

God of Life 891

Chapter 891: Thunder Heaven Punishment

"If you want me to surrender, don't think about it!"

Shang Yundi thought that the dragon wanted to make himself surrender.

Therefore, he kept roaring at the Thunder Dragon.

However, the Thunder Dragon is not a bird at all.

Conquer you?

Lao Tzu can survive a few breaths, and you have a fart after conquering you!

I want to kill you!

The Thunder Dragon used the secret method, and in Shang Yundi's divine thoughts, the red lines of cause and effect suddenly appeared.

These causal threads are the entangled connection between the clone and the deity.

Follow these causal lines to search.

Shang Yundi simply has nowhere to escape!

Shang Yundi saw these crimson lines of cause and effect, and he finally understood what the Thunder Giant was doing.

However, when did Heavenly Tribulation be so awkward?

Not only can they evolve into beings, but they also have self-consciousness!

Even the leader-level powerhouse may not be able to comprehend the path of cause and effect, follow this line of cause and effect to find your own deity!

Just when Shang Yundi's clone was still sighing.

The Thunder Dragon suddenly pulled the line of cause and effect.

Shang Yundi's deity was pulled out!

Shang Yundi's deity, to be honest, looks really good, with beautiful eyes, red lips and white teeth. He is definitely a handsome young man!

However, at this moment, Shang Yundi's face was full of hideous expressions.

His deity began to hide when he first entered the Great Cloud Realm, but he didn't expect to be slapped out by the thunder dragon.

He has countless enemies, what if someone catches him?

Shang Yundi glared at the Thunder Dragon.

The Thunder Dragon also glared at Shang Yundi fiercely, and the two were definitely enemies when they met. They were extremely jealous!

At this time, the Thunder Dragon suddenly roared, and the void trembled. A silver long sword suddenly fell from the void into a ray of silver light, and slashed towards Shang Yundi!

"Thunder Heaven Punishment!"

Although Fang Yue didn't perform many times on weekdays, deep down in his heart, he always thought that he was a true cultivation technique!

But he didn't expect 10,000 of them, that the spells used by the Thunder Dragon were even more pure than his.

This Thunder Heaven Punishment is a spell at the rotation realm level.

Although Fang Yue has seen it in some ancient classics, he has never used it.

This stroke of Thunder Heaven Punishment, the summoned Heaven Punishment Sword has an unimaginable terrifying lethality to some evil creatures.

After cultivating for so many years, it was actually not as good as a giant dragon summoned by the tribulation.

Fang Yue really feels hurt inside!

However, whether Fang Yue is injured or not.

The battle between the Thunder Dragon and Shang Yundi continued.

The fighting rhythm between the two is not fast, but every shot is a trick to kill!

The big move always takes some time to brew.

The Sword of Heaven's Punishment slashed towards Shang Yundi, and if Shang Yundi hadn't seen him, he had a milky white robe, hunting in the wind.

The robe trembles, and in a blink of an eye it has evolved into an endless world of white light!

That day the sword of punishment was taken into the milky white robe.

Fang Yue was a little surprised: "This is a master-level magical weapon, which stores the mana that has been cast several times. Without consuming half of Shang Yundi's strength, this robe can resist disaster for Shang Yundi!"

This robe is very strong!

Du Cheng also saw this scene, the obsession in his heart at the moment, treacherously rose again.

"The most annoying is this kind of disciple of the family who sit back and enjoy their achievements. If I had their resources, I would definitely be ten times better than them!"

Du Cheng's broken voices continued.

At the same time, the sword light in his hand became more and more cruel, as if to vent the dissatisfaction that had accumulated in his heart for a long time.

Du Cheng's opponent was beaten back and forth.

"Damn it, I provoke you, why are you so angry with me?"

Du Cheng's opponent is also full of grievances.

You are wronged, you are in debt, and you really feel that the disciples of the noble family are not good, so you can go to the righteous master Shang Yundi!

Shang Yundi's white robe is unparalleled in defense, even the Thunder Dragon can't help him!

At this moment, Shang Yundi stared at the giant dragon closely with a pair of cold eyes.

"You really touched my bottom line, don't you want to see the strength of my deity? That's fine! I'll let you learn it!"

The corners of Shang Yundi's mouth were filled with jealous smiles.

Everyone knows that his clone method, treacherous changes, can survive, but no one has ever seen the terrifying scene when his deity shot!

In Shang Yundi's hand, there was a **** long sword, and the blade of the long sword was not smooth.

Above, embossed with the heads of 108 bloodthirsty demons.

Once someone is hit by his long sword, all the blood in the body will be drunk and swallowed by the devil's head!

"Blood Sword! It turns out that this Shang Yundi was the one who killed three senior brothers and seized their spirits to refine magic soldiers!"

Tian Kuan's eyes widened.

This matter once made a lot of noise in the martial arts!

Overnight, all three seniors at the pinnacle of the rotation stage were all beheaded.

Their necks were cut off and their heads fell to the ground.

The blood and soul in the body were all absorbed.

Even though there was a saint-level elder in the door who personally performed the deduction, in the end, he did not find the true face of the culprit. It was just calculated that the reason why these three seniors were killed was to warm up the blood-dropping sword of the forbidden demon soldiers in the universe!

Unexpectedly, this murderer was actually Shang Yundi who was famous in the door and was given high hope by many elders in the door!

Oh, the eyes of the elders in the door are really not so good!

Tian Kuan's smile was full of sadness and helplessness.

The school is really good for Shang Yundi.

Unexpectedly, Shang Yundi was ungrateful, and that's how he would return the school! "It turns out that there are still people who remember what happened back then! Yes, I did kill the three seniors, but they should have died properly! With their aptitude, even if they are the highest, that is, they have cultivated to the level of the leader, but they are integrated mine

In the **** sword, became the soul of the **** sword. This drop of blood sword could grow into a saint class in the future, but it was a higher-level weapon. If they knew well, they would be honored and proud of it! "

Shang Yundi had no repentance.

Instead, he said to himself.

The blood dripping sword was just the power of destroying the world and devouring everything from the sword, which made the thunder dragon look like an enemy.

It was born from the catastrophe, and it is extremely sensitive to the power of destruction and devouring!

The dragon roared, and sprayed out a black fire again.

However, this time, Shang Yundi didn't have the slightest fear.

Raising the palm of your hand gently slapped the flames that thunder light turned away!

Even without a clone, Shang Yundi's combat effectiveness is the best in the fairy seed.

Although this Thunder Dragon is strong, it is just a lot of clones that can deal with it!

Shang Yundi is too good at hiding on weekdays, and few people have seen his deity, let alone understand his deity's strength.

Now, his deity's shot was shocking, and even Fang Yue's face showed a rare dignity.

"It seems that today's battle is not so easy to understand!"

As Fang Yue said, he lifted up Nangong Que, who was gushing with a hundred herbs.

The pill furnace was opened, and a total of nine pills were formed.

The Four Transformation Pure Body Pill tempers the body and removes all impurities in the body. Improve the roots and strengthen the vitality!

The introduction of the Four Turns Cui Body Pill is pitiful, and this is not like a normal Four Turns Pill.

At the very least, you have to list me four special attributes!

Fang Yue looked at Nangongque and felt a little guilty. He originally thought that after refining the four-turn quintessence pill, Nangongque could relieve the poison in his body, and even improved his cultivation and foundation, and went further!

It turns out that Fang Yue still somewhat overestimated himself.

"Eat one pill first!"

Fang Yue was a little guilty, and he fed Nangongque a Pill of Four Transformation Pure Body Pill.

Nangong Que was convinced of Fang Yue's alchemy methods, and even such a mighty tribulation was summoned.

Can the pill that Fang Yue feeds him worse?

The pill melts in the mouth, and there is a light fragrance between the lips and teeth.

Well, it tastes good!

Nangongque clicked like in his heart.

Wow!

Wow!

Wow!

Wow!

Immediately afterwards, the pill came into effect!

Nangong Que vomited black blood! A little face turned white!

His face is pale and pale!

"This pill is poisonous!"

Nangongque said to Fang Yue.

"No poison!" Fang Yue was a little relieved when he saw the appearance of Nangong Que. Although these four-turn Cui-Tai Pills were not as effective as imagined and added a lot of attributes, they were really detoxifying Nangong Que. , Every bite of poisonous blood is a condensation of toxins,

There are even impurities in Nangongque's body.

It's just that the medicinal properties of this pill seemed to be a bit too strong, which made Nangong Que vomit so uncomfortable.

Sure enough, after Nangongque spit out nine bites of poisonous blood, a red blood halo appeared on his face.

Nangong Que was alive and well, and the toxins in the body were eliminated.

He felt that his condition was better than before the poisoning. He was light and light, like a bird.

"This is... an innocent body!"

Nangongque looked inside, suddenly showing a look of surprise.

The unsullied body is a rare special physique. There is no dust and no dirt in the body. A wisp of spiritual energy enters the body, which can flow through the meridians, wash the body, and run the mana smoothly!

The formation of the Unsullied Body can at least double the speed of his cultivation base, and the power of every move and every style, because there is no obstacle in the body of impurities, can at least increase the power by 50%!

What makes Nangongque even more pleasantly surprised is that if the Wushou body is advanced by coincidence, then it is the legendary fairy body!

Nangong Que was originally a special physique, invincible at the same level, it is rare to resist the hand, and now it is superimposed with an innocent body, is it possible that his Nangong Que is destined to go against the sky? "It turns out that it is so, no wonder the four-turned body pill has only one attribute. It is not that the properties of the pill will weaken after the fourth-turned pill, but the fourth-turned pill will concentrate all the essence a little, and the dirt body that is shaped is more than increased. Shou Yuan, strengthen

The effect of the foundation is more precious and rarer! "

Fang Yue nodded, understanding the true function of the Four Transformation Pills.

A pill, creates a body of dirt.

If this is known by the outside martial arts, I am afraid they will bid for the Four Transformation Pill at all costs.

Of course, Fang Yue's understanding of the urinary nature of those martial arts.

The more likely choice for those sects is to tie Fang Yue and put it in a small secret room in a remote village, so that he can make alchemy forever and become a complete alchemy machine! "Nangongque, you must keep the matter of the dirt body secret! Even the people closest to you can't tell! As for why you have such a change, it is said that you have found the inheritance in a cave, the power of being passed on. , Changed the physique, so

Just repaired the body of dirt! "

Fang Yue told Nangong Que.

Although this excuse is a bit **** and cliché, the credibility is the highest! There are countless opportunities in the ten thousand worlds, inherited, harvesting dirt bodies or something, in fact, it is still very natural.

Chapter 892: You don't regret

Outside, the battle between Thunder Dragon and Shang Yundi has reached a fierce moment.

Shang Yundi has the upper hand, while the Thunder Dragon's body is scarred!

Shang Yundi could actually kill the Thunder Dragon long ago, but he was unwilling in his heart, so he wanted to torture the Thunder Dragon to death.

Thunder dragon, if there is no wisdom.

But this thunder dragon is wise and painful, so Shang Yundi would torture it by all means to relieve his hatred.

"Roar!"

The thunder dragon roared, his eyes could almost spit out anger.

However, if Shang Yundi hadn't seen him, he still carried a blood drop sword, adding wounds to the thunder dragon with sword by sword!

"Everyone who offends me has no good end! You are just the first one! Then it will be the hateful Fang Yue's turn!"

Shang Yundi tortured the Thunder Dragon, while speaking provocatively to Fang Yue who was outside the world.

"Are you threatening me?"

Fang Yue looked at the hideous Shang Yundi with a faint smile.

"This is not a threat, but something that is about to become a reality! Fang Yue has the ability not to hide in other spaces, fight with me like a man!"

Shang Yundi hated Fang Yue so much that he gritted his teeth, he couldn't wait to take his skin and dig his bones.

However, Fang Yue didn't see him.

There was still a faint smile on his face.

"You have the ability to kill me!"

Although it seems to be close at hand, in fact I don't know how many worlds are apart. Shang Yundi couldn't even touch Fang Yue's hair at all, let alone kill Fang Yue!

Shang Yundi hated it so much that the roots of his teeth were itchy. Shang Yundi finally understood why in the ten thousand realms, when it comes to life preservation, it is not the soulless avatar he cultivated but the practitioner of the space and heaven.

As long as they want to run, no one can catch one of their hairs. "Fang Yue, don't be arrogant. Although I can't touch you, you are definitely not my opponent! I want to kill your friends and comrades in front of you one by one, and let them die on your side. Before you let you listen to them before they die

The voice of tragic wailing.

Shang Yundi Jiejie sneered, like a devil crawling out of hell.

Fang Yue smiled leisurely: "Since you want me so much to return to the Great Cloud Realm, then I will fulfill your wish, but I hope you will never regret it!"

