

God tier Farm 1191

Chapter 1191: Popular before sale (2)

“Hehe! Don’t you have a share too?” Xia ruofei laughed. “Today’s press conference was a success. Your status as an internet celebrity will definitely increase again!”

“You still say it!” Feng Rao said coyly, “the previous incident had already slowly died down, but this time ...”

Xia ruofei couldn’t help but raise his head and laugh.

The audience had begun to leave in an orderly manner. Most of the e – commerce employees who had come here directly left, but there were still hundreds of real audience members and media reporters, most of whom went to the experience area.

At the press conference, the effects of the jaded skin cream were described by many celebrities as miraculous. The audience and reporters were naturally very interested, especially the media reporters. If they wanted to get first – hand material for the report, they naturally had to experience the effects of the jaded skin cream in person.

Feng Jing still had a lot of things to do.

She had to lead the team to deal with the aftermath. Besides, although Xia ruofei had settled the e – commerce channel, she still needed to discuss the specific things.

This included the opening of his own store, the specific time of release, and many other details.

Of course, Xia ruofei did not need to worry about these things. He had always been in control of the general direction and was used to leaving the specific problems to others.

“Chief Feng, can the production capacity of the pharmaceutical factory keep up?” Xia ruofei asked.

“It’s not a big problem!” Feng Rao replied without hesitation. The new production line had already been tested and put into use, so the production capacity was still relatively abundant! In addition, I’ve already asked the pharmaceutical factory to start production at full speed a few days ago! As for the skin code series, the jaded skin cream needs to be hand – boiled, and this time, you promised kyokuboku group that you would sell it at the same time. Are you okay with it?”

The original limited edition skin code series had to be pushed back for a period of time compared to the mass – produced version.

Of course, this was also due to the consideration of sales strategy. After the jaded skin cream was launched, it would first build up its reputation and accumulate word of mouth. When necessary, it could also be hyped up a little. Then, it would be more appropriate to release the luxury version of the skin code.

However, it was obviously unnecessary now. This press conference had already ignited the topic, and Xia ruofei had just promised Liu Dong to sell a limited edition jaded skin cream in jingbei mall.

"I've prepared the original jade skin cream," Xia ruofei said with a smile. "I can hand it over to the manufacturer at any time."

After the jade skin ointment was brewed by hand, it had to be further processed in the pharmaceutical factory, adding some expensive essential oil components, and then bottled.

"The quality must be guaranteed! I don't want to lie to the consumers, and I don't want the reputation that I've worked so hard to build up to be destroyed." Feng Rao said half – jokingly.

"Are you still worried that I'll do the work?" Xia ruofei asked.

Feng Jing rolled her eyes at Xia ruofei, but she had nothing to say.

Just like today's press conference, it looked dangerous before the start and was in danger of an empty space at any time, but Xia ruofei had solved it easily.

He's never failed on anything he's promised ... Feng Jing couldn't help but think.

"That's good!" Feng Jing said, "whether or not I can become famous all depends on this period of time!"

The Jade skin cream was extremely important to the entire peach blossom company.

The main reason was that the profits were simply too shocking!

Although Feng Jing complained on stage, emphasizing how precious the medicinal materials were, how harsh the production conditions were, and how high the cost was, Feng Jing and Xia ruofei both knew in their hearts that even the 3888 Yuan grade of Yushi cream only cost 20 to 30 yuan.

Of course, this account could not be calculated in this way. The most precious part of the jade skin cream was naturally not the medicinal materials themselves, but the intellectual property rights.

Without Xia ruofei's formula, even if they knew all the ingredients and gathered a group of experts to study it, they would not be able to crack the secret of the jade skin cream. This was the true value of jade skin cream.

But no matter what, the amazing profits of the jade skin cream were objectively there.

Xia ruofei smiled and said, "the other e-commerce companies' model is relatively simple. They just need to receive orders and deliver the goods. Meanwhile, President Liu has prepared a self-operating store for us at jingbei shopping mall, so we can use jingbei group's powerful logistics channel. When the time comes, as long as we send a sufficient amount of goods to the jingbei logistics' Sanshan branch, they will naturally coordinate and send them to several hub warehouses. After the customers place their orders, we don't need to do anything. The entire process will be done through jingbei logistics."

"I'll settle everything by today and arrange for the pharmaceutical factory to prepare the goods," Feng Jing nodded. "Don't worry!"

Xia ruofei laughed and said, "I've always trusted you!" "I'll set up a banquet to reward you all tonight. After you're done here, you can go over directly! I'll send you the location on WeChat!"

"Mm! Take care, Chairman!" Feng ke said.

In the evening, Xia ruofei invited song Rui, Zheng bang, and the team led by Feng Jing to the celebration party. The atmosphere was very lively.

At the same time, there was a heated discussion on the internet.

The two keywords “Jade skin cream” and “paradise Corporation” quickly became hot search terms, and “paradise Corporation” once again appeared on Weibo’s hot search list after the abalone auction.

?

Chapter 1192: Popular before sale (3)

The commenters on the internet also became active. There were more and more jokes about paradise Corporation. Although these jokes were mostly meant to ridicule it, they objectively increased the exposure of paradise Corporation. Xia ruofei and Feng Jing naturally welcomed them. Even if there were some jokes about paradise Corporation, they just laughed it off.

The next day, there were many people on the streets discussing the peach blossom company and the jade skin cream.

In an office building in Beijing, three white – collared women were chatting in the tea room while holding cups.

“Lili, did you see the press conference of the jade skin cream yesterday? It sounds pretty good!”

Lily took a sip of her coffee and said with disdain, “It’s all hype! Cosmetics nowadays are mixed. I can’t believe such a small company! If you’re going to buy something, buy a big brand, the quality is guaranteed.”

Another white – collar worker immediately expressed a different opinion. “Lili, you definitely didn’t watch the live broadcast yesterday! Even Jennifer praised the magical effect of the Jade skin cream, I don’t believe that anyone could have hired Jennifer to help him hype up the news. Her husband is a super rich man with a net worth of tens of billions!”

“Jennifer?” Lily was stunned.

“Isn’t that so?” The White – collar worker said, “I’m telling you, she’s not the only one! There’s also the Cannes Best Actress Natalie, Juliana, Helena, and Catherine ...”

The White – collar worker was counting the International stars that appeared in the video of the press conference yesterday. Lily, who was beside him, was almost petrified.

After she came back to her senses, she quickly put the cup down and said, “So awesome! I have to go and see the replay! Hurry up and send me the link to the video!”

After that, Lily hurried back to her desk.

.....

At the University of Jiangsu and Zhejiang, Qiantang city, Jiangsu and Zhejiang Province.

A few girls were walking around the campus with books in their hands.

