### Chapter 1541: Upgrade threshold\_2

Xia ruofei nodded. He suddenly had an idea and asked, ""By the way, I have a rather large raw stone. I'd like to leave it with you for the time being. Is that alright?"

"It can be done! May I ask which one is it?" The staff member asked.

"Number 1896."

"Alright, please wait a moment!"

The staff member operated the computer and changed the status of the stone from "trade completed, immediate purchase" to "temporary storage". Then, he sent Xia ruofei a storage slip.

She said, "Sir, please keep this list. The public Jade bid will end in three days. We will keep it for you for free for three days. You can pick up the goods with this list at any time during these three days." I need to remind you that we only recognize the receipt, not the person, so you must not lose it. "

"I know, thank you!" Xia ruofei said with a smile.

Yu mingdong still had a few raw stones that the bidding results had not yet come out, so he was not in a hurry to trade. He just waited at the side.

After a while, two staff members pushed a small cart to the information desk. The cart was carrying the seven raw stones that Xia ruofei had his eyes on.

Yu mingdong took a look and saw that they were indeed small raw stones with average appearance. He was even more certain that Xia ruofei did not know how to identify Jade raw materials.

These seven raw stones also cost more than three million Yuan. Yu mingdong estimated that this three million Yuan might have been wasted. If he was lucky, he might be able to get a million Yuan worth of Jade. If he was unlucky, he might have used more than three million Yuan to buy seven pieces of useless stones.

However, since Xia ruofei was in such high spirits, he could not pour cold water on him.

"Sir, these are the seven raw stones that you won the bid for just now. Please check them!" The staff said.

Xia ruofei had already memorized the appearance of the seven raw gemstones clearly. However, he still held each one in his hand and looked at it seriously. He also used the spirit map to verify it.

Although it was unlikely that there would be any tricks in such a big public Jade bid, Xia ruofei was still very cautious.

The spirit painting still had a strong reaction, which meant that the item had not been switched. Xia ruofei nodded in satisfaction and said, ""No problem!"

"There's free equipment for cutting stones next door," the staff said enthusiastically. "You can go there directly."

Xia ruofei said, "I don't plan to unseal these raw stones for the time being. I want to take them away directly. By the way, I saw people from the escort company at the entrance. Can I ask them to help me transport them to the hotel?"

When Yu mingdong heard Xia ruofei say that he didn't plan to cut the raw stone immediately, he was slightly relieved. He was also worried that there would be no green in the raw stone. Qianqian's raw stone No. 1896 was still fine, but he really didn't have high hopes for these black raw stones!

"Yes!" The staff replied. If you need it, I can help you contact them, but you'll have to pay for it yourself.

"Alright, I'll have to trouble you then!" Xia ruofei said with a smile.

Then, he turned to Yu mingdong and said, "Chief Yu, I plan to bring these raw stones to the hotel first! I have a friend in Spring City, he can help me find a way to transport it back to the southeast."

Yu mingdong was also a little surprised. By right, a young master like Xia ruofei would definitely be eager to cut the stone after buying it. He didn't expect Xia ruofei to not only not be in a hurry to cut the stone today, but also to bring it back directly.

Xia ruofei had also guessed Yu mingdong's thoughts. He smiled and explained, "I have a friend in the three mountains who is very interested in the mysterious stone gambling. It just so happens that these raw stones are not big, so I want to bring them back and cut them with her to satisfy her curiosity ..."

Xia ruofei winked at Yu mingdong after he finished.

Yu Ming Dong suddenly came to a realization and said with a smile, "Mr. Xia, you must be a female friend, right?"

Xia ruofei smiled but did not say anything.

Yu mingdong knew what Xia ruofei was thinking. Yingluo just wanted to show off in front of women. A few million to buy a few stones to cut for fun. How domineering! If there was some Jade inside, he could give it to that woman directly and maybe he could get close to her.

This was mainly because Yu mingdong had already assumed that Xia ruofei was the kind of rich young master. That was why he was unknowingly misled by Xia ruofei.

He laughed and said, "I understand!" He understood! Anyway, these raw stones aren't very big. If your friend has connections in Civil Aviation, it'll be very convenient for him to fly back by air!"

Xia ruofei smiled and nodded.

"Mr. Xia," Yu mingdong said, "I've already booked a hotel room for you in advance before you came. I still have to keep an eye on you here, so I won't be going back with you ..."

After he finished speaking, Yu mingdong waved his hand and called Shi Lei over. He said, "Lei Zi, accompany Mr. Xia back to the hotel ..."

Xia ruofei quickly said, "no need, no need. Just give me the room card. Aren't there people from the escort company here?"

Yu mingdong was a little hesitant. The people of the escort company were only responsible for delivering the things to the place. They wouldn't help you guard them all the time. In fact, Ruizhou was quite chaotic. No matter how much the real value of those raw stones was, they still spent more than three million Yuan!

However, on second thought, there should not be an open robbery in a five – Star hotel. Besides, Xia ruofei said that he had contacted his friends in Spring City in advance and they would be here to transport the raw stones very soon. He also needed Shi Lei to follow him. If anything happened, Shi Lei could protect him. So, he agreed with Xia ruofei's suggestion.

Yu mingdong asked Shi Lei to pass the room card to Xia ruofei. The people from the escort company had already arrived at the service desk after receiving the notice.

Five or six escorts, all armed with guns and carrying boxes that looked like money – carrying boxes, quickly packed the seven raw stones.

The distance from here to the hotel was at most three to four kilometers, and the escort fee was 3000 Yuan. Fortunately, the organizer of the public Jade bid collected the fee on his behalf. Otherwise, Xia ruofei would not have so much cash.

After he swiped his card, he said goodbye to Yu mingdong and Shi Lei, and followed the escort out of the public auction site.

Xia ruofei took the escort car of the escort company and arrived at the five states hotel, which Yu mingdong had booked in advance, in less than ten minutes. The journey was calm and there were no accidents.

The escort carried the box and sent Xia ruofei straight to the hotel room. He took the raw stone and left politely.

In just 15 minutes, he had received 3000 Yuan. Xia ruofei couldn't help but sigh. This money was too easy to earn!

After the escort left, Xia ruofei immediately locked the door.

This was a small suite. Other than the bedroom, there was a small living room.

Xia ruofei went straight to the bedroom, locked the door and pulled the curtains. Then, he immediately released his spiritual power to check the entire room.

After confirming that there were no problems, Xia ruofei summoned the spirit map scroll in his palm.

He silently prayed in his heart, then with a thought, he put all seven raw gemstones into the spirit map space.

Although the Jade in the raw stone had not been cut out, it did not affect the absorption of the spirit map space.

“You must level up!” Xia ruofei muttered to himself.

The Jade contained in these seven raw stones was more than all the Jade materials he had absorbed into the spirit map space. In addition, he had absorbed so many realm stones. If he still could not upgrade the spirit map space, Xia ruofei would have to get the largest raw stone back.

He sent his mind into the spirit map space, and the invisible spatial force wrapped around the first raw stone. Soon, the Jade essence inside the raw stone was rapidly absorbed by the space, and in less than a minute, the raw stone was reduced to a pile of powder.

The Jade contained in it had not even had the time to show its peerless beauty to the world before it was completely absorbed.

There was still no reaction from the spirit map space. Xia ruofei’s expression was calm as he continued to aim for the second raw gemstone.

Two, three, four ...

