### Chapter 991: Destruction Guard

"Robbery while in chaos? Where is the chaos? The wave of Zhang Feng and Nalan Nightmare fighting just now has passed. I am afraid that the first city on the road will soon return to calm!"

Fang Yue asked.

Luo Yan chuckled: "Hey, isn't there a space channel next to this? This is not for me. I am just a smuggler. The owner of the real channel is still brewing attacks! There will be a total of nine waves of attacks. Stronger than a wave! In the ninth wave of attacks, the master of this space channel will come! At that time, it will definitely be a chaos in the world. It is a problem whether the first city on this day's road can be defended! The three major forces cannot protect themselves, and take them. The chances of the treasure house will also increase a lot!"

Luo Yan counted the right time and place and everything.

Fang Yue said in surprise: "It turns out that I am not the master of this spatial passage!"

Luo Yan rolled his eyes: "Do you think I think I'm that kind of idiot? It took a lot of effort to build this space channel just to conquer a small city? However, this time you are the wisest to turn to me. Choose! There is an 80% chance that this city will be conquered and breached. If this city is breached, according to the nature of the owner of this space, all the natives in the city will definitely be refined into the purest flesh and blood! And you become mine! People, the owner of that space channel will give me some face and leave you a way to survive."

"The master of this space channel is so powerful, there is an 80% chance of conquering this city? You know, although the first city on this heavenly road is only a projection of the deity, there are at least eight people among them, and this There are at least dozens or even nearly a hundred saint-level powerhouses in the first city of Tianlu, as well as countless master-level, yin-yang, and cycle-level talents! Even if they are powerhouses in the virtual fairyland, they dare not say that there is an 80% chance. Able to occupy the first city on this road!"

Fang Yue refused. Although he didn't like the three powers of the first city on this day's road, the tyranny of the three powers was beyond doubt.

Luo Yan chuckled: "Do you really think that I am going to fight an uncertain battle in the other side of the universe? Virtual Immortal? Yes, the master of this space channel is a powerful man in the virtual fairyland, and there are two under his hand. As for the lieutenant of the Xuxian level, as for the powerhouse of the Great Sage level, there are twelve people following him! The master of the space channel is not afraid of the strength of the bright face of the first city on the sky road. He is worried about the possibility of failure of 20%. It's just some hidden secrets in the first city on this road!"

Luo Yan's words made Fang Yue half cold.

Unexpectedly, he eventually underestimated the strength and determination of this universe!

Fang Yue didn't speak, he was digesting this fact.

This day, the first city on the road because of him has completely reached a point beyond his control!

Just when the two were talking.

The space channel shook suddenly.

Directly above the space channel, dense figures emerged.

Fang Yue roughly estimated that these densely packed figures represented at least millions of creatures.

They are all indifferent faces, black swords, silhouettes and human types, but they are filled with an unspeakable aura of destruction!

Luo Yan's smile faded, replaced by a solemn expression.

"Destruction guard! What does that lunatic want to do?"

"What is the Destruction Guard?"

Fang Yue didn't know what Luo Yan was talking about.

He searched his mind, and stored the memories of many creatures in the universe on the other side, but there was no record of destroying the guard!

"The Destruction Guard is a biological weapon in the Universe, and its level is one level higher than that of the little demon! The Destruction Guard, once born, is the peak level of the rotation realm. They are born for killing, and every Destruction Guard has a killing expert! Even the cultivators who have just entered the Yin-Yang realm are not even a little bit worse than them in terms of simple killing! What is even more frightening is that the six guardians of the killing don't recognize it! Except for the companion and the master, see who kills whom They refine the power of killing and supply their own evolution. On the battlefield, they become stronger as they fight! Even in the universe of the other side, there have been instances of destruction guards evolving to the level of saints, giving birth to examples of self-will backlash against the master!"

"What? Every Destruction Guard is a killing expert at the pinnacle of the rotation realm, comparable to the practitioners in the early Yin-Yang realm?"

Fang Yue's face turned pale.

This is just the first wave of attacks!

Their strength is that Fang Yue has given birth to a bit of fear.

This is not a destructive guard at two ends!

Seeing the densely packed and crowded sky, the number of the destruction guards is at least ten million.

Tens of millions of destruction guards...

When Fang Yue thought about it, he felt dizzy.

However, before Fang Yue had a chance to play, these destruction guards were scattered across the entire earth like a black streamer, culling the many creatures in this Heavenly Road City!

"My lord, save me!"

Fang Yue asked Luo Yan for help, but a ruined guard rushed towards Fang Yue's direction.

Its speed is so fast that it can't even compare with electric light!

The Destruction Guard had a serious face, his left hand pulled out the black saber behind his back, and a strong air of destruction suddenly fell down.

Fang Yue's heart even stopped beating twice!

This is a mortal battle, and the momentum gathered before the sword is released is enough to make the ordinary practitioners of the rotation realm unable to breathe.

Fang Yue quickly approached Luo Yan's direction.

However, Luo Yan's figure went away and moved away.

"You need to solve your problem yourself. If you want to follow me, you need to show your capital and bargaining chips. If you can't even match this destroyer, then you don't have the qualification to follow me!"

Luo Yan's voice was thin, but there was a sense of determination in it.

The sword of the destroyer slashed.

Fang Yue had to deal with it!

"Is your martial arts superb? It's up to me!"

Fang Yue didn't know where to take out a laser pistol. This laser pistol has a high level. It is a taboo weapon on the Deep Blue Planet, and it can kill even the strong in the Yin and Yang realm!

The Destruction Guard approached, Fang Yue put the pistol against Destruction Guard's forehead, and with a scream, a beam of silver light with the thickness of the thumb in the pistol passed through, killing the Destruction Guard!

Luo Yan was surprised. She thought that through this method, Fang Yue's true strength could be forced out.

But I didn't expect that Fang Yue still had such a high-tech weapon in his hands!

This is a laser pistol that can damage even the Yin and Yang realm. Even in the universe of the other side, the price is quite expensive.

But its lethality is undoubtedly, it can kill a destroyer guard, not beyond her expectations!

Fang Yue smiled triumphantly at Luo Yan, filled with a sense of dignity.

Fang Yue wiped the dust that didn't exist on his body, and said proudly: "With this strength, you still want to kill me? You really underestimate me!"

Luo Yan couldn't help feeling amused when he saw that Fang Yue looked like a villain.

Luo Yan reminded: "This destruction guard can sense the death of a comrade-in-arms. If one of the destruction guards dies, and the other destruction guards respond, more destruction guards will appear to kill the enemy!"

Luo Yan's voice did not fall.

Fang Yue swallowed his saliva.

"Sir, stop talking, I have seen them!"

Fang Yue stepped back, and he saw two destruction guards approaching him.

These two destruction guards seemed to feel the death of their comrades, so they came together to kill the powerful enemy!

Luo Yan embraced his hands and looked at Fang Yue with a smile.

"Little slippery, I almost made you pass the level just now. Now, let's see how good you are, whether it really seems to be so weak on the surface!"

"Don't come here!"

Fang Yue stepped back and pointed at the two destruction guards at the same time.

The two destruction guards looked indifferent, even if they understood Fang Yue's words, they would not be affected by Fang Yue's threat.

If there are only two threatening words, they can be repelled.

Then they don't deserve to be the guards of destruction!

"I mean, don't come near me! If I get angry, even myself will be afraid!"

Fang Yue's side retreated while talking.

His threatening words were so weak.

Raise your hand and pull the trigger.

A beam of silver light shot towards the eyebrows of one of the destruction guards.

However, the same trick is difficult to work twice on the Destruction Guard!

The light fell through, and even a single hair of the destroyer was not injured.

The destruction guard was still approaching Fang Yue, stepping firmly!

The two destruction guards were ten meters away from Fang Yue's body, and their footsteps suddenly stopped.

They slowly turned their heads, but saw a huge shadow falling down.

Behind the destroyer guard, I don't know when a giant star beast appeared. This giant star beast is as big as a two-story small villa, has a burly figure, and looks like a chimpanzee!

The lantern's big eyes looked down.

There is no ripple of emotion in the cold eyes!

The breath of the fifth layer of Yin-Yang realm exudes, and even the two destructive guards who are not afraid of death gave birth to a trace of creepy fear!

The starry sky behemoth is huge and has deep blood.

They are by nature the overlords of this starry sky, and are good at mobilizing the power of the stars.

Every starry sky beast, the mana and true energy in its body are ten times more powerful than humans of the same level!

The giant starry beast on the fifth step of the Yin and Yang realm is even more difficult than the human powerhouse on the seventh step of the Banquet realm!

"Wow! Xiao Gang!"

Fang Yue greeted the star behemoth cordially.

When the star beast heard the name, he almost had an urge to turn his head and walk away, but a certain reason stopped its urge!

Fang Yue seemed to be able to hear his heart, the call sign that I could not go.

The Star Giant Beast hesitated for a long time before it roared, which was regarded as a response to Fang Yue's greeting just now.

"My lord, let me introduce you. This is my distant cousin Xiaogang. He saw that I was threatened, so he came to rescue me!"

Fang Yue proudly walked to Xiao Gang's side and said proudly to Luo Yan.

The star beast roared again.

Among them, there are few cordial ingredients, but more shameful ingredients.

Looking at the giant starry beast that was about to cover his face, Luo Yan seemed to smile.

This Fang Yue was really cunning, and it was still a series of nonsense.

Are Fang Yue and Star Giant Beast cousins?

You look in the mirror, how do you two look alike!

However, since Fang Yue said so, what can she say!

The two destruction guards hesitated for a moment, then turned away without saying a word.

They are not afraid of death, do not prove that they are really willing to think, there are so many goals on the street.

Why do you have to find the bad luck of this big guy!

## Chapter 992 The First City of Heavenly Road Was Robbed

The two destruction guards left.

Fang Yue watched them with a smile.

This is the only unsolvable mechanism that cracks the destruction of the guards and comes to a group.

He didn't kill the Destroyer Guards anymore, so no more Destroyer Guards would come to his door.

"Good kid!"

Luo Yan said these four words, but he didn't know if it meant praise or something else.

Anyway, Fang Yue took this as a compliment!

"Reluctantly!"

Fang Yue just gave four words of recovery, without the respectful and humble expression on his face.

Because Fang Yue knew that Luo Yan had already begun to doubt himself, no matter how much he pretended, he would only make the other person look down on him. It would be better to be upright, imaginary and real, with depth and shallowness, so that the other party could not see clearly his own details. , Dare not act rashly!

"This Destruction Guard is only the first wave of attacks. This space channel has been transmitted nine times, and it must be stronger than once! I really don't know what else the lunatic will transmit after this Destruction Guard! Sure, I am afraid that even the 20% of the first city on the sky road will be slim!"

Luo Yan is not optimistic about the first city of Heavenly Road, and the probability of destruction is 80%, based on the premise that the owner of the space passage does not attach much importance to the first city of Heavenly Road.

If he is serious, there is nothing he can't get in these ten thousand realms!

Because that person is already standing in the ranks of the first echelon below the real immortal, and can be ranked in the immortal class at any time, called the ancestor.

Unless the world of immortality, devil, underworld, and so on, the strongest people of the highest world descend to earth.

Otherwise, no one can suppress him at all.

"The soldiers came to cover the water and the earth. This destruction and guarding is a calamity for the people in the first city of the sky, but it may not be an opportunity! Nirvana from the ashes, transformation and rebirth, this calamity is a baptism that can make the sky the first The residents of a city have been tempered, and those who can survive the war smoothly will be the future human elites and the pillars!"

Fang Yue's reason was abnormal, so he slowly analyzed and adjusted clearly.

He can find a trace of blessing in the crisis.

This ability makes Luo Yan quite optimistic.

"Ah! Ah! Ah! I'm here to travel through the sky. Although it's only a rotation realm level cultivation realm, but I have been through all the thorns, I don't know how many powerhouses have been killed! Do you think that a few destroyers can kill me? It's a bit too small!"

Not far from Fang Yue, a passing teenager screamed up to the sky, and his sound waves were like waves, instantly shaking the two destroying guards from around him into powder!

Such supernatural powers have surpassed the cultivation base of the Transcendent Reincarnation Realm and reached the level of Yin Yang Realm!

At the same time, some people released poisonous snakes, poisonous insects, poisonous frogs, poisonous centipedes, and so on, all over the world, and they attacked and killed them all.

Each of these poisons was carefully raised and tempered, possessing the blood of the ancient alien species, killing people without blinking, as long as they touched a little, it was a dead body.

