Chapter 1211: I gave you a chance (1)

Xia ruofei's speed was too fast. After Section Chief Li's shoulder joint was dislocated, he was stunned for a full two seconds before he felt the severe pain. He couldn't help but cry out in pain.

Xia ruofei furrowed his brows and pointed his finger at Division Chief Lee. To his horror, Division Chief Lee found that he could not make a sound.

His mouth was wide open, but his throat seemed to be frozen, and his vocal cords could not move at all. He was like a suffocating duck, opening his mouth and holding his throat, but he could not make a single sound.

"Chairman, didn't you say you wouldn't use force?" Feng Jing said helplessly.

Chairman? Section Chief Li even forgot his fear and turned to look at Xia ruofei. Isn't this Feng Rao's chauffeur? How did he become the chairman?

Xia ruofei glanced at chief Li in disgust, then said to Feng Jing, "I'm already very civilized, is this considered violence? Is there a wound on his body?"

Feng Rao glared at Xia ruofei unhappily.

Wasn't it violence if there were no injuries? The dislocated shoulder joint was in excruciating pain. In just a short while, his forehead was covered in sweat. He did not know what Xia ruofei had done to him, but he could not make a sound.

This was not considered using violence?

However, Feng Jing was also full of hatred for Section Chief Li, so she naturally did not mind Xia ruofei's sophistry.

"What do we do now?" she asked, a little worried.

Xia ruofei did not answer Feng Jing's question. Instead, he looked at chief Li and said, "You still want to make a sound?"

Section Chief Li nodded his head repeatedly.

Xia ruofei said, "then be good!" If you keep wailing like a ghost or a Wolf, I'll give you another round! And let me tell you, if your meridians are sealed for too long, even if you unseal them, you might not be able to make a sound. At that time, you can be a mute for the rest of your life!"

Section Chief Li's face changed drastically when he heard this. He shook his head repeatedly and then nodded repeatedly.

Xia ruofei understood what he meant. He pouted and pointed at him. Division Chief Li immediately groaned in pain.

He could make a sound! Section Chief Li was pleasantly surprised, but his expression changed immediately. He quickly covered his mouth and looked at Xia ruofei, his body trembling slightly.

He had been scared out of his wits. In his eyes, Xia ruofei was a demon.

In fact, Xia ruofei's move might look scary, but it was nothing to be proud of.

His Chinese medicine attainment was now comparable to some Chinese medical Masters. He had a deep understanding of the human body's meridians. In addition, he had true Qi in his body, so it was easy to block section Chief Li's meridians.

Xia ruofei sat down on the chair and crossed his legs. He asked calmly, "CEO Feng, did you record everything?"

Feng Jing nodded. She took out a small recording pen from her handbag and handed it to Xia ruofei.

There was a trace of fear in Division Chief Li's eyes, but at the same time, there was a trace of well – hidden evilness.

Xia ruofei glanced at Section Chief Li and pressed a few buttons on the recording pen. The room was filled with Section Chief Li's proud voice.

"One million in cash! Not a single cent less!"

"As long as you accompany me for a night, the few floors of the balance power building will definitely belong to your paradise company!"

.....

Xia ruofei turned off the recording pen and looked at Section Chief Li with a meaningful smile on his face.

Section Chief Li's face turned pale and he knelt down in front of Xia Ruofei.

He had forgotten that his right arm had been dislocated, and this sudden movement caused him to lose his balance. He fell to the ground and hit his dislocated shoulder joint. It was so painful that he couldn't help but scream.

However, he immediately thought of what Xia ruofei had just said. It was as if someone had grabbed his neck and his scream stopped abruptly.

Section Chief Li's face was pale from the pain. He struggled to kneel in front of Xia ruofei again and begged, "Big brother! Big brother! I was wrong, please give me a chance...I...I...I promise that your company can buy those few floors of Hengli building at the lowest price!"

If it was someone else who had recorded this evidence, Section Chief Li would definitely not have this attitude.

Shixin hotel was almost his base and he knew many people in the society. However, the power that Xia ruofei had just displayed, especially the ability to make him unable to make a sound with a simple point of his finger, was too terrifying. He was scared out of his wits.

Therefore, Division Chief Lee's first reaction was to beg for mercy.

Xia ruofei glanced at Section Chief li and said, ""I've already given you a chance, but you didn't take it ...""He said.

Section Chief li was taken aback. He did not know that the 'chance' Xia ruofei was talking about was the one before Feng Jing entered the room. If he had stopped at the edge of the cliff and allowed Xia ruofei, the 'driver', to enter the room with him, Xia ruofei might have only given him a light punishment.

However, things were completely different now.

Xia ruofei ignored chief li. He took out his phone and dialed a number. "Where are we now?"

A young voice came from the phone. ""We'll be there soon. There was a traffic jam on the way. "

This man was one of the friends that Song Wei had introduced to Xia ruofei not long ago. He was Liu Zhe, who Xia ruofei had ridiculed for having a weak kidney. His father happened to be the leader of the provincial state resources Administration, so Xia ruofei thought of him immediately.

"Yes, go to Room 503 directly when you arrive!" Xia ruofei said indifferently, "we'll wait for you here!"

?

Chapter 1212: The one who gave you a chance (2)

"Alright!" Liu Zhe said.

"You ... Who did you call?" chief Li's face changed greatly. You called the police?"

"Just stay here obediently!" Xia ruofei said, "you'll know who I've called."

With that, Xia ruofei gestured to Feng Rao to sit down and rest.

After a while, Xia ruofei, who had sharp hearing, heard footsteps coming from the corridor.

The footsteps stopped at the door, and then there was a knock.

Xia ruofei stood up and walked over to open the door.

Liu Zhe was standing at the door, and there were three people with cold expressions standing beside him.

"Brother Xia, as you ordered, I've brought the person!" Liu Zhe said enthusiastically, "let me introduce you. This is the provincial Commission for Discipline Inspection ..."

"Let's talk inside!" Xia ruofei said with a smile.

"Alright, alright!" Liu Zhe quickly said.

Xia ruofei smiled and gestured for her to leave. Then, he turned around and walked back to his room.

Liu Zhe and the others walked in and saw Section Chief li sitting on the ground in a sorry state, with broken glass all over the floor near the balcony.

“Brother Xia, what’s going on?” Liu Zhe could not help but ask.

Before Xia ruofei could say anything, Section Chief Li’s heart had already sunk to the bottom.