Fang Yue stepped out, and thousands of worlds were left behind.

In the next moment, Fang Yue appeared in front of Shang Yundi.

Shang Yundi showed excitement on his face and said with a big laugh: "Fang Yue, you are indeed an idiot, and you really dare to appear in front of me! An idiot, as expected, you will always be an idiot!"

"Fang Yue!"

Seeing Fang Yue's return again, Du Cheng couldn't help showing worry.

The strength of Shang Yundi's deity exceeded all their expectations.

"It's okay! This stupid can't help me!"

Fang Yue waved his hand, his smile still bright.

Shang Yundi snorted coldly: "Fang Yue, are you still stubborn when you die?"

"Death is coming? You are a little too dear to yourself, right!"

Fang Yue looked at Shang Yundi contemptuously.

Above his head, the Jie Yun that had already begun to dissipate suddenly gathered again!

This was a catastrophe when Fang Yue released the Innate Realm.

Because he owed too much, Fang Yue didn't know what kind of disaster it was.

The robbery cloud rolled. In a blink of an eye.

The thunder and lightning brewing in the robbery cloud that Fang Yue displayed this time all poured into the body of the dying thunder dragon.

Although the number of thunder and lightning this time is not very large, it is extremely pure. Blink of an eye, the thunder dragon's injury was healed. It stood up again and looked at Shang Yundi with anger.

Shang Yundi was a little surprised.

What are these special codes?

What on earth did Fang Yue do that hurt the world and reason? It's fine every day, with a pile of robbery clouds dangling above his head.

"Roar!"

The Thunder Dragon roared at Shang Yundi, it was determined to take revenge, even if it tried everything, it would not hesitate.

However, Shang Yundi didn't pay attention to the dragon at all.

"What is calling? I can beat you once, and I can also beat you a second time. Don't think you can call me casually if you have a little more lightning!"

Shang Yundi said disdainfully to the Thunder Dragon.

Fang Yue glanced at Shang Yundi coldly.

"Do you know where you are wrong?"

"Am I wrong? What am I wrong with me!"

Shang Yundi was confused, he was clearly showing off his power!

There was a strange smile on Fang Yue's mouth.

Above his head, the robbery cloud became thicker in an instant.

Fang Yue released another calamity.

This is the Heavenly Tribulation summoned during a certain stage of promotion in the Hundred Tribulations of the Flesh!

This time of Heavenly Tribulation is even more powerful, about ten times as powerful as the previous one!

In the robbery cloud, all the power of the thunder, as if feeling the anger of the thunder dragon, all merged into the body of the thunder dragon.

The body of the Thunder Dragon did not swell, but became smaller.

However, in the eyes of the Thunder Dragon, a dark golden light appeared.

"Destruction and death coexist!"

The Thunder Dragon was actually empty of words, as if it was a real incarnation and a real creature.

"Thank you, humble intruder, you let me awaken the blood of the judge in anger!"

There was a gentle smile in the voice of the Thunder Dragon.

However, behind that gentleness is also infinite anger!

"Judge! Is this the direction of Thunder creature evolution?"

Tian Kuan had no intention of fighting at this moment, and he looked at the Thunder Dragon with excitement.

Then Anisi didn't take the opportunity to take advantage of others' precautions. On the contrary, she looked at Tian Kuan with a gentle face, not like life and death at all.

"Judge! So what, don't think you can challenge me if you are better than before!"

Even if the Thunder Dragon had evolved to the level of a judge, it was nothing to Shang Yundi.

Shang Yundi has countless clones, wandering across the universe, and the opportunities and wealth he has accumulated in his hands are not even weaker than some ordinary saints!

Even if this thunder dragon evolves, at most it is at the peak of the Yin-Yang realm. Compared with the hidden hole cards in Shang Yundi's hands, it is nothing at all!

"Judgment and punishment!"

The thunder dragon roared at the sky.

A chain of silver chains of order slowly twitched out of the void!

Each chain has the thickness of a baby's arm.

Hundreds of chains, like venomous snakes with their own intelligence, furiously culled towards Shang Yundi's body.

Shang Yundi snorted coldly, but stood still on the spot, just like a sculpture without any will, letting those thunder chains hit him.

All the chains, when they fall, will be swallowed by invisible black holes, the space will be distorted, the chains will be broken, and the purest Thunder element will disappear completely!

"Fang Yue, is this your trump card against me? Rely on this stupid dragon? Your performance really makes me feel so disappointed!"

Shang Yundi showed a disappointed expression, he was stimulating Fang Yue.

The white robe was a master-level magic weapon, and the mana in it was enough to support him against three waves of attacks above the master-level level.

Fang Yue always smiled.

"No, no, no! Of course I don't just count on the current Thunder Dragon but, I think he will become stronger!"

Fang Yue stared at Shang Yundi fiercely.

Another tribulation was released!

Fang Yue didn't know the origin of this catastrophe.

But there was already a hint of blood in the lightning!

"Crimson Lightning, the Tribulation of the Scourge, Fang Yue, how hard is your relationship? Even the Scarlet Lightning will be stopped for you, not to cause it!"

The Thunder Dragon looked at Fang Yue, and after becoming the judge, his instinctive memory was glowing. As the judge, you naturally know what the blood-colored lightning represents!

That was the calamity caused by the killing of too many strong men.

There are too many powerful killings, this does not mean that indiscriminate killing of innocents.

The strong, there is a definition.

Those who exceed the three small realms of the killer themselves are considered to be strong killers.

If there is too much, naturally it is not a case of leapfrogging and killing three or five.

Although this excessive judging standard is vague, at least it will kill more than a thousand people.

Is this Fang Yue a lunatic?

Leapfrogging, large-scale killing.

There are really not many people who trigger Scarlet Lightning because of killing too many powerful people!

It's not that they don't want to, but they really can't do it!

At this moment, the eyes of the Thunder Dragon looking at Fang Yue were strange.

Its inner feeling is that Fang Yue's level of horror is a hundred times more than the constant calling Yun Shang Yundi!

As a judge, naturally there is a set of standards for the judgment of the strength of other creatures.

Their intuition is generally not wrong.

"Crimson Lightning is too pure, I can't blend into my body!"

The Thunder Dragon said with an angry voice, Yue Weng.

The blood-colored lightning was tangled in the strands, entwined with a breath of curse, and the energy in it was extremely essence, even beyond itself.

Therefore, it cannot absorb and refine Scarlet Lightning to become even stronger!

"This is no problem!"

Fang Yue laughed and said, "Since its energy is too refined, then break it and slowly refine it!"

Fang Yue's statement is extremely domineering!

After that, he just raised his iron fist and blasted down towards the **** lightning!

The blood-colored lightning shattered immediately and turned into blood-colored electric lights, flickering and floating in the void.

Upon seeing this, the Thunder Dragon became extremely excited.

The judge has a life span of one hundred years, and is no longer evolved from the pure power of thunder as before, and will live and die! But even so, a hundred years of life is fleeting, and the only way to extend its life is to continue to evolve! There are many ways to evolve the Judge, but the simplest of them is undoubtedly the constant devouring of the power of lightning.

Raise the essence and level of life!

After swallowing the blood-colored lightning, a layer of blood-colored skin began to form on the body of the Thunder Dragon!

The silver dragon turned into a dragon body with blood red skin and silver scales.

Shang Yundi was stunned when he saw this situation!

Evolving at this pace, this Thunder Dragon, let alone reaching the leader-level level, will not be surprised even if it evolves into a saint-level judge!

"Fang Yue, you are all tricks!"

Shang Yundi immediately realized that the root of all these weirdness appeared in Fang Yue's body.

Therefore, Shang Yundi is ready to change his strategy and capture the thieves first.

If Fang Yue is taken down, everything else will become easier to solve!

However, real-time is not as simple as Shang Yundi imagined, just because of his furious things.

Fang Yue's special code disappeared again!

He seemed to have a hunch, knowing that Shang Yundi would target him.

So he hid first away from the thousands of worlds. Shang Yundi can't even touch a single piece of his hair!

Chapter 893: Might of the Thunder Dragon

Shang Yundi jumped into a thunder, he had seen a shameless person, he had never seen such a shameless person.

Boy, where is your backbone?

What about your morals?

Shang Yundi faced the Thunder Dragon again, but his face was obviously not as easy as before.

After fusing the Scarlet Lightning, the Thunder Dragon has taken a crucial step. It is already comparable to the leader-level realm, and in terms of combat power, ordinary leader-level practitioners are far from being comparable to the Thunder Dragon!

The Thunder Dragon turned into a stumbling young boy, with red lips and white teeth, and a pair of big eyes that were extremely clear, like a barren spring.

Shang Yundi looked at the young man incarnation of the thunder dragon, and he couldn't help but chuckle in his heart!

Incarnation as a human being is an essential transformation of all monster creatures.

Once they can be transformed into human beings, it proves that they can already learn to cast most of the magical powers of the human race!

"Shang Yundi, don't you think I'm vulnerable? I'll give you a chance to kill me!"

The young man evolved from the Thunder Dragon has a nice voice. Although he is very dissatisfied with Shang Yundi, his crisp voice seems to be an invitation.

"Hmph, don't think that you can be an enemy of me when you reach the level of the leader! I tell you, you and I are still far away!"

The blood drop sword in Shang Yundi's hand suddenly pierced out, the ghost roared, **** on earth.

"Thunder cleans the world!"

The white and slender palm of the Thunder Dragon flicked in front of him, and the space rippling involuntarily!

The anxiety in Shang Yundi's heart suddenly became more intense.

"No good, miscalculation!"

When Shang Yundi changed his mind, he realized exactly where the problem was.

The resentment and evil spirit in the blood-dropping sword are extremely strong!

If you deal with ordinary creatures, there is definitely no problem. These grievances and evil auras can create layers of illusions. Even if they can break through one of the layers, other illusions will make them trapped in it.

The battle between the masters is just between a flash of lightning, a slight loss of consciousness may be the result of a deadly place.

However, the illusion of this drop of blood sword is of no use to the Thunder Dragon!

The Thunder Dragon, and even the body of pure Yang, any yin and evil force, could not have any effect on him.

Moreover, although the Blood Sword is powerful, it is an evil thing after all.

Any evil thing will be restrained by the thunder.

In a second thought, Shang Yundi wanted to take back the blood drop sword. Unfortunately, he had already noticed it was too late.

That drop of blood sword has approached the thunder dragon's throat.

The young man incarnation of the thunder dragon, with clear eyes, looked at the blood sword near his throat.

The sword light has not fallen.

The young man suddenly shot, grabbing the blade of the dripping sword with one hand.

The blood-dropping sword clicked and snapped instantly.

The power of thunder destroys all the texture of the blood-drip sword.

Shang Yundi's face was green and his heart was dripping blood. This drop of blood sword, but he poured a lot of hard work into it.

Unexpectedly, it was so easily abandoned by the Thunder Dragon! "This drop of blood sword should have threatened the life of the peak powerhouse of the ordinary Yin-Yang realm. There is spirit in the sword, and a trace of sword spirit has been born of its own. If it is allowed to grow up, it will become a saint magic weapon. Uncertain. Only

Unfortunately, it encountered the Thunder Dragon, suffered restraint, was destroyed by one move, and even had no possibility of being repaired! "

One sword's hole card was discarded, and Shang Yundi's face was even darker!

He suddenly realized that in fact, by virtue of his own strength, he was no match for today's Thunder Dragon.

It's not that his own strength is not good, but that he is restrained by nature!

What he cultivates is evil arts and magic arts, and he doesn't even have a righteous inheritance.

The evil arts in the world are afraid of thunder!

Shang Yundi suddenly had an urge to find his mother!

How could he be unlucky enough to meet the boy who was incarnation of the thunder dragon?

Shang Yundi no longer thought about how to slay the Thunder Dragon and Fang Yue. He was wondering how to escape with the least cost!

He Shang Yundi has a bright future, but he can't die in this broken place!

"Thunder Dragon, don't you want to kill me? If you have the ability, you do your best to me!"

A provocative look suddenly appeared on Shang Yundi's face!

A cold smile appeared at the corners of the boy's mouth in the form of a thunder dragon.

Even if you don't tell me, I will kill you!

Boy, you can't escape!

"Thunder Chain!"

The Thunder Dragon groaned softly, and once again displayed the Thunder Chain, the chain formed by the condensation of rules and order, slowly twitching out of the void, and there was a faint spark on the surface of the chain.

Hundreds of chains reappeared in a blink of an eye, still the original thickness and original taste.

However, the order rune on this chain has increased!

Continuously spinning piece by piece!

In the eyes of the Thunder Dragon, the light of excitement flickered!

