Chapter 1491: Entering the underground palace (1)

"Isn't it too far?" Song Wei asked hesitantly.

This place was more than 200 meters away from the entrance where she first entered the tomb. Although the experts speculated that the tomb was large, Song Wei was not sure if they were still in the tomb.

After all, everything was just an expert's speculation. Their investigation was forced to stop when it had just begun. No one knew how large the tomb was and how it was distributed.

Compared to Song Wei's uncertainty, Xia ruofei was more confident.

Because at this position, the temperature of the Jade Leaf was still very high, which meant that the world stone was nearby. Without a doubt, this place was still within the range of the tomb.

"My instinct tells me that there should be some gains here!" Xia ruofei smiled.

"It's intuition again ..." Song Wei was speechless.

"My intuition is quite accurate sometimes!" Xia ruofei said with a smile.

The location was a depression and was further away from the patrolling security guards, so the two were much more relaxed than before.

"Then, does your intuition tell you how we should start?" Song Wei asked with a smile.

Xia ruofei stood up with a mysterious look on his face. He took a few steps around the area and stomped his feet. "We'll dig in from here!"

"It's that simple?" Song Wei was stunned.

Xia ruofei shrugged and said, "what else?" Since it's all about luck, why don't you just trust my intuition?"

Song Wei was stunned for a while and said with a bitter smile, "Alright then!"

She was an archaeologist, and she was equally clueless when faced with a situation where there were almost no clues. Since Xia ruofei trusted his intuition so much, she might as well trust him this once. Otherwise, he wouldn't be wandering around in the wilderness in the middle of the night!

The two of them took off their backpacks and put them aside. Song Wei took out a Luo Yang shovel from her bag and skillfully assembled them.

Xia ruofei stretched out his hand and smiled. "Leave this physical work to me!"

Song Wei did not stand on ceremony and passed the Luo Yang shovel to Xia ruofei.

In fact, this Luoyang shovel had two heads. The small head was mainly used to explore holes. It was used to retrieve the soil below and determine if there was a tomb below.

Xia ruofei started digging without a second word. Song Wei watched from the side and smiled, ""Your movements are quite professional. Have you been to a tomb before?"

"Yup! And he even robbed a royal tomb!" Xia ruofei said without raising his head.

"You're bragging!" Song Wei chuckled and said.

After a while, Xia ruofei brought some soil up. Song Wei took the flashlight and looked at it carefully. She said in surprise, "There might really be a tomb down there!"

Then, Song Wei pointed at a piece of soil that Xia ruofei had brought up and said, ""Look, this is an obvious characteristic of triple earth, and from its color, it was mixed with glutinous rice soup. This tomb is of very high standard!"

"Do you believe my intuition now?" Xia ruofei asked with a smile.

Song Wei chuckled and said, "it's a blind cat that got lucky!" Besides, if we rashly dig down from here, it will be dangerous if the tomb room collapses, and we will really die!"

Tomb raiding was actually a physically heavy and high – risk profession. It was common to lose one's life in the tomb if one was not careful.

In the archaeological excavations that Song Wei had participated in, she had seen bones lying in the tombs several times. These were basically the remains of grave robbers, who died from lack of oxygen or other unknown dangers. They could even have been killed by their accomplices because of uneven distribution of the loot.

Xia ruofei said, "we just need to be careful. This tomb is so big. If nothing goes wrong, it should be a complete underground Palace. It won't collapse so easily."

Song Wei nodded. She agreed with Xia ruofei and said, "Then ... Let's try to dig down?"

"Of course!" Xia ruofei said.

He had already come this far, and he could feel that the Jade Leaf was constantly emitting a burning aura. No matter if there was any danger down there, Xia ruofei would definitely continue.

Song Wei did not say anything. She took out a bigger shovel and put it on. Then, she passed it to Xia ruofei silently.

This shovel head was specially used to dig holes, so it was much more useful than an ordinary shovel.

Of course, with the development of technology, many grave robbers were now using technological equipment, such as single – person backdrill machines and so on, which increased the efficiency.

Xia ruofei took the Luo Yang shovel and started digging at the spot where they had just dug.

He was very strong and had good stamina. In addition, he had been trained in digging for individual bunkers when he was in the Army. There was no problem with his skills, so his speed was naturally very fast.

After a short while, a round hole with a diameter of about 70 centimeters appeared.

Xia ruofei continued to dig deeper while Song Wei gave him a flashlight. The two of them had a clear division of labor.

After digging for about two meters, Xia ruofei was already in the cave. Song Wei was almost lying at the entrance of the cave, reaching out her hand to light up the cave for Xia ruofei.

The hole was not completely vertical. They had to dig straight down first. When they reached about half a meter deep, they would start to dig diagonally. Therefore, Song Wei's flashlight was not very effective.

However, she felt that it wasn't good for her to be idle. She always wanted to do something.

?

Chapter 1492: Entering the underground palace (2)

At this moment, Song Wei heard a "ding" sound from below. It was obviously different from the digging sound earlier. She quickly asked, "RUO Fei, what's wrong?"

"Song Wei, give me the flashlight!" Xia ruofei said.

Xia ruofei's voice was muffled as he was already deep in the cave. However, Song Wei could still hear him clearly. She quickly took out a rope from her bag to tie the flashlight and went down.

After a while, Xia ruofei returned to the cave. He sat down and said to Song Wei, "They should have dug up a tomb brick! I want to change my tools."

Xia ruofei rummaged through the backpack at the side and took out a bag of tools. There were small crowbars, shovels, and other tools in it. They were all prepared for the limited space underground.

He thought for a moment, then took out a roll of plastic cloth from his bag and stuffed it into his pocket. Then he said, "I'm going down!"

Song Wei felt nervous for no reason. She grabbed Xia ruofei's arm.

"What's wrong?" Xia ruofei was stunned.

"It's nothing ... You ... Be careful!" Song Wei's face heated up.

Xia ruofei smiled and said, "don't worry!" I'm not an impetuous person. If anything goes wrong, I'll immediately retreat! Oh, right ..."

Xia ruofei suddenly thought of something. He took out a black bag from his backpack and passed it to Song Wei. "I'll pull the rope later, and you pull the pipe down!"

For safety's sake, Xia ruofei had a rope tied around his waist when he was working. If anything happened, Song Wei could still pull him up.

Of course, whether the delicate lady song could move Xia ruofei was another matter altogether.

