

God tier Farm 1301

Chapter 1301: capital settled_1

Xia ruofei did not answer Feng Jing's question. Instead, he asked, "Under the condition of ensuring normal operation funds, how much money can the company raise in a week at most?"

Feng Jing was more familiar with the financial situation of paradise Corporation, so she said without much thought, "If we don't consider the 170 million from the SASAC, we can probably take out another 150 million, mainly from the cash flow from the two purchases of Yushi cream."

Xia ruofei nodded and said, "don't worry about the 170 million from the state – owned assets Supervision and Administration Commission. Three months is enough for us to raise funds." By the way ... When's the next release of the jaded skin cream?"

"Two days later!" Feng Jing said, "if nothing goes wrong, we should be able to buy all of them in a short period of time. If the quantity is the same as before, we should be able to get around 100 million Yuan after deducting the channel fees. However, we might not be able to get the payment in time ..."

"Contact our cooperation channel. We'll try to get back the 100 million within five days!" Xia ruofei said, "the sales of the jaded skin cream are so hot. I think the distributors will give us face!"

"Alright, I'll arrange for people to contact them separately tonight." Feng Jing said, "I think it shouldn't be a big problem."

Xia ruofei laughed, "that's 250 million!" There's still a gap of 100 million Yuan ..."

"You're going to transfer the overseas funds back?" Feng Rao asked with interest.

She knew that Xia ruofei had an offshore company overseas. For example, the more than 15 million US dollars he had earned from the truffle auction in Hong Kong had been transferred to the offshore company's account. If the money were to be sent back to China, it would be enough to pay for the acquisition.

Although Xia ruofei had transferred some of the money to his overseas account, Feng Jing did not have any complaints. This was because, strictly speaking, this money was all Xia ruofei's own earnings. The company had only sent people to cooperate with him. If she still hoped that this money would go into paradise corporation's account and be counted as year – end dividends, that would be insatiable greed!

Xia ruofei smiled and said, "I don't have such plans for now." Let's just wait and see, maybe there are other ways to make money? I don't want to transfer the money back unless it's absolutely necessary. "

"That's the best!" Feng Jing chuckled. "If you're investing in the company, wouldn't my shares be diluted again?"

Xia ruofei laughed and said, "yeah!" Be careful or I'll kick you out and won't play with you!"

"It doesn't matter!" Feng Rao said nonchalantly. I'll be able to earn a large sum of money from the transfer, enough for me to travel around the world!"

“You’re really willing to leave the company?” Xia ruofei asked with a smile.

Feng Rao smiled but did not say anything. However, she quickly glanced at Xia ruofei and thought to herself, “If I really leave, it’s not just the company that I can’t bear to leave ...

The two of them were just joking and did not continue the topic. After chatting for a while downstairs, the two of them bade each other farewell. Xia ruofei strolled back to the villa.

A one – hundred – million gap in a week’s time was not a small problem for Xia ruofei.

If Mr. Lin of Tongren Hall had not called him today to talk about aweto, he might have had to use overseas funds or borrow from his friends for a short time. However, Xia ruofei did not want to owe anyone, so it was more likely that he would transfer the money directly from his overseas account.

But now, he was thinking about the aweto in the space.

He didn’t know how much aweto Xia Qing had harvested, and he didn’t know how much more Mr. Lin could buy. But considering that Mr. Lin had been promoted to the Deputy Director of the region, his authority should have been much greater. Besides, those aweto were of the highest quality. No matter how much it would cost, Tongren Hall wouldn’t be willing to miss it.

With these questions in mind, Xia ruofei went straight upstairs, locked the doors and windows, and took out the spirit map.

With a thought, he entered the spirit map space.

“Xia Qing!” Xia ruofei didn’t see Xia Qing when he was at the Archean realm. He immediately used his spiritual will to transmit his voice. “Come over!”

At the next moment, Xia Qing’s figure appeared at the Archean realm.

“Master!” He greeted Xia ruofei with a bow.

Xia Qing’s clothes were still stained with quite a bit of dirt, and so were his hands. It was clear that he had definitely been busy harvesting aweto in the mountain and sea realm.

“You’ve worked hard these past few days. ” Xia ruofei asked gently, “how many Cordyceps sinensis have you harvested so far?”

Xia Qing immediately said without hesitation, “There are about 140000 of them that have been processed. The other 10000 can be processed very quickly.”

The most time – consuming part of harvesting the Cordyceps was the excavation. The other processing work was done in the Archean realm, which had a time flow rate of 30 times. In addition, Xia Qing didn’t need to sleep or rest, so the time cost was very low.

“Then let’s take 150000. Xia Qing, you’re pretty fast!” Xia ruofei said happily.

“The total harvest is less than a third ...” Xia Qing said with some shame.

“This is beyond my imagination!” Xia ruofei calculated quickly. “Our wormgrass is of average size. About 1100 wormgrass is 1000 grams in weight. That means 150000 wormgrass can weigh about 136 kilograms!”

“Yes, master!” Xia Qing had obviously weighed it before, so she immediately nodded and said.

?

Chapter 1302: funds settled (2)

Xia ruofei did some calculations in his heart. According to the price that Mr. Lin had set last time, 500 grams would be 350000 Yuan. 136 kilograms of Cordyceps sinensis would bring in more than 95 million Yuan of income.

Not to mention that the quality of the wormgrass this time was higher than the wormgrass planted in the experiment.

Last time, the 500 grams of wormgrass was almost 1200 wormgrass per kilogram; this batch of wormgrass could reach 1100 wormgrass per kilogram. Zhang tie estimated that the purchase price would be higher.

In that case, the 100 million Yuan gap was no longer a problem!

Xia ruofei was instantly overjoyed. He patted Xia Qing’s shoulder heavily and said, “Well done! Xia Qing, after you’re done processing the remaining 10000 Cordyceps, weigh them accurately and then pack them all in a sealed bag. I’ll need them soon.”

“Understood!” Xia Qing replied calmly.

“After processing this batch of wormgrass, harvest the remaining wormgrass.” Xia ruofei said, “then, you’ll have to work a little harder. Use the difference in time flow between the two spaces to divide the Cordyceps sinensis garden into a few parts after expansion. It’s best to split it into 12 parts and stagger the harvesting time. This way, the workload every month can be reduced, and there will be a steady stream of output.”

“Yes, master!” Xia Qing said.

This matter was a bit complicated to operate, but it wasn’t too difficult for Xia Qing. It was just a little bit of effort.

Xia ruofei wanted to contact Mr. Lin immediately, so he left the spirit map space after a simple tour of the space.

After he returned to his room, he immediately took out his phone and dialed President Lin’s number.

“President Xia!” Mr. Lin’s voice sounded a little excited. “Is the wormgrass ready?”

“Mr. Lin, are you that eager?” Xia ruofei asked with a smile.