After the panic just now, the practitioners of Tianlu First City quickly stabilized their positions.

All of these practitioners are equipped with unique skills, and none of them is easy to meet.

Although the Destruction Guard was fierce for a while, after all, it was impossible to suppress all the practitioners in the First City of Heavenly Road.

They encountered a counterattack, extremely fierce, and in an instant there were heavy casualties, and various deaths were quite dismal.

"Causes and calamities, as long as they can be passed, it is a great opportunity!"

Fang Yue is quite a cudgel, he walks among the destruction guards.

The destruction guards found him and slaughtered him fiercely!

However, all the destruction guards exploded at the moment they were close to Fang Yue's body, turning into a thick blood mist.

Fang Yue's eyelids are drooping, and his palms are folded together, as if he was a high priest.

If someone observes closely, these destruction guards are not directly exploded, but their flesh withered, and in the end only the skin and bones are left, the life essence in the body is sucked clean, and then the remaining rotten flesh and blood explode, the blood is dim and no longer There is a bit of life.

The vitality in these destruction guards is amazing. If you compare them, the life essence in them is at least five to ten times that of the same-level human cultivators!

In the eyes of others, these destructive guards are calamities and disasters, but in Fang Yue's eyes, they are all training resources and long-legged treasures!

Luo Yan saw Fang Yue's unscrupulous appearance, like the appearance of death descending, and did not show a shocked expression, but felt that it was justified.

Normal people don't dare to approach that space channel at all. Even the strong in the Yin and Yang realm will be suppressed by the powerful aura when they are close. The blood is coagulated, the true energy is stagnant, and it is impossible to move! Only the leader of the leader level can reluctantly approach, but it is also suppressed, struggling, and restrained.

Only Fang Yue was able to enter and exit the space channel smoothly without any suppression. He was definitely a dragon among people, extremely rare.

According to Luo Yan's estimation, this Fang Yue is only the strength of the early stage of the cycle of rotation, saying that he can be comparable to the leader-level powerhouse, Luo Yan 10,000 people do not believe, the road of cultivation is difficult, step by step, through thorns, and the barrier is like sky. It is already extremely rare to kill the enemy across a large realm. It is almost impossible to cross two realms, and to reach the sky from the rotation realm one step at a time, to reach the leader-level combat power!

Therefore, Luo Yan wanted to pry into Fang Yue's body not to win treasure, but a pure hobby.

Fang Yue is just a practitioner in the early stage of the cycle of rotation, what good treasure can he have? The big secret?

Even if there is, she can't look down on her cultivation at the peak of the Saint Realm.

This is a pure hobby, without any other selfishness and distractions.

Anyway, it comes once, and I am idle, so I might as well use this Fang Yue to add a bit of fun to my boring life.

Fang Yue successively beheaded eighteen destruction guards, and the other destruction guards finally knew how powerful Fang Yue was, and no one dared to come close again.

For a time, Fang Yue's body was empty, and no one destroying guard dared to besiege.

Luo Yan nodded slightly, secretly praised.

It is already extremely rare that Fang Yue's initial stage of rotation can sweep eighteen destroyers equivalent to the first level of Yin and Yang's strength!

She was also slightly interested in talent, and wanted to give some pointers.

"Fang Yue, your strength is good. You must have a big treasure on you. A big secret. Although I come from the Universe, I don't have any malice towards the Universe. In fact, most of the people in the Universe are The Ten Thousand Worlds Universe has no malicious intent. They invaded you. They are just a group of warmongers in the Beyond Universe who were dazzled by wealth! They are unscrupulous, rampage, and no one will look at them!"

Luo Yan and Yan Yue looked at Fang Yue and explained the situation in the Universe on the other side.

She is showing her attitude and showing her position.

Fang Yue nodded slightly, affirming Luo Yan's statement.

Fang Yue himself has had contact with the people of the Bian Universe not too few times, and his attitude towards the people of the Bian Universe is clear. Ninety-nine percent of the people in the Bian Universe have no idea of invading other universes. In their view, the Universe on the other side is a high-level universe, with a vast area, rich resources, and abundance, which is simply not comparable to other universes.

The Ten Thousand Worlds Universe is just an extremely barren rural town, with poverty everywhere and desolate everywhere, there is no need to consume manpower, material and financial resources to invade and plunder.

The ambitious people are always just a handful!

Luo Yan saw that Fang Yue had accepted his idea, with a slight sense of easiness in his heart, and continued to say: "My other side of the universe is full of rivers, especially the martial arts Xiaoyao Pavilion where I belong is even more compatible. Many outstanding geniuses from other universes have been happy to me. Study in the pavilion. A small group of the best can even be left in the Xiaoyao pavilion to become outer disciples and listen to the Sanskrit sounds of the Dao every day. And I am just an ordinary true disciple in the Xiaoyao pavilion, but I have the right , Will introduce you to the Xiaoyao Pavilion to become a handyman disciple! If you perform well within ten years, pass the assessment or make great contributions to the Xiaoyao Pavilion, the sect will consider keeping you behind and become an outside disciple! "

Luo Yan actually had a passion for talent, and wanted to win over Fang Yue and become a disciple in her school.

"Handyman disciple? What's so good about this! To be an official in the court, it is better to be king at ease! This handyman disciple is at the bottom of the martial sect and is extremely angry! It's better to stay in this universe and just walk out of the sky Road, I am a great master of the state of rotation, wherever I go, there are great masters who are admired and admired by thousands of people! Jinkou Yuyan, ordering the heroes, is much better than going to the Xiaoyao Pavilion to become the lowest and most humble handyman disciple! "

Fang Yue refused Luo Yan's request. There were too many secrets in him. If he really joined the Xiaoyao Pavilion, he might be seen through.

The cultivation of Luoyan Saint Realm is actually a true disciple!

According to Fang Yue's inference, if you want to become the core disciple above the true disciples, or even the saints and saints, what realm level is needed?

The Great Sage or the Xuxian?

Go up?

What a terrible existence their master and elders are!

Fang Yue suddenly understood why most of the creatures in this universe never regarded the Ten Thousand Realms universe as an enemy.

Because the Ten Thousand Worlds Universe seemed to be unworthy in their eyes!

"Reject? No hurry! You don't understand how big the gap between this universe and the Universe is! Destroyer like this is actually just a relatively inferior biological warrior in the Universe! If you are willing to pay the price, I, the Universe Even saint-level biological combat soldiers can be mass-produced!"

Luo Yan said softly, her words made Fang Yue's heartstrings tremble even more!

Saint-level biological warriors are all energy production.

To what extent has this universe become so powerful!

"You did a good job just now. I am giving you a little secret technique from the Universe! Your magic technique in the Universe is too sluggish, without any spirituality! I taught you a secret technique from the Universe, the purple lightning snake! "

Luo Yan finished speaking without waiting for Fang Yue's approval or rejection.

With a flick of his fingers, a thought fell into Fang Yue's eyebrows.

This secret method is quite common in the universe of the other side, and it is the least valuable mainland product to fall into the Xiaoyao Pavilion.

However, Luo Yan believed that this secret method was sufficient to change Fang Yue's concept.

The secret method falls into the sea of knowledge, with hundreds of millions of words in it, as if a dragon and a snake are twisting, and it contains incomparably profound principles of practice.

"The Purple Thunder Snake has ten layers! Even if you only reach the first layer, you can make your magical body spiritual!"

### **Chapter 993: Purple Thunder**

At the same time that Fang Yue was enlightened, Luo Yan personally protected him, and her breath radiated slightly. Whether it was the practitioner of the First City of Heavenly Road or the Destroy Guardian, none of them dared to approach Fang Yue!

The breath of the Holy Spirit shocked the world.

They speak the law freely, and if they don't reach this level, who dares to frown their brows.

Fang Yue's soul is strong, and his comprehension is excellent. Just a little insight is to understand the principles and rules.

It has to be said that the study of magic in this universe is a hundred times more profound than in the universe of the ten thousand worlds, and the change form of magic is closer to the essence of rules.

Suddenly, Fang Yue opened his eyes.

With a flick of his finger, billions of lightning flashes on his fingertips.

A group of thunder and lightning was shining, and in a blink of an eye it turned into an electric snake.

The electric snake is slender, only the thickness of a thumb, and in a blink of an eye it got into the body of a ruined guard who was fighting fiercely with the practitioners in the first city of Heavenly Road.

The Destroyer Guard was about to be lifted, but the electric snake turned around, and its body was hindered, as if it was under the shackles of nothingness.

The Destruction Guard struggled to escape, but as soon as his skin touched the electric snake, black smoke rose up all over his body.

This lightning contains a paralyzing effect.

The Destruction Guard was stiff and unable to move.

The Celestial Road practitioner who confronted him took the opportunity and pierced the air with a sword, as if a long rainbow pierced the sun, piercing the chest of the Destroyer Guard.

"Lightning shackles, thunder snake traps the enemy! Fang Yue, you are really good at spells, and you have obtained a bit of the secret law of the universe!"

Although it was praise, Luo Yan was extremely shocked.

The secret method of this purple lightning snake, although it belongs to the bad street in the universe of the other side.

But it is not easy to really understand!

Fang Yue's secret method is already spiritual, and he has obtained a trace of the secret method essence.

This is the Purple Lightning Thunder Snake, the first level of mystery to thoroughly understand the successful performance.

Although Luo Yan does not practice the secret method, she deeply understands in her heart that the secret method of this purple lightning snake is extremely difficult to get started!

In general practice, you may not be able to find a way to practice after ten or eight years of comprehension.

And for some geniuses, it takes at least half a year to understand the principles, build a model of the spell, and finally display the formed spell.

And this Fang Yue is simply more genius than a genius. It took only a few breaths from obtaining the secret method to displaying it!

Genius, this is definitely a genius in technical cultivation!

"The trivial trail is not worth mentioning!"

Fang Yue smiled. He felt that this secret method was indeed good. There were ten layers in total, and one layer was more profound. The power of the secret method itself might not be much.

However, he opened a window for him to understand the analogy. He can learn from the theoretical essence of the purple lightning snake, improve the mystery of the universe, and open a new world for his own magic practice!

"Fang Yue, so you are here! Finally let us find you!"

An old man with white beard and hair, dressed in a white robe, and a dragon head crutch in his hand.

He stood in the second lower realm of Yin-Yang realm, and when he saw Fang Yue, his eyes flashed!

"Who are you? Why do you know me?"

Fang Yue frowned when he saw this old man. Is his reputation already so big in the first city of Heavenly Road?

Even an old man with a box lunch can call out his name!

"I am Nalanqing, the deacon elder of the Nalan family. My Nalan family has posted a list and is wanted for you. As long as you can get your head, you can go to the family to receive the award! This reward is rich enough to make me In the rest of your life, your cultivation base will enter three or two smaller realms!"

The white-bearded old man Na Lanqing shouted at Fang Yue, his eyes bursting with exquisite light.

The outside world is preaching how powerful this Fang Yue is, but Nalanqing doesn't believe in this evil!

Where can a practitioner on the first level of the rotation realm go even if they are powerful?

Among the Nalan family, practitioners at the rotation level are all the lowest existence!

The white-bearded old man Na Lanqing made a bold move against Yue!

The crutch in his hand was thrown into the air, instilling massive mana, and in a blink of an eye it turned into a brown flood dragon. This brown dragon is more than twenty feet long and has a waist thicker than a bucket!

It is like a real dragon, and even exudes a strong coercion, as if the dragon is shaking the world.

"My lord, help!"

Fang Yue saw the old man with white beard, turned around and ran to Luo Yan's side.

Luo Yan smiled lightly, tapped Fang Yue's forehead with his finger, pushing his body away.

"This person, I believe you can handle it!"

Luo Yan was not ready to help. This Fang Yue was able to kill even a destruction guard that was comparable to the first-tier combat power of the Yin-Yang realm. For a practitioner of the second-tier Yin-Yang realm, there should be no problem!

Luo Yan still wanted to see the potential of Fang Yue's means. If Fang Yue was really lost, she would naturally help.

Now, Fang Yue's position in her heart is very different from before. Before, Fang Yue was just an ordinary passerby, A, B, C, D, and her life and death had nothing to do with her.

But now, she was moved with love for talent, and wanted to win Fang Yue into the Xiaoyao Pavilion.

She naturally paid attention to Fang Yue's life and death.

"Big cousin, help!"

Fang Yue called, calling out the giant starry beast that looked like a gorilla!

The shadow of the behemoth fell down, and he slapped down.