Song Wei opened it and was surprised, "Snake – like endoscope? You're quite well – prepared!"

Xia ruofei chuckled, "it's better to be safe than sorry!" Safety first!"

Song Wei was relieved and nodded, "Then you can leave! I'll wait for your signal!"

An industrial grade snake – Tube endoscope allowed one to see the situation inside the tomb without personally going down. It was equivalent to a second pair of eyes, and it could avoid some unknown risks to a large extent.

Xia ruofei grinned at Song Wei and went back into the hole.

He quickly came to the place he had just dug. The soil here had been cleaned up by him, and in front of him were slightly curved tomb bricks.

The gaps between the bricks were tightly closed, and the construction process was quite advanced.

Xia ruofei took out the military dagger from the spirit map space and inserted it into the tiny gap. Then, he pried it carefully.

Gradually, the bricks began to move.

As the gap increased, Xia ruofei changed to a small pry bar and pried open a whole brick.

After taking out one, the rest was easy. Soon, all the bricks in front of him had been pried off.

However, what surprised Xia ruofei was that there was not a hollow chamber under the bricks. It was still made of compact soil.

This tomb chamber should be tamped with Sanhe soil from top to bottom, and there was a layer of tomb bricks in the middle, similar to a sandwich biscuit.

Xia ruofei didn't know what was so special about this design, but he didn't want to get to the bottom of it. Since it was still three – in – one soil, he would continue digging.

After digging another 40 centimeters, Xia ruofei finally felt the weight in his hand lighten. He immediately revealed a trace of joy. He knew that he had dug through.

However, Xia ruofei's expression hardened when he thought of the cold unknown poison in the tomb. He immediately took out a plastic cloth that he had prepared and covered the hole he had just dug out. Then, he pulled the rope around his waist.

Song Wei had been waiting for a long time. When she felt the shaking of the rope, she quickly lowered the snakepipe peeping lens.

Xia ruofei placed the endoscope through the small hole in the tomb, then climbed out of the hole.

"How is it?" Song Wei asked.

"It's already dug through!" Xia ruofei said, "let's take a look at the situation down there before we decide if we should go in!"

"En!" Song Wei nodded her head.

Xia ruofei took out his laptop and the control end of the endoscope from his bag and connected them skillfully.

The snake endoscope was powered by a battery, and soon, the image of the bottom appeared on the screen of the laptop.

Naturally, Song Wei was also looking forward to it.

The infrared camera didn't have any color on it, but they could still clearly see the situation in the tomb.

The place they had dug through seemed to be a passageway, about two meters high. Two rows of sculptures stood on both sides of the long corridor, looking a little eerie and strange.

Xia ruofei controlled the snake – like endoscope and took pictures of both ends of the tunnel. There was no danger. Although it felt eerie, it was very quiet.

So, he called up another interface on the computer and integrated a sensor at the top of the snake – Tube endoscope, which could detect the air condition in the tomb.

The data showed that everything was normal. Other than the low oxygen content, there were no signs of excessive harmful gases.

Song Wei and Xia ruofei looked at each other and asked, "Do you want to go down?"

Xia ruofei nodded and said, "yes!" But ..."

"I'll play too!" Song Wei said before Xia ruofei could finish.

?

Chapter 1493: Entering the underground palace (3)

Xia ruofei said helplessly, "fine!" I'm going to do some cleaning up, and then we'll go down together!"

Xia ruofei went into the hole and kept the snake – like endoscope. Then, he enlarged the hole to make sure that a person could pass through. Then, as he retreated, he repaired the entire robber's hole until he was out of the hole.

Then, Xia ruofei carefully moved the soil to a small pond not far away and discarded it. He also did his best to clean up the traces of the hole.

Then, he broke some branches and prepared to cover the hole.

It was a depression in the ground, surrounded by dense trees and few people. There was also a small mound next to the hole, which was covered with branches. Even if someone passed by, it would be difficult to notice the hole.

Song Wei looked at Xia ruofei's work and smiled. "If I didn't know about your resume, I would have suspected that you were a professional grave robber!"

Xia ruofei shrugged. "With my standards, I'm a professional in everything I do!"

"Great expert!" Song Wei laughed. "Should we go down?"

"There's one last thing!" Xia ruofei said seriously.

After that, he took out a climbing rope from his bag and tied it to a tree not far away. After testing the rope's reliability, he slipped the rope into the cave.

Of course, he also used weeds and branches to cover up the part of the rope that was on the ground.

"This is our rope of life!" Xia ruofei laughed. "I'll have to rely on it to come out!"

"Let's go!" Song Wei couldn't wait.

"Don't rush!" Xia ruofei said, "put on your equipment!"

Then, Xia ruofei took out two sets of protective clothing from his treasure chest – like bag. Although they were not the most professional ones, they could prevent their skin from being exposed to the air. With the gas mask, they should be able to avoid most of the danger.

As for whether the gas mask could filter out the unknown poison, Xia ruofei was not too worried. With him around, the poison would not be able to get close to them.

The protective suit and gas mask were to make Song Wei feel more at ease.

Song Wei was also impressed by Xia ruofei's attentiveness.

The two of them quickly put on protective clothing and gas masks.

Xia ruofei threw the backpack into the hole and said to Song Wei, "I'll go down first, you follow behind me. Remember to use branches to cover the entrance!"

"I know!" Song Wei said calmly.

Xia ruofei went into the hole. After a while, Song Wei heard Xia ruofei's voice from her earpiece. "Song Wei, come down!"

Because they were wearing gas masks, they were also equipped with walkie – talkie equipment for communication.

Hence, Song Wei went into the hole as well. Half of her body was exposed. As she slowly went down, she used the branches that Xia ruofei had gathered to cover the entrance.

Following the hole that Xia ruofei had dug, Song Wei quickly arrived at the bottom. Her feet had already touched Xia ruofei's shoulder.

Hence, Xia ruofei said, "hold on tight to the rope. I'll go in first. You just have to come down with me. Don't worry. I'll catch you from below!"

"En!" Song Wei clutched the rope tightly.

Then, she felt Xia ruofei move and heard a 'Dong' sound. Xia ruofei must have jumped in.

Song Wei didn't hesitate and continued to go down the rope. When she missed her step, she fell directly under the effect of gravity.

She wasn't worried at all because she knew that Xia ruofei would definitely be there to protect her.