He can finally get revenge!

Shang Yundi didn't stay passively on the spot, waiting for defense. He suddenly charged forward. The white robe on his body turned into a white pike, winding towards the neck of the thunder dragon!

The Thunder Dragon, his strongest place, is also his weakest place!

When attacking, the Thunder Dragon moved forward, condensing 90% of its power into the Thunder Chain, thus ignoring its own defense.

The white horse training, like a white snake, entangled towards the neck of the thunder dragon, if it was entangled. The Thunder Dragon is very likely to capsize in the gutter.

Despicable Shang Yundi!

"Roar!"

The thunder dragon roared, the void trembled, and the void vortex appeared out of thin air!

The white robe included all the thunder.

But at the same time, because the white robe was torn apart because of exceeding the conformity, the ear-piercing sound of cracking silk continued to echo in the void!

"Huh? Shang Yundi didn't attack and kill the Thunder Dragon?"

Originally it was a deadly attack, but at a critical moment, it turned offense into defense, blocking the Thunder Chain of the Thunder Dragon.

This sudden change surprised everyone.

It seems to be different from what I expected!

When Fang Yue was thinking.

The figure of Shang Yundi, who had been shouting loudly, gradually faded.

The deity metamorphosed into a piece of rotten wood, and with a creak, it fell to the ground!

"Li Daitao stiff?!"

Fang Yue was very familiar with this scene! This is what he used to save his life!

It turns out that everyone knows it!

Fang Yue's smile was a bit awkward.

This was so unprepared that Shang Yundi ran away!

"Damn human beings, despicable human beings! Wouldn't Shang Yundi fight me upright?"

The thunder dragon jumped like thunder, and under the delicate appearance, it was still difficult to conceal the thunderous heart of the thunder dragon!

"Shang Yundi ran away, fearing endless troubles!"

Nangongque's injury healed, and he got the Unsullied Body, even a few steps closer than the 100-foot clubhead before the injury!

Nangongque said with a worried expression on his face. Shang Yundi's methods are infinite, and he is proficient in clone art. Although Shang Yundi's loss in this battle is quite heavy, but after all, he only lost some clones, divine consciousness, **** sword and white robe. Two magical artifacts, did not hurt

It's fundamental!

If let him come in the incubation period, wait until the cultivation has made a comeback and break them one by one, they may not be able to resist it.

Looking at Nangongque's worried look.

Fang Yue couldn't help but said, "Nangong Que, don't think so much! This Shang Yundi is here to find treasures in the Great Cloud Realm! If we really don't want to stay, we can go back!"

"Where?"

Nangong Que was dazed.

This thing, doesn't it mean that the big cloud world has been blocked?

Not even the saint can get through!

Where are you going back? Fang Yue glanced at Nangong Que with a white eye: "Of course I will return to any one of the ten thousand realms! As long as it is the world I have been to before, I can return! Or, go back to my hometown and take two rounds of the earth. People of different styles

situation? "

Nangongque shook his head and said with an expression of disbelief: "Impossible! Didn't it mean that the Great Cloud Realm has been completely sealed off by the people of the Universe? Even a bird can't get through it!"

Fang Yue nodded, his expression solemn. "Yes! The people of the Universe on the other side have blocked the Great Cloud Realm, and the bird can't get through it, but that's because it doesn't have a space to cultivate heaven! There is space and heaven, and there is the Yin-Yang Teleportation Array of ancient times. I am sure I can shuttle Two worlds, ignoring the two brothers

Blocked by the barriers of the world! "

Fang Yue said with a sharp glance.

Nangongque could not help being speechless.

I am ready for a **** battle.

You actually let me listen to this, isn't this disturbing the military's mind and undermining my strong will to fight for the last time?

Seeing Nangongque's expression, Fang Yue probably guessed what Nangongque was thinking.

"If you think that the environment of the Great Cloud Realm is more suitable for you to temper and survive, I have no opinion, you can stay here!"

Fang Yue's fluttering sentence immediately defeated Nangong Que!

Brother, don't tell me!

If you can leave, who wants to stay in this ghost place in the Great Cloud Realm!

At this time, Du Cheng, Tian Kuan and their fighting also ceased.

Even the principal, Shang Yundi, ran away. They are still struggling with wool!

The few people that Shang Yundi found, except for Annes, all saw that the situation was bad, and withdrew from them. They were a bit higher than their enemies.

There is no problem with running!

"Why are you staying?"

Tian Kuan looked at Annes.

Annes looked at Tian Kuan quietly: "Because I found out that I still like you!"

"Then let's make up!"

"Ok!"

The little hands of the two are held together like this.

"Fuck, this is too sloppy!"

Fang Yue was not calm anymore, he couldn't help but explode with a foul language!

Annes and Tian Kuan make peace.

It means that Fang Yue has taken a member of Shang Yundi's subordinate to his command.

This time, it was a complete victory.

Although Shang Yundi and the others were not retained in the end, at the very least, there were two more Titans in their camp, Anise and Xiao Meier.

Of course, the Thunder Dragon is still entangled, whether to stay in the human world, to join Fang Yue and the others!

The Thunder Dragon had already been promoted to the Judge. According to the truth, it could be regarded as a temporary worker in the Heavenly Court.

However, temporary workers have a very low status as long as they are not converted.

If he returns to the heavenly court, he executes the natural punishment, can accumulate merits and points, and then use these merits and points to redeem corresponding rewards.

However, with just merits and points, the number of corresponding rewards is too small, which may not allow him to smoothly advance to the next level within a hundred years, extend his life, and maintain his own existence.

But Fang Yue is different! He has nothing to do this day. If he absorbs Fang Yue's power, the Thunder Dragon's promotion speed will definitely surpass that of being a servant in the heavens!

Chapter 894: Renault

After hesitating for a while, the Thunder Dragon became the incarnation boy and decided to stay by Fang Yue's side.

Fang Yue was naturally very happy to join the Thunder Dragon. Although the Thunder Dragon was placed in the heavenly court, it was a small temporary worker.

But after all, it also represents the identity of a public official in the heavenly court!

It manipulates heaven and thunder, its own lethality is quite objective!

It is equivalent to a leader-level powerhouse joining the Fangyue organization.

And its potential is huge, if it swallows Thunder every day, I am afraid it will be promoted to the level of Saint Realm soon!

"My name is Renault!"

The Thunder Dragon gave himself a name! The name is a unique code name for each person. On a larger scale, this represents the most fundamental luck of a person! The quality of a name is related to the destiny of a person's life, and if it is smaller, the name represents

The meaning of a person's existence.

Often only those who have their own name have independent personal dignity and will!

"Fang Yue, can we really return to other worlds in the Ten Thousand Realms?"

Regarding this problem, Du Cheng's obsession is the deepest. He has found the pill to prolong his life, and he can't wait to send the pill to his teacher immediately, so that his teacher will not be troubled by the longevity problem for the time being. "Of course, if you want, I can open the teleportation formation now and return to the host of the Battle of the Big Dipper. The rest place arranged by the host of the Big Dipper for the players is unexpectedly by the other side of the universe. The strong lurking in it

, And the wild hunting of the contestants of the Beidou Controversy, the organizer of the Beidou Controversy is absolutely to blame! "

Fang Yueyi said rightly that there was a lot of anger in his heart for this matter.

Participants in the Battle of the Big Dipper are often relatively outstanding geniuses in the Three Hundred Realms of the Big Dipper. If these geniuses fall randomly to one, it is enough to make people

sigh with regret! "Then let's leave! This time, I will definitely explain to the Great Wilderness Sect and the Nangong family! The dignified Battle of the Beidou turned out to be like this, and the organizer of the Battle of the Beidou can't shirk the blame! The inside of the organizer of the Battle of the North Star, Whether there are agents from the other side of the universe intervene is unknown! "

In this incident, Nangongque had already smelled a strong scent of conspiracy.

"We can't directly enter the organizer of the Beidou Controversy when we leave the big cloud realm. There is a place that attracts the attention of everyone, even if we disguise it, we will be discovered!"

At this time, Tian Kuan raised his anxiety. He is not alone now, he still needs to be responsible for the safety of Xue Ji and Anise!

The Beidou battle is also a very important match among the ten thousand realms.

The strengths of all parties are gathering attention, not only are the young generation of talented players participating, secretly, I don't know how many old monsters are paying close attention to every detail in the Beidou battle.

"This is no problem! I can send you to my home earth! If anyone dares to destroy the safety of the earth, you can take action and help me teach a lesson!"

Fang Yue has absolute confidence in the strength of Tian Kuan and others.

If they intervene in the disputes of the earth, those who descend below the leader level will find it difficult to make waves on the earth!

"no problem!"

Tian Kuan patted his chest, in fact, if it weren't for a player with a perverted level like Fang Yue.

Tian Kuan is still very confident that he can sweep the invincible below the leader level!

Fang Yue didn't delay, and directly set up the yin and yang teleportation formation to send Tian Kuan and the others away.

"This teleportation array is so easy to build? Is it that the space blockade of my universe is so unbearable?"

Tian Kuan looked at Fang Yue with surprised expressions all over his face.

He didn't expect that Bigan Universe's proud method of killing would end up with only this kind of effect. Fang Yue chuckled: "Tian Kuan, you leave quickly! This yin and yang teleportation array, I used a one-time one-way teleportation material, once used this teleportation array will be completely scrapped! As for your questions, I can answer a little bit, the space is sealed

Locks are rare, so they are difficult to break. "

Before Fang Yue's voice fell, Tian Kuan wanted to say something more.

However, the silver light on the teleportation array was already lit, and Tian Kuan and the others disappeared completely.

"Next is us!"

Fang Yue looked at Tian Kuan, Du Cheng, Nangongque and others!

This hasty vacation is already over. Although there are still a lot of regrets left, this big cloud world is too dangerous now. It is very likely that the saints of the universe beyond will take the same means to die when the blockade of the big cloud world is about to be broken, and take a vacation in it. Tianjiao

Kill them all!

Fang Yue built another yin and yang teleportation array and took away Nangongque and others directly!

"Fang Yue, what place did you send? Why is there not even a ghost shadow!"

End of transmission.

Nangongque looked around and found that the surrounding scenery was desolate, with no grass growing, not even a single hair! Fang Yue cast his eyes: "Look carefully, this is the square where we gathered before the quarter-finals, okay? The signs and the stone tablets are still here! However, what you said is also the people here? Extraordinary, How come you are even a guardian

Can't find it! "

Fang Yue looked left and right, his divine thoughts were released, and there was no trace of people in a radius of hundreds of miles!

"Huh?! Not quite right! Why did I smell a faint smell of blood!"

Nangongque suddenly became vigilant. Although he was born in a wealthy family, he did not experience many trials of life and death.

But when he was in the Nangong family, he had many teachers. These teachers were all fighters who had come out of countless fights and battlefields. They had extremely rich combat experience.

Some small skills have long been taught to Nangongque.

So it's the turn of the battle to have theoretical experience, I am afraid that Nangongque is more abundant than anyone.

"Look at me!"

Nangongque stretched out an index finger, the index finger fell into the void, and the ripples slowly spread out.

Then, a blue mirror appeared in the void ripples.

"The Mirror of Truth, a secret technique of the prehistoric era! Legend has it that this secret technique has long been lost, and I didn't expect it to reappear in the hands of Nangongque!"

A look of shock appeared on Du Cheng's face involuntarily.

This secret technique has a great reputation among the ten thousand realms.

It can perceive yin and yang, trace cause and effect, and deduct all the past, and it can be called a fairy-like existence.

Of course, Nangongque's limited cultivation level is still impossible to trace the past and return to a time that is too long, but it is not a problem to just look at it for three to five days.

Just a moment's work.

In the mirror, everything that happened in the square before has been revealed.

Massive little devil biological weapons are coming, and these little devil biological weapons are not new. They have evolved to a fairly advanced level, some are at the level of rotation, and some have even reached the level of the leader.

The contestants were caught off guard and were massacred! The earth was red with blood.

The stump broke his arm and fell down.

Everything came so suddenly.

At this time, the guardian of the Big Dipper reacted, he shot with the strength of a saint to stop him, but unfortunately, he was stopped by a shadow in the dark, and he couldn't intervene to rescue the contestants at all.

The battle lasted not very long, just a few moments of change. Soon the army of the little demons retreated like a tide, and a golden palace was suspended in the air, taking all the little demons away!

Subsequently, a large number of strong men came from the organizers of the Battle of the Big Dipper, among them, dozens of strong men above the leader level. Their faces were pale, they looked at the mess on the ground, and their hearts were all cold. This time, the matter was very important.

Their holding of the Battle of the Big Dipper actually attracted the strong from the other side of the universe.

