

## God of Life 951

Chapter 951 Lian Yue

Lianyue's face showed a thoughtful look.

Although she didn't understand the terrain, Lianyue could also see that there must be a lot of strangeness on Sunyue Peak.

"Sun Moon Peak? This is indeed quite famous in the big cloud world, but, I think, our fate is not exhausted, I hope you can lead the way!"

Lianyue was cautious enough to be able to live till now.

As the core disciple of the organizer of the Beidou Fight, Lianyue's life is not easy.

In addition to completing those almost impossible tasks, she also needs to face the open guns and arrows of the people around her.

This Sun Moon Peak belongs to the famous Jedi in the Great Cloud World.

Then this one must be extremely dangerous.

"Our fate is over, I will not lead the way!"

Fang Yue refused simply and decisively.

Not even a trace of excuses.

Lianyue was stunned, her mouth turned up with a playful smile.

A very funny little guy.

"Do you think it depends on you whether you lead the way?"

Lianyue smiled and looked at Fang Yue, like a tiger in front of a sheep.

Did Fang Yue reject his own capital?

Obviously, he didn't.

"lead the way!"

Lianyue's voice became serious and cold.

This is not a discussion, but an order!

"I do not!"

Fang Yue refused with his neck!

Shocked.

A silver light burst, and a silver soft sword was placed on Fang Yue's neck.

Han Guangzhan, cold murderous intent has even cut the hair on Fang Yue's neck.

"I will never take it back when I speak. If you dare not lead the way, the next moment, I guarantee your head will fall."

Lianyue didn't have time to spend time with Fang Yue,

"Help!"

Fang Yue screamed loudly!

Lianyue sneered: "Even if you break your throat, no one will promise you!"

However, Lianyue's voice did not fall.

A man with a leopard-print animal skin wrapped around his waist and a wooden spear in his hand. The man who was more than two meters tall walked off Riyue Peak.

"Who said no one! Am I?"

This big guy has a wild temperament, giving people a rather extraordinary feeling.

However, this is not everything.

In Fang Yue's eyes, this big man was not a pure practitioner, he possessed the temperament of some practitioners, and at the same time had the taste of some biochemical warriors.

This is a product of the combination of biotechnology and the civilization of practitioners.

The breath level of the big man was at the level of the Yin-Yang realm, but it was difficult for Fang Yue to determine his true combat power level.

"There really is an underground world in this big cloud world!"

Lianyue let go of Fang Yue.

Compared with tracing the cause of the death of that small group of men and horses, revenge for them and Fang Liwei, the organizer of the Big Dipper.

Obviously, it is more valuable to get news about the underground world of the Great Cloud Realm.

Lianyue is a very pragmatic person.

She would choose the one with high value and big reward.

"This underground world exists and does not exist!"

The big man sighed faintly, as if recalling something.

His words are puzzling.

Lianyue snorted coldly: "Pretending to be Xuanxu."

"Give you a chance to choose and leave with me! If I refuse, my following actions may not be so friendly!"

Lianyue's words were domineering and public.

There was confidence in her eyes.

For such humble natives, at the same realm, she can absolutely crush them!

The name of the core disciple of the Beidou fight is not for nothing!

"My name is Zhang Lie, a disciple of the Temple of the Gods of War, we live for war, only to die in battle, not to surrender!"

The big man is like an enemy.

Although there was a trace of solemnity in his eyes, his fighting spirit was high and there was no timidity in it.

Lianyue shot, Jianguang struck it.

In a simple sword light, the true meaning of Pangu Kaitian was condensed.

One sword draws heaven and earth, one sword divides yin and yang!

This is a sword that must kill.

Sword cut all things in the world!

The wooden spear in Zhang Lie's hand waved, and the spear body was unpretentious.

Boom.

The sword light of Lian Yue on the spear body of the wooden spear collided.

The sword light was so sharp that he couldn't break through the defense of this spear.

Zhang Lie's movements are simple and simple, but the spear is extraordinary, it looks like the most ordinary wood, but it can actually block the sharp sword light and eliminate the invisible.

"Away to Jane, so many fancy methods are useless!"

Zhang Lie grinned, his smile was rather simple and honest.

However, there was a look of surprise on Lianyue's face.

She was shocked by Zhang Lie's methods.

She knew exactly how powerful she was in her sword light, although her arrogance and ease caused her to use only three points of strength in the sword light. But in this way, it is enough to smash to death a strong man at the peak of Yin and Yang realm!

Soon, Lianyue fixed her gaze on the tattered wooden spear.

She was sure that the reason why her sword light was blocked was mainly because of the special material of the spear.

The strength of this big man Zhang Lie is not bad, but definitely not the top in the same realm!

With his own strength, it is difficult to block the power of his sword light.

"It turned out to be relying on external forces to fight against me! No wonder you can temporarily act fiercely, but soon you will regret it! This world still has the final say in its own strength, all external forces are nothing but clouds, and a little fiddle will immediately disperse. !"

Lianyue sneered, her expression full of detachment and indifference.

She had never put the natives of this world in front of her eyes. She had listened to rumors before and felt that these natives were somewhat mysterious.

Now it seems, but so!

There was a loud "bang".

The surrounding mountains shook.

I don't know when a gun appeared dozens of meters away.

The artillery is locked, and a black cannonball the size of an adult's head rushes towards Lianyue!

Lianyue's expression was stiff, and she was locked in by the breath of the big man at the same time. For a while, she was actually a wolf and a tiger, and she had to make a choice to bear the baptism of one of the attacks.

That great man Zhang Lie's strength is not outstanding, but the somewhat horrible wooden spear really made Lianyue's heart tremble!

She couldn't see the details of the wooden spear.

What terrible consequences would be caused if hit.

Therefore, the two evils are the less powerful, and she decisively chose to take the damage from the artillery behind her!

There was a bang.

A huge shell exploded in front of Lianyue.

Countless broken runes scattered around.

Every rune is like a sharp blade.

The little black leather coat on Lianyue's body was cut to pieces by runes, and the road was blue in an instant.

Her body was severely injured.

Flesh and flesh fluttered, and bones were visible in the wound.

Every injury was quite serious, and the aura of Taoism filled the faintly.

This is a standard wound and it is difficult to heal, unless there is a special medicine to expel these runes from the wound.

Otherwise, Lianyue will at least need decades of effort to slowly recuperate and heal.

Lianyue underestimated the enemy and was frustrated, her face was pale!

"Who is it?"

Lianyue turned her head angrily, she fought with Zhang Lie, who was conspiring behind her and shooting cold arrows, this was despicable and shameless.

However, Lianyue found that her neck couldn't be squeezed, because all her body was deeply wounded.

Zhang Lie grinned at Fang Yue who was sitting on the cannon.

The enemy of the enemy is the friend!

In Fang Yue's body, Fang Yue also felt a touch of inexplicable kindness.

Zhang Lie dragged Lianyue into the mist under the Riyue Peak.

Soon, his figure disappeared, and there was no trace of it anymore.

"In this way, a strong man in the Yin-Yang realm was killed?"

Yuan Li widened his eyes and looked at Fang Yue. He felt that the scene before him was somewhat magical.

The strong in the Yin-Yang realm, if placed in the ground world of the big cloud realm, would already be eligible to compete for councillors.

The yin and yang realm is a tangible and reachable existence in the big cloud realm, and all of them are close to myths and close to legends.

The fall of a strong man in the Yin-Yang realm is a big event in the big cloud realm.

However, this Fang Yue turned out to be a hit, and the strong man in the Yin-Yang realm was taken away by the strong man on the heaven and earth peak.

Heaven and Earth Peak is a very famous dangerous situation in the Great Cloud Realm, and countless masters enter it without going back.

This badly injured Yin-Yang realm powerhouse, entering it must be unable to survive, not to die!

Fang Yue's methods have far exceeded Yuan Li's expectations.

Although Yuan Li is greedy for merit, he is not stupid.

With Fang Yue's method, even if his cultivation is mediocre, he can still dominate in this troubled world with his thermal weapons.

He is definitely not what he thought before.

Such people will be valued no matter where they go.

He must have ulterior motives when he joins his subordinates.

However, even if he knew this, could he refuse Fang Yue?

Unexpectedly, a bitter smile appeared at the corner of Yuan Li's mouth.

It turns out that this is what it feels like to be involuntarily.

Seeing Yuan Li's expression, Fang Yue also understood that Yuan Li had already seen through his disguise.

But what about seeing through?

The corners of Fang Yue's mouth were raised, his palms spread out, and a purple pill was lying quietly in his palm.

"Yuan Li, do you want to break through to the heaven and earth realm?"

Fang Yue's words fell, and Yuan Li was immediately stunned.

"Heaven... the level of the heaven and earth realm?"

Yuan Li's eyes opened wide and he swallowed involuntarily.

This is his dream. In fact, he has already reached the ninth level of the Innate Realm five years ago, but his potential is exhausted. If there is no help from outside, even if it is giving him a hundred years, He also couldn't break through to the level of heaven and earth realm.

The reason why Yuan Li has always been pursuing military merit, wants to enter the world of the underground level.

This dream of breaking through the realm of heaven and earth also occupies a pivotal position.

The realm of heaven and earth means a transition of life level, which means that the length of life is greatly increased. It means that he will become a dragon, break away from all living beings, and reach another level!

"Is this pill really for me?"

Looking at Fang Yue, Yuan Li stammered.

The dream of pursuing for many years was suddenly realized, which made Yuan Li feel unreal!

"Nonsense, this pill is not for you when you put it in front of you, don't you think it will be for others?"

Fang Yue smiled.

This Yuan Li's temperament is not bad, since he has a fate with himself, it is not a bad idea to give him a chance.

However, even at the level of the heaven and earth realm, under this catastrophe, there is only an extra chance of survival.

Under the catastrophe, the world can hardly protect itself.

What's more, it is a small practitioner among all living beings.

Yuan Li's trembling fingers picked up the purple pill.

He didn't doubt whether there was poison in this medicine.

It was not because of Yuan Li's grandeur or how much he trusted Fang Yue. It was that Fang Yue wanted to kill him, so there was no need for such a roundabout.

Yuan Li swallowed the purple pill.

Behind it, a high-pitched soft moan spread all over.

Chapter 952 big dragon pill

An illusory dragon shadow swayed out, ten feet tall, lifting the sky.

"The Great Dragon Pill, this is an ancient pill that I obtained from the Xuanhuang world. It contains a faint dragon energy. Its function is not limited to breaking through the existing realm!"

This pill was refined by Fang Yue himself.

For a furnace of ten pills, the medicinal materials are quite expensive.

But the Great Dragon Pill can seize the good fortune of heaven and earth, and change life!

A pill dragon pill is thoroughly refined, which can make the user's bloodline pure and vaguely with a dragon spirit.

Yuan Li swallowed the Great Dragon Pill, and the world suddenly changed.

Dark clouds cover the sun, strong winds, flying sand and rocks, it is a chaos, the end of the world.

Anyone who defies the sky will be sent by heaven and earth.

This Yuan Li's aptitude is ordinary, and his ability to cultivate to the pinnacle of the Innate Realm is already the ultimate!

Now, he took the Great Dragon Pill, changed his fate against the sky, not only broke through to the level of the heaven and earth realm, but even had a trace of dragon spirit energy.

This has already touched the bottom line of the rules of heaven and earth.

"Heavenly Tribulation?!"

Yuan Li's figure trembled, and he felt a breath of doomsday in the black clouds.

As if disaster is coming, as if the disaster is overwhelming.

Roads of lightning fell.

Yuan Li didn't even have the courage to resist.

"It's over, it's dead now!"

Yuan Li closed his eyes and waited quietly for death.

Suddenly, a big dragon transformed into thunder from the sky rushed forward, swallowing all the thunder in one bite, and even the several acres of black clouds were refined into the body.

Yuan Li closed his eyes and waited for a long time.

The expected thunder never came.

Hesitated for a moment.

Yuan Li opened his eyes, only to find a clear sky, the sun was shining, and there was still the appearance of the catastrophe just now!

"What's happening here?"

Yuan Li calmed down a little.

He looked at Fang Yue, only to find that Fang Yue was looking at him with a smile.

Renault's figure disappeared among the vast white clouds.

It is a hidden child, and cannot reveal its whereabouts casually.