Liu Zhe only felt that Section Chief Li looked familiar, but Section Chief Li was extremely familiar with Liu Zhe. He was the son of the second – in – command in the unit!

What made Section Chief Li shiver even more was that the three people he brought were all from the provincial Commission for Discipline Inspection, and the older one was a Deputy Director. These people were famous for being impartial in the unit, and many people who violated the rules and regulations had fallen at their hands.

Section Chief Li realized that he might not be able to escape tonight, and he was afraid that he would not be able to keep his public office.

As expected, before Xia ruofei could explain the situation, Deputy Director Xu, who was leading the group, frowned and asked, “Li Chenggong? What are you doing here?”

“Deputy Director Xu, you know him?” Liu Zhe asked curiously.

“He’s a Section Chief in the property rights management Office!” Vice Director Xu said.

Xia ruofei said, “let me say it!” Please take a seat!”

After everyone sat down, no one paid any attention to the dazed Section Chief Li. They all focused their attention on Xia ruofei.

“You guys should know that the provincial power electricity Corporation is going to sell their business in Hengli building, right?” Xia ruofei said calmly.

Liu Zhe continued, “I know!” This matter was handled by the provincial state – owned assets Control Commission! It should be ... The property rights management Department, right?”

Liu Zhe had some understanding of his father’s work, but he wasn’t very confident. He looked at Deputy Director Xu.

Deputy Director Xu slightly nodded and said, “”Yes. As far as I know, Li Chenggong’s Department is in charge of the specific work. So, tonight’s incident is related to the sale of assets in Hengli building?”

Xia ruofei nodded and said, “our company is very interested in this building. More than a week ago, we started to prepare for the acquisition. We also contacted the relevant departments of the state – owned assets Control Commission at once. The contact person is chief Li!”

Xia ruofei paused and continued, “”But what surprised us was that the normal routine procedure couldn’t be carried out when it came to Section Chief Li. So far, we can’t even submit the price.”

“Our company’s general manager, Feng Jing, was in charge of this matter at first.” Xia ruofei pointed at Feng Rao and said, “I felt that there was no progress after that, so I asked about it. The result made me very angry! It’s all because of this Section Chief Lee, who created obstacles for us one after another!”

After Deputy Director Xu heard this, he already understood.

This was how things were done in the system. It was inevitable to shirk responsibility and wrangle. Moreover, he was already the Deputy Director, so he knew all too well what kind of high – sounding excuses chief Li would use to avoid it. He knew that as long as chief Li didn't relent, the company would be beaten back even if it submitted a hundred times.

However, Deputy Director Xu thought that Xia ruofei had come to kill him in a fit of anger and had even hit him. Director Li was covered in dust and his arm was obviously injured. He could not help but frown.

Deputy Director Xu was an experienced discipline inspector, and he knew how to be flexible. Otherwise, he wouldn't have agreed to Liu Zhe's request without even knowing the reason. However, he also couldn't stand the arrogant and domineering nouveau riche who relied on his family's power.

In Deputy Director Xu's eyes, Xia ruofei was already such a spoiled brat.

He frowned slightly and said, "Mr. Xia, even if Section Chief Li is in the wrong, you should've reported it through the normal procedures." If you can't find chief Li, you can find his chief, or even the committee leader!"

Liu Zhe quickly said, "Deputy Director Xu, let brother Xia finish first!" Brother Xia, there must be a reason why you attacked me tonight, right?"

Xia ruofei looked at Deputy Director Xu and said with a faint smile, "Deputy Director Xu, if it was just to create some difficulties for us, I wouldn't have lost my cool. What really made me angry was that this Section Chief Li openly asked us for a million Yuan as a reward, and even had bad ideas about our female employees ..."

Even though Xia ruofei did not explicitly say that it was Feng Jing, Feng Jing was so pretty and was quite famous on the internet. She was with Xia ruofei tonight, so Deputy Director Xu and the others naturally turned their attention to Feng Jing. This made Feng Jing's pretty face heat up.

Deputy Director Xu said with a serious expression, "Mr. Xia, you have to take responsibility for what you say! Do you have any evidence?"

Xia ruofei glanced at Section Chief Li, who was now like a pile of mud, and said, "Before tonight, we really didn't have any evidence. This Section Chief Li is very cautious! But now ... We have enough evidence!"

Deputy Director Xu saw Xia ruofei's confident look and couldn't help but ask, "Are you sure?"

Xia ruofei smiled and did not say anything else. He took out a recording pen and pressed the button to start playing.

The voice recorder was very good. Although it was in the bag, the sound was very clear. It was obviously Feng Jing and Section Chief Li's voices.

The recording kept playing. In the recording, Section Chief Li's triumphant tone formed a sharp contrast with his current sorry state, which was like a dead dog.

Deputy Director Xu's face became uglier and uglier as he listened. When he heard that chief Li wanted Feng Jing to accompany him for a night, he couldn't help but slam the back of his chair and stand up. He

glared at chief li and said, "You scum! You've completely lost the face of the state – owned assets Control Commission!"

Section Chief li lowered his head, his heart full of despair.

He still couldn't figure out why the boss of this paradise Corporation had such a strong background. Even Deputy Director Liu's son was so familiar with him. How could he have applied for an acquisition through the normal procedures?

If he had known about Xia ruofei and Liu Zhe's relationship, he would not have dared to treat Feng Jing like that!

Now, Section Chief li really wanted to cry but had no tears. His intestines were almost green with regret.

In fact, it was normal for Xia ruofei to ask Feng Jing to carry out the acquisition plan through formal channels. Unfortunately, in the eyes of the few "rat sh * ts" like Section Chief li, the normal things became abnormal. It was ironic.

"Mr. Xia," Deputy Director Xu said sincerely, "I'm really sorry that such a scum appeared in the SASAC. At the same time, we also want to thank you for helping us find such a parasite!"

Xia ruofei smiled. "Deputy Director Xu, you're too kind. There are black sheep everywhere. This has nothing to do with the management of the unit."

"Thank you for your understanding!" Deputy Director Xu quickly said, "Mr. Xia, I will report this to the leader of the discipline Inspection team immediately. With his situation, the two rules are certain. We may need your company to provide more specific information to assist us in investigating this case!"

?

Chapter 1213: Buying the building_1

Xia ruofei smiled and said, "no problem. It's our duty to cooperate with your investigation." CEO Feng was the one who followed up on this matter from the beginning to the end. If you need any cooperation, just contact CEO Feng directly!"