These powerhouses from the other side of the universe came and went like the wind, and even slaughtered a large number of players in the Battle of the Big Dipper.

The strong men of the organizer of the Battle of the Beidou, their faces are almost green!

Each of these contestants in the BDS rematch was a person with a big identity and a big backing. They just died in the rest square of the BDS for no reason. They had to give an explanation anyway.

Subsequently, the contestants of the Big Dipper were also taken away by the strong organizers!

However, this is not the end of the story. After the contestants of the Big Dipper were taken away, a group of men in black appeared and cleared the blood and corpses on the surface of the entire square.

They are agile and organized, and they are definitely not the organizers of the Battle of the Beidou.

Because the organizers of the Battle of the Big Dipper must appear openly, so there is no need to hide their faces in such black clothes!

"They are from the Nine Profound Sect!"

Du Cheng suddenly spoke with a certain expression!

"Nine Profound Sect?"

Fang Yue looked at Du Cheng, but he did not doubt Du Cheng's inference.

In Fang Yue's view, the people of the Nine Profound Sect were hooked up with the people of the Universe, and were confused.

If the people of the Nine Profound Sect teamed up with Bi An Universe, it would not surprise Fang Yue at all!

"You have to show evidence when you speak, otherwise, it is easy to be mistaken for slander!"

Nangong Que looked at Du Cheng, his eyes blazing. Although Nangong Que also disliked the people of the Nine Profound Sect, he could not casually doubt a thousand-year-old Great Sect because of his personal feelings. Du Cheng looked at Nangong Que, "I have seen their pace. This is the pace specially practiced by the Nine Profound Sects. It is called the Ghost Step of the Nine Profound Sects. It is the original creation of the Nine Profound Sects. Moreover, the Yixuan of the Nine Profound Sects is the path of the underworld. Xuantong. The most basic resource for cultivating this technique is the corpses of various powerful people! Opening the path to the underworld is just the introductory skill of that mysterious power. The really advanced thing is to absorb other strong corpses, blend them into one's body, and then body For a long time, my sister was an elder of the Nine Profound Sect

Killed for the purpose of cultivating Mingtu Xuantong, she took away my sister's heart and cultivated the flame body. "

Du Cheng's voice was calm, calm enough to make people mistakenly think that he has nothing to do with this matter.

But Fang Yue heard a trembling taste from it.

There is always such a scar in Du Cheng's heart.

"Mingtu Xuantong!"

Fang Yue's heart trembled slightly, and he became more and more convinced that Du Cheng's inference was true.

Because he had really experienced this profound knowledge of the underworld, if he hadn't been a ghost and was proficient in spatial methods, he might not have been able to avoid that robbery.

"Du Cheng, I believe you!"

Fang Yue patted Du Cheng on the shoulder. Nangong Que pondered for a moment, "Du Cheng, I believe you emotionally, but I can't believe that this incident is the work of the Jiuxuan Sect because of some of your one-sided evidence. There is no need to collude with the other side of the universe, just Is theft of all races

Tianjiao of the corpse, if this hat is buckled, the Nine Profound Sect will also become a target of public criticism. "

Nangongque said this, Du Cheng did not have too many opinions, he understood that Nangongque was different from his position.

He Du Cheng, represents only himself, a casual cultivator, humble and nameless.

However, Nangongque represents the huge Nangong family behind him.

Any sentence has a very important weight. If there is a mistake, the Dahuangjiao behind him and the Nangong family will be responsible for him.

Chapter 895: Search soul

"Nangongque, you don't need to intervene in this matter. Before there is any conclusive evidence, you just need to watch!"

Fang Yue didn't force and embarrass Nangong Que, because he also understood the difficulties of Nangong Que now.

Nangongque glanced at Fang Yue gratefully, then let out a long sigh of relief.

"thank you for understanding!"

Fang Yue nodded, "However, I'm afraid it will be very difficult for you to stay out of things now!"

From a distance, a figure came, dressed in black and dressed up like Fang Yue and the others in the black-clothed person who had seen in the ice mirror before!

"The Nine Profound Sect Situkong respects the arrival of the three envoys from the other side of the universe!"

The black-clothed man's expression was warm, and there was a frenzy in his eyes.

evidence?

Now, no evidence is needed!

When Situ Kong appeared, he mistakenly thought that Fang Yue and others were the messengers who descended from the universe from the other side. His appearance made him feel uncomfortable when he looked at him!

"Kill it! Search for the soul!"

Fang Yue was not in the mood to act with Situ Kong.

Situ Kong was just a great power at the Yin and Yang level, in Fang Yue's eyes, it was nothing.

"Well, do it!"

Nangongque spoke. He was still defending the Nine Profound Sects just now, but he didn't expect that the Nine Profound Sects were so unconvincing, they were actually the strong men who were secretly colluding with the other shore universe.

His sin was not forgiven, Nangong Que took the initiative to capture Situ Kong.

Situ Kong was still in a daze.

It is said that the two parties traded, why did the people of the other side of the universe want to attack him.

Situ Kong's heart is cold, is it possible that the people of the universe have turned back?

In this work of lightning and flint, Nangongque's palm has hovered over Situ Kong's head.

As long as his palm fell, Situ Kong must become muddy.

Although Nangongque is not a serious body training, but his physical strength is also strong to the point of abnormal!

If you don't make a move, it will definitely be a crushing offensive!

In front of life and death, Situ Kong showed a strong desire to survive.

He crushed a talisman in his hand, and a big golden bell appeared above his head.

Nangongque's palm collided with the big clock above Situ Kong's head with a bang.

The sound waves pervade and calm the void!

Situ Kong received a back shock, the meridians collapsed and all his viscera were injured, but the big clock finally blocked Nangongque's palm. Situ Kong's face changed drastically. This person is definitely not the person from the other side of the universe to him. One palm is very famous. This is a shocking palm. The palm that condenses the will of heaven and the vitality of all directions. The palm that has just been condensed is not the big one in the world. Core brother

Son, absolutely cannot be displayed.

At this moment, he doesn't know where he is, this person is a contestant participating in the Big Dipper.

His whereabouts were broken, and even the conspiracy of the Nine Profound Sect and Bi An Universe was exposed.

If this matter is reported out, I am afraid it will be difficult for the entire Nine Profound Sect to gain a foothold in Ten Thousand Realms!

Therefore, these three people must die, and none of them can stay alive!

In a blink of an eye, Situ Kong's killing intent filled.

"Since the three of you already know the truth, don't blame me for being ruthless!"

Situ had a hideous look on his face. On his body, killing intent was boiling, and a drop of divine power floated out of his chest.

"Originally, I didn't want to use it. You guys forced me!"

The lower divine power was integrated into Situ Kong's body. His aura suddenly soared, and suddenly he was at a level comparable to a leader-level powerhouse.

Although the lower powers can theoretically strengthen the cultivation realm of the practitioner, individual combat power, and raise the level of a large realm, all those are theoretically the best values.

In fact, the specific increase in the strength of a practitioner depends on the individual's physical level and carrying capacity.

After this Situ Kong took the lower powers, he ascended to the peak of Yin-Yang realm, and stepped half of his foot to the level of the leader realm, that was the limit!

"Forcing me to subdue a drop of divine power, if you die, you will die well enough!"

The ferocious color on Situ Kong's face became more fierce.

Fang Yuebai glanced at him, his palms spread out, and five of them suddenly floated in the air.

The lower level supernatural power, Didi is crystal clear, and there is a faint colorful glow in the circulation.

"Nangongque, you keep these lower powers! In future fights, they can be used as hole cards."

"okay!"

Nangongque knew that Fang Yue was a local tyrant and had robbed a lot of lower powers on the plane of Ziyue, so he didn't shirk it, but accepted it with pleasure.

Seeing these five drops of supernatural power, Situ Kong almost lost his breath!

He made great contributions to the Nine Profound Sect, so he exchanged a drop of divine power, this drop of divine power is his assassin, used to save his life at a critical time!

Situ Kong believes that this subordinate divine power is very precious, and even among the great religions, there are not many treasures.

Unexpectedly, this Fang Yue turned out to be five drops in one shot and he even gave away casually, which made him feel desperate in his heart!

Nangong Que was about to refine a drop of subordinate power and experience the power of this legendary treasure.

Fang Yue reached out to stop him.

"Good steel is used on the blade, for a Situ Kong, wasting a drop of divine power, not worth it!"

Fang Yue shook his head slowly, and a figure walked out from behind him!

Fang Hua, an ancestor of the Fang family, after refining the life essence contained in the leader-level physical body, he has steadily ascended to the peak of Yin-Yang realm.

Before his death, he was a leader-level powerhouse at his peak!

Originally, I thought that he would need at least a thousand years of painstaking cultivation to return to the top. He did not expect that with Fang Yue's selfless resources, he was already within reach of the peak of his previous life!

"Fang Yue, kill him!"

Fang Yue does not have the slightest respect for ancestors, I don't know him, and you have never raised me. You eat mine and drink mine. Why do I respect you?

In this matter, Fang Hua didn't have the slightest psychological obstacle, and Fang Yue's selfless provision of resources was far better than the so-called politeness of those empty brains!

Fang Hua appeared, Situ Kong's face was dusty, the result of this battle was almost certain.

Situ Kong briefly increased his cultivation base after taking the lower powers, at best it was a false peak of Yin-Yang realm.

And Fang Hua is the peak powerhouse of the Yin-Yang realm with the Eight Classics of Righteousness. This is true and false, and the difference in strength among them can be widened!

Sure enough, Fang Hua three plus five divided by two is to take Situ Kong!

This was a live capture, Situ Kong wanted to blow himself up before he was captured, but he hesitated for a moment, he took his life, and finally stopped!

The next thing is simple, search for souls and seize memories.

Fang Yue's soul method is so perfect, Situ Kong simply can't resist it! "The matter has been figured out. It was the joint conspiracy of the Nine Profound Sect and the people of the other side universe. The people of the other side universe wanted to kill some young geniuses in the universe, reducing resistance and working hard to weaken the future invasion. The whole universe

The people of the Nine Profound Sects want to obtain the corpses of those geniuses and refine them, so that more disciples of the Nine Profound Sects can continuously temper and become stronger with the help of the mysterious abilities of the Nine Profound Sects, and finally shock the world! "

Fang Yue investigated the matter clearly.

Nangongque's face was all green.

"This bunch of unconvincing things, for their own benefit, turned out to betray the Ten Thousand Realms Universe, and they started their efforts!"

Nangongque was quite shameless about the actions of the Nine Profound Religion. These people are naturally rebellious, and they have no moral integrity.

Fang Yue was silent. "This matter is probably not as simple as it seems. The people of the Nine Profound Sect want to seize the corpse is only one of their goals. More importantly, they want to use this incident as a name. In the future, if the strength of the Universe is Come, they don't

They will be subject to any attack from the Universe Universe, and even if the powerhouses of the Universe Universe completely conquer the Universe, they will also serve as heroes and seal the land, and the future territory and strength will be ten times stronger than today! "

Fang Yue revealed all the memories in Situ Kong's mind, and the hideous color on Nangongque's face couldn't help but become more intense.

"The people of the Nine Profound Sect are really far-sighted. At this time, they have already begun to think about what will happen after the people from the other side of the universe conquer the universe. With these villains in it, how can my universe be peaceful? "

Nangongque was heartbroken.

Fang Yue silently pulled out the soul of Nangongque, and gave the body to Fang Hua as a resource for refining and improving his strength as soon as possible.

"Fang Hua, leave first! You don't need you here for now!"

Fang Yue sent Fang Hua away.

Du Cheng raised his head and looked at Xiang Nangong Que: "What are you going to do?"

"Report everything about the Nine Profound Religion to the organizer of the Beidou Controversy. They caused the incident this time, and they should also clean up the mess!"

Nangongque said decisively.

Fang Yue snorted: "There are also people from the Nine Profound Sects in the host of the Battle of the Big Dipper, and there are people from the universe beyond. You said that this matter has nothing to do with them, who would believe it?"

Nangongque was speechless.

He immediately realized that he was still a little too young. It's easy to trust the organization and trust the authority.

"Fang Yue, what do you think about this matter?"

Nangongque looked at Fang Yue with pleading eyes.

"Report the matter to the elders you trust! This is the rubbing of Situ Kong's memory fragments, and the elders who are also given to you. I believe the Great Huangjiao and the Nangong family will use their methods to handle this matter!"

Fang Yue took out a jade slip, which imprinted Situ Kong's memory.

The reason it is a rubbing of memory is because Essence Shangyue no longer believes in anyone. He worried that if the memory fragments were really given to the Nangong family, among them there would be people from the Nine Profound Sects and even the descendants of the Universe, and they would steal this evidence secretly, and there would be no evidence at that time. Who else can do it? Jiu Xuan

teach?