"You have broken through, and the catastrophe you need to face, I have helped you resist it!"

Fang Yue's smile remained the same, but Yuan Li had an incredible feeling.

He clenched his fist slightly, feeling the qi and blood in his body like a tide, and a random fist could smash a mountain and sink a sky.

Yuan Li exclaimed: "I, am I already a strong man in the world?"

Some of Yuan Li's couldn't believe his situation, he seemed to be dreaming.

The Heaven and Earth Realm, in the surface world of the Big Cloud Realm, is already among the top powerhouses. If there is no invasion from outsiders, he can at least dominate a city with a million people.

"Yes, you are already a strong man in the heaven and earth realm! And what you are taking is the great dragon pill I gave you, which contains a ray of pure dragon spirit energy."

Fang Yue looked at Yuan Li, there was no discomfort on his body, and his hanging heart was half down.

Every strand of this dragon spirit's aura is extremely precious. If it is very small, it can even make an ordinary person forge a true dragon body.

Of course, if this dragon spirit aura wants to forge a true dragon physique, the number needed must at least reach tens of thousands or even hundreds of thousands.

However, since it is not forging a true dragon physique, the aura of the dragon spirit is also very helpful to the cultivation of the cultivator's aptitude.

If Fang Yue's Great Dragon Pill is determined to be effective, in the future, the physiques of all creatures on the entire planet will be greatly improved.

As for Yuan Li, it's just a test product of Fang Yue. Since he wants to get great power and potential for nothing, he must pay a certain price. For Yuan Li, his price is the failure of the Great Dragon Pill. risks of.

The origin of the Great Dragon Pill is unpredictable. Fang Yue only discovered this pill when he regularly cleaned up the spoils in his hand.

Fang Yue once saw the record of the Great Dragon Pill in ancient books. This kind of pill was once shocked in the history of Ten Thousand Realms.

There used to be a clan that, with the help of the Great Dragon Pill, transformed into a dragon, almost ascending the clan, among which the royal family and nobles, many of them even became the body of a real dragon.

They ran rampantly across the world, once invincible, but in the end they were annihilated by the Dragon Clan, leaving no one behind.

The reason for the dragon clan is that the existence of this great dragon pill has tarnished the glory of the dragon clan.

Subsequently, the pill of the Great Dragon Pill was a unique skill in the ten thousand realms. Even if someone could occasionally find one or two Great Dragon Pills from some relics and treasures, they were all taken in a low-key manner. No one dared to speak out about the great dragon. Dan things.

Now, it has been hundreds of thousands of years since that clan was destroyed by the dragon clan. Even Fang Yue didn't know what it meant when the Great Dragon Pill reappeared.

Yuan Li got a big dragon pill to supplement his potential and change his fate against the sky. No one can tell whether this is good or bad.

However, Fang Yue knew that this Yuan Li meant the beginning of a new era.

Regardless of the attitude of the Dragon Clan, Fang Yue couldn't let this great dragon pill once again be annihilated in the dust of history.

The Great Dragon Pill will make the earth glow with brilliance.

Fang Yue stood at the entrance of the first floor of the Underground World.

He looked at the hazy mist, a strange feeling that made Fang Yue's back feel cold.

Fang Yue hesitated for a long time, and finally turned and left without entering.

"This time things are getting louder!"

Yuan Li accompanied Fang Yue to a military base.

This base is the largest military base within a radius of 5,000 kilometers, including biochemical fighters and robot fighters, which are as many as 3,000. Whether it is a biochemical warrior or a robot warrior, they are all on the surface world of the big cloud world, and civilization has condensed over the years.

The level of technical content of this base has clearly exceeded the level of scientific and technological civilization on the surface of the big cloud world. The bases are like steel monsters entrenched on the ground, and the surface of the bases reflects a faint silver glow under the sunlight. Fang Yue walked on the road made of steel and cement, looking into the distance. The steel buildings of this base were connected together, some of which contained terrifying energy.

Some are biological energy, some are nuclear energy, and there are some energies that Fang Yue can't sense their origin and specific attributes.

"This mountain base is named Qingshan Base, and its leader is named Fang Qingshan. The origin of this Lord Fang Qingshan is quite mysterious. He will always look like a young boy. But it is said that he used this place three hundred years ago. The base is established."

Yuan Li paused for a while, and there was a glimmer of fear and admiration in his eyes.

"In the surface world, the general strong in the world is already considered a powerful, benchmarking character, but the first time Master Fang Qingshan appeared in public view, he shot and killed eight. A powerhouse at the rotation level. Master Fang Qingshan was also famous in World War I, and he was considered a powerhouse at the tip of the pyramid in the entire Great Cloud World.

The base he established is quite famous in the entire Big Cloud Realm, and some of its civilization technologies far exceed the surface level of the Big Cloud Realm. This is a powerful line of defense of the Great Cloud Realm against the descendants, but this line of defense often counteracts the practitioners of the Great Cloud Realm. "

Having said this, Yuan Li's voice stopped abruptly. He looked forward, his eyes straight.

Fang Yue turned around, he saw a young man with a rosy figure walking slowly, with long light blue hair without wind, and a pair of purple eyes revealing a strange smell.

Fang Yue's eyes met him, as if he had fallen into one illusion after another.

"People from the Fang family?"

The young man looked at Fang Yue and raised his eyebrows. Fang Yue didn't receive the influence of that gaze, but only let out a sulky breath to eliminate the influence of the young man's gaze.

"Yes, I am from the Fang family."

Fang Yue felt a blood-connected smell on the opponent.

"Fang...Fang Qingshan?!"

Yuan Li looked at the young boy with a creaking sound in his throat. A pair of eyes opened wide, and all of them were incredible.

"Noisy!"

The purple-haired boy lifted his palm, and a gust of wind roared out.

Yuan Li was blown by the wind, his feet base. With a bang, the base of both feet slammed into the wall of the factory.

Yuan Li slowly slid down the wall like a pile of mud. His eyes were white, and he was getting more breath and less venting.

"Don't worry! I can't die!"

The purple-haired boy looked towards Fang Yue and said slowly.

A smile turned up at the corner of Fang Yue's mouth, "My family?"

"Yes, introduce yourself, my dear, Fang Qingshan."

The purple-haired boy bowed slightly.

"How big is this Fang family's bureau? There are even people from the Fang family in this big cloud world?"

Fang Yue heard Fang Qingshan's self-introduction, and couldn't help Qingshan sighing.

"The Fang family's game is so big that it covers the sky, and I am just a small pawn. I am afraid that it is a strong man of the great saint level, and it is just a pawn."

After Fang Qingshan finished speaking, Fang Yue felt suffocated, and even the powerful men of the Great Sage level were chess pieces.

The great saint-level powerhouse can be described as extremely strong. Everyone is a legendary existence. In the entire ten thousand realms, every one who pulls out is an extremely incredible existence.

However, in the layout of the Fang family, they are just chess pieces.

The Fang family's plot can be imagined.

Fang Yue vaguely felt that he was already covered by a large invisible net.

He has entered the vision of the planner, fearing that when his cultivation reaches a certain level, he will be sacrificed and laid out as a chess piece.

"Why? Worried? Scared?"

Fang Qingshan looked at Fang Yue, he laughed, his eyes were full of jokes.

"Being a chess piece naturally has the advantage of being a chess piece. After all, we are disciples of the Fang family, and the layman is also named Fang, so their methods are not very cruel. Every piece of chess has many advantages. For example, can you see my cultivation realm and level now?"

Fang Qingshan looked towards Fang Yue.

Fang Yue also turned his attention to Fang Qingshan.

The two looked at each other, and Fang Yue was surprised to find that he could not see through the cultivation realm of Fang Qingshan?

"How is this possible? Even if you are a saint-level powerhouse, my cultivation level will be exposed under my divine mind. Although my cultivation level is not high, the essence of the soul is already chasing the peak of the saint! I see The saint looks like watching a bowl of clear water, while I look at you like looking at the moon in the mist!"

Fang Yue was a little surprised. He didn't expect that Fang Qingshan, who had settled casually by the Fang family, was so powerful in this big cloud world.

"My cultivation level is not as good as that of the Great Sage, but it is guarded by the secret treasure bestowed by the Fang family. Even if it is dormant on the side of the Great Sage level powerhouse, I am afraid they will not find my existence!"

Fang Qingshan's smile couldn't help being even more proud.

Chapter 953 Chess Pieces

As a chess piece, although you have to bear certain risks and give up some things, chess pieces also have the advantages of chess pieces. People who are worthless cannot become Fang's chess pieces.

"Even the Great Sage can't find your existence?!"

Fang Yue was surprised, holding his breath.

How high is the specification of this secret treasure.

If a great sage wears this secret treasure to assassinate another great sage, by surprise, wouldn't it be possible to kill another great sage-level powerhouse with one blow?

The shocked look on Fang Yue's face made Fang Qingshan very satisfied.

What he wants is such an effect.

"So, the people behind the Fang family are extremely scary. I'm just an ordinary saint. They gave me such a scary magic weapon for self-defense. What if it is a great saint? Or a higher-level chess piece? It is not easy to let them act as pawns. In addition to some calculations, it also requires a high price of profit!"

Fang Qingshan said slowly.

Fang Yue's heart was full of waves, like a time he had never seen before, and the curtain was gradually opened in his heart.

Fang family, chess piece...

How mysterious is the blood flowing in his body.

"Forget it, telling you too much is not a good thing for you now. In fact, many things are not supposed to be told to you by me! As a fellow clan, I allow you to stay in my Qingshan base For a while! As for the technology and biotechnology, how much you can learn is your good fortune, and I will not stop it!"

In Fang Qingshan's eyes, Fang Yue is a junior of the same race, and because of blood relationship, Fang Qingshan still has some inexplicable closeness to Fang Yue.

"it is good!"

Fang Yue agreed that the base of Fang Qingshan really made him feel quite mysterious, and the biotechnology in it had even surpassed the state of the cloud world for thousands of years.

This cultivator civilization may be able to train the top powerhouse, but if it is the low-level combat power, biotechnology and mechanical civilization are obviously more advantageous.

If you want to train a practitioner of the world, you need to select one after another and find people with good talents to train. All kinds of human and material resources are invested in it. It will take at least decades to take shape, and this process is still There is a great chance that the genius will die and fall.

But on the contrary, if it is for mechanical civilization and biological civilization to cultivate a practitioner of heaven and earth, or only need some non-valuable raw materials, it can be manufactured quickly on the production line, and mass production can be realized, even in quality The upper level is slightly insufficient, but relying on a huge number, it can also submerge practitioners of the same level.

As for nuclear energy, it is even more of a terrifying killer, and it is generally unable to resist the power of nuclear radiation if it does not reach the level of rotation.

And as civilization enters the city, there is no lack of combat power above the rotation level in mechanical civilization and biological civilization. Although mass production is somewhat difficult, in the production cycle, these two civilizations are definitely more advanced than practitioner civilization. Advantage.

Fang Qingshan and Fang Yue exchanged another few words before turning and leaving.

Fang Yue used a life spell and soon pulled Yuan Li back from the brink of death.

Although Yuan Li seemed to be seriously injured and dying, in Fang Yue's eyes, his injuries were skin and flesh injuries. It was not a major problem at all. A life technique would go on, life and death, flesh and bones, no matter how serious it is. Injuries can be resurrected immediately.

"Thank you for your life-saving grace!"

After Yuan Li recovered from his injury, he immediately hugged Fang Yue to express his gratitude.

This Fang Yue's strength is unpredictable and has far exceeded his expectations.

His injury was not light, but under Fang Yue's treatment, he was able to heal in just a few breaths. This was almost a miraculous power, which was beyond Yuan Li's cognition.

Fang Yue waved his hand: "No problem!"

Yuan Li clasped his fists and couldn't say anything more. Fang Qingshan came again.

Fang Qingshan glanced at Yuan Li coldly, and a faint pain came out of Yuan Li's completely healed wound.

Yuan Li shrank his neck and looked at Fang Qingshan in fear.

Fang Qingshan just glanced at Yuan Li faintly.

"There is no need for such an expression. There is Fang Yue here. I will give him a bit of face and I won't do it to you again! Fang Yue, come with me, you accompany me to watch a good show, as for this guy, it will be temporary Stay here!"

Fang Qingshan left Yuan Li at the base, and he was still a little worried about Yuan Li.

