

God tier Farm 1201

Chapter 1201: no destruction, no construction (2)

Xia ruofei did not go anywhere in the afternoon and night. He stayed in Paradise Farm.

The scenery here was very beautiful, and the environment was quite quiet. The air was filled with the fragrance of the grass. Beside the mirror – like man – made Lake, lying on a recliner and reading a book, with a cup of tea in hand, it was definitely a rare enjoyment.

This could also be considered as him stealing half a day of leisure.

.....

The next morning, Xia ruofei left Paradise Farm in Liang Qichao's car at Seveno' clock. He went straight to the warehouse that he had asked Liang Qichao to rent in advance.

Xia Qing had already prepared all the grapevines in advance. The Semillon grape species had an extremely tenacious vitality, and the grapes were mainly bred through cutting. In addition, they were high – Quality breeds cultivated in the spirit map space, so the survival rate of these grapevines was definitely very high.

After Xia ruofei entered the warehouse, he locked the door from the inside.

He then released his mental power out of habit and inspected the large warehouse inch by inch to prevent anyone from secretly installing listening and monitoring equipment.

If it was in the past, Xia ruofei would have to inspect such a large warehouse alone. It would be a terrifying task. The main reason was that there were too many places to inspect and the workload was too heavy.

However, ever since he had mastered the use of mental strength, the conventional methods that Xia ruofei had learned before were completely useless. He only needed to release his strong mental strength to check inch by inch, and the possibility of missing something was very low.

After making sure that the warehouse was safe, Xia ruofei took out all the grapevines that Xia Qing had neatly stored in the spirit map space.

Due to the relatively large planting area, there were also a lot of grapevines, which almost filled up half of the warehouse.

At eighto' clock, Liang Qichao personally brought two large trucks to the warehouse on time, along with some unloading workers he had hired.

"Woof! RUO Fei, when did you get so many grape seedlings?" The moment Liang Qichao entered the warehouse, he was shocked by the saplings.

Xia ruofei smiled and said casually, ""I've already contacted them back in China. That's why I asked you to rent the storage unit for me in advance!"

There was plenty of sunlight in Australia, and the planting of wine grapes was very extensive. Liang Qichao thought that Xia ruofei had contacted a supplier in Australia, so he did not continue to ask. He immediately got the workers to start loading the truck.

After more than an hour, all the grape seedlings were finally loaded into the truck. Xia ruofei drove the truck in front while Liang Qichao escorted the truck from behind. The three vehicles drove towards west Winery.

Old West had already invited experienced farmers to wait at the winery.

The car drove straight to the vineyard. After Xia ruofei asked the workers to unload enough seedlings for the vineyard of West, he asked the truck driver to rest in the winery. There were still many grape seedlings left in the truck, which were prepared for the Golden Oak winery.

The planting here might not even be completed in a day, but Xia ruofei did not want to load the trucks again after unloading them, so he asked Liang Qichao to book both trucks.

When they began to unload the seedlings, Old West couldn't wait to check.

However, after looking at it, he was a little disappointed that these grapes were of a Semillon variety. It was not bad, but he could not see any difference from the grapes that were originally grown in his own winery.

Old West also noticed that although the seedlings had been treated, they didn't have a film to keep the grapevines dry. He was even more certain that the seedlings were ordinary.

It had been almost two hours since he'd taken the grapes out of the origin space. They looked a little shriveled. Old West couldn't help but shake his head. He didn't know if they would even grow, let alone how many years it would take for them to bear fruit. He didn't know what the quality of the grapes was, or if they were suitable for making dry white.

However, Xia ruofei had already made up his mind. Old West had no choice but to accept the fact that he had removed all the grapes.

The trucks were still unloading, so he immediately began to organize the workers to plant the cicadas. He wanted to move as fast as possible. After all, there were still so many grape seedlings left for the Golden Oak winery in the truck. The situation might get worse if he took too long.

Xia ruofei watched with great interest.

The workers Old West had hired were very experienced, and their actions were very skilled and deft.

Soon, the cutting seedlings were planted one by one. These seedlings were all planted diagonally to the North. The labor of the workers was very clear. Some people dug pits, some inserted the seedlings, some filled the soil, and some watered the crops. The ridges for planting grapes had been prepared in advance, so the efficiency was very high.

Xia ruofei looked at it for a while and then ran to the truck to check the remaining grape seedlings.

He asked the winery's workers to help get a few large buckets of water, and then personally carried the buckets to water and moisten the grape seedlings that could not be planted for the time being.

Of course, Xia ruofei took out a small amount of the spirit Heart Flower petal solution from the medium and poured it into the bucket while avoiding everyone's eyes. With this magical solution, the grape seedlings would not wither even if they were left in the carriage for two or three days.

Although the grapes didn't need to be watered every day, the modern vineyard was also equipped with an automatic irrigation system.

While everyone was busy, Xia ruofei pretended to be strolling around. He quietly approached the water tower and added a small bottle of petal solution.

Xia ruofei believed that after he had done all this, the survival rate of the grape seedlings would be extremely high. It might even be 100%.

He was busy for an entire day.

In the evening, the workers immediately stopped their work and got off work on time to go home.

Fortunately, everyone was very efficient when they were working. They basically filled up the vineyard of the Wester winery in a day, and there was still a little bit of space left. Old West decided to leave two workers to finish it tomorrow, while he took most of the people to the Golden Oak winery to continue planting.

After having dinner at West Winery, Xia ruofei returned to Paradise Farm. He did not have to worry about anything else. Even the accommodation of the two drivers was arranged by Liang Qichao.

It was a quiet night.

The next day, Xia ruofei followed everyone to the Golden Oak winery. The workers continued to plant grapes.

The area of the Golden Oak winery was far larger than that of the West Winery. It took three days of hard work to plant all the grape seedlings.

What surprised Old West was that on the last day, the seedlings that were unloaded three days ago didn't wither even though they looked withered.

He also knew that Xia ruofei would use a bucket to replenish the water in his spare time. However, the effect of this help was not obvious. By right, the grapevines would have withered and died on the last day.

Old West couldn't understand it either. The only explanation was that the Semillon grape seedlings that Xia ruofei had brought were extremely tenacious.

Seeing that all the grape seedlings from the spirit map space had been planted, Xia ruofei's heart relaxed. The next thing to do was to wait. Time would prove that Xia ruofei's decision was correct.

Xia ruofei invited Mr. And Mrs. Wests and all the other workers to a drink in the town's Bar. He even gave Mr. And Mrs. Wests a good bonus to honor their work in improving the grape variety.

After planting all the grape seedlings, Xia ruofei was not in a hurry to leave Australia. On one hand, he liked the leisurely life here. On the other hand, the grape seedlings had not fully grown and Xia ruofei

could not be completely at ease. If he stayed here, even if there was a problem with the grape seedlings, he could use the petal solution of the spirit Heart Flower to “provide emergency treatment” to the seedlings.

Old West had been starving for the past few days. He was most worried about whether the grape seedlings could survive.

He patrolled the two vineyard sites almost every day.

As time went by, the worry on Old West’s face gradually lessened. He found that almost none of the grape seedlings couldn’t survive. On the contrary, they were becoming more and more energetic day by day, and many of them even grew new shoots.