Nangongque nodded slightly, he understood Fang Yue's worries and concerns!

"Then I will go back to the Nangong family for the time being! Personally pass this evidence to the elders of the family!"

"it is good!"

Without saying anything, Fang Yue opened the Yin-Yang Teleportation Array to send Nangong Que away. The destination was not the Great Huangjiao, because Fang Yue did not have the specific coordinates of the Great Huangjiao!

But he sent Nangong Que to the world of Xuanhuang. There are teleportation formations in the world of Xuanhuang. As long as it is turned on, you can go to any world.

As for the transmission cost, Fang Yue didn't worry about it.

Nangongque is a disciple of the Great Wilderness Sect, and the seed carefully cared by the Nangong family. Will he have no money?

Ghost letter! "I'm leaving too! Although the hatred between me and the Nine Profound Sect is like a sea, I still have to consider for the living. My Master's time is running out. I will send these three-turn physical strength pills to Master one day earlier. In front of you, Master can extend

Longevity yuan, to ease the anxiety in my heart. "

Du Cheng spoke, and was also ready to leave.

Fang Yue didn't say much but sent Du Cheng away! It's coming, and Fang Yue is alone again!

Chapter 896: Brother won't pee you

At this time, an extravagant young man in purple appeared.

"Are you the connector of the Nine Profound Sect, Situ Kong?"

"It's under!"

Seeing the purple-clothed boy, Fang Yue's eyes lit up suddenly.

He has nothing to do now, just as a spy or something, experiencing the national customs of the universe beyond.

"Why is the joint person of the Nine Profound Sects so weak! Don't you respect the will of our Universe?"

The purple-clothed boy only has the third level of the cultivation level of the Rotation Realm, but he thinks that his status should be comparable to the power level powerhouse of the Ten Thousand Realms Universe.

When the messengers meet, the most important thing is the equivalence of status. In the eyes of the people of the universe, what is status, strength, and realm is status! "My envoy joked. I am Fanghui, the core disciple of the Nine Profound Sect, and my position in the Nine Profound Sect is comparable to the powerful in the teaching. This time the instructor asked me to come to negotiate with the adults, and I hope that I can use This time there are many strong people in the universe

Learn more! "

Fang Yue's small mouth is quite capable of speaking, and he doesn't blink his eyes when lying!

When he said this, the thin angry look on the purple-clothed youth's face immediately flickered.

It turned out to be like this, huh, the head of the Nine Profound Sect is really good enough!

Sending a joint messenger has spent so much effort.

"The culture of my Universe is vast and profound. With you, even a poor life may not be able to comprehend the essence of one billionth of a trillion, but even if you only learn a little bit, it will be enough to benefit you for life!"

This purple-clothed boy was quite arrogant and had a kind of contempt.

Fang Yue didn't care.

This purple-clothed young man despised the Nine Profound Sect, not him.

You love to be contemptuous.

Brother won't pee you!

"Introduce yourself, the messenger of the universe, Yan Tong!"

The boy straightened his chest with a proud look on his face.

"Oh, back below, add as a disciple of the Nine Profound Sect teaching!"

Fang Yue's attitude of neither overbearing nor overbearing made Yan Tong very angry.

You a messenger of low civilization, drag me something.

Didn't you see that your head teachers are respectful to them?

"This time, I want to convey the next instructions. I have already provided you Jiu Xuanjiao as a reward for accurate information!"

I feel unhappy and return unhappy, but the necessary things still have to be done.

"The geniuses of the Big Dipper fight this time must be completely destroyed here, and there cannot be a living mouth standing upright. Therefore, the blockade of the Great Cloud Realm, you still cannot break!"

Yan Tong gave the order to kill.

Although his smile was still brilliant, Fang Yue had already seen a taste of ignoring life in it.

"no problem!"

Fang Yue promised it all, but he promised that he wouldn't do it anyway!

Yan Tong nodded, his anger eased a little.

This is a bit of a minion.

"As for the rewards I promised you before, I won't miss you at all in the universe!"

Yan Tong understands that if you want a horse to run, you must let the horse eat more grass!

"This is the crystallization of one hundred thousand inferior worlds. It is the news fee we promised to you about the Nine Profound Sect! There is also a master-level peak magic weapon, and the glare armor is also one of our rewards!"

Yan Tong handed Fang Yue a blue storage bag.

On the top of the storage bag is a colorful peacock embroidery!

The people in this universe are different, even the storage bags are so delicate!

Fang Yue put the storage bag away and nodded to thank Yan Tongdao.

"Young Master Yan Tong, I will do this well and I won't let you down!"

Yan Tong nodded, and then walked away. His figure was misty, gradually fading in the void, turning into dots of light, disappearing.

Fang Yue smiled and waved his hand, sending Yan Tong away.

The performance this time is great!

Not only did it destroy the plan to collude with the Nine Profound Sects of the Universe, but also deceived a hundred thousand low-grade world crystallization and a master-level peak magic weapon.

This artifact is different from the artifact.

In fact, Fang Yue still had such a few artifacts at the peak of the leader level.

However, Fang Yue's master-level peak magical instruments are all attack-type magical instruments, and in terms of value, they are less than one-tenth of this glare armor.

The most common magic weapon is the dagger type magic weapon. This kind of magic weapon is small in size and consumes less materials! Above, there are sword-like magical artifacts, and the material consumed is about two to five times that of dagger-like magical artifacts.

Further up, it is a defensive magic weapon, armor represents a typical representative, it needs to cover the whole body.

The defensive magic weapon, in terms of material consumption, is about ten times that of the sword magic weapon.

The most expensive items belong to the domains, such as towers and palaces. A magical tool is invaluable. A complete palace-like magical tool can be comparable to the weaker saints.

Therefore, this dazzling armor should be quite valuable, and it also has the forging skills of the other side of the universe, and the value of research is even greater.

As for the inferior world crystallization, these are hard currencies among the saints.

An authentic saint magical instrument is actually nothing more than tens of thousands or even hundreds of thousands of inferior world crystallization!

This is a fortune.

It can be seen that in order to bind the people of the Nine Profound Sect to its own battleship, Bi An Universe also laid down its blood!

Fang Yue left the square, preparing to find a hiding place for the many arrogances of the Beidou Controversy. Those who entered the Great Cloud Realm to rest, after all, were only a few tianjiao. A large number of contestants are still in the rest base of the Beidou Contest!

Fang Yue strolled around and came to a canyon.

On the top of the canyon, the mountains and plains are all biological weapons of varying levels, little demons.

The slightly weaker little devil has only the strength of the heaven and earth realm, and the powerful little devil leader has already evolved to the Yin Yang realm!

Outside the valley, there is an army dispatched by the elite universe.

This army, numbered in thousands, are all powerhouses at the rotation level!

They continue to work together to form a battlefield to bombard the little demon in the canyon!

The loss of the little devil was tragic, but occasionally some little devil's slip-through fish came out of the canyon and mixed into the army to kill at will, causing a lot of casualties!

There were also white tents behind the army. At the door of one of the tents, Yu Xiaoxiao sat blankly on a piece of cyan brick, clutching the bleeding wound on her left arm in a daze!

The edge of the wound on her left arm was already a little black, and the gurgling blood kept flowing out, making her face paler!

This is a manifestation of the loss of life force.

Fang Yue saw Yu Xiaoxiao's desperate appearance, couldn't help but walked over in two steps!

"Yu Xiaoxiao, what's wrong with you?"

Fang Yue said hello, and Yu Xiaoxiao woke up from the despair just now.

"Fang Yue? How did you come out of the Great Cloud Realm! Where is Nangongque? Did you come out with you too?"

Yu Xiaoxiao looked at Fang Yue, her expression of surprise on her face was self-evident, but her palm did not cover the wound, and another burst of red blood spurted out!

"Don't talk! I'll heal you first!"

Fang Yue raised his hand, and a layer of milky white light fell on Yu Xiaoxiao's wound.

Above Yu Xiaoxiao's wound, a layer of black smoke gushed out, forming one after another palm-sized demon heads against Fang Yue's light spells!

A light healing technique comparable to the rotation level fell, and it didn't even relieve Yu Xiaoxiao's wound. Next to him, another wounded sneered and said: "Don't do unnecessary struggles, just accept your fate! This wound is left by the great demon who possesses darkness, curses, and corrupts the Threefold Principles. There are three kinds of power, and any one of them is simple. Is extremely difficult,

Three superpositions are almost hopeless! Once injured, she can only sit and wait for death, there is no means to remove her from the list of death! "

The wounded man's back was slightly humped, although it was only the cultivation base aura of the heaven and earth realm, but every strand of his true energy was extremely pure.

This should be a contestant in the Beidou battle, a veritable Tianjiao player in the three hundred circles of the Beidou!

Fang Yue couldn't help glaring at the words.

"Your injury can't be cured, but that doesn't mean I can't heal Yu Xiaoxiao's injury!"

Fang Yue took out a jar of herbal liquid.

Handed it to Yu Xiaoxiao.

"These herbal liquids contain a huge amount of life essence, and your refining drop by drop should alleviate the spread of your injury!"

Yu Xiaoxiao nodded, there was a little more vitality in the hollow eyes.

She opened the jar, and a strong breath of life immediately hit her face!

"There is such a strong breath of life in the elixir of this jar!"

The humpbacked wounded immediately beamed his eyes.

"Hey, boy, divide the potion of that jar with me in half, and I can keep it secret for you! Otherwise, once the potion of this jar is discovered by others, it must be taken away directly, not even a drop will be left to you!"

The light in the eyes of the humpbacked wounded man was brilliant.

Although their wounds are very serious, they are all continuous, and they will not be killed for a while!

If they are supplemented by the essence of life, they will definitely be able to hold on for a longer period of time, maybe as long as they persist, they will be able to wait for someone who can treat them!

"Want my spiritual fluid? Why?"

Fang Yue glanced at the hunched wounded man with contempt. He is not unfamiliar with this jar and two jars of herbal liquid. If he really wants to make it, the cost of this herbal liquid is not high. He only needs to differentiate into a spiritual qi clone and refine it with small iron for a few days. The herbal liquid in the pond is not a problem

!

However, Fang Yue's attitude of threatening the hunchback wounded makes Fang Yue quite annoying. Why should I give you my things for free!

"So, don't you want to?"

A strange smile suddenly appeared on the face of the hunchback wounded man!

The next moment, he was yelling.

"There are people here who have the elixir to restore vitality, please confiscated it!"

Before the voice of the hunchback wounded fell, a guard dressed in iron clothes and exuding a demon-like aura appeared behind Fang Yue.

"Hand over the elixir in your hand. The military control is temporarily implemented here, and all resources need to be handed in free of charge!"

This iron-clothed guard is the fifth-level cultivation realm of the rotation realm, and his practice should be quite a master, and even Fang Yue can vaguely feel a taste of the ancient times from his body.

"Why give you my things!"

Fang Yue gave the wounded hunchback coldly, making him fall into an ice cave!

Then he looked at the iron-clad guard.

There was a strong resistance in his tone.

"Just because I am the Temple of Gods and Demons, God and Demons!"

The guards are also very tyrannical. They have crossed the world for many years, and no one has dared to easily defeat their will! The Hall of Gods and Demons, the Gods and Demons Guard, is a golden signboard, this signboard is very useful in the ten thousand realms!

Chapter 897: You have no chance to go

"What is the Temple of Gods and Demons? I don't know! But I know that this elixir is my thing and no one can conquer it! Give you a chance and disappear in front of me. Otherwise, don't blame me for being polite!"

In the past few days, Fang Yue has been quite angry.

In the Battle of the Beidou, he was repeatedly targeted, and the injustices and injustices involved, even if a clay figure sat in Fang Yue's current position, would be furious. What's more, Fang Yue is not a good temper!

However, the **** and demon guard was still tyrannical, and said to Fang Yue: "Now military control is implemented here, and all materials are uniformly deployed by us!"

"No? Then you will never have a chance to go!"

Fang Yue said coldly.

The **** demon guard immediately showed a look of horror. The essence of life in his body could not be restrained from passing, like a flood that opened the gate, endlessly flowing!

Even with the shelter of the God Demon Temple, he still could not stop the flow of his life essence.

"No, you can't do this! I am from the Hall of Gods and Demons! I am... God... Demon..."

Before the **** and demon guard could say the last word for "Hall", he had already absorbed the life essence in his body, turned into a skin and bone, leaving nothing!

"I said, don't mess with me!"

Shattered, a complete set of armor was scattered all over the ground, and a piece of human skin was pressed under the armor. From the expression of the human skin, one could vaguely see his terrifying appearance before his death!