One of the girls with two braids turned around and asked while walking backward, ""Woof! Do you think the jade skin cream that has been so popular these past two days is reliable?"

"With so many celebrities around, surely they can't just lie with their eyes open!" A girl with a few freckles on her face said hesitantly, "besides, this company's products have always been the best. My grandfather has eaten the Ironhide fengdou from paradise company before, and its effects are much better than other brands 'fengdou!'"

"Iron – Skin Kaede and skin care products are two different things!" The girl said, "this company has never produced any cosmetics before. Is it really that magical to suddenly release a new product?"

At this time, the Apple – faced girl who didn't speak earlier suddenly said, ""Stop arguing. I think this jade skin cream is most likely reliable!"

"What do you mean?" The braided girl hurriedly stopped and asked.

The Apple – faced girl had always been well – informed. In the dormitory, she was known as an all – knowing scholar. She pretended to be mysterious and looked around, then lowered her voice and said, ""Did you know? I saw Tao Jingjing using a skin care product a few days ago, but I couldn't recognize the brand at that time. After watching the press conference of the jade skin cream yesterday, I remembered that Tao Jingjing was using the jade skin cream!"

"Ah? Really?" The girl with freckles on her face said, "doesn't that mean ..."

The Apple – faced girl nodded and said, "she must have gotten the trial Jade skin cream in advance!" Think about it, what kind of person is Tao Jingjing? Her father was a high – ranking official in the capital! Even she was using the jade skin cream, which meant that this skin care product must be extraordinary. It might even be comparable to those luxury brands that cost thousands or even tens of thousands! Otherwise, how could Tao Jingjing possibly use it?"

"That's true! Which part of her body isn't branded?" The girl said.

The Apple – faced girl said, "yes!" What was even rarer was that the selling price of the jade skin cream was quite affordable. The 588 Yuan model was still affordable! I'm telling you, I've already made a reservation at kyokuboku mall. It's just a matter of luck on the day of release!"

"I'll make an appointment immediately too!"

"I'll go too!"

.....

Similar scenes played out in different places in the country. The data from e – commerce platforms such as jingbei shopping mall showed that the number of reservations for the jade skin cream had exceeded 100000 in just one day. Even the limited edition jade skin cream had more than 200 reservations.

Looking at the data, Xia ruofei couldn't help but feel that there were so many rich people in China!

The limited edition jade skin cream was sold for as high as 880000 Chinese dollars!

The limited edition jade skin cream was also sold in very small quantities. The five e – commerce platforms only sold 30 copies in total.

Even though they might not necessarily buy it even if they made a reservation, the data made it clear that the cream was already popular even before it was sold ...

?

Chapter 1193: The joy of family (1)

Xia ruofei stayed in the capital for three days. After attending the press conference, he had a small gathering with Song Rui and other friends. Then, he hurriedly took a flight back to Sanshan.

He had promised Lin Qiao that he would try his best to go back before the holiday.

Of course, things in the capital were almost done. Feng Jing stayed behind to finish some follow – up work and should be back in a few days. Xia ruofei was just going back first.

It was ten in the morning when they returned to Sanshan. Xia ruofei returned to Taoyuan farm to get a brief understanding of the company's situation. During the period when Feng Jing was not at home, the marketing director, Xiao Qiang, was temporarily in charge of the company's operations. Especially after the release of the jade skin cream, which was extremely popular, there was a lot of work to be done after that. Xiao Qiang was the one who led people to work overtime day and night.

Xia ruofei listened to Xiao Qiang's report and focused on understanding the production situation and stock situation at the pharmaceutical factory. After all, it was going to be sold on several e – commerce platforms at the same time. From the pre – orders, it could be predicted that the sales would be explosive.

Of course, not everyone who made a reservation could buy it. There would definitely be a limit to the number of sales. This was not an intentional hunger marketing, but limited by the current production capacity.

Of course, the rarer something was, the more expensive it would be. An appropriate limited sale would still stimulate the consumers' desire to buy it. This was a method that had been tried and tested time and time again.

This was also the reason why some cell phone brands were always criticized for the limited purchase, but still insisted on this approach.

Xia ruofei didn't have the habit of holding a long meeting. After listening to Xiao Qiang's report, he simply gave a few instructions and let everyone continue with their work. Yingluo was very busy now. Since everyone was working according to schedule, Xia ruofei certainly wouldn't give them any instructions.

Of course, it was almost time for lunch. This was also a very important reason. Ran ran had already told Lin Qiao that she would be there for lunch.

11:30 am, daguantian District.

Xia ruofei drove the Knight XV into the underground parking lot of the community. When he bought a house for Lin Qiao, Xia ruofei bought a parking space.

Parking spaces were in high demand. If he had not had a good relationship with jianda group, he would not have been able to buy one at the end of the day.

Lin Qiao and Hu 'Zi's mother didn't drive, and they rarely came over to stay. This time, it was the National Day holiday, and Lin Yue' e had brought her daughter, Nan Nan, back to the farm's staff dormitory. Therefore, the mother and daughter moved to the new house to stay for a few days.

However, Xia ruofei felt that he would need a parking space in the future. Since he did not have much money, he would just treat it as an investment.

As a matter of fact, it was very convenient to have a parking space when he occasionally came over. He could directly enter the community and the underground parking lot by swiping the car owner card.

After he parked the car, he took the elevator from the underground parking lot with two large bags of things and went directly to the high – end residential area on the 18th floor, the Grand view of the world. There was one unit per elevator, and only by swiping the owner card could he enter the corresponding floor, which was quite safe.

Of course, Xia ruofei also had a business owner card.

One of the bags was the Taoyuan vegetables that Xia ruofei took out from the medium. The other bag was some special pastries and Beijing Opera masks that he bought for Lin Qiao in the capital.

Coming out of the elevator, there was a wide corridor directly. The elevator was used by a card, and the escape passage of the corridor was one – way and could only be opened from the inside to the outside. So, this corridor was actually the private space of the owner.

Xia ruofei took a few steps to the door and moved the two big bags to one hand. Then, he reached out and pressed the doorbell.

Hu's mother's happy voice came from inside the house. ""They're coming!"

After the door opened, Xia ruofei smiled and said, ""Godmother!"

"RUO Fei, come in quickly!" Hu Zi's mother was wearing an apron. She personally took out a pair of slippers for Xia ruofei from the shoe cabinet at the entrance and called him into the house.

"Godmother, how's your health recently?" Xia ruofei put the bag on the ground and asked with a smile as he changed his shoes.

"Very good!" Hu Zi's mother laughed and said, "now, besides picking Nan Nan up every day, I also have to go to zuohai Park for a walk and sing with the group of old ladies. Didn't you say that walking more is

good for the body? See, I've been wearing the bracelet you bought for me! More than 10000 steps a day!"