"Alright, thank you, Mr. Xia!" Deputy Director Xu said politely.

He was just a man of principle, but his EQ was not low. The man in front of him had such a good relationship with young master Liu, and it was obvious that the SASAC was in the wrong this time, so he naturally lowered his attitude.

After Feng Jing heard Xia ruofei's words, she immediately took out a business card and handed it to Deputy Director Xu. "Leader, if you need to cooperate with the investigation, just give me a call!"

"Thank you, director Feng!" Deputy Director Xu said with a smile. Then, he handed Feng Jing a business card.

Then, Deputy Director Xu glared at Section Chief Li and said in a deep voice, "Li Chenggong, on behalf of the discipline Inspection team, I officially inform you that from now on, your movements will be restricted and you will be under investigation! Come with us!"

After that, Deputy Director Xu gestured to the two subordinates next to him. The two of them immediately understood and walked forward, ready to lift Li Chenggong up.

Xia ruofei's heart skipped a beat and he said, "Please wait a moment!"

Xia ruofei walked to Li Chenggong and reached out to his shoulder. He grabbed his arm and gently pulled and pushed it away. Li Chenggong could not help but scream in shock.

Deputy Director Xu could not help but frown. They had officially taken over the investigation of this matter, but Xia ruofei still lectured Li Chenggong in front of them. This made him a little unhappy.

However, for Liu Zhe's sake, Deputy Director Xu didn't say anything.

After Li Chenggong shouted, he was stunned again. He suddenly felt that the pain had disappeared.

Li Chenggong tried to move his arm in surprise and found that it had completely recovered. There was no pain at all, as if the dislocation of his shoulder joint was just a dream.

Li Chenggong's respect for Xia ruofei deepened. In his opinion, this method was simply unpredictable!

Deputy Director Xu saw Li Chenggong's expression and realized that Xia ruofei was not teaching Li Chenggong a lesson. He was just trying to fix his dislocated shoulder joint.

Deputy Director Xu knew that he had misunderstood Xia ruofei just now. He was secretly glad that he did not lose his temper just now. If he had criticized Xia ruofei just now, it would have been awkward.

Xia ruofei smiled and pulled Li Chenggong up. He patted his back and said, "Section Chief Li, I hope that you will accept the organization's investigation and honestly confess your problems. Don't take any chances!"

Li Chenggong did not dare to meet Xia ruofei's eyes. He lowered his head and said, "Yes! I don't dare, I don't dare ..."

He didn't know that Xia ruofei's two gentle slaps had already been done without anyone knowing.

Xia ruofei knew that Li Chenggong's career was over, and he might be transferred to the law and put behind bars. However, he felt that this was not enough.

This was because Li Chenggong actually dared to have designs on Feng Jing. If they let him off so easily, wouldn't that be letting him off too lightly?

Therefore, Xia ruofei's two Patts were actually imbued with pure energy. Although Li Chenggong did not feel any discomfort at all, the pure energy would quietly erode some of his meridians in the future.

Li Chenggong's body would become weaker and weaker as a result, and most importantly, he would no longer be able to do anything with men and women. In the end, even if a beautiful woman were to strip naked in front of him, he would be powerless.

In Xia ruofei's opinion, this punishment was appropriate. Li Chenggong had asked for it.

Xia ruofei smiled at Deputy Director Xu's two subordinates, indicating that they could take the man away.

The group left Room 503. Li Chenggong was still in his pajamas, and two officers were holding him on both sides.

Xia ruofei and the rest followed behind the three of them.

Liu Zhe whispered into Xia ruofei's ear, "Brother Xia, why didn't you tell me that your company was going to the state – owned assets Supervision and Administration Commission? You're looking down on your brother!"

Xia ruofei laughed and said, "it was originally a very simple matter. Who would have thought that it would be so complicated?" I just don't want to be special. It's best if things can be done through normal procedures ..."

Liu Zhe shook his head and said with a smile, "I didn't know brother Xia was such an idealist ..."

"After all, black sheep are only a minority." Xia ruofei said indifferently, "we don't want to take advantage of the public either. We do business in an open and aboveboard manner. Using real money to buy these properties isn't idealistic, right?"

Xia ruofei then said to Liu Zhe, "By the way, you're not allowed to inform anyone about the acquisition! We'll just quote the price and buy it normally. We don't want to mix anything else into this simple business. "

"Understood!" Liu Zhe said, "but if someone else is blind enough to try and make things difficult for you, you have to tell me immediately!"

"That's for sure!" Xia ruofei patted Liu Zhe's shoulder and said, "thank you for today!"

"Aren't you treating me as an outsider?" Liu Zhe said, "brother Xia, it's not like I don't know your connections. It's my honor to be able to help you with something!"

?

Chapter 1214: Buying the skyscraper (2)

"Then I won't stand on ceremony with you. I'll treat you to a drink when I have time!" Xia ruofei said.

"Alright!"

While they were talking, they arrived at the lobby on the first floor.

A middle – aged man in a suit and leather shoes saw li Chenggong's embarrassed look and was shocked. He quickly walked over.

Deputy Director Xu didn't wait for him to speak. He directly took out his id and showed it to the middle – aged man. "I'm from the discipline Inspection team of the state – owned assets Inspection Commission. We're performing official duties!"

The middle – aged man looked at li Chenggong in shock.

At this time, li Chenggong was completely disheartened. He seemed to have aged a lot in an instant. He looked at the middle – aged man with a dull look and shook his head with a bitter smile.

The middle – aged man immediately understood. He sighed and made way.

Xia ruofei walked to the front desk, took out a small stack of cash and handed it over. He said calmly, "I accidentally broke the glass door of the balcony. This is compensation for you!"

With that, Xia ruofei quickly followed and the group walked out of Shixin hotel.

Xia ruofei watched as Liu Zhe and Deputy Director Xu's cars disappeared into the night. He smiled and said, "Done! President Feng, let's go! I'll treat you to supper!"

Feng Rao looked at Xia ruofei with a complicated expression. She opened her mouth but did not say anything.

However, today's events made her feel very defeated.

She had been personally following up on the acquisition of Hengli building. She had done a lot of work but to no avail, and finally, she had reached a dead end.

And Xia ruofei had easily solved the biggest problem.

It was the same with the spokesperson of jade skin cream. After the small star changed her mind at the last minute, Feng Jing was also in a terrible state. In the end, Xia ruofei solved it easily.