I don't know what Fang Yue thinks. An outsider brought him with him without even leaving his slave brand. Is this because he is too confident in his own strength?

Fang Qingshan took Fang Yue to an island soon.

The fighting on the island was fierce, and the island less than ten square kilometers has been almost paved by various corpses.

Among them are descendants from outside the big cloud world, there are also little demons from the universe, and some strange biological weapons and even robots.

"what do you mean?"

Fang Yue and Fang Qingshan were suspended in the air, submerged in the clouds, looking down, they all looked like a glance.

"Didn't you discover the new battle mode? There are a total of 108 people from the organizers of the Battle of the Big Dipper. Among them, 100 are practitioners at the peak of the heaven and earth realm, and eight are in the rotation realm. Generals. The remaining are the eight hundred heaven and earth level little demons of the Universe, and the people I sent are 1,000 heaven and earth level robots, and five hundred heaven and earth level biological weapons, whether they are robots or Biological weapons have spontaneous killer moves. At the moment they explode, they can instantly ignite a hundred times the energy, and their power is not weaker than the full blow of the fifth-level practitioner in the cycle of rotation!

After a bitter battle, a total of five hours have passed. Both the people and the little demon of the other side universe have been killed, and my robot has lost a total of 321 heads, and two more. Hundred heads need repair, biological weapons, only 30 heads are completely destroyed, 12 heads are seriously injured, waiting for recovery. The time I need to produce robots is an average of 10 hours per head, and an average of 12 hours per head for biological weapons. If I expand the production line, this production time can be doubled! As for the materials needed for production, I robbed it. As long as there is in this big cloud world, no one can escape my palm! "

Fang Qingshan's voice was indifferent.

His conversion method shocked Fang Yue.

Biological weapons and robots are just a period of time. They absolutely obey orders and truly fear death.

This is a very cold algorithm.

If the resources needed are really ignored, then biological weapons and robots really have a huge advantage over practitioners.

Heads-up is not an opponent, but it will kill you with the number of people!

"This may be the direction of the coming war!"

Fang Qingshan said to himself.

Fang Yue's expression was slightly startled upon hearing this.

"The future?"

"A possibility! I said that I'm just a chess piece, and my responsibility is to maximize the value of this robot and biological weapon! The materials required by robots are quite common, as long as you master the synthesis of various alloys Technology and the production method of machine chips, coupled with Star Crystal Energy, can continuously produce robots on the production line. As for biological weapons, not many resources are required, and each one is quite cheap!"

Fang Qingshan said slowly.

He is introducing the materials for making robots and biological weapons.

Fang Yue's expression was rather solemn. In fact, all roads lead to Rome, and if you really want to rule the roost, it may not be the only way to reach the end of the road of practice.

"I have also mastered a method of making biological weapons, but it requires some creatures as carriers! If possible, we can exchange technology! Sign a confidentiality agreement with each other, and the technology cannot be passed on unless the other party agrees. !"

Fang Yue felt that Fang Qingshan's biological weapons took a different path than his own.

His biological weapons were actually forged based on the biological weapons of the other shore civilization.

And Fang Qingshan's biological weapons are artificially synthesized with super cells!

"Take out one of your biological weapons and let me see if it's worth the technology exchange with you!"

Fang Qingshan said to Fang Yue, without any surprised expression on his face.

The people of the Fang family, no matter what they do, he will not be surprised, because their bodies are full of distinctive blood.

Fang Yue took out a biological weapon. Its appearance was no different from that of a little devil, but it was clearly at the level of the heaven and earth realm, but his energy and blood were vigorous, like a scorching sun rising into the sky.

The level of this biological weapon has exceeded its cultivation realm.

"The idea of this biological weapon is indeed clever! It was made based on the physical body of the biological weapon of the Universe Universe! Its design idea is unique! It incorporates some blood means and slightly developed the genetic chain of this biological weapon. !"

Fang Qingshan is worthy of being an expert in this. He didn't do detailed research at all, but he saw the doorway in this biological weapon.

"This biological weapon can indeed be regarded as a good product among the biological weapons, but it is not worth enough to exchange my cell biotechnology! My cell biotechnology is in another field, it is the super cell level! Each cell is an independent individual, and they are condensed together to form a

perfect whole. This is what I have researched in conjunction with the biological civilization technology in the three underground levels of the Great Cloud World! It is a lost method. Type, it's priceless!"

Fang Qingshan rejected Fang Yue's request.

Fang Yue was not prepared to succeed in one go!

"Besides, how about I add something? This thing, I don't know if you need it!"

Fang Yue took out a piece of life crystal, which belonged to the lowest level first-order biological crystal.

Fang Qingshan still had a disdainful expression on his face at the beginning, but the more he looked at his face, the more solemn his expression became.

Chapter 954 Transaction

"Fang Yue, how can you have this kind of thing in your hand? Shouldn't this thing have completely disappeared from the ten thousand realms hundreds of thousands of years ago? The crystallization of life can break free from the shackles of life, although it will produce non-directional mutation, but it is indeed the greatest miracle in this universe."

As Fang Qingshan spoke, his palm even trembled.

The production method of this thing has been lost, but it does not mean that its value is low.

In fact, this thing has an irresistible temptation for all life science researchers.

Because this is the highest achievement of life science research in an era.

There are many reasons for the disappearance of life crystals, but they definitely do not include the low value of life crystals.

"The technology network of your biological weapon just now, plus one hundred first-order life crystals, the data of the super biological cells, I can make a copy for you!"

Fang Qingshan immediately compromised.

If the principle of this life crystallization is researched out one or two, and replicated and mass-produced, then his biological weapon will rise to a higher level, creating a cycle of existence and even the level of Yin and Yang!

"it is good!"

Both parties paid the money in one hand and delivered the goods in the other, and the transaction was soon completed.

Fang Yue is very interested in Fang Qingshan's super cell technology, and will not necessarily continue his path, but the stone of other mountains can be used for jade. For Fang Yue, this super cell technology is definitely an item Very good stone from other mountains.

"Fang Yue, as a person of the same surname, I am gifting you a hundred robots at the pinnacle level of the rotation realm. As your guard, I will guard you for a while! I know that your ambition is no longer here. Will stay for a long time! Therefore, no matter when you leave, I will not force you to stay. If these

hundreds of rotation level robots explode, each one can hurt the masters of Yin and Yang level! They will be your most loyal. The guardian of, can be regarded as a meeting gift I give you!"

Fang Qingshan took a lavish move, and when he raised his hand, a hundred robots exactly like normal people stood in front of Fang Yue.

All of these robots were given instructions and were absolutely loyal to Fang Yue.

Fang Yue was not polite. He packed all these robots in storage bags and isolated them in another world.

Fang Yue was also worried that there would be detection equipment on the robot, allowing Fang Qingshan to understand his own experience, words and deeds.

The defensive heart is indispensable, let alone meet together?

Fang Qingshan smiled upon seeing this.

"Fang Yue, you don't have to beware of me, if I want to take action against you, you might already be a bone!"

Fang Qingshan felt that Fang Yue's behavior was a bit naive, and he gave Fang Yue the 100 robots out of his family. There is no other thoughts in between.

Fang Yue smiled honestly and didn't say much.

Walking on thin ice, being careful, is one of his most important qualities!

Without this kind of vigilance, Fang Yue would have already become a bone on the side of the road.

"Thank you senior for the gift!"

Fang Yue didn't make any excuses, but was about to leave. After obtaining the information on this super cell technology, Fang Yue felt that he was already worthwhile.

Moreover, Fang Qingshan's words clearly meant to drive people.

This Fang Qingshan doesn't hate Fang Yue, but he thinks he has more important things, he needs to do it alone, let Fang Yue leave temporarily!

Fang Yue is also a very interesting person, he clasped his fist and said goodbye.

Before leaving, Fang Yue took Yuan Li with him and headed to Sun Moon Peak again!

At the foot of Riyue Peak.

The mist never cleared.

But the once bare ground has been dyed red with blood!

Fang Yue stood in a pool of blood, looking far away.

This Sun Moon Peak was actually piled up with corpses, and the costumes on these corpses were all from the organizers of the Battle of the Beidou.

According to rough estimates, at least nearly 10,000 people have fallen here.

Although the vast majority of people and horses are at the level of the Heaven and Earth Realm, there are occasionally one or two corpses of a strong rotation realm.

"Thousands of bones become the life of one person! The real organizer of the Beidou is really amazing!"

On the mountainside of Riyuefeng, a man in Tsing Yi drank yellow wine alone and drank all the wine in his glass.

Fang Yue looked at the man in Tsing Yi, a look of surprise flashed in his eyes.

This man in Tsing Yi is an aboriginal of this great cloud world, but his spiritual realm is actually Yin Yang realm! This is somewhat inconsistent with Fang Yue's previous information.

Doesn't it mean that in the surface world of the Great Cloud Realm, the strongest is only the level of the rotation realm?

Fang Qingshan is an odd number, not counting.

But what did this man in Tsing Yi explain?

"I'm from the second floor of the Underground World, and I'm a disciple of Qingyun Palace! I came to Riyue Peak this time, I came for the heavenly road, climbed the heavenly road, and walked on the heavenly song! I am waiting to be able to walk shoulder to shoulder with me man of!"

The man in Tsing Yi was extremely arrogant.

He chanted to the wind: "Heaven and Earth Lang Lang, Sun Moon Zhao Zhao, who will walk with me for the rest of my life, who will walk with me side by side!"

"Tsing Yi sword fairy Li Ruge!"

Behind Fang Yue and Yuan Li, someone came again.

The people here are a group of young boys and girls, and every one of them is not weak. They all start at the pinnacle of the rotation realm.

There are a total of five people, of which two have already reached the level of Yin-Yang realm. If you look at the bone age, they are at most fifty years old.

It is rare to be able to achieve this kind of achievement at this age, even in the martial arts!

The boys and girls didn't even have a look at Fang Yue and Yuan Li. They looked directly at Li Ruge on the Sun Moon Peak, with a trace of awe rising in their eyes.

Behind him, there is a fat man, very wretched, greedy Fang Yue.

On Fatty's shoulders there was a little turtle with the same wicked head and rat brain. This little tortoise was the legendary sacred beast Xuanwu.

To cultivate a good sacred beast with such a temperament, this Sima Xiao might be considered the first person since the opening of the Ten Thousand Realms!

There is a small snake on the other shoulder of Sima's smile, but a closer look reveals that this is a small snake!

It was clearly the dragon that Renault formed.

Sima Xiao's breath also converged a bit, the level of the peak of the heaven and earth realm, and he pretended to be an aboriginal of this great cloud realm, there was no sense of disobedience in terms of breath.

"Fang Yue!"

After seeing Fang Yue, Sima laughed as if he had seen his relatives, and waved his hand vigorously.

Fang Yue felt a little embarrassed, covering his face, and wanted to pretend not to know him. As a result, the fat man flew over like a cannonball with a human head and almost flew Fang Yue away.

"Are you going to die together?"

Fang Yue was really speechless about this dead fat man.

You are also a peerless genius anyway!

What kind of demeanor is it to be so reckless?

No wonder the members of the Sima family have been thinking about sending him into exile.

This virtue is a shame, and it is estimated that Fang Yue can take him in.

"Why are you chasing here?"

Fang Yue looked at Sima and smiled, a little surprised, isn't this fat guy very afraid of death?

He is now chasing a lot of strong enemies, and this big cloud world has even been surrounded by the organizers of the Big Dipper! At any time, he will be beaten by the strong of the Big Cloud Realm, and finally beaten into a pool of meat sauce, and there will be no residue left!

"What? Do you want to eat alone?"

Sima Xiao looked at Fang Yue, eyebrows raised on his chubby face.

"Eating alone? Where does this go!"

Fang Yue couldn't laugh or cry, how could he not understand what Sima said with a smile!

"Why, don't you know? This time the Great Cloud Realm is about to open a branch of the Heavenly Road! Although there is a certain risk, there are a lot of treasures, and people below the saint can participate, and even the saint-level powerhouse suppresses their own cultivation level. You can also explore treasures in this heavenly road without displaying power beyond the peak of the leader level!"

Sima smiled and looked at Fang Yue suspiciously.

Looking at Fang Yue's expression, he really didn't know that a period of heavenly dew was about to open on this Yin Yang Peak.