Before Hu Zi's mother moved back to the city, Xia ruofei bought her a smart bracelet online and spent a lot of money to teach her how to synchronize data with her phone. Now, the old lady was quite fashionable and even knew how to share her steps on her WeChat moments. Although she didn't have many friends on WeChat, she still enjoyed it.

Xia ruofei smiled and said, "I know, I know. You can see it on your WeChat moments!" You've done well ..."

As the two of them were talking, there was the sound of hurried footsteps coming from the stairs.

Although it was a flat – Floor house, it was on the top floor, which was higher than the other floors. The roof was two stories high, so it was only separated by an attic during the renovation. The entire upper floor was Lin Qiao's boudoir.

After all, Hu Zi's mother was old and it was not safe for her to go up and down frequently, so her room was downstairs.

"Brother ruofei!" Lin Qiao's voice was full of joy.

Xia ruofei changed his shoes and walked into the living room. He saw Lin Qiao rushing down the stairs and into his arms.

?

Chapter 1194: The joy of family (2)

Xia ruofei's eyes were filled with adoration. He smiled and said, "You little girl, you're already a university student, but you're still so energetic! Slow down, don't fall ..."

"We have brother RUO Fei here!" Lin Qiao wrapped her arms around Xia ruofei's waist and looked up at him with a smile. Her eyes were full of reliance on Xia ruofei.

Hu Zi's mother laughed. "You little girl. How old are you already? why are you still so clingy to your brother ruofei?"

Lin Qiao smiled mischievously and said, "mom!" Quickly go and cook! You've been talking about making delicious food for brother ruofei since yesterday ..."

"Alright, alright, alright!" Hu Zi's mother said, "ruofei, take a rest in the living room. Dinner will be ready soon!"

"Alright, godmother, thank you for your hard work!" Xia ruofei quickly said.

"This child, you're still being so polite to godmother!" Hu 'er's mother rebuked.

"Oh, godmother! I've brought you some vegetables, you can put them in the refrigerator!" Xia ruofei said as he passed the bag of Taoyuan vegetables to Hu Zi's mother.

"You bring something every time you come! Aren't you wasting money by selling these vegetables at such an expensive price?" Hu's mother nagged as she took the bag to the kitchen.

Even though she was blaming Xia ruofei, her eyes were filled with relief.

In the living room, Xia ruofei glanced at Lin Qiao and said, ""Stop looking! The things in this bag are for you!"

"Long live brother ruofei!" Lin Qiao cheered and grabbed the big bag."Wow! Yellow pea cake! Poria Cocos Park! And date paste cake ..."

Seeing Lin Qiao's happy face, Xia ruofei couldn't help but shake his head."What a greedy little cat ... Hey! Don't eat it now! I won't be able to eat later ..."

Lin Qiao's mouth was stuffed with pastries as she mumbled, "It's okay, I'm just trying it ..."

Xia ruofei shook his head with a bitter smile.""This girl ..."

"Qiao' er, how does University feel?" Xia ruofei asked as he leaned on the sofa.

"Not bad! Most of the first years are basic courses, but you've also come into contact with some professional stuff. There are many big names among the teachers!" Lin Qiao said.

Xia ruofei nodded and said,"systematic learning is very important. Don't think too much over the next few years. Just focus on your profession. Don't save on money. Your brother is not short of money now!"

"I know!" Lin Qiao said,"you gave me so much money in one go. I won't be able to finish spending it in four years!"

When Lin Qiao started school, Xia ruofei secretly gave her a bank card with 300000 Yuan in it.

Lin Qiao had always been very sensible. Xia ruofei was not worried that she would spend money recklessly. Anyway, he treated Lin Qiao as his own sister. Girls should be raised well and could not be wronged.

"I'm afraid that you won't be able to bear to spend the money, so I've made you a bank card!"Xia ruofei smiled.

"Brother ruofei is the best!" Lin Qiao said with a sweet smile.

Very quickly, Hu Zi's mother had finished cooking. The three of them sat in the bright and spacious dining room and had a happy lunch.

Everyone was in a good mood today, so they drank a little wine. Lin Qiao also drank two glasses of Semillon wine. Her little face was red, which made her look even more lovely.

After the meal, Xia ruofei smiled and said,""Godmother, Qiao' er, I bought each of you a piece of Jade when I went to the capital this time ..."

"RUO Fei, you're wasting money again!" Hu Zi's mother reproached, "Godma is already so old, why is she still wearing Jade?"

"Jade is meant to be used. What does this have to do with age?" Xia ruofei smiled and said, "I spent a lot of time and effort to get this Jade. You must wear it on your body and never take it off!"

Xia ruofei said as he took out two protective jade leaves from his bag.

When he opened his palm, Hu Zi's mother and Lin Qiao couldn't help but widen their eyes.

"So beautiful! It's like a real leaf!" Lin Qiao was indeed a student of advertising design. She was keenly aware of the extraordinariness of these jade leaves. "I feel that they seem to have a spirit of their own. They look very comfortable and harmonious!"

"Ruofei, this Jade must be very expensive, right?" Hu Zi's mother said, her heart aching.

Xia ruofei smiled and said, "I didn't spend much! "Godmother, you have to remember my words. This Jade has to be worn on your body to change your aura. If you hide it at home, it'll be a waste of my good intentions. Also, you can't let others touch it easily, or else your aura will be chaotic, and my money will really be wasted ..."

Xia ruofei was also worried that Hu Zi's mother would think that the Jade was too precious and would not bear to bring it along. If she kept it as a treasure, it would really be a waste.

Moreover, wearing Jade had these requirements, so he was right.

Hu Zi's mother also knew Xia ruofei's temper. The Jade Leaf had already been bought, and she had no choice but to accept it. Back then, Xia ruofei had tried his best to make her accept the entire house!

She had no choice but to smile bitterly and said, "I know!" Godmother will definitely wear it every day and will never take it off!"

"Me too!" Lin Qiao immediately raised her hand.

Xia ruofei was relieved. He stood up and said, "Come, come, come, I'll help you put it on now! Godmother first!"

With that, Xia ruofei placed one of the Jade leaves on the coffee table and picked up the other Jade Leaf. He walked behind Hu Zi's mother.

?

Chapter 1195: The joy of family (3)

Hu Zi's mother was still a little embarrassed, but she could feel Xia ruofei's deep filial piety, so she nodded her head in relief.

Xia ruofei wrapped the red string around Hu Zi's mother's neck and fastened it to the back.

During this process, he had already used his zhenqi to form a thread and lightly pricked the skin where the Jade Leaf was, secretly staining the Jade Leaf with a trace of Hu Zi's mother's blood.

The Jade Leaf immediately absorbed Hu Zi's mother's blood.