Sure enough, the next moment, she was tightly hugged by a pair of strong hands and then gently landed on the ground.

?

Chapter 1494: Turning in circles on the spot (1)

Feeling Xia ruofei's strong embrace, Song Wei blushed and her heart beat faster. However, Xia ruofei let go of her after helping her stabilize her body. Song Wei could not help but feel a little disappointed.

"Are you alright?"

Xia ruofei's concerned voice came through song Wei's earphones.

Only then did she come back to her senses and quickly said, ""I'm fine! Which way should we go?"

They were in a long passageway. There were statues on both sides of the passageway. Under the illumination of the flashlight, they looked like monsters. Even though Song Wei was an archaeologist and was braver than most girls, she could not help but feel scared. She subconsciously moved closer to Xia ruofei.

Xia ruofei looked around with the help of the flashlight. He felt that the corridor was filled with a gloomy atmosphere.

The place where they came in happened to be in the middle of the corridor. It was dark at both ends, and they did not know where it led to.

However, Xia ruofei had another basic basis for his judgment, and that was to sense the Jade Leaf.

However, the changes in the Jade Leaf would not be too obvious within a short distance. Hence, Xia ruofei could only head in one direction. If he was lucky and the Jade Leaf's reaction became more intense, it would mean that he had chosen the right direction. If not, he would have to turn back.

"Let's go in a random direction," Xia ruofei said.

Xia ruofei and Song Wei walked side by side, carefully walking in one direction.

In this empty and quiet underground Palace, the sound of their footsteps was particularly loud and scary. Song Wei could not help but pull on Xia ruofei's clothes, not daring to fall behind.

Xia ruofei turned around and asked with a smile, ""Song Wei, are you scared?"

Song Wei was obviously scared, but she still said, ""Tsk ... Did you forget what my major is? A coward would dare to enter this line of work?"

Xia ruofei laughed and said, "then can you pull a little lighter?" I'm afraid you'll tear my clothes ..."

Song Wei let go of Xia ruofei's hand in embarrassment, but she quickly held onto Xia ruofei's arm. Fortunately, the gas mask covered her expression, or it would have been even more embarrassing.

The passage seemed to be very long. The two of them had advanced nearly a hundred meters, but there was still no sign of turning. It was as if it would continue on forever.

Xia ruofei suddenly stopped in his tracks. Song Wei asked nervously, ""What's wrong?"

"We might have gone in the wrong direction." Xia ruofei said, "turn back!"

After walking for such a long distance, not only did the temperature of the Jade Leaf not increase, it even decreased slightly. Xia ruofei knew that he was even further away from the realm stone, so he changed his direction without hesitation.

"Your intuition again?" Song Wei asked with a smile.

"It turns out that my intuition is still very accurate!" Xia ruofei said with a smile.

The two of them changed direction and advanced in the other direction.

Soon, they arrived at the spot where they came in from. Song Wei felt a little more at ease when she saw the rope hanging down from the entrance.

As for how they were going to climb up the two – meter height, she was not worried at all. Anyway, with Xia ruofei around, there would be no problem.

The two of them didn't stop. They passed by their previous position and continued to move in another direction.

A fork appeared in this direction very quickly.

Xia ruofei still chose a direction based on his intuition. Of course, he had expected that the underground palace would be very large and the passage would not change. So, to prevent himself from getting lost, he carved a mark with a military dagger at the fork.

This time, he was lucky. The Jade Leaf's reaction was much stronger than before, which meant that Xia ruofei had guessed the right direction.

Xia ruofei asked as he walked, ""Song Wei, did the places we passed by overlap with the area you entered last time?"

Song Wei shook her head and said with certainty, ""Absolutely not! We didn't find such a passage back then. "

"It seems that the scale of this underground Palace is even larger than we imagined!" Xia ruofei said.

The two of them continued to venture deeper. Along the way, they encountered many forks in the road. These forks looked exactly the same. The passage was more than two meters high, with sculptures standing on both sides.

Xia ruofei also followed the guidance of the Jade Leaf and constantly corrected the route. Of course, he did not forget to mark every fork in the road.

Along the way, the Jade Leaf's reaction was getting stronger and stronger. Xia ruofei was also excited and looking forward to it.

If it had always been a corridor like this, even though it was a little creepy to walk in, there was no danger. If they continued to go deeper, they would eventually find the world stone.

Although Song Wei did not know Xia ruofei's real purpose, she did not ask. She just followed Xia ruofei closely. Every time Xia ruofei confirmed or changed his route, she never asked for the reason. She just treated it as Xia ruofei's intuition.

However, as they walked, Xia ruofei suddenly stopped in his tracks and his expression turned ugly.

Song Wei didn't understand and quickly asked, "What's wrong?"

Xia ruofei's voice was a little strange as he said, "We might be in trouble ..."

Just now, Xia Qing, who had been using her divine thoughts to observe the situation outside, suddenly gave a warning. She told Xia ruofei that there seemed to be a problem with this passage and asked him to immediately go back and check the route they had taken just now.

"What kind of trouble?" Song Wei asked in a trembling voice.

"It's not clear yet, let's go back first!" Xia ruofei said.

The two of them changed direction and walked to a fork in the road. Xia ruofei immediately shone the flashlight on the wall beside the statue. He was shocked.

?

Chapter 1495: Turning in circles on the spot (2)

The mark he had made at this location had disappeared.

Song Wei had obviously noticed this as well. Her face was slightly pale and her heart was even more nervous.

The two of them also searched the other two roads at the fork, but they didn't leave any traces.

Could it be that the mark would disappear on its own? Or was it that someone had cleared it from behind?

No matter which possibility it was, it would make one's hair stand on end.

Without those marks, the two of them would very likely get lost in this complicated underground Palace.

Xia ruofei's expression was a little ugly. He used his divine sense to communicate with Xia Qing, "What's going on?"

“Master, there might be a formation in this underground Palace.” Xia Qing analyzed, “the area of these corridors is not as large as you think. It is very likely that you have been walking in circles.”

“A trapping formation?” Xia ruofei said.

“Yes, I am!” Xia Qing said, “it’s very likely. As for the specifics, you will have to try to crack it yourself.”

Xia ruofei frowned. “But the place we came from is gone. This means we’re not at the same place!”

“Master, you’ve entered the formation through the hole at the top. That part will definitely be blocked by the formation.” Xia Qing said, “perhaps that region is very close to you, but you will keep going in circles in another region. If you don’t break the array, you will never be able to return to that place.”