But if this product was hit by mistake, then luck would be a little too good!

Even this kind of thing can be encountered, this kind of luck is really not what ordinary people can have!

Fang Yue shook his head, he said he was really an ignorant boy.

He has also seen the record of Tianlu in some ancient books. This Tianlu was a path formed in the age when the world was first opened, with branches and main paths. One of the most common is the opening of branch veins, although this branch cannot reach the legendary heavenly court.

But the treasures on the road are also staggering. Among them are thousands of old medicines, rare saint-level materials, and innate spirit treasures, each with special powers beyond imagination!

But the common branch veins are also opposite to the main path.

The last time the branch of Tianlu was opened, it can be traced back to the Sirius World millions of years ago!

"This Yin Yang Peak is not the entrance to the underground world?"

Fang Yue looked at Sima again and smiled, could it be that his inference was wrong.

"It used to be, not anymore! Since the entrance of the road appeared that day, the passage between the underground world and the surface world has completely disappeared and been sealed off!"

"Don't talk so much nonsense! The branch of the heavenly road is definitely not something that practitioners like you of the world realm can get involved! To enter the branch of the heavenly road, the level of the rotation realm is the minimum condition!"

Among those young boys and girls, a blue-clad boy who was rather impatient, Yue and Sima smiled and said.

His face was full of disgust.

He didn't know how such scum could reach the entrance of Heavenly Road.

"Why can't practitioners below the rotation realm enter the branches of the Heavenly Road? Is there any hard and fast rule?"

Fang Yue looked at the blue-clothed boy without any anger at all.

In the eyes of the blue-clothed boy, Fang Yue is an ant, but this blue-clothed boy in Fang Yue is not like that.

"Hmph, as long as they are below the Saint Realm, they can enter the Heavenly Road, but to enter the Heavenly Road, everyone needs to encounter a fixed test, and this test, the starting line is the level of the rotation realm! Even if the practitioners of the ordinary heaven and earth realm find the entrance and fail to pass the entrance examination of the heavenly road, they will be happy."

The blue boy explained disdainfully.

**Chapter 955: Tianlu encounter**

"Did you see these corpses? All of them were the dead people who were being assessed by the organizer of the Big Dipper. They all tried to enter the sky and were killed during the assessment. Normally, above the rotation level. All the practitioners can easily pass the assessment test, but if you are below the rotation level, it is not easy to say!"

The blue-clothed boy looked at Fang Yue and Sima with a slightly unkind look in his smile.

Although they felt that they would definitely be able to pass the assessment, if Fang Yue and Sima Xiao were able to be pawns for path-finding and let them test the assessment method, it would be safer, more perfect, and prepared!

Fang Yue and Sima laughed silently.

It seems that this Beidou dispute has left so many corpses, not all of their men and horses have been damaged here.

It is because the chances of entering the practitioners below the rotation stage are relatively small, so the casualties are heavy, and basically all the people above the rotation stage have entered!

"What? Ant, do you want to participate in the assessment?"

The blue-clothed boy wanted to make Fang Yue and Sima laugh and give in with a radical approach.

"Kalan, don't be like this! Even if they are able to obtain treasures at the level of the heaven and earth realm, they can't keep it!"

A white-clothed girl spoke, her voice was gentle, persuading the blue-clothed boy.

Her heart is relatively kind, so she doesn't want to watch Fang Yue and others die!

Karan said coldly: "Women's benevolence, Lilith, although you are a cultivation base of Yin-Yang realm, but on the road to heaven, because of your stupid kindness, no matter how strong you are, it is easy to fall!"

"Have you two thought about it? If you want to enter the sky, start the assessment right away. If you don't dare, get out of me quickly, don't be an eyesore here!"

Karan's attitude was rather rude.

Does he need a good voice to treat the two ants at the heaven and earth level?

Li Ruge, who was on the mountain, raised his head and took another sip of rice wine.

"Interesting, really interesting, hahaha!"

Li Ruge was watching the movements of Fang Yue and others. He laughed, as if he had seen something interesting.

"It's just a test. If you don't even have this bit of courage, then what kind of path of practice will you take! A person of practice should overcome obstacles and fear everything!"

Fang Yue said that he was impassioned, but just when everyone thought he was going to take a step forward and start the assessment.

Fang Yue's words suddenly changed.

"Sima laughs, come on!"

Sima Xiao's psychological shadow area +10086, brother dei, can you not cheat me!

"Why am I?"

Sima smiled and said to Fang Yue with his neck.

Although he has complete certainty to pass this test.

But being sold by Fang Yue just like this, he felt very uncomfortable.

"Treasures are first come first served!"

Fang Yue said to Sima with a blank expression.

"Brother, how do the assessments go?"

Sima laughed when he heard the word Treasure as if it had been hit with chicken blood, he turned to ask Li Ruge.

Li Ruge laughed and said, "It's within the range of this mist!"

"Why don't you ask me!"

Karan, who felt that he was being ignored, was a little reluctant!

"I can't believe it!"

Sima Xiao threw three words, three steps and two steps, and then he entered the mist.

The mist condensed and formed a three-meter-high monster. It looked like a gorilla, but it had eight eyes on its face and a row on each side of its cheek.

On his nine tails, barbs hang.

Sway gently in mid-air.

"Nine-tailed beast in the early stage of Rotating Realm, Fang Yue, your brother has met the jackpot!"

Karan's gloating partner Yue said, his face was full of excited smiles

Nine-tailed beasts are quite famous fierce beasts in the entire world.

The barbs on Jiutian's tail swayed, and there was a whistling sound in the wind!

Sima smiled and glanced at Karan.

"Little man!"

Sima Xiao only evaluated two words and looked at the Nine-Tailed Beast.

"You are not convinced!"

The nine-tailed beast screamed, then knelt on the ground and smiled at Sima!

"Walter? Is there such an operation after passing the audit?"

Behind Karan, a little fat man had his eyes widened, and he was about to startle his chin!

This operation is amazing, almost like a miracle.

"This mist is completely imprinted with the imprints of some sacred beasts. Not only their supernatural powers, but even a ray of soul will of the past, has been imprinted. This Sima smile seems to have a special opportunity to be able to in terms of blood, completely crush this nine-tailed beast!"

Li Ruge on the Sun Moon Peak raised his head to drink.

He guzzled, drank all the wine in the pouch.

A trace of drunkenness appeared in his eyes.

Karan's fists are clenched, how is this possible!

His least optimistic ant passed the foggy test so easily.

The nine-tailed beast even spit out a silver bead like to please, and it floated into Sima Xiao's hands.

On that silver bead, the breath of stars floated!

Star magic beads, this is the best material for forging master-level magic weapons!

If a star magic orb is sold, it can be exchanged for a top-grade Yin Yang realm magic weapon.

The Yin-Yang realm's magical tools are rare, he Karan hasn't even possessed the most common low-grade Yin-yang realm's magical device!

Rao is from an extraordinary background, with a strong family background, and the magic weapon in his hand is just a magic weapon at the peak of the rotation realm!

"Assessment and recognition! Special gift!"

Lilith looked at Sima and smiled, her beautiful eyes also involuntarily revealed a touch of stunning color.

This assessment and recognition is one thing, and it represents the qualification to enter the Tianlu branch.

And the special gift must be convinced by the fierce beast who is responsible for the assessment and the loser will be able to give a treasure, which represents a special reward.

Even if there are a thousand people approved by the assessment, not one person can get a special gift!

This Sima Xiao is definitely a special person. It's hard to say that the good fortune he gets after entering the branch of the sky is more than some small powers in the Yin and Yang realm!

"Hahaha, there really is a baby! Fang Yue, I passed the exam, the next step is up to you!"

Sima Xiao looked at Fang Yue. His figure was hidden in the mist. Behind him, a golden light was radiant, and a road was vaguely formed. Only Sima Xiao could pass by himself.

This is the entrance to the branch of Tianlu. Only by passing the assessment will the branch of Tianlu really come!

Fang Yue stepped out in one step, also submerged in the mist.

A wisps of gray mist hung around Fang Yue's body.

A roar of beasts followed!

In the depths of the mist, nearly a hundred fierce beasts appeared, and every fierce beast was a famous existence in the world!

These fierce beasts are all odd and strange, some of them are hundreds of feet tall, with their heads straight into the sky. Some are small and exquisite, like a little mouse.

"How much is Fang Yue hated by people? Why did he recruit so many fierce beasts next time?"

In Karan's eyes, excitement flashed again.

This time Fang Yue was dead. He is doomed to escape.

These fierce beasts are in the second level of the rotation realm. Some of them have even reached the pinnacle level of the rotation realm. They work together to besiege and cooperate with the talents of the beasts to kill Fang Yue. , It doesn't take much effort at all!

"Hmph, the ant is the ant after all. This Sima Xiao didn't know what tricks he used to become a fish that slipped through the net, but Fang Yue would definitely be besieged to death by these beasts! Heavenly road branch, not a cat or a dog can be casual Enter it! If you fail the assessment, there is only a dead end!"

Karan's face made Fang Yue feel disgusted.

"Many fierce beasts, listen to my orders! If this person breaks through the barrier, he must be killed, and he must not be left alive!"

Fang Yue is not a good temper either. This Kalan has repeatedly scorned him, and now he is buried in the mouth of a fierce beast.

He naturally has grudges and complaints!

Fang Yue said this.

Karan laughed loudly: "Fang Yue, are you mad? These fierce beasts are the guardians of the branch of the sky, how can they obey your orders?"

Karan's words were full of ridicule.

"Fuss!"

Fang Yue was too lazy to argue with this Karan, facts are the only way to verify the truth!

Sure enough, with Fang Yue's order, many monsters transformed from mists roared towards Karan.

Karan received a mental shock, and his even turned green!

This Fang Yue could really manipulate the monster transformed into mist!

What kind of means is this!

Karan didn't speak any more, he looked at Fang Yue, his eyes were full of fear!

His legs trembled, for fear that the fierce beasts would really rush out, tear him apart and eat him.

"Thousand beasts offer treasures!"

Fang Yue spoke again.

The fierce beasts that had turned into mist no longer roared at Karan. They all bowed their heads, opened their mouths, and spit out different treasures.

These treasures are all priceless, some are rare materials, some are finished medicines, and some of them are scrolls and jade slips, which record ancient secret books.

Fang Yue's palm waved, and all the treasures were in his hands!

There are nearly a hundred treasures, and each one is at the level of the leader.

Sima laughed and opened his eyes wide, unexpectedly Fang Yue still had this method.

He is the majesty of the basalt to intimidate the nine-tailed beast and make it surrender, while Fang Yue communicates with the group of beasts in beast language, and uses the soul secret method to make them dormant!

Fang Yue approached Sima and smiled, and a golden avenue was also born under his feet.

"Let's go!"

Fang Yue said softly to Sima Xiao.

Sima Xiao nodded slightly, and the two disappeared at the end of the road, and the figures disappeared.

From beginning to end, Fang Yue didn't look back at Karan again.

Those fierce beasts that had turned into mist were all gone and no longer appeared.

This is dismissive of Karan.

Karan's face was blue and his fists were clenched. He was a proud man, and Fang Yue's attitude made him unacceptable.

"People who do not respect themselves, others will not respect you!"

On the mountainside of Riyue Peak, a golden avenue under Li Ruge's feet has been slowly extended. He stepped on the golden avenue and soon disappeared from the end of everyone's vision.

Li Ruge's figure disappeared, and he also stepped onto the branch of the day road.

"Damn, damn, damn!"

With his fist, Karan smashed the stone on the roadside frantically.

Stone chips flew up.

Exhausting his anger as much as possible, Karan knew that this opportunity might have missed him.

### **Chapter 956: Liu Suifeng**

The fierce beast in the mist had already received Fang Yue's order, as long as he dared to step half of it, he would tear him alive.

This Fang Yue was not trying to kill him, but to cut off his chance.

"Damn ant, why? You just know how to do things, do you really think you are great?"

Karan's expression was furious!

"Why my little Karan, are you in trouble?"

A soft voice emerged from behind Karan.

Karan immediately got goose bumps all over!

Why is he here?

Although he has not looked back, Karan himself knows the identity of the person behind him. If he can choose, he would rather face ten Fang Yue than see the face of the person behind him!