Hu Zi's mother could vaguely feel that she was very close to this Jade Leaf. She picked it up with great fondness, lowered her head, and examined it. She smiled and said, "Ruofei, you don't say. This piece of Jade seems to have a spirit. Godmother likes it a lot!"

Xia ruofei smiled. "I'm glad you like it. Remember. You must ..."

"Wear it on your body, and don't take it off at any time!" Hu Zi's mother and Lin Qiao both said in unison.

Xia ruofei smiled bitterly. You all know how to answer first ..."

Lin Qiao smiled and said, "you've said it several times in this short period of time. How can we not remember it?" Brother ruofei, don't repeat yourself! Otherwise, you'd be Mrs. Lin!"

Xia ruofei said, "Okay, okay, okay!" Just remember that!"

"It's my turn!" Lin Qiao said eagerly. Brother ruofei, help me put it on!"

Xia ruofei smiled as he picked up another Jade Leaf and put it on Lin Qiao's finger. During the process, he naturally did the same thing.

Xia ruofei did not intend to let Hu Zi's mother and Lin Qiao know the special nature of this Jade Leaf. Anyway, as long as they wore the Jade Leaf at all times, it was equivalent to giving them a powerful protective talisman. Xia ruofei could rest assured of their personal safety.

Lin Qiao naturally felt the closeness between her and the Jade Leaf and fondled it with love.

"Godma, Qiao' er, why don't you stay at the farm today?" Xia ruofei asked with a smile.

Lin Qiao immediately replied, "okay!" I still want to see master and the others!"

When Lin Qiao was interning at the Paradise company, two female employees taught her how to use PS, AI, and other software. They helped her do a lot of design, and the other employees in the art design team had a good relationship with her.

Hu 'Zi's mother hesitated for a moment before saying, ""We've just moved into our new house ..."

Lin Qiao said, "the house doesn't have legs. It can't run away." You haven't been staying here for more than a month!"

"You little girl! What are you saying!" Hu 'er's mother laughed and scolded.

Xia ruofei also tried to persuade her, "godmother, just go back and stay for a day!" Don't you miss Nan Nan?"

Hu Zi's mother was in charge of picking up and sending Nan Nan every day. She had also established a deep relationship with the cute little angel. When she heard this, she no longer hesitated and nodded slightly.

“Yay!” Lin Qiao cheered, “let’s go! Let’s set off now!”

The three of them cleaned up the house and drove back to the farm.

As soon as Lin Qiao returned to Taoyuan farm, she took some small gifts she bought on Egret Island and went straight to the company’s general office building to meet her former colleagues.

On the other hand, Hu Zi’s mother ran to the staff dormitory to see Nan Nan.

She said she was going to stay for a day, but in fact, Lin Qiao didn’t want to leave after she stayed. Xia ruofei drove her to the high – speed rail station to return to Egret Island on October 7th. Then, he sent Hu Zi’s mother back to the rental house in the forestry Bureau’s family area. For the convenience of sending and dropping Nan Nan off, Hu Zi’s mother still lived in this rental house. The new house at “Grand view of the world” was empty most of the time.

After sending Hu Zi’s mother off, Xia ruofei did not stay in the city for long and immediately drove back to Taoyuan farm.

Two days ago, the company’s official website and several other e – commerce platforms had announced that the Jade skin cream would be on sale on the last day of the National Day. The time was 12:00 PM.

Feng Jing had already returned to Sanshan. The company’s administrative department, sales department, and even finance department had all been transferred together just for the sale of the Yushi cream. They had to monitor the background data of all major e – commerce platforms, answer customers’ questions, arrange the delivery of goods after the sale, produce data reports, and so on. There was still a lot of work waiting for everyone to complete.

Xia ruofei returned to the farm at 11:50.

He drove straight to the comprehensive office building and quickly walked up.

No one went to the cafeteria to eat. They were all gathered in a large office on the third floor, nervously watching the situation on the various platforms.

There were only a few minutes left before the sales would be open. Whether the previous popularity of the jade skin cream was false or not would depend on the situation this time ...

?

Chapter 1196: Earning a hundred million in two minutes (1)

In the big office, the employees in charge of the platform’s back – end data each had their own duties. Feng Jing, Xiao Qiang, pang Hao, and the other company executives were standing in the office.

Seeing Xia ruofei enter, Feng Rao immediately went up to him and greeted, “The chairman is here!”

“How’s the situation?” Xia ruofei asked.

“Everything is ready.” Feng Jing said, “other than the shop in the heavenly cat, the other four e – commerce companies have opened their own shops for us. The first batch of goods we prepared three days ago has been sent to the nearest e – commerce warehouse. We will have to deal with the orders from the heavenly cat.”

“Can that person spin it?” Xia ruofei asked.

“We will definitely need to hire people to operate it in the long run.” Feng Jing said, “for now, other than the employees who are already running the shop, our administrative and marketing departments have tried to transfer as many people as possible to support us. Let’s deal with today’s peak order first.”

“Mm! We’re still releasing the goods in stages. After we’re done today, we’ll hurry up and recruit people!” Xia ruofei said.

“Understood!” Feng Rao replied.

“How’s the coordination in the logistics department?” Xia ruofei continued.

Feng Jing said, “our shop has been operating normally. It’s just that we didn’t focus on our business in the past. However, we have signed a major customer Agreement with the logistics company. This time, the news of our jaded skin cream has been hyped up. The logistics company has also contacted us on their own initiative and said that they will give us certain preferential policies to ensure that we can send orders to the entire country as soon as possible.”

Xia ruofei nodded. “Other than special requests from our customers, we will try our best to use high – Quality logistics companies. It doesn’t matter even if the cost is slightly higher.”

“Understood!” Feng Jing nodded and said, “most of our orders are from SF Express. They’re fast and reliable!”

“Very good. Our company focuses on improving our brand. You have to pay attention to every detail!” Xia ruofei said, satisfied.

At this moment, Feng Jing’s assistant, Liu Qian, said nervously, “It’s time!”

Xia ruofei and Feng Rao looked at each other and walked over.

A row of computers displayed the data of different e – commerce platforms. Feng Jing even had someone download plug – ins to read the server time of each platform.

Nowadays, the internet was basically used to synchronize time, so the server time of each e – commerce platform was roughly synchronized, and the error would not exceed half a second.

When the time displayed on the plug – in became 12: At 00:00, the back – end data immediately began to rise wildly.

The real – time order data shot up like a rocket.

In less than ten seconds, the number of orders on each platform exceeded 1000.

And this number was still rising.

Every second that passed, a large number of orders would appear.

At 12:02, the employee in charge of monitoring jingbei shopping mall's own store, Taoyuan, stood up first. His voice was filled with irrepressible joy. "Chairman, CEO Feng, jingbei mall is sold out!"

