

God Of Medicine 481

The God Of Medicine Son-in-law Chapter 482

“Ah... I’m not reconciled! I’m not reconciled! I want to curse you! Curse you that you can’t improve your cultivation in this life. I want to curse you, curse you that you can’t have any perception or get any adventure!” The shadow King roared wildly.

But no matter how he roared and cursed, the furnace of the Dragon Emperor rolled down towards his position without any emotion. Directly suppress his whole body and the shadow demon behind him. Then it was absorbed into the huge furnace, and then his voice disappeared.

After not knowing how long, Xiao Chen felt that another burst of powerful power was injected into his body, and he immediately felt that his strength had increased greatly. The realm has also been raised to a difficult level again. With the power of the two friars in golden pill and black, Xiao Chen’s realm is now close to the seventh floor of the valley and has reached the peak of the sixth floor of the valley.

In the body, the particles of the green dragon have now awakened to the level of the tenth one. They have awakened nearly two at one time.

However, if other friars knew about this, they would be so surprised that their eyes would fall out, because Xiao Chen has absorbed the original strength of four Jindan friars, and he has only been raised to the current level, which is still a considerable distance from Jindan.

What does that mean? Xiao Chen’s strength now has reached a point where he can’t imagine with conventional thinking. The vitality of the four Jindan friars didn’t let him break into the Jindan period. Let’s talk about it. Even some ancestors of Yuanying and even those friars with higher accomplishments may not be willing to believe that there will be such a thing in this world.

But now it happened to Xiao Chen. Xiao Chen probably felt that the awakening of the ten green dragon particles in his body did not bring him any other changes. It seems that the distance of the Dragon Seal needs to be activated more, and the distance of the Dragon Seal still needs to be activated.

Now Xiao Chen has only activated 12 Green Dragon particles in his body. After those two green dragon particles are activated, he needs to find some ways to absorb the power of thunder. Otherwise, if the green dragon particles are not activated, his cultivation will not be improved again. Now there are at least tens of thousands of green dragon particles in his body that have not been activated. I don’t know how much thunder force is needed to activate these particles.

But now Xiao Chen only worries that these problems are meaningless. His main task now is to ensure that the world where he is now is not violated by the monks of other worlds.

So now he just needs to stay here. Feel at any time whether there will be any monks of voodoo sect in the whole world. Once they find their breath, they will directly go to kill them.

“Xiao Chen, what is the degree of your cultivation now? That’s four alchemy friars. They were directly killed by you? They were completely refined?” At this time, Xiao Qingyuan also came to Xiao Chen in shock. Looking at his grandson in disbelief, he almost felt that he couldn’t speak. My grandson is too tough, isn’t he?

These are the four great alchemy friars, nothing else. Even if the ancestors of the yuan infant period came, it is estimated that it is impossible to clean up, and Xiao Chen, just a few moves, killed and refined all of them, and then improved their cultivation again. What kind of degree is this? Is Xiao Chen a monster?

However, Xiao Qingyuan then gave up his idea. Xiao Chen grew up with his own eyes. If Xiao Chen is a monster. So he’s a monster himself?

Obviously, this idea is not tenable.

“Grandpa, don’t be too surprised. You just need to know that I got great benefits from that treasure land. Now I can say that there are no enemies in the whole world. Now my main goal is to completely wipe out the monks who invaded our world. Now I feel a breath again. You heal here first, I’ll go and get rid of the invaders first. “

Xiao Chen said, the wings of the Dragon Emperor spread out behind him. After fanning for a few times, he immediately disappeared in this area. He didn’t know where to go.

At this time, in an unknown corner of the world, a tall man in black was standing in front of several m people dressed in blue. His breath was also quite strong. He was also a monk in the golden elixir period.

“You human beings don’t submit to me. Don’t you know that my cultivation is enough to crush you?” The friar in Black said coldly, and a dark green vitality on his hand condensed into shape in an instant. Then he clapped it out with a palm, and a huge handprint appeared in the air.

“Voodoo fingerprints!”

At this time, several m people in blue decoration also kept reciting strange formulas. Then, waves like the sea appeared out of thin air. They were monks who could use the skill of water system.

But they always recite the formula before releasing their killing moves, which is much slower than ordinary monks.

However, their wave like killing move seems to have a certain lethality, and it seems to be able to resist the huge voodoo fingerprints.

But at the moment of contact, the huge voodoo fingerprints directly melted the waves.

Obviously, the two are not at the same level. At this time, the voodoo fingerprint directly slapped at the friars of the M country.

“What? Are we really going to die here?” One of the women from country m said.

“I don’t know. The other side is too strong.” Another woman from country M.

Just when they didn’t know what to do, a thunder flashed in the sky, and a spear flew out in an instant. The other monk in black didn’t seem to have time to respond, and the spear penetrated his body in an instant.

And the huge voodoo fingerprint was absorbed by a huge furnace. It was not another furnace, but Xiao Chen’s furnace of the Dragon Emperor.

After killing the friar in black in an instant, Xiao Chen summoned his furnace in front of him again. The God Of Medicine Son-in-law Chapter 483

“This... What skill is this!” The monk in black looked at the huge furnace in front of him with an unbelievable face, but before his words were asked, the huge furnace directly shrouded him completely, and the whole person’s was thoroughly refined.

“How awesome!” The women in blue of country m were shocked when they saw this scene.

Xiao Chen accepted the monk in black and was ready to leave, but they were stopped by the women in blue. They all looked at Xiao Chen vaguely and said, “master, can you teach us your skill!”

Xiao Chen saw that the women from country m were choppy, and their bodies were almost perfect. One of them even took off his clothes. Like he’s going to eat him.

Xiao Chen hurriedly recited the pure heart mantra several times, and then worked his vitality to temporarily fix all these women in the air. Then he hurried away.

Several women from country m were fixed in the air and couldn’t move. At this time, the two male friars from country m behind flew over. Both of them were looking at their fellow martial sisters without concealment.

