anti-bones."

Nangongque joked.

"This is not my biological weapon! Every fairy has something similar to a biological weapon in his hands."

Tian Kuan watched these biological weapons gradually come and surrounded them.

There was no lazy smile on his face.

Before, when the first little devil was killed by Du Cheng, he had a vague premonition.

The person who shot is Shang Yundi.

Born in the same sect, Tian Kuan, although a little unsuccessful, has vaguely heard of the methods of Tianjiao of the same class.

Shang Yundi is well-known in the martial arts.

The inheritance he entered is the Soul Palace.

The Soul Palace, who is good at various soul tricks, is a group of old yin B, it is impossible to guard against!

"Shoot!"

I don't know that the little demon suddenly spoke, they suddenly joined forces to form a battle formation, and a sword light equivalent to a full blow from the third-tier practitioners of the Yin and Yang realm fell down until Fang Yue.

You must save the enemy!

Shang Yundi knows how to fight.

Now, Fang Yue in the state of alchemy is the weakest time to kill him, it is easiest to kill him!

When the sword light fell, Du Cheng's backhand was also a sword.

Du Cheng's sword is sharper and full of sword intent, transforming into a big golden dragon and colliding with the little devil's sword energy.

There was a bang!

The two sword lights collided, the space trembled, and small cracks emerged.

The two sword lights annihilated each other, and no one suffered!

At this time, Tian Kuan dispatched his little devil to arrive.

A total of hundreds of small demons attacked Shang Yundi's team from behind!

Shang Yundi's little devil team was divided into 30%, and it swayed towards Tian Kuan's little devil team like a torrent of torrents!

Without any suspense, Tian Kuan's team of little demons was quickly rushed into a mess, and finally turned into a corpse, nothing left. The little devil team that is manipulated and the little devil team that only relies on instinct to attack are completely two concepts!

Chapter 885: Dan Jie

Shang Yundi's team of little demons is uniform and well-trained, like a well-tempered army! And Tian Kuan's little devil team is a pure and incomparable miscellaneous army! It was a team that was temporarily arrested by the strong men!

The two are judged against each other.

Nangong Que looked at Tian Kuan contemptuously, "Your team won't be fake, right?"

"Surrender, or die!"

Without waiting for Tian Kuan's response, Shang Yundi's little devil team has issued an ultimatum!

"Surrender or die?"

Fang Yue's closed eyes opened suddenly.

"You have the ability, you say it again!"

Fang Yue's hand gently stroked the pill furnace.

On the Dan furnace, the fine cracks gradually extended.

In the second revolution of the medicine pill, this pill furnace is only a common product after all, and it cannot withstand the baptism of the enormous power of heaven and earth.

It is in danger of fryer at any time!

"Surrender or die! You can't find me in this big cloud world, but I monitor you all the time! Even if it's spent, I can kill you all!"

That Shang Yundi used the little devil's mouth to speak contemptuously.

Then, the thunder came, suddenly like a waterfall!

This is the second round of pill robbery.

Lei Ting's power is not very strong, Fang Yue easily gained control, the catastrophe that was originally used to baptize and test the pill fell on the head of the little devil!

Thunder is not very strong. The resistance of the little demons was good. They joined hands and arranged a battle formation to withstand the attack from the heavens.

However, they have not had time to relax.

Fang Yue's palm gently stroked the pill furnace in his hand!

In the pill furnace, the flame became stronger a little bit.

The flames are overwhelming, as if they had their own life!

"Rune reinforcement, pill furnace is reborn!"

Between Fang Yue's fingers, the runes flowed and scattered, attached to the surface of the broken pill furnace, which was already almost fragmented. At this moment, it seemed to be full of new vitality!

Three-turn medicine!

The reinforced pill furnace was given a new life for a short time.

A more powerful tribulation is brewing in mid-air!

Rays of thunder light, as if they were flood dragons.

"Do you think that the little devil who was smashed to death by thunder light can let the divine mind you attached to them return?"

The corner of Fang Yue's mouth provoked a chuckle.

At this moment, Shang Yundi's heart is all wrapped in various negative emotions!

Thunder, represents the strength of the strongest to the yang, as for the catastrophe, it means the punishment of heaven!

The reason why all practitioners are afraid of crossing the catastrophe is precisely because of the special attributes of the catastrophe.

It destroys not only the flesh but also the soul!

Therefore, Shang Yundi is not afraid of the heavens and the earth. The one who fears the most is the person who masters the thunder!

Not waiting for Shang Yundi's response.

Fang Yue's thunder has already come!

Roads of silver light crashed down.

Those little demons don't even have the ability to resist!

No matter how strong the individual is, you have to be careful when encountering things like Thunder Tribulation.

What's more, these little demons were born not long ago and have not fully grown up yet!

The fall of the little demon was accompanied by the wisps of divine consciousness that manipulated the seizure in their bodies to annihilate in the thunder.

This battle definitely hurt Shang Yundi!

Who special mother can think that there are people in this big cloud world who know how to deal with the soul with thunder!

Shang Yundi's methods are not inexplicable.

Although his soul sea is very big, but possessing and controlling so many little demon clones needs to be scattered!

Generally, even if the little devil is defeated, his divine mind can return to the deity safely, with minimal consumption.

However, Fang Yue's lightning strikes and his divine consciousness is powerless to return. Even Shang Yundi, who claims to be like a sea of divine consciousness, can't bear it.

Hundreds of little demons were wiped out in an instant.

The pill furnace in Fang Yue's hand was finally exploded.

This pill has nine turns, and every time it turns, the energy accumulated in it will skyrocket by ten times, a hundred times.

Rao is the pill furnace in Fang Yue's hands, and under his blessing, he has briefly elevated to the pinnacle of the rotation level.

But still can't stand the impact of surging energy!

After the furnace shattered, nine longan-sized three-turn physical strength pills appeared in Fang Yue's hands.

This thing can no longer become a physical pill.

After Fang Yuejiandan, his teeth were a little sore.

Is this special code still a physical pill that I carefully researched? Pill identification result: After taking the Sanzhuan Physical Power Pill, practitioners below the Yin-Yang state will immediately recover 12% of their physical strength, those who are strong in the Yin-Yang state will restore 80% of their physical strength, those who are strong in the realm will restore 50% of their physical strength, and those who are strong in the sky will recover. 10% stamina

. Incidental enhancement effect: 1. It increases five hundred years of life after taking it, which is effective for all practitioners in all realms. (Limited to one piece) 2. After taking it, increase the ignorance of the realm to improve spiritual qualifications. The lower the qualification, the more obvious the improvement effect. 3. Short after taking

Temporarily increase the strength by 50%, take effect for one day, no side effects.

The effect of this three-turn physical strength pill is definitely against the sky!

Even Fang Yue thought he was a genius after seeing it!

However, there were some places in it that made Fang Yue quite puzzled. With 12% of his physical strength, what the **** was that?

Is it possible to continue to accumulate stamina after restoring the upper limit of stamina?

This is not an online game, there is no physical strength, you are pitting me!

The black line on Fang Yue's forehead felt that this Jian Dan technique might not be all reliable.

After Fang Yue introduced to Du Cheng the effect of these three-turn physical strength pills.

Du Cheng was stunned.

Three-turn physical strength Dan?

This special mother is a panacea, okay!

Even the master-level pill is estimated to have this effect!

Du Cheng did not value the ability of the pill to restore physical strength. In fact, after the three subsidiary effects appeared, the ability of the physical strength pill to restore physical strength was no longer important!

Ignore the realm to extend the life span of five hundred years, and ignore the realm to enhance the qualifications of practitioners.

The simple word Guards against the sky is no longer enough to describe the effect of Hesanzhuan Physical Strength Pill!

"This thing is too precious, I can't want it! Fang Yue, keep it for yourself!"

Although Du Cheng is greedy for these three-turn physical strength pills, he has the principles of life.