The survival rate was close to 100%. Old West thought it was a miracle.

Especially when this batch of grape seedlings looked very ordinary, the survival rate was even more precious.

?

Chapter 1202: Feng Jing’s new goal (1)

West Winery vineyard.

Xia ruofei was led by the excited Old West as they walked between the ridges. The two of them even squatted down to check on the condition of the grape seedlings from time to time.

“Boss, the vitality of this batch of grape seedlings is really good!” Old West praised, “we haven’t found any dead seedlings so far! It’s almost certain that the survival rate is over 99%!”

Xia ruofei also saw that the two or three tender shoots that had been left on the seedlings when they were planted had already sprouted and turned into small green leaves. It was obvious that they had begun to take root and absorb nutrients.

Xia ruofei laughed and said, “I didn’t lie to you, did I?” Uncle Carter, you’re not worried anymore, right?”

Old West rolled his eyes and said unhurriedly, “Boss, it’s just the first and most basic step. The most important thing is how many years it will take for the grapes to bear fruit. We still don’t know how good the quality of the grapes is, and whether they can meet the requirements for wine brewing.”

“A good start is half the success!” Xia ruofei laughed. “We’re already halfway to the revival of our winery. Isn’t it worth celebrating?”

Old Wester was stunned for a moment before he laughed heartily and said, “Boss, you’re a little different from the average Chinese. In my impression, most Chinese people are low – Key, humble, and many of them are pessimist, but you’re full of optimism!”

Xia ruofei stood up and dusted off the dirt on his hands. He smiled and said, ""That's because I have absolute confidence in this batch of seedlings! Uncle Carter, perhaps it won't take a few years for you to be completely at ease!"

"Why?" old Wester asked, puzzled.

Xia ruofei laughed and said, "uncle Carter, don't worry so much. The only thing you need to do is to take care of the grapevines here and Golden Oak winery. Use the most scientific method to manage them. Leave the rest to time!"

Old Wester shrugged and said, "alright!" I'm a professional in this area!"

"Of course! I have absolute confidence in you!" Xia ruofei said.

Xia ruofei drove Old West to the nearby vineyard of the Golden Oak winery to check on the growth of the grape seedlings. Then, he returned to Paradise Farm with a peace of mind.

Xia ruofei stayed in Australia for two more days. He went to Sydney to visit Tang Yitian's family and guided Tang Haoran in his cultivation. Then, he took a plane back to China.

After more than ten hours of long – distance flight, Xia ruofei dragged the boarding box out of Sanshan airport.

Once they left the airport, Xia ruofei was stunned. He saw that ye Lingyun, who had come to pick them up, was standing next to Feng Rao.

"Chairman, you've had a long journey!" Feng Rao said with a smile.

Xia ruofei said, "CEO Feng, why did you come here personally?" What's the matter?"

"Of course it's a good thing!" Feng Jing smiled and said, "let's go. We'll talk in the car!"

The three of them got into their cars at the parking lot. Xia ruofei asked, ""What's the matter? I even let you personally pick me up from the airport. It seems like this is the first time I've enjoyed such treatment, right?"

"Chairman, the second round of sales for our jaded skin cream has just ended," Feng Jing said happily. "The situation is quite good!"

Xia ruofei laughed and said, "just for this?" Why don't you just call me and tell me, or wait until I get back to the company?"

"This matter isn't important?" Feng Jing looked at Xia ruofei coyly and said, "just like our previous judgment, after about half a month of preparation, the public opinion of the jaded skin cream did not decline. Instead, it rose. As the first batch of users started to use it, the magical effect of the jaded skin cream was revealed. The number of discussions on the internet went up all of a sudden!"

Feng Rao was very excited. She continued, ""Other than a few internet ghostwriters of unknown origins, most of them have positive comments. Many popular posts on forums and big vs on Weibo have posted their comments. There should be many professionals among them! They have a very high evaluation of our products!"

“This is all within our expectations!” Xia ruofei laughed.

“Then can you guess how long it took for us to sell it out this round? The stock released by the e – commerce platform is the same as last time. ” Feng Rao looked at Xia ruofei and asked with a smile.

“The last time we started ... I remember it was around two minutes?” Xia ruofei scratched his head and said, “since you’re asking me that, it must be faster ... This time ... One and a half minutes?”

“Stop guessing!” Feng Rao giggled. You definitely won’t be able to guess it! Let me tell you, it’s 59 seconds! In less than a minute, all the stocks were sold out!”

“Woof! These consumers were crazy! Our products are not cheap either!” Xia ruofei said with a smile.

“What is not cheap? 588 Yuan for a bottle, that’s the price of mid to high – end cosmetics, and we have so many portions. Compared to those international brands, it’s like a cabbage!” Feng Jing said, “but when it comes to effectiveness, those cosmetic products that cost thousands or even tens of thousands of yuan can’t even hold the shoes of our jade skin cream!”

“Domineering!” Xia ruofei laughed and gave Feng Jing a thumbs up.

Feng Rao smiled in embarrassment and continued, “Chairman, you don’t know this, but once the sales time is up, the back – end orders skyrocketed. I’m even worried that the platform’s server won’t be able to take it ...”

?

Chapter 1203: Feng Jing’s new target (2)

“You’re thinking too much. When it’s the 11/11 Gala, they’ll have to deal with millions of orders in a second. There won’t be any big problems!” Xia ruofei smiled and said, “we have over 100 billion transactions a day. It’s fine even with such a large number of visits. With our level of data, it’s nothing ...”

“You’re right,” Feng Jing chuckled, “although I’ve been following up the entire time, it still feels like a dream. 100 million Yuan a minute! It’s like they’re snatching money!”

“Don’t say that in public,” Xia ruofei said. “Our cost is very high!”

Xia ruofei winked at Feng Rao after he finished speaking. Feng Rao couldn’t help but giggle.

“Chairman, I have something to report to you ...” Feng Jing said seriously.

“What do you think ...” Xia ruofei rubbed his eyes and sat in a daze for more than ten hours on the plane. He felt a little tired mentally, so he leaned back in his seat and closed his eyes to rest.

“I’ve been looking for a suitable building in the city recently ...” Feng Jing said.

Xia ruofei opened his eyes and smiled. “I was wondering why you came to pick us up personally today! It must be because of this!”

Xia ruofei knew that Feng Jing wanted to speed up the construction of the company's headquarters. After all, it would be more convenient to manage the company in Taoyuan farm in the early stages. However, as the company grew, it would not be appropriate for the company's headquarters to be in the suburbs farm.

Xia ruofei had already realized this, but he could not find the time to do it.

Feng Rao smiled shyly and nodded.

"Tell me!" Xia ruofei said. What have you gained recently?"

"It's like this ... I found a property that I think is suitable in all aspects." Feng Rao organized her thoughts and said, "this property is located on Xishan Road in the Bell Tower District. It's a good location ..."

"Just tell me about this property!" Xia ruofei said with a smile.

"Yes, Chairman." Feng Jing nodded and said, "this is an office building called Hengli building. It was jointly developed by the provincial power construction Group and a real estate company."