The majestic and majestic brown real dragon floating in the air was directly shot on the ground, bubbling in its mouth.

This shadow fell on Nalan Qing's heart at the same time.

He is not Nalanqing, but intestines.

Why are you convulsing yourself, start with Fang Yue.

This Fang Yue's helper turned out to be a behemoth in the starry sky at the fifth level of Yin-Yang realm. Even if he had cultivated for another hundred and eighty years, he would probably not be its opponent!

"Big cousin, kill him!"

Fang Yue jumped his feet, indignant and passionate, as if he was really a victim of standards, calling out friends and seeking justice for himself.

When Luo Yan saw this, he frowned slightly, which made the gorilla slap Nalanqing and slapped his intestines. He also looked at Fang Yue's potential.

"Fang Yue, don't let the star behemoth help you!"

Luo Yan Fang Yue issued an order.

Fang Yue turned his head, his expression aggrieved.

"But, this is my own means to summon the big cousin, can't I even use my own means to deal with the enemy?"

What Fang Yue said makes sense.

Even Luo Yan was involuntarily stunned.

She thought about it a bit.

"Then you can use another method, anyway, summon the giant star beast, this belongs to the category of external force, you can't use it!"

"Well!"

Fang Yue got the order and waved his hand to let the big cousin chimpanzee stand by.

Nalanqing couldn't help but let out a sigh of relief.

Hehehe, this Fang Yue can't let the star beast help, would it be difficult to kill him by himself?

The brown real dragon also got up from the ground. Although it was quite cruel, it did not damage its foundation after all.

"Fang Yue, your own strength is absolutely no match for me! I advise you to surrender altogether, and obediently follow me back to the Nalan family to accept trial!"

Nalanqing looked at Fang Yue triumphantly, as if he had a chance to win.

He is the second level of cultivation level of Yin and Yang realm, while Fang Yue only has the first level of cultivation level of Rotating Realm.

Beyond the gap of a big realm.

What does Fang Yue make up for?

"Come out! My little devil army!"

Fang Yue shouted, and the void burst.

The little demons were summoned.

A hundred little demons all appeared, all of them were modified by Fang Yue and Tian Kuan.

Every little devil has the strength of the first level of Yin and Yang realm, which is stronger than the current raging Destruction Guard in terms of breath!

More than a hundred little demons surrounded Nalan Youth League.

Nalanqing panicked immediately!

At the same time, Luo Yan was messed up in the wind!

Isn't this little devil army the killer of their universe?

Why did Fang Yue get it out!

Moreover, how could the little demon summoned by Fang Yue be so strong, it turned out to be even more powerful than their little demon in the universe beyond.

This Fang Yue shouldn't be the undercover agent sent by them from Beyond!

No, if you are an undercover agent, you should have a sense of breath!

"Who surrendered?"

Fang Yue was condescending and looked at Na Lanqing.

Nalanqing's body froze.

He dared not speak.

Not surrender?

He can't afford to provoke more than a hundred little demons!

Surrender!

The Nalan family will never forgive him!

"This is my little cousin!"

Fang Yue said to Luo Yan triumphantly.

Luo Yan was speechless.

"How come there are so many relatives in this chaos in your family!"

"With this team of little demons, no external force is allowed! No summoned creatures, star beasts and the like can be used!"

Luo Yan gave the order to die.

She is here to test Fang Yue's potential, not to watch the circus fight!

"Then what can I use? Is this okay?"

Fang Yue looked at Luo Yan with an aggrieved expression. He lingered for a long time before he found a purple crystal in one of the horns!

Amethyst Thunder, known as a big killer that even the leader-level powerhouses are doomed to escape!

This amethyst thunder is only the size of an adult's fist, but if the energy in it is completely detonated, it will be enough to form a thunder wave.

Nalanqing gave birth to a cold sweat on his back.

What the \*\*\*\* does this buddy do?

Standard terrorist?

A word of disagreement is to prepare to die together?

Nalanqing hadn't seen Amethyst Thunder or something, but it was so fierce that it was not a family of two.

He wondered, how did his family offend such a man?

Are such terrorists accessible to practitioners in the Yin and Yang realm? To deal with him, at least it is necessary to come to the top of the leader-level powerhouse to fight!

"Brother, don't be impulsive!"

Nalanqing stretched out her hands to stop Fang Yue.

If this amethyst thunder fell, he must be crushed to pieces, dead and dead.

This time, even Luo Yan was shocked!

What kind of disciple did I find for Xiaoyao Pavilion? With this temperament, it is estimated that the house of the handyman disciple of Xiaoyao Pavilion can be destroyed.

Who gave him such a dangerous weapon.

Amethyst Thunder, if it is in the explosion center, even the Saint-level strong will be at risk of injury.

"Fang Yue, you put away the amethyst thunder and use the secret method I have just taught you to defeat this enemy of the Nalan family. If successful, I will give you another secret method!"

Luo Yan tried his best to make herself look amiable. The soft ones were afraid of hardship, the hard ones were afraid of horizontal, and the horizontal ones were afraid of death. This Fang Yue was a typical deathless.

This carries amethyst thunder at any time, what is the situation?

Chapter 994

Luo Yan felt that she needed to look at Xiao Yue, so that Fang Yue would not be impulsive, and she would have no bones left.

"no problem!"

Fang Yue put away Amethyst Thunder.

Nalanqing also squeezed a cold sweat.

Fortunately, this Fang Yue is good to persuade, otherwise, if this amethyst thunder goes down, the first city of this half-day road will be leveled!

"The purple lightning snake, the lightning snake transforms into a dragon!"

Fang Yue fights as he speaks.

Raising his hand is a bucket-thick silver python, this python is lifelike, winding through the void, winding towards the brown real dragon.

The brown real dragon is also annoyed, just a python, dare to be angry with it?

The brown real dragon spit out the real fire of Samadhi, trying to burn the python clean.

But the python's tail swept across, directly extinguishing the real fire of shamisen.

"This python already possesses a trace of real taste, condensing the virtual into reality, this is a basic condition for mastering the purple lightning thunder snake! This Fang Yue has a good understanding, and has barely realized the second level of the purple lightning thunder snake secret method! "

Luo Yan got up indifferently, out of the dust, standing aside, commenting on the progress of Fang Yue's secret technique.

To be honest, Luo Yan was surprised. Fang Yue's comprehension of the Purple Lightning Snake was almost unimaginable.

In just such a short time, he has actually realized the second layer of the purple lightning thunder snake secret technique.

Although it was just a first-time realization, it was already quite remarkable!

The Purple Lightning Snake, although it is a means of ruining the streets in the universe, but after breaking into the second floor, it is already a secret method that can be used on the table!

At least trap the enemy, kill the enemy, both functions are significant.

Some slightly more advanced secret spells, in terms of power, but that's all!

The electric python summoned by Fang Yue fought against the brown real dragon, and Nalanqing didn't mean to let Fang Yue go.

Soldiers against soldiers, generals against generals, this is interesting.

Relying on external forces is what a skill!

Seeing Na Lanqing approaching, a faint smile hung on Fang Yue's lips.

"Come on, single out!"

Fang Yue hooked his fingers, his eyes filled with provocation.

"Boy, don't regret it!"

Nalanqing still has considerable confidence in his own strength.

Without the assistance of external force, this Fang Yue is just fish on the chopping board.

Fang Yue rolled his eyes: "I think the person who regrets it should be you!"

Nalanqing did not wait to get close, but found that there were dozens of silver giant pythons that were exactly the same as before. These giant pythons were made of pure thunder and lightning, and they blocked all of Nalanqing's retreat. .

Nalanqing felt a bit of resentment: "What about singled out?"

Fang Yue said of course: "Yes, you singled out a group of them!"

With dozens of silver pythons, Nalanqing's little heart was about to burst out of her chest!

This silver giant python, each of its heads is comparable to the practitioners of the Yin-Yang realm. There are dozens of them all at once. Are you going to divide them and eat them?

Luo Yan was also slightly shocked.

This purple lightning snake has this kind of change?

Dozens of silver pythons teamed up to at least suppress the masters on the third and fourth layers of the Yin-Yang realm.

But after thinking about it, this matter is what Fang Yue can do.

This summons a thunder giant python, and most people run out of mana.

Is this Fang Yue boundless mana?

Dozens of Thunder Pythons were made in one go.

Nalanqing peeed directly.

This special mother was not beaten by humans!

"I surrender!"

Nalanqing was expressionless, he was almost tortured to death by Fang Yue, and the traces of dignity and arrogance finally collapsed completely under the siege of the silver python.

"Don't tell me! I have to perform the next trick!"

Fang Yue didn't let Nalanqing's plan go.

This guy doesn't have any special skills, and his cultivation level is also very average. He can't change the ransom, and he can't be a kid. Why do you keep this stuff?

Suddenly, dozens of silver pythons ascended into the sky, and the silver light intertwined, converging into one.

They merged into one, and finally turned into a Yinglong with a length of hundreds of feet.

According to legend, Ying Long can manipulate thunder and lightning and control the robbery cloud.

Now, according to the legend, Fang Yue has created a thunder-responding dragon, and the faint dragon's might has fallen.

The brown real dragon that the crutch turned into is also unattainable, curled up under the falling dragon might, and turned into a crutch again.

There was only despair in Nalanqing's eyes.

This Yinglong actually has the aura of the third layer of Yin-Yang realm!

He is beyond his power, and this is just Fang Yue's spell!

Ying Long skimmed the sky, passing over Nalanqing's head.

When the thunder light fell, Nalanqing should be robbed into ashes!

"Turning into a dragon, this is a change that does not exist in the Purple Thunder Snake!"

Luo Yan was suddenly silent.

She originally wanted to use Bi An Universe's magic and secret techniques to lure Fang Yue into the Bi An Universe.

However, this Fang Yue was so stunning that he not only comprehended the mystery of the purple lightning thunder snake, but also integrated his own experience and experience to evolve a new secret technique.

This thunder transforming dragon, in terms of power, is no weaker than the fourth level of the purple lightning snake!

Suddenly, Luo Yan's eyes became even hotter.

Such a genius must not be able to stay in the universe, otherwise, his future and life would be delayed!

"My lord, are you satisfied with my methods?"

Fang Yue looked at Luo Yan and showed that mean and flattering smile again.

However, looking at Fang Yue's smile, Luo Yan could no longer give birth to a trace of contempt.

"My promise, I will honor it naturally! The secret technique given to you before is the Purple Lightning Snake, which is one of the most common secret techniques in the universe of the other side, but the general technique cultivation is only the first level of cultivation. Only one floor! The purple lightning snake on the second layer and the third layer can still be comparable to some secret spells! The purple lightning snake on the fourth layer can already be comparable to the secrets of some small teachers! Successfully cultivate the tenth level of the Purple Lightning Thunder Snake, and even summon the ancient beast, the Purple Lightning Thunder God, to descend. Its mana is boundless, overwhelming the river and the sea, and even the strong of the Great Sage can't suppress it."

Luo Yan didn't bother to lie to Fang Yue, because in her identity, every word and deed would reflect in her heart.

Once duplicity, it is easy to give rise to demons. When it comes time to break through the realm, it is all danger, restriction and threshold!

It turned out to be a bad street method, easy to learn and difficult to accomplish, so it was so refreshing to teach me, but Luo Yan can't be blamed, if it was me, I would choose it like this.

In Fang Yue's heart, he had his own considerations in an instant, and he was able to understand Luo Yan's worries and anxiety!

"I can understand your feelings, but I still want to thank Master Luoyan. This purple lightning snake has inspired me a lot. The magic of the universe is closer to the essence of Taoism! Spells, spells, are originally for Taoism The simplified version of, although simple to use, has limited power. The greater the power, the closer to the Tao itself, and the higher the degree of obscurity!

Although the spells of this universe are extremely powerful, they are not suitable for novices who are novices. If the magic systems of the two universes can be merged together, it will be more complete and complementary! "

Fang Yue talked freely, exposing some of his ideas and small thoughts.

Luo Yan couldn't help but frowned slightly.

There is some truth to what Fang Yue said. In this short period of time, Fang Yue's thinking is so unreliable, he has considered so many things, and is more foresighted than her saint.

"What you said gave me a lot of inspiration. Originally, I was only going to teach you another secret method that has been widely spread in the universe. But since you can understand my mind and give me so many suggestions and inspirations, I can't be too stingy, it seems that the people in my Xiaoyao Pavilion are not kind enough to do things!"

Luo Yan raised his hand, and another beam of golden light fell into Fang Yue's sea of knowledge.