He quickly absorbed the seventh piece, but there was still no movement in the spirit map space.

Just as Xia ruofei’s face showed a trace of disappointment, he suddenly felt the space around him tremble. Xia ruofei’s eyes lit up. He knew that the space was on the verge of upgrading.

At this time, the seventh raw gemstone had not been fully absorbed yet. The spirit map space was still greedily absorbing the Jade essence within the raw gemstone!

Even though it was not a problem to upgrade the space, Xia ruofei did not want to run out of Jade at the last moment. He had to go to the public Jade bid again to bring back the largest raw stone, which would cause a lot of trouble.

Hold on! They must have enough! Xia ruofei shouted in his heart as if the last raw stone could hear him.

?

Chapter 1542: Heart – concentrating grass (1)

The raw stone seemed to have heard Xia ruofei’s thoughts. Although it was riddled with holes under the absorption of the spirit map space, it was still very strong and did not break into pieces.

The spirit map space had already reached the critical point of upgrading, but it was still greedily absorbing the Jade essence in the raw stone.

Through the hole in the raw stone, one could even see a touch of intoxicating green through it.

Out of the seven raw gemstones, this one had the most intense reaction from the painting. Xia ruofei had purposely left it at the end.

Finally, just as the Jade in the rough stone was about to be completely absorbed, the spirit map space began to shake violently. Even Xia ruofei, who was sensing the situation in the space outside, could feel the power of the shaking.

In the mountain and sea realm, the White realm Fox, which had been quietly comprehending the laws of space, finally opened its eyes and looked at the distant spatial membrane.

As the mountain and sea realm trembled, another Earth – shaking transformation occurred, and the dimensional membrane began to expand outward at an incredible rate.

The spirit map space had finally been upgraded again! Xia ruofei heaved a long sigh of relief.

He put the painting in his palm, then went to the bathroom and washed his face with cold water. He then went to the window of the room and lit a cigarette, quietly waiting for the space to upgrade.

About half an hour later, Xia ruofei finally received Xia Qing's notice. The spirit map space's upgrade was completed.

Xia ruofei could not wait to close the curtains. He summoned the spirit map scroll from his palm and entered the medium.

The concentration of spiritual Qi in the space had increased again. Once he entered the space, Xia ruofei felt refreshed. He suspected that if he continued to upgrade, the space might be able to produce spiritual crystals.

Other than that, there were no obvious changes in the Archean realm. Xia ruofei had expected this, and he quickly arrived at the mountain and sea realm.

The most obvious change in the mountain and sea realm was naturally the expansion of the area. Furthermore, it was an expansion that was multiple times larger.

The entire mountain sea realm was already close to 20000 mu in area. This was a vastness that one could not see the end of.

The mountain peaks grew taller, the rivers widened, and the seas expanded ... The entire mountain sea realm was filled with a vibrant vitality.

Xia ruofei had no doubt that if a person lived in such an environment for a long time, their lifespan might be extended by ten to twenty years.

He didn't have the mood to check it carefully at this time. He directly flashed to Xia Qing's side and asked, "Xia Qing, now that the spirit map world has risen two levels in a row, where is the opportunity to cure Song Wei? you can tell me now, right?"

"Master, have you noticed that the mountain sea realm has gained something new?" Xia Qing asked with a smile.

"What's extra?" Xia ruofei was confused. "Didn't the territory get bigger like before?" I don't feel anything extra!"

"Please take a closer look ..." Xia Qing said as she pointed in a direction.

That was the direction of the space ocean.

Xia ruofei looked in the direction that Xia Qing was pointing at and suddenly saw a black silhouette in the spiritual mist.

"That's ..." Xia ruofei asked doubtfully, "a small island?"

Xia Qing nodded with a smile.

Xia ruofei suddenly became alert and asked, "You're saying ... That there's something on the island that can cure Song Wei?"

"Master, why don't you go and take a look first?" Xia Qing said.

Xia ruofei didn't blame Xia Qing for keeping him in suspense. He knew that it might be due to the damn supreme law's restriction. He was in a hurry to save her, so he didn't think about anything else. His figure flashed and disappeared from the spot.

Originally, Xia ruofei was the Supreme ruler of this space. He could appear at any place he wanted to and the rules of space could be fully exerted here.

However, to Xia ruofei's surprise, when he reappeared, he was above the sea and the island was more than a hundred meters away.

Xia Qing's voice rang in his ears, "master, the space within three hundred feet of spirit map Island is sealed. You can't teleport in directly."

"Why didn't you say so earlier ..." Xia ruofei smiled bitterly. "Then how do we get in?"

"You." Xia Qing only said one word.

Xia ruofei was speechless. There was such a weird setting?

He didn't know that this was only because he was the master of the spirit map space. If it was someone else, the space within three hundred feet of the spirit map Island would be completely sealed off. No matter how strong they were, they wouldn't be able to enter.

Xia ruofei did not hesitate. He took out his phone and other items, let them float on the sea, and then fell into the sea.

When Xia ruofei was in the Army, he would participate in the sea training every year. This distance was a piece of cake for him.

Although the waves on the sea were quite big, Xia ruofei was like a Dolphin. He used the standard breaststroke posture and quickly approached the island.

The breaststroke was also the standard swimming style for armed swimming in the Army. Although it was not as fast as freestyle, it was better at hiding.

Although there was no need to hide in the spirit map space, Xia ruofei still chose to do the breaststroke out of habit.

The distance of more than a hundred meters was covered in no time. Xia ruofei felt the soft sand under his feet. He stood up from the water and waded towards the island.

Looking at it from a close distance, the island was full of lush vegetation. On Xia ruofei's side, there was a white beach. In addition, the spiritual Qi in the space was very rich. It was definitely a good place for a vacation.

?

#### Chapter 1543: Heart – concentrating grass (2)

However, Xia ruofei was the only one in the space, so it was a little quieter.

This Island had only appeared after the upgrade, and the space here had been sealed off. Hence, Xia ruofei did not dare to be careless. He walked onto the beach while maintaining a high level of vigilance.

Xia ruofei noticed that the island was covered with common rainforest vegetation. After crossing the beach, he went straight into the forest.

The island wasn't big. Xia ruofei could easily find an unusual place.

About ten to twenty meters into the forest, Xia ruofei saw a man – made garden.

Through the fence, Xia ruofei could clearly see that there were many plants that he could not name. Some of them even had colorful flowers.

"Master, you should have seen the herb garden on spirit map Island, right?" Xia Qing used her divine sense to contact Xia ruofei.

"Mm! This is a medicine garden?" Xia ruofei was a little excited.

To be able to be planted in this herb garden, they should all be very precious spirit herbs, right?

"Yes," Xia Qing said. "Most of the spiritual herbs in the herb garden should not be ripe yet, but one of the heart – concentrating grass should have already matured. Master, you can look for it."

Then, Xia Qing described the appearance of the heart concentrating grass to Xia ruofei in detail and taught him how to pick it.

Xia ruofei strode into the herb garden. There was a semi – Transparent protective barrier around the herb garden, but it did not hinder Xia ruofei, the owner of the space, and he walked in easily.

Xia ruofei walked carefully in the herb garden. He knew that although most of the spiritual herbs were not mature, they must be very valuable. He was afraid of stepping on any of them.

In a short while, Xia ruofei found the heart concentrating grass that Xia Qing had mentioned in a corner of the herb garden.