Xia ruofei frowned and said, "State – owned enterprise?"

"Yes, I am!" Feng Rao said, "the power construction Group was the one who invested the land. The building was built with the money from bojun land. It has a total of 15 floors. The first to ninth floors belong to bojun real estate, and the tenth to fifteenth floors belong to the power construction Group. The part that we're going to sell now is the property rights of the power construction Group, the tenth to fifteenth floors!"

Xia ruofei thought for a moment and nodded. "This kind of joint development is common, but under normal circumstances, there should be a clause in their contract that gives priority to the acquisition!"

Feng Rao smiled. "I've done my research. There are indeed terms for priority acquisition in the contract, but bojun real estate hasn't been doing well in the past two years. There's a problem with their cash flow, and they can't take over this part of the estate. They've already stated that they've given up on priority acquisition, so the current situation is that the estates on the tenth to fifteenth floors are for public sale, and the one in charge is the provincial SASAC!"

"What's the price?" Xia ruofei asked.

Feng Rao had obviously done her homework. She said without thinking, "As far as I know, the state – owned assets Control Commission wanted to use the auction method at first, but not many companies responded, so they changed to inquiry mode. I specifically organized a team to analyze it. If we bid 30000 per square meter, we should be able to get it."

Then, before Xia ruofei could ask, Feng Jing threw out another set of data. "The area of each floor of the Hengli building is about 1500 square meters. The Power Construction Company has a total of six floors, so the total area is about 9000 square meters. In this case, the total price is about 270 million Yuan! Our company currently has around 150 million Yuan in liquid funds, and the subsequent sales of the jade skin cream can still bring in a large amount of cash flow. As long as we ask for an installment during the purchase negotiation and the terms of payment within one or two years, we can afford it even if we don't apply for a bank loan!"

Feng Rao became more and more excited as she spoke. She turned to Xia ruofei and said, ""Chairman, I personally think this is a very good opportunity!"

Xia ruofei smiled and said, "Oh?" There must be a good reason for President Feng to be so optimistic about this business. If you can convince me, I will fully support your acquisition! Don't worry about the funds!"

Feng Rao nodded and said, ""Chairman, first of all, this is a ready – made building. It was originally an office building. After we bought it, we can put it into use immediately after some simple renovation. The relocation of our company's headquarters is already something that we have to do. In this case, it's obviously much faster to buy it directly than to buy the land and build it again!"

Xia ruofei nodded but did not say anything.

Hence, Feng Jing continued, "the second reason is that the electricity construction company's property is located on the 10th to 15th floor of the building, which is obviously better than the 9th floor below. From the outside, the Heng Li building is located on Xishan Road in the Zhong Lou District of the center of Sanshan city. That is the CBD area, and there are many office buildings nearby. Even if it's only half of the building, it's still a great improvement to our company's image!"

"En!" Xia ruofei nodded and said, "there's a third point?"

"Of course!" Feng Jing smiled and said, "thirdly, if we buy it, we'll become one of the two owners of the Hengli building. As for the owner of the first to ninth floors, bojun real estate, as I've said just now, they've been doing poorly in the past two years and their capital chain is on the verge of breaking. They might have to deal with some of their businesses in the future to cash out, which means ..."

Xia ruofei continued Feng Jing's sentence and said, ""In other words, if we buy the Hengli building's electricity construction company's part of the business, it's very likely that we'll be able to buy the remaining 1st to 9th floors from bojun real estate in the future. Then, the entire building will belong to our company!"

"Yes!" Feng Rao said excitedly. According to our analysis, it's highly possible. Bojun real estate isn't in a good position. "

"Chairman," Feng Jing continued, "this way, it's very likely that we'll have our own building. By then, it won't be called the balance power building anymore. It'll be called the Paradise building!"

Xia ruofei thought for a while and nodded. ""Mm! In this case ... If our company continues to grow and expand in the future, we'll have enough space. Boss Feng, this is a sustainable acquisition plan!"

Feng Rao looked at Xia ruofei uneasily and asked, ""Chairman, what do you mean?"

"Sure!" Xia ruofei said concisely.

Feng Rao was stunned for a moment before she reacted. She was overjoyed and said happily, ""Chairman, you agree!"

Xia ruofei laughed. "You've given so many reasons, and they're all very good. I agree with you, so of course I'll agree!"

Xia ruofei looked at Feng Jing with a strange expression and said, ""CEO Feng, you can't be thinking that I'm not very happy about the relocation of the headquarters, right?"

Feng Jing thought to herself, you've always been a passive person, but it seems like I misunderstood you. It's not that you don't want to spend money to move the headquarters, you're just ... Lazy!

Although she was complaining in her heart, she still went easy on Xia ruofei since he had already agreed to her plan to acquire the Hengli building.

She smiled and said, "no, no... In the past, we didn't have enough funds, so even if we had an idea, it was difficult to implement it!" The whole company is yours, so how can you be so negative?"

Xia ruofei glanced at Feng Rao and said with a smile, ""It seems that the hot sales of the jade skin cream has boosted boss Feng's confidence! You're already so eager to try a 200 to 300 million acquisition, this was something you didn't even dare to think about before!"

?

Chapter 1204: The sale of Da Hong Pao (1)

"An outstanding professional manager must be good at adjusting the company's development strategy and psychological positioning according to the company's strength and prospects, right?" Feng Jing smiled.

Xia ruofei laughed and said, "you're right!" I chose you because of this!"

Feng Rao blushed when she heard Xia ruofei's slightly ambiguous words. She quickly adjusted her expression and said, ""Chairman, since you've agreed, then I'll officially contact the state – owned assets Supervision and Administration Commission today to try to win this project."

This was the largest acquisition the company had made since its establishment, and it was also one that would affect the company's long – term development. Feng Jing was extremely excited and eager to give it a try.

Xia ruofei nodded and said, "sure!" If there's anything you can't make a decision on, report to me at any time!"

"Understood!" Feng Rao said excitedly.

.....

In the next few days, Feng Jing put most of her energy into the acquisition.

The second sale of the jade skin cream had just ended, and the company's work was going on in an orderly manner. Everyone had their own duties, so there was no need for Feng Jing to spend too much energy on it.

On the second day after Xia ruofei returned to the country, he held a celebration party and gave out a bonus to all the employees who had worked before and after the sale of the jade skin cream. He also announced a new company benefit. All employees would have a paid vacation opportunity every year. The company would provide travel subsidies, and the employees could choose the location.

Tourism benefits were also divided into three levels, and the subsidies for each level were different. Generally speaking, the first level of subsidies was enough to support employees to travel to European and American countries. The second level allowed employees to travel to domestic in – depth travel or Southeast Asian countries. The third level allowed employees to travel to at least one or two cities in the country.

The grading of travel subsidies was based on, in addition to the level of the employee, the quantitative scoring of their usual performance, performance, etc., And the evaluation of the grade every year.

This level was not only related to the travel subsidy, but also related to the promotion and transfer of employees.

This quantitative scoring system was timely introduced after Xia ruofei and Feng Jing's repeated discussion.

The two of them agreed that since the company was developing so fast, it was time to set up rules. To put it simply, it was to be systemized and standardized.