“It’s better to be an outsider than us, elder martial sister and younger martial sister. We’ll treat you well!” One of the male friars took off his clothes without saying a word, and then staged one spring palace picture after another in the air.

At this time, Xiao Chen had left the sky of M country and didn’t know how far away. Naturally, he didn’t know what was happening here, but continued to look for the monks who invaded from other worlds.

In the process of searching for breath, Xiao Chen suddenly remembered the huge breath of life where Xiao Qingyuan was in the previous place, so he fanned the wing of the Dragon Emperor behind him and flew back in that direction. The speed was quite fast. After a while, he came before a spring.

“This is... The fountain of life!” Xiao Chen immediately felt very surprised, and then suddenly began to absorb it. Then he found that the green dragon particles in his body were constantly activated under the stimulation of the spring of life.

The 13th, 14th, 15th... Didn't stop until the 50th.

Feeling that the green dragon particles in his body are constantly activated, Xiao Chen has an unspeakable pleasure in his heart. Previously, he was still thinking about this problem. He didn't expect to be solved so soon. It's a pity that there are too few springs of life, only such a small one.

This is really too little for Xiao Chen. But if this is known by other monks, it is estimated that they will yell at the heavenly things again. This is so many springs of life. If someone else came here to explore these springs of life, I don't know how far they can improve their cultivation.

But of course, the precondition is that the other party can refine so many springs of life. It is estimated that Xiao Chen is the only one who directly uses his own dragon emperor furnace to refine the springs of life. Other people can't do it if they want to.

Xiao Chen suddenly stood up from the ground at this time, and he felt the continuous rotation of bursts of power on his body. Obviously, it was the fountain of life that changed his whole body. Now there are powerful forces pouring out of his body. Even now he doesn't need to use any skill, he feels he can kill some monks in the golden elixir period.

If you add your own skills, you can almost kill each other directly in a face-to-face way. No matter the friar at the first level of the golden elixir or the peak of the golden elixir, there is no difference in front of Xiao Chen now. Moreover, his cultivation has reached the level of the seventh level of the Valley, just after absorbing the original vitality of the friar in black. Xiao Chen's state has improved again.

Now Xiao Chen roughly speculated that if he wants to improve his accomplishments next, he should at least absorb the vitality of the two golden elixir peak friars before he can improve a realm to reach the realm of opening up the eighth floor of the valley.

The two friars at the peak of the golden elixir are not so easy to find. Xiao Chen had to accumulate slowly. Not to mention the friars at the peak of the golden elixir, he killed all the refining friars. Slowly accumulate your strength and strive to break through the golden elixir period as soon as possible.

Xiao Chen has a feeling that his golden elixir period will be very different from others. As for what it is, he is not particularly clear now.

While Xiao Chen was constantly feeling all kinds of breath in his body, suddenly, a strong breath attracted his attention.

It turned out to be two peaks of the golden elixir. When he was sleepy, someone gave him a pillow. Xiao Chen immediately released the wings of the Dragon Emperor. Then he flew in the direction of those two strong smells.

“Elder martial brother Huang Ding, this time we are here to hunt and kill these low-level humans here. So as to refine our strength, break through the Yuanying level, and ascend to the sky step by step. If we are directly promoted to elite disciples, the benefits will be endless.” A man dressed in blue said that obviously, the identities of the two people should be somewhat different in the voodoo gate.

“Of course, younger martial brother Xu Feng, when we come here this time, we will break through. I heard that there are all kinds of treasures in the world. If we can get the spring of life, or the Qi of the beginning, or some other natural materials and earth treasures, it is not easy to get promoted. Now our goal is not just to get promoted, but to find a way to break through and enter distraction. The method of the period, when that time is the real step to the sky, and directly become the core of the sect.”

The man called Huang Ding said.

“Elder martial brother Huang Ding said yes, we should aim to enter the distraction period now. If we can find the opportunity to enter the distraction period here, it will be a great joy! Then we will be comparable to the elite disciples of the top ten sects. If we can promote distraction at this age, even among the top ten sects, we can be regarded as geniuses.”

Xu Feng smiled.

“Yes, that’s the purpose of our coming, but there are other disciples in the sect who have come first. I hope they don’t get any good adventures. Even if they get them, they can’t absorb them. They can only wait for us to take them all away.”

Huang Ding closed his eyes and felt it for a while, but then he opened his eyes strangely and said, “what’s the matter? There weren’t so many experts in our door before. Why are they missing now?” The God Of Medicine Son-in-law Chapter 484

Hearing Huang Ding’s words, Xu Feng also closed his eyes and felt it. He was surprised and said, “yes, those younger martial brothers are gone? The breath has disappeared? Are they not from this world, but xiaoqianjie?”

“It’s impossible. The transmission array of our sect is clearly marked. Those younger martial brothers are not fools. Where can they make mistakes?” Huang Ding’s face became a little dignified at this time.

“That’s right. Where did they go? Why did everyone’s breath disappear? Did they find any treasure in the world when they came? So they all went to look for it?” Xu Feng was very surprised at this time.

“It’s impossible. If there is such a place, why can’t we feel it?” Huang Ding also denied Xu Feng’s speculation.

“It’s true. If so, we should be able to feel it within the first time. Now we really don’t feel anything.” Xu Feng also nodded.

Huang Ding seemed to realize that things were not simple. Just when he was ready to say something, the force of a thunder flew in the direction of them.

“Ancient poison golden bell jar!” Huang Ding instantly beat out his vitality and condensed a golden bell jar directly around them. Directly blocked Xiao Chen’s Dragon God spear, but he was stabbed with huge cracks by the Dragon God spear.

“What kind of skill is this? Good life is powerful!” Xu Feng was also very surprised at this time. He didn’t expect that the Dragon God spear almost broke the ancient poison golden bell cover of Huang Ding.

“This person’s vitality is so deep that he can even compare with those elders in the sect! Is he the ancestor of Yuanying? If so, we will be very dangerous.” Huang Ding’s face is very heavy.