“Little brother! It’s fine if you didn’t mention it. I only have this thought every day. Now that I know you’ve got the wormgrass, I’ve been thinking about it all day!” President Lin said exaggeratedly.

Xia ruofei laughed and said, “it seems like it’s all my fault!” Mr. Lin, I want to ask ... What’s the maximum amount of goods you can purchase with your current authority?”

President Lin was stunned for a moment and then overjoyed.

Xia ruofei’s question meant that there might be more goods this time.

As for the products of the peach blossom company, whether it was the wild ginseng from before, or the long – term cooperation with the iron – skinned fengdou, or the small amount of Cordyceps, all of them were the best of the best. Such good things, the more the better for Tongren Hall!

President Lin said hurriedly, “President Xia, no matter how much stock there is, we can take it all. Even if I don’t have the authority, I can ask headquarters for the transfer immediately!” The Paradise corporation’s brand is a guarantee of quality. This has already been agreed upon at our headquarters!”

Xia ruofei jokingly asked, “is it that exaggerated?” Then if I take out a few hundred million worth of goods at once, can you buy them all at once?”

President Lin felt that he was having difficulty breathing. He asked in shock, “A few hundred million?”

Then, he gritted his teeth and said, “even if it’s a few hundred million, we’ll take it all!” However, the process might be a little more complicated. ”

The quality of paradise corporation’s products was simply too high. Even if they bought it in large quantities in one go, it would be better than having their competitors buy it. President Lin believed that the headquarters would definitely have the same considerations.

Xia ruofei laughed. “Don’t be nervous, President Lin. I’m just making an analogy. Although it’s not a few hundred million, it’s possible for it to be tens of millions or even more than a hundred million!”

“No problem!” President Lin immediately heaved a sigh of relief and said, “our East China district’s authority can reach up to 100 million. If it’s a little more, we’ll just have to call and ask for instructions. There’s definitely no problem!”

“That’s good!” Xia ruofei smiled and said, “CEO Lin, if it’s convenient, please come to Taoyuan farm tomorrow! It’s best to bring a few more people ...”

“Good, good, good! I’ll book the earliest ticket for tomorrow!” President Lin said in a hurry.

“Alright, send me your flight number after you’ve made the reservation. I’ll arrange for someone to pick you up!” Xia ruofei said.

“Then I’ll have to trouble President Xia!” President Lin said politely.

“You don’t have to be so formal, you’re here to give me money!” Xia ruofei joked.

“Hehe, it’s a win – win situation for both of us!” President Lin laughed.

Xia ruofei also smiled and said, “yes, yes, it’s a win – win situation!” A win – win situation!”

After hanging up the phone, Xia ruofei felt relaxed. 350 million sounded like a lot of money, but after some calculation, it would be gathered in no time.

From another perspective, this also showed that the current development speed of the Paradise pharmaceutical company was simply astonishing, especially the emergence of the jadeshi ointment, which turned the Paradise pharmaceutical factory into a huge cash cow.

If it wasn't for the fact that bojun real estate was in a hurry to get the money, Xia ruofei wouldn't even need to use the funds from the sale of the wormgrass. It would be enough to do a few more concentrated sales of the Yushi ointment.

The jaded skin cream had become an absolutely popular product this year. Its price – Performance ratio could be said to be unprecedented and unprecedented. Moreover, this kind of consumable was not a one – time deal. He believed that more than half of the users who had used the jaded skin cream would choose to continue to buy and use it.

In other words, the production of jaded skin ointment was far from reaching its peak, and the supply in short supply might continue for some time.

After a while, Xia ruofei received a WeChat message from CEO Lin. The six of them were taking a flight at 8 am the next day and would arrive at Sanshan airport at around 10 am.

Xia ruofei immediately gave ye Lingyun a call and asked him to send someone to rent a Toyota Coaster tomorrow. He would then head to the airport to pick them up in the morning.

After hanging up the phone, Xia ruofei was thinking that it was time to buy more cars for the company, such as commercial vehicles and bus – based Coaster.

In the future, after the company's headquarters moved, some employees might still live on the farm for a period of time until they found a place to live in the city. By then, there would still be a need for commuting.

However, the acquisition had almost emptied the company's foundation, so the plan to buy a car could only be pushed back and considered when the cash flow was more abundant.

With the money problem solved, Xia ruofei had a good night's sleep.

The next day, he began to slack off again. After getting up and practicing as usual, he went back to sleep. It was not until nine o' clock in the morning that he got up and washed up. Then, he went downstairs to make a simple breakfast.

It was almost Teno' clock when they finished eating. Xia ruofei then walked to the general office building.

"Chairman, the colleague who picked us up said that the plane is late." Feng Jing knocked on the door and entered." President Lin and the others might be half an hour late."

Xia ruofei nodded and agreed. Oh right, ask the canteen to prepare a table of food and wine. We're going to entertain President Lin this afternoon. "

"I've already given the order this morning. " Feng Jing asked curiously,"Chairman, why is CEO Lin here?" Isn't the deal with Kaede ito normal?"

Xia ruofei laughed and said,"him?" They're here to give us money! Don't we still have a 100 million gap in funds to buy the building? Whether or not this gap can be filled will depend on today. "

"A hundred million?" Feng Rao was shocked. Did we get something good again?"

That was Feng Jing's first reaction. Of course, her first reaction was rather accurate.

Xia ruofei kept her in suspense and said,""You don't have to worry about that. Just get the finance department to be ready to collect the money!"

He added,"by the way, I've settled the 100 million here very quickly. You can't drop the ball for the remaining 250 million!" Especially the distributors, you have to communicate well with them. If they stand us up, we might breach the contract with bojun real estate!"

"Understood!" Feng Jing said,"I'll contact them again to confirm!"

"Alright!" Xia ruofei said.

After Feng Jing left, Xia ruofei locked the door and started to contact the spirit map space ...

?

Chapter 1303: Spectacular_1

At around 11 am, a light yellow Toyota Coaster slowly pulled up in front of the complex of Paradise Farm.

With a beep, the automatic door slowly opened. CEO Lin was the first to step out of the car because he saw the chairman of paradise Corporation, Xia ruofei, and the General Manager, Feng Jing, standing in front of the building, waiting for him.

Xia ruofei and Feng Rao also stepped forward.

This time, Xia ruofei was counting on this deal to pay for the 350 million from bojun real estate, so he was paying a lot of attention to it.

President Lin's attendants also came out of the car. Xia ruofei even saw the old Chinese medical doctor Huang, whom he had interacted with a few times before, among them.

"Brother Xia!" President Lin enthusiastically quickened his steps and walked in front of Xia ruofei.

"President Lin, you've had a long journey!" Xia ruofei smiled and extended his hand.

President Lin shook hands with Xia ruofei enthusiastically and asked impatiently,""Brother Xia, where's the thing?"