Almost at the same time, the inventory of the gold mining group's Skycat flagship store and the remaining four platforms were all sold out.

Feng Rao was very excited. She couldn't help but clench her fists and said, "Beautiful! Chairman, we've definitely succeeded this time!"

For the first sale of the Jade skin cream, Xia ruofei had distributed 10000 copies to each e-commerce platform. Among them, 5000 copies of the 588th edition, 3000 copies of the 1888th edition, and 2000 copies of the 3888th edition. In addition, he had also specially provided 30 limited edition skin code series, five copies each for each e-commerce platform.

It was equivalent to more than 50000 bottles of jaded skin cream, and it was all sold out in just two to three minutes. This was a rather impressive result!

Even the limited-edition jaded skin cream that cost 880000 Yuan a bottle was sold out. It was 880000 Huaxia dollars, not 88 yuan! It could only be said that there were too many rich people nowadays.

The employees were all overjoyed, but Xia ruofei was very calm. He smiled and said, "This is just the beginning! Moreover, they've only bought all of them now. It's hard to guarantee that there won't be any future orders that are canceled due to late payments or refunds ..."

"That's definitely not the majority!" Feng Rao said with a smile. Chairman, don't you worry! Our jaded skin ointment is on fire! Our paradise Corporation is going to be famous all over the world ..."

Naturally, Xia ruofei was very happy, but he didn't know whether to laugh or cry. The main business of the Tao Yuan company was the production and sales of agricultural products. However, after so long, the most popular product was actually a skin care product. Perhaps the special medicine for treating autism, Yangxin soup, would be launched soon, and it would be even more popular!

Xia ruofei thought to himself, "isn't this a little improper?"

At this moment, Feng Rao walked up to them with a smile and said, "Chairman, why are you in a daze? Was he calculating how much money he had earned? Don't bother, the sales statistics are out! Take a look!"

Xia ruofei took the report that had just been printed out and looked at the total figures. The total sales this time had reached more than 108 million Yuan.

The cost of this batch of jaded skin cream, including the raw materials, labor, logistics, platform, and so on, would not exceed three million Yuan. It was not even a fraction of the sales.

In other words, in a short two minutes, the Paradise Corporation had made a profit of 100 million!

?

Chapter 1197: Earning a hundred million in two minutes (2)

Huge profits! It was definitely a huge profit!

This was even faster than robbing a bank!

That's why they say women's money is easy to earn. Otherwise, how could all those cosmetic companies, big and small, earn so much money? After Xia ruofei had experienced it for himself, he finally felt the madness.

Of course, other cosmetic companies definitely did not have such a high profit rate like paradise Corporation.

Seeing that Xia ruofei was in a daze, Feng Rao gently pulled on his sleeve.

Only then did Xia ruofei snap out of his daze. He understood what Feng Jing meant and immediately announced loudly, "Dear colleagues, I have a piece of good news to report to you. During the launch of our new product, the jaded skin cream, our sales broke through 100 million Yuan in two minutes!"

The office was suddenly filled with cheers and applause.

Xia ruofei waited for the noise to die down before continuing with a smile, "And this is only because we've implemented a purchase restriction. If we open up the market for purchase, this number will increase by a large margin, or even several times!"

"Alright! Everyone's mission has just begun!" Xia ruofei said, "the biggest test is yet to come. Whether we can handle so many orders in time and deliver the products to the customers as soon as possible will depend on everyone! My fellow colleagues, you've all worked hard! After this, I'll treat everyone to a meal and give everyone red packets!"

"Boss, can I change it to travel benefits?"

Xia ruofei replied without hesitation, "sure!" Any travel expenses within 20000 Yuan will be covered by the company. However, we have to leave in batches ..."

After earning so much money in one go, Xia ruofei was naturally not stingy and generously promised generous benefits.

"Yay! Long live the boss!"

"Alright, alright. Everyone, get into position!" Feng Rao clapped her hands. I'm working overtime today to settle the order!"

Everyone in the office got busy. Some were doing some confirmation work in the background, some were contacting the logistics company, and some were sending the order data.

In the warehouse area of the pharmaceutical factory, many people were also busy printing orders, packing products, and so on. The logistics trucks of SF Express, which had been waiting in advance, also moved quickly. Everyone was united, so the efficiency was naturally quite high. The local buyers would receive the goods as soon as this evening.

Xia ruofei and Feng Jing walked out of the office.

Feng Jing grumbled with a smile, "Chairman, you're too generous. You gave out 20000 per person in a single sentence. There are dozens of people participating in this 'battle'!"

"The company is making money, what's wrong with giving everyone some benefits?" Xia ruofei said with a smile.

"The money hasn't been transferred to my account yet!" Feng Jing said, "these e – commerce platforms all have a payment cycle. Besides ... We haven't even settled on our building in the city yet! Don't spend so much money next time ..."

Xia ruofei accepted her advice and smiled. "Alright, alright, alright! I'll be more careful next time!"

In the next few days, everyone in paradise Corporation was in a state of excitement and business.

After all the orders were settled, everyone heaved a sigh of relief.

However, Feng Jing couldn't rest. It wasn't normal to mobilize people from various departments to fight the fire, so her top priority was to recruit people.

Fortunately, the customer service, after – Sales, and warehouse management of the e – commerce platform were not too professional. The academic requirements were not very high. As long as a person with a normal IQ had been trained for a period of time, they could basically do the job.

However, as the number of employees in the company increased, the relocation of the headquarters naturally became more and more urgent. The office space at the misty Paradise Farm was limited, and it was impossible to move all the recruited people to the suburbs. Food and lodging were a problem for these people.

Hence, while Feng Jing was handling recruitment matters, she would often find time to visit the city, hoping to find a suitable location, preferably a building, to prepare for the relocation of the headquarters.

Of all the orders, there were definitely cases of late payments and customers not wanting to return the goods after receiving them. However, these cases were extremely rare among the total of more than 50000 orders, so the sales figure had undoubtedly exceeded 100 million Yuan.

A few days later, the e – commerce platform's payment was gradually transferred to the peach blossom company's accounts.

The company that received the money the fastest was naturally the jingbei group. On one hand, with their relationship with Zheng bang, the money would have to be paid sooner or later, so Liu Dong was naturally willing to do them a favor. On the other hand, kyokuboku group's logistics level was also the highest, which meant that the order completion was the most timely, and the money would be transferred the fastest.

A few days after jingbei group's 20 million Yuan payment was received, the other four e – commerce platforms also gradually returned the money.

It was also the first time that paradise corporation's account had such a large amount of cash flow.

One day, Xia ruofei had just arrived at his office when Feng Jing quickly entered with the financial statements.