The first group of employees to receive travel subsidies were the ones who had participated in the work before and after the jade skin cream project.

The employees were naturally overjoyed, and Xia ruofei's heart was filled with a sense of achievement.

He had never been a stingy person. The company was making money, and Xia ruofei would definitely not mistreat the employees who were working hard for the company.

Soon, Xia ruofei had been back for a week.

He had basically spent the entire week on the farm. Other than the two dates he had with Ling Qingxue, he had spent most of his energy on work.

Ye Lingyun and a few veterans had made Da Hong Pao tea leaves out of the tea leaves that Xia ruofei had provided before he left the country. They had obtained a total of 500 catties.

Xia ruofei tried it himself and felt that it tasted pretty good. Although it was still lacking compared to his collection of Da Hong Pao, it was much better than the so – called top quality Da Hong Pao on the market.

Xia ruofei knew that apart from the quality of the tea leaves that far exceeded other tea companies, ye Lingyun's ancient tea – making skills that he had directly inherited from old man Li Zhifu also played a very important role.

Xia ruofei was very happy. Not only did he praise ye Lingyun and the others, but he also announced on the spot that they would receive travel benefits, just like the employees who had participated in the jade skin cream project.

The other departments of the company also cooperated. Some were in charge of design, some were in charge of packaging, and some were in charge of publicity. Soon, this batch of tea leaves was packaged into small gift boxes.

This batch of Taoyuan Brand Da Hong Pao was sold in Taoyuan company's Skycat flagship store and its own store in kyokubei.

Other than using a large banner on the front page of the e – commerce platform's online store to promote it, paradise Corporation did not hold a press conference specifically for this paradise Brand Da Hong Pao.

On the one hand, the quantity of this batch of goods was not large. On the other hand, the current paradise Corporation was no longer the ignorant company of the past. After experiencing the auction of the top grade one – headed abalone, the press conference of the Jade skin cream, the first sale, and so on, it was now a company with a considerable reputation in the country.

Compared to the past when its reputation was only limited to Sanshan city and the southeast province, the current paradise Corporation had a considerable reputation in the country. It even had a lot of attention overseas.

This was naturally due to the jaded skin ointment.

It had been more than a month since the launch of the jaded skin cream, and the first batch of jaded skin cream had been released for more than half a month. More and more consumers had recognized the jaded skin cream, and it had naturally spread abroad.

Although the overseas release date of the jaded skin cream had not been confirmed yet, there were countless people who went abroad every day. Some were studying abroad, some were traveling, and some were visiting relatives. Among them were the users of the jaded skin cream.

The effect of the jaded skin cream was so amazing that such a phenomenal product was like an awl in a cloth bag. It was impossible to hide its edge.

Just a few days ago, the company began to receive calls from overseas, all of which were seeking cooperation. There were Europe, the United States, Southeast Asia, and even Africa.

?

Chapter 1205: Da Hong Pao on sale (2)

Of course, Xia ruofei had not dealt with these intentions for cooperation yet.

His idea was to deepen his business in the domestic market and wait for the company to expand and increase production before he attacked the overseas market.

In any case, the good products were there, and now that their reputation had been established, there was no need to worry about not having a market.

It was the same for the Paradise card, Da Hong Pao.

With the peach blossom company's reputation as the foundation and the preconceived impression of "peach blossom products are definitely of high quality," even if the company only put up a promotional banner in its online store and made a routine notice on the company's official website, there would still be a large number of people willing to try the new products of the peach blossom company.

Nowadays, there were people opening the official website of paradise Corporation, the flagship store of heavenly cats, the self – operated stores in North Capital, and so on every day. The purpose was to not miss the new round of sales of jade skin cream.

Therefore, as soon as peach blossom company's new tea product was put on the online store, someone immediately discovered it.

There were even some online media reporters who saw it and posted online reports, which was equivalent to advertising for paradise Corporation for free.

The tea leaves from paradise Corporation were not cheap.

The standard price of a 500 grams was 18888 Yuan. Although it was a far cry from the price of the mother tree Dahongpao that was sold for two, it was still mass – produced after all. Moreover, the mother tree Dahongpao was more expensive because it was rare. The rarer something was, the more expensive it would be!

In other words, if all 500 catties of tea leaves were sold, it would bring in a revenue of nearly 10 million Yuan.

Of course, the marketing department had designed a detailed sales strategy. There were various specifications of tea leaves to choose from on the online store, including 50 grams of experience tea to one pound of standard gift boxes. There were five to six grades for consumers to choose from. Those who could not afford it could buy small packages to try the taste.

However, no matter which grade it was, the unit price was the same, about 18000 Yuan. As for the one 500 grams, it was sold for 18888 Yuan. The remaining 800 Yuan was actually the money for the packaging.

Although the price was very high, the users who were waiting to buy the jade skin cream were basically financially well – off.

Therefore, after the Taoyuan Da Hong Pao was put up on the online store, they began to receive orders one after another.

There were people who bought from 50 grams to 1 pound. Although there was no bombarding order flow like the jade skin cream, they still sold 20 to 30 pounds in a very short time.

Xia ruofei was not worried at all after getting the data.

The reputation of the peach blossom company was there, and the quality of the peach blossom Da Hong Pao was also there. He was not afraid that these tea leaves would not be able to sell.

On the contrary, he was worried that the production capacity could not keep up in the future.

This was because he believed that there would soon be returning customers who could recognize the goods. Moreover, the internet was so developed now, and perhaps paradise Brand Da Hong Pao would become an internet celebrity product again. At that time, the number of orders would surge.

These few days, Feng Rao had been going to the city frequently. The matter of the Taoyuan Da Hong Pao was basically handled by Xia ruofei.

What made Xia ruofei feel strange was that Feng Jing had not reported to him the progress of the purchase of the Hengli building project.

.....

That afternoon, Xia ruofei flew to the sales office to check the data of the blogshop's back – end. On her way back to her office, she happened to see Feng Jing walking over from the opposite side of the corridor.

Just as Xia ruofei was about to greet Feng Jing, his phone rang.

So he took out his phone and looked at the caller ID. It was an international call from Australia, Old West.

Hence, Xia ruofei answered the phone and gestured to Feng Jing to follow him back to his office.

Feng Rao looked exhausted. She nodded at Xia ruofei and followed him.

Xia ruofei walked in front and put the phone to his ear. He smiled and said in English, "Uncle Carter, how are you? It should be evening in Australia now! Is there something you need?"

Old West's excited voice came from the phone. "Boss, I feel that there is something wrong with the seedlings in the vineyard!"

Xia ruofei was stunned for a moment and frowned. He opened the office door and said, "Something's wrong? What happened? Could it be that the saplings are dying on a large scale?"

Xia ruofei felt that the possibility was very low! Those seedlings were all cultivated in the spirit map space, and their mother tree was the grape Tree of West Winery! The possibility of acclimatization should not be high.

And even if they were not acclimatized, Xia ruofei had poured a lot of precious spirit Heart Flower petal solution into the irrigation water towers of the two wineries. How could these seedlings be in trouble?