His principle is absolutely impossible to be broken by a small three-turn physical strength pill.

Otherwise, his original heart will fall, which will lead to the unrecoverable kendo.

Fang Yue pondered for a moment, and then gave one of them to Du Cheng.

"After all, the alchemy this time is because of you. If it weren't for your needs, I wouldn't have thought about refining this kind of pill! These three-turn physical strength pills, if you hold them, it's the cause and effect between you and me! "

Although Fang Yue was very stingy.

But since he has promised to make alchemy for others, he can't lose faith in others because the pill that he made is too good, so let's not give it to others!

"Then I will accept it on behalf of my master!"

Du Cheng is not an inked person either. Since Fang Yue has already said so, he would be hypocritical to refuse.

"Wait, your master? Isn't you a casual cultivator?"

Nangong Que is relieved, this is wrong! Du Cheng smiled and said: "I am indeed a casual cultivator, but the casual cultivator is also inherited by the master! My master came from Jiange. Three hundred years ago, I was expelled from the sect because he offended a Jiange boss. ! Decades ago, my master accepted me as

Apprentice, because Master has no school, I am just a casual cultivator! "

"Wait, three hundred years ago, Jiange, Du Cheng, you are not the legendary Sword Demon Lonely Sword One!"

Nangongque is proficient in gossip of ten thousand realms.

He suddenly thought of the **** case of Jiange three hundred years ago!

"Yes, my master is Lonely Sword One! Unexpectedly, you have also heard of my master's name!"

Du Cheng's eyebrows were slightly raised.

Not many people knew about the fact that Master was expelled from the school back then. I didn't expect Du Cheng to have heard of it. "Hahaha, Dugu Sword One, who doesn't know? A young man learns swords and opens the sky with one sword! In terms of kendo, if his talent is ranked second within a thousand years, no one would dare to be the first! He is over 800 years old. Kendo sanctification, on the first day of sanctification

Cut ten old saints to sacrifice swords! "

Speaking of Dugu Jianyi, Du Cheng's eyes were full of worship.

Dugu Jianyi, a young man who is arrogant and slashes all directions with a sword, breaking all rules and regulations, is an idol that countless people worship. "It's a pity that as soon as Dugu Sword entered the sword pavilion, it did not finally escape the restraint of the sword pavilion. At the age of three thousand years, Lonely Sword Yi wanted to break into the level of the Great Sacred Realm, but was slandered and stolen from the sect. Zong Treasure. Several great sage-level powerhouses broke through the retreat of Dugu Sword One, indiscriminately wounded Dugu Sword One, and caused Dugu Sword One to become mad at the breakthrough, and almost broke the foundation of cultivation! Finally stopped! At the pinnacle level of the Tongtian realm, it is no longer possible to step into the level of the Great Sage. Although the treasure was finally found, it was not stolen by Dugu Jianyi, but Jiange did not give Dugu Jianyi any explanation or reply. Dugu Jianyi endured it. Ten years, I finally went to Jiange to ask for an argument, but was destroyed by the people of Jiange

Because of the rules in the door, he expelled the martial art! "

Nangongque's past of Dugu Jianyi is simply precious!

In the case of that year, countless people were grieving for Dugu Sword.

However, the people in Jiange were too strong and overbearing, and eventually all their voices were suppressed by them!

In the end, that matter will be over! "The raid that year not only broke Master's hope of being promoted to Great Sage, but also damaged Master's foundation and vitality. Master's life span is now less than a hundred years away. I'm here to participate this time. The Beidou fight is also hoping to get a name

Second, earn points and redeem one or two elixir and magic medicine that can extend the life of the master. "

There will also be a trace of resentment on Du Cheng's face. If it hadn't been for those people who took advantage of the master's retreat and sneaked a despicable attack, his master would have broken through the realm of the great sage level, and even the life of the yuan would not be guaranteed! If it is said that there is no conspiracy and trickery in this, even if it is to kill Du Cheng

Would never believe it! I just hate that his current cultivation level is not enough, and he can't touch the level of Jian Pavilion.

"This pill should be useful to your master! In that case, I would give him such a three-turn physical strength pill!"

Fang Yue is very generous, and the cost of this thing is not high.

It's just that the Ninth Plan of Pills has too high requirements for the soul and the two great ways of life, and most people can't even step into the threshold.

So this craft has not really spread.

"Great grace does not say thank you, if your brother needs help in the future, Du will definitely go all out!"

Du Cheng held the sword in both hands, and Yue said with gratitude.

Du Cheng is a person who is unwilling to owe favor to others, but once he makes a promise, he will do what he says!

Fang Yue nodded and didn't say much.

Talking too much is polite. What if he said politely, "No, Du Cheng, a straight guy, really thinks he doesn't have to pay his gratitude?"

Chapter 886: recorder?

When a few people chat.

The army of little demons like the mountain whistling tsunami has been killed!

This is definitely not a little devil made by one person, at least it is the result of a joint force of several forces!

"Bold Tian Kuan, you even colluded with people in the universe, don't hurry to kneel down and confess and beg for mercy."

The leader is a big devil, whose voice is familiar.

The original recipe is still the original taste, the original Shang Yundi.

"If I beg for mercy, will you let me go?"

Tian Kuan slowly looked at the big demon and said.

"will not!"

Shang Yundi resolutely refused.

"That's a fart! If you want to do it, don't BB!"

Shang Yundi is great, and Tian Kuan is not easy to provoke.

Who hasn't clicked the hole cards, and who hasn't clicked the background!

However, Tian Kuan has always been lazy. Afraid of being too public and provoke attacks from all directions.

But now it seems that he is not high-profile, and is about to be the enemy of the world.

There is no need to hide the cards or something!

Haha, tremble! mortal!

Tian Kuan took out a tape recorder.

It is definitely a tape recorder. Although the style is different, this is a special product of the universe, but the effect is exactly the same!

"What is this? Tian Kuan, is this your killer?"

Shang Yundi is like a big enemy, saying that he is not nervous, this is fake!

Tian Kuan sneered: "Just listen!"

At the next moment, Tian Kuan pressed the button of the recorder.

"The Eighth Broadcast Gymnastics, the eagle took off, da da da..."

"???"

"what is this?"

Shang Yundi looked dumbfounded.

Tian Kuan's smile was stiff.

Damn it, the straps are misplaced, and the one just now was for nothing!

Shang Yundi looked at the group of little demons behind him, without responding, the smile on his face couldn't help but become ugly again.

"It turns out to be a bluff, Tian Kuan, I didn't expect you to use such boring and contemptible means!"

Tian Kuan Khan, what is this special mother all about!

The ghost bluffs with you!

Obviously just put the wrong strap!

Shang Yundi didn't care about this, he ordered the devil behind him to rush towards Tian Kuan with a tsunami.

At the same time, there was a little fear floating in his eyes, and the corner of his eyes fell on Fang Yue from time to time.

He remembered the tribulation before that.

Although Shang Yundi didn't think that Fang Yue could summon that kind of pill calamity anytime and anywhere, even if it was only once, it was enough to prove that Fang Yue was his worthy opponent.

For all those who are threatening, Shang Yundi has only one principle-to kill in advance in the bud!

There were five little demons who had reached the pinnacle level of the rotation realm and slaughtered in Fang Yue's direction. Their movements were agile and lightning fast, and the claws flashed a faint blue light!

These five little demons were specially assigned by Shang Yundi to deal with Fang Yue.

In his eyes, even though Fang Yue could summon the Heavenly Tribulation was quite terrifying, the most of that method was to use it three or two times!

As for everything else, this Fang Yue shouldn't be afraid. A native of the universe at the pinnacle of heaven and earth, sending the five-headed cycle pinnacle biological weapon to send him to the end is quite worthy of him!

The five-headed biological weapons moved faster and faster, they were aggressive and approached Fang Yue.

Each biological weapon is wrapped in a thick layer of evil spirit.