Then, a figure appeared in front of them. It looked like a young man. He was shining with thunder and wearing modern clothes. It looked quite ordinary, but they were all monks. Naturally, they would not judge people by their appearance. At the moment of seeing Xiao Chen, their faces changed again.

It’s not because of anything else. It’s just because Xiao Chen is just a monk in the valley opening period. He exudes such a strong and arrogant breath. Even some Yuan Ying friars with low accomplishments can’t compare.

“The man’s breath is strong and unreasonable.” Huang Ding looked at Xiao Chen coldly.

“It’s more than that. It’s just an existence against the sky. I’m afraid even the fierce beasts we’ve seen who inherit the ancient blood don’t have such powerful vitality as him?” Xu Fengdao.

Indeed, Xiao Chen now has the totem blessings of four divine beasts, and the beast in his chest that doesn’t know what kind of beast exists. With the help of Jidao divine formula, his vitality has reached the peak of a monk who is in this valley opening period.

It can be said that there can be no such existence in the world of many monks. Even the reincarnation of ancient gods may not be as good as Xiao Chen, but now Xiao Chen has not been able to see the monks of the reincarnation of ancient gods, and he doesn’t know what the result is.

But what is certain is that Xiao Chen now should be more terrible than those fierce beasts with ancient blood, at least more than ten times.

“Run! We can’t deal with this guy! It seems that those senior brothers and junior brothers should have been killed by this guy. Now we must go back and report to the elders of Yuanying period and let them deal with this monster!” Huang Ding had already decided the strategy on the spot and was ready to run away directly.

Hearing Huang Ding's words, Xu Feng didn't hesitate at all and directly urged the vitality in his body. Ready to escape.

"Want to go? Is it that easy?" While Xiao Chen spoke, the wings of the Dragon Emperor fanned twice in an instant, and then appeared in front of Xu Feng who was about to escape.

"Younger martial brother Xu Feng!" Seeing that Xiao Chen caught up with Xu Feng, Huang Ding quickly offered a talisman. The power contained in the talisman was also the power of thunder, and it seemed that the power was a bit stronger than the general thunder robbery.

"Thunder running amulet! Go!" Huang Ding gave a big drink. He used his vitality to activate the spell. In a moment, the spell was thunderous and flew directly towards Xiao Chen.

To beat Xiao Chen to ashes.

Xiao Chen smiled when he saw the running thunder Rune and directly stretched out his left arm. The power of lightning in the running thunder Rune was completely absorbed into his body.

Then, some of the green dragon particles in his body were activated again, directly increasing by as many as 20. Now Xiao Chen's body has directly activated 70 green dragon particles. Ten of them are completely awakened.

Now Xiao Chen moves at will, which is equivalent to ten green dragons making moves as divine beasts in the world. The power of the green dragon could have shocked any world. Now Xiao Chen has the power of ten green dragons directly in his body. How terrible it is.

of course. These green dragons have no way to compare with the real divine beast green dragon, but they are also quite powerful. In particular, it is not the power of human beings, but the power of divine beasts, which is completely beyond the ability of human beings to compete. Therefore, now in Xiao Chen's hand, the Dragon God spear pierces out again and directly pierces the head of Xu Feng who is running away.

“No! You destroyed my body directly. I’ll avenge you!” The golden elixir in Xu Feng’s body flew out quickly and wanted to escape quickly, but then he saw something that made him desperate. A huge melting pot, which exudes the majesty of the Dragon Emperor.

The Dragon Emperor is an imperial existence in the dragon family. Its power is enough to instantly shock these low-level friars to death, but now Xiao Chen’s Dragon Emperor furnace only has a trace of the majesty of the Dragon Emperor. It’s far from the real breath of the Dragon Emperor.

Otherwise, Xiao Chen may not need the furnace of the Dragon Emperor to suppress people now. If a trace of the breath of the Dragon Emperor is released, he can directly suppress these friars completely.

However, even if it is impossible to suppress with the breath of the Dragon Emperor, the suppression effect of the Dragon Emperor’s furnace is also quite significant. Even if Xu Feng, as a monk at the peak of the golden elixir, is only one step away from entering the level of the strong in the period of distraction, he is suppressed and unable to move.

This is the power of the Dragon Emperor. No one can resist. The God Of Medicine Son-in-law Chapter 485

“What is this? Why is there such a powerful skill? Who are you? I’m not willing. I want to explode the golden pill. Even if it completely disappears between heaven and earth, I won’t let you get any benefits, explosion!” At this time, Xu Feng seems to have been out of his mind. He even wants to directly explode his golden elixir to oppose Xiao Chen and prevent Xiao Chen from getting any of his power.

“Want to explode? You’re suppressed by me now. Can you explode? It’s a daydream. The furnace of the Dragon Emperor, refine it for me!” Xiao Chen didn’t have any hesitation and directly injected the vitality in his body into the furnace of the Dragon Emperor. In an instant, he began to refine Xu Feng’s breath completely.

Originally, all kinds of vitality that began to be violent in the golden elixir have been calmed down. This is the majesty of the Dragon Emperor, which directly suppresses all things. Even friars like Xu Feng want to do any harm to it by self explosion in the furnace of the Dragon Emperor.

Once suppressed in the furnace of the Dragon Emperor. So even in a powerful master, it must be limited by it, because the breath of the Dragon Emperor in the furnace of the Dragon Emperor is quite strong. This is a private world belonging to the Dragon Emperor.

It can be imagined that if a friar can condense his own world, it will be difficult to achieve, and how much strength it takes to do it. But now, the whole furnace of the Dragon Emperor is a small world, which is completely different from the outside world. Once someone or friar enters this world, Then it will be controlled by the master of the world.

Now, the master of the Dragon Emperor's furnace is Xiao Chen, so even a master of the golden elixir like Xu Feng will not be refined at once in the Dragon Emperor's furnace, but it is impossible to control his own golden elixir self explosion, not only impossible. Moreover, it will aggravate the time when his golden elixir is swallowed and refined. Originally, it still takes some time for Xiao Chen to refine his golden elixir.