This time, this light evolved into a villain.

This villain continued to practice martial arts in Fang Yue's sea of knowledge, and directly injected a set of martial arts essence into his mind.

"This is the Purple Lightning Thunder Technique, a set of secret martial arts! In terms of level, it is one level higher than the Purple Lightning Thunder God. This Purple Lightning Thunder Skill is also a ten-level realm that corresponds to the Purple Lightning Thunder Snake!"

Fang Yue slowly digested this set of martial arts, pondering bit by bit.

Soon, he realized the essence of it, which was indeed the secret technique corresponding to the purple lightning thunder snake.

It can be said that the combination of the purple lightning thunder snake secret technique and the purple lightning thunder technique is a complete set of secret techniques.

Martial arts, martial arts, martial arts, and techniques are originally required to cooperate with practice to achieve great success. Only practice among them, the imbalance between yin and yang, but fell into the Hinayana state!

Fang Yue once again gave birth to the insight that the civilization of this universe is indeed extraordinary. The characters in it, comprehending yin and yang, and insight into the mystery, are better than the methods circulated in the ten thousand worlds, and they are a whole big level!

Fang Yue moved his muscles and bones a little, and immediately heard the sound of thunderous muscles and bones.

This is the unique characteristic of being born in the flesh in his youth.

With a slight movement of him, the thunder from the sky gathered.

"This is that the law of thunder, the purple lightning snake, the purple lightning technique, and the thunder in the body cooperate with each other to summon the vision of heaven and earth! This Fang Yue's basic attainments are so profound that even Thunder Avenue can understand it. Extremely deep level, and he is still a great physical training! The combination of four methods, this is more than a pure martial arts unity, and it is two more levels of wisdom!"

Luo Yan was shocked.

In fact, the unity of martial arts is not the orthodox practice method of the universe.

Being specific and precise, this is the common sense recognized by all universes.

If you want to practice martial arts concurrently, you need to consume too many resources and energy. This cultivator is always fighting for his fate. In normal times, where there is so much energy and time to make two methods Go hand in hand.

This combination of martial arts is only reflected in individual exercises, prepared for a few geniuses!

It was Luo Yan's whim to impart the Purple Lightning Snake and Purple Lightning Thunder skills to Fang Yue.

Unexpectedly, this Fang Yue was familiar with the analogy and studied more deeply. He actually integrated martial arts, spells, rules, physical training, and all, summoning the heaven and earth vision.

The secret technique derived in this way had already surpassed Luo Yan's cognitive scope, and she didn't know the secret technique level of Fang Yue's technique.

But Luo Yan is at least certain that the secret technique that Fang Yue has displayed is extremely high, even if it is placed in the universe, few people can match it!

But this method can only be envied, but no one can imitate it.

Chapter 995: Nalanlie

"Fang Yue, how dare you slaughter my Nalan family powerhouse! It's really tolerable or unbearable! You are hiding like a mouse, and now I found it, where do you go?"

A violent voice came.

Fang Yue looked up.

A middle-aged man from the Nalan family in the third smallest realm, dressed in a purple robe, rushed angrily.

He is Nalanqing's elder brother, Nalanlie. He was in retreat in the depths of the Nalan family just now, and suddenly became uneasy and awakened from his practice.

He deduced seriously, and finally discovered that his brother Nalanlie had died violently.

He couldn't help getting out of the gate in a rage, angrily, to find Fang Yue's trouble.

"The leader-level powerhouse turned out to be bullying and bullying, and it's here to bully the juniors from the early stage of the cycle! This Nalan family is really shameless!"

Luo Yan walked out, the smile on her face gradually reduced.

This day, the first city on the road was notoriously chaotic, but Luo Yan didn't expect it to be so chaotic!

Leader-level powerhouses, even if they are placed in the Universe, are all people with a head and a face.

Their status is quite high, they are generally self-reliant on their status, and will not attack people at a lower level.

However, this Nalanlie was so shameless, and he wanted to kill Fang Yue with the strength of the leader-level cultivation. At this time, if she didn't make any more moves, this Fang Yueke would really die in Nalanlie's hands.

Luo Yan knew that Fang Yue's talent was extremely strong, but he didn't think he could cross two or three big realms to fight against the leader-level powerhouse.

Nalanlie couldn't help but change slightly when he saw Luo Yan's face.

He didn't know Luo Yan, but he could feel Luo Yan's unfathomable breath.

He is a leader-level powerhouse, and is already regarded as a top powerhouse in the first city of Heavenly Road.

Even with the existence of the leader-level peak, he can clearly sense the level of the opponent's realm.

And the breath of this woman is obscure and secret, even he can't see the depth.

Nalanlie worked his brain for a while, and immediately knew that this woman was definitely a saint-level existence!

"Where are you sacred? Enter my first city on Tianlu without permission! The three major families in the first city on Tianlu once jointly established rules. All people who reach the realm of saints must register in the first city on Tianlu. You can only enter with permission!"

Nalanlie's voice was sonorous, extremely decisive and resolute!

Luo Yan smiled charmingly: "I want to enter the city, who can stop me!"

Nalanlie's heart stopped beating for a while, he turned his head and ran. He could already feel Luo Yan's vague murderous intent. If he still didn't know what was good or bad, he would continue to chase Fang Yue, in exchange for a fatal blow. He won't even have the opportunity to resist and dodge!

This Luo Yan is definitely a terrible woman!

There was a vague conclusion in Nalanlie's heart.

In front of life and death, there was no hesitation, no hesitation, Nalanlie fled quickly, and wanted to return to the family to seek reinforcements.

However, Nalanlie wanted to leave, but Fang Yue was unwilling to let him go.

"The Nalan family is known as one of the three major families in the First City of Heavenly Road. Do people in the family only have this courage?"

Fang Yue's voice was faint, but it spread thousands of miles.

The practitioners of the First City of Heavenly Road surrounded by destruction and guards all looked up and saw the light after Nalanlie escaped.

This is a leader-level powerhouse, upright, not half false, his mana is boundless, if he is really shot, at least it can suppress thousands of destroying guards in a flash, greatly reducing their pressure.

However, this strong man in the Nalan family actually only cares about himself, without the slightest intention to act. He is selfish, greedy, and only cares about himself, without any intentions or thoughts for the sake of others.

With Fang Yue's slight fanning, different thoughts rose in the hearts of those practitioners.

But Nalanlie snorted coldly, too lazy to talk to Fang Yue, and left straight away. In a blink of an eye, his figure was misty, leaving only a faint cloud of smoke.

"For the next thing, let Lord Luoyan fight for me! I have a personal grievance with the Nalan family, and we must fight for a life and death!"

Fang Yue held a fist to Luo Yan, he was ready to continue to retaliate against the Nalan family. If it were in a peaceful time, he would definitely not be the opponent of the Nalan family. He could only secretly use some tricks to make the Nalan family feel uncomfortable.

But the troubled times are coming, and there are crises everywhere. At this time, he can use a little conspiracy and tricks to make the Nalan family unable to eat!

Nalanlie's decisive departure made many people feel uncomfortable.

This Nalan family usually dominates in the first city of Heavenly Road, searching for the people and the people, and claims to be the guardian of the first city of Heavenly Road. Now that disaster is approaching, their Nalan family is the fastest one.

This Nalan family simply doesn't deserve to be a giant in the first city of Heaven, sitting on such a wealth of wealth!

It was when people were desperate in their hearts, thinking that they were doomed to escape under the siege of this destroying guard.

Suddenly, Fang Yue, as if a heavenly soldier descended, summoned a thunder python to sweep the universe, and a flick of his tail slapped two destroying guards to death.

The spirits of everyone were shocked, and their hearts were warm and warm.

Know the pines and cypresses in the cold.

Really come to the moment of life and death, only to know who is good and who is bad!

Fang Yue is one yard ahead, charging into battle.

Fighting at close quarters, he took the initiative to fight with the nearest destroyer guard.

The battle between the two sides was fierce, and you came and went for hundreds of rounds.

In the end, Fang Yue won with a slight advantage and once again beheaded a destroyer guard!

"The Nalan family doesn't give us a way to survive, we can only save ourselves! For everyone, I will give up my life for justice, desperately to kill these destruction guards, and pave a way for everyone to escape with blood!"

Fang Yue shouted vigorously, his blood boiled over.

Many practitioners have fiery eyes and finally found a glimmer of hope of survival.

This hope, of course, is not waiting for Fang Yue's passive rescue, but they unite and work hard to save themselves!

This way of practice, when you get rid of dependence, only yourself is the greatest dependence!

What are the three powers of the First City of Heavenly Road, what is the leader-level powerhouse of the Nalan family.

When it comes to the critical moment, when it comes to life and death, these people are all unreliable!

Everyone's vitality lies in their own hands, to save themselves, and to work hard!

In this short instant, Fang Yue's Thunder Python stalked another Destroyer Guard, but in the process of killing the Thunder Giant Python, the other Destroy Guard brandished the sword in his hand and took the Thunder Python's scales. Splitting, a hundred knives in a flash, scarred.

The Thunder Python was about to dissipate seriously.

But just before it died, it released the already dead Destruction Guard, and it slaughtered the Destruction Guard who swung a knife at him.

With a bang, he blew himself up and died, and the rich thunder filled all directions, blasting this destruction to life and death, and all!

The death of this Thunder Python was extremely tragic.

However, its magnificent military exploits are always remembered in people's hearts.

The moment the Thunder Python blew himself to death, everyone felt a tragic and desolate smell.

In the distance, a Tianlu Law Enforcer who had just arrived, Xu Jiuxiao, trembled even more.

This magical transformation represents the will of the master, and only when the master has this kind of mortal belief can such a thunderous creature be conceived.

"This son is brave and strong, I would rather bend than bend! I should be praised as a role model in the first city on this road, but these three families, all of which are preserving their strength and rest on their feet, this is a bit too much, you can consider it. Let the three major forces of the first city in this day's road change a group of people!"

Xu Jiuxiao saw the scene in front of him, and the actions of the Nalan family were in sharp contrast with Fang Yue!

Luo Yan next to him was dumbfounded, dumbfounded.

This Fang Yue's acting... is really superb.

If it weren't for the slight contact with Fang Yue just now, I'm afraid that even her would be fooled by Fang Yue's acting skills!

This Fang Yue is a little slippery in Luo Yan's heart, mysterious and powerful, which makes people wonder.

If it is said that Fang Yue is willing to give up his life, Luo Yan is the first to not believe it.

Moreover, the siege of these destruction guards would not force Fang Yue to the point of sacrificing his life.

Another destruction guard came, and the sword in his hand shone a bright light. The blade was sharp and chilled.

Raising it with a knife, it slashed towards Fang Yue's head!

Under the blade, there is the smell of killing.

Fang Yue seemed to be able to smell a strong blood rushing toward his face!

Hands up, the knife falls.

Fang Yue passed by with his dexterity. His clothes were torn, giving birth to a small hole, and Fang Yue didn't care. In his eyes, a crazy obsession burst out!

Fang Yue's palm strangled the Destruction Guard's throat, slightly harder, and with a click, the Destruction Guard's neck twisted through a strange arc, and he immediately disappeared.

But just as Fang Yue killed one of the destruction guards, behind him, two destruction guards came to culminate them. They all slashed with knives. Fang Yue avoided one, but did not avoid the other.

The clothes on Fang Yue's back instantly became ragged and turned into cloth strips.

A wound several inches long appeared on his back, with bones visible, red and white, especially dazzling!

However, Fang Yue was not timid, but turned around with a knife.

Fang Yue's knife light is hateful, and the knife light falls like a silver waterfall!

With a bang, the two destruction guards who attacked behind him were all shattered!

He tore off the cloth strips on his clothes, simply bandaged the wound, and once again rushed into the crowded destruction guard!

Seeing Fang Yue's brave, brave, daring to fight, and brave and fearless appearance, Xu Jiuxiao couldn't help but give birth to a strong expression of approval.

On Tianlu, if everyone had the same courage as Fang Yue, many branches of Tianlu would have been unified by the human race!

"Kill me!"

Fang Yue bandaged the wound and temporarily stopped the bleeding. He brandished his saber and slashed towards the destruction guards!

His sword is deadly and fierce!

After seeing Fang Yue, the destroyer guards seemed to have encountered a plague, and they all avoided it.

The soft ones are afraid of the hard, the hard ones are afraid of the horizontal, and the horizontal are also afraid of death!

Fang Yue shouted and screamed so desperately, even the destruction guards were born with fear and timidity.