"Let's go to my office!"Xia ruofei said with a smile.

Just like that, without any small talk, the group of people went straight to Xia ruofei's office.

Xia ruofei knew that CEO Lin was in a hurry, so he did not keep him in suspense. He walked to the corner of the office, opened the safe, took out a sealed bag, and placed it on the coffee table.

There were two kilograms of aweto inside.

Xia ruofei did not take out all the Cordyceps. A hundred kilograms of Cordyceps was not small. He could not possibly pile them all in the office.

President Lin didn't say anything and personally opened the sealed plastic bag. He reached out and grabbed a handful of Cordyceps.

Hiss ...

Everyone in Tongren Hall, from President Lin to Dr. Huang, and even the retainers, took a deep breath at the same time. Then, they widened their eyes and stared at the aweto in President Lin's hand.

President Lin's hands were even trembling.

The six or seven wormgrass that he had casually caught was simply perfect. It was even better than the 500 grams he had bought last time.

He put his hand to his nose and took a deep breath. Suddenly, he felt a strong smell of butter.

Combined with the shape and color of the wormgrass, it was without a doubt the most authentic wormgrass of Nagqu.

However, the quantity of the top quality Cordyceps was extremely low. How could Xia ruofei produce so much? CEO Lin's heart was also filled with doubts.

However, this was not his first time doing business with Xia ruofei. Wasn't it the same with the premium iron – Skin maple?

No matter how one looked at it, it was a pure wild top – grade iron – Skin Kaede. After professional laboratory tests, the nutritional content was even better than the best wild iron – Skin Kaede on the market.

However, Xia ruofei had the ability to supply in bulk, which made people unconvinced.

Mr. Lin gave the aweto to Dr. Huang, who was standing next to him. Then, he asked his other subordinates to grab some from the sealed bag to identify.

Xia ruofei smiled as he sat in his office chair. He was very sure that the business today would be successful.

President Lin and the others were getting more and more excited because the quality of this batch of Cordyceps was too even. They simply grabbed a handful from the bag and saw that they were almost all the same size and of the same high quality.

Feng Jing didn't know much about aweto, but when she saw how excited President Lin and the others were, she couldn't help but pick one up from the bag out of curiosity.

The caterpillar fungus was actually a strong worm with a blade of grass on its head. Although Feng Jing knew it was a nourishing herb, she still couldn't help but shiver and quickly threw it back into the bag.

She looked at the expressions on President Lin and the others' faces as if they had seen the most beautiful women in the world, and she could not help but feel a chill in her heart.

Finally, President Lin recovered from his excitement and asked anxiously, "President Xia, we're taking all these wormgrass! We can offer you 750,000 Chinese dollars per kilogram!"

750,000! Feng Rao was also excited when she heard the price.

Xia Ruofei laughed and said, "Mr. Lin, there's no hurry. You guys should take a look at the quality of the wormgrass first." This isn't the only amount of goods I have!"

President Lin was stunned for a moment, but then he immediately understood what Xia Ruofei said on the phone. He said that he had a business deal of tens of millions. The Cordyceps here was at most two kilograms. Even if he sold it at 750 thousand per unit, it would only be a little more than a million.

If the transaction amount really reached tens of millions, then ...

CEO Lin did some quick calculations in his mind and came to the conclusion that he needed at least a hundred kilograms of such high-quality wormgrass.

He felt like he was having difficulty breathing.

Hundreds of kilograms of high-quality Cordyceps, for the entire Tongren Hall, could be said to be a big purchase. This kind of top-grade nourishing herb could only be found by luck, not by searching for it. Tongren Hall had always been willing to pay any price to acquire it, because it was really important for building a brand image.

Moreover, even if such aweto was purchased at the price of 750,000, Tongren Hall would still make a lot of profit.

More than 100 kilograms seemed like a lot, but China was so big, and Tongren Hall had stores in almost all the prefecture-level cities and above. After they spread it all over the country, this little amount of goods was nothing.

There were so many rich people nowadays, and they were very willing to spend money for health. It was easy to sell hundreds of kilograms of wormgrass.

?

Chapter 1304: Spectacular_2

To President Lin, this was another dazzling achievement. Even the leaders at the headquarters would be shocked.

“No need to look!” The more President Lin thought about it, the more excited he became. “Brother Xia, as long as the quality of this batch of Cordyceps sinensis can reach the standard of these samples, we will buy as many as you have! The price will be 750 thousand Yuan per kilogram!”

Feng Rao’s heart started to waver. She had no idea where Xia ruofei had gotten such an impressive Cordyceps that could be sold at a sky – High price of 750000 Yuan per kilogram. She also had no idea how many of these Cordyceps that Xia ruofei had.

Thinking back to how Xia ruofei had confidently said that the 100 million he was in charge of had been settled, Feng Jing had a feeling that it was probably because of this deal.

She looked at Xia ruofei expectantly.

Xia ruofei didn’t beat around the bush and said directly, “President Lin, don’t worry! This time, there are at least 100 kg of wormgrass of the same quality. But can your Tongren Hall really eat all of them? I’ve left all of them to you, and I didn’t sell a single one!”

Director Lin and Feng Rao felt their mouths go dry and they had difficulty breathing.

It was really over a hundred kilograms!

President Lin seemed to see a bright future waving at him.

On the other hand, Feng Jing’s eyes were filled with the dancing red cash. The gap of one hundred million Yuan was no longer a problem ...

Of course, Dr. Huang and the others were not doing any better. The two young men even felt their legs go weak.

This was the first time they had seen this kind of Cordyceps that was usually the best of the best, which was rarely seen, actually being sold in the units of 100 kilograms. They felt that they were really ignorant and ill – informed in the past.

Xia ruofei seemed to think that the news was not shocking enough. He continued, “If you’re willing to acquire it, we can even maintain a relatively long – term partnership with Tongren Hall. We can continue to provide such aweto in the future ...”

Oh my God ... President Lin’s heart was in a state of shock. This wasn’t even a one – off deal, and they could even have a long – term cooperation in the future! Wasn’t this a replica of the iron – skinned Kaede fight from before?

The value of an iron Kaede bucket and this grade of aweto could not be mentioned in the same breath.

President Lin was already in his forties and was a senior executive at the Regional Manager level, but at this moment, he was standing there like a clay sculpture. He had lost his composure.

“President Lin ...” Xia ruofei tried to call out.

“Ah?” President Lin came back to his senses and saw Xia ruofei looking at him with an inquiring gaze. He quickly said, “brother Xia, no problem! No problem! We’ll take as many as you have! As long as the quality can meet the standards of these samples, nothing else is a problem!”

He spoke very quickly as if he was worried that Xia ruofei would change his mind if he was too slow.

“Didn’t you say on the phone that you’d have to apply to the headquarters if you exceeded your authority?” Xia ruofei asked with a smile.