This was also the reason why Xia Qing strongly recommended Xia ruofei to obtain the earth jade talisman. In a tomb of this scale, with a world stone from the cultivation world, it was very likely that there would be various formations.

“What do we do?” Song Wei’s voice was trembling.

As an archeology student, she had naturally heard different versions of supernatural stories. She had always been proud of her courage, but when she really encountered such a situation, she could not help but tremble.

Xia ruofei said calmly, “don’t be afraid. Let’s go back according to our memory. We might be able to find the place where we came in from.”

“I guess this is the only way.” Song Wei said helplessly.

The two of them walked back for a while and realized that they didn’t need to make any markings to see that the road was different from before.

There was clearly a fork in the road, but it had become a straight passage.

It was the first time Xia ruofei had encountered such a situation. He forced himself to calm down and started to recall the knowledge he had about arrays.

Judging from the various characteristics, this was undoubtedly a trapping array.

Since it was a formation, it was definitely not unsolvable. As long as they could find the core of the formation, which was also the so – called “formation eye,” many problems could be easily solved.

However, Xia ruofei did not have much confidence. After all, he had only mastered theoretical knowledge and had never practiced it before. This time, he was simply pushing a duck onto a rack.

However, Xia ruofei had no choice but to retreat.

He took a deep breath and began to release his spiritual power, carefully sensing the changes in the surrounding atmosphere.

Since it was a trap array, it was definitely impossible to discover any clues with the naked eye. Especially in this kind of maze – like corridor, it looked the same no matter where you went, so it was even more difficult to discover any changes.

However, spiritual power was different. It was much more sensitive than the human eye, and it could see through illusions in many cases.

As expected, after Xia ruofei released his spiritual power, he immediately felt the subtle changes in the surrounding aura. It was as if there were invisible mysterious lines lingering around his body.

It was a good thing that there were changes, but what was scary was a pool of stagnant water.

Xia ruofei revealed a trace of joy and immediately began to analyze the lines.

The array Formation Manual in the earth jade talisman was indeed a top – notch array formation treasure. Gradually, the unchanging corridor seemed to reveal its true appearance in Xia ruofei's eyes.

A smile gradually bloomed on his face.

However, Song Wei could not see Xia ruofei's expression under the gas mask. She only saw Xia ruofei standing there in a daze. She felt strange and anxious, but she did not dare to disturb him.

At this moment, Xia ruofei turned to Song Wei and said, ""This way!"

Then, he pulled Song Wei's hand and walked forward. Song Wei's heart was beating wildly but she still held Xia ruofei's hand tightly and did not let go.

In fact, Xia ruofei was worried that Song Wei would fall into the formation if she went the wrong way. That would be even more troublesome. Hence, he had to hold her tightly.

They didn't walk far in this direction, and the corridor would make a 90 – degree turn.

However, Xia ruofei did not seem to see it and continued to charge towards the wall.

"Ruofei, there's a wall up ahead!" Song Wei could not help but shout.

Before Song Wei could finish her sentence, Xia ruofei had already hit the wall. Song Wei subconsciously took half a step back. Just as she was about to scream, she realized that Xia ruofei had passed through the wall as if it did not exist.

Xia ruofei's hand was still holding her tightly. Other than his hand, the rest of Xia ruofei's body had disappeared. It was a strange sight.

Then, Song Wei felt a strong force pulling her, and she could not help but fall towards the wall.

Song Wei closed her eyes when she saw the wall coming at her.

However, the expected pain of hitting the wall did not come. There seemed to be no obstacles.

When she opened her eyes again, she found Xia ruofei holding her hand. The two of them were standing in the corridor. Although it looked the same, there was no 90 – degree turn. Their backs were facing the wall, as if they had come out from the wall.

Song Wei was dumbfounded and asked in shock, ""RUO Fei, this ..."

"Just follow me!" Xia ruofei revealed a confident smile. "It's just a simple smokescreen. I didn't pay attention just now and almost fell for it!"

Song Wei's heart was in turmoil. This so – called 'smokescreen' was too realistic.

Xia ruofei had already seen through the trap formation's pattern. Then, he brought Song Wei forward quickly.

Although the reaction of the Jade Leaf was sometimes stronger and sometimes weaker, Xia ruofei did not care about Jian Jia. The most important thing now was to get out of this trap array.

There seemed to be no pattern to his route. Sometimes, it was clearly a three – way intersection, but Xia ruofei would turn in the direction where there was no road. Sometimes, Xia ruofei would bring Song Wei along a straight corridor and make a sharp turn. They would go straight through the wall. Sometimes, Xia ruofei would even turn back ...

Song Wei was already numb to it. She would follow Xia ruofei wherever he led her.

As for whether it was a wall or a statue in front of her, she didn't care at all, because every time she passed through the wall without any accident.

After walking for about ten minutes, Song Wei saw a few bricks on the floor of the corridor in front of her. There was also a rope hanging down from the top of the cave.

She was stunned for a moment, then she cried out in joy, ""Ruofei, we've made it out!"

After she finished speaking, Song Wei quickly ran forward.

Xia ruofei heaved a sigh of relief. Seeing this hole meant that he had already walked out of the trap array's range. Regardless of whether he could get the world stone, at least it would not be a problem to leave the ancient tomb.

However, when his spiritual power probed forward, his expression suddenly changed. He shouted, ""Song Wei, stop! Come back quickly!"

Under the detection of his spiritual power, this corridor was still within the range of the trap array. Moreover, he had also discovered an extremely dangerous aura ...

However, the warning was too late. Song Wei had already reached the hole.

When her foot stepped on a brick that had fallen earlier, a sudden change occurred!

With a series of cracking sounds, Xia ruofei's expression changed and he shouted, ""Song Wei, get down!"

As he shouted the warning, Xia ruofei circulated his true Qi to the maximum and dashed towards Song Wei's direction at lightning speed.

Swish Swish Swish ...

The sound of something breaking through the air could be heard. Xia ruofei rushed to Song Wei's side and pushed her to the ground.

Almost at the same time, arrows were shot out from the gap between the two statues. With a series of thuds, these arrows were all deeply embedded in the opposite wall.

If he had been standing still just now, he would have become a Porcupine by now.

Song Wei was scared out of her wits. Her face turned pale and her body trembled ...

?

Chapter 1496: The strange stone gate (1)

Soon, Song Wei realized how intimate their position was.