The other people were also ignited by Fang Yue, all of them excited, as if they had beaten chicken blood, they joined forces to counterattack, unexpectedly temporarily defeated the destruction of the guards.

For these practitioners in the first city of Heavenly Road, the Rotating Realm is actually only the lowest level, and there are also Yin-Yang realms among them, and even the strong in the real realm secretly help!

## **Chapter 996: Narendra**

Originally, they were unwilling to publicize their moves, but seeing that Fang Yue's cultivation was so shallow, they were willing to sacrifice themselves for everyone. Their cultivation was so high that they could not shrink back. Therefore, they also did their best to kill and destroy the guards. Everyone has a \*\*\*\* road!

Gradually, the cultivators around Fang Yue formed a counterattack lineup, from loose to concentrated, from fighting individually to fighting together!

In just a moment, Fang Yue gathered around seventy or eighty practitioners. These practitioners have varying levels of cultivation, but their common characteristics are extremely strong, fearless and fearless, even in the face of destruction. , They all dare to fight!

Just when they saw a glimmer of hope.

In the distance, a piece of colorful cloud flew, and above the colorful cloud, was led by an elder in charge of the Nalan family at the pinnacle level of the leader, followed by eight powerful Nalan family members at other levels. In addition, there are dozens of powerful men in the Yin-Yang realm, cheering for the elders in the clan.

"This is the sixth elder of the Nalan family, Nalan Kuang! He is almost on the verge of reaching the level of the Saint Realm! Some people say that he was a powerful man who fought against the Saint Realm ten years ago, although he had hundreds of moves He was finally defeated, but he retreated completely without any injuries."

Someone was surprised to see the figure of Nalan Kuang.

The sixth elder of the Nalan family has been behind closed doors in recent years, and has been dedicated to breaking through to the level of a saint.

His sudden arrival shocked people.

"Fang Yue, do you know the crime?"

Nalan was madly condescending, looking at Fang Yue, her tone of voice was filled with an air of arrogance.

He has been in a high position for many years, and he has already left a terrible name in the first city of Tianlu. His name is shouted, and even the newborn baby will be scared to stop crying!

"What a crime for me!"

Fang Yue looked at Nalan Kuang stubbornly, his voice stubbornly determined.

He is completely confronted with the Nalan family!

Nalan let out a mad cold cry: "You dare to rebel against the will of my Nalan family is a great sin, and the sin deserves death!"

Nalan Kuang was simply looking for nothing, and didn't put Fang Yue in his eyes from beginning to end.

"Six elders, there is a mysterious woman guarding Fang Yue. This woman is suspected to be a master of the Saint Realm! You must be careful when dealing with Fang Yue. Without the help of this woman, Fang Yue would definitely not be so arrogant!"

Nalanlie walked to the side of Nalan Kuang, whispered and whispered.

"Mysterious woman? A strong saint? Huh, when you arrive at the first city of Tianlu, even if it is a dragon, you have to hold it! The Nalan family has ruled the first city of Tianlu for so many years, ups and downs, has always stood firm, this My Nalan family has also killed a lot of powerful people in the saint realm! If this person does not appear, it will be fine. If it does, the saint and great saint of my Nalan family will immediately take action and refine her into a puppet. Serve my Nalan family!"

Nalan Kuang is indeed as the name suggests, so arrogant. He doesn't even look at the powerhouses of the Saint Realm. He only feels that in this first city on the road, their Nalan family is the best in the world!

"The Nalan family is really arrogant! Even the strong of the Saint Realm are not in the eyes! However, I don't know what I am guilty of. Is it because I call on the heroes to resist the invasion of biological weapons in the universe? The Lan family did not resist by themselves, defending the safety of the first city of Heavenly Road, but when I came to resist, did I commit a heinous crime?"

Fang Yue directly poured a basin of dirty water on Nalan Kuang's body.

And Nalan Kuang simply didn't bother to argue.

"My Nalan family wants you to die, you have to die! It's just an ant, killing you, where do you need so many reasons!"

Nalan Kuang's finger fell, unexpectedly wanting a finger to crush Fang Yue.

This is an extremely humiliating way to die!

The dead are like mayflies and ants, which are extremely worthless.

Just as the finger was about to fall, a burst of shout suddenly came.

"The Nalan family is really arrogant, do you think that this heavenly road is your genius, and you don't even have a little bit of king law?"

Xu Jiuxiao finally made a move, and one of his holy breaths fell, which was to suppress Nalan Kuang and the others.

Xu Jiuxiao, who has been in the realm of saints for hundreds of years, has sophisticated methods and profound skills. Even some old saints are not his opponents.

And Nalan Kuang also giggled under Xu Jiuxiao's suppression, unable to speak.

This justice is right and wrong, and it's free.

Xu Jiuxiao has been observing for a long time since just now.

He could clearly see that this Fang Yue was sincerely dealing with the biological weapons of the universe to help everyone escape.

And this Nalan family member, inquiring about sins, and deliberately unpredictable, not only does not deal with the biological weapons of the Bian universe, but also fights inwardly, wanting to kill Fang Yue and heroic heroes against the Bian universe. The superiority is right or wrong. Judgment can be seen, there is no need to continue to inquire.

Nalan Kuang was suppressed by Xu Jiuxiao's thought and was not convinced. He shouted loudly: "Where are you, dare to prevent my Nalan family from executing the family law! Don't think you are a strong saint, but my Nalan family knows The same makes you unable to survive or die, and finally retain a strand of your true essence, refine it into a puppet, obey the drive of my Nalan family, and become the most humble servant!"

Nalan Kuang was actually threatening Xu Jiuxiao.

He himself is no match for the strong of the Saint Realm, but it does not mean that the strong of the Nalan family behind him can't do anything about the Saint!

Xu Jiuxiao couldn't help feeling slightly angry when he heard the words.

This Nalan family member is really spoiled, so he doesn't know what is good or bad, what kind of Nalan is he, dare to threaten himself?

Xu Jiuxiao snorted coldly: "I am the human law enforcer on this heavenly road—Xu Jiuxiao, why your Nalan family wants to betray the heavenly road, and you want me to become a puppet, immortal, and become the best of your Nalan family. Humble servant?"

Xu Jiuxiao revealed his identity.

Nalan Kuang's eyes widened immediately, his throat creaked and he could not speak.

As the sixth elder of the Nalan family, Nalan Kuang naturally knew what the identity of the law enforcer meant.

The law enforcers are the real masters of this heavenly road. They are masters like clouds and enforce the law. Every law enforcer has as many methods as possible, far superior to practitioners of the same level!

Nalan Kuang didn't expect that Fang Yue would be appreciated and trusted by law enforcement officials.

It would be impossible to kill Fang Yue in front of an enforcer.

As soon as Nalan Kuang's eyes rolled, his expression immediately became humble: "Junior Nalan family Nalan Kuang, see Lord Law Enforcer, may Lord Law Enforcer have boundless mana and longevity!"

As the saying goes, reach out and don't hit smiley people.

Nalan Kuang's attitude became humble, and Xu Jiuxiao had no reason to continue targeting him.

Although Xu Jiuxiao is a law enforcer and a master of the Saint Realm, Nalan Kuang is also a potential stock that can step into the Saint Realm just one step away.

Once Nalan Kuang stepped into the Saint Realm level, he would ascend to the sky in one step and become the pillar of the human race in the sky. Even if his status is lofty, he is only slightly worse than him.

"Nalan Kuang, just now you were disrespectful to me, I can forgive you temporarily! After all, you are the mainstay of the human race in the future, I can't punish you! However, this Fang Yue just killed the enemy bravely, powerful, and faintly it has become the benchmark for rebelling against the Universe in the first city on this road. If you kill him, it will be chilling! Therefore, I hope that the Nalan family will not embarrass him. How about the previous grievances?"

Xu Jiuxiao stood up and wanted to be a peacemaker.

He feels that his identity and strength are sufficient!

In Nalan's wild eyes, his expression was uncertain. On the one hand, he did not want to spare Fang Yue, on the other hand, he did not dare to offend Xu Jiuxiao.

Xu Jiuxiao itself is not terrible, there are many saints and great saints in the Nalan family who are more powerful than Xu Jiuxiao.

However, behind this Xu Jiuxiao represented the law enforcers of the sky road, who offended the law enforcement officers of the sky road, their entire Nalan family could not bear it.

"Okay, I just agreed to Master Xu Jiuxiao's request, and let Fang Yue's life be spared for the time being. When this calamity is over, the grievances between our Nalan family and Fang Yue can be settled again!" Nalan Kuang gave Xu temporarily. Jiuxiao has a lot of face, but he said that he is just not worrying about it for the time being, and when the calamity is over, the fight is still the same.

In this way, the face of the Nalan family was preserved, while giving Xu Jiuxiao face.

"Oh, when is this retaliation! Everyone is the elite of my human race. In the future of Heavenly Road, why bother to fight for life and death, and let people from other races read the joke?"

Xu Jiuxiao still wanted to hope that Fang Yue and the Nalan family could turn their fights into jade silk.

However, Nalan Kuang just shuddered without a smile, and then stopped talking.

He has already made the biggest concession on behalf of the Nalan family. If he makes any more concessions, what will his Nalan face be like?

There was also deep disappointment in Fang Yue's eyes. He originally thought he had acted, and the law enforcers on this day's road would completely stand by his side.

Unexpectedly, this law enforcer was still a little unsteady, afraid of wolves before and tigers, and did not dare to completely offend the Nalan family!

However, Fang Yue didn't care, he didn't expect to rely on the law enforcement officers to hinder the Nalan family.

He just wanted to use this opportunity to disgust the Nalan family and make the Nalan family infamous, paving the way for the future destruction of the Nalan family.

The Nalan family is known as one of the three giants in the first city of Tianlu. They have deep roots. It is impossible to deal with them overnight. As the saying goes, the embankment of a thousand miles collapsed in the ant nest, and a series of plans came down. He wanted to accept The Lan family fell apart, and even if the virtual fairy descended, the Nalan family's defeat could not be restored!

"Since Elder Nine Heavens has forgiven Nalan Kuang, I will continue to kill the enemy! The destruction guards of this universe invaded, resulting in the destruction of the first city on this heavenly road. These destructive guards can absorb the aura of destruction and strengthen themselves. , Keep getting promoted, keep getting stronger! If one or two leader-level or even saint-level destruction guards are really born, it will be really troublesome!"

Xu Jiuxiao's dissuasion failed, and Fang Yue was still a hero and courageous, fighting the enemy courageously. Among them, the high quality was that he had judgment again.

Even the people who followed Fang Yue to kill the enemy had a slight criticism in their hearts.

### **Chapter 997: All mouths are gold**

There is a vague guilt in Xu Jiuxiao's heart, but as a law enforcement officer, he must take the overall situation into consideration and consider it in a balanced manner.

Fang Yue plunged into the boundless crowd again, overcoming obstacles, his blood boiled.

And Nalan Kuang just glanced at Fang Yue coldly: "If there is nothing serious about Master Jiuxiao, I will retire temporarily!"

Nalan Kuang led everyone from the Nalan family away on the colorful clouds, and disappeared into the sky, and in a blink of an eye it was invisible.

"The Nalan family is too hateful. They are obviously carrying heavy weapons but they are not willing to contribute half of their efforts to protect the first city of Heavenly Road! Why do these three families keep? They are the biggest moths in the first city of Heavenly Road. !"

Someone said with anger and anger.

These little people are still fighting for the preservation of the first city in the sky, but the aloof Nalan family only knows that they can't stay behind closed doors, blindly fighting inside to establish prostitution!

Their bad conduct is disgusting.

These angers are temporarily powerless. But one day, the power of this resentment will completely erupt, and the Nalan family will be completely overthrown, becoming the eternal past in the first city of the sky!

Fang Yue slaughtered for an hour before he gradually stopped.

There are hundreds of dead souls under his sword to destroy the guard!

However, more destruction guards died under the supernatural power of his life stripping!

In order to avoid making other people doubtful, Fang Yue used the supernatural powers of his life stripping with extreme caution. After each life stripping, the remaining skin and bones all turned into a pile of ashes and grace, disappearing.

Fang Yue was growing up while killing the enemy, and he gained the most in this calamity!

Although in order to keep a low profile, Fang Yue has reduced his momentum. But the destruction guards he died in his hands absolutely exceeded thousands, even as many as tens of thousands.

These will be recorded on Fang Yue's merit card.

The first city on the road on this day offered a reward as soon as the Destruction Guard arrived. The reward for every Destruction Guard after killing was ten times that of a practitioner of the same level!