This made Feng Jing feel useless. She even felt sorry for her high salary and year – end bonus.

Xia ruofei didn't notice Feng Jing's abnormal behavior. He immediately went to a roadside stall for skewers behind Shixin hotel and ordered a lot of skewers and a few bottles of beer.

Xia ruofei was not a person who was greedy for enjoyment. He could drink a bottle of red wine that cost tens of thousands of Yuan, and he could also eat with relish at a roadside stall like this. Besides, he was born poor, so he felt more comfortable this way.

"President Feng, this restaurant's food is really good. You should try it!" Xia ruofei passed Feng Rao a few mutton skewers and said with a smile.

Feng Rao was in a daze. She only came back to her senses when Xia ruofei passed her the kebab skewer and even shook it in front of her. She quickly said, "Oh! Thank you, Chairman!"

Xia ruofei looked at Feng Rao suspiciously and ate the skewer in a few bites. Then, he asked, "President Feng, what's wrong?"

"I'm fine!" Feng Ye forced a smile.

“Wasn’t today’s matter resolved perfectly?” Xia ruofei said, “why do I see that you don’t seem very happy?”

Feng Rao couldn’t help but smile bitterly. She lowered her head and said, “Chairman, I just feel that I’m too useless. I can’t even do such a simple thing well. Last time, I screwed up the issue of being the spokesperson of the Jade skin cream. In the end, it was you who made up for it ...”

Xia ruofei was stunned for a moment, and then laughed. “Why do you think so?”

As he poured wine for Feng Rao, he continued, “We’re a team! Wasn’t it only right for them to make up for each other’s shortcomings? Besides, everyone’s field of expertise is different. You’re a human, not a God! Don’t be too harsh on yourself.”

“I just feel like I’m not capable enough ...” Feng Jing said as she raised her head.

“You’re still not capable enough?” Xia ruofei deliberately put on an exaggerated expression and said, “CEO Feng, your ability is in business management. Do you know how complicated the daily work in the company is? You’ve taken care of everything. I can’t even imagine how messy the company would be if you didn’t help me!”

Feng Rao couldn’t help but burst into laughter. “You’re just lazy!”

Xia ruofei said seriously, “it’s not that. Some abilities are born. Anyway, if you ask me to manage the company, especially when our company is getting bigger and bigger, I definitely won’t be able to do it. But you can do it with ease!” So, you really don’t have to belittle yourself!”

Feng Rao looked at Xia ruofei deeply and said, “Chairman, I didn’t expect you to be so good at comforting people!”

“I’m just telling the truth, okay?” Xia ruofei said, “CEO Feng, put away those nonsensical thoughts! I’m very satisfied with your work! Don’t even think about deserting! Our paradise Corporation can’t live without you!”

Feng Rao was touched and nodded, “Mm! As long as you don’t chase me away, I’ll always stay in paradise Corporation!”

“That’s the way!” Xia ruofei smiled happily, raised his glass, and said, “come, come, come, let’s have a toast. I wish the company a smooth success in taking over the headquarters building!”

Feng Rao drank a glass of wine with Xia ruofei and said with a smile, “You’ve already helped me clear the biggest obstacle. If you still can’t take me down, I’ll really have to resign!”

Xia ruofei laughed heartily. “No, no. It’s best if we can complete the acquisition. If the competitors offer too high a price, we won’t force them. If we have money, we can afford a house. Come, come, come, let’s drink!”

The two of them were eating and drinking at a roadside stall while chatting. Under the dim yellow street light, the two figures sitting opposite each other seemed so harmonious and warm.

?

Chapter 1215: Buying the skyscraper (3)

More than an hour later, the two of them drove back to the farm. It was already around 11 P. M.

After Xia ruofei's counseling, Feng Jing was in a much better mood.

She looked at the lights flashing quickly outside the window and said with a smile, "Chairman, I think you're quite good at thinking!"

Xia ruofei said, "of course!" If I hadn't retired from the Army, I might have been an instructor or an instructor. If I'm lucky, I might have even been a political commissar. "

Feng Rao couldn't help but burst into laughter after hearing this.

After they returned to the farm, Xia ruofei sent Feng Jing back to her dormitory. He parked the car in the shed beside the complex and walked back to the small villa leisurely.

Xia ruofei did not notice that in one of the rooms in the complex, Feng Jing was standing behind the curtains. Through the gap, she was watching him disappear into the night. Feng Jing's eyes were a little dazed, but at the same time, there was a hint of shyness.

.....

The next day, Feng Jing received a phone call from Deputy Director Xu, asking her to bring the most important evidence to the SASAC Discipline Inspection team to cooperate with their investigation.

Yesterday, for safety reasons, Xia ruofei did not hand the recording pen over to Deputy Director Xu and the others.

Although Liu Zhe had brought the man, there was only one recording. Xia ruofei would not take the risk without absolute confidence, even if the chances of Deputy Director Xu and the others destroying the recording were slim.

Feng Jing took the USB with the recording and the purchase materials that she had prepared a few days ago. When she went to the SASAC, in addition to cooperating with the investigation, she had to submit the materials as soon as possible. The purchase deadline was approaching, so she had to hurry.

In the next few days, Feng Jing mainly followed up on the acquisition of the building and cooperated with Deputy Director Xu's investigation when she needed it.

Li Chenggong was isolated for investigation, and the new section Chief couldn't be in place immediately, so his work was temporarily taken over by a Deputy Section Chief surnamed song.

There was no such thing as an impervious wall in the world. Moreover, inside the mechanism, the speed of small news spreading was very fast.

Therefore, even though Liu Zhe didn't say anything about Paradise Corporation, vice Section Chief Song quickly found out the reason for Section Chief Li's fall. While he broke out in a cold sweat, he didn't dare to neglect Feng Jing at all.

Once the organizer paid attention to it, the efficiency would be very high.

Feng Jing's acquisition of Hengli building sped up. The materials were submitted smoothly, and the asset management Office quickly gathered several companies and individuals who were interested in the acquisition and held an inquiry meeting.

The other companies weren't very interested in buying, and Feng Jing and Xia Ruofei's offer was very sincere and competitive.

Therefore, after a few rounds of inquiry, the Paradise Corporation successfully bought the few floors of the Hengli building, and the total transaction price was 270 million Chinese dollars.

After much hard work, Feng Jing finally decided on the payment method.

On the day of the contract signing, 100 million Chinese dollars would be paid. Within three months of the transfer of property rights, the Paradise Corporation would pay the remaining 170 million Chinese dollars.