She smiled and said, "Chairman, the payment from the five e-commerce platforms has all been transferred to our accounts. After deducting the channel fees, our net income has reached about 102 million!" This is the detailed report, take a look!"

Xia ruofei waved his hand and laughed. "I only need to know the numbers. I won't look at the specific reports!"

Feng Jing didn't force him. She kept the report and said seriously, "Chairman, we can't wait any longer for the relocation of our headquarters. It must be completed as soon as possible. So ... You can't embezzle this 100 million Yuan to other places!"

Xia ruofei laughed. "I was wondering why you were so enthusiastic. You even personally sent the report over. It turns out that you were waiting for me here!"

Feng Rao blushed and said, "I'm doing this for the company!"

One must know that Xia ruofei had a 'previous record'. Last time, he had earned nearly 200 million Yuan with great difficulty, but before he could even keep it, Xia ruofei had used it to buy a courtyard house.

Feng Jing didn't want something like this to happen again. If she didn't have enough funds to move the headquarters, she would really go crazy.

Xia ruofei nodded and said, "Okay, okay, okay!" I promise I won't use this money! If you don't have enough funds for the relocation of the headquarters, you can come to me again!"

"That's more like it. You're like a boss ..." Feng Jing chuckled.

"I've never been a qualified boss!" Xia ruofei said with a sad expression on purpose.

"You only just found out!" Feng Rao chuckled.

The two of them joked for a while before Xia ruofei asked, "How's the production at the pharmaceutical factory?"

"It's very smooth! We've already hoarded a lot of goods!" Feng Rao laughed. "The jade skin cream is so profitable that Xue Jinshan can't wait to use all the production lines to produce it!"

Xia ruofei said seriously, "that won't do!" The heart nourishing soup project was no less important than the jade skin cream! Besides, this is a good thing to do. We can't just focus on making money ..."

"He was just joking!" Feng Jing smiled and said, "Xue Jinshan has always been in charge of the heart – nourishing soup project. He has feelings for this project. How could he not care about it?"

"I knew it!" Xia ruofei also smiled and asked, "have you set the release date for the next batch of goods?"

"I'm pretty much sure, probably in half a month!" Feng Rao replied immediately. Our first batch of goods has been delivered to the consumers. Most of them will definitely use it at the first moment. The effect of the jade skin cream is beyond doubt. It will definitely cause another wave of craze! We're planning

to hold it down for now and wait for half a month before we open it for purchase. By then, the sales will definitely be quite hot!”

Xia ruofei smiled and pointed at Feng Rao.””It seems like you’ve grasped the essence of hunger marketing! Alright, we’ll do it according to your plan!”

“Yes, Chairman!” Feng Jing stood up and left Xia ruofei’s office.

In another half a month, the jade skin cream would usher in the second round of sales. It was still 50000 copies, but this time, there was no limited edition skin code series. The rarer something was, the more expensive it was. Only 100 bottles of this limited edition skin code series were sold in China a year. It was impossible to sell a year’s quota in two or three times! They would definitely have to keep it for the event and sell a small amount.

Even without the 30 bottles of limited – edition jade skin cream, the sales of 50000 square meters of jade skin cream would be at least tens of millions.

Although the second round of sales was important, Xia ruofei could not attend it personally. He had more important things to do and had to leave the three mountains for a while. He estimated that the second round of sales would have ended by the time he returned.

Just as everyone was busy preparing for the second round of sales, Xia ruofei had already arrived at Sanshan airport in the Knight XV SUV driven by ye Lingyun, dragging a small suitcase.

?

Chapter 1198: Returning to Australia (1)

At the entrance of the International departure hall, Xia ruofei took the small login case from ye Lingyun’s hands and smiled.””Ling Yun, let’s stop here! There’s still a lot of work waiting for you at the farm!”

“Don’t worry, brother Xia!”Ye linyun nodded. The quality of this batch of tea leaves you gave me is very good. I will definitely be able to make high – Quality Da Hong Pao! They definitely won’t ruin our paradise corporation’s reputation!”

Xia ruofei laughed,”of course I believe you!” Otherwise, I wouldn’t have given you all of this business! Ling Yun, you’ll just take care of the tea. The company will do its best to ensure the rest. If you have any difficulties, just look for President Feng. I’ve already spoken to her!”

“Understood!” Ye Lingyun said bluntly.

Xia ruofei beckoned to ye Lingyun and pushed the boarding box into the airport Hall.

.....

Ten hours later, Xia ruofei walked out of Sydney’s Kingford Smith International Airport.

He had come here this time specifically to improve the quality of the winery’s grapes.

Australia was in the Southern Hemisphere, and its season was the opposite of China. September and October were the best season for grape planting.

Xia ruofei had already prepared the grape seedlings in advance.

Through Xia Qing's repeated experiments in the spirit map space, she finally managed to cultivate the excellent breed of half – Ilon white grapes.

Semillon itself was a species of white grape with an extremely strong vitality. In addition to the unique conditions in the spirit map space, Xia Qing made use of the time flow that was thirty times faster than that of the Archean realm. After a few experiments, she obtained the best species of grape and quickly began to reproduce these grapevines.

After cultivating a batch in the Archean realm, he would immediately transplant them into the mountain and sea realm. Then, he would continue to cultivate another batch in the Archean realm. Now that there were enough grape seedlings in the mountain and sea realm, he could completely replace all the grape seeds in the two wineries under Xia ruofei's name.

Xia ruofei should have arrived in Australia earlier.

However, he had been busy with this and that for a while and had almost never stopped. When the Jade skin cream was finally a success, he could finally free up some time, so he quickly flew to Australia.

This was because if they delayed any longer, they would miss the best season for grape planting.

Xia ruofei stepped out of the airport, looked at the blue sky and white clouds that were the symbol of Australia, and took a deep breath.

From afar, Liang Qichao had already walked up to them.

"Boss, you've had a long journey!" Liang Qichao said with a smile.

Xia ruofei punched Liang Qichao's shoulder and said,""Brother Liang, Australia's soil is really nourishing! Your weight has grown again!"

"Don't mention it ..." Liang Qichao said,"I gain weight easily. I put on weight even when I drink cold water. It's hard work here ..."

"Come on, you ... You should be very nourished!" Xia ruofei exposed him without mercy.

Every day, he lived in a farm with thousands of hectares of green grass, with a man – made Lake as clear as a mirror at the entrance, accompanied by swans and kangaroos all day long. It was simply a fairy – like life!

Liang Qichao chuckled and took Xia ruofei's login case very naturally. The two of them walked towards the parking lot.

On the way to immortal farm in Hunter Valley, Xia ruofei asked,"Have you prepared the warehouse I asked you to rent?"