“There’s definitely no problem!” President Lin said. Brother Xia, I swear on my honor!”

If they were to reject such a deal, the leaders at the headquarters must be crazy. No! It was impossible for someone with water in their brain to make such a decision, unless they had sh * t in their brain! President Lin said in his heart.

Xia ruofei thought for a moment and said,“”How about this! It’s getting late, so we’ve prepared lunch in the cafeteria. Let’s go eat first, then ...”

“Brother Xia! I’m not in the mood to eat!” President Lin quickly said,“you should take me to see the goods first! I’m not in the mood to do anything before this deal is settled!”

“Don’t worry! It’s not the first time we’ve made a deal. ” Xia ruofei said,“the things are in my villa. Let’s go over and take a look after dinner. You can check them one by one without any problems!”

The reason why he had asked President Lin to bring a few more people over was actually because he had this intention in mind, in case there was a lack of manpower for the test later.

“Brother Xia, it’s not that exaggerated. Do you think we can’t trust you?” President Lin said,“I just want to quickly settle everything. It’s okay to eat a little later!”

“Even if you’re not hungry, elder Huang and the others can’t fight with you! Besides, I’m also hungry!” Xia ruofei said,“Mr. Lin, if you want this deal to go smoothly, you have to listen to me. Nothing is more important than eating now!”

Seeing that Xia ruofei had already put it this way, President Lin could only helplessly say,“”Alright then ... But brother Xia, after we finish eating ...”

“Come to my house after dinner! It’s only two to three hundred meters away from this building. We’ll reach it soon if we walk!” Xia ruofei said.

“Alright, alright!” President Lin said,“then let’s have some work lunch for lunch. Don’t drink anymore. After all, we still have work to do ...”

If it was president Lin’s own idea, with a business worth hundreds of millions in front of him, what was the point of eating? However, Xia ruofei’s attitude was firm, so he could only go along with the host.

“Alright, alright, alright!” Xia ruofei said,“I’m not drinking at noon! Let’s have a few more drinks tonight!”

The group of people arrived at the canteen downstairs. It had already been prepared. When everyone arrived, Cao tieshu’s wife took care of the arrangements and brought out the dishes.

Initially, Xia ruofei had prepared some of Drunken Eight Immortals ‘white wine. However, since President Lin was in such a hurry, he cleared the wine.

The Taoyuan vegetables were the main ingredient, and there were also some special dishes from the three mountains. Cao tieshu's wife's cooking skills were quite good, and the table of dishes could be said to be full of color, smell, and taste.

?

Chapter 1305: Spectacular_3

However, President Lin and the others didn't have the mood to taste the delicious food. They filled a large bowl of rice and quickly put the rice into their mouths along with the dishes. The six of them looked like they were gobbling down food.

Even Feng Rao couldn't wait to eat. Although she didn't eat in an ugly manner, she was obviously eating faster.

Xia ruofei didn't know whether to laugh or cry. He could only speed up a little. He couldn't wait for everyone to finish eating and then watch him eat alone, right?

After a simple lunch, Xia ruofei brought President Lin and the rest back to his villa. Feng Jing followed them.

"Everyone, feel free to take a seat in the living room!" After Xia ruofei led everyone in, he smiled and said, "I'll go upstairs and bring the things down!"

"Brother Xia, I'll get someone to go up and help you!" President Lin quickly said.

A hundred kilograms of weight was not light. He was afraid that Xia ruofei would not be able to carry it. If he accidentally damaged the wormgrass inside, it would not be worth it.

"No need, no need. You guys just wait!" Xia ruofei said.

After he finished speaking, he quickly went upstairs and returned to his room. After he locked the door and windows, he took out all the Cordyceps that Xia Qing had prepared in advance from the spirit map space.

More than 130 kilograms of Cordyceps were packed into many sealed bags and then placed into three large cardboard boxes. Each layer was filled with foam and sponges to prevent the bottom layer from being squeezed.

Each box was more than 40 kilograms in weight.

Xia ruofei easily stacked the two boxes together and carried them out. When Xia ruofei carried the two boxes, they were already taller than his head. From afar, they could only see the two boxes moving forward.

President Lin saw Xia ruofei carrying the cardboard box down the stairs in such a dangerous position and was so scared that his soul almost left his body. He quickly called for his subordinates to pick it up.

Xia ruofei replied easily, "no need!" Just wait below!"

After saying that, he walked down the stairs with light steps, then gently put the box on the ground and said, "There's another box upstairs. Please wait a moment!"

After that, Xia ruofei turned around and went upstairs to get the last box.

President Lin saw how relaxed Xia ruofei was and couldn't help but try to move the cardboard box out of curiosity. The cardboard box was about 80 to 90 pounds but he didn't move it at all. He couldn't help but be shocked. Xia ruofei looked so white and clean, but his arm strength was so strong!

Xia ruofei quickly moved the last box downstairs and said, "Everything is here, including the samples you saw this morning. It's about 136 kilograms in total! Chief Lin, let everyone inspect the goods!"

"Alright!" Mr. Lin's voice trembled as he asked Dr. Huang and the others to open the boxes and check the aweto inside.

He also opened a paper box.

Bags of aweto packed in plastic were taken out and placed in a row in the living room.

Feng Jing's heart started to race when she saw the scene and thought of the sky – High price of 750000 Yuan per kilogram.

The living room was very quiet. Everyone was focused on the examination and appraisal.

It was impossible to look at all the aweto in the bag. However, it was a huge deal. Even though CEO Lin was familiar with Xia ruofei, he did not dare to take it lightly.

Therefore, they would open each bag and then repeatedly randomly pick samples for inspection.

Xia ruofei sat on the sofa leisurely and did not urge her at all.

Everyone had been watching for more than half an hour. Mr. Lin felt that he had seen more top quality wormgrass in his previous life than he had seen today.

In the end, he was even a little numb.

He opened a random bag and grabbed a handful. They were all top quality wormgrass that were rare.

Finally, President Lin said very excitedly, "Brother Xia! This batch of wormgrass was of extremely high quality! The headquarters will definitely agree to the acquisition. I'll call to apply for permission immediately!"

?

Chapter 1306: Someone from the headquarters (1)

President Lin excitedly took his phone to the villa's yard to make a call, while Dr. Huang and President Lin's other subordinates tidied up and packed all the Cordyceps.

After a while, President Lin walked back to the living room with a depressed expression.

Xia ruofei was stunned and asked, "President Lin, what's wrong? Things aren't going well?"

President Lin quickly forced a smile and said, "No, no! However, brother Xia, our deal may have to be delayed for another day. The headquarters will send someone to follow up in person!"

President Lin was also quite depressed. The headquarters said that they had to show that they valued such a big deal, so they had specially appointed a manager to fly to the three mountains today. In fact, President Lin knew that they might be trying to take the fruits of their labor.