This heart concentrating grass was as green as a carved jade. There was even a faint light flowing on each leaf. One look and one could tell that it was not ordinary grass.

Xia ruofei paid special attention. The bottom of the heart – concentrating grass was already slightly red. This was what Xia Qing had said earlier, a sign of the heart – concentrating grass ‘maturity.

“Xia Qing, I’ve found it!” Xia ruofei said excitedly, “the heart – concentrating grass has ripened!”

“Master, then just follow what I taught you just now and pick it!” Xia Qing said.

Xia ruofei carefully followed Xia Qing’s instructions. He took out a small knife and gently cut off the leaves of the heart concentrating grass three centimeters above the bottom. Then, he quickly put them into the jade box.

According to Xia Qing, the heart – concentrating grass was a bit like leeks. It would grow again after being harvested, but its growth cycle was much longer than that of leeks, at least more than ten years.

Xia ruofei found it strange too. Since these spiritual herbs took so long to mature, why weren’t they placed in the Archean realm? There was a time formation there, so wouldn’t it greatly shorten the time needed to harvest?

However, Xia ruofei’s main focus was to wake up Song Wei, so he didn’t have the time to ask Xia Qing. He thought that the previous owner of this spirit map space was so powerful, so it should be reasonable for him to arrange this.

After obtaining the heart – concentrating herb, Xia ruofei did not bother to take a closer look at the herb garden and the island. He walked straight out.

He took the jade box containing the heart concentrating grass in his hand and swam out of the range of the space blockade in a rather awkward posture. Then, with a thought, his figure disappeared from the sea and appeared next to Xia Qing in the next moment.

As for his mobile phone and other personal belongings that had been floating on the surface of the sea, they were naturally moved over in an instant.

“I’ve brought the thing, how do we wake Song Wei up?” Xia ruofei asked.

At this moment, he felt that the jade box in his hand was very heavy. This was an opportunity he had obtained after his space had advanced two levels. Moreover, he had also noticed that there was only one mature heart concentrating grass in the entire medicine garden.

Xia Qing hesitated for a moment before she said, “master, this heart – concentrating grass is a precious spiritual herb that is very helpful in nourishing the soul. If a cultivator were to use it, it can greatly improve their spiritual power cultivation ...”

After saying this, Xia Qing looked at Xia ruofei and asked, “Actually ... We can continue to try the spirit nourishment soup. Perhaps it will have an effect after drinking it a few more times? This heart – concentrating grass is really too precious, and it’s also very helpful for master’s cultivation ...”

Xia ruofei waved his hand and interrupted Xia Qing, “Say no more. I have to wake Song Wei up as soon as possible. I’m willing to pay any price. Let’s just use the heart – concentrating grass!”

Xia Qing let out a sigh. He still felt a little regretful.

However, since Xia ruofei was so determined, he would definitely obey his orders.

Therefore, Xia Qing quickly said, "there are many ways to use the heart – concentrating grass. The simplest way is to take it directly. However, I know a way to maximize the medicinal properties of the heart – concentrating grass. However, this requires the cooperation of several other herbs."

"Is there any in the space?" Xia ruofei asked.

"They are all common herbs. They are used as medicine catalysts." Xia Qing said, "the medicinal herbs that master purchased previously can be matched."

"Alright, then I'll leave it to you!" Xia ruofei said and then asked, "Xia Qing, after using the heart concentrating grass, what are the chances of Song Wei's soul recovery?"

Xia Qing smiled bitterly. "Even a rare spirit herb like the heart – concentrating grass is used. Unless the injury to her soul has reached the point where her soul is about to scatter, she will definitely be able to recover. Moreover, it will be very beneficial to her soul ..."

Xia Qing had always felt that it was a pity. At the same time, she also felt that the lady named Song Wei was very lucky. Her master had used the heart concentrating grass on her without hesitation. If she were to walk the path of cultivation in the future, at least she would have an advantage over others in terms of spiritual power.

Xia ruofei replied without hesitation, "Xia Qing, I'll have to trouble you then. Quickly prepare the medicine!"

"Yes, master!" Xia Qing sighed and quickly said.

Xia ruofei thought for a while and said, "then let me know when you're ready!" I'll go out first. "

"Yes, master!" Xia Qing said.

Hence, Xia ruofei went to the stone room to check on Song Wei's condition. Then, he returned to the outside world.

He sat on the sofa in the living room and smoked a cigarette. He heaved a long sigh of relief in his heart. Since Xia Qing said so, it meant that she was still very confident.

As for the precious heart – concentrating grass, Xia ruofei only felt a slight heartache and did not feel that it was a waste.

Just then, Xia ruofei's phone rang.

He picked it up and took a look. It was Yu mingdong.

"President Yu." Xia ruofei answered the call.

"Mr. Xia, have you dealt with those raw stones?" Yu mingdong asked with a smile.

Xia ruofei was stunned for a moment before he reacted. He smiled and said, "I've already given them to my friend ..."

"In that case, would Mr. Xia be interested in coming over?" Yu mingdong asked, "I'm in luck today. I won a few raw stones. I'm going to open them tonight!"

Xia ruofei's heart skipped a beat. He remembered that Yu mingdong had spent more than 20 million to buy the raw stone, which was likely to be a loss.

Then, Xia ruofei remembered that he still had a raw stone that he had spent more than eight million on. Now that the spirit map space had been upgraded, he naturally had no use for that raw stone.

His mind whirled, and then he said with a smile, "Alright! I haven't seen a stone being opened before! It's not a bad idea to come and gain some knowledge!"

"That's good! I'll get Lei Zi to come and pick you up!" Yu mingdong said.

Today, he was lucky enough to win a few raw gemstones that he had high hopes for, so he was in a good mood.

"No need, no need. It's not far from jadeite Street. I'll take a taxi!" Xia ruofei said, "but President Yu, you can open the stone when I'm here! I still have another raw stone that I want to open!"

"No problem!" Yu mingdong promised.

Xia ruofei contacted Xia Qing with his spiritual sense and asked her to keep the medicine after he had made it. He would wait until he returned to the hotel.

Then, Xia ruofei took the deposit slip, went out, took a taxi, and went straight to the jadeite Street.

?

#### Chapter 1544: Cutting the stone on the spot (1)

When Xia ruofei arrived at the public Jade bid again, it was already past nine o'clock at night.

However, the place was brightly lit, and the atmosphere was very lively. There were many people gathered at the stone cutting site that was one wall away from the public square. The roar of the cutting machine never stopped, and there were cries of alarm from time to time.

"Mr. Xia!" Yu mingdong waved at Xia ruofei from afar.

His face was full of smiles, and he seemed to be in a good mood.

"President Yu, it seems like you've gained a lot!" Xia ruofei said with a smile.

"My luck is pretty good!" Yu mingdong said happily, "it's all thanks to old he. He suggested that I raise the bidding price for several raw stones at the last minute. Otherwise, it's really hard to say what the result would be ..."

At the side, He Ping smiled reservedly, but he was also very proud in his heart.

Xia ruofei didn't think much of it. He didn't know the standard of this stone gambling consultant, but he knew that Yu mingdong spent more than 20 million to buy that raw stone. He was most likely going to lose money.

Yu mingdong asked again, "Mr. Xia, don't you still have a raw stone here?" Why don't we just open them together today!"

Xia ruofei smiled and said, "sure!" It's good that you experts are here. When the time comes, we'll need President Yu and elder he's advice!"

"Mr. Xia also hit the bullseye?" He Ping asked, somewhat surprised.