If they don't make a move, they will kill someone!

Nangongque and Tian Kuan only glanced at them. They knew that this was Shang Yundi's shot at the other Yue, but they just watched dryly, without the slightest intention of shooting.

Poor Shang Yundi, as soon as he made his move, he found one of the toughest guys!

The wind is rustling.

The dead leaves are falling.

Fang Yue did not open his eyelids, as if he could not even notice the approach of these five biological weapons.

"It turns out that the alliance of these three people is not that strong! It's great, the two of them couldn't save themselves. This kid in the universe is definitely dead!"

In Shang Yundi's heart, all excitement was boiling.

Lei Ting can kill Divine Sense. In his opinion, Fang Yue of the three poses the greatest threat to him.

As soon as Fang Yue died, didn't the other two let him take care of it?

No matter how strong their combat power is, they will be consumed alive in this sea of biological weapons!

A dead leaf fell and stuck it on the forehead of one of the biological weapons.

The dead leaves drifted without resistance, passing through the body of the biological weapon.

The biological weapons were instantly turned to ashes, and all the life essence in them was dispersed!

Its death state was strange, and it hadn't come close to Fang Yue's body.

But it was already unsuccessful, exhausted all the essence of life, and completely evaporated from the world!

The remaining four biological weapons have a hint of hesitation. They are not possessed by Shang Yundi's spirit. As biological weapons, although they are fierce, they still have the biological instinct to fear life and death!

The strange death of their companions created a huge shadow in their hearts.

That unclear death is more frightening than crushing them!

"What is this method? The biological weapon at the pinnacle of the cycle just disappeared like this?!"

Shang Yundi's pupils also shrank suddenly.

To him, the combat power of the biological weapon at the peak of this round of transition is not much.

But if he wants him to take action, it is impossible to kill the opponent silently! This is beyond the scope of his common sense, as if he has entered a strange and unpredictable field!

The other four-headed revolving realm peak biological weapons turned and wanted to go. Between defying orders and death, they resolutely chose the former.

However, as soon as they turned around, there was a feeling of weakness.

They have no time to think, the essence of their own life has been stripped away and completely dispersed into ashes!

"Do you want to attack me with this strength?"

Fang Yue didn't even bother to lift his eyelids!

To him, the biological weapon at the pinnacle of the five-headed cycle is simply too weak, not even cannon fodder.

With the improvement of his realm, Fang Yue's vision became more and more detached. If he wanted to do something with him, at least he had the realm of Yin-Yang realm first!

Even the leader-level powerhouse, without using his hole cards, he dare to regret two moves!

Shang Yundi's heart suddenly stopped beating!

In the same state of death, he sent these five-headed revolving high-level biological weapons to kill Fang Yue. In the end, he couldn't even see how he died!

Is this Fang Yue's method?

It's just unpredictable!

Tian Kuan also looked here, he hadn't thought that Fang Yue could kill the biological weapon at the pinnacle level of the five-headed revolving stage so easily.

He knew that Fang Yue was very strong, but he never thought that Fang Yue could be so strong!

This is already an unpredictable method, beyond the cognition of normal people.

"Do you want to continue?"

Nangong Que knew in his heart that during this period of time, Fang Yue had read a lot of past information.

When dealing with the Nine Profound Sect, Fang Yue also used similar methods.

After the analysis of some powerful saints and above in the Great Wilderness Sect, this Fang Yue should know the way of life and the like.

The way of life goes out to save soldiers and cure people, but is also a good killer.

They control life, can give, and can also deprive them!

In the Temple of Life, there is a taboo method called life deprivation.

There are very few people who can successfully practice this trick, but after that trick, the death of the person deprived of life and the person killed by Fang Yue is very similar!

Nangongque spoke to Shang Yundi with Fang Yue's might and said triumphantly.

Shang Yundi had never seen Nangongque either. He didn't know his identity and origin, but Shang Yundi dared to conclude that this guy was definitely a native of the Ten Thousand Worlds Universe.

There can be a terrible guy in this universe of ten thousand worlds, can there be a second person in the same place?

When Shang Yundi thought about it this way, he felt a trace of certainty in his heart.

I can't beat Fang Yue, can I still beat you?

"Bold madman, you dare to say rants when you die, don't you believe that I captured you alive, and then pull your tongue out?" Shang Yundi was about to make a shot himself this time, and a yin and yang came out from his side. The little devil at the third level of the realm, this little devil, I don't know how many creatures in the great cloud realm have been swallowed before it has absorbed the essence of life in their bodies and evolved to this place.

Kind of!

It has wings on its back, and its body is as black as ink, and it has delicate scales on its body, which really resembles the shape of the legendary demon.

It didn't say anything, and shot Nangongque as soon as it played.

Its claws are sharp, and a faint smell of **** is brewing.

Nangongque had an illusion in his heart, and there were many ghosts in his mind. Although he knew that those things were false, he could not get rid of the troubles and restraints of the ghost!

The little devil showed a grinning smile, it was close to his body, and the palm of a fan the size of a fan slapped towards Nangongque's head.

If this slap is really implemented, this Nangongque's head will definitely burst like a big watermelon, and the red and white things will burst into pieces.

However, the imaginary scene did not appear. As a disciple of the Great Wilderness Sect, the descendant of the Nangong family, if Nangong Que can't even handle a small devil at the Yin and Yang level, then he can find a piece of noodles and hang himself!

When the little demon approached, Nangong Que had an extra Buddha pendant in his hand. A swastika-shaped brand in the pendant gradually lit up, expelling the inner demon and letting Nangong Que's thoughts settle down. .

"The disciples of this family are good! Even if there are any fatal flaws, you can rely on treasures to make up!"

Du Cheng didn't know when he stood by Fang Yue's side. He took Fang Yue's pill. Naturally, he wanted to protect Fang Yue's life!

When he spoke, there was a sour taste.

Although in terms of cultivation resources, Dugu Jianyi has never treated him badly, so that he will not run around for cultivation resources.

But Dugu Jianyi is only a sword repairer after all. Although his realm is superb, he is far inferior to the accumulation of the Great Wilderness Sect and the Nangong family in terms of savings and background.

Fang Yue glanced at Du Cheng: "These resources are from his own hard work! Even if Nangong Que is carrying the treasures bestowed by the family, he has obtained these treasures through a little contribution to the family!"

Fang Yue worried that Du Cheng would give birth to a demon due to his psychological imbalance and eventually fall into the path of demon.

Therefore, he opened his mouth to enlighten. Du Cheng smiled freely and easily: "Don't worry! I don't mind because of this little thing. We swordsmen repairs and spends our lives as a sword. Other treasures are not important to us!"

Chapter 887: Gathering of Heroes

"Free and easy? Haha! Aren't your sword repairs all cautious and paranoid?"

Fang Yue sneered.

Du Cheng's face was black: "I remember this sentence!"

"..."

Beside, Nangongque did not retreat after evading a claw of a biological weapon!

Others have already provoke him, and it is not his style to not shoot!

He was able to avoid the palm of the little devil, and then an elbow slammed into the little devil's chest.

Just listen, with a click.

The little devil's chest ribs are cracked!

Its actions become slightly sluggish.

Immediately afterwards, Nangongque had an extra heavy hammer in his hand!

That's right, this is a heavy hammer!

The handle of the hammer is as thick as a telephone pole. The hammer is like a small house, brutal and violent!

"Want to kill me? I can kill you!"

The hammer of Nangongque fell, and the momentum was amazing.

The little devil was smashed into a meatloaf by a sledgehammer without any suspense, and he couldn't even see the appearance before his death!

The hammer of Nangongque is lighted, and the surface of the hammer is covered by inscriptions. Some of these inscriptions have the effect of destroying souls.

The wisp of Shang Yundi's spiritual thoughts attached to the little devil's body was scattered in an instant, and there was no possibility of recovery.