This deal was made completely based on his own connections. If he didn't have a good personal relationship with Xia ruofei, he wouldn't have to worry about not having a market for such high – Quality Cordyceps.

This performance was too eye – catching, so much so that it made people envious. Even with President Lin's current Foundation, he was still a little reluctant.

"What's the situation?" Xia ruofei frowned.

President Lin sighed and said, "brother Xia, the headquarters also values this deal, so they sent people over."

President Lin was embarrassed to mention the company's internal affairs in front of Xia ruofei. After all, dirty laundry should not be aired in public.

However, Xia ruofei was no longer a greenhorn. His ability to read people's expressions had improved greatly in the past year. When he saw that President Lin was like a frosted eggplant, how could he not guess the secret behind this?

Xia ruofei thought for a while and smiled. "President Lin, then you can rest at ease here for a day! We're old friends, so just treat this as your home!"

He then turned to Feng Rao and said, "Director Feng, get the administration department to prepare the guest house rooms. Director Lin and the others will be staying over at the farm today!"

"Brother Xia, there's no need to go through so much trouble ..." President Lin quickly said. "We can just go to the city and stay in a hotel!"

"It's an hour's drive back and forth! What's the point of this?" Xia ruofei said, "let's live on the farm!" The environment here is much better than the city!"

President Lin's heart also felt a little warm as he said, "Alright, I'll listen to you ..."

"Then you guys should go and rest in the afternoon! The flight was already tiring, and then they rushed to the farm to work, they must be exhausted!" Xia ruofei said with a smile.

"Alright, thank you, brother Xia!" President Lin said, "then you should rest for a while. We won't disturb you any longer ..."

Xia ruofei smiled and nodded.

Mr. Lin looked at the three big boxes of quality Cordyceps on the coffee table unwillingly, then turned around and walked out of the villa.

Xia ruofei personally sent them to the courtyard entrance. After President Lin and the rest had left, he turned around and walked back to the villa.

Xia ruofei kept the aweto back into the spirit map space and shook his head with a helpless smile.

This could be considered as a good thing with many setbacks!

However, Xia ruofei was not worried. He did not have to worry about not being able to sell such good wormgrass. Even if there were no buyers who could buy all of them, they could still sell them slowly.

If he really couldn't gather enough money for the acquisition, he could just transfer the money from his overseas account. As long as he did it one day in advance, the money would be transferred to his account very quickly.

Xia ruofei did not go to the office in the afternoon. After taking a short nap, he got up and went downstairs. He sat on the recliner in the yard, held a book, made a pot of tea, and leisurely spent time under the winter sun. Blackie and the rest were also playing happily by Xia ruofei's feet. The scene was very harmonious and warm.

When it was almost 5 pm, Xia ruofei received a call from Liu Qian.

As Xia ruofei did not work in the company often, he rejected the administrative team's offers to assign him an assistant. Usually, Liu Qian would be in charge of ensuring that everything went well. It was equivalent to him sharing an assistant with Feng Jing.

"Chairman, the people from Tongren Hall's headquarters have arrived." Liu Qian said, "they came straight to the farm after they got off the plane ..."

Xia ruofei was not familiar with the people in the headquarters of Tongren Hall. He was also a little unhappy that a good deal was suspended. Xia ruofei would not believe the so-called "valued" excuse. So, he pretended to be confused and did not arrange for anyone to pick him up.

Xia ruofei thought, "he's quite impatient ..."

He asked indifferently, "what are they doing here so late at night?" It's almost time to get off work, right?"

"They want to talk to you about the acquisition of aweto as soon as possible," Liu Qian said.

"Just tell them that I'm not at the farm. Besides, the company is closing soon. If there's anything, we can talk about it tomorrow!" Xia ruofei said with a frown.

"Alright!" Liu Qian hesitated again and asked, "then, about the food and accommodation of these two people ..."

"Are there any empty rooms in the company's guest house?" Xia ruofei asked.

"No more!" Liu Qian said, "President Lin, there are six people here this time. Our guest house doesn't have many rooms to begin with ..."

“Then isn’t it settled?” Xia ruofei said, “you don’t have to take the initiative to arrange for them. Tongren Hall is such a big family business. Can’t they afford a few travel expenses?”

“Understood!” Liu Qian quickly said.

After hanging up the phone, Xia ruofei didn’t pay much attention to it. He placed his phone on the stone table and picked up his book.

?

Chapter 1307: Someone from the headquarters (2)

.....

Chen shun, the purchasing manager of the Tongren Tang chain headquarters, was in a bad mood.

At noon, Vice President Lin of the East China District called the Vice President of the chain store in the East China District to report that there was a batch of high – Quality Cordyceps sinensis to be purchased and he wanted to apply for permission.

This Vice President was Chen shun’s second uncle, Chen Weinan. He had a deep impression of this Vice President Lin from the East China region. He was originally just a store manager, but he was lucky enough to continuously purchase very old wild ginseng. Later, he opened up his own channels and could purchase high – Quality iron – skinned maple leaves for Tongren Hall every month. This was why he was discovered by the chain headquarters ‘leader and was promoted smoothly.

When Chen Weinan heard that this Vice President Lin had found the best quality aweto, which was more valuable and had better sales, he was slightly moved and asked about the source.

Just as he had guessed, it was still from the Paradise Corporation in San Shan.

Chen Weinan immediately had an idea. This was a performance that would make people jealous! His nephew, Chen shun, had been in the position of purchasing manager for a long time. This time, the position of the Vice President of the purchasing department was vacant, and there were six or seven managers of the purchasing department who met the promotion conditions. If Chen shun could get such a big order, with the help of Zhang Zian, Chen shun’s promotion would be reasonable.

Therefore, Chen Weinan immediately called a halt to the transaction. He said that with such a large purchase and such a large transaction amount, the chain headquarters needed to send someone to preside over the purchase in the name of the chain headquarters. Then, the batch of goods would be distributed to the various regions. In other words, they could not let the East China region eat all the food.

Just like that, Chen shun was urgently dispatched to the three mountains.

Before leaving, Chen Weinan had specifically given Chen shun face – to – Face instructions and emphasized the importance of this purchase many times.

This was because his nephew was really not presentable. His ability level was average, but he was good at eating, drinking, and playing. If it were not for his protection, he might not even be an ordinary purchasing Commissioner, let alone a purchasing manager. He might even be kicked out of the company after a few days.

Chen shun was also overjoyed after hearing this, as if he could see the Vice President of the procurement department waving at him.

He didn't understand those profound questions, and he didn't want to understand them. Anyway, he just remembered his uncle's words and tried his best to get this big order!

With such a sense of urgency, Chen shun boarded the flight to Sanshan city with an experienced purchasing Specialist.