"No," Old West quickly replied. Boss, you don't have to worry. "

Xia ruofei heaved a sigh of relief and asked, "Then what's wrong?"

"Boss," Old West said, "I've been patrolling the vineyard every day. I realized ... I realized that these grapes are growing too fast. It's so fast that it's terrifying ..."

Xia ruofei heaved a long sigh of relief. He didn't know whether to laugh or cry. "Uncle Carter, can you please finish your words in one breath next time? You stopped talking halfway ... I was almost scared to death by you ..."

Old West said nervously, ""I'm sorry, boss ... But I think it's not normal to grow too fast! According to my estimation, the growth rate of this batch of grape seedlings is at least three times that of normal seedlings! There shouldn't be any problem with this batch of seedlings, right?"

Xia ruofei replied indifferently, "uncle Carter, there's nothing abnormal about this!" I've carefully improved these grape seedlings, and they're already growing very fast. You'll see next year that not only are they growing fast, but the quality of the grapes they produce is absolutely first – Class!"

"Next year?" Old Wester was stunned for a moment. He said in disbelief, "boss, you mean ... Our grape trees can bear fruit in less than half a year? This ... This is too unbelievable!"

The growth cycle of grapes varied according to the species. Under normal circumstances, it was possible for newly – planted Semillon grapes to bear fruit in one to three years, depending on the growing environment. However, the grape – picking season in Australia usually started in March, which was only five months away from planting the grape seedlings. It was completely beyond Old West's knowledge that the grapes could be picked in such a short time.

Xia ruofei smiled and said, "although I can't guarantee it, there's still hope." Uncle Carter, I hope you can take good care of these precious grape seedlings. We might have a surprise next year!"

"Definitely, definitely! Don't you worry!" Old West said happily, "boss, then ... Is there anything we need to pay special attention to in the maintenance of these grape trees?"

Xia ruofei smiled and shook his head. ""No, just like how you took care of those Semillon grapevines!"

"I understand, I understand!"

"Uncle Carter," Xia ruofei said, "I still have something to do here. Let's call it a day!" I'll leave the vineyard to you!"

"Alright! Boss, I'll report to you in time if anything happens!" Old West hung up the phone happily as if he had just taken a calming pill.

Xia ruofei placed his phone on the office table and leaned back on the soft chair.

"Is it from the Australian vineyard?" Feng Jing asked.

Feng Jing knew that Xia ruofei had acquired a winery in Australia. She even knew that Xia ruofei had acquired the winery under the name of an offshore company.

Xia ruofei smiled and nodded, "yeah!" He's a very dedicated old man and the original owner of the winery. "

"Why does it sound like there's something wrong with the vineyard over there?" Feng Rao asked.

"Hey! I brought some improved grape seedlings to plant last time. " Xia ruofei laughed. "But it grew too fast and scared uncle Carter."

Feng Rao couldn't help but laugh.

As a founding member of the Paradise Corporation, Feng Jing naturally knew about Xia ruofei's capabilities. The various vegetables and fruits in the Paradise Farm not only grew much faster than their own kind, but their quality was also much higher.

She was already used to it.

Xia ruofei also laughed and said, "let's not talk about this. President Feng, I called you here today to ask you about the situation of the acquisition of the Hengli building. It has been a week. Is there any progress?"

Feng Rao's expression turned helpless. She shook her head with a bitter smile and said, "Chairman, the reason I didn't report to you in time was because there hasn't been any substantial progress ... Sigh! We've encountered some unexpected resistance!"

Xia ruofei smiled and said, "Tell me! I might have a way to solve it ..."

?

Chapter 1206: Bold enough_1

Feng Rao sighed and said, "I reported to you last time that the property rights of the Hengli building belong to the provincial power construction Group, which is managed by the provincial SASAC." This building's sale is handled by the state – owned assets Supervision and Administration Commission, and the specific executive is a Section Chief surnamed Li from the property rights management Office ..."

Hearing this, Xia ruofei smiled and said, "I understand. The King of Hell likes to see the little devil is difficult to deal with, right?"

"Isn't that so?" Feng Rao said with a bitter smile.

Xia ruofei knew that a Senior Manager like Feng Jing, who was also a top student who had returned from abroad, was used to the culture of foreign companies. She would definitely not be used to the shirking, wrangling, and inefficient operations of the system.

However, Feng Jing's EQ was quite high. Even if she didn't like this kind of situation, she could still handle it easily. Her low mood today clearly showed that she had encountered some difficulties.

"He wants something in return?" Xia ruofei frowned and asked.

"That's for sure ..." Feng Rao laughed bitterly, "this Section Chief Li has a big appetite, and ... He's very annoying!"

Feng Jing furrowed her brows and a look of disgust flashed across her eyes.

"We don't object to normal courtesy. After all, this is a society of human relationships. But if they ask for too much, we can't let them have their bad habits!" Xia ruofei's voice turned cold.

"I know your temper, that's why I didn't dare to agree so easily!" Feng Rao said. Then, she lowered her voice and continued, "He wants a million ..."

"This is simply insane!" Xia ruofei snorted coldly and said, "you're just a small section Chief. How dare you have such a big appetite for a project! It's obvious what kind of a parasite he is usually!"

Feng Rao nodded in agreement and said, "Although I didn't do it openly, it's obvious. I didn't give in, so this matter has been stagnant. We didn't even manage to submit our acquisition letter of intent!"

Xia ruofei's eyes flashed coldly and he said, "You don't have to worry about this, I'll handle it!"

He had thought that it was just a normal acquisition and that Feng Jing could handle it. The biggest problem should be raising funds. He didn't expect that some man – made factors would cause the progress to come to a standstill. This made him a little annoyed.

Feng Jing nodded. Just then, her phone beeped with a WeChat notification.

Feng Jing took out her phone and glanced at it. She frowned and said, "Isn't this ... They're asking me again ..."

"Who is it?" Xia ruofei did not react immediately.

"That Section Chief li!" Feng Jing pouted. "Who else could it be?"

Xia ruofei opened his eyes wide and said, "You guys added each other on WeChat?"

"He wanted to add me the second time we met," Feng Jing said helplessly. "He said it was more convenient to contact me about the project. How could I reject him in that situation?"

Feng Jing passed her phone to Xia ruofei and said, "You see for yourself! Look at this guy's character!"

"Is this ... Appropriate?" Xia ruofei hesitated.

"What else can I talk about with someone like that?" Feng Rao replied angrily. "What's inappropriate about that?"

Xia ruofei laughed drily and said, "then I'll see ..."

After that, Xia ruofei took his phone and scrolled through the WeChat conversation all the way to the top.

He saw that they had just added each other as friends. Then, he started to look at the chat history between Feng Jing and Section Chief li.

As he read on, Xia ruofei's face darkened and the cold light in his eyes intensified.

Feng Jing was right. This Section Chief li was indeed hinting that he wanted some benefits.

What made Xia ruofei even angrier was that Section Chief li was actually coveting Feng Jing's beauty. He kept hinting to her that she had to pay something in order to get the project and that she could be friends with him.

Xia ruofei picked up the speed of browsing. In the past few days, Section Chief Li had asked Feng Jing to meet him at night at least three times. Of course, Feng Jing had rejected all of them.