With these three months of buffer period, with the Jaded Skin Cream's super – Strong ability to make money, 170 million Chinese dollars would be a piece of cake.

The acquisition of the Balance Power building was quite smooth, and the investigation on Li Chenggong was also very fast.

Li Chenggong's psychological defense had already collapsed that night. Deputy Director Xu and a few disciplinary officers pursued the victory, and he quickly confessed to all the crimes he had committed over the years.

As Xia Ruofei had expected, Li Chenggong was a typical corrupt official. What he had done had long broken the law. After the investigation was over, he would be sent to the judicial authorities and be prosecuted.

If there were no accidents, his prison life would not be too short. This was what he deserved.

The interesting thing was that in the process of investigating Li Chenggong, there was a small interlude that was related to Xia Ruofei ...

?

Chapter 1216: Truffle – eating season has arrived (1)

It turned out that after Li Chenggong had explained everything, he knew that he would not be able to escape from prison. His hatred for Xia Ruofei grew deeper and deeper.

Previously, he was still a little afraid of Xia ruofei's strange methods. However, now that he was about to be transferred to the detention center, he would have to go to prison if his sentence was longer. He felt that even if Xia ruofei wanted to take revenge on him, he would not go to prison.

Therefore, after explaining the problem, li Chenggong started to complain about calling the police. He said that Xia ruofei had used violence on him that night and even broke his arm.

Deputy Director Xu had actually seen li Chenggong's dislocated arm before. However, Xia ruofei had fixed it back for him. He hated scum like li Chenggong to the core. He felt that li Chenggong deserved the pain.

However, li Chenggong had made a big scene, saying that Deputy Director Xu was deliberately covering up for Xia ruofei. After all, there were other people in the special task force, so Deputy Director Xu had no choice but to take li Chenggong to the hospital for an injury examination.

The result was shocking.

Originally, when an arm was dislocated, even if it was reset, it was definitely impossible to recover completely in a short period of time. The condition of the joint could be seen through an x – ray.

However, when li Chenggong went to the hospital for a checkup, there was no injury at all.

Li Chenggong couldn't believe the result and insisted on changing the hospital for a check – up. He even said that Xia ruofei had not only broken his arm, but had also pressed his acupuncture points and made him mute.

No one in the special task force believed li Chenggong's words. They thought that he was just acting crazy and speaking incoherently.

Maybe he had more serious problems that he had not explained, so he pretended to be crazy to avoid it!

Therefore, the leader of the special task force increased the investigation of li Chenggong. Although no other major problems were found in the end, li Chenggong's intentional obstruction of vision and framing of the witness were also regarded as a crime for resisting the investigation, and became a basis for a heavy sentence.

This made li Chenggong want to cry but had no tears.

Little did he know that even if Xia ruofei removed his shoulder joint and put it back on dozens of times, as long as Xia ruofei did not want to, he would not leave any traces of damage.

As for the one who made him unable to make a sound with a touch of his hand, no one would believe him if he told them.

Liu Zhe had told Xia ruofei about this after the incident. Xia ruofei only smiled and did not take it to heart.

The transfer of ownership of Hengli building went very smoothly. Feng Jing was very careful in handling these specific matters and there would be no mistakes. Xia ruofei was also very assured.

The transfer of property rights took some time, but the provincial Power Construction Company had already left, so under the supervision of the state – owned assets Supervision and Administration Commission, the property of these floors was officially handed over to the Paradise company.

On the day of the handover, Xia ruofei also came to the scene.

This was the first time he was checking out his company's future headquarters on the spot.

Looking at the 15 – story building in front of him, although only the top six floors belonged to Paradise Corporation, this was in the city center. Not to mention a six – story office building, even an ordinary residence was an unreachable goal for many people.

Two years ago, Xia ruofei was still a poor veteran. Now, he had such a huge fortune. Even Xia ruofei felt like he was dreaming.

After a simple ceremony was held for the transfer of assets, the Paradise Corporation took over the six floors. As for the water and electricity accounts, they would have to wait until the transfer procedures were completed before they could be transferred.

The reason why Feng Jing took over the building in advance was that she wanted to plan, renovate, and renovate it as soon as possible so that she could move the headquarters over.

After the people who attended the handover ceremony left, Feng Jing and Xia ruofei stood in front of the floor – to – Ceiling window on the 15th floor.

Everything here had been cleared out, and the entire floor looked empty.

Feng Rao was very excited. She smiled at Xia ruofei and said, ""Chairman, how is it? Did he feel that the mountains were small? This will be our company's headquarters in the future!"

Xia ruofei laughed and said, "this is only the 15th floor. What's there to see?" Do you think it's Dubai's Burj Khalifa?"

"State of mind!" Feng Rao said. I'm talking about the state of mind! Although we only have six floors, this is the company's first core fixed asset!"

Xia ruofei smiled. "Boss Feng, what are you going to do with the six floors? have you decided?"

Feng Rao nodded without hesitation. "I've been thinking about this for the past few days. If the company's headquarters is moved out, we'll have plenty of space. The General Manager, vice general manager, and administration Department can occupy one floor. The marketing department is relatively large, and in the future, the e – commerce area will continue to be strengthened, so it's estimated that we'll use two floors, one for finance and security, and two more floors. The bottom tenth floor will be used for mobility. After the company expands in the future, the overseas business department may have to be an independent Department. They had a special place to work. And the 15th floor of this top floor will naturally be the chairman's office!"

Xia ruofei was stunned for a moment. He didn't know whether to laugh or cry. "Boss Feng, Are you sure? This floor was 1500 square meters! You made it into a big office?"

?

Chapter 1217: Truffle season has arrived (2)

Feng Rao nodded and said, "Isn't that normal? Not only does it have an ultra – wide office area, but it also has a guest area, study room, bedroom, kitchen, activity room, chess room, conference room ... In short, it has all the functions and is 1500 square meters. Only by making the entire floor your office can you highlight your position in the company!"

Xia ruofei quickly waved his hand and said, "stop, stop!" I only spend a few days in the office all year round. Isn't it a waste of money for you to build such a luxurious office?"

"Chairman, you need to keep up with the times!" Feng Rao immediately lectured. The utilization rate of the office was only one aspect of the problem, but the specifications of the chairman's office could show the foundation and strength of a company! Even if this office is only used for one day a year, we still have to do it!"

Xia ruofei said helplessly, "I don't care about those perverted logic. I just don't allow this to happen on my side!"