When the plane landed on San Shan, it was already past four in the afternoon. He hailed a cab at the airport and headed straight for Tao Yuan farm.

He didn't expect that when he came to the farm, a female assistant in her 20s would receive him. After a few phone calls, she told him that the chairman of paradise company had gone out and couldn't talk today.

He originally thought that even if the deal didn't go through today, the Paradise company would at least arrange for accommodation and food, right?

Unexpectedly, after she finished speaking, the female assistant shut her mouth and did not mention this matter again.

Chen shun was extremely depressed. He felt that this paradise company didn't know how to treat their guests. He was here to buy the company. He was the God of Fortune! Even if he didn't treat him as a guest, he still needed basic protection, right?

However, since the other party was feigning ignorance, Chen shun, as a man of the capital, could not shamelessly take the initiative to mention it. He could only leave the farm with his people gloomily.

When he arrived at the farm's entrance, Chen shun realized that something was wrong.

The farm was located on the outskirts, and it took a long time to walk from the entrance of the farm to the National Highway, and it was difficult to get a taxi on the National Highway.

Seeing the sky getting darker and darker, Chen shun's mood was also extremely bad.

He pulled out his phone with a dark face, found President Lin's number, and dialed.

The phone rang a few times before President Lin picked it up. He said indifferently, "Manager Chen, do you have any instructions?"

"Vice President Lin, we're at the entrance of Tao Yuan farm right now. We can't get a taxi to the city right now, so can you get someone to call a taxi to pick us up?" Chen shun said in a commanding tone.

President Lin could hear Chen shun's resentment, but he almost laughed out loud.

It seemed that manager Chen from Beijing had already been to Tao Yuan farm, but he had been refused.

Brother Xia is really a good friend! President Lin said in his heart.

President Lin controlled his emotions and said coldly, "Manager Chen, I'm sorry, we don't live in the city ..."

"Where are you staying?" Chen shun asked.

President Lin said in a matter – of – fact tone, "Of course I'm staying at Taoyuan farm!"

"You ..." Chen shun didn't expect boss Lin to be at Peach Blossom Farm.

He said hatefully in his heart, this is preposterous! The few of them treated me with good food and drinks, but I didn't even have a cup of hot tea when I came over! It's getting dark, and they're not even arranging accommodation!

"Is there anything else, manager Chen? If there's nothing else, I'll hang up first. Director Xia is looking for me for dinner!" President Lin said.

Then, without waiting for Chen shun to speak, he hung up the phone.

Chen shun was so angry that he almost threw his phone away. The purchasing Commissioner who came with him stood to the side, trembling in fear, not daring to touch his bad luck.

"What are you waiting for?" Chen shun said unhappily. Let's walk out and stop a taxi on the National Highway!"

After that, he strode forward, and the purchasing Commissioner could only drag their suitcases and quickly follow.

The two of them walked for a long time, and only came to the National Highway when it was completely dark.

Then, they stopped a taxi for a full half an hour in the cold wind before they were lucky enough to find an empty taxi returning to the city. They then got on the car and returned to the city.

After getting a room in San Shan city, Chen shun's resentment had not dissipated. He decided that when they discussed the specific terms of the acquisition tomorrow, he would make a good decision on this paradise company.

If the Tiger doesn't show its might, do you think I'm a sick cat? Chen shun said in his heart.

At this time, he had already forgotten his uncle Chen Weinan's advice.

.....

The next morning, after a few twists and turns, Chen shun finally met the chairman of the peach blossom company, Xia ruofei. At the same time, he also saw CEO Lin and the others.

Chen shun didn't give President Lin a good look, and President Lin didn't want to pretend to be polite with this person who was obviously here to pick up the peach, so the air in the meeting room seemed to have a trace of gunpowder.

It was not until the late Xia ruofei entered the meeting room that the frozen air seemed to start flowing again.

Feng Jing had felt the atmosphere in the meeting room was very depressing. When Xia ruofei entered, she quickly introduced him, "Chairman, this is manager Chen shun from the purchasing chain of Tongren Tang. Manager Chen, this is our Chairman, Mr. Xia ruofei."

Xia ruofei nodded and said, "Hello, manager Chen."

Chen shun nodded at Xia ruofei with a fake smile, then said, "President Xia, I'm here on behalf of the Tongren Tang chain to discuss the acquisition of aweto. According to Vice President Lin's report from the East China region, your company has a batch of wormgrass that has a good color. We are quite interested in high – end Chinese medicinal herbs, but before we talk about the purchase, I would like to check the goods first."

Xia ruofei sat down and frowned. "Director Lin has already brought a professional appraiser to inspect this batch of worm grass yesterday."

"Vice President Lin has seen it, but I haven't!" Chen shun said, "our Tongren Tang chain has a very strict set of procedures for such a large amount of money involved in the acquisition. I hope you can understand."

Xia ruofei thought for a moment and nodded. "Alright then!"

Although Chen shun looked like he was asking for a beating, Xia ruofei still wanted to cash out this batch of wormgrass as soon as possible. Since he wanted to see it, he would let him. It would not waste much time anyway.

Xia ruofei beckoned to Liu Qian, who quickly put down her pen and walked over.

Xia ruofei took out his office key and handed it to Liu Qian. "Go to the administrative office and find a few young and strong guys to carry the three large boxes behind my desk over. Tell them to be careful and not to bump into them."

"Yes!" Liu Qian said, then took the key and left quickly.

In a short while, three boxes of aweto were carried into the meeting room.

?

Chapter 1308: I'm not going to serve you anymore (1)

"Manager Chen, the things are here, feel free to take a look!" Xia ruofei said indifferently.

Chen shun didn't stand on ceremony. He immediately called the purchasing Specialist he brought to check the Cordyceps. As for President Lin and the others, they sat there without getting up. Chen shun clearly didn't believe their test results, so why ask for trouble?

The purchasing Specialist Chen shun brought was very experienced, and had a lot of experience in identifying aweto. This was specially assigned by Chen Weinan to his ignorant and incompetent nephew, to protect him.

When the purchasing Commissioner saw the aweto, he was as shocked as CEO Lin and the rest. In fact, he was even more shocked than CEO Lin. After all, CEO Lin had seen Xia ruofei create miracles more than once, while the purchasing Commissioner had no idea about it before.

Chen shun didn't know anything, but he also pretended to take out some wormgrass to look at it.

The purchasing Specialist opened every bag of aweto and took samples for inspection. It took him more than half an hour to finish looking through all of them.

Then, he leaned close to Chen shun's ear and whispered, "Manager, the quality of this batch of wormgrass is very high. The price of 750000 Yuan per kilogram from the East China region is more appropriate."

Chen shun nodded expressionlessly, then put the Cordyceps in his hand back. He patted the non-existent dust off his hands and sat back in his seat.