Produced by the Nangong family, everything is exquisite!

Fang Yue saw the hammer and immediately felt the violent emotion in Nangongque's heart!

"Unexpectedly, he turned out to be such a man!"

Du Cheng silently swallowed a mouthful of saliva, and his heart was surging!

"Wow! The natives of Ten Thousand Worlds are really good man! I like this kind of wild! Crude and powerful!"

A delicate female voice appeared.

Fluttering in red!

Her face is so beautiful that she can't imagine it, anyone who takes a glance will involuntarily fall into it and become a slave to her crotch.

Born to be charming!

This is not a rare talent. However, if this talent is combined with a sophisticated charm technique, it is simply fatal to the opposite sex!

"Xiao Mei'er, this is not the place where you made waves. Killing these two natives of the Ten Thousand Universes, I have a hunch that if they grow up, they will definitely become my confidant in the universe!"

Shang Yundi, who was possessed by the great demon, said to the girl very nervously.

Xiao Meier turned her head and smiled at Shang Yundi, "Why should I obey your instructions?"

Xiao Mei'er smiled with a hint of contempt and disdain!

Shang Yundi was stunned for an instant, and then his face became gloomy and cold!

"This action, I am the leader. This is the order of the eighth elder before leaving the school! You must obey any of my orders, even if I want you, you can't disobey!"

Shang Yundi's face is full of hideous colors!

Xiao Mei'er's smile was even more charming. "The eighth elder is stupid, he listens and believes you are really a handsome talent! He actually made that kind of confused decision, but he will be outside, and the military order is not acceptable! So, sorry, this is the universe of the universe. Not the other side of the universe, I didn't

There is a reason to obey your dispatch command! "

In the nest?

Fang Yue was also fascinated. Originally, he was ready for a hard fight.

As a result, they started fighting by themselves!

"Xiao Mei'er, you bitch, if you take back what you just said, I can pretend that I didn't hear it, and let everything go!"

Shang Yundi clenched his fist slightly, his eyes burning with anger.

This Xiao Meier is a trump card in his hand.

If used well, it can play a decisive role when necessary.

However, he had a thousand fortunes, but if he didn't do it, Xiao Mei'er actually reversed!

Xiao Mei'er giggled and said, "Who do you think you are, this unused thing? Is that young master with a deep background in the sect?"

"This is not a sect, but the Universe! If you die here, who else can you find to sue!"

Xiao Mei'er spoke again, her murderous intent had been fully revealed!

When leaving the school, Xiao Mei'er was dissatisfied with Shang Yundi.

Only this time, she had a chance to kill! "Xiao Mei'er, I have already given you a chance! You are the one who shamelessly! Do you think that before, I didn't know that you were ill-intentioned? The reason why I always bear you is because I have paid back I think you still have hope of looking back! But today

, But you cut off your last hope! "

Shang Yundi's previous angry look gradually disappeared from his face!

It was replaced by a cold, harsh expression!

Behind Shang Yundi, a shadow gradually became a human form.

"Annice?"

Tian Kuan was surprised, and a touch of surprise and entanglement appeared on his face.

"Tian Kuan?!"

After hearing Tian Kuan's voice, the figure was also a little surprised.

This is also a young girl, her white dress is like snow, her long hair hanging down.

"Fang Yue, if there is a real rush for a while, please let Annes stay alive!"

Tian Kuan has long seen that Fang Yue has a natural leadership temperament, not the kind of domineering leaks, but unknowingly, it will make people dependent. Now, their team, Fang Yue has vaguely Become a core existence!

"She is....."

Fang Yue could see that there must be a story between Annes and Tian Kuan.

"She is my first love, although we have broken up, but I still can not forget her."

Tian Kuan did not hide it, he clarified the relationship between the two.

Annes also whispered to Shang Yundi, "If there is a fight for a while, help me keep Tian Kuan alive!"

Although Anisi's expression quickly faded, she would say this to Shang Yundi, but it means that she still has the shadow of Shang Yundi in her heart!

Fang Yue was speechless, a good **** battle, how could there be a tendency to develop in the direction of palace fighting + romance.

However, since Tian Kuan spoke, he would definitely not refuse.

"it is good!"

Shang Yundi also agreed to Annes!

"Xiao Mei'er, you know, I know you have a conspiracy to rebel, so I never revealed my real trump card to you! There are five immortals under my hand, and you are just one of them. !"

Shang Yundi opened his mouth, his lips curled up with a grinning smile.

He is confident that he can completely crush Xiao Mei'er in terms of personal strength and quantity!

"The enemy of the enemy is our friend! Shang Yundi, if you want to deal with Xiao Meier, you must also consider us!"

Nangongque ran out again to pretend to be 13.

Fang Yue covered his face, how come this buddy loves to work together so much!

The previous appointment, did he eat into his stomach with lunch?

Say yes, let them both lose first, and then take the advantage of the fisherman!

"Thank you little brother, you are really a good man, so domineering!"

Xiao Meier opened her mouth and smiled.

Almost fascinated by Nangongque, he didn't even know his surname!

"act recklessly!"

Shang Yundi coldly commented on Nangong Que, "Originally, I wanted you to live a little longer. Since you are so active to die, don't blame me for being ruthless!"

Shang Yundi spoke.

His color fell.

Ten little demons at the third level of Yin-Yang realm came out, and each one had been manipulated by Shang Yundi's spirit!

The ten little demons surrounded Nangong Que, and this time, Shang Yundi did not hesitate to leave all these people here.

Otherwise, no matter who escapes, it will become his confidant and make him sleepless!

The ten little demons directly condensed into the battle formation, surrounded Nangong Que Tuan Tuan Tuan Tuan, giving him no hope of escape!

Soldiers against soldiers, against generals!

This Shang Yundi obviously still underestimated the strength of Nangongque.

"Sweep the Quartet!"

Nangongque deliberately wanted to express himself in front of the beauty, so he shouted loudly, and the volume of the giant hammer in his hand instantly expanded several times larger than before!

The giant hammer swept across, howling and generating wind, and even the surrounding space was rippling layers!

The ten yin and yang level little demons were trained in an orderly manner, and they directly condensed a real one, forming a hindu shield! This shield is condensed from the legendary basalt rock, and even the powerhouse at the peak level of the ordinary Yin-Yang realm cannot easily break it! This Shang Yundi is obviously a veteran. At the very least, the battle formation of this little devil is quite simple.

But the practical kind.

The battle formation is not necessarily the more advanced the better.

Because the higher the battle formation, the greater the number of people needed to cooperate. Although the power of the battle formation is great, it takes a huge amount of time whether it is assembly or change.

Maybe your battlefield hasn't stood up yet, and the machete has already been swung down!

However, although this battle formation is exquisite, it is still no match for Nangongque's hammer.

He took the route of reducing ten benefits with one effort.

No matter what you can do to reach the sky, with all kinds of spells, I will break it with one blow and leave nothing!

Nangongque's hammer blasted the basalt completely.

The boulder rolled down, a cloud of dust. Nangongque's hammers fell one after another, and one hammer quickly killed all the ten little demons in the third layer of Yin Yang realm.

Even the spirit of Shang Yundi attached to the little demon was annihilated.

Nangongque's shot was extremely wild.

Like a barbarian walking out of a hundred thousand mountains!

Shang Yundi's big demon clone's face was a little pale, the stronger the body's strength, the stronger the spirit of his possession.

For Shang Yundi, the destruction of the spirits corresponding to the ten little demons at the third level of the Yin-Yang realm was an extremely serious trauma!

"Okay, okay, okay! You natives of the universe angered me!"

The big demon possessed by Shang Yundi leaped up, revealing his master-class aura. He tried to find out that he decided to solve the Nangong fault with lightning speed.

His figure has not fallen yet.

A darkly dormant blue poisonous snake suddenly violently violently opened its mouth, and its sharp fangs pierced Nangongque's ankle.