"President ... You're a dictator!" Feng Jing pouted and said, "didn't you say that I'm in charge of all the specific work? Why are you interfering now?"

"You can't mess around even if you're the one in charge!" Xia ruofei said, not knowing whether to laugh or cry.

"I'm really not messing around. " Feng Jing said seriously, "Chairman, do you think I was joking with you before? Our paradise company is developing too fast. I think it's very likely that we'll be able to stand shoulder to shoulder with big international corporations in two to three years. The chairman's office really can't be too shabby ..."

Xia ruofei shook his head helplessly and said, "Forget it, let's each take a step back! There were two offices on the 15th floor, one for the chairman and the other for the General Manager. You're also the main leader of the company. It's not appropriate for you to squeeze on the same floor as the administration department ..."

Feng Rao's heart warmed slightly. At the same time, she felt a burst of shyness and joy. Thinking that she and Xia ruofei would be the only ones working on the entire 15th floor in the future, she couldn't help but look forward to it.

Xia ruofei continued, "by the way, you must make sure that your office has a nice lounge. I know you. You don't even know whether it's day or night when you work. It won't be as convenient as Peach Blossom Farm in the future. The dormitory is above the office, so your lounge must be more comfortable and warm! I estimate that the utilization rate will be quite high. "

"I understand," Feng Jing nodded with a smile. "Thank you for your concern, Chairman."

She continued, "I'll gather all the key middle – ranking members of the company in the next two days. I'll gather everyone's needs for an office. Then, I'll contact the renovation company to come up with a design plan. We'll try to get the renovation done as soon as possible."

Xia ruofei nodded and said, "yes!" Don't be afraid of spending money, make sure to use environmentally friendly materials. I don't want my employees to work in an environment full of formaldehyde every day!"

"Understood!" Feng Rao said with a smile.

The employees working on the farm already knew that the company had bought a six – story office building and that they would soon move to work in the city center. Everyone was very excited.

Although working here was far away from the hustle and bustle of the city, and the environment was good, and the company provided dormitories, it was also very convenient to eat in the company cafeteria. However, most of the employees were young people, and young people could not stand loneliness. In any case, everyone still yearned for the White – collared life in the office building of the CBD.

Moreover, Xia ruofei had promised on behalf of the company that the company would give them a certain amount of rent and transportation subsidies according to the different years of service. Therefore, even if they did not have free dormitories and had to rent a house in the city, their income would not be much less.

Feng Jing quickly called for a meeting with the company's middle management to discuss the allocation of offices, staff adjustments, and the purchase of office equipment. The renovation company also quickly entered the office to do measurements and drawings. They began organizing staff to design according to the company's requirements.

It was soon mid – November, and the weather was getting colder and colder. Especially since Taoyuan farm was very close to the sea, the wind was usually quite strong, so many employees wore thick coats to work.

During this period of time, Xia ruofei had been very quiet. Other than the occasional date with Ling Qingxue, he spent most of his time in the farm, the vegetable greenhouse, the pomfrets cultivation workshop, the tea – making studio, the orchard ... And other places. He would visit them when he had the time to show his concern for everyone's work.

On the company's side, everyone was full of energy. The jade skin cream was on sale again, and the sales were equally hot. One e – commerce platform's server even had a short – term congestion. There were too many people on jingbei, tengmao, and other platforms to buy it. Some people considered whether it would be easier to buy it on relatively smaller platforms. Unfortunately, more than one or two people had this idea, so it led to more traffic flowing to the other three e – commerce platforms. It even caused the server to be jammed.

Of course, these e – commerce platforms were at the forefront of the entire industry, and their emergency plans were very mature. The problem of difficult visits was quickly solved.

However, this little interlude also reflected the hot sales of the jade skin cream.

Because more and more people had already used the jade skin cream and witnessed its magical effects, now that the jade skin cream no longer needed the peach blossom company to invest any advertising costs, the brand was enough to support itself by word of mouth.

Now, it would be sold twice a month, and the revenue each time was about 100 million Yuan, which meant that the fixed revenue could reach 200 million Yuan a month.

The production cost, labor cost, publicity cost, and transportation cost of the jade skin cream were all very low. Moreover, it was mainly the initial investment, so the profit ratio was very high among the 200 million Yuan.

The remaining 170 million for the purchase of the Hengli building only needed one month to be easily collected.

The only problem now was production.

The factory could also increase the production line, which would not cost much, but the raw materials and medicinal herbs were not so easy to get.

Although the Taoyuan pharmaceutical factory had already signed cooperative planting agreements with many places, the planting of medicinal herbs also needed a cycle. Therefore, in the early stage, they mainly relied on purchasing large quantities of medicinal herbs to maintain production, which determined that the production capacity could never have a leap in development.

It was estimated that the limited sales policy would continue for half a year to a year. This was not an intentional hunger marketing strategy, and paradise Corporation did not have any particularly good solutions.

Xia ruofei's life was carefree.

On this day, he was lying on the recliner on the balcony of the villa, reading a book while basking in the sun. His phone rang.

Xia ruofei looked at the caller ID. It was Hong Kong's MA Xiong.

So he put the book aside and picked up the phone. "Good Morning, old Mr. MA!"

"Nice to meet you, Xia Sheng!" MA Xiong's voice was very enthusiastic.

"Has old Mr. MA been well recently?"

"Good, good, good! It's all thanks to you!" MA Xiong quickly said, "Xia Sheng, I came to you today because I have something to discuss with you."

"Please speak!" Xia ruofei smiled and said, "as long as it's within my means, I will do my best!"

"Thank you!" MA Xiong said, "Xia Sheng, the first batch of truffles is going to be on the market soon. Due to factors such as rain and temperature, the production this year is at least 20% lower than the previous years. I think the price might hit a record high ... Xia Sheng, I still remember the batch of truffles you put up for auction at the beginning of the year! Do you have any way to get truffles of similar quality this year?"

MA Xiong's words also reminded Xia ruofei. He had not taken care of the oak trees and the soil with fungi after moving them to the mountain and sea realm. In the blink of an eye, it was already truffle season. He wondered if truffles were growing under the oak trees. How much could they produce this year?

?

Chapter 1218: I'll dig! I'll dig! I'll dig, dig, dig, dig!_1

Xia ruofei was a little distracted after hearing MA Xiong's words.

"Xia Sheng, is there ... Any difficulty?" MA Xiong asked tentatively.