Although they were all wearing protective clothing, her delicate and exquisite body was now completely under Xia ruofei's body. In order to protect her, Xia ruofei tried his best to cover her body on top, and at the same time, he pressed her very low. Her peaks were deformed under the pressure of Xia ruofei's firm chest.

"Ruofei, why aren't you getting up?" Song Wei whispered, blushing.

"You can't get up!" Xia ruofei said subconsciously.

"Ah?" Song Wei was stunned for a moment. Did he have any bad intentions?

Song Wei was very confident in her charm. In such a quiet and remote environment, and with the two of them in such a position, it was normal for Xia ruofei to not be able to control himself.

Song Wei's heart started to beat faster. She was a little nervous, but at the same time, she was filled with anticipation.

Xia ruofei continued, "I didn't expect it to be a trap and kill array ..."

Only then did Song Wei realize that she might have misunderstood. Her pretty face could not help but burn. Fortunately, the gas mask covered her expression.

"What trap & kill array?" Song Wei asked, suppressing her shyness.

"At first, I thought this was just a trap array. I didn't expect the array to have changes." Xia ruofei said in a low voice, "this formation is very well hidden. If we didn't sense that something was wrong, we would have been dead by now ... We can't move now, or we might trigger an even more terrifying trap."

In fact, Xia ruofei had only felt his heart palpitate for no reason. Then, he sharply sensed the change in the atmosphere in front of him. A huge murderous intent was brewing in the calmness.

He didn't have time to think and used all his strength to push Song Wei to the ground.

Song Wei looked at the quivering arrows on both sides of the wall and her heart skipped a beat. If Xia ruofei had not risked his life to save her, her body would have been pierced by the arrows.

Xia ruofei knew that he and Song Wei had been trapped in the trap and kill array. If they made a wrong move, they would be doomed.

However, it was definitely not possible to keep this position. It was of no help to escape. Moreover, how could he not feel anything when a beautiful woman was lying under him? If his body had some sort of primitive reaction, it would be really embarrassing.

Hence, Xia ruofei tried his best to keep his mind clear. At the same time, he released his spiritual power crazily, trying to find a way out of this fierce killing intent.

The surrounding aura had changed completely. With Xia ruofei's spiritual perception, he could clearly sense the Dao patterns that were filled with murderous intent.

Xia ruofei used the array Dao knowledge that he had just learned to analyze these Dao patterns with all his might. He gradually entered a mysterious state.

This kind of state was a bit like when he was in school, learning how to solve a linear equation of two variables, and then facing a very complex equation, he had to solve it step by step.

The complicated Dao patterns gradually became clear under Xia ruofei's analysis. He slowly discovered the rules hidden in the chaos ...

For Song Wei, who was under him, it was a little difficult.

This was the first time in her life that she had maintained such an ambiguous position with a boy, and she could not suppress the shyness in her heart.

The key was that Xia ruofei was still like an old monk in meditation, maintaining this posture without moving.

At this moment, Xia ruofei let out a long breath and mumbled to himself.

"Ruofei, how is it?" Song Wei asked softly.

"I'll stand up first, then I'll pull you up." Xia ruofei said, "remember not to touch the ground with your hands, and don't move your feet!"

"Alright!" Song Wei said nervously.

Xia ruofei's eyes lit up. He reached out his hands and pressed on the two spots that he had calculated. Then, he pushed himself off Song Wei.

Then, he reached out to Song Wei and pulled her up from the ground.

Xia ruofei said, "Song Wei, from now on, you have to follow behind me. Remember, you must step on the places that I have stepped on. You can't take a single wrong step. Do you understand?"

Song Wei also realized the danger in the tomb and quickly said, "Understood!"

"Let's go!"

After Xia ruofei finished speaking, he took a step forward steadily. Song Wei's heart trembled a little. Fortunately, everything was calm as usual and nothing unusual happened.

Xia ruofei did not move quickly. Every step he took was steady. Song Wei did not dare to be careless. She shone her flashlight on Xia ruofei's feet and followed his footsteps. The two of them walked forward, one in front and one behind.

Sometimes, Xia ruofei would take two steps forward and then three steps back. He would even circle around in a small area. It seemed like there was no pattern, but the amazing thing was that the sudden arrow shooting did not happen again. Everything seemed to have returned to its original calm.

After walking for an hour, Xia ruofei finally let out a long sigh of relief. He smiled and said, "I should be able to walk out this time!"

Xia ruofei leaned against the wall and sat down. His back was drenched in sweat. The journey seemed easy, but it was actually a huge drain on his energy. The calculation of "solving the equation" alone was beyond the imagination of ordinary people. If it was not for the support of his spiritual power, he would not have been able to complete such a huge calculation.

"Are we safe?" Song Wei also heaved a sigh of relief.

Xia ruofei closed his eyes to rest. He nodded and said, "I can only say that we're safe for now ... Song Wei, you should rest too!"

"En!" Song Wei sat down beside Xia ruofei and said gently, "I'm sorry! If I didn't run around, I wouldn't have triggered that mechanism."

Xia ruofei laughed. "It has nothing to do with you. In fact, we were trapped in a trap array the moment we entered the corridor. However, the array had been brewing its killing intent. Moreover, I'm not very experienced, so I've been treating it as an ordinary trap array ..."

"The formations you're talking about sound so magical!" Song Wei asked curiously.

"This is the crystallization of the wisdom of our ancestors. It's not a simple feudal superstition." Xia ruofei said.

"Yes, I believe you." Song Wei said, "many things that science can not explain actually exist."

In the field of archeology, one would more or less come into contact with some supernatural events. There were also many rules and taboos in this field, which could not be generalized by feudal superstitions.

"We can't find the entrance we came in from." Song Wei continued, "what do we do now?"

Naturally, Xia ruofei had to continue searching for the world stone. However, Song Wei had come here purely to accompany him, yet she had fallen into such a dangerous situation. This made Xia ruofei feel a little apologetic.

"We'll definitely be able to find a way out, but before that, I need to find something," he said.

Song Wei also knew that Xia ruofei must have come for something important. Otherwise, he would not have taken the risk.

Therefore, she understood and nodded, "Mm! I'll go with you!"

Xia ruofei chuckled. "Since we're already here, you have to come with me. Otherwise, I'll be worried about your safety!"

Xia ruofei stood up and said, "We've rested enough. Let's continue deeper!"