Xia ruofei snorted and asked, "Boss Feng, why didn't you report this earlier?"

Seeing Xia ruofei's angry face, Feng Jing did not feel wronged. Instead, she felt warm inside. She said softly, "I know that you've been busy with the Da Hong Pao issue these days and didn't want to distract you ..."

"I'm not doing anything specific. It's Xiao Qiang, Ling Yun, and the others who are busy. How can I be distracted?" Xia ruofei said.

Then, he gritted his teeth and said, "Isn't this Section Chief a little too bold?" He actually dared to be so explicit in WeChat? Isn't he afraid that you'll take a screenshot and expose him?"

Feng Jing pursed her lips and said, "Chairman, he only added me on WeChat after we met for the second time. I've already seen it. It's a new WeChat number that was requested by a new phone number, and his WeChat moments are empty. Even if we take a screenshot, we won't be able to find anything against him. He can completely shirk his responsibility!"

Xia ruofei opened it. Just as Feng Jing had said, her moments were as clean as a beggar's wallet. Other than some health information that she had deliberately shared in the past few days, there was nothing useful.

Feng Jing continued, "I've tried to get information out of him before. I tried to change the topic to the details of the project and his unit. However, he's very alert. Whenever I talked about this, he either didn't reply at all or avoided the topic. I couldn't find any weakness in him at all ..."

?

Chapter 1207: Gutsy enough (2)

Xia ruofei nodded. He had seen what Feng Jing had said.

At the end of the chat history, the new message that chief Lee had just sent was: CEO Feng, I actually really want to be friends with you! How about this! If you're still interested in that project, come to Shixin hotel room 503 at 8 O' clock tonight and we'll talk.

Xia ruofei thought for a moment and said, "CEO Feng, I've changed my mind!" Give him a reply and agree to meet him tonight!"

Feng Rao was shocked and quickly said, "Chairman, this ..."

Xia ruofei smiled and said, "don't worry!" I'll go with you tonight! I've always wanted to get the project, but if I don't teach this scumbag a lesson he'll never forget, I'm afraid I won't be able to get over this. "

Xia ruofei was a very protective person. He would protect his own people in every way possible. This Section Chief Li actually had evil ideas about Feng Jing. Xia ruofei could not let him off so easily.

“Chairman, we can’t do anything illegal!” Feng Jing said worriedly. Why not ... Forget it! “There are a lot of scumbags like him. It’s fine as long as the project goes smoothly. I didn’t lose anything anyway ...”

“No!” Xia ruofei said decisively, “it’s settled then! President Feng, don’t worry! I’m trained by the Army, how can I go back and do illegal things!”

Feng Rao hesitated for a moment before finally nodding. “Alright then! I’ll listen to you ...”

After speaking, Feng Jing didn’t hesitate any longer. She picked up her phone and immediately replied to chief li.

Xia ruofei smiled and said, “alright, I’ll arrange the rest!” You should go back and rest for a while, you must be tired these few days. Let’s go after dinner!”

“Good! “Chairman, I’ll head back first ...” Feng Jing said as she stood up.

Xia ruofei smiled at her gently and nodded.

After Feng Jing left, the smile on Xia ruofei’s face immediately disappeared. His expression turned cold. He leaned back in his office chair and pondered for a moment. Then, he took out his phone and made a call.

.....

The property rights management Office of the provincial capital administration.

In a small independent office, a man in his mid – thirties in a gray jacket was writing materials on the computer. There were two mobile phones next to him, and one of them suddenly rang with a WeChat notification.

This man was the Section Chief li that Feng Jing had mentioned.

He stopped typing and hesitantly picked up the phone. He lit up the screen and looked at it. Then, the corners of his mouth slowly curved up, and his eyes revealed a proud look.

Section Chief li muttered to himself, “I knew it ... Who would have a problem with money?” No matter how arrogant a woman was, she would still be willing to do anything in the face of great benefits. Hehe, great beauty, at least you’re aware of the situation!”

After that, Section Chief li quickly replied to Feng Jing, It seems that boss Feng has finally thought it through. I’ll be waiting at the hotel tonight!

Then, he immediately picked up another phone and skillfully dialed a number. “Hey, gang Zi, help me book a room.”

“No problem, brother li. Which one do you want?”

“Isn’t that obvious? 503!”

“Alright! I’ve been saving this room for you! “The guest rooms were full the day before yesterday, and I didn’t even give them out ...” The voice on the other end of the phone had a hint of flattery.

“Alright, alright! I know you’re a sensible kid!” Section Chief Li said, “don’t worry! Of course ... The prerequisite is that you have to keep your mouth shut!”

“Hehe! I understand!” Gang Zi quickly said, “your business is more important than my own. I won’t tell anyone anything about you, even if you beat me to death!”

“Alright, hurry up and prepare the room for me. I’ll come over after dinner!” Division Chief Li said impatiently.

He hung up the phone right after he finished speaking and continued to gather the materials while humming a song.

After Feng Jing’s WeChat reply, his brain seemed to have become a lot brighter. He was simply filled with ideas, and his efficiency in obtaining materials instantly increased.

.....

At Taoyuan farm, Xia ruofei and Feng Jing had dinner together in the company’s cafeteria. Then, the two of them walked out of the general office building side by side.

A black Mercedes drove over and stopped in front of the office building.

Ye Lingyun got down from the car and handed Xia ruofei a car key. “Brother Xia, I’ve already driven the car over!”

“Alright! Ling Yun, thank you for your hard work!” Xia ruofei patted ye Lingyun’s shoulder and said affectionately, “you and your brothers should rest well these few days. The next batch of tea leaves won’t be here so soon.”

“I know!” Ye linyun said.

Xia ruofei nodded at ye Lingyun, then said to Feng Rao, “President Feng, let’s go!”

Feng Rao hesitated but did not say anything in the end. She only nodded and got into the car with Xia ruofei.

Xia ruofei started the car and drove out of the farm, quickly disappearing into the night.

The reason he chose the company’s Mercedes – Benz was that the Knight XV was too ostentatious, and the Mercedes – Benz was just right for Feng Jing’s status as the company’s CEO.

The sound insulation of the Mercedes – Benz was very good. When all four windows were closed, the sound of the engine and tire noise could not be heard from inside the car.

Feng Rao sat quietly in the front passenger seat. After a long time, she finally couldn’t help but say, “Chairman, later ... Don’t be impulsive! If you hit him, then you’ll become unreasonable even if you’re reasonable!”

Xia ruofei smiled and said, “Do I look like that kind of rude person? Don’t worry! Don’t worry!”

Feng Jing knew that Xia ruofei was very good at fighting. During the day in Xia ruofei’s office, she had noticed the cold look in Xia ruofei’s eyes when he saw the chat history, so she couldn’t be at ease!

However, since she had already come out with Xia ruofei, she could not back out now. Hence, she could only hide her worries in her heart.

The car drove for about 20 minutes on the winding Expressway. After passing through a bridge across Min River, they could see the lights of the city in front.

After another ten minutes, Xia ruofei's Black Mercedes arrived at Shixin hotel, which was mentioned in chief Li's WeChat.