This is Shang Yundi's real killer move!

Green leaf grass!

This is the name of the poisonous snake, this kind of poisonous snake is the killer he brought from the universe beyond.

Good at hiding, extremely poisonous.

If bitten by it, even the leader-level powerhouse will be killed violently and cannot be spared!

"Shang Yundi, you are so vicious!"

Nangongque's complexion instantly darkened.

He is absolutely guarded, and he still has this trick without putting Shang Yundi!

Shang Yundi laughed loudly: "Since ancient times, the winner is the king and the loser! There is always only victory and defeat, there is no right or wrong!"

Nangongque was seriously injured and fell to the ground, severely poisonous.

Fang Yue glanced at Nangong Que, who fell on the ground, and couldn't help sighing secretly. This buddy still has too little experience in the world! One strength to drop ten benefits, although extremely mighty, but in the end it is just the courage of a man.

Chapter 888: Highly toxic

Fighting requires wisdom.

For example, it's like this!

With a flutter, blood splashed.

On the waist of Shang Yundi's doppelganger, a poisoned dagger suddenly appeared! The dagger is blue, and its poison is fierce.

In just a moment, Shang Yundi's Great Demon clone wilted quickly like autumn flowers.

The dagger is a poisoned dagger.

The poison was carefully refined by Fang Yue from the corpse of the saint!

Don't talk about the great devil at the master level, even the saints will belch when they encounter this corpse poison!

Shang Yundi slowly turned back, looking at the little demon behind him with incredible eyes.

The little devil smiled strangely at Shang Yundi: "Don't think that in this world, you are the only one who is proficient in soul methods!"

Fang Yue's voice came from the little devil's mouth.

At this moment, Shang Yundi finally understood why Fang Yue understood his weakness so much.

Too late to roar, too late to be angry.

The corpse poison in Shang Yundi's body has flowed through his strange meridians and eight meridians, and even the ray of divine thought that manipulated his body was annihilated and turned into ashes in an instant.

Shang Yundi's great demon clone fell.

The situation on the battlefield is changing rapidly.

The same method was perfectly reproduced on Shang Yundi's body.

The mantis catches the cicada and the oriole is behind.

Everyone looked at Fang Yue's eyes differently.

——Old Yin Ratio!

"Fang Yue save me!"

Nangongque understood that the only person who could save him at this time was Fang Yue.

His body is extremely poisonous, which is constantly eroding his vitality.

Once the vitality in his body is exhausted, it is time for him to run out of oil.

At that time, even if Da Luo Jinxian came, it was impossible to save his life.

"Nangongque, why are you so careless? Don't underestimate the enemy, don't underestimate the enemy, do I need to keep repeating this matter to you?"

Fang Yue walked to Nangongque's side full of complaints.

Among the little demons like mountains and seas, a clone of Shang Yundi walked out.

His deity is immortal, and his clone is endless.

Shang Yundi looked at Fang Yue with bitter eyes. "Fang Yue, you have destroyed my Great Demon clone and have already touched my bottom line. Although I may not be able to kill you this time, your partner is bound to die! I gave him seven insects, seven plants, and seven flowers. Poison, this toxin has almost no

The antidote for this, unless you can find the ingredients of each flower and plant, and work out the corresponding restraint! "

At the corner of Shang Yundi's mouth, a sullen ironic smile appeared.

Even if you can kill my big demon clone?

That is just a clone, you can discard it at any time!

But Nangongque's life will never be saved again!

Fang Yue was expressionless, looking at Shang Yundi.

"You have watched too much in the second drama! What kind of shit, seven insects, seven plants, seven flowers, and a pure body pill, all can be solved!"

Fang Yue casually took out a quintessential body pill, which was very common and low-level.

That is the pill used to build the foundation, and the average practitioner will often take it in the acquired state to get rid of impurities in the body!

Fang Yue put the pill into Shang Yundi's mouth.

Shang Yundi didn't hesitate to take the pill. He believed that Fang Yue would not harm him. What's more, even if he refused now, he would not have a better way to protect his life!

A look of pain appeared on Shang Yundi's face.

Wow. Shang Yundi spit out a mouthful of black blood.

The black blood stained the ground, eroding the vegetation on the ground into ashes.

However, Shang Yundi felt that his body was lighter, and the violent poison that attacked the heart seemed to be less ferocious than before!

"Really useful!"

Shang Yundi opened his eyes wide, and the other Yue said definitely.

Fang Yue chuckled: "Naturally useful. The essence of this toxin is an impurity in your body, and the essence pill is used to remove impurities from the body. Poisoning does not necessarily require interpretation. It is also very important to discharge the toxin. Good choice!"

These are not what Fang Yue realized by himself.

All are the teachings of Ruyizi and Fang Yue.

A truly excellent alchemist not only needs to be proficient in alchemy methods, but also needs to fully understand the medicinal effects of every kind of pill.

The quality of a true alchemist lies in the small and broad!

When Shang Yundi saw this scene, he couldn't help but split his eyes.

The seven insects, seven grasses and seven flowers poison he had paid a huge price in exchange for it!

It has no solution at all, and even the saints will be shocked when they encounter it. Who would have thought that Fang Yue would use one of the most inconspicuous essence pill to solve the poison of Nangong Que!

This Fang Yue...Unforgivable!

Fang Yue immediately handed over three Cuitai Pills to Nangongque, but the efficacy of that Cuitai Pill was weaker than one.

This is the common problem of ordinary pill, which is indeed a good thing, but if you eat too much, it will cause the body to develop resistance and it is difficult to continue to take effect.

Shang Yundi spit out another mouthful of black blood, and the toxins in his body had been discharged by 50%.

In terms of condition, he is much better than before.

But he was very toxic, and he was always causing huge damage to his body! "Hahaha, Fang Yue, does that low-level pill really want to completely unravel my seven insects, seven plants, and seven flowers poison? You are too naive. Although this essence pill works well, but Nangong Que It's too much poisoning, you give him the essence

Dan, he couldn't completely unravel the poison in his body, it was just delaying his death! Kneel down and beg me, maybe I am in a good mood, maybe I will give you this highly toxic formula of seven insects, seven plants and seven flowers! "

Shang Yundi tried every means to humiliate Fang Yue.

Fang Yue glanced at him faintly and said: "Stupid B." "Nangongque, eat this three-turn physical strength pill, it can keep you up for a while! Also, these herbal liquids, drink from time to time One bite, the life force in your body is consumed while replenishing, forming a hedge. In a short time, it should

Will not let toxins cause too much harm to you! The quality of this quintessence pill is really bad! Let me help you refine a furnace! "

Fang Yue still seemed unhurried.

Just a few quintessence pills sold on the market could not dissolve the poison on Nangongque's body, which Fang Yue had already guessed!

However, he also has a back hand and is prepared!

If even the poison of a mere seven insects, seven grasses and seven flowers can't be solved, Fang Yue, the master of alchemy, is really a fool!

Fang Yue handed over both the Sanzhuan Physical Strength Pill and the Baicao Liquid in a jar to Nangongque.

Nangongque's palm trembled a bit, he naturally knew the preciousness of these three-turn physical strength pills, even if it was poisonous, he was not willing to take it!

This can be a panacea that can ignore the realm, ignore the cultivation base, and improve the lifespan and qualifications. If he took it hastily, it would be a violent thing!

"What? Pill refinement before the formation, Fang Yue, you are a bit too arrogant!"

When Shang Yundi heard what Fang Yue said, he almost laughed out loud. He thought, did these little demons display the army?

What's more, their masters are like clouds. On Fang Yue's side, Nangongque had been half-worn after being poisoned, and at least he couldn't use 10% of his combat power before detoxification! On the other hand, Fang Yue needs to concentrate on alchemy, which is equivalent to abolishing one more combat power. Only Tian Kuan and Xiao Meier want to stop

Live them?