The golden elixir can absorb most of his power, and now he doesn't want to let go of the golden elixir's power. In this way, he can not let go of the golden elixir's power.

After absorption, the level of Xu Feng's golden elixir is not as good as a monk with six layers of golden elixir. A monk on the sixth floor of the golden elixir, in front of Xiao Chen, is just a thing inferior to mole ants. How can he still have the power to resist? You can only watch your golden elixir be completely refined.

"No! What kind of skill is this? It's definitely not a skill that one can practice! Even those figures like the son of God can't practice such a powerful skill! Who are you? Are you the reincarnation of the creator God? No! I don't want to die!" Xu Feng's soul kept howling, but no one paid attention to him.

Then, from Xiao Chen's body, a white shadow flew out, and then the tiger with huge white fur appeared in front of Xu Feng's soul.

"You... What do you want to do!" Xu Feng saw the huge white haired tiger in front of him. Suddenly, the white haired tiger began to tremble. It seemed that he was born with great restraint against these souls and other things, so any soul body would automatically start to tremble when it saw it.

This is the white tiger, one of the four divine beasts. Although Xiao Chen still doesn't know its function, at least one thing he knows very well is that the white tiger can directly devour the soul of any monk. Up to now, the souls of those alchemy friars have been devoured by it without exception.

And after swallowing it, Xiao Chen will feel that his soul seems to have become a little stronger, and his perception of the surrounding world will be much more sensitive. It seems that this is the temporary benefit brought by the white tiger, but Xiao Chen can still perceive that the strength of the white tiger is more than that. But now it can only play like this.

Of course, the power of the four divine beasts is more than that. Now it's just that the power of the green dragon plays more. When it comes to the future. If Xiao Chen can successfully exert the power of several other divine beasts, it is the real invincible existence. Now it is far from that step. It's too early.

After the white tiger swallowed Xu Feng's soul, Xiao Chen gradually felt that his soul power was getting stronger, and he could feel that he seemed to have a certain induction with some things in the sky. This induction was very wonderful, as if it was quite easy for his every move to fit with the heaven and earth.

The advantage of this situation is that Xiao Chen finds that he moves his body or runs his vitality at will, almost without any consumption. Naturally, there will be a rather mysterious atmosphere between heaven and earth to help him completely replenish.

Although I don't know what's going on, Xiao Chen still feels very happy. At least now, after he has such ability, he can almost be said to be invincible in his own world. This feeling is still quite good.

After all, just think about it, if a person or a Friar's every move can fit the way of heaven. And you don't need to consume any vitality and energy. As long as there is consumption, there will be power to supplement between heaven and earth. This feeling is really quite good.

At this level, Xiao Chen also began to have some insight and began to understand the essence of many things. For example, the vitality in one's own body is just a gas with relatively low-level power. The gathering of this vitality is quite simple, but the structure is also quite simple, and the vitality cannot contain any other elements.

If you want to use lightning power similar to your own green dragon power in battle, it is equivalent to that your vitality is actually separated from the green dragon power and is not completely integrated. In this way, the power of the killing move is much smaller, at least about 50%.

If you can refine those vitality and become a higher level of true Qi, this true Qi can be integrated into your various elements. At that time, if you use the power of the green dragon to kill, you will have a great improvement. This is what Xiao Chen wants to do now. The God Of Medicine Son-in-law Chapter 486

Thinking of this, Xiao Chen began to try to mobilize those vitality in his body, and gradually condensed the vitality into another more advanced strength carrier – Zhenqi.

Although Xiao Chen is now refining his true Qi, he still doesn't have any stay in his hand. After he just realized another realm, he almost doesn't consume any after killing Xu Feng. Now I'll shoot directly at Huang Ding, who is running away.

At this time, Huang Ding was also shocked and panicked, because Xiao Chen just turned his hand and directly killed and refined Xu Feng, whose strength was similar to his own. Although he had several treasures, it was obvious that he didn't see enough in front of Xiao Chen.

So now he chooses to run for his life. The transmission array in the sect is at least hundreds of thousands of miles away from here. For friars. In fact, such a distance is not particularly far. The key is that he is still a monk at the peak of the golden elixir. He can fly at least a hundred miles away in an instant.

Generally speaking, it's hard to kill a friar of this level even if someone wants to kill him. After all, the other party can run for his life. Moreover, if it turns into a golden pill, some experts will directly burn the vitality in their body, and the speed will be more than twice that when their body is still there. This speed, Even some Yuanying ancestors may not be able to catch up.

Unfortunately, Huang Ding's luck is really too bad. No, or it can be said that the luck of their voodoo sect is too bad. They finally found a world where there are no monks. They want to let their disciples come to this world to get a little benefit. As a result, a freak like Xiao Chen can kill Bigu directly in the Kaiyuan period, and kill the golden pill as a pig in Bigu.

Even if the friar at the peak of the golden elixir comes, there is no room for resistance. So now Huang Ding has no other choice. He has only one idea, that is to escape Xiao Chen's pursuit as soon as possible, and then go back to the sect to report today's affairs, and ask the sect to send some experts to suppress Xiao Chen completely.

But he didn't know that Xiao Chen's speed had now reached an extreme point. After the wings of the Dragon Emperor spread out a little and fanned twice, Xiao Chen was already very close to Huang Ding's back.

"I'll give you a happy when you're caught." Xiao Chen's voice at this time was like a God. Without any feelings, but with unparalleled dignity, anyone who hears it is estimated that he will not have any idea of resistance. He can only be slaughtered by Xiao Chen.

This is the power of Qinglong Jue, but now it has only played less than one ten thousandth, or even one hundred thousandth.

Now Xiao Chen can't know how many green dragon particles are in his body. It looked like tens of thousands, but later Xiao Chen found that the green dragon particles in his body were still growing. From tens of thousands to nearly 100000 now, it may increase later.