Xia ruofei continued to follow the guidance of the Jade Leaf and groped around the dark underground Palace.

Of course, he was on high alert all the time, and the probing of his spiritual power did not stop. This was to prevent himself from falling into the formation like before.

The underground palace's corridors were like a maze, and it felt the same no matter where they went.

At first, Song Wei tried to remember the route. However, after a while, she realized that her efforts were in vain. She gave up and followed Xia ruofei.

In any case, the cave they had just entered from was inside the trap and kill array. Unless they really could not find another exit, they would not want to go into the array again.

"What?" Xia ruofei raised his eyebrows.

Song Wei also noticed the abnormality immediately and could not help but widen her eyes.

At the end of the corridor in front of them, a green stone door appeared. It looked simple and heavy. The corridor ended at the stone door, and there were no other forks.

This was the first time they had seen a building other than the corridor and the statue after entering the underground palace. No matter what was behind the stone door, it was better than nothing.

With the lesson from the trap and kill array, Song Wei did not charge forward immediately. Instead, she turned around and asked, "Xia Ruofei, is there any danger ahead?"

"I don't think so," Xia ruofei smiled and said, "let's go and take a look!"

As they neared the green stone door, Xia ruofei could feel the heat of the leaf increasing.

He was secretly happy in his heart. It seemed like he was getting closer and closer to the world stone.

However, at the same time, Xia ruofei was also very cautious. The unknown poison seemed to have come from the realm stone. If there was a realm stone behind the stone door, it was very likely that the unknown poison existed.

Xia ruofei walked to the front of the green stone door and observed it carefully with the help of the flashlight.

This stone door looked ordinary and there were no decorative patterns carved on it. Moreover, the marks of knives and axes could be vaguely seen. The style was very rough.

This was the end of the corridor. It was like a dead end. Only by opening the stone door could one find a new path. Otherwise, they could only turn back.

Xia ruofei was here for the world stone. Now that he could feel the Jade Leaf's heat, he would definitely not give up at this time.

"I have to find a way to open the stone door." Xia ruofei said.

Song Wei observed from the side and asked, "How do I open it? Let's look around for any traps! Wasn't that how wuxia novels were written? Maybe it's an unremarkable protrusion, and the door will open if you press it."

"It won't be that easy!" Xia ruofei laughed.

His eyesight was much better than Song Wei's. He had already looked carefully when he was walking towards the stone door. He had basically ruled out the possibility of any hidden mechanisms.

Song Wei was still unwilling to give up and continued to search for the 'hidden mechanism' with her strong flashlight.

Xia ruofei stood quietly in front of the stone door and released his spiritual power to investigate.

At such a close distance, any trace would be exposed under the investigation of his spiritual power.

Xia ruofei quickly noticed that the marks on the stone door were not simple. There was a faint Dao aura.

However, the charm was too vague and Xia ruofei could not find any pattern.

Of course, Xia ruofei had noticed something.

Under the cover of his spiritual power, he found that there were two faint palm prints on the stone wall beside the stone door. These palm prints were very shallow, and with the tempering of time, it was very difficult to see them with the naked eye.

Xia ruofei's heart skipped a beat. He stepped forward and pressed his hands on the handprints.

He was just giving it a try. After all, it was unusual for two palm prints to appear on the stone wall.

However, just as his hands came into contact with the palm print, he felt a huge suction force coming from it, firmly sucking his hands on it.

Immediately after, he felt that the true Qi in his body seemed to be circulating a little uncontrollably, and it was constantly being absorbed into the stone wall through his hands.

Xia ruofei was shocked. This palm print was too strange!

However, it was already impossible to withdraw his hand at this time. He used all his strength, but he still couldn't do it. He could only watch as the true Qi in his body was sucked out strand by strand.

Xia ruofei's expression turned ugly. At this rate, the true Qi in his body would be exhausted in less than five minutes. If the suction force continued, he might be sucked dry.

Song Wei did not notice Xia ruofei's strange behavior. As he was covered in the protective suit and had a gas mask on, she could not see his expression.

She was curious when she saw Xia ruofei pressing his hands on the stone wall.

However, Song Wei soon heard a creaking sound. The stone door seemed to have trembled.

Song Wei shone her flashlight on the door and noticed that there was a small crack at the bottom of the door.

"The stone door moved!" Song Wei exclaimed in surprise.

At this moment, Xia ruofei had unspeakable bitterness. He really couldn't even open his mouth to speak.

With the infusion of his own genuine Qi, the stone door began to slowly rise as it trembled.

However, it was too slow. Xia ruofei did not know if his essential Qi could last until the stone door was fully opened. He also did not know if the suction would continue after the stone door was opened.

Now, he could only hold on.

Song Wei looked at Xia ruofei with admiration. She had been searching for a long time but could not find any mechanism. She did not expect Xia ruofei to open the stone door by pressing on the stone wall so lightly. She did not know that Xia ruofei was under such great pressure.

The stone door slowly rose, and now there was a gap of 20 to 30 centimeters at the bottom of the stone door, and a faint light could be seen through the gap.

Xia ruofei wanted to remind Song Wei to be careful. After all, the inside might be filled with unknown poison. However, he could not speak at all. Once his genuine Qi was exhausted, he could not even resist the invasion of the unknown poison, let alone protect Song Wei.

One minute, two minutes, three minutes ...

The genuine Qi in Xia ruofei's body was being consumed at an extremely fast speed. The stone door was also slowly and steadily rising.

Soon, Xia ruofei found it difficult to continue. At this time, the stone door was still 30 to 40 centimeters away from the top ...

Chapter 1498: Underground Plaza (1)

Song Wei finally realized that something was wrong with Xia ruofei.

Because Xia ruofei's body had started to tremble. Even though his expression could not be seen through the gas mask, it was obvious that Xia ruofei was in pain.

"RUO Fei, what's wrong?" Song Wei asked in concern and quickly walked to Xia ruofei's side.

She wanted to reach out to support Xia ruofei, but before she could touch his body, she felt a strong repulsive force. Her entire body was pushed away and she hit the stone wall heavily, groaning in pain.

Xia ruofei could not even speak. Although he was worried about Song Wei's condition, he could not even protect himself and could not escape.

There wasn't much genuine Qi left in his dantian. Xia ruofei felt the meridians in his body ache. It was a sign of overusing his genuine Qi.