After Xia ruofei parked the car, he turned off the engine and asked, "CEO Feng, do you remember what I said on the way here?"

"I'll remember everything, but Chairman ..." Feng Jing said nervously.

"Don't worry, I'll be right outside the door. I'll be able to detect anything that happens in the room and appear in front of you in three seconds!"

Xia ruofei's voice was steady and full of confidence, which calmed Feng Jing's uneasy heart.

Feng Rao nodded and said, "I believe you!"

Xia ruofei smiled and said, "According to your description, this Section Chief Li might be very careful. He might be looking down from behind the window! So, from the moment I get out of the car, I'll be your driver. Don't forget ..."

"I can't forget!" Feng Rao laughed. It's not easy for you to be a leader!"

Xia ruofei smiled and shook his head. Then, he opened the door and got out of the car. He jogged around the front of the car and opened the door for Feng Jing. He even put his hand on the door to prevent Feng Jing from hitting her head.

Feng Jing held back her laughter as she stepped out of the car. After closing the door, Xia ruofei took Feng Jing's handbag and walked into the hotel half a step behind her.

The two of them walked through the lobby and went straight to the elevator.

In the elevator, Feng Jing whispered, "Chairman, you're very skilled in your business! Have you done carrying bags before?"

Xia ruofei's expression was serious and he looked straight ahead. However, he also lowered his voice and said, "Don't you usually learn to serve beautiful women without a teacher?"

Feng Rao's face blushed slightly, but she felt a sense of sweetness in her heart.

Ding! Ding! The elevator soon reached the fifth floor.

The two of them walked down the corridor and found Room 503. Xia ruofei pressed the doorbell.

Within a few seconds, the door of the room suddenly opened. Director Li appeared at the door in a set of pajamas and a pair of disposable slippers.

Xia ruofei glanced at him. This person was in his thirties. His hair was a little thin and he was probably starting to go bald. He might have had some alcohol during dinner, but his face was glowing and he looked like a greasy middle – aged man.

The moment Section Chief Li saw Feng Jing, his smile became even more passionate. However, he also saw Xia ruofei who was standing beside Feng Jing at the same time. He immediately stopped smiling and asked coldly, "CEO Feng, who is this person?"

?

Chapter 1208: Life is like a play, all about acting (1)

Feng Jing frowned slightly when she saw Section Chief Li in his pajamas. She then said, "Oh! He's my driver ..."

"I'm here to talk to you," Section Chief Lee's face darkened. "Why did you bring the driver here?"

Xia ruofei put on an innocent look and said, "I'm in charge of protecting CEO Feng's safety. You guys can talk about your own things. I won't talk!"

Section Chief Li's eyes flashed with a hint of anger. He had asked Feng Jing to come to his hotel room so late at night to "discuss work". His purpose was already clear, but why did Feng Jing bring a driver over?

Section Chief Li's expression turned cold and he said indifferently, "Boss Feng, if you want to do something, you have to be sincere. Is this your sincerity?"

Feng Rao was confused and asked, "Section Chief Li, I'm very sincere! Otherwise, why would I come all the way from the suburbs in the middle of the night to meet you?"

Section Chief Li cursed in his heart, 'why the F * ck are you acting dumb in front of me?

He curled his lips and looked at Xia ruofei with disdain. Then, he said to Feng Rao, "I said to talk to you alone! I'll put it this way, CEO Feng. If you want to talk, then come in alone. Otherwise, we have nothing to talk about!"

Feng Rao quickly exchanged glances with Xia ruofei and saw a flash of coldness in Xia ruofei's eyes.

Feng Rao shook her head in her heart.

In fact, this was what she had discussed with Xia ruofei on the way here. The reason why Xia ruofei followed her upstairs was also her request. To put it bluntly, she was giving Section Chief Li one last chance.

If Section Chief Li had given up at the last moment and allowed Xia ruofei and Feng Jing to enter the room together, even if they did not talk about anything substantial, Xia ruofei would only give him a light punishment.

However, Feng Rao was being too idealistic.

Section Chief Li had “worked hard” for so long and finally felt that he had forced Feng Jing to give in. How could he change his mind at the last minute?

In fact, the moment Division Chief Li had this evil thought, his fate was already decided.

Only Feng Jing knew that Section Chief Li had lost his last chance to save himself.

She finally gave up all hope and pretended to struggle in her heart for a while. Then, she gritted her teeth and said, “Little Xia, wait for me in the car downstairs!”

“President Feng ...” Xia ruofei said, pretending to hesitate.

Section Chief Li said rudely, “Why are you so long – winded? Don’t you listen to your superior? Boss Feng, why are all the drivers in your company so rude? I don’t have much confidence in your company!”

Feng Rao glared at Xia ruofei and said, “Get down!”

Xia ruofei then said helplessly, “Alright! Then be careful, President Feng ...”

Section Chief Li shot a warning look at Xia ruofei, then put on a fake smile and said to Feng Jing, “President Feng, please!”

Feng Rao took a deep breath, nodded, and walked through the door.

Section Chief Li stepped aside to let Feng Jing in, then immediately closed the door. He quickly closed the door and pressed the ‘Do Not Disturb’ light.

Feng Rao’s eyelids twitched slightly, but she walked in without a sound.

In the corridor, Xia ruofei walked forward unhurriedly and entered the safety passage in a flash. Then, he quickly ran upstairs.

Shixin hotel was just a Budget Express hotel. Xia ruofei had reason to believe that chief Li chose this place because he had some internal connections in this hotel. He thought this was the safest place.

However, he also knew that even if chief Li had acquaintances in the hotel, there was no need for someone to help him watch the surveillance cameras all the time when he was doing those dirty things.

After all, these people weren’t specially trained agents. Furthermore, they didn’t expect Feng Jing to go upstairs with her driver, so the possibility of him being watched was very low. He didn’t have to worry about anyone noticing anything unusual and reporting it to Section Chief Li.

Xia ruofei went up the stairs at a very fast speed, almost unaffected by gravity. He sprinted the entire time. The hotel only had eight floors, and he ran up from the fifth floor. In less than 30 seconds, he had reached the top floor.

The iron door of the rooftop was locked, but it could not stop Xia ruofei. He was too lazy to open the lock, so he used a trace of true energy and twisted it. The big copper lock was pulled out by him.

Xia ruofei did not hesitate when he arrived at the rooftop. He immediately ran to the northeast corner.

As a former member of the Special Forces, he was extremely sensitive to directions. He almost didn’t need to think. He had already accurately found the top of Room 503 based on his subconscious feelings.

Without hesitation, Xia ruofei grabbed the railing of the rooftop and flipped over. He landed accurately on the air conditioner in Room 803. Before he landed, he used the window as a stepping stone. When he stepped on it again, it was light as if it was weightless and did not make any sound.

Even if Xia ruofei had not cultivated, he could do this with his eyes closed when he was in the lone wolf assault team, not to mention that his strength had increased by more than ten times.

Under the cover of the dark night, Xia ruofei was like a martial arts master who was as light as a swallow. He kept falling at an unbelievable speed.

Each of his movements seemed so dangerous, but it was just right. In the midst of danger, he could accurately find the best point of leverage.