So he can't know. What degree will you reach after your cultivation.

But now his main goal is to completely kill and refine the yellow in front of him.

"I don't believe it! You're just a valley breaking period. How can your speed reach such a level!" Huang Ding was shocked again at this time. He never dreamed of it. Just less than seven or eight breaths, Xiao Chen had caught up with him. Didn't he go to kill Xu Feng? Has Xu Feng been thoroughly refined by him now?

Huang Ding looked at Xiao Chen as if he had seen a monster, but soon his mouth was full of pithy phrases.

"The golden cicada has come out of its shell! Let's go!"

Suddenly, the golden elixir flew directly out of his body. The speed of the golden elixir is more than twice as fast as that of the golden elixir. In fact, the speed of the golden elixir can only be increased by at least twice as fast as that of his own. Now Huang Ding has increased four times directly.

This is enough to see that Huang Ding is indeed the best among the golden elixirs, and his cultivation skills should be not bad. It can be said that he is an elite talent in the whole voodoo sect.

But even such elite talents still need to run away in Xiao Chen's hands. They don't run away after fighting, but after meeting directly. He doesn't even hesitate to sacrifice his body directly. Generally speaking, even if the friar is forced into a desperate situation, he won't choose to abandon his body immediately.

Because it's your original flesh body. Generally speaking, it's the best body. Even if you keep the golden elixir and then use other flesh bodies, the effect is not as good as your original flesh body

Generally speaking, there is only one case that a friar will abandon his first flesh body, that is, his cultivation is very high, but his flesh body has aged and his life span has reached time. If he wants to die directly, the friar will have to look for another body.

This cultivation will regress, but at least it can prolong the life of your body.

Even in the face of a great disaster, even when they know that their flesh may be destroyed, many monks will not directly abandon their flesh. They will fight until the end and feel that they have no hope of retaining their flesh.

This is a very, very helpless choice, and now Huang Ding has directly abandoned his perfect body without even fighting with Xiao Chen, and even has several treasures in his body.

If there is a friar with good luck and his golden elixir or Yuanying flies out and can't find his body, he can take Huang Ding's body as his own now, because Huang Ding's body hasn't suffered any damage. There may be magic weapons and pills, which is definitely a business that can make a profit without losing.

The most important thing is that Huang Ding's accomplishments have reached the peak of the golden elixir, and his physical body will not be bad. At least some monks under the golden elixir period are quite

convenient to use. Even some monks under the golden elixir period can quickly improve their accomplishments with the help of their original habits. It can be said that picking up his body now is like picking up treasure.

But in the world where Xiao Chen lives, friars are quite rare. The God Of Medicine Son-in-law Chapter 487

So even if Huang Ding's body falls to the ground, no one will want it, and it is likely to scare some ordinary people, because there is a big hole in his elixir field, including a round blood hole.

This is the original location of the golden elixir. Now that the golden elixir has flown away, the location is naturally empty.

After flying out for a long distance, Huang Ding's soul was relieved at this time, because he found that he had left Xiao Chen far behind. Almost can't feel any breath of Xiao Chen. Obviously, what he just said must have been unexpected to Xiao Chen. Xiao Chen won't know the means of being a monk in another world. Can be so powerful, and Huang Ding is so decisive.

Huang Ding is quite sure that he will give up his body immediately and fly towards the sect's transmission array. Now he just needs to return to the sect. Report this to the elders of the sect, and then wait for Xiao Chen to be refined by the elders.

At that time, maybe he can get Xiao Chen's body, and then get the cultivation methods of Xiao Chen's powerful skills. At that time, he can dominate his own world and become a person who surpasses the son of God. At that time, he will be free between heaven and earth!

Thinking of this, Huang Ding became more and more excited. The vitality of the golden elixir also burned up without cost. He knew that if he wanted to achieve this goal, he must quickly return to his sect and return to his sect. At that time, everything will be his.

Unfortunately, Xiao Chen's figure suddenly appeared in front of him, together with a huge furnace, which was the furnace of the Dragon Emperor, which directly suppressed his golden elixir.

“Impossible! How could you have such a speed? Who the hell are you! Even the ancestor of Yuanying can’t have such a speed! And why can your skill be so powerful! No. I’m not willing, I’ll fight with you!” Huang Ding roared fiercely.

But his roar has been completely shrouded by Xiao Chen’s Dragon Emperor furnace. Now Xiao Chen just sits cross legged outside, and then continuously refines the vitality in his golden elixir.

“Ah...” Huang Ding’s whole soul seemed to be roasted by the hottest flame between heaven and earth.

Then, the huge white shadow flew out and swallowed his soul directly. Everything was calm. However, after refining his golden elixir, Xiao Chen found a very strange breath flowing in the furnace of the Dragon Emperor. It’s the breath that even the furnace of the Dragon Emperor can’t refine now.

“What is this?” Xiao Chen caught the breath and took it in his hand. He found that it was a green breath, which contained highly toxic. This kind of poison seemed to be different from ordinary poisons. It was like the first kind of poison born between heaven and earth. It could be said to be the source of poison gas, from which any toxin could be born.

“It’s amazing!” Xiao Chen observed the green breath and constantly understood the mystery.

Suddenly. The snake like totem on his chest rose and swallowed the green breath directly.

Then, Xiao Chen felt that his true Qi seemed to be full of the power of this poison source.

“It turns out that this is the highest method of the voodoo sect. The seed of evil poison is the most poisonous existence between heaven and earth. It is the ancestor of all poisons. It can give birth to any poison gas. Even if the friars with higher cultivation are eroded by the poison gas, they will die and disappear. There is no other result.”

Xiao Chen constantly understood the idea in the green poison gas, but she also had a trace of doubt in her heart. Since Huang must have such a killing move, why didn’t she try to use it on herself just now? If you really succeed in hitting yourself, maybe you can really turn the war around?