"President Xia, we've seen the items. The quality is indeed passable." Chen shun said casually, "Tongren Hall wants this batch of wormgrass. The purchase price is ... 500000 Yuan per kilogram! That's a lot more expensive than the price we pay for special grade grass!"

The purchasing Commissioner's face changed slightly when he heard this. He quickly turned to look at Chen shun, but after Chen shun gave him a dark look, he quickly lowered his head and did not dare to say another word.

President Lin's and Dr. Huang's expressions changed drastically. President Lin even glared at Chen shun.

Chen shun's words were a little harsh. When chief Lin reported to the chain headquarters, he had proposed the purchase price of 750000 Yuan per kilogram. Now, he cut it to 500000 Yuan. Wasn't this clearly saying that he, surnamed Lin, had deliberately set a high price to provide benefits to the peach blossom company?

Moreover, President Lin more or less understood Xia ruofei's temper. With Chen shun's insincere offer, it was very likely that Xia ruofei would leave in a Huff and this business would no longer be related to Tongren Hall.

Xia ruofei might even stop the supply of the iron – skinned fengdou.

President Lin knew that peach blossom company's iron – Skin maples were also very popular on the internet, and the price was lower than that of Tongren Hall. Even if they didn't cooperate with Tongren Hall, they didn't have to worry about sales.

On the other hand, Tongren Hall had lost their partner, Xia ruofei, who could provide them with an endless supply of top quality Chinese medicinal herbs. It was a huge loss.

"Manager Chen, are you joking with me?" Xia ruofei's face darkened.

The purchasing Commissioner had whispered to Chen shun. Although his voice was soft, it could not escape Xia ruofei's sensitive ears.

"President Xia, I don't quite understand ..." Chen shun said unhurriedly.

"Then I'll make it clearer!" Xia ruofei said coldly, "President Lin's team offered me 750000 Yuan, but manager Chen cut it by 250000 Yuan. What's the meaning of this?"

"President Xia," Chen shun said with a fake smile, "now it's our Tongren Tang chain headquarters that are acquiring the company. Vice President Lin can only represent East China at most. His offer doesn't count. Otherwise, we wouldn't have to call for instructions, right?" Besides ... Our offer is not low. 500000 per unit is already the highest price we can offer!"

Xia ruofei stood up and said to Feng Jing, "In the future, don't call me for such a waste of time."

After that, Xia ruofei turned around and left the meeting room without even saying goodbye.

Chen shun was dumbfounded. He only came back to his senses after Xia ruofei's figure disappeared from the conference room.

By then, Xia ruofei had already left the meeting room. Chen shun could only shout at Feng Jing, "President Feng, what does President Xia mean by this? Is this the attitude of cooperation?"

Feng Jing was furious. Even though she knew that Xia ruofei wasn't angry at her, Chen shun's actions still made her upset, especially when the 100 million Yuan that was already in place seemed to have changed again.

Hence, Feng Jing didn't give Chen shun a good look. She said, "What other meaning could there be? We're not doing this business anymore! Manager Chen, please leave!"

Chen shun's face turned red and white, and the anger in his heart grew.

He had his uncle's protection in the Tongren Tang chain headquarters, so he had always been very high – Profile. Moreover, the people in Beijing more or less had a sense of superiority, which was the kind of feeling that came from the roots of the Imperial City. This time, he came to San Shan with this sense of superiority.

Tongren Tang was a well – known Chinese medicine company. In the past, Chen shun had always had an absolute advantage in purchasing. He thought that it would be the same this time. In addition, after yesterday's cold reception, he wanted to take advantage of it. He didn't expect that he would fail to show off. The other party didn't take him seriously at all.

Chen shun felt embarrassed. He said in exasperation, "President Feng! It seems that Tongren Hall is nothing in your eyes! If I remember correctly, we're still acquiring your company's iron Kaede in the long term! Is this how you treat your customers? If this is your attitude, I think we should just call it a day!"

?

Chapter 1309: I'm not serving you anymore (2)

Feng Rao's tone turned cold. She snorted and said, "The peach blossom company and the Qian Tang store of Tongren Tang have signed a long – term supply agreement! The party that breached the contract had to bear the responsibility for compensation! However, as long as manager Chen is willing to bear the consequences, we don't mind! We can stop the supply from next month. As for the penalty, we won't ask for it for the sake of President Lin!"

Chen shun was stunned. Shouldn't the other party soften his attitude and plead for mercy immediately? A business that was worth more than ten million a month, and he was going to give it up just like that?

The development of the situation had always been beyond his expectations.

CEO Lin, who had been silent from the beginning, now even had the thought of killing Chen shun. The thing he was most worried about had still happened.

He was already going crazy from the failure of aweto's business. At the same time, he was worried that Chen shun would not be able to continue his business if he angered Xia ruofei.

He didn't expect that before Xia ruofei could make the decision to terminate the cooperation, Chen shun, this idiot, would take the initiative to bring it up. He thought that this would be enough to make paradise Corporation suffer.

Did this guy's brain get stuck in a door when he was young? President Lin cursed in his heart.

He didn't even know the most basic situation and dared to represent the headquarters to come and negotiate.

In this Ironhide Kaede fight business, the Paradise company was the one who took the initiative. It was Tongren Hall who was begging the Paradise company to cooperate, okay?

Feng Rao looked at Chen shun coldly and said, "Manager Chen, I'm busy with work here. Since both parties have irreconcilable differences, we won't keep you. Please!"

Chen shun snorted coldly and stood up abruptly. "This is the first time I've seen such an overbearing company! Tongren Hall has tens of thousands of business partners, and it's useless without your company. You don't have the channels of Tongren Hall, so I'd like to see who you can sell your medicinal herbs to!"

"We're not kids anymore, so don't say such boring words. " Feng Rao stood up and said, "I have a meeting to attend to. I'll be leaving now!"

She was extremely disgusted with the purchasing manager sent by the headquarters of Tongren Tang chain. She really didn't know what the HR department of Tongren Tang did for a living. How could such a person be a manager and be assigned to such an important task?

If they were all like this, then there was no need for this cooperation!

Feng Jing and Liu Qian also left.

CEO Lin gritted his teeth and glared at Chen shun. He stood up without a word and left the meeting room with his people.

After a while, only Chen shun and the purchasing agent he brought were left in the meeting room. There was also an administrative girl who was in charge of tea security. She stood at the side with a vigilant look, as if she was guarding against a thief.

Chen shun's expression was extremely ugly. He snorted coldly and said, "Let's go!"

Chen shun and the purchasing Commissioner went downstairs. This time, he had learned his lesson. He rented a car from the city. He didn't want to walk a long way and then hail a taxi on the National Highway.

Chen shun's phone rang just as he got into the rented car.

It was his second uncle, Chen Weinan.

"Second uncle!" Chen shun picked up the phone unhappily.