Yu mingdong smiled and said, "Mr. Xia, you're really generous this time!" I won a total of eight pieces!"

He Ping was even more surprised. He couldn't help but take another look at Xia ruofei. However, when he heard Yu mingdong say that seven of the raw stones had only cost him a total of three million, he immediately lost interest.

Yu mingdong felt that there was no possibility of Xia ruofei's seven raw stones increasing in price. However, that No. 1896 stone should be pretty good, so he smiled and said, "Old he, other than the seven Stones, Mr. Xia also won a good raw stone, No. 1896. You should remember it, right?"

He Ping could not help but raise his eyebrows and ask, "Number 1896? What's the final price?"

Xia ruofei smiled. "I invested 8.6 million. I didn't expect to win the bid!"

He Ping couldn't help but take another look at Xia ruofei, and then said indifferently, "It's too expensive ..."

Yu mingdong couldn't help but feel a little embarrassed. He didn't expect He Ping to speak so bluntly, which made him feel a little embarrassed.

Xia ruofei smiled and said, "It's only a few million. It doesn't matter even if I lose money. I felt that the raw stone was very suitable for me the first time I saw it!"

"Yes, yes, yes! It's hard to buy a good heart with money!" Yu mingdong quickly echoed.

He Ping also thought that Xia ruofei was one of those silly rich second generation kids. However, since Xia ruofei and Ma Zhiming were good friends, he didn't make any more sarcastic remarks. He just smiled lightly and didn't say much.

"Mr. Xia," Yu mingdong said, "then you go and take out the raw stone. Let's go and cut the stone together!"

"Alright, please wait a moment!" Xia ruofei said readily.

He went to the public auction site, found an empty Service Desk, and showed the deposit order. Soon, a staff member sent the raw stone over with a small forklift.

When they heard that Xia ruofei was going to cut the stone next door, the staff of the public bid said that they could help Xia ruofei send the raw stone over.

Hence, Xia ruofei followed the forklift and left the public square empty – handed.

The public Jade bid provided free stone cutting equipment, so many people would choose to cut the stones on the spot after winning the bid. If a few raw stones rose in price, it would also be a good publicity for the public Jade bid.

Yu mingdong brought Xia ruofei to the next room. The raw stones that he had bought were already stacked together. There were seven or eight pieces. The biggest one was raw stone No. 633, which he had spent more than 20 million on.

Shi Lei was guarding the raw stones with all his heart. When he saw Xia ruofei and the others, he quickly walked up to them and helped the staff unload Xia ruofei's raw stone.

"Mr. Xia, why don't you ... Open your raw stone first?" Yu mingdong asked with a smile.

Xia ruofei looked at Yu mingdong's pile of raw gemstones. The largest one, raw gemstones No. 633, was naturally the most eye – catching. He pondered for a while and said with a smile, "let's go first, President Yu!" I also want to gain some experience ..."

"Alright!" Yu mingdong said readily. Then I won't be polite!"

He was also somewhat eager to open up his own raw stones. After all, the factory was still waiting for his harvest from the public bid!

Yu mingdong looked at He Ping and said politely, ""Old he, I'll have to trouble you then ..."

He Ping nodded slightly, signaling Shi Lei to move one of the raw gemstones out.

Xia ruofei had been paying attention to the situation over here. He smiled to himself when he saw this. It was just as he had guessed. He Ping had chosen a smaller raw stone.

As the most expensive piece, number 633 should have been reserved for the last.

He Ping took out a strong flashlight and carefully examined the condition of the raw stone. Then, he took out a pen and began to draw lines on the surface of the stone.

It was human nature to watch the fun, not to mention such an exciting stone cutting, so many people saw that the stone was ready to be cut and also came over.

Very quickly, He Ping drew the line. He let Shi Lei and the stone cutter master who was waiting at the side move the raw stone to the cutting machine.

"Let's cut it according to this line. " He Ping pointed at the raw stone and said, "if there's no green, start wiping from the incision ..."

?

Chapter 1545: On – the – spot cutting (2)

“Alright!” The master of cutting stones said with a smile.

The Masters who were invited by the organizer of the public bid were all very experienced. They had cut countless raw jades in their hands, so they were naturally familiar with the operation.

Although the stone – cutting equipment was provided by the organizer for free, the stone – cutting Masters were paid. Compared to the profit of selling raw jade, the labor cost was nothing.

In addition, once the price rose, the owner of the raw stone would definitely give a red packet to the master of cutting stones. So, at the annual public auction, countless Masters of cutting stones would fight to come here to work.

The cutting machine roared. The master’s hand was very steady. In the midst of the flying stone chips, he accurately cut the raw stone along the line that He Ping had drawn.

Without waiting for He Ping to say anything, the stonecutter brought over a wet cloth and wiped away the stone chips from the cut.

Everyone immediately saw a touch of green, and the surrounding people immediately began to discuss.

“It looks like it has increased!”

“This water source is pretty good!”

“Old Yu, what a good start!”

Yu mingdong’s face was also red, and he cupped his hands in thanks.

Xia ruofei took a closer look and realized that after the raw stone was cut in half, one side of the cut had a clear green color, while the other half had almost no green color.

It could be seen that He Ping’s line was quite accurate. Under the premise that he couldn’t detect the internal situation at all, he could do this to this extent purely based on experience. He did have some ability.

He Ping’s face also could not help but reveal a trace of pride.

After that, there was no need for He Ping’s guidance. The stone cutting master naturally knew what to do. Cut, rub, grind ... All kinds of different techniques took turns. In a short while, a piece of Jade the size of two fists was presented in front of everyone.

Yu mingdong took the Imperial Jade happily.

“President Yu, congratulations! This one should have increased by a lot, right?” Xia ruofei asked with a smile.

“The water head is not bad, but the quality is a little bad,” Yu mingdong said happily. “It’s a small profit ...”

At this moment, a jade stone boss who was familiar with Yu mingdong said, “Old Yu, this is a small profit! If I’m not wrong, you spent 800000 Yuan on this raw material! If you don’t like the material, you can transfer two million to me ...”

Yu mingdong held the Jade and said, ""Old Zhu, you're bullying me because I don't know anything. This piece of material was worth at least 2.3 million! Besides, I'm short of materials in my own factory! How could they open it and sell it?"

Xia ruofei was speechless. No wonder so many people were interested in stone gambling. The value of the stone that was bought for 800000 Yuan had tripled in the blink of an eye!

And from Yu mingdong's tone, it was only a small increase.

The first raw stone had already gotten a good start, so Yu mingdong naturally continued to work hard and immediately began to cut the second raw stone.

He Ping received Yu mingdong's pay and did his job well, sparing no effort in the work of technical guidance.

When they heard that the raw gemstones here had increased in price, more and more people gathered to watch.

While everyone was discussing, Xia ruofei just watched quietly from the side. Indeed, he did not have much professional knowledge and could only watch the show.

However, from everyone's discussion, Xia ruofei roughly knew that Yu mingdong had earned a lot today.

He opened three raw gemstones in a row, and all of them rose in value. From everyone's envious looks, Xia ruofei knew that it was rare to see three consecutive increases in value.

It was not until the fourth piece that everyone sighed.

This one had lost.

It was said that the raw stone that was bought for more than 1.2 million only had a few fragments in the end. It was estimated that he could not even earn back a fraction of the money.