However, the heavy stone door was still rising slowly. It seemed that it would not be in place for a while.

Xia ruofei could not help but smile bitterly.

Ever since he had obtained the spirit map scroll, everything had been smooth sailing for him. This time, he had entered the ancient tomb a little too rashly. If he still couldn't get out after exhausting his true Qi, he wouldn't be far from death.

Without his protection, Song Wei would never be able to walk out of the underground palace alone. It was his overconfidence that had caused her to be in trouble.

The stone wall continued to absorb the genuine Qi in Xia ruofei's body tirelessly. Even though the genuine Qi had turned from a vast River into a trickle, the suction force did not decrease. Xia ruofei felt as if his soul was about to be sucked out.

His consciousness started to blur, and countless images started to flash through his mind. There were scenes of him serving in lone wolf, as well as the sweet moments he had with Ling Qingxue. There were even images of Lu You, Feng Rao, Song Wei, and the others ...

At this moment, Xia Qing's voice suddenly sounded in Xia ruofei's mind, ""Master! Quickly use the petals of the spirit Heart Flower!"

The voice was like an epiphany that made Xia ruofei regain his senses.

Like a drowning person who had found a life – saving straw, Xia ruofei quickly reacted.

In fact, Xia Qing had been paying attention to the situation outside, but he didn't notice anything unusual at the beginning. After all, the flow of genuine Qi was in Xia ruofei's body, and his divine sense couldn't keep an eye on his master all the time.

It was only when Xia ruofei's body started to tremble that Xia Qing realized something was wrong.

It was already very dangerous. Xia Qing even felt the entire spirit map world begin to tremble.

There was only one possibility for such a situation to occur, and that was that the host's life was in great danger.

Xia Qing then realized that Xia ruofei was already at the end of his rope. He quickly reminded Xia ruofei.

In fact, Xia ruofei had misunderstood the situation. He had never thought of using the petals of the spirit Heart Flower to recover his true Qi.

After he came back to his senses, he quickly used his spiritual will to explore the spirit map space.

At this time, Xia Qing had already opened the box containing the petals of the spirit Heart Flower. At this time, it was too late to use the diluted solution of the petals of the spirit Heart Flower. The only way was to use the whole petal.

After more than a year of accumulation, the number of spirit Heart Flower petals in the box had reached more than a hundred. Xia ruofei did not think too much. With a thought, the invisible spatial force wrapped around the two petals and disappeared from the spirit map space.

This was the first time he had been so extravagant. However, as long as he was alive, there was hope. Even if he had to use up all the hundreds of petals, Xia ruofei would not feel the slightest bit of heartache.

The petals of the spirit Heart Flower appeared in Xia ruofei's palm.

These petals were very strange. As long as they came into contact with a person's skin, they would be rapidly absorbed.

However, it was different this time. As soon as the two petals appeared, the suction force on the stone wall seemed to increase.

The stone wall had actually absorbed a lot of the petals. Xia ruofei felt that he had only absorbed half of it.

After the components of the spirit Heart Flower petals entered his body, the effect was immediate. Xia ruofei immediately felt a dull pain. His nearly dried up meridians were suddenly nourished. All the acupuncture points in his body seemed to start producing true Qi. His empty dantian was also slowly filling up ...

After the stone wall absorbed the petals of the spirit Heart Flower, the speed at which the stone door rose suddenly increased by a large margin.

Although the stone wall was still absorbing Xia ruofei's vital energy, the petals of the spirit Heart Flower were also replenishing it.

Before the effects of the medicine ran out, the "income" and "expenditure" were basically balanced.

Xia ruofei secretly heaved a sigh of relief. It was really dangerous this time!

Without any hesitation, he took out two more spirit Heart Flower petals.

The stone wall also absorbed more than half of the petal. The remaining half of the petal entered Xia ruofei's body to help him recover quickly.

The stone door was still rising with a rumble, at a much faster speed than before.

Finally, the heavy stone door rose to the top, and with the sound of a machine operating, the stone door slowly stopped.

At that moment, Xia ruofei felt the suction force from the stone wall disappear.

He quickly pulled back his hands and leaned against the stone wall, panting heavily.

After he had recovered, Xia ruofei quickly stood up and looked in Song Wei's direction.

?

Chapter 1499: Underground Palace_2

"Song Wei, how are you?" Xia ruofei asked anxiously.

He heard Song Wei's weak voice from his earpiece. "I'm fine ... I just bumped into something and felt my breath hurt ... Ruofei, what happened just now?"

When Xia ruofei thought of what had just happened, he felt a lingering fear.

He pretended to be relaxed and said, "it's nothing. It's all in the past!" Song Wei, the stone door is open, let's get ready to go in!"

"You're really fine?" Song Wei asked with concern, "why do I feel like you're particularly tired?"

"I'm really fine!" Xia ruofei said, "I'm just a little exhausted ..."

Song Wei couldn't understand. Xia ruofei was just standing there with his hands on the stone wall. How did he lose all his energy?

However, there were too many things that she could not understand tonight. For example, the mysterious and terrifying trap and kill array. She vaguely felt that this was a field that she had never understood before. Xia ruofei must know more than she did, so she did not get to the bottom of it and only nodded silently.

Xia ruofei was not stingy with the petals of the spirit Heart Flower. He took out two more petals from the spirit map and placed them in his palm.

With the protective gloves blocking her view, Song Wei naturally couldn't see anything.

The true Qi in his body was recovering rapidly, and his dantian was full of vitality again.

Xia ruofei then took off his backpack and searched inside. He took out a bottle of mineral water and passed it to Song Wei. He smiled and said, "Have some water!"

This was naturally the spirit Heart Flower petal solution that he had taken out from the spirit map space. Furthermore, it was the kind with a rather high concentration.

Xia ruofei was filled with guilt when Song Wei was pushed out by the repulsive force and hit the stone wall so hard.

After the intense scene just now, Song Wei also felt her mouth was dry. She nodded and said, ""Thank you ... It should be fine if I take off my gas mask now, right?"

Xia ruofei immediately took off his gas mask. At the same time, he released his vital energy around the two of them, forming an invisible protective shield.

"It shouldn't be a problem for a short time," he said. "I'm going to take it off for some fresh air!"

Song Wei couldn't wait to take off her gas mask. Girls loved to look pretty. After putting on the gas mask, she looked like a pig's head. If it wasn't necessary, she wouldn't be willing to wear it all the time!