"Chen shun, how's the negotiation going with the Paradise company?" Chen Weinan asked sternly.

In his opinion, this was a ripened fruit. President Lin had even negotiated the price. Chen shun only needed to go over and pick the fruit gently.

However, his nephew was unreliable, so Chen Weinan was a little worried and called to ask about the situation.

"Second uncle, we didn't reach an agreement," Chen shun said.

"What's going on?" Chen Weinan frowned and asked, "did you work hard or not? Didn't I tell you that this order is very important to the Tongren Tang chain and to you?"

Chen shun then remembered Chen Weinan's serious words before he left the capital, and he panicked.

Although he was good at ruining things, he still had a lot of bad ideas. So, he rolled his eyes and immediately said, "Second uncle, you can't blame me for this! The peach blossom company doesn't have any sincerity to cooperate at all, and their attitude is very arrogant!"

"The attitude of paradise Corporation is arrogant?" Chen Weinan said doubtfully, "could it be that you didn't pay attention to your words and angered him?"

"How is that possible?" Chen shun immediately complained, "second uncle, you don't know this. I rushed here as soon as I got off the plane yesterday, but I didn't even see a person in charge. They didn't even receive me. What's more, this company is in the middle of nowhere. Yesterday, I walked for more than half an hour and stopped a car by the roadside for another half an hour before I finally returned to the city!"

"There's actually such a thing?" Chen Weinan started to believe it.

"Second uncle, that's not all!" Chen shun immediately said. They treated Lin Zhongming and his group as guests, but they were indifferent to us. There was obviously something fishy! So, I was smart and suggested to check the goods again, and they immediately turned on me!"

Chen shun continued, "we've seen this batch of wormgrass. Although the quality is not bad, Lin Zhongming's price of 750000 Yuan is obviously too high. If we buy it at this price, we will lose our profit margin!" So, I followed the principle of purchasing and offered a price of 500000 Yuan. I'm also deliberately offering a lower price to leave some room for bargaining!"

Chen Weinan secretly nodded and felt that his nephew had done a good job, so he asked, "And then? How did you guys fall out?"

?

Chapter 1310: I'm not serving you anymore (3)

Chen shun said gloomily, "we didn't even talk about it!" When the chairman of this company heard my offer, he immediately got up and left. Then, their general manager's attitude was very tough and his tone was very aggressive. We couldn't talk about it anymore!"

"They didn't even discuss the price and just left?" Chen Weinan also found it unbelievable.

"Isn't that so?" Chen shun said, "second uncle, I suspect that there's something fishy about this! "Lin Zhongming has a close relationship with this company, and it was all thanks to this company that he was able to get to his position. Now that he has more power, he's in charge of the procurement of the entire East China District. I think there's something strange about this deal. Could it be that there's some Benefit Transfer between him and this company ..."

Chen Weinan pondered for a while and said, "I know. Since that's the case, you can retreat first!"

"Alright, second uncle!" Chen shun said. Then, he couldn't help but ask, "then, what about Lin Zhongming ..."

"You don't need to care!" Chen Weinan said, "I'll ask the comrades of the discipline Inspection team to investigate it in secret!"

Chen shun was overjoyed and said, "okay!" We have to investigate this guy thoroughly. There's definitely something wrong with him!"

This time, Chen shun even hated President Lin, so he fanned the flames here, hoping that President Lin would be in trouble.

After hanging up the phone, Chen shun glanced at the purchasing Commissioner, who had a strange expression on his face, and said, "You don't need me to teach you what to say when you get back, do you?"

The purchasing Commissioner trembled slightly and quickly said, ""Manager Chen, I understand. Don't worry!"

He didn't have any background in the company. Although he knew that Chen shun was lying, he didn't dare to say a word. Otherwise, with Chen shun's power in the chain headquarters, he would be fired in three days if he wanted to.

Chen shun nodded in satisfaction and said, "Smart people should know how to judge the situation. After this incident, I will find a way to find you a Deputy Manager position!"

The purchasing Commissioner smiled bitterly in his heart and pretended to be grateful. He said, "Thank you, manager Chen! Thank you, manager Chen!"

.....

Taoyuan farm.

President Lin walked into Xia ruofei's office with an apologetic look on his face.

"Brother Xia, I'm really sorry ..." He said as soon as he entered the door.

Xia ruofei waved his hand. "Mr. Lin, this has nothing to do with you. I'm not an unreasonable person. Don't worry!"

"This Chen shun is a shit stirrer!" President Lin said angrily, "such a good thing was ruined by him!"

"Let's not talk about him!" Xia ruofei said, "this kind of person needs to be taught a lesson!"

"Brother Xia, how about this ..." President Lin hesitated for a moment and said, "as the Vice President of East China, I can make decisions for transactions below 80 million Yuan. I just need to report it to the headquarters for record. Why don't we reduce the transaction volume this time ..."

Xia ruofei waved his hand and said, "forget it!" President Lin, it's not that I don't want to work with you, but the main thing is that I've just driven away your people from the headquarters. Now that you're representing the East China region to sign a contract with us, I'm worried that it will have a bad impact on you."

After all, Tongren Hall was a state – owned enterprise, and the rules of the officialdom were also applicable here.

If President Lin signed a contract with paradise Corporation under such circumstances, not only would he not be appreciated by the leader, but he would also be labeled as insensible, and it would be difficult for him to improve in the future.

President Lin knew this as well, but he felt sorry for Xia ruofei, so he proposed this solution.

He sighed and said, "Al!" Why is it so difficult to do something wholeheartedly?"

Xia ruofei smiled and said, "CEO Lin, forget it. There's no need to be angry. We'll have more opportunities to work together in the future." By the way, you might as well stay for a few more days and take it as a distraction!"

"There's still a lot of things waiting for me to deal with at home!" President Lin said with a bitter smile. Brother Xia, I've already asked my men to book an evening ticket. This time, it's my fault, please forgive me!"

“I don’t blame you for this, so don’t apologize anymore!” Xia ruofei smiled and said, “the business is not done, but it doesn’t affect our personal relationship!”

“Okay, I won’t disturb you any longer ...” President Lin said with a little disinterest, “I’ll have to trouble you to send a car to take us to the airport in the afternoon!”

“No problem!” Xia ruofei smiled and said, “President Lin, you should go and rest for a while. I’ll have a few drinks with you this afternoon!”

After CEO Lin left, Xia ruofei could not help but slam the table, feeling all sorts of dissatisfaction.

‘Looks like I can’t count on Aweto for this 100 million,’ Xia ruofei thought to himself.

Although such good wormgrass wouldn’t have a problem selling, it wasn’t easy to find a partner who could buy so many goods in one go and pay quickly.

Xia ruofei thought for a while and was about to take out his phone to make an appointment with a bank overseas.

Just then, his phone rang first ...