"Little Carla! Tell my sister, what is the problem with you?"

The feminine voice became more delicate.

A soft figure appeared in front of Karan.

This is a stunning young woman with heavy makeup, purple lips, plump and soft, pink eyeshadow, quite rich!

But if you look closely, you will find that this stunning young woman is not a young woman at all, she is a pure man!

This is definitely a creepy thing.

Karan didn't want to contact her because he knew the identity of the other party.

Liu Suifeng, a rather masculine name, but corresponds to the face of a stunning young woman.

However, Liu Suifeng's true identity is a man. Because he was strongly stimulated in his youth, he has a different understanding of his gender role.

Liu Suifeng's biggest hobby is to ravage men, but any man who falls into his hands has no good end. In the end, he is crazy or stupid, and part of it completely disappears in this world.

However, Liu Suifeng is the elder of the Karan school.

Others can avoid Liu Suifeng, but Karan can't!

Liu Suifeng is a saint-level elder in the door. If he is unhappy, not only Kalan but also the family behind him will be implicated.

"Good elder!"

Karan smiled uglier than crying.

"Okay!"

Liu Suifeng looked at Kalan Mei and smiled.

"My little Karan, you are so handsome, how about being my face? I promise you that your position in the martial arts will soar in the future. Under the saint, no one dares to touch your hair!"

Liu Suifeng smiled happily, his voice is also very feminine.

With a frown and a smile, everything has a breathtaking taste.

But Karan's face didn't taste much joy.

If other saints and elders promised, he would naturally accept it.

But if it were Liu Suifeng, the ghost knew how many boys he had promised this kind of thing, but those who had been promised by him are now dead and don't know where they are going!

Indeed, if it were to follow Liu Suifeng, even other saints and elders would not dare to move them.

But this Liu Suifeng will become their greatest source of danger.

Karan looked at the tumbling mist, and suddenly thought about it. Didn't that mean he wanted to lose this opportunity?

Then don't blame him for causing trouble!

In Karan's eyes, the look of a vulture flashed away.

"Master Liu Suifeng, if you need a face-to-face meeting, I can recommend one to you, and I will ensure that he will make you more heartwarming than me!"

Karan spoke, and Liu Suifeng's smile appeared.

"Oh, there is such a thing? Let's talk about, who is the person you recommend?"

Liu Suifeng made a look of interest.

Karan was the scene where Fang Yue let the beasts condensed from the mist bow their heads.

In addition, Karan also had the spirit of Fang Yue's appearance.

Sure enough, Liu Suifeng had some interest.

"This little guy is really interesting. He is proficient in the language of the beasts, and he can use his divine mind to make the beasts condensed by the mist surrender and obey his call!"

Liu Suifeng is very knowledgeable. After all, he is a senior saint. Although his hobbies are special, his own experience and experience are definitely not covered.

He could understand Fang Yue's tricks at a glance.

However, it is almost impossible to make a copy.

If you want the beasts of the rotation level to surrender, you must at least reach the soul origin of the peak level of the Yin and Yang level. The soul is the most difficult one of the many basic conditions for practitioners to improve.

As for Fang Yue's appearance, although not particularly outstanding.

But as the saying goes, good-looking skins are everywhere, interesting souls, one in a thousand.

Fang Yue is a kind of skin, but interesting soul.

"Kalan, you did a good job this time!"

Liu Suifeng said to Karan and Yan Yue.

"Thank you for your praise!"

Karan felt that his plan to bring disaster to the east had been half successful, so an expression of excitement appeared on his face.

"As a reward, I will send you out of this world!"

Liu Suifeng spoke again, and his palm had fallen on Karan's head.

With a click.

Liu Suifeng's palm twisted slightly.

Karan's head twisted in a strange arc, and the life aura in his body gradually dissipated.

But Karan is worthy of being a practitioner at the pinnacle level of the rotation realm. Before he died, he looked at Liu Suifeng with surprise and incomprehension.

"Why, why?"

Kalan exhausted his last trace of strength and asked Liu Suifeng.

"It's obviously a grudge between you and Fang Yue, but you want to get me involved! Karan, do you think I'm really a fool?"

Liu Suifeng's voice lingered in Kalan's ears.

Karan's breathing stopped.

Unwilling eyes slowly closed.

He thought he was a subtle trick to kill with a knife, but it was so clumsy in Liu Suifeng's eyes.

The breath dissipated.

Karan's feeble body fell.

Liu Suifeng chuckled softly, and put away Karan's body.

"It's a pity that he has a good skin bag, but if he is refined into a puppet, he can become my pet! This Fang Yue really made my heart beat! Is it a branch of Tianlu? It's really interesting!"

Liu Suifeng fell down and disappeared into the sky in a blink of an eye.

What kind of misty beast condensed, what kind of golden road, he would not see it!

The strong saint speaks with the law.

If even this rule cannot be broken, they will be called holy!

When Liu Suifeng left, Lilith and others breathed a sigh of relief.

To be honest, Lilith is here, their inner pressure is really great!

Set foot on the road to heaven.

Fang Yue knew that this place was simply not a place of opportunity.

This is clearly an incomparably sinister test hell, a place of training.

Fang Yue and Sima Xiao came to Tianlu. This heavenly road is built in an ancient starry sky.

The milky white roads criss-crossed, and they couldn't distinguish east from west to north, like a huge maze.

On both sides of the milky road, there are space bubbles floating.

These space bubbles sparkle with dazzling and charming luster.

If you enter the space bubble, you will definitely encounter a test. If the test succeeds, you will be able to get the treasures in it. If you fail, you will probably be buried in the space bubble forever, and even the corpse will not be able to return to your hometown!

The treasures in these space bubbles are unknown. Maybe they fight in blood, but what they end up with is not what they want!

Moreover, space bubbles are all wandering in the starry sky on both sides of the road, and you need to travel through the starry sky to enter them.

The starry sky is full of danger.

There are weird starry sky rays, black hole vortexes, and some cruising starry behemoths!

A slightly weaker cultivator, maybe just stepping out of the milky white road will become a delicious food in the eyes of many star beasts.

The danger of this heavenly road far exceeds Fang Yue's previous imagination.

"This Heavenly Road is divided into nine sections! This first section is Wanbao Heavenly Road. In every bubble of space, there is a treasure that makes the saint's heart fascinating! As for whether it can be

obtained, it depends on personal opportunity and luck. Now! This Wanbao Tianlu can stay for up to ten days in total! For more than ten days, if you have not found the entrance to the next section of the Tianlu, you will be forcibly teleported out!"

Li Ruge appeared in front of Fang Yue and Sima Xiao.

He and Fang Yue Sima Xiao were teleported to the sky through the same location.

So the location is quite similar.

"Jiudan Tianlu, Wanbao Tianlu!"

Fang Yue silently muttered what Li Ruge said just now, and he was digesting the content and information.

"In fact, among the nine sections of heavenly roads, Wanbaotian Road is the easiest place to get treasures. The star beasts and the various dangers in the starry sky, although sinister, are compared to the other eight sections of heavenly roads. , Has been considered the safest place. Above the sky, one or two giant star beasts will occasionally appear, and at the same time, there will be some space bubbles floating in. If you are afraid of danger, you can take a bet and wait for it. , See if you can get one or two space bubbles in ten days, and get the treasures in it!"

Seeing Fang Yue and Sima Xiao hesitating, Li Ruge couldn't help but a disappointed look in his eyes.

There was a ridiculous smell in his words.

Fang Yue shook his head slightly: "This passive waiting is not my character at all!"

After Fang Yue finished speaking, he stepped out and a bright star road appeared under his feet.

With the power of the stars, he condensed a blue road. The road is tens of meters wide, enough for several people to pass side by side.

At the end of the star road, it turned out not to be a space bubble, but a starry sky ghost wolf in the third small realm of the cycle.

Li Ruge couldn't help being a little surprised.

"Fang Yue, did you choose the wrong path?"

"Yes, in my eyes, these star beasts are the real treasures! Every star beast contains a trace of the purest blood of stars in the body. This thing may not be of any value to you. , But in my eyes, the blood of this star beast is the real baby bump!"

Fang Yue's voice fell.

The long knife in his hand has been cut out a hundred zhang.

When the starry sky ghost wolf reacted, the sharp blade shadow had already touched its body!

Hands up, the knife falls.

The blue blood from the body of the ghost wolf in the starry sky shot out!

"Come!"

Fang Yue twitched his fingers, and the corpse of the huge and heavy Void Shadow Wolf unexpectedly floated in front of Fang Yue and was put into a storage bag by him.

"Do you want to refine the blood of the stars?"

Li Ruge was silent for a moment, looking at Fang Yue, his eyes were different!

Before looking at Fang Yue, he was looking at a coward, but now, he is looking at a lunatic!

The blood of the sons of the stars is a legend under the starry sky of ten thousand realms.

It is said that collecting and purifying enough blood of the stars can synthesize the blood of the sons of the stars.

This bloodline is said to be invincible, even if it is in the bloodline of the heavenly ranks, it is a terrific leader!

But so far, no one has ever really obtained the blood of the sons of the stars, because anyone who collects the blood of the stars will be targeted by the behemoths of the stars, and they will eventually die very miserably.

Chapter 957 star blood

"Collecting the blood of the stars does not necessarily mean purifying the blood of the sons of the stars! There are other uses for the blood of the stars!"

Fang Yue smiled slightly. Naturally, he would not admit that he was a Devil's Body, even if he only absorbed a ray of pure blood from the stars, he could gradually condense the blood of the sons of stars.

Li Ruge sighed slightly, it turned out to be just a misunderstanding.

If Fang Yue really dared to purify the blood of the Son of the Stars, he really didn't dare to get close to Fang Yue. He had to consider whether he wanted to stay away from Fang Yue with the love of life.

Soon, another team entered this star road.

This team has a total of three people, and the one headed has reached the peak cultivation level of the Yin-Yang realm, even if it is only one step away from the real realm.

The other two are also quite powerful, one is the cultivation base of the eighth level of Yin-Yang realm, and the other is the cultivation base of the seventh level of Yin-yang realm.

All three of them were men, uniformly attired, in blue robes and purple robes.

A look of arrogance appeared on their faces, looking at the three of Fang Yue, there was a smell of overlooking.

The look in his eyes was as if the royal family was looking at the peasants in the fields.

"You three, follow us, otherwise there is only one dead end!"

The strong man at the peak of Yin-Yang realm headed by said, his vitality is strong, like the sky.

"Who are you and why should we follow you?"

Li Ruge didn't have a trace of anger, but looked at this person with interest.

"I am the Heaven faction, Ma Jue of the Great Japanese Realm. I killed a master-level powerhouse three years ago! These two are my junior brothers, Zhao Han and Li Yu. We can kill the three of you with just one shot. Clean, if you don't surrender, it's tantamount to rebelling against what I mean, and you deserve death!"

This Ma Jue's export is domineering, and the majesty of the leader level has fallen.

"I am willing to surrender!"

Before Li Ruge could speak, Fang Yue had already expressed his surrender.

Li Ruge showed a look of surprise.

This Fang Yue shouldn't be this kind of person in his feelings!

Ten thousand beasts surrendered, this Fang Yue's trump card and combat power were absolutely invincible, even if it was not as good as Ma Jue at the peak of Yin and Yang realm, but the opponent wanted to kill him within three moves and two methods, it was definitely not an easy task.

"A person who knows the current affairs is a handsome man, huh, although you two have a low level of cultivation and only have the level of heaven and earth, you have to thank yourself for having a good teammate and barely able to enter our Dharma Eye. Otherwise, only you two His cultivation level and strength are far from worthy of our olive branch!"

Ma Jue finished Fang Yue.

The look was arrogant and the tone was frivolous, even Li Ruge couldn't stand it anymore.

"Yes Yes Yes!"

Fang Yue smiled.

Even if Ma Jue is a little bit dissatisfied, he has nowhere to vent. As the saying goes, he doesn't hit the smiley person with his hand. What's more, on this unknown and strange star road, he really needs a few people to act as pawns to explore the path!

Li Ruge looked at Fang Yue incomprehensibly. He didn't know why Fang Yue wanted to be so wronged.

Fang Yue gave Li Ruge a look.