Song Wei gulped down more than half of the bottle of water. The petals of the spirit Heart Flower naturally started to repair the places where she had been injured. Even her exhausted physical strength was slowly recovering.

Song Wei also felt that she had recovered a lot. She tidied her hair and smiled, "Let's go in!"

Xia ruofei glanced at the stone door and nodded. "Good! Be careful and follow me closely!"

Song Wei was a little nervous, but at the same time, she nodded with anticipation, "Understood!"

Earlier on, Song Wei had already noticed the faint light coming from the stone door. However, she had focused all her attention on Xia ruofei. Now that the stone door was completely open, she immediately noticed the faint yellow light coming from the stone door.

The two of them looked in the direction of the stone gate. There seemed to be something vague, but they couldn't see it clearly.

Xia ruofei had used a few petals of the spirit Heart Flower in a row. By now, he had recovered to his peak condition. He did not know if it was because he had overused his true energy just now, but he felt that his cultivation level had improved by a lot. It had not been long since he had broken through to Qi disciple Level 5. Under normal circumstances, he would need at least a few months to make a breakthrough.

However, just now, he had already faintly felt a bottleneck. It seemed that it would only be a matter of time before he broke through to Qi disciple Level 6.

Could it be that the extreme state is beneficial for the growth of cultivation? Xia ruofei said in his heart.

However, Xia ruofei did not want to experience the feeling of almost dying again. It was fine to try it under controlled circumstances.

Xia ruofei released his spiritual power to explore the area in front of him. At the same time, he released his genuine Qi to protect him and Song Wei. The two of them stepped up the steps and walked through the stone door.

After walking in, Xia ruofei realized that it was a six to seven – meter long tunnel. There were oil lamps on both sides of the tunnel, one meter apart from each other. They were giving off a dim yellow light.

"This ..." Xia ruofei and Song Wei were both shocked.

No one knew how long this underground Palace had existed. Even according to the experts' speculations, it was at least a building from the Ming Dynasty. The oil lamps on both sides of the corridor were still lit. Could it be that the lamp oil could not be used up?

And how could there be so many things to burn in this underground Palace?

“This is an eternal flame!” Song Wei said excitedly, “I didn’t expect the eternal flame to really exist!”

According to modern science, the eternal light was actually spontaneously ignited when the later generations opened the tomb, and the tomb would be extinguished due to the lack of oxygen when it was closed. However, the oil lamp in the corridor was obviously not the case.

Xia ruofei looked at the oil lamps and felt a strange feeling.

In fact, this underground Palace was full of strangeness, and he couldn’t help but be more vigilant.

“Let’s go in and take a look!” Xia ruofei said.

He reached out to hold Song Wei’s hand. In fact, Xia ruofei did this subconsciously when he felt danger. However, Song Wei’s heart was beating wildly. She glanced at Xia ruofei quickly but did not withdraw her hand.

?

Chapter 1500: Underground Palace_3

The two of them walked through the tunnel, and soon, they had covered a short distance of six to seven meters. When they got close, they found that the tunnel had turned right here. They did not hesitate and continued to walk along the tunnel.

After turning the corner, the two of them advanced another ten meters. They stopped at the same time, their eyes revealing an extremely shocked expression.

In front of them, to be precise, there was a huge square under their feet. It was as big as two or three football fields. The tunnel stopped here. The square was about ten meters below the tunnel, as if the ground had caved in.

Besides, Xia ruofei also noticed that there were many dark tunnels on the opposite side of the mountain wall. There seemed to be many similar tunnels, all leading to this huge square.

Xia ruofei stood at the entrance of the tunnel and looked up. He couldn’t see how high the ceiling was, but he could vaguely see many bright spots, like stars in the sky, which illuminated the entire square below.

Xia ruofei couldn’t help but click his tongue. The scale of this underground Palace had exceeded his imagination.

Furthermore, he had only descended three to four meters from the ground before reaching the corridor where the trap and kill array was located. Previously, he had been walking on flat ground without any ups and downs. However, the top that he saw now was a conservative estimate of tens of meters away from him.

This was simply too miraculous.

Could it be that we had unknowingly gone deep underground? Xia ruofei had this thought.

The sensing Jade Leaf he kept close to his body was already boiling hot. This meant that the world stone was very close to him.

Xia ruofei did not hesitate and immediately decided to go down to the square.

This tunnel was about 10 meters from the square below. If Xia ruofei was alone, he could easily go down. But if he had to bring Song Wei along, he would have to go through a lot of trouble. He was definitely not at ease leaving Song Wei in this tunnel.

Xia ruofei took off his backpack and placed it on the ground. He searched around and found a military dagger. Without saying a word, he started to dig into the stone wall of the tunnel.

The rock was very hard, but Xia ruofei used his genuine Qi to quickly dig a hole in it.

He continued to dig and soon carved out a hollow part of the stone wall that looked like a doorknob. Then he dug a deep groove under the hollow.

After doing all this, Xia ruofei found another bundle of rope from his backpack. He threaded the rope through the hole and tied a firm climbing knot.

Xia ruofei tried it out and confirmed that the structure could bear the weight of two people.

"Let's go down and take a look!" He said to Song Wei.

Song Wei looked at the 10 – meter drop and a hint of timidity flashed in her eyes. However, she quickly nodded and said, "En!"

Xia ruofei took out a band from his backpack and tied both of their backpacks to the end of the rope. Then, they went down the rope.

He wrapped the bandage around his waist and smiled. "In order to ensure our safety, you have to be tied to me! Don't worry, I'll bring you to a safe landing!"

Song Wei blushed and walked to Xia ruofei. "Tie him up!"

Xia ruofei carefully tied her to himself with a bandage. Their bodies were very close to each other. Her soft and delicate body made Xia ruofei's heart flutter.

He calmed himself down and sat down at the edge of the tunnel with Song Wei. He grabbed the rope and said, "Go!"

Xia ruofei kicked lightly and the two of them were thrown out of the tunnel. Song Wei was so scared that she hugged Xia ruofei's waist tightly and did not even dare to open her eyes.

With the help of the rope, the two of them started to move back and forth. Xia ruofei stepped on the mountain wall skillfully and started to descend rhythmically.

Soon, the two of them stepped on solid ground and arrived at the ground of this huge square.

Song Wei only opened her eyes when Xia ruofei let go of her bandage. She could not care less about her shyness and immediately started to observe the huge square curiously.