It's just wishful thinking!

Fang Yue glanced at Shang Yundi coldly: "If you dare to do something while I am refining alchemy, don't blame me for being ruthless and ruthless!"

Fang Yue's indifferent voice made Shang Yundi's heart tremble slightly.

But then, Shang Yundi's laughter became even sharper: "Do you dare to make alchemy, I promise you all will be dead!"

Fang Yue stopped speaking, his eyebrows drooped, and he really took out a pill furnace. On the surface of the pill furnace, there were nine real dragon reliefs. The pill furnace was of extremely high quality, at least it was a magic weapon of the pinnacle level of the cycle.

The last time he was refining physical strength pills, Fang Yue had already understood that the quality of the furnace would directly affect the quality of the pills!

Therefore, this time, he shot a pill furnace at the pinnacle level of the rotation realm.

This pill furnace was obtained by Fang Yue from the treasure house of Zhengyi Sect, and it should be regarded as the finest among the magical artifacts.

Fang Yue took medicine, opened the furnace, and made alchemy.

If there is no one else, it seems that he doesn't care about Shang Yundi's reaction.

"What is Fang Yue going to do?"

Seeing Fang Yue's posture, Tian Kuan didn't even know what Fang Yue had in mind.

The opponent is very powerful, if Fang Yue can still make a move, they might have the possibility of victory!

However, Fang Yue and Nangongque lost two masters at once, and their battles will become more and more difficult, and they already have a taste of evenness. This time, I fell into a passive situation.

Fang Yue did not give any explanation.

The pill furnace in his hand was on fire.

At this time, even Shang Yundi was fascinated.

He really didn't know what kind of routine Fang Yue was.

Are you luring the enemy?

Still really so confident and courageous, do not put them in the eyes.

"The ten little demons at the pinnacle of the rotation stage besiege Fang Yue, but I want to see if he is really practicing alchemy or pretending to make alchemy!"

Shang Yundi hesitated for a while, and finally decided to send a biological weapon.

This Fang Yue's style is weird. If they were really cheating on them, and they approached in person, it would be too late!

The ten-headed cycle of biological weapons came out one after another, approaching Fang Yue.

But they were still hundreds of meters away from Fang Yue, and they had all been reduced to ashes, and all the vitality in their bodies had been deprived!

Shang Yundi's heart suddenly stopped beating.

Sure enough, fraud!

Fang Yue's alchemy was false, but it was true to lure the enemy.

However, he really didn't even have a little patience, so he was easily tempted!

Shang Yundi couldn't help but raised a smug smile at the corner of his mouth.

However, Fang Yue was still sitting next to Nangongque, the fire in the furnace was shining, bright and extinguished.

He was concentrating on alchemy, and the ten little demons at the pinnacle of the cycle seemed to have been killed by him inadvertently!

It seems that Fang Yue is really doing alchemy again!

How to test it?

It's really tangled!

"Yundi, let me come!"

Anisi saw Shang Yundi's entanglement, so she took the initiative, spreading her bare hands, a pink paper crane, flapping wings from her palm, flew towards Fang Yue!

These thousand paper cranes seem to be delicate and exquisite, harmless to humans and animals, but Du Cheng felt a terrifying aura of destruction from it! "Tian Kuan, I'm going to stop it! Your old friend is going to kill us!"

Chapter 889: Paper crane

Nangongque took a sip of Hundred Grass Pulp, regaining his vitality a bit.

Tian Kuan's face was slightly tangled.

He still can't let go of Annes!

Without waiting for Tian Kuan to make a decision, the paper crane seemed to have touched an invisible wall near Fang Yue's body a hundred meters away!

In front of the wall, the paper crane can only linger, and can't penetrate the distance of a few inches!

"A formation block has been set up near Fang Yue, and my paper crane cannot enter it!"

Anise's complexion was calm, and the paper crane shook its wings suddenly, and its eyes became scarlet.

With his mouth open, a beam of red light hit the invisible wall!

The wall trembled slightly.

Immediately, a spatial vortex was born in the void.

The paper crane was involved, and the space vortex slowly closed in the next moment!

The power of destruction in the paper crane was too late to be displayed, and it was banished into the endless void.

"What a clever formation!"

When seeing Fang Yue's bodyguard formation, even though she was a hostile, Annes couldn't help but exclaimed.

This kind of space formation is quite rare even in the universe beyond.

Fang Yue is definitely a talent in the world, and in terms of potential, he is much larger than Shang Yundi.

It's a pity that he was targeted by Shang Yundi this time, and he was destined to die or not!

After seeing this formation, Shang Yundi was a little uneasy, but gradually became calm. What he worries most is not Fang Yue's tyrannical force, but not knowing what hole cards the opponent has. "Formation? It is indeed a good method! I did not expect that Fang Yue not only knows how to refine alchemy, he is quite accomplished in the soul, and he can even set up his hands even in advanced formations! But if you think you just rely on one The formation can withstand my footsteps, Fang Yue, you are so wrong! The essence of the formation is the change and reordering of the magnetic field! The powerful formation can even be sealed by a saint! But the formation Law is not invincible, it's in my hands

There is an elementary magnetic chaotic stone, which can destroy the magnetic field and suppress all formations under the saint! "

Shang Yundi's background is profound, with many treasures.

When he raised his hand, Shang Yundi's hand had an extra stone the size of a baby's fist. This stone is pitch black all over, and it has a hexagonal shape!

The stone in Shang Yundi's hand flew up, and it turned into a black sky in an instant.

The sky was shrouded like a dark cloud, making people feel a little breathless!

Fang Yue's body formation was exhausted, and the magnetic field in it became extremely disordered!

Annes shot again, and another pink paper crane flew in Fang Yue's direction!

This time the paper crane came to Fang Yue's body, without any resistance, a magical shadow appeared on the paper crane.

The devil with three heads and six arms, his face is quite hideous!

The devil shot, the situation changed color!

A silver steel fork slashed down towards Fang Yue abruptly!

However, when the silver steel fork fell, it was obviously close to Fang Yue, but it seemed to isolate thousands of worlds. With layers of space folded, Fang Yue and Nangongque seemed to be in another world. !

"Space Heaven!"

Shang Yundi's face gradually became gloomy!

Fang Yue's methods are really endless.

The formation just now made him feel a little surprised, but he didn't expect that Fang Yue would use Space Heaven's Way again this time!

Those who practice the Way of Heaven must all be peerless talents!

It was originally a raging killing thought, and it was even more boiling in an instant!

If Fang Yue is not removed, it will definitely become a huge obstacle for them to conquer the universe from beyond!

"Annice! Stop it! This Fang Yue is my good brother. Judging from the past love, I hope you will not interfere in this battle!"

Tian Kuan finally made a decision!

Fang Yue can't die in Anise's hands!

Even if Annes is his former lover, even the love between the two has never been completely cut off.

But Fang Yue is very important, he must not die.

This is not because of how deep the relationship Tian Kuan and Fang Yue have. It was because Fang Yue held the key to turning life crystals into treasures!

Annes didn't respond to Tian Kuan.

The hands are separated, and there are still beeps.

Moreover, Annes was disturbed from the bottom of her heart, she didn't think she could kill Fang Yue.

The cascading spaces have proved Fang Yue's identity, a practitioner of space heaven.

Practitioners of space and heaven, known as the number one life-saving way in the world!

"I said, don't disturb me when I am doing alchemy!"

In Fang Yue's body sitting cross-legged, a figure that was exactly the same as Fang Yue's deity slowly rose up, and his eyes were filled with a temperament of no anger and might!

This is the incarnation of Fang Yue's spiritual energy!

It is natural for him to have no problem when he talks about the Tao with one mind.

If you are not 100% sure, with Fang Yue's life-saving degree, how could it be possible to sit down and refine the pill in peace with the crowd of heroes?

The avatar appeared, and he stretched out one hand, pinching the phantom of the three-headed six-armed demon god.