Secretly transmitted: "The gun shot the bird, especially above this star road! This time, there are many people who came to this sky road, and the sun and moon peak in the big cloud world may become a main entrance. If our performance is too eye-catching, we will definitely be watched. As the saying goes, open guns are easy to hide from dark arrows and difficult to defend. With these three rushing in front, it will attract most of the firepower, but the three of us can be safer !"

Fang Yue explained his thoughts and thoughts.

Li Ruge showed a surprised expression.

This Fang Yue's cunning is beyond his imagination.

But such a person can only be a friend, not an enemy, otherwise, they will be counted by others, and they will not even know how they died.

Li Ruge nodded slightly, he felt that what Fang Yue said was reasonable.

In the Great Cloud Realm, the Yin-Yang Realm's cultivation base may be quite dazzling, but when he left the Big Cloud Realm and came to this heavenly road, he became dazzled by everyone, let alone a strong person in the Yin-Yang realm, even It's not uncommon to see master-level or even saint-level powerhouses in the self-descending realm!

There are three shields of Yin and Yang level, they can indeed save a lot of trouble.

To some extent, they are a kind of borrowing!

On this star road, there are countless strong people, various realms, and various systems.

Their team can only be regarded as the most common configuration, even Fang Yue and Sima Xiao are at the level of the heaven and earth realm, strictly speaking, they should not appear in the sky.

"Well, it's quite obedient! You, explore my space bubble, and if there is a treasure, come up with respect!"

Ma Jue sneered. He knew Fang Yue's purpose and intentions, but as long as he set foot on this heavenly road, who was not using each other?

He pointed to a space bubble not far from Tianlu, which passed through Tianlu with a distance of less than ten kilometers.

The space bubble is approaching, but the direction is uncertain. The next moment, it may appear on the sky road, but it is more likely to be far away from the sky road, flashing to a point where it is unknown.

"Why should I go? There must be a test in this space bubble, and my strength is definitely invincible!"

Fang Yue was in ink, and he did not obey.

And Ma Jue sneered: "Since you surrender to me, then your life is mine. If I let you live, you will live. If I want you to die, you can't have the slightest resistance!"

Fang Yue was angry, but Ma Jue had already taken out a long knife, and a faint silver streamer floated on the blade.

The cold edge is particularly dazzling.

If Ma Jue's sword fell, Fang Yue would definitely be in a different place.

"Fang Yue, you have to think carefully. If you resist, you will be killed by me in the next moment, and if you are obedient and obedient, you may be able to escape a little bit of life from the space bubbles!"

Ma Jue's threat is not concealed. On the heavenly road, where the heroes gather, where there are any kindness and rules, the weak and the strong, the law of the forest can become the only master.

Fang Yue gritted his teeth angrily, but he couldn't do anything about Ma Jue.

In the end, Fang Yue bowed his head.

"Then I will try it, but if I really get the treasure, the benefits must be shared with me!"

"no problem!"

Ma Jue readily agreed.

Anyway, this is also a bad check. If Fang Yue obtains the treasure, it will not be too late to kill and sell.

As for Fenrun Fangyue, Ma Jue has never thought about it.

It's just an ant. It's a great honor to be able to serve him. How can you be qualified to get a little bit of benefit?

When Fang Yue stepped in, he flew across the sky and entered the starry sky.

The distance of ten kilometers does not seem to be long, but in the starry sky, the aura is thin and almost non-existent.

All magical powers were greatly restricted, and Fang Yue could only pace slowly.

Fang Yue had just walked five kilometers, and suddenly, a little silver light appeared in the distance.

This silver light magnified in front of Fang Yue, and finally became a huge silver snail.

The body of this snail is bigger than a small house. On the shell of the snail, there are still ray of starlight falling continuously, and every ray of starlight falling, like a spear, can pierce the chest and kill people!

"Help!"

"Help!"

When Fang Yue saw this snail-like starry sky beast, he turned his head and ran towards Ma Jue.

Don't look at him walking slowly when he approached the space bubble just now, but when he came back, he ran incredibly fast, even the silver snail was not faster than the speed of Shang Yue.

"Soul Dan, this is the streamer snail, a behemoth of the starry sky at the Yin-Yang level. It swallows starlight and has an extremely strong body. Even a leader-level powerhouse will be shocked when it encounters it! Hurry up and lead it to other places. !"

Ma Jue screamed frantically at Fang Yue.

This Fang Yue definitely lacked smoke.

This streamer snail can definitely kill them all!

The strength of the starry sky behemoth is originally stronger than the average practitioner, and the environment of the starry sky is their home field.

"Help!"

"Help!"

Fang Yue opened his hands, he didn't care about what Ma Jue said.

"It's the juncture of life and death, and my life is unpredictable, no matter what the life and death of the rest of you are!"

As Fang Yue ran, he explained that the more Fang Yue stayed away from them, the faster Fang Yue's legs fell.

Ma Jue's heart is full of fire.

Is this preparing to die together?

Ma Jue regretted that he shouldn't squeeze Fang Yue too hard before, otherwise, how could he fall into this kind of field.

But then again, who can expect things like a god, knows that Fang Yue will encounter such a terrifying existence as the streamer snail.

A stream of light on the snail shell fell, which was equivalent to a spear, waiting for a full blow from a peak powerhouse of Yin and Yang.

Fang Yue screamed strangely, hiding very embarrassed, he jumped left and right, but on the contrary, he escaped under the dense star stream, and even a corner of his clothes was not scratched!

The streamer snail chased Fang Yue and soon arrived in front of the Ma Jue trio.

"Fang Yue, you have to die, let me solve this streamer snail, you see how I can clean you up!"

Ma Jue rubbed Yahuazi and cursed the other Yue, what he was not good at was speed.

At this time, a stream of light fell.

With a bang, it fell to Ma Jue's left hand, less than half a meter away.

The streamer fell on the sky, and the sky was unharmed, but the energy that exploded directly overturned Ma Jue.

"Master Ma Jue, you are wise and martial. It shouldn't be a problem to deal with a tiny streamer snail! Your lord is mighty, I believe your lord!"

Fang Yue jumped aside, his aura converged, like a okay person, raised his legs high, and walked gracefully to the side of Sima Xiao and Li Ruge.

He was screaming and cheering for Ma Jue, and even to make this Ma Jue more motivated, Fang Yue even brought out the chicken soup for the soul.

The streamer snail spotted Ma Jue and carried out a bombardment.

Ma Jue was difficult to resist, and the two shield-shaped artifacts were taken out by the streamer.

"Hun Dan, Fang Yue, you obviously provoke this streamer snail, but why is it doing it to me!"

Ma Jue found something wrong, all this seems to be no coincidence.

"Huh? Maybe you hate people more!"

Fang Yue explained with a smile.

This made Ma Jue's face all green. This Fang Yue was clearly talking nonsense. How could he be a hateful type of such a handsome and charming person?

Pooh!

This is all off topic!

In the end, when Ma Jue's junior brother Zhao Han was studying, he thought of the real answer seriously.

"Perhaps, I know what's going on! It is said that this streamer snail has a keen sense of spirit, and it usually uses its sense to perceive the enemy's movements. Fang Yue has hidden his own vitality and aura, so that streamer snail has no target. , And at the scene, brother, your vitality is the strongest, and your physical body is the strongest, so you bear the brunt of the attack by the streamer snail!"

Zhao Han revealed the truth!

Chapter 958 streamer snail

Ma Jue's face was so black that it couldn't be black anymore.

What is this special mother!

Does this streamer snail find his opponent's target like this?

Ma Jue knew that he and this streamer snail must have a battle, otherwise, it would be difficult for him to escape the streamer snail.

Ma Jue no longer blindly defends and avoids.

His robe trembled, and the purple robe suddenly flew up into the sky, finally turning into a curtain covering the sky.

The curtain hovered in the air, forming an independent world!

The streamer snail was trapped under the purple robe.

Even the streamer from its body can't break through the shackles of the purple robe!

"Fang Yue, do you really think that your plan to kill someone with a knife will succeed? You are too naive! Since I dare to set foot on the sky, I have enough confidence and hole cards."

Ma Jue raised the long knife in his hand again, this time it was no longer a mere threat and intimidation.

The killing intent on Ma Jue's long knife was awe-inspiring, really trying to behead Fang Yue.

"You have a hole card, and so does the snail brother!"

Fang Yue smiled.

Landed with his voice.

The streamer snail's body trembled, and thousands of streamers shot out.

The purple robe immediately became a tattered sieve.

It is riddled with defects, where is the power to form a world on its own!

Although the purple robe is quite defensive, it can withstand a stream of stars, but it cannot withstand the stream of stars.

Ma Jue's face turned pale for an instant, he opened his mouth, and wowed out a mouthful of thick black blood.

This purple robe is a master-level magic weapon, a life-saving magic weapon carefully refined for him by his master.

It took him a lot of effort to exchange his life with this robe and become a life-saving trump card. Who would have thought that the nasty streamer snail would be destroyed the first time he shot.

Ma Jue was not only heartbroken, but the purple robe had been with his life, and the robe was damaged, and his vitality was also greatly damaged.

Ma Jue's realm has fallen, more than one, from the peak of Yin-Yang realm, directly to the seventh level of Yin-Yang realm!

However, the streamer snail after the burst of tens of thousands of streamers also fell into a transient state of weakness.

"Dare to destroy my robe, I will let you die!"

Ma Jue's eyes were scarlet, and his long knife was raised.

The killing intent was condensed, and a faint blood light covered Ma Jue's body.

"Blood staining technique!"

A touch of coldness flashed across Zhao Han's eyes.

This is the secret method of the teacher, blood staining technique, stimulates the potential of the body, and obtains a short-term increase in strength. However, after being strong, there is a long period of weakness.

Although the blood staining technique has many disadvantages, once it is used, its powerful power is undoubtedly.

Slashed down, as if the world was divided.

Even the streamer snail's snail shell is extremely strong, but it still can't resist the slash of the knife.

Click, click.

The snail shell of the streamer snail gradually shattered!

A giant starry beast at the pinnacle level of Yin-Yang realm fell.

The light blue blood is flowing slowly on the ground!

Ma Jue also fell into a state of weakness, and his realm fell again, from the seventh level of the Yin-Yang realm to the fifth level of the Yin-Yang realm.

Compared with his heyday, he still has less than one tenth of his strength.

"Fang Yue, I am going to kill you! No one can save you in this heaven and earth!"

Ma Jue's eyes were scarlet, like a mad cow.

His opponent Yue was already bitter.

If it weren't for Fang Yue, how could he fall into this field?

Although his decline in realm is only temporary, if he is willing to spend a certain price, his lost potential and vitality can be quickly made up.

But that takes time to support, and the cost is quite expensive.

This means that he will be expelled from the list of the Tianlu trial this time, and will pass by without a victory.

"Ha ha!"

Fang Yue sneered.

He turned around and left!

Ma Jue followed behind him.

But he had just taken two steps, a faint dagger had already pierced his waist.

The dagger is poisonous and highly toxic.

Ma Jue felt that he had no strength all over, as if it had become a puddle of soft mud.

"Life is a long journey, go ahead and cherish it! Do you think that your opponent is only me?"

Fang Yue's voice was a little cold, and he looked at Ma Jue with some pity.

Ma Jue slowly turned his head, his eyes widened, and he saw Zhao Han, his extremely trusted junior, stabbing a dagger into his waist.

"why?"

Ma Jue roared at Zhao Han.

Zhao Han's eyelids drooped: "Kill you, I am a big brother!"

Ma Jue was angry and spit out a mouthful of black blood.

"You traitor, I want you to die!"

Ma Jue performed the blood staining technique again, even if he suffered an irreversible injury, he would kill the traitor.

Hands up, the knife falls.

The cold light swept across the sky.

The hunting purple robe covers the sky.

The master gave more than one purple robe.

Zhao Han's purple robe trapped Ma Jue.

Let his sword light never break through the shackles of the purple robe.

Ma Jue was unwilling, his eyes were full of despair: "Zhao Han, even if I'm just a ghost, I won't let you go!"

Ma Jue had a poisonous hair and his face was jet-black, and he stiffly fell backward.

Fang Yue said quietly, "Unfortunately, you don't even have a chance to be a ghost!"

Fang Yue's voice fell, and his palm pressed Ma Jue's eyebrows.

Ma Jue's soul was drawn away by Fang Yue and refined into soul liquid. Although Ma Jue was not considered a leader-level powerhouse, his soul was powerful, and he had already reached that level with half his foot.