However, Yu mingdong didn't care too much. He was already very surprised that the price increased by so many stones. This was how stone gambling was. If every stone increased, who would be willing to sell their raw stones? They should all be opened to sell bright materials.

Moreover, Yu mingdong's greatest hope was still the number 633 raw stone.

He had spent more than 20 million on this raw stone. More than half of the money he had invested this time had been spent on this raw stone. In Yu mingdong's eyes, the first few were just appetizers.

He continued to cut the stone.

Other than number 633, there were four other raw gemstones of different sizes that were quickly cut out.

Two of them had a small increase in value. One of them had completely gone bankrupt and lost 900000 Yuan. The other one had basically made a capital – breaking profit, but the Jade that was taken out could still be processed and made a small profit.

Yu mingdong did a rough calculation. Compared to buying raw materials directly, he had earned three million Yuan from the first eight raw stones. Naturally, he was in a good mood.

Just as Yu mingdong was in high spirits and was about to open the last raw stone, Xia ruofei suddenly said, ""President Yu, I'm getting a little impatient after seeing you open these pieces one by one. Why don't you ... Open mine first?"

Yu mingdong was stunned for a moment, but he still said very readily, ""Alright! No problem!"

Xia ruofei then said to He Ping, "old he, can I trouble you to give me some guidance?" I don't know anything about this ..."

Through the few raw gemstones just now, Xia ruofei had a new understanding of He Ping's ability. In addition, he could only sense the Jade in the raw gemstones through the Spirit map scroll, but he did not know the specific location of the Jade. As for how to cut it, he had no idea at all. He had to rely on the guidance of a professional.

Chapter 1546: Cutting the stone on the spot (3)

He Ping knew that Xia ruofei was with Yu mingdong and was also Ma Zhiming's friend, so he didn't put on airs. He nodded and started to study Xia ruofei's raw stone.

He frowned and thought for a while. Then, he drew a line on the surface of the raw stone and said to the stonecutter, ""Let's cut from here first!"

The stonecutter nodded and directed the forklift to place the raw stone on the cutting machine. He also asked Shi Lei to come over and help adjust the position. After he fixed it, he turned on the cutting machine.

This raw stone was quite famous at the public auction today. Many people had an impression of it and even participated in the bidding. However, Xia ruofei won it in the end.

Therefore, everyone was also in high spirits. After all, compared to this raw stone, Yu mingdong's previous small pieces were not of a high grade.

Xia ruofei stared at the cutting machine intently. He knew that there must be Jade in the raw stone. The reaction from the spirit map space was so strong. The Jade must be of high quality or in large quantities. He couldn't wait to see what was inside the stone.

Amidst the sharp noise, stone chips flew.

Xia ruofei's eyesight was far better than that of ordinary people. While everyone was waiting for the stonecutter to cut the raw stone along the line drawn by He Ping, Xia ruofei sharply noticed a touch of green at the cut.

"Stop!" Xia ruofei called out subconsciously.

Although the scene was very noisy, Xia ruofei's voice contained a trace of vital energy and was clearly transmitted to the stonecutter's ears. He almost subconsciously stabilized his arm, lifted the knife, and turned off the power.

The stonecutter looked at Xia ruofei in confusion.

"Mr. Xia, is there a problem?" He Ping also frowned slightly and asked.

"Old he, I think I see green ..." Xia ruofei said.

He Ping frowned and said, "how's that possible?!" The cut was so small, and stone chips were flying everywhere, so it was impossible to see what was inside! Besides, I've looked at this raw material carefully. If you cut it along the line I just drew, you definitely won't cut the Jade meat!"

The onlookers couldn't help but start discussing.

"This young man is too nervous! How could he see what was going on inside the incision in that situation?"

"Besides, old he personally drew these lines. How could they be inaccurate?"

"I think he's just too eager to raise the price. He's hallucinating. Hahaha ..."

"It looks like a rookie ..."

Xia ruofei did not pay attention to their discussion and only patiently said to He Ping, ""Old he, maybe I was wrong ... But since we've stopped, let's take a look at the condition of the incision first!"

He Ping's face was a little dark as he said sullenly, ""This raw material is yours. You can cut it however you want!"

Xia ruofei smiled and said to the stonecutter, ""Master, can I trouble you to Bring Me Some Water ..."

The stonecutter immediately brought a basin of water to wash away the stone chips and powder from the cut. Then, with a smile, he took out a strong flashlight and shone it into the cut that was less than a centimeter wide.

He also knew He Ping's name. He did not believe that Xia ruofei could see the inside of the incision in that situation, and he did not believe that He Ping would draw the wrong line.

However, the stonecutter only took one look and couldn't help but exclaim in shock ...

?

Chapter 1547: Even the gods can't break an inch of Jade (1)

The master's shout startled everyone at the scene.

Could it really be green? It can't be that weird, right?

This thought had just emerged in He Ping's mind when he heard the master of cutting stones shout, "Green! It's Green!"

Xia ruofei couldn't help but laugh. Who cheated on her? why was she so excited?

He Ping's face was filled with disbelief. He rushed over to the master's side in two steps, took out a strong flashlight, and shone it into the incision.

Then, He Ping was stunned.

The onlookers were getting anxious! They saw that He Ping did not move for a long time and could not help but ask, "Old he, how is it?"

He Ping straightened his body in a daze and muttered, "There's really green ... How is this possible?"

It wasn't the first time he had analyzed this raw stone. Yesterday, he had looked at it with Yu mingdong for a long time during the pre – Exhibition. Just now, he had looked at it carefully again. He was quite confident in his heart before he drew that line.

Who would have thought that this line would be so wrong? if Xia ruofei had not called for it to stop, this knife would have cut a good piece of Jade into two.

No matter what his previous analysis was, this result had completely overturned it.

The moment He Ping's words fell, the surrounding people also couldn't help but stir.

It really turned green! The way everyone looked at Xia ruofei changed. What was with this young man's eyes? He could see it clearly in that situation, could it be a wild guess?

He Ping still found it a little hard to believe. The stonecutter at the side asked awkwardly, "Boss, this raw material ... How do we open it next?"

Xia ruofei said, "I don't know anything about this ... Old he, why don't ... Could you please take a look?"

He Ping couldn't help but raise his eyebrows. Seeing this, Xia ruofei quickly said, "Old he, don't misunderstand! I don't mean anything by that ... I really don't know much about stone gambling. I'll need your help with the next step ..."

Initially, He Ping was too embarrassed to stay any longer. However, he could tell from Xia ruofei's tone that he was not mocking him. In fact, he was rather sincere. Furthermore, he was rather curious about this raw stone, so he nodded shamelessly and started to analyze it seriously.

He Ping mumbled some technical terms that Xia ruofei could not understand. However, he was very sure that there was a valuable Jade inside his raw gemstone. The Xuanji painting had never been wrong.

He Ping analyzed for a long time, but he was still uncertain. In the end, he drew another line and said after hesitating for a moment, "Master, let's start with this position this time!"

Then, He Ping said to Xia ruofei, "Mr. Xia, let me make this clear to you! I'm not very confident this time. If it's really broken ..."

"It doesn't matter!" Xia ruofei smiled and said, "I have good eyesight. If there's really green, I should be able to see it immediately."

He Ping's eyelids twitched, but he didn't say anything more.

The stone cutter naturally did not have any objections. He quickly adjusted the angle according to the line drawn by He Ping, then turned on the power of the cutting machine and started to cut from another position.