Around Fang Yue's waist, the numbers on the merit card kept rolling, terribly high!

"Fang Yue, don't be reckless, everything is enough, don't be the first bird!"

A sound transmission came from a very remote place, and Fang Yue was stunned when he heard it.

"Master?!"

This turned out to be the voice of Ruyizi.

"I have evolved a clone to come, although it is only the peak of a saint, but it will guard you in the dark, and bless you in the first city of Heavenly Road safe and sound!"

The voice was approaching, and it was already in front of my eyes.

Fang Yue saw that a dull-looking middle-aged man appeared in front of him wearing a hat and hat. His vitality was not obvious and his strength was secret.

But he is definitely a great master, whose pure mystery is even more than that of Luo Yan.

Fang Yue knew that this was a puppet clone created temporarily by Ruyizi. The original owner of this body was supposed to be a great saint, but his will and soul were stripped and destroyed by Ruyizi. Only one body was left. God enters the Lord, like a puppet manipulation.

"Master, why are you here!"

When Fang Yue saw Ruyizi's clone coming, he was both delighted and surprised.

Ruyizi smiled and said: "If I don't come, you may not be able to overcome this difficulty! Everyone has underestimated the difficulty of this catastrophe! It involves the life and death of several virtual

immortals! Not only is it true? My incarnation is here, and there are five or six other old antiques in the virtual fairyland. All of them are sent to the virtual fairyland level. If it is a critical moment, even our deity will come at the same time!"

Ruyizi's words made Fang Yue drink like a head.

He far underestimated the danger of this time. Even the strongest of the virtual fairyland had to participate in the war. More than one or two came. Could it be that this time the Universe and the Ten Thousand Worlds Universe are preparing for a full-scale war?

"Fang Yue's incident has a great impact this time. Don't ask if you shouldn't ask! The mystery of the road to heaven is something you can't understand and understand right now. Even at my age, you still understand it. Who built the road!"

Under Ruyizi's thought, she became a world of her own, isolated from surrounding detection and influence, and devoted herself to dialogue with Fang Yue.

Fang Yue was also humble and taught, listening to Ruyizi's words.

"It's not for the teacher. This time you came to Tianlu, and you dare to be presumptuous when you reach the Tianlu city. You are really too courageous! This Tianlu is the hope of the human race. Every city on Tianlu has It is a gathering of masters, whose strength is unfathomable. With your ability, in some of the more ordinary worlds among the ten thousand realms, it is okay to be strong, but when you get to the sky, you can't help yourself. A little bit of anger to some masters may even I don't even know how I died!"

Ruyizi's expression is majestic, admonishing students.

Fang Yue is his student, and he is Fang Yue's teacher.

One day as a teacher and a lifelong father, Ruyizi loves Fang Yue just like his own son.

He also has the responsibility and obligation to correct Fang Yue's mistakes!

Fang Yue listened carefully, without showing any impatient look, because every word of Ruyizi's teaching was out of his care and love.

"However, your cultivation base is very advanced, your foundation is extremely solid, and your true energy is extremely strong. You are steady and steady, and you are promoted to the level of the rotation realm. You can really be regarded as the number one person among the practitioners! You know! , Why is this cycle state called the cycle state? And why are the masters in the cycle state called a legend?"

Ruyizi also praised after criticism. In fact, no matter who it is, Fang Yue will cherish such a good student, and he will be happy in his heart.

"The disciple doesn't know!"

Fang Yue was humbled and trained. This Ruyizi explained everything he couldn't see in any ancient books, because it represented Ruyizi's life experience and also told Fang Yue what detours would be on the road to practice.

"In this world, no matter how strong it is, it is still at the level of understanding the world and operating mana. This represents only the entrance to the room at the cultivation level, and there is still a big gap between having one's own understanding of heaven and earth. When it comes to the reincarnation state, it is necessary to have its own understanding of the way of heaven and life. Reincarnation is reincarnation, once reincarnation once arises and passes away! Every practitioner in the reincarnation state needs to undergo nine transformations to reach the peak of the realm.

These nine transformations do not refer to the transformation of pure body and power, but also the transformation of soul, the transformation of understanding of the way of life! These nine transformations are all chances and opportunities. Some people can't grasp it and are mediocre. Following the path of the predecessors and the practice of trying to find out, nine times of transformation, each time the progress is not big, and finally they step into the level of the Yin-Yang realm, that is, the force is average, the strength is average, and they are reduced. Everyone! And some people, originally mediocre, but with the help of nine transformations in the rotation realm, step by step to the sky, evolving into immortals, in an instant, they are stunning forever and become super giants in the world! "

Ruyizi is eloquent, introducing the difference between the rotation state and other states.

In the path of practice, each level of the great realm has its key points.

The key to grasping this great realm is to be able to take advantage of the opportunity without losing the opportunity.

Although this is not the teaching of any exercises or secret techniques, the experience and teachings on the path of practice are more precious than the fairy scriptures!

Fang Yue widened his eyes and listened carefully, lest he miss the explanation of Ruyizi's exercises.

"In fact, there are four ways to spend this cycle. The easiest way to spend is to follow the practice of the cycle left by the predecessors and practice step by step. Each level of realm also has a transformation and has the opportunity to be reborn. It's just this way, because it's not original, it's the perception of others. Later, people just pick up people's teeth, so the level of perception is not deep enough, and the benefits obtained are not even one-tenth of the pioneer! However, this kind of passing through the cycle. The cultivators account for about nine tenths of all people. After all, this kind of path is the most secure. If there are scriptures created by the real powerhouses above the Great Sage level and step by step, the benefits may not be more than self-feeling. There are too many people looking for a breakthrough!"

Fang Yue nodded after hearing this.

This self-made exercise is actually ten thousand times more difficult than trying to figure it out.

And the degree of danger on both sides is completely different!

Creating your own exercises is equivalent to walking a high-altitude tightrope. If you don't pay attention, you will fall into the abyss and be broken to pieces. Even if others want to save you, they will not be able to save you.

According to the picture, although mediocre, but stable, as long as the emotional fluctuations are not too violent, there is generally no danger of getting into madness, which is equivalent to walking on the broad road, bustling, and it is easy to reach the level of Yin and Yang in the end.

"This first way of passing through the rotation realm is also different. This secret code is different, and the harvest of the rotation realm is different. The secret code of the great energy level has the worst effect, and each level of transformation can only be said It's a small gain, and I can't even talk about transformation. The master's secrets are slightly stronger, slightly transformed, and reduced to mediocrity! The sage-level secrets are the most widely circulated in the rotation realm. They are generally a certain school. Only by joining them can you read the classics and comprehend the saint's admonitions! The saint's secret canon, once transformed, may increase your strength by 50% or even double! Of course, this Every time it changes, the consumption of various cultivation resources is constantly increasing! The secret tones of the Great Sage level can be met, and all the Great Sages are qualified to create their own secret tones at the level of the rotation realm!"

Ruyizi's eyes narrowed, and she paused for a while.

He seemed to be reminiscing about his teenage years: "Actually, when I was in the cycle of life, I took the path of my own creation. The cycle of my own creation, Ruyi Nine Turns, was just established. It caused a vision of the heavens and the earth, the vitality was chaotic, the sky with a radius of eight hundred miles, the sun and the moon appeared at the same time, the stars and all the phenomena, that was only a saint-level rotation realm method. But at that time, I was already invincible in the rotation realm. Every time I transform, my strength increases tenfold! Nine times of rotation, step by step, when I reach the peak of the rotation state, even the new masters in the saint state are not my opponents, and I suppress it!"

Ruyizi recalled a little bit, which shocked Fang Yue.

One transformation, ten times the strength, nine transformations, then can't catch the stars and catch the moon and surrender the gods and demons?

### **Chapter 998: Self-made exercises**

Seeing Fang Yue's shocked expression, Ruyizi was very satisfied, "Yes, this is the advantage of self-created exercises. Although it is dangerous, the temptation is huge. Once it succeeds, it will be ten times better. The method is to create your own practice, based on your own foundation and your own insights, to create your own secret method of rotation realm. Such a secret method fits you best, and the effect is still the best!"

After Ruyizi finished speaking, she fell silent, and a look of hesitation and hesitation flashed in his eyes.

"You are my disciple, and I don't think you should be harmed. However, I think I still have to mention something to you for the following two kinds of rotation methods to pass through!"

Ruyizi spoke slowly.

Fang Yue felt that the origins of these two methods were probably extraordinary.

Otherwise, it is impossible to be born with such a hesitating posture, if it is as powerful as Ruyizi.

"Teacher, please speak!"

Fang Yue respectfully let Ruyizi teach his experience.

Ruyizi sighed slightly, and then said: "These two methods of passing through the cycle are actually a taboo. The third method of passing through the cycle is the Nine-turns cycle! This cycle, It is not a metaphorical reincarnation, but a true reincarnation. In the early stage of the reincarnation state, nine bodies are collected. These nine bodies must be gifted. The super bloodlines are at the same time at the level of the reincarnation state. It means to fuse one body. When all nine bodies fuse, it is equivalent to one person having ten bodies and ten talents! The Yin-Yang realm powerhouse created in this way can already be called a monster, but the integration process fails. The chance of being is very great. Since ancient times, only three or five people can really do it! This way of passing through the cycle has a dry nature, and the teacher does not approve it! As far as you are concerned, it is just to let you Learn a little bit!"

Although Ruyizi is just a simple dictation, Fang Yue can hear it, and the words are like thunder, blowing in his ears!

Such a method is simply unpredictable.

Ten bodies, ten talents, even if none of them are top-notch, they are enough to crush all the arrogances!

However, Fang Yue didn't need to consider this method of fusion of the rotation realm. He himself was a 10,000-bite demon. Although he used very few times, he still had the ability to fuse all powerful bloodlines!

This kind of method of passing through the rotation realm is dangerous, and there is a limit on the number of fusions, and his Ten Thousand Devourers, how much blood is swallowed, and how many talents are fused are all right.

Seeing that Fang Yue hadn't been tempted by the third method, on the contrary, there was a faint smell of scorn.

Ruyizi could not help but nodded slightly, thinking that Fang Yue was on the right path. "This fourth method of breakthrough in the cycle of rotation is to comprehend the nine deaths and nine lives. The nine deaths and nine lives are a special method. It was researched by a prehistoric prince, Lin Tianque. Nine deaths and nine lives, nine transformations, each Once at a critical moment of transformation, the Heavenly Tribulation will be triggered. This Heavenly Tribulation is not a simple thunder and Heavenly Tribulation, but a supreme calamity formed by the fusion of Heaven and Earth! Calamity, and Tiangang is the saint realm, which is the calamity that the Heaven-Through Realm powerhouse needs to face. The combination of these two kinds of calamity is more powerful, even if it is an ordinary leader, the saint-level powerhouse has no courage to face it. But the nine births and nine deaths, through the heavens and the earth, have an incredible effect on the tempering of the soul, the body, and the true energy! This is equivalent to experiencing the calamity that the strong of the heavens and the thorough land

must go through in advance. Once the nine lives and nine deaths are all successful, You will be able to cultivate into the strongest body in this cycle."

Ruyizi's eyes are shining, and the flames are already burning in his heart. He is very eager for the strongest body in that cycle. Although he did not do this when he was young, he hopes that the strongest body is there. Realized in Fang Yue's body.

However, Fang Yue was not that easy to fool.

If this strongest wheel turned around was really so easy to cultivate successfully, this Ruyizi wouldn't hesitate so much before speaking to him.

"Is this the strongest revolving body dangerous to practice?"

Fang Yue looked at Ruyizi, his eyes burning.

"Danger... Only two people have completed it since ancient times!"

Ruyizi did not evade.

This is destined to be a path of no return, if the choice is the strongest.

Will bear the corresponding price.

If Fang Yue couldn't bear it and flinched, he would have nothing to say.

"Are two people cultivated?"

Fang Yue was a little surprised, he thought that no one can cultivate it since ancient times!

"These two people, one is the founder Lin Tianque, and his ultimate achievement stopped at the half-step Tianzun! It is said that his foundation is too solid and there is no breakthrough. In the universe of ten thousand worlds, he cannot break through the Tianzun, so he broke. Open the void and move away from other universes, and no more news! The other one is the Yin-Yang Tianzun! He has achieved the strongest revolving body, and once killed the saint with the third level of revolving realm! Both of them are The top existence in the universe is a legend and a monument of immortality!