Xia ruofei came back to her senses and hurriedly said, "Oh! No, no! Mr. MA, I should be able to get truffles, but I'm not sure how much I can get ..."

"It's good that you can get it!" MA Xiong was overjoyed. "Xiasheng, how about we continue working together this year?"

Xia ruofei smiled and said, "of course, there's no problem in cooperating!" However, I can't be sure how many truffles I can get. How do you plan to cooperate, Mr. MA?"

Xia ruofei did not mention the quality of the truffles because he had absolute confidence in their quality. The only thing he was unsure of was whether the truffles in the mountain and sea realm had matured or how much they could be produced.

MA Xiong seemed to have more confidence in Xia ruofei. He laughed and said, "I have absolute trust in Xia Sheng's ability. As long as you're sure you can get truffles, there's room for cooperation!"

MA Xiong pondered for a while before he continued, "Xia Sheng, I hope that we can organize our own truffle auction this year. If we have enough, we can use all of the truffles from paradise Corporation. We want fame, you guys can profit, and we'll each take what we need!"

This wasn't the first time they had worked together like this. It was the same for the one – headed abalone auction last time. Hengfeng group needed these top – Class ingredients to increase their influence, and Tao Yuan company also needed Hengfeng group's powerful channels.

In addition to the considerable profits, the Paradise Corporation would also gain a huge reputation, which could be said to be a win – win situation.

Xia ruofei did not hesitate and nodded. "If the Commission rate for the auction is according to the market price, then I agree in principle!"

Xia ruofei said that not because he was worried that Hengfeng group would demand an exorbitant price. On the contrary, he was afraid that MA Xiong would give him a huge discount and not even charge him for the auction.

If Xia ruofei didn't mention it, it was very likely because of his relationship with the MA family.

However, Xia ruofei felt that business was business. He didn't want to have too many human relationships involved. If they had a good relationship, they could work together often, but the money would be the same. This way, he would not have any psychological pressure when working together in the future.

"Alright!" MA Xiong forced a smile. Xia Sheng, we'll do as you say!"

Xia ruofei smiled and said,""Mr. MA, I'll contact you in the next few days to confirm the amount of truffles we can provide. Then, we'll discuss the auction in detail. What do you think?"

"Alright, alright!" MA Xiong quickly said,"xiasheng, I'll be waiting for your good news ..."

After hanging up, Xia ruofei stood up and looked down from the balcony.

In the yard, lightning, Blackie, fluffy one, fluffy two, and the rest were lazily basking in the sun. They were getting lazier and lazier. Other than going to the farm's border a few times a day, the Veterans of the security Department could not order them around.

However, this was good as well. Xia ruofei would be able to do things more easily.

He stood on the balcony and whistled. The dogs, who were lazily lying in the sun, looked up at him at the same time.

Xia ruofei smiled and waved at them, calling,""All of you, come up! All of you, come up!"

These dogs had already gained sentience and could understand Xia ruofei's orders. As soon as Xia ruofei finished speaking, they immediately stood up and rushed into the villa.

Xia ruofei left the balcony and walked over to open the door.

Soon, he saw Blackie and lightning rush into the room, followed by fluffy one, fluffy two and the rest.

As soon as they entered the house, they all shook their heads and wagged their tails at Xia ruofei. Their expressions were quite intimate.

Xia ruofei touched their heads one by one and went to lock the door from the inside. He also locked the door and the window on the balcony and pulled the curtains.

With a thought, Xia ruofei summoned the spirit painting scroll from his palm.

Then, his mind power wrapped around lightning, Blackie, and the others. With a slight thought, he brought them into the mountain and sea realm of the spirit map space.

Lightning had only stayed in the spirit map space for a very short time, so she couldn't help but be a little dazed when the environment changed so quickly.

Xiaohei, fluffy one, fluffy two, and the others had lived in the mountain and sea realm for a long time, so they were extremely familiar with this place. When they entered the spatial realm, they breathed in the air that was filled with spiritual Qi. They appeared to be very excited, and ran back and forth in the spatial realm.

Currently, the mountain sea realm had developed a large medicinal garden, as well as a living area for Hornets and an area for Cordyceps sinensis, which was surrounded by a net. Xia ruofei was worried that these mischievous dogs would run around and cause damage to these areas, so he hurriedly stopped them.

Xia ruofei called all the dogs to his side and brought them to the front of the oak Forest at the foot of the hill.

He pondered for a moment and contacted Xia Qing with his mind.

At this moment, Xia Qing was busy in the Archean realm. After receiving Xia ruofei's orders, she quickly appeared in the mountain and sea realm and came before Xia ruofei.

He was holding two truffles in his hands, one big and one small. One was black truffle, and the other was white truffle.

These were all harvested at the beginning of the year. Xia ruofei had kept a small portion of it in his storage space. He had wanted to keep it for himself, but he was not used to the strange taste of truffles. He could not figure out how such a strange – tasting thing could be sold at such a sky – High price, so he had not touched it.

?

Chapter 1219: I'll dig! I'll dig! I'll dig, dig, dig, dig!_2

In any case, in the realm, as long as it didn't touch the land, everything seemed to have stopped time and could maintain its original state. It was more effective than any preservation method in the outside world.

Therefore, these two truffles were the same as when they were first dug out.

Xia ruofei took the truffle from Xia Qing's hand and let him do his work.

Then he waved his hand and called lightning, Blackie, and the others over.

Xia ruofei let lightning and the others smell the two truffles so that they would remember the smell.

Then, Xia ruofei said, "alright, let's split up and look for truffles in the oak Forest!" Let me know when you find it!"

As soon as Xia ruofei finished speaking, lightning, Blackie, fluffy one and fluffy two rushed into the oak Forest.

In France or Italy, where truffles were produced, people would also use hounds to find truffles. However, many people had been training boars to find truffles for generations.

This kind of "Truffle Pig" was quite accurate in its search. It was said that mature truffles would emit a smell similar to that of a sow in heat, so specially trained boars were very accurate in finding them.

There was also a saying that pigs were trained to look for it because truffles would emit the smell of hormones, which was a fatal temptation to pigs.

Xia ruofei had never tried to verify it, so he did not know which one was correct. However, he had tasted the truffle and it did feel weird. As for whether it was the smell of a sow during estrus or the smell of hormones, Xia ruofei could not tell.

But no matter what, Xia ruofei had absolute confidence in lightning and the rest. Their sense of smell was sharper than the best hunting dogs. After sniffing, they would definitely be able to find the truffles buried underground.