Everyone perked up and wanted to see if old he, who always had sharp eyes – would make another mistake. Xia ruofei also stared at the raw stone under the cutting machine seriously, hoping that if he Ping made a wrong judgment, it would be his Jade that was cut – it would be money!

This time, there was no accident. Stone chips flew in the air, and the raw stone was cut into two halves, one big and one small. There was no green at the cut.

"Old he is still as sharp as ever!"

"That was probably an accident. This is old he's standard!"

Everyone was also discussing animatedly. He Ping's expression also finally looked much better.

After that, He Ping became more confident. He judged that there was no Jade in the small half, so he asked the stonecutter to start polishing the big half of the raw stone. At the same time, he also drew a few reference lines.

The master also quickly changed the grinding wheel and cut the big half of the raw stone according to He Ping's instructions.

However, Xia ruofei's heart skipped a beat. Intentionally or otherwise, he moved closer to take a look. When no one was paying attention, he casually reached out and touched the other half of the raw stone. His eyes flashed with a sharp light.

However, Xia ruofei did not say anything. He just stood aside and watched the stonecutter quietly.

The raw stone gradually shrank under the skillful operation of the stonecutter, and a large amount of worthless Stone Skin was cut off.

"Green! It's Green!"

"Quick, take a look at the planting water."

The onlookers all cried out in excitement.

Xia ruofei also looked over. The stonecutter turned off the cutting machine, found a basin of water to wash the cut, and then wiped it clean with a wet cloth.

He Ping had already walked up to check at the first moment. The corners of his mouth curled up into a slight arc as he turned his head and said, "It's a glutinous type with an average water head. If it's 8.6 million, it should be a gambled loss ..."

When he Ping said this, everyone sighed. At the same time, many people looked at Xia ruofei with gloating eyes.

They could tell that Xia ruofei was just a rich young master who did not know anything about stone gambling. If the price rose, he would be extremely lucky. It was normal to lose.

Especially since many people hated the rich. Seeing that Xia ruofei had lost a few million at once, they couldn't help but feel happy.

?

Chapter 1548: Even the gods can't break an inch of Jade (2)

Yu mingdong looked at Xia ruofei and consoled him, "Mr. Xia, there's no guarantee of winning in stone gambling. In fact, I've already cut out a good Jade, so I don't think I'll lose much money ..."

Before Xia ruofei could say anything, a middle-aged man with a big belly looked at the half-Bright material seriously and raised his head to say to Xia ruofei, "Little brother, how about you give me this piece of material? I'll take the 3.5 million, and you'll also lose less ..."

"I'm sorry, but I don't plan to do anything for now," Xia ruofei said with a faint smile.

Yu mingdong also glared at the middle-aged fatty and said, "Old Luo, Mr. Xia is my friend, and you dare to take advantage of him? Even if this material is a bit broken from the gamble, it shouldn't be worth only 3.5 million!"

He Ping, who was at the side, said indifferently, "Actually, President Luo's price is quite fair ..."

Xia ruofei couldn't help but squint his eyes and look at He Ping. What did this old man mean? Which side was he from?

He Ping, however, ignored Xia ruofei's gaze and said, "President Yu, I didn't think much of this material yesterday. I said that the starting price of five million was a little too high and the risk was too high. Now, my judgment has been confirmed."

Yu mingdong frowned slightly and said, "Old he, even so, 3.5 million is ..."

He Ping pouted and said, "This piece of Jade doesn't have good penetration. If we continue to cut it, the quality of the Jade will be even worse. There might even be cracks. By then, it might not even be worth two million, let alone 3.5 million ..."

Seeing He Ping belittle this material like this, Xia ruofei was also quite unhappy. He said indifferently, "It doesn't matter if it's 3.5 million or 2 million, so what if it's worthless? It was only a few million Yuan! Master, continue driving!"

He Ping snorted lightly and stood to the side without saying anything.

Boss Luo, who wanted to take advantage of the situation, also smiled and said, "Little brother, why do you have to fight for money? I'm helping you share the risk and reduce your losses!"

Xia ruofei was very confident. Even if this piece of material was really worthless, he didn't care at all. So, he just smiled faintly and ignored boss Luo. He signaled the stonemason to continue opening.

Everyone thought that Xia ruofei was young and aggressive. In addition to He Ping's judgment, a few people who wanted to raise the price to compete with boss Luo also gave up and made up their minds to watch the show.

Yu mingdong lost his confidence after hearing He Ping's words. He wanted to advise Xia ruofei, but seeing how determined Xia ruofei was, he could only sigh and continue to watch from the sidelines.

The stonecutter rubbed his hands and continued to cut the stone.

This piece of material was already half – Open, so he did not need He Ping's guidance. He directly used the grinding machine to start grinding bit by bit. This kind of work was completely familiarized with it. He had already done it for more than 20 years, so it was not difficult at all.

After a while, a complete piece of Jade was peeled off.

After washing it with water, everyone's eyes naturally fell on this piece of Imperial Jade.

Yu mingdong stepped forward first, picked up the Jade material, and looked at it over and over again.

Then, he turned to Xia ruofei. "Mr. Xia, the situation is not bad. The waxy Jade has a good water source. It should be worth four to five million Yuan ..."

The possibility that He Ping had mentioned did not happen, but there was no miracle either. The final result was also considered to be calm.

He Ping said coldly from the side, "our luck is not bad. However, we only lost a little less. This kind of material costs more than eight million. Only a newbie would have the guts to buy it ..."

Xia ruofei couldn't help but roll his eyes. He didn't know what was wrong with this old man today. He didn't seem to have offended him! How could he be so sarcastic?

Yu mingdong was also a smart person. He definitely didn't want to offend Xia ruofei, but He Ping was also a very capable stone gambling consultant. This time, he had helped him successfully win a lot of raw stones. In the future, he might need his help, so he couldn't offend him.

Therefore, Yu mingdong simply changed the topic and said, "Mr. Xia, our factory can use this material. How about I buy it for five million?"

He was trying to reduce Xia ruofei's loss. If it was another Jade merchant who bought it, they might only be able to pay 4.5 million Yuan. However, his own factory needed all kinds of Jade raw materials. Moreover, the skills of the Masters in his factory were quite good. Even if he bought it for 5 million Yuan, he would still make a profit. At the same time, he could do Xia ruofei a favor. It was killing two birds with one stone.

Xia ruofei's spatial space had already been upgraded. If he continued to use emeralds to upgrade it, it would become a bottomless pit. For the time being, he still hoped to find more world stones.

After all, it wasn't very reliable to level up by only relying on Jade.

In addition, even if he really needed to upgrade with Jade in the future, he could participate in other public Jade auctions and use the sensing ability of the spirit map scroll to buy raw stones. As long as he didn't open them on the spot and ate them in a nice way, it wouldn't be easy to arouse suspicion.

Since this piece had already been opened, selling it was a good choice.

Hence, Xia ruofei did not hesitate. He smiled and nodded. "Sure! If President Yu wants it, then you can have it ..."

Boss Luo and the others were also prepared to bid. Of course, they could not possibly offer such a high price of five million Yuan. They just wanted to take advantage of the situation.

However, this Jade was already a clear material, and there was also Yu mingdong who knew the industry. In addition, Yu mingdong directly offered a price of five million, so they naturally gave up.

"Alright, alright, alright. I'll keep this piece of material for now!" Yu mingdong said happily, "I'll transfer the money to you later!"