Fang Yue, if you choose this method of nine deaths and nine lives, you must carefully consider it! "

Ruyizi finally came to regret, he shouldn't have said this patriarchal school.

This patriarchal school is too dangerous, and a little carelessness will lead to death.

If Fang Yue created a method, he could also create a method at least at the master level or above.

He can walk more steadily at the rotation level, and he can also be invincible in the world!

"I will choose the method of nine deaths and nine lives! Moreover, I have to cooperate with the method of creating a cycle of rotation!"

Fang Yue was expressionless, but he was not trying to die.

But he felt that if he only faced the evil spirits of heaven and earth, there was nothing terrifying.

He crossed the catastrophe, already numb.

From the level of the innate realm, he was struck by thunder from the sky. With his resistance to the heavens, coupled with the strength of his body and soul, he should almost be able to withstand the calamity of the saint level.

What's more, he still has the means of cheating.

Able to stop the catastrophe at any time.

If you can't do it, there is still room for buffer, so you can do it slowly.

If the method of nine deaths and nine lives is simply created for him.

Once successful, there will be a qualitative leap in true qi, body, and soul!

As for his own method, Fang Yue had already planned.

It is not that he is arrogant and thinks that he can surpass the predecessors, but that his true energy is life, death, and soul as the core, integrating many heavens and many great ways of reincarnation. No exercise can be completely suitable for him.

He has embarked on a path that no one has ever walked before, and there is no more footprints to learn from!

He must create his own exercises to have a way forward.

Therefore, Fang Yue chose to combine his own practice with the method of nine deaths and nine lives to break through from the rotation realm to the level of Yin Yang realm!

"Okay, okay, okay! Sure enough, you are the disciple of my wishful son. You have such ambitions, of course I support it! The method of nine deaths and nine lives was originally only available in the heavens, but I have recently gotten the chance to get it back then. The only thing left by Lin Tianque!

I keep this isolated copy that has no value except for collection, and I will teach you this method! Let you learn from and find your own way of invincibility! "

Ruyizi yelled in excitement, his palm moved, and the void immediately shattered, and a square and golden book fell down.

Fang Yue took this little book, and the hundreds of millions of words in it immediately flew out. Each word can suppress the void and form an independent world and even a universe!

"This alone was written by Lin Tianque at the level of the Saint Realm, so that his method inheritance would not be cut off! However, Lin Tianque's vision has always been extremely high. To get his inheritance, he must have great magical powers. , Great means, great perseverance, these words can only be subdued!"

Ruyizi looked at Fang Yue, but did not help.

This is the test left by Lin Tianque that outsiders cannot crack.

If Fang Yue cannot pass the test, it proves that the method of nine deaths and nine lives has no fate with him, and if Fang Yue can pass the test, the test itself is another layer of tempering, and it is a good thing for Fang Yue!

Fang Yue breathed deeply.

A muddy breath came out lightly.

This stale breath was filled, and it turned into a small world.

All the words are shrouded in it, it is difficult to escape.

"One thought becomes the world! Obedient, it's incredible, my disciple's cultivation level is unpredictable, and he has realized the point where one thought becomes the world for the space and heaven!"

As a master of the virtual fairyland, Ruyizi showed an expression of shock.

One thought becomes the world, which already belongs to the scope of great supernatural powers, beyond ordinary supernatural powers, claiming to be able to seal everything, block everything, and create everything!

Of course, Fang Yue's thought of becoming the world is still naive, but even if it is naive, it is comparable to a saint's method, and it is incredible to display it at the level of rotation.

In the world, all words are constrained, but those words are not reconciled. Every twisty stroke has actually formed a series of dragons and insects. They each give birth to thinking wisdom, know how to practice, understand spells, and have to break free from bondage. Suppress and break away.

These strokes collided with Fang Yue's world, and every blow was extremely heavy.

In a blink of an eye, the world that Fang Yue had shaped was shaken by the impact.

But Fang Yue was not worried, but between raising his hand, a rune the size of a snowflake fell into the world.

These runes are composed of gray-white air currents, in which the breath of life, death, and soul flows.

This is Fang Yue's reincarnation true energy, the true energy of others is airflow, and his true energy has formed runes, representing the rules of heaven and earth, and the supreme will!

These samsara really fall into the world, and the rule structure of this world is immediately complete, with the samsara of life and death, and space and time. It's like a real world.

"This is the power of reincarnation, ghosts and gods are unpredictable. I have gone through many lives and deaths, but I haven't realized the true meaning of this power. I have merged life and death. I didn't expect this disciple to realize it in advance!"

Ruyizi was even more shocked, his eyes were about to fall out!

The power of reincarnation is a legend in all realms.

In each era, only a few people can comprehend its outline.

Since ancient times, few people have been able to describe its full picture, but only the outline, or the incomplete version, is enough to suppress one era after another and make those people the strongest voice of their era.

### **Chapter 999: Cheats**

The world is stable and reincarnation is orderly, and the dragons and snakes that have evolved from the strokes of words cannot break through.

They are like birds locked in cages, longing for the sky and eager to fly. However, the cage is extremely strong and destined to become the whole of their future world!

After a few breaths, those words were desperate.

In the end, he returned to the thin books again, and he couldn't make any tricks anymore.

The secret book of nine deaths and nine lives finally returned and fell into Fang Yue's hands, which was regarded as a recognition of his master's identity.

Fang Yue smiled, observing with divine thoughts, but his smile quickly stiffened, replaced by a solemn face.

This Lin Tianque Gong participated in good fortune, even when he was at the rotation realm level, he had already realized an unfathomable understanding of the way of heaven.

This secret technique is very thin, but the content of the text is covered in many aspects, astronomy, geography and astrology are all-encompassing, and even daily life and diet are described in detail.

Although these are all supplements, and even have nothing to do with the nine deaths and nine lives, the long-term assistance to practitioners is beyond imagination.

For example, it describes that as long as the person who practices, the length of the breath can be in harmony with the rhythm, the long breath and short breath, alternate alternates, can make the heaven and the earth sing.

This is the way to resonate the world with breath.

Although the description was vague, it opened a new path for Fang Yue to practice.

There is also a combination of diet, which needs to cater to the four seasons. Although this path of cultivation is against the heavens and becoming an immortal, health preservation and breathing need to be in harmony with the Tao.

Fang Yue originally thought that his cultivation base was shocking, and he was a rival in the same rank, even if he fell into the long history, he should be the top existence in the rotation realm.

However, when he saw this cheat book, Fang Yue knew that he was wrong.

This practice is only part of good luck, and there are many other learnings in it, which he needs to learn and study!

Only when everything is well understood can one be regarded as a true master.

Blindly pursuing power and ignoring the others, instead of failing to succeed, it is tantamount to giving up the entire ocean because of a drop of water!

The shock on Fang Yue's face gradually faded, replaced by an expression of enjoyment and piousness.

This Lin Tianque is equivalent to a famous teacher. Although the years are separated by hundreds of millions of years, he uses a thin secret book to draw the cause and effect of the two.

He seemed to be at the other end of the long river of years, carefully pointing Fang Yue. Lead him into a wider path of spiritual practice.

And Ruyizi smiled, watching Fang Yue's changes.

Handing this cheat book to Fang Yue, his heart also has the idea of letting Fang Yue broaden his knowledge and relax his mind!

This practice is a lot of demons, blindly pursuing strength, and it is most likely to fall into obsession, especially young people, who have short-sightedness and insufficient years of accumulation. This is a disadvantage that no one can make up for them!

Only by studying diligently and asking questions and traveling through the mountains and rivers of the world can we have a broader vision and achieve truly majestic brilliance.

It took a full moment for Fang Yue to realize that this was in the first city of Heavenly Road. Although Ruyizi had hidden their figures with secret methods, they could not be detected. However, the long-term disappearance would definitely cause The doubts of some interested people.

Fang Yue gradually withdrew from the silence of the ancient books.

He respectfully received it, as if he had treated another teacher and a close friend of himself!

"Fang Yue, since you have made a decision in your mind about the path of cultivation in this round of transition, it is inconvenient to intervene as a teacher again! I only hope that you can overcome all the thorns and finally achieve the result you want! This time, The catastrophe of the sky is destined. I have been preparing for decades. If your life is in danger, I can immediately appear by your side to protect you from the wind and rain!"

Ruyizi looked at Fang Yue's gaze, as if a strict and loving father was looking at his son.

Fang Yue's heart was warm and nodded slightly.

The next moment, Ruyizi's figure disappeared into the vast crowd.

The secret method covering Fang Yue was also lifted.

"Boy, die!"

The secret method has just dissipated.

A Destroyed Guard is swiping a long knife in his hand.

This destruction guard has actually absorbed the many destruction and killing auras in the city and successfully advanced to the first level of the Yin Yang realm.

Its sword technique seems to increase naturally as the realm increases.

A knife was cut out, and behind the destroyer guard, there was a figure of a sword demon. His face was serious, and between his breath, there was a feeling of swallowing the sun and the moon!

The knife is no longer a knife, but a rule to destroy the world!

It is no longer anywhere, and it is irresistible!

If it were to be said, this destruction guard can only be regarded as a half-step sword master at the peak of the rotation realm, and the moment they reach the Yin-Yang realm, they have completely entered the other half step into the sword master. Among the ranks!

The heavy pressure caused Fang Yue to feel a slight suffocation.

With such strength, how can ordinary Yin-Yang realm powerhouses resist!

"The transformation of this destruction guard is so terrible! As the realm rises, the sword technique and the law have all raised a big step!"

Fang Yue's expression was slightly cold, no wonder this destruction guard was a biological weapon that even Luo Yan and other strong men would change color.

This is definitely a big killer. The longer the delay, the more destruction guards will be transformed, and the stronger the killing and destruction encountered by the first city on this day's road!

"Life stripped!"

Fang Yue's finger imaginarily touched the eyebrows of the guard.

The body of the Destroyer Guard trembled slightly, and the vitality in the body was boiling.

However, after the Destruction Guard reached the Yin-Yang realm, it seemed that he had completely mastered the essence of supporting Yin and Yang, and the world was like one.

Fang Yue didn't even draw a trace of life essence from the body of the Destruction Guard!

"What a terrible Destruction Guard!"

The shock in Fang Yue's eyes couldn't help being stronger.

His realm is slightly lower. For the strong of Yin-Yang realm, the effect of his life stripping will indeed be greatly reduced, but even if it is weakened, it is not without effect.

It's just that the time to strip the essence of life in the opponent's body will be much longer!

However, his life stripping turned out to only make the body of the Destruction Guard tremble, unable to completely strip the life essence in it.

The defensive ability of this destruction guard in this regard has surpassed many ordinary creatures!

"destroy!"

A slightly hoarse voice came from the throat of the Destruction Guard.

Thick anger spurted from his eyes!

This humble ant used weird methods to extract the essence of life in his body. This is simply tolerable and unbearable, provoking them to destroy the dignity and bottom line of the guard.

"I can speak human words!"

The more Fang Yue studied, the more miraculous this destruction guard felt.

In the distance, Luo Yan's searching gaze fixed on Fang Yue's body.

"This little guy is getting me more and more interested! He actually got rid of my spiritual perception of him just now, in a short moment."

Luo Yan wrapped his arms around his chest.

She wants to see how much potential this guy has.

The destruction guard at the first level of the Yin-Yang realm can already be regarded as a biological weapon that enters the room. At this time, the destruction guard can be regarded as a killing weapon, a devil free from the shackles of hell! If you really want to make a comparison, a destruction guard at the first level of the Yin-Yang realm, I am afraid that in the battle of life and death, even the veteran powerhouse of the third level of the Yin-Yang realm can kill!

However, its opponent is Fang Yue, a genius young man who has extraordinary comprehension and can combine martial arts, spells, rules, and physical skills into a whole!

Although his realm was slightly lower, Luo Yan still believed that this destruction guard could not cause much trouble to Fang Yue!

"Master Luo Yan, there is an immature guess in my heart!"

Fang Yue appeared behind the destruction guard at the first level of the Yin Yang realm, stretched out his hand and twisted his neck.

Fang Yue's shots were swift and neat, not at all like a cultivator in the early stage of the rotation realm, the destruction guard of the Yin and Yang realm, in front of Fang Yue, was like a baby who had never grown up.

Luo Yan was slightly surprised when he saw this.

Even the powers of the seventh or eighth layers of the Yin Yang realm might not be able to achieve Fang Yue's point.

Pure flesh, pure physical skills.

Every inch of muscle is used to the extreme, just like running clouds and flowing water, simple and straightforward.