"Dare to shoot at me, do you know what the end is?"

In Fang Yue's voice, there was a trace of ferocity.

This time, Fang Yue does not intend to solve the problem peacefully!

No beep if you can.

Did not wait for the Demon God phantom to speak.

With a snap, the phantom of the demon **** collapsed like a bubble and disappeared from the world!

"The technique of clone!"

Shang Yundi looked solemn, and Fang Yue turned out his hole cards one by one.

Before, Shang Yundi, who was full of confidence and thought Fang Yue was just an ant, suddenly had a heart palpitation and a tremor!

This is different from what he expected!

Even at this moment, Shang Yundi was a little shaken and suspicious.

Whether this Fang Yue is really the same as he imagined, he will be killed here.

Fang Yue's aura clone slowly walked down.

There were waves of little demons culling towards Fang Yue's clone!

However, when they were approaching Fang Yue, the life realm in their bodies was like a flood that opened the gate.

Just in the blink of an eye, the vicious little demons are dust and ashes that have become all over the ground.

Fang Yue was fearless.

Even if it is an aura avatar, he also has the means and strength of the deity part.

In the face of life deprivation, the number of biological weapons below the Yin-Yang level has no meaning.

No matter how many little demons there are, they are just sending more life essence to Fang Yue!

Shang Yundi's most powerful reliance disappeared.

His face changed in an instant.

"Yi Han, don't you want to make a move?"

Shang Yundi withdrew, he burst into the void and shouted.

The sound did not fall.

The void shattered, and a sword shadow suddenly emerged, flashing towards the head of Fang Yue's deity.

If Fang Yue's deity is guarded by a clone, he might not dare to make a sneak attack.

Now that the clone leaves, the deity has no defense at all. He doesn't do anything at this time, and when should he wait?

"stop!"

Ding sound. Du Cheng shot, his sword light was like electricity, and it collided with the sword stabbed in the void!

Du Cheng's strength was obviously weaker. Although he also missed that sword shadow, his mouth was shocked, but red blood was dripping out!

"Many arm is a car, it doesn't matter!"

Yi Han walked out of the void, his narrow eyes looked at Du Cheng.

"With me, don't you want to hurt Fang Yue!"

Du Cheng looked at Yi Han persistently, with a stubborn look all over his face!

Du Cheng guards Fang Yue and confronts Yi Han away!

And Fang Yue's aura clone does not even know his head.

Continue to go deep into the community of little devil.

Fang Yue is like a whirlpool, constantly sucking the life essence from all the little demons!

The road he traveled was covered with ashes nearby, and all the ashes were left by the corpses of the little devil!

"The biological weapons of the Universe on the other side are nothing more than that!"

Fang Yue's voice evaluation seemed to be a trivial evaluation.

However, Shang Yundi felt hot on his face.

The team he assembled meticulously ended up with such an evaluation, which was simply slap him alive.

"Fang Yue, you are too arrogant, think you can underestimate the heroes of the world?"

Shang Yundi sneered.

Fang Yue shook his head: "I didn't underestimate the hero of the world, but it's a pity that you are not a hero!"

"Annice, kill him!"

Shang Yundi withdrew again, this was not his deity, the body of a little demon, Fang Yue could kill it by flipping his hand, and it was vulnerable.

Annie stepped forward and said softly: "Sorry!"

Immediately afterwards, Annie made her sword like a dragon, with vicious moves, she must put Fang Yue to death!

"Annie, I want you to stop!"

Tian Kuan walked out to fight Annie.

Fang Yue's clone was free again.

"Is there any hole card, just come on!"

Fang Yue looked at Shang Yundi's little demon clone, Shang Yundi didn't expect that the situation would turn out to be like this! "Fang Yue, don't be too arrogant! I have checked your details. You are from a declining planet Earth, among which even an upright saint has never taken action. If you insist on being an enemy of us, we don't mind letting the earth act your

Pay some price for what you do! "

A low voice appeared!

The wide back gives people the feeling of being towering like a mountain!

"you dare!"

Fang Yue didn't expect that this person had already figured out his own details in such a short time.

Even the organizers of the Battle of the Beidou are not very clear about their origins.

Before participating in the Battle of the Beidou, Fang Yue had asked Wanxiang Pavilion to obscure his identity information.

This is a basic service provided by Wanxiang Pavilion for senior VIPs.

Unexpectedly, he had already laid out his back hand, and he was still able to find out the details of this universe.

This also made Fang Yue feel quite surprised.

"Why don't I dare? I am a person from the other side of the universe, only pay attention to the result, not the process! If you kneel down and die, I can consider and spare your hometown!"

There was a trace of contempt in that person's voice, the people of Ten Thousand Worlds Universe were indecisive, far less decisive and hot! Such a person, no matter how many means, will not be destined to become an atmosphere!

Fang Yue snorted coldly, "You forced me! Originally, I didn't want to use this method to deal with you, but since you have forced me to a dead end, I have nothing to consider!"

Just when Fang Yue was about to show his trump card, Xiao Meier walked out. "Fang Yue, don't do this! Yan Qing, I didn't expect even you to join Shang Yundi and become his lackey! Your opponent is me. If you want to deal with Fang Yue, you can live out of my hands first!"

Chapter 890: Shang Yundi's method

Xiao Mei'er walked out, her smile was a bit cold.

This time it was a battle of life and death, and she felt that she had no need to retain her strength!

"Xiao Mei'er, you betrayed the other side universe and the ants of this Ten Thousand Worlds Human Race, do you know that you have committed a heinous crime?"

Yan Qing yelled at Xiao Mei'er. He and Xiao Mei'er were from the same school, and naturally knew that Xiao Mei'er was amazing!

In terms of strength ranking, he is a bit worse than Xiao Meier, and more importantly, this Xiao Meier has always been cruel. If she is stared at, it is difficult for oneself to survive!

Fang Yue originally wanted to turn over the hole card, and pressed it again.

The situation does not seem to be so bad that I have to act recklessly!

"Damn it! Xiao Mei'er, if I catch you as a **** this time, it will definitely make you unable to survive or die!"

Shang Yundi was a little frustrated. Seeing his subordinates were entangled one by one, he had to face Fang Yue himself!

If the deity were there, Shang Yundi would naturally not care about a small Fang Yue, but now, his deity still dare not show up easily, fearing that someone would take the opportunity to kill him!

Although Shang Yundi is powerful, he is extremely spoiled among the sects. I don't know how many people are staring at him secretly, hoping to take advantage of this opportunity to unwittingly revenge and kill him!

The enemies that Shang Yundi provoked were quite a bit like Fang Yue, and they were even several levels higher than Fang Yue's enemies in terms of strength!

"The two of us are left! Are you deciding whether to fight heads-up or gang fight!"

Fang Yue's spiritual avatar walked in front of Shang Yundi, he sneered at Shang Yundi, his lips were red and his teeth were white, and his smile was bright!

Shang Yundi felt cold on his back spine!

It is also a clone, but Shang Yundi feels that Fang Yue's aura clone is more powerful than his little demon clone!

"End the battle, kill Fang Yue at any cost!"

Shang Yundi stepped back and ordered his little demon to besiege Fang Yue.

Even if it is grinding, Fang Yue's clone has to be ground to death!

Fang Yue glanced at the little demon coming from the mountain whistling the tsunami, but any little demon who did not reach the Yin-Yang level, the essence of life in his body could not help pouring out, flowing into the body of Fang Yue's aura clone. .

Because the number of life essences absorbed was too much, in the dantian position of this spiritual energy clone, an inner pill formed by the condensation of life essence had already begun to condense.

The remaining little demons above the Yin and Yang level are also struggling to support them. They must maintain a state of full defense to prevent the continuous loss of life essence in the body!

Fang Yue's method is really weird!

If you don't enter the Yin-Yang realm, you don't even have a chance to confront him directly!