Xia ruofei nodded slightly. Yu mingdong immediately signaled for Shi Lei to come over and keep the Jade.

At this time, He Ping said coldly from the side, "President Yu, you're really a good person!"

Yu mingdong smiled awkwardly. He felt that it was inappropriate to say anything, so he simply didn't say anything.

Naturally, Xia ruofei was even more disgusted. He couldn't help but say, "Old Mister he, are you so sure that you've lost this raw stone?"

He Ping froze for a moment, then shrugged and said with a smile, "Isn't it obvious?"

Everyone also felt that it was a little funny. This was already a clear material, wasn't it clear at a glance whether the bet would rise or fall?

This young man couldn't be muddled from anger, right?

Xia ruofei smiled and said, "obviously?" I don't think this piece of material has been completely cut open?"

With that, Xia ruofei pointed at the other small half of the raw stone and looked at He Ping.

Everyone immediately roared with laughter. He Ping also could not help but reveal a mocking smile and said, "You're not hoping that there's still Jade inside, are you?"

"Little brother, you're taking this for granted!"

"You're too naive! That's just a piece of trash!"

Even the stonecutter couldn't help but laugh and said, ""Boss, there's no Jade in this half! I've been in this business for more than 20 years. Although I'm not as good as those stone – gambling consultants, I can see that it's just a piece of leftover material ..."

Xia ruofei said indifferently, "are you all so sure?" As the saying goes, 'even the gods can't see through an inch of Jade'. Maybe I'll be lucky enough to get the king's Green in the other half!"

He Ping couldn't help but burst out laughing. "Emperor green? As long as there's Jade in it, even if it's bean – Type, I'll eat it on the spot, let alone the king's Green!"

"Why should I let you eat my Jade?" Xia ruofei blinked and said innocently, "did you ask for my opinion?"

Instead of getting angry, He Ping laughed and said, "I can't be bothered to get tangled up with you!" If you want to play, then play! I'd like to see what kind of flowers can bloom from this piece of trash!"

Xia ruofei shrugged his shoulders and walked straight to the half of the raw stone. He said to the stonecutter, ""Master, I'll cut this material myself. Please lend me the grinder!"

?

Chapter 1549: Top – grade purple jade (1)

"This ..." The master stonecutter was in a difficult position.

How could he not see that this rich second – generation heir in front of him didn't know how to gamble on stones at all? how could he know how to cut stones? What's more, this kind of young master who couldn't distinguish between four bodies and five grains definitely didn't work normally. If he was hurt by the grinder, it would be hard for him to explain!

Xia ruofei guessed the master's thoughts and smiled. ""Master, just lend it to me. If anything happens, I won't blame you! Don't worry, there are so many people watching!"

Yu mingdong, who was at the side, saw that Xia ruofei had been forced into a corner by He Ping and actually wanted to cut that piece of waste personally. He was also very anxious.

If Xia ruofei were to fly into a rage out of embarrassment after this piece of waste was cut open, it would be even more difficult for him to explain to Ma Zhiming!

Yu mingdong also blamed He Ping in his heart. He felt that this old man's skill in stone gambling was not bad, but his temper was too strange. There was no way to get along with him.

Yu mingdong hesitated for a moment before he stepped forward and said, ""Mr. Xia, why don't we just forget about it ... That piece of material ..."

"President Yu, do you also think that this piece of material won't have Jade?" Xia ruofei asked with a smile.

“That’s not it ...” Yu mingdong quickly denied and continued,”but ... There are many people here waiting to cut the stone! We’ve taken up a lot of time, why don’t ... You take this piece of material back and we’ll find a place to cut it later?”

Yu mingdong was certain that there was no Jade in that half of the material. He said that to give Xia ruofei a way out. According to common sense, Xia ruofei just had to go with the flow. Although everyone knew what was going on, at least it was still acceptable for his face.

He didn’t expect Xia ruofei to ignore him. Xia ruofei smiled and said,””There’s always a first come, first served basis! I haven’t finished using it yet! I think everyone can still wait, right?”

The onlookers didn’t mind making a big deal out of it. When they heard Xia ruofei’s words, they naturally echoed loudly.

Boss Luo also laughed and said,””Little brother, you’re right. We’re not in a hurry. You can take your time! We’re just waiting to witness the rise of this half of the material!”

The onlookers also burst into laughter.

Yu mingdong’s face darkened. He knew that with everyone’s booing, Xia ruofei was in a difficult position.

Xia ruofei did not seem to hear their sarcasm. He cupped his hands in greeting and smiled.””Then, thank you for your understanding!”

After that, he said to the stonecutter,””Master, please give me the grinding machine!”

Seeing this, the stonecutter simply followed Xia ruofei. He nodded at him and passed the grinding machine to Xia ruofei.

“These grinding wheels have just been changed. You can use them directly!” The master said.

“Thank you!” Xia ruofei said gently.

He turned on the power and felt the grinding wheel in his hand tremble. With a loud sizzling sound, the grinding wheel started to spin rapidly.

Xia ruofei stepped on the half of the raw stone with one foot and put the grinding machine close to the surface of the raw stone. Suddenly, a sharp friction sound was heard. A large amount of stone chips were lifted up, and the scene was filled with dust.

He Ping saw that Xia ruofei was actually going to cut open that half of the waste and couldn’t help but sneer.

In his opinion, there was no need to be so careful. He could just use a cutting machine to cut this half of the raw stone. No matter how he cut it, it was impossible to cut out Jade.

He Ping felt that Xia ruofei was just wasting his time.

However, this half of the raw stone was not big. Even if he used a grinder to grind it, it would not take much time, so He Ping was too lazy to say so much. He crossed his arms in front of his chest and waited for a good show with a mocking expression.

Yu mingdong was complaining in his heart. He could only watch Xia ruofei Polish the raw stone seriously. He could not think of any way or reason to stop this farce.

The onlookers did not care about the progress of the stone. They were all laughing as they watched Xia ruofei embarrass himself, especially boss Luo. He was discussing loudly with the people he was familiar with, not caring if Xia ruofei could hear him.

The stonecutter carefully stood behind Xia ruofei. He didn't care what kind of stone could be cut out from this. He was worried that if Xia ruofei's hand slipped and he really got hurt, he wouldn't be able to answer to Xia ruofei even if he had said it before.

However, after looking at it for a while, the stonecutter was relieved.

Although Xia ruofei looked fair and tender, his hands were very steady. He held the grinder and focused on grinding. He looked like a proper person and did not look like a newbie at all.

In fact, Xia ruofei did not have any experience in cutting stones. He could not tell what was inside this half of the raw stone and could not draw lines like he Ping. That was why he chose to use the grinder to Polish it bit by bit.

With Xia ruofei's cultivation and strong spiritual power, even if he was a newbie at stone gambling, he was confident that he could stop in time when the Jade appeared and not hurt it at all.

Of course, all of this was based on the premise that there was Jade in the small half of the raw stone.

There was no doubt about this.

This was because Xia ruofei had already sensed it through the Spirit map scroll. When he touched this small piece of raw stone, the reaction from the spirit map scroll was very strong.

?

Chapter 1550: Top – grade purple jade (2)

In other words, Xia ruofei already knew that there might not be any Jade in the raw stone He Ping picked out. Perhaps the Jade inside was very ordinary, which was proven by the facts.

Xia ruofei was very clear that the real essence of this raw stone that he had spent 8.6 million on was in the other half of the material that He Ping had abandoned.