But then Xiao Chen found out. The reason why the evil poison in your body is powerful now is only because it has been transformed by your own totem. The power of these poisonous gases that may be contained in this evil poison is not particularly powerful. So it's really too reluctantly to be used against the enemy.

But now it's different. These poison sources integrate into Xiao Chen's body, and then Xiao Chen moves at will. One killing move can even break these poison sources into each other's body.

Moreover, the poison source is very few, so it is estimated that ordinary friars are difficult to detect it. In this way, Xiao Chen has another killer mace in the future.

Thinking of this, Xiao Chen couldn't help but feel a burst of happiness. She really had no place to find. It took no time to come!

With a more pleasant mind, Xiao Chen flew in the direction of Kyoto. He had felt that the cultivation of six monks, including his grandfather Xiao Qingyuan, had reached the golden elixir. Now, although Xiao Chen's cultivation had not reached the golden elixir period. But it's also on the eighth floor of Bigu.

Moreover, he had absorbed enough breath of the spring of life before. Now he went back to work the power of rosefinch and Xuanwu, and was able to improve their cultivation. In this way, his future helpers will become more and more powerful.

Now Xiao Chen has killed so many golden elixir disciples of the voodoo sect. Even in a short time, the elders of the voodoo sect will not react, but they will certainly come to explore later.

Although now Xiao Chen estimates that even Yuanying is not afraid. However, if the other party launches many Yuanying ancestors to check the situation here, it will be difficult for him to act without a helper when he is besieged.

Therefore, he would like to go back and help his helpers improve their accomplishments first. Their accomplishments are higher and they can do more things. Maybe there will be more help later.

Thinking like this, Xiao Chen soon returned to the wusheng building. Soon, Xiao Qingyuan and five other Jindan friars were summoned by Xiao Chen.

“Young director Xiao Chen, you asked us to come. What can I do for you?” One of the friars.

Now they have used “you” to call Xiao Chen, enough to see their respect for Xiao Chen.

However, Xiao Chen didn’t care. He directly played out the power of rosefinch and Xuanwu again, and then the breath of the spring of life came to those friars.

After Xiao Qingyuan felt the breath of the spring of life, suddenly the breath of the whole person began to change, and his face became ruddy.

The God Of Medicine Son-in-law Chapter 488

“It’s so comfortable and strong vitality! It’s like I’m bathed in the spring of life now. I feel that my body is undergoing great changes. It’s like being reborn. It’s amazing. This feeling. My God, it’s so wonderful!”

One of the monks kept saying. It seems that no words can express his comfortable feeling in his heart, but it is true that even if he is a monk now, he is essentially cultivated by an ordinary person in the world.

Originally, he was just an ordinary person. The power of the spring of life is enough to completely change a person’s constitution. After getting the spring of life, the person’s body will change greatly, and even change towards another life form.

Xiao Chen also got great benefits from the spring of life, but the five totems on his body had already changed his life form, so even the spring of life didn’t change his body very much. It can only be said that it improved some of Xiao Chen’s body and hasn’t reached the most perfect place.

Now Xiao Chen’s body has long not belonged to the category of human beings. It is a higher-level existence. Otherwise, his body could not accommodate so many different gods and beasts, and it is still growing. In fact, the strength in his body has already exceeded the limit of a friar with such normal accomplishments, But now Xiao Chen still feels that his strength is far from reaching the upper limit. It can even be said that he is not very clear about the specific area of the upper limit.

In other words, now he actually has no upper limit. Even if his cultivation of one valley and eight floors can accommodate the cultivation of the next Yuanying Friar and even the cultivation of the Dujie friar, it may be completely able to accommodate it.

This is the benefit of the body that has been specially transformed. Now there are so many green dragon particles in Xiao Chen's body and have not awakened. If all were awakened, Xiao Chen could not imagine how powerful his own power would be.

But it's still too early to say that. Xiao Chen's goal now is to constantly break through his cultivation, and then protect his world from being infringed. Other things. Or wait until later, if you have a certain opportunity to go to other worlds.

The vitality of life poured into the bodies of the six monks in front of them. After a while, their accomplishments began to improve slowly, and two of them directly improved from the first floor of the golden elixir to the fourth floor of the golden elixir. Xiao Qingyuan and another friar with the same accomplishments as him were directly promoted to the level of level 5 of the golden elixir.

However, this is only the early gain effect brought by some vitality. After the vitality is completely integrated into their bodies, their cultivation speed will be thousands of miles a day, and the growth of their vitality will reach an unimaginable speed, which is estimated to be more than dozens of times that of ordinary monks.

That is, it is equivalent to one day of their cultivation, which is equivalent to dozens of days of other people's cultivation. If they practice for one year, it is equivalent to other monks for decades. This is quite exaggerated.

However, Xiao Chen felt that this was still not enough, so he ran the power of rosefinch and Xuanwu in his body again. Transform their bodies again and transform them in their own direction.

Although it is said that these totems in his body can not be imitated, Xiao Chen still knows the structure and situation of his body, so he can completely change the body structure of the six people in front of him, and let them turn their vitality into a higher level of true Qi.

In this way, their cultivation will be improved, and their ability will be greatly improved. After the vitality is loaded into true Qi, the power of each true Qi is about twice that of the original vitality. Although this does not improve their accomplishments, it is actually helping them improve their accomplishments indirectly.

After a while, a monk had condensed the true Qi in his body.

“What is this? Is this true Qi? It’s so strong! It’s more than twice my original strength!” The friar immediately screamed.

“Ha ha, that’s great. Now even if there are two friars at the same level as me, I can directly take each other down!” The friar couldn’t help laughing wildly.

“Really! This Qi is so powerful! Such a degree of strength! It’s unprecedented!” Another monk on the side also began to praise.

Xiao Qingyuan and the monk with the highest cultivation are constantly understanding the essence of this true Qi. At last, they opened their eyes, and their cultivation improved again. They even reached the level of six layers of golden elixir through their perception of true Qi!

“You two have improved your accomplishments again! How powerful! It seems to be a little stronger than our true Qi!” A monk on the fourth floor of the golden elixir couldn’t help sighing.