The result did not disappoint Xia ruofei.

Not long after lightning and the rest entered the oak Forest, Xia ruofei heard an excited dog bark.

Xia ruofei walked in quickly and saw Blackie running around a big oak tree. From time to time, it would use its nose to dig at the ground, looking very excited.

“There’s truffles down there?” Xia ruofei asked.

Blackie immediately wagged its tail and barked at Xia ruofei.

“Received!” Xia ruofei said happily.

They had found truffles so quickly. It seemed that this season’s truffles should have matured in large quantities.

With a thought, he retrieved a small shovel and a small shovel from the tool rack of the Archean realm. He first used the shovel to dig at the spot that little black had pointed at.

At the beginning of the year, Xia ruofei had already dug for truffles once. At that time, lightning was in charge of finding truffles, so he had some experience.

After using the shovel to dig 60 to 70 centimeters, he could vaguely see a black piece. Xia ruofei was overjoyed. He put down the shovel and picked up the small wooden shovel to dig around the truffle carefully.

If the truffle’s exterior was damaged, its value would definitely decrease. Hence, Xia ruofei was very careful.

After a while, a black truffle the size of a football was dug out. It had the fragrance of moist soil and an indescribable, strange fragrance. The experienced Xia ruofei could tell that this was the pure truffle fragrance. Only high – Quality truffles would have such a strong fragrance.

Xia ruofei weighed the truffle in his hand. It was at least two catties in weight. This size was considered very rare in the outside world.

What a good start!

Xia ruofei’s face revealed a satisfied smile.

While he was digging for the truffle, Blackie, fluffy one, fluffy two, and the others in the forest were also barking excitedly. Without a doubt, they had also found the truffle.

It seemed that this year's production was very high, which was why the dogs could find the truffle so easily.

Xia ruofei casually took out a large plastic box from the Archean realm and placed the black truffle inside. Then, he walked into the forest.

He saw that every dog was running around a tree, looking very excited.

Blackie couldn't help but reach out its claws to dig the soil. It had already dug out a small pit.

Xia ruofei's heart skipped a beat. He quickly walked over and said, "If you find truffles, you can dig a pit of about 50 centimeters!"

Little black, fluffy one, fluffy two, and the others all looked confused. They clearly did not have much concept of 50 centimeters.

Without a word, Xia ruofei raised his shovel and started digging in the pit that Blackie had just dug. His arm strength was extremely strong, and he dug out a 50 – centimeter pit in a short while.

"It's about this deep!" Xia ruofei said.

Truffles were usually found in soil that was around 60 to 70 centimeters deep, so a pit of about 50 centimeters wouldn't hurt the skin of the truffle.

Xia ruofei had considered that the amount of truffles under the oak Forest might have exceeded his imagination. If he dug them one by one, it would waste too much time. If xiaohei and the rest could dig a hole half a meter deep first, it would save him a lot of trouble. It would be equivalent to marking them.

Of course, Xia ruofei could have marked the places with truffles and instructed Xia Qing to do the job.

However, Xia Qing already had a lot of work to do. The herb garden, Cordyceps, tea garden, meat garden, seafood ... He was busy almost every second of the day. Furthermore, truffles grew in the mountain and sea realm, and there was no time flow to increase the speed of time. It was a waste of time to dig out all the truffles.

?

Chapter 1220: I'll dig! I'll dig! I'll dig, dig, dig, dig!_3

Besides, Xia ruofei also enjoyed the joy of reaping the fruits of his labor.

With a direct demonstration, Blackie and the rest immediately understood.

Xia ruofei thought for a while and pointed at the truffles in the plastic box worriedly. "If you find such things while digging, stop immediately. Don't break their skin, understand?"

This order was not difficult for Blacky and the rest. All the dogs followed the order. Fluffy one, fluffy two, and the rest started to dig holes where they had found the truffles. Blacky and lightning also rushed into the woods to find new truffles.

For a moment, a series of rustling sounds could be heard from the oak Forest, as well as the happy barking of dogs.

Xia ruofei also picked up the shovel and continued to dig in the hole.

After a while, he could vaguely see a piece of white truffle.

He immediately changed to a small wooden shovel and carefully dug around the White truffle. Soon, he had harvested a piece of white truffle that was more than half a kilogram.

Xia ruofei placed the White truffle into another large plastic box, dusted his hands, and walked towards his next target.

Blackie and the rest were very strong. Digging truffles was a delicate task, especially at the last stage, which required extreme caution. Hence, Xia ruofei looked around and saw that there were many pits of various sizes in the oak Forest. Blackie and the rest were still working hard.

If people from the traditional truffle – producing areas in France or Italy saw this scene, their jaws would probably drop in shock.

Such a small oak Forest actually produced so much truffle. Moreover, these seemingly ordinary Huaxia garden dogs were actually more powerful than hunting dogs that had been trained for many years. They were all accurate.

Xia ruofei was focused on digging the truffle. Time passed by slowly and the two big plastic boxes he brought were soon full.

Hence, he took two more plastic boxes from the Archean realm to store them. These plastic storage boxes were very convenient to use and clean. Hence, when Xia ruofei first obtained the spirit map space, he bought a lot of them and placed them in the space. He could use them at any time.

Unconsciously, after Xia ruofei dug out a piece of white truffle, he saw that Blackie, lightning, fluffy one and fluffy two had gathered around him. They were all covered in mud and looked more like dogs.

“Are you done digging?” Xia ruofei asked, stunned.

Lightning wagged its tail at Xia ruofei.

Xia ruofei nodded and LED lightning, Blackie, and the rest around the oak Forest. They checked a few meters away from the forest and found two more fish that had escaped.

After digging out the last two pieces of truffles, he checked and found that all the truffles in the forest had been dug out.

Xia ruofei started to count his harvest this season.

Just now, he had buried his head in digging. When the plastic box was filled, he would use his mind to control the invisible force of space to retrieve new boxes from the Archean realm. As for how much he had gained, he really had no idea.

These plastic boxes were scattered around the forest. Once they were filled, they would be left where they were. Xia ruofei took the new boxes and continued to dig for truffles.

However, Xia ruofei had absolute control over space. He spread out his spiritual power and instantly enveloped the entire Oak Forest. He also instantly knew what he had gained.

After calculating the specific gains, Xia ruofei couldn't help but open his mouth slightly, revealing an overjoyed expression ...