?

Chapter 1209: Life is like a play, all about acting (2)

8?7?6?5.....

In the blink of an eye, Xia ruofei had arrived at the air conditioner's condenser in Room 503.

The rooms on this side all had a small balcony next to the air conditioner condenser. The rooms were inside the balcony.

Xia ruofei didn't stop when he landed on the air conditioner's condenser. He used the force to push off and threw himself sideways. Then, he rolled beautifully on the balcony to unload the force and quietly reached the balcony of Room 503.

.....

In the room.

Division Chief Li revealed an ambiguous smile. After closing the door, he walked over to Feng Jing and wrapped his arm around her shoulder. He said with a smile, "Boss Feng, you should have agreed to come out and talk to me face to face. A wise man submits to circumstances!"

Feng Rao dodged his lecherous hand without a trace and said without batting an eyelid, "Section Chief Li, you asked me to come and meet you, and I'm here. Can we talk about the project now?"

A trace of displeasure flashed across Division Chief Lee's face, but he quickly put on a smile. He leaned back in his chair and said calmly, "Sure! Didn't I ask you out today to discuss the project?"

Section Chief Li could see Feng Rao's resistance, but it was normal to him.

Feng Jing had already been reserved for many days, and the fact that she was meeting her in such a setting showed that she had already wavered.

Section Chief Li wasn't in a hurry. He had the whole night.

In fact, he enjoyed the sense of achievement of slowly breaking the psychological defense of the other party and forcing them to submit.

In other words, if Feng Jing didn't resist this kind of thing from the start and even took the initiative to use her beauty to do things, perhaps Section Chief Li wouldn't have been so interested.

Feng Rao's nervous heart relaxed a little. She subconsciously clutched her bag and calmed herself down before saying, "Chief Li, our company is very sincere about this acquisition, and I believe that our offer will definitely satisfy the leader. As far as I know, the companies that are currently interested in the balance power building are not ..."

"Miss Feng!" Section Chief Li waved his hand and interrupted Feng Jing. "I don't care about your price at all. To be honest, no matter how much money I get from selling those few floors, what good will it do me?"

Speaking of this, Section Chief Li made a meaningful look and said, "The money belongs to the country ... So, the sincerity I want to see isn't just this!"

Feng Jing smiled and said, "Division Chief Li, we know that you're in charge of handling these assets. There must be a lot of tedious work to do. It'll be very hard. So...After this is done, we won't forget you. We'll definitely express our gratitude to you."

Section Chief Li reached out to pick his ears and said with a lack of interest, "I've seen many empty promises. President Feng, please say something useful!"

"Section Chief Li, since we're already at this point, why don't you state your condition?" Feng Jing raised her eyebrows.

Division Chief Li raised his eyes and said, "Miss Feng, you're a smart person. You should already know my conditions!"

"I don't like riddles, please just tell me!" Feng Rao smiled.

Division Chief Li's eyes flickered, but he quickly said, "First, one million in cash! Not a single cent less! Of course, I won't let you suffer a loss. As long as I leak some information to you, you'll definitely save more than a million in such a big deal! It's a win – win situation!"

Chief Li was usually more cautious, but he thought Shixin hotel was the safest place, even safer than his home. Room 503 was his special room, which was usually not open to the public. The possibility of eavesdropping devices being installed here was zero.

In this kind of environment where people thought they were safe, people would subconsciously relax their minds and speak without too many scruples.

In their previous interactions, Section Chief Li had hinted to Feng Jing more than once. He had even hinted to her that the amount was one million Yuan, but this was the first time he had said it so clearly.

Feng Rao was slightly happy, but she still looked at Section Chief Li and said, "Since it 's' first of all ', then ... Does Section Chief Li have other conditions?"

Section Chief Li's fiery eyes swept over Feng Jing as he said with a smile, "Miss Feng, you're a smart person. Don't you know what other conditions I have?"

"I'm not too sure ..." Feng Rao said.

"Since you don't know, then I'll just say it!" Section Chief Li stood up and said, "my second and last condition is naturally you, miss Feng ..."

"What do you mean?" Feng Rao asked, gritting her teeth.

"Why are you acting dumb!" Section Chief Li smiled and said, "miss Feng, it's already so late and I've asked you to come to the hotel. Isn't it obvious what I want?" I'll put it this way! As long as you accompany me for a night, those few floors of the balance power building will definitely belong to your paradise company ..."

Even though Feng Jing was mentally prepared for this, or more accurately, she was the one who led Division Chief Li to say these words, she still couldn't help but feel a chill down her spine. Her chest heaved up and down slightly, and her heart was filled with shame and anger.

?

Chapter 1210: Life is like a play, all about acting (3)

Section Chief Li didn't notice the change in Feng Rao's expression. He continued to smile and said, "Miss Feng, a smart and beautiful woman like you should know how to make use of your advantages! The moment I saw you, I was sure that the balance power building definitely belongs to your paradise Corporation, because your company has a beautiful President!"

"Section Chief Li, this is a bit too much!" Feng Jing said, "I'm not an easy woman ..."

"We're all here to mingle around in the pugilistic world, so why pretend to be virtuous?" Section Chief Li's smile disappeared as he said, "miss Feng, as long as you agree to my request, I can be more lenient with the first condition. If you don't agree, then there's no need to talk about this. It's useless even if you give me two or three million!"

Then, Section Chief Li's tone softened a little and he continued, "Miss Feng, I'm sure you know that if I don't agree, your company won't even have the right to compete ... What do you think? Just think about it! I'm still going to say the same thing – a wise man submits to circumstances!"

Feng Rao had already gotten everything she wanted, and she felt disgusted by Section Chief Li. She didn't want to pretend to be nice anymore.

Her expression turned cold as she stood up and said, "I'm sorry, Section Chief Li, I can't agree to your conditions! Goodbye ..."

Section Chief Li was taken aback. He didn't expect Feng Jing to be so decisive. The feeling of having everything under control disappeared.

Division Chief Li originally felt that Feng Jing was becoming more and more helpless under his gradual pressure. He was already close to breaking through her psychological defenses, so what happened next should be a matter of time.

All of this was beyond his expectations.

Seeing that Feng Jing was already walking out, Section Chief Li panicked. He suddenly realized a very scary possibility.

He quickly stepped forward to block Feng Rao's path and said, "Miss Feng, you're leaving just like that? are you not going to give us face?"

"Section Chief Li's conditions are too harsh. We can't continue the discussion. What am I staying for?" Feng ke said.

Her voice was very calm because she knew that Xia ruofei would be by her side to protect her. She did not have to be afraid of anything.

"Miss Feng, you can leave if you want to. I never force anyone to do so, but ... I need to check if you're carrying any unfriendly trinkets on you and in your bag ..." Section Chief Li sneered.

"Section Chief Li, don't go too far!" Feng Rao's expression changed slightly as she said, "you have no right to restrict my freedom, much less search me! This is illegal!"

"I know more about the law than miss Feng ..." Chief Li curled his lips and said, "but I sincerely asked you to come here to talk, but you don't seem to be very kind!" If that's the case, then don't blame me for being impolite ..."