"Of course! We've settled all the paperwork yesterday, and the right to use that warehouse will be ours for the next month!" Liang Qichao asked, "what are you trying to put in there? The farm is so big, yet it's not enough for you. Why do you have to rent a warehouse outside?"

"It's a secret!" Xia ruofei smiled mysteriously and said, "take me to her first!"

Liang Qichao pursed his lips. "You're still trying to keep me in suspense ... Fine, fine, fine. I don't care about the boss's business. I'll Take You There now!"

Xia ruofei had searched for the warehouse on the internet and called Liang Qichao to rent it. It was also in the Hunter Valley area.

After checking the warehouse, Xia ruofei was quite satisfied.

The situation was similar to what he had seen on the internet. First of all, it was big enough to fit so many grape seedlings. Besides, the location was relatively remote. Xia ruofei had taken a look on the way there. There were no surveillance cameras at the nearby intersections, which made it easier for him to do things.

"Alright! Not bad, not bad!" Xia ruofei said happily, "brother Liang, give me the key to the warehouse! I'll be useful these two days! Oh right ... Help me find two trucks in two days. Hmm ... The day after tomorrow at eight in the morning! Wait at the entrance of this warehouse!"

"No problem!" Liang Qichao passed the key to Xia ruofei.

The two of them got back into the car and headed to Paradise Farm.

Xia ruofei leaned back on the passenger seat and looked at the beautiful scenery outside the window. He asked, ""Brother Liang, there's no problem with the seeds we sent over last time, right?"

Immortal Land Farm had completed the planting experiment, and Liang Qichao was eager to show off his skills, so he quickly sent the planting plan and the seeds back to China.

Naturally, Xia ruofei would not be against money. After all, Paradise Farm earned US dollars! Therefore, he quickly contacted a few seed companies that he had contacted in advance and transported the seeds to the warehouse in San Shan city in the shortest time possible.

Then, Xia ruofei would find time to bring all these seeds into the spirit map space and let Xia Qing finish the job of soaking and drying them.

Due to the flow of time, all the strengthened seeds had been processed within a day.

?

Chapter 1199: Returning to Austria.2

Xia ruofei quickly informed Feng Jing and asked her to arrange for the seeds to be sent to Australia.

“No problem!” Liang Qichao said excitedly. I’ve basically planted all of them. The rate of germination is quite high, and from the looks of it, they’re growing very well!”

“That’s good!” Xia ruofei also smiled. “This means that our Paradise Farm will soon start to generate a lot of cash flow ...”

Paradise Farm’s biggest advantage was that it had a large area and sufficient water. As long as there was no problem with sales, the profit was quite amazing. After all, paradise brand sold quality vegetables, and the price was not generally high.

Liang Qichao nodded and said, “vegetables have their own growth cycle. However, the growth rate of Taoyuan vegetables is much faster than ordinary vegetables, so this cycle can be shortened by a lot. I’ve already contacted Maya. We’ve initially Set Black Friday this year, and we’ll distribute the goods to all the supermarkets in the country at the same time!”

Black Friday was a popular “man – made festival” in the West in recent years. It was similar to China’s 11/11. The so – called Black Friday was the second day of Thanksgiving every year. Thanksgiving was the fourth Thursday in November, so Black 5 was the fourth Friday in November every year. On this day, businesses would do a lot of promotions, and it was also a Festival for the hand – chopping gang.

“Alright!” Xia ruofei nodded in agreement. “We can also cooperate with the supermarket and do a Black 5 promotion. However, we have to be careful not to give people the impression that we are common goods.”

“I understand! We’re still discussing the specific plan, and Maya still respects our opinions!” Liang Qichao said with a smile.

“We’ll have another big event on Christmas Day,” Xia ruofei said with a smile. “We’ll make Paradise Farm famous!”

“Great minds think alike!” Liang Qichao laughed.

.....

After returning to Paradise Farm, Xia ruofei checked out the peach Garden vegetables that had been planted on this scale under Liang Qichao’s lead.

Even though Xia ruofei had been mentally prepared, he was still shocked when he saw the endless vegetable field.

Liang Qichao was right. The seedlings cultivated from these seeds were very tenacious, and there was no soil in Australia that was not acclimatizing to them. Each one of them was growing very well, and the lush green made people like them.

After returning to the small villa by the artificial lake, Xia ruofei washed up and changed into a set of home clothes. Then, he tried the Australian food that Uncle Bill had prepared.

In the evening, Xia ruofei did not go to the West couple. Instead, he took a walk by the artificial lake in Paradise Farm and went back to his house to rest.

The next day, Xia ruofei drove the farm car to West Winery after breakfast.

He didn't inform the West couple in advance when he came to Australia this time.

Hence, when the couple saw Xia ruofei, they were both surprised and happy. They hugged the young boss warmly.

"Uncle Carter, how have you been?" Xia ruofei asked in English with a gentle smile on his face.

"Of course, I'm full of energy every day!" Old West said happily.

On the other hand, Auntie Kelly said, ""He's full of a sense of belonging here because you kept the name of West Winery!"

Xia ruofei laughed. "It's such a good intangible asset. How can I give it up?"

"Uncle Carter, how's the winery doing?" he asked.

Xia ruofei's company in China was still expanding rapidly, and the department structure was not complete. For example, the overseas business division had not been established yet. Xia ruofei entrusted Liang Qichao to send professional financial staff to check the accounts regularly, and he rarely asked about it himself.

"Everything is normal!" Old West said, "the turnover is also roughly the same as in previous years!"

The wine – making work in the winery had been completed a long time ago, and this period of time was also a relatively relaxed time of the year.

Of course, this was only relative.

Australia's tourism industry was developing very well, especially since the Chinese people were becoming richer. Every year, there was an endless stream of people who came to the Hunter Valley to travel. As the Hunter Valley's special winery, there was an endless number of guests every opening day.

Xia ruofei nodded. "Uncle Carter, the main reason I came to Australia this time is to improve the winery's grapes. I'm going to replant the grape seedlings I've prepared."

Old West was shocked and said in surprise, ""Eradicate them all and replant them?"

Xia ruofei smiled and nodded. ""All the products of my company must be the best in the industry, and wine is no exception ... Of course, I'm not saying that the products of West Winery or Golden Oak winery are bad. I just think they can be better ..."

Old West didn't quite agree with the young boss's words.

He had been in the business for decades, so he was very confident in the quality of his grapes. As for the Golden Oak winery, although he didn't want to admit it, the fact was that the Golden Oak winery's grapes were even better than the West Winery's. They were among the best in the entire Hunter Valley.

Old West couldn't imagine that this young boss from China could find better grape seedlings.

"Boss, the cultivation of grape seedlings is very complicated. If you don't pay attention to a certain detail, it may affect the quality of the grapes ..." Old West tactfully reminded him.