"It was you who shouted just now?"

Fang Yue turned his head and looked at the hunched wounded man.

The horror on the faces of the hunched-back wounded was full.

This Fang Yue is simply a murderous demon!

He even dared to kill the people in the Temple of Gods and Demons!

In this area, the Temple of Gods and Demons is the absolute ruler, even if the spoiled Tianjiao of various sects dare not make a mistake, they can only silently endure the humiliation and wait for the end of the matter.

And Fang Yue dared to kill the gods and demon guards of the gods and demons, he was ruthlessly provoking the majesty of the gods and demons!

This is a great rebellion, it is simply a way to find death!

However, Fang Yue didn't feel the slightest nervousness, and he didn't even have the idea of leaving here!

"Refining these herbal liquids can at least restore 80% of your vitality! Then, I will heal your injuries. Although the mixed injuries of the three principles are difficult, it can't hold me up!"

Fang Yue said, his tone was light.

He is sure to heal Yu Xiaoxiao's injury.

As for the hunched wounded?

Just a clown!

Yu Xiaoxiao stared at the human skin formed by the gods and demon guards on the ground, she couldn't help but said, "Fang Yue, you!"

"Huh, don't you resist the invasion of the Universe Universe, and turn to your own people! These gods and demons are not sorry to die!"

Fang Yue's words were to help Yu Xiaoxiao completely refine the jar of Baicao Liquid.

It was just the time to breathe, and there was a trace of red blood on Yu Xiaoxiao's face.

Yu Xiaoxiao's breathing became symmetrical! There was also a little more glamour and charm in her big eyes.

"The healing effect of this Baicao Liquid is so remarkable that it has only refined less than half a pot, and it has restored all the life essence I lost before!"

Yu Xiaoxiao couldn't help but praise the magical medicine Fang Yue provided. Fang Yue chuckled, "You can accept the remaining Baicao Liquid. You are a demon hunter who often lives on the tip of a knife. It is inevitable that you will be injured. Although this Baicao liquid is not of high grade, But some minor injuries can still be cured

!"

Yu Xiaoxiao nodded, and she suddenly realized that Fang Yue, an ally, was worthy of friendship. "Yu Xiaoxiao, I am here to heal your wounds. There are three laws of curse, darkness, and corrosion in your wounds. These three laws are all evil attributes! Ordinary methods, I am afraid that these three methods are all invalid! So, I

Will use the power of thunder to heal you, expel the damage caused by the three powers! However, this thunder to the sun is too strong and difficult to control, so I may be a little bit painful when healing you, and you need to be patient! "

Fang Yue had already thought out a plan for healing.

Fang Yue's palm hovered over Yu Xiaoxiao's wound, "Yu Xiaoxiao, bear with me first, this injury will heal soon!"

"Huh, treat the injury? Do you rely on you?"

The hunchbacked wounded looked at Fang Yue, and he snorted and couldn't help but sneer.

That pot of Baicao Liquid made him very jealous. How could it be in the hands of a guy with a background like Fang Yue that this is an elixir capable of life and death.

Fang Yue's identity was long recognized by the humpbacked wounded.

Fang Yue was a celebrity in the semi-finals, and even the referee died because of him.

Since ancient times, the Beidou fight, players like Fang Yue, can also be said to be the only one!

Fang Yue took a cold look at the wounded hunchback, and then summoned a continuous thunder in his palm.

The strands of thunder fell on Yu Xiaoxiao's wound, and the attacks of this thunder were indistinguishable.

Although under Fang Yue's control, 80% of this thunderbolt was used to purify the darkness, curse, and corrode the three laws.

But 20% fell on Yu Xiaoxiao's skin.

The skin beside Yu Xiaoxiao's wound was blackened. As if burned by charcoal fire.

Yu Xiaoxiao did not frown, as if the thunder and lightning did not fall on her at all.

Yu Xiaoxiao's strength made Fang Yue feel distressed, but in order to treat the injury as soon as possible, he had to do this.

Severe medicine, the idea is right.

The dark aura on Yu Xiaoxiao's wound soon began to collapse and dissipate under the purification of the power of thunder.

The law of corrosion is gradually fading, only the power of the curse is still stubborn.

Since ancient times, the famous weird laws are not so easy to conquer.

But this is only for other people, Fang Yue cultivates the law of curse himself. For him, these three powers are the most easy to deal with by the power of curses.

On Fang Yue's left index finger, the red ring slightly rotated.

The cursing power on Yu Xiaoxiao's wound faded!

The power of the curse dissipated, and the power of darkness and corrosion dissipated.

The so-called unsolvable wound, gradually healed under the action of Baicao, and finally it was intact as before, as if it were virgin skin, flawless!

The hunched-back wounded next to him receded with a sarcasm smile on his face, replaced by a surprised expression.

"how can that be?"

"This is the injury caused by the combination of curse, corrosion, and darkness, the three most difficult methods. This injury should be unsolvable. Even if it can be cured, at least it needs a saint-level powerhouse to do it personally!"

The humpbacked wounded rubbed his eyes, and he felt as if he had fallen into a dream.

The reason why he brazenly dared to taunt Fang Yue was because he thought he was hopeless and could only eat and wait for death here.

However, he now sees the hope of healing from his wounds.

But he just closed the door of hope tightly!

The thought of the hunched-back wounded man went back and forth, but Fang Yue never paid attention to him.

Just now, Fang Yue had never taken action at the other side of the hunchback wounded, not because he was worried about the others, but because of disdain, because Fang Yue had completely ignored the existence of the hunchback wounded!

The humpbacked wounded knew that even if he came now, even if he knelt down and begged Fang Yue, Fang Yue would probably not let him go.

He was angry from his heart to the guts, and suddenly his eyes widened: "Someone here can heal the injury caused by the little devil!"

The humpbacked wounded roared, and everyone in a radius of a hundred miles heard this sound.

Before, when he said that Fang Yue had the essence of life, many people hadn't been tempted, because even if he got the essence of life, it would only temporarily delay the injury and live longer.

However, there are people who can heal the injuries caused by the little devil, which is extraordinary.

This means that their injuries may be cured, and their lives may be extended.

"Who can heal the injury?"

A three-meter-tall giant appeared, his body was a black armor, and there were dots of purple blood on the armor.

This blood stain was not a little devil, but was spread from a certain Tianjiao.

This giant was also harmless, and Fang Yue easily recognized that this giant should be a **** and demon guard in the hall of gods and demon.

"It's me!" Fang Yue slowly got up, his eyes flashed with a sharp killing intent. He didn't bother to take action on the humpbacked wounded, but he didn't expect this guy to be so ignorant. He thought that by doing so, he could force himself for him.

Heal?

The three-meter-tall giant looked at Fang Yue, a pair of lantern-sized eyes filled with proud looking down.

"Come with me! The little prince of my **** and demon guard was injured by the great devil, and the wound on his body is exactly the same as theirs! If you can save the little prince, my **** and demon guard will be the leader of your **** and demon guard!"

There is an unquestionable smell in the words of the three-meter-high giant.

"What? The leader of the God and Demon Guard?!"

The hunched-back wounded man's eyes widened, and he didn't expect that Fang Yue could be a blessing in disguise.

Fang Yue sneered: "The leader of the gods and demons? Is the leader of this very high? Unfortunately, I am not rare! Please come back, I will only treat Yu Xiaoxiao's injuries today!"

Fang Yue's attitude is quite firm.

This caused a gloomy look on the face of the three-meter-high giant.

What is his identity?

A member of the Gods and Demon Guards, it can be regarded as a respected existence in the ten thousand realms! He asked Fang Yue to heal their little prince as the leader of the gods and demons, but this person would not agree?

"Young man, I advise you to consider it again! Those who offend our Gods and Demon Temple have never had a good end!"

In the voice of the three-meter-high giant, there was already a slight threat of threat.

"Are you threatening me?"

"Yes, I'm threatening you!"

Fang Yue talked with the three-meter-high giant, and the more he talked, the more angry he became.

Fang Yue narrowed his eyes slightly, and suddenly raised his hand, the heavens and the earth were in confusion, and a huge sword nearly two meters long suddenly condensed into shape. "If you can go through two tricks under my sword, I will meet your little prince as you please. I don't want the position of commander. I am willing to bet. Whoever you ask me to treat, whoever I will treat! If you lose, Don't mess with me here! From where

Go back wherever comes! "

Fang Yue didn't bother to entangle the three-meter-high giant.

One sword can determine the outcome.

"A word is settled!"

A look of surprise appeared in the eyes of the three-meter-tall giant. "A word is settled!"

Chapter 898: Simple

Fang Yue nodded, his expression determined. "Is this Fang Yue's brain convulsed? To actually compete with the gods and demon guards, you must know that every **** and demon guard is carefully selected by the gods and demon temple, and they are all geniuses of the same rank. , They are almost invincible, even if they leapfrog,

It's just like eating and drinking water! Although this **** demon guard looks stupid, his strength is not bad, he is already at the seventh level of the rotation realm, and his true combat power is probably already at the level of the Yin Yang realm! "

Just when the two were about to fight, a crowd had already gathered.

These people, Fang Yue pointed and pointed, thinking that Fang Yue was seeking his own death.

The three thousand gods and demon guards are already suppressed, they dare not speak!

All of them were players who participated in the rematch of the Big Dipper, all of them were good at strength, but in front of the gods and demon guards, they had all suffered before they surrendered.

"The first sword, crosscut!"

Fang Yue carried a sword to kill, the action was simply to the extreme!

Horizontal splitting and vertical slashing were all basic sword moves. Who could have imagined that Fang Yue was so unreliable and used such basic sword moves against the gods and demon guards.

The more sword moves are the foundation, the smaller the blessing of power.

Although the speed of the move is extremely fast, it can't hurt the enemy. It's a fart to use it!

The sword shadow fell, as if the catkins fell to the ground, without the slightest murderous intention, without much cohesion.

But the eyes of the three-meter-high giant suddenly changed, and a look of horror flowed from it!

He wanted to dodge, but the most basic horizontal split had already locked his body!

"I surrender!"

Just when Fang Yue's sword shadow was about to fall on his neck, the three-meter-high giant spoke in panic.

"Om!"

Fang Yue's sword light stopped abruptly.

The body of his sword stopped less than three centimeters away from the giant's neck.

But on the giant's neck, individual hairs have fluttered and landed one by one.

This is not the injury of the sword body, but the sword strength, Feng Jin automatically.

Fang Yue really stopped at the sword body.

But the wind still exists.

On the giant's neck, a thin line of blood gradually became clear.

This was caused by Fang Yue's sword power and strength. Although it was not fatal, it still cut through the giant's skin.

People are frightened.

The giants are notoriously thick skinned and tenacious in life.

The magic weapon of the ordinary rotation realm level, even if it was bombarded with full force, might not be able to hurt a single hair of this giant.

Unexpectedly, Fang Yue's mere Feng Jin driven by his sword force caused such terrifying damage.

"Carlos, why did you surrender without a fight!"

At this time, another **** and demon guard came.

This **** and demon guard had the appearance of a middle-aged man, the edges and corners of his face were rigid, and his voice contained an unangered and mighty smell.

He was quite dissatisfied with Carlos's performance.

As a **** and demon guard, you should be brave and fearless, even if you die, you should not bend your waist.

This Carlos, unexpectedly chose to be cowardly in the face of life and death, from a certain perspective, he is no longer suitable for the role of God and Demon Guard.

"Master Alpha!"

When the three-meter-tall giant Carlos saw the arrival of the adult, his expression immediately became humble. He was frightened, lest the adult be dissatisfied with his behavior. Lord Alpha is the eighteen leaders of the gods and demon guards. His own realm is infinitely close to the peak level of the Yin and Yang realm. It is not just him. The eighteen gods and demon guards are actually in this realm. , If they want to

The level of breaking the leader is all things at any time.

The reason why they are still staying at the level of Yin-Yang is said to have a solid foundation and accumulate their wealth. After they are promoted to the level of the leader, they will have the hope of attacking the saints!

"Don't embarrass him! He was also frightened by my sword! If you don't believe it, you can experience it yourself!"

Fang Yue spoke slowly, to Alpha, he didn't even bother to move his eyelids.

He quite looked down on the people in the Temple of Gods and Demons and would only behave to his own people. There are so many masters who have the ability to trouble the little devil in the canyon! Alpha nodded slightly: "Okay, then I will take your move. I want to see what kind of mystery is in your

sword move! If you can make me blink, I will represent The gods and devil guards no longer look for your hemp

bother! "

Alpha spoke.

Fang Yue nodded, preparing for a moment, Fang Yue said softly, "Vertical cut!"

The two firm voices landed, without the slightest hesitation or cowardice because Alpha is the peak state of Yin and Yang.