In the end, the Rank 5 soul liquid was not refined, but the Rank 4 soul liquid produced a full 500 drops.

This is enough to prove that Ma Jue was actually an amazing genius during his lifetime.

It's just that he met Fang Yue and was killed alive.

"What a weird method, are you the legendary soul refiner?"

Refining the soul, concocting the soul liquid.

This is the unique method of the legendary soul refiner in the underworld. The number of soul refiners is very small, but everyone can call the wind and call the rain. They manipulate the soul, and their understanding of that aspect has reached the point where they are unpredictable.

"It's barely half of it!"

Fang Yue returned to Zhao Han's question.

"Are you two going to kill people?"

Fang Yue looked at the two brothers Zhao Han and Li Yu with a faint smile. If it were to follow the usual practice, the two would definitely kill the three of them and kill them. After all, only the dead would not be able to speak.

Zhao Han killed Ma Jue, and if the incident spreads, he will definitely be held accountable by the clique behind him.

Therefore, killing people is the best choice.

"Haha, it's good for you to know! I just used the Peeping Mirror to investigate, Fang Yue, you really are the cultivation level of the heaven and earth realm, although you are a soul refiner, it is impossible to fight across so many realms, but In view of your special status, I can give you another option, drop blood to recognize the Lord, become my slave, refine the soul fluid for me, how can I spare your life?"

Even though Zhao Han recognized Fang Yue's identity, he was still not ready to stop.

The Yin-Yang realm has enough strength to suppress the heaven and earth realm!

Although Fang Yue's camp also had a strong man in the Yin and Yang realm, his realm level was slightly lower than them. One of them suppressed Li Ruge, and the other killed Fang Yue and Sima Xiao. This arrangement was more than sufficient.

"Actually, I think Ma Jue is stupid, because you two stupid juniors can count him to death. Do you really think that I only have this strength and means? Without the streamer snail, I can still kill you two !"

Seeing Tuqong, Fang Yue originally wanted to let the three Ma Jue brothers act as a shield for him, to cover up the limelight a little bit. Unexpectedly, his plan failed, and the three men had a vicious heart and left him no trace at all. Space for conspiracy!

In that case, Fang Yue didn't bother to keep it!

Zhao Han shot Fang Yue suddenly, a big spear in his hand shook, and nine spears sprang out in a row.

Fang Yue was not afraid, took a step, and took the big silver gun with his bare hands.

This is a magic weapon at the Yin-Yang level, but in terms of firmness, it is no better than Fang Yue, which has surpassed the terrifying body of an ordinary saint!

When the two sides collided, a series of sparks were wiped out on Fang Yue's skin.

Zhao Han's big spear looked fierce, like a flood dragon going out to sea, but in Fang Yue's eyes, it was only an outside force and a middling attack.

Even his skin can't be rubbed, which is what a terrible attack.

"Do not!"

Zhao Han's eyes opened wide, and he couldn't believe the facts before him.

Fang Yue actually took the route of refining the body, no wonder the realm of refining qi is not high!

Such a physique can hardly be matched by the average adult beast.

Zhao Han was terrified, how could he provoke such a terrifying existence.

His intestines are about to be regretful, if he can give him another chance to choose again, he must get along with Fang Yue in peace.

"The road of life is taken by yourself. Once you step down, there is no chance to look back!"

Fang Yue rubs shoulders with Zhao Han.

A palm fell on Zhao Han's neck.

Just listen, a crisp sound. Zhao Han's neck broke.

His soul was drawn away by Fang Yue. Before he died, he even summoned a purple robe to seal Fang Yue!

The moment Fang Yue killed Zhao Han.

The Hydra didn't know when Li Yu had already been killed.

It slid gently on Li Yu's corpse, and all nine heads stood upright, spitting a red core, as if to please Fang Yue, wanting to take credit for the reward.

Li Ruge was cold all over.

He knew that Fang Yue and Sima Xiao would be very powerful, but when they really took the shot, he realized that he still underestimated the strength and means of these two people.

Sima Xiao is a little fat man who loves to laugh. He looks very kind. Li Ruge still doesn't understand his real methods, but Fang Yue alone is a powerhouse comparable to the leader level. He also has terrifying pets.

Li Ruge didn't know the origin of this little snake. However, it was mysterious and silent. A strong man in the Yin-Yang realm died under its mouth, and he did not know how he died until he died.

"In this world, people's hearts are broken! There is no goodness to speak of, only knowing that brutal shots and tough plunders!"

Fang Yue sighed quietly.

Li Ruge was speechless when he heard this.

This person has a heart, is there anyone worse than you?

You clearly want people to be guns to share the firepower.

"I have taken care of this little snail's corpse. Although the grade is not very high, it is also a star behemoth at the peak level of Yin and Yang. I want to come, its blood is very pure, and it may be useful for my research!"

Fang Yue had a deep smile.

Chapter 959: Gifting Opportunity

Li Ruge glanced at the streamer snail, his body froze.

He immediately understood Fang Yue's true purpose.

The so-called shields are all fake, and sooner or later they will fall apart with Ma Jue.

Fang Yue's real purpose was to kill with a knife, and use Ma Jue's hand to cut off the streamer snail, so as to absorb the blood of the star beast.

The star behemoth is not so easy to kill. Killing one or two ends may not be related. Killing too much will form a blood curse on the body.

This blood curse is not lethal, but it will attract more starry beasts' hatred.

Fang Yue used Ma Jue's hand to kill the streamer snail.

It was for Ma Jue to assume the blood curse of the star behemoth.

Li Ruge was a little grateful, but fortunately, he and Fang Yue did not express any hostility before.

Otherwise, the fate of Ma Jue is his.

"How to deal with this space bubble? This space bubble can only be entered by one person. I have already obtained the blood of the star behemoth. This opportunity is for you two!"

Fang Yue smiled and said to Sima Xiao and Li Ruge.

At this time, Sima Xiao and Li Ruge discovered that there was a faint silver light flowing on the surface of the space bubble.

I don't know when, Fang Yue has fixed the bubble in this space, preventing it from drifting around.

The accomplishments represented by this kind of space and heavenly means are already unpredictable!

Li Ruge instantly understood why Fang Yue was so generous.

Because for others, this space bubble may be hard to find.

In Fang Yue's eyes, the air bubbles in this space were captured at will, as if they were searching for something.

"Let me give you the space bubbles this time! I have Fang Yue by my side, so I am not afraid that there will be no space bubbles!"

Sima laughed and ordered Fang Yue.

This Fang Yue is simply a cornucopia.

Especially during this period of heavenly road, Yi Fang Yue's attainments in space and heaven will definitely not let himself go empty-handed.

Fang Yue scolded with a smile: "You fat man, you really owe you a beat!"

Fang Yue did not refuse. He and Sima Xiao have a deep friendship. In the Xuanhuang world, Sima Xiao is one of the few friends he can make and can trust his back. There is nothing wrong with having the opportunity to let Sima Xiao get more benefits.

Li Ruge did not refuse.

This is a chance for him.

Others couldn't ask for it. If he asked him to find a space bubble, it might be difficult to find one after ten days and nights.

Li Ruge thanked Fang Yue and Sima Xiao. Then it stepped into the space bubble.

Inside that space bubble is an independent world, outsiders cannot interfere, and those inside cannot get out of it without defeating their opponents.

"The obstructive person is gone! Fang Yue, you can start if you have any plans!"

Sima smiled and looked at Fang Yue with a smile.

Sima Xiao and Fang Yue are old acquaintances, he knows Fang Yue's temperament too well.

Entering Baoshan, there is no reason to return empty-handed, and Fang Yue guessed that he wanted to move even the mountain!

Fang Yue touched his nose, but he didn't expect his layout to be seen through by Sima Xiao!

"Hey, this starry sky is ours. If you get the benefits, you must have a share!"

Fang Yue solemnly promised that he took a drop of the lower power, which is an extremely rare space power, and Fang Yue used three drops of flame power in the Wanxiang Pavilion!

The supernatural power of a certain attribute allows the user to explode in a short period of time.

Fang Yue's realm was elevated, reaching the pinnacle of the rotation realm in a short time.

He felt so powerful that he could almost cover the sky with one hand.

The blood in the body surged, like a river tumbling, surging endlessly.

However, his body is strong and his soul is unparalleled. The energy of that drop of divine power is easily controlled by him, and it will not escape, let alone cause any backlash.

Fang Yue raised his hand, his sleeves enlarged infinitely.

This is the magical power of the universe in the sleeve, which can accommodate the world.

The power of this magical power is affected by two aspects, one is the cultivation realm of the performer, and the other is the profound degree of the performer's comprehension of the space heaven.

Fang Yue has absolutely no problem with his profound understanding of space and heaven!

The power of the universe in this sleeve depends on Fang Yue's cultivation realm.

Take a drop of supernatural power.

The power of the universe in Fang Yue's sleeve had reached the level of an ordinary saint.

The behemoths in the starry sky that this magical power displayed were all taken in by Fang Yue.

Just a moment.

Fang Yue captured hundreds of starry sky behemoths. Some of the starry sky behemoths are weak and only at the level of the rotation realm, and some are as strong as the streamer snail, and they have already reached the level of the leader of the leader with half their feet.

Fang Yue deliberately let go of the master-level star behemoth, not because it could not be accommodated, but if caught alive, it caused too much disturbance.

Even in the community of giant star beasts, this leader-level behemoth belongs to a side overlord, the backbone and elite of the clan!

Display of supernatural powers, coerce the world.

Ripples in space, ripples in the starry sky.

Hundreds of behemoths in the starry sky were captured by Fang Yue, all of which were collected in the space of the stone pendant. The space of the pendant was frozen and eternal. All the behemoths of the starry sky seemed to incarnate into a sculpture. Although the vitality in the body is still there, as long as if they don't leave this stone pendant space for a moment, they can't get out of it for a moment.

"Flip your hands for the clouds and cover your hands for the rain, catching hundreds of behemoths in the starry sky with one magical power! This is really a big hand, even if it's a saint, it's just like that!"

Sima smiled and admired.

This Fang Yue is really getting more and more mysterious.

He is already regarded as the most outstanding disciple among his peers in the Sima family, and even vaguely, he has the momentum to rank among the top three.

If there is a relationship with the basaltic sacred beast, even the older generation of strong men will respect him for three points.

But Sima Xiao thought he was still a long way from Fang Yue!

"The universe is in your sleeve, and the world is stored!"

Fang Yue took away hundreds of behemoths in the starry sky, but he still didn't have enough ideas. He once again showed the universe in his sleeves, and each space bubble was competing to be included by him.

All the space bubbles within thousands of kilometers are in his sleeve.

There are more than three hundred in total, each of which contains a world!

Sima smiled strangely.

"Is this place specially designed for you? You have taken away all the space bubbles around, so how can people later get a chance?"

Sima Xiao felt that his speculation was correct.

When other people enter Baoshan, at best they just get the precious opportunities.

When Fang Yue entered Baoshan, even the mountain had to be moved away.

Fang Yue's breath gradually returned to normal.

He put the more than three hundred spatial bubbles into the stone pendant space.

Fang Yue glanced at Sima and smiled: "It's up to me whether they have to get the chance! It's okay, brother, there is a bubble in this space, I will give you some in time!"

Fang Yue was carefree.

Sima who said that smiled speechlessly.

Others who stepped into the sky were also unlucky, they met Fang Yue, such an unruly player, and came enthusiastically.

But they can only return empty-handed!

After a few breaths, Li Ruge fell out of the space bubble. He was covered in blood and his clothes were in tatters, as if he had joined a gang of beggars!

Although Li Ruge looked extremely miserable, he held a bead the size of a baby's fist tightly in his hand. On the bead, colorful light was flowing.

He giggled, as if he had lost his mind!

"It's over, it's over, you have to be responsible for Fang Yue! This Li Ruge is so stupid that he is so stupid that he doesn't even know his reason!"

When Sima Xiao saw Li Ruge's silly look, the other party Yue said.

Fang Yue rolled his eyes: "You are stupid! He just got the treasure he dreamed of, so he is very happy!"

Fang Yue's voice fell, and Li Ruge quickly returned to normal.

He smiled: "Fang Yue still understands me!"