Madam Kelly gently tugged at Old West's clothes, reminding him that the person in front of him was their boss.

Xia ruofei didn't think that it was a mistake. He smiled and said, "Uncle Carter, I know all of this. I spent money to buy the winery, so how can I be against money? Don't you agree?"

Old West was sure that Xia ruofei had been tricked into buying poor quality grape seedlings. Although Xia ruofei had already made it clear, he still could not help but say, "Boss, the grapes of West Winery and gold oak winery are at their best growing period. They can be planted for another 20 to 30 years without a problem. If we replace the grape seedlings, the harvest cycle alone may take two to three years. This ..."

"Uncle Carter, I believe that my grape seedlings don't need such a long period to mature." Xia ruofei said with a smile. Although his voice was gentle, there was an undeniable meaning behind it.

Old West said dejectedly, "Alright! You're the boss, so you have the final say ..."

There was a hint of helplessness in his words, as well as some resentment.

Xia ruofei smiled and said, "I've come to you today to ask you to organize a team to eradicate all the existing grape trees. At the same time, we'll hire some people. We'll start planting new grapes tomorrow."

Then, Xia ruofei added, "Don't worry, uncle Carter! The new grape species is still Semillon. From now on, our winery will only produce Semillon white wine! I'm going to make it the symbol of the winery, and even the Hunter Valley!"

Old West looked at the ambitious boss in front of him and smiled bitterly.

It was easy to get rid of the grape trees, but if the seedlings Xia ruofei had prepared were not reliable, it could take two to three years! If he didn't do this, he would be able to produce a large number of grapes every year to make wine, which would be a great loss.

Moreover, it would be a joke if the wine of a few years in a winery was out of stock.

However, Xia ruofei was now the owner of the winery and even the Golden Oak winery. He had the final say in everything.

No matter how close Old West was to the winery, he was only an employee under Xia ruofei. He had to follow his boss's orders. To put it bluntly, Xia ruofei only needed to say the word and he would be fired.

"Alright! As you wish, boss!" Old Wester shrugged and said.

Then, he walked into the bar dejectedly and began to call for help.

?

Chapter 1200: no destruction, no construction (1)

A small shovel truck was uprooting the lush grape trees in the vineyard of West Winery.

Old West and Xia ruofei stood together on the hill. He looked at the lively vineyard and thought that the bigger Golden Oak winery was the same. His heart ached and the flesh on his face trembled.

Xia ruofei's mood was the exact opposite. There was no construction without destruction. The destruction in front of him was for the sake of revitalizing the winery in the future. It was as if he could see the "peach blossom grapes" that he had improved in the spirit map space growing prosperously in the winery.

"Uncle Carter, stop looking!" Xia ruofei smiled and said, "I brought some good tea from China. I'll make it for you to try!"

Old West smiled bitterly. Out of sight, out of mind. He could only nod in resignation. He looked back at the vineyard and left with Xia ruofei.

After returning to the vintage – looking winery, Xia ruofei retrieved a small box of Da Hong Pao and a small purple clay tea set from his car. In fact, these items were stored in the storage space. However, it did not seem logical to carry a tea set with him, so Xia ruofei made up the illusion that they were stored in the car.

In a short while, the room was filled with the fragrance of tea.

Old West, who had been a little depressed, couldn't help but get excited when he smelled the unique aroma. Even Auntie Capella, who had been busy behind the bar counter, was attracted by the rich aroma of tea.

"Boss, is this the tea from China? It smells so good!" Old West couldn't help but exclaim in admiration before he even tasted it.

Xia ruofei's action of brewing tea was very skillful. His movements were like floating clouds and flowing water. In addition, he was a cultivator with a good cultivation base, and his every move was in accordance with the way of nature, so the action of making tea was even more pleasing to the eye. Even the foreigners who were completely ignorant of the industry couldn't help but be attracted.

Auntie Kelly also sat down and said with a smile, "Xia, from the way you brew tea, I seem to see the thousand – year – old culture of your ancient China ..."

Xia ruofei raised his head and smiled gently in the mist. "Then, please have a taste of our country's drink!"

With that, Xia ruofei pushed the two cups of freshly brewed tea in front of the two of them. Then, he picked up a small teacup and brought it to his mouth. He gently blew on it and took a small sip.

Mr. And Mrs. West followed suit and took a sip of the tea.

"How is it?" Xia ruofei asked.

Old West's brows furrowed for a moment before relaxing. He savored the taste and said, "The taste is a little bitter. I wasn't used to it at first, but after the aftertaste, my mouth is full of fragrance. China's tea drinks are indeed very magical. No wonder they are so popular all over the world!"

After tasting it, Auntie Capella also had a lot of words of praise.

Xia ruofei smiled and said, "thank you for your praise!" Uncle Carter, Auntie Kabeli, this box of tea leaves and this tea set are for you. I hope you can fall in love with the Chinese tea culture from now on!"

The workmanship of this set of purple clay teapot was very exquisite. Whether it was the materials, craftsmanship, shape, or other aspects, they were all top – grade. The most important thing was that it was full of traditional Chinese characteristics, which was often an irresistible temptation for foreigners.

As expected, Old West immediately revealed a surprised and happy expression. "Oh! This was a precious gift! Boss, thank you very much for your generosity!"

"Xia! You're such a generous and friendly boss!" Auntie Kelly also put her arm around Xia ruofei's shoulder affectionately and said, "I'll go make you something delicious!"

"Thank you, Auntie!" Xia ruofei turned around and smiled.

After Madam Kabeli left, Xia ruofei said to Old West, "Uncle Carter, I know that you can't accept my decision to uproot the old Grape Tree today. But please believe me, it won't take long for you to know how correct my decision is!"

After Old West accepted Xia ruofei's gift, he was too embarrassed to keep a straight face. He sighed helplessly and said, "I hope you're right! Boss, otherwise ... Our losses would be huge ..."

Xia ruofei smiled and nodded, "I know how you feel about the winery, so I won't make an impulsive decision." Don't worry, you won't be disappointed!"

At this point, Old West could only trust Xia ruofei. What was done was done.

With the West couple's passionate invitation, Xia ruofei stayed at the winery for half a day. After lunch, he was ready to drive back to Paradise Farm.

Mr. And Mrs. West personally sent Xia ruofei to the yard. Xia ruofei stood beside the car, opened the door and closed it. He turned around and said, "Uncle Carter, in addition to cleaning up the vineyard today, don't forget to gather enough skilled manpower. I'll send the grape seedlings to you tomorrow morning. I hope we can finish the planting work quickly."

"Don't worry!" Old West nodded. I've already made arrangements ..."

Xia ruofei nodded and waved at the old couple after he got into the car. He then stepped on the gas and drove away from West Winery.