Sword-out is still the most basic move, simple and unpretentious, if you look at it from the outside, you can't see any clues and strangeness.

However, Fang Yue's sword light fell.

Alpha was on the scene, but his heart stopped beating involuntarily, as if the soul had been separated from the body, being stripped out mercilessly!

Fang Yue's sword is not a powerful one.

It is the will contained in Kendo.

This sword contains many laws, forming an illusory world, just like the real.

In the sword move, Alpha went through countless lives and deaths, hundreds of rebirths, breaking away from one level, and another level.

The lingering illusion made his mind still unable to stay awake, clearly painful, knowing that all this is a fantasy, but he is still addicted to it and unable to extricate himself.

"I surrender!"

Alpha's wisp of will, reluctantly struggled from the sword move, and he chose to surrender the first time.

This sword light fell on him, in the eyes of the outside world, it was just a momentary matter.

But for Alpha, it seems to go through thousands of cycles.

Fang Yue took the sword but did not really cut it down.

If he really killed Alpha, then his relationship with the Temple of Gods and Demons would be endless!

Alpha admits defeat.

Fang Yue said no more.

"I hope you can keep your promises so that the people in the Temple of Gods and Demons will no longer trouble me!"

It took a long time for Alpha to break away from Fang Yue's terrifying sword intent. His whole body was soaked with sweat, as if he had been fished out of the river.

Alfa still has lingering fears. The move just now is really terrifying. He definitely doesn't want to experience it again. At the same time, Alfa finally understands the real reason why the giant Carlos surrendered before!

"You don't need to remind me, I will keep my promise!"

Alpha glanced at Fang Yue, his mood calmed a little, he understood that this time he and Carlos should be regarded as owing Fang Yue a favor.

Grace of not killing!

Just now, if Fang Yue took advantage of his confusion, he shot.

He won't even have a chance to dodge!

"Ok!"

Fang Yue still lived with Yu Xiaoxiao in the camp, and never left.

Because of the outside world, every day is in turmoil. The ghost knows where is a safe place. At least there are many people in this place. When encountering danger, let other people be cannon fodder in front of them. There is no time for the two of them to run!

Fang Yue has never considered himself a savior, let alone a superhero. Let others do something as dangerous as saving the world!

"Yu Xiaoxiao, what is going on this time, why did you come to this place where you don't shit, and you are still trapped here."

Fang Yue looked at Yu Xiaoxiao with a puzzled expression in his eyes. Just as the so-called gentleman does not stand under a dangerous wall, Yu Xiaoxiao is not like a nosy person. "The matter this time is extremely complicated. Three days ago, the news that the Great Cloud Realm was blocked suddenly came. Dozens of big forces went violently. The geniuses in their doors were all sealed and trapped in the Great Cloud Realm. Some are even candidates for the future boss! They joined forces to force the organizer of the Battle of the Big Dipper to open the blockade and rescue their arrogance. The organizer of the Big Dipper also admitted that this time it was their fault, so they will try their best to rescue, but it is here In the evening of the second day, the attitude of the organizers of the Battle of the Beidou became ambiguous and weird. They did not mention anything about the rescue, but began to mention some trivial matters. Our team was caught by the Beidou. The organizer of the contest sent out, saying that in this Olade Grand Canyon

There is a path leading to the big cloud world. So, we came, and after half a day of **** battle, we were almost consumed by the biological weapons in the canyon, so we retreated tragically, and then the people who encountered the Temple of Gods and Demons confiscated all the treasures on our body and let us in Raise here

Hurt, can't have any contact with the outside world! "

Yu Xiaoxiao's words caused Fang Yue to raise a few suspicions.

What is the meaning of the organizer of the Big Dipper? Why did Yu Xiaoxiao come to this Grand Canyon of Olay? There are several meanings in the Temple of Gods and Demons.

Having confiscated these Tianjiao's personal belongings, he still refuses to return it. Does the Palace of Gods and Demons want to be enemies of the terrifying forces in the Three Hundred Realms of the Big Dipper?

Fang Yue couldn't figure out the clues, and couldn't grasp the idea of the organizer of this Beidou fight and the high-level of the gods and demons.

He can only take one step and watch one step.

A good fight of the Big Dipper, because of the interference of the universe from the other side, leading to confusing and confusing, I don't know where it will go.

"Yu Xiaoxiao, the people in this temple of Gods and Demons are so powerful? Can they suppress such a arrogant?"

Fang Yue looked at Yu Xiaoxiao, and felt that there was a lot of mystery in this matter.

"The gods and demons sent out from the Temple of Gods and Demons were the leader-level gods and demons. There were dozens of people in total. We are not opponents at all!"

With that, Yu Xiaoxiao still looked at Fang Yue.

The fact that Fang Yue killed Zhengyi Sect leader-level powerhouses on the Purple Moon plane had long been spread in a small area.

Not all participants in the rematch can be as perverted as Fang Yue. That's a leader-level existence, he actually said that he would pit a pit, he would kill if he said that he would kill him. There was no law of heaven and king's law yet!

"I was so arrogant just now, the leader-level powerhouses in this hall of gods and demons didn't show up? Do they look down on me or have other plans?"

Fang Yue was suspicious. He just killed a **** and demon guard at the rotation level of the **** and demon temple one after another, and defeated two **** and demon guards. One of them was still the leader. According to the thinking of normal forces, he should take the opportunity to attack him. It's right to play black hands!

However, the leader-level gods and demon guards have never appeared. Could it be that they are preparing for a fair fight, embarrassed to bully the small?

Fang Yue felt that this explanation was very nonsense. If the Hall of Gods and Demons was not prepared to bully the small with big things, he would not let the Gods and Demons of the Rotational Realm level attack him.

There must be stories and tricks! In Fang Yue's mind, there were some small ideas, but they were not yet formed and needed careful consideration.

Chapter 899: Kutenjin magic liquid

Yu Xiaoxiao watched Fang Yue's eyeballs twirl, feeling speechless for a while, this guy must be thinking about a bad idea!

After half a day's work, the **** and demon guard leader Alpha appeared again! When he showed up this time, he looked happily, unlike before, stinking as if someone owed money to his family!

"Why are you here again?" Fang Yue asked Alpha with some doubts.

Alpha looked at Fang Yue angrily, but this time he no longer had the indifference and arrogance he had last time, because their arrogance came to people who were inferior to them.

Although he had not defended Fang Yue's sword before, if he did it again, he might not have been recruited, but the power of Fang Yue's previous sword had already recognized Fang Yue's strength and thought it could be equal to him. "I'm here this time to discuss with you. The temple of my gods and demon is rich in all kinds of treasures. We want to make a deal with you. Your kind of elixir containing life essence is very magical. It can extend lifespan. , Nourish the internal organs, we

I want to exchange the spirit medicine containing life essence with you with the sacred and devil liquid rich in the hall of gods and demon. I wonder what you think? "

Although Fang Yue's strength had been recognized in his heart, he was born in the Palace of Gods and Demons, and there was a little pride in his heart after all. When the God and Demons Liquid was mentioned, Alpha's face still showed a touch of pride.

Divine Demon Liquid is extremely precious, except for a small amount of Nine Heaven Divine Demon Liquid formed by chance and coincidence, only their Divine Demon Temple can produce Divine Demon Liquid.

The sacred and devil liquid can solidify the foundation and stabilize the realm. If the quantity is sufficient, it can even cast a perfect foundation.

On weekdays, countless masters of sects, in order to obtain a drop of magic liquid, are willing to live and die, and pay all the price.

Although Fang Yue had a long history and good strength, he should bow his head and put away his previous arrogance after seeing Divine Demon Liquid.

"God and magic liquid? Is this thing?"

Fang Yue blinked his eyes and took out a drop of Divine Demon Liquid. This was Nine Heavens Divine Demon Liquid, which was obtained by Fang Yue in the Xuanhuang World.

Although he had consumed a lot before, but now, he still has at least three thousand drops of Nine Heavens God and Devil Liquid in his hand.

If it hadn't been mentioned by Alpha, he would have almost forgotten that he had such a thing in his hand.

There are too many good things in his hands, not to mention, just the effect of those innate water is not weaker than the Nine Heavens God and Demon Liquid.

Alpha's eyes condensed, and his heart almost jumped out of his chest!

The thing Fang Yue took out was indeed the legendary Nine Heavens Divine Demon Liquid. The reason why the word legend was superimposed was because Alpha himself had never seen what the Nine Heavens Divine Demon Liquid looked like. According to legend, the sacred and devil liquid in their temple is far inferior to the nine-day sacred and devil liquid, but the nine-day sacred and devil liquid, searched all over the nine heavens and ten places, is difficult to find a drop. Was crowned with nine days

As a prefix.

If it is to compare the effects, about ten drops of the God and Demon Liquid in the God and Demon Hall can barely match a drop of Nine Heaven God and Demon Liquid.

If it weren't for mass production, the God and Demon Liquid in the Temple of God and Demon would not even be worthy of supporting the Nine Heaven God and Demon Liquid in Fang Yue's hands!

The arrogance in Alpha's heart disappeared.

This fight can't beat others, and even the special products that I am proud of are not as good as others. What is there to be proud of.

"Fang Yue, how can you have this kind of thing in your hand, even if you search all over the nine days and ten places, it is difficult to get a drop! It is too precious, and some saint-level experts are willing to fight for it! "

Alpha said enviously.

When he was in the realm of heaven and earth, there was no such thing as Nine Heavens Divine Demon Liquid to strengthen his bones and stabilize his realm!

"Uh, what's the use of this thing? I feel like this is just wild medicine!"

Fang Yue once searched the ancient books in the Xuanhuang world to find the usage and effects of the Nine Heavens God Magic Liquid. However, the records in those ancient books were all ominous and vague, leaving Fang Yue speechless.

Hearing what Fang Yue said, Alpha even had the urge to kill Fang Yue. He really went deep into the treasure house without knowing it. Such a precious Nine Heavens Divine Demon Liquid, he was still asking if this thing was What's the use.

However, given that Fang Yue is the only person he can find who can provide life essence and heal the injuries on the little prince's body. He forcibly resisted the urge to beat Fang Yue violently, and explained with great patience: "The effect of the Nine Heavens God and Demon Liquid is similar to that of the God and Demon Liquid, but the medicine is stronger! It can be used to stabilize the realm and strengthen the roots. Bone! In fact, since ancient times, all practitioners have narrowed the path of practice. When the place of self-cultivation was still a mortal, most practitioners had endless choices, magic techniques, martial arts, Witchcraft and so on three thousand traditions! But when you choose one of them and start practicing, you are tantamount to cutting off the path of practice of other traditions in disguise!

And as the realm of practice deepens, you will find that you can There are fewer and fewer options, and eventually you will be kidnapped by the Taoism you practice!

There is a dead end, but if you have the most solid foundation from the place of practice, your path of practice will not be narrowed and there is even the possibility of endless development! "

"Oh, I can understand this! An unreliable realm is like a castle in the air. The higher the level of cultivation, the more dangerous it is!"

Fang Yue nodded repeatedly, like a chicken pecking rice.

"From now on, my Nine Heavens God and Devil Liquid must be one drop in the morning and one drop in the evening. It will definitely forge the strongest foundation for me!"

When Fang Yue spoke, Alpha almost vomited blood.

Yes, I said it for a long time.

Fang Yue didn't realize the preciousness of Divine Demon Liquid at all. "Fang Yue, in fact, you can choose a lower-level divine and devil liquid first. This divine and devil liquid can stabilize the foundation and repair the previous loopholes and shortcomings below the saint realm! The nine-day divine and devil liquid is more than an ordinary god. The magic liquid is more treasured,

It can be used to improve the foundation of cultivation above the realm of saints! "

Alpha patiently explained to Fang Yue.

You have a drop in the morning and a drop in the evening. This is not boiled water.

Nine Heavens God Demon Liquid, for the heaven and earth realm, even if your talent is high, it is a waste.

The waste is shameful!

Alpha is now admonishing Fang Yue that it is completely rare, and does not want such precious Nine Heavens Divine Demon Liquid to be squandered in Fang Yue's hands.

Fang Yue nodded blankly: "It seems that this is the case. Okay, I reluctantly agree to your request! How much do you need this elixir of life essence?"

"The more the better!"

Seeing Fang Yue finally turned his head, Alpha's heart was also secretly happy, this treasure that can provide the essence of life, even in the Temple of Gods and Demons, is a rare treasure.

"Then how much do you plan to exchange for my life elixir?"

Fang Yue continued to inquire, he showed full sincerity, which made Alfa feel quite satisfied!

"Is it okay to replace three drops of magical liquid with a pot of elixir containing life essence?"