“In that case, I’ll give you another strength to see if you can have a new insight!” Seeing this, Xiao Chen directly introduced the power of those golden elixirs contained in his Dragon Emperor furnace into their bodies.

These elixir powers can’t be absorbed by Xiao Chen now, because there are some special powers in the elixir period, which can be completely absorbed and refined only after the cultivation reaches the elixir. Therefore, Xiao Chen killed so many elixir friars. In fact, there are still many powers in the furnace of the Dragon Emperor that have not been absorbed.

However, it’s true that if Xiao Chen can fully understand the power that can only be obtained by friars of the golden elixir in his current state, it’s really too scary to say it.

Originally, this set of cultivation rules was formulated by people. Although I don't know what kind of existence can formulate such rules, this existence must be a very strong existence, even an existence outside Heaven and earth, which is unimaginable.

Therefore, it is generally impossible for someone to break the rules he has formulated. If someone can break his rules, it can only show that this person does not belong to his rules and is a more powerful existence.

If this stronger existence is born in such a rule, it is bound to destroy such a rule.

But at the same time, it will also attract the attention of those who make this rule, and Xiao Chen has not reached that point yet.

The God Of Medicine Son-in-law Chapter 489

Therefore, Xiao Chen's current cultivation mode is actually practiced according to other people's rules. If one day, Xiao Chen's cultivation rules are created by himself, it means that he is strong enough to change the rules between the whole world.

This day may or may not come. It all depends on Xiao Chen's future path, now Xiao Chen. Just protect your world.

However, even if he wants to protect his world, his cultivation needs to be improved again. After all, in other worlds, he may reach the stage of primordial infancy and survive the robbery. Even the monks in Mahayana, these monks are quite powerful.

It's not something he can completely contend with now.

Of course, if he is promoted into the golden elixir period, and then absorbs all the power left by the golden elixir friars in his Dragon Emperor furnace, he may be able to reach a higher level. It is not impossible to break through directly into the distraction period at one time, but it is all due to his first breakthrough now.

Besides, now Xiao Chen can't predict what the disaster will be like when he crosses the golden elixir period in the future. The previous disaster has taken his will to destroy him. If he crosses the disaster again now, what kind of scene will it be?

After thinking for a while, Xiao Chen also stopped his thinking. The power of the Jindan friar in the Dragon Emperor's furnace was transferred to Xiao Qingyuan and the other Jindan friar who had just been promoted. In an instant, both of them began to emit bursts of light golden light.

It seems that now the two people are like two Golden Buddha statues. They are solemn and have entered a very mysterious state.

Suddenly, Xiao Qingyuan suddenly opened his eyes and shouted, "the Dragon subduing God is invincible in the world. The true God awakened!"

Then, Xiao Chen felt that there was a very powerful force pouring directly into Xiao Qingyuan's body. It was a force close to the four divine beasts in his body. It was divine power! It's the power of the gods!

Xiao Chen was stunned. I didn't expect that my grandfather could get such power. Is there any secret about my grandfather?

Just when Xiao Chen was surprised at the change of Xiao Qingyuan, Xu Chuo on the side also began to change, and the whole body began to flow out of a special breath.

He didn't say anything. But the breath on his body has represented that his body has changed, and it is a terrible change. The breath on his body even makes the five totems on Xiao Chen active. This is also the power of the gods!

"This is... The ancient taixuan disaster God Emperor!" Xiao Qingyuan was shocked when he saw the breath on Xu Chuo, as if he had found something terrible.

"God of disaster?" Xiao Chen was also slightly stunned. Although he doesn't know what kind of existence this is, if he can be called a character of God Emperor level. Definitely not an ordinary person.

“The ancient god of disaster is in charge of the existence of all disasters! The power of waving is almost inexorable!” Xiao Qingyuan explained.

“So powerful?” The other friars on the side also exclaimed.

“His power has awakened now. We can safely cross the robbery together!” Xiao Qingyuan laughed.

“Disaster? Natural disaster? Yes, it’s equivalent to that he is an existence in charge of all disaster and natural disaster!” Xiao Chen also had a happy look on her face.

“Xiao Chen, young Dong! Thank you! Thank you! Because of you, I can awaken this special power in my body! Thank you so much!” At this time, Xu Chuo had woken up.

“No need to thank you. There’s nothing to thank. This is your strength, but it hasn’t been excavated. At best, I’ve been a guide.” Xiao Chen smiled faintly.

“Well, I won’t say more if there are too many words. Now I breathe a breath of disaster control on each of you. When you are about to cross the robbery, I will appear next to you.” Xu Chuo said and beat a breath on Xiao Chen, Xiao Qingyuan and four other monks.

Suddenly, Xiao Chen could feel that some things in his body now seemed to have been controlled. Although there are some restrictions, it is much better than before. Now he is almost enough to resist any disaster without worrying about losing his life in the disaster.

For the future breakthrough into the golden elixir period, he also has greater confidence. This is just the right time. Originally, Xiao Chen already felt that his next disaster would be quite difficult to pass, but now it seems that things have become much simpler.

At this time, Xiao Qingyuan’s accomplishments suddenly increased again. I don’t know when, he seemed to have entered a settled state. His accomplishments continued to rise until the ninth floor of the golden elixir. His accomplishments stopped, and then caused disaster in his body.

It was going to be robbed on the spot.

However, Xu Chuo was here. After running a trace of disaster, there was only a thin lightning falling from the sky. Even the roof was not split and disappeared directly.

Xiao Qingyuan's accomplishments were directly improved and reached the distraction period.

Just when everyone thought that Xiao Qingyuan should wake up at this time, Xiao Qingyuan's breath rose again, soared directly from the first level of distraction to the Ninth level of distraction, and made a breakthrough in cultivation again.

It was a natural disaster again, but Xu Chuo eliminated it, while Xiao Qingyuan broke through again and directly reached the realm of Yuanying and became the ancestor of Yuanying!