Xia ruofei didn't care about everyone's mockery or He Ping's mocking gaze. He was very focused on grinding away the stone Skin with the hand grinder.

Everyone was waiting to see Xia ruofei make a fool of himself.

Time slowly passed, and he Ping said a little impatiently, ""I think you might as well go straight to the cutting machine! How long are you going to grind like this?"

Xia ruofei stared at the raw gemstone and asked without looking up, ""Did I ask you to wait?"

"You ..." He Ping was so angry that he blew his beard and glared. He snorted coldly and said, "I'd like to see how long you can hang on! You really won't give up until you've reached the Yellow River!"

Xia ruofei pursed his lips and ignored the old man. He continued to Polish his sword slowly.

Just as everyone was feeling drowsy, the sharp sound of grinding wheels suddenly stopped.

"Eh?" Fatty Luo looked over. "Little brother, you've finally given up?"

"I should have given up long ago. It's meaningless!"

"Why do you have to make things difficult for yourself!"

.....

Xia ruofei did not care about their sneers. He went to the side and fetched a basin of water to wash the cut surface that he had just polished.

Then, he looked up and grinned at Yu mingdong, ""President Yu, I think I saw some Jade meat. Come over and help me take a look. I really don't know about these things!"

"Mr. Xia, there are wins and losses in stone gambling. There's no need to be too concerned about ... What!" Yu mingdong only reacted halfway through his sentence. "There's green? This ... How is this possible?"

"Did I see it wrong?"

"Little brother, Are you sure?"

The onlookers also asked one after another.

Xia ruofei didn't care about this group of bored people. He directly said to Yu mingdong, who had already walked over, ""President Yu, come and take a look. I trust your judgment!"

Yu mingdong walked closer, reached out, and wiped the cut. He leaned closer to take a closer look.

Yu mingdong's eyes were about to fall out. He was dumbfounded and only said after a long while, ""This ... This ..."

He Ping said impatiently, "chief Yu, what did you see?" Why are you so scared? Don't tell me you really believed his words?"

"It rose! It's increased!" Yu mingdong's voice trembled as he shouted, "it's rising!"

He Ping's entire body trembled, and he took two steps forward. Without caring about his image, he laid on the raw stone and looked at it for a long time. His face also turned red and white.

At this time, the onlookers had also guessed what had happened, but they didn't know what it was that could scare Yu mingdong and he Ping like this.

"President Yu, is there really Jade?"

"What kind? How's the water source?"

“Old he, tell everyone!”

Yu mingdong looked at Xia ruofei as if he was a monster and said, “It’s the rare Violet Jade! It’s at least an ice – Type, maybe even a glass – Type!”

A single stone caused a thousand ripples. The onlookers gasped in surprise and looked at Xia ruofei with envy.

Yu mingdong also felt like he was dreaming. Just this small window alone was worth more than 8.6 million. It could be said that Xia ruofei’s raw stone was definitely worth more than that.

Yu mingdong thought it was unbelievable. Xia ruofei knew nothing about stone gambling, and even an expert like he Ping had come to a conclusion. He Ping’s judgment was basically confirmed when he cut the stone, so how could the other half of the “waste” have such a heaven – defying top – Level Jade?

If Xia ruofei had not been angry, no one would have even looked at this piece of trash. It might have even become a stone for the table ...

Thinking of this, Yu mingdong couldn’t help but marvel at Xia ruofei’s heaven – defying luck.

He Ping’s face alternated between red and white, and he still stubbornly said, “Only a small window has been opened. We don’t know what’s going on inside yet! Maybe there’s very little Jade meat ...”

After everyone heard He Ping’s words, they no longer had the sense of authority they had before. Most of these people were Jade merchants, and they all looked at Xia ruofei with burning eyes.

“Little brother, do you want to sell this material?”

“I’ll pay 9 million! Little brother, please sell it to me!”

“9.5 million, I’m taking it!”

.....

These people seemed to have forgotten how they had mocked Xia ruofei just now. Now, they were all trying to get close to Xia ruofei. Even fatty Luo, who had ridiculed Xia ruofei the most, was smiling like Maitreya.

Boss Luo said, “little brother, don’t continue to open this material. What if it collapses again?” Let’s be friends. I’ll take the 10 million!”

Xia ruofei glanced at the Jade merchants indifferently, then turned his gaze to Yu mingdong and asked, “What do you think, President Yu?”

Yu mingdong smiled bitterly and said, “Mr. Xia, I can’t give you any advice on this. If we continue to open it, it may rise sharply, but it may also collapse. If we cash it out now, it’s safe, but we may lose some money ...”

Xia ruofei snapped his fingers and said, “Then let’s continue! Anyway, the experts have already said that this is a piece of trash. If it collapses, so be it! I’ll just treat it as trash!”

When Xia ruofei spoke, he looked at He Ping with a smile that was not a smile. He Ping's expression was as ugly as it could be. He wanted to leave, but he still held a glimmer of hope. If Xia ruofei continued to cut the stones and eventually collapsed, he could at least save some face.

Seeing Xia ruofei's firm attitude, everyone sighed and knew that it was impossible for them to pick up the treasure.

Of course, none of them left.

After all, this kind of rare high – Quality Jade was not easy to come across. Everyone was in this line of work, so they naturally wanted to see it.

In addition, even if it turned out to be a good material, they still had a chance to buy it! The competition might be a little intense, but once they bought it, it would be very beneficial to their respective Jade processing factories.

Xia ruofei politely declined master Xie Shi's help. He personally picked up the hand grinding machine, turned it on again, and continued to grind the raw stone.

Everyone knew that Xia ruofei was a newbie and was afraid that he would slip and wear off the Jade. However, they soon realized that their worries were unnecessary.

Xia ruofei's hand was terrifyingly steady. The Jade inside the raw stone was definitely irregular, but he could steadily grind off the stone Skin without damaging the Jade at all. He could even ingeniously use the angle of the grinding wheel to remove the stone Skin from the irregular parts.

It looked like a butcher dismembering an ox, with an inexplicable sense of beauty.

Everyone was secretly amazed.

As the stone – cutting process continued, He Ping's heart started to sink. It seemed like it was impossible to lose the bet now. Just the part that had been cut out so far was worth at least 20 million Yuan. There was still a small part of the raw stone wrapped in the stone Skin. Who knew how much Jade was still inside ...

He Ping also cursed in his heart, this kid is really lucky!

Xia ruofei's heart was as calm as water as he focused on cutting the stone. The onlookers did not even dare to breathe loudly as they watched a rare purple jade slowly appear ...

Finally, Xia ruofei turned off the hand grinding machine.

Everyone gathered around eagerly, and the stonecutter eagerly brought over a basin of water.

Xia ruofei placed the purple jade into a basin of water. After washing off the stone chips on the surface, the Jade revealed its true appearance.

Everyone could not help but gasp.

Presented in front of everyone was a piece of Violet Jade. Purple jade was rare to begin with, and the rich color of this purple jade could be said to be rare in the world. When the Jade was placed in a basin, it was as if the water in the basin had turned into an intoxicating purple.

There were also beautiful floating flowers inside the Jade. The unique natural floating flowers seemed to form a scroll.

In addition, most of this piece of Jade had a strong penetration ability and looked watery. Most of the people present were insiders, and they could almost determine the quality of this Jade at a glance.

There was no doubt that this was a top – grade Violet Jade of the glass type!