"This piece of jewellery is a five-element glass bead, which contains the power of the five elements. If worn all the year round, it can strengthen the body and moisturize the internal organs! Over time, these five-element glass beads can create a body far superior to the same generation! Any practice The flesh is the foundation and the foundation. Only when the flesh is strong can other means be able to be successfully displayed. Sword repair is the weakest kind of flesh among many practitioners. They are good at swords, extremely Yu Jian, although he has won the reputation of being the most lethal among the ten thousand realms, but correspondingly, because they are too obsessed with attacking on the road of cultivation, they have weakened other aspects!"

Fang Yue explained the origin of these five-element colored glaze beads.

Sima laughed slightly, looking at Li Ruge's thin body.

In his mind, his brain suddenly popped out, a sword repair with well-developed limbs and strong physique, like a savage beast.

Unable to help, Sima laughed and shivered. If a sword repairman not only has amazing attacks, but even his physical defenses are also unparalleled, then others will give them some wool!

Fang Yue looked at Sima's smiling expression and couldn't help but smile: "I know what you are worried about! This five-element colored glass bead is not invincible. Although it can be strong, it needs a subtle

process! Li Ruge wants to use the five-element colored glass bead. It takes at least a hundred years to catch up with the physical level of a practitioner of the same level, and if he wants to be comparable to physical training, he can't do it without three to five thousand years! Your physical body, a mind practitioner of the same level China is a leader, it is the ultimate, he wants to be comparable to us, it is even harder in his life!"

Fang Yue felt that although these five-element colored glaze beads are a treasure, this treasure can only make up for Li Ruge's shortcomings!

In Li Ruge's eyes, these five-element colored glaze beads are the most precious treasure that can change his fate, but in Fang Yue's eyes, this thing is actually nothing.

"These five-element colored glaze beads, you already have them! Then let's move on!"

Fang Yue looked at Li Ruge who was content.

Li Ruge naturally has no opinion. In the big cloud world, he may be regarded as a master of the party, but he is on this road.

He really doesn't even count as a little boy, if he let him go through the level alone.

He may be robbed and killed if he can't take a few steps at all.

On the Heavenly Road, there are no rules and kindness at all, the weak eat the strong, everything is like the law of the jungle!

The three of them walked forward, walking dozens of kilometers of sky road, and the journey was smooth.

This smoothness made Li Ruge hesitate and surprised.

This day's danger is clearly recorded in ancient books.

Among them, various starry sky monsters will break into the star road. They are brutal and powerful, killing people like hemp. On the sky road, there will also be some space bubbles floating in the sky. Blood stains the earth, blood flows into rivers, bones are like mountains. But the road to the sky in front of him is in the slightest different from what he saw in the ancient books, let alone a giant starry sky, there is not even a mouse on this road!

As for the space bubbles, it seems that they have disappeared. There is no one in the distance and close up!

Chapter 960 City Projection

"Are we lost? On a fake star road?"

Li Ruge was playing drums in his heart, and the more he walked away, the more he felt that something was wrong.

Fang Yue couldn't help smiling when he heard Li Ruge's questioning.

"Perhaps this section of the star road is relatively calm, there are no waves!"

Fang Yue explained that he didn't say too much.

As the initiator, he couldn't say that he had already taken away all the space bubbles and starry sky monsters on the star road just now!

The three of them walked tens of kilometers, and the surrounding environment finally returned to normal!

Over the sky above the sky, there will be one or two giant star beasts passing across the sky from time to time, and space bubbles, like stars, are dotted in the starry sky of the void.

An ancient city is suspended above the sky road, and several sky roads are interlaced, and this ancient city is the most important focus, a passway.

This city has a total of eight gates, corresponding to eight different heavenly roads.

Fang Yue narrowed his eyes slightly. He raised his head to the sky. In this ancient city, he felt an ancient, eternal, and immortal breath!

A golden plaque hangs high on the vermilion gate corresponding to the Tianlu where Fang Yue is.

"The First City in Heaven!"

The five words on the plaque glowed, flashing with dark red light!

The gate of Tianlu First City is hundreds of meters high. Under the gate, there are groups of soldiers patrolling, wearing heavy black armor. The cultivation level of every patrolling soldier starts at the level of rotation!

The heavy armor draped over them was covered with black thorns and barbs.

On top of the heavy armor, Fang Yue smelled a faint smell of blood.

"The first city on Tianlu! Unexpectedly, we came to the intersection of the first and second sections of Tianlu so soon!"

Li Ruge's eyes were surprised, his understanding of Tianlu far exceeded Fang Yue and Sima Xiao.

"There are a total of eight cities on the 9th section of Tianlu, each of which is the intersection of two different sections of Tianlu! These eight cities are the first city of Tianlu to the eighth city of Tianlu! Of course, these cities are not Entities, all are real projections!"

Li Ruge's voice was a bit low and depressed.

He doesn't have a good impression of the first city of Tianlu.

Because every city and every pass is formed by the accumulation of unknowingly much blood and bones.

The competition among them is fierce, just like raising Gu. In the end, only a few people can walk to the next section of the sky, and the rest are buried in the city.

"The projection of the first city of Tianlu has a total of 100,000 seats, meaning one hundred thousand trails. At the same time, the number of branches on the first section of Tianlu is also the most, and the opportunities contained therein are also relatively ordinary!

Li Ruge will talk about the origin of the Tianlu City.

Fang Yue and Sima Xiao are indeed great insights.

"It's just that this Tianlu city is not easy to enter. In every city projection of Tianlu, there will be many aboriginal inhabitants. These aboriginal inhabitants are either the descendants of the giant star beasts. Needless to say, the bloodline is tyrannical, there is a brutality and barbarity in the bones! Either he is the descendant of the former defeater of Tianlu, who can set foot on the sky and walk to the first city of the sky, no one is simple People, they have ancient and tyrannical secrets, some of which have even been lost to the outside world, and have become inexhaustible! Another part is the creatures derived from the heavenly road. This tribe is called the Celestial Race, and it is very mysterious. , But the people of this clan are extremely talented. Anyone who appears is enough to shock the past and the present. Some people say that they are the real masters of Tianlu, and everything on Tianlu is under their control and mercy!"

Li Ruge became more afraid as he spoke.

All the records in Tianlu originated from the oldest book in his family.

The ancestors of the Li family who left the classics were shockingly talented, and once smashed the powerhouses of the Saint Realm at the level of the leader!

He set foot on the Heavenly Road three times, the first time he passed through the first city of Heavenly Road, stepped into the second section of Heavenly Road, fought \*\*\*\* battles, and returned from a ten-year battle.

The second time, he passed through the second and third cities of Tianlu, and finally built the strength to resist the saints.

The ancestor of the Li family left this classic record after returning from the Tianlu for the second time, and left a large number of treasures and ancient classics for the Li family.

Li Ruge's practice now is derived from the Heavenly Road.

But in the end, the amazing ancestor of the Li family, after breaking into the sky for the third time, was silent and never returned.

Since then, the Li family has fallen, and even led to a catastrophe that almost overthrew the Li family.

Therefore, Li Ruge has a special affection for Tianlu.

In that era, the Li family had a great road to success and defeated a road to heaven.

And Li Ruge set foot on the path of heaven again, in addition to seeking opportunities for himself and gaining more powerful strength, there is also a vital responsibility, that is, to find the traces of that ancestor.

Although that old ancestor has disappeared for more than 800 years, more than 800 years, for a mortal, may be the change of times, and even several dynasties have flourished and fallen.

But for a practitioner who is comparable to a saint, it is only 800 years, just a few seconds away.

People in the Li family still expected that the ancestors were still in the sky, but were trapped somewhere, so they couldn't leave.

For this expectation, Li Ruge also knows that it is unlikely.

However, since Li Ruge is a disciple of the Li family and is born with the blood of the Li family, he has the obligation and responsibility to bring back the bones of the ancestor from the sky!

Above the road, the city wall stands tall and towering.

Fang Yue and the three were about to enter the city.

A piece of weird creatures crushed by darkness was killed in hordes.

These weird creatures grow with the head of an old woman, black wings, flapping wings, and a stench rushing toward your face!

There are not one such creatures, but hundreds of them.

They locked Fang Yue's trio, as if dark clouds swept across.

The old woman's head muttered ancient and obscure spells silently, causing the surrounding clouds to roll, and clusters of green flames, like dense raindrops, fell towards Fang Yue and the others!

This green flame did not have a hot temperature, but the surrounding void was rippling, and there was a smell of witchcraft around it.

On the edge of the flame, the spitting fire snake turned into an emerald green viper. The pair of scarlet eyes looked at Fang Yue and the others, as if they were about to swallow them completely.

"This is a witchcraft flame! If a person is accidentally contaminated with his upper body, even a powerful person with a large energy level may not be able to resolve it!"

Sima Xiao knows some witchcraft, and he has also seen records of such flames.

His face changed slightly, and a cloak was taken out. The cloak was silvery white and trembling slightly, which was a hundred times magnification. The flames of the magic arts were all blocked outside the cloak.

Every witchcraft flame hits the cloak, it will make the cloak shake involuntarily, producing a beeping sound!

On the cloak, thin cracks gradually appeared, and these cracks were like a spider web, like a large web.

Kacha, Kacha, Sima Xiao's cloak shattered!

All the fragments were instantly turned into ashes in the green flame.

Sima Xiao's face changed slightly. He had known that this witchcraft flame was quite powerful and weird, but he had never thought that even the silver cloak he carefully refined could be easily destroyed.

Although the silver-white cloak is a magic weapon at the rotation level, among them, Sima Xiao blessed it with special raw materials, even if it is an ordinary power, it may not be able to break it!

However, this silver-white cloak has bought enough time for Fang Yue's trio to react.

Li Ruge took the lead, with a long sword in his hand like frost, slashing towards those strange birds!

The silver light cut down the frost of the world, rustling down.

"The sword is like frost!"

Li Ruge's voice was cold, and in an instant, the icy sword glow turned into a frosty world.

A series of ice thorns fell down.

Stabbed those monsters into an ice sculpture.

These monsters with women's heads are actually relatively weak in their bodies, and their defenses are not very high.

Even the practitioners at the pinnacle of the ordinary rotation realm can cause severe damage to them with a full blow. However, their attacks are powerful and can even threaten some senior powers.

"Something's wrong!"

Fang Yue didn't lose the slightest slack because these monsters were frozen by Li Ruge's sword light. In his eyes, a solemn expression flashed away.

"Fang Yue, what's the matter?"

Li Ruge looked at Fang Yue and asked in surprise.

He has enough confidence in his sword Ruchenshuang.

"Nothing! The monster's body has been sealed, but there is still energy surging in their bodies!"

"No, be careful!"

Fang Yue raised his hand, and a rock wall with a height of hundreds of meters and a thickness of tens of meters rose from the ground. This rock wall can no longer be called a rock wall, even if it is called a hill.

There was a bang.

The flesh of the monster burst apart.

The frost seal burst open, blocking the rock wall between the monster and Fang Yue, and then exploded. In an instant, the rocks splashed and smoke was everywhere.

"Cough, cough, cough! These monsters are so spicy and decisive, they are sealed by frost, and they blew themselves to death with us!"

Li Ruge slowly stood up from the dust, there was still a trace of dust on his face.

His hair is messy, making the whole person look quite embarrassed.

On the other hand, Fang Yue and Sima Xiao had a bit of defense before, and they avoided in time, but they didn't mean to be embarrassed.

"I remembered, this monster is called the human head crow. It is an ancient species of beast. They are born to be good at witchcraft. They are powerful, bloodthirsty and very spicy! Human head crows have been quite popular since ancient times. Rarely, it seems to have been extinct in the ancient times. I did not expect that there would be such a beast on the road on this day, and it was seen in groups! Fortunately, the human head crow recorded in this ancient book and the human head crow we saw There is a difference! Compared to the human-headed crows of the ancient times, it is weaker than the big realm! Otherwise, if hundreds of human-headed crows are infested, even if the three of us work together, it may not be the enemy!"

Sima smiled with lingering fears. He thought of the terrible place of the crow with human head recorded in the ancient books. It was a terrifying creature, invincible in the past. Even the young crow was proficient in multiple witchcraft, killing people invisible. , Fascinating, the adult human head crow has a realm comparable to power, and can leapfrog and kill the leader of the leader!