"You said."

Luo Yan stared at Fang Yue, and after a while, he spoke slowly.

She felt the change in Fang Yue's temperament, which was different from just now.

If Fang Yue was just a humble servant with a disguise just now, then he is now a wolf with the sheepskin disguised.

"I want to know how long the Universe has been lurking in this city!"

Fang Yue's fists were slightly clenched. Now that the teacher had already participated in the war, he also hoped that he could do his part to protect the city.

"How long has the Universe lurked? If history really needs to be traced back, I am afraid that it will be tens of thousands of years ago. However, at that time, it was all insignificant little ants that lurked in. The real mass lurking took decades. before."

Luo Yan shrugged slightly. This was actually not a secret. Anyway, the invasion of the other side universe had already begun. It was no longer a secret when the previous lurkers began to lurch.

"Decades ago! I get it!"

Fang Yue took a deep breath.

"Then can I ask one more question?"

Fang Yue looked at Luo Yan, already vaguely guessed.

However, the true or false of this speculation needs Luo Yan to verify.

"Fang Yue, you have to understand that I am a saint in the universe beyond, and I have no obligation to answer your questions. Although I am not interested in the people of the universe, I will not betray my universe without reason!"

Luo Yan's smile gradually became stronger, revealing a touch of playfulness.

"condition!"

Fang Yue is straightforward.

Since it is an equal negotiation, it must look like an equal negotiation.

"You are just a practitioner in the rotation realm. What can make me a peak-level saint like me?"

Luo Yan smiled, smiling like a sly fox.

"What about it?"

Fang Yue held up a pill. The pill was small, only the size of a longan. However, around the pill, there were nine auras, each of which represented a different kind of energy.

"Three-turn Prolonging Life Pill, this is the pill I found in a historic site. Taking the pill under the Great Sage can extend the life span of eight hundred years!"

## Chapter 1000: Clone

This pill was refined by Fang Yue in his spare time.

The level is not very high, but the effect is very attractive.

No matter how high the realm of practice, Shouyuan is always the biggest shackle that hinders practitioners.

Whether saints or mortals, the persistence and pursuit of Shouyuan will always be the same.

"it is good!"

Luo Yan's answer is simple. There are indeed not many pills that can prolong the life of the saint, but his lifespan is still long, so there should be no need to worry about his life.

However, for things like Shouyuan, the more the better.

Answer a question and extend your life for eight hundred years. This deal is quite a bargain.

"My question is whether these destruction guards can increase their own strength by killing the same race!"

Fang Yue's eyes looked at Luo Yan seriously.

As a saint, once a word is said, it is difficult to chase a horse.

"Not bad!"

Luo Yan nodded slowly, she thought Fang Yue would ask some questions, but this was what she didn't expect.

Eight hundred Shouyuan, just ask this one small question, this Fang Yue seems to suffer a bit!

"My question is over!"

After Fang Yue said, he turned to look at the destroyer guard who was like a tide like a sea.

"The person who needs to tie the bell to untie the bell! If my inference is correct, the disaster of destroying the guards needs to be solved by themselves!"

Fang Yue whispered a few words, and when he turned around, he plunged into the boundless crowd of destruction and guards.

However, this time, Fang Yue did not kill any Destroy Guard, but chose a Destroy Guard at will, tap his fingertips, and the Destroy Guard's brows and souls were pulled out instantly!

A ray of divine thought fell.

Rebirth!

In a blink of an eye, this destruction guard was refined by Fang Yue into a clone.

"what are you going to do?"

Luo Yan couldn't understand Fang Yue's attempt.

Fang Yue smiled and did not answer!

"moron!"

Someone sneered, and everyone else was fighting fiercely. Does Fang Yue still have the energy to rob and destroy the guard?

Fang Yue's figure disappeared, no one knew where he went.

Only the avatar of the Destruction Guard was still there, and the sword in his hand was lifted up, like a thunder falling, and immediately blasted the two Destruction Guards around him!

The sneak attack from his companions caught the two destruction guards off guard.

Moreover, these two destruction guards are only the destruction guards at the peak of the rotation realm, and although Fang Yue's incarnation of destruction guards are in the same realm as them, their understanding of the law is not on the same level.

With mental arithmetic and unintentional.

The two destruction guards fell.

Fang Yue absorbed all the aura of destruction in them.

With a bang, Fang Yue's incarnation of the destruction guard's clone realm broke through!

Before, he had killed a lot and accumulated a huge amount of destruction and killing. Now, he has absorbed the destruction of the other two destruction guards. The killing breath is equivalent to the last straw that overwhelms the camel!

Many instincts are awakened in the blood.

This is not about the soul, but the sealed memory stored in the body, instinct!

The avatar of Rotating Realm instantly advanced and transformed into a body of Yin and Yang Realm!

Luo Yan's beautiful eyes narrowed, and she vaguely guessed Fang Yue's plan.

Take advantage of the destruction of the guard while still in the rotation realm, seize a physical body, and then use the destruction of the guard's body to quickly kill the same kind to advance.

In this case, it won't take long for Fang Yue to have a high-level and even pinnacle body of Yin and Yang realm!

From a certain point of view, this is an opportunity that can never be met!

What a cunning kid.

Unfortunately, the level is a bit low!

Luo Yan's eyes showed a slight loss.

If Fang Yue only had this pattern, his future achievements would be limited.

Sure enough, after taking the house, Fang Yue continued to brutally attack other destroyers. His moves were sharp and he never dragged his feet.

The surrounding destructive guards were caught off guard by Fang Yue's killing and suffered successive defeats.

When they were relieved, Fang Yue killed more than 30 destroyers and had already advanced again!

The destruction guard at the second level of the Yin-Yang realm is already a master of the first echelon among the many destruction guards in the first city of Tianlu.

It's a pity that Fang Yue does not belong to the group of destroying guards. Although the flesh is like a shell, his soul has changed!

After another cup of tea, the 572 destruction guard lay down at Fang Yue's feet.

On the third level of Yin Yang Realm, Fang Yue's clone broke through again!

Such a quick breakthrough made Fang Yue feel shocked. The starting point for this destruction of the guard is not very high, but as long as there is killing and destruction, it is their food!

If destruction guards are allowed to grow so unscrupulously, war will become their most fertile soil.

The people in the first city of Heavenly Road rose up to resist. Although these destruction guards were crowded, they would eventually be destroyed.

However, in this process, the atmosphere of killing and destruction in the city will become more and more intense, whether it is destroying the guards to kill or they are killed, they will release a large amount of destruction, and the killing aura becomes the food for other destruction guards.

The surviving guards of destruction will become stronger as they fight and continue to break through! Eventually reach the peak of Yin-Yang realm, the level of the real realm, even the saint realm.

At that time, the destructive power caused by one destroying guard was better than the destructive power of ten million at the initial stage of the destructive guard in the rotation realm.

This is Yangmou.

unstoppable!

Even so far, no one has discovered the people in the first city on this day!

Fang Yue's ruining the house destroys the guard, just to absorb more destruction, killing air, and reduce the remaining resources for the destruction of the guard evolution!

The stronger his clone is, the smaller the space for other destruction guards to evolve.

The reason is simple.

But it is difficult to figure it out in a short time!

The clone of the Destruction Guard is killing and evolving. And Fang Yue's deity was not idle, he evolved several spiritual avatars, and together they were catching and destroying the guards alive, knocking them out, and then throwing them into a dimensional world that could survive!

They directly kill the destroyer guards, which will cause them to release their breath at the moment of death and spread throughout the entire Tianlu First City.

And being caught alive, there is no such danger!

The reason why Fang Yue disappeared from Luo Yan's vision was to release his true skills. If Luo Yan had been supervising him, he would always be restrained!

The \*\*\*\* killing has lasted for an hour!

More and more monks fell in the first city of Heavenly Road, and the number of destruction guards also decreased.

However, the advantages of destroying the guards gradually became apparent.

Today's destruction guards only have less than half of what they were at the beginning.

But almost all destruction guards have evolved to the level of Yin and Yang realm!

From the peak of the Rotating Realm to the beginning of the Yin-Yang Realm, it is a qualitative transformation!

The leap of the great realm would have led to an increase in the level of life, and the instinctive awakening of the destruction guard made the destruction guard stronger!

Nowadays, there are Destruction Guards who have been promoted to the eighth step of the Yin-Yang Realm, followed by the destruction guards of the second echelon, and 18 have been promoted to the seventh step of the Yin-Yang Realm! The number of destruction guards on the sixth layer of Yin Yang Realm has already exceeded one hundred. The lower the level, the more the number of destruction guards showed a geometric increase.

Fang Yue's ruining guard was mixed among the many ruining guards.

Fang Yue's Destruction Guard is not the strongest. On the sixth step of the Yin Yang Realm, although it ranks upstream among the many Destruction Guards, it is by no means dazzling.

Now, Fang Yue is no longer blatantly killing other destruction guards, because Fang Yue discovered that this destruction guard only absorbs the killing in the city, and the aura of destruction can grow quickly without personally confronting the enemy!

Moreover, his slaughter domain played a big role, the domain was expanded, and the area around him was a thousand meters away, the slaughter gas could be stripped away without leaving it!

Fang Yue condensed one after another Slaughter Pills, all of which were the essence of Slaughter Qi.

Once taken, the strength of this clone can be quickly improved!

As for the air of destruction, Fang Yue's deity is quickly comprehending the corresponding laws.

However, Fang Yue did not have a deep understanding of the power of destruction, and he was slow to comprehend it.

Of course, this unpleasantness is aimed at his other laws.

In just an hour, Fang Yue had comprehended the law of destruction to the second level, and it was only one step away from the realm.

Only when the domain is formed can Fang Yue absorb the energy of destruction, and then condense the Pill of Destruction.

Destruction and killing are the two main sources of destruction and protection. These two sources need to be balanced before they can steadily improve. The more the war, the stronger!

If these two sources are biased towards one, the balance of the sources will be broken and the body will burst into death!

At this moment, a silver token burst out of the sky, and suddenly fell in front of Fang Yue.

Among the tokens, a divine mind broke out and transmitted to Fang Yue.

"The First City on the Heavenly Road has suffered thousands of years of calamity, and emergency procedures have been initiated."

"Slaying and destroying the guards will all get meritorious rewards."

"You, kill more than ten thousand guards, get the silver armor token, and the person who receives this order is the silver armor general of the first city of the sky, and anyone who does not leave the sky can summon the silver armor, and get triple blessing!"

"You, you have meritorious deeds in killing and destroying the guards, and you will get 109,700 meritorious deeds, which can be exchanged for the heavenly treasure!"

Fang Yue's divine consciousness penetrated into the token. Among the tokens, a list was listed. Among them, there were hundreds of millions of treasures!

Each of these treasures is rare and invaluable!

"There are more than ten thousand slaying and destruction guards. This token is afraid that my deity and the destruction guards that have been killed by many clones are counted in it. However, it does not count. I am still holding hundreds of thousands of fainted in another dimension. Destroy the guard!"

Fang Yue said to himself and took the token into his arms.

Well, this is a good thing, something that was delivered for nothing, who wouldn't want it.

In a moment, the Silver Armor token was reborn.

The sound of machinery came into Fang Yue's ears.

The Chamber of the First City of Tianlu is opened, and all practitioners above the Bronze Armor token can go to the chamber to discuss the overall situation of the survival of the First City of Tianlu within ten minutes.

Fang Yue frowned slightly, his deity was still comprehending the law of destruction, and the progress of the law of destruction would affect his entire evolutionary process.

At the moment, not distracted.

After hesitating for a moment, Fang Yue separated a spiritual qi incarnation and headed to the chamber. He wanted to see what the \*\*\*\* was this chamber!

Fang Yue's aura incarnation stepped into the chamber.

This hall is already overcrowded.

However, bronze armor, silver armor, and gold armor all have their place.

There are nine people in the golden armor, all sitting around the round table in the chamber.

There are 214 people in silver armor, each with a stone chair, carved reliefs of gods and demons, sitting around a round table.

At the outermost are the bronze armored men, with thousands of people. They only have standing tickets, not even a place to sit.

Fang Yue glanced at the most central Golden Armored person. Among them, three of them came from the families of the three major powers. The remaining people were either from smaller families or were casual cultivators.

In the center of the round table, there is a purple screen with the words "Welcome" written on it.

It was the first time for everyone to enter the chamber, with a dazed expression on their faces.

This thing, even if it is not recorded in the oldest classics in the first city of Tianlu.

This means that this chamber has never been used since its establishment!