Alpha believed that the price he had offered was not very high. Although God and Demon Liquid was a rare item among the ten thousand realms, the life elixir in Fang Yue's hand was also a rare treasure.

Apart from the Temple of Life, there is no such thing.

Alpha was waiting for Fang Yue to ask for a price, and then he landed and paid it back.

He is a very down-to-earth **** and demon guard.

He still knows a little bit about the rules of market business!

"Deal!"

"Deal?!"

Alpha was eye-catching and almost fell.

What about bargaining?

If the price is agreed, how about paying it back?

I even took off my pants, you tell me this?

Alpha felt that his heart was frustrated, a very serious one!

"Yeah! I feel like a guardian with sentiments and conscience, so I approved the price!"

Fang Yue is serious.

Baicao liquid or something, some in his warehouse.

Fang Yue felt it was worth it to be able to exchange for the magic liquid.

Just now, Fang Yue had secretly checked the price of Baicao Liquid in the Vientiane Pavilion through the system of Vientiane Pavilion!

This thing can't be purchased with spirit stones at all, it needs the crystal of the following products to settle it.

A drop of magical liquid is worth ten pieces of the world's crystallization of low grade, and it is still out of stock all the year round.

Even the Vientiane Pavilion is working hard to acquire it, and one drop of the eight inferior world crystals, whoever can supply it, can receive the special points reward from Vientiane Pavilion!

Fang Yue felt that it was worthwhile to exchange three drops of Divine Demon Liquid for a jar of Baicao Liquid!

In a moment, Fang Yue moved out a hundred jars of herbal liquid, and the herbal liquid in each jar exudes a real fragrance.

Looking at a darkened jar.

Alpha felt that his inner world was broken.

Is this an elixir that can prolong lifespan and increase life essence in the legend?

Shouldn't this thing be priceless and hard to find?

When does this thing need to use a jar as a unit!

And it's a hundred jars in one shot! Alpha inspected the goods very carefully and found that there was no problem with these herbal liquids! He only breathed out slowly at this time. After all, the amount of treasure involved in this transaction was quite huge, and he was also worried that there would be any discrepancies or a moth.

child! "Well, Chenghui, three hundred drops of magic liquid, if you want more, I can make some more for you in two days! And you, as a major customer, I can give you some discounts, this super armor Pills can extend the life of one hundred and twenty years for practitioners in the rotation stage and below, and prolong the life of the strong one in the Yin-Yang stage! If the strong ones above the Yin-Yang stage take it, the effect of this pill is still Obviously! It contains a huge amount of life essence, living dead, flesh Bones, below the Saint Realm, as long as they hang a breath, they can come back to life! "

Fang Yue's chattering introduction.

It's like the most standard hawker on the roadside!

When Alpha heard the introduction of this super Jiazidan, there was an incredible look in his eyes.

"This, such a precious pill, is it really for me?"

But all medicines that involve Shouyuan have been hyped up to extremely high prices in the Ten Thousand Realms!

After all, what you cultivate is your own life! He said he didn't care about life and death, but who can say and do the same!

Chapter 900: Shock

The super child Jiazi Pill is tantamount to a good medicine for life extension!

If it is spread out, I am afraid that countless strong people will come to compete.

Alpha always considers himself to be a principled person.

But in front of Super Jiazidan, Alpha felt that his principle was broken!

"Cooperate more in the future!"

Alpha became amiable and took Fang Yue's super Jiazi Dan into his arms.

What is morality and principles in front of Shouyuan?

So do you want to brainwash him with the imaginary things?

Huh, dreaming!

Alpha's relationship with Fang Yue eased suddenly.

Fang Yue also put away the three hundred drops of Baicao Liquid at ease.

"The injury of the little prince..."

Alpha looked at Fang Yue.

"Do you think that if I cured him, he would really appreciate me and give me a position as leader of the gods and demons?"

Fang Yue looked at Alpha's mouth with a faint smile.

"Yes!" Fang Yue shook his finger as soon as Alpha said.

"I want to hear the truth!"

"Uh, no!"

Alpha pondered for a moment, and he was telling the truth, "My God and Demon Temple never allows outsiders to enter at will, let alone command such an important position!" "So, if I really show up and cure your little prince In fact, you won't get any benefits. Instead, your gods and demons will use all kinds of illusory charges on my head, kill me, kill my mouth, and save me talking everywhere.

, Let your hall of gods and demons fall into the name of ungrateful! "

Alpha wanted to argue, but he had nothing to say, because every word Fang Yue said was right. In fact, Fang Yue still understood the style of the Gods and Demons Palace.

"Well, that's right!"

Alpha suddenly felt that if the little prince died, he could not blame Fang Yue for not saving him, but that the conspiracy and trap of the Temple of Gods and Demons were originally too cruel and indifferent.

Nowadays, being seen through and letting people die is not saved, the main responsibility of this is to fall on the gods and demons hall himself!

It's really a headache!

"How about I recommend for you to ensure that you will not be framed by the Temple of Gods and Demons after saving the little prince?" "I'm sick, so stupidly take this risk. If you don't save him, I won't have any loss. Even I can leave with Yu Xiaoxiao now, I infer that the strong people above the leader level in your gods and demons are definitely not nearby!

After the defeat, they had already jumped out one by one and attacked me! Do you think that no strong person above the leader level can stop me from leaving? "

Fang Yue smiled and looked at Alpha.

Alpha remembered the terrifying sword again, as if he had returned to the cold sword light and fell into the cycle of a hundred generations.

"no guarantee!"

Alpha smiled bitterly and shook his head.

"But the life safety of this little prince is really of the utmost importance to us. If he dies, all of us will be buried!"

"My Baicao Liquid provides a huge amount of life essence. As long as you save a little bit of it, one hundred jars, hang him in a sigh, and there will be no problem for another hundred years!"

Fang Yue said it was very light.

He is also confident in his Baicao.

As long as the little prince does not die, this Alpha hangs his life with the life elixir, and with this credit and contribution, the Hall of Gods and Demons will never embarrass him. "However, this crisis must be resolved by the little prince himself! There are the remains of the sun **** in the Grand Canyon of Olaer, and only the little prince can activate the ruins and summon the guardians of the ruins.

Realization

Solve the crisis this time! "

Alpha was anxious and told the truth.

Fang Yue looked at Alpha with interest and said, "Come on, tell me, what is going on?"

Alpha hesitated for a moment, his eyes became firm. "Since you already know some of the secrets, and you are the key to saving the little prince, then I won't hide you anymore! In fact, this time, all the contestants in the Big Dipper fight are covered! Wei is the master of the battle

force! In this gorge, there is a strong man from the other side of the universe sleeping, his strength reaches the sky, at least the strength and means of the eighth layer of the Saint Realm! "

Alpha told the truth, it turns out that they are not bad guys at all.

The Hall of Gods and Demons confiscated the magical equipment and personal belongings of these arrogant people, did not move at all, and prepared to return them after the matter was over.

The reason for temporarily implementing military control is to prevent them from leaking out the situation here! The confiscation of their personal belongings is to prevent them from rushing into the canyon on impulse. The gorge is extremely dangerous. There are a large number of descendants of the universe from the other side. Each descendant is extremely powerful. Moreover, they have a large number of biological weapons under their hands. Those biological weapons are only used in numbers. Grinding can also

Tianjiao, a lot of grinding to death!

This is a painful question!

Control is for protection!

Fang Yue found out that he was still angry.

Alpha's explanation caused a **** reversal!

"If you say that, I believe you for the time being! There is a pure body pill here. Give it to your little prince. The injury will heal immediately, and it can even make him form a clean body!"

Fang Yue took out a four-revolution pure body pill.

Through the fluctuation of his soul, he could tell that Alpha did not lie.

Moreover, the Temple of Gods and Demons is a relatively well-known organization among the ten thousand realms. There are not many of them, but most of them are excellent. They say they are protecting the bloodline and heirs of the ancient gods and demon. Every descendant cultivated in the temple of gods and demon has extraordinary bloodlines in the body. Once fully awakened, it will shock the world. ! Every

People will become the benchmark existence of an era! Although Fang Yue believed that he had been determined by the direction of history and could not affect the dispute between the Universe and the Universe, within his power, he took out a four-revolution Cultivate Pill to make a contribution to the Universe. Own power

, He can still do this little thing.

"Is this pill reliable?"

Alpha looked at Fang Yue with anxiety and doubt in his eyes.

Fang Yue was able to heal the wounds left by the devil. This was what he saw with his own eyes and would not doubt it, but Fang Yue took out a pill to heal injuries that even the saints felt tricky, which was a bit exaggerated!

Moreover, Fang Yue also said that this pill can cultivate a body of dirt, which is even more bragging. What is a body without dirt?

That is a treasure that shocked the world, and a further step is the legendary fairy body, it is rare in the same rank to resist!

"Belief and unbelief are with you! Your little prince is dying now. Do you think I need to cheat him?"

Fang Yue glanced at Alpha, he felt that Alpha took their little prince too much.

Even if it is a descendant of the Sun God's blood, it may not be that the whole world is afraid of it, and it will entrap him!

In the end, Alpha took away the pill! Fang Yue was right. Their little prince was already seriously injured and dying. The worst result was that after taking such a pill, the little prince exploded and died prematurely, even if he did not eat this pill. Medicine, the little prince guessed

There is not much time to live!

Alpha left.

Yu Xiaoxiao watched him go away. "Fang Yue, do you really believe in Alpha and the Hall of Gods and Demons? Although their explanations can barely be logically consistent, you don't have to pay such a big price to help the people of the Hall of Gods and Demons! Wu Guzhi Body, too strong, too precious

, The hundred pulses are the same, the real flow is no longer blocked! This pill is simply priceless, and even the saints have red eyes when they see it! "

Yu Xiaoxiao has completely stood in the position of Fang Yue's ally, and is always considering Fang Yue's interests.

Although they are geniuses, they are after all small people in a big era. They are poor and they are alone. In fact, they don't need to bear such heavy responsibilities and burdens.

Fang Yue's smile was somewhat reluctant and pale. "Since the decision was made, I didn't expect to regret it! This pill is not as precious as you thought. Its refining method is more partial! But the materials used are not that precious! If you want it, I can give it to you

One! "

In a blink of an eye, Fang Yue opened his palm again, and a four-turned sui body pill appeared.

Yu Xiaoxiao was dizzy. Has the times changed, or she has fallen behind! In Yu Xiaoxiao's concept, this kind of alchemy is almost impossible to refine in the current world. Only in the most glorious ancient era of alchemy civilization, there will be one or two occasionally circulating.

come out!

This pill can change life, allowing an ordinary teenager to reach the pinnacle of life and the world!

But Fang Yue took it out like this, and gave it away indifferently, which made Yu Xiaoxiao doubt the true efficacy of this pill!

"I will keep this medicine for the time being, and I will take it later!"

Yu Xiaoxiao put away the pill, Xuan even turned his gaze to the gorge.

The area of the canyon is not very large, but the bones laid in it are full of mountains and plains!

The fighting there was tragic, and I don't know how many Tianjiao were buried in the canyon forever!

Teams of human soldiers in the rotation realm all gathered in front of the canyon. They used spells, martial arts, and condensed battle formations, constantly consuming the number of little demons in the canyon.

Occasionally, one or two little demons rushed out, causing them a lot of casualties.

However, those little demons are inexhaustible, making the soldiers in the rotation realm feel extremely helpless!

"In order to compete for this canyon, Ten Thousand Worlds Universe is afraid to pay an extremely tragic price, even if it can win, there will be massive sacrifices to pave the way forward!"

Yu Xiaoxiao sighed faintly, she was not the kind of soft-hearted, compassionate person.

But seeing the scene in front of her, she still couldn't help feeling that her heart was shaken!

Going forward and succeeding, paved the way to glory with blood and bone.

It was the first time she experienced such a tragic war scene since she started practicing. Fang Yue's mentality is much better. He has experienced more than one war in the ancient heritage world. Compared with the ancient heritage world, a war of this scale is somewhat insignificant. Even in the operation of the war, Fang Yue still felt

The youthfulness of this war commander.

"The Ten Thousand Realms, that's what happened. Although their history is long, they are still too naive in terms of fighting!"

Beside Fang Yue, an old man with a white beard who was less than 1.5 meters away appeared.

He was wearing the armor of the gods and demon guards, but there was no aura fluctuations all over him!

"Master-level powerhouse?!"

Fang Yue was awe-inspiring for a while, he didn't even notice the arrival of this old man!

This means that if this old man wanted to assassinate him just now, he would have been killed! This old man is not ordinary. Even if an ordinary leader-level powerhouse is an invincible saint, suddenly appearing beside him, he will have a reaction and respond in time!