However, Fang Yue remained vigilant at this time!

Shang Yundi has five thugs in total. Now one has rebelled, three have appeared, and one more, who is it?

In Fang Yue's heart, he secretly calculated the identity and origin of the last person!

When Fang Yue frantically absorbed the essence of life, Shang Yundi suddenly revealed a strong murderous intent in his eyes!

"Die!"

Shang Yundi suddenly turned into a black sword glow. He burned all the potential of this little demon clone. The pressure of destruction in the sword glow surged crazily, and it pierced towards Fang Yue's deity who was making alchemy.

Shang Yundi understood that even if it was the aura clone that killed Fang Yue, as long as the deity was still there, he had no way to use Fang Yue.

On the contrary, if Fang Yue's deity was killed, then this spiritual energy clone would be a sourceless water!

Even if it can last for a while, the time spent at most three to five days will disappear.

What he cultivates is the soul's methods. Although he has never touched the taboo-like realm of the soul's heavenly path, he thinks he still knows the soul's methods!

Shang Yundi thought so.

But Fang Yue didn't think so!

His spiritual qi clone, in terms of means, does not even have a tenth of the deity!

If this Shang Yundi attacked the aura clone, perhaps he could still find a flaw, with a trace of surviving the dishes, but against the deity.

But there is no possibility of even entering into reincarnation!

Divine Mind Clone, this trick may be unsolvable for others.

But in Fang Yue's eyes, it was nothing more than a trick!

Fang Yue's spiritual energy clone stayed in place, just watching that Shang Yundi's little demon clone turned into a sword light stab at the deity.

He never shot, even stood with his hand, as if all this has nothing to do with him!

The black sword light approached.

Suddenly, thunder broke out!

Heavenly Tribulation!

Fang Yue's deity's alchemy furnace had come to an end.

Four-turn medicine! This was Fang Yue's first refining. As far as the realm of the practitioner is concerned, the three, six, and nine levels are all an insurmountable threshold. If you cross, everything will be different.

The same is true for alchemy.

The power of the Pill Tribulation Theory of the Fourth Turn of Heaven's Tribulation is more than ten times more powerful than that of the Third Revolution's Tribulation.

Fang Yue's alchemy was not only to treat Nangongque's injuries, but more importantly, to attract the pill!

In the sky, dark clouds are like ink, rolling!

It contains a huge amount of thunder power!

At this moment, the long sword that Shang Yundi's incarnation had suddenly arrived!

Murderous and noisy, black light vents, as if not to kill Fang Yue, vow not to give up!

At the moment when Jian Guang almost penetrated Fang Yue's eyebrows.

Around Fang Yue, ripples of space slowly rippled.

Both he and Nangongque escaped into another dimension, even if they were as powerful as the heavenly calamity, they couldn't cross the space to chase Fang Yue and Nangongque!

In this world, only the magic sword incarnation of Shang Yundi hovered.

At this moment, Shang Yundi only felt the dark clouds overwhelming, and he was facing the whole world alone!

Heavenly Tribulation!

This is what Shang Yundi fears most!

His body is the body of a devil, his soul, from the yin to the evil, no matter what it is, it is rejected by the heavens!

Shang Yundi never thought that one day he would be alone!

Because he has a mysterious method that can shield the secret of heaven. As long as he doesn't confront the heavenly calamity head-on, he is sure that he will not find his own head for the whole life.

However, this time, he was calculated by Fang Yue that he was really directly facing the Tribulation!

That's a catastrophe!

Shang Yundi swallowed a mouthful of saliva. Although he knew that even if this clone was destroyed, his deity would still be intact, but in his heart, after all, he was still a little nervous!

The dark clouds in the sky churned constantly.

The tribulation that had been brewing for a long time still refused to really fall.

However, Shang Yundi did not move halfway.

Because he knew that being targeted by the robbery, no one could run away.

Special code, Fang Yue, wait for me, I have written down this grudge, I want to destroy your family!

Finally, the tribulation that had been brewing for a long time finally fell. In the tribulation, the long tribulation power finally evolved into a huge dragon with a length of hundreds of meters!

The dragon had wings on its back and spread its wings to cover the sky. His huge body twisted slightly in mid-air, and it rippled through waves of spatial ripples!

Fang Yue, who was hiding in unknown time and space, was slightly surprised.

This Shang Yundi is really hateful!

Fang Yue's four rounds of pill tribulation, the celestial tribulation that led to it, was actually not very strong. He barely reached the level of Yin-Yang realm. Originally, it was just for disgusting Shang Yundi.

However, I didn't expect that after encountering Shang Yundi on this day of robbery, it would automatically strengthen dozens of times!

With the power of today's calamity, even some veteran yin and yang realm experts will be frightened and their legs tremble!

Thunder transforming a creature, the giant dragon's eyes the size of a grinding disc lightly glanced at Shang Yundi.

Shang Yundi immediately felt like falling into an ice cave, his whole body was so rigid that he could not move!

"Shang Yundi is dead, do you continue to fight?"

Through the layered void, Fang Yue's voice has fallen into this world.

Each of Shang Yundi's helpers showed a hesitant look.

They understand that a clone of Shang Yundi will not die if he is destroyed, but if they stay here for too long, they may not be able to endure good results!

Now, they have been restrained by Fang Yue's many helpers.

Although, the one-to-one process can barely gain the upper hand.

But the problem is that as long as Fang Yue takes the initiative to deal with any one person, they may not be the enemy, this is not arrogant.

But Fang Yue's methods are a bit perverted!

Is this Tian Jie that can be summoned if you want to summon it?

Even the great assassin of Heavenly Tribulation is in his hands, it is hard to imagine whether Fang Yue has other cards and methods!

"Hun Dan! Soul Dan! Fang Yue, you just killed one of my clones! Why do you really think that the winner is in hand! I will send more powerful clones to fight side by side with my people!"

Shang Yundi, what he fears most now is the shaking of his own military spirit!

He lobbied vigorously.

The eyes of Annies and others gradually became calm.

Yes!

This Shang Yundi was just an avatar being wiped out, and he hadn't really reached the point of life and death!

In this battle, they still have the certainty of victory!

Fang Yue glanced at Shang Yundi and chuckled.

Under the dark clouds, the dragon leaned forward, its mouth opened, and a black flame sprayed towards Shang Yundi.

Causality locked!

This Thunder Dragon's methods are even more terrifying than the general veteran Yin-Yang realm powerhouse!

As long as it is entangled by cause and effect, there is nowhere to escape, nowhere to hide!

"Damn it!"

Although Shang Yundi knew he was bound to die, he had to struggle before he died. These thunder and punishments were enemies he couldn't get around!

If he can defeat or even conquer it, his strength will definitely make progress!

However, it turns out.

Shang Yundi thinks too much!

There is no such simple thing to make a breakthrough.

The black flame fell, and Shang Yundi's little demon clone instantly became ashes under the majesty of Thunder!

A ray of silver-white divine thought floated in the void.

This ray of divine thought gradually turned into the appearance of Shang Yundi, the size of a palm, and the appearance of a human. He shouted at Fang Yue angrily: "Fang Yue, you wait for me!"

"Huh? This time, Shang Yundi's spirit was not smashed to death by the catastrophe!"

Someone looked surprised and said to himself.

Fang Yue also stared at the giant dragon, wanting to see what it wanted to do.

Fang Yue had countless tribulations, he could be regarded as a professional tribulation professional, he had vaguely summed up from experience, this creature evolved from thunder, in fact, has a certain fighting wisdom!

This giant dragon did not kill Shang Yundi in one breath, it must have its own consideration!

At this moment, the Thunder Dragon suddenly protruded its claws, and on its claws, the lightning flashed, forming a cage space of its own!

The giant dragon flipped his palm to press Shang Yundi on the ground. Shang Yundi's Divine Mind complexion flushed, he had never been surrendered in such shame.