"This speed! It's simply, isn't it practicing by rocket?" The friars on the side are already a little jealous.

However, he can only talk about it. After all, Xiao Qingyuan is his big boss now. After Xiao Qingyuan's cultivation has been improved, it is also of great benefit to them.

The only thing that surprised Xiao Chen was that Xiao Qingyuan had not stopped. After reaching Yuanying, his cultivation was still rising. It was estimated that many of Yuanying's ancestors would be scared to death.

You should know that it is quite difficult to cultivate Yuanying when he comes to Dujie. He needs a lot of vitality and understanding in all aspects. Moreover, every time he breaks through three layers, he will trigger heaven and earth thunder robbery, which is almost impossible to break through continuously.

The God Of Medicine Son-in-law Chapter 490

But now Xiao Qingyuan, with the help of Xu Chuo, has really achieved continuous breakthroughs. Moreover, he has not only broken through three layers in a row, but also made a breakthrough upward after breaking through the third layer of Yuanying, reaching the ninth layer of Yuanying. Just when

everyone has decided that he is going to cross the robbery again, Xiao Qingyuan's cultivation stopped, After reaching the level of the ninth floor of Yuanying, there is no further breakthrough.

"Grandpa, what's the matter with you?" Xiao Chen asked.

"I am the reincarnation of the Dragon subduing deity in ancient times, and there is a Tianzun Zen Sutra in my body. I have just understood one of the sutras and got great benefits, and I found that the top of our world is the nine layers of Yuanying. If I break through again, I will go to another world."

Xiao Qingyuan slowly opened his eyes and explained.

"Is the ninth floor of Yuanying the limit? Are you going to another world?" Xiao Chen couldn't help being curious.

"Yes, and I can feel that the world is quite close to our world. Now I can feel some space entrances that can pass through it, which are in some special positions of our planet. For example, the mysterious triangle, the depths of the pyramid, and the disappearance of the garden in the air are all places that can pass through space . "

Xiao Qingyuan said three positions in one breath.

"These seem to be unsolved mysteries in our world. Is it because of the influence of monks? No wonder we haven't been able to investigate the specific situation of this after so many years of scientific and technological development. That's why." A monk couldn't help being amazed again.

"Indeed, there are many things we can't explain. Only after we practice can we really understand. And now I feel that there are only these lower vitality in the world where we are now. In the end, we can only evolve into true Qi. After going to another world, we can refine some higher strength carriers, and And the breath contained in the other world is more suitable for our friars' cultivation, which can improve our cultivation speed again. "

Xiao Qingyuan explained again.

"So magical?" A friar on the side could not help but marvel again.

“Therefore, after we embark on this road, we must be out of touch with the world we live in. We have to go to a higher world and practice there, so that we can achieve higher accomplishments.” Xiao Qingyuan said faintly.

“I see. That is to say, our cultivation speed has not reached the limit yet?” Xiao Chen seemed to understand Xiao Qingyuan’s statement at this time.

“If we are in our own world, our cultivation speed is quite extreme, but if we are in another higher world, we need higher cultivation skills and higher cultivation breath, so as to achieve higher cultivation speed.” Xiao Qingyuan explained.

“I see. That means we need to practice well before we can have a better position in another world. Grandpa, can’t you absorb any vitality now?” Xiao Chen asked again.

“I can still absorb the vitality, but the speed is much slower. If I suddenly realize the Scriptures in my Tianzun Zen Sutra again, it is estimated that I can break through the Mahayana period. The breath needed at that time is not such a low-level vitality. It is a higher-level breath.” Xiao Qingyuan explained.

“I see. That means, Grandpa, the sooner you can enter other worlds, the better.” Xiao Chen said.

“Well, it can be understood this way for the time being, but it’s not necessarily a good thing. After all, there will be greater danger after entering other worlds. We don’t know what kind of strong cultivation will be in other worlds. Now we are still too weak. Now we are too weak for heaven and earth.” Xiao Qingyuan seems to be a little disappointed.

“Well, Grandpa, since your cultivation has reached the current level, you can guide other experts to practice. I suddenly remembered that I still have a lot of things to do. I’ll come back to you after I finish these things first.”

Xiao Chen said and turned into a streamer. Flew directly to a hospital in Kyoto.

After hearing Xiao Qingyuan's statement, Xiao Chen suddenly realized that he was likely to leave his world soon, since he was leaving. Before that, I have to do what I haven't done before and what I should do.

Think so. Xiao Chen soon came to a hospital bed. At this time, there was a woman lying on it. Her face was completely pale, and the whole person had no anger. She just lay quietly.

After seeing her, Xiao Chen couldn't help thinking of some previous things. She investigated with her in Huanghai village of Wuling. At that time, she was desperate to help herself.

But she ended up like this, but now Xiao Chen has the ability to change everything. Fortunately, at that time, she saved her life with the Qi of yin and Yang in her body. Now Xiao Chen injected the breath of the spring of life in her body and the power of her rosefinch Nirvana into her body.

Then, an active breath surged up from Wu Zimei. That is the vitality of life. She is now reborn!

After a while, Wu Zimei became like a different person. Her beauty came back again and was more beautiful than before. A face was like a perfect jade. There are no flaws.

And she slowly opened her eyes, and saw Xiao Chen's appearance at the first sight. Now Xiao Chen can be said to be the most beautiful man in the whole world, because his body has been completely transformed by five totems and has the breath of the spring of life.

So Wu Zimei was stunned at the moment she opened her eyes.

"Are you... Xiao Chen?" Wu Zimei reached out and touched Xiao Chen's face.

"Yes, it's me. I'm completely different now. In order to thank you, I've come to help you renew your life. Now you can live for at least 300 years." Xiao Chen's face at this time was very plain, with a smile between his eyebrows and eyes.

It's just that he doesn't belong to the kind of expression in the secular world, but beyond the expression of human existence. Although he seems to be smiling, it makes people feel difficult to get close.
